Changes to Policy

Changes to Policy

Students have the right to have access to information regarding academic policies and other University policies, including the policies in this Code of Student Responsibility. Students are advised to read the Academic Student Handbook (https://catalog.depaul.edu/student-handbooks/) and any associated references, and all other policies, including those available on the University Policies and Procedures website (http://policies.depaul.edu/policy/browse.aspx), carefully.

The University reserves the right to change policies or procedures at any time and according to established procedures, provided such changes are updated as appropriate, including for example on the University Policies and Procedures website, (http://policies.depaul.edu/policy/browse.aspx) or in the online Academic Student Handbook or any associated references.
