

# ACCOUNTANCY (MSACC) ONLINE

## Program Description

The nationally ranked Master of Science (MS) in Accountancy is intended for students who do not have an undergraduate accounting degree and wish to pursue a career in accountancy. Through the program's challenging and integrated sequence of courses, students become proficient in topics that are relevant to the work of a professional accountant. Students also gain a solid understanding of other business disciplines and their relationship to accounting issues. To learn more and apply, please visit the department's website. (<https://msaonline.depaul.edu/>)

## Program Features

**Faculty expertise and experience.** Bringing both theory and practice into the classroom, DePaul's accountancy faculty includes distinguished scholars and professionals who have served as internal auditors, team managers, chief financial officers, controllers and partners in accounting firms.

**Location.** DePaul's location in the heart of Chicago's financial and business community gives students access to employers at top companies, including international accounting and consulting firms.

**Strong alumni network.** The alumni of DePaul's graduate and undergraduate accounting programs form one of the largest accounting and tax networks in the Chicago area, providing unparalleled access to career opportunities and networking.

**Online learning.** The program can be completed entirely online, a benefit for students who seek a flexible schedule or do not live in the area. The online option provides full access to the MS in Accountancy's comprehensive curriculum through video lectures and course materials presented in a convenient, supportive and engaging online format.

Program Requirements	Quarter Hours
Accounting Course Requirements	48
<b>Total hours required</b>	<b>48</b>
