

SUPPLEMENTAL INSTRUCTION

Co-Curricular Learning Outcomes

As a result of participating in **Supplemental Instruction** program-areas, students will be able to:

- Apply information learned to in-session practice problems.
- Apply study strategies that are provided by the Supplemental Instruction Leader in their academic courses.

As a result of employment within **Supplemental Instruction**, student employees will be able to:

- Apply pedagogical knowledge in order to facilitate discipline-specific learning.
- Demonstrate effective communication skills across online and in-person mediums both verbally and in writing.
