The MA in Experience Design is an interdisciplinary program that prepares future experience designers by providing a foundation in design methods, research, and collaboration. Students learn to apply theoretical frameworks and research methods to understand systems, define problems, and communicate potential solutions and their impact. By working on collaborative projects with local communities, students learn to create design-based artifacts tied to human-centered problems in a chosen disciplinary area (ex., web/mobile design, game design, learning design).

**Program Requirements**

</table>

**Learning Outcomes**

Students will be able to:

- Apply theoretical frameworks and research methods to understand systems, define problems, and communicate potential solutions and their impact.
- Plan and apply design methods to conceptualize, design, and communicate human-centered experiences to achieve a range of desired outcomes.
- Create design-based artifact tied to human-centered problems in a chosen disciplinary area (ex., web/mobile design, game design, learning design).
- Plan and develop experiences within cross-disciplinary teams and in collaboration with local communities and organizations.

**Collaboration Practicum**

Students must take the collaboration studio class three (3) times. These classes provide the opportunity for students to work in teams and to take
Alumni have often communicated the desire for nurse practitioner training without immediately pursuing the doctorate. This certificate offering will provide that training, allowing experienced nurses to practice at an advanced level prior to completing the terminal degree.

Students in the Family Nurse Practitioner Certificate program must follow the academic standing, probation and dismissal guidelines, among the other guidelines, found in the Program Graduate Academic Student Handbook for the Doctor of Nursing Practice program.

Students in the Family Nurse Practitioner Certificate program must apply for degree conferment via Campus Connection in advance of their final quarter in the program in order to have their coursework audited for the awarding and delivery of their certificate.

### Family Nurse Practitioner Certificate

The certificate option will allow for licensed registered nurses holding a graduate degree to complete the coursework necessary to sit for certification as a nurse practitioner. Upon completion of the program, graduates are eligible to take certification exams provided by either the American Nurse Credentialing Center (ANCC) or the American Academy of Nurse Practitioners Certification Program (AANPCP). Those seeking certification in the population specific options offered by the School are able to take an exam through either certifying body.

The population targeted by the program consists of graduates of the entry to practice program at DePaul University as well as other programs in the State of Illinois. Additionally, this program allows any registered nurse with a graduate degree to pursue nurse practitioner training.
will unite these courses under one banner in order to provide interested students with a focused concentration on fandom and cult media. The purpose of this minor is to allow students to understand how audiences and media producers design media texts to confront and challenge contemporary ideologies, to offer alternatives to the mainstream, and to engineer deliberate affective reactions in audiences.

A minor in Fandom, Cult Media, and Subcultural Studies requires students to complete a total of six courses (24 credit hours).

**Film & Television (BA)**

The BA in Film & Television provides students with a generalist approach to film and television production. The degree will cover the primary media in which directors, cinematographers, documentarians, editors, producers, production designers, screenwriters, sound designers, and visual effects artists work.

**Open Electives**

<table>

<th>Course</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>20</td>
</tr>
<tr>
<td>Total hours required</td>
<td>192</td>
</tr>
</tbody>
</table>

**Learning Outcomes**

Students will be able to:

- Write a screenplay in proper format employing standard narrative conventions.
- Demonstrate an understanding of visual style.
- Demonstrate an understanding of the pre-production process.
- Perform all basic tasks of all crew positions.
- Direct a crew and talent on location.
- Show a working knowledge of visual composition, cinematic exposure standards and basic semiotics.
- Use the principles of invisible editing and montage.
- Demonstrate an understanding of the successful compositing of live action with animated background elements.
- Understand all the basic tasks of the post-production sound process.

1 Students must earn a C- or better in this course.

2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

Learning Domains

Arts and Literature (AL) (p. 1184)
- 3 Courses Required

Historical Inquiry (HI) (p. 1188)
- 2 Courses Required

Philosophical Inquiry (PI) (p. 1190)
- 2 Courses Required (See note below)

Religious Dimensions (RD) (p. 1191)
- 2 Courses Required (See note below)

Scientific Inquiry (SI) (p. 1193)
- 1 SWK or Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)
- 3 Courses Required

Notes

Students must take one of the following ethics courses:
FILM 228/GAM 228/IT 228 (PI), PHL 248/MGT 248 (PI) or REL 228/MGT 228 (RD).

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Open Electives

Open Elective credit also is required to meet the minimum graduation requirement of 192 hours.

See www.cdm.depaul.edu (http://www.cdm.depaul.edu) to see sample schedule of course requirements on a year-by-year basis.

Degree Requirements

Students in this degree must meet the following requirements:

- Complete a minimum of 192 credit hours (generally 48 courses).
- Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses.
Film & Television (BFA)

The BFA in Film & Television provides students with the ability to specialize in a specific area of film and television production by choosing one of 10 concentrations: cinematography, comedy, creative producing, directing, documentary, editing, production design, screenwriting, sound design, and visual effects.

Concentrations

Cinematography Concentration

The cinematography concentration will provide a strong technical foundation for cinematographers enabling students to focus on lighting, color correction, or special effects while facilitating the creation of more portfolio pieces.

Comedy Filmmaking Concentration

This robust four-year comedy filmmaking concentration will enable students to have sufficient time to develop a methodology for creating, developing and showcasing their comedic writing and directing, from the script to the screen. Additionally, these students will have access to Second City’s Master Seminar classes.

Creative Producing Concentration

The creative producing concentration allows students to achieve competency in multimedia streaming, creative financing structures, international distribution, intellectual property and original content acquisition. This concentration will enable students to oversee more portfolio pieces.

Directing Concentration

The directing concentration lays a strong foundation for students who wish to direct coupled with a strong technical and storytelling foundation.

Documentary Concentration

The documentary concentration provides students with the opportunity to experience different documentary modes of production, dig deeper into issues that interest them, and experiment with the styles of documentary creation that are best suited to their personal vision.

Editing Concentration

The editing concentration will provide a solid foundation in managing media during production to editing and finishing a project. This includes picture, sound, titles, color correction, and mastering workflows. The concentration will allow students to specialize in both the technical and creative aspects of editing.

Production Design Concentration

The production design concentration was developed in conjunction with DePaul’s Theater School and provides students with a strong foundation in production design across several media. Students can specialize in various crafts including art direction, scene design, costume design, property, hair and makeup.

Screenwriting Concentration

The screenwriting concentration enables students to enhance their creative voice and spec portfolio which will prepare them to become professional screenwriters.

Showrunner Concentration

The showrunner concentration will allow students to hone and showcase their voice within the web series format. Showrunners have become the most sought-after producers in an ever-changing television landscape, as studios and networks. Emphasis will be placed on branding and marketing in addition to cultivating innovative storytelling techniques.

Sound Design Concentration

The sound design concentration provides a solid foundation in sound design for the visual image. The concentration will provide deep exploration of all elements of sound design including audio engineering, field recording, dialogue recording, dialogue and sound effects editing, sound mixing, re-recording mixing, deliverables, and film scoring.

Visual Effects Concentration

In the visual effects concentration students learn digital composition, motion capture, match moving techniques, and other ways to acquire and combine various elements into fully realized VFX sequences.

Learning Outcomes

Students will be able to:

- Write a short screenplay in proper format employing standard narrative conventions.
- Direct a crew and talent/subject in a fiction or non-fiction film.
- Employ the principles of invisible/continuity cutting and montage in picture editing.
- Perform basic tasks of the post-production sound process including sound editing and mixing.
- Use compositional rules, lighting/exposure techniques, and visual design elements in the filming of shots and scenes.
- Apply basic functions of the pre-production process, including scheduling and budgeting.
- Identify major genres, figures, and works in contemporary and historical film and television.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

See www.cdm.depaul.edu (http://www.cdm.depaul.edu) to see sample schedule of course requirements on a year-by-year basis.

Film & Television (MS)

The MS in Film & Television emphasizes the technical and technology-based topics and practices of digital cinema. Such topics and practices include post-production editing of video and audio, the integration of video and audio, special effects and computer-generated imaging, and modes of digital distribution.

Concentrations

Cinematography Concentration

Students develop a foundation in production for film, TV and the Web, while specializing in camera and lighting.

Editing Concentration

With advanced courses in editing, digital compositing, and color correction, students acquire the skills needed to work in all facets of cinema post-production.

Sound Concentration

Students develop the skills necessary to work in sound for cinema. Coursework includes advanced classes in location sound recording, dialogue editing, sound mixing, and scoring.

Program Requirements

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>52</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Design film content that exhibits a cohesive creative perspective.
- Identify pre-production, production, and post-production workflows.
- Edit film content to meet professional standards.
- Demonstrate proficiency in the basic tasks of post-production sound process.
- Employ color correction processes and advanced compositing techniques in finishing a film.
- Illustrate a mastery of visual composition, cinematic exposure standards, and basic semiotics.

Degree Requirements

Course Requirements

No Introductory Course may be substituted for any other course at any level.

Course requirements are determined by the concentration chosen.

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all courses in the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
- Students pursuing a second master’s degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

For DePaul’s policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook.

Concentration Requirements

Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:

- Cinematography Concentration, Film & Television (MS) (p. 427)
- Editing Concentration, Film & Television (MS) (p. 427)
- Sound Concentration, Film & Television (MS) (p. 428)
## Cinematography Concentration, Film & Television (MS)

### Optional Los Angeles Quarter

Students may apply to participate in the Los Angeles Quarter Program for the spring of their second year; they will spend 12 weeks in Hollywood doing industry internships, living with their fellow DePaul classmates, and having twice-weekly classes on an industry lot where they will have intimate question and answer sessions with industry professionals in all aspects of the film, TV, and videogame world. If selected to participate in the LA program, MS in Film and Television - Cinematography students would take SCWR 446 and FILM 499 in Los Angeles.

MS in Film and Television - Cinematography students who are not selected to participate in the LA program, would take FILM 499 in Chicago and POST 444 or FILM 425.

Film & Television Directing (MFA)

This degree is the highest level of training in digital filmmaking. The MFA in Film & Television Directing program is a highly selective program that culminates in the successful completion of the MFA thesis project, a public presentation of the thesis project, and a defense of the thesis to the student’s MFA committee.

Learning Outcomes

Students will be able to:

- Write short or feature screenplays in proper format employing standard narrative.
- Demonstrate a mastery of directing and casting actors in a fiction film.
- Express picture editing, visual effects, and sound design preferences to post-production crew members using proper terminology.
- Employ advanced functions of the producing process, including scheduling, budgeting, pitching, packaging, and distribution.
- Communicate short setup and framing preferences using proper cinematographic and visual design terminology.
- Create short filmic works in a variety of genres and processes, such as documentary, experimental, and television.
- Identify major genres, figures, and works in contemporary and historical short and feature films.

Degree Requirements

Course Requirements

No Introductory Course in any other program may be substituted for any other course at any level.

Introductory Courses

<table>

</tr>
</tbody>
</table>

Note: Students who are required to take this course must take the course during the Fall quarter of their first year and consult their advisor about their course sequence for their first year in the program.

Introductory courses may be waived for any of the following conditions:

- The student has the appropriate course work to satisfy an Introductory Course.
- The student has appropriate and verified professional experience to satisfy an Introductory Course.
- If an exam is available, the student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.

MFA in Film and Television Directing students who are not selected to participate in the Los Angeles Quarter Program about their course sequence for their first year in the program. Students who are required to take this course must take the course during the Fall quarter of their first year and consult their advisor about their course sequence for their first year in the program.

Major Electives

Students must choose any graduate level ANI, CP, DOC, FILM, POST, SCWR, or VFX courses or MCS 502.

Optional Los Angeles Quarter

Students may apply to participate in the Los Angeles Quarter Program for the spring of their third year; they will spend 12 weeks in Hollywood doing industry internships, living with their fellow DePaul classmates, and having twice-weekly classes on an industry lot where they will have intimate question and answer sessions with industry professionals in all aspects of the film, TV, and video game world. If selected to participate in the LA program, MFA in Film and Television Directing students would take SCWR 446 and FILM 499 in Los Angeles.

MFA in Film and Television Directing students who are not selected to participate in the LA program, would take FILM 499 in Chicago and one (1) Major Elective.

Select Four (4) Credit hours of Major Electives 4

1. Students who are required to take this course must take the course during the Fall quarter of their first year and consult their advisor about their course sequence for their first year in the program.

2. Optional Los Angeles Quarter (See below).

MFA Thesis

The MFA Thesis should be a significant work that demonstrates a mastery of cinematic storytelling technique to convey the filmmaker’s unique voice and vision. This project may be a short film or television/web series pilot. Feature films may be permitted with approval from the student’s thesis committee.

Thesis Committee

Students will be asked to submit five preferences for full-time faculty members to serve on their thesis committees. Two committee members and one thesis chair will be assigned to each student by the Production-MFA Committee. During the thesis phase, the thesis committee supervises a student’s project. Approval to proceed to the thesis classes is at the sole discretion of the thesis committee. If the thesis committee denies approval, students may appeal to the Production-MFA Committee. If appeals are denied, students are dismissed from the MFA program.

Students in good academic standing may choose to complete an MS in Film and Television.

Thesis Classes

There are four crucial milestones a student must pass in order to proceed with thesis classes:

1. Script Approval

   The thesis committee must approve a student’s thesis screenplay before admission will be granted to FILM 501. The thesis committees will notify the instructor of FILM 501 of approved students.

2. Principal Photography

   MFA students should complete principal photography prior to taking POST 500. Only instructor approval (not thesis committee approval) is necessary to register for this class. If the instructor deems the student not ready to register for POST 500, the student must wait until the class is offered again, and must again seek instructor approval to register.

3. Picture Lock

   MFA students must edit and picture lock their films prior to taking POST 520 and POST 580. Thesis committees will notify the instructors of POST 520 and POST 580 of approved students, and the instructors will grant approval to register. If the thesis committee deems the student not ready to register for POST 520 and POST 580, the student must wait until the classes are offered again, and must again seek committee approval to register.

4. Final Thesis Delivery, Screening and Defense

   MFA students will deliver their finished projects their thesis committees for exhibition at a culminating screening of all thesis films. After the screening, students will schedule a formal defense of their thesis films. If the film passes and upon completion of the required 96/100 credits of coursework, the student will be awarded an MFA. If the film does not pass, the student may revise it and re-apply. If the film does not pass again, the student will be dismissed from the MFA program. Students in good academic standing may choose to complete an MS in Film and Television.

FILM 701 THESIS CONTINUATION

This zero-credit course is for students who do not continue with the thesis classes as scheduled. A student’s MFA thesis committee chair may enroll a student in FILM 701 a maximum of six times. Failure to enroll in a course for three straight quarters will lead to a student becoming inactive at the university, and will require the student to reapply to the program should they wish to finish their degree. Re-admission
cannot be guaranteed, and the student will be subject to follow the curriculum in place when they return.

**Time Limit to Finish Degree**

Students must complete all required coursework and defend their finished thesis projects in no more than five years from their first enrollment in the program. If the student does not complete the above requirements in the required five years, the student will be dismissed from the MFA program. As per University policy, during their college career, students may be allowed one medical/personal approved administrative withdrawal and one college office administrative withdrawal, each for one or more courses in a single term. Such withdrawals do not count towards the time limit to finish the degree.

**Degree Requirements**

Students in this degree program must meet the following requirements:

- Complete a minimum of 96 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all graduate courses of the designated degree program.
- Maintain a cumulative GPA of 3.0 or higher.
- Satisfactorily complete the MFA thesis as determined by the student’s MFA Advisor Committee.
- Students cannot count credit earned towards a previously awarded master’s or MFA degree toward the completion of this MFA program.

For DePaul’s policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook.

**Sample Schedule**

The representation of these course requirements on a year-by-year basis is just a suggestion. Students are free to take these courses in any order they choose, provided they have mastered the course-specific prerequisites.

**Film Production (Minor)**

The minor in Film Production provides students with hands-on experience utilizing the latest digital technology in motion picture production while incorporating classic cinema narrative theory and aesthetics.

**Finance (BSB)**

DePaul’s Finance program will provide you with a solid foundation in financial management and an understanding of public and private financial processes, financial markets, analysis and investments.

As a Finance major, you will take courses in:

- Corporate finance
- Financial statements analysis
- Investment theory and practice
- Money and banking
- Quantitative reasoning
- Risk management

You will also take multiple elective courses. Depending on your career goals, you may take a series of courses that focus on one of the following areas:

- Banking and financial services
- Corporate financial management
- Investment analysis/management
- Risk management

DePaul’s Driehaus College of Business is located in downtown Chicago, in the heart of the city’s financial district, providing you with countless opportunities to intern and work professionally with leading companies in the business industry. You are encouraged to complete an internship with a Chicago-area business during the summer preceding either your junior or senior year.

## Learning Outcomes

### Core Outcomes

Students will be able to:

- Use analytical and reflective skills in decision making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

### Program Specific Outcomes

Students will be able to:

- Understand financial theory and how it can be applied to financial decision making.
- Develop appropriate cash flows and discount rate analysis of projects, and financial instruments (e.g. bonds and stocks).
- Apply and interpret the appropriate risk measures (e.g. beta, standard deviation) to situations under uncertainty.
- Understand the role of agents and impact of governance.
- Understand the structure of the financial markets and the roles of institutions in those markets.
- Understand the flow of funds in the private and public markets.
- Know the determinants of the cost of funds.
- Understand how derivative instruments work and can be used for risk management.

## College Core Requirements

### Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of analytics, accountancy, mathematics, economics, business law, finance, management, management information systems/computer science, and marketing.

### Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 66.0 hours are required:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACC 101</td>
<td>INTRODUCTION TO ACCOUNTING I</td>
<td>4</td>
</tr>
<tr>
<td>ACC 102</td>
<td>INTRODUCTION TO ACCOUNTING II</td>
<td>4</td>
</tr>
<tr>
<td>BLW 201</td>
<td>LEGAL &amp; ETHICAL ASPECTS IN THE BUSINESS ENVIRONMENT</td>
<td>4</td>
</tr>
<tr>
<td>BUS 102</td>
<td>BUSINESS ANALYTICS (all business majors except Actuarial Science)</td>
<td>4</td>
</tr>
</tbody>
</table>

or MAT 151 | CALCULUS II

<table>
<thead>
<tr>

</tr>
<tr>
<td>MKT 301</td>
<td>PRINCIPLES OF MARKETING</td>
<td>4</td>
</tr>
<tr>
<td>MKT 310</td>
<td>CONSUMER BEHAVIOR</td>
<td>4</td>
</tr>
</tbody>
</table>

### Finance

Select one of the following:

- FIN 300 | FOUNDATIONS OF FINANCE
- FIN 310 | INTRODUCTION TO FINANCE

### Computer Science or MIS

Select one of the following:

- CSC 241 | INTRODUCTION TO COMPUTER SCIENCE I
- MIS 140 | INTRODUCTION TO BUSINESS TECHNOLOGY AND DECISION MAKING

### Communication

Select one of the following:

- MKT 376 | EFFECTIVE BUSINESS COMMUNICATION
- ORGC 201 | BUSINESS AND PROFESSIONAL COMMUNICATION

### Business Capstone

Select one of the following:

- ICS 394 | ENTREPRENEURSHIP STRATEGY
- ICS 395 | MANAGEMENT STRATEGY
- ICS 396 | HOSPITALITY STRATEGY (Hospitality majors only)

### Global Business Perspective

Select 4.0 hours of the following:

- ECO 316 | EUROPEAN ECONOMIC HISTORY
- ECO 330 | RADICAL RESPONSES TO CAPITALISM
- ECO 333 | TOPICS IN GLOBAL ECONOMIES
- ECO 334 | UNDERSTANDING CHINA’S ECONOMY
- ECO 360 | ECONOMICS OF LOW-INCOME COUNTRIES
- ECO 361 | INTERNATIONAL TRADE
- ECO 362 | INTERNATIONAL MONETARY ECONOMICS
- ECO 363 | ECONOMICS OF THE EUROPEAN UNION
- FIN 340 | INTERNATIONAL FINANCE
- FIN 355 | GLOBAL IPOs & VENTURE CAPITAL
- ICS 350 | INTERNATIONAL BUSINESS SEMINAR
- MGT 354 | GLOBAL HUMAN RESOURCE MANAGEMENT
- MGT 357 | INTERNATIONAL BUSINESS
- MKT 340 | MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
- MKT 358 | MARKETING IN A GLOBAL ENVIRONMENT
- MKT 360 | INTERNATIONAL MARKETING
- SOC 217 | WORK IN A GLOBALIZED WORLD
A course taken as part of a term-long study abroad program.

**Professional Writing**

Select one of the following:

- **WRD 202** PROFESSIONAL WRITING FOR BUSINESS (2.0 quarter hours)
- **WRD 204** TECHNICAL WRITING
- **WRD 206** PROFESSIONAL WRITING
- **MAT 341** STATISTICAL METHODS USING SAS (Actuarial Science majors only)

---

1. Strobel students take specially designated sections of all required ACC classes, including ACC 101 and ACC 102 (excluding ACC 250).
2. Students majoring in accounting (primary or secondary/double major) are allowed to substitute ACC 370 in place of BLW 201.
3. Hospitality Leadership majors must take HSP 207 for the Business Law requirement; use of HSP 207 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete both HSP 207 and BLW 201.
4. All business majors take BUS 102. Actuarial Science students must take MAT 151 in lieu of BUS 102. BSB analytics content met within Actuarial Science major requirements.
7. MIS majors and minors must take MIS 140.
8. Actuarial Science majors must take CSC 241.
9. MKT majors and Sales minors must take MKT 376.
10. Entrepreneurship majors and minors must take ICS 394.
11. Hospitality Leadership majors must take ICS 396 for the Business Capstone; use of ICS 396 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete ICS 396 and one of ICS 394 or ICS 395.

Business Ethics

All undergraduate students in the Driehaus College of Business complete a course in Business Ethics. It is recommended students take MGT 248 or PHL 248 in Philosophical Inquiry or MGT 228 or REL 228 in Religious Dimensions in the Liberal Studies Program (or University Honors Program) Requirements.

Second Majors and Minors

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements for all business majors (except Actuarial Science majors)

- MAT 137 may be replaced by MAT 348 or MAT 351; if done, an additional Scientific Inquiry course must be added to the degree plan.

Math Requirements for Actuarial Science majors

- An Actuarial Science student is expected to complete the Calculus sequence (MAT 150, MAT 151, and MAT 152) in the first year of study.
- Actuarial Science students do not take MAT 135, MAT 136, or MAT 137.

Global Business Perspective

If a FIN course is shared between Global Business Perspective and the Finance major, additional hours of Open Elective credit are required.

Grade Minimum Requirements for Finance Major

A minimum grade of C- is required for the following: ACC 101, ACC 102, BUS 102, ECO 105, ECO 106, FIN 310, FIN 320, MAT 137, the course used for Professional Writing, and any FIN course used for Global Business Perspective.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1. Students must earn a C- or better in this course.

Learning Domains

Arts and Literature (AL) (p. 1184)

- 3 AL Courses Required
Historical Inquiry (HI) (p. 1188)
• 2 HI Courses Required

Philosophical Inquiry (PI) (p. 1190)
• 2 PI Courses Required

Religious Dimensions (RD) (p. 1191)
• 2 RD Courses Required

Scientific Inquiry (SI) (p. 1193)
• MAT 137
• 1 Lab or SWK Course

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)
• 1 SCBI Course Required

1 PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD.

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements
In addition to FIN 310 and FIN 320, a student majoring in Finance is required to complete the following courses totaling at least 32.0 hours:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACC 304</td>
<td>FINANCIAL REPORTING I</td>
<td>4</td>
</tr>
<tr>

</tr>
<tr>
<td>RE 350</td>
<td>REAL ESTATE ANALYSIS 1</td>
</tr>
</tbody>
</table>

1 RE 350 and FIN 350 are cross listed and may only be completed once for credit.

FIN 300 may not be used towards the major.

The Department of Finance enforces all course prerequisites; exceptions will not be made.

Note: Two hour FIN 398 or FIN 399 courses will not satisfy Finance Electives.

FIN 380 is a capstone course. It is recommended that students take this course after the completion of all required finance courses.

Students are encouraged to seek an internship with a Chicago-area business during the summer preceding either their junior or senior year.

Open Electives
Open elective credit (18.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

Global Business Perspective
If a FIN course is shared between Global Business Perspective and the Finance major, additional hours of Open Elective credit are required. Any FIN course used toward Global Business Perspective must be passed with C- or higher.

Career Management Course
Students are required to complete the Career Course (250) associated with the major. Students who double major may choose the Career Course (250) associated with either major provided that hours for graduation are satisfied.

Experiential Learning
If FIN 393 is completed in the Finance major consult with academic advisor regarding options for Experiential Learning.

Combined Bachelor’s + Master’s Program Participants
Students admitted to the Finance Combined Bachelor’s + Master’s program may apply up to three approved graduate course(s) towards undergraduate Finance major or major electives. If a student takes FIN 524 it will replace FIN 333 in the finance major requirements.

Graduation Requirements
All Finance (FIN) courses and any courses used toward the Finance major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.
Curricular Specializations

The Department offers four recommendations for students who would like to focus their studies on one area of expertise. These areas are optional; no curricular specialization is required for the major.

### Banking

<table>
<thead>

</tbody>
</table>

### Finance (Minor)

Available to students majoring outside the Driehaus College of Business, a minor in Finance provides a student with a basic foundation in financial management, along with an understanding of financial markets, analysis, and investments.

Prerequisite Requirements

Students must meet the prerequisites of ACC 101, ECO 105, ECO 106 and MAT 137 (or a course in statistics) prior to some courses in the minor.

Course Requirements

A non-Driehaus student minoring in Finance is required to complete the following courses totaling at least 26.0 hours:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>FIN 202</td>
<td>QUANTITATIVE REASONING</td>
<td>2</td>
</tr>
<tr>
<td>FIN 310</td>
<td>INTRODUCTION TO FINANCE</td>
<td>4</td>
</tr>
<tr>
<td>FIN 311</td>
<td>CORPORATE FINANCE</td>
<td>4</td>
</tr>
<tr>
<td>FIN 320</td>
<td>MONEY AND BANKING</td>
<td>4</td>
</tr>
<tr>
<td>FIN 330</td>
<td>INVESTMENTS: THEORY &amp; PRACTICE</td>
<td>4</td>
</tr>
</tbody>
</table>

Two elective courses (8 hours) to be chosen from:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>FIN 313</td>
<td>INVESTMENT BANKING</td>
<td></td>
</tr>
<tr>
<td>FIN 323</td>
<td>COMMERCIAL BANKING</td>
<td></td>
</tr>
<tr>
<td>FIN 324</td>
<td>BANKING &amp; CREDIT ANALYSIS</td>
<td></td>
</tr>
<tr>
<td>FIN 333</td>
<td>FINANCIAL STATEMENTS ANALYSIS</td>
<td></td>
</tr>
<tr>
<td>FIN 335</td>
<td>PORTFOLIO MANAGEMENT</td>
<td></td>
</tr>
<tr>
<td>FIN 336</td>
<td>EQUITY RESEARCH</td>
<td></td>

<td></td>
</tr>
<tr>
<td>FIN 399</td>
<td>INDEPENDENT STUDY</td>
<td></td>
</tr>
<tr>
<td>RE 350</td>
<td>REAL ESTATE ANALYSIS</td>
<td></td>
</tr>
</tbody>
</table>

The Department of Finance enforces all course prerequisites; exceptions will not be made.

FIN 300 may not be used towards the minor.

RE 350 is cross-listed with FIN 350.

Note: Two hour FIN 398 or FIN 399 courses will not satisfy Finance Electives.

FIN 380 is a capstone course. It is recommended that students take this course after the completion of all required finance courses.

Graduation Requirements

All Finance (FIN) courses and any other courses used toward the Finance minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.
Finance (Minor: Business Students Only)

Students in the Driehaus College of Business who wish to round out their courses of study with a deeper understanding of financial management, investment banking, financial markets and investment strategy, may choose to minor in Finance.

Course Requirements

In addition to FIN 310 and FIN 320, a Driehaus student minoring in Finance is required to complete the following courses totaling at least 18.0 hours:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>FIN 202</td>
<td>QUANTITATIVE REASONING</td>

</tr>
<tr>
<td>RE 350</td>
<td>REAL ESTATE ANALYSIS</td>
<td></td>
</tr>
</tbody>
</table>

The Department of Finance enforces all course prerequisites; exceptions will not be made.

FIN 300 may not be used towards the minor.

Note: Two hour FIN 398 or FIN 399 courses will not satisfy Finance Electives.

RE 350 is cross-listed with FIN 350.

FIN 380 is a capstone course. It is recommended that students take this course after the completion of all required finance courses.

Graduation Requirements

All Finance (FIN) courses and any other courses used toward the Finance minor must be completed with a minimum grade of C- and with a combined GPA of 2.00 or higher.

Finance (MSF)

The Master of Science in Finance program provides students with the real-world skills necessary to succeed as finance professionals. Students develop a deep understanding of modern financial markets along with the instruments and tools used in the industry. In addition to acquiring a conceptual foundation, students learn to develop strategic financial objectives, improve investment decisions, design financial instruments, manage corporate risk and seize new business opportunities.

Program Features

Through the MS in Finance program, students will develop skills in:

- Financial decision-making techniques and strategies.
- Creating and developing solutions to complex financial problems.
- Designing, using and evaluating financial tools and instruments.
- Developing proposals for profitability and productivity.
- Outlining and identifying strategic financial objectives.
- Risk analysis.

The MS in Finance program is offered at DePaul’s Loop Campus, in the heart of Chicago’s financial district, allowing students to learn in the setting in which they will be working. Students will be encouraged to complete an internship and participate in extracurricular activities and seminars around Chicago.

Program Requirements

<p>| Introductory Requirements (waived with applicable prior credit): Candidates are expected to demonstrate competency in principles of financial accounting, microeconomics, macroeconomics, business calculus and statistics prior to enrollment in the program. Students who have not demonstrated these competencies through previous coursework are required to achieve these competencies prior to registration for the core classes. |</p>
<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>48</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Acquire both knowledge and skills that are broad, deep, and necessary to fulfill their professional goals.
- Use analytical and decision-making skills to solve problems encountered by business and investors.
- Apply financial theory to solve a variety of problems in investment management, risk management, and in corporate finance.
• Produce a coherent written statement of the analysis of a complex business issue.
• Understand and solve problems encountered by a multinational business.
• Develop the foundation to think about and address ethical issues in the context of financial markets and institutions.

Degree Requirements
Course Requirements
The MS in Finance program requires a minimum of 48 credit hours subject to the prerequisite requirement.

Prerequisites for the MSF Program
Students complete the Master of Science in Finance by taking six core courses and six elective courses in addition to the program prerequisites.

Candidates are expected to demonstrate competency in principles of financial accounting, microeconomics, macroeconomics, business calculus and statistics prior to enrollment in the program. Students who have not demonstrated these competencies through previous coursework are required to achieve these competencies prior to registration for the core courses.

Elective Requirement
Six elective courses are required. At least three of these required electives must be Finance courses. The other three required elective courses are considered free electives and may be satisfied in one of the following ways:

• another finance course
• a graduate course in Accounting, Computer Science (CDM), Data Science (CDM), Data Analytics (Management), Economics, Mathematics, or Real Estate (other disciplines or courses may be considered but require the permission of the faculty program director). Please see the catalog for the eligible free electives.

Degree Requirements
• Satisfactory completion of the college residency requirement.
• Satisfactory completion of the 6 required courses and 6 elective courses.
• All courses for credit toward the degree must be completed within six calendar years after the candidate’s first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years, a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree without the written approval of the director of the program and the Kellstadt Graduate School of Business.

Finance (MSF), Combined Bachelor’s + Master’s Degree

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Undergraduate DePaul Degree + Finance (MSF)

The Master of Science in Finance program will provide you with the skills necessary to succeed as a financial management professional. You will develop a detailed understanding of modern financial markets and the instruments and tools used in the industry. Courses in the program develop expertise in corporate finance, derivatives valuation, ethics, financial management, investment analysis, quantitative methods and risk management.

Admission

This program is available to all DePaul Undergraduates with a strong academic record. For admission to the combined program, applicants will need to provide:

• A completed application submitted to the Kellstadt Graduate School of Business (application fee will be waived).
• A current resume/curriculum vitae summarizing their work experience and educational background, no more than 2 pages in length, and
• A personal statement outlining their personal goals in pursuing the MS degree program, no more than 2 pages in length.
• A complete transcript of undergraduate courses.

The admissions committee may require applicants to participate in a personal interview.

Upon admission to the program students will take the following three courses while still enrolled as undergraduate students:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

<tr>
<td>FIN 524</td>
<td>FINANCIAL STATEMENT ANALYSIS</td>
<td>4</td>
</tr>
<tr>
<td>FIN 617</td>
<td>TOOLS OF FINANCIAL ANALYTICS</td>
<td>4</td>
</tr>
</tbody>
</table>

Upon successful completion of the undergraduate degree and the three courses above, students complete the Master of Science in Finance by taking 36 additional credit hours at the graduate level.

Finance Honors (BSB)

The honors program in finance is reserved for students of high promise and exceptional ability. Students admitted to this program are characterized by outstanding academic performance, exceptional leadership capability, high aptitude for superior academic work and exceptional ability for making meaningful contributions during a professional career.

Honors students in finance proceed through the program together in a cohort system with peers who have similar exceptional abilities. Courses reserved for honors students are advanced in nature, student-oriented, and small. Students in the program are afforded the opportunity to
interact with leaders from finance and business communities in small settings.

Learning Outcomes

Core Outcomes

Students will be able to:

- Use analytical and reflective skills in decision making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Program Specific Outcomes

Students will be able to:

- Understand financial theory and how it can be applied to financial decision making.
- Develop appropriate cash flows and discount rate analysis of projects, and financial instruments (e.g. bonds and stocks).
- Apply and interpret the appropriate risk measures (e.g. beta, standard deviation) to situations under uncertainty.
- Understand the role of agents and impact of governance.
- Understand the structure of the financial markets and the roles of institutions in those markets.
- Understand the flow of funds in the private and public markets.
- Know the determinants of the cost of funds.
- Understand how derivative instruments work and can be used for risk management.

College Core Requirements

Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of analytics, accountancy, mathematics, economics, business law, finance, management, management information systems/computer science, and marketing.

Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 66.0 hours are required:

<table>

</table>
Math Requirements for all business majors (except Actuarial Science majors)
- MAT 137 may be replaced by MAT 348 or MAT 351; if done, an additional Scientific Inquiry course must be added to the degree plan.

Math Requirements for Actuarial Science majors
- An Actuarial Science student is expected to complete the Calculus sequence (MAT 150, MAT 151, and MAT 152) in the first year of study.
- Actuarial Science students do not take MAT 135, MAT 136, or MAT 137.

Global Business Perspective
If a FIN course is shared between Global Business Perspective and the Finance major, additional hours of Open Elective credit are required.

Grade Minimum Requirements for Finance Major
A minimum grade of B+ is required in FIN 310. A minimum grade of C- is required for the following: ACC 101, ACC 102, BUS 102 ECO 105, ECO 106, FIN 320, MAT 137, the course used for Professional Writing, and any FIN course used for Global Business Perspective.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Junior Year
Experiential Learning
Required

Senior Year
Capstone
ICS 392  SENIOR SEMINAR I | 4

1 Students must earn a C- or better in this course.

Learning Domains
Arts and Literature (AL) (p. 1184)
- 3 AL Courses Required
Historical Inquiry (HI) (p. 1188)
- 2 HI Courses Required

Philosophical Inquiry (PI) (p. 1190)
- 2 PI Courses Required

Religious Dimensions (RD) (p. 1191)
- 2 RD Courses Required¹

Scientific Inquiry (SI) (p. 1192)
- MAT 137
- 1 Lab or SWK Course

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1193)
- 1 SCBI Course Required

¹ PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD.

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g., C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements
Admission Requirements
Students with an overall GPA of 3.300 and a minimum grade of B+ in FIN 310 or currently enrolled in FIN 310 may apply for admission into the program. The admissions committee will consider the student’s GPA, grade in FIN 310 as well as other evidence of superior academic performance for admission into the program.

Course Requirements
In addition to FIN 310 and FIN 320, a student majoring in Finance Honors is required to complete the following courses totaling at least 32.0 hours:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>

<td></td>
</tr>
</tbody>
</table>

¹ RE 350 and FIN 350 are cross listed and may only be completed once for credit.

Note: Two hour FIN 398 or FIN 399 courses will not satisfy Finance Electives.

Financial Reporting Sequence
Students who have taken the financial accounting courses, ACC 304, ACC 305 and ACC 306, are exempt from taking the financial accounting courses taught within the finance cohort, ACC 307-H and ACC 309-H.

ACC 304 will fulfill ACC 307-H in the finance honors requirements.

ACC 306 will fulfill ACC 309-H in the finance honors requirements.

Expectations
A cumulative GPA of 3.000 is required to remain in the program.

Once admitted, students will begin the curriculum in the spring quarter of the current academic year, and will complete the curriculum in the spring quarter of the following year. The honors student cohort will be exposed to rigorous and challenging courses in corporate finance, risk management, financial statement analysis, and financial accounting. Analytical writing and teamwork skills will be emphasized throughout the program.

Open Electives
Open elective credit (18.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

Global Business Perspective
If a FIN course is shared between Global Business Perspective and the Finance Honors major, additional hours of Open Elective credit are...
required. Any FIN course used toward Global Business Perspective must be passed with C- or higher.

**Career Management Course**

Finance Honors students are exempt from FIN 250. Students who double major must take the Career Course (250) associated with the double major.

**Experiential Learning**

If FIN 393 is completed in the Finance Honors major consult with academic advisor regarding options for Experiential Learning.

**Graduation Requirements**

A minimum grade of B+ is required in FIN 310. All other Finance (FIN) courses and any courses used toward the Finance major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

**Food Studies (Minor)**

The Food Studies minor brings together the social and natural sciences to explore urban and sustainable agriculture, scientific aspects of food, food security issues, and topics related to food cultures, food politics and food access. The Food Studies minor will enable students to pursue an interdisciplinary minor that complements their major field of study. This minor will give students the practical expertise in Geographic Information Systems (GIS), horticulture, urban agriculture and scholarship in issues of food access and food justice to engage in and contribute to debates about urban and community food systems, both locally and globally. In addition, the Food Studies minor will offer students the opportunity to pursue service-learning facilitated by the Steans Center for Community-based Service Learning.

Please note that no more than two courses from any department may count for the minor. Questions about the minor should be directed to Professor Maureen Sioh (Department of Geography).

**French (BA)**

In DePaul's French program, students will study French language, literature and culture. Because French is a major world language with more than 200 million speakers in more than 50 countries, having the ability to communicate in French will provide students with many career opportunities around the world.

Courses in the French major will cover a variety of topics, including:

- Business
- Cinema
- Civilization
- Communication
- Grammar
- Historical literary periods
- Phonology and phonetics
- Translation

For students interested in pursuing careers in education, the French department partners with the College of Education to award teaching degrees at the middle school and high school levels.

As French majors, students are encouraged to participate in one of DePaul’s study abroad programs in order to grow linguistically and expand their cultural understanding of French-speaking societies. DePaul sponsors two study abroad programs in Paris: one at Alliance Française and another at the Institute for the International Education of Students. It also has an exchange program with Sciences Po, an elite institution in the social sciences.

Chicago is a culturally diverse city, providing many opportunities to attend French lectures and festivals, dine out at French restaurants and see the work of French artists.

</table>

**Learning Outcomes**

Students will be able to:

- Proficiently speak, understand, read, and write the studied language(s) to:
  - Engage in conversations.
  - Interpret and create a variety of written texts.
  - Provide and obtain information.
Modern Language Requirement (MLR) may be demonstrated by:

- proficiency attained from one year of college-level language study. This language (i.e., a language other than English) equivalent to the All students will be required to demonstrate competence in a modern
language acquisition, and dialectology.
- acquire basic notion of the theory and practice of translation and interpretation.

College Core Requirements
Study in the Major Field
The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration
All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)
All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

The Modern Language Option (MLO)
The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace the Scientific Inquiry—Lab or Scientific Inquiry—Science as a Way of Knowing requirement.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency
A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.
Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

Learning Domains

**Arts and Literature (AL)** (p. 1184)
- 1 Course Required

**Historical Inquiry (HI)** (p. 1188)
- 2 Courses Required

**Philosophical Inquiry (PI)** (p. 1190)
- 2 Courses Required

**Religious Dimensions (RD)** (p. 1191)
- 2 Courses Required

Scientific Inquiry (SI) (p. 1193)
- 3 Courses Required
  [1 SWK Course, 1 Lab Course, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)
- 3 Courses Required

Notes

A student whose only major is in Modern Languages is required to complete the Capstone offered by the Department of Modern Languages (MOL). A student who is double majoring (or pursuing dual degrees) with the primary major (or primary degree) in MOL may substitute the Capstone of the secondary major or degree. An MOL major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the MOL Capstone.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Select five additional 300-level FCH courses

Concentration Requirements*

*Students must complete 16 credit hours of requirements from one of the following two concentrations: Commercial French or Standard ([https://catalog.depaul.edu/programs/french-ba/#concentrationrequirements#text](https://catalog.depaul.edu/programs/french-ba/#concentrationrequirements#text)). Students who begin their study of French at DePaul with FCH 202 or higher may substitute a 300-level French elective course for any of the required 200-level courses.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Study Abroad Requirements

**Year-Long Program**

Students on a year-long study abroad program would most likely complete 10 courses, 5 of which may be applied to their French Major or Minor provided the courses are at the B1 level or higher for FCH 200 level credit and B2 level for FCH 300 level credit. The remaining courses might fulfill various learning domains or other major/minor requirements. They could also potentially be counted as general electives. Note that the 5 French courses completed on a year-long program will most likely
The remaining courses may fulfill various learning domains or other major/minor requirements. They could also potentially be counted as general electives. Note that the 3 French courses taken on a semester-long program will most likely generate more than 3 courses worth of credit (18 vs. 12); the excess credits could be used toward the fulfillment of domain requirements, if possible, or applied to general electives, as appropriate.

Concentrations, tracks, and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Commercial French Concentration, French (BA) (p. 443)
- Standard Concentration, French (BA) (p. 444)

### Commercial French Concentration, French (BA)

As an alternative to the traditional major, the French program also offers a concentration in Commercial French. Students choosing this Commercial concentration are interested in complementing their advanced intercultural language study with a foundation in international business skills. The bridge courses in the concentration (FCH 320 and MGT 300) integrate students' knowledge across disciplines, and the two additional electives allow them to further explore their area of interest in business.

Students are encouraged to meet regularly with the French Program Director and the MOL staff advisor to discuss electives for this concentration.

### Course Requirements (8 quarter hours)

Note: MGT 300 is a prerequisite for MGT 302, MGT 354, MGT 355, MGT 360, MGT 361, MGT 373.

### French 3+3 (BA+JD)

In the 3 + 3 (BA+JD) Program, high-achieving first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

### Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of tuition, reducing their overall debt load.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Credits receive early (conditional) admission to the College of Law.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

### Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students must achieve a cumulative GPA of 3.35 by the end of their second year of study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness
requirements for admission, and submit an LSAT score. The activities should be completed no later than the end of the Autumn Quarter of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

**Standard Concentration, French (BA)**

**Core Requirements**

</tr>
</tbody>
</table>

Students who begin their study of French at DePaul with FCH 202 or higher may substitute a 300-level French elective course for any of the required 200-level courses.

**French (MA)**

DePaul’s MA program in French provides students a customizable, flexible curriculum to develop advanced linguistic and cultural expertise in a language and to apply that expertise in the disciplinary or professional contexts of their choice. Whether in the “global village” of today’s world or in multi-ethnic communities such as Chicago, this advanced expertise is an increasingly valuable personal and professional asset, requiring appropriate training and credentials. The MA program especially seeks to serve adult professionals (government employees, social workers, healthcare providers, business people, or certified K-12 teachers) whose careers require this applied expertise.

The MA in French may be expanded also to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- French + Digital Humanities Certificate
- French + Teaching English to Speakers of Other Languages (TESOL) Certificate

**Degree Requirements**

**Course Requirements**

The curriculum of the MA in French consists of twelve courses (48 quarter credit hours), divided into two parts:

- A core curriculum of four required courses (16 quarter credit hours), and
- Eight courses (32 quarter credit hours) in the language area, which must include an approved “cluster” of at least four courses (16 quarter credit hours) focused on a particular professional application or disciplinary interest.

Students must select these course clusters in consultation with an advisor. All courses in the language area must be courses taught in the target language of the student’s program (i.e. courses with prefixes FCH). In exceptional cases, with the approval of the student’s advisor and the director of the graduate program, a student may count one or two courses taught in English from allied fields (such as art history, economics, education, geography, health sciences, management, philosophy, political science, religion, sociology, etc.) among the eight “language area” courses in the student’s program.

**Core Curriculum**

The core curriculum consists of the following four courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MOL 401</td>
<td>PROFESSIONAL FOUNDATIONS</td>
<td>4</td>
</tr>
<tr>
<td>MOL 402</td>
<td>LANGUAGE, SELF AND SOCIETY</td>
<td>4</td>
</tr>
<tr>
<td>MOL 403</td>
<td>COMMUNITIES OF PRACTICE</td>
<td>4</td>
</tr>
<tr>
<td>MOL 496</td>
<td>MAMOL CAPSTONE</td>
<td>4</td>
</tr>
</tbody>
</table>

In addition, all 300-level courses in the respective languages are offered simultaneously as 400-level electives to complete the MA program. The 400-level courses have additional requirements.

**Additional Requirements**

Additional requirements include:

- ACTFL Oral Proficiency Interview
- Portfolio Project

**Learning Outcomes**

Students will be able to:

- Speak and participate in most informal and some formal conversations from topics related to school, home, and leisure activities, to many related to employment, current events, and matters of public and community interest.
Graduation with Distinction
Students from the MA programs in Modern Languages earn their degrees “with distinction” if they graduate with a cumulative grade point average (GPA) of 4.0 (on a scale where 4.0=A). To verify eligibility, students and their faculty advisors should contact the departmental advisor and the departmental director of graduate studies before the deadline to apply for graduation.

French (MA), Combined Bachelor's + Master's Degree
The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + French (MA)
Admission to this combined Master of Arts program is based on a minimum level of language proficiency (ACTFL rating of “Intermediate High”) rather than on prior coursework. Therefore, it is open to students with any undergraduate majors with the accompanying language ability. The program is designed to prepare students for advanced use of their linguistic skills in any area of professional interest (from business, government, and education to further graduate study).

The program requires 48-quarter hour credits of coursework. This coursework consists of:

1. 16-quarter hour credits of required courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MOL 401</td>
<td>PROFESSIONAL FOUNDATIONS</td>
<td>4</td>
</tr>
<tr>
<td>MOL 402</td>
<td>LANGUAGE, SELF AND SOCIETY</td>
<td>4</td>
</tr>
<tr>
<td>MOL 403</td>
<td>COMMUNITIES OF PRACTICE</td>
<td>4</td>
</tr>
<tr>
<td>MOL 496</td>
<td>MAMOL CAPSTONE</td>
<td>4</td>
</tr>
</tbody>
</table>

2. 32-quarter hour credits of elective coursework, specifically relevant to each individual student's professional interests and language, and chosen in consultation with the student's faculty advisor.

The required courses (MOL 401, MOL 402, MOL 403, and MOL 496) are each worth 4-quarter hour credits. Elective courses may vary in credit. Because each student pursues a highly customized selection of coursework, it may include independent study, practicum, study abroad, or transfer credits that allow students to complete in any term additional credits toward satisfaction of degree requirements. Depending on their individual interests, students may (with approval of their advisor) also take as electives courses taught in English by other DePaul units, provided that the students satisfy any relevant prerequisites for those courses.

French (Minor)
A minor in French is customizable to fit the goals of each student, with an aim of general proficiency in writing, reading and speaking French. The student may choose to focus on a specific area to complement the course of study.
The minor consists of a total of 5 courses in French language at the 200/300-level. Courses taught in English will not be counted toward this minor unless Program Director permission is secured.

Students majoring in French (BA) or minoring in Commercial French or French Translation are restricted from earning this minor.

**French Translation (Minor)**

**Course Requirements**

- 12 credits of advanced (200-level) coursework in French language, selected to develop appropriate levels of proficiency in the language and to provide an introduction to translation
- 12 credits of advanced (300-level) coursework in translation classes

Depending on their level of prior expertise with French, students may need to complete courses at the Basic and Intermediate levels before enrolling in 200 or 300-level language courses.

Students majoring in French (BA) or minoring in French or Commercial French are restricted from earning this minor.

**Fundamentals of Psychology (Minor)**

The Fundamentals of Psychology minor will give you a foundation in the major topic areas in psychology. This minor is good for people who want to round out their current major with core courses in psychology or think they might want to pursue a psychology oriented major in graduate school (e.g., social work).

This minor is only for non-psychology majors and a maximum of one psychology minor may be earned by a student.

Psychology majors cannot earn a minor in Fundamentals of Psychology.

Six psychology courses are required, including:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSY 105</td>
<td>INTRODUCTORY PSYCHOLOGY I</td>
<td>4</td>
</tr>
<tr>

<td>INTRODUCTORY PSYCHOLOGY II</td>
<td>4</td>
</tr>
<tr>
<td>PSY 333</td>
<td>CHILD PSYCHOLOGY</td>
<td></td>
</tr>
<tr>
<td>PSY 334</td>
<td>ADOLESCENT PSYCHOLOGY</td>
<td></td>
</tr>
<tr>
<td>PSY 347</td>
<td>SOCIAL PSYCHOLOGY</td>
<td></td>
</tr>
<tr>
<td>PSY 351</td>
<td>THEORIES OF PERSONALITY</td>
<td></td>
</tr>
<tr>
<td>PSY 360</td>
<td>THEORIES OF LEARNING AND COGNITION</td>
<td></td>
</tr>
<tr>
<td>PSY 361</td>
<td>HISTORY AND SYSTEMS OF PSYCHOLOGY</td>
<td></td>
</tr>
<tr>
<td>PSY 373</td>
<td>HAPINESS, JUDGMENT AND DECISION MAKING</td>
<td></td>
</tr>
</tbody>
</table>

Select any two additional psychology courses. It is recommended that they be from the above list, but it is not required.

**Learning Outcomes**

Students will be able to:

- Collaboratively generate ideas, share them and assess their inherent risks and scope.
- Translate game ideas into playable prototypes.
  - Assess prototypes in regard to feasibility and creative value.
  - Iterate on prototype until they have a viable, playable version.
- Plan and manage their own development tasks to work effectively within a cross-disciplinary team.
- Evaluate games with users using multiple common game user research methods.
- Manage the pipeline for games, effectively evaluating the impact of potential changes.
- Develop a foundational literacy and confident in reading, writing, and modifying computer programs and scripts.
- Clearly communicate and establish the vision for a game's experiential goal by taking formal and dramatic game elements into account.
- Intentionally draft experiences that leverage and develop the unique affordances of games as an artistic medium.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

**Game Design (BS)**

A game designer conceives and crafts the rules, structure and experience of a game. The Game Design degree equips students to become the next generation of creative leaders in the growing field of games. Throughout the program students will explore and push the boundaries of games as expressive and artistic media. They will develop skills for each phase of the game design and development cycle including ideation, iteration through the creation of multiple playable game builds (including prototypes), and reflection on the effectiveness of their designs using playtesting and written evaluations. Students will also develop skills and confidence in reading, writing, and modifying computer programs and scripts. Students will collaborate in interdisciplinary teams with programmers, artists, producers, writers, and audio designers. This program has an emphasis on building a portfolio of games and advancing the medium of games through experimentation and innovation.

Select twenty (20) credit hours of Major Electives 20
Select sixteen (16) credit hours of Open Electives 16

Major Electives
Major elective courses must meet the following criteria:

• Eight (8) credit hours of Major Electives must be selected from GAM courses at the 300-level
• Twelve (12) credit hours of Major Electives must be selected from any 200-level ANI, CP, DOC, FILM, GAM, GD, GPH, POST, SCWR, UXD, or VFX courses or from any 300-level CDM course

Open Electives
Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

See www.cdm.depaul.edu (http://www.cdm.depaul.edu) to see sample schedule of course requirements on a year-by-year basis.

Game Design (MFA)
This degree is for creative visionaries intent on producing socially, culturally, and emotionally substantial work. The degree prepares students to advance the frontier of games by exploring emerging theories and applying them to practice. The games students create throughout their degree will be challenged by peers and faculty in critiques. Graduates of the program will be equipped to define and realize their authentic, thriving professional lives. An MFA is also a terminal degree that opens opportunities to teach at the university level and enter an academic tenure-track career.

Program Requirements 64
Degree Requirements 64
Total hours required 64

Learning Outcomes
Students will be able to:
• Situate their creative practice within historical, aesthetic, and social contexts; design and develop games that are significant in those contexts.
• Leverage the affordances of games to intentionally evoke specific emotions and experiences, purposefully communicate ideas as well as have the desired social impact.
• Critique games from a variety of perspectives including historical, aesthetic, and social.
• Iteratively build projects up from simple prototypes to increasingly complex systems.

Degree Requirements
Course Requirements
No Introductory Course may be substituted for any other course at any level.

1 Focus Area Electives include any graduate level GAM, ANI, CP, DOC, FILM, POST, SCWR, GD, EXP, UXD, GPH, or VFX courses. Students should work with their faculty advisor to select a grouping of Focus Area Electives that will best serve the student’s professional trajectory.

2 Students must take GAM 600 THESIS STUDIO three (3) times, over three consecutive quarters. Twelve (12) credit hours are required.

MFA Thesis Proposal and Development
In parallel to taking Incubation Studio in Winter quarter of their second year to prepare their Thesis proposal, students must solicit a Thesis committee consisting of 2-3 members. At the end of the Incubation Studio each student’s Thesis committee assesses their progress and provides feedback and guidance on the Thesis proposal. By the beginning of Spring quarter the Thesis committee will have given feedback and students will have had the opportunity to revise their Thesis proposal. With their Thesis committee’s approval candidates can enter Thesis Studio Spring quarter to begin their Thesis project. Candidates continue Thesis development through Thesis Studio courses taken in the Fall and Winter quarters of their third year. In addition to work completed in the Thesis Studio courses students are required to provide quarterly evidence of progress, iteration, and refinement to their Thesis committee in the form of playable prototypes, proof of concept papers, or other appropriate means. The forum to present progress is in an end-of-quarter critique with the entire third-year cohort and all Thesis committee faculty in attendance.

MFA Thesis Showcase and Defense
Candidates will turn in a final draft of their completed Thesis project by the end of the Winter quarter of the third year and be required to publicly show their work in the annual MFA showcase or exhibit their work in a juried venue. The candidate will defend the Thesis before the Thesis committee who will review the Thesis project to decide whether the candidate should be awarded the degree. If the committee does not deem the project ready for approval, the student will be given notes and asked to resubmit their project. Students may resubmit up to three times. If a student’s project is not deemed passable after the fourth time, the student will not receive the MFA. Students have eighteen months from the submission of their first draft to obtain the committee’s approval or the degree will not be awarded.

Game Design (Minor)
The minor in Game Design exposes students to the three areas of game development — animation design, writing and production.

Game Programming (BS)
Students in this program engage in the rigorous study of computer science basics, and then apply this knowledge to the demanding specialization of game programming. Programmers bring their technical understanding of game internals to the problem of delivering engaging game experiences to players. Areas of study include level design, game scripting, computer graphics development, game physics, and artificial intelligence programming.

Learning Outcomes

Students will be able to:

- Demonstrate proficiency with C++ programming language.
- Create and design large software systems using design pattern techniques.
- Design and implement real-time game engine.
- Apply graphics and rendering techniques to support game engine operations.
- Create and manage the development schedule of a large software project.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Students must earn a grade of C- or higher in all major elective courses.

Open Electives
Open elective credit also is required to meet the minimum graduation requirement of 192 hours.
See www.cdm.depaul.edu (http://www.cdm.depaul.edu) to see sample schedule of course requirements on a year-by-year basis.

Game Programming (MS)
The MS in Game Programming is designed for those interested in game development programming at the highest level, including computer science and computer graphics professionals retooling for the game industry.

</tbody>
</table>

Learning Outcomes
Students will be able to:

- Demonstrate mastery of the C++ programming language.
- Use design patterns to create and design large-scale real-time software systems.
- Architect and implement real-time Game Engine.
- Implement and apply advanced rendering techniques for real-time graphics simulation.
- Create and manage a development schedule of a complex software projects.

Degree Requirements

Course Requirements
No Introductory Course may be substituted for any other course at any level.

Introductory Courses
Course Title Quarter Hours
CSC 400 DISCRETE STRUCTURES FOR COMPUTER SCIENCE 4
CSC 401 INTRODUCTION TO PROGRAMMING 4
CSC 402 DATA STRUCTURES I 4
CSC 403 DATA STRUCTURES II 4
CSC 406 SYSTEMS I 4
CSC 407 SYSTEMS II 4
Introductory courses may be waived for any of the following conditions:

- The student has the appropriate course work to satisfy an Introductory Course.
- The student has appropriate and verified professional experience to satisfy an Introductory Course.
- If an exam is available, the student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.

Foundation Courses
Course Title Quarter Hours
GAM 425 APPLIED 3D GEOMETRY 4
CSC 461 OPTIMIZED C++ 4
SE 456 ARCHITECTURE OF REAL-TIME SYSTEMS 4
GPH 469 COMPUTER GRAPHICS DEVELOPMENT 4 or GAM 470 RENDERING AND GRAPHICS PROGRAMMING

1 Students who take GAM 690 GAME DEVELOPMENT STUDIO I to fulfill their Major Elective Requirements MUST take GAM 691 GAME DEVELOPMENT STUDIO II.

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
- Students pursuing a second master’s degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

For DePaul’s policy on repeat graduate courses and a complete list of academic policies, see the DePaul Graduate Handbook.

Game Technical Director (Minor)

This minor is only available to students in the Game Programming BS and the Computer Science BS who complete GAM 325 Applied 3D Geometry and GAM 370 Rendering and Graphics Programming as part of their degree requirements.

ANI 378  3D DYNAMICS  

General Psychology (Minor)  
The General Psychology minor enables students to select courses in psychology tailored to their particular interests or career goals. This minor allows students maximum flexibility to complement a variety of majors and areas of interest.  
This minor is only for non-psychology majors and a maximum of one psychology minor may be earned by a student.  
Psychology students cannot earn a minor in General Psychology.  
Six psychology courses are required, including:  

<table>

Generalist Nursing (MS)  
Designed for the college graduate who wants to become a registered nurse, the Master’s Entry to Nursing Practice (MENP) program provides the advanced education for general professional nursing practice and eligibility for the RN licensure examination (NCLEX-RN).  

Program Goals and Learning Outcomes  
The purpose of the MENP program is to prepare qualified individuals for:  
- Licensure by examination (NCLEX-RN) required for entry into professional nursing practice  
- Advanced professional practice and leadership in health promotion and illness care  
- Collaboration and scholarship with others to meet the present and future health needs of society  
- Community service for vulnerable populations in the Vincentian tradition  
- Continuing academic and clinical education at the post-graduate and doctoral levels  

Learning Outcomes  
Students will be able to:  
- Analyze nursing concepts, theories, and research to design, implement, and evaluate family- centered and community- based models of professional nursing.  
- Develop a personal philosophy of professional nursing in the context of extant philosophies, nursing’s history and its evolution as a discipline.  
- Promote professional awareness of multicultural practice within nursing.  
- Contribute to excellence in patient care and advances in nursing knowledge across the lifespan through advanced health assessment, evidence-based professional practice, systematic inquiry, planned innovation, and dissemination of information to consumer and professional audiences.  
- Assume a leadership role within the health team and the profession for safe, effective and affordable health care with individuals, families, and communities.  
- Demonstrate autonomy, integrity and social justice in professional nursing practice.  
- Analyze professional codes and standards as a basis for professional nursing practice and service to a multicultural society.  
- Use an analytical framework to evaluate information systems and technology in health care.

Program Graduate Academic Student Handbook

A complete list of policies specific to the nursing programs of study is contained in the Student Handbook that is updated regularly on the website for the School of Nursing. The complete MENP handbook can be found here: MENP Student Handbook (https://csh.depaul.edu/academics/nursing/student-resources/Pages/student-handbook.aspx)

Admissions Policies

1. Students must meet all admissions requirements of the University as outlined in the current Bulletin.
2. The School of Nursing is committed to the principles of non-discrimination and equal opportunity for all persons. Students are evaluated and admitted to the program without regard to race, color, religion, gender, sexual orientation, age, or national origin.
3. The School of Nursing is committed to providing equal access for all students with disabilities. Eligibility for services and accommodations is determined by the Office for Students with Disabilities and/or the Plus Office. Students with disabilities who wish to receive services and accommodations at DePaul University must have their disability on record with either one or both of the above offices.
4. Applications are evaluated and students are selected for admission by the Admission, Progression, and Retention Committee for potential to successfully complete program objectives.
5. Graduate entry nursing students must have earned a BA or BS from a regionally accredited institution. They must have an undergraduate GPA of 3.0/4.0 or higher and a GRE score of 153 or higher on the verbal section, a score of 144 or higher on the quantitative section and a 4.0 on the analytical section for admission to the program. The GRE is waived if the undergraduate GPA is 3.2 on a 4.0 scale or higher.
6. Non-native English speakers must have a TOEFL score of 590 (PBT) or higher or 96 (IBT) or higher.
7. Graduate entry nursing students must have completed:
   a. Two courses of chemistry (organic and inorganic) with labs OR one course of chemistry and one course of microbiology, both with labs.
   b. Two courses of human anatomy/physiology with labs
8. Applications must include:
   a. Two letters of reference from former faculty or employer
   b. Curriculum vitae or resume
   c. Short answer responses to the following prompts:
      i. How will your prior background contribute to your ability to fulfill the daily responsibilities of an entry-level registered nurse? (200 word max)
      ii. St Vincent DePaul observed the needs of impoverished people with disparities to access to healthcare. He ultimately dedicated himself to answering a single question: "What must be done?" How will you utilize a nursing degree obtained from DePaul University? (200 word max)
      iii. Please address the strengths and opportunities for growth in your application (i.e., explanation for GPA below 3.2, repeated coursework, gaps in academic history and performance on standardized tests). (200 word max)
9. Applicants may submit applications online at www.depaul.edu/apply (http://www.depaul.edu/apply/) with a $40 application fee or through Nursing CAS, an online centralizes application service for nursing programs nationwide (http://nursingcas.org/).
10. The student is responsible for meeting all conditions of admission and for notifying the School of Nursing once all conditions have been fully met.

Procedure for Admission

1. Application materials are available on-line at the University web site. All forms, recommendations, test scores, transcripts, personal essays, and fees are required to complete the application process. Incomplete applications may result in delayed or denied admission for the current term. It is the student’s responsibility to insure that all parts of the applications are submitted in a timely fashion.
2. Admission of transfer students requires completion of a formal transcript evaluation of all post-secondary schools attended. Students must supply official transcripts.
3. The MENP program follows the College of Science and Health Transfer Credit Approval policy for graduate students (http://csh.depaul.edu/student-resources/advising-student-services/graduate-advising/Pages/transfer-credit-approval.aspx). Students who wish to transfer credit should follow the submission guidelines stipulated in the CSH policy.
4. Completed applications are reviewed by the School of Nursing and the College of Science and Health as they are received. Applicants are notified of their acceptance or non-acceptance by the Department of Admissions. Qualified students are admitted on a space available basis.
5. Per SON policy, students must take and complete all programs of study at the campus of original matriculation. For example, if a
Retention Policies

Students must maintain a cumulative GPA of 3.0 or greater to remain in good standing. A student will be placed on academic probation if the cumulative GPA dips below 3.0. The student must enroll in the School of Nursing Success Coaching program for mandatory remediation at this time. If the cumulative GPA rises to at least 3.0 at the end of the next academic quarter with coursework, the student is no longer on academic probation. If the cumulative GPA has not risen to at least 3.0 at the end of the next academic quarter with coursework, the student will be academically dismissed from the program.

1. If a student earns a C or C- in any course, the student is placed on academic probation a ‘Pass’ grade in NSG 443 is acceptable. The student must enroll in the School of Nursing Success Coaching program for mandatory remediation at this time. If the student is able to earn grades in all courses that are C+ or above AND earn a cumulative GPA of 3.0 or greater in the next academic quarter with coursework, the student is no longer on academic probation. If this does not occur, the student will be academically dismissed from the program.

2. A student who earns a D+ or lower in any course will be academically dismissed from the program.

3. A student may be placed on academic probation a maximum of two times during his/her program, with no more than one placement on academic probation per academic year. Placement on academic probation two times within one academic year is grounds for academic dismissal. Likewise, an occurrence of an earned grade of C or C- or a cumulative GPA below 3.0 a third time during the student’s time in the program is grounds for academic dismissal.

4. Clinical courses may not be re-taken to raise an unsatisfactory grade.

5. In accordance with the nursing licensing regulations, students found to be convicted of serious crimes (felonies, substance abuse) will be reviewed by the Admissions, Progression, and Retention Committee and may be suspended or dismissed from the program.

6. The School of Nursing expects a respectful environment conducive to teaching and learning from all students, faculty, and staff. Inappropriate conduct is defined as any action that interferes with the creation and maintenance of an effective learning environment. Students are expected to display civility in all aspects of their educational experience at DePaul University.

7. Appropriate student conduct is outlined in detail in the School of Nursing Professional Development Guidelines (Appendix B in the Student Handbook (https://csh.depaul.edu/academics/nursing/student-resources/Pages/student-handbook.aspx)). Appropriate student conduct includes but is not limited to: being punctual for all classes; displaying courtesy; maintaining professional standards and safe practice in the clinical areas; maintaining academic integrity, avoiding leaving the classroom/clinical area other than during designated breaks and only with the permission of the responsible faculty member; fostering a positive learning environment by respecting the ideas and opinions of others; not talking during class or engaging in activities that distract the attention of others, including keeping cell phones and pagers set on silent mode; respecting others, including not making sarcastic or disrespectful remarks, using foul language or swearing; not threatening others; and remaining emotionally calm without inappropriate outbursts.

8. Students displaying inappropriate conduct may be asked to leave the classroom, clinical area, or meeting. Inappropriate conduct will be documented with a written copy of the incident placed in the student’s file. Such incidents of inappropriate conduct will then be reported to the Director of the School of Nursing, with copies sent to the Associate Director of the Program, and the Admissions, Progression, and Retention Committee. Additional sanctions for inappropriate conduct may be imposed, including dismissal from the nursing program.

Progression Policies

1. All students must attend an orientation session before beginning the nursing program of studies.

2. All students must meet with their assigned academic advisor during the first quarter of the program to review their official program of studies for the current academic year. The student is responsible to sign the coversheet of the Student Handbook (https://csh.depaul.edu/academics/nursing/student-resources/Pages/student-handbook.aspx) and give this to his/her advisor at the time of their initial meeting.

3. Students must meet with their academic advisor at the end of the first academic year and at least once during each subsequent academic year to review progress in the program and plan for the following year. Advisors are not generally available during the months of July and August.

4. A student may not register for any course that has a prerequisite if that student has an incomplete in the prerequisite course.

5. Students may not attend classes in a course for which enrollment is blocked. No credit will be awarded for assignments completed when not officially enrolled in a course. This includes assignments previously completed and turned-in for courses taken in the past.

6. All required health records, evidence of CPR certification, criminal background checks, personal health insurance, and professional liability insurance must be kept on file in the SON. It is each individual student’s responsibility to keep all of their records up-to-date. Drug screens are required for clinical placements. See Clinical Guidelines for further information. Failure to have all records present and up-to-date at the beginning of each course will result in inability to attend the clinical component of the course.

7. Leave of Absence:
   a. Students who need to interrupt their studies for personal, health or other reasons may request a leave of absence for up to one full year. The request should be made to the Associate Director of the program and the Coordinator of Clinical Placements and Admission, Progression and Retention Committee should be notified. Depending on circumstances and estimated length of absence, the Associate Director or student’s academic advisor may recommend additional action to complete the request process.
   b. Students who wish to return to the program following a leave of absence need to submit a written request for resuming coursework to the Admissions, Progression, and Retention Committee. It is the student’s responsibility to send a copy of such request to the Director of the School of Nursing, the student’s faculty advisor, the Associate Director of the Program, and the Coordinator of Clinical Placements. This written request should demonstrate the resolution of the extenuating circumstances contributing to the original need to leave the DePaul Nursing Program. This request for reinstatement must be made no less than 6 weeks prior to resuming the nursing course sequence. Students will be notified in writing regarding the decision concerning their re-entry to the program. Individual
assessment of current knowledge and clinical skills will be made prior to placement of the student in the appropriate level within the nursing program. Students who become “out of sequence students” due to withdrawal, or military/medical/family leave of absence will be placed into a clinical rotation upon re-entry based upon space available and cannot be guaranteed placement in the next available clinical course needed. “Out of sequence students” cannot displace in-sequence students from a clinical spot.

8. Students who have taken a leave of absence from the program for greater than 12 calendar months must re-apply to the university. Their application will then be considered with all other qualified applicants applying for admission to the nursing program.

9. A student who withdraws from a core nursing course while in good standing cannot progress in the sequenced nursing curriculum until that course has been successfully completed. In courses that contain both a clinical practicum and a lecture component, both course segments must be completed simultaneously. Exceptions may be identified and defined by the Admissions, Progressions and Retention Committee (APR) in consultation with both the Director of the School of Nursing and the Associate Director of the Program and the course faculty.

10. A student who withdraws from a core nursing course who is ‘not in good standing’ (with a grade of “C” or lower or on probation) at the time of withdrawal, will be referred to the Admissions, Progressions, and Retention Committee (APR). The APR will meet to review the student’s past and current performance and to elicit recommendations from the course faculty. A representative of the APR committee may then meet with the course faculty and the Associate Director of the Program and student to counsel the student and to establish a contract for academic improvement. Such students may not progress in the sequenced nursing curriculum until the course has been retaken and successfully completed. In courses that contain both a clinical practicum and a didactic theory portion, both course segments must be completed simultaneously.

11. A student may withdraw from a core nursing course ‘not in good standing’ (with a grade of “C” or lower) only once during their program of study. A second such withdrawal will result in dismissal from the program.

12. All out of sequence students will be placed in clinical on a space/faculty available basis. Priority will be given to students who are out of sequence for military service, severe illness, or family leave rather than for failure or withdrawal ‘not in good standing’.

13. A student who has a grade of B- (86% or less) at mid-quarter may be placed on contract for academic improvement by the instructor. The student must satisfactorily fulfill all course and contract requirements by the end of the quarter of contract initiation in order to progress in the program.

14. A student currently enrolled in a degree program in which revisions are approved while their studies are in progress may elect to formally adopt the revised requirements.

15. In accordance with DePaul University policy, students must complete their program within 6 years of matriculation.

**Academic Integrity Policy**

Violations of academic integrity in any form are detrimental to the values of DePaul, to the students’ own development as responsible members of society and to the pursuit of knowledge and the transmission of ideas. Violations of academic integrity include but are not limited to: cheating, plagiarism, fabrications, falsification or sabotage of research data, falsification of clinical data, destruction or misuse of the university’s academic resources, academic misconduct, and complicity. If an instructor finds that a student has violated the Academic Integrity Policy, the appropriate initial sanction is at the instructor’s discretion. An instructor may choose to file an academic integrity violation with the university. Actions taken by the instructor do not preclude the college or the university from taking further action, including dismissal from the university. Conduct that is punishable under the Academic Integrity Policy could result in criminal or civil prosecution. The full Academic Integrity Policy can be found here ([https://offices.depaul.edu/academic-affairs/faculty-resources/academic-integrity/Pages/default.aspx](https://offices.depaul.edu/academic-affairs/faculty-resources/academic-integrity/Pages/default.aspx)).

**Academic Integrity Policy Extension for Clinical and Service Settings**

DePaul University is committed to education that engages its students, faculty and staff in work within Chicago’s institutions and communities. As DePaul representatives to our partner institutions and community organizations, we ask that you take seriously your responsibilities to these institutions during service and clinical experiences and internships. The community and its institutions are extensions of the DePaul classroom. The University’s Academic Integrity Policy and Code of Responsibility apply to professional interactions as well. See also The School of Nursing Professional Development Guidelines (Appendix B in the Student Handbook ([https://csh.depaul.edu/academics/nursing/student-resources/Pages/student-handbook.aspx](https://csh.depaul.edu/academics/nursing/student-resources/Pages/student-handbook.aspx))).

**Student Advising/Program of Study**

1. A faculty advisor will be assigned to each student upon acceptance to the program. The advisor will assist in developing an appropriate program of studies according to the student’s preferences, abilities, and anticipated course availability. Students are required to meet with their advisors during their first quarter in the program, at the end of the first academic year and once per academic year following. Students are encouraged to review the student handbook prior to meeting with their advisor. Students should bring the Student Handbook Agreement Statement to the meeting. Once it is signed by student and advisor, it should be uploaded to Castle Branch.

2. Classes are scheduled so that a full-time student can complete the typical program of studies in the designated time frame. Part-time students or students taking courses out-of-sequence, may experience delay in obtaining necessary courses for timely progression in the program.

3. Students who need to change to part-time status must follow the steps below and need to be aware that they may experience delay in obtaining necessary courses for timely progression in the program. To request a change from full- to part-time status, the student must:
   a. Meet with his/her academic advisor and the Associate Director of the Program
   b. Upon approval of change in status, the Associate Director of the Program will become the student’s academic advisor
   c. The Associate Director and student will develop an adjusted program of study that the student will follow.

4. The student is responsible for setting-up an appointment with the designated advisor to develop an individualized program of studies.

5. The student is responsible for obtaining a copy of the program of studies worked out during the faculty-student advising session.

6. The student is responsible for enrolling in classes in the sequence identified in the program of studies. Should circumstances interrupt or delay registering for the designated classes, students must notify the Associate Director of the Program, the department administrative assistant, and faculty advisor for modification of the planned program.
of studies. The Admissions, Progression, and Retention Committee, and the Coordinator of Clinical Placements will be notified by the faculty advisor of the proposed interruption.

7. The student is responsible for meeting all prerequisites to courses for which the student is registering.

8. The student is responsible for scheduling periodic student-advisor, and student-instructor conferences.

9. The student may not register for any clinical course until all conditions of admission, undergraduate nursing prerequisites, and liberal arts and science requirements are completed. Students who are not in compliance will be withdrawn from the course(s) for which they are currently registered. Students will be denied progression in the program up to and including being denied graduation until all requirements are met.

**ATI Exam Policy**

All MENP students are required to pass each proctored ATI exam at either Proficiency Level 2 or 3 on the first attempt to receive full credit in the corresponding courses. For students who pass the ATI at Level 3 on the first try, they will receive 5%. For students who pass the ATI at Level 2 on the first try, they will receive 3%. Students who score below Level 2 on the first attempt will earn 0% at that time, but will be able to earn 1.5% course credit through completion of mandatory remediation and retake of the exam with resulting score of Level 2 or above for an additional 1.5%. In the event that a student does not pass the ATI retake at Level 2 proficiency, the student will meet with the course director and program director to be alerted to their weakness in this content area and to the possibility of risk to successful completion of the program and NCLEX. The student and course director will discuss a plan whereby the student will further self-remediate for the content area(s) in question prior to taking NCLEX.

**Remediation**

Students who fail to achieve a Level 2 or higher in an ATI exam in a clinical course on the first attempt will be required to complete remediation before retaking the exam. This will consist of reviewing the individualized ATI Remediation Plan with the course director, completing assigned hours and items of remediation as determined by the course director. Once remediation has been completed as determined by the course director, the student will earn 1.5% course credit.

Students will be required to wait a minimum of 1 week between the initial ATI exam and the retake. If the retake has not been completed by the time final course grades are submitted, the student will receive an incomplete in the course until this requirement has been satisfied. If a student retakes the ATI exam and achieves a Level 2 or higher, the student will receive 1.5% of the course grade. This will give the student a total of 3% of the available 5% of the total course grade allocated to the ATI exam (1.5% for successfully completing the remediation work and 1.5% for passing the ATI exam on the second attempt). If a student fails to achieve Level 2 or higher on the second attempt, the student will receive a total of 1.5% of the available 5% of the total course grade allocated for the ATI exam for having successfully completed the remediation work.

Students taking the Comprehensive ATI are required to achieve a 94 to 95% percentile rank as passing. If the Comprehensive ATI is not passed on the first attempt, a remediation contract will be developed with the student, after the student has met with the academic advisor and Director of the MENP program.

**Clinical Guidelines**

The student acknowledges that all DePaul University and School of Nursing academic and conduct policies remain in place during clinical experiences. The student also agrees to comply with all of the policies set forth by the clinical site. The student understands that failure to comply with university or School of Nursing policies or the policies of the clinical site may result in sanctions, including removal from the clinical site and/or the course. The student understands that it is his/her responsibility to immediately notify his/her instructor in the event that the student encounters problems with his/her supervisor, preceptor, or staff at the site. A student may be dropped from clinical coursework for not participating in clinical orientation.

Students are required to:

1. Attend ALL scheduled learning activities including orientation, lectures, exams, seminars, laboratories, simulation activities, observations, clinical practicums, evaluation conferences, and other comparable activities. If any scheduled learning activities are missed, the student will need to make-up these learning activities or withdraw from the course. Students are advised that opportunities for making up learning activities are subject to clinical faculty, site and laboratory availability.

Students are responsible for notifying the appropriate faculty member when an absence from a scheduled learning activity cannot be completed. Notification of faculty prior to an absence is expected, and when not possible, the student is responsible for notifying the faculty as soon as possible. An excused absence is defined as an absence for illness or other special circumstance, in which the faculty has been notified prior to the absence. Unexcused absence is defined as an absence for i.e., vacation, or other activities, which result in an absence, and have not been pre-approved by faculty. Students are responsible for resolving any conflicts that may arise. Failure to notify an instructor or preceptor of absence or tardiness is grounds for dismissal from the program.

The decision regarding the make-up of learning activities or consequent withdrawal from a course resides with the course director and/or clinical instructor as specified in the course syllabus and as practical to the missed activity and class/clinical setting. Any absence may result in a lower grade. Absences of more than 15% of the total course hours may result in failure of the course.

Arrive on time, prepared for all scheduled learning activities. This includes but is not limited to: appropriate dress, knowledge of medications, development of an appropriate plan of care, completion of all written and motor tests on skills that are necessary to a particular clinical rotation/setting. Refer to Dress Code Policy.

2. Students deemed unprepared or tardy may be asked to leave the clinical setting, receiving an “Unexcused” absence for the day. An “Unexcused” absence in clinical may result in failure of the course.

3. Purchase a watch with a second hand or digital second reading capability, a stethoscope with both a diaphragm and bell (dual head), a penlight, bandage scissors, student uniform(s) and lab coat with DePaul Nursing patches, name pin/badge, black ball point ink pen.

4. Provide own transportation to clinical sites and pay for own parking as needed. Students are not allowed to transport clients or client families at any time.

5. Know and follow individual clinical agency policies and procedures. This information is available through each individual agency.
6. Use his/her legal signature in charting. The initials NS are to follow the legal signature.
7. Be knowledgeable about the legal implications of giving narcotics and act accordingly.
8. Comply with additional requirements of the clinical setting including but not limited to drug screening.
9. Bring reference books and materials to the clinical setting as needed to provide safe care.
10. Pass a medication dosage calculation quiz at 100% prior to the start of each clinical practicum.
11. Full-time students are expected to direct their major energy to their program of study. Thus the School of Nursing recommends that students limit their outside employment to 16 hours per week during periods when classes are in session. Previous experience demonstrates that students who work in excess of this recommendation endanger their scholastic standing and place themselves “at risk” for academic failure. Neither the university nor the School of Nursing has or assumes responsibilities for the nursing care of patients rendered by the student working as a nursing assistant since the student is employed by the nursing service and during such employment is not under the supervision of DePaul University.
12. Students are not to be assigned to the same clinical units in a hospital where they are concurrently employed.
13. The student uniform, nor any part of it, is not to be worn in or around the student’s place of employment.
14. A student may be dropped from clinical coursework for not participating in clinical orientation.

The following activities are prohibited in the clinical setting. Nursing students will:

1. NOT serve as witnesses of operating and diagnostic permits, wills, or other legal documents.
2. NOT take verbal orders or telephone orders from a physician.
3. NOT sign off blood products, or administer chemotherapeutic agents. Students may NOT administer IV push medications nor work with central lines, unless directly supervised by their clinical instructor.

Medication Safety Exam Policy
The ability to calculate medication dosages is vital to the patient’s safety. To ensure that students can demonstrate competence in dose calculation, a medication safety exam (MSE) will be given in each clinical course (generally during the first week of class) prior to the student being allowed to pass medications in that clinical. Increasing levels of competency will be assessed with each subsequent clinical course (i.e. the math exam in NSG 301 will be less difficult than the exam given in NSG 472). Students must pass each exam at 93%. Students are expected to purchase a drug calculation book (Olsen, Giangrasso & Shripton, Medical Dosage calculations: A Dimensional Analysis Approach, 11th edition), and to review the online math modules that pertain to that course until they are confident in their ability. If the student is having difficulty mastering the concepts, the student should seek help from either both the course faculty and Student Support Services.

The student will have two attempts to pass the exam at 93% proficiency. Students who fail on the first attempt must attend a mandatory remediation session. Nursing 301 students will get three attempts to pass. Should they pass on the third attempt, they will be placed on academic probation for two quarters, the current one they are in and the next quarter, during which time if they pass the MSE within two attempts, they will be removed from probation. Should the person not pass on the third attempt the student will be dismissed from the program.

The MSE will be given in the first week of the quarter to ensure that if the student does not pass on the second (or third for NSG 301) they will have sufficient time to withdraw without penalty. Should the student not pass the medication safety exam on the second attempt, the student will be assessed as not competent to safely pass medication in the clinical setting. The student must then withdraw from the course(s) and complete the ATI math remediation program (at their own expense) and must pass at the level 1 competency prior to returning to the program. Upon receiving a satisfactory score on the math remediation program the student may return to retake the course(s) for which they failed the medication safety exam. Students must be aware that clinical courses are not offered every quarter and may return the next quarter that the course is taught if space is available. Returning students will be on probation. Upon return, should the student not pass by the second attempt, the student will be unable to meet the clinical requirements of the program and will be dismissed from the program.

Unsafe Clinical Performance
A student is responsible for implementation of safe patient care during the supervised clinical practicum. Unsafe behavior can result in suspension from the clinical site, student remediation, failure of the course, and/or dismissal from the program. Unsafe practice is defined as behavior that has the potential to cause serious harm to a patient. Examples of unsafe clinical behavior in clinical practice include, but are not limited to:

Unsafe practice patterns include but are not limited to:

1. Violating HIPAA requirements
2. Violating OSHA requirements
3. Performing a procedure outside the domain of nursing
4. Performing a procedure in which he/she has not been prepared
5. Failing to use universal precautions
6. Administering treatments/medications in any form via any route without consent and/or supervision from the clinical instructor.
7. Advising patients about diagnosis or prognosis or referring patients to treatments, agencies, medications, without first discussing such with the clinical instructor.
8. Asking a staff nurse to supervise any procedure without consent of the clinical instructor.
9. Inability to correctly calculate math/medication problems
10. Knowingly exposing patients, colleagues, and others to actual or potential life threatening communicable diseases.
11. Stealing drugs, supplies, or belongings from an agency or patient.
12. Removing copies of patient care documents from healthcare agencies.
14. Failure to adhere to DePaul School of Nursing and/or clinical agency policies.
15. Falsifying patient records or fabricating patient experiences.
16. Neglecting to give appropriate care.
17. Providing patient care in a harmful manner or exhibiting careless or negligent behavior in the process of providing care to a patient.
18. Refusing to assume the assigned care of a patient, or failing to inform the instructor of an inability to care for a patient.
19. Willful or intentional physical or emotional harm to a patient.

Medical Dosage calculations: A Dimensional Analysis Approach, 11th edition)
Clinical Performance Limitation Related to Temporary Disability

A student who incurs an injury or has any other physical limitation of a temporary nature must notify the clinical instructor and course coordinator and provide documentation from his/her health care provider that he/she is able to safely carry out the duties of a student in the clinical setting. This must occur as soon as possible and prior to attendance at clinical. The final decision as to whether the student is allowed in the clinical setting rests with the clinical agency. If the student is unable to attend the clinical, he or she will need to withdraw and meet with the course coordinator and Associate Director of the program to explore options. Students who are pregnant are advised that clinical sites have individual policies and requirements related to pregnant students that may impact the student’s ability to attend or complete a clinical rotation.

Clinical Probation/Remediation

A student requires a clinical contract when one or more clinical course objectives are not being met. These behaviors, if not addressed, put the student at risk for receiving a non-passing final grade in the course. The process is initiated as soon as an instructor and/or course coordinator recognizes that a student’s performance or behavior may jeopardize the successful completion of a course. The clinical contract can be initiated at any time during the quarter.

The clinical contract is documented on the Student Faculty Contract form (Appendix A in the Student Handbook) and is completed by the course coordinator and clinical instructor. The course coordinator and clinical instructor will document, in writing, on the contract form, the areas of deficient student performance and identify behaviors the student will need to demonstrate in order to receive a passing grade. The student will receive a copy of this contract. The student’s academic advisor will be notified as will the Associate Director of the Program. The academic advisor will follow-up with the course coordinator regarding the student’s remediation progress. By the end of the quarter (or completion of the course in the event of a withdrawal), the student must demonstrate satisfactory remediation of all areas of concern noted in the contract without further additional deficits or risk failing the course. Once the contract requirements have been met, the instructor should document this on the form and both student and instructor should sign the form. A completed copy can be given to the student; another copy is sent to the Coordinator of Data Management for tracking purposes; another copy is placed in the student’s file.

Clinical Failure

In the event that a student does not receive a passing grade in the clinical component of a course, the student’s grade for that course will automatically become an F.

Student Dress Code

1. The student is to be well groomed at all times presenting a professional image. The rationale behind this and the following requirements comes from the belief that it is the client who is the focus of the nurse-client relationship.
2. Hair must be kept off the face and above the collar or pulled back and secured. Natural hair tones only. Sideburns, moustaches, and beards must be neatly trimmed. Make-up, if worn, must be minimal and conservative. Personal care products may only be lightly scented. Other fragrances are not to be worn.
3. Nails may not extend beyond the tip of the finger. NO artificial nails or nail polish is permissible.
4. The ONLY acceptable accessories are: One single or pair of stud earrings—one on each lobe; one plain ring/ring set on one finger; a wristwatch. No other body jewelry or accessories is acceptable. Note: in some clinical areas all jewelry must be removed.

5. Tattoos are to be covered.

6. The navy nursing uniform for men and women is: a scrub shirt and scrub pants by Dickies. Department name pins must be worn with the uniform when in the clinical setting. Department patches must be attached permanently to the left uniform and lab coat sleeves. Uniforms are to be clean and wrinkle free. Underwear must be worn. White or neutral hosiery or white socks must be worn. No bare feet. A plain white under-shirt or navy Dickies cardigan may be worn in cooler weather.

7. Shoes are to be plain white (no colored design/logo) with white laces, closed toe, low heel, clean and in good repair. No high-tops or sandals.

8. When not giving direct patient care, but engaged in learning activities at an agency or clinical site, students must wear their white lab coat with DePaul School of Nursing patch, their department name pin, and professional dress consisting of a shirt, sweater, and/or blouse with pants or a skirt, closed toe shoes in good repair with a low heel and in neutral color, with neutral hosiery or socks.

9. Inappropriate clothing would include: sweatshirts; sweat pants; tight or sleeveless tops; shirts with lettering, pictures or hoods; stirrup pants; leggings; Capri pants; shorts; blue jeans; tight or revealing clothing; visibly worn, torn, or faded clothing; midriff tops; low necklines; open-backed clothing; cleavage or underwear showing; or flip-flops.

10. These guidelines are subject to modification by the clinical instructor, based on the instructor’s judgment, individual student religious or cultural practices, the sensibilities of the population, and the dress code of the particular clinical unit/agency or event where the student is in attendance or practicing.

11. Students in the Public Health and Psychiatric Mental Health Nursing rotations may receive additional guidelines from their clinical instructors.

Confidentiality

Patient/Client Privacy

1. The student is expected to adhere to the American Nurses Association Code for Nurses and act in accordance with the Patient’s Bill of Rights.

2. Confidentiality is the protection of a client’s privacy through careful use of oral and written communications. The client’s right to privacy is safeguarded by judicious protection of confidential information. The student should adhere to the School of Nursing Social Media policy (Appendix C in the Student Handbook) regarding maintenance of confidentiality and protection of privacy as it relates to communication via social media.

3. A client’s chart is a legal document. Information from the client and chart is confidential and cannot be disclosed to those not caring for the client. All entries must be accurate and legible. No part of the client’s Medical record can leave the hospital. Students are not allowed to access the records of patients for whom they are not providing direct care.

4. Information communicated by clients to students may not be repeated to anyone outside of the direct care team. Care should be taken when in the corridors, lounge, classroom, dining rooms, or other public areas, so that conversations are not overheard.

5. An individual can withhold any information about himself/herself that he/she desires. Nursing students must be especially careful regarding the invasion of the client’s privacy.

6. Students should use only the initials of the client when filling out history forms, care plans, and any other documents which are a part of their educational experience.

Unprotected Exposures

In the event of any unprotected exposure to blood or body fluids, the student is to follow the procedures of the DePaul University School of Nursing Bloodborne Pathogens Exposure Control Plan (https://csh.depaul.edu/academics/nursing/student-resources/Pages/exposure-control-plan.aspx).

Exposure at DePaul University

Any student who incurs an exposure incident at DPU should obtain confidential post-exposure evaluation and follow-up.

Lincoln Park site students who would like to obtain this confidential post-exposure evaluation and follow-up from Advocate Illinois Masonic Medical Center may contact DePaul Public Safety, who will facilitate transportation to Advocate Illinois Masonic Medical Center. RFUMS site students will be referred to Lake Forest Hospital for follow-up care.

The post exposure evaluations and follow-up, should include at least, the following elements:

- Documentation of the route(s) and circumstances of the exposure;
- The results of the source individual’s blood testing, if available; and
- All medical records relevant to the appropriate treatment of the student, including vaccination status, the Safety Officer or his/her designee will maintain these records.

Collection and testing of blood for HBV and HIV serological status will comply with the following:

- The exposed student’s blood shall be collected as soon as feasible and tested after consent is obtained;
- The student may have his/her blood collected for testing of the student’s HIV/HBV serological status. The blood sample will be preserved for up to 90 days to provide time for the student to decide if the blood should be tested for HIV serological status.

The student is responsible for costs associated with the medical evaluation.

Exposure at Outside Facility while Performing Duties within Student Role

Any student incurring such an exposure should follow both DPU’s post exposure policy as well as the institution’s policy where the exposure occurred. All student exposure incidents, whether they occur at DPU or off-campus while conducting learning or training activities under the SON must be reported to the Safety Officer or his/her designee as soon as possible, but no later than one business day after the incident.

Students are encouraged to speak with their health care provider about any additional follow-up post-exposure prophylaxis that may be recommended.

When possible, the Safety Officer, his/her designee, or institution where the exposure took place, will look into testing the exposure source individual for HIV, hepatitis B, and/or hepatitis C. Testing of the source...
individual’s blood does not need to be repeated if the source individual is already known to be infected with HIV, hepatitis B, and/or hepatitis C.

**Student Injury and Incident Policy**

In the event that a student is injured (or involved in an untoward incident) while in the clinical setting, the student should immediately notify the clinical instructor. The clinical instructor should assist the student to seek immediate health assessment and response following all policies and procedures of the clinical setting that pertain to the type of injury sustained. The clinical instructor must notify the course coordinator of the event by the end of the clinical day.

If a student is injured (or involved in an untoward incident) on the campus while conducting learning or training activities, the student must notify the instructor or faculty member in charge of the activity immediately. The instructor or faculty member in charge must call 911 if the injury is serious. The instructor or faculty member is to notify DePaul Public Safety and follow university policy for all injuries.

All student injuries (or untoward incident), whether they occur at DePaul University or off campus while conducting learning or training activities under the School of Nursing require that DePaul Public Safety is notified, that a public safety report is filed and the DePaul Environmental Health and Safety Incident Report form (DEHSIR), which can be found at https://offices.depaul.edu/environmental-health-and-safety/forms/Pages/incident-report.aspx, is completed. All must be completed within 1 business day of the incident. The incident must also be reported to the School of Nursing Safety Officer or the SON Safety Officer designate as soon as possible but no later than one business day after the incident. When reporting to the SON Safety Officer, the student is to include a copy of the completed DEHSIR.

If a student reports an incident in which the harm to student is not physical but rather psychological or emotional, clinical faculty should notify the associate director of the program who will direct the student to appropriate DePaul University resources.

Once the student has been seen by a health care professional for the injury (or untoward incident) and completed all reporting processes required by the university and clinical setting, the student should contact his/her health care provider for any further treatment or health care follow-up that is needed. The student may wish to contact the DOS office if the student has concerns or questions.

**Student Clinical Requirements**

It is mandatory that all students have all of their clinical requirements completed and uploaded to their Student Immunization Tracker through Castle Branch by prior to attending clinical. It is the responsibility of the student to insure that all clinical requirements are kept current. Students must submit copies of renewed coverage, updated lab results, and renewed skills PRIOR to the anniversary of the expiration date. Students who are non-compliant with clinical requirements will not be permitted to attend clinical. Non-attendance of clinical due to non-compliance with clinical requirements will be treated as an unexcused absence that may not be made up. This may put the student at risk for failing the course.

The student must submit COPIES (NOT ORIGINALS) of the following:

1. **Tuberculosis Screening:**

   All students that will provide patient care in the clinical setting are required to submit proof of not having active tuberculosis prior to the first day of the clinical rotation. Documentation must be uploaded into Castle Branch and approved to fulfill this requirement. This can be done by completing one of the following:
   a. Two-step Tuberculin Skin Test. The student will be required to have two separate tuberculin skin tests placed 1-3 weeks apart. The results of both tests must be uploaded into Castle Branch.
   b. Quantiferon Gold Test. The student will be required to have this blood test drawn and upload the results into Castle Branch. Please note: some clinical sites will only accept this as proof of not having active tuberculosis.
   c. Students with Positive TB Results: Students with a history of having positive TB results or has received the BCG vaccination prior to admission into the nursing program at DePaul University must complete the following:
      Submit certification from a healthcare provider that the faculty member is currently free of the signs and symptoms of active tuberculosis. This certification must be renewed every 6 months.
      OR
      Complete a Quantiferon Gold test.
      AND
      Submit certification from a healthcare provider that the faculty member is currently free of the signs and symptoms of active tuberculosis. This certification must be renewed every 6 months.
   d. Students found to have positive TB results while completing pre-clinical screening requirements for DePaul University must complete the following prior to the first day of the clinical rotation:
      Obtain a chest x-ray and submit the results.
      Submit certification from a healthcare provider that the student is currently free of the signs and symptoms of active tuberculosis. This certification must be renewed every 6 months. If the student shows signs and symptoms of active tuberculosis during the provider evaluation, the student may not begin the clinical rotation until documentation of a completed course of prophylactic therapy and certification of currently being free of the signs and symptoms of active tuberculosis has been completed.

2. **Titers for Rubeola, Mumps, Rubella, Varicella.** A TITER is MANDATORY to document immunity. (Note: Vaccination or history of the disease is necessary to develop immunity). The titer MUST contain the titer value as well as the reference norm. The required titers are as follows:
   a. Rubeola IgG
   b. Mumps IgG
   c. Rubella IgG
   d. Varicella IgG

   If titers indicate no immunity for Rubeola, Mumps, Rubella, and Varicella, immunization is required (for Rubeola, Mumps or Rubella, this will be a booster series of 2 MMR immunizations). Follow-up titers will need to be drawn after re-immunization for both MMR and Varicella.

   Students must sign a waiver if no immunity is detected on follow-up titer. The waiver states that you understand the risk associated with continuing in the nursing program, specifically that if you contract the disease to which you are not immune,
3. Proof of immunity to Hepatitis B must be confirmed through bloodwork. Immunity may be achieved through vaccination or previous exposure. You may submit test results and documentation of immunity from your provider in lieu of receiving vaccination. The following documents will be accepted as proof of immunity:
   a. Positive Hepatitis B surface antibody (anti-HBs) indicates immunity from previous vaccination.
   b. Positive anti-HBs and positive Hepatitis core antibody (anti-HBc) indicate immunity due to infection; a negative Hepatitis B surface antigen (HBsAg) is needed to determine whether acute or chronic infection exists, and the student will need to follow up with his or her health care provider.

If immunity is not documented, the student must receive the Hepatitis B immunization series and post-vaccination bloodwork as outlined below.

If the series has been started but has not been completed prior to beginning clinical attendance, it is the student’s responsibility to supply documentation of the vaccine dates and the date when the final Anti-HBs bloodwork is drawn. The student must have completed a minimum of one of the series of three vaccines prior to the first clinical day and upload documentation for this to Castle Branch.

If bloodwork following completion of the series of three vaccines does not show immunity, further vaccination is necessary. If, after completion of a second series, no immunity is detected, the student must sign a waiver. The waiver states that you understand the risk associated with continuing in the nursing program, specifically that if you contract the disease to which you are not immune, the school is not liable and that you want to continue in your studies, knowing the risk. Once you have documented your immunity or signed a waiver, you will not need to furnish any further documentation.

1 The Centers for Disease Control (CDC) recommend that persons who fall into either of the following categories for increased risk for Hepatitis B infection should see their health care provider and request a blood test for Hepatitis B surface antigen (HBsAg) and Hepatitis B surface antibody (Anti-HBs) as you may not need the vaccination if the results are positive.

   a. Persons born to mothers in or from countries in which Hepatitis B is endemic.
   b. Sexually active men who have sex with men.

4. Tetanus-Diptheria-Pertussis Booster: Must be within the last 10 years. Documentation can be in the form of a signed immunization card or statement from your healthcare provider or health department that documents the date the tetanus booster or Tdap were administered. Please note that a tetanus booster alone is not adequate and you must demonstrate immunization for diphtheria and pertussis within past 10 years.

5. Yearly influenza vaccine is required. Incoming MENP students will receive Standard Precautions/Universal Precautions Training as part of their initial coursework.

6. Current CPR Certification: Current American Heart Association (AHA) certification in Basic Life Support (BLS) for Healthcare Provider is required for all entering and current students. Only the AHA certification will be accepted.

   Content covered in AHA BLS class:
   - Critical concepts of high-quality CPR
   - The American Heart Association Chain of Survival
   - 1-Rescuer CPR and AED for adult, child and infant
   - 2-Rescuer CPR and AED for adult, child and infant
   - Differences between adult, child and infant rescue techniques
   - Bag-mask techniques for adult, child and infant
   - Rescue breathing for adult, child and infant
   - Relief of choking for adult, child and infant
   - CPR with an advanced airway

7. Professional Liability Insurance: Each MENP and BSN completion student must obtain their own student nursing professional liability insurance policy against claims arising from real or alleged errors or omissions. Their policy must have minimal limits of coverage of $1,000,000 PER claim and $5,000,000 aggregate. This insurance must be renewed annually.

8. Evidence of Current Health Insurance: All nursing students must submit proof of continuous comprehensive health insurance on a yearly basis. Please note that the name on the health insurance must match the student’s name.

9. A signed HIPAA-FERPA authorization must be uploaded to Castle Branch by the start of the first quarter. This form must be signed in order for the School of Nursing to release any student health information related to clinical requirements to clinical sites.

10. Blood Borne Pathogens Exposure training must be completed online prior to the first clinical day. The training can be found at go.depaul.edu/bbp/.

11. Criminal Background Check: Nursing students must submit to a criminal background check via Castle Branch prior to their initial clinical experience. Criminal background checks must be completed by August 1st for Fall Quarter or December 1st for Winter Quarter and will remain in effect unless:
   a. a clinical agency determines it necessary to require more frequent or more detailed background checks,
   b. OR a nursing student interrupts his/her program of study for one quarter or longer.
   In the above cases, it is mandatory for the student to have another criminal background check performed.

   The School of Nursing may not be able to place students in a clinical setting if there are positive findings on the criminal background check. As a result, a student will not be able to complete the requirements of the program.

12. Drug Screening: Nursing students are required to have a ten-panel drug screen as required by clinical institutions. Some institutions may require a new drug screen each year. The test may be obtained from any health care agency, or from Castle Branch through Quest Diagnostics Lab. The drug test MUST follow a “Chain-of-custody” procedure. The student should sign a release to have the results sent to School of Nursing Coordinator of Clinical Placements. See below for the School of Nursing Policy on Drug Use and Testing.
Drug Use and Testing
In accordance with De Paul University policies, the School of Nursing will impose disciplinary sanctions upon any student found to be in violation of laws or policies relating to the unlawful possession, use, or distribution of drugs or alcohol. Nursing students may be required to have a ten-panel drug screen based on clinical affiliates’ requirements. Release forms must be signed to have the results sent to the Clinical Placement Coordinator.

If a student's drug test is positive, secondary or confirmatory testing will be performed and the student will be expected to cooperate with interviews and follow-up procedures to ascertain and endeavor to confirm whether there was an explanation for the positive test result that did not involve illegal conduct, e.g., ingestion of lawful drugs, food, or beverages that could cause positive results.

If the positive test is confirmed and no sufficiently credible explanation of relevant lawful conduct is forthcoming, clinical placement in a clinical course and successful completion of the program will be jeopardized due to failure to qualify for placement and/or successful completion of the program. Students with confirmed positive tests and/or no sufficiently credible explanation of relevant lawful conduct will be advised that the De Paul University School of Nursing cannot place them in a clinical setting. As a result, a student would not be able to complete the requirements of the program.

Access to Student Records
1. A student may have access to his/her personal student record upon request. Confidentiality is maintained with all student files. Release of information is granted upon written request by the student.
2. No specific or detailed information concerning specific medical diagnoses will be provided to faculty outside the department, administrators, or even parents, without the expressed written permission of the individual in each case. This position with respect to health records is supported by amendment to the Family Education Rights and Privacy Act of 1974. Health officials and other institutional officers must remember that all confidential medical/health care information is protected by statutes and that any unauthorized disclosure may create legal liability.

Graduation
DePaul University awards the Master of Science degree with a major in nursing to students who successfully completed the MENP program. All requirements of the University, College, and School of Nursing must be met as outlined in the current Catalog, including earning at least a 3.00 cumulative GPA in courses required by the program.

The student is responsible for completing the application for degree conferral and commencement by the deadline posted in the academic calendar.

Students are responsible for changes reflecting new program requirements if the department gives sufficient notice. Part-time students and students who do not enroll in classes for one or more quarters will the program under which they were admitted.

Upon successful completion of graduation requirements, generic students are eligible to make application to take the National Council of Licensing Examination (NCLEX). (See Legal Limitations below.)

The Illinois Department of Financial and Professional Regulation requires that graduating MENP students submit to a fingerprinting processing from the Illinois Department of State Police or its designated agent. Licensure by the IDFPR will require a separate complete background check with fingerprinting prior to being given permission to sit for NCLEX. If criminal activity is noted, such activity MAY BE grounds for the student to not be given permission to take the NCLEX exam.

Graduation with Distinction
A minimum cumulative GPA of 3.75 for coursework applied toward the MENP degree is required for graduation with distinction.

Legal Limitations for Licensure
Completion of the nursing education program does not guarantee eligibility to write the NCLEX. The Illinois Department of Financial and Professional Regulation - Board of Nursing may refuse to issue a license for one or more causes stated in that section of the Nursing Practice Act.

Requirements for licensure vary from state to state. Those students wishing to take the NCLEX outside Illinois are advised to check with their state’s licensure requirements early in the academic program.

Geographic Information Systems Graduate Certificate
Geographic Information Systems (GIS) are now used in fields such as urban planning, environmental monitoring, marketing, business and retail analytics, law enforcement, public health, disaster management, data journalism, and numerous other careers and professional fields.

In the Graduate GIS Certificate, students will learn to make maps, manipulate and query tabular data, work with GPS data, conduct spatial analysis, and propose, define, and implement GIS projects. Courses integrate lectures and hands-on exercises using ArcGIS at one of three specialized computer lab locations on campus.

The Graduate GIS Certificate Program requires 16 credit hours of instruction. It provides a broad education in GIS and serves as a basis for entry-level employment opportunities in the geotechnology industry. Four courses are required to complete the Graduate GIS Certificate:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEO 441</td>
<td>GEOGRAPHIC INFORMATION SYSTEMS (GIS) FOR COMMUNITY DEVELOPMENT</td>
<td>4</td>

</tr>
<tr>
<td>GEO 446</td>
<td>GIS ANALYSIS OF ENVIRONMENTAL AND PUBLIC HEALTH</td>
<td>4</td>
</tr>
</tbody>
</table>
Geographic Information Systems Undergraduate Certificate

The Certificate Program requires 20 hours of instruction. It provides sophisticated education in GIS, remote sensing and cartography and serves as a basis for entry-level employment in the geotechnology industry. There are five required courses to complete the certificate:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEO 141</td>
<td>GEOGRAPHIC INFORMATION SYSTEMS I: DIGITAL MAPPING</td>
<td>4</td>

<td>GEO 348</td>
<td>SPATIAL DATA SCIENCE</td>
<td>4</td>
</tr>
<tr>
<td>GEO 391</td>
<td>STATISTICAL DATA ANALYSIS FOR GIS</td>
<td>4</td>
</tr>
</tbody>
</table>

GEO 141 and GEO 242 must be taken in sequence. GEO 141 is a prerequisite for GEO 391. GEO 243 can be taken at any time. Please contact the Department if you are considering pursuing the GIS Certificate, even if you are a declared geography major.

In order to earn a certificate in GIS, a student must:

- Earn at least a grade of C- in each Certificate course.
- Earn at least a cumulative GPA of 2.0 for all courses applied to the Certificate.
- Earn a letter grade. The pass / fail option may not be selected for courses in the Certificate.

A student completing a GIS Certificate is eligible to simultaneously complete a Geography minor. No more than 3 GIS Certificate courses can be applied to a Geography minor. A student wishing to complete a GIS Certificate and a Geography minor will complete a minimum of 8 Geography courses. Please see a faculty advisor in the Department of Geography for further details.

Learning Outcomes

Students will be able to:

- Use key concepts, theories, and vocabulary to interpret how socio-cultural, political, economic, and/or environmental phenomena may construct a "space," a "place," a "landscape," a "location," or a "region" as a complex material or symbolic structure.
- Use qualitative and/or quantitative methodologies to analyze spatial phenomena, and collect, identify, and apply spatial data from either primary or secondary sources to interpret the spatial character of a physical, socio-cultural, or environment-society problem.
- Interpret spatial patterns of economic inequalities and social injustices and their relation to urban, built, and natural environments.
- Demonstrate competence in one or more of several geospatial technologies (i.e. remote sensing, geographical information systems, global navigation satellite systems, etc.) and articulate effectively the results of that use in speech, text, image, or map.
- Describe and differentiate processes of globalization and their effects on cities, regions, physical systems, cultures, and political divisions.
The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

The Modern Language Option (MLO)

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace the Scientific Inquiry—Lab or Scientific Inquiry—Science as a Way of Knowing requirement.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Junior Year
Experiential Learning
Required  4

Senior Year
Capstone
GEO 300  GEOGRAPHICAL INQUIRY  2  4

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.
3 A student majoring in Geography (GEO) is required to complete the Capstone offered by the GEO Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. A Geography major in the University Honors Program shall take the University Honors Capstone and the GEO Capstone.

Learning Domains
Arts and Literature (AL) (p. 1184)
• 3 Courses Required
Historical Inquiry (HI) (p. 1188)
• 2 Courses Required
Philosophical Inquiry (PI) (p. 1190)
• 2 Courses Required
Religious Dimensions (RD) (p. 1191)
• 2 Courses Required
Scientific Inquiry (SI) (p. 1193)
• 3 Courses Required
[1 SWK Course, 1 Lab Course, and 1 Additional Course]
Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)
• 1 Course Required

Notes
Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the JYEL requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements
Core Requirements
Course Requirements

Concentration Requirements
Students must also complete the requirements from one of the following concentrations: Standard; Urban Development and Planning; GIS and Geotechnology; or Environment and Society.

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

• Environment and Society Concentration, Geography (BA) (p. 466)
• GIS and Geotechnology Concentration, Geography (BA) (p. 468)
• Standard Concentration, Geography (BA) (p. 469)
• Urban Development and Planning Concentration, Geography (BA) (p. 469)

Environment and Society Concentration, Geography (BA)

Course Requirements

Concentration Core

Select 5 courses from the following, at least one of which must be at the 300-level:

GEO 200  SUSTAINABLE URBAN DEVELOPMENT
GEO 205  RACE, JUSTICE, AND THE URBAN ENVIRONMENT
GEO 210  ENVIRONMENTAL CONSERVATION
GEO 211  BIOGEOGRAPHY
GEO 215  INTERNATIONAL DEVELOPMENT AND REGIONAL INEQUALITY
GEO 219  WOMEN AND SCIENCE
GEO 220  OCEANOGRAPHY
GEO 225  EARTH’S CHANGING CLIMATE
GEO 260  GLOBALIZATION AND RESOURCES
GEO 269  CULTURAL AND POLITICAL ECOLOGY
GEO 310  GREEN INFRASTRUCTURE  
GEO 315  THE STATE AND ECONOMIC GROWTH  
GEO 351  GEOGRAPHY, FOOD AND JUSTICE  
Any other 300-level Geography course with consent of advisor

Supporting/Allied Fields  
Five additional environment-themed courses selected with adviser consent from offerings in Anthropology, History of Art and Architecture, Economics, Environmental Science and Studies, Geography, History, International Studies, Political Science, Public Policy Studies, Sociology, and any other discipline or program selected in consultation with the student’s adviser.  

Open Electives  
Open elective credit also is required to meet the minimum graduation requirement of 192 hours.  

Geography (BA) + Secondary Education Social Science (MEd)  
The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.  

The TEACH Program combines a Liberal Arts and Social Sciences (LAS) undergraduate Social Science major (Anthropology, Economics, Geography, History, Political Science, or Sociology) or a Science and Health (Psychology) major with a graduate level College of Education (COE) Master’s in Education Program. Students graduate with a BA or BS in their disciplinary major and a MEd in Education with State of Illinois Secondary Social Science licensure.  

Students may apply to the TEACH Program during the spring of their junior year. They must enroll in the Junior Year Experiential Learning course, TCH 320, and meet other application criteria; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 GPA. During their senior year, students are required to complete a TEACH Program capstone course, TCH 390, and three 400-level courses that count toward both their undergraduate and graduate degrees:  

**Junior Year Coursework: 4 undergraduate quarter hours required**  

<table>

<tr>
<td>TCH 422</td>
<td>INQUIRY &amp; APPLICATION IN DEVELOPING HISTORY AND SOCIAL SCIENCES PEDAGOGY</td>
<td>4</td>
</tr>
</tbody>
</table>

**Social Science Content Area (grades of C or better required for licensure):**  
The following Social Science content area requirements are required. These can be taken as part of the major, liberal studies or open elective requirements:  

- HST 298  
- HST 299  
- 3 United States History courses  
- 2 Non-United States History courses  
- 6 from the geography major  
- Additional licensure requirements: (one course in each area required)  
  - Economics (ECO 106 recommended)  
  - Political Science (PSC 120 recommended)  
  - Psychology (PSY 105 recommended)  
  - Sociology (SOC 101 recommended)  
  - Anthropology (ANT 102 recommended)  

This combined degree program of the College of Liberal Arts and Social Sciences and the College of Education was collaboratively developed, and is governed and taught by faculty from these units.  

The Master’s year comprises teacher-preparation coursework that culminates with student teaching during Spring quarter. Upon graduation
and the fulfilling of State of Illinois licensure requirements (which may require some additional course work in the student’s major and related fields), students are eligible to be licensed to teach Social Sciences at the 5th-12th grade levels.

A full description of the TEACH Program can be found here. (p. 1032) Students interested in the TEACH Program should consult with the designated TEACH Program advisor in their home department.

**Geography 3+3 (BA+JD)**

In the 3 + 3 (BA+JD) Program, high-achieving first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

**Key Program Features**

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of tuition, reducing their overall debt load.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

**Program Requirements**

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students must achieve a cumulative GPA of 3.35 by the end of their second year of study and maintain a cumulative GPA of 3.5 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>

<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than the end of the Autumn Quarter of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

Supporting Fields

Choose five urban-related courses selected from course offerings in Anthropology, Environmental Science and Studies, Geography, History, History of Art and Architecture, Political Science, Public Policy Studies, Real Estate, Sociology, Women’s and Gender Studies, or any other discipline or program selected in consultation with the student’s adviser.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Geography (Minor)

In the Geography minor program you can explore spatial relationships at the local, regional, national and global scales. From learning how to apply methods such as GIS data visualization and analyses, to urban development and planning, and international environmental, geopolitical and economic policies and processes, the five course (20 credit hour) Geography minor offers students an introduction to this dynamic and exciting discipline.

Course Requirements

- Any five Geography courses, selected with the approval of the student’s Geography faculty advisor.

A student completing a Geography minor is eligible to simultaneously complete a GIS Certificate. No more than 2 Geography minor courses can be applied to a GIS Certificate. A student wishing to complete a Geography minor and a GIS Certificate will complete a minimum of 8 Geography courses. Please see a faculty advisor in the Department of Geography for further details.

German (BA)

The German Program at DePaul offers students an extensive background in German and Austrian culture, language, and literature, and prepares them to think and work in an increasingly globalized world. German is the most widely spoken first language in the European Union, and German-speaking countries are among the most influential engines driving culture, business, and politics today. The German-speaking world is rich and multifaceted – these are the cultures of Mozart, Goethe, Freud, Kafka, and Marx – and the study of German also explores the crucial questions of memory and history particular to the German past. A degree in German from DePaul offers a broad-based humanities education with crucial skills in reading, writing, critical thinking, and intercultural communication useful for any number of pursuits after college. Several of our German students have been awarded prestigious grants and scholarships, including multiple Fulbright grants and Congress-Bundestag Youth Exchange scholarships. Our graduates have gone on to pursue careers in government, business, the public humanities, scientific research, and education, both in the US and abroad, while others have enrolled in prestigious graduate programs in the humanities, medicine, and law.

The courses in DePaul’s German program give students the opportunity to attain advanced language proficiency while studying all aspects of German literature and culture. Topics of our regular GER course offerings include:

- Language and Culture
- Film
- History and Politics
- Business
- Art and Music
- Literature
- Current Events
- Translation
- Creative Writing

Students expand upon the fundamental skills learned in the German core by choosing one of three concentrations: German Studies, German Language and Literature, or Commercial German. Many German students pair German with another major, and several courses from these double majors can potentially be double-counted with the concentrations in the German major.

The German Program offers its students two study abroad options: a long-term study abroad program to Vienna, and a short-term, human rights-oriented program in Berlin. German students are encouraged to participate in one of these programs, both in order to grow linguistically and also to expand their cultural understanding of the German-speaking world and culture today. The German Program also has its own chapter of the German Honorary Society Delta Phi Alpha and is affiliated with the student-led organization DePaul Deutsch Club.

Learning Outcomes

Students will be able to:

- Proficiently speak, understand, read, and write the studied language(s) to:
  - Engage in conversations.
  - Interpret and create a variety of written texts.
  - Provide and obtain information...
Modern Language Requirement (MLR) may be demonstrated by:

- proficiency attained from one year of college-level language study. This language (i.e., a language other than English) equivalent to the All students will be required to demonstrate competence in a modern The Modern Language Requirement (MLR)

advisor in the Office for Academic Advising Support.

Because no academic major program is built in isolation, students are required to pursue a number of electives which both broaden and deepen their understanding of their chosen discipline.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)

The Modern Language Requirement (MLR) may be demonstrated by:

- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

The Modern Language Option (MLO)

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace the Scientific Inquiry—Lab or Scientific Inquiry—Science as a Way of Knowing requirement.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.
Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 Students must earn a C- or better in this course.

2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

  - [1 SWK Course, 1 Lab Course, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)
- 3 Courses Required

Notes

A student whose only major is in Modern Languages is required to complete the Capstone offered by the Department of Modern Languages (MOL). A student who is double majoring (or pursuing dual degrees) with the primary major (or primary degree) in MOL may substitute the Capstone of the secondary major or degree. An MOL major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the MOL Capstone.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Majors in German must complete a total of 12 advanced courses (48 quarter hours), comprised of a common 8-course core and a 4-course concentration in “German Studies,” “German Language and Literature, or “Commercial German.”

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours. Majors in German should select these courses in consultation with the German Program Director and Modern Languages Staff Advisor. Students can use their open electives to pursue a double major or one or more minors.

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Commercial German Concentration, German (BA) (p. 473)
- German Language and Literature Concentration, German (BA) (p. 474)
- German Studies Concentration, German (BA) (p. 475)

In addition to the German core courses, German majors must choose one of these three concentrations. Each of these concentrations allows German majors to develop their broad intercultural communicative skills through a rigorous interdisciplinary education tailored to their academic and professional interests. While the course listings for each concentration are not exhaustive, they represent a substantial sampling of courses from around the university that could be applied toward the respective concentrations. Students are encouraged to meet with the German Program Director and the MOL staff advisor upon declaration of the major and concentration in order to discuss elective course options for whichever concentration they choose. Other relevant courses may count as electives for the concentrations below with consultation/permission of the German Program Director.

Commercial German Concentration, German (BA)

Students choosing the Commercial German concentration are interested in complementing their advanced intercultural language study with a foundation in international business skills. The bridge courses in the concentration (GER 320 and MGT 300) integrate students’ knowledge across disciplines, and the two additional electives in the concentration (chosen from the list of MGT courses below) allow them to further explore their area of interest in MGT.

After declaring the German major with the Commercial concentration, students should meet with the German Program Director, who will work together with advisors in the College of Business to ensure that students are maximizing opportunities to double count their chosen concentration courses (when possible) in order to efficiently achieve their postgraduate career goals.

MGT 300 is a prerequisite for MGT 302, MGT 354, MGT 355, MGT 360, MGT 361, and MGT 373.

German 3+3 (BA+JD)

In the 3 + 3 (BA+JD) Program, high-achieving first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.
Key Program Features
- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of tuition, reducing their overall debt load.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements
In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students must achieve a cumulative GPA of 3.35 by the end of their second year of study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than the end of the Autumn Quarter of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

German Language and Literature Concentration, German (BA)
Students choosing the Language and Literature concentration will likely fall into one of two categories:

- Students who choose to complete a majority, if not all, of their coursework in the German language and through German program offerings (i.e. courses with the “GER” designation), which are largely culture-, literature-, history-, and film-oriented.
- Students who have an academic or professional interest in the structures and mechanics of language, along with questions of second language acquisition and cognition. The “Language” part of this concentration allows students to take elective courses in Linguistics and/or Second Language Acquisition from departments and programs around the university.

After declaring the German major with the Language and Literature concentration, students should meet with the German Program Director to discuss which of these two pathways best fits their interests and academic/postgraduate goals.

German Studies Concentration, German (BA)

Students who choose the German Studies concentration will have tremendous flexibility in building their own cluster of courses to align with a particular facet of German, based on their academic interests or intended career path. In the case of double majors, the German Studies concentration allows students to meaningfully align their two programs of study so that one complements the other, with the concentration courses potentially double-counting between both majors. Students with German as a secondary major may also be able to double-count their Studies concentration courses with courses taken for the learning domains.

After declaring the German major with the Studies concentration, students should meet with the German Program Director to discuss ideas and options for crafting a tailor-made German Studies concentration that best fits their college and post-graduate goals.

Electives (16 quarter hours)

4 courses from MOL, GER, or affiliated departments. No more than two of the four courses shall be taken in the same department.

German (MA)

The MA program in German provides students a customizable, flexible curriculum to develop advanced linguistic and cultural expertise in a language and to apply that expertise in the disciplinary or professional contexts of their choice. Whether in the “global village” of today’s world or in multi-ethnic communities such as Chicago, this advanced expertise is an increasingly valuable personal and professional asset, requiring appropriate training and credentials. The MA program especially seeks to serve adult professionals (government employees, social workers, healthcare providers, business people, or certified K-12 teachers) whose careers require this applied expertise.

The MA in German may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- German + Digital Humanities Certificate
- German + Teaching English to Speakers of Other Languages (TESOL) Certificate

Program Requirements

<table>
<thead>
<tr>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Degree Requirements</td>
</tr>
<tr>
<td>Total hours required</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Speak and participate in most informal and some formal conversations from topics related to school, home, and leisure activities, to many related to employment, current events, and matters of public and community interest.
- Narrate and describe in the major time frames of past, present, and future in paragraph-length discourse with some control of aspect, as well as combine and link sentences into connected discourse of paragraph length; although these narrations and descriptions tend to be handled separately rather than interwoven.
- Use communicative strategies such as rephrasing and circumlocution, and contribute to a conversation with sufficient
accuracy, clarity, and precision to convey their intended message without misrepresentation or confusion.

- Combine and link sentences into texts of paragraph length and structure, and use minimal control of common structures and vocabulary.
- Listen and comprehend (albeit unevenly) short conventional narrative and descriptive texts with a clear underlying structure.
- Understand conventional narrative and descriptive texts with clear underlying structure (though their comprehension may be uneven).

**Degree Requirements**

**Course Requirements**

The curriculum of the MA in German consists of twelve courses (48 quarter credit hours), divided into two parts:

1. A core curriculum of four required courses (16 quarter credit hours), and
2. Eight courses (32 quarter credit hours) in the language area, which must include an approved "cluster" of at least four courses (16 quarter credit hours) focused on a particular professional application or disciplinary interest.

Students must select these course clusters in consultation with an advisor. All courses in the language area must be courses taught in the target language of the student's program (i.e. courses with prefixes GER). In exceptional cases, with the approval of the student's advisor and the director of the graduate program, a student may count one or two courses taught in English from allied fields (such as art history, economics, education, geography, health sciences, management, philosophy, political science, religion, sociology, etc.) among the eight "language area" courses in the student's program.

**Core Curriculum**

The core curriculum consists of the following four courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MOL 401</td>
<td>PROFESSIONAL FOUNDATIONS</td>
<td>4</td>
</tr>
<tr>
<td>MOL 402</td>
<td>LANGUAGE, SELF AND SOCIETY</td>
<td>4</td>
</tr>
<tr>
<td>MOL 403</td>
<td>COMMUNITIES OF PRACTICE</td>
<td>4</td>
</tr>
<tr>
<td>MOL 496</td>
<td>MAMOL CAPSTONE</td>
<td>4</td>
</tr>
</tbody>
</table>

In addition, all 300-level courses in the respective languages are offered simultaneously as 400-level electives to complete the MA program. The 400-level courses have additional requirements.

**Additional Requirements**

Additional requirements include:

- ACTFL Oral Proficiency Interview
- Portfolio Project

All students must attain a rating of at least "Advanced Low" from the standardized Oral Proficiency Interview (OPI) of the American Council on Teaching Foreign Languages (ACTFL).

The service learning experience will involve work within an environment where the student can apply her or his linguistic expertise, as a volunteer, contributor, intern, or employee. This environment might be a community group; a social service or agency; a professional association; or an artistic organization. This experience should ideally contribute to the student's portfolio project.

The portfolio (completed while enrolled in MOL 496) consists of a compilation and critical assessment of select work done throughout the program or a final project with written critical assessment. Final projects may include a community service experience, internship, performance and creative work, thesis, or translation.

**Graduation Grade Point Average Requirement**

In order to graduate from the program, students must complete all program requirements with a minimum GPA of 3.00.

**Thesis Option**

A thesis option will be available for students who attain a GPA of at least 3.7 in the program after completing 24 credit hours of coursework. The thesis should address the area of interest of the candidate's course "cluster."

**Student Handbook**

Students in a graduate program offered through Modern Languages follow the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in a Modern Language graduate program.

**Language Proficiency for Admission**

In order to be eligible for admission to a Modern Language graduate program a student must have successfully completed at least 20 quarter credit hours (or the equivalent in semester credit hours) of advanced college-level coursework in the language (this is the equivalent of an undergraduate "minor" at most colleges or universities in the United States).

Students who lack 20 quarter credit hours (or the equivalent in semester credit hours) of coursework must demonstrate proficiency in the language by attaining a rating of at least "intermediate high" on two standardized tests from the American Council on the Teaching of Foreign Languages (ACTFL): the Oral Proficiency Interview (OPI) and the Writing Proficiency Test (WPT).

**Transfer Credit**

Students may apply ("transfer") toward their MA programs in Modern Languages no more than eight quarter hours of graduate-level credit completed at another college or university with approval from the departmental director of graduate programs. Students may not transfer credits already used to satisfy the degree requirements of any program at another college or university.

Students seeking to apply "transfer" credit toward their MA programs in Modern Languages must complete the college transfer request form.

**Graduation with Distinction**

Students from the MA programs in Modern Languages earn their degrees "with distinction" if they graduate with a cumulative grade point average (GPA) of 4.0 (on a scale where 4.0=A). To verify eligibility, students and their faculty advisors should contact the departmental advisor and the departmental director of graduate studies before the deadline to apply for graduation.
German (MA), Combined Bachelor’s + Master’s Degree

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + German (MA)

Admission to this combined Master of Arts program is based on a minimum level of language proficiency (ACTFL rating of “Intermediate High”) rather than on prior coursework. Therefore, it is open to students with any undergraduate majors with the accompanying language ability. The program is designed to prepare students for advanced use of their linguistic skills in any area of professional interest (from business, government, and education to further graduate study).

The program requires 48-quarter hour credits of coursework. This coursework consists of:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MOL 401</td>
<td>PROFESSIONAL FOUNDATIONS</td>
<td>4</td>

<tr>
<td>Select 32-quarter hour credits of elective coursework, specifically relevant to each individual student’s professional interests and language, and chosen in consultation with the student’s faculty advisor</td>
<td>32</td>
<td></td>
</tr>
</tbody>
</table>

The required courses (MOL 401, MOL 402, MOL 403, and MOL 496) are each worth 4-quarter hour credits. Elective courses may vary in credit. Because each student pursues a highly customized selection of coursework, it may include independent study, practicum, study abroad, or transfer credits that allow students to complete in any term additional credits toward satisfaction of degree requirements. Depending on their individual interests, students may (with approval of their advisor) also take as electives courses taught in English by other DePaul units, provided that the students satisfy any relevant prerequisites for those courses.

German Studies (Minor)

The German Studies minor offers a basic proficiency in the German language along with a more in-depth exploration of the cultural landscape and history of German-speaking nations.

Course Requirements

- Three quarters of college-level German language (at any level).
- HST 222
- Four additional courses associated with the German-speaking world, chosen in consultation with the German Program Advisor from the list of German Studies Allied Courses below. Please note that while this list of courses is extensive, it is not exhaustive. Other courses not listed here could also be included in the German Studies minor after approval by the German Program Director.

German (Minor)

The German minor at DePaul University provides students with a basic linguistic and cultural background, develops their creative and critical thinking skills and helps to prepare them for a career in a multicultural, global world.

The minor consists of a total of 5 courses in German language at the 200/300-level. Courses taught in English (GER 275, GER 277, GER 278) will not be counted toward this minor unless Program Director permission is secured.

Students majoring in German (BA) or minoring in German Studies are restricted from earning this minor.

Students majoring in German (BA) or minoring in German are restricted from earning this minor.

### Global Fluency Certificate

DePaul University provides a wide array of opportunities for students to be exposed to global, international, intercultural issues, through curricular and co-curricular offerings. The Global Fluency Certificate is offered to officially recognize undergraduate students who elect to pursue a global emphasis in their studies. Any undergraduate student is eligible to obtain the Global Fluency Certificate, which will be recorded on transcripts, if they satisfy ALL of the requirements below:

1. Language Proficiency: Proficiency (beginning) in a language other than English that can be satisfied by successfully completing with
a C or better language courses up to 103 (i.e. one year of a foreign language) or by taking an assessment test, administered by the Modern Languages Department.

2. Completion of one global experiential component among:
   a. Study abroad
   b. Global Learning Experience (GLE)
   c. International Campus Ministry service trip
   d. Global Brigades trip
   e. Internship

3. Successful completion of 4 globally themed courses: At least 4 (four) GL tagged courses, excluding those that satisfy either 1 or 2, with at least 2 (two) that do not count toward requirements of the student’s major (outside of the Liberal Studies Program). These courses are identified in the Class Search and Enroll function in Campus Connect.

4. Overall GPA of 2.67 or better.

A student wishing to complete the Global Fluency Certificate should apply using the following webform (https://offices.depaul.edu/university-registrar/about/Pages/Global-Fluency-Certificate-Application.aspx). For more information, please contact globalfluency@depaul.edu.

Global Health Certificate

The Certificate in Global Health prepares professionals to work collaboratively with communities to prioritize and investigate health concerns to achieve lasting social change, and foster health equity to promote the health and well-being of populations in diverse global contexts. The four-course certificate trains students in key aspects of global health, using a multidisciplinary approach to analyze the underlying determinants of health, the relationship between public health and development, and public health practice.

Admission Requirements

Applications are accepted at any time, and students may begin the program at the start of any academic quarter. The program is open to both non-degree seeking students and students concurrently enrolled in a DePaul graduate degree program. All applicants must hold a bachelor’s degree. To apply to the program, prospective students must submit the following materials:

- An LAS graduate admission on-line application [application fee is waived for current DePaul students]
- Transcripts from all schools attended
- A personal statement of 300-500 words describing their professional interests and goals in the certificate

Goverance, Risk Management, and Compliance Post-Master’s Certificate

Two post-mastor’s certificates provide opportunities for master’s degree holders to sharpen their skills. Students who earned their master’s degree from DePaul CDM automatically qualify for a scholarship.

</tbody>
</table>

A student in a certificate program may not use a course already taken as part of an MS program. In particular, students with a MS from CDM may not reuse, for certificate credit, any course already taken for the MS. A faculty advisor can make an appropriate substitution. A student in a certificate program may substitute a maximum of two courses.

A student must earn at least B- in each of the five courses and earn a cumulative GPA of at least 3.0 to receive the certificate.

Admission Requirements

Applicants must hold a master’s degree in any IT field or business subject or a master’s degree in any subject plus three or more years of IT experience. Applicants must submit transcripts from their master’s degree and a resume for consideration. Choose non-degree seeking programs on the DePaul Application.

Double Demon Scholarship

Any newly admitted student who has graduated from DePaul (has a degree conferred—bachelor’s, master’s or doctorate) will be eligible to receive a Double Demon Scholarship, as a 25% automatic discount, for any GRADUATE coursework they take after the degree is conferred. This includes degree coursework, certificate coursework and non-degree coursework. It does not include coursework from the Center for Professional Education (CPE), Institute for Professional Development (IPD), coursework in a doctoral program or a master of fine arts (MFA), Music, Theatre, Law and a few other select programs. The Double Demon Scholarship cannot be used in conjunction with any other institutional aid or discount.
Graphic Art (Minor)

The Graphic Art minor is designed to develop artistic skills and abilities in primarily two-dimensional media. It focuses on an intersection of art and design in the following areas: photography, drawing, printmaking, text, digital imaging, web art, the graphic novel, and the artist book and poster. Six courses are required.

Learning Outcomes

Students will be able to:

- Address social, ethical, and user-centered concerns related to visual communication.
- Generate a design portfolio blending typography with graphic imagery that demonstrates technical skill, conceptual strategy, and aesthetic direction.
- Engage in graphic design discourse and critique, referencing graphic design history and theory.
- Use research, inquiry, and iteration to organize and transform complex visual information across a range of visual and interactive platforms.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Graphic Design (BFA)

Graphic design integrates a range of media and technologies—from web, interaction, and coding to typography, illustration, branding, and packaging—to communicate to diverse audiences. Students engage with both theory and practice, and develop skills to research, concept, prototype, design and document their work.
1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.
3 GD 380 recommended.

Learning Domains
Arts and Literature (AL) (p. 1184)
- 2 Courses Required

Historical Inquiry (HI) (p. 1188)
- 1 Course Required

Philosophical Inquiry (PI) (p. 1190)
- 1 Course Required

Religious Dimensions (RD) (p. 1191)
- 1 Course Required

Scientific Inquiry (SI) (p. 1193)
- 1 SWK or Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)
- 1 Course Required

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

</table>

1 Students must complete 28 Major Elective credits in any ANI, CR, DOC, FILM, GD, GAM, GPH, POST, SCWR, UXD, VFX, or ART courses. Students must earn a grade of C- or higher in all major elective courses.

Open Electives
Open elective credit also is required to meet the minimum graduation requirement of 208 hours.

See www.cdm.depaul.edu (http://www.cdm.depaul.edu) to see sample schedule of course requirements on a year-by-year basis.

Degree Requirements
Students in this degree must meet the following requirements:
- Complete a minimum of 208 credit hours (generally 54 courses).
- Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses.
- Earn a grade of D or higher in all other Liberal Studies and Open Elective courses.
- Maintain a cumulative GPA of 2.0 or higher.

Graphic Design (Minor)
DePaul’s minor in Graphic Design provides a foundation in both traditional and computer-based forms of graphic design with a balanced focus on conceptual, creative and technical skills.

### Health Care Administration Graduate Certificate

The Health Care Administration certificate provides students with the managerial and analytical skills necessary to understand and influence the processes through which hospitals, associated health care organizations, and public and private agencies provide health care opportunities to explore the roles of specific nonprofit and governmental health care providers and regulatory agencies.

This certificate requires three courses (12 credit hours).

### Health Communication (MA)

The MA in Health Communication prepares students to apply knowledge of communication in health care settings. The program includes critical and theoretical courses as well as highly applied courses in a range of health communication topics including cultural awareness and health disparities, healthcare systems and policy, training and development, provider communication, and health education and promotion.

Graduates of the program will:

- Recognize health care disparities
- Identify the social and multicultural dimensions of health care delivery
- Describe the relationship between effective communication and the quality of care that patients receive
- Enhance health literacy across diverse audiences
- Design and deliver health communication campaigns that provide knowledge to individuals hoping to understand contemporary health care issues
- Implement and evaluate health service delivery programs
Program Requirements | Quarter Hours
--- | ---
Degree Requirements | 48
Total hours required | 48

Learning Outcomes

Students will be able to:

- Apply theory in order to address problems or make improvements to communication in the health care environment.
- Critique current health communication practices as they impact health across the population, including contributing to health disparities.
- Create messages that demonstrate effective application of communication principles in the health care environment.
- Interpret and critique current health communication research published in scholarly journals.

Degree Requirements

Course Requirements

The Master of Arts in Health Communication requires 12 courses (48-credit hours) — three core courses, one methods course, six Health Communication electives, and two graduate electives inside or outside the program.

Core Courses

Students are required to take all of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CMNS 500</td>
<td>FOUNDATIONS IN GRADUATE COMMUNICATION STUDIES</td>
<td>4</td>
</tr>
<tr>

<td>INTRO TO HEALTH COMMUNICATION</td>
<td>4</td>
</tr>
<tr>
<td>HTHC 517</td>
<td>COMMUNICATION, HEALTH DISPARITIES, AND CULTURE</td>
<td>4</td>
</tr>
</tbody>
</table>

Methods Requirement

Courses | Title | Quarter Hours |
--- | --- | --- |
| HTHC 516 | RESEARCH METHODS FOR HEALTH CARE PRACTITIONERS | 4 |

Elective Courses

Select eight courses from the following list: 1

Courses | Title | Quarter Hours |
--- | --- | --- |
| HTHC 519 | ASSESSMENT AND INTERVENTION FOR HEALTH CARE ADMINISTRATORS | 3 |
| HTHC 521 | HEALTH AND FAMILY COMMUNICATION | 3 |
| HTHC 523 | TOPICS IN HEALTH COMMUNICATION | 3 |
| HTHC 524 | HEALTH CARE TEAMS & LEADERSHIP | 3 |
| HTHC 525 | NARRATIVES IN HEALTH CARE | 3 |
| HTHC 526 | SOCIAL CONSTRUCTION OF HEALTH AND ILLNESS | 3 |
| CMNS 586 | COMMUNICATING HEALTH, RACE AND REPRODUCTIVE RIGHTS | 3 |
| PRAD 515 | WRITING FOR A COMMUNICATION CAREER | 3 |
| PRAD 535 | PUBLIC RELATIONS IN HEALTH CARE | 3 |

Comprehensive Final Examination

Students in the Master of Arts in Health Communication complete their degree requirements by passing a comprehensive final examination.

Optional Latino Media & Communication Concentration

The graduate concentration in Latino Media & Communication is comprised of at least three graduate courses drawn from the areas of advertising, journalism, media and cinema studies, multicultural communication, organizational communication and public relations. Graduate students in any of the College of Communication Master of Arts programs can elect to complete the Latino Media & Communication concentration. Students may need to use outside electives to complete this concentration.

Students who complete the concentration will:

- Develop an understanding of the heterogeneous and rapidly changing Latino communities locally, nationally and globally
- Ground their knowledge of intercultural studies within a more extensive and concrete knowledge of a particular (even though diverse), rapidly growing, and increasingly important population within the U.S.
- Increase their cross-cultural competence (understanding and ability to dialogue across difference, develop cultural sensitivity and awareness) with Latino communities
- Enhance their capacity to communicate with and learn from Latino populations in the workplace, in community situations and other sites of engagement
- Recognize the impact of the movement of Latinos across the globe and develop the skills to critically consume and produce media, public relations and advertisement representations that communicate to and about Latino communities
- Develop field-specific knowledge of Latino media and communication along with an understanding of how Latino studies shapes other fields of communication

Courses

Students are required to take three courses (12 credits) from the following list:

PRAD 536 | ADVERTISING AND HEALTH CAMPAIGNS |
PRAD 540 | CRISIS COMMUNICATION MANAGEMENT |
PRAD 594 | COMMUNICATION CAMPAIGNS FOR SOCIAL CHANGE |
CMN 591 | INTERNSHIP |
CMN 592 | INDEPENDENT STUDY |
CMN 593 | RESEARCH PRACTICUM |
CMN 598 | STUDY ABROAD |
CMNS 590 | COMMUNICATION WORKSHOP (VARIABLE TOPICS) |

1 With approval of the graduate program director, students can take up to two relevant elective courses from other College of Communication graduate programs or relevant elective courses from other graduate departments/programs outside of the College of Communication.
**Course** | **Title** | **Quarter Hours**
---|---|---

CMN 591 | INTERNSHIP ¹ |  
CMN 598 | STUDY ABROAD ¹ |  

¹ Topic must be related to Latino Media and Communication.

**Grade Requirements**

All students are required to maintain a cumulative GPA of 3.000 in their coursework. If a student’s cumulative GPA falls below 3.000, the student will be allowed to complete an additional 16 credits or 3 quarters (whichever comes first) to attain the 3.000 minimum GPA. If the cumulative GPA remains below a 3.000 at the conclusion of this time period, the student may be dismissed from the program. The student’s cumulative and term GPAs along with overall academic performance will be factored into the dismissal decision.

**Health Communication (MA), Combined Bachelor’s + Master’s Degree**

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

**DePaul Undergraduate Degree + Health Communication (MA)**

The Health Communication (MA) combined degree program is open to all undergraduate majors across the university. Students who are interested in this program must apply to the Graduate Admission Office in their junior year, and if accepted, can take up to three graduate courses (12 credits) in their senior year. These three courses count towards both the bachelor’s program and the Master of Arts degree. Students will pay the current undergraduate tuition rate for these three courses. Once students earn their Bachelor of Arts or Bachelor of Science degree from DePaul, they matriculate as a graduate student and complete the remaining required courses for their Master of Arts degree. Students should work with their undergraduate advisor to see how the graduate classes will fulfill undergraduate degree requirements. Students must maintain a 3.0 GPA (B or better) in each graduate class taken in the senior year in order to continue in the program.

**Example Schedule for Students in the Combined Degree Program**

**Double Demon Scholarship**

Alumni from any of DePaul’s colleges who are admitted into a graduate degree program in the College of Communication automatically qualify for the Double Demon Scholarship. Combined degree program students are eligible.

This scholarship covers 25% of the tuition for a master’s degree in the College of Communication. Both full-time and part-time students are eligible. No scholarship application is required. (DePaul University employees are eligible for other employee tuition benefits through the university, and therefore are not eligible for the Double Demon Scholarship.)

**Health Communication (MA/MBA in Management)**

Our Master of Business Administration/Master of Arts in Health Communication degree develops students’ managerial acumen and their expertise as communicators.

The joint degree prepares students for leadership roles in a range of areas within healthcare, including advertising, public relations, crisis communication, quality/patient safety, strategic planning/marketing, corporate communication, and community/population health.

The Kellstadt Graduate School of Business and the College of Communication offer a unique joint degree program. This 96-credit MBA/MA in Health Communication provides you with the opportunity to earn advanced degrees in two highly complementary fields—business and health communication. Success in today’s competitive, global economy requires both an in-depth understanding of the dynamics of the world of business and the ability to communicate effectively using various media under highly diverse conditions.

The Master of Business Administration/Master of Arts in Health Communication program allows students to obtain both degrees in as little as three years of full-time course work. This rigorous program is designed for highly motivated students who work or plan to work
in management, executive or consulting positions in healthcare communications, leadership, advertising, public relations, diversity management, quality/safety, and community/population health. To enter this program, prospective students must complete admissions applications and be accepted for both the MBA and the MA in Health Communication.

The Master of Business Administration/Master of Arts in Health Communication is offered as a joint degree, administered jointly by the Kellstadt Graduate School of Business and the College of Communication. The joint degree is designed for committed and enterprising students who want to take advantage of the growing emphasis on communication in the design and delivery of high quality, safe, and patient-centered healthcare.

## Learning Outcomes
Students will be able to:

- Apply theory in order to address problems or make improvements to communication in the health care environment.
- Critique current health communication practices as they impact health across the population, including contributing to health disparities.
- Create messages that demonstrate effective application of communication principles in the health care environment.
- Interpret and critique current health communication research published in scholarly journals.

## MA Requirements
### Course Requirements
#### Core Courses
Students are required to take all of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HTHC 515</td>
<td>INTRO TO HEALTH COMMUNICATION</td>
<td>4</td>
</tr>
<tr>
<td>HTHC 516</td>
<td>RESEARCH METHODS FOR HEALTH CARE PRACTITIONERS</td>
<td>4</td>
</tr>
<tr>
<td>HTHC 517</td>
<td>COMMUNICATION, HEALTH DISPARITIES, AND CULTURE</td>
<td>4</td>
</tr>
</tbody>
</table>

#### Elective Requirements
Select five courses from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HTHC 519</td>
<td>ASSESSMENT AND INTERVENTION FOR HEALTH CARE ADMINISTRATORS</td>

<td>HEALTH CARE TEAMS &amp; LEADERSHIP</td>
<td></td>
</tr>
<tr>
<td>HTHC 525</td>
<td>NARRATIVES IN HEALTH CARE</td>
<td></td>
</tr>
</tbody>
</table>

## MBA Concentration Requirements
### Course Requirements
To complete the Health Sector Management concentration and business course requirements, students are required to take four courses from the list below:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MGT 559</td>
<td>HEALTH SECTOR MANAGEMENT</td>
<td>4</td>
</tr>
<tr>

<tr>
<td>MGT 545</td>
<td>MANAGING SERVICE OPERATIONS</td>
<td></td>
</tr>
<tr>
<td>MGT 564</td>
<td>STREETS OF CHICAGO: HEALTHCARE MANAGEMENT</td>
<td></td>
</tr>
</tbody>
</table>
Business Electives:
Select two of the following: 8
- MGT 573 CREATIVITY, INNOVATION & DESIGN
  or MGT 545 MANAGING SERVICE OPERATIONS
- MGT 563 NEGOTIATION SKILLS
  or MGT 562 RESOLVING CONFLICT IN ORGANIZATIONS
- MGT 545 MANAGING SERVICE OPERATIONS

Health Communication Certificate
The graduate certificate in Health Communication provides communication education for professionals in the healthcare field and health industry education for communication professionals. The six-course (24 credit hour) certificate will prepare students to work alongside clinicians and public health officials to improve the quality and effectiveness of communication in health care settings.

Course Requirements

</tr>
</tbody>
</table>

Health Informatics (MS)
The master's degree program will provide students with the necessary skills and knowledge needed to implement and support information technology solutions for health sector organizations. Graduates will obtain technical knowledge and management skills for the design and support of IT systems and will develop a deep understanding of health IT processes to support health care delivery and management. Graduate will also gain knowledge in areas of health information management including health information processing and exchange, health care analytics, enterprise management and information storage and security management.

</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Identify and analyze elements of a sociotechnical health system.
- Define and evaluate the quality and effectiveness of a health informatics technology.
- Accurately identify and analyze elements of the U.S. health care financial system.
- Conduct a systems analysis for a healthcare problem.
- Identify errors that affect patient safety and develop solutions to promote safer systems.
- Identify features of a functioning health information exchange.

Degree Requirements

Course Requirements

No Introductory Course may be substituted for any other course at any level.

Introductory Courses

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>IT 403</td>
<td>STATISTICS AND DATA ANALYSIS</td>
<td>4</td>
</tr>
</tbody>
</table>

Introductory courses may be waived for any of the following conditions:
• The student has the appropriate course work to satisfy an Introductory Course.
• The student has appropriate and verified professional experience to satisfy an Introductory Course.
• If an exam is available, the student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.

### Foundation Courses

### Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all courses of the designated degree program.
• Maintain a cumulative GPA of 2.5 or higher.
• Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
• Students pursuing a second master’s degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

For DePau’s policy on repeat graduate courses and a complete list of academic policies, see the DePaul Graduate Handbook.

Health Informatics (MS), Combined Bachelor’s + Master’s Degree

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Health Informatics (MS)

The Health Informatics (MS) combined degree program is open to all undergraduate majors across the university.

Students who are interested in this program and meet the following criteria

• Sophomore status (at least 44 quarter hours earned)
• Minimum of 12 quarter hours earned at DePaul
• GPA of 3.3 or higher in courses taken at DePaul
• Endorsement of faculty advisor

should ask a CDM Health Informatics faculty advisor to send an e-mail recommendation to the CDM Academic Success Center (%20advising@cdm.depaul.edu). The recommendation should include the student’s full name, student ID number, and the bachelor’s and master’s degrees the student wishes to combine.

If accepted, a student can take up to three graduate courses (12 credits). These three courses count towards both the bachelor’s program and the Master of Science degree. Students will pay the current undergraduate tuition rate for these three courses.

Maintaining Good Standing

• Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter
• The student and Faculty Advisor will be notified when the student’s cumulative GPA falls below 3.3 or when the students receives less than a C- in graduate level course
• If a student’s cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional BA/BS.
• Graduate courses passed before dismissal will not be counted and may not be retaken. If the student pursues graduate study, other graduate courses must be substituted. To apply to a CDM graduate degree program, following dismissal from the combined degree, students must follow regular CDM Admission procedures, and will be required take 13 new graduate courses to earn a master’s degree.

Designing a Course of Study

It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.

This course of study may include which undergraduate classes to avoid taking in order to take the graduate version. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.

Registering for Master's Degree Courses

The student’s advisor must complete the BS/MS Request form, under the Faculty tab on the CDM Intranet, to request the student’s enrollment in the three graduate courses. The form will require the following data: student’s full name, graduate course and section, and the undergraduate course to be substituted for. The CDM dean’s office will process the enrollment.

Bachelor’s Degree to Master's Degree Transition

In order to be fully admitted to the designated master’s program, the student must meet all admission requirements for that program.

Learn more about master’s degree admission requirements (http://www.cdm.depaul.edu/Prospective%20Students/Pages/MastersDegreeStudents.aspx). Students will follow the master’s degree program requirements for the term they are admitted to the master’s degree program.

Double Demon Scholarship

The Double Demon scholarship, offered exclusively to DePaul alumni, covers 25 percent of the tuition for a master’s degree or select certificate programs. Combined degree program students are eligible.

Alumni from any of DePaul’s colleges who are admitted into a graduate degree program from one of these programs automatically qualify for the Double Demon Scholarship. This scholarship is available for new part-time or full-time students who began a master’s degree in CDM in winter 2012-2013 or later and the other colleges beginning in winter 2013-2014. It cannot be applied retroactively.

There is no limit to the amount of courses that can be taken by eligible students. However, students may not take more than four courses in any quarter without permission from the college. The scholarship cannot be applied to cover fees or other non-tuition costs.

Health Law (LLM)

Established in 1986, DePaul’s LLM in Health Law is considered one of the most competitive programs in the nation. Guided by outstanding full-time faculty and leading attorneys, the health law curriculum evolves as health care law and technology change, addressing the demand for lawyers
with specialized credentials in this field. You may also earn course credit while gaining valuable practice experience through field placements. Additionally, you may participate in programs conducted by the Mary and Michael Jaharis Health Law Institute.

**Program Requirements**

<table>

</tr>
</tbody>
</table>

**Learning Outcomes**

**Domestic Students**

Students will be able to:

- Demonstrate advanced knowledge of the legal rules and policies in the student’s area of specialization.
- Conduct advanced legal research and analysis in the student’s area of specialization.

**International Students**

Students will be able to:

- Identify structures of the U.S. legal system and government institutions.
- Demonstrating understanding of how a common law system operates in a constitutional democracy.
- Demonstrate advanced knowledge of the legal rules and policies in the student’s area of specialization.
- Identify and apply relevant legal authority.
- Communication clearly in speech and writing.

**Degree Requirements**

The Master of Laws program begins with an orientation that introduces graduate students to DePaul’s faculty, staff, library, computer and research facilities. Students who received legal training outside the United States also will participate in a special course introducing them to the Socratic teaching method, the differences between civil and common law systems, and the foundations of the U.S. legal system.

To earn the LLM in Health Law, a student must complete 24 semester hours of credit with a minimum cumulative grade point average (GPA) of 2.0. A summer term is counted as a semester for this purpose. Students who complete 24 credit hours with a GPA below the 2.0 GPA required to earn the degree will not be permitted to continue taking classes to improve their GPA. A student is automatically dismissed if he or she has a cumulative GPA below 2.0 for any three consecutive semesters.

The LLM program may be completed on either a full- or part-time basis but it must be completed within five years. With the exception of students admitted to and enrolled in the joint JD+LLM program, credits earned as part of the JD program do not count toward the LLM degree. No credit is given for law courses taken before a student is admitted to and enrolled in the LLM program.

Courses must be selected from the LLM in Health Law courses listed below. Students wishing to substitute a course must speak with their advisor.

**Health Sciences (BS)**

The mission of DePaul University’s Department of Health Sciences is to educate and train students who will collaboratively address human health
from interdisciplinary natural and social scientific perspectives in order to promote health and to improve the lives of individuals and communities.

The Health Sciences major offers concentrations in BioScience and Public Health Sciences that will enable future health care professionals to begin this cross-disciplinary conversation even earlier. Each concentration offers tracks that help students focus their interests and prepare for future careers. This degree a) provides students interested in pursuing a career in one of many health-related professions with a common core of knowledge; b) provides a general track in each concentration but also articulates additional tracks that meet requirements for entry into graduate programs; c) provides enough flexibility to enable students to move among those tracks as their interests evolve, and d) brings students headed for multiple health-related professions into on-going conversation with each other.

### Learning Outcomes

Students will be able to:

- Evaluate scientific research and evidence-based approaches to human health on an individual and population level.
- Identify the core concepts and principles of public health and explain how they promote health and prevent disease.
- Explain the foundational biological principles related to human health.
- Identify and analyze ethical issues in research, health, and public health.
- Explain how social determinants influence an individual's health and create health disparities.
- Demonstrate effective communication skills and work collaboratively with individuals of varied perspectives.

### College Core Requirements

#### Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (BA) degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- Completing the last course in the fourth-year high school sequence of any language
- Completing the last course in the first-year college sequence of any language
- Completing a college course beyond the first-year level in any language
- Achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- Achieving a satisfactory rating in a proficiency examination accepted by DePaul

- Achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- Achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- Achieving a satisfactory score on the CLEP examination

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

BA students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While Bachelor of Science (BS) students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

### Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

### Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Quantitative Reasoning & Technological Literacy

Not Required for Bioscience Concentration
### Learning Domains

**Arts and Literature (AL)** (p. 1184)
- 3 Courses Required

**Historical Inquiry (HI)** (p. 1188)
- 2 Courses Required

**Philosophical Inquiry (PI)** (p. 1190)
- 2 Courses Required
  (See Note Below)

**Religious Dimensions (RD)** (p. 1191)
- 2 Courses Required
  (See Note Below)

**Scientific Inquiry (SI)** (p. 1193)
- Not Required

**Social, Cultural, and Behavioral Inquiry (SCBI)** (p. 1196)
- 3 Courses Required

### Notes

Students must complete one approved health ethics course: REL 229 (RD) or PHL 229 (PI) within their liberal studies program or a track elective in the major, HLTH 229.

Specified required courses within Liberal Studies may have grade minimums (e.g., C- or better). Please consult your advisor or your college and major requirements.

Students with a primary major in Health Sciences are required to complete the Capstone offered by the Health Sciences department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Health Sciences are required to complete the Capstone offered by the Health Sciences department. Health Sciences students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

### Major Requirements

#### Core Course Requirements

<table>
<thead>

</tr>
</tbody>
</table>

All majors will also complete one approved health ethics course, which can apply to the Religious Dimensions or Philosophical inquiry learning domains (REL 229 or PHL 229) within their liberal studies program, or to their track electives in the major (HLTH 229).

#### Concentration Requirements

Students must select a concentration within the major and complete the requirements. A maximum of one concentration and one track may be selected. Health Sciences concentrations include: BioScience (with tracks in General; Medical; Lab Investigations; and Pre-nursing) and Public Health Sciences.

#### Concentration Requirements

Concentrations provide an opportunity for students to narrow the focus of their major. In addition to the college core requirements, liberal studies requirements and major requirements, student are required to choose one of the following concentrations.

- BioScience Concentration - Accelerated Program, Health Sciences (BS) (p. 493)
- BioScience Concentration, Health Sciences (BS) (p. 496)
- Public Health Sciences Concentration, Health Sciences (BS) (p. 499)
BioScience Concentration - Accelerated Program, Health Sciences (BS)

The Accelerated Program is only for qualified Pathways Honors students who are majoring in the Health Sciences with a BioScience concentration, and who have been accepted into an accelerated 3+ College of Science and Health pre-professional program. In order to pursue one of the pre-professional Accelerated Program tracks, a student must coordinate carefully with the Pre-Health Advisor and Pre-Health Advising Committee’s (PAC) Accelerated Program advisor (email CSHPreHealth@depaul.edu for information). Once accepted to an accelerated program, students may declare one of the concentrations below. There are pre-professional Accelerated Programs in Nursing (3+2) at DePaul University and in Medicine (3+4), Pathologists’ Assistant (3+2), Pharmacy (3+4), Physical Therapy (3+3), Physician Assistant (3+2), and Podiatry (3+4) at Rosalind Franklin University.

Students formally accepted into an Accelerated Program will complete their fourth year of coursework at their professional school and apply the credit toward their Bachelor of Science at the conclusion of their fourth year of study. Depending on the program in question, some Liberal Studies Program courses, Health Sciences major requirements, and open electives will be fulfilled by professional degree courses. To avoid earning duplicate credit for some courses, students must meet regularly with the Pre-Health Advisor and the Health Sciences departmental academic advisor. Please visit the Pathways Honors Program (https://csh.depaul.edu/academics/pre-health-program/pathways-honors-program/Pages/default.aspx) site for more information about eligibility requirements.

* Student may not combine the HLTH and BIO Anatomy and Physiology courses (e.g.: HLTH 301 and BIO 201)

Open Electives
Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

**Health Sciences (BS) + Generalist Nursing (MS) Master’s Entry to Nursing Practice**

Combined Bachelor’s + Master’s degree programs allow especially strong and motivated students to complete both degrees on an accelerated timeline by sharing a pre-determined limited number of credits between the undergraduate and graduate degree programs.

The combined BS in Health Sciences + Master’s Entry to Nursing Practice allows strong students with an interest in nursing to complete both degrees in 5 years, saving both time and significant tuition dollars. In order to be eligible to apply, students must be members of the Pathways Honors Program in the College of Science and Health (p. 1321) and should begin working with their academic advisor by the end of their freshman year to ensure that their coursework is completed properly. Due to the restrictive nature of the program, students with significant transfer credit are not eligible.

Eleven courses are double-counted between the BS in Health Sciences + Master’s Entry to Nursing Practice.

Please see the Accelerated BioScience Concentration requirements (p. 493) for a complete list of courses needed.

**Health Sciences (BS) + Health Communication (MA)**

Combined Bachelor’s + Master’s degree programs allow especially strong and motivated students to complete both degrees on an accelerated timeline by sharing a pre-determined limited number of credits between the undergraduate and graduate degree programs.

The BS in Health Sciences + MA in Health Communication is a Universal Pathway combined degree offered through the College of Communication. Students should refer to the College of Communications MA in Health Communications Combined Degree Programs (p. 485) page for requirements.
Health Sciences (BS) + Master of Public Health (MPH)

Combined Bachelor’s + Master’s degree programs allow especially strong and motivated students to complete both degrees on an accelerated timeline by sharing a pre-determined limited number of credits between the undergraduate and graduate degree programs.

The 3+2 combined program maintains the rigor and value of both the undergraduate degree in Health Sciences from the College of Science and Health and the Master of Public Health program from the College of Liberal Arts and Social Sciences, giving students exceptional education and training at the undergraduate and graduate level. The advantage of this program is that students can earn their BS in Health Sciences and their MPH in as few as five years. There is also a Universal Pathway to the MPH as an option for students who are not eligible for the 3+2 combined degree program, and more information about that pathway can be found on the Master of Public Health site.

Interested students may apply to the BS in Health Sciences + Master of Public Health 3+2 combined degree program during their junior year at DePaul. Eligible students must be declared Health Sciences majors in the Public Health Sciences concentration with a minimum cumulative GPA of 3.5. Application to the MPH program is competitive and includes several personal statement essays and a current CV. The GRE requirement will be waived for application to this program. Students are responsible for planning their remaining quarters at DePaul to confirm that they can complete all degree requirements.

In year four, accepted students take undergraduate courses toward the BS, graduate courses towards the MPH, and graduate courses that will count towards both degrees. The students will be awarded the BS in Health Sciences when all requirements have been met, by the end of year 4 at the latest. The fifth year will consist solely of courses for the MPH.

Because this program requires careful planning of courses, students in their sophomore year are encouraged to work with the Health Sciences academic advisor and a faculty advisor from the MPH program. While students are enrolled as undergraduates in the College of Science and Health, they must apply for undergraduate degree conferral in anticipation of completing the BS in Health Sciences. Once students are matriculated as graduate students in the College of Liberal Arts & Social Sciences they will be responsible for applying for degree conferral in anticipation of completing the Master of Public Health.

In the event that they are not accepted to the program, applicants would take the remaining coursework for the BS in Health Sciences and would be encouraged to apply for traditional entry into the MPH.

The MPH curriculum will be completed in its entirety and is unaltered by this program. Unique to this combined degree program, a maximum of 5 courses/20 quarter hours may be applied toward both the BS in Health Sciences and the Master of Public Health courses below will apply toward both degrees. All other graduate coursework counts solely towards the MPH. The following courses in the BS Health Sciences/Health Sciences concentration will be replaced by graduate level courses:

<table>
<thead>
<tr>
<th>MPH Course</th>
<th>One Major Elective</th>
</tr>
</thead>
<tbody>
<tr>
<td>MPH 501</td>
<td></td>
</tr>
<tr>
<td>MPH 502</td>
<td>HLTH 310</td>
</tr>
<tr>
<td>MPH 511</td>
<td>One Major Elective</td>
</tr>
</tbody>
</table>

If the student is admitted to the combined program and completed some MPH coursework but then decides not to complete the MPH, the completed graduate courses will apply to the undergraduate degree and any remaining Health Sciences requirements will be finished at the undergraduate level. Also, students will be advised carefully as to the financial implications of this program as the timing of courses affects when the students will be in their undergraduate or graduate career for the purposes of tuition and financial aid eligibility.

Once the 5 courses/20 quarter hours of graduate coursework has been completed and applied toward the BS and MPH degrees, the student will take their remaining undergraduate courses as part of their undergraduate career and remaining graduate courses as part of their graduate career. Once the undergraduate degree is conferred, the student is eligible for the Double Demon Scholarship for remaining graduate-only terms. See DePaul’s Scholarship website for details.

Healthcare Administration (BA)

The Bachelor of Arts in Health Care Administration from the School of Continuing and Professional Studies (p. 1336) (SCPS) emphasizes a multidisciplinary understanding of health and the “business of health,” in preparation for further education and careers in the administration of health care services and delivery systems. The degree offers an interdisciplinary liberal arts and professional studies curriculum to students who are new to the health care administration industry and those who are already working in this environment and seek to advance their careers.

This major advances student's knowledge and professional skills related to health communications, biomedical ethics, global health issues, career planning, writing, critical thinking, research, community engagement in a variety of integrative formats. In addition to a core of health science subjects, students also study general business, management and leadership topics related to the health care industry including public health, health care administration, and eldercare all within a liberal arts framework.

This degree program offers the following features:

- Designed for working adult students with flexible scheduling including online options.
- Financial Aid and flexible payment options available.
- Acceleration and affordability through transfer credit and prior learning assessment (PLA) credit.
- Opportunities to combine bachelor's and master's programs and apply graduate courses to both programs.
- Individualized program planning, course selection and advising assistance provided.
- Enhanced career opportunities through professional portfolio development, and career placement services instruction from industry practitioners, and wide-ranging Career Services support.
- Degree granted by DePaul University, with its excellent academic reputation and the opportunity to join its prestigious and extensive alumni network.

Learning Outcomes:

Students will be able to:

- Analyze and apply knowledge and theories of health care management.
- Explain legal and regulatory requirements applicable to health care organizations.
- Apply skills for effective decision-making in health care organizations.
- Investigate problems using qualitative and quantitative methods.
- Apply ethical principles in context.
- Apply methods of communication in multiple settings.
- Analyze and apply different liberal arts perspectives.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

College Core (74 credits, 16 credits in residence)

BIO 110  EVOLUTION IN HEALTH AND MEDICINE

Open Electives (34 credits)

Open Electives can be fulfilled through courses taken in the School of Continuing and Professional Studies and other DePaul colleges, transfer courses, assessment of prior learning (PLA), and independent studies.

History (BA)

As the American Historical Association has noted, “We all interpret and narrate the past, which is to say that we all participate in making history. It is among our most fundamental tools for understanding ourselves and the world around us.” The History Department at DePaul University embraces this idea, and is committed to engaging with students, the university, and the wider community in an ongoing effort to understand the past and its varied meanings, the critical and scholarly debates through which we gain such understanding, and the relationship of the past to the problems of the present.

The history program at DePaul combines a breadth of chronological and geographical coverage with the opportunity to develop a concentration in a student’s fields of interest. Instruction emphasizes the humanistic as well as the social scientific dimension of the field. One-hundred and two-hundred-level courses (lower division) provide surveys of Asian, African, European, Latin American, North American and World and Comparative History. A main focus of these lower division courses is teaching students how to evaluate primary sources. Three-hundred-level courses (upper division) concentrate on historical debates within specific fields. All courses stress development of research, writing and oral communications skills.

The history major gives students a broad base of knowledge and skills applicable to a variety of careers. Many of our graduates go on to work in the fields of education and law. Others pursue jobs in government and politics; museums, historical societies, and libraries; and business and commercial ventures. A wide range of employers find that history majors have honed critical analytical and communications skills, making them ideal candidates for positions of requiring responsibility and independent work habits.

Learning Outcomes

Students will be able to:

- Describe and discuss historical facts, themes, and ideas.
- Identify, analyze, evaluate, and synthesize primary and secondary source evidence.
- Analyze an event, source, idea or person within its historical context.
- Critically evaluate change over time.
- Identify different perspectives on the past, whether those be historical, interpretive, or methodological in nature.
- Conduct research independently using primary and secondary source evidence.
- Express knowledge and reason effectively in writing.

College Core Requirements

Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.
The Modern Language Requirement (MLR)
All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

The Modern Language Option (MLO)
The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace the Scientific Inquiry—Lab or Scientific Inquiry—Science as a Way of Knowing requirement.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency
A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

</tbody>
</table>

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.
A student majoring in History (HST) is required to complete the Capstone offered by the History Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. An HST major in the University Honors Program shall take the University Honors Capstone and the HST Capstone.

Learning Domains
Arts and Literature (AL) (p. 1184)
- 3 Courses Required

Historical Inquiry (HI) (p. 1188)
- Not Required

Philosophical Inquiry (PI) (p. 1190)
- 2 Courses Required

Religious Dimensions (RD) (p. 1191)
- 2 Courses Required

Scientific Inquiry (SI) (p. 1193)
- 3 Courses Required
  [1 SWK Course, 1 Lab Course, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)
- 3 Courses Required

Notes
A student majoring in History (HST) is required to complete the Capstone offered by the History Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. An HST major in the University Honors Program shall take the University Honors Capstone and the HST Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

¹ Important note: Students must complete WRD 103 and WRD 104 or HON 101 prior to enrolling in HST 298. For all concentrations, HON 102 may be counted toward lower division requirements.

Concentration Requirements
Students must also complete the requirements from one of the following concentrations: standard, pre-law, public history, or secondary-education.

Concentration Requirements
Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Pre-Law Concentration, History (BA) (p. 505)
- Public History Concentration, History (BA) (p. 506)
- Standard Concentration, History (BA) (p. 507)

History (BA) + Secondary Education History (MEd)
The TEACH Program combines a Liberal Arts and Social Sciences (LAS) undergraduate Social Science major (Anthropology, Economics, Geography, History, Political Science, or Sociology) or a Science and Health (Psychology) major with a graduate level College of Education (COE) Master's in Education Program. Students graduate with a BA or BS in their disciplinary major and a MEd in Education with State of Illinois Secondary Social Science licensure.

This combined degree program of the College of Liberal Arts and Social Sciences and the College of Education was collaboratively developed, and is governed and taught by faculty from these units.

Students may apply to the TEACH Program during the spring of their junior year. They must enroll in the Junior Year Experiential Learning course, TCH 320, and meet other application criteria; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 GPA. During their senior year, students are required to complete a TEACH Program capstone course, TCH 390, and three 400-level courses that count toward both their undergraduate and graduate degrees:

Junior Year Coursework: 4 undergraduate quarter hours required

<table>
<thead>
<tr>
<th>Course</th>

<tbody>
<tr>
<td>TCH 390</td>
<td>CAPSTONE: INTEGRATING EDUCATION &amp; DISCIPLINARY FOUNDATIONS (fulfills undergraduate Capstone requirement; major area may require a separate Capstone course)</td>
<td>4</td>
</tr>
</tbody>
</table>
Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of tuition, reducing their overall debt load.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students must achieve a cumulative GPA of 3.35 by the end of their second year of study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than the end of the Autumn Quarter of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

Pre-Law Concentration, History (BA)

Course Requirements

Lower Division Courses

Students must take five courses at the 100- or 200-level. Note that the 200-level courses are not more difficult than the 100. The 100-level indicates that the course examines global history or large regions of the world. The 200-level indicates that the course has a narrower national or thematic focus. Note: HON 102 may be counted toward this lower division requirement.
## Course Requirements

### Core Course

<table>
<thead>
<tr>

<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HST 298</td>
<td>INTRODUCTION TO HISTORICAL SOURCES AND METHODS ¹</td>
<td>4</td>
</tr>
<tr>
<td>HST 299</td>
<td>CRAFT OF HISTORY</td>
<td>4</td>
</tr>
<tr>
<td>HST 390</td>
<td>CAPSTONE IN HISTORICAL RESEARCH AND WRITING</td>
<td>4</td>
</tr>
</tbody>
</table>

¹ Important Note: Students must complete WRD 103 and WRD 104 or HON 101 prior to enrolling in HST 298. For all concentrations, HON 102 may be counted toward lower division requirements.

History majors should take HST 298 at the beginning of their sophomore year, after they have completed two or three of their lower-division courses as well as WRD 103 and WRD 104. Transfer students should plan on registering for HST 298 as soon as possible.

### Upper Division Courses

Once they have completed HST 298, students take six HST courses at the 300 level. One of the 300 level classes must be a gateway course linked to HST 390. Note that HST 390 counts as a capstone and not as one of the six 300-level HST courses. For those in the pre-law concentration, four of those six 300-level classes must be the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HST 388</td>
<td>THE COURT AND THE U.S. BILL OF RIGHTS</td>
<td>4</td>
</tr>
<tr>
<td>HST 395</td>
<td>ISSUES IN NON-U.S. LEGAL HISTORY</td>
<td>4</td>
</tr>
</tbody>
</table>

Select two of the following:

- HST 301 U.S. LABOR HISTORY
- HST 308 EUROPE FROM CONFLICT TO CONSENSUS
- HST 328 ENGLISH CONSTITUTIONAL HISTORY
- HST 331 THE NATION AND NATIONALISM IN EUROPE
- HST 332 FRENCH REVOLUTION AND NAPOLEON
- HST 335 THE AGE OF ENLIGHTENMENT IN EUROPE
- HST 371 THE AMERICAN REVOLUTION
- HST 379 RECONSTRUCTION AND THE RISE OF JIM CROW
- HST 385 UNITED STATES CONSTITUTIONAL HISTORY TO 1865
- HST 386 UNITED STATES CONSTITUTIONAL HISTORY SINCE 1865

Any 300-level HST Topics course with a relevant topic

History majors cap off their studies with HST 390 a course in deep and sustained historical research and writing. To prepare for this capstone, one of the six 300-level HST classes must be part of a two-quarter linked sequence (called the "gateway course"). Students are strongly encouraged to take this sequence either in their junior or senior year bearing in mind that the gateway HST 390s are reliably offered only in Autumn-Winter and Winter-Spring. Not all 300-level HST courses are gateways to the HST 390 capstone, so students should refer to the History Department web page and postings in SAC 420 for applicable offerings. HST 299 is a prerequisite for HST 390.

### Additional Course

Students will take one additional HST course in either the lower or upper division.

### Open Electives

Open elective credit is also required to meet the minimum graduation requirement of 192 hours.

## Public History Concentration, History (BA)

### Course Requirements

#### Lower Division Courses

Students must take five courses at the 100- or 200-level. Note that the 200-level courses are not more difficult than the 100. The 100-level indicates that the course examines global history or large regions of the world. The 200-level indicates that the course has a narrower national or thematic focus. Note: HON 102 may be counted toward this lower division requirement. Please see the list below for the public history offerings.

<tr>
<td>HST 390</td>
<td>CAPSTONE IN HISTORICAL RESEARCH AND WRITING</td>
<td>4</td>
</tr>
</tbody>
</table>

Of the five lower division and six upper division courses, four must come from the following list:

- HST 269 MUSEUMS, MATERIAL CULTURE AND MEMORY: INTRODUCTION TO PUBLIC HISTORY
- HST 360 DOING DIGITAL HISTORY
- HST 382 CHICAGO HISTORY MUSEUM EXPERIENCE
- HST 389 TOPICS IN PUBLIC HISTORY
- HST 391 DOING LOCAL AND COMMUNITY HISTORY
- HST 392 PUBLIC HISTORY INTERNSHIP
History majors cap off their studies with HST 390, a course in deep and sustained historical research and writing. To prepare for this capstone, one of the six 300-level HST classes must be part of a two-quarter linked sequence (called the "gateway course"). Students are strongly encouraged to take this sequence either in their junior or senior year bearing in mind that the gateway HST 390s are reliably offered only in Autumn-Winter and Winter-Spring. Not all 300-level HST courses are gateways to the HST 390 capstone, so students should refer to the History Department web page and postings in SAC 420 for applicable offerings. HST 299 is a prerequisite for HST 390.

One Additional Course
Students will take one additional HST course in either the lower or upper divisions.

Open Electives
Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Standard Concentration, History (BA)

Course Requirements

Lower Division Courses
Students must take five courses at the 100- or 200-level. Note that the 200-level courses are not more difficult than the 100. The 100-level indicates that the course examines global history or large regions of the world. The 200-level indicates that the course has a narrower national or thematic focus. Note: HON 102 may be counted toward this lower division requirement.

1 Important Note: Students must complete WRD 103 and WRD 104 or HON 101 prior to enrolling in HST 298. For all concentrations, HON 102 may be counted toward lower division requirements.

History majors should take HST 298 at the beginning of their sophomore year, after they have completed two or three of their lower-division courses as well as WRD 103 and WRD 104. Transfer students should plan on registering for HST 298 as soon as possible.

Upper Division Courses
Once they have completed HST 298, students take six HST courses at the 300 level. For the Standard Concentration, these classes can be on any historical subject. One of the 300 level classes must be a gateway course linked to HST 390. Note that HST 390 counts as a capstone and not as one of the six 300 level HST courses.

History majors cap off their studies with HST 390, a course in deep and sustained historical research and writing. To prepare for this capstone, one of the six 300-level HST classes must be part of a two-quarter linked sequence (called the "gateway course"). Students are strongly encouraged to take this sequence either in their junior or senior year bearing in mind that the gateway HST 390s are reliably offered only in Autumn-Winter and Winter-Spring. Not all 300-level HST courses are gateways to the HST 390 capstone, so students should refer to the History Department web page and postings in SAC 420 for applicable offerings. HST 299 is a prerequisite for HST 390.

One Additional Course
Students will take one additional HST course in either the lower or upper division.

Open Electives
Open elective credit is also required to meet the minimum graduation requirement of 192 hours.

History (MA)
The MA in History offers students the opportunity to explore the breadth and depth of the Historical Discipline. Students take a total of 12 courses, with all students taking History 421 "The Historical Discipline." Students may enter the program in Autumn, Winter, or Spring.

The MA in History may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- History + Digital Humanities Certificate
- History + Women's and Gender Studies Certificate

Learning Outcomes

Students will be able to:

- Evaluate the breadth and complexity of the discipline of history.
- Compare and differentiate the range of topics historians explore.
- Apply and interpret the variety of methodologies historians employ.
- Identify, analyze, and evaluate historical arguments effectively.
- Communicate, in writing and orally, complex historical, historiographical, and methodological issues effectively.

The Graduate Colloquia
All graduate students need to complete 12 courses (48 hours) of graduate work in order to complete the MA. HST 421 is required for all...
students. For those students who were conditionally admitted, HST 421 is a prerequisite for all 400-level history courses. In addition, students take eleven courses from the list of graduate colloquia. These colloquia share the programmatic emphasis of the curriculum with their emphasis on the historiographical aspects of their respective topic. Note that that every colloquium, when offered, has a subtitle which identifies the specific sub-topic to be addressed that particular quarter. (For example: HST 431: The New Deal. As long as the topics (as reflected in the subtitle) of any colloquium are different, students may take more than one of any of the above courses. In order to ensure that students realize the curricular goals of breadth of exposure to the historical discipline, however, in no case is a student to take more than four colloquia bearing the same number. Thus, at the minimum, students will take courses in at least three different areas (as defined by colloquia titles).

### Course

<table>
<thead>

</thead>
<tbody>
<tr>
<td>HST 492</td>
<td>GRADUATE INTERNSHIP</td>
<td>4</td>
</tr>
<tr>
<td>HST 497</td>
<td>INDEPENDENT STUDY</td>
<td>4-8</td>
</tr>
</tbody>
</table>

In addition, upon consultation with the Graduate Director and with his/her approval, students may count up to eight quarter hours from another DePaul graduate program toward their MA. Such courses would reduce the number of required colloquia by two.

### Conditional Admission

In some cases, strong candidates who have not completed the REQUIRED undergraduate credit hours in history and/or students who have not yet demonstrated their strengths in the field may be considered for conditional admission. Students admitted in this category may only take one course (HST 421) during the Autumn quarter. A student who passes HST 421 with a grade of B or above may then continue in the program but must receive grades of B or above in the next two graduate colloquia that he or she attempts. If the student does NOT receive a B or above in EACH of these three classes, he or she must leave the program.

### Readmission

If a student is dismissed from the program, he or she may be reapply through the formal application process. All students considering applying for readmission are strongly encouraged to contact the Graduate Director.

### Transfer Credit

Upon consultation with the Graduate Director and with his or her approval, students may request that up to 12 units (three courses) of graduate credit earned in other DePaul departments or at other graduate degree-granting institutions be counted toward the MA degree. The Graduate Director will handle such requests on a case-by-case basis. In no circumstances will graduate credit be given for undergraduate coursework or for courses that have been applied toward fulfillment of another degree. Transfer grades from other institutions do not count in the calculation of the DePaul grade point average.

### Undergraduate Courses

Undergraduate courses are not applicable toward the degree, but it is sometimes possible (at the discretion of the graduate director) for students to apply foreign language courses toward degree requirements. Students interested in taking foreign language courses that complement their historical studies should contact the graduate instructor prior to enrolling in any foreign language courses.

### Graduation Requirements

In order to graduate from the program, students must complete all program requirements satisfactorily. Note that the coursework must be completed with a minimum cumulative GPA of 3.0.

### Graduation with Distinction

Distinction is based on two criteria: (1) A record of consistent excellence in graduate coursework, generally interpreted as a cumulative GPA of 3.75 or higher; and (2) Exemplary work on the final paper produced within the capstone seminar as judged by the course instructor and the department's graduate committee, or (for thesis students), exemplary work on the thesis as judged by the thesis director and the department's graduate committee.

### Program Time Limitation

Students in an MA program are expected to complete degree requirements within a six-year period from the first registration date for a course in the program. For students who do not, the department or program director may recommend, on receipt of the student's petition, in writing, an extension of time with or without additional courses, examinations, or other conditions.

### History (Minor)

DePaul's History minor is designed to help students develop a critical understanding of the past, as well as its impact on the present and the
future. Students may pick a specific focus area of interest to complement their major.

Course Requirements
- HST 298
- Two lower division HST courses (100 or 200 level)
- Two upper division HST courses (300 level)
- One course in either the lower or upper level

Students majoring in History (BA) are restricted from earning this minor.

History of Art and Architecture (BA)

The Department of the History of Art and Architecture familiarizes DePaul students with works of art that define civilizations around the world from their emergence to the present day. The study of art is integral to the development of human knowledge and thus consistent with the academic goals of DePaul University as well as a liberal arts education. We extend the Vincentian mission in our particular focus on comparative culture and art in its urban setting. In an increasingly interconnected world, art history encourages a critical engagement with the visual and its role in individual and social formation.

The study of art and architectural history prepares students for a wide variety of careers and post-graduate pursuits. Thus, all of our classes foster critical thinking by developing visual literacy, close reading, persuasive writing, research skills and oral communication. Taking advantage of the rich cultural resources of Chicago through classroom lectures, discussions and site visits to exhibits, museums, and architectural monuments, students come to understand how art is produced and how it operates in its social and historical moment. In more advanced classes, students become well-versed in the nature of the field and its current and traditional theoretical issues. In these classes, too, consideration is given to the professional world, including museums, galleries, cultural institutions, and the global art market.

All of these goals are consistent with our professional aspirations, not only as faculty, but as scholars who distinguish ourselves by the breadth of our geographical and chronological interests and through our record of publishing and professional achievements. Although our approaches vary widely, we are united in our shared interest in the creative, social, and political forces that both determine and emanate from all works of art.

Learning Outcomes
Student will be able to:
- Demonstrate an understanding of the ways in which works of art and architecture are products of their unique historical, geographical, social, and/or religious context.
- Use correctly art history’s specialized vocabulary.
- Identify the salient features of a work of visual culture and argue in writing for the ways in which they acquire meaning.
- Analyze and apply major methodological and/or interpretative issues that belong to a given course’s subject.
- Demonstrate an engagement with original works of art at the Art Institute of Chicago or other regional institutions (when possible).

College Core Requirements

Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:
- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High
or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

**The Modern Language Option (MLO)**

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace the Scientific Inquiry—Lab or Scientific Inquiry—Science as a Way of Knowing requirement.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

**NOTE:** Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

**External Credit and Residency**

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

**Historical Inquiry (HI)** (p. 1188)
- 2 Courses Required

**Philosophical Inquiry (PI)** (p. 1190)
- 2 Courses Required

**Religious Dimensions (RD)** (p. 1191)
- 2 Courses Required

**Scientific Inquiry (SI)** (p. 1193)
- 3 Courses Required
  [1 SWK Course, 1 Lab Course, and 1 Additional Course]

**Social, Cultural, and Behavioral Inquiry (SCBI)** (p. 1196)
- 3 Courses Required
Notes

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

In the 3 + 3 (BA+JD) Program, high-achieving first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

**Key Program Features**

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of tuition, reducing their overall debt load.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

**Program Requirements**

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements.
Students must achieve a cumulative GPA of 3.35 by the end of their second year of study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law's online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than the end of the Autumn Quarter of the participant's third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

**History of Law (Minor)**

The History of Law minor provides students with valuable skills and specific knowledge about histories related to criminal justice history. This minor will give non-history majors training in basic historical thinking about how art and architecture affect individuals and societies. Students may focus on a particular area of art history or architecture.

**Course Requirements**

<table>

</tbody>
</table>

Select five additional 200- or 300-level history of art and architecture courses ¹ | 20

¹ HAA 130 may be substituted for one 200 or 300 level course in the minor.

Students wishing to group their minor courses around a specialty should confer with the History of Art and Architecture professor in that specialty.

Students majoring in History of Art and Architecture (BA) are restricted from earning this minor.

**History of Law (Minor)**

The History of Law minor provides an opportunity for non-history majors to gain a solid introduction to historical study related to law and legal history. This minor will give non-history majors training in basic historical skills and specific knowledge about histories related to criminal justice and law. A History of Law minor provides students with valuable skills that are developed in History courses in addition to the specific content focus on the history and evolution of the law and legal history.

**Hospitality Leadership (BSB)**

The heart and soul of any academic program is the curriculum and the faculty who deliver it. We have developed our unique curriculum with the strong involvement of local Chicago hospitality industry leaders and the members of our national advisory board. We have also asked senior faculty at four of the nation’s top ranked hospitality programs to review it and advise us how to strengthen it. By incorporating this input, we created a powerful curriculum that distinguishes us from other hospitality programs. Our curriculum blends two primary concepts: hospitality industry knowledge and key business skills. Additionally, woven throughout the courses are five central themes: leadership, ethics, human resources, globalization and sustainability. By including these themes in many of our courses, we strive to deeply instill within students a sense of personal and corporate social responsibility embedded within an awareness of the larger world around them.

We have three primary curricular goals:

1. Embed a true sense of hospitality within our students; that is, to create a bedrock belief that hospitality is about serving others
2. Create industry leaders prepared to deliver hospitality to anyone who needs it, whenever or wherever
3. Embrace the Vincentian mission: to share hospitality with the underprivileged and disenfranchised members of our communities.

The Hospitality Leadership major is comprised of three components: the Liberal Studies Program (the broad, general education of members of our society), the College of Business core (foundational business skills), and the specific requirements of the School of Hospitality Leadership.

### Learning Outcomes

**Core Outcomes**
- Use analytical and reflective skills in decision-making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Students will be able to:
- Describe the parallel concepts of service and experience management.
- Demonstrate hospitality service through voluntarism at community event using hospitality skills.
- Demonstrate functional knowledge about hospitality business applications and operations.

### College Core Requirements

**Business Core Requirements**

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of analytics, accountancy, mathematics, economics, business law, finance, management, management information systems/computer science, and marketing.

**Course Requirements**

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 66.0 hours are required:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACC 101</td>

<td>CALCULUS II</td>
<td></td>
</tr>
<tr>
<td>ECO 105</td>
<td>PRINCIPLES OF MICROECONOMICS</td>
<td>4</td>
</tr>
</tbody>
</table>

**Finance**

Select one of the following:
- FIN 300 FOUNDATIONS OF FINANCE
- FIN 310 INTRODUCTION TO FINANCE

**Computer Science or MIS**

Select one of the following:
- CSC 241 INTRODUCTION TO COMPUTER SCIENCE I
- MIS 140 INTRODUCTION TO BUSINESS TECHNOLOGY AND DECISION MAKING

**Communication**

Select one of the following:
- MKT 376 EFFECTIVE BUSINESS COMMUNICATION
- ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION

**Business Capstone**

Select one of the following:
- ICS 394 ENTREPRENEURSHIP STRATEGY
- ICS 395 MANAGEMENT STRATEGY
- ICS 396 HOSPITALITY STRATEGY (Hospitality majors only)

**Global Business Perspective**

Select 4.0 hours of the following:
- ECO 316 EUROPEAN ECONOMIC HISTORY
- ECO 330 RADICAL RESPONSES TO CAPITALISM
- ECO 333 TOPICS IN GLOBAL ECONOMIES
- ECO 334 UNDERSTANDING CHINA’S ECONOMY
- ECO 360 ECONOMICS OF LOW-INCOME COUNTRIES
- ECO 361 INTERNATIONAL TRADE
- ECO 362 INTERNATIONAL MONETARY ECONOMICS
- ECO 363 ECONOMICS OF THE EUROPEAN UNION
- FIN 340 INTERNATIONAL FINANCE
- FIN 355 GLOBAL IPOs & VENTURE CAPITAL
- ICS 350 INTERNATIONAL BUSINESS SEMINAR
- MGT 354 GLOBAL HUMAN RESOURCE MANAGEMENT
- MGT 357 INTERNATIONAL BUSINESS
- MKT 340 MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
- MKT 358 MARKETING IN A GLOBAL ENVIRONMENT
- MKT 360 INTERNATIONAL MARKETING
- SOC 217 WORK IN A GLOBALIZED WORLD

A course taken as part of a term-long study abroad program

**Professional Writing**
Math Requirements for Actuarial Science majors

- An Actuarial Science student is expected to complete the Calculus sequence (MAT 150, MAT 151, and MAT 152) in the first year of study.
- Actuarial Science students do not take MAT 135, MAT 136, or MAT 137.

Business Capstone Requirement

Hospitality Leadership majors must take ICS 396 for the Business Capstone; use of ICS 396 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete ICS 396 and one of ICS 394 or ICS 395.

Business Law Requirement

Hospitality Leadership majors must take HSP 207 for the Business Law requirement; use of HSP 207 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete both HSP 207 and BLW 201.

Grade Minimum Requirements for Hospitality Leadership Major

A minimum grade of C- is required for the following: ACC 101, ACC 102, BUS 102, ECO 105, ECO 106, HSP 207, MAT 137, the course in Professional Writing, and any ICS course used for the Hospitality Leadership major and Global Business Perspective.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Math Requirements for all business majors (except Actuarial Science majors)

- MAT 137 may be replaced by MAT 348 or MAT 351; if done, an additional Scientific Inquiry course must be added to the degree plan.

Business Ethics

All undergraduate students in the Driehaus College of Business complete a course in Business Ethics. It is recommended students take MGT 248 or PHL 248 in Philosophical Inquiry or MGT 228 or REL 228 in Religious Dimensions in the Liberal Studies Program (or University Honors Program) Requirements.

Second Majors and Minors

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.
1 Students must earn a C- or better in this course.
2 Students majoring in Hospitality Leadership are required to complete the sequence of HSP 303 and HSP 304 in order to receive Experiential Learning credit.

Learning Domains
Arts and Literature (AL) (p. 1184)
• 3 AL Courses Required

Historical Inquiry (HI) (p. 1188)
• 2 HI Courses Required

Philosophical Inquiry (PI) (p. 1190)
• 2 PI Courses Required

Religious Dimensions (RD) (p. 1191)
• 2 RD Courses Required

Scientific Inquiry (SI) (p. 1193)
• MAT 137
• 1 Lab or SWK Course

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)
• 1 SCBI Course Required

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements
Course Requirements
In addition to HSP 303 and HSP 304 in the Liberal Studies Program and HSP 207 and ICS 396 in the Business Core, a student majoring in Hospitality Leadership is required to complete the following courses totaling at least 42.0 hours:

<table>
<thead>
<tr>

Open Electives
Open elective credit (8.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

Business Capstone
Hospitality Leadership majors must take ICS 396 for the Business Capstone; use of ICS 396 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete both ICS 396 and either ICS 394 or ICS 395.

Business Law
Hospitality Leadership majors must take HSP 207 for the Business Law requirement; use of HSP 207 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete both HSP 207 and BLW 201.
Experiential Learning
Hospitality Leadership majors must complete HSP 303 and HSP 304. The completed sequence satisfies the requirement for Experiential Learning in the Liberal Studies Program (or University Honors Program) Requirements.

Career Management Course
Students are required to complete the Career Course (250) associated with the major. Students who double major may choose the Career Course (250) associated with either major provided that hours for graduation are satisfied.

Global Business Perspective
If an ICS or HSP course is shared between Global Business Perspective and the Hospitality major, additional hours of Open Elective credit are required. Any ICS or HSP course must be passed with C- or higher.

Combined Bachelor’s + Master’s Program Participants
Students admitted to the Hospitality Leadership and Operational Performance Combined Bachelor’s + Master’s program may apply approved graduate course(s) towards undergraduate Hospitality Leadership major electives.

Graduation Requirements
All Hospitality Leadership (HSP) courses and any other courses used toward the major must be completed with a minimum grade of C- (or PA where specified) and with a combined GPA of 2.000 or higher.

Hospitality Leadership (Minor)
Available to all students, the focus of this minor is to give broad exposure to the scale and scope of the hospitality industry, and to enable students to explore major sectors, such as lodging, event management, restaurant operations & ownership, or private club management in some depth.

Course Requirements
A student minoring in Hospitality Leadership is required to complete the following courses totaling at least 20.0 hours:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HSP 100</td>
<td>INTRODUCTION TO HOSPITALITY</td>
<td>4</td>
</tr>
<tr>
<td>HSP 209</td>
<td>HOSPITALITY ACCOUNTING AND FINANCIAL ANALYSIS</td>
<td>4</td>
</tr>
<tr>
<td>HSP 340</td>
<td>LODGING PROPERTY MANAGEMENT</td>
<td>4</td>
</tr>
<tr>
<td>HSP 362</td>
<td>REVENUE, PRICING &amp; DISTRIBUTION</td>
<td>4</td>
</tr>
<tr>
<td>HSP 372</td>
<td>BRANDING &amp; CUSTOMER LOYALTY</td>
<td>4</td>
</tr>
</tbody>
</table>

Graduation Requirements
All Hospitality Leadership (HSP) courses and any other courses used toward the minor must be completed with a minimum grade of C- (or PA where specified) and with a combined GPA of 2.000 or higher.

Hospitality Leadership (Minor: Revenue Management)
The hospitality industry has an ongoing need for managers skilled in the science and art of forecasting demand. Similar to the tactics of the airlines in pricing and seat allocation, Revenue Management is a business practice that applies theories of pricing and statistics to patterns of lodging room sales and advance reservations. Knowledge of pricing theory, trend analysis, distribution channels, and customer relationship management (CRM) are key tenets.

Course Requirements
A student minoring in Revenue Management is required to complete the following courses totaling at least 20.0 hours:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HSP 100</td>
<td>INTRODUCTION TO HOSPITALITY</td>
<td>4</td>
</tr>

<td>REVENUE, PRICING &amp; DISTRIBUTION</td>
<td>4</td>
</tr>
<tr>
<td>HSP 372</td>
<td>BRANDING &amp; CUSTOMER LOYALTY</td>
<td>4</td>
</tr>
</tbody>
</table>

Graduation Requirements
All Hospitality Leadership (HSP) courses and any other courses used toward the minor must be completed with a minimum grade of C- (or PA where specified) and with a combined GPA of 2.000 or higher.

Hospitality Leadership and Operational Performance (MS)
The Master of Science in Hospitality Leadership and Operational Performance combines critical business theories and skills with innovative hospitality leadership practices. The unique curriculum addresses current trends in the industry, providing you with a necessary skill set focusing on customer relationship management and service delivery. This degree program is designed for career-changers seeking entry into the hospitality industry and industry professionals with a strong desire to enhance their knowledge and skills.
Program Features
Through the MS in Hospitality Leadership and Operational Performance program, you will be exposed to:

- Business courses and concepts that specifically apply to the hospitality industry, including finance, marketing and management strategies
- Cutting-edge hospitality technologies
- Data analysis and financial metrics concepts
- A service leadership foundation and how it relates to the guest experience

The MS in Hospitality Leadership and Operational Performance program is located in downtown Chicago, in the heart of the city's business district. Students have access to a world-class metropolitan environment, allowing them to supplement knowledge from the classroom with practical skills gained from learning and working in a vibrant hospitality scene.

Learning Outcomes
Students will be able to:

- Develop an understanding of key hospitality operational performance metrics found in the hospitality industry and apply them to various service delivery and financial return components.
- Apply hospitality principles of service leadership and innovation in the guest experience through a conceptual understanding of operational policies/procedures, financial benchmarks, and service delivery.
- Evaluate and comprehend hospitality technology systems and articulate complex service system framework and financial data collection processes commonly used in the industry.
- Acquire business, employee relations and hospitality specific skills that are broad, deep and necessary to fulfill their professional goals.

Degree Requirements

Course Requirements
Students complete the MS in Hospitality Leadership and Operational Performance by taking the following 12 courses for a total of 48 credits:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HSP 502</td>
<td>MANAGING THE GUEST/EMPLOYEE EXPERIENCE</td>
<td>4</td>
</tr>
<tr>
<td>HSP 503</td>
<td>ADVANCED HOSPITALITY LEADERSHIP AND PERFORMANCE</td>
<td>4</td>
</tr>
<tr>
<td>HSP 505</td>
<td>SERVICE TECHNOLOGY &amp; INNOVATION IN THE HOSPITALITY ENVIRONMENT</td>
<td>4</td>
</tr>
<tr>
<td>HSP 506</td>
<td>HOSPITALITY STRATEGY &amp; OPERATIONAL PERFORMANCE</td>
<td>4</td>
</tr>
<tr>
<td>HSP 561</td>
<td>MANAGING REVENUE TO MAXIMIZE FINANCIAL PERFORMANCE</td>
<td>4</td>
</tr>
<tr>
<td>HSP 562</td>
<td>HOSPITALITY DISTRIBUTION CHANNELS AND CURRENT TRENDS</td>
<td>4</td>
</tr>
<tr>
<td>HSP 563</td>
<td>HOSPITALITY RESEARCH ANALYSIS &amp; FINANCIAL METRICS</td>
<td>4</td>
</tr>
<tr>
<td>MGT 500</td>
<td>LEADING EFFECTIVE AND ETHICAL ORGANIZATIONS</td>
<td>4</td>
</tr>
<tr>
<td>MKT 555</td>
<td>MARKETING MANAGEMENT</td>
<td>4</td>
</tr>
</tbody>
</table>

Elective Requirements (3 courses)
Choose any graduate course in economics, management and marketing and any 700 to 799 course in Hospitality Leadership and Operational Performance.

Degree Requirements

- Satisfactory completion of the college residency requirement.
- Satisfactory completion of the 12 required courses, or their substitutes as approved by the Director of the School of Hospitality Leadership.
- All courses for credit toward the degree must be completed within six calendar years after the candidate's first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree.

Hospitality Leadership and Operational Performance (MS), Combined Bachelor's + Master's Degree

The combined Bachelor’s + Master’s degree programs allow students to complete 12 of the 48 required graduate credit hours while still undergraduates. These three graduate level courses will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Hospitality Leadership and Operational Performance (MS)

The MS degree in Hospitality Leadership and Operational Performance is a unique program that integrates critical business theory and skills with cutting-edge hospitality leadership practices. Designed for career-changers interested in the hospitality industry as well as for current industry professionals who want to enhance their skills, the program focuses on developing leadership skills and operational capabilities in a broad array of hospitality service enterprises.

DePaul degree-seeking undergraduate students interested in earning a Master of Science degree in Hospitality Leadership and Operational Performance may apply to the bachelor’s degree/Hospitality Leadership and Operational Performance (MS) combined program. Students may be able to obtain both degrees in as few as five years.

Admission

Students must formally apply and be admitted to the Kellstadt Graduate School of Business before beginning their graduate coursework. Undergraduate students who meet the following criteria will be considered:
• Junior standing or higher (at least 88.0 credits)
• A minimum cumulative DePaul grade point average of 2.50

Students participating in this program will typically take the following three graduate level courses during their senior year:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HSP 502</td>
<td>MANAGING THE GUEST/EMPLOYEE EXPERIENCE</td>
<td>4</td>
</tr>
<tr>
<td>HSP 503</td>
<td>ADVANCED HOSPITALITY LEADERSHIP AND PERFORMANCE</td>
<td>4</td>
</tr>
<tr>
<td>HSP 505</td>
<td>SERVICE TECHNOLOGY &amp; INNOVATION IN THE HOSPITALITY ENVIRONMENT</td>
<td>4</td>
</tr>
</tbody>
</table>

These three courses may double-count (up to 12 credits) towards both degree programs. The undergraduate degree will be awarded at the completion of all undergraduate work while the MS degree in Hospitality Leadership and Operational Performance will be awarded upon completion of the remaining graduate level work.

For students pursuing their BSB-Hospitality, these three courses replace their Specialization requirements. For students in other majors, these three courses will be free electives.

Human Computer Interaction (MS)

The MS in Human Computer Interaction focuses on user research, design, implementation, and evaluation to create technologies that are useful, easy to use and accessible for diverse users.

<table>
<thead>
<tr>
<th>Program Requirements</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Introductory Courses</td>
<td>0-16</td>
</tr>
<tr>
<td>Degree Requirements</td>
<td>52</td>
</tr>
<tr>
<td>Total hours required</td>
<td>52-68</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

• Plan and conduct ethical user research with human participants using appropriate data collection methods, and analyze the data using both qualitative and quantitative methods.
• Create, justify, and critique interface designs using appropriate theoretical and methodological HCI frameworks.
• Create prototypes that simulate the interactivity of user interfaces and have enough functionality for usability testing with human participants.
• Design and conduct usability tests for an existing or prototyped product or service.

Degree Requirements

Course Requirements

No Introductory course (a course numbered 400 through 419) may be substituted for any other course at any level.

Introductory Courses

Introductory courses may be waived for any of the following conditions:

• The student has the appropriate course work to satisfy an Introductory Course.
• The student has appropriate and verified professional experience to satisfy an Introductory Course.
• The student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.

Foundation Courses

The following Foundation Courses are listed in the suggested sequence for the program.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HCI 440</td>
<td>INTRODUCTION TO USER-CENTERED DESIGN</td>
<td>4</td>

</table>
Human Resources (MSHR)

The Master of Science in Human Resources (MSHR) degree prepares students to manage the modern organizational workforce. Students develop skills necessary to succeed in specific areas of human resources, such as benefits, compensation, labor relations, recruitment, and workforce training programs. Students gain a real-world education in HR management in a stimulating program that combines high-quality teaching with evidence-based recommendations from leading scholars in the field.

Faculty members have won numerous teaching awards and have many years of professional experience in a range of management-related fields, which helps students understand the connection between science and practice. Industry guest speakers, business cases, simulations, and internships enhance students’ practical understanding of the HR field. The program leverages DePaul’s wide-ranging network of alumni and HR business leaders to create opportunities for students to engage in professional activities and community outreach via service learning. The program also is aligned with the curriculum standards set by the Society
Program Features
In this program, students develop the skills to manage core HR functions, including workforce planning, staffing, performance management, total rewards, talent management, and training and development. Classes address current topics encountered by human resource professionals, such as:

- Change management, downsizing/rightsizing and mergers and acquisitions
- Internal consulting and organizational development
- Employment law, ethics, and employee and labor relations
- Globalization, outsourcing and managing a diverse workforce
- Metrics, data analytics and human resource information systems
- Organizational succession planning and personal career growth and development

Program Requirements
Degree Requirements
Total hours required 48

Learning Outcomes
Students will be able to:

- Use analytical and problem-solving skills in decision-making.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Be knowledgeable about the differences among global economies, institutions, and cultures and will understand the implications these have on global management.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Exhibit sophisticated knowledge of HR/business management practices leading to applicable skills in relevant areas (e.g., selection, training, compensation, and performance management) that leads to professional HR career-related success.
- Demonstrate higher-order cognitive skills to analyze an unstructured problem, formulate and develop a solution using appropriate technology, and effectively communicate the results to stakeholders

Degree Requirements
Course Requirements
Students complete the MS in Human Resources by taking 12 courses across three groups: 1) six core Human Resource courses, 2) three Human Resource electives, and 3) three Business electives.

Required Core Human Resource Courses

<table>

MPS 515 NONPROFIT FINANCIAL ADMINISTRATION
MPS 529 STRATEGIC MANAGEMENT AND PLANNING

1 Students choose three electives from these general business courses at the Kellstadt Graduate School of Business (and may substitute an HR elective if an equivalent course was taken elsewhere).
2 GSB 420 or GSB 519 is a prerequisite

If you are interested in an HR career that specializes in compensation and benefits, please consider taking the following courses: ACC 500 or ACC 502, FIN 555, and MGT 566.

Degree Requirements
- Satisfactory completion of the college residency requirement.
- Satisfactory completion of 12 courses (six HR core courses, three HR related electives, and three Business electives).
- All courses for credit toward the degree must be completed with satisfactory grades within six calendar years after the candidate’s first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years, a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree.

Human Resources (MS), Combined Bachelor’s + Master’s Degree

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These three graduate level courses will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Human Resources (MS)

The Master of Science in Human Resources addresses the need for strategic and business-minded professionals to manage today’s organizational workforce issues. Students gain proficiency in a wide range of human resources areas including employee attraction and retention, diversity, the global economy, employee training, career development, new technology, incentives, total rewards and performance management.

The program prepares students for careers such as compensation consultant, benefits consultant, trainer, HR analyst, recruiter, labor relations representative and HR director.

DePaul degree-seeking undergraduate students interested in earning a Master of Science in Human Resources may apply to the bachelor’s degree/Human Resources (MS) combined program. Students may be able to obtain both degrees in an expedited period, typically in five years.

Admission

Students must formally apply and be admitted to the Department of Management before beginning their graduate coursework. Undergraduate students who meet the following criteria may apply to this program:

- Junior standing or higher (at least 88.0 credits)
- A minimum cumulative DePaul grade point average of 3.20

Students participating in this program will typically take the following three graduate level courses during their senior year:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>

<td>2</td>
</tr>
</tbody>
</table>

Select one of the following:

Select one of the following:

- MGT 523 RECRUITMENT AND SELECTION 3
- MGT 525 TRAINING AND CAREER DEVELOPMENT 4
- MGT 526 COMPENSATION AND BENEFITS 5

These three courses may double-count up to 12 credits towards both degree programs. The undergraduate degree will be awarded at the completion of all undergraduate work while the MSHR will be awarded upon completion of the remaining graduate level work.

Human-Centered Design (PhD)

The PhD in Human-Centered Design prepares students to become interdisciplinary scholars who can apply a variety of methodological approaches at the intersection of technology, human behavior, and design. Students will be able to explore the use of technologies in the context of complex problems through empirical studies and apply results to the design of innovative technologies, strategies, and practices. By working with world-renowned faculty, students will be trained to advance the field of human-centered design through participation in research relevant to both academic and practitioner communities. Students will be prepared for careers in academic institutions, industry research labs, and government and civic organizations.

<table>
<thead>

<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Degree Requirements</td>
<td>60</td>
</tr>
<tr>
<td>Total hours required</td>
<td>60</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Design and conduct research studies including determining the appropriate research methodology for the context and implementing research protocols, and analyzing data.
- Engage in academic research discussions, including, but not limited to, conducting literature reviews and engaging in academic writing.
• Develop their design and production skills. Additional electives not listed with their advisors to select at least eight (8) specialized courses to develop their design and production skills.

**Degree Requirements**

The PhD in Human-Centered Design prepares students to advance the field of digital technology and media design by taking a transdisciplinary and collaborative approach that blends theory with practice. The program embraces a broad diversity of scholarly traditions and creative practices that include design, learning sciences, computer science, human-computer interaction, game design and development, and psychology.

**Overview**

**The Foundation Phase**

Students entering the program will begin by completing the necessary foundation courses and participating in small-scale research projects led by their faculty advisors. The purpose of the foundation phase is to ensure that students have the appropriate breadth and depth of knowledge necessary to formulate relevant research questions as well as develop skills for conducting research.

**Degree Requirements**

Select at least eight of the following:

- CMNS 545 COMMUNICATION AND TECHNOLOGY (4)
- CSC 500 RESEARCH COLLOQUIUM (52)
- CMNS 570 INTRODUCTION TO DIGITAL CMN (4)
- DMA 415 AUDIO WORKSHOP (4)
- DMA 425 STILL IMAGE WORKSHOP (4)
- DMA 475 MOVING IMAGE WORKSHOP (4)
- DMA 480 WEB/MEDIA DELIVERY WORKSHOP (4)
- GAM 424 GAME DESIGN WORKSHOP (4)
- HCI 430 PROTOTYPING AND IMPLEMENTATION (4)
- HCI 440 INTRODUCTION TO USER-CENTERED DESIGN (4)
- HCI 450 FOUNDATIONS OF HUMAN-COMPUTER INTERACTION (4)
- HCI 460 USABILITY EVALUATION METHODS (4)
- HCI 470 DIGITAL DESIGN (4)
- HCI 511 ACCESSIBILITY AND DESIGN FOR DIVERSE USERS (4)
- HCI 515 DESIGN ETHNOGRAPHY (4)
- HCI 520 LEARNER-CENTERED DESIGN (4)
- HCI 530 MOBILE DESIGN (4)
- HCI 553 SOCIAL INTERACTION DESIGN (4)
- HIT 421 HEALTH INFORMATICS (4)
- IS 511 SOCIAL ISSUES OF COMPUTING (4)
- JOUR 504 MULTIMEDIA NEWS PRODUCTION (4)
- JOUR 520 DATA JOURNALISM (4)
- JOUR 529 ONLINE NEWS BUREAU (4)
- MCS 530 NEW MEDIA AND CULTURE (4)
- MCS 575 DIGITAL MEDIA ETHICS (4)
- PSY 404 PERCEPTION AND COGNITION (4)
- PSY 430 SOCIAL PSYCHOLOGY OF THE SELF (4)
- PSY 567 SPECIAL TOPICS IN COMMUNITY PSYCHOLOGY (4)
- SOC 463 SOCIAL PSYCHOLOGY (4)
- SOC 464 SOCIAL INEQUALITY AND STRATIFICATION (4)
- SOC 567 SOCIAL PSYCHOLOGY (4)
- SOC 569 SOCIAL INEQUALITY AND STRATIFICATION (4)
- CMNS 582 QUANTITATIVE RESEARCH METHODS (4)
- HCI 445 USER RESEARCH METHODS (4)
- HCI 440 QUANTITATIVE RESEARCH DESIGN (with instructor approval) (4)

Students can waive out of any course (except methods courses which can only be substituted) for which they can prove equivalent course experience. Waivers are defined as when students do not take the course (up to 12 hours; all other courses must be substituted); substitutions are the replacement of one (1) course for another. To request a waiver or substitution, students should present evidence of the equivalent course taken (with a minimum of B-) to their faculty advisor, who will then request approval from the HCD Committee. In rare cases, students may request a waiver due to extensive work experience. To request a waiver, students must present evidence (e.g., work portfolio) to their faculty advisor, who will then make the request to the HCD Committee. In both cases, the HCD Committee will make the final decision on whether a course can be waived or substituted because of course equivalency or work experience.

**Research Phase**

During the research phase, students will focus on completing their qualifying examinations, candidacy, and dissertation.

- **Breadth Examination**: By the end of the second year in the program, students will take the breadth examination to assess their knowledge of core concepts and principles.
- **Depth Examination**: Under the supervision of their faculty advisor and assisted by two additional faculty members, students will lead a small research project from inception to publication of the results in one of the following areas: human-centered design, learning sciences, game design and development, or interactive media.
- **Candidacy Phase**: This phase begins with successful defense of the dissertation proposal based on a focused research project. Students will enroll in HCD 699 until complete.
• Dissertation Phase: All students must complete a dissertation that provides a significant contribution to the student’s intended area of expertise. Students will enroll in HCD 701 until complete. The doctoral dissertation must demonstrate the student’s ability to engage in significant research that is recognized by an academic community as exhibited by:
  • Relevant and significant research question(s) to a technology-based field
  • In-depth literature review of relevant research
  • A conceptual framework that serves as the foundation for the research
  • Significant research findings and contribution

The designated courses for the research phase are:

<table>

</table>

**Course Requirements**

PhD students are expected to complete at least 60 credits of graduate-level courses. The length of time students spend in the program will vary depending on the student’s background. We anticipate that students will finish on average in 4-5 years.

**Illustration (Minor)**

**Required Courses**

Four courses:

</tbody>
</table>

1 Students must complete both courses to fulfill one elective.

**Industrial Design (BFA)**

The BFA in Industrial Design integrates drawing, graphic design, and experience design with courses in science, math, computer science, physics and computer-aided design/ manufacturing/ engineering. Unique to the program are required classes in marketing, management and sustainability. Students create under the constraints of what is possible and practical using established manufacturing techniques. Graduates of the program learn to design, make and scale through an iterative process from prototyping to manufacturing.

Students will be able to:

• Analyze a system through reconfiguration and sensory awareness.
• Design objects through the intentional use of template systems and geometric principles.
• Evaluate the generative nature of material as it informs design.
• Utilize principles of interconnectedness and modularity in the design of objects.
• Create objects or systems that explore extreme scales.
• Determine the broader impact of an object within its environment.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Learning Domains
Arts and Literature (AL) (p. 1184)
  • 2 Courses Required
Historical Inquiry (HI) (p. 1188)
  • 1 Course Required
Philosophical Inquiry (PI) (p. 1190)
  • 1 Course Required
Religious Dimensions (RD) (p. 1191)
  • 1 Course Required
Scientific Inquiry (SI) (p. 1193)
  • 1 SWK or Lab Course Required
Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)
  • 1 Course Required

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.
Industrial Design (Minor)

</table>

**Major Electives**

Any ID, EXP, PHY, ANI, or ART class can be taken for major elective credit.

**Senior Capstone Requirement**

ID 396 INDUSTRIAL DESIGN SENIOR CAPSTONE

Industrial Design (Minor)

The INDD minor will introduce the pedagogical framework of object-oriented ontology by exploring the nature of objects and perception. Students will craft objects that build on traditional constructionist thinking while also foregrounding newer maker-centered learning concepts already supported at DePaul through institutions like the Idea Realization Lab (IRL) and the Richardson Library makerspace. They will also explore the systems underlying the objects and devices that they interact with on a daily basis. Through constructing a deeper understanding of these otherwise hidden frameworks students will develop self-efficacy and agency over them.

**Industrial-Organizational Psychology (MA)/(PhD)**

The Industrial-Organizational (I-O) Psychology Program is one of four combined MA/PhD programs in the Department of Psychology at DePaul University. The program prepares students for careers in industry, government and university settings and focuses on the theory and techniques of selecting, evaluating, and developing individuals within an organization. Topics include personnel selection, performance appraisal, training and development, employee attitudes, motivation, leadership, and organizational theory. The program also allows considerable flexibility for the advanced student to pursue related disciplines such as management, information systems and marketing. The MA in I-O Psychology is a non-terminal degree. For a terminal master’s degree in I-O Psychology please visit our Combined Degree Programs page. Please note that the combined BA/MS degree is for current DePaul undergraduate students only.

The curriculum is based on the scientist/practitioner model of graduate education and follows two basic principles:

- The I-O psychologist must have a solid foundation in general psychological theory, research methodology and philosophy of science, in addition to knowledge in the content area of I-O psychology.
- The I-O psychologist must be aware of the contributions of other disciplines to the study of organizations and must have practical experience in working with formal organizations as a psychologist.

To develop the “practitioner” aspect of this model, the DePaul I-O Psychology Program encourages students to work in I-O settings within the Chicago area. The Chicago metropolitan area offers a rich environment for research and practice in I-O psychology; it includes more than 34,000 retail businesses, 14,000 wholesalers, 40,000 service organizations, 13,000 manufacturers and many other types of organizations. Adjunct and part-time faculty from these organizations can provide students with unique training and experience. The “scientist” aspect is addressed by encouraging students to participate fully in the research and publication process. We do not believe that students should
be trained to be either academics or practitioners, but rather to have both sets of skills.

With its great Chicago location, DePaul University offers its I-O psychology graduate students unique opportunities for their education, research and applied experiences. Our strong faculty and alumni base enables current students to connect with the I-O community and to establish new relationships.

</tbody>
</table>

**Learning Outcomes**

- Identify major theoretical concepts in Industrial Organizational psychology, trace their historical development, and integrate theory, research, and domain-specific knowledge to explain and interpret how Industrial Organizational psychology currently advances knowledge.

- Critique and synthesize theoretical and empirical articles from peer-reviewed Industrial Organizational scholarly journals in terms of theory, methods, data analyses, and conclusions in order to compose novel perspectives and ideas.

- Develop testable research questions, identify strengths and limitations of research designs and data analysis techniques, conduct appropriate research and analytic strategies, and interpret the findings to situate them within the extant research literature in Industrial Organizational psychology.

- Describe and discuss the ethical issues associated with human subjects/participant protection and the sequence of procedures needed for IRB approval of research projects, and apply these ethical practices in research.

- Exhibit effective communication skills for presenting at professional conferences and publishing in professional journals in Industrial Organizational psychology.

- Demonstrate competence in the practice of Industrial and Organizational Psychology.

**MA/PhD Degree Requirements**

The Industrial-Organizational (I-O) MA/PhD is a combined degree. The MA is non-terminal and, therefore, only students intending to confer the PhD are admitted.

**MA Course Requirements**

The MA portion of the combined degree requires a minimum of 72 quarter hours beyond the completion of a bachelor’s degree, including four quarter hours of thesis research.

**Statistics and Methodology Courses**

**Electives**

Additional coursework of at least 16 quarter hours are required to attain the minimum of 72 quarter hours. These courses may include the I-O Psychology Core courses listed above or any graduate-level course. The courses must be taken with the consent of the student’s faculty advisor.

**Master's Thesis Research**

Complete a thesis on a topic approved by the department.
Master’s Thesis Examination
Either written or oral, the examination may be, but is not necessarily limited to, a defense of the student’s thesis.

PhD Course Requirements
The PhD portion of the combined degree requires a minimum of 24 quarter hours beyond the completion of the master’s degree, including four quarter hours of dissertation research. The following requirements must be completed in order to confer the PhD.

Statistics Course

<table>
<thead>
<tr>
<th>Course</th>

Doctoral Candidacy Examination (Comprehensive Examinations)
Designed to assess the student’s knowledge of psychology and the student’s area of specialization. The examination is given in two sections. The first section consists of a written examination related to I-O psychology. The second section is an oral examination in the area of I-O psychology.

Admission to Doctoral Candidacy
Formally given to the student with satisfactory coursework performance who has successfully completed the master’s thesis proposal and passed the Doctoral Candidacy Examination; the candidate has no more than five years from the date of admission to doctoral candidacy to complete the PhD requirements or dismissal from the program will ensue.

Students denied candidacy will be required to withdraw from the program or withdraw after completion of the MA.

Dissertation
Departmental committee approval and acceptance of topic and outline of dissertation given only after admission to candidacy. Dissertation research should be completed during the student’s fourth year in the program.

Oral Examination
Student to defend his or her dissertation and to show competence in the general field of psychology and in the area of specialization.

Time Limitation

- No more than four years between admission to the MA/PhD program and admission to doctoral candidacy.
- No less than eight months and no more than five years between admission to doctoral candidacy and the final doctoral oral examination; or dismissal from the program will ensue.

Program Graduate Academic Student Handbook

Minimum Grades

1. The minimum grade considered acceptable for a graduate course is a B-. This applies to courses taken both within and outside of the department for psychology graduate students. Grades below that (i.e., C+ and below) indicate that the student has not mastered the relevant content of the course.

2. If a graduate student earns a grade lower than B- in a particular course, the student, instructor, and advisor will discuss the situation and circumstances and a remediation plan will be required. The student, his or her advisor, and the instructor, will work together to create a plan through which the student can (a) gain competence in the course material, and (b) demonstrate that competence. The remediation plan might include, for example, requiring the student to complete additional assignments, retaking the class, taking a substitute class, completing an independent study, or pursuing other options. The remediation plan must be approved by the instructor, advisor and the program director.

3. A second occurrence of a grade lower than B- (for the same or different course) will put the student on academic probation. Once placed on academic probation, the student’s record and any mitigating circumstances will be evaluated by a Psychology Department review board comprising the student’s advisor, the program director, and the department associate chair (the department chair might be included in special circumstances). Additional remediation and intervention might be suggested by the review board.
4. If there is a third occurrence of a grade below B- (for the same or different course), the student will be dismissed from the program. The student may choose to appeal this decision, in which case the Chair of the Psychology Department will appoint a committee of three tenured Psychology Department faculty outside the student’s program to hear the appeal. Depending on the student’s academic record and any mitigating circumstances, he/she may be allowed to complete his/her Master’s degree but will not be permitted to continue onto the PhD (not applicable to terminal Department of Psychology MS degrees) without a successful appeal.

**Academic Probation**

Students are expected to maintain a minimum cumulative grade point average (GPA) of 3.20. If a student’s cumulative GPA falls below this minimum, the student will be put on academic probation and will have one quarter of coursework to raise their cumulative GPA to at least a 3.20 or face academic dismissal from the program. If the student raises his/her cumulative GPA to at least a 3.20, but it falls below the minimum a second time, he or she will be dismissed from the program before the next term begins.

**Academic Dismissal**

In addition to violations of satisfactory progress, including but not limited to, earning minimum grades, failing the comprehensive exam (including any possible retakes) or project, or maintaining a minimum cumulative GPA, students may be dismissed for breaches of academic honesty, or breaches of the code of student responsibility articulated in the DePaul University Student Handbook.

**Time Limitations**

Students must complete their MA degree requirements prior to completing their requirements for admission to doctoral candidacy. Further, no more than four years may pass between admission to the doctoral program (i.e., successful completion of the doctoral candidacy examination/project), and no less than eight months and no more than five years may pass between admission to candidacy and the final examination (i.e., the oral dissertation defense).

Students are required to meet the timelines specified by the program even if the timeline is more stringent than the College timeline. Failure to do so could result in dismissal.

Extensions on these timelines must be requested in writing to both the department (Program Director) and the college (to the Dean) and must be approved at both levels. Students must complete all requirements for the degree (which may include additional coursework, examinations, or other conditions) by the deadline outlined in the extension. Failure to meet specified time limitations or deadlines can result in dismissal from the program.

**Graduation Requirements**

Students need a minimum cumulative GPA of 3.20 in courses required by the program. In addition to meeting the minimum cumulative GPA requirement, failing the doctoral candidacy exam (or one retake) or project, lack of progress towards degree completion, and/or unsatisfactory evaluation could result in academic dismissal. See individual program policies for more details.

**Graduation with Distinction for MA**

The criteria for graduating "with distinction" are a minimum cumulative GPA of 3.75 and the recommendation of "with distinction" by the thesis committee.

**Industrial-Organizational Psychology (Minor)**

The Industrial-Organizational Psychology minor allows you to explore the behaviors that contribute to a successful or problematic work environment. This minor complements a major course of study tied closely with businesses.

This minor is only for non-psychology majors and a maximum of one psychology minor may be earned by a student.

Psychology majors cannot earn a minor in Industrial-Organizational Psychology.

Six psychology courses are required, including:

<table>
<thead>
<tr>

<tr>
<td>Select any two additional psychology courses. It is recommended that they be from the above list, but it is not required</td>
<td></td>
<td>8</td>
</tr>
</tbody>
</table>

**Information Systems (BS)**

The BS in Information Systems focuses on the organizational and business application of computers and related technologies. It prepares students for careers in IT project management, systems analysis & design, database administration, help desk, enterprise systems administration, and user training.

<table>
<thead>

</tr>
</tbody>
</table>

**Learning Outcomes**

Students will be able to:

- Identify four different types of information systems.
- Identify five phases of systems development life cycle.
• Identify two best practices in IS project management.
• Describe the characteristics and implementation requirements for enterprise-level information systems.
• Identify the key elements of two commonly used diagrams for IS requirements and conceptual design specifications (e.g., data flow diagram, use case diagram, entity relationship diagram).

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 Students must earn a C- or better in this course.

Learning Domains
Arts and Literature (AL) (p. 1184)
• 3 Courses Required

Historical Inquiry (HI) (p. 1188)
• 2 Courses Required

Philosophical Inquiry (PI) (p. 1190)
• 2 Courses Required (See note below)

Religious Dimensions (RD) (p. 1191)
• 2 Courses Required (See note below)

Scientific Inquiry (SI) (p. 1193)
• 1 SWK or Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)
• 3 Courses Required

Notes
Students must take one of the following ethics courses: CSC 208 (PI), PHL 248/MGT 248 (PI) or REL 228/MGT 228 (RD).

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

See [www.cdm.depaul.edu](http://www.cdm.depaul.edu) to see sample schedule of course requirements on a year-by-year basis.

Degree Requirements

Students in this degree must meet the following requirements:

- Complete a minimum of 192 credit hours (generally 48 courses).
- Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses.
- Earn a grade of D or higher in all other Liberal Studies and Open Elective courses.
- Maintain a cumulative GPA of 2.0 or higher.

Information Systems (BS), Combined Bachelor's + Master's Degree

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Students who meet the admission requirements below may choose to apply to a combined degree program. Interested students should consult their faculty advisor regarding the application procedure. This program allows students to combine many CDM bachelor's degrees with a CDM master's degree following the structure outlined below.

Admission Criteria

- Minimum of 44 quarter hours earned
- Minimum of 12 quarter hours earned at DePaul
- GPA of 3.3 or higher in courses taken at DePaul
- Endorsement of faculty advisor

In order to apply for the combined degree program, your faculty advisor must send an e-mail recommendation to the CDM Academic Success Center. The recommendation should include your full name, student ID number, and the bachelor's and master's degrees you wish to combine.

Bachelor of Arts in Professional Studies with a Major in Computing students who are enrolled via the School for New Learning (SNL) are also eligible for this program. Interested students who meet the admission criteria for a combined degree should contact Kenn Skorupa in SNL for more information.

Program Structure

Students in the combined degree program take a maximum of three (3) graduate level courses that count toward both their bachelor's and master's degree requirements. Students may enroll in graduate level coursework in the junior and senior year only. Students in the combined degree program will receive the bachelor's degree after meeting all graduation requirements including the minimum credit hours required for graduation.
To earn the master’s degree, the student must earn as many additional graduate credit hours as needed to reach the minimum number of graduate credit hours required in that master’s degree.

Only CDM courses can be taken as part of this program. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

Maintaining Good Standing
Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter.

The student and faculty advisor will be notified when the student’s cumulative GPA falls below 3.3 or when the student receives less than a C- in graduate level course.

If a student’s cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional B.A./B.S./B.F.A.

If dismissed from the combined degree program after graduate courses have been passed, the graduate courses may only apply to the undergraduate degree. Should the student later be admitted to a graduate program, graduate courses applied to the undergraduate degree may not apply to the graduate program and may not be repeated if they are required in the declared graduate curriculum. Other graduate courses may be substituted in this case.

Designing a Course of Study
It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.

This course of study should include the graduate courses to be taken and the undergraduate courses that are replaced by the graduate courses. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree Program.

It is advisable for the student and the faculty advisor to enter the proposed plan of study in the student communication record in BlueStar so it is available to the student and CDM faculty and staff.

Registering for Master’s Degree Courses
Combined degree students must meet regularly with their faculty advisor. The faculty advisor will initiate the registration process for all graduate level courses taken during the undergraduate career.

Bachelor’s Degree to Master’s Degree Transition
In order to be fully admitted to the designated master’s program, the student must meet all admission requirements for that program. When preparing to complete the undergraduate portion of the combined degree, students must submit the application for degree conferral for the undergraduate degree by the application deadline. At this time, the students should contact the CDM Academic Success Center about the procedure required to be formally admitted to the declared graduate program.

Information Systems (Minor)
DePaul’s Information Systems minor will help you acquire the technological skills needed to address the operational, tactical and strategic challenges facing business, governmental and non-profit organizations.

Information Systems (MS)
The MS in Information Systems program focuses on providing competencies and skillsets to equip our graduates with a broad solid grounding in current IT practices. From here, students are invited to focus their studies in order to develop expertise in one particular area of Information Systems. We offer several Concentrations; each designed around particular competencies and IT career paths. We also offer a “standard concentration” that permits students to either [a] acquire a broad base of IS competencies and skills, instead of the focused depth in one area; or [b] create a customized concentration by selected coursework from two or more areas. Students desiring a customized concentration are strongly encouraged to design that plan in communication with a faculty advisor.

Program Requirements

</tr>
</tbody>
</table>

Learning Outcomes
Students will be able to:

- Determine the main business impact from emerging trends in Information Systems (IS).
- Describe key outcomes in each of the five phases of a systems development life cycle.
- Explain key benefits and challenges of best practices in IS projects.
- Use diagrams for IS requirements and conceptual design specifications (e.g., context diagram, data flow diagram, use case diagram, entity relationship diagram), given a short business case.

Degree Requirements
Course Requirements
No Introductory Course may be substituted for any other course at any level.

#### Open Elective

Choose one (1) Open Elective.

- Any CSEC, CSC, DSC, ECT, GAM, GPH, HCI, HIT, IS, IT, NET, PM, or SE course in the 421-699 range qualifies.

#### Capstone Options

Students have the option of completing either (a) IS 577 (Information Systems capstone course), (b) a Graduate Internship (4 credits), (c)
two quarters of CSC 500 (a Research Colloquium course), (d) IS 696 (a Master’s Project course), or (e) a Master’s Thesis.

- **Capstone Course**
  - IS 577
- **Graduate Internship**
  - An internship offers students the opportunity to integrate their academic experience with on-the-job training in information systems. Students must enroll in CSC 697 for four (4) credit hours to satisfy the practicum requirement. These are the steps:
  1. Secure an internship with a focus in information systems.
  2. International Students must obtain the appropriate practical training form and meet with an advisor in the CDM Academic Center for approval (http://oiss.depaul.edu/Requests/Forms/index.asp (http://oiss.depaul.edu/Requests/Forms/)).
  3. Login to MyCDM and click the "MyInternships" link on the left to start the course enrollment process.

- **Research Options**
  - CSC 500 This is a course for two (2) credit hours therefore students must enroll in the course in each of two (2) separate quarters.
  - Master’s Research
    - Up to eight (8) credit hours with Major Elective substitutions.
  - IS 696
  - Master’s Thesis
    - A student who has made an original contribution to the area may choose to complete a Master’s Thesis. The process is:
      1. Complete IS 590 as a Major Elective substitution.
      2. The student and the student’s research advisor form a Master’s Thesis Committee of three (3) faculty.
      3. The student enrolls in IS 698 for two (2) consecutive quarters. In the event, the students has not completed the thesis within these two (2) quarters, the student will be allowed to register for the zero (0) credit hour course CSC 698 and the transcript will show the thesis title as the course topic.
      4. The student will need to submit to the committee a thesis detailing the results of the research project. After a public defense, the committee will decide whether to accept the thesis.

**Degree Requirements**

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applies toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.

- Students pursuing a second master’s degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

**Information Systems (MS), Combined Bachelor’s + Master’s Degree**

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

**DePaul Undergraduate Degree + Information Systems (MS)**

The Information Systems (MS) combined degree program is open to all undergraduate majors across the university.

Students who are interested in this program and meet the following criteria:

- Sophomore status (at least 44 quarter hours earned)
- Minimum of 12 quarter hours earned at DePaul
- GPA of 3.3 or higher in courses taken at DePaul
- Endorsement of faculty advisor

If accepted, a student can take up to three graduate courses (12 credits). These three courses count towards both the bachelor’s program and the Master of Science degree. Students will pay the current undergraduate tuition rate for these three courses.

**Maintaining Good Standing**

- Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter
- The student and Faculty Advisor will be notified when the student’s cumulative GPA falls below 3.3 or when the students receives less than a C- in graduate level course
- If a student’s cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional BA/BS.
- Graduate courses passed before dismissal will not be counted and may not be retaken. If the student pursues graduate study, other graduate courses must be substituted. To apply to a CDM graduate degree program, following dismissal from the combined degree, students must follow regular CDM Admission procedures, and will be required take 13 new graduate courses to earn a master’s degree.

**Designing a Course of Study**
It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.

This course of study may include which undergraduate classes to avoid taking in order to take the graduate version. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.

**Registering for Master's Degree Courses**

The student's advisor must complete the BS/MS Request form, under the Faculty tab on the CDM Intranet, to request the student's enrollment in the three graduate courses. The form will require the following data: student's full name, graduate course and section, and the undergraduate course to be substituted for. The CDM dean's office will process the enrollment.

**Bachelor's Degree to Master's Degree Transition**

In order to be fully admitted to the designated master's program, the student must meet all admission requirements for that program. Learn more about master's degree admission requirements ([http://www.cdm.depaul.edu/Prospective%20Students/Pages/MastersDegreeStudents.aspx](http://www.cdm.depaul.edu/Prospective%20Students/Pages/MastersDegreeStudents.aspx)). Students will follow the master's degree program requirements for the term they are admitted to the master's degree program.

**Double Demon Scholarship**

The Double Demon scholarship, offered exclusively to DePaul alumni, covers 25 percent of the tuition for a master's degree or select certificate programs. Combined degree program and section are eligible.

Alumni from any of DePaul's colleges who are admitted into a graduate degree program from one of these programs automatically qualify for the Double Demon Scholarship. This scholarship is available for new part-time or full-time students who began a master's degree in CDM in winter 2012-2013 or later and the other colleges beginning in winter 2013-2014. It cannot be applied retroactively.

There is no limit to the amount of courses that can be taken by eligible students. However, students may not take more than four courses in any quarter without permission from the college. The scholarship cannot be applied to cover fees or other non-tuition costs.

**Information Technology (BS)**

The BS in Information Technology focuses on preparing graduates who are able to configure software to meet the needs of organizations. Students acquire skills related to the selection, creation, application, integration and administration of computing technologies. This degree prepares you to become skilled in problem solving and programming, networks and communications systems, databases, Internet and Web technologies, security and project management, and have a strong grasp of business concepts and technical communications.

The BS in Information Technology has three concentrations:

- New Media Engineering
- Standard
- Web Development

The BS in Information Technology can be completed online by transfer students if they meet the following requirements:

- Have a minimum of 45 quarter/30 semester hours of transfer credit
- Have a minimum cumulative 2.0 GPA
- Be in good standing at the last school they attended

Note - The lab science requirement and the pre-calculus prerequisite for the Data Analysis (IT 223) requirement are not available online at DePaul and will need to be completed on campus or transferred in from another institution.

For more information on this option and a sample schedule please see [www.cdm.depaul.edu](http://www.cdm.depaul.edu) ([http://www.cdm.depaul.edu](http://www.cdm.depaul.edu)).

**Learning Outcomes**

Students will be able to:

- Design an application using principles of user-centered design.
- Construct a web application using best practices.
- Write computer programs that interact with software systems such as file systems, databases, web servers, and browsers.
- Participate in the design, implementation, and management of a software development project or activity.
- Communicate orally and in written form, their recommendations to instructors, clients, and other students.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

**Course** | **Title** | **Hours**

Senior Year

Capstone

Required

1, 3

1. Students must earn a C- or better in this course.
2. IT 394 required for Standard and Web Development concentrations.
3. IT 395 required for Standard and Web Development concentrations; FILM 398 required for Media Engineering concentration.

Learning Domains

Arts and Literature (AL) (p. 1184)
• 3 Courses Required

Historical Inquiry (HI) (p. 1188)
• 2 Courses Required

Philosophical Inquiry (PI) (p. 1190)
• 2 Courses Required (See note below)

Religious Dimensions (RD) (p. 1191)
• 2 Courses Required (See note below)

Scientific Inquiry (SI) (p. 1193)
• 1 SWK or Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)
• 3 Courses Required

Notes

Students must take one of the following ethics courses: CSC 208 (PI), PHL 248/MGT 248 (PI) or REL 228/MGT 228 (RD).

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Concentration Requirements

Students must also complete the requirements from one of the following concentrations: New Media Engineering, Standard, or Web Development.

Degree Requirements

Students in this degree must meet the following requirements:

• Complete a minimum of 192 credit hours
• Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses
• Earn a grade of D or higher in all other Liberal Studies and Open Elective courses
• Maintain a cumulative GPA of 2.0 or higher

Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

• New Media Engineering, Information Technology (BS) (p. 537)
• Standard Concentration, Information Technology (BS) (p. 538)
• Web Development Concentration, Information Technology (BS) (p. 538)

Information Technology (BS), Combined Bachelor’s + Master’s Degree

The combined Bachelor’s/Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Students who meet the admission requirements below may choose to apply to a combined degree program. Interested students should consult their faculty advisor regarding the application procedure. This program allows students to combine many CDM bachelor’s degrees with a CDM master’s degree following the structure outlined below.

Admission Criteria

• Minimum of 44 quarter hours earned
• Minimum of 12 quarter hours earned at DePaul
• GPA of 3.3 or higher in courses taken at DePaul
• Endorsement of faculty advisor

In order to apply for the combined degree program, your faculty advisor must send an e-mail recommendation to the CDM Academic Success Center. The recommendation should include your full name, student ID number, and the bachelor’s and master’s degrees you wish to combine.

Bachelor of Arts in Professional Studies with a Major in Computing students who are enrolled via the School for New Learning (SNL) are also eligible for this program. Interested students who meet the
admission criteria for a combined degree should contact Kenn Skorupa in SNL for more information.

Program Structure
Students in the combined degree program take a maximum of three (3) graduate level courses that count toward both their bachelor’s and master’s degree requirements. Students may enroll in graduate level coursework in the junior and senior year only. Students in the combined degree program will receive the bachelor’s degree after meeting all graduation requirements including the minimum credit hours required for graduation.

To earn the master’s degree, the student must earn as many additional graduate credit hours as needed to reach the minimum number of graduate credit hours required in that master’s degree.

Only CDM courses can be taken as part of this program. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

Maintaining Good Standing
Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter.

The student and faculty advisor will be notified when the student’s cumulative GPA falls below 3.3 or when the student receives less than a C- in graduate level course.

If a student’s cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional B.A./B.S./B.F.A.

If dismissed from the combined degree program after graduate courses have been passed, the graduate courses may only apply to the undergraduate degree. Should the student later be admitted to a graduate program, graduate courses applied to the undergraduate degree may not apply to the graduate program and may not be repeated if they are required in the declared graduate curriculum. Other graduate courses may be substituted in this case.

Designing a Course of Study
It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.

This course of study should include the graduate courses to be taken and the undergraduate courses that are replaced by the graduate courses. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.

It is advisable for the student and the faculty advisor to enter the proposed plan of study in the student communication record in BlueStar so it is available to the student and CDM faculty and staff.

Registering for Master's Degree Courses
Combined degree students must meet regularly with their faculty advisor. The faculty advisor will initiate the registration process for all graduate level courses taken during the undergraduate career.

Bachelor's Degree to Master's Degree Transition
In order to be fully admitted to the designated master’s program, the student must meet all admission requirements for that program. When preparing to complete the undergraduate portion of the combined degree, students must submit the application for degree conferral for the undergraduate degree by the application deadline. At this time, the students should contact the CDM Academic Success Center about the procedure required to be formally admitted to the declared graduate program.

Intellectual Property (LLM)

DePaul’s LLM in Intellectual Property Law is regarded as one of the most extensive programs in the country, and the Center for Intellectual Property Law & Information Technology (CIPLIT®), which oversees the program,
is an innovative leader in the field. With numerous course offerings, the program addresses the need for specialized training in intellectual property and information technology law.

Courses must be selected from the LLM in Intellectual Property courses. Candidates must complete three required courses and five electives. The LLM program may be completed on either a full- or part-time basis but must be completed within five years.

### Program Requirements

<td>Core Requirements</td>
<td>9</td>
</tr>
<tr>
<td>Elective Requirements</td>
<td>15</td>
</tr>
<tr>
<td>Total hours required</td>
<td>24</td>
</tr>
</tbody>
</table>

### Learning Outcomes

#### Domestic Students

Students will be able to:

- Demonstrate advanced knowledge of the legal rules and policies in the student's area of specialization.
- Conduct advanced legal research and analysis in the student's area of specialization.

#### International Students

Students will be able to:

- Identify structures of the U.S. legal system and government institutions.
- Demonstrating understanding of how a common law system operates in a constitutional democracy.
- Demonstrate advanced knowledge of the legal rules and policies in the student's area of specialization.
- Identify and apply relevant legal authority.
- Communication clearly in speech and writing.

### Degree Requirements

The Master of Laws program begins with an orientation that introduces graduate students to DePaul's faculty, staff, library, computer and research facilities. Students who received legal training outside the United States also will participate in a special course introducing them to the Socratic teaching method, the differences between civil and common law systems, and the foundations of the U.S. legal system.

To earn the LLM in Intellectual Property Law, a student must complete 24 semester hours of credit with a minimum cumulative grade point average (GPA) of 2.0. A summer term is counted as a semester for this purpose. Students who complete 24 credit hours with a GPA below the 2.0 GPA required to earn the degree will not be permitted to continue taking classes to improve their GPA. A student is automatically dismissed if he or she has a cumulative GPA below 2.0 for any three consecutive semesters.

The LLM program may be completed on either a full- or part-time basis but it must be completed within five years. With the exception of students admitted to and enrolled in the joint JD/LLM program, credits earned as part of the JD program do not count toward the LLM degree. In addition, no credit is given for law courses taken before a student is admitted to and enrolled in the LLM program.

### Course Requirements

Courses must be selected from the LLM in Intellectual Property Law courses listed below.

Students can build their particular academic or professional interests and concentrate on specialized fields that are not available in traditional graduate programs.

The program offers students individualized cross-disciplinary majors, incorporating courses drawn from social sciences, humanities, business, computer and information science, and public service. The IDS Program is jointly administered with the Master of Arts in Liberal Studies Program (MALS) by the Interdisciplinary Self-Designed Program (ISD). IDS students are welcome to enroll in MALS Core Courses and cross-lists.

The MA in Interdisciplinary Studies may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Interdisciplinary Studies + Community Development Certificate
- Interdisciplinary Studies + Digital Humanities Certificate
- Interdisciplinary Studies + Global Health Certificate
- Interdisciplinary Studies + Metro Planning and Development Certificate
- Interdisciplinary Studies + Public Health Certificate
- Interdisciplinary Studies + Social Research Certificate
- Interdisciplinary Studies + Teaching English to Speakers of Other Languages (TESOL) Certificate
- Interdisciplinary Studies + Women’s and Gender Studies Certificate

Program Requirements

<table>
<thead>
<tr>
<th>Quarter Hours</th>
<th>Degree Requirements</th>
</tr>
</thead>
<tbody>
<tr>
<td>48-52</td>
<td>Total hours required</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Demonstrate multi-disciplinary and inter-disciplinary approaches in research and writing.
- Use their knowledge of the methods and approaches of at least one particular academic or professional discipline to complete academic writing projects.
- Analyze and interpret discourse and media in a variety of academic, literary, professional, and popular genres.
- Research and write in a variety of academic and/or professional genres, including expository essays, critical analysis, research papers, white papers, etc. culminating in an extended capstone, analyzing and incorporating a variety of academic and technical resources in appropriate scholarly and professional formats.
Degree Requirements

Portfolio
All students will keep a portfolio of significant work done for courses, such as final papers or special projects, with comments and grades from the professor. By the midpoint, there will be work from a total of at least three courses in the portfolio. At the culminating point there will be work from a total of at least six courses in the portfolio.

Midpoint Essay
After completing the sixth course but before taking the ninth course, all students in both programs will write a 3-5 page essay examining their progress to that point, using as evidence work from the portfolio. The Midpoint Essay reflects on the student’s intellectual growth, and suggests directions for the second half of the student’s program.

Culminating Point Essay
All students in both programs (regardless of which final option they choose) will write an essay of 3-5 pages, reflecting on their intellectual growth in the second half of the program.

Course Work
- Completion of 48 or 52 quarter hours of graduate credit, depending on the completion option (thesis, practicum, enhanced portfolio or exit course) chosen by the student.
- Maximum of 8 quarter hours of credit in approved 300-level courses, and remainder of credit hours from 400/500/600-level courses.
- No more than five courses may be taken in the Keller Graduate School of Business (KGSB), including courses which are cross-listed in other programs and courses transferred from other institutions which are business courses. Registration for courses in the KGSB must be done through the IDS office.
- No more than six courses may be taken in any single discipline within the College of Liberal Arts and Social Sciences, no more than six courses may be taken in the College of Education, and no more than six courses may be taken in the College of Computing and Digital Media (CDM). Special permission must be sought for courses taken in the School of Continuing and Professional Studies (formerly SNL). Only non-performance courses may be taken in School of Music or the Theatre School.
- Prerequisites within Departments and Schools apply.
- Certain individual courses may be not be open to IDS students.
- To support the student’s program plan, the IDS advisor may require that the student take certain courses in areas such as writing, statistics, disciplinary methodologies, foreign languages, etc., when appropriate.

Program Completion (Capstone) Steps
All students must apply and be approved for the particular option they wish to use for program completion (thesis, practicum, enhanced portfolio or exit course). This application will include the student’s portfolio. The thesis and practicum options include a Formal Proposal. Approval of the proposal is necessary before the student undertakes this final stage of the program. Enrollment in MLS 499, the culminating project independent study course, takes place after approval of the proposal has been secured. If necessary, in lieu of an elective, students may enroll in MLS 498 if they require an additional quarter of research and other preparation for MLS 499.

Both 498 and 499 are conducted as Independent Studies. Instructions for proposing and pursuing these are available with the Program. When the project is completed both the members of the committee and the ISD director sign a Culminating Project Completion Form.

Program Completion (Capstone) Options
The IDS program may be completed in one of four ways:

Thesis Option (12 Courses)
In addition to the Culminating Point Essay and final portfolio submission, the student will write a paper of approximately 35-50 pages that includes 3-4 components or sections, one of which will be a research component and original exploration of the subject. (Other components might include a review of literature, a synthesis of earlier research, a reflection on various disciplinary and methodological approaches to the issue, suggestions for future research, etc.) The research component of the Master’s Thesis involves reflection on primary research, or actual primary research combined with reflection on the primary research of others. The student is encouraged to make a public presentation about his or her thesis. Students who have earned a GPA lower than 3.3 may in some cases be asked to complete their program with a different capstone choice.

- Ordinarily taken as MLS 499 the student’s 12th and final course.
- Requires minimum cumulative GPA of 3.3, evaluation of “satisfactory” on the Midpoint Portfolio, formal proposal and approval of committee.

Practicum Option (12 Courses)
In addition to the Culminating Point Essay and final portfolio submission, for the Practicum Option the student will create a project aimed at developing and executing a community-based intellectual or intellectual/creative activity. Examples are a public presentation as a lecture, in broadcast or print media, or on the web. Service learning projects are also encouraged. A 15-25 page descriptive/analytic essay documenting the project is also submitted. The student is encouraged to make a public presentation about his or her practicum in addition to the primary distribution of the project. Students who have earned a GPA lower than 3.3 may in some cases be asked to complete their program with a different capstone choice.

- Ordinarily taken as MLS 499, the student’s 12th and final course.
- Requires minimum cumulative GPA of 3.3, evaluation of “satisfactory” on the Midpoint Portfolio, formal proposal, and approval of committee.

Enhanced Portfolio Option (13 Courses)
In addition to the final portfolio submission, and a Culminating Point Essay based on portfolio pieces selected from at least three courses in the second half of the program, the distinctive feature of the Enhanced Portfolio option is the writing of a new extended expository essay of 12-15 pages. This is a paper on a topic of the student’s own choosing that makes an argument. (Further information on this paper and the option is available from the program.)

- Ordinarily taken as MLS 499, the student’s 13th and final course.
- Requires formal proposal and approval of committee.

Exit Course Option (13 Courses)
In addition to the Culminating Point Essay and the final portfolio submission, the student proposes a particular course over and above
the original 12 courses. This course should be chosen as an "exit course," in that it brings together a number of areas of interest that the student has pursued over the course of the program. By arrangement with the instructor, the student uses the final paper or final project to make connections with the goals of his or her overall IDS Program. The instructor will grade the paper, and another reader suggested by the IDS program will also review and comment on the paper.

- Requires formal proposal and approval of committee.

**Determination of Degree**

If the majority of courses completed for the master's degree are drawn from programs that award the Master of Arts degree, then the student will earn the MA. If the number is equal the student can choose the MA or the MS.

**Student Handbook**

**Probation**

Students are expected to maintain a minimum grade point average (GPA) of 3.0. A GPA below 3.0 will result in the student being placed on warning status. If this status persists for two quarters, the student will be requested to leave the program. If he or she decides to remain in the program, the student will be placed on academic probation and be given one quarter to raise the GPA to 3.0. If the student's GPA falls to 2.5 or below, he or she will be immediately placed on academic probation and must raise the GPA to 3.0 in the next quarter or face dismissal from the program. If the GPA falls to 2.5 or below a second time the student will be dismissed from the program.

When a student is admitted to the MALS or IDS Program under the category of "Conditional Admission" he or she is considered under academic probation until the conditions are met. The conditions are usually that a student must earn a grade of B or higher in all courses taken during the first three quarters in the program. The student may request continued registration in the second and third quarters if the grades are not adequate in the first quarter. If the conditions of admission are not met by the third quarter, the student will be dismissed from the program. Other conditions may include the requirement to take certain courses, and the student must comply within the specified time period or face dismissal.

IDS students who select courses that are not on their approved List of Courses (LOC) may face warning after one quarter and probation after two quarters if they do not seek approval for their altered programs. The procedure for altering an approved List of Courses is found on the ISD D2L site.

Students whose grades fall below the minimums described above will be considered in the categories of warning or probation whether or not the program administrators are aware of the student's grades. The program administrators may apply the categories of warning or probation retroactively if the student does not self-report his or her status. Students are required to seek advisement from program administrators when facing academic warning or probation. A student who does not contact program administrators about potential warning or probation status may face dismissal from the program.

**Dismissal**

In addition to the minimum GPA requirement, students may be dismissed for breaches of academic honesty or breaches of the code of student responsibility. MALS students may also face dismissal for failure to complete Core Courses with a grade of B or higher within the first half of their academic career. Students who have completed their coursework, but who are still working on their thesis, practicum or other capstone project must be enrolled in Candidacy Continuation (MLS 502 or IDS 502) during the three quarters of the academic school year. After three consecutive terms of Candidacy Continuation, students should enroll in Active Status (MLS 501 or IDS 501) if they still require time to complete their capstone. Failure to enroll in candidacy continuation or advanced status may result in dismissal from the program if the student has not formally withdrawn from the program.

**Readmission**

When a student has withdrawn from the program or has not been enrolled in classes for three or more quarters during the academic year, he or she must apply for readmission using the Readmission and Reclassification form available from the LAS Graduate website.

**Transfer Credit**

A student may apply to transfer up to three courses of graduate work from another accredited institution. The courses must be approved by the Program Director as part of the student's overall course of study for both MALS and IDS students. The courses must then be approved for transfer credit by the Office of Student Records.

**Undergraduate Courses**

Courses at the 200-level cannot be approved for graduate credit, even when a student needs to take such a course as preparation for more advanced work. Courses at the 300-level may be approved for graduate credit under the following circumstances:

1. The course is necessary as a part of the student's overall interdisciplinary program.
2. The department does not offer courses in the same area on the graduate level.
3. The student has arranged with the professor to enhance the course to graduate level by the addition or alteration of assignments, including the final project of the course.

Unless approved by the Program Director, a student should take no more than two 300-level courses as part of his or her program.

**Graduation Requirements**

In order to graduate, students in the MALS and IDS Programs must complete the coursework specific to their programs (either 48 or 52 credit hours depending on capstone choice) with a minimum GPA of greater than 3.0, a midpoint and culminating point essay, the submission of an electronic portfolio of final and other projects from a minimum of six courses, and one of four capstone choices offered by the program. A full description of the requirements for the capstones, as well as further policies and procedures for both programs, are outlined in the documents found on the ISD D2L site under Program Documents. Students in the program are expected to be familiar with these policies and procedures and to comply with them.

**Graduation with Distinction**

In order to have the degree conferred with distinction, students in MALS and IDS completing their programs with a thesis or practicum capstone (48 credit hours) must earn a minimum cumulative GPA of 3.75, plus earn a designation of “distinction” on their thesis or practicum by their thesis advisor and at least one of the two readers on their committee. Thesis and practicum writers eligible for distinction are required to present their projects at an ISD event within three academic quarters of completion.
Students in MALS and IDS completing their programs with an exit course or enhanced portfolio essay capstone ($2 credit hours) must earn a minimum cumulative GPA of 3.85 in order to graduate with distinction.

**Time Limit**
Students are normally expected to complete the MALS or IDS Program within four academic years. During quarters in which no courses are taken, students are required to maintain active status in the program by registering for Candidacy Continuation or Active Status. Students who have not taken courses for three consecutive quarters during the regular academic year and have not registered for Candidacy Continuation or Active Status must apply for readmission using the Readmission and Reclassification form listed here.

**Interdisciplinary Studies (MS)**
The Interdisciplinary Studies Program (IDS) is an innovative, flexible, and highly individualized graduate program designed to meet students’ academic and professional goals. The program gives students the opportunity to design a program of study tailored to their own needs and interests. When students choose IDS, they take on the exciting challenge of creating their own curriculum and unique plan for learning. Creating an individualized program requires maturity, self-motivation, and independence. Students seeking a combination of flexible options and academic challenges are natural IDS candidates. IDS is a creative alternative to more rigid traditional, discipline-specific programs. Students can build their particular academic or professional interests and concentrate on specialized fields that are not available in traditional graduate programs.

The program offers students individualized cross-disciplinary majors, incorporating courses drawn from social sciences, humanities, business, computer and information science, and public service. The IDS Program is jointly administered with the Master of Arts in Liberal Studies Program (MALS) by the Interdisciplinary Self-Designed Program (ISD). IDS students are welcome to enroll in MALS Core Courses and cross-lists.

The program offers the following:

- Individual, self-designed graduate program of study that builds on specific academic and professional interests.
- Ability to combine various academic disciplines in chosen areas of study.
- Choice of courses in most colleges and schools.

The MS in Interdisciplinary Studies may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MS/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Interdisciplinary Studies + Community Development Certificate
- Interdisciplinary Studies + Digital Humanities Certificate
- Interdisciplinary Studies + Global Health Certificate
- Interdisciplinary Studies + Metro Planning and Development Certificate
- Interdisciplinary Studies + Public Health Certificate
- Interdisciplinary Studies + Social Research Certificate
- Interdisciplinary Studies + Teaching English to Speakers of Other Languages (TESOL) Certificate
- Interdisciplinary Studies + Women’s and Gender Studies Certificate

**Program Requirements**

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>48-52</td>
</tr>
</tbody>
</table>

**Learning Outcomes**

Students will be able to:

- Demonstrate multi-disciplinary and/or inter-disciplinary approaches in research and writing in their capstones and other major writing projects.
- Use their knowledge of the methods and approaches of at least one particular academic or professional discipline to complete academic or technical writing projects.
- Analyze and interpret discourse and media in a variety of academic, literary, professional, and popular genres.
- Research and write in a variety of academic and/or professional genres, including expository essays, critical analysis, research papers, white papers, etc. culminating in an extended capstone, analyzing and incorporating a variety of academic and technical resources in appropriate scholarly and professional formats.
- Analyze value systems in social, professional, and institutional settings.

**Degree Requirements**

**Portfolio**

All students will keep a portfolio of significant work done for courses, such as final papers or special projects, with comments and grades from the professor. By the midpoint, there will be work from a total of at least three courses in the portfolio. At the culminating point there will be work from a total of at least six courses in the portfolio.

**Midpoint Essay**

After completing the sixth course but before taking the ninth course, all students in both programs will write a 3-5 page essay examining their progress to that point, using as evidence work from the portfolio. The Midpoint Essay reflects on the student’s intellectual growth, and suggests directions for the second half of the student’s program.

**Culminating Point Essay**

All students in both programs (regardless of which final option they choose) will write an essay of 3-5 pages, reflecting on their intellectual growth in the second half of the program.

**Course Work**

- Completion of 48 or 52 quarter hours of graduate credit, depending on the completion option (thesis, practicum, enhanced portfolio or exit course) chosen by the student.
- Maximum of 8 quarter hours of credit in approved 300-level courses, and remainder of credit hours from 400/500/600-level courses.
- No more than five courses may be taken in the Kellstadt Graduate School of Business (KGSB), including courses which are cross-listed in other programs and courses transferred from other institutions which are business courses. Registration for courses in the KGSB in the must be done through the IDS office.
• No more than six courses may be taken in any single discipline within
  the College of Liberal Arts and Social Sciences, no more than six
courses may be taken in the College of Education, and no more than
six courses may be taken in the College of Computing and Digital
Media (CDM). Special permission must be sought for courses taken
in the School of Continuing and Professional Studies (formerly SNL).
Only non-performance courses may be taken in School of Music or
the Theatre School.
• Prerequisites within Departments and Schools apply.
• Certain individual courses may not be open to IDS students.
• To support the student’s program plan, the IDS advisor may require
  that the student take certain courses in areas such as writing,
  statistics, disciplinary methodologies, foreign languages, etc., when
appropriate.

Program Completion (Capstone) Steps
All students must apply and be approved for the particular option
they wish to use for program completion (thesis, practicum, enhanced
portfolio or exit course). This application will include the student’s
portfolio. The thesis and practicum options include a Formal Proposal.
Approval of the proposal is necessary before the student undertakes
this final stage of the program. Enrollment in MLS 499, the culminating
project independent study course, takes place after approval of the
proposal has been secured. If necessary, in lieu of an elective, students
may enroll in MLS 498 if they require an additional quarter of research
and other preparation for MLS 499.

Both MLS 498 and MLS 499 are conducted as Independent Studies.
Instructions for proposing and pursuing these are available with the
Program. When the project is completed both the members of the
committee and the MALS/IDS director sign a Culminating Project
Completion Form.

Program Completion (Capstone) Options
The IDS program may be completed in one of four ways:

Thesis Option (12 Courses)
In addition to the Culminating Point Essay and final portfolio submission,
the student will write a paper of approximately 35-50 pages that includes
3-4 components or sections, one of which will be a research component
and original exploration of the subject. (Other components might
include a review of literature, a synthesis of earlier research, a reflection
on various disciplinary and methodological approaches to the issue,
suggestions for future research, etc.) The research component of
the Master’s Thesis involves reflection on primary research, or actual primary
research combined with reflection on the primary research of others.
The student is encouraged to make a public presentation about his or
her thesis. Students who have earned a GPA lower than 3.3 may in some
cases be asked to complete their program with a different capstone
choice.

• Ordinarily taken as MLS 499, the student’s 12th and final course.
• Requires minimum cumulative GPA of 3.3, evaluation of “satisfactory”
on the Midpoint Portfolio, formal proposal and approval of committee.

Practicum Option (12 Courses)
In addition to the Culminating Point Essay and final portfolio submission,
for the Practicum Option the student will create a project aimed at
developing and executing a community-based intellectual or intellectual/
creative activity. Examples are a public presentation as a lecture, in
broadcast or print media, or on the web. Service learning projects are
also encouraged. A 15-25 page descriptive/analytic essay documenting
the project is also submitted. The student is encouraged to make a
public presentation about his or her practicum in addition to the primary
distribution of the project. Students who have earned a GPA lower
than 3.3 may in some cases be asked to complete their program with a
different capstone choice.

• Ordinarily taken as MLS 499, the student’s 12th and final course.
• Requires minimum cumulative GPA of 3.3, evaluation of “satisfactory”
on the Midpoint Portfolio, formal proposal, and approval of
committee.

Enhanced Portfolio Option (13 Courses)
In addition to the final portfolio submission, and a Culminating Point
Essay based on portfolio pieces selected from at least three courses in
the second half of the program, the distinctive feature of the Enhanced
Portfolio option is the writing of a new extended expository essay of
12-15 pages. This is a paper on a topic of the student’s own choosing
that makes an argument. (Further information on this paper and the
option is available from the program.)

• Ordinarily taken as MLS 499, the student’s 13th and final course.
• Requires formal proposal and approval of committee.

Exit Course Option (13 Courses)
In addition to the Culminating Point Essay and the final portfolio
submission, the student proposes a particular course over and above
the original 12 courses. This course should be chosen as an “exit
course,” in that it brings together a number of areas of interest that the
student has pursued over the course of the program. By arrangement
with the instructor, the student uses the final paper or final project to
make connections with the goals of his or her overall IDS Program. The
instructor will grade the paper, and another reader suggested by the IDS
program will also review and comment on the paper.

• Requires formal proposal and approval of committee.

Determination of Degree
If the majority of courses completed for the master’s degree are drawn
from programs that award the Master of Science degree, then the student
will earn the MS. If the number is equal the student can choose the MS or
the MA.

Student Handbook
Probation
Students are expected to maintain a minimum grade point average
(GPA) of 3.0. A GPA below 3.0 will result in the student being placed on
warning status. If this status persists for two quarters, the student will
be requested to leave the program. If he or she decides to remain in the
program, the student will be placed on academic probation and be given
one quarter to raise the GPA to 3.0. If the student’s GPA falls to 2.5 or
below, he or she will be immediately placed on academic probation and
must raise the GPA to 3.0 in the next quarter or face dismissal from the
program. If the GPA falls to 2.5 or below a second time the student will be
dismissed from the program.

When a student is admitted to the MALS or IDS Program under the
category of “Conditional Admission” he or she is considered under
academic probation until the conditions are met. The conditions are
usually that a student must earn a grade of B or higher in all courses
taken during the first three quarters in the program. The student may
request continued registration in the second and third quarters if the
grades are not adequate in the first quarter. If the conditions of admission

are not met by the third quarter, the student will be dismissed from the program. Other conditions may include the requirement to take certain courses, and the student must comply within the specified time period or face dismissal.

IDS students who select courses that are not on their approved List of Courses (LOC) may face warning after one quarter and probation after two quarters if they do not seek approval for their altered programs. The procedure for altering an approved List of Courses is found on the ISD D2L site.

Students whose grades fall below the minimums described above will be considered in the categories of warning or probation whether or not the program administrators are aware of the student’s grades. The program administrators may apply the categories of warning or probation retroactively if the student does not self-report his or her status. Students are required to seek advisement from program administrators when facing academic warning or probation. A student who does not contact program administrators about potential warning or probation status may face dismissal from the program.

**Dismissal**

In addition to the minimum GPA requirement, students may be dismissed for breaches of academic honesty or breaches of the code of student responsibility. MALS students may also face dismissal for failure to complete Core Courses with a grade of B or higher within the first half of their academic career. Students who have completed their coursework, but who are still working on their thesis, practicum or other capstone project must be enrolled in Candidacy Continuation (MLS 502 or IDS 502) during the three quarters of the academic school year. After three consecutive terms of Candidacy Continuation, students should enroll in Active Status (MLS 501 or IDS 501) if they still require time to complete their capstone. Failure to enroll in candidacy continuation or advanced status may result in dismissal from the program if the student has not formally withdrawn from the program.

**Readmission**

When a student has withdrawn from the program or has not been enrolled in classes for three or more quarters during the academic year, he or she must apply for readmission using the Readmission and Reclassification form available from the LAS Graduate website.

**Transfer Credit**

A student may apply to transfer up to three courses of graduate work from another accredited institution. The courses must be approved by the Program Director as part of the student’s overall course of study for both MALS and IDS students. The courses must then be approved for transfer credit by the Office of Student Records.

**Undergraduate Courses**

Courses at the 200-level cannot be approved for graduate credit, even when a student needs to take such a course as preparation for more advanced work. Courses at the 300-level may be approved for graduate credit under the following circumstances:

1. The course is necessary as a part of the student’s overall interdisciplinary program.
2. The department does not offer courses in the same area on the graduate level.

3. The student has arranged with the professor to enhance the course to graduate level by the addition or alteration of assignments, including the final project of the course.

Unless approved by the Program Director, a student should take no more than two 300-level courses as part of his or her program.

**Graduation Requirements**

In order to graduate, students in the MALS and IDS Programs must complete the coursework specific to their programs (either 48 or 52 credit hours depending on capstone choice) with a minimum GPA of greater than 3.0, a midpoint and culminating point essay, the submission of an electronic portfolio of final and other projects from a minimum of six courses, and one of four capstone choices offered by the program. Full descriptions of the requirements for the capstones, as well as further policies and procedures for both programs, are outlined in the documents found on the ISD D2L site under Program Documents. Students in the program are expected to be familiar with these policies and procedures and to comply with them.

**Graduation with Distinction**

In order to have the degree conferred with distinction, students in MALS and IDS completing their programs with a thesis or practicum capstone (48 credit hours) must earn a minimum cumulative GPA of 3.75, plus earn a designation of “distinction” on their thesis or practicum by their thesis advisor and at least one of the two readers on their committee. Thesis and practicum writers eligible for distinction are required to present their projects at an ISD event within three academic quarters of completion. Students in MALS and IDS completing their programs with an exit course or enhanced portfolio essay capstone (52 credit hours) must earn a minimum cumulative GPA of 3.85 in order to graduate with distinction.

**Time Limit**

Students are normally expected to complete the MALS or IDS Program within four academic years. During quarters in which no courses are taken, students are required to maintain active status in the program by registering for Candidacy Continuation or Active Status. Students who have not taken courses for three consecutive quarters during the regular academic year and have not registered for Candidacy Continuation or Active Status must apply for readmission using the Readmission and Reclassification form listed on the LAS Graduate website.

**International Business (Minor: Business Students Only)**

Students in the Driehaus College of Business who demonstrate a proficiency in a modern language may minor in International Business. Students will learn about factors affecting international trade, monetary economics, and political economy with a special focus on a particular economic hot spot.

The International Business minor is available to Driehaus College of Business students only. A student must be able to demonstrate that he or she has modern language proficiency through the intermediate level of college coursework to complete the minor.

**Course Requirements**

The minor consists of six to ten courses totaling 24.0-36.0 hours:
Select one economics course from the following:  
ECO 333  TOPICS IN GLOBAL ECONOMIES
ECO 361  INTERNATIONAL TRADE
ECO 362  INTERNATIONAL MONETARY ECONOMICS
PSC 344  WORLD POLITICAL ECONOMY

Select eight hours of International business courses from:  
ECO 316  EUROPEAN ECONOMIC HISTORY
ECO 330  RADICAL RESPONSES TO CAPITALISM
ECO 333  TOPICS IN GLOBAL ECONOMIES
ECO 334  UNDERSTANDING CHINA'S ECONOMY
ECO 360  ECONOMICS OF LOW-INCOME COUNTRIES
ECO 361  INTERNATIONAL TRADE
ECO 362  INTERNATIONAL MONETARY ECONOMICS
ECO 363  ECONOMICS OF THE EUROPEAN UNION
FIN 340  INTERNATIONAL FINANCE
FIN 355  GLOBAL IPOs & VENTURE CAPITAL
ICS 350  INTERNATIONAL BUSINESS SEMINAR
MGT 354  GLOBAL HUMAN RESOURCE MANAGEMENT
MGT 357  INTERNATIONAL BUSINESS
MKT 340  MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
MKT 358  MARKETING IN A GLOBAL ENVIRONMENT (available only to Marketing Honors majors)
MKT 360  INTERNATIONAL MARKETING

Select three to six modern language and/or area studies courses (related to the language being studied)  
SPN 101
SPN 102
SPN 103
SPN 104
SPN 105
SPN 106

Modern Language and Area Studies

The exact mix of language and area studies courses is determined by the student's starting level in the modern language.

1. For a student with limited language background who does not place out of any college level language course, two years of college level language instruction (six courses through the intermediate level) are required.

2. For a student who places out of one or more of the college language courses, he/she will start the language sequence at the appropriate placement and continue it through the intermediate level of instruction. If the student needs fewer than three language courses to complete the intermediate sequence, the student will take either advanced language or area studies courses to complete the minimum three course language/area studies requirement.

Examples of language/area studies mix:

1. A Driehaus student wishing to pursue the IB minor tests out of SPN 101 and SPN 102. The student begins language instruction in SPN 103 (which completes the introductory sequence), and then continues with the intermediate sequence of SPN 104/SPN 105/SPN 106. The student completes the minor with the 3 international economics/business requirements plus the 4 language courses, for a total of seven courses.

Economics/International Business Courses

The three courses taken for the Economics/International Business requirements must be chosen from at least two different departments. The one course taken for the economics requirement may not be used again for the two course international business requirement; course sharing is not allowed.

Graduation Requirements

All courses used toward the International Business minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

International Communication (Minor)

The interdisciplinary minor in International Communication draws from the College’s rich curricular offerings in Journalism, Public Relations and Advertising, Media and Cinema Studies, Relational, Organizational, and Intercultural Communication. Focusing on contemporary international and global issues and debates, the courses will examine the intersections of culture, identity, politics, education, labor, media, technology, and global information flows. Thus, this minor will develop international understanding, cultural intelligence, inclusivity and sensitivity, critical and analytical skills that teach different ways of being and doing in diverse settings. It will also enhance the cross-cultural appreciation required to compete in an increasingly multicultural, multiethnic, and global workplace. The courses may focus on one or more countries beyond the United States. They may focus on a region, a continent or consider global issues more generally. The interdisciplinary depth of courses, faculty expertise and industry connections, as well as the theoretical and practical knowledge acquired in this minor will enable students to become globally competitive candidates ready to engage in the 21st century job market.

Course Requirements

A minor in International Communication requires a student to complete six courses (24 credits) from the following:

Select six of the following:  
CMN 398  STUDY ABROAD
CMNS 309  INTERNATIONAL/GLOBAL COMMUNICATION
CMNS 311  TOPICS IN RELATIONAL COMMUNICATION
CMNS 338  ASIAN CULTURE AND COMMUNICATION
JOUR 310  COMPARATIVE MEDIA SYSTEMS OR GLOBAL JOURNALISM
JOUR 367  INTERNATIONAL REPORTING
or JOUR 519 INTERNATIONAL REPORTING
MCS 251  SPACES OF CINEMA IN ROME
MCS 252  CONTEMPORARY ITALIAN CULTURE THROUGH FILM
MCS 350  TOPICS IN GLOBAL CINEMA
MCS 375  LATINO/A TELEVISION AND MEDIA
MCS 376  LATIN AMERICAN CINEMA
ORGC 357  TOPICS IN GROUP AND ORGANIZATIONAL COMMUNICATION
PRAD 384  INTERNATIONAL PUBLIC RELATIONS
PRAD 385  INTERNATIONAL ADVERTISING
PRAD 393  SPECIAL TOPICS IN PUBLIC RELATIONS AND ADVERTISING

1 Each course should have at least 50 percent or more of the content related to international or global issues. Such content may include issues pertaining to the United States as long as they are discussed within an international or global context.

International Law (LLM)

The DePaul Master of Laws (LLM) in International Law provides an intensive course of study that emphasizes the theoretical background and practical skills lawyers need to excel in international law practice.

There are concentrations in five key areas of global practice:

• International Business, Commercial & Trade Law
• International Cultural Heritage Law
• International Governance & Rule of Law
• International Human Rights Law & Policy and Criminal Justice

The DePaul international law program is designed for both experienced attorneys and recent law school graduates from the United States and abroad who wish to:

• Earn an advanced law degree to assist in the pursuit of a career with law firms, governmental and nongovernmental agencies, and academic institutions worldwide
• Obtain practical and theoretical knowledge of international law and its interaction with the laws of the United States and other countries
• Learn the research, analytical and communication skills required to succeed in international law practice
• Represent clients engaged in international transactions and relationships
• Establish a network of professional international contacts and clients
• Work with faculty experts in international and U.S. law
• Interact with students from diverse legal cultures

Additionally, foreign lawyers and graduates will improve English language skills and gain a deep and sophisticated understanding of the U.S. legal system.

With the exception of students admitted to and enrolled in the joint JD +LLM program, credits earned as part of the JD program do not count toward the LLM degree.

Program Requirements  Semester Hours
Core Requirements  6
Elective Requirements  18
Total hours required  24

Learning Outcomes

Domestic Students

Students will be able to:

• Demonstrate advanced knowledge of the legal rules and policies in the student’s area of specialization.
• Conduct advanced legal research and analysis in the student’s area of specialization.

International Students

Students will be able to:

• Identify structures of the U.S. legal system and government institutions.
• Demonstrating understanding of how a common law system operates in a constitutional democracy.
• Demonstrate advanced knowledge of the legal rules and policies in the student’s area of specialization.
• Identify and apply relevant legal authority.
• Communication clearly in speech and writing.

Degree Requirements

The Master of Laws program begins with an orientation that introduces graduate students to DePaul’s faculty, staff, library, computer and research facilities. Students who received legal training outside the United States also will participate in special courses introducing them to the differences between civil and common law systems, the foundations of the U.S. legal system, the methods of legal reasoning and analysis, and the basics of legal writing in the U.S. legal system.

To earn the LLM in International Law, a student must complete 24 semester hours of credit with a minimum cumulative grade point average (GPA) of 2.0. A summer term is counted as a semester for this purpose. Students who complete 24 credit hours with a GPA below the 2.0 GPA required to earn the degree will not be permitted to continue taking classes to improve their GPA. A student is automatically dismissed if he or she has a cumulative GPA below 2.0 for any three consecutive semesters.

The LLM program may be completed on either a full- or part-time basis but it must be completed within five years. With the exception of students admitted to and enrolled in the joint JD+LLM program, credits earned as part of the JD program do not count toward the LLM degree. In addition, no credit is given for law courses taken before a student is admitted to and enrolled in the LLM program.

Course Requirements

Courses must be selected from the LLM in International Law courses listed below. Candidates must complete the required courses and additional elective courses in their area of concentration, to meet the total requirement of 24 credit hours.
## Required Courses for International Students

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Semester Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>LAW 322</td>
<td>INTRODUCTION TO AMERICAN LAW AND LEGAL SYSTEMS</td>
<td>3</td>
</tr>
<tr>
<td>LAW 556</td>
<td>INTRODUCTION TO LEGAL WRITING AND RESEARCH</td>
<td>3</td>
</tr>
</tbody>
</table>

## Core Courses

Students majoring in Political Science (BA) or minoring in American Politics or Public Law/Political Thought are restricted from earning this minor.

### International Public Service (MS)

The Master of Science in International Public Service (IPS) prepares students interested in public policy to serve the common good and advance a just society, in the spirit of St. Vincent de Paul. The IPS degree educates professionals to the field of international development and global humanitarian affairs. It provides the essential competencies and skills for managing international projects and leading international nongovernmental organizations. The curriculum offers a balanced education in international leadership (ethical, theoretical and practical), project management (for organizations, sectors, institutions) and evaluation (assessment, monitoring and impact analysis). Through study abroad programs, international internships and applied research projects with nongovernmental and intergovernmental organizations, the IPS degree is required for a professional career in international development.

#### Mission Statement

The Master of Science in International Public Service (IPS) degree prepares students to work in governmental, nongovernmental and business organizations that seek to reduce disparities in resources and opportunities in locations across the globe. We believe that such work requires an understanding of cross-sector relations, management skills and first-hand experiences in strengthening community capacity using ethical reasoning and sustainable approaches. We promote compassion for marginalized communities and service to all with sensitivity, professionalism, accountability, transparency, and justice.

The MS in International Public Service may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MS/certificate program should consult with their academic advisor (SpsAdvising@depaul.edu) to determine what coursework might count toward both programs. A separate application process for the certificate may be required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office (https://las.depaul.edu/about/administration-staff/Pages/graduate-student-office.aspx) for additional information.

- International Public Service + Community Development Certificate
- International Public Service + Strategic Writing and Advancement for Nonprofits Certificate
- International Public Service + Geographic Information Systems Certificate
- International Public Service + Emergency Management Administration Certificate
- International Public Service + Health Care Administration Certificate
- International Public Service + Global Health Certificate
- International Public Service + Metropolitan Planning and Development Certificate
- International Public Service + Teaching English to Speakers of Other Languages (TESOL) Certificate
- International Public Service + Social Research Certificate
- International Public Service + Sustainable Urban Food Systems
- International Public Service + Women's and Gender Studies Certificate

Learning Outcomes

Students will be able to:

- Explain relevant topical issues in international public service to target audiences in the appropriate written and oral formats.
- Apply an ethical framework in making an organization decision on a current moral dilemma.
- Analyze the leadership, management, and strategic planning skills essential to sustaining international public service organizations.
- Demonstrate their research competencies through a multi-step self-assessment process.

Degree Requirements

Students are required to complete a total of 13 courses (52 credit hours): eleven core courses (44 credit hours), two elective courses (8 credit hours).

Internship Capstone Option

Students may choose to replace MPS 593 with MPS 610 Internship Capstone option.
MPS 601  PROFESSIONAL DEVELOPMENT AND INTERNSHIP
MPS 604  SPECIAL TOPICS
MPS 614  INTERNATIONAL ORGANIZATIONS SEMINAR
MPS 615  MANAGEMENT OF INTERCULTURAL DIVERSITY
MPS 618  MIGRATION AND FORCED MIGRATION
MPS 619  INTERNATIONAL LAW

Study Abroad Requirement
Students are required to take the MPS 575 study abroad course. This one week study abroad trip allows both full-time and part-time students to participate. Students should apply for the competitive study abroad scholarships to help with travel costs.

Internship Option
Students have the option to complete substantial professional experience in an international or intercultural setting for course credit. Students without substantial professional experience in an international or intercultural setting, are strongly encouraged to pursue an internship with an approved organization. To pursue this option, students enroll in MPS 601 while completing the internship. For more information contact SPSAdvising@depaul.edu.

Foreign Language Proficiency
Students are not required to demonstrate proficiency in a foreign language as a graduation requirement. However, please note that a second language is critical to helping a resume stand out and for constructing an effective career in international public service. Therefore all students are strongly encouraged to build and demonstrate proficiency in at least one other language appropriate to their field or geographical interests.

Student Handbook
Students in the School of Public Service will follow many of the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in the School of Public Service. Please see information below.

Academic Probation
All students within the School of Public Service must maintain a minimum cumulative GPA of 2.7 or higher as part of their requirements for graduation. As a result, any student who earns a cumulative GPA below 2.7 (B-) is placed on academic probation. Students on academic probation are required to meet with the Assistant Director for Academic Advising to discuss their performance and determine a plan for improvement.

Dismissal
Students who are not able to raise their cumulative GPA to a minimum of 2.7 within two academic quarters (after being placed on academic probation) are subject to dismissal from the program.

Readmission
If a student is dismissed from the program (as outlined in the dismissal policy), he or she may reapply through the formal admission application process.

Graduation Requirements
In order to graduate from the program, students must complete all program requirements with a minimum cumulative GPA of 2.7 or higher. If a student's cumulative GPA is below a 2.7, he or she may be denied graduation.

Non-Degree Seeking Students
While School of Public Service courses are open to non-degree seeking graduate students, pre-requisite requirements for certain courses may be enforced.

International Public Service (MS), Combined Bachelor's + Master's Degree
The combined bachelor’s + master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + International Public Service (MS)
Students completing any undergraduate degree at DePaul are eligible to apply for the bachelor's + master's in International Public Service no later than the end of the spring quarter of their junior year if they have completed at least 88.0 credit hours of their undergraduate degree with a cumulative undergraduate GPA of 3.0 or higher.

The student admitted to the bachelor’s + master’s degree program will take, in their senior year, three courses in International Public Services in consultation with the School of Public Service Academic Advisor (spsadvising@depaul.edu). These three courses will serve as electives in the undergraduate program (unless the student’s undergraduate college applies them to major or minor field requirements) and double-count for the MS degree.

Through the combined Bachelors/MS program, the student is responsible for working with both their undergraduate advisor to manage their undergraduate degree progress and the SPS academic advisor (SPSAdvising@depaul.edu) to plan a graduate program of study that includes the MS courses as open electives or major field electives. Undergraduates are advised to meet with a faculty member once per quarter during their senior year as an undergraduate to ensure that they are on track to graduate and transition into the master’s program. They also must maintain at least a 3.0 GPA in their graduate-level courses in order to matriculate into the graduate program.

The student’s bachelor's degree will be awarded upon the completion of their undergraduate degree requirements. The master’s degree will be awarded upon completion of the graduate degree requirements.

Click on DEGREE REQUIREMENTS (https://catalog.depaul.edu/programs/international-public-service-ms/#degreerequirementstext) for descriptions of the required MS in International Public Service coursework.

International Studies (BA)
Our undergraduate program is designed to equip students with the interdisciplinary approach, critical thinking skills and international...
perspectives necessary to address real world challenges. Students can expect to be challenged by a rigorous interdisciplinary curriculum founded in critical social theory and international political economy. Undergraduate students are required to take seven core classes that, taken together, explore and problematize notions of culture, migration, conflict, governance, popular movements, and identities and boundaries. In the process, students acquire critical reading, writing, research, and problem-solving skills tailored to contemporary local, regional, and international challenges.

The BA program is unique for its interdisciplinary approach to international studies and commitment to placing the themes of power and inequality at the heart of academic inquiry. Unlike conventional programs that focus on international security and economy, our program addresses the economic in conjunction with the political and social. Moreover, undergraduates are encouraged to develop second-language proficiency through two years of intensive language study, and we encourage study abroad in a country where the second language is spoken. Students learn to think in more international and interdisciplinary contexts, to value social and cultural complexity, and to question conventional wisdom. As a result, our students often engage in activism and social justice work in Chicago, nationally, and internationally.

Internships
Students in the INT Department pursue internship opportunities to gain job experience, investigate career possibilities, earn academic credit, and round out their concentrations. We work with the University Internship Program to help students find or create an internship that suits their particular interests. Our students have worked at local and international non-profit organizations, consulates, government offices, international businesses, and cultural institutions, including RefugeeOne, the Council for American-Islamic Relations, the Puerto Rican Cultural Institute, and the European Community Commission's Office in Brussels, which offers a unique research internship.

Study Abroad Programs
All International Studies majors are encouraged, but not required, to participate in study abroad programs. Study abroad challenges students to develop cultural competency, expand their education through diverse intellectual perspectives, and engage with local and global challenges. DePaul University sponsors study abroad opportunities with a range of course offerings, including intensive language-learning classes, cultural and historical studies, public service, and business. Some INT students pursue study abroad programs outside of DePaul that match their particular interests.

Employers of Graduates
The combination of language training with rigorous preparation in interdisciplinary social sciences and political economy opens doors to careers in nonprofits and community organizations, international non-governmental organizations, international diplomatic entities, international law, international commerce and cross cultural communications.

Combined Bachelor's + MA Option
The Department of International Studies offers a combined degree program that allows academically outstanding students the opportunity to complete their current bachelor's degree and a master's degree in International Studies in only one additional year. This program is open to all majors. Students apply in the spring of their junior year. Students interested in the bachelor's + MA program in International Studies should contact the INT academic advisor.

Graduate School
Students who complete the major in International Studies are prepared with the writing and critical thinking skills necessary to go on to graduate school and many choose to pursue advanced degrees in the political, economic, anthropological, sociological, geographical, historical, linguistic, or literary fields. We have placed students in prestigious graduate programs with membership in the Association of Professional Schools of International Affairs, including those at Johns Hopkins University, Tufts University, University of Maryland, Georgetown University, University of California at San Diego, and University of Colorado at Boulder. Additionally, our students have entered University of California at Berkeley, University of Chicago, Emory University, University of Illinois, Indiana University, University of Michigan, Northwestern University, University of Wisconsin at Madison, and Yale University in languages or the social sciences.

Learning Outcomes
Students will be able to:

- Produce written and/or oral work that exhibits mastery of the content areas found in the core courses of the major: nationalism, international relations, social movements, cultural analysis, international political economy, and critical geography.
- Write scholarly essays presented in a format consistent with The Chicago Manual of Style:
  - Using reliable primary and/or scholarly sources.
  - Drawing valid inferences from the evidence presented.
  - Making unified arguments, logically presented, that are coherent and cohesive.
- Make arguments, whether in a written or oral context, that are logically valid and based on reliable evidence, critique arguments that are logically invalid or lack adequate evidence, and use these to propose well-considered real-world courses of action.
- Conduct research or communicate in professional contexts using at least one language other than English.
- Analyze the mathematical basis of moderately technical arguments in the field of international political economy.
- Analyze how historical pathways inflect present meanings and both constrain and enable what can be done in the present and the future.

College Core Requirements
Study in the Major Field
The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by

criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration
All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)
All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

The Modern Language Option (MLO)
The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace the Scientific Inquiry—Lab or Scientific Inquiry—Science as a Way of Knowing requirement.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency
A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Students who choose to take an experiential learning course offered by courses may double count for both LSP credit and the second major. If students double major, LSP Domain courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

A student majoring in International Studies (INT) is required to complete the Capstone offered by the INT Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. An INT major in the University Honors Program shall take the University Honors Capstone and the INT Capstone.

Learning Domains

Arts and Literature (AL) (p. 1184)
- 3 Courses Required

Historical Inquiry (HI) (p. 1188)
- 1 Course Required
  (Note: This course must focus on a geographic area outside of the student’s area of specialization)

Philosophical Inquiry (PI) (p. 1190)
- 2 Courses Required

Religious Dimensions (RD) (p. 1191)
- 2 Courses Required

Scientific Inquiry (SI) (p. 1193)
- 3 Courses Required
  (1 SWK Course, 1 Lab Course, and 1 Additional Course)

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)
- 2 Courses Required:
  - GEO 201
  - 1 Additional Course

Notes
See an advisor to utilize the modern language option.

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or as the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Select five courses in an individualized concentration 20

Second language proficiency

Individualized Concentration (5 Courses)

All international studies majors are required to complete a twenty-credit individualized concentration designed in consultation with their faculty advisors. This concentration provides students with a depth of knowledge on a particular theme, approach, region, and/or question of some international importance. The concentration is restricted to 300-level INT courses (including cross-listed courses), with the following exceptions:

- Study Abroad: Up to eight credits (two courses) from Study Abroad may be counted toward the concentration, if approved in advance by the student’s faculty advisor.
- Double Majors/Minors: Up to eight credits (two courses) in a double major or minor can be applied to the concentration, if approved in advance by the student’s faculty advisor.

Second Language Proficiency

Proficiency in a language other than English is required and can be demonstrated through passing grades in college coursework through the intermediate (second-year) level, up to and including 106. Students who enter the program with second language skills developed outside of formal college coursework may petition the director to demonstrate...
proficiency by examination in order to satisfy the language requirement. The assessment and proficiency tests can be taken on Campus Connect.

**Open Electives**

Open elective credit is also required to meet the minimum graduation requirement of 192 hours. International Studies majors have 60 open elective credit hours. Courses taken to meet the second language proficiency requirement count as electives.

**History (BA) + International Studies (MA)**

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Students interested in applying to one of the BA + MA programs in International Studies should contact the chair of the INT Department, Dr. Shiera Malik, smalik6@depaul.edu.

History majors apply to this program by April 15th of their junior year. Applicants must have an overall GPA of 3.5 or above.

History students in this program take INT 401 and two other INT 400-level courses in their senior year. These three graduate-level courses will count toward open electives in the history major as well as requirements in the MA degree. Whenever possible, HST majors will begin their thesis research during their senior year in HST 390, the History Senior Seminar. If this is not possible (e.g. a student’s thesis interests do not fit within the theme of HST 390 for that year), then HST majors will be required to take INT 301 as an elective in order to begin their thesis research.

**International Studies (BA) + International Studies (MA)**

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Students interested in applying to one of the BA + MA programs in International Studies should contact the chair of the INT Department, Dr. Shiera Malik, smalik6@depaul.edu.

INT majors apply to this program by April 15th of their junior year. Applicants must have completed INT 201, INT 202, and INT 203 with a grade of B+ or higher and have an overall GPA of 3.5 or above.

INT students in this program take INT 401 and two other 400-level courses in their senior year. For students admitted to the five-year program, the three graduate-level INT courses taken in the senior year will count toward their individualized concentrations in the INT major as well as their graduate degree. Additionally, BA/MA students will begin their thesis research during their senior year in INT 301, the International Studies Senior Seminar.

**International Studies (MA), Combined Bachelor’s + Master’s Degree**

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

**DePaul Undergraduate Degree + International Studies (MA)**

Students interested in applying to one of the BA + MA programs in International Studies should contact the chair of the INT Department, Dr. Shiera Malik, smalik6@depaul.edu.

Students in any undergraduate major at DePaul University are invited to apply to the combined degree program in order to complete the MA in International Studies as early as their fifth year at DePaul. Applications are due by April 15th of the student’s junior year. Applicants must have an overall GPA of 3.5 or above.

Students in this program will take INT 401 and two other INT 400-level courses in their senior year. These three graduate-level courses will count as undergraduate electives as well as requirements in the MA degree. Students are also required to take INT 301 in their senior year in order to begin their thesis research.

**International Studies 3+3 (BA+JD)**

In the 3 + 3 (BA+JD) Program, high-achieving first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

**Key Program Features**

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of tuition, reducing their overall debt load.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

**Program Requirements**

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework.
in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students must achieve a cumulative GPA of 3.35 by the end of their second year of study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than the end of the Autumn Quarter of the participant's third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

International Studies (MA)

The Master of Arts in International Studies is an academically rigorous, thesis-driven, two-year program focused on social analysis and justice issues. Students today are confronted by complex world events such as the long “war on terror”, global climate change, transitions to capitalism among post-communist societies, recurrent economic crises, and the exclusions effected through stigma, symbolic violence, and systematic misrecognition. Traditional economics and international relations theory has failed to offer insightful analyses or solutions for many of these developments. The interdisciplinary field of international studies is uniquely situated to analyze this increasingly complex world, challenge conventional wisdom, and train students to find creative solutions.

The curriculum allows the flexibility of integrating multiple disciplines with training in critical theory and a rigorous thesis-driven program. Students investigate the underlying assumptions and histories of contemporary issues and analyze scholarship using approaches from critical social and cultural theory, and international political economy.

Program Features

Interdisciplinary Curriculum

Our curriculum includes content from many areas, including international economics, political science, world history, geography, area studies, sociology and anthropology. While our program has full-time faculty dedicated to international studies, we also draw on faculty members from other departments to provide students with a rich, varied, and robust curriculum.

Thesis-Driven

Our program has been carefully structured to provide our students with the best possible preparation for thesis research during the second year of study, an opportunity becoming increasingly rare in masters programs. As they progress through the program, students develop a tutorial relationship with an individual faculty member who will serve as the student’s thesis advisor. For self-driven students with interests in a particular question, or who plan to apply to a PhD program, the thesis requirement is a major asset of the program.

Orientation Towards Social Justice

Our coursework challenges students to analyze the multiple ways in which inequality and oppression work and to strategize for social change in a way that bridges theory and practice. As the program progresses, students are expected to develop socially responsible ethical frameworks that are informed by historical consciousness of transnational contexts; these, in turn inform their research.

Post-Graduate Opportunities

Because the program encompasses such a broad range of disciplines, the employment opportunities associated with the program are diverse and far-reaching. Many students go on to PhD work, well-prepared for research and writing at the doctoral level. Other graduates find jobs within nonprofits, international non-governmental organizations, and a range of international diplomatic entities.

The MA in International Studies may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- International Studies + Global Health Certificate
- International Studies + Metropolitan Planning and Development
- International Studies + Community Development
- International Studies + Social Research Certificate
- International Studies + Teaching English to Speakers of Other Languages (TESOL) Certificate
- International Studies + Women’s and Gender Studies Certificate
- International Studies + Social and Cultural Foundations in Education Certificate

Program Requirements | Quarter Hours
---|---
Degree Requirements | 48
Total hours required | 48

Learning Outcomes

Students will be able to:

- Analyze the multiple ways in which inequality and oppression work and strategize for social change.
- Work with different partners in order to produce collaborative intellectual work.
- Develop socially responsible ethical frameworks that are informed by historical consciousness of transnational contexts.
- Examine the linkages between theory and practice, scholarship and activism, research and public policy in the field of International Studies.
- Carefully read texts, research independently, and write clearly.
Degree Requirements
Course Requirements
Foundation Courses
Course Title Quarter Hours
INT 401 CRITICAL SOCIAL THEORY 4
INT 402 INTERNATIONAL POLITICAL ECONOMY 4

Students with no previous coursework in International Political Economy enroll in INT 402. Students who enter the program with some background in International Political Economy take a placement exam which will either place them in INT 402 or INT 403.

Core Courses (16 hours)
Course Title Quarter Hours
Choose four from the following: 16
INT 404 MIGRATION AND FORCED MIGRATION
INT 405 CULTURE AND INEQUALITY
INT 406 GLOBAL EMPIRES
INT 407 RACE, SEX AND DIFFERENCE
INT 408 NATURE, SOCIETY, AND POWER
INT 409 CRITICAL DEVELOPMENT THEORY
INT 410 INTERNATIONAL LAW

Thesis Colloquia (12 hours)
Course Title Quarter Hours
INT 590 DIRECTED RESEARCH SEMINAR 4
INT 591 MASTERS RESEARCH I 4
INT 592 MASTERS RESEARCH II 4

Elective Courses (12 credit hours)
Students are free to select three elective courses in support of their thesis. The electives should be selected in consultation with the thesis advisor. Permission of the advisor must be obtained before taking courses outside of the International Studies Department.

Graduate Certificate Options
The MA in International Studies may also be expanded to include one of the following graduate certificate programs. The combined MA/certificate program requires careful selection of elective courses to fulfill all requirements. A separate application process is required. Students who are interested in the combined MA/certificate program should contact the program office for additional information.

• Certificate in Women and Gender Studies
• Certificate in Teaching English to Speakers of Other Languages (TESOL)
• Certificate in Global Health
• Certificate in Social Research
• Certificate in Social and Cultural Foundations in Education
• Certificate in Community Development
• Certificate in Metropolitan Planning and Development

International Studies (Minor)
For students who do not wish to or are unable to pursue a major in International Studies, the minor offers the opportunity to gain a basic grounding in a rigorous, interdisciplinary approach to international affairs. Students who pursue this minor will benefit from an introduction to theories of nationalism, international relations, social movements, cultural studies, international political economy, and critical geography.

The minor can complement traditional disciplines, as well as other interdisciplinary programs, by providing students with the theoretical tools necessary to critically analyze pressing global issues. Additionally, students will build their writing, reading, and research skills through the coursework required for the minor.

Course Requirements
Course Title Quarter Hours
INT 200 INTRODUCTION TO POLITICAL ECONOMY 4
INT 201 THE EVOLUTION OF THE MODERN NATION STATE 4
INT 202 INTERNATIONAL CONFLICT AND COOPERATION 4
INT 203 INTERNATIONAL MOVEMENTS IN THE 20TH AND 21ST CENTURIES 4
INT 204 CULTURAL ANALYSIS 4
INT 205 INTERNATIONAL POLITICAL ECONOMY 4
INT 206 IDENTITIES AND BOUNDARIES 4

Students majoring in International Studies (BA) are restricted from earning this minor.

International Studies Certificate
GRADUATE CERTIFICATE IN INTERNATIONAL STUDIES
OVERVIEW
The International Studies certificate is designed to provide students with key competencies in critical thinking, research and data gathering in international contexts. The certificate is an option for people who want to cultivate their ability to engage in critical analysis of international issues and apply that critical analysis in their places of employment.

PROGRAM FEATURES
Social justice. Our course work challenges students to analyze the multiple ways in which inequality and oppression work, and to strategize for social change in ways that bridge theory and practice. Students are expected to develop socially responsible, ethical frameworks for their work that are informed by historical consciousness of transnational contexts.

Curriculum. Students begin this program by enrolling in two foundation courses, Critical Social Theory and International Political Economy, which provide the critical frameworks for subsequent classes. Building on this foundation, students select from a series of core courses that reflect topical debates and highlight themes of race, class, gender, power and inequality.
Evening Courses. Classes are offered primarily in the evening at the Lincoln Park campus.

Certificate Requirements
Students complete four courses for a total of 16 quarter hours.

ADMISSION REQUIREMENTS
Applications are accepted at any time and students may begin the certificate at the start of any academic quarter. The program is open to both non-degree seeking students and students concurrently enrolled in a DePaul graduate degree program. All applicants must hold a bachelor’s degree from a regionally-accredited institution.

HOW TO APPLY
Students enrolled in other DePaul graduate degree programs
Submit a letter of intent to the Office of Graduate Admission (graddepaul@depaul.edu (las@depaul.edu)).

Non-degree seeking students
Complete a College of Liberal Arts and Social Sciences graduate application (go.depaul.edu/apply (https://www.depaul.edu/apply/Pages/default.aspx)).

Please submit the following materials:

- Official transcript(s) from all college/universities attended
- A letter of intent

Application materials can be submitted through the online application or by email to graddepaul@depaul.edu. Official electronic transcripts must be sent directly from the issuing institution and can be emailed to graddepaul@depaul.edu. Please make sure your name is on all documents.

Students educated outside of the U.S. must provide a credential evaluation and proof of English proficiency by submitting a TOEFL or IELTS score. Visit the program website or go.depaul.edu/lasinternational (https://las.depaul.edu/admission-and-aid/graduate/Pages/international-admission.aspx) for more information.

Transcripts and other required credentials also can be mailed to:

The Office of Graduate Admission
College of Liberal Arts and Social Sciences
DePaul University
2400 N. Sheffield Ave.
Chicago, IL 60614

FOR MORE INFORMATION
Web: las.depaul.edu (https://las.depaul.edu/Pages/default.aspx)
Email: graddepaul@depaul.edu
Phone: (773) 325-7315

Please note the information provided is current as of March 2020 and is subject to change.

Irish Studies (Minor)
The Irish Studies minor is an interdisciplinary academic program focused on Ireland and its place in the world. The purpose of the minor is to give students access to another culture in order to enable them to better understand the role of culture in human society.

The study of Ireland is particularly apposite for a number of reasons:

1. Ireland has a rich history, culture and literature that in itself is worthy of study.
2. The Irish experience epitomizes a variety of processes which are of relevance to an understanding of today’s world. Among them are:
   a. an experience of colonialism and development
   b. the phenomenon of emigration and diaspora
   c. a changing interaction with adjacent countries
   d. finding a place in Europe and a globalized world
   e. searching for cultural identity
   f. coping with intercommunal, political conflict and violence, and reconfiguring the role of women in society
3. How Ireland has dealt with issues such as the environment and the configuration of gender roles can provide a point of comparison for and reflection on American experience.
4. The study of Ireland provides insights on how American influence impinges on other cultures.
5. Irish immigration into the United States has proved to be a formative influence on the development of American society. The study of Ireland can contribute to the shifting search for personal and social identity within America itself.

Course Requirements
Students can complete the 6 course Irish Studies Minor by completing one of the following two tracks:

1. For students who complete courses at DePaul University Chicago campus (i.e. do not participate in the Dublin Internship):
   - IRE 100
   - 5 additional approved elective courses in Irish Studies. Courses must be taken from at least three separate departments/programs and should represent a range of topics/issues.
2. For students who participate in DePaul’s Parliamentary Internship in Dublin:
The College of Liberal Arts and Social Sciences offers a study abroad program in Dublin, Ireland, twice each year. It provides an excellent opportunity for students to get to know Ireland at first hand. It is not a compulsory part of the minor in Irish Studies. However, students taking part in the Study Abroad Program in Dublin may gain credit for four courses that count towards completion of the minor. Thus, for students who successfully complete the Dublin Internship, the requirements for the IRE minor are as follows:

- IRE 100
- 1 additional approved elective courses in Irish Studies

For further information on the Dublin Parliamentary Internship courses please contact the Director of the Irish Studies Program.

### Irish Studies Courses

#### General Irish Studies

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

### Islamic World Studies (BA)

This interdisciplinary program grounds students in the study of Islam as a worldview, civilization, and living reality. Students will investigate the Islamic World from a variety of perspectives. The program engages students in exploring primary texts, history, cultural traditions, global communities, and regional issues. Three assumptions undergird the philosophy of this program: 1) that Islamic civilization is both a historical and a living reality; 2) that Islam has interacted with all known cultures and is thus expressed in a wide range of ways; 3) that the religious
core ties all of these cultural expressions together. While studying the Islamic World historically and also learning about specific cultural manifestations, students develop a critical understanding of the unique worldview engendered by Islam in its global contexts. Courses for the program are drawn from a broad variety of disciplines including History, History of Art and Architecture, International Studies, Modern Languages, Political Science, Religious Studies, and Women’s and Gender Studies. The regional focus of these courses includes Africa, the Middle East, South Asia, Central Asia, Europe, and the Americas.

A major in Islamic World Studies prepares students for a wide variety of careers and advanced graduate study. The program provides students with core knowledge of the worldview of Islam, its peoples, geographical distribution in the world, language study, and regional studies, enabling students to have a firm foundation in a world civilization. Students will be able to pursue career goals in such areas as social work, journalism, government, law, museums and cultural heritage, religion, education, and foreign service.

**Learning Outcomes**

Students will be able to:

- Describe and discuss cultural manifestation of Islam in at least three global regions including the authoritative centers in Arabic-speaking countries with emphasis on cultural adaptations, modifications and innovations.
- Articulate the historical and contemporary tensions around pluralism, authority (public and private) in domestic and societal life, relationships with other religious communities.
- Produce effective written essays that compare and contrast Islam in regions where it is the dominant religion and where it is a minority religion.
- Write on the major events in Islamic history.
- Use the major texts and research tools in Islamic studies.
- Articulate the central beliefs and practices of the religion of Islam across the branches and in the schools of legal thought.

**College Core Requirements**

**Study in the Major Field**

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

**Declaration of Major, Minor and Concentration**

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

**The Modern Language Requirement (MLR)**

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

**The Modern Language Option (MLO)**

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.
Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace the Scientific Inquiry—Lab or Scientific Inquiry—Science as a Way of Knowing requirement.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

**NOTE:** Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

**External Credit and Residency**
A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

**Liberal Studies Requirements**
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

</table>

**Senior Year**
**Capstone**
**Required** 4

1. Students must earn a C- or better in this course.
2. Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

**Learning Domains**
**Arts and Literature (AL) (p. 1184)**
- 2 Courses Required

**Historical Inquiry (HI) (p. 1188)**
- 1 Course Required
  (Note: Course must be in an area other than the study of Islam)

**Philosophical Inquiry (PI) (p. 1190)**
- 2 Courses Required

**Religious Dimensions (RD) (p. 1191)**
- 1 Course Required
  (Note: Course must be in an area other than the study of Islam)

**Scientific Inquiry (SI) (p. 1193)**
- 3 Courses Required
  [1 SWK Course, 1 Lab Course, and 1 Additional Course]

**Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)**
- 2 Courses Required

**Notes**
Please consult an advisor about using the Modern Language Option.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than the end of the Autumn Quarter of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

**Islamic World Studies (Minor)**

A minor in Islamic World Studies will allow students the flexibility of adding a minor while also maintaining the integrity of the program. Students will need to take the following two required courses:

**Required Courses:**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>IWS 192</td>
<td>ISLAMIC WORLD STUDIES</td>
<td>4</td>
</tr>
<tr>
<td>IWS 217</td>
<td>ISLAMIC CULTURES AND SOCIETIES</td>
<td>4</td>
</tr>
</tbody>
</table>

Students must also complete four electives from amongst IWS offerings, or related courses as approved by the Program Director.

Students majoring in Islamic World Studies (BA) are restricted from earning this minor.

**Italian (BA)**

From ancient Rome to the European Union, Italy has always been at the core of the humanist tradition and the heart of world affairs. A degree in Italian offers a broad-based humanities education with crucial skills in reading, writing, critical thinking, and intercultural communication useful for any number of pursuits after college. Our majors have gone on to career paths in teaching, government, and business both in the US and abroad. Others have enrolled in prestigious graduate programs in linguistics, literature, and law.

DePaul's Italian program gives students the opportunity to attain advanced language proficiency while studying all aspects of Italian literature and culture. Topics of our regular course offerings include:

- Language and Culture
- Film
- History and Politics
- Geography
- Food and Wine
- Business

**Key Program Features**

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of tuition, reducing their overall debt load.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

**Program Requirements**

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students must achieve a cumulative GPA of 3.35 by the end of their second year of study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

**Islamic World Studies 3+3 (BA+JD)**

In the 3 + 3 (BA+JD) Program, high-achieving first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.
Students expand upon the fundamental skills learned in the Italian core by choosing one of three concentrations: Italian Studies, Italian Language and Literature, and Commercial Italian. DePaul majors in world language education, management, marketing, environmental studies, history of art and architecture, international studies, political science and many other disciplines often choose to double major in Italian.

Each Fall DePaul's study abroad program in Rome offers students the opportunity to study at Italiaidea, a small, student-centered language institute with a superb record and reputation for high quality instruction, and at St. John's University campus in Rome, a university, like DePaul, driven by its Vincentian mission. Students can also spend a semester or year in Milan through DePaul's partnership with Università Cattolica del Sacro Cuore. The Italian Program has a chapter of the National Italian Honor Society Gamma Kappa Alpha and routinely partners with Italian agencies, businesses, and community organizations to offer its students quality internship opportunities locally and abroad. Home to one of the largest Italian-American communities in the US, Chicago also offers a dazzling array of resources—the Italian Cultural Institute, museums, galleries, film centers, restaurants and cafés—that allow students to immerse themselves in Italian language and culture right here in the city.

Learning Outcomes

Students will be able to:

- Proficiently speak, understand, read, and write the studied language(s) to:
  - Engage in conversations.
  - Interpret and create a variety of written texts.
  - Provide and obtain information
  - Express feelings and emotions.
  - Exchange opinions.

- Acquire knowledge of the cultures related to the studied language(s) with appropriate background in geography, history, politics, and society.

- Acquire knowledge of the literary traditions related to the studied language(s) along with techniques of literary and rhetorical analysis.

- Acquire basic notion of the history and theory of language and language study, including linguistics, sociolinguistics, language acquisition, and dialectology.

- Acquire basic notion of the theory and practice of translation and interpretation.

College Core Requirements

Study in the Major Field

The student's course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized "concentration." The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student's choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.
Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (see below).

The Modern Language Option (MLO)
The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace the Scientific Inquiry—Lab or Scientific Inquiry—Science as a Way of Knowing requirement.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency
A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

  [1 SWK Course, 1 Lab Course, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)
• 3 Courses Required

Notes
A student whose only major is in Modern Languages is required to complete the Capstone offered by the Department of Modern Languages (MOL). A student who is double majoring (or pursuing dual degrees) with the primary major (or primary degree) in MOL may substitute the Capstone of the secondary major or degree. An MOL major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the MOL Capstone.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.
In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Major Requirements**

Majors in Italian must complete a total of 12 advanced courses (48 quarter hours), comprised of a common 8-course core and a 4-course concentration in Italian Studies, Italian Language and Literature, or Commercial Italian.

### Core Courses (32 quarter hours)

### Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours. Majors in Italian should select these courses in consultation with the Italian Program Director and Modern Languages Staff Advisor. Students can use their open electives to pursue a double major or one or more minors.

### Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Commercial Italian Concentration, Italian (BA) (p. 565)
- Italian Language and Literature Concentration, Italian (BA) (p. 566)
- Italian Studies Concentration, Italian (BA) (p. 568)

Each of these concentrations allows Italian majors to develop their broad intercultural communicative skills through a rigorous interdisciplinary education tailored to their academic and professional interests. While the course listings for each concentration are not exhaustive, they represent a substantial sampling of courses from around the university that can be applied toward the respective concentrations. Students are encouraged to meet regularly with the Italian Program Director and the Modern Languages staff advisor to discuss elective course options for whichever concentration they choose. Other relevant courses may count as electives for the concentrations with consultation/permission of the Italian Program Director.

### Commercial Italian Concentration, Italian (BA)

Students choosing the Commercial Italian concentration are interested in complementing their advanced intercultural language study with a foundation in international business skills. The bridge courses in the concentration (ITA 320 and MGT 300) integrate students’ knowledge
across disciplines, and the two additional electives allow them to further explore their area of interest in business.

After declaring the Italian major with the Commercial concentration, students should meet with the Italian Program Director, who will work together with advisors in the College of Business to ensure that students are maximizing opportunities to double count their chosen concentration courses in order to efficiently achieve their postgraduate career goals.

### Course Requirements (8 quarter hours)

<table>

### Electives (8 quarter hours)

Select 8 quarter hours of the following:

- MGT 302 ORGANIZATIONAL BEHAVIOR
- MGT 307 HUMAN RESOURCES MANAGEMENT
- MGT 354 GLOBAL HUMAN RESOURCE MANAGEMENT
- MGT 355 NEGOTIATIONS
- MGT 357 INTERNATIONAL BUSINESS
- MGT 360 LEADERSHIP
- MGT 361 ORGANIZATIONAL CHANGE AND CONSULTING
- MGT 373 CREATIVITY & ENTREPRENEURSHIP

Note: MGT 300 is a prerequisite for MGT 302, MGT 354, MGT 355, MGT 360, MGT 361, MGT 373.

### Italian 3+3 (BA+JD)

In the 3+3 (BA+JD) Program, high-achieving first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

### Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of tuition, reducing their overall debt load.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

### Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students must achieve a cumulative GPA of 3.35 by the end of the second year of study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than the end of the Autumn Quarter of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

### Italian Language and Literature Concentration, Italian (BA)

Students choosing the Language and Literature concentration have an academic and professional interest in deepening their expertise in the target language, literature, and culture and/or in linguistics. Students may choose to either take a majority, if not all, of their coursework in Italian or take elective courses in linguistics and related disciplines (such as anthropology, bilingual-bicultural education, second-language acquisition, communication, philosophy, psychology, and semiotics) beyond those offered in the Italian Program.

After declaring the Italian major with the Language and Literature concentration, students should meet with the Italian Program Director to discuss which of these two pathways best fits their interests and academic/postgraduate goals.

Italian Studies Concentration, Italian (BA)

Students who choose the Italian Studies concentration have tremendous flexibility in building their own cluster of courses to align with a particular facet of Italian, based on their academic interests or intended career path. In the case of double majors, the Italian Studies concentration allows students to meaningfully align their two programs of study so that one complements the other, with the concentration courses potentially double-counting between both majors.

After declaring the Italian major with the Studies concentration, students should meet with the Italian Program Director to discuss ideas and options for crafting a tailor-made Italian Studies concentration that best fits their college and post-graduate goals.

Electives (16 quarter hours)

Select 4 courses from Modern Languages or affiliated departments. No more than two of the four courses shall be taken in the same Department:

Italian (MA)

The MA program in Italian provides students a customizable, flexible curriculum to develop advanced linguistic and cultural expertise in a language and to apply that expertise in the disciplinary or professional contexts of their choice. Whether in the “global village” of today’s world or in multi-ethnic communities such as Chicago, this advanced expertise

---

1 INT 205 or ECO 106 is a prerequisite for this class
2 PSC 281 is a 2 quarter hour class
is an increasingly valuable personal and professional asset, requiring appropriate training and credentials. The MA program especially seeks to serve adult professionals (government employees, social workers, healthcare providers, business people, or certified K-12 teachers) whose careers require this applied expertise.

The MA in Italian may be expanded also to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Italian + Digital Humanities Certificate
- Italian + Teaching English to Speakers of Other Languages (TESOL) Certificate

### Learning Outcomes

Students will be able to:

- Speak and participate in most informal and some formal conversations from topics related to school, home, and leisure activities, to many related to employment, current events, and matters of public and community interest.
- Narrate and describe in the major time frames of past, present, and future in paragraph-length discourse with some control of aspect, as well as combine and link sentences into connected discourse of paragraph length; although these narrations and descriptions tend to be handled separately rather than interwoven.
- Use communicative strategies such as rephrasing and circumlocution, and contribute to a conversation with sufficient accuracy, clarity, and precision to convey their intended message without misrepresentation or confusion.
- Combine and link sentences into texts of paragraph length and structure, and use minimal control of common structures and vocabulary.
- Listen and comprehend (albeit unevenly) short conventional narrative and descriptive texts with a clear underlying structure.
- Understand conventional narrative and descriptive texts with clear underlying structure (though their comprehension may be uneven).

### Degree Requirements

#### Course Requirements

The curriculum of the MA in Italian consists of twelve courses (48 quarter credit hours), divided into two parts:

1. A core curriculum of four required courses (16 quarter credit hours), and
2. Eight courses (32 quarter credit hours) in the language area, which must include an approved “cluster” of at least four courses (16 quarter credit hours) focused on a particular professional application or disciplinary interest.

Students must select these course clusters in consultation with an advisor. All courses in the language area must be courses taught in the target language of the student’s program (i.e. courses with prefixes ITA). In exceptional cases, with the approval of the student’s advisor and the director of the graduate program, a student may count one or two courses taught in English from allied fields (such as art history, economics, education, geography, health sciences, management, philosophy, political science, religion, sociology, etc.) among the eight “language area” courses in the student’s program.

### Core Curriculum

The core curriculum consists of the following four courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MOL 401</td>
<td>PROFESSIONAL FOUNDATIONS</td>
<td>4</td>
</tr>
<tr>
<td>MOL 402</td>
<td>LANGUAGE, SELF AND SOCIETY</td>
<td>4</td>
</tr>
<tr>
<td>MOL 403</td>
<td>COMMUNITIES OF PRACTICE</td>
<td>4</td>
</tr>
<tr>
<td>MOL 496</td>
<td>MAMOL CAPSTONE</td>
<td>4</td>
</tr>
</tbody>
</table>

In addition, all 300-level courses in the respective languages are offered simultaneously as 400-level electives to complete the MA program. The 400-level courses have additional requirements.

### Additional Requirements

Additional requirements include:

- ACTFL Oral Proficiency Interview
- Portfolio Project

All students must attain a rating of at least “Advanced Low” from the standardized Oral Proficiency Interview (OPI) of the American Council on Teaching Foreign Languages (ACTFL).

The service learning experience will involve work within an environment where the student can apply her or his linguistic expertise, as a volunteer, contributor, intern, or employee. This environment might be a community group; a social service or agency; a professional association; or an artistic organization. This experience should ideally contribute to the student’s portfolio project.

The portfolio (completed while enrolled in MOL 496) consists of a compilation and critical assessment of select work done throughout the program or a final project with written critical assessment. Final projects may include a community service experience, internship, performance and creative work, thesis, or translation.

### Graduation Grade Point Average Requirement

In order to graduate from the program, students must complete all program requirements with a minimum GPA of 3.000.

### Thesis Option

A thesis option will be available for students who attain a GPA of at least 3.7 in the program after completing 24 credit hours of coursework. The thesis should address the area of interest of the candidate’s course “cluster.”

### Student Handbook

Students in a graduate program offered through Modern Languages follow the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate
Handbook. There are additional academic regulations specific to students in a Modern Language graduate program.

Language Proficiency for Admission
In order to be eligible for admission to a Modern Language graduate program a student must have successfully completed at least 20 quarter credit hours (or the equivalent in semester credit hours) of advanced college-level coursework in the language (this is the equivalent of an undergraduate “minor” at most colleges or universities in the United States).

Students who lack 20 quarter credit hours (or the equivalent in semester credit hours) of coursework must demonstrate proficiency in the language by attaining a rating of at least “intermediate high” on two standardized tests from the American Council on the Teaching of Foreign Languages (ACTFL): the Oral Proficiency Interview (OPI) and the Writing Proficiency Test (WPT).

Transfer Credit
Students may apply (“transfer”) toward their MA programs in Modern Languages no more than eight quarter hours of graduate-level credit completed at another college or university, with approval from the departmental director of graduate programs. Students may not transfer credits already used to satisfy the degree requirements of any program at another college or university.

Students seeking to apply “transfer” credit toward their MA programs in Modern Languages must complete the college transfer request form.

Graduation with Distinction
Students from the MA programs in Modern Languages earn their degrees “with distinction” if they graduate with a cumulative grade point average (GPA) of 4.0 (on a scale where 4.0=A). To verify eligibility, students and their faculty advisors should contact the departmental advisor and the departmental director of graduate studies before the deadline to apply for graduation.

Italian (Minor)
The Italian minor gives students the opportunity to develop basic linguistic and cultural skills, to train in creative and critical thinking, and prepare for a career in our multicultural society.

The minor consists of a total of 5 courses in Italian language at the 200/300-level. Courses taught in English (ITA 260, ITA 262, ITA 307, ITA 308) will not be counted toward this minor unless Program Director permission is secured.

Students majoring in Italian (BA) are restricted from earning this minor.

Japanese (MA)
The MA program in Japanese provides students a customizable, flexible curriculum to develop advanced linguistic and cultural expertise in a language and to apply that expertise in the disciplinary or professional contexts of their choice. Whether in the “global village” of today’s world or in multi-ethnic communities such as Chicago, this advanced expertise is an increasingly valuable personal and professional asset, requiring appropriate training and credentials. The MA program especially seeks to serve adult professionals (government employees, social workers, healthcare providers, business people, or certified K-12 teachers) whose careers require this applied expertise.

The MA in Japanese may be expanded to include also select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

1. Japanese + Digital Humanities Certificate
2. Japanese + Teaching English to Speakers of Other Languages (TESOL) Certificate
3. Japanese + Teaching English to Speakers of Other Languages (TESOL) Certificate

DePaul Undergraduate Degree + Italian (MA)
Admission to this combined Master of Arts program is based on a minimum level of language proficiency (ACTFL rating of “Intermediate High”) rather than on prior coursework. Therefore, it is open to students with any undergraduate majors with the accompanying language ability. The program is designed to prepare students for advanced use of their linguistic skills in any area of professional interest (from business, government, and education to further graduate study).

The program requires 48-quarter hour credits of coursework. This coursework consists of:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MOL 401</td>
<td>PROFESSIONAL FOUNDATIONS</td>
<td>4</td>
</tr>
<tr>
<td>MOL 402</td>
<td>LANGUAGE, SELF AND SOCIETY</td>
<td>4</td>
</tr>
<tr>
<td>MOL 403</td>
<td>COMMUNITIES OF PRACTICE</td>
<td>4</td>
</tr>
<tr>
<td>MOL 496</td>
<td>MAMOL CAPSTONE</td>
<td>4</td>
</tr>
</tbody>
</table>

1. 16-quarter hour credits of required courses:
2. 32-quarter hour credits of elective coursework, specifically relevant to each individual student’s professional interests and language, and chosen in consultation with the student’s faculty advisor.

The required courses (MOL 401, MOL 402, MOL 403, and MOL 496) are each worth 4-quarter hour credits. Elective courses may vary in credit. Because each student pursues a highly customized selection of coursework, it may include independent study, practicum, study abroad, or transfer credits that allow students to complete in any term additional credits toward satisfaction of degree requirements. Depending on their individual interests, students may (with approval of their advisor) also take as electives courses taught in English by other DePaul units, provided that the students satisfy any relevant prerequisites for those courses.
Learning Outcomes

Students will be able to:

- Speak and participate in most informal and some formal conversations related to school, home, and leisure activities, to many related to employment, current events, and matters of public and community interest.
- Narrate and describe in the major time frames of past, present, and future in paragraph-length discourse with some control of aspect, as well as combine and link sentences into connected discourse of paragraph length; although these narrations and descriptions tend to be handled separately rather than interwoven.
- Use communicative strategies such as rephrasing and circumlocution, and contribute to a conversation with sufficient accuracy, clarity, and precision to convey their intended message without misrepresentation or confusion.
- Combine and link sentences into texts of paragraph length and structure, and use minimal control of common structures and vocabulary.
- Listen and comprehend (albeit unevenly) short conventional narrative and descriptive texts with a clear underlying structure.
- Understand conventional narrative and descriptive texts with clear underlying structure (though their comprehension may be uneven).

Degree Requirements

Course Requirements

The curriculum of the MA in Japanese consists of twelve courses (48 quarter credit hours), divided into two parts:

1. A core curriculum of four required courses (16 quarter credit hours), and
2. Eight courses (32 quarter credit hours) in the language area, which must include an approved “cluster” of at least four courses (16 quarter credit hours) focused on a particular professional application or disciplinary interest.

Students must select these course clusters in consultation with an advisor. All courses in the language area must be courses taught in the target language of the student’s program (i.e., courses with prefixes JPN). In exceptional cases, with the approval of the student’s advisor and the director of the graduate program, a student may count one or two courses taught in English from allied fields (such as art history, economics, education, geography, health sciences, management, philosophy, political science, religion, sociology, etc.) among the eight “language area” courses in the student’s program.

</table>

In addition, all 300-level courses in the respective languages are offered simultaneously as 400-level electives to complete the MA program. The 400-level courses have additional requirements.

Additional Requirements

Additional requirements include:

- ACTFL Oral Proficiency Interview
- Portfolio Project

All students must attain a rating of at least “Advanced Low” from the standardized Oral Proficiency Interview (OPI) of the American Council on Teaching Foreign Languages (ACTFL). The service learning experience will involve work within an environment where the student can apply her or his linguistic expertise, as a volunteer, contributor, intern, or employee. This environment might be a community group; a social service or agency; a professional association; or an artistic organization. This experience should ideally contribute to the student’s portfolio project.

The portfolio (completed while enrolled in MOL 496) consists of a compilation and critical assessment of select work done throughout the program or a final project with written critical assessment. Final projects may include a community service experience, internship, performance and creative work, thesis, or translation.

Graduation Grade Point Average Requirement

In order to graduate from the program, students must complete all program requirements with a minimum GPA of 3.000.

Thesis Option

A thesis option will be available for students who attain a GPA of at least 3.7 in the program after completing 24 credit hours of coursework. The thesis should address the area of interest of the candidate’s course “cluster.”

Student Handbook

Students in a graduate program offered through Modern Languages follow the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in a Modern Language graduate program.

Language Proficiency for Admission

In order to be eligible for admission to a Modern Language graduate program a student must have successfully completed at least 20 quarter credit hours (or the equivalent in semester credit hours) of advanced college-level coursework in the language (this is the equivalent of an undergraduate “minor” at most colleges or universities in the United States).

Students who lack 20 quarter credit hours (or the equivalent in semester credit hours) of coursework must demonstrate proficiency in the language by attaining a rating of at least “intermediate high” on two standardized tests from the American Council on the Teaching of Foreign Languages (ACTFL): the Oral Proficiency Interview (OPI) and the Writing Proficiency Test (WPT).
Transfer Credit
Students may apply ("transfer") toward their MA programs in Modern Languages no more than eight quarter hours of graduate-level credit completed at another college or university, with approval from the departmental director of graduate programs. Students may not transfer credits already used to satisfy the degree requirements of any program at another college or university.

Students seeking to apply "transfer" credit toward their MA programs in Modern Languages must complete the college transfer request form.

Graduation with Distinction
Students from the MA programs in Modern Languages earn their degrees "with distinction" if they graduate with a cumulative grade point average (GPA) of 4.0 (on a scale where 4.0=A). To verify eligibility, students and their faculty advisors should contact the departmental advisor and the departmental director of graduate studies before the deadline to apply for graduation.

Japanese (MA), Combined Bachelor's + Master's Degree
The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Japanese (MA)
Admission to this combined Master of Arts program is based on a minimum level of language proficiency (ACTFL rating of "Intermediate High") rather than on prior coursework. Therefore, it is open to students with any undergraduate majors with the accompanying language ability. The program is designed to prepare students for advanced use of their linguistic skills in any area of professional interest (from business, government, and education to further graduate study).

The program requires 48-quarter hour credits of coursework. This coursework consists of:

1. 16-quarter hour credits of required courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MOL 401</td>
<td>PROFESSIONAL FOUNDATIONS</td>
<td>4</td>
</tr>
<tr>
<td>MOL 402</td>
<td>LANGUAGE, SELF AND SOCIETY</td>
<td>4</td>
</tr>
<tr>
<td>MOL 403</td>
<td>COMMUNITIES OF PRACTICE</td>
<td>4</td>
</tr>
<tr>
<td>MOL 496</td>
<td>MAMOL CAPSTONE</td>
<td>4</td>
</tr>
</tbody>
</table>

2. 32-quarter hour credits of elective coursework, specifically relevant to each individual student’s professional interests and language, and chosen in consultation with the student’s faculty advisor.

The required courses (MOL 401, MOL 402, MOL 403, and MOL 496) are each worth 4-quarter hour credits. Elective courses may vary in credit. Because each student pursues a highly customized selection of coursework, it may include independent study, practicum, study abroad, or transfer credits that allow students to complete in any term additional credits toward satisfaction of degree requirements. Depending on their individual interests, students may (with approval of their advisor) also take as electives courses taught in English by other DePaul units, provided that the students satisfy any relevant prerequisites for those courses.

Japanese (Minor)
The Japanese language minor prepares students to speak and read with a basic proficiency in one of the world's most important languages for business.

The minor consists of a total of 5 courses in Japanese language at the 200/300-level. Courses taught in English (JPN 240, JPN 241, JPN 242) will not be counted toward this minor unless Program Director permission is secured.

Students majoring in Japanese Studies (BA) or minoring in Japanese Studies are restricted from earning this minor.

Japanese Studies (BA)
The Japanese Studies (JPS) program at DePaul engages students in Japanese language and culture to cultivate cultural, historical, linguistic, and ethical values while developing the skills to lead in business, arts, diplomacy, education, and digital media.

Japan is America’s most important Asian ally, the 3rd strongest economy in the world, the second largest investor in the United States in business, and a global soft-power leader in digital media and popular consumer goods. At DePaul, students explore Japanese language and culture through an interdisciplinary approach. Our faculty offer classes in literature, history, religion, art history, ethics, political science, business, anime, and film studies. Students learn transferable, marketable skills in the areas of advanced language study and translation, and hone their critical thinking and writing skills by studying Japanese culture and society with experts in the fields of Japanese ethical and environmental studies, gender studies, and visual and material culture.

JPS encourages opportunities outside the classroom to strengthen linguistic and cultural competency through quarter-long or full-year exchange programs to Osaka (Kansai Gaidai) and Kyoto (Ritsumeikan). Special DePaul faculty-led short-term programs are offered every year, such as Peace Studies in Hiroshima-Nagasaki, Diaspora and Politics in Okinawa, and Digital Media in Tokyo-Kyoto.

On campus, JPS hosts numerous cultural and academic events, such as film screenings, Japanese language table, and cultural showcases. Off campus, students benefit from the many Japan-related activities at local Japanese organizations (e.g., the Japanese Consulate General in Chicago, Japanese American Service Committee, Japanese Culture Center, Japanese Chamber of Commerce and Industry in Chicago), and at local museums and theaters (e.g., the Art Institute of Chicago, the Museum of Contemporary Art, and the Gene Siskel Film Center).

The Japanese Studies curriculum allows students to take courses from many academic departments, including:

- Art History
- History
- Literature
- Political Science
- Religious Studies
Japanese Studies students are encouraged to participate in one of DePaul's Study Abroad programs in Kyoto or Osaka, in order to grow linguistically and expand their understanding of the Japanese culture.

</tbody>
</table>

### Learning Outcomes

Students will be able to:

- Proficiently speak, understand, read, and write the studied language(s) to:
  - Engage in conversations.
  - Interpret and create a variety of written texts.
  - Provide and obtain information.
  - Express feelings and emotions.
  - Exchange opinions.
- Acquire knowledge of the cultures related to the studied language(s) with appropriate background in geography, history, politics, and society.
- Acquire knowledge of the literary traditions related to the studied language(s) along with techniques of literary and rhetorical analysis.
- Acquire basic notion of the history and theory of language and language study, including linguistics, sociolinguistics, language acquisition, and dialectology.
- Acquire basic notion of the theory and practice of translation and interpretation.

### College Core Requirements

**Study in the Major Field**

The student's course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized "concentration." The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student's choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

### Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

### The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (see below).

### The Modern Language Option (MLO)

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.
MLO substitutions may not be used to replace the Scientific Inquiry—Lab or Scientific Inquiry—Science as a Way of Knowing requirement.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency
A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

</table>

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

Learning Domains
Arts and Literature (AL) (p. 1184)
- 1 Course Required

Historical Inquiry (HI) (p. 1188)
- 2 Courses Required

Philosophical Inquiry (PI) (p. 1190)
- 2 Courses Required

- 2 Courses Required

Scientific Inquiry (SI) (p. 1193)
- 3 Courses Required
  [1 SWK Course, 1 Lab Course, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)
- 3 Courses Required

Notes
A student whose only major is in Modern Languages is required to complete the Capstone offered by the Department of Modern Languages (MOL). A student who is double majoring (or pursuing dual degrees) with the primary major (or primary degree) in MOL may substitute the Capstone of the secondary major or degree. An MOL major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the MOL Capstone.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements
- Six 4-credit courses (24 credit hours) of 200/300-level Japanese with a minimum of three 300-level courses
- Five 4-credit courses (20 credit hours) of 200/300-level Allied Courses from at least three different departments
- Two 4-credit courses (8 credits) of 200/300-level Japanese or Allied Courses
Please note the following course sequence for Japanese courses:

Japanese Studies 3+3 (BA+JD)

Program Requirements
In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students must achieve a cumulative GPA of 3.35 by the end of their second year of study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>

<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law's online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than the end of the Autumn Quarter of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

Japanese Studies (Minor)
The Japanese Studies minor focuses on Japanese language, literature and culture though an interdisciplinary combination of language, culture, politics and history courses.

Course Requirements
- Three quarters of college-level Japanese language study (at any level).
- Five additional courses from at least two different disciplines, chosen in consultation with an advisor or faculty member, from the current approved Japanese Studies Allied Course List.

REL 320  TOPICS IN RELIGIOUS ETHICS (Atomic Age)
REL 342  ZEN MIND

Students majoring in Japanese Studies (BA) or minoring in Japanese are restricted from earning this minor.

Jazz Studies (BM)
The Bachelor of Music in Jazz Studies degree prepares students for careers as jazz professionals. Drawing upon the resources of the Chicago jazz scene, faculty members are highly celebrated performers, teachers, composers, and arrangers. The program is comprised of applied jazz lessons, jazz ensembles and combos, jazz improvisation, jazz theory and history, arranging and composition, and pedagogy.

Program Requirements    Quarter Hours
Music Core Requirements  88
Liberal Studies Requirements  52
Specialization Requirements  42
Electives  10
Total hours required  192

Learning Outcomes
Core Outcomes
Students will be able to:

• Demonstrate a growing competence in technical aspects of performance, such as tone quality, pitch consistency, dynamic control, technical agility, accurate rhythmic concepts, and other skills particular to the area of specialization.
• Identify and analyze the elements of music in a given piece, including an understanding of its compositional processes, aesthetic properties, and artistic, social, and historical contexts for works in the Western music tradition, Contemporary periods, Jazz, and World Music Cultures.

• Demonstrate an appropriate level of aural, keyboard, and conducting skills.

Program Specific Outcomes

Students will be able to:

• Develop an understanding of the pedagogical processes and theories that are foundational to performance practices and instruction on one's primary instrument.

• Demonstrate a growing maturity in musical concepts using tools of performance to create artistic products.

• Demonstrate increasing knowledge of repertoire and growing musical competence through participation in solo, chamber and large ensemble performances.

Music Core Requirements

Course Requirements

All students in the School of Music are required to enroll in the following music courses:

<table>

1 Students in the BM-Jazz Studies program are not required to take MUS 211, MUS 221, or MUS 231.

2 Students in the BM-Jazz Studies program are not required to take MUS 213, MUS 223, or MUS 233.

Applied Music

Students may enroll in a maximum of 3 credits of applied study per quarter, with a maximum of 36 credits total. The requirements for applied study vary by degree program:

• BM in performance, 36 credits
• BM in jazz studies, 32 credits
• BM in composition, 12 credits
• BM in music education, 18 credits
• BM in performing arts management, 18 credits
• BA in music, 12 credits
• BS in sound recording technology, performance track, 9 credits

The BS in Performing Arts Management degree does not require applied lessons, and the BS in Sound Recording Technology, non-performance track, degree does not require applied lessons.

Except performance majors, students may enroll in additional applied credits, which will count towards music electives.

Modern Language Option

If a music student wishes to study a modern language for a three-course sequence (12 credits), one quarter of language study (4 credits) may be used to replace a course requirement in Arts and Literature, Philosophical Inquiry, or Religious Dimensions. The remaining two quarters of language (8 credits) will be applied towards free electives. This option does not apply to students in the BM-Performance, vocal concentration.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Major Requirements

Program Checkpoints
Undergraduate Jazz Studies majors will perform a checkpoint audition at the end of their freshman year. The student's applied instructor and/or area coordinator or director will give students specific information on content and required music. Successful completion of the checkpoint audition is required for continuation in the performance degree.

Jazz Studies (MM)

The graduate jazz studies program provides students a comprehensive education in jazz, allowing students to specialize in either performance or composition. Drawing upon the resources of the Chicago jazz scene, faculty members are highly celebrated performers, teachers, composers,
and arrangers. In addition to applied jazz lessons, jazz ensembles, and jazz combos, Master of Music students enroll in courses such as jazz theory, history, pedagogy, improvisation, composing, and/or arranging. Throughout the program, jazz students have multiple opportunities to record performances and compositions in professional recording studios. The Master of Music degree is a two-year program.

**Program Requirements**

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>48</td>
</tr>
</tbody>
</table>

**Learning Outcomes**

**Core Outcomes**

Students will be able to:

- Demonstrate basic music research techniques and apply knowledge of standard reference tools and bibliographic sources to the writing of a variety of professional and academic music texts.
- Develop an expanded global, historical, and cultural understanding of music through the in-depth study of musical elements, compositional processes, and aesthetic properties.
- Perform solo and ensemble works with appropriate techniques and musicality.

**Degree Requirements**

**Course Requirements**

A minimum of 48 quarter hours of graduate credit is required for the Master of Music degree. This total is divided between the basic studies required of all master's degree students, and courses in the specialization. Prior to the conclusion of each degree program, graduate students must pass a written comprehensive examination, administered by each department/program.

**Music Core Requirements (16 credits)**

**Terminal Requirements**

Two terminal requirements are required of all students:

- A written comprehensive examination, in which the students must demonstrate a satisfactory knowledge of their major field of study. The comprehensive examination may be taken at any time after 32 quarter hours of graduate credit have been earned.
- Performance track, the presentation of a public recital; composition track, the completion of a final writing project.

While preparation of the terminal requirement in the major may take place within some course or activity for which a student is registered for credit, additional academic credit is not granted for the project itself.

**Residency Requirements**

All courses for the master's degree must be taken at DePaul University. Graduate credit for courses completed at other institutions may not be applied toward the degree.

A full-time graduate student must be registered for a minimum of six quarter hours in any term. All requirements for the degree must be completed within six calendar years from the time a student is first enrolled. For students removing deficiencies, this period will begin when all deficiencies are removed and admission to the master's degree program has been granted.
Journalism (BA)

Journalism majors are distinguished by their ability to research, interview and write under deadline pressure across a variety of platforms using the most appropriate forms of audio, photo and video to best tell stories that inform communities. As a journalism major, you learn from practitioners in the field and researchers with journalism backgrounds about how to share information, engage communities and make where you live a better place.

DePaul's Journalism Program features an array of courses in reporting, writing, multimedia production, broadcast journalism, photography and social media to prepare you to dig into content areas of your choice such as politics, sports, arts and entertainment, and community news.

The Journalism program is located in downtown Chicago, at DePaul's Loop campus, giving you access to many surrounding media outlets and allowing you to meet and work professionally with leading companies in the industry. You will have access to DePaul's state of the art equipment, recording studios, and student media spaces. Students gain experience in national award-winning co-curricular student organizations and can complete multiple competitive internships at news outlets in the city during the regular school year as part of their regular coursework.

Learning Outcomes

Students will be able to:

- Write, interpret and report the news of the day.
- Evaluate the journalism profession and media industry many of them will be entering.
- Demonstrate the role technology, social media and repurposing stories for multimedia platforms are playing in the current and future world of newsgathering and dissemination.
- Analyze journalism’s relationship to society, power, politics, locally and globally.

College Core Requirements (p. 581)

Modern Language Requirement (p. 581)

Modern Language Option (p. 581)

All majors in the College of Communication consist of a four-course common core plus an additional combination of program requirements and electives.

Course Requirements

Four core courses are required of all College of Communication students:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CMN 101</td>
<td>INTRODUCTION TO HUMAN COMMUNICATION</td>
<td>4</td>
</tr>
</tbody>
</table>

Modern Language Requirement

Students who intend to graduate with a Bachelor of Arts degree in the College of Communication will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing the last course in a second year high school course work in a modern language or Latin
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language (must be completed during high school)
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement. Students with some modern language training should consult with the Modern Language Department about the course with which they should begin. Students with little or no previous work in the language will be required to complete the entire three-course introductory sequence.

Modern Language Option

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level necessary to meet the College's modern language requirement. Students selecting the option may substitute a three-course language sequence for three learning domain courses, or two upper-level courses in the same language for two learning domain requirements. Modern Language Option substitutions may not be used to replace the Scientific Inquiry. Lab or Scientific Inquiry. Science as a Way of Knowing requirement. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

**Note**
Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Learning Domains

Arts and Literature (AL) (p. 1184)
- 2 Courses Required

Historical Inquiry (HI) (p. 1188)
- 2 Courses Required

Philosophical Inquiry (PI) (p. 1190)
- 2 Courses Required

Religious Dimensions (RD) (p. 1191)
- 2 Courses Required

Scientific Inquiry (SI) (p. 1193)
- 3 Courses Required
  - [1 SWK Course, 1 Lab Course, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)
- 2 Courses Required

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.
Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.
Journalism 3+3 (BA+JD)

In the 3 + 3 BA/JD Program, high-achieving first-year undergraduate students are admitted simultaneously to the College of Communication and the College of Law. Students complete their first three years in the College of Communication and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA/JD students meet regularly with advisors in both colleges and have access to a variety of resources to ensure their success.

Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of tuition, reducing their overall debt load.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Communication during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Communication for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students must achieve a cumulative GPA of 3.35 by the end of their second year of study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. Students benefit from new curricular offerings and collaborative activities created to prepare them for law school. The courses are as follows:

- PRELAW 150 THE PRACTICE OF LAW
- PRELAW 151 RECENT CONTROVERSIES IN THE LAW
- PRELAW 152 THINKING ABOUT THE LAW

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than the end of the Autumn Quarter of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

Participating Majors

The BA/JD Program is available for students pursuing the following majors:

- Journalism
- Political Science
- History
- Economics
- Business Administration
- Psychology
- Sociology
- Criminal Justice

Internship Credit

Students in the major may take CMN 394 and/or CMN 395 (when work relates to the major). In order to take CMN 394 or CMN 395, students must have completed two of the four communication core classes (CMN 101, CMN 102, CMN 103, CMN 104), two courses in the chosen major and have fulfilled internship program eligibility requirements.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.
Journalism (MA)

The MA in Journalism Program at DePaul prepares graduates for careers as multimedia news producers and visual storytellers in journalism's new digital landscape. Our graduates are now content producers at more than 400 sites in the webbed universe. Concentrations in: Multimedia Reporting; Reporting Metro Chicago; Sports Journalism; and Data Journalism helped establish their brands as socially responsible reporters, editors, and producers.

DePaul's program brings Chicago into the classroom and moves the classroom out into the third largest media market in the country. Internships and experiential learning opportunities enable students to develop the networks and e-portfolios that advance their careers. Our award-winning team of journalism professionals partners with students in producing first-rate news stories across platforms, aided by DePaul's downtown Media Center and Green Screen Studio.

Learning Outcomes

Students will be able to:

- Explain and evaluate the social responsibility of journalists to serve citizens with news worth knowing.
- Use digital story-telling techniques to be competitive in the new journalism marketplace.
- Experiment in how to best handle and present the news of the day.

Degree Requirements

Course Requirements

The Master of Arts in Journalism requires 12 courses (48-credit hours) — three core courses, a minimum of six elective courses in Journalism, and a maximum of three outside electives.

Core Courses

Students are required to take all of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>JOUR 501</td>
<td>THE SOCIAL RESPONSIBILITY OF JOURNALISM</td>
<td>4</td>
</tr>
<tr>
<td>JOUR 502</td>
<td>NEWS NOW: JOURNALISM IN THE INFORMATION AGE</td>
<td>4</td>
</tr>
</tbody>
</table>

Journalism Electives

Select a minimum of six courses from the following list:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>JOUR 503</td>
<td>REPORTING FOR CONVERGED NEWSROOMS</td>
<td>4</td>
</tr>
<tr>
<td>JOUR 504</td>
<td>MULTIMEDIA NEWS PRODUCTION</td>
<td>24</td>
</tr>
<tr>
<td>JOUR 505</td>
<td>TELEVISION NEWS REPORTING</td>
<td></td>
</tr>
<tr>
<td>JOUR 506</td>
<td>NEWSCAST PRODUCING</td>
<td></td>
</tr>
<tr>
<td>JOUR 507</td>
<td>VISUAL COMMUNICATION</td>
<td></td>
</tr>
<tr>
<td>JOUR 509</td>
<td>JOURNALISM LAW AND ETHICS</td>
<td></td>
</tr>
<tr>

<td></td>
</tr>
</tbody>
</table>
Students who wish to earn one of the three concentrations should see "Concentration Requirements" page to help guide their elective course choices.

Outside Electives
With approval from the graduate program director, students can take up to three relevant elective courses from other Communication graduate programs, or relevant graduate elective courses from outside of Communication. Examples of courses students have taken previously are:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CMNS 545</td>
<td>COMMUNICATION AND TECHNOLOGY</td>
<td></td>
</tr>
<tr>
<td>CMNS 552</td>
<td>RELATIONSHIPS AND INFLUENCE IN THE WORKPLACE</td>
<td></td>
</tr>
<tr>
<td>CMNS 563</td>

<tr>
<td>PRAD 575</td>
<td>COMMUNICATION ETHICS AND LAW</td>
<td></td>
</tr>
</tbody>
</table>

Optional Latino Media & Communication Concentration
The graduate concentration in Latino Media & Communication is comprised of at least three graduate courses drawn from the areas of advertising, journalism, media and cinema studies, multicultural communication, organizational communication and public relations. Graduate students in any of the College of Communication Master of Arts programs can elect to complete the Latino Media & Communication concentration. Students may need to use outside electives to complete this concentration.

Students who complete the concentration will:

- Develop an understanding of the heterogeneous and rapidly changing Latino communities locally, nationally and globally
- Ground their knowledge of intercultural studies within a more extensive and concrete knowledge of a particular (even though diverse), rapidly growing, and increasingly important population within the U.S.
- Increase their cross-cultural competence (understanding and ability to dialogue across difference, develop cultural sensitivity and awareness) with Latino communities
- Enhance their capacity to communicate with and learn from Latino populations in the workplace, in community situations and other sites of engagement
- Recognize the impact of the movement of Latinos across the globe and develop the skills to critically consume and produce media, public relations and advertisement representations that communicate to and about Latino communities
- Develop field-specific knowledge of Latino media and communication along with an understanding of how Latino studies shapes other fields of communication

Courses
Students are required to take three courses (12 credits) from the following list:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CMNS 509</td>
<td>SPECIAL TOPICS IN MULTICULTURAL COMMUNICATION</td>

<td>1</td>
</tr>
<tr>
<td>CMN 598</td>
<td>STUDY ABROAD</td>
<td></td>
</tr>
</tbody>
</table>

1 Topic must be related to Latino Media and Communication.

Grade Requirements
All students are required to maintain a cumulative GPA of 3.000 in their coursework. If a student’s cumulative GPA falls below 3.000, the student will be allowed to complete an additional 16 credits or 3 quarters (whichever comes first) to attain the 3.000 minimum GPA. If the cumulative GPA remains below a 3.000 at the conclusion of this time period, the student may be dismissed from the program. The student’s cumulative and term GPAs along with overall academic performance will be factored into the dismissal decision.

Concentration Requirements
Students pursuing a graduate Journalism degree can select specific elective classes to earn a concentration.

- Data Journalism Concentration, Journalism (MA) (p. 586)
- Multimedia Journalism Concentration, Journalism (MA) (p. 586)
- Reporting Metro Chicago Concentration, Journalism (MA) (p. 586)
- Sports Journalism Concentration, Journalism (MA) (p. 587)
Data Journalism Concentration, Journalism (MA)

The concentration in Data Journalism at DePaul focuses on reporting stories through data and non-linear storytelling. It enables students to cover many of our major social problems—crime, poverty, access to health care, homelessness, and various forms of abuse—through social science reporting, data mining and visualization. The concentration’s objectives are to find and report important stories by integrating classic journalistic values of fairness, balance and impartiality with the values of digitalization and open-source culture. Graduates will be prepared to find jobs in the rapidly growing marketplace of publications that combine journalism and cutting-edge technology. Students must take two core courses (8 credits) and two elective courses (8 credits).

Multimedia Journalism Concentration, Journalism (MA)

Multimedia Journalism is a concentration that focuses on the multimedia storytelling and narrative strategies used to engage a wide readership. Coursework shows students how to combine text, photographs, video clips, audio, and graphics that encourage interactivity. Students will learn the strategies for multimedia storytelling, planning, and delivery systems that successfully integrate mobile, tablet and desktop platforms. The concentration guides students into a better understanding of the evolving media landscape and its digital communities in helping students produce professional-grade multimedia stories. Students must take two core courses (8 credits) and two elective courses (8 credits).

Core Courses

Students will take the following courses as part of their major program requirements:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>JOUR 504</td>
<td>NEWS NOW: JOURNALISM IN THE INFORMATION AGE</td>

Reporting Metro Chicago Concentration, Journalism (MA)

Course Requirements

The graduate concentration in Reporting Metro Chicago prepares students for work in urban reporting by introducing them to the communities, institutions, and decision-makers that impact citizens across the metro area. Students will learn how to cover critical urban issues through a variety of print and online platforms that serve citizens with fascinating stories drawn from across the city. Students must take two core courses (8 credits) and two elective courses (8 credits).

</tr>
</tbody>
</table>

Sports Journalism Concentration, Journalism (MA)

Course Requirements

The graduate concentration in Sports Journalism trains students to write, report, and produce multimedia sports packages while giving them an understanding of the unique role of sports in American life. Experiential learning opportunities are emphasized in game coverage, sports blogging, and building sports communities through print, broadcast, and social media. Students will learn the perspective and context that makes for truly exceptional work in sports journalism. Students must take one core course (4 credits) and 3 elective courses (12 credits).

Core Courses

Students are required to take one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>JOUR 510</td>
<td>SPORTS REPORTING</td>
<td>4</td>
</tr>
<tr>
<td>JOUR 523</td>
<td>ONLINE SPORTS REPORTING</td>
<td>4</td>
</tr>
</tbody>
</table>

Elective Courses

Select three courses from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>JOUR 510</td>
<td>SPORTS REPORTING</td>
<td></td>

<td></td>
</tr>
</tbody>
</table>

Journalism (MA), Combined Bachelor's + Master's Degree

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Journalism (MA)

The Journalism (MA) combined degree program is open to all undergraduate majors across the university. Students who are interested in this program must apply to the Graduate Admission Office in their junior year, and if accepted, can take up to three graduate courses (12 credits) in their senior year. These three courses count towards both the bachelor's program and the master of arts degree. Students will pay the current undergraduate tuition rate for these three courses. Once students earn their Bachelor of Arts or Bachelor of Science degree from DePaul, they matriculate as a graduate student and complete the remaining required courses for their Master of Arts degree. Students should work with their undergraduate advisor to see how the graduate classes will fulfill undergraduate degree requirements. Students must maintain a 3.0 GPA (B or better) in each graduate class taken in the senior year in order to continue in the program.

Example Schedule for Students in the Combined Degree Program

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
</table>
| Senior Year
| Fall Quarter                     |       |
| Take one graduate course         | 4     |
| Winter Quarter                    |       |
| Take one graduate course         | 4     |
| Spring Quarter                    |       |
| Take one graduate course         | 4     |

Spring Quarter

Take one graduate course (student completes undergraduate degree requirements and matriculates as a graduate student for fall quarter.) 4

Spring Quarter

Take three courses 12

Double Demon Scholarship

Alumni from any of DePaul’s colleges who are admitted into a graduate degree program in the College of Communication automatically qualify for the Double Demon Scholarship. Combined degree program students are eligible.

This scholarship covers 25% of the tuition for a master’s degree in the College of Communication. Both full-time and part-time students are eligible. No scholarship application is required. (DePaul University employees are eligible for other employee tuition benefits through the university, and therefore are not eligible for the Double Demon Scholarship.)

Journalism (Minor)

The Journalism minor provides an overview of reporting skills and methods. The flexible, hands-on curriculum offers courses that focus on a variety of topics, allowing you to take the courses that are most appealing to you.

Course Requirements

A minor in Journalism consists of a total of 24 credit hours (six courses).

<table>
<thead>
<tr>
<th>Course</th>

</table>

1 Any of these three JOUR courses may be replaced with CMN 394 or CMN 395, if those internships are journalism-related.

Students majoring in Journalism (BA) are restricted from earning this minor.

Language Proficiency Certificate

The Department of Modern Languages offers two certificates to current students and to non-degree seeking students/students-at-large: intermediate (low, mid, or high) language proficiency and advanced (low, mid, or high) language proficiency. Upon completion of the required classes and Written Proficiency Test, the student’s certificate will be posted to their DePaul transcripts. Language proficiency certification will allow students to show future employers they are ready to compete in today’s global workplace.

To declare the certificate, students must contact the Department of Modern Languages.

Students will register and pay a fee to complete the Writing Proficiency Test (http://www.languagetesting.com/actfl-writing-proficiency-test-wpt/) (WPT) through Language Testing International (http://www.languagetesting.com/), proctored by the Department of Modern Languages, and will receive a nationally recognized level of proficiency based on the standards developed by the American Council on the Teaching of Foreign Languages (http://www.actfl.org/) (ACTFL). Please refer to the Department of Modern Languages website for more information.

The department offers certificates in American Sign Language, Arabic, Chinese, French, German, Italian, Japanese, Russian, and Spanish. Certificates require a varying number of courses, depending on the student’s incoming language placement and desired level of proficiency.

Test credit and transfer credit are not applicable toward the certificate. All courses to be applied toward the certificate must be completed at DePaul.

Intermediate

• Students are required to successfully complete a minimum of three courses at DePaul (level 104 and above - no transfer or test credit; DePaul study abroad program credit will be reviewed on a case-by-case basis) in order to earn the certificate.

• Student readiness for intermediate level (104 and above) courses will be established by the language placement exam (http://las.depaul.edu/academics/modern-languages/student-resources/academic-advising/Pages/language-advising-faq.aspx), transfer credit (http://www.depaul.edu/admission-and-aid/types-of-admission/transfer-student/transferring-your-courses/Pages/default.aspx), or test credit (http://www.depaul.edu/admission-and-aid/test-credit-and-placement/Pages/default.aspx).

• The number of courses necessary to achieve an intermediate level certificate of proficiency (low, mid or high) will depend on the student’s entering proficiency level (based on previous study/knowledge; courses required may be determined by the language placement exam (http://las.depaul.edu/academics/modern-languages/student-resources/academic-advising/Pages/language-advising-faq.aspx), transfer credit (http://www.depaul.edu/admission-and-aid/types-of-admission/transfer-student/transferring-your-courses/Pages/default.aspx), ACTFL Written Proficiency Test (WPT) (http://www.languagetesting.com/writing-proficiency-test/), or test credit (http://www.depaul.edu/admission-and-aid/test-credit-and-placement/Pages/default.aspx)) and student effort (time spent studying the language, the following recommendations (http://las.depaul.edu/academics/modern-languages/student-resources/resources/Pages/default.aspx) for language proficiency development outside of the classroom, how well students perform in their language classes, etc.).

• At the end of the required number of courses, students must register and pay to take the American Sign Language Proficiency Interview (http://www.gallaudet.edu/aslides/aslpi.html) to certify proficiency level. The level of proficiency, per ACTFL test results (Intermediate low, or higher), will be posted onto the student’s DePaul transcripts.

• If students test below an intermediate level certificate, they may opt to:
  • take additional language courses,
  • work with the free language tutors through the Language Learning Center (http://las.depaul.edu/academics/modern-languages/student-resources/Pages/language-labs-and-tutors.aspx) until the desired level of proficiency is achieved, and then retake the test, or
  • drop the certificate program by emailing their advisor or college advising office.
It analyzes the multicultural character of the peoples of Latin America by calling attention to the complex interplay among Indigenous, European, Semitic, Arab, Asian, and African societies in the region. It explores the profound linkage that has emerged between Latin America and the United States, particularly through the construction of Latino communities in the U.S.

This interdisciplinary department explores the broad dynamics shaping Latin American and Latino experiences and draws courses and insights from the fields of film and media studies, art and art history, geography, political science, religious studies, sociology, history, anthropology, modern languages, international studies, and philosophy. Students interested in a wide range of work requiring multicultural skills, such as education, law, social work, community organizing, and business, will benefit from course work in this program. The Department of Latin American and Latino Studies also serves to deepen Latino students’ awareness of their cultural heritage.

**Advanced**

- Students are required to successfully complete five courses at DePaul (200 and 300 level language courses - no transfer or test credit; DePaul study abroad program credit will be reviewed on a case-by-case basis).
- Student readiness for advanced level courses will be established by the language placement exam (http://las.dePaul.edu/academics/modern-languages/student-resources/academic-advising/Pages/language-advising-faq.aspx), transfer credit (http://www.dePaul.edu/admission-and-aid/types-of-admission/transfer-student/transferring-your-courses/Pages/default.aspx), or test credit (http://www.dePaul.edu/admission-and-aid/test-credit-and-placement/Pages/default.aspx).
- Degree-seeking students taking the certificate may also complete one of several minors (http://www.dePaul.edu/university-catalog/degree-requirements/Pages/default.aspx) in the language simultaneous to the certificate.
- The number of courses necessary to achieve an advanced level certificate of proficiency (low, mid or high) will depend on the student’s entering proficiency level and student effort (time spent studying the language, the following recommendations (http://las.dePaul.edu/academics/modern-languages/student-resources/Pages/default.aspx) for language proficiency development outside of the classroom, how well students perform in their language classes, etc.).
- At the end of the required number of courses, students must register and pay to take the ACTFL Written Proficiency Test (WPT) (http://www.languagetesting.com/writing-proficiency-test/) or the American Sign Language Proficiency Interview (http://www.gallaudet.edu/aslides/aspli.html) to certify proficiency level. The level of proficiency, per ACTFL test results (Advanced low, or higher), will be posted onto the student’s DePaul transcripts.
- If students test below an advanced level certificate, they may opt to:
  a. change their certificate program (intermediate low, mid, or high),
  b. take additional language courses,
  c. work with the free language tutors through the Language Learning Center (http://las.dePaul.edu/academics/modern-languages/student-resources/Pages/language-labs-and-tutors.aspx) until the desired level of proficiency is achieved, and then retake the test, or
  d. drop the certificate program by emailing their advisor or college advising office.

- Students should familiarize themselves with the ACTFL proficiency standards for advanced-level speakers in order to better understand how much time they may need to dedicate to language study for the certificate.

**Latin American and Latino Studies (BA)**

The Department of Latin American and Latino Studies explores the cultural contributions of Latin Americans to the global community and highlights perspectives and traditions that have developed in the region. It analyzes the multicultural character of the peoples of Latin America by...
criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

**Declaration of Major, Minor and Concentration**

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

**The Modern Language Requirement (MLR)**

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

**The Modern Language Option (MLO)**

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace the Scientific Inquiry—Lab or Scientific Inquiry—Science as a Way of Knowing requirement.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

**NOTE:** Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

**External Credit and Residency**

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

#### Spanish Requirement (2 courses / 8 credit hours)

- Two 200/300-level Spanish courses

### Concentration Requirements

Students must also complete the requirements from one of the following concentrations: Historical Processes and Interpretations of the Americas; Contemporary Transformations in the Americas; Cultural Studies of the Americas or Latina/o Studies.

### Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Contemporary Transformations in the Americas Concentration, Latin America and Latino Studies (BA) (p. 591)
- Cultural Studies of the Americas Concentration, Latin America and Latino Studies (BA) (p. 592)
- Historical Processes and Interpretations of the Americas Concentration, Latin America and Latino Studies (BA) (p. 594)
- Latina/o Studies Concentration, Latin America and Latino Studies (BA) (p. 595)

### Contemporary Transformations in the Americas Concentration, Latin America and Latino Studies (BA)

This concentration focuses on the political, economic, and socio-cultural transformations that have profoundly shaped the Americas in the twentieth and twenty-first centuries. Courses in this concentration address issues such as authoritarian and democratic regimes of governance, state-interventionist and neoliberal economies, national and transnational forms of belonging, as well as the new modes of institutional exclusion and socio-cultural formation. In choosing this concentration, students will grapple with key figures, events, and movements in the Americas.

Cultural Studies of the Americas Concentration, Latin America and Latino Studies (BA)

This concentration includes the study of cultural productions - e.g. art, film, television, literature - and the major theoretical and ideological trends of cultural studies in the Americas. This concentration takes a hemispheric or Inter-American approach to the study of cultural productions, taking into account the impact of social, economic, and political exchanges on the circulation of culture across the hemisphere. Courses in this concentration explore issues relating to the representation of transnational migration, race, ethnicity, sexuality, gender, class, and indigenerity.

Historical Processes and Interpretations of the Americas Concentration, Latin America and Latino Studies (BA)

The courses in this concentration explore the historical processes that have created and continue to shape the diverse people living in the Americas throughout the centuries, focusing specifically on the peoples of Latin American origins and by calling attention to the complex interplay among Indigenous, African, European, Arab, Asian and Semitic societies in the region. This concentration provides the methodological and theoretical tools to analyze longitudinally and comparatively key historical issues such as colonization, imperialism, militarism, revolution, the struggles for liberation and self-determination, nationalism, and the creation of borders and boundaries, as well as the development of unique art and literary expressions.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Latin American and Latino Studies 3+3 (BA+JD)

In the 3 + 3 (BA+JD) Program, high-achieving first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.
Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year's worth of tuition, reducing their overall debt load.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students must achieve a cumulative GPA of 3.35 by the end of their second year of study and maintain a cumulative GPA of 3.5 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law's online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than the end of the Autumn Quarter of the participant's third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

Latin/o Studies Concentration, Latin America and Latino Studies (BA)

The Latin/o Studies concentration allows students to choose from an array of intellectually challenging, multidisciplinary courses that introduce cutting-edge scholarship on the Latin/o populations of the United States. Our courses familiarize students with the nation's fast-growing, diverse, transnational Latin/o populations, including their histories, ongoing connections to Latin America, cultures, and social conditions. Courses offer students the opportunity to focus on individual Latin/o communities in the country and to engage in comparative analysis of the various Latin/o communities. Students can select courses that concentrate on current socioeconomic and political issues facing Latinos in the U.S., as well as others that capture Latin/o expression in literature, music, and the arts. Some courses in this concentration involve students in collaborative projects with Chicago based Latin/o community organizations, civic programs, and other service learning opportunities.

Latin American and Latino Studies (BA) + Critical Ethnic Studies (MA)

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

In the spring of their junior year, majors can apply for the combined Latin American and Latino Studies (BA) + Critical Ethnic Studies (MA). Students in this program take twelve graduate credit hours in their senior year; these graduate courses may apply toward both undergraduate Latin American/Latino Studies major field and graduate Critical Ethnic Studies requirements. Interested students should contact the Critical Ethnic Studies (CES) graduate director.

A variety of other combined degree options are available for majors within the College of Liberal Arts and Social Sciences as well as other colleges at DePaul. These options generally offer double-counting of undergraduate open elective credit with graduate program credit.

Latin American and Latino Studies (Minor)

The Latin American and Latino Studies minor will help you explore the cultural contributions of the Latin American community to the global community and the traditions that developed in the region.

Areas of Concentration (4 courses / 16 credit hours)

- Four elective courses, to be chosen in consultation with a program advisor. Minors are encouraged to take LST 390. Minors are suggested to focus in one of the four Areas of Concentration:
  - Historical Processes and Interpretations of the Americas
  - Contemporary Transformations in the Americas
  - Cultural Studies of the Americas
  - Latina/o Studies

Study Abroad Experience

Students are strongly encouraged to participate in DePaul’s quarter abroad program in Merida, Mexico or one of the university’s other short-term study abroad programs in Latin America.

Internship Experience

Students are strongly encouraged to include an internship as part of their academic experience. Internships may be arranged with either a Latino community organization, a U.S.-based organization that focuses on Latin America, or, as part of a study abroad experience, with a public service organization in a Latin American country.

Students majoring in Latin American and Latino Studies (BA) are restricted from earning this minor.

Latino Media and Communication (Minor)

The minor in Latino Media and Communication is comprised of six courses. The minor allows students within the college and from other colleges, who have a strong interest in focusing their interest in Latino Studies, to develop them within the communication field. Students opting to pursue a minor in Latino Media and Communication may not pursue a concentration in the same subject area.

Minor Goals

The program educates students to think critically about all aspects of media and communication, with a particular focus on Latino media and...
Latino communities. Coursework will provide students with the applied skills necessary to create communication strategies which effectively reach the Latino segment of the population, based on an understanding of Latino cultures in the US and grounded in an understanding of its cultural, economic and sociological aspects.

Learning Goals
Students who complete the minor will:

- Develop an understanding of the heterogeneous and rapidly changing Latino communities locally, nationally, and globally.
- Ground their knowledge of intercultural studies within a more extensive and concrete knowledge of a particular (even though diverse), rapidly growing, and increasingly important population within the US—Latino communities.
- Increase their cross-cultural competence (understanding and ability to dialogue across difference, develop cultural sensitivity and awareness) with Latino communities.
- Develop insights into the needs and motivations of Latino populations in the workplace, in community situations, and other sites of engagement, and develop communications tools and strategies to address those needs and motivations.
- Enhance their capacity to communicate with and learn from Latino populations in the workplace, in community situations, and other sites of engagement.
- Recognize the impact of the movement of Latinos across the globe and to develop the skills to critically consume and produce media, public relations, and advertisement representations that communicate to and about Latino communities.
- Both engage and demonstrate their interest in Latino Studies within and across diverse areas of knowledge production in the Communication field.

Law (JD)

As a lawyer, you will face a unique set of challenges every day, from negotiating complex agreements to successfully arguing motions in court. That’s why DePaul University College of Law offers you theoretical instruction as well as creative approaches to professional skills training. Whether in the classroom or in the field, DePaul’s comprehensive curriculum prepares you to succeed.

As a DePaul student, you can earn academic credit by working with real clients on real cases in every type of legal environment. Through our experiential education programs, you will gain valuable first-hand experience and insight working side-by-side with distinguished faculty members and practicing attorneys.

In addition to the core Juris Doctor curriculum, you also can choose from a variety of joint degrees, graduate programs and certificate options in a number of specializations.

Program Requirements Semester Hours
Core Requirements 44
Elective Requirements 42
Total hours required 86

Learning Outcomes

Students will be able to:

- Solve legal problems by applying foundational knowledge of civil procedure, constitutional law, contracts, criminal law, property law, and torts.
- Solve legal problems by applying foundational knowledge of the rules regulating the legal profession.
- Identify and apply relevant legal authority.
- Communicate clearly in speech and writing.
Degree Requirements

Law School Full-Time Day and Evening Program Options

The College of Law has both a full-time day and an evening program option. At the end of their first year, students may change from the evening program to full-time day or vice versa by filing a program change request form with the Office of Student Affairs. The form is available on the College of Law website under Registration. Students may only change their status once while they are enrolled in law school.

Students are advised that a program change may affect their financial aid. For financial aid information, they should see a financial aid counselor in the Office of Financial Aid on the 9th floor of the DePaul Center.

Note that, after JD Day students complete their first-year required courses and after JD Evening students complete their first three semesters of required courses, students may take day or evening courses, regardless of the student's program.

Credit Hour Requirements

Graduation with a JD requires that the student complete 86 credit hours. Under the College of Law's semester system, one credit hour is granted for 50 minutes of classroom or direct faculty instructional time per week, multiplied by 15, and at least 120 minutes of additional out-of-class student work each week, or an equivalent amount of work for other courses and activities, multiplied by 15. The standard course extends over a fourteen-week semester, followed by a final examination period. Courses or other credit-bearing activities that occur over a different time period must incorporate the same total amount of instructional time and additional assigned work per credit hour as a standard course. At a minimum, students must complete 42.5 hours for 1 unit of credit; 85 hours for 2 units of credit; 127.5 hours for 3 units of credit; and 170 hours for 4 units of credit.

Credit is earned if a student receives an A through a D, or PA grade.

Time to Degree Limitation

JD Day students are expected to complete the degree in three years. JD Evening students are expected to complete the degree in four years. The maximum time to complete the JD program, if a student takes an approved leave of absence, is five years. Students who are unable to complete the degree within this time frame are required to confer with the Assistant Dean for Student Affairs in the College of Law. Pursuant to the American Bar Association Standards of Accreditation, all JD students must complete their degree no later than 84 months after commencing law study.

Maximum and Minimum Credit Hours

First-year JD Day students take 14-15 credit hours per semester. First-year JD Evening students take 9-10 credit hours per semester.

Upper level JD Day students may register for a maximum of 16 credit hours per semester. After their third semester, JD Evening students may register for a maximum of 12 credit hours per semester.

JD Day students must take a minimum of 12 credit hours per semester except that JD Day graduating seniors in their final semester need only take the number of credit hours necessary for them to graduate. JD Evening students must register for a minimum of 9 credit hours per semester except that graduating seniors need only take the number of credit hours necessary for them to graduate.

No Credit for Course Work Taken Prior to Matriculation in the JD Program

The American Bar Association Standards provide that credit for a JD degree shall only be given for course work taken after the student has matriculated in a law school. A law school may not grant credit toward the JD degree for work taken in a pre-admission program.

Experiential Education Requirement

Students must complete at least six credit hours of experiential education courses from the list of approved courses below. Most, but not all, courses are offered for three credit hours. JD students who matriculated prior to Autumn 2016 can choose to take only one professional skills course in lieu of the Experiential Education Requirement (see the Catalog Archive for applicable courses).

**Electives**

Elective courses are open to all students who meet the prerequisites for the course in question. For information on specializations, see the section on Certificates.

**Credit Hour Limitations**

**Non-Classroom Credit Hours: 12-Credit Limit**

With the exception of students enrolled in the Third Year in Practice (3YP) program, a JD student may earn a maximum of 12 credit hours for non-classroom (indirect instruction) courses. Courses that count toward the 12-credit non-classroom limit include the following:

<table>

</table>

**Distance Education Credit Limit**

American Bar Association rules specify that JD students may earn a maximum of 28 credit hours toward the JD degree for distance education courses. The College of Law offers both fully online and hybrid courses. A hybrid course is a course in which some, but not all, of the instructional time is online. All fully-online courses, and some hybrid courses, qualify under the ABA rule as distance education courses.

**Third Year in Practice (3YP) Program**

The Third Year in Practice Program (3YP) provides qualifying students with a unique third-year experience engaging in the actual and simulated practice of law. Students admitted to the 3YP program are required to complete 24 credit hours of experiential courses, including an Intensive Field Placement of 5-9 credit hours and the Third Year in Practice Seminar. In addition, students will be able to choose from an array of professional skills, practicum, legal drafting and clinic courses to create a fully immersive third year in practice.

### Joint Degree Requirements

The College of Law offers the following joint degree programs:

- JD/MBA (with Kellstadt Graduate School of Business)
- JD/MS in Public Service Management (with the College of Liberal Arts & Social Science's School of Public Service)
- JD/MA in International Studies (with the College of Liberal Arts & Social Science)
- JD/MS in Computer Science Technology (with the College of Computing and Digital Media)

#### Requirements

A joint degree program allows a student to complete two graduate degrees concurrently in less time than it takes to finish each program individually. As a specified number of credit hours apply toward both degrees, students also pay less in overall tuition by combining programs.

Before beginning a joint degree program, both full-time and part-time law students must complete the required first-year curriculum and achieve a minimum grade point average of 3.00 in those courses. Full-time students earn 29 credits the first year, while part-time students must earn at least 29 credits within the first three semesters of the law program.

Traditional JD students must complete 86 credit hours to graduate from the College of Law. However, under a joint degree program, a student earns the JD degree after completing a minimum of 76 credit hours. The College of Law applies up to 10 credits toward the JD degree for work completed in the other graduate degree program. Credit hours are eligible to be applied only after completion of the required first year JD curriculum described above. A joint degree student may not receive credit for courses that create a redundancy in coursework.

For additional requirements, please visit the pages for the corresponding degrees.

### Admission

Students seeking a joint degree with a college outside of the College of Law must independently apply and be admitted to the other graduate degree program. Full-time law students typically apply to the other graduate program in the summer prior to their second year of law school. Part-time law students typically apply to the other graduate degree program in the spring semester of their second year.

After admission to the other graduate program, joint degree applicants should submit a copy of the acceptance letter and law school transcript to the Associate Dean for Student Affairs at the College of Law. The transcript and acceptance letter should be accompanied by a cover letter from the student requesting that the student’s classification be changed from Juris Doctor candidate to candidate for the appropriate joint degree. The letter should include the student’s full name, student identification number, mailing address, email address and phone number. The joint degree candidate should also schedule a meeting with the appropriate adviser in the other college to which the student has been admitted to discuss the curriculum.

#### Combined Credits and Expenses

Full-time joint degree students generally complete the program in four years. Part-time applicants generally complete the joint degree program in five years. A student may accelerate the program by taking classes in the summer or by taking more courses during the academic year. By doing so, a student may complete both programs one-half year earlier.

Once enrolled in a joint degree program, students no longer pay the College of Law package tuition; instead, students pay by the credit hour for law classes and classes taken in the other program.

#### Grading Standards

Joint degree students must meet the grading standards of the College of Law and the respective graduate degree program in order to remain in good standing. Grades are recorded on the transcript under the college in which the courses are taken, and the combined degree is recorded after graduation. Students who are dismissed from either program may be able to continue studies in the other program. Students must satisfy the normal program requirements of the other school to receive the degree; no double counting of credits is permitted after a dismissal from one college.

#### Leaves of Absence/Withdrawal

Students must receive permission from both colleges to take a leave of absence from the joint degree program or to withdraw from the joint degree program. A leave of absence is granted for a maximum of one year. If a student does not enroll in classes after one year, he or she will be permanently withdrawn from both programs and only may re-enroll by applying to the admission offices of both colleges as a new student.

#### Graduation

To receive the joint degree, a student must graduate from both schools on the same date, in the same semester/quarter and in the same year. Double counting of credits occurs only after concurrently completion of both programs.

For a December graduation, all requirements must be completed at the end of the fall semester and fall quarter. For a spring graduation, all non-law requirements must be completed at the end of the spring quarter and all law requirements at the end of the spring semester. A student will not be eligible to graduate, cannot be certified for admission to the Bar, and cannot sit for the bar examination until all degree requirements are met.
Arts and Museum Law Certificate, Law (JD)

To earn a Certificate in Intellectual Property: Arts and Museum Law, a student must complete the 86 semester hours required for the Juris Doctor degree and satisfy all JD requirements. Within the elective course work required for the JD degree, a student must complete at least 15 credit hours from the listed courses and seminars and earn a minimum GPA of 3.20 in the Certificate courses. If a student takes more than one of the non-core elective courses listed below, the student can select which course will count towards the certificate, and the grade in that course will be subject to the minimum 3.20 GPA requirement. Students may apply for only one Certificate.

Previously taught courses, courses offered in other DePaul Colleges, and new courses and seminars that may be added to the curriculum may qualify for the Certificate with approval. In addition, with approval, students may substitute a different writing seminar or a three-credit independent study for the required writing assignment.

Academic credits received from law school journals, including the Journal of Art, Technology and Intellectual Property Law, do not count toward the credits required for the Certificate.

For more information, contact Faculty Certificate Director for Art and Museum Law, Patty Gerstenblith.

Business Law Certificate, Law (JD)

To earn a Certificate in Business Law, a student must complete the 86 credits required for the Juris Doctor degree and satisfy all JD requirements. Within the coursework required for the JD degree, a student must complete 15 credit hours from the listed business law courses, including one required course. An applicant must earn a minimum GPA of 3.20 in the Certificate courses.

If a student takes more than 15 hours of courses from the approved list, all grades earned in those courses will be factored into the minimum 3.20 GPA requirement for the Certificate.

Students may apply for only one Certificate.

Previously taught courses, courses offered in other DePaul Colleges, and new courses and seminars that may be added to the curriculum may qualify for the Certificate with approval.

### Family Law Certificate, Law (JD)

To earn a Certificate in Family Law, a student must complete the 86 semester hours required for the Juris Doctor degree and satisfy all JD requirements. Within the elective course work required for the JD degree, a student must complete 15 credit hours from the courses listed below, including two required courses and at least three elective courses.

An applicant must achieve a minimum 3.0 GPA in certificate courses. If a student takes more than 15 hours of courses from the approved list, a student must complete 15 credit hours from the listed criminal law courses, including three required courses.

An applicant must earn a minimum GPA of 3.00 in the Certificate courses. If a student takes more than 15 hours of courses from the approved list, all grades earned in those courses will be factored into the minimum 3.00 GPA requirement for the Certificate.

Previously taught courses, courses offered in other DePaul Colleges, and new courses and seminars that may be added to the curriculum may qualify for the Certificate with approval.

Students may apply for only one Certificate.

For more information, contact Faculty Certificate Director for Criminal Law, Monu Bedi.
all grades earned in those courses will be factored into the minimum 3.0 GPA requirement for the Certificate.

### General Intellectual Property Certificate, Law (JD)

To earn a Certificate in Intellectual Property, a student must complete the 86 credit hours required for the Juris Doctor degree and satisfy all JD requirements. Within the elective course work required for the JD degree, a student must complete at least 15 credit hours from the listed courses and seminars and earn a minimum GPA of 3.20 in the Certificate courses.

If a student takes more than 15 hours of courses from the approved list, all grades earned in those courses will be factored into the minimum 3.20 GPA requirement for the Certificate. Students may apply for only one Certificate.

Previously taught courses, courses offered in other DePaul Colleges, and new courses and seminars that may be added to the curriculum may qualify for the Certificate with approval.

Academic credits received from law school journals, including the *Journal of Art, Technology and Intellectual Property Law*, do not count toward the credits required for the Certificate.

For more information, contact Certificate Directors for Intellectual Property, Joshua Sarnoff and Ellen Gutiontov.

### Health Care Compliance Certificate, Law (JD)

To earn a Health Care Compliance Certificate, a student must complete the 86 credit hours required for the Juris Doctor and must satisfy all JD requirements. Within the coursework required for the JD degree, a student must complete 15 credit hours from the listed health law courses, including two required courses and at least three electives.

An applicant must earn a minimum GPA of 3.00 in the Certificate courses. If a student takes more than 15 hours of courses from the approved list, all grades earned in those courses will be factored into the minimum 3.00 GPA requirement for the Certificate.

Previously taught courses, courses offered in other DePaul Colleges, and new courses and seminars that may be added to the curriculum may qualify for the Certificate with approval.

A student may apply for only one Certificate.

To be certified to sit for the CCB compliance exams, students must earn 15 credit hours from the health care compliance courses listed below and meet all other JD, LLM or MJ degree requirements. A minimum GPA of 3.00 at graduation is required by the CCB.

For more information, contact Certificate Directors for Health Law, Wendy Epstein and Kate Schostok.

Patent Law Certificate, Law (JD)

To earn a Certificate in Patent Law, a student must complete the 86 credit hours required for the Juris Doctor degree and satisfy all JD requirements. Within the elective course work required for the JD degree, a student must complete at least 15 credit hours from the listed courses and seminars and earn a minimum GPA of 3.20 in the Certificate courses. If a student takes more than 15 hours of courses from the approved list, all grades earned in those courses will be factored into the minimum 3.20 GPA requirement for the Certificate. Students may apply for only one Certificate.
Previously taught courses, courses offered in other DePaul Colleges, and new courses and seminars that may be added to the curriculum may qualify for the Certificate with approval.

Academic credits received from law school journals, including the Journal of Art, Technology and Intellectual Property Law, do not count toward the credits required for the Certificate.

For more information, contact the Certificate Directors for Patent Law, Anthony Volini and Ellen Gutiontov.

Tax Law Certificate, Law (JD)

To earn a Certificate in Tax Law, a student must complete the 86 credit hours required for the Juris Doctor degree and satisfy all JD requirements. Within the course work required for the JD degree, a student must complete 15 credit hours from the listed taxation courses, including three required courses and at least two elective courses.

An applicant must earn a minimum GPA of 3.20 in the Certificate courses.

If a student takes more than 15 hours of courses from the approved list, all grades earned in those courses will be factored into the minimum 3.20 GPA requirement for the Certificate.

Previously taught courses, courses offered in other DePaul Colleges, and new courses and seminars that may be added to the curriculum may qualify for the Certificate with approval.

Students may apply for only one Certificate.

For more information, contact Faculty Certificate Director for Tax Law, Emily Cauble.

Law (MJ)
DePaul's Master of Jurisprudence (MJ) program is specifically designed for professionals who do not seek to practice law but who encounter legal issues in their work and would benefit from a sophisticated and nuanced understanding of legal reasoning and doctrine. With such specialized legal knowledge, MJ graduates stand out as professionals who can effectively and comfortably communicate with legal counsel and can assess the needs of their organizations as the laws and regulations change in their professions.

A great variety of professionals would benefit from the MJ credential to enhance their current positions or to advance within their organizations. Examples include:

- Doctors, nurses, public health workers and other health care administrators
- Patent and trademark assistants, engineers and other technology-related professionals
- Compliance professionals
- Contract analysts
- Business executives, supervisors, managers and entrepreneurs
- Risk and quality assurance managers
- Financial and estate planners and other investment advisors
- Tax specialists, accountants and CPAs
- Policy makers, lobbyists and government regulators
- Nonprofit professionals
- Development officers
- Journalists
- Librarians and educators
- Real estate professionals
- Human resource and employee benefits professionals
- Mediators and labor and employment negotiators
- Police officers, social workers and psychologists

Through the program, MJ students gain general and specialized legal knowledge related to their areas of interest. Students learn the process of legal analysis by examining cases, laws and regulations. They develop the abilities to conduct effective and relevant legal research as well as to communicate clearly and analytically. Students also acquire the ability to think critically about legal issues and correctly apply current legal authority.

Learning Outcomes
Students will be able to:

- Identify structures of the U.S. legal system and government institutions.
- Demonstrate understanding of how a common law system operates in a constitutional democracy.
- Demonstrate basic knowledge of the legal rules and policies in the student's area of specialization.
- Identify and apply relevant legal authority.
- Communicate clearly in speech and writing.

Degree Requirements
Credit Requirements
The MJ is a 30-credit hour degree program that can be completed in one and a half years of full-time study or in up to six years of part-time study. MJ students choose courses directly from the College of Law's extensive curriculum. MJ students with significant, relevant work experience may apply for a waiver of up to six credit hours, for a total degree requirement of 24 credit hours. Students must be able to demonstrate substantial professional experience of at least 12 months' duration in a relevant field of interest to qualify.

Credits earned as part of the MJ degree program are not transferable to the JD degree. Students who graduate with an MJ degree are not eligible to sit for the bar exam or to become licensed attorneys.

Enrollment Classifications and Time to Degree Completion
For MJ students a nine semester hour course load is considered full-time (6 semester hours for summer study). A six semester course load is considered half-time (3 hours for summer study). MJ students may opt to take only one course per term.

Students who are unable to complete the MJ degree within six years are required to confer with the Associate Dean for Student Affairs in the College of Law.

Grades and Good Standing
To be considered in good standing at the College of Law, MJ students must have a cumulative GPA of 2.00 over three semesters. Grades received in the Summer session are not included in a student’s GPA for the prior academic year. MJ students are not included in the grade curve that applies to JD students.

Course Requirements
At the time of application MJ students select a specialized course of legal study, and upon completion of the program they earn a concentration in the selected area, which is designated on their final transcript. All MJ students complete two required foundational courses in American law.

Required Foundational Courses

Domestic Students

Master of Laws (LLM)

Learning Outcomes

Law - Joint Degree (JD + LLM)

DePaul's JD+LLM (Juris Doctor + Master of Laws) program gives students the opportunity to develop specialized knowledge in specific areas of law. Students can simultaneously earn a JD and an LLM, an internationally recognized postgraduate law degree, in one of four areas of concentration: Health Law, Intellectual Property Law, International Law or Taxation. The JD+LLM program is designed to provide advanced training through a personalized educational experience. Students are permitted to apply nine credit hours of qualifying courses toward both degrees, allowing them to complete both degrees in three years with summer enrollment. Students can apply to the JD+LLM program prior to starting the JD program or at any time during their JD program.

Open Electives

Students complete the remaining credit hours for the MJ degree by taking additional Criminal Law elective courses, by choosing courses from the current College of Law course catalog, or by enrolling in a combination of both.

International Students

Students will be able to:

• Identify structures of the U.S. legal system and government institutions.
• Demonstrating understanding of how a common law system operates in a constitutional democracy.
• Demonstrate advanced knowledge of the legal rules and policies in the student’s area of specialization.
• Identify and apply relevant legal authority.
• Communication clearly in speech and writing.

Degree Requirements

Admission Requirements

Students may apply for admission to the Joint JD+LLM Program at the time of application to the JD Program (Direct Admission) or at any time prior to the last semester of the completion of the JD Program. Students applying for Direct Admission to the Joint JD+LLM Program must check the appropriate box on the JD application and submit the required essay.

Applicants admitted directly to the JD+LLM Program must achieve a minimum GPA of 2.80 at the end of their first academic year to continue their enrollment as a JD+LLM student. Students who do not meet the minimum GPA will continue their enrollment as a JD student provided they meet the requirements of that program. These students may reapply for admission to the JD+LLM Program after raising their cumulative GPA to 2.80 or higher.

College of Law students enrolled in the JD Program may apply for admission to the JD+LLM Program at any time prior to completion of the JD Program. Applicants must have a minimum cumulative GPA of 2.80 and submit the joint JD+LLM application form and required essay indicating their reason(s) for applying to the program. The application, essay, and resume should be submitted to the Office of Admissions. Upon admission, the student will receive a letter of admission to the JD+LLM Program and the student’s program/plan will be changed to JD+LLM.

JD students admitted to the Joint JD+LLM Program in their final year may not be able to complete all program requirements within three years. Students electing to delay their anticipated JD program degree conferral for an additional semester to complete the requirements of the LLM will not receive certification to sit for the bar examination until the end of the semester in which they receive the Joint JD+LLM degree.

Credit and Program Requirements

JD+LLM students must complete all program requirements of the JD Program and the specific LLM Program to which they have been admitted. Traditional JD students must complete 86 semester hours. Traditional LLM students must complete 24 semester hours after earning a JD degree. Students admitted to the joint program will be permitted to simultaneously apply 9 semester hours of qualifying courses toward both degrees. Therefore, in addition to the 86 hours required to earn the JD, Joint JD+LLM students must earn 15 semester hours to complete the LLM. With Summer enrollment, the JD+LLM may be completed in three years. JD students electing to enter the combined program in their final year who are not able to satisfy the credit requirements or complete the required courses for their LLM will enroll in an additional semester at the College of Law in order to complete the LLM requirements.

Students completing the course requirements for the JD+LLM must have a minimum grade point average (GPA) of 2.5 in order to earn the JD+LLM.
Students who complete all required coursework with a GPA below 2.5, but at or above the minimum 2.00 GPA required to earn the JD, will be awarded the JD and a certificate in the area of their LLM coursework.

To receive the joint degree, students must complete the requirements of both degrees in the same semester and in the same academic year. Credits that can be applied to both degrees will be applied only after the student concurrently completes both programs. A student who graduates from the JD Program without having been admitted to the Joint JD +LLM Program prior to graduation must apply for traditional admission to the LLM Program and complete the 24 semester hours required for graduation.

**Law/Business - Joint Degree (JD/MBA)**

Offered jointly with DePaul’s Kellstadt Graduate School of Business, the JD+MBA recognizes the growing complexity of business organizations and the increasing interaction of management and the law. The program integrates several functional areas of law and business and emphasizes the contributions each makes to the development of administrative competence.

With more than 60 years of experience in educating working professionals, the DePaul MBA program is accredited by AACSB International—the premier accreditation body for business schools—and is respected throughout Chicago, the United States and the world. Because the business world demands more cross-functional knowledge than ever, the program offers students a well-rounded curriculum of business administration with 30 concentrations in the area of their choice. The program also allows students to pursue multiple concentrations, providing them with an individualized and customized MBA experience.

Traditional MBA students must complete 72 credit hours to receive the degree. However, under the joint degree program, they are required to complete a minimum of 56 credit hours. The Kellstadt Graduate School of Business will accept up to 16 credit hours for work completed in the College of Law. Traditional JD students must complete 86 credit hours to graduate from the College of Law. However, under the joint degree program, a student earns the JD degree after completing a minimum of 76 credit hours. The College of Law applies up to 10 credits toward the JD degree for work completed in the Kellstadt Graduate School of Business. Credit hours are eligible to be applied only after completion of the required first year JD curriculum described above. A joint degree student may not receive credit for courses that create a redundancy in coursework.

In addition to the core requirements, specific courses are required for the various MBA concentrations. Please refer to the Kellstadt Graduate School of Business catalog for complete program requirements.

**Combined Credits and Expenses**

Full-time joint degree students generally complete the program in four years. Part-time applicants generally complete the joint degree program in five years. A student may accelerate the program by taking classes in the summer or by taking more courses during the academic year. By doing so, a student may complete both programs one-half year earlier.

**Learning Outcomes**

Students will be able to:

- Solve legal problems by applying foundational knowledge of the rules regulating the legal profession.
- Identify and apply relevant legal authority.
- Communicate clearly in speech and writing.
- Demonstrate the fundamental professional lawyering skills for competent and ethical participation as a member of the legal profession.

**Degree Requirements**

**Requirements**

A joint degree program allows a student to complete two graduate degrees concurrently in less time than it takes to finish each program individually. As a specified number of credit hours apply toward both degrees, students also pay less in overall tuition by combining programs.

Before beginning a joint degree program, both full-time and part-time law students must complete the required first-year curriculum and achieve a minimum grade point average of 3.00 in those courses. Full-time students earn 28 credits the first year, while part-time students must earn at least 28 credits within the first three semesters of the law program.

Traditional MBA students must complete 72 credit hours to receive the degree. However, under the joint degree program, they are required to complete a minimum of 56 credit hours. The Kellstadt Graduate School of Business will accept up to 16 credit hours for work completed in the College of Law. Traditional JD students must complete 86 credit hours to graduate from the College of Law. However, under the joint degree program, a student earns the JD degree after completing a minimum of 76 credit hours. The College of Law applies up to 10 credits toward the JD degree for work completed in the Kellstadt Graduate School of Business. Credit hours are eligible to be applied only after completion of the required first year JD curriculum described above. A joint degree student may not receive credit for courses that create a redundancy in coursework.

**Admission**

Students seeking a joint degree with a college outside of the College of Law must independently apply and be admitted to the other graduate degree program. Full-time law students typically apply to the other graduate program in the summer prior to their second year of law school. Part-time law students typically apply to the other graduate degree program in the spring semester of their second year.

After admission to the other graduate program, joint degree applicants should submit a copy of the acceptance letter and law school transcript to the Assistant Dean for Student Affairs at the College of Law. The transcript and acceptance letter should be accompanied by a cover letter from the student requesting that the student’s program be changed from Juris Doctor to the appropriate joint degree. The letter should include the student’s full name, student identification number, mailing address, email address and phone number. The joint degree candidate should also schedule a meeting with the appropriate adviser in the other college to which the student has been admitted to discuss the curriculum.
Once enrolled in a joint degree program, students no longer pay the College of Law package tuition; instead, students pay by the credit hour for law classes and classes taken in the other program.

Grading Standards

Joint degree students must meet the grading standards of the College of Law and the respective graduate degree program in order to remain in good standing. Grades are recorded on the transcript under the college in which the courses are taken, and the combined degree is recorded after graduation. Students who are dismissed from either program may be able to continue studies in the other program. Students must satisfy the normal program requirements of the other school to receive the degree; no double counting of credits is permitted after a dismissal from one college.

Leaves of Absence/Withdrawal

Students must receive permission from both colleges to take a leave of absence from the joint degree program or to withdraw from the joint degree program. A leave of absence is granted for a maximum of one year. If a student does not enroll in classes after one year, he or she will be permanently withdrawn from both programs and only may re-enroll by applying to the admission offices of both colleges as a new student.

Graduation

To receive the joint degree, a student must graduate from both schools on the same date, in the same semester/quarter and in the same year. Double counting of credits occurs only after concurrently completion of both programs. For a December graduation, all requirements must be completed at the end of the fall semester and fall quarter. For a spring graduation, all non-law requirements must be completed no later than the end of the spring quarter and all law requirements no later than the end of the spring semester. A student will not be eligible to graduate, cannot be certified for admission to the Bar, and cannot sit for a bar examination until all requirements are met for both degree programs.

Law/Computer Science - Joint Degree (JD/MS)

The primary goal of the joint degree JD+MS program at DePaul University College of Law and DePaul University College of Computing and Digital Media (CDM) is to prepare students for successful legal and related careers in industry, government, and other institutions that develop innovations, engage in electronic commerce, employ information technologies, and manage and protect information and data. A critical need exists for attorneys in a wide range of fields involving software development, high-technology innovations, information processing, internet and telecommunications services, digital-content, and more. Lawyers are needed to provide advice, counseling, and litigation services regarding the acquisition of and licensing of intellectual property rights; the assertion and defense of such rights; regulations governing the use, protection and preservation of information; and contractual and business practices in the high-tech sector. Graduates who have a substantive understanding of legal and technological issues regarding e-commerce, information technologies, e-discovery, computational finance, network security, digital media, or related computer science fields will have a substantial advantage in obtaining and flourishing in such positions.

Graduates with the joint degree will be better prepared to be drafters, negotiators, and litigators when seeking to obtain and protect inventions, trademarks, analog and digital creations, internet websites, and domain names; advisors concerning licensing, reverse engineering, or reusing computer software, expressive, or functional media; and managers when developing policies governing the acquisition, preservation and dissemination of information for their clients and within their own institutions.

The joint JD+MS program allows students to obtain dual degrees in both law and computer science fields with only one additional year of study beyond the regular JD program and with a minimum of additional expense. The program is designed for all students who wish to deepen their technical expertise while also obtaining a law degree.

Some of the students completing the joint JD+MS degree will seek to become members of the patent bar. There are also many opportunities (including as patent litigators and licensors) for graduates who either lack the scientific or technical background required to qualify for the patent bar exam or lack the desire to practice patent law. (Membership in the patent bar is required only to file and prosecute patent applications in the United States Patent and Trademark Office; it is not a general requirement for patent law practice.) The MS in Computer Science does not itself provide a degree that currently qualifies students to take the patent bar exam, but may provide relevant course work toward fulfilling eligibility requirements. (Applicants are advised to consult the U.S. Patent and Trademark Office’s General Requirements Bulletin (https://www.uspto.gov/sites/default/files/OED_GRB.pdf).)

Graduation

Students will be able to:

• Solve legal problems by applying foundational knowledge of civil procedure, constitutional law, contracts, criminal law, property law, and torts.
• Solve legal problems by applying foundational knowledge of the rules regulating the legal profession.
• Identify and apply relevant legal authority.
• Communicate clearly in speech and writing.
• Demonstrate the fundamental professional lawyering skills for competent and ethical participation as a member of the legal profession.

Degree Requirements

The following rules apply to this joint degree:

• Students may substitute up to 16 CDM credit hours for up to 10 of the 86 required law semester hours, reducing their law course requirements to 76 semester hours. However, students cannot substitute CDM credit hours for required courses in the College of Law, such as Legal Profession or Advanced Writing Requirement courses.
• Only CDM courses taken after enrollment in the College of Law may be substituted for law courses.
• Students may substitute up to 8 law semester hours for up to 3 CDM master’s degree courses, reducing their CDM course requirements to 10 courses plus any necessary introductory courses.
• Students must graduate from both schools on the same date, in the same semester/quarter, and in the same year. Double counting of credit hours occurs only after the student concurrently completes both degree programs. Students should consult with both degree advisors regarding any questions about coordinating the completion of the two degrees.
• Students must adhere to CDM introductory course grade requirements as specified for their CDM major.
• Students also adhere to CDM grade and GPA requirements as specified for their CDM major in all CDM courses beyond the introductory courses.
• CDM requires that students must maintain a GPA of 2.50 or higher while pursuing their joint degrees.

Graduation Requirements
The joint degree candidate must complete all CDM requirements at the end of the fall quarter and all law requirements at the end of the fall semester to be eligible for a December degree award. Students who plan to graduate in May must complete their CDM coursework by the end of the spring quarter and their law requirements by the end of the spring semester to be eligible for a spring degree award. Students cannot be certified for admission to the Bar and sit for the bar exam until all degree requirements are completed for both degrees.

Course Requirements
Full-time students must complete the regular first year JD program with a minimum GPA of 3.0 before being admitted to the Joint Degree. Part-time students must complete at least three law semesters with a minimum GPA of 3.0 before being admitted to the Joint Degree. The second and third years provide some flexibility to tailor a student’s program. For example, students might take three law courses in the Fall Semester and two law courses in the Spring Semester, while taking one CDM course in the Fall Quarter, two CDM courses in the Winter Quarter, and two CDM courses in the Spring Quarter. The fourth year might consist of three law courses in the Fall Semester, one CDM course in the Fall Quarter, three CDM courses in the Winter Quarter, and three CDM courses in the Spring Quarter.

This schedule allows for completion of the JD as well as completion of 14 CDM courses (the MS program plus four prerequisite courses) in four years. It is possible that, because of prerequisite coursework, the program may take some students more than four years. Since each student will require a different number of CDM introductory courses and each student will select courses based on semester/quarter availability, any particular curriculum might be different from the above-described curriculum. Students are encouraged to select courses with the assistance of the program advisors at both the College of Law and CDM.

CDM Requirements for an MS Degree
For the CDM portion of the joint degree, students may major in:

• Computer Science
• Cybersecurity
• E-Commerce Technology
• Information Systems
• Network Engineering and Security

Each program listed above follows the requirements as listed on the page for that major. These requirements are divided into phases. Upon completion of the major requirements, each student will move to the Elective Phase as described below.

Students with a GPA of 3.9 or higher will graduate from CDM with distinction.

College of Law Certificate Programs
In addition to the Joint Degree, students may obtain one of the Certificates offered by the College of Law, providing that they have met the requirements for the Certificate.

For DePaul's policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook.

Elective Phase
Students must complete 12 additional graduate quarter hours fulfilled by courses from the IP Certificate. These courses will also be counted toward the JD degree.

Law/International Studies - Joint Degree (JD/MA)

The JD/MA in International Studies with the College of Liberal Arts & Social Sciences (LAS) provides you with knowledge of the political, economic and cultural environment in which international law is developing. Structured around international political economy and global culture, the program is particularly appropriate for law students with strong foreign language or social science backgrounds who wish to pursue careers as international legal specialists.

To be accepted to the joint degree program, students must complete at least 29 credits in the College of Law with a minimum grade point average of 3.00. They apply to the LAS graduate program after their first semester in law school.

Traditional JD students must complete 86 credit hours to graduate from the College of Law. However, under a joint degree program, a student earns the JD degree after completing a minimum of 76 credit hours. The College of Law applies up to 10 credits toward the JD degree for work completed in the other graduate degree program. Traditional international studies students must complete 48 credit hours to receive the MA degree. However, under the joint degree program, you are required to complete a minimum of 36 credit hours. The Graduate College of Liberal Arts & Social Sciences will accept up to 12 hours of credit for work completed in the College of Law. A joint degree student may not receive credit for courses that create a redundancy in coursework.

Learning Outcomes

JD Learning Outcomes
Students will be able to:
• Solve legal problems by applying foundational knowledge of civil procedure, constitutional law, contracts, criminal law, property law, and torts.
• Solve legal problems by applying foundational knowledge of the rules regulating the legal profession.
• Identify and apply relevant legal authority.
• Communicate clearly in speech and writing.
• Demonstrate the fundamental professional lawyering skills for competent and ethical participation as a member of the legal profession

MA Learning Outcomes:
Students will be able to:
• Analyze the multiple ways in which inequality and oppression work and strategize for social change.
• Work with different partners in order to produce collaborative intellectual work.
• Develop socially responsible ethical frameworks that are informed by historical consciousness of transnational contexts.
• Examine the linkages between theory and practice, scholarship and activism, research and public policy in the field of International Studies.
• Carefully read texts, research independently, and write clearly.

A joint degree program allows a student to complete two graduate degrees concurrently in less time than it takes to finish each program individually. As a specified number of credit hours apply toward both degrees, students also pay less in overall tuition by combining programs.

Before beginning a joint degree program, both full-time and part-time law students must complete the required first-year curriculum and achieve a minimum grade point average of 3.00 in those courses. Full-time students earn 29 credits the first year, while part-time students must earn at least 29 credits within the first three semesters of the law program.

Traditional JD students must complete 86 credit hours to graduate from the College of Law. However, under a joint degree program, a student earns the JD degree after completing a minimum of 76 credit hours. The College of Law applies up to 10 credits toward the JD degree for work completed in the other graduate degree program. Traditional international studies students must complete 48 credit hours to receive the MA degree. However, under the joint degree program, you are required to complete a minimum of 36 credit hours. The Graduate College of Liberal Arts & Social Sciences will accept up to 12 hours of credit for work completed in the College of Law. For completion of the JD/MA degree students must meet all criteria for completion of the JD and the MA while taking a minimum of five international law electives in the College of Law. In addition, students must complete a year-long six course core sequence in International Studies. Finally, students complete a three quarter 12-credit sequence in International Studies leading to completion of an MA thesis.

Admission
Students seeking a joint degree with a college outside of the College of Law must independently apply and be admitted to the other graduate degree program. Full-time law students typically apply to the other graduate program in the summer prior to their second year of law school. Part-time law students typically apply to the other graduate degree program in the spring semester of their second year.

After admission to the other graduate program, joint degree applicants should submit a copy of the acceptance letter and law school transcript to the Assistant Dean for Student Affairs at the College of Law. The transcript and acceptance letter should be accompanied by a cover letter from the student requesting that the student’s program be changed from Juris Doctor to the appropriate joint degree program. The letter should include the student’s full name, student identification number, mailing address, email address and phone number. The joint degree candidate should also schedule a meeting with the appropriate adviser in the other college to which the student has been admitted to discuss the curriculum.

Combined Credits and Expenses
Full-time joint degree students generally complete the program in four years. Part-time applicants generally complete the joint degree program in five years. A student may accelerate the program by taking classes in the summer or by taking more courses during the academic year. By doing so, a student may complete both programs one-half year earlier.

Once enrolled in a joint degree program, students no longer pay the College of Law package tuition; instead, students pay by the credit hour for law classes and classes taken in the other program.

Grading Standards
Joint degree students must meet the grading standards of the College of Law and the respective graduate degree program in order to remain in good standing. Grades are recorded on the transcript under the college in which the courses are taken, and the combined degree is recorded after graduation. Students who are dismissed from either program may be able to continue studies in the other program. Students must satisfy the normal program requirements of the other school to receive the degree; no double counting of credits is permitted after a dismissal from one college.

Leaves of Absence/Withdrawal
Students must receive permission from both colleges to take a leave of absence from the joint degree program or to withdraw from the joint degree program. A leave of absence is granted for a maximum of one year. If a student does not enroll in classes after one year, he or she will be permanently withdrawn from both programs and only may re-enroll by applying to the admission offices of both colleges as a new student.

Graduation
To receive the joint degree, a student must graduate from both schools on the same date, in the same semester/quarter and in the same year. Double counting of credits occurs only after concurrently completion of both programs.

For a December graduation, all requirements must be completed at the end of the fall semester and fall quarter. For a spring graduation, all non-law requirements must be completed at the end of the spring quarter and all law requirements at the end of the spring semester. A student will not be eligible to graduate, cannot be certified for admission to the Bar, and cannot sit for bar examinations until all degree requirements are met and degrees conferred.

Law/Public Service - Joint Degree (JD/MS)
Offered jointly with the College of Liberal Arts & Social Sciences School of Public Service, the JD+MS in Public Service Management promotes
Effective management of nonprofit organizations and government agencies and fosters development of sound public policies affecting the delivery of social services. The program is interdisciplinary and draws primarily on the areas of sociology, economics, political science, law and the human service professions, carefully balancing theoretical and applied approaches to contemporary challenges of administration and policy analysis. Following the tradition of St. Vincent de Paul, the Public Services Management program devotes special attention to policies and practices that promote social equality through delivery of affordable, quality services to those in greatest need.

Traditional JD students must complete 86 credit hours to graduate from the College of Law. However, under a joint degree program, a student earns the JD degree after completing a minimum of 76 credit hours. The College of Law applies up to 10 credits toward the JD degree for work completed in the other graduate degree program. Traditional public service management students must complete 52 hours to receive the MS degree. However, under the joint degree program, students are required to complete a minimum of 36 credit hours. The Public Service Management program will accept up to 16 hours of credit for work completed in the College of Law. A joint degree student may not receive credit for courses that create a redundancy in coursework.

In addition to the core requirements, specific courses are required for the various public service management concentrations. Please visit the Public Service Management catalog for complete program requirements.

### Learning Outcomes

Students will be able to:

- Solve legal problems by applying foundational knowledge of civil procedure, constitutional law, contracts, criminal law, property law, and torts.
- Solve legal problems by applying foundational knowledge of the rules regulating the legal profession.
- Identify and apply relevant legal authority.
- Communicate clearly in speech and writing.
- Demonstrate the fundamental professional lawyering skills for competent and ethical participation as a member of the legal profession.

### Degree Requirements

A joint degree program allows a student to complete two graduate degrees concurrently in less time than it takes to finish each program individually. As a specified number of credit hours apply toward both degrees, students also pay less in overall tuition by combining programs.

Before beginning a joint degree program, both full-time and part-time law students must complete the required first-year curriculum and achieve a minimum grade point average of 3.00 in those courses. Full-time students earn 29 credits the first year, while part-time students must earn at least 29 credits within the first three semesters of the law program.

Traditional JD students must complete 86 credit hours to graduate from the College of Law. However, under a joint degree program, a student earns the JD degree after completing a minimum of 76 credit hours. The College of Law applies up to 10 credits toward the JD degree for work completed in the other graduate degree program. Traditional public service management students must complete 52 hours to receive the MS degree. However, under the joint degree program, students are required to complete a minimum of 36 credit hours. The Public Service Management program will accept up to 16 hours of credit for work completed in the College of Law. Credit hours are eligible to be applied only after completion of the required first year JD curriculum described above. A joint degree student may not receive credit for courses that create a redundancy in coursework.

### Admission

Students seeking a joint degree with a college outside of the College of Law must independently apply and be admitted to the other graduate degree program. Full-time law students typically apply to the other graduate program in the summer prior to their second year of law school. Part-time law students typically apply to the other graduate degree program in the spring semester of their second year.

After admission to the other graduate program, joint degree applicants should submit a copy of the acceptance letter and law school transcript to the Assistant Dean for Student Affairs at the College of Law. The transcript and acceptance letter should be accompanied by a cover letter from the student requesting that the student’s program be changed from Juris Doctor to the appropriate joint degree program. The letter should include the student’s full name, student identification number, mailing address, email address and phone number. The joint degree candidate should also schedule a meeting with the appropriate adviser in the other college to which the student has been admitted to discuss the curriculum.

### Combined Credits and Expenses

Full-time joint degree students generally complete the program in four years. Part-time applicants generally complete the joint degree program in five years. A student may accelerate the program by taking classes in the summer or by taking more courses during the academic year. By doing so, a student may complete both programs one-half year earlier.

Once enrolled in a joint degree program, students no longer pay the College of Law package tuition; instead, students pay by the credit hour for law classes and classes taken in the other program.

### Grading Standards

Joint degree students must meet the grading standards of the College of Law and the respective graduate degree program in order to remain in good standing. Grades are recorded on the transcript under the college in which the courses are taken, and the combined degree is recorded after graduation. Students who are dismissed from either program may be able to continue studies in the other program. Students must satisfy the normal program requirements of the other school to receive the degree; no double counting of credits is permitted after a dismissal from one college.

### Leaves of Absence/Withdrawal

Students must receive permission from both colleges to take a leave of absence from the joint degree program or to withdraw from the joint degree program. A leave of absence is granted for a maximum of one year. If a student does not enroll in classes after one year, he or she will
be permanently withdrawn from both programs and only may re-enroll by applying to the admission offices of both colleges as a new student.

**Graduation**

To receive the joint degree, a student must graduate from both schools on the same date, in the same semester/quarter and in the same year. Double counting of credits occurs only after concurrently completion of both programs.

For a December graduation, all requirements must be completed at the end of the fall semester and fall quarter. For a spring graduation, all non-law requirements must be completed at the end of the spring quarter and all law requirements at the end of the spring semester. A student will not be eligible to graduate, cannot be certified for admission to the Bar, and cannot sit for bar examinations until all degree requirements are met and degrees conferred.

**Leadership Studies (BA)**

The Bachelor of Arts in Leadership Studies from the School of Continuing and Professional Studies (SCPS) emphasizes a multidisciplinary understanding of the theory and practice of leadership applicable to various environments. The degree offers an interdisciplinary liberal arts and professional studies curriculum that is especially suited to those who are already working and seek to advance their depth of knowledge of leadership and enhance their professionalism. The degree is equally appropriate for managers and leaders in the corporate or non-profit fields. This major advances students' knowledge and professional skills related to effective leadership, communication, management of change and conflict, the role of technology and globalization in governance. Expertise in leadership is honed upon a solid foundation of ethics and responsibility, analysis and critical thinking, creativity and innovation. Courses are offered by School of Continuing and Professional Studies and the College of Communication with electives courses available from the Department of Psychology.

This degree program offers the following features:

- Designed for working adult students with option to complete fully online
- Acceleration and affordability through transfer credit and prior learning assessment (PLA) credit
- Opportunities to combine bachelor’s and master’s programs and apply graduate courses to both programs and eligibility toward a Double Demon Scholarship
- Individualized program planning, course selection and advising assistance provided
- Enhanced career opportunities through professional portfolio development, and career placement services instruction from industry practitioners, and wide-ranging Career Services support
- Degree granted by DePaul University, with its excellent academic reputation and the opportunity to join its prestigious and extensive alumni network

**Learning Outcomes**

Students will be able to:

- Analyze and apply knowledge and theories of leadership.
- Investigate problems using qualitative and quantitative methods.
- Apply ethical principles in context.
- Explain the value of social justice in organizational contexts.
- Apply various methods of communication in multiple settings.
- Utilize principles of reflective practice in leadership studies.
- Analyze and apply different liberal arts perspectives.

### Open Electives (38 credits)

Open electives can be fulfilled through courses taken in the School of Continuing and Professional Studies and other DePaul colleges, transfer courses, assessment of prior learning (PLA), and independent studies.

### Legal and Public Affairs Communication (Minor)

The minor requires students to take six classes (or 24 credits) from at least two distinct majors with a mixture of skills-focused and general classes related to legal and public affairs communication topics. At least 16 credits must be from College of Communication courses.

1 Relevant special topics courses and newly developed courses in Communication may be approved on a case-by-case basis.

**Lesbian, Gay, Bisexual, Transgender, Queer Studies (Minor)**

The LGBTQ Studies program analyzes sex and sexuality within many different fields of inquiry. A minor in LGBTQ Studies will enable DePaul students to devote significant study to the experiences of people who do not conform to culturally dominant identities of sexuality and gender: lesbian, gay, bisexual, transgender, queer. Such an endeavor is profoundly interdisciplinary by nature and draws on university resources and faculty expertise in a wide array of disciplines. Students in this minor will have the opportunity to analyze the experiences of LGBTQ people on their own terms, as well as through critical perspectives on sexuality and gender as complex social, cultural, biological, and historical phenomena.

Select five elective courses :All LGQ 100, 200, 300-level courses count as electives

1 Other electives approved for the minor

The following is a sample of regularly-offered approved electives. This list is not exhaustive; new courses are continually created and approved. Every quarter before registration begins, the Program Director distributes a list of courses being offered the following quarter. Students should contact the Program Director to request the current list. Students may also petition the Director for approval of a course not listed. Many LGBTQ Studies courses are crosslisted and fulfill requirements in other departments and programs, including the Liberal Studies Program. LGBTQ Studies minors are encouraged to take at least one course in a variety of disciplines—film, history, literature, media, performance, philosophy, politics, religion, science, and theory.

1. ENG 382 or ABD 345 only satisfy an elective when the Special Topic is James Baldwin.

---

**Liberal Learning for Professionals Certificate**

The School of Continuing and Professional Studies (SCPS) awards a Certificate in Liberal Learning for Professionals to graduate students who successfully complete the Liberal Learning portion (18 credit hours) per graduate program (MAAPS, MAEA, MSAT). This portion includes:

- LLS 450A: FINDING & ASSESSING INFORMATION 4
- LLS 450B: APPLYING SYSTEMATIC INQUIRY (IN PROFESSIONAL PRACTICE) 4
- Elective Options 12
  - LLS 410B: BUILDING & ENGAGING RESILIENCE (IN ADULT LIFE)
  - LLS 420A: ENGAGING SOCIAL MEDIA
LIBERAL STUDIES (MA)

The Master of Arts in Liberal Studies (MA) program is a multidisciplinary approach to graduate education which emphasizes liberal education and enhanced intellectual skills that are valuable in a wide variety of careers. It is particularly designed for serious learners, or those who wish to become serious learners, from recent college graduates to men and women in later life.

The MA program is grounded in a set of team-designed core courses. These courses establish the aims and themes of the program, orient the student to a multidisciplinary approach to graduate education, and develop in the student advanced learning skills. These are designed to foster academic rigor, intellectual adventure, and cultural breadth. If MALS core courses are not offered, students may choose equivalent courses to be established by program advisors.

The other components of the program are electives and a variety of options for a culminating project. Electives are usually graduate and upper-level courses chosen from departmental offerings in the College of Liberal Arts and Sciences. Students select these courses with the aid of an advisor to build a program of study tailored to individual goals and interests. Included under electives are MALS special topics courses, which are especially well-suited to the needs of MALS students.

By about the midpoint of their studies (24-32 credit hours earned), students should begin discussing possible culminating project ideas with the director, associate director, or faculty advisor. The culminating project gives MALS students the opportunity to demonstrate the intellectual and creative powers that they have developed over the course of graduate study. MALS students may choose from four options for program completion, allowing greater flexibility for students to pursue their studies. These four options may take the form of a thesis, a community-based or media project, an enhanced portfolio, or a specially selected exit course and paper.

The MALS program offers a number of concentrations, including: Standard, Executive/Leadership, and Women's Studies. The Standard Concentration is based on a four-course core requirement, and may be tailored to the student's interests. The Executive/Leadership and Women's Studies Concentrations are based on a five-course core requirement and stipulate policies for elective selection. Program advising is available to help students choose a concentration. Each of the concentrations may be pursued with any of the four program completion options. The MALS program is jointly administered with the Master of Arts/Master of Science in Interdisciplinary Studies (IDS) program by the Interdisciplinary Self-Designed Program (ISD).

The MA in Liberal Studies may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- MALS + Digital Humanities Certificate
- MALS + Social Research Certificate
- MALS + Women's and Gender Studies Certificate

Learning Outcomes

Students will be able to:

- Demonstrate multi-disciplinary and inter-disciplinary approaches in research and writing.
- Use their knowledge of the methods and approaches of at least one particular academic or professional discipline to complete academic writing projects.
- Analyze and incorporate a variety of academic and technical resources in appropriate scholarly and professional formats.
- Research and write in a variety of academic and/or professional genres, including expository essays, critical analysis, research papers, white papers, etc. culminating in an extended capstone.
- Analyze the social and/or historical context of phenomena and value systems in social and institutional settings.

Degree Requirements

Portfolio

All students will keep a portfolio of significant work done for courses, such as final papers or special projects, with comments and grades from the professor. By the midpoint, there will be work from a total of at least three courses in the portfolio. At least two of the three pieces in the midpoint portfolio will be from the core courses. The third will be from an elective representing the student's best work. At the culminating point there will be work from at least six courses represented in the portfolio, two pieces from the core courses and four from the electives, representing the student's best work.

Midpoint Essay

After completing the sixth course but before taking the ninth course, all students in both programs will write a 3-5 page essay examining their progress to that point, using as evidence work from the portfolio. The Midpoint Essay reflects on the student's intellectual growth, and suggests directions for the second half of the student's program.

Culminating Point Essay

All students in both programs (regardless of which final option they choose) will write an essay of 3-5 pages, reflecting on their intellectual growth in the second half of the program.

Course Work

- Completion of 48 or 52 quarter hours of graduate credit, depending on the concentration and completion option (thesis, practicum, enhanced portfolio or exit course) chosen by the student.
- Cumulative grade-point average of 3.0 in the core courses: Students who have not achieved a 3.0 in the core will be warned that they will probably have serious difficulties in the elective portion of the program, and may be advised to withdraw.
• Elective courses must be selected from at least two different departments in order to preserve the multidisciplinary character of the program.
• MALS students ordinarily take no more than two approved 300-level courses for MALS degree credit unless they have sought the approval of a MALS program advisor.

Program Completion (Capstone) Steps
All students must apply and be approved for the particular option they wish to use for program completion (thesis, practicum, enhanced portfolio, or exit course). This application will include the student’s portfolio. The thesis and practicum options include a Formal Proposal. Approval of the proposal is necessary before the student undertakes this final stage of the program. Enrollment in MLS 499, the culminating project independent study course, takes place after approval of the proposal has been secured. If necessary, in lieu of an elective, students may enroll in MLS 498:Thesis if they require an additional quarter of research and other preparation for MLS 499.

Both MLS 498 and MLS 499 are conducted as Independent Studies. Instructions for proposing and pursuing these are available with the Program. When the project is completed both the members of the committee and the MALS director sign a Culminating Project Completion Form, which can be found on the program’s D2L site.

Program Completion (Capstone) Options

Thesis Option
In addition to the Culminating Point Essay and final portfolio submission, the student will write a paper of approximately 35-50 pages that includes 3-4 components or sections, one of which will be a research component and original exploration of the subject. (Other components might include a review of literature, a synthesis of earlier research, a reflection on various disciplinary and methodological approaches to the issue, suggestions for future research, etc.) The research component of the Master’s Thesis involves reflection on primary research, or actual primary research combined with reflection on the primary research of others. The student is encouraged to make a public presentation about his or her thesis. Students who have earned a GPA of less than 3.3 may in some cases be asked to complete their program with a different capstone choice.

• Ordinarily taken as MLS 499, the student’s 12th and final course.
• Requires minimum cumulative GPA of 3.3, evaluation of “satisfactory” on the Midpoint Portfolio, formal proposal, and approval of committee.

Practicum Option
In addition to the Culminating Point Essay and final portfolio submission, for the Practicum Option the student will create a project aimed at developing and executing a community-based intellectual or intellectual/creative activity. Examples are a public presentation as a lecture, in broadcast or print media, or on the web. Service learning projects are also encouraged. A 15-25 page descriptive/analytic essay documenting the project is also submitted. The student is encouraged to make a public presentation about his or her practicum in addition to the primary distribution of the project. Students who have earned a GPA of less than 3.3 may in some cases be asked to complete their program with a different capstone choice.

• Ordinarily taken as MLS 499, the student’s 12th and final course.
• Requires minimum cumulative GPA of 3.3, evaluation of “satisfactory” on the Midpoint Portfolio, formal proposal, and approval of committee.

Enhanced Portfolio Option
In addition to the final portfolio submission, and a Culminating Point Essay based on portfolio pieces selected from at least three courses in the second half of the program, the distinctive feature of the Enhanced Portfolio option is the writing of a new extended expository essay of 12-15 pages. This is a paper on a topic of the student’s own choosing that makes an argument. (Further information on this paper and the option is available from the program.)

• Ordinarily taken as MLS 499, the student’s 13th and final course.
• Requires formal proposal and approval of committee

Exit Course Option
In addition to the Culminating Point Essay and the final portfolio submission, the student proposes a particular course over and above the original 12 courses. This course should be chosen as an “exit course,” in that it brings together a number of areas of interest that the student has pursued over the course of the program. By arrangement with the instructor, the student uses the final paper or final project to make connections with the goals of his or her overall MALS or IDS Program. The instructor will grade the paper, and another reader suggested by the MALS or IDS program will also review and comment on the paper.

• Requires formal proposal and approval of committee.

International Summer Programs at the University of Cambridge
DePaul’s Master of Arts in Liberal Studies program has established an arrangement with the University of Cambridge, England, for students who wish to include study abroad in their programs of study. Summer programs vary in length from three to six weeks. Variable graduate credit is offered up to a maximum of eight hours. Students make their own arrangements with the University of Cambridge and apply for transfer of credit after completing the courses. Students must make sure to follow the Cambridge procedures for “Evaluation and Credit” if they wish to transfer credit to the DePaul MALS Program.

Program Time Limitation
The MALS program is essentially self-paced. However, the university has set a four year limit for the completion of degree requirements. Extensions may be granted by the Dean in unusual circumstances upon the recommendation of the program’s director. Students must petition for such an extension in writing.

Concentration Requirements
• Executive/Leadership Concentration, Liberal Studies (MA) (p. 627)
• Women’s and Gender Studies Concentration, Liberal Studies (MA) (p. 628)
• Standard Concentration, Liberal Studies (MA) (p. 628)

Student Handbook
Probation
Students are expected to maintain a minimum grade point average (GPA) of 3.0. A GPA below 3.0 will result in the student being placed on warning status. If this status persists for two quarters, the student will
be requested to leave the program. If he or she decides to remain in the program, the student will be placed on academic probation and be given one quarter to raise the GPA to 3.0. If the student’s GPA falls to 2.5 or below, he or she will be immediately placed on academic probation and must raise the GPA to 3.0 in the next quarter or face dismissal from the program. If the GPA falls to 2.5 or below a second time the student will be dismissed from the program.

When a student is admitted to the MALS or IDS Program under the category of “Conditional Admission” he or she is considered under academic probation until the conditions are met. The conditions are usually that a student must earn a grade of B or higher in all courses taken during the first three quarters in the program. The student may request continued registration in the second and third quarters if the grades are not adequate in the first quarter. If the conditions of admission are not met by the third quarter, the student will be dismissed from the program. Other conditions may include the requirement to take certain courses, and the student must comply within the specified time period or face dismissal.

IDS students who select courses that are not on their approved List of Courses (LOC) may face warning after one quarter and probation after two quarters if they do not seek approval for their altered programs. The procedure for altering an approved List of Courses is found on the ISD D2L site.

Students whose grades fall below the minimums described above will be considered in the categories of warning or probation whether or not the program administrators are aware of the student’s grades. The program administrators may apply the categories of warning or probation retroactively if the student does not self-report his or her status. Students are required to seek advisement from program administrators when facing academic warning or probation. A student who does not contact program administrators about potential warning or probation status may face dismissal from the program.

Dismissal
In addition to the minimum GPA requirement, students may be dismissed for breaches of academic honesty or breaches of the code of student responsibility. MALS students may also face dismissal for failure to complete core courses with a grade of B or higher within the first half of their academic career. Students who have completed their coursework, but who are still working on their thesis, practicum or other capstone project must be enrolled in Candidacy Continuation (MLS 502) during the three quarters of the academic school year. After three consecutive terms of candidacy continuation, students should enroll in Active Status (MLS 501) if they still require time to complete their capstone. Failure to enroll in candidacy continuation or advanced status may result in dismissal from the program if the student has not formally withdrawn from the program.

Readmission
When a student has withdrawn from the program or has not been enrolled in classes for three or more quarters during the academic year, he or she must apply for readmission using the Readmission and Reclassification form available from the LAS Graduate website.

Transfer Credit
A student may apply to transfer up to three courses of graduate work from another accredited institution. The courses must be approved by the Program Director as part of the student’s overall course of study for both MALS and IDS students. The courses must then be approved for transfer credit by the Office of Student Records.

Undergraduate Courses
Courses at the 200-level cannot be approved for graduate credit, even when a student needs to take such a course as preparation for more advanced work. Courses at the 300-level may be approved for graduate credit under the following circumstances: (1) The course is necessary as a part of the student’s overall interdisciplinary program. (2) The department does not offer courses in the same area on the graduate level. (3) The student has arranged with the professor to enhance the course to graduate level by the addition or alteration of assignments, including the final project of the course. Unless approved by the Program Director, a student should take no more than two 300-level courses as part of his or her program.

Graduation Requirements
In order to graduate, students in the MALS and IDS Programs must complete the coursework specific to their programs (either 48 or 52 credit hours depending on capstone choice) with a minimum GPA of greater than 3.0, a Midpoint and Culminating Point Essay, the submission of an electronic portfolio of final and other projects from a minimum of six courses, and one of four capstone choices offered by the program. Full descriptions of the requirements for the capstones, as well as further policies and procedures for both programs, are outlined in the documents found on the ISD D2L site under Program Documents. Students in the program are expected to be familiar with these policies and procedures and to comply with them.

Graduation with Distinction
In order to have the degree conferred with distinction, students in MALS and IDS completing their programs with a thesis or practicum capstone (48 credit hours) must earn a minimum cumulative GPA of 3.75, plus earn a designation of “distinction” on their thesis or practicum by their thesis advisor and at least one of the two readers on their committee. Thesis and practicum writers eligible for distinction are required to present their projects at a ISD event within three academic quarters of completion. Students in MALS and IDS completing their programs with an exit course or enhanced portfolio essay capstone (52 credit hours) must earn a minimum cumulative GPA of 3.85 in order to graduate with distinction.

Time Limit
Students are normally expected to complete the MALS or IDS Program within four academic years. During quarters in which no courses are taken, students are required to maintain active status in the program by registering for Candidacy Continuation or Active Status. Students who have not taken courses for three consecutive quarters during the regular academic year and have not registered for Candidacy Continuation or Active Status must apply for readmission using the Readmission and Reclassification form listed on the LAS Graduate website.

Executive/Leadership Concentration, Liberal Studies (MA)

</tbody>
</table>

Select six or seven elective courses, depending on program completion option

- MLS 499 CAPSTONE (or a designated exit course, if the Exit Course Option is chosen) 4

Or select equivalent courses to be established by the program

1. Choose from MALS special topics courses or graduate or upper-level courses with the aid of the student’s advisor. At least two electives should relate to business, the economy, or leadership in the non-profit sector.

2. The topic and content of the culminating project must deal with some aspect of leadership or an issue relating to business, government, or the non-profit sector.

In lieu of MLS 442 and MLS 452 students may select, with the permission of the director, two other graduate-level courses dealing with leadership issues.

### Lighting Design (BFA)

The Theatre School’s Bachelor of Fine Arts (BFA) degree in Lighting Design is designed to give students the opportunity to explore and expand their artistic and visual expression and provides them the opportunity to practice their craft. The four-year curriculum in many ways simulates a lighting designer’s professional experience and process. Designers learn to visualize, create and implement their designs by collaborating with directors, dramaturgs, other designers and technicians, and our professional production staff.

### Learning Outcomes

#### Core Outcomes

Students will be able to:

- Identify and describe the historical and theoretical significance of a range of theatrical artists, works, and artistic approaches from antiquity to present.
- Synthesize and apply elements of their education and training to the preparation, rehearsal, and presentation of theatrical productions with discipline, respect, and maturity.
- Identify and explain their theatrical work in the context of the cultural and social impact of the arts.

#### Program Specific Outcomes

Students will be able to:
• Read and interpret theatrical text and apply research, imagination, and personalization to create a unique, insightful, and compelling design concept.

• Demonstrate an understanding of the history of visual art and architecture in the context of social and cultural development.

• Demonstrate and apply an expertise in lighting technology in a variety of performance styles and theatrical environments.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 Students must earn a C- or better in this course.

2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.

**Learning Domains**

**Arts and Literature (AL) (p. 1184)**

• THE 204
• THE 205
• THE 206

**Historical Inquiry (HI) (p. 1188)**

• 1 Course Required

**Philosophical Inquiry (PI) (p. 1190)**

• 1 Course Required

**Religious Dimensions (RD) (p. 1191)**

• 1 Course Required

**Scientific Inquiry (SI) (p. 1193)**

• 1 SWK or 1 Lab Course Required

**Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)**

• Not Required

**Other (p. 1184)**

• Choose 1 course from the above learning domains as an elective

**Notes**

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Linguistics (Minor)

Linguistics is the scientific study of language: how it is structured, used, and learned. The interdisciplinary Minor in Linguistics is designed to enable students interested in the nature of language and its use in society to enrich a degree in any field, including modern languages, communication, anthropology, education, English, computer science, psychology, writing and rhetoric, and more.

Requirements

Students take two core courses and four electives. In order to ensure the interdisciplinary nature of the minor, no more than two elective courses may come from the same program.

Choose Two Core Courses

Management (BSB)

The Bachelor of Science in Business with a major in Management emphasizes tackling relevant issues for today’s manager: managing in the global economy, ethical and socially responsible decision-making, managing for total quality, employee empowerment, leadership, team performance and compensation, new venture creation, and conflict resolution.

Management majors are hired typically for positions as business analysts, account executives, assistant managers, operations managers, HR managers, employment interviewers, and consultants. The entrepreneurship curriculum offers programs designed for those students interested in someday starting their own businesses.

Learning Outcomes

Students will be able to:

- Apply team effectiveness evidence to enhance individual and team performance. Differentiate between effective and ineffective personnel selection methods.
- Articulate the central elements of employment law in performance management, compensation, recruitment, and selection.
- Demonstrate skill in improving employee performance through applications of reward systems.
- Apply evidence-based management knowledge and skills to effectively manage human capital.
- Describe effective approaches for dealing with a free-riding team member.
- Articulate the steps involved in running an effective meeting.
- Engage in effective team-member behavior within a project team.

College Core Requirements

Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of analytics, accountancy, mathematics, economics, business law, finance, management, management information systems/computer science, and marketing.

Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 66.0 hours are required:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

</tbody>
</table>

Finance

Select one of the following:

- FIN 300 FOUNDATIONS OF FINANCE
- FIN 310 INTRODUCTION TO FINANCE

Computer Science or MIS

Select one of the following:

- CSC 241 INTRODUCTION TO COMPUTER SCIENCE I
- MIS 140 INTRODUCTION TO BUSINESS TECHNOLOGY AND DECISION MAKING

Communication

Select one of the following:

- MKT 376 EFFECTIVE BUSINESS COMMUNICATION
- ORGC 201 BUSINESS AND PROFESSIONAL COMMUNICATION

Business Capstone

Select one of the following:

- ICS 394 ENTREPRENEURSHIP STRATEGY
- ICS 395 MANAGEMENT STRATEGY
- ICS 396 HOSPITALITY STRATEGY (Hospitality majors only)

Global Business Perspective

Select 4.0 hours of the following:

- ECO 316 EUROPEAN ECONOMIC HISTORY
- ECO 330 RADICAL RESPONSES TO CAPITALISM
- ECO 333 TOPICS IN GLOBAL ECONOMIES
- ECO 334 UNDERSTANDING CHINA’S ECONOMY
- ECO 360 ECONOMICS OF LOW-INCOME COUNTRIES
- ECO 361 INTERNATIONAL TRADE
- ECO 362 INTERNATIONAL MONETARY ECONOMICS
- ECO 363 ECONOMICS OF THE EUROPEAN UNION
- FIN 340 INTERNATIONAL FINANCE
- FIN 355 GLOBAL IPOs & VENTURE CAPITAL
- ICS 350 INTERNATIONAL BUSINESS SEMINAR
- MGT 354 GLOBAL HUMAN RESOURCE MANAGEMENT
- MGT 357 INTERNATIONAL BUSINESS
- MKT 340 MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
- MKT 358 MARKETING IN A GLOBAL ENVIRONMENT
- MKT 360 INTERNATIONAL MARKETING
Math Requirements for all business majors (except Actuarial Science majors)
- MAT 137 may be replaced by MAT 348 or MAT 351; if done, an additional Scientific Inquiry course must be added to the degree plan.

Math Requirements for Actuarial Science majors
- An Actuarial Science student is expected to complete the Calculus sequence (MAT 150, MAT 151, and MAT 152) in the first year of study.
- Actuarial Science students do not take MAT 135, MAT 136, or MAT 137.

Global Business Perspective
If an ICS or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required.

Grade Minimums for Management Major
A minimum grade of C- is required for the following: ACC 101, ACC 102, BUS 102, ECO 105, ECO 106, MAT 137, MGT 300, MGT 301, the course used for Professional Writing, and any ICS or MGT course used for Global Business Perspective.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Learning Domains
Arts and Literature (AL) (p. 1184)
- 3 AL Courses Required
Historical Inquiry (HI) (p. 1188)
• 2 HI Courses Required

Philosophical Inquiry (PI) (p. 1190)
• 2 PI Courses Required

Religious Dimensions (RD) (p. 1191)
• 2 RD Courses Required

Scientific Inquiry (SI) (p. 1193)
• MAT 137
• 1 Lab or SWK Course

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)
• 1 SCBI Course Required

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements
Course Requirements
In addition to MGT 300 and MGT 301 a student majoring in Management is required to complete the following courses totaling at least 22.0 hours and an additional four courses based on concentration chosen totaling at least 16.0 hours:

Six required courses:

<table>
<thead>
<tr>
<th>Course</th>

</tbody>
</table>

Open Electives
Open elective credit (12.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

Global Business Perspective
If an ICS or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required. Any ICS or MGT course used toward Global Business Perspective must be passed with C- or higher.

Career Management Course
Students are required to complete the Career Course (250) associated with the major. Students who double major may choose the Career Course (250) associated with either major provided that hours for graduation are satisfied.

Experiential Learning
If either MGT 393 or ICS 350 is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements
All Management (MGT) courses and any courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Concentration Requirements
Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

• General Management Concentration, Management (BSB) (p. 634)
• Human Resources Concentration, Management (BSB) (p. 635)
• International Management Concentration, Management (BSB) (p. 635)
• Leadership and Change Management Concentration, Management (BSB) (p. 636)
• Sports Management Concentration, Management (BSB) (p. 636)
• Supply Chain Management Concentration, Management (BSB) (p. 637)

General Management Concentration, Management (BSB)
The General Management concentration is for the student who wants a broad sampling of the various management disciplines. If a student chooses to pursue this concentration, four courses totaling at least 16.0 hours must be taken.

Course Requirements

Select four elective courses from the following: 16

<table>
<thead>
<tr>

</tbody>
</table>
### Human Resources Concentration, Management (BSB)

The Human Resources concentration is designed to meet the needs of students who desire to obtain entry-level positions in human resources, such as HR generalists, employment interviewers, and compensation analysts. Human resource professionals add value to their organizations by understanding how the business operates and through the design and implementation of human resource activities to meet changing organizational needs. If a student chooses to pursue this concentration, four courses totaling at least 16.0 hours must be taken.

<table>

</tr>
</tbody>
</table>

### Second Concentration

While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

### Global Business Perspective

If an MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required. Any MGT course used toward Global Business Perspective must be passed with C- or higher.

### Experiential Learning

If either MGT 393 or ICS 350 is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

### Graduation Requirements

All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

¹ ICS 350 can be taken up to two times in the International Management Concentration.

### Second Concentration

While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

### Global Business Perspective

If an ICS or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required. Any ICS or MGT course used toward Global Business Perspective must be passed with C- or higher.

### Experiential Learning

If either MGT 393 (https://catalog.depaul.edu/search/?P=MGT%20393) or ICS 350 (https://catalog.depaul.edu/search/?P=ICS%20350) is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

### Graduation Requirements

All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

---

**Leadership and Change Management Concentration, Management (BSB)**

The Leadership and Change Management concentration focuses on developing leadership and change capabilities in students at all levels in organizations. Students gain an awareness of values and the importance of vision, as well as how to empower followers to be active participants in change activities, in order to increase organizational effectiveness. A planned approach to managing all phases of the organizational change process is emphasized. This concentration will be especially useful to students who desire to move into leadership and/or change roles within organizations, such as managers, internal consultants, team leaders, or trainers, as well as external consultant roles. If a student chooses to pursue this concentration, four courses totaling at least 16.0 hours must be taken.

Global Business Perspective
If an ICS or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required. Any ICS or MGT course used toward Global Business Perspective must be passed with C- or higher.

Experiential Learning
If either MGT 393 or ICS 350 is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements
All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Management (MBA/MA in Health Communication)
Our Master of Business Administration/Master of Arts in Health Communication degree develops students’ managerial acumen and their expertise as communicators.

The joint degree prepares students for leadership roles in a range of areas within healthcare, including advertising, public relations, crisis communication, quality/patient safety, strategic planning/marketing, corporate communication, and community/population health.

The Kellstadt Graduate School of Business and the College of Communication offer a unique joint degree program. This 96-credit MBA/MA in Health Communication provides you with the opportunity to earn advanced degrees in two highly complementary fields—business and health communication. Success in today's competitive, global economy requires both an in-depth understanding of the dynamics of the world of business and the ability to communicate effectively using various media under highly diverse conditions.

The Master of Business Administration/Master of Arts in Health Communication program allows students to obtain both degrees in as little as three years of full-time course work. This rigorous program is designed for highly motivated students who work or plan to work in management, executive or consulting positions in healthcare communications, leadership, advertising, public relations, diversity management, quality/safety, and community/population health. To enter this program, prospective students must complete admissions applications and be accepted for both the MBA and the MA in Health Communication.

The Master of Business Administration/Master of Arts in Health Communication is offered as a joint degree, administered jointly by the Kellstadt Graduate School of Business and the College of Communication. The joint degree is designed for committed and enterprising students who want to take advantage of the growing field of healthcare communications.
emphasis on communication in the design and delivery of high quality, safe, and patient-centered healthcare.

</table>

### Learning Outcomes

Students will be able to:

- Use analytical and problem-solving skills in decision-making.
- Apply knowledge about the differences among global economies, institutions, and cultures to understand the implications these have on global management.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Effectively contribute to the performance of a group as the group addresses practical business situations, and assume a leadership role as appropriate.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Acquire broad-based knowledge and skills necessary to fulfill their professional goals.

### Course Requirements for the New 2020 MBA Programs

The MBA program requires completion of sixteen courses (60 quarter hours). In addition to the eleven core course (40 quarter hours) requirements below, students must select five courses/electives (20 quarter hours) to specialize in a business area of their choice.

#### Core Course Requirements

Management (MBA/MPH in Public Health)

Our Master of Business Administration/Master of Public Health (MBA/MPH) degree develops students’ managerial acumen and their expertise as public health professionals.

Jointly offered by the Kellstadt Graduate School of Business and the College of Liberal Arts and Social Sciences, 84-credit MBA/MPH provides you with the opportunity to earn advanced degrees in two highly complementary fields—business and public health. The landscape for healthcare managers is radically changing with advances in technology, shifts in demographics, and the aging of the population. Success in this highly competitive field not only requires skills in finance and operations, but also an in-depth understanding of disease prevention and health promotion at the organizational and community level. The joint degree is designed for committed and enterprising students who want to take advantage of the growing emphasis on public health and population health in the design and delivery of healthcare.

The MBA/MPH program allows students to obtain both degrees in as little as three years of full-time course work. This rigorous program is designed for highly motivated students who work or plan to work in management, executive, or consulting positions in community/population health. To enter this program, prospective students must complete admissions applications and be accepted for both the MBA and the MPH programs.

Learning Outcomes

Students will be able to:

- Use analytical and problem-solving skills in decision-making.
- Apply knowledge about the differences among global economies, institutions, and cultures to understand the implications these have on global management.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Effectively contribute to the performance of a group as the group addresses practical business situations, and assume a leadership role as appropriate.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Acquire broad-based knowledge and skills necessary to fulfill their professional goals.

Course Requirements for the New 2020 MBA Programs

The MBA program requires completion of sixteen courses (60 quarter hours). In addition to the eleven core course (40 quarter hours) requirements below, students must select five courses/electives (20 quarter hours) to specialize in a business area of their choice.

### Management (Minor)

Available to students majoring outside the Driehaus College of Business, the Management minor presents problem-solving approaches and techniques that are necessary when working with an organization or business to achieve its goals. The student may focus on management in a specific industry, such as health care or public relations.

### Course Requirements

A non-Driehaus student minoring in Management is required to complete the following courses totaling at least 20.0 hours:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>

</tbody>
</table>

### Graduation Requirements

All Management (MGT) courses and any other courses used toward the Management minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

### Management (Minor: Business Students Only)

Students in the Driehaus College of Business who minor in Management will learn problem-solving approaches and techniques that are necessary when working within an organization or business to achieve its goals. Students may focus on management in a specific industry to complement their major.

### Course Requirements

In addition to MGT 300, MGT 301, and ICS 394 or ICS 395, a Driehaus student minoring in Management is required to complete the following courses totaling at least 12.0 hours:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MGT 302</td>
<td>ORGANIZATIONAL BEHAVIOR</td>
<td></td>

</tr>
<tr>
<td>MGT 314</td>
<td>BUSINESS ANALYSIS FOUNDATION TOOLS</td>
<td></td>
</tr>
<tr>
<td>MGT 357</td>
<td>INTERNATIONAL BUSINESS</td>
<td></td>
</tr>
</tbody>
</table>

### Culminating Experience Requirements

In addition to successfully completing coursework, students also must complete a practicum experience that culminates in the writing of a capstone thesis. Students complete their practicum field experience during their last year in the program. Students are required to commit to 8-10 hours per week to their practicum site, for a minimum of 250 hours over the course of the nine-month placement. It is required to be physically onsite at the agency for the majority of these hours.
Graduation Requirements
All Management (MGT) courses and any other courses used toward the Management minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Management (MS)
In the Master of Science in Management program, students develop the managerial skills necessary to advance as leaders in the private or public sector. Students gain a thorough understanding of management theory and techniques, and learn how to apply them through hands-on learning experiences. Graduates of this program emerge with the interpersonal, analytical and strategic knowledge necessary to successfully manage and implement change in today’s organizations. This degree is designed for early career professionals from non-business backgrounds in liberal arts, engineering, mathematics, technology and other fields.

Most MS degrees can be completed in four quarters of full-time study or eight quarters of part-time study. The MS in Management degree offers the added benefit of providing 24 credits toward an MBA should you decide to pursue one in the future.

Program Features
In this program, you will acquire leadership skills, methods and tools to:

- Manage projects, strategy, innovation and people effectively in a variety of organizational settings.
- Think critically, analyze a wide range of information and initiate creative solutions to business challenges.
- Use current sustainable management and ethical decision-making frameworks in your role as a manager.
- Understand business fundamentals, including operations management, financial accounting and economic conditions analysis.

Students in the program have the opportunity to pursue focus areas such as project management, human resources, marketing and sales.

Degree Requirements
1. Satisfactory completion of the college residency requirement.
2. Satisfactory completion of the 13 required courses, or their substitutes as approved by the Chair of the Management Department.
3. All courses for credit toward the degree must be completed within six calendar years after the candidate's first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years, a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree.

<table>

<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Degree Requirements</td>
<td>48</td>
</tr>
<tr>
<td>Total hours required</td>
<td>48</td>
</tr>
</tbody>
</table>

Learning Outcomes
Students will be able to:

- Identify the differences among global economies, institutions, and cultures and understand the implications these have on global management.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Exhibit sophisticated knowledge of management practices leading to applicable skills in relevant areas.

Management (MS), Combined Bachelor’s + Master’s Degree
The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These three graduate level courses will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Management (MS)
The Master of Science in Management is designed for early career professionals interested in general management of the firm.

Solutions to management problems require the ability to think critically about a wide variety of information and to integrate ideas in creative ways. Managers are called upon to perform in a variety settings with a variety of decision-making models. Students in the Master of Science in Management will develop competencies in managing decision-making processes, managing strategy and innovation, managing human capital, and managing the task environment.

DePaul degree-seeking undergraduate students interested in earning a Master of Science in Management may apply to the bachelor’s degree/Management (MS) combined program. Students may be able to obtain both degrees in an expedited period, typically in five years.
Admission

Students must formally apply and be admitted to the Department of Management before beginning their graduate coursework. Undergraduate students who meet the following criteria may apply to this program:

- Junior standing or higher (at least 88.0 credits)
- A minimum cumulative DePaul grade point average of 3.20

Students participating in this program will typically take three of the following graduate level courses during their senior year:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACC 500</td>
<td>FINANCIAL ACCOUNTING</td>
<td>4</td>
</tr>
<tr>
<td>or ACC 502</td>
<td>FINANCIAL ACCOUNTING FOR MANAGERIAL DECISION MAKING</td>
<td></td>
</tr>
<tr>
<td>MGT 500</td>
<td>LEADING EFFECTIVE AND ETHICAL ORGANIZATIONS</td>
<td>4</td>
</tr>
<tr>
<td>MGT 515</td>
<td>SUSTAINABILITY MANAGEMENT</td>
<td>4</td>
</tr>
<tr>
<td>MGT 530</td>
<td>LEADERSHIP IN ORGANIZATIONS</td>
<td>4</td>
</tr>
<tr>

<td>ETHICS AND LEADERSHIP</td>
<td>4</td>
</tr>
<tr>
<td>MGT 598</td>
<td>PROJECT MANAGEMENT</td>
<td>4</td>
</tr>
</tbody>
</table>

1 Replaces MGT 302 ORGANIZATIONAL BEHAVIOR

These three courses may double-count up to 12 credits towards both degree programs. The undergraduate degree will be awarded at the completion of all undergraduate work while the MS-Management will be awarded upon completion of the remaining graduate level work.

Management Honors (BSB)

The honors program in management is a course of study composed of advanced, accelerated and challenging beginning management courses. Using a problem-based approach, students will be asked to complete real-time projects for organizations with management-based problems, to work intensively and proactively in rotating small groups, to work on problems that span multiple courses in the program, and to refine their soft skills of communication, leading, presenting and teamwork within the program.

Learning Outcomes

Core Outcomes

- Use analytical and reflective skills in decision-making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Program Specific Outcomes

Students will be able to:

- Apply team effectiveness evidence to enhance individual and team performance. Differentiate between effective and ineffective personnel selection methods.
- Articulate the central elements of employment law in performance management, compensation, recruitment, and selection.
- Demonstrate skill in improving employee performance through applications of reward systems.
- Apply evidence-based management knowledge and skills to effectively manage human capital.
- Describe effective approaches for dealing with a free-riding team member.
- Articulate the steps involved in running an effective meeting.
- Engage in effective team-member behavior within a project team.

College Core Requirements

Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of analytics, accountancy, mathematics, economics, business law, finance, management, management information systems/computer science, and marketing.

Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 66.0 hours are required:

<table>

A course taken as part of a term-long study abroad program  

**Professional Writing**  
Select one of the following:  
- WRD 202  PROFESSIONAL WRITING FOR BUSINESS (2.0 quarter hours)  
- WRD 204  TECHNICAL WRITING  
- WRD 206  PROFESSIONAL WRITING  
- MAT 341  STATISTICAL METHODS USING SAS (Actuarial Science majors only)

---

1 Strobel students take specially designated sections of all required ACC classes, including ACC 101 and ACC 102 (excluding ACC 250).

2 Students majoring in accounting (primary or secondary/double major) are allowed to substitute ACC 370 in place of BLW 201. Hospitality Leadership majors must take HSP 207 for the Business Law requirement; use of HSP 207 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete both HSP 207 and BLW 201.

3 All business majors take BUS 102. Actuarial Science students must take MAT 151 in lieu of BUS 102. BSB analytics content met within Actuarial Science major requirements.

4 Finance majors, Finance secondary/double majors, Finance minors, Finance Honors majors, Finance Honors secondary/double majors, and Actuarial Science majors must take FIN 320.

5 MGT 301-H is required if pursuing the Management Honors Program.

6 Majors and double majors in Accountancy, Actuarial Sciences, Economics, Finance, Finance Honors and Management Information Systems and Finance minors must take FIN 310.

7 MIS majors and minors must take MIS 140.

8 Actuarial Science majors must take CSC 241.

9 MKT majors and Sales minors must take MKT 376.

10 A course taken for Global Business Perspective that is in a student’s major or minor field must be completed with a minimum grade of C-.

11 Actuarial Science majors must take MAT 341 for Professional Writing; use of MAT 341 is limited to Actuarial Science majors.

---

**Business Ethics**

All undergraduate students in the Driehaus College of Business complete a course in Business Ethics. It is recommended students take MGT 248 or PHL 248 in Philosophical Inquiry or MGT 228 or REL 228 in Religious Dimensions in the Liberal Studies Program (or University Honors Program) Requirements.

**Second Majors and Minors**

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

**Math Requirements for all business majors (except Actuarial Science majors)**

- MAT 137 may be replaced by MAT 348 or MAT 351; if done, an additional Scientific Inquiry course must be added to the degree plan.

**Math Requirements for Actuarial Science majors**

- An Actuarial Science student is expected to complete the Calculus sequence (MAT 150, MAT 151, and MAT 152) in the first year of study.

- Actuarial Science students do not take MAT 135, MAT 136, or MAT 137.

**Global Business Perspective**

If an ICS or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit
are required. Any ICS or MGT course used toward Global Business Perspective must be passed with C- or higher.

### Grade Minimum Requirements for Management Major

A minimum grade of C- is required for the following: ACC 101, ACC 102, BUS 102, ECO 105, ECO 106, MAT 137, MGT 300, MGT 301, the course used for Professional Writing, and any ICS or MGT course used for Global Business Perspective.

### Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES 4

**Junior Year**

**Experiential Learning**

Required 4

**Senior Year**

**Capstone**

ICS 392 SENIOR SEMINAR 1 4

1. Students must earn a C- or better in this course.

### Learning Domains

- **Arts and Literature (AL)** (p. 1184)
  - 3 AL Courses Required

- **Historical Inquiry (HI)** (p. 1188)
  - 2 HI Courses Required

- **Philosophical Inquiry (PI)** (p. 1190)
  - 2 PI Courses Required

- **Religious Dimensions (RD)** (p. 1191)
  - 2 RD Courses Required

- **Scientific Inquiry (SI)** (p. 1193)
  - MAT 137
  - 1 Lab or SWK Course

- **Social, Cultural, and Behavioral Inquiry (SCBI)** (p. 1196)
  - 1 SCBI Course Required

- **PHL 248 / MGT 248** is required in PI or **REL 228 / MGT 228** is required in RD.

### Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

### Major Requirements

#### Course Requirements

In addition to MGT 300 and MGT 301-H student majoring in Management Honors is required to complete the following courses totaling at least 22.0 hours and an additional four courses based on concentration chosen totaling at least 16.0 hours:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Five required courses (must be taken as Honors sections):</td>
<td></td>
<td></td>
</tr>
<tr>
<td>MGT 250</td>
<td>CAREER MANAGEMENT SKILLS</td>
<td>2</td>
</tr>
<tr>
<td>MGT 302</td>
<td>ORGANIZATIONAL BEHAVIOR</td>
<td>4</td>
</tr>
<tr>
<td>MGT 303</td>
<td>MANAGING PROJECTS AND TEAMS</td>
<td>4</td>
</tr>
<tr>
<td>MGT 307</td>
<td>HUMAN RESOURCES MANAGEMENT</td>
<td>4</td>
</tr>
<tr>
<td>MGT 360</td>
<td>LEADERSHIP</td>
<td>4</td>
</tr>
<tr>
<td>One required course (not taken as an Honors section):</td>
<td></td>
<td></td>
</tr>
<tr>
<td>MGT 314</td>
<td>BUSINESS ANALYSIS FOUNDATION TOOLS</td>
<td>4</td>
</tr>
</tbody>
</table>

### Expectations

Prior to being part of the Management Honors Program, students must be admitted to the program. See Management Honors website for more information on the application process.

### Open Electives

Open elective credit (12.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

### Career Management Course

Students are required to complete the Career Course (250) associated with the major. Students who double major may choose the Career Course (250) associated with either major provided that hours for graduation are satisfied.
Global Business Perspective
If an ICS or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required. Any ICS or MGT course used toward Global Business Perspective must be passed with C- or higher.

Experiential Learning
If either MGT 393 or ICS 350 is completed in the Management Honors major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements
All Management (MGT) and any courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Concentration Requirements
Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- General Management Concentration, Management Honors (BSB) (p. 645)
- Human Resources Concentration, Management Honors (BSB) (p. 646)
- International Management Concentration, Management (BSB) (p. 646)
- Leadership and Change Management Concentration, Management Honors (BSB) (p. 647)
- Sports Management Concentration, Management Honors (BSB) (p. 647)
- Supply Chain Concentration, Management Honors (BSB) (p. 647)

General Management Concentration, Management Honors (BSB)
The General Management concentration is for the student who wants a broad sampling of the various management disciplines. If a student chooses to pursue this concentration, four courses totaling at least 16.0 hours must be taken.

Course Requirements

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

</tr>
</tbody>
</table>

Second Concentration
While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Global Business Perspective
If an ICS or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required. Any ICS or MGT course used toward Global Business Perspective must be passed with C- or higher.

Experiential Learning
If either MGT 393 or ICS 350 is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements
All Management (MGT) and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.
Human Resources Concentration, Management Honors (BSB)

The Human Resources concentration is designed to meet the needs of students who desire to obtain entry-level positions in human resources, such as HR generalists, employment interviewers, and compensation analysts. Human resource professionals add value to their organizations by understanding how the business operates and through the design and implementation of human resource activities to meet changing organizational needs. If a student chooses to pursue this concentration, four courses totaling at least 16.0 hours must be taken.

Second Concentration

While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Global Business Perspective

If a MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required. Any MGT course used toward Global Business Perspective must be passed with C- or higher.

Experiential Learning

If either MGT 393 or ICS 350 is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

International Management Concentration, Management (BSB)

Build the skills you need to be an effective manager in a globalized world. Develop an understanding of varied cultural backgrounds and values. Explore global human resource and service sector management, develop language skills and travel abroad to gain an understanding of the many nuances of international business.

If a student chooses to pursue this concentration, four courses totaling at least 16.0 hours must be taken.

1 ICS 350 can be taken up to two times in the International Management Concentration.

Second Concentration

While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Global Business Perspective

If an ICS or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required. Any ICS or MGT course used toward Global Business Perspective must be passed with C- or higher.

Experiential Learning

If either MGT 393 (https://catalog.depaul.edu/search/?P=MGT%20393) or ICS 350 (https://catalog.depaul.edu/search/?P=ICS%20350) is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.
Leadership and Change Management Concentration, Management Honors (BSB)

The Leadership and Change Management concentration focuses on developing leadership and change capabilities in students at all levels in organizations. Students gain an awareness of values and the importance of vision, as well as how to empower followers to be active participants in change activities, in order to increase organizational effectiveness. A planned approach to managing all phases of the organizational change process is emphasized. This concentration will be especially useful to students who desire to move into leadership and/or change roles within organizations, such as managers, internal consultants, team leaders, or trainers, as well as external consultant roles. If a student chooses to pursue this concentration, four courses totaling at least 16.0 hours must be taken.

Course Requirements

Graduation Requirements

All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Sports Management Concentration, Management Honors (BSB)

The Sports Management concentration is intended for students who desire careers in sports-related industries including professional and collegiate sports, sporting goods, fitness and recreation centers.

Course Requirements

If a student chooses to pursue this concentration, four courses totaling at least 16.0 hours must be taken.

<table>

Experiential Learning

If either MGT 393 or ICS 350 is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Supply Chain Concentration, Management Honors (BSB)

The Supply Chain Management concentration prepares students to understand the big picture of supply chains while also diving into various operational functions including transportation and logistics, procurement, and operations management. If a student chooses to pursue this concentration, four courses totaling at least 16.0 hours must be taken.

Course Requirements

Select four of the following: 16

<table>
<thead>
<tr>

</table>
Second Concentration
While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Global Business Perspective
If an ICS or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required. Any ICS or MGT course used toward Global Business Perspective must be passed with C- or higher.

Experiential Learning
If either MGT 393 or ICS 350 is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements
All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Management Information Systems (BSB)
The program in Management Information Systems is intended for undergraduate business students who plan to start their career as information systems professionals in either information technology producing industries or with the heavy users of such technologies. If they decide to take a minor in MIS, graduates will be able to function as liaisons representing their department or business function in information systems projects. This program is guided by several curriculum principles:

• Designed to educate management-oriented, technically proficient information systems professionals.
• Focused on requirements engineering and other stages of system life cycle requiring heavy involvement of systems analysts rather than on technical implementation stages.
• Complements a thorough understanding of business operations covered in the core undergraduate business curriculum. This combination of competencies is particularly important for systems analysts and makes this program distinct from programs in computer science.
• Designed according to current technological trends and is flexible to accommodate its adjustment as stipulated by rapidly changing and evolving information technologies.
• Includes sufficient training in technology skills in high demand to make graduates easily employable and immediately productive.

In this program, students will acquire:

• A broad understanding of information technologies and their utilization in private and governmental organizations
• An in-depth understanding of information systems life cycle and the nature of related phases and tasks from initial study through post-implementation support
• A thorough understanding of system requirements elicitation, analysis, documentation, validation, and management
• Ability to work with users and builders of information systems
• An understanding of information systems project management
• Ability to develop prototypes using visual programming technology
• Ability to identify organizational data and to design and manipulate databases
• Ability to integrate technical knowledge and understanding of business operations
• Experience working on team projects

Learning Outcomes
Core Outcomes
• Use analytical and reflective skills in decision-making.
• Communicate effectively both orally and in writing.
• Recognize legal and ethical issues confronting them.
• Contribute to the performance of a group within a business setting.
• Know the differences among global economies, institutions, business practices and cultures.
• Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Program Specific Outcomes
Students will be able to:

• Analyze, gather requirements, and design systems.
• Conceptualize, design, and develop relational databases.
• Develop, control, and manage projects.

College Core Requirements
Business Core Requirements
All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of analytics, accountancy, mathematics, economics, business law, finance, management, management information systems/computer science, and marketing.

Course Requirements
For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 66.0 hours are required:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>

</tr>
<tr>
<td>ICS 396</td>
<td>HOSPITALITY STRATEGY (Hospitality majors only)</td>
</tr>
</tbody>
</table>

### Second Majors and Minors

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

### Business Ethics

All undergraduate students in the Driehaus College of Business complete a course in Business Ethics. It is recommended students take MGT 248 or PHL 248 in Philosophical Inquiry or MGT 228 or REL 228 in Religious Dimensions in the Liberal Studies Program (or University Honors Program) Requirements.
Math Requirements for all business majors (except Actuarial Science majors)

- MAT 137 may be replaced by MAT 348 or MAT 351; if done, an additional Scientific Inquiry course must be added to the degree plan.

Math Requirements for Actuarial Science majors

- An Actuarial Science student is expected to complete the Calculus sequence (MAT 150, MAT 151, and MAT 152) in the first year of study.
- Actuarial Science students do not take MAT 135, MAT 136, or MAT 137.

Grade Minimum Requirements for Management Information Systems Major

A minimum grade of C- is required for the following:

- ACC 101
- ACC 102
- BUS 102
- ECO 105
- ECO 106
- MAT 137
- MIS 140

and the course used for Professional Writing.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

**Learning Domains**

- Arts and Literature (AL) (p. 1184)
  - 3 AL Courses Required

- Historical Inquiry (HI) (p. 1188)
  - 2 HI Courses Required

- Philosophical Inquiry (PI) (p. 1190)
  - 2 PI Courses Required

Religious Dimensions (RD) (p. 1191)

- 2 RD Courses Required

Scientific Inquiry (SI) (p. 1193)

- MAT 137
- 1 Lab or SWK Course

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)

- 1 SCBI Course Required

1. PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD.

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

In addition to MIS 140, a student majoring in Management Information Systems is required to complete the following courses totaling at least 26.0 hours:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter</th>
</tr>
</thead>
<tbody>
<tr>
<td>IT 130</td>
<td>INTRODUCTORY COMPUTING FOR THE WEB</td>

<td>MIS 398</td>
<td>SPECIAL TOPICS 1</td>
<td></td>
</tr>
</tbody>
</table>

1. Topic: Data Mining and Analytics only.

MIS 350 is to be taken only by MIS minors; MIS 360 is to be taken only by MIS majors.
Career Management Course
Students are required to complete the Career Course (250) associated with the major. Students who double major may choose the Career Course (250) associated with either major provided that hours for graduation are satisfied.

Open Electives
Open elective credit (24.0 hours) also is needed to meet the minimum graduation requirement of 192 hours.

Graduation Requirements
All Management Information Systems (MIS) courses and any courses used toward the Management Information Systems major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Management Information Systems (Minor)
Available to students majoring outside the Driehaus College of Business, the Management Information Systems minor presents both the business and technological foundations of information systems designed to complement the primary course of study.

Course Requirements
A non-Driehaus student minoring in Management Information Systems is required to complete the following courses totaling at least 20.0 hours:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MIS 140</td>
<td>INTRODUCTION TO BUSINESS TECHNOLOGY AND DECISION MAKING</td>

¹ Topic: Data Mining and Analytics only.

MIS 350 is to be taken only by MIS minors; MIS 360 is to be taken only by MIS majors.

Graduation Requirements
All MIS courses and any courses used toward the Management Information Systems minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Marketing (BSB)
The ultimate goal of an organization is to satisfy the needs and wants of its customers profitably. The Marketing Department offers a variety of courses designed to develop and sharpen student skills to analyze and solve marketing problems. Successful marketing requires the ability to know how and when to do research, how to analyze markets and behavior, and how to develop products and services that satisfy or even anticipate customers’ needs. The purpose of the undergraduate program in Marketing is to prepare students for successful marketing careers by teaching them the knowledge and skills to identify marketing problems and develop solutions that meet customer needs.

Learning Outcomes
Core Outcomes
Students will be able to:

• Use analytical and reflective skills in decision-making.
• Communicate effectively both orally and in writing.
• Recognize legal and ethical issues confronting them.
• Contribute to the performance of a group within a business setting.
• Know the differences among global economies, institutions, business practices and cultures.
• Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Program Specific Outcomes
Students will be able to:

• Create a value proposition.
• Distinguish features and benefits of products and services.
• Describe how external factors and demographic change affect demand for products and services.
• Identify marketing problems and develop appropriate solutions by collecting, analyzing, and interpreting data.
• Create a marketing plan.
• Use marketing methodologies/tools to make strategic decisions.

College Core Requirements
Business Core Requirements
All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of analytics, accountancy, mathematics, economics, business law, finance, management, management information systems/computer science, and marketing.

Course Requirements
For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 66.0 hours are required:

<table>
<thead>
<tr>
<th>Course</th>

¹ Strobel students take specially designated sections of all required ACC classes, including ACC 101 and ACC 102 (excluding ACC 250).
² Students majoring in accounting (primary or secondary/double major) are allowed to substitute ACC 370 in place of BLW 201.
Hospitality Leadership majors must take HSP 207 for the Business Law requirement; use of HSP 207 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete both HSP 207 and BLW 201.
All business majors take BUS 102. Actuarial Science students must take MAT 151 in lieu of BUS 102. BSB analytics content met within Actuarial Science major requirements.

Finance majors, Finance secondary/double majors, Finance minors, Finance Honors majors, Finance Honors secondary/double majors, and Actuarial Science majors must take FIN 320.

MGT 301-H is required if pursuing the Management Honors Program.

Majors and double majors in Accountancy, Actuarial Sciences, Economics, Finance, Finance Honors and Management Information Systems and Finance minors must take FIN 310.

MIS majors and minors must take MIS 140.

Actuarial Science majors must take CSC 241.

MKT majors and Sales minors must take MKT 376.

Entrepreneurship majors and minors must take ICS 394. Hospitality Leadership majors must take ICS 396 for the Business Capstone; use of ICS 396 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete ICS 396 and one of ICS 394 or ICS 395.

A course taken for Global Business Perspective that is in a student's major or minor field must be completed with a minimum grade of C-.

Actuarial Science majors must take MAT 341 for Professional Writing; use of MAT 341 is limited to Actuarial Science majors.

**Business Ethics**

All undergraduate students in the Driehaus College of Business complete a course in Business Ethics. It is recommended students take MGT 248 or PHL 248 in Philosophical Inquiry or MGT 228 or REL 228 in Religious Dimensions in the Liberal Studies Program (or University Honors Program) Requirements.

**Second Majors and Minors**

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

**Math Requirements for all business majors (except Actuarial Science majors)**

- MAT 137 may be replaced by MAT 348 or MAT 351; if done, an additional Scientific Inquiry course must be added to the degree plan.

**Math Requirements for Actuarial Science majors**

- An Actuarial Science student is expected to complete the Calculus sequence (MAT 150, MAT 151, and MAT 152) in the first year of study.
- Actuarial Science students do not take MAT 135, MAT 136, or MAT 137.

**Communication Requirement**

Students majoring in Marketing must complete MKT 376 for the Communication requirement.

**Global Business Perspective**

If a MKT course or ICS 350 is shared between Global Business Perspective and the Marketing major, additional hours of Open Elective credit are required.

---

### Grade Minimum Requirements for Marketing Major

A minimum grade of C- is required for the following: ACC 101, ACC 102, BUS 102, ECO 105, ECO 106, MAT 137, MKT 301, MKT 310, MKT 376, the course used for Professional Writing, and any MKT course used for Global Business Perspective.

### Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

---

3 All business majors take BUS 102. Actuarial Science students must take MAT 151 in lieu of BUS 102. BSB analytics content met within Actuarial Science major requirements.

4 Finance majors, Finance secondary/double majors, Finance minors, Finance Honors majors, Finance Honors secondary/double majors, and Actuarial Science majors must take FIN 320.

5 MGT 301-H is required if pursuing the Management Honors Program.

6 Majors and double majors in Accountancy, Actuarial Sciences, Economics, Finance, Finance Honors and Management Information Systems and Finance minors must take FIN 310.

7 MIS majors and minors must take MIS 140.

8 Actuarial Science majors must take CSC 241.

9 MKT majors and Sales minors must take MKT 376.

10 Entrepreneurship majors and minors must take ICS 394. Hospitality Leadership majors must take ICS 396 for the Business Capstone; use of ICS 396 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete ICS 396 and one of ICS 394 or ICS 395.

11 A course taken for Global Business Perspective that is in a student's major or minor field must be completed with a minimum grade of C-.

11 Actuarial Science majors must take MAT 341 for Professional Writing; use of MAT 341 is limited to Actuarial Science majors.

---

**MAT 137** may be replaced by MAT 348 or MAT 351; if done, an additional Scientific Inquiry course must be added to the degree plan.

**MAT 150, MAT 151, and MAT 152** in the first year of study.

**Actuarial Science students** do not take MAT 135, MAT 136, or MAT 137.

**Communication requirement**

Students majoring in Marketing must complete MKT 376 for the Communication requirement.

**Global Business Perspective**

If a MKT course or ICS 350 is shared between Global Business Perspective and the Marketing major, additional hours of Open Elective credit are required.
Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements
Course Requirements
In addition to MKT 301 and MKT 310, a student majoring in Marketing is required to complete the following courses totaling 30.0 hours plus 4.0 hours to be shared with the Business Core (34.0 hours total):

- One required course to be taken for 2.0 hours:
  - MKT 250
- One required course to be taken in Business Core:
  - MKT 376
- One Marketing Concentration of seven courses to be taken for 28.0 hours to be chosen from:
  - Digital Marketing
  - Sales Leadership
  - Standard Marketing

Communication Requirement
MKT 376 must be completed by students majoring in Marketing and serves as the Communication requirement in the Business Core.

Second Marketing Concentration
While a student may complete more than one Marketing concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Career Management Course
Students are required to complete the Career Course (250) associated with the major. Students who double major may choose the Career Course (250) associated with either major provided that hours for graduation are satisfied.

Global Business Perspective
If an MKT or ICS 350 course is shared between Global Business Perspective and the Marketing major, additional hours of Open Elective credit are required. Any MKT or ICS 350 course used toward the Global Business Perspective requirement must be passed with C- or higher.

Open Electives
Open elective credit (20.0 hours) is also required to meet the minimum graduation requirement of 192 hours.

Combined Bachelor’s + Master’s Program Participants
Students admitted to a Marketing Combined Bachelor’s + Master’s program may apply up to three approved graduate course(s) towards their undergraduate degree. Students should see academic advisor for additional information.

Graduation Requirements
All Marketing (MKT) courses and any other courses used toward the Marketing major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Digital Marketing Concentration, Marketing (BSB) (p. 655)
- Sales Leadership Concentration, Marketing (BSB) (p. 656)
- Standard Concentration, Marketing (BSB) (p. 656)

Career Orientations
Advertising and Promotion
Skills that lead to successful careers in Advertising and Promotion include: analysis of market research data; media planning; the creation of persuasive messages; strategic coordination of elements of the marketing communication mix; sales promotion strategies; public relations analysis and tactical management. You may consider the Standard concentration in Marketing to pursue this career path. Marketing elective courses for students interested in a career in advertising and promotion include the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MKT 320</td>
<td>PRINCIPLES OF ADVERTISING</td>
<td></td>
</tr>
<tr>
<td>MKT 321</td>
<td>SOCIAL MEDIA MARKETING</td>
<td></td>
</tr>
<tr>
<td>MKT 395</td>
<td>INTERACTIVE/INTERNET MARKETING</td>
<td></td>
</tr>
</tbody>
</table>

Category Management
Category Management is the practice of managing a group of related products as one category to maximize profitability. Successful companies expect their suppliers to act as partners that will help them grow their businesses, sharing industry expertise and consumer insight. We have partnered with the Category Management Association to develop a unique curriculum that will prepare students for careers in this rapidly growing field and lead to industry certification. You may consider the Sales Leadership concentration in Marketing to pursue this career path. A student interested in category management should take the courses listed below:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MKT 376</td>
<td>EFFECTIVE BUSINESS COMMUNICATION</td>
<td></td>
</tr>

<td></td>
</tr>
</tbody>
</table>
International Marketing
The international area of marketing offers students the opportunity to examine the economy and business management of many countries in their political, historical, and socio-cultural context. Students who concentrate on international marketing would develop career opportunities in international sales, international product management, or international marketing management. You may consider the Standard concentration in Marketing to pursue this career path. DePaul Marketing students may combine their majors with either a minor in a commercial language through the College of Liberal Arts and Social Sciences, or with selected course work in International Studies. Students interested in international marketing benefit by enrolling in the following Marketing courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MKT 320</td>
<td>PRINCIPLES OF ADVERTISING</td>
<td></td>
</tr>
<tr>

<td></td>
</tr>
<tr>
<td>MKT 360</td>
<td>INTERNATIONAL MARKETING</td>
<td></td>
</tr>
<tr>
<td>MKT 390</td>
<td>SERVICE MARKETING</td>
<td></td>
</tr>
</tbody>
</table>

Market Research
Market research encompasses problem formulation, data gathering, data analysis, and communication of findings. An understanding of statistics, psychology and sociology as related to marketing is desirable. You may consider the Standard concentration in Marketing to pursue this career path. A student interested in market research will benefit from the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MKT 305</td>
<td>INTRODUCTION TO MARKETING RESEARCH</td>
<td></td>
</tr>
<tr>

<td></td>
</tr>
<tr>
<td>MKT 320</td>
<td>PRINCIPLES OF ADVERTISING</td>
<td></td>
</tr>
<tr>
<td>MKT 352</td>
<td>NEW PRODUCT DEVELOPMENT</td>
<td></td>
</tr>
</tbody>
</table>

Marketing Management
Many chief executives of top U.S. companies have a background in marketing. Strong marketing provides a key competitive advantage in a dynamic global economy. The marketing management emphasis is appropriate for students with a general interest in planning, development, and introduction of products and services. You may consider the Standard concentration or the IME program in Marketing to pursue this career path. A student interested in marketing management should take the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MKT 315</td>
<td>STRATEGIC TOOLS FOR MARKETERS</td>
<td></td>
</tr>
<tr>
<td>MKT 320</td>
<td>PRINCIPLES OF ADVERTISING</td>
<td></td>
</tr>
</tbody>
</table>

Digital Marketing Concentration, Marketing (BSB)
Digital marketer, showing a 39% growth rate, has become one of the most important job titles in the marketing industry. Estimates are that marketers’ communications budgets will exceed $120 billion by 2021 and advertising through digital means will represent 29% of that figure. A significant point relative to DePaul’s student and employment base is that the state of Illinois is the third ranked employer of people with digital backgrounds. All organizations, for-profit and not-for-profit, large and small, need digital marketing to be successful. The Marketing Department offers the Digital Marketing Concentration for students to prepare to succeed in this industry. A student majoring in Marketing with this concentration must complete the following requirements totaling at least 28.0 hours:

<table>
<thead>
<tr>
<th>Course</th>

Communication Requirement
Driehaus students majoring in Marketing must complete MKT 376 for the Communication requirement in the Business Core.

Second Marketing Concentration
While a student may complete more than one Marketing concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Global Business Perspective
If a MKT course or ICS 350 is shared between Global Business Perspective and the Marketing major, additional hours of Open Elective credit are required. Any MKT or ICS 350 used for Global Business Perspective course must be passed with C- or higher.

Experiential Learning
MKT 393 is required in the Digital Marketing Concentration. Consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements
All Marketing (MKT) courses and any other courses used toward the Marketing major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Sales Leadership Concentration, Marketing (BSB)
The demand for trained and knowledgeable sales people has never been greater. Sales careers offer independence, ample financial reward, personal growth and opportunities for rapid advancement within the organization. The Sales Leadership Program produces business graduates who can sell by joining traditional classroom education with real-world learning experience. Classes are led by faculty with extensive sales experience and by sales executives from leading corporations. Students experience rigorous classroom learning designed to deliver the knowledge and practical skills they will need to succeed during the first years of their careers including: oral and written communication, selling technique and networking, use of technology in customer strategy and identification, and development of organization leadership in a sales environment. Successful students will enjoy opportunities to visit companies, take paid internships, and interview with leading companies for entry-level positions. A student majoring in Marketing with this concentration must complete the following requirements totaling at least 28.0 hours:

Course Requirements

All Marketing (MKT) courses and any other courses used toward the Marketing major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Standard Concentration, Marketing (BSB)
The Standard Marketing concentration provides students with the flexibility to tailor their programs to fit a wide array of career interests. Graduates with a marketing major have many career opportunities in the various areas of marketing such as advertising, market research, sales management, or marketing management. The department offers electives that focus in each area. Majors may wish to group their elective courses with a concentration or specific career orientation in mind, although this is not required. A student majoring in Marketing with this concentration must complete the following requirements totaling at least 28.0 hours:

Course Requirements

<table>
<thead>
<tr>
<th>Course</th>

Graduation Requirements

All Marketing (MKT) courses and any courses used toward the Marketing minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Marketing (MS)

The Master of Science in Marketing prepares students with the knowledge and skills required to identify and develop products and services that meet customer needs. Taught by scholars and business leaders who bring the real world of marketing into the classroom, course work emphasizes proficiency in analysis, conceptual ability, planning and control of market activity. Upon graduating, students will be prepared for the challenges of a marketing career in an ever-changing and fast-paced business environment.

Program Features

The MS in Marketing program curriculum includes a wide range of courses that will provide you with a solid foundation in market analysis, evaluating market activity and management strategies, including:

- Marketing strategy and planning
- Research and analytical tools for marketing
- Analysis of consumer trends and business conditions
- Effective and ethical decision-making
- Business communication

</tbody>
</table>

Learning Outcomes

Students will be able to:

- Appropriately apply relevant concepts and knowledge to applied business problems.
- Use analytical and reflective skills in making decisions.
- Communicate effectively in writing and in oral presentations.
- Recognize and analyze ethical problems within applied business situations, choose a resolution, and justify that ethical choice.

Degree Requirements

Course Requirements

Students in the MS in Marketing program must complete seven core marketing courses and five marketing electives. Please note that it is assumed that admitted students have prior coursework in statistics. Students without prior coursework in statistics must complete GSB 420 or GSB 519 prior to registering for MKT 525.

Please consult with a faculty member or advisor to assist with choosing the most appropriate courses to match your career goals.

Degree Requirements
• Satisfactory completion of the college residency requirement.
• Satisfactory completion of the seven core marketing courses and five marketing electives.
• All courses for credit toward the degree must be completed within six calendar years after the candidate’s first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree.

Marketing (MS), Combined Bachelor’s + Master’s Degree
The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Marketing (MS)
The Master of Science in Marketing is designed to provide hands-on marketing experience under the mentorship of faculty who are experts in the professional world. The program will provide you with a broad-based knowledge of marketing strategy, consumer trends and data analysis, effective and ethical decision making and business communications.

DePaul degree-seeking undergraduate students interested in earning a Master of Science in Marketing may apply to the Marketing (MS) combined program. Students may be able to obtain both degrees in an expedited period, typically in five years.

Admission
Students must formally apply and be admitted to the Department of Marketing before beginning their graduate coursework. Undergraduate students who meet the following criteria may apply to this program:
• Junior standing or higher (at least 88.0 credits)
• A minimum cumulative DePaul grade point average of 3.200

Students participating in this program will typically take the following three graduate level courses during their senior year:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MKT 555</td>
<td>MARKETING MANAGEMENT</td>
<td>4</td>
</tr>
<tr>
<td>MKT 545</td>
<td>CONSUMER BEHAVIOR</td>
<td>4</td>
</tr>
<tr>
<td>MKT 576</td>
<td>EFFECTIVE BUSINESS COMMUNICATION</td>
<td>4</td>
</tr>
</tbody>
</table>

1 Students who have taken MKT 376 as undergraduates may substitute a Marketing elective for MKT 576.

These three courses may double-count up to 12 credits towards both degree programs. The undergraduate degree will be awarded upon completion of all undergraduate work while the MS in Marketing will be awarded upon completion of the remaining graduate level work.

Marketing Analysis (MS)
The Master of Science (MS) in Marketing Analysis is designed for students interested in a quantitative approach to marketing. The program encompasses: marketing research; strategy and planning; mastering analytical tools; and analyzing, interpreting and applying data. Classes are taught by scholars and business leaders who bring the real world of marketing into the classroom.

Program Features
The MS in Marketing Analysis program provides students with skills and knowledge that are sought after by a wide range of organizations. Through the program, students develop an in-depth understanding of:
• The role of data in customer and market analysis
• Data analysis to detect trends, exceptions and business opportunities
• The latest marketing analytic tools
• Decision-making strategies
• How to create marketing strategies based on data collection and interpretation

Program Requirements
<table>
<thead>
<tr>
<th>Program Requirements</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Degree Requirements</td>
<td>48</td>
</tr>
<tr>
<td>Total hours required</td>
<td>48</td>
</tr>
</tbody>
</table>
Learning Outcomes

Students will be able to:

- Use analytical and problem-solving skills in decision-making.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Recognize and analyze ethical problems within applied business situations, choose a resolution, and justify that ethical choice.
- Be knowledgeable about the differences among global economies, institutions, and cultures and understand the implications these have on global management.
- Demonstrate higher-order cognitive skills to analyze an unstructured problem, formulate and develop a solution using appropriate technology, and effectively communicate the results to stakeholders.

Degree Requirements

Course Requirements

Students should have sufficient knowledge in statistics to enter the program. If students need to acquire these skills one of the following courses will be required:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GSB 420</td>
<td>BUSINESS ANALYTICS TOOLS</td>
<td>4</td>
</tr>
<tr>
<td>or GSB 519</td>
<td>BUSINESS ANALYTICS TOOLS (FORMERLY GSB420)</td>
<td></td>
</tr>
</tbody>
</table>

Students complete the MS in Marketing Analysis by taking seven required courses and five elective courses for a total of 12 courses.

Core Courses (7 courses)

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

Degree Requirements

- Satisfactory completion of the college residency requirement.
- Satisfactory completion of 12 courses (7 required courses and 5 elective courses: 2 from marketing electives and 3 are from the analytical group).
- All courses for credit toward the degree must be completed within six calendar years after the candidate’s first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree.

Marketing Analysis (MS), Combined Bachelor’s + Master’s Degree

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Marketing Analysis (MS)

The Master of Science in Marketing Analysis is designed for early career professionals to gain a quantitative approach to real-world marketing challenges in preparation for a career in business and marketing analytics, market research, interactive marketing, or other data-driven marketing roles. The program will provide you with a broad-based knowledge of customer and market analysis, detecting trends and business opportunities, the latest marketing analytics tools, and decision-making strategies.

DePaul degree-seeking undergraduate students interested in earning a Master of Science in Marketing Analysis may apply to the Marketing
Analysis (MS) combined program. Students may be able to obtain both degrees in an expedited period (as few as five years).

Admission
Students must formally apply and be admitted to the Department of Marketing before beginning their graduate coursework. Undergraduate students who meet the following criteria may apply to this program:

- Junior standing or higher (at least 88.0 credits)
- A minimum cumulative DePaul grade point average of 3.200

Students participating in this program will typically take the following three graduate level courses during their senior year:

<table>

<td>EFFECTIVE BUSINESS COMMUNICATION 1</td>
<td>4</td>
</tr>
</tbody>
</table>

1 Students who have taken MKT 376 as undergraduates may substitute a Marketing elective for MKT 576.

These three courses may double-count up to 12 credits towards both degree programs. The undergraduate degree will be awarded at the completion of all undergraduate work while the MS in Marketing Analysis will be awarded upon completion of the remaining graduate level work.

Marketing Honors (BSB)
IME, the honors sequence in Marketing, gives a select group of undergraduate students a hands-on opportunity to develop skills in marketing management while interacting with a Chicago area business. The real world focus of IME is an outgrowth of DePaul's strong links to the Chicago business community.

Instead of a series of classes that address a single marketing function, the IME curriculum features courses that address marketing issues in the way that managers are likely to encounter them. The stage is set for lifelong learning in the marketing profession.

IME students are selected on a competitive basis. The evaluation is based on an interview, writing sample and performance in previous marketing and other coursework. Classes are limited in size and offered only once per year.

Learning Outcomes
Core Outcomes
Students will be able to:

- Use analytical and reflective skills in decision-making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Program Specific Outcomes
Students will be able to:

- Create a value proposition.
- Distinguish features and benefits of products and services.
- Describe how external factors and demographic change affect demand for products and services.
- Identify marketing problems and develop appropriate solutions by collecting, analyzing, and interpreting data.
- Create a marketing plan.
- Use marketing methodologies/tools to make strategic decisions.

College Core Requirements
Business Core Requirements
All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of analytics, accountancy, mathematics, economics, business law, finance, management, management information systems/computer science, and marketing.

Course Requirements
For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 66.0 hours are required:

<table>

MIS 140  INTRODUCTION TO BUSINESS TECHNOLOGY AND DECISION MAKING

**Communication** 5
Select one of the following: 4
- MKT 376  EFFECTIVE BUSINESS COMMUNICATION
- ORGC 201  BUSINESS AND PROFESSIONAL COMMUNICATION

**Business Capstone** 4
Select one of the following: 4
- ICS 394  ENTREPRENEURSHIP STRATEGY
- ICS 395  MANAGEMENT STRATEGY
- ICS 396  HOSPITALITY STRATEGY (Hospitality majors only)

**Global Business Perspective** 10
Select 4.0 hours of the following: 4
- ECO 316  EUROPEAN ECONOMIC HISTORY
- ECO 330  RADICAL RESPONSES TO CAPITALISM
- ECO 333  TOPICS IN GLOBAL ECONOMIES
- ECO 334  UNDERSTANDING CHINA'S ECONOMY
- ECO 360  ECONOMICS OF LOW-INCOME COUNTRIES
- ECO 361  INTERNATIONAL TRADE
- ECO 362  INTERNATIONAL MONETARY ECONOMICS
- ECO 363  ECONOMICS OF THE EUROPEAN UNION
- FIN 340  INTERNATIONAL FINANCE
- FIN 355  GLOBAL IPOs & VENTURE CAPITAL
- ICS 350  INTERNATIONAL BUSINESS SEMINAR
- MGT 354  GLOBAL HUMAN RESOURCE MANAGEMENT
- MGT 357  INTERNATIONAL BUSINESS
- MKT 340  MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
- MKT 358  MARKETING IN A GLOBAL ENVIRONMENT
- MKT 360  INTERNATIONAL MARKETING
- SOC 217  WORK IN A GLOBALIZED WORLD

A course taken as part of a term-long study abroad program

**Professional Writing** 11
Select one of the following: 2-4
- WRD 202  PROFESSIONAL WRITING FOR BUSINESS (2.0 quarter hours)
- WRD 204  TECHNICAL WRITING
- WRD 206  PROFESSIONAL WRITING
- MAT 341  STATISTICAL METHODS USING SAS (Actuarial Science majors only)

1. Strobel students take specially designated sections of all required ACC classes, including ACC 101 and ACC 102 (excluding ACC 250).
2. Students majoring in accounting (primary or secondary double major) are allowed to substitute ACC 370 in place of BLW 201. Hospitality Leadership majors must take HSP 207 for the Business Law requirement; use of HSP 207 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete both HSP 207 and BLW 201.

3. All business majors take BUS 102. Actuarial Science students must take MAT 151 in lieu of BUS 102. BSB analytics content met within Actuarial Science major requirements.
5. MGT 301-H is required if pursuing the Management Honors Program.
7. MIS majors and minors must take MIS 140. Actuarial Science majors must take CSC 241.
8. MKT majors and Sales minors must take MKT 376.
9. Entrepreneurship majors and minors must take ICS 394. Hospitality Leadership majors must take ICS 396 for the Business Capstone; use of ICS 396 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete ICS 396 and one of ICS 394 or ICS 395.
10. A course taken for Global Business Perspective that is in a student's major or minor field must be completed with a minimum grade of C-.
11. Actuarial Science majors must take MAT 341 for Professional Writing; use of MAT 341 is limited to Actuarial Science majors.

**Business Ethics**
All undergraduate students in the Driehaus College of Business complete a course in Business Ethics. It is recommended students take MGT 248 or PHIL 248 in Philosophical Inquiry or MGT 228 or REL 228 in Religious Dimensions in the Liberal Studies Program (or University Honors Program) Requirements.

**Second Majors and Minors**
The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

**Math Requirements for all business majors (except Actuarial Science majors)**
- MAT 137 may be replaced by MAT 348 or MAT 351; if done, an additional Scientific Inquiry course must be added to the degree plan.

**Math Requirements for Actuarial Science majors**
- An Actuarial Science student is expected to complete the Calculus sequence (MAT 150, MAT 151, and MAT 152) in the first year of study.
- Actuarial Science students do not take MAT 135, MAT 136, or MAT 137.

**Communication Requirement**
Students majoring in Marketing must complete MKT 376 for the Communication requirement.

**Global Business Perspective**
If a MKT course or ICS 350 is shared between Global Business Perspective and the Marketing major, additional hours of Open Elective credit are required.
Grade Minimum Requirements for Marketing Major
A minimum grade of C- is required for the following: ACC 101, ACC 102, BUS 102, ECO 105, ECO 106, MAT 137, MKT 301, MKT 310, MKT 376, the course used for Professional Writing, and any MKT course used for Global Business Perspective.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 Students must earn a C- or better.

Learning Domains
Arts and Literature (AL) (p. 1184)
- 3 AL Courses Required

Historical Inquiry (HI) (p. 1188)
- 2 HI Courses Required

Philosophical Inquiry (PI) (p. 1190)
- 2 PI Courses Required

Religious Dimensions (RD) (p. 1191)
- 2 RD Courses Required

Scientific Inquiry (SI) (p. 1193)
- MAT 137
- 1 Lab or SWK Course

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)
- 1 SCBI Course Required

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements
Course Requirements
In addition to MKT 301 and MKT 310, a student majoring in IME Honors Marketing is required to complete the following courses totaling at least 30.0 hours plus 4.0 hours to be shared with Business Core (34.0 hours total):

<table>

Communication Requirement
MKT 376 must be completed by students majoring in Marketing and serves as the Communication requirement in the Business Core.

Second Marketing Concentration
While a student may complete more than one Marketing concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Open Electives
Open elective credit (20.0 hours) is also required to meet the minimum graduation requirement of 192 hours.

Global Business Perspective
If a MKT course or ICS 350 is shared between Global Business Perspective and the Marketing major, additional hours of Open Elective credit are required. Any MKT or ICS 350 course must be passed with C- or higher.

Experiential Learning
MKT 393 is required in the Marketing Honors/IME major. Consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements
All Marketing (MKT) courses and any other courses used toward the Marketing major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Marketing: Sales Leadership (Minor)
Available to students majoring outside the Driehaus College of Business, the Sales Leadership minor is for students interested acquiring skills in sales and category management: the interpretation of strategic consumer insight to help retailers maximize profitability and create an enjoyable shopping experience.

Course Requirements
A non-Driehaus student minoring in Sales Leadership is required to complete the following courses totaling at least 24.0 hours:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MKT 301</td>
<td>PRINCIPLES OF MARKETING</td>

Communication
Driehaus students minoring in Sales Leadership must complete MKT 376 for the Communication requirement in the Business Core.
**Graduation Requirements**

All Marketing (MKT) courses and any courses used toward the Marketing minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

**Master of Business Administration (MBA)**

**DePaul Master of Business Administration**

The DePaul MBA empowers you to analyze and take action, inspire others and drive results in a rapidly changing world. Revised in 2020, the curriculum blends theory and practice and prepares you for career advancement. You’ll acquire sought-after skills for analyzing data to inform managerial decision-making while building your talent for leadership, teamwork and interpersonal intelligence. Real-world experiential learning that expands career potential is a key part of the program. You’ll have access to career management resources available exclusively for graduate business students and join a 65,000-strong DePaul business alumni network when you graduate. The DePaul MBA is available in three formats: full-time day, weekend and part-time evening. Concentrations are available in a wide range of business disciplines. DePaul also partners with corporations and organizations to offer MBA degrees for employees.

**Learning Outcomes**

Students will be able to:

- Use analytical and problem-solving skills in decision-making.
- Apply knowledge about the differences among global economies, institutions, and cultures to understand the implications these have on global management.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Effectively contribute to the performance of a group as the group addresses practical business situations, and assume a leadership role as appropriate.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Acquire broad-based knowledge and skills necessary to fulfill their professional goals.

**Course Requirements for the New 2020 MBA Programs**

The MBA program requires completion of sixteen courses (60 quarter hours). In addition to the eleven core course (40 quarter hours) requirements below, students must select five courses/electives (20 quarter hours) to specialize in a business area of their choice.

**Accountancy, Master of Business Administration (MBA)**

The Accountancy MBA concentration provides you with coursework that is critical to decision-making in the accounting profession. The program includes theory and concepts, technical knowledge, practical skills and familiarization with the tools and methodologies used by an accountant or a manager making accounting decisions. You will develop skills in critical thinking, problem-solving and financial management. You will gain business acumen to understand financial transactions within a company.
The curriculum covers all of the accounting course areas to prepare you to sit for the CPA exam.

**Highlights**

You will graduate with a set of varied competencies, all of which are highly sought after in the accounting field. The structure of the concentration will provide you with:

- A comprehensive curriculum covering all important sectors of the field identified by top-ranking members of the auditing and accounting profession, including big data analysis, internal audit, fraud and forensic accounting and information systems.
- Opportunities to work with audit systems used by accounting professionals.
- Experience learning from nationally and internationally recognized faculty.
- Access to a large and active alumni group called Ledger & Quill, which supports students with scholarship opportunities, mentorship and annual networking events.
- Several accounting-related student organizations, allowing for interaction with peers, alumni and working professionals.

**Concentration Requirements**

This concentration requires completion of any three graduate-level accounting courses. Students select an individualized set of courses using the content areas below as a guide. Students may focus on one area of courses or combine courses from multiple areas depending on what matches their career aspirations.

**Applied Economics, Master of Business Administration (MBA)**

DePaul’s MBA concentration in Applied Economics gives students a deeper understanding of the fundamentals that govern economic activity. Students study the forces that drive markets and the economics of the decision-making processes of business and consumers in a market system. This concentration is particularly ideal for analytically focused, logically minded students who want to hone their problem-solving abilities.

**Highlights**

In this concentration, you will gain the knowledge, competencies and skills to:

- Help businesses and organizations adapt to the ever-changing economic environment.
- Relate the domestic and global economic outlooks to your business’s or organization’s markets, as well as advanced applications for bridging strategic analysis to financial forecasts and valuation.
- Prepare and interpret forecasts for businesses regarding optimal pricing, sales and advertising, marketing policies, purchasing, industrial relations and investment and portfolio decisions.
• Conduct empirical analyses of business and consumer decision-making.
• Apply evidence-based methodology to inform decisions and policy.

Concentration Requirements

Course Requirements
To complete this concentration, students are required to complete three graduate-level Economics courses. ECO 502, ECO 509 and ECO 555 (if taken to satisfy core requirements) are not approved for use as MBA concentration electives.

Depending on the student’s specific interests, this concentration offers two possible tracks:

• Applied Microeconomics and Policy Analysis; and
• The Economic Environment.

Students can take classes from either track (or a mix from both) in meeting the three-course concentration requirement.

Applied Microeconomics and Policy Analysis

Business Analytics, Master of Business Administration (MBA)

The MBA in Business Analytics will equip you with sought-after skills for understanding and using data to improve business performance. The curricula blends data science, including statistics, decision modeling and data visualization, with essential business knowledge in the areas of operations, accounting/finance, management and marketing. You’ll gain expertise in data-driven managerial decision-making that can be applied to a wide range of business functions and fields, including marketing, finance, operations, human resources, healthcare and hospitality.

Concentration Requirements

Course Requirements
To complete the Business Analytics concentration, students are required to complete four classes: MGT 585 and three of the following four classes: MGT 586, MGT 587, MGT 588, and ECO 520.

Business Strategy and Decision Making, Master of Business Administration (MBA)

• Be a clear and strategic thinker in the business world.
• Learn how to diagnose strategic positions, evaluate alternative courses of action, and make the best possible decisions.

DePaul’s MBA concentration in Business Strategy and Decision Making will give you the framework for making business decisions in a disciplined and strategic way. In this concentration, you will learn how to diagnose strategic positions, evaluate alternative courses of action and make the best possible decisions based on your objectives. You will accomplish this through extensive class discussions, case-study analysis and hands-on exercises.

Highlights

In this concentration, you will gain knowledge and abilities to:
Custom, Master of Business Administration (MBA)

The Custom MBA concentration provides you with the flexibility to create your own MBA focus based on your unique career goals. This degree is ideal if you want to combine a set of electives that are tailored to the precise skill set you need to advance in your career, or if you have multiple interests that you would like to combine. If you do not declare a specific concentration at the beginning of the program, you will be assigned the Custom MBA concentration. If a student does not declare a specific concentration, the student will be assigned the Custom MBA concentration at the beginning of the program.

Concentration Requirements

Course Requirements

The concentration requires three classes. The concentration consists of two required core classes: ECO 525, which provides a general framework for strategic thinking; ECO 526, which lays out the economic foundations of strategy, and one elective course that best matches your personal and professional objectives.

Course | Title | Quarter Hours
--- | --- | ---
Required Core Courses
ECO 525 | STRATEGIC DECISION MAKING AND GAME THEORY | 
ECO 526 | BUSINESS STRATEGY | 
Select one of the following:
ECO 529 | COMPETITION, STRATEGY AND ANTITRUST POLICY | 
ECO 531 | BUSINESS MODELS AND INNOVATION STRATEGY | 
ECO 535 | BEHAVIORAL ECONOMICS AND DECISION-MAKING | 

Highlights

- Create value for customers.
- Correctly diagnose a problem or position, make the best decisions to improve upon this position and sustain the improvement.
- Apply price and other strategies to gain a competitive edge and to enter or block entry to market.
- Capture value in various market settings by positioning and differentiating products for profitability.
- Innovate and reformulate entire business models based on networks, platforms and eco-systems.
- Develop negotiation skills that are important in the economic and business world, as well as in day-to-day life.
- Apply insights from psychology and behavioral sciences to understand economic and business decisions and formulate strategic plans and policies.
- Academic advisors are available to help you design your course of study to meet your career goals.

Entrepreneurship, Master of Business Administration (MBA)

DePaul's nationally ranked Entrepreneurship program will prepare you to start and grow your own business or to manage innovative processes in established firms. In the Entrepreneurship concentration, you will focus on the life-cycle issues of firms—from pre-venture and start-up to growth and maturity—as well as venture spin-offs and team and leadership issues.

The interrelated courses and learning experiences will teach you to master complex and ill-defined management issues across functional business areas. All courses are based on real-life entrepreneur issues and live case studies.

Highlights

You will gain the skills and abilities to:

- Think creatively and generate new business ideas.
- Develop your business idea through market analysis.
- Write a business plan.
- Assess your entrepreneurial leadership skills.
- Implement successful growth strategies.
- Build an entrepreneurial spirit within established firms.
- Consult for local businesses.
- Interact directly with entrepreneurs and innovators.

Students and alumni have access to DePaul's highly respected Coleman Entrepreneurship Center and Center for Innovation, as well as 1871, Chicago's premier business incubator, through DePaul's 1871 membership. The Coleman Entrepreneurship Center offers practical guidance and professional connections for launching and growing businesses through workshops, guest speakers and new venture competitions that engage DePaul with the Chicago entrepreneurial and venture capital community. The Center for Innovation fosters innovative strategies and tools for breakthrough thinking. Named one of the Top 10 innovation programs by Fortune Small Business, the center offers programs and workshops including the annual Student Innovation Awards Competition. The center’s Innovation Lab offers Design Thinking projects for students and businesses and 3D printing services.
Concentration Requirements

The Entrepreneurship MBA concentration requires students to complete any four of the graduate-level entrepreneurship-related courses. To help guide your class selections, below are examples of courses you could choose by career interests, with highly recommended courses for these career paths indicated with 1.

1 MGT573 can apply as a concentration course for students enrolled in an MBA program prior to Fall 2020.

Finance, Master of Business Administration (MBA)

The Finance MBA concentration provides you with in-depth, applied learning that will enable you to successfully understand, analyze and navigate today’s increasingly sophisticated global financial markets. Go beyond textbooks into the real world of stocks, investments, capitalization and banking while learning to use the latest high-tech financial software and market tools. You will receive a solid base of knowledge about various financial sectors and broaden your understanding of the issues that are inherent to finance decision-making, while focusing on the impact these decisions have on the public and private sectors of the global economy.

You have the choice of specializing in a particular area of finance—such as corporate finance, investments, derivatives or banking—or you may take a broad array of courses.

Highlights

In this program, you will gain the skills and knowledge to:

- Understand stock market analyses, institutional investing and portfolio management in domestic and global markets.
- Correctly valuate companies and markets through access to cutting-edge market research technology.
- Recognize and grasp the role and function of central banks in our economy and how their interactions with asset markets affect the larger economy.
- Develop risk management strategies.
- Apply what you learn in DePaul’s Virtual Trading Room, a state-of-the-art finance lab replete with the latest in financial analysis software.

Students and alumni have access to DePaul’s finance industry-related centers, including the Arditti Center for Risk Management, Center for Financial Services and Driehaus Center for Behavioral Finance. These centers provide guidance, professional networking opportunities and real-world education through conferences that feature nationally and internationally known speakers, including executives from the Federal Reserve Bank of Chicago, Chicago Mercantile Exchange and Federal Deposit Insurance Corporation, among other financial institutions.

Concentration Requirements

This concentration requires completion of four graduate-level Finance courses including one required course and three electives. RE 530 may be taken as one of the elective courses to satisfy the four course requirement.

Course Requirements

<table>

**Hospitality Leadership, Master of Business Administration (MBA)**

The Hospitality Leadership MBA concentration will help you develop skills to become a successful leader in the business of hospitality and tourism. You will gain skills to take a leadership role within hospitality operations in the context of guest experience and quality assurance. This concentration is ideal if you are a hospitality industry professional with a strong desire to enhance your knowledge and business skills or if you are looking to change your career and want to join the business side of hospitality operations.

**Highlights**

In this concentration, you will:

- Develop advanced hospitality leadership practices within the various industry segments (lodging, food and beverage, events, private clubs, etc.).
- Understand current trends in the industry and acquire the necessary skill set involving customer relationship management and service delivery.
- Learn management, marketing and hospitality strategies to enhance the business.
- Engage with fellow hospitality students who will become important career contacts.
- Have access to a world-class metropolitan environment in Chicago, allowing you to supplement knowledge from the classroom with real-world skills gained from learning and working within a vibrant hospitality scene.

**Concentration Requirements**

International Business, Master of Business Administration (MBA)

The International Business concentration will prepare you to navigate effectively as a manager in a complex and ever-changing global business environment. With the increasing interdependence of national economies and the growth of global enterprises, understanding international business frameworks and issues is vital to decision-makers. Through a multidisciplinary curriculum that includes accounting, economics, finance, management and marketing courses, you will have a chance to explore how businesses can manage the development of international commerce. Students taking this concentration must fulfill a foreign language requirement and have some international exposure outside of the classroom.

Highlights

This program provides:

- A global approach to macroeconomics and microeconomic topics, including trade theory, international financial policy and emerging markets, as well as insight into the global business environment.
- An understanding of the international economic and socio-cultural issues vital to decision-makers.
- Basic theory and knowledge of the current issues in international economics, accounting, finance, marketing and management.
- The opportunity to gain international exposure outside of the classroom through a study abroad business seminar. This seminar provides an excellent opportunity to expand your knowledge beyond the classroom and gain exposure to other cultures. Seminars are typically one-to-three weeks long and are scheduled to coincide with breaks between quarters in the academic calendar.

Concentration Requirements

Course Requirements

To complete this concentration, students must complete four courses from the following:

Management Information Systems, Master of Business Administration (MBA)

The Management Information Systems concentration teaches you how to analyze and define information systems requirements in various business situations and, much like an architect, guide others to build to these requirements. You will learn how to evaluate emerging disruptive technologies, how to align information technology with business strategy and how to address information systems needs from a business perspective. This degree will prepare you for professional roles involving IT planning and strategy. The program is ideal for business-minded, technically proficient students who may not have previous coursework or experience with information systems.

Highlights

In this concentration, you will gain:

- Project management experience involving a variety of information technologies and their utilization applicable to private and governmental organizations.
- Knowledge of the information systems life cycle and the nature of related phases and tasks, from initial study through post-implementation support.
- A thorough understanding of system requirements elicitation, analysis, documentation, validation and management.
- Techniques for working with users and builders of information systems.
- Tools for developing prototypes that use visual programming technology.
- Experience with identifying organizational data to design and manipulate databases.
- Integrated technical knowledge and understanding of business operations.

Concentration Requirements

To complete the Management Information Systems concentration, students must complete four courses from the following list:

<table>
<thead>
<tr>
<th>Course</th>

Management, Master of Business Administration (MBA)

The MBA concentration in management provides you with in-depth, applied learning that will enable you to successfully organize, lead
and direct others in the workplace. The program will prepare you for professional opportunities across industries, with a focus on self-awareness, leadership development, teamwork, project management and managing others.

**Highlights**

You have the flexibility to choose any four graduate-level management courses to fulfill your concentration after completing core MBA requirements. Depending on your goals, you could choose courses that prepare you for the following career paths:

- **Coaching and Talent Development**: Gain management coaching competencies to help others achieve change and performance improvement, and improve your individual leadership effectiveness and personal growth.
- **Consulting**: Master the process to consult with clients, including contracting, problem diagnosis, data analysis, and client feedback and evaluation.
- **Leadership and Change Management**: Learn the systematic process to design and lead change efforts that encompass diagnosing opportunities, creating change visions and developing readiness for change to improve organizational effectiveness.
- **Managing Human Capital**: Develop skills for strategically managing human resources to advance organizational goals, improve workforce performance and enhance employee satisfaction.
- **Supply Chain Management**: Increase your ability to critically evaluate supply chain design and model complex supply chain phenomena.

**Concentration Requirements**

The management MBA concentration (16 hours) requires students to complete any four graduate-level management courses. To help guide your class selections, below are examples of courses you could choose based on career goals.

### Coaching and Talent Development

Marketing Strategy and Planning, 
Master of Business Administration (MBA)

The Marketing Strategy and Planning MBA concentration puts you on track for upper-level management positions as it prepares you to master the art and science of business development and marketing. The program prepares you to find and evaluate new market opportunities, build strong customer relationships and design sustainable market strategies, as well as to understand organizational structure, competitive pricing and advantage, and external factors that affect marketing.

**Highlights**

In this concentration, you will gain knowledge and abilities to:

- Manage customers, product lines and new product development.
- Understand the design and sustainability of innovative business models.
- Develop plans and systematic strategies to achieve firm objectives.
- Analyze consumer behavior and translate your findings into sound business decisions.

**Concentration Requirements**

**Course Requirements**

The concentration in Marketing Strategy and Planning requires the following four courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MKT 535</td>
<td>MARKETING STRATEGIES AND PLANNING</td>
<td>4</td>
</tr>
<tr>
<td>MKT 536</td>
<td>PRICING STRATEGY</td>
<td>4</td>
</tr>
<tr>
<td>MKT 540</td>
<td>STRATEGIC PLANNING: DEVELOPING SUSTAINABLE BUSINESS MODELS</td>
<td>4</td>
</tr>
</tbody>
</table>

Select a minimum of one additional graduate-level Marketing course

Not including MKT 555 MARKETING MANAGEMENT.

Students are encouraged to consult with department faculty for related elective courses.

Marketing, Master of Business Administration (MBA)

The Marketing MBA will help you sharpen your skills in four key areas: market research, category management, business development and digital marketing. You can specialize in one area or combine areas to further enhance your skill set. The program will provide you with the knowledge and skills necessary to identify and develop programs and products that meet customer needs, and it will prepare you for assuming and successfully discharging managerial responsibilities in marketing or marketing-related positions.

**Highlights**

In this program you can choose to focus on a variety of practical advanced marketing skills, including the ability to:

- Develop and conduct targeted market research, which will boost your interviewing and survey creation skills while you use advanced statistics to analyzing small data sets.
- Coordinate syndicated data from various sources and use it to develop marketing plans for your business or industry.
- Translate research data into real-world business decisions.
- Thoroughly understand category management and how it helps to make better purchasing and pricing decisions.
- Develop marketing plans that work in a multicultural market to support global new business development and expansion.
- Advance key skills in digital marketing and online consumer research.

**Concentration Requirements**

**Course Requirements**

The concentration in Marketing requires the following four courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MKT 535</td>
<td>MARKETING STRATEGIES AND PLANNING</td>

Real Estate Finance and Investment, Master of Business Administration (MBA)

DePaul’s MBA concentration in Real Estate Finance and Investment is a multidisciplinary program that will prepare you for leadership roles in the rapidly changing world of global real estate finance and investment. Through a combination of management, marketing, finance and investment courses, you will acquire the skills necessary to navigate this diverse industry. You will gain proficiency in a wide range of commercial real estate transactions, urban planning, financing and operations.

**Highlights**

In this concentration, you can choose from a diverse set of competencies and skills, which encompass how to:

- Manage complex real estate transactions by learning all aspects of these transactions, including finance and real estate investing, taxation, development, investment sales and capital market analysis.
- Manage urban planning initiatives and public sector enterprises.
- Facilitate financial and investment transactions.

In addition to the core curriculum, this concentration provides an exclusive opportunity to be paired with a senior real estate executive to learn first-hand the skills necessary to succeed in this industry.

**Concentration Requirements**

**Course Requirements**

To complete the Real Estate concentration, students must complete four courses from the following list:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>RE 530</td>
<td>REAL ESTATE INVESTMENT AND FINANCE</td>
<td>4</td>
</tr>
<tr>
<td>RE 531</td>
<td>REAL ESTATE CAPITAL MARKETS AND FINANCE</td>
<td>4</td>
</tr>
<tr>
<td>RE 535</td>
<td>INSTITUTIONAL REAL ESTATE INVESTMENT</td>
<td>4</td>
</tr>
<tr>
<td>RE 570</td>
<td>ADVANCED REAL ESTATE ANALYSIS WITH ARGUS</td>
<td>4</td>
</tr>
</tbody>
</table>

Strategy, Execution and Valuation, Master of Business Administration (MBA)

The Strategy, Execution and Valuation (SEV) MBA concentration is a unique and innovative program for students seeking high level positions in corporate management, management consulting, investment banking, private equity and entrepreneurship. In this program, you will study the strategy, strategy execution and valuation of real companies in real time and learn to master the latest strategy frameworks, tools and valuation methods used by leading organizations. Graduates of the program emerge with highly marketable strategic-thinking skills and a deep understanding of the seamless connection between business strategy, execution, value creation and valuation.

Courses are presented in an executive seminar format and led by a team of top professors, executives and thought leaders. In these courses, you’ll create high-quality professional strategic analysis briefing reports and presentations on high performance companies, which will help you develop strategic analysis skills useful now and throughout your career. This concentration can be a valuable primary focus of your MBA studies or a secondary concentration that complements MBA concentrations in finance, entrepreneurship or other fields.

**Highlights**

In this concentration, you will learn:

- How to make a significant impact on the future of your organization and career by developing your strategic-thinking skills.
- How to evaluate and execute business strategies.
- Leading practices in strategic valuation and practical methods for driving valuations from strategic analysis by using the state-of-the-art tools of investment banks and research analysts.
- How to use strategy and valuation frameworks in real time to study and understand the performance of innovative high-performing companies.

**Concentration Requirements**

**Course Requirements**

The SEV concentration requires three SEV courses, focused on practical application:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>SEV 611</td>
<td>RETURN DRIVEN STRATEGY</td>
<td>4</td>
</tr>
<tr>
<td>SEV 621</td>
<td>STRATEGY EXECUTION</td>
<td>4</td>
</tr>
<tr>
<td>SEV 641</td>
<td>STRATEGIC VALUATION</td>
<td>4</td>
</tr>
</tbody>
</table>
Mathematical Sciences (BA)

The Department of Mathematical Sciences offers courses in pure and applied mathematics to help students reach a wide variety of intellectual, academic, and career goals.

Many students come to the department to obtain the mathematical background needed to be successful in programs in the natural sciences, computer science, social sciences, and business. Such students may choose to supplement their major in their home department by obtaining a minor in mathematics.

Other students come to the department seeking a program leading to an undergraduate or graduate degree in one of the mathematical sciences. Undergraduate students majoring in mathematical sciences may choose one of seven areas of concentration:

- Pure Mathematics
- Statistics
- Actuarial Science
- Financial Mathematics
- Quantitative Analysis and Operations Research
- Applied and Computational Mathematics
- In consultation with a mathematics faculty advisor, undergraduate students may also create an individualized program of courses leading to a degree in mathematical sciences.

A thesis option is available to mathematics majors who wish to pursue an extended independent project related to a theoretical or applied focus of the program. Students would work under the guidance of a faculty mentor. At least 4 credits must be completed over one or two quarters prior to the thesis submission. Interested students are strongly encouraged to enroll in MAT 390 during their junior year.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

Other students come to the department seeking a program leading to an undergraduate or graduate degree in one of the mathematical sciences. Undergraduate students majoring in mathematical sciences may choose one of seven areas of concentration:

- Pure Mathematics
- Statistics
- Actuarial Science
- Financial Mathematics
- Quantitative Analysis and Operations Research
- Applied and Computational Mathematics
- In consultation with a mathematics faculty advisor, undergraduate students may also create an individualized program of courses leading to a degree in mathematical sciences.

Program Requirements | Quarter Hours
--- | ---
Liberal Studies Requirements | 80
Major Requirements | 32-36
Major Concentration Requirements | 24-28
Open Electives | 48-56
Total hours required | 192

Learning Outcomes

Students will be able to:

- Construct valid logical arguments and analyze the reasoning of others.
- Implement a variety of mathematical structures to model and analyze complex problems.
- Apply general mathematical theory to solve problems in mathematics and in the sciences.
- Communicate mathematical ideas clearly, in verbal and visual form, but using appropriate mathematical terminology and notation.

Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and choosing a major field. Students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While Bachelor of Science (BS) students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Learning Outcomes

Students will be able to:

- Construct valid logical arguments and analyze the reasoning of others.
- Implement a variety of mathematical structures to model and analyze complex problems.
- Apply general mathematical theory to solve problems in mathematics and in the sciences.
- Communicate mathematical ideas clearly, in verbal and visual form, but using appropriate mathematical terminology and notation.

College Core Requirements

Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (BA) degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.
Course | Title | Hours

LSP 110 or LSP 111 | DISCOVER CHICAGO or EXPLORE CHICAGO | 4

**Focal Point**
LSP 112 | FOCAL POINT SEMINAR | 4

**Writing**
WRD 103 | COMPOSITION AND RHETORIC I | 4
WRD 104 | COMPOSITION AND RHETORIC II | 4

**Quantitative Reasoning & Technological Literacy**
Not Required

**Sophomore Year**

**Multiculturalism in the US**
LSP 200 | SEMINAR ON MULTICULTURALISM IN THE UNITED STATES | 4

**Junior Year**

**Experiential Learning**
Required | 4

**Senior Year**

**Capstone**
MAT 398 | SENIOR CAPSTONE SEMINAR | 4

1 Students must earn a C- or better in this course.
2 Students with a primary major in Mathematics are required to complete the Capstone offered by the Mathematics department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Mathematics are required to complete the Capstone offered by the Mathematics department. Mathematics students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

**Learning Domains**
**Arts and Literature (AL)** (p. 1184)
  • 3 Courses Required

**Historical Inquiry (HI)** (p. 1188)
  • 2 Courses Required

**Philosophical Inquiry (PI)** (p. 1190)
  • 2 Courses Required

**Religious Dimensions (RD)** (p. 1191)
  • 2 Courses Required

**Scientific Inquiry (SI)** (p. 1193)
  • 1 SWK Course or Lab Course Required

**Social, Cultural, and Behavioral Inquiry (SCBI)** (p. 1196)
  • 3 Courses Required

**Notes**
Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

If the student chooses to declare more than one Mathematical Sciences concentration, then the student must complete the requirements for each concentration, and take at least three additional 300-level courses overall.

Actuarial Science Concentration, Mathematical Sciences (BA)

Actuarial Science uses mathematics, statistics and financial theory to study uncertain future events, especially those that relate to risk management and insurance programs. This concentration prepares students to work for insurance or pension consulting firms, and government.

Applied and Computational Mathematics Concentration, Mathematical Sciences (BA)

The concentration in Applied and Computational Mathematics is intended for any student who enjoys mathematics, problem solving, and applications to solving practical problems in business, government, and science. The concentration is intended especially for students seeking a career as quantitative analysts, computational scientists, and applied mathematicians, and for those thinking of continuing the study of applied or discrete mathematics at the graduate level.

Financial Mathematics Concentration, Mathematical Sciences (BA)

Financial mathematics concentration includes the set of courses that constitute the Finance Minor from the Driehaus College of Business. It includes courses that are relevant to contemporary financial mathematical modeling, along with courses in finance and their prerequisites.

Prerequisite Requirements

Students must meet the prerequisite of ACC 101, ECO 105, ECO 106 and MAT 137 (or a course in statistics) prior to some courses in the minor.

Individualized Concentration, Mathematical Sciences (BA)

Advising
Students should consult with a mathematics faculty advisor and the department chair to create an individualized program of study leading to a degree in mathematics.

Course Requirements
An individualized program will normally consist of the Common Core in Mathematics plus six mathematics courses chosen from those included in the other concentrations and approved by the department chair.

Open Electives
Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Data Analysis Requirement
This requirement can be satisfied via one of the following:

- AP Statistics Credit (score of 3 or better)
- One of the following electives: MAT 137, MAT 242, MAT 341, MAT 348, IT 223, PSY 240, BIO 206, ENV 260, OR SOC 279

Mathematical Sciences (BA) + Secondary Education Mathematics (MEd)
The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The TEACH Program combines a College of Science and Health (CSH) undergraduate Mathematics major or some other disciplinary major with a graduate level College of Education (COE) Master of Education (MEd) Program. Students graduate with a BS in their CSH disciplinary major and a MEd in Education with a State of Illinois Secondary Mathematics Certification.

Students may apply to the TEACH Program during the spring of their junior year. They must enroll in the Junior Year Experiential Learning course, TCH 320, and meet other application criteria; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 GPA.

During their senior year, students are required to complete a TEACH Program capstone course, TCH 390, and three 400-level courses that count toward both their undergraduate and graduate degrees:

Junior Year Coursework: 4 undergraduate quarter hours required

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>TCH 320</td>
<td>EXPLORING TEACHING IN THE URBAN HIGH SCHOOL</td>
<td>4</td>
</tr>
</tbody>
</table>

Senior Year Coursework: 4 quarter hours required

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>TCH 390</td>
<td>CAPSTONE: INTEGRATING EDUCATION &amp; DISCIPLINARY FOUNDATIONS</td>
<td>4</td>
</tr>
</tbody>
</table>

Undergraduate/Graduate Double-Counted Courses: 12 undergraduate/graduate quarter hours required, grade of C or better required.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>TCH 402</td>
<td>INTRODUCTION TO MIDDLE GRADES AND SECONDARY EDUCATION</td>
<td>4</td>

<td>THE NATURE OF MATHEMATICS</td>
<td>4</td>
</tr>
<tr>
<td>TCH 423</td>
<td>INQUIRY &amp; APPLICATION IN DEVELOPING MATHEMATICS PEDAGOGY</td>
<td>4</td>
</tr>
</tbody>
</table>

All coursework in the content area must earn a grade of C or better.*

- Calculus I
- Calculus II
- Calculus III
- Intro to Math Reasoning or Discrete Math I and Discrete Math II
- Multivariable Calculus I
- Multivariable Calculus II
- Linear Algebra
- Programming Language
• Abstract Algebra I
• Theory of Numbers or Abstract Algebra II
• Geometry I
• Geometry II or Real Analysis I
• Probability & Statistics
• History of Mathematics
• *The secondary mathematics content advisor will collaborate with you to design and schedule your mathematics content course sequence.

This combined degree program of the College of Science and Health and the College of Education was collaboratively developed, and is governed and taught by faculty from these units.

The Master’s year comprises teacher-preparation coursework that culminates with student teaching during Spring quarter. Upon graduation and the fulfilling of State of Illinois licensure requirements (which may require some additional course work in the student’s major and related fields), students are eligible to be licensed to teach Mathematics at the 5th-12th grade levels.

A full description of the TEACH Program can be found here. (p. 1025)

Students interested in the TEACH Program should consult with the designated TEACH Program advisor in their home department.

Pure Mathematics Concentration, Mathematical Sciences (BA)

This concentration provides a broad mathematical exposure for students who are interested in studying and/or doing mathematical research at the graduate level.

Course Requirements

<table>
<thead>
<tr>

<tr>
<td>MAT 340</td>
<td>TOPOLOGY</td>
<td></td>
</tr>
</tbody>
</table>

Data Analysis requirement, which can be satisfied via one of the following:

- AP Statistics Credit (score of 3 or better)
- One of the following electives: MAT 137, MAT 242, MAT 341, MAT 348, IT 223, PSY 240, BIO 206, ENV 260, OR SOC 279

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Recommended Course Selections

For students interested in graduate study in mathematics:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 310</td>
<td>ABSTRACT ALGEBRA I</td>
<td></td>
</tr>
<tr>
<td>MAT 311</td>
<td>ABSTRACT ALGEBRA II</td>
<td></td>
</tr>
<tr>
<td>MAT 312</td>
<td>ABSTRACT ALGEBRA III</td>
<td></td>
</tr>
<tr>
<td>MAT 335</td>
<td>REAL ANALYSIS I</td>
<td></td>
</tr>
<tr>
<td>MAT 336</td>
<td>REAL ANALYSIS II</td>
<td></td>
</tr>
<tr>
<td>MAT 337</td>
<td>COMPLEX ANALYSIS</td>
<td></td>
</tr>
</tbody>
</table>

For students interested in graduate study in economics, finance, or statistics:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 335</td>
<td>REAL ANALYSIS I</td>
<td></td>
</tr>
<tr>
<td>MAT 336</td>
<td>REAL ANALYSIS II</td>
<td></td>
</tr>
<tr>
<td>MAT 351</td>
<td>PROBABILITY AND STATISTICS I</td>
<td></td>
</tr>
<tr>
<td>MAT 352</td>
<td>PROBABILITY AND STATISTICS II</td>
<td></td>
</tr>
<tr>
<td>MAT 353</td>
<td>PROBABILITY AND STATISTICS III</td>
<td></td>
</tr>
</tbody>
</table>

Quantitative Analysis and Operations Research Concentration, Mathematical Sciences (BA)

This concentration provides students with the mathematical background to work in finance, computer applications, and production scheduling and forecasting.
Course Requirements

Mathematical Sciences (BS)

The Department of Mathematical Sciences offers courses in pure and applied mathematics to help students reach a wide variety of intellectual, academic, and career goals.

Many students come to the department to obtain the mathematical background needed to be successful in programs in the natural sciences, computer science, social sciences, and business. Such students may choose to supplement their major in their home department by obtaining a minor in mathematics.

Other students come to the department seeking a program leading to an undergraduate or graduate degree in one of the mathematical sciences. Undergraduate students majoring in mathematical sciences may choose one of seven areas of concentration:

- Actuarial Science
- Applied and Computational Mathematics
- Financial Mathematics
- Pure Mathematics
- Quantitative Analysis and Operations Research
- Statistics
- In consultation with a mathematics faculty advisor, undergraduate students may also create an individualized program of courses leading to a degree in mathematical sciences.

A thesis option is available to mathematics majors who wish to pursue an extended independent project related to a theoretical or applied focus of the program. Students would work under the guidance of a faculty mentor. At least 4 credits must be completed over one or two quarters prior to the thesis submission. Interested students are strongly encouraged to enroll in MAT 390 during their junior year.

</tbody>
</table>
Open Electives 48-56
Total hours required 192

Learning Outcomes
Students will be able to:

- Construct valid logical arguments and analyze the reasoning of others.
- Implement a variety of mathematical structures to model and analyze complex problems.
- Apply general mathematical theory to solve problems in mathematics and in the sciences.
- Communicate mathematical ideas clearly, in verbal and visual form, by using appropriate mathematical terminology and notation.

College Core Requirements

Modern Language Requirements
Students who intend to graduate with the Bachelor of Arts (BA) degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

BA students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While Bachelor of Science (BS) students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Major Declaration Requirements
All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 Students must earn a C- or better in this course.
2 Students with a primary major in Mathematics are required to complete the Capstone offered by the Mathematics department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Mathematics are required to complete the Capstone offered by the Mathematics department. Mathematics students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.
Learning Domains

Arts and Literature (AL) (p. 1184)
• 3 Courses Required

Historical Inquiry (HI) (p. 1188)
• 2 Courses Required

Philosophical Inquiry (PI) (p. 1190)
• 2 Courses Required

Religious Dimensions (RD) (p. 1191)
• 2 Courses Required

Scientific Inquiry (SI) (p. 1193)
• 1 SWK Course or Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)
• 3 Courses Required

Notes
Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

</tbody>
</table>
An applied statistics or data analysis course taken as one of the four Natural or Computer Science courses required for the BS.

One of the following electives: MAT 137, MAT 242, MAT 341, MAT 348, IT 223, PSY 240, BIO 206, ENV 260, OR SOC 279

Courses from a concentration. The following concentration areas will automatically satisfy the data analysis requirement:

*Actuarial Science
*Financial Math
*Quantitative Analysis and Operations Research
*Statistics

1 This Calculus sequence is offered only during the summer, in two 6-credit hour courses. Students successfully completing MAT 131, MAT 147, MAT 150 or MAT 160 should enroll in MAT 155; students who successfully complete MAT 148, MAT 151 or MAT 161 should enroll in MAT 156. Students who successfully complete MAT 155 may enroll in either MAT 151 or MAT 156.

2 Except CSC 382.

3 Courses may only be accepted with advanced approval from the chair.

### Concentration Requirements

Students must also complete the requirements from one of the following concentrations: Pure Mathematics; Statistics; Actuarial Science; Financial Mathematics; Quantitative Analysis and Operations Research; Applied and Computational Mathematics; or Individualized.

If the student chooses to declare more than one Mathematical Sciences concentration, then the student must complete the requirements for each concentration, and take at least three additional 300-level courses overall. For example, a student earning two concentrations would have taken at least nine 300-level courses, and a student earning three concentrations would have taken at least twelve 300-level courses.

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Actuarial Science Concentration, Mathematical Sciences (BS) (p. 684)
- Applied and Computational Mathematics Concentration, Mathematical Sciences (BS) (p. 685)
- Financial Mathematics Concentration, Mathematical Sciences (BS) (p. 685)
- Individualized Concentration, Mathematical Sciences (BS) (p. 686)
- Pure Mathematics Concentration, Mathematical Sciences (BS) (p. 687)
- Quantitative Analysis and Operations Research Concentration, Mathematical Sciences (BS) (p. 688)
- Statistics Concentration, Mathematical Sciences (BS) (p. 688)

### Actuarial Science Concentration, Mathematical Sciences (BS)

Actuarial Science uses mathematics, statistics and financial theory to study uncertain future events, especially those that relate to risk management and insurance programs. This concentration prepares students to work for insurance or pension consulting firms and government.

Applied and Computational Mathematics Concentration, Mathematical Sciences (BS)

The concentration in Applied and Computational Mathematics is intended for any student who enjoys mathematics, problem solving, and applications to solving practical problems in business, government, and science. The concentration is intended especially for students seeking a career as quantitative analysts, computational scientists, and applied mathematicians, and for those thinking of continuing the study of applied or discrete mathematics at the graduate level.

<td>and NUMERICAL ANALYSIS II</td>
<td></td>
</tr>
</tbody>
</table>

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Financial Mathematics Concentration, Mathematical Sciences (BS)

Prerequisite Requirements

Students must meet the prerequisite of ACC 101, ECO 105, ECO 106 and MAT 137 (or a course in statistics) prior to some courses in the minor.

Concentration Requirements

This concentration is a Mathematics Major that includes the set of courses which constitute the Finance Minor. It includes courses that are relevant to contemporary financial mathematical modeling, along with courses in Finance and their prerequisites.

<table>
<thead>
<tr>

</tbody>
</table>

Select two electives from the following: 6-8
Individualized Concentration, Mathematical Sciences (BS)

Course Requirements

Students may consult with a mathematics faculty advisor and the department chair to create an individualized program of study leading to a degree in mathematics. Typically, such a program will consist of the Common Core in Mathematics plus six mathematics courses chosen from those included in the other concentrations and approved by the department chair.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Additional Recommended Courses

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 341</td>
<td>STATISTICAL METHODS USING SAS</td>
<td></td>
</tr>
<tr>
<td>MAT 356</td>

<td></td>
</tr>
<tr>
<td>MAT 358</td>
<td>APPLIED TIME SERIES AND FORECASTING</td>
<td></td>
</tr>
<tr>
<td>MAT 370</td>
<td>ADVANCED LINEAR ALGEBRA</td>
<td></td>
</tr>
</tbody>
</table>

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Data Analysis Requirement

This requirement can be satisfied via one of the following:

- AP Statistics credit (score of 3 or better)
- An applied statistics or data analysis course taken as one of the four Natural or Computer Science courses required for the BS
- One of the following electives: MAT 137, MAT 242, MAT 341, MAT 348, IT 223, PSY 240, BIO 206, ENV 260, OR SOC 279

Mathematical Sciences (BS) + Secondary Education Mathematics (MEd)

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The TEACH Program combines a College of Science and Health (CSH) undergraduate Mathematics major or some other disciplinary major with a graduate level College of Education (COE) Master of Education (MEd) Program. Students graduate with a BS in their CSH disciplinary major and a MEd in Education with a State of Illinois Secondary Mathematics Certification.

Students may apply to the TEACH Program during the spring of their junior year. They must enroll in the Junior Year Experiential Learning course, TCH 320, and meet other application criteria; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 GPA.

During their senior year, students are required to complete a TEACH Program capstone course, TCH 390, and three 400-level courses that count toward both their undergraduate and graduate degrees:

Junior Year Coursework : 4 undergraduate quarter hours required

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>TCH 320</td>
<td>EXPLORING TEACHING IN THE URBAN HIGH SCHOOL</td>
<td></td>
</tr>
<tr>
<td></td>
<td>(fulfills the Liberal Studies Program experiential learning (EL) requirement)</td>
<td></td>
</tr>
</tbody>
</table>

Senior Year Coursework : 4 quarter hours required

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>TCH 390</td>
<td>CAPSTONE: INTEGRATING EDUCATION &amp; DISCIPLINARY FOUNDATIONS</td>
<td></td>
</tr>
<tr>
<td></td>
<td>(fulfills undergraduate Capstone requirement; major area may require a separate Capstone course)</td>
<td></td>
</tr>
</tbody>
</table>

Undergraduate/Graduate Double-Counted Courses: 12 undergraduate/graduate quarter hours required, grade of C or better required.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>TCH 402</td>
<td>INTRODUCTION TO MIDDLE GRADES AND SECONDARY EDUCATION</td>
<td></td>
</tr>
<tr>

<td>THE NATURE OF MATHEMATICS</td>
<td></td>
</tr>
<tr>
<td>TCH 423</td>
<td>INQUIRY &amp; APPLICATION IN DEVELOPING MATHEMATICS PEDAGOGY</td>
<td></td>
</tr>
</tbody>
</table>

All coursework in the content area must earn a grade of C or better.*

- Calculus I
- Calculus II
• Calculus III
• Intro to Math Reasoning
  or Discrete Math I and Discrete Math II
• Multivariable Calculus I
• Multivariable Calculus II
• Linear Algebra
• Programming Language
• Abstract Algebra I
• Theory of Numbers I
  or Abstract Algebra II
• Geometry I
• Geometry II
  or Real Analysis I
• Probability & Statistics
• History of Mathematics
• *The secondary mathematics content advisor will collaborate with you to design and schedule your mathematics content course sequence.

This combined degree program of the College of Science and Health and the College of Education was collaboratively developed, and is governed and taught by faculty from these units.

The Master's year comprises teacher-preparation coursework that culminates with student teaching during Spring quarter. Upon graduation and the fulfilling of State of Illinois licensure requirements (which may require some additional course work in the student’s major and related fields), students are eligible to be licensed to teach Mathematics at the 5th-12th grade levels.

A full description of the TEACH Program can be found here. (p. 1025) Students interested in the TEACH Program should consult with the designated TEACH Program advisor in their home department.

Pure Mathematics Concentration,
Mathematical Sciences (BS)

This concentration provides a broad mathematical exposure for students who are interested in studying and/or doing mathematical research at the graduate level.

Concentration Requirements

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>

</tbody>
</table>

Select three of the following:

- MAT 310  ABSTRACT ALGEBRA I
- MAT 311  ABSTRACT ALGEBRA II
- MAT 335  REAL ANALYSIS I
- MAT 336  REAL ANALYSIS II

Select three additional mathematics courses from the following:

- MAT 301  HISTORY OF MATHEMATICS
- MAT 302  COMBINATORICS
- MAT 303  THEORY OF NUMBERS
- MAT 304  DIFFERENTIAL EQUATIONS

- MAT 311  ABSTRACT ALGEBRA II
- MAT 312  ABSTRACT ALGEBRA III
- MAT 320  GEOMETRY I
- MAT 321  GEOMETRY II
- MAT 336  REAL ANALYSIS II
- MAT 337  COMPLEX ANALYSIS
- MAT 340  TOPOLOGY
- MAT 348  APPLIED STATISTICAL METHODS
- MAT 351  PROBABILITY AND STATISTICS I
- MAT 352  PROBABILITY AND STATISTICS II
- MAT 353  PROBABILITY AND STATISTICS III
- MAT 370  ADVANCED LINEAR ALGEBRA
- MAT 372  LOGIC AND SET THEORY
- MAT 384  MATHEMATICAL MODELING
- MAT 385  NUMERICAL ANALYSIS I
- MAT 386  NUMERICAL ANALYSIS II

Data Analysis requirement, which can be satisfied via one of the following:

- AP Statistics credit (score of 3 or better)
- An applied statistics or data analysis course taken as one of the four Natural or Computer Science courses required for the BS
- One of the following electives: MAT 137, MAT 242, MAT 341, MAT 348, IT 223, PSY 240, BIO 206, ENV 260, OR SOC 279

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Recommended Mathematics Courses

For students interested in graduate study in mathematics:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 310</td>
<td>ABSTRACT ALGEBRA I</td>

<td>PROBABILITY AND STATISTICS III</td>
<td>4</td>
</tr>
<tr>
<td>MAT 356</td>
<td>APPLIED REGRESSION ANALYSIS</td>
<td>4</td>
</tr>
</tbody>
</table>

MAT 326 SAMPLE SURVEY METHODS  4
or MAT 328 DESIGN OF EXPERIMENTS

Open Electives

Open elective credit also is required to meet the minimum graduation
requirement of 192 hours.

Additional Recommended Courses

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 335</td>
<td>REAL ANALYSIS I</td>
<td></td>
</tr>
<tr>
<td>MAT 336</td>
<td>REAL ANALYSIS II</td>
<td></td>
</tr>
</tbody>
</table>

Mathematics (Minor)

A minor in Mathematics can be developed to complement a major
program in any major, with a focus on pure and applied mathematical
theory.

Course Requirements

Select one of the following three-course Calculus sequences: 12-18

Sequence One

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 150</td>
<td>CALCULUS I</td>
<td></td>
</tr>
<tr>
<td>MAT 151</td>
<td>CALCULUS II</td>
<td></td>
</tr>
<tr>
<td>MAT 152</td>
<td>CALCULUS III</td>
<td></td>
</tr>
</tbody>
</table>

Sequence Two

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 147</td>
<td>CALCULUS WITH INTEGRATED PRECALCULUS I</td>
<td></td>
</tr>
<tr>
<td>MAT 148</td>
<td>CALCULUS WITH INTEGRATED PRECALCULUS II</td>
<td></td>
</tr>
<tr>
<td>MAT 149</td>
<td>CALCULUS WITH INTEGRATED PRECALCULUS III</td>
<td></td>
</tr>
</tbody>
</table>

Sequence Three

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 160</td>
<td>CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I</td>
<td></td>
</tr>
<tr>
<td>MAT 161</td>
<td>CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS II</td>
<td></td>
</tr>
<tr>
<td>MAT 162</td>
<td>CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III</td>
<td></td>
</tr>
</tbody>
</table>
### Sequence Four

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 170</td>
<td>CALCULUS FOR LIFE SCIENCES I</td>
</tr>
<tr>
<td>MAT 171</td>
<td>CALCULUS FOR LIFE SCIENCES II</td>
</tr>
<tr>
<td>MAT 172</td>
<td>CALCULUS III WITH DIFFERENTIAL EQUATIONS</td>
</tr>
</tbody>
</table>

### Sequence Five

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 155</td>
<td>SUMMER CALCULUS I</td>
</tr>
<tr>
<td>MAT 156</td>
<td>SUMMER CALCULUS II</td>
</tr>
<tr>
<td>MAT 260</td>
<td>MULTIVARIABLE CALCULUS I</td>
</tr>
<tr>
<td>MAT 262</td>
<td>LINEAR ALGEBRA</td>
</tr>
<tr>
<td>or MAT 220</td>
<td>APPLIED LINEAR ALGEBRA</td>
</tr>
</tbody>
</table>

Choose one course from the following list:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 215</td>
<td>INTRODUCTION TO MATHEMATICAL REASONING</td>
</tr>
<tr>
<td>MAT 304</td>
<td>DIFFERENTIAL EQUATIONS</td>
</tr>
<tr>
<td>MAT 348</td>
<td>APPLIED STATISTICAL METHODS</td>
</tr>
<tr>
<td>MAT 351</td>
<td>PROBABILITY AND STATISTICS I</td>
</tr>
<tr>
<td>MAT 384</td>
<td>MATHEMATICAL MODELING</td>
</tr>
<tr>
<td>MAT 385</td>
<td>NUMERICAL ANALYSIS I</td>
</tr>
</tbody>
</table>

1 This Calculus sequence is offered only during the summer, in two 6-credit hour courses. Students successfully completing MAT 131, MAT 147, MAT 150 or MAT 160 should enroll in MAT 155; students who successfully complete MAT 148, MAT 151 or MAT 161 should enroll in MAT 156. Students who successfully complete MAT 155 may enroll in either MAT 151 or MAT 156.

Business students who have an exceptionally strong background in calculus, including calculus of trig functions, may be permitted by the chair to substitute MAT 135 and MAT 136 for MAT 150.

In general, mathematics students cannot earn a minor in the same academic program as their major. A minor in Mathematics, however, can be earned if the student’s major is one of the following:

- BS Actuarial Science
- BA Data Science
- BA/BS Mathematics, with a concentration in Statistics

### Mathematics and Computer Science (BS) (College of Computing and Digital Media)

The BS in Mathematics and Computer Science is designed to prepare students to compete for the more intellectually demanding jobs in software development or for graduate study in various areas of computer science and applied mathematics such as theoretical computer science, graphics, data analysis, artificial intelligence, and computational methods.

</tr>
</tbody>
</table>

### Learning Outcomes

Students will be able to:

- Construct valid, logical arguments and analyze the reasoning of others.
- Model a computation problem, select appropriate algorithms and data structures for a solution, justify the correctness of the algorithm, and implement an application solving the problem.
- Use discrete and continuous mathematical structures to model problems and then solve them using appropriate techniques.
- Analyze the efficiency of a computational solution mathematically, and validate the analysis experimentally.

### Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 Students must earn a C- or better in this course.

### Learning Domains

#### Arts and Literature (AL) (p. 1184)

- 3 Courses Required

#### Historical Inquiry (HI) (p. 1188)

- 2 Courses Required

#### Philosophical Inquiry (PI) (p. 1190)

- 2 Courses Required (See note below)
Religious Dimensions (RD) (p. 1191)
- 2 Courses Required (See note below)

Scientific Inquiry (SI) (p. 1193)
- 1 SWK Course or Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)
- 3 Courses Required:

Notes
Students must take one of the following ethics courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CSC 208</td>
<td>ETHICS IN TECHNOLOGY (PI)</td>
<td>4</td>
</tr>
<tr>
<td>PHL/MGT 248</td>
<td>BUSINESS ETHICS (PI)</td>
<td></td>
</tr>
<tr>
<td>REL/MGT 228</td>
<td>BUSINESS, ETHICS AND SOCIETY (RD)</td>
<td></td>
</tr>
</tbody>
</table>

Specifically required courses within Liberal Studies may have grade minimums (e.g., C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or as the Experiential Learning Requirement.

Students with a primary major in Mathematics and Computer Science (joint degree) are required to complete one of the following Capstone courses: CSC 394, DSC 394, or MAT 398. Students double majoring or pursuing dual degrees with the primary major or primary degree in Mathematics and Computer Science (joint degree) are also required to complete one of these courses. Mathematics and Computer Science (joint degree) students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

MAT 171 CALCULUS FOR LIFE SCIENCES II
MAT 149 CALCULUS WITH INTEGRATED PRECALCULUS III
or MAT 152 CALCULUS III
or MAT 162 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III

Select twelve (12) credit hours of CDM Major Electives 12
Select twelve (12) credit hours of MAT Major Electives 12
Select four (4) credit hours of CDM or MAT Major Elective 4
Select twenty-eight (28) credit hours of Open Electives 28

Note: Students may take CSC 243 and one (1) Additional Major Elective in lieu of CSC 241 and CSC 242.

Major Electives

Students must earn a grade of C- or higher in all major requirements and major elective courses.

For the major electives, it is recommended that students concentrate on one or two areas to achieve depth, but they are not required to do so. Students are strongly encouraged to discuss course selection with an advisor. Students may wish to arrange with a professor to take an independent study or a research experience (MAT 399 or CSC 399 or IT 300) in order to explore a subject more deeply than is possible in a scheduled course.
The courses in the theory of computation area explore the mathematical and logical foundations of computer science.

### Theory of Computation

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

See [www.cdm.depaul.edu](http://www.cdm.depaul.edu) to see sample schedule of course requirements on a year-by-year basis.

Degree Requirements

Students in this degree must meet the following requirements:

- Complete a minimum of 192 credit hours (generally 48 courses)
- Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses
- Earn a grade of D or higher in all other Liberal Studies and Open Elective courses
- Maintain a cumulative GPA of 2.0 or higher

Program Structure

Students in the combined degree program take a maximum of three (3) graduate level courses that count toward both their bachelor’s and master’s degree requirements. Students may enroll in graduate level coursework in the junior and senior year only. Students in the combined degree program will receive the bachelor’s degree after meeting all graduation requirements including the minimum credit hours required for graduation.

To earn the master’s degree, the student must earn as many additional graduate credit hours as needed to reach the minimum number of graduate credit hours required in that master’s degree.

Maintaining Good Standing

Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter.

The student and faculty advisor will be notified when the student’s cumulative GPA falls below 3.3 or when the students receives less than a C- in graduate level course.

If a student’s cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional B.A./B.S./B.F.A.

If dismissed from the combined degree program after graduate courses have been passed, the graduate courses may only apply to the undergraduate degree. Should the student later be admitted to a graduate program, graduate courses applied to the undergraduate degree may not apply to the graduate program and may not be repeated if they are required in the declared graduate curriculum. Other graduate courses may be substituted in this case.

Designing a Course of Study

It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.

This course of study should include the graduate courses to be taken and the undergraduate courses that are replaced by the graduate courses. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.

In order to apply for the combined degree program, your faculty advisor must send an e-mail recommendation to the CDM Academic Success Center. The recommendation should include your full name, student ID number, and the bachelor’s and master’s degrees you wish to combine.

Bachelor of Arts in Professional Studies with a Major in Computing students who are enrolled via the School for New Learning (SNL) are also eligible for this program. Interested students who meet the admission criteria for a combined degree should contact Kenn Skorupa in SNL for more information.
It is advisable for the student and the faculty advisor to enter the proposed plan of study in the student communication record in BlueStar so it is available to the student and CDM faculty and staff.

Registering for Master's Degree Courses
Combined degree students must meet regularly with their faculty advisor. The faculty advisor will initiate the registration process for all graduate level courses taken during the undergraduate career.

Bachelor's Degree to Master's Degree Transition
In order to be fully admitted to the designated master's program, the student must meet all admission requirements for that program. When preparing to complete the undergraduate portion of the combined degree, students must submit the application for degree conferral for the undergraduate degree by the application deadline. At this time, the students should contact the CDM Academic Success Center about the procedure required to be formally admitted to the declared graduate program.

Mathematics and Computer Science (BS) (College of Science & Health)
The BS in Math and Computer Science is a joint degree between the College of Computing and Digital Media and the Department of Mathematics in the College of Science and Health. It provides challenging opportunities to exceptional students with an interest in the highly theoretical nexus of math and computer science. Mathematics is a key element to the theory and practice of computer science and technology:

- Number theory forms the basis for encryption algorithms for messages sent over the Internet.
- Facts from projective geometry and multivariable calculus underlie the computer algorithms that control computer animation.
- Properties of abstract groups are instrumental in correcting transmission errors that occur when information is sent from one computer to another.
- Graph theory and combinatorics are used to create algorithms for Internet search engines and analyze Internet routing protocols.

This program is intended to appeal to academically talented students. It is designed to prepare them for graduate study in various areas of computer science such as theoretical computer science, graphics, data analysis, artificial intelligence, and computational methods and in areas in applied mathematics such as numerical analysis or discrete mathematics. The program is also designed to prepare students to compete for the more theoretically complex jobs found in computer software development.

Students in the program will explore a broad range of fields including:

- Theory of computation
- Computational mathematics
- Artificial intelligence
- Data analysis
- Graphics
- Computer vision
- Research

It is highly recommended that students concentrate on one or two areas for their advanced classes to achieve depth, but they are not required to do so. Faculty advisors are available to assist students in their selection.

<td>192</td>
</tr>
</tbody>
</table>

Learning Outcomes
Students will be able to:

- Construct valid, logical arguments and analyze the reasoning of others.
- Model a computation problem, select appropriate algorithms and data structures for a solution, justify the correctness of the algorithm, and implement an application solving the problem.
- Use discrete and continuous mathematical structures to model problems and then solve them using appropriate techniques.
- Analyze the efficiency of a computational solution mathematically, and validate the analysis experimentally.

College Core Requirements
Modern Language Requirements
Students who intend to graduate with the Bachelor of Arts (BA) degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.
BA students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While Bachelor of Science (BS) students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

**Major Declaration Requirements**

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

### First Year Program

**Chicago Quarter**
- LSP 110 DISCOVER CHICAGO or LSP 111 EXPLORE CHICAGO (4)

**Focal Point**
- LSP 112 FOCAL POINT SEMINAR (4)

**Writing**
- WRD 103 COMPOSITION AND RHETORIC I
- WRD 104 COMPOSITION AND RHETORIC II (4)

**Quantitative Reasoning & Technological Literacy**

Not Required

**Sophomore Year**

**Multiculturalism in the US**
- LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES (4)

**Junior Year**

**Experiential Learning**

Required (4)

**Senior Year**

**Capstone**

Select one of the following:
- CSC 394 SOFTWARE PROJECTS
- MAT 398 SENIOR CAPSTONE SEMINAR (4)

**Learning Domains**

**Arts and Literature (AL)** (p. 1184)
- 3 Courses Required

**Historical Inquiry (HI)** (p. 1188)
- 2 Courses Required

**Philosophical Inquiry (PI)** (p. 1190)
- 2 Courses Required (See note below)

**Religious Dimensions (RD)** (p. 1191)
- 2 Courses Required (See note below)

**Scientific Inquiry (SI)** (p. 1193)
- 1 SWK Course or Lab Course Required

**Social, Cultural, and Behavioral Inquiry (SCBI)** (p. 1196)
- 3 Courses Required

**Notes**

Students must take one of the following ethics courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CSC 208</td>
<td>ETHICS IN TECHNOLOGY (PI)</td>
<td>4</td>
</tr>
<tr>
<td>PHL/MGT 248</td>
<td>BUSINESS ETHICS (PI)</td>
<td>4</td>
</tr>
<tr>
<td>REL/MGT 228</td>
<td>BUSINESS, ETHICS AND SOCIETY (RD)</td>
<td>4</td>
</tr>
</tbody>
</table>

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Students with a primary major in Mathematics and Computer Science (joint degree) are required to complete one of the following Capstone courses: CSC 394, GPH 395, or MAT 398. Students double majoring or pursuing dual degrees with the primary major or primary degree in Mathematics and Computer Science (joint degree) are also required to complete one of these courses. Mathematics and Computer Science (joint degree) students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Open Electives
Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

See www.cdm.depaul.edu (http://www.cdm.depaul.edu) to see sample schedule of course requirements on a year-by-year basis.

Degree Requirements
Students in this degree must meet the following requirements:

- Complete a minimum of 192 credit hours (generally 48 courses)
- Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses
- Earn a grade of D or higher in all other Liberal Studies and Open Elective courses
- Maintain a cumulative GPA of 2.0 or higher

Mathematics Education (MA)
The purpose of the program leading to the degree of Master of Arts in Mathematics Education is to improve the quality of mathematics instruction in schools within the greater-Chicago area and to offer a response to the shortage of secondary school mathematics teachers. This six-quarter degree program is offered on an accelerated basis during intensive weekend sessions and may be taken while in-service at the rate of two courses per quarter. However, students may proceed through the program at a slower pace depending upon their individual needs. The emphasis in the program is on mathematical content, but significant amounts of time are spent on methods of incorporating new teaching strategies and technologies in the classroom. The program is tied directly to secondary curriculum needs and is directed toward previously or currently certified teachers with degrees in non-mathematics fields, to teachers with bachelor’s degrees in mathematics who wish to upgrade
their command of the field, and to bachelor’s degree holders in other fields who wish to enter teaching.

Admissions Information
This program is administered by the Department of Mathematical Sciences through the College of Science and Health. Details regarding admission requirements, course schedules, and so forth, can be found by contacting the Program Director in the Department of Mathematical Sciences. Registration for Master of Arts in Mathematics Education courses is open only to students formally admitted in the program or to those students who have the written authorization from the Program Director.

Learning Outcomes
Students will be able to:

• Construct a valid logical argument and analyze the reasoning of others.
• Translate a variety of problems, including real world situations, into the language of mathematics thereby leading to a mathematical solution.
• Solve a variety of mathematical problems by applying multiple approaches such as algebraic, numerical, and graphic.
• Communicate mathematical arguments and ideas verbally, making appropriate use of ordinary and mathematical language.

Degree Requirements

Course Requirements
MAMEd students are required to take twelve of the seventeen courses listed below.

Program Graduate Academic Student Handbook

Academic Probation
A student will be placed on academic probation if his/her cumulative GPA falls below 2.50 after completing at least eight credit hours.

Academic Dismissal
A student may be academically dismissed under one or more of the following violations of satisfactory progress:

• student’s GPA only for the first twelve completed credit hours after being placed on academic probation is below 2.50.
• student’s cumulative GPA after completing the first 24 credit hours after being placed on academic probation is below 2.50.
• lack of timely progress toward degree completion.

Readmission
The same readmission standards outlined in the Graduate Student Handbook and approval of the program director are observed for students in these programs.

Transfer Credit
No more than two graduate courses (8 quarter credit hours or its semester equivalent) may be transferred from another DePaul program or institution provided that they are equivalent to courses offered in DePaul’s graduate program, and they did not count toward another degree either at DePaul or another institution. Written approval must come from graduate program director and associate dean for graduate studies.

Undergraduate Courses
No undergraduate courses shall count toward the graduate degree.
Graduation Requirements
Requirements include, but are not limited to, twelve graduate courses (48 credit hours) required by the program at a minimum cumulative GPA of 2.50.

Graduation with Distinction
A minimum cumulative GPA of 3.75 for coursework applied toward the MAMEd degree is required for graduation with distinction.

Time Limitation
The degree is expected to be completed in a maximum of five years.

Mathematics for Community College Teaching Certificate

</tbody>
</table>

Students in the Certificate in Mathematics for Community College Teaching ('Certificate') program must follow the academic standing, probation and dismissal guidelines, among other guidelines, found in the Program Graduate Academic Student Handbook for Master of Science in Mathematics for Teaching (MSMT).

Certificate seekers can be graduates of DePaul University’s Master of Arts in Mathematics Education (MAMEd) program. The purpose of the Certificate is to fortify the MAMEd degree for students who wish to teach at the community college level.

The Certificate is comprised of five courses at 20 credit hours, those of which are part of DePaul’s Master of Science in Mathematics Teaching (MSMT) degree but which are not part of the MAMEd degree. Students are restricted from earning both the Certificate and the MSMT.

Students in the Certificate program must apply for degree conferral via Campus Connection in advance of their final quarter in the program in order to have their coursework audited for the awarding and delivery of their certificate.

Mathematics for Teaching (MS)
The purpose of the program leading to the degree of Master of Science in Mathematics for Teaching is to improve the quality of mathematics instruction and to offer a response to the shortage of community college mathematics teachers. This degree program is offered on an accelerated basis primarily during intensive weekend sessions and may be taken at the rate of two courses per quarter. However, students may proceed through the program at a slower pace depending upon their individual needs. The emphasis in the program is on mathematical content, but significant amounts of time are spent on methods of incorporating new teaching strategies and technologies in the classroom. The program is tied directly to community college curriculum needs and is directed toward bachelor’s degree holders in other fields who wish to enter teaching.

Admission Information
This program is administered by the Department of Mathematical Sciences through the College of Science and Health. Details regarding admission requirements, course schedules, and so forth, can be found by contacting the Program Director in the Department of Mathematical Sciences. Registration for MS in Mathematics for Teaching program courses is open only to students formally admitted in the program or to those students who have the written authorization from the Program Director.

Learning Outcomes
Students will be able to:

- Construct a valid logical argument and analyze the reasoning of others.
- Translate a variety of problems, including real world situations, into the language of mathematics thereby leading to a mathematical solution.
- Solve a variety of mathematical problems by applying multiple approaches such as algebraic, numerical, and graphic.
- Communicate mathematical arguments and ideas verbally, making appropriate use of ordinary and mathematical language.

Program Graduate Academic Student Handbook

Academic Probation
A student will be placed on academic probation if his/her cumulative GPA falls below 2.50 after completing at least eight credit hours.

Academic Dismissal
A student may be academically dismissed under one or more of the following violations of satisfactory progress:

• student’s GPA only for the first twelve completed credit hours after being placed on academic probation is below 2.50.
• student’s cumulative GPA after completing the first 24 credit hours after being placed on academic probation is below 2.50.
• lack of timely progress toward degree completion.

Readmission
The same readmission standards outlined in the Graduate Student Handbook and approval of the program director are observed for students in these programs.

Transfer Credit
No more than two graduate courses (8 quarter credit hours or the semester equivalent) may be transferred from another DePaul program or institution provided that they are equivalent to courses offered in DePaul's graduate program, and they did not count toward another degree from DePaul or another institution. Written approval must come from graduate program director and associate dean for graduate studies.

Undergraduate Courses
No undergraduate courses shall count toward the graduate degree.

Graduation Requirements
Requirements include, but are not limited to, 17 graduate courses required by the program at a minimum cumulative GPA of 2.50.

Graduation with Distinction
A minimum cumulative GPA of 3.75 for coursework applied toward the MSMT is required for graduation with distinction.

Time Limitation
The degree is expected to be completed in a maximum of five years.

Media and Cinema Studies (BA)
The College of Communication, located at the Loop Campus, offers a variety of courses leading to a Bachelor of Arts degree in Media and Cinema Studies. The BA in Media and Cinema Studies strategically combines faculty expertise, cutting-edge facilities, and a variety of course offerings within Communication, the School of Cinema and Interactive Media (CIM) (e.g., Digital Cinema), and other University units to provide students with the critical frameworks, creative opportunities, and technological expertise to become socially responsible leaders in the growing and converging areas of media studies. The major combines a rich course selection in four areas of study: film, radio, TV, and new media. Coursework combines theory and critical analysis with production courses taught at both the Lincoln Park (e.g., radio) and Loop campuses (e.g., television/video and cinema studies).

Learning Outcomes
Students will be able to:

• Analyze media texts for their formal and representational meanings, and/or for audience reception practices.
• Examine media representations and access across registers of nation, citizenship, migration, diasporas, class, religion, gender, race, and ethnicity.
• Explain the potential relationships between and/or ethical issues regarding media, social movements, and local, national, and/or global cultures.
• Interpret media cultures within the contexts of technology, economics, and/or industry.

College Core Requirements (p. 699)
Modern Language Requirement (p. 699)
Modern Language Option (p. 700)
All majors in the College of Communication consist of a four-course common core plus an additional combination of program requirements and electives.

Course Requirements
Four core courses are required of all College of Communication students:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CMN 101</td>
<td>INTRODUCTION TO HUMAN COMMUNICATION</td>
<td>4</td>
</tr>
<tr>
<td>CMN 102</td>
<td>INTRODUCTION TO MASS COMMUNICATION</td>
<td>4</td>
</tr>
<tr>
<td>CMN 103</td>
<td>INTERCULTURAL COMMUNICATION</td>
<td>4</td>
</tr>
<tr>
<td>CMN 104</td>
<td>PUBLIC SPEAKING</td>
<td>4</td>
</tr>
</tbody>
</table>

Students are encouraged to complete all four prior to taking additional coursework in the major.

Modern Language Requirement
Students who intend to graduate with a Bachelor of Arts degree in the College of Communication will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

• completing the last course in a second year high school course work in a modern language or Latin
• completing the last course in the first-year college sequence of any language
• completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language (must be completed during high school)
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement. Students with some modern language training should consult with the Modern Language Department about the course with which they should begin. Students with little or no previous work in the language will be required to complete the entire three-course introductory sequence.

**Modern Language Option**

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level necessary to meet the College's modern language requirement. Students selecting the option may substitute a three-course language sequence for three learning domain courses, or two upper-level courses in the same language for two learning domain requirements. Modern Language Option substitutions may not be used to replace the Scientific Inquiry: Lab or Scientific Inquiry: Science as a Way of Knowing requirement. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

### Course Requirements

**Course** | **Title** | **Hours**
--- | --- | ---
**First Year Program**

- **Chicago Quarter**
  - LSP 110 | DISCOVER CHICAGO | 4
  - or LSP 111 | or EXPLORE CHICAGO | 4

- **Focal Point**
  - LSP 112 | FOCAL POINT SEMINAR | 4

- **Writing**
  - WRD 103 | COMPOSITION AND RHETORIC I \(^1\) | 4
  - WRD 104 | COMPOSITION AND RHETORIC II \(^1\) | 4

- **Quantitative Reasoning & Technological Literacy**
  - LSP 120 | QUANTITATIVE REASONING & TECHNOLOGICAL LITERACY I \(^2\) | 4
  - LSP 121 | QUANTITATIVE REASONING AND TECHNOLOGICAL LITERACY II \(^2\) | 4

**Sophomore Year**

- **Multiculturalism in the US**
  - LSP 200 | SEMINAR ON MULTICULTURALISM IN THE UNITED STATES | 4

**Junior Year**

**Experiential Learning**

| Required | 4 |

**Senior Year**

**Capstone**

| CMN 396 | CAPSTONE IN COMMUNICATION \(^1\) | 4 |

\(^1\) Students must earn a C- or better in this course.

2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

### Learning Domains

- **Arts and Literature (AL)** (p. 1184) • 2 Courses Required
- **Historical Inquiry (HI)** (p. 1188) • 2 Courses Required
- **Philosophical Inquiry (PI)** (p. 1190) • 2 Courses Required
- **Religious Dimensions (RD)** (p. 1191) • 2 Courses Required
- **Scientific Inquiry (SI)** (p. 1193) • 3 Courses Required
  - [1 SWK Course, 1 Lab Course, and 1 Additional Course]
- **Social, Cultural, and Behavioral Inquiry (SCBI)** (p. 1196) • 2 Courses Required

### Note

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

- SCWR 302 WRITING THE FEATURE SCREENPLAY (FORMERLY DC 301)
- JOUR 276 PHOTOJOURNALISM
- ANI 101 ANIMATION FOR NON-MAJORS
- ANI 105 MOTION GRAPHICS FOUNDATIONS
Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students must achieve a cumulative GPA of 3.35 by the end of their second year of study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

- PRELAW 150 THE PRACTICE OF LAW
- PRELAW 151 RECENT CONTROVERSIES IN THE LAW
- PRELAW 152 THINKING ABOUT THE LAW

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than the end of the Autumn Quarter of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

Participating Majors

The BA/JD Program is available for students pursuing the following majors:

- Communication and Media (p. 212)
- Communication and Technology (p. 220)
- Communication Studies (p. 223)
- Journalism (p. 581)
- Media and Cinema Studies (p. 699)
- Organizational Communication (p. 772)
- Public Relations and Advertising (p. 856)
- Sports Communication (p. 898)

For admission requirements and information, contact the Office of Admission (https://www.depaul.edu/admission-and-aid/Pages/default.aspx).

Media and Cinema Studies (Minor)

The Media and Cinema Studies minor combines courses from film, television, radio and new media. You will gain a historical and critical understanding of the media industry with the option to focus on one type of media.

Course Requirements

A minor in Media and Cinema Studies requires students to complete six courses (24 credits).

<table>

Students majoring in Anthropology (BA) or minoring in Anthropology are restricted from earning this minor.
Metropolitan Planning and Development Certificate

This certificate program is designed for individuals who want to develop analytical skills and stay current on issues of regional land use, transportation, and economic development. It provides students with a perspective on the institutions of municipal and metropolitan planning and issues affecting the delivery of public services, and it explores innovative solutions to urban and suburban development problems. This certificate is offered in conjunction with The Chaddick Institute for Metropolitan Development. The Institute offers a variety of programs regarding land use, infrastructure and transportation in the region.

This certificate requires three courses (12 credit hours).

Middle Grades Education (BS)

The Bachelor of Science program in Middle Grades Education prepares teachers for eligibility for a teaching license and two IL endorsements in grades 5-8 (i.e., Math & Science; Language Arts and Social Science).

The mission of the DePaul University College of Education's Middle Grades Teacher Education Program is to prepare educators who have passion for understanding of, and commitment to working with young adolescents. We prepare educators who foster equitable, intellectually rich, socially just, and compassionate learning environments for diverse middle level youth. To accomplish this goal, our program is designed to cultivate in teacher candidates the pedagogical skills, subject area understandings, and social conscience necessary to enact thoughtful teaching practice. We aim to prepare critical, creative educators who continually reflect on and inquire into their practices in order to further their own and their students' learning. Our teacher candidates develop a broad understanding of the contextual factors that impact the teaching, learning and growth of middle grade learners, including the ways in which society shapes our views of middle grades learners and the social, emotional, cognitive, spiritual, and physical dimensions of healthy adolescence. Through the integration of course work and field experiences, candidates learn about and apply interdisciplinary theories and practices that enable them to promote the intellectual curiosity, personal and academic excellence, and social and self-awareness of diverse middle level youth.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

Licensure

Illinois Professional Educator License with endorsement in Middle Grades Education (grades 5 - 8), an Illinois State Board of Education (ISBE) approved program.

Program Requirements Quarter Hours
Liberal Studies Requirements 86
Major Requirements 106
Total hours required 192

Learning Outcomes

Students will be able to:

- Use knowledge of young adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary and pedagogical content knowledge with an emphasis on developing students’ conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of young adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue personal growth, and advocate for young adolescent learners and their communities.

College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
The following dispositions apply to Special Education majors only:

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
- Takes initiative
- Is open to new ideas and engagement in learning
- Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
- Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Demonstrates consistent professional behavior across all academic settings
- Maintains appropriate interpersonal and professional boundaries
- Accepts personal responsibility for one’s behavior
- Expresses feelings and opinions effectively and appropriately
- Upholds confidentiality

Skill Building Courses

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing two years of a language sequence in high school
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advanced Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern
Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed. Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements
• Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
• Overall cumulative GPA of 2.50 or better
• Cumulative GPA of 2.75 or better in all education courses
• Meet all other program requirements (e.g., modern language and residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test(s)

Clinical Requirements
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Content areas tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.
Licensure
Requirements for licensure include completion of full bachelor’s degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor’s degree. A bachelor’s degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1. Students must earn a C- or better in this course.
2. Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.
3. This must be taken along with student teaching. Students must earn a C or better in this course.

Learning Domains
Arts and Literature (AL) (p. 1184)
- 3 Courses Required

Historical Inquiry (HI) (p. 1188)
- 2 Courses Required
  (Note: One must be in US History)

Philosophical Inquiry (PI) (p. 1190)
- 2 Courses Required:
  - LSE 380
  - 1 Additional Course
    (Note: PHL 100 recommended)

Religious Dimensions (RD) (p. 1191)
- 2 Courses Required

Scientific Inquiry (SI) (p. 1193)
- 3 Courses Required:
  - 1 BIO
  - 1 CHE/ENV/GEO/PHY
  - 1 Additional Course
    (Note: One course must be a lab or SWK.)
Social, Cultural, and Behavioral Inquiry (SCBI)  (p. 1196)

- 3 Courses Required:
  - PSC 120
- 2 Additional Courses

**Notes**

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Major Requirements**

**Course Requirements**

**First Content Area Course: 24 hours required, grade of C or better required**

A content area is a single area of study in language arts, math, science, or social science (cannot include coursework in Education). At least two courses must be at the 200 or higher level.

**Language Arts**
- Introduction to Literature Course or a Survey of Literature Course
- Poetry course
- Grammar or Composition course
- Young adult, graphic novel, or advisor-approved course
- Diverse traditions or multicultural literature course
- Writing course

**Mathematics**
- Introduction to math reasoning course
- Geometry course
- History of math course
- Probability and statistics course
- Calculus course
- Math modeling, Programming language, or advisor-approved course

**Science**
- General biology (life science) course
- General chemistry (physical science) course
- General Earth science (Earth/space science) course
- General environmental science (Earth/space science) course
- General physics (physical science) course
- Science course (advisor-approved)

**Social Science**
- History course
- Geography course
- Civics/government course
- Economics course
- Social Science course (advisor-approved)

**Second Content Area: 20 hours required, grade of C or better required**

A content area is a single area of study in language arts, math, science, or social science. The second content area must be a different area than the one chosen as the primary content area (cannot include coursework in Education). At least two courses must be at the 200 or higher level.

**Language Arts**
- Introduction to Literature Course or a Survey of Literature Course
- Poetry course
- Grammar or Composition course
- Young adult, graphic novel, or advisor-approved course
- Diverse traditions or multicultural literature course

**Mathematics**
- Introduction to math reasoning course
- Geometry course
- Probability and statistics course
- Calculus course
- Math modeling, Programming language, or advisor-approved course

**Science**
- General biology (life science) course
- General chemistry (physical science) course
- General Earth science (Earth/space science) course
- General environmental science (Earth/space science) course
- General physics (physical science) course

**Social Science**
- History course
- Geography course
- Civics/government course
- Economics course
- Social Science course (advisor-approved)

**Introductory Courses (Junior Standing): 30 quarter hours required, grade of C or better required**

Students are eligible to complete any minor offered at DePaul University, including those related to the four Middle Grades Education content areas and to other areas of specialization in education. The minors related to the content areas and other areas of education include:

- Bilingual Education
- Biological Science
- Chemistry
- Coaching
- Creative Writing
- Economics
- English as a Second Language
- English as a Second Language/Bilingual Education
- English Literature
- Exceptionality and Learning
- Geography
- History
- Mathematics
- Physics
- Special Education

To complete a minor, students must fulfill all of the requirements of that minor as identified by the minor’s home department or program.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Middle Grades Education majors must complete the following tests:

- **Content Area Test:** Two tests are required before Student Teaching (deadlines apply). Students must take the test corresponding to each of their content areas – Language Arts (test #201), Math (test #202), Science (test #203), or Social Science (test #204).
- **EdTPA** - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

**Middle Grades Education (MEd)**

The Master of Education program in Middle Grades Education prepares teachers for eligibility for a teaching license and two IL endorsements in grades 5-8 (i.e., Math & Science; Language Arts and Social Science).

The mission of the DePaul University College of Education’s Middle Grades Teacher Education Program is to prepare educators who have passion for, understanding of, and commitment to working with young adolescents. We prepare educators who foster equitable, intellectually rich, socially just, and compassionate learning environments for diverse middle level youth. To accomplish this goal, our program is designed to cultivate in teacher candidates the pedagogical skills, subject area understandings, and social conscience necessary to enact thoughtful teaching practice. We aim to prepare critical, creative educators who continually reflect on and inquire into their practices in order to further their own and their students’ learning. Our teacher candidates develop a broad understanding of the contextual factors that impact the teaching, learning and growth of middle grade learners, including the ways in which society shapes our views of middle grades learners and the social, emotional, cognitive, spiritual, and physical dimensions of healthy adolescence. Through the integration of course work and field experiences, candidates learn about and apply interdisciplinary theories and practices that enable them to promote the intellectual curiosity, personal and academic excellence, and social and self-awareness of diverse middle level youth.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.
**Licensure**

Illinois Professional Educator License with endorsement in Middle Grades Education (grades 5 - 8), an Illinois State Board of Education (ISBE) approved program.

**Learning Outcomes**

Students will be able to:

- Use knowledge of young adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students' conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of young adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for young adolescent learners and their communities.
- Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well-being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

**Field Experiences**

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.
Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is...
external to DePaul University and is not monitored by DePaul University's College of Education.

**Degree Requirements**

**Content Area Prerequisites**

Middle Grades Education teachers need to have a deep understanding of the two content areas they will teach in the middle grades. DePaul's program requires that students in the Middle Grades program have a minimum of 32 hours in each of their two designated content areas. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

**Requirements for First Content Area: 32 quarter hours required, grade of C or better required**

A content area is a single area of study in language arts, math, science, or social science (cannot include coursework in Education). At least 4 courses must be at the upper level.

- Eight content courses:
  - Language Arts
    - Introduction to Literature Course or a Survey of Literature Course
    - Poetry course
    - Grammar or Linguistics course
    - Young adult, graphic novel, or advisor-approved course
    - Diverse traditions or multicultural literature course
    - Writing course
    - Writing course, or advisor-approved course
    - Teaching Language Arts in the Middle Grades course
  - Mathematics
    - Introduction to Mathematics Reasoning course
    - Geometry course
    - History of math course
    - Probability and statistics course
    - Calculus course
    - Math modeling, Programming language, or advisor-approved course
    - Mathematics course (advisor-approved)
    - Mathematics course (advisor-approved)
  - Science
    - General biology (life science) course
    - General chemistry (physical science) course
    - General Earth science (Earth/space science) course
    - General environmental science (Earth/space science) course
    - General physics (physical science) course
    - Science course (advisor-approved)
    - Science course (advisor-approved)
    - Science course (advisor-approved)
  - Social Science
    - History course
    - Geography course
    - Civics/government course
    - Economics course

**Requirements for Second Content Area: 32 hours required, grade of C or better required**

A content area is a single area of study in language arts, math, science, or social science. The second content area must be a different area than the one chosen as the primary content area (cannot include coursework in Education). At least 4 courses must be at the upper level.

Eight content courses:

- Language Arts
  - Introduction to Literature Course or a Survey of Literature Course
  - Poetry course
  - Grammar or Linguistics course
  - Young adult, graphic novel, or advisor-approved course
  - Diverse traditions or multicultural literature course
  - Writing course
  - Writing course, or advisor-approved course
  - Teaching Language Arts in the Middle Grades course

- Mathematics
  - Introduction to Mathematics Reasoning course
  - Geometry course
  - History of math course
  - Probability and statistics course
  - Calculus course
  - Math modeling, Programming language, or advisor-approved course
  - Mathematics course (advisor-approved)
  - Mathematics course (advisor-approved)

- Science
  - General biology (life science) course
  - General chemistry (physical science) course
  - General Earth science (Earth/space science) course
  - General environmental science (Earth/space science) course
  - General physics (physical science) course
  - Science course (advisor-approved)
  - Science course (advisor-approved)
  - Science course (advisor-approved)

- Social Science
  - History course
  - Geography course
  - Civics/government course
  - Economics course
  - Social Science course (advisor-approved)
  - Social Science course (advisor-approved)
  - Social Science course (advisor-approved)
  - Social Science course (advisor-approved)
### Introductory Courses: 26 quarter hours required, grade of C or better required

- MGE 481 | SUPERVISED FIELD EXPERIENCE               | 1             |

### Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Middle Grades Education majors must complete the following tests:

- **Content Area Test:** Two tests are required before Student Teaching (deadlines apply). Test details will be forthcoming.
- **EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.**

### Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. All field experiences must be completed prior to final approval for student teaching. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

### Middle School Mathematics Education (MS)

The Middle School Mathematics Education (MSME) program strengthens teachers’ knowledge, understanding, skills, and judgment in order to increase student access to high quality mathematics instruction. The program will provide teachers with the deep knowledge and tools necessary to implement the Common Core State Standards in Mathematics in their teaching. The Department of Mathematical Sciences in the College of Science and Health and the College of Education offer the program jointly.

This program was designed collaboratively with practicing K - 8 teachers, mathematicians, and mathematics educators and therefore addresses fundamental questions in both math content and pedagogy. The courses are taught by faculty with extensive experience in teacher preparation as well the implementation of the CCSS-M. The goal of the program is that students taught by the program's graduates will be successful learners of mathematics, will value mathematics as a subject, and will achieve the learning goals of the CCSS-M. The program includes the courses required for the Algebra Initiative Program of CPS.

### Learning Outcomes

Students will be able to:

- Use knowledge of young adolescent learners to create safe, equitable, and meaningful learning environments and collaborative mathematics classrooms.
- Plan and deliver rigorous mathematics instruction appropriate for young adolescent learners.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students’ conceptual and procedural understanding.
• Use visual, analytical, numerical, and verbal perspectives in the different content areas of mathematics in learning environments appropriate for young adolescence learners.
• Evaluate mathematics education research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

**College Requirements**

**Dispositions**
The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Reflects on his or her own progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
• Demonstrates a positive attitude and commitment to the profession
• Demonstrates thoughtful, effective verbal and non-verbal communication and listening skills
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates concern for and protection of safety and well-being of others

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Degree Requirements**

Our twelve-course (48 quarter-hour) program is designed for teachers licensed in grades K-8. The program will allow participants to meet the requirements for an endorsement in middle school mathematics. This is a cohort program with groups of teachers taking the same courses together in the same order. All courses are 4 credit hours and twelve courses are required.

Museum Studies (Minor)

Museum Studies is an interdisciplinary endeavor that addresses the theory, organization, and management of museums and museum collections. Museums themselves are complex organizations within which a diversity of knowledge specialists work together to acquire, conserve, research, communicate and exhibit tangible and intangible evidence of people and their environment. The Museum Studies minor crosses the disciplines of Anthropology, History, and the History of Art & Architecture. The purpose of the minor is to provide students from diverse majors with knowledge about the role and function of museums in our lives as global citizens.

Interest in museums is at an all-time high as students and faculty as concerned with: (a) the role of museums in global tourism, urban economic development, multiculturalism and the creation of identities; (b) the developing importance of museums as sites of both research and employment; and (c) the way in which museums act as intersections among a broad range of academic disciplines. Additionally, as museums become more complex organizations, individuals seeking to work with or in these environments are increasingly expected to have formalized training in Museum Studies with transcript recognition of this training.

Course Requirements

Six courses are required – at least two of which must be from the Core and three-four from Electives (i.e., two Core + four Electives OR three Core + three Electives), with no more than two Electives from any one department:

The Bachelor of Arts in Music degree is intended for students who wish to combine the study of music with liberal arts and sciences. In addition to music courses, the program is comprised of a broad range of liberal studies courses, along with a year of modern language. Students also take advanced courses in music, developing research skills, which culminate in a final project or paper. The Bachelor of Arts in Music degree prepares students for a variety of careers related to music.

Learning Outcomes

Core Outcomes

Students will be able to:

- Perform solo and ensemble works with appropriate techniques and musicality.
- Identify and analyze the elements of music in a given piece, including an understanding of its compositional processes, aesthetic properties, and artistic, social, and historical contexts for works in the Western music tradition, contemporary periods, jazz, and world music cultures.
- Demonstrate an appropriate level of aural, keyboard, and conducting skills.

Program Specific Outcomes

Students will be able to:

- Articulate professional goals and knowledge of resources to further those goals.
- Express deepening knowledge of music and culture in both local and global contexts effectively through creative work, speaking, and writing.
- Conduct an independent creative or research project that integrates knowledge from multiple fields and makes use of library, oral/aural, textual, and primary source materials.

Music Core Requirements

</table>

Applied Music

Students may enroll in a maximum of 3 credits of applied study per quarter, with a maximum of 36 credits total. The requirements for applied study vary by degree program:

- BM in performance, 36 credits
- BM in jazz studies, 32 credits
- BM in composition, 12 credits
- BM in music education, 18 credits
- BM in performing arts management, 18 credits
- BA in music, 12 credits
- BS in sound recording technology, performance track, 9 credits
The BS in Performing Arts Management degree does not require applied lessons, and the BS in Sound Recording Technology, non-performance track, degree does not require applied lessons.

Except performance majors, students may enroll in additional applied credits, which will count towards music electives.

Modern Language Option
If a music student wishes to study a modern language for a three-course sequence (12 credits), one quarter of language study (4 credits) may be used to replace a course requirement in Arts and Literature, Philosophical Inquiry, or Religious Dimensions. The remaining two quarters of language (8 credits) will be applied towards free electives. This option does not apply to students in the BM-Performance, vocal concentration.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.

Learning Domains
Arts and Literature (AL) (p. 1184)
• 2 Courses Required

Historical Inquiry (HI) (p. 1188)
• 2 Courses Required

Philosophical Inquiry (PI) (p. 1190)
• 2 Courses Required

• 2 Courses Required

Scientific Inquiry (SI) (p. 1193)
• 3 Courses Required
[1 SWK, 1 Lab, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)
• 2 Courses Required

Notes
Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Program Checkpoints
Students are admitted to a specialization at their enrollment. Students are then allowed to continue in specialization courses on the basis of program checkpoints. The program checkpoints differ for each specialization, and students should contact the department chairs or program directors/coordinators for more information. Students are not permitted to continue to enroll in specialization classes if they have not met the requirements of their program checkpoints.

Music Education (BM)

The Bachelor of Music in music education degree prepares students to teach K-12 instrumental and vocal music. The program is comprised of a broad range of courses emphasizing both the theory and practice of music education, taught by a faculty of distinguished music educators. Throughout the junior year, students have the opportunity to refine their skills and knowledge through a partnership with a Chicago Public School. During the senior year, students work with master teachers throughout the Chicagoland area while student teaching. Upon graduation, students are eligible for Illinois music teacher certification.

Learning Outcomes

Core Outcomes

Students will be able to:

- Perform solo and ensemble works with appropriate techniques and musicality.
- Identify and analyze the elements of music in a given piece, including an understanding of its compositional processes, aesthetic properties, and artistic, social, and historical contexts for works in the Western music tradition, Contemporary periods, Jazz, and World Music Cultures.
- Demonstrate an appropriate level of aural, keyboard, and conducting skills.

Program Specific Outcomes

Students will be able to:

- Apply musical knowledge and skills, artistic expression, and contextual understanding to the development of instruction and assessment in instrumental, vocal, and general music contexts that demonstrate an understanding of child development and that enable students to engage in music through creating, responding, performing, and connecting.
- Apply pedagogical knowledge and skills appropriate to the teaching of music in a manner which demonstrates an understanding of the impact of diversity, gender equity, special needs, and socio-economic status on education.
- Utilize tools such as technology and alternative methods of teaching to enhance learning and professional growth.

Music Education (MM)

Liberal Studies Learning Domain Specifications
In the liberal studies learning domains, music education majors enroll in the following courses within the learning domains:

- LSE 380 fulfills the Philosophical Inquiry requirement
- PSC 120 fulfills Self, Society, & the Modern World
- One of the Historical Inquiry courses must be in U.S. History.

Music Education (MM)
The graduate music education program offers certified music teachers the opportunity to earn a master’s degree in a little over two years with courses in the evenings and summers. Educational theory and practice merge throughout course work, and students have the flexibility to select elective areas of study. The program culminates with a final paper or project, allowing students to research an area of special interest.

</tbody>
</table>

Learning Outcomes

Core Outcomes
Students will be able to:

- Identify and analyze the elements of music in a given piece, and demonstrate an understanding of its compositional processes, aesthetic properties, and artistic, social, and historical context.
- Demonstrate basic music research techniques and knowledge of standard reference tools and bibliographic sources, including the use of online databases.
- Develop effective writing skills for use in program notes, liner notes, abstracts, essays, or research papers.
- Develop an expanded global awareness and cultural understanding through musical study.
- Describe basic information about health and safety within the contexts of practice, performing, teaching, and listening; topics will include hearing, vocal, and musculoskeletal health and injury prevention.

Program Specific Outcomes
Students will be able to:

- Perform solo and ensemble works with appropriate techniques and musicality.
- Identify and analyze the elements of music in a given piece, including an understanding of its compositional processes, aesthetic properties, and artistic, social, and historical contexts for works in the Western music tradition, Contemporary periods, Jazz, and World Music.
- Demonstrate an appropriate level of aural, keyboard, and conducting skills.
- Apply musical knowledge and skills, artistic expression, and contextual understanding to the development of instruction and assessment in instrumental, vocal, and general music contexts that demonstrate an understanding of child development and that enable students to engage in music through creating, responding, performing, and connecting.
• Apply pedagogical knowledge and skills appropriate to the teaching of music in a manner that demonstrates an understanding of the impact of diversity, gender equity, special needs, and socio-economic status on education.
• Utilize tools such as technology and alternative methods of teaching to enhance learning and professional growth.

Degree Requirements
Course Requirements
A minimum of 48 quarter hours of graduate credit is required for the Master of Music degree. This total is divided between the basic studies required of all master's degree students, and courses in the specialization.

Music Electives (12 credits)
Students may take any 400 level courses within the School of Music, selected in consultation with their advisors.

Terminal Requirements
Two terminal requirements are required of all students:

• A written comprehensive examination, in which the students must demonstrate a satisfactory knowledge of their major field of study. The comprehensive examination may be taken at any time after 32 quarter hours of graduate credit have been earned.
• The completion of a final project.

Residency Requirements
All courses for the master's degree must be taken at DePaul University. Graduate credit for courses completed at other institutions may not be applied toward the degree.

The music education graduate program is designed to accommodate the schedule of working teachers, and students typically enroll part time for three summers and two intervening academic years. To earn full-time status, graduate students must be registered for a minimum of six quarter hours in any term. All requirements for the degree must be completed within six calendar years from the time a student is first enrolled. For students removing deficiencies, this period will begin when all deficiencies are removed and admission to the master's degree program has been granted.

Music Industry: Music Business (Minor)
The Music Business minor includes introductory music history and music theory courses as well as courses that are part of DePaul's Performing Arts Management program.

</tbody>
</table>

A maximum of six ensemble credits may be applied to the additional courses requirement. In addition, credit will be given for musicianship courses taken as a former music major.

Students who take both MUS 107 and MUS 277 are eligible to take COM 313 (2 credits), offered during fall or winter quarter.

Students majoring in Music are restricted from earning this minor.

Music Performance (BM)

The Bachelor of Music in performance degree prepares students for careers in music, combining applied lessons on one's instrument with a variety of ensemble and performing experiences. Students also study literature, pedagogy, and other areas related to musical performance. The faculty is comprised of highly celebrated performers, who are committed to teaching excellence.

Learning Outcomes

Core Outcomes

Students will be able to:

- Demonstrate a growing competence in technical aspects of performance, such as tone quality, pitch consistency, dynamic...
control, technical agility, accurate rhythmic concepts, and other skills particular to the area of specialization.

- Identify and analyze the elements of music in a given piece, including an understanding of its compositional processes, aesthetic properties, and artistic, social, and historical contexts for works in the Western music tradition, Contemporary periods, Jazz, and World Music Cultures.
- Demonstrate an appropriate level of aural, keyboard, and conducting skills.

Students will be able to:

- Develop an understanding of the pedagogical processes and theories that are foundational to performance practices and instruction on one's primary instrument.
- Demonstrate a growing maturity in musical concepts using tools of performance to create artistic products.
- Demonstrate increasing knowledge of repertoire and growing musical competence through participation in solo, chamber and large ensemble performances.

**Music Core Requirements**

**Course Requirements**

All students in the School of Music are required to enroll in the following music courses:

**Musicianship (42 Credits)**

<table>

</tr>
</tbody>
</table>

3 Students in the BM-Jazz Studies program are not required to take MUS 321 or MUS 322.

**Applied Music**

Students may enroll in a maximum of 3 credits of applied study per quarter, with a maximum of 36 credits total. The requirements for applied study vary by degree program:

- BM in performance, 36 credits
- BM in jazz studies, 32 credits
- BM in composition, 12 credits
- BM in music education, 18 credits
- BM in performing arts management, 18 credits
- BA in music, 12 credits
- BS in sound recording technology, performance track, 9 credits

The BS in Performing Arts Management degree does not require applied lessons, and the BS in Sound Recording Technology, non-performance track, degree does not require applied lessons.

Except performance majors, students may enroll in additional applied credits, which will count towards music electives.

**Modern Language Option**

If a music student wishes to study a modern language for a three-course sequence (12 credits), one quarter of language study (4 credits) may be used to replace a course requirement in Arts and Literature, Philosophical Inquiry, or Religious Dimensions. The remaining two quarters of language (8 credits) will be applied towards free electives. This option does not apply to students in the BM-Performance, vocal concentration.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Major Requirements

Program Checkpoints

Undergraduate students in classical performance will perform a checkpoint audition at the end of their sophomore year. The student's applied instructor and/or area coordinator or director will give students specific information on content and required music. Successful completion of the checkpoint audition is required for continuation in the performance degree.

Course Requirements

- Applied lessons
- APM 205
- APM 305

Concentration Requirements

Additional requirements are determined by the specific performance track that students choose. Students must also complete the requirements from one of the following concentrations: Brass; Guitar; Percussion; Piano; String Bass; Violin, Viola, Cello; Voice; Woodwinds.

Concentration Requirements

- Brass Concentration, Music Performance (BM) (p. 724)
- Guitar Concentration, Music Performance (BM) (p. 725)
- Percussion Concentration, Music Performance (BM) (p. 725)
- Piano Concentration, Music Performance (BM) (p. 725)
- String Bass Concentration, Music Performance (BM) (p. 725)
- Violin, Viola, Cello Concentration, Music Performance (BM) (p. 725)
- Voice Concentration, Music Performance (BM) (p. 726)
- Woodwinds Concentration, Music Performance (BM) (p. 726)

Brass Concentration, Music Performance (BM)

Music Performance (MM)

The Master of Music in performance degree prepares students for professional music careers in a supportive, collegial environment. Graduate students study with highly celebrated performers, who are committed to teaching excellence. The graduate performance program consists of applied lessons, ensembles, core studies in theory, history and research and related studies. The Master of Music degree is a two-year program.

Learning Outcomes

Core Outcomes

Students will be able to:

- Demonstrate basic music research techniques and apply knowledge of standard reference tools and bibliographic sources to the writing of a variety of professional and academic music texts.
- Develop an expanded global, historical, and cultural understanding of music through the in-depth study of musical elements, compositional processes, and aesthetic properties.
- Demonstrate basic music research techniques and apply knowledge of standard reference tools and bibliographic sources to the writing of a variety of professional and academic music texts.
# Degree Requirements

## Course Requirements

A minimum of 48 quarter hours of graduate credit is required for the Master of Music degree. This total is divided between the basic studies required of all master's degree students, and courses in the specialization.

Additional Courses

A maximum of six ensemble credits may be applied to the additional courses requirement. In addition, credit will be given for musicianship courses taken as a former music major.

Students who take both MUS 107 and MUS 277 are eligible to take COM 313 (2 credits), offered during fall or winter quarter.

Students majoring in Music are restricted from earning this minor.

Network Engineering and Security (BS)

The BS in Network Engineering and Security focuses on the theory and practice of designing, deploying and managing both wired and wireless networks technologies, including broadband Internet access technologies, interconnection technologies, network convergence, and network security.

Music Studies (Minor)

The Music Studies minor includes an introduction to music history course and a music theory course alongside four music courses that are part of the Arts and Literature Domain, including topics such as rock music, world music and songwriting.

Woodwinds Specialization (32 credits)

6 credits of Large Ensemble (1 credit each quarter)  

3 quarters of Chamber Ensemble (2 quarters for 1 credit, 1 quarter for 0 credit)  

APM 405 GRADUATE RECITAL 0

Terminal Requirements

Two terminal requirements are required of all students:

- A written comprehensive examination, in which the students must demonstrate a satisfactory knowledge of their major field of study. The comprehensive examination may be taken at any time after 32 quarter hours of graduate credit have been earned.
- The presentation of a public recital.

While preparation of the terminal requirement in the major may take place within some course or activity for which a student is registered for credit, additional academic credit is not granted for the project itself.

Residency Requirements

All courses for the master's degree must be taken at DePaul University. Graduate credit for courses completed at other institutions may not be applied toward the degree.

To retain full-time status, a graduate student must be registered for a minimum of six quarter hours in any term. All requirements for the degree must be completed within six calendar years from the time a student is first enrolled. For students removing deficiencies, this period will begin when all deficiencies are removed and admission to the master's degree program has been granted.

Learning Outcomes

Students will be able to:

- Describe and demonstrate how data packets are addressed and forwarded through switches, routers, and firewalls.
- Compare and contrast different wide-area network (WAN) technologies to support enterprise network requirements.
- Compare and configure internal gateway routing protocols (RIP, OSPF, EIGRP) that dynamically determine data paths through networks with unreliable components.
- Define and allocate IPv4 and IPv6 address subnets to satisfy network requirements.
- Describe and contrast techniques for making use of multiple redundant paths in switched and routed networks.
- Implement firewall technologies to enforce a given access policy and assess its efficiency.
- Identify and analyze security threats in network implementations, propose remedies and prioritize action plans.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Learning Domains

Arts and Literature (AL) (p. 1184)
- 3 Courses Required

Historical Inquiry (HI) (p. 1188)
- 2 Courses Required

Philosophical Inquiry (PI) (p. 1190)
- 2 Courses Required
  (See Note Below)

Religious Dimensions (RD) (p. 1191)
- 2 Courses Required
  (See Note Below)

Scientific Inquiry (SI) (p. 1193)
- 1 SWK or Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)
- 3 Courses Required

Notes

<td>4</td>
</tr>
</tbody>
</table>

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

1. Students must earn a C- or better.
Network Engineering and Security (BS), Combined Bachelor's + Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Students who meet the admission requirements below may choose to apply to a combined degree program. Interested students should consult their faculty advisor regarding the application procedure. This program allows students to combine many CDM bachelor's degrees with a CDM master's degree following the structure outlined below.

**Admission Criteria**

- Minimum of 44 quarter hours earned
- Minimum of 12 quarter hours earned at DePaul
- GPA of 3.3 or higher in courses taken at DePaul
- Endorsement of faculty advisor

In order to apply for the combined degree program, your faculty advisor must send an e-mail recommendation to the CDM Academic Success Center. The recommendation should include your full name, student ID number, and the bachelor's and master's degrees you wish to combine.

Bachelor of Arts in Professional Studies with a Major in Computing students who are enrolled via the School for New Learning (SNL) are also eligible for this program. Interested students who meet the admission criteria for a combined degree should contact Kenn Skorupa in SNL for more information.

**Program Structure**

Students in the combined degree program take a maximum of three (3) graduate level courses that count toward both their bachelor’s and master's degree requirements. Students may enroll in graduate level coursework in the junior and senior year only. Students in the combined degree program will receive the bachelor’s degree after meeting all graduation requirements including the minimum credit hours required for graduation.

To earn the master’s degree, the student must earn as many additional graduate credit hours as needed to reach the minimum number of graduate credit hours required in that master's degree.

Only CDM courses can be taken as part of this program. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

**Maintaining Good Standing**

Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter.

The student and faculty advisor will be notified when the student's cumulative GPA falls below 3.3 or when the students receives less than a C- in graduate level course.

If a student's cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional B.A./B.S./B.F.A.

If dismissed from the combined degree program after graduate courses have been passed, the graduate courses may only apply to the undergraduate degree. Should the student later be admitted to a graduate program, graduate courses applied to the undergraduate degree may not apply to the graduate program and may not be repeated if they are
required in the declared graduate curriculum. Other graduate courses may be substituted in this case.

**Designing a Course of Study**

It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.

This course of study should include the graduate courses to be taken and the undergraduate courses that are replaced by the graduate courses. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.

It is advisable for the student and the faculty advisor to enter the proposed plan of study in the student communication record in BlueStar so it is available to the student and CDM faculty and staff.

**Registering for Master's Degree Courses**

Combined degree students must meet regularly with their faculty advisor. The faculty advisor will initiate the registration process for all graduate level courses taken during the undergraduate career.

**Bachelor's Degree to Master's Degree Transition**

In order to be fully admitted to the designated master's program, the student must meet all admission requirements for that program. When preparing to complete the undergraduate portion of the combined degree, students must submit the application for degree conferral for the undergraduate degree by the application deadline. At this time, the students should contact the CDM Academic Success Center about the procedure required to be formally admitted to the declared graduate program.

**Network Engineering and Security (MS)**

The MS in Network Engineering and Security trains professionals who meet current industry demands for innovative network designs, and the development of new network applications and services for business enterprises and the network providers that serve them. This program offers theoretical and applied study of the design, configuration and management of converged communication networks.

**Program Requirements**

<td>0-12</td>
</tr>
<tr>
<td>Degree Requirements</td>
<td>52</td>
</tr>
<tr>
<td>Total hours required</td>
<td>52-64</td>
</tr>
</tbody>
</table>

**Learning Outcomes**

Students will be able to:

- Describe the operations and metrics of Border Gateway Protocol (BGP) routing, including the BGP path selection process.
- Contrast IPv6 and IPv4 routing, including protocol headers, routing protocols, subnetting, tunneling and translation mechanisms.
- Describe and compare Quality of Service (QoS) techniques for providing differentiated treatment of Voice over IP (VoIP) and data packet flows.
- Design a fault-tolerant network and identity protocols to implement and manage these networks.
- Explain methods used for authentication and integrity in public-key encryptions systems, including digital signatures and PKI.
- Explain and demonstrate the operations of an Intrusion Detection System (IDS), including writing IDS rules.

**Degree Requirements**

**Course Requirements**

No Introductory Course may be substituted for any other course at any level.

**Introductory Courses**

Introductory courses may be waived for any of the following conditions:

- The student has the appropriate course work to satisfy an Introductory Course.
- The student has appropriate and verified professional experience to satisfy an Introductory Course.
- If an exam is available, the student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.

Students must achieve an average GPA of 3.0 or better in the five (5) Foundation Courses. Students who do not meet the Foundation Courses’ GPA requirement must retake the course with the lowest grade. If a number of such courses exist, it is up to the student to choose which class to retake. Only the higher grade will count toward the average grade for the purpose of completing the GPA Requirement.

Students who have not completed the Foundation Course and grade requirements can register for a maximum of four (4) Advanced Courses.

Major Elective Courses

Students must complete twelve (12) credit hours of Major Elective Courses, typically three 4-credit hour courses. Major Elective Courses must be in the range of 420-599 and must be chosen from NET or CSEC courses. A minimum of eight (8) credit hours must be 500-level.

CDM Open Elective Courses

Students must complete four (4) credit hours of CDM Open Elective Course. The Open Elective must be in the range of 420-699 and must be chosen from CSC, CSE, CSEC, NET, SE, IS, ECT, IT, PM, IPD, HIT, HCI, or GAM courses. The Open Elective must not have been otherwise used to satisfy degree requirements. Credit for courses taken outside of the school will only be given if approved by a faculty advisor.

</tbody>
</table>

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn an average GPA of 3.0 or better in the five Foundation Courses.
- Earn a grade of C- or better in all courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same courses, but offered under different subjects.
- Students pursuing a second master’s degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

For DePau’s policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook.

Network Technologies (Minor)

The Network Technologies minor gives students a foundation in the theory and practice of designing, deploying and managing both wired and wireless network technologies.

Neuroscience (BS)

Neuroscience is an integrative major that draws on existing courses from the natural, computational, and social sciences, as well as specific courses unique to the field of Neuroscience. Neuroscience has quickly become one of the fastest growing areas of study in both the natural and behavioral sciences. Its multidisciplinary nature attracts individuals not just from biology and psychology disciplines, but also from fields such as philosophy, anthropology, economics, mathematics and computer science.

Neuroscience majors are interested in studying the brain and nervous system in multiple different ways. Neuroscience majors consider fundamental concepts that underlie the function of the nervous system on a cellular and molecular level, how the nervous system produces behavior and cognition, and the role of computer science and mathematics in new technologies and therapies in neuroscience. Neuroscience majors have the option of concentrations in cellular/molecular, behavioral/cognitive or computational neuroscience to deepen their understanding and prepare for careers in these subfields. Additionally, Neuroscience majors can apply their knowledge of the nervous system to human health and disease and pursue professional programs in health, mental health, medicine, law, business, and computer science.

Learning Outcomes

Students will be able to:

- Describe how the cellular and systems level structure of the nervous system is responsible for neurological function, behavior, and cognition.
• Critically evaluate scientific literature in order to communicate core concepts in a clear and organized manner both verbally and in writing.
• Design and analyze scientific experiments.
• Explain challenges surrounding ethical thinking posed by advancements in neuroscience.
• Relate neuroscience content to other scientific and non-scientific disciplines.

College Core Requirements

Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (BA) degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

• completing the last course in the fourth-year high school sequence of any language
• completing the last course in the first-year college sequence of any language
• completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

BA students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While Bachelor of Science (BS) students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

### Nonprofit Management (BA)

The Bachelor of Arts in Nonprofit Management from the School of Continuing and Professional Studies (p. 1336) (SCPS) builds knowledge and skills for application in nonprofit settings, especially within administrative, supervisory and managerial positions. This program intentionally helps students to integrate liberal arts learning, inquiry and critical thinking skills, with a professional specialization. In this program, students have the opportunity to earn credit from prior learning from experience.

This major advances students' foundational management knowledge and skills in a range of areas critical to nonprofit organization, especially project management, program development and evaluation, fundraising, human resources, risk management, leadership, workplace law, ethical conduct, data analytics, finance and professional communications. With a range of courses in the major offered as electives, students may choose courses and specialize in areas of particular interest to them.

Graduates of this program will be particularly well positioned to make optimal decisions in the workplace and become promotable leaders. This major is designed for non-traditional and working adult students who seek the following:

- Flexible scheduling including online options available
- Financial Aid, flexible payment options, and special adult student tuition pricing available
- Acceleration and affordability through transfer credit and prior learning assessment (PLA) credit
- Opportunities to combine bachelor's and master's programs and apply graduate courses to both programs
Individualized program planning, course selection and advising assistance
Enhanced career opportunities through professional portfolio development, and career placement services instruction from industry practitioners, and wide-ranging Career Services support
Degree granted by DePaul University, with its excellent academic reputation and the opportunity to join its prestigious and extensive alumni network

Program Requirements | Quarter Hours
--- | ---
College Core Requirements | 78
Major Requirements | 72
Open Electives | 42
Total hours required | 192

**Learning Outcomes**

Students will be able to:
- Analyze and apply knowledge and theories of nonprofit management and change to real world problems within a nonprofit context
- Apply ethical principles in context
- Investigate problems using qualitative and quantitative methods.
- Apply various methods of communication to multiple settings
- Analyze data and apply skills for effective decision-making in nonprofit organizations
- Analyze and apply different liberal arts perspectives to nonprofit management

**College Core (78 credits, 20 credits in residence)**

**Lifelong Learning Requirements (32 credits, 16 credits in residence)**

Nonprofit Management Major Electives (12 credits)

Students are encouraged to use their major elective credits to complete a thematic cluster of courses relevant to their professional goals. For example, they may wish to create a cluster relevant to the type of nonprofit they currently work for or wish to pursue. For example, students who intend to work for nonprofit organizations focusing on environmental issues, might want to take environmental courses related to nonprofit management for their major electives.

Students should work with their academic advisors to identify an appropriate cluster theme and apply the courses to their major electives. Thematic clusters can be completed through DePaul courses, transfer courses or Prior Learning Assessment (PLA). The course list below are some major elective options.

Open Electives (42 credits)
Open Electives can be fulfilled through courses taken in the School of Continuing and Professional Studies and other DePaul colleges, transfer courses, assessment of prior learning (PLA), and independent studies.

Nonprofit Management (MNM)

The Master of Nonprofit Management (MNM) at DePaul University prepares students interested in nonprofit management to serve the common good and advance a just society, in the spirit of St. Vincent de Paul. The MNM builds competencies in leadership, management, ethics and advocacy, reflecting the areas of study important to today's nonprofit professional.

Integrating best practices in nonprofit management with DePaul's rich, globally focused curriculum, the MNM degree was designed specifically to correspond with the curriculum goals of the Nonprofit Academic Centers Council (NACC).

Program Requirements

<table>
<thead>
<tr>
<th>Program Requirements</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Core Requirements</td>
<td>40</td>
</tr>
<tr>
<td>Elective Courses</td>
<td>12</td>
</tr>
<tr>
<td>Total hours required</td>
<td>52</td>
</tr>
</tbody>
</table>

The Master of Nonprofit Management may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MNM/certificate program should consult with their academic advisor (SPSAdvising@depaul.edu) to determine what coursework might count toward both programs. A separate application process for the certificate may be required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office (https://las.depaul.edu/about/administration-staff/Pages/graduate-student-office.aspx) for additional information.

- Nonprofit Management + Community Development Certificate
- Nonprofit Management + Strategic Writing and Advancement for Nonprofits Certificate
- Nonprofit Management + Metropolitan Planning and Development Certificate
- Nonprofit Management + Emergency Management Administration Certificate
- Nonprofit Management + Health Care Administration Certificate
Learning Outcomes
Students will be able to:

- Explain relevant issues in the non-profit sector to target audiences in appropriate written and oral formats.
- Apply an ethical framework in making an organizational decision on a current moral dilemma.
- Demonstrate the specific managerial and technical skillsets evident in the non-profit sector, including finance, the management of volunteers, fundraising, and advocacy.
- Apply the leadership and strategic planning skills essential to managing non-profit organizations.
- Demonstrate their research competencies through a multi-step self-assessment process.

Degree Requirements
Students complete 13 courses (52 credit hours). Ten courses (40 credit hours) of core course work and three courses (12 credit hours) of electives are required.

Required Courses

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MPS 500</td>
<td>INTRODUCTION TO PUBLIC SERVICE MANAGEMENT</td>
<td>4</td>
</tr>
<tr>
<td>MPS 508</td>
<td>INTRODUCTION TO NONPROFIT MANAGEMENT</td>
<td>4</td>
</tr>
<tr>
<td>MPS 515</td>
<td>NONPROFIT FINANCIAL ADMINISTRATION</td>
<td>4</td>
</tr>
<tr>

</tr>
<tr>
<td>MPS 594</td>
<td>ETHICAL LEADERSHIP IN PUBLIC SERVICE</td>
<td>4</td>
</tr>
</tbody>
</table>

Internship Capstone Option
Students may choose to replace MPS 593 with MPS 610 Internship Capstone option.

Electives

Select three from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MPS 501</td>
<td>CROSS-SECTOR ANALYSIS</td>
<td>4</td>
</tr>
<tr>
<td>MPS 513</td>
<td>VOLUNTEERISM IN GLOBAL CIVIL SOCIETY</td>
<td>4</td>
</tr>
</tbody>
</table>

Internship Option
Students can opt to complete an internship or professional development experience. The student would enroll in MPS 601 for course credit, which will be applied to the MNM degree by the student's adviser. Contact SPSAdvising@depaul.edu (spsadvising@depaul.edu) for more details.

Student Handbook
Students in the School of Public Service will follow many of the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in the School of Public Service. Please see information below.

Academic Probation
All students within the School of Public Service must maintain a minimum cumulative GPA of 2.7 or higher as part of their requirements for graduation. As a result, any student who earns a cumulative GPA below 2.7 (B-) is placed on academic probation. Students on academic probation are required to meet with the Assistant Director for Academic Advising to discuss their performance and determine a plan for improvement.

Dismissal
Students who are not able to raise their cumulative GPA to a minimum of 2.7 within two academic quarters (after being placed on academic probation) are subject to dismissal from the program.
Readmission
If a student is dismissed from the program (as outlined in the dismissal policy), he or she may reapply through the formal admission application process.

Graduation Requirements
In order to graduate from the program, students must complete all program requirements with a minimum cumulative GPA of 2.7 or higher. If a student's cumulative GPA is below a 2.7, he or she may be denied graduation.

Non-Degree Seeking Students
While School of Public Service courses are open to non-degree seeking graduate students, pre-requisite requirements for certain courses may be enforced.

Nonprofit Management (MNM), Combined Bachelor’s + Master’s Degree
The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Nonprofit Management (MNM)
Firmly immersed in the Vincentian ethos of DePaul of serving the poor and underprivileged, the Masters in Nonprofit Management (MNM) combined degree program option is intended for selected students for whom the master’s degree is the preferred preparation for their career goals, or is viewed as additional preparation before pursuing a doctoral or law degree. The combined Bachelors/MNM program shortens the time to completion of the bachelor’s and master’s degrees by and costs less in tuition than pursuing the two degrees sequentially.

Combined program students take three MNM courses during their senior year, typically one per quarter, which double-count for both the bachelor’s and the master’s degrees. Placement of the successfully completed MNM courses either as open electives or as major field electives resides with the College hosting the specific Bachelor’s degree program. After the bachelor’s degree is awarded the three courses are credited toward the requirements of the MNM degree program as well.

Participants in the combined MNM program pay the current tuition rate applicable to their undergraduate program for any courses counted toward the requirements of both their bachelor’s and master’s degree programs. Participants will be eligible for the current Double Demon Discount for the remainder of their graduate coursework.

Through the combined Bachelors/MNM program, the student is responsible for working with both their undergraduate advisor to manage their undergraduate degree progress and the SPS academic advisor (SPSAdvising@depaul.edu) to plan a graduate program of study that includes the MNM courses as open electives or major field electives. Undergraduates are advised to meet a faculty member once per quarter during their senior year as an undergraduate to ensure that they are on track to graduate and transition into the master’s program. They also must maintain at least a 3.0 GPA in their graduate-level courses in order to matriculate into the graduate program.

Click on DEGREE REQUIREMENTS (p. 740) for descriptions of the required MNM coursework.

Nursing Practice (DNP)
Designed for the Baccalaureate or Master’s Entry Registered Nurse graduate who wants to pursue Nurse Practitioner or Nurse Anesthesia education and training for national certification and/or experienced Certified Nurse Practitioner, Clinical Nurse Specialist, Certified Registered Nurse Anesthetist or Certified Nurse Midwife seeking a clinical doctorate to gain knowledge on the delivery of advanced nursing practice to patient populations in healthcare systems where they work, acquire competencies on clinical scholarship with a focus on translation of new knowledge to practice and evaluation of health care delivery models, develop organizational and systems leadership skills, apply clinical prevention and population health services, engage in health care policy-making as a vehicle for advocating health for all and appraise information systems/technology and patient care technology that can lead to the transformation of tomorrow’s health care. The DNP Program tracks include AGNP, FNP, DNP Completion, and CRNA (in partnership with NorthShore University HealthSystem School of Nurse Anesthesia).

Program Goals
The purposes of the graduate tracks in the doctor of nursing practice program are to prepare advanced practice nurses for leadership roles in the practice setting:

1. Integrate nursing science and knowledge with the knowledge of other disciplines and implement this knowledge in order to improve healthcare.
2. Evaluate and translate evidence-based practices to improve health and healthcare outcomes at the patient, family, population, clinical unit, system, and/or community level.
3. Demonstrate collaborative and leadership skills on intra-professional and inter-professional teams to foster effective communication, enhance patient outcomes, and create change in complex health care delivery systems.
4. Contribute to the specialty of advanced practice nursing through participation in systemic inquiry and other scholarly endeavors.
5. Use information systems and technology to improve patient care outcomes in advanced nursing practice.
6. Incorporate a philosophy of social caring based upon respect for the whole person, embodied in professional practice and service activities within a multicultural society.
7. Assume a leadership role in influencing the direction of health care at the local and national level.
8. Demonstrate competencies of advanced nursing practice within a defined specialty.

Expected Competencies
1. Integrate nursing theories and concepts with knowledge from biology, physics, pathophysiology, pharmacology, psychology, sociology and organizational sciences to deliver the highest level of advanced nursing practice in any practice setting and population focus.
2. Demonstrate safe, effective, and efficient professional practice, in a defined area of advanced nursing practice.
3. Develop the ability to work independently, accepting responsibility and accountability for one's own advance practice as an Advanced Practice Nurse.

4. Demonstrate responsibility to society by establishing an Advanced Practice Nurse practice that is based upon professional standards as well as ethical and moral principles.

5. Demonstrate the ability to develop public speaking skills through the use of presentations and dissemination of DNP project findings.

6. Demonstrate collaborative and leadership skills on intra-professional and inter-professional teams to foster effective communication, enhance patient outcomes, and create change in complex healthcare delivery systems.

7. Develop organizational and systems leadership skills for quality improvement and systems thinking to improve health outcomes at the local and national level.

8. Evaluate and translate evidence-based practices to improve health and healthcare outcomes at the patient, family, population, clinical unit, system, and/or community level.

9. Contribute to the specialty of advanced nursing practice through participation in or leading the conduct of systematic, practice-focused scientific inquiry and other scholarly endeavors.

11. Use existing and new computerized databases, analyze data accurately, critically appraise the literature, and develop and implement best practices in healthcare based on highest level of evidence.

12. Use information systems and technology to improve patient care outcomes in advanced nursing practice.

13. Use conceptual or theoretical framework to evaluate information systems and technology that can transform the future of healthcare.

14. Incorporate a philosophy of social caring based on respect for the whole person, embodied in professional practice and service activities within a multicultural society.

15. Analyze major factors and policy triggers that influence legislative health policy-making in order to achieve fair and just health-related policies, educate others about health disparities, and improve access to quality care.

16. Design, influence and implement health care policies that address social justice, equity, patient-centered care, cultural sensitivity, access to affordable healthcare, and quality, safe and effective healthcare for all.

17. Reflect on educational experiences and life lessons to gain insight into the development of a personal philosophy of healthcare and align advanced nursing practice and personal decisions both legally and ethically.

• Provide organizational leadership through systems of care that utilize interdisciplinary collaboration and consultation to deliver safe, effective, and efficient patient-centered care, which influences policy.

• Design, implement, evaluate, and promote evidence-based care in complex situations through continuous quality improvement and clinical scholarship.

• Develop, implement, and evaluate transformational patient care technologies and analytical methods focused on safety and quality standards.

• Demonstrate an awareness of global health disparities, and in the Vincentian mission of the university, advocate for social justice, equity, and ethical policies that impact the overall health of individuals and communities.

**Concentration Requirements**

In addition to the Doctoral Core requirements, students must complete the track requirements for their one designated concentration track.

**Other Requirements**

**DNP Project**

Students will be required to complete a DNP Project which represents the cumulating work for their DNP program. The project is expected to be a tangible academic product that reflects the student's educational experiences and should be evaluated by an academic committee. The DNP Project for the DePaul DNP students (NSG 600, NSG 601, and NSG 602) will include:

1. a needs assessment of an aggregate population, APN practice setting, healthcare institution policies, or healthcare delivery models using an Evidence Based Practice approach;

2. development and implementation of a research project to improve the health of a population, change practice, influence health policy, or revise healthcare delivery models;

3. evaluation of the program; and

4. a publishable quality manuscript and a formal oral presentation will be presented to the student's DNP Committee for approval.

**Learning Outcomes**

Students will be able to:

• Practice as an advanced practice clinician who demonstrates knowledge of population health issues, prevention strategies, and culturally relevant approaches to improve health.
A poster representing the DNP Project will be produced by the student for presentation at the Grace Peterson Research Colloquium.

Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:

- Adult-Gerontological Nurse Practitioner Track, Nursing Practice (DNP) (p. 751)
- DNP Completion - Advanced Practice: Nurse Anesthetist Track, Nursing Practice (DNP) (p. 751)
- DNP Completion - Advanced Practice: Nurse Practitioner, Clinical Nurse Specialist, Nurse Midwife, Nursing Practice (DNP) (p. 751)
- Family Nurse Practitioner Track, Nursing Practice (DNP) (p. 752)
- Nurse Anesthetist Track, Nursing Practice (DNP) (p. 752)

Program Graduate Academic Student Handbook

A complete list of policies specific to this program of study is contained in the Student Handbook that is updated regularly on the website for the School of Nursing. The complete DNP handbook can be found here: DNP Student Handbook (https://csh.depaul.edu/academics/nursing/student-resources/Pages/student-handbook.aspx)

Retention Policies

1. To be retained in the nursing program, students must maintain a cumulative grade point average of 3.0 in all academic work at the University.
2. Graduate students must maintain a cumulative grade point average of at least 3.0 in all academic work at the University.
3. Students must earn a grade of B- or better to receive graduate credit for any 400-600 level courses.
4. Graduate students who receive a grade below a grade of B- in any required nursing course will be dismissed from the program.
5. Clinical courses may not be re-taken to raise an unsatisfactory grade.
6. Students who drop below the required cumulative GPA of 3.0 will be placed on probationary status. Students who have less than the required GPA for two quarters will be dismissed from the program.
7. In accordance with the nursing licensing regulations, students found to be convicted of serious crimes (felonies, substance abuse) will be reviewed by the Admission, Progression and Retention Committee and may be suspended or dismissed from the program.
8. The School of Nursing expects a respectful environment conducive to teaching and learning from all students, faculty, and staff. Inappropriate conduct is defined as any action that interferes with the creation and maintenance of an effective learning environment. Students are expected to display civility in all aspects of their educational experience at DePaul University.
9. Appropriate student conduct is outlined in detail in the School of Nursing Professional Development Guidelines (DNP Student Handbook (https://csh.depaul.edu/academics/nursing/student-resources/Documents/DNP%20Student%20Handbook%20Revised%209-24-2019.pdf), Appendix B). Appropriate student conduct includes, but is not limited to: being punctual for all classes; displaying courtesy; maintaining professional standards and safe practice in the clinical areas; maintaining academic integrity; avoiding leaving the classroom/clinical area other than during designated breaks and only with the permission of the responsible faculty member; fostering a positive learning environment by respecting the ideas and opinions of others; not talking during class or engaging in activities that distract the attention of others, including keeping cell phones and pagers set on silent mode; respecting others, including not making sarcastic or disrespectful remarks, using foul language or swearing; not threatening others; and remaining emotionally calm without inappropriate outbursts.
10. Students displaying inappropriate conduct may be asked to leave the classroom, clinical area, or meeting. Inappropriate conduct will be documented with a written copy of the incident being placed in the student’s file. Such incidents of inappropriate conduct will then be reported to the Director of the School of Nursing, with copies sent to the Associate Co-Directors of the Program and the Admission, Progression, and Retention Committee. Additional sanctions for inappropriate conduct may be imposed, including dismissal from the nursing program. For additional information, please see both the University Student Handbook-available online, as well as the “Student Misconduct Process” outlined here: (DNP Student Handbook (https://csh.depaul.edu/academics/nursing/student-resources/Documents/DNP%20Student%20Handbook%20Revised%209-24-2019.pdf)).
11. Students are required to immediately notify the School of Nursing (SON) of any arrests or convictions during the program of study. The SON may elect to suspend the student until the criminal charge has been resolved. The SON may elect to dismiss the student for a criminal conviction.

Progression Policies

1. All students must attend an orientation session before beginning the nursing program of studies.
2. All students must meet with their assigned academic advisor during the first quarter of the program to review their official program of studies for the current academic year. The student is responsible to sign the coversheet of the Student Handbook and give this to his/her advisor at the time of their initial meeting.
3. Students must meet with their academic advisor at least once during each subsequent academic year to review progress in the program and plan for the following year. Advisors may not be available during the months of July and August.
4. A student may not register for any course that has a prerequisite if that student has an incomplete in the prerequisite course.
5. Students may not attend classes in a course for which enrollment is blocked. No credit will be awarded for assignments completed when not officially enrolled in a course. This includes assignments previously completed and turned-in for courses taken in the past.
6. All required health records, evidence of CPR certification, criminal background checks, licensure, personal health insurance, and professional liability insurance must be kept on file in the SON. It is each individual student’s responsibility to keep all of their records up-to-date. Drug screens are required for clinical placements. See Clinical Guidelines for further information. Failure to have all records present and up-to-date before the start of each course will result in inability to attend the clinical component of the course.
7. Leave of Absence:
   a. Students who need to interrupt their studies for personal, health or other reasons may request a leave of absence for up to one full year from the date of approval. The request to the faculty adviser, Associate Director of the program and the Admission, Progression and Retention Committee all should be notified.
   An on-line Leave of Absence Request form found on Campus
All out of sequence students will be placed in courses on a space/need to leave the DePaul Nursing Program. This request for reinstatement must be made no less than 6 weeks prior to resuming the nursing course sequence. Students will be notified in writing regarding the decision concerning their re-entry to the program. Individual assessment of current knowledge and clinical skills will be made prior to placement of the student back into the nursing program. Students who become “out of sequence students” due to dismissal, withdrawal, or military/medical/family leave of absence will resume course work based upon roster space availability in required courses offered at that time.

8. Students who have taken a leave of absence from the program for greater than 12 calendar months must re-apply to the university. Their re-application will then be considered with all other qualified applicants applying for admission to DNP program.

9. A student who withdraws from any nursing course while in good standing cannot progress in the sequenced nursing curriculum until that course has been successfully completed. In courses that contain both a clinical practicum and a lecture component, both course segments must be completed simultaneously. Exceptions may be identified and defined by the Admissions, Progressions and Retention Committee (APR) in consultation with either the Director of the School of Nursing or Associate Director of the Program and the course faculty.

10. A student who withdraws from any nursing course who is ‘not in good standing’ (with a grade of “C” or lower or on probation) at the time of withdrawal, will be referred to the Admissions, Progressions, and Retention Committee (APR). The APR will meet to review the student’s past and current performance and to elicit recommendations from the course faculty. A representative of the APR committee may then meet with the course faculty and the Associate Director of the Program and student to counsel the student and to establish a contract for academic improvement. Such students may not progress in the sequenced nursing curriculum until the course has been retaken and successfully completed. In courses that contain both a clinical practicum and a didactic theory portion, both course segments must be completed simultaneously.

11. A student may withdraw from any nursing courses ‘in good standing’ (with a grade of “B-” or higher) only twice during their program of study. A third such withdrawal will result in dismissal from the program.

12. All out of sequence students will be placed in courses on a space/faculty available basis. Priority will be given to students who are out of sequence for military service, severe illness, or family leave rather than for failure or withdrawal ‘not in good standing’.

13. A student who has a grade of B- (86% or less) at mid-quarter will be notified by the instructor. The student must satisfactorily fulfill all course requirements by the end of the quarter in order to receive a course grade.

A student currently enrolled in a degree program in which revisions are approved while their studies are in progress, may elect to formally adopt the revised requirements.

**Academic Integrity Policy**

Violations of academic integrity in any form are detrimental to the values of DePaul, to the students’ own development as responsible members of society and to the pursuit of knowledge and the transmission of ideas. Violations of academic integrity include but are not limited to: cheating, plagiarism, fabrications, falsification or sabotage of research data, falsification of clinical data, destruction or misuse of the university's academic resources, academic misconduct, and complicity. If an instructor finds that a student has violated the Academic Integrity Policy, the appropriate initial sanction is at the instructor’s discretion. An instructor may choose to file an academic integrity violation with the university. Actions taken by the instructor do not preclude the college or the university from taking further action, including dismissal from the university. Conduct that is punishable under the Academic Integrity Policy could result in criminal or civil prosecution. The full Academic Integrity Policy can be found here (https://offices.depaul.edu/academic-affairs/ faculty-resources/academic-integrity/Pages/default.aspx).

**Nursing Practice (DNP)**

**Academic Integrity Policy Extension for Clinical and Service Settings**

DePaul University is committed to education that engages its students, faculty and staff in work within Chicago’s institutions and communities. As DePaul representatives to our partner institutions and community organizations, we ask that you take seriously your responsibilities to these institutions during service and clinical experiences and internships. The community and its institutions are extensions of the DePaul classroom. The University’s Academic Integrity Policy and Code of Responsibility apply to professional interactions as well.

**Student Advising/Program of Study**

1. A faculty advisor will be assigned to each student upon acceptance to the program. The advisor will assist in developing an appropriate program of studies according to the student’s preferences, abilities, and anticipated course availability. Students are required to meet with their advisors during their first quarter in the program, at the end of the first academic year and once per academic year following.

2. Classes are scheduled so that a full-time student can complete the typical program of studies in the designated time frame. Part-time students or students taking courses out-of-sequence, may experience delay in obtaining necessary courses for timely progression in the program.

3. Students who need to change to part-time status must follow the steps below and need to be aware that they may experience delay in obtaining necessary courses for timely progression in the program.
   a. Meet with his/her academic advisor and the Associate Director of the Program.
   b. Upon approval of change in status, the Associate Director of the Program will become the student’s academic advisor.
   c. The Associate Director and student will develop an adjusted program of study that the student will follow.

4. The student is responsible for setting-up an appointment with the designated advisor to develop an individualized program of studies.

5. The student is responsible for obtaining a copy of the program of studies worked out during the faculty-student advising session.
6. The student is responsible for enrolling in classes in the sequence identified in the program of studies. Should circumstances interrupt or delay registering for the designated classes, students must notify the Associate Director of the Program, the department administrative assistant, and faculty advisor for modification of the planned program of studies. The Admissions, Progression, and Retention Committee, will be notified by the faculty advisor of the proposed interruption.

7. The student is responsible for meeting all prerequisites to courses for which the student is registering.

8. The student is responsible for scheduling periodic student-advisor, and student-instructor conferences.

9. The student may not register for any DNP course until all conditions of admission are completed. Students who are not in compliance will be withdrawn from the course(s) for which they are currently registered. Students will be denied progression in the program up to and including being denied graduation until all requirements are met.

Clinical Guidelines

The student acknowledges that all DePaul University and School of Nursing academic and conduct policies remain in place during clinical experiences. The student also agrees to comply with all of the policies set forth by the clinical site. The student understands that failure to comply with university or School of Nursing policies or the policies of the clinical site may result in sanctions, including removal from the clinical site and/or the course. A student may be dropped from clinical coursework for not participating in clinical orientation. The student understands that it is his/her responsibility to immediately notify his/her clinical instructor in the event that the student encounters problems with his/her mentor, preceptor, or staff at the site or at the site generally.

DPN students are expected to find clinical preceptors and/or mentors at the site or at the site generally. Her clinical instructor in the event that the student encounters problems understands that it is his/her responsibility to immediately notify his/her mentor, preceptor, or staff at the site or at the site generally. DNP students are expected to find clinical preceptors and/or mentors at clinical sites in which DePaul University has an affiliation contract with.

If none exists then a request for a clinical affiliation contract must be secured and signed by both institutions. Once an affiliation contract is in place, a student can start clinical. Additionally a request for a clinical preceptor agreement must be submitted using a Request for Letter of Agreement form along with the preceptor's CV or Preceptor Profile and copy of verification of licensure in the state.

Students are required to:

1. Attend ALL scheduled learning activities including orientation, lectures, exams, seminars, laboratories, simulation activities, observations, clinical practicums, evaluation conferences, and other comparable activities. If any scheduled learning activities are missed, the student will need to make-up these learning activities or withdraw from the course. Students are advised that opportunities for making up learning activities are subject to clinical faculty, site and laboratory availability.

Students are responsible for notifying the appropriate faculty member when an absence from a scheduled learning activity cannot be completed. Notification of faculty prior to an absence is expected, and when not possible, the student is responsible for notifying the faculty as soon as possible. An excused absence is defined as an absence for illness or other special circumstance, in which the faculty has been notified prior to the absence. Unexcused absence is defined as an absence for i.e., vacation, or other activities, which result in an absence, and have not been pre-approved by faculty. Students are responsible for resolving any conflicts that may arise. Failure to notify an instructor or preceptor of absence or tardiness is grounds for dismissal from the program.

The decision regarding the make-up of learning activities or consequent withdrawal from a course resides with the course director and/or clinical instructor as specified in the course syllabus and as practical to the missed activity and class/clinical setting. Any absence may result in a lower grade. Absences of more than 15% of the total course hours may result in failure of the course.

2. Arrive on time, prepared for all scheduled learning activities. This includes but is not limited to: appropriate dress, knowledge of medications, development of an appropriate plan of care, completion of all written and motor tests on skills that are necessary to a particular clinical rotation/setting. Refer to Dress Code Policy.

3. Students deemed unprepared or tardy may be asked to leave the clinical setting by the preceptor, receiving an “Unexcused” absence for the day. An “Unexcused” absence in clinical may result in failure of the course.

4. Required clinical equipment and dress a watch with a second hand or digital second reading capability, a stethoscope with both a diaphragm and bell (dual head), a penlight, and lab coat with DePaul Nursing patches, name pin/badge, black ball point ink pen.

5. Provide own transportation to clinical sites and pay for own parking as needed. Students are not allowed to transport clients or client families at any time.

6. Know and follow individual clinical agency policies and procedures. This information is available through each individual agency.

7. Use his/her legal signature in charting. The initials RN/ SNP/SRNA or NP/CRNA are to follow the legal signature.

8. Be knowledgeable about indications for, contraindications, warnings/precautions, interactions, adverse reactions and proper dosing when prescribing medications under the supervision of the clinical preceptor.

9. Comply with additional requirements of the clinical setting including but not limited to drug screening.

10. Bring reference books and materials to the clinical setting as needed to provide safe care.

11. Full-time students are expected to direct their major energy to their program of study. Thus the School of Nursing recommends that students limit their outside employment hours per week during periods when classes are in session. Previous experience demonstrates that students who work in excess endanger their scholastic standing and place themselves “at risk” for academic failure. Neither the university nor the School of Nursing has or assumes responsibilities for the nursing care of patients rendered by the student working as an RN since the student is employed by a nursing service and during such employment is not under the supervision of DePaul University.

12. Students can use the same clinics or work settings where they are concurrently employed only if working with a preceptor or mentor different than their current supervisor as a student in an unpaid NP student clinical role.

13. The students lab coat with DePaul Nursing patches, name pin/badge or digital second reading capability, a stethoscope with both a diaphragm and bell (dual head), a penlight, and lab coat with DePaul Nursing patches, name pin/badge, black ball point ink pen.

Unsafe Clinical Performance

A student is responsible for implementation of safe patient care during the supervised clinical practicum. Unsafe behavior can result in suspension from the clinical site, student remediation, failure of the
course, and/or dismissal from the program. Unsafe practice is defined as behavior that has the potential to cause serious harm to a patient.

Examples of unsafe clinical behavior in clinical practice include, but are not limited to:

1. Violating HIPAA requirements
2. Violating OSHA requirements
3. Performing a procedure outside the domain of nursing
4. Performing a procedure in which he/she has not been prepared
5. Failing to use universal precautions
6. Administering treatments/medications in any form via any route without consent and/or supervision from the clinical preceptor
7. Advising patients about diagnosis or prognosis or referring patients to treatments, agencies, medications, without first discussing such with the clinical preceptor.
8. Performing any procedure without previous knowledge or training on a patient without preceptor guidance and supervision.
9. Inability to correctly calculate math/medication problems
10. Knowingly exposing patients, colleagues, and others to actual or potential life threatening communicable diseases.
11. Stealing drugs, supplies, or belongings from an agency or patient.
12. Removing copies of patient care documents from healthcare agencies.
14. Failing to adhere to DePaul School of Nursing and/or clinical agency policies.
15. Falsifying patient records or fabricating patient experiences.
16. Neglecting to give appropriate care.
17. Providing patient care in a harmful manner or exhibiting careless or negligent behavior in the process of providing care to a patient.
18. Refusing to assume the assigned care of a patient, or failing to inform the instructor of an inability to care for a patient.
19. Willfully or intentionally causing physical or emotional harm to a patient.
20. Failing to report an error in assessment, treatment, or medication or failure to report an unusual occurrence or an adverse reaction.
21. Failing to comply with DePaul’s Drug Free Campus policy.
22. Performance not in compliance with stated student expectations as outlined in lecture or course syllabi.

Any student whose pattern of behavior demonstrates unsafe clinical practice that endangers a patient, colleague, or self in the clinical area will be suspended immediately from the clinical experience. The faculty of record will meet with the student to discuss how the unsafe behavior came about and potential complications from said behavior and prepare written documentation of the event. This will be forwarded within 24 hours to the course coordinator. A copy of this document will be placed in the student file and forwarded to the Director of the School of Nursing, Associate Director of the program, and Admissions, Progression and Retention Committee. If appropriate, an incident report will be filed at the clinical site.

If, in the clinical preceptor’s clinical judgment, a student is unsafe to continue in the clinical practicum, the clinical preceptor will take the following steps:

1. Dismiss the student for the remainder of the clinical day. The preceptor will follow institutional guidelines as appropriate.
2. Contact the course instructor and the Associate Director of the Program.
3. Submit a written report of the incident to the clinical instructor and Associate Director’s office within one working day. The clinical instructor will schedule a meeting with the student within 24 hours of the incident or as soon as is practical, and prepare a written report that describes the incident that resulted in the student's dismissal from clinical. The student will be given a copy of the report at this time.
4. The clinical instructor will advise the student that he or she will not be able to return to clinical until the meeting with the Associate Director takes place. The Director of the School of Nursing may also be involved in the meeting.
5. Within 3 working days, or as soon as is practical, a meeting will be held. In attendance at the meeting will be the clinical instructor, the student, the course coordinator and the Associate Director of the Program and Director of School of Nursing. The student may have his or her advisor present at the meeting. A decision regarding the student's continuation in the program will be made. This meeting will determine whether the student will be administratively withdrawn with a grade of F or is allowed to return to complete the clinical. The clinical instructor initiating the meeting is not involved in the decision regarding the student’s progression in the program. A decision is made at the meeting and communicated to the student.
6. The documentation related to unsafe clinical practice will be kept in a secured file within the SON offices.
7. The Admissions and Progression and Retention Committee (APR) reviews any administrative course withdrawal resulting in an F. The APR will determine if the student is dismissed from the program or may return in an appropriate quarter per the procedures of the APR. The student may elect to appeal this decision per procedures in the student handbook.

Clinical Performance Limitation Related to Temporary Disability

A student who incurs an injury or has any other physical limitation of a temporary nature must notify the clinical instructor and course coordinator and provide documentation from his/her health care provider that he/she is able to safely carry out the duties of a student in the clinical setting. This must occur as soon as possible and prior to attendance at clinical. The final decision as to whether the student is allowed in the clinical setting rests with the clinical agency.

Clinical Probation/Remediation

A student requires a clinical contract when one or more clinical course objectives are not being met. These behaviors, if not addressed, put the student at risk for receiving a non-passing final grade in the course. The process is initiated as soon as an instructor and/or course coordinator recognizes that a student’s performance or behavior may jeopardize the successful completion of a course. The clinical contract can be initiated at any time during the quarter.

The clinical contract is documented on the Student Faculty Contract form (Appendix A in the Student Handbook) and is completed by the course coordinator and clinical instructor. The course coordinator and clinical instructor will document, in writing, on the contract form, the areas of deficient student performance and identify behaviors the student will need to demonstrate in order to receive a passing grade. The student will receive a copy of this contract. The student’s academic advisor will be notified as will the Associate Director of the Program. The academic
advisor will follow-up with the course coordinator regarding the student’s remediation progress. By the end of the quarter (or completion of the course in the event of a withdrawal), the student must demonstrate satisfactory remediation of all areas of concern noted in the contract without further additional deficits or risk failing the course.

**Clinical Failure**

In the event that a student does not receive a passing grade in the clinical component of a course, the student’s grade for that course will automatically become an F.

**Student Dress Code**

1. The student is to be well groomed at all times presenting a professional image. The rationale behind this and the following requirements comes from the belief that it is the client who is the focus of the nurse-client relationship.

2. Hair must be kept off the face and above the collar or pulled back and secured. Natural hair tones only. Sideburns, moustaches, and beards must be neatly trimmed. Make-up, if worn, must be minimal and conservative. Personal care products may only be lightly scented. Other fragrances are not to be worn.

3. Nails may not extend beyond the tip of the finger. NO artificial nails or nail polish is permissible.

4. The ONLY acceptable accessories are: One single or pair of stud earrings—one on each lobe; one plain ring/ring set on one finger; NO other body jewelry or accessories is acceptable. Note: in some clinical areas all jewelry must be removed.

5. Tattoos are to be covered.

6. When giving direct patient care, in the office or clinic setting, students must wear their white lab coat with DePaul School of Nursing patch, their SON student name pin, and professional dress consisting of a shirt, sweater, and/or blouse with pants or a skirt, closed toe shoes in good repair with a low heel and in neutral color, with neutral hosiery or socks. No high tops or bare foot sandals.

7. Inappropriate clothing would include: sweatshirts; sweat pants; tight or sleeveless tops; shirts with lettering, pictures or hoods; stirrup pants; leggings; Capri pants; shorts; blue jeans; tight or revealing clothing; visibly worn, torn, or faded clothing; midriff tops; low necklines; open-backed clothing; cleavage or underwear showing; or flip-flops.

8. These guidelines are subject to modification by the clinical instructor, based on the instructor’s judgment, individual student religious or cultural practices, the sensibilities of the population, and the dress code of the particular office or clinic setting or event where the student is in attendance or practicing.

**Confidentiality**

**Patient/Client Privacy**

1. The student is expected to adhere to the American Nurses Association Code for Nurses and act in accordance with the Patient’s Bill of Rights.

2. Confidentiality is the protection of a client’s privacy through careful use of oral and written communications. The client’s right to privacy is safeguarded by judicious protection of confidential information. The student should adhere to the School of Nursing Social Media policy (Appendix C in the Student Handbook) regarding maintenance of confidentiality and protection of privacy as it relates to communication via social media.

3. A client’s chart is a legal document. Information from the client and chart is confidential and cannot be disclosed to those not caring for the client. All entries must be accurate and legible. No part of the client’s Medical record can leave the office or clinic setting.

4. Information communicated by clients to students may not be repeated to anyone outside of the direct care team. Care should be taken when in the corridors, lounge, classroom, dining rooms, or other public areas, so that conversations are not overheard.

5. An individual can withhold any information about himself/herself that he/she desires. Nursing students must be especially careful regarding the invasion of the client’s privacy.

6. Students should use only the initials of the client when filling out history & physical exam forms, SOAP notes and any other documents which are a part of their educational experience.

**Unprotected Exposures**

In the event of any unprotected exposure to blood or body fluids, the student is to follow the procedures of the DePaul University School of Nursing Bloodborne Pathogens Exposure Control Plan (https://csh.depaul.edu/academics/nursing/student-resources/Pages/exposure-control-plan.aspx).

**Exposure at DePaul University**

Any student who incurs an exposure incident at DPU should obtain confidential post-exposure evaluation and follow-up.

Students who would like to obtain this confidential post-exposure evaluation and follow-up from Advocate Illinois Masonic Medical Center may contact DePaul Public Safety, who will facilitate transportation to Advocate Illinois Masonic Medical Center.

The post exposure evaluations and follow-up should include at least, the following elements:

- Documentation of the route(s) and circumstances of the exposure;
- The results of the source individual’s blood testing, if available; and
- All medical records relevant to the appropriate treatment of the student, including vaccination status, the Safety Officer or his/her designee will maintain these records.

Collection and testing of blood for HBV and HIV serological status will comply with the following:

- The exposed student’s blood shall be collected as soon as feasible and tested after consent is obtained;
- The student may have his/her blood collected for testing of the student’s HIV/HBV serological status. The blood sample will be preserved for up to 90 days to provide time for the student to decide if the blood should be tested for HIV serological status.

The student is responsible for costs associated with the medical evaluation.

**Exposure at an Outside Facility while Performing Duties within Student Role**

Any student incurring such an exposure should follow both DPU’s post exposure policy as well as the institution’s policy where the exposure occurred. All student exposure incidents, whether they occur at DPU or off-campus while conducting learning or training activities under the SON must be reported to the Safety Officer or his/her designee as soon as possible, but no later than one business day after the incident.
Students are encouraged to speak with their health care provider about any additional follow-up post-exposure prophylaxis that may be recommended.

When possible, the Safety Officer, his/her designee, or institution where the exposure took place, will look into testing the exposure source individual for HIV, hepatitis B, and/or hepatitis C. Testing of the source individual’s blood does not need to be repeated if the source individual is already known to be infected with HIV, hepatitis B, and/or hepatitis C.

Student Clinical Requirements

It is mandatory that all students have all of their clinical requirements completed and a copy in their Castle Branch account by August 1st for Fall Quarter. It is the responsibility of the student to insure that all clinical requirements are kept current. Students must submit copies of renewed coverage, updated lab results, and renewed skills PRIOR to the anniversary of the expiration date. Non-compliance with clinical requirements will result in the student's withdrawal from their clinical course and subsequent delay progression in their program of study.

The student must submit COPIES (NOT ORIGINALS) of the following:

1. A complete physical examination signed by a licensed primary care provider (MD, DO, NP, PA).
2. A Non-Reactive TWO-STEP Tuberculin Skin Test or Quantiferon Gold TB Blood Test. The Two-Step TB Skin Test requires that you receive two separate Mantoux skin tests at least one week apart AND no longer than 3 weeks apart. This test must be renewed YEARLY with a single step TB skin test or a Quantiferon Gold TB Blood Test. If previously positive, a student must submit a chest x-ray and/or TB symptom assessment statement that verifies the student is free from Tuberculosis signed by a licensed primary care provider (see above).
3. A Mantoux test or Quantiferon Gold test must be taken and results uploaded to Castle Branch every 12 months following the initial TB test.
4. Titers for Rubeola, Mumps, Rubella, Varicella, and Hepatitis B. A TITER is MANDATORY to document immunity. (Note: Vaccination or history of the disease is necessary to develop immunity). The titer MUST contain the titer value as well as the reference norm. The required titers are as follows:
   a. Rubeola IgG
   b. Mumps IgG
   c. Rubella IgG
   d. Varicella IgG
   e. Hepatitis B surface antibody (quantitative).

   If the Hepatitis B immunization series has not been completed prior to beginning clinical attendance, the first of the three must be received prior to the first clinical day. It is the student’s responsibility to supply documentation of the vaccine dates and the date when the final Hepatitis B surface antigen/antibody (quantitative) will be drawn. It is also the student’s responsibility to upload this final documentation to their Castle Branch file as soon as it becomes available. If a titer does not demonstrate immunity, further vaccination is necessary.

   If titers indicate no immunity for Rubeola, Mumps, Rubella, and Varicella, immunization is required (for Rubeola, Mumps or Rubella, this will be a booster series of 2 MMR immunizations). Titers will need to be drawn after re-immunization with the MMR. No follow-up titer is required for Varicella.

   Students must sign a waiver if no immunity is detected on follow-up titer. The waiver states that you understand the risk associated with continuing in the nursing program, specifically that if you contract the disease to which you are not immune, the school is not liable and that you want to continue in your studies, knowing the risk. Once you have documented your immunity or signed a waiver, you will not need to furnish any further documentation.

5. Tetanus-Diphtheria-Pertussis Booster: Must be within the last 10 years. Documentation can be in the form of a signed immunization card or statement from your healthcare provider or health department that documents the date of the tetanus booster or TdaP were administered.
6. We require a yearly influenza vaccine. Most of our clinical agencies require influenza vaccines for all personnel providing patient care.
7. Standard Precautions/Universal Precautions Training: Incoming MENP students will receive this as part of their initial coursework.
8. Current CPR Certification: Exact month/day/year MUST be recorded on card. American Heart Association Healthcare Provider (BLS)-Must be RENEWED EVERY 2 YEARS. (Note: AHA BLS certification is the ONLY CPR certification acceptable.)
9. Professional Liability Insurance: Each DNP NP student must obtain their own student nurse practitioner professional liability insurance policy against claims arising from real or alleged errors or omissions. Their policy must have minimal limits of coverage of $1,000,000 PER claim and $5,000,000 aggregate. This insurance must be renewed annually. Professional Liability Insurance for DNP NA student is provided by NorthShore. The NP or NA DNP completion student must provide evidence of Professional Liability insurance: if providing direct patient care during their clinical residency hours.
10. Evidence of Current Health Insurance: All nursing students must submit proof of health insurance yearly. The health insurance photocopy of membership card or the paper it is written on should show the dates of coverage or the date the copy is uploaded to the student's Castle Branch file.
11. Criminal Background Check: Nursing students must submit to a criminal background check via Castle Branch prior to their initial clinical experience. Criminal background checks must be completed by August 1st for Fall Quarter and will remain in effect unless: a) a clinical agency determines it necessary to require more frequent or more detailed background checks, b) OR a nursing student interrupts his/her program of study for one quarter or longer. In the above cases, it is mandatory for the student to have another criminal background check performed.

The School of Nursing may not be able to place students in a clinical setting if there are positive findings on the criminal background check. As a result, a student will not be able to complete the requirements of the program.
12. Drug Screening: Nursing students are required to have a ten-panel drug screen as required by clinical institutions. The test may be obtained from any health care agency, or from Castle Branch through Quest Diagnostics Lab. The drug test MUST follow a “Chain-of-custody” procedure. The student should sign a release to have the results sent to the School of Nursing Coordinator of Clinical Placements. See below for the School of Nursing Policy on Drug Use and Testing.
The School of Nursing may not be able to place students in a clinical setting if there are positive findings on the drug screen. As a result, a student will not be able to complete the requirements of the program.

**Drug Use and Testing**

In accordance with DePaul University policies, the School of Nursing will impose disciplinary sanctions upon any student found to be in violation of laws or policies relating to the unlawful possession, use, or distribution of drugs or alcohol. Nursing students may be required to have a ten-panel drug screen based on clinical affiliates' requirements. Release forms must be signed to have the results sent to the Clinical Placement Coordinator.

If a student’s drug test is positive, secondary or confirmatory testing will be performed and the student will be expected to cooperate with interviews and follow-up procedures to ascertain and endeavor to confirm whether there was an explanation for the positive test result that did not involve illegal conduct, e.g., ingestion of lawful drugs, food, or beverages that could cause positive results.

If the positive test is confirmed and no sufficiently credible explanation of relevant lawful conduct is forthcoming, clinical placement in a clinical course and successful completion of the program will be jeopardized due to failure to qualify for placement and/or successful completion of the program. Students with confirmed positive tests and/or no sufficiently credible explanation of relevant lawful conduct will be advised that the DePaul University School of Nursing cannot place them in a clinical setting. As a result, a student would not be able to complete the requirements of the program.

**DNP Residency**

The DNP residency is a key component of the DNP program. The essential components of residency are scholarly activities that support the implementation and completion of a DNP Project. These may include time spent with a preceptor/mentor in a professional institution, clinic or community based organization which provide care to an underserved/disadvantaged patient population due to lack of access or socioeconomic reasons. Continuing education conferences and workshops that expand/support the DNP Project may also be used. A minimum of 300 hours is required for the DNP NP Track residency; the student is required to maintain a record log of the scholarly activities that include a reflection analysis of each experience. The reflection journal will be incorporated in the ePortfolio. The academic advisor/course director is responsible for supervision of the DNP residency.

- Baccalaureate & Post-Masters entry Registered Nurse DNP NP Track student - the DNP residency occurs after 600 hours of preceptor clinical in the nurse practitioner track have been completed in NSG 483, NSG 487 & NSG 490. A minimum of 300 Residency clinical hours occur in NSG 700 and NSG 701.
- Post masters Nurse Practitioner, Clinical Nurse Specialist and Nurse Midwife DNP Completion Student - the DNP residency is 300 hours of clinical or less based upon the number of documented preceptor clinical hours in their master’s nurse practitioner program verified by transcript or letter from the director of the program. Residency hours occur in NSG 700 and NSG 701. Post masters Nurse Anesthesia DNP Student – the DNP residency is 100 hours of clinical in NSG 615 and NSG 616.

**Professional Portfolio**

During their program of studies, the DNP student is required to develop a professional electronic portfolio, a digitalized, purposeful collection of their selected work (documents, images, or videos), that provides evidence of their scholarly and professional development and achievement of the program's learning outcomes. The ePortfolio is started at the beginning of the program in NSG 554 and continues to be added to throughout their DNP Program of study being completed in NSG 602. The DNP student will develop their portfolio on Digication, the ePortfolio system at DePaul. The student will have access to their portfolio after they graduate and can continue to highlight selected personal and professional accomplishments and experiences. Throughout their enrollment, students have unlimited access to the Writing Center for one-on-one Digication training and ePortfolio development support.

**DNP Project**

DNP students are required to complete a practice-focused inquiry as a DNP Project related to advanced nursing practice, which is broadly defined by AACN (2004) as:

> any form of nursing intervention that influences health care outcomes for individuals or populations, including the direct care of individual patients, management of care for individuals and populations, administration of nursing and health care organizations, and the development and implementation of health policy. (p. 2)

The DNP project is a culmination of the knowledge gained in the DNP program courses and provides an opportunity to demonstrate an analytical approach to programmatic, administrative, policy or practice issues in a format that supports the synthesis, transfer and utilization of knowledge. The intent is to demonstrate identification and resolution of a practice problem through the scholarship of application/integration. The project is expected to contribute to a patient care, practice, leadership, administration or policy areas of advanced nursing practice; examples include: an evaluation of a program or intervention, an analysis of a health care policy, developing a practice training program, quality improvement or safety program, a comprehensive systematic review for determination of best practice and implementation and evaluation of best practices for managing patient care issues or disease- or treatment-related symptoms, or a strategic plan for the delivery of healthcare.

The DNP Project proposal will be developed in NSG 600. The student will identify a DNP Project Committee with a two member minimum: one being a DePaul or North Shore faculty member as the Committee Chair & a second committee member (content expert/mentor) with a master’s or higher degree (from the School of Nursing/North Shore School of Nurse Anesthesia faculty and/or from an outside institution). In NSG 601, the students will obtain approval from the DePaul University IRB and prepare to implement their projects. Continuation of the project will occur in NSG 602 in which 100 DNP Project hours are required of all DNP students. A formal oral presentation and a publishable manuscript will be presented to the student’s DNP Committee for approval at the end of the program.

Group Projects: Student wishing to do a DNP project as a group of two must show evidence and a rubric of division of labor that there is enough content and work for both students. The work distribution must be equitable (see guidelines below from the AACN Task Force White Paper published on August 2015).
Group/Team Projects can be a valuable experience, helping to prepare graduates to function in interprofessional teams in the future, but often present challenges, particularly for student evaluation and grading. Group projects are acceptable when appropriate to the students’ area of practice and goals, and the project aims are consistent with the focus of the program. Guidelines for the entire project as well as for individual contributions to the project and a rubric used for each individual’s evaluation should be developed and shared with students prior to the initiation of the project. Each member of the group must meet all expectations of planning, implementation, and evaluation of the project, and be evaluated accordingly. Each student must have a leadership role in at least one component of the project and be held accountable for a deliverable. The following serve as illustrative examples:

1. The student serves as a vital member of an interprofessional team, implementing and evaluating a component of a larger project.
2. Students work on the same project, for example improving hand washing, across multiple units within the same organization or across multiple organizations.
3. Students focus on different aspects of improving diabetic outcomes of care by meeting criteria for guidelines for diabetes care such as eye exams, time frames for Hg A1c screening, and foot care.
4. Students analyze and implement changes in state immunization policies to improve access to immunizations and increase immunization rates.

Systematic Reviews: In light of the Commission on Accreditation’s 2020 White Paper on DNP Projects, a systematic review using the PRISMA (http://www.prisma-statement.org/) or JBI (https://wiki.joannabriggs.org/display/MANUAL/1.1+Introduction+to+JBI+Systematic+reviews/) guidelines for systematic reviews and meta-analysis is now considered as an acceptable DNP project. All systematic review DNP projects must be formally registered with PROSPERO as appropriate. A dissemination plan for the findings of the systematic review must accompany this type of DNP Project submission.

Access to Student Records

1. A student may have access to his/her personal student record upon request. Confidentiality is maintained with all student files. Release of information is granted upon written request by the student.
2. No specific or detailed information concerning specific medical diagnoses will be provided to faculty outside the department, administrators, or even parents, without the expressed written permission of the individual in each case. This position with respect to health records is supported by amendment to the Family Education Rights and Privacy Act of 1974. Health officials and other institutional officers must remember that all confidential medical/health care information is protected by statutes and that any unauthorized disclosure may create legal liability.

Graduation

DePaul University awards the Doctor of Nursing Practice degree to students who successfully completed the DNP program. All requirements of the University, College, and School of Nursing must be met as outlined in the current Catalog, including earning at least a minimum cumulative GPA of 3.0 in courses required by the program.

### Nursing RN to MS (BS)

The RN to MS curriculum provides for seamless progression for the Registered Nurse with an associate degree in nursing (ADN) to the master's degree (MS) in nursing. Along the way, these students will earn the Bachelor of Science (BS) degree in nursing; in anticipation of earning the BS, students must apply for degree conferral. However, the focus of the program is on the attainment of the MS degree. The program is also available for RNs with a non-nursing bachelor degree and BSN graduates; both of whom will enter the program as graduate level students and earn the Master of Science (MS) in nursing. You can find more information at RN to MS in Nursing (MS). ([https://csh.depaul.edu/academics/nursing/graduate/rn-to-ms-nursing-ms/Pages/default.aspx](https://csh.depaul.edu/academics/nursing/graduate/rn-to-ms-nursing-ms/Pages/default.aspx))

The RN to MS program will be offered online except for the clinical requirements. Students will be required to complete clinical nursing experiences, which will be undertaken in their home communities with appropriate local preceptor agreements.

- The Bachelor’s portion of the curriculum builds on the strong theoretical and skills preparation in nursing and general education completed by the Associate Degree prepared RN.
- The Bachelor’s component of the program, leading to the BS in nursing, fulfills professional nursing standards for baccalaureate education in nursing, providing for immediate career mobility and seamlessly transitions into an accelerated path to the master’s degree by offering six double counted graduate level courses.
- The Master’s component of the program prepares practicing nurses to meet the core expectations of graduate education in nursing and to assume the role of a nurse educator, family nurse practitioner, or adult gerontology nurse practitioner.

- The Bachelor’s portion of the curriculum builds on the strong theoretical and skills preparation in nursing and general education completed by the Associate Degree prepared RN.
- The Bachelor’s component of the program, leading to the BS in nursing, fulfills professional nursing standards for baccalaureate education in nursing, providing for immediate career mobility and seamlessly transitions into an accelerated path to the master’s degree by offering six double counted graduate level courses.
- The Master’s component of the program prepares practicing nurses to meet the core expectations of graduate education in nursing and to assume the role of a nurse educator, family nurse practitioner, or adult gerontology nurse practitioner.
Learning Outcomes

Students will be able to:

• Synthesize knowledge from the sciences, the humanities, and nursing science to assess, plan, and provide care for individuals, families, and communities using evidence-based and values-based modalities.

• Develop a foundation for professional nursing practice emphasizing autonomy, integrity, change agency, and advocacy to social justice integrating Vincentian and altruistic values.

• Design and deliver culturally appropriate nursing care services to diverse individuals, families, and populations, in coordination with appropriate multidisciplinary providers across the continuum of care.

• Demonstrate progression in life-long learning by applying critical thinking to analyze contemporary health care, including but not limited to social determinants of health, health inequities, serving high-risk populations, technological applications in healthcare, health care policy, and health care finance.

Liberal Studies Requirements

These requirements take into account liberal studies coursework completed as part of the basic Associate Degree/Diploma Nursing program. The requirements outlined below are beyond the associate degree work and are required for the DePaul degree.

</table>

1 These are bridge courses for ADN with non-nursing MS pursing the RN-MS.

### Notes

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

This program builds on the strong theoretical and skills preparation in both nursing and general education that the associate degree prepared RN has completed. The learning outcomes achieved at the associate degree level are validated by the National Council Licensing Examination – Registered Nurse (NCLEX-RN), a nationally standardized exam considered to be a highly valid and reliable test of basic competence. Students will receive at a minimum 79 quarter hours of transfer credit for the associate degree. Students who have earned more than 79 quarter hours of transfer credit will receive credit based on the transferrable coursework successfully completed. Please note that some liberal studies credit has been accounted for as part of the nursing program's 79 transferrable hours. Only courses in excess of the required nursing program - and still within the restriction on the maximum number of allowable transfer credit hours - can be considered to fulfill the remaining requirements. In addition, students must meet the DePaul residency requirement. View the Undergraduate Student Handbook to learn of the restriction on the maximum number of allowable transfer credit hours and how to meet the residency requirement.

Professional Nursing Portfolio Credit
The student entering the RN to MS program will be taking more advanced coursework at DePaul; coursework that relies on a knowledge base established by the nursing courses taken at the community college and assessed by the NCLEX-RN® examination. By successfully completing the first quarter of the RN to MS program, students will have demonstrated their success in the RN to BS bridge course and a graduate level course. The 45 quarter hour portfolio credit will be applied to their degree at DePaul upon successful completion of NSG 330 (bridge course) and NSG 464 (graduate course) with a cumulative GPA of 3.0.

Student Handbook
A complete list of policies specific to this program of study is contained in the Student Handbook that is updated regularly on the website for the School of Nursing. The complete RN-MS student handbook can be found here: RN to MS Student Handbook (https://csh.depaul.edu/academics/nursing/student-resources/Pages/student-handbook.aspx)

Retention Policies
Undergraduate Student Academic Policy
Any RN to MS student with undergraduate standing who fails to maintain a 2.00 cumulative grade point average (C average) is placed on academic probation. A student is removed from academic probation when the cumulative grade point average reaches the required minimum of 2.00. A student's academic status is reviewed after any Autumn, Winter, Spring and Summer quarters in which the student was enrolled in at least 1 credit hour. An academic probationary student may be limited to 12 credit hours per quarter until a cumulative GPA of 2.00 is reached. A student who remains on academic probation for three sequential quarters of enrollment may be academically dismissed.

Graduate Student Academic Policy
An RN to MS student with graduate standing must maintain a cumulative GPA of 3.00 or greater to remain in good standing for all graduate level courses. A student will be placed on academic probation if the cumulative GPA dips below 3.00. The student must enroll in the School of Nursing Success Coaching program for mandatory remediation at this time. If the cumulative GPA rises to at least 3.00 at the end of the next academic quarter of coursework, the student is no longer on academic probation. If the cumulative GPA has not risen to at least 3.00 at the end of the next academic quarter of coursework, the student will be academically dismissed from the program.

If a student earns a C or C- in any graduate-level course, the student is placed on academic probation. The student must enroll in the School of Nursing Success Coaching program for mandatory remediation at this time. If the student is able to earn grades in all courses that are C+ or above AND earn a cumulative GPA of 3.00 or greater in the next academic quarter of coursework, the student is no longer on academic probation. If this does not occur, the student will be academically dismissed from the program.

A student who earns a D+ or lower in any graduate level course will be academically dismissed from the program.

Policy Regarding Encumbered Registered Nurse (RN) Licensure
1. If a student experiences an encumbered license (such as a RN license with stipulations or restrictions) during their graduate studies, he/she must notify the Assistant Director for the Program immediately upon receipt of the encumbrance.
2. The student will provide the appropriate Assistant Director with a copy of the Agreed Order.
3. Students may be allowed to take non-clinical courses with an encumbered license.
4. Students will not be allowed to take clinical courses with an encumbered license.
5. The student will notify the Assistant Director of the Program when the student's license becomes unencumbered and provide a copy of the Board of Nursing's notification letter.
Progression Policies

1. All students must meet the orientation session before enrolling in the nursing program of studies.
2. All students must meet with their assigned academic advisor during the first quarter of the program to review their official program of studies for the current academic year.
3. Students must meet with their academic advisor at the end of the first academic year and at least once during each subsequent academic year to review progress in the program and plan for the following year. Advisors are not generally available during the months of July and August.
4. A student may not register for any course that has a prerequisite if that student has an incomplete in the prerequisite course.
5. Students may not attend classes in a course for which enrollment is blocked. No credit will be awarded for assignments completed when not officially enrolled in a course. This includes assignments previously completed and turned-in for courses taken in the past.
6. All required health records, evidence of CPR certification, criminal background checks, personal health insurance, and professional liability insurance must be kept on file in the SON. It is each individual student’s responsibility to keep all of their records up-to-date. Drug screens are required for clinical placements. See Clinical Guidelines for further information. Failure to have all records present and up-to-date at the beginning of each course will result in inability to attend the clinical component of the course.
7. Leave of Absence:
   a. Students who need to interrupt their studies for personal, health or other reasons may request a leave of absence for up to one full year. The request should be made to the Assistant Director of the program and the Admission, Progression and Retention Committee should be notified. Depending on circumstances and estimated length of absence, the Assistant Director or student’s academic advisor may recommend additional action to complete the request process.
   b. Students who wish to return to the program following a leave of absence will need to submit a written request for resuming coursework to the Admissions, Progression, and Retention Committee. It is the student’s responsibility to send a copy of such request to the Director of the School of Nursing, the student’s faculty advisor, and the Assistant Director of the Program. This written request should demonstrate the resolution of the extenuating circumstances contributing to the original need to leave the Nursing Program. This request for reinstatement must be made no less than 6 weeks prior to resuming the nursing course sequence. Students will be notified in writing regarding the decision concerning their re-entry to the program. Individual assessment of current knowledge and clinical skills will be made prior to placement of the student in the appropriate level within the nursing program. Students who become “out of sequence students” due to withdrawal, or military/medical/family leave of absence will be placed into a clinical rotation upon re-entry based upon space available and cannot be guaranteed placement in the next available clinical course needed. “Out of sequence students” cannot displace in-sequence students from a clinical spot.
8. Students who have taken a leave of absence from the program for greater than 12 calendar months must re-apply to the university. Their application will then be considered with all other qualified applicants applying for admission to the nursing program.
9. A student who withdraws from a core nursing course while in good standing cannot progress in the sequenced nursing curriculum until that course has been successfully completed. In courses that contain both a clinical practicum and a lecture component, both course segments must be completed simultaneously. Exceptions may be identified and defined by the Admissions, Progressions and Retention Committee (APR) in consultation with the Director of the School of Nursing and the Assistant Director of the Program and the course faculty.
10. A student who withdraws from a core nursing course who is ‘not in good standing’ (with a grade of “C” or lower or on probation) at the time of withdrawal, will be referred to the Admissions, Progressions, and Retention Committee (APR). The APR will meet to review the student’s past and current performance and to elicit recommendations from the course faculty. A representative of the APR committee may then meet with the course faculty and the Assistant Director of the Program and student to counsel the student and to establish a contract for academic improvement. Such students may not progress in the sequenced nursing curriculum until the course has been retaken and successfully completed. In courses that contain both a clinical practicum and a didactic theory portion, both course segments must be completed simultaneously.
11. A student may withdraw from a core nursing course ‘not in good standing’ (with a grade of “C” or lower) only once during their program of study. A second such withdrawal will result in dismissal from the program.
12. A student who has a grade of B- (86% or less) at mid-quarter may be placed on contract for academic improvement by the instructor. The student must satisfactorily fulfill all course and contract requirements by the end of the quarter of contract initiation in order to progress in the program.
13. A student currently enrolled in a degree program in which revisions are approved while their studies are in progress may elect to formally adopt the revised requirements.

Academic Virtual Environment Policy

The School of Nursing expects a respectful environment conducive to teaching and learning from all students, faculty, and staff. Inappropriate conduct is defined as any action that interferes with the creation and maintenance of an effective virtual learning environment. Students are expected to display civility in all aspects of their educational experience at DePaul University.

Appropriate student conduct is outlined in detail in the School of Nursing Professional Development Guidelines (Appendix B in the Student Handbook). Appropriate student conduct includes but is not limited to: being present on the discussion board; displaying courtesy; maintaining professional standards and safe practice in the clinical areas; fostering a positive learning environment by respecting the ideas and opinions of others; respecting others, including not making sarcastic or disrespectful remarks, using foul language or swearing; not threatening others on the discussion board.

Students displaying inappropriate conduct on the discussion board will be required to talk with their Academic advisor and may be placed on a performance contract. Inappropriate conduct will be documented with a written copy of the incident placed in the student’s file. Such incidents of
inappropriate conduct will then be reported to the Director of the School of Nursing, with copies sent to the Assistant Director of the Program, and the Admissions, Progression, and Retention Committee. Additional sanctions for inappropriate conduct may be imposed, including dismissal from the nursing program. (For additional information, please see both the University Student Handbook-available on line, as well as the “Student Misconduct Process” outlined below.)

**Academic Integrity Policy**

Violations of academic integrity in any form are detrimental to the values of DePaul, to the students’ own development as responsible members of society and to the pursuit of knowledge and the transmission of ideas. Violations of academic integrity include but are not limited to: cheating, plagiarism, fabrications, falsification or sabotage of research data, falsification of clinical data, destruction or misuse of the university’s academic resources, academic misconduct, and complicity. If an instructor finds that a student has violated the Academic Integrity Policy, the appropriate initial sanction is at the instructor’s discretion. An instructor may choose to file an academic integrity violation with the university. Actions taken by the instructor do not preclude the college or the university from taking further action, including dismissal from the university. Conduct that is punishable under the Academic Integrity Policy could result in criminal or civil prosecution. The full Academic Integrity Policy can be found here (https://offices.depaul.edu/academic-affairs/faculty-resources/academic-integrity/Pages/default.aspx).

**Academic Integrity Policy Extension for Clinical and Service Settings**

DePaul University is committed to education that engages its students, faculty and staff in work within Chicago’s institutions and communities. As DePaul representatives to our partner institutions and community organizations, we ask that you take seriously your responsibilities to these institutions during service and clinical experiences and internships. The community and its institutions are extensions of the DePaul classroom.

The University’s Academic Integrity Policy and Code of Responsibility apply to professional interactions as well. See also The School of Nursing Professional Development Guidelines (Appendix C in the Student Handbook).

**Student Advising/Program of Study**

1. A graduate student services administrator (GSSA) from the College of Health Office of Advising and Student Services (OASS) will be assigned as the primary advisor for students while they are pursuing the BS degree portion of the program. The GSSA will work closely with the RN to MS Program faculty, who will be assigned in Campus Connection, as the students’ secondary advisor during this phase. The advisor will assist in developing an appropriate program of studies according to the student’s preferences, abilities, and anticipated course availability. Students are required to meet with their advisors during their first quarter in the program, at the end of the first academic year and once per academic year following. Students are encouraged to review the student handbook prior to meeting with their advisor. Students should bring the Student Handbook Agreement Statement to the meeting. Once it is signed by student and advisor, it should be uploaded to Castle Branch.

2. The student is responsible for setting-up an appointment with the designated advisor to develop an individualized program of studies.

3. The student is responsible for obtaining a copy of the program of studies worked out during the faculty-student advising session.

4. The student is responsible for enrolling in classes in the sequence identified in the program of studies. Should circumstances interrupt or delay registering for the designated classes, students must notify the Assistant Director of the Program, the department administrative assistant, and faculty advisor for modification of the planned program of studies.

5. The student is responsible for meeting all prerequisites to courses for which the student is registering.

6. The student is responsible for scheduling periodic student-advisor, and student- instructor conferences.

7. The student may not register for any clinical course until all conditions of admission, undergraduate nursing prerequisites, and liberal arts and science requirements are completed. Students who are not in compliance will be withdrawn from the course(s) for which they are currently registered. Students will be denied graduation in the program up to and including being denied graduation until all requirements are met.

**Clinical Guidelines**

Clinical learning activity is defined as a planned activity occurring in a health care agency when the student is identified as a DePaul University student. The clinical learning activity may or may not include contact with patients.

In order for students to be eligible for clinical placement, they must complete the following:

1. All School of Nursing graduate clinical requirements
2. All School of Nursing graduate health requirements
3. Approval of clinical mentor/agency by the course faculty of record
4. Establish clinical affiliation agreements between the DePaul University School of Nursing and both the mentor and agency in which a student plans to complete clinical or practicum hours. Students will receive an email at the beginning of each term reminding them to start the process of procuring a clinical site and clinical mentor. Students can follow the procedure here (https://csh.depaul.edu/academics/nursing/student-resources/requests-policies-procedures/Pages/preceptor-mentor-request.aspx).

5. A student may be dropped from clinical coursework for not participating in clinical orientation.

Failure to meet health requirements will prohibit students from practice learning activities and may result in cancellation of course registration. Any practicum hours completed by a student with-out completion of the above requirements will not be counted toward the requirement for the course. Any clinical hours completed before health requirement clearance from the SON Compliance Officer will not count toward required clinical hours for the program. This could result in a student failing the course if the required clinical hours are not completed by the end of the quarter.

All practice requirements should be identified in NSG 376 and submitted to course faculty of record by the end of NSG 376.

All health requirements should be uploaded to Castle Branch the quarter prior to a student beginning a clinical/practicum course.

The student acknowledges that all DePaul University and School of Nursing academic and conduct policies remain in place during clinical experiences. The student also agrees to comply with all of the policies set forth by the clinical site. The student understands that failure to
comply with university or School of Nursing policies or the policies of the clinical site may result in sanctions, including removal from the clinical site and/or the course. The student understands that it is his/her responsibility to immediately notify his/her instructor in the event that the student encounters problems with his/her supervisor, preceptor, or staff at the site.

**Mentor Selection for Graduate Students**

Students are responsible for selecting a mentor for practice experience courses. Criteria for graduate mentors include:

1. Unencumbered professional license and/or national certification
2. Documented current practice in the field
3. Educational experience: BSN, MSN preferred for NSG 377 and MSN practicing in chosen specialty track for graduate capstone course.
4. Commitment to high professional standards
5. Previous mentor experience is preferred
6. Interest in working with students with desire to foster student learning.

**Process for Establishing a Mentor**

1. The student identifies an appropriate mentor for practice experience activities according to criteria and has a discussion with the mentor about their current standing in the program and practice experience needs. The student shall only put forward the names of mentors who agree to the experience.
2. The student submits a preceptor/mentor request form along with a curriculum vitae of the mentor. The Assistant Director of the program will review the resume for established criteria and the agency clinical affiliation agreement.
3. The School of Nursing will process the agency affiliation agreement and mentor letter.
4. The student uploads evidence of compliance with all health requirements.
5. The School of Nursing will notify the student and the course faculty member when all requirements have been met. Practice experience hours cannot be started until such time.
6. The course faculty member will advise the student when to begin the mentor hours.

Students are required to:

1. Identify the practice experience site and mentor they wish to complete their practice hours in NSG 376, NSG 596 or NSG 597.
2. Notify NSG 376 course faculty of record of the practice experience site and mentor. Students in NSG 567 or NSG 597 will notify their academic advisor of their practice setting the term before starting the course.
3. Comply with additional requirements of the clinical setting including but not limited to drug screening.
4. Students may choose their place of employment as their practice experience site as long as the SON has a clinical affiliation agreement with the facility.

**Unsafe Clinical Performance**

A student is responsible for implementation of safe patient care during the supervised clinical practicum. Unsafe behavior can result in suspension from the clinical site, student remediation, failure of the course, and/or dismissal from the program. Unsafe practice is defined as behavior that has the potential to cause serious harm to a patient. Examples of unsafe clinical behavior in clinical practice include, but are not limited to:

Unsafe practice patterns include but are not limited to:

1. Violating HIPAA requirements
2. Violating OSHA requirements
3. Performing a procedure outside the domain of nursing
4. Performing a procedure in which he/she has not been prepared
5. Failing to use universal precautions
6. Administering treatments/medications in any form via any route without consent and/or supervision from the clinical instructor.
7. Advising patients about diagnosis or prognosis or referring patients to treatments, agencies, medications, without first discussing such with the clinical instructor.
8. Asking a staff nurse to supervise any procedure without consent of the clinical instructor.
9. Inability to correctly calculate math/medication problems
10. Knowingly exposing patients, colleagues, and others to actual or potential life threatening communicable diseases.
11. Stealing drugs, supplies, or belongings from an agency or patient.
12. Removing copies of patient care documents from healthcare agencies.
14. Failure to adhere to DePaul School of Nursing and/or clinical agency policies.
15. Falsifying patient records or fabricating patient experiences.
16. Neglecting to give appropriate care.
17. Providing patient care in a harmful manner or exhibiting careless or negligent behavior in the process of providing care to a patient.
18. Refusing to assume the assigned care of a patient, or failing to inform the instructor of an inability to care for a patient.
19. Willful or intentional physical or emotional harm to a patient.
20. Failure to report an error in assessment, treatment, or medication or failure to report an unusual occurrence or an adverse reaction.
21. Failure to comply with DePaul’s Drug Free Campus policy.
22. Performance not in compliance with stated student expectations as outlined in lecture or course syllabi.
23. Failure to know proper vital sign ranges as well as failure to notify instructor or patient’s nurse of critical vital sign value.

Any student whose pattern of behavior demonstrates unsafe clinical practice that endangers a patient, colleague, or self in the clinical area will be suspended immediately from the clinical experience. The faculty of record will meet with the student to discuss how the unsafe behavior came about and potential complications from said behavior and prepare written documentation of the event. This will be forwarded within 24 hours to the course coordinator. A copy of this document will be placed in the student file and forwarded to the Director of the School of Nursing, Assistant Director of the program, and Admissions, Progression and Retention Committee. If appropriate, an incident report will be filed at the clinical site.

If, in the clinical instructor’s clinical judgment, a student is unsafe to continue in the clinical practicum, the clinical instructor will take the following steps:
1. Dismiss the student for the remainder of the clinical day. The instructor will follow institutional guidelines as appropriate.

2. Contact the course coordinator and the Assistant Director of the Program.

3. Submit a written report of the incident to the Assistant Director’s office within one working day. The Assistant Director will contact the Registrar to put a hold on the student’s grade; the student will not be allowed to withdraw from the course at this time. The clinical instructor will schedule a meeting with the student within 24 hours of the incident or as soon as is practical, and prepare a written report that describes the incident that resulted in the student’s dismissal from clinical. The student will be given a copy of the report at this time.

4. The clinical instructor will advise the student that he or she will not be able to return to clinical until the meeting with the Assistant Director takes place.

5. Within 3 working days, or as soon as is practical, a meeting will be held. In attendance at the meeting will be the clinical instructor, the student, the course coordinator and the Assistant Director of the Program. The student may have his or her advisor present at the meeting. A decision regarding the student’s continuation in the program will be made. This meeting will determine whether the student will be administratively withdrawn with a grade of F or is allowed to return to complete the clinical. The clinical instructor initiating the meeting is not involved in the decision regarding the student’s progression in the program. A decision is made at the meeting and communicated to the student.

6. The documentation related to unsafe clinical practice will be kept in a secured file within the SON offices.

7. The Admissions and Progression and Retention Committee (APR) reviews any administrative course withdrawal resulting in an F. The APR will determine if the student is dismissed from the program or may return in an appropriate quarter per the procedures of the APR. The student may elect to appeal this decision per procedures in the student handbook.

Clinical Performance Limitation Related to Temporary Disability

A student who incurs an injury or has any other physical limitation of a temporary nature must notify course faculty and provide documentation from his/her health care provider that he/she is able to safely carry out the duties of a student in the practice experience setting. This must occur as soon as possible and prior to attendance at practice setting.

The final decision as to whether the student is allowed in the practice setting rests with the agency. If the student is unable to attend the practice experience, he or she will need to withdraw and meet with the Assistant Director of the program to explore options.

Students who are pregnant are advised that practice sites have individual policies and requirements related to pregnant students that may impact the student’s ability to attend or complete the experience.

Clinical Probation/Remediation

A student requires a contract when one or more course objectives are not being met. These behaviors, if not addressed, put the student at risk for receiving a non-passing grade in the course. The process is initiated as soon as course faculty recognizes that a student’s performance or behavior may jeopardize the successful completion of a course. The contract can be initiated at any time during the quarter.

The contract is documented on the Student Faculty Contract form (Appendix A in the Student Handbook) and is completed by the course faculty. The faculty will document, in writing, on the contract form, the areas of deficient student performance and identify behaviors the student will need to demonstrate in order to receive a passing grade. The student will receive a copy of this contract. The student’s academic advisor will be notified as will the Assistant Director of the Program. The academic advisor will follow-up with the course coordinator regarding the student’s remediation progress. By the end of the quarter (or completion of the course in the event of a withdrawal), the student must demonstrate satisfactory remediation of all areas of concern noted in the contract without further additional deficits or risk failing the course. Once the contract requirements have been met, the instructor should document this on the form and both student and instructor should sign the form. A completed copy can be given to the student; another copy is send to the Coordinator of Data Management for tracking purposes; another copy is placed in the student’s file.

Practice Experience

In the event that a student does not receive a passing grade in the practice experience component of a course, the student’s grade for that course will automatically become an F.

Confidentiality

Patient/Client Privacy

1. The student is expected to adhere to the American Nurses Association Code for Nurses and act in accordance with the Patient’s Bill of Rights.

2. Confidentiality is the protection of a client’s privacy through careful use of oral and written communications. The client’s right to privacy is safeguarded by judicious protection of confidential information. The student should adhere to the School of Nursing Social Media policy (Appendix D in the Student Handbook) regarding maintenance of confidentiality and protection of privacy as it relates to communication via social media.

3. A client’s chart is a legal document. Information from the client and chart is confidential and cannot be disclosed to those not caring for the client. All entries must be accurate and legible. No part of the client’s Medical record can leave the hospital. Students are not allowed to access the records of patients for whom they are not providing direct care.

4. Information communicated by clients to students may not be repeated to anyone outside of the direct care team. Care should be taken when in the corridors, lounge, classroom, dining rooms, or other public areas, so that conversations are not overheard.

5. An individual can withhold any information about himself/herself that he/she desires. Nursing students must be especially careful regarding the invasion of the client’s privacy.

6. Students should use only the initials of the client when filling out history forms, care plans, and any other documents which are a part of their educational experience.

Unprotected Exposures

In the event of any unprotected exposure to blood or body fluids, the student is to follow the procedures of the DePaul University School of Nursing Bloodborne Pathogens Exposure Control Plan (https://csh.depaul.edu/academics/nursing/student-resources/Pages/exposure-control-plan.aspx).
Exposure at Outside Facility while Performing Duties within Student Role

Any student incurring such an exposure should follow both DPU’s post exposure policy as well as the institution’s policy where the exposure occurred. All student exposure incidents while conducting learning or training activities under the SON must be reported to the Safety Officer or his/her designee as soon as possible, but no later than one business day after the incident.

Students are encouraged to speak with their health care provider about any additional follow-up post-exposure prophylaxis that may be recommended.

When possible, the Safety Officer, his/her designee, or institution where the exposure took place, will look into testing the exposure source individual for HIV, hepatitis B, and/or hepatitis C. Testing of the source individual’s blood does not need to be repeated if the source individual is already known to be infected with HIV, hepatitis B, and/or hepatitis C.

Student Injury and Incident Policy

In the event that a student is injured (or involved in an untoward incident) while in the clinical setting, the student should immediately notify the clinical instructor. The clinical instructor should assist the student to seek immediate health assessment and response following all policies and procedures of the clinical setting that pertain to the type of injury sustained. The clinical instructor must notify the course coordinator of the event by the end of the clinical day.

If a student is injured (or involved in an untoward incident) on the campus while conducting learning or training activities, the student must notify the instructor or faculty member in charge of the activity immediately. The instructor or faculty member in charge must call 911 if the injury is serious. The instructor or faculty member is to notify DePaul Public Safety and follow university policy for all injuries.

All student injuries (or untoward incident), whether they occur at DePaul University or off campus while conducting learning or training activities under the School of Nursing require that DePaul Public Safety is notified, that a public safety report is filed and the DePaul Environmental Health and Safety Incident Report form (DEHSIR), which can be found here (http://offices.depaul.edu/environmental-health-and-safety/forms/Pages/incident-report.aspx), is completed. All must be completed within 1 business day of the incident. The incident must also be reported to the School of Nursing Safety Officer or the SON Safety Officer designate as soon as possible but no later than one business day after the incident.

When reporting to the SON Safety Officer, the student is to include a copy of the completed DEHSIR.

If a student reports an incident in which the harm to student is not physical but rather psychological or emotional, clinical faculty should notify the associate director of the program who will direct the student to appropriate DePaul University resources.

Once the student has been seen by a health care professional for the injury (or untoward incident) and completed all reporting processes required by the university and clinical setting, the student should contact his/her health care provider for any further treatment or health care follow-up that is needed. The student may wish to contact the DOS office if the student has concerns or questions.

Student Clinical Requirements

It is mandatory that all students have all of their clinical requirements completed and uploaded to their Student Immunization Tracker through Castle Branch prior to attending clinical. It is the responsibility of the student to insure that all clinical requirements are kept current. Students must submit copies of renewed coverage, updated lab results, and renewed skills PRIOR to the anniversary of the expiration date. Students who are non-compliant with clinical requirements will not be permitted to attend clinical. Non-attendance of clinical due to non-compliance with clinical requirements will be treated as an unexcused absence that may not be made up. This may put the student at risk for failing the course.

The student must submit COPIES (NOT ORIGINALS) of the following:

1. Tuberculosis Screening:

   All students that will provide patient care in the clinical setting are required to submit proof of not having active tuberculosis prior to the first day of the clinical rotation. Documentation must be uploaded into Castle Branch and approved to fulfill this requirement. This can be done by completing one of the following:

   a. Two-step Tuberculin Skin Test.
      The student will be required to have two separate tuberculin skin tests placed 1-3 weeks apart. The results of both tests must be uploaded into Castle Branch.

   b. Quantiferon Gold Test
      The student will be required to have this blood test drawn and upload the results into Castle Branch. Please note: some clinical sites will only accept this as proof of not having active tuberculosis.

   c. Students With Positive TB Results:
      Students with a history of having positive TB results or has received the BCG vaccination prior to admission into the nursing program at DePaul University must complete the following:

      Submit certification from a healthcare provider that the faculty member is currently free of the signs and symptoms of active tuberculosis. This certification must be renewed every 6 months. AND

      OR

      - Complete a Quantiferon Gold test.
        AND

      - Submit certification from a healthcare provider that the faculty member is currently free of the signs and symptoms of active tuberculosis. This certification must be renewed every 6 months.

      Students found to have positive TB results while completing pre-clinical screening requirements for DePaul University must complete the following prior to the first day of the clinical rotation:

      Obtain a chest x-ray and submit the results.

      Submit certification from a healthcare provider that the student is currently free of the signs and symptoms of active tuberculosis. This certification must be renewed every 6 months. If the student shows signs and symptoms of active tuberculosis
during the provider evaluation, the student may not begin the clinical rotation until documentation of a completed course of prophylactic therapy and certification of currently being free of the signs and symptoms of active tuberculosis has been completed.

2. Titters for Rubeola, Mumps, Rubella, Varicella. A TITER is MANDATORY to document immunity. (Note: Vaccination or history of the disease is necessary to develop immunity). The titer MUST contain the titer value as well as the reference norm. The required titters are as follows:
   a. Rubeola IgG
   b. Mumps IgG
   c. Rubella IgG
   d. Varicella IgG

If titters indicate no immunity for Rubeola, Mumps, Rubella, and Varicella, immunization is required (for Rubeola, Mumps or Rubella, this will be a booster series of 2 MMR immunizations). Follow-up titters will need to be drawn after re-immunization for both MMR and Varicella.

Students must sign a waiver if no immunity is detected on follow-up titer. The waiver states that you understand the risk associated with continuing in the nursing program, specifically that if you contract the disease to which you are not immune, the school is not liable and that you want to continue in your studies, knowing the risk. Once you have documented your immunity or signed a waiver, you will not need to furnish any further documentation.

3. Proof of immunity to Hepatitis B must be confirmed through bloodwork. Immunity may be achieved through vaccination or previous exposure. You may submit test results and documentation of immunity from your provider in lieu of receiving vaccination. The following documents will be accepted as proof of immunity:
   a. Positive Hepatitis B surface antibody (anti-HBs) indicates immunity from previous vaccination.
   b. Positive anti-HBs and positive Hepatitis core antibody (anti-HBc) indicate immunity due to infection; a negative Hepatitis B surface antigen (HBsAg) is needed to determine whether acute or chronic infection exists, and the student will need to follow up with his or her health care provider.

If immunity is not documented, the student must receive the Hepatitis B immunization series and post-vaccination bloodwork as outlined below.

If the series has been started but has not been completed prior to beginning clinical attendance, it is the student's responsibility to supply documentation of the vaccine dates and the date when the final Anti-HBs bloodwork is drawn. The student must have completed a minimum of one of the series of three vaccines prior to the first clinical day and upload documentation for this to Castle Branch.

If bloodwork following completion of the series of three vaccines does not show immunity, further vaccination is necessary. If, after completion of a second series, no immunity is detected, the student must sign a waiver. The waiver states that you understand the risk associated with continuing in the nursing program, specifically that if you contract the disease to which you are not immune, the school is not liable and that you want to continue in your studies, knowing the risk. Once you have documented your immunity or signed a waiver, you will not need to furnish any further documentation.

CDC Categories of Persons at Increased Risk for Hepatitis B Infection
   i. Persons born to mothers in or from countries in which Hepatitis B is endemic.
   ii. Sexually active men who have sex with men.

4. Tetanus-Diphtheria-Pertussis Booster: Must be within the last 10 years. Documentation can be in the form of a signed immunization card or statement from your healthcare provider or health department that documents the date the tetanus booster or Tdap were administered. Please note that a tetanus booster alone is not adequate and you must demonstrate immunization for diphtheria and pertussis within past 10 years.

5. Yearly influenza vaccine is required. Incoming MENP students will receive Standard Precautions/Universal Precautions Training as part of their initial coursework.

6. Current CPR Certification: Current American Heart Association (AHA) certification in Basic Life Support (BLS) for Healthcare Provider is required for all entering and current students. Only the AHA certification will be accepted.

Content covered in AHA BLS class:
   a. Critical concepts of high-quality CPR
   b. The American Heart Association Chain of Survival
   c. 1-Rescuer CPR and AED for adult, child and infant
   d. 2-Rescuer CPR and AED for adult, child and infant
   e. Differences between adult, child and infant rescue techniques
   f. Bag-mask techniques for adult, child and infant
   g. Rescue breathing for adult, child and infant
   h. Relief of choking for adult, child and infant
   i. CPR with an advanced airway

7. Professional Liability Insurance: Each MENP and BSN completion student must obtain their own student nursing professional liability insurance policy against claims arising from real or alleged errors or omissions. Their policy must have minimal limits of coverage of $1,000,000 PER claim and $5,000,000 aggregate. This insurance must be renewed annually.

8. Evidence of Current Health Insurance: All nursing students must submit proof of continuous comprehensive health insurance on a yearly basis. Please note that the name on the health insurance must match the student's name.

9. A signed HIPAA-FERPA authorization must be uploaded to Castle Branch by the start of the first quarter. This form must be signed in order for the School of Nursing to release any student health information related to clinical requirements to clinical sites.

10. Blood Borne Pathogens Exposure training must be completed online prior to the first clinical day. The training can be found at go.depaul.edu/bbp (http://go.depaul.edu/bbp/).

11. Criminal Background Check: Nursing students must submit to a criminal background check via Castle Branch prior to their initial clinical experience. Criminal background checks must be completed by August 1st for Fall Quarter or December 1st for Winter Quarter and will remain in effect unless: a) a clinical agency determines it necessary to require more frequent or more detailed background checks, b) OR a nursing student interrupts his/her program of study for one quarter or longer. In the above cases, it is mandatory for the student to have another criminal background check performed.
The School of Nursing may not be able to place students in a clinical setting if there are positive findings on the criminal background check. As a result, a student will not be able to complete the requirements of the program.

12. Drug Screening: Nursing students are required to have a ten-panel drug screen as required by clinical institutions. Some institutions may require a new drug screen each year. The test may be obtained from any health care agency, or from Castle Branch through Quest Diagnostics Lab. The drug test MUST follow a “Chain-of-custody” procedure. The student should sign a release to have the results sent to School of Nursing Coordinator of Clinical Placements. See below for the School of Nursing Policy on Drug Use and Testing.

The School of Nursing may not be able to place students in a clinical setting if there are positive findings on the drug screen. As a result, a student will not be able to complete the requirements of the program.

**Drug Use and Testing**

In accordance with De Paul University policies, the School of Nursing will impose disciplinary sanctions upon any student found to be in violation of laws or policies relating to the unlawful possession, use, or distribution of drugs or alcohol. Nursing students may be required to have a ten-panel drug screen based on clinical affiliates’ requirements. Release forms must be signed to have the results sent to the Clinical Placement Coordinator.

If a student’s drug test is positive, secondary or confirmatory testing will be performed and the student will be expected to cooperate with interviews and follow-up procedures to ascertain and endeavor to confirm whether there was an explanation for the positive test result that did not involve illegal conduct, e.g., ingestion of lawful drugs, food, or beverages that could cause positive results.

If the positive test is confirmed and no sufficiently credible explanation of relevant lawful conduct is forthcoming, clinical placement in a clinical course and successful completion of the program will be jeopardized due to failure to qualify for placement and/or successful completion of the program. Students with confirmed positive tests and/or no sufficiently credible explanation of relevant lawful conduct will be advised that the De Paul University School of Nursing cannot place them in a clinical setting.

As a result, a student would not be able to complete the requirements of the program.

**Access to Student Records**

1. A student may have access to his/her personal student record upon request. Confidentiality is maintained with all student files. Release of information is granted upon written request by the student.

2. No specific or detailed information concerning specific medical diagnoses will be provided to faculty outside the department, administrators, or even parents, without the expressed written permission of the individual in each case. This position with respect to health records is supported by amendment to the Family Education Rights and Privacy Act of 1974. Health officials and other institutional officers must remember that all confidential medical/health care information is protected by statutes and that any unauthorized disclosure may create legal liability.

**Graduation**

DePaul University awards the both the Bachelor of Science and Master of Science degree with a major in nursing to students who successfully complete RN to MS program. All requirements of the University, College, and School of Nursing must be met as outlined in the current Catalog, including earning at least a 2.00 cumulative GPA in courses required for the program for students with undergraduate standing and earning at least a 3.00 cumulative GPA in courses required for the program for students with graduate standing.

The student is responsible for completing the application for degree conferral and commencement by the deadline posted in the academic calendar.

Students are responsible for changes reflecting new program requirements if the department gives sufficient notice.

**Nursing RN to MS (MS)**

- The RN to MS curriculum provides for seamless progression for the Registered Nurse (RN) with an associate degree in nursing (ADN) to the master’s degree (MS) after completing the BS in nursing and matriculating to the MS in nursing.
- The RN with an associate degree (ADN) in nursing and a BA/BS in another field may proceed directly to pursuing the MS in nursing while taking three bridge level nursing courses.
- The RN with a BSN may proceed directly to pursuing the MS in nursing.
- The RN to MS program will be offered online except for the clinical component. Students will be required to complete clinical nursing experiences, which will be undertaken in their home communities with appropriate local professional mentors. The master’s component of the program prepares practicing nurses to meet the core expectations of a master’s education in nursing and to assume the role of a nurse educator, nurse administrator, family nurse practitioner (FNP), or adult gerontology nurse practitioner (AGNP). Students choosing nurse educator or nurse administrator will also earn a certificate either in Health Professions Education or in Health Administration from Rosalind Franklin University of Medicine and Science (RFUMS) along with the MS in Nursing from DePaul University. The certificate programs focus on interprofessional collaboration and are interdisciplinary in nature. Following successful completion of the nurse practitioner tracks (FNP or AGNP), students will be able to sit for the national certification exam.

**Learning Outcomes**

Students will be able to:

- Develop an advanced level of patient care management competency focused on a culture of safety and quality that prevents harm.
- Use nursing concepts, theories and research to design, conduct and evaluate scholarly inquiry in nursing science, with a focus on translational science.
• Comparatively evaluate health care systems in regard to the use of information systems technology, quality improvement, culturally relevant care models and tracking of performance outcomes.
• Critically evaluate antecedents of professional nursing practice ethics in light of Vincentian heritage and values and other influences and value systems.
• Use evidence for family focused interdisciplinary population health care to establish future health care needs.
• Distinguish between levels of the roles of autonomy, integrity and social justice in a professional leader’s career.

The RN to MS program is a multi-layered program encompassing two degrees (BS and MS), two tracks with two certificate options. Thus the student learning outcomes are grouped accordingly as follows:

BS in Nursing

1. Synthesize knowledge from the sciences, the humanities, and nursing science to assess, plan, and provide care for individuals, families, and communities using evidence-based and values-based modalities.
2. Develop a foundation for professional nursing practice emphasizing autonomy, integrity, change agency, and advocacy to social justice.
3. Design and deliver culturally appropriate nursing care services to diverse individuals, families, and populations, in coordination with appropriate multidisciplinary providers across the continuum of care.
4. Demonstrate progression in life-long learning by applying critical thinking to analyze contemporary health care, including but not limited to social determinants of health, health inequities, serving high-risk populations, technological applications in healthcare, health care policy, and health care finance.
5. Reflect on the role of Vincentian and altruistic values in the context of professional nursing.

Core MS in Nursing:

1. Develop an advanced level of patient care management competency focused on a culture of safety and quality that prevents harm.
2. Use nursing concepts, theories, and research to design, conduct, and evaluate scholarly inquiry in nursing science, with a focus on translational science.
3. Comparatively evaluate health care systems in regard to the use of information systems technology, quality improvement, culturally relevant care models, and tracking of performance outcomes.
4. Critically evaluate antecedents of professional nursing practice ethics in light of Vincentian heritage and values and other influences and value systems.
5. Use evidence for family focused interdisciplinary population health care to establish future health care needs.
6. Distinguish between levels of the roles of autonomy, integrity and social justice in a professional nursing leader’s career.

Nursing Education Track

1. Synthesize findings from health professions education research within the practice of nursing education to support competency development in learners.
2. Use current technological tools to ensure the best quality interprofessional education foundation for nursing.
3. Analyze current nursing education issues including but not limited to use of technology in teaching/learning, contemporary pedagogies, and measuring educational outcomes.

Nursing Administration Track

1. Apply scientific findings from nursing, physiological sciences, public health, quality improvement, and management science in an organization for the continual improvement of nursing care delivery.
2. Integrate client-centered and culturally appropriate concepts and approaches in strategic planning to meet population needs for clinical prevention and appropriate care services for diverse populations.
3. Use current information systems technology, quality improvement concepts, and outcomes analysis to ensure effective health systems management.
4. Participate in health policy analysis and health policy formation relative to specific health care issues relevant to practice as an administrator.

Degree Requirements

As part of the master’s component of the RN to MS program, students will choose to specialize in one of four tracks:

• Adult-Gerontological Nurse Practitioner Track, Nursing (MS) (p. 770)
• Family Nurse Practitioner Track, Nursing (MS) (p. 770)
• Nursing Administration Track, Nursing (MS) (p. 771)
• Nursing Education Track, Nursing (MS) (p. 772)

Each track requires several courses plus a capstone experience and required practicum. The specific required coursework for each track can be found by navigating to the respective page. Following completion of the specialty, a graduate certificate in either Health Professions Education or Heath Administration is conferred by Rosalind Franklin University of Medicine and Science.

Program Graduate Academic Student Handbook

A complete list of policies specific to this program of study is contained in the Student Handbook that is updated regularly on the website for the School of Nursing. The complete RN-MS student handbook can be found here: RN to MS Student Handbook (https://csh.depaul.edu/academics/nursing/student-resources/Pages/student-handbook.aspx)

Retention Policies

Undergraduate Student Academic Policy

Any RN to MS student with undergraduate standing who fails to maintain a 2.00 cumulative grade point average (C average) is placed on academic probation. A student is removed from academic probation when the cumulative grade point average reaches the required minimum of 2.00. A student’s academic status is reviewed after any Autumn, Winter, Spring and Summer quarters in which the student was enrolled in at least 1 credit hour. An academic probationary student may be limited to 12 credit hours per quarter until a cumulative GPA of 2.00 is reached. A student who remains on academic probation for three sequential quarters of enrollment may be academically dismissed.

A student dismissed for academic reasons is not eligible for readmission to DePaul University for a period of two quarters. The readmission
decision is made by the Office of Admission in consultation with the college or school.

A dismissed student may be required to demonstrate acceptable academic achievement at another regionally accredited college or university before readmission is approved. Courses to be taken elsewhere must be approved by the college advising office and a grade of C or better must be earned in all such coursework.

Credits and grades earned during previous enrollment at DePaul will remain a part of the student’s records.

A student who earns more than one C or C- in a graduate-level nursing course will be prohibited from advancing to the MS portion of the RN to MS program and is required to enroll in the School of Nursing Success Coaching program for mandatory remediation at that time. As long as all other undergraduate graduation degree requirements are met, the student will be permitted to graduate from the BS portion of the program.

Graduate Student Academic Policy
RN to MS students with graduate standing must maintain a cumulative GPA of 3.00 or greater to remain in good standing for all graduate level courses. A student will be placed on academic probation if the cumulative GPA dips below 3.00. The student must enroll in the School of Nursing Success Coaching program for mandatory remediation at this time. If the cumulative GPA rises to at least 3.00 at the end of the next academic quarter of coursework, the student is no longer on academic probation. If the cumulative GPA has not risen to at least 3.00 at the end of the next academic quarter of coursework, the student will be academically dismissed from the program.

If a student earns a C or C- in any graduate level course, the student is placed on academic probation. The student must enroll in the School of Nursing Success Coaching program for mandatory remediation at this time. If the student is able to earn grades in all courses that are C+ or above AND earn a cumulative GPA of 3.00 or greater in the next academic quarter of coursework, the student is no longer on academic probation. If this does not occur, the student will be academically dismissed from the program.

A student who earns a D+ or lower in any graduate level course will be academically dismissed from the program.

Policy Regarding Encumbered Registered Nurse (RN) Licensure
1. If a student experiences an encumbered license (such as a RN license with stipulations or restrictions) during their graduate studies, he/she must notify the Assistant Director for the Program immediately upon receipt of the encumbrance.
2. The student will provide the appropriate Assistant Director with a copy of the Agreed Order.
3. Students may be allowed to take non-clinical courses with an encumbered license.
4. Students will not be allowed to take clinical courses with an encumbered license.
5. The student will notify the Assistant Director of the Program when the student’s license becomes unencumbered and provide a copy of the Board of Nursing’s notification letter.
6. Failure to notify the Assistant Director of the Program of an encumbered RN license will be considered academic misconduct and be treated as such.

Progression Policies
1. All students must complete the orientation session before enrolling in the nursing program of studies.
2. All students must meet with their assigned academic advisor during the first quarter of the program to review their official program of studies for the current academic year.
3. Students must meet with their academic advisor at the end of the first academic year and at least once during each subsequent academic year to review progress in the program and plan for the following year. Advisors are not generally available during the months of July and August.
4. A student may not register for any course that has a prerequisite if that student has an incomplete in the prerequisite course.
5. Students may not attend classes in a course for which enrollment is blocked. No credit will be awarded for assignments completed when not officially enrolled in a course. This includes assignments previously completed and turned-in for courses taken in the past.
6. All required health records, evidence of CPR certification, criminal background checks, personal health insurance, and professional liability insurance must be kept on file in the SON. It is each individual student’s responsibility to keep all of their records up-to-date. Drug screens are required for clinical placements. See Clinical Guidelines for further information. Failure to have all records present and up-to-date at the beginning of each course will result in inability to attend the clinical component of the course.
7. Leave of Absence:
   a. Students who need to interrupt their studies for personal, health or other reasons may request a leave of absence for up to one full year. The request should be made to the Assistant Director of the program and the Admission, Progression and Retention Committee should be notified. Depending on circumstances and estimated length of absence, the Assistant Director or student’s academic advisor may recommend additional action to complete the process.
   b. Students who wish to return to the program following a leave of absence will need to submit a written request for resuming coursework to the Admissions, Progression, and Retention Committee. It is the student’s responsibility to send a copy of such request to the Director of the School of Nursing, the student’s faculty advisor, and the Assistant Director of the program. This written request should demonstrate the resolution of the extenuating circumstances contributing to the original need to leave the Nursing Program. This request for reinstatement must be made no less than 6 weeks prior to resuming the nursing course sequence. Students will be notified in writing regarding the decision concerning their re-entry to the program. Individual assessment of current knowledge and clinical skills will be made prior to placement of the student in the appropriate level within the nursing program. Students who become “out of sequence students” due to withdrawal, or military/medical/family leave of absence will be placed into a clinical rotation upon re-entry based upon space available and cannot be guaranteed placement in the next available clinical course needed. “Out of sequence students” cannot displace in- sequence students from a clinical spot.
8. Students who have taken a leave of absence from the program for greater than 12 calendar months must re-apply to the university. Their application will then be considered with all other qualified applicants applying for admission to the nursing program.
9. A student who withdraws from a core nursing course while in good standing cannot progress in the sequenced nursing curriculum until that course has been successfully completed. In courses that contain both a clinical practicum and a lecture component, both course segments must be completed simultaneously. Exceptions may be identified and defined by the Admissions, Progressions and Retention Committee (APR) in consultation with the Director of the School of Nursing and the Assistant Director of the Program and the course faculty.

10. A student who withdraws from a core nursing course who is ‘not in good standing’ (with a grade of “C” or lower or on probation) at the time of withdrawal, will be referred to the Admissions, Progressions, and Retention Committee (APR). The APR will meet to review the student’s past and current performance and to elicit recommendations from the course faculty. A representative of the APR committee may then meet with the course faculty and the Assistant Director of the Program and student to counsel the student and to establish a contract for academic improvement. Such students may not progress in the sequenced nursing curriculum until the course has been retaken and successfully completed. In courses that contain both a clinical practicum and a didactic theory portion, both course segments must be completed simultaneously.

11. A student may withdraw from a core nursing course ‘not in good standing’ (with a grade of “C” or lower) only once during their program of study. A second such withdrawal will result in dismissal from the program.

12. A student who has a grade of B- (86% or less) at mid-quarter may be placed on contract for academic improvement by the instructor. The student must satisfactorily fulfill all course and contract requirements by the end of the quarter of contract initiation in order to progress in the program.

13. A student currently enrolled in a degree program in which revisions are approved while their studies are in progress may elect to formally adopt the revised requirements.

Academic Virtual Environment Policy

The School of Nursing expects a respectful environment conducive to teaching and learning from all students, faculty, and staff. Inappropriate conduct is defined as any action that interferes with the creation and maintenance of an effective virtual learning environment. Students are expected to display civility in all aspects of their educational experience at DePaul University.

Appropriate student conduct is outlined in detail in the School of Nursing Professional Development Guidelines (Appendix D in the Student Handbook). Appropriate student conduct includes but is not limited to: being present on the discussion board; displaying courtesy; maintaining professional standards and safe practice in the clinical areas; fostering a positive learning environment by respecting the ideas and opinions of others; respecting others, including not making sarcastic or disrespectful remarks, using foul language or swearing; not threatening others on the discussion board.

Students displaying inappropriate conduct on the discussion board will be required to talk with their Academic advisor and may be placed on a performance contract. Inappropriate conduct will be documented with a written copy of the incident placed in the student’s file. Such incidents of inappropriate conduct will then be reported to the Director of the School of Nursing, with copies sent to the Assistant Director of the Program, and the Admissions, Progression, and Retention Committee. Additional sanctions for inappropriate conduct may be imposed, including dismissal from the nursing program. (For additional information, please see both the University Student Handbook-available on line, as well as the “Student Misconduct Process” outlined below.)

Academic Integrity Policy

Violations of academic integrity in any form are detrimental to the values of DePaul, to the students’ own development as responsible members of society and to the pursuit of knowledge and the transmission of ideas. Violations of academic integrity include but are not limited to: cheating, plagiarism, fabrications, falsification or sabotage of research data, falsification of clinical data, destruction or misuse of the university’s academic resources, academic misconduct, and complicity. If an instructor finds that a student has violated the Academic Integrity Policy, the appropriate initial sanction is at the instructor’s discretion. An instructor may choose to file an academic integrity violation with the university. Actions taken by the instructor do not preclude the college or the university from taking further action, including dismissal from the university. Conduct that is punishable under the Academic Integrity Policy could result in criminal or civil prosecution. The full Academic Integrity Policy can be found here (https://offices.depaul.edu/academic-affairs/faculty-resources/academic-integrity/Pages/default.aspx). (https://offices.depaul.edu/academic-affairs/faculty-resources/academic-integrity/Pages/default.aspx)

Academic Integrity Policy Extension for Clinical and Service Settings

DePaul University is committed to education that engages its students, faculty and staff in work within Chicago’s institutions and communities. As DePaul representatives to our partner institutions and community organizations, we ask that you take seriously your responsibilities to these institutions during service and clinical experiences and internships. The community and its institutions are extensions of the DePaul classroom.

The University’s Academic Integrity Policy and Code of Responsibility apply to professional interactions as well. See also The School of Nursing Professional Development Guidelines (Appendix D in the Student Handbook).

Student Advising/Program of Study

1. A graduate student services administrator (GSSA) from the College of Health Office of Advising and Student Services (OASS) will be assigned as the primary advisor for students while they are pursuing the BS degree portion of the program. The GSSA will work closely with the RN to MS Program faculty, who will be assigned in Campus Connection, as the students’ secondary advisor during this phase. The advisor will assist in developing an appropriate program of studies according to the student’s preferences, abilities, and anticipated course availability. Students are required to meet with their advisors during their first quarter in the program, at the end of the first academic year and once per academic year following. Students are encouraged to review the student handbook prior to meeting with their advisor. Students should bring the Student Handbook Agreement Statement to the meeting. Once it is signed by student and advisor, it should be uploaded to Castle Branch.

2. The student is responsible for setting-up an appointment with the designated advisor to develop an individualized program of studies.

3. The student is responsible for obtaining a copy of the program of studies worked out during the faculty-student advising session.
4. The student is responsible for enrolling in classes in the sequence identified in the program of studies. Should circumstances interrupt or delay registering for the designated classes, students must notify the Assistant Director of the Program, the department administrative assistant, and faculty advisor for modification of the planned program of studies.

5. The student is responsible for meeting all prerequisites to courses for which the student is registering.

6. The student is responsible for scheduling periodic student-advisor, and student-instructor conferences.

7. The student may not register for any clinical course until all conditions of admission, undergraduate nursing prerequisites, and liberal arts and science requirements are completed. Students who are not in compliance will be withdrawn from the course(s) for which they are currently registered. Students will be denied progression in the program up to and including being denied graduation until all requirements are met.

Clinical Guidelines

Clinical learning activity is defined as a planned activity occurring in a health care agency when the student is identified as a DePaul University student. The clinical learning activity may or may not include contact with patients.

In order for students to be eligible for clinical placement, they must complete the following:

1. All School of Nursing graduate clinical requirements
2. All School of Nursing graduate health requirements
3. Approval of clinical mentor/agency by the course faculty of record
4. Establish clinical affiliation agreements between the DePaul University School of Nursing and both the mentor and agency in which a student plans to complete clinical or practicum hours. Students will receive an email at the beginning of each term reminding them to start the process of procuring a clinical site and clinical mentor. Students can follow the procedure here (https://csh.depaul.edu/academics/nursing/student-resources/requests-policies-procedures/Pages/preceptor-mentor-request.aspx).
5. A student may be dropped from clinical coursework for not participating in clinical orientation.

Failure to meet health requirements will prohibit students from practice learning activities and may result in cancellation of course registration. Any practicum hours completed by a student with-out completion of the above requirements will not be counted toward the requirement for the course. Any clinical hours completed before health requirement clearance from the SON Compliance Officer will not count toward required clinical hours for the program. This could result in a student failing the course if the required clinical hours are not completed by the end of the quarter.

All practice requirements should be identified in NSG 376 and submitted to course faculty of record by the end of NSG 376.

All health requirements should be uploaded to Castle Branch the quarter prior to a student beginning a clinical/practicum course.

The student acknowledges that all DePaul University and School of Nursing academic and conduct policies remain in place during clinical experiences. The student also agrees to comply with all of the policies set forth by the clinical site. The student understands that failure to comply with university or School of Nursing policies or the policies of the clinical site may result in sanctions, including removal from the clinical site and/or the course. The student understands that it is his/her responsibility to immediately notify his/her instructor in the event that the student encounters problems with his/her supervisor, preceptor, or staff at the site.

Mentor Selection for Graduate Students

Students are responsible for selecting a mentor for practice experience courses. Criteria for graduate mentors include:

1. Unencumbered professional license and/or national certification
2. Documented current practice in the field
3. Educational experience: BSN, MSN preferred for NSG 377 and MSN practicing in chosen specialty track for graduate capstone course.
4. Commitment to high professional standards
5. Previous mentor experience is preferred
6. Interest in working with students with desire to foster student learning.

Process for Establishing a Mentor

1. The student identifies an appropriate mentor for practice experience activities according to criteria and has a discussion with the mentor about their current standing in the program and practice experience needs. The student shall only put forward the names of mentors who agree to the experience.
2. The student submits a preceptor/mentor request form along with a curriculum vitae of the mentor. The Assistant Director of the program will review the resume for established criteria and the agency clinical affiliation agreement.
3. The School of Nursing will process the agency affiliation agreement and mentor letter.
4. The student uploads evidence of compliance with all health requirements.
5. The School of Nursing will notify the student and the course faculty member when all requirements have been met. Practice experience hours cannot be started until such time.
6. The course faculty member will advise the student when to begin the mentor hours.

Students are required to:

1. Identify the practice experience site and mentor they wish to complete their practice hours in NSG 376, NSG 596 or NSG 597.
2. Notify NSG 376 course faculty of record of the practice experience site and mentor. Students in NSG 567 or NSG 597 will notify their academic advisor of their practice setting the term before starting the course.
3. Comply with additional requirements of the clinical setting including but not limited to drug screening.
4. Students may choose their place of employment as their practice experience site as long as the SON has a clinical affiliation agreement with the facility.

Unsafe Clinical Performance

A student is responsible for implementation of safe patient care during the supervised clinical practicum. Unsafe behavior can result in suspension from the clinical site, student remediation, failure of the course, and/or dismissal from the program. Unsafe practice is defined as behavior that has the potential to cause serious harm to a patient.
Examples of unsafe clinical behavior in clinical practice include, but are not limited to:

Unsafe practice patterns include but are not limited to:

1. Violating HIPAA requirements
2. Violating OSHA requirements
3. Performing a procedure outside the domain of nursing
4. Performing a procedure in which he/she has not been prepared
5. Failing to use universal precautions
6. Administering treatments/medications in any form via any route without consent and/or supervision from the clinical instructor.
7. Advising patients about diagnosis or prognosis or referring patients to treatments, agencies, medications, without first discussing such with the clinical instructor.
8. Asking a staff nurse to supervise any procedure without consent of the clinical instructor.
9. Inability to correctly calculate math/medication problems
10. Knowingly exposing patients, colleagues, and others to actual or potential life threatening communicable diseases.
11. Stealing drugs, supplies, or belongings from an agency or patient.
12. Removing copies of patient care documents from healthcare agencies.
14. Failure to adhere to DePaul School of Nursing and/or clinical agency policies.
15. Falsifying patient records or fabricating patient experiences.
16. Neglecting to give appropriate care.
17. Providing patient care in a harmful manner or exhibiting careless or negligent behavior in the process of providing care to a patient.
18. Refusing to assume the assigned care of a patient, or failing to inform the instructor of an inability to care for a patient.
19. Willful or intentional physical or emotional harm to a patient.
20. Failure to report an error in assessment, treatment, or medication or failure to report an unusual occurrence or an adverse reaction.
21. Failure to comply with DePaul's Drug Free Campus policy.
22. Performance not in compliance with stated student expectations as outlined in lecture or course syllabi.
23. Failure to know proper vital sign ranges as well as failure to notify instructor or patient's nurse of critical vital sign value.

Any student whose pattern of behavior demonstrates unsafe clinical practice that endangers a patient, colleague, or self in the clinical area will be suspended immediately from the clinical experience. The faculty of record will meet with the student to discuss how the unsafe behavior came about and potential complications from said behavior and prepare written documentation of the event. This will be forwarded within 24 hours to the course coordinator. A copy of this document will be placed in the student file and forwarded to the Director of the School of Nursing, Assistant Director of the program, and Admissions, Progression and Retention Committee. If appropriate, an incident report will be filed at the clinical site.

If, in the clinical instructor’s clinical judgment, a student is unsafe to continue in the clinical practicum, the clinical instructor will take the following steps:

1. Dismiss the student for the remainder of the clinical day. The instructor will follow institutional guidelines as appropriate.
2. Contact the course coordinator and the Assistant Director of the Program.
3. Submit a written report of the incident to the Assistant Director’s office within one working day. The Assistant Director will contact the Registrar to put a hold on the student’s grade; the student will not be allowed to withdraw from the course at this time. The clinical instructor will schedule a meeting with the student within 24 hours of the incident or as soon as is practical, and prepare a written report that describes the incident that resulted in the student’s dismissal from clinical. The student will be given a copy of the report at this time.
4. The clinical instructor will advise the student that he or she will not be able to return to clinical until the meeting with the Assistant Director takes place.
5. Within 3 working days, or as soon as is practical, a meeting will be held. In attendance at the meeting will be the clinical instructor, the student, the course coordinator and the Assistant Director of the Program. The student may have his or her advisor present at the meeting. A decision regarding the student’s continuation in the program will be made. This meeting will determine whether the student will be administratively withdrawn with a grade of F or is allowed to return to complete the clinical. The clinical instructor initiating the meeting is not involved in the decision regarding the student’s progression in the program. A decision is made at the meeting and communicated to the student.
6. The documentation related to unsafe clinical practice will be kept in a secured file within the SON offices.
7. The Admissions and Progression and Retention Committee (APR) reviews any administrative course withdrawal resulting in an F. The APR will determine if the student is dismissed from the program or may return in an appropriate quarter per the procedures of the APR. The student may elect to appeal this decision per procedures in the student handbook.

Clinical Performance Limitation Related to Temporary Disability
A student who incurs an injury or has any other physical limitation of a temporary nature must notify course faculty and provide documentation from his/her health care provider that he/she is able to safely carry out the duties of a student in the practice experience setting. This must occur as soon as possible and prior to attendance at practice setting.

The final decision as to whether the student is allowed in the practice setting rests with the agency. If the student is unable to attend the practice experience, he or she will need to withdraw and meet with the Assistant Director of the program to explore options.

Students who are pregnant are advised that practice sites have individual policies and requirements related to pregnant students that may impact the student’s ability to attend or complete the experience.

Clinical Probation/Remediation
A student requires a contract when one or more course objectives are not being met. These behaviors, if not addressed, put the student at risk for receiving a non-passing final grade in the course. The process is initiated as soon as course faculty recognizes that a student’s performance or behavior may jeopardize the successful completion of a course. The contract can be initiated at any time during the quarter.

The contract is documented on the Student Faculty Contract form (Appendix C in the Student Handbook) and is completed by the course
Exposure at Outside Facility while Performing Duties within Student Role

Any student incurring such an exposure should follow both DPU’s post exposure policy as well as the institution’s policy where the exposure occurred. All student exposure incidents while conducting learning or training activities under the SON must be reported to the Safety Officer or his/her designee as soon as possible, but no later than one business day after the incident.

Students are encouraged to speak with their health care provider about any additional follow-up post-exposure prophylaxis that may be recommended.

When possible, the Safety Officer, his/her designee, or institution where the exposure took place, will look into testing the exposure source individual for HIV, hepatitis B, and/or hepatitis C. Testing of the source individual’s blood does not need to be repeated if the source individual is already known to be infected with HIV, hepatitis B, and/or hepatitis C.

Student Injury and Incident Policy

In the event that a student is injured (or involved in an untoward incident) while in the clinical setting, the student should immediately notify the clinical instructor. The clinical instructor should assist the student to seek immediate health assessment and response following all policies and procedures of the clinical setting that pertain to the type of injury sustained. The clinical instructor must notify the course coordinator of the event by the end of the clinical day.

If a student is injured (or involved in an untoward incident) on the campus while conducting learning or training activities, the student must notify the instructor or faculty member in charge of the activity immediately. The instructor or faculty member in charge must call 911 if the injury is serious. The instructor or faculty member is to notify DePaul Public Safety and follow university policy for all injuries.

All student injuries (or untoward incident), whether they occur at DePaul University or off campus while conducting learning or training activities under the School of Nursing require that DePaul Public Safety is notified, that a public safety report is filed and the DePaul Environmental Health and Safety Incident Report form (DEHSIR), which can be found at http://offices.depaul.edu/environmental-health-and-safety/forms/Pages/incident-report.aspx, is completed. All must be completed within 1 business day of the incident. The incident must also be reported to the School of Nursing Safety Officer or the SON Safety Officer designate as soon as possible but no later than one business day after the incident. When reporting to the SON Safety Officer, the student is to include a copy of the completed DEHSIR.

If a student reports an incident in which the harm to student is not physical but rather psychological or emotional, clinical faculty should notify the associate director of the program who will direct the student to appropriate DePaul University resources.

Once the student has been seen by a health care professional for the injury (or untoward incident) and completed all reporting processes required by the university and clinical setting, the student should contact his/her health care provider for any further treatment or health care follow-up that is needed. The student may wish to contact the DOS office if the student has concerns or questions.

Unprotected Exposures

In the event of any unprotected exposure to blood or body fluids, the student is to follow the procedures of the DePaul University School of Nursing Bloodborne Pathogens Exposure Control Plan: https://csh.depaul.edu/academics/nursing/student-resources/Pages/exposure-control-plan.aspx.
Student Clinical Requirements

It is mandatory that all students have all of their clinical requirements completed and uploaded to their Student Immunization Tracker through Castle Branch prior to attending clinical. It is the responsibility of the student to insure that all clinical requirements are kept current. Students must submit copies of renewed coverage, updated lab results, and renewed skills PRIOR to the anniversary of the expiration date. Students who are non-compliant with clinical requirements will not be permitted to attend clinical. Non-attendance of clinical due to non-compliance with clinical requirements will be treated as an unexcused absence that may not be made up. This may put the student at risk for failing the course.

The student must submit COPIES (NOT ORIGINALS) of the following:

1. Tuberculosis Screening:
   All students that will provide patient care in the clinical setting are required to submit proof of not having active tuberculosis prior to the first day of the clinical rotation. Documentation must be uploaded into Castle Branch and approved to fulfill this requirement. This can be done by completing one of the following:
   a. Two-step Tuberculin Skin Test.
      The student will be required to have two separate tuberculin skin tests placed 1-3 weeks apart. The results of both tests must be uploaded into Castle Branch.
   b. Quantiferon Gold Test
      The student will be required to have this blood test drawn and upload the results into Castle Branch. Please note: some clinical sites will only accept this as proof of not having active tuberculosis.
   c. Students With Positive TB Results:
      Students with a history of having positive TB results or has received the BCG vaccination prior to admission into the nursing program must complete the following:
      Submit certification from a healthcare provider that the faculty member is currently free of the signs and symptoms of active tuberculosis. This certification must be renewed every 6 months. AND
      Submit a negative chest X-ray from the time of the initial positive TB results. In the event that a chest X-Ray was not completed, the faculty member will be required to obtain one prior to the first day of the clinical rotation.
      OR
      Complete a Quantiferon Gold test.
      AND
      Submit certification from a healthcare provider that the faculty member is currently free of the signs and symptoms of active tuberculosis. This certification must be renewed every 6 months.
      Students found to have positive TB results while completing pre-clinical screening requirements for DePaul University must complete the following prior to the first day of the clinical rotation:
      Obtain a chest x-ray and submit the results.
      Submit certification from a healthcare provider that the student is currently free of the signs and symptoms of active tuberculosis. This certification must be renewed every 6 months. If the student shows signs and symptoms of active tuberculosis during the provider evaluation, the student may not begin the clinical rotation until documentation of a completed course of prophylactic therapy and certification of currently being free of the signs and symptoms of active tuberculosis has been completed.

2. Titers for Rubeola, Mumps, Rubella, Varicella. A TITER is MANDATORY to document immunity. (Note: Vaccination or history of the disease is necessary to develop immunity). The titer MUST contain the titer value as well as the reference norm. The required titers are as follows:
   a. Rubeola IgG
   b. Mumps IgG
   c. Rubella IgG
   d. Varicella IgG

   If titers indicate no immunity for Rubeola, Mumps, Rubella, and Varicella, immunization is required (for Rubeola, Mumps or Rubella, this will be a booster series of 2 MMR immunizations). Follow-up titers will need to be drawn after re-immunization for both MMR and Varicella.

   Students must sign a waiver if no immunity is detected on follow-up titer. The waiver states that you understand the risk associated with continuing in the nursing program, specifically that if you contract the disease to which you are not immune, the school is not liable and that you want to continue in your studies, knowing the risk. Once you have documented your immunity or signed a waiver, you will not need to furnish any further documentation.

3. Proof of immunity to Hepatitis B must be confirmed through bloodwork. Immunity may be achieved through vaccination or previous exposure1. You may submit test results and documentation of immunity from your provider in lieu of receiving vaccination. The following documents will be accepted as proof of immunity:
   a. Positive Hepatitis B surface antibody (anti-HBs) indicates immunity from previous vaccination.
   b. Positive anti-HBs and positive Hepatitis core antibody (anti-HBc) indicate immunity due to infection; a negative Hepatitis B surface antigen (HBsAG) is needed to determine whether acute or chronic infection exists, and the student will not be required to follow up with his or her health care provider.

   Students must sign a waiver if no immunity is detected on follow-up titer. The waiver states that you understand the risk associated with continuing in the nursing program, specifically that if you contract the disease to which you are not immune, the school is not liable and that you want to continue in your studies, knowing the risk. Once you have

1.  You may submit test results and documentation of immunity from your provider in lieu of receiving vaccination.
documented your immunity or signed a waiver, you will not need to furnish any further documentation.

The Centers for Disease Control (CDC) recommend that persons who fall into either of the following categories for increased risk for Hepatitis B infection should seek their health care provider and request a blood test for Hepatitis B surface antigen (HBsAg) and Hepatitis B surface antibody (Anti-HBs) as you may not need the vaccination if the results are positive.

CDC Categories of Persons at Increased Risk for Hepatitis B Infection
i. Persons born in mothers in or from countries in which Hepatitis B is endemic.
ii. Sexually active men who have sex with men.

4. Tetanus-Diptheria-Pertussis Booster: Must be within the last 10 years. Documentation can be in the form of a signed immunization card or statement from your healthcare provider or health department that documents the date the tetanus booster or Tdap were administered. Please note that a tetanus booster alone is not adequate and you must demonstrate immunization for diphtheria and pertussis within the past 10 years.

5. Yearly influenza vaccine is required. Incoming MENP students will receive Standard Precautions/Universal Precautions Training as part of their initial coursework.

6. Current CPR Certification: Current American Heart Association (AHA) certification in Basic Life Support (BLS) for Healthcare Provider is required for all entering and current students. Only the AHA certification will be accepted.

Content covered in AHA BLS class:
- Critical concepts of high-quality CPR
- The American Heart Association Chain of Survival
- 1-Rescuer CPR and AED for adult, child and infant
- 2-Rescuer CPR and AED for adult, child and infant
- Differences between adult, child and infant rescue techniques
- Bag-mask techniques for adult, child and infant
- Rescue breathing for adult, child and infant
- Relief of choking for adult, child and infant
- CPR with an advanced airway

7. Professional Liability Insurance: Each MENP and BSN completion student must obtain their own student nursing professional liability insurance policy against claims arising from real or alleged errors or omissions. Their policy must have minimal limits of coverage of $1,000,000 PER claim and $5,000,000 aggregate. This insurance must be renewed annually.

8. Evidence of Current Health Insurance: All nursing students must submit proof of continuous comprehensive health insurance on a yearly basis. Please note that the name on the health insurance must match the student’s name.

9. A signed HIPAA-FERPA authorization must be uploaded to Castle Branch by the start of the first quarter. This form must be signed in order for the School of Nursing to release any student health information related to clinical requirements to clinical sites.

10. Blood Borne Pathogens Exposure training must be completed online prior to the first clinical day. The training can be found at go.depaul.edu/bbp (http://go.depaul.edu/bbp/).

11. Criminal Background Check: Nursing students must submit to a criminal background check via Castle Branch prior to their initial clinical experience. Criminal background checks must be completed by August 1st for Fall Quarter or December 1st for Winter Quarter and will remain in effect unless: a) a clinical agency determines it necessary to require more frequent or more detailed background checks, b) OR a nursing student interrupts his/her program of study for one quarter or longer. In the above cases, it is mandatory for the student to have another criminal background check performed.

The School of Nursing may not be able to place students in a clinical setting if there are positive findings on the criminal background check. As a result, a student will not be able to complete the requirements of the program.

12. Drug Screening: Nursing students are required to have a ten-panel drug screen as required by clinical institutions. Some institutions may require a new drug screen each year. The test may be obtained from any health care agency, or from Castle Branch through Quest Diagnostics Lab. The drug test MUST follow a “Chain-of-custody” procedure. The student should sign a release to have the results sent to School of Nursing Coordinator of Clinical Placements. See below for the School of Nursing Policy on Drug Use and Testing.

The School of Nursing may not be able to place students in a clinical setting if there are positive findings on the drug screen. As a result, a student will not be able to complete the requirements of the program.

**Drug Use and Testing**

In accordance with De Paul University policies, the School of Nursing will impose disciplinary sanctions upon any student found to be in violation of laws or policies relating to the unlawful possession, use, or distribution of drugs or alcohol. Nursing students may be required to have a ten-panel drug screen based on clinical affiliates’ requirements. Release forms must be signed to have the results sent to the Clinical Placement Coordinator.

If a student’s drug test is positive, secondary or confirmatory testing will be performed and the student will be expected to cooperate with interviews and follow-up procedures to ascertain and endeavor to confirm whether there was an explanation for the positive test result that did not involve illegal conduct, e.g., ingestion of lawful drugs, food, or beverages that could cause positive results.

If the positive test is confirmed and no sufficiently credible explanation of relevant lawful conduct is forthcoming, clinical placement in a clinical course and successful completion of the program will be jeopardized due to failure to qualify for placement and/or successful completion of the program. Students with confirmed positive tests and/or no sufficiently credible explanation of relevant lawful conduct will be advised that the De Paul University School of Nursing cannot place them in a clinical setting. As a result, a student would not be able to complete the requirements of the program.

**Access to Student Records**

1. A student may have access to his/her personal student record upon request. Confidentiality is maintained with all student files. Release of information is granted upon written request by the student.

2. No specific or detailed information concerning specific medical diagnoses will be provided to faculty outside the department, administrators, or even parents, without the expressed written permission of the individual in each case. This position with respect to health records is supported by amendment to the Family Education Rights and Privacy Act of 1974. Health officials and other institutional
officers must remember that all confidential medical/health care information is protected by statutes and that any unauthorized disclosure may create legal liability.

**Graduation**

DePaul University awards the both the Bachelor of Science and Master of Science degree with a major in nursing to students who successfully complete RN to MS program. All requirements of the University, College, and School of Nursing must be met as outlined in the current Catalog, including earning at least a 2.00 cumulative GPA in courses required for the program for students with undergraduate standing and earning at least a 3.00 cumulative GPA in courses required for the program for students with graduate standing.

The student is responsible for completing the application for degree conferral and commencement by the deadline posted in the academic calendar.

Students are responsible for changes reflecting new program requirements if the department gives sufficient notice.

**Adult-Gerontological Nurse Practitioner Track, Nursing (MS)**

The Adult-Gerontological Nurse Practitioner track is designed to prepare nurses for advanced practice as an Adult Gerontology Nurse Practitioner with advanced knowledge and applicable skill in adult and gerontological primary care. In this track, the graduate will be able to pursue national certification as an Adult-Gerontology Nurse Practitioner. Contained within the coursework for the MS degree are ten advanced practice nursing courses. The degree program culminates in 600 clinical hours.

The non-nursing baccalaureate ADN student does not need to complete the BS in nursing but takes three undergraduate bridge courses (NSG 330, NSG 376, and NSG 377) to meet AACN Essentials of the Baccalaureate prepared Nurse before progressing to the graduate degree portion of the program. The BSN prepared nurse immediately begins in the graduate portion of the program.

**Undergraduate Requirements**

Where applicable, students must also complete the Baccalaureate requirements, including any Liberal Studies requirements not already met.

**Family Nurse Practitioner Track, Nursing (MS)**

The Family Nurse Practitioner track is designed to prepare nurses for advanced practice as a Family Nurse Practitioner with advanced knowledge and applicable skill in population specific primary care. In this track, the graduate will be able to pursue national certification as a Family Nurse Practitioner. Contained within the coursework for the MS degree are ten advanced practice nursing courses. The degree program culminates in 600 clinical hours.

The Nursing Administration track is designed to prepare a manager and leader in nursing and healthcare with advanced knowledge and applicable skills in communication and relationship building, healthcare environment, leadership, professionalism, and business management. The graduate will be able to pursue national certification as a nurse executive and a career in nursing administration. Contained within the coursework for the MS degree are four interprofessional health administration courses taught by Rosalind Franklin University of Medicine and Science which confers a graduate certificate in health administration. The degree program culminates in a capstone experience in nursing administration including a 165-hour practicum.

### Nursing Administration Track, Nursing (MS)

The Nursing Administration track is designed to prepare a manager and leader in nursing and healthcare with advanced knowledge and applicable skills in communication and relationship building, healthcare environment, leadership, professionalism, and business management. The graduate will be able to pursue national certification as a nurse executive and a career in nursing administration. Contained within the coursework for the MS degree are four interprofessional health administration courses taught by Rosalind Franklin University of Medicine and Science which confers a graduate certificate in health administration. The degree program culminates in a capstone experience in nursing administration including a 165-hour practicum.

1 This course is offered through a consortium agreement with Rosalind Franklin University and follows the Rosalind Franklin calendar.
The Nursing Education track is designed to prepare a clinical expert with skills in nursing curriculum development, course design, instruction, and evaluation. The graduate will be able to pursue national nurse educator certification and teach in undergraduate nursing programs and/or in-service education. Contained within the coursework for the MS degree are five interprofessional health professions education courses taught by Rosalind Franklin University of Medicine and Science which confers a graduate certificate in health professions education. The degree program culminates in a capstone experience in nursing which includes a 105-hour practice/education practicum.

The non-nursing baccalaureate ADN student does not need to complete the BS in nursing but takes three undergraduate bridge courses (NSG 330, NSG 376, and NSG 377) to meet AACN Essentials of the Baccalaureate prepared Nurse before progressing to the graduate degree portion of the program. The BSN prepared nurse immediately begins in the graduate portion of the program.

Undergraduate Requirements

Where applicable, students must also complete the Baccalaureate requirements, including any Liberal Studies requirements not already met.

In anticipation of earning the MS, students must apply for degree conferral of the BS.

Organizational Communication (BA)

The BA in Organizational Communication explores effective and participatory communication across organizational contexts. Students are encouraged to identify and explain theoretical frameworks operative in organizational and group communication; apply multiple theoretical perspectives to a variety of organizational and group contexts and events; express ideas and information competently in written or oral form with clarity and organization; appraise similarities and differences among multicultural and global communication contexts and events; formulate appropriate communicative messages for group and organizational effectiveness.

The curriculum is both deep and broad, enabling students to gain practical expertise in their area of interest while gaining a working knowledge of related areas. The curriculum focuses on ethical practice and the convergence of traditional and new media, preparing students for professional practice in an evolving marketplace. Students learn to express themselves well in oral and written communications, to think critically about communication events all around them, to develop skills valuable in the workplace, and to communicate effectively in a diverse world.

Learning Outcomes

Students will be able to:

- Explain group & organizational communication from multiple theoretical perspectives.
- Apply group & organizational concepts in explaining communication behavior.
- Design & manage appropriate messages for organizational stakeholders.
- Recognize diversity as a dynamic force in group & organizational contexts.

Modern Language Requirement (p. 773)

Modern Language Option (p. 773)

All majors in the College of Communication consist of a four-course common core plus an additional combination of program requirements and electives.

Course Requirements

Four core courses are required of all College of Communication students:
Students are encouraged to complete all four prior to taking additional coursework in the major.

**Modern Language Requirement**

Students who intend to graduate with a Bachelor of Arts degree in the College of Communication will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing the last course in a second year high school course work in a modern language or Latin
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language (must be completed during high school)
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement. Students with some modern language training should consult with the Modern Language Department about the course with which they should begin. Students with little or no previous work in the language will be required to complete the entire three-course introductory sequence.

**Modern Language Option**

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level necessary to meet the College’s modern language requirement. Students selecting the option may substitute a three-course language sequence for three learning domain courses, or two upper-level courses in the same language for two learning domain requirements. Modern Language Option substitutions may not be used to replace the Scientific Inquiry Lab or Scientific Inquiry: Science as a Way of Knowing requirement. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

---

### Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

---

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.

---

### Learning Domains

**Arts and Literature (AL) (p. 1184)**
- 2 Courses Required

**Historical Inquiry (HI) (p. 1188)**
- 2 Courses Required

**Philosophical Inquiry (PI) (p. 1190)**
- 2 Courses Required

**Religious Dimensions (RD) (p. 1191)**
- 2 Courses Required
Scientific Inquiry (SI) (p. 1193)
- 3 Courses Required
  [1 SWK Course, 1 Lab Course, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)
- 2 Courses Required

Note
Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements
All Organizational Communication majors must complete the four core courses required of all College of Communication students. In addition, they must take two required courses and choose six classes from among the Organizational Communication course offerings. Organizational Communication majors must also take any two electives within the College of Communication. All Organizational Communication majors must complete a total of 14 classes, or 56 credit hours.

</tr>
</tbody>
</table>

1 Students may take up to 4 hours of credit in this course toward graduation requirements.
2 A maximum of 8 credits from two credit College of Communication courses can be applied to major requirements.

Internship Credit
Students in the major may take CMN 394 and/or CMN 395 (when work relates to the major). In order to take CMN 394 or CMN 395, students must have completed two of the four communication core classes (CMN 101, CMN 102, CMN 103, CMN 104), two courses in the chosen major and have fulfilled internship program eligibility requirements.

Open Electives
Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Organizational Communication 3+3 (BA+JD)

In the 3+3 BA/JD Program, high-achieving first-year undergraduate students are admitted simultaneously to the College of Communication and the College of Law. Students complete their first three years in the College of Communication and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA/JD students meet regularly with advisors in both colleges and have access to a variety of resources to ensure their success.

Key Program Features
- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
Students save one year’s worth of tuition, reducing their overall debt load.
Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
Students receive early (conditional) admission to the College of Law.
Credits earned in the first year of law school apply toward the BA degree.
Students may opt out of the College of Law segment of the program and continue in the College of Communication during their fourth year.
If students withdraw after the first semester in the College of Law, they return to the College of Communication for the winter quarter.

Program Requirements
In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students must achieve a cumulative GPA of 3.35 by the end of their second year of study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

- PRELAW 150 THE PRACTICE OF LAW
- PRELAW 151 RECENT CONTROVERSIES IN THE LAW
- PRELAW 152 THINKING ABOUT THE LAW

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than the end of the Autumn Quarter of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

Participating Majors
The BA/JD Program is available for students pursuing the following majors:

- Communication and Media (p. 212)
- Communication and Technology (p. 220)
- Communication Studies (p. 223)
- Journalism (p. 581)
- Media and Cinema Studies (p. 699)
- Organizational Communication (p. 772)
- Public Relations and Advertising (p. 856)
- Sports Communication (p. 899)

For admission requirements and information, contact the Office of Admission (https://www.depaul.edu/admission-and-aid/Pages/default.aspx).

Organizational Communication (Minor)
After the completion of the coursework in this minor program, students should be able to:

- Identify and explain theoretical frameworks operative in organizational and group communication
- Apply multiple theoretical perspectives to a variety of organizational and group contexts and events
- Express ideas and information competently in written or oral form with clarity and organization

Course Requirements
A minor in Organizational Communication requires students to complete a total of six courses (24 credits). To complete the minor, students must take:

<table>

Peace, Justice and Conflict Studies
(BA)

The Peace, Justice and Conflict Studies Program offers students a BA major curriculum that is rooted in the values of active and strategic nonviolence. It helps them reflect critically on the origins and causes of conflict and violence, whether direct, cultural, or institutional. It studies social injustice and other forms of systemic violence, introducing nonviolent strategies for resolving interpersonal, communal, and international conflicts in order to promote the common good and the healing needed for community work. The Program invites frank debate about the efficacy of nonviolent in comparison with violent approaches to social change. The inclusion of conflict theory and citizen-led nonviolent intervention at the core of this program is distinctive. The Program emphasizes hands-on, experiential components in the introductory courses, the final seminars and internship, and the workshops, which emphasize skill training.

Students and faculty in Peace, Justice and Conflict Studies question what constitutes a just society and world and how attitudes toward social justice and violence reflect and reveal the values, beliefs, prejudices, assumptions, and perceptions of United States culture and those of other nations. Students are expected to gain competency in dealing with situations of conflict and injustice by mastering the theoretical and intellectual frameworks related to them, by learning to interpret and analyze real life situations in their complexity, by understanding how to build strategies for consensus-building and advocacy, and by understanding various research methodologies and the use of media and creative outlets.

Students majoring in other programs will find it beneficial to double major or minor in Peace, Justice and Conflict Studies, particularly due to its core value of strategic nonviolence. Students can also pursue an LAS or other college double major, such as with Health Sciences in the College of Science and Health, Journalism in the College of Communication, or the 3+3 BA/JD with the College of Law. Students who pursue the major are well prepared for graduate work in the humanities or social sciences, as well as for professional training in law, public service, or business.

Learning Outcomes

Students will be able to:

- Analyze the origins of conflict and violence and the underlying values or different theories that explain them, such as human rights or capacities discourse, and including the various levels where conflict occurs, such as the global, international, intra-national, local, and interpersonal levels.
- Evaluate nonviolent approaches to peace building, conflict resolution, and social change for the common good with the aim of protecting individuals’ rights.
- Explain the theories of justice and its basic forms, such as social, distributive and contributive, environmental, restorative, post-conflict or transitional, and transformational justice, and assess them in relation to real circumstances of individual/direct and structural violence and efforts for social change and a just world.
- Integrate theories with an experientially based understanding of the realities of peace building, conflict resolution, and working for viable social change, by means of a critical recognition of the effectiveness of different intervention strategies.
- Practice effective skills and tools for resolving conflict between individuals and social groups, council circles, disciplinary and interdisciplinary research, narrative and performative approaches, and psychological assessments, to obtain depth in one or two areas of the Peace, Justice, and Conflict Studies curriculum.

College Core Requirements

Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized "concentration." The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
• completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
• completing the final course of a four-year sequence of the same modern language in high school
• completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
• completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

The Modern Language Option (MLO)
The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace the Scientific Inquiry—Lab or Scientific Inquiry—Science as a Way of Knowing requirement.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency
A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

</tr>
</tbody>
</table>

^1 Students must earn a C- or better in this course.
^2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.
^3 A student majoring in Peace, Justice, and Conflict Studies (PAX) is required to complete the Capstone offered by the PAX Program. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. A PAX major in the University Honors Program shall take the University Honors Capstone and the PAX Capstone.

Learning Domains
Arts and Literature (AL) (p. 1184)
• 3 Courses Required

Historical Inquiry (HI) (p. 1188)
• 2 Courses Required
Philosophical Inquiry (PI) (p. 1190)
  • 2 Courses Required

Religious Dimensions (RD) (p. 1191)
  • 2 Courses Required

Scientific Inquiry (SI) (p. 1193)
  • 3 Courses Required
    [1 SWK Course, 1 Lab Course, and 1 Additional Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)
  • 1 Courses Required

Notes
Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements
The Peace, Justice and Conflict Studies (PJC) major requires 48 credit hours, as follows:

<table>
<thead>
<tr>

</thead>
<tbody>
<tr>
<td>PAX 350</td>
<td>CAPSTONE IN PEACE, JUSTICE &amp; CONFLICT STUDIES (taken for Liberal Studies Capstone requirement)</td>
<td>4</td>
</tr>
</tbody>
</table>

1 PAX 250 (2 courses at 2 credit hours each), PAX 251 (one course for 4 credit hours).

The four-course sequence PAX 210-PAX 212-PAX 214-PAX 218 forms the foundation of the program and should be completed in the first or second year of study. Courses do not need to be done in sequence. An internship, PAX 392, offered once a year in the fall, should be completed prior to taking PAX 350. If possible, students should take the internship prior to senior year. Seniors should plan to take the capstone, PAX 350, during the winter semester of their senior year. Students will complete either two sections of PAX 250 (for 2 credit hours each) or PAX 251 (for 4 credit hours), ideally prior to senior year.

300-Level Seminars
The courses that can be taken as 300-level seminars are approved by the PJC Program Advisory Board. These do not include all 300-level PAX courses, many of which are crosslisted from other departments. For any questions, check with the Program Director, since new ones are approved now and then.

Senior Capstone
PAX 350 is usually offered in the winter quarter. Students doing study abroad during winter quarter of their senior year must do the capstone in their junior year. This is required even for a double-major who must do a capstone in the other major.

Program Approved Electives
Courses cross-listed with any course listed below are accepted as PJC/PAX electives. Check with the PJC Director for topics courses approved as PJC/PAX electives each quarter or to approve a course not on this list. PJC electives also include any courses approved for the PJC minor requirement of a community-based service learning course: See list under the PJC Minor.

# Peace, Justice and Conflict Studies (BA), Combined Bachelor’s + Master’s Degree

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still completing their undergraduate program. These three graduate level courses will count toward both the undergraduate and graduate degree programs. Each combined degree program has its own application process, which is usually completed during junior year. The graduate courses, taken during senior year, are paid for at the undergraduate tuition rate.

Peace, Justice & Conflict Studies (BA) suggests several options for combined programs. Consult the degree requirements as listed in the catalog under graduate degree programs/combined degrees. Some graduate programs are combinable with any DePaul bachelor’s degree; others are limited. The programs that might be of interest to PJC majors would include the following:

- Peace, Justice, & Conflict Studies (BA) + Women’s and Gender Studies (MA) ([https://las.depaul.edu/academics/womens-and-gender-studies/Pages/combined-degree.aspx](https://las.depaul.edu/academics/womens-and-gender-studies/Pages/combined-degree.aspx))
- Peace, Justice & Conflict Studies (BA) + Sustainable Urban Development (MA) ([https://las.depaul.edu/academics/sustainable-urban-development/Pages/combined-degree-program.aspx](https://las.depaul.edu/academics/sustainable-urban-development/Pages/combined-degree-program.aspx))
- Peace, Justice & Conflict Studies (BA) + Sustainable Management (MS) (p. 1001)
- Peace, Justice, & Conflict Studies (BA) + International Public Service (MS) (p. 551)
- Peace, Justice, & Conflict Studies (BA) + Nonprofit Leadership (MNM) ([https://las.depaul.edu/academics/sustainable-urban-development/Pages/combined-degree-program.aspx](https://las.depaul.edu/academics/sustainable-urban-development/Pages/combined-degree-program.aspx))

Peace, Justice & Conflict Studies students also have the opportunity to pursue many other combined programs in any college when these are open to all DePaul undergraduate majors, such as the combined programs offered by the College of Communication ([https://communication.depaul.edu/academics/combined-ba-ma-programs/Pages/default.aspx](https://communication.depaul.edu/academics/combined-ba-ma-programs/Pages/default.aspx)) (e.g., Journalism; Communication and Media), the College of Business ([https://business.depaul.edu/academics/combined-degrees/Pages/default.aspx](https://business.depaul.edu/academics/combined-degrees/Pages/default.aspx)), and other College of Liberal Arts and Social Sciences ([https://las.depaul.edu/academics/Pages/combined-degree-programs.aspx](https://las.depaul.edu/academics/Pages/combined-degree-programs.aspx)) graduate programs.

## Peace, Justice and Conflict Studies 3+3 (BA+JD)

In the 3 + 3 (BA+JD) Program, high-achieving first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their
final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

**Key Program Features**

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of tuition, reducing their overall debt load.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

**Program Requirements**

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students must achieve a cumulative GPA of 3.35 by the end of their second year of study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than the end of the Autumn Quarter of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

**Peace, Justice and Conflict Studies (Minor)**

The Peace, Justice and Conflict Studies minor is designed to help students engage in critical examination of the origins and root causes of violence, social injustice and conflict; and to foster dialogue about the efficacy of nonviolent approaches to social change and peace-building. Students may develop a specific concentration of study within the minor curriculum.

**Course Requirements**

**Distribution**

There is a total of 24 credit hours required for the minor.

Students majoring in Peace, Justice and Conflict Studies (BA) are restricted from earning this minor.

Performance Program Certificate

The purpose of the program is to provide an intensive post-master’s degree performance experience for a small number of highly accomplished performers. Entry into the program is based on evidence of ability to be successful in post-graduate level performance study. Other criteria include, but are not limited to:

- Completion of a Master of Music in performance degree or equivalent from an accredited institution.
- Three letters of recommendation.
- An entrance audition which demonstrates performance ability at the post-master’s level.
- Voice applicants must demonstrate competence in Italian, French and German diction by audition and written IPA exam.

Please check the School of Music Admission website for full requirements.

There are two primary components to the certificate in performance program. First, applied music (private instruction), and second, related studies. Related study will often consist of participation in the appropriate ensembles and additional academic classes in the School of Music. The course requirements for the certificate in performance appear below:

- Applied Music (18 credits)
- Related Study (12 credits)
- Ensembles (6 credits)
- Recital (0 credits)

Gainful Employment Disclosure

This graduate certificate program is approved as a Gainful Employment Program through the US Department of Education and is, therefore, eligible for Federal Student Aid.

Performance Studies (Minor)

The Performance Studies minor provides an overview of the historical importance of performance for social, cultural and personal expression.

Students will gain a critical understanding of performance across a range of disciplines.

Course Requirements

The Performance Studies Minor requires students to complete six courses (24 credits).

Performing Arts Management (BM)

The Performing Arts Management Programs are comprehensive interdisciplinary programs designed to prepare students for careers in the multi-faceted and extensive industry embracing administration of not-for-profit arts organizations (symphony orchestra, opera, chamber music, dance, theatre), commercial music management (recording industry, artist representation, music publishing and distribution, product merchandising, concert promotion), music licensing, music entrepreneurship, music festival management, and related areas of cultural management and policy.

The programs have been designed to provide students a broad understanding of the performing arts management industry; insight into the theories and principles associated with arts management; and a proficiency in the practical application of necessary business skills.

There are two distinct Performing Arts Management degrees, suited for students with specific backgrounds and career objectives.

- Bachelor of Music (BM) in Performing Arts Management, Minor in Business Administration
- Bachelor of Science (BS) in Performing Arts Management, Minor in Business Administration

Bachelor of Music (BM) in Performing Arts Management, Minor in Business Administration

In addition to the fundamental music curriculum in musicianship, applied music, and ensemble requirements, those in the BM Performing Arts Management program undertake a core sequence of courses focused on the Performing Arts Management industry, as well as courses in Music Business, Music Publishing, Music Festival Management, Legal Issues in Music, and others. Additionally, in cooperation with the Driehaus School of Business, students receive a minor in business administration taking courses in Finance, Marketing, Management, Accounting,
Performing Arts Management (BM)

Statistics, and Economics, among others. A significant element to the Performing Arts Management Program is an experiential component in the form of Internships at any of the numerous approved companies or organizations. Internships have been completed at such places as Lyric Opera, Chicago Symphony Orchestra, Grant Park Music Festival, Ravinia Festival, Aware Records, Metro Club, Old Town School of Folk Music, ASCAP, Steppenwolf Theatre, and many other arts organizations, music labels, venues and radio stations. This program is suited for students interested in developing their music ability at the highest level and gaining the insight and skills necessary for a career in the music industry.

Learning Outcomes

Core Outcomes

Students will be able to:

- Perform solo and ensemble works with appropriate techniques and musicality.
- Identify and analyze the elements of music in a given piece, including an understanding of its compositional processes, aesthetic properties, and artistic, social, and historical contexts for works in the Western music tradition, Contemporary periods, Jazz, and World Music Cultures.
- Demonstrate an appropriate level of aural, keyboard, and conducting skills.

Program Specific Outcomes

Students will be able to:

- Demonstrate an understanding of the theories and principles associated with the performing arts industry such as issues facing arts managers in the areas of leadership, marketing, development, community engagement, arts advocacy and other skills particular to the area of specialization.
- Understand current music business issues and their impact on artist representation, digital music, distribution, emerging technologies, and marketing.
- Demonstrate proficiency in business skills related to accounting, finance, marketing, management, economics, and ethics.

Music Core Requirements

Course Requirements

All students in the School of Music are required to enroll in the following music courses:

<table>

</tr>
</tbody>
</table>

Students in the BM-Jazz Studies program are not required to take MUS 211, MUS 221, or MUS 231.

Students in the BM-Jazz Studies program are not required to take MUS 213, MUS 223, or MUS 233.

Applied Music

Students may enroll in a maximum of 3 credits of applied study per quarter, with a maximum of 36 credits total. The requirements for applied study vary by degree program:

- BM in performance, 36 credits
- BM in jazz studies, 32 credits
- BM in composition, 12 credits
- BM in music education, 18 credits
- BM in performing arts management, 18 credits
- BA in music, 12 credits
- BS in sound recording technology, performance track, 9 credits
The BS in Performing Arts Management degree does not require applied lessons, and the BS in Sound Recording Technology, non-performance track, degree does not require applied lessons.

Except performance majors, students may enroll in additional applied credits, which will count towards music electives.

**Modern Language Option**
If a music student wishes to study a modern language for a three-course sequence (12 credits), one quarter of language study (4 credits) may be used to replace a course requirement in Arts and Literature, Philosophical Inquiry, or Religious Dimensions. The remaining two quarters of language (8 credits) will be applied towards free electives. *This option does not apply to students in the BM-Performance, vocal concentration.*

**Liberal Studies Requirements**
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

### Course Title Hours

**First Year Program**

**Senior Year**

**Capstone**
- Not Required

1. Students must earn a C- or better in this course.
2. Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.

**Learning Domains**

**Arts and Literature (AL) (p. 1184)**
- 2 Courses Required

**Historical Inquiry (HI) (p. 1188)**
- 2 Courses Required

**Philosophical Inquiry (PI) (p. 1190)**
- 1 Course Required

**Religious Dimensions (RD) (p. 1191)**
- 1 Course Required

**Scientific Inquiry (SI) (p. 1193)**
- 1 SWK Course or Lab Course Required

**Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)**
- 1 Course Required

**Notes**
Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Major Requirements**

**Program Checkpoints**
Students are admitted to a specialization at their initial enrollment. Students are then allowed to continue in specialization courses on the basis of program checkpoints. The program checkpoints differ for each specialization, and students should contact the department chairs or program directors/coordinates for more information. Students are not permitted to continue to enroll in specialization classes if they have not met the requirements of their program checkpoints.

Performing Arts Management (BS)

The Performing Arts Management Programs are comprehensive interdisciplinary programs designed to prepare students for careers in the multi-faceted and extensive industry embracing administration of not-for-profit arts organizations (symphony orchestra, opera, chamber music, dance, theatre), commercial music management (recording industry, artist representation, music publishing and distribution, product merchandising, concert promotion), music licensing, music entrepreneurship, music festival management, and related areas of cultural management and policy.

The programs have been designed to provide students a broad understanding of the performing arts management industry; insight into the theories and principles associated with arts management; and a proficiency in the practical application of necessary business skills.

There are two distinct Performing Arts Management degrees, suited for students with specific backgrounds and career objectives.

- Bachelor of Music (BM) in Performing Arts Management, Minor in Business Administration
- Bachelor of Science (BS) in Performing Arts Management, Minor in Business Administration

Bachelor of Science (BS) in Performing Arts Management, Minor in Business Administration

Students in the BS Performing Arts Management Program experience a significant focus on practice within the field. (This curriculum does not include applied lessons or participation in ensembles associated with Bachelor of Music programs.) Students enroll in a multi-term Performing Arts Management Practicum, where students obtain a supervised work experience within various departments of the new state-of-the-art Holtschneider Performance Center. In addition to the Practicum, those in the BS Performing Arts Management program undertake a core sequence of courses focused on the Performing Arts Management industry, as well as courses in Music Business, Music Publishing, Music Festival Management, Legal Issues in Music, and others. Additionally, in cooperation with the Driehaus School of Business, students receive a minor in business administration taking courses in Finance, Marketing, Management, Accounting, Statistics, and Economics, among others. An important component to the Performing Arts Management Program is an experiential component outside of the School of Music in the form of a Internships at any of the numerous approved companies or organizations. Internships have been completed at such places as Lyric Opera, Chicago Symphony Orchestra, Grant Park Music Festival, Ravinia Festival, Aware Records, Metro Club, Old Town School of Folk Music, ASCAP, Steppenwolf Theatre, and many other arts organizations, music labels, venues and radio stations. This program is suited for students interested in acquiring the insight and skills necessary for a career in the music industry within the environment of an active and vibrant music performance center, without the performance component associated with traditional music degree programs.

Notes

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Program Checkpoints

Students are admitted to a specialization at their initial enrollment. Students are then allowed to continue in specialization courses on the basis of program checkpoints. The program checkpoints differ for each specialization, and students should contact the department chairs or program directors/coordinators for more information. Students are not permitted to continue to enroll in specialization classes if they have not met the requirements of their program checkpoints.

**Philosophy (BA)**

The Department of Philosophy serves the needs of the student who seeks an understanding of philosophical issues for personal enrichment, the student who desires a more fundamental appreciation of philosophy in support of law, medicine, business, and various academic disciplines, and the student who wishes to continue the study of philosophy at the graduate level.

Through its courses and programs, the department acquaints students with various philosophical systems and with basic problems posed by diverse thinkers. Courses have been designed to highlight both the humanistic and technical features of philosophy.

The department also recognizes the important need for skills and training. Its courses in logic and analysis have been designed to help students become more perceptive in their experiences and more critical in their thinking.

Further, the department is aware that, in our age of rapid change, society often tends to neglect the meaning and worth of the person. Courses are therefore offered that investigate and emphasize the dignity of the person. By helping students understand the nature and grounds of ethical judgments, these courses aim to promote an appreciation and ordering of human values.

The department has designed all of its course offerings with the aim of both ensuring that our Liberal Studies courses remain responsive to the needs of the student who does not plan to specialize in philosophy and offering the student who chooses to major or minor in philosophy a rich and diverse curriculum.

The department is particularly proud of its Philosophy Circle, an undergraduate philosophy club which provides a forum for the exchange of ideas between faculty and students.

**Learning Outcomes**

Students will be able to:

- Critically discuss philosophical issues (via well-grounded arguments) and questions from the perspectives of multiple methods, traditions, and historical contexts.
- Evaluate philosophical issues, questions, and problems critically and analytically.
- Write an articulate and well-ordered essay presenting philosophical positions in a way that addresses philosophical issues and questions.
- Formulate and evaluate their own understanding of a diverse range of philosophical problems, in both writing and discussion.
- Integrate a critical understanding of central philosophical ideas from the history of philosophy, broadly construed to include more than the Western tradition.

**College Core Requirements**

**Study in the Major Field**

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

**Declaration of Major, Minor and Concentration**

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

**The Modern Language Requirement (MLR)**

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in

---

**Total hours required**

192

---

**Modern Language Requirement (MLR)**

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in
high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (see below).

**The Modern Language Option (MLO)**
The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace the Scientific Inquiry—Lab or Scientific Inquiry—Science as a Way of Knowing requirement.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

**NOTE:** Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

**External Credit and Residency**
A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

**Liberal Studies Requirements**
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

**Learning Domains**

- Arts and Literature (AL) (p. 1184)
- Historical Inquiry (HI) (p. 1188)
- Philosophical Inquiry (PI) (p. 1190)
- Religious Dimensions (RD) (p. 1191)
- Scientific Inquiry (SI) (p. 1193)
- Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)

**Notes**
Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by
the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Additional Considerations**

Each student is expected to consult with their departmental advisor on course selection. With departmental permission, a senior may take one course selected from the graduate offerings in philosophy. Certain courses in other departments may be acceptable equivalents for philosophy credit. Seniors who have a superior record in philosophy may petition to do a Senior Thesis. The regular program of courses is supplemented by philosophical symposia, departmental colloquia, and mini-courses featuring prominent philosophers.

**Philosophy 3+3 (BA+JD)**

In the 3 + 3 (BA+JD) Program, high-achieving first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.
Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of tuition, reducing their overall debt load.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students must achieve a cumulative GPA of 3.35 by the end of their second year of study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than the end of the Autumn Quarter of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

Philosophy (MA/PhD)

The graduate program in Philosophy offers students the opportunity to study the history of philosophy and contemporary philosophy and to work with some of the leading scholars in:

- Contemporary Continental Thought
- German Idealism
- Social and Political Theory
- History of Philosophy and Ethics
- Feminist Philosophy

- Psychoanalytic Thought
- Latin American Philosophy

The program provides students with a rigorous course of graduate seminars in these and other areas of philosophy, as well as regular faculty consultation and guidance at every stage of the program.

The department offers the PhD in philosophy. Though students may enter the program with a BA or an MA, they all follow the same MA/PhD path.

Program Structure

Most graduate courses are taught in a series of streams organized each year under unifying titles, such as German Idealism, Ethics, Society and Politics, or Contemporary French Philosophy. These are all research courses, with no distinction being made between MA and PhD course levels, and a student does not technically have to follow the stream from beginning to end.

In their first two years in the program, students serve as Teaching Assistants. In their third through sixth year in the program, students serve as Teaching Fellows. In this role, students are expected to teach up to a maximum of four courses per academic year.

After the first year of course work is complete, students are allowed to enroll for up to three independent studies of any kind toward their degree. These courses can be any combination of language courses, independent studies in the department or in other departments at DePaul, or courses in other doctoral programs at other local universities.

Program Length

Students take a total of 28 courses (or 112 credit hours), usually over the course of four years, whether they are entering with a BA or an MA. They then complete the degree by writing and defending a dissertation, normally in their fourth through sixth years in the program.

Program Highlights

The department offers courses, seminars, mini-courses, directed research, and colloquia to stimulate students’ investigation of various philosophies and philosophical problems.

Each student is required to pass two competency exams in languages pertinent to their research. In support of this requirement, the department holds informal reading groups (in French, German, Greek, and Latin) that meet regularly and emphasize reading philosophical texts in their original languages. In addition, in the spring of the second year, every student is permitted to travel abroad in order to engage in serious and immersed language study in another country and develop academic connections and, oftentimes, contact a faculty host for an eventual dissertation research and writing fellowship, such as the Chateaubriand, DAAD, or Fulbright. Finally, we also sponsor an exclusive exchange program with the Ecole Normale Superieure in Paris every year, where we send a second-year student from our program to study there, while we host an ENS student here in Chicago.

Because the majority of our graduates will go on to jobs in academia, we offer a carefully designed teaching practicum to support our students as they transition from serving as a Teaching Assistant, in their first two years in the program, to being a Teaching Fellow, who designs and offers their own undergraduate classes, in their third through sixth years.

Finally, there is a student-organized forum, the Frings Lecture Series, in which students present papers and discuss their work with their fellow
graduate students and the graduate students also organize and host an annual national conference for graduate students each year.

**Program Participants**
The program is designed primarily for:

- Students on their way to careers in academia

**Certificate Options**
The Philosophy PhD may also be supplemented with a number of graduate certificates:

- Bioethics
- Business Ethics
- Women’s and Gender Studies
- Teaching and Learning Certificate

**Program Requirements**

**Learning Outcomes**
Students will be able to:

- Critically discuss philosophical issues (via well-grounded arguments) and questions from the perspectives of multiple methods, traditions, and historical contexts.
- Evaluate philosophical issues, questions, and problems critically and analytically.
- Write an articulate and well-ordered essay presenting philosophical positions in a way that addresses philosophical issues and questions.
- Formulate and evaluate their own understanding of a diverse range of philosophical problems, in both writing and discussion.
- Integrate a critical understanding of central philosophical ideas from the history of philosophy, broadly construed to include more than the Western tradition.
- Read and integrate into their research relevant primary and secondary texts from the history of philosophy in their original language.
- Produce a substantial piece of research (thesis or dissertation) that makes an original contribution to the field of philosophy and/or exhibits a comprehensive grasp of the relevant scholarship on a given question, text, or figure.

**Degree Requirements**
A minimum of 112 quarter hours of graduate level course work (28 courses) is required for the PhD. This includes 104 quarter hours of course work (26 courses), 4 quarter hours of PHL 697 (Graduate Teaching Practicum), and 4 quarter hours of PHL 699 (Dissertation Research).

Of the 112 quarter hours (28 courses) required for the PhD, 32 quarter hours (8 courses) must be taken in accordance with the following distribution requirements:

- Four History of Western Philosophy Courses
- Two in Ancient or Medieval: 8 quarter hours
- Two in Modern or Nineteenth Century: 8 quarter hours

**Course Distribution List**

on probation or, where the circumstances in the judgment of the Graduate Students deemed not to be making satisfactory progress may be placed.

First, the Graduate Affairs Committee conducts annual formal reviews of each student. As part of the review process, students are required to submit a self-evaluation of their progress in the program, teaching evaluations (when serving as a Teaching Fellow) and, until all their course work is completed (typically, through their fourth year in the program), students are also required to submit two file papers for review. These papers are read by a second member of the faculty who assesses whether the papers meet relevant standards of graduate level work and thus indicate appropriate progress in the program for each student.

As part of the review process, students are required to submit a self-evaluation of their progress in the program, teaching evaluations (when serving as a Teaching Fellow) and, until all their course work is completed (typically, through their fourth year in the program), students are also required to submit two file papers for review. These papers are read by a second member of the faculty who assesses whether the papers meet relevant standards of graduate level work and thus indicate appropriate progress in the program for each student.

Students deemed not to be making satisfactory progress may be placed on probation or, where the circumstances in the judgment of the Graduate Affairs Committee warrant, the student may be required to leave the doctoral program.

Foreign Languages Requirement
The Philosophy Department places a very high priority on working with texts in original languages, rather than translations. For doctoral students, competence in two languages of research is thus required. Typically, these are Greek, Latin, French, or German. Competence in other languages may be used to fulfill the language requirements if it is deemed appropriate to the research undertaken by the student. In the latter case, prior to beginning preparation to pass a language requirement (by either of the two paths outlined below), the student must submit a short paragraph to the Director of Graduate Studies, to be reviewed by the Graduate Affairs Committee, outlining why the language in question will be important to the student’s future research.

Each student must complete the requirement for one language before scheduling a Dissertation Proposal Defense, and they must complete the requirement for a second language before scheduling a Dissertation Defense.

There are two ways in which students can complete the Foreign Languages requirement:

1. Student may pass a departmentally administered Language Competency Exam, which are offered just before the start of every quarter. This usually involves asking the student to translate a selection from a philosophical text in the original language.

2. Students may, alternatively, complete a certain number of classes in the Modern Languages Department, maintaining a B+ average each quarter. For ancient languages, students must take through year two. For modern languages, students must take through year two.

Dissertation
Students must form a dissertation committee and submit and defend a dissertation proposal before that committee. Each student must then submit a dissertation and successfully defend it before their dissertation committee. The dissertation is a thesis, approximately 200-275 pages (60,000-85,500 words) in length, including scholarly apparatus. The precise topic, structure, and length of the dissertation is to be determined in consultation with the dissertation Director and the other members of the dissertation committee.

Optional Certificates
Graduate Certificate in Bioethics
The Graduate Certificate in Bioethics is an option for doctoral candidates in Philosophy who want (a) to cultivate their ability to engage in critical analysis of bioethical issues, and (b) to train to teach bioethics, biomedical ethics, or medical ethics to a variety of different kinds of students.

The Certificate requirements are as follows:

Additional Requirements
Annual Reviews
The Graduate Affairs Committee conducts annual formal reviews of each student’s progress toward the doctoral degree. The purpose of the review session is to discuss the student’s experience in the program thus far, address any questions or concerns that they might have, and assess how well they are meeting the expectations relevant to their year in the program.

As part of the review process, students are required to submit a self-evaluation of their progress in the program, teaching evaluations (when serving as a Teaching Fellow) and, until all their course work is completed (typically, through their fourth year in the program), students are also required to submit two file papers for review. These papers are read by a second member of the faculty who assesses whether the papers meet relevant standards of graduate level work and thus indicate appropriate progress in the program for each student.

Students deemed not to be making satisfactory progress may be placed on probation or, where the circumstances in the judgment of the Graduate Affairs Committee warrant, the student may be required to leave the doctoral program.

**Training/Teaching Requirements**

1. Students must participate in the Biomedical Ethics Training Program or serve as a Teaching Assistant for PHL 229 BIOMEDICAL ETHICS with a tenured or tenure-line faculty member.

2. Upon completion of the training program or assistantship, students must teach at least two sections of Biomedical Ethics (PHL 229).

Applicants apply for the Certificate by sending a letter of intent to the Director of Graduate Studies. Applicants agree to make the above required courses part of their program of study for the Ph.D and must maintain a B average in all Certificate courses.

**Graduate Certificate in Business Ethics**

The Graduate Certificate in Business Ethics is an option for doctoral students in Philosophy who want to gain a competency in business ethics, qualifying them to teach undergraduate and MBA courses in that subject. This Certificate does not require a dissertation in applied ethics. Rather it is designed to give students, regardless of their area of specialization, a strong background in business ethics so that they will be competent and competitive in the academic market, as well as comfortable teaching business ethics both at DePaul and in their academic careers.

**Certificate in Women's and Gender Studies**

The Women's and Gender Studies Graduate Certificate Program at DePaul University is offered by the Department of Women's and Gender Studies and it is available to students in the doctoral program in the Department of Philosophy.

The Program's requirements are:

- WGS 400 FEMINIST THEORIES
- Three additional graduate-level elective courses approved by Women's and Gender Studies. The student should petition for approval for courses from the WGS Director of Graduate Studies.

It is highly recommended that students take the foundational course, WGS 400, prior to the other three required WGS electives. The elective courses may be taken from the Women's and Gender Studies offerings and/or from courses in other departments and programs in the College of Liberal Arts and Social Sciences that have been approved by the Department of Women's and Gender Studies

**Other Requirements**

- Students will be required to teach two Business Ethics courses (this could be in the Department of Philosophy, the Religious Studies Department or in a Management Department at DePaul or in other area universities.) Given that many PhD students in Philosophy are required to teach, this is not always an additional teaching requirement.
- Attend and participate in at least one professional conference or complete an internship in applied ethics. In terms of Conferences, students will have to present a paper at the annual meeting of the Society for Business Ethics or the annual Vincentian Conference on Business Ethics. (Expenses will be covered by the Institute for Business and Professional Ethics.) A publishable paper would be the optimal goal. In terms of internships, such opportunities will have to be directly related to Business Ethics, Sustainability or Societal Justice. This will be approved by the Certificate Chair in consultation with the Director of Graduate Studies.

Applicants can apply by sending a letter of intent to the Certificate Chair and the Director of Graduate Studies. Applicants must have at least a B average and will agree to make the above required courses as part of their program of study for the PhD.

**Student Handbook**

**Probation, Dismissal, and Readmission**

The Graduate Affairs Committee conducts annual formal reviews of each student's progress toward the doctoral degree. Students deemed not to be making satisfactory progress may be placed on probation or, where the circumstances in the judgment of the Graduate Affairs Committee warrant, the student may be required to leave the doctoral program. In these cases, students may petition the Graduate Affairs Committee for readmission to the program.

**Residency Requirement**

Three consecutive quarters of full-time residence, i.e., registration for eight credit hours each quarter.
**Time Limitations**

Students are expected to defend their dissertation proposals and become ABD by the end of their fourth year, but by no later than the end of their sixth year. Students are expected to submit and successfully defend their dissertations by the end of their sixth year, but by no later than the end of their tenth year after entering the program.

**Philosophy (Minor)**

The minor program is designed to complement the majors of other departments. It is designed also for those who, while not wishing to specialize in philosophy, nonetheless seek to pursue enduring questions, appraise contemporary values, and critically discuss topics of general human concern. (If you wish to use this program as an academic minor, check with your Department for permission and with the Department of Philosophy for sample programs.)

**Course Requirements**

Any six PHL courses, at least two of which must be 300-level courses. Either PHL 100 or HON 105 can count towards the minor but not both of these introductory courses.

With permission a student may take PHL 391, our Capstone Seminar for Philosophy Majors, as part of their minor.

Transfer credit may be recognized. (Please note that PHL 100 or HON 105 or any 200-level PHL course is the prerequisite for all 300-level philosophy courses and for the 200-level History Sequence courses.)

Students majoring in Philosophy (BA) are restricted from earning this minor.

**Photography (Minor)**

The minor in photography is a concentrated program of study that lets students design their approaches to the photographic arts. It takes the processes of optical and mechanical reproduction as its starting points and emphasizes the role(s) of photography historically through culture. Six courses are required for a photography minor.

Students majoring in Art, Media, and Design (BA) or (BFA) or Art (BA) are restricted from earning this minor.

**Physical Education (BSPE)**

The Physical Education program will prepare you to pursue a career in teaching Physical Education in schools for grades pre-K through high school. Graduates earn the Bachelor of Science degree and are prepared for K-12 school licensure process.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses. In addition, the student must spend a minimum of 10 weeks in full-time student teaching during their last quarter in the program.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching;
2. Multiculturalism is infused throughout the curriculum;
3. Field experiences are an integral part of the curriculum;
4. Students are exposed to a variety of educational theories;
5. The program includes a research component as a basis for further professional development.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. In all cases, appropriate field experience plays an integral role.

Students should meet early and regularly with their advisor to design and monitor their program of study.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, Concentration Requirements, and College Core Requirements for full degree requirements.

**Licensure**

Illinois Professional Educator License with endorsement in Physical Education (kindergarten-grade 12), an Illinois State Board of Education (ISBE) approved program.
### Learning Outcomes

Students will be able to:

- Demonstrate an understanding of common and specialized content, and scientific and theoretical foundations for the delivery of an effective Pre K-12 physical education program.
- Use physical literacy to demonstrate skillful performance in physical education content and areas, and health-enhancing levels of fitness.
- Apply content and foundational knowledge to plan and implement developmentally appropriate learning experiences aligned with local, state, and/or SHAPE America National Standards and grade-level outcomes for K-12 Physical Education through an effective use of resources, accommodations and/or modifications, technology, and metacognitive strategies to address the diverse needs of students.
- Engage students in meaningful learning experiences through effective use of pedagogical skills.
  - Use feedback, technology, and instructional and managerial skills to enhance student learning.
- Select and implement appropriate assessments to monitor students’ progress and guide decision making related to instruction and learning.
- Demonstrate behaviors essential to becoming effective professionals.
  - Professional ethics and culturally competent practices.
  - Seek opportunities for continued professional development
  - Demonstrate knowledge of promotion/advocacy strategies for physical education and expanded physical activity opportunities that support the development of physically literate individuals.

### College Core Requirements

#### Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
- Takes initiative
- Is open to new ideas and engagement in learning
- Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
- Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Demonstrates consistent professional behavior across all academic settings
• Maintains appropriate interpersonal and professional boundaries
• Accepts personal responsibility for one's behavior
• Expresses feelings and opinions effectively and appropriately
• Upholds confidentiality

Skill Building Courses
Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement
Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

• completing two years of a language sequence in high school
• completing the last course in the first-year college sequence of any language
• completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements
• Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
• Overall cumulative GPA of 2.50 or better
• Cumulative GPA of 2.75 or better in all education courses
• Meet all other program requirements (e.g., modern language and residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test(s)

Clinical Requirements
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Content areas tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure
Requirements for licensure include completion of full bachelor's degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor's degree. A bachelor's degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorses after applying for the license must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyzes of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Met by successful completion of required field experience hours

Senior Year

Capstone
PE 387 CAPSTONE SEMINAR IN PHYSICAL EDUCATION & EXERCISE SCIENCE 3 2

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab or SWK requirement.
3 This must be taken along with student teaching. Students must earn a C or better in this course.

Learning Domains
Arts and Literature (AL) (p. 1184)
• 3 Courses Required

Historical Inquiry (HI) (p. 1188)
• 2 Courses Required (Note: One must be US History)

Philosophical Inquiry (PI) (p. 1190)
• 2 Courses Required
  • LSE 380
  • 1 Additional Course
  (Note: PHL 100 recommended)

Religious Dimensions (RD) (p. 1191)
• 2 Courses Required

Scientific Inquiry (SI) (p. 1193)
• 2 Courses Required:
  • 1 CHE/ENV/GEO/PHY
  • 1 SWK Course

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)
• 2 Courses Required
  • PSC 120
  • 1 Additional Course

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Major Requirements
Course Requirements

Biology Foundations: 8 quarter hours required
Course Title Quarter Hours
BIO 201 HUMAN ANATOMY 4
BIO 202 HUMAN PHYSIOLOGY 4

Introductory Courses: 8 quarter hours required, grade of C or better required
Course Title Quarter Hours
SCU 207 SOCIAL AND HISTORICAL ISSUES IN EDUCATION 4
SCU 336 ADOLESCENT AND ADULT GROWTH AND DEVELOPMENT 4
or SCU 337 HUMAN GROWTH AND DEVELOPMENT 4

Introductory Activity Core: 6 quarter hours required, grade of C or better required

Open Electives: 18 quarter hours are required

Open elective credit is required to meet the minimum graduation requirement of 192 hours. The following cannot be used to fulfill an open elective: WRD 98, MAT 94, MAT 95.

Student Teaching: 12 quarter hours required, grade of B- or better required

Registration in student teaching requires completion of all requirements and procedures above. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. All students also take PE 387 during the spring of the senior year (listed in the Liberal Studies section).

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Physical Education majors must complete the following tests:

- Physical Education Content Area Test (test #144) – assesses knowledge of health-related physical fitness, movement and skill acquisition, the role of physical education in promoting development, and the physical education program in schools. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Physical Education (Minor)

The Physical Education minor is designed for students interested in adding teaching skills in physical education to their major course of study.
Students will be able to:

- Effectively communicate their understanding of physics concepts to scientists and non-scientists.

### Physics (BS)

The Department of Physics offers courses and concentrations designed to teach students about the fundamental processes that govern our universe. Students interested in majoring in physics can choose from several concentrations.

The **Standard Physics** concentration provides a curriculum that highlights the core areas of theoretical and experimental physics. The **Computational Physics** concentration gives a curriculum that emphasizes the use of computer simulations as a tool to visualize and understand natural phenomena. For students who wish to apply a physics degree to a career outside of physics, the department offers a concentration entitled **Interdisciplinary Physics**. This concentration combines a major in physics with a minor in a second field of the student’s choice with their advisor’s consent.

In each concentration, student participation in faculty research is an important component of the program at all levels. This experience prepares students for independent work in industry or graduate study in physics or in applied sciences such as optics, photonics, scientific computing, engineering, or computer science. Participation in research can be pursued either through independent study during the academic year or full-time during the summer quarter.

For students interested in engineering, the department offers a concentration in **Engineering Physics**. Through a joint program with Illinois Institute of Technology (IIT), students can complete a five-year dual-degree program while remaining full-time DePaul students. This five-year program enables students to earn a BS degree in Physics from DePaul and a BS in Engineering from IIT in Mechanical, Aerospace, Electrical/Computer Engineering. Students interested in obtaining a BS in Physics with the Engineering Physics concentration must be accepted into one of these programs at IIT as part of the DePaul-IIT Joint Engineering Program.

Additionally, students interested in engineering, but are not interested in the joint dual-degree program, will have the scientific basis to complete an engineering program at another institution after the first two years of the physics major curriculum at DePaul.

### Learning Outcomes

Students will be able to:

- Demonstrate critical thinking, quantitative, and mathematical skills required to answer questions about the behavior of the universe.
- Create and interpret multiple representations of physics concepts through the use of mathematics, computational code, computer simulations, as well as written, graphical, and pictorial descriptions.
- Design, execute, and analyze experiments to test physics theories and hypotheses.

---

**Note:** Students in DePaul’s College of Education program in Physical Education cannot select the Physical Education minor.

### College Core Requirements

#### Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (BA) degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- Completing the last course in the fourth-year high school sequence of any language
- Completing the last course in the first-year college sequence of any language
- Completing a college course beyond the first-year level in any language
- Achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- Achieving a satisfactory rating in a proficiency examination accepted by DePaul
- Achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- Achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- Achieving a satisfactory score on the CLEP examination

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

BA students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While Bachelor of Science (BS) students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

### Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor.
in the College or an academic advisor in the Office for Academic Advising Support.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

</table>

1 Students must earn a C- or better in this course.

2 Students with a primary major in Physics are required to complete the Capstone offered by the Physics department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Physics are required to complete the Capstone offered by the Physics department. Physics students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

**Learning Domains**

**Arts and Literature (AL) (p. 1184)**

- 3 Courses Required

**Historical Inquiry (HI) (p. 1188)**

- 2 Courses Required

**Philosophical Inquiry (PI) (p. 1190)**

- 2 Courses Required

**Religious Dimensions (RD) (p. 1191)**

- 2 Courses Required

**Scientific Inquiry (SI) (p. 1193)**

- Not Required

**Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1196)**

- 3 Courses Required

**Notes**

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

### Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

### Engineering Physics Concentration, Physics (BS)

DePaul University offers a joint program with Illinois Institute of Technology (IIT) in physics and engineering. This program allows students to enroll in courses at IIT while remaining full-time DePaul students. Students will receive a BS degree in Physics from DePaul University and a BS degree in Mechanical, Aerospace, Electrical, or Computer Engineering from IIT upon completion of the five year program.1

Students interested in Engineering Physics or the joint program should promptly consult with a Physics Department advisor for information about scheduling, requirements, and admission to the joint program.

1 Courses taken at an external institution such as IIT are excluded from the university’s employee tuition waiver benefit program.

Engineering

- Approved twenty quarter hours at 300/400 level from the Mechanical, Aerospace, Electrical/Computer Engineering program at Illinois Institute of Technology (IIT). Students interested in obtaining a BS in Physics with the Engineering Physics concentration must be accepted into one of these programs at IIT as part of the DePaul-IIT Joint Engineering Program. Note that, in addition to the engineering courses mentioned above, students must take at least four courses at the 200-level and at least 10 additional 300-level and 400-level courses at IIT to earn their engineering degree. (The total number of courses will be determined by IIT). Please contact the Physics Department for details.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Interdisciplinary Physics Concentration, Physics (BS)

Intended for students who seek to apply their scientific training in a career outside of physics, this concentration allows students to combine a core physics curriculum with a minor from another field. Possible minors include Journalism or Technical Writing for students pursuing a career in science writing, Economics for students interested in business, or Biological Sciences for students interested in biophysics.

Course Requirements

Physics

- Six physics courses, at least three at the 300 level, as approved by a departmental advisor.
- Six courses which constitute a minor in a different discipline, as approved by a departmental advisor.
- Courses from physics with mathematics common core may not be counted toward a math minor.

Open Electives

Open elective credit is also required to meet the minimum graduation requirement of 192 hours.

Mathematics Sequence: Select three 300-level sequenced courses as approved by departmental advisor

Computer Science Sequence: Select any one year-long three-course sequence of CSC courses as approved by departmental faculty advisor

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.
Physics (BS) + Secondary Education Physics (MEd)

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The TEACH Program combines a College of Science and Health (CSH) undergraduate Physics major or some other disciplinary major with a graduate level College of Education (COE) Master of Education (MEd) Program. Students graduate with a BS in their CSH disciplinary major and a MEd in Education with a State of Illinois Secondary Physics Certification.

Students may apply to the TEACH Program during the spring of their junior year. They must enroll in the Junior Year Experiential Learning course, TCH 320, and meet other application criteria; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 GPA. During their senior year, students are required to complete a TEACH Program capstone course, TCH 390, and three 400-level courses that count toward both their undergraduate and graduate degrees:

**Junior Year Coursework : 4 undergraduate quarter hours required**

All coursework in the content area must earn a grade of C or better.

- Physics I
- Physics II
- Physics III
- Physics IV

This combined degree program of the College of Science and Health and the College of Education was collaboratively developed, and is governed and taught by faculty from these units.

The Master’s year comprises teacher-preparation coursework that culminates with student teaching during Spring quarter. Upon graduation and the fulfilling of State of Illinois licensure requirements (which may require some additional course work in the student’s major and related fields), students are eligible to be licensed to teach Physics at the 5th-12th grade levels.

A full description of the TEACH Program can be found here. (p. 1028) Students interested in the TEACH Program should consult with the designated TEACH Program advisor in their home department.

Physics (Minor)

The Physics minor curriculum focuses on scientific investigation, laboratory experience and research opportunities to give you hands-on experience in the field of physics.

Physics majors cannot earn a minor in Physics.

Physics (MS)

The Graduate Physics program is intended to serve the needs of students who wish to enhance their preparation for a doctoral degree in physics or applied science, students who wish to obtain a terminal masters degree in order to work in a physics or engineering related industry, and students who wish to enhance their teaching of physics at the secondary level. This combined degree program of the College of Science and Health and the College of Education was collaboratively developed, and is governed and taught by faculty from these units.

The Master’s year comprises teacher-preparation coursework that culminates with student teaching during Spring quarter. Upon graduation and the fulfilling of State of Illinois licensure requirements (which may require some additional course work in the student’s major and related fields), students are eligible to be licensed to teach Physics at the 5th-12th grade levels.

A full description of the TEACH Program can be found here. (p. 1028) Students interested in the TEACH Program should consult with the designated TEACH Program advisor in their home department.
fulfill these purposes, the department offers a degree program: Master of Science in Physics.

The MS in Physics program is built around a core of five graduate courses and a selection of applied courses in the faculty's areas of expertise that are designed to tie into current areas of research and interest within both academia and industry.

In order to maximize the availability of our offerings, graduate courses in our program are taught in the evening.

**Learning Outcomes**

Students will be able to:

- Demonstrate the mathematical, computational, or experimental expertise sufficient to carry out original research in physics.
- Apply general principles, such as conservation of energy and momentum, to complex systems that require the use of more than one branch.

</tr>
</tbody>
</table>

**Six Electives**

- Any physics courses with a number equal to or higher than PHY 410. A second PHY 480 is allowed as one of these six electives.
- Courses at the 300 or 400 level in biology, chemistry, mathematics, physics, computer science or other related fields can be substituted for up to two of these six elective courses with the written approval of the departmental graduate committee. Please contact the Program Director for details.

**Thesis Requirement**

A thesis based on independent research in theoretical or experimental physics is generally required. However, a review thesis reflecting study of a broad subject or development of an interdisciplinary, historical or educational theme is also acceptable with permission from the Graduate Committee.

As a rule, one course credit of 4 quarter-hours in PHY 480 is applicable to the thesis research. An additional PHY 480 course (4 credit hours) may be allowed with the written approval of the student’s faculty advisor. While students are permitted to register for more than two 4-credit sections of PHY 480, in no case will more than two PHY 480 courses (4 credit hours each) be applied toward the Master of Science degree.

Students are advanced to candidacy upon the written approval of their thesis proposal by the graduate committee, subject to the rules and conditions given below. An oral examination on the thesis is required, eligibility and rules are given below.

**Thesis Procedures and Timelines**

1. A committee with the advisor as Chair and two other members of the DePaul Physics department must be constituted three months prior to the MS Thesis Defense. Committee members (from outside the Physics Department, or outside DePaul) are allowed by permission of the Graduate Director, but cannot function as Committee Chairs.

2. A written report on the thesis project must be furnished to the Committee three months prior to the planned MS Thesis Defense. The written report should include: Title of the thesis project, abstract of the research, a 1-page update on what work has been accomplished so far, and what work remains to be done. The committee members reserve the right to meet with the student and seek clarification and information orally at this time.

3. Following submission of the written report described in (2) above, the committee members will sign the College of Science and Health’s (CSH) Approval of Proposal for Final Project form found on the website for the CSH’s Office of Advising and Student Services. A signature on this form does not constitute permission to defend in another three months, nor does it make any judgment in this regard. Instead, the signatures attest to the fact that the committee has been constituted, and that the committee members have received a written report on the thesis project described in (2) above from the student.

4. The signed CSH Approval of Proposal for Final Project form found on the website for the CSH’s Office of Advising and Student Services will then be submitted to the Program Director who will, upon receipt of this form, make known to the thesis advisor and student the earliest date on which they are eligible to schedule a thesis defense if (5) and (6) below are satisfactorily fulfilled.

5. A written version of the thesis that is in reasonably final form must be furnished to the three members of the committee by the student two weeks prior to the planned MS Thesis Defense. No exceptions will be granted on this rule.

6. Within a week of having received the thesis mentioned in (5) above, that is, one week prior to the planned thesis defense, all committee members must sign the Physics Department Approval of Scheduling of Thesis Defense form giving the student permission to proceed with the thesis defense. A signature on this form does not reflect a judgment on, or acceptance of, the thesis; it constitutes only an approval for the date of the defense. If the committee members feel that the student is not ready to defend, based on their reading of the thesis (which case may be either because the thesis is not written in a satisfactory manner, or because they feel more work needs to be done on the project), they can choose to withhold their signature; the committee member(s) withholding his/her signature(s) must provide a written explanation of why they did not sign, and what changes and corrections, if any, would be required to obtain their signature. This will automatically mean that the student cannot defend during the next week. In such a case, the cycle will start from...
(5) again, whenever the advisor and student feel they have addressed satisfactorily the concerns of their committee member(s).

7. The signed Physic Department Approval of Scheduling of Thesis Defense form will then be submitted to the Program Director who will, upon receipt of this form, make known to the thesis advisor and student the earliest date on which they are eligible to schedule a thesis defense.

8. Following the thesis defense, the committee members will render a decision as to the outcome of the defense in one of the two following ways:
   a. If they believe the student has satisfactorily defended his/her thesis and the thesis requires no modifications or only minor modifications, meaning that they wish to pass the student immediately, they will sign the CSH’s Final Requirements Report form found on the website for the CSH’s Office of Advising and Student Services.
   b. In all other cases, they will sign the Physics Department Interim Thesis Defense Report form. Further action will be determined by the actions recommended in this form.

9. The signed form (CSH Final Requirements Report or Physics Department Interim Thesis Defense Report) should be forwarded to the Program Director, the former for forwarding to the CSH’s Office of Advising and Student Services, the latter for student file purposes.

10. If, at any time during this period, the student and/or advisor reconstitute a committee by changing the committee members, the process will restart from (1) above. The only exception to this rule will be if a committee member (but not the Committee Chair) takes an emergency leave of absence or is otherwise unable to discharge their duties, in which case the process may be allowed to restart from (5) above with permission from the Graduate Committee.

Program Graduate Academic Student Handbook

Academic Probation

A graduate student in the Physics department is subject to academic probation as soon as his/her cumulative graduate GPA falls below 2.75.

Academic Dismissal

If a graduate student fails to raise his/her cumulative GPA to at least 2.75 after four courses are taken while on academic probation or for more than two consecutive quarters while completing coursework on academic probation, the student may be academically dismissed for poor scholarship, and prohibited from registering for additional course work. A graduate student who is not making satisfactory progress toward the degree may be academically dismissed upon the recommendation of the Graduate Committee of the Physics Department for failing grades (below C-) in two or more graduate courses, or any other situation that has been deemed by a majority of the Graduate Committee to constitute an instance of not making satisfactory progress toward the degree.

Readmission

A student who has been dismissed may, after a period of time, petition for reinstatement. The petition, addressed to the Dean of the College of Science and Health, would provide information that would demonstrate a change in the student's circumstances to an extent that would support successful completion of the student’s degree program. The Dean’s decision, based upon the merits of the petition and the recommendation of the Graduate Committee of the Physics department, may, if favorable, stipulate conditions of reinstatement. The Dean has the discretion to reject the recommendation for reinstatement.

Transfer Credit

A maximum of three courses (12 quarter credit hours or the semester equivalent) may be transferred from another university or DePaul program, subject to the following: The determination of whether or not a particular course is deemed suitable for transfer will be made by the Program Director who may, at his/her discretion, consult the Graduate Committee for assistance in making this decision. Upon successful support, the request would be made to the Associate Dean for Graduate Studies for approval. Transfer credit can only be awarded for graduate level coursework which has not counted toward the completion of a degree at DePaul or any other institution.

Undergraduate Courses

Students who are deemed to have inadequate undergraduate preparation in physics may be required to take undergraduate courses in Physics. Such courses will be specified by the Program Director in consultation with the Graduate Committee. A maximum of two such courses as eight credit hours may be counted toward the graduate degree, but undergraduate courses cannot substitute for any required (core) courses in the graduate program.

Graduation Requirements

Requirements include, but are not limited to, earning a minimum cumulative GPA of 2.75, completing a minimum of 48 quarter hours as twelve graduate courses applicable toward the graduate physics program, and completing and defending a thesis.

Thesis

A thesis based on independent research in theoretical or experimental physics is generally required. An oral examination on the thesis is also required. The thesis and the defense will be evaluated by a committee consisting of three faculty members from the Physics department at DePaul, who may judge the thesis and/or oral examination to be satisfactory or may require the student to submit changes to the thesis, and go through more cycles of oral examination. Committee members from outside the Physics department (whether DePaul faculty, or external to DePaul) are allowed only by consent of the Program Director.

Thesis Proposal

A proposal (minimum one page) stating the broad outlines of the project, and signed by both the thesis advisor (deemed Thesis Committee Chair) and the student must be completed per the schedule below. A copy of this signed proposal, together with a copy of the Approval of Proposal for Final Project must be kept on file in the Physics department for reference. The thesis advisor may, at his/her discretion, prepare a longer, more comprehensive proposal.

<table>

</tr>
</tbody>
</table>

The thesis proposal is a document that records the broad outline of the project only. The determination of when a student has completed the
necessary work to be able to finish and defend the thesis will rest solely with the thesis advisor, and the thesis proposal cannot be used as a basis for determining the same. Changes to the thesis proposal may be carried out at the discretion of the thesis advisor. Changes proposed by the student will only be allowed if the thesis advisor agrees to make those changes.

**Graduation with Distinction**
