

# GRAPHIC DESIGN (BFA)

Graphic design integrates a range of media and technologies—from web, interaction, and coding to typography, illustration, branding, and packaging—to communicate to diverse audiences. Students engage with both theory and practice, and develop skills to research, concept, prototype, design and document their work.

<sup>1</sup> Students must earn a C- or better in this course.

<sup>2</sup> Readiness for MAT 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to MAT 120. Students who complete MAT 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Learning Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the Scientific Inquiry Learning Domain. The MAT 120 requirement may be waived by passing a dedicated proficiency exam or it may be fulfilled by credit for advanced math coursework earned in-residence at DePaul (MAT 135, MAT 136, MAT 147, MAT 148, MAT 149, MAT 150, MAT 151, MAT 152 M or equivalent) or earned externally either as transfer credit from another college/university or as test credit through AP, CLEP, IB, or International A and A/S Level exams. Calculus course(s) may be used to fulfill any of the three QR/MCD requirements.

<sup>3</sup> GD 380 recommended.

## Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.
