

COMMUNITY DEVELOPMENT CERTIFICATE

PSY 569	SEMINAR IN PROGRAM EVALUATION
SOC 423	URBAN ETHNOGRAPHY

This inter-disciplinary certificate program offers skills in organization planning, leadership development, and program evaluation. The program allows established and emerging professionals to broaden their perspective on urban development programs in an inter-disciplinary learning environment by including knowledge from psychology, public service, sociology, geography and liberal studies.

Students must successfully complete a minimum of 16-quarter hours of graduate credit. Each course carries four-quarter hours. **No more than two courses earned toward the certificate shall come from one department.** Please note that the list of courses is subject to change.
