Liberal Studies Program Guidelines

This provides general Liberal Studies Program (LSP) guidelines; for the Liberal Studies requirements associated with a specific program, see the catalog description for that respective program. Students in the DePaul University Honors Program should consult with a program advisor about their requirements.

All DePaul Students Who Participate in the Liberal Studies Program

There are a number of general Liberal Studies Program guidelines that pertain to all DePaul undergraduate students (except for students in the School of Continuing and Professional Studies (formerly SNL)).

1. Students may not use the same course to fulfill a requirement in both their primary major and Liberal Studies. There are two exceptions to this rule:
   a. Designated courses in the major may also be used to fulfill the Experiential Learning requirement. Students who pursue this option will then complete an additional learning domain elective or, if applicable, the third course of the Modern Language Option.
   b. Transfer students who complete the General Education Core Curriculum of the Illinois Articulation Initiative may apply a particular course to fulfilling a requirement in the major (see the GECC/IAI section of this policy.)

2. Students completing a second major or minor may use the same courses to fulfill requirements in those areas and in the Experiential Learning, Senior Capstone, and Learning Domains of Liberal Studies.

3. Students may request to substitute a different course for one of the Liberal Studies requirements. All substitutions must meet the learning outcomes and writing expectations for the particular LSP requirement. Students seeking to request a substitution should contact their home college office for more information on procedures.

Transfer Students

1. Transfer students must meet all Liberal Studies Program requirements:
   a. First Year Program,
   b. the Seminar on Multiculturalism in the United States (unless the student has completed the IAI/GECC),
   c. the Experiential Learning Requirement,
   d. the Senior Capstone, and
   e. the domain courses, as specified by the student’s primary major.

2. Transfer courses are applied to the most appropriate learning domain, based on articulations vetted through the Transfer Articulation Center according to the posted learning outcomes and writing expectations for each requirement.

3. Students who enter DePaul with 30 or more quarter hours may not enroll in Discover Chicago/Explore Chicago or Focal Point courses. Instead, they will complete two domain electives outside their area of specialization, using either transfer credit or DePaul credit.

4. Students may complete the LSP writing requirement with either transfer credit or coursework completed at DePaul. Placement in DePaul writing courses is determined by a placement process.
   a. Transfer students who enter DePaul with earned credit for WRD 104 and not WRD 103 may satisfy the second writing course requirement by taking any one of the following expository writing courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>WRD 103</td>
<td>COMPOSITION AND RHETORIC I</td>
<td>4</td>
</tr>
<tr>
<td>WRD 203</td>
<td>STYLE FOR WRITERS</td>
<td>4</td>
</tr>
<tr>
<td>WRD 206</td>
<td>PROFESSIONAL WRITING</td>
<td>4</td>
</tr>
<tr>
<td>WRD 240</td>
<td>ARGUMENTATIVE WRITING</td>
<td>4</td>
</tr>
<tr>
<td>WRD 300</td>
<td>COMPOSITION AND STYLE</td>
<td>4</td>
</tr>
</tbody>
</table>

Permission to substitute an open elective for the second writing course may be granted based on a review of documentation showing superior achievement and/or professional experience in advanced, expository writing. For more information, please contact the First-Year Writing Program Office.

b. Transfer students who met first-year writing requirements at their previous institution through coursework other than equivalents of WRD 103 and WRD 104 may petition their college offices for a waiver or substitution of this requirement. The petition should include a course description and, if possible, a syllabus. Petitions will be sent to the Director of First-Year Writing who will review them on a case-by-case basis and make a recommendation to the appropriate associate dean. Based on information from the course description and syllabus, a determination will be made as to whether the student:
   i. should take WRD 103 and/or WRD 104,
   ii. should substitute an upper-level writing course from an approved list for WRD 103 and/or WRD 104, or
   iii. have part or all of the requirement waived.

Elective credit will be adjusted accordingly to ensure that a student earns 192 credits for degree completion.

5. Applying transfer credit to the Experiential Learning requirement:
   a. Internships: DePaul generally does not award Experiential Learning credit for internships or cooperative learning courses taken at another college or university. Students seeking to request a substitution should contact their home college office for more information on procedures. The student must make the case that the course meets the Experiential Learning guidelines.

b. Study Abroad: Students who transfer in credit from a full-year or term-long study abroad program through an accredited institution, consisting of no less than ten weeks abroad and no less than 12 credits abroad, and having received grades of no less than a “C” in these courses, may use one of these courses to fulfill the Experiential Learning Requirement.

6. The Liberal Studies Senior Capstone requirement may not be substituted or waived. Students who have more than one major should consult with their academic advisor as to their specific Capstone requirement(s).

7. Accumulation of additional credit that fulfills Liberal Studies requirements: In some circumstances, students may earn transfer credit that exceeds Liberal Studies requirements. For example, coursework from institutions organized by semesters earn 1.5 quarter hour credits for each semester hour. Hence each 3-credit course transferred from a semester institution earns 4.5 credits at DePaul. As a result, students may have credits that exceed the required number in a particular component of the program. These excess general education credits may be added up and, when the sum reaches 4 quarter hours (and multiples thereof), applied to other Liberal Studies requirements as follows:
a. Students who have earned more than 30 credits may use the excess credit to fulfill the domain electives that replace Discover/Explore Chicago and the Focal Point Seminar. This substitution will be applied before any other.

b. Students must complete at least one course in each domain, whether through transfer/test credit or DePaul credit. Once that requirement has been met, students may apply the excess credit to any of the following domains: Arts & Literature; Historical Inquiry; Philosophical Inquiry; Religious Dimensions; or Scientific Inquiry (except for the Lab or Science as a Way of Knowing courses); or Social, Cultural, and Behavioral Inquiry. College-specific rules may apply; see your academic advisor.

c. Students may combine excess credit with the Modern Language Option within a single domain as long as they complete at least one course (transfer or DePaul) per domain.

8. Students who have test credit must have official score reports sent directly to the Transfer Articulation Center (TrAC).

Transfer Students Who Complete the GECC of the IAI

Transfer Credit, General Education Core Curriculum (GECC) of the Illinois Articulation Initiative (IAI)

DePaul University participates in the General Education Core Curriculum (GECC) of the Illinois Articulation Initiative (IAI) only. DePaul does not participate in Phase Two, the Major Phase.

Completion of the GECC/IAI at any participating college or university in Illinois ensures transferring students that most of the general education requirements at DePaul have been satisfied. Hence the GECC /IAI will be accepted as a package. Students who have completed the GECC/IAI should consult with their academic advisor in their college prior to registering for classes. Students who are in DePaul University’s Honors Program should consult with the program director as to their program requirements. Students who are in DePaul University’s School of Continuing and Professional Studies (formerly SNL) should consult with their academic advisors as to their program requirements. The additional requirements outlined in this policy apply only to those students in degree programs that participate in DePaul University’s Liberal Studies Program.

Students who have completed the GECC/IAI must also meet the following mission-specific requirements in DePaul’s Liberal Studies Program:

- Two Religious Dimensions courses (RD)
- Two Philosophical Inquiry courses (PI)
- Experiential Learning
- Senior Capstone

Guidelines

1. In an effort to enable students to make the most complete use of their transfer credit, some portion of the two RD and PI courses may be waived under certain circumstances, as long as all students complete at least one PI and at least one RD either through transfer credit or DePaul courses. The following guidelines will direct students and their academic advisors in applying GECC credit and meeting the additional mission-specific requirements:

   a. Students who have accumulated sufficient excess liberal studies credits, may apply the credit toward the waiver of up to one PI and up to one RD requirement; see the Liberal Studies Guidelines section (#7 under Transfer Students).

   b. Students who have used the equivalent of PI and/or RD courses to fulfill GECC/IAI requirements may substitute learning domain course credit (DePaul or Transfer) for a corresponding number of PI/RD mission-specific requirements.

   c. Students who have completed and transferred in the equivalent of a PI or RD course external to the GECC/IAI requirements may use that course to fulfill the appropriate mission-specific requirement.

   d. Students may choose to complete LSP 200 in place of either a PI or RD requirement.

The following table summarizes these policies put into practice:

<table>

2. If a course included in the GECC package also fulfills a specific course requirement in the student’s primary major, that single course may be used to fulfill both requirements. Elective credit will be adjusted accordingly to ensure that a student earns 192 credits for degree completion.

3. Students transferring from an IAI participating institution with two or fewer IAI requirements remaining may elect to complete the GECC/IAI package with DePaul courses or additional transfer credit that meet the subject area and mission-specific requirements.

4. Students pursuing the GECC/IAI option must earn a grade of "C" or higher in both WRD 103, and WRD 104. Students must earn a grade of "C-" or higher in the courses that will apply to the primary major, secondary major, or minor. Students who have test credit must have official score reports sent directly to the Transfer Articulation Center for review.
Students who have earned an Associate of Arts (AA) degree or Associate of Science (AS) degree from an IAI participating institution have satisfied the requirements for the GECC/IAI.

This agreement is in effect for students who entered an associate or baccalaureate degree-granting institution as first-time freshmen in the summer of 1998 and thereafter.

For more information on applying transfer credit to the Liberal Studies program see the Liberal Studies Program Guidelines section of the handbook.

Honors Program Transfers

Honors Program courses taken by students who transfer from DePaul’s Honors Program to the Liberal Studies program will apply to the Liberal Studies Program as follows:

- HON 100 will apply as WRD 104
- HON 101 as an Arts and Literature domain course
- HON 102 as a Historical Inquiry domain course
- HON 104 as a Religious Dimensions domain course
- HON 105 as a Philosophical Inquiry domain course
- HON 110/HON 111 as LSP 110/LSP 111
- HON 180 as LSP 121
- HON 201 as a Social, Cultural and Behavioral Inquiry domain course
- HON 205 as an Arts and Literature domain course
- HON 207 as a Scientific Inquiry elective domain course
- HON 225 as a Scientific Inquiry lab domain course
- HON 301 as LSP 200
- HON 351 as the Experiential Learning requirement

Honors Substitutions for LSP Writing Requirements

In addition students who move from the Honors Program to the Liberal Studies program will satisfy their LSP writing requirement as follows:

- If HON 100 is not complete, then WRD 103 and WRD 104 are required (WRD 103 may be satisfied by AP credit.).
- If HON 100 is complete, it will substitute for WRD 104.
- For students who do not have AP (or other) credit for WRD 103:
  - If HON 101, HON 102, HON 104, or HON 105 is complete, then one domain elective will be required to replace WRD 103.
  - If HON 101, HON 102, HON 104, or HON 105 are not complete, then the WRD 103 requirement may be satisfied by one of the following options: WRD 203, WRD 206, WRD 240, or WRD 300.

Modern Language Option

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace the Scientific Inquiry—Lab or Scientific Inquiry—Science as a Way of Knowing requirement.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Transfer Students

This provides general Liberal Studies Program (LSP) guidelines; for the Liberal Studies requirements associated with a specific program, see the catalog description for that respective program. Students in the DePaul University Honors Program should consult with a program advisor about their requirements.

All DePaul Students Who Participate in the Liberal Studies Program

There are a number of general Liberal Studies Program guidelines that pertain to all DePaul undergraduate students (except for students in the School of Continuing and Professional Studies (formerly SNL)).

1. Students may not use the same course to fulfill a requirement in both their primary major and Liberal Studies. There are two exceptions to this rule:
   a. Designated courses in the major may also be used to fulfill the Experiential Learning requirement. Students who pursue this option will then complete an additional learning domain elective or, if applicable, the third course of the Modern Language Option.
   b. Transfer students who complete the General Education Core Curriculum of the Illinois Articulation Initiative may apply a particular course to fulfilling a requirement in the major (see the GECC/IAI section of this policy.)

2. Students completing a second major or minor may use the same courses to fulfill requirements in those areas and in the Experiential Learning, Senior Capstone, and Learning Domains of Liberal Studies.

3. Students may request to substitute a different course for one of the Liberal Studies requirements. All substitutions must meet the learning outcomes and writing expectations for the particular LSP requirement. Students seeking to request a substitution should contact their home college office for more information on procedures.

Transfer Students Who Complete the GECC of the IAI

Transfer Credit, General Education Core Curriculum (GECC) of the Illinois Articulation Initiative (IAI)

DePaul University participates in the General Education Core Curriculum (GECC) of the Illinois Articulation Initiative (IAI) only. DePaul does not participate in Phase Two, the Major Phase.

Completion of the GECC/IAI at any participating college or university in Illinois ensures transferring students that most of the general education requirements at DePaul have been satisfied. Hence the GECC /IAI will be accepted as a package. Students who have completed the GECC/
IAI should consult with their academic advisor in their college prior to registering for classes. Students who are in DePaul University’s Honors Program should consult with the program director as to their program requirements. Students who are in DePaul University’s School of Continuing and Professional Studies (formerly SNL) should consult with their academic advisors as to their program requirements. The additional requirements outlined in this policy apply only to those students in degree programs that participate in DePaul University’s Liberal Studies Program.

Students who have completed the GECC/IAI must also meet the following mission-specific requirements in DePaul’s Liberal Studies Program:

- Two Religious Dimensions courses (RD)
- Two Philosophical Inquiry courses (PI)
- Experiential Learning
- Senior Capstone

**Guidelines**

1. In an effort to enable students to make the most complete use of their transfer credit, some portion of the two RD and PI courses may be waived under certain circumstances, as long as all students complete at least one PI and at least one RD either through transfer credit or DePaul courses. The following guidelines will direct students and their academic advisors in applying GECC credit and meeting the additional mission-specific requirements:
   
a. Students who have accumulated sufficient excess liberal studies credits, may apply the credit toward the waiver of up to one PI and up to one RD requirement; see the Liberal Studies Guidelines section (#7 under Transfer Students).
   
b. Students who have used the equivalent of PI and/or RD courses to fulfill GECC/IAI requirements may substitute learning domain course credit (DePaul or Transfer) for a corresponding number of PI/RD mission-specific requirements.
   
c. Students who have completed and transferred in the equivalent of a PI or RD course external to the GECC/IAI requirements may use that course to fulfill the appropriate mission-specific requirement.
   
d. Students may choose to complete LSP 200 in place of either a PI or RD requirement.

The following table summarizes these policies put into practice:

<table>
<thead>
<tr>
<th>Course</th>
<th>Policy</th>
</tr>
</thead>
<tbody>
<tr>
<td>Course 1</td>
<td>Course must be designated as PI (if course is DePaul PI or Transfer PI from outside GECC) or LSP Elective (if PI course is included in the GECC).</td>
</tr>
<tr>
<td>Course 2</td>
<td>Course must be designated as RD (if course is DePaul RD or Transfer RD from outside GECC) or LSP Elective (if RD course is included in the GECC).</td>
</tr>
</tbody>
</table>

2. If a course included in the GECC package also fulfills a specific course requirement in the student’s primary major, that single course may be used to fulfill both requirements. Elective credit will be adjusted accordingly to ensure that a student earns 192 credits for degree completion.

3. Students transferring from an IAI participating institution with two or fewer IAI requirements remaining may elect to complete the GECC/IAI package with DePaul courses or additional transfer credit that meet the subject area and mission-specific requirements.

4. Students pursuing the GECC/IAI option must earn a grade of “C” or higher in both WRD 103, and WRD 104. Students must earn a grade of “C-” or higher in the courses that will apply to the primary major, secondary major, or minor. Students who have test credit must have official score reports sent directly to the Transfer Articulation Center for review.

Students who have earned an Associate of Arts (AA) degree or Associate of Science (AS) degree from an IAI participating institution have satisfied the requirements for the GECC/IAI.

This agreement is in effect for students who entered an associate or baccalaureate degree-granting institution as first-time freshmen in the summer of 1998 and thereafter.

For more information on applying transfer credit to the Liberal Studies program see the Liberal Studies Program Guidelines section of the handbook.

**Honors Program Overview**

The Honors Program offers an alternative to the Liberal Studies Program for well-prepared, highly motivated students who apply and are accepted to the program. Like the Liberal Studies Program, the Honors Program seeks to widen students’ perspectives beyond their academic majors and encourage critical thinking, self-reflection, and an examination of values. In addition, the Honors Program fosters active, participatory learning; promotes interdisciplinary and cross-cultural studies; requires students to develop facility in a second language and to pursue independent research; helps students see themselves as members of
larger communities in which they can be leaders; and assists interested students to prepare for post-graduate education. In order to meet these goals, the program: offers small classes designed for Honors students, organized in a seminar format and taught by faculty committed to the program's goals; emphasizes cross-cultural and interdisciplinary perspectives in all core courses; advances students' skills in writing, research, reading and analysis; requires intensive language training; encourages self-directed learning through a third-year research course and the fourth-year seminar or thesis; offers lecture and film series, field trips, and opportunities for public service; and provides information and advising to assist with academic planning.

Some students are invited to apply to the Honors Program upon their admission to DePaul. Invitations to apply are issued on the basis of a student's academic and co-curricular profile. Students are also welcome to initiate their own Honors application. In some cases, continuing DePaul students and transfer students may be considered for the Honors Program through the first quarter of their sophomore year. Students who successfully complete the Honors curriculum will have the designation "Honors Program Graduate" on their official transcript.

**Learning Outcomes**

Students will be able to:

- Demonstrate breadth and depth of knowledge of the arts, humanities, mathematics, natural and social sciences.
- Comprehensively access, systematically analyze, and critically evaluate data and ideas.
- Construct, support, and effectively communicate complex ideas and arguments in speech, writing, and other media.
- Analyze and evaluate texts, creative works, and other primary sources.
- Evaluate ethical issues from multiple perspectives and identify opportunities and strategies for social transformation.
- Demonstrate respect for human diversity and a critical awareness of their own assumptions, stereotypes, and biases when confronting difference.
- Demonstrate understanding of global interconnectedness and interdependencies.
- Reflect on connections between individual experiences and the Honors curriculum.
- Design, research, and execute a significant interdisciplinary project.

**Program Requirements**

Like the Liberal Studies Program, the Honors Program consists of between thirteen and twenty courses representing 52 to 80 quarter hours, the exact requirements determined according to the student's home college and/or major. In general, requirements include core courses, a science sequence, a math requirement, an art requirement, a language sequence, a Junior Seminar, and a Senior Thesis or Senior Seminar. Some AP and IB credit will count towards Honors core courses, science requirements, or language requirements. Depending on the college and major, some Honors requirements may be waived. Specific requirements can be found within the student's college in the Colleges and Schools section.

**Honors Core**

<table>

</table>
Language

- Three courses of intermediate or advanced language study (required for students who are not in a conservatory or BFA program).
- Students who meet the proficiency requirement by placing at the 200-level of a language may consult with an Honors advisor for alternative 3-course sequence options to fulfill the language requirement. Language majors must fulfill the language requirement with one year of language study outside of their major or one of the approved 3-course language sequence alternatives.

Junior Seminar

- HON 301

The Honors Program is committed to developing students’ knowledge and cultural awareness so they may respect and learn from difference. Honors students meet the multicultural requirement by completing HON 301.

Senior Capstone

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HON 350</td>
<td>HONORS SENIOR SEMINAR</td>
<td>4</td>
</tr>
<tr>
<td>HON 351</td>
<td>HONORS SENIOR SEMINAR IN SERVICE LEARNING</td>
<td></td>
</tr>
<tr>
<td>HON 395</td>
<td>HONORS SENIOR THESIS</td>
<td></td>
</tr>
</tbody>
</table>

Senior Thesis Option

Students who choose to complete an Honors Senior Thesis must have their project approved at least one term prior to executing the project. To gain approval for a senior thesis, students must complete an application, including a project proposal, signed by two faculty advisors. In keeping with the interdisciplinary nature of the program, the thesis should attempt to move outside the boundaries normally associated with one particular discipline and should be supervised by two readers from different academic fields. While the final product must be a substantial piece of work building on the student’s accumulated knowledge and new research, specific requirements for each thesis will depend on the nature of the project. See the Director or Associate Director for an application. Students may opt to enroll in HON 300 (a two-credit elective) to receive dedicated guidance as they prepare the thesis project.

Honors Approved Electives

Approved Electives are chosen in consultation with an Honors advisor to achieve specific academic or professional goals. Courses completed for Study Abroad, 200-300 level courses taken for a minor or second major, or 200-300 level courses taken to pursue a specific area of interest outside of the major can count as Honors Approved Electives. The number of Honors Approved Electives depends on the college and major.

Experiential Learning

Honors students fulfill the university's requirement for Experiential Learning (EL) through completion of an internship course, a service learning course, or a mentoring course, or through participation in a study abroad program. The course will verify completion of the EL requirement and be placed where appropriate in the student’s academic program – either as a major requirement, open elective, Honors Approved Elective, or (in the case of HON 351) an Honors core requirement. Students in the School of Education, the School of Music, and the Theatre School whose programs meet the university requirement in experiential learning will be considered to have met the Honors Program requirement as well.

Grade Requirements

A grade of C- or higher in HON 110 or HON 111 is required to remain in the Honors Program. A grade of C- or higher is required to pass the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HON 100</td>
<td>RHETORIC AND CRITICAL INQUIRY</td>
<td>4</td>
</tr>
<tr>
<td>HON 350</td>
<td>HONORS SENIOR SEMINAR</td>
<td>4</td>
</tr>
<tr>
<td>HON 351</td>
<td>HONORS SENIOR SEMINAR IN SERVICE LEARNING</td>
<td></td>
</tr>
<tr>
<td>HON 395</td>
<td>HONORS SENIOR THESIS</td>
<td>4</td>
</tr>
</tbody>
</table>

Study Abroad

Study Abroad is particularly appropriate for students in the Honors Program and, though not required, is strongly recommended. Honors students interested in Study Abroad should plan to participate during their sophomore or junior year and should make certain that they have fulfilled appropriate modern language requirements before that point in their undergraduate careers. They should meet with the Honors Associate Director prior to their departure for pre-approval of course substitutions. Coursework completed abroad may substitute for Honors Approved Electives.

Honors Advising

All Honors students will work with an Honors advisor for academic planning and to schedule Honors courses in conjunction with their major requirements. As a general rule, Honors students take one or two Honors courses each quarter during their first and second years of study and one or two Honors courses a year in the junior and senior years.

Honors Associate Program

Students who apply to the Honors Program having completed between 64 and 96 hours of college work may qualify for the Honors Associate Program. Students in the Honors Associate Program complete four Honors courses (no more than two at the 100-level) and an Honors Senior Thesis. They are also invited to participate fully in Honors co-curricular programming. Interested students can pick up application materials in the Honors Office. Students who successfully complete the Honors Associate Program receive the designation “Honors Program Associate” on their transcript.
WRD 103 Replacement for Students Leaving Honors Program

For students who withdraw from the Honors Program having completed HON 100, and who do not have AP credit for WRD 103, either WRD 103 or one of the following courses must be taken:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>WRD 203</td>
<td>STYLE FOR WRITERS</td>
<td>4</td>
</tr>

College of Business

Located in the heart of Chicago's financial and business center, DePaul's Driehaus College of Business (http://business.depaul.edu/) offers highly respected, practical and innovative programs of business study that empower graduates to achieve more. The college encompasses an undergraduate business program and the Kellstadt Graduate School of Business (https://business.depaul.edu/academics/graduate/Pages/default.aspx), which offers the DePaul MBA, specialized master's degrees and a Doctorate in Business Administration. The college's faculty of scholars and experienced business professionals provide a real-world business education, and the college leverages its connections to Chicago's business community to provide students with hands-on learning experiences and extensive career opportunities. Graduates join a DePaul business alumni network that is more than 60,000 strong. The college is accredited by the AACSB International—The Association to Advance Collegiate Schools of Business, a distinction indicating academic excellence that is earned by less than five percent of business schools worldwide.

develop real-world business skills for accelerating or redirecting their careers.

Programs include:

- Bachelor of Science in Business degrees, with a range of majors, minors and honors programs available.
- The DePaul MBA offered in multiple formats. DePaul also partners with corporations to offer onsite MBA degrees for employees.
- Master of Science degrees that focus on specific business expertise.
- Doctorate in Business Administration for executives who seek to deepen their research acumen or enter academia.

Combined and dual degrees:

- Combined Bachelor's and Master's degrees
- MBA/Master of Public Health
- MBA/MA in Health Communication
- MBA/JD
- MFA in Creative Producing (offered by Kellstadt and the School of Cinematic Arts in the College of Computing and Digital Media).

**Bachelor of Science in Business**

The Bachelor of Science in Business (BSB) is the undergraduate business degree offered by the Driehaus College of Business. The degree is composed of study in several areas of required coursework:

**Business Core**

The Business Core is a group of requirements focusing on professional business preparation to be completed by all students seeking the BSB degree. The specific classes a student takes for Core completion can vary according to selection of major or minor.

**Liberal Studies Program**

The Liberal Studies Program is a set of requirements in which a student is exposed to liberal studies education through classes taken from departments and programs across the university. Students pursuing the BSB complete required courses in business ethics, business calculus, and business statistics through Liberal Studies requirements.

**Major**

In the major program, a student pursues specialized coursework in a business area. Some majors in the college require selection of a concentration to further focus the field of study. Majors can be declared at time of admission. A major must be declared prior to graduation.

**Open Electives**

Open Electives allow a student to explore additional areas of interest or work toward a minor or second major. The selection of major or minor determines the number of open elective hours needed.

While not required for completion of the degree, students in the college are able to pursue additional opportunities for study such as minors, modern languages, study abroad programs, and internship-based courses.

A minimum of 192 quarter hours of degree applicable credit is required for completion of the BSB. A student's degree plan and factors such as course selection, transfer credit, and major and minor requirements may result in a student exceeding the hours minimum. In addition to college and departmental requirements, all students pursuing the BSB are subject to university policies on degree conferral.
Learning Goals

The Learning Goals for the Driehaus College of Business undergraduate program are:

- Communication - Driehaus students will be able to communicate effectively both orally and in writing.
- Global Business Perspective - Driehaus students will understand business within a global context.
- Ethical and Legal Awareness - Driehaus students will be able to recognize ethical and legal issues confronting them.
- Decision-making - Driehaus students will be able to use analytical and reflective skills in making decisions.
- Teamwork - Driehaus students will be able to understand group and individual dynamics within a business setting.
- Mastery of Content - Driehaus students will acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Honors Program

Most students follow the Liberal Studies Program to meet their general education requirements. However, students accepted into the Honors Program fulfill general education requirements through an alternative set of courses. A student in the Honors Program pursuing a primary major in the Driehaus College of Business follows the requirements below:

Honors Core

</tbody>
</table>

Business majors are not required to take HON 180.

Science
- HON 225

Arts
- HON 205
- One applied, performance, or studio course from approved list.
- For Hospitality majors, HSP 303 and HSP 304 replace the Fine Arts Elective and fulfill the Experiential Learning requirement.

Language
- Three courses of intermediate or advanced language study.

Students who meet the proficiency requirement by placing at the 200-level of a language may consult with an Honors advisor for an alternative 3-course option for fulfilling the language requirement.

Junior Seminar
- HON 301

The Honors Program is committed to developing students’ knowledge and cultural awareness so they may respect and learn from difference. Honors students meet the multicultural requirement by completing HON 301, the Junior Seminar in Multiculturalism.

</tr>
</tbody>
</table>

Students who choose to complete an Honors Senior Thesis must have their project approved at least one term prior to executing the project. To gain approval for a senior thesis, students must complete an application, including a project proposal signed by two faculty advisors. In keeping with the interdisciplinary nature of the program, the thesis should attempt to move outside the boundaries normally associated with one particular discipline and should be supervised by two readers from different academic fields. While the final product must be a substantial piece of work building on the student’s accumulated knowledge and new research, specific requirements for each thesis will depend on the nature of the project. See the Director or Associate Director for an application and thesis materials. Students may opt to enroll in HON 300: Honors Research Seminar (a two-credit elective) to receive dedicated guidance as they prepare the thesis project.

Honors Approved Elective

Business majors in the Honors Program are allotted one Honors Approved Elective. This course, selected in consultation with an Honors advisor to achieve specific academic or professional goals, will allow students to explore an area of study at the 200-300 level outside of the major. Students in the Hospitality major may request a waiver from this requirement.

Experiential Learning

Honors students fulfill the university’s requirement for Experiential Learning (EL) through completion of an internship course, or a service learning course, or through participation in a study abroad program. The course will verify completion of the EL requirement and be placed where appropriate in the student’s academic program – either as a major requirement, open elective, Honors Approved Elective, or (in the case of HON 351) an Honors core requirement.

Grade Requirements

A grade of C- or higher in HON 100 and HON 110 or HON 111 is required to remain in the Honors Program.
A grade of C- or higher is required to pass the following courses:
HON 100, HON 350, HON 351, and HON 395.

Course Prerequisites
A student in the Driehaus College of Business is expected to observe and adhere to course prerequisites. Prerequisites for courses are noted in Campus Connection and can include requirements for class standing, course completion and placement testing.

Given the sequential nature of coursework in business and the structure of major and minor programs in the college, consideration of course prerequisites is essential to successful planning and degree completion.

Graduation/Degree Completion
Graduation/degree completion is the official granting of a degree by DePaul University upon successful completion of all degree requirements.

Degrees are awarded at the end of each quarter. In order to have the degree awarded, all requirements must be satisfied, including:

- Submission of an Application for Graduation in Campus Connection
- Declaration of the major (and minor, if applicable) prior to graduation
- Completion of ACC 101, ACC 102, ECO 105, ECO 106, MAT 135, MAT 136, MAT 137, WRD 103*, WRD 104*, the Professional Writing requirement and ICS 392* with a minimum grade of C- in each course
- Completion of all courses in the major field (and minor, if applicable) field with a minimum grade of C- in each course (even if Global Business Perspective, extra or open elective)
- A minimum grade point average of 2.000 within the major and minor (and minor, if applicable)
- A minimum cumulative grade point average of 2.000 for DePaul coursework
- A minimum of 192.0 degree applicable hours
- Completion of the last 60.0 hours of coursework for the degree at DePaul
- Posting of all of grades in Campus Connection by the end of the grading period (five business days after the quarter ends)

*Students in the University Honors Program do not take WRD 103, WRD 104 or ICS 392.

A student who is nearing the completion of the degree should consult with his or her academic advisor in the Undergraduate Programs office regarding the graduation/degree completion process.

Pass/Fail Option
The purpose of the pass/fail option is to encourage students to seek educational experiences in courses which are not required in the student's program.

In conformity with the university policy on the pass/fail option, students in the Driehaus College of Business may take only Open Electives pass/fail and then only in courses outside of the student's major or minor program. Only one pass/fail per discipline is allowed.

Degree seeking students in the college must enroll for a letter grade in all parts of the Liberal Studies Program, the Business Core, and in all major or minor program courses. Students must be in good standing with a GPA above 2.000 in order to apply for pass/fail and may take a maximum of one pass/fail class per quarter. Grades of A to D are considered passing grades.

Please refer to the Undergraduate Student Handbook for the complete university policy on the pass/fail option.

A student must complete a pass/fail application in the Undergraduate Programs office for each course taken on a pass/fail basis by the application deadline published by the university in the Academic Calendar.

Test, Credit and Placement
Driehaus College of Business students are subject to the university's policy on transfer credit and credit by examination:

A maximum of 132 transfer hours (quarter hours) will be applicable to any undergraduate degree at DePaul. This includes transfer courses taken at both community colleges and other four-year institutions. Of the 132 quarter hours, a maximum of 99 quarter hours earned at a community college may be applied to a DePaul University degree. CLEP, International Baccalaureate and/or AP credits combined with transfer credits from two-year institutions will total no more than 99 hours and combined with credits from four-year institutions will total no more than 132 hours.

More detail about DePaul policies on transfer credit and credit by examination may be found in the Undergraduate Student Handbook.

Majors and Minors
For a student to earn the Bachelor of Science in Business, completion of at least one major in the Driehaus College of Business is required. In addition to the primary major in business, a Driehaus student may choose to complete a secondary major, additional concentrations or a minor within the college or from another college at the university.

Non-business students are welcome to complement their areas of study by completing a major or minor in the Driehaus College of Business. They should meet with an academic advisor in the Driehaus Undergraduate Programs office to review relevant policies and course requirements.

Majors
Declaration
Upon matriculation into the university, a student may declare a Driehaus major. A student will complete the major requirements in place at the time the student declares the major. Some majors require declaration of a concentration, which is added to the record at the time of major declaration. A major must be declared prior to graduation.

Major Policies and Requirements
For all students pursuing a Driehaus major, the following policies and requirements are in effect:

- All requirements for the major including concentration must be completed as specified by the major department at the time the student declares the major
- The number of hours required for completion of a major varies
- At least one half of the major field coursework must be completed at DePaul
- The following courses must be completed with a minimum grade of C- unless otherwise noted for a specific major:
• All courses completed from the major department whether taken for a requirement or for another purpose
• All courses used toward completion of the major
• A minimum grade point average of 2.000 including all major field courses taken for a requirement or for another purpose

Secondary Majors and Concentrations
For all students pursuing a secondary Driehaus major or additional concentrations for a Driehaus major, the following policies and requirements are in effect:

• Some combinations of secondary majors, additional concentrations and minors are prohibited as noted in the requirements section for the major, concentration or minor
• At least 50% of the courses used for the completion of a second major must be unique to the completion of that major
• At least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration
• A course taken as part of an secondary major or additional concentration may be used toward another purpose in the degree plan, such as an Open Elective

Majors outside the Driehaus College of Business
A student pursuing the Bachelor of Science in Business is allowed to complete non-business majors in addition to the required Driehaus major. A student interested in completing a major outside of the college should meet with an academic advisor in the Driehaus Undergraduate Programs office to review relevant policies and procedures. In addition, the student should contact the undergraduate program office for the college offering the non-Driehaus major for advising on requirements for completion of the major.

Minors
Declaration
Upon matriculation into the university, a student may declare a Driehaus minor. A student will complete the minor requirements in place at the time the student declares the minor.

Minor Policies and Requirements
For all students pursuing a Driehaus minor, the following requirements must be observed:

• All requirements for the minor must be completed as specified by the minor department at the time the student declares the minor
• Some combinations of secondary majors, additional concentrations and minors are prohibited as noted in the requirements section for the major, concentration or minor
• At least one half of the minor field coursework must be completed at DePaul
• The following courses must be completed with a minimum grade of C- unless otherwise noted for a specific minor.
• All courses completed from the minor department whether taken for a requirement or for another purpose
• All courses used toward completion of the minor
• A minimum grade point average of 2.000 including all minor field courses taken for a requirement or for another purpose

Minors outside the Driehaus College of Business
A student pursuing the Bachelor of Science in Business is allowed to complete non-business minors. A student interested in completing a minor outside of the college should meet with an academic advisor in the Driehaus Undergraduate Programs office to review relevant policies and procedures.

Graduate Academics
The Driehaus College of Business offers undergraduate, graduate, doctorate and combined degree programs that integrate theory and practice. The Kellstadt Graduate School of Business is a nationally known business school dedicated to developing the real-world business sense needed to take leadership capabilities to the next level.

Programs include:

• The DePaul MBA offered in multiple formats. DePaul also partners with corporations to offer onsite MBA degrees for employees.
• Master of Science degrees that focus on specific business expertise.
• Doctorate in Business Administration for executives who seek to deepen their research acumen or enter academia.

Combined and dual degrees:

• Combined Bachelor’s and Master’s degrees
• MBA/Master of Public Health
• MBA/MA in Health Communication
• MBA/JD
• MFA in Creative Producing (offered by Kellstadt and the School of Cinematic Arts in the College of Computing and Digital Media).

The Master of Business Administration
The DePaul MBA focuses on both theory and practice for career advancement. Skills acquired include an ability to: analyze and take action to perform, inspire others and drive results in the real world.

The MBA degree program is available in three formats: Full-time Day, Weekend and Part-time Evening.

Master of Science Programs
Master of Science degrees are designed for professionals with a specific and focused career path who are looking to enhance and expand their expertise.

Doctorate in Business Administration
The Doctorate in Business Administration (DBA) is designed for highly experienced professionals who seek to take their career to the highest level. The three-year program is designed for working professionals with a previous master’s degree in a business or business-related discipline. The ideal candidate will enter the program with significant business acumen gained through eight to 10 years of managerial or consultative experience. Candidates for the DBA will learn to frame complex business problems in a manner that enables an applied, evidence-based analysis of all available data and rigorous evaluation of potential solutions.

A fundamental component of the DBA experience is the personal working relationship with the research-active faculty of the Driehaus College of Business and Kellstadt Graduate School of Business. These ongoing mentor-student relationships support the doctoral candidates’ professional development in the tools and methods of data analysis and business intelligence. In addition, DBA candidates will advance through their program as members of a cohort of about 15 students. The program’s small group format is designed to build a strong network
of like-minded, high-potential professionals to support each other both during the program and after graduation.

Each year of the program, candidates will participate in nine three-day residencies led by Kellstadt faculty. DePaul’s DBA program begins with a strong emphasis on research methodology and disciplinary coursework that features the most current developments from both academia and professional practice. Coursework simultaneously builds candidates’ interdisciplinary business knowledge and applied research skills. In the second year, DBA candidates will work as part of a small research team, with a faculty mentor, to take a research idea from conception to completion in one year. By the end of the second year, candidates will be expected to have framed and formally proposed their dissertation research. In the third year of the program, candidates will be personally supervised by one of Kellstadt’s research faculty as they pursue their dissertation research. Throughout the program, DBA candidates are exposed to emerging industry and disciplinary developments through a series of doctoral seminars on current topics in business.

### Graduate Business Student Handbook

This handbook outlines academic policies for successfully completing your education at the Kellstadt Graduate School of Business (KGSB). If you are a Doctorate in Business Administration (DBA) student, go to the DBA Student Handbook (p. 321).

#### Courses and Credits

- **KGSB operates on a quarter system, with courses offered in the fall, winter, spring and summer quarters.** The DBA program runs on a residency calendar (https://business.depaul.edu/academics/doctoral/dba/Pages/residency-calendar.aspx).
- **Most courses are worth four credit hours and run for 10 weeks plus an 11th week for exams.** Exceptions include some MBA core courses that are two credits and special courses that span more than one quarter.
- **The unit of credit for quarter hours is defined as one hour granted for 45 minutes of classroom work per week during a quarter.**
- **Total credit hours required to graduate depend on your program.** See the DePaul University Catalog for your program’s credit-hour requirements.
- **Duplication of courses or coursework is not permitted unless you are advised to repeat a course because you received an unacceptable grade per the grade requirements for your program. Double credit is not given for duplicated courses.**
- **All degree requirements must be satisfied within six years, beginning with the quarter you enrolled.** Exceptions may be granted by your academic program director or KGSB.

#### Transferring Credits

- **Up to 12 credit hours earned at institutions accredited by the Association to Advance Collegiate Schools of Business may be applied toward your KGSB MBA or MS degree.** A grade of C or higher is required to receive credit from KGSB. In most cases, a course must be worth four credit hours to be transferred.
- **The actual number of transfer courses accepted may vary at the discretion of KGSB.**
- **Submit your credit transfer requests in writing to KGSB with a course description and syllabus for each course.** In some cases, you also may be asked to provide a bulletin, catalog and/or statement of academic regulations pertaining to the courses.
- **Courses taken six or more years prior to enrollment generally are not transferrable.** Exceptions may be made by your academic program director or KGSB.
- **No more than two courses in the same field are acceptable for transfer without written permission from the academic director of your KGSB degree program.**
- **Transfer credits do not count toward your cumulative grade point average (GPA) at KGSB.**

#### MS Economics and Policy Analysis Waiver Policy

Undergraduate courses taken at either the University of Iowa or Wabash College with prerequisites of intermediate Macroeconomics and Econometrics will be used to waive up to a maximum of two electives (8 credit hours) in the MSEPA program.

#### Credit for 300-Level Courses

- **You may receive graduate credit for one 300-level undergraduate business course completed at KGSB with prior written approval from the department chair or school director of your program.**
- **You must earn a final grade of B or higher in the 300-level course to be able to apply its credits toward your graduate degree.**

#### Grades

- **KGSB faculty members will explain how your coursework will be evaluated at the beginning of each course.** The method for evaluating your progress in the course is at the discretion of the faculty member, providing the method is fair, uniformly applied and made known to the class.
- **Your letter grades and GPA will follow DePaul’s system of evaluating academic achievement (p. 1416).**
- **GPA is determined by averaging the grades from all courses taken at KGSB, including repeated courses. Your GPA will not be rounded.**
- **You will graduate “With Distinction” if you earn an overall GPA of 3.6 or higher.** For students pursuing more than one degree, all courses taken at KGSB are considered in the calculation of the GPA.
- **You must have a cumulative GPA of at least 2.0 (a grade of C) to qualify for graduation from KGSB.** (Also see Additional Requirements by Program).
- **Grade challenges can be initiated by submitting the Grade Challenge Form (https://business.depaul.edu/student-resources/undergraduate/Documents/grade-challenge-form-v3.pdf).**

#### Probation, Dismissal and Reinstatement

- **If your GPA falls below 2.0, you will be placed on probation, which will extend through the next three courses you take.** If your cumulative GPA has not increased to 2.0 after you complete the third course, but you have increased your GPA, you will be placed on final academic probation. During final academic probation, you will be required to meet with an advisor in order to register for classes. Additionally, KGSB will review your academic history and will determine the best course of action. Decisions are final.
- **During your probationary period, you will only be allowed to enroll in (1-2) classes per quarter until your GPA is 2.0 or higher.** During the final probationary period, the number of courses and timing of the courses will be determined on a case-by-case basis by KGSB. Decisions are final.
- **If you have been dismissed from the program, you may petition the assistant dean of KGSB for reinstatement no earlier than one quarter after your dismissal.** Your request must include conclusive evidence of changes in your situation that indicate you are prepared to successfully meet the requirements of your program. The assistant
Incomplete (IN) Grades

- If you receive more than two grades of Incomplete (IN), your registration will be blocked until you have met with an advisor and submitted this form (https://business.depaul.edu/student-resources/Documents/Incomplete%20Grade%20Form%20-%20Driehaus.pdf).

Additional Requirements by Program

MS Students

- If you seek to apply previously earned credit toward your degree, please be aware that you must complete at KGSB a minimum of 50 percent of the maximum number of your MS program's required courses to qualify for an MS degree from KGSB. Some MS programs require more than 50 percent. Check with your academic program director for the exact requirements that apply to your MS program.
- You must maintain a cumulative 2.0 GPA (grade of C) for your courses and at least a C- to gain credit for an individual course.

MBA Students

- If you seek to apply previously earned credit toward your degree, please be aware that you must complete at KGSB a minimum of nine of your MBA courses, or 36 credit hours, to qualify for an MBA degree from KGSB. Depending on the requirements for your concentration, at least two and as many as three of these nine KGSB courses must be in your MBA concentration. Check with your academic program director for the exact requirements that apply to your concentration.
- KGSB may waive MBA core course requirements worth up to 14 credits if your undergraduate major or minor was in the same discipline of these core courses and you earned a grade of C or better.
- MGT 500 and GSB 599 are required of all MBA students and may not be waived or substituted.
- You need a cumulative 2.0 GPA (grade of C) in your concentration courses and any electives associated with your concentration to qualify for graduation.
- For core MBA courses, grades A through D earn credit.
- For concentration or concentration related courses, a grade of C- or higher is required to receive credit. Any grade lower than C- in a concentration course does not count as credit toward your degree and you will need to repeat the course or an approved substitute.
- Written prior permission from your department chair or school director is required to take an advanced course in place of a required one.

Second Concentrations or Degrees

If you seek to add an MBA concentrations to one you have already earned at KGSB, or seek to add an MS degree to any previously earned KGSB degree:

- You are subject to the academic policies and concentration requirements effective at the time of readmission.
- A minimum of 50% of the requirements for the second concentration or degree must be completed as new coursework not applied to any previous degree or concentration.
- Your successful completion of additional concentration(s) or degree(s) will be noted on your official transcript with the completion date(s). For MBAs, you can earn more than one concentration but only one MBA.
- For students returning to earn additional MBA concentrations, your GPA for your original MBA concentration will remain unchanged. If you earned a “With Distinction” with your first MBA concentration, the additional coursework will not change that designation.

- The six-year course expiration rule may be extended or waived in some cases for students returning for second degrees or MBA concentrations.

Auditing Courses

- To audit a KGSB course, you must first receive permission from the academic director of the program that offers the course.
- You will be charged tuition and fees at the rates set for that course, and the full, nonrefundable payment must be made at registration.
- You will not receive credit for audited courses.
- Requests to change auditor status must be made in writing to KGSB and be granted before the end of the third week of class. You may not change to or from auditor status after the third week of class.

Admission & Aid

To succeed in the study of business, students must possess a number of academic qualities. Specifically, students must be able to think analytically and reason to valid conclusions relying on both quantitative and qualitative information. Particular attention is therefore given to the mathematical and verbal abilities of candidates.

Undergraduate candidates interested in admission to the Driehaus College of Business should direct all inquiries to:
Office of Admission
DePaul University
1 E. Jackson Boulevard
Chicago, Illinois, 60604
admission@depaul.edu or (312) 362-8300.

Students interested in the Kellstadt Graduate School of Business should refer to the graduate admission section for more information.

For general information about admission and financial aid please visit: http://www.depaul.edu/admission-and-aid/Pages/default.aspx

For information about graduate admission, or to apply online, please visit: http://www.depaul.edu/admission-and-aid/types-of-admission/Pages/graduate-student.aspx

Graduate Admission

Kellstadt Graduate School of Business

Admission to Kellstadt's Graduate School of Business is based on academic performance, work experience and career progression. GMAT and GRE test scores are required for certain degrees. Learn more about our MBA and Master of Science degree program requirements, formats and timelines (http://business.depaul.edu/academics/graduate/Pages/default.aspx).

Scholarship Opportunities

Please refer to individual academic departments for a listing of available scholarships.

Double Demon Scholarship

The Double Demon Scholarship is awarded to DePaul alumni and covers 25 percent of tuition for degree, non-degree or select certificate coursework taken at the graduate level. Both full-time and part-time students are eligible and no application is necessary. To learn more, contact the admission office for your college of interest (see listing below).
Please note: The Double Demon Scholarship cannot be used in conjunction with other DePaul scholarships, waivers or awards. University employees are eligible for other tuition benefits and are not eligible. The scholarship does not cover coursework from the Center for Professional Education (CPE), the Institute for Professional Development (IPD), coursework in a doctoral program or a master of fine arts (MFA), School of Music, the Theatre School, College of Law and a few other select programs.

Financial Aid
Financial aid and alternative financing programs, as well as scholarships are available to students. Completing a current FAFSA (Free Application for Federal Student Aid) is the first step to determining your overall eligibility for financial aid.

Additional information is available on DePaul’s Admission and Aid website.

Special Programs

Undergraduate Programs Office
The Undergraduate Programs office supports the mission of the Driehaus College of Business in a variety of ways:

- **Academic Advising**: Provides students with guidance on course selection, degree planning, and major and minor selection.
- **Records Auditing**: Assists students with determining degree progress and remaining requirements.
- **Degree Conferral**: Verifies students are eligible to receive their DePaul degree.
- **Declaration Maintenance**: Oversees the accurate application of major and minor plans on students’ records.
- **Orientation**: Introduces new business students to the college through Premiere DePaul, Transition DePaul, and Inter-College Transfer programs.
- **Special Programs**: Enhances the student experience through opportunities and events like Beta Gamma Sigma, Honors Convocation, and the annual Commencement Ceremony.

The Undergraduate Programs office is located in DePaul Center 5200 and may be contacted by telephone at (312) 362-5358.

Academic Advising
All undergraduate degree seeking students in the Driehaus College of Business may receive academic advising in the Undergraduate Programs office.

Academic advisors are available to provide information concerning degree progress, curriculum, course selection, registration, academic regulations, and university policies and procedures. Academic advisors will also make appropriate referrals to help students in the use of college and university resources according to individual needs. Students are encouraged to consult their advisor periodically throughout the year.

In addition, faculty can assist in the selection of major electives and business electives which will best complement a student’s major and career orientation.

The Undergraduate Programs office is located in DePaul Center 5200 and may be contacted by telephone at (312) 362-5358.

College of Communication
Communication is the art and science of creating and sharing meaning. In the College of Communication, you will develop a deeper understanding of the complex and challenging communication practices and processes that characterize our rapidly changing world; you will master the techniques for crafting and delivering messages across a variety of social contexts and platforms: face-to-face, print, audio, video, Web and other social media. You will learn from exceptional teachers - from professors who have many years of experience in some of the biggest media markets in the nation, and from scholars publishing in some of the top national and international journals. You’ll gain hands-on experience in our state-of-the-art facilities, through our award-winning radio station and newspaper, and through a wide range of internships and community projects.

The College of Communication at DePaul has set the stage for enhanced quality, substantially enriched curricular and programmatic offerings, joint programming with other schools and colleges within the university, and expanded opportunities for our students to engage in experiential learning.

Majors

The College of Communication offers eight majors.\(^1\)

- Communication and Media (BA) (p. 212)
- Communication and Technology (BA) (p. 219)
- Communication Studies (BA) (p. 222)
- Journalism (BA) (p. 577)
- Media and Cinema Studies (BA) (p. 691)
- Organizational Communication (BA) (p. 763)
- Public Relations and Advertising (BA) (p. 847)
- Sports Communication (BA) (p. 979)

\(^1\) The College of Communication offers five Master's degree programs that can be combined with any of the eight Bachelor's degree programs. The graduate programs include: Communication and Media (p. 215), Digital Communication and Media Arts (p. 313), Health Communication (p. 481); Journalism (p. 580); and Public Relations and Advertising (p. 850).

Honors Program

Most students follow the Liberal Studies Program (p. 1164) to meet their general education requirements. However, students accepted into the Honors Program (p. 1191) fulfill general education requirements through an alternative set of courses.
Latino Media & Communication Concentration

The program educates students to think critically about all aspects of media and communication, with a particular focus on Latino media and Latino communities. Coursework provides students with the applied skills necessary to create communication strategies, which effectively reach the Latino segment of the population, based on an understanding of Latino cultures in the US and grounded in an understanding of its cultural, economic and sociological aspects. This concentration is open to all communication majors.

Learning Goals

Students who complete the concentration will:

- Develop an understanding of the heterogeneous and rapidly changing Latino communities locally, nationally, and globally.
- Ground their knowledge of intercultural studies within a more extensive and concrete knowledge of a particular (even though diverse), rapidly growing, and increasingly important population within the US Latino communities.
- Increase their cross-cultural competence (understanding and ability to dialogue across difference, develop cultural sensitivity and awareness) with Latino communities.
- Develop insights into the needs and motivations of Latino populations in the workplace, in community situations, and other sites of engagement, and develop communications tools and strategies to address those needs and motivations.
- Enhance their capacity to communicate with and learn from Latino populations in the workplace, in community situations, and other sites of engagement.
- Recognize the impact of the movement of Latinos across the globe and to develop the skills to critically consume and produce media, public relations, and advertisement representations that communicate to and about Latino communities.
- Both engage and demonstrate their interest in Latino Studies within and across diverse areas of knowledge production in the Communication field.

1 For credit in this concentration, the internships must focus on Latino media and communication.
2 For credit in this concentration, the course topic must focus on Latino media and communication.

Graduate Academics

The College of Communication offers five Master of Arts programs, two certificate programs, and one joint degree program.

Master of Arts Programs

- Communication and Media
- Digital Communication and Media Arts
- Health Communication
- Journalism
- Public Relations and Advertising

Certificate Programs

- Digital Communication
- Health Communication

Joint Degree Programs

- Master of Business Administration/Master of Arts in Health Communication

Communication Graduate Academic Student Handbook

In addition to the DePaul University Graduate Student Handbook, the College of Communication Graduate Student Handbook includes requirements, rules and regulations for its graduate programs.

Upon admission to a graduate program, a student is to follow the catalog requirements in effect at the time of admission. A student who is readmitted or who changes his or her program or enrollment status is subject to the terms of the catalog in effect at the time of readmission or status change.

As a graduate student, you assume the responsibility to know and meet both the general and particular regulations, procedures, policies, and deadlines set forth in this catalog and handbook. This catalog does not constitute a contract between the student and the university. Every effort has been made to provide accurate and detailed information. The university reserves the right to revise the content of its catalogs and schedules; to change policies, programs, requirements, rules, regulations, procedures, calendars and financial schedules; to establish and modify admission and registration criteria; to cancel or change courses or programs and their content and prerequisites; to limit and restrict
Courses and Credit
No one is permitted to attend a class for which he or she has not been properly and officially registered. Credit is accumulated on the basis of quarter hours. The College of Communication does not allow students to audit graduate coursework. Undergraduate courses will not count toward the degree completion requirements of a graduate degree program in the College of Communication.

Students are not permitted to take graduate classes as pass/fail. They must earn a letter grade in all coursework. Grades of "D" and "F" are failing grades and will not count towards the completion of the degree. If a course is repeated, all of the grades are recorded on the academic record and calculated in the GPA.

Students enrolled for eight or more credit hours in an academic quarter are considered full-time. Students enrolled for four to seven credit hours in an academic quarter are considered half-time.

Credit Limitation
Courses completed within six years of the student's first date of enrollment will be considered in awarding the final degree.

Independent/Experiential Learning Course Credit Limitation
Graduate Students in the College of Communication may elect to enroll in independent/experiential learning courses such as CMN 591 Internship, CMN 592 Independent Study, CMN 593 Research Practicum, or JOUR 517 Experiential Learning in Journalism to fulfill elective requirements in their programs. A maximum of 8 credits (usually two 4-credit courses) of these independent/experiential learning courses in any combination will apply toward the degree. These courses also have enrollment requirements that must be met prior to registration. Please see the Independent Study/Experiential Learning (https://communication.depaul.edu/academics/graduate-programs/Pages/independent-study.aspx) or Internships (https://communication.depaul.edu/internships/graduate/Pages/default.aspx) sections of the College of Communication website for specific enrollment requirements.

Transfer Credit
College of Communication graduate degree-seeking programs vary with regard to the number of transferred credit hours allowed, with a maximum threshold of three courses (12-credit hours) that can be transferred in. Students must have earned a grade "B" or better in graduate-level courses in order for credit to be transferred. The courses must have been taken in the last five years and not taken toward the completion of another academic degree. Course transferability is not guaranteed, and each request will be addressed on an individual basis.

Dismissal
Failure to Advance
All students are required to complete all requirements of their MA program within six years of first enrollment. Students failing to meet this requirement may be dismissed from the program. However, students can officially withdraw from the program and reapply later. If re-admitted, their previous coursework will count toward the degree if it meets the requirements of the program at the time of readmission; the six year time frame will include both spans of attendance, but not the time during which the student was not in the program.

Students who have not officially withdrawn from the program, but have been discontinued or dismissed from the active status roster will need to complete a re-application (and any other required admission materials as determined by the Graduate Advisor, Graduate Program Director, and Associate Dean) to resume the program and begin taking courses again, or to be eligible for the master's thesis defense, project, or comprehensive exams. Re-admission into the graduate program is not guaranteed, but if readmitted, the six year time frame will still remain from the date of the original enrollment.

Failure to Pass Comprehensive Exams
Students have two attempts to pass their comprehensive examination in programs where such examinations exist. Failure of one or all sections of the exams after the second attempt will result in dismissal from the program.

Failure to Advance Thesis Policy
Failure to advance thesis policy. If a student does not make significant progress towards the completion of the thesis within one year of submitting the thesis approval form, the student's committee has the authority to determine if the student is allowed to continue with the thesis. If the committee decides to discontinue the thesis, the student must choose another degree completion option to fulfill the degree completion requirement.

Failure to Meet the Requirements of Conditional Acceptance
A failure to meet the requirements of conditional acceptance admission decisions will result in dismissal from the graduate program.

Failure to Meet the Requirements of an Academic Probation Plan
A failure to meet the requirements of an academic probation plan will result in dismissal from the graduate program.

Special Circumstances
If a student has made good progress toward a degree program and has a compelling explanation for the circumstances that caused the dismissal, he or she may petition the graduate board for reinstatement. The graduate board will decide if any exceptions to the dismissal policy are warranted, and the board's decision will also require the approval by the Associate Dean of Graduate Programs. To appeal an academic dismissal, a student must submit to the graduate advisor a letter of petition, current transcripts (including transcripts if credits were earned elsewhere after the dismissal from DePaul), and a current résumé.

Graduation Requirements
Degree Requirements
You must have successfully completed all of the general and specific degree requirements as listed in departmental or program sections of the catalog under which you were admitted. Completed degree requirements can include the submitting of the thesis, project, or comprehensive examination scores, and, if necessary, grade changes. Students need to achieve a minimum grade point average of 3.000 to graduate. Students must complete all degree requirements within six years of the first term of enrollment.

Graduation with Distinction
In order to graduate with distinction from any of the College of Communication graduate programs, students must earn a 3.850 cumulative GPA or higher at the time of graduation.

For students completing their graduation requirements at the end of Spring or Summer Quarters and participating in the June commencement ceremony, the cumulative GPA at the end of Winter Quarter will be used to determine if the student's name will appear with distinction in the commencement book and be read with distinction at the ceremony.
Probation
All students are required to maintain a cumulative GPA of 3.000 in their coursework. If a student's cumulative GPA falls below 3.000, the student will be allowed to complete an additional 16 credits or 3 quarters (whichever comes first) to attain the 3.000 minimum GPA. If the cumulative GPA remains below a 3.000 at the conclusion of this time period, the student may be dismissed from the program. The student’s cumulative and term GPAs along with overall academic performance will be factored into the dismissal decision.

For specific information, please see the Grades section in the University Graduate Student Handbook.

Readmission
Applicants are admitted to the College of Communication on the basis of their proven competencies measured by academic criteria, recommendations, and demonstrated ability to complete programs of study and research prescribed for the M.A. programs.

Readmission Procedures
Applications for readmission to any of the College of Communication graduate programs after a dismissal will only be considered after one calendar year. Students who were discontinued from the active status roster for a period of 1-4 (maximum) calendar years must file a readmission application (and any other required admission materials as determined by the Graduate Advisor, Graduate Program Director, and Associate Dean). If more than four years have elapsed since the student has been in attendance, s/he must file a new application with all supporting application materials. The form must be submitted at least two weeks prior to the day of registration for the term in which you expect to resume your studies.

Official copies of transcripts recording scholastic work completed while not enrolled at DePaul University must be submitted. As a policy, students are held to the degree requirements that are in effect at the time of readmission.

Reclassification Procedures
Should the student desire to change programs or admission status, s/he must complete a new online application for the desired program. After submitting the application, it is the applicants’ responsibility to contact the Office of Graduate Admission to verify if any additional documentation is needed.

If you are switching to a different track in a joint program between colleges, you must complete an online application for the partnered college. After submitting the online application, some updated documents may be required.

Registration
Registration in Courses in Other Colleges or Schools
College of Communication graduate students may be permitted to register for graduate-level courses offered in other colleges or schools of the university after appropriate consultation and approval, including:

- Submitting written approval from the instructor of the outside course for the CMN student to take the desired course as an elective. The student must submit this approval to the graduate advisor.
- Once received, the graduate program director or graduate advisor must give final approval that the outside elective will count towards degree completion requirements. The graduate advisor can assist with registration, if necessary.

Non-College of Communication Student Course Registration
Students who are not enrolled in a CMN graduate program may register for courses if they receive written permission by the instructor and approval from the graduate advisor. Students must forward the email stating instructor approval to CMN graduate advisor to determine next steps. Non-degree seeking students are not permitted to sit in graduate communication courses unless prior approval is received from the college office.

Residence Registration
All graduate students who will use the facilities of the university (library, laboratory, etc.) or who will consult with faculty members regarding theses, projects, or comprehensive examinations, must be officially registered in each quarter.

Late Add Policy
Students will not be added to courses past the add deadline for each quarter as posted on the Academic Calendar. The Academic Calendar is available on DePaul's website prior to the start of each academic year. All enrollments must be completed before this date. After this date, students will be unable to add courses through Campus Connect, and the graduate advisor will not process late adds due to University policy, even if the student has gained instructor permission.

For certain courses such as internship courses, independent studies, or courses that have a later start date indicated on Campus Connect, a late add is occasionally permissible and can be discussed with the graduate advisor. In the rare case that a student must be added late to a course because of extenuating circumstances, permission from both the instructor and the Associate Dean of the College of Communication is required. If the student gains permission from the instructor, the instructor must contact the Associate Dean with the reason for the late add. If the Associate Dean approves the request, it is then forwarded to the graduate advisor for processing. Students should not attend any course for which they are not registered.

Closed Course Policy
The College of Communication will not process additions to closed Communication courses. Students should not attend a class for which they are not registered.

In rare circumstances, a student who needs a specific course in their final quarter will be added by the graduate advisor to a closed course so that they can meet degree requirements in their final quarter. If there are other sections of that course still open, the student must add the open section. If a student finds a course that they need to graduate is closed, they must email the graduate advisor and request addition to the closed course. The advisor will verify that the course is required for graduation in that term and that there are no other sections of that course open. If those conditions are met, the student will be added to a section of the course.

Once a course is closed, students should not email instructors to be added to closed courses. Course limits are set so that all students and the instructor can have a positive classroom experience. In the rare circumstance that an instructor does approve the addition of a student to his or her closed course, the instructor must email the graduate advisor within the deadline to add courses for that quarter so that the enrollment can be processed. Late additions to courses will not be processed, even with instructor permission. The deadline to add courses can be found on the Academic Calendar, which is available on DePaul's website.
Important Tips for Registration
- Check your Holds and To-Dos frequently by signing in to Campus Connection (http://campusconnect.depaul.edu/). Please resolve them as soon as possible, as some may affect your ability to register.
- Our online Learning Center with Campus Connection will help you make full use of new and updated tools for registration.
- Familiarize yourself with the Academic Calendar (https://academics.depaul.edu/calendar/Pages/default.aspx), which includes critical academic and financial deadlines.
- Answers to many student questions can be found on DePaul Central website.

Admission & Aid
Undergraduate candidates interested in admission to the College of Communication BA programs should direct all inquiries to the Office of Admission:

Lincoln Park Campus:
Welcome Center 2400 North Sheffield Ave.
Chicago, IL 60614
(312) 362-8300
admission@depaul.edu

Loop Campus:
DePaul Center
1 East Jackson Blvd.
Chicago, IL 60604
(312) 362-8300
admission@depaul.edu

Graduate candidates interested in admission to the College of Communication MA programs should direct all inquires to the Office of Graduate Admission:

Office of Graduate Admission
College of Communication
DePaul University
2400 N. Sheffield Avenue
Chicago, IL 60614
(773) 325-4405
gradcom@depaul.edu

Scholarship Opportunities
Undergraduate
DePaul awards a variety of admission scholarships to freshmen and transfer students, as well as some scholarships for current students. For information about university opportunities, visit the scholarship page (http://www.depaul.edu/admission-and-aid/Pages/scholarships.aspx) of DePaul’s Admission and Aid website. The College of Communication offers some scholarship support for continuing undergraduate students. Communication scholarships opportunities vary; typically three to five scholarships are awarded each year, in the $1000-$2500 range. Details on Communication scholarship offerings can be found at communication.depaul.edu (http://communication.depaul.edu/Pages/default.aspx).

Financial Aid
Students who plan to fund their education through federal loans should complete and submit the Free Application for Federal Student Aid (FAFSA). DePaul's Financial Aid Office will create a financial aid package based on your FAFSA information.

Graduate Admission
The College of Communication offers five graduate programs at the master's level: Communication and Media, Digital Communication and Media Arts (Digital Communication track), Health Communication, Journalism, and Public Relations and Advertising.

Classifications
Full Degree-Seeking Status
The minimum requirements for this status are:

- Bachelor’s degree conferred by a regionally accredited institution.
- Scholastic achievement in undergraduate studies indicating a capacity to successfully pursue a specific program of graduate study.
- A minimum cumulative grade point average of 3.0.
- Submission of all required supporting credentials.

Conditional Degree-Seeking Status
The minimum requirements for this status are:

- Bachelor’s degree conferred by a regionally accredited institution.
- Scholastic achievement in undergraduate studies indicating a capacity to successfully pursue a specific program of graduate study.
- Submission of all required supporting credentials.
- Conditional approval by the department or graduate program director of the applicants proposed program of graduate study.
- Academic conditions as designated in the conditional admission letter.
- No independent studies or non-program courses may be taken while in a conditional status.

A conditionally admitted applicant is eligible for reclassification to full, degree-seeking status when the conditions of his or her admission have been satisfied.

DePaul Students and Combined Degree Programs
Undergraduate students from any major at DePaul University are eligible to apply for admission in one of the five combined degree programs. Admission is conditional until the conferred bachelor’s degree is posted on the DePaul transcript. The M.A. programs in Communication and Media, Digital Communication and Media Arts (Digital Communication track), Health Communication, Journalism, and Public Relations and Advertising offer an accelerated master’s degree that begins in an undergraduate’s senior year and may be completed in one subsequent year. Further information about these combined degree programs can be found within specific program descriptions in this Catalog and on the College website.

Admission Procedures
General Procedures
Procedures for admission to the graduate programs in the College of Communication are outlined below. For specific information about admission requirements and deadlines to each department or program, please consult the College of Communication website.

Application: You can apply online at: www.depaul.edu/apply. (http://depaul.edu/apply/) To request information about College of Communication graduate programs, please email gradcom@depaul.edu (gradcom@depaul.edu%E2%80%8B).
Supporting Credentials: We require official transcripts from all universities, colleges, and junior colleges you have attended. Please request that transcripts and other credentials be sent directly to the Office of Graduate Admission, College of Communication, 2400 N. Sheffield, Chicago, IL 60614-2215. We also accept official electronic transcripts sent to our office at gradcom@depaul.edu (gradcom@depaul.edu). We recommend that you request transcripts in sufficient time to meet the programs deadline.

The College of Communication graduate programs require additional supporting credentials before an application file is considered complete. Please consult the specific program listing on the College of Communication website to determine what additional materials are required for admission and the deadline by which applications and supporting materials should be submitted. International applicants should reference the additional admission requirements listed on our International Student Admission page on the College of Communication website.

Application Fee: You can pay the application fee online as part of the online application or send a check or money order payable to DePaul University. Consult the application instructions for specific information about amount of the fee. If paying by check or money order, send it along with your supporting credentials to the Office of Graduate Admission, 2400 N. Sheffield, Chicago, IL 60614-2215. Applications submitted without an application fee will not be processed. The fee is non-refundable.

Application Deadline and Entry Terms: Consult the College website for program-specific information about application deadlines and to which academic terms the program admits new students. Our office accepts and reviews applications on a rolling basis.

Admission Decisions: The graduate admission office will notify you of your admission decision by letter typically within 4-6 weeks of your application being complete. Admission applications will be reviewed only after the application and all supporting credentials, along with the application fee, have been submitted.

Deferring Admission: If you do not enroll in the term to which you were admitted, you may request that your admission be deferred for up to one year after the term to which you were admitted. After one year, you must reapply to the program. Email gradcom@depaul.edu to request a deferral.

International Student Admission
Students who require a student visa (I-20) in order to study at DePaul must meet all admission requirements and demonstrate adequate financial support. Applicants educated in a country in which the native language is not officially recognized as English must also submit proof of English proficiency. College of Communication programs require a minimum TOEFL score of 590 (paper-based), 243 (computer-based), or 96 with no individual score less than 22 (internet-based). DePaul also accepts the IELTS (International English Language Testing System) with a minimum score of 7.5. English proficiency scores below these minimum scores may be considered for some programs. For more information on conditional admission, please visit the College of Communication website.

The letter of admission and I-20 are issued only after admission. International students are encouraged to complete their applications at least one month prior to any published program deadline, or no later than three months before the start of the term, whichever date comes first.

Special Programs
14 East
14 East is our topical, student-produced online magazine first launched in May of 2016. This collaborative of DePaul Students cultivates interest in any array of subjects, from politics, to literature, to culture. At 14 East, readers can find unique perspectives on issues that impact the lives of young adults in Chicago.

Adventors
The DePaul Student Advertising Group is the official organization for students interested in advertising at DePaul University, and part of the leading national industry trade organization devoted to best practices, professionalism, and education. Our purpose is to bring together students who share a passion for great advertising and communication solutions. Our group helps prepare students for a career in advertising by facilitating an ongoing dialogue that covers the latest developments and trends in the ad industry. We do this through a mix of guest speakers and advertising industry presentations, student ad competitions, networking and career information sessions, visits to local Chicago area advertising/ communication agencies, and social events.

Good Day DePaul (GDD)
Good Day DePaul is a weekly television news program about DePaul that is produced by students in the College of Communication. Students do on-air reporting and anchoring for the program. They also work as producers, directors, and camera people. Good Day DePaul has won many honors from both the Society of Professional Journalists and the Chicago Television Academy.

Graduate Communication Association (GCA)
The Graduate Communication Association is a student-led, student-run organization with a primary goal to create community, relationships and camaraderie among students in the seven graduate programs in the College of Communication. We serve as a resource for students, faculty, staff and administration by offering a space to better meet the needs of the graduate students of DePaul University. We also provide students the opportunity to get involved in networking and social events, as well as philanthropic service hours.

Internship Program
The College offers an undergraduate internship program through which majors and minors can earn academic credit and gain practical experience in a professional setting. Students may be enrolled in CMN 394 and/or CMN 395 (topics vary), only after meeting college-established eligibility requirements. An individual student may participate in several internship experiences. A maximum of 16 quarter hours of internship and practicum credit can be applied to degree requirements. CMN 394 may be used to fulfill the Experiential Learning Requirement in the Liberal Studies Program and/or as a major field requirement. If a second internship is taken, CMN 395 may count as a communication elective. A maximum of two graded internships can be used toward the major field requirements. Subsequent hours of internship credit are taken through different CMN 395 special topics courses and fulfill unrestricted electives. Communication minors may have one graded internship count towards completion of the minor.
Public Relations Student Society of America (PRSSA)
For students interested in a career in public relations, participating in PRSSA is an essential cornerstone of your DePaul experience. The organization hosts a vibrant schedule of activities such as visits to Chicago public relations agencies and career fairs that will build your professional network and put you on the radar screens of future employers. The DePaul Chapter has won national recognition including the Teahan Award for Outstanding Regional Conference, the highest honor a PRSSA Chapter may earn. DePaul's Regional Conferences have been sold-out events that have drawn students from campuses across the Midwest with such powerful themes such as Transforming Traditional Into Digital: The New Ways of PR; The Entertainment Industry: It's Not Just an LA Thing; and PR: The Chicago Way.

Radio DePaul
Radio DePaul is DePaul University's award-winning student radio station, most recently having been named Best Online College Station in 2017. The station was a finalist for 28 national and state college radio awards in 2015, winning 12. Overall, Radio DePaul has been a finalist for over 100 national and state college radio awards since 2010.

In 2015, the station launched "The Radio DePaul Podcast" (https://soundcloud.com/radiodepaul/sets/the-radio-depaul-podcast/). The weekly podcast typically revolves around a theme and features new and repurposed content from Radio DePaul's live shows. The podcast was honored with a College Media Advisers Pinnacle Award for Best Podcast in the fall of 2015. In the Fall of 2016, the Radio DePaul news team launched the "ICYMI" (https://soundcloud.com/radiodepaul/sets/best-of-radio-depaul/) podcast, a weekly wrap-up of top headlines and stories from the station's "Pocket News" reports at noon and 5 PM (Monday-Friday).

Both channels are located on DePaul's Lincoln Park campus. The channels are best enjoyed via The Radio DePaul App, which is available for free in the respective app stores. Students can apply to join either or both channels at radio.depaul.edu (http://radio.depaul.edu/).

Society of Professional Journalists (SPJ)/Online News Association (ONA)
This is a student-run organization for students interested in careers in journalism. The DePaul chapter sponsors campus speakers, career information sessions, and journalism seminars/conferences. Student members are eligible to apply for SPJ and ONA - sponsored internships and student competitions.

The DePaulia
The DePaulia is the award-winning newspaper produced by students at DePaul University. The paper publishes every Monday during the school year; its sister website, depauliaonline.com (http://www.depauliaonline.com/), also publishes Mondays and updates regularly to report on breaking news.

The paper is divided into six sections -- News, Nation/World, Opinions, Focus, Arts/Life and Sports (https://depauliaonline.com/category/sports/). In addition to coverage of the university, the staff covers news of the Lincoln Park and South Loop communities. Sports stories can be as diverse as covering an athlete's accomplishment to writing about what a decline in basketball ticket sales means to the athletic program. Features can range from where to get the best deals on groceries to how to look fashionable in the winter. Arts and Life and Weekend Edition stories cover anything in the City of Chicago that can be of interest to the student population.

Writing and editing positions are open to all students; one does not need to be a journalism major (https://communication.depaul.edu/academics/journalism/Pages/default.aspx) to work on The DePaulia. In fact, many of our award-winning stories last year were produced by non-journalism majors. Many journalism teachers will take good work produced in their class and submit it to The DePaulia editors for consideration. Also, the Writing for The DePaulia (JOUR 390) course is open to all students who have taken Introduction to Journalism (JOUR 275) and News Reporting (JOUR 278) and regularly funnels stories, photos and video to the paper.

College of Computing and Digital Media
DePaul's College of Computing and Digital Media (CDM) is organized into three schools: the School of Cinematic Arts (SCA), the School of Computing (SoC), and the School of Design (SoD) featuring degree programs designed to keep pace with the latest developments in technology while remaining grounded in the liberal arts. DePaul CDM has a reputation for offering an extraordinary selection of degree programs and courses from traditional computer science, information systems, and cybersecurity to game development, film and television, animation, and graphic design. At CDM, students will experience a dynamic interdisciplinary curriculum and the opportunity to satisfy their academic curiosity through a wide range of minors that reflect the diverse offerings of CDM's curriculum.

Administration & Faculty
Administration
David Miller - Dean
Lucia Dettori - Associate Dean
Raffaella Settimi-Woods - Associate Dean
Theresa Steinbach - Associate Dean
JoAnne Zielinski - Associate Dean
Jennifer McClelland - Assistant Dean of Budget Administration
Xiaoping Jia - Director of Academic Scheduling
Gary Novak - Director of the School of Cinematic Arts
Jacob Furst - Director of the School of Computing
The College believes that academic advising is necessary for the vitality and success of the student’s education. Students are assigned a faculty advisor prior to the first term of enrollment in the college. All students are encouraged to meet with their faculty advisor at least once each year for assistance in planning a course of study that best reflects their academic and career interests, skills, and lifestyle. Students have access to professional staff advisors in the CDM Academic Success Center to assist with providing interpretations of university policy, academic success strategies and support services.

Advising Staff
John Glatz - Director of Advising
Katie Schiller - Associate Director of Advising
Brooke Shannon - Sr. Academic Advisor
Kevin Cato - Academic Advisor
Heather Chafin - Academic Advisor
Veronica Dillard - Academic Advisor
Rachel Moore - Academic Advisor

Undergraduate Academics
The College of Computing and Digital Media offers BA, BS, and BFA degrees at the Undergraduate level and MA, MS, MFA, and PhD degrees at the Graduate level. An option to pursue a combined Bachelor/Master’s degree is also available for qualified students.

Academic Policies
All students are expected to be familiar with and are responsible for the policies included in the DePaul University Undergraduate Handbook and CDM web site.

As a student, you assume the responsibility to know and meet both the general and specific policies and deadlines outlined in this catalog and handbook.

Honors Program
Most students follow the Liberal Studies Program (p. 1164) to meet their general education requirements. However, students accepted into the Honors Program (p. 1191) fulfill general education requirements through an alternative set of courses. A student in the Honors Program pursuing a primary major in the College of Computing and Digital Media follows the requirements below:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HON 105</td>
<td>RELIGIOUS WORLDVIEWS AND ETHICAL PERSPECTIVES</td>
<td>4</td>
</tr>
<tr>
<td>HON 105</td>
<td>PHILOSOPHICAL INQUIRY</td>
<td>4</td>
</tr>
<tr>
<td>HON 180</td>
<td>DATA ANALYSIS AND STATISTICS (if indicated)</td>
<td>4</td>
</tr>
<tr>
<td>HON 201</td>
<td>STATES, MARKETS, AND SOCIETIES</td>
<td>4</td>
</tr>
<tr>
<td>HON 207</td>
<td>TOPICS IN COGNITIVE STUDIES</td>
<td>4</td>
</tr>
<tr>
<td>or HON 208</td>
<td>TOPICS IN SOCIO-CULTURAL INQUIRY</td>
<td>4</td>
</tr>
</tbody>
</table>

1 For BFA majors, requirement is LSP 120 OR HON 180
Students with a Discrete Math, Data Analysis, Statistics, or Calculus requirement for the major are waived from HON 180.

Science
- HON 225
Students with a lab science requirement for the major will replace this course with one additional Honors Approved Elective.

Arts
- HON 205
  - One applied, performance, or studio course from approved list.
  - BFA majors do not have an Arts requirement for the Honors Program.

Language
- Three courses of intermediate or advanced language study.
  - BFA majors do not have a language requirement for the Honors Program.

Junior Seminar
- HON 301
The Honors Program is committed to developing students’ knowledge and cultural awareness so they may respect and learn from difference. Honors students meet the multicultural requirement by completing HON 301.

Senior Capstone
Select one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HON 350</td>
<td>HONORS SENIOR SEMINAR</td>
<td>4</td>
</tr>
<tr>
<td>HON 351</td>
<td>HONORS SENIOR SEMINAR IN SERVICE LEARNING</td>
<td>4</td>
</tr>
<tr>
<td>HON 395</td>
<td>HONORS SENIOR THESIS</td>
<td>4</td>
</tr>
</tbody>
</table>

Students who choose to complete an Honors Senior Thesis must have their project approved at least one term prior to executing the project. To gain approval for a senior thesis, students must complete an application, including a project proposal, signed by two faculty advisors. In keeping with the interdisciplinary nature of the program, the thesis should attempt to move outside the boundaries normally associated with one particular discipline and should be supervised by two readers from different academic fields. While the final product must be a substantial piece of work building on the student’s accumulated knowledge and new research, specific requirements for each thesis will depend on the nature of the project. See the Director or Associate Director for an application and thesis materials. Students may opt to enroll in HON 300: Honors
Research Seminar (a two-credit elective) to receive dedicated guidance as they prepare the thesis project.

**Honors Approved Electives**

Approved Electives are designed to help students achieve expertise in a field outside of the major. These courses are chosen in consultation with an Honors advisor to achieve specific academic or professional goals. CDM students are allotted between 0 and 2 Approved Electives, depending on their major and concentration. Students should consult their Degree Progress Report (DPR) to determine the number of Approved Electives they are required to fulfill.

**Experiential Learning**

Honors students fulfill the university’s requirement for Experiential Learning (EL) through completion of an internship course, a service learning course, or through participation in a study abroad program. The course will verify completion of the EL requirement and be placed where appropriate in the student’s academic program – either as a major requirement, open elective, Honors Approved Elective, or (in the case of HON 351) an Honors core requirement.

**Major Field Adjustments**

In addition, participation in the University Honors Program may affect the requirements for a student’s major field. The following adjustments may occur:

- BFA majors in the Honors Program will replace the Honors Approved Elective with one of the required Arts & Literature courses. The second Arts & Literature course requirement is waived.
- CDM majors with major requirements placed in the liberal studies section of the degree will have their Honors Approved Elective requirement adjusted accordingly so that the number of Honors requirements coheres with the number of liberal studies requirements.

**Grade Requirements**

A grade of C- or higher in HON 100 and HON 110 or HON 111 is required to remain in the Honors Program.

A grade of C- or higher is required to pass the following courses: HON 100, HON 350, HON 351, and HON 395.

**Program Combination Restrictions**

Students majoring in certain degree programs are forbidden from pursuing certain minors:

**Online Learning**

Many courses are available for review and playback via the CDM Course Online playback system (COL). If a course is COL-enabled, any student registered in the course has access to the course playback. Students are strongly encouraged to utilize the COL resource wherever available. Some undergraduate courses are offered online. CDM is pleased to offer an online degree completion plan for undergraduate transfer students in BS in Information Technology and BS in Computer Science.

**Graduate Academics**

The College of Computing and Digital Media offers BA, BS, and BFA degrees at the Undergraduate level and MA, MS, MFA, and PhD degrees at the Graduate level. An option to pursue a combined Bachelor/Master’s degree is also available for qualified students.

**CDM Graduate Academic Student Handbook**

In addition to the DePaul University Graduate Student Handbook, the College of Computing and Digital Media Graduate Student Handbook includes the rules and regulations for its graduate programs. Additional academic information and regulations applicable to our graduate programs appear in specific graduate program sections.

As a graduate student, you assume the responsibility to know and meet both the general and specific policies and deadlines outlined in this catalog and handbook.

Specific degree completion information can be found on each program page.

**Dismissal / Probation**

Master’s Degree and MFA Degree students are required to meet all GPA requirements for their declared program. If a student’s cumulative GPA falls below 2.5 (3.0 for MFA in Film and Television Directing or MFA in Screenwriting) the student may be allowed to complete an additional 16 credits or 3 quarters (whichever comes first) to return to good academic standing. If at the conclusion of this time period the cumulative GPA remains below the required minimum, the student may be dismissed from the program.

Doctoral student progress will be evaluated annually by faculty members in the respective program committee. Students must maintain a GPA of 3.5 or better to remain in good standing in the program. Any course grade below B- is unsatisfactory and will not be counted toward degree requirements. The program committee will ask a student to withdraw from the doctoral program if the committee members judge that the student is not satisfactorily progressing toward the degree.

**Evaluation and Credit / Limitations**

**Using Undergraduate Credit for Graduate Courses**

All courses numbered 100 through 399 are considered to be at the undergraduate level and are not accepted for graduate credit.

**Transfer Credit**

Transfer credit is not widely accepted at the graduate level. However, in certain circumstances and with the approval of the student’s faculty advisor, it will be considered. In all instances:

- A maximum of two (2) courses will be considered for transfer into any CDM graduate degree program.
- Any course that has already been applied toward a degree may not be applied again as transfer credit in a different degree.
- If approved, the credit transferred to DePaul University applies only to programs offered through the College of Computing and Digital Media (CDM).
- Credit earned through a program in the Institute for Professional Development (IPD) at DePaul University is considered transfer credit and is subject to all transfer credit policies.
- In order for a request for transfer credit to be considered, please submit the following materials to the CDM Academic Success Center:
  - An official copy of the transcript from the school where the course was completed.
  - A written statement confirming that the course did not apply towards a previously earned degree.
  - A written statement explaining how this course might apply to your program in CDM.

Graduate level introductory courses, typically numbered between 400 and 419, may not be substituted for any course at any other level.

**Second Degree**

CDM does not permit admission to more than one (1) graduate program at a time. Under no circumstances may one (1) course be used to satisfy requirements in multiple programs, except for Introductory Courses (i.e., waivable). Students may not repeat the same course for credit in multiple programs. Cross-listed courses are considered to be one course in this policy. Students wishing to apply unused courses from one degree to another must consult with an academic advisor.

**Graduation Requirements**

Following is a list of degree completion/graduation requirements that may not be waived under any circumstances.

Complete the minimum number of credit hours required for the declared program of study. The minimum required credit hours are:

- 52 graduate credit hours for MS and MA degrees
- 64 graduate credit hours for the MFA degrees in Creative Producing, Documentary, and Game Design
- 68 graduate credit hours for the MFA degree in Screenwriting
- 79 graduate credit hours for the MFA degree in Animation
- 96 graduate credit hours of the MFA degree in Film and Television
- 60 graduate credit hours beyond a master’s degree for PhD degrees

Earn a minimum cumulative GPA:

- Master’s and MFA degrees require a minimum cumulative GPA of 2.5 (minimum cumulative GPA of 3.0 required for MFA in Film and Television and MFA in Screenwriting)
- A PhD degree requires a minimum cumulative GPA of 3.5
Satisfy all program specific GPA requirements. See program descriptions for details.

Students pursuing an additional graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.

PhD and MFA graduates must obtain final approval for degree conferral from the designated review committees. Students should consult their faculty advisors regarding this approval.

In addition, students must successfully complete all degree requirements as listed on the program pages of the catalog under which they were admitted.

**Grades, Repeating Classes**
All grades from all graduate level courses are computed in the cumulative GPA. When a student repeats a graduate level course, both the old and new grades are calculated in the graduate GPA. Grades earned in certificate programs through the Institute for Professional Development are not included in the calculation of the graduate GPA.

**Graduation with Distinction**
Master of Science degrees will be awarded with distinction to students who earned a cumulative graduate GPA of 3.9 or higher.

**Readmission**
A student must complete the graduate program requirements in place at the time of the student’s first enrollment in the graduate program. A student who changes graduate programs while his/her studies are in progress must complete the requirements in place at the time he or she enrolls in the new program. A student who changes graduate programs during a break between terms (e.g., spring break) follows the requirements in place for the term immediately following the break. A student who applies for readmission will be subject to the program and concentration requirements in place in the enrollment term of readmission.

**Registration**
All students are expected to enroll in courses according to the deadlines posted in the University Academic Calendar. Exceptions to the enrollment deadline are rarely approved. If a student believes he/she has an extenuating circumstance that warrants consideration of an exception, an appeal may be submitted online via MyCDM.

Graduate students may enroll in only graduate level courses. Graduate courses are numbered 400-699.

Online learning students MUST register for the appropriate online course section. Failure to register for an online learning section prohibits the student from online learning services, including exam proctoring.

Special Note: Students are NOT allowed to attend a course or utilize online course technology if they are not on the class roster.

CDM does not allow enrollment in closed courses and students are not allowed to attend any courses for which they are not enrolled. Students wishing to enroll in a closed course may elect to add themselves to the course waitlist in campus connect:

- Waitlists allow students to be auto-enrolled in a class as seats become available.
- Auto-enrollment from the waitlist occurs hourly during the first week of enrollment and two times per day until the last day to add a class.
- All waitlists expire after the last day to add a class each term. If not enrolled by this deadline, students are no longer eligible to enroll.
- Students are strongly encouraged to closely monitor their e-mail accounts if they have any waitlisted courses.

**Online Learning**
DePaul CDM Online Learning programs are specifically designed to complement the busy lifestyle of working professionals. Our Course Online (COL) lecture playback system brings the unique experience of an on-campus DePaul CDM education to off-campus students, and gives them flexibility in how, when, and where they learn.

We offer many master’s degree programs that can be completed entirely online, including:

- Business Information Technology
- Game Programming
- Computer Science
- Cybersecurity
- E-Commerce Technology
- Health Informatics
- Human-Computer Interaction
- Information Systems
- IT Project Management
- Network Engineering and Security
- Predictive Analytics
- Software Engineering

Some courses in some concentrations are not available online. Please consult your faculty advisor to determine suitable alternative coursework.

Graduate students who wish to complete their degree through online learning do not register for a special online degree. Rather, they apply for one of our regular degree programs and then sign up for online sections of courses. The degree earned by an online learning student is identical to the degree earned by an on-campus student.

**Combined Degrees**
Students who meet the admission requirements below may choose to apply to a combined degree program. Interested students should consult their faculty advisor regarding the application procedure. This program allows students to combine many CDM bachelor’s degrees with a CDM master’s degree following the structure outlined below.

**Admission Criteria**

- Minimum of 44 quarter hours earned
- Minimum of 12 quarter hours earned at DePaul
- GPA of 3.3 or higher in courses taken at DePaul
- Endorsement of faculty advisor

In order to apply for the combined degree program, your faculty advisor must send an e-mail recommendation to the CDM Academic Success Center. The recommendation should include your full name, student ID number, and the bachelor’s and master’s degrees you wish to combine.
Bachelor of Arts in Professional Studies with a Major in Computing students who are enrolled via the School for New Learning (SNL) are also eligible for this program. Interested students who meet the admission criteria for a combined degree should contact Kenn Skorupa in SNL for more information.

Program Structure

Students in the combined degree program take a maximum of three graduate level courses that count toward both their bachelor’s and master’s degree requirements. Students may enroll in graduate level coursework in the junior and senior year only. Students in the combined degree program will receive the bachelor’s degree after meeting all graduation requirements including the minimum credit hours required for graduation.

To earn the master’s degree, the student must earn as many additional graduate credit hours as needed to reach the minimum number of graduate credit hours required in that master’s degree.

Only CDM courses can be taken as part of this program. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

Maintaining Good Standing

Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter.

The student and faculty advisor will be notified when the student’s cumulative GPA falls below 3.3 or when the student receives less than a C- in graduate level course.

If a student’s cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional B.A./B.S./B.F.A.

If dismissed from the combined degree program after graduate courses have been passed, the graduate courses may only apply to the undergraduate degree. Should the student later be admitted to a graduate program, graduate courses applied to the undergraduate degree many not apply to the graduate program and may not be repeated if they are required in the declared graduate curriculum. Other graduate courses may be substituted in this case.

Designing a Course of Study

It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.

This course of study should include the graduate courses to be taken and the undergraduate courses that are replaced by the graduate courses. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.

It is advisable for the student and the faculty advisor to enter the proposed plan of study in the student communication record on the CDM intranet so it is available to the student and CDM faculty and staff.

Registering for Master’s Degree Courses

Combined degree students must meet regularly with their faculty advisor. The faculty advisor will initiate the registration process for all graduate level courses taken during the undergraduate career.

Bachelor’s Degree to Master’s Degree Transition

In order to be fully admitted to the designated master’s program, the student must meet all admission requirements for that program. When preparing to complete the undergraduate portion of the combined degree, students must submit the application for degree conferral for the undergraduate degree by the application deadline. At this time, the students should contact the CDM Academic Success Center about the procedure required to be formally admitted to the declared graduate program.

Admission & Aid

Graduate Admission

Applicants to CDM graduate programs can choose from degrees that span the computing and digital media spectrum, including master’s, MFA, and PhD programs.

Information about admission requirements can be found on the CDM website, under Prospective Students: www.cdm.depaul.edu (http://www.cdm.depaul.edu)

CDM does not permit admission to more than one (1) graduate program at a time. Students wishing to pursue a second graduate program must complete the requirements for the first program (i.e., graduate) and then apply to the second program.

Typically, applicants for the MS programs take about two weeks to process, while MFA and PhD applications will take additional time.

Special Programs

Institute for Professional Development

The College of Computing and Digital Media established the Institute for Professional Development in 1985 to offer certificate programs designed to meet the needs of both individuals and businesses in the Chicagoland area. These non-degree offerings provide intensive training in a wide variety of areas, with each standalone certificate program addressing a different set of theoretical concepts and practical skills. Emphasis is placed on gaining practical experience through a combination of lectures and demonstrations complemented by laboratory exercises and homework assignments. Certificate programs are typically taught by a team of instructors, that includes both full-time faculty and part-time instructors from industry. The programs require a substantial commitment of time, as most meet two nights per week and in the morning on approximately half of the Saturdays during the program.

For a list of current certificate program offerings see http://www.cdm.depaul.edu/academics/pages/professionaldevelopment.aspx

School of Cinematic Arts

The School of Cinematic Arts is home to our animation and cinema programs, industries which are still evolving and merge creativity and technology, imagination and technique, and vision and execution.

**College of Education**

DePaul University, founded on Judeo-Christian principles, continues to assert the relevance of these principles through higher education to our students. The University expresses these principles especially by passing on the heritage of St. Vincent DePaul: individual perfection manifested through purposeful involvement with other persons, communities and institutions. The College of Education manifests these principles in its purpose, and through its programs.

As an urban institution, the College of Education is committed to improving primary and secondary education in the metropolitan area and, in particular, in the city of Chicago. Framed within a commitment to promote and support diversity, the College of Education prepares all of its students to be “Urban Professional Multicultural Educators” who:

- Promote positive transformation
- Consider multiple perspectives
- Integrate inquiry, theory, and practice
- Exhibit Vincentian personalism
- Function as life long learners.

Undergraduate Academics
The College of Education is home to Undergraduate majors, Graduate programs, Licensures and Endorsements.

Academic Policies
In addition to the DePaul University Undergraduate Student Handbook, the College of Education Undergraduate Student Handbook includes the rules and regulations for its undergraduate programs. Additional academic information and regulations applicable to our undergraduate programs appear in the specific undergraduate section.

As an undergraduate student you assume the responsibility to know and meet both the general and particular policies, and deadlines outlined in this catalog and handbook.

Licensure Requirements
To receive Illinois State Board of Education licensure, a student must complete all licensure coursework and requirements, including having all field experience hours completed and approved, have a 2.75 GPA, and have successfully passed the TAP, Content Area, and edTPA assessment.

Endorsement Evaluations
Students in Teacher Education Programs can submit an application to their academic advisor to request an endorsement evaluation. The COE can only evaluate transcripts for those programs or content areas that are offered in the COE. Any other programs or content areas will require an Illinois State Board of Education evaluation. A grade of C or better is required for all courses to apply toward endorsements.

Endorsements conducted by DePaul are valid only prior to applying for the teaching license. After earning the license, the individual needs to request a separate evaluation directly with ISBE who will independently review the record and whose results may differ from the DePaul evaluation. The DePaul evaluation is based on ISBE requirements at the time of the evaluation and is subject to change per ISBE’s discretion.

Evaluation and Credit
Auditing Courses
Students cannot audit courses that are part of their degree or certification requirement. However, students may choose to audit other courses. Audited courses are not graded and students receive no credit for the course.

Double Majors
Please refer to the undergraduate student handbook section of the catalog for the current policy regarding COE majors and options for double majoring.

Undergraduate Inter-College Transfer (ICT)
Undergraduate students who wish to transfer to another program within DePaul should submit an ICT request through Campus Connect. In order to transfer, students must meet the admission criteria of the program to which they are transferring.

Request to Register for More than 20 CREDIT HOURS (Undergraduates only).
For consideration of this request, you must have a 3.0 cumulative GPA, have successfully completed at least 44 credit hours, and have successfully completed 4 courses the previous quarter. DEADLINE: Last day to add classes deadline.

Request for Transfer Credit as Part of FINAL 60 Credit Hours at DePaul
A request to take and transfer in credit from another institution as part of your final 60 hours of credit at DPU is granted only under extenuating or extra-ordinary circumstances. Any request must be accompanied by documentation demonstrating your need for this exception. All requests are evaluated on a case-by-case basis. DEADLINE: Last day to add classes for that term.

Undergraduate Academic Standing
In order to maintain academic standing, undergraduate students in most majors must have a 2.5 or better GPA. Students who do not have a 2.5 GPA will be placed on probation. Students who do not have a 2.75 GPA will receive an academic alert. Students in the Exercise Science major must maintain a minimum GPA of 2.0 to remain in good standing and need a 2.0 GPA to graduate.

In order to student teach and graduate, undergraduate students must have a 2.75 GPA.

Discontinuation and Re-admission
Students who have stopped their program of study for 3 consecutive quarters will be dropped from that program and must re-apply for re-admission through the admission office. Re-admitted students must follow curriculum requirements as they exist at the time of re-admission.

Credit Hour Conversion
DePaul University’s academic calendar is based on the quarter system. College credit is accumulated on the basis of quarter hours. To convert credit hours from the semester system to the quarter system, multiply the number of semester hours by 1.5 (example: 3 semester hours x 1.5 = 4.5 quarter hours). To convert credit hours from the quarter system to
the semester system, multiply the number of quarter hours by .67 (or 2/3) (example: 4 quarter hours x 2/3 = 2 2/3 semester hours).

**Graduation Requirements**

**Degree Conferral Requirement**

In order for a student's degree to be conferred, the student must complete all degree coursework and requirements, have a minimum 2.75 GPA (Exercise Science majors need a minimum 2.00 GPA), and meet the degree conferral application deadline for the quarter in which he or she wants the degree to be conferred.

- Fall quarter deadline is October 1;
- Winter quarter deadline is January 15;
- Spring quarter deadline is February 1; and
- Summer deadline is July 15.

**Requirements to Participate in Graduation Ceremony**

To participate in the graduation ceremony in the spring, a student must meet all of the following requirements:

- Complete all degree coursework by the end of the Spring quarter preceding the ceremony and have applied for graduation before the designated deadline.
- Complete student teaching or have academic clearance to student teach in spring quarter.
- Pass all licensure required tests (except edTPA) by April 1.
- Have a minimum of 2.50 cumulative GPA.

**Honors at Commencement Ceremony**

Honors announced and listed at the Spring Commencement ceremony are based on the cumulative GPA of the end of the Winter quarter prior to the Spring Commencement Ceremony. The final determination for qualifying for honors is made at the time the individual is awarded the degree, regardless of the announcement or listing at the ceremony. The official designation for honors will be noted on student's transcripts and diploma.

The determination for honors is based solely on the final cumulative grade point average.

- Cum Laude - cumulative GPA between 3.500 and 3.699
- Magna Cum Laude - cumulative GPA between 3.700 and 3.849
- Suma Cum Laude - cumulative GPA above 3.850

**Probation and Dismissal**

A student whose GPA falls below a program’s minimum GPA requirement will receive a registration hold and be unable to register for classes. The student must meet with his or her academic advisor and make an appointment with the Academic Success Center to develop a plan for returning to good academic standing. Students who remain on academic probation for 3 consecutive quarters will be dismissed from the COE. Students may apply to transfer to other programs at DePaul.

**Student Teaching**

**Content Area Coursework**

All content area coursework requirements must be completed prior to student teaching. A grade of C or better is required for all content area coursework requirements. Remedial coursework and CLEP tests cannot substitute for content area coursework.

**Defer Student Teaching**

If extenuating circumstances exist, you may request a deferral of your student teaching placement. Valid reasons would only include health-related issues, change in employment status or employment opportunity, personal hardship, or course related issues. DEADLINE: First day of student teaching.

**Extend Student Teaching Clearance Deadline**

Requests to extend the academic clearance deadline for student teaching may be submitted under extenuating circumstances. A valid request, for example, might occur when you have applied to student teach on time but failed a content area test prior to final clearance. If another testing opportunity exists prior to the start of student teaching, you may apply for an exception to complete the requirement and have your clearance re-evaluated. DEADLINE: The prior quarter's last day to add classes deadline (e.g., for Fall Quarter, the deadline is the prior Spring Quarter's last day to add classes deadline; Winter is Fall's deadline; Spring is Winter's deadline).

**Out-of-State Student Teaching Placement Request**

Requests for out-of-state student teaching placements are granted only on rare occasions and require a statement of hardship for consideration. Valid reasons for the request include health-related issues, change in employment status or employment opportunity, personal hardship, or course-related issues. Please note that to ensure proper supervision additional costs may be associated with out-of-state student teaching. DEADLINE: Same as student teaching application deadline.

**Student Teaching in an Elementary, Middle School, or High School You Attended as a Student**

Students cannot student teach in any school in which they were enrolled as a student within the last 10 years.

**Student Teaching in Your Own Classroom Request**

In order to apply for this request, you must have at least two years of supervised classroom teaching experience. Attach a completed Application to Student Teach in Your Own Classroom form to the request for exception form. DEADLINE: Same as student teaching application deadline.

**Student Teaching Requirements**

All program coursework must be completed prior to student teaching. A grade of B- or better is required in student teaching to complete successfully student teaching.

**Waiving Student Teaching Requirements**

Requests to waive student teaching must follow the Illinois State Board of Education student teaching waiver policy.

**Registration: Exception to Advance Standing**

Exceptions to advanced standing are only granted on a one-time only basis and must be approved by the Academic Dean or his or her designate.

**Registration Withdrawal**

**Withdraw from Classes Due to Hardship**

Students may request to withdraw from classes due to personal and/ or medical hardships. Students should contact the University Dean of Students to request a hardship withdrawal.

**Withdrawal from the COE**

To officially withdraw from any COE program, a student should contact his or her academic advisor and petition in writing his or her intent to withdraw.

**Honors Program**

Most students follow the Liberal Studies Program (https://www.depaul.edu/university-catalog/undergraduate-core/liberal-
studies-program/Pages/default.aspx) to meet their general education requirements. However, students accepted into the Honors Program (https://www.depaul.edu/university-catalog/undergraduate-core/honors-program/Pages/default.aspx) fulfill general education requirements through an alternative set of courses. A student in the Honors Program pursuing a primary major in the College of Education follows the requirements below:

## Honors Core

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HON 110 or HON 111</td>
<td>HONORS DISCOVER CHICAGO</td>
<td>4</td>
</tr>
<tr>
<td>HON 100</td>
<td>RHETORIC AND CRITICAL INQUIRY</td>
<td>4</td>
</tr>
<tr>
<td>HON 101</td>
<td>WORLD LITERATURE</td>
<td>4</td>
</tr>
<tr>
<td>HON 102</td>
<td>HISTORY IN GLOBAL CONTEXTS</td>
<td>4</td>
</tr>
<tr>
<td>HON 104</td>
<td>RELIGIOUS WORLDVIEWS AND ETHICAL PERSPECTIVES</td>
<td>4</td>
</tr>
<tr>
<td>HON 105</td>
<td>PHILOSOPHICAL INQUIRY</td>
<td>4</td>
</tr>
<tr>
<td>HON 180</td>
<td>DATA ANALYSIS AND STATISTICS (if indicated)</td>
<td>4</td>
</tr>
<tr>
<td>HON 201 or HON 208</td>
<td>STATES, MARKETS, AND SOCIETIES</td>
<td>4</td>
</tr>
<tr>

</tr>
</tbody>
</table>

Select one of the following:

- HST 181 UNITED STATES TO 1800
- HST 182 UNITED STATES, 1800-1900
- HST 183 UNITED STATES, 1900-PRESENT

Students majoring in Secondary Education Social Science and History replace this requirement with an Economics course selected in consultation with the student’s major advisor.

## Science Requirement

- Two courses:
  - HON 225 (not a Biology section)
  - One Biology course
- Students majoring in Secondary Education Social Science or History will opt for an HON 225 Biology section and a Scientific Inquiry Geography course selected in consultation with the student’s major advisor. If no Honors Biology sections are offered they may replace HON 225 with a Biology Lab course approved by COE advisor. These students should also consult with their Honors advisor about successful completion of their science requirements.
- Students with a science major in Education will replace this requirement with two non-science electives at the 200 or 300 level.
- Early Childhood Education and Elementary Education majors should consult with COE and Honors advisors about additional requirements in Social Science and Scientific Inquiry, which may possibly replace Honors requirements.

## Language Requirement

- Three courses of intermediate or advanced language study.

Students who meet the proficiency requirement by placing at the 200-level of a language may consult with an Honors advisor for alternative 3-course sequence options to fulfill the language requirement. Language majors must fulfill the Honors language requirement with an alternate approved 3-course sequence.

## Junior Seminar

- HON 301

The Honors Program is committed to developing students’ knowledge and cultural awareness so they may respect and learn from difference. Honors students meet the multicultural requirement by completing HON 301.

## Senior Capstone

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Select one of the following:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>HON 350</td>
<td>HONORS SENIOR SEMINAR</td>
<td>4</td>
</tr>
<tr>
<td>HON 351</td>
<td>HONORS SENIOR SEMINAR IN SERVICE LEARNING</td>
<td></td>
</tr>
<tr>
<td>HON 395</td>
<td>HONORS SENIOR THESIS</td>
<td></td>
</tr>
</tbody>
</table>

Students who choose to complete an Honors Senior Thesis must have their project approved at least one term prior to executing the project. To gain approval for a senior thesis, students must complete an application, including a project proposal signed by two faculty advisors. In keeping with the interdisciplinary nature of the program, the thesis should attempt to move outside the boundaries normally associated with one particular discipline and should be supervised by two readers from different academic fields. While the final product must be a substantial piece of work building on the student’s accumulated knowledge and new research, specific requirements for each thesis will depend on the nature of the project. See the Director or Associate Director for an application and thesis materials. Students may opt to enroll in HON 300: Honors Research Seminar (a two-credit elective) to receive dedicated guidance as they prepare the thesis project.

Honors students who do not have a statistics or calculus requirement for their major must complete HON 180, Data Analysis and Statistics, before completing the science requirements. Honors students who have a statistics or calculus requirement for their major are waived from HON 180, and the course will be replaced by an open elective.

## Grade Requirements

A grade of C- or higher in HON 100 and HON 110 or HON 111 is required to remain in the Honors Program.

A grade of C- or higher is required to pass the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HON 100</td>
<td>RHETORIC AND CRITICAL INQUIRY</td>

</tr>
<tr>
<td>HON 395</td>
<td>HONORS SENIOR THESIS</td>
<td>4</td>
</tr>
</tbody>
</table>

## Graduate Academics

The College of Education is home to Undergraduate majors, Graduate programs, Licensures and Endorsements.
Education Graduate Academic Student Handbook

In addition to the DePaul University Graduate Student Handbook, the College of Education Graduate Student Handbook includes the rules and regulations for its graduate programs. Additional academic information and regulations applicable to our graduate programs appears in the specific graduate section.

As a graduate student you assume the responsibility to know and meet both the general and particular policies, and deadlines outlined in this catalog and handbook.

Specific Graduate Program Information can be found on each program page.

Admission, Readmission, and Reclassification

Admission

Applicants to Master's degree programs must have a bachelor's degree from a regionally accredited college or university. Applicants to the doctoral program must have a Master's degree from a regionally accredited college or university. Please consult specific programs for admission requirements.

Readmission

Students who have not taken classes for one year or more must reapply for admission. Depending on the length of time the student has stopped out, repetition of courses or additional courses may be required by the department or program. In all cases, the student is bound by the program requirements in force at the time of readmission.

Reclassification

Graduate students may change from one concentration to another within a major, but only by applying for reclassification. Once students have decided to change their concentration, they should complete a Reclassification Application form, available online or from the College of Education Advising Office. Any administrative questions about changing concentrations should be directed to the College of Education Advising Office, Schmitt Academic Center 481, at 773-325-4409. Graduate students who are interested in changing majors should not complete the Reclassification Application form. Instead, graduate students wishing to change majors should submit a new graduate application. The student’s file will be reevaluated to determine if the admission guidelines for the major for which he/she is applying are met. Additional application materials may be required.

The College of Education presently has one doctoral program. If a student wishes to change concentration, he/she should send an email to the Ed.D. Program Director indicating this request and explaining why a change of concentration is in his/her best interest, and how such a change will affect his/her program of study. The student may want to meet with the Academic Advisor to have an audit done so that it is clear what implications such a change would have on the student’s course of study. The Program Director will decide whether a change of concentration will be permitted.

Licensure Requirements

The College of Education offers approved programs for State of Illinois licensure in ten areas of study. Students may be eligible for the following endorsements upon completion of the respective programs:

- Early Childhood Education (birth-3)
- Elementary (K-9) Teaching
- General Administrative/Principal
- Learning and Behavioral Specialist I (K-12)
- Physical Education (K-12)
- Reading Specialist (K-12)
- School Counseling
- Secondary (6-12) Teaching
- Superintendent
- World Language (K-12)

Please note that state licenses include requirements beyond program requirements. For teaching licenses three tests are required: a Test of Academic Proficiency (TAP), a test of Content Area knowledge, and an Assessment of Professional Teaching (APT). For other areas a test of Content Area knowledge is required. The tests are given by the State of Illinois at regularly scheduled times each year. Students are advised to confer with program faculty or the academic advisors for further information.

Licensure is not automatic upon completion of a program. The student must apply. Forms and procedural information are available in the College of Education.

Timeliness is important. Ordinarily, only graduate work completed within the past ten years is acceptable for purposes of applying courses for licensure requirements. If the degree was granted more than ten years past, the Assistant Dean in consultation with program faculty may grant a recommendation for licensure upon the successful completion of appropriate courses and/or comprehensive examinations in the program. In all instances current licensure requirements must be met.

All licensure and endorsement requirements are subject to change based on Illinois State Board of Education modifications in requirements. All individuals must meet ISBE requirements in place at the time of application for the license.

Endorsement Evaluations

Students in Teacher Education Programs can submit an application to their academic advisor to request an endorsement evaluation. The COE can only evaluate transcripts for those programs or content areas that are offered in the COE. Any other programs or content areas will require an Illinois State Board of Education evaluation. A grade of C or better is required for all courses to apply toward endorsements.

Endorsements for teaching areas conducted by DePaul are valid only prior to applying for the teaching license. After earning the license, the individual needs to request a separate evaluation directly with ISBE who will independently review the record and whose results may differ from the DePaul evaluation. The DePaul evaluation is based on ISBE requirements at the time of the evaluation and is subject to change per ISBE’s discretion.

A doctoral candidate may apply for ISBE Superintendent’s Endorsement when the following conditions are met:

- Successful completion of all doctoral coursework, including the Educational Leadership concentration, core and research courses.
- Successful completion of A&S 899 Superintendent Internship and all the related clinical experiences.
- Completion of candidacy paper requirements
- Current holder of a valid ISBE Type 75 certificate
- Two years of documented administrative experience while holding the Type 75 general administrative certificate.
- Successful pass score on the ISBE Superintendent’s exam
Evaluation and Credit

Audit Courses
Students cannot audit courses that are part of their degree or licensure requirement. However, students may choose to audit other courses. Audited courses are not graded and students receive no credit for the course.

Cumulative GPA Requirement
The College of Education has a cumulative GPA requirement of 3.0 for students in a Master's Program. No more than two C or C+ grades can be accepted for a course earning graduate credit toward the degree, and then only if there are corresponding grades of higher value to produce a cumulative GPA of 3.00.

Doctoral students must maintain an overall GPA of 3.0 prior to the completion of 36 credit hours and 3.3 after the completion of 36 credit hours. Students are allowed no more than two grades of “C.” Upon receiving a third grade of "C," students must retake the class in which the grade was received. Grades of “D” and “F” require that the course be retaken.

Double Counting Courses
Under no circumstances can a course taken at DePaul University or at any other college or university fulfill degree requirements in more than one degree program. A course can only be counted as fulfilling the degree requirements of one degree program.

Limit on Courses
Courses taken at DePaul University or any other college or university that were completed more than 8 years ago can only be counted toward licensure, degree, and/or content area requirements after a review of the student's transcripts. Courses for endorsements will be limited to 10 years. Transcripts will be evaluated based on the most-up-to-date licensure, degree, endorsement, and content area requirements. Exceptions will be evaluated by a faculty advisor.

General Education Coursework (Content Area Prerequisites)
All State general education requirements must be completed prior to student teaching. A grade of C or better is required for all general education requirements. DePaul-approved CLEP tests may substitute for appropriate general education coursework. Remedial coursework cannot substitute for general education coursework.

Graduate Credit
Graduate students enrolled in 400 level courses and above earn graduate credit. Courses applying toward a degree generally require a C or better, however, some programs or requirements may require a higher grade as specified in the program section of the catalog. If a C- or lower is earned in a required course, the course must be repeated or substituted as directed by the department or program. Such grades remain on the academic record and are calculated into the cumulative GPA.

Graduate students enrolled in 300 level courses can earn graduate credit and grades earned in these classes will contribute toward the graduate GPA. To earn graduate credit for a 300 level course the student must enroll in the course as a graduate student. Enrolling as an undergraduate student or earning a grade of C-, D+, D, or F is unacceptable for graduate credit in this program. Graduate students cannot receive credit for 100 or 200 level courses.

Limit on Transfer Credit for Graduate Students
All COE graduate students can transfer up to 9-quarter hours (approximately 2 courses) from another college or university as credit toward their Master’s or Doctoral degree requirements. All other courses must be DePaul coursework.

Pass/Fail Option
Students can take elective courses or courses not required for licensure or degree fulfillment as pass/fail. Grades A through D represent a passing grade and are not computed into the GPA. If the course is failed, the F grade is recorded on your record and the grade is computed into the GPA. For additional regulations, refer to the pass/fail request form.

Program Completion
Timely completion of a program is important. Students in Master’s Programs are allowed six years to complete the graduate degree. A petition in writing for a one-year extension may be approved by the department or program.

Students have ten years to complete the doctoral program, beginning with the first quarter of admission. (If students deferred admission, the first quarter of attendance starts the ten-year clock.) For additional information, refer to the Doctoral Handbook.

Teaching & Learning Induction Coursework
All T&L graduate students are required to complete their Teaching & Learning (T&L) induction coursework through the DePaul University College of Education. The only exception to this policy is demonstration of out-of-state residency.

Credit Hour Conversion
DePaul University's academic calendar is based on the quarter system. College credit is accumulated on the basis of quarter hours. To convert credit hours from the semester system to the quarter system, multiply the number of semester hours by 1.5 (example: 3 semester hours x 1.5 = 4.5 quarter hours). To convert credit hours from the quarter system to the semester system, multiply the number of quarter hours by .67 (or 2/3) (example: 4 quarter hours x 2/3 = 2 2/3 semester hours).

Graduation Requirements
Students must meet all requirements listed below for graduation.

Degree Conferral Requirement
In order for a student's degree to be conferred, the student must complete all degree coursework and requirements, have a minimum 3.00 GPA, and meet the degree conferral application deadline for the quarter in which he or she wants the degree to be conferred.

Doctorate Requirements to Participate in Graduation Ceremony
Upon successful completion of all requirements (courses, papers/dissertation), an Ed.D. degree is earned. In order to have your degree conferred (granting) process started, students must apply online to formally indicate their intention to graduate. DePaul confers degrees at multiple points during the year, always at the close of terms. Students apply for degree conferral through Campus Connection. Students must submit a separate application to participate in the June graduation ceremony.

To participate in the graduation ceremony in the spring, a doctoral student must complete all required degree coursework, including the successful defense of his or her thesis, by the end of the Spring quarter preceding the ceremony and have applied for graduation before the designated deadline.

Master’s Graduation Requirements
To participate in the graduation ceremony in the spring, a graduate student must complete all required degree coursework by the end of
the spring quarter preceding the ceremony or have only one course outstanding, which must be completed prior to the end of the Fall quarter following the ceremony. The student must have also applied for graduation before the designated deadline.

Graduating with Distinction
Each COE program establishes its own criteria for graduating with distinction.

Bilingual Bicultural Program
• M.Ed. 4.0 GPA
• M.A. 4.0 GPA, with distinction on thesis paper (Distinction Committee)

Counseling Programs
• M.Ed. 4.0 GPA
• M.A. 4.0 GPA

Curriculum Studies Program
• M.Ed. 4.0 GPA
• M.A. 4.0 GPA, with distinction on thesis paper (Distinction Committee)

Dual Certification Program
• M.Ed. 4.0 GPA or possible revision based on T&L policy
• M.A. 4.0 GPA or possible revision based on T&L policy

Educational Leadership Program
• M.Ed. 4.0 GPA
• M.A. 4.0 GPA, with distinction on thesis paper (Distinction Committee)

Literacy and Specialized Instruction Program
• M.Ed. 4.0 GPA or possible revision based on program policy
• M.A. 4.0 GPA or possible revision based on program policy

Middle School Math Program
• M.S. 4.0 GPA

Reading Specialist Program
• M.Ed. 4.0 GPA or possible revision based on program policy
• M.A. 4.0 GPA or possible revision based on program policy

Social and Cultural Foundations in Education Program
• M.A. Distinction based on recommendation for distinction from the student’s thesis committee and approval from the Thesis Review Committee. Students graduating with an M.Ed. are not eligible for distinction.

TEACH Program
• M.Ed. 4.0 GPA

Teaching and Learning Program
• M.Ed. 4.0 GPA
• M.A. 4.0 GPA, with distinction on thesis paper (Distinction Committee)

Doctoral Degree Program (Ed.D.)
The successful completion of a dissertation distinguishes those students at this highest level of their educational careers. The doctoral program does not offer a formal distinction beyond this accomplishment.

Honors at Commencement Ceremony
Honors announced and listed at the Spring Commencement ceremony are based on the cumulative GPA of the end of the Winter quarter prior
to the Spring Commencement ceremony. The final determination for qualifying for honors is made at the time the individual is awarded the degree, regardless of the announcement or listing at the ceremony. The official designation for honors will be noted on student’s transcripts and diploma.

Six-Year Limit on Studies
Graduate students have seven years from the date of matriculation to complete program degree requirements. Graduate students may apply for a one-year extension. If a graduate student does not complete his or her degree program requirements within seven years after matriculation, he or she will need to re-apply to the degree program, upon which he or she will have his or her coursework re-evaluated and be subject to any degree program changes or new program requirements.

Doctoral Program Ten-Year Limit on Studies
Students have ten years to complete the doctoral program, beginning with the first quarter of admission. (If students deferred admission, the first quarter of attendance starts the ten-year clock.) For example, for a student who begins in Fall 2012, the program must be completed by Spring 2022. For students approaching this time limit, an application for extension must be submitted to the program office. This should be done no later than the fall of the tenth year, although earlier is preferable. The extension application includes the Request for Extension form, a letter from the student explaining a rationale for his/her request, and a letter of support from his/her dissertation chair.

Probation and Dismissal
The College of Education has a cumulative GPA requirement of 3.0 for students in a Master’s Program. In addition, regardless of GPA, students are not to receive more than two grades of C or below to remain in good standing. Graduate students whose cumulative GPA falls below a 3.0 will be placed on academic probation at which a student has four courses in which to raise their GPA to or above the 3.0 minimum.

Students on probation will receive a registration hold and be unable to register for classes. They must make an appointment with the Academic Success Center to develop a plan for returning to good academic standing.

After completing the four additional courses, if a student’s cumulative GPA is still below 3.0, they will be dismissed from the College of Education. If they receive more than two grades of C or below, their status will be evaluated regardless of your cumulative GPA. Master’s students may appeal to the Chair of the Department in which their program is housed for re-admittance or may apply to another program. The Chair’s decision for re-admittance is final.

Doctoral students who are fully accepted into the program will be placed on probation if their grade point average falls below 3.0 prior to the completion of 36 credit hours and 3.3 after the completion of 36 credit hours. The first assessment will occur at the end of 12 credit hours. Students will remain on probation until four additional courses are taken at which time a new evaluation is done. If the grade point average is not raised students may be subject to dismissal from the College of Education.

Program Requirements
Depending on degree and concentration, Master’s programs require a minimum of 48-72 quarter hours of coursework. Some of the Master’s of Arts programs require the completion of a thesis. In general some Master of Education programs require two masters papers related to coursework.
The doctoral program requires a minimum of 76 quarter hours of coursework. Completion of a dissertation and an oral defense before a committee of three faculty members are included in the requirements that lead to a Doctor of Education degree.

Please consult specific programs for complete degree requirements.

**Student Teaching**

**Content Area Coursework**

All content area coursework requirements, including graduate-level content area coursework, must be completed prior to student teaching. A grade of C or better is required for all content area coursework requirements. Remedial coursework and CLEP tests cannot substitute for content area coursework.

**DEFER Student Teaching**

If extenuating circumstances exist, you may request a deferral of your student teaching placement. Valid reasons would only include health-related issues, change in employment status or employment opportunity, personal hardship, or course related issues. DEADLINE: First day of student teaching.

**Extend STUDENT TEACHING Clearance Deadline**

Requests to extend the academic clearance deadline for student teaching may be submitted under extenuating circumstances. A valid request, for example, might occur when you have applied to student teach on time but failed a content area test prior to final clearance. If another testing opportunity exists prior to the start of student teaching, you may apply for an exception to complete the requirement and have your clearance re-evaluated. DEADLINE: The prior quarter's last day to add classes deadline (e.g., for Fall Quarter, the deadline is the prior Spring Quarter's last day to add classes deadline; Winter is Fall's deadline; Spring is Winter's deadline).

**OUT-OF-STATE Student Teaching Placement Request**

Requests for out-of-state student teaching placements are granted only on rare occasions and require a statement of hardship for consideration. Valid reasons for the request include health-related issues, change in employment status or employment opportunity, personal hardship, or course-related issues. Please note that to ensure proper supervision additional costs may be associated with out-of-state student teaching. DEADLINE: Same as student teaching application deadline.

**Student Teaching in an Elementary, Middle School, or High School You Attended as a Student**

Students cannot student teach in any school in which they were enrolled as a student within the last 10 years.

**Student Teaching in YOUR OWN Classroom Request**

In order to apply for this request, you must have at least two years of supervised classroom teaching experience. Attach a completed Application to Student Teach in Your Own Classroom form to the request for exception form. DEADLINE: Same as student teaching application deadline.

**Student Teaching Requirements**

All program coursework must be completed prior to student teaching. A grade of B- or better is required in student teaching to complete successfully student teaching.

**Teaching & Learning Induction Coursework**

All graduate students are required to complete their Teaching & Learning (T&L) induction coursework through the DePaul University College of Education. The only exception to this policy is demonstration of out-of-state residency.

**Waiving Student Teaching Requirements**

Requests to waive student teaching must follow the Illinois State Board of Education student teaching waiver policy.

**Registration: Exception to Advanced Standing**

Exceptions to advanced standing are only granted on a one-time only basis and must be approved by the Associate Dean or his or her designate.

**Registration Withdrawal**

**Withdraw from Classes Due to Hardship**

Students may request to withdraw from classes due to personal and/ or medical hardships. Students should contact the University Dean of Students to a hardship withdrawal.

**Withdrawal from the COE**

To officially withdraw from any COE program, a student should contact his or her academic advisor and petition in writing his or her intent to withdraw.

**Combined Bachelors/Masters**

The TEACH Program provides students the opportunity to complete in five years an undergraduate degree in a core arts and science major and a Master's of Education degree with State of Illinois secondary education teaching certification in a content area related to their major. As a combined degree program of the College of Liberal Arts and Social Sciences, the College of Science and Health, and the College of Education, the Program is collaboratively governed and coordinated by faculty from all 3 units.

The Program is designed to draw on the expertise of LAS and CSH faculty who teach in the majors of English, Mathematics, History, the Sciences, and Social Sciences to ensure strong content knowledge preparation of students and facilitate the transition from being learners of content to teachers of content to diverse adolescent populations. The Program also draws on the expertise of faculty in the COE’s Secondary Education Program and Educational Policy Studies and Research Department to immerse students into essential issues and themes of education and theories and practices of teaching and learning. Such issues as educational inequality, politics of schooling, identity politics, social justice, identity development inside and beyond formal school settings, historical, cognitive, sociocultural, and sociopolitical nature of human development and society are integrated with issues of pedagogical content knowledge, critical pedagogy, constructivist teaching practices, theories of teaching and learning, curriculum development, and professional practice. Ensuring that students understand all these issues is integral to the Program design and delivery and to the preparation of teachers.

The measure of the academic quality of the Program relies on clearly articulated features of exemplary teacher-education programs. These include:

- a “common, clear vision of good teaching that permeates all coursework and clinical experiences...”;
- a “well-defined standard of professional practice and performance...”;
- a “strong core curriculum taught in the context of practice” and including understanding of human development and learning, social and cultural contexts, curriculum assessment, and subject-matter pedagogy;
Students may apply to the Program during the spring of their junior year. They must complete the Junior Year Experiential Course TCH 320, and meet other application criteria prior to applying. The curriculum of the Program consists of three components:

- Courses necessary to satisfy requirements for a baccalaureate degree in the College of Liberal Arts and Social Sciences or College of Science and Health in one of the following state of Illinois secondary certification content areas: English; History; Math; Sciences (Biology, Chemistry, Environmental Science, or Physics); or Social Sciences.
- A set of five courses that will be taken by students in the Program while they are still undergraduates; three of these will also fulfill graduate degree requirements. These courses will serve as a bridge to the 5th year Master’s coursework.
- A fifth year of graduate courses which, together with the three double-counted courses mentioned above, will satisfy the requirements for a College of Education Master’s in Education and a secondary-education certification in the student’s discipline.

A full description of Program requirements for each content area can be found in the College of Education catalog.

**Admission & Aid**

The College of Education offers several graduate programs at the master’s and doctoral level as well as licensure and endorsement only programs. Admission to DePaul University College of Education is very competitive. We consider numerous factors in evaluating each applicant, including undergraduate academic performance, graduate academic performance (if applicable), professional work experience, writing ability, potential for leadership, professional and academic recommendations and the applicant’s special talents, qualities, interests and socioeconomic and cultural background. No single factor is dispositive.

Personal qualities that demonstrate intellectual depth, high ideals and diligence also are considered, as are economic, societal or educational obstacles that have been successfully overcome. Diversity in background and experience among the members of each entering class is a continuing objective. Having a diverse student body allows us to encourage and foster the exchange of different ideas.

DePaul University has a nondiscriminatory admission policy; it does not discriminate on the basis of race, color, national origin, religion, sex, sexual orientation, age or disability.

**General Admission Procedures**

**Application**

You can apply online at: [www.dePaul.edu/apply](http://www.dePaul.edu/apply). To request information about College of Education graduate programs, including endorsements, approvals and licensure, please email us at edgradadmissions@depaul.edu or call us at (773) 325-4405.

**Supporting Credentials**

We require official transcripts from all universities, colleges, and junior colleges you have attended. Please request that transcripts and other credentials be sent directly to the:

Office of Graduate Admission  
College of Education  
2400 N. Sheffield  
Chicago, IL 60614-2215.

We recommend that you request transcripts in sufficient time to meet the programs deadline.

The College of Education graduate programs require additional supporting credentials before an application file is considered complete. Please consult the specific program listing on the College of Education website at [https://education.depaul.edu/admission-and-aid/graduate-admission/admission-requirements/Pages/default.aspx](https://education.depaul.edu/admission-and-aid/graduate-admission/admission-requirements/Pages/default.aspx) to determine what additional materials are required for admission and the deadline by which applications and supporting materials should be submitted.

**Application Fee**

You can pay the $40 application fee online as part of the online application or send a check or money order payable to DePaul University. Consult the application instructions for specific information about amount of the fee. If paying by check or money order, send it along with your supporting credentials to the:

Office of Graduate Admission  
2400 N. Sheffield  
Chicago, IL 60614-2215.

Applications submitted without an application fee will not be processed. The fee is non-refundable.

**Application Deadline and Entry Terms**

Consult the College website for program-specific information about application deadlines and to which academic terms the program admits new students.

Admission Decisions: The graduate admission office will notify you of your admission decision by letter. Admission applications will be reviewed only after the application and all supporting credentials, along with the application fee, have been submitted.

**International Student Admission**

Students who require a student visa (I-20) in order to study at DePaul must meet all admission requirements and demonstrate adequate financial support. Applicants educated in a country in which the native language is not officially recognized as English must also submit proof of English proficiency. College of Education programs require a minimum TOEFL score of 590 (paper-based), 243 (computer-based), or 96 with no individual score less than 22 (internet-based). DePaul also accepts the IELTS (International English Language Testing System) with a minimum score of 7.5. However, students who otherwise have a strong overall academic record, but cannot demonstrate the necessary English proficiency, may be admitted conditionally. If granted a conditional admission, an applicant may enroll in DePaul’s English Language Academy (ELA). To formally begin studies in the College of Education, an
applicant that has been conditionally admitted must either successfully complete ELA’s University Bridge Certificate or otherwise demonstrate the necessary English language proficiency.

The letter of admission and I-20 are issued only after admission. International students are encouraged to complete their applications at least one month prior to any published program deadline, or no later than three months before the start of the term, whichever date comes first to allow for enough time for processing the I-20.

Applicant for Five-Year B.A./B.S. to M.Ed Programs
The five-year B.A./B.S. to M.Ed. program is geared toward current DePaul undergraduate students who have reached junior status (88 or more quarter hours) who have declared Liberal Arts and Science major that will lead to educator licensure (biology, chemistry, English, environment science, history, mathematics, physics or social sciences). Students must have an overall grade point average of 3.0 or higher. If students have transferred to DePaul they must have at least 16 quarter hours completed at DePaul. Students must complete the Graduate College of Education Application for teaching and learning secondary education program, meeting all of the requirements outlined at the time of application. In addition to their application, students are required to submit the five-year B.A./B.S. to M.Ed. supplemental form, available at http://www/education.depaul.edu.

Applicant for Subsequent Teaching Endorsement
If you hold a valid teaching license in the state of Illinois, you may enroll in a program designed to help you obtain a subsequent teaching endorsement in the following areas: early childhood education, elementary education, secondary education, world languages education, and special education.

In order to be considered for admission, you must submit a completed application as specified by the admission requirements for the teaching and learning program or the special education for licensed teachers program. In addition to the standard application materials, you must also submit a valid Illinois teaching license and a letter from your school principal providing evidence of prior teaching experience and teaching performance. (If you are currently not employed as a teacher, then other evidence of prior teaching experience must be provided.) In addition, evidence of having passed the Illinois Basic Skills Test/Test of Academic Proficiency (TAP) must be submitted by the end of the first quarter of completed course work.

Non-Degree Applicants
The College of Education may admit non-degree seeking students who wish to take a course(s) to complete prerequisites for admission, personal enrichment or professional development. To enroll a non-degree student, all you will need to submit is an application and a $40 application fee. Official transcripts are not required for admissions but will be required after the completion of two courses. Please note that course work completed in a non-degree status may or may not be applicable to a degree program and is subject to approval by the advisor and appropriate department chair.

Readmission Applicants
If you were previously admitted to DePaul but have been absent for more than one year, you must submit an application form, DePaul transcripts, and transcripts of any courses taken elsewhere during your absence. To use materials from a previous application, you must indicate, in written form, which materials you would like to apply to your new application. If the original application has been destroyed (after an absence of two years), you will be required to resubmit the entire application and all supplemental materials. A $10 application fee is required.

Deferring Admission
If you do not enroll in the term to which you were admitted, you may request that your admission be deferred for up to one year after the term to which you were admitted. After one year, you must reapply to the program. Email edgradadmissions@depaul.edu to request a deferral.

Scholarship Opportunities
Please subscribe to the COE Advising weekly email to stay informed about COE scholarship opportunities that become available throughout the school year.

Any questions can be sent to coescholarships@depaul.edu.

Double Demon Scholarship
The Double Demon Scholarship is awarded to DePaul alumni and covers 25 percent of tuition for degree, non-degree or select certificate coursework taken at the graduate level. Both full-time and part-time students are eligible and no application is necessary. To learn more, contact the admission office for your college of interest (see listing below).

For other DePaul University scholarships please visit the Admission & Aid section on the DePaul home page.

Financial Aid
For all information regarding Financial Aid, please visit the Financial Aid link under the Admission & Aid section on the DePaul home page.

You may also contact DePaul Central for help with Financial Aid, Student Accounts and Student Records.

For questions regarding financial aid, payment processes, and student records during business hours, please call (312) 362-8610 or e-mail at dpcl@depaul.edu.

Special Programs
Licensure and Endorsements
The College of Education offers a variety of licensure and endorsement programs for current and aspiring teachers, counselors and education specialists and leaders who are interested in furthering their professional development and enhancing their credentials.

- Licensure (p. 1250)
- Endorsements (p. 1233)
- Professional Special Programs (p. 1259)
Department of Counseling and Special Education

The vision of the Department of Counseling and Special Education is to advance knowledge, model effective practices, as well as promote advocacy both for our professions and for those whom we serve. We prepare professionals based on sound theory-guided and evidence-based practices to be socially responsible leaders who value the dignity and integrity of all people, particularly those who are historically under-served or under-represented.

The Department of Counseling and Special Education is a community of scholars who value the role of the practitioner in all roles of teaching, research and service. Faculty use student-focused methods to enhance engagement of future professionals in learning and applying their knowledge and skills in diverse settings. This commitment to theory-guided and evidence-based practices is also demonstrated through faculty's teaching, scholarship and service endeavors. We seek to foster Vincentian Personalism and provide opportunities for advancement through education.

The Department is comprised of two programs from distinct yet related fields. Each program has the following distinct foci and needs:

Counseling Program

The Counseling Program provides individuals with theoretical frameworks and competencies that prepare them to offer counseling services. There are three degree specialty areas within the program: clinical mental health counseling, college counseling and student affairs, and school counseling. The specialty areas of clinical mental health counseling and school counseling integrate Illinois state requirements for licensure, and all specialty areas meet national standards for professional practice. School counseling and college counseling and student affairs programs are 72 credit hours, and the clinical mental health counseling program is 90 credit hours. All specialty areas include a 100 hour practicum and 600 hour internship. These clinical experiences are mandatory, and for the school counseling and clinical mental health counseling specialty areas, they are required by the state for licensure. A degree from the Counseling Program prepares students for career opportunities such as school counseling in elementary, middle, and high schools; counseling in community agencies; counseling in higher education; career counseling through the lifespan; counseling in hospitals or institutional-care settings; group counseling; couples and family counseling; or counseling in private practice, depending upon the chosen specialty area. All of the specialty areas emphasize and are designed to foster leadership, advocacy, and social justice.

Special Education Program

The Special Education program currently offers three concentrations all leading to either an M.A or an M.Ed. The Special Education for Teachers program prepares currently licensed teachers to work in special education and results in a LBS1 license (K-12). Students in the Special Education for Teachers program may work in a variety of settings as special education teachers. Combining the disciplines of Learning Disabilities and Reading Education, the Reading and Learning Disabilities concentration leads to a Reading Specialist License (K-12) and prepares students to work as reading specialists within school as well as professionals in clinics or private practice. A third concentration, the Special and Elementary Education (Licensure) in Elementary Education and Special Education, is for individuals with a Bachelor’s Degree in an area other than education. This pre-service program leads to both a LBS1 and an Elementary Education license. Graduates of the Special and Elementary Education (License) program may teach in either general or special education settings.

The following graduate programs are offered at Lincoln Park:

• MA or MEd Counseling
• MA or MEd Reading Specialist
• MEd Special Education

Department of Leadership, Language & Curriculum

The Department of Leadership, Language and Curriculum is a multidisciplinary academic body that aims to fully prepare urban multicultural professional practitioners and leaders to work in a variety of educational and community settings. Practitioners who complete a course of study offered by our department will contribute to their respective fields, balance theory with practice, consider multiple points of view in decision making, promote positive transformations in the settings in which they are engaged, and continue to function as life long learners. The practitioner’s professional role is shaped by ongoing reflection and positive engagement with the individual, the community, and the larger sociopolitical realities. The preparation we offer practitioners demonstrates our commitment to social justice, critical pedagogy, and positive educational transformation. The disciplines in the Department address these themes from a variety of perspectives that include language and culture, curriculum theory and development, and educational leadership in administration and supervision.

The following programs are offered at Lincoln Park:

• MA or MEd in Bilingual Bicultural Education
• MA or MEd in Curriculum Studies
• MA or MEd in Educational Leadership
• Minor in Bilingual Education
• Minor in English as a Second Language
• Minor in English as a Second Language and Bilingual Education

Department of Teacher Education

The Department of Teacher Education prepares educators through an integrated program of course work and field experiences with an emphasis on the relationship of theory to practice and a commitment to serving diverse populations. The programs of study center on investigating significant educational issues, conducting inquiry of student learning and effective teaching practices; using technology in teaching and learning; exploring the foundational disciplines of history, philosophy, psychology, sociology, and human development as they relate to education; examining theoretical discourse, economic and political change, and the quest for equity; and studying current research and best practices. We engage candidates in critical reflection upon their practice, and foster immersion in educational sites through our partnerships with schools and other agencies.

Course work in our department programs explores the interplay between the individual, society, and sociocultural processes through examination of educational theories, institutions, policies and practices, and human development across the life span, along with debates about research methodology and the contribution of research to the understanding
of educational problems as part of a broader project for social justice and transformation. In addition to educational positions inside schools, students are also prepared for positions in government, private foundations and institutes, community and cultural organizations, and adult education and training.

Graduates of our programs demonstrate a commitment to Vincentian personalism that honors the dignity of each person, a belief in the power of education to transform lives in pursuit of social justice, and a dedication to continuous growth as professionals in both formal and informal educational contexts.

**Doctoral Program**

The primary, though perhaps not the only audience for this Doctoral program consists of educational professionals who wish to improve the quality of their work in their current roles or to prepare themselves for new roles. This doctoral program is uniquely designed to link theory with practice and is not based on traditional assumptions about the relationships of theory with practice or on conventional notions about the status of practitioners and theorists. To be a practitioner is to make decisions about what to do and to take action; but professional practitioners — in education as in other areas — make reasonable decisions and act responsibly and ethically in the light of theoretical and professional knowledge.

- Professional educators are leaders as well as managers; they are not limited to making decisions according to rule or “by the book.” They must use discretion and judgment as they seek to find the most defensible course of action in specific, complicated, and perhaps idiosyncratic circumstances. These situations are not merely instances of abstract concepts.
- Although decisions are made in the light of theoretical knowledge, theoretical knowledge cannot be applied to practice in the same way as principles are applied to cases. No single theory is able to encompass the complexities of all aspects of learning or schooling. Professional educators understand the principles and terms that characterize and limit a variety of theories and can select amongst them in order to better understand the situations in which they are involved.
- Decisions also are made in the light of professional knowledge, learned on the job as well as from more formal sources. Professional educators can articulate the informal, often tacit knowledge that they develop from practice so that it engages with and modifies the more formal theories learned from other sources.
- Professional educators not only make decisions, they act upon them responsibly. They examine the value commitments implicit in their actions; they question the appropriateness of the ends that they seek; they connect their educational contexts to broader social contexts; and they assess the effects of their actions on the achievements, dispositions, and propensities of students, colleagues and community members.

The following graduate programs are offered at Lincoln Park:

- EdD in Curriculum Studies
- PhD in Curriculum Studies
- EdD in Educational Leadership
- Educational Leadership General Concentration
- Higher Education Concentration
- Global Catholic Educational Leadership Concentration
- EdD in Early Childhood Education

**Endorsements**

Endorsements are credentials added to a Professional Educator License (PEL). An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

DePaul University’s College of Education offers many programs which fulfill the requirements for specific endorsements that can be added to an individual's Professional Educator Licensure (PEL).

For example, an individual who holds a Professional Educator License (PEL) in Elementary Education (Self Contained General Education) for grades 1-6 may complete the coursework for the Reading Teacher endorsement in order to be eligible to add it to his or her PEL at the current grade range (1-6).

Please note that the Illinois State Board of Education (ISBE) may change the State licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Undergraduate Endorsements**

DePaul University’s College of Education offers many programs at the undergraduate level which fulfill the requirements for specific endorsements that the individual may add to his or her Professional Educator Licensure (PEL).

Students must be enrolled in one of DePaul’s approved teacher preparation bachelor’s degree program and working towards their Illinois Professional Educator License (PEL) in order to be eligible to complete the endorsement coursework.

Please note that the Illinois State Board of Education (ISBE) may change the State licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Early Childhood Bilingual and ESL Combined Endorsements - Undergraduate Program**

To be eligible for the Early Childhood Education Bilingual Education (BE) and English as a Second Language (ESL) endorsements, students must be enrolled in DePaul's Early Childhood Education bachelor's degree program and working towards their Professional Educator License (PEL) that includes an early childhood endorsement.

**Licensure Test**

Individuals seeking a bilingual endorsement must complete the Illinois State Board of Education (ISBE) Target Language Proficiency (TLP) test in the non-English language.

**Endorsement Application**

All individuals must notify their advisor upon completion of the required coursework and licensure tests for DePaul to submit entitlement notification to the Illinois State Board of Education (ISBE). Application for the endorsement may require an additional application fee if the individual already holds a Professional Educator License (PEL). All individuals must meet ISBE requirements at the time of application. Requirements are subject to change per the discretion of ISBE.

### Early Childhood English as a Second Language Endorsement - Undergraduate Program

To be eligible for the Early Childhood Education English as a Second Language (ESL) endorsement, students must be enrolled in DePaul’s Early Childhood Education bachelor’s degree program and working towards their Professional Educator License (PEL) that includes an early childhood endorsement.

Area 1

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. LBS1 Endorsement students must complete the following tests:

- LBS1 Content Area Test (test #155) – assesses knowledge of working with students with disabilities and special needs.

Endorsement Application

Individuals must submit an application directly to the Illinois State Board of Education (ISBE) upon successful completion of the required coursework and licensure tests. All individuals must meet ISBE requirements at the time of application. Requirements are subject to change per the discretion of ISBE.

Graduate Endorsements

DePaul University's College of Education offers many programs at the graduate level which fulfill the requirements for specific endorsements that the individual may add to his or her Professional Educator Licensure (PEL).

Some programs may require students to already hold an Illinois Professional Educator License (PEL) in order to be admitted to the endorsement program, while other programs may allow students who are enrolled in one of DePaul's approved teacher preparation bachelor's degree program and working towards their Professional Educator License (PEL) to complete the required endorsement coursework simultaneously.

Please note that the Illinois State Board of Education (ISBE) may change the State licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Bilingual Education (BE) and ESL Combined Endorsements - Graduate Admission Requirements

To be eligible for the Bilingual Bicultural Education endorsement program, students must hold a bachelor's degree from an accredited college or university and hold a valid teaching license.

To apply, please submit the following items to The Office of Graduate Admission:
• A completed application
• Application fee ($40.00)
• One official transcript from all colleges and/or universities attended
• A copy of valid professional educator license
• A résumé or curriculum vitae
• Two letters of recommendation from professors or employers
• Statement of purpose indicating professional development goals and related experience (750 words)

The endorsement is limited to the range of the program the candidate has completed to receive his/her Illinois Professional Educator License (PEL). For example, if a candidate has completed an elementary 1-6 program to receive the PEL, then the LBS1 endorsement will be applicable only to the
Admission Requirements

To be eligible for the Learning Behavior Specialist 1 (LBS1) endorsement only program, students must hold a bachelor’s degree from an accredited college or university and a valid Illinois Professional Educator License (PEL).

To apply, please submit the following materials to the Office of Graduate Admission:

- A completed graduate application
- Application fee ($40.00)
- Copy of a valid Illinois teacher license
- A bachelor’s degree conferred by an accredited, recognized institution
- A previous grade point average of 2.75 or above on a 4.0 scale
- Two letters of reference, one of which must be from persons familiar with your academic work
- One official transcript from each college or university attended
- Personal statement (see below)\(^1\)
- Resume or curriculum vitae showing evidence of adequate background for the program.
- The admission process also may include an interview with program faculty.

\(^1\) Personal Statement

Write a personal statement that discusses your future goals and your thoughts about your career as a special educator. As part of your statement please consider the following: the possible tasks/roles of a special education teacher are multiple and include inclusion specialist, team teacher with general educators, specialized instruction for exceptional students, advocate for exceptional students, response to intervention (RTI) coordinator, case manager or provider of staff development. From your perspective, rank order the tasks/roles and discuss your rationale for the top ranked roles.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. LBS1 Endorsement students must complete the following tests:

- LBS1 Content Area Test (test #155) – assesses knowledge of working with students with disabilities and special needs.

Candidates who are conditionally admitted with an out-of-state (OOS) teaching license are required to transfer their license into Illinois, and therefore may also be required to take additional licensure tests. Students should work with ISBE to fulfill outstanding test requirements. These additional licensure tests may include the following:

- EdTPA – an electronic portfolio that includes video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Usually completed during preservice student teaching experience.

Endorsement Application

Individuals must submit an application directly to the Illinois State Board of Education (ISBE) upon successful completion of the required coursework and licensure tests. All individuals must meet ISBE requirements at the time of application. Requirements are subject to change per the discretion of ISBE.

Registration, testing schedules, and fees for ISBE licensure tests are available on the ISBE website.

Note that the LBS1 Licensure endorsement program listed above does not lead to a degree.

Principal Endorsement

Admission Requirements

To be eligible for the Principal Preparation licensure program, students must hold a master’s degree from an accredited college or university. They must have a GPA of 2.75 or higher at the undergraduate level and a 3.25 or higher at the graduate level. Students must also possess at least two years of full-time successful teaching experience, hold a valid Illinois teaching license, and possess proof of passing the basic skills or test of academic proficiency. At the time of program completion, students must have at least 4 years of full-time, successful teaching experience to apply for licensure.

To apply, please submit the following items to The Office of Graduate Admission:

- A completed graduate application
- Application fee ($40.00)
- A copy of valid Illinois teaching license
- Proof of passing Basic Skills Test or TAP Exam and two Principal content-area tests
- One official transcript from all colleges and/or universities attended
- Letters from district office recommending entrance into the principal preparation program
- Four letters of recommendation (two from a supervisor and two from colleagues)
- Resume showing evidence of adequate background for the program
- Statement of purpose indicating why you want to be a principal

Upon initial review, the process will include a required interview. Candidates will be expected to complete an on-site writing sample during the interview and submit a teaching portfolio.
Course Requirements
Licensure Only (Public School Strand)
The principal licensure program at DePaul University is an approved Illinois State Board of Education (ISBE) program. It is a rigorous program preparing principals and assistant principals for work service in public and private schools in the state of Illinois.

This is a 44 quarter hour program, which leads to the State of Illinois’ principal licensure.

Specific requirements for entrance into the principal licensure program may be obtained from the office of graduate admissions or the LLC department office.

Individuals seeking the principal licensure must:
1. Complete an approved principal licensure program at an Illinois institution
2. Complete all state-mandated training and examinations
3. Have successfully completed the internship experiences
4. Hold a master’s degree

Upon successful completion of all principal licensure program requirements and any additional requirements, students must apply for their license. Students are to work with the College of Education’s Licensure Officer when applying for the license.

Note: Courses in this program leading to the principal licensure are designed for practicing educators and are not open to students and any other program without the specific permission of the educational leadership program director.

Principal: Catholic Leadership Endorsement

Admission Requirements
To be eligible for the Principal Preparation licensure program with Catholic Leadership Concentration, students must hold a master’s degree from an accredited college or university. They must have a GPA of 2.75 or higher at the undergraduate level and a 3.25 or higher at the graduate level. Students must also possess at least two years of full-time successful teaching experience, hold a valid Illinois teaching license, and possess proof of passing the basic skills or test of academic proficiency.

At the time of program completion, students must have at least 4 years of full-time, successful teaching experience to apply for licensure.

To apply, please submit the following items to The Office of Graduate Admission:

- A completed graduate application
- Application fee ($40.00)
- A copy of valid Illinois teaching license
- Proof of passing Basic Skills Test or TAP Exam
- One official transcript from all colleges and/or universities attended
- Letters from district office recommending entrance into the principal preparation program
- Four letters of recommendation (two from a supervisor and two from colleagues)
- Resume showing evidence of adequate background for the program

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

Reading Specialist students must complete the following tests:

- Reading Specialist Content Area Test (test #176) — assesses knowledge of language, reading, and literacy.
Reading Teacher Endorsement - Graduate

The Illinois State Board of Education (ISBE) requirements for the Reading Teacher Endorsement include:

1. Hold a valid 0-3, K-9, or 6-12 teaching license
2. Complete 24 semester hours or 36 quarter hours, including a practicum, of reading and literacy courses in the following areas:
   a. Foundations of reading,
   b. Content area reading,
   c. Assessment and diagnosis of reading problems,
   d. Developmental and remedial reading instruction and support,
   e. Developmental and remedial materials and resources, and
   f. Literature appropriate to students across all grade ranges
3. Pass the Reading Teacher content test (#177)

Students can pursue the Reading Teacher Endorsement by either:

1. Completing courses that are a subset of the Reading Specialist program (see below), or
2. Applying for a Reading Teacher endorsement evaluation through ISBE. Once a statement of area deficiencies is received, the student will meet with an advisor to determine the required outstanding coursework.

Admission Requirements

To be eligible for the Reading Teacher endorsement only program, students must hold a bachelor’s degree from an accredited college or university and a valid Illinois teaching license.

To apply, please submit the following materials to the Office of Graduate Admission:

• A completed graduate application
• Application fee ($40.00)
• Copy of a valid Illinois professional teaching license
• A bachelor’s degree conferred by an accredited, recognized institution
• Two letters of reference, one of which must be from persons familiar with your academic work
• One official transcript from each college or university attended
• Resume or curriculum vitae showing evidence of adequate background for the program.

The admission process also may include an interview with program faculty.

Special Education for Teachers Endorsement (LBS1 PreK-21)

Admission Requirements

To be eligible for the Special Education for Teachers (Learning Behavior Specialist 1) licensure program, students must hold a bachelor’s degree from an accredited college or university and a valid Illinois Professional Educator License (PEL).

To apply, please submit the following materials to the Office of Graduate Admission:

• A completed College of Education graduate application
• Application fee ($40)
• Copy of a valid Illinois teaching license
• A bachelor’s degree conferred by an accredited, recognized institution
• A previous grade point average of 2.75 or above on a 4.0 scale
• Two letters of reference, one of which must be from persons familiar with your academic work
• One official transcript from each college or university attended
• Resume or curriculum vitae showing evidence of adequate background for the program.
• Personal statement (see below)¹
• The admission process also may include an interview with program faculty.
Personal Statement
Write a personal statement that discusses your future goals and your thoughts about your career as a special educator. As part of your statement please consider the following: the possible tasks/roles of a special education teacher are multiple and include inclusion specialist, team teacher with general educators, specialized instruction for exceptional students, advocate for exceptional students, response to intervention (RTI) coordinator, case manager or provider of staff development. From your perspective, rank order the tasks/roles and discuss your rationale for the top ranked roles.

Clinical Experience
The program requires two summer practicum experiences. Each practicum involves six full weeks of intensive supervised field experience in a cooperating school that operates an extended school year program. Candidates must apply for each practicum, and upon approval they are placed in appropriate summer practicum sites by the program. Candidates who are not admitted to the practicum will assume full teaching responsibility and will have weekly opportunities for feedback and discussion of issues and problems encountered. A grade of B+ or better is required for eligibility to participate in each summer practicum.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

LBS1 PreK-21 Endorsement students must complete the following tests:

- LBS1 Content Area Test (test #155) – assesses knowledge of working with students with disabilities and special needs. Test is required before Student Teaching (deadlines apply)
- Special Education General Curriculum Test (test #163) – assesses knowledge of reading & literacy, mathematics, natural science, and social science. Test is required for admission to Student Teaching.

Candidates who are conditionally admitted with an out-of-state (OOS) teaching license are required to transfer their license into Illinois, and therefore may also be required to take additional licensure tests. Students should work directly with ISBE to fulfill outstanding test requirements. These additional licensure tests may include the following:

- EdTPA – an electronic portfolio that includes video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Usually completed during preservice student teaching experience.

Registration, testing schedules, and fees for ISBE licensure tests are available on the ISBE website.

Note that the LBS1 Licensure program listed above does not lead to a degree.

Subsequent Teaching Endorsement
The State Board of Education authorizes higher education institutions with approved teacher preparation programs to offer subsequent teaching endorsement programs. Under the rules for licensure and assignment of educational staff, subsequent teaching endorsements are earned through passage of all relevant tests and completion of either a full or “focused” licensure program offered by an institution of higher education.

DePaul offers subsequent teaching endorsement programs in the following areas of teacher education:

- Early Childhood Education
- Elementary Education
- Middle Grades Education
- Secondary Education (English, Math, Science, History, Social Science, Visual Arts)
- World Languages Education (K-12)
- Special Education (LBS1)

Each institution is expected to provide candidates with information about how to apply for such an endorsement program and how, in the case of focused programs, the institution will determine what prior coursework and experience can be counted toward the requirements for the subsequent teaching endorsement. Candidates who complete a full or focused subsequent teaching endorsement program will be recommended for the endorsement by entitlement. The following is a summary of the policies on focused programs at DePaul University.

General Policies

- These are endorsement-only programs and do not lead to a degree. However, degree options are available, and candidates could subsequently apply to the appropriate degree program.
- All courses must be taken at DePaul; no transfer credit is allowed.
• General education courses and additional tests may be required as dictated by licensure requirements.
• Accepted candidates are admitted to the T&L or LSI subsequent teaching endorsement program and upon admission have advanced standing (no additional requirements for admission to the Unit).
• Accepted candidates will initially meet with a program faculty member, and subsequently with a College of Education advisor, who will review all credentials and determine a program that prepares the candidate to meet the teacher preparation standards for the teaching endorsement desired and that meets the minimum requirements (as outlined below).
• These focused programs are subject to change during the course of the program. If assessments of the candidate’s performance suggest that the program plan should have additional requirements, the program will be modified accordingly.
• Accepted candidates will be required to complete student teaching at the grade level and/or content area in which the teaching endorsement is sought OR complete an intensive internship that will include extended contact hours with students at the grade level in which the license is sought and will include a demonstration of teaching proficiency at this grade level. The candidate’s faculty advisor will determine the nature of the internship.

Admission Requirements

If you hold a valid teaching license in the state of Illinois, you may enroll in a program designed to help you obtain a subsequent license in the following areas: early childhood education, elementary education, secondary education, world languages education, and special education.

In order to be considered for admission for a Subsequent Teaching Endorsement, you must hold bachelor’s degree from an accredited college or university and hold a valid teaching license. To apply, please submit a completed application as specified by the admission requirements for the teaching and learning program or the special education for licensed teachers program. In addition to the standard application materials, you must also submit a valid Illinois teaching license and a letter from your school principal providing evidence of prior teaching experience and teaching performance. (If you are currently not employed as a teacher, then other evidence of prior teaching experience must be provided.)

In addition to the standard requirements for admission to graduate programs, candidates must submit:

• Valid Illinois teaching license
• A letter from candidate’s School Principal giving evidence of prior teaching experience and teaching performance (If the candidate is currently not employed as a teacher, then other evidence of prior teaching experience must be provided).

Subsequent Teaching Endorsement Requirements for the Following Programs are Provided Below

• Early Childhood Education
• Elementary Education
• Secondary Education (English, Math, Science, History, Social Science, Visual Arts)
• World Languages Education (K-12)
• Special Education (LBS1)

Besides meeting the following requirements, each program completer is expected to demonstrate the appropriate professional dispositions. A list of those dispositions is provided below.

Subsequent Teaching Endorsement Requirements for Early Childhood Education

Accepted candidates will initially meet with a member of the program faculty and subsequently with a College of Education advisor who will review all credentials and determine a program that prepares the candidate to meet the teacher preparation standards for the endorsement desired and that meets the following minimum requirements:

Course Requirements

MGE 474 THE TEACHING OF SCIENCE IN THE MIDDLE GRADES

MGE 481 SUPERVISED FIELD EXPERIENCE 1

**Content Area Requirements**

A minimum of 32-quarter (24 semester) hours is required for each subject area the candidate intends to teach. A program faculty member will evaluate and identify deficiencies in the content area. Middle Grades content area deficiencies may be taken at the undergraduate level and may require courses in addition to the minimum requirements above.

Students who are interested in completing an endorsement in a content area other than English, Math, Science, or Social Science should meet with a program faculty member to identify the viability of completing that endorsement.

**Student Teaching or Internship Requirements (to Be Determined by Faculty Advisor)**

- 10 weeks of student teaching in middle grades education (MGE 590) or 1 candidate-specific internship, as defined by faculty advisor (Research and Internship in Education)

**Licensure Requirements**

- The two content Area Tests (e.g., English, Math, Science, and Social Science) for the two content areas for which you will be endorsed to teach.

**Subsequent Teaching Endorsement Requirements for Secondary Education**

Accepted candidates will initially meet with a member of the program faculty and subsequently with a College of Education advisor who will review all credentials and determine a program that prepares the candidate to meet the teacher preparation standards for the endorsement desired and that meets the following minimum requirements:

Graduate level content courses in the world language to be taught

**Content Area Requirements**

A minimum of 32 semester hours (48 quarter hours) is required in the world language the candidate intends to teach. Deficiencies in the content area will be evaluated by program faculty. World language content area deficiencies may be taken at the undergraduate level and may require courses in addition to the minimum requirements below.

**Student Teaching or Internship Requirements (to Be Determined by Faculty Advisor)**

- 10 weeks of student teaching in world language education (T&L 592) or 1 candidate-specific internship, as defined by faculty advisor (T&L 615)

**Licensure Requirements**

- ACTFL Oral Language Proficiency Interview Or DePaul Oral Language Proficiency Exam (Spanish only)
- Foreign Language Content Area Test

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions.
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved
Subsequent Teaching Endorsement Requirements for Special Education (LBS1)

Accepted candidates will initially meet with a member of the program faculty and subsequently with a College of Education advisor who will review all credentials and determine a program that prepares the candidate to meet the teacher preparation standards for the endorsement desired and that meets the following minimum requirements:

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
- Takes initiative
- Is open to new ideas and engagement in learning
- Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students' learning
- Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Demonstrates consistent professional behavior across all academic settings
- Maintains appropriate interpersonal and professional boundaries
- Accepts personal responsibility for one's behavior
- Expresses feelings and opinions effectively and appropriately
- Upholds confidentiality

Superintendent Endorsement - Graduate

### Admission Requirements

To be eligible for the Superintendent Preparation licensure program, students must hold a master's degree from an accredited college or university. They must have a GPA of 3.25 or higher at the graduate level and 3.0 at the undergraduate level. Students must also possess at least two years of full time administrative or supervisory experience in either a public school district or a non-public school, hold a valid Illinois Professional Educator License (endorsed General Administrative). Out of state candidates must have the requisite experience while holding the appropriate certificate or license that is comparable to the Illinois credential.

To apply, please submit the following items to The Office of Graduate Admission:

- A completed graduate application with application fee ($40.00)
- A copy of valid Illinois Professional Educator License (endorsed in General Administrative)
- Official transcripts from all undergraduate and graduate institutions attended.
- Four letters of recommendation (at least two of which should be from faculty in the applicant's Master's program or from faculty for Master's level course work taken at other institutions).
- Résumé or curriculum vitae.
- Statement of purpose indicating why you want to be a superintendent. It should also articulate an issue or problem of interest or concern.
- A writing sample, preferably a course paper from the applicant's Master's program.
- An admissions portfolio including but not limited to
  - Evaluations of the candidate's administrative abilities from supervisors that attest to school and district improvement;
  - Evidence of leadership roles held and descriptions of the impact the candidate has had on the classroom, school or district, or the constituents served;
  - An analysis of school or district data (e.g., student scores) that describes how the data is used to inform instructional planning and implementation, including an explanation of
what standards were addressed, the academic achievement or school improvement outcomes, and steps taken when expected outcomes did not occur;

• Information about the candidate’s work with families and/or community groups and a description of how this work affected school or district operations, policies and procedures;

• Examples of the candidate’s analytical abilities as evidenced by a description of how he or she used the results from student assessments to improve student learning; and

• Evidence of curriculum development, student assessments or other initiatives that resulted from the candidate’s involvement with school committees.

Upon initial review, the process will include a required interview. Candidates will be expected to complete an on-site writing sample during the interview and submit a teaching portfolio.

Course Requirements

Licensure Only

The superintendent licensure program at DePaul University is an approved Illinois State Board of Education (ISBE) program. It is a rigorous program preparing superintendents for work service in public and private schools in the state of Illinois.

This is a 40 quarter hour program, which leads to the State of Illinois’ superintendent licensure.

Specific requirements for entrance into the superintendent licensure program may be obtained from the office of graduate admissions or the LLC department office.

Individuals seeking the superintendent licensure must:

1. Complete an approved superintendent licensure program at an Illinois institution
2. Complete all state-mandated training and examinations
3. Have successfully completed the internship experiences
4. Hold a master’s degree

Upon successful completion of all superintendent licensure program requirements and any additional requirements, students must apply for their license. Students are to work with the College of Education’s Licensure Officer when applying for the license.

Note: Courses in this program leading to the superintendent licensure are designed for practicing educators and are not open to students and any other program without the specific permission of the educational leadership program director.

Teacher Leader Endorsement Only - Graduate

Admission Requirements

To be eligible for the Teacher Leader endorsement program, students must hold a bachelor's degree and master's degree from an accredited college or university and hold a valid teaching license.

To apply, please submit the following items to The Office of Graduate Admission:

• A completed application
• Application fee ($40.00)
• 2 years of full-time teaching on a valid standard teaching Licensure at the time of application
• One official transcript from all colleges and/or universities attended
• A resume or curriculum vitae
• Proof of passing Basic Skills Test or TAP Exam
• Two letters of recommendation from professors or employers
• Statement of purpose indicating professional development goals and related experience (750 words)

Course Requirements

This non-degree program allows students who already have a Master’s degree to obtain an ISBE Teacher Leader Endorsement. Candidates already holding a Master’s degree (M.Ed. or M.A.) and a professional educator license may enter the program seeking the Teacher Leader Endorsement. Students not holding a Master’s degree must complete either the existing Educational Leadership or Curriculum Studies Master’s program and obtain their professional educator license before they can obtain the Teacher Leader Endorsement.

Licensure

The Illinois State Board of Education (ISBE) issues educator credentials in the State of Illinois. Individuals must fulfill specific requirements in order to receive an educator license from ISBE. One of those requirements is the completion of an ISBE approved program. DePaul University's College of Education has many ISBE approved programs which lead to the Professional Educator Licensure (PEL).

Individuals who successfully complete an ISBE approved program leading to a PEL will also receive an endorsement in the education area and grade range in which he or she studied. For example, an individual completing the Elementary Education program will be eligible to receive the Professional Educator License (PEL) with the Elementary Education (Self Contained General Education) endorsement for grades 1-6.

The requirements below are those approved by the Illinois State Board of Education in April 2016.

Content Area Prerequisites

Following the requirements set forth by the Illinois State Board of Education in spring of 2016, DePaul's Early Childhood Education program requires that students in the early childhood education program have courses in each of the following areas:

- mathematics*
- physical science
- life science
- earth and space science
- history
- geography
- political science/civics
- economics

These courses may be taken at the undergraduate level and may have been included in the student's bachelor's degree program. Early childhood education students' transcripts will be evaluated by an academic advisor after admission to determine if additional coursework is needed. Completion of content area requirements is not a prerequisite for admission; however, coursework must be completed before student teaching. It is strongly encouraged that applicants meet with an advisor after admission and prior to taking content courses.

- DePaul alumni that have taken LSP 120 or ISP 120 can receive credit towards the math requirement.

Early Childhood Licensure

Admission Requirements

To be eligible for the Early Childhood Education Licensure program, students must hold a bachelor's degree from an accredited college or university.

To apply, please submit the following materials to the Office of Graduate Admission:

- A completed College of Education graduate application
- Application fee ($40)
- One official transcript from each college and/or university attended
- Two letters of recommendation from professors or employer

* Resume

A brief statement that explains your reasons for wanting to enter the Early Childhood Education program at DePaul and discusses your potential for becoming a teacher.

Please note that the Illinois State Board of Education (ISBE) may change the State licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.
MATH AND SCIENCE IN EARLY CHILDHOOD 4

T&L 423 FUNCTIONAL BEHAVIOR ASSESSMENT: INTERVENTION AND SUPPORT IN EARLY CHILDHOOD 4

T&L 427 YOUNG EXCEPTIONAL CHILD: METHODS AND CHARACTERISTICS 4

T&L 434 LITERACY, LITERATURE, & THE YOUNG CHILD 4

T&L 481 INTERNSHIP IN PRESCHOOL SETTING (75 CLOCK HOURS OF SUPERVISED EXPERIENCE) 1 2

T&L 482 INTERNSHIP IN PRIMARY SETTING (75 CLOCK HOURS OF SUPERVISED EXPERIENCE) 2 2

Select one of the following: 4

SCG 408 EDUCATION AND SOCIETY

SCG 409 SOCIOLOGY OF EDUCATION

SCG 411 PHILOSOPHY OF EDUCATION

1 T&L 407 may be taken concurrently.

2 T&L 408 may be taken concurrently.

Health, Safety and Child Nutrition Requirement
Candidates should be prepared to document course or other experience that shows they meet the knowledge and skills to provide experiences for young, which appreciates the interrelationships among child, family and the areas of health, safety and nutrition. Candidates should demonstrate comprehension of the issues of health, safety and nutrition that affect young children from the ages of birth through age 8. In addition, candidates are expected to demonstrate understanding of cultural issues and special needs of children with health impairments. Finally candidates should be familiar with the knowledge and application of practices that promote good nutrition, dental health, physical, social and emotional well-being of young children.

• Can be completed by taking T&L 615 or a transferred equivalent.

Student Teaching: 8 Quarter Hours Required
Registration in student teaching requires completion of all requirements and procedures listed in the college core section.

Course Title Quarter Hours

T&L 595 EARLY CHILDHOOD STUDENT TEACHING (grade of B- or better required) 6

T&L 596 EARLY CHILDHOOD STUDENT TEACHING SEMINAR (grade of C or better required) 2

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Early Childhood majors must complete the following tests:

• Early Childhood Content Area Test (test #206) – assesses knowledge of language and literacy development, learning across the curriculum, diversity, collaboration, and professionalism in the early childhood program. Test is required before Student Teaching (deadlines apply).

• EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Internships & Other Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences includes, two internships (T&L 481 and T&L 482 (K-2)). Each internship requires students to be placed in the field for 75 hours in the quarter in which the internship is offered. Internships are associated with theory courses and should be taken concurrently or soon after successful completion of the related theory courses. In addition, students will complete 15 hours in a special education setting, and 15 hours in an infant/toddler setting. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses. FEDS entry of these clinical hours is not required. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Additional Requirements
Please also view the college core requirements under the MA or MED for Early Childhood for additional requirements. Note that the Early Childhood Education Licensure program listed above does not lead to a degree.

Elementary Licensure
The requirements below are those approved by the Illinois State Board of Education December 2015.

Admission Requirements
To be eligible for the Elementary Education Licensure program, students must hold a bachelor’s degree from an accredited college or university.

To apply, please submit the following materials to the Office of Graduate Admission:

• A completed College of Education graduate application

• Application fee ($40)

• One official transcript from each college and/or university attended

• Two letters of recommendation from professors or employer

• Resume

• A brief statement which explains your reasons for wanting to enter the Elementary or Middle School program at DePaul and discusses your potential for becoming a teacher.

Content Area Prerequisites
Elementary Education teachers need to have an understanding of the subjects taught in classrooms at the Elementary level. DePaul’s program requires that students in the Elementary program have a minimum of one college-level course in each of the following areas:

• mathematics

• physical science

• life science
• earth and space science
• history
• geography
• political science/civics
• economics

These courses may be taken at the undergraduate level and may have been included in the student’s bachelor’s degree program. Elementary Education students will be evaluated by an academic advisor after admission to determine if additional coursework is needed. Completion of content area requirements are not prerequisites for admission, however coursework must be completed before student teaching. It is strongly encouraged that applicants meet with an advisor after admission and prior to taking content courses.

1 DePaul alumni that have taken LSP 120 or ISP 120 can receive credit towards the math requirement.

### Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Elementary majors must complete the following tests:

- Elementary/Middle Grades Content Area Test (test #110) – assesses knowledge of language arts and literacy, mathematics, science, social sciences, the arts, health, and physical education. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

### Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate lab settings in conjunction with education courses. Students are required to register for one lab for designated paired course. For example, during the first quarter of the program students must register for T&L 404 and SCG 403 plus one field experience lab. During the quarter when students take T&L 413 and SER 446, a public school that services students with special needs is required. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

### Additional Requirements

Please also view the college core requirements under the MA or MED for Elementary Education for additional requirements. Note that the Elementary Education Licensure program listed above does not lead to a degree.
Secondary Education Licensure
Admission Requirements

To be eligible for the Secondary Education Licensure program, students must hold a bachelor's degree from an accredited college or university.

To apply, please submit the following materials to the Office of Graduate Admission:

Content Area Courses
All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for Secondary Education Biology
Note: Effective for all individuals applying for licensure beginning February 1, 2012, all coursework in the content area must earn a grade of C or better.

- College Biology I
- College Biology II
- Ecology
- Cell Biology
- Physiology
- Genetics
- Molecular Biology
- Biology Elective
- Biology Elective (with lab)
- Biology Elective (with lab)
- College Algebra or Calculus I
- College Chemistry I
- College Chemistry II
- General Physics
- College Environmental Science or Earth and Space Science or Astronomy

Requirements for Secondary Education Chemistry
Note: Effective for all individuals applying for licensure beginning February 1, 2012, all coursework in the content area must earn a grade of C or better.

Chemistry Core: 36 quarter hours required, grade of C or better required

- General Chemistry I
- General Chemistry II
- Organic Chemistry I
- Organic Chemistry II
- Analytical Chemistry

- Biochemistry
- Inorganic Chemistry
- Chemistry Elective I
- Chemistry Elective (with lab)
- Chemistry Elective (with lab)
- Calculus I
- Applied Probability and Statistics or Calculus II
- College Physics
- College Biology
- College Environmental Science or Earth and Space Science or Astronomy

Requirements for Secondary Education Environmental Science
All coursework in the content area must earn a grade of C or better.

- College Chemistry
- College Biology
- College Physics
- Environmental Science I
- Environmental Science II
- Earth’s Environmental System I: Life System
- Earth’s Environmental System II: Solid Earth System
- Earth’s Environmental System III: Climate System
- Earth Energy/Resources and Sustainability
- Environmental Science Elective
- Environmental Science Elective (with lab)
- Environmental Science Elective (with lab)
- Ecology
- Oceanography
- College Algebra I OR Intro Statistics
- Plus two courses on Environmental Sciences at the Graduate Level, as noted below in the Graduate Content Area

Requirements for Secondary Education History
All coursework in the content area must earn a grade of C or better.

- Two US History courses (any level)
- Two Non-US History courses (any level)
- One additional History course (any level)
- One Economics course
- One Geography course
- One Political Science course focused on American Government
- One Anthropology, Sociology, or Psychology course
- Three additional courses in any social science area (Anthropology, Economics, Geography, History, Political Science, Sociology, or Psychology)
Requirements for Secondary Education Mathematics
All coursework in the content area must earn a grade of C or better and a
minimum of 18 quarter hours (12 semester hours) must be coursework at
an undergraduate upper level or graduate level.

- Calculus I
- Calculus II
- Calculus III
- Intro to Math Reasoning OR Discrete Math I and Discrete Math II
- Multivariable Calculus I
- Multivariable Calculus II
- Linear Algebra
- Programming Language
- Abstract Algebra I
- Theory of Numbers or Abstract Algebra II
- Geometry I
- Geometry II or Real Analysis I
- Probability & Statistics
- History of Mathematics

Requirements for Secondary Education Physics
All coursework in the content area must earn a grade of C or better.

- College Physics I
- College Physics II
- Classical Mechanics
- Electricity and Magnetism
- Thermal Physics
- Computational and Theoretical Physics
- Quantum Physics
- Physics Elective
- Physics Elective (with lab)
- Physics Elective (with lab)
- Calculus I
- Calculus II or Multivariable Analysis & Linear Algebra I
- College Chemistry I
- College Biology I
- College Environmental Science or Earth and Space Science or
  Astronomy

Requirements for Secondary Education Social Science
All coursework in the content area must earn a grade of C or better.

- Two US History courses (any level)
- Two Non-US History courses (any level)
- One additional History course (any level)
- One Economics course
- One Geography course
- One Political Science course focused on American Government
- One Anthropology, Sociology, or Psychology course
- Three additional courses in any social science area (Anthropology,
  Economics, Geography, History, Political Science, Sociology, or
  Psychology)

Requirements for Secondary Education Visual Arts
All coursework in the content area must earn a grade of C or better and a
minimum of 18 quarter hours (12 semester hours) must be coursework at
an undergraduate upper level or graduate level.

- Two Dimensional Foundation
- Three Dimensional Foundation
- Drawing
- Intermediate or Adv. Drawing
- Painting
- Sculpture
- Computer Graphics
- Printmaking
- Principles of Art History
- Photography
- Video
- Art & Design I
- Art & Design II

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are
required to complete licensure tests specific to their teaching license.
Secondary Education majors must complete the following tests:

- Content Area Test (test numbers below) – assesses knowledge of
  content area. Test is required before Student Teaching (deadlines
  apply).
- EdTPA - assessment conducted during the student teaching
  experience including video clips of instruction, lesson plans,
  student work samples, analysis of student learning and reflective
  commentaries. Students will submit an electronic portfolio to an
  outside agency for independent evaluation and a fee will be imposed
  by that agency as part of the assessment.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Additional Requirements
Please also view the college core requirements under the MA or MED for Secondary Education for additional requirements. Note that the Secondary Education Licensure program listed above does not lead to a degree.

World Language Education Licensure Admission Requirements
To be eligible for the World Language Licensure only program, students must hold a bachelor’s degree from an accredited college or university.

To apply, please submit the following materials to the Office of Graduate Admission:
• A completed College of Education graduate application
• Application fee ($40)
• One official transcript from each college and/or university attended
• Two letters of recommendation from professors or employer
• Resume
• A brief statement which explains your reasons for wanting to enter the World Language Licensure program at DePaul and discusses your potential for becoming a teacher.

Education Elective Course: 4 Quarter Hours Are Required, Grade of C or Better Required
Open elective credit also is required to meet the minimum graduation requirement of 60 quarter hours. Choose an Education course in consultation with the Academic Advisor or Content Advisor. Courses must be approved by the WLE Program Director prior to registration and requires graduate level registration.

• Elective Course

Student Teaching: 8 Quarter Hours Required
Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH indicates to the Illinois State Board of Education that all field experience hours are complete.

Content Area Courses
All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for World Language Education Arabic Include
All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

• Advanced Arabic I
• Advanced Arabic II
• Advanced Arabic III
• Advanced High Arabic I

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education majors must complete the following tests:

• Content Area Test (test numbers below) — assesses knowledge of the language and culture. Test is required before Student Teaching (deadlines apply).
• OPI Test (see below).

• EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Arabic
• Foreign Language: Arabic Content Area Test (test #137)

Chinese
• Foreign Language: Chinese (Mandarin) Content Area Test (test #126)

French
• Foreign Language: French Content Area Test (test #252)

German
• Foreign Language: German Content Area Test (test #253)

Italian
• Foreign Language: Italian Content Area Test (test #130)

Japanese
• Foreign Language: Japanese Content Area Test (test #256)

Latin
• Foreign Language: Latin Content Area Test (test #133)

Russian
• Foreign Language: Russian Content Area Test (test #134)

Spanish
• Foreign Language: Spanish Content Area Test (test #260)

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Oral Proficiency Interview (OPI) Test

Pursuing licensure in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an interview – before you begin student teaching. You must earn a rating of “intermediate high” or better on the test.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

Additional Requirements

Please also view the college core requirements under the MA or MED for World Language Education for additional requirements. Note that the
World Language Education Licensure program listed above does not lead to a degree.

**Professional Special Programs**

- Licensed Professional Counselor (p. 1259)
- School Counselor Licensure (p. 1260)
- School Nurse Licensure (p. 1261)

**Licensed Professional Counselor**

**State Licensure Information**

The State of Illinois requires that those who wish to work as a counselor have licensure as either a Licensed Professional Counselor (LPC) or an advanced Licensed Clinical Professional Counselor (LCPC). The Counseling program’s Clinical Mental Health Counseling specialty area meets the educational requirements for the Licensed Clinical Professional Counselor. However, there are further requirements that must be met. For more information, contact the State of Illinois Department of Professional Regulation in Springfield, Illinois.

**Admission Requirements**

To be eligible for the Licensed Professional Counselor program, students must hold a bachelor’s degree from an accredited college or university. It is recommended that you have at least one year of working experience.

To apply, please submit the following materials to the Office of Graduate Admission:

- A completed application
- Application fee ($40)
- One official transcript from each college and/or university attended
- Three letters of recommendation: one from a professor addressing your academic ability, one from an employer, and the third from either another professor or employer
- Resume
- A personal statement (see below for more information)

The admission process also may include an interview with program faculty.

**Personal Statement**

Please answer all of the following questions.

Your entire response should not exceed 1,500 words (or approximately 300 words per question).

1. Discuss why you want to enter the counseling field. Demonstrate in your response that you have researched the field and have a basic understanding of what counselors do.
2. Given what you have researched about the profession, discuss your short-term and long-term professional goals should you eventually graduate from our program. Integrate into your response why DePaul’s counseling program will help you achieve your goals.
3. Discuss why self-awareness, self reflection and self-care are important skills for counselors. Explain ways in which you would attend to all of these should you be a student in our program.
4. Explain how your personal values and ethical beliefs will be an asset to you as a future counselor and explain any challenges you may face in future practice. Provide concrete examples from your personal or professional life to help illustrate your points.
5. Discuss your understanding of “multicultural proficiency” and “social justice.” Explain how you believe these play a role in the work of counseling professionals as well as how these fit with your own beliefs and values. Provide concrete examples from your personal or professional life to help illustrate your points.

**Licensed Professional Counselor Academic Criteria**

Individuals who have already completed a Counseling program at DePaul may be required to take additional coursework to meet all the course requirements below. Individuals who are interested in the LPC but did not complete a Counseling program at DePaul can apply as a non-degree student to complete the coursework below.

Applicants must complete coursework in the following areas:

School Counselor Licensure

The Counseling program’s School Counseling specialty area is an Illinois State Board of Education (ISBE) approved program for the School Counselor endorsement on an Illinois Professional Educator License. ISBE states the following guidelines:

Individuals seeking the School Counselor endorsement must:

1. complete an approved school counseling program at an Illinois institution
2. hold a master’s degree in school counseling; counseling or a related field; or an educational field
3. pass the Basic Skills or Test of Academic Proficiency (TAP) and School Counselor content-area tests
4. hold or be qualified to hold a teaching certificate OR complete coursework addressing required knowledge as part of an approved program

Admission Requirement

To be eligible for the School Counselor only program, students must hold a bachelor’s degree from an accredited college or university. It is recommended that you have at least one year of working experience.

To apply, please submit the following materials to the Office of Graduate Admission:

• A completed application
• Application fee ($40)
• One official transcript from each college and/or university attended
• Three letters of recommendation: one from a professor addressing your academic ability, one from an employer, and the third from either another professor or employer
• Resume
• A personal statement (see below for more information)

The admission process also may include an interview with program faculty.

Personal Statement

Please answer all of the following questions. Your entire response should not exceed 1,500 words (or approximately 300 words per question).

1. Discuss why you want to enter the counseling field. Demonstrate in your response that you have researched the field and have a basic understanding of what counseling professionals do.
2. Given what you have researched about the profession, discuss your short-term and long-term professional goals should you eventually graduate from our program. Integrate into your response why DePaul’s counseling program will help you achieve your goals.
3. Discuss why self-awareness, self reflection and self-care are important skills for counselors. Explain ways in which you would attend to all of these should you be a student in our program.
4. Explain how your personal values and ethical beliefs will be an asset to you as a future counselor and explain any challenges you may face in future practice. Provide concrete examples from your personal or professional life to help illustrate your points.
5. Discuss your understanding of “multicultural proficiency” and “social justice.” Explain how you believe these play a role in the work of counseling professionals as well as how these fit with your own beliefs and values. Provide concrete examples from your personal or professional life to help illustrate your points.

Clinical Experience

Students complete their Clinical Experience during the last year in the program. The Clinical Experience Courses include the Practicum, Internship in Counseling I, and Internship in Counseling II. Students are enrolled in the Practicum course Autumn Quarter; Internship in Counseling I Winter Quarter; Internship in Counseling II Spring Quarter. Students must complete a formal application process to participate in the Clinical Experience courses. This includes attending a clinical orientation a full year before beginning the Clinical Experience, submitting an initial application, and securing a placement site. Consult academic
advisor for additional information on application and course enrollment process.

**Clinical Experience Courses: 12 Quarter Hours Required, Grade of B or Better Required**

Prerequisites: All courses with the exception of CSL 512 must be completed prior to being enrolled in the Practicum courses.

Upon completion of the School Counseling specialty area's coursework and the additional State requirements, students must apply for their certificate. Students are to work with the College of Education’s Licensure Officer when applying for the license/endorsement.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their professional license area.

School Counseling students must complete the following tests:

- School Counseling Content Area (test #181) – assesses knowledge of student development, assessment, the school environment and the school counseling profession.

**School Nurse Licensure**

The College of Education, working in collaboration with the School of Nursing in the College of Science and Health, has developed this online program to prepare Registered Nurses to meet the qualifications for licensure as School Nurses. The course sequence has been designed to meet state requirements so that students completing the curriculum will be eligible and prepared to take the Illinois State School Nurse content exam and obtain an Illinois State Board of Education (ISBE) School Nurse license. As with all of our programs in the College of Education, we strive to create positive educational transformations through the university’s Vincentian personalism that honors the dignity of each person.

ISBE requires that school nurses understand the context of the educational setting since it differs from the more traditional clinical and hospital environment. The School Nurse may be called upon to participate in special education case work and health assessments or record keeping that would not be traditionally affiliated with a nurse’s responsibilities in other settings. The School Nurse must therefore have coursework in the psychology, identification of, and methods of instruction for the exceptional child. The School Nurse must also have coursework that provides information regarding reading methods and content area reading.

Our state licensure program consists of 4 total courses for 16 credit hours (all online), plus an eight credit hour internship. The internship will include an 11-week full-time placement in a school under the mentorship of a school nurse.

**Licensure**

Upon completion of the program, students are eligible to take the Illinois State School Licensure Content Exam, (Test #182).

**Admissions**

Applicants to the licensure program must meet the admissions requirements of the College of Education (found here (p. 1230)). Applicants must hold a Bachelor’s Degree and must have a minimum GPA of 3.0. They must provide transcripts from degree granting institutions, two letters of recommendation, and a copy of nursing license. ISBE requires that School Nurse candidates must hold licensure as a Registered Nurse in Illinois.

**College of Law**

DePaul University College of Law challenges and enlightens students by placing the highest priority on innovative programs of instruction that include both traditional classroom theory and professional skills training. We are distinguished by our highly successful centers and institutes, which emphasize collaborative learning among students and faculty in advancing the law and serving justice. Located in a vibrant urban environment, the College of Law brings together students, faculty, staff and alumni committed to serving the public and the legal profession in ways that enhance the social, economic, cultural and ethical values in the broader community. The College of Law is part of a university that derives its fundamental mission from St. Vincent de Paul, who advocated the acceptance of all people and devoted his life to helping the disadvantaged lead dignified lives. We seek diversity in students’ special talents, qualities, interests and socioeconomic backgrounds in creating a culture in which student learning is central. DePaul College of Law students can expect an academic environment that weaves together education, experience, service and community.

**Academics**

At DePaul University College of Law, tradition underlies everything: our deep roots, our enduring values and our commitment to service.

The College of Law provides theoretical instruction as well as offers creative approaches to professional skills training. Law students can earn academic credit by working with real clients on real cases in every type of legal environment. Through our Legal Clinics, Field Placement Program and Trial Advocacy Program, students gain valuable first-hand experience and insight working side-by-side with distinguished faculty members and practicing attorneys.
In addition to the core Juris Doctor curriculum, students also can choose from a variety of joint degrees, graduate programs and certificate options in a number of concentrations.

**3+3 Program (BA+JD)**

In the 3+3 BA+JD Program, high-achieving first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

**Key Program Features**

- Students earn both a bachelor's and a law degree (Juris Doctor) in as few as six years (three years undergraduate and three years in law school).
- Students save one year's worth of tuition, reducing their overall debt load.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

**Program Requirements**

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students must achieve a cumulative GPA of 3.35 by the end of their second year of study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>

<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law's online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than the end of the Autumn Quarter of the participant's third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

**Admission & Aid**

**Electronic Application Process**

All applicants to the College of Law must submit all materials electronically through the Law School Admission Council (LSAC) and register with the LSAC Credential Assembly Service (CAS). We only accept applications submitted through LSAC. Please read the application instructions included with the LSAC Electronic Application and follow them carefully. You can access the LSAC Electronic Application at law.depaul.edu (http://law.depaul.edu) or lsac.org (http://www.lsac.org).

We will not accept any paper application materials or paper updates to your application. Paper materials and updates will not be retained or reviewed by the Admissions Committee and will be discarded. You are welcome to submit updates to your file electronically. Application update materials may be submitted to lawinfo@depaul.edu. Please include your name and LSAC identification number on each attachment.

Disabled applicants in need of a reasonable accommodation to complete the application process, or other applicants who require a paper application, should contact the Office of Law Admissions at (312) 362-6831 or email lawinfo@depaul.edu with their request.

**Admission Policy**

Admission to DePaul University College of Law is very competitive. We consider numerous factors in evaluating each applicant, including undergraduate academic performance, Law School Admission Test (LSAT) scores, advanced degrees, professional work experience, writing ability, potential for leadership, professional and academic recommendations and the applicant’s special talents, qualities, interests and socioeconomic and cultural background. No single factor is dispositive when determining admission.

Personal qualities that demonstrate intellectual depth, high ideals and diligence also are considered, as are economic, societal or educational obstacles that have been successfully overcome. Diversity in background and experience among the members of each entering class is a continuing objective. Having a diverse student body allows us to encourage and foster the exchange of different ideas. In addition, a candidate’s prior relations with the DePaul University community and her or his potential for furthering DePaul’s institutional goals are considered.

Because applications are reviewed on a rolling basis, early application is highly recommended, especially for those who desire merit scholarship and financial aid consideration. For first-year applicants with no previous law school credit, admission is granted only for the fall semester. First-year applicants should ensure that their application and all necessary documents are on file in the Office of Law Admission prior to the suggested application deadline of April 1.

Prospective applicants who have received their baccalaureate degrees from accredited institutions or who have received degrees prior to July of the year for which admission is sought are eligible to apply. Except for students admitted to the 3+3 BA+JD program, anyone who has yet to receive a baccalaureate degree will not be permitted to enroll in the College of Law. No specific fields of study are prescribed at the baccalaureate level.

DePaul University has a nondiscriminatory admission policy; it is the policy of DePaul University that no person shall be the object of
discrimination or harassment on the basis of race, color, ethnicity, religion, sex, gender, gender identity, sexual orientation, national origin, age, marital status, pregnancy, parental status, family relationship status, physical or mental disability, military status, genetic information or other status protected by local, state, or federal law in its employment or its educational settings.

**Application Instructions**

**Letter of Recommendation**

One letter of recommendation is required for all applicants. Additional letters are welcome. Letters of recommendation must be submitted through CAS.

Recommendations from an applicant’s college professors are particularly useful. Recommendations also may be submitted by employers or colleagues who are in positions to make critical and informed appraisals of an applicant’s qualifications.

**Personal Statement**

A personal statement is required and must be electronically attached to the application for admission. It should not exceed two pages, and may provide the Admissions Committee with information regarding such matters as intellectual interests and pursuits; personal, family or educational background; experiences and talents of special interest; reasons for applying to law school as they relate to personal goals and professional expectations; or any other factors that will assist the committee’s evaluation of the applicant’s candidacy for admission. Applicants also may describe, either within the personal statement or as an addendum, how their admission would contribute to the diversity of the College of Law.

**Resume**

A current resume is strongly recommended and may be electronically attached to the application for admission. It should not exceed two pages. It should include a complete employment record and identify honors, scholarships and commendations received; membership in any scholastic, honorary and professional associations; as well as community, volunteer and extracurricular activities.

**Law School Admission Test / Credential Assembly Service**

All applicants must take the LSAT. LSAT scores earned prior to June 2014 will not be accepted. In addition, all applicants must register with CAS. Please visit the LSAC website (lsac.org) for additional information.

**Application Fee**

There is no application fee for the JD program.

**International Applicant Information**

Applicants who have earned degrees or received diplomas from foreign institutions must submit all materials required of first-time JD applicants.

In addition, applicants who have completed coursework or earned degrees from foreign institutions should submit their foreign transcripts through LSAC’s CAS. Foreign transcripts received will be sent to the American Association of Collegiate Registrars and Admissions Officers (AACRAO) where the transcript will be authenticated and analyzed. This service is included in the standard CAS fee. The data will be assembled into a foreign credential evaluation document that contains AACRAO’s summary, copies of the transcripts (and translations, as necessary) and a TOEFL or IELTS score, if applicable.

Applicants who were educated in foreign countries at institutions where English is not the primary language must also register for the TOEFL (toefl.org) or IELTS (ielts.org). Applicants who register for the TOEFL must advise Educational Testing Service (ETS) to send their TOEFL score to DePaul University College of Law (institution code 1165).

LSAC will incorporate the applicant’s foreign credential evaluation, TOEFL or IELTS score and associated documents into the regular CAS report.

While the College of Law strongly encourages international applicants to submit their foreign transcripts to the CAS, we will also accept detailed evaluation reports from Educational Credential Evaluators (ece.org), World Educational Services (wes.org) or from any other member of the National Association of Credential Evaluation Services.

International applicants who have graduated from foreign law schools may receive up to 28 credit hours toward the JD degree. The determination of applicable credit is made upon admission. For additional information, including a copy of the Financial Affidavit of Support Form for International Students, please visit International Student Admissions (https://offices.depaul.edu/international-admission/Pages/default.aspx).

**Joint Degree Programs**

DePaul offers five joint degree programs: the JD+MBA degree with the Kellstadt Graduate School of Business; the JD+MS in Public Service Management and the JD+MA in International Studies, both with the College of Liberal Arts & Social Sciences; the JD+MS in Computer Science Technology with the College of Computing and Digital Media; and the JD+Masters in International and European Business Law with the Pontificia Universidad Comillas (Madrid, Spain).

Those seeking a joint degree first must apply and be accepted for admission to the College of Law. Admission is made to the appropriate joint degree program only after completion of the first-year core curriculum in the College of Law with above average academic achievement. Thereafter, if accepted into the joint degree program, law students begin their joint degree studies.

A separate application may be required for each program and should be submitted during the first year of law school. In addition, an entrance exam such as the GRE or GMAT may be required depending on the requirements of the program to which the applicant is applying.

More information about joint degree programs is available at law.depaul.edu.

**Transfer Applicant Information**

DePaul University College of Law welcomes applications from students who will have completed, within the preceding two years, at least one year of study at another ABA-accredited law school. Transfer applicants may apply for admission to the day and evening programs during the fall and spring semesters. Transfer applicants admitted to the College of Law may receive up to 30 hours of credit toward the JD degree. The determination of applicable credit is made upon admission. DePaul University does not have an articulation agreement with any university or law school program regarding transfer admission.

Students applying for transfer admission complete a different online application than first-year applicants. Transfer applicants are required to submit the following: transfer student application form, one letter of recommendation from a law school professor, resume, personal statement and current LSAC CAS report. In addition, transfer applicants must submit directly to the Office of Law Admissions:
1. a letter of good standing indicating eligibility to return from all previously attended law schools and
2. law school transcripts from all previously attended law schools.

Law school transcripts must provide grades for all coursework attempted. While a transcript showing spring grades generally is required to review the application, the Admissions Committee may make an exception and grant a conditional admission based upon an applicant’s strong academic performance in the fall semester. Class ranks are not required to evaluate an applicant’s transfer application.

In evaluating transfer applicants, the Admissions Committee will consider the applicant’s undergraduate academic record, LSAT score, law school grades, personal statement, letter of recommendation and other information requested in the application.

Financial Assistance
DePaul University and the College of Law provide a range of financial assistance in the form of loans and scholarships. Should you wish to apply for financial assistance, indicate your intent in the application for admission. Financial aid applications will be available shortly after October 1.

Scholarship Assistance
All admitted students are automatically considered for applicable scholarship awards. No separate application is required. Dean’s Scholarships are awarded to entering law students based upon their achievements, personal qualities and potential to contribute to the DePaul law community. Scholarship recipients are notified of their award in the acceptance letter.

Need-Based Assistance
To apply for loans and other need-based assistance, the Free Application for Federal Student Aid (FAFSA) is required and can be obtained after October 1 at colleges and universities or at the FAFSA website (fafsa.ed.gov). The FAFSA code for DePaul University College of Law is 001671. The FAFSA must be complete and on file in the Office of Financial Aid on or before March 1 in order to receive full consideration for DePaul-administered financial aid.

For additional financial aid and scholarship information, visit the DePaul University College of Law website at law.depaul.edu.

College of Liberal Arts and Social Sciences
The College of Liberal Arts and Social Sciences is committed to providing all of its students with an education that balances in-depth study in select areas with a breadth of experience in the various disciplines that form the core of human knowledge. All programs of study share a commitment to the highest standards of academic quality, to a mode of study that nurtures critical thinking skills, to a self-conscious examination of questions of value and meaning, and to the development of those habits of the heart and mind intrinsic to a life-long and independent learner.

Our commitment is reflected in a faculty that is as strongly committed to teaching as it is to research. It is reflected in curricular practices that discourage students from concentrating in one subject area to the exclusion of all others. And it is reflected in the College’s encouragement of interdisciplinary areas of study, effective collaboration, and the development of leadership skills that can be applied across all areas of knowledge.

The College values and nurtures the distinctiveness of the Vincentian mission of the University. The interactions among its faculty and between its faculty and its students are characterized by sincere personal care. Significant portions of the curriculum speak to questions of social responsibility, ethical standards for behavior, and an active engagement with the people of Chicago and the world.

Offices of Undergraduate Student Advisors
Academic advising is an essential part of student success. The College is committed to helping each student form a unique and coherent academic plan from the three components of the undergraduate career: the Liberal Studies or University Honors program; the major and minor field(s) of study; and open electives.

Students declare majors, concentrations, and minors through Campus Connect.

When a student declares a major, a faculty member from that department is assigned to the student as an academic advisor. The faculty advisor
helps the student understand the requirements of the major and how to choose non-major course work to meet the student's needs and interests. In addition, the faculty advisor may inform the student about internships, studying abroad, and preparing for graduate or professional school.

Faculty advisors work closely with staff professional advisors in the Undergraduate College Office and in the larger academic departments. Each student is also assigned a staff professional advisor from whom they can receive holistic advising.

Students can find the name and contact information for their academic advisors on Campus Connection.

Assistant Director and Academic Advisor

**Political Science**
Estela Barragan, BA
Assistant Director and Academic Advisor

**History and Sociology**
vacant at the time of publication

**Graduate Student Services Office**
The Graduate Student Services Office assists graduate students throughout their academic careers. Providing administrative support to the academic programs, the Graduate Student Services Office facilitates orientations, transferring academic credit, awarding of assistantships and tuition waivers, registering for independent study, and completing graduation requirements.

In addition, the Coordinator of Graduate Student Services in the Graduate Office provides supplementary advising on administrative, policy, and procedural matters. Generally, the Coordinator may serve as a first point of contact for any questions students may have about life in the College of Liberal Arts and Social Sciences and at DePaul University.

Graduate students should become familiar with the resources on the Graduate Student Services Office webpages (see URL below) as well as the content of the Graduate Student Handbook (see left menu, Academics > Graduate).

Joshua Covell, MA
Assistant Director and Coordinator of Graduate Student Services

**Undergraduate Academics**
The College of Liberal Arts and Social Sciences offers a wide range of Undergraduate majors, Graduate programs and Certificates.

**Honors Program**
Most students follow the Liberal Studies Program (p. 1166) to meet their general education requirements. However, students accepted into the Honors Program (p. 1192) fulfill general education requirements through an alternative set of courses. A student in the Honors Program pursuing a primary major in the College of Liberal Arts and Social Sciences follows the requirements below:

**Honors Core**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>

<td>TOPICS IN SOCIO-CULTURAL INQUIRY</td>
<td>4</td>
</tr>
</tbody>
</table>

1. Not required for students in Economics, Public Policy, Criminology, or Sociology.

**Science**
- HON 225
- One course chosen from the university's Scientific Inquiry list

**Arts**
- HON 205
- One applied, performance, or studio arts course outside of the major from approved list.

**Language**
- Three courses of intermediate or advanced language study.

Students who meet the proficiency requirement by placing at the 200-level of a language may consult with an Honors advisor for alternative 3-course sequence options to fulfill the language requirement. Language
majors must fulfill the language requirement with one year of language study outside of their major or one of the approved 3-course language sequence alternatives.

**Junior Seminar**
- HON 301

The Honors Program is committed to developing students’ knowledge and cultural awareness so they may respect and learn from difference. Honors students meet the multicultural requirement by completing HON 301.

**Senior Capstone**

<table>

Honors students who do not have a calculus or statistics requirement as part of their major must complete HON 180, or the first course in the required calculus or statistics requirement for the major, before enrolling in HON 207 or HON 225. Students majoring in Economics, Public Policy, Criminology, or Sociology are not required to take HON 180. These students will replace HON 180 with a third Honors Approved Elective.

Students who choose to complete an Honors Senior Thesis must have their project approved at least one term prior to executing the project. To gain approval for a senior thesis, students must complete an application, including a project proposal, signed by Students who choose to complete an Honors Senior Thesis must have their project approved at least one term prior to executing the project. To gain approval for a senior thesis, students must complete an application, including a project proposal, signed by two faculty advisors. In keeping with the interdisciplinary nature of the program, the thesis should attempt to move outside the boundaries normally associated with one particular discipline and should be supervised by two readers from different academic fields. While the final product must be a substantial piece of work building on the student's accumulated knowledge and new research, specific requirements for each thesis will depend on the nature of the project. See the Director or Associate Director for an application and thesis materials. Students may opt to enroll in HON 300 (a two-credit elective) to receive dedicated guidance as they prepare the thesis project.

**Honors Approved Electives**

Approved Electives are chosen in consultation with an Honors advisor to achieve specific academic or professional goals. Courses completed for Study Abroad, 200-300 level courses taken for a minor or second major, or 200-300 level courses taken to pursue a specific area of interest outside of the major can count as Honors Approved Electives. Students majoring in Economics, Public Policy, Criminology, or Sociology have three Honors Approved Electives. Students in all other Liberal Arts and Social Sciences majors have two Honors Approved Electives.

**Experiential Learning**

Honors students fulfill the University’s requirement for Experiential Learning (EL) through completion of an internship course, a service learning course, or through participation in a study abroad program. The course will verify completion of the EL requirement and be placed where appropriate in the student’s academic program – either as a major requirement, open elective, Honors Approved Elective, or (in the case of HON 351) an Honors core requirement.

**Major Field Adjustments**

In addition, participation in the University Honors Program may affect the requirements for a student’s major field. The following adjustments may occur:

**Art, Media and Design (BFA)**

Students in the BFA program in AMD will fulfill 64 credits of honors requirements. They will not have a 3-course language requirement or an SI requirement or a Fine Arts Elective.

**Math Requirement**

<table>
<thead>
<tr>
<th>Course</th>

</table>

**Experiential Learning Requirement**

Select one of the following:

- ART 291 MURAL PAINTING
- ART 292 COMMUNITY VIDEO PRODUCTION
- ART 348 GRAPHIC ART IN THE PUBLIC REALM
- ART 382 STUDENTS TEACHING ART IN THE ELEMENTARY CLASSROOM
- ART 383 SERVICE LEARNING IN THE ARTS INTERNSHIP

**English**

HON 101 replaces ENG 101 for Honors students in English. This course is replaced with a 200-level ENG course approved by the English advisor.

**History**

HON 102 replaces one lower division History course for Honors students in History. This course is then replaced with an open elective. Students who are waived from HON 102 for AP credit in European or World History may opt to take HON 102 as a Lower Division History course or complete all five Lower Division History courses.

**International Studies**

HON 201 replaces GEO 201 for Honors students in International Studies. ECO 106 is required for all INT majors. For Honors students, this course counts as an open elective.

**Philosophy**

HON 105 replaces PHL 100 for Honors students in Philosophy. This course is then replaced with an open elective.

**Graduate Requirements**

A grade of C- or higher in HON 110 or HON 111 is required to remain in the Honors Program.

A grade of C- or higher is required to pass HON 100, HON 350, HON 351 and HON 395.

**Graduate Academics**

The College of Liberal Arts and Social Sciences offers a wide range of graduate degree programs and certificates, general academic requirements for which follow.
**Master’s Programs**

For the master’s degree, all programs involve one or more of the following:

1. credit hours,
2. thesis,
3. paper on approved topic,
4. integrating project,
5. final or comprehensive examination, and
6. program time limitation.

**Credit Hours**

For the master’s degree, most programs for graduate students require 48 quarter hours of course work. When the program includes a thesis, no more than eight quarter hours of registration in Thesis Research will be counted toward the degree. Specific degree requirements are listed in the departmental and program sections of this Catalog.

**Thesis**

The University offers the master’s degree both with and without the thesis; however, the thesis is required by some departments. The thesis is limited to the student’s field of specialization and should offer satisfactory evidence of the candidate’s potential for scholarly research.

The student is advised to consult the College Office or its website (https://las.depaul.edu/student-resources/graduate-student-support/graduation-requirements/Pages/thesis-requirements.aspx) for information regarding the required format of the thesis and accompanying forms. Responsibility for fulfilling these requirements lies with the student.

The student, after completing the thesis, will submit it to the director of his or her thesis committee for consideration. When the thesis is fully approved, purged of all errors, and in the correct format, the student must submit an electronic copy to the College Office. The College Office will arrange for the electronic archival of your thesis with the library and your department.

**Paper on Approved Topic**

The type and length of the paper is determined by the department or program that lists it as a requirement for the master’s degree. The purpose of the paper is to give evidence of the student’s ability to find, select, organize and interpret material in a manner consistent with the standards and practices of the discipline involved.

**Integrating Project**

Procedures for such a project are set in advance in each specific case through consultation between the student and the department or program advisor.

**Final or Comprehensive Examination**

The type and the subject matter of the examination follow the regulations established in the various departments and programs. If the student does not pass the examination, the department or program may grant permission for another examination. The examination may not be repeated until after the next convocation nor may the examination be taken more than twice.

**Program Time Limitation**

Graduate students in master’s programs are expected to complete their program degree requirements within a six-year period from the first registration date for a course in the program. When a graduate student fails to finish before the end of the sixth year, the department or program director may recommend, on receipt of the student’s petition, in writing, an extension of time with or without additional courses, examinations, or other conditions.

**Doctoral Programs**

The Doctor of Philosophy, the highest academic degree that DePaul University confers, is offered in the department of Philosophy. The degree shows that the recipient has demonstrated proficiency in a broad area of learning, as well as the potential to explore and advance that field of knowledge by independent research.

Following are the minimum general requirements for all candidates for the Doctor of Philosophy degree in the areas of:

1. academic achievement,
2. residence,
3. admission to candidacy,
4. dissertation,
5. final examination and
6. program time limitations.

Additional requirements set by the departments are stated in the departmental sections of this Catalog.

Students should contact the Graduate Office or check its online resources if there are any questions or concerns.

**Academic Achievement**

A student will be advised to withdraw from the doctoral program when the department judges that he or she is not maintaining satisfactory progress toward the degree. Students are required to maintain at least a 3.0 average. A course grade below 2.0 is unsatisfactory and will not be counted toward completing degree requirements. The determination of satisfactory progress is not limited to grades and grade point average, but includes all factors in the student’s performance.

**Residence**

At least three consecutive quarters beyond the master’s level must be spent in full-time study at DePaul University. Full-time study is defined as registration for a minimum of eight quarter hours in a quarter. With prior approval of the department, the student may satisfy residency by course work, by participation in seminars, or by research performed off campus. To reflect the diversity of graduate study for the Ph.D. degree at stages other than the residency stage, doctoral candidates are full-time students who are registered for Independent Study (four hours); for Dissertation Research (four hours); or for Candidacy Continuation (non-credit).

**Admission to Candidacy**

Admission to candidacy implies that the faculty is satisfied the doctoral candidate is sufficiently knowledgeable in his or her area of specialization and in the use of research tools to be able to prepare an acceptable dissertation.

For admission to candidacy the doctoral candidate shall have had the master’s degree conferred and shall have completed three consecutive quarters of full-time study beyond the master’s level. Other requirements may include a comprehensive examination, departmental language or allied field study, and/or a dissertation proposal.

The College Office will record the date of admission to candidacy. There is a time limit of four years between admission to the College of Liberal Arts and Social Sciences and admission to candidacy. Once admitted to candidacy, the doctoral candidate must maintain registration in the
University in each of the quarters of the academic year until the degree requirements have been completed. Among other courses, the following are appropriate to maintain registration: Independent Study (four hours); Dissertation Research (four hours); or Candidacy Continuation (non-credit). Failure to comply with the policy governing registration in the University, in each of the quarters of the academic year until the degree requirements have been completed may result in dismissal from the doctoral program. Candidacy status may be reinstated only after the student has applied for readmission (see Readmission Procedures).

Dissertation
The doctoral candidate will prepare a dissertation based on his or her research. The purpose of the dissertation is to demonstrate one’s ability to do scholarly work that contributes to the profession and the advancement of knowledge. The candidate will:

1. select a dissertation director;
2. have a topic of the dissertation approved; and
3. form a dissertation committee to help guide the production of the dissertation.

Further details about the dissertation are available from the candidate’s department. All doctoral dissertations are to be published through ProQuest and entered into DePaul University’s institutional repository. After all requirements have been completed, the dissertation document has been fully approved, purged of all errors, and in the correct format, the student must submit an electronic PDF copy of the dissertation to the College Office.

Final Examination
The dissertation is the principal basis of the final examination. After completing the dissertation, and at least eight months after admission to candidacy, candidates should submit a petition for the final examination to their department. The department chairperson notifies the Graduate Office of the date, time and place of the examination and of the names of the members of the examining committee. After the examination, the chair of the committee sends a report of the results, signed by all committee members, to the graduate office. When these steps have been completed, the doctoral candidate becomes eligible for degree conferment at the next convocation.

Program Time Limitations
For graduate students in a doctoral program, the time limits to complete the requirements for the Doctor of Philosophy degree are:

1. between admission to the doctoral program and admission to candidacy: not more than four years; and
2. between admission to candidacy and the final examination: not less than eight months, and not more than five years.

When a graduate student fails to finish before the end of his or her fourth year prior to candidacy or his or her fifth year post candidacy, the department or program director may recommend, on receipt of the student’s petition, in writing, an extension of time with or without additional courses, examinations, or other conditions.

Certificates
Community Development
Critical Ethnic Studies
Digital Humanities
Geographic Information Systems
Global Health
Metropolitan Planning and Development

Publishing
Social Research
Sustainable Urban Food Systems
Teaching English in Two-Year Colleges
Teaching English to Speakers of Other Languages
Women’s and Gender Studies

Course work credit leading to a graduate degree program in the College of Liberal Arts and Social Sciences may be double-counted toward ONE approved, paired, graduate certificate program. If a student seeks another (second or more) LAS certificate, and those certificate program requirements are again completely comprised of course work leading to the student’s graduate degree, then the student must take at least two additional courses in order to earn the additional certificate(s).

Liberal Arts & Social Sciences Graduate Academic Student Handbook
In addition to the DePaul University Graduate Student Handbook, the Liberal Arts and Social Sciences Graduate Student Handbook includes requirements, rules and regulations for its graduate programs. Additional academic information and regulations applicable to specific graduate programs can be found via the program links below.

Upon admission to a graduate program, a student is to follow the catalog requirements in effect at the time of entrance. A student who is readmitted or who changes his or her program or enrollment status is subject to the terms of the catalog in effect at the time of readmission or status change.

Graduate students assume the responsibility to know and meet both the general and particular regulations, procedures, policies, and deadlines set forth in this catalog and handbook. This catalog does not constitute a contract between the student and the University. Every effort has been made to provide accurate and firm information. The University reserves the right to revise the content of its catalogs and schedules, and to change policies, programs, requirements, rules, regulations, procedures, calendars and schedule of tuition and fees; to establish and modify admission and registration criteria; to cancel or change courses or programs and their content and prerequisites; to limit and restrict enrollment; to cancel, divide or change time or location or staffing of classes; or to make any other necessary changes. Additionally, all students are expected to adhere to the Student Code of Responsibility found in the Student Handbook.

The following graduate programs have specific handbook policies:

- History (p. 506)
- Interdisciplinary Studies Program (p. 538)
- International Public Service (p. 548)
- Liberal Studies (p. 622)
- Modern Languages (Arabic (p. 128), Chinese (p. 198), French (p. 443), German (p. 475), Italian (p. 566), Japanese (p. 568), Spanish (p. 965))
- Nonprofit Management (p. 731)
- Philosophy (p. 786)
- Public Administration (p. 834)
- Public Health (p. 837)
- Public Policy (https://courses.depaul.edu/university-catalog/degree-requirements/graduate/class/public-policy-mpp/Pages/student-handbook.aspx)
• Public Service Management (p. 854)
• Social Work Program (p. 940)
• Writing, Rhetoric, and Discourse (p. 1162)

Academic Advising
Academic advising is an essential component of student success. Faculty work with graduate students not only on course selection and to monitor progress toward degree, but, more importantly, to be mentors and advocates through students’ programs of study and beyond.

Degree-seeking students can find the name of their academic advisor on Campus Connection. Non-degree seeking students and students-at-large should contact the LAS Graduate Student Services Office for advising and assistance with registration.

Graduate Student Services Office (https://las.depaul.edu/student-resources/Pages/default.aspx)
2352 North Clifton Avenue

Suite 130
Chicago, Illinois 60614
773-325-4008 (p)
773-325-7311 (f)
LASGraduateOffice@depaul.edu

Courses and Credit
Students must be registered in order to attend and receive credit for courses. The typical class extends over a ten-week period (or an accelerated five-week period in the summer). All courses carry four quarter hours of credit (2 2/3 semester hours), unless otherwise noted.

For students who work full-time, eight credit hours per term is the suggested maximum.

Graduate courses are numbered 400 - 799. Courses numbered 300 through 399 are advanced undergraduate courses that may be accepted for graduate credit within the limitations stipulated by the specific departmental chair or program director.

Students who want to enroll in undergraduate courses for personal interest while pursuing a graduate degree must submit an online application for non-degree seeking undergraduate admission found on the DePaul website.

Up to twelve quarter hours of credit (or not more than one-quarter of a program’s required coursework) may be transferred from another institution, with the approval of the program director. Please contact the Graduate Student Services Office for details.

Grades, Minimum Requirements
A grade of B− or higher must be earned to receive credit for any upper-level undergraduate course (300 level) that has been approved to count toward the graduate degree. A minimum grade point average of 2.500 is required to graduate. Some programs may have a higher minimum graduation grade point average. A grade of D+ or D is unacceptable for graduate credit, and if earned in a required course, the course must be repeated or substituted as directed by the director of the graduate program. D+ or D grades remain on the academic record and are calculated into the cumulative grade point average.

Graduation
Meeting Degree Requirements
You must successfully complete all of the general and specific degree requirements as listed in departmental or program sections of the catalog under which you were admitted. All requirements must be completed by the grading deadline of the degree conferral quarter.

Earning Degrees with Distinction
Requirements for earning a degree with distinction vary by program. Unless otherwise indicated, the minimum cumulative grade point average for distinction is 3.75. Additional criteria need to be met in many programs, such as passing a comprehensive examination or writing a thesis with distinction. Refer to your program information for any differing or specific requirements on minimum grade point average or additional criteria.

Degree Conferral
Applying for degree conferral requires the anticipated completion by the stated deadline of all program requirements including completion of all course work plus any of the following that apply: program standards, field experiences, thesis and/or dissertation requirements, qualifying or comprehensive exams, language proficiency, and the minimum GPA requirement for graduation. Submitting the on-line degree conferral application does not guarantee the conferral (granting) of a degree from DePaul University. Degree requirements are reviewed at the end of the expected completion term indicated.

In order to have your degree conferred, you may not have any outstanding incomplete grades, transfer credit, grade changes, substitutes, or waivers. All exams must be completed and graded, and theses/dissertations or other capstone projects must be graded and submitted. Failure to have these items complete by the end of degree conferral term will prompt the Graduate Office to deny degree conferral. If you wish to postpone your degree conferral or are ineligible to graduate, you must reapply.

If you meet all requirements, your degree will be conferred within 30 days of the end of the term. Diplomas are mailed to graduates without financial holds, by the Office of the University Registrar, generally within 45-60 days after the end of the term.

DePaul reports degree information to the National Student Clearinghouse monthly. Many companies and agencies use this service to verify awarded degrees. Your degree will only be verified by the Clearinghouse if your privacy settings in Campus Connection indicate this as releasable information at the time your degree is conferred. Please verify your privacy settings before the end of your completion term.

Commencement
The graduation ceremony is symbolic. It is held in June of each year. June and August degree audits occur after the ceremony, therefore these candidates may not be accurately recognized as having earned a degree. Likewise, graduation with distinction may not be able to be announced at the ceremony, but will appear on the transcript and diploma.

Deadlines for Degree Conferral and Commencement Participation
The University confers graduate degrees four times per year, after the autumn, winter, spring, and summer terms. The deadlines for applying for degree conferral are October 1, January 15, February 1, and July 15 respectively. Students can RSVP to the June commencement ceremony beginning in the winter quarter. (There is only one commencement, i.e., graduation, ceremony per year. All students whose degrees are earned in that academic year are encouraged to participate.)
Probation and Dismissal

Each program may have its own probation and dismissal policies. Please consult with your program first and if there are no program-specific policies then the following applies.

A student is subject to probation as soon as his/her graduate GPA falls below 2.500. The student remains on probation until four more courses are taken, at which time another evaluation is made. If, at that time, the student has failed to raise his/her GPA to the required level of 2.500 the student may be dismissed.

A student who has been dismissed may, after a period of time, petition for reinstatement. The petition, addressed to the dean of the college, would provide information that would demonstrate a change in the student’s circumstances to an extent that would support successful completion of the student’s degree program. The dean’s decision, based upon the merits of the petition and the recommendation of the faculty of the student’s department, may, if favorable, stipulate conditions of reinstatement.

Registration Procedures

Degree-seeking students enrolled at any time during the previous calendar year are eligible to register and do so through Campus Connection. Non-degree seeking students need permission from the Graduate Student Services Office to register.

Registration in Courses in other Colleges or Schools

Graduate students may be permitted to register for courses offered in other colleges or schools of the University. Contact the Graduate Student Services Office for specifics.

Residence Registration

Whether in residence or not, all active graduate students, master’s and doctoral levels who will use the facilities of the University (library, laboratory, etc.) or who will consult with faculty members regarding theses, dissertations or examinations, must be registered in each quarter.

Admission & Aid

Information about admission to the College of Liberal Arts and Social Sciences is found in the Admission & Aid section of the DePaul website (https://www.depaul.edu/admission-and-aid/Pages/default.aspx). The admission process begins with an online application, found here (https://www.depaul.edu/admission-and-aid/Pages/default.aspx).

Scholarship Opportunities

Information about the majority of scholarships is found here (https://www.depaul.edu/admission-and-aid/Pages/scholarships.aspx).

The College awards a handful of targeted, one-off, and relatively small ($500 - $3000) scholarships annually. Some academic departments have similar scholarships for their eligible majors. All scholarships are managed via Scholarship Connect (https://depaul.academicworks.com/users/sign_in/).

Graduate students may also be eligible for graduate assistantships, which package tuition waivers with a stipend, or full or partial tuition waivers. Contact Graduate Admission (GradDePaul@depaul.edu) or the graduate program of interest for more information about what opportunities exist.

Double Demon Scholarship

The Double Demon Scholarship is awarded to DePaul alumni and covers 25 percent of tuition for degree, non-degree or select certificate coursework taken at the graduate level.1 Both full-time and part-time students are eligible and no application is necessary. To learn more, contact the admission office for your college of interest (see listing below).

1 Please note: The Double Demon Scholarship cannot be used in conjunction with other DePaul scholarships, waivers or awards. University employees are eligible for other tuition benefits and are not eligible. The scholarship does not cover coursework from the Center for Professional Education (CPE), the Institute for Professional Development (IPD), coursework in a doctoral program or a master of fine arts (MFA), School of Music, the Theatre School, College of Law and a few other select programs.

Financial Aid

Information about financial aid is found here (http://www.depaul.edu/admission-and-aid/Pages/default.aspx).

Graduate Admission

Applicants are admitted to the College of Liberal Arts and Social Sciences on the basis of their ability to complete programs of study and research prescribed for the master’s and doctoral degrees. Specifically, admission qualifications are measured by academic criteria. In accord with these criteria, applicants are admitted in one of three major categories: degree-seeking, non-degree-seeking, and student-at-large.

The admission process begins with an online application, found here (http://www.depaul.edu/admission-and-aid/Pages/default.aspx).

Degree-Seeking Students

Applicants are admitted as degree-seeking students in either of two ways: full or conditional.

Full Degree-Seeking Status

The minimum requirements for this status are:

- Bachelor’s degree conferred by a regionally accredited institution.
- Scholastic achievement in undergraduate studies satisfying all requirements for entering a specific graduate program.
- Submission of all required supporting credentials.
- Unconditional approval by the department or program director of the applicant’s proposed course of graduate study.

Please note these are minimum requirements for full admission. The departmental and program sections of this Catalog provide additional, more specific and selective, criteria for admission to specific programs.

Conditional Degree-Seeking Status

The minimum requirements for this status are:

- Bachelor’s degree conferred by a regionally accredited institution.
- Scholastic achievement in undergraduate studies indicating a capacity to pursue successfully a specific program of graduate study.
- Submission of all required supporting credentials.
- Conditional approval by the department or program director of the applicant’s proposed course of graduate study.

A conditionally admitted applicant is eligible for reclassification to full, degree-seeking status when the conditions of his or her admission have been satisfied.
Non-Degree Seeking Students

The dean may admit as students those applicants who do not wish to pursue an advanced degree. Non-degree-seeking students may, at some future date, make application to a graduate program, but they are not accorded special consideration for admission. Students should consult the intended degree program's website for information about application requirements.

The minimum requirements for this status are:

- Bachelor's degree conferred by a regionally accredited institution
- Academic achievement in undergraduate studies indicating a capacity to succeed in graduate course work (minimum of 2.50/4.00)
- Submission of official transcript from bachelor's degree granting college or university
- Approval by the director of graduate admission.

Students admitted as non-degree graduate students are eligible to enroll in graduate-level courses only.

When such students apply to a graduate program, the departmental or program director of their specific graduate course of study may recommend, in writing, to the dean that a maximum of three courses (12 quarter hours) completed by the student under the non-degree-seeking status be counted toward fulfillment of the advanced degree requirements.

Combined Programs

College of Liberal Arts and Social Sciences students can apply to earn credit toward select DePaul graduate programs while undergraduates. In these programs, undergraduates take three graduate courses their senior year and complete a master's degree in a minimum of one additional year. (There is a "3+3" BA/JD program for incoming first-year students in certain majors, also.) Further information about these combined programs can be found within specific program descriptions in this Catalog.

Special Programs

Modern Language Option

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace the Scientific Inquiry—Lab or Scientific Inquiry—Science as a Way of Knowing requirement.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

Pre-Law Study

The Association of American Law Schools does not consider it appropriate to prescribe certain undergraduate degree programs for students who are planning to study law at the professional level. The Association does, however, consider certain skills and knowledge essential for later success in law and appropriate for study on the undergraduate level.

Pre-law study in the College of Liberal Arts and Social Sciences entails advanced course work that further develops the capacities and skills essential for satisfactory performance in law school. Specifically, pre-law study sharpens:

1. the ability to use the English language skillfully and effectively in oral and written advocacy situations;
2. the power to think clearly, critically, and independently in situations requiring problem-solving ability and sound judgment; and
3. the ability to use and understand statistical calculations.

Moreover, pre-law study is intended to promote an understanding of the psychological processes, economic systems, political organizations, and social structures essential to the study and practice of law. Students who are considering applying to law school should fulfill their open elective requirements with challenging, upper-level courses that expand the knowledge areas and skills mentioned above.

Admission to law school is based on scores achieved on the Law School Admissions Test (LSAT), collegiate performance, extracurricular activities, work experience, and letters of recommendation.

Students who want to prepare for law school should, whatever their academic major, consult with Prof. David Williams (david.williams@depaul.edu) in the Department of Political Science, or contact the Department of History (historyadvising@depaul.edu), where there is a pre-law concentration in the History major.

Study Abroad Program

A study abroad experience is an important part of a liberal education. The opportunity to live, study, and work with people from around the world provides students with a way to not only gain international competence and skills, but also helps them to more clearly understand their own identities and agency within a global context. Study Abroad programs are designed to emphasize social, political, historical, and cultural understanding through immersion in other cultures and societies.

Program lengths range from one year to one week. In traditional programs lasting one quarter or more, students live and take courses on site. Short-term programs are topic-focused tours led by DePaul faculty exploring specific aspects and issues of a country or society. These programs typically last 2-3 weeks and are offered during breaks between terms. First Year Abroad programs are for first-year students and combine on-campus study of a location prior to a one-week trip to that area.

Program fees ordinarily cover local transportation associated with course excursions, accommodations, and some meals. Short-term program fees also cover round-trip airfare. In addition students pay regular DePaul tuition for the credit received while abroad.

Courses taken through the Study Abroad Program may be used to fulfill Liberal Studies domain requirements (including experiential learning),
modern language requirements, major field requirements, or open electives.

Please visit the Study Abroad Program (https://offices.depaul.edu/global-engagement/student-resources/study-abroad/Pages/default.aspx) website for current offerings.

TEACH Program

This program provides students the opportunity to complete in five years an undergraduate degree in a core arts and sciences major and a Master's of Education degree with State of Illinois secondary education teaching certification in a content area related to their major. As a combined degree program of the College of Liberal Arts and Social Sciences and the College of Education, the program is collaboratively developed, governed, and taught by faculty from both units.

Students may apply to the Program during the spring of their junior year. They must complete the Junior Year Experiential Learning course TCH 320, and meet other application criteria prior to applying; these include completion of at least 16 hours at DePaul and a 3.0 GPA. During their Senior Year, students are required to complete a program capstone course and three 400-level courses that count toward both their undergraduate and graduate degrees. The Master’s year comprises teacher-preparation coursework that culminates with student teaching during Spring quarter. Upon graduation and the fulfilling of State of Illinois Certification requirements (which may require some additional course work in the student's major and related fields), students are eligible to be certified to teach English, History, or Social Science at the 6th-12th grade levels.

A full description of the Program can be found in the College of Education graduate course catalog.

3+3 BA/JD Program

In the 3 + 3 BA/JD Program, high-achieving first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA/JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

Key Program Features

• Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
• Students save one year’s worth of tuition, reducing their overall debt load.
• Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
• Students receive early (conditional) admission to the College of Law.
• Credits earned in the first year of law school apply toward the BA degree.
• Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
• If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students must achieve a cumulative GPA of 3.35 by the end of their second year of study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law's online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than the end of the Autumn Quarter of the participant's third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

Participating Majors

The BA/JD Program is available for students pursuing the following majors:

• African and Black Diaspora Studies
• Arabic Studies
• Art, Media, and Design
• Chinese Studies
• Criminology
• Economics
• English
• French
• Geography
• German
• History
• History of Art and Architecture
• International Studies
• Italian
• Islamic World Studies
• Japanese Studies
• Latin American and Latino Studies
• Peace, Justice and Conflict Studies
• Philosophy
• Political Science
• Religious Studies
• Sociology
• Spanish
• Writing, Rhetoric, and Discourse

For admission requirements and information, contact the Office of Admission (https://www.depaul.edu/admission-and-aid/Pages/default.aspx).

• African and Black Diaspora Studies (p. 1273)
• American Studies (p. 1273)
• Anthropology (p. 1274)
• Applied Diplomacy (p. 1275)
• Art, Media, & Design (p. 1275)
• Catholic Studies (p. 1276)
• Community Service Studies (p. 1277)
• Comparative Literature (p. 1277)
• Criminology (p. 1277)
• Critical Ethnic Studies (p. 1278)
• Economics (p. 1279)
• English (p. 1280)
• Geography (p. 1282)
• Global Asian Studies (p. 1283)
• History (p. 1284)
• History of Art and Architecture (p. 1285)
• Interdisciplinary Self-Designed Program (p. 1285)
• International Studies (p. 1286)
• Irish Studies (p. 1287)
• Islamic World Studies (p. 1287)
• Latin American and Latino Studies (p. 1288)
• Lesbian, Gay, Bisexual, Transgender (p. 1289)
• Military Science (p. 1289)
• Modern Languages (p. 1290)
• Peace, Justice and Conflict Studies (p. 1291)
• Philosophy (p. 1293)
• Political Science (p. 1293)
• Public Health (p. 1294)
• Public Policy Studies (p. 1295)
• Refugee and Forced Migration Studies (p. 1295)
• Religious Studies (p. 1296)
• School of Public Service (p. 1297)
• Social Work (p. 1299)
• Sociology (p. 1299)
• Women’s and Gender Studies (p. 1300)
• Writing and Publishing (p. 1301)
• Writing, Rhetoric and Discourse (p. 1302)

American Studies

American Studies courses are methodologically grounded in many different areas of cultural studies including historiography, media studies, material culture, visual literacy, critical race theory and gender/sexuality studies. Students are expected to gain competency in American cultural studies by mastering the theoretical and intellectual frameworks of their concentration and by learning to interpret and analyze primary documents.

Anthropology

Anthropology is the comparative study of humanity, focusing on people in all places and throughout history and prehistory. Courses engage students in the analysis of beliefs, values, and practices from a perspective that understands societies on their own terms. This perspective includes comparing the similarities and differences among different groups and appreciating and valuing different ways of living. Students study other cultures in order to learn more about their own. This curriculum affords students the opportunity to see the interaction between "what we know" and "what we do" that lies at the heart of the study of humanity.

Our curriculum combines the best parts of a critical, creative, liberal arts education with practical, professional preparation. The major courses direct the student toward the subfields of cultural anthropology, biological anthropology, and archaeology, with a focus on applied research in these sub-fields. As part of the major, students engage in several research projects, including those that expose them to the application of anthropological knowledge for non-academic audiences. Out-of-class research projects in the City of Chicago are integral components of several courses. Students graduate with an extensive knowledge of how anthropology is actually done. We bring students farther into this practical side of the discipline than any other BA program in the country.

Academic careers are attractive to some graduates, but more than half of all professional anthropologists work outside of academic institutions. Some of these careers include research for public and private organizations, administration and/or public policy on the local, regional, federal, or international level; research and work in museums; intercultural communication; advertising, marketing, and public relations; forensics; human resources; public health; health care; and law. They also contribute to non-governmental and international organizations. Within the context of administration or public policy, anthropologists are engaged in cultural resource management (CRM), monitoring the preservation of cultural resources for national parks, museums, and state or municipal cultural institutions (i.e., parks and historical societies). Anthropology enhances other career paths, such as modern languages, international studies, international relations, cultural studies, and international business. Students will have completed several ethnographic research projects and acquired archaeological research skills by the time they graduate.

The extensive ethnographic research experience qualifies students with BA degrees to work in both non-profit (social service agencies) and for-profit (marketing, design, user-based) research settings. The archaeological certification opens avenues for careers in cultural resource management (CRM), and monitoring the preservation of cultural resources for national parks, museums, and state or municipal cultural institutions.

Faculty

Jane Eva Baxter, PhD
DePaul’s Applied Diplomacy program is dedicated to re-conceptualizing the practice of diplomacy to make these interconnections possible. Uniting traditional and non-traditional approaches to the field, the program seeks to transform our understanding of both. We emphasize the critical necessity for practitioners of diplomacy to become culturally, racially, ethnically, ecologically, and religiously literate, and embrace an interdisciplinary and intercultural definition of the term diplomacy.

The faculty of Applied Diplomacy are drawn from twenty-one different departments and programs across the College of Liberal Arts and Social Sciences, making it one of the most disciplinarily diverse diplomatic studies programs in the United States. Our diverse constellation of teacher-scholars bring the critical insights of a liberal arts education to bear on the concrete work of promoting cooperation, community building and conflict resolution in multiple contexts. The Faculty come from not only DePaul's International Studies and Political Science departments, but also from African and Black Diaspora Studies; Anthropology; Art, Media and Design; Community Service Studies; Critical Ethnic Studies; Forced Migration Studies; Geography; History; History of Art and Architecture; Latin American and Latino Studies; Modern Languages; Peace, Justice and Conflict Studies; Public Health; Public Service; Religious Studies; Sociology; Sustainable Urban Development; Women and Gender Studies; and Writing, Rhetoric and Discourse.

Union Theological Seminary

Art, Media, & Design

The Department of Art, Media, and Design (AMD) offers a general studio and/or a specialized studio curriculum which identifies and promotes continuing contact with the enduring values of our artistic heritage and the application of these values to the future. The educational aim of the department is to provide, through individualized mentoring, a broad foundation in artistic practice and art culture and history studies. The curriculum emphasizes project-based learning through art making, problem solving, and experimentation in studio courses, and through the development of the student artistic voice.

In the Bachelor of Fine Arts in Art, Media, and Design students choose one out of three concentrations: Graphic Art, Photography and Media Art, and Studio Art. In the Bachelor of Arts in Art, students study a general studio curriculum with no concentration. There are also seven minors total. Available to non-majors: Graphic Art, Photography, Studio Art, Drawing, and Art; and available to majors and non-majors Creative Practice: Art & Writing (shared with English) and Illustration (shared with CDM). Students can take advantage of the small class sizes and personalized instruction from studio art, photography and media art, and graphic art faculty. Our faculty are visual specialists and practicing artists who analyze, organize, and give form to ideas and information. There are no art portfolio reviews required for admissions or to continue in a program.

Among area universities, the department now boasts two of the finest digital computer studios dedicated solely to studio and media arts with new Wacom Cintiq tablets. Our facilities feature a darkroom, two computer digital studios, a teaching critique space, wood and metal sculpture studios with 3D printing access, and dedicated studios for video, photography (digital and analog/film), digital/graphic art, sculpture, printmaking, painting, and drawing.

Catholic Studies

The Department of Catholic Studies is intellectual in focus and interdisciplinary in nature. Rigorous intellectual study, a deepened critical understanding, and an appreciation of the Catholic contribution to human civilization are its main goals. The program explores Roman Catholicism as a religious and cultural reality that expresses and motivates multiple forms of human expression. All members of the university are invited to participate in the scholarly examination of Catholicism and the development of Catholic thought. True to DePaul's tradition, no religious test is applied to either students or faculty participating in the department. In addition to the offerings of DePaul University, upper-level students in the program in Catholic Studies are able to take selected courses at the Catholic Theological Union in Chicago. The cooperative relationship between DePaul and CTU opens to students in the program the resources of the largest Catholic school of theology and ministry in North America. The Catholic Studies major is designed to give students with differing learning objectives and career goals maximum flexibility in the design of their Bachelor of Arts degree. In order to ensure intellectual coherence in their program, all students are expected to meet quarterly with their academic advisor to design a course of study, refine their learning goals, and select classes that meet their educational and professional objectives.

Community Service Studies
The Community Service Studies (CSS) Minor is a multidisciplinary program that provides a framework for understanding and engaging in critical social issues at the level of community. While the notion of community is increasingly complex, the program explores the nuances of community as defined through the lens of groups with common affiliation, identity, or grievance that may be geographically or nongeographically-based. The curriculum relies heavily on community-based service learning courses and is designed to provide students with a foundation of analytical, reflective, interpersonal, and leadership skills. Through supporting university partnerships with Chicago-area community-based organizations, students gain a local perspective on social justice issues, including those built on race, class, and gender inequalities and other forms of social, economic and political exclusion.

The practice of service is often shaped by particular economic and cultural circumstances related to power, privilege, and identity. A central component of CSS is the importance of viewing communities through an asset lens and thus working to support existing community strengths rather than responding to needs. Students minoring in CSS therefore develop strong critical self-reflection skills that guide them as future leaders in making ethical and socially responsible decisions.

Faculty
Nila Ginger Hofman, PhD
Director of Community Service Studies
Associate Professor of Anthropology

Comparative Literature
The Comparative Literature minor is designed for students who combine the drive and the ability to master foreign languages with a strong commitment to theoretical and interdisciplinary approaches to literature. Students must do a substantial portion of their work in at least one foreign language.

Although students will take many of their courses in the departments of their elected literary fields, the program in comparative literature is distinguished from national literature departments by its comparative scope and by the requirement of seminars that focus on fundamental theoretical questions regarding the nature of literature and literary inquiry. The requirements for the minor are designed to allow each student to follow a course of study that combines intellectual rigor with the pursuit of personal interests.

Criminology
Criminology is a growing discipline with the potential for transformative education. The Criminology major serves as a mechanism for integrating new research and literature into the liberal arts education. It enables students to explore theories, frameworks and methods for understanding crime and punishment. By exposing students to the complexities of the criminal legal system, the Criminology major equips socially conscious individuals to address the challenges of crime and punishment in society.

The Criminology program highlights the processes and institutions of the criminal legal system with an emphasis on social policy. Criminology is a discipline of critical thinkers who serve society in various capacities such as police officers, lawyers, correctional officers, judges, legislators, social service providers, etc. Students develop a moral, philosophical, historical and scientific foundation of our criminal legal system from which to perform their duties in the workplace.

Critical Ethnic Studies

Critical Ethnic Studies is an interdisciplinary program offering a Master of Arts (MA), a Graduate Certificate Program (p. 273), and a Universal Combined BA + MA.

The Master of Arts in Critical Ethnic Studies prepares students for advanced analysis of race and ethnicity in an urban and global context. It provides an interdisciplinary approach to the studies of systematic marginalization of racialized minorities. It also looks at how racialized groups respond to and counter these forces through art, culture, political organization, and other forms of social citizenship.

This program emphasizes social justice and transformation while focusing on U.S. ethno-racial populations through an intersectional, transnational, and urban framework. Students apply critical theories to complex social and cultural issues. The program consists of a combination of core courses and electives from across the university. The Critical Ethnic Studies final project may be comparative or focus on a single ethnic or racialized group through the use of intersectional methodologies.

The MA in Critical Ethnic Studies may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office (http://las.depaul.edu/faculty-and-staff/Pages/graduate-student-office.aspx) for additional information.

- Critical Ethnic Studies + Community Development Certificate
- Critical Ethnic Studies + Digital Humanities Certificate
- Critical Ethnic Studies + Global Health Certificate
- Critical Ethnic Studies + Metropolitan Planning and Development
- Critical Ethnic Studies + Publishing
- Critical Ethnic Studies + Social Research Certificate
- Critical Ethnic Studies + Teaching English to Speakers of Other Languages
- Critical Ethnic Studies + Women’s and Gender Studies Certificate

For more information on the Critical Ethnic Studies program, please visit the Critical Ethnic Studies website (https://las.depaul.edu/academics/critical-ethnic-studies/Pages/default.aspx).

Sociology
Economics

Economics is both a social science discipline and a framework for analyzing production, consumption, and distribution decisions. The goal of the undergraduate curriculum is to offer students the theoretical background necessary to understand business and policy issues, as well as the quantitative and analytical skills necessary to evaluate these issues independently. The Economics Department offers courses that explore topics such as unemployment, inflation, production and distribution, economic growth, environmental issues, poverty, urban and regional development, international trade, labor issues, economic history, and international economic relations.

Courses emphasize the need for accurate knowledge of business institutions and economic phenomena, for theories capable of explaining these phenomena, for estimating relationships among economic variables, and for testing explanations.

Graduates with a major in economics are solidly prepared for employment in the private, public, and non-profit sectors, or for advanced studies in business, law, and economics.

DePaul offers Economics as both a major and minor field of study through both the College of Liberal Arts and Social Sciences and the Driehaus College of Business. An Honors Track option is available to economic majors in both colleges. In addition, the Department of Economics offers the Accelerated Bachelor-Master of Science in Business and Economic Policy Analysis.

English

The study and practice of reading and writing literature are central to a liberal arts education and foster transferrable skills that are critical to success in virtually all professional and personal contexts. The English department at DePaul boasts an innovative and engaging curriculum, a faculty of highly accomplished teacher-scholars, friendly and efficient staff, committed advisors, outstanding students, and exciting opportunities for internships and other co-curricular involvement.

The department's curriculum unites historical and theoretical perspectives in literary study with sustained practice in creative and analytical writing. It encourages critical and creative thought, fosters research and communication skills, and develops a student's ability to negotiate diverse perspectives and points of view.

The English major undergraduate program—one of the largest in the College—offers two concentrations, Literary Studies and Creative Writing, as well as two minor programs, English Literature and Creative Writing. Junior English majors interested in graduate study may apply to the combined bachelor’s/master’s programs in English or Writing and Publishing, and those interested in teaching high school English may apply to the TEACH Program, a combined bachelor’s/master’s program developed and taught with faculty in the College of Education.

The department also houses three graduate programs, the Master of Arts in English, the Master of Arts in Writing and Publishing, and the Master of Fine Arts in Creative Writing and Publishing. Students in these three programs can elect to complete certificates in Teaching English in Two Year Colleges, Teaching English as a Second Language (TESOL), Women’s and Gender Studies, Publishing, or Digital Humanities.
Internships

English students may qualify for a variety of internships, receiving significant on-the-job experience in such areas as creative writing, business writing, editing, publishing, communications, non-profit work, and education. Sophomores, juniors, and seniors may receive as many as 4 hours of elective credit toward their major, which includes Experiential Learning credit. Students might locate an internship on their own or choose from the internships posted quarterly by Prof. Chris Green, Coordinator of Professional Internships in Writing and Publishing. To earn credit, students will need Professor Green’s approval to register for ENG 392/ENG 509, an online class designed to complement their internship work. Students will also benefit from quarterly Career Nights featuring panels of professionals.

Two-Year College Teaching Internship

Graduate students in English or a related field are eligible to apply for an internship working alongside an experienced instructor at an area two-year college. This internship may be undertaken on its own, or as part of the Certificate in Teaching English in Two-Year Colleges. Please contact Dr. Carolyn Goffman for more information about this opportunity.

Geography
Located in the Lincoln Park neighborhood on Chicago’s north side, DePaul’s Department of Geography was founded in 1948. Over the last seventy years, the Department has grown and developed to reflect changes in the geographic discipline, in technology, and the labor market. Today, the Department includes eight full-time faculty members and additional contingent faculty instructors, teaching a wide variety of courses within several sub-disciplinary and topical areas. The American Association of Geographers recognized the achievements of DePaul’s Department of Geography with its 2016 Award for Bachelors Program Excellence.

As the largest geography department in the Chicago metropolitan region, we are positioned extremely well to be the major provider of undergraduate Geography degrees and professional certificates. With our commitment to critical human geography and to strong specializations in Urban Geography, Geotechnologies (Geographic Information Systems (GIS) and Remote Sensing), Cultural, and Environmental Geography, we offer high quality programs that lead to careers in government, GIS, community and international development, urban planning, environmental management, and intelligence, to name a few.

At DePaul, Geography courses can be found in every Liberal Studies Program Learning Domain, making it an ideal program of study for students interested in double majoring, or adding a five-course minor. Many Department of Geography alumni continue their studies at the graduate level in geography, urban planning, and other natural and social sciences. Recent graduates have joined MA or PhD programs in geography, GIS, urban planning, landscape architecture, urban studies, and international relations at universities such as Harvard, Penn State, Rutgers University, University of Illinois at Chicago, UCLA, and University of Kentucky.

Global Asian Studies

Our program in Global Asian Studies at DePaul University is the only one of its kind in the United States. Courses offer an in-depth, challenging and critical thinking based perspective on ancient societies, cutting edge technology and current events in Asian countries, the Asian region, Asian diaspora and Asian American communities.

Our faculty teach more than 100 courses in the arts, humanities, languages and social sciences. We also offer a number of Study Abroad trips to Asia and the Americas, as well as host events and workshops for students.

Drawing from our leading expertise in China and Japan, our program also reflects growing expertise in India and Southeast Asia.

From ancient cultures to modern technology, DePaul's Global Asian Studies program provides an important foundation for students to prepare to have a leading role in the 21st “Pacific” Century.

To learn more about our current activities email us at globalasianstudies@depaul.edu

The Department of History offers an innovative curriculum that emphasizes student research and that allows students to tailor concentrations to meet their interests and goals. The History major teaches students how to research, write, and engage with other students and scholars about the processes of historical change in a global context. The curriculum culminates in an annual Student History Conference that highlights student achievement.

Currently home to more than 35 full- and part-time faculty, the History Department serves as a robust center for talks, campus activities, and intellectual life in the College of Liberal Arts and Social Sciences. The department’s faculty are teacher-scholars who specialize in virtually every region of the world—American, African, Asian, European, Latin American, and World History—and who specialize in a broad range of subfields that allow students to understand a wide range of topics and methods.

The undergraduate program offers a variety of major concentrations including the standard concentration, public history, pre-law, and secondary education in history, as well as minors in Museum Studies and the History of Law. Students can also apply for one of our joint degree programs. The TEACH program combines history courses with those necessary for specialization in secondary education. TEACH students receive both BA and MA degrees. The Department of History, in conjunction with Journalism, offers another innovative joint degree program. Students combine a BA in History with an MA in Journalism. Students can also combine a BA in History with an MA in International Studies. These joint degree options allow students to acquire the valued skills and broad knowledge a history education provides while working towards a professional program and certification in five years. Plus, students received discounted graduate tuition.

The Department offers day and at night courses on the Lincoln Park and Loop Campuses, as well as fully online and hybrid courses. The history major offers a foundation for any number of career paths. DePaul History students also have an excellent track record of acceptance at leading professional programs and graduate schools.

History of Art and Architecture

The Department of History of Art and Architecture familiarizes DePaul students with works of art that define civilizations around the world from their emergence to the present day. The study of art is integral to the development of human knowledge and thus consistent with the academic goals of DePaul University as well as a liberal arts education. We extend the Vincentian mission in our particular focus on comparative culture and art in its urban setting. In an increasingly interconnected world, art history encourages a critical engagement with the visual and its role in individual and social formation.

The study of art and architectural history prepares students for a wide variety of careers and post-graduate pursuits. Thus, all of our classes foster critical thinking by developing visual literacy, close reading, persuasive writing, research skills and oral communication. Taking advantage of the rich cultural resources of Chicago through classroom lectures, discussions and site visits to exhibits, museums, and architectural monuments, students come to understand how art is produced and how it operates in its social and historical moment. In more advanced classes, students become well-versed in the nature of the field and its current and traditional theoretical issues. In these classes, too, consideration is given to the professional world, including museums, galleries, cultural institutions, and the global art market.

All of these goals are consistent with our professional aspirations, not only as faculty, but as scholars who distinguish ourselves by the breadth of our geographical and chronological interests and through our record of publishing and professional achievements. Although our approaches vary widely, we are united in our shared interest in the creative, social, and political forces that both determine and emanate from all works of art.

Interdisciplinary Self-Designed Program

The Interdisciplinary Studies Program (IDS) is an innovative, flexible, and highly individualized graduate program designed to meet students’ academic and professional goals. The program gives students
opportunity to design a program of study tailored to their own needs and interests. When students choose IDS, they take on the exciting challenge of creating their own curriculum and unique plan for learning. Creating an individualized program requires maturity, self-motivation, and independence. Students seeking a combination of flexible options and academic challenges are natural IDS candidates. IDS is a creative alternative to more rigid traditional, discipline-specific programs. Students can build their particular academic or professional interests and concentrate on specialized fields that are not available in traditional graduate programs.

The program offers students individualized cross-disciplinary majors, incorporating courses drawn from social sciences, humanities, business, computer and information science, and public service.

The program offers the following:

- Individual, self-designed graduate program of study that builds on specific academic and professional interests.
- Ability to combine various academic disciplines in chosen areas of study.
- Choice of courses in most colleges and schools.

Faculty

David L. Gitomer, PhD
Director and Associate Professor
Columbia University

Susan Dean Jacobs, MA
Associate Director
Northern Illinois University

Because students in the Interdisciplinary Self-Designed Program select course offerings from most areas of the university, faculty may originate in multiple departments, such as the social sciences, humanities, business, computer and information science, and public service, for example. The program Director and Associate Director offer individualized academic advisement throughout each student’s plan of study.

International Studies

The Department of International Studies offers a Bachelor of Arts (BA) degree, a Master of Arts (MA) degree, and a combined BA/MA program. We also provide a minor in International Studies for undergraduate students from other departments.

Our programs are designed to equip students with the interdisciplinary approach, critical thinking skills, and international perspectives necessary to address real world challenges. Our faculty and affiliated faculty come from diverse academic backgrounds and share a commitment to fostering critical thinking through a rigorous interdisciplinary curriculum founded in critical social theory and international political economy.

The BA and MA curricula are unique for their interdisciplinary approach to international studies and their commitment to placing the themes of power and inequality at the heart of academic inquiry. Unlike conventional programs that focus on international security and economy, our programs address the economic in conjunction with the political and social. Moreover, all students are expected to develop and maintain proficiency in a language other than English. Students learn to think in more international and interdisciplinary contexts, to value social and cultural complexity, and to question conventional wisdom. As a result, our students often engage in activism and social justice work in Chicago, nationally, and internationally.

For more detailed and up to date information, please visit the International Studies Department (https://las.depaul.edu/academics/international-studies/Pages/default.aspx) website.

Faculty

The department’s faculty have research and teaching interests that include postcolonial theory, Middle East politics, critical social theory, migration and diaspora studies, gender and sexuality, critical development studies, international law, international political economy, and social movements. As an interdisciplinary program, we involve faculty from across the university in teaching classes, hosting events, and advising students. Despite the varied teaching and research interests, faculty members share a commitment to examining the world critically through an interdisciplinary and international lens.

Rocio Ferreira, PhD
The Islamic World Studies Program grounds students in the study of Islam as a worldview, civilization, and living reality. Students will engage with Islam from a variety of perspectives. The program engages students in exploring primary texts, history, cultural traditions, global communities, and regional issues. Three assumptions undergird the philosophy of this program:

1. that Islamic civilization is both a historical and a living reality;
2. that Islam has interacted with all known cultures and is thus expressed in a wide range of ways;
3. that the religious core ties all of these cultural expressions together.

While studying the Islamic World historically and also learning about specific cultural manifestations, students develop a critical understanding of the complexities of Islamic culture and thought.
understanding of the unique worldview engendered by Islam in its global contexts.

Islam is the religion of approximately 1.7 billion people around the globe and is the fastest growing world religion. Some 3.3 million Muslims live in the United States with at least 300,000 living in Chicago alone. Despite these impressive numbers, Islam and Islamic civilization are poorly understood in the United States. The Islamic World Studies Program aims to remedy these misperceptions by providing our students with a holistic understanding of a religious tradition at the center of so many contemporary world discussions and position them to take advantage of the opportunities available in the contemporary Islamic World. In order to accomplish these goals, our courses are drawn from a broad variety of disciplines including History, History of Art and Architecture, International Studies, Modern Languages, Political Science, Religious Studies, and Women's and Gender Studies. The regional focus of these courses includes Africa, the Middle East, South Asia, Central Asia, Europe, and the Americas.

Latin American and Latino Studies
The Latin American and Latino Studies Program explores the cultural contributions of Latin Americans to the global community and highlights perspectives and traditions that have developed in the region. It analyzes the multicultural character of the peoples of Latin America by calling attention to the complex interplay among Indigenous, European, Semitic, Arab, Asian and African societies in the region. It explores the profound linkage that has emerged between Latin America and the United States, particularly through the construction of Latino communities in the U.S.

Lesbian, Gay, Bisexual, Transgender
The LGBTQ Studies program posits sex and sexuality as central analytical categories within many different fields of inquiry. This emerging discipline scrutinizes the cultural production, dissemination, and vicissitudes of sexuality while attempting to decipher the meanings inscribed in the practices and discourses of sex. We may say that LGBTQ Studies does for sex and sexuality what women's studies does for gender. It has grown out of women's and gender studies, cultural studies, and the post-1969 discourse on the politics of sexuality both in the public sphere and the more limited arena of scholarly endeavor.

Military Science
The Military Science Department offers students, as an adjunct to their major field of study, the opportunity to achieve commissions as Army officers in either the active Army, the U.S. Army Reserve, or National Guard through the Reserve Officers' Training Corps (ROTC) program. The program develops leadership, managerial potential, and the qualities of self-discipline, confidence, personal integrity, and individual responsibility.
Emphasis is on learning through doing. The department’s program prepares the student for a period of service as a commissioned officer in the United States Army, a service that can ultimately lead either to a military career or to a more responsible place in the civilian world. The curriculum is divided into two parts: Basic and Advanced. The Basic course normally encompasses the freshman and sophomore academic years. Basic-course students are under no obligation to enter into a contractual agreement with the U.S. Government. The advanced course encompasses juniors and seniors who have successfully completed the on-campus basic course. Students who have attended a special six-week summer training program, students who have previous Junior ROTC training, and qualified veterans may also be admitted into the advanced course. Upon enrollment in the Advanced Course, the student enters into a contractual agreement with the United States Government, whereby the student agrees to accept a commission in the United States Army for a period of active or reserve duty after his graduation. The government, in return, provides a monthly stipend of $300-500 for up to ten months of the school year.

Students may compete for ROTC two-year and three-year scholarships during their freshman or sophomore year. Scholarships can pay full tuition and fees, annual book allowance of $1,200, and $300-500 monthly during the remainder of the winner’s undergraduate education. A Leaders Training Course summer program is available to selected students who have been unable to complete the normal two-year progression of Military Science. Students attend a six-week program at Fort Knox, Kentucky. This program, in conjunction with the normal two-year advanced program of Military Science, is designed to prepare the student for a period of service as a commissioned officer in the United States Army. The program provides an introduction to a variety of military-related topics. It involves instruction in map reading, marksmanship, first aid, tactics, fundamentals of leadership, and basic military skills.

Faculty
Faculty are based at Loyola University.

Modern Languages
The programs in Modern Languages seek to develop a student’s ability to speak, understand, read, and write another language and to foster an appreciation of its literature and civilization. The department regularly offers courses in American Sign Language, Arabic, Chinese, French, German, Ancient Greek, Italian, Japanese, Latin, Russian, and Spanish.

Undergraduate Programs
Majors are available in:
- Arabic Studies
- Chinese Studies
- French
  - Commercial French Concentration
  - Standard Concentration
- German
  - Commercial German Concentration
  - German Language and Literature Concentration
  - German Studies Concentration
- Italian
  - Commercial Italian Concentration
  - Italian Language and Literature Concentration
  - Italian Studies Concentration
- Japanese Studies
- Spanish

Students begin the major, which consists of advanced courses at the 200- and 300-levels, upon completion of elementary and intermediate courses (100-level courses) or successful placement testing.

Minors are available in:
- American Sign Language
- Arabic Language
- Arabic Studies
- Chinese Language
- Chinese Studies
- Classical Studies
- Commercial Chinese Studies
- Commercial French
- Commercial Spanish
- French
- French Translation
- German
- German Studies
- Italian
- Japanese
- Japanese Studies
- Polish
- Russian Language
- Russian Studies
- Spanish
- Spanish Linguistics
- Spanish Translation

Combined Degree Programs
The Department of Modern Languages offers the following combined degree programs:
- DePaul undergraduate degree + Arabic MA
- 3+3 Arabic Studies (BA+JD)
- DePaul undergraduate degree + Chinese MA
- 3+3 Chinese Studies (BA+JD)
- DePaul undergraduate degree + French MA
- 3+3 French (BA+JD)
- DePaul undergraduate degree + German MA
- 3+3 German (BA+JD)
- DePaul undergraduate degree + Italian MA
- 3+3 Italian (BA+JD)
- DePaul undergraduate degree + Japanese MA
- 3+3 Japanese Studies (BA+JD)
- DePaul undergraduate degree + Spanish MA
- 3+3 Spanish (BA+JD)

Graduate Programs
The Department of Modern Languages offers the following graduate programs:
• Master of Arts in Arabic
• Master of Arts in Chinese
• Master of Arts in French
• Master of Arts in German
• Master of Arts in Italian
• Master of Arts in Japanese
• Master of Arts in Spanish

All students are strongly encouraged to participate in DePaul’s Study Abroad Programs in China, France, Germany, Greece, Italy, Japan, Mexico, Spain, Poland, and other locations. Consult the Study Abroad Office for current offerings.

Peace, Justice and Conflict Studies

The Peace, Justice, & Conflict Studies Program offers students a BA major curriculum that is rooted in the values of active and strategic nonviolence. The courses trains them to reflect on the origins and causes of conflict, direct, cultural, and institutional, as well as social injustice and other forms of systemic violence. They are introduced to a wide spectrum of conflict intervention, especially organizational peacebuilding, local and interpersonal conflict resolution, citizen diplomacy, and post-conflict transformative justice approaches. Students learn about strategies for resolving interpersonal, communal and international conflicts with active nonviolence and respectful dialogue, as well as about tactics promoting the common good in a way that addresses the structural origins of violence, such as poverty and income disparities. The Program includes frank debate about the efficacy of nonviolent in comparison with violent approaches to social change. The inclusion of conflict theory and active nonviolent interventions is a distinctive aspect of this program. The arena of conflict resolution offers many potential career options. The Program emphasizes hands-on, experiential components
in the introductory courses, the final seminars and internship, and the
workshops which emphasize skill training.

Students and faculty in Peace, Justice, & Conflict Studies question what
constitutes a just society and world, what peacebuilding can accomplish
in a world full of conflict, and how attitudes toward social justice,
vioence, and peace reflect and reveal American and other cultures’
values, beliefs, prejudices, assumptions, and perceptions.

Students are expected to gain competency in dealing with situations
of conflict and injustice by mastering the theoretical and intellectual
frameworks related to peacebuilding, human rights advocacy, and justice
development, by learning to interpret and analyze real life situations in
their complexity, by understanding how to use strategies for negotiation,
consensus-building, advocacy, partnership development, and other
intervention tools, and by understanding various research methodologies
and the use of media and creative outlets.

Students majoring in any social science, humanities, and other
interdisciplinary programs will find it beneficial to double major or minor
in Peace, Justice, & Conflict Studies, particularly due to its core value
of strategic nonviolence. Students with majors in computer games,
documentary film, journalism, and animation have added the PJC second
major to add desired content to their creative work. Students who pursue
the major are well prepared for graduate work in the humanities or social
sciences, and specifically in peace, justice, or conflict studies, as well as
for professional training in law, public service, or business, among other areas.

**Philosophy**

The Department of Philosophy serves the needs of the student who seeks an understanding of philosophical issues for personal enrichment, the student who desires a more fundamental appreciation of philosophy in support of law, medicine, business, and various academic disciplines, and the student who wishes to continue the study of philosophy at the graduate level.

Through its courses and programs, the department acquaints students with various philosophical approaches and with basic problems posed by diverse thinkers. Courses have been designed to highlight both the humanistic and technical features of philosophy.

The department also recognizes the important need for skills and training. Its courses in logic and analysis have been designed to help students become more perceptive in their experiences and more critical in their thinking.

Further, the department is aware that, in our age of rapid change, society often tends to neglect the meaning and worth of the person. Courses are therefore offered that investigate and emphasize the dignity of the person. By helping students understand the nature and grounds of ethical judgments, these courses aim to promote an appreciation and ordering of human values.

The department has designed all of its course offerings with the aim of both ensuring that our Liberal Studies courses remain responsive to the needs of the student who does not plan to specialize in philosophy and offering the student who chooses to major or minor in philosophy a rich and diverse curriculum.

The department is particularly proud of its Philosophy Circle, an undergraduate philosophy club which provides a forum for the exchange of ideas between faculty and students.

**Political Science**

Political Science is the study of the organization and behavior of people, groups, and institutions which make up our government and the larger political system. The program is designed to introduce students to questions, perspectives, and arguments about the political forces that shape their lives. As such, the program has value for Liberal Studies
students as well as for those who may choose the discipline as a major field of study. Students find the substance and the methods of the discipline useful in the legal, business, civic, communications, governmental, and academic professions, as well as any endeavors that draw them into public service.

Public Health

Master of Public Health (MPH)

The mission of the Master of Public Health program is to prepare dynamic public health leaders to work collaboratively with diverse communities to prioritize and investigate health concerns to achieve lasting social change, and foster health equity to promote the health and well-being of all people.

The Master of Public Health program has two concentrations, community health practice and social epidemiology. The program provides a collaborative, applied approach to education, focusing on health promotion and disease prevention with individuals, families, communities, and organizations. The objective of the program is to provide students with the professional knowledge and practical skills they will need to identify and address community health needs as a working public health practitioner.

MPH in Community Health Practice

The community health practice concentration prepares students to be leaders, innovators, and advocates in addressing community health problems and reducing health disparities. This concentration applies
an interdisciplinary approach to problem solving and focuses on skill development around community health assessment, program design, and program evaluation. Students learn to appraise community health needs and design, implement, and evaluate interventions to address those needs. The objective is to provide students with the professional knowledge and practical skills to become effective public health leaders.

**MPH in Social Epidemiology**

The social epidemiology concentration prepares students to be public health leaders that use the methodological approaches of biostatistics and epidemiology to investigate and reduce health inequalities. This concentration focuses on social determinants of health as causes of health disparities and examines the role of concepts such as power and social context. Students learn to use data to inform research, policy, and intervention efforts that lead to effective action aimed at eliminating health inequalities.

**Real-World Experience**

During the final year of instruction, students gain practical experience working in the public health field while completing the required practicum. The practicum includes nine months of professional practice and provides students with a structured and integrated application of their coursework. There are a variety of practicum site opportunities available to students that represent a range of settings (e.g. governmental agencies, community-based organizations, health care delivery systems) and public health topics (e.g. sexual/reproductive health, childhood nutrition, refugee and immigrant health). Students choose from an approved list of opportunities and are matched to a practicum site based on their interests and career goals.

During the practicum, students work on a project that address a need or fills a gap at their practicum site. Students receive mentoring and guidance on their project from their site supervisor (public health professional at the practicum site) and faculty advisor. The project serves as the foundation for the capstone thesis, which is developed over a three-course sequence that runs concurrently with the practicum.

**Public Policy Studies**

Public Policy Studies is a discipline that explores the role and impact of decision-making by governments. The discipline includes knowledge of both process and substance of a particular policy area. Thus, a student in public policy must have both generalist and specialist skills to apply to a particular public problem. In terms of political process, the study of public policy examines questions of how public policy is formulated, implemented, and evaluated over time. It also explores notions of agenda-setting and framing of issues that lead to a problem gaining the attention of the government. Public policy specialists and analysts are hired by all levels of government. During the past several years in addition to the government sector, the nonprofit and private sectors have sought public policy analysts for employment. Therefore, the curriculum prepares students for being public policy specialists in both the private and nonprofit sectors in addition to the public sector. The curriculum also is tailored to prepare students who would like to continue their education in graduate programs or law schools. The faculty members of the department work closely with students to place them in internships, and when possible, employment positions.

The Public Policy Studies Department (PPS) offers an undergraduate degree (BA). Students take a common core of courses dealing with public policy theories, processes, methods of public policy analysis, and important environmental and urban policy issues. In addition, a data analysis course is required that the student selects from a list of approved courses. Microeconomics or statistics is strongly encouraged.

Beyond the core curriculum, a capstone course reconvenes the students at the end of their curriculum to study a public policy problem in-depth under the direction of a public policy professor. The capstone changes approximately every three years, to reflect a current issue on the public policy agenda.

**Refugee and Forced Migration Studies**

The Refugee and Forced Migration Studies graduate program is an interdisciplinary Master of Science program that trains students to work as practitioners in the field of refugee resettlement and advocacy. The degree is inherently interdisciplinary as students take a variety of courses in fields such as law, history, public service, public health and international studies. Each cohort is admitted in the autumn quarter and takes two courses per quarter to graduate in two years. Additionally the program takes a practical approach to curriculum such that students will have already gathered experience in the fields of refugee advocacy and resettlement by the time they graduate. This is ensured by the requirement of two distinct practicums with refugee-focused non-governmental organizations (NGOs) domestically and overseas.
Faculty
The Refugee and Forced Migration Studies Program incorporates faculty in two primary functions; the administration of the program and instruction of courses. Since it is an academic program and not a department, RFMS does not house any faculty of its own but instead is run and taught by professors from all over the University. This not only gives the curriculum a distinctly interdisciplinary flavor but allows for the integration and synthesis of administrative techniques formulated by several departments and schools. Our faculty are drawn from such departments such as International Studies, Anthropology, and History as well as several freestanding schools in the University such as the Law School and the School of Public Service. While all of our faculty have experience in the study of forced migration, they all approach the study from different academic angles and schools of method to give the program a truly robust curriculum. You can find a list of the members of our Curriculum Committee and other associated faculty below.

Religious Studies
While remaining intensely personal, the resurgence of religion in the public sphere is a characteristic of our era. Religion has become central to contemporary culture, politics, identity, and conflict in every part of the globe. At the same time, our world is marked by an emerging pluralism, as globalization, migration and technology bring diverse religious traditions into closer proximity and creates new religious communities.

The Department of Religious Studies offers DePaul students the opportunity to engage in the academic study of religion. The study of religion includes not only the traditional areas of sacred texts, myths, rituals, mystical experiences and doctrines, but also the ways in which political, social and economic forces shape these phenomena for religious communities. Drawing on a host of academic disciplines, religious studies challenges students to encounter the traditions of the world in all their rich diversity. Given the complexity of the subject matter, members of the department draw upon several other academic disciplines – anthropology, art history, biblical studies, economics, environmental studies, ethics, gender studies, history, linguistics, literature and literary criticism, political science, philosophy, psychology, sociology, and theology – as they do their work.

Beyond work with texts, students may also study religion through the media of film and video, music, the visual and dramatic arts, and the internet. The department emphasizes comprehensive learning in writing, synthetic and analytic thinking, and oral communication skills. Students can go beyond their course work with further learning opportunities, such as the senior thesis, independent study, study abroad and internships, and service learning, both locally and internationally.

A truly interdisciplinary field, religious studies at DePaul helps students broaden cultural literacy and deepen critical skills. The study of religion also prepares students to engage important conversations of our day. Further, students may find that the study of religions can help them respond not only to political, social and environmental challenges, but also to address the existential questions they face and that are encountered by other thoughtful men and women.

A religious studies major or minor is positioned to pursue a wide variety of careers. A bridge between the specialist's perspectives on religion and a wider world that is often in need of these perspectives, religious studies majors have worked in the fields of law, social work, regional and international business, governmental and non-governmental service, secondary school teaching, and service in religious communities. A religious studies major is also well-prepared for further studies in graduate programs leading to careers in academia.

Religious Studies at DePaul expresses the university’s distinct identity, which respects engaged pluralistic inquiry in all religious issues and traditions. The department is committed to DePaul's Catholic, Vincentian and urban heritage, mission, and identity, and to its goal of establishing the university as a model of diversity. The department's course offerings reflect the diversity of the city of Chicago and of the students who attend DePaul.

The twenty-two full-time faculty constitute one of the largest and most diverse undergraduate departments of religious studies in the United States. This size and diversity enables us to offer courses in a wide range of geographical regions and historical periods. The research and teaching interests of the faculty include American religious history as well as South and East Asia, the African diaspora, North and Meso-America, the Middle East and Europe. The faculty and curriculum includes specialists in Judaism, Christianity, Islam, Hinduism, Buddhism, Confucianism, Taoism, Shinto, as well as Native American, African American, and Latino/ a religious traditions.

In addition to excellence in teaching, the faculty also maintain high standards for research, and are actively engaged in presenting at major academic conferences and publishing their work in high-ranking professional journals.

The Department of Religious Studies sponsors the Center for Religion, Culture, and Community and is fully engaged with Center for Intercultural Theology and World Catholicism and other centers and institutes of the University. It has a close working relationship with the Department of Catholic Studies and the Islamic World Studies Program. Religious Studies is a vital part of the First Year, Liberal Studies and Honors Programs.

The Department encourages students in all major concentrations and minors to engage various questions related to the study of religion, such as (but not limited to):
• What is religion?
• How do religious communities come into being and define themselves?
• How do religious communities form worldviews, doctrines, and practices, and how does the study of religion help us to understand their change over time?
• How do sacred texts come into being, and what do they communicate to us?
• How does religion shape culture, and how does the wider culture define religion?
• What is the role of religion in the contemporary world?
• How do religion or religious sensibilities help us to relate (or hinder us from relating) to each other?
• How can an informed student of religion evaluate the rival claims to truth and moral rightness of different religious and secular ideologies?
• How do religious traditions and texts treat issues of sexuality and gender, race and class?
• How have religious traditions interacted with each other in the past, and how do they continue to do so today?

School of Public Service
We educate people to be effective public service leaders in the global community guided by the values of St. Vincent de Paul.

The School of Public Service promotes effective management of nonprofit organizations and government agencies, and fosters the development of sound public policies affecting the delivery of social services. Programs of instruction, research, and community involvement prepare adult learners to pursue administrative careers in a broad range of public service organizations. Following the tradition of St. Vincent de Paul, the School of Public Service devotes special attention to policies and practices that promote social equity through the delivery of affordable, quality services to those in greatest need.
While the knowledge and skills required to manage organizations in the public sector are becoming indistinguishable from the best practices used in the private and nonprofit sectors, the ultimate goals of these organizations provide a sharp distinction. The School of Public Service keeps this distinction firmly in view in its course offerings. Degree and certificate programs are interdisciplinary, drawing primarily upon the knowledge bases of sociology, economics, political science, law and the human-service professions. The curriculum carefully balances theoretical and applied approaches to contemporary challenges of administration and policy analysis.

The school emphasizes ethical leadership in all aspects of its curriculum but especially by offering short-term, executive-style, study-abroad experiences for working professionals. Faculty encourage all students to take advantage of more than a dozen courses to developed and developing countries. Consistent with its mission, the School of Public Service purposefully strives to build an academic community that is racially, ethnically, religiously, and otherwise diverse. Part-time and full-time students are equally welcome.

Social Work

The Master of Social Work (MSW) degree program is designed to prepare students for advanced social work, with concentrations available in community practice and forensic social work. The MSW degree prepares its graduates for work and leadership in broad and varied human service organizations which span child welfare, health and mental health, community planning, family services and the like.

Sociology

The Department of Sociology consists of 14 full-time faculty, 150 undergraduate majors, and over 30 graduate students. Founded in 1922, the department has a long tradition of inspiring students to apply sociology to the world around them.

Sociology is the study of groups, social interaction, and social institutions. To study these, the department has developed a core curriculum centered on sociological methods (how we know) and sociological theory (how we explain). Beyond the theory and methods courses, majors enroll in a two-course practice sequence and senior capstone. These courses are designed to help students explore their calling as sociologists, develop an area of specialization, and explore career options. To help students craft their own area of specialization, students are closely mentored by faculty who share their expertise and advise students on their choice of electives in sociology.

Sociology prepares students for a range of career options. The extensive training in sociological methods and theory qualifies students with BA degrees to work in both non-profit (including social service agencies) and for-profit (marketing, consumer, data analysis) work settings. Many graduates pursue graduate degrees in social work, law, non-profit management, public health, and doctoral programs in sociology. Our graduates have become leaders in the non-profit sector and academic careers.

Our location in the Lincoln Park neighborhood in Chicago gives students access to a remarkable range of community service opportunities, field experiences, and internships. With its ethnic communities, economic development, and urban concerns, Chicago is an exciting site for research and observation.

Women's and Gender Studies

Women's and Gender Studies is an interdisciplinary department offering an undergraduate major and a minor, a combined BA + MA, a Master of Arts (MA), and a four-course Graduate Certificate. We also offer a joint Master's Program in Women's and Gender Studies & Social Work (MSW). Women's and Gender Studies courses examine women's lives, conditions, and contributions within their historical, social, cultural, national and transnational contexts and they explore how gender is constructed and negotiated within and across societies. Women's and men's identities and experiences are examined through the constructs of gender, race, class, age, ability, sexuality, culture, religion, nation, etc. within broader historical, social, and global contexts, such as colonialism, globalization, among others.

Through feminist and gender-based theories and methodologies, the Department of Women's and Gender Studies offers critical analyses, reflections, and contributions to knowledge regarding interlocking systems of oppression and privilege, thereby addressing issues of power, resistance, and social transformation. In addition, the emphasis on critical theory and analysis allows for work that interrogates feminist discourses as well as those of other disciplines in the arts, humanities, social sciences, and natural sciences.

The interdisciplinary Women's and Gender Studies major and minor combine courses taken in the Department of Women's and Gender Studies with approved elective courses offered in other departments and programs around the university. Courses are offered regularly by many departments in the college of Liberal Arts and Social Sciences—in the social sciences, and in the humanities—as well as by the other colleges and schools throughout the university.

In addition, many students decide to combine a Women's and Gender Studies major with a second major in another discipline. A double major is a rich educational experience and is actually easy to accomplish. To do so, you can double count courses that fulfill both Women's and Gender Studies and Liberal Studies requirements, and you can double count half of the courses that fulfill the requirements of both majors. We now have a combined BA + MA program that allows you to get both an undergraduate and graduate degree in five years. Students must apply their junior year for the program.
A major, double major, minor, and/or MA in Women’s and Gender Studies prepares students for graduate study in many fields (law, social work, sociology, psychology, history, art and art history, communication, Latin American/Latino Studies, African and Black Diaspora Studies, International Studies, among many others) as well as for careers in the public and private sectors, including social services, social justice, public policy, education, media and popular culture, advocacy, creative arts, counseling, and more.

Students who would like to know more about the Department of Women’s and Gender Studies are invited to speak with the department chair, and other faculty members of the department (5th Floor of Schmitt Academic Center) and/or visit the Department of Women’s and Gender Studies (https://las.depaul.edu/academics/womens-and-gender-studies/Pages/default.aspx) website.

Washington University

Writing and Publishing
The Master of Arts in Writing and Publishing program offers advanced training in the art and craft of writing poetry, fiction, and nonfiction. The program is specifically designed for students interested in careers in creative and literary writing, publishing, and editing, as well as for those seeking to expand their knowledge of writing for the purpose of teaching.

Internships
Writing & Publishing students can qualify for a variety of internships, receiving significant on-the-job experience in such areas as research, writing, editing, publishing, law, corporate communications, non-profit work, and library science. Students might locate an internship on their own or receive assistance from Prof. Chris Green, Coordinator of Professional Internships in Writing & Publishing. Quarterly Career Nights (featuring panels of professionals) and Career Workshops (emphasizing internship- and job-finding skills) will also enhance students’ opportunities and experience.

Two-Year College Teaching Internship
Graduate students in English or a related field are eligible to apply for an internship at an area two-year college. This internship can be undertaken on its own, or as part of the Certificate in Teaching English in Two-Year Colleges. Please contact Dr. Carolyn Goffman for more information about this opportunity.

Faculty
Michele Morano, MFA, PhD
Associate Professor and Chair
University of Iowa

Rebecca Johns Trissler, MFA
Associate Professor and Director, M.A. in Writing and Publishing
University of Iowa

Carolyn Goffman, PhD
Senior Lecturer, Coordinator of the Certificate in Teaching English in Two-Year Colleges, and College of Education Liaison
Ball State University

Chris Green, MFA

Michael Moore, MA
Senior Professional Lecturer
San Francisco State University

Writing, Rhetoric and Discourse

The department of Writing, Rhetoric, and Discourse (WRD), one of the largest departments at DePaul, is dedicated to studying the history and theory of literate activity and helping students excel as writers in a wide range of academic, professional, and public settings. WRD is home to DePaul’s First-Year Writing program; in addition, the department offers the Minor in Professional Writing and the major in Writing and Rhetoric. At the graduate level, the Master of Arts in WRD addresses writing in professional, technical, and digital contexts, the preparation of postsecondary teacher-scholars in writing, and the study of language for writers. The Combined BA/MA in WRD allows undergraduates in any DePaul major to begin taking WRD graduate courses in their senior year. The department also offers a Graduate Certificate in Teaching English to Speakers of Other Languages (TESOL), which prepares students to teach English as a Second Language (ESL) to adult learners in the United States and abroad. Undergraduates who choose the BA/MA option may complete the TESOL Certificate within the MA portion of the program.

The act of writing in general and each student’s writing in particular are of central concern in all WRD courses. Theories of language, rhetoric (how to make effective choices as writers), and discourse (the way writing structures human activity) develop students’ understanding of how the individual act of writing is bound up in broader contexts of institution and culture.

WRD is made up of more than 70 faculty members, all of whom teach at the undergraduate level. The department’s tenure-line faculty members comprise nationally recognized researchers in rhetorical theory and practice, composition theory, writing pedagogy, applied linguistics, second language writing, professional and technical writing, and writing program administration.
College of Science and Health

The College of Science and Health provides students with innovative, science-based curricula with a strong liberal arts foundation. Our departments represent the natural sciences, mathematics, psychology, nursing, and health sciences, each of which is committed to providing the highest quality education. The College of Science and Health educates students with a strong Vincentian commitment to social justice and civic engagement. The college provides mathematical and scientific education/literacy for all undergraduate students within the University and participates in all aspects of DePaul’s distinctive Liberal Studies Program.

The College of Science and Health is dedicated to helping members of DePaul’s diverse student body reach their full academic and professional potential. The innovative curricula supported by the college encourages active participation in research, internships and other opportunities that further prepare students for successful careers and as life long learners. Faculty in the college embody the commitment to student academic and professional development through their quality instruction and by conducting meaningful, student accessible research.

Certificates
The College of Science and Health (CSH) offers certificate programs through our Mathematical Sciences Department.

The CSH also participates in an interdisciplinary program offered through the School of Public Service in the College of Liberal Arts and Social Sciences.

Student Resources
The College of Science and Health (CSH) provides a broad range of advising and student services to help undergraduate and graduate CSH students reach their academic and co-curricular goals and enhance their personal, intellectual and professional development. The CSH also provides specialized advising to students interested in pre-health and exploring research opportunities.

Depending upon the extent of the student need, the CSH is well equipped to refer students to the expert department within the University to best address it.

Administration & Faculty
Administration
Phillip E. Funk, PhD
Associate Dean for External Relations

Dorothy Kozlowski, PhD
Interim Dean

Susan D. McMahon, PhD
Associate Dean for Research and Faculty Development

Assistant Dean for Academic Services

Jennifer Wronkiewicz, MBA
Assistant Dean for Finance and Administration

Kurtis Todd, MS
Executive Assistant

Undergraduate Academics
Focusing on the disciplines of actuarial science, biology, biochemistry, chemistry, data science, environmental science, health sciences, mathematics, neuroscience, nursing, physics, psychology, and science education; the College of Science and Health’s undergraduate and graduate programs prepare students to meet the demands of the growing fields of science and health.

The College of Science and Health offers undergraduate majors from seven departments and one program and graduate programs from six departments and one school. Courses are offered during the day, evenings and on weekends, primarily on our Lincoln Park Campus.

Honors Program
Most students follow the Liberal Studies Program (p. 1166) to meet their general education requirements. However, students accepted into the Honors Program (p. 1192) fulfill general education requirements through an alternative set of courses. A student in the Honors Program pursuing a primary major in The College of Science and Health follows the requirements below:
Honors Core

<table>
<thead>
<tr>

</thead>
<tbody>
<tr>
<td>HON 110</td>
<td>HONORS DISCOVER CHICAGO</td>
<td>4</td>
</tr>
<tr>
<td>or HON 111</td>
<td>HONORS EXPLORE CHICAGO</td>
<td></td>
</tr>
<tr>
<td>HON 100</td>
<td>RHETORIC AND CRITICAL INQUIRY</td>
<td>4</td>
</tr>
<tr>
<td>HON 101</td>
<td>WORLD LITERATURE</td>
<td>4</td>
</tr>
<tr>
<td>HON 102</td>
<td>HISTORY IN GLOBAL CONTEXTS</td>
<td>4</td>
</tr>
<tr>
<td>HON 104</td>
<td>RELIGIOUS WORLDVIEWS AND ETHICAL PERSPECTIVES</td>
<td>4</td>
</tr>
<tr>
<td>HON 105</td>
<td>PHILOSOPHICAL INQUIRY</td>
<td>4</td>
</tr>
<tr>
<td>HON 201</td>
<td>STATES, MARKETS, AND SOCIETIES</td>
<td>4</td>
</tr>
<tr>
<td>HON 207</td>
<td>TOPICS IN COGNITIVE STUDIES</td>
<td>4</td>
</tr>
<tr>
<td>or HON 208</td>
<td>TOPICS IN SOCIO-CULTURAL INQUIRY</td>
<td></td>
</tr>
</tbody>
</table>

Science Requirement
- BA students in Math and Psychology complete a two course science requirement
  - HON 225
  - One course chosen from the university's Scientific Inquiry list
- All other CSH students replace the Honors Science requirement with Approved Electives.

Arts Requirement
- HON 205
- One applied, performance, or studio arts course from approved list.
- Pathways Honors students in a 3-year program are waived from the Fine Arts Elective requirement.

Language Requirement
- Three courses of intermediate or advanced language study.
- Students who meet the proficiency requirement by placing at the 200-level of a language may consult with an Honors advisor for alternative options for a 3-course sequence to replace the language requirement.

Junior Seminar
- HON 301

The Honors Program is committed to developing students’ knowledge and cultural awareness so they may respect and learn from difference. Honors students meet the multicultural requirement by completing HON 301.

Senior Capstone

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Select one of the following:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>HON 350</td>
<td>HONORS SENIOR SEMINAR</td>
<td>4</td>
</tr>
<tr>
<td>HON 351</td>
<td>HONORS SENIOR SEMINAR IN SERVICE LEARNING</td>
<td></td>
</tr>
<tr>
<td>HON 395</td>
<td>HONORS SENIOR THESIS</td>
<td></td>
</tr>
</tbody>
</table>

Students who choose to complete an Honors Senior Thesis must have their project approved at least one term prior to executing the project. To gain approval for a senior thesis, students must complete an application, including a project proposal signed by two faculty advisors. In keeping with the interdisciplinary nature of the program, the thesis should attempt to move outside the boundaries normally associated with one particular discipline and should be supervised by two readers from different academic fields. While the final product must be a substantial piece of work building on the student’s accumulated knowledge and new research, specific requirements for each thesis will depend on the nature of the project. See the Director or Associate Director for an application and thesis materials. Students may opt to enroll in HON 300 (a two-credit elective) to receive dedicated guidance as they prepare the thesis project.

Honors Approved Electives
Approved Electives are chosen in consultation with an Honors advisor to achieve specific academic or professional goals. Courses completed for Study Abroad, 200-300 level courses taken to achieve a minor or a second major, or 200-300 level courses chosen to pursue an area of interest outside of the major can count as Honors Approved Electives. Students in Mathematics, B.A. students in Psychology, and B.A. students in Environmental Science have three Honors Approved Electives. B.S. students in Health Sciences have three or four Approved Electives depending on concentration, and may count the Ethics requirement in place of one of the Approved Electives. Neuroscience majors have one Approved Elective. All other B.S. students have four Honors Approved Electives.

Pathways Honors students in a 3-year program will be waived from the Fine Arts Elective requirement. Honors Approved Electives will be utilized to fulfill requirements for the academic program they are in.

B.A. students in Environmental Studies are required to complete HON 180. All other CSH students follow the Calculus or Statistics requirement for the major and are waived from the HON 180 requirement.

Experiential Learning
Honors students fulfill the university’s requirement for Experiential Learning (EL) through completion of an internship course, a service learning course, or through participation in a study abroad program. The course will verify completion of the EL requirement and be placed where appropriate in the student’s academic program – either as a major requirement, open elective, Honors Approved Elective, or (in the case of HON 351) an Honors core requirement.

Grade Requirements
A grade of C- or higher in HON 100 and HON 110 or HON 111 is required to remain in the Honors Program.

A grade of C- or higher is required to pass the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

Graduate Academics
Focusing on the disciplines of actuarial science, biology, biochemistry, chemistry, data science, environmental science, health sciences, mathematics, neuroscience, nursing, physics, psychology, and science education; the College of Science and Health’s undergraduate and graduate programs prepare students to meet the demands of the growing fields of science and health.
The College of Science and Health offers undergraduate majors from seven departments and one program and graduate programs from six departments and one school. Courses are offered during the day, evenings and on weekends, primarily on our Lincoln Park Campus.

The graduate division of the College of Science and Health offers an exciting array of scholarly and professional programs. Many of the master's programs have earned distinguished reputations both nationally and in the Chicago area for the unique niches that they fill.

The College offers master's and doctoral study through six departments and one school. These programs provide students with opportunities for advanced scholarly study and research, preparation for a specific career or professional program, and personal enrichment. Graduate students in CSH have the opportunity to develop a broad and deep knowledge of their chosen discipline, practice the research methodology of the discipline, and acquire those competencies necessary for their personal advancement in scholarly, professional, or industry careers. Prospective graduate students are encouraged to visit individual department sites for more information on specific graduate programs.

**CSH Graduate Academic Student Handbook**

In addition to the DePaul University Graduate Student Handbook, the College of Science and Health (CSH) Graduate Academic Student Handbook includes requirements, policy and regulations for CSH graduate programs. Additional academic information and regulations applicable to a specific graduate program can be found in the individual Program’s Graduate Academic Student Handbook.

Upon admission to a graduate program, a student is to follow the University Catalog requirements in effect at the time of entrance. A student who is readmitted or who changes his or her program or enrollment status is subject to the terms of the University Catalog in effect at the time of readmission or status change.

As a graduate student you assume the responsibility to know and meet the regulations, procedures, policies, and deadlines set forth in the University Catalog, CSH Graduate Academic Student Handbook, and your Program Graduate Academic Student Handbook. None of these resources constitutes a contract between the student and the University. Every effort has been made to provide accurate and firm information. The University reserves the right:

- to revise the content of its catalogs, handbooks, and schedules, and to change policies, programs, requirements, regulations, procedures, calendars and schedule of tuition and fees;
- to establish and modify admission and registration criteria;
- to cancel or change courses or programs and their content and prerequisites;
- to limit and restrict enrollment;
- to cancel, divide or change time or location or staffing of classes; and
- to make any other necessary changes.

Additionally, all students are expected to adhere to the Student Code of Responsibility found in the DePaul University Graduate Student Handbook.

The following programs have their own specific Program Graduate Academic Student Handbook policies:

- Applied Mathematics
- Applied Statistics
- Biological Sciences
- Chemistry
- Clinical Psychology
- Community Psychology
- Generalist Nursing
- Industrial Organizational Psychology
- Mathematics Education
- Mathematics for Teaching
- Nursing Practice
- Nursing RN to MS
- Physics
- Polymer and Coatings Science
- Psychological Science
- Psychology
- Pure Mathematics
- Science Education

If a conflict exists between a particular Program Graduate Academic Student Handbook and the CSH Graduate Academic Student Handbook, then defer to the particular Program Graduate Academic Student Handbook. If a particular program does not address a particular topic in its Program Graduate Academic Student Handbook but the topic is addressed in the CSH Graduate Academic Student Handbook, then defer to the CSH Graduate Academic Student Handbook.

**Academic Advising**

Academic advising is an essential component of student success. Faculty work with graduate students not only on course selection and to monitor progress toward their degree, but, more importantly, to serve as mentors and advocates through students’ programs of study and research.

Degree-seeking students can find the name of their advisor in Campus Connect. Non-degree seeking students should contact the College’s Office of Advising and Student Services (http://csh.depaul.edu/student-resources/advising-student-services/Pages/default.aspx)

Graduate students, who are interested in pre-health advising, should contact the Office of Advising and Student Services (http://csh.depaul.edu/student-resources/advising-student-services/Pages/default.aspx). A dedicated pre-health staff advisor is available to guide them along the path of preparing for and applying to professional health programs.

**Registration Procedures**

**Enrollment**

Continuing students enrolled in the College at any time during the previous calendar year are eligible to register for courses. Continuing students register via Campus Connect.

**Registration in Courses in Other College or Schools**

Graduate students may be permitted to register for courses offered in other Colleges or Schools at the University. Contact the College’s Office of Advising and Student Services for more information.

**Residence Registration**

Whether in residence or not, all admitted graduate students, at either the master’s level or doctoral level who will use the facilities of the University (library, laboratory, etc.) or who will consult with faculty
members regarding final projects, theses, scholarly leadership projects, or dissertations must be registered for coursework each quarter.

Doctoral students must spend at least three consecutive quarters beyond the master's level in full-time study at DePaul University. Full-time study is defined as registration of eight quarter hours in a quarter. With prior approval of the department, the student may satisfy residence by coursework, by participation in seminars, or by research performed off-campus. To reflect the diversity of graduate study for the PhD degree at stages other than the residency stage, doctoral candidates are full-time students who are registered for Independent Study (four hours); for Dissertation Research (four hours); or for Candidacy Continuation or Candidacy Maintenance (non-credit bearing).

Candidacy Continuation
Students who have completed their coursework but who must take extra time to complete the requirements for their final project, master's thesis, DNP project, or dissertation; must enroll in candidacy continuation courses each quarter of the academic year until the final project, master's thesis, DNP project, or dissertation requirement has been completed. This course carries part-time student status and is non-credit bearing.

Candidacy Maintenance
Placeholder course for students not actively working on their final project, master’s thesis, DNP project, or dissertation. This course is meant only to maintain university student status and to avoid being discontinued. It is non-credit bearing, and it will not give the student full- or part-time student status. It will not permit deferment of student loans.

Courses and Credit
No one is permitted to attend a class for which he or she has not been properly registered. Credit is accumulated on the basis of quarter hours. The unit of credit is one quarter hour granted for 45 minutes of classroom work a week. Students must be registered in order to attend and receive credit for courses. The normal class extends over a ten-week period (or an accelerated five-week period in the summer). All courses carry four quarter hours of credit (2 2/3 semester hours), unless otherwise noted. For students fully employed, registration for no more than eight credit hours in a term is the suggested maximum.

Graduate courses are numbered 400 and above. Courses numbered 300 through 399 are advanced undergraduate courses. If listed in this Catalog, they may be accepted for graduate credit within the limitations stipulated by the specific departmental chair or program director. Graduate students who want to enroll in undergraduate courses for personal enrichment while pursuing a graduate degree must submit an online application for non-degree seeking undergraduate admission to the Office of Admission.

For the master's degree most programs require 48 quarter hours of coursework. When the program includes a thesis, no more than eight quarter hours of registration in Thesis Research will be counted toward the degree. Specific requirements are listed in the departmental and program sections of this Catalog.

A combined Bachelor's/Master's degree program allows students to complete a maximum of 12 graduate credit hours as three courses while still an undergraduate student. These three graduate level courses will count toward both the undergraduate and graduate degree programs. Students must formally apply to a combined program in the spring of their junior year; interested students should meet with the Graduate Program Director of the program. Students formally accepted into this program take a maximum of twelve graduate credit hours as three courses in their senior year. Students must formally apply for undergraduate degree conferral via Campus Connect and be awarded their bachelor's degree in anticipation of continuing with their master's level coursework. Please note that except for students participating in an approved combined Bachelor's/Master's degree program at DePaul, graduate courses taken while an undergraduate will not apply toward a graduate degree at DePaul.

Graduation
Meeting Degree Requirements
You must successfully complete all of the degree requirements as listed in the college and departmental or program sections of the University Catalog under which you were admitted. All requirements must be completed by the grading deadline of the degree conferral quarter.

Earning Degrees with Distinction
Requirements for earning a master’s degree with distinction vary by program. Unless otherwise indicated, the minimum cumulative grade point average for distinction for coursework applied toward a particular College graduate program is 3.75. Additional or other criteria might need to be met in many programs, such as passing a comprehensive examination or writing a thesis with distinction. Refer to your Program Graduate Academic Student Handbook for any differing or specific requirements on minimum cumulative grade point average or additional criteria.

Degree Conferral
Applying for degree conferral requires the anticipated completion by the stated degree conferral deadline of all program requirements including:

1. successfully completing all coursework,
2. possible field experiences,
3. final project, thesis, DNP project, or dissertation requirements - the College’s associate director of graduate student services will arrange for the electronic archival of students’ theses, DNP projects, and dissertations with the DePaul University Libraries (http://library.depaul.edu/),
4. passing comprehensive or final exams,
5. minimum number of credit hours to graduate,
6. earning minimum cumulative GPA, and
7. DePaul’s receipt of undergraduate external transcript showing awarded degree.

Degree conferral candidates must apply for degree conferral online via Campus Connect. Submitting the online degree conferral application does not guarantee the conferral (granting) of a degree from DePaul University. Degree requirements are audited at the end of the expected completion term indicated.

In order to have your degree conferred, you cannot have any outstanding incomplete or research grades, transfer credit, grade changes, or substitutions or waivers. All exams must be completed and graded; and final project, theses, DNP projects, or dissertations must be graded and submitted. Failure to have these items complete by the end of the degree conferral term will prompt the College’s Office of Advising and Student Services (http://csh.depaul.edu/student-resources/advising-student-services/Pages/default.aspx) to revoke degree conferral candidacy. If you wish to postpone your degree conferral or are ineligible to graduate, you must reapply in Campus Connect for a subsequent term.

If you meet all requirements, your degree will be conferred within 30 days of the end of the term. Diplomas are mailed to graduates without financial
Satisfactory Progress
Satisfactory progress toward degree completion includes, but is not limited to, earning satisfactory grades in coursework, maintaining a minimum cumulative GPA, and progressing in a timely fashion.

Grades, Minimum Requirements
A student must earn a grade of B– or higher to receive graduate credit for any upper-level undergraduate course (300 level only) that has been approved for graduate credit by the program director. A student must achieve a minimum cumulative grade point average of 2.500 to graduate. Some programs may have a higher minimum cumulative graduation grade point average. A grade of D+ or D is unacceptable for graduate credit (400 level and above), and if earned in a required course, the course must be repeated or substituted as directed by the chair of the area of the student’s program. All grades remain on the academic record for graduate students and are calculated into the cumulative grade point average. The School of Nursing requires higher minimum grades to earn graduate credit. Refer to the School of Nursing’s Program Graduate Academic Student Handbook for details.

Prohibition and Dismissal
Each program in the College may have its own probation and dismissal policies. Please consult your Program Graduate Academic Student Handbook.

- Biological Sciences
- Chemistry
- Mathematical Sciences
- School of Nursing
- Physics
- Psychology
- Science Education

If it does not contain a probation and dismissal policy, then the following College policy applies.

Master’s Programs
A master’s student is subject to academic probation as soon as his/her cumulative GPA falls below 2.500. The student remains on academic probation until up to four more courses are taken, at which time another evaluation is made. If - after the completion of up to four more courses - the student has failed to raise his/her cumulative GPA to at least 2.500, the student may be dismissed for poor scholarship. A master’s student will be advised to withdraw from the master’s program when the department judges that the student is not maintaining satisfactory progress toward degree. The determination of satisfactory progress is not limited to minimum grades and minimum cumulative grade point average, but it could include both academic and non-academic factors related to the student’s performance. If a master’s student is dismissed for poor scholarship, then a dismissal notation will be added to the student’s official DePaul transcript and the dismissed student is prohibited from registering for additional coursework.

A student who has been dismissed may, after a period of time, petition for reinstatement. The petition, addressed to the dean of the College, would provide information that would demonstrate a change in the student’s circumstances to an extent that would support successful completion of the student’s degree program. The dean’s decision, based upon the merits of the petition and the recommendation of the faculty of the student’s department, may, if it’s a favorable decision, stipulate conditions of reinstatement. The dean may also decide to deny the petition for reinstatement.
Doctoral Programs

A doctoral student will be advised to withdraw from the doctoral program when the department judges that the student is not maintaining satisfactory progress toward degree. The determination of satisfactory progress is not limited to minimum grades and minimum cumulative grade point average, but it could include both academic and non-academic factors related to the student’s performance. If a doctoral student is dismissed for poor scholarship, then a dismissal notation will be added to the student’s official DePaul transcript and the dismissed student is prohibited from registering for registrar coursework.

A student who has been dismissed may, after a period of time, petition for reinstatement. The petition, addressed to the dean of the College, would provide information that would demonstrate a change in the student’s circumstances to an extent that would support successful completion of the student’s degree program. The dean’s decision, based upon the merits of the petition and the recommendation of the faculty of the student’s department, may, if it’s a favorable decision, stipulate conditions of reinstatement. The dean may also decide to deny the petition for reinstatement.

For more information about probation and dismissal, please contact the College’s Office of Advising and Student Services (http://csh.depaul.edu/student-resources/advising-student-services/Pages/default.aspx).

Time Limitations

Master’s Programs

Graduate students in master’s programs are expected to complete their program’s degree requirements within a six-year period of time from the date of the first day of the term for the students’ first term of enrollment in the program. When a graduate student fails to finish before the end of the sixth year from this date, the student may be placed on academic probation. However, the department or program director may recommend to the dean, on receipt of the student’s petition, in writing, an extension of time with or without additional courses, examinations, or other conditions.

Doctoral Programs

For graduate students in a doctoral program, the time limitation to complete the requirements for the Ph.D. are

1. between admission to the doctoral program and admission to candidacy: not more than four years; and
2. between admission to candidacy and the final examination: not less than eight months, and not more than five years.

When a graduate student fails to finish before the end of the student’s fourth year prior to candidacy or his or her fifth year post-candidacy, the student may be placed on academic probation. However, the department or program director may recommend to the dean, on receipt of the student’s petition, in writing, an extension of time with or without additional courses, examinations, or other conditions.

Admission & Aid

Candidates interested in admission to the College of Science and Health should direct all inquiries to the:

Office of Admission
DePaul University
1 E. Jackson Boulevard
Chicago, Illinois, 60604
admission@depaul.edu, or (312) 362-8300.

For general information on the types of admission and possibility of financial aid, see University Information, Admission.

Financial Aid

Applicants interested in financial aid options should direct all inquiries to the Office of Financial Aid (http://www.depaul.edu/admission-and-aid/financial-aid/Pages/default.aspx). They are located in DePaul Central in the Schmitt Academic Center, Suite 101 on the Lincoln Park Campus. You may phone them at their Loop location at 312-362-8610.

Graduate Admission

Applicants are admitted to the College of Science and Health on the basis of their ability to complete programs of study and research prescribed for the master’s and doctoral degrees. Specifically, admission qualifications are measured by academic criteria. In accord with these criteria, applicants are admitted in one of three major categories: degree-seeking, non-degree-seeking, and student-at-large.

Degree Seeking Students

Applicants are admitted as degree-seeking students in either of two ways: full or conditional.

Full Degree-Seeking Status

The minimum requirements for this status are:

• Bachelor’s degree conferred by a regionally accredited institution.
• Scholastic achievement in undergraduate studies satisfying all requirements for entering a specific graduate program.
• Submission of all required supporting credentials.
• Unconditional approval by the department or program director of the applicant's proposed course of graduate study.

Please note these are minimum requirements for full admission. The departmental and program sections of this Catalog provide additional, more specific and selective, criteria for admission to specific programs.

Conditional Degree-Seeking Status

The minimum requirements for this status are:

• Bachelor’s degree conferred by a regionally accredited institution.
• Scholastic achievement in undergraduate studies indicating a capacity to pursue successfully a specific program of graduate study.
• Submission of all required supporting credentials.
• Conditional approval by the department or program director of the applicant’s proposed course of graduate study.

A conditionally admitted applicant is eligible for reclassification to full, degree-seeking status when the conditions of his or her admission have been satisfied.

Non Degree-Seeking Students

The dean may admit as students those applicants who do not wish to pursue an advanced degree. Non-degree-seeking students may, at some future date, make application to a graduate program, but they are not accorded special consideration for admission. Students should consult the intended degree program’s website for information about application requirements. Non-degree-seeking student status includes students who are pursuing graduate certificates at DePaul.

Non-Degree Seeking Status

The minimum requirements for this status are:
• Bachelor’s degree conferred by a regionally accredited institution
• Academic achievement in undergraduate studies indicating a capacity to succeed in graduate course work (minimum of 2.50/4.00, but some programs might be higher)
• Submission of official transcript from bachelor’s degree granting college or university
• Approval by the director of graduate admission.

Students admitted as non-degree graduate students are eligible to enroll in graduate-level courses only.

When such students apply to a graduate program, the departmental or program director of their specific graduate course of study may recommend, in writing, to the dean that a maximum of three courses (12 quarter hours) completed by the student under the non-degree-seeking status be counted toward fulfillment of the advanced degree requirements. The application of any or all recommended credit is at the discretion of the dean.

**DePaul Students and Combined Programs**

The combined Bachelor’s/Master’s degree program allows students to complete a maximum of 12 graduate credit hours as three courses while still an undergraduate student. These three graduate level courses will count toward both the undergraduate and graduate degree programs.

Students must formally apply to a combined program in spring of their junior year; interested students should meet with the Graduate Program Director of the program. Students formally accepted into this program take a maximum of twelve graduate credit hours as three courses in their senior year. Students must formally apply for undergraduate degree conferral via Campus Connection and be awarded their bachelor’s degree in anticipation of continuing with their master’s level coursework.

Please note that except for a student participating in an approved Bachelor’s/Master’s program at DePaul, graduate courses taken while an undergraduate will not apply toward a graduate degree at DePaul.

**Scholarship Opportunities**

**Double Demon Scholarship**

The Double Demon Scholarship is awarded to DePaul alumni and covers 25 percent of tuition for degree, non-degree or select certificate coursework taken at the graduate level. \(^1\) Both full-time and part-time students are eligible and no application is necessary. To learn more, contact the admission office for your college of interest (see listing below).

\(^1\) The Double Demon Scholarship cannot be used in conjunction with other DePaul scholarships, waivers or awards. University employees are eligible for other tuition benefits and are not eligible. The scholarship does not cover coursework from the Center for Professional Education (CPE), the Institute for Professional Development (IPD), coursework in a doctoral program or a master of fine arts (MFA), School of Music, the Theatre School, College of Law and a few other select programs.

**Special Programs**

The College of Science and Health offers a number of special programs to meet the unique needs of its students.

**Accelerated Program**

**Rosalind Franklin University of Medicine and Science (RFU)**

The 3+ Accelerated Degree Program offers qualified Pathways Honors students with a major in health sciences an opportunity to apply to a selective RFU:

• 3+4 pre-professional program in medicine,
• 3+4 pre-professional program in pharmacy,
• 3+2 pre-professional program in physician assistant studies,
• 3+2 pre-professional program in pathologists’ assistant studies,
• 3+3 pre-professional program in physical therapy, or
• 3+4 pre-professional program in podiatric medicine.

The program also offers qualified Pathways Honors students with a major in chemistry (BA-seeking) an opportunity to apply to the 3+4 pre-professional program in pharmacy.

**DePaul University’s School of Nursing**

The 3+ Accelerated Degree Program offers qualified Pathways Honors students with a major in health sciences an opportunity to apply to a selective School of Nursing 3+2 Master’s Entry to Nursing Practice (MENP) nursing program.

**Combined Programs**

The combined Bachelor’s/Master’s degree program allows students to complete a maximum of 12 graduate credit hours as three courses while still an undergraduate student. These three graduate level courses will count toward both the undergraduate and graduate degree programs.

Students must formally apply to a combined program in spring of their junior year; interested students should meet with the Graduate Program Director of the program. Students formally accepted into this program take a maximum of twelve graduate credit hours as three courses in their senior year. Students must formally apply for undergraduate degree conferral via Campus Connection and be awarded their bachelor’s degree in anticipation of continuing with their master’s level coursework.

Please note that except for the 12 graduate credit hour limit as three courses for students participating in an approved Bachelor’s/Master’s program at DePaul, graduate courses taken while an undergraduate will not apply toward a graduate degree at DePaul.

**TEACH Program**

This combined degree program of the College of Science and Health and the College of Education was collaboratively developed, and is governed and taught by faculty from these units. A full description of the Program can be found on the College of Education website in the graduate course catalog.

**Modern Language Option Program**

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level necessary to meet the college’s modern language requirement and to BS students who wish to study a Modern Language at any level. Students selecting the option may substitute a three-course language sequence for two domain courses and one open elective. Students may use the Modern Language Option by applying two of the modern language courses toward two different learning domain combinations. Here are the available combinations: Philosophical Inquiry or Religious Dimensions; Historical Inquiry or Self, Society; and the Modern World; or Arts and Literature or Scientific Inquiry (cannot substitute for the lab science or science as a way of knowing requirement.). Students majoring in one modern language may
use the Modern Language Option for study of a second language at the intermediate level or above. Please see your advisor for additional information about Modern Language Option course placement.

**Online Degree Programs**

**Bachelor of Arts (BA) in Psychology**

The BA in Psychology can be completed online, by transfer students, if certain prerequisites and additional degree requirements are met. This online degree program is available for two concentrations within the psychology major: the Standard BA Concentration and the Human Development BA Concentration.

**Admission Criteria for Online Programs**

In order to be eligible for the BA in Psychology online format, students must meet the following requirements:

- Be a transfer student with a minimum of 45 quarter hours/30 semester hours of transfer credit
- Have a minimum cumulative 2.0 GPA
- Be in good standing at the last school attended

**Prerequisites**

Transfer students are encouraged to complete writing courses equivalent to DePaul’s WRD 103 and WRD 104 (i.e. English Composition 101, and 102) requirements prior to beginning the online courses. Additionally, students will need to complete college algebra equivalent to DePaul’s MAT 100 or MAT 101 (or a higher math course) before enrolling in the online program. Students who have successfully completed Statistics and/or Calculus will not need to take the math placement test.

Students should plan to complete all, or almost all, of their psychology courses at DePaul. Some elective and liberal studies courses may be completed with transfer credits. Consult the Transfer Course List for transferrable courses that may apply to Liberal Studies Program (LSP) and elective course requirements.

**Bachelor of Arts Degree Requirements**

The following degree requirements will need to be fulfilled in addition to the online course offerings:

- Complete the lab science course requirement through transfer course work, or credit by exam (CLEP/AP/IB). (Students may earn college level credit through taking College Level Equivalency Exams (CLEP) to validate knowledge previously acquired.)
- Complete the Modern Language requirement through transfer course work, proficiency, or credit by exam. (Proficiency may be documented by a satisfactory rating in a language proficiency examination administered, or accepted, by DePaul University.)

Graduation requirements for the BA in Psychology online degree program are identical to those for all psychology majors in the Standard Psychology or Human Development concentrations (see the Degree Requirements). DePaul bachelor’s degrees require 192 quarter hours.

To complete the degree requirements online in a timely fashion, students will need to follow the recommended online degree plan. Degree plans are available through the Psychology department.

Transfer students should select the Psychology Online Degree Program as their major when submitting a transfer application for admission to DePaul.

**Nursing RN to MS**

The RN to MS curriculum provides for seamless progression for the Registered Nurse (RN) with an associate degree in nursing (ADN) to the master’s degree (MS) in nursing, whether or not the student also holds either a BSN or a BA/BS in another field. Along the way, ADN-only students will earn the Bachelor of Science (BS) degree in nursing. Students who hold a BSN may proceed directly to pursuing the MS. Students who hold a BA/BS in a different field and an RN will be required to complete a number of prerequisite courses before pursuing the MS. The focus of the program is on the attainment of the MS degree.

The RN to MS program will be offered online except for the clinical requirements. Students will be required to complete clinical nursing experiences, which will be undertaken in their home communities with appropriate local preceptor agreements.

**Pathways Honors Program**

The Pathways Honors Program is designed for highly qualified and motivated College of Science and Health pre-professional students interested in pursuing a health career. Students who are part of the Pathways Honors Program will enter as a cohort during their first-year at DePaul. One of the primary features of the Pathways Honors Program is the Early Opportunity Program.

Early Opportunity Program: Offers eligible Pathways Honors students the opportunity for an early admission decision into one of six professional programs at Rosalind Franklin University of Medicine and Science (RFU): medicine, pharmacy, podiatry, physician assistant, pathologists’ assistant, and physical therapy. The Early Opportunity Program will result in early acceptance for qualified Pathways Honors applicants into one of these abovementioned RFU professional programs. Students may apply at the end of their freshman, sophomore or junior year at DePaul. Students may matriculate at RFU as early as at the end of either their third year (3+ Accelerated Degree Program) or fourth year (4+ Traditional Degree Program) at DePaul.

Pathways Honors students with a major in health sciences also have an opportunity to apply to a selective School of Nursing 3+2 Master’s Entry to Nursing Practice (MENP) nursing program.

Pathways Honors students will receive the same benefits as any other Pre-Health Program (http://csh.depaul.edu/academics/pre-health-program/Pages/default.aspx) students at DePaul, but they will also have an opportunity to:

- enroll in special sections of some science courses
- meet regularly with faculty advisors and staff at Rosalind Franklin University of Medicine and Science (RFU) (http://www.rosalindfranklin.edu/) – a rare benefit for undergraduates in pre-professional programs
- network with RFU students
- participate in onsite research opportunities at RFU
- pursue the Early Opportunity Program (http://csh.depaul.edu/academics/pre-health-program/pathways-honors-program/Pages/Early-Opportunity-Program.aspx)
- pursue one of the 3+ Accelerated Degree Programs (http://csh.depaul.edu/academics/pre-health-program/accelerated-degree-option/Pages/default.aspx)
- be part of a smaller learning community or living and learning community
- take courses at DePaul co-taught or taught by RFU faculty
• participate in exclusive events only for Pathways Honors students
• have a special notation on official transcript denoting participation in the Pathways Honors Program
• enroll early with priority course registration

To remain in the Pathways Honors Program, students must meet the following two criteria. Students, who do not meet both criteria, will be dismissed from the program.

• Retain a primary major in the College of Science and Health.
• Maintain at least a 3.0 cumulative GPA.
• Completing and logging at least 10 activity hours each quarter for a total of at least 30 hours per year.
  • Activity hours include volunteering, shadowing, attending events or workshops, etc.
  • Activity hours do not include hours for which you are paid or earn academic credit.

Students who are not in the Pathways Honors Program as new first-year students may apply to Pathways Honors via the mid-year application. The mid-year application will open early May and close and be due in early June of the same year.

Mid-Year Applicant for Transfer Students
Transfer students are NOT eligible to pursue a 3+ accelerated program. To be eligible for acceptance into Pathways Honors as a transfer student, the applicant must meet the following requirements at the time of submitting the application.

1. Earned at least 48 quarter hours in residence by the end of spring quarter at DePaul University with a maximum of 90 total earned quarter hours between DePaul and the transfer institution(s), including other external credit (i.e. AP).
2. Completed 1 year of general biology with laboratory and 1 year of general chemistry with laboratory by the end of spring quarter.
3. Completed a minimum of 3 science courses with labs at DePaul. Eligible courses include: general chemistry, general biology, organic chemistry, analytical chemistry, general or university physics, genetics, cell biology, microbiology, or any 300-level biology, chemistry, or physics course.
4. Earned at least a DePaul cumulative GPA of 3.2 after spring quarter grades post.
5. Earned at least a 3.2 cumulative transfer GPA.
6. Earned at least a B- in all science courses (see #2 and #3) at both DePaul and at the transfer institution(s).
7. Demonstrated a standard of professional and ethical behavior suitable for a future health professional.
8. Submitted a 500 word statement on why the applicant is interested in Pathways Honors and what intraprofessional healthcare means to them.

Mid-Year Applicant for Current DePaul Students Who Did Not Transfer
A current DePaul student in the first year may apply as a mid-year Pathways Honors program participant. Students who apply mid-year will receive the same benefits as incoming first-year students who were selected as Pathways Honors students. Competitive mid-year applicants must:

• Have fewer than 60 quarters hours earned at the end of spring quarter.
• Opportunity to have a committee letter of recommendation written (depending on professional school program of pursuit)
• Guidance on identifying and pursuing volunteering, shadowing, research, and leadership-building experiences
• Free tutoring at DePaul's Learning Commons
• Automatic registration for the CSH's Pre-Health Program: receive invitations to pre-professional workshops (i.e. personal statement writing, practice interviews, etc.), speaker engagements, student group events, and possible shadowing and volunteering opportunities
• Registration for classes before the general non-degree seeking population

Biological Sciences

The Department of Biological Sciences provides courses for biology majors, minors, and non-majors from all areas. The department currently has more than 350 majors in its undergraduate program leading to a Bachelor of Science and offers a graduate program leading to a Master of Arts or Master of Science.

University of Kentucky

Chemistry and Biochemistry

The Department of Chemistry and Biochemistry has several fundamental responsibilities. They are:

1. to train students to understand, to criticize meaningfully, and to carry out scientific investigations,
2. to provide instruction and laboratory experience for those who wish to make chemistry or biochemistry their livelihood and/or pursue advanced study in chemistry or biochemistry,
3. to provide instruction and laboratory experience for those who wish to use chemistry or biochemistry as a background in an allied profession, and
4. to provide students not majoring in chemistry or biochemistry with up-to-date instruction in the principles of chemistry or biochemistry and methods of scientific inquiry.

In meeting these responsibilities, the department offers two Bachelor of Science degrees, one in Chemistry and the other in Biochemistry, both of
which are certified by the American Chemical Society, the department's accrediting body. The department also offers two Bachelor of Arts degrees, one in Chemistry and the other in Biochemistry. The BA options allow students to get a firm educational foundation in chemistry or biochemistry along with the ability to develop specialization in another field not necessarily related to chemistry or biochemistry.

In addition to its baccalaureate degrees, the department offers several combined degree programs. Students may pursue a degree in chemistry and chemical engineering through a joint program with the Illinois Institute of Technology. The department hosts its own combined BS/MS program. This option allows students to earn a BS and MS in chemistry.

Communication

**Health Sciences**

The mission of DePaul University’s Department of Health Sciences is to educate and train students who will collaboratively address human health from interdisciplinary natural and social scientific perspectives in order to promote health and to improve the lives of individuals and communities.

The Department of Health Sciences offers a BS in Health Sciences, a minor in Public Health Studies, combined degree programs (BS+MA in Health Communications, BS+Master of Public Health, and BS+Master’s Entry to Nursing Practice), and several 3+ Accelerated Programs that combine undergraduate studies at DePaul with graduate health professions studies at Rosalind Franklin University of Medicine and Science.

The Health Sciences major offers concentrations in BioScience and Public Health Studies. In addition to General tracks, each concentration offers tracks that help students focus their interests and prepare for future careers. In BioScience students can choose from tracks in Medicine and Pre-nursing; while in Public Health Studies, students can choose tracks in Health Education, Community Health or Health Policy and Administration. This degree:

1. provides students interested in pursuing a career in one of many health-related professions with a common core of knowledge;
2. provides a general track in each concentration but also articulates additional tracks that meet requirements for entry into graduate programs;
3. provides enough flexibility to enable students to move among those tracks as their interests evolve, and
4. brings students headed for multiple health-related professions into on-going cross-disciplinary conversation with each other.

The curriculum is built on the principle that, in order to be effective, professionals working in health need to understand the factors that impact both the health of individuals and the health of populations.

Mathematical Sciences

The Department of Mathematical Sciences offers courses in pure and applied mathematics to help students reach a wide variety of intellectual, academic, and career goals.

Many students come to the department to obtain the mathematical background needed to be successful in programs in the natural sciences, computer science, social sciences, and business. Such students may choose to supplement their major in their home department by obtaining a minor in mathematics. Other students come to the department seeking a program leading to an undergraduate or graduate degree in one of the mathematical sciences.

Neuroscience

The Neuroscience major is a new integrative program that draws from the natural, behavioral, and computational science fields. The program's concentrations explore fundamental concepts that underlie the function of the nervous system on a cellular and molecular level, how the nervous system produces behavior and cognition, and the role of computer science and mathematics in new technologies and therapies within the field. The degree earned is a BS. The knowledge gained from studying neuroscience can be applied to careers in these sub-fields, as well as in pursuit of professional programs in health, mental health, medicine, law, business and computer science.

Physics and Astrophysics

Physicists study and apply the laws of nature to answer fundamental questions about the evolution of the universe, the nature of light and matter, and the behavior of the natural world. The Physics Department engages students in a rigorous academic environment in graduate and undergraduate education. The undergraduate major provides the depth and breadth required for graduate study in physics, related or interdisciplinary areas, or for applied programs such as engineering, electronics, and optics. A major factor in our success in preparing students for advanced degrees and rewarding careers is the high level of cooperation and interaction we maintain between faculty and students. Our classes are small, often laboratory-oriented, promoting serious learning in a friendly environment. Students are encouraged to participate in research with faculty and are frequently co-authors of articles in physics journals. Many students are supported as research assistants by funds from the College of Science and Health or by external grants.

In addition to its strong undergraduate program with concentrations in standard physics and computational physics, the department offers a joint engineering program in conjunction with Illinois Institute of Technology, and a master's degree in Applied Physics.

Post-Baccalaureate Programs

The College of Science and Health’s (CSH) Post-Baccalaureate Pre-Health Program (“post-bac program”) at DePaul is a pre-professional program designed for career changers who aspire to pursue a graduate health professions program’s prerequisite coursework leading to a career in one of the following eight fields: dentistry, medicine, optometry, pharmacy, physical therapy, physician assistant practice, podiatry, or veterinary medicine. The post-bac program is flexible and allows students who might be working full-time or part-time to complete the courses (offered during the day, Monday through Friday) on a part-time basis at their own pace. The post-bac program does not bear a certificate, nor will it carry any other type of credential.

In order to be eligible for the post-bac program, applicants must:

- Be U.S. citizens or permanent residents
- Have earned at least a bachelor’s degree with a non-natural science major from an accredited college or university; if an applicant already completed one or two graduate health professions prerequisites, depending on when the courses were completed – and the grades achieved – students may be advised to either repeat them or take one or two advanced-level science courses
- Have earned at least a 3.00/4.00 undergraduate cumulative GPA
- Be in good academic standing at previous institution(s) and be able to return
- Be career changers with little to no lab science background

Benefits of the post-bac program:

- Rolling admission (on a quarterly basis)
- Completion of courses at one’s own pace on a part-time basis
- Customized pre-health advising from faculty and staff advisors
- Opportunity to have a committee letter of recommendation written (depending on professional school program of pursuit)
- Guidance on identifying and pursuing volunteering, shadowing, research, and leadership-building experiences
- Free tutoring at the CSH’s Science and Math Learning Center and DePaul’s Learning Commons
- Automatic registration for the CSH’s Pre-Health Program: receive invitations to pre-professional workshops (i.e. personal statement writing, practice interviews, etc.), speaker engagements, student group events, and possible shadowing and volunteering opportunities

The Department of Psychology is committed to providing excellent teaching, mentoring and advising for students in our nine undergraduate major concentrations, two master's programs and five doctoral programs. Moreover, the Department of Psychology is committed to making meaningful contributions to the science of psychology and encourages students to do likewise, and to serve our university, community, and profession so as to enact and realize the mission of DePaul.

The goal of the Department of Psychology is to provide students with an understanding of the methods and content of scientific and applied psychology.

School of Nursing

The mission of the School of Nursing is the preservation, enrichment, and transmission of nursing science as a discipline, and its application to promote the health and well-being of individuals, families, and communities. The faculty pursues this mission through excellence in teaching as the primary focus of scholarship, and research that has the potential to enhance nursing knowledge, scientific inquiry, teaching, and health. The School maintains a commitment to serving persons with diverse talents, qualities, interests, and socioeconomic backgrounds in its educational programs and professional practice. It seeks to provide accelerated, inquiry-based education that anticipates the rapid pace of change in health promotion and illness care.

Philosophy of the School Of Nursing

Nursing is a learned profession with a distinct science and art. Students learn the practice of nursing through research and the study of diverse human and environmental patterns of health behavior as they affect individuals, families, and communities. Students incorporate scientific knowledge and the nursing process in their delivery of safe, ethical and quality care with deep regard for the differences along the dimensions of race/ethnicity, gender, class, sexuality, religion, heritage and language.

The focus of the faculty of the School of Nursing is the education and preparation of students for leadership roles in healthcare. Education is centered on providing care for persons and communities in both health and illness while conducting scientific research to generate knowledge that strengthens these endeavors. Critical thinking is emphasized, along with an insightful examination of society, thus affording students the opportunity to apply the science and art of nursing to promote and maintain health while upholding human dignity for the betterment of the community and society.

In keeping with the Vincentian values of DePaul University, students treat all human beings equally and with respect, and by doing so, are acting in the interest of the common good. The School of Nursing faculty is committed to education that will provide the foundation for a professional career as a caregiver, educator, leader, and scholar.

Science Education

The Science, Technology, Engineering, and Mathematics (STEM) Studies Department offers innovative, interdisciplinary programs and courses spanning the sciences, mathematics, and technology at DePaul. The Department works in close collaboration with the DePaul STEM Center. The Department administers the Master of Science in Science Education, a program to prepare master teachers in science at the middle school level. The program addresses a great need for content-based graduate study to enhance the teaching of science at the middle school level. The program integrates content with pedagogy, is inquiry-based, and integrates mathematics and technology with science. The STEM Studies Department also offers innovative science courses and special programs for undergraduates to engage highly diverse audiences in rich, contemporary science content.

The School of Continuing and Professional Studies offers innovative undergraduate and graduate degrees and certificates that are recognized for their high quality and applicability in an ever-changing professional world. We also provide extensive continuing education and workplace learning opportunities through our seminars, workshops and customized corporate training programs.

Our school is designed to offer personalized academic and career guidance, credit for prior learning, and flexible learning structures that meet the schedules and demands of busy adult lives. We extend learning through online, hybrid, and on-campus offerings, as well as through cohort programs delivered onsite at our corporate and college partners.

Whether pursuing degree completion, accelerated, customizable, and/or highly-structured programs, our students develop skills in collaboration, persuasion, critical-thinking, inquiry, technology, creativity, adaptability and specialized fields that meet the requirements for success in the 21st century workplace.

Undergraduate Academics
An internationally recognized leader in education for adults, the School of Continuing and Professional Studies offers degrees and certificates at both the undergraduate and graduate levels.

The undergraduate Bachelor of Arts programs include professional studies majors in Business Administration (BAPS-BA) and Computing (BAPS-C), program majors in Healthcare Administration (BAHA) and Data Analytics (BADA), and degree completion majors in Applied Behavioral Sciences (BABS) and Leadership Studies (BALS). SCPS is no longer accepting students to its competence-based programs, Bachelor of Arts with and Individualized Focus Area (BAIFA), Bachelor in Computing (BAC), Bachelor in General Business (BAGB) and Bachelor of Arts in Early Childhood Education (BAECE). For more information on these programs please refer to the university catalog archive (p. 1490).

- Business Administration (BAPS-BA) (p. 173)
- Computing (BAPS-C) (p. 250)
- Healthcare Administration (BAHA) (p. 498)
- Decision Analytics (BADA) (p. 308)
- Applied Behavioral Sciences (BABS) (p. 105)
- Leadership Studies (BALS) (p. 617)

Combined Bachelor's + Master's Degree Programs
SCPS offers two combined Bachelor's + Master's degree programs that allow students across the university to complete 12 graduate credit hours while completing their undergraduate programs at the undergraduate tuition rate. These 12 graduate credit hours will count towards both the undergraduate and graduate degree programs. Combined degree program students are also eligible for DePaul's Double Demon Scholarship which provides a 25% reduction in the graduate tuition rate.

- MA in Applied Professional Studies (p. 121)
- MA in Educating Adults (p. 357)

SCPS Undergraduate Academic Policies
All SCPS undergraduate students assume responsibility to know and meet both the general and particular regulations, procedures, policies and deadlines set forth in the academic catalog. In addition, all SCPS undergraduate students are expected to adhere to the Student Code of Responsibility (available in the DePaul University Undergraduate Student Handbook (p. 1347)) to follow the policies, procedures and regulations of the University. Failure to do so may be grounds for dismissal from the applicable degree program. Additional program information and regulations applicable to specific programs can be found on the SCPS website (https://scps.depaul.edu/student-resources/undergraduate-resources/Pages/default.aspx).

Dean's List, Honors and Honor Societies
Students in the following SCPS undergraduate programs are eligible to receive graduation honors, BAPS-BA, BAPS-C, BAHA, BADA, BABS and BALS. These honors are based on the student’s final cumulative GPA, at least 3.85 for summa cum laude, 3.7 for magna cum laude, and 3.5 for cum laude. SCPS competence-based programs do not recognize these graduation designations. Invitation-only honor societies such as Alpha Sigma Lambda may offer graduation honors to eligible undergraduate students per each honor society's criteria. SCPS does offer a quarterly SCPS Dean's List designation for undergraduate students who earn a GPA of 3.5 for the quarter based on a minimum of 8 graded credit hours in DePaul courses, excluding grades of Pass and W. Students who received IN, M, or R grades for the quarter are not eligible.

Grades
SCPS degree programs with majors (BAPS-BA, BAPS-C, BAHA, and BADA) require a grade of C- or better in courses taken at the school or transfer work applied to satisfy course requirements in the Major and Concentration Requirements and in the LL 261:Essay Writing course in the College Core. All other course requirements in these programs can be completed with a grade of D or higher.

SCPS degree completion major programs (BABS and BALS) require a C- or better in all courses taken at DePaul in those programs.

SCPS competence-based programs (BAIFA, BAC, BAGB and BAECE) require a C- or better in courses taken at the school or transfer work applied to satisfy competence requirements in those programs. R grades are only permitted for the following courses: LL250, LL300, LL390, FA303, FA304, Guided Independent Studies, and SCPS Study Abroad courses.

Grades are not changed because of a reassessment of course work, the submission of extra work or by the retaking of an examination. In very rare cases, an instructor may request to make a change of grade but it requires approval by the SCPS Exceptions Committee.

The SCPS Exceptions Committee will entertain grade change requests from instructors but only where either the student or the instructor has made a compelling case with adequate written supporting documentation that a grade change is warranted for equitable considerations. If a student’s IN or R grade has reverts to a F grade due to missed deadlines, this is not sufficient grounds to warrant such an exception. If a grade change is deemed appropriate by the Exceptions Committee or through an Incomplete Contract, faculty enter the grade change directly in Campus Connect.

A minimum grade point average (GPA) of 2.0 is required to graduate in all SCPS undergraduate programs.

Pass/Fail Grades
Most undergraduate courses at SCPS are graded on the A/F grading scale but students may request to have them assessed on the Pass/Fail (PA/F) grading scale. In SCPS undergraduate courses, grades of C-through A represent passing performance on the PA/F scale.

Students in SCPS competence programs are assessed on the A/F grading scale in the following courses: LL 270, LL 300, LL 302, FA 303 and FA 304 but can request to be graded on the A/F scale. Students who are not in a competence-based program will be assessed on the A/F scale in these courses. Courses LL 250 and LL 390 are only taken by students in competence programs and these courses may only be taken for PA/F grades.

Requests for a change in the grade scale either to or from the Pass/Fail option must be made in writing to the instructor by the start of the third week of the course for ten week courses and by the beginning of the
second week for courses that meet for less than ten weeks. The grading basis may not be changed after these deadlines, with no exceptions.

Courses assessed as Pass (PA) will earn credit hours toward degree completion but will not be included in calculating students’ grade point averages. Courses assessed as Fail (F) will not only be recorded as credit hours attempted but will also be included in calculating the student’s grade point average.

Pass/Fail Limit: The university limits the number of credit hours that can be taken as PA/F grade at twenty credit hours. Courses taken by students in the competence programs for Lifelong Learning credits do not count toward the twenty credit hour limit.

Prior Learning Assessment (PLA)

Prior Learning Assessment (PLA) allows students to earn credit toward degree requirements based on demonstration of college-level learning through Independent Learning Pursuits (ILPs) and Proficiency Exams. The maximum amount of PLA credit that can be applied to a SCPS degree is 48 credits of the 192 credit program or 12 competence requirements in a competence-based program. PLA credits are not eligible for Financial Aid, do not count for purposes of determining enrollment status, and do not count as residency requirements. While SCPS can apply PLA credit to SCPS degrees, other DePaul colleges are under no obligation to do so.

Repeating Courses

SCPS follows the University policy (p. 1380) for repeating courses for its credit-based programs (BAPS-BA, BAPS-C, BAHA, BADA, BABS and BALS).

The following policies apply to students in SCPS’s competence-based programs (BAIFA, BAC, BAGB and BAECE). SCPS students can improve the grade for a particular competence by retaking the same course for the same competence or by taking a different course for the same competence. In either case, the University policy stipulates that the second attempt is the one which determines the cumulative credit and GPA. A student may not repeat a SCPS class if the registration is for a different competence from the original registration for that course.

When SCPS undergraduate students repeat a competence, all grades achieved are recorded on their academic records. Recalculations of the GPA will be made according to the following guidelines:

- Upon the initial repeat, only the second grade will be used to calculate the GPA.
- Upon further repeats, the second and all subsequent grades will be used to calculate the GPA.

These guidelines apply whether students took the competence for pass/fail or A/F grades.

GPA recalculation for a repeated competence are made on an ad-hoc basis only. Recalculations are initiated at the request of students, faculty, and advisors and performed by the SCPS Student Records office.

Residency Requirements

SCPS residency requirements (courses taken at DePaul) vary by program as defined below:

- SCPS degree programs with majors (BAPS-BA, BAPS-C, BAHA, and BADA): Students in these programs must complete at least 20 credit hours from the College Core Requirements in residence and at least 40 credit hours from the Major Requirements in residence.

- SCPS degree completion major programs (BABS and BALS): Students in these programs must complete at least 94 credit hours in residence.

- SCPS competence-based programs (BAIFA, BAC, BAGB and BAECE): Students in these programs must complete at least 25% of competence requirements through SCPS courses. In addition, students in the BAC program must also complete at least 5 courses through the College of Computing and Digital Media. Students in the BAECE program must also complete at least 9 courses through the College of Education.

Active Student Status

After three consecutive quarters, excluding summer, of no registration activity (no credit hours or the minimal Continuing Activity Status), the University deems students to be discontinued. Once discontinued, students wishing to resume their studies are required to reapply for admission to the school, and, upon readmission, proceed in accordance with program specifications in place from that point forward, as well as any special directives provided at the point of readmission.

Competence Limits (in Competence-Based Programs)

In undergraduate courses offered for competence requirements at SCPS, students may enroll for a maximum of two competence requirements. Most competence requirements are worth 2 credit hours, although there are some exceptions to this rule. Students may enroll in one or two competence requirements in a course but may only complete one FX competence per course. Exceptions to this policy are:

- In travel courses, students can enroll in three or four competence requirements if two of them are L10 and L11 (Externship).
- Certain four-credit hour courses offer only one competence requirement; these include Writing for Competence (L4), Critical Thinking (L5), and Quantitative Reasoning (L6).
- Two-credit hour courses, including Guided Independent Studies, five-week courses, and most December Term courses, may be taken for only one competence.
- In University Internship Program courses offered for two FX competence requirements, students are enrolled for both FX competence requirements.

Graduate Academics

An internationally recognized leader in education for adults, the School of Continuing and Professional Studies offers degrees and certificates at both the undergraduate and graduate levels.

The graduate programs include master’s degrees in Applied Professional Studies (MA), and Educating Adults (MA), and Applied Technology (MS).

- Applied Professional Studies (MA) (p. 119)
- Applied Technology (MS) (p. 124)
- Educating Adults (MA) (p. 356)

SCPS Graduate Academic Student Handbook

All SCPS graduate students assume responsibility to know and meet both the general and particular regulations, procedures, policies, and deadlines set forth in these materials. In addition, all SCPS graduate students are expected to adhere to the Student Code of Responsibility (available in the DePaul University Graduate Student Handbook) to follow the policies, procedures, and regulations of the University, and to fulfill any particular stipulations which the School of Continuing and Professional Studies Graduate Programs may have made in individual cases at the time of
admission or, subsequently, through official action. Failure to do so may be grounds for dismissal from the applicable graduate program.

Additional program information and regulations applicable to specific graduate programs can be found in each Program Guidebook and student resources on the SCPS website (https://scps.depaul.edu/student-resources/graduate-resources/Pages/guidebooks.aspx).

Acceptable Grades
Grades of “A” through “C” are acceptable for registrations (courses or competencies) applied to SCPS graduate programs. Grades of “C-” or lower require re-registering and re-completing course/competence. “Pass/No Pass” is only applicable to specified program components as explicitly designated within each graduate program’s Curriculum Guidebook (https://scps.depaul.edu/student-resources/graduate-resources/Pages/guidebooks.aspx).

Combined Degree Programs
SCPS offers two combined Bachelor’s + Master’s degree programs that allow students across the university to complete 12 graduate credit hours while completing their undergraduate programs at the undergraduate tuition rate. These 12 graduate credit hours will count towards both the undergraduate and graduate degree programs. Combined degree program students are also eligible for DePaul’s Double Demon Scholarship which provides a 25% reduction in the graduate tuition rate.

- MA in Applied Professional Studies (p. 121)
- MA in Educating Adults (p. 357)

Double Demon Scholarship
Alumni from any of DePaul’s colleges who are admitted into any graduate degree program at the university automatically qualify for the Double Demon Scholarship which provides a 25% reduction in the graduate tuition rate. Combined degree program students are eligible. Both full-time and part-time students are eligible. No scholarship application is required.

Cumulative GPA
SCPS graduate programs require a cumulative GPA of no less than 3.0 to remain in good standing and at the point of graduation in order to complete the respective degree and enable degree conferral.

Earning a Second School of Continuing and Professional Studies Graduate Degree
Alumni from any SCPS graduate program (MAAPS, MAEA or MSAT) may apply to a second different SCPS graduate degree, provided the first program is completed. Concurrent matriculation in two degree programs is not permitted. Those who wish to pursue a second degree are required to follow the second program’s admission process. Students admitted to the second program may apply up to 18 credit hours of graduate liberal learning seminars, previously completed within the first program, in partial fulfillment of the second program’s requirements, provided no more than 10 years has lapsed between the seminar’s completion quarter and the quarter in which the second degree is conferred. Application of credit hours and degree requirements into a third SCPS graduate program is prohibited.

Graduation Steps
A detailed list of Graduation Steps is provided for all SCPS graduating graduate students on the SCPS website (https://scps.depaul.edu/student-resources/graduate-resources/Pages/graduation-information.aspx).

Probation (Special Review) & Dismissal
Students whose performance jeopardizes their satisfactory academic progress as outlined in program materials are subject to being placed on “special review status” (academic probation) by the Graduate Student Program Review Committee (GSPRC). In such cases, the student’s Faculty Mentor develops a draft of the concerns and conditions for review. Upon GSPRC deliberation and decision, the GSPRC Chair prepares and distributes the special-review letter outlining issues/concerns as well as conditions/deadlines that need to be met for Special Review Status to be lifted. The Faculty Mentor monitors the student’s progress in meeting the conditions of the special review/probation.

Failure to comply with any of the terms of “special review” will result in academic dismissal from the applicable graduate program. A student who has been dismissed for academic/special-review reasons may, after a period of time not less than two quarters, reapply for readmission.

Readmission
After three consecutive quarters, excluding summer, of no registration activity (no credit hours or the minimal Continuing Activity Status), the University deems graduate students to be discontinued. Once discontinued, graduate students wishing to resume their graduate studies are required to reapply for admission to their respective graduate programs and, upon readmission, proceed in accordance with program specifications in place from that point forward, as well as any special directives provided at the point of readmission. These contingencies of reapplication / readmission also apply to graduate students who are not able to complete their graduate programs within the allotted six years from point of first enrollment.

Six-Year Time Limit
All graduate degree requirements must be satisfied within six years commencing with the term of initial enrollment. Students who fail to complete their graduate program/certificate requirements within the six-year limit must reapply and be readmitted. In such cases, readmission may require students to re-enroll and re-complete portions of their respective program/certificate in order to ensure currency of the knowledge-base/skill-base.

Transfer Coursework
Up to eight credit hours of graduate study may be “transferred” from other programs/universities in partial fulfillment of approved portions of SCPS’s graduate programs’ requirements. Such coursework must have received a grade of “C” or better, been from an regionally-accredited university, and been completed no longer than six years prior to SCPS graduate degree conferral.

Admission & Aid
The School of Continuing and Professional Studies offers both undergraduate and graduate degree programs and certificates at the graduate level.

Admission & Aid
The School of Continuing and Professional Studies offers both undergraduate and graduate degree programs and certificates at the graduate level.

Undergraduate Admission
Candidates interested in admission to the School of Continuing and Professional Studies should direct all inquiries to the:
Office of Admission
Applicants must have a GPA of 2.0 from the last school attended. This requirement may be waived for a transcript more than three years old.

See further information and online application here (https://scps.depaul.edu/admission-and-aid/undergraduate/Pages/default.aspx).

Information on applying for financial aid is available here (http://www.depaul.edu/admission-and-aid/financial-aid/Pages/default.aspx).

DePaul Students and Combined Degree Programs
Undergraduate students from any major at DePaul University are eligible to apply for admission in one of the two combined degree programs. Admission is conditional until the conferred bachelor’s degree is posted on the DePaul transcript. The M.A. programs in Applied Professional Studies and Educating Adults offer an accelerated master’s degree that begins in an undergraduate’s senior year and may be completed in one subsequent year. Further information about these combined degree programs can be found within specific program descriptions in this Catalog and on the College website (https://scps.depaul.edu/academics/Pages/combined-degree-programs.aspx).

Graduate Admission
The following process and components apply to all of the School of Continuing and Professional Studies (SCPS) graduate programs and certificates. See application and further information here (https://scps.depaul.edu/academics/graduate/programs/Pages/default.aspx). (http://snl.depaul.edu/admission-and-aid/graduate/Pages/default.aspx)

Application Steps
1. Application and Required Materials
Applicant submits required application materials including:

- a completed Application form and Application fee;¹
- a current resume;
- an Application Essay (writing sample) that addresses key questions pertinent to assessing the “fit” of the particular program to the student and vice versa; and,
- official, sealed transcripts documenting all prior college/university coursework including demonstration of a completed undergraduate degree from a regionally accredited institution. A cumulative GPA of 3.0 is required for all prior coursework.

¹ The application fee is waived for DePaul alumni.
² Application Essay is waived for certificate applicants.

2. Interview
Upon initial review of application materials, a representative of the SCPS Graduate Admissions Committee invites qualified applicants to an admissions interview. The purpose of this interview is to enable both the particular program and the applicant to further ascertain the match or alignment between what the particular graduate program/certificate offers and what the applicant is seeking in terms of his/her graduate-learning or certificate-learning experience.

3. Review
Information gleaned from each applicant’s materials and interview is reviewed and assessed by the SCPS Graduate Admissions Committee in accordance with the particular program’s admission considerations. See admissions considerations below.

4. Decision
An admission decision is rendered and communicated to the applicant in writing. As necessary, SCPS Graduate Programs reserve the right to admit particular applicants conditionally. In such cases, the terms (conditions and timeline) of the conditional status are noted in the student’s acceptance letter. Failure to satisfactorily adhere to or fulfill these terms may result in academic dismissal/withdrawal from the particular program.

Admission Considerations
The following areas are considered in making admission decisions:

- applicant’s professional background including, for MAAPS program applicants, his/her possession of at least three years of direct or interrelated experience, or equivalent, relevant to the particular SCPS graduate program/certificate under consideration;
- applicant’s possession of a practice-site (worksire or relevant application setting in which to apply learning from the particular SCPS graduate/certificate program) is preferred;
- applicant’s educational goals/objectives and the congruence between those goals and the graduate/certificate program under consideration;
- applicant’s learning values and skills (willingness and ability to conduct self-managed/independent learning; participate positively in peer-group learning; engage in self-assessment; engage in reflection to increase understanding and improve practice; and, organize areas of knowledge and skill into themes and describe evidence in support of such)
- applicant’s undergraduate cumulative GPA of no less than 3.0.

NOTE: The School of Continuing and Professional Studies/DePaul University considers students on the basis of individual merit and without regard to race, color, religion, gender, sexual orientation, age, national or ethnic origin, handicap, or other factors irrelevant to participation in its programs.

Admission Status
Students are to matriculate in the quarter for which they are admitted. Students failing to do so (and who later wish to start) are responsible to update their admissions materials and, if necessary—depending on changes to those materials—reapply. The Graduate Programs Office maintains an admission file/status for one year from the date of admission.

After three consecutive quarters, excluding summer, of no registration activity (no credit hours or the minimal Continuing Activity Status), the University deems graduate students to be discontinued. Once discontinued, graduate students wishing to resume their graduate studies are required to reapply for admission to their respective graduate programs and, upon readmission, proceed in accordance with program specifications in place from that point forward, as well as any special directives provided at the point of readmission. These contingencies of reapplication / readmission also apply to graduate students who are not able to complete their graduate programs within the allotted six years from point of first enrollment.
International Admission

In addition to the Admissions Requirements above, International Students must also submit the following:

- Proof of English Language Proficiency.
- English Proficiency Test. Applicants educated outside of the U.S., at an institution where English is not the primary language, must present proof of English proficiency to be considered for admission. DePaul University accepts the TOEFL, IELTS, or Pearson Test of English. Most scores are valid for two years only. Expired test scores will not be accepted.

The minimum scores considered for graduate admission to SCPS are:

- 80 on the iBT of the TOEFL with a minimum score of 17 on each section
- 550 on the paper-based TOEFL test
- 213 on the computer-based TOEFL test
- 6.5 on the IELTS test
- 53 on the Pearson Test of English

- Credential Evaluation. DePaul University requires that applicants educated outside of the U.S. submit official educational credentials and evaluation fee directly to one of the following companies:
  - One Earth International Credit Evaluation
  - Educational Credential Evaluators, Inc. (ECE)
  - Educational Perspectives (EP)

  Applicants must request a course-by-course evaluation. Please direct any questions about required credentials to the evaluation company. DePaul University will not accept evaluations from any evaluation company not listed here.

Upon admission, regarding student visa information, please click here (http://international.depaul.edu).

Scholarships and Financial Aid

SCPS has scholarship opportunities for undergraduate and graduate students. To be considered for SCPS scholarships, please apply at DePaul Scholarship Connect (https://depaul.academicworks.com/). Please complete the Free Application for Federal Student Aid (https://fafsa.ed.gov/) before applying for scholarships.

See also more information about financial aid (http://www.depaul.edu/admission-and-aid/financial-aid/Pages/default.aspx).

School of Music

The DePaul University School of Music prepares students to excel in a variety of professional careers. Located in one of the most vibrant musical cities in the world, the School of Music provides opportunities for students to study with working professionals who are committed to teaching excellence. In a supportive and collaborative atmosphere, students learn from distinguished faculty who are prominent conductors, composers, performers, recording engineers, teachers, and arts managers.

Through a highly selective admissions process, the School of Music selects undergraduate and graduate students for its seven undergraduate, four graduate programs, and two certificate programs. At DePaul, the faculty priority is on teaching, with a strong commitment to providing quality education. The School of Music embraces the diversity of Chicago’s urban society, and draws upon the resources of the city in all its programs. In keeping with DePaul’s Vincentian heritage, the School of Music is committed to service of others. We seek to enrich the lives of the members of the DePaul community and Chicago area through musical performances and outreach activities.

Three basic tenets are central to the School of Music’s mission: nurture, engage, and elevate. The School strives to nurture students in a healthy learning environment, engage students in meaningful learning experiences, and elevate students onto successful career paths.

**Academic Policies**

**Performance Awards**

All students who receive performance awards must participate in ensembles as needed. Failure to do so may result in the forfeiture of performance award dollars. Undergraduate performance awards are offered for a maximum of 12 quarters, except for music education majors (13 quarters) or double majors (15 quarters). Graduate performance awards are provided for a maximum of 6 quarters. Questions about the performance awards may be directed to Mr. Ross Beacraft, Director of Admission.

Curricular ensemble requirements may differ from performance award requirements. A student on a performance awards may be required to participate in ensembles different than or beyond their major's curricular requirements.

**Supplemental Transfer Credits**

Incoming Undergraduate Students: Transfer Credits

At the point of admission, non-music courses are reviewed and posted by the Transfer Credit Center. All music courses will be reviewed by the Associate Dean of Academic Affairs, and acceptable courses will be applied towards the degree program. The transfer of musicianship studies courses, i.e., theory, aural training and group piano are contingent upon proficiency examination results.

Current Undergraduate Students: Supplemental Transfer Credits

Once a student has enrolled at DePaul University School of Music, only liberal studies or elective courses are transferable; courses in the specialization are not. Students should consult the transfer website in order to determine the transferability and applicability of courses. If a current student wishes to transfer supplemental credits to DePaul from an institution not listed on the website, approval should be obtained from the Associate Dean of Academic Affairs prior to enrolling. After successfully completing the course(s) students must submit an official transcript to the Office of the University Registrar and notify the College Office. It is important to note that supplemental transfer credits cannot be taken during the last 60 quarter hours of a degree, in accordance with the DePaul University residency requirement.

**Academic Probation**

Students who fail to make meaningful progress towards their degree may be placed on academic probation. Furthermore, students who do not maintain a 2.0 grade point average may be placed on academic probation. Any student who is placed on probation will be notified in writing and should meet with the Associate Dean of Academic Affairs.

**Academic Dismissal**

Students who fail to meet the academic standards of the University or School of Music may be dismissed. Any student who is dismissed will be notified in writing and should meet with the Associate Dean of Academic Affairs. Conditions for dismissal and procedures for re-application are detailed in the University Student Handbook.

**Withdrawal**

Any student who wishes to permanently withdraw from the School of Music should first meet with their advisor and then the Associate Dean of Academic Affairs. If the student is receiving a performance award, they should also meet with the Director of Admissions. A student must submit a request for permanent withdrawal through Campus Connect. If a student withdraws in good standing, they may reapply within three quarters without re-auditioning or re-applying; if a student is away longer than three quarters, they must reapply and re-audition to the School of Music, and is subject to the requirements current at the time of their application.

Please refer to the School of Music Student Handbook for further information on policies and procedures.

**Honors Program**

Most students follow the Liberal Studies Program to meet their general education requirements. However, students accepted into the Honors Program fulfill general education requirements through an alternative set of courses. A student in the Honors Program pursuing a primary major in the School of Music follows the requirements below:

**Honors Core**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>LSP 110</td>
<td>DISCOVER CHICAGO (in Honors section)</td>
<td>4</td>
</tr>
<tr>
<td>HON 100</td>
<td>RHETORIC AND CRITICAL INQUIRY</td>
<td>4</td>
</tr>
<tr>
<td>HON 101</td>
<td>WORLD LITERATURE</td>
<td>4</td>
</tr>
<tr>
<td>HON 102</td>
<td>HISTORY IN GLOBAL CONTEXTS</td>
<td>4</td>
</tr>
<tr>
<td>HON 104</td>
<td>RELIGIOUS WORLDVIEWS AND ETHICAL PERSPECTIVES</td>
<td>4</td>
</tr>
<tr>
<td>HON 105</td>
<td>PHILOSOPHICAL INQUIRY</td>
<td>4</td>
</tr>
</tbody>
</table>

Select one of the following:

- HON 180 | DATA ANALYSIS AND STATISTICS (if indicated) | 4 |
- LSP 120 | QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I (per placement test) | 4 |
- HON 201 | STATES, MARKETS, AND SOCIETIES | 4 |
- HON 207 | TOPICS IN COGNITIVE STUDIES or HON 208 | 4 |
- TOPICS IN SOCIO-CULTURAL INQUIRY | 4 |

**Science Requirement**

- One course chosen from the university's Scientific Inquiry list.

Honors students in Music who do not have a calculus or statistics requirement for their major must complete HON 180, or LSP 120.

**Junior Seminar**

- HON 301

The Honors Program is committed to developing students' knowledge and cultural awareness so they may respect and learn from difference. Honors students meet the multicultural requirement by completing HON 301.

**Senior Capstone**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HON 350</td>
<td>HONORS SENIOR SEMINAR</td>
<td>4</td>

<tr>
<td>HON 351</td>
<td>HONORS SENIOR SEMINAR IN SERVICE LEARNING</td>
<td>4</td>
</tr>
<tr>
<td>HON 395</td>
<td>HONORS SENIOR THESIS</td>
<td>4</td>
</tr>
</tbody>
</table>

Students who choose to complete an Honors Senior Thesis must have their project approved at least one term prior to executing the project. To gain approval for a senior thesis, students must first complete an application, including a project proposal signed by a faculty advisor. In keeping with the interdisciplinary nature of the program, the thesis
should attempt to move outside the boundaries normally associated with one particular discipline and should be supervised by two readers from different academic fields. While the final product must be a substantial piece of work building on the student’s accumulated knowledge and new research, specific requirements for each thesis will depend on the nature of the project. See the Director or Associate Director for an application. Students may opt to also enroll in HON 300 (a two-credit elective) to receive dedicated guidance as they prepare the thesis project.

**Honors Approved Electives**
Most Music majors in the Honors Program are allotted one Honors Approved Elective, a 200-300 level course outside of Music, selected in consultation with an Honors advisor in order to fulfill an academic or professional goal. SRT, PAM, and Music Education majors do not have an Honors Approved Elective requirement.

**Major Field Adjustments**
In addition, participation in the University Honors Program may affect the requirements for a student’s major field. The following adjustments will occur:

**BA in Music majors:**
Honors students in the BA in Music program will have the following additions or changes to their Honors requirements:

- HON 180 (Honors BA Music students cannot replace this requirement with LSP 120, although they may be required to take the course as a prerequisite to HON 180.)
- Language Requirement: Honors BA in Music students complete three courses of intermediate or advanced language study. Students who meet the proficiency requirement by placing at the 200-level of a language may consult with an Honors advisor for an alternative 3-course option for fulfilling the language requirement.
- Science Requirement: In addition to the Scientific Inquiry course, Honors students pursuing a BA in Music will also complete HON 225 to fulfill the science requirement for the Honors Program.
- Fine Arts Elective: BA in Music students choose one applied performance or studio arts course outside of Music from the approved list.
- Honors Approved Electives: BA in Music students are allotted two 200-300 level electives outside of Music. These courses will be selected in consultation with an Honors advisor to fulfill academic or professional goals.
- BA in Music majors are required to fulfill the university’s Experiential Learning requirement.
- BA in Music majors are required to complete HON 205.

**Sound Recording Technology majors:**
Honors students in SRT have the following courses waived from the Honors curriculum because the requirements are fulfilled within the major:

- HON 180
- Scientific Inquiry
- Honors Approved Elective

**Performing Arts Management majors:**
PAM majors in Honors will have the following course substitutions:

- HON 180 will be replaced by MAT 130 or MAT 135
- Honors Approved Elective will be replaced by ECO 105

**Music Education majors:**
Music Education majors in Honors will have the following course substitutions:

- HON 105 will be replaced by LSE 380
- HON 207 or HON 208 will be replaced by SCU 207
- Honors Approved Elective will be replaced by PSC 120

**Grade Requirements**
A grade of C- or higher in HON 100 and HON 110 or HON 111 is required to remain in the Honors Program.

A grade of C- or higher is required to pass the following courses:
HON 100, HON 350, HON 351 and HON 395.

**Graduate Academics**
The School of Music is home to Undergraduate, Graduate and Certificate programs.

**School of Music Graduate Student Handbook**
In addition to the DePaul University Graduate Student Handbook, the School of Music Student Handbook includes rules and regulations for its graduate programs. Additional academic information and regulations applicable to our graduate programs appear in the School of Music Student Handbook.

Upon admission to a graduate program, a student is to follow the catalog requirements in effect at the time of entrance. A student who is readmitted or who changes their program or enrollment status is subject to the terms of the catalog in effect at the time of readmission or status change.

It is the responsibility of graduate students to know and meet both the general and particular regulations, procedures, policies, and deadlines set forth in this catalog and handbook.

**Overview of Graduate Program**

**Master of Music**
DePaul University School of Music offers a Master of Music degree in performance, composition, jazz studies, or music education. A minimum of 48 quarter hours are required for the degree, including courses in music history and theory, research, and the area of specialization. Graduate students are also required to pass a comprehensive examination and complete a final project, recital, or paper. Most students complete the program in two years or six quarters; however, music education students who enroll part-time while teaching may take classes throughout three summers and two intervening academic years.

**Certificate in Performance**
The Certificate in Performance is a highly selective, intensive course of study for students who have already earned a master’s degree in performance. A minimum of 36 quarter hours must be completed over two years. Certificate students enroll in applied lessons, ensembles, and other supporting music courses.

**Performance Awards**
All students who receive performance awards must participate in ensembles as needed. Failure to do so may result in the forfeiture of performance award dollars. Graduate performance awards are provided
for a maximum of 6 quarters. Only full-time students (6-8 credits per quarter) are eligible for performance awards. Questions about the performance awards may be directed to Mr. Ross Beacraft, Director of Admission.

Curricular ensemble requirements may differ from performance award requirements. A student on a performance awards may be required to participate in ensembles different than or beyond their major’s curricular requirements.

Academic Probation
Students who fail to make meaningful progress towards their degree may be placed on academic probation. Furthermore, students who do not maintain a 2.5 grade point average may be placed on academic probation. Any student who is placed on probation will be notified in writing and should meet with the Associate Dean of Academic Affairs. Generally, students are not allowed to remain on probation for more than 2 quarters without additional academic sanctions being applied.

Academic Dismissal
Students who fail to make meaningful progress towards their degree may be placed on academic probation. Furthermore, students who do not maintain a 2.5 grade point average may be placed on academic probation. Any student who is placed on probation will be notified in writing and should meet with the Associate Dean of Academic Affairs. Generally, students are not allowed to remain on probation for more than 2 quarters without additional academic sanctions being applied.

Withdrawal and Re-Application
Any student who wishes to permanently withdraw from the School of Music should first meet with their advisor and then the Associate Dean of Academic Affairs. If the student is receiving a performance award, they should also meet with the Director of Admissions. A student must submit a request for permanent withdrawal through Campus Connect. If a student permanently withdraws in good standing, then they may reapply within three quarters without additional academic sanctions being applied. If a student permanently withdraws in good standing, then they may reapply within three quarters without re-auditioning or re-applying; if a student is away longer than three quarters, then they must reapply and re-audition to the School of Music, and is subject to the requirements current at the time of their application.

Enrollment and Credits
No one is permitted to attend a class for which they have not been properly registered. Credit is accumulated on the basis of quarter hours. The unit of credit is one quarter hour granted for 45 minutes of classroom work a week. The normal class extends over a ten-week period (or an accelerated five-week period in the summer). All courses carry four quarter hours of credit (2 2/3 semester hours), unless otherwise noted.

Graduate music students enrolled for six or more quarter hours of credit are considered full-time. Those registered for less than 6 quarter hours of credit are considered less than half-time.

Graduate courses are numbered as 400 level courses. Graduate students must enroll for 400 level courses.

Transfer Credits
No transfer credits are accepted toward the Masters of Music or Certificate of Performance programs. All course work must be completed at DePaul University School of Music.

Graduation Requirements
Students must have successfully completed all of the general and specific degree requirements as listed in departmental or program sections of the catalog under which they were admitted. Completed degree requirements include passing the comprehensive examination and the submission of a final project, such as research paper, composition, or recital. Students need to achieve a minimum grade point average of 2.5 to graduate.

The University confers degrees at the end of the quarters, in November, March, June, or August; commencement ceremonies occur only in June. A student may participate in the June commencement ceremony if the student completes the requirements in the fall, winter or spring quarters preceding the ceremony. An application for degree completion must be filed online by the appropriate deadline.

In addition to submitting a graduation application, all graduating students must meet with the Assistant Director of Advising for a pre-graduation check. Failure to do so may jeopardize the granting of a student’s degree. Students will be listed in the commencement book based upon their applications—degrees will not be conferred until all requirements are complete.

At the conclusion of their last quarter, a review of the students’ transcripts takes place; upon successful completion of the degree requirements, students’ names are released to the Office of the University Registrar with the appropriate honors designations. An additional review takes place to ensure that all financial obligations have been met. Once complete, transcripts with the degree posted are available through the Office of the University Registrar, and diplomas are mailed to students. To receive a diploma, it is essential that students update their addresses in Campus Connection. The distribution of diplomas or release of final transcripts will be withheld if money is owed to the University.

Graduation with Distinction
Graduation with distinction is awarded for students who earn 3.75 GPA or above.

Career Services
Career Services at DePaul School of Music provides information and resources for School of Music students and alumni on various music and arts related job opportunities. Students are encouraged to visit the Career Services website (http://music.depaul.edu/resources/career-services/Default.aspx).

Admission & Aid
Undergraduate Admission
Admission as a degree-seeking student in the School of Music is contingent upon a superior high school record, successful completion of a performance audition and submission of degree specific required materials for all majors except the non-performance track of Sound Recording Technology and the Bachelor of Science in Performing Arts Management. Admission to these two majors is contingent upon a superior high school record, successful completing of a theory exam and submission of degree specific required materials. Entering freshman and transfer applicants are required to audition or submit their materials before March 4 for admission the following September and may be required to submit a pre-audition screening recording. Transfer students are required to validate credits earned in musicianship studies (theory, music history and literature, aural skills, and keyboard) through placement examinations prior to initial registration.

All BM applicants and BS applicants pursuing the performance track are required to audition and are encouraged to schedule their dates and times after October 15 for auditions to be held in February. For audition
requirements and a list of scheduled audition dates, please visit our website (http://music.depaul.edu/) or contact the:

Office of Music Admissions
musicadmissions@depaul.edu
DePaul University School of Music
804 West Belden Avenue
Chicago, IL 60614,
or call (773) 325-7444.

Scholarship Opportunities

Undergraduate
Incoming freshmen majoring in music are automatically considered for The School of Music Award at the time of their entrance audition or material review. The number and amount of these music awards vary each year. Please contact the School of Music for further information.

Graduate
Incoming graduate performance and jazz studies majors are automatically considered for graduate music performance awards based on the results of their auditions. Graduate composition and jazz studies major awards will be based on the results of their interviews and the quality of their portfolios. Music education majors’ awards will be based on their applications and interviews.

Financial Aid
Students may apply for financial assistance based on family need through the Office of Financial Aid, DePaul University.

Graduate Admission

Procedures for Admission
Applicants for graduate admission should submit an application online at http://www.depaul.edu/ (https://www.depaul.edu/apply/Pages/default.aspx). The application deadline is December 1. Applicants should submit official college transcripts and three letters of recommendation to support their application. Applicants to the master’s degree program for performance and jazz studies must take an entrance audition, usually held in February of each year. Some applicants may be required to submit a pre-audition screening recording. Audition requirements are specified on the School of Music website (https://music.depaul.edu/admission/auditions/Pages/default.aspx). Applicants to the master’s degree program for music education must interview with the Music Education Department. Applicants to the master’s degree program for composition must submit a composition portfolio of three pieces and must complete an interview with the composition faculty. When admission has been approved, the applicant will be notified of the diagnostic examination schedule and new student orientation, which usually take place before the start of the academic year.

Certificate in Performance
The School of Music also offers a program leading to the Certificate in Performance. The Certificate in Performance is a post-master’s program for classical or jazz musicians who intend to pursue careers as professional performers. Applicants should submit an application online at http://www.depaul.edu/ (https://www.depaul.edu/apply/Pages/default.aspx). The application deadline is December 1. Applicants should submit official college transcripts and three letters of recommendation to support their application. Applicants must take an entrance audition, usually held in February of each year. Some applicants may be required to submit a pre-audition screening recording. Audition requirements are specified on the School of Music website (https://music.depaul.edu/admission/auditions/Pages/default.aspx).

Non-Degree Seeking Students
DePaul School of Music does not normally admit applicants as non-degree seeking students. A student who has earned a bachelor's degree or its equivalent from an accredited institution and does not intend to work for a master’s degree may, on the written recommendation of the Associate Dean of Academic Affairs, be admitted as a non-degree seeking student. Only the first 12 quarter hours earned as a non-degree seeking student at DePaul may subsequently be applied toward a degree when the student is accepted as a degree-seeking student.

Student-At-Large
A student completing a graduate program at another accredited institution may, on the written recommendation of the Associate Dean of Academic Affairs, be admitted as a student-at-large.

International Students
All international students and any student who has been educated outside of the United States should complete the application requirements for their desired program (see above), submit their educational credentials to a third-party organization for evaluation, and demonstrate a proficiency in English. The application deadline is December 1. Please visit the School of Music website (https://music.depaul.edu/admission/application-process/Pages/international-students.aspx) for further information on applying to DePaul School of Music as an international graduate student.

To demonstrate English proficiency, international graduate music students must pass a TOEFL examination with a written score of 550 or an internet-based score of 80, with no section lower than 17. If a student has met all other music admissions criteria and taken a TOEFL examination, but not yet achieved a passing score, they may be considered for admission to the joint English Language Academy-School of Music program. (For further information on this program, students should contact the School of Music Admissions Office.) Those who request student visas also must show evidence of adequate financial support. A formal letter of admission and/or form 1-20 will be issued only after all admission requirements have been fulfilled.

Diagnostic Examinations
Students who have been admitted to the master's degree program for composition, performance, and music education must take a diagnostic examination in musicianship studies. These examinations, taken during new student orientation, will be used to guide course placement and identify areas for additional studies.

Music Teacher Licensure Program

Admission Requirements
Applicants to the DePaul music teacher licensure program must meet the following standards:

- Undergraduate degree in music
- Grade Point Average of 3.0 or higher
- Recommendations from two individuals familiar with the candidate’s potential as a teacher
- Materials required by Admission
- Performance audition

Program of Study
All teacher licensure students must meet the core requirements of the undergraduate students in music education. Teacher licensure students take courses in four basic areas: music, liberal studies, music education,
and education. A transcript review will be done by the music education department, to determine any deficiencies in any of these areas of study. Substitutions will be determined by the Associate Dean for Academic Affairs where appropriate.

Music Courses
- Applied music study (2 years)
- Musicianship/music theory and history (2 years)
- Aural training (2 years)
- Keyboard skills (2 years)
- Conducting (1 course)
- Music Traditions (world music and jazz)
- Ensemble (4 years)

Liberal Studies
- Writing (8 credits)
- Math (4)
- Science, lab or quantitative (4)
- American government (4)
- American history (4)

The Theatre School

The Theatre School is the Midwest’s oldest theatre conservatory. Founded as the Goodman School of Drama in 1925, the school carries on an 87-year history as a leading drama school in the United States. The conservatory format provides for an intensive, highly disciplined training program. The central core of the program is an extensive production-oriented approach. The School produces more than 150 public performances each season for an audience of more than 50,000 people, featuring students in every aspect of the production. Programs of study are offered in acting, scene design, costume design, lighting design, sound design, theatre technology, costume technology, stage management, playwriting, dramaturgy/criticism, theatre management, and theatre arts. Graduate programs are offered in acting, directing and arts leadership. The objectives of the professional curricula are to prepare the student for creative participation in any form of theatre requiring a high level of technical competence, to provide the student with the aesthetic and cultural background requisite to an understanding of his/her art and of the world in which he/she works, and to develop the specific skills and disciplines necessary for competence in the student’s area of specialization. Theatre School students are not eligible for the Theatre Studies Minor.

Each Theatre School course builds and expands upon its predecessor. When the program is complete, the student will have been exposed to the necessary artistic tools and shown their proper usage in order to realize his or her goals. In addition, liberal education requirements are incorporated into all of the school’s programs so that the student may
practice his/her craft with an awareness of history, literature, philosophy, and current and past cultural and social events.

Advanced students in the Theatre Studies and Design and Technical programs enhance their training experience by completing internships at local and national organizations. Internships have been conducted at the Brooklyn Academy of Music, Metropolitan Opera, Seattle Opera, Goodman Theatre, Guthrie Theatre, Arena Stage, Playwrights Horizons, the David Letterman Show, Chicago Shakespeare Theater, Disney Theatricals, Alabama Shakespeare Festival, Fox Theatricals, Oregon Shakespeare Festival, Berkshire Theatre Festival, The Second City, and Steppenwolf Theatre Company, among numerous others.

Faculty and Staff
In keeping with the school’s concept of the dual importance of theory and practice and of producing a superior quality of instruction, The Theatre School’s faculty and staff are highly qualified, both professionally and academically. The faculty is regularly supplemented by accomplished working professionals.

In addition, visiting artists and professionals appear in our guest speaker series, CHICAGO LIVE: THE ARTS. Among them have been playwright David Mamet; actresses Celeste Holm, Florence Henderson, and Julie Harris; actors Rip Torn, Charles Durning, Ray Liotta, Jonathan Pryce, Brian Dennehy, and Laurence Fishburne; Chicago’s nationally known Steppenwolf Ensemble including John Malkovich, Jeff Perry, and Gary Sinise; the late comedian Avery Schrieber; director JoAnne Akalaitis, Anne Bogart, Frank Galati, and Paul Sills; and alumni Gillian Anderson, Joe Mantegna, John C. Reilly, and Kevin Anderson, among scores of others.

The Theatre School is home to undergraduate majors and minors and graduate programs.

Students in undergraduate programs at The Theatre School must achieve a grade of C- or better in major requirements to receive course credit. Any grade lower than a C- will require the student to repeat the course.

Students in the graduate programs must achieve a grade of C or better in major requirements to receive course credit. Any grade lower than a C will require the student to repeat the course. If a graduate student is taking an undergraduate level course, to fulfill a major requirement, the student must receive a B- or better to receive course credit.

**Admission and Retention**
The Theatre School only admits students for entry into Autumn quarter each year. Enrollment in each area of concentration is limited by strict capacities. In all of The Theatre School’s programs, students are evaluated annually by the faculty and formally invited to continue into the subsequent year. The evaluation, a professional and confidential process, is based on four key elements: discipline, collaboration, professional potential, and progress in the program.

**Honors Program**
Most students follow the Liberal Studies Program (https://www.depaul.edu/university-catalog/undergraduate-core/liberal-studies-program/Pages/default.aspx) to meet their general education requirements. However, students accepted into the Honors Program (https://www.depaul.edu/university-catalog/undergraduate-core/honors-program/Pages/default.aspx) fulfill general education requirements through an alternative set of courses. A student in the Honors Program pursuing a primary major in The Theatre School follows the requirements below.

**Honors Core**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>LSP 110</td>
<td>DISCOVER CHICAGO</td>
<td>4</td>
</tr>
<tr>
<td>HON 100</td>
<td>RHETORIC AND CRITICAL INQUIRY</td>
<td>4</td>
</tr>
<tr>
<td>HON 102</td>
<td>HISTORY IN GLOBAL CONTEXTS</td>
<td>4</td>
</tr>
<tr>
<td>HON 104</td>
<td>RELIGIOUS WORLDVIEWS AND ETHICAL PERSPECTIVES</td>
<td>4</td>
</tr>
<tr>
<td>HON 105</td>
<td>PHILOSOPHICAL INQUIRY</td>
<td>4</td>
</tr>
<tr>
<td>HON 180</td>
<td>DATA ANALYSIS AND STATISTICS</td>
<td>4</td>
</tr>
<tr>
<td>or LSP 120</td>
<td>QUANTITATIVE REASONING &amp; TECHNOLOGICAL LITERACY I</td>
<td>4</td>
</tr>
<tr>
<td>HON 201</td>
<td>STATES, MARKETS, AND SOCIETIES</td>
<td>4</td>
</tr>
<tr>
<td>or HON 208</td>
<td>TOPICS IN SOCIO-CULTURAL INQUIRY</td>
<td></td>
</tr>
</tbody>
</table>

Theatre majors whose math placement indicates a need for LSP 120 may fulfill the Honors math requirement with this course in place of HON 180.

Theatre Management majors do not take HON 180, and should take an honors approved elective in its place.

**Science Requirement**
- One course chosen from the university’s Scientific Inquiry list.

**Junior Seminar**
- HON 301

The Honors Program is committed to developing students’ knowledge and cultural awareness so they may respect and learn from difference. Honors students meet the multicultural requirement by completing HON 301.
**Senior Capstone**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HON 350</td>
<td>HONORS SENIOR SEMINAR</td>
<td></td>
</tr>
<tr>
<td>HON 351</td>
<td>HONORS SENIOR SEMINAR IN SERVICE LEARNING</td>
<td></td>
</tr>
<tr>
<td>HON 395</td>
<td>HONORS SENIOR THESIS</td>
<td></td>
</tr>
</tbody>
</table>

Select one of the following:

Students who choose to complete an Honors Senior Thesis must have their project approved at least one term prior to executing the project. To gain approval for a senior thesis, students must complete an application, including a project proposal signed by two faculty advisors. In keeping with the interdisciplinary nature of the program, the thesis should attempt to move outside the boundaries normally associated with one particular discipline and should be supervised by two readers from different academic fields. While the final product must be a substantial piece of work building on the student's accumulated knowledge and new research, specific requirements for each thesis will depend on the nature of the project. See the Director or Associate Director for an application and thesis materials. Students may opt to enroll in HON 300 (a two-credit elective) to receive dedicated guidance as they prepare the thesis project.

**Grade Requirements**

A grade of C- or higher in HON 100 and HON 110 or HON 111 is required to remain in the Honors Program.

A grade of C- or higher is required to pass the following courses: HON 100, HON 350, HON 351, and HON 395.

**Graduate Academics**

The Theatre School is home to undergraduate majors and minors and graduate programs.

Students in undergraduate programs at The Theatre School must achieve a grade of C- or better in major requirements to receive course credit. Any grade lower than a C- will require the student to repeat the course.

Students in the graduate programs must achieve a grade of C or better in major requirements to receive course credit. Any grade lower than a C will require the student to repeat the course. If a graduate student is taking an undergraduate level course, to fulfill a major requirement, the student must receive a B- or better to receive course credit.

**The Theatre School Graduate Student Handbook**

In addition to the DePaul University Graduate Student Handbook, The Theatre School Graduate Student Handbook includes requirements, rules and regulations for its graduate programs.

Upon admission to a graduate program, a student is to follow the catalog requirements in effect at the time of entrance. A student who is readmitted or who changes his or her program or enrollment status is subject to the terms of the catalog in effect at the time of readmission or status change.

As a graduate student you assume the responsibility to know and meet both the general and particular regulations, procedures, policies, and deadlines set forth in this catalog and handbook. This catalog does not constitute a contract between the student and the University. Every effort has been made to provide accurate and firm information. The University reserves the right to revise the content of its catalogs and schedules, and to change policies, programs, requirements, rules, regulations, procedures, calendars and schedule of tuition and fees; to establish and modify admission and registration criteria; to cancel or change courses or programs and their content and prerequisites; to limit and restrict enrollment; to cancel, divide or change time or location or staffing of classes; or to make any other necessary changes.

**Registration and Enrollment**

No one is permitted to attend a class for which he or she has not been properly registered. Credit is accumulated on the basis of quarter hours. The normal class extends over a ten-week period.

Students enrolled for eight or more quarter hours of credit are considered full-time. Those enrolled in four to 7 hours of credit are considered half-time. Those registered for less than 4 quarter hours of credit are considered less than half-time. Normally, students in Theatre School programs are required to be enrolled as full-time students.

**Probation**

**Academic Probation**

A student is subject to probation as soon as his/her graduate GPA falls below 2.500. The student remains on probation until the end of the subsequent quarter, at which time another evaluation is made. If, at that time, the student has failed to raise his/her GPA to the required level of 2.500 the student may be dismissed for poor scholarship, and prohibited from registering for additional course work. If the student has raised his/her GPA to the required level of 2.500, the student will be removed from academic probation.

**Disciplinary Probation**

The Theatre School's Disciplinary Probation Policy is detailed in The Theatre School Student Handbook on the school's website.

**Professional Probation**

The Theatre School's Professional Probation Policy is detailed in The Theatre School Student Handbook on the school's website.

**Invitation to Return & Evaluation Policies**

A grade of C or better is required in all required courses.

A student must earn a grade of B- or higher to receive graduate credit for any upper level undergraduate course (300 or above) that has been accepted for graduate credit.

Please consult The Theatre School Student Handbook on the school's website for details on the following:

- MFA Acting Program Capacities and Invitations to Return
- MFA I Grading Procedures for the Acting Program
- MFA Directing Program Evaluation and Continuance Policies
- MFA Arts Leadership Evaluation and Continuance Policies
- Invitations to Return for all Programs
- Invitations to Return Appeal Process

**Readmission**

A student who was previously enrolled in a graduate program in The Theatre School but has not been in attendance since the end of a leave of absence, but not more than four calendar years, must file a Readmission Application. Normally, this application requires that the student take part in the annual interview and audition process and meet the annual application deadlines. Detailed information is available on the school's website. (If more than four years have elapsed since the student been in attendance, a new application is required.)
Official copies of transcripts recording scholastic work taken while not enrolled at DePaul University must be submitted. As a policy, students are held to the degree requirements that are in force at the time of readmission.

Transfer Credit
Normally graduate programs at The Theatre School do not accept credit transferred from another institution. Exceptions can only be granted by the specific departmental chair or program director.

Undergraduate Courses
Courses numbered 300 through 399 are advanced undergraduate courses. If listed in this Catalog, they may be accepted for graduate credit within the limitations stipulated by the specific departmental chair or program director.

Graduation Requirements
Students must have successfully completed all of the general and specific degree requirements as listed in departmental or program sections of the catalog under which the student was admitted.

Completed degree requirements can include the submitting of the dissertation, thesis or research paper, examination scores, and, if necessary, grade changes. Students need to achieve a minimum grade point average of 2.500 to graduate.

Graduation with Distinction
Distinction is conferred upon a student who has maintained a 3.75 cumulative grade point average in the degree program, and passes with distinction the final oral or written examination or the master's thesis or project where applicable.

Additional Policies
The Theatre School Student Handbook located on the Theatre School website details additional policies, including (but not limited to) policies related the productions, production assignments, casting, and rehearsal procedures.

Leaves of Absence
Students who find it necessary to interrupt their attendance at The Theatre School may apply for a leave of absence. For details about this policy, please consult The Theatre School Student Handbook on the school's website.

Students applying for a leave should also complete the DePaul University Leave of Absence application on Campus Connect.

Admission & Aid
Admission
Candidates interested in admission to any of the undergraduate or graduate programs of The Theatre School should contact The Theatre School Admissions Office at (773) 325-7999 or (800) 4DEPAUL (Extension 7999). The office will provide each candidate with detailed instructions for the application and audition/interview process.

Theatre applicants are responsible for scheduling their own audition (for acting) or interview (for all other majors), which can be done on The Theatre School’s website. If, for any reason, an applicant is unable to reserve a slot online, he or she should contact The Theatre School Admissions Office directly.

The Theatre School only admits students for entry into Autumn quarter each year. Enrollment in each area of concentration is limited by strict capacities. In all of The Theatre School's programs, students are evaluated annually by the faculty and formally invited to continue into the subsequent year. The evaluation, a professional and confidential process, is based on four key elements: discipline, collaboration, professional potential, and progress in the program. For more information about the School's policies about admission, retention, evaluations of students, invitations to return, and related matters, please see The Theatre School website.
STUDENT HANDBOOKS

- Undergraduate Student Handbook (p. 1347)

University Information

The Handbook provides University policies that support both academic and behavior expectations.

The University reserves the right to change programs, courses and requirements; and to modify, amend or revoke any rules, regulations, policies, procedures or financial schedules at any time during a student’s enrollment period provided.

In addition to the policies and information included in this Handbook, your college or school may have specific guidelines, policies, and procedures for which you are responsible. Please consult your college section.

The Handbook also includes sections on General Information and University Resources.

About DePaul

DePaul University was founded in 1898, by the Congregation of the Mission (or Vincentian) religious community, which follows the teachings of 17th century French priest St. Vincent de Paul. The university’s mission emphasizes academic excellence, service to the community, access to education and respect for the individual.

University Officers

Executive Vice President

Rev. Edward R. Udovic, C.M., Ph.D.
Secretary of the University

DePaul University Mission

This mission statement embodies the principal purposes of DePaul University. As such it is the nexus between past, present and future; the criterion against which plans are formulated and major decisions made; the bond which unites faculty, students, staff, alumni, and trustees as an academic community. As a university, DePaul pursues the preservation, enrichment, and transmission of knowledge and culture across a broad scope of academic disciplines. It treasures its deep roots in the wisdom nourished in Catholic universities from medieval times. The principal distinguishing marks of the university are its Catholic, Vincentian, and urban character.

Central Purposes

DePaul, in common with all universities, is dedicated to teaching, research, and public service. However, in pursuing its own distinctive purposes, among these three fundamental responsibilities this university places highest priority on programs of instruction and learning. All curricula emphasize skills and attitudes that educate students to be lifelong, independent learners. DePaul provides sufficient diversity in curricular offerings, personal advisement, student services, and extracurricular activities to serve students who vary in age, ability, experience, and career interests. Full-time and part-time students are accorded equivalent service and are held to the same academic standards.

As a comprehensive university, DePaul offers degree programs at the undergraduate and graduate levels and a range of professional programs. The liberal arts and sciences are recognized not only for their intrinsic value in undergraduate and graduate degree programs, but also because they are foundational for all specialized undergraduate programs and supportive of all advanced professional programs. The university maintains that depth of scholarship to offer the doctorate in selected academic disciplines. Libraries, computer resources, and other academic support services match the levels and diversity of degree programs.

Research is supported both for its intrinsic merit and for the practical benefits it offers to faculty, students, and society. Broadly conceived, research at the university entails not only the discovery and dissemination of new knowledge but also the creation and interpretation of artistic works, application of expertise to enduring societal issues, and development of methodologies that improve inquiry, teaching and professional practice.

In meeting its public service responsibility, the university encourages faculty, staff and students to apply specialized expertise in ways that contribute to the societal, economic, cultural and ethical quality of life in the metropolitan area and beyond. When appropriate, DePaul develops service partnerships with other institutions and agencies.

Students and Faculty

DePaul invites to its programs of study students from across the nation. Originally founded for students from the greater Chicago area, and still serving them predominantly, DePaul continues its commitment to the education of first generation college students, especially those from the diverse cultural and ethnic groups in the metropolitan area. Admission standards for all degree programs are selective or highly selective. In admitting students the university places greatest weight on intellectual potential and academic achievement. It seeks diversity in students’ special talents, qualities, interests, and socio-economic background.

DePaul University seeks to manage its resources effectively so as to control the costs it charges students for programs and services. Moreover, it makes available as much financial aid as possible to assure access to a broad range of talented students. The university identifies and offers special assistance to students of high potential who have been
handicapped by educational, personal or societal obstacles beyond their control.

From its first charter DePaul has supported a philosophy which now is expressed as being an equal opportunity educator and employer. DePaul continues to provide equal opportunities to students and employees without regard to age, national origin, race, sex, handicap, creed or color. Moreover, it strives to recruit faculty and staff who reflect the diverse mix of the student body.

The faculty, learned yet learning, gives substance to the mission of the university. These men and women personify the intrinsic value of scholarly inquiry and the force of creative and intellectual efforts. Through their dedication to learning, their contributions to a personalistic environment, and their faith in the potential of their students, the faculty and staff serve as role models for students.

**Distinguishing Marks**

By reason of its Catholic character, DePaul strives to bring the light of Catholic faith and the treasures of knowledge into a mutually challenging and supportive relationship. It accepts as its corporate responsibility to remain faithful to the Catholic message drawn from authentic religious sources both traditional and contemporary. In particular, it encourages theological learning and scholarship; in all academic disciplines it endorses critical moral thinking and scholarship founded on moral principles which embody religious values and the highest ideals of our society.

On the personal level, DePaul respects the religiously pluralistic composition of its members and endorses the interplay of diverse value systems beneficial to intellectual inquiry. Academic freedom is guaranteed both as an integral part of the university's scholarly and religious heritage, and as an essential condition of effective inquiry and instruction.

The university derives its title and fundamental mission from St. Vincent de Paul, the founder of the Congregation of the Mission, a Roman Catholic religious community whose members, Vincentians, established and continue to sponsor DePaul. Motivated by the example of St. Vincent, who instilled a love of God by leading his contemporaries in serving urgent human needs, the DePaul community is above all characterized by ennobling the God-given dignity of each person. This religious personalism is manifested by the members of the DePaul community in a sensitivity to and care for the needs of each other and of those served, with a special concern for the deprived members of society.

DePaul University emphasizes the development of a full range of human capabilities and appreciation of higher education as a means to engage cultural, social, religious, and ethical values in service to others.

**Painted Image**

Academic calendars are available on the Academic Affairs website (https://academics.depaul.edu/calendar/Pages/default.aspx).

**Admission**

Admission decisions at DePaul University are based on a strong academic record, as well as personal and occupational achievements, ambition, energy, resourcefulness and leadership. The University recognizes that each individual brings unique abilities to the DePaul community and performs a holistic review of a student's application. DePaul University does not discriminate on the basis of race, color, national origin, religion, gender, sexual orientation, age or handicap in admissions, employment, or the provision of services.

Types of admission include:

- **Freshman Student**: You are under age 24 and have completed at least six semesters of high school, and have not enrolled in another college or university.

- **Transfer Student**: You are under age 24, have graduated high school or passed the General Education Development (GED) exam and are interested in a graduate degree program, or are taking graduate courses (non-degree or as a student-at-large).

- **Graduate Student**: You have an undergraduate degree and are applying for a graduate degree program, or are taking graduate courses (non-degree or as a student-at-large).

- **Adult Undergraduate Student**: You are age 24 or over and have graduated high school or passed the General Education Development (GED) exam and are interested in an undergraduate degree.

- **International Student**: You have been educated outside of the United States and will submit international educational credentials as part of your application, and/or you are or will be in F-1 or J-1 visa status.

- **Non-Degree Student**: You are a college graduate interested in taking undergraduate courses for credit and not pursuing a degree at DePaul (i.e.: for graduate school preparation, career advancement, or personal enrichment).

- **Visiting Student**: You are a high school student or a student in good standing at another college or university who plans to complete classes...
at DePaul to transfer back to your home institution and not pursue an undergraduate degree at DePaul.

Readmitted Student: You are a former DePaul student previously enrolled in an undergraduate degree program who has been absent from the university for three or more consecutive quarters (excluding summer sessions) or has previously withdrawn from the university.

Continuing Education Student: You are interested in taking courses without receiving college credit or in participating in one of our continuing education or professional review courses.

More information is available on the Admission website (http://www.depaul.edu/admission-and-aid/Pages/default.aspx).

Schools and Colleges

Driehaus College of Business

Established in 1912, the Driehaus College of Business is the nation’s tenth oldest business school and serves individuals and organizations seeking access to the highest quality business education as a means for achieving intellectual and professional goals. The College also encompasses our highly respected graduate programs in business.

The Kellstadt Graduate School of Business prepares students to be leaders by frequently updating its programs to keep pace with the dynamics of global business.

College of Communication

The College of Communication provides students with a combination of timeless principles and up-to-the-minute tools, whether they’re pursuing journalism; public relations and advertising; media studies; radio, television and film; relational, group and organizational communication; or intercultural communication.

College of Computing and Digital Media

The College of Computing and Digital Media (CDM) offers students a collaborative education where technology, artistry and business intersect. CDM is organized into three schools:

- The School of Cinematic Arts is home to our animation and cinema programs, which merge creativity, technology, imagination, technique, vision and execution.
- The School of Computing houses programs across the technology spectrum, and combines theoretical fundamentals with hands-on practice.
- The School of Design – CDM’s newest school – is home to programs in graphic design, interactive and social media, game development, human computer interaction, and digital communication and media arts.

College of Education

The College of Education offers degree programs in bilingual/bicultural education; counseling; curriculum studies; early childhood education; educational leadership; elementary education; middle school mathematics education; reading specialist education; secondary education; social and cultural foundations of education; special education; sport, fitness and recreation leadership; and world language education.

College of Law

The DePaul College of Law was one of the first law schools in the country to introduce educational innovations like the study of negotiation techniques, courses in international criminal law and pre-trial courses in skills techniques. Today, our health law and intellectual property programs are among the best in the country, according to U.S. News & World Report.

College of Liberal Arts and Social Sciences

The oldest college at DePaul, the College of Liberal Arts and Social Sciences (LAS) offers more than 28 undergraduate and 30 graduate degree programs. Courses meet during the day, evenings and on weekends, primarily on the Lincoln Park Campus.

College of Science and Health

The College of Science and Health (CSH) was established in 2011 to help its students meet the demands of the growing fields of science and health. CSH offers multiple undergraduate majors and graduate programs in the areas of biology, chemistry, environmental science, mathematics, nursing, physics and psychology.

School of Music

DePaul’s School of Music was founded in 1912 and is dedicated to excellence in both music teaching and performance. When they’re not working with DePaul students, many of the school’s faculty serve as members of the Chicago Symphony Orchestra, Lyric Opera of Chicago, or the Grant Park Symphony Orchestra, or as some of the city’s most prominent freelance, chamber and jazz musicians.

School of Continuing and Professional Studies (formerly The School for New Learning)

The School of Continuing and Professional Studies builds upon DePaul University’s recognized success in educating adult learners interested in a range of innovative and timely degree programs and non-degree continuing education opportunities. Its undergraduate and graduate degrees, offered on-campus, online, and in corporate settings, are particularly designed to accommodate adult learners who must balance claims of work, family, and/or community responsibilities with their educational pursuits.

The Theatre School

Founded in 1925 as the Goodman School of Drama, The Theatre School at DePaul is the Midwest’s oldest theatre training conservatory. Known for its highly structured program and set in a world-renowned theater city, the school has earned a reputation as a standard of excellence in American professional theatre training.

DePaul Campuses/Locations

Students of any school or college may register for classes on any campus, arranging hours and courses in a manner designed to afford maximum educational advantage.
Campuses

The Lincoln Park Campus is situated about three miles north of the Chicago Loop in the vicinity of Webster (2200 N), Halsted (800 W) and Racine (1200 W). The offices for the College of Liberal Arts and Social Sciences, the College of Science and Health, the School of Music, the College of Education, and The Theatre School are located on this campus.

The Loop Campus is located at 1 East Jackson Boulevard, between State, Jackson and Wabash. The offices for the Driehaus College of Business, the College of Computing and Digital Media, the College of Communication, the College of Law and the School of Continuing and Professional Studies are located on this campus.

Suburban Sites

Rosalind Franklin University of Medicine and Science is located 3333 Green Bay Road in North Chicago, Illinois. DePaul students have the option of taking the Master’s Entry in Nursing Practice (MENP) on the RFU campus.

Overseas Locations

Tangaza College located in Nairobi, Kenya.

Bahrain Institute of Banking and Finance located in Manama, Bahrain.

Academic Partnerships

DePaul University has entered into a variety of relationships with other educational institutions to provide enhanced learning opportunities for students.

American University in Paris

DePaul and The American University of Paris (AUP) are partnering to offer an innovative two-year program leading to an MBA from DePaul’s Kellstadt Graduate School of Business and a M.A. in Cross-cultural and Sustainable Business from AUP.

Catholic Theological Union

With permission, upper-level students in Catholic Studies and Religious Studies may elect to complete courses at the Catholic Theological Union.

Illinois Institute of Technology

Through a five-year joint program between DePaul and the Illinois Institute of Technology, students may earn a degree in physics from DePaul and degree in engineering from IIT, with a concentration in Mechanical, Aerospace, Electrical, or Computer Engineering.

IIT/Chicago Kent College of Law

Students in DePaul’s College of Law may pursue courses in specialized areas of legal study at IIT/Chicago Kent College of Law.

Loyola University Chicago School of Law

Students in DePaul’s College of Law may pursue courses in specialized areas of legal study at Loyola University Chicago School of Law.

NorthShore University Health System

DePaul offers a Doctor of Nursing Practice degree in Nurse Anesthesiology in conjunction with NorthShore University Health System’s School of Nurse Anesthesia in Evanston.

Northwestern Memorial Hospital Clinical Schools – School of Nuclear Medicine Technology & Radiation Therapy

Through a partnership with Northwestern Memorial Hospital Clinical Schools, select DePaul students may pursue bachelor of science degrees in Allied Health Technologies in either Nuclear Medicine Technology or Radiation Therapy.

Rosalind Franklin University of Science and Medicine

DePaul has partnered with the Rosalind Franklin University of Science and Medicine in North Chicago to provide numerous degree program offerings, including:

- RN to MS in Nursing
- MA, Health Communication
- Master’s Entry to Nursing Practice (MENP)
- 3+4 PharmD

Rush University

In conjunction with the Department of Health Systems Management in the College of Health Sciences at Rush University Medical Center, the Kellstadt Graduate School of Business of the College of Commerce offers a joint MBA/MS (Master of Science in Health Systems Management) degree program.

Truman College, City Colleges of Chicago

Through an agreement with the City Colleges of Chicago, students may complete their first years in college at Truman College, then seamlessly transfer their credits towards a DePaul undergraduate degree through the School for New Learning.

Wright College, City Colleges of Chicago

Through an agreement with the City Colleges of Chicago, students may complete their first years in college at Wright College, then seamlessly transfer their credits towards a DePaul undergraduate degree through the School for New Learning.

Study Abroad Opportunities

DePaul partners with a substantial number of institutions around the world to provide a wide variety of study abroad options for students. Information about those agreements can be found on the International Programs website (http://international.depaul.edu/).

Accreditation

DePaul University is a private, not-for-profit, Catholic institution accredited by:

The Higher Learning Commission
230 South LaSalle Street, Suite 7-500
Students may provide feedback or register complaints with the Higher Learning Commission at the contact information listed above.

Concerns about academic issues relating to faculty or staff can often be resolved through an initial conversation with the faculty, staff member or student employee involved in the situation. Therefore, students with academic complaints or concerns should address the issue following the steps indicated below:

1. The issue should first be discussed with the faculty or staff member.
2. If this does not resolve the issue the student should then discuss the issue with the department chairperson or program director for faculty issues or the individual’s supervisor for staff. If you are unsure of the appropriate college contact, please see below for a directory of College and College Dean’s Offices.
3. If the issue is still not resolved, the student should then discuss the matter with the Office of the Dean of the faculty member's college for faculty issues or the department supervisor for staff issues.
4. If the issue is still not resolved, the student may discuss the issue with the Office of the Provost.

The Dean of Students Office is a central location to which students can turn with problems they have been unable to resolve. The Dean of Students Office hears student concerns and helps students understand their options for resolving the concerns and/or locating appropriate services: http://offices.depaul.edu/student-affairs/about/departments/Pages/dos.aspx.

In addition, the University Ombudsperson is available to provide consultation about conflict resolution, to clarify policies and procedures, and to help find the right person or department to respond to questions. Students may also always choose to report concerns or misconduct through the University’s confidential reporting mechanisms: 877.236.8390 or https://compliance.depaul.edu/hotline/index.asp (https://compliance.depaul.edu/hotline/)

The U.S. Department of Education requires institutions offering online education to provide contact information for students to file complaints with its accreditor and state agencies. Contact information for DePaul's regional accreditor (the Higher Learning Commission), programmatic/specialized accreditor and state agencies is available in the Handbook section of the University Catalog.

Honor Societies
Since 1954, DePaul University has recognized academic honorary societies in order to highlight students’ superior academic achievement and leadership. Students are selected to join honorary societies based on their superior academic record within their specific major or across all colleges. DePaul University strives to recognize students’ outstanding academic performance and is proud of the rich tradition that these valuable organizations have provided to the university community. Below is a list of each honorary society and its academic discipline.

- Beta Alpha Psi – Accounting, Finance and MIS
- Kappa Delta Pi - Education
- Psi Chi - Psychology
- Sigma Pi Sigma - Physics
- Phi Alpha Theta - History
- Omicron Delta Epsilon - Economics
- Sigma Theta Tau - Nursing
- Pi Sigma Alpha – Political Science
- Sigma Tau Delta - English
- Lambda Pi Eta - Communication
- Sigma Delta Pi - Spanish
- Gamma Kappa Alpha - Italian
- Phi Beta Delta - International Education
- Theta Alpha Kappa - Religious Studies
- National Society of Collegiate Scholars - All
- Upsilon Pi Epsilon - Computer Science
- National Honor Society - Women’s and Gender Studies
- Lambda Alpha - Anthropology
- Gamma Theta Upsilon - Geography
- Order of Omega - Fraternity and Sorority Community
- Pi Alpha Alpha - Public Administration
- Nu Lambda Mu - Nonprofit Management and Leadership
- Pi Sigma Alpha - Communication
- Phi Sigma Tau - Philosophy
- Nu Rho Psi - Neuroscience

University Learning Goals and Outcomes

Preamble
In common with all universities, DePaul strives to ensure that its students come away from their experience with knowledge and skills that will enable them to fulfill their personal and professional aspirations, interact productively with others in all their diverse perspectives, contribute meaningfully to society, and continue learning throughout their lives. Moreover, DePaul shares with other universities the goal that students will use their knowledge and skills to conduct themselves ethically and humanely, with an appreciation for the past and an eye towards shaping an even better future.

At the same time, DePaul’s mission – Catholic, Vincentian, urban – calls on us to consider these broad goals for learning in a manner that honors the university’s distinctive qualities. DePaul's Catholic heritage encourages us to study religious traditions, and to critically examine the moral underpinnings of all academic disciplines. The example of St. Vincent, who worked with people from all strata of society in order to address urgent human needs, infuses our understanding of both education and service with a concern for social justice, for the university mission statement reminds us that “the DePaul community is above all characterized by ennobling the God-given dignity of each person.” And as an urban university, DePaul’s deep involvement in multiple communities, within Chicago and beyond, invites us to both draw on the city’s rich opportunities for learning and serve as partners in helping them move forward. In sum, the mission statement tells us, “DePaul University emphasizes the development of a full range of human capabilities and appreciation of higher education as a means to engage cultural, social, religious, and ethical values in service to others.”

With the university’s mission as their foundation, these Learning Goals and Outcomes prepare students to engage in the world of the twenty-first century, carrying with them the heritage and values that distinguish DePaul.

Goal 1. Mastery of Content
This goal embraces the breadth and depth of ideas, theories, approaches, and information which DePaul students encounter through and beyond their studies.

Outcomes: DePaul graduates will demonstrate and be able to apply:

- general knowledge of cultures, religions, science, the arts, history, and computational reasoning.
- specialized knowledge and skills from within a specific discipline or field.

Goal 2. Intellectual and Creative Skills
In order to fully engage with knowledge, whether for a specific purpose or for its own sake, DePaul students are encouraged to develop the ability to think critically and imaginatively, formulate their own understanding, and effectively communicate their ideas. This goal articulates specific skills that comprise these broader abilities.

Outcomes: DePaul graduates will be able to:

- systematically access, analyze and evaluate information and ideas from multiple sources in order to identify underlying assumptions, and formulate conclusions.
- solve quantitative problems.
- create and support arguments using a variety of approaches.
- use existing knowledge to generate and synthesize ideas in original ways.
- communicate clearly in speech and writing.

Goal 3. Personal and Social Responsibility
This goal honors the notion that knowledge reflects and contributes to the values of individuals and communities. DePaul students, in particular,
are challenged to consider their own values in light of the university’s mission.

Outcomes: DePaul graduates will be able to:

- articulate their own beliefs and convictions, as well as others’ beliefs, about what it means to be human and to create a just society
- articulate what is entailed in becoming a self-directed ethical decision-maker and living a life of personal integrity.
- evaluate ethical issues from multiple perspectives and employ those considerations to chart coherent and justifiable courses of action.
- benefit their communities through socially responsible engagement and leadership.

Goal 4. Intercultural and Global Understanding

This goal speaks to the likelihood that, in our diverse and increasingly interdependent world, the future depends on individuals being able to learn from each other and make the best use of finite resources.

Outcomes: DePaul graduates will demonstrate:

- respect for and learning from the perspectives of others different from themselves.
- knowledge of global interconnectedness and interdependencies.
- knowledge to become a steward of global resources for a sustainable future.

Goal 5. Integration of Learning

Given the wide range of opportunities for learning at DePaul, it is important for students to develop the ability to consider relationships among individual experiences of learning so as to make meaning of their education in all its variety.

Outcomes: DePaul graduates will be able to:

- relate their learning – curricular and co-curricular – to multiple fields and realms of experience.
- make connections among ideas and experiences in order to synthesize and transfer learning to daily practice.
- design, develop, and execute a significant intellectual project.

Goal 6. Preparation for Career and Beyond

This final learning goal builds on all the rest and calls on students to be ready to apply their knowledge and skills to the changing world that awaits them.

Outcomes: DePaul graduates will be able to effectively:

- set goals for future work that are the result of realistic self-appraisal and reflection.
- articulate their skills and knowledge and represent themselves to external audiences.
- work toward goals independently and in collaboration with others.
- employ technology to create, communicate, and synthesize ideas.
- set priorities and allocate resources.
- apply strategies for a practice of life-long learning.

Additional Notes

These University Learning Goals and Outcomes were approved by Faculty Council and the Interim Provost in October 2012.

A prior version of this document was drafted in Spring 2011 by a group of faculty, staff and students in the early stages of the strategic planning process that led to Vision 2018. In Autumn 2011, at Faculty Council’s direction, the draft went to the university's Committee on Learning and Teaching, which sought input from stakeholders across the university and incorporated their valuable contributions into the revised document here. As a result of this process, the University Learning Goals and Outcomes represent a true community effort.

These university-wide goals do not exhaust the learning goals pursued at DePaul. Notably, they do not explicitly refer to the expectations specific to the various schools and departments. Nor will they be pursued in the same manner nor to the same degree in every unit. Nevertheless, the education of all recipients of DePaul undergraduate degrees should be characterized by these goals along with the goals specific to the student’s unit. Since graduate and professional schools encounter students at different stages of their education and at different levels of maturity, their approaches to these goals and their methods of measuring them will have to be adjusted accordingly.

Liberal Studies Program Overall Learning Goals and Outcomes

Preamble

DePaul’s Catholic, Vincentian, and urban character distinguishes its students’ experiences. In turn, its Liberal Studies Program connects students – in progressively more integrated ways – to the university's mission and to values associated with social justice, diversity, and the desire to work toward socially and environmentally sustainable communities.

To prepare its students to understand, engage, and effect change as global citizens, these revised Liberal Studies Program learning goals and outcomes provide students with an integrative and intellectually challenging education. The rhetorical, creative, intellectual, analytical, quantitative, and interdisciplinary knowledge gained from the program’s connected coursework facilitates success as students and as lifelong learners. The Liberal Studies Program supports the student’s academic major with learning across disciplines – both in and beyond the classroom.

Faculty from virtually every department, interdisciplinary program, and college teach over 1,400 different courses from which students can choose to fulfill their Liberal Studies Program requirements. This wide spectrum of participation on the part of students and faculty alike contributes to a strong sense of intellectual community at DePaul University as well as a shared commitment to its mission and values.

Goal 1. Mastery of Content

This goal embraces the breadth and depth of ideas, theories, approaches, and information which DePaul students encounter through and beyond their studies.

Outcomes: DePaul students will demonstrate and be able to apply:

- general knowledge of cultures, religions, science, the arts, history, and computational reasoning.
• specialized knowledge and skills from within a specific discipline or field.

Goal 2. Intellectual and Creative Skills
In order to fully engage with knowledge, whether for a specific purpose or for its own sake, DePaul students are encouraged to develop the ability to think critically and imaginatively, formulate their own understanding, and effectively communicate their ideas. This goal articulates specific skills that comprise these broader abilities.

Outcomes: DePaul students will be able to:
• systematically access, analyze, and evaluate information and ideas from multiple sources in order to identify underlying assumptions and formulate conclusions.
• solve quantitative problems.
• create and support arguments using a variety of approaches.
• use existing knowledge to generate and synthesize ideas in original ways.
• communicate clearly in speech and writing.

Goal 3. Personal and Social Responsibility
This goal honors the notion that knowledge reflects and contributes to the values of individuals and communities. DePaul students, in particular, are challenged to consider their own values in light of the university's mission.

Outcomes: DePaul students will be able to:
• articulate their own and others' beliefs about what it means to be human and to create a just society.
• articulate what is entailed in becoming a self-directed ethical decision-maker and living a life of personal integrity.
• evaluate ethical issues from multiple perspectives and employ those considerations to chart coherent and justifiable courses of action.
• benefit their communities through socially responsible engagement and leadership.

Goal 4. Intercultural and Global Understanding
This goal speaks to the likelihood that, in our diverse and increasingly interdependent world, the future depends on individuals being able to learn from each other and make the best use of finite resources.

Outcomes: DePaul students will demonstrate:
• respect for and learning from the perspectives of others different from themselves.
• knowledge of global interconnectedness and interdependencies.
• knowledge to become a steward of global resources for a sustainable future.

Goal 5. Integration of Learning
Given the wide range of opportunities for learning at DePaul, it is important for students to develop the ability to consider relationships among individual experiences of learning so as to make meaning of their education in all its variety.

Outcomes: DePaul students will be able to:
• relate their learning – curricular and co-curricular – to multiple fields and realms of experience.
• make connections among ideas and experiences in order to synthesize and transfer learning to daily practice.
• design, develop, and execute a significant intellectual project.

Goal 6. Preparation for Career and Beyond
This final learning goal builds on all the rest and calls on students to be ready to apply their knowledge and skills to the changing world that awaits them.

Outcomes: DePaul students will be able to:
• set goals for future work that are the result of realistic self-appraisal and reflection.
• articulate their skills and knowledge and represent themselves to external audiences.
• work toward goals independently and in collaboration with others.
• employ technology to create, communicate, and synthesize ideas.
• set priorities and allocate resources.
• apply strategies for a practice of life-long learning.

Additional Notes
The revised learning goals and outcomes are derived from national research and best practices surrounding liberal education. Building on the four pre-existing LSP meta-goals (reflectiveness, value consciousness and ethical reasoning, multicultural perspective, and creative and critical thinking), and recognizing the challenges and opportunities of the contemporary world, these revisions amplify the four traditional outcomes of a liberal education while engaging DePaul University's mission throughout the program.

Liberal Studies Program Core and Domain Learning Outcomes
DePaul is committed to ensuring educational excellence in each of our academic programs. Articulating learning outcomes for each of our academic programs is an important first step in our ongoing assessment and improvement cycle. By having well-defined learning outcomes as a guide, our programs are positioned to implement and assess quality educational experiences. These outcomes are also mapped to institutional learning goals, further strengthening the connection to overall student learning at DePaul University.

Liberal Studies Common Core
Chicago Quarter Learning Outcomes
Students will be able to:
• Analyze and integrate the academic content and their experiences across the city.
• Articulate connections between the course content and at least two of these four concepts that reflect the mission of DePaul University.
• Diversity.
• Social responsibility.
• Human dignity.
• Urban sustainability.
• Showcase self-development and personal growth as a university student.
• Describe how their course prepares them to embark on the remainder of their liberal studies education.
• Articulate educational, career, and financial goals.
• Demonstrate awareness of strategies and resources needed to achieve academic success.

**Focal Point Seminar Learning Outcomes**

Students will be able to:

• Discuss and analyze work from at least three different fields in their written work for the course.
• Participate actively in advancing the collective intellectual understanding of the course topic through class discussions.
• Distinguish between primary and secondary sources, and assess varying degrees of mediation and interpretation in specific source materials.
• Construct arguments based on evidence and the work and interpretations of other sources.
• Revise papers in response to the instructor’s comments.
• Produce a project with a central argument, in which all parts of the project support the central argument.

**Quantitative Reasoning and Technological Literacy Learning Outcomes**

Students will be able to:

• Make estimations.
  • Use proportional reasoning.
  • Use percent change.
• Use information conveyed as data, graphs, and chart.
  • Draw inferences from data.
  • Aggregate data with pivot tables.
  • Recognize disaggregation as a factor in interpreting data.
• Formulate applied problems mathematically, seek patterns, and draw conclusion.
  • Recognize interactions in complex systems.
  • Use linear, exponential, and simulation models.
  • Recognize the impact of different rates of growth.
• Make and interpret frequency distributions.
  • Summarize data with measures of center and dispersion.
  • Measure and interpret the association between variables.
  • Recognize the difference between correlation and causation.
  • Solve applied problems involving the normal distribution and z-scores.
• Recognize that seemingly improbably coincidences are not uncommon.
  • Evaluate risk from available evidence.
  • Calculate basic common probabilities.
  • Use sequential, logical thinking
• Develop algorithms to solve problems.
  • Use Boolean conditionals and repetition to create simple computer programs.
• Make algebraic calculations within a spreadsheet using cell addresses and formulas.
  • Format the layout of a spreadsheet.
  • Use statistical, logical, and financial.
  • Use and create macros to automate repetitious tasks.
• Make appropriate and effective graphs to communicate and visualize quantitative information.
  • Enter data into a pre-existing database
  • Import data from a text file or spreadsheet file into a database.
  • Filter records based on a single parameter and on multiple parameter.
  • Sort records with multiple sort keys.
  • Formulate and conduct queries.
  • Generate a report from a database.
  • Recognize the difference between a flat file and a relational database.
  • Create a relational database using two or more tables.
  • Construct a query for a relational database using two or more tables.
  • Construct a query for a relational database using joins.
  • Design and implement forms for data entry.
• Import data from a spreadsheet or database into a statistics package.
  • Use graphical tools in a statistical package to make specialized statistics plots such as box plots and normal probability plots.
  • Calculate descriptive summary statistics using a statistical package.
• Construct the concept of algorithm through experimentation and reflection on everyday activities.
  • Articulate an accurate definition of an algorithm
  • Recognize algorithms fitting the definition.
  • Construct the notion of a control structure and a repetition structure.
  • Acquire the ability to trace simple programs listings using control and repetition structures.
  • Use control and repetition structures to write simple computer programs to affect a task.
• Analyze and discuss the impact of information technology on society and their own lives.
  • Discuss the implications of the fact that information and decision making are increasingly quantitative.
  • Critically assess the sources, importance and factual accuracy of digital information.

**First Year Writing Learning Outcomes**

Students who successfully complete will be able to:

• Identify and use key rhetorical concepts, including purpose, audience, and context, through analyzing and composing a variety of texts.
• Integrate critical thinking, reading, and writing.
• Reflect on and develop their own writing processes.
• Appropriately apply knowledge of linguistic structures, genre, and citation.
Students will be able to:

- Understand the historical debates about and values of multiculturalism. The course will compare at least three different dimensions of multiculturalism, such as ethnicity, race, gender, class, language, and sexuality.
- Develop, through self-reflection and critical analysis, alternative perspectives on the historical roots of inequality along with an understanding of the lasting effects of oppression on marginalized groups.
- Critically analyze multiple sources of information (from, for example, relevant databases and other reference works, primary and secondary sources, community knowledge, etc.) in order to form clear, concise arguments about multicultural issues and to interpret evidence from a variety of points of view.
- Advance collective intellectual understanding —through discussion, group work, active listening and speaking — and use information to address problems and issues related to social inequality, conflict and diversity.

Students will be able to:

- Apply particular concepts from readings, lectures, etc. to an analysis of lived experiences in the settings provided by the course.
- Use the experiences provided by the course to construct and articulate the impact of their experience on their understanding of course content.
- Demonstrate an understanding of the ethics appropriate to his or her experiential placement.
- Synthesize and articulate how the ideas and experiences provided by the course might inform their personal, academic, and/or professional pursuits.

Students will be able to:

- Apply one or more theories or concepts from courses within their major to an analysis of a particular issue relevant to the major.
- Identify an idea, method, or concept from a discipline outside their major field of study and be able to apply it within the context of their major field of study.
- Examine how their previous coursework, including Liberal Studies courses, has contributed to their intellectual development and/or their post-graduation plans.

Students will be able to:

- Explain, in well-written prose, what a work of art is about and/or how it was produced
  - Articulate and explain the “content” of that work and/or its methodology of production.
- Comment on the relationship between form and content in a work.
  - How does the 14-line sonnet both enable and inhibit its practitioner, for example?
  - What are the generic expectations of a particular form?
  - How does an artist complicate, enrich, or subvert such expectations?
- Assess the formal aspects of their subject and put those qualities into words, using, when appropriate, specialized vocabulary employed in class and readings.
- Contextualize a work of art.
  - Do so with respect to other works of art in terms of defining its place within a broader style or genre.
  - Contextualize a work of art in terms of contemporaneous aesthetic, social, or political concerns, discussing how these might shape the work’s reception and how that reception might differ amongst various peoples and historical periods.

Students will be able to:

- Address, critically think about, and analyze philosophical questions and problems.
- Evaluate philosophical questions, issues and/or problems using informed judgment.
- Analyze and interpret the methods used by philosophers in addressing philosophical questions, issues, and/or problems.
- Engage with philosophical topics and figures in their historical context.
- Confront and interpret primary texts from the philosophical tradition.
- Write an analytic essay treating a philosophical question, issue and/or problem that forwards an identifiable thesis, argument, and conclusion.
Religious Dimensions Learning Outcomes
Students will be able to:

- Explain beliefs and practices of one or more religious traditions in their specific social and cultural contexts.
- In courses in which the focus is on one religious tradition, describe the diversity of strands within the tradition and explain with significant depth the modes of interpretation of the world the tradition offers both to adherents and to others.
- Identify religious modes of thinking, acting, and feeling such as: myth and narrative, symbol, ritual, law, doctrine, ethics, religious experience.
- Analyze the impact of religion on personal as well as communal dimensions of human life, including for example the relationship between religion and power, social integration, social transformation, and social justice.

Scientific Inquiry Learning Outcomes
Scientific Inquiry: Science as a Way of Knowing
Students will be able to:

- Identify the types of questions that can and cannot be answered by science, and recognize the strengths and limitations of science in answering questions about the natural world.
- Critically evaluate the assumptions that underlie scientific investigations.
- Substantiate the claim that scientific knowledge is durable but can evolve with new evidence and perspectives.
- Connect evidence to the predictions made by theories and hypotheses, and then assess the extent to which the presented evidence supports or refutes a scientific claim.
- Evaluate the role of creativity, curiosity, skepticism, open-mindedness and diligence of individuals in scientific discovery and innovation.
- Recognize the uncertainty inherent in the scientific approach and evaluate scientists’ efforts to minimize and understand its effect through experimental design, data collection, data analysis and interpretation.
- Evaluate the role of communication, collaboration, diversity and peer review in promoting scientific progress and the quality of scientific evidence and ideas, and ensuring compliance with ethical standards.
- Determine the extent to which science both influences and is influenced by the societies
- Apply scientific approaches to problem solving and decision making in their own lives, and evaluate how scientific knowledge informs policies, regulations, and personal decisions.

Scientific Inquiry: Lab
Students will be able to:

- Pose meaningful scientific questions and generate testable scientific hypotheses.
- Plan, design and conduct scientific investigations in a collaborative environment using appropriate tools and techniques to gather relevant data in order to test and revise scientific hypotheses.
- Develop explanations of natural phenomena.
- Address variability in the data and recognize and analyze alternative explanations and predictions.
- Communicate scientific procedures, results, and explanations and engage in arguments based on scientific evidence.

Scientific Inquiry: Elective Courses
Students will be able to:

- Apply appropriate concepts, tools, and techniques of scientific inquiry.
- Describe how natural scientific, mathematical, and/or computational methodologies function as mechanisms for inquiry.
- Explain the interaction between the content of their SI-Elective course and other scientific disciplines or the broader society.

Social Cultural and Behavioral Inquiry Learning Outcomes
Students will be able to:

- Analyze and reflect upon arguments about the contemporary world using relevant theory, methods, and/or empirical evidence.
- Analyze interdependent relationships between contemporary society and individuals.

Honors Program Learning Outcomes
DePaul is committed to ensuring educational excellence in each of our academic programs. Articulating learning outcomes for each of our academic programs is an important first step in our ongoing assessment and improvement cycle. By having well-defined learning outcomes as a guide, our programs are positioned to implement and assess quality educational experiences. These outcomes are also mapped to institutional learning goals, further strengthening the connection to overall student learning at DePaul University.

Learning Outcomes
Students will be able to:

- Demonstrate breadth and depth of knowledge of the arts, humanities, mathematics, natural and social sciences.
- Comprehensively access, systematically analyze, and critically evaluate data and ideas.
- Construct, support, and effectively communicate complex ideas and arguments in speech, writing, and other media.
- Analyze and evaluate texts, creative works, and other primary sources.
- Evaluate ethical issues from multiple perspectives and identify opportunities and strategies for social transformation.
- Demonstrate respect for human diversity and a critical awareness of their own assumptions, stereotypes, and biases when confronting difference.
- Demonstrate understanding of global interconnectedness and interdependencies.
- Reflect on connections between individual experiences and the Honors curriculum.
- Design, research, and execute a significant interdisciplinary project.

Undergraduate Major Learning Outcomes
DePaul is committed to ensuring educational excellence in each of our academic programs. Articulating learning outcomes for each of our academic programs is an important first step in our ongoing assessment and improvement cycle. By having well-defined learning outcomes
as a guide, our programs are positioned to implement and assess quality educational experiences. These outcomes are also mapped to institutional learning goals, further strengthening the connection to overall student learning at DePaul University.

Co-Curricular Learning Outcomes

DePaul’s co-curricular programs contribute to the DePaul student experience by offering learning opportunities and support for students. By having well-defined learning outcomes to guide programs and services, our co-curricular programs are positioned to implement and assess quality co-curricular educational experiences. These outcomes are also mapped to institutional learning goals, further strengthening the connection to overall student learning at DePaul University.

School of Music
- Composition (BM) Learning Outcomes (p. 233)
- Jazz Studies (BM) Learning Outcomes (p. 574)
- Music (BA) Learning Outcomes (p. 708)
- Music Education (BM) Learning Outcomes (p. 710)
- Music Performance (BM) Learning Outcomes (p. 715)
- Performing Arts Management (BM) Learning Outcomes (p. 774)
- Performing Arts Management (BS) Learning Outcomes (p. 777)
- Sound Recording Technology (BS) Learning Outcomes (p. 958)

The Theatre School
- Acting (BFA) Learning Outcome (p. 52)
- Comedy Arts (BFA) Learning Outcomes (p. 209)
- Costume Design (BFA) Learning Outcomes (p. 252)
- Costume Technology (BFA) Learning Outcomes (p. 254)
- Dramaturgy/Criticism (BFA) Learning Outcomes (p. 324)
- Lighting Design (BFA) Learning Outcomes (p. 624)
- Playwriting (BFA) Learning Outcomes (p. 800)
- Projection Design (BFA) Learning Outcomes (p. 814)
- Scene Design (BFA) Learning Outcomes (p. 874)
- Sound Design (BFA) Learning Outcomes (p. 956)
- Stage Management (BFA) Learning Outcomes (p. 983)
- Theatre Arts (BFA) Learning Outcome (p. 1102)
- Theatre Management (BFA) Learning Outcomes (p. 1105)
- Theatre Technology (BFA) Learning Outcomes (p. 1107)

School of Continuing and Professional Studies
- Applied Behavioral Sciences (BA) Learning Outcomes (p. 105)
- Business Administration (BAPS) Learning Outcomes (p. 174)
- Computing (BAPS) Learning Outcomes (p. 250)
- Decision Analytics (BA) Learning Outcomes (p. 308)
- Healthcare Administration (BA) Learning Outcomes (p. 498)
- Leadership Studies (BA) Learning Outcomes (p. 617)

Co-Curricular Learning Outcomes

• Adult, Veteran, and Commuter Student Affairs (p. 1365)
• Athletic Academic Advising (p. 1365)
• Campus Recreation (p. 1365)
• Catholic Campus Ministry (p. 1365)
• Center for Students with Disabilities (p. 1365)
• Dean of Students (p. 1365)
• Financial Fitness (p. 1365)
• Health Promotion and Wellness (p. 1365)
• Multicultural Student Success (p. 1366)
• New Student and Family Engagement (p. 1366)
• Religious Diversity (p. 1366)
• Residential Education (p. 1366)
• Student Involvement (p. 1366)
• Supplemental Instruction (p. 1366)
• TRIO Pathways (p. 1366)
• University Center for Writing-Based Learning (p. 1367)
• University Counseling Services (p. 1367)
Adult, Veteran, and Commuter Student Affairs

Co-Curricular Learning Outcomes
As a result of participating in Adult, Veteran, and Commuter Student Affairs program-areas, students will be able to:

• Articulate the transferable skills from their positional experience to post-graduate opportunities.
• Demonstrate knowledge of campus resources relative to their personal needs through the creation of a personalized action plan.
• Employ reflective strategies in the context of their personal, professional and academic goals.

Athletic Academic Advising
Co-Curricular Learning Outcomes
As a result of participating in Athletic Academic Advising program-areas, student athletes will be able to:

• Articulate the academic expectations of student-athletes and how these expectations benefit them in their academic career.
• Articulate academic success strategies related to their personal academic needs.
• Articulate the transferable skills they have gained from their athletic experience and how they apply to post-graduate opportunities.
• Describe the benefits, challenges, and responsibilities of being a DePaul student-athlete.
• Articulate the importance of personal wellness for athletic, academic, and interpersonal success.
• Demonstrate knowledge of NCAA rules to maintain academic eligibility.

Campus Recreation
Co-Curricular Learning Outcomes
As a result of participating in Campus Recreation program-areas, students will be able to:

• Value a lifestyle that incorporates health and wellness.
• Build relationships to create connections to communities.
• Demonstrate personal and professional leadership practices.

Catholic Campus Ministry
Co-Curricular Learning Outcomes
As a result of participating in Catholic Campus Ministry program-areas, students will be able to:

• Integrate central elements of the theology and spirituality of the Catholic-Vincentian tradition into their daily lives and choices.
• Exhibit socially responsible leadership in the Catholic-Vincentian tradition through active service in their daily lives.
• Demonstrate knowledge of the lives of members of the Vincentian family to be able to demonstrate an ongoing connection between the Vincentian legacy and their own life experience.
• Utilize a Catholic-Vincentian faith perspective to guide their daily lives and choices.

Center for Students with Disabilities
Co-Curricular Learning Outcomes
As a result of participating in Center for Students with Disabilities program-areas, students will be able to:

• Articulate accommodation services relative to their specific disabilities.
• Articulate academic strategies and behaviors relevant to support their academic needs.
• Describe the benefits of belonging to supportive social communities.

Dean of Students
Co-Curricular Learning Outcomes
As a result of participating in Dean of Students program-areas, students will be able to:

• Articulate the transferable skills from their positional experience to post-graduate opportunities.
• Describe the community expectations of DePaul University.
• Describe relevant campus and external resources.

Financial Fitness
Co-Curricular Learning Outcomes
As a result of participating in Financial Fitness program-areas, students will be able to:

• Describe actions that exhibit positive financial behavior.
• Identify accurate financial knowledge necessary for fiscal responsibility.

As a result of employment within Financial Fitness, student employees will be able to:

• Demonstrate the financial knowledge necessary to communicate to their intended audience.
• Explain how their employment experience is transferable to their chosen profession.

Health Promotion and Wellness
Co-Curricular Learning Outcomes
As a result of participating in Health Promotion and Wellness program-areas, students will be able to:

• Describe strategies to take care of themselves and others.
• Identify common wellness topics impacting college students.
• Articulate how their wellness experience impacts themselves or others.
Multicultural Student Success

Co-Curricular Learning Outcomes

As a result of participating in Multicultural Student Success program-areas, students will be able to:

• Explain why/how historically marginalized social identities are an asset.
• Articulate which campus resources are relevant to their academic needs.
• Describe how social identities of historically marginalized groups influence personal and academic success.
• Demonstrate a commitment to identity-consciousness.
• Describe the realities of various social identities and cultures.
• Articulate how social identity-based inequality influences their lived experience.
• Articulate the transferable skills from their positional experience to post-graduate opportunities.

New Student and Family Engagement

Co-Curricular Learning Outcomes

As a result of participating in New Student and Family Engagement program-areas, students will be able to:

• Describe the benefits and responsibilities of belonging to the DePaul community.
• Identify academic and social resources to help navigate DePaul.
• Describe strategies that support academic success.

Religious Diversity

Co-Curricular Learning Outcomes

As a result of participating in Religious Diversity program-areas, students will be able to:

• Integrate their spiritual/religious/philosophical tradition’s beliefs into their daily lives.
• Lead civic engagement efforts and build community in pursuit of justice.
• Consider their own and others’ spiritual/religious and cultural practices and traditions.
• Commit to Vincentian spirituality and values that embrace the inherent dignity of all human beings.

Residential Education

Co-Curricular Learning Outcomes

As a result of participating in Residential Education program-areas, students will be able to:

• Demonstrate knowledge of behaviors that contribute to personal responsibility and respect for others in the community.
• Explain how to navigate the wellness resources available to them.
• Articulate the impact of wellness topics on themselves and communities.
• Explain why personal rights and community standards are pertinent to a safe and inclusive community.
• Articulate the importance of residential community standards in their work to build safe and inclusive communities.
• Articulate how DePaul’s Vincentian and urban identity impacts their student experience.

Student Involvement

Co-Curricular Learning Outcomes

As a result of participating in Student Involvement program-areas, students will be able to:

• Apply communication, critical thinking, and professional skills to involvement opportunities on campus.
• Participate thoughtfully and respectfully as members of an inclusive community.
• Develop a sense of self, awareness of others, and understand their responsibility for choices and actions.

Supplemental Instruction

Co-Curricular Learning Outcomes

As a result of participating in Supplemental Instruction program-areas, students will be able to:

• Apply information learned to in-session practice problems.
• Apply study strategies that are provided by the Supplemental Instruction Leader in their academic courses.

As a result of employment within Supplemental Instruction, student employees will be able to:

• Apply pedagogical knowledge in order to facilitate discipline-specific learning.
• Demonstrate effective communication skills across online and in-person mediums both verbally and in writing.

TRIO Pathways

Co-Curricular Learning Outcomes

As a result of participating in TRIO Pathways program-areas, students will be able to:

• Articulate an academic success plan based upon their academic needs.
• Demonstrate knowledge regarding the fundamentals of academic research and how it relates to graduate education.
• Generate a research proposal as part of an independent research study.
• Assemble materials to present research at an undergraduate conference.
• Create a Graduate Application Portfolio.
University Center for Writing-Based Learning

Co-Curricular Learning Outcomes
As a result of participating in the University Center for Writing-based Learning program-areas, students will be able to:

• Identify as a writer.
• Adapt their writing process to specific writing goals.
• Use writing to uncover learning.
• Collaborate among peers to facilitate learning.
• Revise a work in progress based on constructive criticism.
• Articulate contexts and genre conventions relevant to the exigence.

University Counseling Services

Co-Curricular Learning Outcomes
As a result of participating in University Counseling program-areas, students will be able to:

• Identify interpersonal strategies that support effective teams.
• Demonstrate effective problem solving in the context of their organization or personal lives.
• Describe the skills to work in a team.
• Describe healthy coping strategies.
• Describe strategies to take care of themselves and others.
• Identify resources both within DePaul University and within the surrounding community in order to remove barriers to academic or personal success.

University Library

Co-Curricular Learning Outcomes
Students engaging with University Library program-areas events will be able to:

• Explain the socio-political landscape of information, including who creates it, who controls it and where to find it.
• Articulate the value of information inquiry.
• Develop effective search strategies for finding information.
• Evaluate the appropriateness of information sources based on their format, structure, and purpose.
• Compile information ethically, following the standards of a scholarly discipline

Vincentian Community Service Office

Co-Curricular Learning Outcomes
As a result of participating in Vincentian Community Service Office program-areas, students will be able to:

• Demonstrate their Vincentian responsibility in systemic change at the individual, community, and global levels.

• Commit to an intentional community with the understanding of how community relates to sustainable engagement and their ability to influence meaningful social change.
• Articulate their own faith and/or spiritual growth in relationship to serving alongside the marginalized.
• Demonstrate knowledge of the lives of members of the Vincentian family to be able to demonstrate an ongoing connection between the Vincentian legacy and their own life experience.

Academic Advising, Statement on

Academic Advising at DePaul helps students achieve their educational, personal, and career goals by providing guidance and assistance in the decision-making process. Academic Advising is most effective when all participants anticipate their future needs, commit to the process, do their part, and then reflect on their results. Students should work closely with their advisors to plan workable educational goals, to understand the degree options and requirements, to understand the financial implications of their decisions, to assess their strengths and challenges as scholars, and to clarify realistic career objectives for themselves upon graduation.

Students bear ultimate responsibility for decisions and actions that determine their success at DePaul University.

• Students will make informed decisions and register for classes on time.
• Students will obtain the necessary information for course selection and planning in their individualized programs.
• Students will make and keep appointments with their advisors.
• Students will communicate honestly and fully in these advising discussions.
• Students will regularly reflect on the consequences, both academic and financial, of their decisions as they progress in their academic careers toward life choices.

Advisors are responsible for helping students improve their decision making skills.

• Advisors guide students through this learning process during regular interactions at key points during their academic careers.
• Advisors will be available on a regular basis for consultation and encourage students to make and keep regular advising appointments.
• Advisors will monitor their advisees’ academic progress.
• Advisors will encourage students to consult available material related to their program and career choice.
• Advisors will encourage students to reflect on the academic and financial consequences of their decisions about degree programs and course-taking plans.
• Advisors will assist students to set realistic career goals that extend beyond their time at DePaul.
• Advisors will encourage students to incorporate their basic values and beliefs into their decision making process.

The university is responsible for providing the infrastructure for students, faculty, and staff to support effective advising.

• The university will provide the information that students and their advisors need to make informed and timely decisions.
• The university will provide adequate resources of personnel, funding and facilities to support the advising process.
Scholarships

Each year DePaul awards more than $33 million in scholarships, in varying types and amounts, to qualified students who exhibit academic excellence, artistic talent, strong leadership or service to their communities.

Scholarships and assistantships are awarded at the program level by your college office and academic department. Please consult your college or school for additional information. You may also visit DePaul Scholarship Connect (https://depaul.academicworks.com/opportunities/) throughout the year to see specific internal and external scholarship opportunities available.

For more information, visit http://www.depaul.edu/admission-and-aid/Pages/scholarships.aspx.

Veterans Assistance

DePaul's Office of Veteran Affairs handles the following VA educational benefit programs:

- The Post-9/11 GI Bill® (Chapter 33) (http://www.benefits.va.gov/gibill/post911_gibill.asp) - for those who served at least 30 consecutive days on active duty after September 10, 2001
- The Post-9/11 GI Bill® Yellow-Ribbon program (http://www.benefits.va.gov/gibill/yellow_ribbon.asp) - for qualified Post-9/11 applicants
- The Montgomery GI Bill® – Selective Reserve (Chapter 1606) (http://www.benefits.va.gov/gibill/montgomery_bill.asp)
- The Survivors' and Dependents’ Educational Assistance Program (Chapter 35) (http://www.benefits.va.gov/GIBILL/DEA.asp) - for spouses and children of deceased or disabled veterans
- The Vocational Rehabilitation Program (Chapter 31) (http://www.benefits.va.gov/vocrehab/) - for disabled veterans approved by Veterans Affairs for study at DePaul
- The Marine Sergeant John David Fry Scholarship (http://www.benefits.va.gov/GIBILL/Fry_scholarship.asp) - for qualified surviving spouse and children of an active duty member of the Armed Forces, who has died in the line of duty, on or after September 11, 2001.
- Eligible children may be married and under the age of 33.

Additional information specific to veteran students (http://www.depaul.edu/admission-and-aid/Pages/veteran-student.aspx) is available through the Admission and Aid website.

DePaul DREAM Statement

At DePaul University we affirm the dignity of the individual. We value diversity and culture because these are part of our core values and traditions as a Catholic, Vincentian, and urban university. DePaul University has decided to take a strong and public stand for supporting undocumented students, and DREAM Act legislation. We believe supporting undocumented students is smart policy that will yield significant benefits for our university, city, state, and nation. We also know these young people who enter our doors are part of the next generation who will build our collective future. It is for this reason that DePaul admits students regardless of their citizenship.
Academic Integrity

DePaul University is a learning community that fosters the pursuit of knowledge and the transmission of ideas within a context that emphasizes a sense of responsibility for oneself, for others and for society at large. To preserve the quality of education offered to students, the university is responsible for maintaining academic integrity and protecting all those who depend on it, including DePaul's community partners and institutional affiliates. Violations of academic integrity, in any of their forms, are, therefore, detrimental to the values of DePaul, to the students' own development as responsible members of society, to the pursuit of knowledge, and to the transmission of ideas. All members of the university community share the responsibility for creating conditions that support academic integrity.

Violations of academic integrity include but are not limited to the following categories: cheating; plagiarism; fabrication; falsification or sabotage of research data; destruction or misuse of the university's academic resources, alteration or falsification of academic records; academic misconduct; and complicity. Violations do not require intent. This policy applies to all courses, programs, learning contexts, and other activities at the university, including but not limited to experiential and service-learning courses, study abroad programs, internships, student teaching, providing false information on an application, and not disclosing requested information. If an instructor finds that a student has violated the Academic Integrity Policy, the appropriate initial sanction will be imposed based on the discretion of the instructor. Actions taken by the instructor do not preclude the university from taking further action, including dismissal from the university. Conduct that is punishable under the Academic Integrity Policy could also result in criminal or civil prosecution.

Additional Information and the complete Academic Integrity policy can be found on the Academic Integrity website (https://offices.depaul.edu/academic-affairs/faculty-resources/academic-integrity/Pages/default.aspx).

Adding Supplementary Credentials to the Bachelor's Degree

Guiding Principles

While pursuing the bachelor's degree, students may elect to augment the degree by pursuing an additional major, a minor, an additional concentration (if applicable), or a second degree. Students who have earned a bachelor's degree from DePaul may be eligible to return to obtain an additional major or minor, or to pursue a second bachelor's degree. The policies below outline these options and provide guidance as to how courses may meet the requirements of more than one of these options.

In general, courses applied to Liberal Studies or University Honors Programs may not apply to the primary major unless approved by the program and explicitly stated in the Liberal Studies or University Honors Programs requirement sections in the University Catalog.

Special note to students participating in the financial aid programs: federal, state, and institutional funding is extremely limited for optional elective courses. Financial aid recipients should check with the Office of Financial Aid at DePaul Central to discuss funding for additional majors, minors, or concentrations. Students who participate in the financial aid programs should be aware that most sources of undergraduate financial aid (including institutional scholarship and grants, and federal and state gift assistance) are not available for undergraduate study beyond the first degree. Students enrolling in a second undergraduate degree program should contact DePaul Central for more information about educational loan options.

Students should consult with their academic advisor to discuss these options in relationship to their academic and career goals.

Policies

1. Earning a Minor(s) (p. 1370)
2. Additional Major(s) (p. 1369)
3. Additional Concentration(s) (p. 1369)
4. Second degree (p. 1370)
5. Students with a bachelor's degree from DePaul who are returning for an additional major and/or minor (p. 1370)

Additional Concentration(s)

Some majors have Concentrations/Tracks/Specializations as indicated in the University Catalog.

Students may elect to pursue additional Concentrations/Tracks/Specializations with the following stipulations:

1. No more than 50% of the credits that apply to one Concentration/Track/Specialization may be drawn from another Concentration/Track/Specialization,
2. Some combinations of Concentrations/Tracks/Specializations are prohibited as noted in the University Catalog.

Additional Major(s)

Additional majors are permitted across colleges as well as within a college.

The following stipulations apply to all additional majors.

1. All admission requirements for each college within which the declared majors are located must be met. This includes audition requirements where applicable.
2. When declaring more than one major, the student will designate one major as the primary major. This major determines the college within which the student is matriculating and the degree which will be conferred when all graduation requirements for the primary major have been met. The primary major also determines the Liberal Studies or University Honors Program requirements the student will follow.
Earning a Minor

In order to earn a minor, a student must:

1. Earn a grade of at least C- in each minor field course.
   a. Individual units have the prerogative to be more restrictive in the
      grade required.
   b. The pass/fail option may not be selected for courses in the minor.
2. Earn a cumulative grade point average of at least 2.00 for all
   courses applied to the minor.
3. Complete at least 50% of the required credit hours for the minor
   through DePaul coursework.

Notes

Some combinations of minors, or minors and majors, are prohibited as
noted in the University Catalog. Please see the specific major and minor
requirements for additional information and/or restrictions.

Returning for Additional Major/Minor

A student who has received a bachelor's degree from DePaul University
may earn an additional major or minor at DePaul provided that:

1. All admission requirements are met. The student will be admitted as a
   non-degree seeking student.
2. Major or minor requirements are determined by those major or minor
   requirements in place at the time of the student's first enrollment
   term for the additional major or minor.
3. Students must complete all requirements for the additional major or
   minor.

Note

Due to rapid changes in some areas of major/minor study, along with
various licensure standards, some courses or test credits otherwise
applicable to the major or minor may be subject to a review to determine
the content's currency. As a result of this review, the course or test
requirement in question may no longer be applicable to major or minor
requirements. This review may be conducted by a faculty academic
advisor or, when deemed appropriate, by a staff academic advisor in
consultation with faculty. If a course or test credit is deemed no longer
current, the student may be required to repeat the course or test credit
course equivalent in order to complete the requirements.

Second Degree

A student who has received one bachelor's degree from DePaul University
or another institution may receive a second bachelor's degree provided
that:

1. All admission requirements are met.
2. The second degree is not in the same major as the first.
3. Students who received a DePaul bachelor's degree, the second degree
   is different from the first. If the degree is the same, the student may
   pursue a second major.
4. At least 50% of the major specific credit hours required for the second
   degree are completed through DePaul coursework.
5. A minimum of 60 quarter hours of credit beyond those applied to
   the first degree, and after the conferral of the first degree, are earned
   through DePaul coursework.
6. All graduation requirements are met. Graduation requirements are
determined by the degree requirements in place at the time of the
student's first enrollment term for the second degree.

Exceptions

1. Applicants who have already earned a bachelor's degree from the
   College of Business or earned a bachelor's degree in business from
   another institution are not eligible to earn a second bachelor's degree
   from the College of Business.
2. Applicants who have already earned a bachelor's degree from the
   College of Education or earned a bachelor's degree in education at
   another institution are not eligible to earn a second bachelor's degree
   from the College of Education.

A student may earn a second bachelor's degree at DePaul simultaneously
with the first degree, provided that:

1. All admission requirements are met.
2. The second degree is different from the first (example: Bachelor of
   Arts and Bachelor of Science)
3. The second degree is not in the same major as the first.
4. All graduation requirements for both degrees are met. Graduation
   requirements are determined by the degree requirements in place at
   the time of the student's first enrollment term for the second degree.
5. A minimum of 252 quarter hours of credit are earned, of which 120
   quarter hours are earned in residence at DePaul.

Admission

Admission decisions at DePaul University are based on a strong
academic record, as well as personal and occupational achievements,
ambition, energy, resourcefulness and leadership. The University
recognizes that each individual brings unique abilities to the DePaul
community and works with every student through a personalized and
holistic application process. DePaul University does not discriminate on
the basis of race, color, national origin, religion, gender, sexual orientation, age or handicap in admissions, employment, or the provision of services.

For information on the types of admission, see the Admission page (p. 1348) in the University Information section of this handbook.

**Admission, Good Standing**

All students applying to DePaul University for undergraduate admission must be in good standing at the last educational institution attended. Good standing is determined when a student's record shows no academic or non-academic probation, suspension or dismissal at the last post-secondary institution attended, or if entering with no previous college or university work, to have proof of high school graduation (or equivalent) verified by providing an official transcript to the Office of Admission. The transcript requirement is waived for visiting students, but may be required to demonstrate completion of prerequisites.

A mandatory secondary review occurs for the following two cases.

- Prior academic integrity or behavior conduct violations. Students on probation or suspended at a previous secondary or post-secondary institution must have satisfied that institution's stipulations for a return to good standing before they may be admitted to DePaul. A student dismissed from another institution because of an academic or conduct violation must submit an explanation (see "required explanation" below) for review by an Admission Review Committee. The committee may require additional information from the applicant and/or the previous educational institution.
- Prior legal arrests, charges or convictions. Students who have been adjudicated guilty or convicted of a misdemeanor, felony or other crime must submit an explanation (see "required explanation" below) for review by an Admission Review Committee. The committee may require additional information from the applicant and/or legal authorities.

The required explanation for violations/convictions must include date of occurrence, summary of the incident, how you were held accountable (legal charges, outcomes, sanctions, etc.), and any additional information you wish to provide.

**Combined Bachelor's + Master's Degree Programs**

DePaul offers a number of opportunities for students to have graduate or professional credit apply to both the undergraduate and graduate or professional degree. The information below details the specific opportunities and related policies.

1. **Combined Bachelor's/Master's Degree Programs**

DePaul offers a number of approved Combined Bachelor's/Master's degree programs. These programs allow undergraduate students to take courses in select graduate programs while completing their undergraduate program. These approved programs are offered in two formats.

A. Combined programs open to students in specific undergraduate majors: Students in specific undergraduate majors may apply to the combined Bachelor's/Master's degree program in a designated graduate program. See the current University Catalog's Degree Requirement page under Undergraduate Majors for a list of eligible programs. Majors marked with an asterisk can be combined in a bachelor's/master's degree program for specific graduate degree programs. Information about admission to, and the requirements of, the combined bachelor's master's program is included in the University Catalog in the undergraduate major field section.

B. Combined graduate programs available to students in all undergraduate majors: Students in any undergraduate major may apply to the combined Bachelor's/Master's degree program in select graduate programs. To view these opportunities, see the current University Catalog's Degree Requirement page under Graduate Programs. Information about admission to, and the requirements of, the combined bachelor's master's program is included in the University Catalog in the graduate program section.

**Admission**

Admission requirements and procedures for a combined bachelor's/master's degree program vary among graduate programs.

Students must apply and be officially admitted into a combined degree program to have courses apply toward both degrees and to be assessed the correct tuition.

In addition, undergraduate students must maintain good standing as determined by the combined program in order to be officially admitted to the graduate program.

Students should consult the specific Combined Bachelor's/Master's Degree information listed in the Degree Requirement section of the University Catalog for program specific requirements.

**Credit Limits**

In general, undergraduate students accepted into a combined Bachelor's/Master's degree program may apply up to 12 graduate credit hours taken as part of their undergraduate degree to their graduate program. Exceptions to that limit are detailed in the degree requirement section of the University Catalog.

**Degree Conferral**

Students must officially apply for their undergraduate degree conferral. Upon completion of the Bachelor's degree, the graduate program admissions staff reviews the student record to determine final acceptance into the graduate program. Students who meet the necessary requirements will be formally admitted into the graduate program. If the requirements are not met, admission to the graduate program will be denied.

Students accepted into an approved DePaul Combined Bachelor's/Master's Program will restart their GPA at the beginning of their graduate career.

**Advising**

Undergraduate students admitted into the combined Bachelor's/Master's degree program will be assigned an advisor in the graduate program. In collaboration with the undergraduate advisor, the graduate program advisor will assist students in choosing graduate classes which will apply to both the undergraduate and graduate degree. Advisors will also assist the student in selecting any additional undergraduate prerequisite requirements for the corresponding graduate program.

Combined Bachelor's/Master's degree students will have their graduate degree requirements locked based on the term they started their graduate
requirements as an undergraduate. Students who remain actively enrolled at DePaul and are making progress toward the degree will retain this requirement term. Students not enrolled for three consecutive terms at either the undergraduate or graduate levels will be required to apply for readmission and will be subject to the degree requirements in place in the enrollment term of readmission.

Please note that changes in graduate admission criteria or program availability may impact a student's ability to be re-admitted into the graduate program. Students are responsible for following all graduate regulations including the limit on the time required to complete the degree and/or the applicability of how a course may apply to the graduate degree. Students interested in pursuing this option should consult with the appropriate college or school as soon as possible.

2. Combined Bachelor's/Juris Doctorate (JD) Degree Programs

A number of DePaul Undergraduate Programs and DePaul's College of Law offer 3+3 Bachelor's/Juris Doctorate degrees for high-achieving first-year undergraduate students. These approved 3+3 Bachelor's/JD programs pair specific undergraduate majors with the Juris Doctorate degree.

Qualified students are admitted simultaneously to the DePaul undergraduate program's college and the College of Law. Students complete their first three years in the undergraduate college and their final three years in the College of Law. Throughout the program, Bachelor's Degree/JD students meet regularly with advisors in both colleges and have access to a variety of resources to ensure their success.

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including the successful completion of:

- the Modern Language Requirement (if required by the college and/or program)
- the Liberal Studies Program or Honors Program requirements
- the required major field courses
- the designated prelaw courses taught by College of Law faculty prior to matriculation in the College of Law.
- a minimum of 150 quarter hours of credit

Students must achieve a cumulative GPA of 3.35 by the end of their second year of study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In order to matriculate in the College of Law, students will be required to:

- register with the Law School Admissions Council
- submit the College of Law's online application
- comply with all character and fitness requirements for admission
- submit an LSAT score which will only be used for consideration of merit scholarships—it will not be a factor in the admission of the participant to the program

These activities should be completed no later than the end of the autumn quarter of the participant's third undergraduate year.

Credits earned during the first year of Law School are applied toward the undergraduate bachelor's degree.

Students must apply for Bachelor's degree conferral during the first year in the College of Law. Students successfully completing the undergraduate degree requirements will have their undergraduate degree conferred upon successful completion of the first year of Law.

Students may opt out of the College of Law segment of the program and continue in the undergraduate college during their fourth year. If students withdraw after the first semester in the College of Law, they return to the undergraduate college for the winter quarter.

Graduation with honors for the undergraduate degree is based solely on the courses taken while an undergraduate student (the classes taken during the first year in the College of Law are not considered in the honors calculation).

Once a student is matriculated and begins taking classes in the College of Law, the student is no longer considered an undergraduate student and therefore is no longer eligible for undergraduate financial aid; however the student may be considered for aid as a College of Law student.

Dean's List

Any undergraduate student is eligible for the dean's list. Eligibility for the Dean's List will be determined by a grade point average of 3.500 for the academic term based on a minimum of 12 graded hours (8 hours for SCPS students) not including the grades of FA, WA and W. Students who have received any grades of IN, M or R for the term are not eligible for the Dean's list until these grades have been resolved, at which time the term grade point average will be computed.

Declarations and Inter-College Transfer

DePaul students with degree status who desire to transfer to another college within DePaul may request to change colleges through Campus Connect using the Declarations and Inter-College Transfer tool.

At a minimum, the following general conditions must be met:

1. The student must be currently enrolled at DePaul or be absent from DePaul for no more than two consecutive quarters, excluding summer sessions, be in good academic standing and have a minimum 2.00 DePaul GPA. (2.50 is required for transfer into the College of Education)

2. The student must have earned a minimum of 12 quarter hours as a degree-seeking student at DePaul and those hours must be posted on the official DePaul transcript.

In addition to the above conditions, students desiring to transfer to The Theatre School or the School of Music must meet the audition or interview requirements of those schools.

Dismissal/Readmission

A student dismissed for academic reasons is not eligible for readmission to DePaul University for a period of two quarters. The readmission decision is made by the Office of Admission in consultation with the college or school.

A student dismissed for academic reasons student may be required to demonstrate acceptable academic achievement at another regionally accredited college or university before readmission is approved. Courses to be taken elsewhere must be approved by the college advising office and a grade of C or better must be earned in all such coursework.
A student dismissed for a conduct-related reason, such as through the Student Conduct Process or the Academic Integrity process, is not eligible for readmission to the University. The only exception to this is a program-specific dismissal, in which case the student is not dismissed from the University, only the specific program. In this case, the student is eligible to apply to other programs.

Credits and grades earned during previous enrollment at DePaul will remain a part of the student’s records.

Evaluation and Credit

At DePaul, credit towards a degree is accumulated on the basis of quarter hours (for College of Law, see the College of Law Handbook (p. 1449)). The unit of credit is one quarter hour granted for 45 minutes of instructional time and at least two hours of additional assigned work each week, or an equivalent amount of work for other credit-bearing activities. The standard course extends over a ten-week period and a final examination week; courses that occur over a different time-period (e.g. in the summer or December quarter) must incorporate the same total amount of instructional time and additional assigned work per credit hour as a standard course. Undergraduate and graduate courses carry 4 quarter hours of credit unless otherwise specified. Credit is earned if a student receives an A through D, or PA grade. Undergraduate credit may also be earned through credit-by-examination and transfer credit. The School for New Learning and the School of Nursing also may award credit based on assessment of prior learning. Some graduate programs may accept a limited number of transfer credits which is specified in the graduate program information.

Among other requirements specified in their respective catalogs, graduation with a bachelor’s degree requires that a student successfully complete a minimum of 192 quarter hours of college credit; graduation with a master’s degree requires that a student complete a minimum of 45 quarter hours of credit beyond the bachelor’s degree. The requirements for approved combined bachelor’s + master’s degree require at least 36 quarter hours of credit beyond the bachelor’s degree (with a minimum of 12 applicable graduate hours completed as part of the bachelor’s degree). Graduation with a doctorate degree will require the minimum number of quarter hours specified by the degree awarding department or college.

Additional Types of Credit

Please see the Credit and Evaluation, Limitations section for limits to the amount of credit listed below that can be applied to the degree.

Credit-by-Examination

DePaul University recognizes the achievements of students as represented by their successful completion of exams through the College Board’s Advanced Placement (AP) and College Level Examination Program (CLEP) and the International Baccalaureate (IB) program. Depending on the exam and the score achieved, students may earn credit applicable to their general education requirements, major field or elective requirements. For more information on credit awarded by examination, visit the Office of Admission website.

Advanced Placement Program (AP)

Incoming undergraduate students may receive credit through the Advanced Placement program. These tests are administered during high school. Incoming freshmen and transfer students (who earned AP credit while in high school) should have their score report sent to the Office of Admission, 1 East Jackson Blvd., Chicago, IL 60604 prior to enrolling at DePaul.

College-level Examination Program (CLEP)

The College Level Examination Program may be taken by students prior to their enrollment or while currently enrolled at DePaul. CLEP exams are offered in a variety of subject areas and represent knowledge gained through coursework as well as through life or work experience. In addition, current students must consult with their college advisor before taking any CLEP exam to ensure that the exam will fulfill individual academic plan requirements. The CLEP score report should be sent to the Office of Admission, 1 East Jackson Blvd., Chicago, IL 60604 prior to enrolling at DePaul or immediately following completion of the exam.

International Baccalaureate Program (IB)

DePaul University awards credit to students who have taken an International Baccalaureate program either at the Diploma or Certificate level. Standard or Higher level score results determine the amount of credit awarded to students at DePaul. Incoming students should have their IB transcript sent to the Office of Admission, 1 East Jackson Blvd., Chicago, IL 60604 prior to enrolling at DePaul.

International A and A/S Level Exams

DePaul awards DePaul course credit for some courses and grades earned on A and A/S Level exams. Students should have their documentation sent to Office of Admission, 1 East Jackson Blvd., Chicago, IL 60604.

Transfer Credit

Transfer credit completed prior to admission at DePaul or subsequent transfer coursework approved by the student’s advisor should be sent to the Office of Admission, 1 East Jackson Blvd., Chicago, IL 60604. Transfer grades do not calculate into the DePaul grade point average.

School for New Learning Prior Learning Assessment

Prior Learning Assessment (PLA) allows School for New Learning (SNL) students to earn credit toward degree requirements based on demonstration of college-level learning through submission of proof of such learning, for example portfolios and proficiency exams. The learning experience serving as the basis for PLA credit may have been accomplished prior to arrival at DePaul or alongside a student’s studies at DePaul.

While SNL may apply PLA credit to its degrees, other DePaul colleges are under no obligation to do so.

PLA credits are not eligible for Financial Aid, do not count for purposes of determining enrollment status, and neither fulfill nor interrupt the residency requirements.

In SNL’s undergraduate competency-based programs, a minimum of 25% of the programs’ degree requirements must be earned through residential credits taken in courses at SNL. A maximum of 75% of SNL undergraduate degree requirements for competency-based programs may be met through transfer coursework and PLA. For all SNL degree programs, PLA may not account for more than 25% of the total degree requirements.

For additional information SNL students should speak with their advisor.
**Professional Nursing Portfolio (RN to MS Nursing Students Only)**

The student entering the RN to MS program will be taking more advanced coursework at DePaul; coursework that relies on a knowledge base established by the nursing courses taken at the community college and assessed by the NCLEX-RN® examination. By successfully completing the first quarter of the RN to MS program, students will have demonstrated their success in the RN to BS bridge course and a graduate level course. The 45 quarter hour portfolio credit will be applied to their degree at DePaul upon successful completion of NSG 330 (bridge course) and NSG 431 (graduate course) with a cumulative GPA of 3.000.

**Evaluation and Credit, Limitations**

**Transfer Credit and Credit by Examination**

A maximum of 132 quarter hours (88 semester hours) of transfer credit will be applicable to any undergraduate degree at DePaul. This includes transfer courses taken at both community colleges and other four-year institutions and credit by examination. Credits earned from the College Level Examination Program (CLEP), International Baccalaureate (IB), Advanced Placement (AP) and/or International A/S and A level exams and ACE military credit combined with transfer credits from two-year institutions will total no more than 99 quarter hours (66 semester hours) and, combined with credits from four-year institutions, will total no more than 132 quarter hours. The senior year residency requirement prohibits the application of transfer, ACE military, CLEP AP, IB, or A/S and A level credits to the final 60 quarter hours of course work.

In addition, in the School for New Learning undergraduate competency-based programs a maximum of 75% of the degree requirements may be met through transfer coursework and Prior Learning Assessment. For all SNL undergraduate degree programs, Prior Learning Assessment may not account for more than 25% of the total degree requirements.

Additional information on types of transfer work accepted is available in the Transfer Credit Regulations (p. 1388) in this handbook.

**Developmental Courses**

MAT 94, MAT 95 and WRD 102, WRD 108 and WRD 200 courses are intended to build a student’s skills in college-level reading, or mathematics. A maximum of 12 hours (depending upon the college or school enrolled) of these courses may be applied toward the degree as University electives. Students who take more than their maximum of these courses will graduate with an academic program in excess of the 192 hours required for the degree. No credit in these courses may be applied toward degree requirements in Liberal Studies. Students are not permitted to take these courses on a pass/fail basis. In addition, these courses may not be accepted for transfer to other colleges or universities.

**Graduate Level Courses**

Undergraduate students may be granted permission at the discretion of the graduate college to complete a graduate level course to fulfill undergraduate course requirements. Graduate courses taken while an undergraduate will not apply toward a graduate degree at DePaul. The one exception to this policy is for students accepted into a Combined Bachelor’s + Master’s program where specific restrictions apply (please see the Combined Bachelor’s + Master’s Program Policy (p. 1371) for additional information).

**FERPA/Annual Notification**

**Annual Notification for DePaul Students: Your FERPA Rights**

We want to take this opportunity to provide you with a summary of your rights under The Family Educational Rights and Privacy Act (FERPA), the federal law that governs release of and access to student education records. Please view Understanding FERPA, a DePaul Central Learning Center video for information and instructions.

Your FERPA rights include:

1. The right to inspect and review your education record within 45 days after the University receives a request for access. If you want to review your record, contact the University office that maintains the record to make appropriate arrangements.

2. The right to request an amendment of your education record if you believe it is inaccurate or misleading. If you feel there is an error in your record, you should submit a statement to the University official responsible for the record, clearly identifying the part of the record you want changed and why you believe it is inaccurate or misleading. That office will notify you of their decision and advise you regarding appropriate steps if you do not agree with the decision.

3. The right to provide written consent before DePaul discloses personally identifiable information contained in your education records, except to the extent that FERPA authorizes disclosure without consent.

Some examples of exceptions include:

- School officials with “legitimate educational interests.” A school official has a legitimate educational interest if the official has a professional need to review your education record in order to fulfill his or her official responsibilities. Examples of people who may have access, depending on their official duties, and only within the context of those duties, include: university faculty and staff, agents of the institution, students employed by the institution or who serve an official institutional committees, and representatives of agencies under contract with the University.

- To officials of another school where the student seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student’s enrollment or transfer.

- To authorized representatives of the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or state and local educational authorities, such as a state postsecondary authority that is responsible for supervising the university’s state-supported education programs. Disclosures under this provision may be made in connection with an audit or evaluation of federal- or state-supported education programs, or for the enforcement of or compliance with federal legal requirements that relate to those programs. These entities may make further disclosures of personally identifiable information to outside entities that are designated by them as their authorized representatives to conduct any audit, evaluation, enforcement or compliance activity on their behalf.

- In connection with financial aid for which the student has applied or which the student has received, if the information is necessary to determine eligibility for the aid, determine the amount of the aid, determine the conditions of the aid, or enforce the terms and conditions of the aid.
The instructor judged the student rare circumstances and with the permission of the dean of the college at the time of the scheduled examination date and period. Only under substituted for a final examination or exercise are expected to be due date and period as approved by the university. Final projects that are expected to take place on the scheduled examination date and period as approved by the university. Final projects that are expected to take place on the scheduled examination.

**Forgiveness Policy**

A student on probation or dismissed for academic reasons who has fewer than 49 earned quarter hours is eligible for the Forgiveness Policy. Such a student, if the petition is accepted by the Dean of the College, must:

1. Be not eligible for readmission until a full year has elapsed,
2. Must complete 18 or more quarter hours of credit in course work approved by the college office at a different institution,
3. Must complete all coursework with a grade of C or better, with a combined GPA of 3.0 or above.

If readmission is approved, the following academic policy applies:

1. The previous grade point average will revert to zero, and
2. The previous DePaul credits attempted and earned will be identified as forgiven grades.

If a student chooses to repeat a course for which a grade was forgiven, all forgiven grades for that course will be counted as previous attempts. Please note that although the earned grades are forgiven, the student is still responsible for meeting grade requirements specified in degree requirements and related policies.

This policy permits the student to resume a program of studies without the penalty of previously deficient grade point average.

**Grades**

Grades can be accessed online via Campus Connect. Grades can be viewed and printed using the Unofficial Transcript in the Student Center in Campus Connect. This comprehensive report can be used for corporate tuition reimbursement. Some companies may allow the student to log onto Campus Connect with a company representative present to verify grades for an individual term.

Following is the key to the system of evaluating a student's academic achievement of the educational objectives specified by the instructor in the course syllabus. These definitions apply to the straight letter grade. A plus grade represents slightly higher achievement than the straight letter grade. A minus grade represents slightly lower achievement than the straight letter grade. For undergraduate students, the addition of a # indicates an original attempt of a course which has been repeated; therefore the grade and credit are removed from the term and cumulative grade point average and credit hours.

Once a grade is assigned, university policy prohibits faculty from changing the grade without the permission of the college-based exceptions committee. Errors made in computation of the final grade (clerical error) and removal of an IN grade in accordance with university policy are exceptions to the grade change policy. Faculty may not assign or accept additional graded material in order to improve a student's final grade.

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>The instructor judged the student to have accomplished the stated objectives of the course in an EXCELLENT manner.</td>
</tr>
</tbody>
</table>
The instructor judged the student to have accomplished the stated objectives of the course in a **VERY GOOD** manner.

The instructor judged the student to have accomplished the stated objectives of the course in a **SATISFACTORY** manner.

The instructor judged the student to have accomplished the stated objectives of the course in a **POOR** manner. (A grade of D will not fulfill the requirements in a major field of concentration.)

The instructor judged the student **NOT** to have accomplished the stated objectives of the course.

Student failed to accomplish the stated objectives of the course due to non-attendance. Non-attendance is defined as never attending or ceasing to attend an in-person course (or never participating or ceasing to participate in an online course) without officially withdrawing. The FX is calculated into the student’s GPA as an F. Instructors are required to provide the last date of attendance/participation.

Temporary grade indicating that, following a request by the student, the instructor has given his or her permission for the student to receive an incomplete grade. In order to receive an IN grade, the student must have a) a satisfactory record in the work already completed for the course, b) encountered unusual or unforeseeable circumstances which prevent him/her from completing the course requirements by the end of the term, and c) applied to the instructor for permission to receive an IN. Please see the Grades, Incomplete (IN) and Research (R) Expiration Policy page in this handbook for additional information.

Passing achievement in a pass/fail course. (Grades A through D represent passing performance.)

Withdrawal from the course initiated by the student after the Last Day to Drop With No Penalty and before the Withdrawal Deadline. The W grade is automatically recorded on the student’s transcript once it has been processed.

Withdrawal from the course initiated by an advisor or administrator at the student's request, usually outside of established deadlines. Administrative withdrawals may be granted under extraordinary circumstances and require documentation for support. See the Withdrawal Policy page in this handbook for more information. During their DePaul career, students may be allowed one medical/personal approved administrative withdrawal and one college office administrative withdrawal, each for one or more courses in a single term.

Temporary grade indicating that the student is making satisfactory progress in a course that formally extends beyond the end of a term. Only designated courses are eligible for R grades. Please see the R grade expiration policy on the Grades, Incomplete (IN) and Research (R) Expiration Policy page in this handbook for additional information.

Permanent grade assigned to a degree recipient who chooses not to resolve a grade of "R" awarded during the last year prior to graduation. The grade of "RG" (Research, Graduated) is final, and cannot be changed or lapsed to "F" once the degree is posted.

Final grade not submitted by instructor.

Auditor status; course does not earn credit.

### Quality Points

Quality points are awarded to a student in relation to the grade given and the number of quarter hours of credit attempted in the course. Quality points are awarded according to the following schedule:

<table>
<thead>
<tr>
<th>Letter</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4 times the number of credit hours assigned to the course</td>
</tr>
</tbody>
</table>
A- 3.7 times the number of credit hours assigned to the course
B+ 3.3 times the number of credit hours assigned to the course
B 3 times the number of credit hours assigned to the course
B- 2.7 times the number of credit hours assigned to the course
C+ 2.3 times the number of credit hours assigned to the course
C 2 times the number of credit hours assigned to the course
C- 1.7 times the number of credit hours assigned to the course
D+ 1.3 times the number of credit hours assigned to the course
D 1 times the number of credit hours assigned to the course
F, FX No quality points awarded

**Grade Point Average**

In general, a student's grade point average is computed by dividing the total number of quality points accumulated by the total number of credit hours attempted with quality points assigned. In addition, a number of graduate programs have specific regulations regarding the computation of the grade point for coursework outside the program. The grade point average is calculated only upon grades earned at DePaul University.

**Grades, Challenges to**

**A. General Policies on Grading**

1. Grades are determined solely on the basis of the academic performance of each student according to pre-established criteria determined by the course instructor and consistent with university, college and departmental policies.

2. Grade determination is the prerogative of the instructor subject to the constraint that any successfully challenged grade will be changed through faculty action.

3. The criteria for evaluating academic performance are to be consistent with a course's goals and objectives, which have been approved by the appropriate academic authority before the course is scheduled. On the first day of class of each course the instructor is to explain in writing to the students the criteria for evaluating as well as the methods for grading student performance (examinations, papers, reports, etc.).

4. The instructor in each course shall decide what criteria and methods for evaluating students are to be applied in the specific course. These decisions of the instructor, however, must be compatible with any policies previously accepted by the faculty of a department or college with respect to particular courses, especially courses offered in sequence where the qualifications of a student to begin an advanced course depend upon performance in a previous course. The methods of conducting a course are determined by the instructor within limitations set by the classification of a course as lecture-discussion, seminar, laboratory, etc. An instructor may vary the teaching methodology to meet particular circumstances of a course (type or number of students enrolled, concentrated calendar as in summer sessions, etc.) or the instructor’s own desires to innovate or experiment with different approaches.

Any method selected must be compatible with the predetermined goals and objectives of the course. While teaching methodology may change after the course has begun, grading methodology may be changed only with the consent of a majority of students in the course, taking into consideration hardships imposed upon students opposed to the change.

5. The actual evaluation and grading of academic performance is subject to the professional judgment of each instructor. Considerable personal discretion is required in these judgments - a justifiable margin of difference can exist between the evaluations made by two or more professional persons of the same academic performance.

6. Students are entitled to compare their work in the course with the criteria applied in deciding the final grade for the course. Accordingly, the course instructor is required either to return major papers and examinations to students or to make such available for students until the end of the following term. Spring Quarter materials are to be available until the end of the Autumn Quarter. For pedagogic reasons, an instructor is expected to review with the student the relative success of the student's accomplishments. The instructor is not expected to debate the grading.

7. A student may object to a grade for one or more of the following reasons:

   a. The methods or criteria for evaluating academic performance, made explicit by the instructor at the beginning of the course, usually in a course syllabus or as subsequently modified with the majority consent of the students, were not actually applied in determining the grade.

   b. The grade was determined or influenced by criteria other than those explained by the instructor or by criteria not relevant to academic performance.

   c. The instructor applied predetermined criteria unfairly, which may include but not be limited to the following items:

      • The instructor’s evaluation of academic performance so exceeded the reasonable limits of the instructor’s discretion as not to be acceptable to the instructor’s peers.

      • Predetermined criteria were not explained at the beginning of the quarter or semester.
B. Policies Regarding Grade Challenge

1. All Grade Challenge Review Boards must follow the procedures listed below.
2. A challenge to a grade will be reviewed and decided by tenured faculty unless the college or school has an insufficient number of tenured faculty to staff a Review Board.
3. The student who challenges a grade bears the full burden of proof that there are sufficient grounds for changing a grade.
4. Only the final grade of a course and its means of determination may be challenged.

C. Procedures for Establishing Grade Challenge Review Boards

1. At the beginning of each academic year, the Committee on Committees will recommend to the Faculty Council, the faculty members and alternates for one Review Board for each of the following colleges: Business, Computing and Digital Media, Communication, Education, Law, Music, School for New Learning, Science and Health, and Theatre.
2. It will recommend two boards for Liberal Arts and Social Sciences covering the following areas: Humanities and Behavioral and Social Sciences. The Faculty Council will make all appointments to Review Boards. The dean of a college may request the establishment of additional Review Boards.
3. Each Review Board will consist of three faculty members and two alternate faculty members and one student. Faculty members may not serve on challenges in which they are involved. Involvement includes assignment of the grade in question and/or attendance or participation in the class. In either of these cases, one of the alternates will be asked to serve.
4. The student representative on the Review Boards in Business, Computing and Digital Media, Communication, Education, Liberal Arts and Social Sciences, Science and Health, Law, Music, School for New Learning, and Theatre will be the elected Senator from the college or school in which the course was offered. In cases where this Senator is involved in the claim; i.e., had registered for, attended or participated in the class, the SGA EVP of Academic Affairs will serve as an alternate or if necessary, the president may appoint the alternate.
5. The Review Board will select its own chair and vice chair (to serve in the absence of the chair). The Chair of the Review Board receives all requests for hearing from the dean or chair of the affected department, sets the calendar, notifies all board members and involved parties of the dates and times of the hearings and informs students by written notice of the recommendations of the board. The chair is responsible for adherence to the Procedures for Filing a Grade Challenge.
6. The boards will serve until the beginning of the Autumn Quarter of the academic year.
7. A quorum of the Review Board consists of three members of the board. Challenges will be upheld by a vote of three or more of the four member board. All members are voting members.
8. The members of the Review Board are expected to disqualify themselves should a conflict of interest arise.

D. Procedures for Filing a Grade Challenge

In order to provide a forum for the fair resolution of academic disputes involving individual students and appropriateness of course grades, the following procedures have been developed and will be applied to all cases involving DePaul University students.

1. A student who is considering a grade challenge must discuss the grade with the instructor before the end of the following regular term. (Spring and Summer Quarter challenges must be made before the end of the Autumn Quarter. Law students challenging a Fall semester grade have a deadline of March 1 of the following Spring semester. Law students challenging a Summer/Spring semester grade have a deadline of October 1 of the following Fall semester) The instructor is expected to explain the reason for the grade to the student. Only if the instructor is not at the university during the following regular term after the grade was issued, may the student proceed to challenge the grade without meeting with the instructor.
2. If, after the discussion with the faculty member, the student still disputes the final grade, the student may continue his or her challenge by submitting a written request for a hearing to the office of dean of the college or school in which the course was offered within the term following the award of the disputed grade. Since the following burden of proof rests upon the student, it is important that the student include a clear and coherent statement (typed) with the reason for the appeal, together with any supporting documents the student may wish to include. Students may request that copies of supporting documents in possession of the faculty members be forwarded to the chair of the Review Board. All challenges will be thoroughly and fairly reviewed.
3. The dean of the college or school shall forward a copy of the request to the chair of the Review Board, the involved faculty person and the student. This must be signed and dated by the dean or chair of the affected department.
4. Once filed, the formal challenge is automatically forwarded through all stages of the appeal process unless the Review Board determines it to be groundless or frivolous. Additionally, the student has the option to discontinue the appeal at any stage by submitting a letter stating such to the instructor and chair of the Review Board.

Both the student and instructor will be informed in writing of all committee recommendations and decisions as well as any new written information bearing on the case. Only the instructor and/or the Review Board are empowered to change a grade.
5. The Review Board chair will send a copy of the grade appeal request and relevant materials received with it to the instructor involved. The instructor will return the materials with a written response within two weeks unless circumstances warrant an extension.

The chair is responsible for monitoring the time period. A copy of the instructor’s response will be forwarded to the student who has filed the challenge. If the instructor does not respond within the time period, the committee will conclude its deliberations and vote on the challenge.
6. The Review Board may, at its discretion, seek oral clarification of the written responses from the student and faculty member. If it requests this further clarification, the Review Board must meet with both the student and faculty member separately if the student requests.
7. The Review Board shall evaluate the challenge and vote to approve or deny. Decisions of the Review Board arrived at by secret ballot are to be determined by a majority vote.

Such action must be taken within two months of the date of filing. (If the grade appeal is not passed along its designated route within the times specified, the student should notify the dean of the school or college who will determine the reason for the delay.)
8. The Review Board is to reach one of the three following decisions:
   a. Challenge affirmed and settled by consent: i.e., the Review Board conducting the review devises a conciliation mutually acceptable to the student and the instructor who gave the grade. Should the acceptable conciliation involve a change of grade, the instructor will submit a change of grade.
   b. Challenge affirmed and the Review Board may submit a change of grade card to the dean of the college or school in which the course was taught. In determining the student's final grade, the Review Board will take into account all evidence of the student's academic performance in the course under challenge as well as the implications for the student's grade of the instructor's actions in the case in question.
   c. Challenge denied; original grade stands.

9. The decision reached by the Review Board is to be communicated by the chair of the Review Board in writing directly to the dean of the college or school, the instructor, and the student. The explanation for the decision will also be communicated.

10. Decisions by the Review Board are final and binding on all parties. The board's decision does not require the approval of the dean of the college or school, or the chair of the affected department.

Grades, Incomplete (IN) and Research (R) Expiration Policy

Incomplete (IN) Grade

An Incomplete (IN) grade is a temporary grade indicating that, following a request by the student, the instructor has given his or her permission for the student to receive an incomplete grade. In order to receive an IN grade, the student must have a) a satisfactory record in the work already completed for the course, b) encountered unusual or unforeseeable circumstances which prevent him/her from completing the course requirements by the end of the term, and c) applied to the instructor for permission to receive an IN (see grade definition (https://courses.depaul.edu/university-catalog/academic-handbooks/undergraduate/undergraduate-academic-policies/Pages/grades.aspx)).

Undergraduate and graduate students have at most two quarters to complete an incomplete. At the end of the second quarter (excluding summer) following the term in which the incomplete grade was assigned, the incomplete will automatically convert to an F grade. In the case of the Law School, incompletes must be completed by the end of the semester following the one in which the incomplete was assigned.

A faculty member has the prerogative to assign a completion date earlier than the one academic year deadline and this date will supersede the one academic year stated above.

Ordinarily no IN grade may be changed after the grace period has expired. Instructors may not change IN grades after the end of the grace period without the permission of a college-based Exceptions Committee.

In the event that the original instructor is no longer available to grade the work, the Department Chair, where applicable, or the Associate Dean will identify the faculty member who will resolve the incomplete.

NOTE: Incomplete grades are not encouraged in the student's final two terms of study. However the exceptional cases, where an incomplete is approved in his or her final term and for students with an incomplete grade in a course from the term immediately preceding their final term of study, may result in the denial of final degree certification for that term and the regular incomplete grade policy will then be enforced. Students who have completed degree requirements, but have an IN grade that has not yet expired can elect to have the degree posted and the IN grade changed to a permanent incomplete, ING. This grade is permanent and cannot be changed in the future. The student can also elect to postpone degree conferral until the IN grade is resolved.

Research (R) Grade

An R grade is given when a student is making satisfactory progress in a course that extends beyond the end of the term or in a project extending over more than one term. R grades, with the exception of students completing a thesis or dissertation research course, must be completed within one academic year of the posting of the R grade or it reverts to an F grade.

A faculty member has the prerogative to assign a completion date earlier than the one academic year deadline and this date will supersede the one academic year stated above.

Ordinarily no R grade may be changed after the grace period has expired. Instructors may not change R grades after the end of the grace period without the permission of a college-based Exceptions Committee.

In the event that the original instructor is no longer available to grade the work, the Department Chair, where applicable, or the Associate Dean will identify the faculty member who will resolve the R grade.

Students who have completed degree requirements, but have an R grade that has not yet expired can elect to have the degree posted and the R grade changed to a permanent R grade. The RG (Research, Graduated) grade is permanent and cannot be changed in the future. The student can also elect to postpone degree conferral until the R is resolved.

Grades, Pass/Fail

Under the pass/fail option, a student who has at least sophomore standing and who is not on academic probation may register for one pass/fail course each term. A maximum of 20 quarter hours may be taken under the pass/fail option. Grades A through D represent passing performance. Written permission to use the pass/fail option must be obtained from the student's academic advisor or from his or her college or school office prior to the beginning of the third week of the quarter. For courses of four weeks or less in duration, approval must be obtained before the second class meeting of the course. The option is limited to no more than one course in any one department.

The pass/fail option may not be used for the following categories of courses:

• courses taken to meet Liberal Studies requirements;
• courses taken to meet requirements of a student's major (including intended and pre-majors), minor and/or certificate (including intended and pre-minors/certificates);
• developmental courses, such as MAT 94, MAT 95 and WRD 102, WRD 108 and WRD 200.

If the course is passed, the credit hours earned are entered on the student’s record; the grade is not included in computing the student’s grade point average. If the course is failed, the F grade is recorded on the student’s record and the credit hours attempted are included in computing the student’s grade point average.

For SCPS students, credit awarded for prior learning or in the Core College Curriculum does not count towards the twenty credit hours limit on the pass/fail option. In addition, SCPS students can select this option for most SCPS courses. SCPS students must notify faculty prior to the end of the second week of the course for which the pass-fail is requested. If the course is passed, the credit hours earned are entered on the student’s record; the grade is not included in computing the grade point average. If the course is failed, the F grade is recorded on the record and the credit hours attempted are included in computing the grade point average. For Core College Curriculum courses that provide a grading option, students must notify faculty prior to the end of the second week of the course they are requesting that option.

DePaul University Pass/Fail Policy due to the COVID-19 pandemic

In response to students’ and faculty’s concerns about unique stresses of taking classes remotely during the current health emergency, Faculty Council has recommended and Provost Ghanem has approved a resolution allowing undergraduate students the option to adopt a Pass / D / Fail (P/D/F) grading basis in spring and summer 2020 courses. In this case, the DePaul grade will remain in the GPA and credit will be awarded based on the final attempt. This policy applies to DePaul courses where a letter grade was earned including grades of F, FX, IN, and R.

• Repeating Courses at DePaul Where Credit Was Previously Earned in Transfer/Test

When students repeat a course at DePaul where the credit was previously earned through transfer or test credit, the transfer or test course is considered the original attempt and the DePaul course will be considered the repeat. In the exceptional case where students complete the course again at DePaul, all DePaul grades will be calculated into the grade point average with credit based solely on the last attempt.

Notes

This policy does not apply to courses that are repeatable for credit.

Special note for federal and/or state student aid recipients who wish to repeat a course: Federal and state financial aid regulations restrict the number of times that a student may receive federal or state financial aid for repeating a course for which credit has been previously earned. Please contact the Office of Financial Aid at DePaul Central to learn about the financial aid impact if you are considering repeating a course for which you have previously earned credit.

Graduation With Honors

Graduation with honor at DePaul University is calculated on the basis of credit attempted at DePaul only. Transfer students must complete a minimum of 60 graded DePaul credits (excluding pass/no pass hours) to be eligible for graduation with an honors status.

A student who earns a cumulative DePaul University grade point average (GPA) of at least 3.850 will be graduated summa cum laude.

A student who earns a cumulative DePaul GPA of at least 3.700 but no higher than 3.849 will be graduated magna cum laude.

A student who earns a cumulative DePaul GPA of at least 3.500 grade but no higher than 3.699 will be graduated cum laude.

Honors status for the degree will be computed on the basis of all course work attempted at DePaul. Students who have been readmitted to DePaul under the Forgiveness Policy will be considered for graduation with honors based solely on the grade point average achieved after this readmission.

Competency-based programs in DePaul University’s School of Continuing and Professional Studies do not recognize graduation designations such as cum laude or magna cum laude or summa cum laude.

For academic honors conferred by individual colleges, schools, or departments, consult the appropriate college section of the University Catalog.
Graduation, Commencement Ceremony

The University’s annual graduate and undergraduate commencement exercises are conducted in June. Traditionally the University hosts a baccalaureate mass to which all graduating students and their families are invited the Friday of graduation weekend.

Attendance at the graduation exercise is optional, however, graduates must notify their college office of their intention by the published deadline date. Graduates will receive detailed instructions concerning the commencement exercise from the college office.

Graduation, Degree Conferral Policy

Final certification of degrees is completed by the Office of the University Registrar thirty days after the conferral date.

In dual degree programs authorized by the colleges, the degrees will be conferred simultaneously.

Academic records will be locked upon degree conferral. Under no circumstances will changes be made to the academic record after degree conferral.

If a student begins a new program of study at DePaul after a degree has been conferred, the student’s GPA will be restarted. The one exception to this rule involves master’s students whose DePaul master’s degree is accepted to meet DePaul’s PhD requirements either in the same or a new field. In this instance the GPA in the PhD program will include the GPA from the DePaul master’s degree.

Combined Bachelor’s + Master’s Degree Program

Students combining a master’s degree with a bachelor’s degree in an approved DePaul Combined Bachelor’s + Master’s Program will restart their GPA at the beginning of their graduate career.

JD/LLM Program

In the case of students who are accepted into the joint JD/LLM program, the students’ GPA in the LLM program will include the GPA from the JD program. Students who have completed the JD degree and are independently pursuing the LLM degree will have their GPA restarted.

Graduation: Undergraduate Degree Requirements

In order to graduate, undergraduate students must have fulfilled all of the following requirements:

1. The student must have completed a minimum of 192 quarter hours or a minimum of 50 competencies for the School of Continuing and Professional Studies competency-based programs
2. The student must have a minimum of 2.000 cumulative grade point average.
3. The student must have completed all requirements for their degree by the last day of term for which they apply for degree conferral.
4. The student must have earned grades of C- or better in all major and minor classes. Please note that the cumulative grade point average in each of these areas must be greater than or equal to 2.000.
5. The student must have fulfilled the residency requirement, i.e., he or she must have completed the following work at DePaul University:
   • the final 60 quarter hours of credit
   • one-half of the credit earned in the major area of concentration

Note: Students pursuing additional majors, minors or second degrees should consult the Adding Supplementary Credentials to the Bachelor’s Degree (p. 1369) section for additional information.

Special Note for School of Continuing and Professional Studies Competency-Based Programs:

• SCPS competence-based programs (BAIFA, BAC, BAGB and BAECE): Students in these programs must complete at least 25% of competence requirements through SCPS courses. In addition, students in the BAC program must also complete at least 5 courses through the College of Computing and Digital Media. Students in the BAECE program must also complete at least 9 courses through the College of Education.

Exemptions to the residency requirement may be made by the Dean in individual cases.

1. A formal application for graduation must be filed by a candidate. Application for graduation may be made only by classified degree-seeking students. The student must complete the online degree conferral application in Campus Connect by the designated deadline date.
   • Autumn degree conferral: October 1
   • Winter degree conferral: January 15
   • Spring degree conferral: February 1
   • Summer (August) degree conferral: July 15

Submitting this on-line application does not guarantee the conferral (granting) of a degree from DePaul University. A student may change the expected completion term up to the last day of that term.

Notes:

• Degree requirements are reviewed at the end of the expected completion term indicated. If all requirements are met, the degree will be conferred within 30 days of the end of the term. Diplomas are mailed (to graduates without financial holds), generally within 45-60 days after the end of the term.
• DePaul reports degree information to the National Student Clearinghouse monthly. Many companies and agencies use this service to verify awarded degrees. A student’s degree will only be verified by the Clearinghouse if the student’s Privacy Settings in Campus Connect indicate this as releasable information at the time the degree is conferred. Students should verify FERPA Privacy Settings before the end of their completion term.

Immunization, Proof of

DePaul University complies with Illinois state law (College Student Immunization Act [110 ILCS 20]) and the Illinois Department of Public Health College Immunization Code (77 Ill. Adm. Code 694), which mandates post-secondary institutions to submit an annual report on student immunization requirements. All DePaul University students, born on or after January 1, 1957 and attend a university campus location,
must provide proof of the required immunizations. Additionally, Illinois law requires that universities prevent students from registering for any subsequent terms if proof of immunization is not provided.

Proof of the following immunizations is required:

- Tetanus/Diphtheria/Pertussis - 3 doses (at least 1 tdap in lifetime, last dose within past 10 years)
- Measles - 2 doses (at least 28 days apart, after first birthday. Neither dose can be prior to 1968.)
- Mumps - 2 doses (at least 28 days apart, after first birthday. Neither dose can be prior to 1968.)
- Rubella - 2 doses (at least 28 days apart, after first birthday. Neither dose can be prior to 1968.)
- Meningococcal - 1 dose (if under the age of 22, taken on or after 16th birthday)

Please visit the Immunization Requirements (http://www.depaul.edu/admission-and-aid/admitted/Pages/immunizations-requirements.aspx) webpage for more information.

**Liberal Studies Program Guidelines**

This provides general Liberal Studies Program (LSP) guidelines; for the Liberal Studies requirements associated with a specific program, see the catalog description for that respective program. Students in the DePaul University Honors Program should consult with a program advisor about their requirements.

**All DePaul Students Who Participate in the Liberal Studies Program**

There are a number of general Liberal Studies Program guidelines that pertain to all DePaul undergraduate students (except for students in the School of Continuing and Professional Studies).

1. Students may not use the same course to fulfill a requirement in both their primary major and Liberal Studies. There are two exceptions to this rule:
   a. Designated courses in the major may also be used to fulfill the Experiential Learning requirement. Students who pursue this option will then complete an additional learning domain elective or, if applicable, the third course of the Modern Language Option.
   b. Transfer students who complete the General Education Core Curriculum of the Illinois Articulation Initiative may apply a particular course to fulfilling a requirement in the major (see the GECC/IAI section of this policy.)
2. Students completing a second major or minor may use the same courses to fulfill requirements in those areas and in the Experiential Learning, Senior Capstone, and Learning Domains of Liberal Studies.
3. Students may request to substitute a different course for one of the Liberal Studies requirements. All substitutions must meet the learning outcomes and writing expectations for the particular LSP requirement. Students seeking to request a substitution should contact their home college office for more information on procedures.

**Transfer Students**

1. Transfer students must meet all Liberal Studies Program requirements: First Year Program, the Seminar on Multiculturalism in the United States (unless the student has completed the IAI/GECC), the Experiential Learning Requirement, the Senior Capstone, and the domain courses, as specified by the student’s primary major.
2. Transfer courses are applied to the most appropriate learning domain, based on articulations vetted through the Transfer Articulation Center according to the posted learning outcomes and writing expectations for each requirement.
3. Students who enter DePaul with 30 or more quarter hours may not enroll in Discover Chicago/Explore Chicago or Focal Point courses. Instead, they will complete two domain electives outside their area of specialization, using either transfer credit or DePaul credit.
4. Students may complete the LSP writing requirement with either transfer credit or coursework completed at DePaul. Placement in DePaul writing courses is determined by a placement process.

a. Transfer students who enter DePaul with earned credit for WRD 104 COMPOSITION AND RHETORIC II may satisfy the second writing course requirement by taking any one of the following expository writing courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>WRD 103</td>
<td>COMPOSITION AND RHETORIC I</td>
<td>4</td>
</tr>
<tr>
<td>WRD 203</td>
<td>STYLE FOR WRITERS</td>
<td>4</td>
</tr>
<tr>
<td>WRD 206</td>
<td>PROFESSIONAL WRITING</td>
<td>4</td>
</tr>
<tr>
<td>WRD 240</td>
<td>ARGUMENTATIVE WRITING</td>
<td>4</td>
</tr>
<tr>
<td>WRD 300</td>
<td>COMPOSITION AND STYLE</td>
<td>4</td>
</tr>
</tbody>
</table>

Permission to substitute an open elective for the second writing course may be granted based on a review of documentation showing superior achievement and/or professional experience in advanced, expository writing. For more information, please contact the First-Year Writing Program Office.

b. Transfer students who met first-year writing requirements at their previous institution through coursework other than equivalents of WRD 103 COMPOSITION AND RHETORIC I and WRD 104 COMPOSITION AND RHETORIC II may petition their college offices for a waiver or substitution of this requirement. The petition should include a course description and, if possible, a syllabus. Petitions will be sent to the Director of First-Year Writing who will review them on a case-by-case basis and make a recommendation to the appropriate associate dean. Based on information from the course description and syllabus, a determination will be made as to whether the student
   i. should take WRD 103 COMPOSITION AND RHETORIC I and/or WRD 104 COMPOSITION AND RHETORIC II,
   ii. should substitute an upper-level writing course from an approved list for WRD 103 COMPOSITION AND RHETORIC I and/or WRD 104 COMPOSITION AND RHETORIC II, or
   iii. have part or all of the requirement waived. Elective credit will be adjusted accordingly to ensure that a student earns 192 credits for degree completion.

5. Applying transfer credit to the Experiential Learning requirement:

a. Internships: DePaul generally does not award Experiential Learning credit for internships or cooperative learning courses taken at another college or university. Students seeking to request a substitution should contact their home college office for more information on procedures. The student must make the case that the course meets the Experiential Learning guidelines.
b. Study Abroad: Students who transfer in credit from a full-year or term-long study abroad program through an accredited institution, consisting of no less than ten weeks abroad and no less than 12 credits abroad, and having received grades of no less than a "C" in these courses, may use one of these courses to fulfill the Experiential Learning Requirement.

6. The Liberal Studies Senior Capstone requirement may not be substituted or waived. Students who have more than one major should consult with their academic advisor as to their specific Capstone requirement(s).

7. Accumulation of additional credit that fulfills Liberal Studies requirements: In some circumstances, students may earn transfer credit that exceeds Liberal Studies requirements. For example, coursework from institutions organized by semesters earn 1.5 quarter hour credits for each semester hour. Hence each 3-credit course transferred from a semester institution earns 4.5 credits at DePaul. As a result, students may have credits that exceed the required number in a particular component of the program. These excess general education credits may be added up and, when the sum reaches 4 quarter hours (and multiples thereof), applied to other Liberal Studies requirements as follows:
   a. Students who have earned more than 30 credits may use the excess credit to fulfill the domain electives that replace Discover/Explore Chicago and the Focal Point Seminar. This substitution will be applied before any other.
   b. Students must complete at least one course in each domain, whether through transfer/test credit or DePaul credit. Once that requirement has been met, students may apply the excess credit to any of the following domains: Arts & Literature; Philosophical Inquiry; Religious Dimensions; Self, Society & the Modern World; Understanding the Past, or Scientific Inquiry (except for the Lab or Science as a Way of Knowing courses). College-specific rules may apply; see your academic advisor.
   c. Students may combine excess credit with the Modern Language Option within a single domain as long as they complete at least one course (transfer or DePaul) per domain.

8. Students who have test credit must have official score reports sent directly to the Transfer Articulation Center (TrAC).

Transfer Students Who Complete the GECC of the IAI
Transfer Credit, General Education Core Curriculum (GECC) of the Illinois Articulation Initiative (IAI)

DePaul University participates in the General Education Core Curriculum (GECC) of the Illinois Articulation Initiative (IAI) only. DePaul does not participate in Phase Two, the Major Phase.

Completion of the GECC/IAI at any participating college or university in Illinois ensures transferring students that most of the general education requirements at DePaul have been satisfied. Hence the GECC/IAI will be accepted as a package. Students who have completed the GECC/IAI should consult with their academic advisor in their college prior to registering for classes. Students who are in DePaul University’s Honors Program should consult with the program director as to their program requirements. Students who are in DePaul University’s School for New Learning (SNL) should consult with their academic advisors as to their program requirements. The additional requirements outlined in this policy apply only to those students in degree programs that participate in DePaul University’s Liberal Studies Program.

Students who have completed the GECC/IAI must also meet the following mission-specific requirements in DePaul’s Liberal Studies Program:
- Two Religious Dimensions courses (RD)
- Two Philosophical Inquiry courses (PI)
- Experiential Learning
- Senior Capstone

Guidelines

1. In an effort to enable students to make the most complete use of their transfer credit, some portion of the two RD and PI courses may be waived under certain circumstances, as long as all students complete at least one PI and at least one RD either through transfer credit or DePaul courses. The following guidelines will direct students and their academic advisors in applying GECC credit and meeting the additional mission-specific requirements:
   a. Students who have accumulated sufficient excess liberal studies credits, may apply the credit toward the waiver of up to one PI and up to one RD requirement; see the Liberal Studies Guidelines section (#7 under Transfer Students).
   b. Students who have used the equivalent of PI and/or RD courses to fulfill GECC/IAI requirements may substitute learning domain course credit (DePaul or Transfer) for a corresponding number of PI/RD mission-specific requirements.
   c. Students who have completed and transferred in the equivalent of a PI or RD course external to the GECC/IAI requirements may use that course to fulfill the appropriate mission-specific requirement.
   d. Students may choose to complete LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES in place of either a PI or RD requirement.

The following table summarizes these policies put into practice:

<table>
<thead>
<tr>
<th>Mission Specific Courses—4 Courses Required (2 PI and 2 RD)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Course</strong></td>
</tr>
<tr>
<td>Course 1</td>

</tr>
<tr>
<td>Course 3</td>
</tr>
</tbody>
</table>
Military Academic Adjustments

DePaul University will make academic adjustments for students in the military consistent with all applicable legal requirements. This could include, for example: academic adjustments with a course, options regarding withdrawals or leaves of absence, and readmission at the conclusion of active duty. The details of any academic adjustments are dependent on the student’s specific military orders.

Procedures Regarding Withdrawals and Leaves of Absence: Students who are in the military and called to active duty that interrupts their enrollment must complete the DePaul University Permanent Withdrawal/Military Leave Request in Campus Connect. Students should indicate “military” on the application in Campus Connect. Upon their return, they will meet with an academic advisor to discuss resuming their studies.

Students are encouraged to contact the Veterans Student Affairs Office (https://offices.depaul.edu/student-affairs/support-services/forspecific-populations/Pages/veteran-services.aspx) for more information about other specific procedures regarding withdrawals, leaves of absence, academic adjustments, and for information regarding other policies that may be particularly applicable to students in the military.

Missing Student Notification Policy

Any member of the university community who believes that a student is a missing student should immediately contact DePaul Public Safety at (773) 325-7777. A “missing student” is a student who has been reported absent from the University for 24 hours or more without any known reason. Any other DePaul office that receives a report of a missing student (for example: the Dean of Students Office, Residential Education, College/ School offices, etc.) must immediately refer that report to Public Safety.

Public Safety will promptly investigate all reports of missing students to determine the validity of the report. If the report of a missing student is validated, the designated DePaul office will, within 24 hours of receiving the initial report:

1. Notify local law enforcement that the student is a missing student.
2. If the missing student has designated an emergency contact(s), including an additional emergency contact specifically related to being a Missing Student, attempt to notify the missing student’s emergency contact(s) that the student is a missing student. Students are responsible for updating all emergency contact information in Campus Connect. All emergency contact information is only available to authorized DePaul personnel, and will only be released for approved purposes, such as to law enforcement in furtherance of a missing person investigation.
3. If the missing student is under 18 and not emancipated, attempt to notify the student’s parent/guardian that the student is a missing student.

Public Safety is responsible for communicating all validated reports of missing students to local law enforcement within 24 hours of receiving the initial report.

Public Safety will work with Student Affairs regarding all reports of missing students. Student Affairs is responsible for communicating with a missing student’s emergency contact(s) (and if applicable, a missing student’s parent/guardian) within 24 hours of receiving the initial report.

Students have the option to designate one or more emergency contacts in Campus Connect. This includes designating an additional emergency contact specifically related to being a Missing Student. If a student is a Missing Student, DePaul will notify those emergency contacts specifically designated as emergency contacts for Missing Student situations, and may notify other emergency contacts as well.

In order to make students aware of this policy, including the student’s option to designate an emergency contact in Campus Connect, this policy will be summarized in DePaul’s Annual Safety and Security Information Report, in the Undergraduate Student Handbook, and in the Graduate Student Handbook.

NonEnrollment/Discontinuation

Students who complete a term and do not enroll for the following term at DePaul remain active and eligible to enroll until they are formally discontinued. Discontinuation occurs when:

1. The student does not register in the term for which they were admitted.
2. The student does not register for three consecutive quarters (or for Law two semesters), excluding summers. In these cases students must seek readmission.

3. The student has not made progress toward the degree for three consecutive quarters (or for Law two semesters), excluding summers.

Candidates for theses, dissertations, and students on year-long study abroad programs are excluded from this rule. In these cases, students must meet with a college academic advisor to get permission to register and/or seek readmission.

Note: Students in the School of Music, the Theatre School, and the College of Law who intend to take a term (or terms) off must consult their college office.

Note: Students who are suspended from the University through the Student Conduct Process or the Academic Integrity process, or students who are participating in a University-initiated temporary medical withdrawal process, are not discontinued until they do not register or make progress toward the degree for three consecutive quarters (or for Law two semesters) following the date on which they could be eligible for return. In these cases students must seek readmission.

Placement Process

Online Placement Process

All new (non-SCPS) undergraduate students are required to complete the placement process for Math and Writing. Modern Language and Chemistry placement exams are optional. The placement process helps to ensure you are registered in a course that best builds on your current skills so that you can succeed in your studies at DePaul.

The Online Placement Process does not award course credit, but is used to provide course placement for entering freshman and transfer students. Placement tests at DePaul are offered in the areas of Mathematics, Chemistry and Modern Languages (Arabic, Chinese, French, German, Italian, Japanese, Polish, Russian, and Spanish).

Students will self-assess their skill level in Writing. Based on their responses they will be guided to select the Writing course that is most appropriate.

Exemptions from Online Placement Process

Some students are exempt from the process based on standardized test scores and/or prior course history. In addition, the mathematics and modern language requirements vary for some degree programs at DePaul. Before starting the placement process online, please review the exemptions and specific guidelines for different majors/colleges on the Office of Admission website.

Students are required to complete the Writing and all five sections of the Math placement process before they are allowed to register for orientation.

Posthumous Degree

A posthumous degree may be awarded to degree-seeking candidates who were actively enrolled, in good academic standing, and on track to have met all degree requirements by the end of the term in which their death occurred.

For all other cases, the Dean may request a Certificate of Accomplishment be awarded to honor the student’s progress toward the degree and accomplishments as a member in good-standing of the DePaul community.

Probation

Any student who fails to maintain a 2.000 cumulative grade point average (C average) is on academic probation. A student is removed from academic probation when the cumulative grade point average reaches the required minimum of 2.000. A student’s academic status is reviewed after any Autumn, Winter, Spring and Summer quarters in which the student was enrolled in at least 1 credit hour. A probationary student may be limited to 12 credit hours per quarter until a cumulative GPA of 2.000 is reached. A student who remains on probation for three sequential quarters of enrollment may be dismissed.

Registration

Students are responsible for planning their own programs and for completing course sequences and degree requirements. In planning each quarter’s course of studies, students should remember that required courses take precedence over elective courses, and that some advanced courses have pre-requisites that must be completed first. Students should be guided by their interests or needs where electives are indicated. A student regularly employed is advised to discuss his or her course load for each quarter with an advisor prior to registration. Advisors are available to assist students in planning programs and schedules.

General Regulations

1. Students can add, drop, or swap classes via Campus Connect. It is the student’s responsibility to verify that the transaction has been processed.

2. Students will receive credit only for classes for which they are registered.

3. Students who are not on the class roster are responsible for completing the steps necessary to resolve the issue. It is not the responsibility of the instructors to resolve the problem.

4. Student must officially register for classes by the stated deadline. For 10-week classes, the deadline is the end of the first week of the term. In addition, students should consult individual college regulations regarding special registrations (e.g., independent studies, internships, etc.).

5. The University is required to report enrollment and attendance to fulfill requirements established by several governmental agencies. To satisfy these requirements, it is University policy that attendance will be monitored in all classes. Each school or college maintains additional specific policies concerning attendance. Students should become familiar with these policies. Promptness is expected of a student for all class sessions. Tardiness of more than ten minutes is generally to be considered by the instructor as an absence.

6. Students’ status at the university will be changed from “active” to “discontinued” if:
a. There is no enrollment in the term of admittance.
b. There is no registration activity for three consecutive quarters - excluding summers - in which case these students must seek readmission;
c. No progress has been made towards their degree for three consecutive terms, excluding summers. (Candidates for theses and students on year-long study abroad programs are excluded from this rule.)

7. Students who have been “discontinued,” must apply and be approved for readmission to continue their studies.

Academic Calendar Formulas
Academic calendar deadline dates are based on the following formulas. These formulas are particularly important for classes that meet outside the standard (10 week term plus finals week) start and end dates for a term. Please consult your college office for specific dates relevant to your class.

- Students may not add classes after 10% of the scheduled class has elapsed.
- Students who drop a class or classes after 20% of the scheduled class has elapsed will be responsible for 100% tuition and a grade of W will be assigned.
- Students may not select a Pass/Fail grading option after 20% of the scheduled class has elapsed.
- Students may not select Audit (non-credit) grading option after 30% of the scheduled class has elapsed.
- Students may not withdraw from classes after 70% of the scheduled class has elapsed.

College/School Regulations
- Students may audit classes only with permission of their advisor or college office. Students may not change from the status of credit to audit or vice-versa after 30% of the term has elapsed (the third week of class for a 10 week class). Full tuition is assessed for audited classes.
- Students interested in earning credit in transfer must obtain approval from their college office prior to registration at the other institution.
- Extension courses taught through other accredited institutions are accepted only when the sponsoring institution itself conducts the courses and certifies the grade and credit through an official transcript. A DePaul degree-seeking student must obtain the written permission of his or her dean before enrolling in an extension course.

Half-time Student Status
A 6-11 quarter hour course load is considered half-time.

Self-service Enrollment Verifications are available through Campus Connect.

Requirement Term
Undergraduate DePaul University Requirements
A student will complete the degree requirements in place at the time of first enrollment as a degree seeking student.

College/School Requirements
A student will complete the college/school requirements in place at the time of first enrollment in the College as a degree-seeking student. A student who changes college/school while their studies are in progress will complete the college/school requirements in place at the time of the inter-college transfer.

A student who completes an inter-college transfer during a break between terms will follow the requirements in place for the term immediately following the break.

Major/Minor Requirements
A student will complete the major/minor (or corresponding "intended" or "pre" major/minor) requirements in place at the time of declaration. A student who changes majors/minors while their studies are in progress will complete the requirements in place at the time they declare the new major/minor (or corresponding "intended" or "pre" major/minor). Specific Liberal Studies or University Honors course requirements are determined by the student’s primary academic major.

A student who changes major/major during a break between terms will follow the requirements in place for the term immediately following the break.

In majors and minors with concentrations/tracks/specializations, the student’s major and concentration/track/specialization requirements will be determined by the term the student declares the concentration. Students should be aware that declaring or changing a concentration may change their degree requirements for the full major.

Readmission
A student who applies for readmission will be subject to all degree requirements in place in the enrollment term of readmission.

DePaul Admission Partnership Program
The initial term of official participation in the DePaul Admission Partnership Program (DAPP) will determine the student’s degree requirements. Once in the DePaul Admission Partnership Program, students who change college/school and/or major/minor follow the DePaul requirement policy guidelines detailed above.

Students must transfer and enroll at DePaul within three years of initial participation to lock in these degree requirements. Students who do not transfer within this time period will follow the degree requirements in place at the time they enroll at DePaul.
Dual Admission
Program requirements for dual admission students will be those in place at the time of the student’s first enrollment in the dual admission program at the partner institution.

Other Information
A student currently enrolled in a degree program in which revisions are approved while their studies are in progress may elect to formally adopt the revised requirements.

Requirements, Curriculum
Official changes in courses, course numbers, titles, descriptions, and prerequisites and minor changes in program requirements may be made on a quarterly basis.

Multiple changes or thorough revisions in the requirements of a program, major, or concentration or the addition of new majors or concentrations which have received the required university approvals may be made twice each year. Changes approved by May 15th will be effective for the Autumn term, and those by October 15th will be effective for the Winter/Spring/Summer terms.

Requirements, Program Termination/Substantial Change
If an undergraduate major, graduate or law degree program is terminated or a program undergoes substantial changes, there must be a plan in place and a commitment to provide a reasonable opportunity for those active in the program to complete the current requirements of the degree.

The chart below provides the maximum time frame allowed to complete the degree from the point of termination/change:

<table>
<thead>
<tr>
<th>Type of Program</th>
<th>Maximum Time Allowed¹</th>
</tr>
</thead>
<tbody>
<tr>
<td>Undergraduate majors</td>
<td>4 years</td>
</tr>
<tr>
<td>Undergraduate SNL programs</td>
<td>6 years</td>
</tr>
<tr>
<td>Graduate programs (thesis required)</td>
<td>4 years</td>
</tr>
<tr>
<td>Graduate programs (MFA)</td>
<td>4 years</td>
</tr>
<tr>
<td>Graduate programs (thesis not required) and Professional MJ and LLM programs</td>
<td>3 years</td>
</tr>
<tr>
<td>Doctoral programs (embedded master's program)</td>
<td>8 years</td>
</tr>
<tr>
<td>Doctoral programs (stand-alone)</td>
<td>5 years</td>
</tr>
<tr>
<td>Professional JD programs</td>
<td>4 years</td>
</tr>
</tbody>
</table>

¹ If a program wishes to set shorter time frame for completion, they must explain their rationale and obtain approval from Faculty Council.

For programs with substantial changes, students may elect to pursue the new requirements in accordance with the Requirement Term Policy (p. 1386). Those students who are not able to complete their degree requirements within this time frame will be moved into the new requirements. For programs that have been terminated, undergraduate students may request to pursue a new major and graduate students may apply to a new graduate program. In addition, those students who are not able to complete a terminated degree program within this time frame will be advised of other program opportunities that may be available.

Students are responsible for working with their advisors to develop a plan to finish within the stated timeframe. It is the student’s responsibility to complete required courses when they are offered. Students should not wait to complete required coursework.

For required courses that will no longer be offered, the department will provide substitutions. Waivers may also be granted; however the student must still meet the minimum credit hours required.

Students admitted into or those who are in the admission process for a terminated program will be advised of alternative programs.

Once a program has been approved for termination, students will no longer be admitted or readmitted into the program and students will no longer be able to declare that major or program. The only exceptions to this are active students officially in an “intended” or “pre” major or students officially in a combined bachelor’s/master’s program.

In accordance with the requirement term policy, students who are discontinued will not be eligible to be readmitted into a terminated program.

Transcripts
The Office of the University Registrar processes official transcript requests for DePaul University. Official transcripts can be requested online through Campus Connect.

The Family Educational Rights and Privacy Act of 1974 prohibits release of confidential transcript information without the student’s authorization.

Transcripts will be issued only after the student has fulfilled all financial obligations to the University.

Transfer Credit, Illinois Articulation Initiative (IAI)
Transfer Credit, General Education Core Curriculum (GECC) of the Illinois Articulation Initiative (IAI)
DePaul University participates in the General Education Core Curriculum (GECC) of the Illinois Articulation Initiative (IAI) only. DePaul does not participate in Phase Two, the Major Phase.

Completion of the GECC/IAI at any participating college or university in Illinois ensures transferring students that most of the general education requirements at DePaul have been satisfied. Hence the GECC/IAI will be accepted as a package. Students who have completed the GECC/IAI should consult with their academic advisor in their college prior to registering for classes. Students who are in DePaul University’s Honors Program should consult with the program director as to their program requirements. Students who are in DePaul University’s School for New Learning (SNL) should consult with their academic advisors as to their program requirements. The additional requirements outlined in this policy apply only to those students in degree programs that participate in DePaul University’s Liberal Studies Program.

Students who have completed the GECC/IAI must also meet the following mission-specific requirements in DePaul’s Liberal Studies Program:
• Two Religious Dimensions courses (RD)
• Two Philosophical Inquiry courses (PI)
• Experiential Learning
• Senior Capstone

Guidelines

1. In an effort to enable students to make the most complete use of their transfer credit, some portion of the two RD and PI courses may be waived under certain circumstances, as long as all students complete at least one PI and at least one RD either through transfer credit or DePaul courses. The following guidelines will direct students and their academic advisors in applying GECC credit and meeting the additional mission-specific requirements:
   a. Students who have accumulated sufficient excess liberal studies credits, may apply the credit toward the waiver of up to one PI and up to one RD requirement; see the Liberal Studies Guidelines section (#7 under Transfer Students).
   b. Students who have used the equivalent of PI and/or RD courses to fulfill GECC/IAI requirements may substitute learning domain course credit (DePaul or Transfer) for a corresponding number of PI/RD mission-specific requirements.
   c. Students who have completed and transferred in the equivalent of a PI or RD course external to the GECC/IAI requirements may use that course to fulfill the appropriate mission-specific requirement.
   d. Students may choose to complete LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES in place of either a PI or RD requirement.

The following table summarizes these policies put into practice:

<table>
<thead>
<tr>
<th>Course 1</th>
<th>Policy</th>
</tr>
</thead>
<tbody>
<tr>
<td>Course must be designated as PI (if course is DePaul PI or Transfer PI from outside GECC) or LSP Elective (if PI course is included in the GECC).</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Course 2</th>
<th>Policy</th>
</tr>
</thead>
<tbody>
<tr>
<td>Course must be designated as RD (if course is DePaul RD or Transfer RD from outside GECC) or LSP Elective (if RD course is included in the GECC).</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Course 3</th>
<th>Policy</th>
</tr>
</thead>
<tbody>
<tr>
<td>Course may be WAIVED with sufficient excess LSP credit. If there is not sufficient excess LSP credit, then the course must be designated as one of the following: PI or RD (DePaul or Transfer), LSP 200, or LSP Elective (if second PI or second RD course is included in the GECC).</td>
<td></td>
</tr>
</tbody>
</table>

2. If a course included in the GECC package also fulfills a specific course requirement in the student's primary major, that single course may be used to fulfill both requirements. Elective credit will be adjusted accordingly to ensure that a student earns 192 credits for degree completion.

3. Students transferring from an IAI participating institution with two or fewer IAI requirements remaining may elect to complete the GECC/IAI package with DePaul courses or additional transfer credit that meet the subject area and mission-specific requirements.

4. Students pursuing the GECC/IAI option must earn a grade of “C” or higher in both WRD 103 COMPOSITION AND RHETORIC I, and WRD 104 COMPOSITION AND RHETORIC II. Students must earn a grade of “C-” or higher in the courses that will apply to the primary major, secondary major, or minor. Students who have test credit must have official score reports sent directly to the Transfer Articulation Center for review.

Students who have earned an Associate of Arts (AA) degree or Associate of Science (AS) degree from an IAI participating institution have satisfied the requirements for the GECC/IAI.

This agreement is in effect for students who entered an associate or baccalaureate degree-granting institution as first-time freshmen in the summer of 1998 and thereafter.

For more information on applying transfer credit to the Liberal Studies program see the Liberal Studies Program Guidelines section of the handbook.

Transfer Credit, Undergraduate

Transfer Credit Conversion

DePaul University's academic calendar is based on the quarter system. College credit is accumulated on the basis of quarter hours. To convert credit hours from the semester system to the quarter system, multiply 1.5 (example: 3 semester hours x 1.5 = 4.5 quarter hours). The minimum number of hours required for graduation with a bachelor's degree is 192 quarter hours.

Types of Transfer Credit Accepted by DePaul University

The following statements describe DePaul's transfer credit policies:

1. DePaul will accept for transfer credit baccalaureate-level courses completed at baccalaureate granting US institutions that are fully accredited by one of the regional accrediting organizations. DePaul does not accept credit from institutions that are not regionally accredited.
2. DePaul will accept transfer credit from tertiary level international institutions that are formally recognized by their country's ministry of education or its equivalent. All international transfer credit must meet DePaul University, college-level appropriate content, which will be determined through a course-by-course review and approval process before credit is awarded. If the course syllabus or other course documentation is not written in English, students are responsible for translating the documents for review, when necessary. For credit earned through tertiary institutions abroad, credit will be determined by the standard credit conversion systems in place. In cases where the transcript does not articulate standard credits, credit will be awarded based on instructional time, as outlined in the Evaluation and Credit policy (one quarter hour granted per 7.5 hours of instructional time within a 10-week period). Transfer credit for one class through tertiary institutions abroad may be awarded up to a maximum of 9 quarter credits when official transcripts do not articulate standard credits (67.5 hours of instructional time within a 10-week period). Credits are processed as either international admissions transfer credit (a) or study abroad transfer credit (b).
   a. Transfer applicants seeking to transfer undergraduate credit to DePaul from a foreign institution in their countries of permanent residence/citizenship are required to submit a course by course evaluation from Educational Perspectives (EP), Educational Credential Evaluators (ECE) or One Earth International Credential Evaluations. As an alternative, students may petition to submit a course-by-course evaluation from another organization approved by the National Association of Credential Evaluation Services (NACES). To further facilitate the process of determining what credit will transfer to DePaul, students are required to submit course descriptions and may be asked for syllabi (translated into English).
   b. Current DePaul students interested in studying abroad are required to submit a non-DePaul study abroad program application, including course approval requests, by the application deadline listed on the Study Abroad office website. DePaul will award credit for courses completed through institutions that are formally recognized by their country's ministry of education or its equivalent, regardless of degree applicability within the institution. Transfer credit may be denied if courses are not pre-approved. Official transcripts written in a language other than English require an American Translators Association-certified translation into English.

3. DePaul will accept for transfer credit college-level courses that are earned in Associate of Arts and Associate of Science degree programs at 2-year institutions fully accredited by one of the regional accrediting organizations.

4. Course credit earned at 2-year accredited institutions in other degree programs, such as the Associate of Applied Sciences or Associate of Fine Arts degrees, will be reviewed for transfer credit on a course-by-course basis. When necessary, students will be expected to provide bulletin descriptions and course syllabi to facilitate the review process.

5. In general, courses presented for transfer from 2-year, regionally accredited institutions that are earned in a certificate or professional training capacity are not eligible for transfer credit. Examples of these programs include, but are not limited to: air conditioning, automotive technology, culinary arts, travel management, paralegal studies, fashion design, child care, electronics, and medical office assistant.

6. Developmental courses (for example, pre-college level courses in math or writing), whether from 2-year institutions or baccalaureate granting institutions, are not accepted for transfer credit.

7. Credit by examination is acceptable, in some areas. See the Evaluation and Credit and Evaluation and Credit/Limitations sections for details.

8. Any credit earned as part of one's military service through a regionally accredited institution will be reviewed on a course-by-course basis.

9. Credit for military training and education provided by the armed services will be considered in accordance with the recommendations of the American Council on Education (ACE). Students may apply a maximum of 12 semester or 18 quarter hours of military transfer credit that articulates with Military Science Transfer 100 toward their degree; military transfer credit that articulates with other DePaul coursework will follow the Evaluation and Credit Limitations policy. Students requesting military transfer credit must submit an official copy of their military record for evaluation. Students in the School for New Learning may qualify to apply Military Science Transfer 100 credit in excess of 12 semester or 18 quarter hours toward their degree requirements; should they subsequently transfer to another college within DePaul, the 12 semester or 18-quarter-hour limit will apply.

10. All transfer credit that students take while concurrently enrolled at DePaul must be approved by the student's college/school in order to apply to the DePaul degree.

Students may appeal to the Transfer Credit Articulation Center (TrAC@depaul.edu) for additional review of particular courses not accepted for transfer credit. Students who make such a request must be prepared to supply official course descriptions and course syllabi. The review of all transfer credit is subject to limitations in accordance with the educational policies of DePaul University.

Transfer Credit Course Regulations

For information regarding the amount of transfer credit that can be applied to the degree, please consult the Evaluation and Credit/Limitations (p. 1374) section of this Handbook.

1. Only courses with a grade of C- or higher will apply to the student's major or minor.

2. Students transferring the equivalent of WRD 103 and/or WRD 104 must have received grades of C- or better in these courses in order to fulfill the Liberal Studies requirement.

3. If a student has attempted a course more than once, only the most recent grade will be used for credit review. All other attempts will be considered "repeats" and will transfer no credit. Transfer courses will be identified as repeats if they meet the following criteria:
   a. The same course (as identified by course title and number) is taken more than once at the same institution;
   b. Two or more courses taken at different institutions are evaluated as meeting the same objectives.

4. If a student repeats a course at DePaul where transfer credit was awarded, all attempts of that course are considered in the application of the repeat policy.

5. Transferable courses or test credit (AP, IB, CLEP) may be applied to the major or minor, to Liberal Studies, or to open electives.

6. Due to rapid changes in some areas of major/minor study, along with various licensure standards, some courses or test credits otherwise applicable to the major or minor may be subject to a review to determine how current the content is. As a result of this review, the course or test equivalent in question may no longer be applicable to major or minor requirements. This review may be conducted by a faculty academic advisor or, when deemed appropriate, by a staff
academic advisor in consultation with faculty. If a transferable course or test credit is deemed no longer current, the student may be required to repeat the course or test credit course equivalent in order to complete the degree. Other transferable courses or test credits may be applied to the Liberal Studies Program, based on the most current articulations. Finally, transferable courses or test credits may be applied, at a minimum, towards open elective credit. If the student repeats a course, only the most recent attempt will apply toward the degree.

Tuition Policy

All tuition and fees are due to DePaul University by the published tuition due date for that term. All charges must be paid in-full by the payment date.

Tuition charges for any course registrations made after the due date must be paid in full within 24 hours of registration.

Tuition bills may be accessed online through Campus Connect. The student will be required to sign up for E-Bill to access their bills or to grant access to a guest user.

Students whose accounts show a balance due after the tuition due date will be subject to a late fee and prohibited from future registration, receiving transcripts and other university services.

Withdrawal Tuition

Students must withdraw from classes through the registration function in Campus Connect. Withdrawals processed via the web or through direct contact with the home school/college office are effective the day on which they are made. Simply ceasing to attend, or notifying the instructor, or nonpayment of tuition, does not constitute an authorized withdrawal from class and will result in academic as well as financial penalty.

When the withdrawal occurs, the tuition charge for courses during a 10-week quarter will be reduced according to the following schedule, in accord with the tuition package:

<table>
<thead>
<tr>
<th>Withdrawal</th>
<th>Refund</th>
</tr>
</thead>
<tbody>
<tr>
<td>Up to 20% or 2 weeks of a ten week term</td>
<td>100% refund</td>
</tr>
<tr>
<td>After 20% of the term</td>
<td>0% refund</td>
</tr>
</tbody>
</table>

Notes

• Students receiving financial aid are advised to contact a Financial Aid Counselor to discuss the consequences of a withdrawal impacting academic progress and aid eligibility at DePaul University or any other school to which they may transfer. Students in university housing are advised to contact Housing to discuss the consequences of withdrawal impacting eligibility to maintain residence.

• College/University Initiated (p. 1390)
• Student Initiated (p. 1390)

College/University Initiated

Under rare circumstances, DePaul University may need to administratively drop a student from a course (or courses) for which the student is registered. This policy outlines those instances and establishes the procedures to be followed by the University to drop a student from the course.

DePaul University reserves the right to administratively drop a student from a course (or courses) under a limited number of circumstances. These fall into two categories: those performed by the college offices and those performed by the Office of the Registrar.

College Office

A student may be administratively dropped from a course (or courses) by the home college, if the student is:

1. registered for a course (not repeatable for credit) for the third or more time and has not received appropriate permission to repeat the course again.
2. registered for a course (not repeatable for credit) in which the student originally earned a C- or better and has not received appropriate permission to repeat the course.
3. on probation and exceeds the allowable number of credit hours and has not received the appropriate permission to register for the additional hours.
4. registered for more than the maximum number of competencies allowed within competency-based courses (SNL).
5. academically dismissed from the University.
6. registered for a course that has been cancelled.

Office of the University Registrar

A student may be administratively dropped from a course (or courses) by the Office of the University Registrar, if the student has:

1. not met the prerequisites for the course and has not received appropriate permission to take the course without the prerequisite.
2. been suspended for the term or permanently dismissed from the University as the result of an academic integrity violation hearing or a student code of conduct judicial board hearing.

Student Initiated

Students who must withdraw either from a course or from the University may do so by using Campus Connect, the University’s web registration system. Students unable to use the web registration system should contact their home school/college office, whether in person, phone or email (emails must be sent from the student’s preferred email listed in Campus Connect). Students who are physically unable to contact the university may designate someone to act on their behalf.

Withdrawals processed through Campus Connect are effective the day on which they are made. Withdrawals processed through the student’s home school/college office are effective:

• in person: the date the student had the transaction processed in the office

A. Withdrawal from One or More Courses

Students who wish to withdraw from one or more courses within a term, must do so by the stated deadline dates for that term. Students who missed the deadline due to extenuating circumstances should consult section C.

Students who withdraw from all courses for a term, and who plan to return the next term, are eligible to register for the next term.

Students who plan to permanently withdraw from the University should consult Section B.

B. Withdrawal from the University

Students who decide to permanently withdraw from the University must do so using the DePaul University Permanent Withdrawal/Military Leave Request application in Campus Connect. Students are strongly encouraged to consult with their advisor before doing so.

1. Students enrolled for current and/or future terms are required to withdraw from all courses before requesting permanent withdrawal in the DePaul University Permanent Withdrawal/Military Leave Request application in Campus Connect.
2. Students who are not currently enrolled and wish to permanently withdraw from the university should complete the DePaul University Permanent Withdrawal/Military Leave Request application in Campus Connect.
3. Students who wish to return to the University after a permanent withdrawal must complete an application for readmission.

C. Late Withdrawals

In rare circumstances, students who missed the deadline to withdraw from a course (or courses), may request a late withdrawal from either the Dean of Students office or the student’s home college office.

1. Decision-making for late withdrawals resides primarily in the Dean of Students Office for personal/medical issues, and in the School/College Offices for all other issues. These principles underlie the decision-making processes:
   a. Decisions are guided by the best interests of the students.
   b. Decisions will be made in compliance with federal regulations.
2. Restrictions on requesting approval for late withdrawal:
   Requests for late withdrawals from one or more courses in a given quarter must be submitted to either the Dean of Students Office (for medical/personal withdrawals), or the student’s home School/College Office (for administrative withdrawals) by the following deadlines.

For Undergraduate/Graduate:

- Autumn Quarter: Last day of the last final exam of the subsequent winter quarter.
- Winter Quarter: Last day of the last final exam of the subsequent spring quarter.

- Spring Quarter: The end of the second week of the subsequent autumn quarter.
- Summer Terms: Last day of the last final exam of the subsequent autumn quarter.

For the College of Law:

- Fall Semester: Last day of the final exam period for the fall semester.
- Spring Semester: Last day of the final exam period for the spring semester.
- Summer Semester: Last day of the final exam period for the summer semester.

College of Law students filing a late withdrawal appeal in the Fall or Spring semester of the first year of law school must request withdrawal from all courses.

During their college career, students may be allowed one medical/personal approved administrative withdrawal and one college office administrative withdrawal, each for one or more courses in a single term.

University Resources

This section provides information on an array of university resources, all designed to help you make the most of your experience at DePaul. We encourage you to read through this whole section when you arrive at DePaul, and then refer back to individual pages for information on specific resources as you need them.

Adult, Veteran and Commuter Student Affairs

Through collaborations with university and external partners, the Office of Adult, Veteran and Commuter Student Affairs assists students in their transition to college, provides support, resources and programs that help students persist and succeed academically, and works to promote an environment that is inclusive of the non-traditional student experience in which adult, veteran and commuter students can thrive as engaged members of the DePaul community.

You can find more information here: Adult (https://offices.depaul.edu/student-affairs/support-services/for-specific-populations/Pages/adult-services.aspx), Veteran (https://offices.depaul.edu/student-affairs/support-services/for-specific-populations/veteran-services/Pages/default.aspx), and Commuter (https://offices.depaul.edu/student-affairs/support-services/for-specific-populations/Pages/commuter-services.aspx).

As a result of participating in Adult, Veteran, and Commuter Student Affairs programs, students will be able to:

- Demonstrate life, academic, and career skills.
- Actively manage their transition to DePaul student life.
- Demonstrate self-advocacy and utilize appropriate resources when needs arise.
- Overcome engagement barriers associated with their non-traditional student status to participate in and contribute to the DePaul Community.
Career Center

At the DePaul University Career Center, we believe the path to your successful future starts with you. By helping you understand and shape your passions, interests and skills, we connect you with majors, internships, jobs and opportunities so that you can take on Chicago—and the world—with vigor, knowledge and preparation. No matter where you are in your career search, whether it’s deciding on a major or career path, making a career change, or preparing for your first job interview, we can help.

- Explore career options whether you are just starting your job search or are looking for a change.
- Meet with a career community advisor (https://resources.depaul.edu/career-center/career-advising/Pages/career-communities.aspx) to talk about how your passions, skills and academic interests match a variety of careers.
- Gain experience and earn academic credit with an internship through the University Internship Program.
- Find a job with one of the thousands of employers who recruit DePaul grads. Login to Handshake (https://depaul.joinhandshake.com/login/) to get started.
- Connect with DePaul alumni through the Alumni Sharing Knowledge (https://resources.depaul.edu/career-center/services-resources/Pages/alumni-sharing-knowledge.aspx) (ASK) Network for career-related networking and mentoring.

The Career Center is located at DePaul’s Lincoln Park Campus in SAC 192 and at the Loop Campus in DePaul Center 9500. Students may contact the office at (312) 362-8437 for appointments, or visit the Career Center website (https://resources.depaul.edu/career-center/Pages/default.aspx) for additional information.

Center for Students with Disabilities

The Center for Students with Disabilities (CSD) coordinates DePaul University’s provision of accommodations and other services to students with disabilities pursuant to the Americans with Disabilities Act and Section 504 of the Rehabilitation Act. CSD regularly works with students diagnosed with a range of disabilities such as learning disabilities, ADHD, medical conditions, chronic illness, mental health disorders, and physical/visual disabilities, amongst others. Student success is at the core of the CSD’s mission and fits integrally with DePaul University as a diverse learning community.

Students are encouraged to enroll with CSD to receive accommodations and additional support services. CSD students are enrolled in all Colleges and Schools at DePaul, and may be full-time, part-time, undergraduate, or graduate level students. Some accommodations and services may include extended time on exams, assistance with note-taking, adaptive equipment, real-time captioning, classroom accommodations, advocacy, and assistive technologies amongst other support services.

CSD enrollment procedures require appropriate documentation of a student’s disability and other identified information, as well as a personal meeting with CSD staff.

CSD is also a resource for faculty and staff who may have questions about accommodating, or otherwise working with, students with disabilities.

CSD has two full-service office locations:
- Lincoln Park Campus, Student Center 370, 773/325-1677
- Loop Campus, Lewis Center 1420, 312/362-8002

For more information, please view the Center for Students with Disabilities website http://offices.depaul.edu/student-affairs/about/departments/Pages/csd.aspx or contact staff at csd@depaul.edu.

As a result of participating in Center for Students with Disabilities programs and services, students will be able to:
- Develop competencies in effective communication, critical thinking, technological prowess, and wellness skills to foster academic and personal success at DePaul and afterwards.
- Develop self-awareness and understanding of personal strengths and challenges to become effective self-advocates and assume their individual responsibilities in actively pursuing their roles in the academic community.
- Accept aspects of disability culture and diversity.
- Effectively manage personal and learning challenges to successfully interact in academic, professional, and social environments and as future contributing members of society.
- Demonstrate connections of acquired knowledge to other knowledge, ideas and experiences and relate knowledge to daily life.

Croak Student Legal Services

Croak Student Legal Services (CSLS) provides high quality, free and confidential legal advice to DePaul students on a wide range of common legal issues, including landlord disputes, misdemeanor criminal offenses and more. While we cannot represent you in court, we can help you understand your rights and obligations, provide general recommendations, and help you find useful resources, including referrals to licensed, practicing attorneys with experience related to your case. CSLS is available by appointment only. Please call (773) 325-1588 to set up an appointment. You can find more information at http://sls.depaul.edu (http://sls.depaul.edu/).

Dean of Students Office

The Dean of Students Office is an invaluable resource, advocate and support for providing and identifying resources and services for students. The office helps individuals in navigating the university, particularly during difficult situations, as in personal, medical, mental health, and/or family crises. The Dean of Students Office is also responsible for overseeing the Code of Student Responsibility and managing the Student Conduct Process.

Additional information is available from the Dean of Students Office http://offices.depaul.edu/student-affairs/about/departments/Pages/dos.aspx

As a result of participating in Dean of Students programs and services, students will be able to:

- Utilize appropriate university and community resources to manage personal, professional and academic challenges.
- Utilize self-assessment strategies and develop skills to become empowered self-advocates.
- Communicate community standards and take responsibility for choices and actions.

Department of Housing

The Department of Housing, through its quality facilities and dedicated staff, promotes safe and inclusive on-campus communities that support and empower student academic success and personal development.

For more information about options on the Lincoln Park and Loop campuses and how to apply for housing, visit http://offices.depaul.edu/housing (http://offices.depaul.edu/housing/).

DePaul Central

DePaul Central is your one-stop resource for helping students manage the business side of being a student. Services include: Account Transactions, Financial Aid Inquiries, Ordering Transcripts, Payment Plan Inquiries, Personal Financial Planning and Submitting Immunization Records.

DePaul Central ensures student issues are resolved in a timely manner and with the right level of attention and care they deserve so students can focus on what really matters: their academics.

- Visit with DePaul Central staff:
  - Lincoln Park: Schmitt Academic Center 101, 2320 N. Kenmore Avenue
  - Loop: DePaul Center Suite 9100, 1 E. Jackson Boulevard
- You also can get answers to many questions online or over the phone.
  - Email: dpcl@depaul.edu
  - Phone: (312) 362-8610
  - Web/Live Chat: depaulcentral.depaul.edu (http://depaulcentral.depaul.edu)
  - Facebook: /depaulcentral (https://www.facebook.com/DePaulCentral/)
  - Twitter: @depaulcentral (https://twitter.com/DePaulCentral/)
  - FATV: depaul.financialaidtv.com (https://depaul.financialaidtv.com/)
Financial Fitness at DePaul Central

Financial Fitness provides free services, resources and tools to help students manage costs from freshman year through graduation and beyond. Services include:

- Confidential one-on-one financial counseling appointments available.
- Comprehensive resources and tools available online.
- Workshops available by request.

Additional information is available from the DePaul Central office. Financial Fitness is located within DePaul Central's Lincoln Park Campus in SAC 101. Students can get additional information by visiting the website http://financialfitness.depaul.edu (http://resources.depaul.edu/financial-fitness/Pages/default.aspx) or calling (773) 325-8640.

Health Promotion and Wellness

Health Promotion & Wellness (HPW) provides holistic education, support and resources for individuals to create and sustain long-term, healthy behaviors.

Survivor Support Advocates

The Survivor Support Advocates within HPW provide confidential and holistic support to survivors of sexual violence, relationship violence and stalking. The Advocates provide emotional care; information about counseling, medical resources, reporting processes, academic accommodations and safety planning; and referrals and help with navigating appropriate on- and off-campus resources.

Alcohol and Substance Abuse Prevention

Alcohol and Substance Abuse Prevention at DePaul University stems from a harm-reduction approach, which encourages healthy choices and responsible decision-making regarding the use of alcohol, tobacco and other drugs. Students are also asked to consider their own safety and the safety of the community in relation to alcohol and substance use. The office offers various programs and presentations throughout the year, while also providing support to those in recovery or experiencing any issues related to substance misuse.

Health Education

Health Education includes providing resources, events, trainings, workshops and presentations on various health related topics. These topics include: sexual health, sexual violence, relationship violence, stalking, healthy relationships, alcohol and drug abuse prevention, mental health, stress, nutrition, meal planning, physical activity and more.

Office of Health Promotion and Wellness
Lincoln Park Student Center, Suite 302
2250 N. Sheffield Ave.
773-325-7129
hpw@depaul.edu

Co-Curricular Learning Outcomes

As a result of participating in Health Promotion and Wellness programs, students will be able to:

- Develop decision-making skills related to their personal health and community well-being.
- Utilize on and off-campus resources related to their well-being and the well-being of others.
- Demonstrate reflective thinking about the impact of their choices on themselves and others.
- Articulate the relationship between societal norms and their perception of their personal health and community well-being.

Health Services

Health Services are offered through Presence SAGE medical group. It is available to all enrolled students for a fee. If you live in a residence hall, with the exception of the University Center, you are automatically enrolled in DePaul Student Health Services.

Student Health Service is NOT health insurance; you may need additional coverage.

Additional information is available from the Office of Health Promotion and Wellness http://go.depaul.edu/healthservices (http://go.depaul.edu/healthservices/).

Language Learning Center

Free tutoring service is available in the Department of Modern Languages (MOL).

- Each tutor holds one-on-one meetings with students by appointment in the Language Learning Center (SAC 305).
- Tutors are generally available 8am-8pm, Monday through Friday each quarter (although specific hours may vary by language).
- Our tutors provide the following language-related assistance:
  - Helping improve students’ pronunciation;
  - Explaining grammar structures;
  - Practicing conversational skills;
  - Assisting with reading assignments;
  - Helping with writing assignments;
  - Offering other language-related support in all academic subjects.

To make a tutoring appointment, please call (773) 325-1888 or stop by the Language Learning Center (SAC 305).

The Language Learning Center also provides tutoring on weekends. Call the center for Saturday availability. The Center partners with the Learning Commons to offer free tutoring services in the Richardson library on Sundays. See the Learning Commons (http://library.depaul.edu/get-help/Pages/learning-commons.aspx) website for hours.

Learning Commons

The Learning Commons is a collaborative learning space located on the first floor of the John T. Richardson Library. It provides a variety of peer tutoring and career consulting services in one convenient location.

- Tutoring is available for many academic programs in the College of Science and Health
- Supplemental Instruction conducts peer-assisted study sessions for historically difficult courses
- The Career Center hosts resume review clinics
- Startup advising is provided by the Coleman Entrepreneurship Center
Services are free and available to all students on a walk-in basis. For a schedule or more information, see go.depaul.edu/learningcommons (http://library.depaul.edu/get-help/Pages/learning-commons.aspx).

Libraries

DePaul University provides information resources and services to students, faculty, and staff at three library locations and through a number of online programs. The University Library includes the John T. Richardson Library (https://library.depaul.edu/about/locations/lincoln-park/Pages/default.aspx) in Lincoln Park, and the Loop Library (https://library.depaul.edu/about/locations/loop/Pages/default.aspx) on the 10th floor of the DePaul Center. The Vincent G. Rinn Law Library (https://law.depaul.edu/library/Pages/default.aspx) is part of the College of Law and is located in the Lewis Center on the Loop Campus.

The University Library provides access to a full array of electronic resources to members of the DePaul community pursuing academic programs through campus partnerships and cohort-based programs, including:

Electronic Items
Electronic journals and e-books, scholarly databases, and other digital collections are available, all of which may be accessed through the library web site (https://library.depaul.edu/Pages/default.aspx).

Books & Other Items
Printed materials including books, journals and sheet music are available for use. The library also belongs to the I-Share consortium (https://vufind.carli.illinois.edu/vf-dpu/), which allows students to request books from other academic libraries in Illinois, and can order books from other sources as well using the interlibrary loan system. The library’s collection also includes DVDs, CDs, and an array of mobile technology tools (like phone chargers) for checkout.

Research Help
Librarians provide research support and information literacy instruction in person and via email, phone, text or chat reference services (https://library.depaul.edu/get-help/ask-a-librarian/Pages/default.aspx). Special Collections and Archives (https://library.depaul.edu/special-collections/Pages/default.aspx) provides a gateway for research utilizing rich primary source materials, unpublished documents, rare and specialized books, maps, graphic materials, and three dimensional objects.

Work Spaces
The Information Commons, located on the first and second floors of the Richardson Library, provides academic support services, spaces for collaborative work, and access to an array of academic computing resources. The 1581 Media Studios (https://library.depaul.edu/technology/spaces/Pages/Media-Production-Rooms.aspx), located on the second floor of the Richardson Library, provides access to media creation studios and a maker space (https://library.depaul.edu/technology/spaces/Pages/Maker-Hub.aspx). There are study rooms and work tables that can be reserved (https://libcal.depaul.edu/) for group work. Quiet study areas are available at both the Loop Library and the Richardson Library.

Office for Academic Advising Support

The Office for Academic Advising Support (OAAS) provides academic advising to students who are undeclared or who are looking to change or add a major. Advisors empower students to make academic choices that incorporate their individual interests, skills, and values. Advisors collaborate with all university colleges and schools and are familiar with the curriculum across all majors in order to assist students who are considering programs across multiple colleges. Additionally, OAAS meets with newly admitted transfer students who have not yet attended on campus orientation to review incoming credit and requirements for their chosen program.

OAAS is located on the Lincoln Park Campus in SAC 192 and on the Loop Campus in DePaul Center suite 9500. Students may contact the office at (773) 325-7431 to schedule appointments and can visit the OAAS website at oaas.depaul.edu (http://oaas.depaul.edu) for more information.

Office of Multicultural Student Success

ABOUT OMSS

The Office of Multicultural Student Success (OMSS) seeks to cultivate belongingness, retention and persistence to graduation for students of color, students who demonstrate financial need, first-generation college students, undocumented immigrant students, and students with marginalized genders and sexualities.

Our programs and services support students in and outside the classroom and help build inclusive communities, promote the cultivation of connections, and remove barriers to academic and personal success.

PROGRAM AREAS

Scholarships, Leadership, and Service

OMSS provides scholarships to facilitate the retention, persistence to graduation of first generation students and students of color who demonstrate financial need and a commitment to service and academic excellence. Announcements are posted and applications can be submitted through the DePaul Scholarship Connect Website

College Transitions

College transitions programming in the OMSS assists new students in their transitional year at DePaul. Through initiatives such as STARS Peer Mentoring program, the college transition team seeks to improve the sense of belonging and ease transition for our students

Identity Centered Engagement

OMSS provides culturally relevant co-curricular opportunities to participate, connect, and learn within DePaul community centering the experiences of marginalized communities. These experiences work to contribute to student’s personal and academic success as well as to their satisfaction with their DePaul experience. This area includes are identity specific student supports detailed below.

Post College Success Programming

With a focus on career and leadership development, the OMSS post college success programming prepares students with upper-class standing for a successful transition to life after graduation. By using identity-conscious approaches in curriculum based programs, we engage students in developing a post-college plan by identifying goals and strategies for career discernment or graduate school matriculation.
CULTURAL AND RESOURCE CENTERS + STUDENT SUPPORT

The OMSS Cultural & Resource Centers, located on the 3rd floor in O'Connell Hall offer identity-centered, programs, initiatives and services that promote student engagement, support and academic success through the development, implementation and assessment of powerful, collaborative programs and services that support student transitions, contribute to academic success and create connections with university wide resources

- LGBTQ+ Resource Center
- Black Cultural Center
- Latinx Cultural Center
- Asian, Pacific Islander, Desi- American Cultural Center

OMSS also serves as an institutional liaison for undocumented students providing holistic services to undocumented immigrant students. This includes identity-centered advocacy, career navigation, financial and legal resources, group conversations and ally resources.

Office of Multicultural Student Success

DePaul University

Lincoln Park Student Center

2250 North Sheffield Avenue, Suite 105

Chicago, IL 60618

773-325-7325

As a result of participating in Multicultural Student Success programs, students will be able to:

- Demonstrate effective decision-making related to personal financial management.
- Demonstrate healthy decision-making related to effective self-care.
- Identify and use relevant campus resources in order to navigate their academic experience.
- Apply the concepts of Socially Responsible Leadership in order to challenge oppressive systems and behaviors and work to create change.
- Construct a career plan towards post-college career success.

Residential Education

Residential Education is responsible for responding to student crises, building a sense of community and DePaul spirit, managing the student conduct process and providing students with high-quality opportunities for engagement. Residence directors, a graduate assistant, and resident advisors live on campus and are available to assist students with transition concerns and ongoing advocacy.

Additional information is available from the Office of Residential Education http://offices.depaul.edu/student-affairs/about/departments/Pages/resed.aspx.

As a result of participating in Residential Education programs, students will be able to:

- Demonstrate personal responsibility and respect for others in communities of which they are a part.
- Demonstrate decision-making skills related to practical life situations.
- Respect the perspective of others and contribute to creating an inclusive community.
- Initiate a sense of belonging with the DePaul community.

Science and Math Tutoring Services

Currently enrolled DePaul students have access to free tutoring services offered by departments in the College of Science and Health. Tutoring is regularly available in the areas of chemistry, mathematical sciences, nursing, physics, and psychology (statistics only). All tutors are either graduate students or upper-level undergraduate students in their respective fields of study.

A schedule of tutoring services (https://csh.depaul.edu/student-resources/Pages/tutoring-services.aspx) is available online and is subject to change every term – check the schedule regularly for updates. No appointments are necessary to receive tutoring. Tutoring services are also available in the Learning Commons (https://library.depaul.edu/get-help/Pages/learning-commons.aspx) which is located in the Richardson Library.

Student Affairs

Student Affairs delivers programs and services that encourage student academic success by providing opportunities for meaningful engagement and by providing student support that removes or reduces barriers to the successful completion of their degree. We deliver support services, such as counseling, advising and disability accommodations, in addition to programs that encourage students to explore their personal identities, faiths, values and roles in a complex world.

Student Involvement

The Office of Student Involvement fosters student learning and success by providing opportunities for engagement through a wide variety of campus activities and organizations, holistic and intentional advising of student leaders, and the development of purposeful and mutually beneficial partnerships across the University and City of Chicago to maximize access to resources for a rich DePaul campus experience.

Additional information is available from the Office of Student Involvement go.depaul.edu/involvement (http://go.depaul.edu/involvement/)

As a result of participating in Student Involvement programs, students will be able to:

- Apply communication, critical thinking, and professional skills to involvement opportunities on campus.
- Participate thoughtfully and respectfully as members of an inclusive community.
- Develop a sense of self, awareness of others, and understand their responsibility for choices and actions.

Supplemental Instruction

Supplemental Instruction (SI) is a program operating out of the Office for Teaching, Learning and Assessment. Supplemental Instruction aims to help students successfully complete historically difficult classes through peer-assisted study sessions. All students in a targeted SI course are urged to attend SI sessions.
For more information, please visit: http://resources.depaul.edu/supplemental-instruction/Pages/default.aspx (http://resources.depaul.edu/supplemental-instruction/Pages/default.aspx)

Technology Resources

The following list introduces some of the technology resources that are available to students at DePaul. Additional information is available on the Information Services website (is.depaul.edu (http://is.depaul.edu)).

Campus Connect

Campus Connect provides access to many of DePaul's primary services, including course registration, grades, tuition billing, transcripts, Demon Express and much more.

Computer Labs and Classrooms

There are many technology-enabled classrooms across the DePaul campuses. Technology resources in these rooms include desktop computers, LCD projectors, connections for laptops, and integrated, amplified sound systems. Specialty rooms exist across the university for classes with specific needs, and additional technology is available upon request.

DePaul also has computers available for use by students, faculty or staff, located in computer labs, lounges and lobbies across the campuses. Additional technology access is available to residence hall students; each residence hall is outfitted with study lounges allowing for student access to computers and printers at any time.

CTA U-Pass

Your CTA U-Pass provides unlimited rides on the CTA bus and rail systems during an academic term. It also functions as a Ventra card, allowing you to add funds to be used during university breaks. All students meeting the requirements are automatically enrolled in the program. If your eligibility changes before the last day to drop courses, your U-Pass will be adjusted accordingly.

U-Pass pick-up dates are held at the beginning of each quarter. Students must pick up CTA U-PASS cards in person, by presenting a valid DePaul ID Card. Your Ventra U-Pass is valid for 5 years. It will be deactivated and reactivated each quarter based on your enrollment. Do not discard your U-Pass, or you will be assessed a fee by the CTA for a replacement card.

Full details regarding the U-Pass can be found on the DePaul U-Pass website http://upass.depaul.edu/.

DePaul ID Card

Your DePaul ID Card serves as your identification to enable access to various DePaul buildings, computer labs, printers, and libraries and is used to purchase items using your Demon Express account and meal plan. You must have your ID Card on hand while on campus. New students receive their ID Card at student orientation. Students can also visit ID Services to obtain an ID card.

Demon Express

Demon Express is a prepaid debit account that is linked to your DePaul ID Card. Demon Express can be used at DePaul cafeterias, coffee shops, campus bookstores, libraries, printers, copiers, and other areas.

Desire2Learn (D2L)

D2L is an electronic course management system that enables interaction between students and faculty. D2L incorporates document sharing, discussion boards, e-mail, an online grade book, assignment drop boxes, chat rooms, small group areas, online quizzes, and more. To log in, use your Campus Connect username and password. If you need assistance using D2L, training is available.

Discounts

Demon Discounts provides discounted goods and services, including computer hardware and software, to DePaul students.

E-Mail

All students are provided a free DePaul e-mail account. Additional information is available on the Information Services website.

Printing

The Intelliprint system allows students to print from DePaul computer labs. Students use their DePaul ID card to pay for prints and are entitled to a set amount of free printing per quarter. Additional funds can be added to Demon Express as needed. You may also print to the Intelliprint system wirelessly.

Residence Hall Technology

Lincoln Park residence hall rooms are equipped with high speed Internet connections, wireless Internet access, and free telephone connections.

Technical Support

The Technology Support Center (TSC) is your first point of contact for technical assistance. The TSC provides free assistance via phone, e-mail and web for current DePaul students. We support all DePaul wireless networks, telephones, e-mail accounts and software. Please call (312) 362-8765 or email tsc@depaul.edu for support.

Direct, walk-up support is also available through the Genius Squad; a free tech support resource available to all current students. The Genius Squad can support desktops, laptops, phones, tablets, and other personal electronic devices. Please see go.depaul.edu/gs (http://go.depaul.edu/gs/) for more information.

Technology Training

Media Production and Training (MPT) provides technical training to the DePaul community, allowing employees and students to fully utilize current technologies. MPT offers both online training resources as well as campus workshops.

Lynda.com - DePaul students, faculty, and staff can log in to lynda.com (https://www.lynda.com/) for unlimited free access to a vast online library of the instructional videos covering the latest software, creative, and business skills.

Wireless Internet Access

Wireless internet access is available to students on all DePaul campuses.
University Center for Writing Based Learning

The University Center for Writing-based Learning (UCWbL) works with all members of the DePaul University community to support writers and to promote the use of writing in teaching and learning through five major initiatives:

The Writing Center

Peer writing tutors offer DePaul students, staff, faculty, and alumni individualized and small group writing feedback on any type of writing at any stage of the writing process. Tutors provide feedback face-to-face on the Lincoln Park and Loop campuses, through asynchronous written feedback or screencast video appointments, and in real time online through IM and webcam. The Writing Center also facilitates Writing Groups at the Loop and Lincoln Park campuses and serves as DePaul’s official source of student support for ePortfolios.

The Writing Fellows Program

The Writing Fellows Program links undergraduate peer writing tutors with writing-intensive courses across the curriculum — from physics to journalism, religious studies to computer science. Writing Fellows work with the same set of writers from a particular course for an entire quarter, responding to two of their papers through written comments on drafts and in individual conferences.

Workshops

Workshops are customized, research-based, interactive events that focus on a variety of writing topics. The Workshops Team collaborates with other members of the DePaul community to facilitate in-class workshops that combine their writing expertise with others’ disciplinary expertise. Popular topics include crafting a thesis, being an effective peer reviewer, citing sources, and designing ePortfolios.

The Collaborative for Multilingual Writing and Research (CMWR)

The CMWR provides ongoing support for DePaul’s increasingly linguistically diverse community. At the root of our work, the CMWR aims to offer UCWbL tutors opportunities to reflect on and improve upon their work supporting English as additional language writers. We also work in close collaboration with other programs and offices to bring together the many languages and cultures of the DePaul community to share culture, language, experiences, and knowledge.

Outreach

Outreach promotes, supports, and celebrates the work of writers and tutors at DePaul. This takes the form of collaborating with partner offices on events such as the Peer Tutor and Mentor Summit and Banned Books Week, as well as regularly raising awareness of the UCWbL and its initiatives.

For more information, please visit www.depaul.edu/writing (http://www.depaul.edu/writing/).

University Counseling

University Counseling Services (UCS) is committed to providing a range of services intended to help currently enrolled DePaul students remove barriers to academic and personal success by addressing emotional, psychological and interpersonal concerns.

UCS provides group counseling, personal growth-oriented workshops, time-limited individual psychological counseling, psychiatric evaluation and crisis management services. Sometimes a skill-building workshop or small group counseling experience is the most effective intervention given a student’s presenting concerns.

UCS has a diverse, caring, and competent professional staff that works from a variety of theoretical perspectives. Some students find that talking to a counselor once is sufficient to resolve their immediate concern. Our counselors can help you in a variety of ways because they are excellent sounding boards, compassionate listeners, and skillful experts in the problems of living. If further services would be beneficial, these will be discussed and recommendations will be made by the counselor.

UCS offers primarily short-term counseling and provides referrals and linkages to community providers when students could benefit from longer term services.

Co-Curricular Learning Outcomes

As a result of participating in University Counseling programs and services, students will be able to:

• Develop skills for coping, communication, self-care, and responsible decision-making.
• Identify and make progress on their personal goals.
• Identify and navigate resources both within DePaul University and within the surrounding community in order to remove barriers to academic or personal success.
• Enhance their self-awareness, self-worth, and emotional health.

Graduate Student Handbook

• University Information (p. 1398)
• Graduate Academic Policies (p. 1414)
• University Resources (p. 1427)

University Information

The Handbook provides University policies that support both academic and behavior expectations.

The University reserves the right to change programs, courses and requirements; and to modify, amend or revoke any rules, regulations, policies, procedures or financial schedules at any time during a student’s enrollment period provided.

In addition to the policies and information included in this Handbook, your college or school may have specific guidelines, policies, and procedures for which you are responsible. Please consult your college section.

The Handbook also includes sections on General Information and University Resources.

About DePaul

DePaul University was founded in 1898, by the Congregation of the Mission (or Vincentian) religious community, which follows the teachings of 17th century French priest St. Vincent de Paul. The university’s mission
emphasizes academic excellence, service to the community, access to education and respect for the individual.

**University Officers**
A. Gabriel Esteban, Ph.D.
President
Rev. Dennis H. Holtschneider, C.M., Ed.D.
Chancellor
Salma Ghanem, Ph.D.
Interim Provost
Jeffrey J. Bethke
Executive Vice President
Rev. Edward R. Udovic, C.M., Ph.D.
Secretary of the University

**DePaul University Mission**

This mission statement embodies the principal purposes of DePaul University. As such it is the nexus between past, present and future; the criterion against which plans are formulated and major decisions made; the bond which unites faculty, students, staff, alumni, and trustees as an academic community. As a university, DePaul pursues the preservation, enrichment, and transmission of knowledge and culture across a broad scope of academic disciplines. It treasures its deep roots in the wisdom nourished in Catholic universities from medieval times. The principal distinguishing marks of the university are its Catholic, Vincentian, and urban character.

**Central Purposes**

DePaul, in common with all universities, is dedicated to teaching, research, and public service. However, in pursuing its own distinctive purposes, among these three fundamental responsibilities this university places highest priority on programs of instruction and learning. All curricula emphasize skills and attitudes that educate students to be lifelong, independent learners. DePaul provides sufficient diversity in curricular offerings, personal advisement, student services, and extracurricular activities to serve students who vary in age, ability, experience, and career interests. Full-time and part-time students are accorded equivalent service and are held to the same academic standards.

As a comprehensive university, DePaul offers degree programs at the undergraduate and graduate levels and a range of professional programs. The liberal arts and sciences are recognized not only for their intrinsic value in undergraduate and graduate degree programs, but also because they are foundational for all specialized undergraduate programs and supportive of all advanced professional programs. The university maintains that depth of scholarship to offer the doctorate in selected academic disciplines. Libraries, computer resources, and other academic support services match the levels and diversity of degree programs.

Research is supported both for its intrinsic merit and for the practical benefits it offers to faculty, students, and society. Broadly conceived, research at the university entails not only the discovery and dissemination of new knowledge but also the creation and interpretation of artistic works, application of expertise to enduring societal issues, and development of methodologies that improve inquiry, teaching and professional practice.

In meeting its public service responsibility, the university encourages faculty, staff and students to apply specialized expertise in ways that contribute to the societal, economic, cultural and ethical quality of life in the metropolitan area and beyond. When appropriate, DePaul develops service partnerships with other institutions and agencies.

**Students and Faculty**

DePaul invites to its programs of study students from across the nation. Originally founded for students from the greater Chicago area, and still serving them predominantly, DePaul continues its commitment to the education of first generation college students, especially those from the diverse cultural and ethnic groups in the metropolitan area. Admission standards for all degree programs are selective or highly selective. In admitting students the university places greatest weight on intellectual potential and academic achievement. It seeks diversity in students’ special talents, qualities, interests, and socio-economic background.

DePaul University seeks to manage its resources effectively so as to control the costs it charges students for programs and services. Moreover, it makes available as much financial aid as possible to assure access to a broad range of talented students. The university identifies and offers special assistance to students of high potential who have been handicapped by educational, personal or societal obstacles beyond their control.

From its first charter DePaul has supported a philosophy which now is expressed as being an equal opportunity educator and employer. DePaul continues to provide equal opportunities to students and employees without regard to age, national origin, race, sex, handicap, creed or color. Moreover, it strives to recruit faculty and staff who reflect the diverse mix of the student body.

The faculty, learned yet learning, gives substance to the mission of the university. These men and women personify the intrinsic value of scholarly inquiry and the force of creative and intellectual efforts. Through their dedication to learning, their contributions to a personalistic environment, and their faith in the potential of their students, the faculty and staff serve as role models for students.

**Distinguishing Marks**

By reason of its Catholic character, DePaul strives to bring the light of Catholic faith and the treasures of knowledge into a mutually challenging and supportive relationship. It accepts as its corporate responsibility to remain faithful to the Catholic message drawn from authentic religious sources both traditional and contemporary. In particular, it encourages theological learning and scholarship; in all academic disciplines it endorses critical moral thinking and scholarship founded on moral principles which embody religious values and the highest ideals of our society.

On the personal level, DePaul respects the religiously pluralistic composition of its members and endorses the interplay of diverse value systems beneficial to intellectual inquiry. Academic freedom is guaranteed both as an integral part of the university’s scholarly and religious heritage, and as an essential condition of effective inquiry and instruction.

The university derives its title and fundamental mission from St. Vincent de Paul, the founder of the Congregation of the Mission, a religious
community whose members, Vincentians, established and continue to sponsor DePaul. Motivated by the example of St. Vincent, who instilled a love of God by leading his contemporaries in serving urgent human needs, the DePaul community is above all characterized by ennobling the God-given dignity of each person. This religious personalism is manifested by the members of the DePaul community in a sensitivity to and care for the needs of each other and of those served, with a special concern for the deprived members of society. DePaul University emphasizes the development of a full range of human capabilities and appreciation of higher education as a means to engage cultural, social, religious, and ethical values in service to others.

As an urban university, DePaul is deeply involved in the life of a community which is rapidly becoming global, and is interconnected with it. DePaul both draws from the cultural and professional riches of this community and responds to its needs through educational and public service programs, by providing leadership in various professions, the performing arts, and civic endeavors and in assisting the community in finding solutions to its problems.

Adopted by the Board of Trustees
November, 1991

Vincentian Identity
The university derives its title and fundamental mission from St. Vincent de Paul, the founder of the Congregation of the Mission, a Roman Catholic religious community whose members, Vincentians, established and continue to sponsor DePaul. Motivated by the example of St. Vincent, who instilled a love of God by leading his contemporaries in serving urgent human needs, the DePaul community is above all characterized by ennobling the God-given dignity of each person. This religious personalism is manifested by the members of the DePaul community in a sensitivity to and care for the needs of each other and of those served, with a special concern for the deprived members of society. DePaul University emphasizes the development of a full range of human capabilities and appreciation of higher education as a means to engage cultural, social, religious, and ethical values in service to others.

Academic Calendar
Academic calendars are available on the Academic Affairs website (https://academics.depaul.edu/calendar/Pages/default.aspx).

Admission
Admission to graduate programs is determined by each individual graduate program. Please consult the catalog of the respective college for additional information. For general information or to apply to a graduate program consult the Office of Admission website (https://www.depaul.edu/admission-and-aid/types-of-admission/Pages/graduate-student.aspx).

Schools and Colleges
Driehaus College of Business
Established in 1912, the Driehaus College of Business is the nation's tenth oldest business school and serves individuals and organizations seeking access to the highest quality business education as a means for achieving intellectual and professional goals. The College also encompasses our highly respected graduate programs in business.

The Kellstadt Graduate School of Business prepares students to be leaders by frequently updating its programs to keep pace with the dynamics of global business.

College of Communication
The College of Communication provides students with a combination of timeless principles and up-to-the-minute tools, whether they're pursuing journalism; public relations and advertising; media studies; radio, television and film; relational, group and organizational communication; or intercultural communication.

College of Computing and Digital Media
The College of Computing and Digital Media (CDM) offers students a collaborative education where technology, artistry and business intersect. CDM is organized into three schools:

- The School of Cinematic Arts is home to our animation and cinema programs, which merge creativity, technology, imagination, technique, vision and execution.
- The School of Computing houses programs across the technology spectrum, and combines theoretical fundamentals with hands-on practice.
- The School of Design – CDM's newest school – is home to programs in graphic design, interactive and social media, game development, human computer interaction, and digital communication and media arts.

College of Education
The College of Education offers degree programs in bilingual/ bicultural education; counseling; curriculum studies; early childhood education; educational leadership; elementary education; middle school mathematics education; reading specialist education; secondary education; social and cultural foundations of education; special education; sport, fitness and recreation leadership; and world language education.

College of Law
The DePaul College of Law was one of the first law schools in the country to introduce educational innovations like the study of negotiation techniques, courses in international criminal law and pre-trial courses in skills techniques. Today, our health law and intellectual property programs are among the best in the country, according to U.S. News & World Report.

College of Liberal Arts and Social Sciences
The oldest college at DePaul, the College of Liberal Arts and Social Sciences (LAS) offers more than 28 undergraduate and 30 graduate degree programs. Courses meet during the day, evenings and on weekends, primarily on the Lincoln Park Campus.

College of Science and Health
The College of Science and Health (CSH) was established in 2011 to help its students meet the demands of the growing fields of science and health. CSH offers multiple undergraduate majors and graduate programs in the areas of biology, chemistry, environmental science, mathematics, nursing, physics and psychology.
School of Music

DePaul's School of Music was founded in 1912 and is dedicated to excellence in both music teaching and performance. When they're not working with DePaul students, many of the school's faculty serve as members of the Chicago Symphony Orchestra, Lyric Opera of Chicago, or the Grant Park Symphony Orchestra, or as some of the city's most prominent freelance, chamber and jazz musicians.

School of Continuing and Professional Studies (formerly The School for New Learning)

The School of Continuing and Professional Studies builds upon DePaul University's recognized success in educating adult learners interested in a range of innovative and timely degree programs and non-degree continuing education opportunities. Its undergraduate and graduate degrees, offered on-campus, online, and in corporate settings, are particularly designed to accommodate adult learners who must balance claims of work, family, and/or community responsibilities with their educational pursuits.

The Theatre School

Founded in 1925 as the Goodman School of Drama, The Theatre School at DePaul is the Midwest's oldest theatre training conservatory. Known for its highly structured program and set in a world-renowned theater city, the school has earned a reputation as a standard of excellence in American professional theatre training.

DePaul Campuses/Locations

Students of any school or college may register for classes on any campus, arranging hours and courses in a manner designed to afford maximum educational advantage.

Campuses

The Lincoln Park Campus is situated about three miles north of the Chicago Loop in the vicinity of Webster (2200 N), Halsted (800 W) and Racine (1200 W). The offices for the College of Liberal Arts and Social Sciences, the College of Science and Health, the School of Music, the College of Education, and The Theatre School are located on this campus.

The Loop Campus is located at 1 East Jackson Boulevard, between State, Jackson and Wabash. The offices for the Driehaus College of Business, the College of Computing and Digital Media, the College of Communication, the College of Law and the School of Continuing and Professional Studies are located on this campus.

Suburban Sites

Rosalind Franklin University of Medicine and Science is located 3333 Green Bay Road in North Chicago, Illinois. DePaul students have the option of taking the Master's Entry in Nursing Practice (MENP) on the RFU campus.

Overseas Locations

Tangaza College located in Nairobi, Kenya.

Bahrain Institute of Banking and Finance located in Manama, Bahrain.

Academic Partnerships

DePaul University has entered into a variety of relationships with other educational institutions to provide enhanced learning opportunities for students.

American University in Paris

DePaul and The American University of Paris (AUP) are partnering to offer an innovative two-year program leading to an MBA from DePaul’s Kellstadt Graduate School of Business and a M.A. in Cross-cultural and Sustainable Business from AUP.

Catholic Theological Union

With permission, upper-level students in Catholic Studies and Religious Studies may elect to complete courses at the Catholic Theological Union.

Illinois Institute of Technology

Through a five-year joint program between DePaul and the Illinois Institute of Technology, students may earn a degree in physics from DePaul and degree in engineering from IIT, with a concentration in Mechanical, Aerospace, Electrical, or Computer Engineering.

IIT/Chicago Kent College of Law

Students in DePaul's College of Law may pursue courses in specialized areas of legal study at IIT/Chicago Kent College of Law.

Loyola University Chicago School of Law

Students in DePaul's College of Law may pursue courses in specialized areas of legal study at Loyola University Chicago School of Law.

NorthShore University Health System

DePaul offers a Doctor of Nursing Practice degree in Nurse Anesthesiology in conjunction with NorthShore University Health System's School of Nurse Anesthesia in Evanston.

Northwestern Memorial Hospital Clinical Schools – School of Nuclear Medicine Technology & Radiation Therapy

Through a partnership with Northwestern Memorial Hospital Clinical Schools, select DePaul students may pursue bachelor of science degrees in Allied Health Technologies in either Nuclear Medicine Technology or Radiation Therapy.

Rosalind Franklin University of Science and Medicine

DePaul has partnered with the Rosalind Franklin University of Science and Medicine in North Chicago to provide numerous degree program offerings, including:

- RN to MS in Nursing
- MA, Health Communication
- Master's Entry to Nursing Practice (MENP)
- 3+4 PharmD
Rush University
In conjunction with the Department of Health Systems Management in the College of Health Sciences at Rush University Medical Center, the Kellstadt Graduate School of Business of the College of Commerce offers a joint MBA/MS (Master of Science in Health Systems Management) degree program.

Truman College, City Colleges of Chicago
Through an agreement with the City Colleges of Chicago, students may complete their first years in college at Truman College, then seamlessly transfer their credits towards a DePaul undergraduate degree through the School for New Learning.

Wright College, City Colleges of Chicago
Through an agreement with the City Colleges of Chicago, students may complete their first years in college at Wright College, then seamlessly transfer their credits towards a DePaul undergraduate degree through the School for New Learning.

Study Abroad Opportunities
DePaul partners with a substantial number of institutions around the world to provide a wide variety of study abroad options for students. Information about those agreements can be found on the International Programs website (http://international.depaul.edu/).

Accreditation
DePaul University is a private, not-for-profit, Catholic institution accredited by:

The Higher Learning Commission
230 South LaSalle Street, Suite 7-500
Chicago, IL 60604-1413
Phone: (800) 621-7440 / (312) 263-0456
Fax: (312) 263-7462
Email: complaints@hlcommission.org
Web: https://www.hlcommission.org/Student-Resources/complaints.html

Students may provide feedback or register complaints with the Higher Learning Commission at the contact information listed above.

Programmatic/Specialized Accreditation
DePaul University is a private, not-for-profit, Catholic institution, and has been accredited by numerous associations and organizations.

Complaints and Grievances

DePaul University emphasizes the development of a full range of human capabilities and appreciation of higher education as a means to engage cultural, social, religious, and ethical values in service to others.

In support of this mission, DePaul University is committed to treating every member of its community with dignity, justice and respect fostering a positive learning environment and providing quality service. It is important for students to know how to address concerns and issues that may be contrary to this commitment.

Complaints or concerns that a policy or procedure has been incorrectly or unfairly applied can often be resolved through an initial conversation with the staff, faculty member or department where the issue originated and his/her supervisor if necessary.

DePaul has established a number of policies and procedures for responding to particular types of concerns. Contact information for these policies and procedures can be found in the bottom section of this page:

- Concerns about grades are addressed through the University's Grade Challenge policy. Detailed information is available in the Academic Handbook section of the University Catalog.

- Concerns about academic integrity are addressed through the Academic Integrity policy and process. Detailed information is available on the Academic Integrity website.

- Concerns related to student conduct are addressed through the Code of Student Responsibility, and the Student Conduct Process. Detailed information is available in the Academic Handbook section of the University Catalog.

- Concerns about discrimination or harassment on the basis of a variety of protected characteristics are addressed by the Office of Institutional Diversity and Equity through the Anti-Discrimination and Anti-Harassment Policy and Procedures.

- Concerns based on sexual violence, sexual harassment, or other sex discrimination (Title IX) are addressed through the DePaul’s Title IX Coordinator located in the Office of Institutional Diversity. Detailed information is available on the Office of Public Safety website (https://offices.depaul.edu/public-safety/Pages/default.aspx) or in the Code of Student Responsibility (p. 1472) section of the University Catalog.

- Concerns about the confidentiality of education records (FERPA-Family Educational Rights and Privacy Act), are addressed through the Office of the University Registrar.

Concerns about academic issues relating to faculty or staff can often be resolved through an initial conversation with the faculty, staff member or student employee involved in the situation. Therefore, students with academic complaints or concerns should address the issue following the steps indicated below:

1. The issue should first be discussed with the faculty or staff member.
2. If this does not resolve the issue the student should then discuss the issue with the department chairperson or program director for faculty issues or the individual’s supervisor for staff. If you are unsure of the appropriate college contact, please see below for a directory of College and College Dean’s Offices.
3. If the issue is still not resolved, the student should then discuss the matter with the Office of the Dean of the faculty member’s college for faculty issues or the department supervisor for staff issues.
4. If the issue is still not resolved, the student may discuss the issue with the Office of the Provost.

The Dean of Students Office is a central location to which students can turn with problems they have been unable to resolve. The Dean of Students Office hears student concerns and helps students understand their options for resolving the concerns and/or locating appropriate services: http://offices.depaul.edu/student-affairs/about/departments/Pages/dos.aspx.

In addition, the University Ombudsperson is available to provide consultation about conflict resolution, to clarify policies and procedures, and to help find the right person or department to respond to questions. Students may also always choose to report concerns or misconduct through the University’s confidential reporting mechanisms: 877.236.8390 or https://compliance.depaul.edu/hotline/index.asp (https://compliance.depaul.edu/hotline/)

The U.S. Department of Education requires institutions offering online education to provide contact information for students to file complaints with its accreditor and state agencies. Contact information for DePaul’s regional accreditor (the Higher Learning Commission), programmatic/specialized accreditor and state agencies is available in the Handbook section of the University Catalog.

Honor Societies
Since 1954, DePaul University has recognized academic honorary societies in order to highlight students' superior academic achievement and leadership. Students are selected to join honorary societies based on their superior academic performance within their specific major or across all colleges. DePaul University strives to recognize students' outstanding academic achievement and is proud of the rich tradition that these valuable organizations have provided to the university community. Below is a list of each honorary society and its academic discipline.

- Beta Alpha Psi – Accounting, Finance and MIS
- Kappa Delta Pi - Education
- Psi Chi - Psychology
- Sigma Pi Sigma - Physics
- Phi Alpha Theta - History
- Omicron Delta Epsilon - Economics
- Sigma Theta Tau - Nursing
- Pi Sigma Alpha – Political Science
- Sigma Tau Delta - English
- Lambda Pi Eta - Communication
- Sigma Delta Pi - Spanish
- Gamma Kappa Alpha - Italian
- Phi Delta Delta - International Education
- Theta Alpha Kappa - Religious Studies
- National Society of Collegiate Scholars - All
- Upsilon Pi Epsilon - Computer Science
- Iota Iota Iota - Women's and Gender Studies
- Lambda Alpha - Anthropology
- Gamma Theta Upsilon - Geography
- Order of Omega - Fraternity and Sorority Community
- Pi Alpha Alpha - Public Administration
- Nu Lambda Mu - Nonprofit Management and Leadership
- Pi Epsilon Pi - Writing Studies
- Phi Sigma Tau - Philosophy
- Nu Rho Psi - Neuroscience

University Learning Goals and Outcomes

Preamble
In common with all universities, DePaul strives to ensure that its students come away from their experience with knowledge and skills that will enable them to fulfill their personal and professional aspirations, interact productively with others in all their diverse perspectives, contribute meaningfully to society, and continue learning throughout their lives. Moreover, DePaul shares with other universities the goal that students will use their knowledge and skills to conduct themselves ethically and humanely, with an appreciation for the past and an eye towards shaping an even better future.

At the same time, DePaul's mission — Catholic, Vincentian, urban — calls on us to consider these broad goals for learning in a manner that honors the university's distinctive qualities. DePaul's Catholic heritage encourages us to study religious traditions, and to critically examine the moral underpinnings of all academic disciplines. The example of St. Vincent, who worked with people from all strata of society in order to address urgent human needs, infuses our understanding of both education and service with a concern for social justice, for the university mission statement reminds us that "the DePaul community is above all characterized by ennobling the God-given dignity of each person." As an urban university, DePaul’s deep involvement in multiple communities, within Chicago and beyond, invites us to both draw on the city's rich opportunities for learning and serve as partners in helping them move forward. In sum, the mission statement tells us, “DePaul University emphasizes the development of a full range of human capabilities and appreciation of higher education as a means to engage cultural, social, religious, and ethical values in service to others.”

With the university’s mission as their foundation, these Learning Goals and Outcomes prepare students to engage in the world of the twenty-first century, carrying with them the heritage and values that distinguish DePaul.

Goal 1. Mastery of Content
This goal embraces the breadth and depth of ideas, theories, approaches, and information which DePaul students encounter through and beyond their studies.

Outcomes: DePaul graduates will demonstrate and be able to apply:

- general knowledge of cultures, religions, science, the arts, history, and computational reasoning.
- specialized knowledge and skills from within a specific discipline or field.

Goal 2. Intellectual and Creative Skills
In order to fully engage with knowledge, whether for a specific purpose or for its own sake, DePaul students are encouraged to develop the ability to think critically and imaginatively, formulate their own understanding, and effectively communicate their ideas. This goal articulates specific skills that comprise these broader abilities.

Outcomes: DePaul graduates will be able to:

- systematically access, analyze and evaluate information and ideas from multiple sources in order to identify underlying assumptions, and formulate conclusions.
- solve quantitative problems.
- create and support arguments using a variety of approaches.
- use existing knowledge to generate and synthesize ideas in original ways.
- communicate clearly in speech and writing.
Goal 3. Personal and Social Responsibility
This goal honors the notion that knowledge reflects and contributes to the values of individuals and communities. DePaul students, in particular, are challenged to consider their own values in light of the university’s mission.

Outcomes: DePaul graduates will be able to:

• articulate their own beliefs and convictions, as well as others’ beliefs, about what it means to be human and to create a just society
• articulate what is entailed in becoming a self-directed ethical decision-maker and living a life of personal integrity.
• evaluate ethical issues from multiple perspectives and employ those considerations to chart coherent and justifiable courses of action.
• benefit their communities through socially responsible engagement and leadership.

Goal 4. Intercultural and Global Understanding
This goal speaks to the likelihood that, in our diverse and increasingly interdependent world, the future depends on individuals being able to learn from each other and make the best use of finite resources.

Outcomes: DePaul graduates will demonstrate:

• respect for and learning from the perspectives of others different from themselves.
• knowledge of global interconnectedness and interdependencies.
• knowledge to become a steward of global resources for a sustainable future.

Goal 5. Integration of Learning
Given the wide range of opportunities for learning at DePaul, it is important for students to develop the ability to consider relationships among individual experiences of learning so as to make meaning of their education in all its variety.

Outcomes: DePaul graduates will be able to:

• relate their learning – curricular and co-curricular – to multiple fields and realms of experience.
• make connections among ideas and experiences in order to synthesize and transfer learning to daily practice.
• design, develop, and execute a significant intellectual project.

Goal 6. Preparation for Career and Beyond
This final learning goal builds on all the rest and calls on students to be ready to apply their knowledge and skills to the changing world that awaits them.

Outcomes: DePaul graduates will be able to effectively:

• set priorities and allocate resources.
• apply strategies for a practice of life-long learning.

Additional Notes
These University Learning Goals and Outcomes were approved by Faculty Council and the Interim Provost in October 2012.

A prior version of this document was drafted in Spring 2011 by a group of faculty, staff and students in the early stages of the strategic planning process that led to Vision 2018. In Autumn 2011, at Faculty Council’s direction, the draft went to the university’s Committee on Learning and Teaching, which sought input from stakeholders across the university and incorporated their valuable contributions into the revised document here. As a result of this process, the University Learning Goals and Outcomes represent a true community effort.

These university-wide goals do not exhaust the learning goals pursued at DePaul. Notably, they do not explicitly refer to the expectations specific to the various schools and departments. Nor will they be pursued in the same manner nor to the same degree in every unit. Nevertheless, the education of all recipients of DePaul undergraduate degrees should be characterized by these goals along with the goals specific to the student’s unit. Since graduate and professional schools encounter students at different stages of their education and at different levels of maturity, their approaches to these goals and their methods of measuring them will have to be adjusted accordingly.

Graduate Program Learning Outcomes
DePaul is committed to ensuring educational excellence in each of our academic programs. Articulating learning outcomes for each of our academic programs is an important first step in our ongoing assessment and improvement cycle. By having well-defined learning outcomes as a guide, our programs are positioned to implement and assess quality educational experiences. These outcomes are also mapped to institutional learning goals, further strengthening the connection to overall student learning at DePaul University.

College of Business
• Accountancy (MBA) Learning Outcomes (p. 44)
• Accountancy (MSACC) Learning Outcomes (p. 46)
• Applied Economics (MBA) Learning Outcomes (p. 115)
• Audit and Advisory Services (MSAA) Learning Outcomes (p. 154)
• Business Analytics (MS) Learning Outcomes (p. 178)
• Business Strategy and Decision Making (MBA) Learning Outcomes (p. 182)
• Computational Finance (MS) Learning Outcomes (p. 237)
• Custom MBA (MBA) Learning Outcomes (p. 287)
• Doctorate in Business Administration (DBA) Learning Outcomes (p. 321)
• Economics and Policy Analysis (MS) Learning Outcomes (p. 347)
• Enterprise Risk Management (MS) Learning Outcomes (p. 388)
• Entrepreneurship (MBA) Learning Outcomes (p. 390)
• Entrepreneurship (MS) Learning Outcomes (p. 392)
• Finance (MBA) Learning Outcomes (p. 431)
• Finance (MSF) Learning Outcomes (p. 434)
• Hospitality Leadership (MBA) Learning Outcomes (p. 515)
• Hospitality Leadership and Operational Performance (MS) Learning Outcomes (p. 517)
• Human Resources (MSHR) Learning Outcomes (p. 520)

Academic Advising, Statement on

Academic Advising at DePaul helps students achieve their educational, personal, and career goals by providing guidance and assistance in the decision-making process. Academic Advising is most effective when all participants anticipate their future needs, commit to the process, do their part, and then reflect on their results. Students should work closely with their advisors to plan workable educational goals, to understand the degree options and requirements, to understand the financial implications of their decisions, to assess their strengths and challenges as scholars, and to clarify realistic career objectives for themselves upon graduation.

Students bear ultimate responsibility for decisions and actions that determine their success at DePaul University.

- Students will make informed decisions and register for classes on time.
- Students will obtain the necessary information for course selection and planning in their individualized programs.
- Students will make and keep appointments with their advisors.
- Students will communicate honestly and fully in these advising discussions.
- Students will regularly reflect on the consequences, both academic and financial, of their decisions as they progress in their academic careers toward life choices.

Advisors are responsible for helping students improve their decision making skills.

- Advisors guide students through this learning process during regular interactions at key points during their academic careers.
- Advisors will be available on a regular basis for consultation and encourage students to make and keep regular advising appointments.
- Advisors will monitor their advisee’s academic progress.
- Advisors will encourage students to consult available material related to their program and career choice.
- Advisors will encourage students to reflect on the academic and financial consequences of their decisions about degree programs and course-taking plans.
- Advisors will assist students to set realistic career goals that extend beyond their time at DePaul.
- Advisors will encourage students to incorporate their basic values and beliefs into their decision making process.

The university is responsible for providing the infrastructure for students, faculty, and staff to support effective advising.

- The university will provide the information that students and their advisors need to make informed and timely decisions.
- The university will provide adequate resources of personnel, funding and facilities to support the advising process.
- The university will clearly communicate to advisors and students the policies and options regarding student financial aid.
- The university will regularly evaluate the policies and procedures surrounding advising to improve the advising process on an ongoing basis.
- The university will provide training to help both advisors and students work more effectively together.

- The university will acknowledge the important contribution advisors make by recognizing advising within the institutional reward system.

Tuition Rates

Tuition rates are available on the Student Financial Accounts website (https://offices.depaul.edu/student-financial-accounts/cost-of-attendance/). Financial aid applicants must meet the federal eligibility requirements for financial aid, and if asked, provide documents as needed to support eligibility.

- You must be a U.S. citizen or eligible non-citizen.
- You must be accepted and currently active in an eligible graduate or professional degree program, or a financial aid-eligible non-degree graduate program. For most financial aid programs, and for loan deferment, you most enroll in your program at least half-time. Your courses must be taken for credit and must be part of your degree or financial aid-eligible non-degree graduate program.
- Audited courses are not eligible for financial aid consideration. In addition, if it is determined that you have completed your degree or your financial aid-eligible non-degree graduate program requirements, or if you wish to repeat a course for which you have previously earned credit, your financial aid options are limited and you should contact the Office of Financial Aid at DePaul Central for more information.
- You must be in good academic standing and comply with the federal satisfactory academic progress requirements (https://www.depaul.edu/admission-and-aid/financial-aid/maintain-eligibility/sap/Pages/default.aspx) in your course of study.
- You must not be in default on any federal loan or owe a repayment on any federal grant.
- You must comply with all federal regulations governing Selective Service registration and use of funds for educational purposes.
- You must meet all federal eligibility requirements. To learn more about these eligibility requirements, including information about any prior drug conviction and federal student aid eligibility, please refer to the FAFSA questions and answers at http://studentaid.ed.gov/eligibility/.

Scholarships

Scholarships and assistantships are awarded at the program level by your college office and academic department. Please consult your college or school for additional information. You may also visit DePaul Scholarship Connect (https://depaul.academicworks.com/opportunities/) throughout the year to see specific scholarship opportunities available.

Double Demon Scholarship

DePaul is committed to your continued professional and personal growth, both while you are a student and after you graduate from DePaul. This scholarship is available to DePaul alumni doing graduate work at DePaul. It covers 25 percent of the tuition for a master’s degree, graduate level
non-degree coursework or graduate level coursework in select certificate programs.

Alumni from any of DePaul's colleges who are admitted into a graduate program -- including degree, non-degree or select certificate programs -- automatically qualify for the Double Demon Scholarship. Both full-time and part-time students are eligible. No scholarship application is required.

(Note: This scholarship cannot be used in conjunction with other DePaul scholarships, waivers or awards. University employees are eligible for other tuition benefits and are not eligible. It does not cover coursework from the Center for Professional Education (CPE), Institute for Professional Development (IPD), coursework in a doctoral program or a master of fine arts (MFA), Music, Theatre, Law and a few other select programs.)

DePaul Graduate Catholic Scholarship

Eligible alumni of any U.S. Catholic college or university can receive a 10% discount off of tuition for graduate and professional programs -- including degree, non-degree or select certificate programs. Students automatically qualify for the Graduate Catholic Scholarship. Both full-time and part-time students are eligible. No scholarship application is required.

(Note: This scholarship cannot be used in conjunction with other DePaul scholarships, waivers or awards. University employees are eligible for other tuition benefits and are not eligible. Additionally, it does not cover coursework from the Center for Professional Education (CPE), Institute for Professional Development (IPD), coursework in a doctoral program or a master of fine arts (MFA), Music, Theatre, Law and a few other select programs.)

Veterans Assistance

DePaul’s Office of Veteran Affairs handles the following VA educational benefit programs:

- The Post-9/11 GI Bill® (Chapter 33) (http://www.benefits.va.gov/gibill/post911_gibill.asp) - for those who served at least 30 consecutive days on active duty after September 10, 2001
- The Post-9/11 GI Bill® Yellow-Ribbon program (http://www.benefits.va.gov/gibill/yellow_ribbon.asp) - for qualified Post-9/11 applicants
- The Montgomery GI Bill® – Selective Reserve (Chapter 1606) (http://www.benefits.va.gov/gibill/montgomery_bill.asp)
- The Survivors’ and Dependents’ Educational Assistance Program (Chapter 35) (http://www.benefits.va.gov/GIBILL/DEA.asp) - for spouses and children of deceased or disabled veterans
- The Vocational Rehabilitation Program (Chapter 31) (http://www.benefits.va.gov/vocrehab/) - for disabled veterans approved by Veterans Affairs for study at DePaul
- The Marine Sergeant John David Fry Scholarship (http://www.benefits.va.gov/GIBILL/Fry_scholarship.asp) - this additional provision of the Post-9/11 GI Bill® may be awarded to a surviving spouse and children of an active duty member of the Armed Forces, who has died in the line of duty, on or after September 11, 2001. Eligible children may be married and under the age of 33.

Additional information specific to veteran students (http://www.depaul.edu/admission-and-aid/Pages/veteran-student.aspx) is available through the Admission and Aid website.

DePaul DREAM Statement

At DePaul University we affirm the dignity of the individual. We value diversity and culture because these are part of our core values and traditions as a Catholic, Vincentian, and urban university. DePaul University has decided to take a strong and public stand for supporting undocumented students, and DREAM Act legislation. We believe supporting undocumented students is smart policy that will yield significant benefits for our university, city, state, and nation. We also know these young people who enter our doors are part of the next great generation who will build our collective future. It is for this reason that DePaul admits students regardless of their citizenship status. Because we welcome these students, it is incumbent upon all members of the DePaul community to understand DePaul’s position on assisting undocumented students, realize the value that they bring to our university, and support their success as we support all of our students.
Graduate Academic Policies

General Information

This section of the handbook provides an alphabetical listing of all University policies, procedures, and regulations related to academics. As a student, you are responsible for adhering to the policies, procedures, and regulations included here, so please familiarize yourself with them. In addition, consult your college or school catalog for information specific to your program.

Academic Integrity

DePaul University is a learning community that fosters the pursuit of knowledge and the transmission of ideas within a context that emphasizes a sense of responsibility for oneself, for others and for society at large. To preserve the quality of education offered to students, the university is responsible for maintaining academic integrity and protecting all those who depend on it, including DePaul’s community partners and institutional affiliates. Violations of academic integrity, in any of their forms, are, therefore, detrimental to the values of DePaul, to the students' own development as responsible members of society, to the pursuit of knowledge, and to the transmission of ideas. All members of the university community share the responsibility for creating conditions that support academic integrity.

Violations of academic integrity include but are not limited to the following categories: cheating; plagiarism; fabrication; falsification or sabotage of research data; destruction or misuse of the university’s academic resources; alteration or falsification of academic records; academic misconduct; and complicity. Violations do not require intent. This policy applies to all courses, programs, learning contexts, and other activities at the university, including but not limited to experiential and service-learning courses, study abroad programs, internships, student teaching, providing false information on an application, and not disclosing requested information. If an instructor finds that a student has violated the Academic Integrity Policy, the appropriate initial sanction is at the instructor’s discretion. Actions taken by the instructor do not preclude the university from taking further action, including dismissal from the university. Conduct that is punishable under the Academic Integrity Policy could also result in criminal or civil prosecution.

Additional Information and the complete Academic Integrity policy can be found on the Academic Integrity website (https://offices.depaul.edu/academic-affairs/faculty-resources/academic-integrity/Pages/default.aspx).

Academic Standing

Graduate Programs

Good Academic Standing

To be considered in good academic standing, DePaul graduate students pursuing a doctoral degree, master’s degree, certificate or other credential must maintain, at a minimum, the required cumulative grade point average for good academic standing as stipulated by their degree program.

A graduate non-degree student must maintain at a minimum the grade point average stipulated by the college for good academic standing.

Failure to Maintain Good Academic Standing

Students who fail to maintain good academic standing may be subject to dismissal from their program in accordance with procedures established by their program/college. Many programs have established time or course limitations within which a student must return to good standing before they may be dismissed from the program.

Please consult the University Catalog, college and program-specific handbook sections for details.

Note

In addition, for those participating in federal financial aid programs, failure to maintain good academic standing will affect compliance with the federal satisfactory academic progress requirements.

College of Law

Good Academic Standing

To be considered in good academic standing, DePaul students pursuing a degree or certificate must maintain, at a minimum, the required cumulative grade point average for good academic standing as stipulated by their degree program.

A law non-degree student must maintain at a minimum the grade point average stipulated by the college for good academic standing.

Failure to Maintain Good Academic Standing

Students who fail to maintain good academic standing may be subject to dismissal from their program in accordance with procedures established by their program/college. Many programs have established time or course limitations within which a student must return to good standing before they may be dismissed from the program.

Please consult the University Catalog, college and program-specific handbook sections for details.

Note

In addition, for those participating in federal financial aid programs, failure to maintain good academic standing will affect compliance with the federal satisfactory academic progress requirements.

Joint Degree Programs

Good Academic Standing

To be considered in good academic standing, DePaul students pursuing a joint degree program where two degrees are awarded simultaneously (for example: two master’s degrees, a master’s degree and a juris doctor degree or a juris doctor and a master’s of law degree) should consult the
degree requirement section of the University Catalog to determine the required minimum grade point average for good academic standing.

**Failure to Maintain Good Academic Standing**

Students who fail to maintain good academic standing may be subject to dismissal from the joint program in accordance with procedures established by the program. Many programs have established time or course limitations within which a student must return to good standing before they may be dismissed from the program.

**Note**

In addition, for those participating in federal financial aid programs, failure to maintain good academic standing will affect compliance with the federal satisfactory academic progress requirements.

**Admission**

Admission decisions at DePaul University are based on a strong academic record, as well as personal and occupational achievements, ambition, energy, resourcefulness and leadership. The University recognizes that each individual brings unique abilities to the DePaul community and works with every student through a personalized and holistic application process. DePaul University does not discriminate on the basis of race, color, national origin, religion, gender, sexual orientation, age or handicap in admissions, employment, or the provision of services.

For information on the types of admission, see the Admission page (p. 1348) in the University Information section of this handbook.

**Dismissal/Readmission**

Dismissal and Readmission decisions are made by each graduate program. Please consult your school or college handbook for additional information.

A student dismissed for a conduct-related reason, such as through the Student Conduct Process or the Academic Integrity Process is not eligible for readmission to the University. The only exception to this is a program specific dismissal, in which case the student is not dismissed from the University, only the specific program. In this case, the student is eligible to apply to other programs.

**Evaluation and Credit**

At DePaul, credit towards a degree is accumulated on the basis of quarter hours (for College of Law, see the College of Law Handbook (p. 1449)). The unit of credit is one quarter hour granted for 45 minutes of instructional time and at least two hours of additional assigned work each week, or an equivalent amount of work for other credit-bearing activities. The standard course extends over a ten-week period and a final examination week; courses that occur over a different time-period (e.g. in the summer or December quarter) must incorporate the same total amount of instructional time and additional assigned work per credit hour as a standard course. Undergraduate and graduate courses carry 4 quarter hours of credit unless otherwise specified. Credit is earned if a student receives an A through D, or PA grade. Undergraduate credit may also be earned through credit-by-examination and transfer credit. The School for New Learning and the School of Nursing also may award credit by examination.

Among other requirements specified in their respective catalogs, graduation with a bachelor’s degree requires that a student successfully complete a minimum of 192 quarter hours of college credit; graduation with a master’s degree requires that a student complete a minimum of 45 quarter hours of credit beyond the bachelor’s degree. The requirements for approved combined bachelor’s/master’s degree require at least 36 quarter hours of credit beyond the bachelor’s degree (with a minimum of 12 applicable graduate hours completed as part of the bachelor’s degree). Graduation with a doctorate degree will require the minimum number of quarter hours specified by the degree awarding department or college.

**Evaluation and Credit/Cross-listing Graduate with Undergraduate Courses**

The Department of Education (ED) wants to ensure that students in graduate programs are earning credit for graduate-level work and that federal financial aid programs are available to graduate students. In its charge to carry out the ED rules, our accreditor, the Higher Learning Commission, has called on institutions to create policies that will “distinguish the various levels of learning that the institution offers, such as graduate and undergraduate, and may distinguish among departments or disciplines.”

Graduate programs will continue to abide by the policies set out in the Graduate Handbook of the DePaul University Catalog. In addition, to ensure that graduate programs are appropriately distinct from undergraduate programs in the same or a related discipline, all graduate degree programs will include the following:

1. A core of courses that is offered solely at the graduate level, supported by a written rationale for the content of the core.
2. Course syllabi, including learning outcomes and assignments appropriate for graduate-level coursework. Any graduate courses that are cross-listed with undergraduate courses must have separate syllabi for each side of the cross-list, with distinct learning outcomes and assignments for each group. Undergraduate courses must be at the 300-level or above to be cross-listed with a graduate course.

**Evaluation and Credit/Limitations**

Consult your graduate program for information regarding the transfer of graduate credit from other institutions.

**FERPA/Annual Notification**

**Annual Notification for DePaul Students: Your FERPA Rights**

We want to take this opportunity to provide you with a summary of your rights under The Family Educational Rights and Privacy Act (FERPA), the federal law that governs release of and access to student education records. Please view Understanding FERPA, a DePaul Central Learning Center video for information and instructions.

Your FERPA rights include:

1. The right to inspect and review your education record within 45 days after the University receives a request for access. If you want to review your record, contact the University office that maintains the record to make appropriate arrangements.
2. The right to request an amendment of your education record if you believe it is inaccurate or misleading. If you feel there is an error in your record, you should submit a statement to the University official responsible for the record, clearly identifying the part of the record you want changed and why you believe it is inaccurate or misleading. That office will notify you of their decision and advise you regarding appropriate steps if you do not agree with the decision.

3. The right to provide written consent before DePaul discloses personally identifiable information contained in your education records, except to the extent that FERPA authorizes disclosure without consent.

Some examples of exceptions include:

- School officials with "legitimate educational interests." A school official has a legitimate educational interest if the official has a professional need to review your education record in order to fulfill his or her official responsibilities. Examples of people who may have access, depending on their official duties, and only within the context of those duties, include: university faculty and staff, agents of the institution, students employed by the institution or who serve an official institutional committees, and representatives of agencies under contract with the University.

- To officials of another school where the student seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student's enrollment or transfer.

- To authorized representatives of the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or state and local educational authorities, such as a state postsecondary authority that is responsible for supervising the university's state-supported education programs. Disclosures under this provision may be made in connection with an audit or evaluation of federal- or state-supported education programs, or for the enforcement of or compliance with federal legal requirements that relate to those programs. These entities may make further disclosures of personally identifiable information to outside entities that are designated by them as their authorized representatives to conduct any audit, evaluation, enforcement or compliance activity on their behalf.

- In connection with financial aid for which the student has applied or which the student has received, if the information is necessary to determine eligibility for the aid, determine the amount of the aid, determine the conditions of the aid, or enforce the terms and conditions of the aid.

- To organizations conducting studies for, or on behalf of, the school, in order to:
  i. develop, validate or administer predictive tests;
  ii. administer student aid programs; or
  iii. improve instruction.

- To accrediting organizations in order to carry out their accrediting functions.

- To appropriate officials in connection with a health or safety emergency.

- Information the school has designated as "directory information."

Directory information may be released without your written consent and includes the following: name, address, e-mail, telephone number, date of birth, college of enrollment, year in school, major, enrollment status (including current enrollment, dates of attendance, full-time/part-time or withdrawn), degrees, awards and honors received (e.g., Dean’s List recognition), participation in officially recognized activities and sports, weight and height of members of athletic teams, photographs (including ID pictures), videos depicting and/or concerning University life, and previous educational institutions attended. Please note that you have the right to withhold the release of directory information except to the extent that FERPA authorizes disclosure without consent (see #3 above).

To withhold the release of your directory information, you must log into the student portal, Campus Connect, and, under Student Privacy settings, indicate your preference. Please note two important details regarding placing a "No Release" on your record:

i. A "No Release" on your record will prevent your name from being included on lists of students released to honor societies, dean’s list and graduation announcements to local newspapers, and enrollment and degree verification to anyone, including potential employers.

ii. A "No Release" applies to all elements of directory information on your record.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA.

For additional information, please consult the U.S Department of Education website (https://www2.ed.gov/policy/gen/guid/fpco/ferpa/index.html?src=rn/).

Questions concerning FERPA should be referred to DePaul Central:

DePaul Central
Lincoln Park: Schmitt Academic Center
Loop: DePaul Center, Suite 9100
Tel: (312) 362-8610 | dpcl@depaul.edu | depaulcentral.depaul.edu (http://depaulcentral.depaul.edu)

Final Exams

During the regular academic year faculty are expected to include a final examination, final project or final exercise in all classes. In order to provide students with sufficient time to prepare, a final examination (or exercise) is expected to take place on the scheduled examination date and period as approved by the university. Final projects that are substituted for a final examination or exercise are expected to be due at the time of the scheduled examination date and period. Only under rare circumstances and with the permission of the dean of the college may this allocated period of time for the completion of course work be shortened.

Grades

Grades can be accessed online via Campus Connect. Grades can be viewed and printed using the Unofficial Transcript in the Student Center in Campus Connect. This comprehensive report can be used for corporate tuition reimbursement. Some companies may allow the student to log onto Campus Connect with a company representative present to verify grades for an individual term.

Following is the key to the system of evaluating a student’s academic achievement of the educational objectives specified by the instructor in the course syllabus. These definitions apply to the straight letter grade. A plus grade represents slightly higher achievement than the straight letter grade. A minus grade represents slightly lower achievement than the straight letter grade. For undergraduate students, the addition of a
# indicates an original attempt of a course which has been repeated; therefore the grade and credit are removed from the term and cumulative grade point average and credit hours.

Once a grade is assigned, university policy prohibits faculty from changing the grade without the permission of the college-based exceptions committee. Errors made in computation of the final grade (clerical error) and removal of an IN grade in accordance with university policy are exceptions to the grade change policy. Faculty may not assign or accept additional graded material in order to improve a student's final grade.

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>The instructor judged the student to have accomplished the stated objectives of the course in an EXCELLENT manner.</td>
</tr>
<tr>
<td>B</td>
<td>The instructor judged the student to have accomplished the stated objectives of the course in a VERY GOOD manner.</td>
</tr>
<tr>
<td>C</td>
<td>The instructor judged the student to have accomplished the stated objectives of the course in a SATISFACTORY manner.</td>
</tr>
<tr>
<td>D</td>
<td>The instructor judged the student to have accomplished the stated objectives of the course in a POOR manner. (A grade of D will not fulfill the requirements in a major field of concentration.)</td>
</tr>
<tr>
<td>F</td>
<td>The instructor judged the student NOT to have accomplished the stated objectives of the course.</td>
</tr>
<tr>
<td>FX</td>
<td>Student failed to accomplish the stated objectives of the course due to non-attendance. Non-attendance is defined as never attending or ceasing to attend an in-person course (or never participating or ceasing to participate in an online course) without officially withdrawing. The FX is calculated into the student’s GPA as an F. Instructors are required to provide the last date of attendance/participation.</td>
</tr>
<tr>
<td>IN</td>
<td>Temporary grade indicating that, following a request by the student, the instructor has given his or her permission for the student to receive an incomplete grade. In order to receive an IN grade, the student must have a) a satisfactory record in the work already completed for the course, b) encountered unusual or unforeseeable circumstances which prevent him/her from completing the course requirements by the end of the term, and c) applied to the instructor for permission to receive an IN. Please see the Grades, Incomplete (IN) and Research (R) Expiration Policy page in this handbook for additional information.</td>
</tr>
<tr>
<td>ING</td>
<td>Permanent grade assigned to a degree recipient who chooses not to resolve a grade of “IN” awarded during the two terms prior to graduation. The grade of “ING” (Incomplete, Graduated) is final, and cannot be changed or lapsed to “F” once the degree is posted.</td>
</tr>
<tr>
<td>PA</td>
<td>Passing achievement in a pass/fail course. (Grades A through D represent passing performance.)</td>
</tr>
<tr>
<td>W</td>
<td>Withdrawal from the course initiated by the student after the Last Day to Drop With No Penalty and before the Withdrawal Deadline. The W grade is automatically recorded on the student's transcript once it has been processed.</td>
</tr>
<tr>
<td>WA</td>
<td>Withdrawal from the course initiated by an advisor or administrator at the student’s request, usually outside of established deadlines. Administrative withdrawals may be granted under extraordinary circumstances and require documentation for support. See the Withdrawal Policy page in this handbook for more information. During their DePaul career, students may be allowed one medical/personal approved administrative withdrawal and one college office administrative withdrawal, each for one or more courses in a single term.</td>
</tr>
</tbody>
</table>
Grades, Challenges to

R
Temporary grade indicating that the student is making satisfactory progress in a course that formally extends beyond the end of a term. Only designated courses are eligible for R grades. Please see the R grade expiration policy on the Grades, Incomplete (IN) and Research (R) Expiration Policy page in this handbook for additional information.

RG
Permanent grade assigned to a degree recipient who chooses not to resolve a grade of “R” awarded during the last year prior to graduation. The grade of “RG” (Research, Graduated) is final, and cannot be changed or lapsed to "F" once the degree is posted.

M
Final grade not submitted by instructor.

AU
Auditor status; course does not earn credit.

Quality Points
Quality points are awarded to a student in relation to the grade given and the number of quarter hours of credit attempted in the course. Quality points are awarded according to the following schedule:

<table>
<thead>
<tr>
<th>Letter</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4 times the number of credit hours assigned to the course</td>
</tr>
<tr>
<td>A-</td>

Grade Point Average
In general, a student's grade point average is computed by dividing the total number of quality points accumulated by the total number of credit hours attempted with quality points assigned. In addition, a number of graduate programs have specific regulations regarding the computation of the grade point for coursework outside the program. The grade point average is calculated only upon grades earned at DePaul University.

Grades, Challenges to

A. General Policies on Grading
1. Grades are determined solely on the basis of the academic performance of each student according to pre-established criteria determined by the course instructor and consistent with university, college and departmental policies.
2. Grade determination is the prerogative of the instructor subject to the constraint that any successfully challenged grade will be changed through faculty action.
3. The criteria for evaluating academic performance are to be consistent with a course’s goals and objectives, which have been approved by the appropriate academic authority before the course is scheduled. On the first day of class of each course the instructor is to explain in writing to the students the criteria for evaluating as well as the methods for grading student performance (examinations, papers, reports, etc.).
4. The instructor in each course shall decide what criteria and methods for evaluating students are to be applied in the specific course. These decisions of the instructor, however, must be compatible with any policies previously accepted by the faculty of a department or college with respect to particular courses, especially courses offered in sequence where the qualifications of a student to begin an advanced course depend upon performance in a previous course. The methods of conducting a course are determined by the instructor within limitations set by the classification of a course as lecture-discussion, seminar, laboratory, etc. An instructor may vary the teaching methodology to meet particular circumstances of a course (type or number of students enrolled, concentrated calendar as in summer sessions, etc.) or the instructor’s own desires to innovate or experiment with different approaches.
Any method selected must be compatible with the predetermined goals and objectives of the course. While teaching methodology may change after the course has begun, grading methodology may be changed only with the consent of a majority of students in the course, taking into consideration hardships imposed upon students opposed to the change.

5. The actual evaluation and grading of academic performance is subject to the professional judgment of each instructor. Considerable personal discretion is required in these judgments - a justifiable margin of difference can exist between the evaluations made by two or more professional persons of the same academic performance.

6. Students are entitled to compare their work in the course with the criteria applied in deciding the final grade for the course. Accordingly, the course instructor is required either to return major papers and examinations to students or to make such available for students until the end of the following term. Spring Quarter materials are to be available until the end of the Autumn Quarter. For pedagogic reasons, an instructor is expected to review with the student the relative success of the student's accomplishments. The instructor is not expected to debate the grading.

7. A student may object to a grade for one or more of the following reasons:
   a. The methods or criteria for evaluating academic performance, made explicit by the instructor at the beginning of the course, usually in a course syllabus or as subsequently modified with the majority consent of the students, were not actually applied in determining the grade.
   b. The grade was determined or influenced by criteria other than those explained by the instructor or by criteria not relevant to academic performance.
   c. The instructor applied predetermined criteria unfairly, which may include but not be limited to the following items:
      • The instructor's evaluation of academic performance so exceeded the reasonable limits of the instructor's discretion as not to be acceptable to the instructor's peers.
      • Predetermined criteria were not explained at the beginning of the quarter or semester.

B. Policies Regarding Grade Challenge

1. All Grade Challenge Review Boards must follow the procedures listed below.

2. If, after the discussion with the faculty member, the student still disputes the final grade, the student may continue his or her grade challenge at the beginning of the Autumn Quarter. The instructor is not at the university during the following regular term. Spring Quarter materials are to be available until the end of the following regular term. The instructor is expected to explain the reason for the grade to the student. Only if the instructor is not at the university during the following regular term after the grade was issued, may the student proceed to challenge the grade without meeting with the instructor.

3. The student who challenges a grade bears the full burden of proof that there are sufficient grounds for changing a grade.

4. Only the final grade of a course and its means of determination may be challenged.

C. Procedures for Establishing Grade Challenge Review Boards

1. At the beginning of each academic year, the Committee on Committees will recommend to the Faculty Council, the faculty members and alternates for one Review Board for each of the following colleges: Business, Computing and Digital Media, Communication, Education, Law, Music, School for New Learning, Science and Health, and Theatre.

2. It will recommend two boards for Liberal Arts and Social Sciences covering the following areas: Humanities and Behavioral and Social Sciences. The Faculty Council will make all appointments to Review Boards. The dean of a college may request the establishment of additional Review Boards.

3. Each Review Board will consist of three faculty members and two alternate faculty members and one student. Faculty members may not serve on challenges in which they are involved. Involvement includes assignment of the grade in question and/or attendance or participation in the class. In either of these cases, one of the alternates will be asked to serve.

4. The student representative on the Review Boards in Business, Computing and Digital Media, Communication, Education, Liberal Arts and Social Sciences, Science and Health, Law, Music, School for New Learning, and Theatre will be the elected Senator from the college or school. In cases where this Senator is involved in the claim; i.e., had registered for; attended or participated in the class, the SGA EVP of Academic Affairs will serve as an alternate or if necessary, the president may appoint the alternate.

5. The Review Board will select its own chair and vice chair (to serve in the absence of the chair). The Chair of the Review Board receives all requests for hearing from the dean or chair of the affected department, sets the calendar, notifies all board members and involved parties of the dates and times of the hearings and informs students by written notice of the recommendations of the board. The chair is responsible for adherence to the Procedures for Filing a Grade Challenge.

6. The boards will serve until the beginning of the Autumn Quarter of the academic year.

7. A quorum of the Review Board consists of three members of the board.

8. The members of the Review Board are expected to disqualify themselves should a conflict of interest arise.

D. Procedures for Filing a Grade Challenge

In order to provide a forum for the fair resolution of academic disputes involving individual students and appropriateness of course grades, the following procedures have been developed and will be applied to all cases involving DePaul University students.

1. A student who is considering a grade challenge must discuss the grade with the instructor before the end of the following regular term. (Spring and Summer Quarter challenges must be made before the end of the Autumn Quarter. Law students challenging a Fall semester grade have a deadline of March 1 of the following Spring semester. Law students challenging a Summer/Spring semester grade have a deadline of October 1 of the following Fall semester) The instructor is expected to explain the reason for the grade to the student. Only if the instructor is not at the university during the following regular term after the grade was issued, may the student proceed to challenge the grade without meeting with the instructor.

2. If, after the discussion with the faculty member, the student still disputes the final grade, the student may continue his or her challenge by submitting a written request for a hearing to the office of the dean of the college or school in which the course was offered within the term following the award of the disputed grade. Since the following burden of proof rests upon the student, it is important that the student include a clear and coherent statement (typed) with
the reason for the appeal, together with any supporting documents the student may wish to include. Students may request that copies of supporting documents in possession of the faculty members be forwarded to the chair of the Review Board. All challenges will be thoroughly and fairly reviewed.

3. The dean of the college or school shall forward a copy of the request to the chair of the Review Board, the involved faculty person and the student. This must be signed and dated by the dean or chair of the affected department.

4. Once filed, the formal challenge is automatically forwarded through all stages of the appeal process unless the Review Board determines it to be groundless or frivolous. Additionally, the student has the option to discontinue the appeal at any stage by submitting a letter stating such to the instructor and chair of the Review Board.

Both the student and instructor will be informed in writing of all committee recommendations and decisions as well as any new written information bearing on the case. Only the instructor and/or the Review Board are empowered to change a grade.

5. The Review Board chair will send a copy of the grade appeal request and relevant materials received with it to the instructor involved. The instructor will return the materials with a written response within two weeks unless circumstances warrant an extension.

The chair is responsible for monitoring the time period. A copy of the instructor’s response will be forwarded to the student who has filed the challenge. If the instructor does not respond within the time period, the committee will conclude its deliberations and vote on the challenge.

6. The Review Board may, at its discretion, seek oral clarification of the written responses from the student and faculty member. If it requests this further clarification, the Review Board must meet with both the student and faculty member separately if the student requests.

7. The Review Board shall evaluate the challenge and vote to approve or deny. Decisions of the Review Board arrived at by secret ballot are to be determined by a majority vote.

Such action must be taken within two months of the date of filing. (If the grade appeal is not passed along its designated route within the times specified, the student should notify the dean of the school or college who will determine the reason for the delay.)

8. The Review Board is to reach one of the three following decisions:
   a. Challenge affirmed and settled by consent: i.e., the Review Board conducting the review devises a conciliation mutually acceptable to the student and the instructor who gave the grade. Should the acceptable conciliation involve a change of grade, the instructor will submit a change of grade.
   b. Challenge affirmed and the Review Board may submit a change of grade card to the dean of the college or school in which the course was taught.
      In determining the student’s final grade, the Review Board will take into account all evidence of the student’s academic performance in the course under challenge as well as the implications for the student’s grade of the instructor’s actions in the case in question.
   c. Challenge denied; original grade stands.

9. The decision reached by the Review Board is to be communicated by the chair of the Review Board in writing directly to the dean of the college or school, the instructor, and the student. The explanation for the decision will also be communicated.

10. Decisions by the Review Board are final and binding on all parties. The board’s decision does not require the approval of the dean of the college or school, or the chair of the affected department.

Grades, Incomplete (IN) and Research (R) Expiration Policy and Special Pass/Fail Policy for Spring and Summer 2020

Incomplete (IN) Grade

An Incomplete (IN) grade is a temporary grade indicating that, following a request by the student, the instructor has given his or her permission for the student to receive an incomplete grade. In order to receive an IN grade, the student must have a) a satisfactory record in the work already completed for the course, b) encountered unusual or unforeseeable circumstances which prevent him/her from completing the course requirements by the end of the term, and c) applied to the instructor for permission to receive an IN grade (see grade definition (https://courses.depaul.edu/university-catalog/academic-handbooks/undergraduate/undergraduate-academic-policies/Pages/grades.aspx)).

Undergraduate and graduate students have at most two quarters to complete an incomplete. At the end of the second quarter (excluding summer) following the term in which the incomplete grade was assigned, the incomplete will automatically convert to an F grade. In the case of the Law School, incompletes must be completed by the end of the semester following the one in which the incomplete was assigned.

A faculty member has the prerogative to assign a completion date earlier than the two quarter deadline (one semester deadline for the Law School) and this date will supersede the two quarter timeframe (one semester timeframe for the Law School) stated above.

Students must adhere to the incomplete grade request procedure of the academic unit offering the course for which they are requesting the incomplete grade.

Ordinarily no incomplete grade may be completed after the grace period has expired. Instructors may not change incomplete grades after the end of the grace period without the permission of a college-based Exceptions Committee.

In the event that the original instructor is no longer available to grade the work, the Department Chair, where applicable, or the Associate Dean will identify the faculty member who will resolve the incomplete.

NOTE: Incomplete grades are not encouraged in the student’s final two terms of study. However the exceptional cases, where an incomplete is approved in his or her final term and for students with an incomplete grade in a course from the term immediately preceding their final term of study, may result in the denial of final degree certification for that term and the regular incomplete grade policy will then be enforced.

Students who have completed degree requirements, but have an IN grade that has not yet expired can elect to have the degree posted and the IN grade changed to a permanent incomplete, ING. This grade is permanent and cannot be changed in the future. The student can also elect to postpone degree conferral until the IN grade is resolved.
Research (R) Grade
An R grade is given when a student is making satisfactory progress in a
course that extends beyond the end of the term or in a project extending
over more than one term. R grades, with the exception of students
completing a thesis or a dissertation research course, must be completed
within one academic year of the posting of the R grade or it reverts to an
F grade.

A faculty member has the prerogative to assign a completion date earlier
than the one academic year deadline and this date will supersede the one
academic year stated above.

Ordinarily no R grade may be changed after the grace period has expired.
Instructors may not change R grades after the end of the grace period
without the permission of a college-based Exceptions Committee.

In the event that the original instructor is no longer available to grade the
work, the Department Chair, where applicable, or the Associate Dean will
identify the faculty member who will resolve the R grade.

Students who have completed degree requirements, but have an R grade
that has not yet expired can elect to have the degree posted and the R
grade changed to a permanent R grade. The RG (Research, Graduated)
grade is permanent and cannot be changed in the future. The student can
also elect to postpone degree conferral until the R is resolved.

DePaul University Pass/Fail Policy due to the COVID-19 pandemic
In response to students’ and faculty’s concerns about unique stresses of
taking classes remotely during the current health emergency, Faculty
Council has recommended and Provost Ghnem has approved a
resolution allowing undergraduate students the option to adopt a Pass /
D / Fail (P/D/F) grading basis in spring and summer 2020 courses. By
the last day of classes in Spring Quarter, and in each Summer session,
students will be able declare their decision to move from the traditional A
to F grading basis to the P/D/F basis.

In this grading basis, a grade of “Pass” will indicate work that merits a
grade from A to C-. Work that merits a grade D+, D, or F will still earn
those grades.

Graduate and Corporate Employer Outreach (CEO) programs will each
determine whether they will adopt the option for a P/D/F grading basis.

Grades, Repeating Classes
Graduate students may have the need to repeat courses. When that
occurs, all grades achieved are recorded on the academic record. All
attempts are to be calculated into the grade point average. Moreover, only
credit for the last attempt will be applied to the degree.

A student may repeat a course one time without special permission. If a
student wishes to repeat a course more than once, they should receive
permission from their home college office advisor. Students who register
for a course for the third time without first obtaining permission from
their home college office advisor may be dropped from the course by their
home college office.

Notes
This policy does not apply to courses that are repeatable for credit.

Special note for federal and/or state student aid recipients who wish to
repeat a course: Federal and state financial aid regulations restrict the
number of times that a student may receive federal or state financial
aid for repeating a course for which credit has been previously earned.
Please contact the Office of Financial Aid at DePaul Central to learn about
the financial aid impact if you are considering repeating a course for
which you have previously earned credit.

Graduation Requirements
1. The student must have satisfied all the requirements and regulations
of the individual program and college or school granting the degree.
2. A formal application for graduation must be filed by a candidate.
Application for graduation may be made only by classified degree
seeking students. The student must complete the online degree
conferral application in Campus Connect by the designated deadline
date.

• Autumn degree conferral - October 1
• Winter degree conferral - January 15
• Spring degree conferral - February 1
• Summer degree conferral (August) - July 15

Submitting this on-line application does not guarantee the conferral (granting) of a degree from DePaul University. A student can change the expected completion term up to the last day of that term. Degree requirements are reviewed at the end of the expected completion term indicated. If all requirements are met, the degree will be conferred within 30 days of the end of the term. Diplomas are mailed (to graduates without financial holds), generally within 45-60 days after the end of the term.

DePaul reports degree information to the National Student Clearinghouse monthly. Many companies and agencies use this service to verify awarded degrees. A student’s degree will only be verified by the Clearinghouse if the student does not have a FERPA/Privacy restriction in Campus Connect at the time the degree is conferred. Students should verify Privacy Settings before the end of their completion term.

Graduation with Honors
Please consult your graduate program for specific information regarding graduation with honors.

Graduation, Commencement Ceremony
The University’s annual graduate and undergraduate commencement
exercises are conducted in June. Traditionally the University hosts a
baccalaureate mass to which all graduating students and their families
are invited the Friday of graduation weekend.

Attendance at the graduation exercise is optional, however, graduates
must notify their college office of their intention by the published
deadline date. Graduates will receive detailed instructions concerning the
commencement exercise from the college office.

Graduation, Degree Conferral Policy
Final certification of degrees is completed by the Office of the University
Registrar thirty days after the conferral date.
In dual degree programs authorized by the colleges, the degrees will be conferred simultaneously.

Academic records will be locked upon degree conferral. Under no circumstances will changes be made to the academic record after degree conferral.

If a student begins a new program of study at DePaul after a degree has been conferred, the student’s GPA will be restarted. The one exception to this rule involves master’s students whose DePaul master’s degree is accepted to meet DePaul’s PhD requirements either in the same or a new field. In this instance the GPA in the PhD program will include the GPA from the DePaul master’s degree.

**Combined Bachelor’s + Master’s Degree Program**

Students combining a master’s degree with a bachelor’s degree in an approved DePaul Combined Bachelor’s + Master’s Program will restart their GPA at the beginning of their graduate career.

**JD/LLM Program**

In the case of students who are accepted into the joint JD/LLM program, the students’ GPA in the LLM program will include the GPA from the JD program. Students who have completed the JD degree and are independently pursuing the LLM degree will have their GPA restarted.

**Graduation, Time Limit for Completion**

**Master’s Degrees**

DePaul students pursuing a master’s degree must complete all requirements for the master’s degree within a maximum of six years from their first term of enrollment in the program. Please note that individual colleges and/or programs may stipulate a shorter time frame. In the case where a program or college has a shorter time frame, students must complete their degree requirements within the time frame detailed by the program in the College Handbook or detailed in the program requirement sections of this University Catalog.

Students who are unable to complete the degree within this time frame are required to confer with their graduate program director/advisor to discuss their options.

**Doctoral Degrees**

DePaul students pursuing a doctoral degree must complete all requirements for the degree, including the dissertation, within a maximum of 10 years from their first term of enrollment in the program. Please note that individual colleges and/or programs may stipulate a shorter time frame. In the case where a program or college has a shorter time frame, students must complete their degree requirements within the time frame detailed by the program in the College Handbook or detailed in the program requirement sections of this University Catalog.

Students who are unable to complete the degree within this time frame are required to confer with their graduate program director/advisor to discuss their options.

**College of Law Programs**

DePaul students pursuing a juris doctor, master of laws or master of jurisprudence degree should consult the College of Law Student Handbook for Time Limit for Degree Completion.

Students who are unable to complete the degree within this time frame are required to confer with the Law Associate Dean for Student Affairs to discuss their options.

**Joint Programs**

DePaul students who are enrolled in a joint program where either two master’s degrees, a master’s degree and a juris doctor degree or a juris doctor and a master’s of law degree are awarded simultaneously should consult the degree requirement section of the University Catalog for the maximum time to completion.

Students who are unable to complete the degrees within this time frame are required to confer with their graduate program directors/advisors to discuss their options.

**Immunization, Proof of**

DePaul University complies with Illinois state law (College Student Immunization Act [110 ILCS 20]) and the Illinois Department of Public Health College Immunization Code (77 Ill. Adm. Code 694), which mandates post-secondary institutions to submit an annual report on student immunization requirements. All DePaul University students, born on or after January 1, 1957 and attend a university campus location, must provide proof of the required immunizations. Additionally, Illinois law requires that universities prevent students from registering for any subsequent terms if proof of immunization is not provided.

Proof of the following immunizations is required:

- **Tetanus/Diphtheria/Pertussis** - 3 doses (at least 1 tdap in lifetime, last dose within past 10 years)
- **Measles** - 2 doses (at least 28 days apart, after first birthday. Neither dose can be prior to 1968.)
- **Mumps** - 2 doses (at least 28 days apart, after first birthday. Neither dose can be prior to 1968.)
- **Rubella** - 2 doses (at least 28 days apart, after first birthday. Neither dose can be prior to 1968.)
- **Meningococcal** - 1 dose (if under the age of 22, taken on or after 16th birthday)

Please visit the Immunization Requirements (http://www.depaul.edu/admission-and-aid/admitted/Pages/immunizations-requirements.aspx) webpage for more information.

**Military Academic Adjustments**

DePaul University will make academic adjustments for students in the military consistent with all applicable legal requirements. This could include, for example: academic adjustments with a course, options regarding withdrawals or leaves of absence, and readmission at the conclusion of active duty. The details of any academic adjustments are dependent on the student's specific military orders.

Procedures Regarding Withdrawals and Leaves of Absence: Students who are in the military and called to active duty that interrupts their enrollment must complete the DePaul University Permanent Withdrawal/Military Leave Request in Campus Connect. Students should indicate
“military” on the application in Campus Connect. Upon their return, they will meet with an academic advisor to discuss resuming their studies.

Students are encouraged to contact the Veterans Student Affairs Office (https://offices.depaul.edu/student-affairs/support-services/for-specific-populations/Pages/veteran-services.aspx) for more information about other specific procedures regarding withdrawals, leaves of absence, academic adjustments, and for information regarding other policies that may be particularly applicable to students in the military.

**Missing Student Notification Policy**

Any member of the university community who believes that a student is a missing student should immediately contact DePaul Public Safety at (773) 325-7777. A “missing student” is a student who has been reported absent from the University for 24 hours or more without any known reason. Any other DePaul office that receives a report of a missing student (for example: the Dean of Students Office, Residential Education, College/ School offices, etc.) must immediately refer that report to Public Safety. Public Safety will promptly investigate all reports of missing students to determine the validity of the report. If the report of a missing student is validated, the designated DePaul office will, within 24 hours of receiving the initial report:

1. Notify local law enforcement that the student is a missing student.

2. If the missing student has designated an emergency contact(s), including an additional emergency contact specifically related to being a Missing Student, attempt to notify the missing student’s emergency contact(s) that the student is a missing student. Students are responsible for updating all emergency contact information in Campus Connect. All emergency contact information is only available to authorized DePaul personnel, and will only be released for approved purposes, such as to law enforcement in furtherance of a missing person investigation.

3. If the missing student is under 18 and not emancipated, attempt to notify the student’s parent/guardian that the student is a missing student.

Public Safety is responsible for communicating all validated reports of missing students to local law enforcement within 24 hours of receiving the initial report.

Public Safety will work with Student Affairs regarding all reports of missing students. Student Affairs is responsible for communicating with a missing student’s emergency contact(s) (and if applicable, a missing student’s parent/guardian) within 24 hours of receiving the initial report.

Students have the option to designate one or more emergency contacts in Campus Connect. This includes designating an additional emergency contact specifically related to being a Missing Student. If a student is a Missing Student, DePaul will notify those emergency contacts specifically designated as emergency contacts for Missing Student situations, and may notify other emergency contacts as well.

In order to make students aware of this policy, including the student’s option to designate an emergency contact in Campus Connect, this policy will be summarized in DePaul’s Annual Safety and Security Information Report, in the Undergraduate Student Handbook, and in the Graduate Student Handbook.

**NonEnrollment/Discontinuation**

Students who complete a term and do not enroll for the following term at DePaul remain active and eligible to enroll until they are formally discontinued. Discontinuation occurs when:

1. The student does not register in the term for which they were admitted.
2. The student does not register for three consecutive quarters (or for Law two semesters), excluding summers. In these cases students must seek readmission.
3. The student has not made progress toward the degree for three consecutive quarters (or for Law two semesters), excluding summers.

Candidates for theses, dissertations and students on year-long study abroad programs are excluded from this rule. In these cases, students must meet with a college academic advisor to get permission to register and/or seek readmission.

Note: Students in the School of Music, the Theatre School and the College of Law who intend to take a term (or terms) off must consult their college office.

Note: Students who are suspended from the University through the Student Conduct Process or the Academic Integrity process, or students who are participating in a University-initiated temporary medical withdrawal process, are not discontinued until they do not register or make progress toward the degree for three consecutive quarters (or for Law two semesters) following the date on which they could be eligible for return. In these cases students must seek readmission.

**Posthumous Degree**

A posthumous degree may be awarded to degree-seeking candidates who were actively enrolled, in good academic standing, and on track to have met all degree requirements by the end of the term in which their death occurred.

For all other cases, the Dean may request a Certificate of Accomplishment be awarded to honor the student’s progress toward the degree and accomplishments as a member in good-standing of the DePaul community.

**Registration**

Students are responsible for planning their own programs and for completing course sequences and degree requirements. In planning each quarter’s course of studies, students should remember that required courses take precedence over elective courses, and that some advanced courses have pre-requisites that must be completed first. Students should be guided by their interests or needs where electives are indicated. A student regularly employed is advised to discuss his or her course load for each quarter with an advisor prior to registration. Advisors are available to assist students in planning programs and schedules.

**General Regulations**

1. Students can add, drop, or swap classes via Campus Connect. It is the student's responsibility to verify that the transaction has been processed.
2. Students will receive credit only for classes for which they are registered.
3. Students who are not on the class roster are responsible for completing the steps necessary to resolve the issue. It is not the responsibility of the instructors to resolve the problem.
4. Student must officially register for classes by the stated deadline. For 10-week classes, the deadline is the end of the first week of the term. In addition, students should consult individual college regulations regarding special registrations (e.g., independent studies, internships, etc.).
5. The University is required to report enrollment and attendance to fulfill requirements established by several governmental agencies. To satisfy these requirements, it is University policy that attendance will be monitored in all classes. Each school or college maintains additional specific policies concerning attendance. Students should become familiar with these policies. Promptness is expected of a student for all class sessions. Tardiness of more than ten minutes is generally to be considered by the instructor as an absence.
6. Students’ status at the university will be changed from “active” to “discontinued” if:
   a. There is no enrollment in the term of admittance.
   b. There is no registration activity for three consecutive quarters - excluding summers - in which case these students must seek readmission;
   c. No progress has been made towards their degree for three consecutive terms, excluding summers. (Candidates for theses and students on year-long study abroad programs are excluded from this rule.)
7. Students who have been “discontinued,” must apply and be approved for readmission to continue their studies.

**Academic Calendar Formulas**

Academic calendar deadline dates are based on the following formulas. These formulas are particularly important for classes that meet outside the standard (10 week term plus finals week) start and end dates for a term. Please consult your college office for specific dates relevant to your class.

- Students may not add classes after 10% of the scheduled class has elapsed.
- Students who drop a class or classes after 20% of the scheduled class has elapsed will be responsible for 100% tuition and a grade of W will be assigned.
- Students may not select a Pass/Fail grading option after 20% of the scheduled class has elapsed.
- Students may not select Audit (non-credit) grading option after 30% of the scheduled class has elapsed.
- Students may not withdraw from classes after 70% of the scheduled class has elapsed.

**College/School Regulations**

- Students may audit classes only with permission of their advisor or college office. Students may not change from the status of credit to audit or vice-versa after 30% of the term has elapsed (the third week of class for a 10 week class). Full tuition is assessed for audited classes.
- Students interested in earning credit in transfer must obtain approval from their college office prior to registration at the other institution.
- Extension courses taught through other accredited institutions are accepted only when the sponsoring institution itself conducts the courses and certifies the grade and credit through an official transcript. A DePaul degree-seeking student must obtain the written permission of his or her dean before enrolling in an extension course.

**Registration, Student Enrollment Classifications**

College credit is accumulated on the basis of quarter hours earned:

**Full-Time Student Status**

An eight-quarter hour course load is considered full-time for graduate studies. For graduate students in The School of Music, a six-quarter hour course load is considered full-time.

**Half-Time Student Status**

A four- to seven-quarter hour course load is considered half-time for graduate studies.

**Students Completing Thesis/Dissertation Requirements**

Students should consult their program for enrollment information.

Self-service Enrollment Verifications are available through Campus Connect.

**Requirement Term**

**Graduate Program Specific Information**

A student will complete the graduate program requirements in place at the time of the student’s first enrollment term in the graduate program. A student who changes graduate programs while their studies are in progress will complete the requirements in place at the time they enroll in the new program.

A student who changes graduate programs during a break between terms (e.g., winter, spring) will follow the requirements in place for the term immediately following the break.

A student who applies for readmission will be subject to the program and concentration requirements in place in the enrollment term of readmission.

**Other Information**

A student currently enrolled in a degree program in which revisions are approved while their studies are in progress may elect to formally adopt the revised requirements.

**Requirements, Curriculum**

Official changes in courses, course numbers, titles, descriptions, and prerequisites and minor changes in program requirements may be made on a quarterly basis.

Multiple changes or thorough revisions in the requirements of a program, major, or concentration or the addition of new majors or concentrations which have received the required university approvals may be made twice each year. Changes approved by May 15th will be effective for the
Requirements, Program Termination/Substantial Changes

If an undergraduate major, graduate or law degree program is terminated or a program undergoes substantial changes, there must be a plan in place and a commitment to provide a reasonable opportunity for those active in the program to complete the current requirements of the degree.

The chart below provides the maximum time frame allowed to complete the degree from the point of termination/change:

<table>
<thead>
<tr>
<th>Type of Program</th>
<th>Maximum Time Allowed</th>
</tr>
</thead>
<tbody>
<tr>
<td>Undergraduate majors</td>
<td>4 years</td>
</tr>
<tr>
<td>Undergraduate SNL programs</td>
<td>6 years</td>
</tr>
<tr>
<td>Graduate programs (thesis required)</td>
<td>4 years</td>
</tr>
<tr>
<td>Graduate programs (MFA)</td>
<td>4 years</td>
</tr>
<tr>
<td>Graduate programs (thesis not required)</td>
<td>3 years</td>
</tr>
<tr>
<td>and Professional MJ and LLM programs</td>
<td></td>
</tr>
<tr>
<td>Doctoral programs (embedded master's program)</td>
<td>8 years</td>
</tr>
<tr>
<td>Doctoral programs (stand-alone)</td>
<td>5 years</td>
</tr>
<tr>
<td>Professional JD programs</td>
<td>4 years</td>
</tr>
</tbody>
</table>

1 If a program wishes to set shorter time frame for completion, they must explain their rationale and obtain approval from Faculty Council.

For programs with substantial changes, students may elect to pursue the new requirements in accordance with the Requirement Term Policy (p. 1386). Those students who are not able to complete their degree requirements within this time frame will be moved into the new requirements. For programs that have been terminated, undergraduate students may request to pursue a new major and graduate students may apply to a new graduate program. In addition, those students who are not able to complete a terminated degree program within this time frame will be advised of other program opportunities that may be available.

Students are responsible for working with their advisors to develop a plan to finish within the stated timeframe. It is the student’s responsibility to complete required courses when they are offered. Students should not wait to complete required coursework.

For required courses that will no longer be offered, the department will provide substitutions. Waivers may also be granted; however the student must still meet the minimum credit hours required.

Students admitted into or those who are in the admission process for a terminated program will be advised of alternative programs.

Once a program has been approved for termination, students will no longer be admitted or readmitted into the program and students will no longer be able to declare that major or program. The only exceptions to this are active students officially in an “intended” or “pre” major or students officially in a combined bachelor’s/master’s program.

In accordance with the requirement term policy, students who are discontinued will not be eligible to be readmitted into a terminated program.

Transcripts

The Office of the University Registrar processes official transcript requests for DePaul University. Official transcripts can be requested online through Campus Connect.

The Family Educational Rights and Privacy Act of 1974 prohibits release of confidential transcript information without the student’s authorization.

Transcripts will be issued only after the student has fulfilled all financial obligations to the University.

Tuition Policy

All tuition and fees are due to DePaul University by the published tuition due date for that term. All charges must be paid in-full by the payment date.

Tuition charges for any course registrations made after the due date must be paid in full within 24 hours of registration.

Tuition bills may be accessed online through Campus Connect. The student will be required to sign up for E-Bill to access their bills or to grant access to a guest user.

Students whose accounts show a balance due after the tuition due date will subject to a late fee and prohibited from future registration, receiving transcripts and other university services.

Withdrawal, Tuition

Students must withdraw from classes through the registration function in Campus Connect. Withdrawals processed via the web or through direct contact with the home school/college office are effective the day on which they are made. Simply ceasing to attend, or notifying the instructor, or nonpayment of tuition, does not constitute an authorized withdrawal from class and will result in academic as well as financial penalty.

When the withdrawal occurs, the tuition charge for courses during a 10-week quarter will be reduced according to the following schedule, in accord with the tuition package:

<table>
<thead>
<tr>
<th>Withdrawal</th>
<th>Refund</th>
</tr>
</thead>
<tbody>
<tr>
<td>Up to 20% or 2 weeks of a ten week term</td>
<td>100% refund</td>
</tr>
<tr>
<td>After 20% of the term</td>
<td>0% refund</td>
</tr>
</tbody>
</table>

Notes

- Students receiving financial aid are advised to contact a Financial Aid Counselor to discuss the consequences of a withdrawal impacting academic progress and aid eligibility at DePaul University or any other school to which they may transfer. Students in university housing are advised to contact Housing to discuss the consequences of withdrawal impacting eligibility to maintain residence.
Withdrawal/Drop Policy

The following policies pertain to the withdrawal from individual courses, the withdrawal of all courses for a given term, and withdrawal from the University.

There are two categories of Withdrawals:

- College/University Initiated (p. 1390)
- Student Initiated (p. 1390)

College/University Initiated

Under rare circumstances, DePaul University may need to administratively drop a student from a course (or courses) for which the student is registered. This policy outlines those instances and establishes the procedures to be followed by the University to drop a student from the course.

DePaul University reserves the right to administratively drop a student from a course (or courses) under a limited number of circumstances. These fall into two categories: those performed by the college offices and those performed by the Office of the Registrar.

College Office

A student may be administratively dropped from a course (or courses) by the home college, if the student is:

1. registered for a course (not repeatable for credit) for the third or more time and has not received appropriate permission to repeat the course again.
2. registered for a course (not repeatable for credit) in which the student originally earned a C- or better and has not received appropriate permission to repeat the course.
3. on probation and exceeds the allowable number of credit hours and has not received the appropriate permission to register for the additional hours.
4. registered for more than the maximum number of competencies allowed within competency-based courses (SNL).
5. academically dismissed from the University.
6. registered for a course that has been cancelled.

Office of the University Registrar

A student may be administratively dropped from a course (or courses) by the Office of the University Registrar, if the student has:

1. not met the prerequisites for the course and has not received appropriate permission to take the course without the prerequisite.
2. been suspended for the term or permanently dismissed from the University as the result of an academic integrity violation hearing or a student code of conduct judicial board hearing.

Student Initiated

Students who must withdraw either from a course or from the University may do so by using Campus Connect, the University’s web registration system. Students unable to use the web registration system should contact their home school/college office, whether in person, phone or email (emails must be sent from the student’s preferred email listed in Campus Connect). Students who are physically unable to contact the university may designate someone to act on their behalf.

Withdrawals processed through Campus Connect are effective the day on which they are made. Withdrawals processed through the student’s home school/college office are effective:

- in person: the date the student had the transaction processed in the office
- for email: the date the email was sent
- for mail: the date the letter was received

Simply ceasing to attend, or notifying the instructor, or nonpayment of tuition, does not constitute an official withdrawal from the course and will result in academic as well as financial penalty.

A. Withdrawal from One or More Courses

Students who wish to withdraw from one or more courses within a term, must do so by the stated deadline dates for that term. Students who missed the deadline due to extenuating circumstances should consult section C.

Students who withdraw from all courses for a term, and who plan to return the next term, are eligible to register for the next term. Students who plan to permanently withdraw from the University should consult Section B.

B. Withdrawal from the University

Students who decide to permanently withdraw from the University must do so using the DePaul University Permanent Withdrawal/Military Leave Request application in Campus Connect. Students are strongly encouraged to consult with their advisor before doing so.

1. Students enrolled for current and/or future terms are required to withdraw from all courses before requesting permanent withdrawal in the DePaul University Permanent Withdrawal/Military Leave Request application in Campus Connect.
2. Students who are not currently enrolled and wish to permanently withdraw from the university should complete the DePaul University Permanent Withdrawal/Military Leave Request application in Campus Connect.
3. Students who wish to return to the University after a permanent withdrawal must complete an application for readmission.

C. Late Withdrawals

In rare circumstances, students who missed the deadline to withdraw from a course (or courses), may request a late withdrawal from either the Dean of Students office or the student’s home college office.

1. Decision-making for late withdrawals resides primarily in the Dean of Students Office for personal/medical issues; and in the School/College Offices for all other issues. These principles underlie the decision-making processes:
   a. All policies are driven by academic concerns:
   b. Decisions are guided by the best interests of the students.
   c. Decisions will be made in compliance with federal regulations.
2. Students who are not currently enrolled and who wish to permanently withdraw from the University must complete the DePaul University Permanent Withdrawal/Military Leave Request application in Campus Connect.
3. Students who wish to return to the University after a permanent withdrawal must complete an application for readmission.
medical/personal withdrawals), or the student’s home School/College Office (for administrative withdrawals) by the following deadlines.

For Undergraduate/Graduate:

1. Autumn Quarter: Last day of the last final exam of the subsequent winter quarter.
2. Winter Quarter: Last day of the last final exam of the subsequent spring quarter.
3. Spring Quarter: The end of the second week of the subsequent autumn quarter.
4. Summer Terms: Last day of the last final exam of the subsequent autumn quarter.

For the College of Law:

1. Fall Semester: Last day of the final exam period for the fall semester.
2. Spring Semester: Last day of the final exam period for the spring semester.
3. Summer Semester: Last day of the final exam period for the summer semester.

College of Law students filing a late withdrawal appeal in the Fall or Spring semester of the first year of law school must request withdrawal from all courses.

During their college career, students may be allowed one medical/personal approved administrative withdrawal and one college office administrative withdrawal, each for one or more courses in a single term.

Zero-Credit Hour Courses, Graduate and Law

Graduate Students Completing Thesis or Dissertation

Many of DePaul’s masters and doctoral degree programs require a thesis or dissertation to earn the degree. The thesis or dissertation is often completed after all required credit hours and coursework is satisfied. Programs may offer a variety of 0-credit hour courses to accurately represent the student’s status while the student completes the thesis or dissertation. Each of these courses will have a unique course catalog number differentiating it from the others. These course offerings include:

1) Zero-credit hour course that supports a student’s full-time work on the thesis or dissertation

This course is reserved for students whose work on the thesis or dissertation is considered equivalent to that of a full-time course load. Students enrolled in this course:

• are reported as enrolled full-time for federal reporting and fellowships
• are eligible to defer loans
• are eligible to apply for federal loan and borrow living expenses
• may be limited by their program as to the number of times they are eligible to enroll for the course
• will receive a Pass or Fail grade determined by the thesis/dissertation director which supports the students work during the term

2) Zero-credit hour course that supports a student’s half-time work on the thesis or dissertation

This course is reserved for students whose work on the thesis or dissertation is considered equivalent to that of a half-time course load. Students enrolled in this course:

• are reported as enrolled half-time for federal reporting and fellowships
• are eligible to defer loans
• are eligible to apply for federal loan and borrow living expenses
• may be limited by their program as to the number of times they are eligible to enroll for the course
• will receive a Pass or Fail grade determined by the thesis/dissertation director which supports the students work during the term

3) Zero-credit hour course that supports a student’s less than half-time work on the thesis or dissertation

This course is reserved for students whose work on the thesis or dissertation is considered equivalent to that of a less than half-time course load. Students enrolled in this course:

• are reported as enrolled less than half-time for federal reporting and fellowships
• may be limited by their program as to the number of times they are eligible to enroll for the course
• will receive a Pass or Fail grade determined by the thesis/dissertation director which supports the students work during the term

Please Note:

1. Some graduate programs may require a final culminating project, practicum or exercise as part of the degree. The above enrollment guidance may be followed for these courses if they are offered for 0-credit hours and should carry an enrollment status equivalency.

2. Students in zero-credit hour courses are subject to the time limit for degree completion as determined by their program.

Other 0-Credit Hour Courses

There are other 0-credit hour courses offered by graduate or doctoral programs that do not fall into the above categories. These courses will keep the student in an active status. Each of these courses will have a unique course catalog number differentiating it from the others.

Examples of these courses may include:

• courses for students completing work in other courses where an IN or R grade was awarded who need access to university resources
• courses that are non-credit bearing degree program requirements (such as presentation skills, field experiences, etc.)

Please Note for Other 0-Credit Hour Courses:

1. Depending on the type of course, the program will determine if a grade is required.

2. Students in zero-credit hour courses are subject to the time limit for degree completion as determined by their program.

University Resources

• Adult, Veteran and Commuter Student Affairs (p. 1428)
• Career Center (p. 1428)
• Center for Students with Disabilities (p. 1428)
• Croak Student Legal Services (p. 1429)
help. making a career change, or preparing for your first job interview, we can the world—with vigor, knowledge and preparation. No matter where you internships, jobs and opportunities so that you can take on Chicago—and shape your passions, interests and skills, we connect you with majors, You can find more information here:

At the DePaul University Career Center, we believe the path to your successful future starts with you. By helping you understand and help.

The Career Center is located at DePaul's Lincoln Park Campus in SAC 192 and at the Loop Campus in DePaul Center 9500. Students may contact the office at (312) 362-8437 for appointments, or visit the Career Center website (https://resources.depaul.edu/career-center/Pages/default.aspx) (https://resources.depaul.edu/career-center/Pages/default.aspx) for additional information.

Center for Students with Disabilities

The Center for Students with Disabilities (CSD) coordinates DePaul University’s provision of accommodations and other services to students with disabilities pursuant to the Americans with Disabilities Act and Section 504 of the Rehabilitation Act. CSD regularly works with students diagnosed with a range of disabilities such as learning disabilities, AD/ HD, medical conditions, chronic illness, mental health disorders, and physical/visual disabilities, amongst others. Student success is at the core of the CSD’s mission and fits integrally with DePaul University as a diverse learning community.

Students are encouraged to enroll with CSD to receive accommodations and additional support services. CSD students are enrolled in all Colleges and Schools at DePaul, and may be full-time, part-time, undergraduate, or graduate level students. Some accommodations and services may include extended time on exams, assistance with note-taking, adaptive equipment, real-time captioning, classroom accommodations, advocacy, and assistive technologies amongst other support services.

CSD enrollment procedures require appropriate documentation of a student’s disability and other identified information, as well as a personal meeting with CSD staff.

CSD is also a resource for faculty and staff who may have questions about accommodating, or otherwise working with, students with disabilities.

CSD has two full-service office locations:

- Lincoln Park Campus, Student Center 370, 773/325-1677
- Loop Campus, Lewis Center 1420, 312/362-8002

For more information, please view the Center for Students with Disabilities website http://offices.depaul.edu/student-affairs/about/departments/Pages/csd.aspx or contact staff at csd@depaul.edu.

As a result of participating in Center for Students with Disabilities programs and services, students will be able to:

- Explore career options whether you are just starting your job search or are looking for a change.
- Meet with a career community advisor (https://resources.depaul.edu/career-center/career-advising/Pages/career-communities.aspx) to talk about how your passions, skills and academic interests match a variety of careers.
- Gain experience and earn academic credit with an internship through the University Internship Program.
- Find a job with one of the thousands of employers who recruit DePaul grads. Login to Handshake (https://depaul.joinhandshake.com/login/) to get started.
- Connect with DePaul alumni through the Alumni Sharing Knowledge (https://resources.depaul.edu/career-center/services-resources/Pages/alumni-sharing-knowledge.aspx) (ASK) Network for career-related networking and mentoring.

Adult, Veteran and Commuter Student Affairs

Through collaborations with university and external partners, the Office of Adult, Veteran and Commuter Student Affairs assists students in their transition to college, provides support, resources and programs that help students persist and succeed academically, and works to promote an environment that is inclusive of the non-traditional student experience in which adult, veteran and commuter students can thrive as engaged members of the DePaul community.

As a result of participating in Adult, Veteran, and Commuter Student Affairs programs, students will be able to:

- Demonstrate life, academic, and career skills.
- Actively manage their transition to DePaul student life.
- Demonstrate self-advocacy and utilize appropriate resources when needs arise.
- Overcome engagement barriers associated with their non-traditional student status to participate in and contribute to the DePaul Community.

Career Center

At the DePaul University Career Center, we believe the path to your successful future starts with you. By helping you understand and shape your passions, interests and skills, we connect you with majors, internships, jobs and opportunities so that you can take on Chicago—and the world—with vigor, knowledge and preparation. No matter where you are in your career search, whether it's deciding on a major or career path, making a career change, or preparing for your first job interview, we can help.

• Develop competencies in effective communication, critical thinking, technological prowess, and wellness skills to foster academic and personal success at DePaul and afterwards.
• Develop self-awareness and understanding of personal strengths and challenges to become effective self-advocates and assume their individual responsibilities in actively pursuing their roles in the academic community.
• Accept aspects of disability culture and diversity.
• Effectively manage personal and learning challenges to successfully interact in academic, professional, and social environments and as future contributing members of society.
• Demonstrate connections of acquired knowledge to other knowledge, ideas and experiences and relate knowledge to daily life.

Croak Student Legal Services

Croak Student Legal Services (CSLS) provides high quality, free and confidential legal advice to DePaul students on a wide range of common legal issues, including landlord disputes, misdemeanor criminal offenses and more. While we cannot represent you in court, we can help you understand your rights and obligations, provide general recommendations, and help you find useful resources, including referrals to licensed, practicing attorneys with experience related to your case. CSLS is available by appointment only. Please call (773) 325-1588 to set up an appointment. You can find more information at http://sls.depaul.edu (http://sls.depaul.edu/).

Dean of Students Office

The Dean of Students Office is an invaluable resource, advocate and support for providing and identifying resources and services for students. The office helps individuals in navigating the university, particularly during difficult situations, as in personal, medical, mental health, and/or family crises. The Dean of Students Office is also responsible for overseeing the Code of Student Responsibility and managing the Student Conduct Process.

Additional information is available from the Dean of Students Office http://offices.depaul.edu/student-affairs/about/departments/Pages/dos.aspx

As a result of participating in Dean of Students programs and services, students will be able to:

• Utilize appropriate university and community resources to manage personal, professional and academic challenges.
• Utilize self-assessment strategies and develop skills to become empowered self-advocates.
• Communicate community standards and take responsibility for choices and actions.

Department of Housing

The Department of Housing, through its quality facilities and dedicated staff, promotes safe and inclusive on-campus communities that support and empower student academic success and personal development.

For more information about options on the Lincoln Park and Loop campuses and how to apply for housing, visit http://offices.depaul.edu/housing (http://offices.depaul.edu/housing/).

DePaul Central

DePaul Central is your one-stop resource for helping students manage the business side of being a student. Services include: Account Transactions, Financial Aid Inquiries, Ordering Transcripts, Payment Plan Inquiries, Personal Financial Planning and Submitting Immunization Records.

DePaul Central ensures student issues are resolved in a timely manner and with the right level of attention and care they deserve so students can focus on what really matters: their academics.

• Visit with DePaul Central staff:
  • Lincoln Park: Schmitt Academic Center 101, 2320 N. Kenmore Avenue
  • Loop: DePaul Center Suite 9100, 1 E. Jackson Boulevard

• You also can get answers to many questions online or over the phone.
  • Email: dpcl@depaul.edu
  • Phone: (312) 362-8610
  • Web/Live Chat: depaulcentral.depaul.edu (http://depaulcentral.depaul.edu)
  • Facebook: /depaulcentral (https://www.facebook.com/DePaulCentral/)
  • Twitter: @depaulcentral (https://twitter.com/DePaulCentral/)
  • FATV: depaul.financialaidtv.com (https://depaul.financialaidtv.com/)

Financial Fitness

Financial Fitness provides free services, resources and tools to help students manage costs from freshman year through graduation and beyond. Services include:

• Confidential one-on-one financial counseling appointments available.
• Comprehensive resources and tools available online.
• Workshops available by request.

Additional information is available from the DePaul Central office. Financial Fitness is located within DePaul Central's Lincoln Park Campus in SAC 101. Students can get additional information by visiting the website http://financialfitness.depaul.edu (http://resources.depaul.edu/financial-fitness/Pages/default.aspx) or calling (773) 325-8640.

Survivor Support Advocates
The Survivor Support Advocates within HPW provide confidential and holistic support to survivors of sexual violence, relationship violence and stalking. The Advocates provide emotional care; information about counseling, medical resources, reporting processes, academic accommodations and safety planning; and referrals and help with navigating appropriate on- and off-campus resources.

Alcohol and Substance Abuse Prevention
Alcohol and Substance Abuse Prevention at DePaul University stems from a harm-reduction approach, which encourages healthy choices and responsible decision-making regarding the use of alcohol, tobacco and other drugs. Students are also asked to consider their own safety and the safety of the community in relation to alcohol and substance use. The office offers various programs and presentations throughout the year, while also providing support to those in recovery or experiencing any issues related to substance misuse.

Health Education
Health Education includes providing resources, events, trainings, workshops and presentations on various health related topics. These topics include: sexual health, sexual violence, relationship violence, stalking, healthy relationships, alcohol and drug abuse prevention, mental health, stress, nutrition, meal planning, physical activity and more.

Office of Health Promotion and Wellness
Lincoln Park Student Center, Suite 302
2250 N. Sheffield Ave.
773-325-7129
hpw@depaul.edu

Co-Curricular Learning Outcomes
As a result of participating in Health Promotion and Wellness programs, students will be able to:

• Develop decision-making skills related to their personal health and community well-being.
• Utilize on and off-campus resources related to their well-being and the well-being of others.
• Demonstrate reflective thinking about the impact of their choices on themselves and others.
• Articulate the relationship between societal norms and their perception of their personal health and community well-being

Health Services
Health Services are offered through Presence SAGE medical group. It is available to all enrolled students for a fee. If you live in a residence hall, with the exception of the University Center, you are automatically enrolled in DePaul Student Health Services.

Student Health Service is NOT health insurance; you may need additional coverage.

Additional information is available from the Office of Health Promotion and Wellness http://go.depaul.edu/healthservices/.

Language Learning Center
Free tutoring service is available in the Department of Modern Languages (MOL).
• Each tutor holds one-on-one meetings with students by appointment in the Language Learning Center (SAC 305).
• Tutors are generally available 8am-8pm, Monday through Friday each quarter (although specific hours may vary by language).
• Our tutors provide the following language-related assistance:
  • Helping improve students’ pronunciation;
  • Explaining grammar structures;
  • Practicing conversational skills;
  • Assisting with reading assignments;
  • Helping with writing assignments;
  • Offering other language-related support in all academic subjects.

To make a tutoring appointment, please call (773) 325-1888 or stop by the Language Learning Center (SAC 305).

The Language Learning Center also provides tutoring on weekends. Call the center for Saturday availability. The Center partners with the Learning Commons to offer free tutoring services in the Richardson library on Sundays. See the Learning Commons (http://library.depaul.edu/get-help/Pages/learning-commons.aspx) website for hours.

### Learning Commons

The Learning Commons is a collaborative learning space located on the first floor of the John T. Richardson Library. It provides a variety of peer tutoring and career consulting services in one convenient location.

• Tutoring is available for many academic programs in the College of Science and Health
• Supplemental Instruction conducts peer-assisted study sessions for historically difficult courses
• The Career Center hosts resume review clinics
• Startup advising is provided by the Coleman Entrepreneurship Center

Services are free and available to all students on a walk-in basis. For a schedule or more information, see go.depaul.edu/learningcommons (http://library.depaul.edu/get-help/Pages/learning-commons.aspx).

### Libraries

DePaul University provides information resources and services to students, faculty, and staff at three library locations and through a number of online programs. The University Library includes the John T. Richardson Library (https://library.depaul.edu/about/locations/linearpark/Pages/default.aspx) in Lincoln Park, and the Loop Library (https://library.depaul.edu/about/locations/loop/Pages/default.aspx) on the 10th floor of the DePaul Center. The Vincent G. Rinn Law Library (https://law.depaul.edu/library/Pages/default.aspx) is part of the College of Law and is located in the Lewis Center on the Loop Campus.

The University Library provides access to a full array of electronic resources to members of the DePaul community pursuing academic programs through campus partnerships and cohort-based programs, including:

#### Electronic Items

Electronic journals and e-books, scholarly databases, and other digital collections are available, all of which may be accessed through the library web site (https://library.depaul.edu/Pages/default.aspx).

### Books & Other Items

Printed materials including books, journals and sheet music are available for use. The library also belongs to the I-Share consortium (https://vufind.carli.illinois.edu/vf-dpu/), which allows students to request books from other academic libraries in Illinois, and can order books from other sources as well using the interlibrary loan system. The library’s collection also includes DVDs, CDs, and an array of mobile technology tools (like phone chargers) for checkout.

### Research Help

Librarians provide research support and information literacy instruction in person and via email, phone, text or chat reference services (https://library.depaul.edu/get-help/ask-a-librarian/Pages/default.aspx). Special Collections and Archives (https://library.depaul.edu/special-collections/Pages/default.aspx) provides a gateway for research utilizing rich primary source materials, unpublished documents, rare and specialized books, maps, graphic materials, and three dimensional objects.

### Work Spaces

The Information Commons, located on the first and second floors of the Richardson Library, provides academic support services, spaces for collaborative work, and access to an array of academic computing resources. The 1581 Media Studios (https://library.depaul.edu/technology/spaces/Pages/Media-Production-Rooms.aspx), located on the second floor of the Richardson Library, provides access to media creation studios and a maker space (https://library.depaul.edu/technology/spaces/Pages/Maker-Hub.aspx). There are study rooms and work tables that can be reserved (https://libcal.depaul.edu/) for group work. Quiet study areas are available at both the Loop Library and the Richardson Library.

### Office of Multicultural Student Success

The Office of Multicultural Student Success seeks to cultivate academic success and personal development for students of color, low-income college students, or first generation college students through sustained developmental programming, financial resources, and advocacy.

Additional information is available from the Office of Multicultural Student Success http://offices.depaul.edu/student-affairs/about/departments/Pages/omss.aspx.

As a result of participating in Multicultural Student Success programs, students will be able to:

• Demonstrate effective decision-making related to personal financial management.
• Demonstrate healthy decision-making related to effective self-care.
• Identify and use relevant campus resources in order to navigate their academic experience.
• Apply the concepts of Socially Responsible Leadership in order to challenge oppressive systems and behaviors and work to create change.
• Construct a career plan towards post-college career success.

### Science and Math Tutoring Services

Currently enrolled DePaul students have access to free tutoring services offered by departments in the College of Science and Health. Tutoring is regularly available in the areas of chemistry, mathematical sciences, nursing, physics, and psychology (statistics only). All tutors are either
graduate students or upper-level undergraduate students in their respective fields of study.

A schedule of tutoring services (https://csh.depaul.edu/student-resources/Pages/Tutoring-services.aspx) is available online and is subject to change every term — check the schedule regularly for updates. No appointments are necessary to receive tutoring. Tutoring services are also available in the Learning Commons (https://library.depaul.edu/get-help/Pages/learning-commons.aspx) which is located in the Richardson Library.

**Student Affairs**

Student Affairs delivers programs and services that encourage student academic success by providing opportunities for meaningful engagement and by providing student support that removes or reduces barriers to the successful completion of their degree. We deliver support services, such as counseling, advising and disability accommodations, in addition to programs that encourage students to explore their personal identities, faiths, values and roles in a complex world.

**Student Involvement**

The Office of Student Involvement fosters student learning and success by providing opportunities for engagement through a wide variety of campus activities and organizations, holistic and intentional advising of student leaders, and the development of purposeful and mutually beneficial partnerships across the University and City of Chicago to maximize access to resources for a rich DePaul campus experience.

Additional information is available from the Office of Student Involvement: go.depaul.edu/involvement (http://go.depaul.edu/involvement/).

**Technology Resources**

The following list introduces some of the technology resources that are available to students at DePaul. Additional information is available on the Information Services website (is.depaul.edu (http://is.depaul.edu)).

**Campus Connect**

Campus Connect provides access to many of DePaul’s primary services, including course registration, grades, tuition billing, transcripts, Demon Express and much more.

**Computer Labs and Classrooms**

There are many technology-enabled classrooms across the DePaul campuses. Technology resources in these rooms include desktop computers, LCD projectors, connections for laptops, and integrated, amplified sound systems. Specialty rooms exist across the university for classes with specific needs, and additional technology is available upon request.

DePaul also has computers available for use by students, faculty or staff, located in computer labs, lounges and lobbies across the campuses. Additional technology access is available to residence hall students; each residence hall is outfitted with study lounges allowing for student access to computers and printers at any time.

**CTA U-Pass**

Your CTA U-Pass provides unlimited rides on the CTA bus and rail systems during an academic term. It also functions as a Ventra card, allowing you to add funds to be used during university breaks. All students meeting the requirements are automatically enrolled in the program. If your eligibility changes before the last day to drop courses, your U-Pass will be adjusted accordingly.

U-Pass pick-up dates are held at the beginning of each quarter. Students must pick up CTA U-PASS cards in person, by presenting a valid DePaul ID Card. Your Ventra U-Pass is valid for 5 years. It will be deactivated and reactivated each quarter based on your enrollment. Do not discard your U-Pass, or you will be assessed a fee by the CTA for a replacement card.

Full details regarding the U-Pass can be found on the DePaul U-Pass website http://upass.depaul.edu/.

**DePaul ID Card**

Your DePaul ID Card serves as your identification to enable access to various DePaul buildings, computer labs, printers, and libraries and is used to purchase items using your Demon Express account and meal plan. You must have your ID Card on hand while on campus. New students receive their ID Card at student orientation. Students can also visit ID Services to obtain an ID card.

**Demon Express**

Demon Express is a prepaid debit account that is linked to your DePaul ID Card. Demon Express can be used at DePaul cafeterias, coffee shops, campus bookstores, libraries, printers, copiers, and other areas.

**Desire2Learn (D2L)**

D2L is an electronic course management system that enables interaction between students and faculty. D2L incorporates document sharing, discussion boards, e-mail, an online grade book, assignment drop boxes, chat rooms, small group areas, online quizzes, and more. To log in, use your Campus Connect username and password. If you need assistance using D2L, training is available.

**Discounts**

Demon Discounts provides discounted goods and services, including computer hardware and software, to DePaul students.

**E-Mail**

All students are provided a free DePaul e-mail account. Additional information is available on the Information Services website.

**Printing**

The Intelliprint system allows students to print from DePaul computer labs. Students use their DePaul ID card to pay for prints and are entitled to a set amount of free printing per quarter. Additional funds can be added to Demon Express as needed. You may also print to the Intelliprint system wirelessly.

**Residence Hall Technology**

Lincoln Park residence hall rooms are equipped with high speed Internet connections, wireless Internet access, and free telephone connections.
**Technical Support**
The Technology Support Center (TSC) is your first point of contact for technical assistance. The TSC provides free assistance via phone, e-mail and web for current DePaul students. We support all DePaul wireless networks, telephones, e-mail accounts and software. Please call (312) 362-8765 or email tsc@depaul.edu for support.

Direct, walk-up support is also available through the Genius Squad; a free tech support resource available to all current students. The Genius Squad can support desktops, laptops, phones, tablets, and other personal electronic devices. Please see go.depaul.edu/gs (http://go.depaul.edu/gs/) for more information.

**Technology Training**
Media Production and Training (MPT) provides technical training to the DePaul community, allowing employees and students to fully utilize current technologies. MPT offers both online training resources as well as campus workshops.

Lynda.com - DePaul students, faculty, and staff can log in to lynda.com (https://www.lynda.com/) for unlimited free access to a vast online library of the instructional videos covering the latest software, creative, and business skills.

**Wireless Internet Access**
Wireless internet access is available to students on all DePaul campuses.

**University Center for Writing-based Learning**
The University Center for Writing-based Learning (UCWbL) works with all members of the DePaul University community to support writers and to promote the use of writing in teaching and learning through five major initiatives:

**The Writing Center**
Peer writing tutors offer DePaul students, staff, faculty, and alumni individualized and small group writing feedback on any type of writing at any stage of the writing process. Tutors provide feedback face-to-face on the Lincoln Park and Loop campuses, through asynchronous written feedback or screencast video appointments, and in real time online through IM and webcam. The Writing Center also facilitates Writing Groups at the Loop and Lincoln Park campuses and serves as DePaul’s official source of student support for ePortfolios.

**The Writing Fellows Program**
The Writing Fellows Program links undergraduate peer writing tutors with writing-intensive courses across the curriculum — from physics to journalism, religious studies to computer science. Writing Fellows work with the same set of writers from a particular course for an entire quarter, responding to two of their papers through written comments on drafts and in individual conferences.

**Workshops**
Workshops are customized, research-based, interactive events that focus on a variety of writing topics. The Workshops Team collaborates with other members of the DePaul community to facilitate in-class workshops that combine their writing expertise with others’ disciplinary expertise.

Popular topics include crafting a thesis, being an effective peer reviewer, citing sources, and designing ePortfolios.

**The Collaborative for Multilingual Writing and Research (CMWR)**
The CMWR provides ongoing support for DePaul’s increasingly linguistically diverse community. At the root of our work, the CMWR aims to offer UCWbL tutors opportunities to reflect on and improve upon their work supporting English as additional language writers. We also work in close collaboration with other programs and offices to bring together the many languages and cultures of the DePaul community to share culture, language, experiences, and knowledge.

**Outreach**
Outreach promotes, supports, and celebrates the work of writers and tutors at DePaul. This takes the form of collaborating with partner offices on events such as the Peer Tutor and Mentor Summit and Banned Books Week, as well as regularly raising awareness of the UCWbL and its initiatives.

For more information, please visit www.depaul.edu/writing (http://www.depaul.edu/writing/).

**University Counseling**
University Counseling Services (UCS) is committed to providing a range of services intended to help currently enrolled DePaul students remove barriers to academic and personal success by addressing emotional, psychological and interpersonal concerns.

UCS provides group counseling, personal growth-oriented workshops, time-limited individual psychological counseling, psychiatric evaluation and crisis management services. Sometimes a skill-building workshop or small group counseling experience is the most effective intervention given a student’s presenting concerns.

UCS has a diverse, caring, and competent professional staff that works from a variety of theoretical perspectives. Some students find that talking to a counselor once is sufficient to resolve their immediate concern. Our counselors can help you in a variety of ways because they are excellent sounding boards, compassionate listeners, and skillful experts in the problems of living. If further services would be beneficial, these will be discussed and recommendations will be made by the counselor.

UCS offers primarily short-term counseling and provides referrals and linkages to community providers when students could benefit from longer term services.

**Co-Curricular Learning Outcomes**
As a result of participating in University Counseling programs and services, students will be able to:

- Develop skills for coping, communication, self-care, and responsible decision-making.
- Identify and make progress on their personal goals.
- Identify and navigate resources both within DePaul University and within the surrounding community in order to remove barriers to academic or personal success.
- Enhance their self-awareness, self-worth, and emotional health.
Law Student Handbook

- University Information (p. 1434)
- University and College of Law Academic Policies (p. 1446)
- University Resources (p. 1465)

University Information

The Handbook provides University policies that support both academic and behavior expectations.

In addition to the University-wide policies and information included in this Handbook, the College of Law has specific guidelines, policies, and procedures for which you are responsible.

The Handbook also includes sections on General Information and University Resources.

About DePaul

DePaul University was founded in 1898, by the Congregation of the Mission (or Vincentian) religious community, which follows the teachings of 17th century French priest St. Vincent de Paul. The university's mission emphasizes academic excellence, service to the community, access to education and respect for the individual.

University Officers

Secretary of the University

DePaul University Mission

This mission statement embodies the principal purposes of DePaul University. As such it is the nexus between past, present and future; the criterion against which plans are formulated and major decisions made; the bond which unites faculty, students, staff, alumni, and trustees as an academic community. As a university, DePaul pursues the preservation, enrichment, and transmission of knowledge and culture across a broad scope of academic disciplines. It treasures its deep roots in the wisdom nourished in Catholic universities from medieval times. The principal distinguishing marks of the university are its Catholic, Vincentian, and urban character.

Central Purposes

DePaul, in common with all universities, is dedicated to teaching, research, and public service. However, in pursuing its own distinctive purposes, among these three fundamental responsibilities this university places highest priority on programs of instruction and learning. All curricula emphasize skills and attitudes that educate students to be lifelong, independent learners. DePaul provides sufficient diversity in curricular offerings, personal advisement, student services, and extracurricular activities to serve students who vary in age, ability, experience, and career interests. Full-time and part-time students are accorded equivalent service and are held to the same academic standards.

As a comprehensive university, DePaul offers degree programs at the undergraduate and graduate levels and a range of professional programs. The liberal arts and sciences are recognized not only for their intrinsic value in undergraduate and graduate degree programs, but also because they are foundational for all specialized graduate programs and supportive of all advanced professional programs. The university maintains that depth of scholarship to offer the doctorate in selected academic disciplines. Libraries, computer resources, and other academic support services match the levels and diversity of degree programs.

Research is supported both for its intrinsic merit and for the practical benefits it offers to faculty, students, and society. Broadly conceived, research at the university entails not only the discovery and dissemination of new knowledge but also the creation and interpretation of artistic works, application of expertise to enduring societal issues, and development of methodologies that improve inquiry, teaching and professional practice.

In meeting its public service responsibility, the university encourages faculty, staff and students to apply specialized expertise in ways that contribute to the societal, economic, cultural and ethical quality of life in the metropolitan area and beyond. When appropriate, DePaul develops service partnerships with other institutions and agencies.

Students and Faculty

DePaul invites to its programs of study students from across the nation. Originally founded for students from the greater Chicago area, and still serving them predominantly, DePaul continues its commitment to the education of first generation college students, especially those from the diverse cultural and ethnic groups in the metropolitan area. Admission standards for all degree programs are selective or highly selective. In admitting students the university places greatest weight on intellectual potential and academic achievement. It seeks diversity in students’ special talents, qualities, interests, and socio-economic background.

DePaul University seeks to manage its resources effectively so as to control the costs it charges students for programs and services. Moreover, it makes available as much financial aid as possible to assure access to a broad range of talented students. The university identifies and offers special assistance to students of high potential who have been handicapped by educational, personal or societal obstacles beyond their control.

From its first charter DePaul has supported a philosophy which now is expressed as being an equal opportunity educator and employer. DePaul continues to provide equal opportunities to students and employees without regard to age, national origin, race, sex, handicap, creed or color. Moreover, it strives to recruit faculty and staff who reflect the diverse mix of the student body.

The faculty, learned yet learning, gives substance to the mission of the university. These men and women personify the intrinsic value of scholarly inquiry and the force of creative and intellectual efforts. Through their dedication to learning, their contributions to a personalistic
environment, and their faith in the potential of their students, the faculty and staff serve as role models for students.

**Distinguishing Marks**

By reason of its Catholic character, DePaul strives to bring the light of Catholic faith and the treasures of knowledge into a mutually challenging and supportive relationship. It accepts as its corporate responsibility to remain faithful to the Catholic message drawn from authentic religious sources both traditional and contemporary. In particular, it encourages theological learning and scholarship; in all academic disciplines it endorses critical moral thinking and scholarship founded on moral principles which embody religious values and the highest ideals of our society.

On the personal level, DePaul respects the religiously pluralistic composition of its members and endorses the interplay of diverse value systems beneficial to intellectual inquiry. Academic freedom is guaranteed both as an integral part of the university's scholarly and religious heritage, and as an essential condition of effective inquiry and instruction.

The university derives its title and fundamental mission from St. Vincent de Paul, the founder of the Congregation of the Mission, a religious community whose members, Vincentians, established and continue to sponsor DePaul. Motivated by the example of St. Vincent, who instilled a love of God by leading his contemporaries in serving urgent human needs, the DePaul community is above all characterized by ennobling the God-given dignity of each person. This religious personalism is manifested by the members of the DePaul community in a sensitivity to and care for the needs of each other and of those served, with a special concern for the deprived members of society. DePaul University emphasizes the development of a full range of human capabilities and appreciation of higher education as a means to engage cultural, social, religious, and ethical values in service to others.

As an urban university, DePaul is deeply involved in the life of a community which is rapidly becoming global, and is interconnected with it. DePaul both draws from the cultural and professional riches of this community and responds to its needs through educational and public service programs, by providing leadership in various professions, the performing arts, and civic endeavors and in assisting the community in finding solutions to its problems.

Adopted by the Board of Trustees
November, 1991

**Vincentian Identity**

The university derives its title and fundamental mission from St. Vincent de Paul, the founder of the Congregation of the Mission, a Roman Catholic religious community whose members, Vincentians, established and continue to sponsor DePaul. Motivated by the example of St. Vincent, who instilled a love of God by leading his contemporaries in serving urgent human needs, the DePaul community is above all characterized by ennobling the God-given dignity of each person. This religious personalism is manifested by the members of the DePaul community in a sensitivity to and care for the needs of each other and of those served, with a special concern for the deprived members of society. DePaul University emphasizes the development of a full range of human capabilities and appreciation of higher education as a means to engage cultural, social, religious, and ethical values in service to others.

**Academic Calendar**

Academic calendars are available at the Academic Affairs website (https://academics.depaul.edu/calendar/Pages/default.aspx).

**Admission**

Admission to graduate programs is determined by each individual graduate program. Please consult the catalog of the respective college for additional information. For general information or to apply to a graduate program consult the Office of Admission website.

**Schools and Colleges**

**Driehaus College of Business**

Established in 1912, the Driehaus College of Business is the nation's tenth oldest business school and serves individuals and organizations seeking access to the highest quality business education as a means for achieving intellectual and professional goals. The College also encompasses our highly respected graduate programs in business.

The Kellstadt Graduate School of Business prepares students to be leaders by frequently updating its programs to keep pace with the dynamics of global business.

**College of Communication**

The College of Communication provides students with a combination of timeless principles and up-to-the-minute tools, whether they're pursuing journalism; public relations and advertising; media studies; radio, television and film; relational, group and organizational communication; or intercultural communication.

**College of Computing and Digital Media**

The College of Computing and Digital Media (CDM) offers students a collaborative education where technology, artistry and business intersect. CDM is organized into three schools:

- The School of Cinematic Arts is home to our animation and cinema programs, which merge creativity, technology, imagination, technique, vision and execution.
- The School of Computing houses programs across the technology spectrum, and combines theoretical fundamentals with hands-on practice.
- The School of Design – CDM's newest school – is home to programs in graphic design, interactive and social media, game development, human computer interaction, and digital communication and media arts.

**College of Education**

The College of Education offers degree programs in bilingual/bicultural education; counseling; curriculum studies; early childhood education; educational leadership; elementary education; middle school mathematics education; reading specialist education; secondary education; social and cultural foundations of education; special education; sport, fitness and recreation leadership; and world language education.
College of Law
The DePaul College of Law was one of the first law schools in the country to introduce educational innovations like the study of negotiation techniques, courses in international criminal law and pre-trial courses in skills techniques. Today, our health law and intellectual property programs are among the best in the country, according to U.S. News & World Report.

College of Liberal Arts and Social Sciences
The oldest college at DePaul, the College of Liberal Arts and Social Sciences (LAS) offers more than 28 undergraduate and 30 graduate degree programs. Courses meet during the day, evenings and on weekends, primarily on the Lincoln Park Campus.

College of Science and Health
The College of Science and Health (CSH) was established in 2011 to help its students meet the demands of the growing fields of science and health. CSH offers multiple undergraduate majors and graduate programs in areas of biology, chemistry, environmental science, mathematics, nursing, physics and psychology.

School of Music
DePaul's School of Music was founded in 1912 and is dedicated to excellence in both music teaching and performance. When they're not working with DePaul students, many of the school's faculty serve as members of the Chicago Symphony Orchestra, Lyric Opera of Chicago, or the Grant Park Symphony Orchestra, or as some of the city's most prominent freelance, chamber and jazz musicians.

School of Continuing and Professional Studies (formerly The School for New Learning)
The School of Continuing and Professional Studies builds upon DePaul University's recognized success in educating adult learners interested in a range of innovative and timely degree programs and non-degree continuing education opportunities. Its undergraduate and graduate degrees, offered on-campus, online, and in corporate settings, are particularly designed to accommodate adult learners who must balance claims of work, family, and/or community responsibilities with their educational pursuits.

The Theatre School
Founded in 1925 as the Goodman School of Drama, The Theatre School at DePaul is the Midwest's oldest theatre training conservatory. Known for its highly structured program and set in a world-renowned theater city, the school has earned a reputation as a standard of excellence in American professional theatre training.

DePaul Campuses/Locations
Students of any school or college may register for classes on any campus, arranging hours and courses in a manner designed to afford maximum educational advantage.
NorthShore University Health System
DePaul offers a Doctor of Nursing Practice degree in Nurse Anesthesiology in conjunction with NorthShore University Health System's School of Nurse Anesthesia in Evanston.

Northwestern Memorial Hospital Clinical Schools – School of Nuclear Medicine Technology & Radiation Therapy
Through a partnership with Northwestern Memorial Hospital Clinical Schools, select DePaul students may pursue bachelor of science degrees in Allied Health Technologies in either Nuclear Medicine Technology or Radiation Therapy.

Rosalind Franklin University of Science and Medicine
DePaul has partnered with the Rosalind Franklin University of Science and Medicine in North Chicago to provide numerous degree program offerings, including:

- RN to MS in Nursing
- MA, Health Communication
- Master's Entry to Nursing Practice (MENP)
- 3+4 PharmD

Rush University
In conjunction with the Department of Health Systems Management in the College of Health Sciences at Rush University Medical Center, the Kellstadt Graduate School of Business of the College of Commerce offers a joint MBA/MS (Master of Science in Health Systems Management) degree program.

Truman College, City Colleges of Chicago
Through an agreement with the City Colleges of Chicago, students may complete their first years in college at Truman College, then seamlessly transfer their credits towards a DePaul undergraduate degree through the School for New Learning.

Wright College, City Colleges of Chicago
Through an agreement with the City Colleges of Chicago, students may complete their first years in college at Wright College, then seamlessly transfer their credits towards a DePaul undergraduate degree through the School for New Learning.

Study Abroad Opportunities
DePaul partners with a substantial number of institutions around the world to provide a wide variety of study abroad options for students. Information about those agreements can be found on the International Programs website (http://international.depaul.edu/).

Complaints or concerns that a policy or procedure has been incorrectly or unfairly applied can often be resolved through an initial conversation with the staff, faculty member or department where the issue originated and his/her supervisor if necessary.

DePaul has established a number of policies and procedures for responding to particular types of concerns. Contact information for these policies and procedures can be found in the bottom section of this page:

- Concerns about grades are addressed through the University's Grade Challenge policy. Detailed information is available in the Academic Handbook section of the University Catalog.
- Concerns about academic integrity are addressed through the Academic Integrity policy and process. Detailed information is available on the Academic Integrity website.
- Concerns related to student conduct are addressed through the Code of Student Responsibility and the Student Conduct Process. Detailed information is available in the Academic Handbook section of the University Catalog.
- Concerns about discrimination or harassment on the basis of a variety of protected characteristics are addressed by the Office of Institutional Diversity and Equity through the Anti-Discrimination and Anti-Harassment Policy and Procedures.
- Concerns based on sexual violence, sexual harassment, or other sex discrimination (Title IX) are addressed through the DePaul's Title IX Coordinator located in the Office of Institutional Diversity. Detailed information is available on the Office of Public Safety website (https://offices.depaul.edu/public-safety/Pages/default.aspx) or in the Code of Student Responsibility (p. 1472) section of the University Catalog.
- Concerns about the confidentiality of education records (FERPA-Family Educational Rights and Privacy Act), are addressed through the Office of the University Registrar.

Concerns about academic issues relating to faculty or staff can often be resolved through an initial conversation with the faculty, staff member or student employee involved in the situation. Therefore, students with academic complaints or concerns should address the issue following the steps indicated below:

1. The issue should first be discussed with the faculty or staff member.
2. If this does not resolve the issue the student should then discuss the issue with the department chairperson or program director for faculty issues or the individual's supervisor for staff. If you are unsure of the appropriate college contact, please see below for a directory of College and College Dean's Offices.
3. If the issue is still not resolved, the student should then discuss the matter with the Office of the Dean of the faculty member's college for faculty issues or the department supervisor for staff issues.
4. If the issue is still not resolved, the student may discuss the issue with the Office of the Provost.

The Dean of Students Office is a central location to which students can turn with problems they have been unable to resolve. The Dean of Students Office hears student concerns and helps students understand their options for resolving the concerns and/or locating appropriate

services: http://offices.depaul.edu/student-affairs/about/departments/Pages/dos.aspx.

In addition, the University Ombudsperson is available to provide consultation about conflict resolution, to clarify policies and procedures, and to help find the right person or department to respond to questions. Students may also always choose to report concerns or misconduct through the University’s confidential reporting mechanisms: 877.236.8390 or https://compliance.depaul.edu/hotline/index.asp (https://compliance.depaul.edu/hotline/)

The U.S. Department of Education requires institutions offering online education to provide contact information for students to file complaints with its accreditor and state agencies. Contact information for DePaul’s regional accreditor (the Higher Learning Commission), programmatic/specialized accreditor and state agencies is available in the Handbook section of the University Catalog.

Honor Societies
Since 1954, DePaul University has recognized academic honorary societies in order to highlight students’ superior academic achievement and leadership. Students are selected to join honorary societies based on their superior academic record within their specific major or across all colleges. DePaul University strives to recognize students’ outstanding academic performance and is proud of the rich tradition that these valuable organizations have provided to the university community. Below is a list of each honorary society and its academic discipline.

- Beta Alpha Psi – Accounting, Finance and MIS
- Kappa Delta Pi - Education
- Psi Chi - Psychology
- Sigma Pi Sigma - Physics
- Phi Alpha Theta - History
- Omicron Delta Epsilon - Economics
- Sigma Theta Tau - Nursing
- Pi Sigma Alpha – Political Science
- Sigma Tau Delta - English
- Lambda Pi Eta - Communication
- Sigma Delta Pi - Spanish
- Gamma Kappa Alpha - Italian
- Phi Beta Delta - International Education
- Theta Alpha Kappa - Religious Studies
- National Society of Collegiate Scholars - All
- Upsilon Pi Epsilon - Computer Science
- Iota Iota Iota - Women’s and Gender Studies
- Lambda Alpha - Anthropology
- Gamma Theta Upsilon - Geography
- Order of Omega - Fraternity and Sorority Community
- Pi Alpha Alpha - Public Administration
- Nu Lambda Mu - Nonprofit Management and Leadership
- Pi Epsilon Pi - Writing Studies
- Phi Sigma Tau - Philosophy
- Nu Rho Psi - Neuroscience

University Learning Goals and Outcomes

Preamble
In common with all universities, DePaul strives to ensure that its students come away from their experience with knowledge and skills that will enable them to fulfill their personal and professional aspirations, interact productively with others in all their diverse perspectives, contribute meaningfully to society, and continue learning throughout their lives. Moreover, DePaul shares with other universities the goal that students will use their knowledge and skills to conduct themselves ethically and humanely, with an appreciation for the past and an eye towards shaping an even better future.

At the same time, DePaul’s mission – Catholic, Vincentian, urban – calls on us to consider these broad goals for learning in a manner that honors the university’s distinctive qualities. DePaul’s Catholic heritage encourages us to study religious traditions, and to critically examine the moral underpinnings of all academic disciplines. The example of St. Vincent, who worked with people from all strata of society in order to address urgent human needs, infuses our understanding of both education and service with a concern for social justice, for the university mission statement reminds us that “the DePaul community is above all humanely, with an appreciation for the past and an eye towards shaping an even better future.”

With the university’s mission as their foundation, these Learning Goals and Outcomes prepare students to engage in the world of the twenty-first century, carrying with them the heritage and values that distinguish DePaul.
Goal 1. Mastery of Content
This goal embraces the breadth and depth of ideas, theories, approaches, and information which DePaul students encounter through and beyond their studies.

Outcomes: DePaul graduates will demonstrate and be able to apply:
- general knowledge of cultures, religions, science, the arts, history, and computational reasoning.
- specialized knowledge and skills from within a specific discipline or field.

Goal 2. Intellectual and Creative Skills
In order to fully engage with knowledge, whether for a specific purpose or for its own sake, DePaul students are encouraged to develop the ability to think critically and imaginatively, formulate their own understanding, and effectively communicate their ideas. This goal articulates specific skills that comprise these broader abilities.

Outcomes: DePaul graduates will be able to:
- systematically access, analyze and evaluate information and ideas from multiple sources in order to identify underlying assumptions, and formulate conclusions.
- solve quantitative problems.
- create and support arguments using a variety of approaches.
- use existing knowledge to generate and synthesize ideas in original ways.
- communicate clearly in speech and writing.

Goal 3. Personal and Social Responsibility
This goal honors the notion that knowledge reflects and contributes to the values of individuals and communities. DePaul students, in particular, are challenged to consider their own values in light of the university’s mission.

Outcomes: DePaul graduates will be able to:
- articulate their own beliefs and convictions, as well as others’ beliefs, about what it means to be human and to create a just society.
- articulate what is entailed in becoming a self-directed ethical decision-maker and living a life of personal integrity.
- evaluate ethical issues from multiple perspectives and employ those considerations to chart coherent and justifiable courses of action.
- benefit their communities through socially responsible engagement and leadership.

Goal 4. Intercultural and Global Understanding
This goal speaks to the likelihood that, in our diverse and increasingly interdependent world, the future depends on individuals being able to learn from each other and make the best use of finite resources.

Outcomes: DePaul graduates will demonstrate:
- respect for and learning from the perspectives of others different from themselves.
- knowledge of global interconnectedness and interdependencies.

- knowledge to become a steward of global resources for a sustainable future.

Goal 5. Integration of Learning
Given the wide range of opportunities for learning at DePaul, it is important for students to develop the ability to consider relationships among individual experiences of learning so as to make meaning of their education in all its variety.

Outcomes: DePaul graduates will be able to:
- relate their learning – curricular and co-curricular – to multiple fields and realms of experience.
- make connections among ideas and experiences in order to synthesize and transfer learning to daily practice.
- design, develop, and execute a significant intellectual project.

Goal 6. Preparation for Career and Beyond
This final learning goal builds on all the rest and calls on students to be ready to apply their knowledge and skills to the changing world that awaits them.

Outcomes: DePaul graduates will be able to effectively:
- set goals for future work that are the result of realistic self-appraisal and reflection.
- articulate their skills and knowledge and represent themselves to external audiences.
- work toward goals independently and in collaboration with others.
- employ technology to create, communicate, and synthesize ideas.
- set priorities and allocate resources.
- apply strategies for a practice of life-long learning.

Additional Notes
These University Learning Goals and Outcomes were approved by Faculty Council and the Interim Provost in October 2012.

A prior version of this document was drafted in Spring 2011 by a group of faculty, staff and students in the early stages of the strategic planning process that led to Vision 2018. In Autumn 2011, at Faculty Council’s direction, the draft went to the university’s Committee on Learning and Teaching, which sought input from stakeholders across the university and incorporated their valuable contributions into the revised document here. As a result of this process, the University Learning Goals and Outcomes represent a true community effort.

These university-wide goals do not exhaust the learning goals pursued at DePaul. Notably, they do not explicitly refer to the expectations specific to the various schools and departments. Nor will they be pursued in the same manner nor to the same degree in every unit. Nevertheless, the education of all recipients of DePaul undergraduate degrees should be characterized by these goals along with the goals specific to the student’s unit. Since graduate and professional schools encounter students at different stages of their education and at different levels of maturity, their approaches to these goals and their methods of measuring them will have to be adjusted accordingly.

Law Program Learning Outcomes
DePaul is committed to ensuring educational excellence in each of our academic programs. Articulating learning outcomes for each of our
academic programs is an important first step in our ongoing assessment and improvement cycle. By having well-defined learning outcomes as a guide, our programs are positioned to implement and assess quality educational experiences. These outcomes are also mapped to institutional learning goals, further strengthening the connection to overall student learning at DePaul University.

- Health Law (LLM) Learning Outcomes (p. 488)
- Intellectual Property (LLM) Learning Outcomes (p. 535)
- International Law (LLM) Learning Outcomes (p. 544)
- Law - Joint Degree (JD/LLM) Learning Outcomes (p. 611)
- Law (JD) Learning Outcomes (p. 594)
- Law/Business - Joint Degree (JD) Learning Outcomes (p. 612)
- Law/Computer Science - Joint Degree (JD/MS) Learning Outcomes (p. 614)
- Law/Public Service - Joint Degree (JD) Learning Outcomes (p. 616)
- Master of Juris Prudence (MJ) Learning Outcomes (p. 605)
- Taxation (LLM) Learning Outcomes (p. 992)
- U.S. Legal Studies (LLM) Learning Outcomes (p. 1109)

**Academic Advising, Statement on**

Academic Advising at DePaul helps students achieve their educational, personal, and career goals by providing guidance and assistance in the decision-making process. Academic Advising is most effective when all participants anticipate their future needs, commit to the process, do their part, and then reflect on their results. Students should work closely with their advisors to plan workable educational goals, to understand the degree options and requirements, to understand the financial implications of their decisions, to assess their strengths and challenges as scholars, and to clarify realistic career objectives for themselves upon graduation.

**Students bear ultimate responsibility for decisions and actions that determine their success at DePaul University.**

- Students will make informed decisions and register for classes on time.
- Students will obtain the necessary information for course selection and planning in their individualized programs.
- Students will make and keep appointments with their advisors.
- Students will communicate honestly and fully in these advising discussions.
- Students will regularly reflect on the consequences, both academic and financial, of their decisions as they progress in their academic careers toward life choices.

**Advisors are responsible for helping students improve their decision making skills.**

- Advisors guide students through this learning process during regular interactions at key points during their academic careers.
- Advisors will be available on a regular basis for consultation and encourage students to make and keep regular advising appointments.
- Advisors will monitor their advisees’ academic progress.
- Advisors will encourage students to consult available material related to their program and career choice.
- Advisors will encourage students to reflect on the academic and financial consequences of their decisions about degree programs and course-taking plans.
- Advisors will assist students to set realistic career goals that extend beyond their time at DePaul.
- Advisors will encourage students to incorporate their basic values and beliefs into their decision making process.

**The university is responsible for providing the infrastructure for students, faculty, and staff to support effective advising.**

- The university will provide the information that students and their advisors need to make informed and timely decisions.
- The university will provide adequate resources of personnel, funding and facilities to support the advising process.
- The university will clearly communicate to advisors and students the policies and options regarding student financial aid.
- The university will regularly evaluate the policies and procedures surrounding advising to improve the advising process on an ongoing basis.
- The university will provide training to help both advisors and students work more effectively together.
- The university will acknowledge the important contribution advisors make by recognizing advising within the institutional reward system.

**Tuition and Fees**

**Financial Aid**

Financial aid applicants must meet the federal eligibility requirements for aid, and if asked, provide documents as needed to support eligibility.

- You must be a U.S. citizen or eligible non-citizen.
- You must be accepted and currently active in an eligible graduate or professional degree program, or a financial aid-eligible non-degree graduate program. For most financial aid programs, and for loan deferment, you must enroll in your program at least half-time. Your classes must be taken for credit and must be part of your degree or financial aid-eligible non-degree graduate program.
- Audited courses are not eligible for financial aid consideration. In addition, if it is determined that you have completed your degree or your financial aid-eligible non-degree graduate program requirements, or if you wish to repeat a course for which you have previously earned credit, your financial aid options are limited and you should contact the Office of Financial Aid at DePaul Central for more information.
- You must be in good academic standing and comply with the federal satisfactory academic progress requirements (https://www.depaul.edu/admission-and-aid/financial-aid/maintain-eligibility/sap/Pages/default.aspx) in your course of study.
- You must not be in default on any federal loan or owe a repayment on any federal grant.
- You must comply with all federal regulations governing Selective Service registration and use of funds for educational purposes.
- You must meet all federal eligibility requirements. To learn more about these eligibility requirements, including information about any prior drug conviction and federal student aid eligibility, please refer to the FAFSA questions and answers at http://studentaid.ed.gov/eligibility (http://studentaid.ed.gov/eligibility/).
Scholarships

Scholarships and assistantships are awarded at the program level by your college office and academic department. Please consult your college or school for additional information. You may also visit DePaul Scholarship Connect (https://depaul.academicworks.com/users/sign_in/) throughout the year to see specific scholarship opportunities available.

Veterans Assistance

DePaul's Office of Veteran Affairs handles the following VA educational benefit programs:

- The Post-9/11 GI Bill® (Chapter 33) (http://www.benefits.va.gov/gibill/post911_gibill.asp) - for those who served at least 30 consecutive days on active duty after September 10, 2001
- The Post-9/11 GI Bill® Yellow-Ribbon program (http://www.benefits.va.gov/gibill/yellow_ribbon.asp) - for qualified Post-9/11 applicants
- The Montgomery GI Bill® – Selective Reserve (Chapter 1606) (http://www.benefits.va.gov/gibill/montgomery_bill.asp)
- The Survivors' and Dependents' Educational Assistance Program (Chapter 35) (http://www.benefits.va.gov/GIBILL/DEA.asp) - for spouses and children of deceased or disabled veterans
- The Vocational Rehabilitation Program (Chapter 31) (http://www.benefits.va.gov/vocrehab/) - for disabled veterans approved by Veterans Affairs for study at DePaul
- The Marine Sergeant John David Fry Scholarship (http://www.benefits.va.gov/GIBILL/Fry_scholarship.asp) – this additional provision of the Post-9/11 GI Bill® may be awarded to a surviving spouse and children of an active duty member of the Armed Forces, who has died in the line of duty, on or after September 11, 2001. Eligible children may be married and under the age of 33.

Additional information specific to veteran students (http://www.depaul.edu/admission-and-aid/Pages/veteran-student.aspx) is available through the Admission and Aid website.

DePaul DREAM Statement

At DePaul University we affirm the dignity of the individual. We value diversity and culture because these are part of our core values and traditions as a Catholic, Vincentian, and urban university. DePaul University has decided to take a strong and public stand for supporting undocumented students, and DREAM Act legislation. We believe supporting undocumented students is smart policy that will yield significant benefits for our university, city, state, and nation. We also know these young people who enter our doors are part of the next great generation who will build our collective future. It is for this reason that DePaul admits students regardless of their citizenship status. Because we welcome these students, it is incumbent upon all members of the DePaul community to understand DePaul's position on assisting undocumented students, realize the value that they bring to our university, and support their success as we support all of our students.

Academic Integrity

DePaul University is a learning community that fosters the pursuit of knowledge and the transmission of ideas within a context that emphasizes a sense of responsibility for oneself, for others and for society at large. To preserve the quality of education offered to students, the university is responsible for maintaining academic integrity and protecting all those who depend on it, including DePaul's community partners and institutional affiliates. Violations of academic integrity, in any of their forms, are, therefore, detrimental to the values of DePaul, to the students' own development as responsible members of society, to the pursuit of knowledge, and to the transmission of ideas. All members of the university community share the responsibility for creating conditions that support academic integrity.

Violations of academic integrity include but are not limited to the following categories: cheating; plagiarism; fabrication; falsification or sabotage of research data; destruction or misuse of the university's academic resources, alteration or falsification of academic records; academic misconduct; and complicity. Violations do not require intent. This policy applies to all courses, programs, learning contexts, and other activities at the university, including but not limited to experiential and service-learning courses, study abroad programs, internships, student teaching, providing false information on an application, and not disclosing requested information. If an instructor finds that a student has violated the Academic Integrity Policy, the appropriate initial sanction is at the instructor's discretion. Actions taken by the instructor do not preclude the university from taking further action, including dismissal from the university. Conduct that is punishable under the Academic Integrity Policy could also result in criminal or civil prosecution.

Additional Information and the complete Academic Integrity policy can be found on the Academic Integrity website (https://offices.depaul.edu/academic-affairs/faculty-resources/academic-integrity/Pages/default.aspx).

For purposes of the Academic Integrity policy, participation in a law journal or moot court constitutes participation in a course.

Admission

Admission to DePaul University College of Law is competitive. We consider numerous factors in evaluating each applicant, including undergraduate academic performance, Law School Admission Test (LSAT) scores, advanced degrees, professional work experience, writing ability, potential for leadership, professional and academic recommendations and the student's special talents, qualities, interests, and socioeconomic and cultural background. No single factor is dispositive when determining admission.

Personal qualities that demonstrate intellectual depth, high ideals and diligence also are considered, as are economic, societal or educational obstacles that have been successfully overcome. Diversity in background and experience among the members of each entering class is a continuing objective. Having a diverse student body allows us to encourage and foster the exchange of different ideas. In addition, a candidate's prior relations with the DePaul University community and her or his potential for furthering DePaul's institutional goals are considered.

Because applications are reviewed on a rolling basis, early application is highly recommended, especially for those who desire merit scholarship and financial aid consideration. For first-year applicants with no previous law school credit, admission is granted only for the fall semester. First-year applicants should ensure that their application and all necessary documents are on file in the Office of Admissions prior to the suggested application deadline of March 1.

Character and Fitness Disclosures

The Illinois Board of Admissions to the Bar requires that the Dean of the law school certify that each student sitting for the bar has earned the JD degree. As part of that certification, the Dean must answer questions regarding the character and fitness of each bar applicant. Most other states require similar certificates to be completed by the Dean before students may take the bar exam.

Students are advised that they have a duty to supplement their law school files if any adverse criminal, civil, administrative or financial events occurred before or during law school. If any discrepancy exists between information disclosed on the original law school application and the bar application, the student may be asked to meet with bar admission staff or the Board of Law Admissions. Adverse information not disclosed may result in the denial of a license to practice law. Students who do not fully disclose adverse information when they apply to DePaul University College of Law must do so at the earliest opportunity. If not, they may be cited for a violation of the College of Law Honor Code. Penalties, including letters of reprimand, suspension or expulsion, may be imposed for failure to make full or complete disclosure.

Class Ranks and Dean's List

Class Ranks

JD students who have completed at least one semester at the College of Law are ranked by cumulative GPA in percentage increments. LLM students are not ranked. Students who transfer to DePaul are ranked once they receive DePaul grades. Transfer credits are not used to determine class ranks but are used to determine honors at graduation. Class ranks are posted in February and July on the College of Law website.

Ranks are listed by percentile, in five percent increments, through the 50th percentile. The lower half of the class is ranked by quartile. Full-time and part-time students are ranked separately. Once released, class ranks are not affected by any subsequent grade changes or withdrawals. Numeric class ranks are not available.

In communicating with prospective employers or otherwise, a student must report his or her class rank precisely as listed on the College of Law website. Students may not round off grade point averages to achieve a higher rank.

To verify a class rank, a student should order an unofficial transcript or official transcript from Campus Connection or through the University Office of Student Records (http://sr.depaul.edu). Students then should compare their cumulative GPA to the percentage class ranks on the College of Law website. If an employer requests verification of class rank, the student should give the employer the unofficial or official transcript and a copy of the ranks from the College of Law website or refer the employer to the website.

Dean's List

Students who rank in the upper 25 percent of their class based on one semester's grades qualify for the Dean's List. Dean's List notes appear on
unofficial and official transcripts, available on Campus Connection. Total credits, graded as well as pass/fail, count toward earned credit hours.

To qualify for the Dean’s List, a full-time student must be registered for at least 12 credits graded other than pass/fail or audited. A part-time student must be registered for at least nine credits graded other than pass/fail or audited. Once released, the Dean’s List is not affected by any subsequent grade changes or withdrawals.

JD Classifications for Class Ranks and the Dean’s List
For purposes of determining class ranks and the Dean’s list, JD students are classified by the number of credit hours they have earned:

**Full-Time**
- First-Year = 30 or fewer earned credit hours
- Second-Year = 31 to 69 earned credit hours
- Third-Year = 70 or more earned credit hours

**Part-Time**
- First-Year = 23 or fewer earned credit hours
- Second-Year = 24 to 45 earned credit hours
- Third-Year = 46 to 73 earned credit hours
- Fourth-Year = 74 or more earned credit hours

**College of Law Honor Code**
All College of Law Students are expected to abide by the University Code of Student Responsibility. The College of Law Honor Code supplements the Code of Student Responsibility and Academic Integrity Policy of DePaul University.

§ 1. Presumption of Knowledge of the Honor Code
All students are conclusively presumed to know the provisions of the Honor Code. Lack of familiarity with the Code shall not constitute a defense to an alleged violation.

§ 2. Standard of Responsibility
A student is responsible for an act or omission deemed to be a violation of the Code if the student knew or should have known that there was a high probability that the act or omission would be found to be a violation of the Code.

§ 3. Unprofessional Conduct
A student violates the Code if the student engages in any conduct related to the student’s academic career that is inconsistent with the standards of honesty expected of a member of the legal profession, as defined by the American Bar Association’s Model Rules of Professional Conduct. Such conduct includes, but is not limited to, the following:

**Application for Admission**
It shall be a violation of the Code for any student to fail to disclose, or to make a false statement of, a material fact on his or her law school application. A fact is material if it would reasonably have been considered as a factor in the decision whether to admit the student. It shall also be a violation of the Code for a student to fail to update and amend his or her law school application to disclose material facts that arise from the date he or she applies to the College of Law through matriculation and graduation. The obligation of truthfulness and accuracy is a continuing obligation and extends beyond the filing of any application.

**Examinations**
With respect to examinations, students shall be presumed to know all applicable exam rules and it shall be a violation of this Code to do or attempt to do any of the following:

1. Obtain or receive unauthorized information concerning the content of an examination prior to the examination;
2. Seek or voluntarily receive unauthorized aid in any manner from any source with respect to any examination;
3. Bring into an examination room any unauthorized materials;
4. Give to another student solicited or unsolicited unauthorized aid on an examination;
5. Fail to comply strictly with designated time limits of an examination;
6. Use a false excuse to avoid taking an examination at its scheduled time;
7. Identify himself or herself on a exam that is graded anonymously; or
8. Engage any person to take an examination in the place of oneself or to take an examination for another.

**Required Course Work, Assignments, and Other Academic Exercises**
With respect to any work done in conjunction with and/or required by any course for academic credit, including Independent Study, Guided Research, Legal Writing, seminars, or any other academic exercise, the student shall be presumed to know all applicable rules governing an assignment and it shall be a violation of this Code to do any of the following:

1. Engage in any act prohibited by the instructions governing an assignment;
2. Submit as one’s own, and without appropriate citation, writings or ideas of another, including those prepared by another student;
3. Submit for credit work not originally prepared for the course for which it is submitted, without explicit permission of the instructor of the course obtained after the instructor has been advised of the origins of the work.

“Academic exercise” refers to any work constituting a basis upon which a student will be evaluated to earn credit or other College of Law honors including, but not limited to, examinations, research papers (including topic proposals, outlines, and drafts), other writing assignments, oral presentations, work done for credit in clinical programs or on law journals and work performed in any moot court or other competition sponsored or conducted by the College of Law.

**Plagiarism**
The University Code of Student Responsibility defines plagiarism as a major form of academic dishonesty involving the presentation of the work of another as one’s own. Plagiarism includes, but is not limited to, the following:

1. The direct copying of any material, computer files, recordings, video programs or musical scores, in whole or in part, whether published or unpublished, without proper acknowledgement that it is someone else’s;
2. Copying of any source in whole or part with only minor changes in wording or syntax, even with acknowledgement;

3. Submitting as one's own work a report, examination paper, computer file, lab report or other assignment that has been prepared by someone else including, research papers purchased or acquired from another person or entity;

4. The paraphrasing of another's work or ideas without proper acknowledgement.

Plagiarism, like other forms of academic dishonesty, is always a serious matter. If an instructor finds that a student has plagiarized, the appropriate penalty is at the instructor's discretion. Actions taken by the instructor do not preclude the College of Law from taking further punitive action under the Honor Code.

§ 4. Theft and Unauthorized Use of Property

It shall be a violation of the Code to do any of the following:

1. Damage, hide or otherwise exert unauthorized control over any library property or class-related materials including, but not limited to, all DePaul University library materials;

2. Damage, hide or otherwise exert unauthorized control over property belonging to another student, a faculty member or a student organization; or

3. Use for unauthorized purposes University equipment or services including, but not limited to, photocopying machines, mailroom facilities and computer research or word processing equipment.

§ 5. Conduct Relating to Career Services

With respect to students seeking employment, whether permanent, part-time or as an extern, it shall be a violation of the Code to do any of the following:

1. Furnish to any person information known to be false which is related to the student's academic record or which concerns activities related to the College of Law; or

2. Misrepresent another student's academic record or otherwise make comment known to be false about another interviewee to any prospective employer.

§ 6. Obstruction of Honor Code Proceedings

With respect to any proceeding before the Academic Integrity Hearing Board, it shall be a violation of the Code to do any of the following:

1. Testify falsely;

2. Fail without just cause to appear at any hearing pursuant to a request issued by the Board;

3. Give false information to the presenter; or

4. Harass any person who provides information or testimony pertaining to a violation of this Code or who participates in the enforcement of this Code.

§ 7. Failure to Report Violations

It shall be a violation of the Code for a student to fail to report any suspected violation of the Code where such student has reasonable grounds to believe that such a violation has occurred.

If a student is the subject of a pending Honor Code proceeding, that student shall not be granted a degree. Every reasonable attempt shall be made to expedite proceedings in the case of a student who has applied to graduate.

§ 9. Procedures for Obtaining Information

Non-Examination Violations

Persons, other than examination proctors, who have information about a possible Honor Code violation of any kind by a law student shall, as soon as possible, notify the Office of the Dean and the Associate Dean for Student Affairs in writing of the facts and circumstances. If the person possesses any materials that may become exhibits, the person should give those materials to the Dean and the Office of the Assistant Dean.

Examination Violations

1. Procedures During Examinations

   If an examination proctor witnesses conduct which the proctor believes to be a violation of the exam rules, the proctor shall immediately verbally notify a dean, exam coordinator, the professor of that class or the professor's delegate. Once the proctor provides verbal notice of an alleged violation, the dean, professor or professor's delegate may confiscate any improper materials and advise the student to discontinue talking or otherwise continue violating exam rules. Confiscated materials shall be transferred to the Office of the Associate Dean for Student Affairs. Students who allegedly violate exam rules shall be permitted to finish the exam during the allocated time.

2. Procedures After the Examination

   As soon as possible after the proctor gives verbal notice to a dean, exam coordinator, professor or professor's delegate, the proctor shall, in a signed report, describe the alleged violation. The report should include a physical description of the student or students alleged to be involved in the violation and of the acts that constitute the violation. If possible, the student's anonymous number shall be given as soon as possible after the exam to one of the deans of the College of Law. When a professor, the professor's delegate or a dean is informed of the alleged violation, that person shall notify the Office of the Student Affairs forthwith in writing.

Credit Hour Requirements, Time to Degree Limits and Class Attendance Policy

Credit Hour Requirements

Under the College of Law's semester system, one credit hour is granted for 50 minutes of classroom or direct faculty instructional time per week, multiplied by 15, and at least 120 minutes of additional out-of-class student work each week, or an equivalent amount of work for other courses and activities, multiplied by 15. The standard course extends over a fourteen-week semester, followed by a two-week final examination period. Courses or other credit-bearing activities that occur over a different time period must incorporate the same total amount of instructional time and additional assigned work per credit hour as a standard course. At a minimum, students must complete 42.5 hours for
1 unit of credit; 85 hours for 2 units of credit; 127.5 hours for 3 units of credit; and 170 hours for 4 units of credit.

Credit is earned if a student receives an A through a D, or PA grade.

Graduation with a JD requires that the student complete 86 credit hours. Graduation with an LLM requires that the student complete 24 credit hours. Graduation with an MJ requires that the student complete 30 credit hours, or 24 credit hours if granted a waiver based on substantial professional experience of at least 12 months’ duration in a relevant field of interest.

Time Limit for Degree Completion

Below are listed the time limits for degree completion for the JD, LLM and MJ programs. Students who are unable to complete the degree within these time frames are required to confer with the Associate Dean for Student Affairs in the College of Law.

Students in the JD program may pursue the degree in either the JD Day or JD Evening program. JD Day students are expected to complete the degree in three years. JD Evening students are expected to complete the degree in four years. The maximum time to complete the JD program, if a student takes an approved leave of absence, is five years. Pursuant to the American Bar Association Standards of Accreditation, all JD students must complete their degree no later than 84 months after commencement of law study.

Students in the LLM program may pursue the degree on either a full-time or part-time basis. Full-time LLM students are expected to complete the degree in one year. Part-time LLM students are expected to complete the degree in two years. The maximum time to complete the LLM degree is five years.

Students in the MJ program may pursue the degree on either a full-time or part-time basis. Full-time MJ students are expected to complete the degree in one or two years. Part-time MJ students are expected to complete the degree in two to four years. The maximum time to complete the MJ program is six years.

Class Attendance Policy

Attendance is mandatory for all law school classes. Each instructor may establish penalties for lack of attendance, including lowering the final grade for the class. If a student registers for a limited enrollment class such as a senior research seminar or a professional skills course and does not attend the first week of the class, the instructor may assign a failing grade.

Students are required to attend the section of a course for which they are registered. A student may not attend another section of the same course, even if taught by the same instructor.

Students who never attend or cease to attend a class without withdrawing may receive a grade of FX. The FX is calculated into the student’s GPA as an F.

Dismissal

A full-time J.D. student whose GPA falls below 1.70 at the end of the first academic semester will be dismissed from the College of Law. In addition, full-time and part-time College of Law students who are not in good standing at the end of any given academic year will be dismissed.

However, formal dismissal letters typically are not issued until final grades are processed.

Students Enrolled In Summer Session Before Notice of Dismissal

A student who is dismissed at the end of the first year and who is enrolled in a Summer course will be withdrawn from the Summer course. Tuition will not be refunded. An upper-level student who is dismissed while enrolled in a Summer course may either withdraw from the course (without a refund) or may finish the Summer class. Should the student elect to remain in the class, credit will not be given unless the student’s petition for readmission is granted.

Note

A student dismissed for a conduct-related reason, such as through the Student Conduct Process or the Academic Integrity process is not eligible for readmission to the University. The only exception to this is a program specific dismissal, in which case the student is not dismissed from the University, only the specific program. In this case, the student is eligible to apply to other programs.

Employment Limitation for Full-Time JD Students

College of Law full-time JD students are strongly discouraged from being employed for more than 20 hours per week while Autumn and Spring semester classes are in session. If a student needs to work more than 20 hours per week, the student would be advised to transfer to the part-time program.

If full-time, first-year JD students feel compelled to work, they should be careful to limit their hours so as not to interfere with their studies.

Students are expected to arrange their work schedules around College of Law classes. Adjustments in the curriculum or final exams will not be made because of work conflicts.

Evaluation and Credit/Limitations

No Credit for Course Work Taken Prior to Matriculation in the JD and LLM Programs

The American Bar Association Standards provide that credit for a J.D. degree shall only be given for course work taken after the student has matriculated in a law school. A law school may not grant credit toward the J.D. degree for work taken in a pre-admission program.

Requirements to Visit Another Law School

A DePaul student may take selected cross-listed courses at other law schools that have a cross-listing agreement with DePaul College of Law. Students who take such courses shall continue to be registered at, and pay tuition to, DePaul College of Law. The course instructor shall send the student’s final grade to the Associate Dean of Student Affairs of the DePaul College of Law.

Except for the cross-listed courses referenced above, or an approved Summer study abroad visit at another law school, which is strongly discouraged, a student will be permitted to receive credit for courses taken at another law school only if the student faces an unforeseen change of circumstances of an emergency nature that makes the
FERPA/Annual Notification

Annual Notification for DePaul Students: Your FERPA Rights

We want to take this opportunity to provide you with a summary of your rights under The Family Educational Rights and Privacy Act (FERPA), the federal law that governs release of and access to student education records. Please view Understanding FERPA, a DePaul Central Learning Center video for information and instructions.

Your FERPA rights include:

1. The right to inspect and review your education record within 45 days after the University receives a request for access. If you want to review your record, contact the University office that maintains the record to make appropriate arrangements.

2. The right to request an amendment of your education record if you believe it is inaccurate or misleading. If you feel there is an error in your record, you should submit a statement to the University official responsible for the record, clearly identifying the part of the record you want changed and why you believe it is inaccurate or misleading. That office will notify you of their decision and advise you regarding appropriate steps if you do not agree with the decision.

3. The right to provide written consent before DePaul discloses personally identifiable information contained in your education records, except to the extent that FERPA authorizes disclosure without consent.

Some examples of exceptions include:

- School officials with "legitimate educational interest." A school official has a legitimate educational interest if the official has a professional need to review your education record in order to fulfill his or her official responsibilities. Examples of people who may have access, depending on their official duties, and only within the context of those duties, include: university faculty and staff, agents of the institution, students employed by the institution or who serve an official institutional committees, and representatives of agencies under contract with the University.

- To officials of another school where the student seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student's enrollment or transfer.

- To authorized representatives of the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or state and local educational authorities, such as a state postsecondary authority that is responsible for supervising the university's state-supported education programs. Disclosures under this provision may be made in connection with an audit or evaluation of federal- or state-supported education programs, or for the enforcement of or compliance with federal legal requirements that relate to those programs. These entities may make further disclosures of personally identifiable information to outside entities that are designated by them as their authorized representatives to conduct any audit, evaluation, enforcement or compliance activity on their behalf.

- In connection with financial aid for which the student has applied or which the student has received, if the information is necessary to determine eligibility for the aid, determine the amount of the aid, determine the conditions of the aid, or enforce the terms and conditions of the aid.

- To organizations conducting studies for, or on behalf of, the school, in order to:
  i. develop, validate or administer predictive tests;
  ii. administer student aid programs; or
  iii. improve instruction.

- To accrediting organizations in order to carry out their accrediting functions.

- To appropriate officials in connection with a health or safety emergency.

- Information the school has designated as "directory information." Directory information may be released without your written consent and includes the following: name, address, e-mail, telephone number, date of birth, college of enrollment, year in school, major, enrollment status (including current enrollment, dates of attendance, full-time/part-time or withdrawn), degrees, awards and honors received (e.g., Dean's List recognition), participation in officially recognized activities and sports, weight and height of members of athletic teams, photographs (including ID pictures), videos depicting and/or concerning University life, and previous educational institutions attended. Please note that you have the right to withhold the release of directory information except to the extent that FERPA authorizes disclosure without consent (see #3 above).

To withhold the release of your directory information, you must log into the student portal, Campus Connect, and, under Student Privacy settings, indicate your preference. Please note two important details regarding placing a "No Release" on your record:

i. A "No Release" on your record will prevent your name from being included on lists of students released to honor societies, deans list and graduation announcements to local newspapers, and enrollment and degree verification to anyone, including potential employers.

ii. A "No Release" applies to all elements of directory information on your record.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA.

For additional information, please consult the U.S Department of Education website (https://www2.ed.gov/policy/gen/guid/fpco/ferpa/index.html?src=rn/).

Questions concerning FERPA should be referred to DePaul Central:

DePaul Central
Lincoln Park: Schmitt Academic Center
Final Exams

The method of evaluation of student performance in a course lies solely within the discretion of the instructor. In many courses, a student’s grade is based primarily on one written examination given at the conclusion of the course. Some instructors also give a midterm examination or assign papers. Final Exam times are posted in the class schedule.

Exam Administration

During closed book examinations, all books, notes, cell phones, tablets, iPods, outlines, backpacks, briefcases, and other materials must be placed in the back of the room. During open book exams, students may have whatever materials the professor approves for use during an examination. For SofTest exams, the proctor will announce the start time and write the exam password on the board. SofTest will automatically shut down after the allotted time. For bluebook and Scantron exams, the test proctor will advise the students of the time at which the exam will end and will write the ending time on the blackboard. When time has expired, the proctor will announce that the exam is over. Students must stop writing immediately and turn in their examinations. Failure to stop writing immediately is a violation of the Honor Code. Students are not permitted to leave their seats for any reason during the last half hour of an exam.

Anonymous Examination Numbers

Each student is randomly assigned an anonymous exam number each semester, and most exams are graded anonymously. Generally, upper-level seminars and skills courses are not anonymously graded.

For exams graded anonymously, a student must identify herself or himself only by assigned anonymous examination number. A student must not identify himself or herself by name, student identification number or any other designation or symbol anywhere on the examination questions or answers. A student should not disclose the examination number to the instructor, either directly or indirectly, until the instructor has submitted the final grades for the course. Failure to comply with these provisions may be a violation of the Honor Code.

Exam Schedule and Conflicts

The final examination schedule is published with the class schedule prior to registration each semester on Campus Connect. Students should select their courses to avoid exam conflicts.

All students must take their examinations at the scheduled time. If two sections of a course are offered, students must take the exam at the time scheduled for the section in which they are enrolled.

Final exams will be rescheduled only in extraordinary circumstances, according to the rescheduled exam policy below. Exams will not be rescheduled because of job commitments, weddings, graduations, vacation plans, travel plans or for other personal reasons.

Rescheduled Examinations

Under certain limited circumstances, students may shift one examination to a different day. This policy is known as the “rescheduled exam” option.

If you have two in-class exams on the same day or within 24-hours (i.e., less than 24-hours), you can designate one exam as a “rescheduled exam.” You must take the rescheduled exam within two weekdays of the original exam date, which may be before or after the regularly scheduled exam. Rescheduled exams are held between 9:30 a.m. - 12:30 p.m. on designated days when no first-year exams are scheduled. The application form is available online.

Students may only request one rescheduled exam per semester. Students must register no later than the sixth week of classes. Forms are available on the College of Law website. First-year students, both full-time and part-time, may not reschedule exams because their exam schedule is set up with several days between exams. Rescheduled exams are not available in Summer term.

Missing an Examination

Students are expected to take examinations when scheduled, even though ill or inconvenienced. However, in the event of serious illness or for other extraordinary or compelling cause beyond a student’s control, the Associate Dean for Student Affairs or the dean on duty may excuse a student from taking the exam at its scheduled time. Students will not be excused from an examination for job-related reasons, weddings, travel, graduations, vacations or for other personal reasons. Students are expected to adjust their outside commitments to conform to the law school examination schedule.

A student who must miss an exam must notify the Associate Dean for Student Affairs on or before the scheduled exam day. If prior notice is not possible, the student must contact the Associate Dean as soon as the inability to take the exam becomes manifest. If a student does not notify the Associate Dean for Student Affairs at the first available opportunity, the student will receive a failing grade. A student should never contact the professor about rescheduling an examination that will be graded anonymously.

A student who is more than ten minutes late for an exam will not be permitted to take it unless authorized by the Associate Dean for Student Affairs. A student who is less than ten minutes late may take the exam but will not be allotted additional time and may not type his or her exam. Students who miss an exam must use bluebooks and cannot type their answers.

Examination Accommodations

Students who wish to request accommodations on the basis of a disability should contact, and register with, the Center for Students with Disabilities. Students who have been approved to receive accommodations should also notify the Associate Dean for Student Affairs at the start of each semester.

Accommodations of time and one half per in-class exam are offered to international College of Law non-JD students (LLM, MJ, Visiting and Exchange) for whom English is not a first language. Students who qualify should contact the Office of Student Affairs at least one month before each exam period to confirm accommodations.

International College of Law Non-JD Students for whom English is not a first language will be permitted to use a standard English dictionary while taking in-class final exams. Eligible international students must be registered with the DePaul University Office of International Students and Scholars. Eligible students may not use their own dictionary, but must use a standard English dictionary (Merriam-Webster or comparable) provided by the College of Law at the time of the exam. This policy
Good Standing

JD Programs

First-Year JD Students (For Matriculants Prior to Autumn 2018)
To be considered in good standing at the College of Law, first-year JD Day students must have a cumulative GPA of 1.70 or higher at the end of the Autumn semester and a cumulative GPA of 2.00 or higher at the end of the Spring semester. To be considered in good standing, first-year JD Evening students must have a cumulative GPA of 2.00 at the end of the academic year in May. Grades received in the Summer session are not included in a student’s GPA for the prior academic year.

To maintain good standing, first-year JD students with a cumulative GPA of 1.70 or higher but below 2.40 at the end of the Autumn semester are required to attend all Spring semester Academic Success Program (ASP) workshops, complete all ASP assignments, and schedule an individual meeting with the Director of ASP and Bar Passage. First-year JD students with a cumulative GPA of 2.00 or higher but below 2.40 at the end of the Spring semester may not register for the following Summer session. In addition, they will be enrolled in and must complete LAW 253 and LAW 252 in their second year. They also must complete LAW 102 and LAW 410.

First-Year JD Students (For Matriculants Beginning Autumn 2018)
To be considered in good standing at the College of Law, first-year JD Day students must have a cumulative GPA of 1.70 or higher at the end of the Autumn semester and a cumulative GPA of 2.00 or higher at the end of the Spring semester. To be considered in good standing, first-year JD Evening students must have a cumulative GPA of 2.00 at the end of the academic year in May. Grades received in the Summer session are not included in a student’s GPA for the prior academic year.

To maintain good standing, first-year JD students with a cumulative GPA of 1.70 or higher but below 2.60 at the end of the Autumn semester are required to attend all Spring semester Academic Success Program (ASP) workshops and complete all ASP assignments. First-year JD students with a cumulative GPA of 2.00 or higher but below 2.60 at the end of the Spring semester may not register for the following Summer session. In addition, they will be enrolled in and must complete LAW 253 and LAW 252 in the two semesters following completion of the 1L core courses. They also must complete LAW 102 and LAW 410.

Upper-Level JD Students (For Matriculants Beginning Autumn 2018)
To be considered in good standing at the College of Law, upper-level JD students must have a cumulative GPA of 2.00 or higher at the end of each academic year in May. Grades received in the Summer session are not included in a student’s GPA for the prior academic year.

To maintain good standing, second-year JD Evening students with a cumulative GPA of 2.00 or higher but below 2.60 at the end of the Autumn semester will be enrolled in and must complete LAW 253 and LAW 252 in the two semesters following completion of the 1L core courses. They also must complete LAW 102 and LAW 410.

To maintain good standing, third-year JD Day students and fourth-year JD Evening students with a cumulative GPA of 2.00 or higher but below a 2.40 at the end of the Autumn semester must attend all Spring semester Bar Passage Workshops and must schedule an individual meeting with the Director of Bar Passage.

LML & MJ Programs
To be considered in good standing at the College of Law, LLM and MJ students must have a cumulative GPA of 2.00 over three semesters. Grades received in the Summer session are not included in a student’s GPA for the prior academic year.

Joint Degree Programs (Law/Master’s Degree)
Good Academic Standing
To be considered in good academic standing, DePaul students pursuing a joint degree program where two degrees are awarded simultaneously (for example: two master’s degrees, a master’s degree and a juris doctor degree or a juris doctor and a master’s of law degree) should consult the degree requirement section of the University Catalog to determine the required minimum grade point average for good academic standing.

Failure to Maintain Good Academic Standing
Students who fail to maintain good academic standing may be subject to dismissal from the joint program in accordance with procedures established by the program. Many programs have established time or course limitations within which a student must return to good standing before they may be dismissed from the program.

Note:
In addition, for those participating in federal financial aid programs, failure to maintain good academic standing will affect compliance with the federal satisfactory academic progress requirements.
Grades

Grades and Grading Scale

Grades can be accessed online via Campus Connect. Grades can be viewed and printed using the Unofficial Transcript in the Student Center in Campus Connect.

Once a grade is assigned, university policy prohibits faculty from changing the grade unless the professor made a clerical or computational error when calculating it. Removal of an incomplete grade in accordance with University policy is an exception to the grade change policy.

Faculty may not assign or accept additional graded material in order to improve a student’s final grade. They may not conduct a substantive reevaluation of the student’s exam or coursework.

Grades are assigned in accordance with the following definitions (a plus or minus grade represents a slight variance from the indicated definition):

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>The instructor judged the student to have accomplished the stated objectives of the course in an EXCELLENT manner.</td>
</tr>
<tr>
<td>B</td>
<td>The instructor judged the student to have accomplished the stated objectives of the course in a VERY GOOD manner.</td>
</tr>
<tr>
<td>C</td>
<td>The instructor judged the student to have accomplished the stated objectives of the course in a SATISFACTORY manner.</td>
</tr>
<tr>
<td>D</td>
<td>The instructor judged the student to have accomplished the stated objectives of the course in a POOR manner.</td>
</tr>
<tr>
<td>F</td>
<td>The instructor judged the student NOT to have accomplished the stated objectives of the course.</td>
</tr>
<tr>
<td>FX</td>
<td>Student failed to accomplish the stated objectives of the course due to non-attendance. Non-attendance is defined as never attending or ceasing to attend an in-person course (or never participating or ceasing to participate in an online course) without officially withdrawing. The FX is calculated into the student’s GPA as an F. Instructors are required to provide the last date of attendance/participation.</td>
</tr>
<tr>
<td>PA</td>
<td>Passing achievement in a pass/fail course. (Grades A through D represent passing performance.)</td>
</tr>
<tr>
<td>W</td>
<td>Withdrawal from the course instituted by the student after the last day to drop with a refund and before the final withdrawal deadline.</td>
</tr>
<tr>
<td>WA</td>
<td>Withdrawal from the course initiated by an administrator at a student’s request, usually outside of established deadlines. Administrative withdrawals may be granted under extraordinary circumstances and require documentation for support.</td>
</tr>
<tr>
<td>M</td>
<td>Final grade not submitted by instructor.</td>
</tr>
<tr>
<td>AU</td>
<td>Auditor status; course does not earn credit.</td>
</tr>
<tr>
<td>IN</td>
<td>Temporary grade indicating that, following a request by the Student, the Associate Dean of Student Affairs and the Instructor have given permission for the student to receive an incomplete grade. In order to qualify, the student must have: 1. satisfactory record in the work already completed in the course; 2. encountered unusual or unforeseeable circumstances, which prevent him/her from completing the course requirements before the end of the term; and 3. applied to the instructor and to the Associate Dean for permission to receive the IN. The incomplete will expire at the end of the following semester. If the work is not complete, the student will receive a failing grade.</td>
</tr>

</tbody>
</table>
A. General Policies on Grading

1. Grades are determined solely on the basis of the academic performance of each student according to pre-established criteria determined by the course instructor and consistent with university, college and departmental policies.

2. Grade determination is the prerogative of the instructor subject to the constraint that any successfully challenged grade will be changed through faculty action.

3. The criteria for evaluating academic performance are to be consistent with a course's goals and objectives, which have been approved by the appropriate academic authority before the course is scheduled. On the first day of class of each course the instructor is to explain in writing to the students the criteria for evaluating as well as the methods for grading student performance (examinations, papers, reports, etc.).

4. The instructor in each course shall decide what criteria and methods for evaluating students are to be applied in the specific course. These decisions of the instructor, however, must be compatible with any policies previously accepted by the faculty of a department or college with respect to particular courses, especially courses offered in sequence where the qualifications of a student to begin an advanced course depend upon performance in a previous course. The methods of conducting a course are determined by the instructor within limitations set by the classification of a course as lecture-discussion, seminar, laboratory, etc. An instructor may vary the teaching methodology to meet particular circumstances of a course (type or number of students enrolled, concentrated calendar as in summer sessions, etc.) or the instructor's own desires to innovate or experiment with different approaches.

Any method selected must be compatible with the predetermined goals and objectives of the course. While teaching methodology may change after the course has begun, grading methodology may be changed only with the consent of a majority of students in the course, taking into consideration hardships imposed upon students opposed to the change.

5. The actual evaluation and grading of academic performance is subject to the professional judgment of each instructor. Considerable personal discretion is required in these judgments - a justifiable margin of difference can exist between the evaluations made by two or more professional persons of the same academic performance.

6. Students are entitled to compare their work in the course with the criteria applied in deciding the final grade for the course. Accordingly, the course instructor is required either to return major papers and examinations to students or to make such available for students until the end of the following term. Spring Quarter materials are to be available until the end of the Autumn Quarter. For pedagogic reasons, an instructor is expected to review with the student the relative success of the student's accomplishments. The instructor is not expected to debate the grading.

7. A student may object to a grade for one or more of the following reasons:
   a. The methods or criteria for evaluating academic performance, made explicit by the instructor at the beginning of the course, usually in a course syllabus or as subsequently modified with the majority consent of the students, were not actually applied in determining the grade.
   b. The grade was determined or influenced by criteria other than those explained by the instructor or by criteria not relevant to academic performance.
   c. The instructor applied predetermined criteria unfairly, which may include but not be limited to the following items:
      • The instructor’s evaluation of academic performance so exceeded the reasonable limits of the instructor’s discretion as not to be acceptable to the instructor’s peers.

First-Year Grade Curve and Upper-Level Classes with 50 or More JD Students

The following mandatory grade curve applies to all first-year courses and to upper-level classes with 50 or more enrolled JD students:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>C-</td>
<td>1.7 times the number of credit hours assigned to the course</td>
</tr>
<tr>
<td>D</td>
<td>1 times the number of credit hours assigned to the course</td>
</tr>
<tr>
<td>F, FX</td>
<td>No quality points awarded</td>
</tr>
<tr>
<td>AU, W, WA, IN, PA</td>
<td>Quality points not assigned</td>
</tr>
</tbody>
</table>

In addition, the mean or average for all DePaul JD students in any course subject to this grade curve must be between 2.95 and 3.15. All LARC sections taught by the same instructor during the semester are aggregated into one course for purposes of this curve.

Upper-Level Grade Curve: Classes with 21 - 49 JD Students

The mean or average for all DePaul JD students in any upper-level course with an enrollment between 21 and 49 students must be between 2.95 and 3.15.

Upper-Level Classes with 20 or Fewer JD Students

No mandatory grade curve applies to courses with enrollments of 20 or fewer DePaul JD students. However, any instructor submitting grades for DePaul JD students more than half of which are grades of A shall provide the Associate Dean of Academic Affairs with a brief explanation of the methodology that led to this result.

LLM, MJ and other non-JD students are not included in the grade curves set forth in this subsection.

Computation of GPA

GPAs are computed by dividing the total number of grade points earned by the total number of graded credit hours. Graded credit hours do not include courses graded WA, W, PA, IN, M, or AU, but do include courses graded F or FX. Grade point averages are reported to three digits and cannot be rounded up. Students must report their grade point average as it appears on official and unofficial transcripts.
B. Policies Regarding Grade Challenge

1. All Grade Challenge Review Boards must follow the procedures listed below.
2. A challenge to a grade will be reviewed and decided by tenured faculty unless the college or school has an insufficient number of tenured faculty to staff a Review Board.
3. The student who challenges a grade bears the full burden of proof that there are sufficient grounds for changing a grade.
4. Only the final grade of a course and its means of determination may be challenged.

C. Procedures for Establishing Grade Challenge Review Boards

1. At the beginning of each academic year, the Committee on Committees will recommend to the Faculty Council, the faculty members and alternates for one Review Board for each of the following colleges: Business, Computing and Digital Media, Communication, Education, Law, Music, School for New Learning, Science and Health, and Theatre.
2. It will recommend two boards for Liberal Arts and Social Sciences covering the following areas: Humanities and Behavioral and Social Sciences. The Faculty Council will make all appointments to Review Boards. The dean of a college may request the establishment of additional Review Boards.
3. Each Review Board will consist of three faculty members and two alternate faculty members and one student. Faculty members may not serve on challenges in which they are involved. Involvement includes assignment of the grade in question and/or attendance or participation in the class. In either of these cases, one of the alternates will be asked to serve.
4. The student representative on the Review Boards in Business, Computing and Digital Media, Communication, Education, Liberal Arts and Social Sciences, Science and Health, Law, Music, School for New Learning, and Theatre will be the elected Senator from the college or school. In cases where this Senator is involved in the claim; i.e., had registered for, attended or participated in the class, the SGA EVP of Academic Affairs will serve as an alternate or if necessary, the president may appoint the alternate.
5. The Review Board will select its own chair and vice chair (to serve in the absence of the chair). The Chair of the Review Board receives all requests for hearing from the dean or chair of the affected department, sets the calendar, notifies all board members and involved parties of the dates and times of the hearings and informs students by written notice of the recommendations of the board. The chair is responsible for adherence to the Procedures for Filing a Grade Challenge.
6. The boards will serve until the beginning of the Autumn Quarter of the academic year.
7. A quorum of the Review Board consists of three members of the board. Challenges will be upheld by a vote of three or more of the four member board. All members are voting members.
8. The members of the Review Board are expected to disqualify themselves should a conflict of interest arise.

D. Procedures for Filing a Grade Challenge

In order to provide a forum for the fair resolution of academic disputes involving individual students and appropriateness of course grades, the following procedures have been developed and will be applied to all cases involving DePaul University students.

1. A student who is considering a grade challenge must discuss the grade with the instructor before the end of the following regular term. (Spring and Summer Quarter challenges must be made before the end of the Autumn Quarter. Law students challenging a Fall semester grade have a deadline of March 1 of the following Spring semester. Law students challenging a Summer/Spring semester grade have a deadline of October 1 of the following Fall semester) The instructor is expected to explain the reason for the grade to the student. Only if the instructor is not at the university during the following regular term after the grade was issued, may the student proceed to challenge the grade without meeting with the instructor.
2. If, after the discussion with the faculty member, the student still disputes the final grade, the student may continue his or her challenge by submitting a written request for a hearing to the office of dean of the college or school in which the course was offered within the term following the award of the disputed grade. Since the following burden of proof rests upon the student, it is important that the student include a clear and coherent statement (typed) with the reason for the appeal, together with any supporting documents the student may wish to include. Students may request that copies of supporting documents in possession of the faculty members be forwarded to the chair of the Review Board. All challenges will be thoroughly and fairly reviewed.
3. The dean of the college or school shall forward a copy of the request to the chair of the Review Board, the involved faculty person and the student. This must be signed and dated by the dean or chair of the affected department.
4. Once filed, the formal challenge is automatically forwarded through all stages of the appeal process unless the Review Board determines it to be groundless or frivolous. Additionally, the student has the option to discontinue the appeal at any stage by submitting a letter stating such to the instructor and chair of the Review Board.

Both the student and instructor will be informed in writing of all committee recommendations and decisions as well as any new written information bearing on the case. Only the instructor and/or the Review Board are empowered to change a grade.

5. The Review Board chair will send a copy of the grade appeal request and relevant materials received with it to the instructor involved. The instructor will return the materials with a written response within two weeks unless circumstances warrant an extension.

The chair is responsible for monitoring the time period. A copy of the instructor’s response will be forwarded to the student who has filed the challenge. If the instructor does not respond within the time period, the committee will conclude its deliberations and vote on the challenge.
6. The Review Board may, at its discretion, seek oral clarification of the written responses from the student and faculty member. If it requests further clarification, the Review Board must meet with both the student and faculty member separately if the student requests.
7. The Review Board shall evaluate the challenge and vote to approve or deny. Decisions of the Review Board arrived at by secret ballot are to be determined by a majority vote.
Such action must be taken within two months of the date of filing. (If the grade appeal is not passed along its designated route within the times specified, the student should notify the dean of the school or college who will determine the reason for the delay.)

8. The Review Board is to reach one of the three following decisions:
   a. Challenge affirmed and settled by consent: i.e., the Review Board conducting the review devises a conciliation mutually acceptable to the student and the instructor who gave the grade. Should the acceptable conciliation involve a change of grade, the instructor will submit a change of grade.
   b. Challenge affirmed and the Review Board may submit a change of grade card to the dean of the college or school in which the course was taught.
   In determining the student’s final grade, the Review Board will take into account all evidence of the student’s academic performance in the course under challenge as well as the implications for the student’s grade of the instructor’s actions in the case in question.
   c. Challenge denied; original grade stands.

9. The decision reached by the Review Board is to be communicated by the chair of the Review Board in writing directly to the dean of the college or school, the instructor, and the student. The explanation for the decision will also be communicated.

10. Decisions by the Review Board are final and binding on all parties.
    The board’s decision does not require the approval of the dean of the college or school, or the chair of the affected department.

Grades, Incomplete (IN)

The grade of Incomplete (IN) is assigned when a student has been excused from taking the final examination on good cause shown or, with permission, has failed to complete all of the required coursework. To receive an incomplete, a student must receive written permission from the instructor and the Associate Dean of Student Affairs. All course work must be completed by the end of the following semester or the student will receive a permanent failing grade (F).

Grades, Pass/Fail

The faculty has designated certain courses for pass/fail status. A student may not elect to take a course pass/fail that has not been so designated.

Grades, Repeating Classes

A JD student who receives a grade of F or FX in a first year required course must repeat the course in the student’s next academic year. JD students must demonstrate satisfactory completion of LAW 115, LAW 481, a course that meets the Advanced Writing Requirement, and a course that meets the Professional Skills Requirement. Satisfactory completion means a passing grade.

A student who receives a grade of F or FX in an elective course is permitted to repeat the course once.

All grades achieved are recorded on the academic record. All attempts are to be calculated into the grade point average. Credit will only be awarded for the course upon achievement of a passing grade.

This policy does not apply to courses that are repeatable for credit.

Graduation and Certificate Application

Graduating students must apply online for degree conferral in Campus Connection by June 1 for a July graduation, by October 1 for a December graduation, or February 1 for a May graduation. Once your online application has been submitted, you will be prompted to order your cap and gown and reserve a place for you and your guests at the May commencement ceremony.

Applicants for the JD, JD/joint degree, JD/LLM, and LLM must also submit a paper graduation application. Students applying for a certificate must complete and submit a certificate application, which is attached to the graduation application.

Graduation Requirements

Each student is solely responsible for ensuring that he or she fulfills all requirements for the degree being sought. Graduating seniors should undertake an independent review of their records before they register for their final semester by ordering a degree progress report or an unofficial transcript from Campus Connect. If a prospective graduate has not fulfilled all degree requirements, he or she will not receive a degree and will not be certified for admission to the bar.

Note: Participation in the graduation ceremony does not establish entitlement to a degree. The actual degree award does not take place until the University completes its degree audit. Degree requirements are reviewed at the end of the expected completion term indicated. If all requirements are met, the degree will be conferred within 30 days of the end of the term. Diplomas are mailed (to graduates without financial holds), generally within 45-60 days after the end of the term.

Graduation with Honors

Juris Doctor Honors

JD students whose cumulative grade point average (GPA) places them in certain categories graduate with honors.

- Top 5%: summa cum laude
- Top 10%: magna cum laude
- Top 20%: cum laude

The awards are given to the entire class that graduates in an academic year, full-time and part-time students combined. The awards are announced at the end of the academic year. Once the awards are announced and posted by the College of Law and the Office of the University Registrar, the awards are not affected by any subsequent grade changes.

Students who transfer to the College of Law after they complete first-year coursework at another law school are eligible for graduation honors. Grades earned at a transfer student's prior law school are included in the GPA computation for honors eligibility. Grades earned when students visit another law school after their first year are included in the GPA for honors eligibility if they take 12 or more credits at another law school.

Order of the Coif

JD graduates who rank in the top 10 percent of their class will be elected by the faculty to the Order of the Coif. Coif awards are announced in the Summer at the end of the academic year. Once announced and posted
by the Office of the University Registrar, the awards are not affected by any subsequent grade changes. The rules for honors awards for transfer students also apply to election to Order of the Coif.

Graduation, Commencement Ceremony

Commencement is held annually in May. If a student is short no more than three credits for a degree, the student may attend the commencement ceremony but will not be awarded the degree until the credits are completed.

Graduation, Degree Conferral Policy

Final certification of degrees is completed by the Office of the University Registrar thirty days after the conferral date.

In dual degree programs authorized by the colleges, the degrees will be conferred simultaneously.

Academic records will be locked upon degree conferral. Under no circumstances will changes be made to the academic record after degree conferral.

If a student begins a new program of study at DePaul after a degree has been conferred, the student’s GPA will be restarted. The one exception to this rule involves master’s students whose DePaul master’s degree is accepted to meet DePaul’s PhD requirements either in the same or a new field. In this instance the GPA in the PhD program will include the GPA from the DePaul master’s degree.

Combined Bachelor’s + Master’s Degree Program

Students combining a master’s degree with a bachelor’s degree in an approved DePaul Combined Bachelor’s + Master’s Program will restart their GPA at the beginning of their graduate career.

JD/LLM Program

In the case of students who are accepted into the joint JD/LLM program, the students’ GPA in the LLM program will include the GPA from the JD program. Students who have completed the JD degree and are independently pursuing the LLM degree will have their GPA restarted.

Guided Research

Students who wish to register for Guided Research must make supervisory arrangements with a full-time faculty member. A student must have completed a minimum of 28 credit hours with a cumulative GPA of at least 2.0. Guided Research is offered for either one or two credits and is graded pass/fail. Guided Research does not fulfill the JD advanced writing requirement.

To register for Guided Research, a student must obtain written approval from the supervising faculty member and the Assistant Dean for Student Affairs. Guided Research forms are available on the College of Law website. Completed forms should be turned in to the Office of Student Affairs.

Immunization, Proof of

DePaul University complies with Illinois state law (College Student Immunization Act [110 ILCS 20]) and the Illinois Department of Public Health College Immunization Code (77 Ill. Adm. Code 694), which mandates post-secondary institutions to submit an annual report on student immunization requirements. All DePaul University students, born on or after January 1, 1957 and attend a university campus location, must provide proof of the required immunizations. Additionally, Illinois law requires that universities prevent students from registering for any subsequent terms if proof of immunization is not provided.

Proof of the following immunizations is required:

- Tetanus/Diphtheria/Pertussis - 3 doses (at least 1 tdap in lifetime, last dose within past 10 years)
- Measles - 2 doses (at least 28 days apart, after first birthday. Neither dose can be prior to 1968.)
- Mumps - 2 doses (at least 28 days apart, after first birthday. Neither dose can be prior to 1968.)
- Rubella - 2 doses (at least 28 days apart, after first birthday. Neither dose can be prior to 1968.)
- Meningococcal - 1 dose (if under the age of 22, taken on or after 16th birthday)

Please visit the Immunization Requirements (http://www.depaul.edu/admission-and-aid/admitted/Pages/immunizations-requirements.aspx) webpage for more information.

Independent Study

Independent Study permits a student to pursue an area of interest in-depth under the supervision of a full-time faculty member. The student must produce a research paper of publishable quality on a topic not substantially covered by a currently-offered course. Independent Study fulfills the JD advanced writing requirement. A student may enroll for a maximum of two independent studies during law school.

To register for Independent Study, a JD student must have completed 28 credit hours and have at least a 3.0 cumulative GPA. The student must make supervisory arrangements with a full-time tenured or tenure-track faculty member with expertise in the student’s area of interest. Application forms for Independent Study are available on the College of Law website. Completed forms should be turned in to the Office of Student Affairs.

Military Academic Adjustments

DePaul University will make academic adjustments for students in the military consistent with all applicable legal requirements. This could include, for example: academic adjustments with a course, options regarding withdrawals or leaves of absence, and readmission at the conclusion of active duty. The details of any academic adjustments are dependent on the student’s specific military orders.

Procedures Regarding Withdrawals and Leaves of Absence: Students who are in the military and called to active duty that interrupts their enrollment must complete the DePaul University Permanent Withdrawal/Military Leave Request in Campus Connect. Students should indicate “military” on the application in Campus Connect. Upon their return, they will meet with an academic advisor to discuss resuming their studies.
Students are encouraged to contact the Veterans Student Affairs Office (https://offices.depaul.edu/student-affairs/support-services/for-specific-populations/Pages/veteran-services.aspx) for more information about other specific procedures regarding withdrawals, leaves of absence, academic adjustments, and for information regarding other policies that may be particularly applicable to students in the military.

Non-Enrollment/Discontinuation

Students who complete a term and do not enroll for the following term at DePaul remain active and eligible to enroll until they are formally discontinued. Discontinuation occurs when:

1. The student does not register in the term for which they were admitted.
2. The student does not register for three consecutive quarters (or for Law two semesters), excluding summers. In these cases students must seek readmission.
3. The student has not made progress toward the degree for three consecutive quarters (or for Law two semesters), excluding summers.

Candidates for theses, dissertations and students on year-long study abroad programs are excluded from this rule. In these cases, students must meet with a college academic advisor to get permission to register and/or seek readmission.

Posthumous Degree

A posthumous degree may be awarded to degree-seeking candidates who were actively enrolled, in good academic standing, and on track to have met all degree requirements by the end of the term in which their death occurred.

For all other cases, the Dean may request a Certificate of Accomplishment be awarded to honor the student’s progress toward the degree and accomplishments as a member in good-standing of the DePaul community.

Readmission

Readmissions from the College of Law are typically final. However, under limited circumstances, students may seek readmission to the College of Law by filing a petition with the Readmissions Committee. The Readmissions Committee consists of at least five faculty members appointed by the Dean. The Assistant Dean for Student Affairs, serving ex officio, participates in the discussion but does not vote. All decisions of the Committee are final and are not subject to appeal.

Students seeking to be readmitted must submit a petition describing how they satisfy the readmission criteria described below, within two years of the date of dismissal. An electronic copy of the petition and supporting documentation must be submitted to the Assistant Dean for Student Affairs. Students should include all documentation they feel may be of assistance to the Committee.

A student dismissed at the end of the Autumn semester of the first year may not resume classes until the passage of three semesters after the dismissal. A student dismissed at the end of the first year may not resume classes until the passage of one calendar year after the dismissal. A student dismissed at the end of the second, third or fourth year may petition to resume classes in the semester immediately following the dismissal.

Students dismissed at the end of the first semester or at the end of the first academic year may file a readmission petition no earlier than January 15 and no later than March 1 of the academic year following the dismissal. Students dismissed after the second, third or fourth year may apply for readmission immediately after they receive a dismissal letter, but no later than August 1 for admission in the Autumn semester of that year. If students are dismissed and not readmitted within two years, they must apply for admission as a new student and their admission must be ratified by the Readmissions Committee.

Students who are readmitted after being dismissed, either at the end of the Autumn semester or end of the first year, will not receive credit for any course work previously completed and will have to complete all courses required for new students at the time of readmission. Students who are readmitted after being dismissed following the second, third or fourth year will receive credit for all course work previously completed where credit was awarded.

A student dismissed at the end of the fall or spring semester of the first year must achieve at least a 2.0 GPA for the return semester and a cumulative GPA of 2.0 after the second consecutive semester. A readmitted 1L student who does not earn at least a 2.0 for the first return semester shall be dismissed at the end of that semester. A readmitted 1L student who does not achieve a cumulative GPA of at least 2.0 at the end of the second return semester shall be dismissed at the end of that second semester.

A 2L/3L/4L readmitted after an academic dismissal during their second or third year shall have two consecutive semesters to achieve good standing (a cumulative GPA of at least 2.00). A student who is readmitted after an academic dismissal and who fails to achieve good standing after two academic semesters shall be dismissed at the end of that second semester.

Readmission Criteria

The Readmissions Committee applies the following criteria in considering a petition for readmission. Except in extraordinary circumstances, all of the criteria must be satisfied. The conditions upon which readmission is predicated are individually determined.

• The applicant’s academic failure must have been caused by extraordinary and unforeseeable circumstances;
• The applicant must provide evidence that the extraordinary circumstances either no longer exist or will no longer substantially interfere with academic performance;
• In the Committee’s judgment, the applicant must be able to raise his or her GPA to 2.00 or above within the two consecutive semesters following readmission; and
• In the Committee’s judgment, the applicant must not lack the capacity to be admitted to the bar if readmitted (this section applicable only to JD students).

**Readmissions Committee Meetings & Decisions**

The Readmissions Committee meets twice during the academic year. For students dismissed at the end of the Autumn semester or at the end of the first year, the Committee will meet toward the end of the Spring semester of the academic year following the dismissal to consider petitions for the following Autumn semester. For students dismissed after the second, third or fourth year, the Committee will meet shortly before the beginning of the Autumn semester.

When a decision is made to readmit, the Assistant Dean for Student Affairs shall place a memo in the student’s file that includes a statement of the considerations that led to the decision.

**Limits on the Number of Readmission Petitions**

A student whose petition for readmission is denied may apply for readmission one additional time. A student must apply for readmission within two years of the dismissal date.

**American Bar Association Standard 501 and Readmissions**

American Bar Association Standard 501(c) applies to all ABA-accredited law schools, including DePaul University College of Law. The standard states:

A law school shall not admit or re-admit a student who has been disqualified previously for academic reasons without an affirmative showing that the prior disqualification does not indicate a lack of capacity to complete its program of legal education and be admitted to the bar. For every admission or readmission of a previously disqualified individual, a statement of the considerations that led to the decision shall be placed in the admittee’s file.

**Recording Class Sessions and Events**

Classes may be recorded only with the permission of the instructor.

Students with disabilities who must record classes as an accommodation for their disability should make arrangements with the University Center for Students with Disabilities.

Members of student organizations and journals wishing to video or audio record events, including panels, discussions and presentations, must obtain approval from the designated faculty advisor or the Associate Dean for Student Affairs.

**Registration and Credit Limits**

Registration takes place according to a schedule pre-arranged in advance by the University Registrar’s Office. A student’s enrollment date is based on seniority according to the number of cumulative credits earned. Registration for the Summer and Autumn semesters takes place in the Spring. Registration for the Spring semester takes place in the Autumn. Students must use Campus Connect to register, add or drop a course.

**Add/Drop Deadlines**

Once registration begins, it remains open until the end of the add/drop period, which is two weeks after the beginning of each semester.

**Course Changes after Add/Drop Deadline**

A class may not be added after the last day to add a class deadline, which is published in the Academic Calendar of the College of Law. A student shall not receive retroactive credit for any work completed by the student. A student must register in advance, within the applicable registration period, to receive credit for any work completed.

A student may withdraw from a course on Campus Connect up until the end of the eighth week of the semester (the withdrawal deadline). Thereafter, a student who wishes to withdraw from a course must contact the College of Law Office of Student Affairs to request approval for a late withdrawal. Simply not attending class does not constitute a withdrawal.

For any course dropped after the deadline to drop a class, but before the withdrawal deadline, a grade of “W” will appear on the student’s transcript. For any course that is approved to be dropped after the withdrawal deadline, a grade of WA (“administrative withdrawal”) will appear on the student’s transcript. W and WA grades do not affect the student’s GPA.

**Deadline for Tuition Refunds**

Students withdrawing from a course at a date which is after 20% of the scheduled term will not receive any tuition refund. The deadline is published in the Academic Calendar for the College of Law.

**Non-Classroom Credit Hours: 12-Credit Limit**

With the exception of students enrolled in the Third Year in Practice (3YP) program, a JD student may earn a maximum of 12 credit hours for non-classroom courses. Courses that count toward the 12-credit non-classroom limit include the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Semester Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>LAW 114</td>
<td>LEGAL ANALYSIS RESEARCH AND COMMUNICATIONS TEACHING ASSISTANTS</td>
<td>1-2</td>

</tbody>
</table>
Distance Education Credit Limit

American Bar Association rules specify that JD students may earn a maximum of 28 credit hours toward the JD degree for distance education courses. The College of Law offers both fully online and hybrid courses. A hybrid course is a course in which some, but not all, of the instructional time is online. All fully-online courses, and some hybrid courses, qualify under the ABA rule as distance education courses.

Journal Credit Policy

Students may receive credit for their participation on one of DePaul's approved law journals. For minimum and maximum credits allowed per journal, consult the designated Faculty Advisor or the journal handbook. Students may opt to receive fewer than the maximum allowable credits per semester, but all editorial board members must receive at least one credit for each semester of work on the journal. Journal credit is granted only to third-year members of journal editorial boards with the exception of the DePaul Law Review; second-year editors of the DePaul Law Review may also receive credit.

Competitions: Credit and Approval Process

The College of Law provides students with opportunities to participate in simulated skills competitions and to receive course credit through the following approved courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Semester Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>LAW 524</td>
<td>EXTERNSHIP PROGRAM</td>
<td>2</td>
</tr>
<tr>
<td>LAW 536</td>
<td>NATIONAL MOOT COURT COMPETITION</td>
<td>2</td>
</tr>
<tr>
<td>LAW 537</td>
<td>INTERNATIONAL MOOT COURT COMPETITION</td>
<td>3</td>
</tr>
<tr>
<td>LAW 538</td>
<td>NATIONAL TRIAL TEAM</td>
<td>3</td>
</tr>
<tr>

<td>INTENSIVE FIELD PLACEMENT</td>
<td>5-9</td>
</tr>
<tr>
<td>LAW 962</td>
<td>ADVANCED INTENSIVE FIELD PLACEMENT</td>
<td>5-9</td>
</tr>
</tbody>
</table>

Any student team or student organization that wishes to participate in a skills competition outside of these approved courses must first receive permission from the Dean of the College of Law by submitting the Competition Statement of Interest available in the Student Resources section of the College of Law website. Each team must have a designated Faculty Advisor. DePaul students who participate in competitions are representing the College of Law and are subject to the policies and procedures of DePaul University.

All participants in competitions must register for credit unless the competition is one for which credit is not granted. Course credit will not be awarded if the appropriate registration is not completed.

Auditing Classes

A JD or LLM student may audit a course only if the student registers to do so with the Office of Student Affairs.

The following courses may not be audited: courses required for graduation, advanced writing courses, litigation skills courses, practice skills courses, clinics, externships, guided research, independent study and non-classroom pass/fail courses.

An auditor does not receive a grade in or credit for the course. Students may not convert from auditing to graded status or vice versa. A student who has audited a course may not thereafter take that course for credit. A person not enrolled as a student at the College of Law may audit a course only with the permission of the Assistant Dean for Academic Affairs.

To register to audit a course, students register for the class via Campus Connect and file a request form in the Office of Student Affairs.

Registration, Student Enrollment Classifications

Enrollment Reporting Classifications

Credit is accumulated on the basis of semester hours:

Full-time Student Status

- For JD Day students a twelve semester hour course load is considered full-time (6 semester hours for summer study).
- For JD Evening students a nine semester hour course load is considered full-time (6 semester hours for summer study).
- For LLM and MJ students a nine semester hour course load is considered full-time (6 semester hours for summer study).

Half-time Student Status

- For JD Day students a six semester hour course load is considered half-time (3 semester hours for summer study).
- For JD Evening students a six semester hour course load is considered half-time (3 semester hours for summer study).
- For LLM and MJ students a six semester hour course load is considered half-time (3 hours for summer study).

JD Maximum Credit Hours

Upper level JD Day students may register for a maximum of 16 credit hours per semester. After their third semester, JD Evening students may register for a maximum of 12 credit hours per semester.

JD Minimum Credit Hours

First-year JD Day students take 14 credit hours per semester. First-year JD Evening students take 10-11 credit hours per semester.

JD Day students must take a minimum of 12 credit hours per semester except that JD Day graduating seniors in their final semester need only take the number of credit hours necessary for them to graduate. JD Evening students must register for a minimum of 9 credit hours per semester except that graduating seniors need only take the number of credit hours necessary for them to graduate.
Required Courses & Prerequisites

Students must take all required courses at the time prescribed and in the sequence designated by the College of Law. First-year JD students may not drop required courses or take reduced class loads unless there are extraordinary extenuating circumstances and the student obtains the consent of the Associate Dean for Student Affairs. Required courses must be taken at DePaul Law and cannot be taken at another law school, with the exception of:

1. transfer students who were admitted with credits from another law school; and
2. students who receive advance permission from the Associate Dean of Student Affairs due to unforeseen and extenuating circumstances.

Some courses have mandatory prerequisites. Prerequisites must be completed before a student may enroll in those courses. Students may not take a course and its prerequisite course simultaneously.

Requirement Term

A student will complete the law program requirements in place at the time of the student’s first enrollment term in that program. A student who changes programs while their studies are in progress will complete the requirements in place at the time they enroll in the new program.

A student who changes programs during a break between terms will follow the requirements in place for the term immediately following the break.

A student who applies for readmission will be subject to the program requirements in place in the enrollment term of readmission.

Other Information

A student currently enrolled in a degree program in which revisions are approved while their studies are in progress may elect to formally adopt the revised requirements.

Requirements, Curriculum

Official changes in courses, course numbers, titles, descriptions, and prerequisites and minor changes in program requirements may be made on a quarterly basis.

Multiple changes or thorough revisions in the requirements of a program, major, or concentration or the addition of new majors or concentrations which have received the required university approvals may be made twice each year. Changes approved by May 15th will be effective for the Autumn term, and those by October 15th will be effective for the Winter/Spring/Summer terms.

Requirements, Program Termination/Substantial Change

If an undergraduate major, graduate or law degree program is terminated or a program undergoes substantial changes, there must be a plan in place and a commitment to provide a reasonable opportunity for those active in the program to complete the current requirements of the degree.

The chart below provides the maximum time frame allowed to complete the degree from the point of termination/change:

<table>
<thead>
<tr>
<th>Type of Program</th>
<th>Maximum Time Allowed</th>
</tr>
</thead>
<tbody>
<tr>
<td>Undergraduate majors</td>
<td>4 years</td>
</tr>
<tr>
<td>Undergraduate SNL programs</td>
<td>6 years</td>
</tr>
<tr>
<td>Graduate programs (thesis required)</td>
<td>4 years</td>
</tr>
<tr>
<td>Graduate programs (MFA)</td>
<td>4 years</td>
</tr>
<tr>
<td>Graduate programs (thesis not required)</td>
<td>3 years</td>
</tr>
<tr>
<td>LLM programs</td>
<td></td>
</tr>
<tr>
<td>Doctoral programs (embedded master's program)</td>
<td>8 years</td>
</tr>
<tr>
<td>Doctoral programs (stand-alone)</td>
<td>5 years</td>
</tr>
<tr>
<td>Professional JD programs</td>
<td>4 years</td>
</tr>
</tbody>
</table>

1 If a program wishes to set shorter time frame for completion, they must explain their rationale and obtain approval from Faculty Council.

For programs with substantial changes, students may elect to pursue the new requirements in accordance with the Requirement Term Policy (p. 1386). Those students who are not able to complete their degree requirements within this time frame will be moved into the new requirements. For programs that have been terminated, undergraduate students may request to pursue a new major and graduate students may apply to a new graduate program. In addition, those students who are not able to complete a terminated degree program within this time frame will be advised of other program opportunities that may be available.

Students are responsible for working with their advisors to develop a plan to finish within the stated timeframe. It is the student’s responsibility to complete required courses when they are offered. Students should not wait to complete required coursework.

For required courses that will no longer be offered, the department will provide substitutions. Waivers may also be granted; however the student must still meet the minimum credit hours required.

Students admitted into or those who are in the admission process for a terminated program will be advised of alternative programs.

Once a program has been approved for termination, students will no longer be admitted or readmitted into the program and students will no longer be able to declare that major or program. The only exceptions to this are active students officially in an “intended” or “pre” major or students officially in a combined bachelor’s/master’s program. In accordance with the requirement term policy, students who are discontinued will not be eligible to be readmitted into a terminated program.

Rule 711 License - Senior Law Student Certification

Upon completing 43 credit hours (one half of the credits required to graduate), a JD student may obtain an Illinois Supreme Court Rule 711 License to practice law under the terms and conditions set forth in the Rule. Licenses are available only for students who perform legal services for government agencies or not-for-profit organizations.
A student may apply for the license at the end of the semester in which he or she completes the requisite number of hours; however, the license cannot be processed until grades for those hours have been submitted, which occurs either in late January (Fall semester), late June (Spring semester), or mid August (Summer term). The link to the Court's application form is on the law school website on the Student Resources page. Completed applications (including the supervising adviser’s signature and the required photograph) should be turned in to the Office of Student Affairs. The application will be forwarded to the Administrative Office of the Illinois Courts, which issues the license and mails it to the student. Processing time is three to six weeks.

**Study Abroad Programs Other than DePaul Programs**

Enrolling in a semester or summer abroad program offered by a school other than DePaul is strongly discouraged. A student must have a minimum GPA of 3.00 to attend a summer study abroad program sponsored by another law school.

If a student wishes to attend a program sponsored by another law school, the Associate Dean for Academic Affairs must approve the request. No credit will be granted without the prior approval of the Associate Dean for Academic Affairs. To request approval, the student must submit a cover letter to the Associate Dean requesting permission to study abroad, together with copies of the course descriptions of the courses the student proposes to take and the number of credits each course is worth. The cover letter must explain why the student's goals cannot be attained by studying in one of the DePaul-sponsored programs. Differences in curricula or locales between the programs offered by DePaul and those of other schools will not, without more, justify participation in another school's program.

If the Associate Dean for Academic Affairs approves the request, the student must request a letter of good standing from the Associate Dean for Student Affairs through the College of Law website. The student will pay a nonrefundable fee for each letter of good standing.

If a student's application for summer study abroad at another institution is approved, the Financial Aid Office may be contacted to arrange a consortium agreement between DePaul and the other law school. Once a consortium agreement is entered into, loan funds granted by DePaul may be used to pay tuition charges for the summer abroad program.

After a student completes the program, he or she must order an official transcript from the other U.S. law school (not the foreign school) and have it sent directly to the Associate Dean for Student Affairs. The Associate Dean will forward the transcript to the University Transcript Articulation Office, which will post the credits to the student's transcript. The transcript will not list grades. Instead, all courses will be listed as "T" or transfer.

A maximum of seven credits may be earned during a summer program sponsored by another law school. Credits will only be awarded if the program is approved by the American Bar Association. Grades earned in another law school's summer abroad program do not count toward a student’s DePaul GPA and do not satisfy Certificate requirements.

**Transcripts**

The Office of the University Registrar processes official transcript requests for DePaul University. Official transcripts can be requested online through Campus Connect.

The Family Educational Rights and Privacy Act of 1974 prohibits release of confidential transcript information without the student’s authorization.

Transcripts will be issued only after the student has fulfilled all financial obligations to the University.

**Tuition Policy**

All tuition and fees are due to DePaul University by the published tuition due date for that term. All charges must be paid in-full by the payment date.

Tuition charges for any course registrations made after the due date must be paid in full within 24 hours of registration.

Tuition bills may be accessed online through Campus Connect. The student will be required to sign up for E-Bill to access their bills or to grant access to a guest user.

Students whose accounts show a balance due after the tuition due date will be subject to a late fee and prohibited from future registration, receiving transcripts and other university services.

**Withdrawal Tuition**

Students must withdraw from classes through the registration function in Campus Connect. Withdrawals processed via the web or through direct contact with the home school/college office are effective the day on which they are made. Simply ceasing to attend, or notifying the instructor, or nonpayment of tuition, does not constitute an authorized withdrawal from class and will result in academic as well as financial penalty.

When the withdrawal occurs, the tuition charge for courses during a 10-week quarter will be reduced according to the following schedule, in accord with the tuition package:

<table>
<thead>
<tr>
<th>Withdrawal</th>
<th>Refund</th>
</tr>
</thead>
<tbody>
<tr>
<td>Up to 20% or 2 weeks of a ten week term</td>
<td>100% refund</td>
</tr>
<tr>
<td>After 20% of the term</td>
<td>0% refund</td>
</tr>
</tbody>
</table>

**Notes**

- Students receiving financial aid are advised to contact a Financial Aid Counselor to discuss the consequences of a withdrawal impacting academic progress and aid eligibility at DePaul University or any other school to which they may transfer. Students in university housing are advised to contact Housing to discuss the consequences of withdrawal impacting eligibility to maintain residence.

**Withdrawal/Drop Policy**

The following policies pertain to the withdrawal from individual courses, the withdrawal of all courses for a given term, and withdrawal from the University.

There are two categories of Withdrawals:
Students who must withdraw either from a course or from the University may do so by using Campus Connect, the University’s web registration system. Students unable to use the web registration system should contact their home school/college office, whether in person, phone or email (emails must be sent from the student’s preferred email listed in Campus Connect). Students who are physically unable to contact the university may designate someone to act on their behalf.

Withdrawals processed through Campus Connect are effective the day on which they are made. Withdrawals processed through the student’s home school/college office are effective:

- in person: the date the student had the transaction processed in the office
- for email: the date the email was sent
- for mail: the date the letter was received

Simply ceasing to attend, or notifying the instructor, or nonpayment of tuition, does not constitute an official withdrawal from the course and will result in academic as well as financial penalty.

A. Withdrawal from One or More Courses

Students who wish to withdraw from one or more courses within a term, must do so by the stated deadline dates for that term. Students who missed the deadline due to extenuating circumstances should consult section C.

Students who withdraw from all courses for a term, and who plan to return the next term, are eligible to register for the next term.

Students who plan to permanently withdraw from the University should consult Section B.

B. Withdrawal from the University

Students who decide to permanently withdraw from the University must do so using the DePaul University Permanent Withdrawal/Military Leave Request application in Campus Connect. Students are strongly encouraged to consult with their advisor before doing so.

1. Students enrolled for current and/or future terms are required to withdraw from all courses before requesting permanent withdrawal in the DePaul University Permanent Withdrawal/Military Leave Request application in Campus Connect.

2. Students who are not currently enrolled and wish to permanently withdraw from the university should complete the DePaul University Permanent Withdrawal/Military Leave Request application in Campus Connect.

3. Students who wish to return to the University after a permanent withdrawal must complete an application for readmission.

C. Late Withdrawals

In rare circumstances, students who missed the deadline to withdraw from a course (or courses), may request a late withdrawal from either the Dean of Students office or the student’s home college office.

1. Decision-making for late withdrawals resides primarily in the Dean of Students Office for personal/medical issues; and in the School/College Offices for all other issues. These principles underlie the decision-making processes:
   - All policies are driven by academic concerns:
     a. Decisions are guided by the best interests of the students.
     b. Decisions will be made in compliance with federal regulations.
   - Restrictions on requesting approval for late withdrawal:
     Request for late withdrawals from one or more courses in a given quarter must be submitted to either the Dean of Students Office (for medical/personal withdrawals), or the student’s home School/College Office (for administrative withdrawals) by the following deadlines.

   For Undergraduate/Graduate:

   - Autumn Quarter: Last day of the last final exam of the subsequent winter quarter.
   - Winter Quarter: Last day of the last final exam of the subsequent spring quarter.
   - Spring Quarter: The end of the second week of the subsequent autumn quarter.
   - Summer Terms: Last day of the last final exam of the subsequent autumn quarter.

   For the College of Law:

   - Fall Semester: Last day of the final exam period for the fall semester.
   - Spring Semester: Last day of the final exam period for the spring semester.
   - Summer Semester: Last day of the final exam period for the summer semester.

   College of Law students filing a late withdrawal appeal in the Fall or Spring semester of the first year of law school must request withdrawal from all courses.

During their college career, students may be allowed one medical/personal approved administrative withdrawal and one college office administrative withdrawal, each for one or more courses in a single term.

For College of Law Students, the deadline for filing an appeal for a late withdrawal is the final day of the exam period for the term in question. College of Law students filing a late withdrawal appeal in the Autumn or Spring semester of the first year of law school must request withdrawal from all classes.

College/University Initiated

Under rare circumstances, DePaul University may need to administratively drop a student from a course (or courses) for which the student is registered. This policy outlines those instances and establishes the procedures to be followed by the University to drop a student from the course.

DePaul University reserves the right to administratively drop a student from a course (or courses) under a limited number of circumstances. These fall into two categories: those performed by the college offices and those performed by the Office of the Registrar.
College Office

A student may be administratively dropped from a course (or courses) by the home college, if the student is:

1. registered for a course (not repeatable for credit) for the third or more time and has not received appropriate permission to repeat the course again.
2. registered for a course (not repeatable for credit) in which the student originally earned a C- or better and has not received appropriate permission to repeat the course.
3. on probation and exceeds the allowable number of credit hours and has not received the appropriate permission to register for the additional hours.
4. registered for more than the maximum number of competencies allowed within competency-based courses (SNL).
5. academically dismissed from the University.
6. registered for a course that has been cancelled.

Office of the University Registrar

A student may be administratively dropped from a course (or courses) by the Office of the University Registrar, if the student has:

1. not met the prerequisites for the course and has not received appropriate permission to take the course without the prerequisite.
2. been suspended for the term or permanently dismissed from the University as the result of an academic integrity violation hearing or a student code of conduct judicial board hearing.

Zero-Credit Hour Courses, Graduate and Law

Graduate Students Completing Thesis or Dissertation

Many of DePaul’s masters and doctoral degree programs require a thesis or dissertation to earn the degree. The thesis or dissertation is often completed after all required credit hours and coursework is satisfied.

Programs may offer a variety of 0-credit hour courses to accurately represent the student’s status while the student completes the thesis or dissertation. Each of these courses will have a unique course catalog number differentiating it from the others. These course offerings include:

1) Zero-credit hour course that supports a student’s full-time work on the thesis or dissertation

This course is reserved for students whose work on the thesis or dissertation is considered equivalent to that of a full-time course load. Students enrolled in this course:

• will receive a Pass or Fail grade determined by the thesis/dissertation director which supports the students work during the term

2) Zero-credit hour course that supports a student’s half-time work on the thesis or dissertation

This course is reserved for students whose work on the thesis or dissertation is considered equivalent to that of a half-time course load. Students enrolled in this course:

• are reported as enrolled half-time for federal reporting and fellowships
• are eligible to defer loans
• are eligible to apply for federal loan and borrow living expenses
• may be limited by their program as to the number of times they are eligible to enroll for the course
• will receive a Pass or Fail grade determined by the thesis/dissertation director which supports the students work during the term

3) Zero-credit hour course that supports a student’s less than half-time work on the thesis or dissertation

This course is reserved for students whose work on the thesis or dissertation is considered equivalent to that of a less than half-time course load. Students enrolled in this course:

• are reported as enrolled less than half-time for federal reporting and fellowships
• may be limited by their program as to the number of times they are eligible to enroll for the course
• will receive a Pass or Fail grade determined by the thesis/dissertation director which supports the students work during the term

Please Note:

1. Some graduate programs may require a final culminating project, practicum or exercise as part of the degree. The above enrollment guidance may be followed for these courses if they are offered for 0-credit hours and should carry an enrollment status equivalency.

2. Students in zero-credit hour courses are subject to the time limit for degree completion as determined by their program.

Other 0-Credit Hour Courses

There are other 0-credit hour courses offered by graduate or doctoral programs that do not fall into the above categories. These courses will keep the student in an active status. Each of these courses will have a unique course catalog number differentiating it from the others.

Examples of these courses may include:

• courses for students completing work in other courses where an IN or R grade was awarded who need access to university resources
• courses that are non-credit bearing degree program requirements (such as presentation skills, field experiences, etc.)

Please Note for Other 0-Credit Hour Courses:

1. Depending on the type of course, the program will determine if a grade is required.

2. Students in zero-credit hour courses are subject to the time limit for degree completion as determined by their program.

University Resources

This section provides information on an array of university resources, all designed to help you make the most of your experience at DePaul. We encourage you to read through this whole section when you arrive.
Career Center

at DePaul, and then refer back to individual pages for information on specific resources as you need them.

Adult, Veteran and Commuter Student Affairs

Through collaborations with university and external partners, the Office of Adult, Veteran and Commuter Student Affairs assists students in their transition to college, provides support, resources and programs that help students persist and succeed academically, and works to promote an environment that is inclusive of the non-traditional student experience in which adult, veteran and commuter students can thrive as engaged members of the DePaul community.

You can find more information here: Adult (https://offices.depaul.edu/student-affairs/support-services/for-specific-populations/Pages/adult-services.aspx), Veteran (https://offices.depaul.edu/student-affairs/support-services/for-specific-populations/veteran-services/Pages/default.aspx), and Commuter (https://offices.depaul.edu/student-affairs/support-services/for-specific-populations/Pages/commuter-services.aspx).

As a result of participating in Adult, Veteran, and Commuter Student Affairs programs, students will be able to:

• Demonstrate life, academic, and career skills.
• Actively manage their transition to DePaul student life.
• Demonstrate self-advocacy and utilize appropriate resources when needs arise.
• Overcome engagement barriers associated with their non-traditional student status to participate in and contribute to the DePaul Community.

Career Center

At the DePaul University Career Center, we believe the path to your successful future starts with you. By helping you understand and shape your passions, interests and skills, we connect you with majors, internships, jobs and opportunities so that you can take on Chicago—and the world—with vigor, knowledge and preparation. No matter where you are in your career search, whether it’s deciding on a major or career path, making a career change, or preparing for your first job interview, we can help.

• Explore career options whether you are just starting your job search or are looking for a change.
• Get career and graduate school advice and resources from specialists in your field. Our career advisors are available to meet one-on-one with you to discuss your needs.
• Gain experience and earn academic credit with an internship through the University Internship Program.
• Find a job with one of the thousands of employers who recruit DePaul grads.
• Connect with DePaul alumni for career-related networking and mentoring.

The Career Center is located at DePaul’s Lincoln Park Campus in SAC 192 and at the Loop Campus in DePaul Center 9500. Students may contact the office at (312) 362-8437 for appointments, or visit the Career Center website (https://resources.depaul.edu/career-center/pages/default.aspx) for additional information.

Law Career Services

The Office of Law Career Services is located on the third floor of the Lewis Building, in the College of Law Student Services Suite. The counselors in the Law Career Services Office advise students and alumni on all aspects of the job search process and assist them in defining and achieving their career goals. Students are assigned to an individual advisor to ensure that students have a constant resource available to them.

Center for Students with Disabilities

The Center for Students with Disabilities (CSD) coordinates DePaul University’s provision of accommodations and other services to students with disabilities pursuant to the Americans with Disabilities Act and Section 504 of the Rehabilitation Act. CSD regularly works with students diagnosed with a range of disabilities such as learning disabilities, AD/HD, medical conditions, chronic illness, mental health disorders, and physical/visual disabilities, amongst others. Student success is at the core of the CSD’s mission and fits integrally with DePaul University as a diverse learning community.

Students are encouraged to enroll with CSD to receive accommodations and additional support services. CSD students are enrolled in all Colleges and Schools at DePaul, and may be full-time, part-time, undergraduate, or graduate level students. Some accommodations and services may include extended time on exams, assistance with note-taking, adaptive equipment, real-time captioning, classroom accommodations, advocacy, and assistive technologies amongst other support services.

CSD enrollment procedures require appropriate documentation of a student’s disability and other identified information, as well as a personal meeting with CSD staff.

CSD is also a resource for faculty and staff who may have questions about accommodating, or otherwise working with, students with disabilities.

CSD has two full-service office locations:

• Lincoln Park Campus, Student Center 370, 773/325-1677
• Loop Campus, Lewis Center 1420, 312/362-8002

For more information, please view the Center for Students with Disabilities website http://offices.depaul.edu/student-affairs/about/departments/Pages/csd.aspx or contact staff at csd@depaul.edu.

As a result of participating in Center for Students with Disabilities programs and services, students will be able to:

• Develop competencies in effective communication, critical thinking, technological prowess, and wellness skills to foster academic and personal success at DePaul and afterwards.
• Develop self-awareness and understanding of personal strengths and challenges to become effective self-advocates and assume their individual responsibilities in actively pursuing their roles in the academic community.
• Accept aspects of disability culture and diversity.
• Effectively manage personal and learning challenges to successfully interact in academic, professional, and social environments and as future contributing members of society.
• Demonstrate connections of acquired knowledge to other knowledge, ideas and experiences and relate knowledge to daily life.

Croak Student Legal Services
Croak Student Legal Services (CSLS) provides high quality, free and confidential legal advice to DePaul students on a wide range of common legal issues, including landlord disputes, misdemeanor criminal offenses and more. While we cannot represent you in court, we can help you understand your rights and obligations, provide general recommendations, and help you find useful resources, including referrals to licensed, practicing attorneys with experience related to your case. CSLS is available by appointment only. Please call (773) 325-1588 to set up an appointment. You can find more information at http://sls.depaul.edu (http://sls.depaul.edu/).

Dean of Students Office
The Dean of Students Office is an invaluable resource, advocate and support for providing and identifying resources and services for students. The office helps individuals in navigating the university, particularly during difficult situations, as in personal, medical, mental health, and/or family crises. The Dean of Students Office is also responsible for overseeing the Code of Student Responsibility and managing the Student Conduct Process.

Additional information is available from the Dean of Students Office http://offices.depaul.edu/student-affairs/about/departments/Pages/dos.aspx

College of Law Office of Student Affairs
The College of Law Office of Student Affairs is located in the Student Services Suite on the third floor of the Lewis Building. The Office of Student Affairs and the Associate Dean for Student Affairs provide invaluable services to law students including academic and personal advising and assistance with registration, examinations, and letters of good standing, among other matters.

Additional information regarding the College of Law Office of Student Affairs is available here (https://law.depaul.edu/student-resources/student-affairs-registrar/Pages/default.aspx).

Department of Housing
The Department of Housing, through its quality facilities and dedicated staff, promotes safe and inclusive on-campus communities that support and empower student academic success and personal development.

For more information about options on the Lincoln Park and Loop campuses and how to apply for housing, visit http://offices.depaul.edu/housing (http://offices.depaul.edu/housing/).

DePaul Central
DePaul Central is your one-stop resource for helping students manage the business side of being a student. Services include: Account Transactions, Financial Aid Inquiries, Ordering Transcripts, Payment Plan Inquiries, Personal Financial Planning and Submitting Immunization Records.

DePaul Central ensures student issues are resolved in a timely manner and with the right level of attention and care they deserve so students can focus on what really matters: their academics.

• Visit with DePaul Central staff:
  • Lincoln Park: Schmitt Academic Center 101, 2320 N. Kenmore Avenue
  • Loop: DePaul Center Suite 9100, 1 E. Jackson Boulevard

• You also can get answers to many questions online or over the phone.
  • Email: dpcl@depaul.edu
  • Phone: (312) 362-8610
  • Web/Live Chat: depaulcentral.depaul.edu (http://depaulcentral.depaul.edu)
  • Facebook: /depaulcentral (https://www.facebook.com/DePaulCentral/)
  • Twitter: @depaulcentral (https://twitter.com/DePaulCentral/)
  • FATV. depaul.financialaidtv.com (https://depaul.financialaidtv.com/)

Financial Fitness
Financial Fitness provides free services, resources and tools to help students manage costs from freshman year through graduation and beyond. Services include:

• Confidential one-on-one financial counseling appointments available.
• Comprehensive resources and tools available online.
• Workshops available by request.

Additional information is available from the DePaul Central office. Financial Fitness is located within DePaul Central's Lincoln Park Campus in SAC 101. Students can get additional information by visiting the website http://financialfitness.depaul.edu (http://resources.depaul.edu/financial-fitness/Pages/default.aspx) or calling (773) 325-8640.

Health Promotion and Wellness

Health Promotion & Wellness (HPW) provides holistic education, support and resources for individuals to create and sustain long-term, healthy behaviors.

Survivor Support Advocates

The Survivor Support Advocates within HPW provide confidential and holistic support to survivors of sexual violence, relationship violence and stalking. The Advocates provide emotional care; information about counseling, medical resources, reporting processes, academic accommodations and safety planning; and referrals and help with navigating appropriate on- and off-campus resources.

Alcohol and Substance Abuse Prevention

Alcohol and Substance Abuse Prevention at DePaul University stems from a harm-reduction approach, which encourages healthy choices and responsible decision-making regarding the use of alcohol, tobacco and other drugs. Students are also asked to consider their own safety and the safety of the community in relation to alcohol and substance use. The office offers various programs and presentations throughout the year, while also providing support to those in recovery or experiencing any issues related to substance misuse.

Health Education

Health Education includes providing resources, events, trainings, workshops and presentations on various health related topics. These topics include: sexual health, sexual violence, relationship violence, stalking, healthy relationships, alcohol and drug abuse prevention, mental health, stress, nutrition, meal planning, physical activity and more.

Office of Health Promotion and Wellness

Lincoln Park Student Center, Suite 302
2250 N. Sheffield Ave.
773-325-7129
hpw@depaul.edu

Co-Curricular Learning Outcomes

As a result of participating in Health Promotion and Wellness programs, students will be able to:

- Develop decision-making skills related to their personal health and community well-being.
- Utilize on and off-campus resources related to their well-being and the well-being of others.
- Demonstrate reflective thinking about the impact of their choices on themselves and others.
- Articulate the relationship between societal norms and their perception of their personal health and community well-being.

Health Services

Health Services are offered through Presence SAGE medical group. It is available to all enrolled students for a fee. If you live in a residence hall, with the exception of the University Center, you are automatically enrolled in DePaul Student Health Services. Student Health Service is NOT health insurance; you may need additional coverage.

Additional information is available from the Office of Health Promotion and Wellness http://go.depaul.edu/healthservices/.

Language Learning Center

Free tutoring service is available in the Department of Modern Languages (MOL).

- Each tutor holds one-on-one meetings with students by appointment in the Language Learning Center (SAC 305).
- Tutors are generally available 8am-8pm, Monday through Friday each quarter (although specific hours may vary by language).
- Our tutors provide the following language-related assistance:
• Helping improve students’ pronunciation;
• Explaining grammar structures;
• Practicing conversational skills;
• Assisting with reading assignments;
• Helping with writing assignments;
• Offering other language-related support in all academic subjects.

To make a tutoring appointment, please call (773) 325-1888 or stop by
the Language Learning Center (SAC 305).

The Language Learning Center also provides tutoring on weekends. Call
the center for Saturday availability. The Center partners with the Learning
Commons to offer free tutoring services in the Richardson library on
Sundays. See the Learning Commons (http://library.depaul.edu/get-help/
Pages/learning-commons.aspx) website for hours.

Learning Commons

The Learning Commons is a collaborative learning space located on the
first floor of the John T. Richardson Library. It provides a variety of peer
tutoring and career consulting services in one convenient location.

• Tutoring is available for many academic programs in the College of
  Science and Health
• Supplemental Instruction conducts peer-assisted study sessions for
  historically difficult courses
• The Career Center hosts resume review clinics
• Startup advising is provided by the Coleman Entrepreneurship Center

Services are free and available to all students on a walk-in basis. For
a schedule or more information, see go.depaul.edu/learningcommons
(http://library.depaul.edu/get-help/Pages/learning-commons.aspx).

Libraries

Vincent G. Rinn Law Library

The DePaul University College of Law Library occupies the 4th through
6th floors of the Lewis Center, located at 25 E. Jackson Blvd. The law
library entrance is on the 5th floor. As a participant in the Federal
 Depository Library Program, DePaul’s Rinn Law Library is open to the
public.

For additional information on the Rinn Law Library, visit https://
law.depaul.edu/library/Pages/default.aspx.

Office of Multicultural Student Success

ABOUT OMSS

The Office of Multicultural Student Success (OMSS) seeks to cultivate
belongingness, retention and persistence to graduation for students
of color, students who demonstrate financial need, first-generation
college students, undocumented immigrant students, and students with
marginalized genders and sexualities.

Our programs and services support students in and outside the
classroom and help build inclusive communities, promote the cultivation
of connections, and remove barriers to academic and personal success.

PROGRAM AREAS

Scholarships, Leadership, and Service

OMSS provides scholarships to facilitate the retention, persistence
to graduation of first generation students and students of color who
demonstrate financial need and a commitment to service and academic
excellence. Announcements are posted and applications can be
submitted through the DePaul Scholarship Connect Website.

College Transitions

College transitions programming in the OMSS assists new students in
their transitional year at DePaul. Through initiatives such as STARS Peer
Mentoring program, the college transition team seeks to improve the
sense of belonging and ease transition for our students.

Identity Centered Engagement

OMSS provides culturally relevant co-curricular opportunities to
participate, connect, and learn within DePaul community centering the
experiences of marginalized communities. These experiences work to
contribute to student’s personal and academic success as well as to their
satisfaction with their DePaul experience. This area includes identity
specific student supports detailed below.

Post College Success Programming

With a focus on career and leadership development, the OMSS post
college success programming prepares students with upper-class
standing for a successful transition to life after graduation. By using
identity-conscious approaches in curriculum based programs, we engage
students in developing a post-college plan by identifying goals and
strategies for career discernment or graduate school matriculation.

CULTURAL AND RESOURCE CENTERS + STUDENT SUPPORT

The OMSS Cultural & Resource Centers, located on the 3rd floor in
O’Connell Hall offer identity-centered, programs, initiatives and services
that promote student engagement, support and academic success
through the development, implementation and assessment of powerful,
collaborative programs and services that support student transitions,
contribute to academic success and create connections with university
wide resources.

• LGBTQIA+ Resource Center
• Black Cultural Center
• Latinx Cultural Center
• Asian, Pacific Islander, Desi- American Cultural Center

OMSS also serves as an institutional liaison for undocumented students
providing holistic services to undocumented immigrant students. This
includes identity-centered advocacy, career navigation, financial and legal
resources, group conversations and ally resources.

Office of Multicultural Student Success

DePaul University

Lincoln Park Student Center

2250 North Sheffield Avenue, Suite 105

Chicago, IL 60618
As a result of participating in Multicultural Student Success programs, students will be able to:

- Demonstrate effective decision-making related to personal financial management.
- Demonstrate healthy decision-making related to effective self-care.
- Identify and use relevant campus resources in order to navigate their academic experience.
- Apply the concepts of Socially Responsible Leadership in order to challenge oppressive systems and behaviors and work to create change.
- Construct a career plan towards post-college career success.

Science and Math Tutoring Services

Currently enrolled DePaul students have access to free tutoring services offered by departments in the College of Science and Health. Tutoring is regularly available in the areas of chemistry, mathematical sciences, nursing, physics, and psychology (statistics only). All tutors are either graduate students or upper-level undergraduate students in their respective fields of study.

A schedule of tutoring services (https://csh.depaul.edu/student-resources/Pages/tutoring-services.aspx) is available online and is subject to change every term – check the schedule regularly for updates. No appointments are necessary to receive tutoring. Tutoring services are also available in the Learning Commons (https://library.depaul.edu/get-help/Pages/learning-commons.aspx) which is located in the Richardson Library.

Student Affairs

Student Affairs delivers programs and services that encourage student academic success by providing opportunities for meaningful engagement and by providing student support that removes or reduces barriers to the successful completion of their degree. We deliver support services, such as counseling, advising and disability accommodations, in addition to programs that encourage students to explore their personal identities, faiths, values and roles in a complex world.

College of Law Student Affairs

The College of Law Office of Student Affairs is located in the Student Services Suite on the third floor of the Lewis Center. Additional information regarding the College of Law Office of Student Affairs is available at https://law.depaul.edu/student-resources/student-affairs-registrar/Pages/default.aspx.

Student Involvement

The Office of Student Involvement fosters student learning and success by providing opportunities for engagement through a wide variety of campus activities and organizations, holistic and intentional advising of student leaders, and the development of purposeful and mutually beneficial partnerships across the University and City of Chicago to maximize access to resources for a rich DePaul campus experience.

As a result of participating in Student Involvement programs, students will be able to:

- Apply communication, critical thinking, and professional skills to involvement opportunities on campus.
- Participate thoughtfully and respectfully as members of an inclusive community.
- Develop a sense of self, awareness of others, and understand their responsibility for choices and actions.

Technology Resources

The following list introduces some of the technology resources that are available to students at DePaul. Additional information is available on the Information Services website (is.depaul.edu (http://is.depaul.edu)).

Campus Connect

Campus Connect provides access to many of DePaul’s primary services, including course registration, grades, tuition billing, transcripts, Demon Express and much more.

Computer Labs and Classrooms

There are many technology-enabled classrooms across the DePaul campuses. Technology resources in these rooms include desktop computers, LCD projectors, connections for laptops, and integrated, amplified sound systems. Specialty rooms exist across the university for classes with specific needs, and additional technology is available upon request.

DePaul also has computers available for use by students, faculty or staff, located in computer labs, lounges and lobbies across the campuses. Additional technology access is available to residence hall students; each residence hall is outfitted with study lounges allowing for student access to computers and printers at any time.

CTA U-Pass

Your CTA U-Pass provides unlimited rides on the CTA bus and rail systems during an academic term. It also functions as a Ventra card, allowing you to add funds to be used during university breaks. All students meeting the requirements are automatically enrolled in the program. If your eligibility changes before the last day to drop courses, your U-Pass will be adjusted accordingly.

U-Pass pick-up dates are held at the beginning of each quarter. Students must pick up CTA U-PASS cards in person, by presenting a valid DePaul ID Card. Your Ventra U-Pass is valid for 5 years. It will be deactivated and reactivated each quarter based on your enrollment. Do not discard your U-Pass, or you will be assessed a fee by the CTA for a replacement card.

Full details regarding the U-Pass can be found on the DePaul U-Pass website http://upass.depaul.edu/.

DePaul ID Card

Your DePaul ID Card serves as your identification to enable access to various DePaul buildings, computer labs, printers, and libraries and is used to purchase items using your Demon Express account and meal plan. You must have your ID Card on hand while on campus. New students receive their ID Card at student orientation. Students can also visit ID Services to obtain an ID card.
**Demon Express**

Demon Express is a prepaid debit account that is linked to your DePaul ID Card. Demon Express can be used at DePaul cafeterias, coffee shops, campus bookstores, libraries, printers, copiers, and other areas.

**Desire2Learn (D2L)**

D2L is an electronic course management system that enables interaction between students and faculty. D2L incorporates document sharing, discussion boards, e-mail, an online grade book, assignment drop boxes, chat rooms, small group areas, online quizzes, and more. To log in, use your Campus Connect username and password. If you need assistance using D2L, training is available.

**Discounts**

Demon Discounts provides discounted goods and services, including computer hardware and software, to DePaul students.

**E-Mail**

All students are provided a free DePaul e-mail account. Additional information is available on the Information Services website.

**Printing**

The Intelliprint system allows students to print from DePaul computer labs. Students use their DePaul ID card to pay for prints and are entitled to a set amount of free printing per quarter. Additional funds can be added to Demon Express as needed. You may also print to the Intelliprint system wirelessly.

**Residence Hall Technology**

Lincoln Park residence hall rooms are equipped with high speed Internet connections, wireless Internet access, and free telephone connections.

**Technical Support**

The Technology Support Center (TSC) is your first point of contact for technical assistance. The TSC provides free assistance via phone, e-mail and web for current DePaul students. We support all DePaul wireless networks, telephones, e-mail accounts and software. Please call (312) 362-8765 or email tsc@depaul.edu for support.

Direct, walk-up support is also available through the Genius Squad; a free tech support resource available to all current students. The Genius Squad can support desktops, laptops, phones, tablets, and other personal electronic devices. Please see go.depaul.edu/gs (http://go.depaul.edu/gs/) for more information.

**Technology Training**

Media Production and Training (MPT) provides technical training to the DePaul community, allowing employees and students to fully utilize current technologies. MPT offers both online training resources as well as campus workshops.

Lynda.com - DePaul students, faculty, and staff can log in to lynda.com (https://www.lynda.com/) for unlimited free access to a vast online library of the instructional videos covering the latest software, creative, and business skills.

**Wireless Internet Access**

Wireless internet access is available to students on all DePaul campuses.

**University Center for Writing-based Learning**

The University Center for Writing-based Learning (UCWbL) works with all members of the DePaul University community to support writers and to promote the use of writing in teaching and learning through five major initiatives:

**The Writing Center**

Peer writing tutors offer DePaul students, staff, faculty, and alumni individualized and small group writing feedback on any type of writing at any stage of the writing process. Tutors provide feedback face-to-face on the Lincoln Park and Loop campuses, through asynchronous written feedback or screencast video appointments, and in real time online through IM and webcam. The Writing Center also facilitates Writing Groups at the Loop and Lincoln Park campuses and serves as DePaul’s official source of student support for ePortfolios.

**The Writing Fellows Program**

The Writing Fellows Program links undergraduate peer writing tutors with writing-intensive courses across the curriculum – from physics to journalism, religious studies to computer science. Writing Fellows work with the same set of writers from a particular course for an entire quarter, responding to two of their papers through written comments on drafts and in individual conferences.

**Workshops**

Workshops are customized, research-based, interactive events that focus on a variety of writing topics. The Workshops Team collaborates with other members of the DePaul community to facilitate in-class workshops that combine their writing expertise with others’ disciplinary expertise. Popular topics include crafting a thesis, being an effective peer reviewer, citing sources, and designing ePortfolios.

**The Collaborative for Multilingual Writing and Research (CMWR)**

The CMWR provides ongoing support for DePaul’s increasingly linguistically diverse community. At the root of our work, the CMWR aims to offer UCWbL tutors opportunities to reflect on and improve upon their work supporting English as additional language writers. We also work in close collaboration with other programs and offices to bring together the many languages and cultures of the DePaul community to share culture, language, experiences, and knowledge.

**Outreach**

Outreach promotes, supports, and celebrates the work of writers and tutors at DePaul. This takes the form of collaborating with partner offices on events such as the Peer Tutor and Mentor Summit and Banned Books Week, as well as regularly raising awareness of the UCWbL and its initiatives.

For more information, please visit www.depaul.edu/writing (http://www.depaul.edu/writing/).
University Counseling

University Counseling Services (UCS) is committed to providing a range of services intended to help currently enrolled DePaul students remove barriers to academic and personal success by addressing emotional, psychological and interpersonal concerns.

UCS provides group counseling, personal growth-oriented workshops, time-limited individual psychological counseling, psychiatric evaluation and crisis management services. Sometimes a skill-building workshop or small group counseling experience is the most effective intervention given a student’s presenting concerns.

UCS has a diverse, caring, and competent professional staff that works from a variety of theoretical perspectives. Some students find that talking to a counselor once is sufficient to resolve their immediate concern. Our counselors can help you in a variety of ways because they are excellent sounding boards, compassionate listeners, and skillful experts in the problems of living. If further services would be beneficial, these will be discussed and recommendations will be made by the counselor.

UCS offers primarily short-term counseling and provides referrals and linkages to community providers when students could benefit from longer term services.

Co-Curricular Learning Outcomes

As a result of participating in University Counseling programs and services, students will be able to:

- Develop skills for coping, communication, self-care, and responsible decision-making.
- Identify and make progress on their personal goals.
- Identify and navigate resources both within DePaul University and within the surrounding community in order to remove barriers to academic or personal success.
- Enhance their self-awareness, self-worth, and emotional health.

Code of Student Responsibility

- General Information (p. 1472)
- Code of Student Responsibility Policies (p. 1476)
- Other Policies Applicable to Students (p. 1478)
- Student Conduct Process (p. 1479)
- University-Initiated Temporary Medical Withdrawal Process (p. 1486)
- Student Care Team and Threat Assessment (p. 1489)

General Information

In this section of the Code of Student Responsibility, you will find a variety of information that is important for students to read and understand. This section also includes definitions of terms that are used at other places in the Code of Student Responsibility.

Letter from the Dean of Students

To the University Community,

The Dean of Students Office is committed to partnership in the educational mission of DePaul University. This mission is enhanced by a Code of Student Responsibility, which includes policies that outline expectations and standards of behavior for the student community. Any community of more than 22,000 people needs rules. As a DePaul University student, the policies in the DePaul Code of Student Responsibility are not a list of things you can do wrong; it is a code designed to protect your rights and those of all DePaul students. Any student who feels that another student in the community has violated their rights is encouraged to use this Code and the Dean of Students Office as a resource.

The Dean of Students Office can be an invaluable advocate and support in identifying resources and services for students. In an institution of such size and complexity it is often difficult to know where to begin when a student is struggling or having difficulty navigating the University setting. This office can be of particular help in areas of personal and/or family crisis, economic distress, or a medical/personal leave of absence. The office serves as principal liaison and resource for students and other divisions and departments within the University community.

Finally, our work with students is guided by the Socially Responsible Leader framework which is grounded in our Catholic, Urban, and Vincentian mission. The development of socially responsible leaders in today’s complex, global, and ever-changing world requires a campus community that is committed to holistic learning and the fostering of a campus community based on respect. It is our hope that you will make full use of the opportunities to reach your full potential that are available for you at DePaul University. In that regard, the Dean of Students Office is here to serve you with locations on both the Loop and Lincoln Park campuses.

Locations:

Student Center 307
Lincoln Park Campus
(773) 325-7290

Lewis Center, Suite 1400
Loop Campus
(312) 362-8066

In emergency situations, the office can also be reached 24 hours a day through our Public Safety Office at (773) 325-7777.

Sincerely,
Ellen Herion Fingado
Dean of Students

Definitions

Advisor

An advisor is a member of the DePaul University community who may act as a support person for either the complainant or referred student. All students involved in a Student Conduct Process have the right to bring one advisor to any meeting or hearing related to the Student Conduct Process. An advisor may attend any related meeting but may not directly address the members of the University Board, an administrative hearing officer, or anyone else present at a meeting or hearing.

The Dean of Students retains a pool of faculty and staff that are trained to serve as advisors for students and can be provided at the student’s request. Furthermore, if a student selects an advisor who is not part of this trained pool, the Dean of Students Office offers information and consultation on the role of the advisor and training, if needed and requested by the student or their advisor. All advisors must be approved
in advance by the moderator, administrative hearing officer, or other University designee.

Because an advisor must be a current member of the DePaul community, students are prohibited from having an attorney or legal representative who is not a current member of the DePaul community be an advisor during the Student Conduct Process. Students may choose to consult or retain independent legal counsel as a result of their participation in the Student Conduct Process, but such legal counsel may not attend any meetings or hearings, and does not have a role in the Student Conduct Process. More information for attorneys can be found at the DePaul University Student Conduct Process Guide for Attorneys (http://offices.depaul.edu/student-affairs/student-life/student-conduct/Documents/SCP%20Attorney%20Resource%20Guide.pdf).

For student conduct cases involving the Sexual & Relationship Violence Prevention and Response policy, please refer to the information on advisors in that policy (http://policies.depaul.edu/policy/policy.aspx?pid=320/).

**Administrative Hearing**

An administrative hearing is a hearing process in which a student conduct case is reviewed by an administrative hearing officer. The administrative hearing officer will review all of the information, determine responsibility and sanction if appropriate. The procedures for an administrative hearing are set forth in the “Administrative Hearing Process” section of the Code of Student Responsibility.

**Administrative Hearing Officer**

An administrative hearing officer is the individual who serves as the hearing officer in an administrative hearing.

**Complainant**

A complainant is a student who is alleging a potential violation of a policy and participating in the Student Conduct Process in this role. An individual may allege a potential violation of a policy but then choose not to participate in the Student Conduct Process as a complainant. Under some circumstances (for example, where a non-student has alleged a policy violation or when a student chooses not to participate in the Student Conduct Process in the complainant role), the University may serve as the complainant in a Student Conduct Process. In these instances, the individual who has alleged a potential violation of a policy is being given the opportunity to provide information through the University representative.

**Moderator**

A moderator is a designated University staff member (typically a Dean of Students Office staff, or other Student Affairs professional) who is responsible for managing the University Board hearing process. The moderator has no voting role in the outcome of any University Board hearing, but all determinations by a University Board panel as to whether a violation has occurred or related sanctions will be reviewed with the moderator.

**Referred Student**

A referred student is a student who has been referred to the Dean of Students Office for a potential violation of a policy.

**Student**

For purposes of the Code of Student Responsibility and the Student Conduct Process, an individual becomes a student at the time they are admitted to the University and remains a student until:

1. they graduate;
2. they have not been in attendance at the University for three consecutive quarters such that they would need to reapply prior to enrolling;
3. they withdraw from the University; or
4. they are dismissed.

The term student includes both degree-seeking and non-degree seeking individuals. The term student includes individuals who are taking courses for credit or not for credit (for example, students in the English Language Academy and Continuing Professional Education). The term student also includes registered student organizations.

The Code of Student Responsibility shall apply to a student’s conduct even if the student withdraws from school while a Student Conduct Process is ongoing.

**Student Organization**

A student organization is any student organization registered with the Office of Student Involvement for that academic year. The Office of Student Involvement will maintain comprehensive policies and procedures for registering as a student organization and for maintaining that status.

Student organizations and their advisors are expected to abide by all University policies, including the policies in the Code of Student Responsibility.

**University Board**

The University Board is a pool of DePaul community members who are recruited, selected and trained by Student Affairs to comprise the panel for a University Board hearing. All members of the University Board will receive annual training regarding student conduct principles and techniques, student development, DePaul policies, the Student Conduct Process, and various other information, including information as required by applicable legal mandates. Attendance at the annual training is mandatory. The members of the University Board are current students, faculty and staff consisting of at least:

- Six current students with at least second-year status appointed by the Student Government Association;
- Six faculty members appointed by the Faculty Council; and
- Six staff members appointed by the Staff Council

Individuals panels selected to serve on a hearing are determined on a case by case basis with consideration that the panel be representative of the diversity within the larger campus community.

**University Board Hearing**

A University Board hearing is a hearing process by which a student conduct case is brought before a University Board panel for the purposes of reviewing information to determine finding of responsibility and appropriate sanctions to the Dean of Students Office. The University Board hearing process is managed by a moderator. The procedures for
a University Board hearing are set forth in the “University Board Hearing Process” section of the Student Conduct Process.

**University Board Panel**

A University Board panel is chosen by the Dean of Students Office and is comprised of three individuals from the general University Board membership (with representation from each population: one student, one faculty member and one staff member). The University Board panel is charged with reviewing all of the information, and determining responsibility and sanctions if appropriate.

**Witness**

A witness is an individual who has information to present that directly bears upon the circumstances of a conduct case or has supporting statements to add to those of the complainant or referred student during the Student Conduct Process. Generally, a witness must be a current member of the DePaul community (faculty, staff or student) and must be approved in advance by the University.

In general, witnesses must present their information in person. It is the responsibility of a complainant or a referred student to make sure that a witness who is appearing on their behalf can attend an administrative hearing or University Board hearing. In some cases, the University will, in its discretion, approve the use of written statements from witnesses, or telephone participation by witnesses.

**Jurisdiction**

The University may initiate a Student Conduct Process when a student or student organization is alleged to have violated a policy as follows:

1. The alleged policy violation occurred on-campus.
2. The alleged policy violation occurred on or off-campus at a University activity, program, function or sponsored event.
3. The alleged policy violation occurred off campus (including in online communities) and involves a member of the campus community (student, faculty or staff).
4. The alleged policy violation involved the student or student organization using their status as a member of the DePaul community.
5. The alleged policy violation affects the University or its community members.

**Notification of FERPA Rights**

**Annual Notification for DePaul Students:**

**Your FERPA Rights**

We want to take this opportunity to provide you with a summary of your rights under The Family Educational Rights and Privacy Act (FERPA), the federal law that governs release of and access to student education records. Please view Understanding FERPA, a DePaul Central Learning Center video for information and instructions.

Your FERPA rights include:

1. The right to inspect and review your education record within 45 days after the University receives a request for access. If you want to review your record, contact the University office that maintains the record to make appropriate arrangements.
2. The right to request an amendment of your education record if you believe it is inaccurate or misleading. If you feel there is an error in your record, you should submit a statement to the University official responsible for the record, clearly identifying the part of the record you want changed and why you believe it is inaccurate or misleading. That office will notify you of their decision and advise you regarding appropriate steps if you do not agree with the decision.
3. The right to provide written consent before DePaul discloses personally identifiable information contained in your education records, except to the extent that FERPA authorizes disclosure without consent.

Some examples of exceptions include:

- School officials with “legitimate educational interests.” A school official has a legitimate educational interest if the official has a professional need to review your education record in order to fulfill his or her official responsibilities. Examples of people who may have access, depending on their official duties, and only within the context of those duties, include: university faculty and staff, agents of the institution, students employed by the institution or who serve an official institutional committees, and representatives of agencies under contract with the University.
- To officials of another school where the student seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student’s enrollment or transfer.
- To authorized representatives of the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or state and local educational authorities, such as a state postsecondary authority that is responsible for supervising the university’s state-supported education programs. Disclosures under this provision may be made in connection with an audit or evaluation of federal- or state-supported education programs, or for the enforcement of or compliance with federal legal requirements that relate to those programs. These entities may make further disclosures of personally identifiable information to outside entities that are designated by them as their authorized representatives to conduct any audit, evaluation, enforcement or compliance activity on their behalf.
- In connection with financial aid for which the student has applied or which the student has received, if the information is necessary to determine eligibility for the aid; determine the amount of the aid; determine the conditions of the aid; or enforce the terms and conditions of the aid.
- To organizations conducting studies for, or on behalf of, the school, in order to:
  i. develop, validate or administer predictive tests;
  ii. administer student aid programs; or
  iii. improve instruction.
- To accrediting organizations in order to carry out their accrediting functions.
- To appropriate officials in connection with a health or safety emergency.
- Information the school has designated as “directory information.”

Directory information may be released without your written consent and includes the following: name, address, e-mail, telephone number, date of birth, college of enrollment, year in school, major, enrollment status (including current enrollment, dates of attendance, full-time/part-time or withdrawn), degrees,
awards and honors received (e.g., Dean’s List recognition), participation in officially recognized activities and sports, weight and height of members of athletic teams, photographs (including ID pictures), videos depicting and/or concerning University life, and previous educational institutions attended. Please note that you have the right to withhold the release of directory information except to the extent that FERPA authorizes disclosure without consent (see #3 above).

To withhold the release of your directory information, you must log into the student portal, Campus Connect, and, under Student Privacy settings, indicate your preference. Please note two important details regarding placing a “No Release” on your record:

i. A “No Release” on your record will prevent your name from being included on lists of students released to honor societies, dean’s list and graduation announcements to local newspapers, and enrollment and degree verification to anyone, including potential employers.

ii. A “No Release” applies to all elements of directory information on your record.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA.

For additional information, please consult the U.S Department of Education website (https://www2.ed.gov/policy/gen/uid/fpco/ferpa/index.html?src=rn/).

Questions concerning FERPA should be referred to DePaul Central:

DePaul Central
Lincoln Park: Schmitt Academic Center, 101
Loop: DePaul Center, Suite 9100
Tel: (312) 362-8610 | dpcl@depaul.edu | depaulcentral.depaul.edu (http://depaulcentral.depaul.edu)

Statement of Non-Discrimination

DePaul University strictly prohibits discrimination, including harassment, on the basis of any status or characteristic protected by local, state or federal law. DePaul’s full policy on discrimination and harassment is the Anti-Discrimination and Anti-Harassment Policy and Procedures (http://policies.depaul.edu/policy/policy.aspx?pid=299/).

Title IX Information

Title IX of the Education Amendments of 1972 (commonly known as "Title IX") is a federal law that prohibits discrimination on the basis of sex in federally funded education programs and activities. Sex discrimination includes sexual harassment, and sexual and relationship violence. When the University receives a complaint, it will respond to the complaint in a prompt and equitable manner. Every complaint is based on its own facts and circumstances, which can impact the course of response. DePaul University prohibits retaliation against any person, including complainants, respondents and witnesses exercising their rights and/or responsibilities in good faith pursuant to Title IX and related University policies.

The director of Gender Equity serves as DePaul University’s Title IX coordinator. The director of Gender Equity/Title IX coordinator’s office is located in Suite 307 of the Lincoln Park Student Center (2250 N. Sheffield Ave). Please call (312-362-8970) or email (titleixcoordinator@depaul.edu) to schedule a meeting. Walk-ins are welcome.

As appropriate, the director of Gender Equity/Title IX coordinator works with other offices to address Title IX complaints and other Title IX compliance issues. These offices include Student Affairs, Academic Affairs, Human Resources, Athletics, Compliance and Risk Management, Enrollment Management and Marketing, and others as appropriate.

More information about DePaul’s response to Title IX complaints and sexual and relationship violence can be found on the Public Safety website (https://offices.depaul.edu/public-safety/Pages/default.aspx).

Changes to Policy

Students have the right to have access to information regarding academic policies and other University policies, including the policies in this Code of Student Responsibility. Students are advised to read the Academic Student Handbook (p. 1347) and any associated references, and all other policies, including those available on the University Policies and Procedures website (http://policies.depaul.edu/policy/browse.aspx), carefully.

The University reserves the right to change policies or procedures at any time and according to established procedures, provided such changes are updated as appropriate, including for example on the University Policies and Procedures website (http://policies.depaul.edu/policy/browse.aspx) or in the online Academic Student Handbook or any associated references.

Student Representation

Students have the right to participate in the governance of the University through the Student Government Association. More information about the Student Government Association can be found on the Student Government Association website (http://sga.depaul.edu/).

Students also have the opportunity to participate in various University processes according to the policies and procedures of a particular academic unit or process. This includes for example, participation in the University’s Promotion and Tenure process as detailed in the Faculty Handbook.

Speech and Expression

Inside and outside of the classroom, DePaul values inquiry and expression. DePaul has articulated its commitment to speech and expression in the Guiding Principles on Speech and Expression (https://policies.depaul.edu/documents/Speech_andExpression.pdf).

DePaul encourages students to operate student media, and will provide support and advisors in this endeavor. It should be understood that supporting these efforts in no way implies DePaul approval or endorsement of the views expressed in student media.

DePaul University encourages student organizations to sponsor guest speakers whose presentation will contribute to the role of the university as a forum for intellectual discussion, debate, investigation and/or artistic expression. Through this forum, speakers bring to the University an opportunity for students to hear and discuss opposing viewpoints on a wide range of issues. It should be understood that providing a forum in no way implies DePaul approval or endorsement of the views expressed by the sponsored speaker. A statement indicating that the presence of the speaker on campus does not imply that DePaul has approved or endorsed
the views expressed by the speaker must be included in all publications for and advertising about any speaker event.

**Student Contact Information**

Students are expected to ensure that their contact information is current on Campus Connect. All notices in the Student Conduct Process will be delivered personally, via the postal service, or to a student’s current preferred email as noted in Campus Connect.

**Emergency Contacts**

The University reserves the right to contact a student’s parent, legal guardian, spouse, and/or other designated emergency contact in emergency situations, and in certain situations involving violations of university policies or laws related to alcohol and controlled substances.

**Clery Act Statement**

DePaul University complies with its obligations pursuant to the Clery Act. More information about the Clery Act, DePaul's policies related to the Clery Act, and DePaul's Annual Security Report can be found on the Public Safety website (https://publicsafety.depaul.edu/safety/).

**Drug Free Schools and Community Act Statement**

DePaul University complies with the requirements of the Drug Free Schools and Communities Act. DePaul has policies and procedures to prevent the unlawful possession, use or distribution of illicit drugs and alcohol by students and employees. This includes the Alcohol policy (p. 1476), the Illegal Use or Possession of Drugs or Controlled Substances policy (p. 1478), and the Drug Free Workplace and Legal Drinking Age Compliance policy (http://policies.depaul.edu/policy/policy.aspx?pid=259/).

DePaul distributes an annual notification to all students and employees that includes standards of conduct, sanctions under law and University policy, a description of the health risks association with alcohol and drug use, and a description of treatment programs. The University reviews its compliance on a biennial basis to determine its effectiveness and to ensure that the standards of conduct and conduct sanctions have been consistently enforced. This review is documented in a report.

Any DePaul student who has a drug or alcohol related problem may call upon the University for assistance. Please contact the Office of Health Promotion and Wellness (http://offices.depaul.edu/student-affairs/about/departments/Pages/hpw.aspx) or the Ray Meyer Fitness Center (http://resources.depaul.edu/campus-recreation/Pages/default.aspx) for more information. The Office of Health Promotion and Wellness can provide a confidential referral to a drug or alcohol treatment program.

Information on the effects of drugs and alcohol is available through the Office of Health Promotion and Wellness (http://offices.depaul.edu/student-affairs/about/departments/Pages/hpw.aspx), University Counseling Services (http://offices.depaul.edu/student-affairs/about/departments/Pages/ucs.aspx), the Ray Meyer Fitness Center (http://resources.depaul.edu/campus-recreation/Pages/default.aspx) and Sage Medical/DePaul Health Services (http://offices.depaul.edu/student-affairs/support-services/health-wellness/Pages/health-services.aspx).

**Information Regarding Registered Sex Offenders**

Information regarding sex offender registration and regarding registered sex offenders enrolled or employed at DePaul University can be obtained from DePaul Public Safety (https://publicsafety.depaul.edu/registration/).

**Code of Student Responsibility Policies**

- Alcohol (p. 1476)
- Criminal and Civil Law Violations (p. 1477)
- Damage to Property (p. 1477)
- Demonstrations and Other Similar Events (p. 1477)
- Disorderly, Violent, Intimidating or Dangerous Behavior (p. 1477)
- False Information and Misrepresentation (p. 1477)
- Gambling (p. 1477)
- Guest Responsibility (p. 1477)
- Hazing (p. 1477)
- Illegal Use or Possession of Drugs or Controlled Substances (p. 1478)
- Reasonable Directives from the University (p. 1478)
- Student Conduct Process Compliance (p. 1478)
- Theft and Unauthorized Use (p. 1478)
- Unauthorized Entry or Exit (p. 1478)

**Alcohol**

The State of Illinois prohibits the sale, use, distribution, manufacture, or possession of all forms of alcoholic beverages by persons under 21 years of age. Students under 21 years of age may not sell, use, distribute, manufacture, or possess all forms of alcoholic beverages.

Providing or distributing alcohol to individuals under the age of 21 is prohibited.

Students, even those 21 years of age or older, may not possess or consume alcohol in common or non-reserved areas on university premises. Alcohol consumption that results in behavior that infringes on the rights of others in the community is prohibited.

Alcohol consumption that creates a risk of harm to self, including requiring a transport to the hospital for intoxication, is prohibited.

For specific policies regarding alcoholic beverages in the residence halls, please see the Guide to Student Housing (https://offices.depaul.edu/housing/resident-resources/guides-policies/Pages/default.aspx).

For specific policies regarding events sponsored by student organizations at which alcohol is served, please see the Student Organization Handbook (http://offices.depaul.edu/student-affairs/student-life/student-organizations/Pages/default.aspx).

Alcoholic beverages may not be served at events sponsored by student organizations without authorization from the Office of Student Involvement. Unless specific risk management mechanisms are in place, authorization will generally not be given to any student organization that is hosting an event at which students under 21 will, or could be, present.
Conduct that may violate this policy includes, but is not limited to:

- may not engage in behavior that is dangerous, destructive, or disorderly.
- Students may not engage in behavior that threatens or harms, or that may reasonably be expected to threaten or harm, other people.
- Dangerous Behavior
- Disorderly, Violent, Intimidating or Dangerous Behavior
- Students may not engage in behavior that threatens or harms, or that may reasonably be expected to threaten or harm, other people.
- Students may not engage in behavior that is dangerous, destructive, or disorderly.

Conduct that may violate this policy includes, but is not limited to:

1. Physically harming another person, either intentionally or by taking actions that create a substantial risk of physical harm to another person.
2. Threatening to physically harm another person.
3. Causing significant emotional harm through bullying or other means.
4. Disrupting the peace.
5. Impeding the business operations of the University.
6. Obstructing emergency routes.
7. Failing to abide by emergency regulations and evacuation procedures.
8. Urinating or defecating in public view or public place.

**False Information and Misrepresentation**

Students may not provide false information to the University. Students may not assist with providing false information to the University. This includes taking any action based on known incorrect information. Students may also include making a false report of an emergency regarding the University.

- Students may not falsely, mislead, or knowingly misrepresent any University record or document.
- Students may not engage in forgery, alteration or misuse of University documents, records, or identification or other materials submitted to the University.
- Students may not misrepresent that they have authority to bind the University in any way, including by entering into contracts on behalf of the University.
- Students may not intentionally misrepresent the position of the University.
- Students may not use, possess, alter, manufacture or distribute an identification card or any similar document or information that is false or fraudulent in that it misrepresents an individual’s identity or personal characteristics. This includes using another individual’s identification.

**Gambling**

Students may not engage in any form of gambling. Gambling includes illegal wagering (including regarding sports), bookmaking, or unauthorized games or contests of chance. Students may not provide information to others to assist in any gambling activities.

**Guest Responsibility**

Students are responsible for the behavior of their guests. A host assumes full responsibility for their guests’ compliance with all University policies and procedures, including policies specific to Residential Education/Housing or the Office of Student Involvement.

**Hazing**

DePaul prohibits hazing, as defined under applicable laws. Hazing includes, but is not limited to, any action taken or situation created to produce mental or physical discomfort, embarrassment, ridicule or endangerment of a student or group of students for the purpose of initiation into, affiliation with, or admission to, or as a condition for continued membership in a group, team, club or other organization. Falsely leading an individual or individuals to believe that they will be inducted/initiated by participating in particular activities may also be considered hazing. Acceptance of the activity on the part of a new member or individual does not excuse sponsorship of the activity.
Examples of hazing include, but are not limited to: use/abuse of alcohol, paddling in any form, creation of excess fatigue, physical and psychological shocks, and morally degrading or humiliating games and activities. Other activities and requirements that should be planned with care so as to avoid hazing include wearing particular apparel or accessories, scavenger hunts/treasure hunts, and road trips.

Illegal Use or Possession of Drugs or Controlled Substances

Students may not illegally use, sell, possess, manufacture or distribute any substance prohibited by local, State or federal law. This includes but is not limited to illegal drugs and controlled substances (including cannabis, narcotics, cocaine, heroin, prescription medications, synthetic cannabinoids or other drugs, and any chemical substantially similar to a controlled substance; please note that federal laws require DePaul to prohibit the use and possession of cannabis on campus, regardless of state law, therefore cannabis remains an illegal drug under this policy). Students should be aware that it is unlawful to distribute prescription medication to other students for whom the medication was not prescribed.

Use, possession, manufacturing, or distribution of drug paraphernalia is also prohibited.

This University also seeks to educate students about the use of illegal drugs and controlled substances. Detailed information about DePaul's efforts and programming can be obtained from the Office of Health Promotion and Wellness (http://offices.depaul.edu/student-affairs/about/departments/Pages/hpw.aspx). Students who have concerns about their substance use (or someone else's) may confidentially contact the Office of Health Promotion and Wellness at any time.

Reasonable Directives from the University

A student may not disregard a reasonable directive, either verbal or written, from a University official or office acting in their official capacity.

Student Conduct Process Compliance

A student may not take any action to influence or coerce information that is provided in a Student Conduct Process.

A student may not take any action that disrupts or impairs the Student Conduct Process.

A student may not retaliate against another student on account of that student’s participation in the Student Conduct Process.

A student may not knowingly provide false information or misrepresent information in a Student Conduct Process, which includes any investigation, hearing, or administration of cases of alleged violations of the Code of Student Responsibility.

A student may not publicly release confidential information regarding to, or learned through, a Student Conduct Process.

A student who fails to complete sanctions imposed through the Student Conduct Process may be in violation of the Student Conduct Process Compliance and face additional sanctions.

Theft and Unauthorized Use

Student may not use, possess or remove from an authorized area property that does not belong to the student without the consent of the owner of the property or other person legally responsible for the property.

Conduct that could violate this policy includes, but is not limited to:

1. Theft of property or services
2. Unauthorized alteration, misuse, or tampering with safety and security equipment
3. Unauthorized use of University resources
4. Knowing possession of stolen property or materials

Unauthorized Entry or Exit

Students may not attempt to obtain unauthorized entry, whether or not with force, into a building, structure, facility, room or container (file cabinet, desk drawer, etc.).

Students may not climb or scale buildings without authorization.

Students may not improperly use designated exits.

Other Policies Applicable to Students

In this section of the Code of Student Responsibility, you will find information about other policies besides those policies in the Code of Student Responsibility that apply to students. This includes policies for student organizations, policies for students who live in the residence halls, and policies that apply to the entire university.

As described in more detail in this section, potential student violations of these policies will be addressed either through the Student Conduct Process (p. 1479) or through the policies and procedures of the specific area.

Student Organizations

Student organizations are expected to abide by all University policies, including the policies in the Code of Student Responsibility. In addition, the Office for Student Involvement may set forth additional policies applicable to student organizations. In addition, University Ministry may set forth additional policies applicable to student religious organizations. In addition, Campus Recreation may set forth policies applicable to club sports.

Potential student organization violations of University policies and the policies in the Code of Student Responsibility will be addressed through the Student Conduct Process. Potential student organization violations of policies set forth by the Office for Student Involvement, University Ministry or Campus Recreation will be addressed through those areas.

Student organizations are expected to comply with all University policies, including the Code of Student Responsibility and all additional policies pertaining to groups and organizations. A group or organization may be held responsible for the actions and behaviors of its members and guests. The decision to hold a group or organization responsible as a whole is ultimately determined by examining all the circumstances of a situation and by taking into account factors including, but not limited to, whether the actions:
1. Were committed by one or more officers or authorized representatives acting in the scope of their organizational capacities;
2. Involved, were committed by, or were condoned by (actively or passively) a significant number of organization members, alumni, or guests;
3. Occurred at or in connection with an activity or event funded, sponsored, publicized, advertised, or communicated about by the organization;
4. Occurred at a location over which the organization had control at the time of the action;
5. Occurred at or in connection with an activity or event that reasonable people would associate with the organization;
6. Should have been foreseen by the organization or its officers, but reasonable precautions against such actions were not taken;
7. Were the result of a policy or practice of the organization;
8. Would be attributable to the organization under the organization's own policies (including local or national risk management guidelines); or
9. Were taken by individuals who, but for their affiliation with the organization, would not have been involved in the incident.

Or whether:

1. One or more officers or members of an organization fail to report knowledge or information about a violation to, or otherwise fail to cooperate with, appropriate University or emergency officials; or
2. The organization, or any member acting on its behalf, fails to satisfactorily complete the terms of any disciplinary sanction or outcome.

Collective & Individual Responsibility

Student organizations, as well as their members and officers, may be held collectively and/or individually responsible for violations of the Code of Student Responsibility or other University policies.

Residential Education and Housing Services

Resident students are expected to abide by all University policies, including the policies in the Code of Student Responsibility. In addition, Residential Education and Housing Services may set forth additional policies applicable to students who live or visit the residence halls.

Residential Education administers the Student Conduct Process for many potential violations of policies related to resident students. More information about the Student Conduct Process as managed by Residential Education can be found in the Guide to Student Housing (http://offices.depaul.edu/housing/resident-resources/guides-policies/Pages/default.aspx). In some instances, Residential Education may refer a situation to the Dean of Students to manage the Student Conduct Process. All decisions about which area will conduct a Student Conduct Process are at the discretion of the University.

Student Centers

Student Centers may set forth additional policies applicable to students who use the Student Centers (http://offices.depaul.edu/student-centers/Pages/default.aspx). Potential student violations of policies set forth by Student Centers will typically be addressed through that area. In some instances, Student Centers may refer a situation to the Dean of Students to initiate a Student Conduct Process in response to a potential violation of a Student Center policy.

Academic Policies

All of the University's academic policies can be found in the Student Handbook (p. 1347) (https://catalog.depaul.edu/academic-handbooks/undergraduate/university-information/about-this-handbook/). In addition, individual Colleges, Schools, departments or other academic unit may set forth particular academic policies in their Student Handbooks or other student materials. Potential student violations of academic policies will typically be addressed by Academic Affairs. In some instances, Academic Affairs may refer a situation to the Dean of Students to initiate a Student Conduct Process in response to a potential violation of a particular policy.

Other University Policies

Students must abide by all University policies applicable to them as students. Students should make themselves aware of all University policies. The policies listed below are some of the policies that are most relevant to the day-to-day lives of students. This list is not intended to exempt students from all other University policies applicable to students.

- Academic Integrity (p. 1369)
- Anti-Discrimination and Anti-Harassment (http://policies.depaul.edu/policy/policy.aspx?pid=299/)
- Display of Promotional Materials (http://policies.depaul.edu/policy/policy.aspx?pid=24/)
- Drug Free Workplace and Legal Drinking Age Compliance (http://policies.depaul.edu/policy/policy.aspx?pid=259/)
- Endorsements (http://policies.depaul.edu/policy/policy.aspx?pid=178/)
- Political Campaign Activities (http://policies.depaul.edu/policy/policy.aspx?pid=117/)
- Prohibition of Weapons (http://policies.depaul.edu/policy/policy.aspx?pid=308/)
- Sales and Solicitation—Residence Halls (https://offices.depaul.edu/housing/resident-resources/guides-policies/Pages/default.aspx)
- Sexual and Relationship Violence Prevention and Response (http://policies.depaul.edu/policy/policy.aspx?pid=320/)
- Smoking (http://policies.depaul.edu/policy/policy.aspx?pid=220/)
- Space Reservations (http://policies.depaul.edu/policy/policy.aspx?pid=74/)

Student Conduct Process

In this section of the Code of Student Responsibility, you will find information about the Student Conduct Process. The Student Conduct Process protects students and the University by delineating specific procedures for addressing potential policy violations.

A student may violate a policy by engaging in the conduct detailed in the policy or by assisting others with engaging in the conduct detailed in the policy.

In general, the Vice President for Student Affairs, or his/her designees, maintains exclusive authority for imposing sanctions for behaviors that
violates the policies in the Code of Student Responsibility and for student violations of University policies.

There are some exceptions to this general statement. For example, Academic Affairs addresses potential violations of academic policies and maintains a separate process for addressing potential violations of the Academic Integrity (p. 1369) policy.

The Dean of Students Office within Student Affairs is primarily responsible for managing the Student Conduct Process. Residential Education also manages the Student Conduct Process for certain policy violations by residential students.

**Student Rights Within the Student Conduct Process**

A student participating in the Student Conduct Process is entitled to the following rights as a guarantee of fundamental fairness:

1. The right to a Student Conduct Process that proceeds in a prompt and equitable manner.
2. The right to be given an opportunity for a hearing in accordance with the Student Conduct Process.
3. The right to a written statement of the alleged violations in sufficient detail to prepare.
4. The right to be accompanied by an advisor in accordance with the Student Conduct Process.
5. For the complainant(s) and referred student(s), a written statement of the possible sanctions that may be imposed.
6. For the complainant(s) and referred student(s), the right to submit information and witnesses on one’s behalf and, to the extent necessary, to question witnesses’ statements, whether verbally or in writing.
7. The right to have the Student Conduct Process explained and to ask for clarification of any policies or procedures.
8. The right to have reasonable access to information specific to one’s case.
9. The right to a separate hearing when a single incident gives rise to charges against more than one referred student.
10. The right to speak on one’s own behalf (or, in the case of a student organization, for the student organization’s officers to speak on the student organization’s behalf).
11. The right to promptly know the names of the individuals who will be serving as an Administrative Hearing officer, moderator, on a University Board panel, or reviewing an appeal, and to request a substitution of any such individual for justifiable reason.
12. The right to have proceedings and documentation kept private and confidential. All hearings, proceedings, and case information are considered confidential except to those who have a legitimate educational interest in them, or as permitted or required under FERPA, the Clery Act, or any other legal mandate.
13. The right to a written decision, which the University will take reasonable measures to provide within five business days of completion of the last hearing.
14. The right to request an appeal on specific grounds.
15. The right for any student registered with the Center for Students with Disabilities to request accommodations to ensure their full and equal participation in any conduct process and/or proceeding. Accommodation requests are to be made directly to the Dean of Students Office. Accommodations are determined on an individual basis in consultation with the Center for Students with Disabilities.
16. The right to request to bring a language interpreter at the sole expense of the student making the request. The Dean of Students Office must be notified of this request. An interpreter would be an addition to an approved advisor.

**University Rights Within the Student Conduct Process**

The University reserves the following rights:

1. The right, in accordance with applicable legal mandates, to refer any matter involving a potential violation of criminal or civil law to the proper law enforcement agency.
2. The right to initiate a Student Conduct Process based on reliable information indicating a potential policy violation.
3. The right to sanction a student on an interim basis in accordance with the procedures described in the Student Conduct Process.
4. The right to share the outcomes of the Student Conduct Process as permitted or required under FERPA, the Clery Act, or any other legal mandate.
5. In keeping with its commitment to offer a fundamentally fair process for all students involved in the Student Conduct Process, the right to adapt certain aspects of the Student Conduct Process in specific circumstances, in order to meet the interests of all involved parties, including the University.
6. The right to cease the Student Conduct Process under appropriate circumstances.

**Relationship Between the Student Conduct Process, Law Enforcement, and Legal Proceedings**

The Student Conduct Process is designed to be educational, not legal, in nature. Rules of evidence and discovery do not apply to the Student Conduct Process. Students should not draw parallel interpretations between the Student Conduct Process and legal proceedings.

The University may proceed with a Student Conduct Process independently of any action taken by law enforcement or local, State or federal courts or government agencies. Similarly, the University may, in its discretion, decide to delay a Student Conduct Process until the conclusion of a court proceeding or other law enforcement or legal process.

The outcome of a legal proceeding is not determinative on the Student Conduct Process.

Students are not required to report incidents to local law enforcement in order for the University to proceed with a Student Conduct Process. The University does, however, reserve the right in accordance with applicable legal mandates, to refer any matter involving a potential violation of criminal or civil law to the proper law enforcement agency.

**Failure to Participate**

If a complaining student chooses not to participate in the Student Conduct Process as a complainant, the University may proceed with the Student Conduct Process with the University serving as the complainant.
The complaining student may choose to participate as a witness or not at all. The hearing officer will render a decision and, if appropriate, impose sanctions, based solely on the information available, without the benefit of any additional information from the complaining student.

If a referred student chooses not to participate or not to fully participate in the Student Conduct Process, the hearing officer, or University Board panel, will render a decision and, if appropriate, impose sanctions, based solely on the information available, without the benefit of any additional information from the referred student. However, the University reserves the right, in its sole discretion, to delay a Student Conduct Process.

All students participating in the Student Conduct Process will be provided specific deadlines at various stages of the Student Conduct Process. Failure to respond in a timely manner according to deadlines provided may result in a student’s inability to participate in the Student Conduct Process. The University reserves the right to continue with the Student Conduct Process at its discretion.

A student is never required to participate in a Student Conduct Process as a witness. However, all students are encouraged to comply with the Student Conduct Process. Witnesses who provide false or misleading information may have the matter referred to the Dean of Students Office for consideration of a policy violation and subsequent Student Conduct Process.

Blue Demon Duty

At DePaul University, the health, safety, and welfare of our students and community are paramount concerns. DePaul hopes that students will alert appropriate officials in the event of any health or safety emergency, specifically including those involving the abuse of alcohol or other drugs, even if violations of University policies may have occurred in connection with such an emergency. DePaul expects that students will, to the degree safe and appropriate, be an active bystander in situations where a fellow community member may need help.

Because the University understands that fear of possible disciplinary actions may deter requests for emergency assistance, the University has adopted the following protocol to alleviate such concerns and promote responsible action on the part of students.

In a situation involving imminent threat or danger to the health or safety of any individual(s), students are urged to:

1. contact emergency officials by calling Public Safety or 911 to report the incident,
2. to remain with the individual(s) needing emergency treatment and cooperate with emergency officials, so long as it is safe to do so, and
3. meet with appropriate University officials after the incident and cooperate with any University investigation.

The University will consider the positive impact of taking responsible action in an emergency situation when determining the appropriate response for alleged policy violations that may have occurred prior to or contemporaneously with the emergency notification.

Additionally, students who report in good-faith a violation of another University policy will not generally be subject to sanctions through the Student Conduct Process related to attendant violations related to drug or alcohol use.

Notwithstanding the above, a student may be held responsible for egregious policy violations or policy violations that create a health or safety risk. This could include conduct such as physical violence, hazing, vandalism, harassment or in instances where multiple individuals require medical attention.

Additionally, this protocol does not preclude or prevent action by Public Safety, police or other legal authorities.

Although no sanctions will be imposed through the Student Conduct Process, the incident will be documented and educational interventions may be required as a condition of deferring disciplinary actions or sanctions. Contact with a student’s emergency contact may be made at the time of the incident if medical transport of the reporting party is deemed appropriate.

Preliminary Investigations

When the University is made aware of a potential student violation of a policy in the Code of Student Responsibility or another University policy, it may be necessary to conduct an investigation prior to referring the incident to the Student Conduct Process. Such investigations are either conducted by or in collaboration with the Dean of Students Office. Some examples of other offices that may conduct investigations include the Office of Institutional Diversity and Equity, Residential Education, the Office of Student Involvement, Internal Audit, Academic Affairs, and Information Security.

Offices charged with conducting an investigation may gather information, conduct interviews, and solicit materials. Investigations will be conducted with all reasonable speed. At the conclusion of the investigation, an investigator will work with the Dean of Students Office or other appropriate offices to determine whether the Student Conduct Process will begin. To the extent necessary, an investigator will provide information that will become part of a Student Conduct Process or an investigator may participate in the Student Conduct Process as a witness.

A student may choose to have an advisor at any meeting related to an investigation that may give rise to a Student Conduct Process.

Standard for Hearing Determinations

All determinations as to whether a student is or is not in violation of a policy will be based on the standard of “whether it is more likely than not” that the student is in violation of the policy at issue.

A finding of "IN VIOLATION" means that, based on the information available at the time, it is more likely than not that the student is in violation of the policy at issue. A finding of "NOT IN VIOLATION" means that, based on the information available at the time, it is more likely than not that the student is not in violation of the policy at issue.

Overview of the Student Conduct Process

1. The Student Conduct Process begins when the University receives information that a student’s conduct may be in violation of the
Other University Processes Including Residential Education

In general, the Dean of Students Office is responsible for managing the Student Conduct Process. However, other University departments may initiate investigations, manage hearing processes, or impose sanctions in accordance with other University policies and procedures, and in consultation with the Dean of Students Office and Student Affairs when appropriate. Examples of other areas that may initiate investigations, manage hearing processes, or impose sanctions in accordance with other University policies and procedures include Internal Audit and the Office of Institutional Diversity and Equity.

Students should be particularly aware that Residential Education maintains a separate conduct system for violations of Residential Education policies and, as appropriate, violations of other policies that occur in DePaul housing. Students should consult Residence Education for information regarding those policies and procedures, including information on how to file a complaint with Residential Education.

Initial Meetings

This section explains the details of the initial meeting of the Student Conduct Process. For a complete overview of the Student Conduct Process go to Overview of the Student Conduct Process (p. 1481).

At the beginning of a Student Conduct Process, both the complainant and the referred student will promptly be offered:

- A detailed explanation of the Student Conduct Process, including student rights within that process, and an opportunity to answer any questions that the student might have about the Student Conduct Process.
- A written statement of the alleged violations in sufficient enough detail to prepare.
- Reasonable access to the information that will be considered throughout the Student Conduct Process.
- Instructions as to next steps in the Student Conduct Process.
- Options regarding level of participation in the Student Conduct Process and roles in the Student Conduct Process, including the consequences of each option.
- Information about the individuals who will participate in managing the Student Conduct Process moving forward (for example, the moderator, administrative hearing officer, University Board panel, etc.) and the opportunity to request a substitution of any such individual because of a possible conflict of interest or other prejudice. All decisions about removal of individuals from their participation in a Student Conduct Process will be made by the Dean of Students or the Dean's designee. All such decisions are final.
- Information about any interim sanctions, if applicable.

If possible, the complainant and referred student will be given the opportunity to participate in a face-to-face meeting, or series of meetings, in order to communicate this information. If this is not possible, information will be communicated via phone, email, or other means.

During initial meetings, the University may also request additional information from the complainant or referred student or otherwise collect additional information.
Interim Sanctions

This section explains the details of interim sanctions in the Student Conduct Process. For a complete overview of the Student Conduct Process go to Overview of the Student Conduct Process (p. 1481).

In order to protect the health, safety, security and well-being of the University community and its members, the University reserves the right to immediately impose interim sanctions at any point during a Student Conduct Process. These interim sanctions could include, for example, a suspension.

In general, the University will impose an interim sanction if it determines that there is:

1. An ongoing threat to an individual, including a complainant or referred student;
2. An ongoing threat to property; or
3. A risk of disruption of University business.

Interim sanctions may not be appealed.

In cases where interim sanctions are imposed, the University will take reasonable measures to ensure that a Student Conduct Process proceeds to a final determination as to whether or not there was a policy violation, and any final sanctions, within ten business days of the imposition of any interim sanctions. However, the University reserves the right to extend this time limit, in its sole discretion, in order to ensure proper review of all relevant material.

During the time that an interim sanction is in place, a student must abide by the requirements of the interim sanction.

Administrative Hearing Process

This section explains the details of an administrative hearing in the Student Conduct Process. For a complete overview of the Student Conduct Process go to Overview of the Student Conduct Process (p. 1481) (p. 1481).

If the University determines that an administrative hearing is appropriate, the University will take reasonable measures to ensure that the first session of the administrative hearing takes place within five business days of the conclusion of the initial meetings. However, the University reserves the right to extend this time limit, in its sole discretion, in order to ensure a proper review of all relevant material.

A mutually convenient time for the administrative hearing will be decided upon. If necessary, and at the discretion of the administrative hearing officer, an administrative hearing may take place over the telephone and/or video conferencing. In an administrative hearing a complainant does not attend a meeting with the referred student, however, any relevant information or questions will be relayed between the parties by the administrative hearing officer. The administrative hearing officer will hold as many meetings as necessary.

An administrative hearing will proceed as follows:

1. The administrative hearing officer will confirm that the referred student understands the student's rights.
2. The administrative hearing officer will review all relevant information that has been provided by the complainant, as a result of investigation, etc.
3. The administrative hearing officer and referred student will discuss the alleged violation.
4. The referred student will have an opportunity to give a statement about the alleged violation.
5. The referred student will have the opportunity to provide witness information and, to the extent necessary, to question witnesses’ statements, whether verbally or in writing.
6. After the administrative hearing officer has examined all of the information, the administrative hearing officer will determine that the student is or is not in violation of the policy at issue.
7. If the administrative hearing officer finds the student in violation, the administrative hearing officer will determine the appropriate sanctions. The University will take reasonable measures to notify the complainant and referred student of the outcome and sanctions in writing within five business days of the last session of an administrative hearing. However, the University reserves the right to extend this time limit, in its sole discretion, in order to ensure a proper review of all relevant material.
8. The administrative hearing officer will inform the complainant and the referred student of their appeal options.

University Board Hearing Process

This section explains the details of a University Board hearing in the Student Conduct Process. For a complete overview of the Student Conduct Process go to Overview of the Student Conduct Process (p. 1481).

If the University determines that a University Board hearing is appropriate, the University will take reasonable measures to ensure that the first session of the University Board hearing takes place within seven business days of the conclusion of the initial meetings. However, the University reserves the right to extend this time limit, in its sole discretion, in order to ensure a proper review of all relevant material.

A mutually convenient time for the University Board hearing will be decided upon. If requested by a party or otherwise necessary, and at the discretion of the moderator, a University Board hearing may take place entirely over the telephone and/or video conferencing, or with one or more parties participating by telephone and/or video conferencing. The University Board hearing will proceed over as many sessions as necessary, although each session will be limited to no more than three hours.

The moderator will set a date by which all materials for the hearing will be sent to the University Board. Materials turned into the moderator after that date will be sent to the University Board if feasible.

The actual University Board hearing will proceed as follows:

1. The University Board panel will select a chairperson. The chairperson is charged with maintaining an orderly discussion throughout the University Board Hearing and ensuring that there is equal opportunity for both the complainant and the referred student to present their information.
2. The Chairperson will confirm that all students understand their rights.
3. The Chairperson will describe the information before the University Board panel and will make sure that all students have copies of materials as needed.
4. If an investigator was utilized prior to the University Board hearing, the investigator will provide an overview of the investigation and answer questions from the panel, complainant and referred student.
The investigator will be present for the entirety of the hearing should additional questions arise.

5. Both the complainant and the referred student will have the opportunity to provide witnesses. In cases where a University representative is serving as the complainant, the University representative will present any witness information that has been made available. The University Board panel may also request additional witnesses. Witnesses will provide their information one at a time. A witness may only be present when that witness is providing information. The University may approve the use of written statements from witnesses who are not available to be present in person.

6. The University Board panel may present questions to witnesses who are present at the University Board hearing. If the complainant or the referred student have any questions for witnesses, they may offer those questions to the chairperson of the University Board panel to ask the witness. The University Board panel may decline to ask any question provided. The University Board panel may ask that a witness return later in the University Board hearing for additional questions.

7. Members of the University Board may ask questions to the complainant and the referred student at any time during the University Board hearing. If the complainant or the referred student have any questions for witnesses, they may offer those questions to the chairperson of the University Board panel to ask the witness. The University Board panel may decline to ask any question provided.

8. After the University Board panel has reviewed all the relevant information provided in the University Board hearing, the chairperson will ask the complainant and the referred student whether there is any additional information that needs to be considered but that has not already been provided.

9. The complainant and the referred student will have an opportunity to give a final statement about the alleged violation. In cases where a University representative is serving as the complainant, the University representative will simply summarize the information already provided. The final statement may be read aloud or submitted in writing. In the interest of time, the University Board panel may place a time limit on the final statements.

10. The moderator will excuse everyone from the University Board hearing except for the University Board panel and the moderator.

11. The University Board panel will determine that the student is or is not in violation of the policy at issue. A majority vote by the University Board panel will be used to make this determination. The decision will be reviewed with the moderator before being finalized.

12. If the University Board panel finds the student in violation, the University Board panel will determine the appropriate sanctions. Prior to making any determinations about sanctions, the moderator will inform the University Board panel of any previous student conduct matters involving the referred student. A majority vote by the University Board panel will be used to make this determination. The decision will be reviewed with the moderator before being finalized.

13. Typically, the moderator will invite the referred student back into the University Board hearing and the chairperson will announce the decisions of the University Board panel. Typically, the decision will be announced to the complainant by the moderator as appropriate.

14. The University will take reasonable measures to notify the complainant and referred student of the outcome and sanctions in writing within five business days of the last session of a University Board hearing. However, the University reserves the right to extend this time limit, in its sole discretion, in order to ensure a proper review of all relevant material.

15. The moderator will inform the complainant and the referred student of their appeal options.

Student organizations have the same rights as students, modified as necessary to address the group or organizational context.

### Information About Conduct Sanctions

This section explains the details of conduct sanctions. For a complete overview of the Student Conduct Process go to Overview of the Student Conduct Process (p. 1481).

The Student Conduct Process is an educational one by which the University strives to instill in its students an understanding that they are responsible for their actions. There are several reasons for imposing conduct sanctions:

1. To educate students and redirect behavior toward a standard more acceptable for members of the University community.
2. To protect the University community from possible harm or injury.
3. To require restitution for property that is lost, stolen or damaged.

In general, conduct sanctions become effective immediately when given. In certain circumstances, the University may delay the effective date of sanctions. Students will be informed of any decision to delay the effective date of sanctions.

Conduct sanctions are determined based on a consideration of the totality of the circumstances. This could include, for example, a student's prior record of conduct; the severity of the incident; and the impact on the community. Students may be assigned a single sanction or multiple sanctions.

As detailed in Emergency Contacts (p. 1476), a student's emergency contacts or other individuals may be made aware of sanctions in certain situations involving violations of university policies or laws related to alcohol and controlled substances.

The following is a list of sanctions that the University may impose on a student or student organization through the Student Conduct Process:

1. Restriction: Restrictions upon a student’s University privileges may be imposed for a set period of time. These restrictions may include, but are not limited to, removal from student housing, the denial of the right to represent the University in any way, access to facilities or individuals, parking privileges, and/or participation in certain curricular, co-curricular or extra-curricular activities.

2. Restitution: A student who damages property may be required to pay actual repair or replacement costs. Failure to pay may result in withholding of the student’s records and/or additional sanctions.

3. Educational Project: An educational project is a sanction designed to assist the student in better understanding the overall impact of the policy violation. Educational projects might include research papers, the creation of educational materials, or the planning and/or presentation of educational programs related to the policy infraction. Assigned projects may not include physical labor unless they are directly related to the violations(s) and do not cause humiliation or degradation to the student.

4. Alcohol and Other Drug Intervention: A student who is found responsible for violation a policy related to alcohol or controlled substances may be required to meet with the Office of Health Promotion and Wellness and/or participate in an intervention
called BASICS (Brief Alcohol Screening and Intervention for College Students).

5. University Reprimand: University reprimand signifies that any further policy violation may result in additional sanctions. It does not restrict the student in any way.

6. University Probation: University probation is a written statement to the student indicating that the student’s behavior is of such a nature as to jeopardize continued enrollment at the University. University probation can be for a specified period of time or for as long as the student is enrolled. Any additional policy violation during the probationary period may result in additional sanctions.

7. Suspension: Suspension is a total separation from the University for a required period of time and/or until particular conditions for readmission are met. Suspension may include various prohibitions regarding a student’s ability to be on University property or participate in University activities. A sanction of suspension is permanently noted on a student’s transcript, regardless of whether or not the student is successfully readmitted at the conclusion of a suspension. At the end of the suspension period and/or once the student can demonstrate that the conditions for readmission have been met, the student may be required to meet with the Dean of Students or other designee before being readmitted to the University.

8. Dismissal: Dismissal is a permanent separation from the University. Dismissal is a permanent bar to readmission to the University. A sanction of dismissal is permanently noted on a student’s transcript. Dismissal may include various prohibitions regarding a student’s ability to be on University property or participate in University activities.

9. Revocation of Admission: Revocation of admission signifies that a student who has previously been admitted to the University, but has not yet matriculated, is no longer admitted for enrollment in the planned term and program. Revocation of admission may be a permanent separation from the University and permanent bar to readmission to the University, or it may be limited to a particular time frame or program. The student may be required to meet with the Dean of Students or other designee before being readmitted to the University.

10. Revocation of Degree: Revocation of degree signifies that the University is withdrawing a degree that has been awarded. Revocation of degree is a permanent separation from the University. Revocation of degree is a permanent bar to readmission to the University. A sanction of revocation of degree is permanently noted on a student’s transcript.

Student organizations are subject to the same sanctions as students, modified as necessary to address the group or organizational context, plus any such other sanctions or outcomes that are deemed appropriate under the circumstances. Other sanctions may be imposed on students or student organizations for policy violations related to processes managed by other University areas.

Conduct Appeal Procedures

This section explains the details of appeals in the Student Conduct Process. For a complete overview of the Student Conduct Process go to Overview of the Student Conduct Process (p. 1481).

Determinations as to whether or not a policy has been violated and sanctions may be appealed through these procedures. Both complainants and referred students may appeal determinations as to policy violations and sanctions. The reason for the appeal process is to guarantee that the situation has been resolved through a fundamentally fair process in accordance with established policies and procedures.

Students will be informed of these appeals procedures, including to whom an appeal should be directed, at the conclusion of an administrative hearing, University Board hearing, or otherwise when a determination of a policy violation is made and/or sanctions are determined.

Typically, appeals from a University Board hearing will be submitted to the Dean of Students, while appeals from an administrative hearing will be submitted to the supervisor of the administrative hearing officer. The individual reviewing an appeal will have had no involvement in the initial determination. Either party will have the opportunity to request the substitution of the individual reviewing an appeal because of a possible conflict of interest or other prejudice.

A complainant or referred student may only appeal the determination as to a policy violation or sanction on the following three grounds:

1. A substantial procedural error occurred that unreasonably impaired a fair process or rendering of a determination or sanction, and that made the process or the final decision fundamentally unfair.
2. New information of a substantive nature that was impossible to have been considered at the time of the hearing or determination has been discovered, and it would be fundamentally unfair to not consider the information.
3. The initial sanction(s) are fundamentally unfair, disproportionate, or inappropriate.

In order to appeal, the complainant and/or referred student must submit a written request for appeal to the designated individual within five business days of being notified of the initial decision.

The individual designated to review the appeal may decide that the sanctions imposed should not go into effect until the appeal process is completed. Complainants and referred students should understand, however, that, unless otherwise stipulated, sanctions are considered in effect once a hearing is completed, regardless of whether an appeal is requested.

The individual designated to review the appeal will make a determination that:

1. The appeal is denied because none of the grounds for an appeal above have been met.
2. The appeal is granted because one or more of the grounds for an appeal have been met.

The designated reviewer will take reasonable measures to notify the complainant and/or referred students of the appeal determination within five business days of when the University receives the appeal. However, the University reserves the right to extend this time limit, in its sole discretion, in order to ensure a proper review of all relevant material.

If an appeal is granted, then the individual designated to review the appeal will determine whether the matter can be resolved without a new hearing (for example, modification of sanctions so that they are not fundamentally unfair or inappropriate) or whether a new hearing is necessary. If a new hearing is necessary, the University will determine whether this hearing will be an administrative hearing or a University Board hearing. All hearings that take place after an appeal has been granted will proceed in accordance with established procedures.
All decisions regarding whether an appeal will be granted are final. If the appeal is denied, then all sanctions imposed will remain in effect.

**Student Conduct Records**

Student conduct records are maintained in accordance with the University’s Records Retention Schedule. Specifically, student conduct records from a Student Conduct Process that did not result in a sanction of dismissal or suspension are retained for ten years after a student's graduation or last date of attendance.

In accordance with the University Records Retention Schedule, transcripts are retained permanently. As such, student conduct records from a Student Conduct Process that resulted in a sanction of dismissal or suspension are retained permanently.

The University may also report disciplinary matters that remain unresolved and pending at the time a student left or withdrew from the University. Records of pending matters are kept indefinitely; once resolved, they are kept and maintained according to the policy stated above.

The University will release student conduct records and the information in those records only as permitted or required under FERPA, the Clery Act, or any other legal mandate.

**Additional Procedures Regarding Sexual and Relationship Violence**

In addition to the procedures in the Student Conduct Process, students should also consult the Sexual and Relationship Violence Prevention and Response policy for additional procedural information for Student Conduct Process matters involving a potential violation of that policy.

In order to be eligible to conduct an administrative hearing, sit on a University Board panel, or hear an appeal, involving a violation of the Sexual and Relationship Violence Prevention and Response policy, an individual must also receive at least 8 hours of annual training on issues related to the issues detailed in that policy. A sufficient number of individuals will receive this annual training such that substitutions of personnel and University Board panel members for conflict of interest and other matters can occur as needed.

**University-Initiated Temporary Medical Withdrawal Process**

*Note: The process and criteria described in this section apply in situations in which DePaul University initiates a discussion with a student regarding the student's temporary withdrawal from DePaul for medical reasons. Students looking to voluntarily take a leave of absence or withdraw from DePaul for medical or other reasons should consult the Withdrawal policy.*

DePaul University places the utmost priority on student welfare and community safety. DePaul provides a continuum of support services to address the needs of students within the context of the university community. Sometimes students may have health needs that require a level of care exceeding that which DePaul can effectively provide. Being able to safely participate in the programs, services, or activities of the university is an essential requirement for a student's continued participation. As such, in some situations, it may be appropriate to consider options for a student's temporary withdrawal from DePaul or for altering a student's ability to fully participate in certain programs, services, or activities at DePaul.

This university-initiated temporary medical withdrawal process is not a disciplinary process. Rather, under this process, DePaul will work with a student regarding a university-initiated temporary medical withdrawal. If a withdrawal is appropriate, the university will also work with the student on a plan for return and plan for success upon return.

As further detailed below, all determinations as to withdrawals and plans for return and success will be based upon an individualized assessment of the student’s situation, including an evaluation of current medical information and/or best available objective information about the student. DePaul will consider this information in assessing circumstances such as the nature, duration, and severity of the risk to the student and/or university community; the probability that the behavior of concern will occur, and whether reasonable accommodations would mitigate the risk.

This process is intended as an interactive dialogue between the student and DePaul concerning the student's continued participation in the programs, services, or activities of DePaul. At all times during the process, DePaul will work with the student to determine whether other options or reasonable accommodations would be appropriate instead of, or in addition to, a university-initiated temporary medical withdrawal process or alterations to a student's ability to fully participate in certain programs, services, or activities at DePaul. More information about the interactive process for establishing reasonable accommodations is available from DePaul's Center for Students with Disabilities.

When a student demonstrates conduct that violates DePaul's Code of Student Responsibility or other DePaul policies, that conduct will be addressed through the appropriate disciplinary processes. There may be situations in which both the university-initiated temporary medical withdrawal process and the Code of Student Responsibility and/or other DePaul policies are applicable (see below for further details).

Students may choose to have an advisor join them for any meeting or conversation that is a part of this process. An advisor is a member of the DePaul University community who acts as a support person for the student. The role of the advisor is to quietly confer with and support the student throughout the process.

**Criteria**

DePaul may initiate this process if a student:

1. Demonstrates behavior that is unreasonably disruptive to the normal education processes and orderly operation of the university;
2. Demonstrates behavior that poses a serious and imminent health or safety risk to the themselves, or
3. Demonstrates behavior that poses a serious and imminent health or safety risk to others.

**Initial Determination and Notification to the Student**

The university-initiated temporary medical withdrawal process begins when the Dean of Students Office receives information indicating that a student appears to have demonstrated behavior consistent with one or more of the criteria listed above. In many instances, this information
This information could include, for example, a written response, a request put in place. If the student would like to submit additional information in given an opportunity to respond to any interim restrictions that have been consistent with one or more of the criteria listed above, the Dean of Students Office will inform the student of the following in writing:

1. That the Dean of Student Office has made an initial determination based on available information that the student has demonstrated behavior consistent with one or more of the criteria listed above (with the specific criterion or criteria identified).

2. That the university is initiating a process pursuant to this university-initiated temporary medical withdrawal process (with a copy of or link to the process).

3. That the student is required to have a meeting with the Dean of Students Office to discuss potential next steps, including the possibility of a university-initiated temporary medical withdrawal or alterations in a student’s ability to fully participate in certain programs, services, or activities at DePaul. The Dean of Students Office will attempt to schedule this meeting within one (1) business day of the student receiving this initial notification.

4. That the student may bring an Advisor to this meeting, or any other meeting or conversation that is part of this process, as further detailed above.

5. Any interim restrictions, as further explained below.

**Interim Restrictions**

The Dean of Students may place interim restrictions on the student’s participation in university programs, services, or activities (including attending classes, extra-curricular activities, and residential arrangements). Any interim restrictions will be determined on an individualized basis and will be consistent with the goals of reducing the impact of any behavior that indicate the criteria listed above and ensuring the safety of the student and the university community where this is of immediate concern. All interim restrictions will be communicated in writing to a student. In general, interim restrictions will remain in place until a final determination is made concerning a possible withdrawal (including any appeal).

**Initial Meeting and Additional Information Gathering**

In this initial meeting, the Dean of Students Office will explain the university-initiated temporary medical withdrawal process to the student. The Dean of Students Office will review with the student the information that appears to indicate that the student has demonstrated behavior consistent with one or more of the criteria listed above.

The Dean of Students Office will give the student an opportunity to respond to the information orally at the meeting. The student will also be given an opportunity to respond to any interim restrictions that have been put in place. If the student would like to submit additional information in response to the information provided, the student may choose to do so. This information could include, for example, a written response, a request from the student that the Dean of Students Office speak with a qualified care provider, or other documentation.

If the student wishes to submit additional information, the Dean of Students Office will work with the student to develop a reasonable timeline for submitting this information, balancing the need for a prompt decision with the student’s need to provide information.

**Determination and Plan for Return**

The Dean of Students will make a determination as to whether a university-initiated temporary medical withdrawal or any alterations to a student’s ability to fully participate in certain programs, services, or activities at DePaul is appropriate based on the criteria listed above. In making this determination, the Dean of Students will consider all information available, including any information provided by or on behalf of the student, including information provided by a student’s qualified care providers, and information learned from consultation with others with particular subject-matter expertise as needed (for example, a counselor from University Counseling Services or a physician from DePaul Health Services). All determinations as to withdrawal or alterations to a student’s ability to fully participate in certain programs, services, or activities will be as narrowly tailored as possible under the circumstances given the nature, duration and severity of any risk to the student and/or university community.

The student will generally be informed of this determination, including the basis for the determination, in writing within two (2) business days of the initial meeting, or within two (2) business days of the university receiving all information. However, the university reserves the right to extend this time limit, in its sole discretion, in order to ensure proper review of all relevant material. The university will provide the student with written notice of any extension.

At the time that the university provides the student with the determination, the university will also provide the student with a written individualized plan for return to full participation in programs, services, or activities at DePaul. The purpose of the plan for return is to clearly establish the path by which the student can return to safe and successful full participation in programs, services, or activities at DePaul following a university-initiated temporary medical withdrawal or other alterations to a student’s ability to fully participate in certain programs, services, or activities at DePaul. Plans for return to full participation in activities will be as narrowly tailored as possible under the circumstances given the nature, duration and severity of any risk to the student and/or university community.

Specific elements of the plan for return could include, for example:

1. Successful demonstration that the behaviors that led to the university-initiated temporary medical withdrawal have been mitigated to the extent that the student is no longer demonstrating behavior consistent with the criteria listed above; or

2. Development of a treatment plan and/or verification from a qualified care provider that an individual is consistently and satisfactorily complying with a treatment plan.

If possible, the Dean of Students Office will meet with the student in person in order to provide the determination and discuss the plan for return.

If the Dean of Students Office determines that a university-initiated temporary medical withdrawal or any alterations to a student’s ability to
fully participate in certain programs, services, or activities at DePaul will begin, the student will also be informed in writing about options for appeal (as detailed below).

Students are responsible for contacting appropriate offices at DePaul or elsewhere in order to ensure that their academic and financial affairs are in order (including any on-campus housing). All determinations as to the effect of a university-initiated temporary medical withdrawal or other alterations to the ability to fully participate in programs, services, or activities at DePaul will be made by the applicable offices in accordance with existing policies. If requested by the student, the Dean of Students Office can assist a student with facilitating conversations with appropriate offices as needed. This could include, for example, the possibility of a late withdrawal through the Late Withdrawal Process (https://offices.depaul.edu/student-affairs/support-services/academic/Pages/late-withdrawal-process.aspx).

**Appeal**

A student may appeal the determination of the Dean of Students Office that a university-initiated temporary medical withdrawal or other alterations to the ability to fully participate in programs, services, or activities at DePaul will begin, including aspects of the plan for return. A student has five (5) business days from the date on which the student was informed of the determination and plan to request this appeal.

A student may appeal on the following three grounds:

1. A substantial procedural error occurred that unreasonably impaired the student's ability to achieve a fair process or final decision and that made the process or final decision fundamentally unfair;
2. New information of substantive nature, impossible to have been considered at the time of the original determination, has been discovered and it would be fundamentally unfair not to consider the information; or
3. Aspects of the determination and/or plan for return are fundamentally unfair or inappropriate.

The student must submit their appeal to the Vice President for Student Affairs. In the appeal, the student should explain why one or more of these three grounds for appeal has been met. In reviewing the student's appeal, the Vice President for Student Affairs will review the information received from or on behalf of the student, and all other available information, including all information considered by the Dean of Students Office. If deemed necessary, the Vice President for Student Affairs may also speak further with the student or others to ask additional questions or otherwise collect additional information.

After review, the Vice President for Student Affairs will make a determination that:

1. The appeal is denied because none of the grounds for an appeal have been met. The determination and plan for return will remain as-is.
2. The appeal of the withdrawal determination is denied because none of the grounds for an appeal have been met, but the appeal of the plan for return is granted because one or more of the grounds for appeal have been met. The determination will remain as-is, but the plan for return will be modified; or
3. The appeal of the withdrawal determination is granted because one or more of the grounds for an appeal have been met. The university is no longer initiating a temporary medical withdrawal or other alterations to the ability to fully participate in the program, services, or activities at DePaul at this time.

DePaul will notify the student of the appeal determination in writing within five (5) business days of when the appeal is received. However, the university reserves the right to extend this time limit, in its sole discretion, in order to ensure a proper review of all relevant material. The university will provide the student with written notice of any extension.

The decision of the Vice President for Student Affairs is final.

If a student is no longer temporarily medically withdrawn, alterations to the ability to fully participate in programs, services, or activities at DePaul are no longer in place as the result of an appeal, or modifications are made to the plan for return the Dean of Students Office will work with the student to address any outstanding concerns on an individualized basis.

**Student’s Return to the University and Plan for Success**

A student is eligible to return to full participation in the programs, services, or activities at DePaul when the student’s individualized plan for return is successfully completed. If at any time a student believes that current circumstances have changed such that the individualized plan for return should be modified, the student should contact the Dean of Students Office to discuss that possibility. All modifications to a plan for return will be established in writing.

Students wishing to return to DePaul following a university-initiated temporary medical withdrawal must schedule a meeting with the Dean of Students Office to discuss the student's successful completion of the plan for return. In general, this meeting must be in-person. However, exceptions may be made at the discretion of the Dean of Students Office.

In addition to participating in this meeting in order to demonstrate their successful completion of the plan, students may also be asked to speak with others with particular subject-matter expertise as needed (for example, a counselor from University Counseling Services or a physician from DePaul Health Services) or may be asked to submit additional information or documentation. As appropriate, this could include a requirement that the student complete a release of information such that the Dean of Students Office may speak with a student’s qualified care providers or others, or review current medical documentation. All requests for information will be made as narrowly as possible in order to fulfill the need to consider whether a student has successfully completed the plan.

Based on all of the information available, the Dean of Students Office will make a determination as to whether the student has successfully completed the plan.

In order to continue to support the student, the Dean of Students Office may also work with the student to develop an on-going, individualized plan for student success and to provide for the student’s safe and successful enrollment and participation in the university’s programs, services or activities. Specific elements of the plan for student success could include, for example:

1. An on-going monitoring plan;
2. Consistent compliance with a recommended treatment plan;
3. Periodic conversation with the Dean of Students Office or others to discuss continued success;
4. Specific on-going behavioral expectations aligned with DePaul’s established policies and procedures, and designed to prevent or mitigate the behaviors that led to the university-initiated temporary medical withdrawal to the extent that the student is no longer demonstrating behavior consistent with the criteria listed above; and

5. Options for utilizing available resources and implementing reasonable accommodations to facilitate success.

This determination and any on-going plan for student success will be communicated to the student in writing.

The student may request a meeting with the Dean of Students Office to respond to the plan for success. If at any time a student believes that current circumstances have changed such that the plan for success should be modified, the student should contact the Dean of Students Office to discuss that possibility. All modifications to a plan for success will be established in writing.

All determinations as to whether the student has successfully completed the plan for return, as to whether a plan for return should be modified, as to an on-going plan for student success, as to whether a plan for success should be modified, and as to successful fulfillment of the on-going plan for student success will be made by the Dean of Students Office. These determinations are final.

Other Important Information Regarding This Process

Because conduct that gives rise to a university-initiated temporary medical withdrawal or alterations in a student’s ability to fully participate in certain programs, services, or activities at DePaul might also violate the Code of Student Responsibility, it is possible that a student who has successfully completed the plan for return might still not be eligible for return to full participation due to student conduct sanctions. Similarly, it is possible that a student who has satisfied all required student conduct sanctions might still not be eligible for return to full participation in programs, services, or activities at DePaul because of an inability to successfully complete the plan for return.

At any point during the university-initiated temporary medical withdrawal process, a student may decide to take a leave of absence or withdraw from DePaul for medical or other reasons pursuant to the Withdrawal policy. However, once a university-initiated temporary medical withdrawal process has begun, DePaul may make the determination that it is appropriate to develop a plan for return. In that instance, the procedures detailed in this process would apply.

DePaul may make such reasonable exceptions to the university-initiated temporary medical withdrawal process as circumstances may require for the welfare of the university and/or the involved student(s), provided that fundamental elements of fairness and due process are observed.

Student Care Team and Threat Assessment

DePaul University’s Student Care Team (SCT) is responsible for assessing and coordinating a response to a wide-range of concerns about students. The SCT also fulfills the role of the Campus Threat Assessment Team with respect to students (DePaul University Campus Violence Prevention Plan (https://offices.depaul.edu/public-safety/crime-reporting-prevention/Pages/campus-violence-prevention-plan.aspx)). The SCT is charged with proactively monitoring the University’s campus environment from a threat perspective, as well as providing leadership and coordinating the University’s response to critical incidents that affect individual students.

Members of the campus community are encouraged to report concerns about disturbing behavior exhibited by a DePaul student to the Dean of Students, Chair of the Student Care Team (SCT), as soon as possible. Whenever there is concern for immediate physical danger, individuals should call 911.

In general, the Dean of Students will review the information provided, involving the SCT as appropriate. Depending on the behavior, this review could include a threat assessment. Based on this review, the SCT will determine an appropriate, individualized, situation-specific response action plan. This could include case management, recommendations about behavioral intervention (either by the SCT or by another individual), and/or referrals to, or recommendations regarding, other University processes or supports. As circumstances warrant, these responses could happen simultaneously.

ACC 101 | INTRODUCTION TO ACCOUNTING I | 4 quarter hours
(Undergraduate)
Introduction to Accounting I provides an introduction to financial accounting as the means of recording, storing, and summarizing economic events of the business enterprise to meet external reporting needs. Emphasis is placed on the preparation and analysis of financial statements and other financial reports to the public based on the accounting equation, accrual accounting concepts, and data gathering techniques. Topics include corporate accounting for current and long-term assets and current liabilities, and the corporate income statement.

MAT 130 is a prerequisite for this class.

ACC 102 | INTRODUCTION TO ACCOUNTING II | 4 quarter hours
(Undergraduate)
Introduction to Accounting II, a companion and sequel course to Accounting 101, continues to explore basic accounting fundamentals and concepts. The course provides an introduction to managerial accounting and internal reporting. Topics include financial accounting for long-term liabilities, the components of stockholders' equity, the statement of cash flows, financial statement analysis, budgeting and variance analysis, job costing for the service sector and cost analysis for decision-making.

A grade of C- or better in ACC 101 is a prerequisite for this class.

ACC 250 | CAREER MANAGEMENT FOR ACCOUNTANTS | 2 quarter hours
(Undergraduate)
This course is designed to explore and manage the professional expectations and career potential of an accountancy major. Students will participate in hands-on resume building activities, practice interviews and apply research and evaluation skills to execute job search and career management strategies. Students will learn about Career Center resources and internship opportunities as ways to prepare for successful job searches and to maximize their potential for long term professional growth.

A grade of C- or better in ACC 102 is a prerequisite for this class.

ACC 303 | COST & MANAGERIAL ACCOUNTING | 4 quarter hours
(Undergraduate)
Managerial Accounting provides a thorough grounding in manufacturing accounting, cost allocation techniques, and the evaluation of management control systems. Students will examine manufacturing cost systems including job order costing, process costing, and activity-based costing. Tools for management control systems will be covered to enable the student to evaluate and compare various systems.

A grade of C- or better in ACC 102 is a prerequisite for this class.

ACC 304 | FINANCIAL REPORTING I | 4 quarter hours
(Undergraduate)
Financial Reporting I includes a study of U.S. and international accounting standards, the concepts of accounting and basic financial statements. Accounting for cash, receivables, inventories, depreciable assets and current liabilities will also be examined.

A grade of C- or better in ACC 102 is a prerequisite for this class.

ACC 305 | FINANCIAL REPORTING II | 4 quarter hours
(Undergraduate)
Financial Reporting II focuses on researching accounting issues, revenue recognition and financial statement analysis. The course also provides an understanding of complex issues such as accounting for investments, long term liabilities, derivatives, contributed capital, retained earnings and earnings per share.

A grade of C- or better in ACC 304 or ACC 307 is a prerequisite for this class.

ACC 306 | FINANCIAL REPORTING III | 4 quarter hours
(Undergraduate)
The third course in the financial accounting sequence, this course studies deferred taxes, pensions and other post-retirement benefits, leases, accounting changes and error analysis, statement of cashflows (advanced), and full disclosure, if time permits. Selected spreadsheet applications will be introduced through homework assignments.

A grade of C- or better in ACC 305 or ACC 309 is a prerequisite for this class.

ACC 307 | FINANCIAL REPORTING I FOR FINANCE HONORS STUDENTS | 4 quarter hours
(Undergraduate)
Advanced Financial Accounting focuses on accounting for multi-corporate entities and acquisitions, accounting for state and local governments, accounting for non-profit organizations, foreign operations, partnership accounting, and segment reporting. Selected spreadsheet applications will be introduced through homework assignments.

A grade of C- or better in ACC 305 or ACC 309 is a prerequisite for this class.
ACC 309 | FINANCIAL REPORTING II FOR FINANCE HONORS STUDENTS | 4 quarter hours (Undergraduate)

Financial Reporting II focuses on researching accounting issues, revenue recognition and financial statement analysis. The course also provides an understanding of complex issues such as accounting for investments, long term liabilities, derivatives, contributed capital, retained earnings and earnings per share.

A grade of C- or better in ACC 305 or ACC 309 is a prerequisite for this class.

ACC 350 | INFORMATION FOR DECISION MAKING | 4 quarter hours (Undergraduate)

Information for Decision-Making is typically the final course in the curriculum in Accountancy. It is the course in the program that most emphasizes research using the FASB Accounting Standards Codification and documenting research results. There is also a focus on written and oral communication as well as teamwork. More specifically, the course addresses the standard setting process in financial accounting as well as the role that the Securities and Exchange Commission fills in that process. In addition, current financial accounting topics are covered including revenue recognition, fair value measurement and disclosures, and earnings quality. The course also provides an introduction to International Financial Reporting Standards.

A grade of C- or better in ACC 305 or ACC 309 and a grade of C- or better in ACC 380 are prerequisites for this class.

ACC 370 | PROFESSIONAL RESPONSIBILITIES & BUSINESS LAW | 4 quarter hours (Undergraduate)

This course covers the aspects of the legal environment of special concern to accounting practitioners, including: the ethical standards of accounting practice, legal liability of accountants, contract law, property law, tort law, commercial paper, the laws of agency, sales laws, banking, agency, partnerships, corporations, trusts and wills, suretyships, secured transactions, bankruptcy, employment law, securities regulation, antitrust, and public regulation and disclosure laws.

A grade of C- or better in ACC 102 is a prerequisite for this class.

ACC 372 | AUDITING I | 4 quarter hours (Undergraduate)

Auditing I provides a conceptual introduction to the nature and value of financial statement audits. The course emphasizes the professional skepticism required of auditors in a changing ethical and legal environment including the Professional Ethics Rules and U.S. Securities laws. The course focuses on Generally Accepted Auditing Standards (GAAS) that address engagement planning and execution including systems of internal control, audit procedures, evidence, and reporting.

A grade of C- or better in ACC 305 or ACC 309 is a prerequisite for this class.

ACC 374 | AUDITING II | 4 quarter hours (Undergraduate)

Auditing II is a sequel to Auditing I (ACC 372). Auditing II builds upon the understanding and application of the Generally Accepted Auditing Standards (GAAS) Standards of Fieldwork to both analyze and evaluate audit procedures chosen and evidence obtained regarding classes of transactions and account balances. The course highlights common tools and techniques for planning and conducting audits including the use of sampling and data analysis when performing tests of controls and substantive tests.

A grade of C- or better in ACC 372 is a prerequisite for this class.

ACC 375 | FRAUD EXAMINATION AND FORENSIC AUDITING | 4 quarter hours (Undergraduate)

Fraud Examination and Forensic Accounting covers various aspects of fraud prevention and detection including the elements and costs of fraud, controls to prevent fraud, and methods of fraud detection. Guest speakers with expertise in fraud examination and forensic auditing play a significant role in this course including the presentation and use of an interactive, real-world fraud case.

A grade of C- or better in ACC 304 or ACC 307 is a prerequisite for this class.

ACC 376 | INTERNAL AUDITING | 4 quarter hours (Undergraduate)

Internal Auditing introduces a risk-based, process, and controls-focused internal audit approach. Topics include International Standards for the Professional Practice of Internal Auditing, internal control, corporate governance, risk assessment, evidence, audit documentation, and fraud risks. The course highlights the use of systems-based audit techniques and sampling. Professional ethics and emerging issues in the profession are discussed.

A grade of C- or better in ACC 102 is a prerequisite for this class.

ACC 380 | TAX TREATMENT OF INDIVIDUALS AND PROPERTY | 4 quarter hours (Undergraduate)

Tax Treatment of Individuals and Property covers the basic provisions of the Internal Revenue Code as they relate to the taxation of individuals. It focuses on concepts of gross income, exclusions, deductions, exemptions, and credits, as well as property transactions. It also includes tax research.

A grade of C- or better in ACC 304 or ACC 307 is a prerequisite for this class.

ACC 383 | TAX TREATMENT OF CORPORATIONS AND PARTNERSHIPS | 4 quarter hours (Undergraduate)

Tax Treatment of Corporations and Partnerships is a continuation of Accounting 380. The course covers the tax aspects of corporations and partnerships, including formation, operations, and distributions, as well as specially taxed corporations, ethics in tax practice, and an introduction to estate and gift taxation.

A grade of C- or better in ACC 380 is a prerequisite for this class.

ACC 393 | INTERNSHIP IN ACCOUNTANCY | 4 quarter hours (Undergraduate)

This course is designed for students who already have or will soon have a position in an accounting or accounting-related field. Internship in Accountancy provides students with academically supervised work experiences, improving linkages between classroom efforts and the business world. Students obtain valuable professional experience and begin the process of networking with area businesses and professionals.

A grade of C- or better in ACC 102 is a prerequisite for this class.

ACC 398 | SPECIAL TOPICS | 4 quarter hours (Undergraduate)

Special Topics courses provide in-depth study of current issues in accountancy. Content and format of this course is variable. Subject matter will be indicated in class schedule.

ACC 399 | INDEPENDENT STUDY | 4 quarter hours (Undergraduate)

Independent Study is available to students of demonstrated capability for intensive independent work in accountancy. (variable credit)
ACC 500 | FINANCIAL ACCOUNTING | 4 quarter hours (Graduate)
This introduction to financial accounting provides both a theoretical foundation and an opportunity to apply accounting logic in increasingly complex situations. The accounting model and information processing cycle are developed. The content of the income statement, balance sheet, and statement of cash flows are studied in detail and analyzed.
MS in Taxation and MSAA students are restricted from registering for this class.

ACC 505 | LANGUAGE AND BUSINESS CULTURE | 4 quarter hours (Graduate)
The objective of this course is to develop an understanding of how to be successful in the U.S., both academically and professionally. The course covers the concepts, methods and tools necessary to face the challenges of studying and working in the U.S. Students will improve their skills in oral communication, practical business writing, and delivering presentations. Students will also gain knowledge of the career search process. Recommended to be taken concurrently with ACC 500. Prerequisite: Approval of college office or department.

ACC 516 | APPLIED STATISTICS FOR ACCOUNTANTS | 4 quarter hours (Graduate)
This course is a statistical overview of concepts taught in elementary and intermediate statistics classes but with more emphasis on understanding and interpretation of outcomes and findings. Report writing, article critiquing as well as team projects will be utilized. This course will cover general selected general statistics including basic sample descriptive, categorical data analysis including odds and risk ratios, estimation and hypothesis testing and basic regression and ANOVA technique. Logistic regression will also be covered. The course will emphasize data analytics and data projects.

ACC 535 | PRINCIPLES OF ACCOUNTING INFORMATION SYSTEMS | 4 quarter hours (Graduate)
This course is designed to provide future accounting and business professionals with knowledge and practice about accounting information systems and their role in accounting functions and financial decision making. It will enable the student to interface with accounting systems, and to participate in their design and audit. It will focus on the nature and flows of accounting information in organizations, security and internal controls and the use of information technology in accounting information systems and decision-making. The student will be able to evaluate internal control in information systems and design controls to mitigate risks associated with information systems.
ACC 500 is a prerequisite for this course

ACC 541 | FINANCIAL ACCOUNTING THEORY & PRACTICE I | 4 quarter hours (Graduate)
Intermediate theory and preparation of financial statements; review of accounting concepts and development of accounting models; methods and problems in valuation and reporting; with emphasis on current assets and liabilities, property, plant and equipment, and intangibles, review of relevant authoritative literature.
ACC 500 is a prerequisite for this class.

ACC 542 | COST AND MANAGERIAL ACCOUNTING | 4 quarter hours (Graduate)
Introduction to cost and managerial concepts and techniques. Topics include cost accumulation (job, process, standard costing, and activity-based costing), cost behavior, breakeven analysis, budgeting, contribution approach to income measurement, joint and by-product costing, cost allocation methods, and their relevance for decision-making.
ACC 500 is a prerequisite for this class.

ACC 543 | FINANCIAL ACCOUNTING THEORY & PRACTICE II | 4 quarter hours (Graduate)
Continuation of intermediate theory and financial statement preparation with emphasis on the components of stockholder’s equity; special problems such as earnings per share, accounting changes, income taxes, derivatives, and statement of cash flows; review of relevant authoritative literature and interpretation of financial statements.
ACC 541 is a prerequisite for this class.

ACC 545 | ADVANCED TOPICS IN ACCOUNTING THEORY | 4 quarter hours (Graduate)
This course is designed to provide comprehensive coverage of the following: consolidations, partnership accounting, foreign operations and not-for-profit accounting. Coverage of the topics emphasizes both theory and practice. Mastery of the material is obtained through problem-solving situations.
ACC 543 is a prerequisite for this class.

ACC 547 | TAX TREATMENT OF INDIVIDUALS AND PROPERTY TRANSACTIONS | 4 quarter hours (Graduate)
This course provides detailed coverage of the federal income tax treatment of individual taxpayers. It includes coverage of inclusions, exclusions, deductions, credits, rates of taxation, special tax computations and the tax aspects of property transactions. It also includes tax research.
ACC 541 is a prerequisite for this class.

ACC 550 | AUDITING II | 4 quarter hours (Graduate)
Auditing II is a sequel to Auditing I (ACC 547). Auditing II builds upon the understanding and application of the Generally Accepted Auditing Standards (GAAS) that address engagement planning and execution including systems of internal control, audit procedures, evidence, and reporting.
ACC 500, or equivalent, is a prerequisite for this course

ACC 548 | TAX TREATMENT OF INDIVIDUALS AND PROPERTY TRANSACTIONS | 4 quarter hours (Graduate)
This course provides detailed coverage of the federal income tax treatment of individual taxpayers. It includes coverage of inclusions, exclusions, deductions, credits, rates of taxation, special tax computations and the tax aspects of property transactions. It also includes tax research.
ACC 541 is a prerequisite for this class.

ACC 550 | AUDITING II | 4 quarter hours (Graduate)
Auditing II is a sequel to Auditing I (ACC 547). Auditing II builds upon the understanding and application of the Generally Accepted Auditing Standards (GAAS) that address engagement planning and execution including systems of internal control, audit procedures, evidence, and reporting.
ACC 541 is a prerequisite for this class.
ACC 551 | TAX TREATMENT OF CORPORATIONS AND PARTNERSHIPS | 4 quarter hours
(Graduate)
This course covers the federal income tax treatment of corporations and partnerships. It includes ethics in tax practice and an exposure to estate and gift taxation.
ACC 548 is a prerequisite for this class.

ACC 552 | BUSINESS LAW FOR ACCOUNTANTS | 4 quarter hours
(Graduate)
This course covers the aspects of the legal environment of special concern to accounting practitioners, including: the ethical standards of accounting practice, legal liability of accountants, contract law, property law, tort law, commercial paper, the laws of agency, sales laws, banking, agency, partnerships, corporations, trusts and wills, suretyships, secured transactions, bankruptcy, employment law, securities regulation, antitrust, and public regulation and disclosure laws. Formerly "Legal and Ethical Environment of Accounting Practice".
Not Available to MST Students

ACC 554 | MANAGEMENT ACCOUNTING AND CONTROL | 2 quarter hours
(Graduate)
This course provides students with a conceptual understanding of basic cost management and managerial accounting knowledge and skills. Topics include cost behavior, cost-volume-profit analysis, cost accounting systems, budgeting paper, the costs of agency, sales laws, banking, agency, partnerships, corporations, trusts and wills, suretyships, secured transactions, bankruptcy, employment law, securities regulation, antitrust, and public regulation and disclosure laws. Formerly "Legal and Ethical Environment of Accounting Practice".

ACC 500 is a prerequisite for this class. This class is not available for MACC, MSACC or MST students.

ACC 555 | MANAGEMENT ACCOUNTING FOR DECISION-MAKING | 4 quarter hours
(Graduate)
This course addresses the financial, nonfinancial & ethical dimensions of decision-making. It provides students with a conceptual understanding of cost management and managerial accounting skills. Topics include cost behavior, cost-volume-profit analysis, cost systems, budgeting and control and decision-making. Emphasis is on the interpretation & use of accounting information rather than its creation & accumulation. (2 quarter hours)
ACC 500 is a prerequisite for this class. This class is not available for MACC, MSACC or MST students.

ACC 556 | MANAGEMENT ACCOUNTING AND CONTROL | 4 quarter hours
(Graduate)
This course provides students with a conceptual understanding of basic cost management and managerial accounting knowledge and skills. Topics include cost behavior, cost-volume-profit analysis, cost accounting systems, budgeting paper, the costs of agency, sales laws, banking, agency, partnerships, corporations, trusts and wills, suretyships, secured transactions, bankruptcy, employment law, securities regulation, antitrust, and public regulation and disclosure laws. Formerly "Legal and Ethical Environment of Accounting Practice".

ACC 500 is a prerequisite for this class. This class is not available for MACC, MSACC or MST students.

ACC 557 | GLOBAL STRATEGIC FINANCIAL ANALYSIS | 4 quarter hours
(Graduate)
This course concentrates on each student's own career goals by focusing on cases of well-known financial successes and failures in the global business world. It enables students to become intelligent users (readers) of financial reporting in a global environment. Students will learn to identify key relationships in the statements to strategy of high performance companies and to make critical judgments underlying the elements and valuations in the financial statements. Students will study integrated reporting, corporate governance, and sustainability accounting. The course is a useful elective for MSA, MACC and MBA programs.
ACC 500, or equivalent, is a prerequisite for this course

ACC 558 | TAX RESEARCH | 4 quarter hours
(Graduate)
This course examines sources of tax law used during a tax research project by making use of the Internal Revenue Code, Treasury Regulations, Treasury Rulings and Administrative Pronouncements, Judicial Decisions, and other sources. Students examine the weight of authority of each source of tax law and the structure of databases used by tax professionals to build a conclusion to the tax issue being researched.
ACC 548 is a prerequisite for this class.

ACC 559 | TAXATION OF CORPORATIONS AND SHAREHOLDERS | 4 quarter hours
(Graduate)
Study of federal income taxation of corporations and shareholders with emphasis on transactions between the corporation and its shareholders. Topics include corporate formations, nonliquidating distributions to shareholders, stock redemptions, and corporate liquidations. NOTE: This is a M.S.T. course.
ACC 558 is a prerequisite for this class.

ACC 560 | TAXATION OF CORPORATIONS AND SHAREHOLDERS | 4 quarter hours
(Graduate)
This is a M.S.T. course.

ACC 561 | CORPORATE REORGANIZATIONS | 4 quarter hours
(Graduate)
Federal income tax implications of transfers of stock, securities and property in connection with corporate acquisitions, combinations and separations. This course is mainly concerned with the tax consequences to corporate parties, to reorganizations and to their shareholders. Emphasis is given to determining the taxability of transactions and asserting the availability of tax attributes to successors in interest. NOTE: This is a M.S.T. course.
ACC 560 is a prerequisite for this class.

ACC 562 | CONSOLIDATED RETURNS | 4 quarter hours
(Graduate)
This course deals with the principles and mechanics of tax consolidations including eligibility, intercompany transactions, inventory adjustments, basis of subsidiary stock, limitations on net operating losses, earnings and profits, unified loss rule and circular basis. NOTE: This is a M.S.T. course.
ACC 560 is a prerequisite for this class.

ACC 563 | PARTNERSHIPS | 4 quarter hours
(Graduate)
This is a M.S.T. course.

ACC 564 | TRANSACTIONS IN PROPERTY | 4 quarter hours
(Graduate)
An in-depth analysis of the federal income tax rules governing partners and partnerships. This course will take the student through the life cycle of a partnership that includes the formation of a partnership, allocation of operations, and liquidation. Some of the topics covered include the study of the aggregate and entity theories, application and importance of IRC 704(b) & 704(c), as well as the allocation of liabilities to partners. NOTE: This is a M.S.T. course.
ACC 551 and ACC 558 are prerequisites for this class.

ACC 565 | TAX RESEARCH | 4 quarter hours
(Graduate)
This course is concerned mainly with the federal income tax implications of gains and losses derived from sales and other dispositions of property. Emphasis will be given to the determination and recognition of gain or loss, character of gain or loss (capital or ordinary), basis and holding period. NOTE: This is a M.S.T. course.
ACC 551 is a prerequisite for this class.
ACC 555 | TAX ACCOUNTING, PERIODS, AND METHODS | 4 quarter hours  
(Graduate)  
This course deals with federal income tax planning as to determination of the proper periods for reporting income and deductions, overall methods of tax accounting and special elections available to taxpayers. Topics include the installment method, accounting method changes, accrual method, cash method, FIFO, LIFO and accounting periods. NOTE: This is a M.S.T. course.  
ACC 551 is a prerequisite for this class.

ACC 556 | FEDERAL INCOME TAX PROCEDURES | 4 quarter hours  
(Graduate)  
A study of the procedures which must be followed when dealing with the Internal Revenue Service and possible alternative courses of action. Included are such topics as the organization of the Internal Revenue Service, filing requirements, refund claims, closing agreements, examination procedures, protests, assessment, payment and collection of tax, statute of limitations, interest and penalties. NOTE: This is a M.S.T. course.  
ACC 551 is a prerequisite for this class.

ACC 557 | INTERNATIONAL ASPECTS OF U.S. TAXATION | 4 quarter hours  
(Graduate)  
Provides conceptual and practical framework of the US federal taxation of international activities for both US and non US businesses. For foreign persons, includes treatment of passive, active and land-owning activities including withholding taxes and disclosures. For US persons, includes treatment of sourcing and expense allocation, foreign income, the anti-deferral rules, and the foreign tax credit mechanism. Includes the impact of intergovernmental double tax treaties including dispute resolution mechanisms, filings and the state tax treatment of foreign income.  
ACC 551 and ACC 558 are prerequisites for this class.

ACC 558 | TAXATION OF CLOSELY HELD CORPORATIONS | 4 quarter hours  
(Graduate)  
This course deals with federal income tax planning in connection with the accumulated earnings tax, personal holding companies, S corporations, multiple corporations, transactions between related parties and small business corporation stock. NOTE: This is a M.S.T. course.  
ACC 555 and ACC 560 are prerequisites for this class.

ACC 559 | CONCEPTS OF DEFERRED COMPENSATION | 4 quarter hours  
(Graduate)  
The nature, purpose and operation of the various forms of deferred compensation are examined and evaluated: employee pension; profit sharing and stock bonus plans, stock options; executive compensation plans; retirement plans for self-employed individuals; other plans. NOTE: This is a M.S.T. course.  
ACC 551 and ACC 558 are prerequisites for this class.

ACC 560 | TAXATION OF ESTATES AND GIFT TAXATION | 4 quarter hours  
(Graduate)  
This course consists of a detailed review of the federal estate tax, gift tax and generation-skipping tax laws. In the area of estate taxation, assets included in the gross estate, deductions allowed, and credits permitted are analyzed under the relevant statutes, regulations and cases. The taxation of gifts, the application of gift tax deductions, and the application of gift tax exclusions are covered. The taxation of generation-skipping transfers and the GST exemption allocations rules are analyzed. Valuation issues are discussed at length. Illinois estate tax issues are reviewed in detail. Basis consistency rules are discussed. The basic rules under EGTRRA are briefly mentioned. NOTE: This is a M.S.T. course.  
ACC 551 is a prerequisite for this class.

ACC 561 | STATE AND LOCAL INCOME AND FRANCHISE TAXATION | 4 quarter hours  
(Graduate)  
This course focuses on concepts of property and sales taxation, but will survey other state and local transaction taxes, including excise taxes, utility taxes, fuel taxes and escheat statutes. Property tax concepts include the fundamentals of the property tax process, distinctions between real and personal property valuation theory and approaches and practical means by which taxpayers can challenge their assessments and ensure fair taxation. NOTE: This is a M.S.T. course.  
ACC 551 is a prerequisite for this class.

ACC 562 | FEDERAL INCOME TAX ACCOUNTING, PERIODS, AND METHODS | 4 quarter hours  
(Graduate)  
This course identifies and examines the types of income and capital stock taxes imposed on corporations and pass-through entities by state governments. Topics include nexus and the impact of P.L. 86-272, conformity to the Internal Revenue Code, modifications to federal taxable income, business and nonbusiness income, methods of reporting, and allocation and apportionment and current developments. NOTE: This is a M.S.T. course.  
ACC 551 is a prerequisite for this class.
ACC 580 | ACCOUNTING FOR INCOME TAXES | 4 quarter hours
Graduate
Covers the financial accounting and reporting standards for the effects of income taxes that result from corporate activities. Topics include computation of current and deferred tax expense or benefit, temporary differences, carry-forwards, computation of deferred tax assets and liabilities, valuation allowances, business combinations, investments in subsidiaries and equity method investments, presentation and disclosure, and implementation of accounting for uncertainty in income taxes under FIN 48.
ACC 551 is a prerequisite for this class.

ACC 581 | TAXATION OF REAL ESTATE | 4 quarter hours
Graduate
An in-depth study of federal income taxation as it relates to real estate, including current issues and planning possibilities. Topics include consequences of acquisition and disposition, real estate development, leasing, mortgages and other financing devices and forms of ownership of real estate. NOTE: This is a M.S.T. course.
ACC 551 is a prerequisite for this class.

ACC 582 | ADVANCED CONCEPTS IN INTERNATIONAL TAXATION | 4 quarter hours
Graduate
Designed as a companion to ACC567, this course delves deeper into selected topics of the US federal treatment of international activities: treatment of cross border transactions; transfers of property from the US; the taxation of foreign currency gains and losses; BEAT; FATCA and the branch profits tax regimes. Seminars cover mergers and acquisitions, Value Added Taxes and the OECD’s BEPS project.
ACC 567 is a prerequisite for this class.

ACC 583 | FUNDAMENTALS OF TRANSFER PRICING IN BUSINESS | 4 quarter hours
Graduate
Transfer pricing has become a critical business and tax issue for multinational corporations (MNCs). This course will examine how transfer pricing plays an important role in MNCs decisions on supply chain management, tax planning, intellectual property ownership and management incentives. Rather than focusing from just a strict accounting or tax perspective, this course will view transfer pricing from a business managers perspective using basic undergraduate concepts from accounting and economics. Through a combination of readings and case studies, students will learn the basics of US and foreign tax rules governing transfer pricing, common issues faces by MNCs in the areas listed above and an overview of more advanced transfer pricing topics.
ACC 560 is a prerequisite for this class.

ACC 590 | WRITING FOR TAX PROFESSIONALS | 2 quarter hours
Graduate
Writing for Tax Professionals focuses on developing skills to transform the results of tax research into a tax research memorandum and a client letter. This course provides a series of exercises that build skills in analyzing primary sources, applying rules and court holdings to fact patterns, and communicating this tax analysis into written documents. Throughout the course, you will write and receive feedback on your writing. The final assignment will incorporate the earlier writing exercises into a tax research memorandum and an accompanying client letter.
ACC 558 is a prerequisite for this class.

ACC 591 | TAX EXEMPT ORGANIZATIONS | 4 quarter hours
Graduate
Tax treatment of public charities and private foundations. The way exempt status is secured and retained, qualified exemptions, unrelated business income, the loss of exemption, prohibited transactions, deductibility of contributions and required reporting and auditing.
ACC 551 is a prerequisite for this class.

ACC 592 | FEDERAL INCOME TAX OF INDIVIDUALS | 4 quarter hours
Graduate
This course provides a comprehensive in depth study of the Federal income tax system as it applies to individual taxpayers. This course will focus on the components of gross income, adjustments to arrive at adjusted gross income, deductions and exemptions, tax rates and filing status, and tax credits that apply to individual taxpayers. This course will review the specific provisions of interest to employees, entrepreneurs, investors, and retirees.
ACC 546 is a prerequisite for this class.

ACC 593 | OVERVIEW OF TRANSFER PLANNING FOR WEALTH MANAGEMENT | 4 quarter hours
Graduate
This course introduces students to an overview of the transfer tax system from a financial planning perspective. The course will be divided into four areas of concentration: (1) transfer tax, (2) property law, (3) estate planning, and (4) insurance, charitable and retirement topics. The objective of the course is to analyze how each of the above areas of concentration impact the financial planning process.
Not Available to MST Students

ACC 594 | FAMILY OFFICE AND MULTIGENERATIONAL PLANNING | 4 quarter hours
Graduate
This course will involve a survey of the planning and structuring issues that high net worth families address when managing wealth for multiple generations. The course will be facilitated by one or two instructors who will direct eight different expert guest lecturers in the wealth management field. The topics include: introduction and review of federal wealth transfer tax concepts; generation-skipping transfer tax and structuring dynastic entities; charitable gifts and foundations utilized in large families; management and dispositions of family business and closely held entities; asset protection planning: domestic and international; international estate planning: offshore trusts and entities; creating and administering a family office; family governance, wealth education and private trust companies.
ACC 551 and ACC 592 are prerequisites for this class.

ACC 598 | SEMINAR ON CURRENT PROBLEMS IN TAXATION | 4 quarter hours
Graduate
Covers recent significant developments in the future of legislation, regulations, administrative rulings and case law on federal income, estate and gift taxation. Emphasis is placed on specific tax planning in light of these current developments. Topics are discussed against background of leading Supreme Court cases. Recommended as final tax course in M.S.T. program.
ACC 560, ACC 565 and ACC 566 and completion of 32 units of credit are prerequisites for this class.
ACC 615 | APPLIED STATISTICS FOR ACCOUNTANTS | 4 quarter hours (Graduate)
This course is a statistical overview of concepts taught in elementary and intermediate statistics classes but with more emphasis on understanding and interpretation of outcomes and findings. Report writing, article critiquing as well as team projects will be utilized. This course will cover general selected general statistics including basic sample descriptives, categorical data analysis including odds and risk ratios, estimation and hypothesis testing and basic regression and ANOVA technique. Logistic regression will also be covered. The course will emphasize data analytics and data projects.

ACC 635 | PRINCIPLES OF FORENSIC ACCOUNTING | 4 quarter hours (Graduate)
This course will focus on fraud principles that relate to asset misappropriations, corruption and fraudulent financial statements. Emphasis will be on examination, review, and analysis of a variety of fraud schemes, including discussion of investigative strategies and controls used to detect and prevent the impact fraud has on an organization.

ACC 636 | INTERNAL AUDITING, CORPORATE GOVERNANCE AND INTERNAL CONTROL | 4 quarter hours (Graduate)
This course addresses the overall role that internal audit plays as a critical part of an organization's control and governance structure. The course includes a case that incorporates the complete internal audit process for a hypothetical company, including identification of risk, planning, execution of fieldwork and reporting. This course also covers the strategic role and operations of an internal audit function from three key perspectives; the Chief Audit Executive, the chair of the audit committee, and the CEO or CFO. The relative roles and relationships with the organization’s external auditor and the organization’s risk and control functions are also addressed.

ACC 500 is a prerequisite for this class.

ACC 637 | DATA MINING AND ANALYTICS | 4 quarter hours (Graduate)
This course introduces students to the field of data mining and data analytics, which has been defined as the extensive use of data, statistical and quantitative analysis, and exploratory and predictive models to drive decisions and actions. With an emphasis on hands-on problem solving capabilities, this course further develops students’ analytics mindset and data-driven decision skills.

ACC 535 and ACC 615 are prerequisites for this course.

ACC 638 | ADVANCED IT AUDITING | 4 quarter hours (Graduate)
This course prepares students to understand and assess the sources IT risks and conduct IT audits by examining the key principles behind the auditing of IT processes. The course has a focus on gaining hands-on experience in analyzing and assessing IT risks and controls. The effective management of Information Technology (IT) assets in order to meet business objectives and of IT-related business risks is of critical importance to organizations today. The application of the COBIT framework and other professional IT audit standards is emphasized.

ACC 500 is a prerequisite for this course.

ACC 639 | AUDIT ANALYTICS | 4 quarter hours (Graduate)
The course will familiarize students with basic audit analytics knowledge, skills and tools, and expose students to real world audit analytics related issues and potential solutions. With an emphasis on hands-on problem solving capabilities, this course attempts to develop students’ analytics mindset in the context of auditing by using CaseWare IDEA.

ACC 535 and ACC 615 are prerequisites for this course.

ACC 640 | ACCOUNTING THEORY AND POLICY FORMULATION | 4 quarter hours (Graduate)
A study of the process by which accounting policies are formulated. The students are asked to make critical evaluations of basic issues such as income determination and current issues such as FASB agenda items in light of their theoretical, empirical, practical and political aspects. Students are expected to demonstrate an ability to use the accounting research literature. Students should plan to take this capstone course at the end of their degree program. This course is intended to be taken toward the end of the MSA program.

ACC 543 and ACC 548 are prerequisites for this class.

ACC 645 | FORENSIC AND INVESTIGATIVE ACCOUNTING | 4 quarter hours (Graduate)
This course focuses the human element of accounting-based fraud. The course covers interpersonal skills such as the psychology of those who commit crimes, reading people and places, handwriting analysis, and discourse analysis. It also includes technical skills such as net worth analysis, expert witnessing, and the writing of expert reports. The course is delivered using hands-on experience in a case-based setting.

ACC 635 is a prerequisite for this course.

ACC 646 | FORENSIC FINANCIAL STATEMENT ANALYSIS AND VALUATION | 4 quarter hours (Graduate)
This course focuses on financial statement fraud. Skills taught in this course include using financial statement analysis to detect fraud in financial statements, and valuation skills that can be used to value both public and private firms in cases of shareholder and partnership disputes, divorce cases etc. Students are given a chance to use these skills to detect and investigate fraud within a company’s financial statements.

ACC 635 is a prerequisite for this course.

ACC 690 | GRADUATE INTERNSHIP | 4 quarter hours (Graduate)
Technical knowledge acquired in the classroom is applied in an actual business environment through varied assignments under supervision in industry, government or public accounting. Offered variably.

ACC 798 | SPECIAL TOPICS | 4 quarter hours (Graduate)
Content and format of this course are variable. An in-depth study of current issues in accountancy. Subject matter will be indicated in class schedule. Offered variably.

ACC 799 | INDEPENDENT STUDY | 4 quarter hours (Graduate)
Available for graduate students of demonstrated capability for intensive independent work in accountancy.
Administration & Supervision (A&S)

A&S 491 | EFFECTIVE LEADERSHIP OF SCHOOLS | 4 quarter hours (Graduate)
This course introduces students to the research base of organizational theory, the politics of education, and foundations of building level instructional leadership. Multiple theories are examined in light of the students' experience in educational settings. This examination of theory in light of experience provides the students with a framework for analyzing both familiar educational institutions and the theories that support educational institutions. Through a study of administrative and organizational theory using those settings with which students are most familiar, students will become more reflective of the theoretical base that will inform their future practice as administrators.

Status as an Advanced Masters Education student or a Principal or Catholic School Principal (Licensure) student is a prerequisite for this class.

A&S 492 | THE PRINCIPALSHIP | 4 quarter hours (Graduate)
This course provides students with the tools needed to enter into a Pre-K-12 school setting and function effectively. Topics included in this course include: scheduling; managing resources; technology; issues of working with students and teachers; maintaining a safe and effective learning environment.

Status as an Advanced Masters Education student or a Principal or Catholic School Principal (Licensure) student is a prerequisite for this class.

A&S 493 | DATA DRIVEN DECISION MAKING | 4 quarter hours (Graduate)
This course provides future administrators with the tools they need to critically examine demographic, financial, personnel and testing data and to use the insights gained in making well informed administrative decisions.

Status as an Advanced Masters Education student or a Principal or Catholic School Principal (Licensure) student is a prerequisite for this class.

A&S 494 | SCHOOL FINANCE | 4 quarter hours (Graduate)
Major consideration will be given to problems relating to the preparing of a school budget, procuring revenue, financial accounting, capital outlays, insurance on property, taking of inventory, and the social and political implications of how schools are financed.

Status as an Advanced Masters Education student or a Principal or Catholic School Principal (Licensure) student is a prerequisite for this class.

A&S 495 | SCHOOL LAW | 4 quarter hours (Graduate)
Authority, powers and liability of school personnel; rights and status of students; character of districts and school board control of curriculum, school property, finances. Special emphasis on recent state and federal court decisions as they affect Illinois and neighboring states.

Status as an Advanced Masters Education student or a Principal or Catholic School Principal (Licensure) student is a prerequisite for this class.

A&S 496 | STAKEHOLDER RELATIONSHIPS | 4 quarter hours (Graduate)
This course draws on the literature about constructive conflict resolution and partnership building to address the important, inevitable, and sometimes stormy relationships among various education stakeholders both inside and outside of the school building. Educational administrators cannot fire tenured teachers, angry parents, or zealous community organizers. Thus, they must learn the paradigms and tools to not only resolve the inevitable conflicts that arise with these stakeholders but also to be able to work with them as key strategic partners.

Status as an Advanced Masters Education student or a Principal or Catholic School Principal (Licensure) student is a prerequisite for this class.

A&S 498 | INSTRUCTIONAL SUPERVISION AND SUPPORT | 4 quarter hours (Graduate)
Instructional Supervision is examined from the perspective of both student and teacher learning, dealing with issues such as motivation, responsibility and increased proficiency. This course deals with issues of teacher observation and evaluation; clinical supervision; and professional development programming.

Status as an Advanced Masters Education student or a Principal or Catholic School Principal (Licensure) student is a prerequisite for this class.

A&S 499 | PLANNING FOR PROFESSIONAL DEVELOPMENT | 4 quarter hours (Graduate)
This course introduces students to the dynamics of adult learning and how to apply these learning theories to the development of meaningful professional development for teachers and adult staff that enhances student success. Goals: (1) Developing skills and developing a comprehensive plan for professional development, (2) Addressing the challenges of adult learners, (3) Developing mentoring and coaching skills, (4) Developing and understanding the importance of assessment and reflection.

A&S 570 | HISTORICAL, PHILOSOPHICAL AND THEOLOGICAL FOUNDATIONS OF CATHOLIC SCHOOL LEADERSHIP | 4 quarter hours (Graduate)
A survey of the history of Catholic K-12 education in the United States and the foundational documents of Catholic Education. Students will examine the history and philosophical/theological foundation of Catholic Schools in the United States and will be asked to reflect on the nature and mission of Catholic education in the multicultural, multiethnic milieu of Twenty-first Century America.

Status as an Advanced Masters Education student or a Principal or Catholic School Principal (Licensure) student is a prerequisite for this class.
A&S 571 | SPIRITUAL AND ADMINISTRATIVE LEADERSHIP IN CATHOLIC SCHOOLS | 4 quarter hours
(Graduate)
Students will be asked to conceptualize leadership from the Transformational and Servant Leadership perspectives. Using these principles, students will examine the spirituality of Catholic School leadership, and its implications for them in their role as ministers and coordinators of ministries in the school setting. Students will then examine the unique administrative and managerial factors that impact Catholic schools from a leadership framework that is imbued with the spirituality of Servant Leadership.
Status as an Advanced Masters Education student or a Principal or Catholic School Principal (Licensure) student is a prerequisite for this class.

A&S 588 | SERVICE LEARNING FOR HIGHER EDUCATION | 4 quarter hours
(Graduate)
This course is a hands-on, minds-on engagement in the practice and theory of service learning - the integration of community service and related academic study. Students will assist a service-learning program with planning, implementation or evaluation and integrate this experience with study of current practice, theory and research. Students who plan careers in higher education will find this useful in light of the increased commitment to providing service-learning opportunities on campuses. Many student services and other higher education positions include the need to offer leadership to these programs.

A&S 590 | ORGANIZATIONAL DEVELOPMENT | 4 quarter hours
(Graduate)
A development approach used in combining theory, research, and applications for improving interpersonal effectiveness and to develop problem-solving capacity of the organization. The course is about change theory, people in organizations and the achievement of individual and organizational goals.
Status as a Graduate Education student is a prerequisite for this class.

A&S 591 | RESEARCH SEMINAR IN EDUCATIONAL LEADERSHIP | 4 quarter hours
(Graduate)
This course is designed to help graduate students in Educational Leadership through the process of planning, organizing, drafting, and revising their Master's papers. Students will be expected to complete a literature review and to develop a strong proposal for an integrative paper as a prelude to selecting an advisor for their Master's papers.
Status as a Graduate Education student is a prerequisite for this class.

A&S 593 | PRACTICUM IN EDUCATIONAL LEADERSHIP | 4 quarter hours
(Graduate)
The practicum provides opportunities for advanced students in administration and supervision to participate in and complete a research project in selected organizations on a full-time or part-time basis. The experiences are intended to provide, under professional direction and supervision for (1) study of plans, policies, and problems for administration and supervision, and (2) intensive study of certain critical administrative and supervisory practices.
Status as a Graduate Education student is a prerequisite for this class.

A&S 594 | INTERNSHIP IN EDUCATIONAL LEADERSHIP | 4 quarter hours
(Graduate)
The internship provides supervised experiences in selected organizations on a full-time or part-time basis. The student intern is cooperatively assigned to an organization under the immediate supervision of organizational personnel. The experiences provided are designed to enrich the student's theoretical background with practical opportunities of participating in (1) overall contact with personnel and with the major functions and problems of certain critical administrative and/or supervisory activities, and (2) a detailed study and analysis of a particular administrative and/or supervisory function or activity.
Status as an Advanced Masters Education student or a Principal or Catholic School Principal (Licensure) student is a prerequisite for this class.

A&S 595 | WORKSHOP IN EDUCATIONAL LEADERSHIP | 4 quarter hours
(Graduate)
Topics of particular interest and concern to administrators and supervisors will be presented in a high-involvement seminar format. Primary reliance will be on written materials; however, audio-visual and role-playing mechanisms may also be used.
Status as a Graduate Education student is a prerequisite for this class.

A&S 596 | HUMAN RESOURCE MANAGEMENT | 4 quarter hours
(Graduate)
Theory, practice and relevant research in modern personnel administration. Recruitment, staff-development, interviewing, collective bargaining, conflict resolution and employee evaluation are emphasized.

A&S 597 | POLITICS OF EDUCATION | 4 quarter hours
(Graduate)
Policy development in education as a political process; community power, state and national politics in educational decision-making and the role of leadership and pressure groups in the shaping of educational policy at local, state and national levels.

A&S 598 | INDEPENDENT STUDY IN EDUCATIONAL LEADERSHIP | 4 quarter hours
(Graduate)
Independent study. Permission of instructor, department chair and Associate Dean are required.
Status as a Graduate Education student is a prerequisite for this class.

A&S 599 | THESIS SEMINAR IN EDUCATIONAL LEADERSHIP | 4 quarter hours
(Graduate)
A student writing a thesis registers for this course for four quarter hours of credit. When the thesis research and the writing of the thesis itself are prolonged beyond the usual time, the program advisor may require the student to register for additional credit.

SCG 410, thesis, advanced Mast

A&S 600 | REGISTERED STUDENT IN GOOD STANDING | 0 quarter hour
(Graduate)
Registration in this course is open to students who are not registered for any other courses but need to complete requirements/assignments for previously taken courses. It provides access to University facilities. Permission of advisor required (0 credit hours).
Status as a Graduate Education student is a prerequisite for this class.
A&S 601 | INTRODUCTION TO THE INTERNSHIP | 0 quarter hour
(Graduate)
This course prepares the candidate for the internship experience. It provides an opportunity to examine and analyze the internship site, become familiar with the roles and responsibilities for person in the internship triad and understand expectations for the intern. (0 credit hours).

A&S 602 | PRINCIPAL LICENSURE INTERNSHIP I | 2 quarter hours
(Graduate)
This internship experience immerses the student into the world of the instructional leader in the contemporary Pre K-8th school setting. The student is to complete at minimum 100 clock hours of instructional leadership experiences in the Pre-K8 setting by participating and taking the lead in concrete sustained leadership experiences under the supervision of both the building's principal (mentor) and the faculty supervisor (2 credit hours).

Status as an Advanced Masters Education student or a Principal or Catholic School Principal (Licensure) student is a prerequisite for this class.

A&S 603 | PRINCIPAL LICENSURE INTERNSHIP II | 2 quarter hours
(Graduate)
This internship experience immerses the student into the world of the instructional leader in the contemporary 9-12 school setting. The student is to complete at minimum 100 clock hours of instructional leadership experiences in the 9-12 setting by participating and taking the lead in concrete sustained leadership experiences under the supervision of both the building's principal (mentor) and the faculty supervisor. (2 credit hours)

Status as an Advanced Masters Education student or a Principal or Catholic School Principal (Licensure) student is a prerequisite for this class.

A&S 604 | PRINCIPAL LICENSURE INTERNSHIP | 4 quarter hours
(Graduate)
This internship experience immerses students in the world of an instructional leader in contemporary Pre-K-12 school setting. In this year long course students will complete at minimum 100 clock hours of instructional leadership experiences in a Pre-K setting and 100 clock hours of instructional leadership in a 9-12 setting by participating and taking the lead in concrete sustained leadership experiences under the supervision of both the building's principal (mentor) and their faculty supervisor. Prior to immersing students in their internship experience, students will attend 4 seminars and are provided an opportunity to examine and analyze their internship site, to become familiar with their roles and responsibilities and understand the internship site's expectations.

Status as an Advanced Masters Education student or a Principal or Catholic School Principal (Licensure) student is a prerequisite for this class.

A&S 606 | REVIEW OF LITERATURE | 0 quarter hour
(Graduate)
This paper will give students the opportunity to develop and demonstrate written competence in a subfield of their disciplines and to enhance lifelong learning. Specifically, they will broaden their knowledge base and inform themselves about a topic, issue, theory, etc., by reviewing and synthesizing existing literature. To do so, students will need a variety of bibliographic skills including searching databases. In other words, students will need to be able to ask and answer such questions as "What is known about? What are major issues and themes?" (0 credit hours)

A&S 607 | INTEGRATIVE PAPER | 0 quarter hour
(Graduate)
Students will observe and/or participate in the reciprocal interaction of theory and practice, by investigating actual practice in the field as it relates to theory. This might take the form of investigating how a particular theory is applied in the field, developing a practical application of a theory, or, conversely, developing/refining a theory based on investigations made in the field. In other words, as graduates encounter new theories and practices they will need to be able to investigate and evaluate them, asking and answering questions about "how theories work." (0 credit hours)

A&S 608 | CAPSTONE IN EDUCATIONAL LEADERSHIP | 4 quarter hours
(Graduate)
Students who have completed the majority of the program will engage in an analysis of an urban school. Students will be given demographic, financial and testing data; a narrative of the school's history and recent past; photographs of the setting, and other pertinent data and artifacts. Using these artifacts, students will be asked to design their first year agenda as the chief administrator in the building. Using the ISLLC standards as a guideline, students will create a portfolio that clearly outlines, schedules, professional development plans, budgets, enrollment projections, and so forth.

A&S 625 | CANDIDACY CULMINATING PROJECT | 0 quarter hour
(Graduate)
Registration in this course is required of all students who are not enrolled in a course but are completing culminating projects for their program of study, including theses, papers, and final portfolios. It provides access to university facilities. Permission of advisor required. Registration limited to three terms. (0 credit hours).

Status as a Graduate Education student is a prerequisite for this class.

A&S 640 | LEGAL ASPECTS OF SPECIAL EDUCATION FOR CLASSROOM TEACHERS | 4 quarter hours
(Graduate)
The course will include a discussion of the legal rights of students with disabilities and the corresponding responsibilities and obligations of schools and educational personnel for meeting their educational needs. The course will include specific legal components inherent with the identification and education of students with disabilities including adaptations of classroom instructional methodology for students with disabilities in the regular education classroom.

A&S 645 | THE ADMINISTRATION AND SUPERVISION OF SPECIAL EDUCATION | 4 quarter hours
(Graduate)
This course will examine the role and function of special education; special services within the school and community, including special classes for the mentally and/or physically handicapped; and various services, such as school psychology, school social work, speech correction, learning disabilities specialist, and others. The course includes specific models for administration of special education programs and procedures for supervision and evaluation of special education personnel.
A&S 670 | HISTORICAL, PHILOSOPHICAL AND THEOLOGICAL FOUNDATIONS OF CATHOLIC EDUCATION | 4 quarter hours
(Graduate)
A survey of the history of Catholic K-12 education in the United States and the foundational documents of Catholic Education. Students will examine the history and philosophical/theological foundation of Catholic Schools in the United States and will be asked to reflect on the nature and mission of Catholic education in the multicultural, multiethnic milieu of Twenty-first Century America.
Status as an EDD student with a Global Catholic Educational Leadership concentration is a prerequisite for this class.

A&S 671 | SPIRITUAL AND ADMINISTRATIVE LEADERSHIP IN CATHOLIC SCHOOLS | 4 quarter hours
(Graduate)
Students will be asked to conceptualize leadership from the Transformational and Servant Leadership perspectives. Using these principles, students will examine the spirituality of Catholic School leadership, and its implications for them in their role as ministers and coordinators of ministries in the school setting. Students will then examine the unique administrative and managerial factors that impact Catholic schools from a leadership framework that is imbued with the spirituality of Servant Leadership.
Status as an EDD student with a Global Catholic Educational Leadership concentration is a prerequisite for this class.

A&S 688 | SERVICE LEARNING FOR HIGHER EDUCATION | 4 quarter hours
(Graduate)
This class is a hands-on, minds-on engagement in the practice and theory of service learning - the integration of community service and related academic study. Students will assist a service-learning program with planning, implementation or evaluation and integrate this experience with study of current practice, theory and research. Students who plan careers in higher education will find this useful in light of the increased commitment to providing service-learning opportunities on campuses. Many student services and other higher education positions include the need to offer leadership to these programs.
Status as an EDD student with a declared concentration is a prerequisite for this class.

A&S 694 | SCHOOL FINANCE | 4 quarter hours
(Graduate)
Major consideration will be given to problems relating to the preparation of a school budget, procuring revenue, financial accounting, capital outlays, insurance on property, taking of inventory, and the social, political, and ethical implications of how schools are financed.
Status as an EDD student with a declared concentration is a prerequisite for this class.

A&S 695 | SCHOOL LAW | 4 quarter hours
(Graduate)
Authority, powers and liability of school personnel; rights and status of students; character of districts and school board control of curriculum, school property, finances. Special emphasis on recent state and federal court decisions as they affect Illinois and neighboring states.
Status as an EDD student with a declared concentration is a prerequisite for this class.

A&S 696 | WORKSHOP IN EDUCATIONAL LEADERSHIP | 4 quarter hours
(Graduate)
Topics of particular interest and concern to administrators and supervisors will be presented in a high-involvement seminar format. Primary reliance will be on written materials; however, audio-visual and role-playing mechanisms may also be used.
Status as an EDD student with a Global Catholic Educational Leadership concentration is a prerequisite for this class.

A&S 700 | REGISTERED DOCTORAL STUDENT IN GOOD STANDING | 0 quarter hour
(Graduate)
Non-credit. This registration is required of all doctoral students who are not enrolled in a doctoral course, but are completing course requirements and/or dissertation research. It provides access to University facilities. Academic advisor approval required. After the third enrollment, dissertation chair approval required. (0 credit hours)
Status as an EDD student with a declared concentration is a prerequisite for this class.

A&S 705 | DISSERTATION SEMINAR | 4 quarter hours
(Graduate)
This course examines leadership theories from various social, psychological and philosophical perspectives both historical and contemporary. The student will also be called upon to reflect upon contemporary practice in K-16 and other higher educational and related leadership settings and evaluate the efficacy of the theoretical frameworks in light of practice.
Status as an EDD, PhD or EdS student with a declared concentration is a prerequisite for this class.
A&S 802 | CONTEMPORARY ISSUES IN HIGHER EDUCATION | 4 quarter hours
(Graduate)
This course explores contemporary policy issues in American higher education. The purpose of this course is to introduce students to key policy issues at various institutional levels in light of the broader political and cultural context. Students will conduct policy analysis of national, regional, and local issues in American higher education. This course considers and applies the integrated approach of policy and practice in examining issues in higher education.
Status as an EDD-Educational Leadership student is a prerequisite for this class.

A&S 803 | THE SUPERINTENDENCY: PROGRAMS, SYSTEMS, AND STRUCTURES | 4 quarter hours
(Graduate)
This course examines the basic work of the district superintendent with an emphasis on the superintendent's role as finding and developing resources, developing positive relationships with the school board, and developing, implementing and evaluating district policy. (Requires 10 hours of field work).
Status as a EDD student with a declared concentration is a prerequisite for this class. Other EDD students may enroll with permission of instructor.

A&S 811 | ASSESSMENT AND ACCOUNTABILITY | 4 quarter hours
(Graduate)
This course addresses the key role of leaders in educational systems, from K-16 through higher ed, for the development, articulation, implementation, and supervision of an assessment process that provides accountability for all stakeholders-students, parents, teachers, faculty, staff, legislators, relevant communities, and governing authorities. Issues of philosophy, standards, outcomes, curricula, instrumentation, technology, and the interconnected nature of these factors are identified as they influence the leadership role in accountability compliance. Factors related to ethical practice and social justice anchor the philosophical and political parameters of the course.
Status as a EDD student with a declared concentration is a prerequisite for this class.

A&S 812 | ASSESSMENT, ACCOUNTABILITY AND EVALUATION IN HIGHER EDUCATION | 4 quarter hours
(Graduate)
Questions, issues, and decision-making of assessment, evaluation, and accountability permeate the higher education landscape in light of the broader cultural context. The purpose of this course is to explore practices and issues connected to assessment, accountability and decision-making in alignment with the institutional purposes and need for effectiveness and taking into account stakeholders’ concerns, leadership practice, and student outcomes in post-secondary contexts. Students will explore and apply a variety of assessment methods and techniques, examine underlying rationales, and political and ethical considerations of accountability in higher education.
Status as an EDD student with a declared concentration is a prerequisite for this class.

A&S 822 | DIVERSITY AND EQUITY IN HIGHER EDUCATION | 4 quarter hours
(Graduate)
Students in this course will explore notions of diversity and equity within and across higher education in light of the broader political and cultural context. The purpose of this course is to develop an understanding of key equity and social justice issues within higher education institutions. Students will examine the historical, contextual, and cultural roles of policies and practices that frame and guide post-secondary institutions.
Status as a EDD student with a declared concentration is a prerequisite for this class.

A&S 823 | COMMUNITY AND CONSENSUS BUILDING FOR SCHOOL IMPROVEMENT | 4 quarter hours
(Graduate)
Students will examine inclusive models for conflict resolution and consensus building among school/community members, whether K-16 or higher ed, that engage membership in processes and decision making through data collection, self-analysis, mission/vision development, goal setting and program planning, implementation and evaluation that leads to school and community improvement. Attention will be given to establishing linkages with local municipal, state, and federal resources, business and industrial resources, community services, and other community resources.
Status as a EDD student with a declared concentration is a prerequisite for this class.

A&S 824 | ADVANCED HUMAN RESOURCES MANAGEMENT | 4 quarter hours
(Graduate)
This course is designed to familiarize prospective superintendents with human resources and personnel management functions. This course provides a comprehensive ethical and legal background for the effective supervision of both certified and non-certified staff. Topics include hiring, induction, the evaluation of personnel, dismissal, collective bargaining, union relationships and succession planning.
Status as a EDD student with a declared concentration is a prerequisite for this class.

A&S 834 | THE SUPERINTENDENT AS INSTRUCTIONAL LEADER | 4 quarter hours
(Graduate)
The course will cover issues of best practices of instructional design and practice; managerial issues that promote instructional success; and the instructional leader as responsible to provide a learning environment for all members of the school community. Instructional Leadership at the chief executive officer level is the theme of this standards-based course. The application of strategic planning skills to enhance teaching and learning; to ensure alignment among curriculum, curriculum resources, and assessment; and to support the collection and use of multiple measures of success are promulgated through the requirements of this course. Emphasis is placed on skills designed to advocate, nurture, and sustain an instructional program and a culture that supports student learning and staff professional growth. Staff evaluation, improving staff performance, and effective models of supervision are emphasized.
Status as an EDD student with a declared concentration is a prerequisite for this class.

A&S 838 | SUPERVISED APPLIED CAPSTONE (EDD) PROPOSAL DEVELOPMENT | 4 quarter hours
(Graduate)
Students register for this course for the quarter in which they defend their capstone proposals. Permission of capstone chair required.
A&S 839 | INDEPENDENT APPLIED CAPSTONE (EDD): EDUCATIONAL LEADERSHIP | 4 quarter hours (Graduate)
Students register for this course for the quarter in which they defend their capstone projects. Permission of capstone chair required.

A&S 843 | THE POLITICS OF SCHOOLING | 4 quarter hours (Graduate)
Students will engage in analyzing educational policy and the political processes related to problem identification, problem solving, decision making, the underlying political processes and their impact on the school/community, students, parents, educators, staff, and community members. The role of such entities as, school boards, unions, professional associations, businesses, university preparation programs, book and test publishers, and local, state, and national policy makers in the education political arena will be analyzed. Attention will be given to the means by which support for change is developed with special emphasis on collaborative dialogue and teamwork for political action. Strategies for coalition building, and individual and collective action will be informed by the use of theory from applied behavioral science and political science.

Status as a EDD student with a declared concentration is a prerequisite for this class.

A&S 849 | SUPERVISED DISSERTATION PROPOSAL DEVELOPMENT | 4 quarter hours (Graduate)
Students register for this course for the quarter in which they defend their dissertation proposals. Permission of dissertation chair required.

A&S 859 | INDEPENDENT DISSERTATION RESEARCH: EDUCATIONAL LEADERSHIP | 4 quarter hours (Graduate)
Students register for this course for the quarter in which they defend their dissertation. Permission of dissertation chair required.

A&S 872 | BUDGETING AND HUMAN RESOURCE MANAGEMENT IN HIGHER EDUCATION | 4 quarter hours (Graduate)
The purpose of this course is to introduce students to the financing, economics, budgeting, and organization of higher education and its institutions. Students will examine the benefits, and costs of higher education, revenue resources, particularly tuition, admissions, financial aid, endowment policies and practices, resource allocation, budgetary practices, and other fiscal policies that affect faculty, staff, students, and other higher education stakeholders.

Status as a EDD student with a declared concentration is a prerequisite for this class.

A&S 873 | CURRENT TRENDS IN BUDGETING AND FINANCE | 4 quarter hours (Graduate)
This course focuses on the priorities of school funding. Financial decisions undergird instructional programs and administrative decision making. Relating these to available money and funding, setting priorities and maximizing the impact on student achievement will be studied.

A&S 494 or equivalent and status as an EDD student are a prerequisite for this class.

A&S 882 | LAW IN HIGHER EDUCATION | 4 quarter hours (Graduate)
This course prepares students to examine the themes and tensions in the constitutional, statutory, administrative, and case law that related to higher education. Students will examine and compare the themes and tensions in federal, state, and municipal law as well. Students will explore the impact of the law on various higher educational stakeholders, including but not limited to, students, faculty, staff, alumni, and the community at large. Students will apply legal principles to higher education case studies to develop effective problem-solving skills to prevent and mitigate legal issues.

Status as a EDD student with a declared concentration is a prerequisite for this class.

A&S 883 | SCHOOL LAW | 4 quarter hours (Graduate)
This course examines the current legal requirements of schools and how changes impact schools. Administrators make decisions that respond to many realities, including the rules and regulations at the local, state, and national levels. The administrator works within a constantly changing system. The duties and liabilities of school administrators as determined by federal rules and regulations, state school codes, the policies of boards of education, and case law will be examined.

A&S 495 and status as an EDD student are prerequisites for this course.

A&S 894 | INTERNSHIP IN EDUCATIONAL LEADERSHIP | 4-8 quarter hours (Graduate)
(4-8 qh) The internship provides supervised experiences in selected organizations on a full-time or part-time basis. The student intern is cooperatively assigned to an organization under the immediate supervision of organizational personnel. The experiences provided are designed to enrich the student’s theoretical background with practical opportunities of participating in (1) overall contact with personnel and with the major functions and problems of certain critical administrative and/or supervisory activities, and (2) a detailed study and analysis of a particular administrative and/or supervisory function or activity.

Status as a EDD student with a declared concentration is a prerequisite for this class.

A&S 898 | SUPERINTENDENT INTERNSHIP SEMINAR - THEORY INTO PRACTICE | 1 quarter hour (Graduate)
(1 QH) This course is a prerequisite for the internship. The course provides the interns with the requisite skills to enter into the internship experience, such as reflective practice, putting theory into practice, and familiarizing themselves with the life of central office.

A&S 899 | SUPERINTENDENT INTERNSHIP | 1 quarter hour (Graduate)
(1qh) The intern is assigned to a district office, under the supervision of a licensed superintendent. The student will be assigned work that will demonstrate mastery of the ELCC Standards. This internship extends from Summer Session through the following Spring with a minimum of 100 clock hours per term.

Status as a EDD student with a declared concentration is a prerequisite for this class.
African&Black Diaspora Studies (ABD)

ABD 100 | INTRODUCTION TO AFRICAN AND BLACK DIASPORA STUDIES | 4 quarter hours (Undergraduate)
This interdisciplinary introductory course examines the many ways in which African and diasporic peoples have created robust lives for themselves and contributed to the creation of the modern world. Our investigation will pay special attention to how social, economic, and political institutions, geographical factors, and the cultural forces of modernity have influenced African contributions to the modern world.

ABD 144 | AFRICAN RELIGIOUS EXPERIENCE | 4 quarter hours (Undergraduate)
A survey of the varieties of African religious practice and thought.

ABD 200 | AFRICA: PEOPLES, CULTURES, IDEAS AND MOVEMENTS | 4 quarter hours (Undergraduate)
This is an introductory survey course on African politics. The organizing topic and focus of the course will be Africa's experience with democratic governance, especially its continuing vigor and popular appeal on the continent despite its elusive character. Our goal in this course is to gain a deeper understanding and appreciation of Africa: its rich political tradition, incredible diversity, its contradictions, achievements and failings. The objective is to be able to ask better questions, and develop some insights about why democracy, self-sustaining economic growth, equity and social justice have been so difficult to accomplish and sustain in the region.

ABD 202 | AFRICA, 1750-1900 | 4 quarter hours (Undergraduate)
The Age of Conquest. The origins of Afro-European relations and the political, economic and military causes of the European partition and occupation of the continent. Cross-listed with HST 132.

ABD 203 | AFRICA, 1900-PRESENT | 4 quarter hours (Undergraduate)
The workings of the colonial system, the rise and course of independence movements, and the history of individual African states since independence. Cross-listed with HST 133.

ABD 206 | AFRO-CARIBBEAN AND AFRO-LATIN AMERICA: PEOPLES, CULTURES, IDEAS AND MOVEMENTS | 4 quarter hours (Undergraduate)
This course introduces students to the study of peoples of African descent in the Caribbean and Latin America through lenses of history, politics, and culture. Students will learn how racial identities are constructed and interpreted in the Americas and the ways these identities have shaped Latin American and Caribbean cultures, politics, and societies. This course will explore broad patterns, changes, and continuities in the history of the African Diaspora in the hemisphere through an analysis of various topics such as conquest, colonization, slavery, independence struggles, nation-building, imperialism, neo-colonialism, revolution, violence, social movements, and inter-American relations.

ABD 208 | AFRICAN AMERICA: PEOPLES, CULTURES, IDEAS AND MOVEMENTS | 4 quarter hours (Undergraduate)
This course is intended to acquaint the student with a range of texts that illustrate some of the major themes in African American studies while emphasizing the development of students' critical reading, writing, and analytical skills. The course will serve as an introduction to African American historical, literary, political, and cultural study. This course is meant to introduce students to some of the issues, debates, and questions that have shaped the study and development of Black Americans in the United States and the broader world.

ABD 209 | RACE AND RACISM | 4 quarter hours (Undergraduate)
Although it is common for us to talk about race, very few of us have an understanding of what the term means, much less how it came to signify human diversity. Race is not an objective scientific category that reliably conveys information about people or groups of people; it is a set of ideologies and practices that originated in modern Europe and has a traceable intellectual history. In this course we will study the origin of race as an intellectual and scientific project designed to organize humanity into discrete and hierarchical groups, and the implications of racial thinking, i.e. racial discrimination perpetuated by rhetorical and pictorial stereotypes, discriminatory behavior and institutional practices. We will utilize racial formation theory which links race and racism by showing the dynamic connections between stereotypes, prejudice, discrimination and privilege.

ABD 210 | AFRICA ON FILM | 4 quarter hours (Undergraduate)
Africa is a continent with a rich and growing repertoire of film. This course explores this repertoire, focusing primarily on films made about Africa by filmmakers of African descent. This class will feature fiction and non-fiction films (full-length and shorts) by well-known filmmakers of African descent. In addition to screenings, students will read essays that illuminate the background necessary to intelligently interpret and critique film. Topics for discussion include the funding, distribution, and presentation of African Films as well as modes of criticism appropriate to film made by Africans and the relation of filmmaking to history. Film directors include Souleymane Cisse, Bassek ba Kobhio, Jean-Marie Teno, Djibril Dio Mambety, Mohamad Camara, and Ousmane Sembene.

ABD 211 | AFRICA TO 1800: AGE OF EMPIRES | 4 quarter hours (Undergraduate)
A study of African history from earliest times, concentrating on the political, social and religious aspects of major African states and empires. Cross-listed with HST 131.

ABD 214 | ARCHEOLOGY OF THE AFRICAN DIASPORA | 4 quarter hours (Undergraduate)
Africans have been on the move since the dawn of humanity. Archaeology is one discipline that can inform us about the presence and influence of Africans throughout the world, beginning with our hominid ancestors and continuing through the 20th century. Prior experience with archaeology is not required. Topics include: the evolution and development of our species; migrations within the African continent and abroad; and the cultural insights to be gained from the rapidly-growing field of African-American archaeology.
Our course will examine the religious experience of African Americans and its African precursors through historical and literary resources, reflecting African Americans’ distinctive past and interaction with other elements of American culture. Cross-listed with REL 115.

**ABD 218 | AFRICAN AMERICAN POLITICS | 4 quarter hours**  
(Undergraduate)

This course explores the evolution of African-American political participation from the mid-1800’s to the present. Topical areas include black political leadership and involvement in social movements (including abolitionism, nationalism, civil rights and the black power movements), electoral politics, political parties, urban politics, public policies, political culture, and as elected officials. Special attention will also be given to the influence of laws and the courts on African-Americans’ political participation.

**ABD 220 | BLACKS AND LOVE | 4 quarter hours**  
(Undergraduate)

This course employs cultural criticism, race and ethnic studies, and women’s and gender studies to examine the visual representations of blacks and love in art, film, and literature. The course begins by examining the construction of race in eighteenth, nineteenth, and early twentieth-century European and American philosophy and body politic and with an examination of art, art history, film, and literature. Section two explores the definition of love; it examines Christian definitions of love as well as secular definitions from black intellectuals, cultural critics, and scholars. Section three examines a range of genres in search of progressive, transformative, positive images that depict blacks in loving relationships, rediscovering what it means to love oneself and others in spite of/because of our human differences (in race/ethnicity, gender, class, sexuality).

**ABD 221 | ROMANCE, GENDER, AND RACE | 4 quarter hours**  
(Undergraduate)

This course examines how writers represent gender and race in the romance genre. The course begins with a study of the literary elements that comprise popular romance novels. It also examines the design elements for their covers used primarily to attract women readers from varied racial/ethnic backgrounds, who, as major consumers of this genre, generate over a billion dollars in revenue annually. Next, attention will be devoted specifically to examining women writers and black readers of romance novels, who make up 25% of the billion dollar publishing industry. Questions to be addressed include: How does a writer’s gender and racial/ethnic identity shape the representations of race and gender in romance fiction and cover design? How have writers complicated the popular romance plot to address the issues of gender, race, class, and age? How do writers utilize the romance novel during specific historical periods to address social, political, and health issues? The course concludes by examining how the internet has transformed the writing, publishing, purchasing, and reading practices for the writers, publishers, and readers of romance novels with black characters.

**ABD 229 | RACE, SCIENCE AND WHITE SUPREMACY | 4 quarter hours**  
(Undergraduate)

Recently, scientists have come to question the concept of "race" as a reliable or accurate description of human populations, but the term is still understood to signify innate and essential biological difference. The concept of race originated in the 18th century with the work of European and American natural scientists. Although their original intention was to apply a taxonomic structure to human populations, the concept was quickly appropriated and used to support the domination and exploitation of people of color. Science provided a lens of objectivity that perpetuated biases, reinforced stereotypes and countenanced racism. This class will explore the tangled legacy of racial thinking and how scientists have marshaled evidence for and against ideologies of White supremacy and Black inferiority. We will discuss how Black bodies in particular have been scrutinized by natural scientists and medical professionals who sought to identify the physical traits the defined racial categories. Topics include the origin and use of race in science, phrenology, Eugenics, and the use of people of African descent as objects of scientific display and medical experimentation.

**ABD 230 | STEREOTYPES AND BLACK IDENTITY | 4 quarter hours**  
(Undergraduate)

Stereotypical representations of people of African descent have pervaded Western culture throughout the modern era. These images were disseminated along the trade routes of colonialism, from Africa to Europe, the Americas and Asia. Stereotypes of people of African descent have been a part of popular culture, commercial advertising, and scientific literature. This course will examine the origin and dissemination of the dehumanized image of "the Black body". We will discuss the perpetuation of Black stereotypes and how these images have shaped Black identity in the post colonial world.

**ABD 231 | PHILOSOPHY AND THE QUESTION OF RACE | 4 quarter hours**  
(Undergraduate)

A philosophical inquiry into the history of the concept of race. Cross-listed with PHL 231.

**ABD 232 | MIXED RACE AMERICAN IDENTITY | 4 quarter hours**  
(Undergraduate)

The 1967 Supreme Court decision in the case of Loving vs. the State of Virginia overturned laws that prohibited individuals from different racial backgrounds from marrying. Since then, people from mixed racial and ethnic backgrounds have advocated for legal recognition of their status as members of more than one racial group. This course explores the transformation of these "interracial intimacies" from a cultural taboo to a source of personal identity. By placing their lives and experiences in the appropriate historical and cultural context, we will explore how people who identify as "mixed" negotiate the rigid boundaries of race in the United States.

**ABD 233 | SURVEY OF AFRICAN DIASPORIC INTELLECTUAL THOUGHT | 4 quarter hours**  
(Undergraduate)

This survey course examines the philosophical and critical thought from African American, Caribbean, and African philosophers, feminists, political, and radical intellectuals. The thinkers to be studied include, but are not limited to, Du Bois, Garvey, James, Lamming, Williams, Senghor, Fanon, Hodge, Wynter, Lorde, Soyinka, hooks, Emecheta, and Conde. Cross-listed with REL 218.
ABD 244 | AFRICAN WOMEN WRITERS | 4 quarter hours
(Undergraduate)
This course examines fiction and criticism with the purpose of studying how African women configure themselves in literature and how they (re)define feminist theory. Authors to be studied include: El Saadawi, Emecheta, Alkali, Nzapa, Head, Ngcobo, Lessing, Gordimer, Aidoob, Ba, and Joyce.

ABD 245 | RACE AND ETHNICITY IN LITERARY STUDIES | 4 quarter hours
(Undergraduate)
This course examines various ways in which race is constructed and, concurrently, how race as a “fiction” operates in literary studies. Literature presents and explores the ways in which the world is viewed and experienced by individuals in a particular society or social group. Since literature provides unique insights into different historical and cultural movements, studying how race is understood and deployed (explicitly and implicitly) in a text provides a powerful way to examine the fluidity of race and to compare how it is understood in different parts of the Black diaspora.

ABD 246 | INTRODUCTION TO AFRICAN ART | 4 quarter hours
(Undergraduate)
This course is based on a series of important issues in the study of African art, such as medium and color, portraiture, the artist and innovation, relationships with language, royal patronage, divination, gender, aesthetics, Othering, and authenticity. The course will explore each of these concepts through a variety of artistic traditions from the continent. In this manner, students will gain basic theoretical tools which will enable them to work with art from across Africa.

ABD 247 | ANCIENT AFRICAN ART | 4 quarter hours
(Undergraduate)
This course surveys a selection of artistic traditions from across the African continent beginning with the earliest attempts by humanity to visually represent complex thought until the Portuguese began trading along the coast of West Africa in the mid-fifteenth century. Emphasis is placed on demonstrating connectedness with a larger cultural environment, while also suggesting connections to future artistic traditions. Cross-listed with HAA 201.

ABD 248 | CLASSICAL AFRICAN ART | 4 quarter hours
(Undergraduate)
This course surveys a selection of artistic traditions from across the African continent beginning with the arrival of the Portuguese along the coast of West Africa in the mid-fifteenth century until the age of African independence in the 1960s. While the impact of a European presence helps define the boundaries of this course, artistic response to that presence is but one theme. Interactions between African cultures and the impact of Islam are equally important considerations. Cross-listed as HAA 202.

ABD 249 | JAZZ AND THE DIASPORIC IMAGINATION | 4 quarter hours
(Undergraduate)
This course will examine the role jazz has played in the cultural imagination of people across the African Diaspora. What does jazz symbolize for authors and artists, and how have they adapted jazz to fit their own aesthetic, ideological, and political needs? How has it been used in literature, visual art, politics, sociology (among others)? What are the different ways in which ‘jazz’ (itself a multifaceted idea) has been imagined, presented, and manipulated? Figures to be examined include: Amiri Baraka, Sonia Sanchez, Romare Bearden, Langston Hughes, Jackson Pollock, Billie Holiday, Ralph Ellison, Dizzy Gillespie, John Coltrane, among others.
ABD 251 | WORLD REFUGEE CRISIS | 4 quarter hours  
(Undergraduate)
This is a survey of global refugee crisis and internal displacement between 1945 and the present. The course will focus on the following issues and challenges: human rights, definitions and causes of crisis, internal/external displacements, ‘environmental’ refugees, protection and integration, refugee children, and conflict resolutions in post-war societies. Cross-listed with HST 241.

ABD 252 | POST-COLONIAL AFRICAN ART | 4 quarter hours  
(Undergraduate)
This course surveys African art from the age of African independence in the 1960s until the present day. The meaning of the term contemporary as it applies to African art is questioned in this course. The position of the artist between African artistic tradition and the global art market is also of vital importance. Cross-listed with HAA 203.

ABD 254 | AFRICAN POLITICS | 4 quarter hours  
(Undergraduate)
An introduction to African politics. The course will focus on the basic concepts, issues, and theoretical models used in studies of the dynamics of government and politics in Africa from the pre-colonial era to the contemporary period. Cross-listed with PSC 254.

ABD 256 | AFRICAN-AMERICAN HISTORY TO 1800 | 4 quarter hours  
(Undergraduate)
This course focus primarily on the colonial era with an emphasis on topics such as the construction of race and gender, the Black Atlantic, the emergence of African diasporic cultures in the Americas, slavery, black political thought, resistance, and the Revolutionary War. Cross-listed as HST 246.

ABD 257 | AFRICAN-AMERICAN HISTORY, 1800-1900 | 4 quarter hours  
(Undergraduate)
The African experience in America beginning in the colonial era and lasting through the present day. This course will focus on a portion of that history that spanning the 19th century. The course is organized thematically, with an emphasis on topics such as resistance, the construction of race, slavery and the law, gender and slavery, the nature of antebellum free black life, abolition, the Civil War, Reconstruction. Cross-listed as HST 247.

ABD 258 | AFRICAN AMERICAN HISTORY, 1900 TO PRESENT | 4 quarter hours  
(Undergraduate)
The African experience in America is expansive, beginning in the colonial era and lasting through the present day. This course will focus on only a portion of that history-1900 to the present. This course is organized thematically with an emphasis on topics such as migration, urbanization, segregation, 20th century constructions of blackness, arts & culture, African Americans and the World Wars, black political thought, freedom movements, and criminalization.

ABD 259 | THE GREAT MIGRATION AND BLACK IDENTITY | 4 quarter hours  
(Undergraduate)
The largest internal migration in US history took place in the early 20th century when three million African Americans fled racial terrorism in the South to pursue economic opportunities in the North. They were joined by people of African descent from the Caribbean, leading to what is now known as the Great Migration. The movement had profound political, social and economic ramifications. It changed how White Americans saw African Americans and how African Americans saw themselves. This course will explore how the Great Migration shaped Black cultural identity in the 20th century. Topics will include racial terrorism in the South, education and political philosophies, and social movements.

ABD 260 | DIMENSIONS OF BLACK FAMILY LIFE | 4 quarter hours  
(Undergraduate)
This course will introduce students to the study of Black family life in Africa and its Diaspora. Special attention will be given to the ways in which values and patterns of living and thought are communicated across generations (time) and transported across geography (space).

ABD 261 | RADICAL AESTHETICS OF HIP HOP | 4 quarter hours  
(Undergraduate)
This course engages the interrelated art forms that comprise hip hop, a culture conceived by African American, Afro-Caribbean and Latino youth in the 1970s. In this course, students will explore hip hop culture's aesthetic strategies through a survey history of its four elements--emceeing, deejaying, bboying/bgirling, graffiti--and traces their wide influence in music, visual culture, dance, theatre, and politics. This course is interested in how hip hop culture has negotiated inequality through aesthetic practices that portray the fissures of the American dream while modeling alternatives.

ABD 262 | WHAT IS BLACK CINEMA? | 4 quarter hours  
(Undergraduate)
What makes a black film a black film? Is a black film one made by a black director with a majority black cast and made for black audiences? What if the director of the film is non-black or it is made for a multicultural audience? Are these films still "black films"? Is black film a genre, a mode, or something else entirely? Do black filmmakers make films that are different than non-black filmmakers? These questions guide this course? s investment in the idea of black film from the 1960s to the present. Throughout the course, students will consider the formal, cultural, historical, industrial, and political ramifications at stake when we assume the existence and relevance of the idea of the black film. We will address topics such as genre, class, gender, sexuality, authorship, spectatorship, both individually and intersectionally.

ABD 272 | MUSLIM WOMEN IN TEXTS | 4 quarter hours  
(Undergraduate)
This course aims to examine texts written on Muslim women by themselves, by non-Muslim women and by Muslim men. Several questions are raised by the subject itself. One such question focuses on what is intrinsically Islamic with respect to ideas about women and gender. Another question centers on what is the model Muslim woman given the diversity of cultural manifestations of Islam. This course emerges from these questions and others exploring who is writing what about Muslim women, for what audience. Cross-listed with REL 272 and IWS 272.
ABD 274 | WOMEN IN AFRICAN RELIGION AND CULTURE | 4 quarter hours
(Undergraduate)
A study of the role of religion and culture in the lives of women in Africa, introducing students to an "emic" (insider) interpretation of beliefs and practices of the triple religious heritage (Indigenous religions, Christianity and Islam), and critically evaluating their implications for women.

ABD 275 | BLACK FEMINIST THEORIES IN A U.S. CONTEXT | 4 quarter hours
(Undergraduate)
This course surveys the major figures, statements, and movements that shape Black feminist thinking, writing and activism in the United States. Figures examined include: bell hooks, Ida B. Wells Barnett, Mary Church Terrell, Angela Davis, Michelle Wallace, Audre Lorde, and Mark Anthony Neal, among others. Cross-listed with WGS 275.

ABD 285 | AFRO-HISPANIC LITERATURE IN TRANSLATION | 4 quarter hours
(Undergraduate)
This course explores how race, class, politics and culture find expression in Afro-Hispanic literature. We will read works that have been translated into English from their original Spanish versions and analyze how the use of language, imagery and narrative voice reflect the experience of people of African descent in the Spanish-speaking world.

ABD 290 | SPECIAL TOPICS | 4 quarter hours
(Undergraduate)
This course explores various issues stemming from African and Black peoples being gendered and racialized subjects. Specific topics may vary.

ABD 300 | AFRICAN ISLAM: ISLAMIC ART & ARCHITECTURE IN SUB-SAHARAN AFRICA | 4 quarter hours
(Undergraduate)
Focused study of the impact of Islam on the artistic traditions of sub-Saharan Africa. Rather than necessarily replacing previous art forms, this course investigates in what circumstances preexisting visual culture might be integrated with the requirements and needs of Islam. This approach necessitates an understanding that neither Islam nor African art are monolithic entities, but rather their interactions represent a wide variety of negotiations across the continent. Likewise, this course will consider specific historical circumstances to which Islamic art in sub-Saharan Africa has responded in terms of form and content. Cross-listed with HAA 302.

ABD 301 | AFRICAN ARCHITECTURE | 4 quarter hours
(Undergraduate)
This course examines a wide variety of issues pertinent to the study of architecture in Africa, highlighting above all else the diversity of traditions across the continent. Weekly themes are defined at times by materials, technology, type, geographical region, culture, or specific architectural elements. Examples of subjects studied include: earthen mosques of Mali; subterranean residences in Burkina Faso; nomadic tents; impluvial and courtyard traditions of Nigeria and Senegal; mural painting in Burkina Faso, Nigeria, and South Africa; Ethiopian rock cut churches; imperialist exploitation of Great Zimbabwe's legacy; and coral architecture of the Swahili Coast. Art history and related disciplines. Cross-listed with HAA 301.

ABD 303 | THEMES IN AFRICAN DIASPORA STUDIES | 4 quarter hours
(Undergraduate)
Recent scholarship argues that Africa is not limited to geography, but is found in the traditions and identities of many peoples around the world. This course will examine different major themes in the study of the African and Black diaspora. Specific topics may vary.

ABD 305 | PAN-AFRICANISM | 4 quarter hours
(Undergraduate)
The course will examine the often ambivalent place of Africa in the imaginations, cultures and politics of people in the African diaspora. Students will explore the contributions of African, African-American and Caribbean intellectuals in the formation of diasporic movements and Pan-African thought. We will ask, to what degree was the ideology of Pan-Africanism and the iconography of Africa employed to mobilize masses of black people around local and domestic issues? How important has a consciousness of Africa been to the construction of cultural identities in the diaspora, and how have class, gender, and race shaped or constrained those identities? Our goal is to develop further insights into how people of the African diaspora have continually reinvented and imagined the home of their ancestors, in turn reinventing and imagining themselves.

ABD 320 | AFRICAN AMERICAN SCIENCE FICTION | 4 quarter hours
(Undergraduate)
This course studies the science fiction by Black writers as well as critical responses to these novels and writers. The course explores the treatment of gender, oppression and empowerment, historical implications (past, present, future) of the middle passage, chattel slavery, and the struggle for freedom.

ABD 336 | AFRICAN-AMERICAN POLITICAL THOUGHT | 4 quarter hours
(Undergraduate)
Considers black political thought through a variety of ideological, political, legal and historical perspectives. First explores early efforts by blacks to challenge the racialized limitations of America's core principles of liberty, equality and democracy in the contexts of abolitionism, the women's suffrage movements, Manifest Destiny, and American industrialism. Then concentrates on the evolution of contemporary black political thought, with an emphasis on both conceptual diversity and continuity over time. Cross-listed with PSC 336.

ABD 345 | THE LITERATURE OF IDENTITY | 4 quarter hours
(Undergraduate)
Cross-Cultural Study of self-discovery and identity as manifested in the literatures of self-awareness and self-definition. Authors to be studied include: Michael Anthony, Frantz Fanon, Jamaica Kincaid, George Lamming, V. S. Naipaul, and Jane Rhys.

ABD 348 | RELIGIONS IN AFRICA AND THE DIASPORA | 4 quarter hours
(Undergraduate)
An advanced examination of the indigenous religions of Africa as they encounter other religious traditions throughout the world.

ABD 351 | RECONSTRUCTION AND THE RISE OF JIM CROW | 4 quarter hours
(Undergraduate)
Covers the problems of reunion between the North and the South after the Civil War, including the struggle for African-Americans' civil and political rights, the transition to a free labor economy in the South, and the eventual end of reconstruction and establishment of racial segregation in the South and the nation. Cross-listed with HST 379.

ABD 208 or consent of the instructor is a prerequisite for this course.
ABD 365 | VOTING, REPRESENTATION, AND THE LAW | 4 quarter hours
(Undergraduate)
This course explores the struggles of African Americans and women, as individuals who were excluded from the franchise on the basis of their being an African American, a woman, or both, to gain access to the ballot. The relation of women and African Americans to the ballot is worthy of investigation for two reasons. First, with the exception of 18 year olds, women and Black Americans are the two groups who have required amendments to the Constitution to secure their right to vote. Second, they share a history, often contentious, of political struggle. In addition, the course will investigate what this history of political struggle can tell us about American law, politics, and society.

ABD 369 | TOPICS IN PUBLIC LAW | 4 quarter hours
(Undergraduate)
This course engages the research and analyses in the field of public law - how do political scientists, public policy analysts and others develop informed public policy and law. Topics vary from year to year.

ABD 370 | FEMINIST THEOLOGIES | 4 quarter hours
(Undergraduate)
An exploration of women's experience as a primary resource and norm for theology, focusing on themes of inclusion, exclusion, representation and liberation in particular social, political and historical contexts.

ABD 371 | AFRICAN-AMERICAN FICTION | 4 quarter hours
(Undergraduate)

ABD 372 | AFRICAN AMERICAN DRAMA AND POETRY | 4 quarter hours
(Undergraduate)
Survey of Black poetry and drama from 1865 to the present.

ABD 373 | TOPICS IN AFRICAN AMERICAN POETRY 1940-1960 | 4 quarter hours
(Undergraduate)

ABD 374 | THE BLACK ARTS MOVEMENT | 4 quarter hours
(Undergraduate)
This course looks at the intersection between political and artistic movements of the Black Power and Black Arts Movements. We will survey the aesthetic and political aspects of this era, including poetry, novels, drama, music, visual arts and film.

ABD 375 | RACE, MEDIA, AND REPRESENTATION | 4 quarter hours
(Undergraduate)
This course examines signal representations of blackness in American media from the 19th century to the present. Students will probe the media's influence on perceptions of and possibilities afforded black people in the United States and abroad as well as black media makers attempts to proffer new visions.

ABD 379 | BLACK FEMINIST THEORY | 4 quarter hours
(Undergraduate)
This course engages with the multiple versions of woman-centered theory and practice developed in the writings; activism, and other creative work of Black, particularly African American women, from the mid-nineteenth century to the twenty-first. While not all of these theorists would use the word feminist; all have in common the aim of empowering women's lives, advocating for women for equal economic, political, and cultural access.

ABD 380 | TOPICS IN AFRICAN AMERICAN STUDIES | 4 quarter hours
(Undergraduate)
This course examines figures, texts, cultures or issues in African American studies. Specific topics may vary by term.

ABD 382 | TOPICS IN AFRICAN DIASPORA STUDIES | 4 quarter hours
(Undergraduate)
Topics vary. See schedule for titles and department website for specific descriptions.

ABD 386 | BLACK WOMEN'S LIVES | 4 quarter hours
(Undergraduate)
This course is a variable topics course directed to the examination of topics such as black women's cultural criticism, Black women in the arts, Black lesbian rights, Black women's participation in social movements, representation in the media, etc. Cross-listed with WGS 386.

ABD 390 | TOPICS IN POPULAR CULTURE IN THE BLACK DIASPORA | 4 quarter hours
(Undergraduate)
This course explores various topics in popular culture studies through the lens of the African Diaspora, including music, film, television, popular literature and subcultural practices. Specific topics may vary by quarter.

ABD 391 | CAPSTONE | 4 quarter hours
(Undergraduate)
This senior seminar engages students in a synthesis of what they have learned through coursework. The capstone course will involve reading, writing, discussion, as well as the preparation by students of a substantive piece of work (e.g., a senior thesis, a research paper, or a creative work.)

ABD 397 | INTERNSHIP | 1-4 quarter hours
(Undergraduate)
By arrangement. Variable credit.

ABD 399 | INDEPENDENT STUDY | 1-6 quarter hours
(Undergraduate)
Independent study. Variable credit.

Allied Health Technology (AHT)

AHT 310 | DIAGNOSTIC NUCLEAR IMAGING CLINICAL PRACTICUM | 4 quarter hours
(Undergraduate)
Supervised clinical education that gives the student the opportunity to perform a variety of patient procedures on both SPECT, SPECT/CT, PET and PET/CT imaging systems for all diagnostic, therapeutic, non-imaging in-vivo and in-vitro procedures. Clinical competencies developed in patient care, positioning techniques, analyzing images, and the selection of imaging parameters and collimators. Knowledge of integrated computer systems designed for use with clinical gamma cameras, Single Photon Emission Computed Tomography (SPECT), SPECT/CT, Positron Emission Tomography (PET), and PET/CT images. The clinical practicum is designed to promote independent critical thinking, balanced responsibility, organization and accountability in the student. Students will demonstrate competence in all procedures presented.
AHT 311 | DIAGNOSTIC NUCLEAR IMAGING CLINICAL PRACTICUM II | 4 quarter hours
(Undergraduate)
Supervised clinical education that gives the student the opportunity to perform a variety of patient procedures on both SPECT, SPECT/CT, PET and PET/CT imaging systems for all diagnostic, therapeutic, non-imaging in-vivo and in-vitro procedures. Clinical competencies developed in patient care, positioning techniques, analyzing images, and the selection of imaging parameters and collimators. Knowledge of integrated computer systems designed for use with clinical gamma cameras, Single Photon Emission Computed Tomography (SPECT), SPECT/CT, Positron Emission Tomography (PET), and PET/CT images. The clinical practicum is designed to promote independent critical thinking, balanced responsibility, organization and accountability in the student. Students will demonstrate competence in all procedures presented.

AHT 312 | CLINICAL NUCLEAR MEDICINE PROCEDURES I | 4 quarter hours
(Undergraduate)
Emphasis on theory and techniques of clinical procedures used in nuclear medicine imaging. Areas emphasized include patient care, developing acquisition parameters, imaging techniques, radionuclide identification, energies, half-lives, and principles of radionuclides in imaging and non-imaging procedures. Students will continue to develop an increased degree of competence in their performance of the skills related to critical thinking and problem solving.

AHT 313 | CLINICAL NUCLEAR MEDICINE PROCEDURES II | 4 quarter hours
(Undergraduate)
Emphasis on theory and techniques of clinical procedures used in nuclear medicine imaging. Areas emphasized include patient care, developing acquisition parameters, imaging techniques, radionuclide identification, energies, half-lives, and principles of radionuclides in imaging and non-imaging procedures. Students will continue to develop an increased degree of competence in their performance of the skills related to critical thinking and problem solving.

AHT 314 | MANAGEMENT AND METHODS PATIENT CARE | 4 quarter hours
(Undergraduate)
Skills in problem solving, critical-thinking, and decision-making are developed as well as oral and written communication skills. Career skills are enhanced through the interview process, resume writing, and administrative duties including; budgeting, medical and legal considerations and political issues affecting health care. Special emphasis is placed on research methods, medical law and ethics, and scheduling guidelines. Focus on basic measures necessary to provide quality patient care. Basic principles of record keeping and maintaining confidentiality of information are explained.

AHT 315 | MANAGEMENT AND METHODS PATIENT CARE II | 2 quarter hours
(Undergraduate)
Skills in problem solving, critical-thinking, and decision-making are developed as well as oral and written communication skills. Career skills are enhanced through the interview process, resume writing, and administrative duties including budgeting, medical and legal considerations and political issues affecting health care. Special emphasis is placed on research methods, medical law and ethics, and scheduling guidelines. Focus on basic measures necessary to provide quality patient care. Basic principles of record keeping and maintaining confidentiality of information are explained.

AHT 316 | RADIATION BIOLOGY | 1 quarter hour
(Undergraduate)
Knowledge of cell structure and function as a basis for understanding cellular and organ responses to the effects of ionizing radiation, radionuclides and radiation oncology. Understanding units of exposure, organ dose calculation and body distribution. (1 quarter hour)

AHT 317 | MEDICAL TERMINOLOGY | 1 quarter hour
(Undergraduate)
The medical terminology course consists of a study of root words, prefixes, and suffixes of medical vocabulary. Also included are medical abbreviations and applicable symbols. A combination of learning exercises and chapter quizzes are utilized. Emphasis is on application of terminology through the use of chapter objectives, learning exercises, and critical thinking exercises. As an independent study, students may choose to progress more rapidly than the assignment schedule outlines. (1 quarter hour)

AHT 321 | MANAGEMENT AND METHODS PATIENT CARE | 2 quarter hours
(Undergraduate)
Content is designed to provide the student with foundational concepts and competencies in assessment and evaluation of the patient for service delivery. Psychological and physical needs and factors affecting treatment outcome will be presented and examined. Students will also get a better understanding of how race, gender, physical ability, sexual orientation, spirituality, healing and dying, and age play a role in cultural competence. Routine and emergency care procedures will be presented. Course will also include an orientation to hyperthermia, chemotherapy, body mechanics, nutrition for cancer patients, and an overview of radiation therapy patient side effects. (2 quarter hours)

AHT 322 | QUALITY MANAGEMENT | 2 quarter hours
(Undergraduate)
Content is designed to focus on the evolution of quality management (QM) programs and continuing quality improvement in radiation oncology. Topics will include the need for quality assurance (QA) checks; QA of the clinical aspects and chart checks, film checks; the various types of evaluations and tests performed on simulators, megavoltage therapy equipment, and therapy planning units; the role of radiation therapists in quality management programs; legal and regulatory implications for maintaining appropriate guidelines; and the role computers and information systems serve within the radiation oncology department. (2 quarter hours)

AHT 323 | CLINICAL PRACTICUM I | 2 quarter hours
(Undergraduate)
The overall objective of this course is to aid the student in achieving basic level technical skills through supervised practice of radiation therapy procedures on actual patients. Students will be required to complete some ARRT required clinical competency examinations during this course. (2 quarter hours)

AHT 324 | CLINICAL PRACTICUM II | 2 quarter hours
(Undergraduate)
The overall objective of this course is to aid the student in achieving basic level technical skills through supervised practice of radiation therapy procedures on actual patients. This is a continuation of Clinical Practicum I. Students will be required to complete all remaining ARRT required clinical competency examinations during this course. (2 quarter hours)

</tbody>
</table>

This course provides the student therapist with the technical aspects of radiography equipment. Discussion will include orientation to the function and operation of radiography equipment. (2 quarter hours)

This course introduces the student to the effects of ionizing radiation and chemotherapeutic agents on living tissue. Emphasis is placed on the clinical application of computer devices and memory usage. Emphasis is given to the preparation, calibration, identification, administration, and disposal of radiopharmaceuticals. Performance of all radionuclide quality control and quality assurance procedures. Principles of decay and half-life, tissue localization, chemical impurities, generator systems, dose preparation and techniques of good laboratory practices and cell labeling. (3 quarter hours)

The purpose of this course is to educate students regarding institutional, state and federal regulations controlling the storage, use, disposal of radiation-producing equipment and sources. Emphasis is placed on ALARA principles to define the health professional's legal and ethical responsibility to minimize radiation dose to co-workers and patients, and oneself. (3 quarter hours)

This course introduces the student to the field of pathology with an emphasis on the oncologic disease processes. Topics range from discussion of pathology from the cellular level through various organ systems. Students are introduced to terminology related to the field of pathology as a whole and to the subspecialty of oncology specifically. (3 quarter hours)

Supervised practice and procedures for the receipt, handling, transporting, storage, usage, record keeping, disposal and decontamination of radioactive materials. Emphasis on licensing and regulations set forth by local, state and federal agencies. Academic and clinical instruction to provide the student with radiation safety techniques to minimize exposure to the patient, public, fellow workers and themselves. Regulations regarding therapeutic dosages and follow-up procedures. Focus on practical mathematics in nuclear medicine including radiation unit conversion, dose conversion, dose calculation, determination of specific activity, decay, and half-life calculation, counting efficiency, and statistics. (3 quarter hours)

Evaluation, maintenance and function of instrumentation used in imaging and in the laboratory. Principles and theory of PET/CT and scintillation camera operation and performance. Radiation measurement, event counting activity, pulse height spectra, detection efficiency, resolving time and statistics. Flood field and bar phantom use for assessing camera uniformity, relative sensitivity, spatial linearity and resolution testing. Quality assurance procedures for the PET scanner include radial, tangential and axial resolution, sensitivity, linearity, uniformity, attenuation accuracy, scatter determination and dead time corrections. Knowledge of the operations and maintenance of computer hardware and software. Emphasis on data collection, analysis and processing used in clinical imaging. Application of computer devices and memory usage. Emphasis on SPECT, SPECT/CT, PET and PET/CT quality control procedures. (3 quarter hours)
AHT 342 | RADIATION PHYSICS II | 3 quarter hours  
(Undergraduate)
Students are introduced to the principles and practice of applying ionizing radiation to the human body. Topics include discussion of radiation therapy equipment, including treatment units and computer planning systems with an emphasis on how this equipment is used to produce proper treatment planning and dose calculations, according to the radiation oncologist's prescription. Radiation protection and quality assurance will also be covered. This course is a continuation of Radiation Therapy Physics I. (3 quarter hours)

AHT 343 | MEDICAL IMAGING AND PROCESSING | 2 quarter hours  
(Undergraduate)
Procedure for imaging human structure and their relevance to radiation therapy; topographical anatomy, radiographic and cross sectional anatomy. Identification of anatomic structures as demonstrated through various imaging modalities. (2 quarter hours)

AHT 344 | OPERATION ISSUES IN RADIATION THERAPY | 3 quarter hours  
(Undergraduate)
Content is designed to focus on various allied health operational issues. Continuing Quality Improvement (CQI) project development, evaluation, and assessment techniques will be emphasized. Human resource issues and regulations impacting the radiation therapist will be examined. Accreditation agencies and the licensed practitioner’s role in the accreditation process will be presented. Billing and reimbursement issues will be covered. (3 quarter hours)

AHT 345 | PRINCIPLES AND PRACTICE OF RADIATION THERAPY | 2 quarter hours  
(Undergraduate)
Content is designed to provide an overview of cancer and the specialty of radiation therapy. The medical, biological, and pathological aspect, as well as the physical and technical aspects, will be discussed. This course will also include content designed to provide the student with fundamental concepts, theories, and application of healthcare laws and ethical standards implemented and practiced in quality management for radiation therapy. Analysis of legal terminology, sources of law and the litigation process as applied to health professionals will be evaluated. (2 quarter hours)

AHT 346 | PRINCIPLE AND PRACTICE OF RADIATION THERAPY II | 2 quarter hours  
(Undergraduate)
This course is a continuation of principles and practice of radiation therapy I. Critical thinking and the basics of ethical and clinical decision making are fostered in the student. The epidemiology, etiology, detection, diagnosis, patient condition, treatment, and prognosis of neoplastic disease will be presented, discussed, and evaluated in the relationship to histology, anatomical site, and patterns of spread. The radiation therapist's responsibility in the management of neoplastic disease will be examined and linked to the skills required to analyze complex issues and make informed decisions while appreciating the character of the profession. (2 quarter hours)

AHT 347 | TECHNICAL RADIATION ONCOLOGY | 2 quarter hours  
(Undergraduate)
This course provides the student therapist with the technical aspects of radiation therapy. Discussion will include orientation to the function and operation of radiation therapy equipment. The clinical lab component of this course provides a hands-on, sequential application, and clinical integration of concepts and theories in the radiation therapy clinic and the didactic portion of this course. Concepts of team practice, patient-centered and clinical practice will also be discussed. (2 quarter hours)

AHT 348 | TECHNICAL RADIATION ONCOLOGY | 3 quarter hours  
(Undergraduate)
This course is designed to focus on discussions of various treatment and simulation procedures of different pathologies. The lab component will continue to provide a hands-on, sequential application, and clinical integration of concepts and theories in the radiation therapy clinic. (3 quarter hours)

AHT 365 | URINE ANALYSIS AND BODY FLUIDS | 3 quarter hours  
(Undergraduate)
Body fluids such as urine, pleural, and spinal are examined to determine the kinds and numbers of body cells present. The students will master quantitative and qualitative testing of urine is done. This includes testing for pH, color, specific gravity, sugars and excessive amounts of protein. Urine and other body fluids are also examined for the presence of bacteria and parasites as well as crystals and casts formed by the kidneys.

AHT 371 | FUNDAMENTALS OF CLINICAL CHEMISTRY | 1 quarter hour  
(Undergraduate)
This course presents the development of fundamental laboratory skills laboratory operations and automation in a lecture format.

AHT 372 | APPLICATIONS OF CLINICAL CHEMISTRY | 3 quarter hours  
(Undergraduate)
This course in the clinical laboratory pertains to the acquisition of manual and automated laboratory skills to test patient samples utilizing complex instrumentation and understanding the principals of test procedures, instrumentation, quality control and approved safety practices. State-of-the art automation and robotics enable the laboratory to provide critical diagnostic information quickly and accurately to physicians in such areas as the emergency department, intensive care, surgery and the neonatal intensive care unit. In addition, the Clinical Chemistry Laboratory offers testing for the assessment of many metabolic systems that can include cholesterol measurement, thyroid and reproductive hormone levels, and therapeutic drug monitoring. Students will work with up-to-date, computer-assisted technology to provide critical as well as routine testing for effective patient care.

AHT 373 | ADVANCED APPLICATIONS OF CLINICAL CHEMISTRY | 5 quarter hours  
(Undergraduate)
This is a lecture course presenting in depth theory, pathophysiology, and high level of problem solving commonly seen in the laboratory. This didactic portion of the program is presented by pathologists, PhD scientists and experienced Medical Laboratory Scientists.

AHT 374 | FUNDAMENTALS OF HEMATOLOGY | 1 quarter hour  
(Undergraduate)
This laboratory develops fundamental laboratory skills in Hematology. This experience includes lecture presentations, demonstrations, clinical observations and hands-on practical experience. Students learn to prepare and stain peripheral blood smears in preparation for counting and classification of the various types of red and white blood cells among other labs.
AHT 375 | CLINICAL HEMATOLOGY AND COAGULATION | 4 quarter hours
(Undergraduate)
In the Clinical Hematology Laboratory students will master blood counts and cellular classification. They also learn how to determine whether the oxygen-carrying red blood cells are in a healthy state, an essential procedure for diagnosis of anemia. In addition, the students will be shown how to classify the cells in the bone marrow to assist the pathologist in the identification of leukemia and other blood disorders. Tests are conducted in the Coagulation section of the Hematology Laboratory to determine the presence or absence of factors essential to normal blood coagulation. Special procedures are performed to identify acquired and inherited deficiencies of the coagulation proteins.

AHT 376 | ADVANCED APPLICATIONS IN HEMATOLOGY AND COAGULATION | 4 quarter hours
(Undergraduate)
This is a lecture course presenting in depth theory, pathophysiology, and high level of problem solving commonly seen in the laboratory. This didactic portion of the program is presented by pathologists, PhD scientists and experienced Medical Laboratory Scientists.

AHT 378 | FUNDAMENTALS OF CLINICAL MICROBIOLOGY | 1 quarter hour
(Undergraduate)
The Microbiology Laboratory deals with the isolation and identification of potentially pathogenic microorganisms. In many cases the laboratory also determines the susceptibility of the etiologic agent to a variety of antibiotics. This laboratory is divided into Bacteriology, Mycology, Mycobacteriology, Parasitology, and Virology. Bacteriology is concerned with the various bacteria that may cause direct destruction of tissue or harmful sequelae. Throat, urine, stool, blood, wound and sputum cultures are some of the types of specimens received for processing.

AHT 379 | CLINICAL MICROBIOLOGY | 4 quarter hours
(Undergraduate)
This course presents an ideal learning environment for the development of fundamental laboratory skills in Clinical Microbiology. This experience includes lecture presentations, demonstrations, clinical observations and hands-on practical experience. In this introductory student microbiology laboratory course, students learn to prepare and stain gram smears in order to identify microorganisms. The students will learn to prepare and read culture plates.

AHT 380 | ADVANCED APPLICATION OF MICROBIOLOGY | 5 quarter hours
(Undergraduate)
This is a lecture course presenting in depth theory, pathophysiology, and high level of problem solving commonly seen in the laboratory. This didactic portion of the program is presented by pathologists, PhD scientists and experienced Medical Laboratory Scientists.

AHT 381 | APPLICATIONS OF CLINICAL VIROLOGY | 1 quarter hour
(Undergraduate)
Virology course approaches the study of viruses and isolating viruses such as influenza, chicken pox, cytomegalovirus, and herpes from clinical specimens utilizing advanced molecular techniques. Students will learn to perform these routine methods and procedures commonly used identify these and other viruses. Highly sensitive nucleic acid amplification methods, including real-time PCR, are used to detect low concentrations of infectious agents such as Herpes simplex. Quantitative (viral load) tests for hepatitis C and HIV nucleic acid are used to monitor response to therapy. Analysis of mutated genes is performed to evaluate patients with clotting disorders, and clonal gene rearrangement studies are used in the diagnosis of lymphomas.

AHT 382 | PARASITOLOGY | 1 quarter hour
(Undergraduate)
In the Parasitology course, specimens are examined for the presence of amoebae, malarial organisms, worms and their ova, and flagellates. Larger parasites, such as mites, fleas or ticks are also identified so the appropriate disease diagnosis can be made, treatment started, and public health concerns addressed.

AHT 383 | MYCOLOGY | 1 quarter hour
(Undergraduate)
Mycology deals with fungi that may infect man on the surface of the skin (i.e., ringworm) or cause systemic complications (i.e., histoplasmosis). Mycobacteriology is the study of such organisms as that which causes tuberculosis.

AHT 384 | FUNDAMENTALS OF IMMUNOHEMATOLOGY | 1 quarter hour
(Undergraduate)
The student will master the techniques of ABO blood grouping methods, Rh testing, crossmatching and identification of red blood cell antibodies. In addition, the student learns about the preparation and use of blood components and observes blood collection procedures including whole blood and apheresis donations, as well as hematopoietic progenitor cell collection. Blood bank activities require close coordination with the clinical care units, so students in this laboratory have a sense of direct involvement in patient care.

AHT 385 | FUNDAMENTALS OF IMMUNOHEMATOLOGY AND TRANSFUSION MEDICINE | 4 quarter hours
(Undergraduate)
This basic laboratory course presents the development of fundamental laboratory skills in blood banking and transfusion medicine. This experience includes lecture presentations, demonstrations, clinical observations and hands-on practical experience. During the blood bank laboratory course, the student will master ABO & Rh phenotyping, the indirect antiglobulin test and identify simple red blood cell antibodies. Immediate spin and indirect antiglobulin crossmatch techniques are also learned.

AHT 386 | ADVANCED APPLICATIONS OF IMMUNOHEMATOLOGY | 3 quarter hours
(Undergraduate)
This is a lecture course presenting in depth theory, pathophysiology, and high level of problem solving commonly seen in the laboratory. This didactic portion of the program is presented by pathologists, PhD scientists and experienced Medical Laboratory Scientists.

AHT 387 | FUNDAMENTALS OF IMMUNOPATHOLOGY | 1 quarter hour
(Undergraduate)
This basic laboratory course presents an ideal learning environment for the development of fundamental laboratory skills in Immunology and serology. This experience includes lecture presentations, demonstrations, clinical observations and hands-on practical experience.

AHT 388 | CLINICAL IMMUNOPATHOLOGY | 2 quarter hours
(Undergraduate)
The Immunopathology Laboratory performs state-of-the-art testing in Flow Cytometry and Diagnostic Immunology. In Flow Cytometry special emphasis is placed on diagnosis of leukemias and lymphomas and monitoring of immunologic pathologies. Rotation through the Immunology section includes performance of protein chemistry and infectious disease serology; detection of tumor markers; and pregnancy and prenatal diagnosis.
American Sign Language (ASL)

ASL 101 | AMERICAN SIGN LANGUAGE I | 4 quarter hours
(Undergraduate)
This course is a basic introduction to American Sign Language (ASL), the language used by Deaf people in the United States and most of Canada. This course will help students develop their expressive and receptive ASL skills. Students will also learn about Deaf culture since a language cannot be separated from its culture.

ASL 102 | AMERICAN SIGN LANGUAGE II | 4 quarter hours
(Undergraduate)
This is the second Basic American Sign Language course in a series of ASL courses. Students will develop expressive and receptive ASL skills through discussions of topics such as giving directions, describing others, making requests, talking about family and occupations, and daily routines or activities. In addition, students will develop storytelling skills. Throughout the session, readings about Deaf culture will also be incorporated since a language cannot be separated from its culture.

ASL 103 | AMERICAN SIGN LANGUAGE III | 4 quarter hours
(Undergraduate)
This is the third Basic American Sign Language course in a series of ASL courses. Students will develop expressive and receptive ASL skills through discussions of topics such as giving directions, describing others, making requests, talking about family and occupations, attributing qualities to others, and talking about routines. Students will also learn about Deaf culture, since a language cannot be separated from its culture.

ASL 103S | AMERICAN SIGN LANGUAGE III FOR SUMMER | 6 quarter hours
(Undergraduate)
(Covers the equivalent of the second half of ASL 102 and all of ASL 103.) The second half of beginning American Sign Language. Students will develop expressive and receptive ASL skills through discussions of such topics as giving directions, describing others, making requests, talking about family and occupations, attributing qualities to others, and talking about routines. Students will also learn about Deaf culture, since a language cannot be separated from its culture.

ASL 104 | INTERMEDIATE AMERICAN SIGN LANGUAGE I | 4 quarter hours
(Undergraduate)
Intensive practice in the use of American Sign Language, expanding from beginners’ skills acquired in Basic American Sign Language (ASL) courses. The course involves intensive practice in the use of American Sign Language, and continued enhancement of the cultural awareness intrinsic to those skills. ASL 103 or equivalent, including placement test or permission of instructor, is recommended.

ASL 105 | INTERMEDIATE AMERICAN SIGN LANGUAGE II | 4 quarter hours
(Undergraduate)
This course is a continuation of American Sign Language (ASL), Level Two. It includes vocabulary-building and mastery of grammar through rigorous receptive and expressive language activities. Topics discussed in ASL include exchanges of personal information or life events, description of abstract objects, and continued enhancement of the cultural awareness intrinsic to those skills. ASL 104 or equivalent, including placement test or permission of instructor, is recommended.

ASL 106 | INTERMEDIATE AMERICAN SIGN LANGUAGE III | 4 quarter hours
(Undergraduate)
Intensive practice in the use of American Sign Language, and continued enhancement of the cultural awareness intrinsic to those skills. Continuation of ASL 105. ASL 105 or equivalent, including placement test or permission of instructor, is recommended.

ASL 199 | INDEPENDENT STUDY | 0.5-8 quarter hour
(Undergraduate)
Variable credit.

ASL 201 | ADVANCED COMMUNICATION | 4 quarter hours
(Undergraduate)
Advanced level intensive practice in the use of American Sign Language, and continued enhancement of the cultural awareness intrinsic to those skills. ASL 106 or equivalent, including placement test or permission of instructor, is recommended.

ASL 202 | ADVANCED COMMUNICATION II | 4 quarter hours
(Undergraduate)
Advanced level intensive practice in the use of American Sign Language, and continued enhancement of the cultural awareness intrinsic to those skills. Continuation of ASL 201. ASL 106 or equivalent, including placement test or permission of instructor, is recommended.

ASL 203 | ADVANCED COMMUNICATION III | 4 quarter hours
(Undergraduate)
Advanced level intensive practice in the use of American Sign Language, and continued enhancement of the cultural awareness intrinsic to those skills. Continuation of ASL 202. ASL 106 or equivalent, including placement test or permission of instructor, is recommended.

ASL 299 | INDEPENDENT STUDY | 0.5-8 quarter hour
(Undergraduate)
Variable credit.

ASL 305 | AMERICAN SIGN LANGUAGE LITERATURE | 4 quarter hours
(Undergraduate)
This course will focus on selected ASL videotapes and films ranging from the early 1900’s to the present. It shares similar elements and functions with any literature in any language. Students will study the historical background of deaf actors and actresses in silent films, analyze the content of stories, discuss grammatical features in ASL or ASL expressions signed by deaf people, and discuss the various signing registers and styles revealed in these contents. ASL 106 or equivalent, including placement test or permission of instructor, is recommended.
ASL 306 | ARTS IN THE DEAF COMMUNITY | 4 quarter hours  
(Undergraduate)  
A study of arts in the deaf community including the history and movement of De'VIA. Students will develop awareness and recognition of Deaf professional artists and the respective meaning behind their work. ASL 106 or equivalent, including placement test or permission of instructor, is recommended.

ASL 310 | DEAF CULTURE | 4 quarter hours  
(Undergraduate)  
This course is an introduction to concepts and issues in Deaf culture and the Deaf community. This course emphasizes the Deaf community as a linguistic and American cultural minority, the importance of language and education of the deaf people, as well as values, traditions, political activism and diversity in this group. ASL 106 or equivalent, including placement test or permission of instructor, is recommended.

ASL 311 | DEAF-BLIND COMMUNITY | 4 quarter hours  
(Undergraduate)  
An introduction to various aspects of the deaf-blind community including cultural norms and modes of communication used with deaf-blind communities. Students will develop an understanding of the role of Support Service Provider (SSP) or sighted guide. Opportunities for hands-on experience and interaction with the deaf-blind community will be provided. This course will be open to students who may or may not have had prior experiences with the deaf-blind community. ASL 106 or equivalent, including placement test or permission of instructor, is recommended.

ASL 321 | ART OF TRANSLATION | 4 quarter hours  
(Undergraduate)  
This course focuses on development of written English translations from ASL and verbal translation from ASL into English. This course will train students to focus on the meaning expressed in ASL concepts and provide proper translations. ASL 106 or equivalent, including placement test or permission of instructor, is recommended.

ASL 352 | ASL LINGUISTICS | 4 quarter hours  
(Undergraduate)  
This course will help students understand the basic concepts of linguistics as they think critically about ASL structure, including the fundamental areas of phonology, morphology, syntax, semantics, and language in use. Also, it will help students compare and contrast ASL and English structures. Additionally, it will provide students with the ability to understand how people can communicate through different kinds of systems, including languages which have several features. ASL 106 or equivalent, including placement test or permission of instructor, is recommended.

ASL 353 | FINGERSPELLING | 4 quarter hours  
(Undergraduate)  
This course will teach the theory behind fingerspelling and will train students on how to process serial information. Students will be able to identify invisible allophones and improve their receptive fingerspelling skills. ASL 106 or equivalent, including placement test or permission of instructor, is recommended.

ASL 354 | SOCIOLINGUISTICS FOR THE DEAF COMMUNITY | 4 quarter hours  
(Undergraduate)  
This course focuses on issues affecting the Deaf community and studies the use of ASL in society, along with policies created for and attitudes towards the Deaf community. Students will broaden their understanding of the Deaf community by engaging in discourse analysis as well as interacting with the different populations in the Deaf community. ASL 106 or equivalent, including placement test or permission of instructor, is recommended.

ASL 356 | ARTS IN THE DEAF COMMUNITY | 4 quarter hours  
(Undergraduate)  
A study of arts in the deaf community including the history and movement of De'VIA. Students will develop awareness and recognition of Deaf professional artists and the respective meaning behind their work. ASL 106 or equivalent, including placement test or permission of instructor, is recommended.

American Studies (AMS)

AMS 102 | INTRODUCTION TO U.S. POPULAR MUSIC STUDIES | 4 quarter hours  
(Undergraduate)  
Popular music is a commercial, mass-mediated art form that has enormous social impact, shaping our identities, tastes, and cultural understanding in ways that are both deeply personal and more broadly political. This course introduces students to the study of popular music in a number of ways: as a form of mass-produced music with a specific industrial and social history; as a media product differentiated industrially through different genres, producers, stars, and targeted audiences; as a cultural product that both reflects and produces meaning within specific historical and social contexts; and as a source of affective investment, identity formation, community and socio-political meaning for audiences. In our examination of popular music, we will focus largely on popular music’s development as a mass media form within the United States, although popular music’s international influence will be acknowledged as well. Within that context, we will examine the way popular music both maintains and disrupts cultural hierarchies of class and taste, as well as often simultaneously erasing and exposing social differences and inequalities (such as those of race, ethnicity, religion, sexuality, gender, language, age, region, ability, etc.). A great deal of the course will involve actively listening to and analyzing popular music in its various forms and contexts; students will examine how popular music has impacted their own lives as well as those of others. Through our analysis of the complexities of popular music, we hope to better understand the significance of the role popular music has played and continues to play in shaping the cultures in which we live.
AMS 150 | PERSPECTIVES ON AMERICAN IDENTITIES | 4 quarter hours (Undergraduate)
This course explores a variety of perspectives on what it means to be an American in the modern world, looking through polarities such as: inclusion and exclusion, urban and suburban life, localism and globalization, high culture and mass culture, wealth and poverty, freedom and incarceration.

AMS 200 | AMERICAN SOCIAL HISTORY AND CULTURE | 4 quarter hours (Undergraduate)
This course will provide an overview of the central themes of American History from the colonial period to the present with a focus on social, popular, and cultural history.

AMS 201 | CRITICAL AMERICAN STUDIES | 4 quarter hours (Undergraduate)
Using a range of interdisciplinary theories and methods, this course introduces students to critical American Studies as a field of scholarship that challenges the idea of the United States as socially and politically exceptional. Required course for AMS majors and minors.

AMS 202 | UNITED STATES POPULAR MUSIC HISTORY | 4 quarter hours (Undergraduate)
This course introduces students to the historical significance of popular music in the United States from the 1890s to the present.

AMS 211 | AMERICAN EXPERIENCE: EARLY AMERICA TO 1860 | 4 quarter hours (Undergraduate)
This course focuses on America before the Civil War. Students will engage in project-based work that will examine a variety of texts, as well as material and visual culture in order to examine the competing themes and diverse voices that form American experience during this era. AMS 200 or HST 181 recommended, but not required prior to enrolling in this course.

AMS 213 | AMERICAN EXPERIENCE: FROM 1860 TO 1941 | 4 quarter hours (Undergraduate)
This course focuses on America between the Civil War and World War II. Students will engage in project-based work that will examine both visual culture and literature in order to examine the competing themes and diverse voices that form American experience during this era. AMS 200 or HST 182 recommended, but not required prior to enrolling in this course.

AMS 215 | AMERICAN EXPERIENCE: FROM 1941 TO PRESENT | 4 quarter hours (Undergraduate)
This course focuses on America from World War II to the present. The course engages students in project-based works that utilizes multiple methodologies, primary sources, a range of texts, and material and visual culture. AMS 200 or HST 183 recommended, but not required prior to enrolling in this course.

AMS 220 | AMERICAN BUDDHISMS: RACE AND RELIGIOUS DIVERSITY | 4 quarter hours (Undergraduate)
This course critically analyzes the origins of Buddhism in the United States in order to fully understand how and why Buddhism has flourished in Asian and White American communities, and to understand the conflict and controversy surrounding the racial dynamics of religious choice.

AMS 230 | ASIAN AMERICAN HISTORIES | 4 quarter hours (Undergraduate)
This course introduces the pre-1965 comparative histories of people of Chinese, Japanese, Korean, Indian, Filipino, and Southeast Asian ancestry from their arrival in significant numbers in the United States beginning in the 19th century. Two questions orient this course: 1) whether there is an historical validity to the category of Asian American, and if so, the extent to which the category is relevant today in light of differences across gender, sexuality, class, ethnicity, and religion, among others; and 2) how the Asian Pacific American experience challenges and redefines American race relations to provide a more complex understanding of existing structures of power. Cross-listed with AAS 200.

AMS 240 | CHICAGO HISTORY, GEOGRAPHY, AND CULTURES | 4 quarter hours (Undergraduate)
A history of the founding and development of Chicago from a frontier village to a major industrial, commercial and cultural center. The course will provide an interdisciplinary study of Chicago, with special attention to Chicago’s urban geography, built environment (i.e., housing/architecture), neighborhood shifts, and diverse cultures. Cross-listed with HST 240 and GEO 231.

AMS 250 | IN THEIR OWN VOICES: AMERICAN AUTOBIOGRAPHY | 4 quarter hours (Undergraduate)
This course presents a range of American autobiographies, from different places and from times ranging from Colonial to modern. The selected authors represent varying backgrounds and races.

AMS 261 | AMERICAN ETHNICITIES 1800-1945 | 4 quarter hours (Undergraduate)
This course will be an exploration of the development of American ethnic communities and identities in the 19th and early 20th centuries. Students will examine the American experience through the lens of ethnic groups and racialized ethnic populations and consider how ethnicity has shaped and influenced American history. We will study the experiences of American ethnic groups based on historical, social, and political factors such as immigration and citizenship, slavery and racialization, gender and patriarchy, religion and family, and the relationships between and among ethnic groups.

AMS 265 | PACIFIC WORLD: NORTH AMERICA AND THE PACIFIC, 1776 - 1945 | 4 quarter hours (Undergraduate)
This course will examine the nature of American identity in the west. Hawai‘i and California represent the extreme edge of the American frontier. The focus will be on the shifting meanings of “native” and “stranger.” How did the status of indigenous peoples foster a sense of identity and place for migrants? How did immigrants understand their role in the political economy? How did racial discourses on the frontier shape the shifting definitions of citizenship? How did race affect America’s ambivalent approach to imperialism?

AMS 275 | HISTORY OF SEX IN AMERICA 1: COLONIAL TO LATE NINETEENTH CENTURY | 4 quarter hours (Undergraduate)
This course will provide an overview of the history of American sexuality from the colonial period to the late 19th century.
AMS 276 | HISTORY OF SEX IN AMERICA 2: LATE VICTORIANS TO THE PRESENT | 4 quarter hours  
(Undergraduate)  
This course will provide an overview of the history of American sexuality from the late nineteenth century to the present. Cross-listed with HST 276.

AMS 280 | POLITICS AND HISTORY OF THE VIETNAM WAR | 4 quarter hours  
(Undergraduate)  
This course examines both the history of American involvement in Vietnam and the lasting effect on American politics and culture.

AMS 285 | HISTORY AND U.S. POPULAR MEDIA | 4 quarter hours  
(Undergraduate)  
This course examines United States history and popular media. Depending on the instructor, it may focus on how United States history has been depicted in popular media or it may emphasize the history and development of popular media. Contact instructor for syllabus.

AMS 290 | AMERICAN VOICES: TO 1860 | 4 quarter hours  
(Undergraduate)  
Focusing on the era prior to the United States Civil War, this course provides an integrated, multidisciplinary view of American culture and ideas, addressing the questions: "What is America? What does it mean to be an American?" The courses are focused on primary sources, mostly first person narratives and fiction, developing methods for analyzing and interpreting these sources.

AMS 291 | AMERICAN VOICES: FROM 1860 ONWARD | 4 quarter hours  
(Undergraduate)  
Focusing on the era after the United States Civil War, this course provides an integrated, multidisciplinary view of American culture and ideas, addressing the questions: "What is America? What does it mean to be an American?" The courses are focused on primary sources, mostly first person narratives and fiction, developing methods for analyzing and interpreting these sources.

WRD 104 or HON 100 or HON 101 is a prerequisite for this class.

AMS 292 | TOPICS IN AMERICAN STUDIES THEORIES AND METHODS | 4 quarter hours  
(Undergraduate)  
Variable topics that will prepare you to integrate a range of disciplinary understandings and methods into your written and oral analyses of American culture. Consult course schedule for current listings.

AMS 293 | TOPICS IN AMERICAN MATERIAL CULTURE AND THE BUILT ENVIRONMENT | 4 quarter hours  
(Undergraduate)  
Variable topics. Consult course schedule for current listings.

AMS 294 | TOPICS IN AMERICAN POLITICS, INSTITUTIONS, AND VALUES | 4 quarter hours  
(Undergraduate)  
Variable topics. Consult course schedule for current listings.

AMS 295 | SPECIAL TOPICS IN AMERICAN STUDIES | 4 quarter hours  
(Undergraduate)  
Special Topics in American Studies. Consult schedule for topic.

AMS 296 | TOPICS IN AMERICAN POPULAR CULTURE AND MEDIA | 4 quarter hours  
(Undergraduate)  
Variable topics. Consult course schedule for current listings.

AMS 297 | TOPICS IN AMERICAN RACE AND ETHNIC STUDIES | 4 quarter hours  
(Undergraduate)  
Variable topics. Consult course schedule for current listings.

AMS 298 | TOPICS IN AMERICAN SOCIAL AND LITERARY MOVEMENTS | 4 quarter hours  
(Undergraduate)  
Variable topics. Consult course schedule for current listings.

AMS 301 | SENIOR SEMINAR | 4 quarter hours  
(Undergraduate)  
The Senior Seminar is an integrative course conducted primarily as a colloquium. Emphasis will be placed on discussion and independent research and writing.

AMS 302 | CRITICAL RACE AND ETHNIC STUDIES | 4 quarter hours  
(Undergraduate)  
This seminar will serve as an introduction to key issues and methods in the comparative study of ethnicity and race. The course highlights an interdisciplinary approach to the studies of systematic oppression in the United States, and the global implication of these structures. We will consider how Ethnic Studies presents a progressive intellectual challenge to global and local configurations of power in the name of global justice. Among our methods will be an intersectional theoretical analysis of the identities of race, gender, class, nation, sexuality, ability and religion. Readings will cover Kimberle Crenshaw’s and others theories of intersectionality, black feminist standpoint epistemology, postcolonial theory, mestiza feminism and other critical mixed race theories, queer critical theory, settler racism and state violence, as well as creative and political movements of resistance and social change. AMS 201 is a prerequisite for this class.

AMS 329 | POWER, OPPRESSION, RESISTANCE: APPROACHES TO CRITICAL RACE AND ETHNIC STUDIES | 4 quarter hours  
(Undergraduate)  
This course will provide an overview of the history of American Popular Culture institutions and products in the United States from 1890-1930s, including the rise of corporate nationalism in live performances such as vaudeville and radio, as well as the development of mass media industries including sheet music, advertising, records, and film. Discussions will include attention to industrial practices, textual properties, and audience reception of these cultural products.

AMS 350 | AMERICAN POPULAR CULTURE: 1890s - 1930s | 4 quarter hours  
(Undergraduate)  
Students in this course will focus on the industrial developments, cultural significance and social effects of American Popular Culture institutions and products in the United States from 1890-1930s, including the rise of corporate nationalism in live performances such as vaudeville and radio, as well as the development of mass media industries including sheet music, advertising, records, and film. Discussions will include attention to industrial practices, textual properties, and audience reception of these cultural products.

AMS 352 | SEX, GENDER AND SOCIAL MEDIA | 4 quarter hours  
(Undergraduate)  
This course focuses on the gendered and sex/sexuality content of major social media platforms and networking sites, such as Facebook, Youtube, Twitter, Pinterest, Reddit, and tumblr. We will ground our understanding of social media platforms in the context of established scholarship on social community development, cultural and media studies, and feminist and queer (LGBTQA) studies. Although our emphasis is on sexual and gendered aspects of identity, we will always view subjects as multiply-identified according to, most prominently, class, race, ethnicity, religion, nationality, and ability. We will examine how these platforms offer new opportunities for sexual education, sexual and erotic/romantic expression, the negotiation and exploration of sexual and gender identities, and feminist/queer media criticism, social activism, and community. We will also explore the more troubling aspects of social media, particularly its connection with global capitalism and neoliberal ideology, as well as how these platforms have provided new forums for public attacks on women and queer people.
AMS 360 | AMERICAN FILM | 4 quarter hours  
(Undergraduate)  
Analyzes cultural and cinematic histories and film as a social practice  
circulating cultural values as well as critiquing ideologies. Students will  
gain understanding of major critical and theoretical approaches and  
engage in research, critical thinking, and writing on topic areas. Variable  
specific topics. e.g. assimilation narratives, war in film, sports in film,  
Asian American film.

AMS 370 | THE MATERIAL CULTURE OF MODERN AMERICA | 4 quarter hours  
(Undergraduate)  
AMS 370 combines historical archaeology and material culture studies to  
examine how material goods both shape and reflect American identity in  
the nineteenth and twentieth centuries.

AMS 371 | MATERIAL CULTURE OF EARLY AMERICA | 4 quarter hours  
(Undergraduate)  
Combines historical archaeology and material culture studies to examine  
how material goods both shape and reflect American identity in the  
colonial period and early nineteenth century.

AMS 380 | TELEVISION AND AMERICAN IDENTITY | 4 quarter hours  
(Undergraduate)  
This course is about how television represents Americans and how  
Americans have responded to these representations. The course engages  
in close textual analysis of several television texts, to familiarize students  
with television industry narrative structures and strategies, examines  
several specific representational struggles, and surveys and discusses  
the many ways in which television viewers and fans engage with the text.

AMS 386 | ADVANCED TOPICS IN AMERICAN POPULAR CULTURE AND MEDIA | 4 quarter hours  
(Undergraduate)  
Variable topics. Consult course schedule for current listings.

AMS 387 | ADVANCED TOPICS IN GENDER AND SEXUALITY STUDIES IN THE U.S./AMERICAS | 4 quarter hours  
(Undergraduate)  
The focus in this course will be to use the interdisciplinary lens of  
gender and sexuality to gain a deeper understanding of diverse cultural  
landscapes within the United States and/or the Americas. The course  
will draw from current academic perspectives including social and  
cultural history, the history of medicine and psychology, legal and political  
history, literature, mass media and/or gender studies. Variable emphasis  
on particular historical periods or topics will depend on the instructor.  
Please consult class schedule for most current offerings. This course is  
repeatable when different topics are taken.

AMS 388 | ADVANCED TOPICS IN AMERICAN SOCIAL AND LITERARY MOVEMENTS | 4 quarter hours  
(Undergraduate)  
Variable topics. Consult course schedule for current listings.

AMS 392 | INTERNSHIP | 1-4 quarter hours  
(Undergraduate)  
Internship. Majors and minors only. Variable credit.  
An American Studies major or minor is a prerequisite for this class.

AMS 393 | ADVANCED TOPICS IN AMERICAN MATERIAL CULTURE AND THE BUILT ENVIRONMENT | 4 quarter hours  
(Undergraduate)  
Variable topics. Consult course schedule for current listings.

AMS 394 | ADVANCED TOPICS IN AMERICAN POLITICS, INSTITUTIONS, AND VALUES | 4 quarter hours  
(Undergraduate)  
Variable topics. Consult course schedule for current listings.

AMS 395 | ADVANCED TOPICS IN AMERICAN STUDIES | 4 quarter hours  
(Undergraduate)  
Topics in American Studies.

AMS 396 | AMERICAN STUDIES COLLOQUIUM | 12.00 quarter hours  
(Undergraduate)  
These courses involve participation in events and/or conferences on  
selected topics related to American culture studies. Class participants  
attend and participate in events, keep a reflective journal connecting  
the events, do related readings, and write a reflective summary on the  
colloquium as a whole. Variable credit.

AMS 397 | ADVANCED TOPICS IN AMERICAN RACE AND ETHNIC STUDIES | 4 quarter hours  
(Undergraduate)  
Variable topics. Consult course schedule for current listings.

AMS 398 | STUDY TOUR | 1-8 quarter hours  
(Undergraduate)  
An on-site overview of the historical, political, social and economic  
connections between the United States and a foreign country. Credit  
variable.

AMS 399 | INDEPENDENT STUDY | 1-4.5 quarter hours  
(Undergraduate)  
Independent Study. Majors only. Variable credit.  
An American Studies Major is a prerequisite for this class.

**Animation (ANI)**

ANI 101 | ANIMATION FOR NON-MAJORS | 4 quarter hours  
(Undergraduate)  
Course introduces a variety of basic animation techniques for cinema  
and gaming, such as hand-drawn, cutout, stop-motion and (very basic)  
3D, with an emphasis on the use of computer technology. Examples  
of diverse animation genres and styles (experimental, cartoon, anime,  
special effects, computer games) from different cultures will be screened  
and discussed. Students will explore the unique qualities of the medium  
through a series of hands-on projects that can be adapted to their own  
personal interests. They will learn about professional animation process  
(Storyboard and animatic) during the production of a final project that  
encourages them to consider the role and potential of animation in our  
society.

ANI 105 | MOTION GRAPHICS FOUNDATIONS | 4 quarter hours  
(Undergraduate)  
This course introduces the basic principles of composition, color, light,  
and motion as applied to cinema and animation. Design for screen,  
staging, effective use of text, graphical elements, video, and motion are  
covered. These skills will be applied in projects that stress conceptual  
and technical development.

ANI 150 | AFTER EFFECTS WORKSHOP | 2 quarter hours  
(Undergraduate)  
This class will introduce students to the fundamentals of After Effects,  
including key-framing, compositing and rendering. Topics and techniques  
covered during lectures will be reinforced through in-class exercises and  
projects. (2 quarter hours)
ANI 151 | ADOBE ANIMATE WORKSHOP | 2 quarter hours  
(Undergraduate)  
This class will introduce students to the fundamentals of creating animation using Abode Animate, including tweening and frame-by-frame drawn animation. This class does not cover Action Script programming. Topics and techniques covered during lectures will be reinforced through in-class exercises and projects. (2 quarter hours)

ANI 152 | TVPAINT WORKSHOP | 2 quarter hours  
(Undergraduate)  
This workshop course offers a complete basic knowledge of using TVPaint animation software to produce hand-drawn animation. Topics and techniques covered during lectures will be reinforced through in-class exercises and projects. Prerequisite(s): none (2 quarter hours)

ANI 153 | HARMONY WORKSHOP | 2 quarter hours  
(Undergraduate)  
This workshop course offers a complete basic knowledge of using Toon Boom Harmony animation software to produce hand-drawn animation. Topics and techniques covered during lectures will be reinforced through in-class exercises and projects. PREREQUISITE(S): None (2 quarter hours)

ANI 154 | DIGITAL PAINTING WORKSHOP | 2-2.5 quarter hours  
(Undergraduate)  
This course will investigate the image making possibilities of TVPaint and Photoshop in the creation of digital paintings and animations. The principles and practice of traditional painting (oil, acrylic and watercolor) will be applied to a digital image making practice, including the use of custom made brushes, filters, opacity, layer modes and texturing tools to create realistic and abstract imagery. PREREQUISITE(S): None.

ANI 155 | CINEMA 4D WORKSHOP | 2-2.25 quarter hours  
(Undergraduate)  
This course focuses on Maxon's CInema 4D, a 3D package that is the standard for 3D motion graphics and title design work. The class will include demonstrations and workshops on the fundamentals of Cinema 4D and CINEWARE, a plugin that acts as a bridge between After Effects and C4D. Tutorial topics will include: user interface, modeling, materials, lighting, cameras, 3D type, and compositing. Examples of work done by industry professionals will be examined each week. PREREQUISITE(S): None.

ANI 201 | ANIMATION I | 4 quarter hours  
(Undergraduate)  
This course is an introduction to the art and practice of animation. It is a studio-based class, which will emphasize learning through process, experimentation and creation. Students will explore the limitless possibilities of animated motion in the context of cinema, computer games and the Internet. All genres and styles are within the scope of this class, including Anime, cartoons, computer game art, experimental art and special effects. In addition to how, we will also explore and discuss why, as well as the role and potential of animation in our society and its place in other cultures. This course is designed for the student who wishes to pursue further study in the field, and provides intensive practice of the basic skills and methods through production. PREREQUISITE(S): ANI 105 or ART 105 or GD 105 or DES 141.

ANI 206 | HISTORY OF ANIMATION | 4 quarter hours  
(Undergraduate)  
This course is an introduction to the history and development of the field of animation. We will explore this subject from various perspectives: by chronology, from its prehistory before the invention of film to the present day; by form, including method and medium; by culture, comparing the US to Japan, Russia, Europe and others; by subject; and by personality, concentrating on the figures who have shaped the art form and continue to influence it through their example. Students are expected to bring an enthusiastic interest in the medium, and to devote serious effort to reading about, viewing, researching and discussing animation and the artists who have created it.

ANI 207 | ANIME HISTORY | 4 quarter hours  
(Undergraduate)  
This course is an introduction to the history, development and cultural significance of Japanese animation. We will explore how historical and cultural concepts of Japan have translated to the screen, as well as the influence of economic forces and changing technology. Students will gain an insight into anime's origins and cultural influences through an examination of the World War II, post-war, mid- and late-twentieth-century historical periods of Japan. This class will analyze particular examples of anime and anime artists in their historical context, emphasizing the use of primary sources.

ANI 220 | STORYBOARDING AND NARRATIVE DEVELOPMENT | 4 quarter hours  
(Undergraduate)  
This class will focus primarily on storyboarding and the aesthetic and practical uses of research, treatments, drawings, and found images as tools in the production of animations, films and game cinematics. Students will complete a series of assignments that will utilize different methods of finding inspiration to make a cohesive, narrative work. Various methods used in both commercial and independent productions will be presented as examples, and pre-production work from both live action and animated films will be viewed throughout the quarter. Students will create several storyboards for short films, write treatments, and research design options. PREREQUISITE(S): ANI 101, ANI 201 or DC 110.

ANI 222 | ILLUSTRATION FOUNDATIONS | 4 quarter hours  
(Undergraduate)  
This course will focus on improving the basic skills needed for creating concept art and storyboards for animation and games. Areas of focus include practical perspective, technical rendering, observational drawing and color theory. These skills will be applied in basic prototyping projects. PREREQUISITE(S): GD 105 or ANI 105.

ANI 225 | MAKING COMICS | 4 quarter hours  
(Undergraduate)  
This course introduces students to the components of graphic narrative, including superhero and alternative comics, comic strips, manga, and graphic novels. Students will learn fundamental materials and techniques, including penciling and inking, digital painting and coloring, and publishing, and create their own graphic narratives. The course will also provide an overview of the history of comics and graphic storytelling, and their relation and importance to the art of animation. PREREQUISITE(S): ART 106.
ANI 226 | Traditional Materials for Animation | 4 quarter hours
(Undergraduate)
This course will have a rotating focus on various traditional art making practices to broaden animation students' visual vocabulary beyond the digital. Students will use hands-on art making processes and strategies to explore color theory, tone, volume, texture, line quality, as well as strategies to incorporate them into their animation practice. Topics may include: collage, sculpture, puppets, fiber arts, wet or dry media on paper. Course is repeatable with different topics.

ANI 230 | 3D DESIGN & MODELING | 4 quarter hours
(Undergraduate)
Students will use computer modeling to explore the principles of 3-dimensional design. Projects involving object, character and architectural modeling will emphasize the aesthetic concepts of spatial proportion (scale, angle and position), silhouette, negative space, rhythm, balance, light/shadow and texture. Students will emerge with the ability to create well designed 3D models, and be familiar with the basics of polygonal modeling, texturing, lighting and rendering for animation, computer games and cinema. PREREQUISITE(S): None.

ANI 231 | 3D ANIMATION | 4 quarter hours
(Undergraduate)
In this course, students will be introduced to animation in 3D through the use of traditional animation principles. Topics will include: animation fundamentals, keyframing, splining, animated cameras, rendering, and an introduction to rigging basic characters. Emphasis will be placed on using the computer as a tool to create animation for film and games. PREREQUISITE(S): ANI 230.

ANI 240 | ANIMATION PRODUCTION I | 4 quarter hours
(Undergraduate)
This course will concentrate on facilitating the student's production of animation projects. The topics of idea generation, experimentation, problem solving, planning and time management, and the process of critical analysis will be applied to the student's work, with the choice of animation technique, content and form left to the individual. Students will learn the importance of bringing projects to completion.

ANI 321 and (ANI 201 or ANI 101) are prerequisites for this class.

ANI 260 | MOTION GRAPHICS | 4 quarter hours
(Undergraduate)
This course will introduce the student to effective communication using motion graphics, including its application in the areas of film titles, broadcast and commercial design, interactive media, and gaming. The combination of music, visuals and typography will be explored following the basic theories of kinetic composition and aesthetics. Students will study the history of the field, including the work of pioneers such as Norman McLaren, Saul Bass and Len Lye. PREREQUISITE(S): Sophomore Standing and one of the following: ANI 105, ANI 101, ANI 201, GD 105, ART 105, DC 205.

ANI 300 | 3D CHARACTER ANIMATION | 4 quarter hours
(Undergraduate)
This course explores the art and techniques for character performance in 3D. Students will study and employ fundamental principles for character animation beginning with the essentials of blocking and inbetweening, and continuing with core mechanics including walk cycles, expressions, and lip sync. Students are required to animate weekly shots culminating in a final lip synced character performance. ANI 231 is a prerequisite for this class.

ANI 301 | ADVANCED 3D CHARACTER ANIMATION | 4 quarter hours
(Undergraduate)
This course introduces advanced concepts in 3D character animation that are necessary for achieving professional quality results. Students will hone their skills through the study of advanced techniques for animating multiple characters, creating continuity, and building character through performance. An emphasis will be placed on the exploration of movement for developing personal style. PREREQUISITE(S): ANI 300.

ANI 310 | MOTION CAPTURE | 4 quarter hours
(Undergraduate)
This course is a workshop focusing on realistic character motion obtained through motion capture. Students will learn the motion capture pipeline, including character skinning and mapping, planning and directing motion capture sessions, applying motion to a character and motion editing. PREREQUISITE(S): ANI 231 or GPH 338.

ANI 315 | AUDIO FOR ANIMATION | 4 quarter hours
(Undergraduate)
This class will explore concepts and practical techniques students need in order to address many of the unique requirements associated with creating audio for animated films. Students will begin with an introduction to the aesthetics of film sound and audio production before moving on to build practical recording and mixing skills. Lectures, readings, and practical projects will give students a working knowledge of how to approach and create the immense range of styles of audio for animated films.

ANI 320 | HAND-DRAWN ANIMATION | 4 quarter hours
(Undergraduate)
This course is devoted to the complex aspects and techniques of classical drawn animation required to create convincing movement, frame to frame consistency, and character acting. Beginning with a review of the fundamentals and progressing to more complicated techniques, students will learn how to create unique and technically accomplished drawn animation as well as methods for its eventual clean-up, inking and coloring. Contemporary uses of digital technology to enhance production will be emphasized. PREREQUISITE(S): ANI 201 (or ANI 101) and ART 106.

ANI 321 | ANIMATION MECHANICS | 4 quarter hours
(Undergraduate)
Students in this course will rigorously investigate the foundational aspects of animation through traditional and digital methods. Basic principles, including timing, spacing and the abstraction of movement, will be analyzed and questioned through experimentation. Students will experience how the process of making work can be used to generate emergent ideas, and be challenged to push the art form beyond the accepted conventions.

ANI 201 (or ANI 101) is a prerequisite for this class.

ANI 322 | ANIMATION HISTORY & PRACTICE | 4 quarter hours
(Undergraduate)
The history of animation is explored with a focus on inspiring the emergent ideas, and be challenged to push the art form beyond the accepted conventions.

ANI 201 (or ANI 101) is a prerequisite for this class.

ANI 322 | ANIMATION HISTORY & PRACTICE | 4 quarter hours
(Undergraduate)
The history of animation is explored with a focus on inspiring the emergent ideas, and be challenged to push the art form beyond the accepted conventions.

ANI 240.

(ANI 201 or ANI 101) is a prerequisite for this class.

ANI 240.
ANI 324 | STORY DEVELOPMENT | 4 quarter hours  
(Undergraduate)  
Students will elaborate on the skills from ANI 220 to create sophisticated pre-production for their own films, game cinematics and animations. Emphasis is placed on advanced story development, professional artistry and pre-visualization techniques such as converting a script to visual story reels or animatics. Students will combine the course with a fully-developed animatic for the story of their choosing. PREREQUISITE(S): ANI 220.

ANI 325 | VISUAL STORYTELLING | 4 quarter hours  
(Undergraduate)  
This class focuses on storyboarding and animatics as key pre-production tools for animation, film, and game development projects. Areas of focus include narrative development, drawing, performance, and editing. Students will apply these techniques to create an animatic: a comprehensive time-based draft for a short film. PREREQUISITE(S): ANI 240.

ANI 326 | VISUAL CONCEPT DEVELOPMENT | 4 quarter hours  
(Undergraduate)  
This course focuses on visual development and style guides for animation, cinema and game projects. Coursework involves character design, environmental design, prop design, lighting, color, texture and layout. Students will practice visual research, drawing and an array of digital tools to build the skills necessary to create an immersive world with a cohesive look and feel. PREREQUISITE(S): ILL 200 and ANI 230.

ANI 327 | HAND-DRAWN CHARACTER ANIMATION | 4 quarter hours  
(Undergraduate)  
In this course, students will be introduced to the traditional art of hand-drawn character performance. Topics covered will include acting, body mechanics, volume, weight, walk cycles, dialogue and facial expression. PREREQUISITE(S): ANI 321.

ANI 328 | ANIMATION FIGURE STUDY | 4 quarter hours  
(Undergraduate)  
This studio drawing class will focus on the drawing of the figure for use in animation and storyboarding. Students will gain a solid foundation in posing, gesture, and anatomy, and will learn how to give a character a sense of emotion and purpose. Students will gain experience and improve their drawing technique through weekly assignments and in-class exercises.

ART 218 and (ANI 201 or ANI 101) are prerequisites for this class.

ANI 329 | ADVANCED STORYBOARDING | 4 quarter hours  
(Undergraduate)  
This course elaborates on the skills from ANI 324 Story Development. Students will develop advanced techniques for storyboarding, staging, pre-production, character development and performance to support their original narrative stories. Rigorous exercises will emphasize visually dynamic composition, figure drawing applied to storyboarding, editing, continuity and sophisticated use of camera. Students will complete a final advanced storyboard and animatic edited with sound, which can be used as a portfolio piece for any aspiring storyboard artist. ANI 324 is a prerequisite for this course.

ANI 330 | 3D CHARACTER MODELLING | 4 quarter hours  
(Undergraduate)  
This course will instruct students in the process of 3D polygonal based character modeling. Students will learn professional techniques for building quad-based polygon meshes with an extra emphasis on proper topology to help prepare their model for rigging. Students will learn complete UV unwrapping for the entire figure as well as effective techniques for advanced texturing. PREREQUISITE(S): ANI 230 or GPH 250.

ANI 332 | 3D RIGGING | 4 quarter hours  
(Undergraduate)  
Students will study the processes and techniques for creating professional quality character rigs. Following a professional production workflow, students will create character skeletons, learn aesthetic and technical considerations for skinning, learn techniques for optimal parameterization, and learn to construct character animation controls. PREREQUISITE(S): ANI 231.

ANI 333 | ADVANCED 3D RIGGING | 4 quarter hours  
(Undergraduate)  
This course will teach students inorganic rigging of vehicles and machines as well as advanced techniques for characters such as blend shape facial expression setups and squash and stretch. Additional topics will include quadriged rigging and 3D scripting for creating user interfaces and automating complex processes. PREREQUISITE(S): ANI 230 and ANI 231.

ANI 336 | 3D MODELING STUDIO | 4 quarter hours  
(Undergraduate)  
Students in this course will broaden and improve their overall skill set by learning a range of modeling techniques. Students will complete several smaller projects that cover topics including speed modeling, efficient low-poly modeling, hard surface modeling, projection texturing, and advanced UV unwrapping techniques. The course will culminate in a final project in which the student will propose and complete an advanced model of their own design. PREREQUISITE(S): ANI 230 or GPH 250.

ANI 337 | ENVIRONMENT MODELING | 4 quarter hours  
(Undergraduate)  
This course covers the planning, production and implementation of environment models for games. The term "environment model" includes landscape, exterior architecture, interior architecture, and both organic and man-made props. Topics include visual art direction, setting mood, developing narrative and cinematic lighting strategies. After creating assets in a modeling program, students will implement them in a game engine editor to learn about game engine requirements, limitations and pipeline. Prerequisite: ANI 230.

ANI 338 | 3D ORGANIC MODELLING | 4 quarter hours  
(Undergraduate)  
In this course students will learn to create highly detailed creatures, characters, and props for both film and games. Students will learn a variety of techniques for working with high density polygon meshes and 3D painting in order to generate detailed texture and normal maps. This course will combine a traditional approach to sculpting and a foundation in human anatomy for quick generation of concepts for 3D models. An emphasis will be placed on developing efficient pipelines to streamline the entire process from modeling to rendering. PREREQUISITE(S): ANI 230.
ANI 339 | 3D TEXTURING AND LIGHTING | 4 quarter hours  
(Undergraduate)
Students will study the processes and techniques for texturing and lighting in 3D. Procedures including preparing models for texturing, creating and manipulating shading networks, laying out UV's, and painting textures will be explored. Topics in lighting will be approached from the foundation of traditional cinematography with a focus on driving both mood and story. Students will utilize complimentary skills in lighting and texturing to create high quality renders for both still and moving images.

ANI 230 (or GPH 250) is a prerequisite for this class.

ANI 340 | ANIMATION PRODUCTION II | 4 quarter hours  
(Undergraduate)
Students will build on the skills learning in Animation Production I, and produce more ambitious projects. They will be expected to exhibit sophisticated technique, storytelling and content, and work to develop as creative artists through self-critique. The successful planning and completion of projects on time is essential.

ANI 220, ANI 240 & Junior Standing are prerequisites for this class.

ANI 341 | ANIMATION PRODUCTION III | 4 quarter hours  
(Undergraduate)
This course asks students to create a short animated film. Students are expected to demonstrate a high level of technical skill with animation and to exhibit maturity in concept development and storytelling. Successful planning and project management is critical.

ANI 340 (or ANI 342) is a prerequisite for this class.

ANI 342 | 3D ANIMATION PRODUCTION | 4 quarter hours  
(Undergraduate)
In this course, students will build on their skills from Animation Production I to create animated films in 3D. Students will learn the essentials of 3D production including; creating 3D animatics, setting up production pipelines, and using efficient techniques for modeling, rigging, and animating. Workflows for both individual and collaborative projects will be introduced. Students will be expected to exhibit sophisticated technique, storytelling and content, and work to develop as creative artists through self-critique. The successful planning and completion of projects on time will be an essential focus of the course.

PREREQUISITE(S): ANI 220, ANI 231, and ANI 240.

ANI 344 | VISUAL DESIGN FOR GAMES | 4 quarter hours  
(Undergraduate)
The stages of development in the visual direction of a video game will be identified and detailed, and students will participate in the creation of the visual art direction of a product, giving special attention to the design of 3D models and animation. Visual Design for Games topics include: creating visual direction, conceiving, art bibles, art production, and post-production strategies. Students will create proposals, create concepts, iteratively create artwork, and analyze competitive products.

ANI 230 and (ANI 105 or GD 105 or ART 105) are prerequisites for this class.

ANI 345 | CHARACTER DESIGN | 4 quarter hours  
(Undergraduate)
Students will be introduced to various methods of creating interesting and original character designs for animated films and games, and then put these approaches into practical use. Methods of creative conceiving will include drawing, collage, sculpture and 3D mock-ups. Fundamental visual design and color principles will be stressed, along with the basics of caricature. Students will utilize their character designs in an animated short. PREREQUISITE(S): ANI 230.

ANI 346 | GAME ART PIPELINE | 4 quarter hours  
(Undergraduate)
This course is an overview of the game Technical Artist's job, from production to infrastructure roles. Students learn how to design, optimize, and troubleshoot the game art production pipeline. They study a range of game art technologies from particle effects, camera post-processing, physically-based materials, advanced lighting, procedural world creation and more in the Unity game engine. Projects include building a shared game project using Perforce (source control) workflow, analyzing game performance, building and troubleshooting character rigs, and more.

ANI 230 and ANI 231 are prerequisites for this class.

ANI 347 | ART FOR GAME MODS | 4 quarter hours  
(Undergraduate)
In this course, students will build on their skills from 3D Design & Modeling and 3D Environment Modeling to take an existing game in Unity and "re-skin" or modify it to create a different visual experience when played. They will work on collaborative projects while building good working knowledge of 3d art pipeline, materials, lighting, and game performance. They will be expected to exhibit proficiency in analyzing and understanding how game assets are constructed, breaking down and replacing components of existing art with their own, and debugging visual issues related to the introduction of new game assets.

PREREQUISITE(S): ANI 230, ANI 337, and Junior standing.

ANI 350 | ANIMATION PRODUCTION STUDIO | 4 quarter hours  
(Undergraduate)
This course uses the animation studio model to create a group project from start to finish. Students learn about the division of labor needed to produce larger projects as they experience working with others on a team. PREREQUISITE(S): ANI 240.

ANI 351 | ADVANCED MOTION CAPTURE STUDIO | 4 quarter hours  
(Undergraduate)
This course will enable students with motion capture experience to advance their technical skills and gain experience with practical application in the motion capture studio. Emphasis will be placed on advanced skinning and mapping techniques as well as complex motion capture sessions involving sets, props, and multiple actors. Students will be required to plan, arrange, and direct their own sessions in the motion capture studio. PREREQUISITE(S): ANI 310 or ANI 450.

ANI 352 | 3D SCRIPTING | 4 quarter hours  
(Undergraduate)
This is an introductory course in scripting for a 3D production environment. Students will learn and apply basic programming concepts in order to improve the productivity of animators and modelers. Using script, we will automate repetitive tasks, customize the interface, and create new tools. Students will gain a fundamental understanding of how a 3D animation package functions behind the interface. PREREQUISITE(S): ANI 230 and ANI 231.

ANI 353 | ADVANCED 3D SCRIPTING | 4 quarter hours  
(Undergraduate)
In this course, artists and game designers will learn to use scripting to develop advanced tools and to automate complex processes for animation, modeling, and pipeline development. Through weekly projects students will learn to read, modify, and author scripts in order to bridge the artistic and technical features of a high end 3D software package. PREREQUISITE(S): ANI 352.
ANI 355 | STOP MOTION ANIMATION | 4 quarter hours  
(Undergraduate) 
The principles of stop motion character animation in real space are the emphasis of this intermediate level course. Students are introduced to basic armature building, lighting and scene composition, and the designing and fabrication of characters with a variety of materials. Contemporary uses of digital technology to enhance stop motion production will be explored. PREREQUISITE(S): ANI 201 (or ANI 101)

ANI 356 | EXPERIMENTAL ANIMATION | 4 quarter hours  
(Undergraduate) 
This course introduces strategies for an experimental approach to animation. Students will study how experimentation relates to both concept and technique, and examine the work of classic experimental animators. This is a production class that requires students to produce a series of short animations in a variety of processes and styles. PREREQUISITE(S): ANI 201 or ANI 101.

ANI 357 | HYBRID ANIMATION | 4 quarter hours  
(Undergraduate) 
This production course focuses on combining multiple animation techniques. Students will complete the assignments and final project using mixed media with the choice of animation techniques, content and form left to the individual or group. Topics include pixilation, rotoscoping, and creative use of green screen, among others. PREREQUISITE(S): ANI 201 or ANI 101.

ANI 358 | ADVANCED STOP MOTION ANIMATION | 4 quarter hours  
(Undergraduate) 
In this course, students will build on their skills from Stop Motion Animation to create more ambitious projects. Techniques will cover complex puppets, detailed character performance to dialogue, 3D printing as applied to animation, lighting and motion control operation for camera moves. An emphasis will be placed on craftsmanship and effectively combining elements for stop motion filmmaking. PREREQUISITE(S): ANI 355.

ANI 360 | 3D MOTION GRAPHICS | 4 quarter hours  
(Undergraduate) 
This course builds on motion graphics fundamentals covered in ANI260 Motion Graphics. In 3D Motion Graphics, students will work to develop a better understanding of how to develop a distinct visual style in both personal work and in work for clients. The course also focuses on gaining familiarity with contemporary styles and trends in professional motion graphics, and an awareness of Chicago-based motion graphics production. PREREQUISITE(S): ANI260.

ANI 362 | TITLE DESIGN | 4 quarter hours  
(Undergraduate) 
This course explores the relationship between film and typography through an analysis of title design production in film, television, animation, and games. By studying examples from film and television history and the creative process behind those productions, students will develop an understanding of how to interpret and use typography to create narrative exposition on screen. Students will gain an appreciation and skill for working with text, image, and sound within time-based media that will add value, clarity, and sophistication to multimedia projects.

ANI 363 | CINEMA AND ART FOR ANIMATORS | 4 quarter hours  
(Undergraduate) 
This course will provide an overview of avant-garde film, video, and installation, and their relation to animation. Students will be introduced to the major styles and themes of alternative and experimental moving image work from the past hundred years. Cinema and Art for Animators places emphasis on moving image work that is not usually included in a survey of mainstream cinema or film history. Topics covered in the class include the avant-garde and kitsch, surrealism, experimental film, abstract animation, video art, and video installation. In addition to readings, lectures and viewing films, videos, and installations, students will produce several animation projects that respond to the works and themes studied during the quarter.

ANI 364 | ANIMATION RESEARCH SEMINAR | 4 quarter hours  
(Undergraduate) 
This seminar introduces students to animation in the context of interdisciplinary thinking and creativity. Students will discuss their learning experiences across disciplines in the University, and practice making connections between this learning and their study of animation. PREREQUISITE(S): None.

ANI 365 | CINEMA, ANIMATION, AND ART | 4 quarter hours  
(Undergraduate) 
This seminar course focuses on animation and cinema from the standpoint of Modern and Contemporary art. Students study the major styles and themes of historical experimental film and video, and relate these topics to contemporary animation and independent cinema practices. Emphasis is placed on theory and criticism, and how it informs experimental work. Students are expected to discuss work and theory in a seminar setting, and to engage the class material in several research papers. PREREQUISITE(S): DC 233.

ANI 366 | 3D MOVIE PRODUCTION | 4 quarter hours  
(Undergraduate) 
This course provides an introduction to stereoscopy which is the creation of a 3D effect in still images and movies. The course covers the history of stereoscopy, the perceptual theories that make 3D images possible, and the technologies that can be used to create the effect of stereoscopic depth. Designed for both animators and live-action filmmakers, students taking this course will get hands-on experience producing stereoscopic images and movies using a variety of tools. PREREQUISITE(S): ANI 230 or DC 275.

ANI 370 | ACTING FOR ANIMATORS | 4 quarter hours  
(Undergraduate) 
This is acting training designed specifically for the needs of animators, as opposed to stage actors. Utilizing lecture/discussion, examination/deconstruction of animated and live-action film clips, home assignments and a few simple in-class improvisations, this course provides the animator with the skills necessary to deliver dynamic animated character performance. Assessment measures include oral and written reflective analysis, short animated character sketches and class participation. PREREQUISITE(S): ANI 240.
ANI 371 | ANIMATED SERIES DEVELOPMENT | 4 quarter hours  
(Undergraduate)  
This course covers the preparation and development of an animated series pitch bible. Students will explore and critique successful and unsuccessful series pitches, and become familiar with the variety of options. Topics covered will include the artist-run show, world building, cast character development and design, show visual design, sample stories, and possible venues. Students will develop their own original show concept, characters, and sample stories. By the end of the quarter students will produce and pitch a presentable show bible for their series, including character designs, storyboards, and a sample pitch animated short that might be presented for an open call by a network.  
ANI 324 is a prerequisite for this course.

ANI 375 | PROFESSIONAL PRACTICE FOR ANIMATORS AND GAME ARTISTS | 2 quarter hours  
(Undergraduate)  
Students will learn to prepare for and identify internship, employment, and graduate school opportunities. Students learn how to develop work for and prepare a portfolio/demo reel. The course will also include preparation of job search and promotional materials, including resumes.  
PREREQUISITE(S): ANI 240 or GAM 245 or DC 310 (2 quarter hours)

ANI 376 | POST-PRODUCTION WORKSHOP | 2 quarter hours  
(Undergraduate)  
This 2 credit course guides students through the final stages of post-production and completes the Animation Capstone sequence. Students will work closely with faculty to meet the needs specific to their Capstone projects. This workshop will also focus on distribution for completed films, including film festivals, online forums, and gallery exhibition.  
PREREQUISITE(S): ANI 395 (2 quarter hours)

ANI 378 | 3D DYNAMICS | 4 quarter hours  
(Undergraduate)  
This course will provide an introduction to dynamic simulation and effects in 3D animation. Topics to be covered include hair & fur, fluid dynamics, smoke & fire, particles and cloth. An emphasis will be placed on how these effects can enhance an idea or narrative, establish mood, or even be used as a basis for experimental animation. Students will use traditional animation and visual design principles as a basis for creating several small projects.  
PREREQUISITE(S): ANI 230 and ANI 231.

ANI 379 | 3D COMPOSITING | 4 quarter hours  
(Undergraduate)  
This course is designed to allow advanced compositors and animators to merge the 2D, 3D and/or live-action video worlds, drawing from a combination of techniques such as motion tracking, compositing, rotoscoping, hand-drawn, cut-out and 3D animation. The goals are to go beyond simply achieving technical proficiency, as we will also focus on learning principles of good animation in preparation for both artistic and commercial endeavors.  
PREREQUISITE(S): ANI 231.

ANI 380 | ANIMATION PROJECT BLUELIGHT | 4 quarter hours  
(Undergraduate)  
Production of an animated digital motion picture written by students or faculty within the School of Cinematic Arts. Students will work as crew under supervision of faculty members heading each of the various production areas. The goal is to work towards a completed animated digital motion picture suitable for festivals or distribution.

ANI 390 | TOPICS IN ANIMATION | 4 quarter hours  
(Undergraduate)  
Advanced study in animation focusing on a specific area each quarter. May be repeated for credit.  
PREREQUISITE(S): ANI 101 or ANI 201 or consent of the instructor.

ANI 393 | TOPICS IN 3D ANIMATION | 4 quarter hours  
(Undergraduate)  
Advanced study in 3D animation focusing on a specific area each quarter. May be repeated for credit.  
PREREQUISITE(S): ANI 230 or consent of the instructor.

ANI 394 | ANIMATION PROJECT I | 4 quarter hours  
(Undergraduate)  
This production-based course is the first half of a two-course sequence that provides the student with an Animation capstone experience. These courses connect the student’s Animation coursework with their overall Liberal Studies coursework through three components: class lectures and discussions, independent analysis and reflection, and the creation of a significant animation project. Students will employ the knowledge they have learned and the skills they have acquired in all their Animation courses to date to produce a significant animation project. The course sequence is designed to be taken in two consecutive quarters.  
PREREQUISITE(S): ANI 341 or (ANI 340 and BFA Animation - Storyboarding and Character Design concentration) or (ANI 342 and BFA Animation-Game Art concentration)

ANI 341 or (ANI 340 and a concentration in Storyboarding and Character Design) or (ANI 342 and a concentration in Game Art).

ANI 395 | ANIMATION PROJECT II | 4 quarter hours  
(Undergraduate)  
Continuation of ANI 394. This production-based course is the second half of a two-course sequence that provides the student with an Animation capstone experience. These courses connect the student’s Animation coursework with their overall Liberal Studies coursework through three components: class lectures and discussions, independent analysis and reflection, and the creation of a significant animation project. Students will employ the knowledge they have learned and the skills they have acquired in all their Animation courses to date to produce a significant animation project. The course sequence is designed to be taken in two consecutive quarters.

ANI 394 is a prerequisite for this class.

ANI 396 | ANIMATION CAPSTONE WORKSHOP | 2-2.25 quarter hours  
(Undergraduate)  
This course allows students additional time to work with faculty on their Animation Capstone projects. Students will employ the knowledge they have learned and the skills they have acquired in all their Animation courses to date to produce a significant animation project. The course is only available to students enrolled in Animation Capstone courses ANI 394 and ANI 395.  
PREREQUISITE(S): Must be concurrently enrolled in ANI 394 or ANI 395.

ANI 394 or ANI 395 is a co-requisite for this class.

ANI 399 | INDEPENDENT STUDY | 1-8 quarter hours  
(Undergraduate)  
Independent study form and consent of instructor required.  
PREREQUISITE(S): Consent of dean. (Variable credit)

ANI 420 | HAND-DRAWN ANIMATION | 4 quarter hours  
(Graduate)  
This course is devoted to the complex aspects and techniques of classical drawn animation required to create convincing movement, frame to frame consistency, and character acting. Beginning with a review of the fundamentals and progressing to more complicated techniques, students will learn how to create unique and technically accomplished drawn animation as well as methods for its eventual clean-up, inking and coloring. Contemporary uses of digital technology to enhance production will be emphasized.  
PREREQUISITE(S): ANI 201 (or ANI 101)
ANI 421 | ANIMATION MECHANICS | 4 quarter hours
(Graduate)
Students in this course will rigorously investigate the foundational aspects of animation through traditional and digital methods. Basic principles, including timing, spacing and the abstraction of movement, will be analyzed and questioned through experimentation. Students will experience how the process of making work can be used to generate emergent ideas, and be challenged to push the art form beyond the accepted conventions. PREREQUISITE(S): None.

ANI 422 | ANIMATION HISTORY & PRACTICE | 4 quarter hours
(Graduate)
The history of animation is explored with a focus on inspiring the students’ own work. Students will be involved in an intense study of animation throughout history and around the world, and are required to view a large amount of work outside of class. Animations will be grouped by time period, theme, and/or technique. Through writing and group discussions they will examine the significance of the technique and subject matter. They will put this study into practice by creating short animated films based on their reactions to the films.
ANI 421 is a prerequisite for this class.

ANI 423 | 3D ANIMATION SURVEY | 4 quarter hours
(Graduate)
This course is intended as an intensive overview for graduate students with NO prior 3D experience. Topics include polygon modeling tools, texturing, principles of 3D animation, basic rigging, camera, lighting and rendering. Animation graduate students with proof of previous 3D experience should consult their advisor to substitute any Major Elective for this course. PREREQUISITE(S): None.

ANI 425 | VISUAL STORYTELLING | 4 quarter hours
(Graduate)
This class focuses on storyboard and animatics as key pre-production tools for animation, film, and game development projects. Areas of focus include narrative development, drawing, performance, and editing. Students will apply these techniques to create an animatic: a comprehensive time-based draft for a short film. PREREQUISITE(S): None.

ANI 426 | VISUAL CONCEPT DEVELOPMENT | 4 quarter hours
(Graduate)
This course focuses on visual development and styles guides for animation, cinema, and game projects. Coursework involves character design, environmental design, prop design, lighting, color, texture and layout. Students will practice visual research, drawing, and an array of digital tools to build the skills necessary to create an immersive world with a cohesive look and feel. PREREQUISITE(S): None.

ANI 427 | HAND-DRAWN CHARACTER ANIMATION | 4 quarter hours
(Graduate)
In this course, students will be introduced to the traditional art of hand-drawn character performance. Topics covered will include acting, body mechanics, volume, weight, walk cycles, dialogue and facial expression. PREREQUISITE(S): ANI 421.

ANI 428 | ANIMATION FIGURE STUDY | 4 quarter hours
(Graduate)
This studio drawing class will focus on the drawing of the figure for use in animation and storyboarding. Students will gain a solid foundation in posing, gesture, and anatomy, and will learn how to give a character a sense of emotion and purpose. Students will gain experience and improve their drawing technique through weekly assignments and in-class exercises.
ANI 421 (or instructor permission) is a prerequisite for this class.

ANI 429 | ADVANCED STORYBOARDING | 4 quarter hours
(Graduate)
This course elaborates on the skills from ANI 425 Visual Storytelling. Students will develop advanced techniques for storyboarding, staging, pre-production, character development and performance to support their original narrative stories. Rigorous exercises will emphasize visually dynamic composition, figure drawing applied to storyboarding, editing, continuity and sophisticated use of camera. Students will complete a final advanced storyboard and animate edited with sound, which can be used as a portfolio piece for any aspiring storyboard artist.
ANI 425 is a prerequisite for this class.

ANI 430 | 3D CHARACTER ANIMATION | 4 quarter hours
(Graduate)
This course explores the art and techniques for character performance in 3D. Students will study and employ fundamental principles for character animation beginning with the essentials of blocking and inbetweening, and continuing with core mechanics including walk cycles, expressions, and lip sync. Students are required to animate weekly shots culminating in a final lip synced character performance. PREREQUISITE(S): ANI 423.

ANI 431 | ADVANCED 3D CHARACTER ANIMATION | 4 quarter hours
(Graduate)
This course introduces advanced concepts in 3D character animation that are necessary for achieving professional quality results. Students will hone their skills through the study of advanced techniques for animating multiple characters, creating continuity, and building character through performance. An emphasis will be placed on the exploration of movement for developing personal style. PREREQUISITE(S): ANI 300 or ANI 430.

ANI 432 | 3D RIGGING | 4 quarter hours
(Graduate)
Students will study the processes and techniques for creating professional quality character rigs. Following a professional production workflow, students will create character skeletons, learn aesthetic and technical considerations for skinning, learn techniques for optimal parametrization, and learn to construct character animation controls. ANI 231 or ANI 423 or equivalent experience is a prerequisite for this course.

ANI 433 | ADVANCED 3D RIGGING | 4 quarter hours
(Graduate)
This course will teach students to rig organic and inorganic objects. Students will learn to rig a "stretchy spine" along with a more detailed facial set up for a character. Other topics will include inorganic object rigging, quadruped rigging and the use of 3D scripting in rigging.
ANI 231 or ANI 423 or equivalent experience is a prerequisite for this course.

ANI 434 | 3D CHARACTER MODELING | 4 quarter hours
(Graduate)
This course will instruct students in the process of 3D polygonal based character modeling. Students will learn professional techniques for building quad-based polygon meshes with an extra emphasis on proper topology to help prepare their model for rigging. Students will learn complete UV unwrapping for the entire figure as well as effective techniques for advanced texturing.
ANI 231 or ANI 423 or equivalent experience is a prerequisite for this course.
ANI 436 | 3D MODELING STUDIO | 4 quarter hours  
(Graduate)

Students in this course will broaden and improve their overall skill set by learning a range of modeling techniques. Students will complete several smaller projects that cover topics including speed modeling, efficient low-poly modeling, hard surface modeling, projection texturing, and advanced UV unwrapping techniques. The course will culminate in a final project in which the student will propose and complete an advanced model of their own design.

ANI 231 or ANI 423 or equivalent experience is a prerequisite for this course.

ANI 437 | ENVIRONMENT MODELING | 4 quarter hours  
(Graduate)

This course covers the planning, production and implementation of environment models for games. The term "environment model" includes landscape, exterior architecture, interior architecture, and both organic and man-made props. Topics include visual art direction, setting mood, developing narrative and cinematic lighting strategies. After creating assets in a modeling program, students will implement them in a game engine editor to learn about game engine requirements, limitations and pipeline.

ANI 231 or ANI 423 or equivalent experience is a prerequisite for this course.

ANI 438 | 3D ORGANIC MODELING | 4 quarter hours  
(Graduate)

In this course students learn a variety of modeling tools specially geared toward creating highly detailed and complex organic models for games or films. Various sculpting and texturing techniques available in organic modeling will be discussed as well as proper UV and polygon modeling methods. Students will also gain an understanding of how to build proper human anatomy structures. Students will learn how to create a proper art pipeline between modeling, sculpting, texturing and rendering software packages.

ANI 231 or ANI 423 or equivalent experience is a prerequisite for this course.

ANI 439 | 3D TEXTURING AND LIGHTING | 4 quarter hours  
(Graduate)

Students will study the processes and techniques for creating shaders and lighting setups for both cinematic and gaming environments. Techniques in UV mapping and projection mapping will be explored for both environments and character creation. Lighting will be approached from the foundation of traditional cinematography. Additional topics, including negative lighting and global illumination, will also be covered. PREREQUISITE(S): ANI 423 or Equivalent 3D Experience.

ANI 440 | COLLABORATIVE SHORT ANIMATED FILM | 4 quarter hours  
(Graduate)

Students will work in small groups to produce short animated films from concept to completion using the media of their choice. Emphasis is placed on a collaborative environment for pitching ideas, visual development and creative problem-solving during production. Different studio methodologies and techniques will be discussed. Each team will face various technical and aesthetic challenges to complete a finished film.

ANI 421 (or ANI 453) is a prerequisite for this class.

ANI 442 | 3D ANIMATION PRODUCTION | 4 quarter hours  
(Graduate)

In this course, students will create animated films in 3D. Students will learn the essentials of 3D production including; creating 3D animations, setting up production pipelines, and using efficient techniques for modeling, rigging, and animating. Workflows for both individual and collaborative projects will be introduced. Students will be expected to exhibit sophisticated technique, storytelling and content, and work to develop as creative artists through self-critique. The successful planning and completion of projects on time will be an essential focus of the course. PREREQUISITE(S): ANI 423 and ANI 425.

ANI 444 | VISUAL DESIGN FOR GAMES | 4 quarter hours  
(Graduate)

The stages of development in the visual direction of a video game will be identified and detailed, and students will participate in the creation of the visual art direction of a product, giving special attention to the design of 3D models and animation. Visual Design for Games topics include: creating visual direction, concepting, art bibles, art production, and post-production strategies. Students will create proposals, create concepts, iteratively create artwork, and analyze competitive products. PREREQUISITE(S): ANI 446, ANI 425, ANI 105, GD 105, GPH 211 or ART 105 (or equivalent 2D design experience)

ANI 445 | CHARACTER DESIGN | 4 quarter hours  
(Graduate)

Students will be introduced to various methods of creating interesting and original character designs for animated films and games, and then put these approaches into practical use. Methods of creative concepting will include drawing, collage, sculpture and 3D mock-ups. Fundamental visual design and color principles will be stressed, along with the basics of caricature. Students will utilize their character designs in an animated short.

ANI 231 or ANI 423 or equivalent experience is a prerequisite for this course.

ANI 446 | GAME ART PIPELINE | 4 quarter hours  
(Graduate)

This course is an introduction to the game technical artist's job. Students learn how to design, engineer, and troubleshoot the game art production pipeline. They study good practices and successful strategies for streamlining at different stages of production process. Projects include analyzing problems and then spec'ing out solutions, creating a workflow for producing and exporting assets to several platforms/engines, and creating instructional documentation.

ANI 231 or ANI 423 or equivalent experience is a prerequisite for this course.

ANI 447 | ART FOR GAME MODS | 4 quarter hours  
(Graduate)

In this course, students will take an existing game in Unity and modify it to create a different visual experience when played. They will work on collaborative projects while building good working knowledge of 3D art pipeline, materials, lighting, and game performance. They will be expected to exhibit proficiency in analyzing and understanding how game assets are constructed, breaking down and replacing components of existing art with their own, and debugging visual issues related to the introduction of new game assets. PREREQUISITE(S): ANI 446 or ANI 444.
ANI 450 | MOTION CAPTURE | 4 quarter hours
(Graduate)
This course is a workshop focusing on realistic character motion obtained through motion capture. Students will learn the motion capture pipeline, including character skinning and mapping, planning and directing motion capture sessions, applying motion to a character and motion editing. ANI 231 or GPH 438 or ANI 423 or equivalent experience is a prerequisite for this class.

ANI 451 | ADVANCED MOTION CAPTURE STUDIO | 4 quarter hours
(Graduate)
This course will enable students with motion capture experience to advance their technical skills and gain experience with practical application in the motion capture studio. Emphasis will be placed on advanced skinning and mapping techniques as well as complex motion capture sessions involving sets, props, and multiple actors. Students will be required to plan, arrange, and direct their own sessions in the motion capture studio. PREREQUISITE(S): ANI 310 or ANI 450.

ANI 452 | 3D SCRIPTING | 4 quarter hours
(Graduate)
This is an introductory course in scripting for a 3D production environment. Students will learn and apply basic programming concepts in order to improve the productivity of animators and modelers. Using script, we will automate repetitive tasks, customize the interface, and create new tools. Students will gain a fundamental understanding of how a 3D animation package functions behind the interface. ANI 231 or ANI 423 or equivalent experience is a prerequisite for this course.

ANI 453 | ADVANCED 3D SCRIPTING | 4 quarter hours
(Graduate)
This is an intermediate course in scripting for a 3D production environment. Students will go beyond the introductory course to learn more advanced scripting techniques and practices. Students will learn how to assess a problem/opportunity in the production pipeline, spec out tools, build an effective tool and produce simple interfaces. PREREQUISITE(S): ANI 452.

ANI 455 | STOP MOTION ANIMATION | 4 quarter hours
(Graduate)
The principles of stop motion character animation in real space are the emphasis of this intermediate level course. Students are introduced to basic armature building, lighting and scene composition, and the designing and fabrication of characters with a variety of materials. Contemporary uses of digital technology to enhance stop motion production will be explored. PREREQUISITE(S): ANI 201 (or ANI 101)

ANI 456 | EXPERIMENTAL ANIMATION | 4 quarter hours
(Graduate)
This course introduces strategies for an experimental approach to animation. Students will study how experimentation relates to both concept and technique, and examine the work of classic experimental animators. This is a production class that requires students to produce a series of short animations in a variety of processes and styles. PREREQUISITE(S): ANI 201 or ANI 101.

ANI 457 | HYBRID ANIMATION | 4 quarter hours
(Graduate)
This production course focuses on combining multiple animation techniques. Students will complete the assignments and final project using mixed media with the choice of animation techniques, content and form left to the individual or group. Topics include pixilation, rotoscoping, and creative use of green screen, among others. PREREQUISITE(S): ANI 421.

ANI 458 | ADVANCED STOP MOTION ANIMATION | 4 quarter hours
(Graduate)
In this course, students will build on their skills from Stop Motion Animation to create more ambitious projects. Techniques will cover complex puppets, detailed character performance to dialogue, 3D printing as applied to animation, lighting and motion control operation for camera moves. An emphasis will be placed on craftsmanship and effectively combining elements for stop motion filmmaking. PREREQUISITE(S): ANI 455.

ANI 460 | ANIMATION GRADUATE SEMINAR | 4 quarter hours
(Graduate)
This seminar will explore the animator’s role in contemporary culture, including careers in entertainment, art, game development and education. A combination of guest speakers, critical readings, animation analysis and group discussion will help students lay a foundation for their graduate study in the field.

ANI 461 | MOTION GRAPHICS | 4 quarter hours
(Graduate)
This course introduces effective communication using motion graphics; including its application in the areas of film titles, broadcast and commercial design, interactive media, and gaming. The combination of music, animation, graphic design and typography will be explored following the basic theories of dynamic composition and aesthetics. A focus and analysis on Motion Graphics History, including abstract film, modernist television, computer art, synesthesia, and film title design, will be coupled with animation and design exercises, and simulated concept “pitch” presentations. An emphasis is placed on gaining familiarity with contemporary styles and trends in professional motion graphics, as well as state-of-the-art software and tools. Readings and responses will be due each week in addition to practical projects. Projects will include: 3 short fundamental exercises, a concept development and pitch presentation, a film title design project, and a 7-10 page research paper.

ANI 462 | TITLE DESIGN | 4 quarter hours
(Graduate)
This course explores the relationship between film and typography through an analysis of title design production in film, television, animation, and games. By studying examples from film and television history and the creative process behind those productions, students will develop an understanding of how to interpret and use typography to create narrative exposition on screen. Students will gain an appreciation and skill for working with text, image, and sound within time-based media that will add value, clarity, and sophistication to multimedia projects.

ANI 463 | 3D MOTION GRAPHICS | 4 quarter hours
(Graduate)
This course builds on motion graphics fundamentals covered in ANI 461 Motion Graphics. In 3D Motion Graphics, students will work to develop a better understanding of how to develop a distinct visual style in both personal work and in work for clients. The course also focuses on gaining familiarity with contemporary styles and trends in professional motion graphics, and an awareness of Chicago-based motion graphics productions. Students will also give a 30 minute teaching presentation on an assigned topic. PREREQUISITE(S): ANI 461.
ANI 466 | CINEMA, ANIMATION AND ART | 4 quarter hours (Graduate)
This seminar course focuses on animation and cinema from the standpoint of Modern and Contemporary art. Students study the major styles and themes of historical experimental film and video, and relate these topics to contemporary animation and independent cinema practices. Emphasis is placed on theory and criticism, and how it informs experimental work. Students are expected to discuss work and theory in a seminar setting, and to engage the class material in several research papers.

ANI 470 | ACTING FOR ANIMATORS | 4 quarter hours (Graduate)
This is acting training designed specifically for the needs of animators, as opposed to stage actors. Utilizing lecture/discussion, examination/deconstruction of animated and live-action film clips, home assignments and a few simple in-class improvisations, this course provides the animator with the skills necessary to deliver dynamic animated character performance. Assessment measures include oral and written reflective analysis, short animated character sketches and class participation. PREREQUISITE(S): 421.

ANI 471 | ANIMATED SERIES DEVELOPMENT | 4 quarter hours (Graduate)
This course covers the preparation and development of an animated series pitch bible. Students will explore and critique successful and unsuccessful series pitches, and become familiar with the variety of options. Topics covered will include the artist-run show, world building, cast character development and design, show visual design, sample stories, and possible venues. Students will develop their own original show concept, characters, and sample stories. By the end of the quarter students will produce and pitch a presentable show bible for their series, including character designs, storyboards, and a sample pitch animatic or short that might be presented for an open call by a network. ANI 425 is a prerequisite for this class.

ANI 478 | 3D DYNAMICS | 4 quarter hours (Graduate)
This course will provide an introduction to dynamic simulation and effects in 3D animation. Topics to be covered include hair and fur, fluid dynamics, smoke and fire, particles, and cloth. An emphasis will be placed on how these effects can enhance an idea or narrative, establish mood, or even be used as a basis for experimental animation. Students will use traditional animation and visual design principles as a basis for creating several small projects.

ANI 480 | ANIMATION PROJECT BLUELIGHT | 4 quarter hours (Graduate)
Production of an animated digital motion picture written by students or faculty within the School of Cinematic Arts. Students will work as crew under supervision of faculty members heading each of the various production areas. The goal is to work towards a completed animated digital motion picture suitable for festivals or distribution.

ANI 481 | SOUND DESIGN FOR ANIMATION | 4 quarter hours (Graduate)
This class will explore concepts and practical techniques students need in order to address many of the unique requirements associated with creating audio for animated films. Students will begin with an introduction to the aesthetics of film sound and audio production before moving on to build practical recording and mixing skills. Lectures, readings, and practical projects will give students a working knowledge of how to approach and create the immense range of styles of audio for animated films.

ANI 490 | TOPICS IN ANIMATION | 4 quarter hours (Graduate)
Advanced study in animation focusing on a specific area each quarter. May be repeated for credit. PREREQUISITE(S): ANI 101 or ANI 201 or consent of the instructor.

ANI 493 | TOPICS IN 3D ANIMATION | 4 quarter hours (Graduate)
Advanced study in 3D animation focusing on a specific area each quarter. May be repeated for credit.

ANI 497 | 3D COMPOSITING | 4 quarter hours (Graduate)
This course is designed to allow advanced compositors and animators to merge the 2D, 3D and/or live-action video worlds, drawing from a combination of techniques such as motion tracking, compositing, rotoscoping, hand-drawn, cut-out and 3D animation. The goals are to go beyond simply achieving technical proficiency, as we will also focus on learning principles of good animation in preparation for both artistic and commercial endeavors.

ANI 498 | MFA SHORT FILM II | 4 quarter hours (Graduate)
This course is part of a year-long project, and is continued in ANI 502 and 503. This series of courses will concentrate on facilitating the Animation MFA students' production of a short, independently animated project. The short film project serves as a preparation for the students' MFA thesis project in year two. The topics of idea generation, experimentation, problem solving, planning and time management, and the process of critical analysis will be applied to the student's work, with the choice of animation technique, content and form left to the individual. Special attention will be devoted to discovering and developing each student's personal voice. Technical demonstrations will be presented on an as-needed basis, depending on the nature of the students' projects. In addition to the course instructor, students will be assigned two faculty mentors who will also provide individual feedback and technical advice. This course must be taken consecutively with ANI 502 MFA Short Film II and ANI 503 MFA Short Film III. PREREQUISITE(S): Open to Animation MFA students only.

Status as an MFA Animation student is a prerequisite for this course.
ANI 502 | MFA SHORT FILM II | 4 quarter hours
(Graduate)
This course is part of a year-long project, and is a continuation of ANI 501 and continued in ANI 503. This series of courses will concentrate on facilitating the Animation MFA students' production of a short, independently animated project. The short film project serves as a preparation for the students’ MFA thesis project in year two. The topics of idea generation, experimentation, problem solving, planning and time management, and the process of critical analysis will be applied to the student's work, with the choice of animation technique, content and form left to the individual. Special attention will be devoted to discovering and developing each student's personal voice. Technical demonstrations will be presented on an as-needed basis, depending on the nature of the students’ projects. In addition to the course instructor, students will be assigned two faculty mentors who will also provide individual feedback and technical advice. This course must be taken consecutively with ANI 501 MFA Short Film I and ANI 503 MFA Short Film III. Open to Animation MFA students only.
ANI 501 is a prerequisite for this course.

ANI 503 | MFA SHORT FILM III | 4 quarter hours
(Graduate)
This course is part of a year-long project, and is a continuation of ANI 501 and 502. This series of courses will concentrate on facilitating the Animation MFA students’ production of a short, independently animated project. The short film project serves as a preparation for the students’ MFA thesis project in year two. The topics of idea generation, experimentation, problem solving, planning and time management, and the process of critical analysis will be applied to the student’s work, with the choice of animation technique, content and form left to the individual. Special attention will be devoted to discovering and developing each student’s personal voice. Technical demonstrations will be presented on an as-needed basis, depending on the nature of the students’ projects. In addition to the course instructor, students will be assigned two faculty mentors who will also provide individual feedback and technical advice. This course must be taken consecutively with ANI 501 MFA Short Film I and ANI 502 MFA Short Film II. Open to Animation MFA students only.
ANI 502 is a prerequisite for this class.

ANI 540 | ANIMATED SHORT FILM PART I | 2 quarter hours
(Graduate)
This course and its continuation, ANI 541, will concentrate on facilitating the graduate students' production of a short, independently animated project. The topics of idea generation, experimentation, problem solving, planning and time management, and the process of critical analysis will be applied to the students' work, with the choice of animation technique, content and form left to the individual. We will have technical demonstrations on an as-needed basis, depending on the nature of your animations. This course must be taken consecutively with ANI 541 Animated Short Film Part II.
ANI 440 is a prerequisite for this class.

ANI 541 | ANIMATED SHORT FILM PART II | 2 quarter hours
(Graduate)
This course is a continuation of ANI 540 Animated Short Film Part I. Throughout the quarter students will continue working on their films, meeting with the instructor for advising, and other students for group critiques. Students will also learn effective post-production strategies as they near completion of their first film. This course must be taken consecutively with ANI 540.
ANI 540 is a prerequisite for this class.

ANI 560 | GRADUATE TEACHING SEMINAR | 4 quarter hours
(Graduate)
This seminar exposes students to effective methods and professional practices of teaching undergraduate and graduate students. A variety of approaches to course materials and projects will be introduced and discussed in detail. In addition to work in class, students will work closely with a faculty member in order to gain first-hand knowledge, including class observation, of practical aspects of creative and academic instruction. PREREQUISITE(S): none.

ANI 599 | INDEPENDENT STUDY | 1-8 quarter hours
(Graduate)
Independent study form. PREREQUISITE(S): Consent of dean and consent of instructor required. (Variable credit)

ANI 601 | MFA THESIS PROJECT I | 4 quarter hours
(Graduate)
This course is part of a year-long three course sequence, and is continued in ANI 602 and 603. This series of courses will concentrate on facilitating the Animation MFA students’ production of their MFA thesis project. In addition to animated films, students are also encouraged to explore alternative animation solutions, including TV shows, installations, interactive/game projects, augmented/virtual reality, performance, and others. At the beginning of the quarter students will develop a thesis proposal, which must be approved by their MFA thesis committee and the course instructor before proceeding with production. Much of this course will consist of self-directed research and production by the student, supplemented by mentoring by the instructor and critique with the entire class. Students will also meet regularly with the members of their MFA thesis committee, who will provide individual feedback and technical advice. This course must be taken consecutively with ANI 602 MFA Thesis Project II and ANI 603 MFA Thesis Project III. PREREQUISITE(S): ANI 503; Open to Animation MFA students only.

ANI 602 | MFA THESIS PROJECT II | 4 quarter hours
(Graduate)
This course is part of a year-long three course sequence, and is a continuation of ANI 601 and continued in ANI 603. This series of courses will concentrate on facilitating the Animation MFA students' production of their MFA thesis project. In addition to animated films, students are also encouraged to explore alternative animation solutions, including TV shows, installations, interactive/game projects, augmented/virtual reality, performance, and others. Much of this course will consist of self-directed research and production by the student, supplemented by mentoring by the instructor and critique with the entire class. Students will also meet regularly with the members of their MFA thesis committee, who will provide individual feedback and technical advice. This course must be taken consecutively with ANI 601 MFA Thesis Project I and ANI 603 MFA Thesis Project III. PREREQUISITE(S): ANI 503; Open to Animation MFA students only.
**ANI 603 | MFA THESIS PROJECT III | 4 quarter hours**  
(Graduate)  
This course is part of a year-long three course sequence, and is a continuation of ANI 601 and ANI 602. This series of courses will concentrate on facilitating the Animation MFA students’ production of their MFA thesis project. ANI 603 will prepare the student for the more self-directed completion phase of their MFA thesis project. In addition to animated films, students are also encouraged to explore alternative animation solutions, including TV shows, installations, interactive/game projects, augmented/virtual reality, performance, and others. Much of this course will consist of self-directed research and production by the student, supplemented by mentoring by the instructor and critique with the entire class. Students will also meet regularly with the members of their MFA thesis committee, who will provide individual feedback and technical advice. This course must be taken consecutively with ANI 601 MFA Thesis Project I and ANI 602 MFA Thesis Project II. PREREQUISITE(S): ANI 602; Open to Animation MFA students only.

**ANI 639 | MFA PRE-THESIS | 4 quarter hours**  
(Graduate)  
In this course the MFA student will develop the concept and pre-production of their thesis animation through workshops, critiques and assignments. Students will create inspiration and concept art, write a treatment, create a storyboard and animate as well as research design options to be used on their final film project in ANI 640 MFA Thesis Animation.

**ANI 541**

**ANI 640 | MFA THESIS ANIMATION | 1 quarter hour**  
(Graduate)  
This course is a three quarter class that will concentrate on the graduate students' production, post-production and completion of their final thesis project. Students will have regular critique sessions with their three Thesis Advisors from the animation faculty. The student's project will be presented to the committee upon completion. PREREQUISITE(S): ANI 639 (1 quarter hour)

**ANI 701 | THESIS CONTINUATION | 0 quarter hour**  
(Graduate)  
Non-credit. Students admitted to MFA program who have completed all the required coursework and who are regularly using the facilities of the University for thesis production and/or post-production are required to be registered each quarter of the academic year until the thesis and defense have been completed. Prerequisite(s): ANI 603 or ANI 640.

**Anthropology (ANT)**

**ANT 102 | CULTURAL ANTHROPOLOGY | 4 quarter hours**  
(Undergraduate)  
An introduction to current anthropological theories and methods for understanding human cultures from a comparative perspective; includes an analysis of human institutions such as religion, politics, and kinship, and the forces that change them in a variety of societies, small and large scale.

**ANT 103 | ARCHAEOLOGY | 4 quarter hours**  
(Undergraduate)  
An exploration of the science of archaeology; the study of past human behavior through material remains. Examines the ways archaeologists gather data and the methods used to analyze and interpret these data to learn about the past and how human societies evolved.

**ANT 104 | INTRODUCTION TO BIOLOGICAL ANTHROPOLOGY | 4 quarter hours**  
(Undergraduate)  
This course will examine the biological history of the human species culminating with an exploration of human biological variation in the modern world. Principles of evolutionary theory and genetics will first be presented to provide a framework for the study of human evolutionary biology. The fossil evidence for human evolution will then be considered using comparative data from nonhuman primate ecology to help reconstruct prehistoric lives. Finally, features of biological modernity will be discussed. Particular attention will be given to how human populations utilized biological and behavioral mechanisms to adapt to their environments throughout evolutionary history. The course includes labs.

**ANT 105 | ANTHROPOLOGY THROUGH FILM | 4 quarter hours**  
(Undergraduate)  
This course is an introduction to cultural anthropology, the sub-discipline of anthropology concerned with contemporary human cultures, through film. The aim is to convey the anthropological perspective on behaviors and systems that people create. The course will emphasize fundamental concepts, methods, and theories used to study culture.

**ANT 106 | LANGUAGE AND CULTURE | 4 quarter hours**  
(Undergraduate)  
Definitions and features of language and communication, and their relationship to thought and culture. Topics include the classification of languages, language acquisition, linguistic variation, language communities, multilingualism, performance, and variability of language use.

**ANT 107 | THE CULTURE OF BUSINESS | 4 quarter hours**  
(Undergraduate)  
This course asks what role culture plays in business. We will explore the ways in which culture influences consumer decision-making, global business practices, marketing strategies, corporate ethics, and business education and training. By the end of the course, you will be familiar with the ideas, values, and concerns that underpin business practices and be able to apply your understanding of culture to the way you interact with the business world.

**ANT 109 | FOOD AND CULTURE | 4 quarter hours**  
(Undergraduate)  
Explores the concept of culture by focusing on people's knowledge of food; it examines the local sameness and global peculiarity of people's food preferences, considering tastes and environmental impacts, health implications, dietary restrictions, and other social impacts.

**ANT 120 | SCIENCE OF ARCHAEOLOGY | 4 quarter hours**  
(Undergraduate)  
Archaeology spans the academic worlds of the physical sciences and the social sciences. In this course, the physical science qualities of the discipline are introduced. Students explore the various ways archaeologists use model building, statistical inference, and evidence analysis to reconstruct past human experiences. The course includes two hour of lab and two hours of lecture/discussion per week.
ANT 130 | SCIENCE AND PSEUDOSCIENCE IN ARCHAEOLOGY | 4 quarter hours  
(Undergraduate)  
Pseudoarchaeology misuses science, logic, and the archaeological record to create misrepresentations or misinterpretations of the past. While some of these claims capture the imagination or are entertaining, they can also perpetuate conspiracy theories, racist, or nationalist beliefs, leading to misunderstandings of ancient cultures. Most archaeologists, however, see these claims as fringe ideas, labeling them "pseudoscience." This course examines these different viewpoints by using science to assess assertions about extraordinary life forms, such as Bigfoot and "ancient aliens," and claims about lost races of people and civilizations, including Atlantis. We will consider why some people are attracted to these theories, how they originated, "evidence" used to support them, and science used to debunk prevailing beliefs. Students will gain valuable critical thinking and information literacy skills, while also learning how archaeologists think and what constitutes solid archaeological research, and how scientific methods help uncover the past.

ANT 201 | ETHNOGRAPHIC RESEARCH METHODS | 4 quarter hours  
(Undergraduate)  
This course focuses on practicing data collection techniques used by qualitative researchers in the social sciences. Under the supervision of the instructor, students will design and implement a collaborative research project. The techniques to be used may include (but are not limited to) observation, structured and semi-structured interviewing, network analysis, and focused group interviewing. The experience gained in this course prepares students for research activities in future course work, graduate school and professional life. In addition to the practical hands-on training, the course also addresses issues of the relationship of theory to method, ethical concerns in research with human subjects, reflexivity and inter-subjectivity in qualitative research.

ANT 202 | ARCHAEOLOGICAL FIELD METHODS | 6 quarter hours  
(Undergraduate)  
This course introduces students to the basic field and laboratory methods used in archaeological research through hands on experience. Students will receive intensive field training in archaeological field methods including excavation, survey, mapping, record keeping, and illustration. The course introduces basic laboratory techniques such as artifact processing, identification, and curation. The methodological training will be integrated through emphases on the place of data collection in the archaeological research process, and the relationship between archaeological data and questions of historical and anthropological importance. This course will provide students with the essential basic field training in archaeology required for both applied work in cultural resource management and continued education in anthropology.

ANT 203 | PROFESSIONALISM AND ETHICS IN ANTHROPOLOGY | 4 quarter hours  
(Undergraduate)  
This class explores the many dimensions of what it means to be a professional anthropologist in both applied and academic areas. Students will learn about specialized resources for anthropologists (web resources, library resources, funding resources, career resources), and become familiar with the professional structure of the discipline. A large portion of the course will be devoted to the debate/discussion/exploration of ethical issues that challenge anthropologists through the use of real cases that have confronted researchers in the field, and through an evaluation of the ethical codes of conduct adopted by the primary professional organizations in anthropology.

ANT 204 | LINEAGES OF CULTURE THEORY | 4 quarter hours  
(Undergraduate)  
This course provides the student with a history of the culture concept tracing the lineages of thought about culture from the nineteenth century to the present. Readings and seminar discussions will present an explicit discussion of how ideas and understanding about culture have changed over time and will introduce students to the main branches of cultural theory. Students will develop the skills and confidence to work with the abstractions and concepts that underlie anthropological research. The course is reading and writing intensive.

ANT 206 | WORLD PREHISTORY | 4 quarter hours  
(Undergraduate)  
Placing an emphasis on both theory and the latest archaeological and multidisciplinary approaches this overview of world prehistory will look at a series of interesting problems and case studies that provide a taste of the richness of human creativity. Topics include the evolution from foraging lifestyles, through the increased control of nature by early farmers, to the rise of states and empires: this is an examination of the deep and tangled roots of today's societies.

ANT 208 | WHY WE POST: THE ANTHROPOLOGY OF SOCIAL MEDIA | 4 quarter hours  
(Undergraduate)  
This is an introduction to cultural anthropology using the specific question of why we post on social media to illustrate the research approaches and analytical practices of this discipline. It is designed from the ground up as an online course. To say that social media is a global technology is an understatement. However, to say that everyone in all the places on the globe use social the same way is a research question. The answer is different depending on what community we are visiting and who in the community we are talking to. The reasons why we might post here in Chicago are not universal. In this course, we will visit five different communities: an impoverished former mining town in Northern Chile, an IT complex in Southern India, a rural village in Central China, an industrial complex in Southern China, and a politically sensitive town in South East Turkey. We will meet the people who live there through text and video. We will survey the social media landscape. We will look at the images and selfies they post and the games they play. They will explain their social lives to us in their own (translated) words. We will hear about their economic, social, and political concerns. Finally, we will draw some tentative conclusions about the realities and the illusions of social media.

ANT 210 | AFRICAN CULTURES | 4 quarter hours  
(Undergraduate)  
Survey of the people and cultures of Africa. Analysis of beliefs, customs, and social organization of traditional African cultures, and the forces of sociocultural change that have affected traditional patterns of life and are necessary to understand contemporary African societies. Formerly SOC 300.

ANT 220 | CULTURES OF EUROPE | 4 quarter hours  
(Undergraduate)  
Explores the cultural features of the European experience using ethnographic sources. Focuses on European life at the local level, examines the implications of European Community integration on peoples' lives in various countries, and explores causes of conflict within and between national boundaries. (formerly SOC 300 Regional Ethnology: Peoples of Europe).
ANT 224 | MAYA HUMANITIES | 4 quarter hours  
(Undergraduate)  
Students will read the Popul Vuh within the context of how it is interpreted and understood today by Maya intellectuals – including but not limited to writers, poets, academics and activists. Readings will include work on the philosophy and ethics embedded in monte/milpa agriculture through study of short story, music, poetry, cuisine and plays. It will also address the intentionality of movement in indigenous voice from object to subject.

ANT 230 | CULTURES OF THE PACIFIC | 4 quarter hours  
(Undergraduate)  
Explores traditional and contemporary cultures of the Pacific. A survey of Oceanic cultures from Australia, Melanesia, Micronesia, and Polynesia; consideration of the geography and geology of Pacific islands; and analysis of the history of contact between Pacific island peoples with Westerners and the consequences for life in the contemporary Pacific. (formerly SOC 300 Regional Ethnology: The Pacific Islands).

ANT 240 | CULTURES OF THE MIDDLE EAST | 4 quarter hours  
(Undergraduate)  
Explores the cultures and societies of the contemporary Middle East. Focuses on everyday life and practices, such as religion, social organization, art and popular culture. Uses ethnographic sources to examine the historical influence of various civilizations and religions on contemporary Middle Eastern societies from North Africa to Iran.

ANT 250 | MATERIAL CULTURE OF MODERN AMERICA | 4 quarter hours  
(Undergraduate)  
This course combines historical archaeology and material culture studies to examine how material goods both shape and reflect American identity. The course will take an historical approach beginning in the 17th century when most Americans wore homespun clothing and produced their own food, and continue to the 21st century and a time when Americans wear the national colors of Tommy Hilfiger and eat fast food lunches. Often such changes in material culture are characterized as the process of "modernization," and as such, the course will be centered on the relationship between material culture, American identity and conceptions of modernity. Cross-listed with AMS 370.

ANT 252 | MATERIAL CULTURE AND DOMESTIC LIFE | 4 quarter hours  
(Undergraduate)  
This course explores the social, and economic dynamics of households through material culture. Specifically, this course looks at how material goods structure domestic life, reflect values surrounding family and kinship, and mediate the relationship between individual households and broader levels of social organization such as community, society, and culture.

ANT 254 | HISTORICAL ARCHAEOLOGY OF CHICAGO | 4 quarter hours  
(Undergraduate)  
Students will be participating in an archaeological research project focusing on Chicago's past. The course will include an introduction to the concept of an archaeological research design. Students will engage in historical research using primary documents and analyze archaeological data to address specific research questions about Chicago's recent past. ANT 202 is a prerequisite for this course.

ANT 256 | MATERIAL CULTURE OF THE OLD WORLD | 4 quarter hours  
(Undergraduate)  
This course combines archaeology and material culture studies to examine how material goods both shape and reflect human experience in Asia, Africa and Europe. The course will be centered on the relationship between material culture, technology, subsistence patterns and societal complexity. The rise of cities and states in the old world will also be examined.

ANT 270 | HUMAN EVOLUTION | 4 quarter hours  
(Undergraduate)  
Principles of evolutionary theory and genetics will first be presented to provide a framework for the study of human evolutionary biology. Beginning with the earliest fossil evidence, the course will trace human evolution. Particular attention will be given to the forces of environment and sexual selection at work at various points in time. Data from nonhuman primate ecology will be used to help reconstruct prehistoric lives.

ANT 272 | INTRODUCTION TO MEDICAL ANTHROPOLOGY | 4 quarter hours  
(Undergraduate)  
This course separates fact from media fantasy in the application of anthropological knowledge to determining the cause of death. Specific case studies are presented that show the range of situations confronted by anthropologists who consult with law enforcement agencies.

ANT 280 | ARCHAEOLOGICAL FIELDWORK | 4 quarter hours  
(Undergraduate)  
This course introduces students to the basic field and laboratory methods used in archaeological research through hands on experience. Students will receive intensive field training in archaeological field methods including excavation, survey, mapping, record keeping, and illustration. The course introduces basic laboratory techniques such as artifact processing, identification, and curation. The methodological training will be integrated through emphases on the place of data collection in the archaeological research process, and the relationship between archaeological data and questions of historical and anthropological importance. This course will provide students with the essential basic field training in archaeology required for both applied work in cultural resource management and continued graduate education in archaeology.

ANT 290 | SPECIAL TOPICS IN REGIONAL ETHNOLOGY | 4 quarter hours  
(Undergraduate)  
Compares the patterns of sociocultural life in different societies within a particular geographic region in order to gain a general understanding of cultural themes, trends, and historical developments. Check current schedule of courses for specific topic. Course may be repeated for credit when title and content change.

ANT 314 | ANTHROPOLOGY OF GENDER | 4 quarter hours  
(Undergraduate)  
This course exposes students to a variety of topics that address gender cross-culturally and from an anthropological perspective. We shall explore the cultural processes that shape the lives of men, women and transgendered people across time and space.
ANT 317 | LANGUAGE, POWER AND IDENTITY | 4 quarter hours (Undergraduate)
Explores how communication patterns vary cross-culturally. Examines how the language people speak shapes their worldview and their ways of interacting with each other. Students learn basic techniques of analyzing conversations.

ANT 320 | HUMAN VARIATION | 4 quarter hours (Undergraduate)
Explores the interrelationships between culture, biology, and the environment in the shaping of social life, including human evolution, sexual differences, skin color, "race," body shape, and other aspects of human variation.

ANT 322 | COMMUNITY-BASED APPLIED PRACTICE | 6 quarter hours (Undergraduate)
This laboratory course in the applied anthropology sequence introduces students to the range of anthropological practice in the public and not-for-profit sector. Students will learn about the ways that anthropology has been and can be applied to initiate practical change in communities. In addition to learning the professional and ethical responsibilities of practicing anthropologists, students will also gain a practical experience working on an applied project. Human Subjects Research certification and an ethnographic methods is required for this class.

ANT 201, ANT 203 and senior standing are a prerequisite for this class.

ANT 324 | COLONIALISM TO GLOBAL SOCIETY | 4 quarter hours (Undergraduate)
This course examines long-term trends in the development of capitalist society in terms of both material and social organization from the 15th century to the present. Modeled on the core text, Europe and the People without History by Eric Wolfe, the course seeks to ground students in long-term processes of cultural development and change. These issues will be explored through a combination of archaeological and ethnographic perspectives and evidence.

ANT 326 | TRANSNATIONAL CULTURES | 4 quarter hours (Undergraduate)
This course examines the emergence of transnational culture in the modern world. The focus is on relationships and processes that link communities, such as trade, migration, and tourism, and the local experience of these global processes. While classroom discussion will be structured around critical readings of texts, self reflection and value consciousness will be encouraged. To this end, assignments will combine critical readings and guided experiential activities. Students will be tutored in techniques for giving professional style presentations. The course may vary according to faculty interest. Possible foci include labor migration, media, tourism, and/or global consumption.

ANT 328 | INTERNATIONAL APPLIED PRACTICE | 4 quarter hours (Undergraduate)
Examines various processes of sociocultural change, with emphasis on peoples undergoing or emerging from cultural, political, or economic oppression.

ANT 330 | CLIENT-BASED APPLIED PRACTICE | 4 quarter hours (Undergraduate)
This laboratory course introduces students to the use of anthropological methods and theories in the private, for-profit sector. Students will learn about the type of work anthropologists are performing in the corporate world such as design and marketing research, product usability studies, and cultural resource management. In addition to learning the professional and ethical responsibilities of practicing anthropologists, students will also gain a practical experience working on an applied project. Formerly ANT 316.

ANT 203 is a prerequisite for this course.

ANT 342 | ANTHROPOLOGY OF FOOD MOVEMENTS AND PRACTICES | 4 quarter hours (Undergraduate)
The meaning we attach to the foods we eat changes with the shifts in markets, governmental regulation and commitments to particular diets. This course provides ethnographic observational field studies of these changing movements and practices, leading the student to insights into cultural processes generally, and dietary practices in particular. The field site varies with the instructor and campus.

ANT 346 | URBAN ANTHROPOLOGY | 4 quarter hours (Undergraduate)
Theories and methods of contemporary anthropology and other fields are used to analyze cities and urban life. Cross-culturally explores the processes of urbanization, urbanism (urban culture, subcultures, and ethnic lifestyles), and the notion of images of cities. Recommended for sophomore level or above.

ANT 356 | URBAN ETHNOGRAPHY | 4 quarter hours (Undergraduate)
Examines the city as a type of human settlement, focusing on the different forms, functions, images, and ideological perceptions of cities over time and across a number of different cultures. Formerly SOC 356.

ANT 358 | ARCHEOLOGY OF CITIES | 4 quarter hours (Undergraduate)
This class provides a general overview of the archaeology of urban settlements. We will begin by asking the question "What is a city?" and look at the different theories that address the nature and origins of early urban settlements. To further examine this question we will focus on Cahokia, the largest prehistoric settlement in North America north of Mexico, and the city of Chicago, a well established urban, industrial center. The second portion of the class will take an even broader comparative approach towards the archeology of cities by applying the theories and insights gained in the first portion of the course to different world areas. Through these comparisons students will gain a deeper understanding of the diversity of urban forms across time and space, and consider the possibilities of cross-cultural similarities among prehistoric and early historic urban populations.

ANT 360 | ISSUES IN GLOBAL HEALTH | 4 quarter hours (Undergraduate)
This course focuses on a specific health issue or set of issues in our world. The interrelationships between culture and health in this issue are examined.
This course examines the evolving relationships between anthropology and museums. From functional, historical, material and aesthetic perspectives, the relationships between the cultural contexts of objects and museums will be explored. Case studies, guest lectures and site visits (virtual and real) will be used to demonstrate evolving theory, practice, law and ethical implications of collecting objects. Many of the logistical aspects of the museum including the laws and mission statements will also be examined.

This course investigates the impact of infectious disease on human societies from the Paleolithic through the present day. Using the framework of the three epidemiological transitions, it examines the changes in human health associated with the origins of agriculture, the development of industrialization, and the processes of globalization. Throughout this vast sweep of human history, emphasis is placed on the influence of both biological and social factors on the manifestations of human disease.

The course examines the evolving relationships between anthropology and museums. This course provides an overview of several critical issues in international women's health that illustrate the tension between biological/cultural and environmental explanations. We begin the semester by asking the question, "What does it mean to think anthropologically about women's health?" The course has an emphasis on how women themselves define, confront, manage and develop capacity to organize for better health in the face of societal pressures, structural violence and unequal access to resources. Students are also introduced to basic knowledge of epidemiological transitions, evolutionary medicine and situate Western medicine within the medical systems that have formed in the broader story of human history.

This course provides an overview of several critical issues in international women's health that illustrate the tension between biological/cultural and environmental explanations. We begin the semester by asking the question, "What does it mean to think anthropologically about women's health?" The course has an emphasis on how women themselves define, confront, manage and develop capacity to organize for better health in the face of societal pressures, structural violence and unequal access to resources. Students are also introduced to basic knowledge of epidemiological transitions, evolutionary medicine and situate Western medicine within the medical systems that have formed in the broader story of human history.

The course examines the production and display of "culture" and "heritage" in public places worldwide, including tourist destinations, museums, and historic and commemorative sites. We will focus on the social and political implications of these processes and their relationship to anthropology. Museums were an early locus of anthropology and continue to be key sites for its public expression. In this course we will investigate "culture" on the loose and consider what studying the museum, tourism, and heritage industries can teach us about anthropology. Students will gain a deeper understanding of the concept of culture in anthropology. We will divide our time between reading, field trips to local museums and historic sites, and a hands-on class project.

The course is an introduction to the analysis of archaeological data, the interplay between the knowledge people have of the world and the remains and traces of their actions in it. We review the relevant culture theory needed to draw distinctions between analytical stances. We examine how the rhetoric of the research report changes as different analytical stances are selected.

Introduction to cultural analysis, the interplay between the knowledge people have of the world and their actions in it; explores the rudiments of culture theory needed to draw distinctions between analytical stances; examines how the rhetoric of the research report changes as different analytical stances are selected.

This course helps anthropology majors prepare for professional presentations at conferences, research exposition, publications and theses. It uses data collected in another class. The student focuses on developing the communication techniques necessary to meet a professional standard. Honors program students complete the honors program in anthropology with this course. The course is registered using the independent study procedure on Campus Connect. The course is taken normally for 2 credits. Students writing an honors program thesis can take the course for 4 credits.

Variable topics in anthropology intended for advanced students. Explores special aspects or areas of anthropology based on particular interests and expertise of the instructor; course content and title will vary with the instructor. Check current schedule of courses for specific topic. Course may be repeated for credit when title and content change.

In-depth examination of selected topics in sociocultural anthropology, based either on a geographic area or theoretical theme. Check current schedule of courses for specific topic. Course may be repeated for credit when title and content change.

This course is an introduction to the analysis of archaeological data, the interplay between the knowledge people have of the world and the remains and traces of their actions in it. We review the relevant culture theory needed to draw distinctions between analytical stances. We examine how the rhetoric of the research report changes as different analytical stances are selected.

This course provides an overview of several critical issues in international women's health that illustrate the tension between biological/cultural and environmental explanations. We begin the semester by asking the question, "What does it mean to think anthropologically about women's health?" The course has an emphasis on how women themselves define, confront, manage and develop capacity to organize for better health in the face of societal pressures, structural violence and unequal access to resources. Students are also introduced to basic knowledge of epidemiological transitions, evolutionary medicine and situate Western medicine within the medical systems that have formed in the broader story of human history.
Applied Brass (APB)

APB 110 | EUPHONIUM | 1-4 quarter hours
(Undergraduate)
Advanced individual instruction in euphonium performance at the undergraduate level. Undergraduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 36 credits of applied lessons over their entire course of study.

Status as an Undergraduate Music student is a prerequisite for this class.

APB 130 | FRENCH HORN | 1-4 quarter hours
(Undergraduate)
Advanced individual instruction in french horn performance at the undergraduate level. Undergraduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 36 credits of applied lessons over their entire course of study.

Status as an Undergraduate Music student is a prerequisite for this class.

APB 165 | TROMBONE | 1-4 quarter hours
(Undergraduate)
Advanced individual instruction in trombone performance at the undergraduate level. Undergraduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 36 credits of applied lessons over their entire course of study.

Status as an Undergraduate Music student is a prerequisite for this class.

APB 170 | TRUMPET | 1-4 quarter hours
(Undergraduate)
Advanced individual instruction in trumpet performance at the undergraduate level. Undergraduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 36 credits of applied lessons over their entire course of study.

Status as an Undergraduate Music student is a prerequisite for this class.

APB 410 | EUPHONIUM | 1-4 quarter hours
(Graduate)
Advanced individual instruction in euphonium performance at the graduate level. Graduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 18 credits of applied lessons over their entire course of study.

Status as a Graduate Music student is a prerequisite for this class.

APB 430 | FRENCH HORN | 1-4 quarter hours
(Graduate)
Advanced individual instruction in french horn performance at the graduate level. Graduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 18 credits of applied lessons over their entire course of study.

Status as a Graduate Music student is a prerequisite for this class.

APB 470 | TRUMPET | 1-4 quarter hours
(Graduate)
Advanced individual instruction in trumpet performance at the graduate level. Graduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 18 credits of applied lessons over their entire course of study.

Status as a Graduate Music student is a prerequisite for this class.

APB 475 | TUBA | 1-4 quarter hours
(Graduate)
Advanced individual instruction in tuba performance at the graduate level. Graduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 18 credits of applied lessons over their entire course of study.

Status as a Graduate Music student is a prerequisite for this class.

Applied Keyboard (APK)

APK 150 | PIANO | 1-4 quarter hours
(Undergraduate)
Advanced individual instruction in piano performance at the undergraduate level. Undergraduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 36 credits of applied lessons over their entire course of study.

Status as an Undergraduate Music student is a prerequisite for this class.

APK 160 | HARP| 1-4 quarter hours
(Undergraduate)
Advanced individual instruction in harp performance at the undergraduate level. Undergraduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 36 credits of applied lessons over their entire course of study.

Status as an Undergraduate Music student is a prerequisite for this class.

APK 450 | PIANO | 1-4 quarter hours
(Graduate)
Advanced individual instruction in piano performance at the graduate level. Graduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 18 credits of applied lessons over their entire course of study.

Status as a Graduate Music student is a prerequisite for this class.

APK 460 | HARP | 1-4 quarter hours
(Graduate)
Advanced individual instruction in harp performance at the graduate level. Graduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 18 credits of applied lessons over their entire course of study.

Status as a Graduate Music student is a prerequisite for this class.

Applied Music (APM)

APM 124 | ENGLISH DICTION | 1 quarter hour
(Undergraduate)
Beginning level English diction for singers. (1 quarter hour)

Status as an Undergraduate Music student is a prerequisite for this class.

APM 125 | ITALIAN DICTION | 1 quarter hour
(Undergraduate)
Beginning level Italian diction for singers, and an introduction to the international phonetic alphabet. (1 quarter hour)

APV 100 is a corequisite for this class.
APM 126 | GERMAN DICTION I | 1 quarter hour  
(Undergraduate)  
Beginning level German diction for singers. (1 quarter hour)  
APM 125 is a prerequisite and APV 100 is a corequisite for this class.

APM 127 | FRENCH DICTION I | 1 quarter hour  
(Undergraduate)  
Beginning level French diction for singers. (1 quarter hour)  
APM 126 is a prerequisite and APV 100 is a corequisite for this class.

APM 160 | WORLD PERCUSSION TECHNIQUES | 2 quarter hours  
(Undergraduate)  
Class playing techniques for bongos, congas, and other Latin accessories. (2 quarter hours)  
Status as an Undergraduate Music student is a prerequisite for this class.

APM 170 | PERCUSSION CONCERT ACCESSORIES TECHNIQUES CLASS I | 2 quarter hours  
(Undergraduate)  
Class playing technique for cymbals, triangle, tambourine, and other percussion accessories. (2 quarter hours)  
Status as an Undergraduate Music student is a prerequisite for this class.

APM 204 | VOCAL COACHING I | 1 quarter hour  
(Undergraduate)  
The musical and dramatic performance of select vocal repertoire with special regard to recital material, integrating stylistic considerations, ornamentation, and cadenzas. (1 quarter hour)  
Status as an Undergraduate Music student is a prerequisite for this class.

APM 205 | JUNIOR RECITAL | 2.00 quarter hours  
(Undergraduate)  
A short, 30-60 minute, public recital performance of solo and/or chamber repertoire to be completed in the Junior year. (2 quarter hours)  
APB 110, APB 130, APB 165, APB 170, APB 175, APM 150, APM 160, APM 170, APM 175, APM 180, APM 185, APM 190, APM 115, APM 120, APM 125, APM 135, or APV 100 is a corequisite for this class.

APM 225 | ITALIAN DICTION II | 1 quarter hour  
(Undergraduate)  
Intermediate level Italian diction for singers. (1 quarter hour)  
APM 125 is a prerequisite for this class.

APM 226 | GERMAN DICTION II | 1 quarter hour  
(Undergraduate)  
Intermediate level German diction for singers. (1 quarter hour)  
APM 125 is a prerequisite for this class.

APM 227 | FRENCH DICTION II | 1 quarter hour  
(Undergraduate)  
Intermediate level French diction for singers. (1 quarter hour)  
APM 127 is a prerequisite for this class.

APM 242 | ACCOMPANYING CLASS I | 2 quarter hours  
(Undergraduate)  
An introduction to the role of the piano accompanist in vocal repertoire, and development of basic vocal coaching skills. A year-long sequence of courses. (2 quarter hours)  
Status as an Undergraduate Keyboard student who has passed the petition to major is a prerequisite and APK 150 and APM 300 is a corequisite for this class.

APM 244 | ACCOMPANYING CLASS II | 2 quarter hours  
(Undergraduate)  
An introduction to the role of the piano accompanist in wind instrumental repertoire, and development of basic vocal coaching skills. A year-long sequence of courses. (2 quarter hours)  
Status as an Undergraduate Keyboard student who has passed the petition to major is a prerequisite and APK 150 and APM 301 is a corequisite for this class.

APM 245 | ACCOMPANYING CLASS III | 2 quarter hours  
(Undergraduate)  
An introduction to the role of the piano accompanist in string instrumental repertoire, and development of basic vocal coaching skills. A year-long sequence of courses. (2 quarter hours)  
Status as an Undergraduate Keyboard student who has passed the petition to major is a prerequisite and APK 150 and APM 302 is a corequisite for this class.

APM 253 | INTRODUCTION TO ACTING FOR SINGERS | 2 quarter hours  
(Undergraduate)  
An introductory course in stage terminology and methods of preparation for stage performance. Class activities include reading assignments, discussions, and performances such as singing, spoken monologues and poems, and improvisation. (2 quarter hours)  
Status as an Undergraduate Music student is a prerequisite for this class.

APM 254 | INTRODUCTION TO ACTING FOR SINGERS II | 2 quarter hours  
(Undergraduate)  
A course in stage terminology and methods of preparation for stage performance. Class activities include reading assignments, discussions, and performances such as singing, spoken monologues and poems, and improvisation. (2 quarter hours)  
Status as an Undergraduate Music student is a prerequisite for this class.

APM 300 | ACCOMPANYING PRACTICUM FOR PIANISTS I: VOICE | 1 quarter hour  
(Undergraduate)  
An exploration of different styles of vocal repertoire, and the practice of accompanying vocalists in both studio and performance formats. (1 quarter hour)  
Status as an Undergraduate Keyboard student who has passed the petition to major is a prerequisite and APK 150 and APM 242 is a corequisite for this class.

APM 301 | ACCOMPANYING PRACTICUM FOR PIANISTS II: WINDS | 1 quarter hour  
(Undergraduate)  
An exploration of different styles of wind repertoire, and the practice of accompanying wind players in both studio and performance formats. (1 quarter hour)  
Status as an Undergraduate Keyboard student who has passed the petition to major is a prerequisite and APK 150 and APM 244 is a corequisite for this class.

APM 302 | ACCOMPANYING PRACTICUM FOR PIANISTS III: STRINGS | 1 quarter hour  
(Undergraduate)  
An exploration of different styles of string repertoire, and the practice of accompanying string players in both studio and performance formats. (1 quarter hour)  
Status as an Undergraduate Keyboard student who has passed the petition to major is a prerequisite and APK 150 and APM 245 is a corequisite for this class.
APM 303 | MUSICAL COACHING FOR SINGERS | 2 quarter hours
(Undergraduate)
Students meet in a masterclass format for musical and diction coaching in their current repertoire. (2 quarter hours)
Status as an Undergraduate Music student is a prerequisite for this class.

APM 304 | VOCAL COACHING II | 1 quarter hour
(Undergraduate)
The musical and dramatic performance of select vocal repertoire with special regard to recital material, integrating stylistic considerations, ornamentation, and cadenzas. (1 quarter hour)
An undergraduate vocal performance major and a completed petition to major is a prerequisite for this class.

APM 305 | SENIOR RECITAL | 2.00 quarter hours
(Undergraduate)
A full 60 minute, public recital performance of solo and/or chamber repertoire to be completed in the Senior year. This recital is required as partial fulfillment of the degree of Bachelor of Music in Performance. (2 quarter hours)

APM 310 | HARPSICHORD PERFORMANCE PRACTICE | 2 quarter hours
(Undergraduate)
A practical introduction for pianists to the harpsichord, harpsichord repertoire from the late Renaissance to early Classical eras, and relevant performance practice and stylistic considerations. (2 quarter hours)
Status as a piano performance student who has passed the petition to major or permission from the instructor is a prerequisite for this class.

APM 306 | BAROQUE PERFORMANCE PRACTICE-INSTRUMENTAL | 2 quarter hours
(Undergraduate)
This course focuses on the interpretation and performance of music from the Baroque era, concentrating primarily on 18th century literature. Open to all instrumentalists, students will study Baroque performance practice based on the treatises and various writings of the time, as well as current scholarly research of early music specialists. (2 quarter hours)
Status as an Undergraduate Music student is a prerequisite for this class.

APM 307 | VOCAL COACHING III | 1.25 quarter hours
(Undergraduate)
This course analyzes and simulates the professional performing arts market, providing collaborative hands-on experience for performers and arts managers-in-training. In this course, performers will hone their musical point-of-view and create an original, self-produced performance as a major Baroque composer and the principal forms and styles that a modern performer would encounter. (2 quarter hours)
Status as an Undergraduate Music student is a prerequisite for this class.

APM 308 | BAROQUE PERFORMANCE PRACTICE | 2 quarter hours
(Undergraduate)
A detailed study of significant woodwind orchestral literature, with special emphasis on improving ensemble skills. Each week will feature new repertoire to be rehearsed and performed during the class. (2 quarter hours)
Status as an Undergraduate Woodwind student who has passed the petition to major is a prerequisite for this class.

APM 309 | MUSIC ENTREPRENEURSHIP | 2 quarter hours
(Undergraduate)
Through opportunity creation, case study, discussion and peer evaluation, this course analyzes and simulates the professional performing arts marketplace, providing collaborative hands-on experience for performers and arts managers-in-training. In this course, performers will hone their musical point-of-view and create an original, self-produced performance opportunity in the DePaul community, with marketing materials and a business structure to support their project. Arts Management students will collaborate with performers on these projects, providing support to their colleagues in a way that models their future professional activities. Each student will also be responsible for analyzing a current successful model, identifying keys to success. This course is intended to bridge the transition from college to career, providing the artistic, career development and entrepreneurship training that have become essential in today’s professional environment. Cross-listed with PAM 309. (2 quarter hours)
Status as an Undergraduate Music student is a prerequisite for this class.

APM 311 | WOODWIND PEDAGOGY | 2 quarter hours
(Undergraduate)
This course is designed to provide students with an overview of the important aspects of woodwind pedagogy. Students will gain the necessary knowledge and skills to teach woodwind students of all ages and ability levels. (2 quarter hours)
Status as a Undergraduate Woodwind student who has passed the petition to major is a prerequisite for this class.

APM 312 | BAROQUE ORNAMENTATION FOR PERFORMERS | 2 quarter hours
(Undergraduate)
This class will be a cumulative survey of ornamentation, involving some improvisation, in Italian, French and German styles. Topics will cover the major Baroque composers and the principal forms and styles that a modern performer would encounter. Status as an Undergraduate Music student is a prerequisite for this class.

APM 315 | THE BUSINESS OF MUSIC FROM THE PERFORMER'S PERSPECTIVE | 2 quarter hours
(Undergraduate)
Explorations of the business aspects of the performing musician. Topics will include unions, networking, freelancing, audition preparation, taxes, and ethics. (2 quarter hours)
Status as an Undergraduate Music student is a prerequisite for this class.

APM 319 | PERFORMANCE PRACTICE AND CRITIQUE | 2 quarter hours
(Undergraduate)
This course will provide students with additional performance opportunities and will give them a chance to get critique from people not playing their instrument and, therefore, without the sympathy to its technical demands. Additionally, they will learn to critique their peers in an appropriate and focused manner and will become better acquainted with the specifics of other instruments. (2 quarter hours)
Status as an Undergraduate Music student is a prerequisite for this class.

APM 328 | ORCHESTRAL REPERTOIRE FOR WOODWINDS I: LITERATURE PERFORMANCE | 2 quarter hours
(Undergraduate)
Detailed study of significant woodwind orchestral literature, with special emphasis on improving ensemble skills. Each week will feature new repertoire to be rehearsed and performed during the class. (2 quarter hours)
Status as an Undergraduate Woodwind student who has passed the petition to major is a prerequisite for this class.

APM 329 | WOODWIND ORCHESTRAL REPERTOIRE II: AUDITION PREPARATION | 2 quarter hours
(Undergraduate)
An overview of orchestral woodwind audition repertoire with special emphasis on audition preparation and audition practice. Students will take several mock auditions over the course of the quarter to improve their understanding of the audition experience. (2 quarter hours)
Status as a Undergraduate Woodwind student who has passed the petition to major is a prerequisite for this class.

APM 330 | PIANO PEDAGOGY | 2 quarter hours
(Undergraduate)
Introduction to the field of piano teaching at the beginning through advanced elementary levels, with an emphasis on learning theories, instructional techniques, curriculum planning, studio organization and teaching materials. The first of a two course sequence. (2 quarter hours)
Status as an Undergraduate Keyboard student who has passed the petition to major is a prerequisite for this class.
APM 333 | PIANO PEDAGOGY II | 2 quarter hours  
(Undergraduate)  
An exploration of all aspects of intermediate level piano study, with emphasis on long/short term goals for musical/technical development, instructional techniques, teaching of functional and musicianship skills, survey of intermediate level teaching materials, grading and repertoire selection. The second of a two course sequence.  
(2 quarter hours)  
Status as a Undergraduate Keyboard student who has passed the petition to major is a prerequisite for this class.

APM 336 | VOICE PEDAGOGY | 2 quarter hours  
(Undergraduate)  
An introduction to basic concepts of vocal pedagogy and the physiology of the singing voice. Through listening, evaluation, study, discussion, observation, and teaching, students will gain a better understanding of how to approach teaching beginning through advanced vocal students.  
(2 quarter hours)  
An undergraduate vocal performance major and a completed petition to major is a prerequisite for this class.

APM 337 | ALEXANDER TECHNIQUE | 1 quarter hour  
(Undergraduate)  
Introduction to the Alexander Technique as applied to musical performance.  
(1 quarter hour)  
Status as an Undergraduate Music student is a prerequisite for this class.

APM 340 | ORCHESTRAL REPERTOIRE FOR STRINGS I | 2 quarter hours  
(Undergraduate)  
Study of standard orchestral repertoire for string instruments. A year-long sequence of courses.  
(2 quarter hours)  
Status as a Undergraduate String Performance student who has passed the petition to major is a prerequisite for this class.

APM 341 | ORCHESTRAL REPERTOIRE FOR STRINGS II | 2 quarter hours  
(Undergraduate)  
Study of standard orchestral repertoire for string instruments. A year-long sequence of courses.  
(2 quarter hours)  
Status as an Undergraduate String Performance Major and APM 340 are a prerequisite for this class.

APM 342 | ORCHESTRAL REPERTOIRE FOR STRINGS III | 2 quarter hours  
(Undergraduate)  
(2 quarter hours)  
Status as an Undergraduate String Performance Major and APM 341 are a prerequisite for this class.

APM 343 | ORCHESTRAL REPERTOIRE FOR STRING BASS | 2 quarter hours  
(Undergraduate)  
Study of standard orchestral repertoire for string basses.  
(2 quarter hours)  
Status as a String Bass student is a prerequisite for this class.

APM 346 | PERCUSSION PEDAGOGY | 2 quarter hours  
(Undergraduate)  
This course presents teaching techniques of all the major percussion instruments, for students of beginning through advanced levels of proficiency. The course includes an in-depth examination of pertinent published teaching materials, e.g. as method books and collections, as well as an exploration of techniques for motivating young students.  
(2 quarter hours)  
An Undergraduate Percussion Performance major and a completed petition to major is a prerequisite for this class.

APM 347 | ORCHESTRAL REPERTOIRE FOR PERCUSSION | 2 quarter hours  
(Undergraduate)  
Study of standard orchestral repertoire for percussion instruments.  
(2 quarter hours)  
An Undergraduate Percussion Performance major and a completed petition to major is a prerequisite for this class.

APM 350 | ORCHESTRAL REPERTOIRE FOR PERCUSSION | 2 quarter hours  
(Undergraduate)  
Study of standard orchestral repertoire for percussion instruments.  
(2 quarter hours)  
An Undergraduate Percussion Performance major and a completed petition to major is a prerequisite for this class.

APM 351 | INTERPRETATION OF VOCAL LITERATURE I | 2 quarter hours  
(Undergraduate)  
Study and demonstration of performance practices (16th-century to present), with a focus on vocal literature in German.  
(2 quarter hours)  
An undergraduate vocal performance major and a completed petition to major is a prerequisite for this class.

APM 352 | INTERPRETATION OF VOCAL LITERATURE II | 2 quarter hours  
(Undergraduate)  
Study and demonstration of performance practices (16th-century to present), with a focus on vocal literature in Italian and English.  
(2 quarter hours)  
Status as an Undergraduate Vocal Performance major and APM 351 are a prerequisite for this class.

APM 353 | INTERPRETATION OF VOCAL LITERATURE III | 2 quarter hours  
(Undergraduate)  
Study and demonstration of performance practices (16th-century to present), with a focus on vocal literature in French.  
(2 quarter hours)  
Status as an Undergraduate Vocal Performance major and APM 350 is a prerequisite for this class.

APM 354 | TECHNIQUES OF THE MUSIC STAGE I | 2 quarter hours  
(Undergraduate)  
Study, coaching, rehearsal and performance of music drama and opera.  
(2 quarter hours)  
An undergraduate vocal performance major and a completed petition to major is a prerequisite for this class.

APM 355 | TECHNIQUES OF THE MUSIC STAGE II | 2 quarter hours  
(Undergraduate)  
Study, coaching, rehearsal and performance of music drama and opera.  
(2 quarter hours)  
An undergraduate vocal performance major and a completed petition to major is a prerequisite for this class.

APM 356 | OPERA WORKSHOP | 2 quarter hours  
(Undergraduate)  
An advanced course in opera repertoire; scenes of operas will be presented for public performance.  
(2 quarter hours)  
APM 353 is a prerequisite for this class.

APM 357 | PIANO LITERATURE I: RENAISSANCE, BAROQUE & CLASSICAL | 2 quarter hours  
(Undergraduate)  
An in-depth study of the long-established tradition of pianists and pianism, from Liszt and his disciples in the 19th century through Rachmaninoff, Horowitz and the great pianists of the 20th century, and how the role of the pianist has evolved to the present day.  
(2 quarter hours)  
Status as a piano performance student who has passed the petition to major or permission from the instructor is a prerequisite for this class.
APM 362 | PIANO LITERATURE II: ROMANTICISM | 2 quarter hours (Undergraduate)
The purpose of this course is to give piano majors an in-depth look at the role that the piano has played throughout history, not only as a solo instrument but also as a crucial element of any collaborative music making. (2 quarter hours)
Status as a piano performance student who has passed the petition to major or permission from the instructor is a prerequisite for this class.

APM 363 | PIANO LITERATURE III: LATE 19TH - 21ST CENTURY | 2 quarter hours (Undergraduate)
The purpose of this course is to give piano majors an in-depth look at the role that the piano has played throughout history, not only as a solo instrument but also as a crucial element of any collaborative music making. (2 quarter hours)
Status as a piano performance student who has passed the petition to major or permission from the instructor is a prerequisite for this class.

APM 372 | ORCHESTRAL REPETORIORE FOR BRASS | 2 quarter hours (Undergraduate)
Study of standard orchestral repertoire for brass instruments. (2 quarter hours)
An undergraduate brass performance major and a completed petition to major is a prerequisite for this class.

APM 373 | BRASS CONCEPTS | 2 quarter hours (Undergraduate)
A study of brass literature, performance, and pedagogy. An introduction to professional career responsibilities and opportunities. (2 quarter hours)
An undergraduate brass performance major and a completed petition to major is a prerequisite for this class.

APM 374 | BRASS INSTRUMENT PERFORMANCE STYLE | 2 quarter hours (Undergraduate)
Survey of solo and orchestral performance styles through the principal composers of the 19th and 20th centuries. Analysis of new demands placed on performers in the 21st century. Study of stylistic concepts based on historical, technical, national, and aesthetic considerations. (2 quarter hours)
A petition to major is a prerequisite for this class.

APM 377 | GUITAR HISTORY AND LITERATURE I | 3 quarter hours (Undergraduate)
Analytical and historical survey of the literature for plucked instruments from the sixteenth through the twentieth centuries. A year-long sequence of courses. (3 quarter hours)
Status as a Undergraduate Guitar Performance student who has passed the petition to major is a prerequisite for this class.

APM 378 | GUITAR HISTORY AND LITERATURE II | 3 quarter hours (Undergraduate)
Analytical and historical survey of the literature for plucked instruments from the sixteenth through the twentieth centuries. A year-long sequence of courses. (3 quarter hours)
Status as a Guitar Performance Major and APM 377 are prerequisites for this class.

APM 379 | GUITAR HISTORY AND LITERATURE III | 3 quarter hours (Undergraduate)
Analytical and historical survey of the literature for plucked instruments from the sixteenth through the twentieth centuries. A year-long sequence of courses. (3 quarter hours)
Status as a Guitar Performance Major and APM 378 are a prerequisite for this class.

APM 382 | STRING PEDAGOGY I | 2-3 quarter hours (Undergraduate)
An introduction to the field of string teaching at the beginning through advanced levels, with an emphasis on traditional and Suzuki pedagogical approaches. A year-long sequence of courses. (2 quarter hours)
Status as a String Performance, Guitar Performance, or Music Education Major is a prerequisite for this class.

APM 383 | STRING PEDAGOGY II | 2-3 quarter hours (Undergraduate)
An introduction to the field of string teaching at the beginning through advanced levels, with an emphasis on traditional and Suzuki pedagogical approaches. A year-long sequence of courses. (2 quarter hours)
Status as a String Performance, Guitar Performance, or Music Education major and APM 384 is a prerequisite for this class.

APM 384 | STRING PEDAGOGY III | 2-3 quarter hours (Undergraduate)
An introduction to the field of string teaching at the beginning through advanced levels, with an emphasis on traditional and Suzuki pedagogical approaches. A year-long sequence of courses. (2 quarter hours)
Status as a String Performance, Guitar Performance, or Music Education major and APM 384 is a prerequisite for this class.

APM 385 | STRING PEDAGOGY IV | 2-3 quarter hours (Undergraduate)
An introduction to the field of string teaching at the beginning through advanced levels, with an emphasis on traditional and Suzuki pedagogical approaches. A year-long sequence of courses. (2 quarter hours)
Status as a String Performance, Guitar Performance, or Music Education major and APM 384 is a prerequisite for this class.

APM 386 | STRING PEDAGOGY V | 2-3 quarter hours (Undergraduate)
An introduction to the field of string teaching at the beginning through advanced levels, with an emphasis on traditional and Suzuki pedagogical approaches. A year-long sequence of courses. (2 quarter hours)
Status as a String Performance, Guitar Performance, or Music Education major and APM 384 is a prerequisite for this class.

APM 387 | STUDIO TEACHING AS A PROFESSION | 2 quarter hours (Undergraduate)
Strategies and techniques for the professional studio teacher. (2 quarter hours)
A petition to major is a prerequisite for this class.

APM 388 | ADVANCED VOCAL DICTION | 1 quarter hour (Undergraduate)
Advanced study of German, French, or Italian diction. Junior or senior status required. (1 quarter hour)

APM 389 | INDEPENDENT STUDY | 4.00 quarter hours (Undergraduate)
An in-depth study of an applied music topic under the supervision of a faculty member. (Departmental permission required). (variable credit)
Status as a Music student is a prerequisite for this class.

APM 400 | OPERA WORKSHOP | 2 quarter hours (Graduate)
An advanced course in opera repertoire; scenes of operas will be presented for public performance. (2 quarter hours)
Status as a Graduate Music student is a prerequisite for this class.

APM 403 | MUSICAL COACHING FOR SINGERS | 2 quarter hours (Graduate)
Students meet in a masterclass format for musical and diction coaching in their current repertoire. (2 quarter hours)

APV 100 or APV 400 is a corequisite for this class.

APM 405 | GRADUATE RECITAL | 0 quarter hour (Graduate)
A full 60 minute, public recital performance of solo and/or chamber repertoire to be completed during the graduate residence. This recital is required as partial fulfillment of the degree of Master of Music in Performance and for the post-Masters Certificate in Performance. (0 quarter hours)

APB 410, APB 430, APB 465, APB 470, APB 475, APK 450, APK 460, APP 400, APS 427, APS 460, APS 480, APS 485, APS 490, APW 415, APW 425, APW 435, APW 455, or APV 400 is a corequisite for this class.
APM 406 | HARPSICHORD PERFORMANCE PRACTICE | 2 quarter hours
(Graduate)
A practical introduction for pianists to the harpsichord, harpsichord repertoire from the late Renaissance to early Classical eras, and relevant performance practice and stylistic considerations. (2 quarter hours)
Status as a Graduate Piano student or Music Performance certificate student is a prerequisite for this class.

APM 408 | BAROQUE PERFORMANCE PRACTICE-INSTRUMENTAL | 2 quarter hours
(Graduate)
This course focuses on the interpretation and performance of music from the Baroque era, concentrating primarily on 18th century literature. Open to all instrumentalists, students will study Baroque performance practice based on the treatises and various writings of the time, as well as current scholarly research of early music specialists. (2 quarter hours)
Status as a Graduate Music student is a prerequisite for this class.

APM 409 | MUSIC ENTREPRENEURSHIP | 2 quarter hours
(Graduate)
Through opportunity creation, case study, discussion and peer evaluation, this course analyzes and simulates the professional performing arts marketplace, providing collaborative hands-on experience for performers and arts managers-in-training. In this course, performers will hone their musical point-of-view and create an original, self-produced performance opportunity in the DePaul community, with marketing materials and a business structure to support their project. Arts Management students will collaborate with performers on these projects, providing support to their colleagues in a way that models their future professional activities. Each student will also be responsible for analyzing a current successful model, identifying keys to success. This course is intended to bridge the transition from college to career, providing the artistic, career development and entrepreneurship training that have become essential in today’s professional environment. (2 quarter hours)
Status as a Graduate Music student is a prerequisite for this class.

APM 410 | BAROQUE PERFORMANCE PRACTICE | 2 quarter hours
(Graduate)
Study of Baroque technique, focusing on the major Baroque composers and the principal forms and styles that a modern performer would encounter. Status as a Graduate Music student is a prerequisite for this class.

APM 411 | WOODWIND PEDAGOGY | 2 quarter hours
(Graduate)
This course is designed to provide students with an overview of the important aspects of woodwind pedagogy. Students will gain the necessary knowledge and skills to teach woodwind students of all ages and ability levels. (2 quarter hours)
Status as a Graduate Music student is a prerequisite for this class.

APM 412 | BAROQUE ORNAMENTATION FOR PERFORMERS | 2 quarter hours
(Graduate)
This course will provide students will additional performance opportunities and will give them a chance to get critique from people not playing their instrument and, therefore, without the sympathy to its technical demands. Additionally, they will learn to criticize their peers in an appropriate and focused manner and will become better acquainted with the specifics of other instruments. (2 quarter hours)
Status as a Graduate Music Performance student (degree or certificate) is a prerequisite for this class.

APM 415 | ITALIAN DICTION/LANGUAGE LAB | 1.00 quarter hours
(Graduate)
This course is offered in conjunction with the first year of graduate vocal study, with an emphasis on the translation, pronunciation, grammatical understanding, and interpretation of Italian texts. (0 quarter hours)
Status as a Graduate Voice Performance student is a prerequisite for this class.

APM 416 | GERMAN DICTION/LANGUAGE LAB FOR GRADUATE STUDENTS | 1.00 quarter hours
(Graduate)
This course is offered in conjunction with the first year of graduate vocal study, with an emphasis on the translation, pronunciation, grammatical understanding, and interpretation of German texts. (1 quarter hours)
Status as a Graduate Voice Performance student is a prerequisite for this class.

APM 417 | FRENCH DICTION/LANGUAGE LAB FOR GRADUATE STUDENTS | 1.00 quarter hours
(Graduate)
This course is offered in conjunction with the first year of graduate vocal study, with an emphasis on the translation, pronunciation, grammatical understanding, and interpretation of French texts. (0 quarter hours)
Status as a Graduate Voice Performance student is a prerequisite for this class.

APM 419 | PERFORMANCE PRACTICE AND CRITIQUE | 2 quarter hours
(Graduate)
This course will provide students with additional performance opportunities and will give them a chance to get critique from people not playing their instrument and, therefore, without the sympathy to its technical demands. Additionally, they will learn to criticize their peers in an appropriate and focused manner and will become better acquainted with the specifics of other instruments. (2 quarter hours)
Status as a Graduate Music Performance student (degree or certificate) is a prerequisite for this class.

APM 420 | HARPSICHORD PERFORMANCE PRACTICE | 2 quarter hours
(Graduate)
Study of Baroque technique, focusing on the major Baroque composers and the principal forms and styles that a modern performer would encounter. Status as a Graduate Music student is a prerequisite for this class.

APM 421 | WOODWIND PEDAGOGY | 2 quarter hours
(Graduate)
This course is designed to provide students with an overview of the important aspects of woodwind pedagogy. Students will gain the necessary knowledge and skills to teach woodwind students of all ages and ability levels. (2 quarter hours)
Status as a Graduate Music student is a prerequisite for this class.

APM 422 | BAROQUE ORNAMENTATION FOR PERFORMERS | 2 quarter hours
(Graduate)
This course will provide students with additional performance opportunities and will give them a chance to get critique from people not playing their instrument and, therefore, without the sympathy to its technical demands. Additionally, they will learn to criticize their peers in an appropriate and focused manner and will become better acquainted with the specifics of other instruments. (2 quarter hours)
Status as a Graduate Music Performance student (degree or certificate) is a prerequisite for this class.

APM 423 | THE BUSINESS OF MUSIC FROM THE PERFORMER'S PERSPECTIVE | 2 quarter hours
(Graduate)
Explorations of the business aspects of the performing musician. Topics will include unions, networking, freelancing, audition preparation, taxes, and ethics. Seminar format. (2 quarter hours)
Status as a Graduate Music student is a prerequisite for this class.

APM 424 | THE BUSINESS OF MUSIC FROM THE PERFORMER'S PERSPECTIVE | 2 quarter hours
(Graduate)
Explorations of the business aspects of the performing musician. Topics will include unions, networking, freelancing, audition preparation, taxes, and ethics. Seminar format. (2 quarter hours)
Status as a Graduate Music student is a prerequisite for this class.

APM 425 | THE BUSINESS OF MUSIC FROM THE PERFORMER'S PERSPECTIVE | 2 quarter hours
(Graduate)
APM 433 | WOODWIND ORCHESTRAL REPERTOIRE II: AUDITION PREPARATION | 2 quarter hours (Graduate)
An overview of orchestral woodwind audition repertoire with special emphasis on audition preparation and audition practice. Students will take several mock auditions over the course of the quarter to improve their understanding of the audition experience. (2 quarter hours)
Status as a Woodwinds Performance student is a prerequisite for this class.

APM 437 | ALEXANDER TECHNIQUE | 1 quarter hour (Graduate)
Introduction to the Alexander Technique as applied to musical performance. (1 quarter hour)
Status as a Graduate Music student is a prerequisite for this class.

APM 440 | ORCHESTRAL CONDUCTING | 2 quarter hours (Graduate)
This course is designed to train musicians in the art of understanding a score and in rehearsing any ensemble effectively. (2 quarter hours)
Status as a Graduate Music student is a prerequisite for this class.

APM 441 | ACCOMPANYING PRACTICUM | 1 quarter hour (Graduate)
A practical examination of different styles of instrumental repertoire, and the art of accompanying vocalists (Fall Quarter) and instrumentalists (Winter and Spring Quarters) in both studio and performance formats. (1 quarter hour)
Status as a Graduate Piano student or Music Performance certificate student is a prerequisite for this class.

APM 442 | ACCOMPANYING CLASS | 2 quarter hours (Graduate)
An in-depth study of the development of the specific skills necessary to effectively accompany vocal (Fall Quarter) and instrumental repertoire (Winter and Spring Quarters).
Status as a Graduate Piano student or Music Performance certificate student is a prerequisite for this class.

APM 446 | PERCUSSION PEDAGOGY | 2 quarter hours (Graduate)
This course presents teaching techniques of all the major percussion instruments, for students of beginning through advanced levels of proficiency. The course includes an in-depth examination of pertinent published teaching materials, e.g. as method books and collections, as well as an exploration of techniques for motivating young students. (2 quarter hours)
Status as a Graduate Music student is a prerequisite for this class.

APM 447 | ORCHESTRAL REPERTOIRE: PERCUSSION | 2.00 quarter hours (Graduate)
Study of standard orchestral repertoire for percussion instruments. (2 quarter hours)
Status as a Graduate Percussion student is a prerequisite for this class.

APM 450 | CHORAL CONDUCTING AND ANALYSIS | 2 quarter hours (Graduate)
Students will analyze, rehearse, and conduct repertoire for mixed chorus. (2 quarter hours)
Status as a Graduate Music student is a prerequisite for this class.

APM 453 | ADVANCED TECHNIQUES OF THE MUSIC STAGE | 2 quarter hours (Graduate)
Study, coaching, rehearsal, and performance of music and opera. (2 quarter hours)
Status as a Graduate Voice Performance student is a prerequisite for this class.

APM 460 | TOPICS IN PERFORMANCE | 2 quarter hours (Graduate)
An in-depth investigation of a topic in performance studies. (2 quarter hours)
Status as a Graduate Music student is a prerequisite for this class.

APM 461 | PIANO LITERATURE | 2 quarter hours (Graduate)
A study of the long-established tradition of pianists and pianism, from Liszt and his disciples in the 19th century through Rachmaninoff, Horowitz and the great pianists of the 20th century, and how the role of the pianist has evolved to the present day. (2 quarter hours)
Status as a Graduate Piano student or Music Performance certificate student is a prerequisite for this class.

APM 471 | BRASS CONCEPTS | 2 quarter hours (Graduate)
An in-depth study of the long-established tradition of brass literature, performance, and pedagogy. An introduction to professional career responsibilities and opportunities. (2 quarter hours)
Status as a Graduate Brass student is a prerequisite for this class.

APM 472 | ORCHESTRAL REPERTOIRE FOR BRASS | 1-2 quarter hours (Graduate)
Study of standard orchestral repertoire for brass instruments. (2 quarter hours)
Status as a Graduate Brass student is a prerequisite for this class.

APM 474 | BRASS INSTRUMENT PERFORMANCE STYLE | 2 quarter hours (Graduate)
Survey of solo and orchestral performance styles through the principal composers of the 19th and 20th centuries. Analysis of new demands placed on performers in the 21st century. Study of stylistic concepts based on historical, technical, national, and aesthetic considerations. (2 quarter hours)
Status as a Graduate Music student is a prerequisite for this class.

APM 477 | GUITAR HISTORY AND LITERATURE I | 3 quarter hours (Graduate)
Analytical and historical survey of the literature for plucked instruments from the sixteenth through the twentieth centuries. A year-long sequence of courses. (3 quarter hours)

APM 478 | GUITAR HISTORY AND LITERATURE II | 3 quarter hours (Graduate)
Guitar History and Literature II. Analytical and historical survey of the literature for plucked instruments from the sixteenth through the twentieth centuries. A year-long sequence of courses. (3 quarter hours)
APM 477 or permission of instructor is a prerequisite for this class.

APM 479 | GUITAR HISTORY AND LITERATURE III | 3 quarter hours (Graduate)
Analytical and historical survey of the literature for plucked instruments from the sixteenth through the twentieth centuries. A year-long sequence of courses. (3 quarter hours)
APM 478 or permission of instructor is a prerequisite for this class.
APM 486 | STRING PEDAGOGY | 2-3 quarter hours  
(Graduate)  
A study of the concepts and philosophies of teaching string instruments for beginners through advanced levels. In addition, approaches to coaching chamber music will be reviewed. (2 quarter hours)  
Status as a Graduate Music student is a prerequisite for this class.

APM 487 | ADVANCED VOCAL DICTION | 1 quarter hour  
(Graduate)  
Advanced study in Italian, French and German diction, phrasing and text translation. (1 quarter hour)  
Status as a Graduate Music student is a prerequisite for this class.

APM 488 | STUDIO TEACHING AS A PROFESSION | 2 quarter hours  
(Graduate)  
Strategies and techniques for the professional studio teacher. (2 quarter hours)  
Status as a Graduate Music student is a prerequisite for this class.

APM 496 | VOICE PEDAGOGY | 2 quarter hours  
(Graduate)  
An introduction to basic concepts of vocal pedagogy and the physiology of the singing voice. Through listening, evaluation, study, discussion, observation, and teaching, students will gain a better understanding of how to approach teaching beginning through advanced vocal students. (2 quarter hours)  
Status as a Graduate Music student is a prerequisite for this class.

APM 498 | INDEPENDENT STUDY | 4.00 quarter hours  
(Graduate)  
An in-depth study of an applied music topic under the supervision of a faculty member. (variable credit)  
Status as a Graduate Music student is a prerequisite for this class.

Applied Percussion (APP)

APP 100 | PERCUSSION | 1-4 quarter hours  
(Undergraduate)  
Advanced individual instruction in percussion performance at the undergraduate level. Undergraduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 36 credits of applied lessons over their entire course of study.  
Status as an Undergraduate Music student is a prerequisite for this class.

APP 400 | PERCUSSION | 1-4 quarter hours  
(Graduate)  
Advanced individual instruction in percussion performance at the graduate level. Graduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 18 credits of applied lessons over their entire course of study.  
Status as a Graduate Music student is a prerequisite for this class.

Applied Professional Studies (AP)

AP 501 | LEARNING PLAN RESEARCH AND DEVELOPMENT SEMINAR | 4 quarter hours  
(Graduate)  
This seminar explores the aims of graduate education with particular focus on the program of study leading to the Master of Arts in Applied Professional Studies—its purpose, scope, philosophy, key roles, and processes. Special emphasis is placed on developing a working draft of the Graduate Learning Plan for the individualized portion of the Program (i.e., Focus Area), attaining a fuller understanding of individual fields of professional study, and applying concepts, perspectives and skills of liberal learning in professional practice. In addition, the process is initiated for establishing each student’s guidance committee (“Academic Committee”) consisting of the Student, the Faculty Mentor, and a Professional Advisor (i.e., an established practitioner in the student’s Focus Area).  
Status as a MAAPS student or departmental permission is a prerequisite for this class.

AP 502 | LEARNING PLAN REVIEW | 2 quarter hours  
(Graduate)  
Through this review process, students finalize their Graduate Learning Plans, convene their Academic Committees (comprised of themselves, their Professional Advisors, and their Faculty Mentors) to review their Learning Plans, and eventually submit their Learning Plans to the Graduate Student Program Review Committee (GSPRC) for final approval. (2 quarter hours)  
Status as a MAAPS student or departmental permission is a prerequisite for this class.

AP 505 | FINDING AND MANAGING INFORMATION | 2 quarter hours  
(Graduate)  
This MAAPS/MSAT foundational course provides participants with skills in collecting, analyzing and synthesizing literature and resources in their respective area(s) of practice. Among these skills are: searching and accessing various sources; discerning credibility of sources; storing and retrieving information for oneself; constructing thematic literature reviews; and, citing sources using APA style. (2 quarter hours)  
Status as a MAAPS or MSAT student is a prerequisite for this class.

AP 510 | MAIN THEORIES AND IDEAS | 2 quarter hours  
(Graduate)  
Through this competence area, students address knowledge and understanding of theories, models and/or theoretical frameworks, including implications for practice relevant to their individualized areas of focus. In areas where theories are not well established (e.g., in emerging fields of study or in unique combinations of fields), this area includes exploration of theories in related fields. (2 quarter hours)  
Status as a MAAPS student or departmental permission is a prerequisite for this class.

AP 520 | METHODS OF RESEARCH | 2 quarter hours  
(Graduate)  
Through this competence area, students address the systematic gathering of data and interpretation of findings as practiced within their areas of focus or related fields. (2 quarter hours)  
Status as a MAAPS student or departmental permission is a prerequisite for this class.
AP 528 | ASSESSMENT AND INTEGRATION I | 0.5 quarter hour (Graduate)
Scheduled at intervals across the MAAPS Program, Assessment and Integration Sessions provide opportunity for students to meet with their faculty mentors for purposes of ongoing assessment and integration regarding all aspects of the program. (.5 quarter hour)
Status as a MAAPS student or departmental permission is a prerequisite for this class.

AP 530 | SPECIALIZED SKILLS | 2 quarter hours (Graduate)
Through this competence area, students identify, develop and demonstrate skills that are particular to their areas of focus and the context(s) in which these skills are applied. (2 quarter hours)
Status as a MAAPS student or departmental permission is a prerequisite for this class.

AP 540 | COMMUNICATION MODES | 2 quarter hours (Graduate)
Through this competence area, students identify, develop and demonstrate facility with communication modes relevant to their areas of focus. (2 quarter hours)
Status as a MAAPS student or departmental permission is a prerequisite for this class.

AP 548 | ASSESSMENT AND INTEGRATION SEMINAR II | 0.5 quarter hour (Graduate)
Scheduled at intervals across the MAAPS Program, Assessment and Integration Sessions provide opportunity for students to meet with their faculty mentors for purposes of ongoing assessment and integration regarding all aspects of the program. (.5 quarter hour)
Status as a MAAPS student or departmental permission is a prerequisite for this class.

AP 550 | ORGANIZATIONAL AND/OR INTERPERSONAL DYNAMICS | 2 quarter hours (Graduate)
Through this competence area, students address the human and structural issues relevant to professional practice in their areas of focus. This includes exploration regarding how professional practice per area of focus is affected by systems, technology, structure and other people. (2 quarter hours)
Status as a MAAPS student or departmental permission is a prerequisite for this class.

AP 558 | ASSESSMENT AND INTEGRATION SEMINAR III | 0.5 quarter hour (Graduate)
Scheduled at intervals across the MAAPS Program, Assessment and Integration Sessions provide opportunity for students to meet with their faculty mentors for purposes of ongoing assessment and integration regarding all aspects of the program. (.5 quarter hour)
Status as a MAAPS student or departmental permission is a prerequisite for this class.

AP 560 | CHALLENGES FROM LARGER CONTEXTS | 2 quarter hours (Graduate)
Through this competence area, students address the ability to situate their areas of focus (including their issues and problems) within one of the following contexts: the temporal context (historical development and future direction of the area of focus); the social/cultural context (relationship of the area of focus to its societal context); or, the international context (the state of the area of focus globally). (2 quarter hours)
Status as a MAAPS student or departmental permission is a prerequisite for this class.

AP 570 | ETHICAL ISSUES | 2 quarter hours (Graduate)
Through this competence area, students address the relationship between beliefs and assumptions regarding humanity, good/evil, right/wrong, etc., and behavioral outcomes (including areas of conflict) relevant to their areas of focus. (2 quarter hours)
Status as a MAAPS student or departmental permission is a prerequisite for this class.

AP 574 | REFLECTION IN/ON PRACTICE | 2 quarter hours (Graduate)
Through this competence area, students address the interplay between thinking, doing and reflecting in order to generate new ways of mentally organizing ideas and identifying new possibilities to inform future practice their areas of focus. (2 quarter hours) Status as a MAAPS student or departmental permission is a prerequisite for this class.

AP 578 | ASSESSMENT AND INTEGRATION SEMINAR IV | 0.5 quarter hour (Graduate)
Scheduled at intervals across the MAAPS Program, Assessment and Integration Sessions provide opportunity for students to meet with their faculty mentors for purposes of ongoing assessment and integration regarding all aspects of the program.
Status as a MAAPS student or departmental permission is a prerequisite for this class.

AP 585 | SUPPLEMENTAL COMPETENCE I | 2 quarter hours (Graduate)
Through this competence area, students identify an additional area from among Theories, Research Methods, Specialized Skills, Communication Modes, Organizational/Interpersonal Dynamics, Larger Contexts, Ethical Issues and Reflection in/on Practice regarding which to develop and demonstrate competence. (2 quarter hours)
Status as a MAAPS student or departmental permission is a prerequisite for this class.

AP 586 | SUPPLEMENTAL COMPETENCE II | 2 quarter hours (Graduate)
Through this competence area, students identify an additional area from among Theories, Research Methods, Specialized Skills, Communication Modes, Organizational/Interpersonal Dynamics, Larger Contexts, Ethical Issues and Reflection in/on Practice regarding which to develop and demonstrate competence. (AP-586, AP-587, AP-588 and AP-589 collectively serve as a culmination option for the MAAPS degree.) (2 quarter hours)
Status as a MAAPS student or departmental permission is a prerequisite for this class.
AP 587 | SUPPLEMENTAL COMPETENCE III | 2 quarter hours (Graduate)
Through this competence area, students identify an additional area from among Theories, Research Methods, Specialized Skills, Communication Modes, Organizational/Interpersonal Dynamics, Larger Contexts, Ethical Issues and Reflection in/on Practice regarding which to develop and demonstrate competence. (AP-586, AP-587, AP-588 and AP-589 collectively serve as a culmination option for the MAAPS degree.) (2 quarter hours)

Status as a MAAPS student or departmental permission is a prerequisite for this class.

AP 588 | SUPPLEMENTAL COMPETENCE IV | 2 quarter hours (Graduate)
Through this competence area, students identify an additional area from among Theories, Research Methods, Specialized Skills, Communication Modes, Organizational/Interpersonal Dynamics, Larger Contexts, Ethical Issues and Reflection in/on Practice regarding which to develop and demonstrate competence. (AP-586, AP-587, AP-588 and AP-589 collectively serve as a culmination option for the MAAPS degree.) (2 quarter hours)

Status as a MAAPS student or departmental permission is a prerequisite for this class.

AP 589 | SUPPLEMENTAL COMPETENCE V | 2 quarter hours (Graduate)
Through this competence area, students identify an additional area from among Theories, Research Methods, Specialized Skills, Communication Modes, Organizational/Interpersonal Dynamics, Larger Contexts, Ethical Issues and Reflection in/on Practice regarding which to develop and demonstrate competence. (AP-586, AP-587, AP-588 and AP-589 collectively serve as a culmination option for the MAAPS degree.) (2 quarter hours)

Status as a MAAPS student or departmental permission is a prerequisite for this class.

AP 590 | PROF COMPETENCE: SPECIAL SUPPLEMENTAL | 1-6 quarter hours (Graduate)
As an option to the Integrating Project, student may elect to develop and demonstrate an additional four areas of professional competence from among Theories, Research, Skills, Communication Modes, Organizational/Interpersonal Dynamics, Larger Contexts, Ethical Issues, and Reflection on Practice. (1 quarter hour)

AP 591 | INTEGRATING PROJECT PROPOSAL | 2 quarter hours (Graduate)
Students develop and submit concise, well-honed documents proposing the nature and scope of their Final Integrating Projects. Topics being proposed are to be supported by relevant professional/scholarly literature and to include the use of appropriate method(s) of inquiry. (AP-591 and AP-592 serve as a culmination option for the MAAPS degree.) (2 quarter hours)

Status as a MAAPS student or departmental permission is a prerequisite for this class.

AP 592 | FINAL INTEGRATING PROJECT | 6 quarter hours (Graduate)
In fulfillment of the approved Integrating Project Proposal (AP-591), students develop and submit an original, independently-conducted project that provides a significant contribution to their areas of focus. Such projects incorporate elements of theory and practice and demonstrate integration of liberal learning and focus area competencies from across the MAAPS Program. (AP-591 and AP-592 serve as a culmination option for the MAAPS degree.) (6 quarter hours)

Status as a MAAPS student or departmental permission is a prerequisite for this class.

Applied Strings (APS)

APS 127 | GUITAR | 1-4 quarter hours (Undergraduate)
Advanced individual instruction in guitar performance at the undergraduate level. Undergraduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 36 credits of applied lessons over their entire course of study.

Status as an Undergraduate Music student is a prerequisite for this class.

APS 160 | STRING BASS | 1-4 quarter hours (Undergraduate)
Advanced individual instruction in string bass performance at the undergraduate level. Undergraduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 36 credits of applied lessons over their entire course of study.

Status as an Undergraduate Music student is a prerequisite for this class.

APS 180 | VIOLA | 1-4 quarter hours (Undergraduate)
Advanced individual instruction in viola performance at the undergraduate level. Undergraduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 36 credits of applied lessons over their entire course of study.

Status as an Undergraduate Music student is a prerequisite for this class.

APS 185 | VIOLIN | 1-4 quarter hours (Undergraduate)
Advanced individual instruction in violin performance at the undergraduate level. Undergraduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 36 credits of applied lessons over their entire course of study.

Status as an Undergraduate Music student is a prerequisite for this class.

APS 190 | VIOLONCELLO | 1-4 quarter hours (Undergraduate)
Advanced individual instruction in violoncello performance at the undergraduate level. Undergraduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 36 credits of applied lessons over their entire course of study.

Status as an Undergraduate Music student is a prerequisite for this class.

APS 427 | GUITAR | 1-4 quarter hours (Graduate)
Advanced individual instruction in guitar performance at the graduate level. Graduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 18 credits of applied lessons over their entire course of study.

Status as a Graduate Music student is a prerequisite for this class.
Status as an MSAT student or departmental permission is a prerequisite for this class.

APS 460 | STRING BASS | 1-4 quarter hours  
(Graduate)  
Advanced individual instruction in string bass performance at the graduate level. Graduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 18 credits of applied lessons over their entire course of study.  

Status as a Graduate Music student is a prerequisite for this class.

APS 480 | VIOLA | 1-4 quarter hours  
(Graduate)  
Advanced individual instruction in viola performance at the graduate level. Graduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 18 credits of applied lessons over their entire course of study.  

Status as a Graduate Music student is a prerequisite for this class.

APS 485 | VIOLIN | 1-4 quarter hours  
(Graduate)  
Advanced individual instruction in violin performance at the graduate level. Graduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 18 credits of applied lessons over their entire course of study.  

Status as a Graduate Music student is a prerequisite for this class.

APS 490 | VIOLONCELLO | 1-4 quarter hours  
(Graduate)  
Advanced individual instruction in violoncello performance at the graduate level. Graduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 18 credits of applied lessons over their entire course of study.  

Status as a Graduate Music student is a prerequisite for this class.

Applied Technology (AT)

AT 580 | INTRODUCTION TO APPLIED TECHNOLOGY | 2 quarter hours  
(Graduate)  
Through various learning processes (individual research and study, interactive sessions, individualized meetings with faculty, etc.), this seminar explores the aims of graduate education within the program of study leading to the Master of Science in Applied Technology?its purpose, scope, philosophy, key roles and processes. Special emphasis is placed on developing a baseline context for graduate study including a literature-based initial exploration into one?s specialized MSAT track. (2 quarter hours)  

Status as an MSAT student or departmental permission is a prerequisite for this class.

AT 587 | INDIVIDUALIZED WORK-BASED PROJECT | 4 quarter hours  
(Graduate)  
In fulfillment of the approved project proposal, this project enables students to enhance and demonstrate their ability to investigate and contribute to (and/or problem-solve regarding) a work-based challenge applicable to their professional practice and MSAT track. In so doing, students deepen their self-managed inquiry, resourcefulness, initiative-taking and disciplined follow-through as advanced professionals. [Each student is advised to delay registering for AT-587 until after his/her project proposal is officially approved. Thereafter, as a graduate culmination project, there are no class-sessions associated with AT-587. Each student is to follow directives outlined in the official project approval material and initiate sessions with faculty as needed.]  

Status as an MSAT student or departmental permission is a prerequisite for this class.

AT 589 | INDIVIDUALIZED REFLECTIVE PRACTICE PROJECT | 4 quarter hours  
(Graduate)  
In fulfillment of the approved project proposal, this project enables students to engage and expand their professional practice as reflective practitioners. Students enhance their ability to describe and analyze a particular method or process of reflection and apply it or they describe and analyze a particular aspect of their professional practice and demonstrate improved functioning through focused/applied reflection. In so doing, students deepen their self-managed inquiry, resourcefulness, initiative-taking and disciplined follow-through as advanced professionals. [Each student is advised to delay registering for AT-589 until after his/her project proposal is officially approved. Thereafter, as a graduate culmination project, there are no class-sessions associated with AT-589. Each student is to follow directives outlined in the official project approval material and initiate sessions with faculty as needed.]  

Status as an MSAT student or departmental permission is a prerequisite for this class.

AT 598 | CURRENT TOPICS IN APPLIED TECHNOLOGY | 1-8 quarter hours  
(Graduate)  
Current Topics in Applied Technology.  

Status as an MSAT student or departmental permission is a prerequisite for this class.

Applied Voice (APV)

APV 100 | VOICE-STUDIO | 1-4 quarter hours  
(Undergraduate)  
Advanced individual instruction in voice performance at the undergraduate level. Undergraduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 36 credits of applied lessons over their entire course of study.  

Status as an Undergraduate Music student is a prerequisite for this class.

APV 400 | VOICE-STUDIO | 1-4 quarter hours  
(Graduate)  
Advanced individual instruction in voice performance at the graduate level. Graduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 18 credits of applied lessons over their entire course of study.  

Status as a Graduate Music student is a prerequisite for this class.

Applied Woodwinds (APW)

APW 115 | BASSOON | 1-4 quarter hours  
(Undergraduate)  
Advanced individual instruction in bassoon performance at the undergraduate level. Undergraduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 36 credits of applied lessons over their entire course of study.  

Status as an Undergraduate Music student is a prerequisite for this class.

APW 120 | CLARINET | 1-4 quarter hours  
(Undergraduate)  
Advanced individual instruction in clarinet performance at the undergraduate level. Undergraduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 36 credits of applied lessons over their entire course of study.  

Status as an Undergraduate Music student is a prerequisite for this class.
APW 125 | FLUTE | 1-4 quarter hours
(Undergraduate)
Advanced individual instruction in flute performance at the undergraduate level. Undergraduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 36 credits of applied lessons over their entire course of study.
Status as an Undergraduate Music student is a prerequisite for this class.

APW 135 | OBOE | 1-4 quarter hours
(Undergraduate)
Advanced individual instruction in oboe performance at the undergraduate level. Undergraduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 36 credits of applied lessons over their entire course of study.
Status as an Undergraduate Music student is a prerequisite for this class.

APW 155 | SAXOPHONE | 1-4 quarter hours
(Undergraduate)
Advanced individual instruction in saxophone performance at the undergraduate level. Undergraduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 36 credits of applied lessons over their entire course of study.
Status as an Undergraduate Music student is a prerequisite for this class.

APW 415 | BASSOON | 1-4 quarter hours
(Graduate)
Advanced individual instruction in bassoon performance at the graduate level. Graduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 18 credits of applied lessons over their entire course of study.
Status as a Graduate Music student is a prerequisite for this class.

APW 420 | CLARINET | 1-4 quarter hours
(Graduate)
Advanced individual instruction in clarinet performance at the graduate level. Graduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 18 credits of applied lessons over their entire course of study.
Status as a Graduate Music student is a prerequisite for this class.

APW 425 | FLUTE | 1-4 quarter hours
(Graduate)
Advanced individual instruction in flute performance at the graduate level. Graduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 18 credits of applied lessons over their entire course of study.
Status as a Graduate Music student is a prerequisite for this class.

APW 435 | OBOE | 1-4 quarter hours
(Graduate)
Advanced individual instruction in oboe performance at the graduate level. Graduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 18 credits of applied lessons over their entire course of study.
Status as a Graduate Music student is a prerequisite for this class.

APW 455 | SAXOPHONE | 1-4 quarter hours
(Graduate)
Advanced individual instruction in saxophone performance at the graduate level. Graduate music students are limited to 3 credits of applied lessons in any given quarter, and may not exceed a total of 18 credits of applied lessons over their entire course of study.
Status as a Graduate Music student is a prerequisite for this class.

Arabic (ARB)

ARB 101 | BASIC ARABIC I | 4 quarter hours
(Undergraduate)
Arabic 101 is the first in a series of Arabic courses taught at DePaul. Students will be taught the basic skills needed to communicate in Arabic including comprehension, speaking, reading, and writing. Basic grammar will be introduced to facilitate communication. Students will be exposed to authentic Arabic materials from different Arab countries according to the students’ language skills and interests.

ARB 102 | BASIC ARABIC II | 4 quarter hours
(Undergraduate)
Arabic 102 is the second in a series of Arabic courses taught at DePaul. Students learn the basic skills needed to communicate in Arabic including comprehension, speaking, reading, and writing. Instruction will build on skills taught in Arabic 101. The main focus of the course will continue to be communicative skills, and grammar will be introduced to facilitate communication. The course will be taught mainly in Arabic using Modern Standard Arabic.

ARB 103 | BASIC ARABIC III | 4 quarter hours
(Undergraduate)
Arabic 103 is the third in a series of Arabic courses taught at DePaul. Students learn the basic skills needed to communicate in Arabic including comprehension, speaking, reading, and writing. Instruction will build on skills taught in Arabic 101 & 102. The main focus of the course will continue to be communicative skills, and grammar will be introduced to facilitate communication. The course will be taught mainly in Arabic using Modern Standard Arabic.

ARB 104 | INTERMEDIATE ARABIC I | 4 quarter hours
(Undergraduate)
Intermediate Arabic I is the first course of three intermediate Arabic courses that focus on taking students to the advanced level of proficiency by expanding their knowledge of Arab culture, building their vocabulary, and developing their grammar skills. Intermediate Arabic will focus on broadening students’ knowledge of the Arabic language beyond the daily life topics. Students will be introduced to examples of authentic materials of Arabic Literature that include topics of general and professional interests, in order to increase students’ comprehension skills and prepare them to understand the literary and cultural context of the Arabic language. In addition, this course will emphasize two main points: (1) how mastering grammar concepts is crucial for understanding Arabic texts as well as for communicating clearly in speech and writing; and (2) how the derivation system is key for developing vocabulary. ARB 103 or equivalent, including placement test or permission of instructor, is recommended.
### Arabic (ARB)

#### ARB 105 | INTERMEDIATE ARABIC II | 4 quarter hours
(Undergraduate)  
Intermediate Arabic II is the second course of three intermediate Arabic courses that focus on taking students to the advanced level of proficiency by expanding their knowledge of Arab culture, building their vocabulary, and developing their grammar skills. Intermediate Arabic will focus on broadening students' knowledge of the Arabic language beyond the daily life topics. Students will be introduced to examples of authentic materials of Arabic Literature that include topics of general and professional interests, in order to increase students' comprehension skills and prepare them to understand the literary and cultural context of the Arabic language. In addition, this course will emphasize two main points: (1) how mastering grammar concepts is crucial for understanding Arabic texts as well as for communicating clearly in speech and writing; and (2) how the derivation system is key for developing vocabulary. ARB 104 or equivalent, including placement test or permission of instructor, is recommended.

#### ARB 106 | INTERMEDIATE ARABIC III | 4 quarter hours
(Undergraduate)  
Intermediate Arabic III is the third course of three intermediate Arabic courses. The course will focus on using the skills the students developed to effectively communicate in Modern Standard Arabic orally and in writing. Students will be introduced to authentic Arabic text and audio material from different Arab countries. Instruction will be provided mainly in Arabic using Modern Standard Arabic. Students are expected to speak and respond to questions in Arabic. This is an effective approach to language learning that emphasizes communicative abilities and helps to successfully transition students into upper level Arabic courses. ARB 105 or equivalent, including placement test or permission of instructor, is recommended.

#### ARB 130 | MOLILSAP STUDY ABROAD | 2 quarter hours
(Undergraduate)  
This course is specially designed to complement the Modern Language Introductory Languages Study Abroad programs, linked to the third quarter of the first year language program. The course will be taught abroad.

#### ARB 197 | SPECIAL TOPICS IN ARABIC | 4 quarter hours
(Undergraduate)  
See schedule for current offerings.

#### ARB 198 | STUDY ABROAD | 1-8 quarter hours
(Undergraduate)  
Variable credit.

#### ARB 199 | INDEPENDENT STUDY | 0.5-8 quarter hour
(Undergraduate)  
Variable credit.

#### ARB 201 | ADVANCED ARABIC I | 4 quarter hours
(Undergraduate)  
Advanced reading and comprehension, with emphasis on recognizing and understanding the perspectives and patterns of Arabic culture. ARB 106 or equivalent, including placement test or permission of instructor, is recommended.

#### ARB 202 | ADVANCED ARABIC II | 4 quarter hours
(Undergraduate)  
Advanced practice in writing and composition, with emphasis on grammatical accuracy, text development skills, and vocabulary expansion. ARB 106 or equivalent, including placement test or permission of instructor, is recommended.

#### ARB 203 | ADVANCED ARABIC III | 4 quarter hours
(Undergraduate)  
Advanced practice of oral skills in both formal and informal usage, with emphasis on correct pronunciation, sentence structure, appropriate vocabulary, and cultural context. ARB 106 or equivalent, including placement test or permission of instructor, is recommended.

#### ARB 297 | SPECIAL TOPICS IN ARABIC | 4 quarter hours
(Undergraduate)  
See schedule for current offerings.

#### ARB 298 | STUDY ABROAD | 1-8 quarter hours
(Undergraduate)  
Variable credit.

#### ARB 299 | INDEPENDENT STUDY | 0.5-8 quarter hour
(Undergraduate)  
Variable credit.

#### ARB 300 | ARABIC GRAMMAR | 4 quarter hours
(Undergraduate)  
A comprehensive review of Arabic grammar with focus on its application to the development of communicative competence. ARB 106 or equivalent, including placement test or permission of instructor, is recommended.

#### ARB 301 | ARAB BROADCAST MEDIA | 4 quarter hours
(Undergraduate)  
This course improves students' competence in listening, reading comprehension, writing, and presentation skills in the content of Arab media. The main language of instruction will be Modern Standard Arabic (MSA), the language of Arab news. Both instructor and students will be using MSA as the main language for communication. Classroom instruction will assist students in acquiring and using Arabic vocabulary needed for understanding and analyzing authentic Arabic media material. The course will focus on five main topics: (1) Meetings and Conferences, (2) Demonstrations, (3) Elections, (4) Courts and Trails, and (5) Finance and Business. In addition to topics and vocabulary covered in the required textbooks, students will listen to and discuss authentic news items. They will also be exposed to Egyptian dialect. ARB 106 or equivalent, including placement test or permission of instructor, is recommended.

#### ARB 302 | ARABIC PRINT MEDIA | 4 quarter hours
(Undergraduate)  
This course consists of intensive exposure to vocabulary and expressions characteristic of language used in Arab media. The course will rely on newspaper articles and authentic material in addition to the Media Arabic textbook. The focus of the course will be on enforcing vocabulary learned in ARB 301 that will assist students in understanding the content of Arab print Media and translating texts into English. Presentations and discussions will be used to enforce meaning and increase vocabulary retention and proper use. ARB 106 or equivalent, including placement test or permission of instructor, is recommended.

#### ARB 311 | ARABIC SHORT STORIES | 4 quarter hours
(Undergraduate)  
A survey of the history and development of short stories in Arabic literature from various Arab countries with focus on language, content analysis, forms, and cultural content relevant to major elements of Arab culture. ARB 106 or the equivalent, including placement test or permission of instructor, is recommended.
ARB 313 | ARABIC FILM | 4 quarter hours (Undergraduate)
Survey of the development of Arabic films in the Arab world with examination of sample works from various periods that allow reflection on Arab culture and the social, political, and religious issues that define that culture. ARB 106 or the equivalent, including placement test or permission of instructor, is recommended.

ARB 320 | BUSINESS ARABIC | 4 quarter hours (Undergraduate)
Content-based instruction with focus on business vocabulary, syntax, and basic linguistic skills necessary for functioning in an Arab business context. ARB 106 or the equivalent, including placement test or permission of instructor, is recommended.

ARB 330 | ARABIC TRANSLATION | 4 quarter hours (Undergraduate)
Focuses on the thorough introduction to translation (including theory) and the latest technologies available to translators: web-based dictionaries, thesauruses, etc. Introduces students to various translation techniques and emphasizes the need for technical knowledge as required by specific fields. ARB 106 or the equivalent, including placement test or permission of instructor, is recommended.

ARB 350 | ARABIC LITERATURE | 4 quarter hours (Undergraduate)
This course introduces the students to Modern Arabic Literature in form, language, and content. It will focus on various genres, including poetry, drama, the novel, and short stories. Works by major Arab writers and poets representing various regions and content will be examined and analyzed to develop an appreciation for Arab literature and a deeper understanding of their portrayal of Arab culture. ARB 106 or the equivalent, including placement test or permission of instructor, is recommended.

ARB 392 | INTERNSHIP | 1-8 quarter hours (Undergraduate)
Variable credit. Includes readings, weekly reflections, and a final report.

ARB 395 | FOREIGN LANGUAGES ACROSS THE CURRICULUM | 2 quarter hours (Undergraduate)
The two credit FLAC course allows students to enrich their experience in the co-required course through added reading, writing, listening and speaking activities in Arabic. Students must have the equivalent of 106 or higher ability in Arabic to take this two credit component. Please contact the Department of Modern Languages if you have questions about this courses or about language placement.

ARB 397 | SPECIAL TOPICS IN ARABIC | 4 quarter hours (Undergraduate)
See schedule for current offerings.

ARB 398 | STUDY ABROAD | 1-8 quarter hours (Undergraduate)
Variable credit.

ARB 399 | INDEPENDENT STUDY | 0.5-8 quarter hour (Undergraduate)
Variable credit.

ARB 400 | ARABIC GRAMMAR | 4 quarter hours (Graduate)
A comprehensive review of Arabic grammar with focus on its application to the development of communicative competence. Cross-listed with ARB 300.

ARB 401 | ARAB BROADCAST MEDIA | 4 quarter hours (Graduate)
This course improves students’ competence in listening, reading comprehension, writing, and presentation skills in the content of Arab media. The main language of instruction will be Modern Standard Arabic (MSA), the language of Arab news. Both instructor and students will be using MSA as the main language for communication. Classroom instruction will assist students in acquiring and using Arabic vocabulary needed for understanding and analyzing authentic Arabic media material. The course will focus on five main topics: (1) Meetings and Conferences, (2) Demonstrations, (3) Elections, (4) Courts and Trials, and (5) Finance and Business. In addition to topics and vocabulary covered in the required textbooks, students will listen to and discuss authentic news items. They will also be exposed to Egyptian dialect.

ARB 402 | ARABIC PRINT MEDIA | 4 quarter hours (Graduate)
This course consists of intensive exposure to vocabulary and expressions characteristic of language used in Arab media. The course will rely on newspaper articles and authentic material in addition to the Media Arabic textbook. The focus of the course will be on enforcing vocabulary learned in ARB 301 that will assist students in understanding the content of Arab print media and translating text into English. Presentations and discussions will be used to enforce meaning and increase vocabulary retention and proper use.

ARB 411 | ARABIC SHORT STORIES | 4 quarter hours (Graduate)
A survey of the history and development of short stories in Arabic literature from various Arab countries with focus on language, content analysis, forms, and cultural content relevant to major elements of Arab culture. Cross-listed with ARB 311.

ARB 413 | ARABIC FILM | 4 quarter hours (Graduate)
Survey of the development of Arabic films in the Arab world with examination of sample works from various periods that allow reflection on Arab culture and the social, political, and religious issues that define that culture. Cross-listed with ARB 313.

ARB 420 | BUSINESS ARABIC | 4 quarter hours (Graduate)
Content-based instruction with focus on business vocabulary, syntax, and basic linguistic skills necessary for functioning in an Arab business context. Cross-listed with ARB 320.

ARB 430 | ARABIC TRANSLATION | 4 quarter hours (Graduate)
Focuses on the thorough introduction to translation (including theory) and the latest technologies available to translators: web-based dictionaries, thesauruses, etc. Introduces students to various translation techniques and emphasizes the need for technical knowledge as required by specific fields. Cross-listed with ARB 330.

ARB 450 | ARABIC LITERATURE | 4 quarter hours (Graduate)
This course introduces the students to Modern Arabic Literature in form, language, and content. It will focus on various genres including poetry, drama, the novel, and short stories. Work by major Arab writers and poets representing various regions and content will be examined and analyzed to develop an appreciation for Arab literature and a deeper understanding of their portrayal of Arab culture.
ART 101 | DIGITAL FOUNDATIONS | 4 quarter hours
(Undergraduate)
This course will develop creative thinking through a variety of visual explorations in digital media. Photoshop and Illustrator will be introduced and applied to the creation of digital images within the context of contemporary art and design. Offered every Quarter.

ART 104 | CREATING ART | 4 quarter hours
(Undergraduate)
A studio course that uses visual problems and critical discussions to develop creative and perceptual abilities; relates these abilities to the principles of art in cultural and historic contexts (non-art majors). Offered every Quarter and Summer Session.

ART 105 | TWO-DIMENSIONAL FOUNDATIONS | 4 quarter hours
(Undergraduate)
This course is an introduction to fundamental concepts, terminology, materials, and skills necessary for effective visual communication using two-dimensional media. Through studio projects, students gain practical experience in the planning, production, and evaluation of 2D works of art and design, and gain an understanding of the relationship between form and content. Through lectures, reading, writing, critiques and discussions, students will gain an understanding of the relationship between form and content, and be introduced to the theoretical and historical context specific to two-dimensional art forms. Offered every Quarter.

ART 106 | BEGINNING DRAWING | 4 quarter hours
(Undergraduate)
Introduction to composition, line and rendering in black and white drawing media. Basic techniques for descriptive and expressive use of drawing media. Offered every Quarter and Summer Session.

ART 107 | THEATRE DRAWING I | 2 quarter hours
(Undergraduate)
The first in a three quarter sequence of general drawing courses exclusively for students enrolled in the Theater School.

ART 108 | THEATRE DRAWING II | 2 quarter hours
(Undergraduate)
ART 107 and a student in the Theatre School or consent of instructor is a prerequisite for this course.

ART 109 | THEATRE DRAWING III | 2 quarter hours
(Undergraduate)
LIBERAL LEARNING SEMINARS (18 credits) - The Liberal Learning Seminars are designed to enable students to develop key liberal learning skills (self-assessment, self-managed learning, critical-creative-systemic thinking, interpersonal relations, communication effectiveness and values-based decision-making) through participation in a series of seminars. Both skills and seminar topics are deemed critical to all professionals?regardless of individualized areas of expertise.

ART 110 | BEGINNING PAINTING | 4 quarter hours
(Undergraduate)
An introduction to basic organizational and technical concepts in painting. The preparation and proper use of materials is also stressed. Offered every Quarter.

ART 105 (or GD 105 or ANI 105 or ART 106 or instructor consent) is a prerequisite for this class.

ART 113 | THREE DIMENSIONAL FOUNDATIONS | 4 quarter hours
(Undergraduate)
This course is an introduction to fundamental concepts, terminology, materials, and skills necessary for effective visual communication using three-dimensional media. Through studio projects, students gain practical experience in the planning, production, and evaluation of 3D works of art and design, and gain an understanding of the relationship between form and content. Through lectures, reading, writing, critiques and discussions, students will gain an understanding of the relationship between form and content, and be introduced to the theoretical and historical context specific to three-dimensional art forms. Offered every Quarter.

ART 114 | FOUR DIMENSIONAL FOUNDATIONS | 4 quarter hours
(Undergraduate)
This course is an introduction to fundamental concepts, terminology, materials and skills necessary for effective visual communication using four-dimensional or time-based media in three general categories: performance art, video art and interactive art. Each of these unique art forms incorporates the presence and manipulation of time as an essential element. Through studio projects, students gain practical experience in the planning, production, and evaluation of 4D works of art and design, and gain an understanding of the relationship between form and content. Through lectures, reading, writing, critiques and discussions, students will gain an understanding of the relationship between form and content, and be introduced to the theoretical and historical context specific to time-based art (4D) forms.
ART 115 | BEGINNING SCULPTURE | 4 quarter hours  
(Undergraduate)  
An introduction to traditional and contemporary approaches to sculpture with an emphasis on clay modeling, plaster casting and carving. Studio core course. Offered every Quarter.

ART 117 | INTRODUCTION TO 3D PRINTING | 4 quarter hours  
(Undergraduate)  
This course will extend students' knowledge and experience in the practical and conceptual aspects of contemporary studio art practice by introducing desktop 3D printing technology. The class will focus on basic methods and materials, idea development, and the incorporation of interdisciplinary thinking. Students will design simple forms with 3D modeling software, utilize and/or modify existing 3D forms from open online resources, and learn how to operate the printer. The course will provide students the opportunity to explore new tools and skills, while maintaining a focus on the development of meaningful content in their work. Through projects, readings, slideshows, discussions, examples from art history and contemporary culture, students will actively participate in the evolving relationship between art and technology. Cross-listed with ART 217.

ART 101 or consent of instructor is a prerequisite for this class.

ART 200 | ART & ARTISTS IN CONTEMPORARY CULTURE | 4 quarter hours  
(Undergraduate)  
This course will use a mixed lecture/discussion format and thematic approach to consider works on art and design produced in the last 30 years as a means of contextualizing recent works of art. The primary approach to this material will be from the perspective of the artmaker (artist or designer), for whom art theory, criticism and history are crucial tools for developing effective and meaningful work. For that reason, this class will be taught by studio faculty. The class will make extensive use of the city's contemporary museums, galleries, exhibitions and works of public art to emphasize the social, economic and political context from which works of art and design emerge as indicators or signposts of contemporary cultural concerns. Offered every Quarter.

ART 204 | VISUAL COMMUNICATION | 4 quarter hours  
(Undergraduate)  
A multi-media studio course applying the visual principles of communication with an emphasis on process and divergent thinking methods. Offered Autumn quarter in even years.

ART 101 and (ART 105 or ANI 105 or GD 105) or consent of instructor are prerequisites for this class.

ART 205 | COLOR THEORY AND APPLICATION | 4 quarter hours  
(Undergraduate)  
Explorations into the use of color in both paint and computer applications. Offered Autumn and Spring Quarters.

ART 105 or ANI 105 or GD 105 or permission of instructor is a prerequisite for this class.

ART 206 | INTERMEDIATE DRAWING | 4 quarter hours  
(Undergraduate)  
Continued development and exploration into the rendering of space with an introduction to a wider range of drawing media and contemporary art applications in drawing. Offered Autumn Quarter and most Spring Quarters.

ART 106 or consent of instructor is a prerequisite for this class.

ART 209 | DRAWING SPECIAL TOPICS | 4 quarter hours  
(Undergraduate)  
This course focuses on specialties and techniques in drawing not encompassed by the general art curriculum. Offered Spring Quarter and alternating Winter and Autumn Quarters TBA.

ART 206 or ART 218 or permission of instructor is a prerequisite for this class.

ART 210 | INTERMEDIATE PAINTING I | 4 quarter hours  
(Undergraduate)  
A development of skills and concepts beyond the basic level. Problems that stress advanced concepts of theme, color and spatial design are studied. Offered Autumn and Spring Quarters.

ART 110 (or instructor consent) is a prerequisite for this class.

ART 211 | INTERMEDIATE PAINTING II | 4 quarter hours  
(Undergraduate)  
Intermediate Painting II.

ART 210 is a prerequisite for this course.

ART 212 | WATERCOLOR PAINTING | 4 quarter hours  
(Undergraduate)  
The investigation of aqueous medium in thin transparent washes, using a variety of subjects. Spontaneity of medium is stressed in order to capture the nuance of color and light. Offered Winter Quarter in even years.

ART 105 or ART 106 or instructor permission is a prerequisite for this course.

ART 213 | SPACE DESIGN | 4 quarter hours  
(Undergraduate)  
Application of three-dimensional principles to basic issues of space and object design. Introduction to professional presentation techniques.

ART 113 and ART 115 or consent of instructor is a prerequisite for this class.

ART 214 | CERAMIC SCULPTURE | 4 quarter hours  
(Undergraduate)  
An exploration of ceramic techniques for constructing and firing expressive sculptural forms.

ART 113 or consent of instructor is a prerequisite for this class.

ART 215 | INTERMEDIATE SCULPTURE | 4 quarter hours  
(Undergraduate)  
Introduction to basic wood and metal working techniques for producing constructed sculpture. Focuses on modern and contemporary issues in sculpture. Offered Winter Quarter.

ART 115 or consent of instructor is a prerequisite for this class.

ART 217 | ADVANCED THREE-DIMENSIONAL DESIGN | 4 quarter hours  
(Undergraduate)  
Advanced investigation of three dimensional design concepts. Course is a sequel to ART 213.

ART 113, ART 115 and ART 213 or consent of instructor is a prerequisite for this class.

ART 218 | FIGURE DRAWING | 4 quarter hours  
(Undergraduate)  
Learning to draw the human figure through the study of anatomy combined with various drawing concepts and processes. Offered every Quarter and Summer Session.

ART 106 or consent of instructor is a prerequisite for this class.
ART 219 | BEGINNING FIGURE SCULPTURE | 4 quarter hours
(Undergraduate)
This course provides opportunities for learning how to represent the dynamic human figure in three dimensions and welcomes students with no experience in figure studies as a first introduction to the figure. All class work will be done from a nude model. Home assignments will consist of figure drawings either from departmental Open Studio Figure Drawing sessions or from assigned figure drawings of great masters. Students will be taught basic technical and eye/hand coordination skills necessary to depict the human figure three dimensionally as well as basic understanding of the proportions of the human figure and ability to implement them. This course will also introduce students the concept of the human figure as a dynamic three dimensional entity. Students will have an opportunity to work from a nude model for nine weeks, examining human anatomy, body proportions and different gesture poses.

ART 106 or ART 115 or instructor permission is a prerequisite for this course.

ART 220 | THINKING PHOTOGRAPHY | 4 quarter hours
(Undergraduate)
This is a course taking a critical and historical look at "the arts of mechanical reproduction" and lens-based image making. As a lecture class, it may include some very basic shooting exercises assigned that could easily be carried out by "snapshot" or disposable cameras - either film or digital. Formerly ART 118. Offered every Quarter.

ART 223 | LIGHT, COLOR, AND PHOTOGRAPHY | 4 quarter hours
(Undergraduate)
Principles of image making with lenses, mirrors and photographic processes. Discusses the physical properties of light and color including those used in laser and holography.

LSP 120 or HON 180 or (MAT 130 or above) or consent of instructor is a prerequisite for this course.

ART 224 | BEGINNING DIGITAL PHOTOGRAPHY | 4 quarter hours
(Undergraduate)
This course introduces students to the digital camera (DSLR) and editing platforms as tools for creative and expressive use of the photographic medium. Proper use of camera functions and file management will be learned in tandem with editing strategies using adobe software. Lighting strategies and inkjet printing will be introduced in a fully equipped Mac lab. This course emphasizes the concepts, theory, and history of the photographic medium within the context of contemporary art. Students will produce their own photographs by digital means and engage in discussion and critical analysis of images and image aesthetics.

Suggested prior course: ART 101: Digital Foundations. Offered every Quarter and Summer Session.

ART 225 | BEGINNING PHOTOGRAPHY | 4 quarter hours
(Undergraduate)
This course is an introduction to the aesthetics, processes, and theory of black & white film photography. Techniques of chemical-based film development, darkroom printing, and image editing will be introduced. Strategies of exposure, framing and lighting will be explored as means for developing a meaningful photographic language. Emphasis will be given to understanding and using the camera as a tool for personal inquiry and experimentation. Additionally, this course will focus on the role and impact of the photographic image in both historical and contemporary contexts. Suggested prior course: ART 105: 2D Foundations. Offered every Quarter.

ART 226 | VIDEO ART | 4 quarter hours
(Undergraduate)
An introductory level course designed to familiarize students with the uses of video in a variety of artistic practices. These encompass non-narrative treatments in multiple forms including single and multi-use of monitors and projection, installation, and performance. Students will learn to use Adobe software, an industry-standard for video editing, in this class. The department provides video and audio equipment.

ART 227 | DIGITAL ART | 4 quarter hours
(Undergraduate)
Students will develop dexterity and finesse for digital imaging within the context of contemporary art. The primary focus will be on analytic problem solving and developing students’ abilities to create complex images, illustrations and icons that effectively convey content and create context. Coursework will utilize Adobe Photoshop and Adobe Illustrator to support and enhance a student’s artistic vision; this course encourages a variety of artistic production. Offered Spring Quarter in even years.

ART 101 or consent of instructor is a prerequisite for this class.

ART 228 | COMPUTER APPLICATIONS FOR DESIGN II | 4 quarter hours
(Undergraduate)
This course will introduce students to professional layout techniques including page templates, formatting and preparing files per industry-specific guidelines for spot and process color offset printing. Students will design complex, multi-page documents utilizing intermediary layout, typographic and illustration skills. A broad range of conceptual layout principles and additional procedural preparations and "pre-flighting" expectations will be examined. Adobe InDesign will be the layout software utilized. ART 260 is highly recommended.

ART 101, ART 105, ART 227, and ART 264 or consent of instructor is a prerequisite for this class.

ART 229 | BEGINNING PRINTMAKING | 4 quarter hours
(Undergraduate)
Explorations in the artistic possibilities of a variety of printmaking techniques. Techniques may include forms of relief print, intaglio, monoprint, and other printmaking processes used in the production of limited edition prints. Offered Autumn Quarter, Spring Quarter, and Summer Session.

ART 105 (or GD 105 or ANI 105 or ART 106 or instructor consent) is a prerequisite for this class.

ART 230 | ISSUES IN ENVIRONMENTAL DESIGN | 4 quarter hours
(Undergraduate)
Issues in Environmental Design is an introductory course that will examine concepts, theories and practices across multiple scales of design, including graphic, product, architecture, landscape architecture and urban design. We will explore the history and practice of eco-design as well as sustainable design in modern cultures. The environmental impact of design will be examined in relation to everyday products, as well as the consumer culture that feeds their mass production. Examples of excellence will be explored through the examination of case studies; local demonstrations will illustrate the theme of restorative design; and artists’ projects that address environmental issues will also be studied. The underlying theme is the connection between culture and nature, and how we must reduce our negative impact on systems that support all life while building positive systems that support all life.
ART 231 | SCREEN PRINTING | 4 quarter hours
(Undergraduate)
A beginning level course designed to teach students the essential equipment, materials, and processes, for screen printing artworks. Printing methods utilize hand-cut stencils, screen filler, and photo-emulsion techniques. Offered every Quarter.

ART 101 (or ART 105 or GD 105 or ANI 105 or ART 106 or DES 141 or instructor consent) is a prerequisite for this class.

ART 245 | PAINTING: MIXOLOGY | 4 quarter hours
(Undergraduate)
This is an intermediate course utilizing varied 2D media and processes including digital imaging. This will allow students to explore contemporary means and sensibilities through media that reflect a broader range of visual, material and conceptual interests. This will give students a larger repertoire to choose from when making images.

Building on the knowledge of oil painting materials and techniques that students gain in the ART 110 Beginning Painting course, ART 245 will also utilize water-based painting materials such as watercolor, gouache, acrylic polymers and gel media. Students will explore techniques such as collage, frottage, stamping, stenciling, relief printing, found image transfer and digital print output in combination with painting and drawing media.

ART 110 (or instructor consent) is a prerequisite for this class.

ART 260 | INTERMEDIA STUDIO | 4 quarter hours
(Undergraduate)
This course introduces the practices of Intermedia in a social and historical context. Students will learn to articulate concepts through the production of artworks that span a variety of media. The goals are to explore formal structures and research methods with emphasis on the role of analysis, historical and conceptual thinking as essential skills of a multi-media or Intermedia artist. The course includes basic time-based software instruction.

(ART 101 and ART 105) or ANI 105 or consent of instructor is a prerequisite for this class.

ART 264 | TEXT IN THE VISUAL ARTS | 4 quarter hours
(Undergraduate)
Students are introduced to the fundamentals of text including layout, hierarchy and the basic characteristics of letter-forms and type families; in addition to conceptually driven experimentation with typographic form in relation to the fine and media arts, including painting, drawing, photography (digital and analog), photomontage as well as video and time-based arts. Projects employ both handwork and computer technology and address the two-dimensional surface as well as type in three-dimensional space and time-based art. Offered Autumn quarter in odd years.

ART 101 or consent of instructor is a prerequisite for this class.

ART 289 | EXPERIMENTAL FILM AND VIDEO | 4 quarter hours
(Undergraduate)
This course is designed to investigate non-fiction and avant-garde film, video theory, and studio practices. Class will be devoted to the viewing and study of international film and video work from Europe, Asia, and the US.

Assigned readings, discussions and debate about the history and aesthetic of film and video art are also emphasized. Students will learn to use DSLRs and Adobe software. Hands-on skills will be developed. DSLRs, sound recorders, tripods and light kits will be provided by the art department. Offered Winter Quarter in even years.

ART 290 | STUDIO WORKSHOP | 4 quarter hours
(Undergraduate)
Off campus training in specific studio processes by noted Chicago artists in ceramics or wood working. May be repeated up to 8 hours credit.

ART 291 | MURAL PAINTING | 4 quarter hours
(Undergraduate)
This class has a central focus on the art of mural making. Students will have hands on experience as they design and execute a mural at a predetermined site. The mural will be executed as a small scale illustration board piece in the classroom during the last part of the quarter and installed at a real venue. The students will also learn the strategy and design factors of planning a mural piece of their own.

The class functions as a studio class as it meets for 6 hours weekly. A minimum of 25 service hours is required. Drawing or painting experience at the collegiate level is highly recommended for this class. This class is certified for cbSL and JYEL credit. Offered Spring Quarter.

ART 292 | COMMUNITY VIDEO PRODUCTION | 4 quarter hours
(Undergraduate)
The heavy emphasis on experiential learning of this course will combine classroom instruction on documentary video production with student fieldwork. Over the course of the term, students will plan, produce and substantially complete a videotape project for a community client.

Through the production of a video project specifically designed for a community organization, students will be able to practice production techniques that they learn in the classroom while gaining insight about how video can bring attention to community needs and thus make an impact on communities (outside the classroom). Our goal for this course is to bring students to the point of understanding and mastering the technical elements of video production and understanding these processes within an experiential and service learning context, such that through working on documentary projects, students will come to a point of understanding the history and contemporary needs of a particular community group and how the creation of a finished video can address some of those needs. Students will work to produce projects that are thoughtful, important and technically polished. This class is certified for cbSL and JYEL credit.

ART 293 | CHINA IN TRANSITION: SOCIAL PERSPECTIVES IN FILM & PHOTOGRAPHY IN CONTEMPORARY CHINA | 4 quarter hours
(Undergraduate)
The course content will engage a wide range of issues such as the tension and history of the women's rights movement, the reconstruction of values in gender and sexuality, and the ever-changing urban infrastructures in the economically driven culture. Film and photography are the rising new media for documenting and responding to social issues by scholars, filmmakers and artists expressing the Chinese experience. The methodology of this class will deconstruct and decode three common cultural stereotypes: American representations of China, Chinese official representations of itself, and universal representations of one's experiences as a traveler. Through dialogue and cross-reading materials, we compare films, photography, sites/field trips, interviews and journalistic materials to search for the reality and social issues beneath the visual representation. This course emphasizes the aesthetic, the theory and the hands-on experience of using video and photography during the trip (including a brief lecture on composition, framing and digital photography and/or possible video shooting techniques). We will share finished assignments in group critiques and reading discussions - in both cases, they will be the primary means of evaluation in class.

In a critique, students will present their work for response and analysis in relation to the given assignment through a class discussion. This dialogue is intended to be evaluative, to provide constructive criticism and to develop critical thinking skills.
ART 294 | GENIUS LOCI: ROMAN ARCHETYPES OF PLACE IN VISUAL CULTURE | 4 quarter hours
(Undergraduate)
This is a semester long study trip to Rome that offers a thematic studio/art history experience concerned with the role that Rome has played in shaping our understanding of place as expressed in visual culture. This course will include such topics as: the influence of Roman approaches to urban organization and development; the influence of national academies in Rome on Western developments in art and architecture, Piranesi and the articulation of utopic and dystopic models derived from Roman culture; the spatial collage of Roman architectural enveloping and fragmentation; illusion and perspective as perceptual puzzle and ideological signifier; and Pasquino and the expression of vox populi in public space. The unique circumstance of urban Rome, where 2500 years of building activity are embedded in the fabric of contemporary life, offers an opportunity to involve students in an interdisciplinary examination of how human needs and desires shape our built environment and are shaped by it.

ART 302 | TOPICS IN THE HISTORY OF CINEMA | 4 quarter hours
(Undergraduate)
Courses on the history of cinema that explore the form, content and historical significance of the media. Taught in the College of Communication with cross-list in Art.

ART 304 | THE PHOTOGRAPHIC BOOK | 4 quarter hours
(Undergraduate)
Since the inception of the photographic process in the early 19th century, one of the primary ways photographers have disseminated their work is through the book form. In this course we will consider the history, examples and practice of the photobook. Students will be expected to photograph a major subject over the course of the term, edit and sequence your photographs and layout and produce a finished, bound photobook through an online publisher. In addition to the history of the photobook, processes of organization and editing will be explored through basic shooting and sequencing exercises. Both film and digital cameras may be used for the course. Offered Winter Quarter in odd years.

ART 224 or ART 225 or permission of instructor is a prerequisite for this class.

ART 306 | ADVANCED DRAWING | 4 quarter hours
(Undergraduate)
An advanced course in historical and contemporary approaches to issues and techniques of drawing. Offered Winter Quarter.

ART 206 or ART 218 or instructor consent is a prerequisite for this class.

ART 309 | DIGITAL SCULPTURE | 4 quarter hours
(Undergraduate)
The methods and materials of desktop 3D printing technology will be integrated with traditional and contemporary sculpture, such as woodworking, casting, assemblage, and installation. This "hybrid" approach will provide students the opportunity to develop and explore new tools and skills, while maintaining a focus on the development of meaningful content in their artwork.

ART 113 or ART 115 or consent of instructor is a prerequisite for this class.

ART 310 | ADVANCED PAINTING I | 4 quarter hours
(Undergraduate)
Development of advanced skills in painting with work in a more independent approach to concepts and techniques. Offered Autumn and Spring Quarters.

ART 210 (or ART 245 or instructor consent) is a prerequisite for this class.

ART 311 | ADVANCED PAINTING II | 4 quarter hours
(Undergraduate)
Advanced Painting II. Offered Autumn and Spring Quarters.

ART 310 (or consent of instructor) is a prerequisite for this class.

ART 312 | FIGURE PAINTING | 4 quarter hours
(Undergraduate)
An introduction to the study of the painted figure in environmental settings. Light, color and spatial illusion are stressed.

ART 105 and ART 106 or consent of instructor is a prerequisite for this class.

ART 313 | PERFORMANCE/INSTALLATION ART | 4 quarter hours
(Undergraduate)
In this upper level course students will utilize their previously acquired skills and background from their respective areas of specialty (painting, drawing, sculpture, photo, video, sound, web and computer application etc) in a new conceptual and spatial context by creating specific environments (installation) and using their bodies in those environments (performance). These hybrid art projects will be presented in a real space and live performance format. Additionally using video and photo documentation as sources, students will create another project in digital format. Students will have the option to concentrate on only one aspect of the course; either installation or performance using either digital or non digital (or combined) formats for their projects.

One 200-level studio course or instructor permission is a prerequisite for this course.

ART 315 | ADVANCED SCULPTURE | 4 quarter hours
(Undergraduate)
Exploration of advanced sculptural themes and techniques determined by the student in consultation with the instructor. Offered Winter Quarter.

ART 215 or consent of instructor is a prerequisite for this class.

ART 316 | ADVANCED SCULPTURE II | 4 quarter hours
(Undergraduate)
Sequel course to ART 315 to allow the completion of extensive projects.

ART 315 or consent or instructor is a prerequisite for this class.

ART 317 | ADVANCED FIGURE SCULPTURE | 4 quarter hours
(Undergraduate)
This course will provide an expansion and enrichment of skills in modeling the human figure for students with a basic background in the figure. All class work will be done from a nude model. Home assignments will consist of figure drawings either from departmental Open Studio Figure Drawing sessions or from assigned figure drawings of great masters. Students in this course will further develop their technical and eye/hand coordination skills necessary to depict the human figure three dimensionally in a more professional manner as well as full understanding of the proportions of the human figure and the ability to implement them freely in a dynamic human figure. Course will also point towards the potential possibility of the exploration, conceptualization and interpretation of the human figure within the contemporary art context or other applications related to the students’ interests.

ART 215 or ART 218 or ART 219 or instructor permission is a prerequisite for this course.

ART 318 | ADVANCED FIGURE DRAWING | 4 quarter hours
(Undergraduate)
As a sequel to ART 218 this course provides a more in depth study of figure drawing with emphasis on the refinement of drawing skills, the exploration of different drawing materials and techniques while considering the expressive value of figurative work.

ART 218 (or consent of instructor) is a prerequisite for this course.
ART 227 | INTERMEDIATE PHOTOGRAPHY | 4 quarter hours (Undergraduate)
This course builds on ART 224, further emphasizing the aesthetic and conceptual possibilities of digital photography. Through project-based experimentation, students deepen their critical engagement with photographic tools while producing conceptually driven bodies of work. Refined use of the DSLR camera and editing tools takes place through hands-on image production and process-oriented critique. Additionally, this course explores historically established uses of the photographic medium and their relation in the digital context. Offered Winter Quarter annually.
ART 224 or instructor permission is a prerequisite for this course.

ART 321 | INTERMEDIATE DIGITAL PHOTOGRAPHY | 4 quarter hours (Undergraduate)
This course builds on ART 224, further emphasizing the aesthetic and conceptual possibilities of digital photography. Through project-based experimentation, students deepen their critical engagement with photographic tools while producing conceptually driven bodies of work. Refined use of the DSLR camera and editing tools takes place through hands-on image production and process-oriented critique. Additionally, this course explores historically established uses of the photographic medium and their relation in the digital context. Offered Winter Quarter annually.
ART 224 or instructor permission is a prerequisite for this course.

ART 323 | INTERMEDIATE PHOTOGRAPHY | 4 quarter hours (Undergraduate)
This course continues the aesthetic development and processes of film-based, black & white photography through a refinement of techniques and conceptual practices. Large and medium-format cameras are introduced along with fiber-based printing, additional lighting and exposure strategies, and darkroom print finishing techniques. Emphasis is on developing and enhancing critical approaches to subject matter through project-based, hands-on experimentation and critical discussion. ART 225 or consent of instructor is a prerequisite for this class.

ART 324 | INTERMEDIATE PRINTMAKING | 4 quarter hours (Undergraduate)
An intermediate course designed for students who have had previous technical experience with various printmaking media. This course enables students to investigate personal concerns and objectives through an ambitious and concentrated body of work. An emphasis is placed on the development of personal imagery and aesthetic goals. Offered Autumn Quarter, Spring Quarter, and Summer Session. ART 229 or instructor permission is a prerequisite for this course.

ART 325 | ADVANCED PHOTOGRAPHY PROJECTS | 4 quarter hours (Undergraduate)
Advanced Photography Projects is a course emphasizing individual artistic practice through project-driven approaches to photography. Students will generate conceptually challenging and visually refined photographs using analog and/or digital means. Coursework incorporates student presentations of their artwork, critical discussion and analysis, and the creation of a refined, edited and complete body of work or portfolio. Additional forms such as the photographic book, large-scale printing, and hybrid film/digital approaches may be explored. Offered Spring Quarter annually.
Two photography courses, at least one of which at the 300 level or instructor permission are prerequisites for this course.

ART 326 | SPECIAL TOPICS IN EXPERIMENTAL VIDEO ART | 4 quarter hours (Undergraduate)
Advanced explorations of video as a form of artistic expression. Each course will have a unique focus, such as installation art, video and performance, experimental narrative or experimental documentary. This course may be repeated for credit assuming a change in topic. HD Digital cameras will be provided by the art department. Hands-on skills will be developed and projects will be edited in Final Cut Express. ART 226 or instructor permission is a prerequisite for this course.

ART 327 | ADVANCED COMPUTER GRAPHICS | 4 quarter hours (Undergraduate)
 Builds on skills learned in ART 227. Explores specific areas of graphics and design; exposes students to advanced software including Director 5, Painter 4, Illustrator 6.0, Morph 2.5, and Claris Home Page. ART 227 is a prerequisite for this class.

ART 328 | DOCUMENTARY PHOTOGRAPHY | 4 quarter hours (Undergraduate)
Exploration of photographic concepts and techniques used in artistic, journalistic and sociological documentation. ART 225 or consent of instructor is a prerequisite for this class.
ART 329 | ADVANCED DIGITAL PHOTOGRAPHY | 4 quarter hours (Undergraduate)
Advanced Digital Photography focuses on artistic practice through inventive use of the photographic medium and refined engagement with digital tools. Students will focus on self-directed, in depth projects culminating in a high quality portfolio. Additionally, students will be engaging in large-scale inkjet printing and advanced digital workflow. This course also encourages experimentation with unconventional approaches to the photographic object. Students in this course should be prepared to work with their chosen topic independently, create thesis projects for presentations, and participate in group discussions and critiques. Offered Fall Quarter annually.
ART 224 and ART 321

ART 330 | INTERMEDIATE PRINTMAKING: INTAGLIO | 4 quarter hours (Undergraduate)
Exploring various methods and techniques in intaglio printing with an emphasis on both traditional and modern approaches. Techniques may include forms of etching, engraving, drypoint, mezzotint, or aquatint. ART 229 or instructor permission is a prerequisite for this course.

ART 331 | INTERMEDIATE PRINTMAKING: SCREEN PRINTING | 4 quarter hours (Undergraduate)
An intermediate level screen printing course enabling students to take a more independent approach to the concepts, themes, techniques, and aesthetic of their work. Emphasis will be on conceptual development of a series of works as well as refining skills and techniques. Offered every Quarter.
ART 231 or (instructor consent) is a prerequisite for this class.

ART 332 | TOPICS IN PHOTOGRAPHIC PRACTICE | 4-12 quarter hours (Undergraduate)
Focused investigations of specific aesthetic, technical or conceptual issues in the practice of photography. ART 224 or ART 225 or consent of instructor is a prerequisite for this class.

ART 333 | COMPUTER APPLICATIONS FOR DESIGN: PRE-PRESS | 4 quarter hours (Undergraduate)
Builds on skills learned in ART 228. Explores specific areas of graphics and design focusing on pre-press, and exposes students to advanced software. It is highly recommended students take ART 358 before taking this class.
ART 227, ART 228, ART 260, and ART 264 or consent of instructor is a prerequisite for this class.

ART 334 | PORTFOLIO | 4 quarter hours (Undergraduate)
In this course students review previous course projects and prepare a final portfolio of their own artistic identity and presentation in preparation for artistic practice, graduate study, and related career opportunities. Visiting professionals will present their work to the class and share their experiences in the field. Students will also learn presentational techniques and methods for career development. ART 101 and (ART 105 or ANI 105 or GD 105) or consent of instructor are prerequisites for this class.
ART 338 | FIGURE DRAWING IN CONTEXT | 4 quarter hours (Undergraduate)
A studio course ending the ART 218 Figure Drawing and ART 318 Advanced Figure Drawing sequence to study the figure in a contemporary context emphasizing independent research and ideation of different topics related to the human figure.
ART 318 (or consent of instructor) is a prerequisite for this course.

ART 345 | ADVANCED PAINTING: MIXOLOGY | 4 quarter hours (Undergraduate)
This course is the sequel to ART 245 Painting: Mixology and as such is a content driven course with emphasis on understanding medium and material as symbol and idea. The course will offer students a more in-depth understanding of materials and techniques studied in ART 245 as well as prepare them for more conceptually advanced work in painting. Offered Winter Quarter in odd years.
ART 210 (or ART 245 or instructor consent) is a prerequisite for this class.

ART 348 | GRAPHIC ART IN THE PUBLIC REALM | 4 quarter hours (Undergraduate)
This course enables students to research varied communities, complex information systems, processes, tools, and materials involved in visual communications. Students establish working relationships as individuals and in teams that utilize their skills to effectively communicate to an audience beyond the classroom. Objectives of the course include: creating awareness of current local community social issues, supporting students' development of independent and collaborative work habits, examining issues of social responsibility of the artist, integrating research-based learning and production skills, and assessing the social impact of a completed project. This is a JYEL accredited course. Offered Winter quarter in even years.
ART 101 and (ART 105 or ANI 105 or GD 105) or consent of instructor are prerequisites for this class.

ART 358 | GRAPHIC ART | 4 quarter hours (Undergraduate)
This course explores word and image within the realm of visual art, including analysis of meaning and structure, layout and composition, and format and production. Students are introduced to theory, history and analysis of graphic art through studio projects, readings, writing and critiques. Offered Winter quarter in odd years.
ART 101 and (ART 105 or ANI 105 or GD 105) or consent of instructor are prerequisites for this class.

ART 359 | PRINT MEDIA | 4 quarter hours (Undergraduate)
Students are introduced to concepts of layout, composition, printing and production of multi-page documents including magazines, artists' books, posters and various other forms of printed matter. Emphasis is placed on research methodology, critical thinking and visual communication. Offered Spring quarter in odd years.
ART 101 and (ART 105 or ANI 105 or GD 105) or consent of instructor are prerequisites for this class.

ART 360 | ILLUSTRATION | 4 quarter hours (Undergraduate)
Investigation of black-and-white and color media and introduction to the techniques, imagery, and functions of illustration in graphic design. Offered Spring quarter in even years.
ART 106 and (ART 101 or ART 105 or ANI 105 or GD 105) or instructor permission are prerequisites for this course.

ART 361 | PACKAGE DESIGN | 4 quarter hours (Undergraduate)
Focuses on current design trends with projects utilizing properties of materials such as paper, plastics, and glass.
ART 101, ART 105, ART 227, ART 260, ART 264 and ART 358 are prerequisites for this class.

ART 363 | ADVERTISING DESIGN | 4 quarter hours (Undergraduate)
Explores the function and practice of design in advertising in both social and art historical contexts. It is highly recommended students take ART 358 before taking this class.
ART 227, ART 260 and ART 264 or consent of instructor is a prerequisite for this class.

ART 364 | COMPUTER APPLICATIONS IN ART | 4 quarter hours (Undergraduate)
Use of Photoshop and Illustrator in the design and execution of paintings, drawings, and prints.
ART 101, ART 105, ART 106 and ART 110 or consent of instructor is a prerequisite for this class.

ART 369 | TYPOGRAPHY II | 4 quarter hours (Undergraduate)
Advanced investigation into typography and text for verbal and visual expression.
ART 227, ART 260, ART 264 and ART 358 or consent of instructor is a prerequisite for this class.

ART 376 | DRAWING PROJECTS | 4 quarter hours (Undergraduate)
Students will explore and identify drawing topics of personal interest from an interdisciplinary perspective based on previous and current ideas, course studies, and major and minor degree programs. Individual student interests and ideas will inform the development of a thematic approach to drawing. The selected individual themes will then be researched, explored, and applied to the creation of a completed body of drawing works or as a series of final drawings, in the format of a visual mini thesis drawing project. ART 101 or ART 224 or GD 151 or knowledge of Photoshop and/or experience with a digital SLR camera is highly recommended. Offered Spring Quarter.
Completion of two of the following courses is a prerequisite for this class: ART 206, ART 218, ART 306, ART 318, ART 338 or ART 229 or instructor permission.

ART 377 | PHOTOJOURNALISM | 4 quarter hours (Undergraduate)
Introduction to the theoretical and technical foundations of photography with exploration of the medium's aesthetic, documentary and narrative purposes within the context of photojournalism. Cross-listed as JOUR 276.
ART 382 | STUDENTS TEACHING ART IN THE ELEMENTARY CLASSROOM | 4 quarter hours  
(Undergraduate)  
This course brings DePaul students into a Chicago grade school to incorporate art into the curriculum. It is a hybrid course that involves some Independent Study in which the students organize their schedule in conjunction with a grade school classroom teacher, and some required classes that they must attend on campus at a prescribed time and day. Students are off campus for approximately 10 class sessions. At the start of the quarter, students are given a theoretical background in community-based art education, ethical issues, and social engagement. Working in teams, students will observe in the classrooms to gain a sense of the grade school community and the existing curriculum. DePaul students will then develop and teach a specific lesson plan in collaboration with the classroom teacher. The objective will be to produce a creative learning experience that co-mingles art and a core subject such as science or social studies. Teaching this art integrated lesson will be an essential aspect of the learning experience. Students will meet back at the DePaul classroom at designated intervals for information, reflection, and the analysis of their experience and their impact on the grade school community, in relation to the theoretical examples from the beginning of the course. These reflections take varied forms: discussion, role-playing exercises, presentations, and papers. Approved for JYEL and cbSL credit. Formerly ART 283.

ART 383 | SERVICE LEARNING IN THE ARTS INTERNSHIP | 4 quarter hours  
(Undergraduate)  
Each student will be matched with a not-for-profit art-related organization, based on the student's interests and abilities in the visual arts as well as the organization's needs, which will provide the student with a practical and career-centered experience. An interview with the instructor at least one week prior to the beginning of the quarter is required (email the instructor). This class can be taken for Experiential Learning credit. Offered Autumn Quarter.

ART 384 | ART-RELATED INTERNSHIPS WITH FOR-PROFIT ORGANIZATIONS | 4 quarter hours  
(Undergraduate)  
This is a four credit hour supervision class for any Art major or minor who has arranged for an internship with a For-Profit organization to do art-related activity. The class would be viewed as Independent Study, and the students do many of the same activities as in ART 383. This class can be taken for JYEL credit.

ART 385 | WEB ART & DESIGN I | 4 quarter hours  
(Undergraduate)  
This course is an introduction to web-based art through a series of studio projects utilizing Adobe software. Students learn the basic skills and processes needed to develop functional multimedia web pages that combine image, time, motion and sound to produce conceptual and experimental works of art that can only exist online. ART 114 or ART 224 or consent of instructor is a prerequisite for this class.

ART 386 | WEB ART & DESIGN II | 4 quarter hours  
(Undergraduate)  
Students will analyze and produce web art projects with an emphasis on the psychological, social and cultural framework of a web based environment. Students will develop focused and independent research methods and technical skills specific to their web art practice that will expand on the fundamental principals of user interaction and an integration of image, time, motion and sound.

ART 227, ART 228, ART 264 and ART 385 or consent of instructor is a prerequisite for this class.

ART 387 | MULTIMEDIA DESIGN | 4 quarter hours  
(Undergraduate)  
The course introduces students to a grounding in the design and execution of intensive multimedia project using Macromedia Director. Students will learn to combine text, images, and sound within a 4D environment.

ART 101, ART 105, ART 227, ART 228 and ART 264 are prerequisites for this class.

ART 390 | ADVANCED STUDIO PROBLEMS | 4 quarter hours  
(Undergraduate)  
An intensive art seminar introducing students to the professional, business, and legal skills needed to manage a career in Studio Art, Graphic Art or Photography and Media Art. Senior standing, ART 394 and status as an Art, Media and Design major or Art minor or consent of instructor is a prerequisite for this course.

ART 392 | SENIOR STUDIO SEMINAR | 4 quarter hours  
(Undergraduate)  
An intensive capstone seminar of contemporary art theory and studio practice in the student's area of concentration. Required for graduation in Studio Art and in Media Arts.

Senior standing, ART 394 and status as an Art, Media and Design major or Art Minor are prerequisites for this class. Juniors may attend with instructor's consent.

ART 393 | SENIOR PROJECT STUDIO | 4 quarter hours  
(Undergraduate)  
In this capstone course students work on advanced self-directed project(s) with an emphasis on developing a cohesive research methodology, artist statement and refined finalized works ready for presentation. Juniors may attend with instructor's consent. ART 101 or ART 224 or GD 151 or knowledge of Photoshop and/or experience with a digital SLR camera is highly recommended.

Senior standing and status as an Art, Media and Design major or Art minor are prerequisites for this course..

ART 394 | PROFESSIONAL PRACTICE IN THE STUDIO | 4 quarter hours  
(Undergraduate)  
An intensive art seminar introducing students to the professional, business, and legal skills needed to manage a career in Studio Art, Graphic Art or Photography and Media Art.

Senior standing and status as an Art, Media and Design major or minor are prerequisites for this class. Juniors may attend with instructor's consent.

ART 395 | SPECIAL TOPICS IN STUDIO PRACTICE | 4-12 quarter hours  
(Undergraduate)  
Focuses on studio specialties and techniques not encompassed by the general art curriculum.
ART 396 | INTERNSHIP | 1-12 quarter hours  
(Undergraduate)  
Arranges fieldwork or employment in the student's field of study. Utilizes the extensive professional studios and art institutions of Chicago and other international art facilities as well. Up to 12 hours of credit.  
Junior or Senior standing and status as an Art, Media and Design major or Art minor or consent of instructor is a prerequisite for this class.

ART 399 | INDEPENDENT STUDY | 1-4.5 quarter hours  
(Undergraduate)  
Independent work in the student's field of study under faculty supervision. Available only to upper-level students with demonstrated capacity for self-motivated study.

ART 405 | ADVANCED ART STUDIO | 4-8 quarter hours  
(Graduate)  
Advanced projects in Studio Art, Media Art, and Graphic Art.  
ART 105 or consent of instructor is a prerequisite for this class.

ART 406 | GRADUATE DRAWING | 4 quarter hours  
(Graduate)  
An advanced and rigorous approach to historical and contemporary issues, applications and techniques of drawing.

ART 407 | DRAWING PROJECTS | 4-8 quarter hours  
(Graduate)  
A series of drawing projects in Studio Art, Media Art, and Graphic Art.  
ART 306 (or equivalent) and ART 318 (or equivalent) or portfolio or instructor consent are prerequisites for this course.

ART 409 | ADVANCED DRAWING | 4 quarter hours  
(Graduate)  
An advanced and rigorous approach to historical and contemporary issues, applications and techniques of drawing.  
ART 306 (or equivalent) and ART 318 (or equivalent) or portfolio or instructor consent are prerequisites for this course.

ART 427 | DIGITAL ART | 4 quarter hours  
(Graduate)  
Digital art applications in Studio Art and Media Arts. Offered Spring Quarter in even years.  
ART 101 and ART 105 or consent of instructor is a prerequisite for this class.

ART 460 | WEB ART AND DESIGN | 4 quarter hours  
(Graduate)  
Web Art and Design study and explorations.  
ART 101 and ART 105 or consent of instructor is a prerequisite for this class.

ART 461 | PHOTOGRAPHY AND MEDIA ART | 4 quarter hours  
(Graduate)  
Selected Topics in Art and Photography.

ART 476 | DRAWING PROJECTS (GRADUATE) | 4 quarter hours  
(Graduate)  
Students will explore and identify drawing topics of personal interest from an interdisciplinary perspective based on previous and current ideas, course studies, and undergraduate degree programs. Individual student interests and ideas will inform the development of a thematic approach to drawing. The selected individual themes will then be researched, explored, and applied to the creation of a completed body of drawing works or as a series of final drawings, in the format of a visual mini thesis drawing project.  
ART 406 (or equivalent) and ART 418 (or equivalent) or portfolio review or instructor consent are prerequisites for this course.

ART 489 | VIDEO ART | 4 quarter hours  
(Graduate)  
An advanced level course designed to introduce students to the uses of video within a variety of artistic practices including installation, projection and performance as well as linear, single-channel non-narrative, non-documentary pieces. This course will take a "theory/practice" approach. Instruction will combine a study of the historical uses of video in the art world as well as the theoretical and critical perspectives on the practices of a wide range of artists who use video. Hands-on application of these concepts will be applied to the students' own work, culminating in a finished project by the end of the term which will be edited in the computer applications Dreamweaver, Flash and Fireworks. Basic literacy with Macintosh platform is required.

ART 490 | ADVANCED TOPICS IN ART, MEDIA AND DESIGN | 1-8 quarter hours  
(Graduate)  
Intensive studio art experience in the student's media of choice. May be taken for variable credit.

Art and Architecture, History of (HAA)

HAA 101 | INTRODUCTION TO AFRICAN ART | 4 quarter hours  
(Undergraduate)  
This course is based on a series of important issues in the study of African art, such as medium and color, portraiture, the artist and innovation, relationships with language, royal patronage, divination, gender, aesthetics, Othering, and authenticity. The course will explore each of these concepts through a variety of artistic traditions from the continent. In this manner, students will gain basic theoretical tools which will enable them to work with art from across Africa.

HAA 115 | INTRODUCTION TO ASIAN ART | 4 quarter hours  
(Undergraduate)  
An introduction to major developments of art and architecture across Asia including South Asia, Southeast Asia, the Himalayas, and East Asia. This course examines not only painting, sculpture, and architecture, but also gardens, ceramics, and prints. Special emphasis will be placed on religious arts of Buddhism and Hinduism, along with landscape and figural painting of China and Japan.

HAA 130 | INTRODUCTION TO EUROPEAN ART | 4 quarter hours  
(Undergraduate)  
This introductory-level course examines art historical methods and their application to a broad chronological survey of European art and architecture from pre-history to the twentieth century. Field trips to Chicago art institutions enhance the understanding of historical traditions and critical methods taught in class lectures and discussions.
HAA 145 | INTRODUCTION TO ARTS OF THE AMERICAS | 4 quarter hours
(Undergraduate)
What is distinctive about art created over time on the American continents? This class begins to answer this question by examining some of the principal developments in art history from the ancient indigenous cultures (particularly those of Meso- and South America), through the period of European colonialism (especially Spanish and English), to the modern art movements across the sovereign nations, including the United States and Canada. Since time permits only a sampling of artistic forms across time, lectures are often issue-oriented, with a focus on selected problems facing scholars. Periodic discussions allow students to weigh in on topics and offer their own critiques. This class argues that the distinctiveness of American visual forms springs from the heterogeneous cultural traditions that simultaneously divide and unify its inhabitants.

HAA 200 | SPECIAL TOPICS ON THE ART INSTITUTE | 4 quarter hours
(Undergraduate)
In coordination with the University's partnership with the Art Institute of Chicago, this Special Topics class exploits an invaluable resource in our own city, to teach students about one or more specific collections or exhibitions. The class also works to think holistically about the development of the museum itself within the context of Chicago's own social history. With an encyclopedic collection consisting of 11 distinct curatorial departments, the Art Institute is both museum and research institution, thus offering students the opportunity to explore ideas at a variety of important levels. Class lectures and activities will consider specific aspects of the museum's art and architecture, remaining flexible enough in its format to accommodate opportunities provided by any special exhibitions that may be on display during a given quarter. Meetings will take place primarily in the classroom, with intermittent visits to the museum, both during and outside of class time.

HAA 201 | ANCIENT AFRICAN ART | 4 quarter hours
(Undergraduate)
This course surveys a selection of artistic traditions from across the African continent beginning with the earliest attempts by humanity to visually represent complex thought until the Portuguese began trading along the coast of West Africa in the mid-fifteenth century. Emphasis is placed on demonstrating connectedness with a larger cultural environment, while also suggesting connections to future artistic traditions.

HAA 202 | CLASSICAL AFRICAN ART | 4 quarter hours
(Undergraduate)
This course surveys a selection of artistic traditions from across the African continent beginning with the arrival of the Portuguese along the coast of West Africa in the mid-fifteenth century until the age of African independence in the 1960s. While the impact of a European presence helps define the boundaries of this course, artistic response to that presence is but one theme. Interactions between African cultures and the impact of Islam are equally important considerations.

HAA 203 | POST-COLONIAL AFRICAN ART | 4 quarter hours
(Undergraduate)
This course surveys African art from the age of African independence in the 1960s until the present day. The meaning of the term contemporary as it applies to African art is questioned in this course. The position of the artist between African artistic tradition and the global art market is also of vital importance.

HAA 215 | CHINESE ART | 4 quarter hours
(Undergraduate)
This is a chronological survey of premodern Chinese art from antiquity to the nineteenth century. Special attention is given to sculpture and painting, but architecture and ceramics are also covered. There is an emphasis on prehistoric bronze vessels, Buddhist sculpture, and landscape painting of the Song through Qing periods.

HAA 216 | JAPANESE ART | 4 quarter hours
(Undergraduate)
This is a chronological survey of premodern Japanese art, from the prehistoric era to the Meiji period (1868-1911). Topics covered include painting, sculpture, and architecture, as well as decorative arts, prints, and garden design. Special attention is given to Buddhist and Shinto religious arts, along with screen painting and woodblock prints.

HAA 218 | ARTS OF THE SILK ROAD | 4 quarter hours
(Undergraduate)
This course examines the visual history of the Silk Road, focusing on works of art and architecture created in Central Asia. We not only consider the prehistoric, ancient, and medieval arts of this region, but we also investigate the modern development of a romanticized notion of the Silk Road and the imperial interest in acquiring treasures from the Silk Road. Today we frequently hear about the legacy of the Silk Road in promoting multicultural exchange. However, the Silk Road has long been affected by the expansionist agendas of empires. From the time of Alexander the Great (356-323 BCE) through the period of Genghis Khan (1162-1227 CE) and onward, there have been military leaders who have led their armies into Silk Road lands seeking territory, riches, and glory.

HAA 219 | JAPANESE FILM ARTS | 4 quarter hours
(Undergraduate)
This course examines the development of cinema as an artistic form in Japan, from its inception in the early twentieth century to its explosion as an international phenomenon in recent decades. The Japanese cinematic experience is considered as visual expression that parallels key Japanese arts of handscroll painting and woodblock prints. We discuss such genres as samurai films, fantasy tales, monster movies, yakuza thrillers, and science fiction anime. Among the masterpieces studied are Ozu's Tokyo Story, Kurosawa's Rashomon, Itami's Funeral, and Miyazaki's Spirited Away. Issues addressed in relation to these films include artistic expression, technological progress, national identity, social unrest, and religious concern.

HAA 220 | BUDDHIST ART | 4 quarter hours
(Undergraduate)
This course explores the traditional visual culture of the Buddhist world, examining art as a reflection of religious belief and practice. The regions covered are South Asia, Southeast Asia, and East Asia. An emphasis is placed on painting, sculpture, and architecture made for or related to Buddhist practice.

HAA 222 | ISLAMIC ART | 4 quarter hours
(Undergraduate)
This course examines the visual culture of the Islamic world, selectively surveying some of the major artistic developments in regions of the world with a significant Muslim population. It will consider art and architecture as interplay between local culture and Islamic tradition. Topics covered will include the origins of Islamic visual culture in the Arabian Peninsula and the spread of Islamic art and religion across the Middle East. Local expressions of Islamic art may be explored in areas as diverse as North Africa, sub-Saharan Africa, Spain, Sicily, Iraq, Iran, India, and Central Asia. Special attention is paid to architecture, painting, and decorative arts.
HAA 230 | ART AND EMPIRE IN THE ANCIENT WORLD | 4 quarter hours (Undergraduate)
This course explores the art of the ancient period (ca. 30,000 BCE - 330 CE) from a broad range of cultures and styles: from the Paleolithic cave paintings to the Roman Colosseum, from the pyramids of Egypt to the Parthenon in Greece. We consider how art, religion, urbanism, and writing profoundly affected the development of the ancient Mediterranean and Mesopotamian world. We analyze major stylistic trends and explore the relationship between art, culture, and religion. We also discuss the role of art in the hands of political leaders and the profound interconnectedness of ancient civilizations. Frequent discussions will analyze controversies in the study of ancient art and scrutinize topics such as gender, power, aesthetics, and authenticity.

HAA 231 | CONQUEST & CONVERSION: THE ART OF THE EARLY MIDDLE AGES | 4 quarter hours (Undergraduate)
This course treats the art of the early Medieval period, which spans the fourth to the eleventh centuries CE and includes Roman, Celtic, Gothic, Merovingian, Anglo-Saxon, Carolingian, Viking, and Ottonian cultures. In thinking about factors such as historical context, dynamics of production, and audience, we will come to understand the role of art and architecture in announcing power and extent of territory, staging public rituals, proclaiming social status, inspiring faith, and accommodating the dead.

HAA 232 | AGE OF CATHEDRALS: THE ART OF THE LATER MIDDLE AGES | 4 quarter hours (Undergraduate)
This course explores the art of the late Medieval period, which spans the eleventh to the fifteenth centuries CE in countries such as France, Germany, Italy, and England. In our study of the Romanesque and Gothic art and architecture, we will explore issues related to production, display, and function and, thereby, come to better understand a world marked by pilgrimage and the cult of relics, chivalry, pageantry, and conflict.

HAA 233 | THE ART OF CRUSADING | 4 quarter hours (Undergraduate)
This course focuses on the Crusades. More specifically, it focuses on the world within which the Crusades were born and the Levantine kingdom built as a result of their initial success. Our study will depend on primary artistic, literary, and archaeological materials, as well as the secondary scholarship that has identified and interpreted these materials. Our understanding of this historical moment will be nuanced by the questions we ask of both. The payoff will be an appreciation for the religious, social, political, and artistic forces that defined the twelfth and thirteenth centuries in Europe and in the Mediterranean basin, leading as they did to such fascinating phenomena as pilgrimage, the cult of relics, chivalry, holy war, the rise of military orders, and the establishment of the Latin Kingdom of Jerusalem itself.

HAA 234 | BYZANTINE ART | 4 quarter hours (Undergraduate)
This course explores the art of the Byzantine Empire from the founding of Constantinople in 330 CE to the fall of the city to the Ottomans in 1453. Lectures and readings focus primarily on how contemporaries understood and interacted with a diverse group of monuments and objects now classified as Byzantine art. Significant attention will be devoted to how works of art functioned in the service of imperial and ecclesiastical ideology. Discussions analyze how Byzantine art was appreciated and appropriated in both the medieval Mediterranean and in modern scholarship.

HAA 235 | RUSSIA: MEDIEVAL MOMENTS, IMPERIAL DAYS & WHITE NIGHTS IN NOVGOROD & ST. PETERSBURG | 4-8 quarter hours (Undergraduate)
This study abroad program in Russia allows students the opportunity to explore Novgorod, the medieval trading empire and center of Orthodox spirituality and the Russian imperial gem of St. Petersburg, while studying medieval art and the history of Imperial Russia. Both cities have been designated UNESCO World Heritage Sites and showcase the best of medieval and modern Russia by providing one of the world's richest ensembles of urban planning, art, architecture, and historical treasures.

HAA 236 | NORTHERN RENAISSANCE ART | 4 quarter hours (Undergraduate)
This course features the most significant works of art, their artists and patrons, the social and economic aspects of artistic production, and the dominant cultural issues that flowed brilliantly in Northern Europe - above all, in France, the Netherlands, Bohemia, and German-speaking lands - between 1300 and 1600, that is, during the volatile period of the Renaissance and outbreak of the Protestant Reformation. And although Flemish oil painting offers the most evident legacy of the Northern Renaissance to the casual museum visitor, this course also introduces the most important outputs in printmaking; sculpture; and the industrial arts, as in tapestry weaving and the fabrication of luxury articles in metalwork.

HAA 237 | ITALIAN RENAISSANCE ART | 4 quarter hours (Undergraduate)
This course concentrates on the architecture and pictorial arts that flourished on the Italian peninsula between ca. 1300 and 1600, although selected forays are undertaken into comparative European and Asian cultures. Its content focuses on the most significant works of art and architecture, including the technical arts; the key personalities, above all, the artists and their patrons; and a broad range of cultural and political issues that affected artistic thinking and production.

HAA 238 | BAROQUE ART | 4 quarter hours (Undergraduate)
Starting in 1600, from the vantage point of the Counter-Reformation and the rise of modern European states, Baroque Art covers the principal works of art and architecture; artists and patrons; and a wide sweep of social, religious, and political, conditions that impacted cultural thinking and production in the seventeenth century. Attention is focused on the most prominent artistic centers in Italy, the Spanish Netherlands, England, Spain, the Dutch Republic, and France. The in-class lectures with discussion are accompanied by field work to the Baroque collections of the Art Institute of Chicago.

HAA 239 | 19TH CENTURY EUROPEAN ART | 4 quarter hours (Undergraduate)
Introductory survey of major moments and movements in nineteenth century European art, with some attention to U.S. developments, as warranted. The course analyzes major painters and sculptors of the early modern period and their influence in shaping cultural events, such as, for example, the Industrial Revolution.
HAA 240 | ART FROM 1900-1945 | 4 quarter hours  
(Undergraduate)  
This course examines the major artists, movements, and issues at play in the visual arts of Europe from 1900 to the outbreak of World War II. Lectures and class discussions address how modern art, often oppositional and contradictory in nature, responds to, reflects, or builds on the effects of modernization (i.e. urbanization, industrialization, and global capitalism). Modern art objects will be read for both stylistic innovation and for connections to, and commentaries on, specific historical developments. Significant themes addressed include the character and history of the avant-garde, the relationship between high art and mass culture, the changing identities and aims of the modern artist, and the institutional basis of art production.

HAA 242 | ART FROM 1945 - 1975 | 4 quarter hours  
(Undergraduate)  
This course considers the art and culture of Western Europe and the United States from World War II through the Vietnam War. Beginning with the period of high modernism, major art historical movements and highly distinct aesthetic practices will be examined in order to foreground the complex relations that exist between art making and specific socio-historical contexts. Topics to be addressed include the development of the arts after World War II, the role of art in a consumerist and spectacle-driven society, the dematerialization of the art object, and the shift from late modernist to postmodern sensibilities. Students will be introduced to a range of theoretical models which foreground structural and formal investigations, as well as issues of social and historical analysis.

HAA 243 | MAYA ART AND ARCHITECTURE | 4 quarter hours  
(Undergraduate)  
The "Classic Period" Maya (ca. 0-900 CE) are the source of modern interest for their graceful naturalism in a wide range of art forms and for their impressive architecture whose ruins today are found scattered across Southern Mexico, the Yucatan Peninsula, Guatemala, Belize, and Honduras. This class explores the political, social, economic and religious imperatives behind the soaring temples, intriguing ballcourts, stately public sculptures, delicately painted vases, complex manuscripts and much more. We will situate the art of the Maya relative to other Mesoamerican cultures, particularly those of the Olmec, Teotihuacan and Aztec, and with respect to the Spanish colonial invasion. Other themes include aesthetics, materiality, gender, interpretive methodologies, and the impact of hieroglyphics and calendrics on the study of Maya art.

HAA 244 | AZTEC, MAYA, OLMEC: MESOAMERICAN ART | 4 quarter hours  
(Undergraduate)  
This survey of art of the ancient Mesoamerica (ca. 1000 BCE - 1520 CE) focuses on the most artistically significant civilizations of South America and some of the difficulties encountered in studying them. Lectures explore visual traditions as diverse as the people they reflect; cultures to be covered include the Olmec, Maya, Teotihuacan, and Aztec. We consider the relationship between form and content, and the relationship between art and its social context, as much as we can understand it; however, especially because of the scarcity of primary source texts for the material, the class will also regularly raise questions of methodology in what is often identified as "pre-Columbian" scholarship.

HAA 245 | ART OF THE ANDES | 4 quarter hours  
(Undergraduate)  
This survey of the ancient Andes (ca. 1000 BCE - 1530 CE) focuses on the most artistically significant civilizations of South America and some of the difficulties encountered in studying them. Lectures explore visual traditions as diverse as the people they reflect; cultures to be covered include the Nazca, Moche, Tiahuanaco, Wari and Inca of Peru. We consider the relationship between form and content, and the relationship between art and its social context, as much as we can understand it; however, especially because of the scarcity of primary source texts for the material, the class will also regularly raise questions of methodology in what is often identified as "pre-Columbian" scholarship.

HAA 246 | ART IN THE SPANISH AMERICAN EMPIRE | 4 quarter hours  
(Undergraduate)  
This course offers a critical survey of the art of colonial Latin America (ca. 1520 - 1820), from the Caribbean to Mexico, Central America, and South America. Framed by the Spanish Conquest of the sixteenth century and independence in the early nineteenth century, lectures will survey state-sanctioned arts of the iberner colonizers, including the foundations of the Catholic Church across the 'New World' landscape. Race will be a frequent issue of discussion as we consider both indigenous American and African participation in social realities and artistic practice in this colonial context.

HAA 247 | MODERN LATIN AMERICAN ART | 4 quarter hours  
(Undergraduate)  
This class is a survey of Latin American art created since the Wars of Independence which helped to create the modern nations in the nineteenth century (i.e. 1820s through the present). Lectures consider the struggle of artists to articulate newly sovereign identities through visual production, even as complicated relationships with Europe and increasingly, the United States, continue. Topics covered include Latin American modernism, surrealism, radical arts, and social realism, with a special consideration of post-revolutionary Mexican mural painting.

HAA 248 | MEXICAN ART | 4 quarter hours  
(Undergraduate)  
This survey situates the art of Greater Mexico in its rich historical context, from the territory on the eve of the Spanish Conquest to the early decades of the twenty-first century. From Aztec imperial art to colonial works, to efforts at nation-building through visual forms, the story of Mexican art is characterized by political and social change. Readings, lectures, and discussion will touch on critical issues of race, class, and gender, and take up themes such as miscegenation, indigenism, nationalism, and Mexico's place in the global art world. We will study famous works, such as the Aztec Calendar Stone, the Catholic image of the Virgin of Guadalupe, the post-revolutionary murals of Diego Rivera and the more intimate paintings of Frida Kahlo, but we will also consider less familiar art that has been equally important in the construction of Mexico and its identities.

HAA 260 | AMERICAN ART | 4 quarter hours  
(Undergraduate)  
This course examines American art (the British colonies and United States) from the colonial period to the mid-twentieth century. Works of art are examined both in relation to American social and cultural history and also as aesthetic objects. The overarching themes of the class include the "American-ness" of American art, the relationship between American and European art, the function and production of art, and the expanding definition of American expression through multicultural diversity.
HAA 263 | HISTORY OF INTERIOR DESIGN | 4 quarter hours
(Undergraduate)
A survey of the history of interior design as expressed in residential architecture, furniture, and the decorative arts from antiquity to the present. The aim of this class is to understand interiors and furnishings throughout history, considering their function, style, materials, and fabrication in relation to their cultures and to the built environment. To this end, students will learn to identify, analyze, and understand historic styles of interior design and furnishings within the larger context of the history of painting, sculpture, and architecture.

HAA 265 | HISTORY OF PHOTOGRAPHY | 4 quarter hours
(Undergraduate)
A survey of the major works, artists, and movements of photo history from photography's invention to the present day. Emphasis is placed on the major artists, subjects, and technical applications of the medium, as well as on the modernity of photography and its unique aesthetic qualities. This course will also consider the myriad purposes and social contexts for photography and examine a wide range of techniques from the camera obscura to recent developments in printing. Actual photographs are studied in class, on campus, and in field trips to regional collections. The course involves major readings that ask students to consider the role of photography in relations to race, gender, and politics. Many of the photographers under consideration are American.

HAA 268 | HISTORY OF FILM | 4 quarter hours
(Undergraduate)
This course is a survey of the history of cinema and an introduction to the basic methods for analyzing films. Specifically, this course tracks the development of techniques for creating meaning using film within particular historical contexts and cinematic traditions such as narrative, documentary, and experimental film. We will focus on how meaning in film is conditioned by uses of camera, editing, lighting, mise-en-scene, sound, and acting as well as how these uses have been impacted by new technological developments in film production. Additionally, we will consider the significance of genre, the production system, and the impact of individual "auteurs" throughout the history of cinema.

HAA 273 | ANIME AND MANGA | 4 quarter hours
(Undergraduate)
This course examines the development of anime and manga in Japan from their inception to their explosion as international phenomena in recent decades. We consider anime and manga as forms of artistic expression that depend upon and parallel key Japanese visual forms of handsccroll painting and woodblock prints. Students learn the ideas, ideals and values in Japanese cinemetic and visual expression, and develop skills at analyzing anime and manga as artistic forms. The processes of drawing/creating anime and manga are considered; both form and content of anime and manga are discussed.

HAA 280 | PREMODERN ARCHITECTURE: ANCIENT SOCIETIES TO THE ENLIGHTENMENT | 4 quarter hours
(Undergraduate)
Social, economic, and political history of European and Mediterranean architecture, from Paleolithic times to the 1789 French Revolution. Topics include: classicism, the status and role of the architect, social struggle, patronage, and architectural technologies.

HAA 281 | MODERN ARCHITECTURE | 4 quarter hours
(Undergraduate)
World architecture from the 1789 French Revolution to the present. Examines the influence of industrial, technological, political and social change in the development of modernist and post-modernist architecture.

HAA 288 | COMPARATIVE URBANISM | 4 quarter hours
(Undergraduate)
An investigation of the origins and bases of non-American urban traditions, through the study of the genesis, form, functions, and social-cultural forces that shaped cities such as Paris, St. Petersburg, Istanbul, Calcutta, and Mexico City. This course is based in the Geography Department and is the equivalent of 200-level History of Art and Architecture course.

HAA 290 | ART HISTORICAL THEORY AND METHODOLOGY | 4 quarter hours
(Undergraduate)
This course looks at the theories and methodologies that belong to art history. This means that, rather than a given artistic period, geographical area, or theme, our focus will be on the ways in which works themselves have been interpreted and understood since the origin of the discipline, emphasizing the more reflective and critical approaches to art that have emerged as a result of contact with other disciplines (such as philosophy and comparative literature). Each weekly meeting will consist of discussions inspired by informational readings on a given methodological approach (such as structuralism, Marxism, psychoanalysis, post-colonialism, queer theory), as well as a number of specifically art historical texts exemplifying that particular approach. Our main goal for this class will be to develop an understanding of these theories and methodologies and to evaluate the advantages and disadvantages of their application.

HAA 291 | MUSEUM PROFESSION AND PRACTICE: CHICAGO MUSEUMS AS CASE STUDY | 4 quarter hours
(Undergraduate)
Museums rely upon the coordinated efforts of a wide range of professionals with experience drawn from various disciplines to assure their successful stewardship, operation, and sustainability. This course investigates the theories and practices of museums, examining the core functions within the museum profession, and the role of museums in contemporary society. Examining the Chicago museum community as a series of case studies, we will hear from representatives of Chicago's leading museums as we consider models of best practices and the challenges currently facing museums in today's cultural landscape.

HAA 297 | SPECIAL TOPICS IN HISTORY OF ART & ARCHITECTURE | 4 quarter hours
(Undergraduate)
Focused study on a specific topic from the history of world art.

HAA 301 | AFRICAN ARCHITECTURE | 4 quarter hours
(Undergraduate)
This course examines a wide variety of issues pertinent to the study of architecture in Africa, highlighting above all else the diversity of traditions across the continent. Themes are defined at times by materials, technology, type, geographical region, culture, or specific architectural elements. Examples of subjects studied include: earthen mosques of Mali; subterranean residences in Burkina Faso; nomadic tents; impluvial and courtyard traditions of Nigeria and Senegal; mural painting in Burkina Faso, Nigeria, and South Africa; Ethiopian rock cut churches; imperialist exploitation of Great Zimbabwe's legacy; and coral architecture of the Swahili Coast.
HAA 302 | AFRICAN ISLAM: ISLAMIC ART & ARCHITECTURE IN SUB-SAHARAN AFRICA | 4 quarter hours
(Undergraduate)
Focused study of the impact of Islam on the artistic traditions of sub-Saharan Africa. Rather than necessarily replacing previous art forms, this course investigates in what circumstances preexisting visual culture might be integrated with the requirements and needs of Islam. This approach necessitates an understanding that neither Islam nor African art are monolithic entities, but rather their interactions represent a wide variety of negotiations across the continent. Likewise, this course will consider specific historical circumstances to which Islamic art in sub-Saharan Africa has responded in terms of form and content.

HAA 310 | TOPICS IN ART AND ARCHAEOLOGY | 4 quarter hours
(Undergraduate)
This course addresses issues of archaeology relevant to the study of visual culture from the ancient to the contemporary world. This course is based in the Department of Anthropology and is the equivalent of a 300-level History of Art and Architecture course.

HAA 316 | GODS AND MORTALS: THE ART OF THE ANCIENT GREEKS | 4 quarter hours
(Undergraduate)
This course looks at the ancient Greek world, focusing on the events, traditions, and beliefs that culminated, on the one hand, in the birth of democracy and the defeat of Xerxes and, on the other hand, in the building of the Parthenon and the sculpting of the Nike of Samothrace. In so doing, we will come to understand above all the heavy burden placed on art and architecture at this time and in this place, charged as it was with soliciting the gods, establishing power, celebrating battles, ritualizing entertainment, and remembering the dead. And along the way we will challenge long held assumptions related to the meaning and function of ancient Greece's most fundamental artistic forms, techniques, and subjects.

HAA 320 | ART AND POWER IN PAGAN AND EARLY CHRISTIAN ROME | 4 quarter hours
(Undergraduate)
This class focuses on the art of the Roman Empire, an empire that began pagan and ended Christian. In practical terms, it will move from Augustus in the first century BCE to Justinian in the sixth century CE, with geographical coverage ranging from Jerusalem to (modern day) northern England. Our task will be to examine the artistic forms that came to identify this civilization via structures that dwarfed the natural world and figural likenesses that made the absent present to appreciate their efficacy. On the one hand, this examination will provide a deep and broad understanding of the role art plays in the building of empire; on the other, it will provide a vivid sense of art’s part in maintaining the appearance of continuity despite radical change. Thus, we will watch as the artistic forms that once defined a pagan world are adopted enthusiastically by its Christian replacement, marking the subtle transformations that articulate new beliefs, facilitate new devotion, and charge spaces for new rituals.

HAA 325 | OLD EMPIRES AND NEW GODS: CULTURAL CONFRONTATIONS IN LATE ANTIQUITY | 4 quarter hours
(Undergraduate)
This course focuses on how a clash of cultures and the emergence of new religious impacted the arts of the eastern Mediterranean in late antiquity (300 to 700 CE). It explores interactions between the Byzantine and Sasanian empires, as well as the creation of local and religious identities through art. It also investigates how the diverse religious climate (Christianity, Judaism, Paganism, Zoroastrianism, Islam) contributed to visual expression in the region.

HAA 328 | THE POWER OF PIETY: ICONS, RELICS, AND MIRACLES IN THE MEDIEVAL WORLD | 4 quarter hours
(Undergraduate)
This course examines the intersection of personal devotion, public spirituality, and performance of faith in the medieval world. Probing a range of objects that give material expression to the desire for tangible links to the sacred and reminders of supernatural presence in the medieval world, the course analyzes miraculous objects that we now categorize as works of art. Objects under discussion include a category broadly defined as reliquaries, fragments of the True Cross, images “not made by human hands;” and miraculous icons.

HAA 331 | ART OF THE CRUSADES: CRUSADES AS MEDITERRANEAN EXCHANGE | 4 quarter hours
(Undergraduate)
This course considers the Crusades from multiple perspectives (Byzantine, Latin, Muslim) and explore how politics, religion, and culture influenced the art of the medieval Mediterranean. The Crusades are analyzed in the broader context of pilgrimage, the search for the divine, and the desire to seize control of and purify holy sites. The course focuses on works of art created when the cultures of the Mediterranean came into both contact and conflict.

HAA 332 | ROMANESQUE ART AND ARCHITECTURE | 4 quarter hours
(Undergraduate)
Scholars in the nineteenth century designated Western European monuments, especially architecture and sculpture created between the eleventh and twelfth centuries, as “Roman-like” in character or “Romanesque,” in order to acknowledge certain linkages they perceived between the characteristics of this era’s architectural and visual language and that of the distant Roman past. Recent scholarship emphasizes not only large-scale works of art, architecture, and sculpture, crucial in an age of Pilgrimage and Crusades, but also small-scale works, such as illuminated manuscripts, metalwork, and coins and seals, as essential for an understanding of medieval visual culture. This class considers the broad spectrum of significant works of art produced during this period from shifting points of view, aesthetic or formalist toward function, agency, presentation and reception.

HAA 333 | GOTHIC ART AND ARCHITECTURE | 4 quarter hours
(Undergraduate)
This course examines the art, architecture, history, and culture of the so-called Gothic era (twelfth - fifteenth centuries), the age of the great European cathedrals. Reigning supreme in most of Europe in the thirteenth and fourteenth centuries, the Gothic style marks an era of unparalleled building activity and one of the most fertile and productive periods in the history of Western art. Special emphasis will be given to the aesthetic, structural, and spiritual aspects of cathedrals and other great churches and their contents, primarily in France and England, as reflections and embodiments of the sacred aspirations and devout character of the era. The artistic and architectural production (buildings, sculptures, illuminated manuscripts, paintings, sacred or liturgical objects, stained glass, etc.) of the period will be studied in its original context, with close attention paid to questions of social and political function, cultural meaning, and historical circumstance.
HAA 335 | MICHELANGELO | 4 quarter hours
(Undergraduate)
This course examines the extraordinary life, times, and creations of Michelangelo Buonarroti (1475-1564), one of the most significant figures in the history of Western art. Sculptor, painter, architect, and poet, Michelangelo lived during the Italian Renaissance, an age that witnessed a flourishing artistic, scientific, and humanistic culture. During a career that spanned over seven decades, Michelangelo created famous lasting masterpieces, including the Vatican Pieta, David, Moses, the Sistine Chapel ceiling, and the papal church of St. Peter’s. Who is this irascible and solitary genius, this devout Catholic and fierce Republican Florentine, who cavorted and lived with popes and princes, and fashioned works that profoundly influenced Western civilization? How do his brilliant achievements define, express, and illuminate the time, place, and culture in which he lived? Drawing on a variety of primary and secondary sources, this course seeks to understand an eccentric artist whose dazzling aesthetic productivity left a lasting mark on the art of future generations up to the modern period.

HAA 360 | DUCHAMP AND DADAISM | 4 quarter hours
(Undergraduate)
With Picasso and Matisse, Marcel Duchamp (1887-1968) was among the most important artists of the modern era. Certainly, no other artist influenced contemporary art so significantly, and this class will examine his art, biography, and influence. Another focus will be the cultural movement known as Dadaism (1916-24), a delirious anti-art movement begun in Zurich, Switzerland, during the absurd, bloody First World War. After contextualizing Dada in relation to modern art, we will examine its manifestations in various world centers. Along the way, we will encounter the works of many of its most important figures. Besides the inherent value of looking closely at the cultural moment of an important historical figure, the study of Dadaism has special relevance because of its timeless iconoclasm and spirit of creative experimentation. This class requires close readings of primary and secondary texts, as well as trips to area museums.

HAA 365 | ART SINCE 1975 | 4 quarter hours
(Undergraduate)
This course addresses visual art production of a global context from the end of the Vietnam War to the present. Taking postmodernism as its starting point, the nature of contemporary art practice will be examined as it is redefined by new technologies and media, such as video, installation, performance, and digital art, and through an investigation of critical theoretical models. Traditional media, such as painting and sculpture, will also be assessed as a crucial part of this shifting terrain. Major themes considered include questions of identity and subject formation, the relationship between art and its audience, changing notions of artistic value, and the impact of globalization. Throughout, students will be exposed to the issues and ideas relevant to cultural production today, while simultaneously developing the visual and conceptual tools for critically analyzing contemporary art.

HAA 366 | TOPICS ON WOMEN AND ART | 4 quarter hours
(Undergraduate)
This class considers both the history of women artists and representations of women from cultures around the world, from prehistory to the contemporary era. In addition, it will introduce feminist methodologies that can be applied to specific case studies, such as problems of biography for women artists, depictions of sexual violence in art, performing gender in visual images, feminist activist collaborations, and gendered spaces (the museum, cyberspace, architecture, etc.) Topics may vary term to term, depending on the instructor’s area of expertise.

HAA 370 | CONTEMPORARY ARCHITECTURAL THEORY AND PRACTICE | 4 quarter hours
(Undergraduate)
Study of contemporary debates in architecture and urban planning. This course explores economic, social, and political aspects of architectural theory through a case study of a contemporary monument or city plan.

HAA 371 | HISTORIC CATHOLIC CHURCH ARCHITECTURE OF CHICAGO | 4 quarter hours
(Undergraduate)
This course covers a selection of the jewels among the city’s architecturally significant Catholic churches and related sites of interest that date up to ca. 1920. The course encourages us to think about the sacred buildings as extensions of the city’s history, while emphasizing the contributions of its various immigrant groups. By thus using architecture and architectural history as the armature of this course, the student is able to explore the fascinating interplays between art, history, religion, and society, and come to terms with what culture does and signifies in one’s own milieu.

HAA 372 | CAIRO: MOTHER OF THE WORLD (WORLD CITIES) | 4 quarter hours
(Undergraduate)
This course will examine the urban development and architectural heritage of Greater Cairo, Egypt since the reconstruction of the fortress of Babylon in the Roman period, through the establishment of Cairo itself in 969, and until the present. Cairo has always been a crossroads of cultures, set between Africa, Europe, and the Middle East. It has been home to significant Jewish, Christian and Muslim populations who have been impacted by the various ruling dynasties who have held sway there, including the Byzantines, early Islamic rulers, Tulunids, Shi’i Fatimids, and later Sunni Ayyubids, Mamluks, and Ottomans. In the 20th century, rapid expansion has produced extreme pressures on transportation networks and housing. The solution to such problems of intense urbanization has been to build satellite cities including a projected new capital to the east that will connect the Nile to the Red Sea shipping industry, following in the footsteps of the past.

HAA 373 | KYOTO (WORLD CITIES) | 4 quarter hours
(Undergraduate)
This course explores the art, architecture, and urban plan of Kyoto, the ancient capital of Japan. Kyoto became the seat of government and the home of the imperial court in 794 CE, and it continued to serve as the cultural and religious center of the land until the nineteenth century. This course considers major artistic developments as they relate to main sites in Kyoto, especially palaces, temples, and shrines. The eras covered extend from the Heian to the Meiji period.

HAA 375 | MEXICO CITY (WORLD CITIES) | 4 quarter hours
(Undergraduate)
From its origins as Tenochtitlan, the preordained capital of the Aztec Empire, through its identification as a “new Rome” dominated by the Spanish Crown in the Viceregal period, to its status as the largest metropolitan area in the Western Hemisphere (and the second largest in the world), Mexico City was born to impress the imagination. This class explores the development of the great city of Mexico in light of major historical events and cultural expressions. Discussions will focus especially on urban planning, key architecture, outdoor sculpture, and public spectacles over the centuries.
HAA 376 | ROME (WORLD CITIES) | 4 quarter hours
(Undergraduate)
Few cities in the world match Rome for its antiquity, imperial heritage, historic, religious and cultural importance, spectacular art and architecture, and rich urban landscape. Traditionally believed to have been founded by Romulus and Remus, descendants of Aeneas, in 753 BCE, and subsequently ruled by Etruscan kings; Rome’s public buildings, communal baths, and fortifications suggest that Rome was urbanized as early as the sixth century BCE. After the expulsion of their Etruscan monarchs, Romans established the Republic, which evolved into the Roman Empire when Octavian, grand nephew of Julius Caesar, became Augustus, Rome’s first emperor, princeps or first citizen. Along with subsequent emperors determined to turn Rome into a magnificent city worthy to be the capital of a great empire, Augustus used architecture and the built environment as massive symbols of power, authority, and legitimacy. The Catholic Church embraced this lesson when the imperial pagan capital became the capital of Western Christendom and the seat of the papacy. This class explores the city of Rome from its ancient origins through the seventeenth century and focuses on the major art and architectural developments that define this unique urban space.

HAA 378 | HEAVENLY AND EARTHLY JERUSALEM (WORLD CITIES) | 4 quarter hours
(Undergraduate)
This class focuses on the city of Jerusalem. The uniqueness of Jerusalem stems from its status as a sacred place in Judaism, Christianity, and Islam. In this class we will explore the physical city of Jerusalem with its monuments, contested holy sites, and changing architecture. We will also analyze representations of the imagined heavenly Jerusalem, for which many believers intensely yearned. The class will focus on Jerusalem from the second through the sixteenth centuries: from its destruction by Roman armies to its last pre-modern construction phase during the Ottoman period. We will discuss how different religious groups mapped meaning and marked holiness in the urban fabric of Jerusalem. This class will consider some of the following issues: art and architecture, politics, religion, urban planning, and patronage.

HAA 379 | PARIS AND VICINITY TO CIRCA 1870 (WORLD CITIES) | 4 quarter hours
(Undergraduate)
This course is designed to explore the arts and architecture, and urban planning of Paris and its vicinity, from the period of the Old Regime to ca. 1870. This span more or less coincides with the art historical periods from the Renaissance to early impressionism. The course material weaves artistic works and projects into the greater cultural, political, and social fabric of the realm, and includes, among other outstanding personalities, the towering impact of Vincent de Paul, in order to expose the student to a variety of cross-disciplinary perspectives. Several class sessions are scheduled at the Art Institute of Chicago.

HAA 380 | CHICAGO ARCHITECTURE AND URBANISM (WORLD CITIES) | 4 quarter hours
(Undergraduate)
This course investigates contemporary historiographic debates and new archival evidence surrounding research on Chicago architecture and urbanism. In addition to participating in lectures and discussions, students also meet separately to discuss scholarly debates as well as their individual research proposals.

HAA 390 | SENIOR CAPSTONE | 4 quarter hours
(Undergraduate)
This is the culminating course of the art history major. Its project is twofold. On the one hand, it continues the critical thinking work of your previous art history courses, turning now to topics that define and occupy the field in general, rather than topics that define and occupy a specific period or geographical area and rather than topics related to methodology. These topics (such as cultural seeing, audience, material, the market, looting, etc.) will allow us to examine a variety of object and monument types in urban and non-urban settings from different cultures and different historical contexts. While some are of longstanding concern and others more recent, together they underscore art history’s inherent interdisciplinarity and the breadth of issues that affect the study of art and architecture. On the other hand, this course continues the writing and research work of a single previous art history course, facilitating the expansion of a paper of your choosing. This expansion will be accompanied by readings and staged assignments that are designed to deepen your existing argument, or to push it in new and complementary directions, and to tighten and clarify your prose and your use of textual and material evidence. The result will be a substantial and sophisticated treatment of an art historical object, monument, or subject. Formerly HAA 399.

Declared major in History of Art and Architecture and (senior status required or juniors with instructor permission).

HAA 391 | THE EVOLVING MUSEUM: HISTORIES AND CONTEMPORARY CHALLENGES | 4 quarter hours
(Undergraduate)
This course examines the history and philosophy of museums and provides a framework to consider how the museum’s role in society has changed over time. Compelling issues such as the museum’s responsibility as a public institution and ethical considerations in collections acquisition and stewardship will be discussed. Case studies, guest lectures, and site visits to museums will inform history and theory by highlighting current museum practice and contemporary challenges in the museum field.

HAA 394 | MUSEUM STUDIES INTERNSHIP | 4 quarter hours
(Undergraduate)
This course is a unique opportunity for students to gain valuable training in the museum field and work closely with professional museum staff on meaningful projects. Students will be matched with museum sites in consultation with the instructor. In addition to internship responsibilities, students will produce a reflective journal and document their field work in a digital portfolio. This course is designed for History of Art and Architecture majors and Museum Studies minors. Students should contact the instructor once they have registered for the class (at least three weeks prior to the start of the quarter) to discuss museum site placement.

HAA 395 | INTERNSHIP | 1-12 quarter hours
(Undergraduate)
To be arranged with the Career Center and in consultation with advisory. Junior or Senior standing and status as an Art, Media and Design major or Art minor or consent of instructor is a prerequisite for this class.

HAA 397 | SPECIAL TOPICS/HISTORY OF ART & ARCHITECTURE | 4 quarter hours
(Undergraduate)
Focused study on a specific topic from the history of world art.
HAA 398 | INDEPENDENT STUDY | 1-4.5 quarter hours (Undergraduate)
Independent work in the student’s field of study under faculty supervision. Available only to upper-level students with demonstrated capacity for self-motivated study.

HAA 400 | CHICAGO ARCHITECTURE AND URBANISM | 4 quarter hours (Graduate)
Chicago Architecture And Urbanism.

HAA 401 | GRADUATE TOPICS/HISTORY OF ART & ARCHITECTURE | 4 quarter hours (Graduate)
Graduate-level, intensively researched investigations into topics from the history of art and architecture taught by an instructor with a research specialty in that topic.

Graduate standing or department consent is a prerequisite of this class.

HAA 402 | DIGITAL MAPPING AND ART HISTORY | 4 quarter hours (Graduate)
This course explores the questions raised by digital humanities in art history through a specific focus on the digital mapping of art historical questions. Students will focus on advanced discussions of digital mapping but also apply these theoretical and methodological concerns to art historical problems. We will use the Harvard WorldMap program which is a complement to the more advanced GIS work available in the Geography component of the certificate. WorldMap is a tool that has both pedagogical and analytic potential for art history. Students will address the big issues in digital mapping while constructing maps around such art historical subjects as modern architecture in Chicago, women artists in Chicago, muralism in Chicago, and other select topics.

HAA 495 | ADVANCED TOPICS/HISTORY OF ART & ARCHITECTURE | 4 quarter hours (Graduate)
Advanced Topics in History of Art and Architecture.

Graduate standing or department consent is a prerequisite for this class.

**Art and Craft of Theatre (ACT)**

ACT 100 | POLITICS, POP CULTURE, AND THE STAGE | 4 quarter hours (Undergraduate)
Through the aesthetic analysis of plays, and dramatists that were foundational in the development of dramatic literature, the student is encouraged to develop basic critical standards for the understanding and appreciation of dramatic production. This course can be taken by non-Theatre School students.

ACT 200 | MAKING PLAYS: THEATER AND THE ART OF PRODUCTION | 4 quarter hours (Undergraduate)
Through lecture, discussion, projects and actual theatre attendance, students explore the human nature of the theatrical impulse and its evolution into theatrical form. Plays and readings deal with issues of gender identity, sexual orientation, and sexuality in performance. Students follow the process of specific drama productions from script to stage and examine the artistic process and the role that sexuality and gender play in performance and rehearsal.

ACT 209 | SKETCH COMEDY | 4 quarter hours (Undergraduate)
Live performances of sketch comedy present theatre in one of its most elemental forms. With a focus on actors and text rather than technical elements, stagings of sketch revues explore the relationship between audience and artist in a dynamic and revealing way. This course will explore both the theoretical underpinnings of comedy and the practical techniques for the creation of this work. The class will examine as literature this work that is often overlooked by critics and theorists because of its perception as a "low" art form.

ACT 213 | SCI-FI AND OTHER GENRE FICTION IN THEATRE | 4 quarter hours (Undergraduate)
Science Fiction, Horror, Fantasy, and Superhero as genres of fiction are prevalent in popular culture and successful (almost saturated) in Film, Television, Prose Literature, Graphic Novels, and other forms of storytelling media. Why, then, are they underrepresented in the world of the theatre? And why are the few more well-known examples of these genres in theatre so often unsuccessful, commercially and critically? How can these genres translate to the stage successfully? Which technical characteristics of the theatre and of the theatrical language of storytelling are advantages and disadvantages for bringing these genres to life, as opposed to the other media in which they are more prevalent and successful? This course will attempt to answer these questions by examining extant theatrical works of "genre" fiction and their financial successes and critical receptions. We will also examine critically-acclaimed pieces of "genre" fiction in other media to determine why those pieces were successful and how to translate that success to the stage.

ACT 215 | PLAYS ABOUT SPORTS | 4 quarter hours (Undergraduate)
There is a curious relationship between sports and theatre; that is to say, the inherent theatricality of sports and the inherent athleticism of theatre. A significant component in this relationship is the concept of performance and what that entails. We speak of high-performance cars and trucks, we applaud and then discuss, blog, and tweet (sometimes to an extraordinary degree) the performances of both athletes and actors, we talk about academic performance, we see performing seals, dolphins, and whales at Shedd Aquarium, a member of the clergy performs a wedding ceremony, and the list continues. A highly contested term, performance is bound to the team role as it relates to sports, theatre, and everyday life. What is your role on the team? What role were you cast in? What is your role in the company? The team role is aligned with function and also with the context in which the "role is played. More than anything perhaps, both sports and theatre deal with highly charged relationships. In the plays that we will examine in the course, it is the sport itself that serves as both the context of and trigger for the relationships that are created, strengthened, weakened, or in the worst-case scenarios, totally shattered.
ACT 216 | SCREEN TO STAGE | 4 quarter hours  
(Undergraduate)
There is a long and storied tradition of adapting plays to film. Glengarry Glen Ross, Chicago, A Few Good Men, Harvey, Romeo + Juliet - the list goes on and on. More recently, however, there has been a continuing trend in the opposite direction: major works of theatre, particularly Broadway musicals, are adaptations of films. This course will examine this trend from several angles. We will discuss some of the reasons for this trend, we will discuss the challenges inherent in translating work written for film to the techniques of the stage, and we will compare and contrast artistic, critical, and financial successes and failures of plays adapted from films.

ACT 217 | THE ART OF STORYTELLING | 4 quarter hours  
(Undergraduate)
Storytelling is one of our oldest art forms. By exploring stories in performance and writing, students acquire the tools necessary to sculpt and perform their own stories. Then, students discover how storytelling can be used in multiple applications - from marketing to change management to human resources to diversity training. Through discussion, projects, and viewing live and recorded performance, students understand the art and building blocks of good storytelling. Studying different forms will illuminate the connection between content and form. Stories have the power to change people and this class explores how and why.

ACT 223 | INTRODUCTION TO IMPROVISATION | 4 quarter hours  
(Undergraduate)
Improvisation for the theatre was originally developed as a means of bringing diverse populations of people together in a creative, non-competitive, environment. Improvisation for performance was developed by The Compass Players and The Second City and has influenced generations of theatre artists from Alan Arkin to Tina Fey. The essentials of improvisation, however, remain applicable to everyone. In this course, sessions will include theatre games, ensemble building exercises, and scene structures. We will explore how the practice of improvisation creates opportunities for connection, creativity, and spontaneity. This class is for anyone who wants to enhance their abilities to act and interact with others.

ACT 241 | ARE WE STILL FABULOUS?: QUEER IDENTITY IN CONTEMPORARY DRAMA | 4 quarter hours  
(Undergraduate)
Born out of ACT UP and the AIDS militant movement of the late 1980s and early 1990s, Queer Nation concerned itself with the issue of gay and lesbian enfranchisement and power. They created the battle cry, "We're here, we're queer, we're fabulous, get used to it," thereby granting the gay community ownership of the word "fabulous." Fabulosity not only became a new manifesto for queer politics and camp, but also became synonymous with irony, tragic history, defiance, gender-fuck, glitter, and drama. Currently, young playwrights have shifted the visor of gay drama from overtly political dramas to stories of identity and love. In replacing direct political messages with more personal appeals for social progress, is contemporary gay drama still fabulous? By interpreting and analyzing the most current queer plays, reading critical and reflective essays, and through discussion, students in the course will decide for themselves if "fabulous" is a thing of the past or stronger than ever in the present.

ACT 242 | STAGE DIRECTION FOR NON-MAJORS | 4 quarter hours  
(Undergraduate)
This course is designed to introduce students to the director's craft. The focus is on the director's relationship to text through the analysis of playscripts and the use of that analysis to plan an interpretation of a play. Analysis will come from a variety of perspectives--personal, psychological, social, and historical. In addition to preparing and presenting their projects, students will attend performances and write papers in response. The class combines lecture, discussion, group exercises, and in-class activities.

ACT 244 | DRAMATIC WRITING FOR NON-MAJORS | 4 quarter hours  
(Undergraduate)
This course is designed as an introduction to the process of playwriting. The emphasis is on the exploration of a range of techniques and tools available to the playwright. Through the completion and discussion of a series of writing exercises, the class will examine the various elements of playwriting. Particular attention will be paid to the connections between form and meaning. Work for the course will include weekly exercises, written responses to plays in production, and the presentation of projects. Instructional methods will include lecture, discussion, group exercises, and in-class activities. The final project of the class will be the completion of a draft of a 10-minute play.

ACT 250 | AMERICAN FUNNY: STAGE COMEDY FROM GROUCHO MARX TO TINA FEY | 4 quarter hours  
(Undergraduate)
We're a funny people. We like to watch people be funny. AMERICAN FUNNY is a survey course that looks at American comedy in theatre from the early 20th century to the present day. We view performances of plays on video, read and write about American plays and playwrights, and discuss what is special about going to the theatre. We explore a historical progression of comedy, different types of comedy, the development of the American Comic Hero, and how comedy brings us together as theatregoers and as Americans.

ACT 251 | STAGE TO SCREEN: CINEMATIC TRANSLATIONS OF THE DRAMATIC CANON | 4 quarter hours  
(Undergraduate)
It is almost always the case that audiences are introduced to the dramatic canon with cinematic translations of the great plays, rather than actual productions. In this course we will examine what elements theatre and film share as well as what elements one or the other medium possesses exclusively if any. What is lost or, indeed gained in cinematic translation? What is the notion of theatricality? What cannot be translated to the film? What societal elements come into play when translating a play for the screen? Socio-political and historical milieu of the original plays will be examined as well as those of the screenplays.

ACT 253 | THEME PARK THEATRE | 4 quarter hours  
(Undergraduate)
Theatre parks have become contemporary equivalents of the ancient Greek theatre festivals - places where the citizenry gather to revisit the myths and history of the community. While much has been written about theme parks from the perspective of cultural studies, urban planning, and commerce, little attention has been paid to their function as performance or theatre. In this class we will attempt to develop criteria for evaluating theme park attractions as works of art. How do theme parks fulfill or challenge traditional definitions of theatre? What is the relationship between audience and performer? Can/should theme parks aspire to do more than entertain? How are stories told physically and architecturally? How have theme parks influenced theatre and other art forms?
ACT 255 | ANGELS, PUNKS AND RAGING QUEENS: THE ECLECTIC QUILT OF AIDS DRAMA | 4 quarter hours
(Undergraduate)
Acquired Immune Deficiency Syndrome (AIDS) has left an indelible mark on both the history and culture of the world. While fear and loss can paralyze, they can also mobilize. In addition to destroying generations of artists, AIDS has become what some call “the great unifier,” giving voice to a new generation of theatre artists. But what are these voices? Cries for social change? Political rants? Stories of remembrance? Lessons to educate? All of the above? What does AIDS mean when it appears onstage in a performance? By interpreting and analyzing plays from both national and global AIDS perspectives, reading critical and reflective essays, and through discussion, students in the course will discover how the ritual of theatre has been used to create the eclectic quilt of voices that is AIDS drama.

ACT 257 | WRITING LOCALLY, THINKING GLOBALLY: INTERNATIONAL THEATRE FOR YOUNG AUDIENCES DRAMATIC LITERATURE | 4 quarter hours
(Undergraduate)
While writing and performing for their local communities, various international artists have made a global impact on the field of theatre for young audiences. This course is an investigation of the principles, procedures, and practices of theatre for young audiences playwrights and artists worldwide. Through analysis of readings, lectures, workshops, and discussions students will explore the skills and aesthetic techniques that theatre creators from around the globe use to communicate with their audiences. By examining historical, theoretical, and artistic intercontinental connections, students will hopefully gain further appreciation and understanding of the contemporary, global theatre for young audiences (TYA) field.

ACT 290 | ACTING AND PERFORMANCE | 4 quarter hours
(Undergraduate)
Students work on basic performance skills through individual and group exercises in acting, voice and speech and movement. Can be taken by non-Theatre School students.

ACT 300 | VOICE AND DICTION: FOR BROADCAST AND COMMUNICATION | 4 quarter hours
(Undergraduate)
Description: This course provides specific and constructive instruction on how students can improve their diction and voice quality. It is especially aimed at students who wish to pursue careers involving some form of voice work - for example, theatre and broadcast journalism students. The course will focus on improving vocal clarity and sound, through group meetings and individual coaching. This course is only open to Journalism majors who have completed the prerequisite of JOUR 330 or permission of the instructor.

ACT 301 | MODERN DANCE | 4 quarter hours
(Undergraduate)
This artistic dance course will focus on technique, individual and group improvisation, choreography, the art of making dances and how to view dance in performance. Designed for all levels of experience, the class will give attention to body awareness and alignment, physical strength and flexibility, expressive and creative movement in the modern dance style to a variety of musical accompaniment.

ACT 302 | MODERN DANCE II | 4 quarter hours
(Undergraduate)
This course is a continuation from Modern Dance for Non-Majors. The course focuses on technique, individual and group improvisation, partnering, principles of choreography, the art of making dances, and the skill of motivating feedback. Learning how to view and critique dance in performance, students will attend a selected dance concert to review. Class will include more advanced experiences with body awareness and alignment, physical strength and flexibility, expressive and original movement in the modern dance style to live percussion accompaniment. Students with previous training who haven't taken PRF 301/ Modern Dance I may contact the instructor for permission to enroll in Modern Dance II.

ACT 380 | ADVANCED ACTING AND PERFORMANCE | 4 quarter hours
(Undergraduate)
This course is a continuation of PRF 290 and will allow students who have completed the introductory course further exploration in performance by applying basic acting skills to the presentation of short plays and scenes from modern dramatic literature. PRF 290 is a prerequisite for this class.

ACT 500 | VOICE AND DICTION: FOR BROADCAST AND COMMUNICATION | 4 quarter hours
(Graduate)
This course provides specific and constructive instruction on how students can improve their diction and voice quality. It is especially aimed at students who wish to pursue careers involving some form of voice work - for example, theatre and broadcast journalism students. The course will focus on improving vocal clarity and sound, through group meetings and individual coaching. This course is only open to Journalism majors who have completed the prerequisite of JOUR 330.

Arts and Ideas (AI)

AI 107 | BUDDHIST MINDFULNESS MEDITATION | 2 quarter hours
(Undergraduate)
This 5 session (2 credit hour) course introduces theories and practices of mindfulness meditation from Buddhist traditions. It explores how mindfulness meditation can enhance collaboration learning, address the fundamental ethical challenges of contemporary life, and relate to work experience. Class sessions will involve practice in mindfulness meditation. Students will be expected to maintain and reflect on a daily mindfulness meditation practice for the duration of the course. The assessment of learning will be based on class participation and weekly reflection papers.
AI 108 | INTERNATIONAL RELATIONS: WEAPONS, WARS AND A WORLD IN TURMOIL | 2-6 quarter hours  
(Undergraduate)  
Today, world politics is making an unpredictable turn and undergoing an historical transition. International relations in the 21st century are more complex and facing more pressing global challenges than the previous century. While the Western nations have enjoyed unparalleled prosperity in recent years, developing nations, mired in debt, burdened in poverty, riddled with diseases ranging from malaria to AIDS, plagued by wars and genocide, are struggling to overcome crisis. This course will examine the role of nation-states, international organizations like the United Nations, international law, international crimes court, treaties, and root causes and functions of war and peace in the making of foreign policies that have shaped and reshaped the relationships among nations. We will also focus on ethics in the context of a number of issues and practices in international relations ranging from global inequality, the promotion of human rights, foreign aid, immigration/forced deportation, humanitarian intervention, to terrorism, genocide, war crimes, and the use of torture. Bridge Course. Can be taken for up to 3 competences. (2-6 quarter hours)

AI 115 | THE CULTURE OF CHRISTMAS | 2 quarter hours  
(Undergraduate)  
This course will use examples of contemporary writing and popular art as our windows into the changes to 19th century Christmas Culture. We look at the influx of immigrant Christmas tradition (which in both cases involves the redefinition of the Christmas celebration) as a way to define the rich selection of cultural choices. We look at the social setting of the wealthy vs. the poor and the urban dweller vs. the settler to see how these affected Christmas practices. (2 quarter hours)

AI 121 | ART AND MEMORY: SCRAPBOOKING | 2 quarter hours  
(Undergraduate)  
Art is appreciated in various forms. In homes all over America, dining room tables are filled with tiny metal hearts, pictures of adorable toddlers, bags of stickers, and 500 varieties of lettering. Scrapbooking is one of the nation's fastest growing artistic leisure time activities. Millions of dollars are invested in this peculiar pastime that focuses on not only recording family events, but making them pretty as well. Most of us do not consider ourselves artists, but give us a pair of scissors and some fancy paper and we will create an artistic masterpiece! Students in this experience will learn about the history of scrapbooking and will begin the process of decoding the relationships of creativity, art, and craft in this pursuit that is sweeping the nation. Topics will include the definition of scrapbooking and its development in American culture; the ways in which art and craft intersect in the scrapbook; how to get started with a scrapbook; the nature of creativity and its impact in scrapbooking; and the construction of meaningful works of art and craft. This course will meet on campus and online via D2L. (2-4 quarter hours)

AI 143 | ROOTED IN THE CITY: WRITERS & WRITING IN CHICAGO | 2 quarter hours  
(Undergraduate)  
Who are the writers rooted in Chicago? What were and are their concerns, themes, styles? How can they teach us about the city, but also about writing? In this class, students will read, discuss and write about work written by such Chicago writers as Nelson Algren, Gwendolyn Brooks, Stuart Dybek, Sandra Cisneros, Studs Terkel, Marc Smith, and Mike Royko. We will consider the nature of civic engagement and creativity in the literary arts, as well as pay close attention to the formal elements of the poems, short stories, and essays read in this class. We'll also explore how these texts compel us to think about power and its circulation in cultural as well as social contexts. (2-4 quarter hours)

AI 147 | ETHICS: HOW GOOD PEOPLE MAKE TOUGH CHOICES | 2 quarter hours  
(Undergraduate)  
Through life's many lessons, we have learned how to make a decision between what is the right thing to do and what is simply wrong. We can differentiate between good and evil, truth and lies, etc. However, most of our dilemmas do not stem from deciding the correct path, when we are faced with right and wrong decisions. What most often puts us into a quandary is deciding between what is right and what is right. In other words when good people are faced with tough choices, on what basis do they make their decisions? In an era of perceived ethical incertitude and moral skepticism, students will examine how decisions are made based on one of many ethical systems. Students will learn about various ethical systems, and ethicists, such as utilitarianism, deontology, Kant, Aristotel, and Gillian, just to name a few. By the end of the course students should be able to apply their knowledge of moral, ethical and social issues, and have a better understanding of how the tough decisions they make could impact others. (2-4 quarter hours)

AI 152 | EXPLORING THE ART MUSEUM | 2 quarter hours  
(Undergraduate)  
Museums have been a respected and trusted measurement of artistic accomplishment. In this course, the student will examine the museum's role as collector, conservator and educator. The student will investigate the traditional role of the art museum, its collection, practices and programs as well as its efforts to integrate new media into its collection. The course also investigates repatriation, which is the ownership of ancient and cultural heritage and other issues that affect the museum such as censorship and funding. Finally it will look at how we value art as a commercial commodity. (2-4 quarter hours)

AI 153 | THE ART OF SPEECHMAKING | 2 quarter hours  
(Undergraduate)  
In this class, students will use tools based in the imagination, principles of design, and standard dramatic practice to create a unique, personal experience for an audience. Speech, whether we call it dramatic or declamatory, has the potential to move the masses. In this course, you will develop a personal approach and construct effective presentations that harness the power of their voice and body. (2 credit hours)

AI 155 | ANALYZING LEADERSHIP | 2 quarter hours  
(Undergraduate)  
This course provides a framework from which to identify and analyze leadership. Leadership occurs in all aspects of life, including: business, politics, sports, society, religion, family, education, and culture. But what is leadership? The Merriam-Webster on-line dictionary defines leadership as "the act or an instance of leading," which provides us with little insight. On further investigation, however, the dictionary defines "lead" as [guide] on a way especially by going in advance. Where there is a leader, then, someone or something must follow. This course first explores the interrelationship between a leader and his or her followers and looks at the effect they have on each other. "Good" leadership traits (i.e., effective) and "bad" leadership traits (i.e., ineffective) are then studied from the perspectives of the leaders, the followers, and outsiders. Finally, this course takes a look at leadership from an international perspective. (2-4 quarter hours)
AI 157 | ENGLAND: CATHEDRALS, A PILGRIMAGE | 2-4 quarter hours (Undergraduate)
The inspiration and faith which combined to produce the magnificent cathedrals in England are worthy subjects of study for students of art, history, architecture and religion. This Spring Break study abroad course brings students to some of the most important cathedrals in the world to provide opportunities for such important study. On this program, participants will gain valuable understandings of religion, art, and culture as they simultaneously engage with present day British culture and attempt to unravel its rich and complex past. SNL Students must register for three to four competencies between the two quarters. For more information, please visit the study abroad website or contact the instructor. (2-6 quarter hours)

AI 160 | IT’S ONLY ROCK AND ROLL: MAKING MUSIC THE OLD FASHIONED WAY | 2 quarter hours (Undergraduate)
For many, music is an integral part of everyday life. It is also deeply ingrained in most cultures. Music is used by individuals, businesses and societies to entertain, soothe, excite, and arouse. Music is basically a series or combination of pleasing sounds but how is music made? How do we know what is pleasing and what is not? The answers to these questions and others demonstrate that music is also a field where science and art meet. In this class, we will explore how sound is physically created and how specific sounds have been turned into music over the centuries. Through experimentation, we will examine the physical and mathematical properties of sound and musical instruments. We will also create simple musical instruments and share the experience of creating musical pieces. No musical experience is needed to take this class. (2-4 quarter hours)

AI 164 | CREATIVITY | 2 quarter hours (Undergraduate)
What is creativity? Where does it come from? Do we all have it? Can we cultivate it? These questions and more will be explored as we define the concept of creativity; identify, analyze, and describe the components of a creative process in varied fields; and, explain how engaging in a creative process affects our perception of the world. (2-4 quarter hours)

AI 166 | ART AND MEMORY SCRAPBOOKING II: THE ART JOURNAL | 2 quarter hours (Undergraduate)
This is the second course on the art and craft of scrapbooking offered in the SNL curriculum. This course focuses on a specific aspect of the scrapbooker’s art, the production of embellished personal diaries. Throughout this experience, students will critically examine the artistic aspects of journaling and collage artwork, investigate movements in the art world, chronicle events in their lives through photographs and narrative, and create works of art and craft that illustrate the experience. This is a hands on art making course. While faculty will discuss various techniques and information about assessing works of art and putting them in the context of art movements, students should expect to be introduced to art making materials and to use them during class time. (2-4 quarter hours)

AI 172 | MAKING POEMS: AN INTRODUCTION TO VERSE | 2 quarter hours (Undergraduate)
Making poems will be a creative writing offering that teaches metrics and verse forms, poetry the old-fashioned way. Topics will include metric feet, rhyme, lines, and verse forms. For example, students will learn about the iambic foot, write some iambic lines of various lengths, and finally use the iambic line to write a sonnet. Rap poetry with its structured rhythms and elaborate rhyming is another possibility. This “formalist” approach promotes a kind of creativity that is strongly infused with craft and discipline in contrast to the “spoken word” or confessional approaches to making poems. This class involves making audio recordings of your poems; students will be required to purchase a headset/microphone and download and install free software. (2-4 quarter hours)

AI 181 | CREATING ORIGINAL DIGITAL ART | 2 quarter hours (Undergraduate)
The course will focus on electronic visual art, and because of the amount of material to be covered, will not include audio or animation art. Student will look at what constitutes “art”, then look at how original art could be created using technological tools, such as Microsoft Paint, Pixel-based art, such as Microsoft Graphics in PowerPoint; Digital Photography and PhotoShop; digital short-movies, and Digital Animation using Freeware GIF Animation software. (2-4 quarter hours)
AI 183 | THE 1960S | 2 quarter hours
(Undergraduate)
The decade of the 1960s was a watershed period in the social, cultural, and political history of the United States. This course will examine the era from a variety of viewpoints in order to promote student understanding and analysis of key movement, episodes and personalities. The course will include investigation of John F. Kennedy's "New Frontier", The Cold War, The Space Race, the Civil Rights and Women's Liberation movements, Lyndon Johnson's "Great Society", the Vietnam War, popular culture, literature, student unrest, and the realignment of traditional political voting blocks. In addition, the course will demonstrate how the decade's music mirrored the changing times. (2-4 quarter hours)

AI 185 | THE BEATLES AND THE CREATIVE PROCESS | 2 quarter hours
(Undergraduate)
The Beatles are significant in many ways: they were an unprecedented show business phenomenon; they were leaders of Sixties cultural rebellion; and they stand, for many, as a signal instance of popular entertainment attaining the status of high art. This course will examine the musical craftsmanship of the Beatles, focusing on their work as songwriters and record makers. Recent audio and print releases documenting the group's performing and recording history provide a unique and detailed glimpse of the Beatles' creative process. We will utilize these materials to closely trace the development of the group's work while using other resources to place it in a larger historical and cultural context. The goal is to shed critical light on this recent chapter in cultural history. That discussion will, in turn, highlight questions about creativity in a modern context where commerce vies with art, technology redefines performance and an emerging global village culture transforms concepts of originality and tradition. (2-4 quarter hours)

AI 187 | CAREERS IN THE HELPING PROFESSIONS | 2 quarter hours
(Undergraduate)
This course will help you, the learner, identify which career path best fits your strengths, skills, and interests, as you pursue your desire "to help people" It will also better prepare you for graduate and/or professional training by familiarizing you with the admissions process for various schools in the helping professions (e.g. social work, psychology, counseling, etc.) (2-4 quarter hours)

AI 190 | AFRICAN AMERICANS IN THE ARTS | 2 quarter hours
(Undergraduate)
The arts provide a lens through which we can more completely see, hear and understand the magic, mystery and challenge of the human experience. The story of African Americans in this country is one of perseverance and transformation. In this course, students will explore how the social, political, historical and cultural journey of African Americans is reflected in the production of art. African Americans have a specific perspective on the American national experience. Where would America be without the artistic contributions of the African American cultural community? Furthermore, how does art make our lives better? Does it? In this course, learners will research, analyze, and define African American art and arts and assess their impact on culture. Arts such as theatre, literature, music, and visual and media arts will be discussed. Students should expect to attend several cultural/artistic events throughout the term. These might include poetry readings, musical concerts, theatre, gallery visits, and other local events. (2-4 quarter hours)

AI 192 | IMPROVISATION | 2 quarter hours
(Undergraduate)
Students will learn the games that form a context with which, or from which, to improvise. Then they will improvise; they will play in their own and in each others' improvised sketches. They will learn to solve problems, find metaphors and examine improvisation as an excellent tool with which to monitor the process of learning. From the engagement in games and their analysis will come the most important outcome: the growth of confidence. (2-4 quarter hours)

AI 193 | LANGUAGE AND POLITICS | 2 quarter hours
(Undergraduate)
The language that individuals and groups use to tell their stories creates their identities. This multi-disciplinary course examines how post-modern language, especially language in media, frames national and global politics and its underlying power relationships. Issues addressed include the politicization of language in the U.S. immigration debate and the role that English as global lingua franca plays in spreading American culture as well as the subsequent effects on self-expression in English among native speakers via political correctness, forbidden speech and code words. Other topics include gender roles, intellectual property rights, and even the overall need for virtually ceaseless verbal stimulation in a media/image driven world. Students will utilize intercultural communication theories to reflect upon their self-identity and its role in defining their relationship to their communities and institutions and will expand outward to understand national and ethnic identities from a global perspective. Students examine current events in the media and the ethical implications language-related biases impose upon discourse while using the Internet to create their own presentation about the topic. (2-4 quarter hours)

AI 196 | WRITENOW:SNL WRITING MARATHON | 2 quarter hours
(Undergraduate)
Anne Lamott said that the most important ingredient for writing is the act of "sitting". In this course, students will focus on this seemingly simple act of the creative process. The focus of the course is on the generation of written material: the quantity rather than the quality. As such, students choose their own fiction or nonfiction writing topic(s) and project, and may use the material they create in a later effort (ILP, AP, etc.) To kick off one session, a group of professional writer panelists will reflect on their own creative processes as they have developed their latest works. (2-4 quarter hours)

AI 200 | GUIDED INDEPENDENT STUDY: ARTS AND IDEAS | 2 quarter hours
(Undergraduate)
Guided Independent Study: Arts and Ideas (2 quarter hours)
LL 250 is a prerequisite for this class.

AI 202 | LONDON ALIVE: IN THEATERS, MARKETS AND MUSEUMS | 2-4 quarter hours
(Undergraduate)
Join SNL in London for a course about performance and representation. Theater, live performance, museum collections and street markets are integral parts of English cultural history; they also represent Britain's international heritage. London theaters celebrate English history, culture and language, and carry the banner of the English artistic imagination into the future. London's museums make it one of the most visited cities in the world for the range of its collected artifacts and images. Outside the theater and museum doors, markets teem with life, creating a magical intersection of past with present and future, of art with life and politics, of cultural stasis with social change. (2-6 quarter hours)
AI 203 | ART AND TRANSFORMATION | 2-4 quarter hours  
(Undergraduate)  
What is the difference between change and development? Between action and inspiration? Between mobility and transition? Between planned change and transformation? If you can answer all those questions, try this: What is the difference between the creative contributions of painter Leonardo da Vinci and CEO Walter Isaacson? This course explores how art can serve as a guidepost during key phases in the adult experience, especially those involving transition periods like healing, growth, and personal and professional change. Students look at cases of major change agents throughout history who became catalysts for cultural transformation in part because of the impact of important works of art. The students will engage with diverse examples of art that have influenced important thought leaders and change agents of the past and present to become catalysts for major transformations in the human experience. Students will learn how significant products of the creative process can be seen both as a learned skill and as an exploration of our intuition. We will explore the role of creativity in the development of entrepreneurial skills and the entrepreneurial personality. Creativity in this course will be seen both as a learned skill and as an exploration of our intuition. Contemporary ideas about creativity are often tied to images of the past—from mad scientists to mystical muses. But modern science tells us something else about the creative mind. This course will explore contemporary approaches to the creative process based on the human capacity to imagine, to explore and ultimately, to create. These are core skills for anyone in pursuing a career as an entrepreneur, or simply in search of ways to explore innovation. In this course, we will examine the ideas of three major thinkers form the world of creativity, disruption and entrepreneurship. We will then explore where these ideas converge on topics including, risk, the random, intuition and innovation. (2-4 quarter hours)

AI 204 | CREATIVE ENTREPRENEURSHIP | 2 quarter hours  
(Undergraduate)  
IPads. Smart Phones. The automobile. These are inventions, once unknown and now taken for granted, required years of imagining, experimentation and unconventional thinking. While we value the end of the process (the product), we are often uncomfortable with the creative/creating process. The process of imagining, conceptualizing and articulating this ‘new? requires skills we often label ‘creative?. This class presents multidisciplinary examples of literature (poetry, fiction, essays, memoir), as well as film and other visual arts. Students will consider art both from the perspective of the artist him/herself as well as that of major thought leaders and change agents whose contributions to society have been motivated by an engagement with art that acted as a catalyst for system shifts in areas of-personal and cognitive growth, cultural and political change, as well as the transformation of the world of work in the 21st century. Ultimately, this course is an investigation of art itself as a change agent that has much to tell us about the past, the present, and ourselves. (2-4 hours)

AI 205 | ART AND PERSONAL TRANSFORMATION | 2 quarter hours  
(Undergraduate)  
In this course we will screen and discuss select noir films and develop skills of viewing and analyzing them closely. Highlighted topics will include the concept of genre in film; the relationship of genre codes to creativity; the dynamics of form and content; the tension between commerce and art; the author theory; psychologies of the divided self; representations of masculinity and femininity; and the question of what these films say about American society, post-World War II. (2-4 quarter hours)

AI 206 | ART AND CULTURAL TRANSFORMATION | 2 quarter hours  
(Undergraduate)  
The United States is the largest incarcerator in the world. Is this because we have more crime? More criminals? In this course we will explore questions about the prison industrial complex and the justice system through the words of incarcerated and formerly-incarcerated writers. We will be looking at poetry, short stories, essays, and memoirs. Employing a mix of discussion, guest speakers, film, class team reports, and close readings of the literary texts, this course will take us on an imaginative journey into a world most of us have few reasons to understand. We will explore questions about the prison industrial complex and the justice system through the words of incarcerated and formerly-incarcerated writers.

AI 207 | THE LITERATURE OF INCARCERATION | 2 quarter hours  
(Undergraduate)  
This course explores the tension between the individual and the institution in theory (through books and films) and practice (through participation in collaborative groups) and offers the student real tools for working with integrity inside the corporate culture. Using current events as a modern morality play upon which to turn the lens of historical and contemporary analysis, we will ask of ourselves what it means to be a good and ethical citizen. This course will enable students to recognize the inherited belief systems and their contradictions which have fueled the moral crisis of the last decade. (2-4 quarter hours)

AI 208 | ETHICS AND IDENTITY : THE PRESSURE OF INSTITUTIONS ON INDIVIDUALS | 2 quarter hours  
(Undergraduate)  
Jane Austen must have known something about universal truths. Her novel, Pride and Prejudice, which begins with the sentence quoted above, was first published in 1813. Still in print today, it has also been made into at least eleven movies, four of which were released since 2000, including a Mormon and a Bollywood version. In this class, we will read the novel in the context of the gender and class norms at the time Austen wrote her book and then consider how Austen’s exploration of universal truths is reinterpreted in more contemporary film versions of this novel. In exploring Austen’s creation and the many reinterpretations of her work, we will use both analytic and creative writing assignments as well as class discussion to examine how context informs creativity and how creativity informs analysis. You most definitely do not need to be a creative writer to take this class. (2-4 quarter hours)

AI 209 | FILM NOIR | 2 quarter hours  
(Undergraduate)  
In this course we will screen and discuss select noir films and develop skills of viewing and analyzing them closely. Highlighted topics will include the concept of genre in film; the relationship of genre codes to creativity; the dynamics of form and content; the tension between commerce and art; the author theory; psychologies of the divided self; representations of masculinity and femininity; and the question of what these films say about American society, post-World War II. (2-4 quarter hours)
AI 217 | MINDFULNESS MEDITATION | 2 quarter hours  
(Undergraduate)  
Mindfulness meditation provides many different ways to broaden our awareness of the world around us, heighten our powers of concentration, deepen our understanding of our experience, and cultivate creative and transformative ways of being in the world. Many approaches to mindfulness meditation draw on ancient religious and spiritual traditions from around the world. So mindfulness meditation is compatible with and can enhance whatever religious or spiritual commitments you may have. But mindfulness meditation does not require religious or spiritual interpretations. It can be practiced as a very powerful path to becoming a creative, healthy and effective adult. In this course, you will learn what mindfulness meditation is and various ways in which it can be practiced. We will explore in particular how mindfulness meditation can enhance creativity, address the ethical challenges of contemporary life, and foster collaborative learning. Class sessions will involve extensive practice in mindfulness meditation, listening and dialogue. You will be expected to maintain and reflect on a daily mindfulness meditation practice for the duration of the course. (2-4 quarter hours)

AI 225 | GREAT MUSIC IN CHICAGO | 2 quarter hours  
(Undergraduate)  
The course introduces people to three of the most exciting and rewarding institutions in Chicago music: the world-famous Chicago Symphony Orchestra at Symphony Center downtown; the fabulous training orchestra of the Chicago Symphony Orchestra, known as the Civic Orchestra, also downtown; and live top-name jazz at the Jazz Showcase. We learn the background of these institutions, the nature of the arts they perform, and the terms used to describe and appreciate those forms. Most importantly, we experience, in person, the great music that they play! (2-4 quarter hours)

AI 232 | THEATER IMPROVISATION | 2 quarter hours  
(Undergraduate)  
In this course we will play on the classroom stage as we might have played on the playground as kids. The difference between these forms of play is one of degree rather than one of kind. A theater game provides a structure in which we can play spontaneously. In other words, we improvise. Improvisation aids in the developing of public speaking skills and comfort and confidence as well as other social and theatrical skills. May be taken for only one competence. (2-4 quarter hours)

AI 239 | DANCE AS EXPRESSION OF CULTURE: SALSA DANCING | 2 quarter hours  
(Undergraduate)  
Ever since the foundational work of Margaret Meade in the 1950s, cultural anthropologists prefer to leave the library and go into the field to experience a new culture by engaging with its language, arts, and/or customs. People who travel to new places and respond to the local art in its natural setting know the power of experiential engagement with another culture. This course offers students a similar opportunity to embrace and express the values of other culture in an enjoyable way but without the need of a passport. Since the beginning of recorded history and almost certainly before, cultural groups around the world have produced some sort of rhythmically structured physical movement, often but not always set to music, in order to express essential things about themselves and their values. Dance is one of the oldest of art forms. As an eternal and universal mode of expression, dance is one of the most powerful conduits for cultural values. In this class students will be exposed to forms of the art of salsa dancing and the Latin American cultural contexts that produced those forms. They will study and also express the values of the cultures that gave us salsa as they participate in culture infused medium of dance. (2-4 quarter hours)

AI 247 | STAGE IMPROVISATION AND GAME PLAYING | 2 quarter hours  
(Undergraduate)  
Improvisational comedy is social commentary or personal expression made immediate by spontaneous dramatization. Students will learn the games that form a context with which, or from which, to improvise. Then, they will improvise; they will play in their own and in each others’ improvised sketches. They will learn to solve problems, find metaphors and examine improvisation as an excellent tool with which to monitor the process of learning. Additionally, students will acquaint themselves with the history of this freest of forms. From the engagement in the games and their analysis will come the most important outcome: the growth of confidence. (2-4 quarter hours)

AI 252 | ETHICS FOR TODAY’S SUCCESSFUL BUSINESS MANAGER | 2 quarter hours  
(Undergraduate)  
This course will provide students with a foundation that will help them deal with ethical issues arising in business today. It will first provide an overview of where ethics fits within philosophy, examine some of the important ethical frameworks, and describe how to apply them. It will then describe “best practices” for how companies and managers can excel in today’s business climate, and illustrate them via relevant corporate examples. All of this will provide students with the skills they need to deal with ethical issues as managers. (2-4 quarter hours)

AI 254 | RESISTANCE DURING THE HOLOCAUST AND WORLD WAR II | 2 quarter hours  
(Undergraduate)  
This course explores the history of the Holocaust in the context of the Second World War (1939-1945) with a central focus on examples of resistance to discrimination, fascism and oppression. We will explore varied forms of opposition including armed resistance, spiritual resistance, resistance through writing and identity preservation. We will read autobiographies, view documentary and dramatic films, and use museum resources to develop our understanding of resistance. Required activities include a visit to the Illinois Holocaust Museum and Education Center (Skokie, IL). We will also consider the implications of this history for making ethical choices in our world today. (2-4 quarter hours)

AI 255 | SELF EXPLORATION: INSIDE OURSELVES, OUTSIDE WITH OTHERS | 2 quarter hours  
(Undergraduate)  
Exploring the self can be a very personal and satisfying experience, but can also provide clues as to how you interact with others, accomplish daily tasks and how to become a more happy, productive and respected individual. Students engage in self reflection in a collaborative learning format where they learn about themselves, share the process with a learning partner and observe the trends and conclusions of the class. Topics to be explored include family origins, gender perspectives, personality traits and development, self awareness and identity, creativity, and professional and moral perspectives. This course will operate in a blended hybrid format with meetings that link students in the classroom with others through live video interaction. You will have the option to attend either on campus or online for the five scheduled bi-weekly meetings. In addition, participation in the online discussion forum is required. This course is cross listed as CCA 255 and AI 255. (2-4 quarter hours)
AI 256 | WORKPLACE AND PROFESSIONAL ETHICS | 2 quarter hours (Undergraduate)

This hybrid-learning course is open to all DePaul undergraduates. It provides a thorough grounding in the theoretical and applied nature of work-based ethical decision-making. We engage the tenets and assumptions of four major ethical perspectives, using them to examine the meanings and implications of morality in professional life. Using the tools of reason, we investigate obstacles to ethical decision-making in one's and others' professional behavior, and apply our learning in the writing of a personal ethical code. (2-4 quarter hours)

AI 257 | ENGAGE FOR CHANGE: GET INFORMED, INVOLVED AND CONNECTED | 2 quarter hours (Undergraduate)

Name your cause. Whether it is the death penalty, reproductive rights, cancer advocacy, heart disease, homelessness, social security, welfare reform, marriage equality or the environment most people would like to see the world change in some way. The reality is that not everybody has found a way to engage in their community and make their voice heard. Students will engage in personal and collective reflection to explore their own learning styles and the experiential learning process. They will learn how everyday citizens can organize to make sure the issues that matter to them can be addressed at city, state, and national levels. The course will utilize speakers, discussion, learning journals, readings, action assignments and small group exercises to provide an environment where students can explore their own beliefs and perspectives on social change, democracy, citizenship and the process of government in the United States. (2-4 quarter hours)

AI 260 | APPROACHES TO CREATIVE WRITING | 2 quarter hours (Undergraduate)

For writers, no matter how new or experienced they may be, there's always a need to "self-renew". Every blank page is an invitation to enhance one's writing asset, for with each blank page or new assignment the writing process begins again. What, then, are the tools successful writers use to enhance their writing abilities, sustain their momentum, refresh their creativity and renew their resolve? What writing tools are better suited for creative writing, business writing, journaling, or memoir? What tools do we already have that may only need repurposing or remembering? (2-4 quarter hours)

AI 267 | THE EXAMINED LIFE: A QUESTION OF PHILOSOPHY | 2 quarter hours (Undergraduate)

The unexamined Life is not worth living" exclaimed the Greek philosopher Socrates, setting the tone for philosophical quests that have shaped our thought and civilizations. "Neither is the examined one," retorted German philosopher Schopenhauer 2,300 years later after surveying the prospects of the modern world. This course will outline the philosophical tradition of rational thought that stretches in between these thinkers. Students will focus on how the great thinkers and traditions East and West considered ethical, metaphysical, epistemological, political, and aesthetic problems. And they will engage in a philosophical examination of their own life and beliefs. (2-4 quarter hours)

AI 271 | THE ART OF PAPERMAKING | 2 quarter hours (Undergraduate)

Paper is everywhere. We use it to read about the latest news, to wrap birthday presents, and to leave ourselves little sticky reminders. You can find paper almost anywhere and chances are, you have a lot of it lying around your house, lurking in drawers and clogging up your recycling bin. It is one of those commodities that we take for granted. Can paper be art? Can it be the result of creative thinking? Can it be beautiful? Learners in this experience will learn about paper and its history, and will participate in the ancient art of papermaking. While examining the definitions of art and creativity, students will experiment with papermaking techniques, and will create their own works of paper art. The Art of Papermaking focuses on creative processes and art making. This will be, necessarily, an experiential process. Most of the class time will be taken up with experimenting with art materials and with employing the roles of color and design in works of art. Students should prepare by wearing old clothes to class and should expect to get their hands dirty. (2-4 quarter hours)

AI 276 | CREATIVE INK: THE ART OF WRITING | 2 quarter hours (Undergraduate)

This course will carry students through a series of creative writing experiments aimed at stimulating their imaginations and discovering their literate voices. Students will be exposed to a variety of techniques for story writing, poetry, and avant garde experiments. The course will combine in-class group writing and critical sessions, and individual consultation with the instructor for personal development. Students will also learn how to find outlets for their completed creative work. (2-4 quarter hours)

AI 277 | THE UNDERGROUND RAILROAD | 2 quarter hours (Undergraduate)

This course will draw from national and regional resources to explore ways of knowing in the liberal arts about the Underground Railroad. The learning experience will include a field trip to a local museum, virtual field trips, films, museum catalogs and other readings, collaborative learning projects, and guest presentations. Students will create poster presentations or other visual products to illustrate their learning about Underground Railroad and write interpretative papers to accompany them. (2-4 quarter hours)

AI 278 | THE LITERATURE OF INCARCERATION | 2 quarter hours (Undergraduate)

The U.S. incarcerates well over 2 million people. Proportionally, no other democratic country in the world comes close to this level. Locked away, out of sight and hearing from most of us, this population of women and men is represented by the media in lurid, predatory images. The writing that has emerged from prisoners paints an altogether different picture, however. In this class, we will study several literary texts—short stories, essays, poems—written by women and men who have been or are currently incarcerated. The class will be offered for one competence only and will meet the first five weeks of the quarter. (2 quarter hours)
AI 282 | LEISURE FOR WELL-BEING | 2 quarter hours  
(Undergraduate)  
The pursuit of happiness for most people is an important aim in life. A personal feeling of well-being includes "emotional happiness" and the rational satisfaction with one's own life. In this course you will attempt to define the term "well-being" and discover its relationship with other concepts such as mental health and life satisfaction. How does physical exercise influence well-being? How do positive and negative life events influence well-being? Do good social relationships guarantee happiness? Do the expectations one has in life with regard to income influence well-being? Is it important to set goals to achieve a high level of well-being? These and other questions will be addressed in this course. You will try to define some of things a person can do to increase his or her level of well-being. Others' ideas serve as common course content, as presented in the material assigned to this course. You will be asked to participate actively and critically, to work individually and in study groups, using your own experience as a field of analysis and reflection. Active group participation will foster a harmonic, interactive environment, which might increase positive relationships among students and foster a feeling of well-being throughout this course. (2-4 quarter hours)

AI 284 | THE BRAVE NEW WORLD OF MARKETING COMMUNICATIONS | 2 quarter hours  
(Undergraduate)  
This course will help students understand and successfully navigate through the brave new world of marketing communications and advertising: a world of segmented audiences, fragmented media channels, technology and interactivity, online communities, and on-demand media, where brand building has emerged as a business imperative. Students will learn which principles of traditional marketing communications are in, which are out, and the new ones that have emerged. We will read books and articles and examine the internet, e-commerce, experiential marketing, consumer-generated content, branded entertainment, search, music and mobile channels. Through the process of creating marketing communications programs utilizing these channels, students will also gain skills in collaborative learning and creativity. Competencies Offered: A5, H2G, S3F, FX (2-4 quarter hours)

AI 285 | WORK, PLAY, REST: NAVIGATING COMPLEXITIES OF ADULT LIFE | 2 quarter hours  
(Undergraduate)  
Adult life has become complex. We are increasingly bombarded with more and more expectations - from family to school, at work, at home, and online. In our modern lives, we strive to maintain work, play and rest in separate realms, within which we work hard, play hard, and even rest hard, all in the hope of finding balance. Work can invade play, and we might find ourselves sacrificing rest for either one. How can we shift the paradigm of separateness we have sought to maintain, and find better ways to navigate these complexities? In this course, students will explore how stress is held in the body through engagement in easy and creative movement/storytelling expressive practices. Through individual and collaborative work and a study of mind-body approaches, students will also be guided toward cultivating practices for gaining/regaining balance and wellbeing. The goal is for students to emerge with new and self-directed models for navigating the complexities of adult life that they can carry forward beyond the class. (2-4 quarter hours)

AI 286 | NEW ORLEANS IN SONG, STORY & STRUGGLE | 2 quarter hours  
(Undergraduate)  
The tapestry of New Orleans culture is tremendously rich and varied. This course will concentrate on two strands in that tapestry music from New Orleans and fiction about it. Students will learn about music forms which originated in the city or its environs and which have gone on to dazzle the world, including jazz, r&b, zydeco and funk. We will situate these art forms in social and historical context and examine the complex creative processes which have shaped them. We will become familiar with innovators and icons such as Louis Armstrong, Professor Longhair, Clifton Chenier, the Neville Brothers and Dr. John. We will also read works by literary artists who have a background in and/or fascination with New Orleans, including The Awakening by Kate Chopin; A Streetcar Named Desire by Tennessee Williams; and Mumbo Jumbo by Ishmael Reed. Moreover, we will consider the role played in American history and imagination by New Orleans as well as the role played by images and fantasies of New Orleans in struggles for social justice at the local and national level. (2-4 quarter hours)

AI 296 | STAGE PLAY(ING) | 2 quarter hours  
(Undergraduate)  
The play's the thing… A play is action, play, conflict, resolution, motion, emotion, live now. A play is crafted for the stage, not for the page. What we find on the page is a script, a guide to the play, not the play itself. The course will explore the play (and playing) in as many of its dimensions as we can discover. Students will read about reading scripts, and then read them to see the play as it could come to be. We will put together scenes, sketches, stories, and/or short plays; as well as improvise, role play, and act in our own work as well as in the work of established playwrights. Students will take the study to the theater to see what works and what doesn't work on the stage. The class will work and play together and apart and let the creative imagination take us where it will.

AI 298 | THE ITALIAN RENAISSANCE | 2 quarter hours  
(Undergraduate)  
From the thirteenth to the sixteenth centuries, the Italian peninsula was the center of a new age of human discovery and expression. With the unfolding of ancient philosophies, the Catholic Church's temporal and spiritual control over Western Europe faltered. This age changed the meaning of political power, art, literature, science, and religious life. New perspectives lifted the horizons of thought and artistic expression. What meaning and value do these issues have for the contemporary person? By exploring the richness of Renaissance culture, this course attempts to answer the following questions: What happened on the Italian peninsula during the Renaissance? Who were the principal players? How did this period influence western civilization, particularly with respect to learning? What does the Renaissance mean today? Why, indeed, does it play such a major role in contemporary consciousness of the arts, literature, politics, and science? While the general focus of the material is the Renaissance in the Italian city states, the course concentrates on the rise and fall of the Medici family in Florence. Cosimo, Lorenzo, Piero and Giovanni de’ Medici (Pope Leo X) were instrumental in the development of this spectacular age in Western Civilization. Learners will also confront our own time with respect to issues raised in the Italian Renaissance. (2-4 quarter hours)
AI 299 | ETHICAL ISSUES IN BIOMEDICINE AND HEALTH | 2 quarter hours (Undergraduate)
Should parents be allowed to genetically "engineer" designer babies? Given the rapid pace of developments in genetic engineering, this capacity is eminent. Emerging technological capacities in a variety of arenas are creating a host of social questions and potential ethical implications: What are the ethical issues associated with accelerating accumulation of health data? Do pharmaceutical companies have a moral obligation to expand global access to life-saving AIDS drugs? Given our ever-unfolding understanding of the human brain, what regulatory concerns ought to accompany the rollout of new, powerful brain-based biotechnologies? Which methods and approaches are needed to make sense of the impact of science and technology on people's lives worldwide? This course is both an introduction to bioethics, – an area concerned with moral questions related to health, medicine and society, as well as a reflection upon the ethical and social implications of rapidly emerging technological and scientific capacities. In this course, learners will learn and use ethical theories to consider and analyze general bioethical issues with special attention paid to the unique challenges that emerge as a result of rapid advancements in scientific and technological knowledge. While this course is housed in the School for New Learning (SNL), it is also cross-listed with DePaul University's department of public health. For graduate students taking this course for credit, there is an additional assessment required, specified in the syllabus section below. This course will also require students to deploy and hone critical thinking skills, writing-related capacities as well as reasoning skills. (2-4 quarter hours)

AI 313 | RACE AND IDENTITY IN AMERICAN THEATER | 2 quarter hours (Undergraduate)
This course will explore issues of race and racial identity in American society through the medium of theater. Students will examine a diverse range of theatrical pieces and consider the social and political context for each work as well as the impact each has had on American culture. The class will also view a play on these themes at a Chicago theater. (2-4 quarter hours)

AI 315 | CREATIVITY AND IMAGINATION | 2 quarter hours (Undergraduate)
Is there a specific mental procedure that gives rise to the making of new inventions, new scientific and mathematical discoveries, new philosophical systems, and new works of art? If so, it remains as mysterious today as a thousand years ago. In this course we will compare and critically evaluate a range of theories about human invention and creativity, both classic and modern - from ancient conceptions of divine inspiration and "creative madness" to recent hypotheses in the fields of evolutionary psychology, cognitive science, and artificial intelligence. We will test these theories by (a) applying them to our own past experience with creative endeavors and (b) by determining to what extent the theories can adequately explain the emergence of particular inventions, scientific or mathematical breakthroughs, or works of art. The course will introduce the thought of a range of important theorists on the creative process - from Plato to Freud - and also weigh the contributions and examples of prominent artists, scientists, and inventors, including Archimedes, Newton, Mozart, Milton, Poe, Van Gogh, Poincari, Edison, Einstein, and others. (2-4 quarter hours)

AI 318 | ZOMBIES: MODERN MYTHS, RACE, AND CAPITALISM | 2 quarter hours (Undergraduate)
The figure of the zombie entered US popular culture from Haitian spiritual practice bringing with it concerns of power and race. As the zombie mythology developed in the United States, it has been adapted to address issues as varied as gender and capitalism. Zombie mythology has become so prominent that the philosophers Gilles Deleuze and Felix Guattari asserted that the zombie was the only unique myth of the twentieth century. This class will examine the development of the zombie myth as a reflection of US societal concerns while using the lenses of Post-Colonial and Post-Marxist theory. Specifically, we will use these lenses to explore Halperin's film White Zombie, Romero's films Night of the Living Dead and Dawn of the Dead, Kirkman's comic books The Walking Dead, and Boyle's 28 Days Later. (2-4 quarter hours)

AI 322 | PROBLEMS AND ISSUES IN CONTEMPORARY ETHICS | 2 quarter hours (Undergraduate)
An introduction to moral philosophy with emphasis on the conflict between "moral relativism" (or "subjective" ethics) on the one hand and "moral realism" (or "objective" ethics) on the other. During the course you will be introduced to classic theories and leading figures in the history of ethics, from Plato and Aristotle to Kant and Nietzsche. Course content will focus on issues (e.g., poverty, drug use, capital punishment, sexual behavior, euthanasia, biomedical research, animal rights, political violence) at the center of contemporary ethical debate in the United States and throughout the world. (2-4 quarter hours)

AI 323 | ART AND PERSONAL TRANSFORMATION | 2 quarter hours (Undergraduate)
Adults often go through periods of profound transition. Many of us search for answers, models, or mentors to help us make sense of the changes. This course deals with ways in which art can be a means of personal transformation, a vehicle for helping us understand the deeper dimensions of our life journeys. Through exposure to artistic representations of significant turning points in human experience, and by studying perspectives on change drawn from various disciplines, we will explore ways in which art both mirrors and facilitates the process of transformation. Students will approach selected works of art (literature, music and visual art) to explore ways artists have represented themes of transformation. In addition to developing competence in art analysis, we will investigate whether our own personal values are reflected in the works studied, and what role art plays in our lives. Students will keep learning journals recording their impressions and reflections about class readings, discussion and multi-media presentations. (2-4 quarter hours)
AI 338 | RACE, RACE RELATIONS, RACISM: BREAKING BARRIERS AND BUILDING BRIDGES | 2-4 quarter hours
(Undergraduate)
How do we as an ethnically and racially diverse country go about the business of understanding and healing the wounds of racism and building bridges that will allow the gift of diversity to flourish in the United States? Further, what are the connections among U.S. racism and other forms of racism such as ethnic cleansing and "pacification programs" aimed at indigenous people around the world? In this course, we will explore the historical, economic and political roots of racism globally and nationally. In addition, we will look at the changes brought about by the civil rights movement, and ongoing work in the nation and in Chicago aimed at bridging the gaps caused by racism. Through discussion, readings, films, debate, guest panels, and field excursions, students will study a variety of topics. Because the course will focus not only on analysis, but on building bridges, the instructors hope to enroll an ethnically and racially diverse class membership. (2-4 quarter hours)

AI 342 | LEARNING ART HISTORY THROUGH THE ART INSTITUTE OF CHICAGO | 2 quarter hours
(Undergraduate)
The Art Institute of Chicago is one of the nation's premier art museums, with a collection that offers wide opportunities for the study of art. This course will examine great paintings in the museum from the Middle Ages up to contemporary works. Students will deepen their knowledge of art history and how to study a painting, develop an overall knowledge of major periods and trends, as well as gain insights into the lives of the artists. Students will also gain a knowledge of the museum itself as a starting off point for further studies. Class will meet at the Art Institute, Michigan and Adams, at the front information desk. (2-4 quarter hours)

AI 356 | STUDIES IN GHANA: HISTORY, CULTURE AND SPIRITUALITY | 2 quarter hours
(Undergraduate)
Ghana's history is part of our own. It is the history of mighty empires and timeless knowledge. This course is a return to the motherland to fetch knowledge of African history, culture, spirituality, and healing. We will embark on an educational adventure of discovery. During our three-week stay, we will travel to Kumasi in the land of the Ashanti, visit the Kente weaving villages, hear lectures at the home of W.E.B. DuBois and various Ghanian universities. The slave castles of the African holocaust are also on the itinerary. Coursework includes an introduction to Ghanaian history, culture and cosmology, and its religious and healing traditions; a comparative exploration of African and US spirituality; service learning projects, fieldwork, and an emphasis on cultural exchange; training in field research methods leading to a major paper. Estimated expenses include airfare, ground transport, accommodations, and most meals. (2-6 quarter hours)

AI 362 | LITERATURE AND FILM: PERSONAL AND CULTURAL TRANSFORMATION | 2 quarter hours
(Undergraduate)
Literature and film provide rich and varied examples of individual and societal change. Creative and reflective writing are keys to deeper understanding. This course focuses on the processes of thoughtful reading, viewing, discussing, and writing about selected examples of literature and film. We will use selected media and writing exercises as subjects for critical analysis and as springboards into exploration of class members' own lives and cultures. Drawing from diverse sources, we will look at ways in which the arts reflect issues of identity during times of personal and cultural transformation. Through small and large group discussion, reflective learning journals, papers, and presentations, students will respond both analytically and personally to the visual and written media presented as well as to their own writing samples. (2-4 quarter hours)

AI 366 | EXPRESSING YOURSELF THROUGH PAINT | 2 quarter hours
(Undergraduate)
This course will focus on painting as a form of visual expressions and provide opportunities to explore the media of painting and the aesthetics behind why people paint. Students will study the history of painting through selected works, learn how to analyze and critique a painting and use watercolors and acrylic paints to explore the media. A field trip to the Art Institute of Chicago is required. (2-4 quarter hours)

AI 384 | CLASSICS FROM THE AFRICAN DIASPORA | 2 quarter hours
(Undergraduate)
The push for cultural literacy and familiarity with the "Great Books" and classical arts often neglects the important contributions that people of African descent have made to the development of the world. The works of activists, scholars, authors, and artists such as Ida B. Wells Barnett, David Walker, W.E.B. DuBois, Frantz Fanon, and Nina Simone address issues of importance to people regardless of their cultural background: justice, oppression, human rights, education, identity and the human condition. This course will examine 1-2 bodies of work by authors and/or artists of African descent. to explore what each tells us about the human condition and power relationships during a particular historical context. We will also examine the present day implication of these issues. (2-4 quarter hours)

AI 396 | INTRODUCTION TO ART THERAPY | 2 quarter hours
(Undergraduate)
This experiential class will introduce students to concepts of art therapy and other expressive arts. It will address the therapeutic use of art making by people who experience illness, trauma, or challenges in living, as well as by people who seek personal development and general well being. By participating in expressive arts activities and reflecting on the products and processes, students will learn how art therapy can help people increase awareness of self and others, cope with symptoms, stress, and traumatic experiences; enhance cognitive abilities; and enjoy the life-affirming pleasures of making art. (2-4 quarter hours)
AI 397 | EXPLORING THE AMERICAN LANDSCAPE | 2 quarter hours  
(Undergraduate)  
This course will look at the American landscape, a popular subject matter among painters in all media and study works by such noted artists as Albert Bierstadt, Frederick Church, Joseph Stella, Andrew Wyeth, Grant Wood, Georgia O'Keeffe and William Beckman. The art history component of the course will be coupled with an opportunity for students to create three landscape paintings using the media of acrylic paints. An introduction to the basic techniques of acrylic painting and color mixing will be included as part of the class. Students will explore the interpretation of both the rural and urban landscape and produce a portfolio of no less than three paintings during the class. A field trip to the Art Institute of Chicago is required. No previous painting experience is required. (2-4 quarter hours)

Asian Studies, Global (AAS)  
AAS 200 | ASIAN AMERICAN HISTORY | 4 quarter hours  
(Undergraduate)  
This course examines the creation of Asian America by first and second-generation Asian migrants to the Americans from the 1840s to World War II. The course provides a historical, legal, social and cultural framework for understanding the resurgence of Asian migration since the 1960s.

AAS 202 | ASIAN AMERICAN LITERATURE | 4 quarter hours  
(Undergraduate)  
This course will serve as an overview of Asian American literature in a socio-historical context. Special emphasis will be placed on tracing the various paradigms through which these works have been produced, from texts written prior to the movement towards self-determination during the 1960s; to works identified with the "cultural nationalism" promoted during the 1960s and 1970s; to the pluralism of the 1980s which explored how gender, sexual orientation, and class complicate earlier essentialist conceptions of racial identity; and finally to the transnational and diasporic interests of the 1990s. Texts covered will include primarily fiction (novels and short stories), but also critical essays, plays, movies, and poetry.

AAS 203 | ASIAN AMERICAN ARTS AND CULTURE | 4 quarter hours  
(Undergraduate)  
This course will examine Asian American arts and cultural productions in relation to the histories of people and groups with roots in Asia and the Pacific. The course will focus on contemporary visual arts from the emergence of Asian American movements in the 1960's and 1970's, to the multiculturalism of the 1980's and 1990’s to our present transnational moment. Formerly AAS 201.

AAS 205 | GLOBAL ASIA | 4 quarter hours  
(Undergraduate)  
From ancient and modern perspectives, Global Asia introduces the artistic, cultural, economic, philosophical, political and religious transformation of Asian societies and peoples across space and time. A visual and multimedia approach complements literature on core ideas and practices. Creative and interactive learning methods are included.

AAS 210 | ASIAN ART | 4 quarter hours  
(Undergraduate)  
An introduction to major developments of art and architecture across Asian cultures including South Asia, Southeast Asia, the Himalayas, and East Asia and their counterparts in America. This course examines not only painting, sculpture, and architecture, but also gardens, ceramics, and prints. Special emphasis will be placed on religious arts of Buddhism and Hinduism, along with landscape and figural painting. Cross-listed with HAA 115.

AAS 211 | BUDDHIST ART | 4 quarter hours  
(Undergraduate)  
This course explores the traditional visual culture of the Buddhist world, examining art as a reflection of religious belief and practice. The works come from South Asia, Southeast Asia, East Asia, and America. An emphasis is placed on painting, sculpture, and architecture made for or related to Buddhist practice. Cross-listed with HAA 220.

AAS 214 | JAPANESE ART | 4 quarter hours  
(Undergraduate)  
This is a chronological survey of premodern Japanese art, from the prehistoric era to the Meiji period (1868-1911). Topics covered include painting, sculpture, and architecture, as well as decorative arts, prints, and garden design. Special attention is given to Buddhist and Shinto religious arts, along with screen painting and woodblock prints. Cross-listed with HAA 216.

AAS 215 | INTERNATIONAL DEVELOPMENT AND REGIONAL INEQUALITY | 4 quarter hours  
(Undergraduate)  
This course charts the political, social and economic transformation of the developing countries (Africa, Asia, Latin America, Caribbean, Pacific Islands) into a global economy dominated by the 'developed' countries (North America, Europe and Japan). This process, termed 'GLOBALIZATION,' results from the operation of the global market mechanism, the activities of Transnational Corporations (TNCs) and the programs of the International Financial Institutions (IFIs). Cross-listed with GEO 215.

AAS 216 | CHINESE ART | 4 quarter hours  
(Undergraduate)  
This is a chronological survey of premodern Chinese art from antiquity to the nineteenth century. Special attention is given to sculpture and painting, but architecture and ceramics are also covered. There is an emphasis on prehistoric bronze vessels, Buddhist sculpture, and landscape painting of the Song through Qing periods. Cross-listed with HAA 215.

AAS 217 | ARTS OF INDIA AND THE HIMALAYAS | 4 quarter hours  
(Undergraduate)  
This is a chronological survey of premodern arts of the subcontinent of South Asia and the Himalayas. We start with the Indus Valley Civilization and move through the nineteenth century, including Mughal arts. Special attention is given to the emergence of figural imagery in Buddhist and Hindu sculptural arts, and the development of religious architectural forms from early stupas and cave temples to later shrines. Cross-listed with HAA 217.

AAS 218 | ARTS OF THE SILK ROAD | 4 quarter hours  
(Undergraduate)  
This course will examine the visual history of the Silk Road, focusing on works of art and architecture created in Central Asia. We not only consider the prehistoric, ancient and medieval arts of this region, but we also investigate the modern development of a romanticized notion of the Silk Road and the imperial interest in acquiring treasures from the Silk Road. Today we frequently hear about the legacy of the Silk Road in promoting multicultural exchange. However, the Silk Road has long been affected by the expansionist agendas of empires. From the time of Alexander the Great (356-323 B.C.E.) through the period of Genghis Khan (1162-1227) and on, there have been military leaders who have led their armies into Silk Road lands seeking territory, riches, and glory. Cross-listed with HAA 218.
AAS 219 | K-POP & ITS GLOBAL CULTURAL INFLUENCE | 4 quarter hours  
(Undergraduate)
This course examines the increasing visibility and global dissemination of Korean popular culture, representative of K-pop. Looking through various social causes concerned with the dissemination of Korean popular culture (e.g., Korean entertainment industry, online K-pop fandom communities, race and gender systems in K-pop), this course will help students critically consume and understand Korean pop culture. By exploring various global cultural forces that are at work in the production and consumption of Korean pop culture, students will learn controversial topics around global culture and cultivate their global sense beyond Euro-American perspectives. Throughout the semester, students will do so by working both individually and in groups on a series of projects designed to further their understanding of Korean pop culture and its ramifications in the global digital era.

AAS 220 | AMERICAN BUDDHISM | 4 quarter hours  
(Undergraduate)
This course critically analyzes the origins of Buddhism in the United States in order to fully understand how and why Buddhism has flourished in Asian and White American communities, and to understand the conflict and controversy surrounding the racial dynamics of religious choice. Cross-listed with AMS 220.

AAS 222 | RELIGION AND CONFLICT IN SOUTH ASIA | 4 quarter hours  
(Undergraduate)
Religion has become central to conflict in contemporary South Asia. This course examines the relationship between religion and conflict both within and between nations in South Asia. It will examine how religion fuels conflict as well as how religion is used to find a nonviolent resolution to conflict. It will also analyze how religion is used to challenge and resist victimization, marginalization, silencing, and indeed violence during conflict. Finally, the course will examine how the cultural politics of class, gender, ethnicity, and sexuality constitute and are constituted by religion.

AAS 223 | TALES OF INDIA | 4 quarter hours  
(Undergraduate)
Before the modern nation-states of India and Pakistan came into being, the term “India” referred to the South Asian region, a region that has been and is the home of many cultures and societies. These cultures have also reached beyond the region to create rich and paradoxical diaspora experiences in Europe and the Americas. Tales of India will explore a variety of literatures, ancient and contemporary, that illuminate the worlds of South Asian peoples in their homelands and in the transnational life of the diaspora. Themes will include love, power, religious meaning/religious identity, and cultural difference.

AAS 224 | HINDU THOUGHT AND CULTURE | 4 quarter hours  
(Undergraduate)
An exploration of Hinduism as a civilization whose key reference points are religious in the sense understood in the West (ritual and transcendence), yet which finds expression in a “high culture” of literary works, political and social theory, art and architecture, music and dance, and folk and popular stories, songs and plays. Cross-listed with REL 242.

AAS 225 | RELIGION AND SOCIAL ENGAGEMENT: SOCIALLY ENGAGED BUDDHISM | 4 quarter hours  
(Undergraduate)
An investigation of the ways in which various religious traditions engage the social order. Traditions, persons and movements that form the focus of the course will vary from section to section (in this case the focus is on Buddhism). The course will integrate theory and practice in studying forms of religious engagement. All students will perform some service to a community or within a community organization or agency.

Sophomore standing or above is a prerequisite for this class.

AAS 226 | ETHICAL WORLDS: MORAL ISSUES ACROSS CULTURES: ATOM BOMB DISCOURSE | 4 quarter hours  
(Undergraduate)
An exploration of religion and ethics from a comparative and international perspective. Ethical dimensions of diverse world traditions (in this case the development and use of atomic weaponry) will be investigated within their own particular historical and cultural contexts, and students will be asked to consider and evaluate their own ethical orientations in the light of these studies.

AAS 233 | THE RISE OF MODERN CHINA | 4 quarter hours  
(Undergraduate)
Examines the history of Chinese civilization from the 18th century to the present. We will survey the height of the authority of the Qing Imperial government, its dissolution in the 19th century, and the creation of a revolutionary China in the 20th century. Topics include the Opium War and China’s foreign relations, the introduction of Westernized technology and education, and the rise of Communism under the leadership of Mao Zedong. Also considers the ways in which our contemporary understanding of China is formed by recent developments in the media - Chinese news and film. Cross-listed with HST 233.

AAS 241 | RELIGION IN CHINESE HISTORY, SOCIETY, AND CULTURE | 4 quarter hours  
(Undergraduate)
An exploration of the Chinese religious landscape, focusing on social and practical dimensions of Chinese religion, such as state rituals and private cults, liturgies and individual practices of Taoist priests and adepts, politico-religious ideas that inspired popular messianic movements throughout Chinese history, and interrelations of Buddhist and Taoist clergies and institutions in the state. Cross-listed with REL 241.

AAS 242 | LITERATURE AND RELIGION IN CHINA | 4 quarter hours  
(Undergraduate)
An exploration of religious themes reflected in diverse forms of Chinese story literature from ancient to contemporary times. Cross-listed with REL 248.

AAS 243 | BUDDHIST THOUGHT IN CULTURAL CONTEXT | 4 quarter hours  
(Undergraduate)
An exploration of the Buddhist tradition, using original sources, from its beginnings in ancient India to a world religion with strong roots in the US. Students will discover how Buddhism interacts with cultures from Sri Lanka and Thailand to China, Japan and Tibet. Although this course is online, students in the region will have the opportunity to practice meditation at a Chicago zendo and tour the Buddhist art at the Chicago Art Institute. Cross-listed with REL 243.
AAS 244 | TRADITIONS OF CHINESE POPULAR CULTURE | 4 quarter hours  
(Undergraduate)  
Promotes an understanding of Chinese worldview and life in the perspective of the common Chinese people from ancient to modern times. Based on historical and modern texts in translation, some historical and ethnographic studies, as well as visual and aural materials, the course explores gender and generational relations and conflicts, ancestor veneration, the worlds of ghosts and gods, festivals, art, and entertainment, but also aspects of misery and social unrest. Although the course will draw largely on popular and entertaining sources, it will also pay attention to historical developments, the relationship between popular and elite traditions, as well as sociological and anthropological issues arising from these contexts. Cross-listed with REL 246.

AAS 245 | RELIGION IN JAPANESE HISTORY, SOCIETY, AND CULTURE | 4 quarter hours  
(Undergraduate)  
Explores the specific interplay between religion and culture in Japan. Taking historical and cultural factors into account, it considers prehistoric Japanese religion, ancient imperial myths, the assimilation of Buddhism, Confucianism, and continental (Chinese/Korean) culture, the religious and aesthetic worlds of the court nobility and the warrior class, popular mountain cults, the revival and systematization of Shinto, the impact of western culture, Japanese ultra-nationalism, and the religious situation in the post-war period. Cross-listed with REL 245.

AAS 246 | ASIAN FOREIGN POLICY | 4 quarter hours  
(Undergraduate)  
This course surveys the international relations of selected Asian countries. For each country, the course presents the basic historical background shaping foreign relations, introduces the external and domestic influences on foreign policy, and identifies emerging international challenges. It examines both the economic and military-security dimensions of Asian foreign relations. Cross-listed with PSC 246.

AAS 247 | LITERATURE AND RELIGION IN JAPAN | 4 quarter hours  
(Undergraduate)  
Focuses on the pervasive influence of religious thought and sentiment on Japanese literature from ancient to modern times and explores the intricate relationship between religion, aesthetics, and the arts in Japanese culture. Considers original works including ancient Japanese mythology and poetry, the memoirs of court ladies and Buddhist hermits, romance, epics, folktales and social satire, with attention to their historical, social, religious and social dimensions, as well as to the individual experience expressed in them. Cross-listed with REL 247.

AAS 248 | CHINESE CALLIGRAPHY | 4 quarter hours  
(Undergraduate)
