

EDUCATING ADULTS TRACK, APPLIED PROFESSIONAL STUDIES ONLINE (MA)

The Educating Adults track is designed for students working in diverse settings who are involved in the process and practice of adults' learning. Grounded in current research and best practices in adult education and learning theory, the Educating Adults track is made up of a set of core courses and learning activities to be applied in the students' own workplace/practice setting. Participants in this track deepen their knowledge and skills in the areas of assessment, design, facilitation, evaluation, and applied research to improve their repertoire of core and cutting-edge knowledge and skill as educators of adults.
