DePaul University, founded on Judeo-Christian principles, continues to assert the relevance of these principles through higher education to our students. The University expresses these principles especially by passing on the heritage of St. Vincent DePaul: individual perfection manifested through purposeful involvement with other persons, communities and institutions. The School of Education manifests these principles in its purpose, and through its programs.

As an urban institution, the School of Education is committed to improving primary and secondary education in the metropolitan area and, in particular, in the city of Chicago. Framed within a commitment to promote and support diversity, the School of Education prepares all of its students to be "Urban Professional Multicultural Educators" who:

- ∨ Promote positive transformation
- ∨ Consider multiple perspectives
- ∨ Integrate inquiry, theory, and practice
- ∨ Exhibit Vincentian personalism
- ∨ Function as life long learners.

Department of Teacher Education - Lincoln Park

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Professional Development Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

The Department of Teacher Education at the Lincoln Park Campus offers the following undergraduate programs:

- ~ Bachelor of Science in Early Childhood Education
- ~ Bachelor of Science in Elementary Education
- ~ Bachelor of Science in Physical Education
- ~ Bachelor of Arts in Secondary Education: English, Geography, History, Mathematics, Modern Languages, Social Science, and Visual Arts.
- ~ Bachelor of Science in Secondary Education: Biology, Chemistry, Mathematics, and Physics.

Admission to the University

Candidates interested in admission to the School should direct all inquiries to the Office of Admission, DePaul University, 1 East Jackson Boulevard, Chicago, Illinois 60604. Telephone (312) 362-8300; e-mail admitdpu@depaul.edu. The Office of Admission will provide each candidate with the required forms and instructions for filing the application. A nonrefundable application fee of \$25.00 is required of each applicant. For further information on the regulations and procedures governing admission, consult the Handbook for Undergraduate Studies at the end of this Bulletin.

School of Education - Undergraduate Studies □ General Information □ School of Education Departments □ Admission to the School of Education/Professional Education Unit

Admission to the School of Education/Professional Education Unit

Students who have been admitted to the University may declare an education major and are admitted as pre-education students. Those who meet additional requirements are eligible to apply for full admission to one of the Teacher Education programs. A separate application process is required. Additional requirements include:

- ~ Have a 2.5 grade point average in 28-32 credit hours of college work
- ~ Pass the Illinois Basic Skills Test
- ~ Pass the SOE basic computer competency assessment (SCU 025 registration required)
- ~ Pass ISP 120 (Quantitative Reasoning) or document the math/science exemption
- ~ Submit three satisfactory evaluations of the student's content area knowledge
- ~ Submit one satisfactory evaluation of the student's skills and attitudes in working with children and youth.

There is no time limit to meet the criteria for full admission to one of the teacher preparation programs; however, students may take only a limited number of pre-education classes until they have done so. Students may continue to take Liberal Studies courses. These criteria apply to all new School of Education undergraduate students whether they begin as first year, transfer, re-admitted or inter-college transfer students. Music Education majors should consult the School of Music for requirements.

Students who already hold a Bachelors Degree from an accredited institution and wish to meet teacher certification requirements should contact the School of Education at (773) 325-4409 to inquire about options at the graduate level.

School of Education - Undergraduate Studies □ General Information □ School of Education Departments □ Academic Advisors

Academic Advisors

The School of Education provides academic advisors who are responsible for the initial advising of all new undergraduate students. New students should meet with an advisor to plan their academic program, since requirements for certification are complex. It is the responsibility of the academic advisor to assist students with the planning and selection of courses in order to ensure academic progress toward graduation and certification in a timely fashion. It is the responsibility of all

students to familiarize themselves with all program requirements, keep track of their progress, and meet application deadlines. Advisors serve as a referral to other student affairs offices within the university. For students rights and responsibilities concerning advising, visit <http://sr.depaul.edu/statement.shtml> . To schedule an appointment with an advisor, call (773) 325-4409.

School of Education General Program Requirements

LIBERAL STUDIES PROGRAM REQUIREMENTS

The students course of study in the Liberal Studies Program is part of the undergraduate program devoted exclusively to liberal education. Students must take a set of Liberal Studies Core courses as well as courses in six Liberal Studies Domains. The program seeks to balance and, when necessary, augment the students course of study in the major field. All students in the School of Education are required to complete 76-80 quarter hours of liberal studies course work. Except for LSE 380, education students may not take education courses to fulfill liberal studies requirements. For more information concerning the purpose and curriculum of the Liberal Studies Program consult the Liberal Studies section of the course catalog. Only designated courses may be taken for Liberal Studies credit. Log on to Campus Connection and use the Liberal Studies drop-down box when selecting courses for the Learning Domains. The student should be certain to consult an advisor if there are any questions about how to select courses in the Learning Domains. Academic advisement is an integral part of the Liberal Studies Program and necessary to the integration of the program with the requirements of the students major field. The number and distribution of the required Liberal Studies course work is incorporated below under Professional Education Program Requirements.

Modern Language Option Within the Liberal Studies Program

Students who wish to study a modern language, either for their own interest or for the requirements of their major field, may be able to substitute a three-course sequence in a modern language for two courses in two different domains except Scientific Inquiry. Interested students should contact an advisor for information concerning the regulations and procedures governing the exercise of the option. Courses will be applied in consultation with a School of Education advisor.

COMPETENCE IN MODERN LANGUAGE REQUIREMENT

Students who intend to graduate with the Bachelor of Arts degree will be required to demonstrate competence in a modern language. Such competence may be demonstrated in one of several ways: by successful completion of two years of high school course work in a modern language, by achieving a score of 3 or higher on the Advanced Placement test, by a satisfactory score as determined by the Modern Language Department on the CLEP examination, or by taking appropriate course work. Note that CLEP scores may be used only to meet the language requirement. Credit is not awarded in modern languages on the basis of CLEP scores. Students who are required to do course work must demonstrate modern language competence equivalent to a complete introductory sequence (101-102-103). Students with some modern language training should consult with the Modern Language Department about the course with which they should begin. Students with little or no previous work in the language will be required to complete the entire three-course introductory sequence. B.A. students who meet this requirement and wish to pursue further work in the language may elect the Modern Language Option of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the Modern Language Option is available to them for language study at any level.

Field and Clinical Experience Requirements

Each teacher preparation program requires field experiences and student teaching.

Field Experiences

Each student seeking certification from the School of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences comprise a minimum of 100 clock hours, and must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences *must* be completed prior to final approval for student teaching or internship. Students register for the appropriate field experience course(s) (SCU 095, or ECE 091, 092, 093, 094) only once.

Student Teaching

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:

- ~ Completion of all Liberal Studies, Allied Field, and ECE and EE concentration course requirements
- ~ Completion of all education and content area courses with a grade of C- or better
- ~ Cumulative G.P.A. of 2.75 or better
- ~ Meet all other program requirements (e.g., modern language and residency requirements)
- ~ Meet designated program standards
- ~ Pass the relevant Illinois content area (subject matter) test

Clinical Requirements:

- ~ Completion of all required field experiences
- ~ Three satisfactory evaluations in field experiences
- ~ Three satisfactory faculty recommendations
- ~ Attendance at mandatory meeting for student teaching
- ~ Application for student teaching (check deadlines)
- ~ Review and approval by Student Teaching Committee of the School of Education.

School of Education - Undergraduate Studies □ Program Requirements □ Other Program Requirements □ Certification Requirements

Certification Requirements

In addition to the requirements described above, the state of Illinois places additional requirements on students seeking certification. All certification and endorsement requirements are subject to change based on Illinois State Board of Education modifications in requirements.

State Tests

The Illinois State Board of Education requires that a candidate for certification pass three tests:

- ~ Test of Basic Skills
- ~ Test of Content Area Knowledge
- ~ Assessment of Professional Teaching

Passing the Basic Skills Test is also a requirement for admission into the School of Education.

Passing the Content Area Knowledge Test is also a requirement for admission into student teaching.

Passing the Assessment of Professional Teaching is required for state certification.

Application for Certification

School of Education programs lead to state teacher certification. However, certification is not automatic upon completion of a program. In addition to meeting all program requirements and passing all required state tests, the student must apply for certification. Forms and procedural information are available in the School of Education Office.

Application for Degree Conferral

SOE programs lead to degree conferral. However, degree conferral is not automatic upon completion of a program.

Students must apply for degree conferral. Deadlines and applications are available in the School of Education Student Affairs Office.

Middle School Endorsement Requirements

According to State of Illinois certification guidelines, both Elementary and Secondary education students who wish to teach in a departmentalized middle school setting (grades 5-8) must meet three criteria:

✓ Complete at least 18 semester hours in a content area that is taught in middle grades. All secondary education majors have at least one content area based on their secondary education requirements. Most elementary education majors will have at least one content area based on their concentration requirements. We strongly recommend that you speak with your advisor about possible endorsement areas at your initial advising appointment.

✓ Complete at least 3 semester hours in middle school methodology. All students have met this requirement through the DePaul education courses. No additional course work is needed to meet this requirement.

✓ Complete a course in middle school philosophy and/or psychology. This course, SCG 339, Philosophy & Psychology of Middle Level Education, is an option in the curriculum. If SCG 339 is selected, it should be completed prior to student teaching.

Middle school endorsements are only applicable to Elementary and Secondary Education students. Early Childhood majors are not eligible to teach in the middle grades. Students who do not choose to earn a middle school endorsement will generally be restricted in the grade levels they can teach. Elementary education majors will normally be eligible to teach in K to 4 only; Secondary education majors will be eligible to teach in grades 9 to 12 only. After completion of the program and after applying for the Type 10 certificate, PE students may wish to request an endorsement evaluation directly from ISBE.

School of Education - Undergraduate Studies □ Program Requirements □ Other Program Requirements □ Special Courses and Course Sequences

Special Courses and Course Sequences

The School of Education offers the following planned sequences of courses for undergraduates: Coaching, Physical Education, and Health Education. For students interested in pursuing general studies in education, courses are offered in Liberal Studies in Education exploring such relationships as social justice and education, education in literature, and the politics of education. All students are invited to enroll in these Liberal Studies in Education courses.

Undergraduate students who have completed all the necessary course requirements for the bachelors degree may enroll for courses at the graduate level. To enroll in graduate courses, undergraduate students must have the written permission of the Department Chair.

School of Education - Undergraduate Studies □ Program Requirements □ Other Program Requirements □ Teaching Certification for College Graduates

Teaching Certification for College Graduates

The School of Education offers an opportunity for graduates of accredited colleges and universities to prepare for a career in teaching in early childhood, elementary, and secondary education. Students may pursue certification through the graduate program which combines certification with a Masters degree in Education. Successful completion leads to a teaching certificate for the State of Illinois in the area of the students specialization.

All candidates in these graduate level programs must have completed an academic program that parallels the liberal studies program at DePaul University. Candidates for the secondary education program must also have completed an academic program that parallels the DePaul teacher education program requirements in their selected area of content for teaching (English, History, Mathematics, etc.). No student will be permitted to student teach until all general education, content area, and professional education courses are completed. In addition, the Illinois State Board of Education requires certification candidates pass a test of basic skills, a test of content area knowledge, and an assessment of professional teaching.
