¹ The chemistry department offers General Chemistry each summer. In this case, the combination of CHE 136 / CHE 137 and CHE 138 / CHE 139 may substitute for the three-quarter sequences above.

² The chemistry department offers Organic Chemistry each summer. In this case, the combination of CHE 236/CHE 237 and CHE 238/CHE 239 may substitute for the three-quarter sequences above.

³ The physics department offers General Physics each summer. In this case, the combination of PHY 155 and PHY 156 may substitute for the three-quarter sequence above.

The Pre-Podiatry Preparation course listing constitutes a recommended plan. It is only presented as a recommendation, because some

professional schools' particular program prerequisites vary, sometimes significantly from one to another, depending upon the program and school of pursuit. Ultimately, students will be advised to follow the specific prerequisites for the particular schools' programs to which they plan to apply.
