

ENERGY POLICY AND MANAGEMENT GRADUATE CERTIFICATE

Energy policy and energy management are critical issues facing our world. Questions of energy production, consumption, pollution, and energy costs at local, state, national and international scales, are addressed in the graduate Certificate in Energy Policy and Management which requires 12 credit hours (3 courses). The Certificate is available to students in any DePaul graduate degree program and to non-degree-seeking students. Students in graduate programs can complete the Certificate as part of their elective requirements, complementing their degree without any impact to time of degree completion, costs, or number of courses.
