

BIOCHEMISTRY (BS) + CHEMISTRY (MS)

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates.

These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Students planning to integrate a BS and MS degree program at DePaul University should inquire of the Director of Graduate Studies as undergraduate juniors. Students who have applied and are accepted into this program take a maximum of twelve graduate credit hours as three courses in their senior year; these graduate courses apply toward both undergraduate and graduate Chemistry requirements.
