ADULT-GERONTOLOGICAL NURSE PRACTITIONER CERTIFICATE ONLINE

The certificate option will allow for licensed registered nurses holding a graduate degree to complete the coursework necessary to sit for certification as a nurse practitioner. Upon completion of the program, graduates are eligible to take certification exams provided by either the American Nurse Credentialing Center (ANCC) or the American Academy of Nurse Practitioners Certification Program (AANPCP). Those seeking certification in the population specific options offered by the School are able to take an exam through either certifying body.

The population targeted by the program consists of graduates of the entry to practice program at DePaul University as well as other programs in the State of Illinois and other selected states. Additionally, this program allows any registered nurse with a graduate degree to pursue nurse practitioner training. Alumni have often communicated the desire for nurse practitioner training without immediately pursing the doctorate. This certificate offering will provide that training, allowing experienced nurses to practice at an advanced level prior to completing the terminal degree.

Course	Title	Quarter Hours
NSG 428	PATHOPHYSIOLOGY FOR ADVANCED PRACTICE	4
