

ECONOMICS AND QUANTITATIVE ANALYSIS (MS), COMBINED BACHELOR'S + MASTER'S DEGREE

The combined DePaul Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Economics and Quantitative Analysis (MS)

The MS in Economics and Quantitative Analysis gives students a distinguished and marketable set of skills in economic theory as it applies to business and policy analysis. Students learn how to conduct statistical and econometric research grounded in sound economic models using data from multiple sources on different issues. In addition, students will be able to explain their results and policy recommendations not only to economists, but also to politicians and the general public.
