This course is designed to help students to see that the field of English Studies is bigger than the component they probably identify as English (its Literature, Writing, and Linguistics/Grammar). Students will explore the formation of the discipline up to the current day, focusing on the shifting understanding of ways of reading, writing and thinking about language. They will strive to answer the questions: What does it mean to be a student of language and literature? and, What are the ways of knowing writing, literature, and language? In doing so, students will relate their disciplinary content to their daily lives and interests and to the larger framework of human endeavor and understanding, including identifying its importance to the personal lives of high school students.

(SEC 364 or TCH 302), Junior status, and an Education major or minor are prerequisites for this class.
SEC 321 | INQUIRY & APPLICATION IN DEVELOPING SECONDARY
ENGLISH PEDAGOGY | 4 quarter hours
(Undergraduate)
This course builds on SEC 311 by preparing teacher candidates to
distinguish between what needs to be taught (content) and how it is
taught (pedagogy), with an emphasis on understanding the historical
shifts in the teaching of content and how these shifts inform teaching
and learning in today’s English language arts classrooms. The course
also introduces students to methods of inquiry and reflection on content
pedagogical knowledge. Student will examine their own educational
experience through the lens of the historical trends, focusing on how
they learned and what they understood their teachers to be doing. This
initial case study will serve as an introduction into case study methods.
Students will also develop expertise in one of the three historical trend
areas -reading, writing, and language - and examine how the trend has
informed teaching and learning and shaped curriculum, pedagogy,
and assessment. Students will develop a case study of a practicing
teacher using the lens of the historical trend in which they are developing
expertise. 25 Level 1 Field Experience hours.
(SEC 364 and SEC 311), or (TCH 302 and TCH 311) and Junior status, and
an Education major or minor are prerequisites for this class.

SEC 322 | INQUIRY & APPLICATION IN DEVELOPING SECONDARY
HISTORY AND SOCIAL SCIENCES PEDAGOGY | 4 quarter hours
(Undergraduate)
This course builds on the content knowledge students developed
and reinforced in SEC 312. More, it asks them to make the shift from
considering how a person prepared in the social sciences analyzes
social phenomena to how such a person teaches the social sciences.
Students will do this by developing two units of inquiry-based case
studies that they could use in their own classrooms. The topics of these
case studies will vary from section to section, depending on the needs of
the students and expertise of the instructor. Possible topics include the
Constitution, the Cold War, slavery, and the Iraq War. As students work on
these projects, they will continue to reflect on the course work they have
done in the content areas as well as the instruction they see teachers
derivering in their field experiences. They will contemplate such questions as:
"What are the connections between the social science disciplines?
How can they be taught together, creating interdisciplinary courses at the
high school level? What are the differences between the social science
disciplines and what does this mean for secondary pedagogy? How can
teachers use inquiry with their students, making sure they have enough
guidance to learn about social events but also the freedom to pursue
their interests and make sense of the world on their own terms?" By the
end of this course, students through readings and their projects will have
advanced their learning about the nature of inquiry, its implementation in
the classroom, and the connections and differences between the social
science disciplines. 25 Level 1 Field Experience hours.
(SEC 364 and SEC 312) or (TCH 302 and TCH 312), and Junior status, and
an Education major or minor are prerequisites for this class.

SEC 323 | INQUIRY & APPLICATION IN DEVELOPING SECONDARY
MATHEMATICS PEDAGOGY | 4 quarter hours
(Undergraduate)
This course builds on SEC 313 by introducing students to inquiry
methods to understand the teaching and learning of mathematics.
Students will explore how mathematics has been and is taught by
examining major paradigm shifts in mathematics education and the
impact those paradigms and shifts have on pedagogical content
knowledge, or knowledge of how to teach disciplinary content. Students
will use case study methods to look at instructional practices and
begin to articulate their own mathematics teaching pedagogy. With the
completion of this course, students will have a deeper understanding of
mathematical literacy and the barriers to understanding and teaching
mathematics, as well as being able to identify what makes an exceptional
math teacher who is able to address the needs of all students. 25 Level 1
Field Experience hours.
(SEC 364 and SEC 313) or (TCH 302 and TCH 313), and Junior status, and
an Education major or minor are prerequisites for this class.

SEC 324 | INQUIRY & APPLICATION IN DEVELOPING SECONDARY
SCIENCE PEDAGOGY | 4 quarter hours
(Undergraduate)
Following SEC 314, this course transitions from asking “what does a
scientist do?” to a consideration of why science literacy in the general
public has been so difficult to achieve. The focusing questions for
SEC 324 are: “How do we teach science? What is science literacy?
Why is an understanding of science important to the general public?
and What are the major obstacles and strategies to achieving science
literacy?” The course begins by participants self-reflecting on their own
educational experiences that led to their paths in science education:
what have been their successful learning strategies, how have teachers
influenced their education and what have been successful (and less
than successful) classroom instructional strategies? From this, students
will begin science classroom observation, discussing their observations
with their peers, and speaking with educators about their experiences
teaching high school science and about the goals and short-comings of
science education. Throughout this process, students will read seminal
literature on science literacy and explore cases challenging their notions
of the teacher-learner relationship and the relationship between science
and society. As a result of this course, students will gain a deeper
understanding of scientific literacy and the barriers to understanding and
teaching science as well as identify what makes an exceptional science
teacher able to prepare both future scientists and a knowledgeable
public. 25 Level 1 Field Experience hours.
(SEC 364 and SEC 314) or (TCH 302 and TCH 314), Junior status, and
an Education major or minor are prerequisites for this class.
SEC 325 | LITERACY IN THE CONTENT AREAS | 4 quarter hours
(Undergraduate)
The course explores the interrelationships between reading, writing, and other forms of communication (e.g., classroom talk, technology, visual arts) that are available to content area middle-level and high-school teachers. There will be an emphasis on the interrelationship of all aspects of language, oral and written, that result in literacy as a meaning-making tool in the construction of content-area knowledge. Students will become acquainted with theoretical issues as well as a wide range of literacy-teaching strategies including reading, writing, research, and study skills to be tailored to the needs of different students and to be applied across a variety of learning situations and text types. 30 Level 2 Field Experience hours.

Senior status and (SEC 371 or TCH 371) or (SEC 372 or TCH 372) or (SEC 373 or TCH 373) or (SEC 374 or TCH 374) or status as a music education student is a prerequisite for this class. Exercise Science (BS) students are restricted from taking this class.

SEC 326 | TEACHING WRITING | 4 quarter hours
(Undergraduate)
This course prepares teacher candidates for teaching writing and composition at the middle and secondary school levels. The course focuses upon methods of teaching composition, examination of literature and research about the composing process, the development of language and reading skills, and the assessment and evaluation of writing. The development of writing curriculums will also be explored. 30 Level 2 Field Experience hours.

SEC 364 and Education major or minor are prerequisites for this class.

SEC 328 | TEACHING LITERATURE | 4 quarter hours
(Undergraduate)
This course prepares teacher candidates for teaching literature at the middle and secondary school levels. Examines contemporary issues in the teaching of literature, explores methods of teaching major literary genres, addresses problems of literacy and focuses on the transactional nature of reading and writing. Emphasis on developing a repertoire of ways of teaching literature and a variety of literature curriculums. SEC 364 and Education major or minor are prerequisites for this class.

SEC 329 | TEACHING YOUNG ADULTS LITURATURE | 4 quarter hours
(Undergraduate)
This course is devoted to the study of Young Adult Literature: an exciting, emerging genre of literature. Issues and ideas to be examined include the following: current debates regarding issues in curriculum and teaching; selecting, reading, evaluating, and teaching young adult literature; cultivation of life-long reading habits and literacy development. Students will become familiar with major writers of young adult literature, read diverse texts, explore major genres, review award winning novels, consider the role of the media, and develop creative projects. 20 Level 2 Field Experience hours.

SEC 364 and Education major or minor are prerequisites for this class.

SEC 339 | TEACHING SCIENCE IN THE SECONDARY SCHOOL | 4 quarter hours
(Undergraduate)
This course prepares teacher-candidates for teaching science in the middle school and high school. This involves reviewing the processes of science, theories of learning, and instructional strategies appropriate to laboratory science. This course also provides an update on the current trends and issues in science education as well as an analysis of successful science curricula programs. 30 Level 2 Field Experience hours.

SEC 364 and Education major or minor are prerequisites for this class.

SEC 363 | ORIENTATION TO SECONDARY TEACHING AS A PROFESSION | 6 quarter hours
(Undergraduate)
(6 credits) In this process-oriented course, students engage in critical reflection on the roles and expectations of secondary educators from both institutional and community perspectives. Questions considered will include: what is an educator, what is a professional, what are the attributes of effective teachers, what do effective teachers do? Students will examine their own values and begin to develop their own philosophies about education and teaching. 30 Level 1 Field Experience hours at arranged sites. (6 credit hours)

SEC 364 | METHODS: CURRICULUM AND INSTRUCTION IN SECONDARY SCHOOLS | 4 quarter hours
(Undergraduate)
(4 credits) This course will examine materials, methods, and techniques appropriate for teaching in secondary schools. Topics include: educational goals; the development of a rationale and underlying assumptions; instructional goals and objectives; learning objectives; both cognitive and affective; classroom environment; classroom management principles and techniques; multicultural materials in various content areas; the development of appropriate methods and materials; current curriculum issues and controversies. 30 Level 1 Field Experience hours at arranged sites. Junior standing is a prerequisite for this class.

SEC 371 | TEACHING ENGLISH IN THE HIGH SCHOOL 1 | 4 quarter hours
(Undergraduate)
This course introduces students to the theoretical and practical issues of teaching the English language arts in secondary classrooms. The course introduces candidates to research-based and theoretically grounded best practices in the teaching of reading, writing, speaking, and listening skills and sensibilities. Students will practice and reflect on writing instructional objectives, developing lesson plans, designing a curriculum unit, creating a classroom environment, and implementing instructional delivery strategies and methods, including the use of technology resources, that meet the needs of diverse learners, including English language learners and students who speak nonmainstream dialects of English. Students will reflect on their own emerging educational philosophies and theories. They will also demonstrate commitment to teaching as a professional who acts responsibly, ethically, and collegially in accordance to Vincentian personalism. 30 Level 2 Field Experience hours required.

SEC 364, SEC 311, SEC 321, Junior status, and an Education major or minor are prerequisites for this class.
SEC 372 | TEACHING HISTORY AND THE SOCIAL SCIENCES IN THE HIGH SCHOOL 1 | 4 quarter hours (Undergraduate)
This course introduces students to the theoretical and practical issues of teaching history and the social sciences in secondary classrooms. The course introduces candidates to research-based and theoretically grounded best practices in the teaching of the basic concepts of the seven social science disciplines. Students will practice and reflect on writing instructional objectives, developing lesson plans, designing a curriculum unit, creating a classroom environment, and implementing instructional delivery strategies and methods, including the use of technology resources, that meet the needs of diverse learners, including English language learners and students who speak nonmainstream dialects of English. Students will reflect on their own emerging educational philosophies and theories. They will also demonstrate commitment to teaching as a professional who acts responsibly, ethically, and collegially in accordance to Vincentian personalism. 30 Level 2 Field Experience hours required.
SEC 364, SEC 311, SEC 322, Junior status, and an Education major or minor are prerequisites for this class.

SEC 373 | TEACHING MATHEMATICS IN THE HIGH SCHOOL 1 | 4 quarter hours (Undergraduate)
This course introduces students to the theoretical and practical issues of teaching mathematics in secondary classrooms. The course introduces candidates to research-based and theoretically grounded best practices in the teaching of mathematics in all its representations. Students will practice and reflect on writing instructional objectives, developing lesson plans, designing a curriculum unit, creating a classroom environment, and implementing instructional delivery strategies and methods, including the use of technology resources, that meet the needs of diverse learners, including English language learners and students who speak nonmainstream dialects of English. Students will reflect on their own emerging educational philosophies and theories. They will also demonstrate commitment to teaching as a professional who acts responsibly, ethically, and collegially in accordance to Vincentian personalism. 30 Level 2 Field Experience hours required.
SEC 364, SEC 311, SEC 323, Junior status, and an Education major or minor are prerequisites for this class.

SEC 374 | TEACHING THE SCIENCES IN THE HIGH SCHOOL 1 | 4 quarter hours (Undergraduate)
This course introduces students to the theoretical and practical issues of teaching the sciences in secondary classrooms. The course introduces candidates to research-based and theoretically grounded best practices in the teaching of the different sciences, including biology, chemistry, environmental science, and physics. Students will practice and reflect on writing instructional objectives, developing lesson plans, designing a curriculum unit, creating a classroom environment, and implementing instructional delivery strategies and methods, including the use of technology resources, that meet the needs of diverse learners, including English language learners and students who speak nonmainstream dialects of English. Students will reflect on their own emerging educational philosophies and theories. They will also demonstrate commitment to teaching as a professional who acts responsibly, ethically, and collegially in accordance to Vincentian personalism. 30 Level 2 Field Experience hours required.
SEC 364, SEC 311, SEC 324, Junior status, and an Education major or minor are prerequisites for this class.

SEC 381 | TEACHING ENGLISH IN THE HIGH SCHOOL 2 | 4 quarter hours (Undergraduate)
This course continues students’ immersion into the pedagogical content knowledge development and practices that began in SEC 321 and SEC 371. The course provides students opportunities to continue to explore and develop research-based and theoretically grounded best practices in the teaching of reading, writing, speaking, and listening skills and sensibilities, with an emphasis on reflective and collaborative practice. The course provides extensive opportunities for planning, using, and evaluating a variety of instructional strategies, including the use of technology resources, through teaching demonstrations and modeling and field experiences. Students will fine-tune and reflect on writing instructional objectives, developing lesson plans, designing a curriculum unit, creating a classroom environment, and implementing instructional delivery strategies and methods that meet the needs of diverse learners, including English language learners and students who speak nonmainstream dialects of English. And like in SEC 371, students will reflect on and clearly articulate orally, in writing, and through practice an educational philosophy and theory. Students will also demonstrate commitment to teaching as a professional who acts responsibly, ethically, and collegially in accordance to Vincentian personalism. 30 Level 2 Field Experience hours required. COREQUISITE(S): Taken in conjunction with SCU 351. (SEC 371 or TCH 371) is a prerequisite for this course. This class is taken concurrently with TCH 380.

SEC 382 | TEACHING HISTORY AND THE SOCIAL SCIENCES IN THE HIGH SCHOOL 2 | 4 quarter hours (Undergraduate)
This course continues students’ immersion into the pedagogical content knowledge development and practices that began in SEC 322 and SEC 372. The course provides students opportunities to continue to explore and develop research-based and theoretically grounded best practices in the teaching of the basic concepts of the seven social science disciplines with an emphasis on reflective and collaborative practice. The course provides extensive opportunities for planning, using, and evaluating a variety of instructional strategies, including the use of technology resources, through teaching demonstrations and modeling and field experiences. Students will fine-tune and reflect on writing instructional objectives, developing lesson plans, designing a curriculum unit, creating a classroom environment, and implementing instructional delivery strategies and methods that meet the needs of diverse learners, including English language learners and students who speak nonmainstream dialects of English. And like in SEC 372, students will reflect on and clearly articulate orally, in writing, and through practice an educational philosophy and theory. Students will also demonstrate commitment to teaching as a professional who acts responsibly, ethically, and collegially in accordance to Vincentian personalism. 30 Level 2 Field Experience hours required. COREQUISITE(S): Taken in conjunction with SCU 351. SEC 371 is a prerequisite for this course. This class is taken concurrently with SEC 381.

SEC 383 | TEACHING ENGLISH IN THE HIGH SCHOOL 3 | 4 quarter hours (Undergraduate)
This course continues students’ immersion into the pedagogical content knowledge development and practices that began in SEC 323 and SEC 372. The course provides students opportunities to continue to explore and develop research-based and theoretically grounded best practices in the teaching of reading, writing, speaking, and listening skills and sensibilities, with an emphasis on reflective and collaborative practice. The course provides extensive opportunities for planning, using, and evaluating a variety of instructional strategies, including the use of technology resources, through teaching demonstrations and modeling and field experiences. Students will fine-tune and reflect on writing instructional objectives, developing lesson plans, designing a curriculum unit, creating a classroom environment, and implementing instructional delivery strategies and methods that meet the needs of diverse learners, including English language learners and students who speak nonmainstream dialects of English. And like in SEC 372, students will reflect on and clearly articulate orally, in writing, and through practice an educational philosophy and theory. Students will also demonstrate commitment to teaching as a professional who acts responsibly, ethically, and collegially in accordance to Vincentian personalism. 30 Level 2 Field Experience hours required. COREQUISITE(S): Taken in conjunction with SCU 351. SEC 372 is a prerequisite for this course. This class is taken concurrently with SEC 383.
SEC 383 | TEACHING MATHEMATICS IN THE HIGH SCHOOL 2 | 4 quarter hours  
(Undergraduate)  
This course continues students' immersion into the pedagogical content knowledge development and practices that began in SEC 323 and SEC 373. The course provides students opportunities to continue to explore and develop research-based and theoretically grounded best practices in the teaching of mathematics in all its representations with an emphasis on reflective and collaborative practice. The course provides extensive opportunities for planning, using, and evaluating a variety of instructional strategies, including the use of technology resources, through teaching demonstrations and modeling and field experiences. Students will fine-tune and reflect on writing instructional objectives, developing lesson plans, designing a curriculum unit, creating a classroom environment, and implementing instructional delivery strategies and methods that meet the needs of diverse learners, including English language learners and students who speak nonmainstream dialects of English. And like in SEC 373, students will reflect on and clearly articulate orally, in writing, and through practice an educational philosophy and theory. Students will also demonstrate commitment to teaching as a professional who acts responsibly, ethically, and collegially in accordance to Vincentian personalism. 30 Level 2 Field Experience hours required. COREQUISITE(S): Taken in conjunction with SCU 351.  
SEC 373 is a prerequisite for this course. This class is taken concurrently with SCU 351.

SEC 384 | CAPSTONE IN SECONDARY EDUCATION | 4 quarter hours  
(Undergraduate)  
The senior capstone course is designed to help students integrate the central emphases of their liberal learning studies curriculum into their professional behavior. It will provide prospective secondary educators with opportunities to engage in activities requiring them to reflect, to consider value commitments, to use critical and creative thinking, and to examine their practice from a multicultural perspective as they discuss issues specific early to secondary education. The course is grounded in the College of Education's framework for an Urban Professional Multicultural Educator, which also reflects the goals of the Liberal Studies program. COREQUISITE(S): SEC 390.

SEC 385 | TEACHING THE SCIENCES IN THE HIGH SCHOOL 2 | 4 quarter hours  
(Undergraduate)  
This course continues students' immersion into the pedagogical content knowledge development and practices that began in SEC 324 and SEC 374. The course provides students opportunities to continue to explore and develop research-based and theoretically grounded best practices in the teaching of the different sciences, including biology, chemistry, environmental science, and physics with an emphasis on reflective and collaborative practice. The course provides extensive opportunities for planning, using, and evaluating a variety of instructional strategies, including the use of technology resources, through teaching demonstrations and modeling and field experiences. Students will fine-tune and reflect on writing instructional objectives, developing lesson plans, designing a curriculum unit, creating a classroom environment, and implementing instructional delivery strategies and methods that meet the needs of diverse learners, including English language learners and students who speak nonmainstream dialects of English. And like in SEC 374, students will reflect on and clearly articulate orally, in writing, and through practice an educational philosophy and theory. Students will also demonstrate commitment to teaching as a professional who acts responsibly, ethically, and collegially in accordance to Vincentian personalism. 30 Level 2 Field Experience hours required. COREQUISITE(S): Taken in conjunction with SCU 351.  
SEC 374 is a prerequisite for this course. This class is taken concurrently with SCU 351.

SEC 390 | SECONDARY STUDENT TEACHING | 10 quarter hours  
(Undergraduate)  
(10 credits) Five school days a week in supervised teaching in a cooperating school for a full academic quarter. Feedback and discussion of problems encountered in student teaching as well as new materials and techniques of student teaching. Application and approval required. Open only to DePaul students. (10 hours)

SEC 395 | ASSESSMENT ISSUES IN SECONDARY EDUCATION | 4 quarter hours  
(Undergraduate)  
This course introduces candidates to theoretical and philosophical issues related to educational assessment. It addresses the range of assessments teachers will encounter in school settings, including individual cognitive and social and emotional assessments; course material, curricula, and disciplinary program assessments; and large scale high-stakes testing. The course provides candidates opportunities to explore student, program, and curricular assessment issues, including assessment methods and tools; standardized, quantitative, and qualitative assessments; formal and informal assessments; formative and summative assessments; integrated, self-, and peer assessments; cultural, social, economic, and language influences on assessments; and issues of reliability and validity in assessment. COREQUISITE(S): Taken in conjunction with SEC 371/SEC 372/SEC 373/ SEC 374 OR SEC 381/SEC 382/SEC 383/SEC 384.  
Exercise Science (BS) students are restricted from taking this class. This class is taken concurrently with (SEC 371 or SEC 372 or SEC 373 or SEC 374) or (SEC 381 or SEC 382 or SEC 383 or SEC 384).

SEC 399 | INDEPENDENT STUDY IN SECONDARY EDUCATION | 1-4 quarter hours  
(Undergraduate)  
Permission of instructor, program chair and Associate Dean are required. (1 credit hour)
