

# STANDARD FOR HEARING DETERMINATIONS

---

All determinations as to whether a student is or is not in violation of a policy will be based on the standard of "whether it is more likely than not" that the student is in violation of the policy at issue.

A finding of "IN VIOLATION" means that, based on the information available at the time, it is more likely than not that the student is in violation of the policy at issue. A finding of "NOT IN VIOLATION" means that, based on the information available at the time, it is more likely than not that the student is not in violation of the policy at issue.
