

# COMMUNITY HEALTH PRACTICE CONCENTRATION, PUBLIC HEALTH (MPH)

---

The community health practice concentration prepares students to be leaders, innovators, and advocates in addressing community health problems and reducing health disparities. This concentration applies an interdisciplinary approach to problem solving and focuses on skill development around community health assessment, program design, and program evaluation. Students learn to appraise community health needs and design, implement, and evaluate interventions to address those needs. The objective is to provide students with the professional knowledge and practical skills to become effective public health leaders.

## Required Community Health Concentration Courses

Course	Title	Quarter Hours
MPH 512	RESEARCH METHODS	4
