Liberal Studies General Information

Liberal Studies and Honors Programs for Undergraduates ▢ Liberal Studies General Information

Purpose

The Liberal Studies Program (LSP) is the common curriculum taken by all students enrolled in the traditional undergraduate colleges at DePaul University. The LSP is designed to enhance writing abilities, mathematical and technological proficiencies, and critical and creative thinking skills, while broadening students knowledge base beyond their chosen major. LSP courses foster an appreciation of different religious and philosophical worldviews, promote application of ethical reasoning, and realize new understanding of concepts and theories through multiple methods of inquiry and disciplinary perspective. In LSP seminars, students read primary texts, write research papers, and communicate their ideas orally. Essential intellectual skills are further reinforced throughout the program with performance assignments, field observations, laboratory research, and more. While the LSP curriculum itself is quite varied, the Program as a whole shares these four learning goals: 1) *Reflectiveness* ; 2) *Value Consciousness and Ethical Reasoning* ; 3) *Multicultural Perspective* ; and 4) *Creative and Critical Thinking* .

Reflectiveness encourages students to not just learn scholarly concepts and theories, but also be able to articulate how they have come to know what they do. *Value Consciousness and Ethical Reasoning* each stimulate a sense of personal responsibility with new understanding, and a desire to create a more just and humane world. A *multicultural perspective* demands that students grapple with the plurality of worldviews, and enhance their awareness of the experiences, contributions, and concerns of diverse communities, in both contemporary and historical times. Across the curriculum, *creative and critical thinking* skills are emphasized to develop in students the capacity for self-critical and autonomous thinking. Ultimately, LSP courses lay the groundwork to discover, transform, and create knowledge, and are meant to instill a thirst for lifelong learning.

Effective Summer 2010, changes were made to the liberal studies domain requirements allowing for more flexibility. Current students may also benefit from the less restrictive LSP domain requirements. Please consult your major field grid for your requirements.

Curriculum Overview

The Liberal Studies Program (LSP) has two primary components. The first is termed the **Common Core**, and consists of a series of classes taken sequentially by students as they progress towards their degree. Core requirements begin for incoming students in their first autumn quarter when all take a *Chicago Quarter (CQ)* course. From over a hundred different topic offerings, each student selects a single class that is either *Discover Chicago*, which includes an intensive immersion week experience prior to the start of fall classes, or *Explore Chicago*, which meets during the regular fall term. Regardless of type, all CQ instructors use both traditional and experiential pedagogies to teach students not only relevant course content, but also information about the City's people, communities, institutions, and system of public transportation. All CQ classes also include a co-curricular component called the Common Hour, which is designed to facilitate students' transition to the college experience, and give them initial exposure to DePaul's distinctive mission.

Another **Common Core** requirement in the first year is *First-year Writing*. The WRD 103-WRD 104 sequence introduces students to different conventions of writing and instructs them how to analyze readings, to write for different audiences, and to take a rhetorical stance in their scholarly papers. (Students taking WRD 103 and/or WRD 104 at DePaul must receive grades of C- or better.) Upon successful completion of *First-year Writing*, students have the ability to express themselves creatively and can defend and document a clearly articulated thesis in a scholarly paper. The *Focal Point Seminar (see College requirements)* further emphasizes different forms of writing, oral communication skills, and seminar behavior, such that they are able to intellectually discuss and debate beyond their own opinions. Lastly, first-year students begin (depending on College/major requirements) a two-course sequence in *Quantitative Reasoning and Technology Literacy (QRTL I & II)*, designed to develop quantitative reasoning, the use of information technologies (e.g., databases, statistical analysis software, programming algorithms), and the necessary skills to think critically and reflectively in an increasingly sophisticated global economy. (Some students may be required to take preparatory math classes before being eligible to enroll in QRTL courses, while other students may have one or both QRTL courses waived on the basis of AP classes, assessment tests, or major area of study).

Students continue to take **Common Core** courses based on their class standing. In the second year, the requirement is the *Sophomore Seminar on Multiculturalism in the U.S.* This seminar draws students into key debates about multiculturalism and encourages critical thinking and reflection in a diverse workplace and society. The LSP requirement for the junior year is an *Experiential Learning* course, which can take the form of doing laboratory or field research, studying abroad, engaging in community service, or completing an internship in a field of study. Students connect their experiences to in-class readings and writing assignments. The final **Common Core** course is the *Senior Capstone*, which enables students to synthesize the methods and knowledge learned in their major field of study courses into a final project, while reflecting upon the values and content of their liberal studies classes.

The second component of the LSP is made up of six distinct **Learning Domains**: 1) *Arts and Literature*; 2) *Philosophical Inquiry*; 3) *Religious Dimensions*; 4) *Scientific Inquiry*; 5) *Self, Society, and the Modern World*; and 6) *Understanding the Past*. These **Domains** reflect a conventional liberal arts and sciences curriculum, yet are not based in any one discipline. Within any single **Domain**, basic criteria, learning outcomes, and modes of inquiry are shared, but the courses themselves come from many different departments, programs,

and Colleges across the University. By having such broadly defined **Learning Domains**, students receiving a liberal education at DePaul are assured a breadth of pedagogical experiences but also enjoy great latitude in selecting, experiencing, and applying the many types of intellectual inquiry taking place in a modern university.

[Liberal Studies and Honors Programs for Undergraduates](#) □ [Liberal Studies General Information](#) □ [Modern Language Option](#)

Modern Language Option

The Modern Language Option (MLO) is available to all B.A. students who wish to study a modern language beyond the level necessary to meet the Colleges language requirement and to B.S. students who wish to study a modern language at any level. Students selecting the MLO may replace, at most, two domain courses with designated modern language courses. Designated modern language courses include courses that are part of a beginning or intermediate sequence, or two advanced courses, depending on the students placement. In all cases, students should discuss the MLO with an academic advisor.

Students may generally apply MLO language courses to any learning domain, but not to both domains in the following pairs:

- Philosophical Inquiry and Religious Dimensions
- Understanding the Past and Self, Society, and the Modern World
- Arts and Literature and Scientific Inquiry [the MLO may not substitute for the Lab requirement].

Students majoring in one modern language may use the MLO for study of a second language at the intermediate level or above. Please see your advisor for additional information about modern language course placement.

LSP 110	Discover Chicago
LSP 111	Explore Chicago
LSP 112	Focal Point Seminar
LSP 120	Quantitative Reasoning and Technological Literacy I
LSP 121	Quantitative Reasoning and Technological Literacy II
WRD 103	Composition and Rhetoric I
WRD 104	Composition and Rhetoric II

LSP 110 Discover Chicago

Discover Chicago courses, which begin with an immersion week one week prior to the official start of the autumn quarter, acquaint first-year students at DePaul with the metropolitan community, its neighborhoods, cultures, people, institutions, organizations and urban issues. There are a variety of topics from which students may choose. Learning is accomplished through a variety of means, but particularly through first hand observation, participation, personal discovery and reflection. These classes continue to meet throughout the autumn quarter but with reduced hours. Students also learn about university resources, college life, and how to be a successful student. All first-year students are required to take an Explore Chicago course or a Discover Chicago course during the autumn quarter.

LSP 111 Explore Chicago

Explore Chicago courses acquaint DePaul first-year students with the metropolitan community, its neighborhoods, cultures, people, institutions, organizations and urban issues. There are a variety of topics from which students may choose. Learning is accomplished through a variety of means, but particularly through lecture, discussion, guest lecturers, first hand observation, participation, personal discovery and reflection. Students also learn about university resources, college life, and how to be a successful student. All first-year students are required to take an Explore Chicago course or a Discover Chicago course during the autumn quarter.

LSP 112 Focal Point Seminar

Focal Point Seminars investigate a significant person, place, text, idea or event through multiple methodological or disciplinary perspectives, learning how scholars strive to understand a singular topic in increasingly focused ways. Courses stress "seminar behavior" - active learning through critical questioning, speaking, listening and discussing, and reading and writing extensively about primary sources or original works. The various topics are framed from the faculty member's experience and intellectual perspective. Only first-year students who have completed WRD 103 are eligible to enroll.

LSP 120 Quantitative Reasoning and Technological Literacy I

This course provides a mathematical foundation for students to become confident and critical users of quantitative information of all kinds: numerical, graphical, and verbal. Students analyze data from a wide variety of fields, making and critiquing quantitative arguments. Mathematical topics include proportional reasoning and rates, the making and interpretation of graphs, linear and exponential models, logarithms, and finance. The course is taught in a hands-on laboratory environment where students are introduced to computer tools for data analysis and presentation. PREREQUISITE(S): ISP 110, MAT 101, or placement by the Mathematics Diagnostic Test. Students who plan to take calculus or business calculus as part of their major are exempt from this requirement. Students may place out of this course by passing the QRTL Proficiency Exam.

LSP 121 Quantitative Reasoning and Technological Literacy II

This course provides more advanced mathematical and computational methods in the analysis and interpretation of quantitative information. Topics include databases, descriptive statistics, measures of association and their interpretation, elementary probability theory, and an introduction to algorithms and computer programming. The course is taught in a hands-on laboratory environment where students are introduced to advanced computer tools for data analysis, including databases and a professional statistical software package. PREREQUISITE(S): LSP 120 or IT 120 or placement by the QRTL Proficiency Exam. Students who plan to take calculus or business calculus as part of their major are exempt from this requirement. Students may place out of this course by passing the QRTL Proficiency Exam.

WRD 103 Composition and Rhetoric I

This course introduces students to the forms, expectations, and conventions of writing at the college level. Emphasis is on audience analysis, rhetorical stance, and the nature of the composing process.

WRD 104 Composition and Rhetoric II

This course teaches students how to develop a convincing argument with information and evidence drawn from a variety of sources. Emphasis is on effective research strategies and professional use of sources.

Liberal Studies and Honors Programs for Undergraduates ▢ Liberal Studies Common Core ▢ Sophomore Seminar on Multiculturalism in the United States

Sophomore Seminar on Multiculturalism in the United States

Each LSP 200 seminar addresses a dimension of multiculturalism, such as ethnicity, race, class, gender, language, religion, and sexual orientation, within the context of the United States. Students practice seminar behavior (including class discussion, active listening, and participation) to communicate ideas appropriately for a given audience and setting, and develop the skills to address specific problems through independent intellectual inquiry. Students gain a critical perspective about the historical roots of inequality, along with an understanding of the lasting effects of oppression on marginalized groups in society today. Through such analysis, an appreciation of the experiences of various cultural groups is acquired.

Sophomore Seminar Topics

Below please find examples of previously offered Sophomore Seminar topics. For information on current offerings, please consult Campus Connection.

America as a Multilingual Society
American Autobiography
American Pluralism and the War on Terror
American Political Culture
American Urban History
Approaches to Multiculturalism, Identities, and Social Justice
Asian American Art
Asian-American Experiences in the US
Assimilation in Organizational Communication
At Home and Abroad: Exploring the Changing Definitions of Ethnic Identity through Plays where Characters Travel from America to their "Countries of Origin"
Black American Music Culture: Traditions/Innovations
Border Cultures
Building through Resistance: Religions of Colonized People
Catholic Diversity in American Culture
Civil Rights on Film
Comparative Religious Worlds
Critical Cultural Geography
Cultural Diversity in the United States
Cultural Issues in Psychology
Culture and Religion
Culture in Conflict
Culture-Quests in Literature and Film
Dealing with Group Diversity
Diverse Values and Voices in Education
Diversifying the Stage
Diversity Among the Arab Communities in North America
Diversity and Equal Protection Under the Law - Racial Minorities, Women, Gays and Lesbians
Diversity in American Families
Diversity in the Work Place
Domestic Groups, the United States and the World
Environmental World Views
Ethical Worlds: Moral Issues Across Cultures
Ethno-Cultures in Cyber Space
Gay and Lesbian America from the Forties to the Nineties
Gay, Lesbian and Queer Lives
Gender and Society
Historical Roots of Group Diversity
History of American Religion
History of Chicago 1800-1945
History of US Women to 1860
Immigration and American Identity
Immigration, Entrepreneurship and Innovation in the American Economy
Issues of Difference in Education
Latina Perspectives in the United States
Latino/as in the United States: the Construction of Latino Communities Perspectives on America
Latino Communities
LGBT Sexuality and Civil Rights
Life on the Hyphen
Literature and Identity: Womens Literature
Love, Beauty, and Friendship: Womens Cross Cultural Perspectives
Middle East Communities

Minority Subjects: Recovering Lost Histories
Mixed Race Art and Identity
Multicultural Comic Books: Verbal and Visual Subculture
Multicultural Environmental Discourse
Multicultural Issues in US Womens History
Multicultural Literacy and the American Novel
Multicultural Perspectives on the War on Terrorism
Multicultural Theater: Diverse Voices from 1968 to Today
Multicultural Voices in American Literature
Multiculturalism and Democracy
Multiethnic Comedy
Music of the Worlds People
Native Americans: Their Struggle to Have a Place in the United States Culture
Organizational Communication Assimilation
Parenting in Multicultural Family Systems
Performing Identity/Performing Culture
Performing Indigenous Identities in the US and Global Stages
Perspectives on America
Philosophic Approaches to Multiculturalism
Political Socialization
Race, Ability and Class
Race and American Television
Race and Ethnic Relations
Race and Ethnicity in American Film
Race and Gender Identity in Contemporary Visual Arts Practice
Race, Ethnicity, and Housing
Race, Identity, and Culture--Womanists and Feminists of Color
Red, White, and Black: Culture and Conflict in North America, 1500-1763
Religious Fundamentalism
Religious Worlds in Comparative Perspective
Rhetorical Histories of Latinos in U.S.
Sex and Power in American Politics
Sex, Lies, and Videotape: AIDS & the Politics of Wellness
Southern Cultures after the Civil War
The American Religious Experience
The Immigrant Experience
The Urban Experience
Urban Diversity in the USA
Urban Ethnicity
Varieties of Judaism in the U.S.
War, Social Justice and Diversity
Wellness, Disease and AIDS in Cross Cultural Perspective
White Studies and Eradicating White Racism
Women in the US, 1860-Present
Women, Race, and Film
Women Writers of Color

Liberal Studies and Honors Programs for Undergraduates □ Liberal Studies Common Core □ Junior Year Experiential Learning

Junior Year Experiential Learning

The Experiential Learning requirement engages students in the first-hand discovery of knowledge through observation and participation in activities, most often in field-based settings outside the classroom. This inductive process of learning by doing and reflecting is supported by theory-based information. In these courses, students compare and analyze issues, problems, and ideas through the lenses of their own personal experiences and evolving intellectual worldview.

Experiential learning may take place in a regularly scheduled course, an approved internship, a Study

Abroad course, or in an independent study approved on a case-by-case basis (utilizing the proper Independent Study Approval Form). All such courses may be offered in the students major and may count for both major field and Liberal Studies requirements. When more than four credit hours are earned from such an experience for example, an eight-hour internship four hours may be counted toward Liberal Studies requirements and four hours toward major program requirements. Experiential Learning is typically taken in the junior year as major field or other foundational knowledge is essential to ensure a successful outcome.

Liberal Studies and Honors Programs for Undergraduates □ Liberal Studies Common Core □ Forms of Experiential Learning

Forms of Experiential Learning

Study Abroad: Study Abroad programs emphasize social, political, historical and cultural understanding through a total immersion into the life and culture of a foreign country. Study trips abroad range in duration from two weeks to a full academic year.

Domestic Study: For students interested in diverse populations and locations outside Chicago yet within the United States, domestic study courses offer students the opportunity to pursue such inquiry.

Community-based Service Learning: Community-based Service learning courses provide students with the opportunity to work with a community organization or agency and to reflect upon what they have learned through this service in class discussions. Opportunities are available through the Steans Center for Community-Based Service Learning.

Internships: Internship courses offer students the opportunity to gain real world experience in hiring, employment, communication, and the culture of businesses or organizations. Students who apply and receive internship opportunities through the University Internship Program register for ISP 250. In addition, some Colleges and departments offer 200-level and 300-level internships that satisfy the experiential learning requirement.

Individual or group research projects: These research projects involve extensive field or laboratory work. The projects are supervised, evaluated and graded by a faculty member.

WRD 377 Writing and Social Engagement

The Senior Capstone experience allows students to explore substantive areas of scholarship and creative works within their major. Students are given the opportunity to create knowledge within the context of the ideas, perspectives, and research of others in the discipline. The Capstone further provides students the opportunity to integrate and compare knowledge gained from their major with that which was learned in the domain area and core courses of the Liberal Studies Program. In this culminating experience, students create, under the mentorship of a faculty member, a final project of their own design.

Liberal Studies Learning Domains

Liberal Studies and Honors Programs for Undergraduates ▫ Liberal Studies Learning Domains

Arts and Literature

Courses in the Arts and Literature domain ask students to extend their knowledge and experience of the arts while developing their critical and reflective abilities. In these courses, students interpret and analyze particular creative works, investigate the relations of form and meaning, and through critical and/or creative activity, come to better understand the original audience that witnessed a work of art and how its meaning and significance changes over time. These courses focus on works of art or literature, however the process of analysis may include social, cultural, and historical issues. Genres covered in this domain include literature, the visual arts, media arts, the performing arts, music, and theater.

Liberal Studies and Honors Programs for Undergraduates □ Liberal Studies Learning Domains □ Philosophical Inquiry

Philosophical Inquiry

Courses in the Philosophical Inquiry domain address conceptual issues fundamental to reflection on such philosophical topics as metaphysics (e.g., being and nonbeing, the one and

the many, the nature of reality, same and other, self and other); epistemology (e.g., the nature and possibility of knowledge, different ways of knowing, knowledge vs. opinion, truth and falsity); ethics (e.g., right and wrong action, good and bad, objectivism and relativism in ethics, social and political philosophies, the idea of value, the problem of evil); and aesthetics (e.g., the nature of beauty, aesthetic value, the possibility of aesthetic valuation). Courses address questions of how such topics impinge upon, shape, and challenge student lives.

Liberal Studies and Honors Programs for Undergraduates □ Liberal Studies Learning Domains □ Religious Dimensions

Religious Dimensions

Courses in the Religious Dimensions domain offer students the opportunity to explore the explicitly religious dimensions of life and culture. These dimensions are found in the culturally embedded narratives, beliefs and practices of particular religions, as well as in encounters with realities perceived to be ultimate or sacred. Through myth, symbol, ritual and doctrine, these religions not only provide order and meaning, they also carry capacities to challenge and transform individuals and societies. Intellectual and social maturity requires understanding the unique contributions, both positive and negative, of the religious traditions of the world to culture and consciousness as well as coming to terms with ultimacy. This Learning Domain offers courses with a comparative, thematic, or ethical focus, as well as courses in specific traditions.

SOCIOLOGY

SOC 343 Social Dimensions of Religion

Liberal Studies and Honors Programs for Undergraduates □ Liberal Studies Learning Domains □ Scientific Inquiry

Scientific Inquiry

Courses in the Scientific Inquiry domain are designed to provide students with an opportunity to learn the methods of modern science and its impact in understanding the world around us. Courses are designed to help students develop a more complete perspective about science and the scientific process, including: an understanding of the major principles guiding modern scientific thought; a comprehension of the varying approaches and aspects of science; an appreciation of the connection among the sciences and the fundamental role of mathematics in practicing science; an awareness of the roles and limitations of theories and models in interpreting, understanding, and predicting natural phenomena; and a realization of how these theories and models change or are supplanted as our knowledge increases.

Where required, the Quantitative Reasoning and Technological Literacy sequence (LSP 120 & LSP 121) is a prerequisite for SI Domain courses. Students have the option to test out of one or both of these courses. Generally three SI courses are required and one course must be designated as an SI lab course. Students who complete both LSP 120 and LSP 121 will have their total Domain Area requirements reduced by one. Within the SI Domain, only non-lab SI courses are eligible for this reduction.

Students may use the full year-long sequences in biology (BIO 101, 102, and 103) , chemistry (CHE 111, 113, and 115 OR CHE 171, 173, or 175), or physics (PHY 150, 151, and 152 OR PHY 155 and 156) to fulfill this requirement.

Liberal Studies and Honors Programs for Undergraduates □ Liberal Studies Learning Domains □ Self, Society and the Modern World

Self, Society and the Modern World

Courses in the Self, Society and the Modern World domain focus on the mutual impact of society and culture on individuals, and of individuals on society and culture. Particular attention is given to human relationships and behavior as they are influenced by social, economic and political institutions, spatial and geographical factors, and the events and social and cultural forces of modernity. It emphasizes the pursuit of knowledge through the development of theory and the application of methods of inquiry that draw on the empirical investigation of the modern world. Courses in the domain explore such particular issues as poverty and economic opportunity, the environment, nationalism, racism, individual alienation, gender differences, and the bases of conflict and consensus in complex, urban societies and in global relations.

Courses in the Understanding the Past domain study human life in past societies (primarily pre-1945) as a process of continuity and change over time. Many of the documents that mediate the past to us have considerable aesthetic or intellectual value in and of themselves. However, courses in this learning domain examine texts, art works, and other forms of evidence less for their aesthetic or intellectual value than for their usefulness as tools for reconstructing aspects of the past and building sensible, defensible, and well-informed historical interpretations about the past and about causation in the past. Students generally take two courses in the UP Domain Area.

Liberal Studies and Honors Programs for Undergraduates ▫ Liberal Studies Learning Domains ▫ Understanding the Past Courses

Liberal Studies Requirements by College

Liberal Studies and Honors Programs for Undergraduates ▢ Liberal Studies Requirements by College

Requirements by College

The Liberal Studies Program (LSP) requirements are designed to foster the development of certain skills and abilities. Since some majors and Colleges have existing degree requirements that already emphasize and ensure these basic proficiencies, LSP requirements are not the same across the different Colleges and majors. In other words, the number and type of courses required may vary.

Students should consult the particular requirements of their College or School, as well as their individual departments, as they proceed toward degree completion. If students change their major or transfer into another College, they should check the LSP requirements for their new degree program.

College of Commerce

Liberal Studies and Honors Programs for Undergraduates ▢ Liberal Studies Requirements by College ▢ College of Commerce

First Year Program	
Chicago Quarter	LSP 110 or LSP 111
Focal Point	LSP 112
Writing	WRD 103* and WRD 104*
Quantitative Reasoning & Technological Literacy	Not Required
Sophomore Year	
Multiculturalism in the US	LSP 200
Junior Year	
Experiential Learning	Required **
Senior Year	
Capstone	ICS 392*
Learning Domains	
Arts and Literature (AL)	3 Courses Required
Philosophical Inquiry (PI)	2 Courses Required (See note below)
Scientific Inquiry (SI)	3 Courses Required: - MAT 135 or MAT 150 or MAT 160 - MAT 137 - 1 SI Lab

Self, Society and the Modern World (SSMW)	1 Course Required (must not be an ECO course)
Religious Dimensions (RD)	2 Courses Required (See note below)
Understanding the Past (UP)	2 Courses Required
Notes:	PHL/MGT 248 is required in PI or REL/MGT 228 is required in RD *Students must earn C- or better in this course. ** Students majoring in Hospitality Leadership are required to complete the sequence of HSP 303/304 in order to receive Junior Year Experiential Learning credit.

Note: Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the JYEL requirement.

Effective Summer 2010, changes were made to the liberal studies domain requirements allowing for more flexibility. Current students may also benefit from the less restrictive LSP domain requirements. Please note that the change is reflected in this liberal studies requirement grid.

College of Communication

Liberal Studies and Honors Programs for Undergraduates ▢ Liberal Studies Requirements by College ▢ College of Communication

First Year Program	
Chicago Quarter	LSP 110 or LSP 111
Focal Point	LSP 112
Writing	WRD 103* and WRD 104*
Quantitative Reasoning & Technological Literacy	LSP 120 and LSP 121 (Note: See information below.)
Sophomore Year	
Multiculturalism in the US	LSP 200
Junior Year	
Experiential Learning	Required
Senior Year	
Capstone	Required*
Learning Domains	
Arts and Literature (AL)	2 Courses Required
Philosophical Inquiry (PI)	2 Courses Required
Scientific Inquiry (SI)	3 Courses Required (Note : One must be a Lab.)
Self, Society and the Modern World (SSMW)	2 Courses Required
Religious Dimensions (RD)	2 Courses Required

Understanding the Past (UP)	2 Courses Required
Note:	* Students must earn a C- or better in this course.

Note: Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the JYEL requirement.

Quantitative Reasoning and Technological Literacy :

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab requirement.

Effective Summer 2010, changes were made to the liberal studies domain requirements allowing for more flexibility. Current students may also benefit from the less restrictive LSP domain requirements. Please note that the change is reflected in this liberal studies requirement grid.

College of Computing and Digital Media

Liberal Studies and Honors Programs for Undergraduates □ Liberal Studies Requirements by College □ College of Computing and Digital Media

Welcome to the new **College of Computing and Digital Media!**

Originating as the Department of Computer Science at DePaul University, the College of Computing and Digital Media (CDM) has evolved in the past two decades into an interdisciplinary college with a broad range of innovative programs.

The college is organized into two schools: the **School of Computing (SoC)**, which incorporates programs in computer and information sciences such as computer science, networking, software engineering, security, information systems and IT project management; and the **School of Cinema and Interactive Media (CIM)**, which encompasses digital arts majors including game development, digital cinema, animation and interactive media.

If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the JYEL requirement.

Effective Summer 2010, changes were made to the liberal studies domain requirements allowing for more flexibility. Current students may also benefit from the less restrictive LSP domain requirements. Please note that the change is reflected in this liberal studies requirement grid.

Liberal Studies and Honors Programs for Undergraduates □ Liberal Studies Requirements by College □ College of Computing and Digital Media □ BS in Digital Cinema

BS in Digital Cinema

First Year Program	
Chicago Quarter	LSP 110 or LSP 111
Focal Point	LSP 112
Writing	WRD 103* and WRD 104*
Quantitative Reasoning & Technological Literacy	LSP 120 & LSP 121 (Note : See information below)
Sophomore Year	
Multiculturalism in the US	LSP 200
Junior Year	
Experiential Learning	Required
Senior Year	
Capstone	DC 398*
Learning Domains	
Arts and Literature (AL)	3 Courses Required: - ANI 206 - 2 Additional Courses
Philosophical Inquiry (PI)	2 Courses Required (See note below)
Religious Dimensions (RD)	2 Courses Required (See note below)
Scientific Inquiry (SI)	1 SI Lab Course Required
Self, Society and the Modern World (SSMW)	3 Courses Required
Understanding the Past (UP)	2 Courses Required
Notes:	1 of the PI or RD courses must be an ethics course. Recommended choices are DC/GAM/IT 228 (PI), PHL 248/MGT 248 (PI) or REL228/MGT 228 (RD)

* Students must earn a C- or better in this course.

Quantitative Reasoning and Technological Literacy:

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab requirement.

Note: Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the JYEL requirement.

Effective Summer 2010, changes were made to the liberal studies domain requirements allowing for more flexibility. Current students may also benefit from the less restrictive LSP domain requirements. Please note that the change is reflected in this liberal studies requirement grid.

Secondary Education Physics

First Year Program	
Chicago Quarter	LSP 110 or LSP 111
Focal Point	LSP 112
Writing	WRD 103* and WRD 104*
Quantitative Reasoning & Technological Literacy	Not Required
Sophomore Year	
Multiculturalism in the US	LSP 200
Junior Year	
Experiential Learning	Met by successful completion of required field experience hours.
Senior Year	
Capstone	SEC 384* (Note: This must be taken with student teaching.)
Learning Domains	
Arts and Literature (AL)	3 Courses Required
Philosophical Inquiry (PI)	2 Courses Required: - LSE 380 - 1 Additional Course (Note: PHL 100 recommended)
Scientific Inquiry (SI)	1 Course Required (Note: This must be a BIO course.)
Self, Society and the Modern World (SSMW)	3 Courses Required: - PSC 120 - 2 Additional Courses
Religious Dimensions (RD)	2 Courses Required
Understanding the Past (UP)	2 Courses Required (Note: One must be US History.)
Note:	* Students must earn a C- or better in this course.

Note: Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements.

Effective Summer 2010, changes were made to the liberal studies domain requirements allowing for more flexibility. Current students may also benefit from the less restrictive LSP domain requirements. Please note that the change is reflected in this liberal studies requirement grid.

Liberal Studies and Honors Programs for Undergraduates □ Liberal Studies Requirements by College □ School of Education □ Secondary Education Social Sciences

Secondary Education Social Sciences

First Year Program	
Chicago Quarter	LSP 110 or LSP 111
Focal Point	LSP 112
Writing	WRD 103* and WRD 104*
Quantitative Reasoning & Technological Literacy	LSP 120 and LSP 121 (Note: See information below.)
Sophomore Year	
Multiculturalism in the US	LSP 200
Junior Year	
Experiential Learning	Met by successful completion of required field experience hours.
Senior Year	
Capstone	SEC 384* (Note: This must be taken with student teaching.)
Learning Domains	
Arts and Literature (AL)	3 Courses Required
Philosophical Inquiry (PI)	2 Courses Required: - LSE 380 - 1 Additional Course (Note: PHL 100 recommended)
Scientific Inquiry (SI)	3 Courses Required: - 1 BIO course - 1 CHE/ENV/GEO/PHY course - 1 Additional Course
Self, Society and the Modern World (SSMW)	2 Courses Required: - PSC 120 - 1 Additional course (Note: An ECO course recommended)
Religious Dimensions (RD)	2 Courses Required
Understanding the Past (UP)	1 Course Required (Note: Must be in US History)
Note:	* Students must earn a C- or better in this course.

Quantitative Reasoning and Technological Literacy:

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or

by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab requirement.

Note: Courses offered in the student's major cannot be taken to fulfill LSP Domain requirements.

Effective Summer 2010, changes were made to the liberal studies domain requirements allowing for more flexibility. Current students may also benefit from the less restrictive LSP domain requirements. Please note that the change is reflected in this liberal studies requirement grid.

Note: Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the JYEL requirement.

Effective Summer 2010, changes were made to the liberal studies domain requirements allowing for more flexibility. Current students may also benefit from the less restrictive LSP domain requirements. Please note that the change is reflected in this liberal studies requirement grid.

History

First Year Program	
Chicago Quarter	LSP 110 or LSP 111
Focal Point	LSP 112
Writing	WRD 103* and WRD 104*
Quantitative Reasoning & Technological Literacy	LSP 120 and LSP 121 (Note: See information below)
Sophomore Year	
Multiculturalism in the US	LSP 200
Junior Year	
Experiential Learning	Required
Senior Year	
Capstone	Required*
Learning Domains	
Arts and Literature (AL)	3 Courses Required
Philosophical Inquiry (PI)	2 Courses Required
Scientific Inquiry (SI)	3 Courses Required (Note : One course must be a lab)
Self, Society and the Modern World (SSMW)	3 Courses Required
Religious Dimensions (RD)	2 Courses Required
Understanding the Past (UP)	Not Required
Note:	* Students must earn a C- or better in this course.

Quantitative Reasoning and Technological Literacy:

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab requirement.

Note: Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the JYEL requirement.

Effective Summer 2010, changes were made to the liberal studies domain requirements allowing for more flexibility. Current students may also benefit from the less restrictive LSP domain requirements. Please note that the change is reflected in this liberal studies requirement grid.

Philosophical Inquiry (PI)	2 Courses Required
Scientific Inquiry (SI)	3 Courses Required (Note: One course must be a lab)
Self, Society and the Modern World (SSMW)	2 Courses Required
Religious Dimensions (RD)	2 Courses Required
Understanding the Past (UP)	2 Courses Required
Note:	* Students must earn a C- or better in this course.

Quantitative Reasoning and Technological Literacy:

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab requirement.

Note: Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the JYEL requirement.

Effective Summer 2010, changes were made to the liberal studies domain requirements allowing for more flexibility. Current students may also benefit from the less restrictive LSP domain requirements. Please note that the change is reflected in this liberal studies requirement grid.

Writing, Rhetoric, and Discourse

First Year Program	
Chicago Quarter	LSP 110 or LSP 111
Focal Point	LSP 112
Writing	WRD 103* and WRD 104*
Quantitative Reasoning & Technological Literacy	LSP 120 and LSP 121 (Note: See information below)
Sophomore Year	
Multiculturalism in the US	LSP 200
Junior Year	
Experiential Learning	Required
Senior Year	
Capstone	Required*
Learning Domains	
Arts and Literature (AL)	3 Courses Required
Philosophical Inquiry (PI)	2 Courses Required
Scientific Inquiry (SI)	3 Courses Required (Note: One course must be a lab)
Self, Society and the Modern World (SSMW)	1 Course Required
Religious Dimensions (RD)	2 Courses Required
Understanding the Past (UP)	2 Courses Required
Note:	* Students must earn a C- or better in this course.

Honors Program Alternative

Liberal Studies and Honors Programs for Undergraduates ▫ Honors Program Alternative

General Information

The Honors Program offers an alternative to the Liberal Studies Program for well-prepared, highly motivated students. Like the Liberal Studies Program, the Honors Program seeks to widen students perspectives beyond their academic majors and encourage critical thinking, self-reflection, and an examination of values. In addition, the Honors Program fosters active, participatory learning; promotes interdisciplinary and cross-cultural studies; requires students to develop facility in a second language and to pursue independent research; helps students see themselves as members of larger communities in which they can be leaders; and assists interested students to prepare for post-graduate education.

In order to meet these goals, the program offers small classes designed for Honors students, organized in a seminar format and taught by faculty committed to the programs goals; emphasizes cross-cultural and interdisciplinary perspectives in all core courses; advances students skills in writing, research, reading and analysis; requires experiential learning and intensive language training; encourages self-directed learning through third-year research courses and the fourth-year seminar or thesis; offers lecture and film series, field trips, and opportunities for public service; and provides information and counseling regarding admission to graduate schools and applications for fellowships.

Students are usually invited to join the Honors Program at the beginning of their first year at DePaul. Invitations are issued on the basis of a students written application, high school record, and entrance examination scores. In some cases, continuing DePaul students and transfer students may be considered for the Honors Program through the first quarter of their sophomore year. Honors Foundations Certificates and Honors Research Certificates are available to students who complete a part of the program; see the requirements below. To be recognized as an Honors Program graduate, a student must complete all program requirements and attain a 3.2 cumulative grade point average by the last quarter of the senior year.

Program Requirements

Courses

Liberal Studies and Honors Programs for Undergraduates ▫ Honors Program Alternative ▫ Program Requirements

Program Requirements

Like the Liberal Studies Program, the Honors Program consists of between thirteen and twenty courses representing 52 to 80 quarter hours, the exact requirements determined according to the students home college. In general, requirements include a seven-course core, a science sequence, a three-course Language requirement, a two-course art requirement, a Junior seminar, and a Senior Thesis or Senior Seminar. Some AP and IB credit will count towards Honors Foundations, science requirements, or Language requirements. Please see the Honors Program Website for further information. The Honors Program core or Honors Foundations consists of the following courses:

HON 110: Honors Explore Chicago or HON 111: Honors Discover Chicago

HON 101: World Literature

HON 102: History in Global Contexts

HON 104: Religious Worldviews and Ethical Perspectives

HON 105: Philosophical Inquiry

HON 180: Data Analysis and Statistics

HON 201: States, Markets and Societies

In addition, students who need further development in writing skills as indicated by a writing sample will

be required to take HON 100, Rhetoric and Critical Inquiry.

Science Requirement: Honors students majoring in areas other than Biological Sciences, Chemistry, Physics or Environmental Science must take two Honors Science courses (from HON 220, 221, 222, 223, 225) or approved substitutes. Honors students who do not place into calculus or who will not take calculus or statistics as part of their program must complete HON 180, Data Analysis and Statistics, before completing the science requirements. Honors students majoring in Biological Sciences, Chemistry, Physics or Environmental Sciences take non-science elective courses in place of the science requirement. All Honors students take HON 207, Introduction to Cognitive Science.

Arts Requirement: Honors students (except those in the School of Music or the Theatre School) will take one Honors Arts course (HON 205) and one applied or studio arts course chosen from Music, Theatre, Performance of Literature, Studio Art, Creative Writing, or Digital Media. Courses in a student's major field will not meet this requirement.

Language Requirement: Honors students (except those in the School of Music or the Theatre School) must meet a second language proficiency requirement through course work or a placement test. Students who take language courses to reach proficiency may apply three courses of language study to meet the three-course Language requirement. Students who have met the proficiency requirement on entrance by placing at the 200-level of a language may elect three courses in the Language and Systems grouping, which includes Modern Language courses, Calculus, and specified courses in Computer Science or Linguistics. Honors students may not use courses in their major to meet the Language requirement.

Junior Requirements: Students take one Junior Seminar (HON 300 or HON 301) in which they research a topic of current interest. Students in some programs may also have electives in Honors; through these Approved Electives, they may explore an area of study outside their major. The number of Approved Electives varies with the student's program and major. Approved electives are chosen in consultation with an Honors advisor to achieve specific academic or professional goals.

Senior Capstone: Honors students complete their studies through the Honors senior capstone. They may choose a Senior Seminar, either Honors 350: Topics in Lifelong Learning, or Honors 351: Altruism and Activism, or they may instead choose to write a Senior Thesis. Students who choose to do a thesis must have their project approved at least one term prior to executing the project. To gain approval for a senior thesis, students must first contact the Director or Assistant Director for pre-approval, and then complete an application, including a project proposal, signed by a faculty advisor. In keeping with the interdisciplinary nature of the program, the thesis should attempt to move outside the boundaries normally associated with one particular discipline and should be supervised by two readers from different academic fields. While the final product must be a substantial piece of work building on the student's accumulated knowledge and new research, specific requirements for each thesis will depend on the nature of the project. See the Director or Assistant Director for an application.

Study Abroad: The Study Abroad Program of the College of Liberal Arts and Sciences offers courses of various lengths. Study Abroad is particularly appropriate for students in the Honors Program and, though not required, is strongly recommended. Honors students interested in Study Abroad should plan to participate during their junior year and should make certain that they have fulfilled appropriate modern language requirements before that point in their undergraduate careers. They should meet with the Director or Assistant Director prior to their departure for pre-approval of course substitutions. Coursework completed abroad may substitute for Honors Approved Electives.

Experiential Learning: Honors students must meet the University's experiential learning requirement, either through completing an internship, participating in a study abroad program, or taking a service learning course. Students in the School of Education, the School of Music, and the Theatre School whose programs meet the university requirement in experiential learning will be considered to have met the Honors program requirement also.

Multicultural Requirement: The Honors Program is committed to developing student's knowledge and cultural awareness so they may respect and learn from difference. Honors students meet the multicultural requirement either by completing a designated Junior seminar on multiculturalism (HON 301) or by taking ISP 200, the Sophomore Seminar on Multiculturalism, in place of an elective course.

All Honors students will work with an Honors advisor to schedule Honors courses in conjunction with their major requirements. As a general rule, Honors students take one or two Honors courses each quarter during their first and second years of study.

Honors Foundation Option: Students who successfully complete the Honors Foundation courses (HON 110 or 111, 101, 102, 104, 105, and 201) receive an Honors Foundation Certificate.

Honors Research Option: Students who enter the Honors Program having completed between 64 and 96 hours of college work may qualify for the Honors Research Option. Students in the Research Option complete one Foundations course plus HON 207, HON 300 or 301, an Honors Senior Thesis, and three Approved Electives; they receive an Honors Research Certificate. Please see an Honors Advisor for further information.
