Description: This course provides specific and constructive instruction on how students can improve their diction and voice quality. It is especially aimed at students who wish to pursue careers involving some form of voice work - for example, theatre and broadcast journalism students. The course will focus on improving vocal clarity and sound, through group meetings and individual coaching. This course is only open to Journalism majors who have completed the prerequisite of JOUR 330 or permission of the instructor.

ACT 301 | MODERN DANCE | 4 quarter hours
(Undergraduate)
This artistic dance course will focus on technique, individual and group improvisation, choreography, the art of making dances and how to view dance in performance. Designed for all levels of experience, the class will give attention to body awareness and alignment, physical strength and flexibility, expressive and creative movement in the modern dance style to a variety of musical accompaniment.

ACT 302 | MODERN DANCE II | 4 quarter hours
(Undergraduate)
This course is a continuation from Modern Dance for Non-Majors. The course focuses on technique, individual and group improvisation, partnering, principles of choreography, the art of making dances, and the skill of motivating feedback. Learning how to view and critique dance in performance, students will attend a selected dance concert to review. Class will include more advanced experiences with body awareness and alignment, physical strength and flexibility, expressive and original movement in the modern dance style to live percussion accompaniment. Students with previous training who haven't taken PRF 301/ Modern Dance I may contact the instructor for permission to enroll in Modern Dance II.

ACT 380 | ADVANCED ACTING AND PERFORMANCE | 4 quarter hours
(Undergraduate)
This course is a continuation of PRF 290 and will allow students who have completed the introductory course further exploration in performance by applying basic acting skills to the presentation of short plays and scenes from modern dramatic literature. PRF 290 is a prerequisite for this class.

ACT 500 | VOICE AND DICTION: FOR BROADCAST AND COMMUNICATION | 4 quarter hours
(Graduate)
This course provides specific and constructive instruction on how students can improve their diction and voice quality. It is especially aimed at students who wish to pursue careers involving some form of voice work - for example, theatre and broadcast journalism students. The course will focus on improving vocal clarity and sound, through group meetings and individual coaching. This course is only open to Journalism majors who have completed the prerequisite of JOUR 330.

Arts and Ideas (AI)

AI 107 | BUDDHIST MINDFULNESS MEDITATION | 2 quarter hours
(Undergraduate)
This 5 session (2 credit hour) course introduces theories and practices of mindfulness meditation from Buddhist traditions. It explores how mindfulness meditation can enhance collaboration learning, address the fundamental ethical challenges of contemporary life, and relate to work experience. Class sessions will involve practice in mindfulness meditation. Students will be expected to maintain and reflect on a daily mindfulness meditation practice for the duration of the course. The assessment of learning will be based on class participation and weekly reflection papers.
AI 108 | INTERNATIONAL RELATIONS: WEAPONS, WARS AND A WORLD IN TURMOIL | 2-6 quarter hours  
(Undergraduate)  
Today, world politics is making an unpredictable turn and undergoing an historical transition. International relations in the 21st century are more complex and facing more pressing global challenges than the previous century. While the Western nations have enjoyed unparalleled prosperity in recent years, developing nations, mired in debt, burdened in poverty, riddled with diseases ranging from malaria to AIDS, plagued by wars and genocide, are struggling to overcome crisis. This course will examine the role of nation-states, international organizations like the United Nations, international law, international crimes court, treaties, and root causes and functions of war and peace in the making of foreign policies that have shaped and reshaped the relationships among nations. We will also focus on ethics in the context of a number of issues and practices in international relations ranging from global inequality, the promotion of human rights, foreign aid, immigration/forced deportation, humanitarian intervention, to terrorism, genocide, war crimes, and the use of torture.  
Bridge Course. Can be taken for up to 3 competences.(2-6 quarter hours)

AI 115 | THE CULTURE OF CHRISTMAS | 2 quarter hours  
(Undergraduate)  
This course will use examples of contemporary writing and popular art as our windows into the changes to 19th century Christmas Culture. We look at the influx of immigrant Christmas tradition (both in terms of religious and national origin practices that provided the rich selection of cultural choices. We look at the social setting of the wealthy vs. the poor and the urban dweller vs. the settler to see how these affected Christmas practices. (2 quarter hours)

AI 121 | ART AND MEMORY: SCRAPBOOKING | 2 quarter hours  
(Undergraduate)  
Art is appreciated in various forms. In homes all over America, dining room tables are filled with tiny metal hearts, pictures of adorable toddlers, bags of stickers, and 500 varieties of lettering. Scrapbooking is one of the nation's fastest growing artistic leisure time activities. Millions of dollars are invested in this peculiar pastime that focuses on not only recording family events, but making them pretty as well. Most of us do not consider ourselves artists, but give us a pair of scissors and some fancy paper and we will create an artistic masterpiece! Students in this experience will learn about the history of scrapbooks and will begin the process of decoding the relationships of creativity, art, and craft in this pursuit that is sweeping the nation. Topics will include the definition of scrapbooking and its development in American culture; the ways in which art and craft intersect in the scrapbook; how to get started with a scrapbook; the nature of creativity and its impact in scrapbooking; and the construction of meaningful works of art and craft. This course will meet on campus and online via D2L. (2-4 quarter hours)

AI 143 | ROOTED IN THE CITY: WRITERS & WRITING IN CHICAGO | 2 quarter hours  
(Undergraduate)  
Who are the writers rooted in Chicago? What were and are their concerns, themes, styles? How can they teach us about the city, but also about writing? In this class, students will read, discuss and write about work written by such Chicago writers as Nelson Algren, Gwendolyn Brooks, Stuart Dybek, Sandra Cisneros, Studs Terkel, Marc Smith, and Mike Royko. We will consider the nature of civic engagement and creativity in the literary arts, as well as pay close attention to the formal elements of the poems, short stories, and essays read in this class. We'll also explore how these texts compel us to think about power and its circulation in cultural as well as social contexts. (2-4 quarter hours)

AI 147 | ETHICS: HOW GOOD PEOPLE MAKE TOUGH CHOICES | 2 quarter hours  
(Undergraduate)  
Through life's many lessons, we have learned how to make a decision between what is the right thing to do and what is simply wrong. We can differentiate between good and evil, truth and lies, etc. However, most of our dilemmas do not stem from deciding the correct path, when we are faced with right and wrong decisions. What most often puts us into a quandary is deciding between what is right and what is right. In other words when good people are faced with tough choices, on what basis do they make their decisions? In an era of perceived ethical incertitude and moral skepticism, students will examine how decisions are made based on one of many ethical systems. Students will learn about various ethical systems, and ethicists, such as utilitarianism, deontology, Kant, Aristotle, and Gillian, just to name a few. By the end of the course students should be able to apply their knowledge of moral, ethical and social issues, and have a better understanding of how the tough decisions they make could impact others. (2-4 quarter hours)

AI 152 | EXPLORING THE ART MUSEUM | 2 quarter hours  
(Undergraduate)  
Museums have been a respected and trusted measurement of artistic accomplishment. In this course, the student will examine the museum's role as collector, conservator and educator. The student will investigate the traditional role of the art museum, its collection, practices and programs as well as its efforts to integrate new media into its collection. The course also investigates repatriation, which is the ownership of ancient and cultural heritage and other issues that affect the museum such as censorship and funding. Finally it will look at how we value art as a commercial commodity. (2-4 quarter hours)

AI 153 | THE ART OF SPEECHMAKING | 2 quarter hours  
(Undergraduate)  
In this class, students will use tools based in the imagination, principles of design, and standard dramatic practice to create a unique, personal experience for an audience. Speech, whether we call it dramatic or declamatory, has the potential to move the masses. In this course, you will develop a personal approach and construct effective presentations that harness the power of their voice and body. (2 credit hours)

AI 155 | ANALYZING LEADERSHIP | 2 quarter hours  
(Undergraduate)  
This course provides a framework from which to identify and analyze 'leadership. Leadership occurs in all aspects of life, including: business, politics, sports, society, religion, family, education, and culture. But what is leadership? The Merriam-Webster on-line dictionary defines leadership as "the act or an instance of leading," which provides us with little insight. On further investigation, however, the dictionary defines "lead" as [guide] on a way especially by going in advance. Where there is a leader, then, someone or something must follow. This course first explores the interrelationship between a leader and his or her followers and looks at the effect they have on each other. "Good" leadership traits (i.e., effective) and "bad" leadership traits (i.e., ineffective) are then studied from the perspectives of the leaders, the followers, and outsiders. Finally, this course takes a look at leadership from an international perspective. (2-4 quarter hours)
AI 157 | ENGLAND: CATHEDRALS, A PILGRIMAGE | 2-4 quarter hours
(Undergraduate)
The inspiration and faith which combined to produce the magnificent cathedrals in England are worthy subjects of study for students of art, history, architecture and religion. This Spring Break study abroad course brings students to some of the most important cathedrals in the world to provide opportunities for such important study. On this program, participants will gain valuable understandings of religion, art, and culture as they simultaneously engage with present day British culture and attempt to unravel its rich and complex past. SNL Students must register for three to four competencies between the two quarters. For more information, please visit the study abroad website or contact the instructor. (2-6 quarter hours)

AI 160 | IT’S ONLY ROCK AND ROLL: MAKING MUSIC THE OLD FASHIONED WAY | 2 quarter hours
(Undergraduate)
For many, music is an integral part of everyday life. It is also deeply ingrained in most cultures. Music is used by individuals, businesses and societies to entertain, soothe, excite, and arouse. Music is basically a series or combination of pleasing sounds but how is music made? How do we know what is pleasing and what is not? The answers to these questions and others demonstrate that music is also a field where science and art meet. In this class, we will explore how sound is physically created and how specific sounds have been turned into music over the centuries. Through experimentation, we will examine the physical and mathematical properties of sound and musical instruments. We will also create simple musical instruments and share the experience of creating musical pieces. No musical experience is needed to take this class. (2-4 quarter hours)

AI 164 | CREATIVITY | 2 quarter hours
(Undergraduate)
What is creativity? Where does it come from? Do we all have it? Can we cultivate it? These questions and more will be explored as we define the concept of creativity; identify, analyze, and describe the components of a creative process in varied fields; and, explain how engaging in a creative process affects our perception of the world. (2-4 quarter hours)

AI 167 | DIGITAL PHOTOGRAPHY | 2 quarter hours
(Undergraduate)
Students learn in this course to take artistic digital photos. They will analyze photos they have taken prior to the course and discuss if they fulfill criteria to be seen as art. Several theories of artistic expression will be discussed. Rules of composition, light, exposure, colors, etc. will be reflected upon. In a second step the students will develop the competence to alter their digital photos with a program like "Photoshop Elements". They will be able to change the expression of their photos and combine different shots, creating their personal piece of art. As a final product, students will create a portfolio with about 5 photos including detailed descriptions of their work. (2-4 quarter hours)

AI 168 | ART AND MEMORY SCRAPBOOKING II: THE ART JOURNAL | 2 quarter hours
(Undergraduate)
This is the second course on the art and craft of scrapbooking offered in the SNL curriculum. This course focuses on a specific aspect of the scrapbooker's art, the production of embellished personal diaries. Throughout this experience, students will critically examine the artistic aspects of journaling and collage artwork, investigate movements in the art world, chronicle events in their lives through photographs and narrative, and create works of art and craft that illustrate the experience. This is a hands on art making course. While faculty will discuss various techniques and information about assessing works of art and putting them in the context of art movements, students should expect to be introduced to art making materials and to use them during class time. (2-4 quarter hours)

AI 170 | CREATIVITY AND ENTREPRENEURSHIP | 2 quarter hours
(Undergraduate)
IPads. Smart Phones. The automobile. These inventions, once unknown and now taken for granted, required years of imagining, experimentation and innovative thinking. While we value the end product, we are often unaware of the underlying creative/creating process. This class will explore the role of creativity in the development of entrepreneurial skills and the entrepreneurial personality. Creativity in this course will be seen both as a learned skill and as an exploration of our intuition. This course will explore contemporary approaches to the creative process based on the human capacity to imagine, to explore and, ultimately, to create. These are core skills for anyone pursuing a career as an entrepreneur or simply in search of ways to explore innovation. (2 credit hours)

AI 172 | MAKING POEMS: AN INTRODUCTION TO VERSE | 2 quarter hours
(Undergraduate)
Making poems will be a creative writing offering that teaches metrics and verse forms, poetry the old-fashioned way. Topics will include metric feet, rhyme, lines, and verse forms. For example, students will learn about the iambic foot, write some iambic lines of various lengths, and finally use the iambic line to write a sonnet. Rap poetry with its structured rhythms and elaborate rhyming is another possibility. This "formalist" approach promotes a kind of creativity that is strongly infused with craft and discipline in contrast to the "spoken word" or confessional approaches to making poems. This class involves making audio recordings of your poems; students will be required to purchase a headset/microphone and download and install free software. (2-4 quarter hours)

AI 176 | CREATIVE WRITING | 2 quarter hours
(Undergraduate)
Designed to help you explore the art of writing stories, either stories that are "made-up" or stories based on lived experience. You will be required to complete six fiction-writing exercises, and either one short story, one autobiographical story, or one story based on an oral history collected by the you. In addition, you write a final essay in which you reflect on your learning and experience in the course. (2-4 quarter hours)

AI 181 | CREATING ORIGINAL DIGITAL ART | 2 quarter hours
(Undergraduate)
The course will focus on electronic visual art, and because of the amount of material to be covered, will not include audio or animation art. Student will look at what constitutes "art", then look at how original art could be created using technological tools, such as Microsoft Paint, Pixel-based art, such as Microsoft Graphics in PowerPoint; Digital Photography and PhotoShop; digital short-movies, and Digital Animation using Freeware GIF Animation software. (2-4 quarter hours)
AI 183 | THE 1960S | 2 quarter hours
(Undergraduate)
The decade of the 1960s was a watershed period in the social, cultural, and political history of the United States. This course will examine the era from a variety of viewpoints in order to promote student understanding and analysis of key movement, episodes and personalities. The course will include investigation of John F. Kennedy's "New Frontier", The Cold War, The Space Race, the Civil Rights and Women's Liberation movements, Lyndon Johnson's "Great Society", the Vietnam War, popular culture, literature, student unrest, and the realignment of traditional political voting blocks. In addition, the course will demonstrate how the decade's music mirrored the changing times. (2-4 quarter hours)

AI 185 | THE BEATLES AND THE CREATIVE PROCESS | 2 quarter hours
(Undergraduate)
The Beatles are significant in many ways: they were an unprecedented show business phenomenon; they were leaders of Sixties cultural rebellion; and they stand, for many, as a signal instance of popular entertainment attaining the status of high art. This course will examine the musical craftsmanship of the Beatles, focusing on their work as songwriters and record makers. Recent audio and print releases documenting the group's performing and recording history provide a unique and detailed glimpse of the Beatles' creative process. We will utilize these materials to closely trace the development of the group's work while using other resources to place it in a larger historical and cultural context. The goal is to shed critical light on this recent chapter in cultural history. That discussion will, in turn, highlight questions about creativity in a modern context where commerce vies with art, technology redefines performance and an emerging global village culture transforms concepts of originality and tradition. (2-4 quarter hours)

AI 187 | CAREERS IN THE HELPING PROFESSIONS | 2 quarter hours
(Undergraduate)
This course will help you, the learner, identify which career path best fits your strengths, skills, and interests, as you pursue your desire "to help people" It will also better prepare you for graduate and/or professional training by familiarizing you with the admissions process for various schools in the helping professions (e.g. social work, psychology, counseling, etc.) (2-4 quarter hours)

AI 190 | AFRICAN AMERICANS IN THE ARTS | 2 quarter hours
(Undergraduate)
The arts provide a lens through which we can more completely see, hear and understand the magic, mystery and challenge of the human experience. The story of African Americans in this country is one of perseverance and transformation. In this course, students will explore how the social, political, historical and cultural journey of African Americans is reflected in the production of art. African Americans have a specific perspective on the American national experience. Where would America be without the artistic contributions of the African American cultural community? Furthermore, how does art make our lives better? Does it? In this course, learners will research, analyze, and define African American art and arts and assess their impact on culture. Arts such as theatre, literature, music, and visual and media arts will be discussed. Students should expect to attend several cultural/artistic events throughout the term. These might include poetry readings, musical concerts, theatre, gallery visits, and other local events. (2-4 quarter hours)

AI 192 | IMPROVISATION | 2 quarter hours
(Undergraduate)
Students will learn the games that form a context with which, or from which, to improvise. Then they will improvise; they will play in their own and in each others' improvised sketches. They will learn to solve problems, find metaphors and examine improvisation as an excellent tool with which to monitor the process of learning. From the engagement in games and their analysis will come the most important outcome: the growth of confidence. (2-4 quarter hours)

AI 193 | LANGUAGE AND POLITICS | 2 quarter hours
(Undergraduate)
The language that individuals and groups use to tell their stories creates their identities. This multi-disciplinary course examines how post-modern language, especially language in media, frames national and global politics and its underlying power relationships. Issues addressed include the politicization of language in the U.S. immigration debate and the role that English as global lingua franca plays in spreading American culture as well as the subsequent effects on self-expression in English among native speakers via political correctness, forbidden speech and code words. Other topics include gender roles, intellectual property rights, and even the overall need for virtually ceaseless verbal stimulation in a media/image driven world. Students will utilize intercultural communication theories to reflect upon their self-identity and its role in defining their relationship to their communities and institutions and will expand outward to understand national and ethnic identities from a global perspective. Students examine current events in the media and the ethical implications language-related biases impose upon discourse while using the Internet to create their own presentation about the topic. (2-4 quarter hours)

AI 196 | WRITENOW:SNL WRITING MARATHON | 2 quarter hours
(Undergraduate)
Anne Lamott said that the most important ingredient for writing is the act of "sitting". In this course, students will focus on this seemingly simple act of the creative process. The focus of the course is on the generation of written material: the quantity rather than the quality. As such, students choose their own fiction or nonfiction writing topic(s) and project, and may use the material they create in a later effort (ILP, AP, etc.) To kick off one session, a group of professional writer panelists will reflect on their own creative processes as they have developed their latest works. (2-4 quarter hours)

AI 200 | GUIDED INDEPENDENT STUDY: ARTS AND IDEAS | 2 quarter hours
(Undergraduate)
Guided Independent Study: Arts and Ideas (2 quarter hours) LL 250 is a prerequisite for this class.

AI 202 | LONDON ALIVE: IN THEATERS, MARKETS AND MUSEUMS | 2-4 quarter hours
(Undergraduate)
Join SNL in London for a course about performance and representation. Theater, live performance, museum collections and street markets are integral parts of English cultural history; they also represent Britain's international heritage. London theaters celebrate English history, culture and language, and carry the banner of the English artistic imagination into the future. London's museums make it one of the most visited cities in the world for the range of its collected artifacts and images. Outside the theater and museum doors, markets teem with life, creating a magical intersection of past with present and future, of art with life and politics, of cultural stasis with social change. (2-6 quarter hours)
AI 203 | ART AND TRANSFORMATION | 2-4 quarter hours  
(Undergraduate)  
What's the difference between change and development? Between action and inspiration? Between mobility and transition? Between planned change and transformation? If you can answer all those questions, try this: What's the difference between the creative contributions of painter Leonardo da Vinci and CEO Walter Isaacson? This course explores how art can serve as a guidepost during key phases in the adult experience, especially those involving transition periods like healing, growth, and personal and professional change. Students look at cases of major change agents throughout history who became catalysts for cultural transformation in part because of the impact of important works of art. The students will engage with diverse examples of art that have influenced important thought leaders and change agents of the past and present to become catalysts for major transformations in the human experience. Students will learn how significant products of the creative process?in this case, great works of art?can encapsulate, reflect, and even activate the process of personal as well as social change, and how each of us can participate in the alchemical process of reflection, inspiration, and action that can result in transformation of inner and even worlds. Art and Transformation introduces learners to a variety of works of art and the people they influenced, a group that will eventually include the learners themselves. It presents a range of ways to approach the arts and to use them as tools of inspiration, self-reflection, communication, and growth. Divided into four units (Art and Personal Transformation, Art and Cultural Transformation, Art and Leisure, and Art and Work), the class presents multidisciplinary examples of literature (poetry, fiction, essays, memoir), as well as film and other visual arts. Students will consider art both from the perspective of the artist him/herself as well as that of major thought leaders and change agents whose contributions to society have been motivated by an engagement with art that acted as a catalyst for system shifts in areas of personal and cognitive growth, cultural and political change, as well as the transformation of the world of work in the 21st century. Ultimately this course is an investigation of art itself as a change agent that has much to tell us about the past, the present, and ourselves. (2-4 hours)

AI 204 | CREATIVE ENTREPRENEURSHIP | 2 quarter hours  
(Undergraduate)  
IPads. Smart Phones. The automobile. These are inventions, once unknown and now taken for granted, required years of imagining, experimentation and unconventional thinking. While we value the end of the process (the product), we are often uncomfortable with the creative/creating process. The process of imagining, conceptualizing and articulating this ‘new’ requires skills we often label ‘creative’. This class will explore the role of creativity in the development of entrepreneurial skills and the entrepreneurial personality. Creativity in this course will be seen both as a learned skill and as an exploration of our intuition. Contemporary ideas about creativity are often tied to images of the past - from mad scientists to mystical muses. But modern science tells us something else about the creative mind. This course will explore contemporary approaches to the creative process based the human capacity to imagine, to explore and ultimately, to create. These are core skills for anyone in pursuing a career as an entrepreneur, or simply in search of ways to explore innovation. In this course, we will examine the ideas of three major thinkers form the world of creativity, disruption and entrepreneurship. We will then explore where these ideas converge on topics including, risk, the random, intuition and innovation. (2-4 quarter hours)

AI 207 | THE LITERATURE OF INCARCERATION | 2 quarter hours  
(Undergraduate)  
The United States is the largest incarcerator in the world. Is this because we have more crime? More criminals? In this course we will explore questions about the prison industrial complex and the justice system through the words of incarcerated and formerly-incarcerated writers. We will be looking at poetry, short stories, essays, and memoirs. Employing a mix of discussion, guest speakers, film, class team reports, and close readings of the literary texts, this course will take us on an imaginative journey into a world most of us have few reasons to understand. We will explore questions about the prison industrial complex and the justice system through the words of incarcerated and formerly-incarcerated writers.

AI 209 | ETHICS AND IDENTITY: THE PRESSURE OF INSTITUTIONS ON INDIVIDUALS | 2 quarter hours  
(Undergraduate)  
This course explores the tension between the individual and the institution in theory (through books and films) and practice (through participation in collaborative groups) and offers the student real tools for working with integrity inside the corporate culture. Using current events as a modern morality play upon which to turn the lens of historical and contemporary analysis, we will ask of ourselves what it means to be a good and ethical citizen. This course will enable students to recognize the inherited belief systems and their contradictions which have fueled the moral crisis of the last decade. (2-4 quarter hours)

AI 211 | ANALYZING AUSTEN'S PRIDE AND PREJUDICE | 2 quarter hours  
(Undergraduate)  
Jane Austen must have known something about universal truths. Her novel, Pride and Prejudice, which begins with the sentence quoted above, was first published in 1813. Still in print today, it has also been made into at least eleven movies, four of which were released since 2000, including a Mormon and a Bollywood version. In this class, we will read the novel in the context of the gender and class norms at the time Austen wrote her book and then consider how Austen's exploration of universal truths is reinterpreted in more contemporary film versions of this novel. In exploring Austen's creation and the many reinterpretations of her work, we will use both analytic and creative writing assignments as well as class discussion to examine how context informs creativity and how creativity informs analysis. You most definitely do not need to be a creative writer to take this class. (2-4 quarter hours)

AI 215 | FILM NOIR | 2 quarter hours  
(Undergraduate)  
In this course we will screen and discuss select noir films and develop skills of viewing and analyzing them closely. Highlighted topics will include the concept of genre in film; the relationship of genre codes to creativity; the dynamics of form and content; the tension between commerce and art; the auteur theory; psychologies of the divided self; representations of masculinity and femininity; and the question of what these films say about American society, post-World War II. (2-4 quarter hours)
AI 217 | MINDFULNESS MEDITATION | 2 quarter hours  
(Undergraduate)
Mindfulness meditation provides many different ways to broaden our awareness of the world around us, heighten our powers of concentration, deepen our understanding of our experience, and cultivate creative and transformative ways of being in the world. Many approaches to mindfulness meditation draw on ancient religious and spiritual traditions from around the world. So mindfulness meditation is compatible with and can enhance whatever religious or spiritual commitments you may have. But mindfulness meditation does not require religious or spiritual interpretations. It can be practiced as a very powerful path to becoming a creative, healthy and effective adult. In this course, you will learn what mindfulness meditation is and various ways in which it can be practiced. We will explore in particular how mindfulness meditation can enhance creativity, address the ethical challenges of contemporary life, and foster collaborative learning. Class sessions will involve extensive practice in mindfulness meditation, listening and dialogue. You will be expected to maintain and reflect on a daily mindfulness meditation practice for the duration of the course. (2-4 quarter hours)

AI 225 | GREAT MUSIC IN CHICAGO | 2 quarter hours  
(Undergraduate)
The course introduces people to three of the most exciting and rewarding institutions in Chicago music: the world-famous Chicago Symphony Orchestra at Symphony Center downtown; the fabulous training orchestra of the Chicago Symphony Orchestra, known as the Civic Orchestra, also downtown; and live top-name jazz at the Jazz Showcase. We learn the background of these institutions, the nature of the arts they perform, and the terms used to describe and appreciate those forms. Most importantly, we experience, in person, the great music that they play! (2-4 quarter hours)

AI 232 | THEATER IMPROVISATION | 2 quarter hours  
(Undergraduate)
In this course we will play on the classroom stage as we might have played on the playground as kids. The difference between these forms of play is one of degree rather than one of kind. A theater game provides a structure in which we can play spontaneously. In other words, we improvise. Improvisation aids in the developing of public speaking skills and comfort and confidence as well as other social and theatrical skills. May be taken for only one competence. (2-4 quarter hours)

AI 239 | DANCE AS EXPRESSION OF CULTURE: SALSA DANCING | 2 quarter hours  
(Undergraduate)
Ever since the foundational work of Margaret Meade in the 1950s, cultural anthropologists prefer to leave the library and go into the field to experience a new culture by engaging with its language, arts, and/or customs. People who travel to new places and respond to the local art in its natural setting know the power of experiential engagement with another culture. This course offers students a similar opportunity to embrace and express the values of other culture in an enjoyable way but without the need of a passport. Since the beginning of recorded history and almost certainly before, cultural groups around the world have produced some sort of rhythmically structured physical movement, often but not always set to music, in order to express essential things about themselves and their values. Dance is one of the oldest of art forms. As an eternal and universal mode of expression, dance is one of the most powerful conduits for cultural values. In this class students will be exposed to forms of the art of salsa dancing and the Latin American cultural contexts that produced those forms. They will study and also express the values of the cultures that gave us salsa as they participate in culture infused medium of dance. (2-4 quarter hours)

AI 247 | STAGE IMPROVISATION AND GAME PLAYING | 2 quarter hours  
(Undergraduate)
Improvisational comedy is social commentary or personal expression made immediate by spontaneous dramatization. Students will learn the games that form a context with which, or from which, to improvise. Then, they will improvise; they will play in their own and in each others’ improvised sketches. They will learn to solve problems, find metaphors and examine improvisation as an excellent tool with which to monitor the process of learning. Additionally, students will acquaint themselves with the history of this freest of forms. From the engagement in the games and their analysis will come the most important outcome: the growth of confidence. (2-4 quarter hours)

AI 252 | ETHICS FOR TODAY’S SUCCESSFUL BUSINESS MANAGER | 2 quarter hours  
(Undergraduate)
This course will provide students with a foundation that will help them deal with ethical issues arising in business today. It will first provide an overview of where ethics fits within philosophy, examine some of the important ethical frameworks, and describe how to apply them. It will then describe “best practices” for how companies and managers can excel in today’s business climate, and illustrate them via relevant corporate examples. All of this will provide students with the skills they need to deal with ethical issues as managers. (2-4 quarter hours)

AI 254 | RESISTANCE DURING THE HOLOCAUST AND WORLD WAR II | 2 quarter hours  
(Undergraduate)
This course explores the history of the Holocaust in the context of the Second World War (1939-1945) with a central focus on examples of resistance to discrimination, fascism and oppression. We will explore varied forms of opposition including armed resistance, spiritual resistance, resistance through writing and identity preservation. We will read autobiographies, view documentary and dramatic films, and use museum resources to develop our understanding of resistance. Required activities include a visit to the Illinois Holocaust Museum and Education Center (Skokie, IL). We will also consider the implications of this history for making ethical choices in our world today. (2-4 quarter hours)

AI 255 | SELF EXPLORATION: INSIDE OURSELVES, OUTSIDE WITH OTHERS | 2 quarter hours  
(Undergraduate)
Exploring the self can be a very personal and satisfying experience, but can also provide clues as to how you interact with others, accomplish daily tasks and how to become a more happy, productive and respected individual. Students engage in self reflection in a collaborative learning format where they learn about themselves, share the process with a learning partner and observe the trends and conclusions of the class. Topics to be explored include family origins, gender perspectives, personality traits and development, self awareness and identity, creativity, and professional and moral perspectives. This course will operate in a blended hybrid format with meetings that link students in the classroom with others through live video interaction. You will have the option to attend either on campus or online for the five scheduled bi-weekly meetings. In addition, participation in the online discussion forum is required. This course is cross listed as CCA 255 and AI 255. (2-4 quarter hours)
AI 256 | WORKPLACE AND PROFESSIONAL ETHICS | 2 quarter hours
(Undergraduate)
This hybrid-learning course is open to all DePaul undergraduates. It provides a thorough grounding in the theoretical and applied nature of work-based ethical decision-making. We engage the tenets and assumptions of four major ethical perspectives, using them to examine the meanings and implications of morality in professional life. Using the tools of reason, we investigate obstacles to ethical decision-making in one’s and others’ professional behavior, and apply our learning in the writing of a personal ethical code. (2-4 quarter hours)

AI 257 | ENGAGE FOR CHANGE: GET INFORMED, INVOLVED AND CONNECTED | 2 quarter hours
(Undergraduate)
Name your cause. Whether it is the death penalty, reproductive rights, cancer advocacy, heart disease, homelessness, social security, welfare reform, marriage equality or the environment most people would like to see the world change in some way. The reality is that not everybody has found a way to engage in their community and make their voice heard. Students will engage in personal and collective reflection to explore their own learning styles and the experiential learning process. They will learn how everyday citizens can organize to make sure the issues that matter to them can be addressed at city, state, and national levels. The course will utilize speakers, discussion, learning journals, readings, action assignments and small group exercises to provide an environment where students can explore their own beliefs and perspectives on social change, democracy, citizenship and the process of government in the United States. (2-4 quarter hours)

AI 260 | APPROACHES TO CREATIVE WRITING | 2 quarter hours
(Undergraduate)
For writers, no matter how new or experienced they may be, there’s always a need to “self-renew”. Every blank page is an invitation to enhance one’s writing asset, for with each blank page or new assignment the writing process begins again. What, then, are the tools successful writers use to enhance their writing abilities, sustain their momentum, refresh their creativity and renew their resolve? What writing tools are better suited for creative writing, business writing, journaling, or memoir? What tools do we already have that may only need repurposing or remembering? (2-4 quarter hours)

AI 267 | THE EXAMINED LIFE: A QUESTION OF PHILOSOPHY | 2 quarter hours
(Undergraduate)
The unexamined Life is not worth living” exclaimed the Greek philosopher Socrates, setting the tone for philosophical quests that have shaped our thought and civilizations. "Neither is the examined one," retorted German philosopher Schopenhauer 2,300 years later after surveying the prospects of the modern world. This course will outline the philosophical tradition of rational thought that stretches in between these thinkers. Students will focus on how the great thinkers and traditions East and West considered ethical, metaphysical, epistemological, political, and aesthetic problems. And they will engage in a philosophical examination of their own life and beliefs. (2-4 quarter hours)

AI 271 | THE ART OF PAPERMAKING | 2 quarter hours
(Undergraduate)
Paper is everywhere. We use it to read about the latest news, to wrap birthday presents, and to leave ourselves little sticky reminders. You can find paper almost anywhere and chances are, you have a lot of it lying around your house, lurking in drawers and clogging up your recycling bin. It is one of those commodities that we take for granted. Can paper be art? Can it be the result of creative thinking? Can it be beautiful? Learners in this experience will learn about paper and its history, and will participate in the ancient art of papermaking. While examining the definitions of art and creativity, students will experiment with papermaking techniques, and will create their own works of paper art. The Art of Papermaking focuses on creative processes and art making. This will be, necessarily, an experiential process. Most of the class time will be taken up with experimenting with art materials and with employing the roles of color and design in works of art. Students should prepare by wearing old clothes to class and should expect to get their hands dirty. (2-4 quarter hours)

AI 276 | CREATIVE INK: THE ART OF WRITING | 2 quarter hours
(Undergraduate)
This course will carry students through a series of creative writing experiments aimed at stimulating their imaginations and discovering their literate voices. Students will be exposed to a variety of techniques for story writing, poetry, and avant garde experiments. The course will combine in-class group writing and critical sessions, and individual consultation with the instructor for personal development. Students will also learn how to find outlets for their completed creative work. (2-4 quarter hours)

AI 277 | THE UNDERGROUND RAILROAD | 2 quarter hours
(Undergraduate)
This course will draw from national and regional resources to explore ways of knowing in the liberal arts about the Underground Railroad. The learning experience will include a field trip to a local museum, virtual field trips, films, museum catalogs and other readings, collaborative learning projects, and guest presentations. Students will create poster presentations or other visual products to illustrate their learning about Underground Railroad and write interpretative papers to accompany them. (2-4 quarter hours)

AI 278 | THE LITERATURE OF INCARCERATION | 2 quarter hours
(Undergraduate)
The U.S. incarcerates well over 2 million people. Proportionally, no other democratic country in the world comes close to this level. Locked away, out of sight and hearing from most of us, this population of women and men is represented by the media in lurid, predatory images. The writing that has emerged from prisoners paints an altogether different picture, however. In this class, we will study several literary texts—short stories, essays, poems—written by women and men who have been or are currently incarcerated. The class will be offered for one competence only and will meet the first five weeks of the quarter. (2 quarter hours)
AI 282 | LEISURE FOR WELL-BEING | 2 quarter hours  
(Undergraduate)  
The pursuit of happiness for most people is an important aim in life. A personal feeling of well-being includes "emotional happiness" and the rational satisfaction with one's own life. In this course you will attempt to define the term "well-being" and discover its relationship with other concepts such as mental health and life satisfaction. How does physical exercise influence well-being? How do positive and negative life events influence well-being? Do good social relationships guarantee happiness? Do the expectations one has in life with regard to income influence well-being? Is it important to set goals to achieve a high level of well-being? These and other questions will be addressed in this course. You will try to define some of things a person can do to increase his or her level of well-being. Others' ideas serve as common course content, as presented in the material assigned to this course. You will be asked to participate actively and critically, to work individually and in study groups, using your own experience as a field of analysis and reflection. Active group participation will foster a harmonic, interactive environment, which might increase positive relationships among students and foster a feeling of well-being throughout this course. (2-4 quarter hours)

AI 284 | THE BRAVE NEW WORLD OF MARKETING COMMUNICATIONS | 2 quarter hours  
(Undergraduate)  
This course will help students understand and successfully navigate through the brave new world of marketing communications and advertising: a world of segmented audiences, fragmented media channels, technology and interactivity, online communities, and on-demand media, where brand building has emerged as a business imperative. Students will learn which principles of traditional marketing communications are in, which are out, and the new ones that have emerged. We will read books and articles and examine the internet, e-commerce, experiential marketing, consumer-generated content, branded entertainment, search, music and mobile channels. Through the process of creating marketing communications programs utilizing these channels, students will also gain skills in collaborative learning and creativity. Competencies Offered: A5, H2G, S3F, FX (2-4 quarter hours)

AI 285 | WORK, PLAY, REST: NAVIGATING COMPLEXITIES OF ADULT LIFE | 2 quarter hours  
(Undergraduate)  
Adult life has become complex. With expectations from family, school, work, home, social pressures, technology and social media, it sometimes feels impossible to keep up. When the news bombards us or becomes frightening, and the world around us feels uncertain, how do we make sense of things and find our way forward? In this course, we will begin from the place that human beings are full of creativity, ingenuity, resourcefulness, generosity and hope. Our very lives and the world around us will be our subject matter - our need to work, our bodies' need for rest, and our enjoyment of leisure and recreation. Where does stress, expectation and anxiety come from, how are these held in the body, and what can we do about it? And, how has story, movement, music and sound, humor, popular entertainment and fun helped humans get through the day, navigate relationships, and find more ease? By engaging in simple creative practices in and out of class and considering what might be useful for individual and collective well being, the goal is for students to create a toolbox of approaches for navigating life's complexities to carry forward beyond the class. (2-4 quarter hours)

AI 286 | NEW ORLEANS IN SONG, STORY & STRUGGLE | 2 quarter hours  
(Undergraduate)  
The tapestry of New Orleans culture is tremendously rich and varied. This course will concentrate on two strands in that tapestry music from New Orleans and fiction about it. Students will learn about music forms which originated in the city or its environs and which have gone on to dazzle the world, including jazz, r&b, zydeco and funk. We will situate these art forms in social and historical context and examine the complex creative processes which have shaped them. We will become familiar with innovators and icons such as Louis Armstrong, Professor Longhair, Clifton Chenier, the Neville Brothers and Dr. John. We will also read works by literary artists who have a background in and/or fascination with New Orleans, including The Awakening by Kate Chopin; A Streetcar Named Desire by Tennessee Williams; and Mumbo Jumbo by Ishmael Reed. Moreover, we will consider the role played in American history and imagination by New Orleans as well as the role played by images and fantasies of New Orleans in struggles for social justice at the local and national level. (2-4 quarter hours)

AI 296 | STAGE PLAY(ING) | 2 quarter hours  
(Undergraduate)  
The play's the thing... A play is action, play, conflict, resolution, motion, emotion, live now. A play is crafted for the stage, not for the page. What we find on the page is a script, a guide to the play, not the play itself. The course will explore the play (and playing) in as many of its dimensions as we can discover. Students will read about reading scripts, and then read them to see the play as it could come to be. We will put together scenes, sketches, stories, and/or short plays; as well as improvise, role play, and act in our own work as well as in the work of established playwrights. Students will take the study to the theater to see what works and what doesn't work on the stage. The class will work and play together and apart and let the creative imagination take us where it will.

AI 298 | THE ITALIAN RENAISSANCE | 2 quarter hours  
(Undergraduate)  
From the thirteenth to the sixteenth centuries, the Italian peninsula was the center of a new age of human discovery and expression. With the unfolding of ancient philosophies, the Catholic Church’s temporal and spiritual control over Western Europe faltered. This age changed the meaning of political power, art, literature, science, and religious life. New perspectives lifted the horizons of thought and artistic expression. What meaning and value do these issues have for the contemporary person? By exploring the richness of Renaissance culture, this course attempts to answer the following questions: What happened on the Italian peninsula during the Renaissance? Who were the principal players? How did this period influence western civilization, particularly with respect to learning? What does the Renaissance mean today? Why, indeed, does it play such a major role in contemporary consciousness of the arts, literature, politics, and science? While the general focus of the material is the Renaissance in the Italian city states, the course concentrates on the rise and fall of the Medici family in Florence. Cosimo, Lorenzo, Piero and Giovanni de’ Medici (Pope Leo X) were instrumental in the development of this spectacular age in Western Civilization. Learners will also confront our own time with respect to issues raised in the Italian Renaissance. (2-4 quarter hours)
AI 299 | ETHICAL ISSUES IN BIOMEDICINE AND HEALTH | 2 quarter hours
(Undergraduate)
Should parents be allowed to genetically “engineer” designer babies? Given the rapid pace of developments in genetic engineering, this capacity is eminent. Emerging technological capacities in a variety of arenas are creating a host of social questions and potential ethical implications: What are the ethical issues associated with accelerating accumulation of health data? Do pharmaceutical companies have a moral obligation to expand global access to life-saving AIDS drugs? Given our ever-unfolding understanding of the human brain, what regulatory concerns ought to accompany the rollout of new, powerful brain-based biotechnologies? Which methods and approaches are needed to make sense of the science and technology on people’s lives worldwide? This course is both an introduction to bioethics, – an area concerned with moral questions related to health, medicine and society, as well as a reflection upon the ethical and social implications of rapidly emerging technological and scientific capacities. In this course, learners will learn and use ethical theories to consider and analyze general bioethical issues with special attention paid to the unique challenges that emerge as a result of rapid advancements in scientific and technological knowledge. While this course is housed in the School for New Learning (SNL), it is also cross-listed with DePaul University’s department of public health. For graduate students taking this course for credit, there is an additional assessment required, specified in the syllabus section below. This course will also require students to deploy and hone critical thinking skills, writing-related capacities as well as reasoning skills. (2-4 quarter hours)

AI 313 | RACE AND IDENTITY IN AMERICAN THEATER | 2 quarter hours
(Undergraduate)
This course will explore issues of race and racial identity in American society through the medium of theater. Students will examine a diverse range of theatrical pieces and consider the social and political context for each work as well as the impact each has had on American culture. The class will also view a play on these themes at a Chicago theater. (2-4 quarter hours)

AI 315 | CREATIVITY AND IMAGINATION | 2 quarter hours
(Undergraduate)
Is there a specific mental procedure that gives rise to the making of new inventions, new scientific and mathematical discoveries, new philosophical systems, and new works of art? If so, it remains as mysterious today as a thousand years ago. In this course we will compare and critically evaluate a range of theories about human invention and creativity, both classic and modern - from ancient conceptions of divine inspiration and "creative madness" to recent hypotheses in the fields of evolutionary psychology, cognitive science, and artificial intelligence. We will test these theories by (a) applying them to our own past experience with creative endeavors and (b) by determining to what extent the theories can adequately explain the emergence of particular inventions, scientific or mathematical breakthroughs, or works of art. The course will introduce the thought of a range of important theorists on the creative process - from Plato to Freud - and also weigh the contributions and examples of prominent artists, scientists, and inventors, including Archimedes, Newton, Mozart, Milton, Poe, Van Gogh, Poincaré, Edison, Einstein, and others. (2-4 quarter hours)

AI 318 | ZOMBIES: MODERN MYTHS, RACE, AND CAPITALISM | 2 quarter hours
(Undergraduate)
The figure of the zombie entered US popular culture from Haitian spiritual practice bringing with it concerns of power and race. As the zombie mythology developed in the United States, it has been adapted to address issues as varied as gender and capitalism. Zombie mythology has become so prominent that the philosophers Gilles Deleuze and Felix Guattari asserted that the zombie was the only unique myth of the twentieth century. This class will examine the development of the zombie myth as a reflection of US societal concerns while using the lenses of Post-Colonial and Post-Marxist theory. Specifically, we will use these lenses to explore Halperin’s film White Zombie, Romero’s films Night of the Living Dead and Dawn of the Dead, Kirkman’s comic books The Walking Dead, and Boyle’s 28 Days Later. (2-4 quarter hours)

AI 322 | PROBLEMS AND ISSUES IN CONTEMPORARY ETHICS | 2 quarter hours
(Undergraduate)
An introduction to moral philosophy with emphasis on the conflict between "moral relativism" (or "subjective" ethics) on the one hand and "moral realism" (or "objective" ethics) on the other. During the course you will be introduced to classic theories and leading figures in the history of ethics, from Plato and Aristotle to Kant and Nietzsche. Course content will focus on issues (e.g., poverty, drug use, capital punishment, sexual behavior, euthanasia, biomedical research, animal rights, political violence) at the center of contemporary ethical debate in the United States and throughout the world. (2-4 quarter hours)

AI 323 | ART AND PERSONAL TRANSFORMATION | 2 quarter hours
(Undergraduate)
Adults often go through periods of profound transition. Many of us search for answers, models, or mentors to help us make sense of the changes. This course deals with ways in which art can be a means of personal transformation, a vehicle for helping us understand the deeper dimensions of our life journeys. Through exposure to artistic representations of significant turning points in human experience, and by studying perspectives on change drawn from various disciplines, we will explore ways in which art both mirrors and facilitates the process of transformation. Students will approach selected works of art (literature, music and visual art) to explore ways artists have represented themes of transformation. In addition to developing competence in art analysis, we will investigate whether our own personal values are reflected in the works studied, and what role art plays in our lives. Students will keep learning journals recording their impressions and reflections about class readings, discussion and multi-media presentations. (2-4 quarter hours)
AI 338 | RACE, RACE RELATIONS, RACISM: BREAKING BARRIERS AND BUILDING BRIDGES | 2-4 quarter hours  
(Undergraduate)

How do we as an ethnically and racially diverse country go about the business of understanding and healing the wounds of racism and building bridges that will allow the gift of diversity to flourish in the United States? Further, what are the connections among U.S. racism and other forms of racism such as ethnic cleansing and "pacification programs" aimed at indigenous people around the world? In this course, we will explore the historical, economic and political roots of racism globally and nationally. In addition, we will look at the changes brought about by the civil rights movement, and ongoing work in the nation and in Chicago aimed at bridging the gaps caused by racism. Through discussion, readings, films, debate, guest panels, and field excursions, students will study a variety of topics. Because the course will focus not only on analysis, but on building bridges, the instructors hope to enroll an ethnically and racially diverse class membership. (2-4 quarter hours)

AI 342 | LEARNING ART HISTORY THROUGH THE ART INSTITUTE OF CHICAGO | 2 quarter hours  
(Undergraduate)

The Art Institute of Chicago is one of the nation's premiere art museums, with a collection that offers wide opportunities for the study of art. This course will examine great paintings in the museum from the Middle Ages up to contemporary works. Students will deepen their knowledge of art history and how to study a painting, develop an overall knowledge of major periods and trends, as well as gain insights into the lives of the artists. Students will also gain a knowledge of the museum itself as a starting off point for further studies. Class will meet at the Art Institute, Michigan and Adams, at the front information desk. (2-4 quarter hours)

AI 356 | STUDIES IN GHANA: HISTORY, CULTURE AND SPIRITUALITY | 2 quarter hours  
(Undergraduate)

Ghana's history is part of our own. It is the history of mighty empires and timeless knowledge. This course is a return to the motherland to fetch knowledge of African history, culture, spirituality, and healing. We will embark on an educational adventure of discovery. During our three-week stay, we will travel to Kumasi in the land of the Ashanti, visit the Kente weaving villages, hear lectures at the home of W.E.B. DuBois and various Ghanaian universities. The slave castles of the African holocaust are also on the itinerary. Coursework includes an introduction to Ghanaian history, culture and cosmology, and its religious and healing traditions; a comparative exploration of African and US spirituality; service learning projects, fieldwork, and an emphasis on cultural exchange; training in field research methods leading to a major paper. Estimated expenses include airfare, ground transport, accommodations, and most meals. (2-6 quarter hours)

AI 362 | LITERATURE AND FILM: PERSONAL AND CULTURAL TRANSFORMATION | 2 quarter hours  
(Undergraduate)

Literature and film provide rich and varied examples of individual and societal change. Creative and reflective writing are keys to deeper understanding. This course focuses on the processes of thoughtful reading, viewing, discussing, and writing about selected examples of literature and film. We will use selected media and writing exercises as subjects for critical analysis and as springboards into exploration of class members' own lives and cultures. Drawing from diverse sources, we will look at ways in which the arts reflect issues of identity during times of personal and cultural transformation. Through small and large group discussion, reflective learning journals, papers, and presentations, students will respond both analytically and personally to the visual and written media presented as well as to their own writing samples. (2-4 quarter hours)

AI 366 | EXPRESSING YOURSELF THROUGH PAINT | 2 quarter hours  
(Undergraduate)

This course will focus on painting as a form of visual expressions and provide opportunities to explore the media of painting and the aesthetics behind why people paint. Students will study the history of painting through selected works, learn how to analyze and critique a painting and use watercolors and acrylic paints to explore the media. A field trip to the Art Institute of Chicago is required. (2-4 quarter hours)

AI 384 | CLASSICS FROM THE AFRICAN DIASPORA | 2 quarter hours  
(Undergraduate)

The push for cultural literacy and familiarity with the "Great Books" and classical arts often neglects the important contributions that people of African descent have made to the development of the world. The works of activists, scholars, authors, and artists such as Ida B. Wells Barnett, David Walker, W.E.B. DuBois, Frantz Fanon, and Nina Simone address issues of importance to people regardless of their cultural background: justice, oppression, human rights, education, identity and the human condition. This course will examine 1-2 bodies of work by authors and/or artists of African descent to explore what each tells us about the human condition and power relationships during a particular historical context. We will also examine the present day implication of these issues. (2-4 quarter hours)

AI 396 | INTRODUCTION TO ART THERAPY | 2 quarter hours  
(Undergraduate)

This experiential class in will introduce students to concepts of art therapy and other expressive arts. It will address the therapeutic use of art making by people who experience illness, trauma, or challenges in living, as well as by people who seek personal development and general well being. By participating in expressive arts activities and reflecting on the products and processes, students will learn how art therapy can help people increase awareness of self and others, cope with symptoms, stress, and traumatic experiences; enhance cognitive abilities; and enjoy the life-affirming pleasures of making art. (2-4 quarter hours)
AAS 205 | GLOBAL ASIA | 4 quarter hours (Undergraduate)
This course will look at the American landscape, a popular subject matter among painters in all media and study works by such noted artists as Albert Bierstadt, Frederick Church, Joseph Stella, Andrew Wyeth, Grant Wood, Georgia O'Keefe and William Beckman. The art history component of the course will be coupled with an opportunity for students to create three landscape paintings using the media of acrylic paints. An introduction to the basic techniques of acrylic painting and color mixing will be included as part of the class. Students will explore the exploration of both the rural and urban landscape and produce a portfolio of no less than three paintings during the class. A field trip to the Art Institute of Chicago is required. No previous painting experience is required. (2-4 quarter hours)

### Asian Studies, Global (AAS)

#### AAS 200 | ASIAN AMERICAN HISTORY | 4 quarter hours (Undergraduate)
This course examines the creation of Asian America by first and second-generation Asian migrants to the Americans from the 1840s to World War II. The course provides a historical, legal, social and cultural framework for understanding the resurgence of Asian migration since the 1960s.

#### AAS 202 | ASIAN AMERICAN LITERATURE | 4 quarter hours (Undergraduate)
This course will serve as an overview of Asian American literature in a socio-historical context. Special emphasis will be placed on tracing the various paradigms through which these works have been produced, from texts written prior to the movement towards self-determination during the 1960s; to works identified with the "cultural nationalism" promoted during the 1960s and 1970s; to the pluralism of the 1980s which explore how gender, sexual orientation, and class complicate earlier essentialist conceptions of racial identity; and finally to the transnational and diasporic interests of the 1990s. Texts covered will include primarily fiction (novels and short stories), but also critical essays, plays, movies, and poetry.

#### AAS 203 | ASIAN AMERICAN ARTS AND CULTURE | 4 quarter hours (Undergraduate)
This course will examine Asian American arts and cultural productions in relation to the histories of people and groups with roots in Asia and the Pacific. The course will focus on contemporary visual arts from the emergence of Asian American movements in the 1960's and 1970's, to the multiculturalism of the 1980's and 1990's to our present transnational moment. Formerly AAS 201.

#### AAS 205 | GLOBAL ASIA | 4 quarter hours (Undergraduate)
From ancient and modern perspectives, Global Asia introduces the artistic, cultural, economic, philosophical, political and religious transformation of Asian societies and peoples across space and time. A visual and multimedia approach complements literature on core ideas and practices. Creative and interactive learning methods are included.

#### AAS 208 | CHINA'S CULTURAL SOFT POWER AND ITS FUTURE | 4 quarter hours (Undergraduate)
Within three decades, China has transformed from an impoverished and self-secluded nation into a global powerhouse challenging the world's status quo. Through select soft power theoretical perspectives, this course will explore three primary questions: 1) what are China's cultural soft power resources? 2) how do China wield its cultural soft power? 3) how do we view China's future? The class will analyze multiple aspects of Chinese culture and its contemporary society and understand the prospects of China in the next generation. We will focus on the dramatic social cultural changes in China in the past decades that reflect its cultural soft power or lack thereof and explore its long-term impact on the rest of the world. The readings and class discussions will engage topics on China's historical dynamics, cultural traditions, contemporary societal changes, politics, economy, and international relations. Students will be exposed to and analyze comparative views analyzing and predicting China's future.

#### AAS 210 | ASIAN ART | 4 quarter hours (Undergraduate)
An introduction to major developments of art and architecture across Asian cultures including South Asia, Southeast Asia, the Himalayas, and East Asia and their counterparts in America. This course examines not only painting, sculpture, and architecture, but also gardens, ceramics, and prints. Special emphasis will be placed on religious arts of Buddhism and Hinduism, along with landscape and figural painting. Cross-listed with HAA 115.

#### AAS 211 | BUDDHIST ART | 4 quarter hours (Undergraduate)
This course explores the traditional visual culture of the Buddhist world, examining art as a reflection of religious belief and practice. The works come from South Asia, Southeast Asia, East Asia, and America. An emphasis is placed on painting, sculpture, and architecture made for or related to Buddhist practice. Cross-listed with HAA 220.

#### AAS 214 | JAPANESE ART | 4 quarter hours (Undergraduate)
This is a chronological survey of premodern Japanese art, from the prehistoric era to the Meiji period (1868-1911). Topics covered include painting, sculpture, and architecture, as well as decorative arts, prints, and garden design. Special attention is given to Buddhist and Shinto religious arts, along with screen painting and woodblock prints. Cross-listed with HAA 216.

#### AAS 215 | INTERNATIONAL DEVELOPMENT AND REGIONAL INEQUALITY | 4 quarter hours (Undergraduate)
This course charts the political, social and economic transformation of the developing countries (Africa, Asia, Latin America, Caribbean, Pacific Islands) into a global economy dominated by the ‘developed’ countries (North America, Europe and Japan). This process, termed ‘GLOBALIZATION’, results from the operation of the global market mechanism, the activities of Transnational Corporations (TNCs) and the programs of the International Financial Institutions (IFIs). Cross-listed with GEO 215.
AAS 216 | CHINESE ART | 4 quarter hours (Undergraduate)
This is a chronological survey of premodern Chinese art from antiquity to the nineteenth century. Special attention is given to sculpture and painting, but architecture and ceramics are also covered. There is an emphasis on prehistoric bronze vessels, Buddhist sculpture, and landscape painting of the Song through Qing periods. Cross-listed with HAA 215.

AAS 217 | ARTS OF INDIA AND THE HIMALAYAS | 4 quarter hours (Undergraduate)
This is a chronological survey of premodern arts of the subcontinent of South Asia and the Himalayas. We start with the Indus Valley Civilization and move through the nineteenth century, including Mughal arts. Special attention is given to the emergence of figural imagery in Buddhist and Hindu sculptural arts, and the development of religious architectural forms from early stupas and cave temples to later shrines. Cross-listed with HAA 217.

AAS 218 | ARTS OF THE SILK ROAD | 4 quarter hours (Undergraduate)
This course will examine the visual history of the Silk Road, focusing on works of art and architecture created in Central Asia. We not only consider the prehistoric, ancient and medieval arts of this region, but we also investigate the modern development of a romanticized notion of the Silk Road and the imperial interest in acquiring treasures from the Silk Road. Today we frequently hear about the legacy of the Silk Road in promoting multicultural exchange. However, the Silk Road has long been affected by the expansionist agendas of empires. From the time of Alexander the Great (356-323 B.C.E.) through the period of Genghis Khan (1162-1227) and on, there have been military leaders who have led their armies into Silk Road lands seeking territory, riches, and glory. Cross-listed with HAA 218.

AAS 219 | K-POP & ITS GLOBAL CULTURAL INFLUENCE | 4 quarter hours (Undergraduate)
This course examines the increasing visibility and global dissemination of Korean popular culture, representatively K-pop. Looking through various social causes concerned with the dissemination of Korean popular culture (e.g., Korean entertainment industry, online K-pop fandom communities, race and gender systems in K-pop), this course will help students critically consume and understand Korean pop culture. By exploring various global cultural forces that are at work in the production and consumption of Korean pop culture, students will learn controversial topics around global culture and cultivate their global sense beyond Euro-American perspectives. Throughout the semester, students will do so by working both individually and in groups on a series of projects designed to further their understanding of Korean pop culture and its ramification in the global digital era.

AAS 220 | AMERICAN BUDDHISM | 4 quarter hours (Undergraduate)
This course critically analyzes the origins of Buddhism in the United States in order to fully understand how and why Buddhism has flourished in Asian and White American communities, and to understand the conflict and controversy surrounding the racial dynamics of religious choice. Cross-listed with AMS 220.

AAS 221 | RELIGION IN SOCIETY: SOUTH ASIA | 4 quarter hours (Undergraduate)
Focusing on South Asia, this course will explore how religion is both embedded in, and dynamically interacts with, the wider socio-cultural contexts of which it is a part. We will examine how religious ideas constitute and are constituted by social forces such as race, caste, class, gender, and sexuality both in South Asia as well as within the wider diaspora. We will analyze how religious ideas are re-shaped as people negotiate the changing social, economic and political circumstances of everyday life and construct self and identity in our increasingly transnational world.

AAS 222 | RELIGION AND CONFLICT IN SOUTH ASIA | 4 quarter hours (Undergraduate)
Religion has become central to conflict in contemporary South Asia. This course examines the relationship between religion and conflict both within and between nations in South Asia. It will examine how religion fuels conflict as well as how religion is used to find a nonviolent resolution to conflict. It will also analyze how religion is used to challenge and resist victimization, marginalization, silencing, and indeed violence during conflict. Finally, the course will examine how the cultural politics of class, gender, ethnicity, and sexuality constitute and are constituted by religion.

AAS 223 | TALES OF INDIA | 4 quarter hours (Undergraduate)
Before the modern nation-states of India and Pakistan came into being, the term "India" referred to the South Asian region, a region that has been and is the home of many cultures and societies. These cultures have also reached beyond the region to create rich and paradoxical diaspora experiences in Europe and the Americas. Tales of India will explore a variety of literatures, ancient and contemporary, that illuminate the worlds of South Asian peoples in their homelands and in the transnational life of the diaspora. Themes will include love, power, religious meaning/religious identity, and cultural difference.

AAS 224 | HINDU THOUGHT AND CULTURE | 4 quarter hours (Undergraduate)
An exploration of Hinduism as a civilization whose key reference points are religious in the sense understood in the West (ritual and transcendance), yet which finds expression in a "high culture" of literary works, political and social theory, art and architecture, music and dance, and folk and popular stories, songs and plays. Cross-listed with REL 242.

AAS 225 | RELIGION AND SOCIAL ENGAGEMENT: SOCIALLY ENGAGED BUDDHISM | 4 quarter hours (Undergraduate)
An investigation of the ways in which various religious traditions engage the social order. Traditions, persons and movements that form the focus of the course will vary from section to section (in this case the focus is on Buddhism). The course will integrate theory and practice in studying forms of religious engagement. All students will perform some service to a community or within a community organization or agency. Sophomore standing or above is a prerequisite for this class.

AAS 226 | ETHICAL WORLDS: MORAL ISSUES ACROSS CULTURES: ATOM BOMB DISCOURSE | 4 quarter hours (Undergraduate)
An exploration of religion and ethics from a comparative and international perspective. Ethical dimensions of diverse world traditions (in this case the development and use of atomic weaponry) will be investigated within their own particular historical and cultural contexts, and students will be asked to consider and evaluate their own ethical orientations in the light of these studies.
AAS 227 | BEYOND PARASITE: SOUTH KOREAN CULTURE THROUGH FILM | 4 quarter hours
(Undergraduate)
In 2012 the explosion of "Gangnam Style" on YouTube helped to usher in a new generation of American K-Pop addicts and interest in Korea culture. In 2019 Parasite became the first non-English film to win the Academy Award for best picture and driving a new wave of interest in yet another underappreciated genre of Korean cultural creation. It also brought new global attention to the domestic social issues that it depicted in South Korea concerning class, gender, race, and economic development. Changes and challenges in Korean society are reflected in its cultural products such as film. This course examines Korean society, culture, and history through the lens of cinema while critically engaging contemporary local and global social issues. This course will critically examine films from various periods of Korean history such as postwar cinema, the renaissance of the 1990s-2000s, and the modern era which will include blockbusters, independent films, and Academy Award winning masterpieces. Through an examination of recurring themes such as tradition, national division, gender, colonialism, and identity, students will learn to analyze, evaluate, and engage with Korean film media while improving their intercultural communication skills. No prior knowledge of Korea or the Korean language is necessary and all films will have English subtitles.

AAS 233 | THE RISE OF MODERN CHINA | 4 quarter hours
(Undergraduate)
Examines the history of Chinese civilization from the 18th century to the present. We will survey the height of the authority of the Qing Imperial government, its dissolution in the 19th century, and the creation of a revolutionary China in the 20th century. Topics include the Opium War and China's foreign relations, the introduction of Westernized technology and education, and the rise of Communism under the leadership of Mao Zedong. Also considers the ways in which our contemporary understanding of China is formed by recent developments in the media - Chinese news and film. Cross-listed with HST 233.

AAS 240 | MODERN JAPANESE LITERATURE | 4 quarter hours
(Undergraduate)
This course is an introduction to the major authors and works of Japan's modern period, from the 18th century through the 21st century. We will examine writers, works, and literary institutions in historical context to explore how Japanese writers engaged the modern era. This was the period when modern literature, more specifically the novel (shosetsu), was emerging internationally as a new technology of state-building. Modern Japan was highly literate with a flourishing popular culture that included diverse literary forms (high and low) that would be refashioned, contested and sometimes abandoned as the institution of literature was established by the turn of the 20th century, although not without ongoing contestation. Themes may include: the West, Orientalism and Counter-Orientalism; protest literature by women, workers and ethnic minorities; and modernism and modernity. Authors may include: Higuchi Ichiyo, Natsume Soseki, Yosano Akiko, Akutagawa Ryunosuke, Kobayashi Takiji, Murakami Haruki, and others. Cross-listed with MOL 240.

AAS 241 | RELIGION IN CHINESE HISTORY, SOCIETY, AND CULTURE | 4 quarter hours
(Undergraduate)
An exploration of the Chinese religious landscape, focusing on social and practical dimensions of Chinese religion, such as state rituals and private cults, liturgies and individual practices of Taoist priests and adepts, politico-religious ideas that inspired popular messianic movements throughout Chinese history, and interrelations of Buddhist and Taoist clergies and institutions in the state. Cross-listed with REL 241.

AAS 242 | LITERATURE AND RELIGION IN CHINA | 4 quarter hours
(Undergraduate)
An exploration of religious themes reflected in diverse forms of Chinese story literature from ancient to contemporary times. Cross-listed with REL 248.

AAS 243 | BUDDHIST THOUGHT IN CULTURAL CONTEXT | 4 quarter hours
(Undergraduate)
An exploration of the Buddhist tradition, using original sources, from its beginnings in ancient India to a world religion with strong roots in the US. Students will discover how Buddhism interacts with cultures from Sri Lanka and Thailand to China, Japan and Tibet. Although this course is online, students in the region will have the opportunity to practice meditation at a Chicago zendo and tour the Buddhist art at the Chicago Art Institute. Cross-listed with REL 243.

AAS 244 | TRADITIONS OF CHINESE POPULAR CULTURE | 4 quarter hours
(Undergraduate)
Promotes an understanding of Chinese worldview and life in the perspective of the common Chinese people from ancient to modern times. Based on historical and modern texts in translation, some historical and ethnographic studies, as well as visual and aural materials, the course explores gender and generational relations and conflicts, ancestor veneration, the worlds of ghosts and gods, festivals, art, and entertainment, but also aspects of misery and social unrest. Although the course will draw largely on popular and entertaining sources, it will also pay attention to historical developments, the relationship between popular and elite traditions, as well as sociological and anthropological issues arising from these contexts. Cross-listed with REL 246.

AAS 245 | RELIGION IN JAPANESE HISTORY, SOCIETY, AND CULTURE | 4 quarter hours
(Undergraduate)
Explores the specific interplay between religion and culture in Japan. Taking historical and cultural factors into account, it considers prehistoric Japanese religion, ancient imperial myths, the assimilation of Buddhism, Confucianism, and continental (Chinese/Korean) culture, the religious and aesthetic worlds of the court nobility and the warrior class, popular mountain cults, the revival and systematization of Shinto, the impact of western culture, Japanese ultra-nationalism, and the religious situation in the post-war period. Cross-listed with REL 245.

AAS 246 | ASIAN FOREIGN POLICY | 4 quarter hours
(Undergraduate)
This course surveys the international relations of selected Asian countries. For each country, the course presents the basic historical background shaping foreign relations, introduces the external and domestic influences on foreign policy, and identifies emerging international challenges. It examines both the economic and military-security dimensions of Asian foreign relations. Cross-listed with PSC 246.

AAS 247 | LITERATURE AND RELATION IN JAPAN | 4 quarter hours
(Undergraduate)
Focuses on the pervasive influence of religious thought and sentiment on Japanese literature from ancient to modern times and explores the intricate relationship between religion, aesthetics, and the arts in Japanese culture. Considers original works including ancient Japanese mythology and poetry, the memoirs of court ladies and Buddhist hermits, romance, epics, folktale and social satire, with attention to their historical, social, religious and social dimensions, as well as to the individual experience expressed in them. Cross-listed with REL 247.
AAS 248 | CHINESE CALLIGRAPHY | 4 quarter hours (Undergraduate)
An introduction to the art of Chinese calligraphy. Hands-on practice as well as history and theory of the art. This course is open to students with no background in Chinese calligraphy, language, literature, or culture. Cross-listed with MOL 248.

AAS 249 | JAPANESE WOMEN'S LITERARY MASTERPIECES | 4 quarter hours (Undergraduate)
The course begins over 1000 years ago with masterpieces of world literature including The Tale of Genji and classical poetry, traverses through the modern period of New Women Bluestocking and arrive in the 21st century to reflect on the richness of Japanese women's writings across time and space. * No prior knowledge of Japanese language, history or culture.

AAS 250 | CHINESE CINEMA: A WINDOW ON CHINA | 4 quarter hours (Undergraduate)
This course studies Chinese cinema, the visualized artistic reflection of Chinese society, ideology, and culture from four perspectives: Historical, directorial, thematic, and artistic. It will cover the history of Chinese cinema, from the birth of the first Chinese film through the Silent Age, 1st Golden Age, 2nd Golden Age, Pre- and Post-War Era, Pre- and Post "Cultural Revolution" Period, and the Fifth Generation up to the emerging Sixth generation and beyond. Through substantial exposure and analysis of selected movie classics and subsequent classroom discussions, students will be well informed about the major developments and trends of each period in the history of Chinese cinema. Students will also explore the historical backgrounds, artistic characteristics, and key directors and stars of important Chinese movies as well as cinematic terminologies, the formation of Chinese cinematic theories, and innovative cinematic techniques.

AAS 251 | SOUTH ASIA TO C. 900 C.E.: THE STONE AGE TO THE GOLDEN AGE | 4 quarter hours (Undergraduate)
The course follows the development of the history of the region from the earliest phases of human settlement, the first civilization in the Indus valley, and the formation of the Mauryan and Gupta empires. It will analyze the growth of different state structures from tribal/lineage based state to these great empires. It incorporates the rise of regional states and the growing importance of trade to linking South Asia with the West. It will also examine the development of different religious traditions from Vedic Brahmanism to Buddhism to Jainism and the very early days of Islam in the region. The central question of this course will be how to contextualize the relationship between structures like family, law, caste, community, state and the tumultuous changes in the subcontinent over this long period. Cross-listed with HST 151.

AAS 252 | SOUTH ASIA, C. 900 TO 1707: SULTANS, MUGHALS, AND ISLAMIC EMPIRES | 4 quarter hours (Undergraduate)
The course begins with the transformation of society from the 'ancient' to the 'medieval', and compares this to developments in Europe in the feudal age. It then incorporates specific political, social, and cultural developments in South Asia that came about with the establishment of powerful Islamic states in a region where Muslims were a minority. These issues will inform the analysis of the Ghaznavid and Ghurid invasions, the Delhi Sultanate, the Vijayanagara empire and the Mughal empire. The course will end with the Marathas and the decline of the Mughal empire, and the rising influence of the British. The central themes concern how the state, economy, culture, and society developed in the period when Islam became firmly embedded in South Asia. Cross-listed with HST 152.

AAS 253 | ASIAN POLITICS | 4 quarter hours (Undergraduate)
An introduction to contemporary government and politics in Asia, focusing on China and Japan, with comparative reference to other Asian and non-Asian political systems. Special attention will be made to the emerging political and economic role of the Pacific Rim. Cross-listed with PSC 253.

AAS 254 | SOUTH ASIA, 1707 - 1947: RISE AND FALL OF THE BRITISH RAJ | 4 quarter hours (Undergraduate)
The course begins with the decline of the Mughal Empire, and then moves to examine the British empire, the nationalist movement and finally to independence and partition in 1947. The central questions of this course continue to be relevant in the post-colonial period: how we understand the distinctive form of modernity that has developed in South Asia. Taking a comparative approach as often as possible, the course examines the fundamental ways that Britain was as transformed by the development of its empire as was colonial India. The course constantly deconstructs easy binaries of self and others/ East and West by examining the differences within Indian and British society. Cross-listed with HST 153.

AAS 256 | EAST ASIA, C.1800-PRESENT | 4 quarter hours (Undergraduate)
Beginns with the reshaping of East Asian relations from the late 18th century following the realignment of the region after the expulsion of European Catholic missionaries. Follows the radical shift in the relations between these countries as they all sought to respond to the imperial challenges that the West imposed. Explores the central role of Japan and its effort to build an empire in and beyond East Asia from the late 19th century through its defeat in World War II and the lasting historical legacy of that history in the region. Cross-listed with HST 163.
AAS 267 | WORLD ECONOMY: STATES, MARKETS AND LABOR | 4 quarter hours (Undergraduate)
This course introduces students to competing economic and political frameworks that analyze the interaction of states, markets and societies. The overall theme of the course is the spread of capitalism and the tandem disembodiment of economic relations from social relations beginning with the Industrial Revolution in the 18th century through to the early 21st century.

AAS 272 | ANIME AND MANGA | 4 quarter hours (Undergraduate)
This course examines the development of anime and manga in Japan from their inception to their explosion as international phenomena in recent decades. We consider anime and manga as forms of artistic expression that depend upon and parallel key Japanese visual forms of handscroll painting and woodblock prints. Students learn the ideas, ideals and values in Japanese cinematic and visual expression, and develop skills at analyzing anime and manga as artistic forms. The processes of drawing/creating anime and manga are considered, both form and content of anime and manga are discussed. Cross-listed with HAA 273.

AAS 273 | GLOBAL ASIAN LITERATURE | 4 quarter hours (Undergraduate)
Introduction to selected authors, genres, and topics in Asian American or Asian diasporic literature from the mid-nineteenth century to the present. Variable emphasis on different groups, genres, or historical periods. WRD 103 or HON 100 is recommended for this course. Cross-listed with ENG 273.

AAS 287 | INTRODUCTION TO ASIAN PHILOSOPHY | 4 quarter hours (Undergraduate)
What must we do in order to live a good life? In this class, we will examine this question through our study of Asian philosophy. In particular, we will ask – do we have a duty to serve society? what is the relationship among desire, happiness, knowledge and virtue? what is the relationship among the human, the divine, and the world? While this class will be an introduction, it will not be primarily a survey. Rather we will examine and discuss several texts in depth, representing four of the philosophical traditions in South and East Asia – Hinduism, Buddhism, Confucianism, and Daoism. The objectives of the course are to gain an understanding of Asian philosophy while exploring some of our own philosophical questions about the purpose and meaning of life.

AAS 290 | TOPICS IN ASIAN AMERICAN STUDIES | 4 quarter hours (Undergraduate)
This course, which varies from quarter to quarter, explores topics in Asian-American studies.

AAS 305 | RELIGION AND CULTURE IN SOUTH ASIA | 4 quarter hours (Undergraduate)
This course examines the interplay between religion and society in pre-modern and contemporary South Asia. The course will use such materials as epic texts, poetry, novels, journalism, film, music and art to explore how religion, gender, social class and politics are experienced in the lives of people in India and Pakistan. Cross-listed with REL 305.

AAS 315 | THE STATE & ECONOMIC GROWTH IN EAST ASIA | 4 quarter hours (Undergraduate)
A survey course focused upon key geographical factors contributing to the emergence of Japan as an international economic leader, and the rapid development of the People’s Republic of China, Taiwan, Hong Kong, and South Korea, among others, as global economic players. Cross-listed with GEO 315.

AAS 324 | JAPANESE POPULAR CULTURE | 4 quarter hours (Undergraduate)
Globally celebrated for its creativity, world-building, and complexity, Japanese pop culture—including anime, manga, J-pop, drama, collectible figurines, cosplay, tv drama, film, and video games—continues to push the boundaries of what it means to be human in the 21st century. Students will strengthen skills to analyze screen arts and other cultural products with specialized attention to how the content is conveyed in historical context. Themes include cyber-physical blending, gender-bending and performance, historical memory, national identity, and what it means to be human.

AAS 325 | QUEER JAPAN | 4 quarter hours (Undergraduate)
This course surveys representations of same-sex sexuality from the 14th century to the present day in Japan. We will explore the intersection of history, politics, art, and culture through historiography, literature, film, photography, music, cartoons, and animation, examining “traditional” male-male sexuality, the emergence of the modern era of texts reflecting female-female sexuality, as well as the formation of new consciousness and subjectivities throughout the 20th century and into the 21st. Cross-listed with MOL 325.

AAS 337 | ASIAN AMERICAN MEDIA REPRESENTATION | 4 quarter hours (Undergraduate)
This course examines the ways in which Americans of Asian descent are portrayed in popular media such as television, film, newspapers, and advertisement.

AAS 338 | ASIAN CULTURE AND COMMUNICATION | 4 quarter hours (Undergraduate)
Reviews major Asian philosophical and religious traditions such as Hinduism, Confucianism, Taoism, and Buddhism and examines how these traditions influence and affect Asian cultures and communication behaviors, particularly communication among Indians, Chinese, Japanese, Koreans, and Asian Americans in various contexts. Cross-listed with INTG 338.

AAS 341 | ZEN MIND | 4 quarter hours (Undergraduate)
A study of the thought and practice of Zen Buddhism, focusing on the role of Zen in shaping ideas, ethics and the arts in Japan and America. Cross-listed with REL 342.

AAS 342 | ASIAN POLITICAL ECONOMY | 4 quarter hours (Undergraduate)
This course offers an overview of the geopolitics, culture and history behind the “East Asian Miracle.” It provides students with the tools to analyze the core theories, actors, and current and historical events in the study of the international relations, business, politics, and economy of Asia. Cross-listed with PSC 343.

AAS 343 | JAPANESE AMERICAN HISTORY IN THE US/CHICAGO | 4 quarter hours (Undergraduate)
The second course in a sequence of three content-based courses designed for advanced high learners and native speakers of Japanese to discuss authentic cultural, historical, or literary materials. Topics vary with offering; see current schedule for details. Recommended for students who have completed JPN 201-202-203 and JPN 311-312-313, or have equivalent proficiency in Japanese.
AAS 344 | YOGA AND TANTRA | 4 quarter hours
(Undergraduate)
An examination of the history, philosophy and cultural meaning of body-oriented liberative techniques as they developed on the Indian subcontinent and Himalayan region in Hinduism and Buddhism. Students registering for this course are expected to have studied one or both of these traditions in courses such as REL 142, 143, 242, or 243, or in other courses. Background in theory is also useful. Cross-listed with REL 344.

AAS 345 | MORAL PHILOSOPHY, POLITICAL POWER, & RELIGION IN PRE-MODERN CHINA | 4 quarter hours
(Undergraduate)
An exploration of the major traditions informing pre-modern Chinese perspectives on morality, politics, social and personal formation, as well as cosmological and religious anchoring. Topics include Confucianism, Mohism, early Daoism, Legalism, correlative cosmology, liturgical Daoism, Buddhism, Neo-Confucianism, and also China’s traumatic encounter with western power and thought. The course not only addresses comparative issues concerning Chinese values in relation to western views, but also questions common comparative constructs such as those contrasting religion & power; individualism & communalism, and tradition & modernity. Cross-listed with REL 343.

AAS 350 | ETHNIC MINORITY YOUTH: ADAPTATION, IDENTITY AND DEVELOPMENT | 4 quarter hours
(Undergraduate)
Utilizing an ecological systems perspective, this course examines the challenges and resiliencies faced and acquired by ethnic minority youth. This course will closely examine developmental issues during adolescence that are complicated by being an ethnic minority, or child of immigrant parents. Issues examining the intersection of socio-political power dynamics, with acculturation/cultural adaptation, ethnic identity formation, and intergenerational family conflict will particularly be examined.

AAS 351 | JAPANESE POLITICS | 4 quarter hours
(Undergraduate)
This course examines the meeting of the ancient and the modern in the context of 21st century politics in Japan. Exploring political, economic, and cultural practices and institutions, this class provides an in-depth understanding of Japan’s political system from its origins in samurai traditions to current challenges facing Japan’s democracy and economy. Cross-listed with PSC 350.

AAS 352 | CHINESE POLITICS | 4 quarter hours
(Undergraduate)
This course examines the political system of China and the major domestic issues in contemporary Chinese politics. The course explores the rise and early governance of the Chinese Communist Party, the economic and political developments since the start of the reform (post 1978) era, and the main political challenges facing Chinese society today. Cross-listed with PSC 352.

AAS 363 | YELLOW PERIL/YELLOW POWER: ASIAN AMERICANS IN THE MEDIA | 4 quarter hours
(Undergraduate)
This seminar course explores the landscape of popular and visual culture in the U.S. along the axes of race, ethnicity, class, gender, and sexuality and cultural "difference." Using an intersectional and interdisciplinary approach, the course also examines Asian Pacific Islander American representation and cultural production. Cross-listed with CMNS 563.

AAS 367 | LITERATURE OF THE VIETNAM WAR | 4 quarter hours
(Undergraduate)
This course examines novels, short stories, and essays on the Vietnam war and its aftermath, Vietnamese society, literature of the Vietnam Era.

AAS 373 | KYOTO (WORLD CITIES) | 4 quarter hours
(Undergraduate)
Explores the art, architecture, and urban plan of Kyoto, the ancient capital of Japan. Kyoto became the seat of government and the home of the imperial court in 794, and it continued to serve as the cultural and religious center of the land until the nineteenth century. This course considers major artistic developments as they relate to main sites in Kyoto, especially palaces, temples, and shrines. The eras covered extend from the Heian to the Meiji period.

AAS 385 | INTERNATIONAL ADVERTISING | 4 quarter hours
(Undergraduate)
This course informs students about the complexity and nuances of marketing communications in the global marketplace. We will explore the factors affecting the views of funny TV commercials from Japan, emotional short films from Thailand, controversial ads from China, and many more interesting ad campaigns from around the globe. Understand why Asian marketers made the ads the way they are as we talk about the theories behind cultural dimensions. As we progress, we learn not only about advertising but cultures. How do people from other countries behave and why. This course is perfect for someone who wants to understand the nuances of cultural difference and learn about the Asian way to advertise.

AAS 395 | INDEPENDENT STUDY IN GLOBAL ASIAN STUDIES | 4-8 quarter hours
(Undergraduate)
Independent study. Variable credit.

Bilingual-Bicultural Education (BBE)

BBE 96 | 100 FIELD EXPERIENCE HOURS IN ESL / BE DOCUMENTED | 0 quarter hour
(Undergraduate)
Required of all Bilingual Bicultural students. Observations and participatory experience with children and youth in a school or agency. The observation hours are a prerequisite for student teaching and related professional courses. (0 credit hours)

BBE 97 | 100 FIELD EXPERIENCE HOURS IN ESL / BE DOCUMENTED | 0 quarter hour
(Graduate)
Required of all Bilingual Bicultural students. Observations and participatory experience with children and youth in a school or agency. The observation hours are a prerequisite for student teaching and related professional courses. (0 credit hours)
BBE 300 | TEACHING ELEMENTARY ENGLISH LANGUAGE LEARNERS: THEORY, POLICY AND PRACTICE | 4 quarter hours (Undergraduate)
This introductory course offers candidates a foundation in the critical elements in the education of English Language Learners (ELL) in the Elementary grades: second language acquisition, consequences of additive and subtractive bilingualism, culture and diversity, policies and law, ELL family involvement, language development standards, advocacy, and assessment. The course analyzes factors that influence the acquisition of the first and second language. Emphasis is given to the linguistic process in an individual's acquisition of two languages and the context in which both languages are developed alongside academic attainment. Multicultural perspectives and approaches are examined in relation to culturally and linguistically diverse students' backgrounds and experiences. Teaching practices, curriculum development, appropriate instructional materials and assessments are examined. Family/community relations and partnerships, as well engagement of advocacy are also explored. Current federal and state policies related to ELLs are addressed. This course covers the Illinois Professional Teaching Standards related to addressing the academic, linguistic, and socio-emotional needs of ELLs.

BBE 301 | TEACHING ADOLESCENT ENGLISH LANGUAGE LEARNERS AND DIALECT SPEAKERS ACROSS THE CURRICULUM | 4 quarter hours (Undergraduate)
This course provides educators across disciplines in the middle and high school grades foundational knowledge for teaching and assessing English learners (ELs) and speakers of non-dominant varieties of English. The course focuses on fundamental concepts of second language acquisition in various language learning contexts, teaching and assessing English as a second language, policy and law relating to ELs' education, and the importance of maintaining ELs' home language(s) and culture(s). The course analyzes factors that influence the acquisition of first and second languages, including linguistic, cognitive, political, social, cultural and affective dimensions. Interdisciplinary perspectives of second language development in classroom practice is also addressed. TCH 302 is a prerequisite for this class.

BBE 302 | BILINGUAL-BICULTURAL PROGRAM DESIGN AND CURRICULUM DEVELOPMENT | 4 quarter hours (Undergraduate)
Reviews theory and application of curriculum development to bilingual instructional programs, such as design, organizational patterns, materials and media, teacher training, parent and community involvement, and evaluation. Principal bilingual education program models are examined and analyzed. Includes a review of multietnic literature and literacy that advocates for students' self-concept, acceptance, and sense of identity (includes 15 clinical hour requirement).

BBE 304 | LANGUAGE, LITERACY AND CULTURE | 4 quarter hours (Undergraduate)
This course examines the linguistic, cultural, and social contexts in which culturally and linguistically diverse communities operate and their relation to educational practices. The class addresses sociolinguistic and multicultural perspectives on language and cultural diversity within and outside the U.S. Case studies examined in class readings provide the conceptual framework for multicultural education in the context of language and literacy development. This course is designed to assist future and current teachers in attaining an expanded understanding on the linguistic, cultural, and sociocultural theoretical frameworks that are at the core of educational transformation and social justice in the US. The course also aims to examine educators' roles in creating culturally and linguistically responsive curricula for diverse students. Topics include language and ethnicity, language and identity, language and social class, literacy practices, language standardization, language discrimination, dialects, language loss, and heritage languages. Includes clinical hour requirement.

BBE 305 | THEORETICAL FOUNDATIONS IN BILINGUAL EARLY CHILDHOOD DEVELOPMENT | 4 quarter hours (Undergraduate)
This course is designed to equip bilingual childhood teachers with the knowledge and philosophy to work effectively in the education of early childhood language minority students in the context of bilingual/ESL programs. The course will explore the historical, socio-political and legal foundations of bilingual education programs in the United States. It will examine different models of language education programs: immersion, ESL pullout, transitional bilingual education, maintenance bilingual, enrichment or dual language. It will also address psycholinguistic and sociolinguistic principles upon which they are based.

BBE 306 | FOUNDATIONS OF ENGLISH AS SECOND LANGUAGE INSTRUCTION IN EARLY CHILDHOOD EDUCATION | 4 quarter hours (Undergraduate)
Candidates explore English as a Second Language (ESL) theory and practice as it applies to young children and their families. Candidates also study the sociocultural, pedagogical, linguistic, and political issues underlying current models of education for non-English speaking children, as well as models for ESL instruction in early childhood settings. Critical emphasis is placed upon theories that support young learners in second language acquisition.

BBE 307 | EQUITY ISSUES IN ASSESSMENT OF LANGUAGE LEARNERS | 4 quarter hours (Undergraduate)
Examines assessment procedures, including standardized and performance-based, as well as ethical standards and practices used in the assessment of culturally and linguistically diverse students. Equity and legal issues related to assessment practices, research, first and second language acquisition, bilingualism, cultural and sociopolitical issues related to assessment are discussed. Emphasizes existing biases in assessment and non-discriminatory assessment practices and policies. National, state, and local assessment policies are examined. Includes clinical hour requirement.

BBE 310 | SPECIAL TOPICS IN LANGUAGE EDUCATION AND CULTURE | 4 quarter hours (Undergraduate)
This course is designed to explore a specific area of study in the field of linguistics, such as sociolinguistics, psycholinguistics, applied linguistics, language planning and policy, and cognitive bilingualism, among other related topics. The particular focus of study will vary and change as the course is offered. Includes clinical hour requirement.

TCH 302 is a prerequisite for this class.
BBE 311 | FUNDAMENTALS OF ENGLISH LANGUAGE LEARNER EDUCATION | 4 quarter hours
(Undergraduate)
This introductory course offers candidates a foundation in the critical elements in the education of ELLs: second language acquisition, consequences of additive and subtractive bilingualism, culture and diversity, policies and law, ELL family involvement, language development standards, advocacy, and assessment. The course analyzes factors that influence the acquisition of the first and second language. Teaching practices, curriculum development, selection of instructional materials, use of appropriate language and content assessments are examined. This course covers the Illinois Professional Teaching Standards related to addressing the academic, linguistic, and socio-emotional needs of ELLs.

BBE 316 | SOCIOCULTURAL AND HISTORICAL PERSPECTIVES IN BILINGUAL EDUCATION | 4 quarter hours
(Undergraduate)
Introduces students to, and engages them in reading, research design within the context of bilingual-bicultural education and second language learning and instruction. Students will consider important linguistic and sociocultural issues in language education as examined with various research methods, including quantitative, qualitative, and mixed methods. Students will conduct and present a mini-action research project about a personally meaningful topic, problem, or issue related to language and culture education. (Includes 15 clinical hour requirement.)

BBE 320 | ANALYZING RESEARCH ON IDENTITY, CULTURE & LANGUAGE EDUCATION | 4 quarter hours
(Undergraduate)
Introduces students to, and engages them in reading, research design within the context of bilingual-bicultural education and second language learning and instruction. Students will consider important linguistic and sociocultural issues in language education as examined with various research methods, including quantitative, qualitative, and mixed methods. Students will conduct and present a mini-action research project about their own learning and development, and will write a cogent review of literature about a personally meaningful topic, problem, or issue related to language and culture education. (Includes 15 clinical hour requirement.)

BBE 321 and at least 4 BBE courses (or equivalent) is a prerequisite for this class.

BBE 324 | METHODS OF TEACHING ENGLISH AS A SECOND LANGUAGE | 4 quarter hours
(Undergraduate)
This course introduces instructional methods, approaches, strategies and materials for teaching English language learners. Particular importance is placed on the relationship of reading and writing development to second language acquisition, teaching language and content, and fostering cognitive development through the four domains of reading, writing, speaking and listening. Includes clinical hour requirement.

BBE 325 | BILITERACY PRACTICES IN BILINGUAL EDUCATION AND ESL | 4 quarter hours
(Undergraduate)
Analyzes and evaluates methods and materials used in bilingual education and ESL programs. Stresses effective instructional strategies and best practices in first and second language literacy development and content learning. Reviews language teaching approaches and cooperative models of learning relating to development of reading and writing in the first and second language. Presents the acquiring language through content learning versus learning language programs. Investigates appropriate first language usage in bilingual classrooms, focusing on the different content areas, appropriate terminology for native language instruction, and the study of language distribution issues (includes 15 clinical hour requirement).

BBE 326 | THEORETICAL FOUNDATIONS OF TEACHING ESL AND WLE | 4 quarter hours
(Undergraduate)
This course introduces key foundational theories of English as a second language and world language education that form the basis of our development as language education practitioners and professionals. The course explores theories of language, theories of learning and learners from early childhood to adult, and theory-driven teaching, as well as the philosophical paradigms that inform them. Foundational theories are introduced as problem-solving tools that provide interdisciplinary perspectives of English as a second language and world language education, and as frameworks for critically reading literature on language education theory, research, and method.

BBE 330 | LATINOS AND EDUCATION | 4 quarter hours
(Undergraduate)
This course examines historical and current issues related to the education of Latinos in the US that includes PK-12 and higher education. The course explores the sociolinguistic, theoretical, historical, sociocultural, legal, and political contexts that shape the educational experience of Latinos in the US. Demographic trends and data are examined in light of the various characteristics that make up the diverse Latino population. The course also analyses the theoretical, historical, and political constructs of bilingual schooling and the underlying assumptions and implications for Latino students. Current research conducted by prominent scholars in the field are presented and examined. The course considers factors that influence, positively or negatively, the educational attainment of Latino students. The readings and class discussions emphasize how power relations in the wider society influence patterns in Latino education outcomes and policy-making. The course also examines arguments, assumptions, and interpretations of current and past legislation in regards to the education of Latinos in the US.
BBE 350 | ENGLISH LANGUAGE LEARNERS IN THE MIDDLE GRADES | 4 quarter hours  
(Undergraduate)  
Presents an introduction to the field of English as a second language, with attention to fundamental concepts of second language acquisition in various language learning contexts. The course analyzes possible factors that influence the acquisition of the first and second language, including linguistic, cognitive, social, and affective dimensions. Emphasis is given not only to the linguistic process in individuals? acquisition of two languages, but also the social, cultural, political, and educational context in which both languages are developed alongside academic attainment. Discusses interdisciplinary perspectives of second language acquisition and their application to classroom practices. This introductory course is designed for mainstream educators and covers the Illinois Professional Teaching Standards related to addressing the academic, linguistic, and socio-emotional needs of ELLs. ***This course counts toward ESL endorsement. Co-requisites for this course are MGE 301 and MGE 311. In this course, students will: 1. MGE 300 and Junior standing are prerequisites for this class.

BBE 355 | HOW ENGLISH WORKS: ENGLISH SYNTAX FOR ESL AND BILINGUAL EDUCATION TEACHERS | 4 quarter hours  
(Undergraduate)  
This course examines the structure of English from a descriptive linguistic framework. It addresses the inner workings of the English language through objective investigation of the lexical, phrasal, and clausal structures of the language to provide ESL and bilingual education teachers the syntactic foundation of the language they will teach. Topics include parts of speech, constituency, phrase structure, clause types, complements versus adjuncts, question formation, tense, negation, and the grammar of dialects. Additionally, this course will provide special emphasis on how these areas of English grammar interface with Common Core and WIDA standards for ELLs.

BBE 360 | SECOND, WORLD AND HERITAGE LANGUAGE ACQUISITION | 4 quarter hours  
(Undergraduate)  
This course is an introduction to the theoretical study of second, world and heritage language acquisition (SLA) from a generative and psycholinguistic perspective. The content of the class is founded on the major concepts and issues of language acquisition, including UG-access, L1-transfer, age effects, and the acquisition of form vs. meaning. The course pays particular attention to empirical second and world language studies at the syntax/semantics interface. Course readings and discussion examine the complexities of the processes involved in acquiring a world language that includes the relation between first and second language acquisition; contrastive and error analysis; interlanguage; the social and cultural influences on SLA; learner variability; learning strategies; and classroom interaction analysis. Issues surrounding second, world and heritage language acquisition are discussed and deliberated through university classroom experiences as well as required field experiences. Includes clinical hour requirement.

BBE 366 | FIRST AND SECOND LANGUAGE ACQUISITION | 4 quarter hours  
(Undergraduate)  
This course examines principles, processes, theories, and research in first and second language acquisition and bilingualism with implications for language teaching. The course provides an introduction to the fields of first and second language acquisition (SLA) that include universal, individual, and social features and dimensions of the second language learning process that determine the nature and path of acquisition. These features include age and critical periods; cross-linguistic influences; role of the environment; cognitive contributions; interlanguage variability; linguistic features; motivation; and affect. Sociocultural and sociopolitical aspects of second language acquisition and bilingualism are also discussed. Includes clinical hour requirement.

BBE 370 | LANGUAGE, LITERACIES AND CULTURES | 4 quarter hours  
(Undergraduate)  
This course examines the interdisciplinary study of first, second and world languages and multiple L1 and L2 literacies in their cultural, social, and political contexts, with emphasis on issues of ethnicity, identity, social class, gender, power, and other related topics relative to ideologies of reading and writing the world through reading and writing the word. Special focus is placed on these topics as they pertain to the extent research on language, literacy, and culture represented in language communities, as well as in the literature, art, music, and popular culture of those communities as a means of advocating for students’ sense of identity as global citizens. Includes clinical hour requirement.

BBE 400 | TEACHING ELEMENTARY ENGLISH LANGUAGE LEARNERS: THEORY, POLICY AND PRACTICE | 4 quarter hours  
(Graduate)  
This introductory course offers candidates a foundation in the critical elements in the education of English Language Learners (ELL) in the Elementary grades: second language acquisition, consequences of additive and subtractive bilingualism, culture and diversity, policies and law, ELL family involvement, language development standards, advocacy, and assessment. The course analyzes factors that influence the acquisition of the first and second language. Emphasis is given to the linguistic process in an individual’s acquisition of two languages and the context in which both languages are developed alongside academic attainment. Multicultural perspectives and approaches are examined in relation to culturally and linguistically diverse students' backgrounds and experiences. Teaching practices, curriculum development, appropriate instructional materials and assessments are examined. Family/community relations and partnerships, as well engagement of advocacy are also explored. Current federal and state policies related to ELLs are addressed. This course covers the Illinois Professional Teaching Standards related to addressing the academic, linguistic, and socio-emotional needs of ELLs.

BBE 402 | DESIGNING LANGUAGE PROGRAMS | 4 quarter hours  
(Graduate)  
Reviews theory and application of curriculum development to bilingual instructional programs, such as design, organizational patterns, materials and media, teacher training, parent and community involvement, and evaluation. Principal bilingual education program models are examined and analyzed. Includes a review of multiethnic literature and literacy that advocates for students’ self-concept, acceptance, and sense of identity. Includes clinical hour requirement.
BBE 404 | LANGUAGE, LITERACY AND CULTURE | 4 quarter hours (Graduate)
This course examines the linguistic, cultural, and social contexts in which culturally and linguistically diverse communities operate and their relation to educational practices. The class addresses sociolinguistic and multicultural perspectives on language and cultural diversity within and outside the U.S. Case studies examined in class readings provide the conceptual framework for multicultural education in the context of language and literacy development. This course is designed to assist future and current teachers in attaining an expanded understanding on the linguistic, cultural, and sociocultural theoretical frameworks that are at the core of educational transformation and social justice in the US. The course also aims to examine educators' roles in creating culturally and linguistically responsive curricula for diverse students. Topics include language and ethnicity, language and identity, language and social class, literacy practices, language standardization, language discrimination, dialects, language loss, and heritage languages. Includes clinical hour requirement.

BBE 406 | SOCIOCULTURAL AND HISTORICAL PERSPECTIVES IN BILINGUAL EDUCATION | 4 quarter hours (Graduate)
Presents theoretical constructs of bilingual schooling from early childhood through adult in the U.S. and other multilingual societies from historical, theoretical and sociocultural perspectives. Emphasizes issues in bilingual education related to the sociocultural and legal aspects of language policy and bilingual education in the U.S. The historical trajectory of language policy and bilingual education in the U.S. is discussed in reference to Native American languages and early European settlers' language schooling practices. The focus shifts to 20th and 21st century bilingual education and immigration policies that have influenced both the advocacy for and opposition to bilingual education as well as the movement to make English the official language in the U.S.

BBE 407 | EQUITY ISSUES IN ASSESSMENT OF LANGUAGE LEARNERS | 4 quarter hours (Graduate)
Examines assessment procedures, including standardized and performance-based, as well as ethical standards and practices used in the assessment of culturally and linguistically diverse students. Equity and legal issues related to assessment practices, research, first and second language acquisition, bilingualism, and cultural and sociopolitical issues related to assessment are discussed. Emphasizes existing biases in assessment and non-discriminatory assessment practices and policies. National, state, and local assessment policies are examined. Includes clinical hour requirement.

BBE 408 | BILINGUAL EARLY CHILDHOOD DEVELOPMENT THEORETICAL FOUNDATIONS | 4 quarter hours (Graduate)
This course is designed to equip bilingual and second language teachers with the knowledge and philosophy to work effectively in the education of early childhood language minority students in the context of bilingual/ESL programs. The course will explore the historical, political and legal foundations of bilingual education programs in the United States. It will examine different models of bilingual programs and the psycholinguistic and sociolinguistic principles upon which they are based.

BBE 409 | ENGLISH AS A SECOND LANGUAGE INSTRUCTIONAL FOUNDATIONS IN EARLY CHILDHOOD SETTINGS | 4 quarter hours (Graduate)
Candidates explore English as a Second Language (ESL), theory, and practice as it applies to young children and their families. Candidates also study the socio-cultural, pedagogical, linguistic, and political issues underlying current models of education for non-English speaking children, as well as models for ESL instruction in early childhood settings. Critical emphasis is placed upon theories that support young learners in second language acquisition.

BBE 411 | FUNDAMENTALS OF ENGLISH LANGUAGE LEARNER EDUCATION | 4 quarter hours (Graduate)
This introductory course offers candidates a foundation in the critical elements in the education of English Language Learners (ELL): second language acquisition, consequences of additive and subtractive bilingualism, culture and diversity, policies and law, ELL family involvement, language development standards, advocacy, and assessment. The course analyzes factors that influence the acquisition of the first and second language. Emphasis is given to the linguistic process in an individual's acquisition of two languages and the context in which both languages are developed alongside academic attainment. Multicultural perspectives and approaches are examined in relation to culturally and linguistically diverse students' backgrounds and experiences. Teaching practices, curriculum development, selection of instructional materials, use of appropriate language and content assessments are examined. Family/community relations and partnerships, as well engagement of advocacy are also explored. Current federal and state policies related to ELLs are also addressed. This course covers the Illinois Professional Teaching Standards related to addressing the academic, linguistic, and socio-emotional needs of ELLs. Status as a Graduate Education student is a prerequisite for this class.

BBE 425 | BILITERACY PRACTICES IN BILINGUAL EDUCATION AND ESL | 4 quarter hours (Graduate)
Analyzes and evaluates methods and materials used in bilingual education and ESL programs. Stresses effective instructional strategies and best practices in first and second language literacy development and content learning. Reviews language teaching approaches and cooperative models of learning relating to development of reading and writing in the first and second language. Presents the acquiring language through content learning versus learning language programs. Investigates appropriate first language usage in bilingual classrooms, focusing on the different content areas, appropriate terminology for native language instruction, and the study of language distribution issues. Includes clinical hour requirement.
BIBE 450 | ENGLISH LANGUAGE LEARNERS IN THE MIDDLE GRADES | 4 quarter hours
(Graduate)

Presents an introduction to the field of English as a second language, with attention to fundamental concepts of second language acquisition in various language learning contexts. The course analyzes possible factors that influence the acquisition of the first and second language, including linguistic, cognitive, social, and affective dimensions. Emphasis is given not only to the linguistic process in individuals’ acquisition of two languages, but also the social, cultural, political, and educational context in which both languages are developed alongside academic attainment. Discusses interdisciplinary perspectives of second language acquisition and their application to classroom practices. This introductory course is designed for mainstream educators and covers the Illinois Professional Teaching Standards related to addressing the academic, linguistic, and socio-emotional needs of ELLs. This course counts toward ESL endorsement. Co-requisites for this course are MGE 401 and MGE 411. In this course, students will: 1.

MGE 400 is a prerequisite for this class.

BIBE 451 | TEACHING DUAL LANGUAGE LEARNERS IN EARLY CHILDHOOD: THEORY, POLICY AND PRACTICE | 4 quarter hours
(Graduate)

This introductory course is designed for early childhood educators and leaders, and covers the academic, linguistic, and socio-emotional needs of young dual language learners (English Learners). This course builds the foundation for the effective learning and teaching of dual language learners (DLLs) in the early childhood context. The course covers: second language acquisition, culture and diversity, policies and law, family involvement, state required second language development standards, advocacy, and assessment. The course analyzes possible factors that influence the acquisition of the first and second language, including linguistic, cognitive, social, and affective dimensions. The consequences of additive and subtractive bilingualism for dual language learners' cognitive development, academic progress, linguistic processing, and metalinguistic abilities are addressed. Cross-cultural aspects are addressed in the contexts of integrating and celebrating their cultural diversity in school/center contexts. Family/community relations and partnerships, as well engagement of advocacy are also explored. Current federal and state policies related to ELLs are addressed.

BIBE 456 | FIRST AND SECOND LANGUAGE ACQUISITION | 4 quarter hours
(Graduate)

This course examines principles, processes, theories, and research in first and second language acquisition and bilingualism with implications for language teaching. The course provides an introduction to the fields of first and second language acquisition (SLA) that include universal, individual, and social features and dimensions of the second language learning process that determine the nature and path of acquisition. These features include age and critical periods; cross-linguistic influences; role of the environment; cognitive contributions; interlanguage variability; linguistic features; motivation; and affect. Socio-cultural and sociopolitical aspects of second language acquisition and bilingualism are also discussed. Includes clinical hour requirement.

BIBE 474 | READING AND ELLS | 4 quarter hours
(Graduate)

This course examines current theories of second language acquisition, literacy teaching and learning for English language learners (ELLs), and explores the relationships between the first and second language as it relates to the approach to teaching for transfer with ELLs. This course links theory and practice by examining pedagogical approaches that most effectively promote ELLs reading and writing development. Multicultural and multilingual characteristics of ELLs are also discussed as they relate to their literacy development. Other factors that impact the academic achievement of ELLs in relation to literacy include sociocultural, sociolinguistic, and sociopolitical dimensions of teaching ELLs. This course is designed to assist teachers with a specialization in reading to develop expanded understandings of theoretical and pedagogical perspectives related to the literacy and language processes of students learning English as a new language. In addition, literacy assessment in the first and second language represented by standardized testing as well as authentic performance-based evaluations are also presented.

BIBE 476 | BILITERACY PRACTICES: SECONDARY/ADULT | 4 quarter hours
(Graduate)

Analyzes and evaluates current research and pedagogical approaches used in second language programs in relation to literacy instruction in the secondary and adult classroom settings. The course focuses on effective instructional strategies and best practices in first and second language literacy development. Special attention is given to content area learning in relation to acquiring literacy skills in a second language for secondary students. The course reviews language and literacy instructional approaches and cooperative models of learning related to the development of reading and writing in the first and second language. Discussions center on issues of acquiring language and literacy skills through content instruction as well as authentic and performance-based assessment. Investigates appropriate first and second language development in bilingual, ESL and foreign language classrooms, focusing on the different aspects of literacy and subject matter learning (includes 15 clinical hour requirement).
This course will use multicultural and multilingual children's books to survey pluralism and linguistic diversity. Students will analyze folk and modern literature, including application of literary and culturally responsive criteria to these selections. Students will explore means of teaching using multicultural literature to encourage diverse learners and learning styles. Students will evaluate literature for its literary value as well as cultural acceptability. Students will read a broad variety of current multicultural literature for children and young adults. Students interested in specializing in one specific age group or grade level may focus their literature selections on literature appropriate for specific ages. Genres of children's and young adult literature will be examined and criteria for selection and renewing collections for school and public libraries will be discussed. Notable authors, poets, and illustrators of children's and young adult literature will be studied with an emphasis on those who contribute to bilingual, multilingual, and multicultural, and multiethnic collections. The use of children's and young adult literature to develop literacy, particularly for ELLs will be studied and the use of children's and young adult literature in meeting national, state, and district standards will be discussed. Children's and young adult literature will be examined from diverse perspectives in particular literature reflecting African American, Asian, Latino, and Native American cultures. However, students will read literature from all cultural groups including traditional children's and young adult literature.

BBE 501 | TEACHING ADOLESCENT ENGLISH LANGUAGE LEARNERS AND DIALECT SPEAKERS ACROSS THE CURRICULUM | 4 quarter hours (Graduate)

This course provides educators across disciplines in the middle and high school grades foundational knowledge for teaching and assessing English learners (ELs) and speakers of non-dominant varieties of English. The course focuses on fundamental concepts of second language acquisition in various language learning contexts, teaching and assessing English as a second language, policy and law relating to ELs' education, and the importance of maintaining ELs' home language(s) and culture(s). The course analyzes factors that influence the acquisition of first and second languages, including linguistic, cognitive, political, social, cultural and affective dimensions. Interdisciplinary perspectives of second language development in classroom practice is also addressed.

TCH 402 is a prerequisite for this class.

BBE 510 | SPECIAL TOPICS IN LANGUAGE EDUCATION AND CULTURE | 4 quarter hours (Graduate)

This course is designed to explore a specific area of study in the field of linguistics, such as sociolinguistics, psycholinguistics, applied linguistics, language planning and policy, and cognitive bilingualism, among other related topics. The particular focus of study will vary and change as the course is offered. Includes clinical hour requirement.

BBE 520 | ANALYZING RESEARCH ON IDENTITY, CULTURE & LANGUAGE EDUCATION | 4 quarter hours (Graduate)

Introduces students to, and engages them in reading, research designed within the context of bilingual-bicultural education and second language learning and instruction. Students will consider important linguistic and sociocultural issues in language education as examined with various research methods, including quantitative, qualitative, and mixed methods. Students will conduct and present a mini-action research project about their own learning and development, and will write a cogent review of literature about a personally meaningful topic, problem, or issue related to language and culture education. For many students, this paper forms the beginning stages of their BBE Masters thesis or M.Ed. paper. (Includes 15 clinical hour requirement.)

SCG 410 or SCG 610 and at least 5 BBE courses (or equivalent) is a prerequisite for this class.

BBE 524 | METHODS OF TEACHING ENGLISH AS A SECOND LANGUAGE | 4 quarter hours (Graduate)

This course introduces instructional methods, approaches, strategies and materials for teaching English language learners. Particular importance is placed on the relationship of reading and writing development to second language acquisition, teaching language and content, and fostering cognitive development through the four domains of reading, writing, speaking and listening. Includes clinical hour requirement.

BBE 526 | THEORETICAL FOUNDATIONS OF TEACHING ESL AND WLE | 4 quarter hours (Graduate)

This course introduces key foundational theories of English as a second language and world language education that form the basis of our development as language education practitioners and professionals. The course explores theories of language, theories of learning and learners from early childhood to adult, and theory-driven teaching, as well as the philosophical paradigms that inform them. Foundational theories are introduced as problem-solving tools that provide interdisciplinary perspectives of English as a second language and world language education, and as frameworks for critically reading literature on language education theory, research, and methods.

BBE 530 | LATINOS AND EDUCATION | 4 quarter hours (Graduate)

This course examines historical and current issues related to the education of Latinos in the US that includes PK-12 and higher education. The course explores the sociolinguistic, theoretical, historical, sociocultural, legal, and political contexts that shape the educational experience of Latinos in the US. Demographic trends and data are examined in light of the various characteristics that make up the diverse Latino population. The course also analyses the theoretical, historical, and political constrains of bilingual schooling and the underlying assumptions and implications for Latino students. Current research conducted by prominent scholars in the field are presented and examined. The course considers factors that influence, positively or negatively, the educational attainment of Latino students. The readings and class discussions emphasize how power relations in the wider society influence patterns in Latino education outcomes and policy-making. The course also examines arguments, assumptions, and interpretations of current and past legislation in regards to the education of Latinos in the US.
BBE 554 | METHODS OF TEACHING ESL: ELEMENTARY | 4 quarter hours (Graduate)
The course provides an in-depth study of instructional approaches and curricular designs for the second language elementary classroom setting. Presents reviews and critiques specific methods and strategies for teaching second language learners, as well as comparative methods of learning the first and second language. Emphasizes methods for implementing constructivist strategies such as cooperative learning, thematic approach, flexible grouping, and sheltered instruction. The course provides guidelines for planning effective lessons using both thematic units and content-based subject matter. A critical focus of this course is on teaching and learning ESL through the content areas for elementary students (includes 15 clinical hour requirement).

BBE 555 | HOW ENGLISH WORKS: ENGLISH SYNTAX FOR ESL AND BILINGUAL EDUCATION TEACHERS | 4 quarter hours (Graduate)
This course examines the structure of English from a descriptive linguistic framework. It addresses the inner workings of the English language through objective investigation of the lexical, phrasal, and clausal structures of the language to provide ESL and bilingual education teachers the syntactic foundation of the language they will teach. Topics include parts of speech, constituency, phrase structure, clause types, complements versus adjuncts, question formation, tense, negation, and the grammar of dialects. Additionally, this course will provide special emphasis on how these areas of English grammar interface with Common Core and WIDA standards for ELLs.

BBE 556 | METHODS OF TEACHING ESL: SECONDARY/ADULT | 4 quarter hours (Graduate)
The course explores the theoretical underpinnings and the applications of second-language theories and cultural knowledge to ESL teaching methodology and curriculum design in secondary and adult classroom settings. In addition, various approaches to second language teaching and learning as well as methods for modifying lessons to suit the needs of second-language learners to enhance their acquisition and use of English are presented. Concentrates on assisting educators in the development of appropriate strategies for teaching speaking, listening, reading, writing, and grammar in ESL environments. A major focus of this course is on teaching and learning ESL within the content areas through effective lesson planning using both thematic units and content-based subject matter. The course explores constructivist approaches such as sheltered language instruction (includes 15 clinical hour requirement).

BBE 560 | SECOND, WORLD AND HERITAGE LANGUAGE ACQUISITION | 4 quarter hours (Graduate)
This course is an introduction to the theoretical study of second, world and heritage language acquisition (SLA) from a generative and psycholinguistic perspective. The content of the class is founded on the major concepts and issues of language acquisition, including UG-access, L1-transfer, age effects, and the acquisition of form vs. meaning. The course pays particular attention to empirical second and world language studies at the syntax/semantics interface. Course readings and discussion examine the complexities of the processes involved in acquiring a world language that includes the relation between first and second language acquisition; contrastive and error analysis; interlanguage; the social and cultural influences on SLA; learner variability; learning strategies; and classroom interaction analysis. Issues surrounding second, world and heritage language acquisition are discussed and deliberated through university classroom experiences as well as required field experiences. Includes clinical hour requirement.

BBE 570 | LANGUAGE, LITERACIES AND CULTURES | 4 quarter hours (Graduate)
This course examines the interdisciplinary study of first, second and world languages and multiple L1 and L2 literacies in their cultural, social, and political contexts, with emphasis on issues of ethnicity, identity, social class, gender, power, and other related topics relative to ideologies of reading and writing the world through reading and writing the word. Special focus is placed on these topics as they pertain to the extent research on language, literacy, and culture represented in language communities, as well as in the literature, art, music, and popular culture of those communities as a means of advocating for students’ sense of identity as global citizens. Includes clinical hour requirement.

BBE 588 | INDEPENDENT STUDY IN BILINGUAL BICULTURAL EDUCATION | 1-4 quarter hours (Graduate)
Permission required. (1 credit hour)

BBE 589 | THESIS RESEARCH IN BILINGUAL-BICULTURAL EDUCATION | 4 quarter hours (Graduate)
A student writing a thesis registers for this course for four quarter hours of credit. When the thesis research and writing of the thesis are prolonged beyond the usual time, the program advisor may require the student to register for additional credit.

BBE 599 | LEADERSHIP IN EDUCATING LINGUISTICALLY DIVERSE LEARNERS | 4 quarter hours (Graduate)
The course is designed for educators who currently are or will be serving in a leadership capacity involving linguistically and culturally diverse learners. The purpose of this course is to develop foundational knowledge of the theories, research, policies, and practices related to the education of English language learners. The aim is to support current and future education leaders in constructing a well-informed basis of the critical elements of ELL education that include: second language acquisition, culture and diversity, policies and law, ELL family involvement, language development standards, advocacy, and assessment. The course examines various pedagogical and assessment constructs related to teaching ELLs, including state mandated standards and assessments such as ACCESS and WIDA standards.

BBE 600 | REGISTERED STUDENT IN GOOD STANDING | 0 quarter hour (Graduate)
Registration in this course is open to students who are not registered for any other courses but need to complete requirements/assignments for previously taken courses. It provides access to University facilities. Permission of advisor required. (0 credit hours)

BBE 608 | CAPSTONE IN BILINGUAL-BICULTURAL EDUCATION | 0 quarter hour (Graduate)
Status as a Graduate Education student is a prerequisite for this class.

BBE 609 | INDEPENDENT STUDY IN BILINGUAL BICULTURAL EDUCATION | 1-4 quarter hours (Graduate)
Status as a Graduate Education student is a prerequisite for this class.
BIO 104 | EVOLUTION AND SOCIETY | 4 quarter hours
(Undergraduate)
In this course you will learn to identify questions that can or cannot be answered by science, the assumptions made by science, how evidence is connected to predictions, and evaluate the role of communication and peer-review to promote scientific progress. It also includes current and foundational issues in evolution starting with Darwin's voyage of the Beagle, the Darwinian Natural Selection Theory, and the impact of evolution on disease and society.

BIO 105 | THE SCIENCE BEHIND HUMAN HEALTH | 4 quarter hours
(Undergraduate)
In this course, students will study the causes of health problems and how they are treated in order to develop their understanding of the nature and process of science. Students will learn how to recognize common problems with scientific studies and how to distinguish good science from pseudoscience. Genetics and nutrition will be key topics; hormonal disorders and infectious diseases will also be touched upon. By the end of the course, students will be better equipped to assess the quality of health science and other scientific information that they will encounter in the future.

BIO 110 | EVOLUTION IN HEALTH AND MEDICINE | 4 quarter hours
(Undergraduate)
This course examines how scientists are increasingly incorporating evolutionary thinking and research methods in medicine and health sciences. Throughout the course, emphasis will be placed on how the scientific method works and how scientists go about answering pressing questions related to health. By the end of the course, students should have a greater appreciation of the value of science and how our place in the natural world relates to the health challenges that we face.

BIO 115 | INTRODUCTION TO BIOLOGY | 4 quarter hours
(Undergraduate)
Deals with the scientific method, biological chemistry, structure, function, and heredity of cells and organisms, evolution and ecology. Cannot receive credit for both BIO 115 and BIO 155, No credit for Biology majors or minors.

BIO 118 | MARINE BIOLOGY | 4 quarter hours
(Undergraduate)
Study of marine diversity, marine ecosystems, and connections between oceans and humans. Student cannot receive credit for both BIO 118 and 160, No credit for Biology majors or minors.

LSP 120 is a prerequisite for this class.

BIO 120 | THE SCIENCE AND ART OF VISION | 4 quarter hours
(Undergraduate)
This Science as a Way of Knowing course will survey how our understanding of visual system function and our perception of the visual arts has developed through scientific inquiry. We will examine hypotheses about the evolution of human vision and the nature of visual anomalies, and will discuss creative efforts to evaluate these hypotheses. We will review questions that remain unresolved, and identify related technical and/or ethical constraints. Basic knowledge of visual processing will be applied to explore how artists employ techniques that interface with the visual system to create specific impressions.

BIO 121 | INFECTIOUS DISEASES AND IMMUNITY | 4 quarter hours
(Undergraduate)
This course is designed to introduce students to the world of microorganisms, especially those which cause infectious diseases and to explain how the immune system protects the body against these organisms. Cannot receive credit for both BIO 121 and BIO 161, No credit for Biology majors or minors.

BIO 122 | INTRODUCTION TO PALEOBIOLOGY | 4 quarter hours
(Undergraduate)
This course focuses on the concepts and practices of paleobiology, the scientific study of the biology of extinct organisms preserved as fossils. No credit for Biology majors or minors.

BIO 126 | BRAIN AND BEHAVIOR | 4 quarter hours
(Undergraduate)
Examines basic concepts in neurobiology. Specifically how the brain is organized, how it sends messages throughout the body, and how these messages turn into daily activities such as seeing, eating, and walking. How these behaviors are altered due to disease or injury of the brain is also discussed. Cannot receive credit for both BIO 126 and BIO 162. Formerly BIO 206. No credit for Biology majors or minors.

BIO 128 | STRESS, HORMONES AND THE NERVOUS SYSTEM | 4 quarter hours
(Undergraduate)
A study and discussion of the basic concepts of stress and stressors, and their effects on the functioning of the Nervous System, the Endocrine System and the Immune System; the feedback influence of hormones and neurochemicals on cerebral processing, and the relation of these phenomena to health and behavioral medicine. Formerly BIO 208. No credit for Biology majors or minors or Neuroscience majors.
BIO 134 | HOW THE HUMAN BODY WORKS | 4 quarter hours (Undergraduate)
Fundamentals of human body functions through an examination of organs and organ systems. The quantitative component of this course will explore the concepts of scientific discovery through structured out-of-class projects. Cannot receive credit for both BIO 202 and BIO 134. Formerly BIO 224. No credit for Biology majors or minors.

BIO 155 | INTRODUCTION TO BIOLOGY WITH LABORATORY | 4 quarter hours (Undergraduate)
This lecture-laboratory course deals with the scientific method, biological chemistry, structure and function of cells, organs, and organ systems, heredity, evolution and ecology. Course includes a laboratory experience involving biological concepts discussed in class. Cannot receive credit for both BIO 115 and BIO 155. No credit for Biology majors or minors.

BIO 156 | FOOD, FUEL FOR LIFE | 4 quarter hours (Undergraduate)
Food from a biological perspective: defined at the chemical and biochemical level and as it fuels life through metabolism and nutrition. Other topics include improving foods by traditional breeding and new genetic engineering technology, food production, sustainable agriculture; food safety issues, and feeding world populations. No credit for Biology majors or minors.

BIO 160 | MARINE BIOLOGY WITH LAB | 4 quarter hours (Undergraduate)
Study of marine diversity; marine ecosystems; and connections between oceans, the atmosphere, and humans. Lecture-Laboratory. Cannot receive credit for both BIO 118 and BIO 160. No credit for Biology majors or minors.

BIO 161 | INFECTIOUS DISEASES AND IMMUNITY WITH LABORATORY | 4 quarter hours (Undergraduate)
This course is designed to introduce students to the world of microorganisms with particular emphasis on how microorganisms cause disease and the actions of the human body in fighting disease. This course includes a laboratory experience to reinforce concepts and introduce students to practical aspects of disease causing microorganisms. Cannot receive credit for both BIO 121 and BIO 161. No credit for Biology majors or minors.

BIO 162 | THE BRAIN: BIOLOGY AND BEHAVIOR | 4 quarter hours (Undergraduate)
Explores basic concepts in neurobiology, including the organization and evolution of the vertebrate system, how the nervous system sends messages through the body and how these messages are translated into the variety of human behaviors. Alterations in behavior due to brain disease or injury is also discussed. The laboratory elaborates on lecture material and provides insight into how scientific reasoning and testing can help to discover how the brain works. Cannot receive credit for both BIO 126 and BIO 162. Formerly BIO 239. No credit for Biology majors or minors or Neuroscience majors.

BIO 166 | INTRODUCTION TO PLANT BIOLOGY WITH LAB | 4 quarter hours (Undergraduate)
This course deals with the characteristic features of higher plants, plant products that are beneficial to humans, structure, physiology and ecology of cultivated plants, and modern horticultural and genetic approaches to the improvement of plants and plant productivity. No credit for Biology majors or minors.

BIO 183 | NATURAL HISTORY OF THE GALAPAGOS | 4 quarter hours (Undergraduate)
This course is designed to present students with the diversity and unique life forms that exist on the Galapagos Islands and the nearby coastal region of Ecuador. The organisms of the Galapagos Islands are isolated from the mainland of South America, resulting in a large number of animal and plant species found only on these islands. This course will cover the ecosystems, geology, and plant/animal adaptations of these islands, and on the way in which these unique adaptations relate to the ecological pressures found on the islands and the surrounding marine environment. Comparisons between mainland and island populations will be discussed to help demonstrate the way in which new ecological pressures on isolated ancestral populations can give rise to evolution.

BIO 191 | GENERAL BIOLOGY I FOR SCIENCE MAJORS | 4 quarter hours (Undergraduate)
Introduction to evolution, ecology, organismal development and diversity. Lecture-laboratory. A grade of C- or higher in BIO 191 is a prerequisite for this class.

BIO 192 | GENERAL BIOLOGY II FOR SCIENCE MAJORS | 4 quarter hours (Undergraduate)
Deals primarily with diversity and development within the plant and animal kingdoms including basic principles of physiology. Lecture-laboratory. A grade of C- or higher in BIO 192 is a prerequisite for this class.

BIO 193 | GENERAL BIOLOGY III FOR SCIENCE MAJORS | 4 quarter hours (Undergraduate)
Focuses on the unity of life: its biochemical and cellular makeup and functions, the acquisition and utilization of energy, and the storage and utilization of genetic information. Lecture-laboratory. CHE 130 and CHE 131 are recommended as corequisites. MAT 130 is a prerequisite for this class.

BIO 201 | HUMAN ANATOMY | 4 quarter hours (Undergraduate)
Structure of the human body with an emphasis on gross anatomy. Lecture-laboratory. Lecture covers human anatomy; laboratory emphasis on feline dissection. At least Sophomore Standing is a prerequisite for this course.

BIO 202 | HUMAN PHYSIOLOGY | 4 quarter hours (Undergraduate)
Introduction to concepts and mechanisms of human organ system function including respiratory, cardiovascular, renal, muscular, nervous, endocrine and digestive systems. Lecture-laboratory. Primarily for Health Science majors. No credit for Biology majors or minors. Cannot receive credit for both BIO 202 and BIO 134. At least Sophomore Standing is a prerequisite for this course.

BIO 206 | BIOSTATISTICS | 4 quarter hours (Undergraduate)
A survey of a variety of statistical methods used to analyze biological data. BIO 193 or instructor consent is a prerequisite for this class.

BIO 209 | PLANT BIOLOGY | 4 quarter hours (Undergraduate)
A study of plant evolution, diversity, reproduction, developmental plant anatomy, regulation of plant growth and development, and plant physiology. BIO 193 is a prerequisite for this class.
BIO 210 | MICROBIOLOGY | 4 quarter hours  
(Undergraduate)  
Biology of microorganisms with emphasis on viruses, bacteria, fungi, and protozoa. Lecture-laboratory.  
A grade of C- or better in BIO 193 is a prerequisite for this class.

BIO 215 | ECOLOGY | 4 quarter hours  
(Undergraduate)  
This course provides a broad survey of ecological principles and methods of lab and field investigation, using ecological theory to explain patterns observed in nature. Topics link interactions between organisms and their environment to their consequences in populations, communities, and ecosystems, including: the distribution and abundance of organisms in nature; factors that influence population size, growth and regulation; species interactions; community organization and diversity; and ecosystem level processes focused on moving energy and matter among living and nonliving parts of the environment. Labs involve applying ecological methods and sampling techniques to better understand ecological concepts and to gain an increased awareness of the organization and complexity in the natural world. Labs emphasize hypothesis testing and experimental design, the analysis of ecological data, and communicating research findings.  
BIO 193 is a prerequisite for this class.

BIO 220 | PRINCIPLES OF BIOTECHNOLOGY | 4 quarter hours  
(Undergraduate)  
This course will address aspects of the research and methodologies used in Modern Biotechnology, and place the field in the context of current societal and ethical concerns. Lecture-laboratory.  
BIO 210 or BIO 250 or consent of instructor is a prerequisite for this class.

BIO 230 | EPIDEMIOLOGY | 4 quarter hours  
(Undergraduate)  
This course will involve the study of the frequency and distribution of human disease. Students will learn how the health of a population is measured, and how medical interventions are quantitatively evaluated. Students will analyze data from historical and modern health studies, including population surveys, case-control studies, cohort studies, and clinical trials for prevention and treatment.  
BIO 206 is a prerequisite for this class.

BIO 235 | EVOLUTION | 4 quarter hours  
(Undergraduate)  
This lecture/laboratory course will examine basic selection, population genetics, development, speciation, extinction, systematics, and the history of evolution. In the lab, students will learn some of the modern research methods used in the study of evolution.  
BIO 193 is a prerequisite for this class.

BIO 250 | CELL BIOLOGY | 4 quarter hours  
(Undergraduate)  
Fundamentals of cell form and function studied at the molecular and organelle level, including basic cellular biochemistry, ultrastructure and physiology. Lecture-laboratory.  
A grade of C- or better in BIO 193 and a grade of C- or better in CHE 134 (or CHE 138 or CHE 144) are prerequisites for this class.

BIO 260 | GENETICS | 4 quarter hours  
(Undergraduate)  
Transmission of heritable traits, nature of genetic material, manner of its expression, its mutability, and its significance with respect to organismal and species variation. Lecture-laboratory.  
A grade of C- or better in BIO 193 is a prerequisite for this class.
BIO 307 | ANIMAL PHYSIOLOGY | 4 quarter hours
(Undergraduate)
Physiology is a branch of biology dealing with the functions of living organisms; it addresses questions that relate to how living organisms work. This lecture-laboratory course focuses on the physiology of a broad range of animals including both vertebrates and invertebrates. The primary objectives of the course are (1) to define many of the physiological challenges experienced by animals living in different environments (respiratory gas exchange, temperature regulation, ion and water balance, etc.) and (2) to study the strategies and physiological mechanisms involved in dealing with these challenges. Although this course will take a broad approach examining many interesting physiological adaptations, students will learn to appreciate that there are far more similarities between how different animals do things than there are differences. (Cannot receive credit for both BIO 307 and BIO 308. Cannot receive credit for BIO 307 if credit already earned for BIO 310.)
A grade of C- or better in BIO 250 is a prerequisite for this class.

BIO 308 | HUMAN PHYSIOLOGY | 4 quarter hours
(Undergraduate)
Physiology is a branch of biology dealing with the functions of living organisms; it addresses questions that relate to how living organisms work. This lecture-laboratory course focuses on human physiology at the organ system level. The human approach has immediate personal relevance; most of us are interested in how the human body solves the basic problems associated with life. The primary objectives of the course are (1) to define many of the physiological problems experienced by the human body (respiratory gas exchange, body nutrition, temperature regulation, body fluid regulation, etc.), (2) to study the concepts and mechanisms involved in solving these problems, and (3) to evaluate the effects of various disease states (e.g., emphysema, hypertension, renal failure, fever, hypercholesterolemia, diabetes) on normal body function. Although this course focuses on the human organism, the concepts and mechanisms to be addressed are applicable to a broad range of other vertebrates. (Cannot receive credit for both BIO 307 and BIO 308. Cannot earn credit for BIO 308 if received credit for BIO 310.)
A grade of C- or better in BIO 250 is a prerequisite for this class.

BIO 309 | PLANT PHYSIOLOGY | 4 quarter hours
(Undergraduate)
The purpose of this course is to provide students with the opportunity to take a detailed look at how vascular plants function. Specifically to understand what biochemical life sustaining processes are occurring in the plant, what a plant needs from the environment, and how a plant reacts to and influences its environment. The general topics that will be covered in this course include: 1) The properties of water and its function in plants; 2) Substances moved in plants and the pathways involved in this movement; 3) Mineral uptake and roles of essential elements; 4) Intermediary metabolism and metabolic regulation as they pertain to plants; and 5) Control of plant growth and development. The laboratory portion of this course will be used to reinforce and expand upon the topics covered in lecture.
BIO 250 or instructor consent is a prerequisite for this class.

BIO 310 | VERTEBRATE PHYSIOLOGY | 4 quarter hours
(Undergraduate)
Functions and regulatory mechanisms of vertebrate cells, organs and organ systems with special emphasis on mammals. Lecture-Laboratory.
BIO 250 is a prerequisite for this class.
BIO 250 and BIO 260 are a prerequisite for this class.

BIO 235 or 360 is a prerequisite for this class.

BIO 210 and Junior standing (or consent of instructor) are prerequisites for this class.

BIO 215 or BIO 235 is a prerequisite for this class.

BIO 215 or BIO 235 is a prerequisite for this class.

BIO 321 | MOLECULAR METHODS IN ECOLOGY AND EVOLUTION | 4 quarter hours
(Undergraduate)
This course will provide hands-on experience in methods of detecting and analyzing molecular variation in nature. By the end of the course, students should be competent employing molecular markers to answer a wide variety of basic questions in ecology and evolution.

BIO 341 | TOPICS IN DEVELOPMENTAL BIOLOGY | 4 quarter hours
(Undergraduate)
This seminar course examines the current embryological literature using both evolutionary and molecular perspectives. Previous student-led topics include: how early embryos are organized, the signals controlling left-right asymmetry, the evolutionary origin of feathers and the development of the retina.

BIO 332 | POPULATION ECOLOGY | 4 quarter hours
(Undergraduate)
This course covers concepts and models in population ecology and their applications for predicting population trends and disease spread across populations, understanding conservation biology approaches, and the sustainable management of wildlife populations.

BIO 330 | DEVELOPMENTAL BIOLOGY | 4 quarter hours
(Undergraduate)
This course will provide hands-on experience in methods of detecting and analyzing molecular variation in nature. By the end of the course, students should be competent employing molecular markers to answer a wide variety of basic questions in ecology and evolution.

BIO 320 | ADVANCED MICROBIOLOGY | 4 quarter hours
(Undergraduate)
Advanced microbiology lecture-lab course designed for science majors and graduate students that will focus on developing technical and critical thinking skills in the field of microbiology. Labs will involve independent or small group research projects.

BIO 210 and Junior standing (or consent of instructor) are prerequisites for this class.

BIO 210 and Junior standing (or consent of instructor) are prerequisites for this class.

BIO 319 | TOPICS IN BEHAVIORAL PARASITOLOGY | 4 quarter hours
(Undergraduate)
This course is designed for science majors and graduate students with an interest in animal behavior, ecology, evolution, health science, veterinary science and parasitology. The course adopts an integrative approach to the study of Behavioral Parasitology, which draws on modern developments in the fields of Animal Behavior, Parasitology, Ecology and Evolution. The primary objectives of the course are to: 1) explore the diverse relationships that occurs between parasite infection and host behavior; 2) understand proximate mechanisms that underlie behavioral manipulation by parasites; 3) explore the ecological and evolutionary impacts of behavioral manipulation in nature; 4) extend findings from animal systems to human-related issues (health, psychology); 5) develop familiarity with reading and interpreting primary literature. The teaching approach will be primarily discussion- and presentation-based and will be highly-interactive in nature.

(BIO 191 and BIO 192 and BIO 193) and (BIO 215 or BIO 235) are prerequisites for this class; or consent of instructor.

BIO 300 | NEUROBIOLOGY | 4 quarter hours
(Undergraduate)
This course will provide an opportunity to examine fossil specimens and compare them with modern forms.

BIO 192, BIO 193 and (BIO 215 or BIO 335) or instructor's consent are a prerequisite for this class.

BIO 300 | NEUROBIOLOGY | 4 quarter hours
(Undergraduate)
This course will provide an opportunity to examine fossil specimens and compare them with modern forms.

BIO 192, BIO 193 and (BIO 215 or BIO 335) or instructor's consent are a prerequisite for this class.

BIO 330 | DEVELOPMENTAL BIOLOGY | 4 quarter hours
(Undergraduate)
A survey of developmental phenomena in animals from fertilization to sexual maturity. Students will gain a current understanding of the genetic, cellular, and environmental mechanisms that shape the body and its major organs.

BIO 250 and BIO 260 are a prerequisite for this class.
BIO 345 | TOPICS IN PALEOBIOLOGY | 4 quarter hours  
(Undergraduate)  
A seminar course examining various topics in paleobiology (the study of ancient life) including morphological concepts, macroevolutionary processes, extinction events, phylogenetic systematics, paleoecology, paleoecobiogeography, and the adequacy of the fossil record. Readings include classic and recent articles in the fields of paleobiology. BIO 219, BIO 193 and (BIO 215 or BIO 235) or instructor's consent are a prerequisite for this class.

BIO 347 | TOPICS IN MEDICAL BACTERIOLOGY | 4 quarter hours  
(Undergraduate)  
This course will address current topics of concern and research in medical bacteriology. Students participating in this course will explore key concepts used in bacterial pathogenesis and learn how to critically appraise recent research papers in the field. (BIO 210 or BIO 250) and Junior/Senior Biology standing (or consent of instructor) are prerequisites for this class.

BIO 348 | THE BIOLOGY OF INFECTION | 4 quarter hours  
(Undergraduate)  
This course will provide students with detailed knowledge of medically important bacteria. The course will first examine common events in infections and the body's responses to infection. We will highlight in these studies the changes in both hosts and pathogens as strategies of infection and immunity evolve relative to one another. Within this framework we will examine a spectrum of infectious diseases in detail. BIO 210 and BIO 370 are a prerequisite for this class.

BIO 349 | TOPICS IN MICROBIOLOGY AND BIOTECHNOLOGY | 4 quarter hours  
(Undergraduate)  
This course will address current topics of concern and research in microbiology and biotechnology. Students participating in this course will explore fundamental concepts being used and new discoveries and emerging technologies in microbiology and biotechnology. Students will learn how to critically appraise recent research papers in these fields. BIO 210 or BIO 220 or consent of instructor is a prerequisite for this class.

BIO 352 | ADVANCED COMPARATIVE PHYSIOLOGY | 4 quarter hours  
(Undergraduate)  
Comparative and environmental approach to the functions and mechanisms of vertebrate organ systems. Selected topics will be addressed using a lecture/discussion/seminar format. Cross-listed as BIO 452.

BIO 250 is a prerequisite for this class.

BIO 355 | GENETIC TOXICOLOGY | 4 quarter hours  
(Undergraduate)  
This course will deal with the study of agents that damage the genome or alter the proper functioning of the genome that can lead to disease in humans. Topics covered will include basic spectrum of genetic damage and chromosomal effects, mechanisms of mutations, DNA repair, genetic assays used for evaluation of genetic toxicology, health consequences of genetic damage, including cancer and inheritable mutations, and the current position of US government and global regulatory agencies on the issues of genetic toxicology. BIO 260 is a prerequisite for this class.

BIO 250 and BIO 260 are prerequisites for this class.

BIO 360 | MOLECULAR BIOLOGY | 4 quarter hours  
(Undergraduate)  
Study of biology at the molecular level, focusing on the regulation of gene expression and the principles of genetic engineering. Lecture-laboratory. BIO 250 and BIO 260 are prerequisites for this class.

BIO 361 | TOPICS IN MOLECULAR BIOLOGY | 4 quarter hours  
(Undergraduate)  
Discussion and seminars in selected areas of molecular biology. Cross-listed as CHE 461.

BIO 360 is a prerequisite for this class.

BIO 362 | BIOINFORMATICS FOR BENCH SCIENTISTS | 4 quarter hours  
(Undergraduate)  
Study how high-throughput technologies like whole-genome sequencing have changed biological research, and learn to use computers in real research tasks such as primer design, DNA sequencing, homology searches, sequence alignment, and more. Cross-listed with BIO 462.

BIO 191, BIO 192, BIO 193 and BIO 260 are a prerequisite for this class.

BIO 365 | PRINCIPLES OF TOXICOLOGY | 4 quarter hours  
(Undergraduate)  
A study of the adverse effects of chemicals on living organisms, including the chemical natures, kinetics, dose-response relationships, metabolism, and mechanisms of action of various toxins and toxicants. BIO 193 and (CHE 234 or CHE 238) are a prerequisite for this class.

BIO 369 | INTRODUCTION TO STEM PEER MENTORING | 4 quarter hours  
(Undergraduate)  
This course is designed for undergraduates who will be mentoring students in the College of Science and Health. The purpose of the course is to prepare mentors to welcome STEM students into the culture of the scientific community at DePaul. Mentors will encourage their peers to use tools and resources designed to help them build a sense of belonging and achieve academic success. The course will include readings, presentations, and activities, which will support the student's development as a peer mentor. Students will reflect on their experiences to inform their efforts in creating a supportive learning environment for their peers.

BIO 370 | IMMUNOBIOLOGY | 4 quarter hours  
(Undergraduate)  
Basic factors governing immune phenomena and antigen-antibody reactions. Lecture-laboratory. Cross-listed as BIO 471.

BIO 250 or BIO 260 is a prerequisite for this class.

BIO 375 | INTRODUCTION TO PHARMACOLOGY | 4 quarter hours  
(Undergraduate)  
Introduction to Pharmacology will explore the relationships between an organism and its response to an administered drug. This will include: 1) How drugs are administered to the body 2) What is their fate once in the body, i.e. Pharmacokinetics 3) What their mechanisms actions are - i.e. Pharmacodynamics, and 4) Adverse reactions to drugs. We will explore these relationships in different physiological systems of the human body including (but not limited to) the nervous system, circulatory system, digestive system and endocrine system. Lastly, this course will provide an understanding of the pharmaceutical system by providing a framework to explore how drugs are discovered, produced, tested, and regulated.

BIO 250 and 310 or instructor consent is a prerequisite for this class.

BIO 380 | CANCER BIOLOGY | 4 quarter hours  
(Undergraduate)  
This course will explore the cellular and molecular aspects of cancer. Topics will include the pathology and epidemiology of cancer, the origin and spread of cancer, hereditary and familial cancers, cancer associated genes and strategies of cancer therapy. BIO 250 and BIO 260 are prerequisites for this class.
BIO 381 | TOPICS IN CANCER | 4 quarter hours  
(Undergraduate)

This course is a seminar based course that discusses current topics in the field of cancer biology from a cellular and molecular perspective. This course demonstrates the recent advances made in the most common cancers in the western world, toward etiology, diagnosis, therapy and prevention. Scientific articles taken from peer-reviewed scientific journals will illustrate available and potential chemotherapeutic approaches towards achieving a treatment for the most common cancers. BIO 250 is a prerequisite for this class.

BIO 385 | MAMMALIAN REPRODUCTION | 4 quarter hours  
(Undergraduate)

Molecular, cellular, physiological, and behavioral aspects of mammalian reproduction. Mechanisms and strategies used by mammals in reproductive processes including sexual differentiation, gamete production, puberty, reproductive hormone cyclicity, neuroendocrine control mechanisms, pregnancy, parturition, and reproductive behavior. Cross-listed with BIO 485. BIO 250 and BIO 310 or instructor consent are a prerequisite for this class.

BIO 386 | INTRODUCTION TO ENDOCRINOLOGY | 4 quarter hours  
(Undergraduate)

A study of hormones as chemical regulators of development, growth, metabolism, homeostasis, reproduction, response to stress, and behavior; as well as hormone synthesis, chemistry, mechanisms of action, and endocrine gland structure. BIO 250 and (BIO 310 or [HLTH 301 & HLTH 302]) are prerequisites for this course.

BIO 388 | RESEARCH METHODS IN BIOLOGY | 4 quarter hours  
(Undergraduate)

Research Methods in Biology is a methods-based course designed for science majors that will focus on learning a variety of cutting edge methods used by biologists to carry out research. Throughout the course, students will develop an in-depth understanding and appreciation for one or two research methods which are associated with projects they will undertake as part of BIO 389 (Research in Field Biology). Biology is a very broad field, so your chosen method(s) may end up being based in any of a variety of sub-fields including cell biology, physiology, biochemistry, molecular biology, ecology or evolution. In order to utilize methods to collect biological data you will need to ‘become an expert?. In this course you will learn that being an expert means more than just ‘following a recipe?. An expert will also understand the theory behind how their method works and appreciate the history of how the method was developed over time (and by whom). An expert will also understand the specifics of how all of the required equipment works (including how it is properly maintained and calibrated) and how to properly collect or prepare any samples/chemicals needed to carry out the process. Finally you will learn how to analyze the data you collect and how to interpret it while acknowledging what limitations may be associated with your data. Research Methods in Biology in a hands-on course. You will learn your method(s), you will practice and you will become an expert. To test whether you are an expert, you will be challenged to teach the method to your peers and produce a detailed methods handout which others can use to carry out the method on their own. This means you will also be taught the methods selected by your peers. Finally, you will collect data utilizing your method to complete your chosen research project in BIO 389. BIO 191, BIO 192 and BIO 193 and (one of the following: BIO 206, BIO 215, BIO 235, BIO 250, BIO 260, BIO 307, BIO 308, BIO 309, BIO 310) or instructor consent are prerequisites for this class. BIO 389 is a co-requisite.

BIO 389 | RESEARCH IN FIELD BIOLOGY | 4 quarter hours  
(Undergraduate)

BIO 389/489 is a research-intensive course designed for science majors and graduate students that will focus on developing skills of collaborative field-based research. Throughout the course, students (working in groups of 2 or 3) will utilize the scientific method to develop and carry out an original research project. Students will utilize the primary literature to learn the current state of research in an area that interests them, then use that knowledge to develop a novel question they can test with a field-based experiment. Data collected will be analyzed and results compiled into a publication quality paper. Students will then present their study to their peers in the form of an oral or poster presentation.

Study Abroad Course

BIO 390 | SPECIAL TOPICS | 4 quarter hours  
(Undergraduate)

Occasional courses offered at an advanced level. See the schedule of classes for current offerings. Cross-listed as BIO 490. Junior or Senior standing is a prerequisite for this class.

BIO 392 | EXTRAMURAL INTERNSHIP | 4 quarter hours  
(Undergraduate)

An opportunity for students to integrate their academic experience with real-world work situations; supervision is provided by a member of the DePaul Faculty in the Biological Sciences and the private or public enterprise. 0-4 credit hours. At least Sophomore standing and a declared Biological Sciences major, or by arrangement with the Biology internship director or department permission are prerequisites for this class.
BIO 395 | BIOLOGY CAPSTONE SEMINAR | 4 quarter hours
(Undergraduate)
The aim of this course is to integrate current biological view(s) of humanity with the perspectives of the liberal studies curriculum. Students will develop and debate topics that demonstrate mastery of the biology core curriculum (cell biology, genetics, physiology and ecology) while touching on history, philosophy, ethics and the law.

BIO 397 | MENTORED RESEARCH EXPERIENCE IN BIOLOGY | 2-4 quarter hours
(Undergraduate)
The faculty research mentor and student will work together to formulate a research question based on current biological knowledge and the scientific literature. They will develop hypotheses to guide designing and conducting experiments to test the hypotheses. Under faculty supervision, the student will analyze their data and propose follow up experiments. The results and conclusions will be reported in a final project which may be a poster or oral presentation, or research manuscript. In addition, the student will reflect on how the project activities and experiences have contributed to their personal growth as a scientist and their future career plans. Relevant safety and ethical training will be based on the specific proposed research.

BIO 399 | INDEPENDENT STUDY | 1-4.5 quarter hours
(Undergraduate)
independent Study. 1-4 quarter hours.

BIO 400 | DEVELOPMENT OF TOPICS FOR RESEARCH | 4 quarter hours
(Graduate)
The purpose of this course is to help graduate students in formulating research questions and design methods while improving written expression and oral presentation skills. Students will, with the guidance of a faculty member, undertake a detailed investigation of a topic, formulate a potential research project in that area, and present their proposal orally to the faculty at the end of the quarter.

BIO 401 | INDEPENDENT STUDY | 2-4 quarter hours
(Graduate)
Experimental and/or Library study of selected topics in the life sciences. A-Cell Biology, B-Immunobiology, C-Developmental Biology, D-Physiology, E-Endocrinology, F-Genetics, G-Structural Biology, H-Ecology, I-Molecular Biology, J-Neurobiology. Offered in the Autumn, Winter, Spring and Summer quarters. 2 or 4 quarter hours.

BIO 402 | INTRODUCTION TO GRADUATE STUDIES | 2 quarter hours
(Graduate)
Presents the biology faculty and facilities. Various research and teaching methods in biology will be explored. Required of all graduate students. Formerly BIO 495.

Status as a graduate Biology student (MA or MS) is a prerequisite for this class.

BIO 403 | DEVELOPMENT OF TOPICS FOR RESEARCH | 4 quarter hours
(Graduate)
The purpose of this course is to help graduate students in formulating research questions and design methods while improving written expression and oral presentation skills. Students will, with the guidance of a faculty member, undertake a detailed investigation of a topic, formulate a potential research project in that area, and present their proposal orally to the faculty at the end of the quarter. Formerly BIO 400.

Status as a graduate Biology student (MA or MS) is a prerequisite for this class.

BIO 406 | RESEARCH METHODS & APPLIED BIOSTATISTICS | 4 quarter hours
(Graduate)
Approaches to conducting research and a variety of statistical approaches will be discussed and used to answer questions applied to biological data. A computer lab will introduce and use the statistical software program R for graphing and statistically analyzing biological data sets. Includes such topics as: study design, data management, presenting data, analysis of variance (one-way and multi-factor), analysis of covariance, multiple regression, logistic regression, and AIC model selection.

Status as a graduate Biology student (MA or MS) is a prerequisite for this class.

BIO 409 | PLANT PHYSIOLOGY | 4 quarter hours
(Graduate)

BIO 412 | TOPICS IN EXERCISE PHYSIOLOGY | 4 quarter hours
(Graduate)
This course provides an introduction to exercise physiology to enable exploration of current research topics in the field. Weekly discussion and presentation of articles from peer-reviewed journals will reinforce and elaborate on concepts covered in lecture. Topics include: muscle structure and bioenergetics, cardiovascular and respiratory responses to exercise, human evolution and endurance, training and adaptation, nutrition and ergogenic aids, and the relationships between exercise, health, and longevity.

BIO 415 | TOPICS IN ECOLOGY | 4 quarter hours
(Graduate)
The focus of this course is to read and critique classic papers in ecology and to connect their foundational ideas with modern research and understanding.

BIO 416 | PHYCOLOGY | 4 quarter hours
(Graduate)
Introduction to algae with emphasis on taxonomy, morphology, ultrastructure, physiology, life histories of freshwater and marine species. Lecture-laboratory.

BIO 417 | AQUATIC BIOLOGY | 4 quarter hours
(Graduate)
The study of biological, physical and chemical phenomena in fresh water and marine environments. Emphasis on organisms and their interactions. Lecture-laboratory.

BIO 419 | TOPICS IN BEHAVIORAL PARASITOLOGY | 4 quarter hours
(Graduate)
This course is designed for science majors and graduate students with an interest in animal behavior, ecology, evolution, health science, veterinary science and parasitology. The course adopts an integrative approach to the study of Behavioral Parasitology, which draws on modern developments in the fields of Animal Behavior, Parasitology, Ecology and Evolution. The primary objectives of the course are to: 1) explore the diverse relationships that occur between parasite infection and host behavior; 2) understand proximate mechanisms that underlie behavioral manipulation by parasites; 3) explore the ecological and evolutionary impacts of behavioral manipulation in nature; 4) extend findings from animal systems to human-related issues (health, psychology); 5) develop familiarity with reading and interpreting primary literature. The teaching approach will be primarily discussion- and presentation-based and will be highly-interactive in nature.
BIO 420 | ADVANCED MICROBIOLOGY | 4 quarter hours  
(Graduate)
Advanced microbiology lecture-laboratory course designed for science majors and graduate students that will focus on developing technical and critical thinking skills in the field of microbiology. Labs will involve independent or small group research projects.

BIO 421 | MOLECULAR METHODS IN ECOLOGY AND EVOLUTION | 4 quarter hours  
(Graduate)
This course will provide hands-on experience in methods of detecting and analyzing molecular variation in nature. By the end of the course, students should be competent employing molecular markers to answer a wide variety of basic questions in ecology and evolution. Cross-listed with BIO 321.

BIO 425 | CELLULAR EVENTS IN THE IMMUNE RESPONSE | 4 quarter hours  
(Graduate)
Analysis of cellular and subcellular interactions in the immune response. Lecture, seminar, discussion. BIO 470 recommended.

BIO 430 | DEVELOPMENTAL BIOLOGY | 4 quarter hours  
(Graduate)
A survey of developmental phenomena in animals from fertilization to sexual maturity. Topics include gametogenesis, early cell divisions, organ formation, metamorphosis, regeneration, birth defects, stem cells, reproductive technology and mammalian cloning. Lecture-laboratory.

BIO 431 | TOPICS IN DEVELOPMENTAL BIOLOGY | 4 quarter hours  
(Graduate)
This seminar course examines the current embryological literature using both evolutionary and molecular perspectives. Previous student-led topics include: how early embryos are organized, the signals controlling left-right asymmetry, the evolutionary origin of feathers and the development of the retina. BIO 430 or BIO 460 recommended.

BIO 432 | POPULATION ECOLOGY | 4 quarter hours  
(Graduate)
This course covers concepts and models in population ecology and their applications for predicting population trends and disease spread across populations, understanding conservation biology approaches, and the sustainable management of wildlife populations. ENV 250 or BIO 215 is a prerequisite for this class.

BIO 435 | CONCEPTS IN EVOLUTION | 4 quarter hours  
(Graduate)
Study of evolution and diversity in the living world. Lecture only.

BIO 439 | CELLULAR NEUROBIOLOGY | 4 quarter hours  
(Graduate)
This course examines the cellular and molecular mechanisms of neuronal function and the changes that occur in processes such as learning and memory. Emphasis on electrophysiology, synaptic communication, and cellular signaling. Cross-listed as BIO439, NEU339, NEU439.

BIO 440 | BEHAVIORAL NEUROSCIENCE | 4 quarter hours  
(Graduate)
An examination of the ways in which neural systems underpin behavior with an emphasis on vertebrates. In this course, behavior is understood in its broadest sense, from the functioning of organs and organ systems to the activities of whole organisms. Formerly Systems Neurobiology. Lecture-Laboratory.
This course will deal with the study of agents that damage the genome or alter the proper functioning of the genome that can lead to disease in humans. Topics covered will include basic spectrum of genetic damage and chromosomal effects, mechanisms of mutations, DNA repair, genetic assays used for evaluation of genetic toxicology, health consequences of genetic damage, including cancer and inheritable mutations, and the current position of US government and global regulatory agencies on the issues of genetic toxicology.

BIO 260 is a prerequisite for this class.

BIO 455 | GENETIC TOXICOLOGY | 4 quarter hours
(Graduate)
This course will explore the cellular and molecular aspects of cancer therapy. and spread of cancer, hereditary and familial cancers, cancer associated genes and strategies of cancer therapy. Cross-listed with BIO 375.

BIO 460 | MOLECULAR BIOLOGY | 4 quarter hours
(Graduate)
Study of biology at the molecular level, focusing on the regulation of gene expression and the principles of genetic engineering. Lecture-laboratory. Cross-listed as BIO 360.

BIO 461 | TOPICS IN MOLECULAR BIOLOGY | 4 quarter hours
(Graduate)
Discussion and seminars in selected areas of molecular biology.

BIO 462 | BIOINFORMATICS FOR BENCH SCIENTISTS | 4 quarter hours
(Graduate)
Study how high-throughput technologies like whole-genome sequencing have changed biological research, and learn to use computers in real research tasks such as primer design, DNA sequencing, homology searches, sequence alignment, and more. Cross-listed with BIO 362.

BIO 465 | PRINCIPLES OF TOXICOLOGY | 4 quarter hours
(Graduate)
A study of the adverse effects of chemicals on living organisms, including the chemical natures, kinetics, dose-response relationships, metabolism, and mechanisms of action of various toxins and toxicants.

BIO 471 | IMMUNOBIOLOGY | 4 quarter hours
(Graduate)
Basic factors governing immune phenomena and antigen antibody reactions. Lecture-laboratory.

BIO 475 | INTRODUCTION TO PHARMACOLOGY | 4 quarter hours
(Graduate)
Introduction to Pharmacology will explore the relationships between an organism and its response to an administered drug. This will include: 1) How drugs are administered to the body 2) What is their fate once in the body, i.e. Pharmacokinetics 3) What their mechanisms actions are - i.e. Pharmacodynamics, and 4) Adverse reactions to drugs. We will explore these relationships in different physiological systems of the human body including (but not limited to) the nervous system, circulatory system, digestive system and endocrine system. Lastly, this course will provide an understanding of the pharmaceutical system by providing a framework to explore how drugs are discovered, produced, tested, and regulated. Cross-listed with BIO 375.

BIO 480 | CANCER BIOLOGY | 4 quarter hours
(Graduate)
This course will explore the cellular and molecular aspects of cancer. Topics will include the pathology and epidemiology of cancer, the origin and spread of cancer, hereditary and familial cancers, cancer associated genes and strategies of cancer therapy.

BIO 481 | TOPICS IN CANCER | 4 quarter hours
(Graduate)
This course is a seminar based course that discusses current topics in the field of cancer biology from a cellular and molecular perspective. This course demonstrates the recent advances made in the most common cancers in the western world, toward etiology, diagnosis, therapy and prevention. Scientific articles taken from peer-reviewed scientific journals will illustrate available and potential chemotherapeutic approaches towards achieving a treatment for the most common cancers.

BIO 485 | MAMMALIAN REPRODUCTION | 4 quarter hours
(Graduate)
Molecular, cellular, physiological, and behavioral aspects of mammalian reproduction. Mechanisms and strategies used by mammals in reproductive processes including sexual differentiation, gamete production, puberty, reproductive hormone cyclicity, neuroendocrine control mechanisms, pregnancy, parturition, and reproductive behavior. Cross-listed with BIO 385.

BIO 486 | INTRODUCTION TO ENDOCRINOLOGY | 4 quarter hours
(Graduate)
A study of hormones as chemical regulators of development, growth, metabolism, homeostasis, reproduction, response to stress, and behavior; as well as hormone synthesis, chemistry, mechanisms of action, and endocrine gland structure.

BIO 488 | ADVANCED ENDOCRINOLOGY | 4 quarter hours
(Graduate)
Analysis of non-hypothalamic-hypophyseal pathways for hormonal regulation of the structure, function and biochemistry of hard tissues, calcium metabolism, and regulation of glucose metabolism. Lecture-seminar. BIO 486 is recommended.

BIO 489 | RESEARCH IN FIELD BIOLOGY | 4 quarter hours
(Graduate)
BIO 389/489 is a research-intensive course designed for science majors and graduate students that will focus on developing skills of collaborative field-based research. Throughout the course, students (working in groups of 2 or 3) will utilize the scientific method to develop and carry out an original research project. Students will utilize the primary literature to learn the current state of research in an area that interests them, then use that knowledge to develop a novel question they can test with a field-based experiment. Data collected will be analyzed and results compiled into a publication quality paper. Students will then present their study to their peers in the form of an oral or poster presentation.

BIO 490 | SPECIAL TOPICS | 4 quarter hours
(Graduate)
Occasional courses offered at the graduate level. See schedule for current offerings.

BIO 491 | MASTER OF ARTS SEMINAR | 4 quarter hours
(Graduate)
A seminar course dealing with current readings in the biological sciences. Students will evaluate and interpret these readings both orally and in writing.
BIO 494 | COMMUNICATING SCIENCE | 4 quarter hours  
**Graduate**  
Students will refine their oral and written presentation skills using their own research as the subject. The components of an effective research talk, poster presentation, and formal thesis will be examined. Students will have several opportunities to present their research and to receive and participate in peer review. This course is required for second year Biology MS students.  
Status as a graduate Biology student (MA or MS) is a prerequisite for this class.

BIO 495 | INTRODUCTION TO GRADUATE STUDY | 2 quarter hours  
**Graduate**  
Presents the biology faculty and facilities. Various research and teaching methods in biology will be explored. Required of all graduate students.

BIO 496 | RESEARCH | 2-8 quarter hours  
**Graduate**  
Experimental work in selected areas of biology. These studies do not necessarily relate to a thesis. Autumn, Winter, Spring, Summer. Laboratory. Two or four quarter hours.

BIO 498 | RESEARCH FOR MASTER'S THESIS | 2-8 quarter hours  
**Graduate**  
Original study of a specific biological problem leading to a thesis.  

BIO 499 | THESIS RESEARCH | 2-8 quarter hours  
**Graduate**  
Original study of a specific biological problem leading to a thesis. Formerly BIO 496, BIO 498.

BIO 502 | CANDIDACY CONTINUATION | 0 quarter hour  
**Graduate**  
Students who have completed their coursework and are actively working on the requirements for the Master's thesis (MS), or final project (MA), must enroll in candidacy continuation each quarter of the academic year until the Master's requirement has been completed. This course carries the equivalent of half-time enrollment status. Course requires graduate program director approval and proof of work each quarter. Pass/No Pass grading. (0 credit hours)

BIO 503 | CANDIDACY MAINTENANCE | 0 quarter hour  
**Graduate**  
This course is meant for Master's students not actively working on their thesis. It is only used to maintain active student status. It will not give the student full- or half-time enrollment status and will not permit deferment of student loans. Course requires graduate program director approval each quarter. (0 credit hours)

**Business Administration (BADM)**

BADM 105 | ESSENTIALS OF COMPENSATION MANAGEMENT | 2 quarter hours  
**Undergraduate**  
This course will examine the strategic use of compensation systems by management to attract, motivate, retain, and reward employee performance. This course will explore the factors of job analysis, job description, and job evaluation as the basis of compensation strategy offering students an opportunity to develop competencies in making equitable compensation decisions. (2 hours)

BADM 110 | ESSENTIALS OF TRAINING | 2 quarter hours  
**Undergraduate**  
This is a 5-week, 1-competence course on Employee Training and Development. Students will learn the basic processes of employee training and development, including needs assessment, theories of learning and behavior change, training design to support appropriate selection or development of training, delivery of training, issues of transfer, and assessment of results. (2 quarter hours)

BADM 120 | ESSENTIALS OF COACHING | 2 quarter hours  
**Undergraduate**  
Effective coaching has long been recognized as a key element of success in the world of sports. More recently, a new breed of coaches has emerged to help people transform their personal and professional lives. In this course, we will explore the theories, concepts, and techniques of personal life and business coaching. Students will learn about the history of coaching, its uses in personal and professional development and practical applications. Working individually, in pairs, and in small groups, students will practice coaching skills and keep a detailed learning journal. This course will be highly experiential and collaborative in nature. Students will learn concepts of coaching for personal development and professional effectiveness. In addition, students will learn models of collaborative learning and will apply one recognized model in the exploration of their coaching practice in the course. (2 credit hours)

BADM 178 | GENDER AT WORK | 4 quarter hours  
**Undergraduate**  
From the days of hunters and gatherers our world has been organized by gender expectations. While these gender roles have evolved over time, women and men today still struggle to meet these expectations and they have largely defined who we are for centuries. We have more choices and freedom to renegotiate and transcend these roles now than at any other time in history, and yet they still impact every aspect of our lives. This course will explore how gender can influence communication patterns, leadership styles, negotiation skills, conflict styles, work/life balance expectations, relationships and a multitude of other aspects of our life at work and at home. Students will demonstrate learning outcomes through class participation, group projects, journal entries and other assignments that will allow them to apply course readings, films, and discussion to their own personal experience. (4 credit hours)

BADM 101 | THE ART OF NEGOTIATION: REALIZING OPPORTUNITY | 2 quarter hours  
**Undergraduate**  
When we hear the word "negotiations", most of us think about formal events between CEOs and Wall Street dealmakers. In reality, negotiations take place in every facet of our lives, both personally and professionally. Negotiation is the art and science of securing an agreement between two or more parties. This course will provide you with the tools for achieving their personal and professional goals by implementing effective negotiation strategies and techniques. You will learn different negotiation strategies and techniques, and will practically apply these techniques in mock negotiations with other students. This course will focus on the behavior leading to effective negotiations and how to analyze your own behavior in negotiations. (2 quarter hours)
BADM 208 | SALES AND MARKETING MANAGEMENT FOR BUSINESS TODAY | 4 quarter hours (Undergraduate)
Sales Management is one of the most important jobs in business today. It is the focal point for managing customer relations, and is critical for sustaining profitability and growth. It draws on a broad spectrum of skills and offers many desirable career paths for both entry level as well as experienced workers. Sales Management techniques are applicable in a wide variety of business settings, and the basic framework and details apply in all of them. The purpose of this course is to present a practical, contemporary framework for Sales Management. It starts with basic sales analysis techniques for determining company position in the market. From there it explores modern sales techniques for facilitating the customer's buying decision. It then covers the major Sales Management job functions, such as Territory Management and Sales Training. The course concludes with a discussion of leadership and psychological skills that make for Sales Management excellence. Students will learn Sales Management via course lectures, textbook reading, Internet searches and independent research on the company they work for.

BADM 209 | THE HEART OF THE ENTREPRENEUR | 2 quarter hours (Undergraduate)
Entrepreneurs are an integral part of a thriving economy yet the aspects of successful entrepreneurship remain a mystery. This course takes a detailed look at the characteristics of successful and unsuccessful entrepreneurs, enabling the students to acquire a personal understanding of what it takes to start a new business venture. This course is especially targeted for those interested in starting their own business or aspiring to be an employee within an innovative business. (2 credit hours)

BADM 214 | ENTREPRENEURIAL ACCOUNTING | 4 quarter hours (Undergraduate)
Entrepreneurial Accounting is a thorough coverage of financial and management accounting topics in an economically challenging business environment. Clear principles and procedures are used to demonstrate the complete accounting cycle in any type of organization: For-Profit or Non-Profit. General purpose financial statements are prepared and examined from a fundamental understanding of how for-profit and non-profit businesses operate in a dynamic and changing business marketplace. Specifically, the reach of this course will be on a global environment that is characterized by a high degree of uncertainty. We will examine a variety of accounting challenges faced by business from an international perspective. This will have important implications on the way a company becomes more competitive and thus profitable. As such each of you will be assigned a company on day one of class to manage through a series of accounting dilemmas often both inside and outside our borders. As you acquire the requisite skills (throughout the term) to meet those challenges you'll execute decisions that will change the management course of the company. It is through this individual decision making that you'll learn what works and what doesn't and why. This is not a static accounting course. Your decisions will have an impact on the direction of the company. We will also cover a series of topics that will enhance your understanding of financing techniques and options through detailed ratio-analysis. This will advance your ability to understand and seek creative financing for any ideas you might have in the future. This is essential if you have that entrepreneurial spark that just needs some financial backing and support to get started. As this is an accounting course we would expect some proficiency in basic quantitative/mathematical ability. You should also be able to use a calculator reasonably well. (4 quarter hours)

BADM 220 | DEVELOPING CONSULTING SKILLS | 4 quarter hours (Undergraduate)
This course will help students learn how to start and operate a consulting business enterprise. Materials will address consulting purposes, skills, and techniques. Through class discussions and exercises, readings and assignments, students will learn how to create, organize, and operate a consulting enterprise. Students will review detailed analyses of consulting proposals, contracting, client needs and expectations, needs analyses and evaluation, project planning, data collection and analysis, resistance, client relationships, change management, feedback, pricing, presentation and facilitation skills, and ethical considerations. (2 quarter hours)

BADM 223 | ACCOUNTING AND FINANCE PRINCIPLES | 4 quarter hours (Undergraduate)
In this course, we will examine the role of accounting and financial management in the preparation, reporting and analysis of financial information. This topic is particularly important in today's economically challenging business world. Accounting and Finance concepts and principles serve as the bookends for our exploration. Clear principles and procedures are used to capture financial data, which can then be used to make economic and financial decisions. Specifically, the objective of this course is to present the fundamentals of accounting and finance to assist the non-accountant in understanding the financial statements of an organization and how financial information can be used in the management planning, control, and decision-making processes of both profit and non-profit seeking enterprises. Accounting is often called the language of business and as such, it is appropriate that as participants in the economic activities of our society we should have enough knowledge of this language to make informed decisions and judgements about our role in these economic activities. We will also cover a series of topics that will enhance your understanding of financial information, financing techniques and options through financial and ratio-analysis. This will advance your ability to understand and make relevant financing and investment decisions or develop viable future business strategies. (4 credit hours)

BADM 224 | MONEY, FINANCE, AND CRISES | 4 quarter hours (Undergraduate)
Money has become such an integral part of our everyday life that we take its everyday use, whether physically or electronically, for granted. Yet the reach of money goes far beyond what we experience. Money is much more involved in the inner workings of the economy through the interaction of financial markets (bond markets, stock markets, foreign exchange markets, etc.) and financial institutions (banks, mutual funds, insurance companies, pension funds, etc.). Financial markets and institutions everywhere, and particularly in the U.S., influence the trillions of dollars that flow daily worldwide. Their impact on the welfare of nations and on the capacity of the economy to produce goods and services becomes evident when one looks at the Great Recession, which started in 2008. The goal of this course is to provide a working understanding of many issues through the study of money, banking, and financial markets. (4 quarter hours)
BADM 231 | FINANCIAL PLANNING | 4 quarter hours (Undergraduate)
This course will help students organize their financial lives by learning and implementing selected principles of accounting, finance, and management. The course will address value and risk determination by dealing specifically with the analysis of one's financial status, goal setting and planning, and decision making. Risk analysis, savings and investment principles, taxes, debt management, retirement, and estate considerations are areas which guide the financial management of individuals and businesses alike. (4 quarter hours)

BADM 239 | BUSINESS, TECHNOLOGY AND OUR GLOBAL FUTURE | 4 quarter hours (Undergraduate)
Students will study the latest changes in the fields of intercultural communication and leadership development in today's global corporations, including reading interviews from some of the world's leaders in manufacturing, energy, telecommunications, and health care from 26 countries. This course combines hard science with cutting-edge organizational research-based case studies in today's trans-cultural global corporations. Students study key behaviors needed today to be successful in a global corporation, including cultural self-awareness, frame-shifting, inviting the unknown, third-way solutions, etc. Students will also study how "disruptive technologies", mobile internet, automation of knowledge work, cloud technology, next generation genomics, 3D printing, advanced materials, and renewable energy are changing and will continue to revolutionize global corporations. This course concludes with an analysis of the effects of social justice and corporate social responsibility on today's global corporations. (4 quarter hours)

BADM 244 | STATISTICAL REASONING: UNDERSTANDING AND USING STATISTICS | 4 quarter hours (Undergraduate)
This course will teach students the basic concepts of statistics. Students will investigate topics including descriptive statistics, correlation, normal distributions, probability, sampling distributions and hypothesis testing. By the end of this course, students will be able to complete a statistical analysis of datasets using Microsoft Excel as the primary tool. Considerable time will also be devoted to discussing how statistics are used and abused.

BADM 247 | APPLYING ECONOMICS: A PRACTICAL APPROACH | 4 quarter hours (Undergraduate)
This applied economic course is tailored to introduce students to economic issues, without employing complex graphical and mathematical models. The material to be covered caters to students who are concerned citizens and active participants in the economy, and want to achieve a better grasp of problems facing society today. Students will learn how to use fun tools from game theory to analyze some of society's most puzzling problems, such as pollution, health care, the depletion of natural resources, how the pursuit of individual goals can lead to poor collective outcomes, and also the challenges of monetary and fiscal policy, economic growth, inflation, unemployment, income inequality, etc. Students will learn by doing, through hands-on experiments and practical exercises. (4 credit hours)

BADM 260 | ESSENTIALS OF PROJECT MANAGEMENT | 2 quarter hours (Undergraduate)
This course provides an overview of the fundamentals of Project Management for non-Project Managers. It introduces the four phases of the project management process: Initiating, Planning, Managing, and Closing; the role of the Project Manager; tools, techniques and deliverables associated with successful project management; and troubleshooting techniques. (2 quarter hours)

BADM 261 | THE JOURNEY OF LEADERSHIP THROUGH ANCIENT GREEK LITERATURE | 2 quarter hours (Undergraduate)
Leadership is a journey. Odysseus, a well-respected leader in the ancient Greek literary world, portrays a model of leadership in the Trojan War that can be used today. This course provides an opportunity to read, reflect and discuss the many lessons that can be found in classic literature. A close reading of Homer's Odyssey, along with other articles on myth, archetypes, and leadership theories and practices, will allow the student to align their current leadership practices to ideas formed by Homer and expand their thinking in the arena of leadership. Reflecting on these readings, along with some structured journal exercises, will create alignment with what is often thought to be "old" text, generating new ideas on how leadership lessons can be applied to contemporary issues at work, at home or in their communities. (2 credit hours)

BADM 267 | WORKPLACE LAW: HARASSMENT, DISCRIMINATION AND CIVIL RIGHTS | 4 quarter hours (Undergraduate)
This course focuses on laws affecting relationships between employers and employees and within the workplace. Students will study the historical and societal aspects of laws on harassment and discrimination within the workplace, with particular focus on the Civil Rights Act and various other legislation regulating harassment and discrimination in the workplace. Students will analyze the case law, the legislation and the legal systems that have evolved to combat social injustice in the workplace and will learn "best methods" for preventing and resolving harassing and discriminatory practices in the workplace. (4 quarter hours)

BADM 270 | STARTING UP AND RUNNING YOUR OWN BUSINESS | 2 quarter hours (Undergraduate)
This course will help students learn how to start and operate an independent business enterprise. We will address entrepreneurship, defining your markets, accounting basics, business plans, financing, establishing the business, hiring employees, business equipment, software, and marketing. Through readings, discussion, and home assignments, students will learn how to increase the probability of reaching their business goals while minimizing risks and costs. By applying management, financial, and software concepts and practices, students will have the knowledge to start and run a new business. (2 quarter hours)

BADM 288 | MARKETING FOR THE SOCIAL GOOD | 4 quarter hours (Undergraduate)
This is a ten week course on the nonprofit and public organizational issue of social marketing. Generally social marketing techniques are used to influence individuals, or groups to change their behavior in order to improve a social good such as: individual health, the environment, and the community. Students will develop an appreciation for the principles of social marketing and will be taught the techniques for conducting social marketing programs. Students will also learn how to develop social marketing plans and meaningful promotions, including utilizing imagery/art to understand and create advertisements. (4 quarter hours)
BADM 310 | GENDER IN BUSINESS AND LEADERSHIP | 4 quarter hours
(Undergraduate)
Women’s work is never done. Not only are women mothers and wives, but these days the expectation is that women will take on leadership roles outside the home as well. What makes a woman a leader? How did the workplace differ when women were not corporate leaders? Who are today’s prominent female leaders and how are they shaping our future? In this course, learners will study the lives and contributions of various important women from business, politics, and social action. Students will assess equality in management and leadership, the psychological make up of the woman leader, and the ways in which women’s contributions to leadership differ from men’s. Furthermore, the class will endeavor to define leadership, its consequences, and its personal ramifications. Students should expect to read extensively about the lives and characteristics of contemporary women who have surfaced in leadership roles. Learners will also identify women leaders in their own workplaces and communities and assess their involvement in the corporation and/or general public. (4 quarter hours)

BADM 313 | CHANGE MANAGEMENT: THEORY & PRACTICE | 2 quarter hours
(Undergraduate)
Change management is a common term for all the processes, skills and practices used to prepare individuals, managers, and leaders to implement organizational changes. Simply put managing change, although difficult, is about the people side of change. Over this 5-weeks course theories, practices, and people management skills that are the foundation of sustainable change will be studied. The course emphasis is on deepening SCPs students’ understanding of the challenges and opportunities associated with being an effective change advocate and creating successful change outcomes. (2 credit hours)

BADM 315 | ECONOMICS FOR DECISION-MAKING | 4 quarter hours
(Undergraduate)
The purpose of this course is to provide the modern consumer living in a global economy fueled by unabated technological progress, with basic notions to understand the path that has led to sustained prosperity in the past many decades. The focus is on endowing students, as householders, with conceptual tools to make optimal financial and consumer decisions throughout the lifecycle. That theoretical foundation is reinforced and exemplified with a wealth of practical applications offered through a student-friendly online interactive learning platform, which also provides a convenient means to complete weekly assignments. That online platform will help students relate what they learn to their everyday experience as economic agents. The course is divided into two modules, microeconomic and macroeconomic. The microeconomic module studies the market mechanism. Topics covered include scarcity, opportunity costs, the law of diminishing returns, the trade principle of comparative advantage, the mechanism of the price system, the laws of demand and supply, the impact of market interventions by the government, etc. In the macromodule, topics covered include the workings of the gross domestic product (GDP), of inflation and unemployment, of money and banking, the role of fiscal and monetary policy, etc. The course will visit the relevance of balancing the requirements of economic growth (efficiency in the use of inputs) with the necessity of attending to the needs of both society (need for equity) and the environment (need for sustainability). Students will also discussed at length the economic implications of topics of heightened public interest, such as the Great Recession of 2008-2009 and the coronavirus pandemic that unleashed itself on the world around the onset of the year 2020. Throughout the course, we will refer to the idea that knowledge of economics leads to practical, informed decisions that can help us minimize cost and maximize return and satisfaction as voters and taxpayers participating actively in the economy. (4 credit hours)

BADM 318 | UNDERSTANDING FINANCIAL STATEMENTS | 4 quarter hours
(Undergraduate)
Business managers as well as investors must have a basic understanding of financial statements as not only a management tool but also as a way of communicating the financial and operational well-being of a company. This course teaches students the essential elements of financial statements, their interpretation and their impact on investors and society. This is a particularly important topic and skill in light of the recent corporate financial reporting scandals plaguing Wall Street and the nation. (4 quarter hour)

BADM 329 | DATABASE DEVELOPMENT FOR MANAGING INFORMATION | 4 quarter hours
(Undergraduate)
Using MS Office tools suite (in particular Access), this course takes students through the entire process for building a database system that will be used to capture, store and present information. In addition to database concepts like designs, reports and SQL queries, the students will discuss and analyze relationships between technology and society.
BADM 330 | LAW IN THE BUSINESS ENVIRONMENT | 4 quarter hours
(Undergraduate)
The influence of the law is far-reaching in the corporate world. Whether an entrepreneur, manager, administrative assistant, union employee, nonunion employee, sales representative, purchasing agent, etc., the law ultimately affects how we make decisions in the work arena. This course allows students to discover the wide range of laws affecting America’s business environment. Students will learn how the law is established and developed, and be provided with tools to recognize potential legal issues that arise in daily business operations. The curriculum considers the impact of the law in the global workplace, and in commerce, business operations, employer/employee relationships, and in the regulatory environment.

BADM 334 | HUMAN RESOURCE AND TALENT DEVELOPMENT FUNDAMENTALS FOR MANAGERS | 4 quarter hours
(Undergraduate)
This course is designed as an introduction to the practices of human resources (HR) in a corporate environment. It will target the practices that managers need to know such as recruiting, training, hiring, and terminating employees as well as the basics of HR law. Additional content that will be addressed includes headcount management, performance appraisals, learning & development, compensation basics, and grievance processes. This course will equip managers with the information they need to know without making them Human Resource experts but rather how to work effectively with their HR counterparts. (4 hours)

BADM 335 | RISK MANAGEMENT IN THE WORKPLACE | 4 quarter hours
(Undergraduate)
This overview course in risk management will introduce managers to the various types of risk that needs to be managed in the workplace. Numerous areas such as operational risk, market risk, global risk, and customer risk will be investigated. While this course is not to create students who will be experts in risk management this course will allow them to identify and analyze areas of potential risk to the assets of their organization. Students will use case studies to ensure that proper communication happens for key risks within the organization. (4 hours)

BADM 340 | IMPLEMENTING CORPORATE TRAINING PROGRAMS | 4 quarter hours
(Undergraduate)
In this course, students will learn about the strategic process of effectively and efficiently implementing a corporate training program based on business drivers from design stages through measurement of results. This process includes defining requirements and success criteria, designing the process, implementing and powerfully communicating the program to the learners, and then understanding how to measure the success of the program. It is imperative to measure and report on the trends of the program and to understand why it is important. Using methodology and models that have been successful in numerous global and domestic companies, students in this course will create their own plan for implementation, communication, and measurement to ensure success in their future training program implementations. (4 quarter hours)

BADM 359 | ETHICAL BUSINESS BEHAVIOR | 4 quarter hours
(Undergraduate)
Ethical Business Behavior explores the ethical issues that business decision-makers face and examines the moral principles that are used to help resolve these issues. Ethical decisions in the workplace can have tremendous influence on the individuals and the corporations involved. The outcomes of unethical behavior can affect reputations, trust and career path. Results have been as severe as loss of employment, physical harm to individuals, corporate bankruptcy and even impacts to the economy. Students are placed in decision-making roles through exercises, case studies and role-playing. Reasoning skills are honed through identification of ethical issues and alternative means to analyze these issues. Ethical behavior is evaluated using analytical skills to apply ethical concepts to business situations. (4 quarter hours)

BADM 368 | STRESS REDUCTION IN THE WORKFORCE | 4 quarter hours
(Undergraduate)
In the business world, the stress on a person's life and health has a direct impact on their productivity and creativity. Studies have shown that as stress increases in someone's life, their productivity at work goes down. The current state of humanity and technology has created a world with a new type of stress; the pace and speed of interaction has increased to a rate where a person has to deal with an influx of information and, often, interactions with hundreds of people per day via different technologies. In this course we will study another worldview in order to develop survival skills that reduce our stress. This different world view is the Yogic tradition from India called Kundalini Yoga. By taking this course, students will develop stress relief techniques and a sense of great purpose in their business lives. We will lower the stress level in our lives by participating in Kundalini Yoga stress reduction techniques from a video, weekly meditation exercises and textbooks. (4 credit hours)

BADM 386 | EXPLORING THE NONPROFIT WORKPLACE | 4 quarter hours
(Undergraduate)
Working in a non-profit organization can be a very rewarding experience. But how do you know what would be a good fit based on what you can offer? This exploratory course provides students with an overview of what ingredients make a non-profit successful. The lessons provide students with an understanding of how a social issue can be conceptualized into a program to form a non-profit organization. Students learn the basic operational components of an effective non-profit, explore best practices, determine how institutions impact social problems and evaluate their effectiveness. Students also reflect upon their own skills and abilities as they research or interact with non-profits to help guide them into an environment that matches their interests. The course is interactive and consists of a film, reflection, group and individual exercises, readings, discussion, research and writing. The final paper may consist of examining a social issue from an ethical perspective, analyzing the challenges faced by urban, suburban or rural settings, evaluating the effectiveness of how a social institution addresses a social problem or designing an individualized transition plan to volunteer or work in a non-profit organization. (4 quarter hours)
Business Law (BLW)

BLW 201 | LEGAL & ETHICAL ASPECTS IN THE BUSINESS ENVIRONMENT | 4 quarter hours
(Undergraduate)
Legal and Ethical Aspects in the Business Environment. Study of the nature and philosophy of law including ethical perspectives and fundamental concepts and legal principles of sales contracts, product liability, business organizations, and employment law including ethical and social responsibilities in the managerial process.
Sophomore standing is a prerequisite for this class.

BLW 202 | COMMERCIAL PAPER AND SALES | 4 quarter hours
(Undergraduate)
History of negotiable instruments and sales law from the days of the Law Merchant through Articles II and III of the Uniform Commercial Code; discussions of promissory notes, drafts, sales, bulk sales, and recent trends.
BLW 201 or ACC 370 is a prerequisite for this class.

BLW 203 | BUSINESS ORGANIZATIONS | 4 quarter hours
(Undergraduate)
Types of business organizations; emphasis on Partnership and Corporation. Relations of parties to one another, and to third parties; comparisons between the two types and mechanics of forming and operating each.
BLW 201 or ACC 370 is a prerequisite for this class.

BLW 398 | SPECIAL TOPICS | 4 quarter hours
(Undergraduate)
Content and format of this course are variable. An in-depth study of current issues in legal studies. Subject matter and prerequisites will be indicated in class schedule.
BLW 201 is a prerequisite for this class.

BLW 399 | INDEPENDENT STUDY | 1-4.5 quarter hours
(Undergraduate)
Independent Study. Available to students of demonstrated capability for intensive independent work in business law. (variable credit)
Junior standing with at least 88 cumulative units is a prerequisite for this class.

BLW 500 | LEGAL AND ETHICAL ENVIRONMENT | 4 quarter hours
(Graduate)
This is an introduction to the nature and sources of law, including an analysis of ethical perspectives present in the judicial process. Students will learn how legal and ethical issues influence the decision-making process of managers. Students will explore the relationship between personal values and business decisions, and whether there exists a social responsibility of managers. This course will cover legal concepts relevant to business including basic concepts of public law (constitutional and administrative law) and private laws (sales and product liability). Students will examine business organizations and issues in employment law.
MS in Taxation and MSAA students are restricted from registering for this class.

BLW 508 | LEGAL ASPECTS OF BUSINESS-TOTAL PERSPECTIVE FOR THE EXECUTIVE | 4 quarter hours
(Graduate)
Personal and professional legal liability of officers and directors has received considerable attention in recent years, thus highlighting the need for a view of the totality of his or her legal environment. It demands an integrated understanding and planning of the reciprocal aspects of his or her legal, social and ethical responsibilities and rights encountered in his or her office, outside and at home. From the end of the spectrum focusing on possible criminal and civil liabilities to the personal responsibilities of proper estate planning; the "socio-legal world of the executive" is presented. Successful completion of BLW 500 is recommended prior to registration for this course.

BLW 798 | SPECIAL TOPICS | 4 quarter hours
(Graduate)
Content and format of this course are variable. Subject matter will be indicated in class schedule.

BLW 799 | INDEPENDENT STUDY | 4 quarter hours
(Graduate)
Available to graduate students of demonstrated capability for intensive independent work in business law.

Business Studies (BUS)

BUS 102 | BUSINESS ANALYTICS | 4 quarter hours
(Undergraduate)
This course introduces students to the growing role of big data and the quantitative strategies that businesses employ to inform decisions. Students will analyze business cases in which data have helped businesses make better decisions, exposing them to real world applications of analytics. The course will also introduce students to some basic statistical techniques and spreadsheet software, which students will use to analyze specific business problems.

BUS 211 | DEVELOPING AN ENTREPRENEURIAL MINDSET | 4 quarter hours
(Undergraduate)
Learn the fundamentals of the entrepreneurial process from the discovery of an opportunity to the development and launch of a new solution. Explore entrepreneurial firms, business trends, market and industry analysis, business models, growth strategies, financing new ventures, and presenting a solution. Interactive assignments will allow students to gain an appreciation for the entrepreneurial mindset.

BUS 212 | MARKETING, CONSUMER BEHAVIOR & YOU | 4 quarter hours
(Undergraduate)
Explore the exciting world of marketing to learn how product, price, distribution, and promotions are integrated to build brands. Gain a greater understanding of positioning, market segmentation, the sales process, decision making and marketing plan development. Conduct an in-depth study of the meaning of marketing in everyday life. Interactive discussions encourage the examination of constantly evolving marketing tools and the wide variety of employment opportunities in the industry.
Students with a major or double major in The Driehaus College of Business are restricted from registering for this class.
CTH 182 | THE LATINO RELIGIOUS EXPERIENCE IN THE UNITED STATES | 4 quarter hours
(Undergraduate)
An examination of the diverse nature of Latino religion, from its indigenous roots to its institutional forms, within the social and political context of American culture. Cross-listed with REL 113.

CTH 183 | THEMES IN CATHOLIC SOCIAL THOUGHT | 4 quarter hours
(Undergraduate)
An initial, systematic examination of major themes in modern Catholic social thought. Cross-listed as REL 183.

CTH 190 | METHODS OF BIBLICAL INTERPRETATION | 4 quarter hours
(Undergraduate)
This course will survey methods of biblical interpretation. Literary, historical, cultural, and theological methodologies will be studied and applied to Old and New Testament texts.

CTH 202 | CATHOLICS AND SCRIPTURE | 4 quarter hours
(Undergraduate)
This course serves as an introduction to the content of the Old and New Testaments and to Catholic ways of reading Scripture. The course will cover, for example, passages from Genesis, Exodus, the historical writings, the prophets, the Gospels, and the letters of Paul. The course will also treat questions of canon, interpretation, and the relation of Scripture to tradition. Formerly CTH/REL 190 Catholicism and Biblical Interpretation/Interpreting Sacred Texts.

CTH 203 | WHAT CATHOLICS BELIEVE | 4 quarter hours
(Undergraduate)
This course will cover the basic elements of Catholic belief, following the pattern of the Nicene Creed. The course will deal with God, Jesus Christ, salvation, the Holy Spirit, the Church, sacraments, and the afterlife, as these ideas have been discussed and debated in classical, modern, and contemporary periods.

CTH 205 | CATHOLICISM IN WORLD HISTORY I: JESUS TO 1500 | 4 quarter hours
(Undergraduate)
A study of the development of the Catholic Church from the time of Jesus to the Renaissance. Religious movements, piety and art as well as theology and ecclesiastical history will be examined. Cross-listed as REL 213 and HST 261.

CTH 206 | CATHOLICISM IN WORLD HISTORY II: MODERN & POST-MODERN TIMES | 4 quarter hours
(Undergraduate)
A study of the development of Catholicism since 1500 exploring the Catholic Reformation, Catholicism's encounter with the Enlightenment, the missionary movement and the Catholic Church in the United States. Cross-listed with REL 214 and HST 262.

CTH 209 | THEORIES OF THE CHURCH: CONCEPTS AND CONTROVERSIES | 4 quarter hours
(Undergraduate)
Introduction to several ecclesiologies that co-exist in Catholicism. Both historical and contemporary ecclesiologies will be considered. Cross-listed as PSC 335.
CTH 210 | CATHOLIC SOCIAL TEACHING | 4 quarter hours  (Undergraduate)
This course will introduce students both to the development of Catholic Social Teaching (CST) and the lived witness of social engagement by a variety of Catholics in varied contexts. The course will cover essential passages from Scripture (e.g., the Beatitudes, key sections of the Hebrew Bible), as well as the ongoing development of Catholic thought and practice in modern papal encyclicals and the Second Vatican Council. Witnesses who embody, challenge and contribute to Catholic Social Teaching will be explored; these may include, for example, Catherine of Siena, Bartolome de las Casas, Vincent DePaul, Louise DeMarillac, Dorothy Day, and Oscar Romero.

CTH 212 | ANCIENT ISRAEL: HISTORY, LITERATURE AND RELIGION | 4 quarter hours  (Undergraduate)
The development of Judaism from Moses to the Rabbinic era with special attention to social and historical questions. Cross-listed with REL 232.

CTH 213 | THE NEW TESTAMENT | 4 quarter hours  (Undergraduate)
A critical investigation of the New Testament. Topics include the earliest Christian writings (letters of Paul), the production of "gospels" about Jesus, and the development of early churches in the context of ancient history and society. Cross-listed with REL 233.

CTH 214 | THE HISTORICAL JESUS | 4 quarter hours  (Undergraduate)
An investigation of the early Christian Gospels and other sources for reconstructing the life of Jesus of Nazareth. The relation of historical reconstruction and religious interpretation, and the significance of conflicting interpretations of Jesus, will also be considered. Cross-listed as REL 238.

CTH 215 | VARIETIES OF EARLY CHRISTIANITY | 4 quarter hours  (Undergraduate)
An examination of multicultural diversity in early Christianity through a study of materials excluded from the New Testament canon; Christian apologists defending the church against pagan intellectuals and Roman imperial magistrates; comparisons of early Christian fiction and ancient Greek novels; and an examination of Gnostic writings. Cross-listed as REL 234.

CTH 216 | PAUL AND HIS INFLUENCE IN EARLY CHRISTIANITY | 4 quarter hours  (Undergraduate)
A critical study of Paul’s literary remains as primary sources for reconstructing the development of the Christian movement, focusing on Paul’s communities, ethics and theology. Early interpretations and assessments of Paul will also be considered. Cross-listed as REL 235.

CTH 218 | THE BIBLE AS LITERATURE | 4 quarter hours  (Undergraduate)
This course is an introduction to the major stories and literary genres of the Bible, e.g. myths, poems, parables, gospels, letters.

CTH 220 | CATHOLIC EXPERIENCE I: EARLY CHURCH - 1200 | 4 quarter hours  (Undergraduate)
This course is an introduction to the history of the Catholic Church and the evolution of Christian thought and practices, from the early Church to the thirteenth century. The course will cover the emergence of Christian communities throughout the Near East, Europe, Asia, and North Africa, and study these communities in their cultural, social, and political contexts through foundational texts and works of art. Main topics: The Early Church; Councils and Heresies; Missions in Northern Europe; Charlemagne, Carolingians and a new Roman Empire; Monasticism; Eastern Orthodoxy; Christianity and Islam (the Age of the Crusades); the Mystical Tradition; the Investiture Controversy. Cross-listed with REL 206 and HST 218.

CTH 221 | CATHOLIC EXPERIENCE II: 1200 - FRENCH REVOLUTION | 4 quarter hours  (Undergraduate)
This course provides an overview of the history of Catholicism and its interactions with political and social history from 1200 to the French Revolution. The main topics of the class are the origin of the Universities and Scholasticism; St. Francis and St. Dominic and their impact on Medieval Society; the Challenges to Papal Monarchy; Humanism and Erasmus; the impact of the Reformation; the Council of Trent; the geographic discoveries of the New World; the Enlightenment and the Scientific Revolution; the Catholic Church and the French Revolution. Cross-listed with REL 207 and HST 219.

CTH 222 | CATHOLIC EXPERIENCE III: FRENCH REVOLUTION - PRESENT | 4 quarter hours  (Undergraduate)
This course will offer a survey of the political, cultural and intellectual history of the Catholic Church from 1789 through the early twenty-first century. It will include discussions of the Catholic Church in relation to the French Revolution; the Catholic Church and the formation of modern nation-states (including, inter alia, the unification of Italy and the German Kulturkampf); the relation between the Church and Liberalism; intellectual movements like theological Modernism and ressourcement theology; the First Vatican Council; the Church, Fascism and Communism; the Second Vatican Council; the Emergence of a Global Church, Latin American Liberation Theology, and more. Cross-listed with REL 208 and HST 220.

CTH 223 | THE SECOND VATICAN COUNCIL | 4 quarter hours  (Undergraduate)
A detailed exploration of the history, issues, personalities, theologies and results of Vatican II studied against the backdrop of modernity and post-modernity.

CTH 225 | ROMAN CATHOLIC SPIRITUAL LITERATURE | 4 quarter hours  (Undergraduate)
A study of the foundational religious experiences that underlie the Roman Catholic tradition, of the narratives they generate, and of their representations in various media such as poetry, music, myths, sacred legends and apologetic stories.

CTH 228 | MEDIEVAL MYSTICS IN EUROPE: 1000-1600 A.D. | 4 quarter hours  (Undergraduate)
The evolution of theories and experiences of human union with God, and of varied Christian spiritual paths and practices as described in mystical literature, saint’s lives, religious art and music. Emphasis on the monastic, urban and courtly institutional context of the documents. Cross-listed with HST 213.
CTH 229 | CATHOLICISM AS A SPIRITUAL PATH | 4 quarter hours  
(Undergraduate)  
An experience-centered study of the relationship between contemplation and action, prayer and service, liturgy and social justice, personal religious experience and the wider experience of Catholics. Both historical as well as contemporary spiritualities will be explored. Cross-listed as REL 284.

CTH 230 | THINKING ABOUT GOD | 4 quarter hours  
(Undergraduate)  
This course centers on the question of the relationship between reason and faith, between as it were "thinking" and "God." According to the Catholic tradition, reason's search for wisdom initiated by such classical thinkers as Plato and Aristotle is fulfilled in Christian faith. As such, it regards philosophy "as a mode of reflection that holds God as the source of all being and action and brings multiple disciplines together into a lived synthesis" (Vision Statement, Department of Catholic Studies). This holistic vision entails theses regarding the character of reason as open to theology and faith as an extension of reason. It entails the Christian doctrines of the Logos, the Trinity, revelation, and sin. It requires careful considerations of the human person's powers of intellect and will. It extends to considerations of the relationship between the theological virtues of faith, hope, and charity that in turn extend to all of the moral life. And it must offer an account of reasonableness that begins to answer the challenges of Nominalism, the Reformation, the Enlightenment, and postmodernity. Possible topics of a more interdisciplinary nature include the public/private distinction, the compatibility of science and religion, and the validity of truth claims in a pluralistic world.

CTH 231 | ROMAN CATHOLIC LITURGY | 4 quarter hours  
(Undergraduate)  
A study of the emergence, meaning and dynamics of community, and of the interaction between community and ritual in the Roman Catholic tradition. Cross-listed as REL 281.

CTH 232 | LA MORENITA DE CHICAGO: FAITH, CULTURE AND IDENTITY IN MEXICAN CATHOLICISM | 4 quarter hours  
(Undergraduate)  
The course will enable the students to "read" the image of Our Lady of Guadalupe in distinct contexts, especially in the light of the struggle of the Mexican Catholic community in Chicago and will allow them to think and write about the image of la Morenita de Chicago (an affectionate term used by Mexican-Americans to refer to the image that literally translates as "the brown-skinned woman of Chicago"). The learning process will lead to an integration of varied personal experiences, guided theological reflection, and the common study of history, art, culture, and politics.

CTH 238 | ANCIENT PHILOSOPHY | 4 quarter hours  
(Undergraduate)  
A study of selected thinkers and issues from ancient Greece. Cross-listed with PHL 293.

CTH 239 | MEDIEVAL PHILOSOPHY | 4 quarter hours  
(Undergraduate)  
A study of selected thinkers and issues from the Medieval period. Cross-listed as PHL 294.  
(PHL 100 or HON 105 or any 200-level PHL course) is a prerequisite for this class.

CTH 240 | TOPICS IN CATHOLIC THOUGHT | 4 quarter hours  
(Undergraduate)  
A study of selected topics and controversies.

CTH 241 | VIRTUE ETHICS | 4 quarter hours  
(Undergraduate)  
The intellectual framework for this course is a rich strand in the Catholic moral tradition called virtue ethics. Virtue ethics begins with the universal human question: how can I be happy? Its answer is in part the diverse activities that make up happiness called virtues. This course focuses on primary sources.

CTH 243 | ROMAN CATHOLIC THEOLOGICAL THINKING | 4 quarter hours  
(Undergraduate)  
A study of the Roman Catholic tradition of "faith seeking understanding" examining the content and the process of emergence of Catholic beliefs about such matters as God, sin, Jesus Christ, revelation, the church and eschatology. Cross-listed with REL 280.

CTH 244 | DEBATES ABOUT GOD | 4 quarter hours  
(Undergraduate)  
A study of classical and contemporary arguments regarding the existence and meaning of "God" as developed in a variety of theistic traditions. Cross-listed as REL 200.

CTH 246 | INTRODUCTION TO CHRISTIAN ETHICS | 4 quarter hours  
(Undergraduate)  
This course is an introductory study of the basic themes of Christian ethics. Particular attention will be paid to the Roman Catholic moral tradition, including such topics as the virtues, the natural law, moral decision-making and narrative. Cross-listed as REL 201.

CTH 247 | ROMAN CATHOLIC SOCIAL THOUGHT IN CONTEXT | 4 quarter hours  
(Undergraduate)  
A study of Roman Catholicism's understanding of its relation to the social world, including such matters as the relation between Church and state, and the moral authority of the Church, and of its teaching on such issues as social ethics, politics and economics. Cross-listed with REL 283.

CTH 248 | CONTEMPORARY MORAL ISSUES | 4 quarter hours  
(Undergraduate)  
A study of the relations between religious beliefs and moral action to be carried out through an examination of the ethical and moral response of Catholicism to selected moral issues such as war and peace, sexual behavior, etc.

CTH 249 | NATURE, COSMOS AND GOD: CATHOLICISM AND SCIENCE | 4 quarter hours  
(Undergraduate)  
A constructive correlation of Catholic thought and contemporary scientific theory about the origins and development of the universe. Modern and contemporary cosmologies will be put into dialogue with Christology, Trinity and Incarnation. A particular concern will be today's environmental crisis and an authentically Christian response.

CTH 250 | ART IN THE SPANISH AMERICAN EMPIRE | 4 quarter hours  
(Undergraduate)  
This course offers a critical survey of the art of colonial Latin America (circa 1520s-1820s), from the Caribbean to Mexico, Central America, and South America. Framed by the Spanish Conquest of the 16th century and independence in the early 19th century, lectures will survey state-sanctioned arts of the Iberian colonizers, including the foundations of the Catholic Church across the "New World" landscape. Race will be a frequent issue of discussion as we consider both indigenous American and African participation in social realities and artistic practice in this colonial context. Cross-listed with HAA 246 and LST 246.
CATHOLIC THEMES IN CONTEMPORARY CINEMA | 4 quarter hours
(Undergraduate)
This course will explore and examine the interaction of Catholic themes, symbols, and images through Hollywood and foreign films. Students are required to analyze films outside of class, give oral presentations, and compose papers on selected films. Cross-listed with MOL 319.

BYZANTINE ART | 4 quarter hours
(Undergraduate)
This course will explore the art of the Byzantine Empire from the founding of Constantinople in A.D. 330 to the fall of the city to the Ottomans in 1453. Lectures and readings will primarily focus on how contemporary understanding and interaction with a diverse group of monuments and objects now classified as Byzantine art. Significant attention will be devoted to how works of art functioned in the service of imperial and ecclesiastical ideology. Discussions will analyze how Byzantine art was appreciated and appropriated in both the medieval Mediterranean and in modern scholarship. Cross-listed with HAA 234.

CONQUEST AND CONVERSION: THE ART OF THE EARLY MIDDLE AGES | 4 quarter hours
(Undergraduate)
This course explores the art of the Medieval period from a broad range of cultures: Early Christian, Byzantine, Islamic, Carolingian, and Ottonian. We will discuss major stylistic trends and explore the relationship between art, culture, and religion. Works of art will be evaluated in terms of their social functions in the societies that produced them and our analysis will incorporate the perspectives of both the producers (patrons, artists) and consumers of art. Cross-listed as HAA 231.

THE AGE OF CATHEDRALS: THE ART OF THE LATER MIDDLE AGES | 4 quarter hours
(Undergraduate)
This course will explore the art of the late Medieval period from a broad range of cultures and styles: Byzantine, Romanesque, Gothic, and Islamic. We will discuss major stylistic trends and explore the relationship between art, culture, and religion. Works of art will be evaluated in terms of their social functions in the societies that produced them and our analysis will incorporate the perspectives of both the producers (patrons, artists) and consumers of art. Cross-listed as HAA 232.

ANCIENT AND MEDIEVAL ART | 4 quarter hours
(Undergraduate)
A survey of the principal works of architecture, sculpture, painting and the industrial arts created in the Mediterranean basin and in Europe from the Byzantine through the Gothic age.

ITALIAN RENAISSANCE ART | 4 quarter hours
(Undergraduate)
This course provides an overview of the history of Italian Renaissance art and architecture in Italy’s primary centers of artistic production. Cross-listed as HAA 237.

BAROQUE ART | 4 quarter hours
(Undergraduate)
Starting in 1600, from the vantage point of the Counter-Reformation and the rise of modern European states, Baroque Art covers the principal works of art & architecture; artists and patrons; and a wide sweep of social, religious, and political, conditions that impacted cultural thinking and production in the 17th century. Attention is focused on the most prominent artistic centers in Italy, the Spanish Netherlands, England, Spain, the Dutch Republic, and France. The in-class lectures with discussion are accompanied by field work to the Baroque collections of the Art Institute of Chicago. Cross-listed as HAA 238.

NORTHERN RENAISSANCE ART | 4 quarter hours
(Undergraduate)
This course features the most significant works of art, their artists & patrons, the social and economic aspects of artistic production, and the dominant cultural issues that flowed brilliantly in Northern Europe - above all, in France, the Netherlands, Bohemia, and German-speaking lands - between 1300 and 1600, during the volatile period of the Renaissance and the outbreak of the Protestant Reformation. Although Flemish oil painting offers the most evident legacy of the Northern Renaissance to the casual museum visitor, this course also introduces the most important outputs in printmaking, sculpture, and the industrial arts, as in tapestry weaving and the fabrication of luxury articles in metalwork. Cross-listed with HAA 236.

ART, LITURGY AND LIFE | 4 quarter hours
(Undergraduate)
This class examines how beauty and its antithesis, ugliness, permeate Catholic life and thought. Students will be introduced to the topic by considering examples from a variety of media, including ritual, painting, sculpture, architecture, crafts, and mural art. The students will learn not only how works of art accompany the performance and celebration of worship but also how Christians have learned to discern the living presence of the incarnate form of the divine Word within both art and liturgy. This course will demonstrate with concrete examples how art in Catholicism is the nexus that joins spirituality and liturgy. Theoretical orientation can be gleaned from the Christian theological tradition (St. Augustine, Hans Urs von Balthasar), Christian aesthetic theory (Jacques Maritain, Flannery O'Connor, Walker Percy, or Alejandro García Rivera), liturgical reformers (Odo Cassele, Louis Bouyer, or Virgil Michel), or the document of Vatican II on liturgy, namely, Sacrosanctum Concilium.

CATHOLIC FAITH AND MUSICAL EXPRESSION | 4 quarter hours
(Undergraduate)
An investigation of the relationship between Catholic life and music. The development of Catholic service music (masses, canticles, hymns, motets, etc.) as well as religious choral works may be studied.

CATHOLICISM AND LITERATURE | 4 quarter hours
(Undergraduate)
Christianity claims that the Word of God became flesh in a human being. It also claims that the story of this human being is found in a book, and that a specific community has protected the proper interpretation of this book. Whatever else Christianity is, it is a history of people telling stories. In this course, we will examine six different genres that Christians have used to tell their story. These are: criticism, gospel, poem, memoir, novel, and short story. The course will introduce students both to different types of literary genres and to essential ideas in Christian theology. These ideas include: prayer, conversion, sacraments, and the like.

LITERATURE AND THE SACRED | 4 quarter hours
(Undergraduate)
How human beings across cultures express their intimations of ultimate meaning in a variety of genres ranging from aphorisms and autobiographies to mythic and fictional narratives. Cross-listed with REL 223.

CONTEMPORARY SPIRITUAL MEMOIRS | 4 quarter hours
(Undergraduate)
Religious faith is not simply a matter of doctrine or abstract ideas. It is a way of life. In this course, we will examine how five authors describe their own faith – its joys, its struggles, and how it shapes their own lives. We will read selections from memoirs by Thomas Merton, Flannery O'Connor, Kaya Oakes, Amy Andrews and Jessica Griffith, and Richard Rodriguez.
CTH 270 | JESUS ACROSS CULTURES | 4 quarter hours  
(Undergraduate)  
A study of the multiple and diverse (primarily theological, but also literary, artistic and philosophical) historical and contemporary images of Jesus, as a way of understanding the diversity of the Christian tradition and its impacts on society, and of understanding the issue of plurality or diversity itself in religious traditions. Cross-listed with REL 273.

CTH 271 | ROMAN CATHOLICISM'S ENCOUNTER WITH OTHER RELIGIONS | 4 quarter hours  
(Undergraduate)  
A study of how Roman Catholicism understands and responds to other religious traditions, other ways of being religious, and how the encounter with those other traditions affects Roman Catholicism's understanding of itself and its teachings. Cross-listed with REL 285.

CTH 273 | HISTORY OF THE CATHOLIC CHURCH IN THE U.S. | 4 quarter hours  
(Undergraduate)  
This course traces the developments of the Catholic Church from the missionary enterprise to the position of a major social, political and economic institution. The course will examine the manner in which the hierarchical institution of the Catholic Church has related to the Liberal ideal of American Democracy. Cross-listed with HST 243.

CTH 274 | IRELAND: RELIGION AND THE CONTEMPORARY "TROUBLES" | 4 quarter hours  
(Undergraduate)  
An examination of the role of two Christian denominations (Protestant and Roman Catholic) in the more recent "Troubles" in the north of Ireland. Attempts to discover the contributions of religious differences in fueling and resolving the animosities between the Unionist and Republican sides; studies the social-historical dimension of the troubles and the Protestant and Catholic religious activities and official responses to them. Cross-listed with IRE 103.

CTH 275 | MEDIEVAL PEOPLE: 400 TO 1400 A.D. | 4 quarter hours  
(Undergraduate)  
The important components of European society during the Middle Ages, including rulers, knights, and peasants, churchmen and nuns, urban merchants, intellectuals, and artisans. Who were these Medieval people, what differentiated them, how did they interact with each other, and how and why did these interactions change over time? Cross-listed with HST 171.

CTH 276 | CATHOLICISM IN AFRICA | 4 quarter hours  
(Undergraduate)  
This course will study African Catholicism: (1) as a religious heritage dating back to the first century, reaching its climax in the conquest of Alexandria and the entrenchment of the Roman Empire in Africa; (2) as a cross-cultural and socio-political movement which has affected and changed Africa through the Trans-Atlantic Slave Trade, Colonialism, Western Missionary activities in Africa, Western education and the integration of Africa into global Christianity and World Catholicism; (3) as an unique and contemporary African Christian religious movement with her own identity, mission, and character which is redefining the future of Christianity beyond the African continent. Key themes: African church history, African spirituality, African Traditional Religions and cultures, African ecology, church and development in Africa, biblical and Pentecostal movements in Africa; religion and peace, religion and social transformation in Africa.

CTH 279 | CATHOLICISM AND THE FAMILY | 4 quarter hours  
(Undergraduate)  
An historical and theological study of the family in Catholic life and thought. Images of family life in contemporary film and literature will be given special consideration.

CTH 280 | RELIGION AND EDUCATION IN WESTERN CULTURE | 4 quarter hours  
(Undergraduate)  
A study of the relationship between Catholicism and education in Western culture. The historical relationship between Catholic faith and educational institutions will be studied. A major part of the course will explore the theological meaning of education with special attention to the issues of freedom and indoctrination, moral education, authorities in education and issues of the modern Western university.

CTH 282 | GOD, JUSTICE AND REDEMPTIVE ACTION | 4 quarter hours  
(Undergraduate)  
A practicum and seminar combining student participation in social outreach programs with an examination of the theological and ethical issues raised therein. Students will volunteer at a field site for the quarter.

CTH 288 | IRELAND, 1450-1800, CONQUEST, COLONIZATION & REBELLION | 4 quarter hours  
(Undergraduate)  
This course offers a survey of Irish history from the end of the middle ages to the union of Ireland and Great Britain in 1800. It traces the ways in which Ireland was brought under great English (later British) control through processes of agreement, conquest and colonization; and the ways in which various groups within Ireland sought to resist such developments. Cross-listed with HST 266 and IRE 101.

CTH 289 | IRELAND, 1800 - 2000 | 4 quarter hours  
(Undergraduate)  
Survey of Irish history from 1800 to 2000. Examines the course of Irish history from the Act of Union (creating the United Kingdom), through the struggles and reforms of the 19th century (Catholic Emancipation, the Famine and Irish diaspora, Fenianism, Land Reform and Home Rule), to the creation of the modern nation-state of the 20th century (the Easter Rising, partition and civil war, the role of Eamon deValera, the Republic, and the Troubles). Topics include the contributions of Irish culture and its influence in Europe and the world. Cross-listed with HST 268 and IRE 102.

CTH 290 | THE LIFE AND TIMES OF VINCENT DE PAUL | 4 quarter hours  
(Undergraduate)  
A study of Vincent de Paul in his cultural and religious context.

CTH 291 | VINCENT DE PAUL AND HIS WORLD | 4 quarter hours  
(Undergraduate)  
This course has four objectives: 1. To separate the Vincent of "myth" from the Vincent of "history." The "person" Vincent de Paul from the "saint." 2. Contextualize Vincent de Paul within his 17th century world. 3. Recover the role of Louise de Marillac and women in founding the Vincentian tradition. 4. Explore the re-contextualization of Vincent de Paul for the 21st century.

CTH 292 | WOMEN AND SAINT VINCENT DE PAUL | 4 quarter hours  
(Undergraduate)  
The changing roles of women in 17th century France, the importance of women in Vincent de Paul's life, the key relationships of Vincent with Madame de Gondi, Jane de Chantel and Louise de Marillac will be studied in depth. The flowering of Vincent's new conception of possibilities for women in the Ladies of Charity, the Daughters of Charity and other groups of women will be explored.

<tr>
<td>CTH 293</td>
<td>NOTABLE VINCENTIAN WOMEN</td>
<td>4</td>
<td>Undergraduate</td>
<td>An historical study of the Vincentian charism and how notable women embraced the Vincentian mission in roles as wives, mothers, widows, educators, nurses, spiritual leaders, and advocates for those who are poor. Among such women are Louise de Marillac, Elizabeth Bayley Seton, Rosalie Rendu, etc.</td>
</tr>
<tr>
<td>CTH 294</td>
<td>THE ART OF CRUSADING</td>
<td>4</td>
<td>Undergraduate</td>
<td>This course focuses on the Crusades. More specifically, it focuses on the world within which the Crusades were born and the Levantine kingdom built as a result of their initial success. Our study will depend on primary artistic, literary, and archaeological materials, as well as the secondary scholarship that has identified and interpreted these materials. Our understanding of this historical moment will be nuanced by the questions we ask of both. The payoff will be an appreciation for the religious, social, political, and artistic forces that defined the twelfth and thirteen centuries in Europe and in the Mediterranean basin, leading as they did to such fascinating phenomena as pilgrimage, the cult of relics, chivalry, holy war, the rise of military orders, and the establishment of the Latin Kingdom of Jerusalem itself. Cross-listed with HAA 233 and HST 211.</td>
</tr>
<tr>
<td>CTH 295</td>
<td>VINCENTIAN SOCIAL JUSTICE &amp; ACTION: THE LIFE AND LEGACY OF FREDERIC OZANAM</td>
<td>4</td>
<td>Undergraduate</td>
<td>An examination of the history of the Congregation of the Mission from 1816 to the present.</td>

CHE 420 | TOPICS IN CATHOLIC STUDIES | 3-4.5 quarter hours  
(Graduate)  
Select Topics in Catholic Studies. Course Taught at the Catholic Theological Union.

**Chemistry (CHE)**

CHE 100 | OUR CHEMICAL WORLD | 4 quarter hours  
(Undergraduate)  
A course for non-science majors that develops the essential concepts of chemistry with some focus on applications of these methods and ideas toward a particular aspect of human activity or condition. Only one of series 100-102 may be taken for credit.

CHE 101 | EXPLORING MATTER | 4 quarter hours  
(Undergraduate)  
A course for non-science majors that develops the fundamental concepts of chemistry with experimental exploration to complement the methods and ideas encountered in reading and discussion in class. Only one of series 100-102 may be taken for credit.

CHE 102 | MOLECULES THAT SHAPED THE WORLD | 4 quarter hours  
(Undergraduate)  
A course for non-science majors that presents how molecules and basic chemical concepts have shaped our world. Introductory concepts in chemistry, focusing on atomic and molecular structure and reactivity, will be placed in the larger context of the development of modern human civilization and culture. Topics of discussion may include the roles molecules have played in shaping: cuisine, energy, health, medicine, fashion, environmental policy, and others.

CHE 103 | ENVIRONMENTAL CHEMISTRY | 4 quarter hours  
(Undergraduate)  
A discussion and laboratory exploration of the technological origins, effects, and control of environmental pollutants.

CHE 104 | CHEMICALS, DRUGS AND LIVING SYSTEMS | 4 quarter hours  
(Undergraduate)  
A discussion of the molecular basis of the interaction of specific chemical compounds (chiefly pharmaceuticals and drugs) with living organisms.

CHE 105 | EXPLORING NUTRIENTS/SCIENCE OF NUTRITION | 4 quarter hours  
(Undergraduate)  
A discussion and laboratory exploration of the chemical molecules which supply nutrients for living organisms. This course also includes a quantitative project, applicable to the individual student, to enhance the understanding of the principles of nutrition.

CHE 106 | GEOCHEMISTRY | 4 quarter hours  
(Undergraduate)  
This course for non-science majors that introduces students to basic chemical and geological concepts through a discussion of the chemical principles and scientific laws governing the composition and chemical transformation of the components making up the Earth. Major topics include the scientific method, reporting and treatment of quantitative data, introduction to the basic principles of matter, chemical reactivity, and radioactive decay.

CHE 107 | PROTEINS AND THEIR GENES | 4 quarter hours  
(Undergraduate)  
A discussion and laboratory introduction to many aspects of proteins: their chemical structures, biological functions, how genes store the information to make them, and how changes in genes can lead to changes in proteins, and to cancer and other diseases.

CHE 109 | FORENSIC CHEMISTRY | 4 quarter hours  
(Undergraduate)  
Discussion and laboratory exploration of the application of modern science to problems in criminology, evidence, art, and archaeology.

CHE 110 | GENERAL, ORGANIC AND BIOLOGICAL CHEMISTRY | 3 quarter hours  
(Undergraduate)  
First course of a two-quarter sequence designed to introduce the physical and chemical properties of molecules. This course will cover: atomic and molecular structure, the states of matter, description of gases, preparation of solutions, acid/base chemistry, reactions and equilibrium and introduction to structure and conventional drawing of organic molecules.

CHE 111 is a co-requisite for this class.

CHE 116 | GENERAL, ORGANIC AND BIOLOGICAL CHEMISTRY I | 1 quarter hour  
(Undergraduate)  
This laboratory course introduces students to basic chemical laboratory techniques, while providing hands-on experience and applications related to CHE 116 course material.

CHE 116 is a co-requisite for this class.

CHE 117 | GENERAL, ORGANIC AND BIOLOGICAL CHEMISTRY II | 3 quarter hours  
(Undergraduate)  
Second course of a two-quarter sequence designed to introduce the physical and chemical properties of molecules. This course will cover: basic reactivity of organic functional groups relevant to biological systems, description of biomolecules (proteins, carbohydrates, nucleic acids and lipids), enzyme and vitamin chemistry, nucleic acid and protein synthesis and metabolic pathways and energy production.

CHE 116 and CHE 117 are prerequisites for this class. CHE 119 is a co-requisite for this class.

CHE 118 | GENERAL, ORGANIC AND BIOLOGICAL CHEMISTRY LABORATORY II | 1 quarter hour  
(Undergraduate)  
This laboratory course continues to practice basic laboratory skills learned in CHE 117, while introducing new organic and biochemical techniques related to CHE 118 course material.

CHE 118 is a co-requisite for this class.

CHE 120 | GENERAL CHEMISTRY IP | 5 quarter hours  
(Undergraduate)  
This introductory course for science majors covers the same subject matter and sequence of topics as that of CHE 130, however this course includes additional coverage of fundamental chemistry concepts and more in-class time devoted to developing problem-solving skills. CO-REQUISITE(S): CHE131 and MAT 130 if math placement indicates MAT 130 (5 quarter hours)

Placement by the Chemistry Placement Test is a prerequisite for this class. CHE 131 is a co-requisite for this class. MAT 130 may be a co-requisite for this class (determined by Math placement test score).

CHE 122 | GENERAL CHEMISTRY IIIP | 5 quarter hours  
(Undergraduate)  
Second course of three in the General Chemistry series that covers the same material as that of CHE 132, however this course includes additional coverage of fundamental chemistry concepts and more in-class time devoted to developing problem-solving skills. CO-REQUISITE(S): CHE133 (5 quarter hours)

A grade of C- or better in (CHE 120 or CHE 130) and in CHE 131 are prerequisites for this class. CHE 133 is a co-requisite for this class.
CHE 128 | BASIC CHEMICAL CONCEPTS | 3 quarter hours
(Undergraduate)
This course develops the fundamental concepts of chemistry and basic quantitative reasoning. This course is suitable to prepare students to take General Chemistry I (CHE 130 or CHE 136). (3 quarter hours)

CHE 129 and MAT 130 or higher are a corequisite for this class.

CHE 129 | BASIC CHEMICAL CONCEPTS LABORATORY | 1 quarter hour
(Undergraduate)
Laboratory course to be taken in conjunction with CHE 128. (1 quarter hour)

CHE 128 and MAT 130 or higher are a corequisite for this class

CHE 130 | GENERAL CHEMISTRY I | 3 quarter hours
(Undergraduate)
This introductory course for science majors emphasizes the composition of matter, atomic and molecular structure, bonding and chemical reactions. It is the first in the three-course sequence of General Chemistry. CO-REQUISITE(S): CHE 131 (3 quarter hours)

MAT 130 and (CHE 120 or (CHE 128 & CHE 129) or (FYSC 128 & FYSC 129) or placement by the Chemistry Placement Test) are prerequisites for this class. CHE 131 is a co-requisite for this class.

CHE 130 and CHE 130 or CHE 132 is a co-requisite for this class.

CHE 130 | GENERAL CHEMISTRY I LABORATORY | 1 quarter hour
(Undergraduate)
Laboratory course to be taken in conjunction with CHE 120 or CHE 130. The experimental techniques provide hands-on experience with the course material in CHE 120 and CHE 130. CO-REQUISITE(S): CHE 120 or CHE 130 (1 quarter hour)

Either CHE 120 or CHE 130 is a co-requisite for this class.

CHE 132 | GENERAL CHEMISTRY II | 3 quarter hours
(Undergraduate)
Second course of three in the General Chemistry series. Topics discussed include: states of matter, phase transitions, properties of solutions, kinetics and equilibrium. CO-REQUISITE(S): CHE 133 (3 quarter hours)

A grade of C- or above in CHE 131 and (CHE 122 or CHE 120 or CHE 130) are prerequisites for this class. CHE 133 is a co-requisite for this class.

CHE 133 | GENERAL CHEMISTRY II LABORATORY | 1 quarter hour
(Undergraduate)
Laboratory course to be taken in conjunction with CHE 122 or CHE 132. The experimental techniques learned in lab provide hands-on experience with the course material in CHE 122 and CHE 132. CO-REQUISITE(S): CHE 122 or CHE 132 (1 quarter hour)

A minimum grade of C- in (CHE 120 or CHE 130) and in CHE 131 are prerequisites for this class. CHE 122 or CHE 132 is a corequisite for this class.

CHE 134 | GENERAL CHEMISTRY III | 3 quarter hours
(Undergraduate)
Third of three courses in the General Chemistry sequence. Topics discussed include: chemical equilibrium in aqueous solution (acids and bases, solubility, complex ion formation), thermodynamics (entropy and free energy), electrochemistry, chemistry of d-block elements and descriptive chemistry. CO-REQUISITE(S): CHE 135 (3 quarter hours)

A minimum grade of C- in (CHE 122 or CHE 132) and in CHE 133 are prerequisites for this class and CHE 135 is a corequisite for this class.

CHE 135 | GENERAL CHEMISTRY LABORATORY III | 1 quarter hour
(Undergraduate)
Laboratory course to be taken in conjunction with CHE 134. The experimental techniques provide hands-on experience with the course material in CHE 134. CO-REQUISITE(S): CHE 134 (1 quarter hour)

A minimum grade of C- in (CHE 122 or CHE 132) and in CHE 133 are prerequisites for this class and CHE 134 is a corequisite for this class.

CHE 136 | GENERAL CHEMISTRY I | 5 quarter hours
(Undergraduate)
This course is a rigorous introductory course in general chemistry covering topics such as composition of matter, atomic and molecular structure, bonding and chemical reactions, common states of matter, properties of solutions, phase transitions. Students must co-register for CHE 137, the laboratory course. (5 quarter hours)

MAT 130 or higher and a grade of C- or higher in (CHE 128 and CHE 129) or successful completion of (FYSC 128 and FYSC 129) or placement by Chemistry Assessment exam) are prerequisites for this class.

CHE 137 | GENERAL CHEMISTRY I LABORATORY | 1 quarter hour
(Undergraduate)
Laboratory course to be taken in conjunction with CHE 136. This laboratory course introduces students to basic chemical laboratory techniques. (1 quarter hour)

MAT 130 or higher and a grade of C- or higher in (CHE 128 and CHE 129) or successful completion of (FYSC 128 and FYSC 129) or placement by Chemistry Assessment exam) are prerequisites for this class.

CHE 138 | GENERAL CHEMISTRY II | 5 quarter hours
(Undergraduate)
This course is a continuation of CHE 136 covering topics including kinetics, chemical equilibrium in aqueous solution (acids and bases, solubility, complex ion formation), thermodynamics (entropy and free energy), electrochemistry, chemistry of d-block elements and descriptive chemistry. Students must coregister for CHE 139, the laboratory course. (5 quarter hours)

A minimum grade of C- in CHE 136 and CHE 137 is a prerequisite for this class.

CHE 139 | GENERAL CHEMISTRY II LABORATORY | 1 quarter hour
(Undergraduate)
This laboratory course is a continuation of CHE 137, emphasizing additional quantitative and qualitative laboratory techniques to coincide with CHE 138 content. (1 quarter hour)

A minimum grade of C- in CHE 136 and CHE 137 is a prerequisite for this class.

CHE 140 | UNIVERSITY CHEMISTRY | 3 quarter hours
(Undergraduate)
The subject matter and sequence of topics are similar to that of the General Chemistry sequence (CHE 130-132-134), however this course is designed for students who are prepared for a more thorough and systematic study of chemistry including increased emphasis on the connection between chemical and physical topics. This is the first of a three-course sequence of University Chemistry. This course meets for three hours of lecture and one hour of discussion per week. Students must co-register for the laboratory companion course, CHE 141. (3 quarter hours)

MAT 131 and completion of the Chemistry Assessment Examination is a prerequisite of this class.

CHE 141 | UNIVERSITY CHEMISTRY LABORATORY | 1 quarter hour
(Undergraduate)
Laboratory course to be taken in conjunction with CHE 140. This course meets weekly for three hours. The experimental techniques provide hands-on experience with the course material in CHE 140. Students must co-register for the lecture companion course, CHE 140. (1 quarter hour)

MAT 131 and completion of the Chemistry Assessment Examination is a prerequisite of this class.
CHE 205 | ANALYTICAL CHEMISTRY LABORATORY | 1 quarter hour (Undergraduate)
Laboratory to be taken in conjunction with CHE 204. Methods include wet chemistry and instrumental techniques of analysis. CO-REQUISITE(S): CHE 204. (1 quarter hour)
A grade of C- or better in (CHE 134 and CHE 135) or (CHE 138 and CHE 139) or (CHE 144 and CHE 145) is a prerequisite for this class. CHE 204 is a co-requisite.

CHE 228 | SURVEY OF ORGANIC CHEMISTRY | 3 quarter hours (Undergraduate)
This one-semester course gives students an overview of the fundamentals of organic chemistry and its applications in health and environmental sciences. This is a survey course meant for students who do not need to learn a full year of organic chemistry. Emphasis is on the structure, function, and reactivity of the major classes of organic compounds. This course meets for six hours per week: three hours of traditional lecture and three hours of lab. The course is suitable for nursing and environmental science students; it does not substitute for any traditional organic chemistry course. CO-REQUISITE(S): CHE 229. (3 quarter hours) (CHE132 and 133) or (138 and 139) are prerequisites for this course.

CHE 229 | SURVEY OF ORGANIC CHEMISTRY LABORATORY | 1 quarter hour (Undergraduate)
Laboratory to be taken in conjunction with CHE 229. CO-REQUISITE(S): CHE 228. (1 quarter hour) (CHE132 and 133) or (138 and 139) are prerequisites for this course.

CHE 230 | ORGANIC CHEMISTRY I | 3 quarter hours (Undergraduate)
First in a sequence of courses designed to investigate what organic chemistry is and how it works, by emphasizing the relationship between structure and function of organic molecule and the language and fundamental concepts of organic chemistry, including: structure and bonding; acid-base reactions; functional groups; thermodynamics and kinetics of organic reactions; stereochemistry, substitution and elimination reactions of alkyl halides. (3 quarter hours)
A minimum grade of C- in (CHE 134 and CHE 135) or (CHE 138 and CHE 139) is a prerequisite for this class.

CHE 231 | ORGANIC CHEMISTRY LABORATORY I | 1 quarter hour (Undergraduate)
Laboratory to be taken in conjunction with CHE 230. (1 quarter hour) A minimum grade of C- in ([CHE 134 and CHE 135] or [CHE 138 and CHE 139] or [CHE 144 and CHE 145]) is a prerequisite for this class.
CHE 230 is a corequisite for this class.

CHE 232 | ORGANIC CHEMISTRY II | 3 quarter hours (Undergraduate)
Second in a sequence of courses designed to investigate what organic chemistry is and how it works, by emphasizing the relationship between structure and function of organic molecules. Specific topics investigated include the reactivity and synthesis of alcohols, ethers, epoxides, alkenes, alkynes, alkane, conjugated, and aromatic compounds. To be taken in conjunction with CHE 233. (3 quarter hours)
A minimum grade of C- in CHE 230 and CHE 231 is a prerequisite for this class. CHE 232 is a corequisite for this class.

CHE 233 | ORGANIC CHEMISTRY LABORATORY II | 1 quarter hour (Undergraduate)
Laboratory to be taken in conjunction with CHE 232. (1 quarter hour) A minimum grade of C- in CHE 230 and CHE 231 is a prerequisite for this class. CHE 233 is a corequisite for this class.
CHE 234 | ORGANIC CHEMISTRY III | 3 quarter hours
(Undergraduate)
Third in a sequence of courses designed to investigate what organic chemistry is and how it works, by emphasizing the relationship between structure and function of organic molecules. Specific topics investigated include the reactivity and synthesis of carbonyl compounds; amines; and bio-molecules. To be taken in conjunction with CHE 235. (3 quarter hours)
A minimum grade of C- in CHE 232 and CHE 233 is a prerequisite for this class. CHE 235 is a corequisite for this class.

CHE 235 | ORGANIC CHEMISTRY LABORATORY III | 1 quarter hour
(Undergraduate)
Laboratory to be taken in conjunction with CHE 234. (1 quarter hour)
A minimum grade of C- in CHE 232 and CHE 233 is a prerequisite for this class.

CHE 236 | ORGANIC CHEMISTRY I | 5 quarter hours
(Undergraduate)
First in a sequence of courses designed to investigate what organic chemistry is and how it works, by emphasizing the relationship between structure and function of organic molecules, and the language and fundamental concepts of organic chemistry. Specific topics that are covered include the following: structure and bonding; acids and bases; functional groups; thermodynamics and kinetics of organic reactions; alkanes; stereochemistry; alkyl halides and nucleophilic substitution; elimination reactions; alcohols, ethers and epoxides; alkenes; alkynes; oxidation and reduction. CO-REQUISITE(S): CHE 237. (6 quarter hours)
(CHE 134 and CHE 135) or (CHE 138 and CHE 139) are a prerequisite for this class.

CHE 237 | ORGANIC CHEMISTRY I LABORATORY | 1 quarter hour
(Undergraduate)
Laboratory to be taken in conjunction with CHE 236. CO-REQUISITE(S): CHE 236. (1 quarter hour)
(CHE 134 and CHE 135) or (CHE 138 and CHE 139) are a prerequisite and CHE 236 is a corequisite for this class

CHE 238 | ORGANIC CHEMISTRY II | 5 quarter hours
(Undergraduate)
Second in a sequence of courses designed to investigate what organic chemistry is and how it works, by emphasizing the relationship between structure and function of organic molecules, and the language and fundamental concepts of organic chemistry. Specific topics that are covered include the following: conjugation, resonance, and dienes; benzene and aromatic compounds; electrophilic aromatic substitution; carboxylic acids; organometallic reagents; carbon substitution and addition reactions; aldehydes and ketones; carbonyl condensation reactions; amines; bio-molecules. To be taken in conjunction with CHE 239. (5 quarter hours)
A minimum grade of C- in CHE 236 and CHE 237 is a prerequisite for this course.

CHE 239 | ORGANIC CHEMISTRY II LABORATORY | 1 quarter hour
(Undergraduate)
Laboratory to be taken in conjunction with CHE 238. (1 quarter hour)
A minimum grade of C- in CHE 236 and CHE 237 is a prerequisite for this course.

CHE 240 | ORGANIC CHEMISTRY III | 3 quarter hours
(Undergraduate)
A minimum grade of C- in CHE 232 and CHE 233 is a prerequisite for this class. CHE 235 is a corequisite for this class.

CHE 241 | ORGANIC CHEMISTRY II LABORATORY | 1 quarter hour
(Undergraduate)
Laboratory to be taken in conjunction with CHE 240. (1 quarter hour)
A minimum grade of C- in CHE 232 and CHE 233 is a prerequisite for this class.

CHE 245 | ORGANIC CHEMISTRY LABORATORY I | 1 quarter hour
(Undergraduate)
Laboratory to be taken in conjunction with CHE 244. (1 quarter hour)
A minimum grade of C- in CHE 232 and CHE 233 is a prerequisite for this class.

CHE 246 | ORGANIC CHEMISTRY LABORATORY II | 1 quarter hour
(Undergraduate)
Laboratory to be taken in conjunction with CHE 245. (1 quarter hour)
A minimum grade of C- in CHE 232 and CHE 233 is a prerequisite for this class.

CHE 247 | ORGANIC CHEMISTRY III LABORATORY | 1 quarter hour
(Undergraduate)
Laboratory to be taken in conjunction with CHE 246. (1 quarter hour)
A minimum grade of C- in CHE 232 and CHE 233 is a prerequisite for this class.

CHE 261 | INSTRUMENTAL ANALYSIS | 4 quarter hours
(Undergraduate)
A lecture and lab course examining instrumentation in chemical analysis. Areas of focus include electronics and measurement theory, applied measurement statistics, chromatography, spectroscopy, and electroanalytical instruments and their applications. Grades of C- or better in both CHE 204 and CHE 205 are prerequisites for this class.

CHE 264 | ATMOSPHERIC CHEMISTRY | 3 quarter hours
(Undergraduate)
Atmospheric chemistry with a focus on physical and chemical processes in the troposphere and stratosphere. CO-REQUISITE(S): CHE 265. (3 quarter hours)
CHE 204 and CHE 205 are prerequisites for this course.

CHE 265 | ATMOSPHERIC CHEMISTRY LABORATORY | 1 quarter hour
(Undergraduate)
Laboratory to be taken in conjunction with CHE 264, with emphasis placed on gas phase and particulate measurements. CO-REQUISITE(S): CHE 264. (1 quarter hour)
CHE 204 and CHE 205 are a prerequisite for this class.

CHE 266 | SOLID WASTE CHEMISTRY | 3 quarter hours
(Undergraduate)
Fundamental chemical processes involved in the processing of solid wastes. CO-REQUISITE(S): CHE 269. (3 quarter hours)
CHE 204 and CHE 205 are prerequisites for this course.

CHE 267 | INSTRUMENTAL ANALYSIS LABORATORY | 1 quarter hour
(Undergraduate)
Laboratory to be taken in conjunction with CHE 261. (1 quarter hour)
CHE 204 and CHE 205 are prerequisites for this course.

CHE 269 | SOLID WASTE CHEMISTRY LABORATORY | 1 quarter hour
(Undergraduate)
Laboratory to be taken in conjunction with CHE 268. CO-REQUISITE(S): CHE 268. (1 quarter hour)
CHE 204 and CHE 205 are prerequisites for this course.

CHE 302 | QUANTUM CHEMISTRY | 3 quarter hours
(Undergraduate)
This is the first course in a three-quarter long physical chemistry sequence. This course focuses on quantum mechanics: a theoretical description of matter at the microscopic level. The energy levels of atoms and molecules will be derived; spectroscopic applications will be explored. Students must co-register for the laboratory companion course, CHE 303. (3 quarter hours)
CHE 204 and CHE 205 and (MAT 149 or MAT 152 or MAT 162 or MAT 172) and PHY 172 are prerequisites for this class.

CHE 303 | EXPERIMENTAL PHYSICAL CHEMISTRY I | 1 quarter hour
(Undergraduate)
A lecture and lab course examining instrumentation in chemical analysis. Areas of focus include electronics and measurement theory, applied measurement statistics, chromatography, spectroscopy, and electroanalytical instruments and their applications. Grades of C- or better in both CHE 204 and CHE 205 are prerequisites for this class.

CHE 304 | EXPERIMENTAL PHYSICAL CHEMISTRY II | 1 quarter hour
(Undergraduate)
A lecture and lab course examining instrumentation in chemical analysis. Areas of focus include electronics and measurement theory, applied measurement statistics, chromatography, spectroscopy, and electroanalytical instruments and their applications. Grades of C- or better in both CHE 204 and CHE 205 are prerequisites for this class.

CHE 305 | EXPERIMENTAL PHYSICAL CHEMISTRY III | 1 quarter hour
(Undergraduate)
A lecture and lab course examining instrumentation in chemical analysis. Areas of focus include electronics and measurement theory, applied measurement statistics, chromatography, spectroscopy, and electroanalytical instruments and their applications. Grades of C- or better in both CHE 204 and CHE 205 are prerequisites for this class.
CHE 304 | THERMOCHEMISTRY | 3 quarter hours  
(Undergraduate)
This is the second course in a three-quarter long physical chemistry sequence. This course explores the molecular-scale effects of quantum mechanics and thermodynamics. The understanding of quantum mechanics gained during CHE 302 is extended into the molecular regime, with a focus on bonding. The basic principles of thermodynamics are explored in detail. These principles are then applied to build up a detailed understanding of chemical equilibria and the properties of various states of matter. Students must co-register for the laboratory companion course, CHE 305. (3 quarter hours)
CHE 302 and CHE 303 are a prerequisite for this class.

CHE 305 | EXPERIMENTAL PHYSICAL CHEMISTRY II | 1 quarter hour  
(Undergraduate)
Laboratory to be taken in conjunction with CHE 304. The goal of this laboratory course is to teach students essential skills and techniques of physical chemistry. Experimental work will focus on electronic spectroscopy and thermodynamics. CO-REQUISITE(S): CHE 304. (1 quarter hour)
CHE 302 and CHE 303 are a prerequisite for this class.

CHE 306 | Kinetics and Statistical Thermodynamics | 3 quarter hours  
(Undergraduate)
This is the third course in a three-quarter long physical chemistry sequence. This course focuses on the connection between quantum mechanics and thermodynamics, as well as chemical kinetics. Topics discussed may include: kinetics, molecular dynamics, statistical mechanics, and transport properties. Students must co-register for the laboratory companion course, CHE 307. (3 quarter hours)
CHE 302 and CHE 303 are a prerequisite for this class.

CHE 307 | EXPERIMENTAL PHYSICAL CHEMISTRY III | 1 quarter hour  
(Undergraduate)
Laboratory to be taken in conjunction with CHE 306. The goal of this laboratory course is to teach students essential skills and techniques of physical chemistry. CO-REQUISITE(S): CHE 306. (1 quarter hour)
CHE 302 and CHE 303 are a prerequisite for this class.

CHE 308 | PHYSICAL CHEMISTRY FOR BIOLOGICAL SCIENCE | 3 quarter hours  
(Undergraduate)
This course will cover various topics from the field of physical chemistry with an emphasis on applications to biological systems. Topics will include: quantum mechanics, thermodynamics, kinetics, and statistical mechanics. In all cases, the focus will be on the application of these topics to biological molecules, including DNA, RNA, and proteins. Laboratory experiments will complement lecture topics, and may include examinations such as protein folding, isothermal calorimetry for protein-protein interactions, differential scanning calorimetry, and spectroscopic investigations of protein and DNA structure.  
BIO 193, CHE 134/135, CHE 204/205, (PHY 150/151/152 or 170/171/172), and (MAT 147/148/149 or 150/151/152 or 160/161/162 or 170/171/172) are prerequisites for this class. CHE 309 is a co-requirement for this class.

CHE 309 | PHYSICAL CHEMISTRY FOR BIOLOGICAL SCIENCES LAB | 1 quarter hour  
(Undergraduate)
Laboratory experiments will complement lecture topics, and may include examinations such as protein folding, isothermal calorimetry for protein-protein interactions, differential scanning calorimetry, and spectroscopic investigations of protein and DNA structure.  
BIO 193, CHE 134/135, CHE 204/205, (PHY 150/151/152 or 170/171/172), and (MAT 147/148/149 or 150/151/152 or 160/161/162 or 170/171/172) are prerequisites for this class. CHE 308 is a co-requirement for this class.

CHE 310 | NUCLEAR CHEMISTRY | 4 quarter hours  
(Undergraduate)
This is a course for advanced undergraduates and graduate students. The course emphasizes the theory of radioactive decay, nuclear properties, mass-energy systematics, and nuclear applications. CHE 205 and (PHY 152 or PHY 172) are prerequisites for this course.

CHE 318 | BIOPHYSICAL CHEMISTRY | 4 quarter hours  
(Undergraduate)
This course is designed for advanced undergraduate students with an interest in the interdisciplinary field of biophysics. The course will focus on several subfields of biophysical chemistry, including: fluorescence as a tool in biophysics; protein folding; biophysical applications of single molecule fluorescence, atomic force microscopy, X-ray crystallography, mass spectrometry, and NMR spectroscopy. Additional topics will be selected by students from a list of possible choices.
CHE 302 or CHE 308 or CHE 340 is a prerequisite for this class.

CHE 320 | INTERMEDIATE INORGANIC CHEMISTRY | 3 quarter hours  
(Undergraduate)
Lecture course emphasizing synthesis, structure and reactions of metal ligand compounds of general and biological interest. CO-REQUISITE(S): CHE 321. (3 quarter hours)
CHE 234 and CHE 235 or (CHE 238 and CHE 239) are a prerequisite for this class.

CHE 321 | INTERMEDIATE INORGANIC CHEMISTRY LABORATORY | 1 quarter hour  
(Undergraduate)
Laboratory to be taken in conjunction with CHE 320. CO-REQUISITE(S): CHE 320. (1 quarter hour)
CHE 234 and CHE 235 or (CHE 238 and CHE 239) are a prerequisite for this class.

CHE 326 | ORGANOMETALLIC CHEMISTRY | 3 quarter hours  
(Undergraduate)
Organometallic chemistry is the study of compounds that contain a metal-carbon bond, and thus unites the fields of organic and inorganic chemistry. Organometallic compounds are commonly employed throughout various chemical sub-industries for the synthesis of pharmaceuticals, liquid crystals, polymer precursors, fragrances, hormones and more. This course will provide an introduction to the fundamental structure and bonding of organometallic complexes, while offering an in depth study of the unique reaction mechanisms by which metals, particularly transition metals, react with organic molecules. Applications of these compounds and reactions to real-world industrial processes will also be presented to highlight the tremendous utility of this chemistry. Students must co-register for the laboratory companion course, CHE 327. (3 quarter hours)
CHE 234 and CHE 235 or (CHE 238 and CHE 239) are prerequisites for this course.
CHE 327 | ORGANOMETALLIC CHEMISTRY LABORATORY | 1 quarter hour
(Undergraduate)
Laboratory to be taken in conjunction with CHE 326. This course is designed to provide the student with a thorough introduction to the experimental techniques utilized by practicing chemists in the synthesis, isolation, and characterization of organic compounds. CO-REQUISITE(S): CHE 326. (1 quarter hour)

CHE 328 | EXPERIMENTAL BIOCHEMISTRY II | 1 quarter hour
(Undergraduate)
Laboratory to be taken in conjunction with CHE 328. Applications of basic techniques from CHE 324: DNA cloning and transformation; protein expression, purification, and characterization; and advanced biophysical methods. CO-REQUISITE(S): CHE 324. (1 quarter hour)

CHE 330 | SENIOR CAPSTONE IN THE PHYSICAL SCIENCES | 4 quarter hours
(Undergraduate)
Capstone in the Physical Sciences. A course for graduating chemistry and physics majors to integrate physical science experience with non-science fields.

CHE 332 | POLYMER SCIENCE | 3 quarter hours
(Undergraduate)
This course has been designed to expose students to various aspects of polymer science. The course will focus on the synthesis, structure, and properties of an array of both synthetic and natural polymers. Students will learn the means by which various classes of polymers are prepared and characterized, with an emphasis on the mechanisms of formation, including: free radical, cationic, anionic, condensation, and transition metal-mediated and catalyzed polymerization methods. The course will also highlight differences in the physical properties of polymers, and how such differences can be controlled and exploited for practical purposes. Students will also be introduced to more modern macromolecular materials including dendrimers and nanostructures. The applications of the polymers discussed in the course will also be presented in order to provide context for the real-world utility of these materials. Students must register for the co-requisite laboratory companion course, CHE 333.

CHE 333 | POLYMER SCIENCE LAB | 1 quarter hour
(Undergraduate)
Laboratory to be taken in conjunction with CHE 332. This course is designed to provide students with practical skills in the area of polymer science. The course will cover topics related to the synthesis, isolation, and characterization of polymeric materials. Students must be co-registered for the lecture course CHE 332.

CHE 334 | EXPERIMENTAL BIOCHEMISTRY III | 1 quarter hour
(Undergraduate)
Laboratory to be taken in conjunction with CHE 334. This course will introduce students to bioinformatics methods including protein function prediction and structure analysis, DNA/protein sequence analysis and alignment, and special topics laboratory techniques. CO-REQUISITE(S): CHE 344. (1 quarter hour)

CHE 340 | BIOCHEMISTRY I | 3 quarter hours
(Undergraduate)
First in a three-course sequence, directed at those who wish an in-depth exploration of modern biochemistry. This course covers the structures and functions of the four major macromolecules, concentrating on enzyme kinetics and regulation. CO-REQUISITE(S): CHE 341. The general biology sequence is strongly recommended. (3 quarter hours)

CHE 341 | EXPERIMENTAL BIOCHEMISTRY I | 1 quarter hour
(Undergraduate)
Laboratory to be taken in conjunction with CHE 341. This course will introduce classic and modern techniques for isolating and characterizing biological molecules. Topics covered will include buffer preparation; amino acid analysis; detection, quantification, and purification of proteins; enzyme kinetics; purification, amplification, and analysis of DNA; protein stabilization; and molecular interaction analysis. CO-REQUISITE(S): CHE 340. (1 quarter hour)

CHE 342 | BIOCHEMISTRY II | 3 quarter hours
(Undergraduate)
Second in a three-course sequence, directed at those who wish an in-depth exploration of modern biochemistry. This course covers energy metabolism and biosynthetic pathways, with emphasis on their coordinated regulation. CO-REQUISITE(S): CHE 343. (3 quarter hours)

CHE 343 | EXPERIMENTAL BIOCHEMISTRY II | 1 quarter hour
(Undergraduate)
Laboratory to be taken in conjunction with CHE 342. Applications of basic techniques from CHE 341: DNA cloning and transformation; protein expression, purification, and characterization; and advanced biophysical methods. CO-REQUISITE(S): CHE 342. (1 quarter hour)

CHE 344 | BIOCHEMISTRY III | 3 quarter hours
(Undergraduate)
Third in a three-course sequence, directed at those who wish an in-depth exploration of modern biochemistry. This course covers metabolism, nucleic acid structure and replication, transcription and translation. Also included are methods of biotechnology and an introduction to reading the primary literature. CO-REQUISITE(S): CHE 345. (3 quarter hours)

CHE 345 | EXPERIMENTAL BIOCHEMISTRY III | 1 quarter hour
(Undergraduate)
Laboratory to be taken in conjunction with CHE 344. This course will introduce students to bioinformatics methods including protein function prediction and structure analysis, DNA/protein sequence analysis and alignment, and special topics laboratory techniques. CO-REQUISITE(S): CHE 344. (1 quarter hour)

A minimum grade of C- in (CHE 134 and CHE 135) or (CHE 138 and CHE 139) is a prerequisite for this class.
CHE 346 | PRINCIPLES OF BIOCHEMISTRY | 4 quarter hours
(Undergraduate)
This course covers the key topics in biochemistry. These include non-covalent interactions, acid/base chemistry, chemical and three-dimensional structures of proteins/nucleic acids/lipids, hemoglobin oxygen binding, cytoskeletal and motor proteins, enzyme mechanisms/kinetics, membrane and membrane proteins/transport, signaling, energy metabolism and biosynthesis. Formerly CHE 240. This course is not intended for students majoring in chemistry and does not count as a CHE 250+ in-depth course for the major.
CHE 232 or CHE 238 is a prerequisite for this class.

CHE 348 | CHEMICAL BIOLOGY | 4 quarter hours
(Undergraduate)
This course introduces students to a new discipline spanning the fields of chemistry and biology in which chemical techniques and tools, often compounds produced through synthetic chemistry are used to study and manipulate biological systems in an effort to unravel biological problems and systems. The course will take a case study approach. Techniques encountered in the case study will be studied in depth. Primary literature will be used extensively in the in depth case study.
CHE 340 is a prerequisite for this class.

CHE 360 | MEDICINAL CHEMISTRY | 4 quarter hours
(Undergraduate)
This course emphasizes organic chemical principles and reactions vital to drug design and drug action in the human body. Medicinal chemists design molecules that alter phenomena operating at the overlap of chemistry, biochemistry, cell biology, and pharmacology. This course introduces the conceptual frameworks and methods employed in drug development using case histories and mechanisms of clinically important drugs as illustrative examples.
CHE 234 or CHE238 are prerequisites for this course.

CHE 362 | DRUGS AND TOXICOLOGY | 4 quarter hours
(Undergraduate)
This course covers the chemical and biological analysis of the metabolism and distribution of drugs, toxins and chemicals in animals and humans, and the mechanism by which they cause therapeutic and toxic responses. Metabolism and toxicity as a basis for drug development, metabolic polymorphisms and biomarkers of exposure are also covered.
CHE 234 or CHE 238 is a prerequisite for this class.

CHE 364 | NUTRITION | 4 quarter hours
(Undergraduate)
This is a one-quarter course focused on the advanced chemical aspects of human nutrition. The topics include the nutritive and toxic content of foods and health effects, a review of basic metabolic processes, nutrient transport and storage systems, cell signaling and regulation, and hormonal regulation and fuel utilization.
CHE 234 or CHE 238 and CHE 340 are a prerequisite for this class.

CHE 376 | COMPUTATIONAL CHEMISTRY | 4 quarter hours
(Undergraduate)
This course is designed to provide an accessible and practical introduction to computational chemistry. The course provides an overview of different methods commonly used in the field ranging from classical to quantum mechanical ab initio and density functional methods. PREREQUISITE(S): CHE302.

CHE 378 | APPLIED SPECTROSCOPY | 4 quarter hours
(Undergraduate)
This course serves as an introduction to the methods of structural and spectral analysis typically employed in the identification of organic molecules. Many instrumental techniques exist for the investigation of chemical structures, each of which provides unique information about the composition and structure of a compound. This course does not heavily emphasize the theoretical aspects of spectroscopy and instrumentation, but focusing primarily on the application of these techniques through the interpretation of spectra of organic molecules, and reaction mixtures. (CHE234 and CHE235) or (CHE238 and CHE239) are prerequisites for this course.

CHE 392 | INTERNSHIP | 4 quarter hours
(Undergraduate)
Experiential learning experience in a government agency, industrial firm, business, or non-profit organization. (variable credit)

CHE 394 | SEMINAR | 2 quarter hours
(Undergraduate)
This course is required for all chemistry majors. This course is designed to enhance your ability to: critically read and summarize scientific literature, thoughtfully listen to a scientific seminar, articulate questions regarding a scientific seminar, and orally present a scientific paper. (2 quarter hours)
(CHE 234 and CHE 235) or (CHE 238 and CHE 239) and at least Junior year standing) or instructor permission is a prerequisite for this course.
(CHE 234 and CHE 235 and at least Junior year standing) or instructor permission is a prerequisite for this course.

CHE 397 | RESEARCH | 1-4 quarter hours
(Undergraduate)
This course allows a student to work with a faculty member on a research project. Faculty consent and research contract are required to register for the course. This course is typically completed in one to four quarters at the discretion of the research advisor. The student is expected to gain skills in laboratory techniques and procedures in pursuing answers to a research project. (variable credit)
Junior standing is a prerequisite for this class.

CHE 398 | CHEMISTRY THESIS | 1-4 quarter hours
(Undergraduate)
This course requires faculty-guided experimental exploration of a research topic and both written (thesis) and oral (seminar and defense) presentation of results. This course is typically completed in two or three quarters (though it may be completed in one quarter at the discretion of the research advisor). The student is expected to gain skills in laboratory techniques and procedures in pursuing answers to a research project. The student will choose a faculty mentor and a project. The project may be based on lab or field research. The grade for the thesis will be based on the written document as well as on the oral seminar and defense presented to the Chemistry students and faculty and the student will graduate "with honors" from the department. This course may be taken more than one time for credit. (variable credit)
Junior standing is a prerequisite for this class.

CHE 399 | INDEPENDENT STUDY | 1-4 quarter hours
(Undergraduate)
Independent study of chemistry on an informal basis by an individual in consultation with a department faculty member. Department consent required. (variable credit)
CHE 422 | INORGANIC STRUCTURE AND REACTIVITY | 4 quarter hours  
(Graduate)
One of two courses in inorganic chemistry for advanced undergraduates and graduate students in the M.S. program. The course emphasis is variable, but topics covered will include the structure of inorganic compounds and inorganic reaction chemistry.

CHE 424 | GROUP THEORY | 4 quarter hours  
(Graduate)
One of two courses in inorganic chemistry for advanced undergraduates and graduate students in the M.S. program. The course emphasis is variable, but the primary topics will be group theory and its application to inorganic compounds.

CHE 430 | POLYMER SYNTHESIS | 4 quarter hours  
(Graduate)
This course focuses on the key synthetic organic chemistry methods for making polymers and coatings. A detailed consideration is given to the three types of polymerization reactions: step, chain, and ring-opening polymerizations. Practical application of polymer chemistry in society is a theme throughout the course.

CHE 431 | POLYMER SYNTHESIS LABORATORY | 2 quarter hours  
(Graduate)
The goal of this lab course is to expose students to experimental polymer chemistry. This course focuses on the key synthetic methods for making polymers and basic structural characterization techniques. Practical application of polymer chemistry in society is a theme throughout the course. (2 quarter hours)

CHE 432 | PHYSICAL CHEMISTRY OF POLYMERS | 4 quarter hours  
(Graduate)
This course looks at the broad subject of the physical chemistry of polymers and coatings. A detailed consideration is given to the role of molecular conformation and configuration in determining the physical behavior of polymers. Practical application of physical polymer chemistry in society is a theme throughout the course.

CHE 434 | POLYMER CHARACTERIZATION | 4 quarter hours  
(Graduate)
This course looks at the broad subject of polymer characterization. A detailed consideration is given to major methods of analysis of chemical structure, molecular weight, morphology, and rheology. Practical application of polymer characterization in society is a theme throughout the course.

CHE 435 | POLYMER CHARACTERIZATION LABORATORY | 2 quarter hours  
(Graduate)
The goal of this lab course is to expose students to hands-on polymer characterization techniques. This course will focus on the basic characterization techniques for determining structure and physical properties of polymers. Practical application of polymer characterization is a theme throughout the course. (2 quarter hours)

CHE 436 | POLYMER TECHNOLOGY | 4 quarter hours  
(Graduate)
This course looks at the broad subject of the polymer and coatings technology. A detailed consideration is given to polymerization processes, and polymer and coatings processing. Practical application of polymer and coatings technology in society is a theme throughout the course.

CHE 438 | MATERIAL SCIENCE | 4 quarter hours  
(Graduate)
This course looks at the broad subject of the materials science with emphasis on theory and applications of metals, ceramics, polymers, coatings and composites from atomic and macroscopic points of view. Practical application of materials science is a theme throughout the course.

CHE 442 | PROTEIN STRUCTURE AND FUNCTION | 4 quarter hours  
(Graduate)
One of two courses in biochemistry for advanced undergraduates and graduate students in the M.S. program. An in-depth exploration of protein structure and function, this course surveys the common experimental and bioinformatics methods used by modern biochemists to study protein structure, folding, evolution, engineering, conformational dynamics, and enzymatic reactivity. Students will gain experience with and working knowledge of online databases and tools used by biochemists to formulate and test hypotheses related to the topics of the course.

CHE 444 | ADVANCED TOPICS IN PROTEIN BIOCHEMISTRY | 4 quarter hours  
(Graduate)
One of two courses in biochemistry for advanced undergraduates and graduate students in the M.S. program. Discussion and seminars in selected areas.

CHE 450 | ADVANCED MECHANISTIC ORGANIC CHEMISTRY | 4 quarter hours  
(Graduate)
One of two courses in organic chemistry for advanced undergraduates and graduate students in the M.S. program. Discussion and seminars in selected areas.

CHE 452 | ADVANCED SYNTHETIC ORGANIC CHEMISTRY | 4 quarter hours  
(Graduate)
One of two courses in organic chemistry for advanced undergraduates and graduate students in the M.S. program. This course emphasizes physical organic chemical models and experimental methods that are used to understand, predict, and control the outcomes of reactions in organic chemistry.

CHE 454 | ADVANCED TOPICS IN PROTEIN BIOCHEMISTRY | 4 quarter hours  
(Graduate)
One of two courses in biochemistry for advanced undergraduates and graduate student in the M.S. program. This course emphasized classic and modern synthetic methods.

CHE 464 | COATINGS SCIENCE AND TECHNOLOGY | 4 quarter hours  
(Graduate)
This course will provide a concise review of the current scientific understanding in the field of polymer and coatings science with numerous practical applications to produce a basic understanding of polymers and coatings technology.

CHE 466 | COATINGS PROPERTIES AND APPLICATIONS | 4 quarter hours  
(Graduate)
This course will provide a concise review of basic principles involved in the characterization, properties, applications, and performance of coatings.
CHE 470 | STATISTICAL THERMODYNAMICS | 4 quarter hours  
(Graduate)  
One of three courses in physical chemistry for advanced undergraduates and graduate students in the M.S. program. CHE470 is a course designed to provide an in-depth presentation of thermodynamics from a molecular perspective. The course builds upon foundations given in undergraduate courses on quantum chemistry, and thermochemistry. Starting with some basic principles of probability and probability distribution, it proceeds to the Boltzmann distribution law, and an introduction to microcanonical ensembles; then using the expressions of the quantum energy levels of some simple models, a systematic exploration of the proper formulation, evaluation, and application of partition functions is given. In short, this course develops a methodology to compute thermodynamic properties of macroscopic systems from knowledge of the quantized energies of individual molecules.

CHE 472 | MOLECULAR DYNAMICS | 4 quarter hours  
(Graduate)  
One of three courses in physical chemistry for advanced undergraduates and graduate students in the M.S. program. CHE472 builds upon topics covered in a typical undergraduate-level course on chemical kinetics. Here, focus is placed on kinetics at the molecular level with an aim to understand how a reaction system behaves as it passes over a potential energy surface. Depending on time and student interest, specific topics in this course may include reaction rate theory, scattering theory, and surface interactions. Computer simulations may also be incorporated in this course.

CHE 474 | ADVANCED QUANTUM CHEMISTRY | 4 quarter hours  
(Graduate)  
One of three courses in physical chemistry for advanced undergraduates and graduate students in the M.S. program. CHE474 is focused on quantum mechanics and will build on fundamental principles introduced in undergraduate quantum chemistry, including an examination of the particle-in-a-box, rigid rotor, and harmonic oscillator models. More advanced quantum mechanical topics such as the Dirac representation, wave packet motion, and time-dependent perturbation theory may also be explored. These topics can be used to understand phenomena such as coherent control of reactions, vibrational energy redistribution, and electronic energy transfer. The primary goals of this course are to: 1) increase students’ understanding of quantum mechanical principles; 2) apply quantum mechanics to spectroscopic problems; and 3) expose students to modern literature related to quantum mechanics.

CHE 480 | SPECIAL TOPICS IN ANALYTICAL CHEMISTRY | 4 quarter hours  
(Graduate)  
This course may be any topic related to chemical analysis, such as mass spectroscopy, electrochemical analysis, principles of chromatography, polymer properties, coatings, sampling methods, design of experiments, etc. This course may be repeated if the topics are different.

CHE 482 | SPECIAL TOPICS IN BIOCHEMISTRY | 4 quarter hours  
(Graduate)  
This course may cover any topic related to biochemistry or medicinal chemistry. This course may be repeated if the topics are different.

CHE 484 | SPECIAL TOPICS IN INORGANIC CHEMISTRY | 4 quarter hours  
(Graduate)  
This course may cover any topic related to inorganic chemistry. This course may be repeated if the topics are different.

CHE 486 | SPECIAL TOPICS IN ORGANIC CHEMISTRY | 4 quarter hours  
(Graduate)  
This course may cover any topic related to organic chemistry. This course may be repeated if the topics are different.

CHE 488 | SPECIAL TOPICS IN PHYSICAL CHEMISTRY | 4 quarter hours  
(Graduate)  
This course covers specific topics in the area of physical chemistry. Examples of topics include single molecule techniques, molecular electronic spectroscopy, interaction of electromagnetic radiation with particulate matter, and hydrogen bonding. This course may be repeated if the topics are different.

CHE 490 | ADVANCED PROBABILITY AND STATISTICS | 4 quarter hours  
(Graduate)  
This course introduces students to statistical methods that can be used in error analysis of experimental data. Computers are used to apply concepts discussed in lecture to actual data sets. Offered: Winter of even-numbered years. Familiarity with Excel or a modern programming language is strongly recommended.

CHE 494 | SCIENCE WRITING AND COMMUNICATION | 4 quarter hours  
(Graduate)  
The goal of this course is to prepare students to be effective writers and communicators in academic and industrial settings. The course is organized around learning how to write a scientific argument via modules that cover the nature of scientific fact, different genres of scientific writing (e.g., reports and proposals), writing collaboratively and presenting a scientific argument to a stakeholder audience.

CHE 497 | RESEARCH | 1-12 quarter hours  
(Graduate)  
This course requires independent experimental exploration under the supervision of a faculty member. Thesis students must write a thesis based on their research project and successfully complete a two-part oral exam. The first part of the examination consists of the thesis presentation and defense; the second part is an oral examination concerning the student’s general knowledge of chemistry. (variable credit)

CHE 499 | INDEPENDENT STUDY | 4.00 quarter hours  
(Graduate)  
This course is for Master’s students. Topic of the course varies. Credit hours vary. Course requires graduate program director approval each quarter.

CHE 502 | CANDIDACY MAINTENANCE | 0 quarter hour  
(Graduate)  
This course is offered for students enrolled in the Graduate Program in Chemistry who have already completed all of their course requirements and who are preparing for the completion of the thesis. However, this course will not give the student full- or half-time enrollment status and will not permit deferment of student loans. Course requires graduate program director approval each quarter. (0 credit hours)

Chinese (CHN)

CHN 101 | BASIC CHINESE I | 4 quarter hours  
(Undergraduate)  
This course is an introduction to the study of standard modern Chinese, often referred to as Mandarin. It adopts the modern Chinese phonetic system, hanyupinyin, using simplified characters. This course aims at functional proficiency by developing the four aspects of communicative capabilities -- listening, speaking, reading, and writing -- through intensive practice. It also strives to improve students’ structural accuracy, which in turn will increase functional proficiency, by dealing with the grammatical rules in such a way that students can internalize them. As language and culture interact with each other, this course will also help students gain insights into the Chinese people, their life, culture, customs and habits.
CHN 101S | BASIC CHINESE I FOR SUMMER | 6 quarter hours
(Undergraduate)
(Covers the equivalent of CHN 101 and the first half of CHN 102.) The first half of beginning Chinese (Mandarin). Listening to, speaking, reading, and writing Chinese in a cultural context for the beginning student.

CHN 102 | BASIC CHINESE II | 4 quarter hours
(Undergraduate)
This course is the second part of the three-quarter sequence on Basic Chinese. It helps students develop basic conversation skills as well as modern Chinese literacy. The dialect to be taught in the course is Mandarin. Simplified Chinese characters are mainly used in reading and writing although students are also exposed to the traditional form of Chinese characters throughout the course.

CHN 103 | BASIC CHINESE III | 4 quarter hours
(Undergraduate)
This course continues to broaden and strengthen the foundation of Chinese language in both written and spoken formats. Based on knowledge gained in Basic Chinese I and II in terms of the origin and the elements of Chinese characters, the course expands students' collection of Chinese words and phrases to apply in both reading and writing. With the understanding of the phonetic systems of spoken Chinese as well as the structure of Chinese characters, students will continue to reflect on their learning and will share methods used to retain what they have learned in the class. The course combines language study with the exploration of Chinese culture and history.

CHN 103S | BASIC CHINESE III FOR SUMMER | 6 quarter hours
(Undergraduate)
(Covers the equivalent of the second half of CHN 102 and all of CHN 103.) The second half of beginning Chinese (Mandarin). Further work on the basic elements of the Chinese language, spoken as well as written, with due regard to the cultural context of Chinese expression. CHN 101S or equivalent is recommended.

CHN 104 | INTERMEDIATE CHINESE I | 4 quarter hours
(Undergraduate)
This course is the first part of the three-quarter course in Intermediate Chinese. It is offered to help students develop higher-level conversation skills as well as modern Chinese literacy. The dialect to be taught in the course is Mandarin. Simplified Chinese characters are mainly used in reading and writing, although students are also exposed to the traditional form of Chinese characters throughout the course. CHN 103 or equivalent, including placement test or permission of instructor, is recommended.

CHN 105 | INTERMEDIATE CHINESE II | 4 quarter hours
(Undergraduate)
This course is the second part of the three-quarter course in Intermediate Chinese. It is offered to help students develop higher-level conversation skills as well as modern Chinese literacy. The dialect to be taught in the course is Mandarin. Simplified Chinese characters are mainly used in reading and writing, although students are also exposed to the traditional form of Chinese characters throughout the course. CHN 104 or equivalent, including placement test or permission of instructor, is recommended.

CHN 106 | INTERMEDIATE CHINESE III | 4 quarter hours
(Undergraduate)
This course is the third part of the three-quarter course in Intermediate Chinese. It is offered to help students develop higher-level conversation skills as well as modern Chinese literacy. The dialect to be taught in the course is Mandarin. Simplified Chinese characters are mainly used in reading and writing, although students are also exposed to the traditional form of Chinese characters throughout the course. CHN 105 or equivalent, including placement test or permission of instructor, is recommended.

CHN 110 | INTENSIVE BASIC CHINESE I (FOR PARTICIPANTS IN STARTALK PROGRAM) | 4 quarter hours
(Undergraduate)
An intensive introduction to reading, writing, and speaking Mandarin in a cultural context for the beginning student. For participants in the STARTALK PROGRAM.

CHN 111 | INTENSIVE BASIC CHINESE II (FOR PARTICIPANTS IN STARTALK PROGRAM) | 6 quarter hours
(Undergraduate)
An intensive introduction to reading, writing, and speaking Mandarin in a cultural context for the beginning student; continues CHN 110. For participants in the STARTALK Program.

CHN 117 | INTENSIVE BASIC CHINESE I | 6 quarter hours
(Undergraduate)
This is part I of a two-course sequence of hybrid Basic Chinese which is equivalent to the 1st-year sequence CHN101-102-103. The hybrid course is offered in two modules: Online Learning Module (OLM) in which students learn the online content on our course website and finish online assignments during the weekdays and the Face-to-Face Module (FTFM) in which you take tests and have conversational practices in a weekly class meeting every Friday afternoon. The class will focus on developing students' basic conversational and literary proficiency in Mandarin Chinese.

CHN 118 | INTENSIVE BASIC CHINESE II (FOR PARTICIPANTS IN STARTALK PROGRAM) | 4 quarter hours
(Undergraduate)
This is part II of a two-course sequence of hybrid Basic Chinese which is equivalent to the 1st-year sequence CHN101-102-103. The hybrid course is offered in two modules: Online Learning Module (OLM) in which students learn the online content on our course website and finish online assignments during the weekdays and the Face-to-Face Module (FTFM) in which you take tests and have conversational practices in a weekly class meeting. The class will focus on developing students' basic conversational and literary proficiency in Mandarin Chinese. CHN 117 or equivalent, including placement test or permission of instructor, is recommended.

CHN 130 | MOLILSAP STUDY ABROAD | 2 quarter hours
(Undergraduate)
This course is specially designed to complement the Modern Language Introductory Languages Study Abroad programs, linked to the third quarter of the first year language program. The course will be taught abroad.
CHN 141 | INTENSIVE CHINESE | 4 quarter hours  
(Undergraduate)
Students will be encouraged to engage in primary research and field work, visiting local Asian American communities and community-based organizations. While the course will provide students with an introduction to issues linked to community-rooted research in Chicago, it will also enhance an awareness of the challenges of integrating: media or popular representations with reality; theory with practice, and objective research with social advocacy. Gaining new perspectives, students will be empowered to apply such knowledge and research skills in conducting a study of any community, particularly those that are least understood, such as the Asian American communities. Through such studies, students will take active roles in bringing such communities from the margins to the center of investigation, contributing to academic and popular interests.

CHN 197 | SPECIAL TOPICS IN CHINESE | 4 quarter hours  
(Undergraduate)
See schedule for current offerings.

CHN 198 | STUDY ABROAD | 1-8 quarter hours  
(Undergraduate)
Variable credit.

CHN 199 | INDEPENDENT STUDY | 0.5-8 quarter hour  
(Undergraduate)
Variable credit.

CHN 201 | ADVANCED CHINESE I | 4 quarter hours  
(Undergraduate)
This is the first course of third-year Chinese. Students will improve their communicative competence in all four areas of listening, speaking, reading, and writing. Emphasis will be on expansion of vocabulary, the mastery of more complex structural patterns and grammatical concepts, as well as the students’ ability to apply in actual communication what they have learned in the classroom. CHN 106 or equivalent, including placement test or permission of instructor, is recommended.

CHN 202 | ADVANCED CHINESE II | 4 quarter hours  
(Undergraduate)
This course is offered to help students develop higher-level conversation skills as well as modern Chinese literacy. The dialect to be taught in the course is Mandarin. Simplified Chinese characters are mainly used in reading and writing, although students are also exposed to the traditional form of Chinese characters throughout the course. CHN 106 or equivalent, including placement test or permission of instructor, is recommended.

CHN 203 | ADVANCED CHINESE III | 4 quarter hours  
(Undergraduate)
This course is the third part of the three-quarter sequence in Advanced Chinese. It is offered to help students develop higher-level conversation skills as well as modern Chinese literacy. The dialect to be taught in the course is Mandarin. Simplified Chinese characters are mainly used in reading and writing, although students are also exposed to the traditional form of Chinese characters throughout the course. CHN 106 or equivalent, including placement test or permission of instructor, is recommended.

CHN 208E | CHINA’S CULTURAL SOFT POWER AND ITS FUTURE | 4 quarter hours  
(Undergraduate)
TAUGHT IN ENGLISH. Soft power is a political term coined by Joseph Nye in the 1980s to refer to a country’s ability to attract and persuade other countries without coercion. According to certain metrics, a country’s soft power can be measured by the quality of a country’s political system, the extent of their cultural appeal, the strength of their diplomatic network, the global reputation of their higher education system, the attractiveness of their economic model, and a country’s digital engagement with the world. Within three decades, China has transformed from an impoverished and self-secluded nation into a global powerhouse challenging the world’s status quo. This course will explore China’s soft power by analyzing multiple aspects of Chinese culture and its contemporary society and understand the prospects of China in the next generation. We will focus on the dramatic social cultural changes in China in the past decades that reflect its soft power or lack thereof and explore its long-term impact on the rest of the world. The readings and class discussions will engage topics on China’s historical dynamics, unique cultural traditions, politics, economy, and international relations. Students will be exposed to and analyze comparative views analyzing and predicting China’s future.

CHN 211 | LANGUAGE AND SOCIETY IN MODERN CHINA | 4 quarter hours  
(Undergraduate)
This course explores contemporary society and culture through readings and discussions about the features and history of languages spoken in Mainland China, Taiwan, and Hong Kong. The course explores the mutual influence between language and cultural traditions including, social practices and values; the recent economic boom, the Internet; and English. The course is designed as a companion course to the intensive Chinese language study in the Chinese Summer Abroad program in Shanghai. The pre-travel portion of the course helps prepare students for their stay in Shanghai by introducing them to the general features of the society, culture and history. The on-site and post-travel portions will engage students in reflection, analysis and understanding of the experience. CHN 106 or equivalent, including placement test or permission of instructor, is recommended.

CHN 248E | CHINESE CALLIGRAPHY | 4 quarter hours  
(Undergraduate)
TAUGHT IN ENGLISH. This course provides an introduction to the art of Chinese calligraphy. Hands-on practice as well as history and theory of the art. This course is open to students with no background in Chinese calligraphy, language, literature, or culture.

CHN 250E | CHINESE CINEMA -- A WINDOW ON CHINA | 4 quarter hours  
(Undergraduate)
TAUGHT IN ENGLISH. This course studies Chinese cinema, the visualized artistic reflection of Chinese society, ideology, and culture from four perspectives: Historical, directorial, thematic, and artistic. It will cover the history of Chinese cinema, from the birth of the first Chinese film through the Silent Age, 1st Golden Age, 2nd Golden Age, Pre- and Post-War Era, Pre- and Post "Cultural Revolution" Period, and the Fifth Generation up to the emerging Sixth generation and beyond. Through substantial exposure and analysis of selected movie classics and subsequent classroom discussions, students will be well informed about the major developments and trends of each period in the history of Chinese cinema. Students will also explore the historical backgrounds, artistic characteristics, and key directors and stars of important Chinese movies as well as cinematic terminologies, the formation of Chinese cinematic theories, and innovative cinematic techniques.
CHN 252 | INTRODUCTION TO COMMERCIAL CHINESE | 4 quarter hours (Undergraduate)
This course will help students develop basic interpretive, presentational, and interactive skills that are needed in business-related Chinese social contexts. Students will learn pertinent vocabulary, idiomatic expressions, cultural information and etiquette in four conversational contexts as presented in four units in this course. Mandarin Chinese is used in the majority of instruction, although English is also employed to explain certain cultural information and relevant business etiquette. CHN 106 or equivalent, including placement test or permission of instructor, is recommended.

CHN 297 | SPECIAL TOPICS IN CHINESE | 4 quarter hours (Undergraduate)
See schedule for current offerings.

CHN 298 | STUDY ABROAD | 1-8 quarter hours (Undergraduate)
Variable credit.

CHN 299 | INDEPENDENT STUDY | 0.5-8 quarter hour (Undergraduate)
Variable credit.

CHN 301 | ADVANCED SPEAKING | 4 quarter hours (Undergraduate)
This course is designed to help post-intermediate students of Chinese develop advanced-level Mandarin speaking skills. Students will acquire new vocabulary, structural patterns and language registers that will allow students to comprehend and discuss issues in Chinese in various social contexts. As this is an advanced level course, Chinese is the medium of instruction and is the focus of all class activities. Minimal English is expected in class communication. CHN 106 or equivalent, including placement test or permission of instructor, is recommended.

CHN 302 | ADVANCED READING | 4 quarter hours (Undergraduate)
This course is designed to help post-intermediate students of Chinese develop reading and writing skills in standard (Mandarin) Chinese, dealing with intermediate to advanced texts with carefully designed exercises to guide comprehension and strengthen reading and writing strategies. As this is an advanced level course, Chinese is the medium of instruction and is the focus of all class activities. Minimal English is expected in class communication. CHN 106 or equivalent, including placement test or permission of instructor, is recommended.

CHN 303 | ADVANCED WRITING | 4 quarter hours (Undergraduate)
This course is the third section of the fourth-year Chinese sequence with the aim of helping students develop advanced-level reading and writing skills in standard (Mandarin) Chinese. This course will focus on developing students' writing skills on formal and abstract topics. Students will also be exposed to various genres of written Chinese such as newspaper, magazines, and contemporary novels. As this is an advanced level course, Chinese is the medium of instruction and is the focus of all class activities. Minimal English is expected in class communication. CHN 106 or equivalent, including placement test or permission of instructor, is recommended.

CHN 305 | TANG DYNASTY LITERATURE AND CULTURE | 4 quarter hours (Undergraduate)
This is an introductory course to the history, art and interpretation of Tang Poetry, the zenith of classical Chinese poetry. Introductory readings are in English, and original poems in simplified and traditional Chinese will be selected for reading and discussion. Attention will also be given to the rewriting of Chinese literature in the age of globalization. CHN 106 or equivalent, including placement test or permission of instructor, is recommended.

CHN 319 | CONTEMPORARY CHINESE LITERATURE | 4 quarter hours (Undergraduate)
This is a survey course of Chinese literary history of the past seven decades in the contexts of Chinese historical and cultural circumstances. Students will examine representative works of the major literary genres such as poetry, novel (in excerpt), short story, drama (in excerpt), and the most recent online forms, such as blog essay. CHN 106 or equivalent, including placement test or permission of instructor, is recommended.

CHN 320 | CHINESE FOR BUSINESS | 4 quarter hours (Undergraduate)
This course is designed to help students who have finished at least three years of Chinese language learning to develop advanced-level Mandarin Chinese skills and cultural knowledge that are needed in Chinese-speaking business contexts. The focus will be on international business activities that involve Chinese-speaking professionals. You will develop relevant vocabulary, oral and literate skills, cultural information and etiquette that are needed when conducting business tasks in Chinese-speaking contexts. Mandarin Chinese is used as the primary language in class although English may be occasionally employed. CHN 106 or equivalent, including placement test or permission of instructor, is recommended.

CHN 321 | TRANSLATION | 4 quarter hours (Undergraduate)
Boosted by globalization and the Internet, the demand for translators is on the rise. This demand creates career opportunities for people with the knowledge of a second language. Chinese 321 - Translation Practice and Theories - is designed to help Chinese-language students grasp the skills and theories needed to render Chinese-to-English and English-to-Chinese translations. Through hands-on practice, a survey of major theories of translation, group and class discussions, and lectures, this course will teach students how to comprehend source texts accurately and deeply from both linguistic and cultural perspectives; how to express faithfully, fully, and coherently in the target language the idea of a source text; how to apply grammatical rules, rhetorical devices, diction, etc. in translation; how to use editing skills to enhance translation results; and how to use different language styles to render different materials. CHN 106 or equivalent, including placement test or permission of instructor, is recommended.

CHN 330 | MODERN CHINESE LITERATURE: 1919 - 1949 | 4 quarter hours (Undergraduate)
This course studies some of the highlights of modern Chinese literature since the May 4th Movement in 1919 to the pre-Mao era in 1949—literature produced during a period of unprecedented historical upheavals and that itself has been an arena for political, cultural, and aesthetic conflicts. Through a close study of some of the significant fiction, drama, and poetry students will not only gain a keen understanding of the central themes of modern Chinese but also a better understanding of modern Chinese society. CHN 106 or equivalent, including placement test or permission of instructor, is recommended.
CHN 331 | CHINESE CLASSIC FICTION: JOURNEY TO THE WEST | 4 quarter hours  
(Undergraduate)  
Conceived and cultivated by the essence of nature for millions of years, out of a rock on the east subcontinent sprang a stone egg, which then turned into a monkey. This monkey, with miraculous fighting skills he had learned from a mysterious master, later became the disciple of a famous Buddhist monk and guarded him, with two other disciples in the incarnation of a pig-man and a water-man, through a long-and-danger-ridden journey to the West to seek sutra. What is hidden behind the mission of the journey? What is the purpose of this magic fiction? We will answer all these questions in this course. This course is designed for students with native-like Mandarin Chinese proficiency to develop deeper understanding of Chinese culture and critical literary analysis skills needed to appreciate one of the best-known Chinese classic literature.

CHN 354 | INTRODUCTION TO CHINESE LINGUISTICS | 4 quarter hours  
(Undergraduate)  
This course is aimed to introduce students to modern Mandarin Chinese linguistics. Students will explore the historical evolution of Chinese and understand the basic characteristics of Mandarin. CHN 106 or equivalent recommended. Cross-listed with CHN 454.

CHN 360 | CHINESE POPULAR CULTURE AND SOCIAL MEDIA | 4 quarter hours  
(Undergraduate)  
The course aims to survey contemporary Chinese pop culture in city life as well as social, cultural, and political dynamics shaped by and reflected in Chinese social media. Print and online media reports, excerpts from popular TV shows, films, documentaries, and literature will be used as reading and class discussion materials. Language use in various media genres will be discussed as well. Students are expected to use Mandarin Chinese as the primary language in the classroom. CHN 106 or equivalent, including placement test or permission of instructor, is recommended.

CHN 370 | CHINESE CULTURE THROUGH FILM | 4 quarter hours  
(Undergraduate)  
This course is a survey course in which a selection of films from the internationally acclaimed "new Chinese cinema" are used to help students better understand the history, politics, society and economy of China in different decades of the twentieth century. Students will place each film in its historical context, considering both its aesthetic form and sociopolitical content. Although both English and Mandarin will be used in class, students need to have good command of the Chinese language to understand and discuss sociolinguistic issues in certain films. CHN 106 or equivalent, including placement test or permission of instructor, is recommended.

CHN 395 | FOREIGN LANGUAGES ACROSS THE CURRICULUM | 2 quarter hours  
(Undergraduate)  
The two credit FLAC course allows students to enrich their experience in the co-required course through added reading, writing, listening and speaking activities in Chinese. Students must have the equivalent of 106 or higher ability in Chinese to take this two credit component. Please contact the Department of Modern Languages if you have questions about this course or about language placement.

CHN 397 | SPECIAL TOPICS IN CHINESE | 4 quarter hours  
(Undergraduate)  
See schedule for current offerings.
CHN 421 | TRANSLATION | 4 quarter hours  
(Graduate) 
Boosted by globalization and the Internet, the demand for translators is on the rise. This demand creates career opportunities for people with the knowledge of a second language. Chinese 421 - Translation Practice and Theories - is designed to help Chinese-language students grasp the skills and theories needed to render Chinese-to-English and English-to-Chinese translations. Through hands-on practice, a survey of major theories of translation, group and class discussions, and lectures, this course will teach students how to comprehend source texts accurately and deeply from both linguistic and cultural perspectives; how to express faithfully, fully, and coherently in the target language the idea of a source text; how to apply grammatical rules, rhetorical devices, diction, etc. in translation; how to use editing skills to enhance translation results; and how to use different language styles to render different materials.

CHN 430 | MODERN CHINESE LITERATURE: 1919 - 1949 | 4 quarter hours  
(Graduate) 
This course studies some of the highlights of modern Chinese literature since the May 4th Movement in 1919 to the pre-Mao era in 1949—literature produced during a period of unprecedented historical upheavals and that itself has been an arena for political, cultural, and aesthetic conflicts. Through a close study of some of the significant fiction, drama, and poetry, students will not only gain a keen understanding of the central themes of modern Chinese but also a better understanding of modern Chinese society.

CHN 454 | INTRODUCTION TO CHINESE LINGUISTICS | 4 quarter hours  
(Graduate) 
This course introduces students to modern Mandarin Chinese linguistics. Students will explore the historical evolution of Chinese and understand the basic characteristics of Mandarin.

CHN 460 | CHINESE POPULAR CULTURE AND SOCIAL MEDIA | 4 quarter hours  
(Graduate) 
The course aims to survey contemporary Chinese pop culture in city life as well as social, cultural, and political dynamics shaped by and reflected in Chinese social media. Print and online media reports, excerpts from popular TV shows, films, documentaries, and literature will be used as reading and class discussion materials. Language use in various media genres will be discussed as well. Students are expected to use Mandarin Chinese as the primary language in the classroom.

CHN 470 | CHINESE CULTURE THROUGH FILM | 4 quarter hours  
(Graduate) 
Survey of major twentieth-century Chinese films illustrating the history, politics, society and economy of modern China, with special attention to the continuity between tradition and modernity.

CHN 496 | PRACTICUM IN CHINESE INSTRUCTION | 4 quarter hours  
(Graduate) 
Supervised practice in language instruction, paired with a mentor instructor in a beginning or intermediate language course. Students observe a class, teach a lesson or lessons, assist in assessment and lesson planning, and complete individualized assignments to develop their skills as classroom language instructors. Repeatable.

CHN 497 | SPECIAL TOPICS IN CHINESE | 4 quarter hours  
(Graduate) 
See schedule for current offerings.

CHN 498 | STUDY ABROAD | 1-8 quarter hours  
(Graduate) 
Variable credit.

CHN 499 | INDEPENDENT STUDY | 1-8 quarter hours  
(Graduate) 
Variable credit.

Communication (CMN)

CMN 101 | INTRODUCTION TO HUMAN COMMUNICATION | 4 quarter hours  
(Undergraduate) 
This course provides an introduction to the field of relational, group and organizational communication. Students become acquainted with the basic terms, concepts and theoretical perspectives used to examine communication in dyadic, group and organizational contexts.

CMN 102 | INTRODUCTION TO MASS COMMUNICATION | 4 quarter hours  
(Undergraduate) 
This course offers students a broad overview of the mass media (print, film, video, recorded music, radio, television and the internet) with a particular focus on how these media impact our everyday lives. Students will develop critical frameworks for understanding how power operates across the media spheres of production, circulation, representation and reception. Attention is placed on how the social categories of race, class, gender, sexuality, ethnicity, age and nationality inform each of these media spheres. The course also considers how recent developments in digital technologies, media convergence and globalization have transformed our media culture.

CMN 103 | INTERCULTURAL COMMUNICATION | 4-6 quarter hours  
(Undergraduate) 
Examines the role culture plays in interethnic and international communication. Explores differences and similarities in cultural values and communication behaviors between and among diverse cultures and develops intercultural competence. Critiques stereotypes and increases cultural sensitivity.

CMN 104 | PUBLIC SPEAKING | 4 quarter hours  
(Undergraduate) 
Introduction to the effective communication skills required for public speaking in organizational and public settings. The course stresses the important role public speaking plays in a democratic society and encourages students to address topics of a political and/or social nature. The course emphasizes the process of researching, preparing and presenting a variety of speeches. Additionally, it includes units on delivery and performance skills, effective use of language for the spoken word, clear organization of messages, critical listening and thinking skills, and tailoring messages to a variety of audiences in a diverse society. (FORMERLY INTC 220)

CMN 280 | INTRODUCTION TO DIGITAL MEDIA SKILLS | 4 quarter hours  
(Undergraduate) 
This course introduces students to the necessary skills for digital media content creation. Students learn about conceptual and technical skills related to digital media. The course provides an introduction to tools and platforms used to produce online content.

CMN 292 | ADOBE CREATIVE CLOUD WORKSHOP | 2 quarter hours  
(Undergraduate) 
This course offers students hands-on experience using Adobe Creative Cloud software in a communication and media context. Topics include Premiere, InDesign, Photoshop, and Illustrator. Students may take a maximum of 8 credit hours of CMN 292 applied to their major with a maximum of 8 hours.
CMN 294 | IDENTIFYING YOUR MARKABLE SKILLS | 2 quarter hours
(Undergraduate)
In this 2-credit course, you will learn how to prepare for the job market while you are still in school. Coursework includes exploring career options, identifying skills employers need and you already have, developing a great resume and learning how to present both your academic accomplishments and relevant skills to impress potential employers. Please note that this course is open to students of all majors. However, it will be most beneficial to those interested in the field of communication.

CMN 394 | MAKING THE MOST OF YOUR COMMUNICATION INTERNSHIP | 4 quarter hours
(Undergraduate)
PREREQ(S): Completed Communication Internship orientation session and internship director approval to meet eligibility requirements. Students must have an internship and begin working on or before Nov. 1, 2018. Must be able to work 100 hours by December 14. For instructions on how to obtain department consent, visit https://communication.depaul.edu/internships/Pages/internship-credit.aspx. Submit your internship proposal by Nov. 16. DESCRIPTION: This course is for communication majors and minors who meet eligibility requirements. Students will learn career planning skills, explore the organizations in which they work, gain an understanding of how they contribute to their organizations, and discuss societal and world issues as they affect their workplaces. The final project is a career e-portfolio. CMN 394 fulfills the Experiential Learning Requirement. If you have completed the requirement already, the course will be counted as an elective in your major.

CMN 395 | COMMUNICATION INTERNSHIP SPECIAL TOPICS | 4 quarter hours
(Undergraduate)
PREREQ(S): Completed Communication Internship orientation session and internship director approval to meet eligibility requirements. Must be taken concurrently with an approved internship. Students are required to work 10 hours per week at their internships while enrolled in the course. CMN 395 is for communication majors and minors who meet eligibility requirements. Students will integrate their work experience with a course that facilitates learning, researching and practicing proactive and strategic approaches to career planning in consultation with their supervisors and other coworkers. These include identifying and communicating transferable skills, and developing and utilizing a new network of professional contacts that will prepare students for continued gainful employment after graduation. CMN 395 fulfills the Experiential Learning Requirement. If you have completed the requirement already, the course will be counted as an elective in your major. For instructions on how to obtain department consent, visit https://communication.depaul.edu/internships/undergraduate/Pages/default.aspx.

CMN 396 | CAPSTONE IN COMMUNICATION | 4 quarter hours
(Undergraduate)
Making a difference: Communication Senior Capstone. Exploration of student skills, knowledge and interests, as well as how these might have a concrete contribution to contemporary society. Students cannot earn credit for both CMN396 and PRAD396. Status as a College of Communication major with senior standing is a prerequisite for this class.

CMN 397 | RESEARCH PRACTICUM | 1-4 quarter hours
(Undergraduate)
The research practicum offers the high-achieving student the opportunity to connect with a faculty expert to train in a specialized communication research method and/or to achieve hands-on practice in conducting scholarly research more generally. The research practicum may take various forms. For example, the student may become part of an ongoing research project led by the faculty member in order to learn and practice particular research methods. Typical activities may include data gathering, data analysis, interpretation of results, and writing research reports. In contrast, the student may wish to learn about a particular research method practiced by the faculty expert but not available in a regular undergraduate course offering. In this case, the research practicum would be a course of study focusing on specialized research method(s) with agreed upon readings and assignments for this purpose. PREREQUISITE(S): Approval from program chair and associate dean.

CMN 398 | STUDY ABROAD | 4 quarter hours
(Undergraduate)
Expand international learning opportunities that effectively prepare students to be successful, innovative leaders and community members in a diverse global society. NOTE: CMN 398 meets the Junior Year Experiential learning requirement. To count for MCS credit, topic of Study Abroad must be approved by program director to count for History/Criticism elective.

CMN 399 | INDEPENDENT STUDY | 1-4 quarter hours
(Undergraduate)
The independent study offers the high-achieving student the opportunity to develop a specialized course of study with a faculty expert. The goal of the independent study is for the student to investigate the scholarship of a particular sub-discipline of communication by delving into its theories, critical concepts and current scholarly research with the guidance of a faculty member. The independent study option is intended for students who have demonstrated a mastery of course content, and who would benefit from a sustained, focused collaboration with a faculty member in order to produce an independent scholarly project. PREREQUISITE(S): Approval from instructor, program chair, and associate dean.

CMN 591 | INTERNSHIP | 4 quarter hours
(Graduate)
PREREQ(S): Completed Graduate Communication Internship orientation workshop and internship director approval to meet eligibility requirements. Must be taken concurrently with an approved internship. Students are required to work 10 hours per week at their internships. Students will reflect on their internship experience through a variety of assignments that will prepare them for gainful employment after graduation. Status as a Graduate Communication student is a prerequisite for this class.
CMN 592 | INDEPENDENT STUDY | 1-12 quarter hours  
(Graduate)  
The independent study offers the high-achieving student, who has succeeded in attaining substantial learning in a communication subspecialty, the opportunity to develop a specialized course of study with a faculty expert. The goal of the independent study is for the student to master scholarship of a particular area of study in communication by delving into its theories, critical concepts and current scholarly research. The independent study option is intended for students who have demonstrated a mastery of course content, and who would benefit from a sustained, focused collaboration with a faculty member in order to produce an independent scholarly project. PREREQUISITE(S): Approval from instructor and college.  
Status as a Graduate Communication student and Director Consent is a prerequisite for this class.

CMN 593 | RESEARCH PRACTICUM | 4 quarter hours  
(Graduate)  
The research practicum offers the high-achieving student, who has succeeded in attaining substantial learning in a communication subspecialty, the opportunity to connect with a faculty expert to train in a specialized communication research method and/or to achieve hands-on practice in conducting scholarly research more generally. The research practicum may take various forms. For example, the student may become part of an ongoing research project led by the faculty member, and the research practicum would provide an opportunity for the student to apply previously studied research methods to the research project. Typical activities include data gathering, data analysis, interpretation of results, and writing research reports. In contrast, the student may wish to learn about a particular research method practiced by the faculty expert but not available in a regular graduate course offering. In this case, the research practicum would be a course of study focusing on specialized research method(s) with agreed upon readings and assignments for this purpose. PREREQUISITE(S): Approval from instructor and college.  
Status as a Graduate Communication student is a prerequisite for this class.

CMN 598 | STUDY ABROAD | 4 quarter hours  
(Graduate)  
Expand international learning opportunities that effectively prepare students to be successful, innovative leaders and community members in a diverse global society.

CMNS 205 | COMMUNICATION, CULTURE AND COMMUNITY | 4 quarter hours  
(Undergraduate)  
Examines the relationships among culture, communication, institutions, and public and private life. Students explore the possibilities and problems of contemporary forms of community through service in community organizations or through extensive individual or group research projects. The course also fulfills the junior year experiential learning requirement through community based service learning.

CMNS 211 | INTERPERSONAL COMMUNICATION | 4 quarter hours  
(Undergraduate)  
An introduction to the factors that shape communication between two people. Topics include self-concept formation, perception, message formation, verbal and nonverbal communication, active listening, and defensiveness. (Formerly RELC 211)

CMNS 221 | HOW LANGUAGE WORKS: INTRODUCTION TO LINGUISTICS | 4 quarter hours  
(Undergraduate)  
The focus of this course is on linguistics as the study of how language works in the minds and brains of its speakers, taking an approach that focuses on the mental representation of language. We develop a theory of language knowledge that includes knowledge of sound systems, sentence structure, and meaning, and along the way we investigate data from diverse languages to illustrate how linguists think and reason. We also draw connections between linguistic knowledge and other types of cognition, as well as connections between linguistics and related fields, including philosophy, psychology, and neuroscience.

CMNS 230 | PERFORMANCE: COMMUNICATION, CREATIVITY AND THE BODY | 4 quarter hours  
(Undergraduate)  
Introduction to performance studies, examining the persuasive, cultural, and artistic dimensions of embodied communication. Through "on our feet" engagement, students will study the role of identity, aesthetics, space, genre, and literary form in their experience with cultural texts, including poetry, prose, and narratives. Involves critical and creative analyses of texts in preparation and reflection of live performance. The course explores the how the body, voice, and movement are central to artistry and meaning. (Formerly INTC 230)

CMNS 280 | INTRODUCTION TO DIGITAL MEDIA SKILLS | 4 quarter hours  
(Undergraduate)  
This course introduces students to the necessary skills for digital media content creation. Students learn about conceptual and technical skills related to digital media. The course provides an introduction to tools and platforms used to produce online content.

CMNS 290 | COMMUNICATION WORKSHOP (VARIABLE TOPICS) | 2 quarter hours  
(Undergraduate)  
This course allows students to sample a range of hands on, practical offerings in communication that can enhance their knowledge and expertise. Topics offered include survey design and focus groups. (2 quarter hours)

CMNS 291 | RESEARCH METHODS | 4 quarter hours  
(Undergraduate)  
This course is an introduction to the study of communication through the observation and analysis of empirical (i.e. aspects of the observable world) data. It will stress how to form appropriate questions from the theories (or hunches, dreams etc.) and rigorously test these propositions (quantitatively and qualitatively) to see how well they correspond to the world outside ourselves. An added benefit of the course will be to show how to be a more informed judge of the claims of others. The format of the course is lecture/discussion. Students cannot earn credit for both CMNS 291 and PRAD 291.

CMNS 300 | MUSIC INDUSTRIES AND CULTURE | 4 quarter hours  
(Undergraduate)  
This course critically examines music as a form of cultural communication and as a media industry. Students learn about historical changes in the music business, contemporary issues that industry insiders negotiate, do-it-yourself alternatives to mainstream industry practices, and how music functions as a unique source for collective fandom. Cannot earn credit in conjunction with "MCS 368: Music Industries" class.
CMNS 301 | AUDIO DOCUMENTARY | 4 quarter hours (Undergraduate)
This course uses hands-on projects so that students can explore the steps in the process of creating an audio documentary. Through practical application students consider questions that surround the interpretation of cultural experience. Additionally, students analyze a variety of approaches to audio documentary in an effort to understand better this significant form of storytelling.

CMNS 302 | PERFORMANCE OF RITUAL | 4 quarter hours (Undergraduate)
Participating in and performing rituals is part of what makes us human. Rituals develop and define cultural life. Rituals in modern life include macro events like the transfer of power in a government as well as micro rites of passage (coming of age) events, whether defined experientially (acquiring a driver's license) or chronologically (turning 21). Here in the United States, many so-called rituals have an ambiguous purpose while others are clearly defined. In this course we will be looking at a range of rituals and the communicative and symbolic elements connected to the performance of them. We will examine, for example, the ritual of acquiring a tattoo, voting, participation in a marriage ceremony, rituals surrounding birth and death, as well as the absence of rituals for life-changing events (i.e. divorce/break up and miscarriage). We will ask as many questions as we answer: What roles do ritual, myth, and symbol play in human experience and everyday life? How do rituals reflect, produce, or deflect reality? How do they reinforce socio-political power structures while potentially providing options for resistance?

CMNS 304 | COMMUNICATION, CODING & ENTREPRENEURSHIP | 4 quarter hours (Undergraduate)
Students from College of Computing and Digital Media and the College of Communication will use communication theory to solve problems by implementing web-based solutions using an entrepreneurial framework. Students will learn how communication theory and web design can complement each other to create a web/app-based business. No coding experience needed for communication students.

CMNS 305 | PERFORMANCE STUDIES | 4 quarter hours (Undergraduate)
The course traces the shift from the field of Oral Interpretation to the emergence of Performance Studies as a discipline, with particular attention to the primary theorists and practitioners who have set the foundation and scope of the field of Performance. Taking an historical approach to the development of the field, the course will explore performance epistemologies, performative methodologies, and performative theories, offering students the opportunity to study and engage contemporary approaches to performance research.

CMNS 306 | TOPICS IN PRESENTATION | 4 quarter hours (Undergraduate)
Courses offer advanced analysis of presentational forms. Students will enact presentational theories in relational, small group, or public communication contexts.

CMNS 307 | TOPICS IN POLITICAL AND SOCIAL COMMUNICATION | 4 quarter hours (Undergraduate)
Examines intensively one or more issues in the Culture and Communication Track. The topics differ each term focusing on a particular area of discourse such as environmental communication, political communication, and sexuality and communication. (Formerly INTC 307)

CMNS 308 | TOPICS IN INTERCULTURAL COMMUNICATION | 4 quarter hours (Undergraduate)
Examination of the application of linguistic and rhetorical theories to various specializations in cultural discourse. The course focuses each term on one particular area such as semiotics, language acquisition, or language and power. (Formerly INTC 308)

CMNS 309 | INTERNATIONAL/GLOBAL COMMUNICATION | 4 quarter hours (Undergraduate)
As the world has become immensely and intricately connected through immigration/diaspora, travel, technology, and intercultural trade, it's imperative to equip ourselves with knowledge and understanding of the dynamic and complex international cultures as well as the impact of globalization on individual countries. This course is intended to introduce concepts, theories, practices, and experiences of international/global communication from scholarly research and empirical studies. It focuses on issues of history, power relations, cultural norms and practices, intersectionality of identities, effects of media/social media, international conflict, and community building through dialogues and common goals in the international/global context.

CMNS 311 | TOPICS IN RELATIONAL COMMUNICATION | 4 quarter hours (Undergraduate)
Explores specialized topic within the field of interpersonal communication. Past topics have included: emotions & communication, gender & its relation to interaction, the “social construction” of interpersonal realities, etc. (Formerly RELC 311)

CMNS 312 | EVOLUTION AND COMMUNICATION | 4 quarter hours (Undergraduate)
This seminar explores how communication, across a variety of topics, can be understood with respect to the theory of evolution. Specifically, this course examines how millions of years of human evolution influences how people interact in their personal and social relationships. (Formerly RELC 312)

CMNS 313 | NONVERBAL COMMUNICATION | 4 quarter hours (Undergraduate)
This course surveys various conceptual areas generally subsumed under the broad rubric of nonverbal communication. Topics include: physical appearances, gestures, face and eye behavior, vocalics, proxemics, touch, time, environmental contexts as well as application of nonverbal behaviors to specific interpersonal communication contexts. (Relational, Group, Organizational) (Formerly RELC 313)

CMNS 314 | FAMILY COMMUNICATION | 4 quarter hours (Undergraduate)
This course surveys topics relevant to understanding communication phenomena in the setting of the family. Topics include: family systems, patterns, meaning, themes, roles and types, family life cycles, stressors and conflict, changing family forms and contexts. (Relational, Group, Organizational) (Formerly RELC 314)

CMNS 315 | HEALTH COMMUNICATION | 4-6 quarter hours (Undergraduate)
This survey course examines communication as the principle means by which health care is delivered, understood, and experienced. The course surveys the theory and practice of communication as it relates to health in a range of contexts (e.g. interpersonal, small group, organizational, public and/or mediated contexts) with a particular emphasis on critical thinking.
CMNS 318 | CLOSE RELATIONSHIPS | 4 quarter hours  
(Undergraduate)  
This course examines the role of communication in the development, maintenance, and deterioration of romantic attachments. Topics include attraction, intimacy and self-disclosure, attachment beliefs, jealousy, satisfaction, commitment, trust, betrayal, conflict, autonomy, interdependence, etc. (Relational) (Formerly INTC 326)

CMNS 319 | THE DARK SIDE OF PERSONAL RELATIONSHIPS | 4 quarter hours  
(Undergraduate)  
This course explores the "dark side" of interpersonal communication by examining the growing literature on the troubling or problematic aspects of close relationships. Topics covered include relational dilemmas, relational control and dominance, hurtful messages, paradoxical communication, social predicaments, relational transgressions, privacy violations, physical abuse, verbal aggression, etc. (Formerly RELC 319)

CMNS 320 | DECEPTIVE COMMUNICATION | 4 quarter hours  
(Undergraduate)  
Explores the use of deceptive communication in social and personal relationships from a range of theoretical perspectives including ethics, evolutionary biology, linguistics, social and developmental psychology and jurisprudence. (Formerly RELC 320)

CMNS 321 | CULTURAL AND SYMBOLIC CRITICISM | 4 quarter hours  
(Undergraduate)  
Introduction to the critical methodologies of rhetorical analysis. Students are instructed in ways to become more reflective consumers of discourse by examining how rhetoric instructs reality, shapes the social and political agenda and engages questions of ethics, power and persuasion. The course promotes a critical awareness of the role symbols play in influencing human perception, attitude, and action in a diverse culture. (Formerly INTC 321)

CMNS 322 | SOCIAL MOVEMENTS | 4 quarter hours  
(Undergraduate)  
This course examines the rhetoric of social movements throughout American History. As a rhetoric class, the focus is primarily on the symbolic creation of movements in order to provide background of the political and social events that gave rise to the movement. Using readings from a variety of sources, we will investigate the discursive construction of power as it relates to society and politics. The class will take a case-study approach to examining social movement rhetoric, exploring the discourse that has served to resist oppressive, or perceptively oppressive, systems. (Formerly INTC 322)

CMNS 323 | CULTURE OF CONSUMPTION | 4 quarter hours  
(Undergraduate)  
Introduces students to the critique of our consumer culture. Teaches students how to be critical consumers and understand how to be critical consumers and understand how we consume lifestyles, images, aesthetics, and desire through our shopping patterns. Provides theoretical, observational, and critical tools that allow students to critique patterns of consumption, the production of culture through consumption, and how consumption is a means of communication. (Formerly INTC 323)

CMNS 325 | PROMOTING SUSTAINABLE PRACTICES | 4 quarter hours  
(Undergraduate)  
Provides a foundation in the communication skills necessary for achieving conservation goals. Introduces communication approaches such as social marketing, citizen participation, public campaigns, and environmental interpretation that have proven effective in the work of conservation professionals. (Formerly INTC 325)

CMNS 326 | ENVIRONMENTAL POLITICS AND RHETORIC | 4 quarter hours  
(Undergraduate)  
Rhetorical perspective on environmental public discourse. Course also explores the relationship between rhetorically constituted ideas about nature and the development of political and social ideas, institutions, and practices that inform our understanding of the human place in the environment. (Formerly INTC 326)

CMNS 327 | RESEARCHING RELATIONSHIPS | 4 quarter hours  
(Undergraduate)  
Researching Relationships provides an overview of the concepts, methods and tools by which interpersonal/relational research is designed, conducted, interpreted, and critically evaluated. Quantitative, qualitative, and critical interpersonal/relational research will be examined. The primary goals of the course are to help students become knowledgeable consumers and producers of relational communication research by developing skills in gathering, organizing, interpreting and presenting research information using informed, competent, and ethical methods.

CMNS 328 | HISTORY OF RHETORIC AND COMMUNICATION | 4 quarter hours  
(Undergraduate)  
Offers an overview of historical foundations of the communication field. Examines how the formulations of rhetoric by various thinkers derived from cultural, religious, and political contexts shape human consciousness and communication patterns. Students read primary and secondary materials on classical rhetoric and rhetoric of diverse cultures. The course promotes an understanding and appreciation of antiquity and development of ideas over time in relation to current cultural and communicative patterns. (Formerly INTC 328)

CMNS 329 | PERSUASION | 4 quarter hours  
(Undergraduate)  
Explores major theoretical assumptions of current persuasion research. Examines causes and effects of effective and ineffective persuasion. Analyzes persuasive skills and strategies for a variety of persuasion applications, e.g. political, interpersonal, intercultural, and advertising. (Formerly RELC 329)

CMNS 330 | TOPICS IN PERFORMANCE | 4 quarter hours  
(Undergraduate)  
Advanced study in performance focusing on a specific genre each quarter such as: Poetry, Fiction, Nonfiction, Drama or Chamber Theater. Other possibilities include: performing autobiography; life performances; ritual, ceremony, and storytelling; and radio and television performances. (Formerly INTC 330)

CMNS 331 | COMMUNICATION FIELDWORK | 4 quarter hours  
(Undergraduate)  
Provides students with experience conducting qualitative research, including data collection techniques, data coding and analysis, as well as interpretation of data and writing ethnographic reports. In addition to providing practical hands-on training in ethnographic research, this course serves to explore the theory, ethics, and politics behind various research methodologies. (Formerly INTC 331)
Cultures in Conversation | 4 quarter hours
(Undergraduate)

Whenever we communicate, we show parts of our identities, perspectives, values, and norms. In short, when we interact with others, we reveal culture. Because we are cultural beings and we each belong to various cultural groups, interactions can often backfire and misunderstandings may occur. This course teaches a specialized way to listen for culture in conversation in order to become competent and successful communicators no matter the context. Whether you are navigating difficult relationships with family and friends, or attempting to succeed at work and school, this course will help you learn strategies to decipher cultures in conversation and become competent navigators of cultural misunderstandings.

Urban Communication | 4 quarter hours
(Undergraduate)

Examines relationships between material features of the city and symbolic representations of urban life (e.g., photography, film, songs, public discourse) with the goal of understanding the city as a site of communication. Special attention is paid to expressions of hope for and fear of the city. (Formerly INTC 334)

Latino Communication, Culture, & Community | 4 quarter hours
(Undergraduate)

Examines the relationships among Latino cultures, communication, institutions, and public and private life. Students explore the possibilities and problems of contemporary forms of community through service in Latino community organizations. The course also fulfills the junior year experiential learning requirement through community-based service learning. (Formerly INTC 335)

Storytelling: Communication as Narrative | 4 quarter hours
(Undergraduate)

Scholars suggest that the oldest form of communication is storytelling. Narrative theories and methodologies form a substantive core throughout the history of human communication praxis. This course responds to the contemporary resurgence of narrative and highlights its communicative aspects. Rooted in both the oral and literary traditions, this course builds and enhances skills for those who would like to use storytelling in various ways including: 1) storytelling as a teaching tool, 2) giving structure to personal narratives, 3) developing a repertoire of stories, and 4) improving general presentation skills.

Asian-American Media Representations | 4 quarter hours
(Undergraduate)

The course takes an interdisciplinary approach in the analysis of the media images and explores issues of power, identity, race, gender, class, sexual orientation and the interaction of these factors in the representation of Asian Americans. (Formerly INTC 337)

Asian Culture and Communication | 4 quarter hours
(Undergraduate)

Reviews major Asian philosophical and religious traditions such as Hinduism, Confucianism, Taoism, and Buddhism and examines how these traditions influence and affect Asian cultures and communication behaviors, particularly communication among Indians, Chinese, Japanese, Koreans, and Asian Americans in various contexts. (Formerly INTC 338)

Performance of Gender & Sexuality | 4 quarter hours
(Undergraduate)

This course is designed to give students an opportunity to experiment, explore, and reflect upon the performative dimensions of gender and sexuality. Using aesthetic performance as a point of entry, students will view, analyze, and generate performance work that interrogates the communicative, political, and transformative potentials of embodied actions. With an emphasis on the intersections of gender and sexuality, the course will move through three units of reading, discussion, viewing, and performance creation. (Formerly INTC 329)

Communicating & Dating | 4 quarter hours
(Undergraduate)

The goal of this course is to provide students with a research-based understanding of the role of communication within dating relationships. Accordingly, this course traces the life-cycle of a dating relationship. Specifically, this course begins by examining initial interactions that are potentially romantic and could turn into dating interactions. Next, the course focuses on how people engage in dating relationships and the factors that influence relationships. Finally, the course concludes with what happens after dating (i.e., long-term commitment/marriage, relational termination, or the death of a partner). (Formerly RELC 340)

Communication Networks in a Digital Age | 4 quarter hours
(Undergraduate)

This course will cover theoretical explanations of processes of computer-mediated communication (CMC). In particular, students will explore explanations related to the production of online identity performance and the formation and maintenance of networked relationship connections. Students will analyze current arguments regarding social media use and apply theory and research regarding CMC to real-world situations.

Living Online | 4 quarter hours
(Undergraduate)

An overview of how people use communication technology in their everyday life. Examines a variety of communication technology in interpersonal and organizational contexts. Focus is on the appropriate and effective use of mediated communication and surveys issues including trust, privacy, identity, and relational communication.

Work/Family Communication | 4 quarter hours
(Undergraduate)

This course focuses on communication at the intersections of paid work and family life. Students will approach work/family “balance” as an essentially communicative process. Throughout the quarter, students will critically analyze how communication and discourse at micro- (interpersonal), meso- (organizational), and macro- (cultural) levels enables and constrains individuals and organizations as they navigate and manage the work/family interface.

Mindfulness | 4 quarter hours
(Undergraduate)

This course examines the role of mindfulness in everyday interaction. It explores how mindfulness practices can influence how people relate to each other, create mutually beneficial partnerships, and help each other achieve their personal, social, and relational goals. This course also examines how to apply the knowledge and skills regarding mindfulness to other contexts through the entrepreneurial process. In other words, how can principles of mindfulness be used to create value for others?
CMNS 345 | THE DARK WEB | 4 quarter hours  
(Undergraduate)  
The World Wide Web has developed into an incredibly powerful social force creating a new world of opportunities for human interaction, for better and for worse. This course examines the digital underworld also known as the Dark Web. The Dark Web is a sprawling yet secretive network, which provides a haven for behavior that may or may not be illegal, but is often deemed radical, unethical or immoral. Literature that examines the difficulty in maintaining the delicate balance between privacy and protection, as well as freedom and regulation in virtual spaces will be covered. Students will explore topics including trolling, exploitative content, illegal markets, and cryptocurrencies.

CMNS 346 | SOCIAL MEDIA RESEARCH METHODS | 4 quarter hours  
(Undergraduate)  
This course provides an overview of methodological choices for analyzing social media platforms, users, and messages. Students will learn a variety of techniques and concepts including reading analytic reports, basics of social network analysis, language processing, data visualization, and content analysis. Students will also engage in forming appropriate research questions and ethical considerations in internet research.

CMNS 347 | THE POLITICS OF HIP HOP CULTURE | 4 quarter hours  
(Undergraduate)  
This course examines “the political” in hip hop culture. Thus, it is not an appreciation of hip hop class; this is, instead, a rigorous theory-based course that interrogates hip hop culture for its political potential for social equality and change. In this course, we will grapple with theories on how popular culture, representations of blackness and power intersect within the context of hip hop. This course examines “the political” in hip hop culture. Thus, it is not an appreciation of hip hop class; this is, instead, a rigorous theory-based course that interrogates hip hop culture for its political potential for social equality and change. In this course, we will grapple with theories on how popular culture, representations of blackness and power intersect within the context of hip hop. We will also interrogate various media texts (film, music, television, and “new media”) in relation to the multiple ways in which hip hop culture has been defined. Among the issues we engage are the constructions and representations of blackness, black images in popular culture, and how hip hop culture relates to underlying factors such as globalization, hyper-commodification, racism, sexism, hetero-normativity, classism, and resistance.

CMN 103 is a prerequisite for this class.

CMNS 348 | COMMUNICATING HEALTH, RACE AND REPRODUCTIVE RIGHTS | 4 quarter hours  
(Undergraduate)  
This course examines “the political” that arises from women’s bodies and reproductive rights and practices. In this course, we will grapple with theories on how race, media representations of blackness and power intersect within the context of the female body. We will begin with a theoretical framework for our readings and discussions then we will delve into the history of women and reproduction as it relates to power; this history will focus primarily on women of the Black Diaspora which will include indigenous women of the Americas and Latinas. We will also interrogate various race-based case studies as both a force for change and for reinforcing hegemonic discourse. Among the issues we will engage are the constructions and representations of blackness and how race and reproduction relates to underlying factors such as globalization, racism, sexism, classism, and resistance. A crucial part of our task in this course is to think critically and complexly about the roles of race and racism as it pertains to the female body and reproduction within our contemporary world.

CMN 103 is a prerequisite for this class.

CMNS 349 | DIGITAL MEDIA LAW AND ETHICS | 4 quarter hours  
(Undergraduate)  
This course covers fundamental principles of law and ethics with specific attention to uses and applications of digital communication technologies. The class explores the interplay of law (the rights and freedoms granted to citizens under the First Amendment and the Universal Declaration of Human Rights) and applied ethics (the range of civic and professional responsibilities under consideration as citizens exercise these rights) with a focus on critical issues concerning communication technology. Emphasis will be placed on the legal privileges, regulatory limitations, and ethical issues that specifically concern digital media and information technologies within the broader context of communication law and ethics. The course focuses on legal rights and ethical responsibilities within the American framework but also includes comparative analysis with other nations and cultures to empower students to appreciate and contrast other legal and ethical decision-making frameworks.

CMNS 355 | CONFLICT MANAGEMENT | 4 quarter hours  
(Undergraduate)  
Examines the process of conflict in interpersonal and organizational contexts. Focuses upon the causes, types, and theories of conflict as well as upon practical approaches to dispute resolution. Topics include: social cognition, emotion, and power in conflict; personal conflict style(s); cultural and contextual factors; conflict tactics and messaging; destructive versus constructive interaction cycles; and negotiation and resolution strategies.

CMNS 360 | RELATIONAL, GROUP, AND ORGANIZATIONAL THEORY | 4 quarter hours  
(Undergraduate)  
This course surveys relevant theoretical developments in the field of communication. While exploring the major theoretical paradigms that inform and guide the study of human communication, students receive insight into the significance and meaning of their own day-to-day communication activities and discover how theories provide complementary and viable explanations for analyzing as well as assessing the impact of communication in relational, group and organizational contexts.
CMNS 361 | GENDER AND COMMUNICATION | 4 quarter hours  (Undergraduate)

Students will discover the intricate relationship between gender, communication, and culture. The course focuses on how gender influences communication, how gender gets communicated, and how communication reflects, refracts, shapes, and revises our understandings of gender and what it means to be gendered beings. Further, the course asks what role culture plays in the communication of our gendered identities. Students work toward recognizing societal expectations of gender while discovering how we may use communication, as gendered beings, in order to improve our lives, both individually and collectively.

CMNS 362 | SOUND AND VISION | 4 quarter hours  (Undergraduate)

This course introduces students to unique ways that photography and audio documentary can blend together. The course will combine documentary and experimental production to help students learn to create audio documentary and visual projects and to work in mixed-media contexts.

CMNS 363 | CLIMATE CHANGE COMMUNICATION | 4 quarter hours  (Undergraduate)

Individuals make up their minds on climate change, energy development, and other science of pressing public policy importance through a complex set of factors: values, demographics, political ideology, and so on. Journalists, strategic communicators, scientists, and policy analysts need to be able to communicate effectively with diverse public audiences on climate and energy topics. This course is oriented from a science communication perspective and draws on social scientific research on communicating on climate change and energy issues. We will take a human perspective on climate issues and focuses on the social, political, and cultural aspects of climate change. The course covers best practices for promoting and facilitating public dialogue on climate change policy and global energy systems. Topics covered include: climate change public opinion and knowledge, media portrayals of climate change and its societal effects, climate skepticism and denial, psychological factors that contribute to values and beliefs on climate science, journalism and covering climate issues, framing and developing narratives on climate impacts, and climate change in popular culture. Students will conduct original research to analyze and evaluate climate change communication. For the final project, students have the option of completing a major journalistic reporting project, designing an advocacy or marketing campaign, or conducting a research project. (Cross-listed with JOUR 311)

CMNS 365 | ARGUMENTATION, ADVOCACY, AND DELIBERATION | 4 quarter hours  (Undergraduate)

The primary purpose of this course is to equip students with a heightened capacity for reasoning so that they will be better prepared to participate in argumentation, advocacy, and deliberation in a number of contexts (academic, work place, public life). This course focuses on critical thinking, effective argumentation, and civil dialogue. Students in the class will develop and evaluate reasoned arguments; practice the skills of critical thinking; and deliver class presentations.

CMNS 366 | COMMUNICATION, TECHNOLOGY AND SOCIETY | 4 quarter hours  (Undergraduate)

Survey of a variety of contemporary and historical issues related to the introduction and diffusion of communication technologies in society. Especially examines how new technologies, particularly the Internet, are transforming the communication landscape. Emphasis on issues of intellectual property, surveillance, privacy, regulation, message construction, and access will be central to this course.

CMNS 367 | PERFORMANCE FOR SOCIAL CHANGE | 4 quarter hours  (Undergraduate)

This is an experiential field experience that examines the role of performance in social activism. Student projects will identify a social issue of critical concern and devise a performative response. (Formerly INTC 367)

CMNS 369 | PERFORMANCE OF HUMOR | 4 quarter hours  (Undergraduate)

This course provides a critical and performative exploration into the role of humor and comedy in our social world. Often layered, complex, and contested, the communicative and critical workings of humor mark an ongoing site of cultural struggle, cultural tension, and heated debate. This course engages humor from a performative lens, which calls for us to consider the embodied, contextual, relational, historical, and political dimensions of comedy. The first unit in the course offers a broad theoretical framework to discuss the doings of humor, as well as providing a foundational class vocabulary in the concepts of satire, irony, parody, ideology, performance, performativity, and the absurd. The second section looks to the construction of the ironic persona as a site of humor and a tool for cultural criticism, reflection, and parody. The third unit, coinciding with the November election, looks to political satire as a tool for questioning, challenging, and complicating sedimented cultural systems, performances, and beliefs. Finally, the last unit broadens out our understanding of comedy to explore the notion of harmony, looking to humor as a space for disrupting hierarchies of power and building alternative forms of community.

CMNS 373 | INTERPERSONAL COMMUNICATION, POWER, AND SOCIAL JUSTICE | 4 quarter hours  (Undergraduate)

This course is organized around the central question: how does interpersonal communication reinforce, maintain, or resist dominant power relations in our relationships, families, organizations, and communities? In it, students will apply critical interpersonal communication scholarship and theory to a range of topics, with a focus on how interpersonal interactions contribute to the equitable or inequitable distribution of wealth, opportunities, and privileges in society.

CMNS 377 | SPECIAL TOPICS IN COMMUNICATION STUDIES: CUSTOMER SERVICE COMMUNICATION | 4 quarter hours  (Undergraduate)

CMNS 382 | APPLIED RESEARCH METHODS IN COMMUNICATION STUDIES | 4 quarter hours  (Undergraduate)

In this course, students apply quantitative research methods to answer questions about human communication. Students pose research questions, select and design quantitative measures, collect quantitative data, conduct descriptive and inferential statistical analyses, and interpret results.

LSP 121 (or MAT 137 or MAT 242 or PSY 240 or SOC 279) is a prerequisite for this course.

CMNS 393 | COMMUNICATION STUDIES PRACTICUM | 2 quarter hours  (Undergraduate)

Structured and supervised student participation in group presentations for various audiences. Includes practical experience in research, rehearsal and performance. Students may take a maximum of 2 credit hours in one quarter, 4 credit hours in the major, and 8 total credit hours. Written permission of supervising faculty member and of the departmental chair is necessary before registration.
CMNS 500 | FOUNDATIONS IN GRADUATE COMMUNICATION STUDIES | 4 quarter hours (Graduate)
This course provides an orientation and introduction to the studies of Communication and Media (Health, Relational, Organizational, Multicultural, and Media and Cinema Studies) in the College of Communication. The course provides an orientation into graduate program policies, program faculty, DePaul resources, the broader academic discipline of Communication and Media and potential career opportunities for graduates and resources in the field. In addition, the course provides a survey of research paradigms and methodologies, while offering students an introduction to areas of faculty specialization. Students will develop a personalized study plan and a literature review related to their area of research interest. This class will be primarily lecture/discussion based, emphasizing student participation, active learning, and diverse disciplinary perspectives. The course will take the form of several guest lectures, critical reading and reflection of research, and discussion. Students will be required to participate in small group discussions, and submit papers and other written assignments. Status as a Graduate Communication student, Health Communication student, or Relational Communication student is a prerequisite for this class.

CMNS 501 | COMMUNICATION IN CULTURAL CONTEXTS | 4 quarter hours (Graduate)
This course examines the relationship between culture and communication in various international and co-cultural contexts. It analyzes theories, concepts, personal narratives, and empirical studies on inter cultural and multicultural communication. It engages students in dialogues and reflections of the readings and familiarizes students with various approaches to intercultural communication studies. The course aims to develop students' self-reflectivity, critical thinking and analytical skills in the observation, interpretation, and understanding of communication in various cultural contexts. Formerly CMN 501. Status as a College of Communication graduate student or Experience Design student or department consent is a prerequisite for this class.

CMNS 506 | SEMINAR IN INTERPERSONAL COMMUNICATION | 4 quarter hours (Graduate)
This course focuses on communication between individuals in the context of personal and professional relationships. Various theoretical and methodological approaches to the study of interpersonal communication, major interpersonal communication dynamics and processes, and contemporary concerns of interpersonal communication researchers and practitioners will be discussed. Students will critique and apply interpersonal scholarship to address communication problems in personal and professional contexts. Status as a College of Communication graduate student or Experience Design student or department consent is a prerequisite for this class.

CMNS 507 | ATTACHMENT & RELATIONAL COMMUNICATION | 4 quarter hours (Graduate)
This course will explore the unique role that attachment styles play in the formation, maintenance, and deterioration of close relationships. Attachment theory will be used to examine how working models of self and other influence patterns of interaction among relational partners. Topics will include how attachment styles influence self-disclosure, conflict resolution, jealousy and deceptive communication. Students will also explore communicative strategies for dealing with attachment related problems. Status as a College of Communication Graduate Student or department consent is a prerequisite for this class.

CMNS 509 | SPECIAL TOPICS IN MULTICULTURAL COMMUNICATION | 4 quarter hours (Graduate)
Course covers a variety of topics that address theories about multicultural communication such as culture, gender, sexual orientation, race, and ethnicity. Status as a College of Communication Graduate Student or department consent is a prerequisite for this class.

CMNS 511 | TOPICS IN INTERPERSONAL COMMUNICATION | 4 quarter hours (Graduate)
Explores specialized topics within the field of relational communication. Past topics have included emotions and communication, gender and its relationship to interaction, and the social construction of interpersonal realities. Status as a College of Communication Graduate Student or department consent is a prerequisite for this class.

CMNS 513 | NONVERBAL COMMUNICATION | 4 quarter hours (Graduate)
Nonverbal messages are important as we typically monitor our own nonverbal messages less, but believe others nonverbal messages more than their verbal messages. Likewise, research suggests that 65% of our communication is based on nonverbal messages and some estimates are as high as 93%. Clearly such messages are important, yet we spend little time examining such messages. That said, the goal of this course is to provide you with a research based overview of a variety of nonverbal messages, that is, everything we communicate without using our words. This course surveys various conceptual areas generally subsumed under the broad rubric of nonverbal communication. Topics include physical appearances, gestures, face and eye behavior, vocalic, proxemics, touch, time, environmental contexts as well as application of nonverbal behaviors to specific interpersonal communication contexts. Status as a College of Communication Graduate Student or department consent is a prerequisite for this class.

CMNS 522 | COMMUNICATING IDENTITY | 4 quarter hours (Graduate)
Focuses on the rhetorical theories and practices through which various cultural groups within the US. construct a sense of identity. The course examines different rhetorical forms and strategies through an analysis of the rhetorical situations, texts and artifacts of various cultural groups. Status as a College of Communication Graduate Student or department consent is a prerequisite for this class.
CMNS 523 | GENDERED COMMUNICATION | 4 quarter hours (Graduate)
Examines research into the ways the various aspects of communication are affected by and affect the social construction of gender. Topics covered include language and language usage differences, interaction patterns and perceptions of the sexes generated through language and communication. (Cross-listed as MLS 445/WMS 440).
Status as a College of Communication Graduate Student or department consent is a prerequisite for this class.

CMNS 524 | NARRATIVES IN HEALTH CARE | 4 quarter hours (Graduate)
Focusing on the performance and narrative paradigms of communication studies, the course will survey uses of performance and narrative methods to consider health communication relationships. Narrative and narrative performance are sites of health communication issues for marginalized populations, difficult conversations, and alternate means of reporting. For example, narrative and narrative performance are increasingly being used as part of medical curriculum, as a means to train health care professionals to understand the experiences of their patients, encourage deep listening, and foster different professional-patient relations. For cancer, HIV/AIDS, and other patients, performance becomes a means of speaking into mainstream and dominant discourses of health and to actively shape discourses from their own subjectivities. This increases the visibility of health care experiences in their gendered, sexualized, and racialized dimensions. Finally, narrative and narrative performance offers an additional means of visibility in catalyzing change in public, legislative, scholarly and relational arenas.
Status as a College of Communication Graduate Student or department consent is a prerequisite for this class.

CMNS 525 | COMMUNICATION TRAINING FOR INTERNATIONAL WORK | 4 quarter hours (Graduate)
Examines and contrasts the management philosophies of different cultures around the world, paying special attention to how European and Asian organizational practices influence structure, culture and communication within American corporations.
Status as a College of Communication Graduate Student, Organizational Diversity MBA Student or department consent is a prerequisite to this class.

CMNS 527 | ASSESSMENT AND INTERVENTION IN ORGANIZATIONS | 4 quarter hours (Graduate)
Organizations are symbolic realities constructed by humans in communication. In other words, organizations are creations, and both organizational members and observers need to comprehend them as such. Communication 527 is devoted to preparing you to become communication professionals able to understand organizations through the analysis of organizational patterns of meaning and expectations. Communication professionals help organizations to improve communication by (1) identifying differences between actual and desired conditions of communication and (2) devising ways to close the gap between actual and desired states. The first function involves organizational communication evaluation (gathering, analyzing, and interpreting data about an organization's communication processes). The second function is referred to as intervention (actions taken to improve organizational communication). People who perform organizational communication evaluation and intervention may be members of the organization or outside agents brought in to perform specific projects. This class will focus on the role of the communication professional in the maintenance and change of organizational communication functions, structures, and the communication processes that occur at various systems levels, including dyads, groups, intercultural and multicultural relations, and organization-wide network processes.
Status as a College of Communication Graduate Student or department consent is a prerequisite for this class.

CMNS 528 | THE SOCIAL CONSTRUCTION OF HEALTH AND ILLNESS | 4 quarter hours (Graduate)
Beginning with foundational theories and principles of social construction, the course examines cases illustrating socially-constructed features of healthcare. We discuss (a) medicine as a gendered and hierarchical institution, (2) specialized languages used to describe/construct specific illnesses (e.g. anorexia and obesity, addiction, depression, HIV/AIDS), and (3) how constructed realities become internalized through primary and secondary socialization within the family, through media, and through encounters with the health care system.
Status as a College of Communication Graduate Student or department consent is a prerequisite for this class.

CMNS 529 | TOPICS IN ORGANIZATIONAL AND MULTICULTURAL COMMUNICATION | 4 quarter hours (Graduate)
This course offers students a variety of special topic areas related to organizational and multicultural communication. Students will have opportunities to delve more deeply into each topic area working with instructors who have specialized expertise in that area. Typical topics include but are not limited to Global Workplaces and International Management, Organizational Identity, Critical Theory, and Latino(a) Representation.
Status as a College of Communication Graduate Student or department consent is a prerequisite for this class.
CMNS 530 | INSTRUCTIONAL DEVELOPMENT | 4 quarter hours (Graduate)
This course is designed to assist in understanding the principles necessary for effective design, delivery and evaluation of instruction based on awareness of differing learning styles, subject content, the educational setting, and learning outcomes. This course examines issues related to instructional development by emphasizing the components that are critical in the development, delivery, and assessment of quality teaching and learning experiences in both academic and organizational settings. Students will have the opportunity to implement instructional strategies in the class setting.
Status as a College of Communication Graduate Student or department consent is a prerequisite for this class.

CMNS 532 | INTRODUCTION TO TRAINING AND DEVELOPMENT | 4 quarter hours (Graduate)
This course provides an introduction to training and its relationship to organizational problem solving. Basic and advanced training strategies are taught within the context of developing organizations. Organizations often have in house training and development specialists that facilitate on-going organizational change processes. The functions of such human relations special are explored and the kinds of communication knowledge, competencies and skills needed to enact such functions are examined.
Status as a College of Communication Graduate Student or department consent is a prerequisite for this class.

CMNS 541 | ORGANIZATIONAL COMMUNICATION AND CULTURE | 4 quarter hours (Graduate)
The central purpose of this course is to introduce students to the role communication plays in organizational life. Throughout the quarter, attention will be devoted to examining the various theoretical perspectives from which organizational communication can be viewed, and selectively surveying major content topics and current issues in the organizational communication literature.
Status as a College of Communication Graduate Student or department consent is a prerequisite for this class.

CMNS 542 | MULTICULTURAL COMMUNICATION IN THE WORKPLACE | 4 quarter hours (Graduate)
Multicultural issues affect the communication of organizational members on a day-to-day basis. This course examines multicultural issues in professional settings. It provides students with knowledge about co-cultural communication patterns, which will enhance their own ability to interact. Further, it demonstrates how multicultural communication can be an organizational asset.
Status as a College of Communication Graduate Student, Organizational Diversity MBA Student or department consent is a prerequisite to this class.

CMNS 543 | COMMUNICATION AND ORGANIZATIONAL CHANGE | 4 quarter hours (Graduate)
Change in an organization implies change in communicative processes at the individual, dyadic, group and systemic levels. Communication variables that define patterns of interaction within these organizational contexts will be examined as well as key issues that might cause communication difficulties.
Status as a College of Communication Graduate Student or department consent is a prerequisite for this class.

CMNS 545 | COMMUNICATION AND TECHNOLOGY | 4 quarter hours (Graduate)
Communication and Technology explores the process through which technological and social systems co-create or invent each other. As such, this course not only examines the role that new communication technologies play in shaping our social systems and the organizations within them, but also looks at how social, cultural, economic and legal contexts influence the development and emergence of these technologies.
Status as a College of Communication graduate student or Experience Design student or department consent is a prerequisite for this class.

CMNS 548 | TEAMS, DIVERSITY AND LEADERSHIP | 4 quarter hours (Graduate)
Modern organizations are increasingly interested in shifting their organizational structures toward the goal of creating self-managed work teams. Therefore, the current communication graduate greatly benefits from knowledge and experience with two interdependent aspects of group dynamics: decision-making under conditions of uncertainty, and the philosophy and practice of developing groups into self-managed teams. The December quarter version of this course will combine a relatively brief period of lecture/discussion with a teamwork intensive action learning component towards the goal of making each student competent to either spearhead a change to self-managed work teams in their own organization (if called upon to do so), or to understand and weather this change in work mode without stress.
Status as a College of Communication Graduate Student or department consent is a prerequisite for this class.

CMNS 549 | SPECIAL TOPICS IN ORGANIZATIONAL COMMUNICATION | 4 quarter hours (Graduate)
Course covers a variety of topics that address theories about organizational communication such as group processes, conflict management, and leadership.
Status as a College of Communication Graduate Student or department consent is a prerequisite for this class.

CMNS 552 | RELATIONSHIPS AND INFLUENCE IN THE WORKPLACE | 4 quarter hours (Graduate)
This course explores the process by which communicators attempt to accomplish their goals. In particular, this course covers theories of persuasion, strategic message design (creating messages that take into account multiple audiences and goals), and how the inferential process influences decision-making.
Status as a College of Communication graduate student or Experience Design student or department consent is a prerequisite for this class.

CMNS 563 | MULTICULTURAL MEDIA REPRESENTATIONS | 4 quarter hours (Graduate)
This course examines both representational practices and theories that are informed by multicultural perspectives. It explores ways in which scholars and media practitioners have dealt with the epistemological problem of "difference". The course may take up topics such as race, class, age, and sexual orientation as categories of difference that have informed and continue to inform academic inquiries. The course also looks at historical and/or contemporary media texts, and analyzes them through these methods.
Status as a College of Communication Graduate Student, Critical Ethnic Studies Student or department consent is a prerequisite to this class.
CMNS 570 | INTRODUCTION TO DIGITAL CMN | 4 quarter hours (Graduate)
This course will provide students with a detailed critical introduction to the field of digital communication. Topics will include practical applications of digital communication across disciplines: communication studies, journalism, public relations, advertising, media and cinema studies, and communication technology. This class will offer students a glimpse of those disciplines and allow them to integrate them all together. Additionally, this course will provide an entry point for students into the program who have had little experience with either digital technology or communication courses. Ideally, this course would be a critical introduction to the field.
Status as a student in Digital Communication and Media Arts (CDM or College of Communication) or the Digital Communication Certificate or department consent is a prerequisite for this class.

CMNS 573 | WORK/LIFE COMMUNICATION AND WELLNESS | 4 quarter hours (Graduate)
Work/life at all levels is enacted through communication, as individuals take up, contest, and re-inscribe work/life boundaries and negotiate work/life conflicts with other social and institutional actors. This seminar examines the communication theory and practice of work/life management at the individual, dyadic, familial, and organizational levels. Topics include family, health, and labor policy; organizational wellness initiatives and interventions; and the pursuit of personal work/life “balance” across the life course.
Status as a Graduate Communication student, Health Communication student, or Relational Communication student is a prerequisite for this class.

CMNS 581 | QUALITATIVE RESEARCH METHODS | 4 quarter hours (Graduate)
Introduction to qualitative approaches to research in communication. The course includes a systematic review and application of ethnography, unstructured interviewing, personal document analysis, historical research, and critical practice. Addresses the rationale, method, and theory of each qualitative approach to research in addition to placing emphasis upon data collection and interpretation.
Status as a College of Communication Graduate Student, Critical Ethnic Studies Student or department consent is a prerequisite to this class.

CMNS 582 | QUANTITATIVE RESEARCH METHODS | 4 quarter hours (Graduate)
Introduces students to quantitative approaches to research and basic statistics. Topics include research design and control, survey construction, measurement and other general research issues, nonparametric statistics, correlation, the t-test and analysis of variance.
Status as a College of Communication Graduate Student or department consent is a prerequisite for this class.

CMNS 583 | RESEARCH METHODS | 4 quarter hours (Graduate)
Focuses on developing an understanding of appropriate quantitative and qualitative research methodologies and relevant descriptive and inferential statistics for the investigation of both practical and theoretical problems in the study of communication. By considering the nature, concepts, and logic of the research enterprise, permits a critically informed assessment of published research, including data gathering and data analysis procedures.
Status as a College of Communication Graduate Student or department consent is a prerequisite for this class.

CMNS 584 | METHODOLOGICAL TOPICS | 4 quarter hours (Graduate)
This course is a special topics course in research methods, wherein students study and practice a specialized approach to data collection and knowledge generation. Students will engage the philosophical foundations and practical methodological operations of the study of human communication from a specific research perspective.
Status as a College of Communication Graduate Student or department consent is a prerequisite for this class.

CMNS 585 | THE POLITICS OF HIP HOP CULTURE | 4 quarter hours (Graduate)
This course examines “the political” in hip hop culture. Thus, it is not an appreciation of hip hop class; this is, instead, a rigorous theory-based course that interrogates hip hop culture for its political potential for social equality and change. In this course, we will grapple with theories on how popular culture, representations of blackness and power intersect within the context of hip hop. This course examines “the political” in hip hop culture. Thus, it is not an appreciation of hip hop class; this is, instead, a rigorous theory-based course that interrogates hip hop culture for its political potential for social equality and change. In this course, we will grapple with theories on how popular culture, representations of blackness and power intersect within the context of hip hop. We will also interrogate various media texts (film, music, television, and “new media”) in relation to the multiple ways in which hip hop culture has been defined. Among the issues we engage are the constructions and representations of blackness, black images in popular culture, and how hip hop culture relates to underlying factors such as globalization, hyper-commodification, racism, sexism, hetero-normativity, classism, and resistance.
Status as a Communication and Media graduate student is a prerequisite for this class.

CMNS 586 | COMMUNICATING HEALTH, RACE AND REPRODUCTIVE RIGHTS | 4 quarter hours (Graduate)
This course examines “the political? that arises from women?s bodies and reproductive rights and practices. In this course, we will grapple with theories on how race, media representations of blackness and power intersect within the context of the female body. We will begin with a theoretical framework for our readings and discussions then we will delve into the history of women and reproduction as it relates to power; this history will focus primarily on women of the Black Diaspora which will include indigenous women of the Americas and Latinas. We will also interrogate various race-based case studies as both a force for change and for reinforcing hegemonic discourse. Among the issues we will engage are the constructions and representations of blackness and how race and reproduction relates to underlying factors such as globalization, racism, sexism, classism, and resistance. A crucial part of our task in this course is to think critically and complexity about the roles of race and racism as it pertains to the female body and reproduction within our contemporary world.
Status as a Communication and Media graduate student is a prerequisite for this class.
CMNS 590 | COMMUNICATION WORKSHOP (VARIABLE TOPICS) | 2 quarter hours
Graduate
This course allows students to sample a range of hands on, practical offerings in communication that can enhance their knowledge and expertise. Topics offered include survey design and focus groups. (2 quarter hours)

Status as a College of Communication Graduate Student or department consent is a prerequisite for this class.

CMNS 592 | INDEPENDENT STUDY | 4 quarter hours
Graduate
Students will be guided in the development of a special project that furthers their collaboration with an instructor and produces a report that demonstrates their mastery of critical content and competencies. The independent study option is intended for students who have demonstrated a mastery of course content, who would benefit from a sustained, focused collaboration with a relevant faculty member. (Variable credit).

Status as a Graduate Communication student and Director Consent is a prerequisite for this class.

CMNS 594 | DCMA THESIS 1 | 4 quarter hours
Graduate
Enroll in 594 during the term before you plan on taking Thesis II. This is a graded, 4-credit hour course. Tuition is charged and loan deferment is available. Your thesis/project advisor needs to communicate this date to the Graduate Studies Director for your program, before you are allowed to enroll. PREREQUISITE(S): Status as a Graduate Digital Communication and Media Arts student and Director consent is a prerequisite for this class.

CMNS 595 | DCMA THESIS II | 4 quarter hours
Graduate
Enroll in CMNS 595 during the term you plan to defend your thesis or complete your final project. This is a graded, 4-credit hour course. Tuition is charged and loan deferment is available. You must have a scheduled defense/completion date to be approved for this class. Your thesis/project advisor needs to communicate this date to the Graduate Studies Director for your program, before you are allowed to enroll. This class is for DCMA students in the Digital Communication concentration and follows DMA 695.

A concentration in Digital Communication and CMNS 594 are prerequisites for this class.

CMNS 596 | GRADUATE CAPSTONE | 4 quarter hours
Graduate
The graduate capstone course is designed to accompany the completion of an exit project, an option to fulfill the requirements for an M.A. in the following programs: Organizational and Multicultural, Relational Communication, and Health Communication. Under the mentorship of a faculty member, students will design and create an exit project as guided by their chosen committee. The students in the course will serve as peer collaborators for one another, providing resources throughout the exit project process. The purpose of an exit project is to allow students the flexibility to create a meaningful work product that integrates the graduate coursework, which is distinctly separate from the thesis and comprehensive exam options. To enroll in this course, students must complete and submit the requisite paperwork with the signature of their exit project committee members along with a proposal of the exit project.

Status as a Graduate Communication student, Health Communication student, or Relational Communication student is a prerequisite for this class.

CMNS 599 | RESEARCH THESIS | 4 quarter hours
Graduate
Enroll in 599 during the term you plan to defend your thesis or complete your final project. This is a graded, 4-credit hour course. Tuition is charged. You must have a scheduled defense/completion date to be approved for this class. Your thesis/project advisor needs to communicate this date to the Graduate Studies Director for your program, before you are allowed to enroll. Loan deferment is allowed to those registered for this class.

Status as a Graduate Communication student and Director Consent is a prerequisite for this class.

CMNS 601 | ACTIVE DEGREE COMPLETION | 0 quarter hour
Graduate
CMNS 601 Active Degree Completion HTHC 601 Active Degree Completion This is a 0-credit hour course that is available to students who are working actively toward the completion of a thesis or project. Enrollment in this course is limited to the two quarters prior to the defense of the thesis/project and requires thesis/project advisor and graduate director approval and proof of work each quarter. Enrollment in this course allows access to the library and other campus facilities. This course carries half-time enrollment status and eligibility for loan deferment and student loans. This course is graded as pass/fail. (0 credit hours)

Status as a Graduate Communication or Relational Communication student or department consent is a prerequisite for this class.

CMNS 602 | CANDIDACY CONTINUATION | 0 quarter hour
Graduate
CMNS 602 Candidacy Continuation HTHC 602 Candidacy Continuation This is a 0-credit hour course that requires permission from the graduate director. Students can enroll in this course if they are finishing a course in which they received an incomplete (IN) and are not registered for any other regular credit-bearing courses in the quarter they plan to finish the incomplete. Enrollment in this course is limited to the two quarters following the quarter of the original incomplete (IN) grade. Enrollment in this course allows access to the library and other campus facilities. This course does not carry any enrollment status. Students enrolled in this course are not eligible for loan deferment or student loans. This course is not graded. (0 credit hours)

Status as a Graduate Communication student is a prerequisite for this class.
Community Service Studies (CSS)

CSS 101 | CATHOLIC SOCIAL TEACHING AND REFLECTION | 1-4 quarter hours
(Undergraduate)
CSS 101 is a mandatory year-long course sequence for all students serving as tutors at San Miguel schools and Visitation Catholic Elementary through the Stearn’s Center Catholic Schools Initiative. Utilizing the pastoral cycle of "See, Judge, and Act" within the Catholic Social tradition, students will critically reflect on their tutoring experience as it relates to local economic, cultural and political issues surrounding the Englewood and Back of the Yards neighborhoods. In addition they will explore a variety of domestic and global justice issues through the lens of Catholic Social Teaching. Through this hermeneutic, they will gain a familiarity with terms and concepts to more thoroughly analyze and critique social systems. The students will also learn more about the Dominican and LaSallian charism towards marginalized populations and reflect on their own personal responsibility as members of a community bound to their religious mission. As a service-enhanced course, students will actively engage in critical reflection and dialogue on their tutoring experience through the use of readings, videos, guest speakers, group projects/presentations, and designated field trips to related organizations. Variable credit.

CSS 201 | CRITICAL COMMUNITY ENGAGEMENT | 4 quarter hours
(Undergraduate)
This course explores the relationship between social justice movements and non-profit organizations in the U.S. by providing a structure within which students can learn about issues and theory and the organizational settings in which they are serving.

CSS 300 | INTRODUCTION TO NON-PROFIT MANAGEMENT | 4 quarter hours
(Undergraduate)
This course provides students with an understanding of the functioning of the organizations that conduct the vital work of the non-profit sector. Students will complete the course with the knowledge base to be effective program managers and board members in these organizations.

CSS 310 | RESTORATIVE JUSTICE: ENGAGEMENT WITH THE PRISON | 4 quarter hours
(Undergraduate)
This course will provide an opportunity for students to 1) reflect deeply on the meaning of justice, 2) examine institutionalized forms of justice, and, above all, 3) explore alternative models of justice. Using a dialectic process, students will actively scrutinize theories of justice and investigate issues and movements of social justice. Additionally, they will be asked to consider how each of these areas informs the other, since theories often influence as well as emerge from issues and movements. Assumptions about crime and justice will be considered by comparing and contrasting retributive and restorative paradigms. The role of offender, victim and community will be analyzed in the context of crime and justice. Students will also look into programs in restorative justice to discern their outcome effectiveness.

CSS 311 | MASCULINITY, JUSTICE AND LAW | 4 quarter hours
(Undergraduate)
This course examines the social practices as well as the legal and institutional culture of masculinity. We will explore the sociocultural, historical and political debates surrounding masculinity and address why it is frequently thought to be "in crisis." Focusing on a number of different sociopolitical movements, we shall consider the construction of masculinity in relation to other social theories, including feminism and postcolonial theory. Furthermore, the effects of various types of violence, and strategies for intervention and prevention shall be addressed.

CSS 312 | LAW AND POLITICS: PRISON POLICIES AND RESTORATIVE JUSTICE | 4 quarter hours
(Undergraduate)
This course is about the intersections between law and politics. The learning outcomes for this course include helping students understand the U.S. Constitution, civil liberties and civil rights; the tensions between democracy and the rule of law. The course readings will address restorative justice, community service, redemption, and social justice. We will apply particular concepts from readings, lectures, etc. to an analysis of lived experiences in the American penal system. Collaborating with the Inside-out program, we will examine the ethics of drug sentencing, "three strikes and you are out" sentencing laws, mass incarceration, felon disenfranchisement, and prison-based gerrymandering. The main course assignment asks students to frame a constitutional amendment to rectify one of the issues covered in the course. Their amendments must reflect a thorough understanding of the legal, political, and ethical aspects of the issue they wish to address.

CSS 320 | COMMUNITY FOOD SYSTEMS | 4 quarter hours
(Undergraduate)
This course offers a critical analysis of the concept of community food systems as they have been employed as an alternative to the global agro-food system. Readings, lectures, films, guest speakers, site visits, and field projects will provide students with an overview of emerging community-driven efforts at producing, distributing and consuming food. Emphasis will be placed on (1) local, community-based food projects within urban contexts in North America; (2) whether or not these projects constitute more environmentally, socially, and economically sustainable approaches to provisioning households, neighborhoods, towns and cities; and (3) the degree to which such projects enhance the control over, accessibility to, and healthiness of food. Students will gain an understanding of the current global food system in relation to producing, processing, packaging, transporting, marketing, and eventually discarding food. Comparisons will be drawn with emerging local production, distribution and procurement processes driven by the interests of community groups and organizations concerned with health and nutrition, the environment and social justice. There will be a specific focus on the application of community food systems in urban sectors where access to fresh food is challenged, for example, as a result of historical patterns of racial segregation and social exclusion. Students will gain an understanding of such challenges through engaging in field projects in support of local food production and distribution within Chicago communities.

CSS 330 | COMMUNITY PARTICIPATORY ACTION RESEARCH DESIGN | 4 quarter hours
(Undergraduate)
This course traces the development of Participatory Action Research (PAR) through a number of different prisms including positivism, feminism, post-modernism and experiential learning pedagogies and examines the influence of discourses of power and inequality on this research methodology.
CSS 340 | MINDFULNESS AND ACTIVISM | 4 quarter hours  
(Undergraduate)  
This course will introduce students to the spiritual and secular uses of mindfulness to further their understanding of themselves and others and to consider its implications for social change. Mindfulness is "the intentional, accepting and non-judgmental focus of one's attention on the emotions, thoughts and sensations occurring in the present moment"; scientific research demonstrates that mindfulness is a powerful vehicle for advancing social relationships and individual health. Students will learn about the history of, contemporary practice, and scientific research on mindfulness in Buddhism, Christianity, and secular health venues through texts, reflection papers, research, and outreach and curriculum development to community partner sites in the Chicago community.

CSS 350 | CRITICAL ISSUES IN PUBLIC EDUCATION: THE CHICAGO CONTEXT | 4 quarter hours  
(Undergraduate)  
This course is a community-based service learning course that requires both "service" in and critical reflection of student experiences in public schools. Students in this course will engage critically with the challenges in public education. Issues explored in this course include: privatization of schooling, punitive accountability measures and sanctions, over-testing, tracking, and, zero tolerance disciplinary policies. Additionally, this class will address the systemic structures that lie at the foundation of these issues including the intersections of differences in race, class, gender, culture, sexual preference, religion, and nationality.

CSS 378 | COMMUNITY-BASED TECHNOLOGY PROJECTS | 4 quarter hours  
(Undergraduate)  
Using an Asset-based Community Development (ABCD) approach, students will work with a community partner to assess urban community web needs, then develop and implement a Web solution. This course provides a systematic and thorough introduction to project management theory, terms and concepts, while students learn the technical, cultural, and interpersonal skills necessary to successfully manage a web project through the project development life cycle. Concepts are reinforced via interactive in-class case study and reflection exercises; the course culminates in a web project for the community partner.

CSS 390 | SPECIAL TOPICS IN COMMUNITY SERVICE STUDIES | 4 quarter hours  
(Undergraduate)  
Special topics in Community Service Studies are designed to cover emerging or specialized issues in community service, development, nonprofit management, and/or social and global responsibility.

CSS 395 | COMMUNITY INTERNSHIP | 4 quarter hours  
(Undergraduate)  
Community Internship exposes students to career potentials in non-profit and government agencies through an intensive internship experience in a community organization.

CSS 399 | INDEPENDENT STUDY | 1-4 quarter hours  
(Undergraduate)  
Independent study. Enrollment by instructor and/or with approval by program director. Variable credit.

**Comparative Literature (CPL)**

CPL 210 | GREAT IDEAS, THE INDIVIDUAL AND SOCIETY I | 4 quarter hours  
(Undergraduate)  
Classical Antiquity and the Middle Ages Representative works from the Bible, ancient Greek and Roman literature, and European literature of the Middle Ages. Emphasis on close reading of particular texts in different genres; all readings in English. Authors treated in this sequence may include: Homer, Sappho, Aeschylus, Sophocles, Euripides, Hippocrates, Aristophanes, Plato, Aristotle, Cicero, Lucretius, Ovid, Seneca, Plutarch, Augustine, Maimonides, Dante. Formerly ISP 210.

CPL 211 | GREAT IDEAS, THE INDIVIDUAL AND SOCIETY II | 4 quarter hours  
(Undergraduate)  
This course entails close reading and discussion of significant texts in Western culture from the Renaissance to the Enlightenment. Readings will reflect different genres and perspectives. Potential authors may include, for example, Machiavelli, Erasmus, Pisan, Luther, Teresa of Avila, Cervantes, Montaigne, Descartes, Locke, Voltaire, Wollstonecraft, Swift, Equiano, and Rousseau. Cross-listed with HST 234.

CPL 212 | GREAT IDEAS, THE INDIVIDUAL AND SOCIETY III | 4 quarter hours  
(Undergraduate)  
The Modern Era Representative works of European literature from the French Revolution to the modern period. Emphasis on close reading of particular texts in different genres; all readings in English. Authors treated in this sequence may include: Hegel, Kierkegaard, Marx, Melville, Flaubert, Nietzsche, Freud. Formerly ISP 212.

CPL 240 | VOICES OF WAR AND PEACE; ART, LITERATURE AND FILM | 4 quarter hours  
(Undergraduate)  
This course is an overview of the ways in which the arts, including literature and film, portray warfare and the attempts to end violence and build reconciliation and peace. Cross-listed with PAX 240.

CPL 242 | PICTURES OF INJUSTICE: NARRATIVE ARTS IN SOCIAL JUSTICE MOVEMENTS | 4 quarter hours  
(Undergraduate)  
This course will critically examine social justice themes in documentary and feature films in order to consider the role film and filmmaking can play in social justice movements. Together, we will carefully analyze a wide variety of films with the goal of critically examining their representations of race, gender, class and their depiction of agency of their subjects. We will also examine the storytelling and technical techniques used by filmmakers and how those techniques support the goals of filmmakers. Finally, we will examine case studies of activists who are using film and film-making as a part of movements for social justice. Students will leave this course with a better understanding of the ethics of filmmaking and the use of film in social movements. They will be more critical consumers of media and more familiar with a variety of social justice issues. Cross-listed with PAX 242.

CPL 301 | EPIC AND ROMANCE | 4 quarter hours  
(Undergraduate)  
Study of examples of heroic literature from a variety of cultures, including Western and non-Western civilizations.
CPL 302 | COMEDY | 4 quarter hours  
(Undergraduate)  
Study of important examples of dramatic comedy; selections may range from ancient times to the present day with some attention to the relevant theories of comedy (Aristotle, Freud, Bergson, Frye, etc.).

CPL 303 | TRAGEDY | 4 quarter hours  
(Undergraduate)  
Study of important examples of dramatic tragedy; selections may range from ancient times to the present day with some attention to the relevant theories of tragedy.

CPL 304 | THE NOVEL | 4 quarter hours  
(Undergraduate)  
Study of the novel, any period or subgenre (historical, picaresque, romantic, realist etc.) from any given area or country with some attention to the literary theory of the particular novels in question.

CPL 305 | AUTOBIOGRAPHICAL/CONFESSIONAL LITERATURE | 4 quarter hours  
(Undergraduate)  
Study of autobiographical/confessional literature; selections may range from ancient times to the present day from any given area or country with some attention to the relevant theories of these genres.

CPL 306 | UTOPIAN LITERATURE | 4 quarter hours  
(Undergraduate)  
Study of utopian literature; selections range from the Renaissance to the present day. Readings are discussed within the context of relevant political and social theory.

CPL 311 | REVOLUTIONARY LITERATURE | 4 quarter hours  
(Undergraduate)  
Study of revolutionary literature in any of its manifestations and genres in specific areas and periods.

CPL 312 | THE LITERATURE OF IDENTITY | 4 quarter hours  
(Undergraduate)  
Cross-cultural study of self-discovery and identity as manifested in the literatures of self-awareness and self-definition (African-American, Hispanic, gay/lesbian, etc.).

CPL 313 | FEMINIST LITERATURE | 4 quarter hours  
(Undergraduate)  
Cross-cultural synchronic or diachronic study of feminist literature.

CPL 319 | TOPICS IN COMPARATIVE LITERATURE | 4 quarter hours  
(Undergraduate)  
Selected topics on any theme from comparative literature.

CPL 355 | CONTEMPORARY CRITICISM | 4 quarter hours  
(Undergraduate)  
An overview of contemporary criticism from Russian formalism to post-modernism.

Composition (COM)

COM 300 | ORCHESTRATION I | 4 quarter hours  
(Undergraduate)  
Ranges, sonorities and characteristics of woodwind, brass, percussion and string instruments; orchestrational studies of representative works through the 19th century; arrangements for orchestral ensembles.  
Status as an undergraduate composition major is a prerequisite for this class.

COM 301 | 16TH CENTURY COUNTERPOINT | 4 quarter hours  
(Undergraduate)  
Species counterpoint in two and three parts; melodic, formal and "harmonic" practices in Renaissance polyphony; free composition in the style; analysis and in-class performances of Renaissance motets and mass settings as well as original student compositions.  
Status as an undergraduate composition major is a prerequisite for this class.

COM 302 | 18TH CENTURY COUNTERPOINT | 4 quarter hours  
(Undergraduate)  
Contrapuntal techniques of Bach and Handel; analysis, composition, and in-class performances of solo and ensemble works in the style. Assignments include composition of inventions and fugues.  
Status as an undergraduate composition major is a prerequisite for this class.

COM 303 | 20TH CENTURY COUNTERPOINT | 4 quarter hours  
(Undergraduate)  
Exploration of contrapuntal techniques using 20th century vocabularies; analysis of selected compositions from the 20th-century, including works of Ives, Schonberg, Webern, Bartok, Hindemith, Ligeti and others as well as music of very recent times.  
Status as an undergraduate composition major is a prerequisite for this class.

COM 304 | THE NOVEL | 4 quarter hours  
(Undergraduate)  
Use of various analytical techniques for detailed studies of selected compositions from the common-practice period through the present day.  
Status as an undergraduate composition major is a prerequisite for this class.

COM 305 | ANALYTICAL STUDIES | 4 quarter hours  
(Undergraduate)  
Basic composition. Recommended as preparatory for intended composition majors. This course may be repeated for credit. (2 quarter hours)  
Status as an Undergraduate Music student is a prerequisite for this class.

COM 313 | INTRODUCTION TO COMPOSITION | 2-4 quarter hours  
(Undergraduate)  
Exploration of 20th and 21st century techniques through creative projects and possible analytical assignments. Projects are designed to lead to the completion of compositions for a variety of performance media, culminating in the senior composition project.  
Status as a Composition student is a prerequisite for this class.

COM 315 | COMPUTER ASSISTED COMPOSITION | 4 quarter hours  
(Undergraduate)  
The purpose of this course is to offer composition majors an introduction to the use of computers in the implementation of generative and formal strategies for music composition.  
Status as an Undergraduate Music student is a prerequisite for this class.

COM 320 | ORCHESTRATION II | 4 quarter hours  
(Undergraduate)  
A survey of orchestrational practices and techniques from the last 100 years. Assignments include analysis, notation, and orchestration.  
Status as an undergraduate composition major and COM 300 are prerequisites for this class.
COM 326 | ELECTRO-ACOUSTIC MUSIC I | 4 quarter hours
(Undergraduate)
Introduction to the history and literature of electro-acoustic music.
Introduction to electronic tools and techniques, including MIDI
sequencing, timbral manipulation, and digital sampling.
Status as an Undergraduate Music student is a prerequisite for this class.

COM 327 | ELECTRO-ACOUSTIC MUSIC II | 4 quarter hours
(Undergraduate)
Introduction to digital video and multimedia composition and delivery.
Further study in the history, literature, and analysis of electro-acoustic
music.
COM 326 is a prerequisite for this class.

COM 398 | INDEPENDENT STUDY | 1-4 quarter hours
(Undergraduate)
An in-depth study of a composition topic under the supervision of a
faculty member. (Departmental permission required). (variable credit)
Status as an Undergraduate Music student is a prerequisite for this class.

COM 399 | FINAL COMPOSITION PROJECT | 1 quarter hour
(Undergraduate)
Completion of a final composition project for a large ensemble of six
minutes or more. The specific ensemble is to be determined by the
student and the composition department and work for this project will be
a part of composition lessons throughout the student's senior year.
Status as an Undergraduate Music student is a prerequisite for this class.

COM 405 | ANALYTICAL STUDIES | 4 quarter hours
(Graduate)
The study and practice of specific analytical techniques as related to
specific works from the common practice period through the present day.
Status as a Graduate Music student is a prerequisite for this class.

COM 415 | COMPOSITION | 1-4 quarter hours
(Graduate)
The study of advanced compositional issues at the graduate level which
will culminate in quarterly projects as well as a final composition project.
Status as a Graduate Composition student is a prerequisite for this class.

COM 416 | COMPUTER ASSISTED COMPOSITION | 4 quarter hours
(Graduate)
The purpose of this course is to offer composition majors an introduction
to the use of computers in the implementation of generative and formal
strategies for music composition.
Status as a Graduate Composition student is a prerequisite for this class.

COM 420 | ORCHESTRATION II | 4 quarter hours
(Graduate)
The study of significant notation, orchestration and instrumentation
practices and techniques from the last 75 years. Course activities
include consistent score analysis as well as demonstrations of extended
instrumental techniques. Projects include orchestral transcriptions and
the creation of short works for specific instrumental combinations.
Status as a Graduate Composition student is a prerequisite for this class.

COM 421 | SEMINAR IN COMPOSITION | 2 quarter hours
(Graduate)
(2 quarter hours)
Status as a Graduate Music student is a prerequisite for this class.

COM 444 | NOTATIONAL SEMINAR: NOTATION, COMPOSITION, & SOUND
STRUCTURES | 4 quarter hours
(Graduate)
A study of some of the most relevant notational issues that have
emerged in western music since WWII.
Status as a Graduate Music student is a prerequisite for this class.

COM 445 | TWENTIETH CENTURY MUSIC TOPICS | 4 quarter hours
(Graduate)
A review of significant 20th century literature and techniques as partial
preparation for the comprehensive exam.
Status as a Graduate Composition student is a prerequisite for this class.

COM 446 | NEW MUSIC COMPOSITION SEMINAR | 4 quarter hours
(Graduate)
Analysis of compositional and notation techniques as found in significant
new works from the last twenty-thirty years for chamber ensembles
or orchestral ensembles. Students will develop weekly presentations
on specific works that will eventually be presented at the department's
weekly meeting sessions and will also develop a minimum 10 page paper
on one-two works.
Status as a Graduate Composition student is a prerequisite for this class.

COM 447 | NON-WESTERN SOUND AND CONCEPT IN CONTEMPORARY
MUSIC | 4 quarter hours
(Graduate)
This class will consist of two major elements: one is a survey of the non-
western influences in question and the second is the application of non-
western influences to actual composition. The final goal of the class is to
produce a small scale composition, which demonstrates the application
of non-western music ideas.
Status as a Graduate Composition student is a prerequisite for this class.

COM 498 | INDEPENDENT STUDY | 2-4 quarter hours
(Graduate)
An in-depth study of a composition topic under the supervision of a
faculty member. (Departmental permission required). (2 quarter hours)
Status as a Graduate Music student is a prerequisite for this class.

Computer Graphics & Motion Technology (GPH)

GPH 205 | HISTORICAL FOUNDATIONS OF VISUAL TECHNOLOGY | 4
quarter hours
(Undergraduate)
This course is a survey of the development, application and meaning of
visual technologies in a wide range of world cultures from pre-history
to the present. It traces the unique intersection of mathematics and
physical culture that marks design science, as it has been realized in
a variety of human societies. The course includes works of art that
emphasize those mathematical and geometric elements that are
antecedent to contemporary graphic technology.

GPH 211 | PERCEPTUAL PRINCIPLES FOR DIGITAL ENVIRONMENTS I | 4
quarter hours
(Undergraduate)
An introduction to the visual, non-verbal principles incorporated in
the effective presentation of on-screen environments. This course
emphasizes the use of two-dimensional elements and their organization.

GPH 212 | PERCEPTUAL PRINCIPLES FOR DIGITAL ENVIRONMENTS II | 4
quarter hours
(Undergraduate)
Further experience with the visual, non-verbal principles incorporated in
effective presentation of on-screen environments. This course
emphasizes the use of three-dimensional elements, spaces and their
organization. PREREQUISITE(S): ART 105, GD 105, GPH 211 or HCI 402.
GPH 213 | PERCEPTUAL PRINCIPLES FOR DIGITAL ENVIRONMENTS III | 4 quarter hours (Undergraduate)
An introduction to the visual and communication principles for the structure and organization of time-based digital environments. Introduction to standard 2D animation software applications. PREREQUISITE(S): GPH 211 or GD 105 or equivalent.

GPH 250 | DIGITAL MODELING I | 4 quarter hours (Undergraduate)
Introduction to 3D object modeling with an emphasis on visual applications and prototype design. Students will work with basic spatial operations in surface modeling and CAD interfaces and will produce an original object from a pattern with computer-aided manufacture. Prerequisite: GPH 212.

GPH 255 | HAND PROTOTYPING FOR GRAPHIC VISUALIZATION | 4 quarter hours (Undergraduate)
Paper prototyping techniques for pre-screen image design including form rendering, rapid visualization, descriptive geometry, and iconographic diagramming. Students will work from initial sketch versions through client presentation. PREREQUISITE(S): ART 106 and (GPH 211 or GD 105)

GPH 259 | DESIGN GEOMETRY | 4 quarter hours (Undergraduate)
An historical and practical introduction to the visual applications of geometry. This CAD-based survey covers constructive geometry, surface symmetry, projective geometry, polyhedrons and spheroids through the discussion of historical precedents and practicum exercises.

Graduate standing is a prerequisite for this class.

GPH 279 | SCIENCE AND DESIGN OF SUNDIALS | 4 quarter hours (Undergraduate)
This course explores ancient and early modern understanding of the cosmos and how this was successfully modeled into the sundial. About half of the course lectures are historical, while others explain the astronomy, geography and geometry used to design the dial. During lab sessions students design and create their own sundials.

GPH 321 | COMPUTER GRAPHICS DEVELOPMENT I | 4 quarter hours (Undergraduate)
This course presents the fundamental mathematical foundations of graphics including an introduction to the basic geometric constructions of points, vectors, transformations, matrices and homogeneous coordinates. The course will explore applications of these mathematical techniques to rendering 3D scenes and lighting and shading surfaces in 3D. Advanced topics will include several key techniques from computational geometry such as the computation of object intersections and applications to rendering 3D scenes and object collisions. The focus of this course is on building the software from scratch rather than using a graphics application programming interface (API) so that students will gain a deeper understanding of the techniques they will be using in later courses through an API such as OpenGL or Direct3D. PREREQUISITE(S): CSC 300 or CSC 383 or CSC 393. CSC 300 or CSC 383 or CSC 393 is a prerequisite for this class.

GPH 325 | SURVEY OF COMPUTER GRAPHICS | 4 quarter hours (Undergraduate)
(Formerly GPH 371) A survey of basic 3D techniques, including interaction of light and color. The relationship between visual effect and geometry. Visual effects of rendering, texturing and lighting algorithms. Procedurally based modeling and an introduction to procedural animation techniques. PREREQUISITE(S): CSC 212 or ISM 330.

GPH 329 | COMPUTER GRAPHICS DEVELOPMENT II | 4 quarter hours (Undergraduate)
Basic graphics architecture. Coordinate systems. Three-dimensional representations and transformations. Simple visible-surface algorithms. Introduction to illumination. Gouraud and Phong shading. Antialiasing. Texture mapping and elements of animation. Students create a graphics package using a high-level graphics API such as OpenGL. PREREQUISITE(S): CSC 361 and (GPH 325 or GPH 321)
CSC 361 and (GAM 325 or GPH 321) are prerequisites for this class.

GPH 336 | SMOOTH SURFACE MODELING FOR GRAPHICS AND ANIMATION | 4 quarter hours (Undergraduate)

GPH 339 or GAM 370 is a prerequisite for this class.

GPH 338 | SURVEY OF 3-D ANIMATION | 4 quarter hours (Undergraduate)
(Formerly titled Computer Animation Survey). Use of a commercially-based animation package for the purpose of communicating a narrative or visual information. Animation of transformations, deformations, cameras, and lights. Forward / inverse kinematics for character rigging. Prerequisites: ANI 201 and either GPH 325 or GPH 250.

GPH 339 | ADVANCED RENDERING TECHNIQUES | 4 quarter hours (Undergraduate)
An introduction to shading techniques for highly realistic computer generated imagery. Texturing basics. Design, acquisition and application of layered textures to produce realistic dirt and aged surfaces. Turntables. Basic illumination and reflectance models. Elements of procedural texturing for organic surface materials such as wood and marble. The course includes an introduction to an industry standard shading language that is a powerful prototyping tool for both offline and real-time rendering environments. Students work in teams to produce convincingly organic environments. PREREQUISITE(S): GPH 325 or GPH 321 or (ANI 339 and GPH 355)

GPH 340 | PROCEDURAL SHADING | 4 quarter hours (Undergraduate)
Procedural pattern generation, creating patterns such as marble and wood with noise, moving beyond the Phong Illumination model. Gaussian distributions and the Ward anisotropic model, BRDFs. Non-photorealistic rendering techniques such as "toon" shading and painterly techniques. PREREQUISITE(S): GPH 339.

GPH 341 | ADVANCED LIGHTING TECHNIQUES | 4 quarter hours (Undergraduate)
Simple local models such as Phong, extensions to Phong (HDR), ray-traced lighting and shadows, soft shadow generation using shadow maps, radiosity for producing ambient lighting and photon mapping for calculating realistic refracted light. Theory, lighting features supported, efficiency, and practical considerations for choosing the model in production. PREREQUISITE(S): GPH 339.
GPH 345 | DIGITAL SURFACE MODELING | 4 quarter hours  
(Undergraduate)  
This course is an upper level exploration of digital modeling in NURBS environments. Students will learn to creatively apply analytic methods of form production and scenic presentation suitable for application to design and engineering, medical and forensic visualization, and testing. In general this course will prepare students for 3-D graphic applications outside of the entertainment industry while rounding out their modeling skills for that industry, too. PREREQUISITE(S): GPH 212 or GPH 259 or ANI 230.

GPH 346 | SMOOTH SURFACE MODELING FOR GRAPHICS AND ANIMATION | 4 quarter hours  
(Undergraduate)  
GPH 329 or GAM 370 is a prerequisite for this class.

GPH 347 | PROGRAMMING FOR GRAPHICS | 4 quarter hours  
(Undergraduate)  
(Formerly CSC 347) Survey of current visualizations in the graphics field. Programming using a visualization package, use of color for feature extraction and enhancement, false color mapping techniques, reconstruction techniques, iso surface generation, stream lines and ribbons, spatial set operations and projections of higher-dimensional data sets. Prerequisite(s): GPH 338 or ANI 231.

GPH 348 | RIGGING FOR ANIMATION | 4 quarter hours  
(Undergraduate)  
Readying 3D characters and other models for animation. Skeleton chains, joint orientations, and degrees of freedom. IK solvers, including single chains, rotation and splines. Methods for computing weights for skinning body and face, including semi-automated approaches. Considerations for mechanical objects, animals and low-polygon models. PREREQUISITE(S): GPH 338 or ANI 201.

GPH 350 | DIGITAL MODELING II | 4 quarter hours  
(Undergraduate)  
Advanced experience in object modeling and prototype design. Students will work with more sophisticated form relationships, reverse engineering and textures, and will produce an original object from slicing with computer-aided manufacture. PREREQUISITE(S): GPH 250.

GPH 355 | 3D SCRIPTING FOR ANIMATORS | 4 quarter hours  
(Undergraduate)  
This is an introductory course in scripting for a 3D production environment. Students will learn and apply basic programming concepts in order to improve the productivity of animators and modelers. Using script, we will automate repetitive tasks, customize the interface, and create new tools. Students will gain a fundamental understanding of how a 3D animation package functions behind the interface. Prerequisites: ANI 230 or GPH 338.

GPH 358 | COMPUTER GRAPHICS AUTOMATION | 4 quarter hours  
(Undergraduate)  
The use of scripting and other automation techniques to generate computer graphics and animation. Emphasis on the benefits and differences of scripting languages compared to conventional graphics programming. Using commercially available scripting environments, students will generate rich, interesting graphics and animations that would not be possible with the conventional user interface. PREREQUISITE(S): ISM 330 or CSC 212 or GPH 355 or CSC 242.

GPH 360 | MODELING SPACES | 4 quarter hours  
(Undergraduate)  
The digital design and modeling of environmental spaces with attention to human use parameters. PREREQUISITE(S): GPH 250.

GPH 372 | PRINCIPLES OF COMPUTER ANIMATION | 4 quarter hours  
(Undergraduate)  
(Formerly CSC 372) This course will cover a range of topics in introductory 3D Computer Animation. Topics covered will include key framing, interpolation, hierarchies, inverse kinematics, particle systems, and the basics of physically based simulation and modeling. PREREQUISITE(S): GPH 329 or GAM 370.  
GPH 329 or GAM 370 is a prerequisite for this class.

GPH 375 | ADVANCED GRAPHICS DEVELOPMENT | 4 quarter hours  
(Undergraduate)  
(Formerly CSC 375) Survey of standards and current modular technology for 2D and 3D graphics software development. Use of software development toolkits to create "plug-ins" and other modularly organized functionality enhancements for selected commercially available graphics packages. PREREQUISITE(S): GPH 329 or permission of instructor.

GPH 380 | VISUALIZATION | 4 quarter hours  
(Undergraduate)  
An in depth introduction to a wide range of visualization techniques focusing on medical and scientific applications. Introduction to programming using a visualization package, use of color for feature extraction and enhancement, false color mapping techniques, reconstruction techniques, iso surface generation, stream lines and ribbons, spatial set operations and projections of higher-dimensional data sets. Prerequisite(s): GPH 325.

GPH 387 | FORENSIC ANIMATION | 4 quarter hours  
(Undergraduate)  
Techniques and issues in forensic animation. Application of modeling and rendering to the recreation of time-based events for legal purposes. Survey of research and interview techniques. Demonstrative recreation and physically-based recreation. Issues of accuracy, verification, certification and ethics. Students research and recreate an event with forensic value. Possible project areas include motor vehicle incidents, aviation events, product liability, medicine, and trademark infringement. Prerequisites: GPH 338 or ANI 231.

GPH 388 | PRODUCTION PIPELINE TECHNIQUES | 4 quarter hours  
(Undergraduate)  
An essential aspect of CGI is the skill to effectively manage data for an entire show, and to know how to monitor renders and image processes with the end result of assembling the finished animation. Students taking this course will gain hands-on experience in render queue management, automated file/image processing and manipulation, disk resource management, data archiving, conversion of outside vendor media and scripting tools to automatic common tasks and improve workflow. Students will work in teams to complete large-scale asset management and rendering projects. Prerequisites: CSC 212 or CSC 262.

GPH 389 | REAL-TIME GRAPHICS TECHNIQUES | 4 quarter hours  
(Undergraduate)  
This course will cover the basic algorithms and techniques used in today's real-time graphics systems. Topics will include the following: an introduction to computational geometry including computation with polygonal meshes. Alternate scene representations for efficient geometry culling, including BSP trees and oct-trees. Bounding volume hierarchies, box-trees and R-trees, and application to geometry culling. Programmable graphics hardware and its applications to geometric deformations and surface rendering. PREREQUISITE(S): GPH 329 or GAM 370.  
GPH 329 or GAM 370 is a prerequisite for this class.
GPH 390 | TOPICS IN GRAPHICS | 4 quarter hours
(Undergraduate)
Description: May be repeated for credit. PREREQUISITE(S): Permission of Instructor.

GPH 395 | COMPUTER GRAPHICS SENIOR PROJECT | 4 quarter hours
(Undergraduate)
A group project involving analysis, design, creation, implementation and testing of a large project such as an animation, an interactive multimedia presentation or a video game. Portfolio creation and critique. Discussion of strategies for graduate school and the job market. PREREQUISITE(S): GPH 338 or GPH 372.

GPH 399 | INDEPENDENT STUDY | 1-8 quarter hours
(Undergraduate)
Variable credit. PREREQUISITE(S): Consent of dean.

GPH 425 | SURVEY OF COMPUTER GRAPHICS | 4 quarter hours
(Graduate)
Expression of visual intent through geometry and procedure. A survey of basic 3D techniques, including interaction of light and color. Visual effects of rendering, texturing, and lighting algorithms. Procedural modeling techniques and an introduction to procedurally-based texturing and animation. PREREQUISITE(S): CSC 212.

GPH 436 | FUNDAMENTALS OF COMPUTER GRAPHICS | 4 quarter hours
(Graduate)
An accelerated introduction to the graphics development environments and to graphical programming. Provides an in depth discussion of the basic mathematical language of computer graphics: vectors, transformations, homogeneous coordinates and their associated data structures. Advanced topics will include sampling theory and interpolation. Also provides a basic introduction to industry standards in graphics development, including specifying transformations and viewing parameters. PREREQUISITE(S): CSC 393 and MAT 150.
CSC 393 and MAT 150 are prerequisites for this class.

GPH 438 | COMPUTER ANIMATION SURVEY | 4 quarter hours
(Graduate)
Survey of methods used in computer animation. This course uses commercially available software packages to teach techniques for animation and digital video production. The techniques covered include storyboarding, key frame animation, audio and video editing. PREREQUISITE(S): GPH 425 or GPH 469.

GPH 448 | COMPUTER GRAPHICS SCRIPTING | 4 quarter hours
(Graduate)
Covers the use of scripting to generate computer graphics and animation. Emphasis on the benefits and differences of scripting languages compared to conventional graphics programming. Using commercially available scripting environments, students will generate complex graphics and animations that would not be possible with the conventional user interface. PREREQUISITE(S): GPH 438.

GPH 450 | DIGITAL MODELING | 4 quarter hours
(Graduate)
Introduction to 3D object modeling with an emphasis on visual applications and prototype design. Students will work with basic spatial operations in surface modeling and CAD interfaces and will produce an original object from pattern with computer-aided manufacture. PREREQUISITE(S): HCI 470.

GPH 469 | COMPUTER GRAPHICS DEVELOPMENT | 4 quarter hours
(Graduate)
Basic graphics architecture. Coordinate systems. Three-dimensional representations and transformations. Simple visible-surface algorithms. Introduction to illumination. Gouraud and Phong shading. Antialiasing. Texture mapping and elements of animation. Students create a graphics package using a high-level graphics API such as OpenGL. PREREQUISITE(S): CSC 461 and (GAM 425 or GPH 436) CSC 461 and (GAM 425 or GPH 436) are prerequisites for this class.

GPH 487 | FORENSIC ANIMATION | 4 quarter hours
(Graduate)
Techniques and issues in forensic animation. Application of modeling and rendering to the recreation of time-based events for legal purposes. Survey of research and interview techniques. Demonstrative recreation and physically-based recreation. Issues of accuracy, verification, certification and ethics. Students research and recreate an event with forensic value. Possible project areas include motor vehicle incidents, aviation events, product liability, medicine, and trademark infringement.

GPH 536 | SMOOTH SURFACE MODELING FOR GRAPHICS AND ANIMATION | 4 quarter hours
(Graduate)

GPH 469 or GAM 470 is a prerequisite for this class.

GPH 538 | RIGGING FOR ANIMATION | 4 quarter hours
(Graduate)
Readying 3D characters and other models for animation. Skeleton chains, joint orientations, and degrees of freedom. IK solvers, including single chains, rotation and splines. Methods for computing weights for skinning body and face, including semi-automated approaches. Considerations for mechanical objects, animals and low-polygon models. PREREQUISITE(S): GPH 438.

GPH 539 | ADVANCED RENDERING TECHNIQUES | 4 quarter hours
(Graduate)
An in-depth examination of texturing techniques for highly realistic computer generated imagery. Design and implementation of layered textures to produce realistic dirt and aged surfaces. Cost analysis of advanced illumination and reflectance models, including environment and shadow mapping, and ambient occlusion. Procedural texturing including pattern generation and the application of noise to produce organic surfaces. Shader development using an industry standard. Prototyping for both offline and real-time rendering environments. Students work in teams to produce convincingly organic environments. PREREQUISITE(S): GPH 425 or GPH 436 or (ANI 439 and GPH 355)

GPH 540 | PROCEDURAL SHADING | 4 quarter hours
(Graduate)
Procedural pattern generation, creating patterns such as marble and wood with noise, Moving beyond the Phong Illumination model: Gaussian distributions and the Ward anisotropic model, BRDFs. Non-photorealistic rendering techniques such as "toon" shading and painterly techniques. PREREQUISITE(S): GPH 539.
GPH 448 and (GPH 469 or GAM 470) are prerequisites for this class.

PREREQUISITE(S): GPH 448 and (GPH 469 or GAM 470)

Survey of enhancements for selected commercially available graphics packages. Toolkits to create "plug-ins" and other modularly organized functionality. 3D graphics software development. Use of software development techniques to display multi-dimensional data. The use of isosurfaces and volumetric techniques to display features of data sets. Students will use a programmable system to produce their visualizations and will learn how to use procedural techniques to express graphical intent. (Only one of GPH 570 and GPH 565 may be taken for credit) Prerequisite(s): GPH 448 and HCI 470.

GPH 560 | MODELING SPACES | 4 quarter hours (Graduate)
The digital design and modeling of environmental spaces with attention to human use parameters. PREREQUISITE(S): any GPH 400-level course or consent of instructor.

GPH 565 | DESIGNING FOR VISUALIZATION | 4 quarter hours (Graduate)
Sources of graphical integrity and sophistication. Data-Ink maximization. Data density. The use of color to enhance features in data sets and the communication of information. Effective use of space and time. Use of 3D techniques to display multi-dimensional data. The use of isosurfaces and volumetric techniques to display features of data sets. Students will use a programmable system to produce their visualizations and will learn how to use procedural techniques to express graphical intent. (Only one of GPH 570 and GPH 565 may be taken for credit) Prerequisite(s): GPH 448 and HCI 470.

GPH 570 | VISUALIZATION | 4 quarter hours (Graduate)
Formerly CSC 570) Reconstruction techniques. Voxel classification and isosurface generation. Spatial set operations. Projections of higher-dimensional data sets. Data feature enhancement. False color mapping. Survey of applications in science, engineering and medicine. PREREQUISITE(S): GPH 469 or GAM 470.

GPH 469 or GAM 470 is a prerequisite for this class.

GPH 572 | PRINCIPLES OF COMPUTER ANIMATION | 4 quarter hours (Graduate)
Formerly CSC 572) This course will cover a range of topics in introductory 3D Computer Animation. Topics covered will include key framing, interpolation, hierarchies, inverse kinematics, particle systems, and the basics of physically based simulation and modeling. PREREQUISITE(S): GPH 469.

GPH 575 | ADVANCED GRAPHICS DEVELOPMENT | 4 quarter hours (Graduate)
Survey of standards and current modular technology for 2D and 3D graphics software development. Use of software development toolkits to create "plug-ins" and other modularly organized functionality enhancements for selected commercially available graphics packages. PREREQUISITE(S): GPH 448 and (GPH 469 or GAM 470)

GPH 448 and (GPH 469 or GAM 470) are prerequisites for this class.

GPH 541 | ADVANCED LIGHTING TECHNIQUES | 4 quarter hours (Graduate)
Simple local models such as Phong, extensions to Phong (HDRI), ray-traced lighting and shadows, soft shadow generation using shadow maps, radiosity for producing ambient lighting and photon mapping for calculating realistic refracted light. Theory, lighting features supported, efficiency, and practical considerations for choosing the model in production. PREREQUISITE(S): GPH 539.

GPH 550 | MODELING SPACES | 4 quarter hours (Graduate)
The digital design and modeling of environmental spaces with attention to human use parameters. PREREQUISITE(S): any GPH 400-level course or consent of instructor.

GPH 560 | MODELING SPACES | 4 quarter hours (Graduate)
The digital design and modeling of environmental spaces with attention to human use parameters. PREREQUISITE(S): any GPH 400-level course or consent of instructor.

GPH 565 | DESIGNING FOR VISUALIZATION | 4 quarter hours (Graduate)
Sources of graphical integrity and sophistication. Data-Ink maximization. Data density. The use of color to enhance features in data sets and the communication of information. Effective use of space and time. Use of 3D techniques to display multi-dimensional data. The use of isosurfaces and volumetric techniques to display features of data sets. Students will use a programmable system to produce their visualizations and will learn how to use procedural techniques to express graphical intent. (Only one of GPH 570 and GPH 565 may be taken for credit) Prerequisite(s): GPH 448 and HCI 470.

GPH 570 | VISUALIZATION | 4 quarter hours (Graduate)
(Formerly CSC 570) Reconstruction techniques. Voxel classification and isosurface generation. Spatial set operations. Projections of higher-dimensional data sets. Data feature enhancement. False color mapping. Survey of applications in science, engineering and medicine. PREREQUISITE(S): GPH 469 or GAM 470.

GPH 469 or GAM 470 is a prerequisite for this class.

GPH 572 | PRINCIPLES OF COMPUTER ANIMATION | 4 quarter hours (Graduate)
(Formerly CSC 572) This course will cover a range of topics in introductory 3D Computer Animation. Topics covered will include key framing, interpolation, hierarchies, inverse kinematics, particle systems, and the basics of physically based simulation and modeling. PREREQUISITE(S): GPH 469.

GPH 575 | ADVANCED GRAPHICS DEVELOPMENT | 4 quarter hours (Graduate)
Survey of standards and current modular technology for 2D and 3D graphics software development. Use of software development toolkits to create "plug-ins" and other modularly organized functionality enhancements for selected commercially available graphics packages. PREREQUISITE(S): GPH 448 and (GPH 469 or GAM 470)

GPH 448 and (GPH 469 or GAM 470) are prerequisites for this class.

GPH 580 | HARDWARE SHADING TECHNIQUES | 4 quarter hours (Graduate)
This class explores the current trends in programmable computer graphics hardware. Modern graphics processing units (GPUs) are becoming increasingly powerful and fully programmable parallel processing units. They make extremely sophisticated effects in computer graphics, such as shadows, displacement maps, skinning, motion blur, reflections and refractions, possible in real-time scenes. In addition these increasingly general programmable units are being used for far more general computing problems from traditional searching and sorting algorithms to computational problems in physics such as the diffusion equation and fluid flow. In this course we will explore the applications of hardware shading to computer graphics, including advanced lighting, shading and surface effects. As time allows, we will explore other applications such as physics and computer science. Prerequisites: GPH 469 or GAM 470.

GPH 469 or GAM 470 is a prerequisite for this class.

GPH 595 | TOPICS IN GRAPHICS | 4 quarter hours (Graduate)
May be repeated for credit. PREREQUISITE(S): Permission of instructor.

Computer Science (CSC)

CSC 200 | SURVEY OF COMPUTING | 4 quarter hours (Undergraduate)
This introductory course explores various careers in the field of information technology. A hands-on component will deal with state of the art personal computer operating systems, applications, database systems, Internet, email, and basic website construction. The structure of the course utilizes both classroom lectures and computer classroom labs. This course is geared toward the non-major and assumes no prior knowledge or experience in Computer Science.

CSC 208 | ETHICS IN TECHNOLOGY | 4 quarter hours (Undergraduate)
Information Technology and the rapid pace in which it has advanced have had a tremendous impact on our lives. Changes have been swift and the human capacity to deal with them is limited. It has been said that our technology has outpaced our humanity. This course will research the new responsibilities technology presents and our ability to deal with these changes in an ethical manner. Students will employ ethical frameworks, which integrate computer science and ethics, to develop the skills required to examine different sets of assumptions and question them. Case studies will provide a historical perspective for analysis.

CSC 211 | PROGRAMMING IN JAVA I | 4 quarter hours (Undergraduate)
Introduction to programming in Java and problem solving. Variables, data types, input/output, using objects and methods from the standard classes (such as String and Scanner), control structures, writing methods, arrays. Solving problems with algorithms and implementing algorithms in Java. (Not for CS majors)

CSC 212 | PROGRAMMING IN JAVA II | 4 quarter hours (Undergraduate)
Intermediate programming in Java and problem solving. Writing Java programs with multiple classes: constructors, visibility modifiers, static members, accessor and mutator methods, and arrays of objects. Inheritance, polymorphism, and interfaces. Sorting arrays of primitive data and arrays of objects. Exception handling. (Not for CS majors)

CSC 211 is a prerequisite for this class.
problems. Students will learn how to use mathematical data types to model problems in computer science, apply mathematical and computational tools to analyze and solve the problems, and use formal reasoning techniques to verify and analyze the solutions. Topics covered in this course include numbers, strings, functions, sets, graphs, relations, propositional logic, and combinatorics.

**MAT 130 or above or equivalent or Mathematics Diagnostic test placement into MAT 140 is the prerequisite for this class.**

**CSC 221 | FOUNDATIONS OF COMPUTER SCIENCE II | 4 quarter hours (Undergraduate)**

This course is the second in a two-course sequence introducing students to the foundations of computer science. Students will learn how to use mathematical data types to model problems in computer science, apply mathematical and computational tools to analyze and solve the problems, and use formal reasoning techniques to verify and analyze the solutions. Topics covered include algebraic structures, graphs, state machines, linear algebra, formal reasoning principles, first-order logic, combinatorics, and probability.

*CSC 221 and CSC 241 are prerequisites for this class.*

**CSC 222 | FOUNDATIONS OF COMPUTER SCIENCE III | 4 quarter hours (Undergraduate)**

This course will introduce students to an overview of social analysis techniques and the theories of social change. These tools will be used to explore social impact issues of computing technology. Counts for Liberal Studies SCBI credit.

**CSC 223 | THE IMPACT OF COMPUTING TECHNOLOGY ON OUR LIVES | 4 quarter hours (Undergraduate)**

This course explores complex systems both natural and man-made, characterized by the relationships between interacting entities. Network structures can be found in the Internet and its many applications, but also in social relationships, marketplaces, ecosystems, even cells. We will examine a wide range of networks including technological, social, and natural. Students will learn basic concepts from graph theory, algorithms and network analysis, apply tools for extracting, analyzing and visualizing network properties, using data sets drawn from a variety of areas.

*LSP 120 (or MAT 130 or CSC 241 or CSC 243) is a prerequisite for this class.*

**CSC 225 | PROBLEM SOLVING | 4 quarter hours (Undergraduate)**

How do you solve a problem? In this course we discuss different problem solving techniques and strategies such as modeling, establishing subgoals, and searching and pruning. The techniques will be presented as part of a theoretical framework, but there will be significant emphasis on solving problems in familiar domains such as games, newspaper articles, philosophy, and simple geometry and logic. At the end of the course, students will have built a repertoire of problem solving tools that will allow them to make an informed choice of approach towards new problems.

**CSC 241 | INTRODUCTION TO COMPUTER SCIENCE I | 4 quarter hours (Undergraduate)**

An introduction to problem solving, algorithms and structured programming using a higher-level programming language. The course will focus on skills for developing algorithms, and for writing and debugging programs. Students will learn how and when to use loops, conditionals, and functional abstractions in the context of problems motivated by real world applications.

*MAT 130 or above or equivalent or Mathematics Diagnostic test placement into MAT 140 is the prerequisite for this class.*

**CSC 242 | INTRODUCTION TO COMPUTER SCIENCE II | 4 quarter hours (Undergraduate)**

An intermediate course in problem solving, algorithms and programming. Programming skills are further strengthened through more complex and larger programming assignments. The assignments will also be used to introduce different Computer Science areas (e.g. a Client/Server application for the Distributed Systems area). Classes and object oriented programming are motivated and introduced.

*CSC 241 is the prerequisite for this class.*

**CSC 243 | PYTHON FOR PROGRAMMERS | 4 quarter hours (Undergraduate)**

An accelerated course covering the essentials of programming, with a focus on problem-solving, structured programming, and algorithm design. The concepts covered include collection types, conditional and iterative structures, functions, file input/output, exceptions, namespaces, recursion, and Internet client programming.

*MAT 130 or above or equivalent or Mathematics Diagnostic test placement into MAT 140 is the prerequisite for this class.*

**CSC 250 | COMPUTERS AND HUMAN INTELLIGENCE | 4 quarter hours (Undergraduate)**

Students taking this course will study human problem-solving and its simulation by computers. Artificial intelligence, pattern recognition and learning programs will be discussed. PREREQUISITE(S): Familiarity with basic computer productivity tools and the Web.

**CSC 270 | FROM FIREFLIES TO FACEBOOK: THE SCIENCE OF NETWORKS | 4 quarter hours (Undergraduate)**

This course introduces students to the foundations of computer science. Students will learn how and when to use loops, conditionals, and functional abstractions in the context of problems motivated by real world applications.

**CSC 281 | WORKSHOP: JAVA FOR PROGRAMMERS | 2-2.25 quarter hours (Undergraduate)**

This course introduces students to the Java programming language and eclipse development environment.

*CSC 241 or CSC 243 is a prerequisite for this class.*

**CSC 282 | WORKSHOP: LINUX FOR PROGRAMMERS | 2-2.25 quarter hours (Undergraduate)**

This course provides an introduction to Linux, the command-line environment, C programming, and version control.

*CSC 241 or CSC 243 is a prerequisite for this class.*
CSC 298 | INTERNSHIP | 4 quarter hours
(Undergraduate)
This course satisfies the junior year experiential learning requirement. In cooperation with local employers, this course offers students the opportunity to integrate their academic experience with on-the-job training in computer related work areas. Admission to the program requires consent of internship course instructor. Current work experience plus classroom time is required. Supervisor evaluation will contribute to the final grade.

CSC 299 | SOPHOMORE LAB IN APPLIED COMPUTING | 4 quarter hours
(Undergraduate)
In this course, students investigate a particular application of computing. Students learn tools, methodologies, and formalisms used in a particular computing area, and apply them to develop working systems. Courses stress student initiative in investigating the application context, learning new tools (including languages and APIs), studying algorithms and code examples, and working on projects. Topics will vary by the faculty member's interest and perspective.

CSC 242 or CSC 243 is the prerequisite for this class.

CSC 300 | DATA STRUCTURES I | 4 quarter hours
(Undergraduate)
This is the first course in a two-course sequence on data structures using Java. The course introduces basic Java programming, reviews recursion, introduces asymptotic notations, and focuses mainly on linear data structures including arrays, linked lists and their variants, stacks and queues, and data structures supporting disjoint-set operations. The implementation of the basic operations on each data structure are discussed and analyzed in terms of their efficiency. The applications covered highlight and exploit the unique characteristics of the data structures, and emphasize problem solving and recursive thinking.

CSC 242 or CSC 243 is the prerequisite for this class.

CSC 301 | DATA STRUCTURES II | 4 quarter hours
(Undergraduate)
This is the second course in a two-course sequence on data structures using Java. The course focuses mainly on the following data structures, their analysis, and their applications: trees (search trees, balanced search trees), heaps, associative arrays, hash tables, and data structures for representing graphs. The implementation of the basic operations on each data structure are discussed and analyzed in terms of their efficiency. The applications discussed highlight and exploit the unique characteristics of the different data structures, and emphasize problem solving and recursive thinking.

CSC 300 and MAT 140 are prerequisites for this class.

CSC 308 | FRAMEWORKS FOR WEB APPLICATION DEVELOPMENT | 4 quarter hours
(Undergraduate)
This course introduces concepts, techniques, technologies and APIs for web application development. The main focus of the course is on the Model-View-Controller design pattern employed by modern full-stack web frameworks. Concepts and techniques covered include client/server programming, database abstraction APIs, and asynchronous JavaScript. Examples of full-stack MVC frameworks include Ruby-on-Rails (written in Ruby), Django and TurboGears (written in Python).

CSC 374 is a prerequisite for this class.

CSC 309 | C++ FOR PROGRAMMERS | 4 quarter hours
(Undergraduate)
This course covers the essentials of C and C++ programming, focusing primarily on the topics of memory management and object-oriented programming. Topics include pointers and dynamic allocation, operator overloading, copy constructors and destructors, inheritance and polymorphism.

(CSC 242 or CSC 243) or proficiency in another programming language is a prerequisite for this class.

CSC 321 | DESIGN AND ANALYSIS OF ALGORITHMS | 4 quarter hours
(Undergraduate)
Techniques for designing algorithms including: analyzing algorithms (big-O, recurrence relations) and divide-and-conquer (quicksort, mergesort). Additional topics chosen from: the greedy method, dynamic programming, backtracking, branch-and-bound and string matching.

(CSC 301 or CSC 393) and MAT140 are prerequisites for this class.

CSC 325 | TIME SERIES ANALYSIS AND FORECASTING | 4 quarter hours
(Undergraduate)
The course introduces students to statistical models for time series analysis and forecasting. The course topics include: autorecorrelated data analysis, Box-Jenkins models (autoregressive, moving average, and autoregressive moving average models), analysis of seasonality, volatility models (GARCH-type, GARCH-M type, etc.), forecasting evaluation and diagnostics checking. The course will emphasize applications to financial data, volatility modeling and risk management. Real examples will be used throughout the course. PREREQUISITE(S): (CSC 212 or CSC 224 or CSC 262 or CSC 309) and (CSC324 or MAT356) or consent of instructor.

CSC 327 | PROBLEM SOLVING FOR CONTESTS | 2-2.25 quarter hours
(Undergraduate)
This course prepares students to compete in programming contests. More broadly, it covers problem solving techniques in an informal, fun, and hands-on setting. This course will improve your analytical and programming skills and is thus recommended for all students and not just the competitors among us. This course can be taken for credit twice.

CSC 301 is a prerequisite for this class.

CSC 328 | SCIENTIFIC COMPUTING | 4 quarter hours
(Undergraduate)
This course presents fundamental numerical algorithms for solving problems in scientific computing and computational finance. Areas covered include: error analysis, computer arithmetic, linear algebra, optimization problems, numerical integration (solvers), ordinary differential equations (ODE). The emphasis of the course is on the design of the algorithms, and their analysis. Algorithms will be implemented using mathematical software.

((CSC 242 or CSC 243) and MAT 152) or by permission of instructor

CSC 333 | CRYPTOLOGY | 4 quarter hours
(Undergraduate)
Introduction to the methods of cryptography and cryptanalysis. Topics include classical cryptography (codes, substitution ciphers, transposition ciphers), block and stream ciphers (Feistel networks, DES), and public key cryptography (RSA, Key agreement, signature schemes). Optional topics include zero-knowledge protocols, quantum cryptography, and history.

(CSC 242 or CSC 243 or IT 212) and MAT 140 are prerequisites for this class.
CSC 343 | INTRODUCTION TO OPERATING SYSTEMS | 4 quarter hours
(Undergraduate)
An advanced course on operating system design and implementation. Process management and scheduling, memory management, file systems, device drivers, access control, and virtualization will be covered. The emphasis of the course will be on implementing components of a functional operating system.
CSC 301 and CSC 373 and CSC 374 are prerequisites for this class.

CSC 344 | AUTOMATA THEORY AND FORMAL GRAMMARS | 4 quarter hours
(Undergraduate)
An introduction to the most important abstract models of computation and their applications: finite state machines and pushdown automata. Explores the relationship between regular expressions and formal grammars and automata. PREREQUISITE(S): CSC 301 and MAT 141. CSC 301 and MAT 141 are prerequisites for this class.

CSC 347 | CONCEPTS OF PROGRAMMING LANGUAGES | 4 quarter hours
(Undergraduate)
Syntax of programming languages: regular expressions, finite automata, context-free grammars, parsing. Scoping, binding, parameter passing, exception handling. Declarative programming languages. Typing, polymorphism. Runtime systems: dynamic loading, byte-code verification, security managers, garbage collection, versioning. (CSC 301 or CSC 393) and CSC 373 are prerequisites for this class.

CSC 348 | INTRODUCTION TO COMPILER DESIGN | 4 quarter hours
(Undergraduate)
An overview of the design of a compiler for a general purpose programming language; tools for designing the components of the compiler; implementing the compiler; run time environments. CSC 301 and CSC 373 and CSC 347 are prerequisites for this class.

CSC 352 | DATABASE PROGRAMMING | 4 quarter hours
(Undergraduate)
Programming in a large-scale relational database environment using procedural languages. Topics covered in the course include: procedural extension of query languages, runtime error handling, subprograms (procedures and functions), packages, database triggers, dynamic query language. Optional topics include transaction management, reliability, and security. (IT 240 or CSC 355) and (CSC 212 or CSC 242 or CSC 243 or CSC 300 or CSC 309) are prerequisites for this class.

CSC 353 | ADVANCED DATABASE CONCEPTS | 4 quarter hours
(Undergraduate)
An introduction to advanced selected topics in databases. Possible topics include: object-oriented databases, distributed databases, intelligent and deductive databases, temporal databases, multimedia databases, spatial and geographic databases, fuzzy databases, mobile databases, data mining and data warehousing, as well as emerging issues and concepts in database design, implementation and management. IT 240 is a prerequisite for this class.

CSC 355 | DATABASE SYSTEMS | 4 quarter hours
(Undergraduate)
An introduction to modern database systems; the course covers the traditional concepts and techniques of database systems including the relational model, SQL, indexes and normalization as well as a selection of advanced topics such as constraints and triggers, transactions, database programming, semi-structured data, and recursive SQL. CSC 301 or CSC 393 is a prerequisite for this class.

CSC 357 | EXPERT SYSTEMS | 4 quarter hours
(Undergraduate)
A study of the development of expert systems. Students will use commercial packages to develop standalone and embedded expert systems. Topics will include rule-based systems, decision trees, forward and backward chaining, inference, reasoning with uncertainty, and intelligent agents. CSC 301 or CSC 393 is a prerequisite for this class.

CSC 358 | SYMBOLIC PROGRAMMING | 4 quarter hours
(Undergraduate)
Concepts of symbolic programming as embodied in the language LISP. Basic data and control structures of LISP: symbolic expressions, the interpreter, functions, recursion, iteration. Techniques for prototyping and building conceptually advanced systems in an environment that encourages procedural and data abstraction. Advanced topics may include Prolog, intelligent tutoring systems, intelligent agents, and natural language processing. Assignments will focus on basic AI techniques, but the class is intended for anyone who will need to rapidly develop large complex systems. CSC 301 or CSC 393 is a prerequisite for this class.

CSC 360 | WEB APPLICATIONS | 4 quarter hours
(Undergraduate)
This course covers the design and development of single-page web applications and their interaction with web services. Possible topics include: HTML; JavaScript/TypeScript; RxJS; Frameworks such as Angular and/or React; Node.js; programming and security models for browsers; client-side web applications with local storage; HTTP proxies, and caching. CSC 347 and CSC 376 are prerequisites for this course.

CSC 361 | OPTIMIZED C++ | 4 quarter hours
(Undergraduate)
Implementation techniques to improve the performance and resource usage of C++ programs. This class will provide low level understanding of C++'s internal behavior that can be exploited to create faster performing software. Identify existing SISD (single instruction single data) implementation and refactor into SIMD (single instruction multiple data) to improve math centric software segments. Understand a system's dynamic memory usage to design and implement a custom high performance memory system. Topics include: performance enhancements through extended SIMD instruction set, dynamic memory usage, caching, implicit behavior, C++ language extensions, algorithms, streaming and profiling. (CSC 301 or CSC 393) and CSC 373 are prerequisites for this class.

CSC 362 | OPTIMIZED C++ MULTITHREADING | 4 quarter hours
(Undergraduate)
Applied C++ concurrency and multithreading fundamentals. Basic threading concepts: process model, threads, stacks, fibers, mutexes, semaphores, atomic, and events. Understanding synchronous/asynchronous interactions and behavior of threads. Using managed thread pools and queues in applications. Understanding advanced C++ language features relating to the memory model and the threading support. (CSC 361 or SE 350 or GAM 372) is a prerequisite for this class.
CSC 371 | MOBILE APPLICATION DEVELOPMENT FOR IOS | 4 quarter hours  
(Undergraduate)  
This course introduces the core issues associated with application development for mobile devices using the iOS platform. Students will learn the Swift language, the XCode IDE, UIKit and other frameworks, the elements and architecture of the user interfaces, and more. Students will be exposed to the iOS system architecture including memory management, MVC, delegates and threads. Topics will also include understanding and handling of multi-touch events, gestures, and motion events. PREREQUISITE(S): (CSC 301 or CSC 383 or CSC 393) and CSC 374.  
(CSC 301 or CSC 383 or CSC 393) and CSC 374 are prerequisites for this class.

CSC 372 | MOBILE APPLICATION DEVELOPMENT FOR ANDROID | 4 quarter hours  
(Undergraduate)  
This course introduces the core issues associated with application development for mobile devices using the Android platform. Students will learn the Eclipse IDE, frameworks, the elements and architecture of user interfaces, graphics, and more. Students will be exposed to the Android system architecture, including Views, Widgets, Resources, Adapters, Intents and Activities. Topics will also include understanding and handling of threads, multi-touch events, gestures, and motion events. PREREQUISITE(S): (CSC 301 or CSC 383 or CSC 393) and CSC 374.  
(CSC 301 or CSC 383 or CSC 393) and CSC 374 are prerequisites for this class.

CSC 373 | COMPUTER SYSTEMS I | 4 quarter hours  
(Undergraduate)  
A course on computer systems topics, focusing on machine-level programming and architecture and their relevance for application programming. Information representations, assembly language, C programming, and debuggers, processor architecture. PREREQUISITE: (CSC 393 or CSC 300) and MAT 140.  
(CSC 393 or CSC 300) and MAT 140 are prerequisites for this class.

CSC 374 | COMPUTER SYSTEMS II | 4 quarter hours  
(Undergraduate)  
A course on computer systems topics, focusing on operating systems components and their relevance for application programming. Caching, memory hierarchy, performance optimization, linking, processes, virtual memory, dynamic memory allocation, system level I/O. PREREQUISITE: CSC 373.  
CSC 373 is the prerequisite for this class.

CSC 375 | INTRODUCTION TO ROBOTICS | 4 quarter hours  
(Undergraduate)  
An introduction to the field of Robotics. Topics include history of robotics, kinematics, control theory, and sensor theory. A large portion of class time will be lab based, building and programming robots using the Lego Mindstorms NXT Robotics Kit. The programming will be using a C derivative and knowledge of C and general systems concepts is required. PREREQUISITE(S): CSC 373 and CSC 374.  
CSC 373 and CSC 374 are prerequisites for this class.

CSC 376 | DISTRIBUTED SYSTEMS | 4 quarter hours  
(Undergraduate)  
An introduction to distributed systems. Topics may include: architecture of distributed systems; networking; datagram-oriented and stream-oriented protocols; network programming (for example, the sockets API); remote procedure call and remote method invocation; processes and threads; code migration; software agents; naming of non-mobile and mobile entities; cryptography and security. PREREQUISITE(S): (CSC 301 or CSC 383 or CSC 393) and CSC 374.  
(CSC 301 or CSC 383 or CSC 393) and CSC 374 are prerequisites for this class.

CSC 379 | TECHNOLOGY PARTNERSHIPS IN URBAN SCHOOLS | 4 quarter hours  
(Undergraduate)  
Students in this course will have the opportunity to assess urban community needs in the technology arena and develop skills in assisting and developing methods for "bridging the digital divide" that exists. As a result, the student will be able to make a substantial difference in an underprivileged academic community group. This course is a CDM-sponsored community-based service learning course. Any student enrolled in this course can also satisfy the junior year experiential learning requirement.

CSC 380 | FOUNDATIONS OF ARTIFICIAL INTELLIGENCE | 4 quarter hours  
(Undergraduate)  
An in-depth survey of important concepts, problems, and techniques in artificial intelligence, including search, knowledge representation, logical reasoning, and reasoning with uncertainty. A particular focus and a unifying theme of the course will be the concept of intelligent agents. No prior knowledge of AI is required. The course is particularly suitable for graduate and advanced undergraduate students who want to gain the technical background necessary to build intelligent systems, or who want to prepare for more advanced work in AI. The concepts and techniques learned in this course will be directly applicable to many other areas of computer science including software design, distributed systems, databases, and information management and retrieval. PREREQUISITE(S): CSC 301 or CSC 393.  
CSC 301 or CSC 393 is a prerequisite for this class.

CSC 381 | INTRODUCTION TO DIGITAL IMAGE PROCESSING | 4 quarter hours  
(Undergraduate)  
Components of an image processing system and its applications, elements of visual perception, sampling and quantization, image enhancement by histogram equalization, color spaces and transformations, introduction to segmentation (edge detection algorithms), and morphological image processing. PREREQUISITE(S): MAT 150 or MAT 262.  
MAT 150 or MAT 262 are prerequisites for this class.
CSC 382 | APPLIED IMAGE ANALYSIS | 4 quarter hours (Undergraduate)
Image analysis from classical computational imaging techniques to deep learning techniques. Fundamentals of computational image analysis in terms of image information extraction and modeling of image patterns. Specific topics include, but are not limited to: image segmentation, multi-scale representation, shape analysis, texture analysis, Fourier analysis, wavelets, Gabor and fractal analysis, and template matching. Deep learning models to extract image representations automatically. Classical and deep learning imaging techniques applied and compared in the context of different image analysis tasks such as image representation, segmentation, classification, retrieval, and object recognition. Applications of these techniques for autonomous driving, biometrics, sports analytics, smart and connected communities, and biomedical and health informatics. PREREQUISITE(S) CSC 381.
CSC 382 is a prerequisite for this class.

CSC 386 | REAL-TIME NETWORKING (FORMERLY GAM 390) | 4 quarter hours (Undergraduate)
Applied real-time networking fundamentals. Topics include low-level TCP/UDP socket programming, serialization of data for network transportation, deterministic data flow and queuing in applications, dynamic configuration and session communications. Students will explore issues related to performance-based networking in different topologies: client/server and peer to peer. Students will create and build real-time applications using different protocols (TCP, UDP, RUDP) with active network simulation of loss, delay, corrupted and out of order data packets. PREREQUISITE(S): GAM 372 or (SE 350 and CSC 361) GAM 372 or (SE 350 and CSC 361) are prerequisites for this class.

CSC 388 | REAL-TIME MULTITHREADED ARCHITECTURE | 4 quarter hours (Undergraduate)
Real-time constrained multithreaded architecture. Topics include multithreaded handle development, inter-thread communication, creating systems for user-defined callbacks, asynchronous loading and streaming of resources, non-blocking threading synchronization, design patterns and data driven messaging with time delivery constraints. Exploration of multithreaded interfaces to maintain uniqueness and control for contention resources. Wrapping and integrating a multithreaded solution into an application will be analyzed. Students will design, develop and implement a multithreaded real-time application (i.e. Audio engine) that integrates existing single and multithreaded middleware libraries. PREREQUISITE(S): GAM 372 or (CSC 361 and SE 350) GAM 372 or (SE 350 and CSC 361) are prerequisites for this class.

CSC 389 | THEORY OF COMPUTATION | 4 quarter hours (Undergraduate)
Advanced topics in the mathematical foundations of computation. Topics may include random access and Turing machines, recursive functions, algorithms, computability and computational complexity, intractable problems, NP-complete problems. PREREQUISITE(S): CS321 or CS344.
CSC 321 or CSC 344 is a prerequisite for this class.

CSC 391 | MOBILE APPLICATION DEVELOPMENT FOR IOS II | 4 quarter hours (Undergraduate)
This course will cover advanced topics in mobile application development for iOS. The topics covered will be made explicitly by the course instructor when the course is offered. PREREQUISITE(S): CSC 371. CSC 371 is a prerequisite for this class.

CSC 392 | MOBILE APPLICATION DEVELOPMENT FOR ANDROID II | 4 quarter hours (Undergraduate)
This course will cover advanced topics in mobile application development for Android. The topics covered will be made explicit by the course instructor when the course is offered. PREREQUISITE(S): CSC 372. CSC 372 is a prerequisite for this class.

CSC 393 | DATA STRUCTURES IN C++ | 4 quarter hours (Undergraduate)
This course covers the design, implementation, application and analysis of algorithms on a variety of data structures, including lists, stacks, queues, trees, heaps, hash tables and graphs. Implementation is done in C++, in particular with the use of templates and the C++ standard template library (STL). PREREQUISITE(S): CSC 309. CSC 309 is a prerequisite for this class.

CSC 394 | SOFTWARE PROJECTS | 4 quarter hours (Undergraduate)
Students will be provided with experience in team design, implementation and testing of a large software project. PREREQUISITE(S): CSC 301 or CSC 393 or ISM 360.
CSC 301 or CSC 393 or ISM 360 is a prerequisite for this class.

CSC 395 | RESEARCH COLLOQUIUM | 2 quarter hours (Undergraduate)
The research colloquium series features informal talks by a variety of speakers including DePaul faculty, students, and guests from the academic and business communities. The lectures feature new creative and scholarly works that encompass the disciplines and areas of interest of the School of Computing. The talks are free and open to all who are interested, though only students who register can obtain academic credit. Every quarter, a different set of speakers will be invited. PREREQUISITE(S): WRD 204 and (CSC 321 or CSC 376 or CSC 355) (2 quarter hours) WRD 204 and (CSC 321 or CSC 376 or CSC 355) are prerequisites for this class.

CSC 397 | TOPICS IN COMPUTER SCIENCE | 2-4 quarter hours (Undergraduate)
Specific topics will be selected by the instructor and may vary with each quarter. Can be repeated for credit. Variable credit. PREREQUISITE(S): Consult the instructor (2 quarter hours)

CSC 398 | INTERNSHIP | 1-8 quarter hours (Undergraduate)
This course does not carry Experiential Learning credit. In cooperation with local employers the computer science program offers students the opportunity to integrate their academic experience with on-the-job training in computer related work areas. Academic credit is variable and admission to the program requires consent of internship advisor. Supervisor evaluation will contribute to the final grade. This course is repeatable for 8.00 credit hours.

CSC 399 | INDEPENDENT STUDY | 1-8 quarter hours (Undergraduate)
Independent study supervised by an instructor. Independent study form required. Can be repeated for credit. Variable Credit. PREREQUISITE(S): None. (variable credit)
CSC 400 | DISCRETE STRUCTURES FOR COMPUTER SCIENCE | 4 quarter hours
(Graduate)
This course covers the basic mathematical tools essential for solving problems in computer science. The mathematical topics are presented with emphasis on their applications in computer science. The topics covered include: logic and set theory, relations, functions, graphs, and counting and probability.

CSC 401 | INTRODUCTION TO PROGRAMMING | 4 quarter hours
(Graduate)
An introduction to programming with a focus on problem solving, structured programming, and algorithm design. Concepts covered include data types, expressions, variables, assignments, conditional and iterative structures, functions, file input/output, exceptions, arrays and an introduction to user-defined classes.

CSC 402 | DATA STRUCTURES I | 4 quarter hours
(Graduate)
A first course on data structures in Java for graduate students. The course introduces Java programming from within the context of data structures. The course covers arrays, linked lists, stacks and queues, data structures supporting disjoint-set operations, and discusses recursion and performance analysis. The implementation of the basic operations on each data structure are discussed and analyzed in terms of their efficiency. PREREQUISITE(S): CSC 401.

CSC 403 and CSC 407 are prerequisites for this class.

CSC 403 | DATA STRUCTURES II | 4 quarter hours
(Graduate)
This is the second course on data structures in Java for graduate students. The course covers arrays, heaps, associative arrays, hash tables, tries, and data structures for representing graphs. The implementation of the basic operations on each data structure are discussed and analyzed in terms of their efficiency. PREREQUISITE(S): CSC 402.

CSC 402 is a prerequisite for this class.

CSC 404 | ACCELERATED C++ | 4 quarter hours
(Graduate)
This introductory graduate course covers the essentials of C++ programming. Topics include encapsulation, inheritance, polymorphism, dynamic memory allocation, casting, pointer arithmetic, operator overloading, templates, and the Standard Template Libraries.

CSC 401 is a prerequisite for this class.

CSC 406 | SYSTEMS I | 4 quarter hours
(Graduate)
An introductory graduate course on computer systems topics, focusing on machine-level programming and architecture and their relevance for application programming. Information representations, assembly language and debuggers, processor architecture, program optimization, memory hierarchy and caching. Students are recommended to finish CSC 400 before enrolling in this course. PREREQUISITE(S): CSC 401.

CSC 401 is a prerequisite for this class.

CSC 407 | SYSTEMS II | 4 quarter hours
(Graduate)
An introductory graduate course on computer systems topics, focusing on operating systems components and their relevance for application programming. Linking, processes, virtual memory, dynamic memory allocation, system level I/O, networking and network programming, concurrent servers and web services. PREREQUISITE(S): CSC 406 and CSC 402.

CSC 406 and CSC 402 are prerequisites for this class.

CSC 412 | TOOLS AND TECHNIQUES FOR COMPUTATIONAL ANALYSIS | 4 quarter hours
(Graduate)
Use of mathematical software to explore basic concepts in linear algebra and calculus. Scripting for symbolic and computational processing. Emphasis is on applications in computer science, finance, data mining, and computer vision. PREREQUISITE(S): None.

CSC 421 | APPLIED ALGORITHMS AND STRUCTURES | 4 quarter hours
(Graduate)
This course covers techniques for designing and analyzing algorithms and structures in the context of computer application development. Examples will come from Internet, WWW, database, and computer system applications. Fundamental topics such as running-time analysis, searching and sorting within various structures, divide-and-conquer and dynamic programming will be covered. PREREQUISITE(S): CSC 400 and CSC 403.

CSC 400 and CSC 403 are prerequisites for this class.

CSC 422 | RESEARCH METHODS AND PRACTICE IN COMPUTING | 4 quarter hours
(Graduate)
The course is intended to help students understand the process of issues related to doing scientific research in computing or related areas. Topics covered include: error analysis, computer arithmetic, linear algebra, optimization problems, numerical integration (solvers), ordinary differential equations (ODE). The emphasis of the course is on the design of the algorithms, and their analysis. Algorithms will be implemented using mathematical software. PREREQUISITE(S): (CSC 401 and two quarters of calculus) or instructor permission.

PhD status or consent of instructor is a prerequisite for this class

CSC 431 | SCIENTIFIC COMPUTING | 4 quarter hours
(Graduate)
This course presents fundamental numerical algorithms for solving problems in scientific computing and computational finance. Areas covered include: error analysis, computer arithmetic, linear algebra, optimization problems, numerical integration (solvers), ordinary differential equations (ODE). The emphasis of the course is on the design of the algorithms, and their analysis. Algorithms will be implemented using mathematical software. PREREQUISITE(S): (CSC 401 and two quarters of calculus) or instructor permission.

CSC 401 and two quarters of calculus (or instructor permission) are prerequisites for this course.

CSC 435 | DISTRIBUTED SYSTEMS I | 4 quarter hours
(Graduate)
An introduction to distributed systems. Topics may include: architecture of distributed systems; networking; datagram-oriented and stream-oriented protocols; network programming (for example, the sockets API); remote procedure call and remote method invocation; processes and threads; code migration; software agents; naming of non-mobile and mobile entities; cryptography and security. PREREQUISITE(S): CSC 403 and CSC 407.

CSC 403 and CSC 407 are prerequisites for this class.
CSC 436 | WEB APPLICATIONS | 4 quarter hours
(Graduate)
This course covers the design and development of modern web applications and their interaction with web services. The primary focus is on client-side web applications using AJAX-techniques to access web services. Possible topics include: HTML5; JavaScript/TypeScript; MVC and single-page application programming models, e.g., AngularJS; programming and security models for browsers; client-side web applications with local storage; data synchronization; HTTP proxies, and caching. Node.js; RESTful web services. PREREQUISITE(S): CSC 435 and CSC 447.
CSC 435 and CSC 447 are prerequisites for this class.

CSC 438 | FRAMEWORK FOR WEB APPLICATION DEVELOPMENT | 4 quarter hours
(Graduate)
This course introduces concepts, techniques, technologies and APIs for web application development. The main focus of the course is on the Model-View-Controller design pattern employed by modern full-stack web frameworks. Concepts and techniques covered include client/server programming, database abstraction APIs, and asynchronous javascript. Examples of full-stack MVC frameworks include Ruby-on-Rails (written in Ruby), Django and TurboGears (written in Python). PREREQUISITE: CSC 407.
CSC 407 is a prerequisite for this class.

CSC 439 | COMPUTER SECURITY | 4 quarter hours
(Graduate)
This course covers core principles of computer security. Topics include: user authentication; access control (discretionary, mandatory, role-based); security auditing; database security; software security; common vulnerabilities, and secure coding practices; malicious software; and operating system security. Prerequisite(s): CSC 407.
CSC 407 is a prerequisite for this class.

CSC 440 | CRYPTOLOGY | 4 quarter hours
(Graduate)
Introduction to the methods of cryptography and cryptanalysis. Topics include classical cryptography (codes, monalphabetic and polyalphabetic substitution ciphers, transposition ciphers), modern block ciphers (such as DES, AES), and public key cryptography (such as RSA). Optional topics include zero-knowledge protocols, information theory, coding theory, error-correcting codes, steganography, stream ciphers, hashing algorithms, quantum cryptography, elliptic curve cryptography, and history. PREREQUISITE(S): CSC 403.
CSC 403 is a prerequisite for this class.

CSC 443 | INTRODUCTION TO OPERATING SYSTEMS | 4 quarter hours
(Graduate)
An advanced course on operating system design and implementation. Process management and scheduling, memory management, file systems, device drivers, access control, and virtualization will be covered. The emphasis of the course will be on implementing components of a functional operating system. PREREQUISITE: CSC 403 and CSC 407.
CSC 403 and CSC 407 are prerequisites for this class.

CSC 444 | AUTOMATA THEORY AND FORMAL GRAMMARS | 4 quarter hours
(Graduate)
An introduction to the most important abstract models of computation and their applications: finite state machines and pushdown automata. Explores the relationship between regular expressions and formal expressions and automata. PREREQUISITE(S): CSC 400 and CSC 403.
CSC 400 and CSC 403 are prerequisites for this class.

CSC 447 | CONCEPTS OF PROGRAMMING LANGUAGES | 4 quarter hours
(Graduate)
Programming paradigms and language concepts: functional programming; comparison of object-oriented languages; type systems for functional and object-oriented languages; runtime systems for functional and object-oriented languages. A variety of programming languages will be used to illustrate concepts, e.g., JavaScript, Ruby, Scala, Scheme. PREREQUISITE(S): CSC 403 and CSC 406.
CSC 403 and CSC 406 are prerequisites for this class.

CSC 448 | COMPILER DESIGN | 4 quarter hours
(Graduate)
Design and structure of high level languages. Lexical scan, top down and bottom up syntactic analysis. Syntax directed translation and LR(k) grammars. PREREQUISITE(S): CSC 447.
CSC 447 is a prerequisite for this class.

CSC 452 | DATABASE PROGRAMMING | 4 quarter hours
(Graduate)
Programming in a large-scale relational database environment using procedural languages. Topics covered in the course include: procedural extension of query languages, runtime error handling, subprograms (procedures and functions), packages, database triggers, dynamic query language. Optional topics include transaction management, reliability, and security. PREREQUISITE(S): (CSC 453 or CSC 451 or CSC 455) and (CSC 401 or IT 411) (CSC 453 or CSC 451 or CSC 455 or DSC 450) and (CSC 401 or IT 411) are prerequisites for this class.

CSC 453 | DATABASE TECHNOLOGIES | 4 quarter hours
(Graduate)
A core graduate course in database design and implementation. Topics include database implementation and queries in SQL, logical design or relational databases, storage and indexes, database programming, and emerging database models. PREREQUISITE(S): CSC 403.
CSC 403 is a prerequisite for this class.

CSC 454 | DATABASE ADMINISTRATION AND MANAGEMENT | 4 quarter hours
(Graduate)
This course is designed to give students a comprehensive foundation in database administration and management. The course provides a conceptual understanding of the database architecture and how its components work and interact with one another. Topics covered in this course include: database architecture, capacity planning, installation and maintenance, network configuration, security management, utilities and tools, industry standards and guidelines, database management techniques and practices. PREREQUISITE(S): CSC 451 or CSC 453 or CSC 455.
CSC 451 or CSC 453 or CSC 455 or DSC 450 and CSC 401 or IT 411 are prerequisites for this class.

CSC 457 | EXPERT SYSTEMS | 4 quarter hours
(Graduate)
A study of the development of expert systems. Students will use commercial packages to develop standalone and embedded expert systems. Topics will include rule-based systems, decision trees, forward and backward chaining, inference, reasoning with uncertainty, and intelligent agents. PREREQUISITE(S): CSC 403.
CSC 403 is a prerequisite for this class.
CSC 458 | SYMBOLIC PROGRAMMING | 4 quarter hours
(Graduate)
Concepts of symbolic programming as embodied in the language LISP. Basic data and control structures of LISP: symbolic expressions, the interpreter, functions, recursion, iteration. Techniques for prototyping and building conceptually advanced systems in an environment that encourages procedural and data abstraction. Advanced topics may include Prolog, intelligent tutoring systems, intelligent agents, and natural language processing. Assignments will focus on basic AI techniques, but the class is intended for anyone who will need to rapidly develop large complex systems. PREREQUISITE(S): CSC 403.
CSC 403 is a prerequisite for this class.
CSC 461 | OPTIMIZED C++ | 4 quarter hours
(Graduate)
Analysis and implementation techniques to improve the performance and resource usage of C++ programs. This class will provide low level understanding of C++’s internal behavior that can be exploited to create faster performing software. Analysis of existing software to help identify and remedy execution performance issues related to data layout, processor caching, unintended compiler interactions, algorithmic considerations, data containers and supplied subsystems. Topics include: performance enhancements through SIMD instruction set, dynamic memory usage, caching, implicit behavior, C++ language extensions, algorithms, streaming and profiling. PREREQUISITE(S): CSC 400 and CSC 403 and CSC 406. CSC 400 and CSC 403 and CSC 406 are prerequisites for this class.
CSC 462 | OPTIMIZED C++ MULTITHREADING | 4 quarter hours
(Graduate)
Software architecture of applied C++ concurrency and multithreading fundamentals. Basic threading concepts: process model, threads, stacks, fibers, mutexes, semaphores, atomics and events. Leveraging advanced C++ language features relating to the memory model and the threading support in large multithreaded architectures. Architecting lock-based and lock-free concurrent data structures in applications. Designing a threaded management system to control the access and reuse of threads in applications. Designing multithreaded architecture for real-time performance.
CSC 461 and (SE 456 or SE 450) are prerequisites for this class.
CSC 468 | PROGRAMMING INTERACTIVE DATA VISUALIZATION FOR THE WEB | 4 quarter hours
(Graduate)
This course covers the fundamentals of data visualization and how to build interactive visualizations from scratch. Topics include implementing common visualizations with JavaScript and D3 (e.g. scatter plots), techniques for more complex types of data (e.g. hierarchical, geospatial, network), and adapting existing implementations of advanced visualizations to new applications. The final project involves building a custom interactive visualization with a python back-end and a D3 front-end.
SE 450 OR SE 456 OR CSC 438 OR CSC 447 is a prerequisite for this class.
CSC 471 | MOBILE APPLICATION DEVELOPMENT FOR IOS | 4 quarter hours
(Graduate)
This course introduces the core issues associated with application development for mobile devices using the iOS platform. Students will learn the Swift language, the XCode IDE, UIKit and other frameworks, the elements and architecture of the user interfaces, and more. Students will be exposed to the iOS system architecture including memory management, MVC, delegates and threads. Topics will also include understanding and handling of multi-touch events, gestures, and motion events. PREREQUISITE(S): CSC 403 and CSC 407.
CSC 403 and CSC 407 are prerequisites for this class.
CSC 472 | MOBILE APPLICATION DEVELOPMENT FOR ANDROID | 4 quarter hours
(Graduate)
This course introduces the core issues associated with application development for mobile devices using the Android platform. Students will learn the Eclipse IDE, frameworks, the elements and architecture of user interfaces, graphics, and more. Students will be exposed to the Android system architecture, including Views, Widgets, Resources, Adapters, Intents and Activities. Topics will also include understanding and handling of threads, multi-touch events, gestures, and motion events. PREREQUISITE(S): CSC 403 and CSC 407.
CSC 403 and CSC 407 are prerequisites for this class.
CSC 475 | INTRODUCTION TO ROBOTICS | 4 quarter hours
(Graduate)
An introduction to the field of Robotics. Topics include history of robotics, kinematics, control theory, and sensor theory. A large portion of class time will be lab based, building and programming robots using the Lego Mindstorms NXT Robotics Kit. The programming will be using a C derivative and knowledge of C and general systems concepts is required. PREREQUISITES: CSC 407.
CSC 407 is a prerequisite for this class.
CSC 480 | ARTIFICIAL INTELLIGENCE I | 4 quarter hours
(Graduate)
An in-depth survey of important concepts, problems, and techniques in artificial intelligence, including search, knowledge representation, logical reasoning, and reasoning with uncertainty. A particular focus and a unifying theme of the course will be the concept of intelligent agents. No prior knowledge of AI is required. The course is particularly suitable for graduate and advanced undergraduate students who want to gain the technical background necessary to build intelligent systems, or who want to prepare for more advanced work in AI. The concepts and techniques learned in this course will be directly applicable to many other areas of computer science including software design, distributed systems, databases, and information management and retrieval. PREREQUISITE(S): CSC 403.
CSC 403 is a prerequisite for this class.
CSC 481 | INTRODUCTION TO IMAGE PROCESSING | 4 quarter hours
(Graduate)
The course is a prerequisite for more advanced Visual Computing (VC) courses and the students will be challenged to implement VC algorithms for real world applications. The topics covered in the course include: components of an image processing system and its applications, elements of visual perception, sampling and quantization, image enhancement by histogram equalization, color spaces and transformations, introduction to segmentation (Edge detection), and morphological image processing. PREREQUISITE(S): CSC 412 or consent of instructor.
CSC 412 or consent of instructor is a prerequisite for this class.
CSC 482 | APPLIED IMAGE ANALYSIS | 4 quarter hours  
(Graduate)  
Image analysis from classical computational imaging techniques to deep learning techniques. Fundamentals of computational image analysis in terms of image information extraction and modeling of image patterns. Specific topics include, but are not limited to: image segmentation, multi-scale representation, shape analysis, texture analysis, Fourier analysis, wavelets, Gabor and fractal analysis, and template matching. Deep learning models to extract image representations automatically. Classical and deep learning imaging techniques applied and compared in the context of different image analysis tasks such as image representation, segmentation, classification, retrieval, and object recognition. Applications of these techniques for autonomous driving, biometrics, sports analytics, smart and connected communities, and biomedical and health informatics. PREREQUISITE(S) CSC 481.

CSC 483 is a prerequisite for this class.

CSC 485 | NUMERICAL ANALYSIS | 4 quarter hours  
(Graduate)  

CSC 486 | REAL-TIME NETWORKING (FORMERLY GAM 490) | 4 quarter hours  
(Graduate)  
Applied real-time networking fundamentals. Topics include low-level TCP/UDP socket programming, serialization of data for network transportation, deterministic data flow and queuing in applications, dynamic configuration and session communications. Students will explore issues related to performance-based networking in different topologies: client/server and peer to peer. Students will create and build real-time applications using different protocols (TCP, UDP, RUDP) with active network simulation of loss, delayed, corrupted and out of order data packets. Architecture of different bandwidth compression and estimation techniques will be investigated. Research of wireless ad hoc networks such as Bluetooth and ZigBee will be explored. PREREQUISITE(S): CSC 461 and (SE 456 or SE 450).  
CSC 461 and (SE 456 or SE 450) are prerequisites for this class.

CSC 489 | THEORY OF COMPUTATION | 4 quarter hours  
(Graduate)  
Advanced topics in the mathematical foundations of computation. Topics may include random access and Turing machines, recursive functions, algorithms, computability and computational complexity, intractable problems, NP-complete problems. PREREQUISITE(S): CSC 444 or CSC 421.

CSC 444 or CSC 421 is a prerequisite for this class.

CSC 491 | MOBILE APPLICATION DEVELOPMENT FOR IOS II | 4 quarter hours  
(Graduate)  
This course will cover advanced topics in mobile application development for iOS. The topics covered will be made explicit by the course instructor when the course is offered. PREREQUISITE(S): CSC 471.

CSC 471 is a prerequisite for this class.

CSC 492 | MOBILE APPLICATION DEVELOPMENT FOR ANDROID II | 4 quarter hours  
(Graduate)  
This course will cover advanced topics in mobile application development for Android. The topics covered will be made explicit by the course instructor when the course is offered. PREREQUISITE(S): CSC 472.

CSC 472

CSC 500 | RESEARCH COLLOQUIUM | 2 quarter hours  
(Graduate)  
The research colloquium consists of weekly talks by a variety of speakers including faculty, students, and guests from the academic and business communities. The lectures feature new creative and scholarly works that encompass the disciplines and areas of interest of the School of Computing. Student evaluation is based on attendance as well as an online journal with reflections on each of the presentations. The educational objectives are to expose students to creative and scholarly research at DePaul and elsewhere, and to engage students in the thought process of identifying and solving challenging research problems. PREREQUISITE(S): None (variable credit)

CSC 503 | PARALLEL ALGORITHMS | 4 quarter hours  
(Graduate)  
Development, implementation, and applications of parallel algorithms. Models of parallel computation. Parallel sorting, searching and graph algorithms, as well as other parallel algorithms, will be studied and implemented on both simulated and actual parallel machines. PREREQUISITE(S): CSC 421.

CSC 421 is a prerequisite for this class.

CSC 521 | MONTE CARLO ALGORITHMS | 4 quarter hours  
(Graduate)  
A course about the use of random numbers for numerical computation with particular emphasis on implementation issues and applications in science and finance. Covered topics include: pseudo random number generators, the inversion method, the accept-reject method, discrete event simulations, multi-dimensional integration, the Metropolis and the Bootstrap algorithms. PREREQUISITE(S): (CSC 402 or CSC 404) and CSC 423 or consent of instructor.

(CSC 402 or CSC 404) and (CSC 423 or DSC 423) or (CSC 423 or consent of instructor) are prerequisites for this class.

CSC 525 | COMBINATORIAL OPTIMIZATION | 4 quarter hours  
(Graduate)  
This course defines and introduces the concepts and techniques needed to formulate and model optimization problems. A set of fundamental problems in combinatorial optimization will be covered together with their applications. The emphasis will be on the design and analysis of algorithms for such problems. The computational complexity of this set of problems (easy/hard to solve/approximate) will be discussed, and techniques for coping with intractable problems will be introduced. PREREQUISITE(S): CSC 421.

CSC 421 is a prerequisite for this class.
CSC 528 | COMPUTER VISION | 4 quarter hours
(Graduate)
Introduction to computer vision, including fundamentals of image formation, camera imaging geometry, feature detection and matching, stereo, and motion analysis. Basic methods and modern deep learning models for applications that include camera calibration, depth recovery from video, motion estimation and tracking, image and video, image search, and new image generation. Focus on the mathematics of these methods and models. Development of modern techniques such as convolutional neural networks for optical flow estimation and object detection, and generative adversarial networks for artificial image generation. PREREQUISITE(S): CSC 481.
CSC 481 is a prerequisite for this class.

CSC 531 | INTRODUCTION TO BIOINFORMATICS | 4 quarter hours
(Graduate)
An introduction to the field of Bioinformatics, which is computational modeling of biological and biochemical processes. Some programming in Java will be involved. Little biological knowledge will be assumed. Any required will be taught in the course. Topics will include genomics, biological databases, sequence alignment (longest common subsequence), phylogenetic trees, and protein folding. Prerequisites: CSC 421 and SE 450.
CSC 421 and SE 450 are prerequisites for this class.

CSC 534 | SOFTWARE DEVELOPMENT FOR LIMITED AND EMBEDDED DEVICES | 4 quarter hours
(Graduate)
This course will focus on the unique aspects, tools, and techniques of developing software applications for limited and embedded devices, such as set-top boxes and smart cards. Formerly CSC 542. PREREQUISITE(S): SE 450.
SE 450 is a prerequisite for this class.

CSC 535 | FORMAL SEMANTICS OF PROGRAMMING LANGUAGES | 4 quarter hours
(Graduate)
CSC 447 is a prerequisite for this class.

CSC 536 | DISTRIBUTED SYSTEMS II | 4 quarter hours
(Graduate)
Advanced course that introduces the techniques required to build large-scale, highly available, fault tolerant distributed systems. Covers the distributed algorithms (e.g., vector clocks, consistent hashing, gossip protocols, Merkle trees, Paxos/ Raft algorithms) that solve the fundamental problems (e.g., synchronization, replication and replica consistency, fault tolerance) in building such systems. Focus is on problems and solutions relevant to systems that store and process massive data sets and the design decisions behind current large-scale distributed database systems.
CSC 435 is a prerequisite for this class.

CSC 538 | VISION SYSTEMS | 4 quarter hours
(Graduate)
Vision Systems will cover the geometry of computer vision as well as a survey of working vision systems to include 1) Content-based Image Retrieval Systems; 2) Object Detection and Tracking Systems; 3) Medical Visual Systems; 4) Robotic Navigation Systems. PREREQUISITE(S): CSC 528.
CSC 528 is a prerequisite for this class.
CSC 551 | DISTRIBUTED DATABASE SYSTEMS | 4 quarter hours
(Graduate)
Distributed database architecture, distributed database design, distributed query processing, query decomposition and optimization of distributed queries, distributed transaction management and concurrency control, distributed DBMS reliability, distributed database operating systems. Distributed multidatabase systems. Client/Server database systems. PREREQUISITE(S): CSC 453 and (CSC 435 or TDC 405 or TDC 463)

CSC 453 and (CSC 435 or TDC 405 or TDC 463) are prerequisites for this class.

CSC 552 | CONCURRENT SOFTWARE DEVELOPMENT | 4 quarter hours
(Graduate)
Fundamentals and techniques of developing concurrent object-oriented applications, using a patterns-based approach. Concepts covered include: threads, synchronization and object locking, thread blocking and deadlock, safety and liveness, state-dependent action and concurrency control. *SE 450 and CSC 407.* SE 450 and CSC 407 are the prerequisites for this class.

CSC 553 | ADVANCED DATABASE CONCEPTS | 4 quarter hours
(Graduate)
An introduction to advanced selected topics in databases. The topics include: intelligent and deductive databases, temporal databases, multimedia databases, spatial and geographic databases, fuzzy databases, mobile databases, data mining and data warehousing, as well as emerging issues and concepts in database design, implementation and management. *PREREQUISITE(S): CSC 453.*

CSC 453 is a prerequisite for this class.

CSC 554 | ADVANCED DATABASE MANAGEMENT | 4 quarter hours
(Graduate)
In this class, we will discuss concepts, technologies, guiding principles, processes and best practices in managing database environment to meet high availability, scalability, and compliance needs. Organizations with business critical applications must reduce their risk of downtime, manage database environment efficiently and ensure data meets compliance requirements effectively. IT now has additional responsibilities to secure and manage information in alignment with legal, records management and regulations. This class explores methods and techniques to achieve the availability needs and also focuses on how to protect the database against disasters by maintaining multiple copies of the databases in separate locations, synchronized in real-time. Students learn to design and manage key business resumption functions including disaster recovery plans and business continuity plans. Data governance challenges will be discussed along with solutions including data life cycle management, preservation, retention, and disposition. prerequisite(s): CSC 453 or CSC 454.

CSC 453 or CSC 454 is a prerequisite for this class.

CSC 555 | MINING BIG DATA | 4 quarter hours
(Graduate)
Introduction to fundamentals of distributed file systems and map-reduce technology (e.g., Hadoop); tuning map-reduce performance in a distributed network. Algorithms and tools for mining massive data sets and discussion of current challenges. Applications in clustering, similarity search, classification, data warehousing (e.g., Hive), machine learning (e.g., Mahout). PREREQUISITE(S): ((CSC 401 and (CSC 453 or DSC 450) and (DSC 441 or DSC 478)) or (MAT 491 and MAT 449)) ((CSC 401 and (CSC 453 or CSC 455 or DSC 450) and (IS 467 or DSC 441 or CSC 478)) or (MAT 491 and MAT 449)) are prerequisites for this class.

CSC 557 | FOUNDATIONS OF COMPUTER SECURITY | 4 quarter hours
(Graduate)
This course provides an overview of foundational techniques in the specification and verification of computer systems in the presence of malicious attackers. Topics may include: formal models of interaction, attacker models, robust safety properties such as confidentiality and authenticity, information flow properties such as noninterference, and tools such as model checkers, type checkers and theorem provers. Formerly 557. *PREREQUISITE(S): CSC 439.*

CSC 439 is a prerequisite for this class.

CSC 559 | SOFTWARE ENGINEERING FOR FINANCIAL MARKETS | 4 quarter hours
(Graduate)
This course focuses on software engineering issues in creating a financial engine that drives automation and execution in a financial market. The course will cover different types of financial engines from back-office to front-office, exchange matching engines, data gathering engines, trading engines and straight through processing. The emphasis will be on the engines themselves rather than the financial models beneath them. Students will be required to work individually and/or in teams and create a financial engine. This is a project course and it will put students in the role of a domain architect who will need the skills required to communicate with financial traders and software engineers at the same time. *PREREQUISITE(S): CSC 404 and (CSC 431 or CSC 521 or CSC 425)*

CSC 404 and (CSC 431 or CSC 521 or CSC 425 or DSC 425) are prerequisites for this class.

CSC 575 | INTELLIGENT INFORMATION RETRIEVAL | 4 quarter hours
(Graduate)
Examination of the design, implementation, and evaluation of information retrieval systems. The focus is on the underlying retrieval models, algorithms, and system implementations. Also examined is how an effective information search and retrieval is interleaved with the organization and description of information to be retrieved. Topics include: automatic indexing; thesaurus generation; Boolean, vector-space, and probabilistic models; clustering and classification; information filtering; distributed IR on the WWW; intelligent information agents; IR system evaluation; information visualization; and natural language processing in IR. Throughout the course, current literature from the viewpoints of both research and practical retrieval technologies both on and off the World Wide Web will be examined. *PREREQUISITE(S): CSC 403.*

CSC 403 (or Data Science MS students)

CSC 576 | COMPUTATIONAL ADVERTISING | 4 quarter hours
(Graduate)
Computational advertising is the problem of finding the best advertisement for a given user in a given on-line context. It is a complex and emerging area at the intersection of quantitative marketing, web search, data mining, recommendation, optimization, and algorithmic game theory. Students will read current scientific papers and explore a range of models both mathematically and empirically. Students can choose from three types of final course projects: implementation projects, research papers, or data analysis projects. PREREQUISITE(S): IS 467 or CSC 478 or ECT 584.

IS 467 or DSC 441 or CSC 478 or ECT 584 or DSC 484 is a prerequisite for this class.
CSC 577 | RECOMMENDER SYSTEMS | 4 quarter hours
(Graduate)
Recommender systems offer personalized access to online information in product catalogs, social media networks, and document collections, among other applications. This class will introduce students to a range of approaches for building recommender systems including collaborative, content-based, knowledge-based, and hybrid methods. Students will implement recommendation algorithms using an open-sourced toolkit and conduct experimental evaluations. PREREQUISITE(S): (CSC 412 and CSC 478) or (CSC 403 and IS 467)
(CSC 412 and (CSC 478 or DSC 478)) or (CSC 403 and (IS 467 or DSC 441)) are the prerequisites for this class..

CSC 403 or HCI 460 is a prerequisite for this class.

CSC 578 | NEURAL NETWORKS AND DEEP LEARNING | 4 quarter hours
(Graduate)
Course focuses on the algorithms, implement, and application of neural networks for learning about data. It will present how neural networks represent data and learn in supervised and unsupervised contexts with applications to language processing, classification, and regression problems. Topics include learning algorithms, and optimization methods, deep learning methods for deriving deep representations from surface features, recursive networks, Boltzmann machines and convolutional networks. PREREQUISITE(S): (CSC 412 and DSC 478) or (CSC 403 and DSC 441)
(CSC 412 and (CSC 478 or DSC 478)) or (CSC 403 and (IS 467 or DSC 441)) are the prerequisites for this class..

CSC 580 | DESIGN OF OBJECT-ORIENTED LANGUAGES | 4 quarter hours
(Graduate)
This course covers issues in the design and specification of object-oriented programming languages. Sample topics include the use of patterns in program representation, static and dynamic semantics, subject reduction, sub-typing, inheritance, polymorphism, genericity and concurrency. Formerly SE 580. PREREQUISITE(S): SE 450.
SE 450 is a prerequisite for this class.

CSC 583 | ARTIFICIAL INTELLIGENCE II | 4 quarter hours
(Graduate)
The course provides an in-depth coverage of advanced topics in Artificial Intelligence, including planning, reasoning with uncertainty, decision theoretic agents, constraint satisfaction and optimization problems, as well as selected topics of interest in knowledge representation, machine learning, and natural language processing. These topics are discussed in the context of design and implementation of real-world intelligent agents. This course is suitable for advanced students with interest in further study in artificial intelligence and related topics, as well as those interested in the application of AI techniques in building systems with intelligent components. PREREQUISITE(S): CSC 480.
CSC 480 is a prerequisite for this class.

CSC 587 | COGNITIVE SCIENCE | 4 quarter hours
(Graduate)
A study of the relationships between our knowledge of human and computer intelligence. Levels of analysis of intelligent system, examples of cognitive models, and exposure to current publications, with an emphasis on those related to human computer interaction. Students will participate in the design and testing of models of human intelligence, both experimentally and using computer models. PREREQUISITE(S): CSC 403 or HCI 460.
CSC 403 or HCI 460 is a prerequisite for this class.

CSC 588 | REAL-TIME MULTITHREADED ARCHITECTURE | 4 quarter hours
(Graduate)
Real-time constrained multithreaded architecture. Topics include multithreaded handle development, inter-thread communication, creating systems for user-defined callbacks, asynchronous loading and streaming of resources, non-blocking threading synchronization, design patterns and data driven messaging with time delivery constraints. Design and implementation of thread safe data management with atomic non-blocking synchronization. Exploration of real-time data driven messaging to allowing the run-time object data to control the behavior an application. Students will design, develop and implement a multithreaded real-time application (i.e. Audio engine) that integrates existing single and multithreaded middleware libraries. PREREQUISITE(S): CSC 461 and (SE 456 or SE 450)
CSC 461 and (SE 456 or SE 450) are prerequisites for this class.

CSC 589 | TOPICS IN DATABASE | 2-4 quarter hours
(Graduate)
Specific topics will be selected by the instructor and may vary with each quarter. Can be repeated for credit. Variable credit. PREREQUISITE(S): For specific prerequisites, see syllabus or consult with course instructor. (variable credit)

CSC 590 | TOPICS IN USER INTERFACES | 2-4 quarter hours
(Graduate)
Specific topics will be selected by the instructor and may vary with each quarter. Can be repeated for credit. Variable credit. PREREQUISITE(S): For specific prerequisites, see syllabus or consult with course instructor. (variable credit)

CSC 591 | TOPICS IN ALGORITHMS | 2-4 quarter hours
(Graduate)
Specific topics will be selected by the instructor and may vary with each quarter. Can be repeated for credit. Variable credit. PREREQUISITE(S): For specific prerequisites, see syllabus or consult course instructor. (variable credit)

CSC 592 | TOPICS IN COMPUTER VISION AND PATTERN RECOGNITION | 2-4 quarter hours
(Graduate)
This is an independent study course. May be repeated for credit. PREREQUISITE(S): CSC 482 or CSC 528.

CSC 594 | TOPICS IN ARTIFICIAL INTELLIGENCE | 2-4 quarter hours
(Graduate)
Specific topics will be selected by the instructor and may vary with each quarter. Can be repeated for credit. Variable credit. PREREQUISITE(S): For specific prerequisites, see syllabus or consult course instructor. (variable credit)

CSC 595 | TOPICS IN COMPUTER SCIENCE | 2-4 quarter hours
(Graduate)
Specific topics will be selected by the instructor and may vary with each quarter. Can be repeated for credit. Variable credit. PREREQUISITE(S): For specific prerequisites, see syllabus or consult course instructor. (variable credit)

CSC 598 | TOPICS IN DATA ANALYSIS | 2-4 quarter hours
(Graduate)
Specific topics will be selected by the instructor and may vary with each quarter. Can be repeated for credit. Variable credit. PREREQUISITE(S): For specific prerequisites, see syllabus or consult course instructor. (variable credit)
CSC 599 | INDEPENDENT STUDY | 1-8 quarter hours
(Graduate)
Independent study supervised by an instructor. Independent study form required. Can be repeated for credit. Variable Credit. PREREQUISITE(S):
None. (variable credit)

CSC 601 | MASTER'S RESEARCH CONTINUATION | 0 quarter hour
(Graduate)
Non-credit. This course is intended for master’s degree students who have completed all course registration requirements and who are regularly using the facilities of the University for study and research, thesis or project completion. These students are required to be registered in this course each quarter of the academic year until all requirements have been completed. PREREQUISITE(S): Completion of required courses. Independent Study form required. (0 credit hours)

CSC 690 | RESEARCH SEMINAR | 1-4 quarter hours
(Graduate)
Readings and discussion on current research topics. PREREQUISITE(S): Consent of the instructor. (variable credit)

CSC 695 | MASTER’S RESEARCH | 1-4 quarter hours
(Graduate)
Students interested in a more in-depth study of a particular area will register for this course and work with a faculty member (not necessarily their academic advisor) on a research project. The work involved may include system development, empirical studies, or theoretical work. 4 credit hours of CSC 695 replaces one 500level elective course in student's degree program. This course can be taken for 1-4 credit hours for up 8 credit-hours. PREREQUISITE(S): Consent of research advisor. Independent study form required. Students must successfully complete the foundation courses prior to their first enrollment in CSC 695. (variable credit)

CSC 696 | MASTER’S RESEARCH | 0 quarter hour
(Graduate)
A student who has made a significant contribution to a research project, through work done in 8 credit-hours CSC 695, may choose to complete the Master’s Research option. During the second of the two quarters, the student must submit a technical report detailing the results of the research project. This report must be approved by the student's research supervisor and the faculty advisor, at which point it will be made available to the public as a CDM Departmental Master’s Research Technical Report. The transcript will show the Research project title as the course topic.

CSC 697 | GRADUATE INTERNSHIP | 1-4 quarter hours
(Graduate)
In cooperation with local employers, the graduate program offers students the opportunity to integrate their academic experience with on-the-job training in computer related work areas. This course is variable credit and may be taken for one to four credits. This course may be repeated for a maximum of four credits total. Admission to the internship program requires consent of the Instructor and a Student Services Advisor. International students may complete curricular practical training (CPT) through this class provided they first obtain CPT authorization from the Office for International Students and Scholars (OISS) before beginning the internship. (1 quarter hour)

CSC 698 | MASTER’S THESIS | 0 quarter hour
(Graduate)
A student who has made an original contribution to the area (typically through 8 credit-hours’ worth of work done in CSC 695, but not necessarily) may choose to complete a Master’s Thesis. The student and the student’s research advisor form a Master’s Thesis Committee. The student submits to the committee a thesis detailing the original results of the research project. After a public defense, the committee will decide whether to accept the thesis. In that case, the student will be allowed to register for this course and the transcript will show the thesis title as the course topic. PREREQUISITE(S): Successful defense of a Master’s Thesis. (variable credit)

CSC 699 | RESEARCH | 1-12 quarter hours
(Graduate)
PREREQUISITE(S): Research course supervised by an instructor. Independent Study Form required. Variable credit. Can be repeated for credit. (variable credit)

CSC 701 | FULL-TIME CANDIDACY CONTINUATION | 0 quarter hour
(Graduate)
Non-credit. Students in the doctoral degree who have completed their course credit requirements are required to be registered each quarter of the academic year until the exams, dissertation and final examination have been completed. Registration through independent study form requires certification that the student is actively working on exams and/or thesis under the advisor’s supervision. This course carries the equivalent of full-time enrollment status.

CSC 702 | PART-TIME CANDIDACY CONTINUATION | 0 quarter hour
(Graduate)
Non-credit. Students in the doctoral degree who have completed their course credit requirements are required to be registered each quarter of the academic year until the exams, dissertation and final examination have been completed. Registration through independent study form requires certification that the student is actively working on exams and/or thesis under the advisor's supervision. This course carries the equivalent of part-time enrollment status.

Core Curriculum Arts and Ideas (CCA)

CCA 107 | BUDDHIST MINDFULNESS MEDITATION | 2 quarter hours
(Undergraduate)
This 5 session (2 credit hour) course introduces theories and practices of mindfulness meditation from Buddhist traditions. It explores how mindfulness meditation can enhance collaboration learning, address the fundamental ethical challenges of contemporary life, and relate to work experience. Class sessions will involve practice in mindfulness meditation. Students will be expected to maintain and reflect on a daily mindfulness meditation practice for the duration of the course. The assessment of learning will be based on class participation and weekly reflection papers.
CCA 121 | ART AND MEMORY: SCRAPBOOKING | 2 quarter hours  
(Undergraduate)  
Art is appreciated in various forms. In homes all over America, dining room tables are filled with tiny metal hearts, pictures of adorable toddlers, bags of stickers, and 500 varieties of lettering. Scrapbooking is one of the nation’s fastest growing artistic leisure time activities. Millions of dollars are invested in this peculiar pastime that focuses on not only recording family events, but making them pretty as well. Most of us do not consider ourselves artists, but give us a pair of scissors and some fancy paper and we will create an artistic masterpiece! Students in this experience will learn about the history of scrapbooks and will begin the process of decoding the relationships of creativity, art, and craft in this pursuit that is sweeping the nation. Topics will include the definition of scrapbooking and its development in American culture; the ways in which art and craft intersect in the scrapbook; how to get started with a scrapbook; the nature of creativity and its impact in scrapbooking; and the construction of meaningful works of art and craft. This course will meet on campus and online via D2L. (2 quarter hours)  

Status as a Decision Analytics or Degree Completion student is a prerequisite for this class.

CCA 143 | ROOTED IN THE CITY: WRITERS & WRITING IN CHICAGO | 4 quarter hours  
(Undergraduate)  
Who are the writers rooted in Chicago? What were and are their concerns, themes, styles? How can they teach us about the city, but also about writing? In this class, students will read, discuss and write about work written by such Chicago writers as Nelson Algren, Gwendolyn Brooks, Stuart Dybek, Sandra Cisneros, Studs Terkel, Marc Smith, and Mike Royko. We will consider the nature of civic engagement and creativity in the literary arts, as well as pay close attention to the formal elements of the poems, short stories, and essays read in this class. We’ll also explore how these texts compel us to think about power and its circulation in cultural as well as social contexts.

CCA 147 | ETHICS: HOW GOOD PEOPLE MAKE TOUGHS CHOICES | 4 quarter hours  
(Undergraduate)  
Through life’s many lessons, we have learned how to make a decision between what is the right thing to do and what is simply wrong. We can differentiate between good and evil, truth and lies, etc. However, most of our dilemmas do not stem from deciding the correct path, when we are faced with right and wrong decisions. What most often puts us into a quandary is deciding between what is right and what is right. In other words when good people are faced with tough choices, on what basis do they make their decisions? In an era of perceived ethical incertitude and moral skepticism, students will examine how decisions are made based on one of many ethical systems. Students will learn about various ethical systems, and ethicists, such as utilitarianism, deontology, Kant, Aristotle, and Gillian, just to name a few. By the end of the course students should be able to apply their knowledge of moral, ethical and social issues, and have a better understanding of how the tough decisions they make could impact others. (4 quarter hours)

CCA 152 | STRESS REDUCTION USING HUMOR AND SPIRITUALITY | 2 quarter hours  
(Undergraduate)  
Stress affects the body in dramatic ways, and is a major contributing factor in chronic and degenerative diseases. We will understand/describe the physiology and biochemistry of stress and, more importantly, apply effective methods to reduce and manage it. Effective stress reduction and burnout prevention then become important health, wellness, productivity and disease prevention strategies for individuals, schools, businesses, the medical industry and the culture. The effective stress reduction techniques include breathing, biofeedback, humor, spiritual exploration, connection and inspiration. The holistic paradigm of body, mind and spirit supports our informed search for meaning, connection, calm productivity and enhanced health (2 quarter hours)

CCA 153 | THE ART OF SPEECHMAKING | 2 quarter hours  
(Undergraduate)  
In this class, students will use tools based in the imagination, principles of design, and standard dramatic practice to create a unique, personal experience for an audience. Speech, whether we call it dramatic or declamatory, has the potential to move the masses. In this course, you will develop a personal approach and construct effective presentations that harness the power of their voice and body. (2 credit hours)

CCA 154 | STRESS REDUCTION USING HUMOR AND SPIRITUALITY | 2 quarter hours  
(Undergraduate)  
Stress affects the body in dramatic ways, and is a major contributing factor in chronic and degenerative diseases. We will understand/describe the physiology and biochemistry of stress and, more importantly, apply effective methods to reduce and manage it. Effective stress reduction and burnout prevention then become important health, wellness, productivity and disease prevention strategies for individuals, schools, businesses, the medical industry and the culture. The effective stress reduction techniques include breathing, biofeedback, humor, spiritual exploration, connection and inspiration. The holistic paradigm of body, mind and spirit supports our informed search for meaning, connection, calm productivity and enhanced health (2 quarter hours)

CCA 157 | DIGITAL PHOTOGRAPHY | 4 quarter hours  
(Undergraduate)  
Students learn in this course to take artistic digital photos. They will analyze photos they have taken prior to the course and discuss if they fulfill criteria to be seen as art. Several theories of artistic expression will be discussed. Rules of composition, light, exposure, colors, etc. will be reflected upon. In a second step the students will develop the competence to alter their digital photos with a program like "Photoshop Elements". They will be able to change the expression of their photos and combine different shots, creating their personal piece of art. As a final product, students will create a portfolio with about 5 photos including detailed descriptions of their work. (2-4 quarter hours)
CCA 168 | ART AND MEMORY SCRAPBOOKING II: THE ART JOURNAL | 2 quarter hours
(Undergraduate)
This is the second course on the art and craft of scrapbooking offered in the SNL curriculum. This course focuses on a specific aspect of the scrapbooker’s art, the production of embellished personal diaries. Throughout this experience, students will critically examine the artistic aspects of journaling and collage artwork, investigate movements in the art world, chronicle events in their lives through photographs and narrative, and create works of art and craft that illustrate the experience. This is a hands on art making course. While faculty will discuss various techniques and information about assessing works of art and putting them in the context of art movements, students should expect to be introduced to art making materials and to use them during class time. (2 quarter hours)

CCA 170 | CREATIVITY AND ENTREPRENEURSHIP | 2 quarter hours
(Undergraduate)
IPads. Smart Phones. The automobile. These inventions, once unknown and now taken for granted, required years of imagining, experimentation and innovative thinking. While we value the end product, we are often unaware of the underlying creative/creating process. This class will explore the role of creativity in the development of entrepreneurial skills and the entrepreneurial personality. Creativity in this course will be seen both as a learned skill and as an exploration of our intuition. This course will explore contemporary approaches to the creative process based on the human capacity to imagine, to explore and, ultimately, to create. These are core skills for anyone pursuing a career as an entrepreneur or simply in search of ways to explore innovation. (2 credit hours)

CCA 172 | MAKING POEMS: AN INTRODUCTION TO VERSE | 4 quarter hours
(Undergraduate)
Making poems will be a creative writing offering that teaches metrics and verse forms, poetry the old-fashioned way. Topics will include metric feet, rhyme, lines, and verse forms. For example, students will learn about the iambic foot, write some iambic lines of various lengths, and ultimately use the iambic line to write a sonnet. Rap poetry with its structured rhythms and elaborate rhyming is another possibility. This "formalist" approach promotes a kind of creativity that is strongly infused with craft and discipline in contrast to the "spoken word" or confessional approaches to making poems. This class involves making audio recordings of your poems; students will be required to purchase a headset/microphone and download and install free software.

CCA 176 | CREATIVE WRITING | 4 quarter hours
(Undergraduate)
Designed to help you explore the art of writing stories, either stories that are "made-up" or stories based on lived experience. You will be required to complete six fiction-writing exercises, and either one short story, one autobiographical story, or one story based on an oral history collected by the you. In addition, you write a final essay in which you reflect on your learning and experience in the course. (4 quarter hours)

CCA 181 | CREATING ORIGINAL DIGITAL ART | 4 quarter hours
(Undergraduate)
The course will focus on electronic visual art, and because of the amount of material to be covered, will not include audio or animation art. Student will look at what constitutes "art", then look at how original art could be created using technological tools, such as Microsoft Paint, Pixel-based art, such as Microsoft Graphics in PowerPoint; Digital Photography and PhotoShop; digital short-movies, and Digital Animation using Freeware GIF Animation software.

CCA 185 | THE BEATLES AND THE CREATIVE PROCESS | 4 quarter hours
(Undergraduate)
The Beatles are significant in many ways: they were an unprecedented show business phenomenon; they were leaders of Sixties cultural rebellion; and they stand, for many, as a signal instance of popular entertainment attaining the status of high art. This course will examine the musical craftsmanship of the Beatles, focusing on their work as songwriters and record makers. Recent audio and print releases documenting the group's performing and recording history provide a unique and detailed glimpse of the Beatles' creative process. We will utilize these materials to closely trace the development of the group's work while using other resources to place it in a larger historical and cultural context. The goal is to shed critical light on this recent chapter in cultural history. That discussion will, in turn, highlight questions about creativity in a modern context where commerce vies with art, technology refines performance and an emerging global village culture transforms concepts of originality and tradition.

CCA 196 | WRITENOW:SNL WRITING MARATHON | 2 quarter hours
(Undergraduate)
Anne Lamott said that the most important ingredient for writing is the act of "sitting". In this course, students will focus on this seemingly simple act of the creative process. The focus of the course is on the generation of written material: the quantity rather than the quality. As such, students choose their own fiction or nonfiction writing topic(s) and project, and may use the material they create in a later effort (ILP, AP, etc.) To kick off one session, a group of professional writer panelists will reflect on their own creative processes as they have developed their latest works. (2 quarter hours)

CCA 202 | LONDON ALIVE: IN THEATERS, MARKETS AND MUSEUMS | 4 quarter hours
(Undergraduate)
Join SNL in London for a course about performance and representation. Theater, live performance, museum collections and street markets are integral parts of English cultural history; they also represent Britain's international heritage. London theaters celebrate English history, culture and language, and carry the banner of the English artistic imagination into the future. London's museums make it one of the most visited cities in the world for the range of its collected artifacts and images. Outside the theater and museum doors, markets teem with life, creating a magical intersection of past with present and future, of art with life and politics, of cultural stasis with social change. (4 quarter hours)

CCA 211 | ANALYZING AUSTEN'S PRIDE AND PREJUDICE | 4 quarter hours
(Undergraduate)
Jane Austen must have known something about universal truths. Her novel, Pride and Prejudice, which begins with the sentence quoted above, was first published in 1813. Still in print today, it has also been made into at least eleven movies, four of which were released since 2000, including a Mormon and a Bollywood version. In this class, we will read the novel in the context of the gender and class norms at the time Austen wrote her book and then consider how Austen’s exploration of universal truths is reinterpreted in more contemporary film versions of this novel. In exploring Austen’s creation and the many reinterpretations of her work, we will use both analytic and creative writing assignments as well as class discussion to examine how context informs creativity and how creativity informs analysis. You must definitely do not need to be a creative writer to take this class. (4 quarter hours)
CCA 215 | FILM NOIR | 2 quarter hours
(Undergraduate)
In this course we will screen and discuss select noir films and develop skills of viewing and analyzing them closely. Highlighted topics will include the concept of genre in film; the relationship of genre codes to creativity; the dynamics of form and content; the tension between commerce and art; the auteur theory; psychologies of the divided self; representations of masculinity and femininity; and the question of what these films say about American society, post-World War II. (2 quarter hours)

CCA 217 | MINDFULNESS MEDITATION | 4 quarter hours
(Undergraduate)
Mindfulness meditation provides many different ways to broaden our awareness of the world around us, heighten our powers of concentration, deepen our understanding of our experience, and cultivate creative and transformative ways of being in the world. Many approaches to mindfulness meditation draw on ancient religious and spiritual traditions from around the world. So mindfulness meditation is compatible with and can enhance whatever religious or spiritual commitments you may have. But mindfulness meditation does not require religious or spiritual interpretations. It can be practiced as a very powerful path to becoming a creative, healthy and effective adult. In this course, you will learn what mindfulness meditation is and various ways in which it can be practiced. We will explore in particular how mindfulness meditation can enhance creativity, address the ethical challenges of contemporary life, and foster collaborative learning. Class sessions will involve extensive practice in mindfulness meditation, listening and dialogue. You will be expected to maintain and reflect on a daily mindfulness meditation practice for the duration of the course. (4 quarter hours)

CCA 219 | SPACE, SPIRITUALITY, AND HUMAN IDENTITY | 4 quarter hours
(Undergraduate)
The course will examine the architecture and context of the sacred spaces of the ancient and medieval world. Different perspectives will be used to study the spaces, including art historical, historical, anthropological and religious. This class will look at how sacred spaces are affected by a variety of factors in each society. These include the religious and social beliefs of the society, the availability of materials, the technical skills of the artists and builders and the world view of the people. Students will also consider how these issues are manifested in our own culture and how they are seen and experienced in their individual lives. The class will use multimedia resources to experience the monuments more fully.

Status as a Decision Analytics or Degree Completion student is a prerequisite for this class.

CCA 220 | YOGA: PHILOSOPHIES AND PRACTICES | 2-4 quarter hours
(Undergraduate)
This course combines an introduction to yoga and meditation techniques with an examination of the scientific and philosophical knowledge of yoga to improve health. Course is appropriate for beginners; no previous experience needed. Mats and props provided.

CCA 225 | GREAT MUSIC IN CHICAGO | 4 quarter hours
(Undergraduate)
The course introduces people to three of the most exciting and rewarding institutions in Chicago music: the world-famous Chicago Symphony Orchestra at Symphony Center downtown; the fabulous training orchestra of the Chicago Symphony Orchestra, known as the Civic Orchestra, also downtown; and live top-name jazz at the Jazz Showcase. We learn the background of these institutions, the nature of the arts they perform, and the terms used to describe and appreciate those forms. Most importantly, we experience, in person, the great music that they play!

CCA 230 | MEMOIRS: A JOURNEY FROM THE INSIDE OUT | 4 quarter hours
(Undergraduate)
Socrates famously said, "The unexamined life is not worth living for a human being." Join Carolyn and Caralyn, who believe there is nothing more compelling than the well-told story of a person's life, to examine a portion of yours. In this class, as a community of learners, we will explore the creative process, consider principles of memoir-writing styles, and assess how human experience and transformative events drive the construction of a personal philosophy. Course prerequisite: curiosity. Class sessions will revolve around reading, writing, and telling. We will read and discuss excerpts from full-book memoirs to understand how everyone has a sense of being "other" in the world, while still being connected to the greater human experience. We will write in a structured format, both in-class and individually, to learn how to focus the lens of memory onto specific life experiences. Peer editing, using guided techniques to give constructive feedback, will enable all students, regardless of their starting point, to become better writers. At the end of the course, we will tell the stories that have been written as we partner our small learning community with a larger community organization. The final take-away of sharing will be a class memoir in the form of an e-book to which everyone contributes.

Status as a Decision Analytics or Degree Completion student is a prerequisite for this class.

CCA 247 | STAGE IMPROVISATION AND GAME PLAYING | 4 quarter hours
(Undergraduate)
Improvisational comedy is social commentary or personal expression made immediate by spontaneous dramatization. Students will learn the games that form a context with which, or from which, to improvise. Then, they will improvise; they will play in their own and in each others’ improvised sketches. They will learn to solve problems, find metaphors and examine improvisation as an excellent tool with which to monitor the process of learning. Additionally, students will acquaint themselves with the history of this freest of forms. From the engagement in the games and their analysis will come the most important outcome: the growth of confidence. (4 quarter hours)

CCA 254 | RESISTANCE DURING THE HOLOCAUST AND WORLD WAR II | 4 quarter hours
(Undergraduate)
This course explores the history of the Holocaust in the context of the Second World War (1939-1945) with a central focus on examples of resistance to discrimination, fascism and oppression. We will explore varied forms of opposition including armed resistance, spiritual resistance, resistance through writing and identity preservation. We will read autobiographies, view documentary and dramatic films, and use museum resources to develop our understanding of resistance. Required activities include a visit to the Illinois Holocaust Museum and Education Center (Skokie, IL). We will also consider the implications of this history for making ethical choices in our world today.
CCA 255 | SELF EXPLORATION: INSIDE OURSELVES, OUTSIDE WITH OTHERS | 4 quarter hours
(Undergraduate)
Exploring the self can be a very personal and satisfying experience, but can also provide clues as to how you interact with others, accomplish daily tasks and how to become a more happy, productive and respected individual. Students engage in self reflection in a collaborative learning format where they learn about themselves, share the process with a learning partner and observe the trends and conclusions of the class. Topics to be explored include family origins, gender perspectives, personality traits and development, self awareness and identity, creativity, and professional and moral perspectives. This course will operate in a blended hybrid format with meetings that link students in the classroom with others through live video interaction. You will have the option to attend either on campus or online for the five scheduled bi-weekly meetings. In addition, participation in the online discussion forum is required. This course is cross listed as CCA 255 and AI 255 (4 quarter hours)

CCA 256 | WORKPLACE AND PROFESSIONAL ETHICS | 4 quarter hours
(Undergraduate)
This hybrid-learning course is open to all DePaul undergraduates. It provides a thorough grounding in the theoretical and applied nature of work-based ethical decision-making. We engage the tenets and assumptions of four major ethical perspectives, using them to examine the meanings and implications of morality in professional life. Using the tools of reason, we investigate obstacles to ethical decision-making in one’s and others’ professional behavior, and apply our learning in the writing of a personal ethical code. (2-4 quarter hours)

CCA 260 | APPROACHES TO CREATIVE WRITING | 4 quarter hours
(Undergraduate)
For writers, no matter how new or experienced they may be, there’s always a need to ‘self-renew’. Every blank page is an invitation to enhance one’s writing asset, for with each blank page or new assignment the writing process begins again. What, then, are the tools successful writers use to enhance their writing abilities, sustain their momentum, refresh their creativity and renew their resolve? What writing tools are better suited for creative writing, business writing, journaling, or memoir? What tools do we already have that may only need repurposing or remembering?

CCA 261 | THE EXAMINED LIFE: A QUESTION OF PHILOSOPHY | 4 quarter hours
(Undergraduate)
The unexamined Life is not worth living,” exclaimed the Greek philosopher Socrates, setting the tone for philosophical quests that have shaped out thought and civilizations. “Neither is the examined one,” retorted German philosopher Schopenhauer 2,300 years later after surveying the prospects of the modern world. This course will outline the philosophical tradition of rational thought that stretches in between these thinkers. Students will focus on how the great thinkers and traditions East and West considered ethical, metaphysical, epistemological, political, and aesthetic problems. And they will engage in a philosophical examination of their own life and beliefs. (4 quarter hours)

CCA 271 | THE ART OF PAPERMAKING | 2 quarter hours
(Undergraduate)
Paper is everywhere. We use it to read about the latest news, to wrap birthday presents, and to leave ourselves little sticky reminders. You can find paper almost anywhere and chances are, you have a lot of it lying around your house, lurking in drawers and clogging up your recycling bin. It is one of those commodities that we take for granted. Can paper be art? Can it be the result of creative thinking? Can it be beautiful? Learners in this experience will learn about paper and its history, and will participate in the ancient art of papermaking. While examining the definitions of art and creativity, students will experiment with papermaking techniques, and will create their own works of paper art. The Art of Papermaking focuses on creative processes and art making. This will be, necessarily, an experiential process. Most of the class time will be taken up with experimenting with art materials and with employing the roles of color and design in works of art. Students should prepare by wearing old clothes to class and should expect to get their hands dirty. (2 quarter hours)

Status as a Decision Analytics or Degree Completion student is a prerequisite for this class.

CCA 276 | CREATIVE INK: THE ART OF WRITING | 4 quarter hours
(Undergraduate)
This course will carry students through a series of creative writing experiments aimed at stimulating their imaginations and discovering their literate voices. Students will be exposed to a variety of techniques for story writing, poetry, and avant garde experiments. The course will combine in-class group writing and critical sessions, and individual consultation with the instructor for personal development. Students will also learn how to find outlets for their completed creative work. (4 quarter hours)

CCA 281 | BRAVE NEW WORLD AND NINETEEN EIGHTY-FOUR: DIVERGING DYSTOPIAS | 2-6 quarter hours
(Undergraduate)
The Liberal Arts in Action course directs students to analyze an engaging topic - in this case, the two preeminent dystopian fictions of the last 100 years, Aldous Huxley’s Brave New World and George Orwell’s Nineteen Eighty-Four – from multiple perspectives in the liberal arts. Students strengthen their problem-solving skills by drawing upon the ideas and methods of three different liberal arts disciplines. The learning activities clarify how the liberal arts can be put into action to ponder and address problems. The course strengthens students’ development of critical thinking and academic writing across the curriculum. Students also will learn about resources that will be useful for their academic success at DePaul.
CCA 285 | WORK, PLAY, REST: NAVIGATING COMPLEXITIES OF ADULT LIFE | 4 quarter hours
(Undergraduate)
Adult life has become complex. With expectations from family, school, work, home, social pressures, technology and social media, it sometimes feels impossible to keep up. When the news bombards us or becomes frightening, and the world around us feels uncertain, how do we make sense of things and find our way forward? In this course, we will begin from the place that human beings are full of creativity, ingenuity, resourcefulness, generosity and hope. Our very lives and the world around us will be our subject matter - our need to work, our bodies' need for rest, and our enjoyment of leisure and recreation. Where does stress, expectation and anxiety come from, how are these held in the body, and what can we do about it? And, how has story, movement, music and sound, humor, popular entertainment and fun helped humans get through the day, navigate relationships, and find more ease? By engaging in simple creative practices in and out of class and considering what might be useful for individual and collective well being, the goal is for students to create a toolbox of approaches for navigating life's complexities to carry forward beyond the class. (4 quarter hours)

CCA 299 | ETHICAL ISSUES IN BIOMEDICINE AND HEALTH | 4 quarter hours
(Undergraduate)
Should parents be allowed to genetically "engineer" designer babies? Given the rapid pace of developments in genetic engineering, this capacity is eminent. Emerging technological capacities in a variety of arenas are creating a host of social questions and potential ethical implications: What are the ethical issues associated with accelerating accumulation of health data? Do pharmaceutical companies have a moral obligation to expand global access to life-saving AIDS drugs? Given our ever-unfolding understanding of the human brain, what regulatory concerns ought to accompany the rollout of new, powerful brain-based biotechnologies? Which methods and approaches are needed to make sense of the impact of science and technology on people's lives worldwide? This course is both an introduction to bioethics, - an area concerned with moral questions related to health, medicine and society, as well as a reflection upon the ethical and social implications of rapidly emerging technological and scientific capacities. In this course, learners will learn and use ethical theories to consider and analyze general bioethical issues with special attention paid to the unique challenges that emerge as a result of rapid advancements in scientific and technological knowledge. While this course is housed in the School for New Learning (SNL), it is also cross-listed with DePaul University's department of public health. For graduate students taking this course for credit, there is an additional assessment required, specified in the syllabus section below. This course will also require students to deploy and hone critical thinking skills, writing-related capacities as well as reasoning skills. Status as a Decision Analytics or Degree Completion student is a prerequisite for this class.

CCA 315 | CREATIVITY AND IMAGINATION | 4 quarter hours
(Undergraduate)
Is there a specific mental procedure that gives rise to the making of new inventions, new scientific and mathematical discoveries, new philosophical systems, and new works of art? If so, it remains as mysterious today as a thousand years ago. In this course we will compare and critically evaluate a range of theories about human invention and creativity, both classic and modern - from ancient conceptions of divine inspiration and "creative madness" to recent hypotheses in the fields of evolutionary psychology, cognitive science, and artificial intelligence. We will test these theories by (a) applying them to our own past experience with creative endeavors and (b) by determining to what extent the theories can adequately explain the emergence of particular inventions, scientific or mathematical breakthroughs, or works of art. The course will introduce the thought of a range of important theorists on the creative process - from Plato to Freud - and also weigh the contributions and examples of prominent artists, scientists, and inventors, including Archimedes, Newton, Mozart, Milton, Poe, Van Gogh, Poincaré, Edison, Einstein, and others. (4 quarter hours)

CCA 322 | PROBLEMS AND ISSUES IN CONTEMPORARY ETHICS | 4 quarter hours
(Undergraduate)
An introduction to moral philosophy with emphasis on the conflict between "moral relativism" (or "subjective" ethics) on the one hand and "moral realism" (or "objective" ethics) on the other. During the course you will be introduced to classic theories and leading figures in the history of ethics, from Plato and Aristotle to Kant and Nietzsche. Course content will focus on issues (e.g., poverty, drug use, capital punishment, sexual behavior, euthanasia, biomedical research, animal rights, political violence) at the center of contemporary ethical debate in the United States and throughout the world. (4 quarter hours)

CCA 342 | LEARNING ART HISTORY THROUGH THE ART INSTITUTE OF CHICAGO | 4 quarter hours
(Undergraduate)
The Art Institute of Chicago is one of the nation's premiere art museums, with a collection that offers wide opportunities for the study of art. This course will examine great paintings in the museum from the Middle Ages up to contemporary works. Students will deepen their knowledge of art history and how to study a painting, develop an overall knowledge of major periods and trends, as well as gain insights into the lives of the artists. Students will also gain a knowledge of the museum itself as a starting off point for further studies. Class will meet at the Art Institute, Michigan and Adams, at the front information desk. (4 quarter hours)

CCA 365 | JAZZ AND CHICAGO | 2 quarter hours
(Undergraduate)
This short course will introduce the student to the pleasures and enrichment of jazz. Students will learn what jazz is, learn about its fascinating history and some of its most influential players, and learn about the special role that Chicago has played-and still does play-in great jazz. In the classroom we'll hear records, view videos, engage the instructor in question-and-answer sessions, and hear stories about this unique musical art form and Chicago's ongoing role in it. The instructor, a jazz writer and longtime jazz drummer, will enliven the course with personal anecdotes covering a considerable part of Chicago jazz history. (2 credit hours)
CCA 366 | EXPRESSING YOURSELF THROUGH PAINT | 4 quarter hours (Undergraduate)
This course will focus on painting as a form of visual expressions and provide opportunities to explore the media of painting and the aesthetics behind why people paint. Students will study the history of painting through selected works, learn how to analyze and critique a painting and use watercolors and acrylic paints to explore the media. A field trip to the Art Institute of Chicago is required.

CCA 367 | EXPRESSIVE ARTS THERAPY | 4 quarter hours (Undergraduate)
This course offers a multi-arts approach in which different art modalities are woven into the therapeutic process as appropriate to a client’s situation. It is grounded not in any particular techniques or media but in the capacity of the arts to respond to human suffering. Various arts--poetry, movement, drawing, painting, journaling, improvisation, music, and sculpture--are used in a supportive setting to facilitate growth and healing. Expressive arts processes have been used successfully in almost all psychotherapeutic contexts, ranging from work with the severely ill to the facilitation of human growth and potential. There is a growing use of the arts in health education, hospice work, and in community art projects especially after catastrophic events. The class will be conducted in a workshop format in which theoretical content will be combined with experiential learning. Lecture, discussion, audio-visual presentation, experiential exercise, guest speakers, and field trips comprise the structure of the class.

CCA 389 | INTRODUCTION TO RESTORATIVE PEACEMAKING PRACTICES | 4 quarter hours (Undergraduate)
The course will provide an introduction to the emerging field of restorative justice and its application in the criminal justice system, schools, workplaces, communities, families and organizational settings. Restorative approaches are based on indigenous and indigenous practices and traditions to build community, problem solve, resolve conflict, decision make, develop consensus, reconcile, celebrate and possibly heal. It is a growing movement that explores how relationships can be restored or built by recognizing the capacity of the individuals and community to identify, address and resolve their issues in a manner that meets their needs and allows them to move forward. We will examine various approaches to implementing restorative principles as well as the challenges of creating and sustaining restorative environments, initiatives and resources to support communities in developing safer and healthier relationships. The underlying dynamics that are usually at the root of conflict and alienation will also be considered to better understand and appreciate the possibilities and promise of restorative processes. (4 quarter hours)

CCA 396 | INTRODUCTION TO ART THERAPY | 4 quarter hours (Undergraduate)
This experiential class in will introduce students to concepts of art therapy and other expressive arts. It will address the therapeutic use of art making by people who experience illness, trauma, or challenges in living, as well as by people who seek personal development and general well being. By participating in expressive arts activities and reflecting on the products and processes, students will learn how art therapy can help people increase awareness of self and others, cope with symptoms, stress, and traumatic experiences; enhance cognitive abilities; and enjoy the life-affirming pleasures of making art.

Core Curriculum Human Community (CCH)

CCH 110 | ESSENTIALS OF TRAINING AND DEVELOPMENT | 2 quarter hours (Undergraduate)
This is a 5-week, 1-competence course on Employee Training and Development. Students will learn the basic processes of employee training and development, including needs assessment, theories of learning and behavior change, training design to support appropriate selection or development of training, delivery of training, issues of transfer, and assessment of results. (2 quarter hours)

CCH 112 | EXPLORING SUCCESS TECHNIQUES FOR ENHANCING CAREER SKILLS | 2 quarter hours (Undergraduate)
This course will address challenges that individuals encounter as they seek to advance in the job market as well as the problems faced within the workplace. The purpose of the course is to refresh and increase your effectiveness and preparation as a job seeker in your chosen field. The course will cover areas such as resume and cover letter writing, interviewing techniques, and effective job searches. Meets first five weeks of the quarter. May only be taken for one competence. (2 quarter hours)

CCH 115 | THE CULTURE OF CHRISTMAS | 2 quarter hours (Undergraduate)
This course will use examples of contemporary writing and popular art as our windows into the changes to 19th century Christmas Culture. We look at the influx of immigrant Christmas tradition (both in terms of religious and national origin practices that provided the rich selection of cultural choices. We look at the social setting of the wealthy vs. the poor and the urban dweller vs. the settler to see how these affected Christmas practices. (2 quarter hours)

CCH 116 | PSYCHOLOGY OF MALE DEVELOPMENT | 4 quarter hours (Undergraduate)
This course focuses on the development of boys from infancy through adulthood within socio-cultural context. We therefore address in addition to gender, the impact of race, ethnicity, class and related issues of societal /governmental failures when it comes to non-voting children. We cover why boys have more trouble at school, more problems with anger, and more incarcerations than girls or boys of higher social class, but our focus will be on their capacities and how those in power can help them thrive rather than present obstacles in their path from birth onwards. In my work in Chicago schools from Englewood to Rogers Park, I found young boys and teens very capable of caring and empathy but not reinforced by adults to develop these skills. This course suggests ways to change that and help teachers, parents and society not stereotype boys or give up on them so early in life. We will focus on how boys can develop fully as men of character and care, who can succeed in relationships, as parents, at work and in their community. We will learn of advocacy work to convince society to improve the conditions in which boys live. We draw upon the work of the Search Institute, the book "The Men They Will Become" by Eli Newberger (free online) and other current research. We will view workshops including feminist Judith Jordan’s “Raising Competent and Connected Boys” and learn of local and national efforts to support young boys development.
CCH 118 | MAKING SOCIAL CHANGE: THE LEGACY OF THE 1960’S | 2 quarter hours
(Undergraduate)
In the first twenty years following World War II, Americans participated in the democratic process and in civil society in record numbers. They participated in public meetings, belonged to labor unions, joined churches, and formed professional societies. These civic structures and habits of involvement empowered citizens to believe they could make a difference in their communities and laid the groundwork for some of the major social movements of the second half of the 20th Century. Civil rights, second-wave feminism, gay rights, and Latino rights all have their roots in the 1960s and continued their work over the following decades. In this class, we will explore civic engagement through the lens of our recent history. We will look at how these movements developed and analyze how they achieved their goals. We will take lessons from our predecessors and apply them to our own efforts to make a contribution to the lives of people in our local, national or global communities. (2 quarter hours)

CCH 140 | WRITER’S TOOLKIT | 2 quarter hours
(Undergraduate)
Writing Toolkit courses introduce, deepen and provide practical engagement with specific topics in writing and rhetoric. These online courses allow students to engage with their peers and instructors through asynchronous and synchronous elements.

CCH 141 | CONFRONTING WRITER’S BLOCK | 2 quarter hours
(Undergraduate)
In this course, students will explore the potential causes of writer's block and practice strategies for overcoming it.

CCH 146 | HOW FAMILIES COMMUNICATE | 4 quarter hours
(Undergraduate)
This course provides students with the opportunity to apply a wide range of theories about family communication to an experience common to all-family life. Through this course, students will gain an understanding of how communication functions to develop, maintain, enrich, or limit family relationships across a wide range of family structures and cultural backgrounds. Among the family relationship issues considered in this course are patterns of intimacy, power, decision-making, roles, rituals and conflict. Factors involved in forming family patterns (e.g. gender, ethnicity, family diversity and family stories) will also be covered.

Status as a Decision Analytics or Degree Completion student is a prerequisite for this class.

CCH 154 | RACE AND ETHNIC RELATIONS | 6 quarter hours
(Undergraduate)
How do we understand and heal the wounds of racism? How do we build bridges that allow diversity to flourish in the United States? What are the connections among forms of racism such as ethnic cleansing and "pacification programs"? In this course, we will explore the roots of racism, look at the changes brought about by the civil rights movement, and examine ongoing work aimed at bridging the gaps caused by racism. Students will study a variety of topics through discussion, readings, films, debate, guest panels, and field excursions. (6 quarter hours)

CCH 155 | ANALYZING LEADERSHIP | 4 quarter hours
(Undergraduate)
This course provides a framework from which to identify and analyze leadership. Leadership occurs in all aspects of life, including: business, politics, sports, society, religion, family, education, and culture. But what is leadership? The Merriam-Webster on-line dictionary defines leadership as "the act or an instance of leading," which provides us with little insight. On further investigation, however, the dictionary defines "lead" as [guide] on a way especially by going in advance. Where there is a leader, then, someone or something must follow. This course first explores the interrelationship between a leader and his or her followers and looks at the effect they have on each other. "Good" leadership traits (i.e., effective) and "bad" leadership traits (i.e., ineffective) are then studied from the perspectives of the leaders, the followers, and outsiders. Finally, this course takes a look at leadership from an international perspective. (4 quarter hours)

CCH 165 | CHINA: MONEY, POWER AND THE 21ST CENTURY | 4 quarter hours
(Undergraduate)
The greatest migration of people in the history of the world is occurring right now, in China. Hundreds of millions of people, whose families have lived in rural China for thousands of years, are moving to rapidly urbanizing cities. This course analyzes, through the voices of the Chinese people, the dramatic impact of this social and economic revolution upon families and individuals. These changes are having a worldwide impact upon economics, trade and the new world order. Through lecture/discussions, videos, readings, on-line discussion boards and independent research, students will have the opportunity to form their own viewpoints as to the impact of globalization upon one of the oldest civilizations on earth. (4 quarter hours)

CCH 171 | ORGANIZATIONAL CULTURE IN ACTION | 4 quarter hours
(Undergraduate)
What is organizational culture? Culture is the way things are done in the organization, a system of shared symbols and a variable that focuses on causality. In this course, you will examine what organizational culture is and how knowledge of culture provides a way for gathering information to help leaders/managers improve organizational performances. This course provides a hands-on approach to learning to "read" organizational cultures and using that cultural knowledge in symbolic management, training, organizational change, building effective teams, supporting diversity, and unleashing creativity. In terms of cultural analysis, through this course, you will be introduced to qualitative research methods, field observation, interviewing, qualitative surveys, content analysis, and other methods of textual analysis. The textbook is an applied workbook to supplement and apply organizational theory. It answers two central questions: How to understand the intangible culture that is so important to working in an organization, and how to use this cultural information. Finally, you will have a chance to transform theories into practice.

Status as a Decision Analytics or Degree Completion student is a prerequisite for this class.
CCH 190 | LAW IN AMERICA: ITS HISTORY AND RELEVANCE IN TODAY'S WORLD | 4 quarter hours
(Undergraduate)
This course is designed to enhance students’ awareness of how critical American law is for their personal, professional, and community life. The purpose is to help students achieve a better grasp of current realities through understanding of the history, the structure, and inherent problems of the American legal system. The course will discuss the role of lawyers and the public in the legal process (e.g. the role of civil rights groups and lobbyists in forming laws). It will begin with the colonial underpinnings and the essentially Western and British foundations of the American legal institutions. There will be some discussion of alternative legal systems. It will then review the American Constitution, the nature of a federal system, and specific topics in American law. These topics will include the basic rights in our system, and the law as it has evolved in dealing with race ("the strange career of Jim Crow"), speech (free and otherwise), labor (its rough course), criminality and its outcomes, religion (how religious is the law), and business regulation (how much can we trust antitrust). The course will be relevant for students interested in the law as a career, the law in the workplace, the law in not-for-profit settings, and those generally interested in the law in business contexts, as well as those seeking to understand the role of the law in our social and cultural context. We will use one major textbook, as well as selected readings on topics. Students will be asked to bring their own experiences with the American legal system into our discussions and to share their perspectives of the various topics.

CCH 192 | HOW, WHAT AND WHY WE EAT: THE ART, SCIENCE AND PSYCHOLOGY OF FOOD | 4 quarter hours
(Undergraduate)
We have many connections to food. Food sustains us but it has meaning that extends far beyond basic nutrition. Eating is an individual pleasure and comfort, a tool for creating and sustaining social bonds, and a way to express one’s cultural identity. Food is tied to many aspects of life including culture, politics, agriculture and the environment. Americans have become disconnected from both the production of our food and from the joy of eating it and suffer from food related health problems such as diabetes, obesity and eating disorders. In this class we will explore the myriad of food-related habits and choices, that determine how what and why we eat. This experiential class moves beyond specific dietary guidelines by presenting concepts and skills that will help you reframe your connections with food. We will explore the multiple dimensions of food and eating from an individual, community and national level. We will explore the true meaning of nourishment. Topics include: identifying personal eating styles, mindful eating exercises, the slow food movement, locating Chicago food deserts, a field trip to a popular Chicago organic garden/restaurant, guest speaker from a Chicago restaurant mural artist, examining types of hunger and nourishment, and issues involving food and ritual, food and story, food and psychology, food and art. We will combine art, film clips, lectures, field trip, research, and mindful eating skills.

CCH 199 | MANIFESTATIONS OF BELIEF: RELIGION VS. THE CONSTITUTION DURING THE HOLIDAYS | 2 quarter hours
(Undergraduate)
The United States Constitution guarantees freedom of religion to its citizens. What is freedom of religion? How is this basic right interpreted? How far can the individual citizen go in demonstrating religious belief? When do the rights of the many supercede the rights of the few? These questions have been particularly prickly over the last few years when objections to the recitations by school children of the Pledge of Allegiance, and the display of religiously oriented holiday decorations have made national news. Where do you fall on these issues? Is it okay for New York City to have a big Christmas tree in Rockefeller Center? Do you mind if your neighborhood church displays a creche on its front lawn? What about the town hall? In this course, students will examine holiday displays around town and assess their relation to freedom of expression and freedom of religion. Students will also consider the nature of free societies, their relationship to community values, and the ways in which difference is valued, or not valued, in contemporary American culture. (2 quarter hours)
CCH 202 | STRATEGIC CONTRACT NEGOTIATIONS | 4 quarter hours (Undergraduate)
In this course, we will distinguish principled negotiation from positional negotiation. When all parties in a negotiation recognize everyone's values and interests, the stage is set for principled negotiation. In order to uncover the underlying values and interests of all parties in the negotiation, we will learn the process to manage our perceptions and the techniques to manage the other party's perceptions. We will recognize the value of various types of questions. Generally speaking, contract formation is the goal of a successful negotiation. Understanding basic contract law is key to improving a negotiation. We will examine the development of contract law. We will cover the basics of contract formation: offer, acceptance and consideration. We will examine the remedies available when a contract is breached. We will review various examples of contract disputes to evaluate the practical application of what we learned. We will put to use our basic understanding of contract law and the existence of inequities in bargaining power and our acquired negotiation skills, including using the model of spiritual development of the "four agreements," to use by participating in a contract negotiation as a final class project. (4 quarter hours)

CCH 203 | RESILIENCE FOR CIVIC ENGAGEMENT | 2 quarter hours (Undergraduate)
It can be meaningful and invigorating to contribute to change in your community and the world... and, it may also be exhausting! When the causes in the world we care about feel urgent and pressing, our ability to rest and recover often fall to the wayside, and we may not feel we have permission to take time out. In fact, in these times finding ways to be resilient is vital and enhances our ability to contribute. Beyond adaptability and bouncing back, resilience skills involve how we cope with adversity, practice mindfulness, and stay connected to others and our purpose. In this short course, our very lives and the world around us will be our subject matter. Students will tap into their unique creativity and imagination to identify what resilience practices serve their personal wellbeing and their ability to meaningfully contribute to a changing world.

CCH 206 | BANNED IN BOSTON | 4 quarter hours (Undergraduate)
Boston is a city of many faces. It's a world class city from a cultural and educational perspective, but it's small compared with its old rival, New York City, or the so called Second Cities of the US, Chicago and Los Angeles. Boston is filled with riches made from old money profits but is poor in economic growth and population. It is the go-to place for American history, yet has competition for that title from neighbors like Philadelphia and Washington DC. With such internal paradoxes and external competitors, why choose a travel course to Boston? Here's why: no matter where you were born, if you live in America, you have been influenced by Boston and its tumultuous history. John and Abigail Adams, Alexander Graham Bell, Oliver Wendell Holmes, and John Kennedy all lived for a time in Boston, as did Emily Dickenson, Robert Frost, Malcolm X, and Matt Damon. The list of famous Bostonians is as long as Boston's history. Participants in this course will gain knowledge of key figures and events in Boston's late 18th and early 19th century political and cultural history through online and classroom learning prior to embarking on a journey of discovery that will make history and culture come alive. During the 3 day weekend on-site portion of the course, we will walk the famous Freedom Trail. We will visit the church that preserves a young volunteer bell ringer's signature and learn that this was how the adult Paul Revere knew how to break into that bell tower that led to the famous "one if by sea, two if by land" signal that got the American Revolution off on the right foot. We will walk through Copley Square to view Copley's famous portrait of Paul Revere. We will ponder the empty frames that once held the priceless paintings stolen from the Isabella Stewart Garner Museum. We will view rare and forbidden books at the Boston Athenaeum as we learn what Banned in Boston actually means. When we return to campus we will reflect on the legacy of revolutionary era Boston which informs the Boston of today and the country's current conversation on democracy and freedom. In this domestic travel course centered on this most pivotal of US Cities, participants will visit historic sites, visit Boston's famous art collections, and experience its diverse neighborhoods like Boston Common, Beacon Hill, and the North End. Issues such as Boston's immigrant populations, its fame as a sea of American higher education, its connection to events in American history, and its economic output will be discussed in the preparatory classes as well as onsite. (4 quarter hours)

CCH 209 | CONSUMER BEHAVIOR INSIGHTS | 4 quarter hours (Undergraduate)
In the Consumer Behavior Insights course, students explore the processes that consumers use to make decisions. Understanding of consumer segments is developed and applied to create communication strategies using a decision-making framework. Through coursework, students demonstrate an understanding of various topics including how market intelligence is collected, market segmentation, the impact of various cultural influences on behavior, elements of persuasive communication and development of consumer-oriented strategies. Cultural norms influence receptivity to marketing communication messages. In-depth consumer knowledge of a sub-cultural segment is learned and applied as students conduct market research. Based on analysis, students develop communication objectives, positioning statements and strategies for consumer communication. The role of mass media is examined in two distinct areas. Mass media influence cultural values by reinforcing norms for consumer needs and wants. Mass media are also important means for communication of targeted advertising messages. (4 quarter hours)
CCH 219 | THE FIGHT FOR HUMAN RIGHTS: ONE WOMAN’S CRUSADE | 4 quarter hours
(Undergraduate)
Helen Prejean is a leading human rights activist in the United States. For the past 30 years, she has helped shape conversation about equal treatment for all within the criminal justice system, especially persons of color and the materially poor. Dead Man Walking, the eyewitness account of her experience accompanying condemned prisoners to execution, has had a major influence on discussion of violence, poverty, civil rights, criminal law, and social justice. In this course, students will examine the sociohistorical and socioeconomic conditions from which rap emerges and continues to thrive. Students will be guided through a careful reading of Judith Butler’s Performative Acts and will use the work to wrestle with the ways commercial hip hop’s consensual relationship with global capital complicates the project of black humanity fomenting a politics of difference.

Status as a Decision Analytics or Degree Completion student is a prerequisite for this class.

CCH 220 | FRAUD IN REAL WORLD ORGANIZATIONS | 2 quarter hours
(Undergraduate)
Financial fraud has both outright and hidden costs to society. In this 5-week course, students will learn how recognize and react to common fraud schemes in the workplace. Students will achieve objectives by engaging in online interactive scenarios designed to sharpen detective skills, analyze common fraud schemes, and learn how to outsmart potential criminals. No prior accounting expertise required.

CCH 221 | PROFESSIONAL SPEAKING SKILLS | 2 quarter hours
(Undergraduate)
Authentic, credible oral communication is paramount to attain professional and personal success. The purpose of this course is to hone each student’s ability to orally communicate effectively and with ease. Regardless of the starting point - as a beginner or a seasoned speaker - we will identify personal strengths and areas for improvement, and work upward from there. With an emphasis on the professional environment, we will explore a variety of common scenarios. Students will gain practical techniques to improve performance - ranging from formal presentations to meeting facilitations to impromptu thinking. These workplace opportunities are abundant, and participants will learn methods to shine within each! Because we represent different industries, backgrounds, and experience levels, we will employ a mix of individual and collaborative activities. The latter will ensure that we’re capitalizing on resources within our unique learning group. Students will be encouraged to select topics that are relevant to their respective careers. As well, students may use this class as an opportunity to work on their real-life speaking scenarios(s), provided it fits within the assignment parameters. (2 credit hours)

CCH 222 | FACILITATIVE DIALOGUE | 4 quarter hours
(Undergraduate)
Verbal communication is an essential component in virtually every aspect of our interpersonal lives. The focus of this course is to study those situations and settings where we need to facilitate appropriate dialogue in order to arrive at a solution in the face of potentially emotional volatility. As examples, these conversations can include: confronting an uncooperative coworker, assessing alleged wrongdoing by a student, addressing resistance in a patient, or meeting the needs of a disgruntled customer. In these situations, our own behavioral and verbal actions are important determinants in the direction, duration, and consequences of the interaction. Given the potential for us to be verbally accosted, hostilely confronted, and/or be inappropriately blamed, we often have to manage our own emotions in addition to trying to engage in facilitative dialogue. Students will examine the processes involved in emotionally volatile situations including how our emotional and physiological state work in these situations. Students will learn a framework to more effectively manage the situation in order to arrive at an acceptable outcome. This course is appropriate for those in human resources, patient- and service-oriented industries, counseling, education, leadership development, and other settings where facilitative dialogue is necessary.

CCH 228 | WOMEN IN CHINA: IMAGES AND ROLES | 2 quarter hours
(Undergraduate)
Through the introduction of images and roles of Chinese women in the past and present, this course will examine the evolving position of women in the Chinese society, the challenges that they still face, and the impact of globalization and economic developments on them today. Still photos, paintings, videos, and films will be used. (2 quarter hours)

Status as a Decision Analytics or Degree Completion student is a prerequisite for this class.
CCH 230 | FRANCE AND THE SILVER SCREEN: MODERN HISTORY THROUGH FRENCH CINEMA | 2 quarter hours
(Undergraduate)
This course will explore critical issues in the history of modern France through the lens of cinematic representations analyzed in historical context. Students will deepen their knowledge of the events and figures in French history and examine change and continuity in such phenomena as the rise of the politically-conscious urban working-class. We will also consider how French society has confronted gender difference and religious pluralism. This course also includes a focus on representations of war and militarism in film, particularly considering the rise of anti-militarist film in the aftermath of the First World War, and the role of violence in colonialism struggles in Algeria and Vietnam. This course will interpret the ways in which films portray historical events and how films contribute to public understanding of history. No prior knowledge of French language is required; all films will be in French with English subtitles.

CCH 233 | LEGACIES OF SLAVERY AND ABOLITION IN ILLINOIS | 4 quarter hours
(Undergraduate)
Understanding our history can empower us to contribute to the present, and even more so when it is the history in our own backyard. This course will unpack the complex history of the presence of slavery in Illinois, including pro-slavery forces in the nineteenth century and the anti-slavery activists who fought against slavery in Illinois and Illinois stops on the Underground Railroad. In the first half of the quarter we will learn about the little-known history of slavery practices, indentured servitude, sundown towns, Black Codes, and even lynching in Illinois history. In the second half of the quarter we will study the rise of abolitionism and anti-slavery voices, with a focus on key figures who led change, including instrumental figures who kept Illinois from becoming a slave state. A focus on how these inherited legacies impact Illinois residents and communities today will be threaded into discussions and assignments throughout the course.

CCH 235 | CHINA:WHY CHINA MATTERS-GLOBAL CITIZENSHIP FROM AN ASIAN PERSPECTIVE | 4 quarter hours
(Undergraduate)
In light of China’s influence on socio-economic and cultural globalization, the program examines the role of culture with its values and paradigmatic assumptions and what it means to be an informed global citizen. Intercultural exchanges in the USA and China guide students to critically analyze values about democracy and raise awareness about the role a country’s cultural beliefs in forming and sustaining such values in its citizens. On-site, guided excursions into historical sites, e.g., the Great Wall, the Confucian Temple and Imperial Academy, Beijing’s Business District, and the ancient neighborhood of Hutongs and dialogue with Chinese university students and faculty, clarify the roles and impact of Confucianism, Taoism and Buddhism on the global stage. This international, cross-cultural dialogue is facilitated to question assumptions while gaining a deeper understanding of differing world views. Participants will mutually explore their cultures through readings, guest lectures, and Internet-based interaction prior to and during the travel in China, with students and faculty at the Agricultural University in Beijing and Xiamen University in southeast China. The activities are designed to engage participants in critical discourse and analysis on the differences as much as the common ground surrounding issues such as social and civic engagement, democracy, and religion from the respective cultures.

CCH 236 | CULTURAL COMMUNICATIONS IN CUBA: WHO TALKS TO WHOM IN SCHOOLS AND CAFES | 4 quarter hours
(Undergraduate)
This study abroad course will provide participants with a foundation in the theories of intercultural communications. They will observe how people from different cultures communicate in public spaces, cafes, schools and other institutions and evaluate how communications are affected by place. Through their stay in Havana and a day trip to Vinhales, participants will analyze how different socio-cultural factors interact to shape individuals and interaction patterns in these different settings, as well as in the United States. They will engage in global communication and evaluate the impact of communication differences that diverse political, religious, social, ethnic and educational backgrounds have on individuals communicating within an organization or individually. Prior to departure, participants will use interactive, online technology to engage in cross-cultural communication and to create criteria for evaluating and comparing communication patterns. In Cuba, participants will collaboratively use the criteria to analyze cross-cultural aspects of language and interactions in various settings from social and political perspectives. The trip duration is 7 days. The readings and activities will interpret the ways in which films portray historical events and how films contribute to public understanding of history. No prior knowledge of French language is required; all films will be in French with English subtitles.

CCH 237 | CONFLICT MANAGEMENT, NEGOTIATION, AND CLIENT RELATIONS | 4 quarter hours
(Undergraduate)
This course will introduce students to a variety of strategies for conflict management and negotiation. Students will engage in a number of hands-on activities to develop skills that will benefit them in and beyond the workplace.

Status as a Decision Analytics or Degree Completion student is a prerequisite for this class.

CCH 238 | ENGAGING RESILIENCE IN ADULT LIFE | 4 quarter hours
(Undergraduate)
Building & Engaging Resilience (in Adult Life) (4 credit hours) (Fac: Matamonasa) ? An ancient proverb reads: ?Fall down seven times. Stand up eight.? But how? What?is involved in such flexibility, adaptability, tenacity, hardness and resilience? What understandings, values and skills help? How does one develop these and nurture them across an adult lifetime? Through this seminar, participants will explore various concepts, models and ?best practices? for growing, rebounding and self-guarding one?s resilience?given the challenges and uncertainties of adult life. (Questions? Contact instructor at amatamo1@depaul.edu.)
CCH 239 | BUSINESS, TECHNOLOGY AND OUR GLOBAL FUTURE | 4 quarter hours (Undergraduate)

Students will study the latest changes in the fields of intercultural communication and leadership development in today’s global corporations, including reading interviews from some of the world’s leaders in manufacturing, energy, telecommunications, and health care from numerous countries. This course combines hard science with cutting-edge organizational research-based case studies in today’s trans-cultural global corporations. Students study key behaviors needed today to be successful in a global corporation, including cultural self-awareness, frame-shifting, inviting the unknown, third-way solutions, and others. Students will also study how “disruptive technologies”, mobile internet, automation of knowledge work, cloud technology, next generation genomics, 3D printing, advanced materials, and renewable energy are changing and will continue to revolutionize global corporations. This course concludes with an analysis of the effects of social justice and corporate social responsibility on today’s global corporations. (4 credit hours)

CCH 243 | POST-TRAUMATIC SLAVE SYNDROME AND ITS AFFECTS | 2 quarter hours (Undergraduate)

This FDIS seeks to inform students about the nature of trauma, and the impact of post-traumatic slave syndrome (PTSS) on African-American life and culture. In the context of this course, both of these phenomena are associated with 250 years of U.S. chattel slavery, followed by decades of de jure and de facto racial discrimination. It is a subject that has historical, psychological and sociological implications and thus is a must for students pursuing undergraduate and/or graduate work in these areas. With this primary goal in mind, students will be asked to review one of two texts on the subject, Joy DeGruy-Leary’s Post Traumatic Slave Syndrome: America’s Legacy of Enduring Inquiry and Healing or Thom Burrell’s Brainwashed: Challenging the Myth of Black Inferiority, along with selected readings where appropriate.

CCH 249 | NEW YORK: AN HISTORICAL OVERVIEW | 2 quarter hours (Undergraduate)

This Faculty Designed Independent Study (FDIS) encourages students to study the history of one of our nation’s oldest and most vibrant cities: New York City, including its five boroughs: Manhattan, the Bronx, Brooklyn, Staten Island, and Queens. The readings associated with the course provide a skeletal history of the city’s nearly four hundred years. Students are then asked to read a series of articles that elaborate on key historical events and/or eras, i.e. the city’s role in the American Revolution, the Great Depression, the impact of deindustrialization and suburbanization, and development of art and culture across different epochs, among other areas. Students are finally asked to supplement readings and a major homework assignment with a five-page paper that mirrors the spirit of their competence. The collection of readings and video presentations offer a fascinating, insightful, and fun look at one of the most interesting and intriguing American metropolises.

CCH 253 | FAMILY LIFE: THE PAST, PRESENT AND FUTURE OF FAMILIES | 4 quarter hours (Undergraduate)

In history, families have been defined as mother, father, and children. In our current experience, more families differ from that model than comply with it. Family structure is evolving. Missing fathers, Single parents, and Blended families are only a few of the changes to the family structure that have occurred with some significance beginning in the 1950s. (2-4 quarter hours) What influences family structure? Do economics and education make a difference? Are race and ethnicity important factors? What about gender, personality and religion? Is the two parent family necessary? What role do grandparents and great grandparents play in the changing family? Perhaps the most important question we can ask about the family is what comes next. What are the many ways in which families might be redesigned in the future? How do these changes impact individuals in society?.

CCH 257 | PARTICIPATION AND DEMOCRACY IN AMERICA | 4 quarter hours (Undergraduate)

This course focuses on laws affecting relationships between employers and employees and within the workplace. Students will study the historical and societal aspects of laws on harassment and discrimination within the workplace, with particular focus on the Civil Rights Act and various other legislation regulating harassment and discrimination in the workplace. Students will analyze the case law, the legislation and the legal systems that have evolved to combat social injustice in the workplace and will learn “best methods” for preventing and resolving harassing and discriminatory practices in the workplace. (4 quarter hours)
CCH 274 | THE BILL OF RIGHTS IN CONTEMPORARY LIFE AND WORK | 4 quarter hours (Undergraduate)
This course will be organized around a series of central questions: What is law? Who has the authority to make one? What are the various sources of law? What is or should be the relationship between law, ethics and morality, between law and religion? What is the difference between legislative law and constitutional law? What are the legal, historical, philosophical and political sources of American constitutional law? What sort of society did the Framers of the Bill of Rights have in mind and are their ideas still applicable in 21st century America? How does the Bill of Rights fit into our constitutional framework and what rights does it guarantee? What is the relationship between the states and the federal government in guaranteeing those rights? What is the relationship between our legal system and our political system generally? What criteria do judges use to interpret laws? How does our own legal system differ from those of other countries and cultures? Are there any universal rights worth protecting? What role does (or should) science play in upholding our rights under the Bill of Rights? Possible areas to be covered are freedom of speech, religion, establishment of church and state, the right to privacy, the 4th, 5th and 6th Amendments? protections for criminal defendants and the death penalty.

CCH 281 | VOICE OF HER OWN: EQUALITY IN ACTION | 2-6 quarter hours (Undergraduate)
On January 21, 2017, over two million women around the world marched. They marched in big cities, small towns, and on every continent. Why did they march? What was and will be the impact of their marching? What can we learn from this phenomenon? These are questions we will explore in this course using three different disciplinary perspectives: history, psychology, and rhetoric. (6 credit hours)

CCH 282 | LEISURE FOR WELL-BEING | 2 quarter hours (Undergraduate)
The personal feeling of well-being includes "emotional happiness" and the rational satisfaction with one's own life. In this course you will attempt to define the term "well-being" and discover its relationship with other concepts such as mental health and life satisfaction. How does physical exercise influence well-being? How do positive and negative life events influence well-being? Do good social relationships guarantee happiness? Do the expectations one has in life with regard to income influence well-being? Is it important to set goals to achieve a high level of well-being? These and other questions will be addressed in this course. You will be asked to participate actively and critically, to work individually and in study groups, using your own experience as a field of analysis and reflection. Active group participation will foster a harmonic, interactive environment, which might increase positive relationships among students and foster a feeling of well-being throughout this course. (2 quarter hours)

CCH 283 | GLOBAL PERSPECTIVES OF WORK & FAMILY | 4 quarter hours (Undergraduate)
What role does the political, economic, and cultural structure of a nation play in its concepts of work and family? This course develops students' understanding of issues in the history of family and work through historical and contemporary accounts from Europe and the United States. We will take a close look at issues such as the gender division of labor, child labor, government policies on maternity, economic structure as well as social and political movements. Course materials include historical documents, lectures, films, and varied readings. Assignments will include essays, reflection journals, discussion, and a research project on work-life balance. (4 credit hours)

CCH 284 | JAZZ AGE PARIS: 1919-1939 | 4 quarter hours (Undergraduate)
This is a history of Parisian society and culture in the era between the two world wars. We will explore issues of race, class and gender in the interwar period in French society. We will also examine the role of American writers, artists, musicians and performers in the cultural world of Paris, the City of Light, and an outpost in the Harlem Renaissance. (4 credit hours)

CCH 286 | NEW ORLEANS IN SONG, STORY & STRUGGLE | 4 quarter hours (Undergraduate)
The tapestry of New Orleans culture is tremendously rich and varied. This course will concentrate on two strands in that tapestry music from New Orleans and fiction about it. Students will learn about music forms which originated in the city or its environs and which have gone on to dazzle the world, including jazz, r&b, zydeco and funk. We will situate these art forms in social and historical context and examine the complex creative processes which have shaped them. We will become familiar with innovators and icons such as Louis Armstrong, Professor Longhair, Clifton Chenier, the Neville Brothers and Dr. John. We will also read works by literary artists who have a background in and/or fascination with New Orleans, including The Awakening by Kate Chopin; A Streetcar Named Desire by Tennessee Williams; and Mumbo Jumbo by Ishmael Reed. Moreover, we will consider the role played in American history and imagination by New Orleans as well as the role played by images and fantasies of New Orleans in struggles for social justice at the local and national level.

CCH 289 | PSYCHOLOGY FROM AN AFRICAN-CENTERED PERSPECTIVE | 4 quarter hours (Undergraduate)
This course utilizes an African-centered theoretical framework to examine salient themes pertinent to the psychology of people of African descent, including child development, family functioning, identity, education, racial oppression, spirituality, and healing. It takes an historical and topical approach to foster greater understanding about the course content. Through this examination, the learner will become more knowledgeable about the psychological experiences of people of African descent, the role of history and culture in human development, and the subjectivity of research in the social and natural sciences. They will also reflect on the relevance of the course material to their personal lives.
CCH 293 | LAW AND THE WORKPLACE | 4 quarter hours
(Undergraduate)
This course will examine the interrelationships between our economy, business and the practice of law. It will also examine contemporary legal issues in the world of work. Students will examine the structures of the legal community and the impact it has on how business is conducted, and on the economic system in which we live and work. Through readings, discussion, and group projects, students will investigate the interfaces of law, with an emphasis on torts and employment law, as well as current issues which have evolved as the practice of law has become a big business itself. Students will develop and evaluate plans individually or through group interaction for applying new insights to affecting change in their own working environments. (2-4 quarter hours)

CCH 299 | ASSESSING AND MANAGING CONFLICT | 4 quarter hours
(Undergraduate)
Our usual method for presenting, analyzing, and resolving conflicts has centered around legalistic argument; the goal being to discover the "right" answer and suppress the "wrong" ones. However, the multiple worldviews operating in the world today make such an approach to conflict less viable. Reflecting this reality, ways of communicating about and resolving conflict have arisen that go beyond enforcement of rules or legal determinations of right and wrong. In this course, we will look at various methods for handling conflict and consider how we might apply them to personal, work, community and literary conflicts through lecture, small group work, role playing, reading, various written projects, and discussion.

CCH 300 | GLOBALIZATION AND PROFESSIONAL PRACTICE | 4 quarter hours
(Undergraduate)
For decades scholars have observed a growing body of evidence and employers a growing body of experience of significant changes in the way that international business is conducted. These changes in the business world, brought on largely by globalization, present new challenges. These challenges require staff with specific skills related to global competence in order for the business to remain competitive. The goal of this course is to help students to cultivate and/or refine the skills and capabilities necessary to succeed in today's global work environment. Organized around four learning units and one major project, the class will provide each student with extensive content and resources; it will also provide a forum for assessing the competences necessary to attain success in a global workplace and a method for honing those skills each student needs to cultivate. (4 quarter hours)

CCH 315 | ECONOMICS FOR DECISION-MAKING | 4 quarter hours
(Undergraduate)
The purpose of this course is to provide the modern consumer living in a global economy fueled by unabated technological progress, with basic notions to understand the path that has led to sustained prosperity. The focus is on endowing students, as householders, with conceptual tools to make optimal financial and consumer decisions throughout the life-cycle. That theoretical foundation is reinforced and exemplified with a wealth of practical applications offered through a student-friendly online interactive learning platform, which also provides a convenient means to complete weekly assignments. That online platform will help students relate what they learn to their everyday experience of active participants in the economic game. The course is divided into two modules, microeconomic and macroeconomic, and basic economic methodology is presented in both. Microeconomic topics include scarcity, opportunity costs, the law of diminishing returns, the trade principle of comparative advantage, the mechanism of the price system, the laws of demand and supply, the impact of market interventions by the government, etc. Macroeconomic topics include the forces undergirding the performance of the gross domestic product (GDP), the forces that influence inflation and unemployment, the role of fiscal and monetary policy, the workings of money and banking, the relevance of balancing the requirements of economic growth (efficiency in the use of inputs) with the necessity of attending to the needs of both society (need for equity) and the environment (need for sustainability), etc. (2-4 credit hours)

CCH 323 | INTERNATIONAL LAW AND HUMAN RIGHTS: HISTORY AND PRACTICE | 2-4 quarter hours
(Undergraduate)
This foundational course introduces the history and the evolving meaning of human rights and international law including the study of current global human rights issues, notably genocide and refugees. (2-4 quarter hours)

CCH 325 | CONNECTING THOUGHT AND BEHAVIOR | 4 quarter hours
(Undergraduate)
This course introduces students to concepts of Cognitive Psychology. They will review the history and development of the field and explore how cognitive processes impact thought and behavior. Through an experiential learning process, students will explore the science behind such topics as perception, consciousness, memory, language, problem solving, reasoning and emotional experience and how these cognitive abilities impact their lives.

CCH 330 | LAW IN THE BUSINESS ENVIRONMENT | 2 quarter hours
(Undergraduate)
The influence of the law is far-reaching in the corporate world. Whether an entrepreneur, manager, administrative assistant, union employee, nonunion employee, sales representative, purchasing agent, etc., the law ultimately affects how we make decisions in the work arena. This course allows students to discover the wide range of laws affecting America's business environment. Students will learn how the law is established and developed, and be provided with tools to recognize potential legal issues that arise in daily business operations. The curriculum considers the impact of the law in the global workplace, and in commerce, business operations, employer/employee relationships, and in the regulatory environment.
CCH 334 | THE BUSINESS OF US HEALTH CARE IN A CHANGING ENVIRONMENT | 4 quarter hours
(Undergraduate)
This course will provide students with a foundation on the various dimensions of today’s health care system to include how it operates and is managed. This course will examine the interactions between insurance companies, the U.S. government and health providers to the delivery of quality care to the individual. The overview will include the structure of health care system segments, demographics and context of differentiation in the delivery of medical care. Students will improve their knowledge and skills in thinking critically through healthcare-related issues, successfully understand the concepts presented and discuss the ethical contexts of the decisions that businesses, government agencies and decision-makers consider when addressing health care. Key activities will entail research, analysis, and identification of best practices. Students will analyze the financial and economic health care decisions at a national, community and business level.
Status as a Decision Analytics or Degree Completion student is a prerequisite for this class.

CCH 335 | HUMAN RESOURCE AND TALENT DEVELOPMENT FUNDAMENTALS FOR MANAGERS | 4 quarter hours
(Undergraduate)
This course is designed as an introduction to the practices of human resources (HR) in a corporate environment. It will target the practices that managers need to know such as recruiting, training, hiring, and terminating employees as well as the basics of HR law. Additional content that will be addressed includes headcount management, performance appraisals, learning & development, compensation basics, and grievance processes. This course will equip managers with the information they need to know without making them Human Resource experts but rather how to work effectively with their HR counterparts. (4 hours)

CCH 344 | INTERNATIONAL RELATIONS: A CROSS-CULTURAL PERSPECTIVE | 4 quarter hours
(Undergraduate)
In this course, students will examine how cultural attributes shared by a society’s members affect international affairs. Those attributes include ways of thinking and reasoning, styles of behavior and communication, and fundamental assumptions and values. The course is organized into three parts: an examination of American cultural patterns; an examination of cultural influences on human thought processes; and an examination of the cultural dimension of international negotiation through a comparison of Asian, European, Central American and the U.S. methods of reaching agreements.
Status as a Decision Analytics or Degree Completion student is a prerequisite for this class.

CCH 359 | ETHICAL BUSINESS BEHAVIOR | 4 quarter hours
(Undergraduate)
Ethical Business Behavior explores the ethical issues that business decision-makers face and examines the moral principles that are used to help resolve these issues. Ethical decisions in the workplace can have tremendous influence on the individuals and the corporations involved. The outcomes of unethical behavior can affect reputations, trust and career path. Results have been as severe as loss of employment, physical harm to individuals, corporate bankruptcy and even impacts to the economy. Students are placed in decision-making roles through exercises, case studies and role-playing. Reasoning skills are honed through identification of ethical issues and alternative means to analyze these issues. Ethical behavior is evaluated using analytical skills to apply ethical concepts to business situations. (4 quarter hours)

CCH 362 | POVERTY, POLICY AND THE ECONOMY: POOR IN THE USA | 4 quarter hours
(Undergraduate)
This course will explore the history of efforts to help the poor in the United States. The impact of the economy and foreign policy upon support for government funded programs to assist low income persons will be evaluated. Students will engage in first hand learning by researching resources available to help those in need.
Status as a Decision Analytics or Degree Completion student is a prerequisite for this class.

CCH 363 | ACHIEVING YOUR WORK AND LIFE GOALS | 4 quarter hours
(Undergraduate)
You will study the process of goal achievement from goal definition through development of a vision, review of resources and obstacles, strategic ordering of tasks and steps, effective communication and problem solving and development of an action plan. You will consider theories of goal setting, planning, communication, and negotiation, and engage in practical exercises that will require the application of theory. You will produce a completed action plan for a defined career or personal goal. (4 quarter hours)

CCH 367 | LEISURE, RECREATION, AND HEALTH | 4 quarter hours
(Undergraduate)
This course will stimulate your thinking about the meaning of leisure in your life. Leisure today and historically has been central to the human experience. It is an elemental experience, essential to the total well-being of every person; it is a reflection and expression of the cultural values of a society; it is an important vehicle for treatment. Leisure and recreation services comprise one of the largest and fastest growing industries in the world, whether measured in dollars spent, persons served, hours of time devoted, or resources used. The study of leisure and recreation is a broad discipline, combining diverse fields of study and professional practice. This course will (1) illustrate the importance of leisure to you and your loved ones, (2) contribute to your ability to become an informed consumer of leisure, (3) question the binary relationship of work and leisure and, (4) teach you how to use leisure to increase emotional and physical health, resulting in a higher quality of life. The course will be interactive and participatory.

CCH 370 | AFRICAN SPIRITUALITY AND EDUCATION | 4 quarter hours
(Undergraduate)
The course involves an in-depth study of indigenous African educational practices and the spiritual values that support them. Indigenous Africans understand and live life as one whole, rather than seeing it as a compartmentalized experience of religion, spirituality, politics, economics, etc. Using Nelson Mandela’s autobiography "A Long Walk to Freedom" and the instructor’s book, “The Heartbeat of Indigenous Africa,” the course will invite students to remember, reclaim, and re-tell their own stories of childhood experiences, educational experience, and life experience. Class work will include discussion, active story-telling and listening, projects, and writing. Out-of-class-work will include talking with and listening to selected elders such as storytellers, parents, grandparents, formators, counselors and others, in order to disclose and identify fundamental human virtues/values that are inherent in any holistic human formation process. (4 quarter hours)
CCH 383 | PROMOTING HEALTHY COMMUNITIES | 4 quarter hours
(Undergraduate)
How can we organize our communities and design programs to improve rates of asthma, HIV and obesity? This course will explore a variety of methods that organizations in Chicago use including the identification of community assets that can mobilize to improve health. Students will read about and analyze the reasons that health inequality is linked to income, race, national origin and age, and learn experientially by developing their own project with an organization in Humboldt Park called the Community of Wellness that was launched as a community wide effort to promote a healthier community.

Status as a Decision Analytics or Degree Completion student is a prerequisite for this class.

CCH 387 | AFRICAN-AMERICAN STUDIES IN CRITICAL PERSPECTIVE | 4 quarter hours
(Undergraduate)
This interdisciplinary 19th and 20th century African-American studies course examines the role of protest and resistance, the media, and cultural and artistic expression in African-American history. Vis-a-vis readings, documentaries, and discussion, the course intends to illustrate the multiple ways in which African-Americans have protested and resisted oppression while examining how such efforts have been framed in the media during varying historical eras. It defines ‘media’ broadly and analyzes its role, both via its traditional forms (print, television and radio) but also vis-a-vis other forms of entertainment/infotainment that were particularly unique to 19th century U.S. society (i.e. minstrelsy [1830-1920]). The course concludes with a discussion of the role of art and culture in refashioning thinking and transforming experience. The latter discussion promises to be rich and thought provoking and unearths some of the works of the raw and revolutionary artists of the 1960s while taking a careful look at novel cultural practices that emerged during this period.

Core Curriculum Scientific World (CCS)

CCS 153 | SCIENCE FOR CITIZENS | 2 quarter hours
(Undergraduate)
Students will learn basic knowledge of science as they engage in activities that are connected to their everyday life. They will explore their natural ecosystem and be able to describe various functions. They will engage in the scientific method through observations, hypotheses, data collection and basic data analysis. Students will apply their critical thinking based on the scientific method to local environmental or science related issues/events. (2 quarter hours)

CCS 204 | URBAN GROWTH AROUND THE GLOBE | 4 quarter hours
(Undergraduate)
This course will analyze the interrelationships among population, the environment, and economics. Past, current, and potential future policies relative to these issues will be evaluated.

CCS 208 | ISSUES IN SCIENCE AND RELIGION | 4 quarter hours
(Undergraduate)
This course develops students’ understandings of the scientific and religious constructions of self in the modern world (natural and social). The institutions and bodies of knowledge comprising science, religion, and their overlap are critically analyzed. Key historic debates are examined, for example: the Vatican’s trial of Galileo for his teachings of a heliocentric universe; the controversial reception of Darwin’s theory of evolution; and the 2001 U.S. policy on embryonic stem cell research. Through such analyses, the course develops students’ skills in making ethically-informed decisions and thus recognizing their roles in the public debates involving the intersection of science and religion.

CCS 211 | GAMIFICATION FOR TRAINING | 4 quarter hours
(Undergraduate)
This course is geared to be a survey course covering five key applications of more advanced tools for work and leisure, it also presents techniques to address challenges that always arise in learning new technologies. (No advanced technology skills are required.) The five key applications are creating websites, video enhancing with ScreenCast or Camtasia, Animation, introduction to e-game designs, and delivering applications using mobile delivery. The assignments for this course will provide opportunities to learn how to use these five applications but will also require students to use critical problem solving skills for these apps so that what they learn in this course that can be transferrable across the constantly growing array of new technologies.

CCS 212 | URBAN ENVIRONMENTAL SCIENCE | 4 quarter hours
(Undergraduate)
The study of environmental science uncovers the relationship between the built environment and the natural processes of the earth. This includes human interactions and the impact on habitats, plants, animals and those non-living entities that we rely on such as water, air and soil. An examination of the dynamics of human population growth and migration, food production and climate issues, chemical toxicity and health, waste and sustainability, energy production and consumption will illustrate how these issues are connected by increasing global urbanization. This course will provide the framework to guide your decisions as a consumer and a citizen in both a global and local environment. Role-playing and discussions on everything from the choices of fabrics for clothes, transportation, animal rights to the amount of water used while brushing your teeth will show the connections of your behavior to global consequences. Through reading, research, writing, class discussion, individual and group projects, students will learn the key to a sustainable future.

CCS 217 | UNDERSTANDING AND MEASURING INTELLIGENCE | 4 quarter hours
(Undergraduate)
In this course, students examine intelligence testing and its uses in employee selection and placement. Students learn the principles of assessing human traits (reliability, validity, bias and other systematic errors), and apply them to intelligence testing. We will work to define “intelligence” and consider various approaches to intelligence, contrasting the theories of unitary vs. multiple intelligences. Students will examine the implications of the definitions and measurement approaches on different groups of people, both historically and currently, with attention to the unintended effects of the biases of test developers and the ethical implications of different approaches and uses of intelligence testing.
CCS 218 | W.A.T.E.R. - WHAT ABOUT THE OTHER ESSENTIAL RESOURCE? | 4 quarter hours
(Undergraduate)
Water supports all aspects of our life. Water impacts our environment, health, security, and the economy. There is a need for society to be "water wise" in today’s world. Creating sustainable methods to resolving water quantity and quality problems in stormwater, wastewater, watershed, and water distribution systems is essential. If you are interested in learning more about the dynamics of water and how you can be an engaged citizen, this is the learning experience for you. We will explore and discover scientific, social, cultural, artistic, and historical viewpoints of water. Finally, this course offers an opportunity for learners to think critically, problem-solve, engage in active learning, and most of all peer collaboration. (4 hours)

CCS 219 | NEUROPLASTICITY AND THE AGING BRAIN | 4 quarter hours
(Undergraduate)
In this course, we will examine the latest research on the aging process and, specifically, its relationship to the brain. We will cover a mix of material from psychological and, especially, neuroscientific fields. Students will also be introduced to the field of neuroplasticity, which is revolutionizing the way we understand the functioning power of the brain. Neuroplasticity, in simple terms, is the brain’s ability to rearrange its connections and, therefore, its functions based on experiences. In other words, the brain has the capacity to literally change itself, based on experiences, to achieve positive results. The goals of this course are to understand how the brain works, examine its impact on our daily actions, study how aging impacts brain functioning, discover the learning and adjustment potential of the brain, and apply the principles of the 3 P’s. We will use numerous examples to understand the brain, including health, work, relational, and personal settings. Students will ultimately answer the question of whether they will have an aging or reengaging brain.

CCS 223 | PRINCIPLES OF A SUSTAINABLE LIFESTYLE | 4 quarter hours
(Undergraduate)
Our consumer choices, habits and lifestyle have a local and global impact. The items we consume, such as housing, furnishings, clothing, transportation, travel, food, recreation, entertainment, and disposables mainly come from non-renewable natural resources produced in far away lands and have a cradle-to-grave lifecycle. Awareness and education as to the safety and efficacy of consumer products is often suspect with contradicting information from the media, manufacturers and advocacy groups. Employing a sustainable paradigm for all of your consumer choices will allow you to have a smaller footprint, (ecological and carbon) on the planet and live a healthier, guilt free existence. We will explore the meaning of the “triple bottom line” or cradle to cradle approach to consumption. Consumer models, field trips and personal experiments will help pave the way to become a conscientious global citizen.

CCS 230 | CANNABIS AND SOCIETY | 2 quarter hours
(Undergraduate)
This course engages students in foundational studies of cannabis, drawing upon perspectives from science, medicine, history, sociology, law, ethics, and business. Students will receive a broad introduction to the plant’s key facts, uses, status, and controversies in contemporary society, with an emphasis on the local Illinois context. We will draw comparisons between cannabis and other drugs. The course focuses on developing students’ competencies in critical and ethical analysis, dialog, and civic engagement.

CCS 231 | URBAN DIRT | 4 quarter hours
(Undergraduate)
This is a course designed for the student who desires to know the difference, complexity, and the diversity between soil and dirt. The benefit of learning about soil is multi-fold: understanding the Earth, understanding how and where your food grows, gardening, impact on water quality, and most of all understanding your role in improving overall environmental quality and sustainability. In addition, this class will offer introductory knowledge of soil and its dynamism. Although learning about soil can be very scientific, there are several social and artistic views of soil. If you ever wanted to know why soils are various colors and fertility, and home to various organisms, as well as the uses and mapping of soils, then this is the course to take. Understanding the complexities of soil will aid in understanding Earth and its intricacy.

**Status as a Decision Analytics or Degree Completion student is a prerequisite for this class.**

CCS 239 | MANAGING THE HEALTH CARE EXPERIENCE | 2-4 quarter hours
(Undergraduate)
Positive health care outcomes and quality health care services are vital for health care institutions. A wide array of metrics and health care standards are essential instruments that validate compliance with regulations and reveal operational deficiencies. The multi-layered patient perspective, measured through outcomes, communication, and surveys offers a unique value to health care institutions. The course provides students with an opportunity to design quality improvement solutions in a health care system in consideration of the patient experience, operational systems and evaluation practices. Students learn how health care institutions ensure quality health care. Students also examine and analyze problems through ethical perspectives and, qualitative and quantitative methods. The learning experience includes short films, reflection, readings, discussion, research, analysis, presentations and essay writing. The final project may consist of a comparison of ethical perspectives, a description of how key aspects of health interrelate or an analysis of a healthcare institution’s operational system or evaluation structure.

CCS 240 | THE SCIENCE OF TRADITIONAL CHINESE MEDICINE | 4 quarter hours
(Undergraduate)
This is a 10-week course that explores the science of Oriental Medicine and its system of interconnection to nature and the human body. Students will study Chinese Medicine (CM) theory, investigating this healthcare model that is based on imbalances or blockages in the body leading to illness. They will study CM Five Element theory which connects personal constitution to nature and the elements. Students will explore the system of "meridians" or nerves whose interconnectedness generate health in CM. Through processes of self-exploration, written essays and reflection, students will review the sciences of CM theory, pathology, diagnosis and basic applications of the medicine (Acupressure/ herbology).
CCS 249 | ANIMAL SCIENCE AND THE ROLE OF MODERN ZOOS | 2 quarter hours
(Undergraduate)
The main objective of this course is for students to increase their love and understanding of animals!!! It will be a fun and interactive course where you will gain a general understanding of the animal kingdom and how animals are classified. You then will be able to identify animals as an individual organism, describe their natural habitat and better understand their role or ecological niche as it relates to its environment. Students will discover the importance of zoos and how they have become leaders in providing the knowledge needed to preserve the natural world. You’ll learn what zoos do with that information and how they make a difference with regards to environmental issues such as habitat destruction and the importance of species preservation. Students will investigate different zoological institutions and compare how each are unique in their animal collections, the way they support and conduct research, and convey that knowledge to the scientific community and the general public.

CCS 250 | WIDGETS, CLICKS, & TWEETS: ESSENTIALS OF APPLIED WEB TECHNOLOGY | 2 quarter hours
(Undergraduate)
This course will provide students with an overview of the history of the Internet and basic marketing strategies as they relate to the Internet and Web 2.0 technologies. Students will learn about how to keep abreast of new technology, how these technologies can be used to market services and products as well as how they can be used to create and maintain social networks for professional use.

CCS 251 | UNDERSTANDING GLOBAL HEALTH CONCEPTS AND PRACTICES | 4 quarter hours
(Undergraduate)
Many of the greatest challenges in public health are global. This course uses a multidisciplinary approach to discuss the major underlying determinants of poor health and the relationship between health and political, social and economic development. Drawing upon the sciences, social sciences and humanities, learners will be introduced to the evolution of modern approaches to the setting of global health priorities, the functions and roles of health systems, an overview of current global health practices, and the major institutional players in global health. We will explore the factors shaping the global distribution of disease and their connection with issues of social, economic and political development, as reflected in the Millennium Development Goals. We will also consider the impacts of globalization on health risks and availability of health resources. By engaging in critical assessment and proposing innovative solution ideas, we will develop all four competences offered for this course.

Status as a Decision Analytics or Degree Completion student is a prerequisite for this class.

CCS 256 | EVERYDAY ECOLOGY | 4 quarter hours
(Undergraduate)
Every week, we learn of typhoons and landslides, floods and hurricanes, droughts and other natural catastrophes. Scientists now agree that the major cause of climate shift is man-made, specifically our use and abuse of global energy resources. In Everyday Ecology we will analyze our energy use patterns and explore practical alternatives. The word "ecology" originates from the meshing of two Greek words meaning the "study of homes." Although the main focus of this course is the individual household, another ?household? we must take into account is the economy. Ecological economics examines how both disciplines need to look toward the other to be viable long term. We will examine options to bring the earth household (ecology) and the human household (economy) together for the benefit of both. This course observes how man? is connected to the world around him. It allows us to see our options in response to growing concern over global climate change. Through readings, field trips, activities, discussions and an analysis of our personal use of energy, this course enables us to become increasingly aware of ecological issues. You will learn to evaluate the effect of personal choices on the earth and be introduced to alternative, 'greener' options.

CCS 259 | PREHISTORIC LIFE | 4 quarter hours
(Undergraduate)
This course promotes students’ investigation of fossils to interpret the character of 3.5 billion years of biological evolution and ecological change on earth. By way of scientific reasoning, mathematical inference, and applicable technologies, emphasis is on the exploration of earliest evidence of life, development of multi-celled plants and animals, dinosaur evolution, mass extinction events, mammal diversification, human origins as well as appraisal of the societal reliance on fossil resources and the persistent debate over evolution versus creation. Learning is assessed through labs, a fieldtrip, an exam, video summaries, contributions to online discussions, and a research paper in a scientific format.

CCS 261 | EXPLORATIONS IN BIOLOGY | 2 quarter hours
(Undergraduate)
This course provides an introductory study of organic macromolecules, the cell, genetic activity and the theory of evolution. Throughout the course we will stress the interdependence of the three biological sub-specialties of genetics, ecology and evolution.

CCS 267 | NUTRITION FOR A LIFETIME | 4 quarter hours
(Undergraduate)
Today’s consumers want and need to be educated about taking charge of their own health. With the current fast-paced world that has spilled over into our eating habits, food choices have become unlimited. Choosing a healthful approach to diet requires basic information about our bodies’ nutritional needs. The greater our understanding of our basic bodily needs, the better we are able to make choices concerning our health. This course will offer an overview of the basic science of nutrition, with an emphasis on the relationship between disease and nutrition, and current research findings.
CCS 269 | ENERGY AND HEALTH | 4 quarter hours  
(Undergraduate)  
This course will provide a framework for understanding human energy systems, such as digestion and respiration, in relation to current healthcare practices to enhance their effectiveness (dietary approach, manipulation therapies, acupuncture, exercise, and meditation). We will consider connections between social and environmental variables such as constitution, stress, lifestyle, and vital physiological functions. Each class will build on the basic understanding of biological systems in relation to energy through lecture and discussion. We will review literature on various healthcare practices to discern sound approaches and practical applications. Students will cultivate an appreciation for daily health choices that cumulatively affect their health.

CCS 275 | BODY, MIND, SPIRIT: YOGA AND MEDITATION | 4 quarter hours  
(Undergraduate)  
Why are 20 million Americans practicing yoga? This course answers that question with an introduction to yoga and meditation techniques and the underlying scientific and philosophical principles of the system of yoga. The first half of each class will be experiential, conducted as a yoga and meditation class for beginners, providing tools to reduce stress, focus the mind, and cultivate inner peace. This first hour and a half will use yoga postures, breathing exercises, and meditation techniques. The second half of each class will use readings, reflection, and discussion to examine the scientific and philosophical knowledge of yoga as a way to ease stress, strengthen the bone and muscle structures, lower blood pressure, increase flexibility and strength, improve mind functioning, and provide spiritual sustenance. We will read Yoga Mind Body and Spirit: A Return to Wholeness by Donna Farhi, and The Yoga Sutras of Patanjali, research articles on the scientific studies of yoga’s benefits from journals and websites, etc. Students will keep weekly reflection journal observations on the changes(s) they notice in themselves. This course will refresh, relax, rejuvenate. Yoga mats and other props will be provided. Bring/wear comfortable clothes (no jeans, belts, dresses). This is a Gentle Yoga class for beginners. Yoga means to unite or yoke so course will explore the ways to unite body, mind, spirit. This course is designed to 1) help establish good health and well-being; 2) gain scientific knowledge and understanding of the various systems of the human body; and 3) explore the spiritual benefits of meditation.

CCS 281 | RATS IN THE CITY: LIBERAL ARTS IN ACTION | 2-6 quarter hours  
(Undergraduate)  
This course directs students to analyze an engaging topic (here, urban rats) from multiple perspectives in the liberal arts. Students strengthen their problem-solving skills by drawing upon the ideas and methods of three different liberal arts disciplines. The learning activities clarify how the liberal arts can be put into action to solve problems. The course strengthens students' development of critical thinking and academic writing across the curriculum. Students also will learn about resources that will be useful for their academic success at DePaul. (2-6 credit hours)

CCS 282 | NUTRITION BASICS AND BEYOND | 4 quarter hours  
(Undergraduate)  
This introductory course will provide a framework for understanding the fundamentals of nutrition, vitamins and minerals, nutrition and disease prevention, food labeling, nutrition through the life cycle, weight management and more. Each class will build upon the basics by exploring current issues and research related to specific topics. Throughout the course, students will begin to separate information from misinformation as well as gain practical knowledge to incorporate into day to day life.

CCS 285 | ENVIRONMENTAL ETHICS | 4 quarter hours  
(Undergraduate)  
This course contains two distinct strands of learning: (1) the current condition of the natural world and the ways it is approached scientifically; and (2) the major premises of the most significant ethical frameworks in use today. Using this knowledge, students investigate several contemporary environmental problems, identifying their underlying causes, and analyzing various proposed solutions. This is complemented by the intensive study of major ethical perspectives, particularly those which have developed alongside, and as a consequence of, grave environmental concerns. The course project is a collaborative endeavor to integrate the knowledge and skills acquired through mastery of both learning strands.

CCS 292 | EXPLORING EARTH'S PHYSICAL FEATURES | 4 quarter hours  
(Undergraduate)  
This course advances student exploration of earth’s 4.5 billion year geologic record in order to evaluate the planet’s evolution and the interrelationships between humans and landforms. Through the application of scientific reasoning, mathematical inference, and prevailing technologies used by geologists, emphasis is on plate tectonics, geologic time, the rock cycle, weathering, earthquakes, fluvial features, rock structures, volcanoes, mountains, plateaus, plains, glacial features, deserts, caves, and coasts. Students also assess human reliance on landforms, the economics of landforms, and cases of earth pseudoscience. Learning is assessed through labs, fieldtrips, a scientifically-formatted research paper, an exam, and contributions to online discussions.

CCS 300 | PROJECT MANAGEMENT | 4 quarter hours  
(Undergraduate)  
Project Management is a business concept which has received a great deal of attention over the last few years. Business managers are discovering that the complexity of human and technological systems forces workers to organize, prepare, and monitor project development in a way which was not necessary in simpler times. In this course, students will discuss and discover methods of project organization and execution which will help them achieve efficacy and success in the workplace. This course will cover concepts in describing project goals, setting priorities, identifying needs, and designing realistic time lines. Students will learn how to execute successful projects from start to finish. (4 quarter hours)

CCS 320 | MAMMALOGY | 2-4 quarter hours  
(Undergraduate)  
This course will introduce you to the origins, evolution, ecology, and biodiversity of the class Mammalia. Key topics will include mammalian anatomy, classification, genetics, reproduction, thermoregulation, locomotion, behavior, ecology, and conservation. Special emphasis will be on investigating the connections of mammalian evolutionary biology to human health issues including disease, nutrition, physical activity, injury, and overpopulation. Online learning will incorporate readings, discussions, a science ‘kit’ for hands-on labs, virtual labs using 3D mammals, and computer simulations. Student will also undertake collaborative experimentation and onsite inquiry of mammals at a zoological park, museum, and/or nature reserve. Prerequisite: None.
CCS 328 | GLOBAL INFECTIOUS DISEASES AND HEALTH | 4 quarter hours
(Undergraduate)
In this course we will learn about the global burden of disease with an emphasis on understanding the critical intersection of policy, social expectations in determining how health systems function and adapt to address new challenges; and examine why some health systems are so fragile in the face of new disease challenges such as the Covid-19 pandemic. We will look at the role of globalization in introducing “western world” diseases to low and middle income countries, and we will learn about the science-based methods and tools we have to track the emergence of new disease threats, assess global disease burden, understand disease mitigation strategies, and compare our ability to measure improvements in health outcomes in well-resourced and resource-poor countries. Online learning will include readings, slide presentations, discussions, and open-source epidemiological tools to examine disease burden and trends.

CCS 329 | DATABASE DEVELOPMENT FOR MANAGING INFORMATION | 4 quarter hours
(Undergraduate)
Using MS Office tools suite (in particular Access), this course takes students through the entire process for building a database system that will be used to capture, store and present information. In addition to database concepts like designs, reports and SQL queries, the students will discuss and analyze relationships between technology and society.

CCS 332 | BIODIVERSITY | 4 quarter hours
(Undergraduate)
The science of Biodiversity is the study of life on earth, both past and present. It involves the exploration and measurement of the amount of genetic, species, and ecological variation on earth and is emerging as one humanity’s most important and urgent endeavors. Scientific efforts to study earth’s biodiversity have intensified because of our growing appreciation of the role human population growth and urbanization play in accelerating the extinction of plant and animal species. This course introduces students to the nature of science and the central issues concerning life on earth including: the current state of biodiversity, valuing life’s variations, human dependence on biological diversity, the origin and extinction of species, mass extinction, critical habitats at risk, and policies and approaches to conserve biodiversity (4 hours)

CCS 337 | THE HUMAN GENOME AND ITS IMPACT | 4 quarter hours
(Undergraduate)
This course will address the principles of genetics with an emphasis on the genetic code of the human genome. In this course we will examine: how the genetic code is stored, how it is used, how it is evolving, how it is passed from one generation to the next, the consequences of genetic code errors, the medical, technological, legal and ethical issues associated with the human genome. We will discuss how we can, and how we should, use the information on the human genome.

CCS 352 | TECHNOLOGY, TRAINING, AND HUMAN PERFORMANCE | 4 quarter hours
(Undergraduate)
What Robinson and Robinson describe as “the shift from providing training to improving performance” has been cited as a top priority in our fast-paced, global economy. This course covers the principles of training and human performance through an analysis of real case studies in a number of work environments. The course will also present the necessary technology and instructional design tools so that students can design their own training program and develop a basic training and performance plan that reflects their own work environments. Students are expected to have basic computer skills, including the ability to use and save work with Microsoft Word. (4 credit hours)

CCS 360 | SOCIETY AND INFORMATION TECHNOLOGIES | 4 quarter hours
(Undergraduate)
Humans have a long line of technological advances that includes tools, weapons, transportation, mechanical, industrial, and medical advances. On one hand, the computer is just another invention that is part of this long line of technological advances. On the other hand, the ability to program the computer makes it different with an incredible diversity of uses. Computer technology has made large impacts in diverse areas such as sports management, health care, employment, manufacturing, education, defense, and automobiles and many other areas. This course explores how computing technologies such as computer software and hardware, and networking has affected our society. Students will examine the basics of how these technologies work and how they have affected areas of human endeavors. We will examine how these technologies changed, improved, simplified and complicated society.

Status as a Decision Analytics or Degree Completion student is a prerequisite for this class.

CCS 365 | ADDICTION STUDIES | 4 quarter hours
(Undergraduate)
This is an introductory course in the field of addiction studies. In this course we will examine the relationship between drugs and behavior, the personal and social concerns of drug-taking behavior and how drugs work in the body and mind. Legal and legally restricted drugs as well as medical drugs will be discussed. We will also cover issues of prevention, treatment and education. By the end of this course students will understand (1) the differences between use, abuse and addiction to drugs; (2) the extent of substance abuse in the United States today; (3) the legal, social and cultural ramifications of substance abuse; (4) methods of treatment and prevention of substance abuse; (5) major classifications of addictive substances; and (6) how drugs work in mind and body. This course will be a mix of lecture, discussion, videos and other supplemental materials. In addition to their competence papers, students will work in small groups on projects related to addiction and will present their group’s findings to the class.

Status as a Decision Analytics or Degree Completion student is a prerequisite for this class.

Counseling (CSL)

CSL 95 | CLINICAL ORIENTATION | 0 quarter hour
(Graduate)
Students will be oriented to the expectations and requirements of the practicum and internship experiences in Human Services and Counseling. (0 credit hours)

CSL 96 | CLINICAL APPLICATION | 0 quarter hour
(Graduate)
This milestone course ensures that all students have met the requirements for clinical placement. (0 credit hours)

CSL 97 | CLINICAL PLACEMENT | 0 quarter hour
(Graduate)
This milestone course ensures that students have secured a clinical placement that fulfills all requirements for Human Services and Counseling Program. (0 credit hours)
CSL 200 | LEADERSHIP AND SOCIAL CHANGE | 4 quarter hours  
(Undergraduate)  
This is an advanced course exploring how leadership theory interacts with organizational structures, advocacy, and social justice. The class is structured to expand from the individual to the group/organization/school level to the societal macro view of leadership. The topics of leadership development and leadership education in P-16 settings will be included. Contemporary topics in leadership will be addressed to coincide with social change and leadership. (Cross-listed with CSL 500).

CSL 377 | SOCIAL EMOTIONAL LEARNING IN THE MIDDLE GRADES | 4 quarter hours  
(Undergraduate)  
This course introduces social-emotional learning standards and their relevance and application to middle grades content area classrooms. Topics addressed include the relationship between social emotional learning and classroom management as well as bullying and cyberbullying in school communities. Co-requisites for this course are MGE 341, MGE 351 and MGE 361. In this course, students will: 1. Senior status and Advanced Teacher Candidate Standing are prerequisites for this class.

CSL 451 | LEGAL AND ETHICAL ISSUES IN COUNSELING | 4 quarter hours  
(Graduate)  
Professional counseling involves interplay of ethics, personal values and legal implications of practice. A core component of the course is a focus on how personal values intersect with ethical decision-making. Ethical codes and ethical decision-making models related to the profession are studied so that the students will have the knowledge of professional ethical practice. An examination of local and federal laws in relation to the previously mentioned components will be examined. Students engage in case conceptualization, small group activities, role-playing with lectures, and video technology.  
Admission to the Counseling Masters Program is a prerequisite for this course.

CSL 452 | INTRODUCTION TO THE COUNSELING PROFESSION | 4 quarter hours  
(Graduate)  
This introductory course provides students with a broad yet comprehensive overview of the Counseling profession. Through lectures, discussions, activities, and group work, students learn and apply core concepts and aspects of counseling including basic counseling skills, advocacy, multiculturalism, ethics, evaluation, and assessment. For most of the primary topics covered, students will take a full course on them later in the program.  
Admission to the Counseling Masters Program is a prerequisite for this course.

CSL 454 | CAREER COUNSELING | 4 quarter hours  
(Graduate)  
This course introduces students to methods for assisting individuals in choosing, preparing for, and progressing in a career. Vocational testing and sources for occupational information are explored and technology tools designed for career exploration are demonstrated. The study of vocational behavior in relation to career patterns is also considered, with special attention to the analysis of empirical data and theories pertaining to vocational choice.  
Admission to the Counseling Masters Program and a grade of B- or better in CSL 451 and CSL 452 are prerequisites for this course.

CSL 458 | GROUP COUNSELING | 4 quarter hours  
(Graduate)  
This course includes the study and ethics of group process, theoretical application, leadership and membership styles and problems such as conflict resolution. Students will engage in a regular group experience as a part of the course. In addition, opportunities to observe and participate in group work in the community are also part of the course. In addition, CSL 501 Counseling Skills must be taken either before or concurrently with CSL 458 Group Counseling.  
Admission to the Counseling Masters Program and a grade of B- or better in CSL 451 and CSL 452 are prerequisites for this course.

CSL 461 | TESTING AND APPRAISAL | 4 quarter hours  
(Graduate)  
This course includes a detailed analysis of intelligence, aptitude, personality, and achievement tests used with groups and individuals. The course is intended to familiarize students with various appraisal procedures and their utilization. Attention is given to the development of the institutional testing program.  
Admission to the Counseling Masters Program and a grade of B- or better in CSL 451 and CSL 452 are prerequisites for this course.

CSL 466 | ASSESSMENT AND TREATMENT OF CHEMICAL DEPENDENCY | 4 quarter hours  
(Graduate)  
This course seeks to develop skills and understanding relevant to the assessment and treatment of chemical dependency. The major alternative assessment approaches and treatment interventions for chemical dependency are surveyed and analyzed.  
Admission to the Counseling Masters Program and a grade of B- or better in CSL 451 and CSL 452 are prerequisites for this course.

CSL 467 | COUNSELING THEORIES | 4 quarter hours  
(Graduate)  
This course reviews counseling a broad range of counseling theories. Counseling techniques and process derived from these various counseling theories will be used in classroom experiences and with follow-up assignments. Students will begin to develop their own theoretical orientation. Theoretical frameworks will be considered for a variety of counseling contexts.  
Admission to the Counseling Masters Program and a grade of B- or better in CSL 451 and CSL 452 are prerequisites for this course.

CSL 475 | COLLEGE AND CAREER READINESS COUNSELING FOR SCHOOL COUNSELORS | 4 quarter hours  
(Graduate)  
This course provides an introduction to college and career readiness counseling in the school context. Students are introduced to career theories and resources, as well as strategies to promote access and readiness for postsecondary education.  
Admission to the Counseling Masters Program and a grade of B- or better in CSL 451 and CSL 452 are prerequisites for this course.

CSL 476 | COLLEGE AND POSTSECONDARY ACCESS COUNSELING | 4 quarter hours  
(Graduate)  
This course will introduce students to the college and postsecondary education admissions process. Students will learn methods for counseling others through selecting, applying, and transitioning to postsecondary education. Topics include admission requirements for various types of higher education institutions, financial aid, college match and fit concepts, college search technology, college transition, and working with special populations.
A grade of B- or better in CSL 451 and CSL 452 are prerequisites for this course.

CSL 480 | SPECIAL TOPICS IN COUNSELING | 1 quarter hour (Graduate)
The content and format of this course are variable. This course includes an in-depth study of a specific topic in counseling. Subject matter will be indicated in the class schedule. (1 credit hour)
A grade of B- or better in CSL 451 and CSL 452 are prerequisites for this course.

CSL 481 | SPECIAL TOPICS IN COUNSELING: | 2 quarter hours (Graduate)
The content and format of this course are variable. This course includes an in-depth study of a specific topic in counseling. Subject matter will be indicated in the class schedule. (2 credit hours)
A grade of B- or better in CSL 451 and CSL 452 are prerequisites for this course.

CSL 482 | SPECIAL TOPICS IN COUNSELING: | 4 quarter hours (Graduate)
The content and format of this course are variable. This course includes an in-depth study of a specific topic in counseling. Subject matter will be indicated in the class schedule.
A grade of B- or better in CSL 451 and CSL 452 are prerequisites for this course.

CSL 483 | COUNSELING INTERVENTIONS AND TREATMENT PLANNING | 4 quarter hours (Graduate)
This course provides students with an introduction to empirically supported treatments for specific disorders occurring across the lifespan. Opportunities for hands-on practice with several treatments are required.
Admission to the Counseling Masters Program and a grade of B- or better in CSL 451, CSL 452 and CSL 489 are prerequisites for this course.

CSL 484 | ISSUES IN CLINICAL MENTAL HEALTH COUNSELING | 4 quarter hours (Graduate)
This course provides students with a review of up-to-date information on the issues related to community and clinical mental health counseling including but not limited to outcome evaluation, prevention and wellness strategies, advocacy strategies, counselor roles, reimbursement, paperwork, and referral processes.
Admission to the Counseling Masters Program and a grade of B- or better in CSL 451 and CSL 452 are prerequisites for this course.

CSL 485 | SEXUALITY COUNSELING | 4 quarter hours (Graduate)
This course provides students with an overview of human sexual development and the assessment and treatment of various sexual issues and disorders. Topics covered include common development of human sexuality, sexual concerns, sexual behavior, sexual orientation, gender identity, diagnostic and assessment techniques, treatment planning, and therapeutic interventions for individuals and couples.
Admission to the Counseling Masters Program and a grade of B- or better in CSL 451 and CSL 452 are prerequisites for this course.

CSL 489 | PSYCHOPATHOLOGY | 4 quarter hours (Graduate)
This course provides students with an overview of normal and abnormal personality and behavior, and the DSM-5 and ICD classifications and descriptions of mental health disorders. Specific attention is given to diverse cultural perspectives in diagnosis and assessment.
Admission to the Counseling Masters Program and a grade of B- or better in CSL 451 and CSL 452 are prerequisites for this course.

CSL 490 | FOUNDATIONS OF STUDENT AFFAIRS | 4 quarter hours (Graduate)
The course examines historical and philosophical elements relative to the role of student affairs in higher education as well as the impact of changing demographics on current trends pertinent to the management of student affairs. The course also provides students with theoretical and practical knowledge about organization structure, services, and faculty/staff/administrative functions in student affairs.
Admission to the Counseling Masters Program and a grade of B- or better in CSL 451 and CSL 452 are prerequisites for this course.

CSL 491 | CONTEXTUAL DIMENSIONS OF COLLEGE STUDENT DEVELOPMENT | 4 quarter hours (Graduate)
This course examines the impact of institutional mission and state and national policies on access, retention and graduation rates. Organizational change, decision-making and conflict resolution strategies are explored within the context of strategic planning, organizational structure and leadership style and management. Personnel selection, management theories and performance evaluations are also studied. Various assessment practices are reviewed and analyzed. Within this framework, student demographics, campus culture and student development theory (traditional and contemporary) are examined.
Admission to the Counseling Masters Program and a grade of B- or better in CSL 490 are prerequisites for this course.

CSL 492 | PROGRAM DEVELOPMENT IN STUDENT AFFAIRS | 4 quarter hours (Graduate)
This course explores models for designing, managing, and evaluating student affairs programs, including the use of technological applications. Students become familiar with models and methodologies of program development and implementation in higher education and understand how to use professional standards and other resources for program development.
Admission to the Counseling Masters Program and a grade of B- or better in CSL 491 are prerequisites for this course.
CSL 500 | LEADERSHIP AND SOCIAL CHANGE | 4 quarter hours (Graduate)
This is an advanced course exploring how leadership theory interacts with organizational structures, advocacy, and social justice. The class is structured to expand from the individual to the group/organization/school level to the societal macro view of leadership. The topics of leadership development and leadership education in P-16 settings are included. Contemporary topics in leadership are addressed to coincide with social change and leadership. (Cross-listed with CSL 200).

CSL 501 | COUNSELING SKILLS | 4 quarter hours (Graduate)
This course is designed to provide students with a comprehensive application and integration of the basic counseling skills used in the helping profession. Skills emphasized in the course include: active listening, attending, rapport building, empathy, paraphrasing, confrontation, reflection, and goal setting. These skills enable students to establish a helping relationship with a client, facilitate the client’s self-exploration and engagement in counseling, and encourage the client’s active progression towards achieving specified counseling goals. Students practice basic counseling skills and participate in in-vivo role-play through laboratory exercises in the Education and Counseling Center (ECC). The instructor gives feedback on skill development to students during face-to-face consultation and through the viewing of videotaped sessions.

Admission to the Counseling Masters Program and a grade of B- or better in CSL 451 and CSL 452 are prerequisites for this course.

CSL 510 | MULTICULTURAL COUNSELING | 4 quarter hours (Graduate)
This course is designed to provide students with a basic foundation in multicultural counseling with an emphasis on culturally proficient counseling practices. Students learn multicultural models and counseling interventions for working with culturally and linguistically diverse populations. Attention is given to issues such as worldview, acculturation, racial/ethnic identity, culture-centered interventions, and various dimensions of diversity. Role play is used throughout the course to provide students with a more in-depth application of culturally responsive services.

Admission to the Counseling Masters Program and a grade of B- or better in CSL 451 and CSL 452 are prerequisites for this course.

CSL 511 | SUPERVISION | 1 quarter hour (Graduate)
This course is an introduction to the theory and practice of supervision in the Counseling profession. There is a focus on developing the basic skills necessary for the effective supervision of counselors. (1 credit hour)

Admission to the Counseling Masters Program and a grade of B- or better in CSL 451 and CSL 452 are prerequisites for this course.

CSL 512 | CRISIS INTERVENTION | 2 quarter hours (Graduate)
This course provides students with an understanding of the principles of crisis intervention and crisis management with a focus on the school setting. Focus is on the common characteristics and manifestations of crisis and addresses methods and techniques of crisis intervention. (2 credit hours)

Admission to the Counseling Masters Program and a grade of B- or better in CSL 451 and CSL 452 are prerequisites for this course.

CSL 513 | CONSULTATION FOR COUNSELORS | 1 quarter hour (Graduate)
This course focuses on the theory, techniques, practice and skill development needed to effectively provide consultation in communities and schools. Emphasis is on the application of consultation, collaboration and the role of the consultant. (1 credit hour)

Admission to the Counseling Masters Program and a grade of B- or better in CSL 451 and CSL 452 are prerequisites for this course.

CSL 514 | CRISIS INTERVENTION FOR SCHOOL COUNSELING | 2 quarter hours (Graduate)
This course provides students with an understanding of the principles of crisis intervention and crisis management with a focus on the school setting. Working with individuals and groups in crisis is significantly different than other counseling situations, both in the characteristics of the clients and in the types of intervention strategies employed. This course provides the skills and knowledge needed to employ crisis intervention strategies in school settings. (2 credit hours)

Admission to the Counseling Masters Program and a grade of B- or better in CSL 451 and CSL 452 are prerequisites for this course.

CSL 515 | CRISIS INTERVENTION AND TRAUMA COUNSELING | 4 quarter hours (Graduate)
This course provides students with an understanding of the individual in crisis and the impact of trauma. Students develop the knowledge and skills needed to access and treat both the acute and long-term effects of trauma. Subjects such as disaster response, psychological first-aid, and evidence-based treatment models are examined and students explore perspectives on the causes and prevention of trauma as it applies to the individual, family, local, national, and international community. The role of power and oppression in the experience of trauma within family, socio-political, and ethno-cultural systems is also addressed.

Admission to the Counseling Masters Program and a grade of B- or better in CSL 451 and CSL 452 are prerequisites for this course.

CSL 519 | SPECIAL EDUCATION: LEGAL AND PROFESSIONAL ISSUES FOR SCHOOL COUNSELORS | 2 quarter hours (Graduate)
This course introduces students to special education law including relevant legislation, cases, and regulations. Students also learn about the development, monitoring, and implementation of IEPs. In addition, this course addresses the school counselor’s potential role in the evaluation, referral, monitoring, and consultation of students with special needs. (2 credit hours)

Admission to the Counseling Masters Program and a grade of B- or better in CSL 451 and CSL 452 are prerequisites for this course.

CSL 520 | COUNSELING CHILDREN AND ADOLESCENTS | 4 quarter hours (Graduate)
This course considers the theoretical foundations of working with children and adolescents. It addresses developmentally appropriate counseling perspectives and interventions. Emphasis is on the child/adolescent in various systemic contexts, multicultural factors, specific child/adolescent problems, and the role of the school counselor in helping to prevent and remediate them.

Admission to the Counseling Masters Program and a grade of B- or better in CSL 451, 452, 467 and 501 are prerequisites for this course.
CSL 521 | CONTEXTUAL DIMENSIONS OF SCHOOL COUNSELING | 4 quarter hours
(Graduate)
This course addresses the role of the school counselor and provides an understanding of the coordination of counseling program components as they relate to the school and the wider community. Students explore the various roles of the school counselor as advocate, leader, consultant, collaborator and counselor. The developmental approach to school counseling programs and the Transformed School Counseling Initiative are introduced and integrated throughout the course. Students must take CSL 521 and CSL 522 consecutively.

CSL 451, CSL 452 (B- or better required) and Advanced Masters Education (Counseling) student or Counseling (Licensure) student are prerequisites for this course. Students must pass the TAP test prior to enrolling in CSL 521.

CSL 522 | DELIVERY OF COMPREHENSIVE DEVELOPMENTAL SCHOOL COUNSELING PROGRAMS | 4 quarter hours
(Graduate)
This course focuses on the comprehensive development, delivery, and evaluation of school counseling programs based on the Illinois state model and the American School Counselor Association national model. Students learn strategies to develop school counseling programs that align with school wide goals, to promote the value of counseling activities and programs, to plan for and present school counseling core curricula, and to use data to effect systemic change. Students must take CSL 521 and CSL 522 consecutively.

CSL 521 (B- or better required), and status as an Advanced Masters Education (Counseling) student or Counseling (Licensure) student are prerequisites for this course.

CSL 523 | LEARNING AND CLASSROOM MANAGEMENT FOR SCHOOL COUNSELORS | 4 quarter hours
(Graduate)
This course explores current learning frameworks in education and education reform movements that impact learning and classroom management. The history of foundational learning approaches is also covered particularly those from the 19th and 20th centuries. Classroom management models and theories of inner discipline and consistency management are discussed so that the school counselor can assist educators and parents in home-school management of youth. Students develop original lesson plans, and observe and interview current educators as a part of this course.

Advanced Masters Education (Counseling) or Counseling (Licensure) student and a grade of B- or better in CSL 451, 452, 467, 501, and 510 are prerequisites for this course.

CSL 552 | PRACTICUM IN COUNSELING | 4 quarter hours
(Graduate)
The practicum course is the initial professional practice experience for the CSL student. The student begins to see her/himself as a counselor-in-training in an actual counseling setting and will develop and continue to work on mastery of counseling skills in a clinical setting. The practicum requires a minimum of 100 clock hours during the quarter.

Grade of B- or better in CSL 451, CSL 452, CSL 458, CSL 467, CSL 501, and CSL 510 or CSL 492 or CSL 511 or (CSL 475 and CSL 522) and status as an Advanced Masters Education (Counseling) student are prerequisites for this course.

CSL 553 | INTERNSHIP IN COUNSELING I | 4 quarter hours
(Graduate)
After the completion of required courses and consultation with one’s advisor, the student-intern is approved to be in a professional practice site such as a school, community agency, college or university. The student-intern functions under the joint supervision of a professionally qualified site supervisor and a university faculty supervisor. Internship I requires a minimum of 300 clock hours on site each quarter with a minimum of 120 clock hours in direct service work. A structured contract requires specific experiences and expectations of the student, site, and University, and is signed by all parties. Ongoing reflective seminars are a part of the internship experience and are related to concentration specific topics and the skill and process development of students.

Admission to the Counseling Masters Program and a grade of B or better in CSL 552 are prerequisites for this course.

CSL 554 | INTERNSHIP IN COUNSELING II | 4 quarter hours
(Graduate)
This course is a continuation of Internship I. The student-intern continues with a minimum of 300 clock hours under supervision of the site supervisor and university faculty supervisor using a structured contract. Note: School Counseling students must have also met the 181 testing requirement for this course.

Admission to the Counseling Masters Program and a grade of B or better in CSL 553 are prerequisites for this course. (School Counseling students must also have met the 181 testing requirement as a prerequisite for this course.)

CSL 555 | INTERNSHIP IN COUNSELING III | 0 quarter hour
(Graduate)
This course is a continuation of Internship II. The student-intern continues with a minimum of 200 clock hours under supervision of the setting supervisor and University faculty supervisor using a structured contract. (0 credit hours)

Admission to the Counseling Masters Program and a grade of B or better in CSL 554 are prerequisites for this course.

CSL 556 | COUPLES AND FAMILY COUNSELING | 4 quarter hours
(Graduate)
This course focuses on providing theoretical formulations and practical illustrations applicable to the practice of marriage and family counseling. Students engage in role-playing, case study, and observation of counseling techniques. Skills expected in this course include understanding the process of marriage and family counseling and the role of the counselor in the marriage and family setting. Students will learn to develop effective marriage and family strategies, and to conduct complete case analysis.

Admission to the Counseling Masters Program and a grade of B or better in CSL 451 and CSL 452 are prerequisites for this course.

CSL 558 | INDEPENDENT STUDY IN COUNSELING | 1-4 quarter hours
(Graduate)
Admission to the Counseling Masters Program and the permission of instructor, department chair and associate dean are required for this course. (1 credit hour)

Admission to the Counseling Masters Program is a prerequisite for this course.

CSL 559 | THESIS RESEARCH IN COUNSELING | 0 quarter hour
(Graduate)
A student writing a thesis registers for this non-credit course. Where the thesis research and the writing of the thesis itself are prolonged beyond the usual time, the program advisor may require the student to register for additional credit. (0 credit hours)

SCG 410, thesis, advanced Mast
Criminology (CRIM)

CRIM 101 | INTRODUCTION TO THE CRIMINAL LEGAL SYSTEM | 4 quarter hours (Undergraduate)
The course examines the relationship between crime and the criminal legal system in American society. Specifically, the course will introduce students to the origins and purposes of the criminal law, explaining why rules are broken and who breaks them, and exposing students to the those agencies that comprise the criminal legal justice (police, courts, corrections).

CRIM 105 | CRIME AND THE MEDIA | 4 quarter hours (Undergraduate)
The objective of this course is to examine the influence of mass media on crime and society. Specifically, the course explores how mass media shapes the public’s understanding of criminality, social responses to criminality, and the criminal justice system. Through an analysis of television, film, newspaper, and electronic/internet media channels, the course explores how the media represents, distorts, and/or filters crime and criminal justice issues. Students will be able to be able to identify the common links between media representations and criminal justice actors, issues, and policies; in addition to becoming critical consumers of media related depictions of criminality.

CRIM 107 | CRIMINOLOGY GOES TO THE MOVIES | 4 quarter hours (Undergraduate)
This course explores popular representations of crime in films. Crime films communicate social concerns, moderate public debates, and serve as the primary point of access to criminal justice agencies and populations. This course will examine how crime films influence notions of criminality, victimization, and appropriate social responses. Students will discover the significance of crime films in shaping and distorting public perceptions of crime and punishment in society. The course will contextualize crime films within existing and emerging issues in Criminology, including policing, courts, penology, criminal injustice, wrongful convictions, organized crime, gangs, drugs, communities, forensic science and serial killers.

CRIM 201 | LAW ENFORCEMENT | 4 quarter hours (Undergraduate)
The course examines the social and historical origins of police systems in America. Specifically, the course will introduce students to the role of policing in society, explaining how police organizations operate and respond to occupational challenges.

CRIM 202 | CRIMINAL LAW AND PROCEDURE | 4 quarter hours (Undergraduate)
The course examines the historical and philosophical development of procedural law in America. The course will introduce students to the definition, constitutionality, and application of criminal law. The course will consider interrelationships between law, custom, morality, and social change.

CRIM 203 | CORRECTIONS | 4 quarter hours (Undergraduate)
The course examines the history, philosophy, and practice of corrections in America. The course will introduce students to the origins and purposes of corrections, explaining how U.S. culture defines punishment, incarceration, and social control. The course will expose students to the individual agencies and prison administrators that comprise the American system of corrections.

CRIM 205 | RACE, CLASS, GENDER AND THE CRIMINAL LEGAL SYSTEM | 4 quarter hours (Undergraduate)
The course examines the relationship between Race, Class, Gender, and the criminal legal system. Throughout the course, we will examine the multiple and intersecting ways these concepts shape the criminal process. Specifically, how do these socially constructed axioms influence a variety of institutional contexts such as law enforcement, courts, and corrections? The goal is to provide students with knowledge and understanding of the criminal legal system from the position of under-represented groups in America.

CRIM 206 | CRIMINAL INVESTIGATIONS | 4 quarter hours (Undergraduate)
The objective of this course is to examine the fundamental principles and procedures employed in criminal investigations. The course will introduce students to investigative theory, collection and preservation of evidence, interviews and interrogations, behavioral analysis and criminalistics. The course will consider procedural law and the constitutional limits to criminal investigations. Specific topics include drug laws, juvenile justice, victims, white-collar crime, ethical behavior, and criminal justice policies.

CRIM 207 | LAW ENFORCEMENT MANAGEMENT | 4 quarter hours (Undergraduate)
The objective of this course is to examine the fundamental concepts of law enforcement administration and management that underlie decision-making, policy formulation, operational strategies, and procedural limitations. The course will introduce students to organizational patterns, administrative processes, and management theories in regards to law enforcement. The course will consider internal and external factors affecting the role of police administrators in relation to organizational communications and community relations. Special topics include leadership, political climate, unionization, recruitment and retention of qualified law enforcement personnel, training policies, and management issues.

CRIM 208 | LATINOS AND THE CRIMINAL JUSTICE SYSTEM | 4 quarter hours (Undergraduate)
The objective of this course is to examine the relationship between Latinos/as and the criminal legal system. Throughout the course, we will ask (1) what distinguishes Latinos/as from other racial and ethnic groups (2) and what Criminological theories can help us understand the causes of these differences and inequalities. The course will examine key variables such as historical context, ethnic and race relations, and current criminal justice policy regarding Latinos/as in the United States. Cross-listed with LST 209.
CRIM 209 | CRIME AND PUNISHMENT | 4 quarter hours
(Undergraduate)
This course examines the nature of crime and the justification of punishment. Through historical and contemporary readings, basic issues such as what crime and punishment actually are, how punishment has been and continues to be justified, and the various forms that penal practices have taken will be explored. The course will also examine the question of social justice as it relates to punishment and the vexed problem of whether any forms of crime can ever be morally justified.

CRIM 215 | GANGS IN SOCIETY | 4 quarter hours
(Undergraduate)
The objective of this course is to provide a historical and organizational examination of gangs in society. The course will address the nature and definition of gangs, gang typologies and theoretical explanations of gang behavior. The course pays particular attention to social, cultural, political, and economic causes of gangs. In addition, students will analyze law enforcement responses, intervention and prevention strategies, and public policy issues. In short, students will develop a greater understanding of the social forces that contribute to the creation of gangs and assess societal responses to reduce deviant behavior.

CRIM 218 | COMMUNITIES AND CRIME | 4 quarter hours
(Undergraduate)
The objective of this course is to examine the connection between crime and various aspects of community context. Specifically, the course will explore how conditions and processes both within the community and in the broader society impact crime. The course will pay particular attention to factors that influence community-level crime rates and the effects on individual behavior. Students will assess Criminological explanations regarding the causes of crime, the consequences for neighborhoods, and how policing and imprisonment influence crime, violence, and the people who reside in such communities. Special topics of interest include social disorganization, collective efficacy, industrial and post-industrial urbanization, population instability, family structure, the concentration of poverty, economic processes, and social transformations.

CRIM 225 | COMMUNITY NON-VIOLENCE | 4 quarter hours
(Undergraduate)
The objective of this course is to examine non-violence efforts to reduce crime in violent communities. Specifically, the course will introduce students to the history, theory, and practice of non-violence with an emphasis on crime prevention and social change. The course will highlight factors that influence community-level violence, the effects that community characteristics have on individual violence, and attempts to resolve violence through non-violent means.

CRIM 228 | CRIME PREVENTION | 4 quarter hours
(Undergraduate)
This course provides an introduction to the science and practice of crime prevention. Specifically, the course examines the history, theories, and philosophies that inform crime prevention strategies. The course pays particular attention to the role of community capacity building in preventing crime and explores alternatives to incarceration. Students develop informed decision making skills by linking crime to individual and societal factors, collaborating with community and criminal justice agencies, and assessing the social costs associated with current criminal justice policies regarding punishment.

CRIM 235 | JUVENILE JUSTICE | 4 quarter hours
(Undergraduate)
This course provides a historical and philosophical examination of juvenile justice in American society. Specifically, the course explores the nature and extent, causes and correlates, and treatment and prevention of juvenile delinquency. The course reviews current policies and practices influencing juvenile justice as well as societal definitions and reactions to juvenile delinquency. Special topics include: the role of family and peer groups, substance abuse and mental health, school violence, status offenses, jurisdiction and function of juvenile agencies, disproportionate minority confinement and prevention and treatment programs.

CRIM 240 | CRIMES OF THE STATE | 4 quarter hours
(Undergraduate)
While the state has traditionally been the author, guardian and executor of criminal law within its own borders, there are numerous instances when the state violates its own standards of criminal law. This course explores major global cases of state-sponsored criminal activities including cases of torture, war crimes, terrorism, and genocide. Students study the ways that the state implicates itself in crimes concerning the obstruction of justice, disinformation, cover-ups, unaccountability and fraud. To this end, the course explores the measures used to determine whether a state’s activity is criminal and compare them against behaviors and operating standards by which the estate attempts to fulfill its own civic goals.

CRIM 245 | HATE/BIAS CRIMES | 4 quarter hours
(Undergraduate)
This course provides an introductory understanding of the definitions of hate/bias crime; examines the causes and consequences of hate/bias crimes, explores hate/bias crime as it relates to policy and legislation; and scrutinizes the reporting, investigation, and prosecution of hate/bias crimes in the United States.

CRIM 257 | SCHOOL VIOLENCE, DISCIPLINE AND JUSTICE | 4 quarter hours
(Undergraduate)
The objective of this course is to examine crime and punishment in America’s educational system. Specifically, the course will introduce students to the nature, extent and proposed remedies to school violence. The course will pay particular attention to the policy and practice of school discipline grounded in the philosophy of law and order and the criminalization of young people. Within the context of educational justice, students will explore equitable access to quality instruction, school resources and alternatives to punishment. Finally, a number of special topics such as bullying, sexual harassment, dating violence, school shootings, the school to prison pipeline, zero tolerance, school resource officers, corporal punishment, and restorative justice will all be addressed in relation to the larger macro concerns of the American ethos of education and the primary institution of upward mobility in American society.

CRIM 264 | FORENSIC SCIENCE | 4 quarter hours
(Undergraduate)
This course introduces the field of forensic science and its application to the criminal legal system. Specifically, the course explores the theory and practice of forensic science used in the collection, examination, preservation, evaluation and interpretation of evidence. Students will understand the basic considerations, guidelines, and procedures that comply with both legal and scientific regulations regarding the use of physical evidence. Special topics include crime scene techniques, nature of evidence, physical and chemical analyses, toxicology, DNA, botany, entomology, courtroom activities and new trends in forensic science.
CRIM 265 | DOMESTIC AND INTERNATIONAL TERRORISM | 4 quarter hours  
(Undergraduate)  
This course is designed to introduce students to the topic of terrorism, both domestically and internationally. The course will critically examine how terrorism is defined, what is known about the causes of terrorism, the strategies and tactics of terrorist groups, and the efficacy of current prevention and intervention efforts.

CRIM 290 | SPECIAL TOPICS | 4 quarter hours  
(Undergraduate)  
In-depth examination of selected and timely social issues. Topics vary from quarter to quarter. Topics may be initiated by students.

CRIM 301 | RESEARCH METHODS IN CRIMINOLOGY | 4 quarter hours  
(Undergraduate)  
The course examines the fundamental principles of social science research. Specifically, the course provides students with the necessary skills to design, conduct, interpret, and evaluate criminal justice data.

CRIM 101 is a prerequisite for this class.

CRIM 302 | STATISTICS IN CRIMINOLOGY | 4 quarter hours  
(Undergraduate)  
The course introduces students to the basic principles and techniques of statistical analysis. Specifically, the course utilizes quantitative research methods to collect, analyze, and evaluate criminal offending patterns and criminal justice responses to crime.  
(MAT 095 & MAT 100) or MAT 101 or placement and CRIM 101 are prerequisites for this class.

CRIM 303 | CRIMINOLOGICAL THEORY | 4 quarter hours  
(Undergraduate)  
The course examines the theoretical perspectives related to the causes of crime and delinquency. Specifically, the course considers the impact and application of criminological theories of crime to the practice of criminal justice. Students will be required to analyze the assumptions of each theoretical perspective and demonstrate how these assumptions shape our knowledge of criminal behavior.

CRIM 101 is a prerequisite for this class.

CRIM 305 | VICTIMOLOGY | 4 quarter hours  
(Undergraduate)  
The course will review victimology as an evolving discipline. It will examine the elements of this field, including the development of the discipline, theories of victimization, the use of victimization surveys, specific types of victimization, the economic and other costs of crime to victims, services and programs for victims, and the implications of the victim-offender system on the criminal justice process.

CRIM 101 is a prerequisite for this class.

CRIM 306 | ETHICS IN CRIMINOLOGY | 4 quarter hours  
(Undergraduate)  
The course will provide students with an understanding of the ethical dilemmas faced by criminal justice practitioners across the criminal legal system. Specifically, the course will discuss the history and philosophy of justice, fundamentals and history of ethics, professional codes of conduct, as well as discuss ethical decision-making processes at both the individual and organizational levels.

CRIM 309 | FEDERAL LAW ENFORCEMENT AGENCIES | 4 quarter hours  
(Undergraduate)  
This course will explore the role of federal law enforcement in regards to sharing responsibilities for intelligence collection, national security matters, and expansive criminal investigations. Specific topics will include the interaction between agencies, conflicts between local and federal law enforcement, international responsibilities, and the impact of public perceptions.

CRIM 312 | 21ST CENTURY POLICING | 4 quarter hours  
(Undergraduate)  
The purpose of this course is to examine police reform efforts in society. Specifically, the course explores how law enforcement agencies can build legitimacy in the eyes of its constituents and balance considerations of procedural justice with due process. The course considers the ethical, moral, and accountability dilemmas that face law enforcement practitioners in preventing and controlling crime. Students will be exposed to the audit and oversight functions in law enforcement. Special topics include: proactive policing, police use of force, racial profiling, police and community partnerships, restorative justice practices, the changing nature of police work, police discretion and misconduct and different types of policing strategies.

CRIM 325 | US POLITICAL PRISONERS AND CRIMES OF CONSCIENCE | 4 quarter hours  
(Undergraduate)  
Although the United States government claims not to hold political prisoners, there are hundreds of individuals in US detention charged with political crimes or crimes of conscience. This course identifies the various types of political prisoners, the history and philosophy of counterintelligence measures, and the accommodations made by the judicial system to enforce social, political and economic codes of behavior on dissenters. In this course, students question the traditional definitions of crime. Specifically, students explore the ways that people purposely break the law to address larger issue of injustice, for example through acts of civil disobedience, and the ways that political resistance is criminalized as in charges of seditious conspiracy.

CRIM 328 | MOBILITY & THE STATE | 4 quarter hours  
(Undergraduate)  
In this course we explore the history, culture, and politics of migration along with an examination of the expanding borders of the United States. We analyze the varied mythology of the border as a danger zone, an intermediary zone, and a place of contact and conflict. We also look to the theorizations of the border as a site of cultural exchanges, resistance and critical negotiation; interchanges that impact the construction of race, ethnicity, sexuality and gender from both sides of the border. We examine issues relating to U.S. policies of immigration and labor movements as well as the economic and political consequences of globalization along the border region. Finally, we examine how the U.S. border has shifted and changed over time, critically challenging issues of political, cultural, and legal belonging.
This course provides a historical, social, and political examination of drugs in American society. Specifically, the course explores the causes and consequences of drug use, the impact of the medicalization of human behavior, legislation and enforcement of drug policies and prevention and treatment efforts. The course will pay particular attention to the criminalization of certain substances and groups as a result of the War on Drugs. Students will study the intersection of research, policy and practice to developed evidence based approaches in health promotion and disease prevention relative to treatment and prevention of addiction. The course will conclude with an analysis of alternative drug policies in American society. Special topics of interest include: drug identification, subcultures, drugs and the media, systemic shame, cultural stigma, class and race conflict, drug violence, drug industries, decriminalization, legalization, harm reduction and drug courts.

The purpose of the internship is to complement a student’s educational program with practical experience. Selected students in this course conduct research on Criminology related topics. With the approval and under the guidance of an assigned faculty member, an internship develops skills, knowledge, and approaches that will distinguish them within a pool of applicants. Finally, internships provide students with professional references and networking contacts. In addition, internships allow students to compare different career fields and develop a better understanding of their personal skills and interests. In addition, internships provide students with professional references and networking contacts. Finally, an internship develops skills, knowledge, and approaches that will distinguish them within a pool of applicants.

With the approval and under the guidance of an assigned faculty member, students in this course conduct research on Criminology related topics.
CES 402 | MOBILITY AND THE STATE | 4 quarter hours
(Graduate)
In this course we explore the history, culture, and politics of migration along with an examination of the expanding borders of the United States. We analyze the varied mythology of the border as a danger zone, an intermediary zone, and a place of contact and conflict. We also look to the theorizations of the border as a site of cultural exchanges, resistance and critical negotiation; interchanges that impact the construction of race, ethnicity, sexuality and gender from both sides of the border.
We examine issues relating to U.S. policies of immigration and labor movements as well as the economic and political consequences of globalization along the border region. Finally, we examine how the U.S. border has shifted and changed over time, critically challenging issues of political, cultural, and legal belonging.

CES 403 | CITIES AND RACIAL FORMATION | 4 quarter hours
(Graduate)
The goal of this course is to critically examine urban redevelopment policies and policy strategies that have profoundly shaped Latinx and African-American populations in the United States. Topics to be discussed include: race and racial formation, class and ethnicity, urban neoliberal policies, gentrification, contestation, and public school policy. Class lectures, discussions, speakers, and assignments are geared toward helping students develop a critical understanding of the primary urban redevelopment issues related to the experiences of African-American, Central American, and Mexican American communities in Chicago or other city/cities.

CES 404 | BORDERS AND MIGRATION | 4 quarter hours
(Graduate)
This course examines the integral role that different processes of mobility play in shaping today's world: emigration, immigration, displacement, refugee and internally displaced persons flows. Students study the causes and effects of population movements including push-pull factors, demographic, economic, and political variables. Students also look at the role of state and non-state actors and organizations. Cross-listed with INT 404 "Migration and Forced Migration."

CES 405 | RACE AND THE MEDIA | 4 quarter hours
(Graduate)
Using an intersectional and interdisciplinary approach, this seminar course explores the landscape of popular media and visual culture in the U.S. along the axes of race, ethnicity, class, gender, and sexuality and cultural "difference." Cross-listed with CMNS 563.

CES 410 | SPECIAL TOPICS IN CRITICAL ETHNIC STUDIES | 4 quarter hours
(Graduate)
Open elective for Critical Ethnic Studies. Topics vary. See schedule for current offerings.

CES 412 | FINAL PROJECT INDEPENDENT RESEARCH | 4-8 quarter hours
(Graduate)
This course involves individual investigation and research (toward completion of the Master's thesis, project, internship, or portfolio) under the supervision of a faculty member. A minimum of 4 credit hours required. Course can be repeated for a total of 8 credit hours.

CES 413 | CANDIDACY CONTINUATION | 0 quarter hour
(Graduate)
This 0-credit hour course is available to master's degree candidates who are actively working toward the completion of a thesis, project, or portfolio. Enrollment in this course is limited to three quarters and requires thesis/project advisor and graduate director approval and demonstration to them of work each quarter. Enrollment in this course allows access to the library and other campus facilities. This course is graded as pass/fail. (0 credit hours)

CES 414 | CANDIDACY MAINTENANCE | 0 quarter hour
(Graduate)
This 0-credit hour course is available to graduate students who are not registered for a course in a given quarter but need to maintain active university status. Enrollment in this course is limited to three quarters and requires permission of the graduate director. Enrollment in this course allows access to the library and other campus facilities. This course does not carry an equivalent enrollment status and students in it are not eligible for loan deferment or student loans. This course is not graded. (0 credit hours)

CES 495 | INTERNSHIP | 4 quarter hours
(Graduate)
Internship by arrangement. Written permission of supervising faculty member and of the program director is necessary before registration. Variable service learning content. May include direct service, project-based service, community-based research, or advocacy. Status as a Critical Ethnic Studies student is a prerequisite for this class.

CES 499 | INDEPENDENT STUDY | 4 quarter hours
(Graduate)
Individually supervised learning experience, usually involving extensive research and writing.

Curriculum Studies (CS)

CS 447 | CURRICULUM DESIGN FOR THE MIDDLE GRADES | 4 quarter hours
(Graduate)
This course is designed to provide students with a comprehensive understanding of the history of and rationale for middle level education as well as the curricular and pedagogical knowledge needed to meaningfully engage middle level students in learning within and across the content areas. Important considerations and strategies for disciplinary and interdisciplinary learning in the middle school classroom, as well as the importance of reading and writing across the curriculum with regard to these, will be addressed.

CS 460 | LEARNING IN A TECHNOLOGY-SUPPORTED CLASSROOM | 4 quarter hours
(Graduate)
An examination of current theories about instructional technology and of recent literature in the field. Students will become familiar with particular technology appropriate for their areas of interest and will learn to evaluate this technology for a variety of instructional purposes. The course includes: frameworks for classifying educational uses of the technology; an analysis of selected research on educational technology; theories and practices of using technology in classrooms; and the advantages and disadvantages of distance learning. Emphasis throughout will be on why and how technology can be used to enhance the learning process.
CS 461 | LITERACY PROCESSES AND PRACTICES | 4 quarter hours (Graduate)
Foundational theoretical perspectives and practices for teaching and learning language and literacy in a diverse, changing, and political world. Background of knowledge in the area of learning and exposure to the controversies that surround the teaching of literacy will be used to develop an understanding of literacy learning in action. Students will be invited to participate in the current conversations around literacy learning and teaching in order to inform their everyday curricular decisions.

CS 463 | ASSESSMENT, DIAGNOSIS, DEVELOPMENTAL/REMEDIAL MATERIALS & RESOURCES: EMERGENT & DEVELOPING READING | 4 quarter hours (Graduate)
Assessment, diagnosis and instructional planning for early and emergent learners. Building on a knowledge base of emergent reading processes and literacy practices, teachers will explore the ways in which young learners construct meaning and use language purposefully in their unique social worlds, even before beginning school. Participants in this course will learn to use performance based assessments as well as more formal standardized measures of achievement to support emerging and struggling readers with appropriate materials and theoretically sound instructional practices.

CS 464 | ASSESSMENT, DIAGNOSIS, DEVELOPMENTAL/REMEDIAl MATERIALS & RESOURCES: MIDDLE SCHOOL/ADOLESCENT READING | 4 quarter hours (Graduate)
Assessment, diagnosis and instructional planning for middle school students. Building on a knowledge base of reading processes and literacy practices, teachers will explore the ways in which students construct meaning and use language purposefully in their unique social worlds. Participants in this course will learn to use performance based assessments as well as more formal standardized measures of achievement to support middle school and adolescent readers with appropriate materials and theoretically sound instructional practices.

CS 465 | TEACHING READING IN THE CONTENT AREAS | 4 quarter hours (Graduate)
This course focuses on teaching reading in various subject (content) areas and emphasizes non-fiction reading process, strategies, and theories for grades K-9. The course will examine what it means to be literate in the elementary content areas (e.g. science, math, social studies, arts). Emphasis will be placed on learning effective literacy strategies for different subject areas. There will also be a focus on how one uses reading and writing to think, act, speak, question, and apply the tools of each content/subject area in ways that are unique to that discipline. Additionally, as teachers it is important to remember that students will bring various literacies from their homes and communities. An important emphasis will be on creating learning environments that honor student diversity, and learning about multiple ways of knowing, acting, and communicating.

CS 467 | TEACHERS AS LEADERS | 4 quarter hours (Graduate)
Assists teachers in becoming leaders for positive change in schools and districts. Provides overview of major theoretical models in research on teaching and teacher leadership, historical perspectives on the teaching profession, and overview of select best practice in teacher collaboration, mentoring and coaching. Specific topics addressed may include: developing leadership among existing teaching staff; fostering professional collaboration; improving instruction school-wide; organizing colleagues, administrators, parents and students to improve achievement; fostering sustainability in teaching/fighting teacher attrition; teaching standards; team teaching; and curriculum mapping.

CS 471 | DIVERSITY IN THE CLASSROOM | 4 quarter hours (Graduate)
Examines issues related to diversity that result when students from diverse socioeconomic, cultural, linguistic, and academic backgrounds are in the same classroom. Explores the impact of inclusion, ESL, bilingual, and bicultural programs on instruction. Emphasis on developing strategies to meet individual student needs within the regular classroom.

CS 472 | ETHICS, CURRICULUM AND SOCIAL CHANGE | 4 quarter hours (Graduate)
Explores some major issues impacting curriculum, including cultural and socioeconomic factors, legal issues, conflicting values, pressures for assessment, and the push to include technology. Examines the historical development and current state of education in the U.S. as compared to education in other cultures. Emphasis on ways that educators can work as change agents within the competing demands of these forces.

CS 473 | ASSESSMENT | 4 quarter hours (Graduate)
Explores current theory and practice regarding alternate forms of assessment, including formal, standardized, and informal tests and inventories; selection, evaluation, and interpretation of tests used in educational settings; portfolio assessment, video performances, and presentations; preparation and use of teacher-made tests; evaluating outcomes; and utilizing data to improve instruction. The critical examination of multiple perspectives of assessment theories, policies and practices center around the emphasis on developing strategies to evaluate student progress.

CS 481 | THE STUDY OF TEACHERS AND TEACHING | 4 quarter hours (Graduate)
A selective survey and analysis of research on teachers and teaching. Particular emphasis will be placed on the assumptions which are built into various forms of research and the effect these assumptions have on how results should be interpreted and used in supervision and curriculum development. Each student will be expected to become familiar with alternative ways of studying teachers and the teaching process in his/her area of expertise. While many school settings will be utilized because of the many studies done in this area, research in non-school settings will be given a good deal of emphasis.

CS 482 | THE HISTORY OF CURRICULUM PRACTICE | 4 quarter hours (Graduate)
A survey of trends and movements in curriculum practice. Particular emphasis will be placed on the recurrent nature of curriculum practices and the reasons for this. The class will consider underlying models of curriculum practice in their historical settings as possible methods for meeting contemporary social needs as well as the assets and liabilities of these models.
CS 484 | MULTIMEDIA MATERIALS PRODUCTION | 4 quarter hours (Graduate)
This course will analyze the role of multimedia materials in instruction. A variety of media will be explored (including software, internet, audio, video, and film). Students will be expected to manipulate a variety of images and produce sample materials for critique and analysis. The primary focus will be on enhancing learning in elementary and secondary schools.

CS 485 | CURRICULUM/PROGRAM EVALUATION | 4 quarter hours (Graduate)
Evaluation is essential for curriculum/program development and implementation. Hence, understanding evaluation methods, technologies, and quality criteria is particularly relevant to educational leaders, curriculum/program designers, and technology specialists. In this course, students will critically examine a variety of current evaluation models, instruments, and resources. Students will also conduct a comprehensive analysis of a significant evaluation study relevant to their specific professional interest. Registration is restricted to students in Advanced Master’s programs.

Status as an Advanced Masters Education student is a prerequisite for this class.

CS 487 | INTRODUCTION TO CURRICULUM DELIBERATION | 4 quarter hours (Graduate)
An introduction to systematic and collaborative deliberation on curriculum problems. A pattern for deliberation (including situation analysis, problem discrimination and formulation, development of alternative courses of action, and anticipation of consequences) will be developed and exemplified. This pattern will be contrasted with other descriptions of curriculum planning. Each student will complete a project which describes his/her systematic formulation of a curriculum problem and a plan of action for resolving it.

Status as an Advanced Masters Education student is a prerequisite for this class.

CS 488 | CURRICULUM DESIGN | 4 quarter hours (Graduate)
Provides a project-based opportunity to develop curriculum that promotes student understanding, student voice, and student involvement in school or community change. Encourages educators to think carefully about what does and should constitute the curriculum and why, who and what is served and who/what is marginalized by current curriculum arrangements, and how collaboration in curriculum design can assist in organizing classrooms, schools, and communities.

CS 489 | CREATIVITY AND CRITICAL THINKING - VYGOTSKY, BAKHTIN, MAKIGUCHI, IKEDA | 4 quarter hours (Graduate)
Introduces students to the educational philosophies of Russian thinkers Lev Vygotsky (1896 - 1934) and Mikhail Bakhtin (1895 - 1975) and Japanese thinkers Tsunesaburo Makiguchi (1871 - 1944) and Daisaku Ikeda (1928 - ). Students will locate confluences in these thinkers’ philosophies and apply them to current curriculum or curriculum theorizing in their chosen discipline(s) (e.g., mathematics, social studies, language education, etc.), context(s) (e.g., policy, gender, socioeconomics, identity, etc.) and K-12/adult level(s). Topics covered include, among others, cultural-historical theory, socially constructed meaning making, zone of proximal development, dialogism, carnival, value and value-creating pedagogy, humanitarian competition, and human revolution.

CS 492 | CREATING AND SUSTAINING PROFESSIONAL LEARNING COMMUNITIES | 4 quarter hours (Graduate)
This course will provide the framework for the creation, development and sustainability of a professional learning community. Professional learning communities have at their core three guiding principles: 1) a focus on learning, 2) the creation of a collaborative culture and 3) a results-orientation. Within the professional learning community, members are committed to working collaboratively in an ongoing process of collective inquiry and action research in order to achieve better results for the students and community they serve. Professional Learning Communities operate under the assumption that the key to improved learning for students is continuous, job-embedded learning for educators.

CS 493 | CURRICULUM DEVELOPMENT AND ASSESSMENT IN K-12 SCHOOLS | 4 quarter hours (Graduate)
This course prepares future school leaders with knowledge; understanding; and application of planning, assessment, and instructional leadership for roles in the K-12 school setting at the supervisory or administrative level. The emphasis of the course will be planning, implementation, and refinement of standards-based curriculum aligned with instruction, assessment, and instructional decisions as they affect the teaching and learning environment of the school with diverse cultural, ethnic, linguistic, and special needs populations.

CS 494 | CURRICULUM 2.0: CURRICULUM FOR LEARNING IN GLOBAL NETWORKS | 4 quarter hours (Graduate)
This course will explore curriculum theories and practices for the age of global networks, including themes such as the shift from industrial to post-industrial educational paradigms, online learning, and more. New communications technologies make it possible for teaching and learning to take place anywhere and anytime, in many cases under conditions radically different from those of formal schooling. This course considers the implications of curriculum under such conditions.

CS 495 | DESIGN THINKING IN EDUCATION | 4 quarter hours (Graduate)
Design Thinking is a problem solving methodology for collaborative innovation. This course introduces the methods of design thinking applied to curriculum design and education in general. Students will learn how to use design thinking for insight, ideation, and implementation of collaborative solutions to complex educational problems. In addition, students will understand design thinking within the context of the history of ideas and be able to critically analyze and evaluate implementations of design thinking in a variety of educational settings.
CS 551 | CURRICULUM FOR HUMAN AND COMMUNITY DEVELOPMENT | 4 quarter hours
(Graduate)
This course focuses on the relationships between schools and the communities they serve. Specifically, it focuses on how PK-12 schools as well as colleges/universities can and cannot promote human development (healthy growth, learning, and maturation) and community development (creating healthy, safe, connected, & politically-enfranchised communities). The course explores contemporary models of educational reform and community development, notably project- and community-based learning, asset-based development, participatory action research (PAR), full-service community schools, and university-assisted community schools. Additional topics may include: Implicit and explicit goals of educational reforms and how these (re-)shape civic and democratic opportunities; how universities, schools, and communities can collaborate on individual and community development; and the benefits and liabilities of hybrid educational improvement/community development projects (e.g., Promise Neighborhoods/Promise Zones, the Harlem Children's Zone, etc.).

CS 564 | CURRICULUM AND IDEOLOGY | 4 quarter hours
(Graduate)
This course examines the ideological significance of “youth,” youth development, and education in societies characterized by structural inequalities based on class, race, ethnicity, and sexual/gendered relations of domination and subordination. Texts from a range of academic disciplines - psychology, sociology, cultural studies, social work - are studied to show the influence these perspectives have had in shaping discourse about youth, youth development, and education as a vehicle for social reproduction and social change. Youth and education are looked at as the locus of arguments about social crises and social change and the impacts of framing social problems as educational and youth problems are explored.

CS 579 | RESEARCH IN TEACHING READING: DEVELOPMENTAL & REMEDIAL READING INSTRUCTION & SUPPORT: BEST PRACTICES | 4 quarter hours
(Graduate)
In this course, students will explore and analyze current literacy research through the critical lenses of educational practitioners. Students will: identify meaningful questions about literacy practices in their classrooms and schools; create a plan for addressing the identified research question(s); collect and analyze data relevant to the research question(s); and organize and present the research findings. This inquiry project, or an extension of it, may subsequently become the basis for the student’s Master’s paper or thesis.

CS 461 is a prerequisite for this class.

CS 580 | RESEARCH SEMINAR IN CURRICULUM STUDIES | 4 quarter hours
(Graduate)
This course is designed to help graduate students in Curriculum Studies through the difficult process of planning, organizing, drafting, and revising their Master’s papers. Students will be expected to complete a literature review and to develop a strong proposal for an integrative paper as a prelude to selecting an advisor for their Master’s papers. For M.Ed. students only.

SCG 410, 6 additional graduate courses and status as an Advanced Masters student is a prerequisite for this class.

CS 582 | PRACTICUM IN CURRICULUM STUDIES: READING | 4 quarter hours
(Graduate)
This course provides directed experiences in decision-making for curriculum, participation, and leadership in the planning and management of reading curricula. Students will: assess students’ reading capabilities; make informed curricular choices to address students’ needs; identify and implement short and long-term learning goals for students; manage instructional materials needed to guide students; develop curriculum based on assessments of the needs of students. It is designed to offer students an opportunity to put into practice, in a summer school classroom, previous learning about the teaching of reading, especially their beliefs and understandings regarding literacy as social practice. Provides students with multiple opportunities to share their thinking with each other in a supportive community of learners.

CS 461 is a prerequisite for this class.

CS 588 | INDEPENDENT STUDY IN CURRICULUM STUDIES | 4 quarter hours
(Graduate)
Independent Study in Curriculum Studies.

CS 589 | THEESIS RESEARCH IN CURRICULUM STUDIES | 4 quarter hours
(Graduate)
A student writing a thesis registers for this course for four quarter hours of credit. Where the thesis research and the writing of the thesis itself are prolonged beyond the usual time, the program advisor may require the student to register for additional credit.

SCG 410 and CS 580 are prerequisites for this class.

CS 591 | CURRICULUM THEORIZING: MULTIPLE LENSES | 4 quarter hours
(Graduate)
This course examines diverse curriculum discourses, historical as well as contemporary, within a broader context of issues related to education and schooling. It is designed to engage students critically in the study of curricular frameworks, their assumptions, values, and implications for education, schooling, teaching and learning. Major topics include frameworks for defining and conceptualizing curriculum and curricular visions; social, political, and historical contexts of curriculum construction; issues of gender, race, class, and the media; and the curriculum as socially constructed and historically contextualized discourse(s) about what is and what should be taught. Particular content areas will be used as examples.

CS 594 | SPECIAL TOPICS IN CURRICULUM | 4 quarter hours
(Graduate)
In order to assure that the program remains flexible, responsive to the needs of students, and inclusive of areas of interest of both faculty and students, this variable topics course will provide an opportunity for critical examination of compelling topical issues related to education. Topics could include: issues in educational reform; special education; controversies in curricular discourse; current issues such as the education of homeless children; or legal and constitutional issues in education and schooling. The course will be conducted in a seminar format.

CS 600 | REGISTERED STUDENT IN GOOD STANDING | 0 quarter hour
(Graduate)
Registration in this course is open to students who are not registered for any other courses but need to complete requirements/assignments for previously taken courses. It provides access to University facilities. Permission of advisor required. (0 credit hours)

Status as a Graduate Education student is a prerequisite for this class.
CS 606 | REVIEW OF LITERATURE | 0 quarter hour
(Graduate)
Review of Literature. This will give students the opportunity to develop and demonstrate written competence in a subfield of their disciplines and to enhance life-long learning. Specifically, they will broaden their knowledge base and inform themselves about a topic, issue, theory, etc., reviewing and synthesizing existing literature. To do so, students will need a variety of bibliographic skills including searching data bases. (See the student handbook for additional information about completing Master's papers.) (0 credit hours)

CS 607 | INTEGRATIVE PAPER | 0 quarter hour
(Graduate)
Integrative Paper. Non-credit. Students will observe and/or participate in the reciprocal interaction of theory and practice, by investigating actual practice in the field as it relates to theory. This might take the form of investigating how a particular theory is applied in the field, developing a practical application of a theory, or, conversely, developing/refining a theory based on investigations made in the field. (See the student handbook for additional information about completing Master's papers.) (0 credit hours)

CS 608 | CAPSTONE IN CURRICULUM STUDIES | 4 quarter hours
(Graduate)
Students who have completed the majority of the Curriculum Studies coursework will engage in a thorough analysis of a school or other educational institution (e.g., museum, community organization) and develop an action plan for: professional development; mentoring and inducting new teachers; teacher evaluation and training; instructional coaching; curriculum development, assessment, or alignment; using assessments or other data to improve student learning; or building collaboration with teachers and stakeholders. Students will gather and analyze demographic, financial and testing data, develop a narrative to tell the story of a school's (or educational institution's) history and recent past, capture the school by way of photographs and interviews, and collect documents or other pertinent artifacts to support their action plan.

CS 625 | CANDIDACY CULMINATING PROJECT (STUDENT IN GOOD STANDING) | 0 quarter hour
(Graduate)
Registration in this course is required of all students who are not enrolled in a course but are completing culminating projects for their program of study, including theses, papers, and final portfolios. It provides access to university facilities. Permission of advisor required. Registration limited to three terms. (0 credit hours)
Status as a Graduate Education student is a prerequisite for this class.

CS 700 | REGISTERED DOCTORAL STUDENT IN GOOD STANDING | 0 quarter hour
(Graduate)
This registration is required of all doctoral students who are not enrolled in a doctoral course, but are completing course requirements and/or dissertation research. It provides access to University facilities. Academic advisor approval required. After the third enrollment, dissertation chair approval required. (0 credit hours)
Status as an EDD student with a declared concentration is a prerequisite for this class.

CS 704 | CURRICULUM DISCOURSES/PERSPECTIVES OVER TIME | 4 quarter hours
(Graduate)
This course focuses on the examination of the ways in which curriculum - both PK-12 and college/university curriculum - has developed over time. It looks at changes in how curriculum has been defined and conceptualized, theoretical and philosophical developments, evolving assumptions and values, and implications for teaching and learning across varied historical and social contexts. Readings include primary texts by major theorists as well as secondary material including commentary and critique. A primary goal of the course is to provide students with an overview of major movements in curriculum history as a foundation for further study. Status as an EDD, PhD or EdS student with a declared concentration is a prerequisite for this class.

CS 706 | CANDIDACY PAPER | 0 quarter hour
(Graduate)
Registration in this course is required of all students who are not enrolled in a course but are completing a dissertation. It provides access to university facilities. Permission of advisor required. This registration indicates that a student has successfully completed the candidacy paper as specified in the Doctoral Student Handbook. (0 credit hours)
Status as a EDD student with a declared concentration is a prerequisite for this class.

CS 751 | CURRICULUM FOR HUMAN AND COMMUNITY DEVELOPMENT | 4 quarter hours
(Graduate)
This course focuses on the relationships between schools and the communities they serve. Specifically, it focuses on how PK-12 schools as well as colleges/universities can and cannot promote human development (healthy growth, learning, and maturation) and community development (creating healthy, safe, connected, & politically-enfranchised communities). The course explores contemporary models of educational reform and community development, notably: project- and community-based learning, asset-based development, participatory action research (PAR), full-service community schools, and university-assisted community schools. Additional topics may include: Explicit and implicit goals of educational reforms and how these (re-)shape civic and democratic opportunities; how universities, schools, and communities can collaborate on individual and community development; and the benefits and liabilities of hybrid educational improvement/community development projects (e.g., Promise Neighborhoods/Promise Zones, the Harlem Children's Zone, etc.) Status as an EDD, PhD or EdS student with a declared concentration is a prerequisite for this class.

CS 754 | CURRICULUM THEORIZING: MULTIPLE LENSES | 4 quarter hours
(Graduate)
Curriculum Theorizing: Multiple Lenses. This course examines diverse curriculum discourses, historical as well as contemporary, within a broader context of issues related to education and schooling. It is designed to engage students critically in the study of curricular frameworks, their assumptions, values, and implications for education, schooling, teaching and learning. Major topics include: frameworks for defining and conceptualizing curriculum and curricular visions; social, political, and historical contexts of curriculum construction; issues of gender, race, class ableness, and the media; the curriculum as socially constructed, and historically contextualized discourse(s) about what is and what should be taught. Particular content areas will be used as examples.
Status as an EDD, PhD or EdS student with a declared concentration is a prerequisite for this class.
CS 761 | ASSESSING SCHOOL CURRICULUM | 4 quarter hours
(Graduate)
This course develops a framework for assessing the content, characteristics, and outcomes of the curriculum in a school. The framework will include the collection, organization and analysis of both quantitative and qualitative measures of effective instruction. Particular attention will be given to local, state, and national standards for content, teaching and outcomes. Attention will also be given to the qualities of the lived experiences of students in school and thus to the unintended as well as intended outcomes of schooling. Each student will be expected to begin assessing the curriculum in his or her school and to outline a proposal for a more complete assessment of the school's curriculum.

Status as an EDD, PhD or EdS student with a declared concentration is a prerequisite for this class..

CS 764 | YOUTH DEVELOPMENT, IDEOLOGY, CULTURE, AND SOCIETY | 4 quarter hours
(Graduate)
This course examines the ideological significance of "youth," youth development, and education in societies characterized by structural inequalities based on class, race, ethnicity, and sexual/gendered relations of domination and subordination. Texts from a range of academic disciplines - psychology, sociology, cultural studies, social work - are studied to show the influence these perspectives have had in shaping discourse about youth, youth development, and education as a vehicle for social reproduction and social change. Youth and education are looked at as the locus of arguments about social crises and social change and the impacts of framing social problems as educational and youth problems are explored.

Status as an EDD, PhD or EdS student with a declared concentration is a prerequisite for this class..

CS 774 | ENGAGING IN CURRICULUM DELIBERATION | 4 quarter hours
(Graduate)
This course engages students in systematic and collaborative deliberation on curriculum problems. A pattern for deliberation - including situation analysis, problem discrimination and formulation, development of alternative courses of action, and anticipation of consequences - will be developed, exemplified, and contrasted with other descriptions of curriculum development. The importance and role of alternative conceptions of learners, of situation, and of knowledge structures within disciplines will be emphasized. After engaging in stimulated deliberations, each student will be asked to examine the intellectual commitments underlying this approach to curriculum change, to reconsider his or her role as a curriculum leader in a school or other educational setting, and to develop realistic plans for engaging a particular school community in collaborative curriculum deliberation.

Status as an EDD, PhD or EdS student with a declared concentration is a prerequisite for this class..

CS 784 | CURRICULUM AND PROGRAM DESIGN | 4 quarter hours
(Graduate)
This course studies principles underlying the design of effective, coherent, and comprehensive instructional programs. Topics include: the design and organization of core courses of study and related curricular components; the associated staff development program; and alignment with local, state, and national mandates. Particular attention will be given to planning for diversity, including differences in learning styles, special needs, culture and language.

Status as an EDD, PhD or EdS student with a declared concentration is a prerequisite for this class..

Cyber-Physical Systems Engineering (CSE)

CSE 299 | HARDWARE PROJECTS | 4 quarter hours
(Undergraduate)
A course that introduces student to building basic cyber-physical systems. The course will cover basic electronics, a hardarecomputing platform (e.g., Raspberry Pi), and the API for managing hardware devices including serial communication, interfacing with digital and analog inputs (sensors), controlling motors, and using displays.

CSC 242 or CSC 243 is the prerequisite for this class.

CSE 304 | RAPID PROTOTYPING TECHNOLOGIES | 4 quarter hours
(Undergraduate)
An overview of computer-aided design for 3-D modeling and prototype fabrication using 3-D printing and other technologies. PREREQUISITE(S): MAT 262.

CSE 314 | NETWORKING FOR CYBER-PHYSICAL SYSTEMS | 4 quarter hours
(Undergraduate)
Overview of computer network technologies used in cyber-physical systems. Topics covered wired and wireless network protocol stacks, serialization, real-time network programming, and utilizing cloud-based services.
CSE 316 | CYBER-PHYSICAL SYSTEM SECURITY | 4 quarter hours  
(Undergraduate)  

CSE 331 | CYBER-PHYSICAL SYSTEM ENGINEERING I | 4 quarter hours  
(Undergraduate)  
The first in a three-course sequence that provides a comprehensive overview of core topics in an application-driven context and with an emphasis on fundamental engineering design principles of modularity and abstraction. This first course focuses on electromagnetics and circuit analysis with applications to displays, touchpads, cameras, memory, batteries, GPS, and wireless communications. Labs will be used to apply the concepts covered in class in the context of managing hardware devices and building cyber-physical system prototypes.  
MAT 152 is a prerequisite for this class.

CSE 332 | CYBER-PHYSICAL SYSTEMS ENGINEERING II | 4 quarter hours  
(Undergraduate)  
The second in a three-course sequence that provides a comprehensive overview of core CPS topics in an application-driven context and with an emphasis on fundamental engineering design principles of modularity and abstraction. This second course covers more advanced concept in electromagnetism and electronics (transistors, amplifiers and circuit interfaces and operational amplifiers) and abstractions such as state machines along with probabilistic inference and state space search. Labs will be used to apply the concepts covered in class in the context of managing hardware devices and building cyber-physical system prototypes.  
CSE 331 is a prerequisite for this course.

CSE 333 | CYBER-PHYSICAL SYSTEMS ENGINEERING III | 4 quarter hours  
(Undergraduate)  
The third in a three-course sequence that provides a comprehensive overview of core CPS topics in an application-driven context and with an emphasis on fundamental engineering design principles of modularity and abstraction. This third course introduces signals and analog and digital signal processing, sampling and quantization, and control. Labs will be used to apply the concepts covered in class in the context of managing hardware devices and building cyber-physical system prototypes.  
CSE 332 is a prerequisite for this course.

CSE 341 | DIGITAL SYSTEMS | 4 quarter hours  
(Undergraduate)  
Design and implementation of digital systems using transistor transistor logic (TTL), SystemVerilog, and field-programmable gate arrays (FPGAs). Topics include combinational and sequential logic, storage elements, input/output, timing analysis, design trade offs, synchronous and asynchronous design methods.  
CSE 332 is a prerequisite for this class.

CSE 342 | COMPUTER SYSTEM ORGANIZATION AND DESIGN | 4 quarter hours  
(Undergraduate)  
Overview of the design of hardware elements of computer systems. Topics include instruction set design, processor micro-architecture and pipelining, cache and virtual memory organizations, protection and sharing, I/O and interrupts, and multithreaded architectures, and embedded systems. PREREQUISITE(S): CSC 374.

CSE 351 | EMBEDDED SYSTEMS I | 4 quarter hours  
(Undergraduate)  
The first of a two course sequence on programming embedded architectures in devices such as smartphones, portable gaming devices, and robots. Topics include embedded architectures, interaction with devices (buses, memory architectures, memory management, device drivers) and concurrency (software and hardware interrupts, timers). PREREQUISITES: CSC 374.

CSE 352 | EMBEDDED SYSTEMS II | 4 quarter hours  
(Undergraduate)  
The second of a two course sequence on programming embedded architectures in devices such as smartphones, portable gaming devices, and robots. Topics may include real-time principles (multi-tasking, scheduling, synchronization), implementation trade-offs, profiling and code optimization (for performance and memory), and embedded software (exception handling, loading, mode-switching, programming embedded systems).  
CSE 351 is a prerequisite for this class.

CSE 361 | LINEAR SYSTEMS | 4 quarter hours  
(Undergraduate)  
A comprehensive overview of modeling and analysis of dynamic systems including mechanical, electrical, electro-mechanical, thermal, and fluid systems. Topics include modeling using state-variable equations, input-output differential equations, transfer functions, and block diagrams, analytical solutions using the Laplace transform, and applications to modeling and designing feedback control systems.  
 disc 333 and MAT 304 are prerequisites for this class.

CSE 362 | FOUNDATIONS OF CYBER-PHYSICAL COMPUTING | 4 quarter hours  
(Undergraduate)  
This course covers the modeling, design, and analysis of cyberphysical systems that integrate computation and physical processes. It introduces formal models that support abstractions to manage the complexity of a system design and verify the system implementation correctness. Topics include safety and liveness requirements, temporal logic, model checking, deductive verification, stability analysis of linear systems, and real-time scheduling algorithms.  
CSE 352 is a prerequisite for this class.

CSE 377 | INTRO TO MECHATRONICS | 4 quarter hours  
(Undergraduate)  
Design and development of a mechatronic system incorporating sensors, actuators, and artificial intelligence.  
CSE 332 is a prerequisite for this class.

CSE 393 | CYBER-PHYSICAL SYSTEMS ENGINEERING PRACTICUM I | 4 quarter hours  
(Undergraduate)  
The first course in a two-course sequence in which students work in small groups to implement a cyber-physical system.  
CSE 333 and CSE 352 are prerequisites for this class.

CSE 394 | CYBER-PHYSICAL SYSTEMS ENGINEERING PRACTICUM II | 4 quarter hours  
(Undergraduate)  
The second course in a two-course sequence in which students work in small groups to implement a cyber-physical system.  
CSE 393 is a prerequisite for this class.
CSE 424 | NETWORKING FOR CYBER-PHYSICAL SYSTEMS | 4 quarter hours
(Graduate)
Overview of computer network technologies used in cyber-physical systems. Topics covered wired and wireless network protocol stacks, serialization, real-time network programming, and utilizing cloud-based services. PREREQUISITES: CSC 407.

CSE 426 | CYBER-PHYSICAL SYSTEM SECURITY | 4 quarter hours
(Graduate)
Design for cyber-physical system (CPS) security, security breaches and enforcement, standardization, best practices, security policies, security threat and protection-in-depth modeling, vulnerability and risk assessment for cyber-physical systems, CPS security incidents and trends. Students will carry out a CPS security-related independent project. PREREQUISITE(S): CSC 407.

CSE 431 | CYBER-PHYSICAL SYSTEMS ENGINEERING I | 4 quarter hours
(Graduate)
The first in a three-course sequence that provides a comprehensive overview of core CPS topics in an application-driven context and with an emphasis on fundamental engineering design principles of modularity and abstraction. This course focuses on electromagnetics and circuit analysis with applications to displays, touchpads, cameras, memory, batteries, GPS, and wireless communications. Labs will be used to apply the concepts covered in class in the context of managing hardware devices and building cyber-physical system prototypes. PREREQUISITES: linear algebra and a year of college physics and CSC 407.

CSE 432 | CYBER-PHYSICAL SYSTEMS ENGINEERING II | 4 quarter hours
(Graduate)
The second in a three-course sequence that provides a comprehensive overview of core CPS topics in an application-driven context and with an emphasis on fundamental engineering design principles of modularity and abstraction. This course covers more advanced concept in electromagnetism and electronics (transistors, amplifiers and circuit interfaces and operational amplifiers) and abstractions such as state machines along with probabilistic inference and state space search. Labs will be used to apply the concepts covered in class in the context of managing hardware devices and building cyber-physical system prototypes. CSE 431 is a prerequisite for this class.

CSE 433 | CYBER-PHYSICAL SYSTEMS ENGINEERING III | 4 quarter hours
(Graduate)
The third in a three-course sequence that provides a comprehensive overview of core CPS topics in an application-driven context and with an emphasis on fundamental engineering design principles of modularity and abstraction. This course introduces signals and analog and digital signal processing, sampling and quantization, and control. Labs will be used to apply the concepts covered in class in the context of managing hardware devices and building cyber-physical system prototypes. CSE 432 is a prerequisite for this class.

CSE 432 | COMPUTER SYSTEM ORGANIZATION AND DESIGN | 4 quarter hours
(Graduate)
Overview of the design of hardware elements of computer systems. Topics include instruction set design, processor micro-architecture and pipelining, cache and virtual memory organizations, protection and sharing, I/O and interrupts, and multithreaded architectures, and embedded systems. PREREQUISITES: CSC 407.

CSE 442 | COMPUTER SYSTEM ORGANIZATION AND DESIGN | 4 quarter hours
(Graduate)
Overview of the design of hardware elements of computer systems. Topics include instruction set design, processor micro-architecture and pipelining, cache and virtual memory organizations, protection and sharing, I/O and interrupts, and multithreaded architectures, and embedded systems. PREREQUISITES: CSC 407.

CSE 451 | EMBEDDED SYSTEMS I | 4 quarter hours
(Graduate)
The first of a two course sequence on programming embedded architectures in devices such as smartphones, portable gaming devices, and robots. Topics covered include embedded architectures, interaction with devices (buses, memory architectures, memory management, device drivers) and concurrency (software and hardware interrupts, timers). PREREQUISITES: CSC 407.

CSE 452 | EMBEDDED SYSTEMS II | 4 quarter hours
(Graduate)
The second of a two course sequence on programming embedded architectures in devices such as smartphones, portable gaming devices, and robots. Topics may include real-time principles (multi-tasking, scheduling, synchronization), implementation trade-offs, profiling and code optimization (for performance and memory), and embedded software (exception handling, loading, mode-switching, programming embedded systems). CSE 451 is a prerequisite for this class.

CSE 462 | FOUNDATIONS OF CYBER-PHYSICAL COMPUTING | 4 quarter hours
(Graduate)
This course covers the modeling, design, and analysis of cyber-physical systems that integrate computation and physical processes. It introduces formal models that support abstractions to manage the complexity of a system design and verify the system implementation correctness. Topics include safety and liveness requirements, temporal logic, model checking, deductive verification, stability analysis of linear systems, and real-time scheduling algorithms. CSE 433 is a prerequisite for this class.

CSE 464 | RAPID PROTOTYPING TECHNOLOGIES | 4 quarter hours
(Graduate)
An overview of computer-aided design for 3-D modeling and prototype fabrication using 3-D printing and other technologies. PREREQUISITES: linear algebra.

CSE 476 | LINEAR SYSTEMS | 4 quarter hours
(Graduate)
A comprehensive overview of modeling and analysis of dynamic systems including mechanical, electrical, electro-mechanical, thermal, and fluid systems. Topics include modeling using state-variable equations, input-output differential equations, transfer functions, and block diagrams, analytical solutions using the Laplace transform, and applications to modeling and designing feedback control systems. CSE 433 is a prerequisite for this class.

CSE 477 | INTRO TO MECHATRONICS | 4 quarter hours
(Graduate)
Design and development of a mechatronic system incorporating sensors, actuators, and artificial intelligence. CSE 432 is a prerequisite for this class.
CSEC 527 | CPSE MASTER’S PROJECT | 4 quarter hours
(Graduate)
Students will work in small groups to implement a cyber-physical system. CSEC 433 and CSEC 452 are prerequisites for this class.

Cybersecurity (CSEC)

CSEC 228 | LEGAL, ETHICAL AND SOCIAL ISSUES IN INFORMATION SECURITY (FORMERLY CNS 228) | 4 quarter hours
(Undergraduate)
This course is designed to acquaint students with electronic privacy, security and ethics. Students will gain an understanding of information ethics, existing and emerging cyber-laws, organizational liability issues, and explore several Codes of Ethics. Students will learn about real and potential security issues, steps that can be taken to create environments of trust, how to evaluate the strengths and weaknesses of a firm’s information resource environment, and risk management and operation feasibility issues.

CSEC 320 | COMPUTER FORENSIC AND INCIDENT RESPONSE (FORMERLY CNS 320) | 4 quarter hours
(Undergraduate)
Introduction to the topics of computer forensic, computer crimes, response to security incidents, Cybercrime investigation and prosecution. Students will learn how an organization can set up a security response team, prepare for Security incidents and manage these incidents.

CNS 378 or CSC 374 is a prerequisite for this class

CSEC 340 | FUNDAMENTALS OF INFORMATION ASSURANCE (FORMERLY CNS 340) | 4 quarter hours
(Undergraduate)
This course is a survey of the fundamental elements of computer security and information assurance. Topics may include confidentiality, integrity, and availability; security policies: authentication; access control; risk management; threat and vulnerability assessment; common attack/defense methods; ethical issues.

CSEC 342 | CYBERSECURITY OPERATIONS (FORMERLY CNS 342) | 4 quarter hours
(Undergraduate)
The Cybersecurity Operations course presents the knowledge and skills needed for a Security Analyst in a typical Security Operations Center environment. The course covers the core security skills needed for monitoring, detecting, investigating, analyzing and responding to security events. Extensive laboratory exercises are included to apply knowledge learned in the lectures and allow the students to implement typical SOC tools. In addition to technologies, the course will also cover cybersecurity operations network principles, roles and responsibilities as well as the related technologies, tools, regulations and security frameworks.

CSEC 345 | HUMAN-CENTERED CYBERSECURITY (FORMERLY CNS 345) | 4 quarter hours
(Undergraduate)
A survey of behavioral theories relevant in cybersecurity context. Topics include economic theories of decision making, heuristics, biases, and bounded rationality; signal detection theory, mental models, social engineering, game theory, information search, and cognitive engineering. Students work on term paper describing potential application(s) of a theory of their choice in cybersecurity context. PREREQUISITE(S): IT 263 or CSC 242.

CSEC 355 | PHYSICAL AND IT SECURITY CONVERGENCE (FORMERLY CNS 355) | 4 quarter hours
(Undergraduate)
This course introduces students to the fundamental processes associated with the Physical Security discipline. This course will present the convergence of IT Security and Corporate Physical Security, focusing on where convergence takes place - at the technology, process and function level. Students will look at real-world illustrations of implementation and analyze perceived efficiencies and cost-savings. This course is designed for students who desire to understand physical and IT security in the framework of Enterprise Risk Management.

CSEC 366 | CRITICAL INFRASTRUCTURE AND CONTROL SYSTEMS CYBERSECURITY (FORMERLY CNS 366) | 4 quarter hours
(Undergraduate)
This course is an introduction to the cybersecurity challenges for control systems present in industry, homes and traditional businesses such as manufacturing. Topics covered include the design and setup of Supervisory Control and Data Acquisition (SCADA) systems, Distributed Control Systems (DCS), and Programmable Logic Controller (PLC) systems. As these systems are typically designed without any intrinsic security mechanism, we will study the challenges of protecting them and how to employ a defense-in-depth methodology to secure them. This class will focus on the security risks of critical infrastructure systems (such as Electrical, Pipelines, Water/Wastewater and transportation) and methods to protect them. PREREQUISITE(S): CSEC 340 or NET 377 or IT 263.

CSEC 378 | HOST BASED SECURITY (FORMERLY CNS 378) | 4 quarter hours
(Undergraduate)
Principles of host based security. Review of security methods used to ensure the confidentiality, integrity, and availability of the information stored on a host. The class will cover OS configuration, access control, anti-malware, public facing application security, host-based intrusion detection/prevention, host-based firewalls and audit & compliance. Course includes laboratory work with both the Linux and Windows operating systems.

TDC 363 or CSC 374 is a prerequisite for this class.

CSEC 380 | ADVANCED CYBERSECURITY AUTOMATION (FORMERLY CNS 380) | 4 quarter hours
(Undergraduate)
This hands-on course will introduce students to real world exercises and scenarios. Students will create tools to perform automation, monitoring, red and blue team operations. Techniques will be applied to topics such as operating systems, infrastructure hardening, virtualization, sandboxing, incident response, and web applications.

CSEC 388 | SECURITY TESTING AND ASSESSMENT (FORMERLY CNS 388) | 4 quarter hours
(Undergraduate)
Vulnerability assessment and ethical security testing; review of ethical concerns and legal issues associated with security testing activities; study and analysis of the defensive mechanisms used to mitigate such threats. There will be extensive hands-on laboratory exercises. CNS 340 and CNS 378 are prerequisites for this class.
CSEC 389 | CYBER DEFENSE EXERCISES AND ATTACK RESPONSES (FORMERLY CNS 389) | 4 quarter hours (Undergraduate)
This is a hands-on, lab based applied security course in which students will work in teams to defend against cyber-attacks and implement services in a hostile cyber environment. Most activities will be derived from Cyber Dense and Cyber League competitions and will prepare students to participate and excel in these competitions. This course is open to all students, including students inexperienced in Cyber Defense competitions. Repeat enrollment is encouraged.
CNS 340 and CNS 378 are prerequisites for this class.

CSEC 390 | VULNERABILITY ASSESSMENT FOR COMMUNITY-BASED ORGANIZATIONS (FORMERLY CNS 390) | 4 quarter hours (Undergraduate)
This service learning course prepares students with real-world experience by partnering with a non-profit, community-based organization to identify information security vulnerabilities and propose recommendations that improve the organization’s security and privacy practices. Within the context of an assigned community-based organization, students will work in teams to conduct a vulnerability assessment; identify and propose cost-effective safeguards that may be administrative, technical, or physical; define a plan to test, monitor, and train system users on recommended security safeguards, and, document project deliverables for the organization’s management. The course emphasizes hands-on exercises and student reflection on a community-based term project.

CSEC 394 | INFORMATION SYSTEMS SECURITY ENGINEERING I (FORMERLY CNS 394) | 4 quarter hours (Undergraduate)
This course requires students to apply Information System Security Engineering methods and processes to design, document and implement comprehensive security infrastructures in realistic scenarios. Students will work in teams through the entire life cycle of a Security infrastructure project from needs discovery, threat assessment, architecture design, implementation, effectiveness assessment and auditing. The course is designed to span two quarters. In this first quarter, students will learn the Information Systems Security Engineering process and perform asset identification, threat assessment and system requirement specification. CNS 378 and TDC 377 and TDC 379 are prerequisites for this course.

CSEC 395 | INFORMATION SYSTEMS SECURITY ENGINEERING II (FORMERLY CNS 395) | 4 quarter hours (Undergraduate)
This senior project capstone course requires students to apply Information System Security Engineering methods and processes to perform the design and implementation of Information Systems Security infrastructures. The human and sociological impacts of Information Security will be studied with a particular focus on privacy issues, ethical use of Security tools and cultural and legal difference that exist in a globally connected but diverse world.
CNS 394 is a prerequisite for this class.

CSEC 397 | TOPICS IN COMPUTER, INFORMATION AND NETWORK SECURITY FORMERLY CNS 397) | 1-4 quarter hours (Undergraduate)
May be repeated for credit. (1 quarter hour)

CSEC 399 | INDEPENDENT STUDY (FORMERLY CNS 399) | 1-8 quarter hours (Undergraduate)
Variable credit. PREREQUISITE(S): Consent of dean. (variable credit)

CSEC 418 | INTRODUCTION TO HOST SECURITY (FORMERLY CNS 418) | 4 quarter hours (Graduate)
Principles of host based security. Review of security methods used to ensure the confidentiality, integrity, and availability of the information stored on a host. The class will cover OS configuration, access control, anti-malware, public facing application security, host-based intrusion detection/prevention, host-based firewalls and audit & compliance. Course includes laboratory work with both the Linux and Windows operating systems.
TDC 413 is a prerequisite for this class.

CSEC 440 | INFORMATION SECURITY MANAGEMENT (FORMERLY CNS 440) | 4 quarter hours (Graduate)
Survey of information security management as it applies to information systems analysis, design, and operations. Managing information assets and the security infrastructure. Emphasis on managing security-related risk, as well as the process of developing, implementing, and maintaining organizational policies, standards, procedures, and guidelines. Identifying and evaluating information assets, threats, and vulnerabilities. Quantitative and qualitative risk analysis, risk mitigation, residual risk, and risk treatment as they relate to information security. Topics include information security vulnerabilities, threats, and risk management; security policies and standards; security audits; access controls; network perimeter protection, data protection; physical security; security education training and awareness. Introduction to compliance, as well as the CISSP domains.

CSEC 445 | HUMAN-CENTERED CYBERSECURITY (FORMERLY CNS 445) | 4 quarter hours (Graduate)
Application of behavioral theories in cybersecurity context. Topics include economic theories of decision making, heuristics, biases, and bounded rationality, signal detection theory, mental models, social engineering, game theory, information search, and cognitive engineering. Students work on an individual project applying one of these theories to a practical cybersecurity scenario of their choice.

CSEC 446 | SECURE DESIGN (FORMERLY CNS 446) | 4 quarter hours (Graduate)
Secure design is a cross-disciplinary approach to cybersecurity and user-centered design. The course includes hands-on, interactive activities focused on secure designs for Internet-of-Things (IoT) technologies. Topics include: principles of visual design, user-centered design, mental models, heuristics, bounded rationality, applied cybersecurity, prototyping, and usability testing. Students will work on a class long project that will employ the principles of secure design to develop a secure yet usable prototype of an IoT device.

CSEC 450 | DIGITAL FORENSIC TECHNIQUES (FORMERLY CNS 450) | 4 quarter hours (Graduate)
This course focuses on the forensic acquisition, analysis and presentation of data from computer systems. This course covers: preservation and interpretation of evidence; forensic imaging; file systems and data recovery; Windows registry forensics; internet history and social media analysis; mobile device forensics; timeline analysis; incident response and writing expert reports and testimony. CSC 407 or CNS 418 is a prerequisite for this class.
CSEC 455 | PHYSICAL AND IT SECURITY CONVERGENCE (FORMERLY CNS 455) | 4 quarter hours
(Graduate)
This course introduces students to the fundamental processes associated with the Physical Security discipline. This course will present the convergence of IT Security and Corporate Physical Security, focusing on where convergence takes place - at the technology, process and function level. Students will look at real-world illustrations of implementation and analyze perceived efficiencies and cost-savings. This course is designed for students who desire to understand physical and IT security in the framework of Enterprise Risk Management.

CSEC 466 | CRITICAL INFRASTRUCTURE AND CONTROL SYSTEMS CYBERSECURITY (FORMERLY CNS 466) | 4 quarter hours
(Graduate)
This course is an introduction to the cybersecurity challenges for control systems present in industry, homes and traditional businesses such as manufacturing. Topics covered include the design and setup of Supervisory Control and Data Acquisition (SCADA) systems, Distributed Control Systems (DCS), and Programmable Logic Controller (PLC) systems. As these systems are typically designed without any intrinsic security mechanism, we will study the challenges of protecting them and how to employ a defense-in-depth methodology to secure them. This class will focus on the security risks of critical infrastructure systems (such as Electrical, Pipelines, Water/Wastewater and transportation) and methods to protect them.

CNS 440 or TDC 477 is a prerequisite for this class.

CSEC 477 | GOVERNANCE POLICIES IN INFORMATION ASSURANCE (FORMERLY CNS 477) | 4 quarter hours
(Graduate)
This course focuses on assessment of business risks arising from information security and privacy issues, as well as the creation and implementation of policies that ensure compliance with laws and industry standards. It is a complement to IS 482, which focuses on the legal standards to which people and organizations are held under laws and regulations that concern computing and information technology. Legal issues arising under information security and control frameworks, such as COBIT and ISO17799, are considered. Topics include privacy laws, payment card industry standards, information security measures mandated by select federal statutes (e.g., HIPAA, Gramm-Leach-Billey and Sarbanes-Oxley), data breach notification, governance and policy development, e-discovery, contracts, intellectual property, and security risk assessments.

CNS 440 is a prerequisite for this class.

CSEC 488 | SECURITY TESTING AND ASSESSMENT (FORMERLY CNS 488) | 4 quarter hours
(Graduate)
Methodologies and tools for performing vulnerability testing; management of security testing initiatives and activities; review of the different types of assessments, legal issues, ethical concerns. Defensive mechanisms to mitigate the risks illustrated by the assessment using Defense-In-Depth architectures. Concepts illustrated using hands-on lab exercises.

CNS 440 and CNS 418 are prerequisites for this class.

CSEC 489 | ADVANCED CYBER ATTACK RESPONSES AND DEFENSES (FORMERLY CNS 489) | 4 quarter hours
(Graduate)
This lab-based applied security course introduces students to advanced cyber defense and cyber-attack response. Students manage an organize teams to defend against cyber-attacks and implement services in a hostile cyber environment. Most activities will be derived from Cyber Defense and Cyber League competitions and will prepare students to participate and excel in these competitions. This course is open to all students, including students inexperienced in Cyber Defense competitions. Repeat enrollment is encouraged.

CNS 440 and CNS 418 are prerequisites for this class.

CSEC 490 | INFORMATION SECURITY RISK ASSESSMENT FOR NON-PROFIT ORGANIZATIONS (FORMERLY CNS 490) | 4 quarter hours
(Graduate)
Students taking this course will gain real-world experience by partnering with a non-profit, community-based organization to assess information security needs and propose recommendations that improve the organization’s security and privacy practices. Within the context of an assigned non-profit organization, students will work in teams to conduct a security risk assessment using industry standards as guidance; write a formal risk assessment report for the organization’s management; identify and propose cost-effective security safeguards that may consist of security policies, technologies, or procedures; define a plan to test, monitor, and train system users on recommended security safeguards.

CNS 440 is a prerequisite for this class.

CSEC 533 | ENTERPRISE SECURITY INFRASTRUCTURE CONTROLS AND REGULATORY COMPLIANCE (FORMERLY CNS 533) | 4 quarter hours
(Graduate)
Design, implementation, support and management of control methods in enterprise environments. Focus is on how these controls can help organizations achieve regulatory compliance. Review of Sarbanes-Oxley and its impact on IT systems. Detailed study of how risk assessment methods, information security program management and ERP systems can be used to fulfill regulatory and legal requirements. Control Objectives for Information and related Technology (COBIT) guidelines and best practices for SOX compliance. Security management standards (ISO 17799, BS 7799 and ISO 27001) .

CNS 440 is a prerequisite for this class.

CSEC 587 | INFORMATION SECURITY GOVERNANCE (FORMERLY CNS 587) | 4 quarter hours
(Graduate)
In this course, students apply their knowledge of information security and regulatory compliance to analysis and evaluation of governance, risk management, and compliance problems. Students will learn the meaning of IT governance by examining the differences between governance and management; gaining hands-on application of industry governance frameworks; evaluating an information security program; defining incidence response policy; assessing risk; and defining regulatory compliance strategy. Students will discover how good information security governance adds value to an organization.

CNS 477 and (IS 444 or CNS 490 or CNS 533 or CSC 439 or TDC 577) are prerequisites for this class.
CSEC 594 | COMPUTER INFORMATION AND NETWORK SECURITY CAPSTONE (FORMERLY CNS 594) | 4 quarter hours (Graduate)
Design, setup and configuration of realistic enterprise computing and networking environments. Securing the infrastructure and integration of different services and technology in efficient, secured and redundant manners. Technologies will include: open-source and commercial products, firewalls, Virtual Private Networks (VPNs), authentication systems, Intrusion Detection Systems (IDS), advanced routing mechanisms (OSPF, BGP, IS-IS), highly redundant and robust networking. TDC 477 or CNS 533 is a prerequisite for this class.

CSEC 597 | TOPICS IN COMPUTER INFORMATION AND NETWORK SECURITY (FORMERLY CNS 597) | 1-4 quarter hours (Graduate)
Specific topics will be selected by the instructor and may vary with each quarter. Can be repeated for credit. Variable credit. PREREQUISITE(S): For specific prerequisites, see syllabus or consult course instructor. (variable credit)

CSEC 599 | INDEPENDENT STUDY (FORMERLY CNS 599) | 1-4 quarter hours (Graduate)
Independent study supervised by an instructor. Independent study form required. Can be repeated for credit. Variable Credit. PREREQUISITE(S): None. (variable credit)

Data Science (DSC)

DSC 323 | DATA ANALYSIS AND REGRESSION (FORMERLY CSC 324) | 4 quarter hours (Undergraduate)
Multiple regression and correlation, residual analysis, analysis of variance, and logistic regression. IT 223 or MAT 351 are the prerequisites for this class

DSC 324 | ADVANCED DATA ANALYSIS (FORMERLY CSC 334) | 4 quarter hours (Undergraduate)
The course will teach advanced statistical techniques to discover information from large sets of data. The course topics include visualization techniques to summarize and display high dimensional data, dimensional reduction techniques such as principal component analysis and factor analysis, clustering techniques for discovering patterns from large datasets, and classification techniques for decision making. The methods will be implemented using standard computer packages. CSC 324 or DSC 323 or consent of instructor is a prerequisite for this class.

DSC 333 | INTRODUCTION TO BIG DATA PROCESSING | 4 quarter hours (Undergraduate)
This course will explore different approaches and a framework for performing data analytics on a dynamic, heterogeneous cluster of computing nodes. The course will begin with studying principles behind MapReduce and implementation of custom distributed queries using Hadoop. It will then expand to cover higher-level languages and tools within Hadoop ecosystem (e.g., Pig, Hive) and cluster configuration techniques. Finally, the course will delve into a comparative evaluation of several NoSQL and NewSQL databases that make fundamentally different assumptions for data processing (e.g., OLAP vs OLTP, disk-bound vs in-memory or real-time streaming data). The primary focus of the course will be hands-on implementation and tuning performance for large-scale clusters and data sets. CSC 355 is a prerequisite for this class.

DSC 341 | FOUNDATIONS OF DATA SCIENCE (FORMERLY CSC 367) | 4 quarter hours (Undergraduate)
The course is an introduction to the Data Mining (DM) stages and its methodologies. The course provides students with an overview of the relationship between data warehousing and DM, and also covers the differences between database query tools and DM. Possible DM methodologies to be covered in the course include: multiple linear regression, clustering, k-nearest neighbor, decision trees, and multidimensional scaling. These methodologies will be augmented with real world examples from different domains such as marketing, e-commerce, and information systems. If time permits, additional topics may include privacy and security issues in data mining. The emphasis of this course is on methodologies and applications, not on their mathematical foundations. IT 223 (or MAT 137 or MAT 242 or MAT 341 or MAT 353) is a prerequisite for this class.

DSC 345 | MACHINE LEARNING | 4 quarter hours (Undergraduate)
This course introduces students to machine learning techniques and builds upon the background and skills learned in the previous data science and statistics courses. The course topics include advanced methods and algorithms for supervised and unsupervised learning, and ensemble methods. Through research paper discussion and hands-on assignments, the course will also cover recent applications of machine learning, such as autonomous navigation, biomedical informatics, biometrics, and text and web mining. (CSC 367 or DSC 341) and (CSC 334 or DSC 324) are prerequisites for this class.

DSC 365 | DATA VISUALIZATION (FORMERLY DSC 350) | 4 quarter hours (Undergraduate)
This course will be an introduction to data visualization techniques for exploration and analysis of data sets from a wide range of fields including commercial, financial, medical, scientific and engineering applications. Topics will include visual encoding of numeric data, effective visualization design, graphical integrity, visualizing distributions and correlation, false-color techniques for feature extraction and enhancement, basic network graph visualization, geospatial visualization and some additional topics. IT 223 and CSC 241 are prerequisites for this course.

DSC 390 | TOPICS IN DATA SCIENCE | 4 quarter hours (Undergraduate)
Specific topics will be selected by the instructor and may vary each quarter. This course is repeatable.
DSC 394 | DATA SCIENCE PROJECT | 4 quarter hours  
(Undergraduate)  
This course provides students with the opportunity to apply and integrate the knowledge they have acquired during the degree program. Students may work in teams and will work on real world data analytics projects using their skills and knowledge. At the end of the course, they submit a complete report summarizing analyses and study outcomes, and present results to the class. 
(CSC 367 or DSC 341) and CSC 301 are prerequisites for this class.

DSC 423 | DATA ANALYSIS AND REGRESSION (FORMERLY CSC 423) | 4 quarter hours  
(Graduate)  
Multiple regression and correlation, residual analysis, analysis of variance, and robustness. These topics will be studied from a data analytic perspective, supported by an investigation of available statistical software. 
IT 403 is a prerequisite for this class.

DSC 424 | ADVANCED DATA ANALYSIS (FORMERLY CSC 424) | 4 quarter hours  
(Graduate)  
The course will teach advanced statistical techniques to discover information from large sets of data. The course topics include visualization techniques to summarize and display high dimensional data, dimensional reduction techniques such as principal component analysis and factor analysis, clustering techniques for discovering patterns from large datasets, and classification techniques for decision making. The methods will be implemented using standard computer packages. 
CSC 423 or DSC 423 or consent of instructor is a prerequisite for this class.

DSC 425 | TIME SERIES ANALYSIS AND FORECASTING (FORMERLY CSC 425) | 4 quarter hours  
(Graduate)  
The course introduces students to statistical models for time series analysis and forecasting. The course topics include: autocorrelated data analysis, Box-Jenkins models (autoregressive, moving average, and autoregressive moving average models), analysis of seasonality, volatility models (GARCH-type, GARCH-M type, etc.), forecasting evaluation and diagnostics checking. The course will emphasize applications to financial data, volatility modeling and risk management. Real examples will be used throughout the course. 
CSC 423 or DSC 423 or MAT 456 or consent is a prerequisite for this class.

DSC 430 | PYTHON PROGRAMMING | 4 quarter hours  
(Graduate)  
This course builds the skills necessary to use Python to develop larger programs and libraries. Students will learn to design, implement and debug Python functions and programs, including stochastic and object-oriented techniques. The course will cover Python data structures, and Python facilities for working with files, strings, regular expressions, databases and URLs. The course will also include an introduction to the Pandas package for data management, the NumPy package for scientific computing, and the Matplotlib package for visualization. 
CSC 401 is a prerequisite for this class.

DSC 433 | SCRIPTING FOR DATA ANALYSIS (FORMERLY CSC 433) | 4 quarter hours  
(Graduate)  
Data access and transformation with modern statistical software such as SAS and R. Report writing, data graphing and visualization, writing macros and functions to automate tasks and statistical analyses. 
IT 403 and (CSC 401 or IT 411) are prerequisites for this class.

DSC 441 | FUNDAMENTALS OF DATA SCIENCE (FORMERLY IS 467) | 4 quarter hours  
(Graduate)  
An introduction to the Knowledge Discovery Technologies covering all stages of a data mining process: domain understanding, data collection and selection, data cleaning and transformation, dimensionality reduction, pattern discovery, evaluation, and knowledge extraction. The course provides a comprehensive overview of data mining techniques used to realize these stages, including traditional statistical analysis and machine learning techniques. Students will analyze large datasets and develop modeling solutions to support decision making in various domains such as healthcare, finance, security, marketing, customer relationship management (CRM), and multimedia. 
IT 403 or DSC 423 or ECO 520 is a prerequisite for this class.

DSC 450 | DATABASE PROCESSING FOR LARGE-SCALE ANALYTICS (FORMERLY CSC 455) | 4 quarter hours  
(Graduate)  
The course covers core concepts of database systems with focus on applications in large-scale analytics. Topics include relational databases, scheme normalization, SQL queries for data integration and data cleaning, database programming for ETL, and nontraditional database systems for unstructured data. 
DSC 430 is a prerequisite for this class.

DSC 465 | DATA VISUALIZATION (FORMERLY CSC 465) | 4 quarter hours  
(Graduate)  
An introduction to data visualization techniques to enhance the exploration and analysis of large data sets from a wide range of fields including commercial, financial, medical, scientific and engineering applications. Topics include visual encoding of numeric data, graphical integrity and effective visualization design, visualizing distributions and correlation, false-color techniques for feature extraction and enhancement, basic network visualization and graph layout, isosurface generation, geospatial visualization and volumetric rendering techniques. The course explores both existing visualization software packages and code interfaces for data visualization. 
(IT 403 or MAT 453) and (CSC 401 or IT 411 or MAT 449) are prerequisites for this class.

DSC 478 | PROGRAMMING MACHINE LEARNING APPLICATIONS (FORMERLY CSC 478) | 4 quarter hours  
(Graduate)  
The course will focus on the implementations of various data mining and machine learning techniques using a high-level programming language. Students will have hands on experience developing both supervised and unsupervised machine learning algorithms and will learn how to employ these techniques in the context of popular applications including automatic personalization, recommender systems, searching and ranking, text mining, group and community discovery, and social media analytics. 
DSC 441 and (DSC 430 or CSC 403) are prerequisites for this class.
DSC 480 | SOCIAL NETWORK ANALYSIS (FORMERLY CSC 495) | 4 quarter hours
(Graduate)
This course is an introduction to the concepts and methods of social network analysis. Students will learn to extract and manage data about network structure and dynamics, and to analyze, model, and visualize such data. Students will use software tools to model and visualize network structure and dynamics. Specific network applications to be discussed include online social networks, collaboration networks, and communication networks.

(DSC 423 or SOC 412 or PSY 411) is a prerequisite for this class.

DSC 484 | WEB DATA MINING (FORMERLY ECT 584) | 4 quarter hours
(Graduate)
An in-depth study of the knowledge discovery process and its applications in Web mining. Web analytics and business intelligence. The course provides coverage of various aspects of data collection and preprocessing, as well as basic data mining techniques for segmentation, classification, predictive modeling, association analysis, and sequential pattern discovery. The primary focus of the course is the application of these techniques to Web analytics, user behavior modeling, e-metrics for business intelligence, Web personalization and recommender systems. Also addressed are privacy and ethical issues related to Web data mining. Students can choose from three types of final course projects: implementation projects, research papers, or data analysis projects. Throughout the course, the students will learn and use a variety of data mining tools to analyze sample data sets as part of class assignments.

IT 403 and (CSC 451 or CSC 453 or CSC 455 or DSC 450) are prerequisites for this class.

DSC 510 | HEALTH DATA SCIENCE | 4 quarter hours
(Graduate)
The course will focus on data science methods used in clinical studies and public health applications. Students will be introduced to a variety of health care data from electronic health records to payer data, geospatial and unstructured data, and will learn how to solve data science problems in the health sector. Topics include overview of healthcare analytics and typical research questions, epidemiology, data ethics, governance and security, applications of modeling techniques and machine learning methods to a variety of case studies in health care.

DSC 441 is a prerequisite for this class.

DSC 540 | ADVANCED MACHINE LEARNING (FORMERLY CSC 529) | 4 quarter hours
(Graduate)
The course is for students with prior background in data mining or machine learning techniques, and covers more advanced modeling techniques, including ensemble learning, extended linear models such as support vector machines, probabilistic graphical models, mixture and latent variable models, matrix factorization and link analysis. Application of the models will be presented in popular domains such as Web and social media analytics, text mining, crime analysis, community discovery, and health informatics.

CSC 412 and (DSC 441 or CSC 480) are prerequisites for this class.

DSC 590 | TOPICS IN DATA SCIENCE | 4 quarter hours
(Graduate)
Specific topics will be selected by the instructor and may vary each quarter. This course is repeatable.

DSC 672 | DATA SCIENCE CAPSTONE | 4 quarter hours
(Graduate)
The capstone course provides an opportunity for students to integrate and apply the analytics skills and knowledge learned in the classroom to real world data. Students work in teams on a large scale analytics project. At the end of the course, students submit a report summarizing their analyses and study outcomes, and present results to the class.

PREREQUISITE(S): Instructor consent required.

Decision Analytics (DA)

DA 150 | ANALYTICS IN ACTION SEMINARS | 2 quarter hours
(Undergraduate)
In these seminars, students describe and assess how they have applied or are applying something that they have learned to their work in industry or community, and students learn from practicing decision analytics professionals about the specific opportunities and challenges these individuals encounter in their work with data.

DA 200 | DATA ANALYTICS | 4 quarter hours
(Undergraduate)
This course is designed as an introduction to fundamental techniques of data analytics and the various fields, such as various business and decision sciences (accountancy, economics, finance, marketing, management, operations, and healthcare), which use data to gain insights and make informed decisions. In this course students will learn various analytical tools and demonstrate their ability to execute, understand, present, and discuss analytical results. Thus, building a strong foundation in supporting data-driven decision making in various fields of interest. Major topics include the applications of logical and financial functions; data visualization and manipulation, and what-if analysis.

DA 220 | DATA MINING | 2-4 quarter hours
(Undergraduate)
In this course, students will be introduced to data mining and will learn techniques including cluster, classification, association, and decision tree analysis to discover patterns in datasets. Students are expected to have a good understanding of databases and parametric statistics prior to the course. The course is highly applied and hands-on, using a problem-based approach to problem solving. Pre-Requisites: IT 223 Data Analysis and IT 240 Introduction to Databases.

DA 233 | APPLIED INFORMATION MANAGEMENT SYSTEMS | 4 quarter hours
(Undergraduate)
This course introduces students to the key concepts in the field of Management Information Systems (MIS) and enhances understanding of the issues that business organizations face when developing and managing information systems. In this course, students will be presented with a broad overview of the field to first examine the increasing impact of information technology in business organizations, and second, in preparation for more advanced courses in data analytics and information systems. Specifically, the three major topics covered include (1) e-businesses and networks, (2) databases, as well as (3) enterprise resource planning (ERP) and process models. These topics are designed to prepare students for further inquiry on web analytics, data mining, project management, supply chain management, as well as business in general. By completing the course, students should be better equipped to apply IT skills to solve business problems, to participate in IT projects, and to communicate more knowledgeably with IT professionals.
DA 240 | TEXT ANALYTICS | 2 quarter hours  
(Undergraduate)  
Although analytics can be thought of as inductive data analysis, involving huge data sets, the data organizations face are not always quantitative. From the comments on rating scales to consumer reports, some quantitative scales can be arbitrary. Using a market-leading analytics tool, students will explore a different form of analytics: text analytics. To perform content analysis of unstructured textual documents, or textual data. The course takes a hands-on, scenario-based approach, thus enabling students to have multiple opportunities to apply their skills to different problems. Upon completion, students will not only learn about text analytics, but also have a strong grasp of a market-leading analytics tool. Pre-Requisite: Foundations of Analytics and IT 223 Data Analysis. (2-4 quarter hours)

DA 340 | ACCELERATING ORGANIZATION INTELLIGENCE: WHAT'S THE STORY? | 2 quarter hours  
(Undergraduate)  
This course focuses on developing the curiosity of students in decision analytics. Rather than verifying hypotheses, students will dig deeper to discover the right questions to ask and develop solutions. Having understood the emerging field of decision analytics and how analyzing Big Data can solve many current organization problems, this course adopts market-leading software to answer the preceding two questions. In this course, students will use this software to understand datasets, analyze datasets, visualize and share their findings. Through a series of problems, students will analyze a company's current position, identify problematic areas, develop insights for decision-making, develop compelling visuals and dashboards, build scenarios, and work collaboratively with companies (subject to availability). The hands-on approach enables students to build on existing knowledge on analytics to develop specific skills in using market-leading software. In addition, students will have the opportunity to use their own data for analysis in their focus areas. Pre-Requisite: Descriptive Analytics. (2-4 quarter hours)

DA 350 | QUALITATIVE ANALYTICS | 2-4 quarter hours  
(Undergraduate)  
While analytics often imply the use of predictive models, research problems do not always allow researchers to use quantitative methods. In this course, we look at problems that require a qualitative approach through an introduction to qualitative methods, hands on analysis of qualitative data, and discussion of ethics involved in empirical inquiry. (2-4 quarter hours)

Design (DES)

DES 111 | DRAWING FOR DESIGNERS I | 2 quarter hours  
(Undergraduate)  
The first in a 3 quarter sequence of general drawing courses. An introduction to composition, line, and rendering in black and white media. Students will develop technical skills of drawing to enable them to express their ideas visually. The course will cover techniques and materials used for documentation of designs, including perspective, spatial understanding, and figure drawing. Drawing exercises will be combined with critiques, discussions, and demonstrations.  
Status as a Theatre Undergraduate or Graduate student (or concentration in Production Design in the School of Cinematic Arts) is a prerequisite for this course.

DES 112 | DRAWING FOR DESIGNERS II | 2 quarter hours  
(Undergraduate)  
The second in a 3 quarter sequence of general drawing courses. An introduction to composition, line, and rendering in black and white media. Students will develop technical skills of drawing to enable them to express their ideas visually. The course will cover techniques and materials used for documentation of designs, including perspective, spatial understanding, and figure drawing. Drawing exercises will be combined with critiques, discussions, and demonstrations.  
(Status as a Wig & Makeup Design Major) or (DES 111 and status as an Undergraduate or Graduate Theatre student) or (DES 111 and a Production Design concentration in the School for Cinematic Arts) are prerequisites for this class.

DES 113 | DRAWING FOR DESIGNERS III | 2 quarter hours  
(Undergraduate)  
The third in a 3 quarter sequence of general drawing courses. An introduction to composition, line, and rendering in black and white media. Students will develop technical skills of drawing to enable them to express their ideas visually. The course will cover techniques and materials used for documentation of designs, including perspective, spatial understanding, and figure drawing. Drawing exercises will be combined with critiques, discussions, and demonstrations.  
DES 112 and status as a Theatre School Undergraduate or Graduate student (or Production Design concentration in the School for Cinematic Arts) are prerequisites for this class.

DES 141 | PRINCIPLES OF DESIGN | 4 quarter hours  
(Undergraduate)  
The course will develop and strengthen abilities to observe, visualize, and visually communicate conceptual ideas through design problem solving. Students will develop an understanding of how design principles create meaning in performance based art forms. Assignments will stimulate and refine intuitive design sensibilities and skills relative to the elements of design and composition. Project work will explore various 2-D and 3-D means of visual communication.  
Status as a Theatre Undergraduate or Graduate student (or concentration in Production Design in the School of Cinematic Arts) is a prerequisite for this course.

DES 142 | PRINCIPLES OF DESIGN | 4 quarter hours  
(Undergraduate)  
The course will develop and strengthen abilities to observe, visualize, and visually communicate conceptual ideas through design problem solving. Students will develop an understanding of how design principles create meaning in performance based art forms. Assignments will stimulate and refine intuitive design sensibilities and skills relative to the elements of design and composition. Project work will explore various 2-D and 3-D means of visual communication.  
DES 141 and status as an Undergraduate or Graduate Theatre student (or Production Design concentration in the School for Cinematic Arts) are prerequisites for this class.
DES 143 | PRINCIPLES OF DESIGN | 4 quarter hours (Undergraduate)
The course will develop and strengthen abilities to observe, visualize, and visually communicate conceptual ideas through design problem solving. Students will develop an understanding of how design principles create meaning in performance based art forms. Assignments will stimulate and refine intuitive design sensibilities and skills relative to the elements of design and composition. Project work will explore various 2-D and 3-D means of visual communication.

Status as an Undergraduate or Graduate Theatre student (or Production Design concentration in the School for Cinematic Arts) are prerequisites for this class.

DES 208 | SOUND DESIGN I | 4 quarter hours (Undergraduate)
Fundamentals of Sound Design - This introductory course teaches the fundamentals of how to approach the artistry of sound design through the understanding of the physics of sound, and the tools by which you will manipulate it. It is recommended that you have some knowledge of computer sound software programs.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 209 | SOUND DESIGN I | 4 quarter hours (Undergraduate)
History of Music and Implementation of Sound to Visual - Students will learn the history of sound design, and how music and the recording of sound has changed from 1400 to present day. Students will apply practical knowledge from the prior quarter to form and apply soundscapes to visual images.

DES 208 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 210 | SOUND DESIGN I | 4 quarter hours (Undergraduate)
Design Organization and Script Analysis - An in depth exploration with the process of creating a sound design for a specific script. The students will learn how to analyze the script for sound design, create the cues for the script, and learn the process of how to approach a concept and see it through to its final design.

DES 209 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 215 | WIG & MAKEUP DESIGN AND TECHNOLOGY 1 | 4 quarter hours (Undergraduate)
First in a three course sequence. Introduction to the study of facial anatomy, chiaroscuro, and color theory as it applies to makeup design and application for theatre and film. Corrective and age makeup, contour and expression, texturing techniques, and basic injury-makeup are explored. Testing makeup's ability to read under stage lights of varying intensity/color and discussions of how makeup reads onstage in a variety of venues. A whimsical or animal-based makeup design with training in using Aquacolor and cream makeup will be a final project.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 216 | WIG & MAKEUP DESIGN AND TECHNOLOGY 1 | 4 quarter hours (Undergraduate)
Second in a three-course sequence. An introduction to basic makeup prosthetics, adhesives, and three-dimensional makeup techniques such as wax, nose putty, and latex. Techniques used for eyebrow blocking and reshaping explored. Use of crepe hair to build brows and mustaches. Advanced study in injury makeup, in addition to the study of various stage blood and delivery systems. Beginning training in hair ventilation techniques. Special topics in cultural theatrical makeup practices. Final project will consist of a fantasy makeup design and application.

DES 215 and status as an undergraduate or graduate Theatre student is a prerequisite for this class.

DES 217 | WIG & MAKEUP DESIGN AND TECHNOLOGY 1 | 4 quarter hours (Undergraduate)
Third course in a three-course sequence. Makeup and hair design in conjunction with script and character analysis explored. Stylized makeup will be studied. Introduction to high definition/film makeup techniques. Training in wig prep and application techniques, including pin curling and pin curl alternatives. Wig roller sets, pinning on a wig, and applying facial hair. Head wraps and tracings for ventilation patterning will be created. Students will create a mustache from scratch. Introduction to cultural and period makeup techniques.

DES 216 and status as an undergraduate or graduate Theatre student is a prerequisite for this class.

DES 220 | INTRODUCTION TO COSTUME DESIGN | 4 quarter hours (Undergraduate)
An introduction to costume design for the stage. Students will explore costume silhouette and detail as it relates to the elements and principles of design. Students will learn the steps in a typical design process for costume design, including script analysis, research, and paperwork.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 230 | PROJECTION DESIGN I | 4 quarter hours (Undergraduate)
First course in three course sequence. An introduction to the methods of projection design, with exposure to both historical and contemporary practice. The development and communication of projection, video and media ideas. Script analysis, images, visual research, lighting concepts. The observation of light, and the development of oral, written and visual communication of lighting ideas.

DES 143 and status as an undergraduate or Graduate Theatre student are prerequisites for this class.

DES 231 | PROJECTION DESIGN I | 4 quarter hours (Undergraduate)
Second course in three course sequence. An introduction to the methods of projection design, with exposure to both historical and contemporary practice. The development and communication of projection, video and media ideas. Script analysis, images, visual research, lighting concepts. The observation of light, and the development of oral, written and visual communication of lighting ideas.

DES 230 and status as an Undergraduate or Graduate Theatre student are prerequisites for this class.
DES 232 | PROJECTION DESIGN I | 4 quarter hours
(Undergraduate)
Third course in three course sequence. An introduction to the methods of projection design, with exposure to both historical and contemporary practice. The development and communication of projection, video and media ideas. Script analysis, images, visual research, lighting concepts. The observation of light, and the development of oral, written and visual communication of lighting ideas.

DES 240 | LIGHTING TECHNOLOGY | 2 quarter hours
(Undergraduate)
Technical and mechanical aspects of lighting. A detailed study of standard equipment, lamps, connectors, control systems, hanging positions, procedures and practices for the lighting designer. (2 quarter hours)
Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 241 | SCENE DESIGN I | 4 quarter hours
(Undergraduate)
First of a 3-course sequence. An introduction to the methods of scenic design, with exposure to both historical and contemporary practice. Students become familiar with the mechanical aspects of scenery and stages, and assimilate the principles of design and the technical requirements of a script into a fully developed scene design.

DES 243 | SCENE DESIGN I | 4 quarter hours
(Undergraduate)
Second of a 3-course sequence. An introduction to the methods of scenic design, with exposure to both historical and contemporary practice. Students become familiar with the mechanical aspects of scenery and stages, and assimilate the principles of design and the technical requirements of a script into a fully developed scene design.

DES 244 | COSTUME DESIGN I | 4 quarter hours
(Undergraduate)
First of a 3-course sequence. An introduction to costume design. Students will explore the design process, costume silhouette and detail, and script and character analysis within the context of historical theatrical costuming.

DES 246 | COSTUME DESIGN I | 4 quarter hours
(Undergraduate)
Third of a 3-course sequence. An introduction to costume design. Students will explore the design process, costume silhouette and detail, and script and character analysis within the context of historical theatrical costuming.

DES 247 | LIGHTING DESIGN I | 4 quarter hours
(Undergraduate)
First course in a 3 course sequence. The development and communication of lighting ideas. Script analysis, images, visual research, lighting concepts. The observation of light, and the development of oral, written and visual communication of lighting ideas.

DES 248 | LIGHTING DESIGN I | 4 quarter hours
(Undergraduate)
Second course in a 3 course sequence. The development and communication of lighting ideas. Script analysis, images, visual research, lighting concepts. The observation of light, and the development of oral, written and visual communication of lighting ideas.

DES 249 | LIGHTING DESIGN I | 4 quarter hours
(Undergraduate)
Third course in a 3 course sequence. The development and communication of lighting ideas. Script analysis, images, visual research, lighting concepts. The observation of light, and the development of oral, written and visual communication of lighting ideas.

DES 250 | MATERIALS AND PROCESSES | 3 quarter hours
(Undergraduate)
This class is intended to familiarize the student with both the general concept of theatrical production and the specifics at The Theatre School. Students will also be introduced to the most common scenic construction materials, their strengths, limitations, and the tools used to manipulate these materials. Students will understand and practice the safety procedures of TTS production spaces while demonstrating proficiency with shop tools and equipment sufficient to complete construction assignments.

DES 252 | SCENOGRAPHIC DRAFTING | 3 quarter hours
(Undergraduate)
First course in a 2 course sequence. With an emphasis on practical work in substantial projects, students learn the organization of the technical documentation of scenery. Scenic drafting conventions are studied and applied to the comprehensive communication of a design.

TEC 153 and status as an Undergraduate or Graduate Theatre student (or Production Design concentration in the School for Cinematic Arts) are prerequisites for this class.
DES 253 | SCENOGRAPHIC DRAFTING | 3 quarter hours  
(Undergraduate)
Second course in a 2 course sequence. With an emphasis on practical work in substantial projects, students learn the organization of the technical documentation of scenery. Scenic drafting conventions are studied and applied to the comprehensive communication of a design.

DES 252 and status as an Undergraduate or Graduate Theatre student (or Production Design concentration in the School for Cinematic Arts) are prerequisites for this class.

DES 260 | HISTORY OF COSTUME, HAIR AND MAKEUP 1 | 4 quarter hours  
(Undergraduate)
The first course in a two-course sequence. An examination of the evolution of costume, hair, makeup, and personal adornment from prehistory to ca. 1800. Focus will be on Western Europe with special topics in cultural costume outside of Europe.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 261 | HISTORY OF COSTUME, HAIR AND MAKEUP 2 | 4 quarter hours  
(Undergraduate)
The second course in a two-course sequence. An examination of the evolution and costume, hair, makeup, and personal adornment from ca. 1800 to the present. Focus will be on Western Europe with special topics in cultural costume outside of Europe.

DES 260 and status as an undergraduate or graduate Theatre student is a prerequisite for this class.

DES 271 | DESIGN PRODUCTION PRACTICE I | 3 quarter hours  
(Undergraduate)
First course in a 3 course sequence. Design students do practical work on planning, constructing, rigging, painting, crewing, and running of productions. Areas may include scenery, costumes, lighting, or sound. (3 quarter hours)

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 272 | DESIGN PRODUCTION PRACTICE I | 3 quarter hours  
(Undergraduate)
Second course in a 3 course sequence. Design students do practical work on planning, constructing, rigging, painting, crewing, and running of productions. Areas may include scenery, costumes, lighting, or sound. (3 quarter hours)

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 273 | DESIGN PRODUCTION PRACTICE I | 3 quarter hours  
(Undergraduate)
Third course in a 3 course sequence. Design students do practical work on planning, constructing, rigging, painting, crewing, and running of productions. Areas may include scenery, costumes, lighting, or sound. (3 quarter hours)

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 274 | MODEL BUILDING | 3 quarter hours  
(Undergraduate)
The course focuses on creating professional quality scale models of stage scenery. Students will learn to work with a variety of materials (foamcore, board, paper, wood, and metal, and appropriate glues), will find sources for scale furnishings, and will learn a variety of techniques such as soldering and casting.

DES 113, DES 143, TEC 152 and status as an Undergraduate or Graduate Theatre student (or Production Design concentration in the School for Cinematic Arts) are prerequisites for this class.

DES 285 | MEDIA FOR DESIGNERS | 3 quarter hours  
(Undergraduate)
An advanced level class on rendering skills with different media: Charcoal, Graphite. Pastels/Color pencils and Water Color/Acrylic/Acrylic markers. These will be practically explored in the classroom within a project context, and will be geared towards developing an advanced, refined and individual method of communicating design ideas and concepts.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 286 | FIGURE DRAWING FOR THEATRE | 4 quarter hours  
(Undergraduate)
By creating drawings from live models, students will learn about body structure and musculature, and will develop their skills in figure drawing, and ‘drawing what you see’. (3 quarter hours)

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 290 | PORTRAITURE FOR THE WIG AND MAKEUP ARTIST | 4 quarter hours  
(Undergraduate)
In-depth study of the head, face, and hair through drawing from live models. Focus of study is on anatomy and multiple forms of artistic medium are explored. Theatrical lighting and its effect on facial features will be explored alongside the illusion created by makeup applied on the model.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 280 | SOUND DESIGN II | 4 quarter hours  
(Undergraduate)
Analysis and Psychoacoustics - Delving into the why and than the how of the choices we make in sound design students learn how to bring an audience on an emotional journey through psychoacoustics and analysis of a specific script. Guest directors are present to aid in the students’ understanding of communication of their ideas.

DES 210 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 309 | SOUND DESIGN II | 4 quarter hours  
(Undergraduate)
Intro to Composition - Students will learn both simple and advanced methods of music composition using MIDI, hardware and software samplers and keyboards. Students will create several pieces of composed music including scores for theatre and film and integrate other learned skills to create sound designs for both published and new plays.

DES 210 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 310 | SOUND DESIGN II | 4 quarter hours  
(Undergraduate)
Advanced Design and Technology - An advanced look at sound design and how to implement it with greater understanding. Advanced paperwork and advanced analysis of plays from the canonical work to new plays. Guests are invited to give a range of implementation ideas that students can learn from.

DES 280 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
DES 315 | WIG & MAKEUP DESIGN AND TECHNOLOGY 2 | 4 quarter hours
(Undergraduate)
The first course in a three-course sequence. Wig and facial hair ventilation and styling techniques. Specialized training in the techniques used to create realistic facial hair. Study of the natural hair growth and patterns, along with study of hair of various ethno-profiles. Techniques for cutting, styling, and coloring. Advanced period makeup techniques will be explored in concert with historical hairstyles and facial hair grooming techniques. Script analysis, visual research, and design of wigs, hair, and makeup for theatrical text will be explored.

DES 217 and status as an undergraduate or graduate Theatre student is a prerequisite for this class.

DES 316 | WIG & MAKEUP DESIGN AND TECHNOLOGY 2 | 4 quarter hours
(Undergraduate)
The second course in a three-course sequence. Wig and facial hair ventilation and styling techniques. Specialized training in the techniques used to create realistic facial hair. Study of the natural hair growth and patterns, along with study of hair of various ethno-profiles. Techniques for cutting, styling, and coloring. Advanced period makeup techniques will be explored in concert with historical hairstyles and facial hair grooming techniques. Script analysis, visual research, and design of wigs, hair, and makeup for theatrical text will be explored.

DES 315 and status as an undergraduate or graduate Theatre student is a prerequisite for this class.

DES 317 | WIG & MAKEUP DESIGN AND TECHNOLOGY 2 | 4 quarter hours
(Undergraduate)
The third course in a three-course sequence. Wig and facial hair ventilation and styling techniques. Specialized training in the techniques used to create realistic facial hair. Study of the natural hair growth and patterns, along with study of hair of various ethno-profiles. Techniques for cutting, styling, and coloring. Advanced period makeup techniques will be explored in concert with historical hairstyles and facial hair grooming techniques. Script analysis, visual research, and design of wigs, hair, and makeup for theatrical text will be explored.

DES 316 and status as an undergraduate or graduate Theatre student is a prerequisite for this class.

DES 320 | ADVANCED MAKEUP | 3 quarter hours
(Undergraduate)
In this course students will design a character makeup involving both facial prosthetics and ventilated hair. Three types of facial prosthetics are produced: silicone, foamed latex and slush molded latex. Face casting, clay sculpting and mold making are taught as steps to creating the final prosthetic. A ventilated hair piece is produced with attention to techniques of pattern making, hair processing, ventilating and hair dressing. Painting techniques are reviewed as final makeup is put together. Each year the class will choose one "extra" technique to pursue. Past pursuits have been: Kabuki Makeup with Kabuki master Shozo Sato, Tooth casting and stage teeth. (3 quarter hours)

PRF 214, 215 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 330 | PROJECTION DESIGN 2 | 4 quarter hours
(Undergraduate)
First course in three course sequence. Basic techniques are incorporated into a comprehensive approach to projection design with the emphasis on aesthetics. The analysis of scripts in visual terms, visual research methods, style in the theater, and the development of a design concept, are studied through projects in contrasting styles of production designs. Students will demonstrate familiarly and skill in the use of equipment, cueing and playback, and the exploration of projection as character.

DES 232, TEC 232 and status as an Undergraduate or Graduate Theatre student are prerequisites for this class.

DES 331 | PROJECTION DESIGN 2 | 4 quarter hours
(Undergraduate)
Second course in three course sequence. Basic techniques are incorporated into a comprehensive approach to projection design with the emphasis on aesthetics. The analysis of scripts in visual terms, visual research methods, style in the theater, and the development of a design concept, are studied through projects in contrasting styles of production designs. Students will demonstrate familiarly and skill in the use of equipment, cueing and playback, and the exploration of projection as character.

DES 330 and status as an Undergraduate or Graduate Theatre student are prerequisites for this class.

DES 332 | PROJECTION DESIGN 2 | 4 quarter hours
(Undergraduate)
Third course in three course sequence. Basic techniques are incorporated into a comprehensive approach to projection design with the emphasis on aesthetics. The analysis of scripts in visual terms, visual research methods, style in the theater, and the development of a design concept, are studied through projects in contrasting styles of production designs. Students will demonstrate familiarly and skill in the use of equipment, cueing and playback, and the exploration of projection as character.

DES 331 and status as an Undergraduate or Graduate Theatre student are prerequisites for this class.

DES 341 | SCENE DESIGN II | 4 quarter hours
(Undergraduate)
First course in 3 course sequence. Basic techniques are incorporated into a comprehensive approach to scene design with the emphasis on aesthetics. The analysis of scripts in visual terms, visual research methods, style in the theater, and the development of a design concept, are studied through projects in contrasting styles of stage designs.

DES 243 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 342 | SCENE DESIGN II | 4 quarter hours
(Undergraduate)
Second course in 3 course sequence. Basic techniques are incorporated into a comprehensive approach to scene design with the emphasis on aesthetics. The analysis of scripts in visual terms, visual research methods, style in the theater, and the development of a design concept, are studied through projects in contrasting styles of stage designs.

DES 341 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
DES 343 | SCENE DESIGN II | 4 quarter hours  
(Undergraduate)  
Third course in a 3 course sequence. Basic techniques are incorporated into a comprehensive approach to scene design with the emphasis on aesthetics. The analysis of scripts in visual terms, visual research methods, style in the theater, and the development of a design concept, are studied through projects in contrasting styles of stage designs.  
**DES 342 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.**

DES 344 | COSTUME DESIGN II | 4 quarter hours  
(Undergraduate)  
First course in a 3 course sequence. Lectures and projects in costume design for the modern drama, specifically from realism through 21st century styles. Design projects include script interpretation, rendering techniques, budgets, and fabric selections.  
**DES 246 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.**

DES 345 | COSTUME DESIGN II | 4 quarter hours  
(Undergraduate)  
Second course in a 3 course sequence. Lectures and projects in costume design for the modern drama. Design projects include team collaboration, script interpretation, rendering techniques, budgets, and fabric selections.  
**DES 344 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.**

DES 346 | COSTUME DESIGN II | 4 quarter hours  
(Undergraduate)  
Third course in a 3 course sequence. Lectures and projects in costume design for the modern drama, specifically from realism through 21st century styles. Design projects include script interpretation, rendering techniques, budgets, and fabric selections.  
**DES 345 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.**

DES 347 | LIGHTING DESIGN II | 4 quarter hours  
(Undergraduate)  
First course in a 3 course sequence. The implementation of lighting ideas. Practice in the translation of lighting ideas into actual designs. Light pads, lighting paperwork, Vectorworks, the use of equipment and the exploration of realistic lighting styles.  
**DES 249 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.**

DES 348 | LIGHTING DESIGN II | 4 quarter hours  
(Undergraduate)  
Second course in a 3 course sequence. The implementation of lighting ideas. Practice in the translation of lighting ideas into actual designs. Light pads, lighting paperwork, Vectorworks, the use of equipment and the exploration of realistic lighting styles.  
**DES 347 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.**

DES 349 | LIGHTING DESIGN II | 4 quarter hours  
(Undergraduate)  
Third course in a 3 course sequence. The implementation of lighting ideas. Practice in the translation of lighting ideas into actual designs. Light pads, lighting paperwork, Vectorworks, the use of equipment and the exploration of realistic lighting styles.  
**DES 348 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.**

DES 361 | THEATRICAL COLLABORATION | 3 quarter hours  
(Undergraduate)  
An investigation, through research and discussion, of the conceptual problems of physically mounting specific, assigned scripts from the classic and modern theatre, covering a broad stylistic range. Students will submit proposals for designs and justify their ideas through literary and pictorial research. The directorial and collaborative problems of arriving at a production concept, up to, but not including fully-realized design documentation, is emphasized through a series of projects. (3 quarter hours)  
**Status as a 3rd or 4th year BFA Lighting, Scenery, Costume Design and Dramaturgy students, or MFA students is a prerequisite for this class.**

DES 362 | THEATRICAL COLLABORATION | 3 quarter hours  
(Undergraduate)  
An investigation, through research and discussion, of the conceptual problems of physically mounting specific, assigned scripts from the classic and modern theatre, covering a broad stylistic range. Students will submit proposals for designs and justify their ideas through literary and pictorial research. The directorial and collaborative problems of arriving at a production concept, up to, but not including fully-realized design documentation, is emphasized through a series of projects. (3 quarter hours)  
**Status as a 3rd or 4th year BFA Lighting, Scenery, Costume Design and Dramaturgy students, or MFA students is a prerequisite for this class.**

DES 371 | DESIGN PRODUCTION PRACTICE II | 4 quarter hours  
(Undergraduate)  
First course in a 3 course sequence. For all design students. Through demonstration, discussion, lecture, and projects, students explore Assignments will be commensurate with ability and experience.  
**Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.**

DES 372 | DESIGN PRODUCTION PRACTICE II | 4 quarter hours  
(Undergraduate)  
Second course in a 3 course sequence. For all design students. Through demonstration, discussion, lecture, and projects, students explore Assignments will be commensurate with ability and experience.  
**DES 371 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.**

DES 373 | DESIGN PRODUCTION PRACTICE II | 4 quarter hours  
(Undergraduate)  
Third course in a 3 course sequence. For all design students. Demonstration, discussion, lecture, and projects. Assignments will be commensurate with ability and experience.  
**DES 372 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.**

DES 384 | RENDERING FOR DESIGNERS I | 3 quarter hours  
(Undergraduate)  
First course in a 3 course sequence. Using color pencils, pastel and markers, the fundamentals of drawing will be explored with primary emphasis on working from observation. The course develops insights in the mechanisms of visual perception, how the individual components of the drawing relate to the whole and compositional organization. Each student works to represent accurately and proportionately objects, planes, and volumes in color by developing hand-to-eye coordination with line and tone and color.  
**DES 113 and status as an Undergraduate or Graduate Theatre student (or Production Design concentration in the School for Cinematic Arts) are prerequisites for this class.**
DES 385 | RENDRING FOR DESIGNERS II | 3 quarter hours (Undergraduate)
Second course in a 3 course sequence. Using color pencils, pastel and markers, the fundamentals of drawing will be explored with primary emphasis on working from observation. The course develops insights in the mechanisms of visual perception, how the individual components of the drawing relate to the whole and compositional organization. Each student works to represent accurately and proportionately objects, planes, and volumes in color by developing hand-to-eye coordination with line and tone and color.

DES 384 and status as an Undergraduate or Graduate Theatre student (or Production Design concentration in the School for Cinematic Arts) are prerequisites for this class.

DES 386 | RENDRING FOR DESIGNERS III | 3 quarter hours (Undergraduate)
Third course in a 3 course sequence. Using color pencils, pastel and markers, the fundamentals of drawing will be explored with primary emphasis on working from observation. The course develops insights in the mechanisms of visual perception, how the individual components of the drawing relate to the whole and compositional organization. Each student works to represent accurately and proportionately objects, planes, and volumes in color by developing hand-to-eye coordination with line and tone and color.

DES 385 and status as an Undergraduate or Graduate Theatre student (or Production Design concentration in the School for Cinematic Arts) are prerequisites for this class.

DES 387 | SCENE PAINTING | 2 quarter hours (Undergraduate)
First course in a 3 course sequence. Discussion of the formulation and handling of scene paints and dyes, brushes and tools, and techniques. Practical laboratory work in problems of the realistic representation of a variety of textures and materials at scenic scale. (2 quarter hours)

DES 386 and status as an Undergraduate or Graduate Theatre student (or Production Design concentration in the School for Cinematic Arts) are prerequisites for this class.

DES 388 | SCENE PAINTING | 2 quarter hours (Undergraduate)
Second course in a 3 course sequence. Discussion of the formulation and handling of scene paints and dyes, brushes and tools, and techniques. Practical laboratory work in problems of the realistic representation of a variety of textures and materials at scenic scale leads to fully developed illusionistic and pictorial stage scenery. (2 quarter hours)

DES 387 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 389 | SCENE PAINTING | 2 quarter hours (Undergraduate)
Third course in a 3 course sequence. Discussion of the formulation and handling of scene paints and dyes, brushes and tools, and techniques. Practical laboratory work in problems of the realistic representation of a variety of textures and materials at scenic scale leads to fully developed illusionistic and pictorial stage scenery. (2 quarter hours)

DES 388 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 399 | INDEPENDENT STUDY | 1-4 quarter hours (Undergraduate)
Independent Study (variable credit)
Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 408 | SOUND DESIGN III | 4 quarter hours (Undergraduate)
Senior Capstone - Focusing on the individual student and their requested field of study. Students choose what they wish to learn to create a more specialized approach to the individual? specific skills. The student outlines their own curriculum in an area in which they wish further research or study.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 409 | SOUND DESIGN III | 4 quarter hours (Undergraduate)
Portfolio, Website, and the Business of Freelancing - Students prepare their own specific branding for their freelance career so they will have a complete packaging of their artwork. Students also learn about the language that is necessary for freelance contracts, union contracts, and how to approach filing taxes.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 410 | SOUND DESIGN III | 4 quarter hours (Undergraduate)
Different Careers in Sound Design - Each week will be an introduction to different careers possible within the field of Sound Design. This course will contain guest lectures from professional designers who specialize in each field. Allowing students to narrow their focus to what they wish to achieve after they graduate.

Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 415 | WIG & MAKEUP DESIGN AND TECHNOLOGY 3 | 4 quarter hours (Graduate)
First course in a three-course sequence. Students will explore advanced ventilating techniques, including developing wig foundations and advanced hand tying/wefting. Exploration in non-traditional materials and fantasy design for both wigs and makeup. The analysis of scripts and development of a design concept are studied through projects in contrasting styles of production design, including design for film and other various entertainment media. The business side of wig and makeup design will be explored, including budgeting for materials and labor. As a corollary, portfolio and resume building is developed.

DES 317 and status as an undergraduate or graduate Theatre student is a prerequisite for this class.

DES 416 | WIG & MAKEUP DESIGN AND TECHNOLOGY 3 | 4 quarter hours (Graduate)
Second course in a three-course sequence. Students will explore advanced ventilating techniques, including developing wig foundations and advanced hand tying/wefting. Exploration in non-traditional materials and fantasy design for both wigs and makeup. The analysis of scripts and development of a design concept are studied through projects in contrasting styles of production design, including design for film and other various entertainment media. The business side of wig and makeup design will be explored, including budgeting for materials and labor. As a corollary, portfolio and resume building is developed.

DES 415 and status as an undergraduate or graduate Theatre student is a prerequisite for this class.
DES 417 | WIG & MAKEUP DESIGN AND TECHNOLOGY 3 | 4 quarter hours  
(Graduate)  
Third course in a three-course sequence. Students will explore advanced ventilating techniques, including developing wig foundations and advanced hand tying/wefting. Exploration in non-traditional materials and fantasy design for both wigs and makeup. The analysis of scripts and development of a design concept are studied through projects in contrasting styles of production design, including design for film and other various entertainment media. The business side of wig and makeup design will be explored, including budgeting for materials and labor. As a corollary, portfolio and resume building is developed.

DES 416 and status as an undergraduate or graduate Theatre student is a prerequisite for this class.

DES 430 | PROJECTION DESIGN 3 | 4 quarter hours  
(Undergraduate)  
First course in three course sequence. Students complete assignments in the conceptual analysis and fulfillment of projects covering a wide variety of genres; including designs for the classical and modern drama, opera, architecture, installation art and the ballet. As a corollary, portfolios of a professional caliber are developed. Students will show competency in synthesizing their design and technical skills in projects that expand beyond theatre. They will create and be practiced in sharing a portfolio of their design work.

DES 332 and status as an Undergraduate or Graduate Theatre student are prerequisites for this class.

DES 431 | PROJECTION DESIGN 3 | 4 quarter hours  
(Undergraduate)  
Second course in three course sequence. Students complete assignments in the conceptual analysis and fulfillment of projects covering a wide variety of genres; including designs for the classical and modern drama, opera, architecture, installation art and the ballet. As a corollary, portfolios of a professional caliber are developed. Students will show competency in synthesizing their design and technical skills in projects that expand beyond theatre. They will create and be practiced in sharing a portfolio of their design work.

DES 430 and status as an Undergraduate or Graduate Theatre student are prerequisites for this class.

DES 432 | PROJECTION DESIGN 3 | 4 quarter hours  
(Undergraduate)  
Third course in three course sequence. Students complete assignments in the conceptual analysis and fulfillment of projects covering a wide variety of genres; including designs for the classical and modern drama, opera, architecture, installation art and the ballet. As a corollary, portfolios of a professional caliber are developed. Students will show competency in synthesizing their design and technical skills in projects that expand beyond theatre. They will create and be practiced in sharing a portfolio of their design work.

DES 431 and status as an Undergraduate or Graduate Theatre student are prerequisites for this class.

DES 441 | SCENE DESIGN III | 4 quarter hours  
(Undergraduate)  
Second course in a 3 course sequence. Students complete assignments in the conceptual analysis and fulfillment of projects covering a wide variety of genres, including designs for the classical and modern drama, opera, and the ballet. As a corollary, portfolios of a professional caliber are developed.

DES 441 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 443 | SCENE DESIGN III | 4 quarter hours  
(Undergraduate)  
Third course in a 3 course sequence. Students complete assignments in the conceptual analysis and fulfillment of projects covering a wide variety of genres, including designs for the classical and modern drama, opera, and the ballet. As a corollary, portfolios of a professional caliber are developed.

DES 442 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 444 | COSTUME DESIGN III | 4 quarter hours  
(Undergraduate)  
Second course in a 3 course sequence. Costume design for diverse styles of drama evolving through lecture and project work. Projects will include script interpretation, developing a professional portfolio, discussions on career planning, and the exploration of design for a classical text.

DES 346 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 445 | COSTUME DESIGN III | 4 quarter hours  
(Undergraduate)  
Third course in a 3 course sequence. Costume design for diverse styles of drama evolving through lecture and project work. Projects will include script interpretation, developing a professional portfolio, discussions on career planning, and the exploration of costume design within the areas of musical theater, opera, dance, film, television and commercials.

DES 444 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 446 | COSTUME DESIGN III | 4 quarter hours  
(Undergraduate)  
Third course in a 3 course sequence. Costume design for diverse styles of drama evolving through lecture and project work. Projects will include script interpretation, developing a professional portfolio, discussions on career planning, and the exploration of costume design within the areas of musical theater, opera, dance, film, television and commercials.

DES 445 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 447 | LIGHTING DESIGN III | 4 quarter hours  
(Undergraduate)  
First course in a 3 course sequence. Complete lighting design projects in a variety of styles and methods of presentation including unit set, multi-set, musicals, operas. Cuing, scenery and backdrop design will also be covered.

DES 349 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.
DES 448 | LIGHTING DESIGN III | 4 quarter hours
(Undergraduate)
Second course in a 3 course sequence. Complete lighting design projects in a variety of styles and methods of presentation including unit set, multi-set, musicals, operas. Cuing, scenery and backdrop design will also be covered.

DES 447 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 449 | LIGHTING DESIGN III | 4 quarter hours
(Undergraduate)
Third course in a 3 course sequence. Complete lighting design projects in a variety of styles and methods of presentation including unit set, multi-set, musicals, operas. Cuing, scenery and backdrop design will also be covered.

DES 448 and status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 471 | DESIGN PRODUCTION PRACTICE III | 5 quarter hours
(Undergraduate)
For all design students. Assignments will be commensurate with ability and experience. (5 quarter hours)
Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 472 | DESIGN PRODUCTION PRACTICE III | 5 quarter hours
(Undergraduate)
For all design students. Assignments will be commensurate with ability and experience. (5 quarter hours)
Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 473 | DESIGN PRODUCTION PRACTICE III | 5 quarter hours
(Undergraduate)
For all design students. Assignments will be commensurate with ability and experience. (5 quarter hours)
Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 484 | PHOTOSHOP FOR DESIGNERS | 3 quarter hours
(Undergraduate)
Students will work through the process of creating professional renderings of stage scenery, costumes, and lighting, by using Photoshop to manipulate and transform their original sketches. Through this process, the students will master the tools available in Photoshop, and will create portfolio-ready rendering works.
Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 485 | PROJECTION DESIGN | 3 quarter hours
(Undergraduate)
Students are provided with basic design concepts, techniques and skills in the use of projection design for theatre. The course focuses on conceiving motion and still images for projection, communicating those ideas to the design team through story boards, and realizing those ideas through the use of Isadora video control software.
Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 486 | PORTFOLIO PREPARATION | 3 quarter hours
(Undergraduate)
Students will work on developing a professional portfolio that showcases their design work to best advantage. Students will develop a consistent presentation style and will rework projects as necessary to increase the quality of their portfolio.
Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 490 | DESIGN INTERNSHIP | 5 quarter hours
(Undergraduate)
The internship provides the student with an opportunity to learn by working with experienced professionals in an area related to his/her area of study at The Theatre School. (5 quarter hours)
Status as an Undergraduate or Graduate Theatre student is a prerequisite for this class.

DES 641 | THEATRICAL COLLABORATION | 3 quarter hours
(Graduate)
An investigation, through research and discussion, of the conceptual problems of physically mounting specific, assigned scripts from the classic and modern theatre, covering a broad stylistic range. Students will submit proposals for designs and justify their ideas through literary and pictorial research. The directorial and collaborative problems of arriving at a production concept, up to, but not including fully-realized design documentation, is emphasized through a series of projects. (3 quarter hours)
Status as a 3rd or 4th year BFA Lighting, Scenery, Costume Design and Dramaturgy students, or MFA students is a prerequisite for this class.

DES 642 | THEATRICAL COLLABORATION | 3 quarter hours
(Graduate)
An investigation, through research and discussion, of the conceptual problems of physically mounting specific, assigned scripts from the classic and modern theatre, covering a broad stylistic range. Students will submit proposals for designs and justify their ideas through literary and pictorial research. The directorial and collaborative problems of arriving at a production concept, up to, but not including fully-realized design documentation, is emphasized through a series of projects. (3 quarter hours)
Status as a 3rd or 4th year BFA Lighting, Scenery, Costume Design and Dramaturgy students, or MFA students is a prerequisite for this class.

Digital Humanities (DHS)

DHS 460 | DIGITAL HISTORY | 4 quarter hours
(Graduate)
Introduction to digital tools and methods for historical research.

DHS 500 | INTRODUCTION TO DIGITAL HUMANITIES | 4 quarter hours
(Graduate)
An introduction to tools and methods in digital humanities.

Digital Media Arts (DMA)

DMA 402 | INTRO TO VISUAL COMMUNICATIONS | 4 quarter hours
(Graduate)
This course introduces visual communication principles including, but not limited to, typography, color, movement and composition for print and screen applications. Students will create multiple projects and participate in class critiques to help build industry specific vocabulary, critical assessment, and familiarity with presenting creative work. Relevant creative methodologies and software used to prepare media for print and digital applications will also be covered. PREREQUISITE(S): None.
DMA 405 | Intro to Interactive Media Design | 4 quarter hours  
(Graduate)
Focusses specifically on an introduction of interactive media, including game, web, and interactive social media design. By exploring, analyzing and creating various interactive media formats and platforms, students become familiar with the principles of successful interactive media design. Students learn the basics of conceptualizing for interactive media as well as gain first experiences in using various tools to create interactive experiences. In addition to exploring the technical aspects of creating interactive media objects, students will explore the socio-cultural context that constrains what, how and why media objects are created. PREREQUISITE(S): None.

DMA 410 | Design Workshop | 4 quarter hours  
(Graduate)
This course is an intensive study of the world of visual design with a specific focus on contemporary graphic design theories and practices expressing ideas and messages to specific audiences. It expands on the design skills developed in the introductory class (GD 200) including communication, conceptualization, typography, color, form, and structure. Students will study both commercial and artistic approaches producing projects that integrate designed graphics, photographs, illustration and text, and their intersection with moving technologies. Students will have the opportunity to produce sophisticated printed matter on state-of-the-art printing equipment or digital presentation for the web, screen or mobile devices. PREREQUISITE(S): None.

DMA 415 | Audio Workshop | 4 quarter hours  
(Graduate)
This course is an introduction to the world of interactive audio communication for multimedia. Students will study various uses of sound and music on stand-alone applications, mobile devices, and the internet. Students will learn to create and edit podcasts, deliver multimedia presentations, upload audio in various standard formats and attach audio files to social media platforms. Emerging hardware and software technologies will also be introduced. The course will also cover current trends and legalities of digital media. PREREQUISITE(S): None.

DMA 420 | Digital Media Arts Survey | 4 quarter hours  
(Graduate)
Introduces the field of Digital Media through a weekly focus on various media arts themes (for example, UX, video production, design management, etc.). Panel discussions where faculty members and industry professionals will share their work and answer questions will occur weekly. This class encourages students to clarify their course of study and build connections with faculty, professionals, and students with similar interests. In addition to panel discussions, students will also complete a series of trend reports and presentations that align with the weekly themes. PREREQUISITE(S): None.

DMA 425 | Still Image Workshop | 4 quarter hours  
(Graduate)
This course develops and expands the digital imaging skills introduced in the introductory class (DC 225), with a specific focus on their application in contemporary photographic practice. Advanced color correction, retouching, and compositing techniques are covered and complemented by further development of digital capture (scanning and digital cameras) and printing techniques. Assignments incorporate the technical aspects of specific skills while emphasizing their conceptual application. Digital acquisition and output utilizes ever-changing technology providing an understanding of advanced digital workflow and new processes as they apply to individual artistic practice. Students gain a wealth of technical understanding on topics such as color calibration and device profiling, file types and file management, and advanced color correction terms and techniques (gamma, color space, raster image processing and profile printing). Output methodologies and materials, including dye-based and pigment-based color inkjet prints, carbon-based black and white inkjet prints, digital color coupler printing, and a variety of experimental materials are explored. Assignments facilitate students’ research and exploration of new techniques in the conception and production of their own work. PREREQUISITE(S): None.

DMA 445 | 360 Video Production | 4 quarter hours  
(Graduate)
This class will focus on the development, production and post-production of live-action 360 video. The medium of virtual reality will be analyzed within the context of the evolution of time-based and interactive media. Experimental projects will offer students the opportunity to tell stories in new ways while exploring the affordances and challenges of the evolving medium.

DMA 475 | Moving Image Workshop | 4 quarter hours  
(Graduate)
This course introduces students to more sophisticated forms of image/sound manipulation, editing, and theory. Pre-production planning (storyboards, scripting, budgeting), further refinement of digital editing techniques, and basic post-production/visual effects are covered, as well as studio production techniques, such as chroma-keying and work with advanced cameras. Students are expected to achieve a level of technical competence and confidence necessary to undertake more ambitious independent work. The class views and discusses key contemporary works and related critical writings. PREREQUISITE(S): None.

DMA 480 | Web/Media Delivery Workshop | 4 quarter hours  
(Graduate)
This course is an intensive exploration of the opportunities and constraints of social media platforms for the distribution and curation of digital media artifacts. We will explore both commercial and academic platforms to develop an understanding of how different designs support different models of curation and distribution. As a project, students will select 2 platforms and create original digital installations using media they have authored in order to examine how the design of a social media platform influences how audiences interact with their installations. PREREQUISITE(S): None.

DMA 490 | Portfolio | 4 quarter hours  
(Graduate)
This course assists students preparing to enter the job market and emphasizes assembling a professional quality portfolio through workshops on advanced modeling and rendering techniques, visual composition, portfolio layout, design communication and presentation skills. Portfolio reviews by invited professionals are an integral component of this course. PREREQUISITE(S): None.
DMA 495 | SPECIAL TOPICS IN DIGITAL MEDIA ARTS WORKSHOP | 1-4 quarter hours
(Graduate)
Specific topics selected by the instructor. Topic varies with teach offering. Contact instructor for more information. Credit counts towards DMA Advanced Workshop requirement. Prerequisite(s): See syllabus.

DMA 521 | DESIGN MANAGEMENT WORKSHOP | 4 quarter hours
(Graduate)
In this course students learn to infuse design thinking into the business strategies of organizations, develop creative leadership, and refine project management planning skills. Based on a topic selected for the class, the outcome of the design process is manifested in a concept that satisfies the needs of the customer, market, producer and organization. Through documentation and a formal project presentation, students demonstrate their understanding of the design process and resolution of conflicting issues related to innovation and delivering digital media. PREREQUISITE(S): None.

DMA 525 | FOUNDATION OF DIGITAL MEDIA | 4 quarter hours
(Graduate)
This introductory course will provide students with a detailed practical introduction to the technological practices, skills, and tools of digital communication. Students will engage with digital technology with the goals of learning and practicing technical skills across a range of technologies, including video, audio, graphic design, and human-computer interaction. Students work with still images, moving images and sound using integrated digital media applications. The course focuses on the technical, social and cultural competencies required to traverse media in online convergence environments. This class provides students a hands-on approach to digital communication. This course will also prepare students to work with digital technology at future jobs.

DMA 527 | CREATIVE PROCESS AND STRATEGY | 4 quarter hours
(Graduate)
This course focuses on developing a creative process rooted in iteration, exploration and user-centered methodologies. Students will develop project concepts following the steps of research, analysis, ideation and prototyping to help establish an understanding of strategic creative planning and management. Concept documentation and critical assessment will also be practiced through regular class presentations and critiques. Students will explore and experiment with their own creative processes throughout the course. DMA 405 is a prerequisite for this class.

DMA 535 | STORYTELLING ACROSS MEDIA | 4 quarter hours
(Graduate)
This course introduces students to the theory and practice of multi-modal storytelling, i.e. the strategic use of two or more communication modes to make meaning, such as image, gesture, music, spoken and written language. While the application areas of storytelling may remain the same - from artistic expression to advertising, PR, journalism, documentary, activism and other persuasive forms - our means of meaning making are changing dramatically due to technological innovation, availability of digital media production tools, and the potential of immediate and universal online publication. Changing technological affordances demand an increased media literacy that includes a deep understanding of the specific strengths and weaknesses of various communication modes and their manifestation in digital media formats, so we can leverage them intentionally to create impactful, cohesive and emotionally compelling multi-modal texts and trans-media stories. DMA 525 and DMA 527 are prerequisites for this class.

DMA 555 | DIGITAL MEDIA STUDIO | 4 quarter hours
(Graduate)
Students explore studio-based collaborative creation of media arts projects and work processes. The course will include different methods and approaches rather than a discipline-specific focus. Depending on student interest, the projects will include image production and design through animation, film, sound, design, interactivity and photography. The computer is used as a creative solution to producing innovative projects emphasizing the construction of a portfolio of work. PREREQUISITE(S): None.

DMA 599 | INDEPENDENT STUDY | 1-4 quarter hours
(Graduate)
Independent study supervised by an instructor. Independent study form required. Can be repeated for credit. Variable Credit. Prerequisite(s): Instructor and dean approval.

DMA 695 | THESIS I | 4 quarter hours
(Graduate)
The thesis courses provide an opportunity for students to apply the skills they have learned to a professionally developed project of their interest. The project will be accomplished by a written analysis of the concept and documentation of the process. Students have the choice to work individually or in small teams. In Thesis I, students will be guided through in depth precedent and user research, surveying the filed to develop a unique concept that will challenge their skills and understanding of the medium, while also seeking to contribute to the advancement of the field. Students will create a project plan and a series of prototypes and/or rough drafts to help develop and refine their concepts. Regular presentations with peers will be held weekly to prepare for a final concept presentation to a professional panel. DMA 525 and DMA 527 are prerequisites for this class.

DMA 698 | THESIS II | 4 quarter hours
(Graduate)
The thesis courses provide an opportunity for students to apply the skills they have learned to a professionally developed project of their interest. The project will be accompanied by a written analysis of the concept and documentation of the process. Students have the choice to work individually or in small teams. In Thesis II, students will work in a studio format to refine the concept developed in Thesis I. Concept development will consist of on-going analysis and critique of the concept through user/audience testing to result in creation of a professional quality digital media piece or high-fidelity prototype. Students will have regular presentations to prepare them to defend their final thesis project before a panel of faculty and industry professionals. DMA 695 is a prerequisite for this class.

E-Commerce Technology (ECT)

ECT 250 | INTERNET, COMMERCE, AND SOCIETY | 4 quarter hours
(Undergraduate)
An introduction of Internet technology, its application for commerce, and its social impact. This course surveys Internet technology, collaboration and commerce activities, digital media distribution, online communities, and social networking in the Internet environment.

ECT 310 | INTERNET APPLICATION DEVELOPMENT | 4 quarter hours
(Undergraduate)
Development of Internet-based applications using client and server-side scripting. Students will design and build an Internet application that accesses a database. CSC 211 (or IT 231 or CSC 241 or CSC 243) is a prerequisite for this class.
ECT 330 | ADVANCED INTERNET APPLICATION DEVELOPMENT | 4 quarter hours
(Undergraduate)
This is a programming course focusing on advanced Internet technologies such as tiered design of Internet applications, transactions, creating components, and Web services.
(IT 211 or IT 231 or CSC 241 or CSC 243) is a prerequisite for this class.

ECT 355 | INTERNET SYSTEMS: COLLABORATION, COMMERCE, AND MEDIA | 4 quarter hours
(Undergraduate)
This course examines the application of Internet technology to support collaboration, commerce, and digital media distribution activities. It will focus on the latest technologies, new development models and their social impact. Students will explore different models and develop applications to support collaborative commerce.
ECT 310 (or ECT 330 or IT 232) is a prerequisite for this class.

ECT 360 | INTRODUCTION TO XML | 4 quarter hours
(Undergraduate)
An introduction to Extensible Markup Language (XML) and XML transformations. XML syntax, processing and validation. Namespaces. Transformations using XSLT and XPath. XML applications such as XHTML, RDF, SVG, XSL.
CSC 211 (or CSC 241 or CSC 243) is a prerequisite for this class.

ECT 410 | DEVELOPMENT OF WEB-BASED BUSINESS APPLICATIONS | 4 quarter hours
(Graduate)
Development of web-based business solutions using client-side and server-side technologies. Major topics include analysis and design of web projects for a business, web application design patterns, server-side programming, and access to databases. PREREQUISITE(S): CSC 401 or IT 411.

ECT 424 | ENTERPRISE INFRASTRUCTURE | 4 quarter hours
(Graduate)
Introduction to modern infrastructure and the evolving technology environment. Major topics include: computer networks, Internet infrastructure, Web 2.0, Enterprise 2.0, social media and networking, software as a service, content management systems, cloud computing, and portal.

ECT 436 | SOCIAL MARKETING AND SOCIAL NETWORKING APPLICATIONS | 4 quarter hours
(Graduate)
Online social media and culture, online social marketing concepts, online social networking applications and their design/development. Students develop dynamic web sites and applications on social networking platforms using server-side programming technology to meet strategic marketing goals. PREREQUISITE(S): None.

ECT 455 | E-COMMERCE WEB SITE ENGINEERING | 4 quarter hours
(Graduate)
(Formerly ECT 555, cross-listed with HCI 513) An introduction to Web site engineering methods and processes to support e-commerce development. Web site engineering life cycle and user-centered design, including site goals, business models, value propositions, user analysis, information architecture, interface and navigation design, usability guidelines, database, testing, hosting strategies, usage metrics, and collaborative development. Technologies for e-commerce, shopping cart, digital payments, promotion strategies, and security issues. Students will build fully functional Web sites using database and client- and server-side technologies.
(CSC 401 or IT 411 or HCI 430) is a prerequisite for this class.

ECT 480 | INTRANETS AND PORTALS | 4 quarter hours
(Graduate)
Intranet development methodology. Data warehousing concept and On-Line analytic processing (OLAP) for information management. Enterprise information portals (EIP). Transforming information into knowledge. Major applications involve: decision support, customer applications and content personalization for intranet. Students will conduct case studies and projects.
ECT 424 is a prerequisite for this class.

ECT 481 | INTERNET SUPPLY CHAIN MANAGEMENT | 4 quarter hours
(Graduate)
This course examines system architectures, technologies, approaches, and infrastructure requirements in the context of supply chain systems. The focus is on the design, development and implementation of systems that facilitate the collaboration of an enterprise with its buyers and suppliers. Topics include development of messaging-based collaboration framework with web services. Students will design and implement a collaborative extranet system component in team projects.
CSC 401 or IT 411 is a prerequisite for this class.

ECT 556 | ENTERPRISE ARCHITECTURE AND DESIGN | 4 quarter hours
(Graduate)
This is an advanced course on the design and planning of enterprise architecture that enables intra-/multi-enterprise collaboration and interoperability. The emphasis is on the alignment between IT and organizational objectives through the integration of business architectures, data and information architecture, application architecture, technology architecture, interfaces and infrastructure. Topics include: frameworks, tools, and methodologies for enterprise architecture design; data and process modeling, application integration, implementation fundamentals, adaptability to changing organizational needs, and managing costs of implementation. Students will conduct case studies and develop architecture plans. Prerequisites: ECT 424 and SE 430.
ECT 424 and SE 430 are prerequisites for this class.
ECT 565 | MOBILE ENTERPRISE | 4 quarter hours
(Graduate)
Mobile enterprise information systems are becoming increasingly complex and consist of existing systems with enabling middleware to achieve end-to-end enterprise mobile solutions. Mobile infrastructure performs content adaptation, data synchronization, bridging corporate and mobile messaging systems, and support mobile information portals. The course will discuss web services oriented component architecture and system integration with Adaptive Application Architecture (AAA) with Wireless application gateway (WAG) and Multi-channel Access Gateways (MAG) supporting mobile and wireless access for heterogeneous devices. Such concepts as content distribution, connectivity and security, scalability and load balancing, device management will be discussed. Additional topics include Location-aware applications supporting mobile knowledge workers, business process for value contribution, and investment decisions on mobile technologies. Students will become familiar with mobile enterprise tool suites, mobile messaging delivery platforms, wireless Web portals. Students will be implementing mobile enterprise solution components. PREREQUISITE(S): ECT 455.
ECT 455 is a prerequisite for this class.

ECT 582 | SECURE ELECTRONIC COMMERCE | 4 quarter hours
(Graduate)
This course studies security requirements, threat modeling, and appropriate safeguards for e-commerce systems. Major topics include web application security, web service security, and web server security. PREREQUISITE(S): ECT 424 or CSC 435 or TDC 463.
ECT 424 OR CSC 435 OR TDC 463 is a prerequisite for this class.

ECT 583 | ADVANCED SCRIPTING TECHNOLOGIES | 4 quarter hours
(Graduate)
This course focuses on applying advanced scripting technologies in the design and development of large Web applications. Major topics include tiered application design, transacted Web applications, components, and Web services.
CSC 401 or IS 411 or IT 411 is a prerequisite for this class.

ECT 586 | CUSTOMER RELATIONSHIP MANAGEMENT TECHNOLOGIES | 4 quarter hours
(Graduate)
An in-depth study of customer relationship management (CRM) technologies and applications. The special focus will be on the application of CRM technologies for managing the customer lifecycle across Internet and offline channels. Topics include customer identification, data integration, personalization technologies, web and email interaction techniques, sales force automation applications; call centers, field service and logistics applications; customer self-service and customer knowledge management technologies. Students will review and compare specific eCRM technologies and develop an Internet customer interaction system to support an eCRM strategy in group project.
IS 411 is a prerequisite for this class.

ECT 587 | MOBILE COMMERCE TECHNOLOGY | 4 quarter hours
(Graduate)
This course examines leading wireless and mobile technologies for consumer and enterprise mobile commerce. This course discusses how mobile technologies have changed the business community with an emphasis on major mobile platforms. Major topics include analysis and design of business applications in a mobile environment, and wireless user interface design. Students will develop mobile applications using a prominent mobile technology.
CSC 401 or IS 411 or IT 411 is a prerequisite for this class.

ECT 589 | E-BUSINESS STRATEGIES | 4 quarter hours
(Graduate)
Designed for ECT majors and IS majors in ECT concentration, this course focuses on the deployment of Internet and enterprise technologies to support organization's e-business initiatives and collaborative commerce. Conducted in the format of seminar, case analysis, and dialogue with industry practitioners, this course requires students to actively participate in the study of models and approaches for e-business technology implementation and transformation. Topics include: the impact of Internet on industry structure and organizational transformation, enterprise application architecture, planning and implementation of technology and process to support an increasingly collaborative and integrated environment for e-commerce. Students have to complete an organization case study of e-business technology implementation to fulfill the requirement of this capstone course. This course should be taken at the conclusion of the ECT program. PREREQUISITE(S): Completion of ten or more School of Computing MS level courses is required.

ECT 596 | TOPICS IN E-COMMERCE TECHNOLOGY | 4 quarter hours
(Graduate)
Independent study form required. PREREQUISITE(S): Consent of instructor.

ECT 690 | RESEARCH SEMINAR | 1-4 quarter hours
(Graduate)
Readings and discussion on current research topics. Students may register for this course no more than twice. PREREQUISITE(S): Consent of the instructor. (variable credit)

ECT 696 | MASTER'S PROJECT | 4 quarter hours
(Graduate)
Four credit hours. Students may register for this course only after their advisor has approved a written proposal for their project. Independent study form required. (PREREQUISITE(S): Consent of advisor).

ECT 698 | MASTER'S THESIS | 2 quarter hours
(Graduate)
(2 credit hours) Students may register for this course only after their advisor has approved a written proposal for their thesis. Students must continue to register for this course every quarter after their first registration in it until they complete their project or thesis to the satisfaction of their advisor. They earn two hours of credit for each such registration but only four hours of credit will apply for degree credit. Independent study form required. PREREQUISITE(S): Consent of advisor. (2 quarter hours)

Early Childhood Education (ECE)

ECT 690 | RESEARCH SEMINAR | 1-4 quarter hours
(Graduate)
Students may register for this course only after their advisor has approved a written proposal for their project. Independent study form required. PREREQUISITE(S): Consent of instructor. (variable credit)

ECT 698 | MASTER'S THESIS | 2 quarter hours
(Graduate)
(2 credit hours) Students may register for this course only after their advisor has approved a written proposal for their thesis. Students must continue to register for this course every quarter after their first registration in it until they complete their project or thesis to the satisfaction of their advisor. They earn two hours of credit for each such registration but only four hours of credit will apply for degree credit. Independent study form required. PREREQUISITE(S): Consent of advisor. (2 quarter hours)

Early Childhood Education (ECE)

ECT 690 | RESEARCH SEMINAR | 1-4 quarter hours
(Graduate)
Students may register for this course only after their advisor has approved a written proposal for their project. Independent study form required. PREREQUISITE(S): Consent of instructor. (variable credit)

ECT 698 | MASTER'S THESIS | 2 quarter hours
(Graduate)
(2 credit hours) Students may register for this course only after their advisor has approved a written proposal for their thesis. Students must continue to register for this course every quarter after their first registration in it until they complete their project or thesis to the satisfaction of their advisor. They earn two hours of credit for each such registration but only four hours of credit will apply for degree credit. Independent study form required. PREREQUISITE(S): Consent of advisor. (2 quarter hours)

ECT 690 | RESEARCH SEMINAR | 1-4 quarter hours
(Graduate)
Students may register for this course only after their advisor has approved a written proposal for their project. Independent study form required. PREREQUISITE(S): Consent of instructor. (variable credit)

ECT 698 | MASTER'S THESIS | 2 quarter hours
(Graduate)
(2 credit hours) Students may register for this course only after their advisor has approved a written proposal for their thesis. Students must continue to register for this course every quarter after their first registration in it until they complete their project or thesis to the satisfaction of their advisor. They earn two hours of credit for each such registration but only four hours of credit will apply for degree credit. Independent study form required. PREREQUISITE(S): Consent of advisor. (2 quarter hours)
ECE 92 | CLINICAL EXPERIENCES WITH YOUNG CHILDREN AND FAMILIES | 1 quarter hour  
(Undergraduate)  
Candidates will observe and interact with young children and their families in school and child care settings with family/parent education programs; family conferences and home visits will be included in the options. (25 clock hours). Candidates will meet once a week in a seminar to reflect and discuss topics around parental involvement, parental support, and building communities through connections between schools and homes. COREQUISITE: ECE 302. (1 credit hour)

ECE 93 | CLINICAL EXPERIENCES WITH PRE-SCHOOLERS | 1 quarter hour  
(Undergraduate)  
Candidates will observe and interact with preschool age children (25 clock hours) and attend a weekly seminar in which they will be required to reflect on their experiences in relation to the development and learning processes of preschool age children. Appropriate early childhood assessment and instructional methodologies will be emphasized. COREQUISITE: ECE 310. (1 credit hour)

An education major or minor is a prerequisite for this class.

ECE 94 | CLINICAL EXPERIENCES IN PRIMARY GRADES | 1 quarter hour  
(Undergraduate)  
Candidates will observe and interact with primary age children (25 clock hours) and attend a weekly seminar in which they are required to reflect on their experiences in relation to the development and learning processes in the primary years (K-3). Appropriate assessment and instructional methodologies for children in the primary grades will be emphasized. COREQUISITE: ECE 311. (1 credit hour)

An education major or minor is a prerequisite for this class.

ECE 175 | EDUCATING THE TWENTY-FIRST CENTURY YOUNG CHILD | 4 quarter hours  
(Undergraduate)  
Course is for students with interests in early childhood programs in the United States. Course explores issues influencing early childhood education, such as socio-historical factors, family policy, diversity, and federal/state regulations. Students examine programs using readings from the Vincentian Collection, child psychology, social theories and the current media. Students compare Vincentian Heritage, current and past federal policies, applying this study to their understanding of social justice to modern childcare practices. To guide students deeper into understanding the lives of young children, the course offers an option for service learning with Jumpstart, Chicago-area Head Start, and other early childhood education centers.

ECE 280 | INTERNSHIP WITH INFANTS AND TODDLERS | 2 quarter hours  
(Undergraduate)  
Candidates conduct 75 hours of intense supervised fieldwork in an infant/toddler center where they are observing and documenting behavior and interactions, planning activities, and assessing development in children ages birth to 3. Candidates will also participate in a twice a quarter, hour and a half, seminar to reflect and discuss aspects of infant/toddler development and care, making connections between theory and practice. Onsite meetings with groups of candidates will be held weekly for supervision and reflection on practice. Co-requisite ECE 290. (2 credit hours)

ECE 286 | ART, MUSIC, AND MOVEMENT FOR THE YOUNG CHILD | 4 quarter hours  
(Undergraduate)  
This course will focus on the theory, research, methods, and activities of art, music, and movement for young children birth through age 8. Emphasis will be on the integration of developmental domains, creative and critical thinking as developmental domains are integrated.

ECE 290 | CHILD GROWTH AND DEVELOPMENT | 4 quarter hours  
(Undergraduate)  
This course examines human growth and development of the child from pregnancy through age eight, including cognitive, language, physical, social, spiritual, creative, and emotional areas of development. Learning and development theories of young children, including those of Freud, Erikson, Bowlby, Piaget, Vygotsky, Bronfenbrenner, and other modern developmental theorists are explored. Pedagogical implications of these developmental theories are embedded in class discussions and course activities. COREQUISITE: ECE 280.

ECE 298 | CHILD HEALTH SAFETY AND NUTRITION | 4 quarter hours  
(Undergraduate)  
This course focuses on the interrelationships among child, family and the areas of health, safety and nutrition. Special emphasis will be placed upon the issues of health, safety and nutrition that affect young children from the ages of birth through age 8. Understanding cultural issues and special needs of individual children are addressed, as are aspects of health and safety. Central to this course is the acquisition of knowledge and application of practices that promote good nutrition, dental health, and the physical, social and emotional well being of young children. The course includes information on common diseases and health problems.

ECE 302 | CHILD AND FAMILY IN THE URBAN COMMUNITY | 4 quarter hours  
(Undergraduate)  
This course focuses on the diversity of children and families in approaches to development, learning, and disability. Strategies in developing positive and supportive relationships with families of young children with special needs, including family-centered practices, will be explored. Particular attention is given to the challenges faced by teachers and other professionals in early intervention in assessing children’s needs and providing services, which are reflective of the child’s development within his/her diverse cultural and community context. In addition, the course examines ways to develop and maintain productive and collaborative relationships among professionals and families, communities, and other professionals across the range of support systems in the IFSP and IEP planning processes.

ECE 303 | INTRODUCTION TO EARLY CHILDHOOD EDUCATION | 4 quarter hours  
(Undergraduate)  
This course will introduce students to the professional ethics of early childhood education and the critical role of federal policy in the evolution of the field. Historical, sociological, philosophical, and psychological foundations of early childhood education are explored. Of special interest is a review of key theories and research that inform the development of early childhood education goals and practices, as well as administrative, pedagogical, and ethical professional standards for working with children from diverse communities. The course includes foci on Developmentally Appropriate Practice (DAP), inclusive pedagogical practice, appropriate use of technology with young children, and various curricular models: Montessori, Reggio Emilia, High Scope, and Creative Curriculum.
ECE 306 | FUNCTIONAL BEHAVIOR ASSESSMENT: INTERVENTION AND SUPPORT IN EARLY CHILDHOOD | 4 quarter hours
(Undergraduate)
This course is designed to prepare early childhood pre-service teachers to work with children who present a variety of challenging behaviors in the classroom. Grounded in principles of Applied Behavior Analysis, the philosophy of the course is based on the premise that understanding the underlying causes of children's externalizing and internalizing behavior enables the teacher to utilize appropriate techniques in conducting behavior intervention and classroom management. Using Positive Behavioral Support and Functional Behavior Analysis (a competency required for all teachers under the provisions of IDEA), students will learn how to design and develop a Behavior Intervention Plan. Diverse methods for addressing a variety of behaviors are explored and practiced through field-based assignments that also include application of behavioral assessment and intervention tools, as well as techniques.

ECE 290 and edu major or minor

ECE 307 | LANGUAGE DEVELOPMENT IN EARLY CHILDHOOD (BIRTH TO 8) | 4 quarter hours
(Undergraduate)
This course examines language acquisition and development in young children, including culturally and linguistically diverse learners and children with atypical language development. Attention will be given to dialectical issues as these apply to growth and development of linguistic competencies through the early childhood years. Explored in this course are the core topics of linguistic?morphology, syntax, semantics, pragmatics, phonetics, and phonology. Psycholinguistic and sociolinguistic theories anchor the discussion of language learning in childhood. Issues of language delay and processing of symbolic information to facilitate the development of articulation, fluency, voice, and functional language are included.

ECE 290 and edu major or minor

ECE 309 | YOUNG EXCEPTIONAL CHILD: METHODS AND CHARACTERISTICS | 4 quarter hours
(Undergraduate)
This course is a survey of the field of early childhood special education, including the Early Intervention System. Characteristics of infants, toddlers, and young children with special needs are examined in this course. Methods of working with different disabilities during children's early years will be explored. Strengths and needs of families of young children with disabilities and collaboration with family members will be emphasized. Understanding the impacts of current legislation, policy, and research on practice is fostered and developed. Completing 15 hours of field experience in an early childhood special education setting is a part of this course's requirements.

ECE 290 and edu major or minor

ECE 310 | PREPRIMARY PROGRAMS: CURRICULUM AND STRATEGIES | 4 quarter hours
(Undergraduate)
Candidates will plan, implement, and evaluate activities that promote the physical, emotional, social, spiritual, cognitive, and creative development of preschool children from diverse cultural and socioeconomic backgrounds. Emphasis will be placed on creating learning environments that facilitate children’s learning through play. Developmentally appropriate practices, with a particular emphasis on social studies, use of technology, and learning centers will be thoroughly investigated. COREQUISITE: ECE 381.

ECE 290 and edu major or minor

ECE 311 | CURRICULUM AND INSTRUCTION IN PRIMARY GRADES | 4 quarter hours
(Undergraduate)
This course provides an examination of the objectives, content methods and materials used in the primary grades of elementary schools (K-3). A variety of teaching methods and classroom management strategies will be discussed and illustrated, including teacher-led and student-centered instruction. Candidates will be encouraged to reflect upon their own emerging educational philosophies and teaching styles as they take part in laboratory and clinical experiences. Many opportunities for planning, using and evaluating a variety of teaching methods will be offered. Each student will develop at least one teaching unit on a primary social studies theme. COREQUISITE: ECE 382.

ECE 290, ECE 310 and an Education major or minor are prerequisites for this class.

ECE 312 | BILINGUAL THEORY IN EARLY CHILDHOOD DEVELOPMENT | 4 quarter hours
(Undergraduate)
This course is designed to equip bilingual and second language teachers with the knowledge and philosophy to work effectively in the education of early childhood language minority students in the context of bilingual/ESL programs. The course will explore the historical, political and legal foundations of bilingual education programs in the United States. It will examine different models of bilingual programs and the psycholinguistic and sociolinguistic principles upon which they are based.

ECE 313 | CROSS CULTURAL STUDIES IN EARLY CHILDHOOD EDUCATION | 4 quarter hours
(Undergraduate)
The course will discuss the historical, philosophical and cultural foundations of education of young children in a multicultural society, emphasizing the role of ethnicity and cultural variables in development of young children within the context of families, childcare centers, and educational systems. Topics include: history of immigration and predictions for the future; the effects of population shifts on the education of English Language Learners and their families; the impact of laws, litigation and executive orders on bilingual/English-as-a-Second-Language education; understanding cultural and linguistic differences regarding locating and using educational resources.

ECE 314 | METHODS AND MATERIALS FOR ENGLISH LANGUAGE LEARNERS IN EARLY CHILDHOOD EDUCATION | 4 quarter hours
(Undergraduate)
This course focuses on best practices in teaching English Language Learners, helping them to learn English while maintaining their native language, in bilingual/ESL early childhood classrooms, from birth through age 8. Candidates will demonstrate competencies with different approaches and methodologies currently used to support the development of listening, speaking, reading, and writing in social and academic contexts in learners’ first and second language. Curriculum-based assessment, cultural awareness, and self-reflective practice will also be addressed.
ECE 325 | SECOND LANGUAGE ACQUISITION AND EARLY LITERACY DEVELOPMENT | 4 quarter hours (Undergraduate)
This course will examine the process of learning and using a second language. Research in second language acquisition (SLA) is multi-disciplinary in nature, reflecting the complexity of language learning and use. Linguistic, psychological and social processes that underlie language learning and use will be introduced and applied to the understanding of this learning in young children. Language acquisition theory concerning relationships between early literacy and oral language development in first and subsequent languages will be explored. Understanding developed through this exploration will then be applied to the classroom in the form of strategies and literacy development activities.

ECE 326 | PRINCIPLES AND STRATEGIES FOR FAMILY ADVOCACY AND ACTION IN EARLY CHILDHOOD | 4 quarter hours (Undergraduate)
This course develops knowledge and skills to assist families of young children who face the stress of living in poverty. The focus will be on developing empathetic relationships with families so that family service and education can be optimized. Candidates will be assisted in learning to identify community resources and ways to support families in accessing resources. A focal point will be on ways to empower families, recognizing family strengths and respect for cultural variables, as they apply.

ECE 302 and an Education major or minor are prerequisites for this class.

ECE 327 | IMPACT OF PUBLIC POLICY ON FAMILIES OF YOUNG CHILDREN | 4 quarter hours (Undergraduate)
This course is grounded in social justice practice and designed to promote an understanding of the ethical principles, legal issues, policies, and law influencing the well being of families, including those families of young children with disabilities and those who are English Language Learners. A particular focus will be on how federal childcare and education policy affects and shapes early childhood practice and service delivery to families. This course explores historical development of laws and public policy affecting families. Ethics and ethical implications of social change will be explored.

ECE 328 | WORKING WITH FAMILIES OF CHILDREN WITH DISABILITIES AND CHRONIC ILLNESS | 4 quarter hours (Undergraduate)
This course will strengthen the knowledge and skills of early childhood educators and other professionals working with young children in cultural competency (at the individual and institutional level), family-centered care, family-professional partnerships, family-directed practices, and family empowerment. Candidates will develop best practices to assure the health and well being of children and their families and to honor the strengths, cultures, traditions and expertise that everyone brings to this relationship.

ECE 329 | YOUNG CHILDREN'S LITERATURE AND FAMILY LITERACY | 4 quarter hours (Undergraduate)
This class explores the joys of reading and provide strategies for candidates to awaken and encourage the joy of reading in the children and families with whom they work. It focuses on how early childhood educators are uniquely positioned to foster literacy in children and their families through thoughtful, theoretically based programming and activities.

ECE 331 | BEGINNING MATH AND SCIENCE INSTRUCTION | 4 quarter hours (Undergraduate)
This course applies child development principles to the planning of science and mathematics experiences for both typically and atypically developing young children. Emphasis is placed on understanding how children develop problem-solving skills, and on recognizing how teachers can facilitate inquiry-discovery experiences for young children with diverse learning styles and needs. Course assignments include participation in experiments and field-based experiences in mathematics and sciences. Teacher candidates are required to develop and provide developmentally and culturally appropriate activities in science and mathematics activities for young children.

ECE 290 and edu major or minor

ECE 332 | EARLY LITERACY AND ASSESSMENT FOR YOUNG CHILDREN WITH DISABILITIES | 4 quarter hours (Undergraduate)
This course focuses on the nature of the reading process, current literacy theory and practices, and research-based instructional strategies to develop literacy skills in emergent and developing readers and young children with reading/learning disabilities. Emphasis is placed on understanding the reading process, analyzing and applying research-based instructional practices, administering, analyzing, and interpreting formal and informal reading assessments, and making informed instructional decisions to meet the unique needs of individual readers. Differences in reading abilities will be examined in light of providing appropriate, effective, and meaningful literacy instruction for young children with disabilities.

ECE 333 | EARLY CHILDHOOD EDUCATION FOR LOW INCIDENCE DISABILITIES | 4 quarter hours (Undergraduate)
This course focuses on an examination of the developmental and learning characteristics of young children with low incidence disabilities. A specific focus is on educating early childhood students with Autism Spectrum Disorders and those with Intellectual Disabilities. A primary goal of this course is to understand the learning needs of these children, and to examine and evaluate various educational and therapeutic methods of working with them. A major part of this course is devoted specifically to the characteristics associated with and interventions for children with Autism Spectrum Disorders.

ECE 334 | SPECIAL EDUCATION CURRICULUM AND STRATEGIES FOR YOUNG CHILDREN | 4 quarter hours (Undergraduate)
Study of the theoretical and practical approaches to instruction for young children with high incidence disabilities. Emphasis is placed on the development of supportive learning environments, using special curricular and behavioral management strategies for all early childhood settings; application of collaborative practices with multiple service providers and families to meet the needs of diverse learners with high incidence disabilities. Strategies and materials for improving the social, emotional, and academic adjustment and functioning of young children with high incidence disabilities are examined. Includes teaching social and emotional curricula; implementing functional behavioral assessment; and monitoring growth and development in targeted areas. Strategies to increase the young child's self-awareness, self-management, self-control, self-reliance, and self-esteem are considered. Application of diagnostic information into teaching strategies and implementation of an instructional plan (IEP) is a central tenet of the course. It is recommended for students to take ECE 290 and ECE 309 and to have 25 clock hours of Level II Experience prior to taking this class.
ECE 375 | ASSESSMENT IN EARLY CHILDHOOD INCLUSIVE SETTINGS | 4 quarter hours
(Undergraduate)
Candidates will study, use and evaluate early childhood assessment methods and tools that are appropriate for use with young children with diverse cultural and socioeconomic experiences. Focus of the course is on the teacher candidate’s acquisition of knowledge and skills regarding an array of formal and informal assessment instruments and techniques used to gather information needed for making decisions about typical and atypical children served in individual and group learning situations. Focus is directed toward the development of curricular goals and instructional approaches that evolve from the development of curricular goals and instructional approaches that evolve from the assessment information. Such information is used to create learning plans, including Individual Family Service plans (IFSP) and Individualized Education Plan (IEP), serving child and family responsively.

ECE 290 and edu major or minor

ECE 377 | ASSESSMENT OF YOUNG BILINGUAL/ESL STUDENTS | 4 quarter hours
(Undergraduate)
This course will focus on the discussion of basic principles and current approaches to assessment of language learning students in ESL and bilingual early childhood and early elementary educational settings. Candidates will learn about the different purposes of process and product assessment tools, authentic and curriculum-based forms of assessment, issues in the assessment of English Language Learners (ELLs), and assessment in academic areas for early elementary ELLs. Research on language and literacy acquisition in multilingual learners vis a vis instruction and assessment will be discussed. Candidates will have opportunities to critically examine and learn how to administer assessment tools used in current practice.

ECE 380 | EARLY CHILDHOOD SPECIAL EDUCATION PRACTICUM | 4 quarter hours
(Undergraduate)
Supervised teaching in a cooperating school serving young children with disabilities for 150 clock hours; arranged in collaboration with supervising faculty member and the Field Experience Office. Candidates will reflect upon their teaching experiences with young children with disabilities and collaborate with colleagues and instructor to identify alternative strategies for problematic situations. Application and approval required prior to registration. Open only to DePaul students.

ECE 381 | INTERNSHIP IN PRESCHOOL SETTING | 2 quarter hours
(Undergraduate)
Candidates conduct 75 hours of intensive supervised field work in preschool during the winter quarter. The internship is designed to be taken by ECE teacher candidates before student teaching. Candidates enrolling in this internship have completed or are taking ECE 310: Preprimary Programs: Curriculum and Strategy concurrently. (2 credit hours)

ECE 290 and edu major or minor

ECE 382 | INTERNSHIP IN PRIMARY SETTING | 2 quarter hours
(Undergraduate)
Candidates conduct 75 hours of intense supervised field work in a primary grade (K-3) during the spring quarter. The internship is designed for advanced ECE candidates to be taken before student teaching. Candidates taking this internship have taken ECE 311: Curriculum and Instruction in Primary Grades. (2 credit hours)

An education major or minor is a prerequisite for this class.

ECE 383 | INTERNSHIP IN EARLY CHILDHOOD ESL/BILINGUAL EDUCATION SETTINGS | 4 quarter hours
(Undergraduate)
This course will focus on application of the theories of effective teaching practices and assessment procedures appropriate for young English Language learners. It will emphasize an application of knowledge gained from previous ESL/ELL courses and demonstration of skills necessary to work collaboratively and effectively with families of young English Language Learners. Professional behaviors that respect, value, and support all children’s native language and culture will be reinforced. (100 clock hours)

ECE 313, ECE 314, ECE 325, ECE 377, and (BBE 305 and BBE 306) or (BBE 325 and BBE 366) are prerequisites for this class.

ECE 384 | EARLY CHILDHOOD EDUCATION CAPSTONE | 4 quarter hours
(Undergraduate)
The senior capstone course is designed to help Candidates integrate the central emphases of their liberal learning studies curriculum with their professional behavior. It will provide prospective early childhood educators with opportunities to engage in activities requiring them to be reflective, to consider value commitments, to use critical and creative thinking, and to examine their practice from a multicultural perspective as they discuss issues specific to early childhood education. Candidates will develop a professional portfolio that reflects the standards of the various guiding professional organizations. The course is grounded in the College of Education’s framework for an Urban Professional Multicultural Educator, which also reflects the goals of the Liberal Studies program. This course is taken before student teaching.

ECE 385 | EARLY CHILDHOOD STUDENT TEACHING | 12 quarter hours
(Undergraduate)
This course requires students to participate in supervised teaching at a cooperating school, five full days per week, for an academic quarter. Part of the teaching will be in a preprimary setting and part will be in a primary setting. Feedback and discussion of issues encountered in student teaching as well as new materials and techniques of student teaching will be included. Application and approval are required. Open only to DePaul students. (12 credit hours)

ECE 387 | CAPSTONE SEMINAR IN EARLY CHILDHOOD EDUCATION | 2 quarter hours
(Undergraduate)
This course is designed to help candidates integrate the central emphases of their Liberal Studies curriculum with their professional knowledge and behavior. It provides opportunities and activities to prospective educators that engage them in being analytic and reflective upon their major and related disciplines; guide them in further considering their value commitments and how they relate to their chosen profession; apply critical and creative thinking in addressing ‘real-time’ professional issues and needs; and examine extant practices from multicultural perspectives. Candidates develop a professional teaching portfolio that reflects the standards of the various guiding professional organizations and the Illinois State Board of Education (ISBE). The course is grounded in the College of Education’s framework for an Urban Professional Multicultural Educator as well as the goals of the Liberal Studies program. The course is taken simultaneously with student teaching. COREQUISITE(S): ECE 385. (2 credit hours)
ECE 390 | DEVELOPMENTAL THERAPY STRATEGIES FOR INFANTS AND TODDLERS IN EARLY INTERVENTION | 4 quarter hours
(Undergraduate)
This course will focus on the knowledge and skills needed to work effectively with young children from birth through age 3, who have disabilities and special learning needs. The course will use child-centered, play-based interventions and developmentally appropriate practice as the central approach. Furthermore, students will examine learning outcomes and related intervention (lessons), which will be used to effectively address these outcomes, as well as aligning ongoing assessment of the intervention strategies. Students will examine issues related to the impact that disability conditions have on young children’s learning needs in all developmental domains. Additionally, students will explore issues related to intervention of young children within the context of families and caregivers - that is within natural and inclusive settings, such as the family’s home, community settings, or center-based programs.

ECE 290, ECE 309 and an Education major or minor are prerequisites for this class.

ECE 391 | ASSESSMENT OF INFANT AND TODDLERS | 4 quarter hours
(Undergraduate)
Built on a partnership with families, this course focuses attention on all aspects of development including social/emotional, cognitive, sensory/motor and communication. Beginning with observation and naturalistic assessment processes, teachers examine the principles of best practice for assessing babies and toddlers for service in infant/toddler care, Early Head Start and early intervention. Teacher candidates learn to administer screening tools, criterion referenced instruments and leading standardized instruments and procedures, including the transdisciplinary approach and the Hawaii Early Learning Profile.

ECE 290, ECE 309 and an Education major or minor are prerequisites for this class.

ECE 392 | WORKING WITH FAMILIES OF INFANTS AND TODDLERS: PARTNERSHIP AND COLLABORATION IN EARLY INTERVENTION | 4 quarter hours
(Undergraduate)
This course will focus on the knowledge and skills needed to work effectively with families of young children from birth through age 3, who have disabilities and special learning needs. The course will examine philosophical foundations and collaboration strategies for teachers and other professionals working with families of young children with exceptionalities in Early Intervention programs and inclusive settings where the infants and toddlers may be served.

ECE 306 and an Education major or minor are prerequisites.

ECE 393 | INTERNSHIP EXPERIENCES WITH INFANTS, TODDLERS AND TWOS WITH SPECIAL NEEDS | 2 quarter hours
(Undergraduate)
This course is a supervised internship, in which the candidates will practice early intervention strategies in a field experience of 40 clock hours with infants and toddlers with special needs. In this internship candidates will practice 1) assessment of infants and toddlers, 2) developmental therapy and play strategies with infants and toddlers, and 3) collaboration working in partnership with family members of children with special needs. Co-requisite: ECE 390; ECE 391; ECE 392. (2 credit hours)

ECE 395 | DESIGNING CURRICULUM FOR INFANTS AND TODDLERS | 4 quarter hours
(Undergraduate)
Research in neuroscience indicates that the brain developmental foundation for all later learning is created in the first three years of life. The impact and impetus for the adults (families and caregivers) who nurture and teach children from birth to three will be explored in this course. The course will examine the developmental milestones, as well, as each child's developmental profile to create a developmentally appropriate curriculum to enhance the foundation for all later learning. The course explores ways to provide a safe and challenging environment; to focus on play as a vehicle for learning for optimal developmental outcomes. Collaboration with families in addressing each child’s development is featured in the course. Candidates will be expected to design curricula to meet the needs of linguistically and culturally diverse children, as well as young children with special needs.

ECE 398 | SPECIAL TOPICS IN EARLY CHILDHOOD EDUCATION | 4 quarter hours
(Undergraduate)
(1-4 Credits) PREREQUISITE(S): Permission from instructor, program chair and associate dean.

ECE 399 | INDEPENDENT STUDY IN EARLY CHILDHOOD EDUCATION | 4 quarter hours
(Undergraduate)
This course offers intensive study of selected topics in the field of early childhood education and care. Course content and credits vary according to topic. Syllabus is tailored to the topic of special study. Example topics include: Implementing common core in kindergarten; Social-emotional learning programming in K-3; Using data to make curricular decisions in PK-3; Mentoring families who are teen-agers.

ECE 490 | DEVELOPMENTAL THERAPY STRATEGIES FOR INFANTS AND TODDLERS IN EARLY INTERVENTION | 4 quarter hours
(Graduate)
This course will focus on the knowledge and skills needed to work effectively with young children from birth through age 3, who have disabilities and special learning needs. The course will use child-centered, play-based interventions and developmentally appropriate practice as the central approach. Furthermore, students will examine learning outcomes and related intervention (lessons), which will be used to effectively address these outcomes, as well as aligning ongoing assessment of the intervention strategies. Students will examine issues related to the impact that disability conditions have on young children’s learning needs in all developmental domains. Additionally, students will explore issues related to intervention of young children within the context of families and caregivers that is within natural and inclusive settings, such as the family’s home, community settings, or center-based programs.

SCG 404 and T&L 427 (or equivalent) are prerequisites for this class.

ECE 491 | ASSESSMENT OF INFANT AND TODDLERS | 4 quarter hours
(Graduate)
Built on a partnership with families, this course focuses attention on all aspects of development including social/emotional, cognitive, sensory/motor and communication. Beginning with observation and naturalistic assessment processes, teachers examine the principles of best practice for assessing babies and toddlers for service in infant/toddler care, Early Head Start and early intervention. Teacher candidates learn to administer screening tools, criterion referenced instruments and leading standardized instruments and procedures, including the transdisciplinary approach and the Hawaii Early Learning Profile.

SCG 404 and T&L 427 (or equivalent) are prerequisites for this class.
ECE 492 | WORKING WITH FAMILIES OF INFANTS AND TODDLERS: PARTNERSHIP AND COLLABORATION IN EARLY INTERVENTION | 4 quarter hours

(Graduate)

This course will focus on the knowledge and skills needed to work effectively with families of young children from birth through age 3, who have disabilities and special learning needs. The course will examine philosophical foundations and collaboration strategies for teachers and other professionals working with families of young children with exceptionalities in Early Intervention programs and inclusive settings where the infants and toddlers may be served.

T&L 421 (or equivalent) is a prerequisite for this class.

ECE 493 | INTERNSHIP EXPERIENCES WITH INFANTS, TODDLERS AND TWOS WITH SPECIAL NEEDS | 2 quarter hours

(Graduate)

This course is a supervised internship, in which the candidates will practice early intervention strategies in a field experience of 40 clock hours with infants and toddlers with special needs. In this internship candidates will practice 1) assessment of infants and toddlers, 2) developmental therapy and play strategies with infants and toddlers, and 3) collaboration working in partnership with family members of children with special needs. Co-requisite: ECE 490; ECE 491; ECE 492. (2 credit hours)

ECE 704 | SEMINAR IN RESEARCH IN CHILD DEVELOPMENT | 4 quarter hours

(Graduate)

The focus of the seminar is to introduce the doctoral students to major research questions and issues in child development. The doctoral students will lead discussions on the most current and seminal research in the field of child development. In addition, the students will participate in analyses of existing US Policies in regards to child development. The seminar will have the following objectives: 1) Examination, analysis, and evaluation of the seminal and contemporary research and research methodologies in child development. 2) Examination and analysis of major theories of child development through a study of the original literature. 3) Examination and analysis of contemporary issues regarding maternal health and early development. 4) Examination, analysis, and evaluation of US policy approaches to maternal health and early child development and education.

Status as a EDD student with a declared concentration is a prerequisite for this class.

ECE 706 | CANDIDACY PAPER | 0 quarter hour

(Graduate)

Registration in this course is required of all students who are not enrolled in a course but are completing a dissertation. It provides access to university facilities. Permission of advisor required. This registration indicates that a student has successfully completed the candidacy paper as specified in the Doctoral Student Handbook. (0 credit hours)

Status as a EDD student with a declared concentration is a prerequisite for this class.

ECE 714 | SEMINAR IN DEVELOPMENT, RISK, AND RESILIENCE | 4 quarter hours

(Graduate)

This seminar will examine the concept of risk and its influence on child development within various frameworks such as environment, genetics and neurobiology, psychopathology, family, public policy and education. An issue of interest will be the development of children who are at-risk due to environmental factors. The U.S. policies in addressing this population will be examined. The seminar will have the following objectives: 1) In-depth analysis of the concepts of risk and resilience through examination of the original research literature. 2) Examination and analysis of various risk factors (e.g.: genetics, biology, poverty, family, socio political influences) with attention given to neurobiological risk factors, including disabilities. 3) Examination and analysis of factors of resilience (including implications for intervention and early childhood education). 4) Examination and analysis of U.S. Policies in relationship to promotion of resilience via early childhood intervention and education programs.

Status as a EDD student with a declared concentration is a prerequisite for this class.

ECE 724 | SEMINAR IN CURRICULAR APPROACHES IN EARLY CHILDHOOD EDUCATION | 4 quarter hours

(Graduate)

This seminar will examine issues related to curriculum in early childhood education and intervention, including assessment and other contemporary schooling issues. An in-depth analysis of various theoretical approaches influencing curriculum design in early childhood and family intervention will be conducted, as well as a review of the most influential and current educational models guiding curriculum in current early childhood settings. Through participation in this seminar candidates will meet the following objectives: 1) Examination of theoretical approaches influencing early childhood curriculum design. 2) Examination and analysis of contemporary curricular and assessment issues in early childhood education. 3) Examination and analysis of current early childhood educational models guiding curriculum. 4) Observation and analysis of model early childhood programs. 5) Exploration of other relevant contemporary early childhood education issues.

Status as a EDD student with a declared concentration is a prerequisite for this class.

ECE 734 | SEMINAR IN EARLY CHILDHOOD PROGRAM DESIGN AND EVALUATION | 4 quarter hours

(Graduate)

Doctoral students will examine the design and goals of various nationally funded early childhood programs from their philosophical and policy perspectives. Doctoral students will devote the major part of this seminar to conducting a research evaluation of one selected national early childhood program as a class team project. The research may require utilizing field research methodologies of one or more centers belonging to the selected program. When feasible the students will present their research findings in a local or national conference. The seminar will have the following objectives: 1) Understanding program design. 2) Developing program evaluation to match questions and address stakeholder needs. 3) Acquiring hands-on experience conducting a program evaluation on a selected early childhood program. 4) Written and oral dissemination of study.

Status as a EDD student with a declared concentration is a prerequisite for this class.
ECE 744 | SEMINAR IN CULTURE, LANGUAGE AND LEARNING | 4 quarter hours
(Graduate)
This seminar will focus on examining the influences of culture and language in development and education of children. Current cross-cultural, cross-lingual educational research will be examined in detail. The seminar will have the following objectives: 1) In-depth examination and analysis of influences of race and culture on development based on current research. 2) Examination and analysis of multicultural issues, and implications for early education method and practices. 3) Examination and analysis of issues related to the education of interracial children. 4) Examination of bilingual issues and implications for early education methods and practices. 5) Examination and evaluation of current educational policies in relationship to bilingual and bicultural children in the US.

Status as a EDD student with a declared concentration is a prerequisite for this class.

ECE 759 | TEACHING INTERNSHIP IN EARLY CHILDHOOD EDUCATION | 4 quarter hours
(Graduate)
This teaching internship is designed to respond to the growing need for preparing high quality teaching professionals in the field. Early Childhood Education Doctoral students acquire hands-on experience in college-level teaching in early childhood education or related fields. The doctoral student will teach one course under the supervision of an early childhood program faculty member. The course to be taught is recommended by the supervising faculty advisor based on the doctoral student’s background and career goals. The major objectives of this internship are: 1) Demonstrating mastery of course content. 2) Demonstrating knowledge, skills, and dispositions for teaching college and university level students and pre-service early childhood professionals from diverse backgrounds.

Status as a EDD student with a declared concentration is a prerequisite for this class.

ECE 769 | RESEARCH INTERNSHIP IN EARLY CHILDHOOD EDUCATION | 4 quarter hours
(Graduate)
This research internship is designed to provide an actual research experience in early childhood education. With the approval of the ECE program faculty, the candidates will work either with a faculty from the College of Education, from another college at DePaul University, or with a research associate or scientist at DePaul or in another institution to assist on a research project in one of the following areas: child development, early childhood education, child and family studies, developmental psychology or another closely related field. The student’s progress will be followed up by an early childhood advising faculty. The internship has the following objectives: 1) Understanding DePaul’s IRB protocol and application process to acquire certification for conducting research. 2) Acquiring first-hand experience while assisting research faculty in conducting various phases of research. 3) Collecting, analyzing, and interpreting data under supervision. 4) Understanding various research methodologies employed in the field of early childhood education.

Status as a EDD student with a declared concentration is a prerequisite for this class.

ECE 849 | SUPERVISED DISSERTATION PROPOSAL DEVELOPMENT | 4 quarter hours
(Graduate)
Students register for this course for the quarter in which they defend their dissertation proposals. Permission of dissertation chair required.

ECE 859 | INDEPENDENT DISSERTATION RESEARCH: EARLY CHILDHOOD EDUCATION | 4 quarter hours
(Graduate)
Students register for this course for the quarter in which they defend their dissertations. Permission of dissertation chair required.

Economics (ECO)

ECO 101 | INTRODUCTION TO ECONOMIC ISSUES | 4 quarter hours
(Undergraduate)
This course will introduce students to basic concepts from both micro- and macroeconomics. The goal is for students to gain an appreciation of how economics can be used to understand the world. Students will enhance their analytical skills by using basic economic concepts to examine current domestic and international issues. Students will improve their oral communication skills during class discussions and debates. This course is intended for non-Commerce students and cannot be counted toward a major or minor in economics.

LSP 121 or MAT 101 (or equivalent) are prerequisites for this class.

ECO 105 | PRINCIPLES OF MICROECONOMICS | 4 quarter hours
(Undergraduate)
Principles of Microeconomics. Basic theories of micro (or individual) economic units; the theory of consumer demand, the firm, and distribution; pricing and production in competitive, monopolistic and oligopolistic industries.

MAT 101 (or equivalent) is a prerequisite for this class.

ECO 106 | PRINCIPLES OF MACROECONOMICS | 4 quarter hours
(Undergraduate)
Principles of Macroeconomics. Fundamental theories of macro (or aggregate) economics: supply and demand, national income accounting and analysis, and international trade. Analysis of unemployment, and inflation, and policies designed to combat these and other current problems.

MAT 101 (or equivalent) is a prerequisite for this class.

ECO 198 | CURRENT ECONOMIC ISSUES | 2 quarter hours
(Undergraduate)
This is a 2-hour special topics course. Content and format of this course are variable. This course format will facilitate an in-depth examination of a specific economic issue. The specific topic covered will be indicated in the class schedule. The goal of the topics course is to introduce students to the discipline of economics through the study of a specific issue at the introductory level. This course will generally not carry any prerequisites and will not be applicable toward the requirements of the Economics major or minor. The course can be repeated for credit when a different topic is scheduled.

ECO 250 | CAREER PREPARATION FOR ECONOMICS MAJORS | 2 quarter hours
(Undergraduate)
Students will explore possible career options for economics majors while addressing three competency areas: self-management skills, career building skills, and general business skills. The course will focus on further developing students’ quantitative skills as they research career options and will include the development of a portfolio as a final assignment. (2 quarter hours)

MAT 137, ECO 105, ECO 106 and status as an ECO major in either the College of Business or the College of Liberal Arts & Social Sciences is a prerequisite of this class.
ECO 305 | INTERMEDIATE MICROECONOMICS | 4 quarter hours (Undergraduate)
This course is an extension of the topics introduced in Economics 105. It uses models to explain economic decision-making by consumers and firms. Students will examine how markets allocate resources, how market structure affects choices and social welfare, and the ways in which government can improve or impair markets. **ECO 105 and MAT 130 (or equivalent) are prerequisites for this class.**

ECO 306 | INTERMEDIATE MACROECONOMICS | 4 quarter hours (Undergraduate)
The purpose of this course is to develop macroeconomic models that assist in understanding the myriad economic problems facing us today, both domestic and foreign, and in evaluating proposed solutions. These static and dynamic models are used to understand interactions in the macroeconomy, and will serve as a tool in predicting the level of GDP, inflation, unemployment and interest rates. Models included are: traditional short-run Keynesian analysis; the New Classical market-clearing approach; and the recent work in Neo-Keynesian thought. **ECO 105, ECO 106 and MAT 130 (or equivalent) are prerequisites for this class.**

ECO 307 | MANAGERIAL DECISION MAKING | 4 quarter hours (Undergraduate)
This course provides an introduction to the various behavioral issues that affect economic and business decision-making. The goal is to understand (a) how cognitive constraints and common biases hinder rational decisions, (b) how emotions, motivations, and social and organizational pressures can lead to inefficient outcomes, and (c) how to design strategies aimed at improving decision-making at the individual and firm levels. This course is designed for both Economics and Non-Economics majors. **ECO 105 is a prerequisite for this class.**

ECO 310 | URBAN ECONOMICS | 4 quarter hours (Undergraduate)
This course discusses the economic rationale for the existence of cities and urban areas. Location decision-making by both firms and households is analyzed with attention given to the resulting land values, land rents, population density gradients, and urban land use patterns. We study models of the supply and demand for housing, the measurement and determination of house value, and the corresponding problems of segregation, housing abandonment, property taxation, and public housing. Other urban problems such as poverty, crime, and transportation are also discussed. **ECO 105 is a prerequisite for this class.**

ECO 312 | THE CHICAGO ECONOMY | 4 quarter hours (Undergraduate)
The first part of this course will focus on changes in the Chicago metropolitan economy over time. Topics to be covered will include the development of the Chicago economy in the 19th Century, modern economic development, land use, and suburbanization. The second part of the course will focus on selected policy issues including poverty, housing, pollution, crime, education, transportation, and taxes. **ECO 105 is a prerequisite for this class.**

ECO 313 | MARKET STRUCTURE AND REGULATION OF BUSINESS | 4 quarter hours (Undergraduate)
This course examines the behavior of firms, especially how firms pursue business strategies, in real-world markets. What factors determine price and output? Why do firms like Apple, Google and Microsoft dominate their markets? And what are the implications of this dominance? Why does government intervene in market transactions? What has government done about mergers, price fixing, and false advertising? **A grade of C- or better in ECO 305 is a prerequisite for this course.**

ECO 314 | ECONOMICS OF THE PUBLIC SECTOR | 4 quarter hours (Undergraduate)
This course discusses market failures and the economic role of government. Topics covered will include: government interventions that correct market failures, the efficiency of government policies, collective decision-making and voting, as well as the theory of optimal taxation and the incentive effects of taxes. Specific government programs such as Social Security and welfare programs are also analyzed. The emphasis is on the revenues, expenditures and policies of the federal government. **A grade of C- or better in ECO 305 is a prerequisite for this course.**

ECO 315 | INTRODUCTION TO MONEY AND BANKING | 4 quarter hours (Undergraduate)
Introduction to Money and Banking. The structure of the American banking system; role of the Federal Reserve System; private financial markets and institutions; the effectiveness of monetary policy, and international finance. **ECO 105, ECO 106 and MAT 130 (or equivalent) are prerequisites for this class.**

ECO 316 | EUROPEAN ECONOMIC HISTORY | 4 quarter hours (Undergraduate)
European Economic History. Major factors and institutions which have influenced the economic development of European nations. Impact of these nations on U.S. development is also discussed. **ECO 105 and ECO 106 are prerequisites for this course.**

ECO 317 | AMERICAN ECONOMIC HISTORY | 4 quarter hours (Undergraduate)
This course addresses the major factors and institutions which have influenced the economic development of the United States, including differences in regional development, slavery, transportation improvements, western expansion, the rise of large scale business, and government policy responses. **ECO 105 and ECO 106 are prerequisites for this course.**

ECO 318 | LABOR ECONOMICS AND ORGANIZATION | 4 quarter hours (Undergraduate)
Historical and theoretical analysis of labor groups and labor market problems (including wage determination, unemployment and discrimination), with particular reference to the dynamic economy of the United States. **ECO 105, ECO 106 and MAT 130 (or equivalent) are prerequisites for this class.**
ECO 319 | ECONOMICS AND GENDER | 4 quarter hours
(Undergraduate)
This course covers economic trends concerning women in the economy and examines economic analyses of gender issues, with special emphasis on gender issues in the workplace. The increase in the number of women in the workplace has been a major change in labor markets, affecting workers, employers and families. Different economic perspectives are examined to give students an understanding of the range of contributions by economists to this field. The course also examines feminist economics which raises concerns about economic analysis in general and as it is applied to this field.
ECO 105, ECO 106 and MAT 130 (or equivalent) are prerequisites for this class.

ECO 320 | ECONOMICS OF RELIGION | 4 quarter hours
(Undergraduate)
This course examines selected economic and sociological aspects of religion in society. Some of the topics that are covered include marriage and divorce, fertility and population growth, schooling, church contributions and work.
ECO 105, ECO 106 and MAT 130 (or equivalent) are prerequisites for this class.

ECO 321 | LAW & ECONOMICS | 4 quarter hours
(Undergraduate)
The overall goal of this course will be to demonstrate how businesses and government interact by surveying the economic and legal aspects of this relationship. This course is designed to prepare students to engage in methods of formal inquiry. The students will examine the American historical aspects of this relationship from the Industrial Revolution to the present. All topics are discussed with an emphasis on real-world applications and will include: a review of microeconomic theory pertaining to market structures with an emphasis on oligopolies; the history of antitrust; a review of the US legal and political framework; government regulation and key judicial decisions affecting businesses and industries concentrating on the legal and economic logic of those decisions. Class will begin with a discussion of current events once a week and it is expected that each student will attempt to participate and be knowledgeable of what is occurring locally, nationally and internationally.
ECO 105 is a prerequisite for this class.

ECO 322 | FINANCIAL MARKET REGULATION | 4 quarter hours
(Undergraduate)
This class explores policy approaches to regulating the financial system and the macroeconomy. The recent financial crisis has spurred interest in financial reform, culminating in the passage of the Dodd-Frank Wall Street Reform and Consumer Protection Act in 2010. Students examine the current and historical issues facing the US financial system and economy. They draw on their Business core curriculum (Money & Banking, ECO315 or FIN320) to critically evaluate reform proposals.
ECO 315 or FIN 320 is a prerequisite for this class.

ECO 325 | THE ECONOMICS OF POVERTY | 4 quarter hours
(Undergraduate)
This class addresses society’s view of poverty. It begins with an introduction to theories of economic justice for perspective. The introduction is followed by empirical issues related to the measurement of poverty and identification of its causes. An assessment of programs designed to ameliorate the effects of poverty is also covered.
ECO 105, ECO 106 and MAT 130 (or equivalent) are prerequisites for this class.

ECO 326 | HEALTH ECONOMICS | 4 quarter hours
(Undergraduate)
Taking a microeconomic perspective, this course provides a comprehensive overview of the field of health economics building on economic principles, recent research, and problem-based learning. Students will consider conceptual and empirical analyses of: supply of and demand for health and medical services; role of insurance; influence of physicians and hospitals on price, quantity, and quality of services; factors that distort the market; and the impact of technological change on health care cost. The recent changes in federal law regarding health insurance coverage are considered as well.
ECO 105 and MAT 130 (or equivalent) are prerequisites for this class.

ECO 330 | RADICAL RESPONSES TO CAPITALISM | 4 quarter hours
(Undergraduate)
The collapse of communism in Central and Eastern Europe and the continuing movement of the Chinese economy away from central planning means there are few real world economies in the 21st century that fully embrace the classic socialist model. However, there continues to be an influence exerted by socialist theory on policy in contemporary economies as well as a heterodox theoretical tradition. This course will examine the current influence of socialist thinking on various economies in the world and how the character of radicalism has evolved in recent decades.
ECO 105 and ECO 106 are prerequisites for this course.

ECO 333 | TOPICS IN GLOBAL ECONOMIES | 4 quarter hours
(Undergraduate)
This course provides an introduction to the major changes in the global economy in the twentieth century. It will devote particular attention to comparative analysis of national economic institutions and performance and business conditions, as well as prominent international institutions such as the International Monetary Fund, World Bank, and World Trade Organization. Knowledge of microeconomic and macroeconomic analysis (ECO 105 and 106) will be presumed and applied to global economic flows and national institutions. Selection of countries and case studies from advanced and developing countries will vary according to recent economic developments.
ECO 106 is a prerequisite for this class.

ECO 334 | UNDERSTANDING CHINA’S ECONOMY | 4 quarter hours
(Undergraduate)
The expansion of relations between China and foreign enterprises continues to entwine China’s economy with those of the world. This course will analyze China’s continuing evolution into a global market economy. We will examine China’s impact on the world economy and the problems that must be overcome for China to continue its dynamic growth. We will further discuss the characteristics of China’s evolution and how they can be extrapolated to other nations undergoing similar transitions.
ECO 105 and ECO 106 are prerequisites for this course.

ECO 335 | SUSTAINABLE STRATEGIES FOR ENERGY AND THE ENVIRONMENT | 4 quarter hours
(Undergraduate)
This course explores the relationship between energy, business, the economy, the environment and society. An interdisciplinary approach and real world case studies are used to understand the various dimensions of sustainable energy strategies (economic, scientific, political, environmental) and how they impact business and society. In the end, students will be able to (1) assess the costs and benefits of different energy and environmental strategies, and (2) contribute to discussions about building more sustainable economies for the future.
ECO 105 is a prerequisite for this class.
ECO 361 | INTERNATIONAL TRADE | 4 quarter hours
(Undergraduate)
This course deals primarily with the trade side of international economic relations. The main objective is the development of analytical tools required for an understanding of the gains from trade and barriers to trade. Particular emphasis is placed on currently pressing issues including the impact of trade on domestic employment and income, international trade tensions, and the rise of regional trade blocks. **ECO 105, ECO 106 and MAT 130 (or equivalent) are prerequisites for this class.**

ECO 362 | INTERNATIONAL MONETARY ECONOMICS | 4 quarter hours
(Undergraduate)
How do fiscal and monetary policy choices change as a country's economy opens more and more to international trade and capital flows? This question and others of international importance will be analyzed with an open-economy, macroeconomic framework. Topics to be explored will include: the foreign exchange market under both fixed and floating exchange rate regimes; the balance of payments, output, prices, and income in an open economy; the international monetary system; and the macro issues of economic development and transition. **ECO 106 and MAT 130 are prerequisites for this class.**

ECO 363 | ECONOMICS OF THE EUROPEAN UNION | 4 quarter hours
(Undergraduate)
The European Union, established in 1993 by the Treaty of Maastricht, has become the world's largest economy as a result of gradual incorporation of European countries. The euro represents approximately one fourth of the world's foreign currency reserves. In the economic and political-economic literature the euro has acquired relevance as a possible substitute of the U.S. dollar, especially during the period 2005 - 2010. However, as of 2008, along with the increase of trade among the EU countries, the single currency has been confronting issues with some of its weakest countries which are highly dependent on tourism [Greece, Ireland, Portugal, Italy and Spain]. The loss of independent monetary policy assigns a crucial role to fiscal policy as the only tool designed to stabilize the economy especially in times of recession. The budget deficit and the public debt levels of the weaker countries, during the world economic crisis of 2009, have also extended since then to the majority of the EU members. The political economy convenience of the single currency is now questioned in academic and business environments. The bail outs of Greece and Ireland by the European Central Bank and the International Monetary Fund, and the reduction of the Moody's credit ratings to several countries have considerably contributed to the panic of contagion. **ECO 105 and ECO 106 are prerequisites for this course.**

ECO 360 | ECONOMICS OF LOW-INCOME COUNTRIES | 4 quarter hours
(Undergraduate)
This course analyzes economic development issues in low-income countries. Attention is given to several key issues including agricultural and rural development, population growth, human capital, international trade, foreign resource flows, the role of the public sector, and environmental quality. **(ECO 105 or ECO 106) is a prerequisite for this class.**

ECO 359 | DEVELOPMENT ECONOMICS | 4 quarter hours
(Undergraduate)
By some estimates, approximately 1.4 billion people live on less than $1.25 a day. When the world’s per capita GDP is $10,000, why do so many people live on so little? Life expectancy in many parts of sub-Saharan Africa is less than 50 years, and in Burundi the average adult has less than three years of schooling. Why does this happen, and what can be done to change this? Students will learn how to objectively measure levels of poverty and development. Students will come to understand and analyze which types of interventions lead to improvements in people's lives. Using Stata, students will also learn techniques that researchers use to identify causal relationships between interventions and outcomes. **A grade of C- or better in ECO 305 is a prerequisite for this course.**

ECO 341 | BEHAVIORAL ECONOMICS | 4 quarter hours
(Undergraduate)
Behavioral Economics incorporates insights from psychology to expand the standard models of economic choice. This course will examine the findings from the psychology literature that inform the issue of decision making, explore how these findings have challenged standard economic models, and examine how the findings are being incorporated into economic thinking about choice. In addition to an introduction to the Behavioral Economics literature, students will have the opportunity to develop a project of their own using behavioral economics to examine a current economic issue. **A grade of C- or better in ECO 305 is a prerequisite for this course.**

ECO 336 | EXPLORING ECONOMICS & STATISTICS THROUGH SPORTS | 4 quarter hours
(Undergraduate)
The main objective of this course is to have students use and understand economics analysis. It covers many of the basic principles/theories in microeconomics, using the sports industry to illustrate these topics. Students use concepts from Business core courses (microeconomics and statistics) to analyze questions such as 'Do large-city professional sports franchises have a competitive advantage over their small-market counterparts?' or 'Why did Chicago and the State of Illinois use $463 million of public money to refurbish Soldier Field?'. **(ECO 105 and MAT 137 or equivalent) are prerequisites for this course.**

ECO 340 | DEVELOPMENT OF ECONOMIC THOUGHT | 4 quarter hours
(Undergraduate)
A study of the most influential contributions to our understanding of political economy broadly understood. An historical examination of the development of economic theories with special emphasis placed upon their relevance to present economic and political issues. **ECO 105, ECO 106, MAT 130 and (ECO 306 with a minimum grade of C-) are prerequisites for this class.**
ECO 375 | INTRODUCTION TO ECONOMETRICS | 4 quarter hours
(Undergraduate)
What separates economics from most other social sciences is that our discipline begins with a few basic assumptions and utilizes these as building blocks for models of behavior. Models are only useful if they can be tested and economists have developed a large toolkit of statistical models that are used to test these theories. The workhorse statistical model in the social sciences is the ordinary least squares (OLS) regression. The bulk of the course will be spent outlining the theory behind and the properties of the OLS model. The course will review the standard textbook treatment of a topic, then review academic papers that use the techniques outlined in class. Students will be expected to read the assigned papers and be able to discuss not only the econometric techniques used but also discuss the economic issues and assess the empirical support for them in the studies. Students will learn to use the STATA statistical software package.

ECO 105, ECO 106, MAT 136 or equivalent, and MAT 137 or equivalent are prerequisites for this class.

ECO 376 | TIME SERIES ANALYSIS | 4 quarter hours
(Undergraduate)
This course introduces time series regression models. Rather than focusing only on the technical and theoretical sides, primary attention is given to applications of time series regression models using economic and financial data. The data will be drawn from websites such as wsj.com and government website FRED (Federal Reserve Economic Data). The course will build upon the STATA programming skills learned in ECO375 [Introduction to Econometrics], particularly as they relate to extracting currently available data into the STATA program. Additionally, students will learn various methodologies to understand the time series processes in economics and finance.

ECO 375 is a prerequisite for this class.

ECO 379 | GAME THEORY | 4 quarter hours
(Undergraduate)
Game Theory provides a series of frameworks and tools to analyze strategic interactions. This course introduces the game-theoretic approach and shows its usefulness in understanding situations arising in economics, business, and other areas where agents make interdependent decisions. The main goal is for students to develop the ability to think about strategic problems and make strategic decisions in a more disciplined way.

A grade of C- or better in ECO 305 is a prerequisite for this course.

ECO 380 | MATHEMATICAL ECONOMICS | 4 quarter hours
(Undergraduate)
Review of various mathematical functions useful in formulating economic theories followed by elements of Matrix algebra and its application to concepts of micro and macro economic equilibria. Particular emphasis will be placed on differential calculus, including the use of partial derivatives. These mathematical tools will be applied to optimization problems in micro and macro economic theory.

ECO 105, MAT 135 (or equivalent) and MAT 136 (or equivalent) are prerequisites for this class.

ECO 393 | INTERNSHIP IN APPLIED ECONOMICS | 4 quarter hours
(Undergraduate)
This course provides an opportunity to apply knowledge acquired in the classroom to a real world situation within a private or public enterprise. Registration is by permission of the instructor following internship approval. The course can be used to satisfy the Liberal Studies Experiential Learning requirement or as an open elective. The course is not applicable to the economics electives required for the major or minor in economics.

ECO 105 & ECO 106 are prerequisites for this course.

ECO 395 | CAPSTONE SEMINAR IN ECONOMICS | 4 quarter hours
(Undergraduate)
A seminar in which students explore how the discipline of economics addresses issues from a different perspective than other disciplines within and beyond the social sciences. This course is the Liberal Studies Capstone Requirement for the LA&S Economics major and is restricted to LA&S economics majors with senior standing.

ECO 305, ECO 306 and status as an LAS Economics major with Senior standing is a prerequisite for this class.

ECO 398 | SPECIAL TOPICS | 4 quarter hours
(Undergraduate)
Special Topics. Content and format of this course are variable. All topics will include an in-depth study of current issues in Economics. Subject matter will be indicated in class schedule. Prerequisites vary by topic.

ECO 399 | INDEPENDENT STUDY | 4 quarter hours
(Undergraduate)
An Independent Study may be available to students of demonstrated capability for intensive independent work in economics. Written permission of supervising faculty member, chair, and director of undergraduate programs is required prior to registration. (variable credit)

ECO 423 | ENVIRONMENTAL ECONOMICS AND PUBLIC POLICY | 4 quarter hours
(Graduate)
This course is designed to give the student an understanding of economic theory as it applies to the environment and how we use natural resources. We will look at situations where self-interest, government regulation, and market conditions affect our decisions as they relate to environmental conditions and issues. Remember, economics is a discipline of understanding choices and how different incentives affect those choices, and that remains true when dealing with the environment and natural resources.

ECO 424 | MICROECONOMIC THEORY | 4 quarter hours
(Graduate)
This course further develops the basic theories of individual economic agents: the consumer and the firm. However, unlike ECO 105, this course will place a lot of emphasis on algebra and calculus.

ECO 425 | PUBLIC ECONOMICS | 4 quarter hours
(Graduate)
In this course we will apply the tools of microeconomics to analyze the economic functions of government, including expenditure and tax policies. We will devote considerable time to understanding the role of government in market economics. In particular the tradeoff between efficiency and equity is analyzed in various contexts. You have already learned what markets can do in your ECO 105 course. In this course we will learn what markets cannot do and where governments must step in.
ECO 435 | REAL ANALYSIS I | 4 quarter hours (Graduate)
This course covers real number system, completeness, supremum, and infimum, sequences and their limits, lim inf, lim sup, limits of functions, continuity.
(MAT 149 or MAT 152 or MAT 162 or MAT 172) and (MAT 141 or MAT 215) are a prerequisite for this class.

ECO 436 | REAL ANALYSIS II | 4 quarter hours (Graduate)
This course follows ECO 435 and covers properties of continuous functions, uniform continuity, sequences of functions, differentiation, integration.
ECO 435 or MAT 335 or equivalents is a prerequisite for this class.

ECO 500 | MONEY AND FINANCIAL SYSTEMS | 4 quarter hours (Graduate)
This course examines both the role of money in the economy from a functional and macroeconomic perspective as well as the structure and function of the most important financial institutions and financial markets. Topics covered include the role of the Federal Reserve as monetary policymaker, interest rate and exchange rate determination, the relationship between money and economic activity, and the organization and importance of money markets, capital markets, markets for derivative securities, commercial banks and other intermediaries in a well-functioning financial system.
MS in Taxation and MSAA students are restricted from registering for this class.

ECO 501 | CONCEPTS OF MICRO AND MACRO ECONOMICS | 4 quarter hours (Graduate)
This course investigates the basic elements of the economic way of thinking. Students will begin with models of the consumer and the producer, looking specifically at demand and supply, elasticity, measures of efficiency, production and cost theory, and the determination of price and quantity under different market structures. The remainder of the course is devoted to analyzing the economy as a whole, focusing on the determination of Gross Domestic Product, the role of money and monetary policy, labor markets and unemployment, price stability, and short-run fluctuations in output.
Status as a graduate accountancy student is a prerequisite for this class.

ECO 502 | ANALYSIS OF BUSINESS CONDITIONS | 2 quarter hours (Graduate)
This survey course in macroeconomics will cover the nature of macroeconomic activity including the component parts of aggregate expenditures and the nature of key indicators of the economy’s performance. The roles of fiscal and monetary policy makers will be examined as well as the structure of the central bank.
MS in Taxation and MSAA students are restricted from registering for this class.

ECO 503 | GLOBAL ECONOMY | 4 quarter hours (Graduate)
This course is designed to be an introduction to the economic environment in which businesses operate. With the increasing interdependence of national economies and the growing role of global enterprises, the understanding of international economic issues is vital to decision-makers. The material covered will include both socio-cultural aspects and economic and financial dimensions of global business. Students should obtain a grasp of the basic theory as well as a knowledge of the major current issues in the global economy.

ECO 505 | ADVANCED MICROECONOMICS | 4 quarter hours (Graduate)
An advanced course in microeconomic theory. This course will present a systematic and rigorous analysis of price determination and the allocation of specific resources to particular uses.
Status as an Economics & Policy Analysis MS student (or instructor consent) is a prerequisite for this class.

ECO 506 | ADVANCED MACROECONOMICS | 4 quarter hours (Graduate)
An advanced course in macroeconomic theory that examines the determination of income, employment, and prices, and their interrelations. Covers traditional Keynesian as well as alternative models of output, consumption, investment, money demand, inflation and unemployment. The dynamic character of income determination is emphasized, along with effects of government policy, economic institutions, and social goals.
ECO 502 or status as an Economics & Policy Analysis MS student is a prerequisite for this class.

ECO 507 | DATA ANALYTICS I: REGRESSION ANALYSIS | 4 quarter hours (Graduate)
This course focuses on the tools and techniques used to statistically analyze economic data. We will focus on both theoretical understanding (why do we use such tools and how do they work) and applied understanding (the ability to carry on a research project using these tools). Students will learn Stata, which is one of the most widely used statistical analysis programming language in Economics. Students will learn the practical skills of how to choose the right tools for the analysis, how to prepare and inspect the data, and how to run an analysis that is robust, can be replicated, and can be understood and used by others - all extremely valuable qualities in real life work.
(GSB 420 or GSB 519 or equivalent) or status as an Economics and Policy Analysis MS student is a prerequisite for this class.

ECO 508 | DATA ANALYTICS II: TIME SERIES AND PANEL DATA ANALYSIS | 4 quarter hours (Graduate)
This course focuses on advanced techniques used to statistically analyze economic data. We will focus on both theoretical understanding (why do we use such tools and how do they work) and applied understanding (the ability to carry on a research project using these tools). Topics to be covered include the analysis of time series and panel data, discrete choice models, simultaneous equations, forecasting and experimental methods. Students will learn statistical Stata commands that apply to the advanced topics covered.
ECO 507 is a prerequisite for this class.

ECO 509 | BUSINESS CONDITIONS ANALYSIS | 4 quarter hours (Graduate)
This course teaches students how to use available economic data to assess business conditions. This is done by: (1) evaluating the sources and usefulness of data periodically released by government and private sources and (2) developing a macroeconomic framework that the student can use to analyze business conditions. Completion of this course will allow students to understand economic news and relate it to their business or job.
MS in Taxation and MSAA students are restricted from registering for this class.
ECO 510 | DATA ANALYTICS III: CAUSAL INFERENCE | 4 quarter hours (Graduate)
This course is about the research designs and methods that researchers use to support causal inferences in the social sciences. Some specific topics include randomized experiments, instrumental variables, regression discontinuity designs, difference-in-differences models, regression analysis, and propensity score matching.
ECO 507 and ECO 508 are prerequisites for this class.

ECO 511 | BUSINESS AND ECONOMIC FORECASTING | 4 quarter hours (Graduate)
This course surveys a number of quantitative techniques commonly used to forecast business and economic variables. Emphasis will be on techniques, their relative strengths and weaknesses and real-world economic applications. Topics include smoothing techniques, regression and econometric analysis and Box-Jenkins time series. (GSB 420 or GSB 519 or equivalent) or status as an Economics and Policy Analysis MS student is a prerequisite for this class.

ECO 513 | DEMYSTIFYING THE FEDERAL RESERVE BANK | 4 quarter hours (Graduate)
This is a course about monetary policy. The Federal Reserve has (and other central banks have) the capacity to directly control interest rates and the monetary base (money supply) with an impact on real output growth, unemployment, inflation and financial stability. The expected movement in these variables is important for business and consumer decisions. The Fed has been criticized as of late for policies that put us into the recent financial crisis and for policies that do not appear to be getting us quickly out of the current slowdown, but instead are setting the country up for higher inflation. This course will focus on the theory and evidence of what the Fed does (and other central banks do), why they do it and how what they do affects our well-being. It is meant to demystify their policies by providing a rationale behind their statements and actions. Unlike most courses that rely on textbooks, this course will have numerous topics and readings that do not yet appear in traditional texts. Consequently, it will include some of the latest (over the last couple of years or months) ideas on what central banking is and should be about.
ECO 502 or ECO 509 or ECO 506 is a prerequisite for this class.

ECO 514 | INDUSTRIAL ORGANIZATION | 4 quarter hours (Graduate)
This course is concerned with how the market system directs production decisions under varying deviations from the competitive environment. The links between market structure, conduct and performance are examined. Topics include determinants of market structure, various theories of imperfect competition, price discrimination, predatory pricing, and antitrust policy.
ECO 555 or 505

ECO 515 | MICROECONOMICS OF MARKET ORGANIZATION | 4 quarter hours (Graduate)
Imperfectly competitive markets are more common than perfectly competitive markets. This course is about the effects of imperfectly competitive market structure on the organization, pricing, product choice, and entry of firms. We will study the acquisition and use of market power, strategic competition across firms, private sector sources of market failure, and the role of government competition policy. Factor markets will also be discussed.
ECO 505 is a prerequisite for this class.

ECO 516 | ECONOMICS OF THE PUBLIC SECTOR I | 4 quarter hours (Graduate)
Application of microeconomic analysis to the role of government in society. The theoretical foundation for the design of an efficient and equitable tax and expenditure program is presented and the impact of such a program on the economy is explored through general equilibrium analysis. Students must have a solid foundation in basic calculus.
ECO 505 or ECO 555 is a prerequisite for this class.

ECO 517 | THE PUBLIC POLICY, BUSINESS, AND ETHICAL ENVIRONMENT OF GOVERNMENT | 4 quarter hours (Graduate)
Businesses are becoming more involved in deal making both in the public and private sector. Individuals now sit on the boards of public and private companies and are being asked to provide business analysis and networking skills. Moreover, many firms have established PACS and have set-up governmental practice sections. These firms are also becoming more dependent on the government for business opportunities and are more involved in fundraising on behalf of public officials in order to gain access and to influence the regulatory and legislative process. In fact many business people have raised money for both political parties with the hope of leveraging their contributions for future work or political appointments.
ECO 555 or equivalent is a prerequisite for this class.

ECO 518 | LABOR ECONOMICS AND LABOR RELATIONS | 4 quarter hours (Graduate)
A study of the American labor force: measurement, characteristics and behavior under changing income, employment and technology. An examination of recent labor market developments provides the basis for a critical analysis and appraisal of contemporary wage theory. Topics include changes in the labor force, unemployment, wage determination, the minimum wage, internal labor markets, productivity, discrimination, unions and collective bargaining.
ECO 555 or 505

ECO 520 | BUSINESS ANALYTICS TOOLS II | 4 quarter hours (Graduate)
This course teaches advanced data analytical skills by identifying meaningful patterns of data and transforming patterns into statistical models to make more profitable decisions using big data. It covers descriptive, predictive, and prescriptive analytics. The class will introduce many practical methodologies through the use of SAS. The class covers the topics on advance levels of clustering analysis, discrete choice models, multivariate regression models, and neural network analysis to find the best suitable techniques to drive the best business decision.
GSB 420 or GSB 519 is a prerequisite for this class.

ECO 521 | POLICY & REGULATION IN FINANCIAL MARKETS | 4 quarter hours (Graduate)
This course focuses on the economic rationale and consequences of U.S. financial regulation. We will emphasize the implications of regulation for future public policy. We will approach this topic by giving a rationale for financial regulation and then go into regulation associated with particular financial institutions. We concentrate on commercial banks and investment banks, although we will touch on insurance and life assurance companies, stock markets, bond markets and hedge funds. Because of systemic risk (the main focus of financial regulation) associated with commercial banking, we spend most of the course dealing with banking regulation.
ECO 505 or ECO 555 is a prerequisite for this class.
ECO 522 | CURRENT POLICY ISSUES | 4 quarter hours (Graduate)
This course focuses on current policy issues in the United States. Specific topics depend on current legislative issues facing the country and bills being debated in Congress. There will typically be detailed coverage of two main policy issues. The analysis will include an economics analysis as well as extensive reading of political and legal documents.
ECO 505 or ECO 555 is a prerequisite for this class.

ECO 525 | STRATEGIC DECISION MAKING AND GAME THEORY | 4 quarter hours (Graduate)
The goal of this course is to introduce students to game-theoretic way of thinking and show its usefulness in understanding various problems arising in business, economics, as well as many other disciplines and every day life. The tools used in game theory are analytical in nature, and hence the building blocks of the course will necessarily draw on analytics. The instructor's job will be to make these analytics accessible to students without using too much mathematics. Once students grasp these tools, a variety of applications will be presented, discussed, and illustrated using experiments. These applications will be mainly in the fields of business and economics, but will often span to other areas like law, politics, biology, and ethics. In this way, students will get a broad perspective of the multiple applications of game-theoretic reasoning.
ECO 555 or 505

ECO 526 | BUSINESS STRATEGY | 4 quarter hours (Graduate)
This class deals with firms' business plans and policies and how they change in response to various incentives and stimuli. We will discuss frameworks used to analyze and formulate business strategies. We will introduce tools and techniques for diagnosing a firm's competitive position, identifying managerial and organizational issues, evaluating plans of action, and anticipating the consequences of alternative decisions.
ECO 555 or 505

ECO 527 | BUSINESS REGULATION AND ANTITRUST | 4 quarter hours (Graduate)
This course examines the rationale for and efficiency of government regulation of business in the United States. Various forms of government regulation are evaluated to determine their effectiveness in promoting market efficiency. We will emphasize the importance of market structure and industrial performance, including the strategic interaction of firms. We will examine the behavior of individual markets in some detail, focusing on cost analysis, the determinants of market demand, investment behavior, market power, and the implications of government regulatory behavior.
ECO 555 or 505

ECO 528 | STRATEGIES AND PROCESSES OF NEGOTIATIONS | 4 quarter hours (Graduate)
This course is geared towards developing negotiation skills that are important in both the business world as well as day to day life. We will consider both practical and theoretical aspects of negotiations. In the theoretical part, we will learn what factors affect negotiations success. For example, what is the alternative if an agreement is not reached? In the practical part, we will practice negotiations in class using relevant case studies.
ECO 555 is a prerequisite for this class.

ECO 529 | COMPETITION, STRATEGY AND ANTITRUST POLICY | 4 quarter hours (Graduate)
This class introduces major topics in the economics of imperfectly competitive industries, competition policy, and the economics of incentives and information. The main goals are to understand basic firm behaviors and interactions under various industry configurations, and to scrutinize these behaviors and interactions through the lenses of competition policies (antitrust laws and regulation). We will draw on microeconomic theory, game theory and competitive strategy, as well as empirical evidence and a variety of case studies.
ECO 555 or 505

ECO 530 | HISTORY OF ECONOMIC THOUGHT | 4 quarter hours (Graduate)
A study of the evolution of the science of economics. Emphasis is on the important contributions made to the field by the great thinkers, starting with the Physiocrats and extending to the work of contemporary institutional and post-Keynesian economists.
ECO 555 or 505

ECO 531 | BUSINESS MODELS AND INNOVATION STRATEGY | 4 quarter hours (Graduate)
This course studies the intersection of three areas: (a) Business Models, (b) Innovation Strategy, and (c) Competitive Strategy. We will explore each of these areas through assessments of empirical papers, case study assignments, student presentations, structured lectures, and reviews of various academic readings. We will pay particular attention to the tradeoffs in pursuing certain strategies given the market structure of the industry, the resources and capabilities of the firm, and the major macro trends facing the firm and its competitors. Other topic areas include: technology and innovation; decisions in research & development, the impact of network effects and standards, the role of intellectual property, and the evaluation of disruptive technologies.
ECO 505 or ECO 555 is a prerequisite for this class.

ECO 535 | BEHAVIORAL ECONOMICS AND DECISION-MAKING | 4 quarter hours (Graduate)
Behavioral Economics studies the psychological processes and biases underlying decision-making in economics and other connected areas. The course focuses on optimality in decision-making by consumers and producers, and emphasizes where and how deviations from optimality affect the profitability of business strategies and the efficiency of economic policies. Students learn and discuss the most robust and relevant theoretical and empirical findings in Behavioral Economics through a variety of applications in economics, business, and managerial and policy-driven environments.
ECO 555 or 505

ECO 540 | THE BUSINESS OF HEALTH | 4 quarter hours (Graduate)
This course provides an overview of the healthcare sector, including the pharmaceutical and medical device industry, health insurance, healthcare providers, and public sector. The overarching perspective of the course will be through the critical lens of economics in that the underlying incentive mechanism (or lack thereof) will be probed and evaluated. Even students new to the healthcare sector will gain a wide-ranging understanding of the myriad ways in which the healthcare industry touches all of us.
ECO 541 | HEALTHCARE DATA ANALYTICS | 4 quarter hours
(Graduate)
This course will provide students with an overview of the complex
data decision-makers in the healthcare industry must make sense of
every day. These data include but are not limited to health insurance
billing, electronic health records, patient satisfaction surveys, disease
surveillance data, and others. A key overriding issue will be the
development of skill to distinguish correlation from causation.
GSB 420 or GSB 519 is a prerequisite for this class.

ECO 542 | HEALTH ECONOMICS | 4 quarter hours
(Graduate)
Health Economics is the study of the allocation of resources relating
to health and the market for medical care. Taking a microeconomic
perspective, this course provides a comprehensive overview of the field of
health economics, building on economic principles, recent research, and
problem-based learning. Students will consider conceptual and empirical
analyses of supply and demand for health and medical services; role
of insurance; influence of physicians and hospitals on price, quantity,
and quality of services; reimbursement mechanisms; factors that distort
the market; and the impact of technological change on health care cost.
Students will also learn how analytic tools such as cost-benefit and
cost-effectiveness analyses can contribute to decision making for the
provision and financing of health care.

ECO 550 | REGIONAL AND URBAN ECONOMICS | 4 quarter hours
(Graduate)
The course investigates the spatial character of an economic system.
The first part of the course is concerned with theories in regional
economics, including business and household location theory,
urbanization, and regional development. The latter part of the course
deals with urban economics, a specialized area concerned with the
economic forces behind many urban problems. Topics include the
economics of housing, transportation, poverty, crime and urban public
finance.
ECO 555 or 505

ECO 555 | MANAGERIAL ECONOMICS | 4 quarter hours
(Graduate)
This course focuses on the application of microeconomic principles to
managerial decision making. These principles include the theories of
consumer choice, production and cost as they relate to decisions made
by firms and households under various industry configurations. Specific
topics are consumer and market demand; elasticities; production theory;
cost structure; profit maximization; market impacts of government
interventions; externalities; and the effect of market structure on firm
decisions on pricing, output and profit.
GSB 420 or GSB 519 is a prerequisite for this class.

ECO 557 | INTERNATIONAL TRADE THEORY & POLICY | 4 quarter hours
(Graduate)
Modern theories of international trade: classical theory of comparative
advantage, factor proportions theory, factor price equalization,
application of welfare economics to international trade, including regional
economic integration, commercial policy and tariff problems. Cross-listed with IB 520.
ECO 555 or 505

ECO 558 | INTERNATIONAL MACROECONOMICS | 4 quarter hours
(Graduate)
Analyzes traditional macroeconomic issues in a framework that allows
for international trade and capital flows. Cross-listed as IB 521.
ECO 506 or ECO 509 is a prerequisite for this class.

ECO 560 | DEVELOPMENT OF THE AMERICAN ECONOMY | 4 quarter hours
(Graduate)
This course describes the economic development of the United States
by examining topics such as: colonial settlement patterns, the impact
of the railroad, the development of the financial system and the Great
Depression.
(ECO 505 or ECO 555) and (ECO 506 or ECO 509) are prerequisites for
this class.

ECO 561 | ECONOMICS OF DEVELOPING COUNTRIES | 4 quarter hours
(Graduate)
Introduction to the economist’s analytical skills applied to problems
developing and newly industrialized countries. Studies economic
theory of development, development policy, and decision-making in the
developing world; several case studies are examined. Cross-listed with IB 525.
ECO 555 or 505

ECO 600 | THESIS RESEARCH | 4-8 quarter hours
(Graduate)
Thesis Research.

ECO 798 | SPECIAL TOPICS | 4 quarter hours
(Graduate)
Content and format of this course are variable. An in-depth study of
current issues in economics. Subject matter will be indicated in class
schedule.

ECO 799 | INDEPENDENT STUDY | 4 quarter hours
(Graduate)
Available to graduate students of demonstrated capability for intensive
independent work in economics.

Educating Adults (EA)

EA 505 | APPLIED INQUIRY PROJECT PROPOSAL I | 0.5 quarter hour
(Graduate)
Each student will design his/her EA 528 Applied Inquiry Project, in
consultation with the faculty mentor and a project advisor. Proposal
I emphasizes selecting a project topic/focus, identifying the primary
users, and conducting a literature review. Proposal II emphasizes shaping
and designing the inquiry project, and outlining the final product(s).
Upon completion of both phases, the proposal must be approved by the
Academic Committee and Graduate Student Program Review Committee
(GSPRC). (.5 quarter hour)
Status as an MAEA student or departmental permission is a prerequisite
for this class.

EA 506 | APPLIED INQUIRY PROJECT PROPOSAL II | 0.5 quarter hour
(Graduate)
Each student will design his/her EA 528 Applied Inquiry Project, in
consultation with the faculty mentor and a project advisor. Proposal
I emphasizes selecting a project topic/focus, identifying the primary
users, and conducting a literature review. Proposal II emphasizes shaping
and designing the inquiry project, and outlining the final product(s).
Upon completion of both phases, the proposal must be approved by the
Academic Committee and Graduate Student Program Review Committee
(GSPRC). (.5 quarter hours)
Status as an MAEA student or departmental permission is a prerequisite
for this class.
EA 507 | APPLIED INQUIRY PROJECT PROPOSAL I | 1 quarter hour (Graduate)
Each student will design his/her EA 528 Applied Inquiry Project, in consultation with the faculty mentor and a project advisor. Proposal I emphasizes selecting a project topic/focus, identifying the primary users, and conducting a literature review. Proposal II emphasizes shaping and designing the inquiry project, and outlining the final product(s). Upon completion of both phases, the proposal must be approved by the Academic Committee and Graduate Student Program Review Committee (GSPRC). (1 quarter hour)
Status as an MAEA student or departmental permission is a prerequisite for this class.

EA 508 | APPLIED INQUIRY PROJECT PROPOSAL II | 1 quarter hour (Graduate)
Each student will design his/her EA 528 Applied Inquiry Project, in consultation with the faculty mentor and a project advisor. Proposal I emphasizes selecting a project topic/focus, identifying the primary users, and conducting a literature review. Proposal II emphasizes shaping and designing the inquiry project, and outlining the final product(s). Upon completion of both phases, the proposal must be approved by the Academic Committee and Graduate Student Program Review Committee (GSPRC). (1 quarter hour)
Status as an MAEA student or departmental permission is a prerequisite for this class.

EA 515 | DEVELOPING PROFESSIONAL IDENTITY | 4 quarter hours (Graduate)
In this foundation course, students will situate their own area of practice in broader contexts of adult learning and adult education. Students will systematically reflect on their professional identity(ies), examine their practice in the context of philosophical traditions, and construct their own philosophy of education to guide their practice. They will expand their academic sources and professional networks. Students will begin work on their individual program portfolios, which will be constructed throughout their program.
Status as an MAEA student or departmental permission is a prerequisite for this class.

EA 516 | DESIGNING EDUCATIONAL OFFERINGS | 4 quarter hours (Graduate)
In this course, students will be introduced to major components involved in designing educational offerings for adults, and the various face-to-face settings. Students will develop (or revise) a design plan for an educational offering appropriate to their selected adult clientele. In particular, they will articulate learning outcomes around which to build their design plan (backward design). They will apply theories, concepts, and principles of adult learning while making design decisions. While the design principles addressed in this course are relevant to on-line environments, students who wish to delve further into on-line learning/teaching technology are encouraged to do so through the MAEA Electives option.

EA 517 | FACILITATING ADULT LEARNING | 4 quarter hours (Graduate)
In this course, students will develop and hone skills to facilitate adult learning in a variety of settings. Students will learn about concepts that inform learner-centered methods and techniques of facilitating learning. Throughout the course, they will apply various methods and techniques in various settings and reflect on how these methods influence learning. The repertoire of skills that students develop as facilitators of learning will have both immediate and future application. While the concepts, methods, and techniques covered in this course are relevant to on-line learning, students who wish to delve further into facilitating on-line learning are encouraged to do so through the MAEA Electives option.

EA 518 | ENHANCING PRACTICE WITH THEORY IN ADULT LEARNING | 4 quarter hours (Graduate)
In this capstone course, students’ practices in helping adults learn will be grounded in relevant theories, models, and principles of adult learning and development. Students will examine various strands of research and theory that support, challenge, and enhance their practices in working with adult learners in their selected settings. Students will have many opportunities to explore and share new ideas and approaches through the various perspectives studied, thereby enhancing one another’s theoretical foundations.

EA 525 | CONDUCTING PRACTICE-BASED INQUIRY | 4 quarter hours (Graduate)
In this course, students will be introduced to methods, strategies, and techniques appropriate for qualitative research designs. Students will select a topic of inquiry (research topic) relevant to their individual practice setting. The history and philosophy of qualitative research in the social sciences will be briefly explored to provide the framework for designing a research plan appropriate to their selected inquiry topic. Students will investigate various literature related to their topic of inquiry, research designs, data collection and analysis strategies, and research reporting formats. In this way, EA 525 becomes a springboard for independent learning projects, including the Applied Inquiry Project (AIP). Students who wish to augment qualitative research with quantitative approaches are encouraged to do so through the MAEA Electives option.

EA 526 | ASSESSING ADULT LEARNING | 4 quarter hours (Graduate)
In this course, students will learn about and apply various approaches for assessing learning outcomes of individuals in ways that also contribute to the learning process. The assessment of adult learning entails examining the actual outcomes of learning activities in relation to intended outcomes in order to make determinations about, and continually improve, both student learning and facilitator instructional practices. Students will address these components as they develop an assessment plan relevant to their practice setting and gain skill in designing assessment instruments.

EA 528 | APPLIED INQUIRY PROJECT | 4 quarter hours (Graduate)
In consultation with the faculty mentor and a project guide, each student will design and carry out a project that addresses a significant question/issue in the student’s area of practice, with the aim of enhancing practice informed by relevant frameworks and ideas. The final product must be approved by GSPRC.
Status as an MAEA student or departmental permission is a prerequisite for this class.
### EA 528C | APPLIED INQUIRY PROJECT CAPSTONE | 4 quarter hours (Graduate)
Within the structure of this course, students will complete their Applied Inquiry Projects (AIP), the culminating project of their Master of Arts in Educating Adults (MAEA) program. Key elements of the AIP are that it has a clear focus; draws on relevant literature; employs an appropriate inquiry design; and results in an applied product relevant to their area of practice in educating adults. Students will draw on learning from prior MAEA courses, in particular EA 525 [inquiry design] and EA 518 [adult learning theories]. Students may work on a project already in process (if they have already begun their AIP work independently), or select a project from among topics provided by the instructor. Structured guidance and assignments will support both pathways. A learning contract approach will be used for either option.

### EA 535 | REFLECTIVE PRACTICE SEMINAR I | 0.5 quarter hour (Graduate)
This is a faculty mentor-guided session, which follows EA 515. Students revisit their selected area of practice, select purposes for their program portfolio, and plan for development of the Elements of Reflective Practice.
**Status as an MAEA student or departmental permission is a prerequisite for this class.**

### EA 536 | REFLECTIVE PRACTICE SEMINAR II | 0.5 quarter hour (Graduate)
Students meet with their faculty mentor for group reflection and review of their progress in the program. This seminar assists students in planning their electives, reflecting on applications of their learning and assessing growth in the Elements of Reflective Practice, mapping theories and concepts to their practice settings, and sharing approaches to their program portfolios.
**Status as an MAEA student or departmental permission is a prerequisite for this class.**

### EA 537 | REFLECTIVE PRACTICE SEMINAR III | 0.5 quarter hour (Graduate)
Meeting with their faculty mentor, this seminar offers students an opportunity to get feedback on plans for the Applied Inquiry Project, conduct an informal mid-program review, examine ways in which students are applying the three Elements of Reflective Practice, identify significant threads? across the curriculum, and present on aspects of their program portfolios.
**Status as an MAEA student or departmental permission is a prerequisite for this class.**

### EA 538 | REFLECTIVE PRACTICE SEMINAR IV | 0.5 quarter hour (Graduate)
Near the end of the program, students join their faculty mentors in a summit to review their program, engage in discussion on their next steps, review their credo of educating adults, reflect again on the three Elements of Reflective Practice, and present their program portfolio.
**Status as an MAEA student or departmental permission is a prerequisite for this class.**

### EA 540 | DESIGNING AND DELIVERING TECHNOLOGY-ENHANCED LEARNING OFFERINGS | 4 quarter hours (Graduate)
This course focuses on designing and delivering educational experiences using the web, digital video, animation, gaming and mobile delivery formats. Students explore instructional design theory and bridge its application into/through basic training in each of these technological applications, including consideration of relevant examples of best practices and instructions regarding when to employ each application. This course does not have prerequisites; however, students are expected to be familiar with basic learning design principles.

### EA 541 | TEACHING WITH WRITING IN ANY COURSE | 2 quarter hours (Graduate)
This online course (six-modules) for teachers in any discipline focuses on making the most of writing as a tool for teaching and learning in undergraduate and graduate courses. In the course, teachers will explore practical ideas for in-class writing assignments that initiate discussions and provide quick input regarding student learning. Teachers will also learn strategies for developing assignments and providing feedback while maximizing efficiency and minimizing frustration. Opportunities to share ideas and receive coaching on current writing assignments and ways of giving feedback are included. This course does not have prerequisites; however, those taking it should have undergraduate or graduate courses that they wish to develop or revise and experience teaching at the college level that they can draw upon for discussions. (2 quarter hours)

### EA 542 | DESIGNING OUTCOME-BASED PROGRAM EVALUATION: PERSPECTIVES & PRACTICES | 2-4 quarter hours (Graduate)
This course functions as a Graduate Faculty-Directed Independent Study/GFDIS. (See MAEA Guidebook for general GFDIS details.) Each student designs a plan for outcome-based program evaluation, along with evaluation tools, that are relevant to his/her practice setting. This evaluation approach is then considered in relation to other models and approaches to evaluation of education, training and professional development programs. Illustrations of current program evaluation practices are included (2 quarter hours)

### EA 543 | INNOVATIVE FACILITATING GFDIS | 2 quarter hours (Graduate)
This course functions as a Graduate Faculty-Directed Independent Study/GFDIS. (See MAEA Guidebook for general GFDIS details.) Students participate in SNL's Adult Learning Innovation Institute (Module: Innovative Strategies for Facilitating Adult Learning), learn innovative strategies for engaging and motivating adult learners in various educational and training settings and subsequently apply their learning in specific ways within their practice settings. Students also receive feedback and coaching from instructors and institute peers. (Questions? For information regarding the Institute, contact caea@depaul.edu . For information regarding the GFDIS-course, contact its instructors.) (2 quarter hours)
EA 544 | BUILDING GAMES FOR LEARNING GFDIS | 4 quarter hours
(Graduate)
This course functions as a Graduate Faculty-Directed Independent Study/GFDIS. (See MAEA Guidebook for general GFDIS details.) Technology advances make it possible to enhance social learning (interpersonal) in cost-efficient ways by creating simulations and other forms of virtual delivery. This course focuses on ways to apply game concepts and game techniques, supported by foundational theories, that can be applied in various settings, e.g., corporate, higher education, community-based. Using simulation software (Articulate Storyline provided by the instructor), students will produce interactive serious games for virtual delivery for their targeted audience. Students are expected to be proficient in use of Microsoft Work and Power Point and have a computer with Internet access.

EA 545 | PARTNERING FOR SOCIAL ACTION GFDIS | 4 quarter hours
(Graduate)
This course functions as a Graduate-Faculty-Directed Independent Study/GFDIS. (See MAEA Guidebook for general GFDIS details.) This course provides opportunities for students to engage in community settings throughout Chicago. Students will learn how to: observe social agency in action; build relationships across class, race and other barriers to mutual understanding; and, actively participate in service opportunities with organizations addressing social justice concerns. In addition to hands-on engagement in the field, students will explore theories and principles related to community empowerment work in community settings. Students must contact the instructor prior to registering for this GFDIS to obtain information about available community settings/projects and time/schedule/location expectations. Onsite community project work and meeting schedule (max five) will be determined based on the selected project work.

EA 546 | EDUCATING FOR SOCIAL JUSTICE GFDIS | 4 quarter hours
(Graduate)
This course functions as a Graduate-Faculty-Directed Independent Study/GFDIS. (See MAEA Guidebook for general GFDIS details.) Students critically examine and apply diverse ways of defining, analyzing and engaging in social justice education, as both educators and learners. Key dimensions of social justice approaches to education of adults (culture, ethics and politics; facilitation; curriculum development; and, educator as change-agent) will be addressed. In addition to critical reflection on assigned readings, students will observe social justice education in a community context (arranged by the instructor) and will apply social justice principles to an educational offering in their own practice sites.

EA 547 | DESIGNING ONLINE LEARNING GFDIS | 4 quarter hours
(Graduate)
This course functions as a Graduate Faculty-Directed Independent Study/GFDIS. (See MAEA Guidebook for general GFDIS details.) Course addresses the process of designing effective, learner-centered online offerings such as webinars, workshops, or modules for use in formal education or training settings. Using adult learning principles, best practices, and backward planning, learning outcomes, content, and assessments are developed and delivered in a virtual environment. Formal and informal learning communities are explored using social media for learner engagement and interaction. The instructor incorporates interactive lectures and group discussions. Assessment criteria and rubrics guide feedback for ongoing learning as well as for final evaluation of performance. Students will have an opportunity to design an offering specifically applicable to their needs and interests with regard to helping adults learn.

Education - General (EDU)

EDU 25 | BASIC TECHNOLOGY LITERACY | 0 quarter hour
(Undergraduate)
This online course provides students with a knowledge about assembling, using, and troubleshooting basic technology hardware and software. In this course, students demonstrate understanding of basic computer setup and the use of peripheral devices such as printers, speakers, flash drives, scanners, digital cameras, videos, and computer software. (0 credit hours)

EDU 95 | CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH | 0 quarter hour
(Undergraduate)
Required of all students. Observations and participatory experience with children and youth in a school or agency. This course is a prerequisite for student teaching and related professional courses. (0 credit hours)

EDU 100 | INTEGRATIVE KNOWLEDGE E-PORTFOLIO | 0 quarter hour
(Undergraduate)
This course provides an introduction to the Digication e-portfolio platform and the development of integrative knowledge e-portfolios. Prerequisite: Permission of instructor. (0 credit hours)

EDU 115 | CRITICAL THINKING AND LEARNING STRATEGIES | 2 quarter hours
(Undergraduate)
This 2 quarter hour course is designed to develop a learning community for transfer students and/or students who desire to advance academic skills and knowledge through professional writing, metacognitive study strategies, critical thinking and reading, and research and technology. (2 credit hours)

EDU 125 | THE SCIENCE OF HUMAN COGNITION | 4 quarter hours
(Undergraduate)
In this course we will consider traditional and modern practices for measuring human cognition. We will read, think, and talk about these practices from a variety of social and cultural contexts. We will consider the application and value of cognitive neuroscience to the future of this field of study. We will also venture into how, over time, research into human cognition and how people learn has impacted schooling, teaching practices, and political agendas.

EDU 499 | LANGUAGE AND LITERACY PRACTICES ACROSS THE ACADEMY | 0 quarter hour
(Undergraduate)
This course addresses issues related to the use of English in the Academy, particularly (1) in classrooms where English is not the native language of the instructor or students but is the language of instruction and/or (2) in scholarship written in English by non-native speakers of English. Topics include but are not limited to academic writing, curriculum development, classroom pedagogy, content pedagogical knowledge, globalization and international education, 21st century technologies, and English as a medium of instruction. Registration with permission of instructor only. (0 credit hours)
Elementary Education (EE)

EE 281 | INTRODUCTION TO EDUCATIONAL PRACTICE | 4 quarter hours (Undergraduate)
This is the first in a sequence of theory and practice courses that serves to familiarize teaching candidates with the world of elementary. Through observation and participation in schools, self-reflection, independently created assignments, cooperative learning assignments and classroom discussion, candidates will acquire familiarity with schools and classrooms including: social/cultural context, classroom climate, classroom management, curricular coherence, standards-based instruction, and teacher professional beliefs and practices. Written critical reflections and papers serve as initial foundation for the development of teaching philosophies. Required field experiences are integrated into this course.

EE 317 | PHYSICAL EDUCATION AND CLASSROOM MANAGEMENT IN THE ELEMENTARY SCHOOL | 4 quarter hours (Undergraduate)
The course is designed to promote an understanding of the contribution that Physical Education makes to the elementary school curriculum and the development of the whole child. Lesson planning, instructional delivery, and classroom management will be focused as students engage in 15-20 hours of supervised field experience teaching whole classes of children in local schools.

EE 281 and an Education major or minor are prerequisites for this class.

EE 324 | READING/LANGUAGE ARTS IN THE EARLY YEARS | 4 quarter hours (Undergraduate)
This course focuses on the curriculum content and sequence, instructional and assessment strategies as well as considerations integral to the creation of authentic, effective emergent literacy environments and engagements for kindergarten through third grade. Theory and practice principles are woven into course assignments and required field experiences designed to observe, teach, and reflect upon instructional decisions made for individual as well as groups of children. Prevailing curricular and instructional models (e.g., code-based, meaning-oriented, balanced) and their histories are compared and contrasted. The influences of development, home language(s) and dialect(s) (especially those of U.S. metropolitan areas), and educational settings are studied and applied to candidate instructional planning and teaching. Case studies and lesson planning facilitate the application of course content. (EE 281 or ECE 290) and an Education major or minor are prerequisites for this class.

EE 325 | READING/LANGUAGE ARTS IN THE INTERMEDIATE GRADES | 4 quarter hours (Undergraduate)
This course extends Emerging Reading and Language Arts to facilitate increased independence in students as strategic readers and competent writers. It focuses on the further development of reading comprehension and writing abilities in the intermediate grades. Emphasis is placed on the complex nature of literacy addressing issues such as content-area literacies, learning in and across languages, and critically consuming and producing a wide variety of texts (including online, multimedia and print based). Application of course material is facilitated through the design, teaching, and reflection on literacy lesson(s) for intermediate learners in required field experiences. EE 281, EE 324, and an Education major or minor are prerequisites for this class.

EE 330 | URBAN EDUCATION RESIDENCY | 4 quarter hours (Undergraduate)
The Urban Education Residency is designed to enhance students’ knowledge and experiences working in urban school settings. Working along professional urban educators, preservice elementary candidates will gain first-hand experience in best pedagogical practices that make teaching and learning culturally relevant in diverse urban elementary classrooms and support students’ academic success. Students will build a repertoire of strategies that will enable them to become reflective and effective urban professional educators. An education major or minor is a prerequisite for this class.

EE 333 | TEACHING AND LEARNING ELEMENTARY SCHOOL MATHEMATICS | 4 quarter hours (Undergraduate)
This course is an introduction to materials, processes for developing, and strategies for mathematical literacy in grades 1-6. Particular attention will be given to the theoretical views about how children learn mathematics, the proper use of manipulative materials, the development of mathematical thinking, e.g., skills in estimation, pattern recognition, or spatial perception; the use of technology, and ways to assess student progress. Daytime clinical hours are required. Note: MAT 111 may be taken as a prerequisite OR it may be taken concurrently with EE 333. MAT 110, EE 281, and an Education major or minor are prerequisites for this class.

EE 334 | ELEMENTARY SCIENCE INQUIRY TEACHING STRATEGIES | 4 quarter hours (Undergraduate)
This course is an introduction to instructional strategies for helping students in grades 1-6 become science literate: i.e., to understand the nature of science and its impact on the world. Particular attention will be given to theoretical views about how children learn science and develop scientific process skills, e.g., skills in observing, classifying, collecting and interpreting data and questioning strategies, and ways to assess student progress. Daytime clinical hours are required.

EE 281 and an Education major or minor are prerequisites for this class.

EE 344 | ART AND MUSIC IN THE ELEMENTARY SCHOOL | 4 quarter hours (Undergraduate)
This course focuses on the arts (visual art, music, drama and dance) as an integral component of teaching and learning in the elementary school curriculum. Students will explore a variety of art forms and disciplines to develop a critical aesthetic and artistic vocabulary. Students learn to help children utilize artistic media in the exploration and expression of thoughts and feelings. Emphasis is placed on design, construction, and implementation, and assessment of authentic conceptual classroom arts activities that integrate the arts with other classroom curricula. Daytime clinical hours (10) are required during this course.

EE 281 and an Education major or minor are prerequisites for this class.

EE 347 | CHILDREN'S LITERATURE | 4 quarter hours (Undergraduate)
This course familiarizes students with quality children’s literature for infancy through young adulthood. Students will select, discuss, critique, and share books appropriate for this age span, focusing primarily on ages 1-6 years. The influences of child development, culture, technology, and education stakeholders (i.e., parents, students, teachers, administrators, and their community) on literature selection are emphasized. Students will develop skills in evaluating books, responding to books, and using literature across the curriculum.
EE 355 | METHODS: CONTEMPORARY TEACHING OF SOCIAL STUDIES | 4 quarter hours
(Undergraduate)
This course is an introduction to an integrated view of social studies for engaged citizenship. Through the study of strategies such as concept formation, historical inquiry, and role-play, and materials, such as primary sources, teacher candidates will apply principles of curricular integration to create curriculum/units that engage elementary learners in the exploration of issues, ideas, and perspectives that impact our world. Daytime clinical hours are required.

EE 281 and an Education major or minor are prerequisites for this class.

EE 356 | ASSESSMENT IN THE ELEMENTARY CLASSROOMS | 4 quarter hours
(Undergraduate)
This course focuses on study, use, and evaluation of assessment practices in diverse, elementary school contexts. Assessment is addressed as part of instructional systems, attending to issues including: the appropriate use of standardized measures, formal and informal classroom assessment, portfolio development, as well as reporting to all stakeholders. This course also emphasizes ways of involving students and parents in assessment processes, how to observe and assess children individually and in classroom settings, and the use of numerous technologies as components of a classroom assessment system.

EE 281, SCU 337, and (EE 324, EE 333, EE 334, or EE 355) and an Education major or minor are prerequisites for this class.

EE 384 | CAPSTONE IN ELEMENTARY EDUCATION | 4 quarter hours
(Undergraduate)
The senior capstone course is designed to help students integrate the central emphases of their liberal learning studies curriculum into their professional behavior. It will provide prospective elementary educators with opportunities to engage in activities requiring them to be reflective, to consider value commitments, to engage in critical and creative thinking, and to examine their practice from a multicultural perspective as they discuss issues specific to elementary education. The course is grounded in the College of Education's framework for an Urban Professional Multicultural Educator, which also reflects the goals of the Liberal Studies Program. COREQUISITE(S): EE 385.

EE 385 | ELEMENTARY STUDENT TEACHING | 10 quarter hours
(Undergraduate)
Five school days a week supervised teaching in a cooperating school for a full academic quarter. Feedback and discussion of problems encountered in student teaching as well as new materials and techniques of student teaching. Application and approval required. Open only to DePaul students. (10 credit hours)

EE 387 | CAPSTONE SEMINAR IN ELEMENTARY EDUCATION | 2 quarter hours
(Undergraduate)
The senior capstone course is designed to help students integrate the central emphases of their liberal learning studies curriculum into their professional behavior. It will provide prospective elementary educators with opportunities to engage in activities requiring them to be reflective, to consider value commitments, to engage in critical and creative thinking, and to examine their practice from a multicultural perspective as they discuss issues specific to elementary education. The course is grounded in the College of Education's framework for an Urban Professional Multicultural Educator, which also reflects the goals of the Liberal Studies Program. COREQUISITE(S): EE 385.

EE 389 | INDEPENDENT STUDY IN ELEMENTARY EDUCATION | 1-4 quarter hours
(Undergraduate)
Permission of program chair required. (1 credit hour)

English (ENG)

ENG 101 | INTRODUCTION TO LITERATURE | 4 quarter hours
(Undergraduate)
This course introduces students to the art of literary analysis. Through reading novels, stories, plays, and poems, students will develop the skills needed to gain a deeper appreciation of literature. Students will learn about the choices authors make to convey meaning, and will practice reading closely and deeply in order to understand the nuances of literary language. Each section of this course will focus on a specific theme (e.g. "Heroes and Villains," "Passion and Betrayal," "Coming of Age," etc.), and different sections will focus on different literary genres; please see the schedule for current offerings. This course is not repeatable.

ENG 102 | INTRODUCTION TO POETRY | 4 quarter hours
(Undergraduate)
This course provides an introduction to poetry through the study of meter, rhyme, figurative language, form, and genre. Students will learn how to understand and appreciate poetry from a wide variety of periods and traditions. Students will leave the course with a greater appreciation for the beauty of language and with the interpretive skills needed to make reading any poem a rewarding experience.

ENG 103 | INTRODUCTION TO DRAMA | 4 quarter hours
(Undergraduate)
One of the most ancient art forms, drama combines the art of storytelling with the excitement of live performance. Students will learn about dramatic structure and technique as they explore major themes in a selection of dramatic works from antiquity to the present. In addition to studying plays within their various historical and cultural contexts, students will consider the performance possibilities inherent in dramatic texts. Authors may include Sophocles, Shakespeare, Moliere, Henrik Ibsen, Arthur Miller, Samuel Beckett, Lorraine Hansberry, August Wilson, Caryl Churchill.

ENG 110 | LITERARY CLASSICS | 4 quarter hours
(Undergraduate)
This course focuses on great works of literature that are widely considered to be classics. Works studied might range from Greek drama up through modern American novels, by authors such as Shakespeare, Dante, Austen, Tolstoy, Goethe, Bronte, Dostoevsky, Hemingway, Yeats, Virginia Woolf, or Toni Morrison. Variable emphasis on different authors, texts, themes, and historical periods. See schedule for current offerings. This course is not repeatable.

ENG 120 | READING LITERATURE | 4 quarter hours
(Undergraduate)
Study of the elements and construction of literary texts, of the vocabulary of literary criticism, and of various literary modes and genres.

ENG 130 | THEMES IN LITERATURE | 4 quarter hours
(Undergraduate)
Introduction to the study of literature through selected literary texts focused on a particular theme. Variable topics. May not be repeated.
ENG 197 | CLOSE ENCOUNTERS WITH LITERATURE | 2 quarter hours
(Undergraduate)
This course provides a focused, in-depth exploration of a single literary text, theme, author, or topic. For example, one section of the course might focus just on Jane Austen's Pride and Prejudice and its adaptations, while another section might explore Shakespeare's sonnets or stories by Jhumpa Lahiri. Please see the schedule for current offerings. This course can be repeated with different topics. Two quarter hours credit.

ENG 198 | CREATIVE WRITING CLOSE UP | 2 quarter hours
(Undergraduate)
This course is a focused creative writing workshop that concentrates on a specific skill, genre, or topic. For instance, one section of the course might focus on writing dialogue, while another section might teach students to write flash fiction. Please see the schedule for current offerings. This course can be repeated with different topics. Two quarter hours credit. Applicable to the English major only with department permission.

ENG 201 | INTRODUCTION TO CREATIVE WRITING | 4 quarter hours
(Undergraduate)
This course provides an introduction to the art of writing poetry, short stories, and creative nonfiction. Students will study the work of published authors in order to learn about craft elements, techniques, language usage, and literary forms before composing and revising original poems, stories, and essays of their own.

ENG 205 | LITERATURE TO 1700 | 4 quarter hours
(Undergraduate)
This course will provide a general overview of literature written primarily in English up to 1700, with a focus on medieval and Renaissance literature. The course will focus on major literary movements and developments, and will situate important literary texts in their historical contexts. Topics might include generic emulation and adaptation, literary nationalism, the relationship between oral and written culture and popular and elite literature, the emergence of popular theater, the development of English as a language suitable for literary composition, gender and sexuality, and the historical importance accorded to same sex friendship. Authors studied might include Virgil, Geoffrey Chaucer, Margery Kempe, Sir Thomas Malory, Christopher Marlowe, William Shakespeare, Sir Philip Sidney, John Donne, George Herbert, Margaret Cavendish, and John Milton, as well as anonymous epics and morality plays, such as Beowulf and Everyman.

ENG 206 | LITERATURE FROM 1700 TO 1900 | 4 quarter hours
(Undergraduate)
This course will provide a general overview of literature written primarily in English between 1700 and 1900. The course will focus on major literary movements and developments, and will situate important literary texts in their historical contexts. Topics might include the rise of the novel; 18th-century satire; Gothic literature; Romanticism; Transcendentalism; literary responses to the American Revolution, the American Civil War, the Industrial Revolution, and the expansion of the British empire; slavery and abolition; women, domesticity, and early feminism; the Victorian novel; and the Fin de Siecle. Authors studied might include Daniel Defoe, Jonathan Swift, Benjamin Franklin, Jane Austen, Mary Shelley, John Keats, Frederick Douglass, Ralph Waldo Emerson, Nathaniel Hawthorne, Emily Dickinson, Mark Twain, Walt Whitman, Charlotte and Emily Bronte, Charles Dickens, and Oscar Wilde.

ENG 207 | LITERATURE FROM 1900 TO THE PRESENT | 4 quarter hours
(Undergraduate)
This course will provide a general overview of literature written primarily in English between 1900 and the present. The course will focus on major literary movements and developments, and will situate important literary texts in their historical contexts. Topics might include modernism and postmodernism; divisions between mass and high culture; literary responses to the World Wars, the feminist and civil rights movements, and immigration; and post-colonial literatures. Authors studied might include W. B. Yeats, T. S. Eliot, James Joyce, Virginia Woolf, Ernest Hemingway, Ralph Ellison, William Faulkner, Jean Rhys, Samuel Beckett, Tennessee Williams, Toni Morrison, Salman Rushdie, Derek Walcott, Wole Soyinka, and Zadie Smith.

ENG 209 | TOPICS IN WRITING | 4 quarter hours
(Undergraduate)
Variable emphasis. (See schedule for current offerings.) This course is repeatable with different topics.

ENG 211 | GRAMMAR AND STYLE | 4 quarter hours
(Undergraduate)
An introduction to the art of the interview and the craft of writing nonfiction profiles. Participants will also gain basic skills in reading and responding to other students' stories in a workshop setting. This course is not repeatable.

ENG 216 | CREATING CHARACTERS | 4 quarter hours
(Undergraduate)
This cross-genre course–open to students interested in fiction, journalism, screenwriting, playwriting, animation, and game design–will introduce students to the tools writers use for creating fictional characters and real people come alive on the page. In addition to studying the ways in which detail, setting, point of view and dialogue affect character, students will learn the art of the interview and the craft of writing nonfiction. Students will also gain basic skills in reading and responding to other students’ stories in a workshop setting. This course is not repeatable.

ENG 218 | READING AND WRITING FICTION | 4 quarter hours
(Undergraduate)
An introduction to the art of fiction through analysis and criticism of fiction by established writers and through writing and revising the student's own stories.

ENG 219 | READING AND WRITING POETRY | 4 quarter hours
(Undergraduate)
An introduction to the art of poetry through analysis and criticism of poems by established poets and through writing and revising the student's own poems.

ENG 221 | READING PROSE | 4 quarter hours
(Undergraduate)
An introduction to close analytical reading of the fundamental prose genres that students will encounter in the English major, including short stories, novels, literary nonfiction, and criticism.
ENG 222 | INTRODUCTION TO LINGUISTICS | 4 quarter hours
(Undergraduate)
The focus of this course is on linguistics as the study of how language works in the minds and brains of its speakers, taking an approach that focuses on the mental representation of language. We develop a theory of language knowledge that includes knowledge of sound systems, sentence structure, and meaning, and along the way we investigate data from diverse languages to illustrate how linguists think and reason. We also draw connections between linguistic knowledge and other types of cognition, as well as connections between linguistics and related fields, including philosophy, psychology, and neuroscience.

ENG 225 | THE HISTORY OF BOOKS | 4 quarter hours
(Undergraduate)
This course is an introduction to the study of the book as an object and as a technology. It investigates the production of texts from handwritten manuscripts to modern digital media, with a particular focus on the influence of the printing press between the late Middle Ages and the early nineteenth century. We will explore the development and rise of what is now known as print culture, as well as related histories of authorship, reading, and publishing. Classes incorporate hands-on work with rare books and primary sources in DePaul’s Special Collections alongside a range of digital tools. The final project will include a public outreach component that shares the history you have recovered with the community.

ENG 228 | INTRODUCING SHAKESPEARE | 4 quarter hours
(Undergraduate)
Introduction to the basic structures and conventions of representative plays by William Shakespeare, emphasizing film and stage interpretations. May not be taken by students who have completed ENG 328.

ENG 231 | GOTHIC MONSTERS AND VILLAINS | 4 quarter hours
(Undergraduate)
This course provides an introduction to Gothic narratives. Students will learn about the different ways authors use monsters, villains, and spooky settings to comment on social anxieties related to gender, sexuality, race, politics, technology, etc. Texts might include classics such as Frankenstein, The Strange Case of Dr. Jekyll and Mr. Hyde, and Dracula, as well as lesser known works drawn from the eighteenth century to the present. Variable emphasis. (See schedule for current offerings.) This course is not repeatable.

ENG 232 | THE ROMANCE | 4 quarter hours
(Undergraduate)
Introduction to the genre of the romance. Emphasis on characteristics of the genre in particular historical moments. Variable emphasis on particular historical periods or topics. (See schedule for current offerings.) This course is not repeatable.

ENG 235 | SCIENCE FICTION | 4 quarter hours
(Undergraduate)
Introduction to science fiction as a literary genre. Variable topics, such as the history of the genre, multi-media adaptations, cyberpunk, and global variants. This course is not repeatable.

ENG 236 | GRAPHIC NOVELS AND SOCIAL JUSTICE | 4 quarter hours
(Undergraduate)
This course will consider graphic novels and comics as literary, visual, and social art. The course will focus on graphic novels and comics that engage issues of social justice such as the Holocaust, the Civil Rights Movement, and the U.S. prison system. Discussion topics might include how comics and graphic novels use unique storytelling tools to convey big issues in powerful ways; how comics and graphic novels get readers to think differently about the role of art in violence, suffering, social struggle, objectification, voice, and self-expression; and how graphic novels help readers to imagine and reimagine history, create social change, and envision new futures. Throughout the course, students will consider how graphic novels work effectively both as narratives and as visual art.

ENG 237 | HARRY POTTER | 4 quarter hours
(Undergraduate)
This course provides a scholarly introduction to the Harry Potter series. Students will analyze the series through the lens of Joseph Campbell’s theory of the hero’s journey, and will contextualize Rowling’s work through comparisons to Arthurian legend and other British novels. The course will also consider the ways in which the series acts as a commentary on social, cultural, and political issues. Texts will include the entire Harry Potter series as well as essays from literary scholars, historians, and political scientists. This course is not repeatable.

ENG 245 | THE BRITISH NOVEL | 4 quarter hours
(Undergraduate)
Studies in the British novel. Variable emphasis on particular historical periods or topics from 1700 to present.

ENG 250 | GREAT WRITERS | 4 quarter hours
(Undergraduate)
Introduction to the works of one or more writers of classic or influential literary texts. Authors vary; please see schedule for current offerings. This course is not repeatable.

ENG 256 | THE AMERICAN NOVEL | 4 quarter hours
(Undergraduate)
Studies in the American novel. Variable emphasis on the historical development, regional expression, multicultural scope, ethical engagement, and/or recurring thematic concerns of the genre.

ENG 268 | LITERATURE ACROSS CULTURES | 4 quarter hours
(Undergraduate)
Readings in literature by writers from various ethnic backgrounds. Works may be by American minority authors or by authors writing in English from outside Britain and the U.S. This course takes a comparative approach to studying concepts of ethnicity and identity in literature drawn from several ethnic traditions. Variable emphasis on different groups, genres, themes, or historical periods. See schedule for current offerings. This course is not repeatable.

ENG 271 | AFRICAN AMERICAN LITERATURE | 4 quarter hours
(Undergraduate)
Introduction to works of poetry, fiction, nonfiction, and/or drama by African-American authors.

ENG 272 | LITERATURE AND IDENTITY | 4 quarter hours
(Undergraduate)
Studies in the literary expression and representation of identity. Variable emphasis on different groups, genres, themes, or historical periods. (See schedule for current offerings.) This course is not repeatable.
ENG 273 | GLOBAL ASIAN LITERATURE | 4 quarter hours
(Undergraduate)
Introduction to selected authors, genres, and topics in Asian American or Asian diasporic literature from the mid-nineteenth century to the present. Variable emphasis on different groups, genres, or historical periods.

ENG 275 | LITERATURE AND FILM | 4 quarter hours
(Undergraduate)
Introduction to the comparative study of literature and film. Emphasis on construction of narrative, development of character, point-of-view, and adaptation across genres and mediums. (See schedule for current offerings.) This course is not repeatable.

ENG 276 | LATINX LITERATURE | 4 quarter hours
(Undergraduate)
Introduction to works of poetry, fiction, nonfiction, and/or drama by Latinx authors.

ENG 279 | STUDIES IN LITERATURE | 4 quarter hours
(Undergraduate)
Variable emphasis. (See schedule for current offerings.) This course is repeatable with different topics.

ENG 280 | THE EPIC | 4 quarter hours
(Undergraduate)
Introduction to the appreciation and analysis of epic as a cultural form, with attention to the genre in both its oral and written forms. Special consideration will be given to issues of gender, sexuality, and politics. Texts discussed will span a range of cultures and historical periods. Readings will vary but may include translations of Homer and Virgil, as well as epics by Milton, Margaret Atwood and Derek Walcott. This course is not repeatable.

ENG 283 | GENDER IN LITERATURE | 4 quarter hours
(Undergraduate)
Studies in representations of gender in literature. Variable emphasis on different groups, genres, themes, or historical periods. See schedule for current offerings. This course is not repeatable.

ENG 284 | THE BIBLE AS LITERATURE | 4 quarter hours
(Undergraduate)
Introduction to the major stories, genres (e.g., poems, parables, prophecies) and intra-textual echoes of the Bible.

ENG 285 | LGBTQ LITERATURE | 4 quarter hours
(Undergraduate)
Studies in representations of queer identities, sexualities, and communities by LGBTQ authors. Variable emphasis on different groups, genres, themes, or historical periods. See schedule for current offerings. This course is not repeatable.

ENG 286 | TOPICS IN POPULAR LITERATURE | 4 quarter hours
(Undergraduate)
Studies in the forms and functions of popular fiction. Variable emphasis. (See schedule for current offerings.) This course is not repeatable.

ENG 288 | AUTOBIOGRAPHY AND BIOGRAPHY | 4 quarter hours
(Undergraduate)
Introduction to the forms, functions, problems and purposes of life-writing.

ENG 290 | THE CRAFT OF CREATIVE NONFICTION WRITING | 4 quarter hours
(Undergraduate)
Writing and analyzing creative nonfiction. May be taken twice. May not be taken pass/fail.

ENG 291 | THE CRAFT OF FICTION WRITING | 4 quarter hours
(Undergraduate)
Writing and analyzing short prose fiction. May be taken twice. May not be taken pass/fail.

ENG 292 | THE CRAFT OF POETRY WRITING | 4 quarter hours
(Undergraduate)
Writing and analyzing poems. May be taken twice. May not be taken pass/fail.

ENG 293 | THE CRAFT OF CREATIVE NONFICTION WRITING | 4 quarter hours
(Undergraduate)
Writing and analyzing creative nonfiction. May be taken twice. May not be taken pass/fail.

ENG 294 | THE CRAFT OF FICTION WRITING | 4 quarter hours
(Undergraduate)
Writing and analyzing short prose fiction. May be taken twice. May not be taken pass/fail.

ENG 295 | THE CRAFT OF POETRY WRITING | 4 quarter hours
(Undergraduate)
Writing and analyzing poems. May be taken twice. May not be taken pass/fail.

ENG 299 | CAREERS FOR ENGLISH MAJORS | 2 quarter hours
(Undergraduate)
An introduction to the many careers available to English majors. The course will use literary and contemporary work-related readings along with guest speakers to help students explore their options and develop a unique career path. Two credit hours. Applicable to the English major only with department permission.

ENG 300 | COMPOSITION AND STYLE | 4 quarter hours
(Undergraduate)
Advanced instruction in invention, arrangement, and style, toward developing clear and effective prose styles.

ENG 303 | MAGAZINE WRITING | 4 quarter hours
(Undergraduate)
In this writing workshop, students will explore the many varied forms of magazine writing. Students will analyze past and contemporary classics, generate ideas, and learn how to research and write in different genres that may include press releases, features, and creative articles. The course may also feature visits from guest professionals and alumni in the field.

ENG 304 | TRAVEL WRITING | 4 quarter hours
(Undergraduate)
This writing workshop provides an introduction to the exciting, fast-growing field of writing about nature and science. We will define science in its broadest sense, and no prior science background is necessary. Students will read essays about the natural world and learn how to write in different genres that might include press releases, articles, and memoirs.

ENG 305 | LITERARY MAGAZINES | 4 quarter hours
(Undergraduate)
This course examines the literary magazine—exploring the missions, personalities, processes, histories, and aesthetics of print and/or online journals and little magazines publishing work by poets and creative prose writers. Variable emphasis. (See schedule for current offerings.) ENG 201 or instructor permission is a prerequisite for this class.
ENG 306 | ADVANCED CREATIVE NONFICTION WRITING | 4 quarter hours
(Undergraduate)
Writing and analyzing creative nonfiction, for students with prior
workshop experience. May be taken twice. May not be taken pass/fail.
ENG 201 is a prerequisite for this class.

ENG 307 | ADVANCED FICTION WRITING | 4 quarter hours
(Undergraduate)
Writing and analyzing short prose fiction, for students with prior
workshop experience. May be taken twice. May not be taken pass/fail.
ENG 201 is a prerequisite for this class.

ENG 308 | ADVANCED POETRY WRITING | 4 quarter hours
(Undergraduate)
Writing and analyzing poems, for students with prior workshop
experience. May be taken twice. May not be taken pass/fail.
ENG 201 is a prerequisite for this class.

ENG 309 | ADVANCED TOPICS IN WRITING | 4 quarter hours
(Undergraduate)
Variable emphasis. (See schedule for current offerings.) This course is
repeatable with different topics.
ENG 201 is a prerequisite for this class.

ENG 312 | HISTORICAL FICTION | 4 quarter hours
(Undergraduate)
In this combination seminar and writing workshop, students will read
and write fiction that highlights the intersection of history and fiction,
memory and imagination, fact and invention. Authors studied might
include Alice Munro, Toni Morrison, Edward P. Jones, A.S. Byatt, or Colson
Whitehead. Students will consider how each author retrieves, recreates,and then reinvents a past that inevitably weaves itself into the present.
Keeping in mind the demands of historical fiction in terms of setting and
characterization, this course will explore the elements that define strong
fiction writing across genres (point of view, plot, theme, and metaphor, to
name a few), and students will learn how to incorporate these elements
into their own writing as they create new, original historical-fiction stories.
ENG 201 is a prerequisite for this class.

ENG 313 | SPECULATIVE FICTION | 4 quarter hours
(Undergraduate)
In this writing workshop, students will read and write works of speculative
fiction that ask what the world would be or could be under different
circumstances. Students will study the narrative design of successful
works of speculative fiction (including sub-genres such as magic realism,
alternative history, post-apocalyptic, horror, dystopia, science fiction, and
heroic fantasy), dissecting these works in an attempt to understand what
defines the genre. This course will explore the elements that define strong
fiction writing across genres (point of view, plot, theme, and metaphor, to
take a few), and students will learn how to incorporate these elements
into their own writing as they create their own original speculative fiction
stories.
ENG 201 is a prerequisite for this class.

ENG 314 | SETTING IN FICTION | 4 quarter hours
(Undergraduate)
This writing workshop will focus on the role of place and time in fiction,
examining the ways in which they give rise to character and interact with
other story elements. The course will place a heavy emphasis on reading
in addition to helping students develop their own works of fiction.
ENG 201 is a prerequisite for this class.

ENG 317 | THE ART OF DESCRIPTION | 4 quarter hours
(Undergraduate)
In this writing workshop, students will learn to write vivid and striking
poetry and short but effective prose/fiction. Students will learn the art of
description by writing scenes and vignettes?brief narratives and sketches
characterized by great precision, economy of language, and accuracy
of composition. A vignette?a short impressionistic scene that focuses
on one moment or a fleeting slice of life?is composed like a photograph
or painting to give a trenchant impression about a character, an idea, a
setting, or an object. The writing of vignettes requires utmost attention to
detail, and requires a presence of mind and powers of keen observation
that are important in any kind of creative writing. This course?s goal is to
help students write with clarity, power, and directness.
ENG 201 is a prerequisite for this class.

ENG 321 | ENGLISH LITERATURE TO 1500 | 4 quarter hours
(Undergraduate)
Survey of English literature from the beginnings to 1500.
(ENG 220 and ENG 221) or (ENG 205 and ENG 101 or HON 101) or
(THE 204, THE 205 and THE 206) are prerequisites for this class.

ENG 322 | CHAUCER | 4 quarter hours
(Undergraduate)
Study of selected poetry and prose by Geoffrey Chaucer.
ENG 220 or (ENG 205 and ENG 101 or HON 101) is a prerequisite for this
class.

ENG 323 | TOPICS IN MEDIEVAL LITERATURE | 4 quarter hours
(Undergraduate)
Survey of English literature from 1500 to 1660.
(ENG 220 and ENG 221) or (ENG 205 and ENG 101 or HON 101) or
(THE 204, THE 205 and THE 206) are prerequisites for this class.

ENG 327 | MILTON | 4 quarter hours
(Undergraduate)
Study of selected poetry and prose by John Milton.
ENG 220 or (ENG 101 or HON 101) is a prerequisite for this class.

ENG 328 | STUDIES IN SHAKESPEARE | 4 quarter hours
(Undergraduate)
Study of selected plays and poetry of William Shakespeare in relation
to early modern English culture. Variable emphasis. (See schedule for
current offerings.) This course is repeatable with different topics.
ENG 220 or ENG 101 or HON 101 or (THE 204 and THE 205 and THE 206)
is a prerequisite for this class.

ENG 329 | TOPICS IN RENAISSANCE LITERATURE | 4 quarter hours
(Undergraduate)
Survey of British literature from 1660 to 1780.
(ENG 220 and ENG 221) or (ENG 205 and ENG 101 or HON 101) or
(THE 204, THE 205 and THE 206) are prerequisites for this class.
ENG 332 | MAJOR AUTHORS BEFORE 1800 | 4 quarter hours
(Undergraduate)
Study of one or two major authors whose works were published before 1800. This course is repeatable with different authors. (See schedule for current offerings.)

ENG 335 | TOPICS IN EARLY AMERICAN LITERATURE | 4 quarter hours
(Undergraduate)
Selected authors, genres and topics in American literature written before 1800. This course is repeatable with different topics. (ENG 220 and ENG 221) or (ENG 206 and ENG 101 or HON 101) are prerequisites for this class.

ENG 339 | TOPICS IN RESTORATION AND 18TH CENTURY BRITISH LITERATURE | 4 quarter hours
(Undergraduate)
Selected authors, genres and topics in British literature, 1660-1780. This course is repeatable with different topics. (ENG 220 and ENG 221) or (ENG 206 and ENG 101 or HON 101) or (THE 204, THE 205 and THE 206) are prerequisites for this class.

ENG 340 | 19TH-CENTURY BRITISH LITERATURE | 4 quarter hours
(Undergraduate)
Survey of British literature from 1870 to 1900. (ENG 220 and ENG 221) or (ENG 206 and ENG 101 or HON 101) or (THE 204, THE 205 and THE 206) are prerequisites for this class.

ENG 342 | MAJOR AUTHORS 1800-1900 | 4 quarter hours
(Undergraduate)
Study of one or two major authors whose works were published between 1800 and 1900. This course is repeatable with different authors. (See schedule for current offerings.)

ENG 343 | LITERATURE OF THE ROMANTIC ERA | 4 quarter hours
(Undergraduate)
Study of literature written primarily between 1780 and 1840. Topics will vary and may include English Romantic Poetry, Literature of the French Revolution, Transatlantic Romanticism, American Romanticism, Regency Fiction, or author-oriented studies of works by writers such as Percy Bysshe Shelley, Lord Byron, John Keats, Jane Austen, and Mary Shelley. See schedule for current offerings. This course is repeatable with different topics.

ENG 349 | TOPICS IN 19TH-CENTURY BRITISH LITERATURE | 4 quarter hours
(Undergraduate)
Selected authors, genres and topics in 19th-century literature. This course is repeatable with different topics. (ENG 220 and ENG 221) or (ENG 206 and ENG 101 or HON 101) are prerequisites for this class.

ENG 346 | 19TH-CENTURY IRISH LITERATURE | 4 quarter hours
(Undergraduate)
This course focuses on some of the important works of nineteenth-century Irish literature. It sees them as engaging with the often traumatic political and social changes of their time.

ENG 348 | TOPICS IN 19TH-CENTURY LITERATURE | 4 quarter hours
(Undergraduate)
Selected authors, genres, and topics in 19th-century literature. This course is repeatable with different topics.

ENG 101 (or HON 101) and ENG 206 are prerequisites for this class.

ENG 349 | TOPICS IN 19TH-CENTURY BRITISH LITERATURE | 4 quarter hours
(Undergraduate)
Survey of British literature in the twentieth century. (ENG 220 and ENG 221) or (ENG 207 and ENG 101 or HON 101) or (THE 204, THE 205 and THE 206) are prerequisites for this class.

ENG 350 | MODERN BRITISH LITERATURE | 4 quarter hours
(Undergraduate)
Study of literature written primarily between 1780 and 1900. This course is-repeatable with different topics. (ENG 220 and ENG 221) or (ENG 206 and ENG 101 or HON 101) or (THE 204, THE 205 and THE 206) are prerequisites for this class.

ENG 352 | GLOBAL ENGLISH LITERATURE | 4 quarter hours
(Undergraduate)
Study of literature written in English from outside Britain, Ireland, and the U.S. Variable emphasis on different authors, national traditions, ethnic backgrounds, or historical periods. (See schedule for current offerings.) This course is repeatable with different topics.

ENG 353 | TOPICS IN GLOBAL ASIAN LITERATURE | 4 quarter hours
(Undergraduate)
Selected authors, genres, and topics in Asian-American or Asian diasporic literature. See schedule for current offerings. This course is repeatable with different topics.

ENG 354 | THE IRISH REVIVAL | 4 quarter hours
(Undergraduate)
The course invites a study of the cultural ferment of the decades from the 1890's to the 1920's in Ireland. Particular attention will be given to an introduction to the work of canonical writers such as Yeats and Joyce who emerged from it.

ENG 355 | MODERN IRISH LITERATURE | 4 quarter hours
(Undergraduate)
This course provides an introduction to Irish literature, including some poems in the Irish language with English translations on facing pages, written from the Literary Revival to the late twentieth century. It emphasizes the transitions from a colonized to a postcolonial society and the slow validation of the voices of Irish women writers.

ENG 357 | TOPICS IN IRISH STUDIES | 4 quarter hours
(Undergraduate)
Selected authors, genres, and topics in Irish literature and culture. This course is repeatable with different topics.
ENG 358 | TOPICS IN 20TH-CENTURY LITERATURE | 4 quarter hours (Undergraduate)
Selected authors, genres, and topics in 20th-century literature. This course is repeatable with different topics.
ENG 101 (or HON 101) and ENG 207 are prerequisites for this class.

ENG 359 | TOPICS IN MODERN BRITISH LITERATURE | 4 quarter hours (Undergraduate)
Selected authors, genres, and topics in twentieth-century British literature. This course is repeatable with different topics.
(ENG 220 and ENG 221) or (ENG 207 and ENG 101 or HON 101) or (THE 204, THE 205 and THE 206) are prerequisites for this class.

ENG 360 | AMERICAN LITERATURE TO 1830 | 4 quarter hours (Undergraduate)
Survey of American literature from the beginnings to 1830.
ENG220&221 or ENG 101& ENG 206

ENG 361 | 19TH-CENTURY AMERICAN LITERATURE | 4 quarter hours (Undergraduate)
Survey of 19th-century American literature. Authors studied might include Washington Irving, Nathaniel Hawthorne, Herman Melville, Frederick Douglass, Walt Whitman, Emily Dickinson, Mark Twain, Harriet Jacobs, and Kate Chopin.
ENG220&221 or ENG 101& ENG 206

ENG 362 | AMERICAN LITERATURE FROM 1865 TO 1920 | 4 quarter hours (Undergraduate)
Survey of American literature from 1865 to 1920.
ENG220&221 or ENG 101& ENG 206

ENG 363 | AMERICAN LITERATURE AFTER 1900 | 4 quarter hours (Undergraduate)
This survey focuses on twentieth- and twenty-first-century American literary works, authors, and movements. Coverage will explore several genres, and expose students to the diversity of some major American literary movements such as modernism, the Harlem Renaissance, and postmodernism. Authors studied might include William Faulkner, F. Scott Fitzgerald, Willa Cather, Zora Neale Hurston, Ernest Hemingway, Toni Morrison, and Junot Diaz.
(ENG 220 and ENG 221) or (ENG 101/HON 101 and ENG 207) or AMS 200 or AMS 201 are prerequisites for this class.

ENG 364 | TOPICS IN GENRE STUDIES | 4 quarter hours (Undergraduate)
Variable emphasis. (See schedule for current offerings.) This course is repeatable with different topics.

ENG 365 | TOPICS IN 20TH-CENTURY FICTION | 4 quarter hours (Undergraduate)
Selected authors, genres, and topics in 20th-century American literature. This course is repeatable with different topics.
(ENG 220 and ENG 221) or (ENG 207 and ENG 101 or HON 101) are prerequisites for this class.

ENG 366 | STUDIES IN POETRY | 4 quarter hours (Undergraduate)
Variable emphasis. (See schedule for current offerings.) This course is repeatable with different topics.
ENG 220 or (ENG 101 or HON 101) is a prerequisite for this class.

ENG 367 | TOPICS IN AMERICAN STUDIES | 4 quarter hours (Undergraduate)
Selected authors, genres, and topics in American literature and culture. This course is repeatable with different topics.

ENG 368 | STUDIES IN LITERATURE ACROSS CULTURES | 4 quarter hours (Undergraduate)
Selected authors, genres, and topics in literature by writers from various ethnic backgrounds. Works may be by American minority authors or by authors writing in English from outside Britain and the U.S. This course takes a comparative approach to studying concepts of ethnicity and identity in literature drawn from several ethnic traditions. This course is repeatable with different topics.

ENG 369 | TOPICS IN AMERICAN LITERATURE | 4 quarter hours (Undergraduate)
See schedule for current offerings. This course is repeatable with different topics.
(ENG 220 & 221) or (ENG 101 or HON 101 or AMS 200 or AMS 201) is a prerequisite for this class.

ENG 370 | HISTORY OF THE ENGLISH LANGUAGE | 4 quarter hours (Undergraduate)
Examination of the development of vocabulary and structure of English from its beginnings to contemporary British and American English usage.

ENG 371 | TOPICS IN AFRICAN AMERICAN LITERATURE | 4 quarter hours (Undergraduate)
Selected authors, genres, and topics in African American literature. See schedule for current offerings.

ENG 372 | MULTIETHNIC LITERATURE OF THE U.S. | 4 quarter hours (Undergraduate)
Readings in recent literature, primarily fiction, by American writers of various ethnic backgrounds, exploring the evolving concept of ethnicity in literature.

ENG 373 | NATIVE LITERATURE | 4 quarter hours (Undergraduate)
This course provides an introduction to a wide range of Native and First Nations literature. Students will read a selection of work, including some early contact and expansion texts, but will focus on the prose and poetry of mid-to-late 20th century and contemporary writers. Students will examine, compare and contrast the ways in which Native literary writing approaches agendas and ideas such as personal and community identity; racial and cultural stereotypes; social and cultural obligations and duties; self-expression and humor as acts of survival; re-appropriation and redefinition; and encounters with a dominant culture.

ENG 374 | STUDIES IN SHORT FICTION | 4 quarter hours (Undergraduate)
The development of European, English, and American short fiction.
ENG 101 (or HON 101) is a prerequisite for this class.

ENG 375 | CREATIVE WRITING AND SOCIAL ENGAGEMENT | 4 quarter hours (Undergraduate)
Study and practice of creative writing in the contexts of community service. (See schedule for current offerings.) This course is repeatable with different topics.

ENG 376 | TOPICS IN EDITING AND PUBLISHING | 4 quarter hours (Undergraduate)
Variable emphasis. (See schedule for current offerings.) This course is repeatable with different topics.

ENG 377 | LITERATURE AND SOCIAL ENGAGEMENT | 4 quarter hours (Undergraduate)
Study of selected literary works in the contexts of community service. See schedule for current offerings. This course is repeatable with different topics.

</tr>
</tbody>
</table>
ENG 408 | STYLISTICS | 4 quarter hours (Graduate)
Theory and practice in examining features of prose style, including
linguistic, rhetorical and literary perspectives on style.

ENG 411 | CHAUCER | 4 quarter hours (Graduate)
Chaucer’s works in context of his milieu.

ENG 412 | STUDIES IN ARTHURIAN LITERATURE | 4 quarter hours (Graduate)
Geoffrey of Monmouth, Wace, Layamon and Malory.

ENG 413 | STUDIES IN MEDIEVAL LITERARY FORMS | 4 quarter hours (Graduate)
Alternating emphasis on poetic, narrative and dramatic genres of the 14th
and 15th centuries.

ENG 419 | TOPICS IN MEDIEVAL LITERATURE | 4 quarter hours (Graduate)
See schedule for current offering.

ENG 421 | STUDIES IN ENGLISH RENAISSANCE PROSE | 4 quarter hours (Graduate)
Major prose works, including More’s Utopia, Sidney’s Apology for Poetry,
Bacon’s Essays, and Milton’s Areopagitica.

ENG 422 | STUDIES IN ENGLISH RENAISSANCE POETRY | 4 quarter hours (Graduate)
Alternating emphasis on the English epic, the 16th-century lyric, and the
17th-century lyric.

ENG 423 | STUDIES IN ENGLISH RENAISSANCE DRAMA | 4 quarter hours (Graduate)
Tudor-Stuart drama, including works by Kyd, Marlowe, Jonson, Webster
and Ford.

ENG 426 | THE ESSAY: HISTORY, THEORY, PRACTICE | 4 quarter hours (Graduate)
Explores the history of the essay as genre from the Renaissance to the
present, compares and contrasts literary essays with those written in
most school settings, and offers students the opportunity to write their
own extended essays on personal and professional topics. Formerly
ENG 488.

ENG 427 | MILTON | 4 quarter hours (Graduate)
Major poems and selected prose.

ENG 428 | STUDIES IN SHAKESPEARE | 4 quarter hours (Graduate)
Study of selected plays through various critical and scholarly
perspectives.

ENG 429 | TOPICS IN RENAISSANCE LITERATURE | 4 quarter hours (Graduate)
See schedule for current offering.

ENG 431 | STUDIES IN THE EIGHTEENTH CENTURY NOVEL | 4 quarter hours (Graduate)
Representative English prose fiction, including Defoe, Richardson,
Fielding, Sterne and the Gothic novel.

ENG 432 | STUDIES IN RESTORATION AND EIGHTEENTH-CENTURY DRAMA | 4 quarter hours (Graduate)
Studies in the comedy of manners, sentimental comedy, heroic drama,
and bourgeois tragedy.

ENG 434 | STUDIES IN RESTORATION AND EIGHTEENTH CENTURY AUTHORS | 4 quarter hours (Graduate)
Alternating emphasis on Dryden, Pope, Swift, Johnson, or other major
authors.

ENG 439 | TOPICS IN RESTORATION AND EIGHTEENTH-CENTURY LITERATURE | 4 quarter hours (Graduate)
See schedule for current offerings.

ENG 441 | STUDIES IN ENGLISH ROMANTIC PROSE | 4 quarter hours (Graduate)
Major Romantic nonfiction prose writers, including Burke, Coleridge,
Hazlitt, DeQuincey and Lamb.

ENG 442 | STUDIES IN ENGLISH ROMANTIC POETRY | 4 quarter hours (Graduate)
Alternating emphasis on major Romantic poets, including Blake,
Wordsworth, Coleridge, Byron, Shelley and Keats.

ENG 443 | STUDIES IN VICTORIAN PROSE | 4 quarter hours (Graduate)
Major Victorian nonfiction prose writers, including Carlyle, Newman,
Ruskin, Mill, Arnold and Pater.

ENG 444 | STUDIES IN VICTORIAN POETRY | 4 quarter hours (Graduate)
Major Victorian poets, including Tennyson, Browning and Arnold.

ENG 445 | STUDIES IN NINETEENTH-CENTURY BRITISH FICTION | 4 quarter hours (Graduate)
Alternating emphasis on major novelists including Dickens, Thackeray,
the Brontes, Eliot, Trollope and Hardy.

ENG 446 | NINETEENTH-CENTURY IRISH LITERATURE | 4 quarter hours (Graduate)
This course surveys a broad range of literature from nineteenth-century
Ireland. It reads literature within the social and historical context of its
day; in terms of the formation of individual, social and national identities;
and within today’s debate about Ireland’s status at the time.

ENG 449 | TOPICS IN NINETEENTH-CENTURY BRITISH LITERATURE | 4 quarter hours (Graduate)
See schedule for current offering.

ENG 451 | STUDIES IN THE MODERN BRITISH NOVEL | 4 quarter hours (Graduate)
Alternating areas of emphasis, including Woolf, Joyce, Forster and
Conrad.

ENG 452 | STUDIES IN MODERN BRITISH POETRY | 4 quarter hours (Graduate)
Alternating areas of emphasis, including Yeats, Auden, Lawrence, Dylan
Thomas, Eliot and Larkin.

ENG 453 | STUDIES IN MODERN DRAMA | 4 quarter hours (Graduate)
Study of selected modern plays from 1870 to present. Authors studied
might include Henrik Ibsen, Anton Chekhov, George Bernard Shaw, Eugene
O’Neill, J. M. Synge, Tennessee Williams, Samuel Beckett, Caryl Churchill,
Maria Irene Fornes, and Wole Soyinka.

</tbody>
</table>

This course uses both historical and theoretical approaches to Irish literature written from the Literary Revival to the late twentieth century. It emphasizes the transition from a colonized to a postcolonial society and the slow validation of the voices of Irish women writers.

This course relates contemporary Irish literature to recent Irish history and to social and cultural change. It charts the ways in which patterns of individual, social and national identity have been challenged and renegotiated.

Prepares English teachers to teach literature at the secondary and college undergraduate levels. The course develops methods of teaching all literary genres, addresses problems in literacy, and focuses on the transactional nature of reading and writing.

Prepares English teachers to teach creative writing at the secondary and college undergraduate levels. Models the planning and directing of effective workshops in poetry, creative nonfiction, and fiction writing.

Prepares English teachers to teach creative writing at the secondary and college undergraduate levels. Alternating emphasis on major 20th-century writers, including Fitzgerald, Hemingway, Stein, Faulkner, Steinbeck, Porter, Penn Warren, Bellow, O'Connor, Oates and Morrison.

Introduction to a wide range of twentieth-century American poetries, with alternating emphasis on modernists such as Frost, Eliot, Pound, Stevens, Williams, Moore, HD., Hughes, and Rukeyser as well as more recent figures and trends.

American dramatists and dramatic movements.

See schedule for current offering.

Selected topics in book and media history.

Studies in literary theory and cultural criticism.

Prepares English teachers to teach creative writing at the secondary and college undergraduate levels. Models the planning and directing of effective workshops in poetry, creative nonfiction, and fiction writing.

Prepares English teachers to teach literature at the secondary and college undergraduate levels. The course develops methods of teaching all literary genres, addresses problems in literacy, and focuses on the transactional nature of reading and writing.

See schedule for current offering.

See schedule for current offerings. Formerly ENG 479.

See schedule for current offerings.

See schedule for current offerings.

An introductory creative writing course open to all DePaul graduate students and non-degree-seeking students with a bachelor's degree in any field.

See schedule for current offerings.

Status as a MAWP, MALP or MFACRWPB student is a prerequisite for this class.

Writing travel essays: history and forms of the literary travel essay; writing about travel for the book and magazine market.

Focuses on studying and writing creative nonfiction essays, with particular attention paid to voice, style, form and structure, narration and exposition, scene, and narrative distance.

An introduction to the craft of screenwriting. Covers principles of plot, dramatic conflict, characterization, dialogue, and screenplay form.

Students develop short dramatic and documentary screenplays.

Covers the range of skills necessary for magazine writing. Discussion of the elements of style, humor, research, concept and imagery that characterize the literature of fact. Students investigate, compose and edit finished magazine articles to be submitted for publication.

An introduction to the creative career of science writing. Students research, write, and market articles on such subjects as astronomy, genetics, health, and technology for newspapers, magazines, e-zines, and innovative journals. No prior science background required.

Status as a MAWP, MALP or MFACRWPB student is a prerequisite for this class.
ENG 492 | WRITING FICTION | 4 quarter hours
(Graduate)
A course in writing short stories. Emphasis is placed on class discussion of student writing.
Status as a MAWP, MALP or MFACRWPB student is a prerequisite for this class.

ENG 493 | WRITING POETRY | 4 quarter hours
(Graduate)
A course in writing and reading poetry. Emphasis is placed on class discussion of student writing.
Status as a MAWP, MALP or MFACRWPB student is a prerequisite for this class.

ENG 496 | TOPICS IN EDITING | 4 quarter hours
(Graduate)
An introduction to editing principles and practices in professional and technical fields. See Schedule for current offerings.

ENG 497 | WRITING THE LITERATURE OF FACT | 4 quarter hours
(Graduate)
An advanced course in reading and writing true-life stories in the nonfiction tradition exemplified by such writers as Dickens, Agee, McPhee, and Didion.
Status as a MAWP, MALP or MFACRWPB student is a prerequisite for this class.

ENG 500 | INDEPENDENT STUDY | 4-8 quarter hours
(Graduate)
Written permission of supervising faculty member and of the program director is necessary before registration. Variable credit.

ENG 501 | THESIS RESEARCH | 4 quarter hours
(Graduate)
Written permission of supervising faculty member and of the program director is necessary before registration. Limited to four credits.

ENG 502 | CANDIDACY CONTINUATION | 0 quarter hour
(Graduate)
This 0-credit hour course is available to master's degree candidates who are actively working toward the completion of a thesis, project, or portfolio. Enrollment in this course is limited to three quarters and requires thesis/project advisor and graduate director approval and demonstration to them of work each quarter. Enrollment in this course allows access to the library and other campus facilities. This course carries and requires the equivalent of half-time enrollment status. The student may be eligible for loan deferment and student loans. This course is graded as pass/fail. (0 credit hours)

ENG 503 | CANDIDACY MAINTENANCE | 0 quarter hour
(Graduate)
This 0-credit hour course is available to graduate students who are not registered for a course in a given quarter but need to maintain active university status. Enrollment in this course is limited to three quarters and requires permission of the graduate director. Enrollment in this course allows access to the library and other campus facilities. This course does not carry an equivalent enrollment status and students in it are not eligible for loan deferment or student loans. This course is not graded. (0 credit hours)

ENG 509 | INTERNSHIP | 4 quarter hours
(Graduate)
Internship: Written permission of supervising faculty member and of the program director is necessary before registration. Limited to four credits.

English Language Academy (ELA)

ELA A030 | ADVANCED WRITING AND WORD PROCESSING | 0 quarter hour
(Continuing Education)
An advanced-level course in English-as-a-second-language writing. Students learn to write 3-to-5 page compositions including a research paper.

ELA A031 | ADVANCED READING AND VOCABULARY DEVELOPMENT | 0 quarter hour
(Continuing Education)
An advanced-level course in English-as-a-second-language reading. Students build on their reading skills by identifying intended audience, source and tone of a reading, acquire more literary terms, read longer newspaper articles, editorials, plays, and novels.

ELA A032 | ADVANCED GRAMMAR | 0 quarter hour
(Continuing Education)
An advanced-level course in English-as-a-second-language grammar. Students build on the work from previous levels with the future perfect and future perfect progressive tenses, negative and past forms of modals, passive voice, causative verbs, conditionals, and gerunds and infinitives.

ELA A033 | ADVANCED SPOKEN ENGLISH AND LISTENING | 0 quarter hour
(Continuing Education)
An advanced-level course in English-as-a-second-language spoken English. Among other skills, students learn to manage small group discussions, defend positions, speak persuasively, deliver a formal presentation, draw inferences from authentic speech, and takes notes from short lectures.

ELA B040 | UNIVERSITY BRIDGE WRITING: SERVICE, RESEARCH AND WRITING | 0 quarter hour
(Continuing Education)
A university bridge-level course in English-as-a-second-language writing. Students learn to write first-person narrative and a research essay through participation in community service.

ELA B041 | UNIVERSITY BRIDGE READING AND VOCABULARY DEVELOPMENT | 0 quarter hour
(Continuing Education)
A university bridge-level course in English-as-a-second-language reading. Students build on their reading skills by comparing points of view, paraphrasing and outlining ideas, acquiring higher-level literary terms, and read more complex articles, novels, plays, or several short stories.

ELA B042 | UNIVERSITY BRIDGE GRAMMAR | 0 quarter hour
(Continuing Education)
A university bridge-level course in English-as-a-second-language grammar. Students build on the work from previous levels with more complex uses of such structures as auxiliary verbs, noun modifiers, adjective and adverb clauses, and unreal conditionals.

ELA B043 | UNIVERSITY BRIDGE SPOKEN ENGLISH AND LISTENING | 0 quarter hour
(Continuing Education)
A university bridge-level course in English-as-a-second-language spoken English. Students master previous functions at the highest level, such as persuading, negotiating, and debating; deliver formal presentations; demonstrate skill at note taking and comprehending regional dialects.
ELA CP050 | UNIVERSITY EXPERIENCE RESEARCH AND WRITING | 0 quarter hour
(Continuing Education)
University Experience Research and Writing provides non-native speaking students authentic experiences preparing and writing papers using American academic standards and styles. This course teaches students to select and effectively evaluate scholarly sources appropriate to their discipline, to organize their research and to present a thesis logically using American academic styles. Ideally, the course is taken in conjunction with CP052 University Experience Reading or other similar academic English reading course.

ELA CP051 | UNIVERSITY EXPERIENCE READING AND SURVEY OF TEXTS | 0 quarter hour
(Continuing Education)
University Experience Reading & Survey of Texts provides university level reading instruction and prepares non-native speaking students to evaluate and categorize university level texts within their chosen discipline. The course focuses on using reading strategies that maximize reading efficiency and comprehension and is designed specifically for students who are preparing to enroll in university degree programs. The course is an ideal complement to CP050 University Experience Research and Writing.

ELA CP053 | UNIVERSITY EXPERIENCE ACADEMIC AND CLASSROOM CULTURE | 0 quarter hour
(Continuing Education)
University Experience Academic and Classroom Culture prepares non-native speaking students for success in American university classrooms. The course focuses on becoming an effective oral communicator in university environments. Instruction helps students develop effective strategies for note taking, classroom participation, and successful interaction with other students and instructors in a variety of teaching modes that are common in American universities.

ELA CP054 | UNIVERSITY EXPERIENCE ADVANCED ENGLISH PRACTICE | 0 quarter hour
(Continuing Education)
University Experience Advanced English Practice offers students a selection of options that allows them to address individual English language development needs from pronunciation to interviewing skills to advanced topics within their proposed discipline of study. The exact structure of this module is determined by individual student needs and each student works with an ELA advisor to select options that will provide maximum individual language growth. The individual student plan requires approval of the ELA director.

ELA F000 | FOUNDATIONS WRITING AND WORD PROCESSING | 0 quarter hour
(Continuing Education)
A beginning-level course in English-as-a-second-language writing. Students learn basic paragraph structure, topic sentences and how to support them. (Students should have an active vocabulary of 200-400 words in English.)

ELA F001 | FOUNDATIONS READING AND VOCABULARY DEVELOPMENT | 0 quarter hour
(Continuing Education)
A beginning-level course in English-as-a-second-language reading. Students practice various reading skills, such as locating the main idea; study vocabulary acquisition; and read ESL specific readings and newspaper articles. (Students should have an active vocabulary of 200-400 words in English.)

ELA F002 | FOUNDATIONS GRAMMAR | 0 quarter hour
(Continuing Education)
A beginning-level course in English-as-a-second-language grammar. Students work on basic grammar, such as simple tenses, modals, and articles, as well as nouns, pronouns, adjectives and adverbs. (Students should have an active vocabulary of 200-400 words in English.)

ELA F003 | FOUNDATIONS SPOKEN ENGLISH AND LISTENING | 0 quarter hour
(Continuing Education)
A beginning-level course in English-as-a-second-language spoken English. Students learn many basic practical functions, such as asking for and giving opinions and leaving a simple message. (Students should have an active vocabulary of 200-400 words in English.)

ELA H020 | HIGH INTERMEDIATE WRITING AND WORD PROCESSING | 0 quarter hour
(Continuing Education)
A high intermediate-level course in English-as-a-second-language writing. Students learn to write academic compositions using specific organizational patterns.

ELA H021 | HIGH INTERMEDIATE READING AND VOCABULARY DEVELOPMENT | 0 quarter hour
(Continuing Education)
A high intermediate-level course in English-as-a-second-language reading. Students build on their reading skills by learning the difference between fact and opinion, understanding inferences, acquiring more literary terms, reading newspaper articles, short stories and novels.

ELA H022 | HIGH INTERMEDIATE GRAMMAR | 0 quarter hour
(Continuing Education)
A high intermediate-level course in English-as-a-second-language grammar. Students build on the work from previous levels with perfect progressive tenses, adjective clauses, reflexive pronouns, and more advanced modals, adjectives and adverbs.

ELA H023 | HIGH INTERMEDIATE SPOKEN ENGLISH AND LISTENING | 0 quarter hour
(Continuing Education)
A high intermediate-level course in English-as-a-second-language spoken English. Students practice such functions as supporting opinions, expressing empathy and compromise, reporting and summarizing; make a presentation; and listen effectively to authentic speech.

ELA I010 | INTERMEDIATE WRITING AND WORD PROCESSING | 0 quarter hour
(Continuing Education)
An intermediate-level course in English-as-a-second-language writing. Students begin connecting paragraphs into longer essays.

ELA I011 | INTERMEDIATE READING AND VOCABULARY DEVELOPMENT | 0 quarter hour
(Continuing Education)
An intermediate-level course in English-as-a-second-language reading. Students build on the work in the Foundations level and learn to restate the author’s point of view, acquire literary terms, and read stories.

ELA I012 | INTERMEDIATE GRAMMAR | 0 quarter hour
(Continuing Education)
An intermediate-level course in English-as-a-second-language grammar. Students build on the work in Foundations grammar and learn progressive and past tenses, question formation, noun clauses, and comparative and superlative forms of adjectives and adverbs.
ELA T200 | GRAMMAR FOR TOEFL WRITING | 0 quarter hour
(Continuing Education)
An English-as-a-second-language course that reinforces and reviews the grammar skills necessary to excel on the Writing portion of the TOEFL (Test of English as a Foreign Language) iBT (Internet-Based Test) as well as in future academic pursuits.

ELA T201 | TOEFL READING AND READING LAB | 0 quarter hour
(Continuing Education)
An English-as-a-second-language course that prepares students for the Reading portion of the TOEFL (Test of English as a Foreign Language) iBT (Internet Based Test) as well as for future academic study. Students learn and practice reading strategies and the variety of reading skills tested on the TOEFL iBT. In addition, students expand their academic vocabulary and knowledge of word roots. Moreover, students get valuable exposure to the testing lab environment by doing practice computerized tests in this skill area.

ELA T202 | TOEFL WRITING AND INTEGRATED SKILLS | 0 quarter hour
(Continuing Education)
An English-as-a-second-language course that prepares students for the Writing and Integrated Skills portions of the TOEFL (Test of English as a Foreign Language) iBT (Internet Based Test) as well as for future academic study. Students learn and practice the writing skills necessary to produce the high-quality essays required during the writing portion of the test. They also practice and learn the skills necessary to synthesize and summarize information in a written format, as required in the Integrated Skills portion of the test. Moreover, students get valuable exposure to the testing lab environment by doing occasional practice writing and integrated skills computerized tests in this skill area.

ELA T203 | TOEFL SPEAKING AND INTEGRATED SKILLS | 0 quarter hour
(Continuing Education)
An English-as-a-second-language course that prepares students for the Speaking and Integrated Skills portions of the TOEFL (Test of English as a Foreign Language) iBT (Internet Based Test) as well as for future academic study. Students learn and practice the speaking skills and strategies which must be applied during the Integrated Skills portion of the test. Students also practice useful idioms that can be applied in both the listening and speaking portions of the test. Moreover, students get valuable exposure to the testing lab environment by doing occasional integrated skills computerized tests in this skill area.

ELA T204 | TOEFL PRACTICE TESTS | 0 quarter hour
(Continuing Education)
An English-as-a-second-language lab that allows students to apply the skills they have been learning and check their progress in a timed, self-testing environment.

ELA T205 | TOEFL LISTENING AND LISTENING LAB | 0 quarter hour
(Continuing Education)
An English-as-a-second-language course that prepares students for the listening portion of the TOEFL (Test of English as a Foreign Language) iBT (Internet-Based Test) as well as for future academic study. Students learn and practice the listening skills and strategies which must be applied during the listening portion of the test. Moreover, students get valuable exposure to the testing lab environment through computerized practice tests in this skill area.

ELA 100 | PRONUNCIATION WORKSHOP: A COURSE IN ACCENT REDUCTION | 0 quarter hour
(Continuing Education)
An English-as-a-second-language course designed to help students improve their pronunciation.

ELA 101 | TOEFL (TEST OF ENGLISH AS FOREIGN LANGUAGE) PREPARATION | 0 quarter hour
(Continuing Education)
An English-as-a-second-language course designed to help students prepare for the TOEFL (Test of English as a Foreign Language).

ELA 102 | GMAT/MBA (GRADUATE MANAGEMENT ADMISSION TEST/MASTERS IN BUSINESS ADMINISTRATION) PREPARATION | 0 quarter hour
(Continuing Education)
This class is designed to expand students' vocabulary by reinforcing ability to use vocabulary accurately, by use of new vocabulary-learning skills, and by acquisition of word decoding skills and strategies. Students will be introduced to approximately 25-40 new words per class. (Students in this class should have at least high intermediate proficiency in English.)

ELA 110 | TALKING BUSINESS | 0 quarter hour
(Continuing Education)
Talking Business is an intensive course for non-native English speakers preparing for business school or expanding their careers in the business world. The course will focus on improving students' vocabulary, knowledge of key concepts in business and economics, and listening and speaking skills related to those concepts. Each day, students will have the opportunity to read and listen to authentic materials as well as to engage in lively, informative discussion.

ELA 120 | ELA ORIENTATION AND NEW STUDENT REGISTRATION | 0 quarter hour
(Continuing Education)
New ELA students enroll in ELA 120 to reserve a place in a coming term. Only new students enroll in ELA 120.

ELA 130 | CONTINUING STUDENT REGISTRATION | 0 quarter hour
(Continuing Education)
Students wishing to continue enrollment at ELA select ELA 130. Only continuing students enroll in ELA 130.

ELA 300 | ELA TOPICS | 0 quarter hour
(Continuing Education)
Special courses and workshops offered by the English Language Academy.

ELA 301 | CIT TESOL PROGRAM | 0 quarter hour
(Continuing Education)
A 130-hour TESOL/TEFL certificate course during which students learn how to teach English-as-a-Second-Language, including 36 hours of practice teaching with ESL students. Taught by the School for International Training at DePaul's English Language Academy.
Environmental Science (ENV)

ENV 101 | INTRO TO ENVIRONMENTAL SCIENCE WITHOUT LAB | 4 quarter hours
(Undergraduate)
ENV 101 provides an overview of how the natural world works, how we interact with it and how we can work to protect, restore and sustain it for the future. Topics include an overview of basic ecological principles, population, biodiversity, energy, natural resources and pollution. The course emphasis is on the science behind current environmental concerns. Social, ethical, economic, and political perspectives are considered in order to provide perspective and a fuller understanding of the issues and their solutions. Students cannot receive credit for both ENV 101 and ENV 102.

ENV 102 | INTRO TO ENVIRONMENTAL SCIENCE WITH LAB | 4 quarter hours
(Undergraduate)
ENV 102 provides an overview of how the natural world works, how we interact with it and how we can work to protect, restore and sustain it for the future. Topics include an overview of basic ecological principles, population, biodiversity, energy, natural resources and pollution. The course emphasis is on the science behind current environmental concerns. Social, ethical, economic, and political perspectives are considered in order to provide perspective and a fuller understanding of the issues and their solutions. Lab investigations further develop scientific and environmental understandings. Students cannot receive credit for both ENV 101 and ENV 102.

LSP 120 or LSP 121 or MAT 130 or above is a prerequisite for this class.

ENV 115 | ENVIRONMENTAL GEOLOGY | 4 quarter hours
(Undergraduate)
An examination of the earth’s materials and structures, and the processes responsible for their formation; how geologic processes and hazards influence human activities (and vice versa); and a discussion of geologic resources and the geological aspects of waste disposal and pollution. The course includes a three-hour lab. Students cannot receive credit for both ENV 115 and ENV 116.

LSP 120 or LSP 121 or MAT 130 or above is a prerequisite for this class.

ENV 116 | GEOLOGY OF THE ENVIRONMENT | 4 quarter hours
(Undergraduate)
An examination of the earth’s materials and structures, and the processes responsible for their formation; how geologic processes and hazards influence human activities (and vice versa); and a discussion of geologic resources and the geological aspects of waste disposal and pollution. Students cannot receive credit for both ENV 115 and ENV 116.

ENV 117 | EARTH THROUGH TIME | 4 quarter hours
(Undergraduate)
A general introduction to the 4.6 billion-year geologic history of planet Earth. The course scientifically explores the history of the earth from its formation to present day, the origin and transformation of rocks, internal and external geologic processes and structures, evolution and extinction of organisms, and patterns of Earth’s environmental conditions through time. The course includes a three-hour lab.

ENV 118 | EARTH THROUGH TIME WITH LABORATORY | 4 quarter hours
(Undergraduate)
A general introduction to the 4.6 billion-year geologic history of planet Earth. The course scientifically explores the history of the earth from its formation to present day, the origin and transformation of rocks, internal and external geologic processes and structures, evolution and extinction of organisms, and patterns of Earth’s environmental conditions through time.

LSP 120 or LSP 121 or MAT 130 or above is a prerequisite for this class.

ENV 150 | FOUNDATIONS OF ENVIRONMENTAL STUDIES | 4 quarter hours
(Undergraduate)
The purpose of this course is to introduce students to environmental studies. It presents students with an overview of the intersections between ecology, the social sciences, and the humanities that inform our vision of the rigor and power of interdisciplinary environmental studies. It draws upon the natural sciences, communication, geography, philosophy, religion, history, literature, art and design, and public policy to stress the interrelationships between human society and the natural world. Students will study the effects of the human use of the natural world and the interactions of culture, society, resources, and the environment. We will examine the social, political, and economic institutions that impact the environment. Particular attention will be paid to how the role of power and inequality contribute to environmental problems and how those problems in turn, impact certain groups more than others (e.g. citizens of undeveloped nations, people of color in urban areas).

ENV 151 | INTRODUCTION TO SUSTAINABILITY | 4 quarter hours
(Undergraduate)
This course provides an interdisciplinary introduction to sustainability and examines the essential interdependence between environmental, human, and economic systems. The class focuses on the theories and practices that respect the Earth’s ecological limits so that these systems remain viable now and into the future. Students will explore the interrelated environmental, social, and economic problems that we currently face at the local, national, and global scale and the solutions that individuals, governments, and institutions are implementing in an effort to ensure a sustainable future.

ENV 152 | ECOLOGICAL AND SOCIAL ECONOMICS | 4 quarter hours
(Undergraduate)
In this course, students examine the role of the environment and natural resources in neoclassical, environmental and ecological economics. First, students study mechanisms for efficiently allocating scarce resources among specific alternative ends and take a brief foray into environmental economics and learn methods of resource/environmental valuation. We also discuss aspects of macroeconomics as it pertains to ecological economics. Students come away able to critically assess the benefits and drawbacks of these three ways that the economy incorporates the environment. It also encourages ethical reasoning as we discuss distribution of environmental benefits over generations and globally.

LSP 120 or LSP 121 or MAT 130 or above is a prerequisite for this class.
**ENV 160 | IDEAS OF NATURE | 4 quarter hours**  
(Undergraduate)

This course is an introductory history of the ideas of nature that emerged over the last two and a half centuries in Europe and the United States. We examine how the conceptions, meanings, and values of nature today have been influenced by the Scientific and Industrial Revolutions, Romanticism, and evolutionary theory; notions of the sublime, the frontier, and wilderness; and the practices of conservation, preservation, and restoration. Also discussed are the ideological commitments of current environmentalisms, in particular sustainability.

**ENV 165 | NATIONAL PARKS HISTORY | 4 quarter hours**  
(Undergraduate)

This course is designed, in part, as intensive introduction to the history of national parks, both in the United States and abroad, and will cover a broad swath of history, from the historical antecedents that influenced the founding of the America's earliest parks to twenty-first century issues throughout the world. By necessity, this will not be an exhaustive survey of the history of all fifty-nine national parks in the United States, let alone the roughly 7,000 national parks worldwide. Instead, we will use illustrative examples to highlight key moments in national park history, including nineteenth-century intellectual movements that inspired the creation of national parks, the debates over conservation and preservation, legislative acts such as the Antiquities Act and the National Park Service Organic Act, the democratization of tourism in America, the rise of the wilderness and environmental movements, the conservative revolution, the exportation of the national park ideal throughout the burgeoning world, and the future of American national parks. The historical knowledge gained through course readings and lectures will be essential for completion of both writing assignments and the two exams.

**ENV 170 | ENVIRONMENTAL ETHICS | 4 quarter hours**  
(Undergraduate)

The environmental issues that confront us are both global and local; they involve political, economic and ethical decision-making by governments, corporations and citizens. Students will explore and evaluate diverse approaches to a range of such issues, as well as the ways different thinkers and different cultures have envisioned the relationship between human beings and the natural world—all with a view to understanding their own relationships to the natural world, their own environmental ethics.

**ENV 180 | ISSUES IN ENVIRONMENTAL DESIGN | 4 quarter hours**  
(Undergraduate)

Issues in Environmental Design is an introductory course that will examine concepts, theories and practices across multiple scales of design, including architecture, landscape architecture and urban design. Students will discuss and evaluate the design decisions that compose our built environment with a focus on contemporary ideas of ecological sustainability. Examples of excellence will be explored through the examination of case studies. The underlying theme is the connection between culture and nature, and how we may reduce our negative impact on systems that support all life while building positive systems that support all life.

**ENV 181 | LANDSCAPE ARCHITECTURE | 4 quarter hours**  
(Undergraduate)

This course will examine the process by which landscape architects contribute to the built environment. The course will culminate in the presentation of a student design proposal for an existing site in Chicago. In preparation, students will use literature and design examples to examine how political and aesthetic attitudes toward landscape architecture have evolved, from the pastoral focus of the 19th century to today's desire for adaptable and multifunctional spaces. Selection of readings and examples will be catered to key issues arising from the chosen design proposal site for that quarter. Students will become familiar with standard architectural representation methods (such as plan, section and model) and will learn how landscape architects engage with existing social and environmental conditions in the development of their aesthetic designs.

**ENV 200 | CITIES AND THE ENVIRONMENT | 4 quarter hours**  
(Undergraduate)

This course focuses on the interactions between urban areas and the environment. It presents a discussion of the physical setting of cities; the water, energy, air and waste disposal needs of urban areas; and the effects of urban development on air, soil, and water quality, and the health of the community of non-human organisms. In particular, it presents this topic in the context of the emerging discipline of urban ecology, and introduces the notion of cities as social ecological systems where both people and nature interact.

**ENV 202 | RESOURCES, POPULATION, AND THE ENVIRONMENT | 4 quarter hours**  
(Undergraduate)

A course on the relationship between the exploitation of the biological, mineral and energy resources of the earth to support an increasing population, and the environmental effects of this development. To provide an overview of the current debate on the relationship between the growing human population worldwide, the natural resources required to sustain this population, and the consequences of resource exploitation for managing environmental quality. We will integrate the ecological, economic, and policy factors involved in natural resource management.

**ENV 203 | CHEMISTRY FOR ENVIRONMENTAL STUDIES | 4 quarter hours**  
(Undergraduate)

ENV 203 is a course for Environmental Studies majors that develops the fundamental concepts of chemistry with experimental exploration in the context of societal issues. Chemistry topics include atomic structure, chemical bonding, chemical reactions, thermodynamics, and acid-base behavior. These topics are discussed on a "need-to-know" basis, embedded in discussions of air pollution, ozone depletion, global climate change, energy, water pollution, and acid rain.

**LSP 120 or LSP 121 or MAT 130 or above is a prerequisite for this class.**

**ENV 204 | ENERGY AND THE ENVIRONMENT | 4 quarter hours**  
(Undergraduate)

This course is designed to provide students with the scientific tools necessary to understand and critically evaluate both personal and policy decisions regarding the variety of options (e.g. fossil fuel, solar, wind, etc.) for energy generation and use. The course also focuses on the environmental impacts of all forms of energy, from the extraction of fossil fuels and mineral resources from the earth, to the generation, distribution and consumption of energy, and ultimately emission of fossil fuel combustion products, notably carbon dioxide and other heat trapping gasses, to the atmosphere.

**LSP 120 or LSP 121 or MAT 130 or above is a prerequisite for this class.**
This lecture-laboratory course for Environmental Studies majors introduces the fundamental concepts of biology that are critical for the understanding of a wide range of environmental issues, such as genetic engineering, overpopulation, conservation biology, and climate change. Under the framework of evolutionary biology, the content of this course includes basic cell biology, genetics, population biology, phylogeny, ontology, and biodiversity.

LSP 120 or LSP 121 or (MAT 130 or above) is a prerequisite for this class.

This course focuses on three of the great spheres of the Earth (lithosphere, hydrosphere and atmosphere) and how they interact with the biosphere to create an integrated Earth system with an emphasis on how human activities impact important earth system cycles. Students should have a basic understanding of how living organisms interact with their physical environment. Laboratory activities provide experience with the tools and methodology of systems thinking.

LSP 120 or LSP 121 or MAT 130 or above is a prerequisite for this class.

A science-based course that examines the interface between humans and the living and non-living environment, the consequences of these interactions, and options for mitigating environmental impacts.

ENV 216 | EARTH SYSTEM SCIENCE | 4 quarter hours
(Undergraduate)

This course will acquaint students with the challenges, opportunities, practices, and transformative potential of urban agriculture. Taking an interdisciplinary, case-study approach, this course will explore issues such as food security, community gardening, farmers markets, the locavore food movement, entrepreneurial aspects of urban agriculture, methods of urban food production, and food consumption patterns. The course will meet in the classroom and on-site at the DePaul urban farm and greenhouses. In addition, students are expected to spend several hours each week outside of class time engaged in hands-on experience in urban farming at DePaul or at local sites arranged with the instructor.

ENV 245 | URBAN AND COMMUNITY AGRICULTURE | 4 quarter hours
(Undergraduate)

This course introduces the principles and core practices involved in the culture of plants. Topics include the uses of plants and horticultural practices throughout history; the botanical and horticultural classification of plants; plant structure and function, growth and regulation; environmental requirements for plant growth; genetic modification of plants; plant reproduction and propagation; and plant pests and diseases. The course also considers environmental issues in horticulture including xeriscaping, biodiversity and the use of native plants, water management and rain gardens and hydroponics and container gardens.

ENV 240 | INTRODUCTION TO HORTICULTURE | 4 quarter hours
(Undergraduate)

This course introduces a broad survey of ecological principles and methods of lab and field investigation. Topics include the distribution and abundance of organisms in nature including those factors that influence population size, growth, and regulation; species interactions; community organization and change; and ecosystem level processes that move matter and energy among the living and non-living parts of the environment. The lecture also integrates ecological theory with natural history and environmental issues. Lab goals are to help students 1) acquire experience in ecological methods and sampling techniques, 2) better understand ecological concepts, 3) develop skills in hypothesis testing, experimental design, and the analysis of ecological data and 4) gain an increased awareness of and appreciation for the complexity, diversity, and structure of the natural world.

LSP 120 or LSP 121 or MAT 130 or above is a prerequisite for this class.

This course will provide students with skills to implement the most common statistical methods used in the environmental sciences. It emphasizes statistical literacy and develops statistical thinking, examines real data to address authentic questions, and fosters active learning by experiencing statistics; student design studies, collect data, analyze data using graphs and numerical tools, interpret results, communicate statistical inferences with written and oral reports.

LSP 120 or LSP 121 or MAT 130 or above is a prerequisite for this class.
ENV 261 | MIXED METHODS IN ENVIRONMENTAL STUDIES | 4 quarter hours
(Undergraduate)
Environmental studies as a discipline is increasingly interdisciplinary and requires knowledge and skills in not only the natural sciences, social sciences, and humanities, but also quantitative and qualitative analytical methods. In this class, students will learn how to effectively blend different theories and methodologies to examine interactions between humans and the environment. Skills gained will include survey design and implementation, qualitative interviewing and analysis, photo interpretation, case study, ethical considerations in environmentally-focused human subjects research, and more.

ENV 250 is a prerequisite for this class.

ENV 294 | SECOND YEAR SEMINAR | 2 quarter hours
(Undergraduate)
The purpose of this course is to advance ecological literacy. The seminar presents the study of the environment to students in a philosophical, cultural, and historical context, and in addition makes them aware of some foundational ideas of the discipline through a selection of new and classic literature. (2 quarter hours)

ENV 300 | PLANT IDENTIFICATION | 4 quarter hours
(Undergraduate)
An in-depth overview of plant families and species in the Chicagoland area. Lectures will focus on morphology of plants, evolutionary relationships among plant families, and terminology of plant structures. Students will use botanical keys and manuals for the area to identify plants and will learn collection techniques. Plant species will be collected in their natural habitats during field trips.

ENV 250 or BIO 215 is a prerequisite for this class.

ENV 305 | ANIMAL DIVERSITY | 4 quarter hours
(Undergraduate)
This course investigates the diversity of animals, including invertebrates and vertebrates. Discussions include the origin and evolution of animals, species concepts, developmental biology, taxonomic classification, phylogenetic systematics, and conservation biology.

ENV 205 (or BIO 192) is a prerequisite for this class.

ENV 310 | ENVIRONMENTAL SOIL SCIENCE | 4 quarter hours
(Undergraduate)
An examination of the physical, chemical, biological and engineering properties of soils, their genesis and classification, how they function as sites of waste disposal, and their role in global agricultural production. The course includes a three-hour lab and a mandatory Saturday field trip.

LSP 120 or LSP 121 or MAT 130 is a prerequisite for this class.

ENV 315 | PLANT ECOLOGY | 4 quarter hours
(Undergraduate)
This course focuses on how plants are affected by abiotic factors in the environment and interactions with other organisms. Goals are to improve students' abilities to understand research papers, present overviews of current research, design experiments, and analyze data. The course includes weekly labs with greenhouse experiments or field trips followed by data analysis. Topics include germination ecology, pollination biology, competition between plants, and effects of herbivory.

ENV 250 or BIO 215 is a prerequisite for this class.

ENV 316 | CHEMISTRY OF EARTH SYSTEMS | 4 quarter hours
(Undergraduate)
This class focuses on the impact of pollution on the Earth's ability to provide clean air, water and food for human consumption. The industrialization of the economy during the last 150 years has greatly increased the amount of waste that is sent into the four Earth spheres: the atmosphere, hydrosphere, lithosphere and biosphere. These emissions directly harm organisms and also cycle back to pollute essential ecosystem services provided by the Earth. This class will consider the source, transport, transformation and ultimate fate of pollution emitted into the air, water and solid Earth. Examples will include relatively simple cases (agricultural pesticides harming birds) and range to more complex interactions (depletion of stratospheric ozone by CFCs and the increase in harmful ultraviolet radiation). The laboratory component will be project-based and some work can be completed outside of the assigned lab time.

ENV 216 and CHE 132 are a prerequisite for this class.

ENV 320 | CONSERVATION BIOLOGY | 4 quarter hours
(Undergraduate)
Conservation biology is an interdisciplinary field that has developed in response to the challenge of preserving species and ecosystems. With a specific focus on the Chicago area, students in this course will: assess key threats to biodiversity and the challenges associated with conservation of native communities, evaluate how different institutions implement conservation in the region, and engage with the primary literature related to the field of conservation biology.

BIO 215 or ENV 250 is a prerequisite for this class.

ENV 322 | ECOSYSTEM ECOLOGY | 4 quarter hours
(Undergraduate)
This course will introduce students to the conceptual and methodological tools of ecosystem ecology. The course will focus on understanding the fundamental structure and function of ecosystems but will also address very recent debates on the economic value of ecosystem services, the role of biological diversity in maintaining ecosystem processes, and the consequences of stressed and degraded ecosystems for human welfare. Finally, we assess the role of ecosystem ecology in designing sustainable restoration projects. The course includes a weekly lab.

BIO 215 or ENV 250 is a prerequisite for this class.

ENV 331 | URBAN ENVIRONMENTAL MONITORING | 4 quarter hours
(Undergraduate)
As the world's population shifts into cities, there is an increasing interest in measuring the quality of the urban environment. From air quality to soundscapes, urban dwellers want to live in an environment that is healthy and sustainable. However, deteriorated environmental conditions are widespread and often unfairly distributed with regards to race, ethnicity and class. Assuming that knowledge is power, person-centered environmental monitoring can identify hotspots, highlight injustices and lead to improvements. The class will focus on a new generation of wearable/deployable sensors that use cell phones and other technology advances to measure air, sound and visual quality. This project-driven class will have students personally investigating an urban environmental question using wearable sensors or easily deployable environmental monitors.

(LSP 120) or (LSP 121) or (MAT 130 or above) is a prerequisite for this class.
ENV 340 | URBAN ECOLOGY | 4 quarter hours  
(Undergraduate)  
Urban ecology has been described as an "upstart discipline." This is because it is relative new, and challenges the historical emphasis that scientific ecology has placed on pristine and wilderness locations. Thus, this novel discipline examines the way ecological ideas can increase our understanding of cities in ways that assist us in making cities more sustainable - cleaner, healthier and more biodiverse. We also examine how ecology as a discipline can be broadened by its encounter with disciplines that have historically paid more attention to the city: urban sociology, anthropology, geography, economics, demography, architecture and planning. In particular we develop the notion of the system as a social ecological system. This course requires a required lab; and some Saturday field trips.  
BIO 215 or ENV 250 is a prerequisite for this class.  
ENV 341 | URBAN FORESTS AS SOCIAL-ECOLOGICAL SYSTEMS | 4 quarter hours  
(Undergraduate)  
Urban forests include all the trees, forests, and greenspaces in cities and towns. Urban forest management, or urban forestry, is the discipline/profession that seeks to plan and manage this green infrastructure in order to provide ecological, economic, and social benefits to all residents. Trees and vegetation have long been protected and planted in cities and towns for a variety of reasons. Recently, urban forestry has expanded to be a lead focus in the broader arena of urban ecology and urban ecosystem management, with a clear goal of creating sustainable ecosystems. This course will look at urban forests through the lens of social-ecological systems (SESs) of linked human and natural components, with a focus on teaching students the hands-on skills of urban forest management. The course will utilize the talents of a number of guest speakers and field experience facilitators who are professionals in urban forestry to give students a practical, real world introduction to the subject. The DePaul University campus and the City of Chicago and surrounding region will serve as our field laboratory to view an actively managed urban forest. This course meets learning outcomes 1 and 4 for the Environmental Science and Studies majors, outcomes 5 through 8 for the Environmental Science major, outcome 6 in the Environmental Studies major, and outcome 9 for the sustainability concentration.  
ENV 250 (or permission of instructor) is a prerequisite for this course.  
ENV 344 | ENVIRONMENTAL JUSTICE AND ADVOCACY | 4 quarter hours  
(Undergraduate)  
This course explores the roles of individuals and organizations in advocacy through the lens of environmental justice, particularly as power arrangements facilitate or impede consensus building. The course examines how legislation is written and how this process has impacted communities of color. Special attention is paid to advocacy techniques such as lobbying, movement-building, public education and litigation.  
ENV 345 | URBAN AGRICULTURE | 4 quarter hours  
(Undergraduate)  
This course will acquaint students with the challenges, opportunities, practices, and transformative potential of urban agriculture. Taking an interdisciplinary, integrative, case-study approach, this course will explore issues such as food access, food security, food deserts, community gardening, farmers markets, locavore food movement, entrepreneurial aspects of urban agriculture, method of food production, community nutrition, and food consumption patterns. The course will meet both in the classroom and on-site at an urban farm, where students will work in all aspects of the farm as well as learn to organize communities in an effort to help them create food security and access to healthy food systems.  
ENV 350 | ENVIRONMENTAL SCIENCE AND STUDIES CAPSTONE | 4 quarter hours  
(Undergraduate)  
This course examines basic core concepts of and current issues in environmental science drawing on perspectives of the liberal studies curriculum, including reflectiveness, value consciousness, critical and creative thinking, and a multicultural perspective. Status as a senior Environmental Studies or Environmental Science major is a prerequisite for this class.  
ENV 355 | INTRODUCTION TO ENVIRONMENTAL HEALTH | 4 quarter hours  
(Undergraduate)  
Study of the environment factors that influence health. Topics include air and water pollution, global population and local community dynamics, toxicology, infectious and chemical agents, radiation, and management.  
ENV 359 | ADVANCED ENVIRONMENTAL DATA ANALYSIS WITH R | 4 quarter hours  
(Undergraduate)  
Advanced topics in design and analysis of environmental experiments using the free data science software, R. Students will apply univariate and multivariate statistics to publicly available environmental data, interpret results, make appropriate inferences from data, and communicate findings in written and oral format.  
ENV 260 (or equivalent) is a prerequisite for this class.  
ENV 360 | RESEARCH METHODS | 4 quarter hours  
(Undergraduate)  
This course is intended for junior year Environmental Science majors who are preparing for their senior thesis research projects. Topics include the nature and philosophy of science, experimental design, scientific ethics, and scientific writing. Students will prepare a research proposal on a topic to be determined in the first week of the course. Status as an Environmental Science major with junior standing or above is a prerequisite for this class.  
ENV 361 | RESEARCH IN ENVIRONMENTAL SCIENCE | 4 quarter hours  
(Undergraduate)  
ENV 361 is for students who are currently working with an ENV faculty mentor on a research project. Restricted to students majoring in Environmental Science or Environmental Studies; permission of instructor required.  
ENV 362 | SENIOR THESIS | 2 quarter hours  
(Undergraduate)  
ENV 362 is designed for Environmental Science students working on their senior thesis. (2 quarter hours)  
ENV 360 is a prerequisite for this class.  
ENV 390 | SPECIAL TOPICS IN ENVIRONMENTAL SCIENCE | 2-4.5 quarter hours  
(Undergraduate)  
Variable topics.  
ENV 398 | TRAVEL/STUDY | 4-8 quarter hours  
(Undergraduate)  
Foreign and domestic study tours by special arrangement with sponsoring programs: Variable credit.  
ENV 399 | INDEPENDENT STUDY | 1-4 quarter hours  
(Undergraduate)  
Variable credit. Permission of instructor and chair required.
ENV 400 | PLANT IDENTIFICATION | 4 quarter hours
(Graduate)
An in-depth overview of plant families and species in the Chicagoland area. Lectures will focus on morphology of plants, evolutionary relationships among plant families, and terminology of plant structures. Students will use botanical keys and manuals for the area to identify plants and will learn collection techniques. Plant species will be collected in their natural habitats during field trips. Recommended prerequisite is ENV 250 or BIO 215 or the equivalent.

ENV 401 | INTRODUCTION TO URBAN BIODIVERSITY MANAGEMENT | 4 quarter hours
(Graduate)
A fundamental reorientation in biodiversity conservation practice in the past generation concerns the recognition that the contemporary urban environment affords some exceptional opportunities for biodiversity conservation. Though many species avoid human dominated environments, there is now an acknowledgment that many species can tolerate or even thrive in metropolitan areas. Coyotes, and several species of raptors, for example, provide an illustration of this emerging diversity. Furthermore, the open space often set aside in cities afford opportunities for the rehabilitation of habitat in close proximity to people. This course will introduce the perspectives emerging from conservation biology, conservation planning, ecosystem management, restoration ecology, and reconciliation ecology that contribute to the thriving practice of urban biodiversity management.

ENV 402 | URBAN ECOLOGY | 4 quarter hours
(Graduate)
Urban ecology has been described as an "upstart discipline". This is because it is relatively new, and challenges the historical emphasis that scientific ecology has placed on pristine and wilderness locations. Thus, this novel discipline examines the way ecological ideas can increase our understanding of cities in ways that assist us in making cities more sustainable - cleaner, healthier and more biodiverse. We also examine how ecology as a discipline can be broadened by its encounter with disciplines that have historically paid more attention to the city: urban sociology, anthropology, geography, economics, demography, architecture and planning. In particular, we explore "social ecological system" analysis as a way of framing question concerning people and nature in metropolitan settings.

ENV 403 | ECOLOGICAL DATA ANALYSIS WITH R | 4 quarter hours
(Graduate)
This course will provide students with the skills to implement the most common statistical methods used in the environmental sciences. It builds upon students’ prior knowledge of statistical thinking, and addresses real data to address the sorts of questions students are likely to encounter in their professional lives. The course fosters active learning by experiencing statistics; student design studies, collect data, analyze data using appropriate software, and amplifies students’ ability to interpret results, communicate statistical inferences with written and oral reports.
ENV 260 (or equivalent) is a prerequisite for this class.

ENV 404 | APPLIED ECOLOGICAL MANAGEMENT PRACTICUM | 4 quarter hours
(Graduate)
Successful environmental management requires a balanced approach to the theoretical framing of problems and the practical implementation of solutions. Scientists can fail to be informed by phenomena that emerge in the field of practice, and conversely practitioners at times do not draw upon the best available scientific evidence. This course focuses both on the productive tension between theory and practice in environmental management, as well as the integration of ecological and social science in the applied discipline. Collaborating with multiple organizations in the region, the class consists of field visits, professional seminars and guest lectures, case studies, hands-on workshops and practicum research. Central themes include restoration ecology, traditional ecological knowledge, environmental justice, climate science, urban biocultural diversity, and volunteer stewardship.

ENV 405 | INTERNSHIP | 4 quarter hours
(Graduate)
A course of study is set out in agreement with a supervising professor that outlines an internship experience, including reflective assignments. Permission of instructor and chair required.

ENV 406 | INDEPENDENT PROJECT | 4 quarter hours
(Graduate)
A course of study is set out in agreement with a supervising professor that will inculcate the student with a very specific set of knowledge, or skill set.

ENV 407 | RESEARCH FOR MASTER THESIS | 4 quarter hours
(Graduate)
This course prepares students for thesis research. In agreement with research supervisory the topics may include accounts of the nature and philosophy of science, experimental design, scientific ethics, and scientific writing. Students will prepare a thesis research proposal on a topic to be determined in the first week of the course.

ENV 410 | ENVIRONMENTAL SOIL SCIENCE | 4 quarter hours
(Graduate)
An examination of the physical, chemical, biological and engineering properties of soils, their genesis and classification, how they function as sites of waste disposal, and their role in global agricultural production. The course includes a three-hour lab and a mandatory Saturday field trip. Recommended prerequisites for this class are LSP 120 or LSP 121 or MAT 130 or the equivalent and CHE 103 or CHE 130 or ENV 203.

ENV 415 | PLANT ECOLOGY | 4 quarter hours
(Graduate)
This course focuses on how plants are affected by abiotic factors in the environment and interactions with other organisms. Goals are to improve students’ abilities to understand research papers, present overviews of current research, design experiments, and analyze data. The course includes weekly labs with greenhouse experiments or field trips followed by data analysis. Topics include germination ecology, pollination biology, competition between plants, and effects of herbivory. Recommended prerequisites are ENV 250 or BIO 215 or the equivalent.
ENV 420 | CONSERVATION BIOLOGY | 4 quarter hours  
(Graduate)
Conservation biology is an interdisciplinary field that has developed in response to the challenge of preserving species and ecosystems. With a specific focus on the Chicago area, students in this course will: assess key threats to biodiversity and the challenges associated with conservation of native communities, evaluate how different institutions implement conservation in the region, and engage with the primary literature related to the field of conservation biology. Recommended prerequisite is ENV 250 or BIO 215.

ENV 422 | ECOSYSTEM ECOLOGY | 4 quarter hours  
(Graduate)
This course will introduce students to the conceptual and methodological tools of ecosystem ecology. The course will focus on understanding the fundamental structure and function of ecosystems but will also address very recent debates on the economic value of ecosystem services, the role of biological diversity in maintaining ecosystem processes, and the consequences of stressed and degraded ecosystems for human welfare. Finally, we assess the role of ecosystem ecology in designing sustainable restoration projects. Recommended prerequisite is ENV 250 OR BIO 215.

ENV 425 | ANIMAL DIVERSITY | 4 quarter hours  
(Graduate)
This course investigates the diversity of animals, including invertebrates and vertebrates. Discussions include the origin and evolution of animals, species concepts, developmental biology, taxonomic classification, phylogenetic systematics, and conservation biology.

ENV 205 (or BIO 192) is a prerequisite for this class.

ENV 440 | URBAN ECOLOGY | 4 quarter hours  
(Graduate)
In this course we examine the way ecological ideas can increase our understanding of cities in ways that assist us in making cities more habitable - cleaner, healthier and more biodiverse. We will pay considerable attention to the ways in which ecology can be broadened by its encounter with disciplines that have historically paid more attention to the city: urban sociology, anthropology, economics, demography, architecture and planning. This course has a required lab; some Saturday field trips.

ENV 441 | URBAN FORESTS AS SOCIAL-ECOLOGICAL SYSTEMS | 4 quarter hours  
(Graduate)
Urban forests include all the trees, forests, and greenspaces in cities and towns. Urban forest management, or urban forestry, is the discipline/ profession that seeks to plan and manage this green infrastructure in order to provide ecological, economic, and social benefits to all residents. Trees and vegetation have long been protected and planted in cities and towns for a variety of reasons. Recently, urban forestry has expanded to be a lead focus in the broader arena of urban ecology and urban ecosystem management, with a clear goal of creating sustainable ecosystems. This course will look at urban forests through the lens of social-ecological systems (SESs) of linked human and natural components, with a focus on teaching students the hands-on skills of urban forest management. The course will utilize the talents of a number of guest speakers and field experience facilitators who are professionals in urban forestry to give students a practical, real world introduction to the subject. The DePaul University campus and the City of Chicago and surrounding region will serve as our field laboratory to view an actively managed urban forest. Recommended prerequisite is ENV 250 OR BIO 215.

ENV 450 | THESIS RESEARCH | 4 quarter hours  
(Graduate)
This course is designed for students undertaking research projects in conjunction with their thesis.

ENV 490 | SPECIAL TOPICS | 2-4 quarter hours  
(Graduate)
Variable topics. Variable credit.

ENV 499 | INDEPENDENT STUDY | 2-4 quarter hours  
(Graduate)
Permission of instructor and chair required. Variable credit.

ENV 502 | CANDIDACY CONTINUATION | 0 quarter hour  
(Graduate)
Students who have completed their coursework and are actively working on the requirements for the Master’s thesis or final independent project must enroll in candidacy continuation each quarter of the academic year until the Master’s requirement has been completed. This course carries the equivalent of half-time enrollment status. Course requires graduate program director approval and proof of work each quarter. Pass/No Pass grading. (0 credit hours)

ENV 503 | CANDIDACY MAINTENANCE | 0 quarter hour  
(Graduate)
This course is meant for Master’s students not actively working on their thesis or final independent project. It is only used to maintain active student status. It will not give the student full- or half-time enrollment status and will not permit deferment of student loans. Course requires graduate program director approval each quarter. (0 credit hours)

ENV 506 | SUSTAINABILITY SCIENCE: ENVIRONMENTAL LIMITS, HUMAN NEEDS, & SYSTEMS THINKING | 4 quarter hours  
(Graduate)
This course aims to orient students to the problems of the `Anthropocene? ? a new geologic epoch characterized by climate change, increasing human population, pollution of air, water and soil, overuse of natural resources, and underserving of human needs. This course will help students think about solutions to these challenges through the discipline of `sustainability science,? and build `systems thinking? skills. Graduate standing is a prerequisite for this class.

Experience Design (EXP)

EXP 170 | MAKE IT AT DEPAUL | 2 quarter hours  
(Undergraduate)
This course combines the technical ?how to? skills of making, with more fundamental ideas underpinning the thought processes behind creative and design thinking that emerge through making. Throughout this course, students will be provided with contexts through which to learn, while being given the latitude to follow their intuition and to find their own problems. Students will tinker with digital fabrication, embedded systems, and hardware design through individual and group projects. No prior experience is required.

EXP 210 | DESIGN AND FABRICATION FOR PHYSICAL SPACE WORKSHOP | 2-2.25 quarter hours  
(Undergraduate)
This workshop introduces students to design principles for public spaces and physical interaction. Students will explore space through wayfinding, installations, kiosks and other projects to understand the role technology plays in varying environments. A focus on 3D design principles and ergonomics will be a prominent theme throughout the course. Students will experiment with various materials, including cloth, clay, 3D printing and other 3D modeling materials.
EXP 250 | HARDWARE DESIGN BASICS WORKSHOP | 2-2.25 quarter hours (Undergraduate)

This workshop applies problem solving and programming skills toward building physical systems using an array of fundamental skills. The course will cover basic electronics and hardware skills like soldering, circuit building, and basic programming for an electronic prototyping platform to interface with digital and analog inputs (sensors), control motors, and use displays. Throughout the workshop you will work in groups to build basic physical systems (e.g., controlling LEDs) to moderately sophisticated ones (e.g., developing remote controls). PREREQUISITE(S): EXP 240 or CSC 241 or IT 130.

EXP 250 | HARDWARE DESIGN BASICS WORKSHOP | 2-2.25 quarter hours (Undergraduate)

This workshop applies problem solving and programming skills toward building physical systems using an array of fundamental skills. The course will cover basic electronics and hardware skills like soldering, circuit building, and basic programming for an electronic prototyping platform to interface with digital and analog inputs (sensors), control motors, and use displays. Throughout the workshop you will work in groups to build basic physical systems (e.g., controlling LEDs) to moderately sophisticated ones (e.g., developing remote controls). PREREQUISITE(S): EXP 240 or CSC 241 or IT 130.

EXP 210 and ISM 210 are prerequisites for this class

EXP 360 | PHYSICAL & INTERACTIVE EXHIBITS | 4 quarter hours (Undergraduate)

With the introduction of new, widely-available interactive technologies, physical computer-based exhibits are adapting to incorporate multi-touch interfaces, motion-sensing spaces, and interconnected systems. In this workshop, students will explore the development of interactive exhibits while utilizing skills in interaction design, physical technology, and desktop fabrication. Accompanying lectures will cover the affordances of physical space in design and the utilization of augmented reality, real-time sensing, eye tracking, and other technologies while rethinking how technology is used in museums and other public spaces. EXP 250 and EXP 210 and ISM 210 are prerequisites for this class.
EXP 442 | DESIGNING INTERFACES FOR EMERGING TECHNOLOGIES | 4 quarter hours
(Undergraduate)
This course focuses on the concept of "interface" as it relates to the design of human-centered experiences. From an inquiry into the design of digital interfaces for web and mobile platforms, to the exploration of non-digital social interfaces in day-to-day life, students will apply user research and design methods to prototype and test a range of interface solutions. The course is designed as a stepping stone to a student's own investigations and interests, as well as a space for exploration and experimentation with alternative design processes and methodologies. HCD 450 OR HCI 440 is a prerequisite for this class.

EXP 450 | PORTFOLIO WORKSHOP | 4 quarter hours
(Undergraduate)
Students review previous course projects and prior work in order to prepare a final portfolio as well as their own design identity and a resume in preparation for job interviews. Visiting design professionals will present their work to the class and share their experiences in the field. Students will also learn presentation techniques and methods for career development. PREREQUISITE(S): HCD 421. HCD 421 is a prerequisite for this class.

EXP 480 | COLLABORATION STUDIO | 4 quarter hours
(Undergraduate)
This is a unique type of studio course, pairing interdisciplinary teams of students with community-based organizations or groups to undertake real-world projects. Working in teams, students engage with a local group to study and identify an area of inquiry, to be formulated by students into one or more design problems to be solved. Applying user research methods, a rigorous design, design and production skills, and effective teamwork, the students propose and prototype solutions in partnership with members of the local community. PREREQUISITE(S): HCD 421. HCD 421 is a prerequisite for this class.

Film & Television Documentary (DOC)

DOC 122 | ART OF DOCUMENTARY (FORMERLY DC 204) | 4 quarter hours
(Undergraduate)
This course explores the variety of styles and concerns that shape documentaries. Students will learn the evolution of unique voices and influences in documentary. The course will examine the broad range of documentary practices from the earliest actualities to contemporary documentary media through weekly screenings. PREREQUISITE(S): NONE.

DOC 224 | DOCUMENTARY PRODUCTION I (FORMERLY DC 289) | 4 quarter hours
(Undergraduate)
This introductory hands-on course introduces and explores a wide variety of documentary styles and techniques. Through screenings of classic and contemporary films, lecture, and discussion, students learn different styles of documentary storytelling and visualization and apply these to four exercises over the quarter. Every student will rotate through crew roles and produce, direct, shoot, and record sound. FILM 110 OR FILM 111 OR FILM 102 is a prerequisite for this class.

DOC 305 | DOCUMENTARY STORYTELLING (FORMERLY DC 369) | 4 quarter hours
(Undergraduate)
The course is designed to further develop the skills needed for creating compelling and dramatic non-fictional storytelling. The class will investigate various approaches to documentary and analyze the basic narrative principles in various media. Regular viewing of documentary films will encourage discussion on topics of finding original stories, development of narratives, developing characters, story structure, the ethics of representation, and the question of "what is truth?" Students will create a proposal for a documentary film.

DOC 312 | EDITING THE DOCUMENTARY (FORMERLY DC 351) | 4 quarter hours
(Undergraduate)
Editing the Documentary will expose students to the specialized post-production workflow of documentary film. Utilizing a workshop atmosphere in combination with lectures and projects, students will gain an appreciation of the art and craft of documentary film editing. This course will cover an overview of current documentary trends and styles, explore various workflows to find the story in documentary footage, the ethical role of editor in shaping the stories of real people and events, how to apply the visual language of fiction to documentary film, use of archival media in a contemporary way, how to structure the story scene to scene and where to start and end the story. PREREQUISITES: POST 110.

DOC 324 | DOCUMENTARY PRODUCTION II (FORMERLY DC 371) | 4 quarter hours
(Undergraduate)
This hands-on course builds on skills learned in DC 289. Students will work in groups to produce, direct, and edit a short subject documentary over the course of the quarter. Students will be exposed to all stages of the documentary filmmaking process including potential for public exhibition, festival acceptance, and/or as a fundraising tool for a long-form project. DOC 224 is a prerequisite for this class.

DOC 326 | DOCUMENTARY PRODUCING (FORMERLY DC 386) | 4 quarter hours
(Undergraduate)
The course will cover the key areas of producing for documentaries, which encompasses pre-production, production, marketing, fundraising, and community outreach and engagement. Students will gain knowledge of the ways in which producers engage with writers, directors, editors, grant making institutions, individual donors, festival marketplaces, exhibitors and broadcasters. This course will be project-based and include developing a fundraising and distribution plan, identifying audiences, grant writing and developing a proposal.

DOC 333 | DOCUMENTARY PRODUCTION SOUND WORKSHOP | 2 quarter hours
(Undergraduate)
This course will give the student the confidence and technical skills to operate a documentary sound kit in dynamic shooting situations. This course will focus on applied sound recording techniques specific to the documentary format, including short and feature film projects. The students will record audio in controlled and uncontrolled situations while exercising the skills required in pre-production, production, and post-production of advanced documentary films. Students will evaluate their sound quality and troubleshoot various real-life scenarios to connect to practical solutions.
DOC 339 | TOPICS IN DOCUMENTARY PRODUCTION | 2-2.25 quarter hours
(Undergraduate)
This class will be a hands-on workshop exploring a film production process or technique that has had a significant influence on the development of non-fiction storytelling and expression. Students will create short documentaries on topics of their choosing, utilizing and incorporating the method being taught. Specific topics will vary with each quarter. Classes will consist of lectures, screenings, in-class production, discussion and analyses, culminating in creative assignments. Students are encouraged to explore their individual creative voice and to use this knowledge to stimulate original work in their areas of interest.

DOC 224 is a prerequisite for this class.

DOC 352 | DOCUMENTARY CINEMATOGRAPHY (FORMERLY DC 378) | 4 quarter hours
(Undergraduate)
This course focuses on the language, practice and art of visual storytelling in the documentary form. Students will examine the cinematographer's role in the ideation, shooting and editing of non-fiction film content. Through a series of screenings, lectures, experiential exercises, and class discussions, students will better understand the history and practice of cinematography as it pertains to story, character and structure - all through the prism of documentary. PREREQUISITE(S): None.

DOC 372 | DOCUMENTARY LAW AND ETHICS (FORMERLY DC 367) | 2 quarter hours
(Undergraduate)
Students will explore the legal and ethical issues that can arise in the course of documentary and non-fiction media production. The course will discuss standards and practices; decision making and creative control; archival footage and its fair use; legal requirements and implications; the question of informed consent; and ethical issues ranging from paying subjects, staging and reenactments, to sale and resale footage. Case studies of selected documentary films will be presented and analyzed by the class. (2 credit quarter hours)

DOC 382 | THE PERSONAL DOCUMENTARY (FORMERLY DC 366) | 4 quarter hours
(Undergraduate)
This class is designed to help students identify their personal voices through a variety of techniques, styles and tools of non-traditional documentary film making. Students explore their relationships to their subject matter and express themselves in creative and authentic ways through video. Although the class is process oriented, students are expected to finish a short personal documentary and to develop a proposal for future work. PREREQUISITE(S): DOC 324.

DOC 384 | DOCUMENTARY PRODUCTION 3 (FORMERLY DC 373) | 4 quarter hours
(Undergraduate)
This advanced course in documentary production is designed for students who already have experience with making documentaries. In this course, each student will direct and produce a substantial short subject documentary and serve as a crew member on at least one other student project. Topics covered will include choice of subject matter, filmmaker's POV, dramatic structure, proposal writing, and a variety of technical, aesthetic, practical, and ethical concerns related to producing professional documentary projects.

DOC 324 is a prerequisite for this class.

DOC 396 | ADVANCED TOPICS IN DOCUMENTARY (FORMERLY DC 374) | 4 quarter hours
(Undergraduate)
This class will be an in-depth examination of a documentary filmmaker, film movement, production style or technique that has had a significant influence on the development of documentary storytelling and expression. Through lectures, screenings, readings, discussions, and creative assignments, students will analyze the distinctive traits of the selected topics within the broader context of cinema history and culture and apply them to their own projects. Specific topics will be selected by the instructor and will vary with each quarter.

DOC 399 | INDEPENDENT STUDY | 1-8 quarter hours
(Undergraduate)
Variable credit. PREREQUISITE(S): Consent of dean.

DOC 405 | NON-FICTION STORYTELLING (FORMERLY DC 469) | 4 quarter hours
(Graduate)
The course is designed to further develop the skills needed for creating compelling and dramatic non-fictional storytelling. The class will investigate various approaches to documentary and analyze the basic narrative principles in various media. Regular viewing of documentary films will encourage discussion on topics of finding original stories, research and development of narratives, developing characters, story structure, the ethics of representation, and the question of "what is truth?" Students will create a proposal for a documentary film.

DOC 412 | EDITING THE DOCUMENTARY (FORMERLY DC 451) | 4 quarter hours
(Graduate)
Editing the Documentary will expose students to the specialized post production workflow of documentary film. Utilizing a workshop atmosphere in combination with lectures and projects, students will gain an appreciation of the art and craft of documentary film editing. This course will cover an overview of current documentary trends and styles, explore various workflows to find the story in documentary footage, the ethical role of editor in shaping the stories of real people and events, how to apply the visual language of fiction to documentary film, use of archival media in a contemporary way, how to structure story scene to scene and where to start and end the story.

DOC 414 | INTRO TO DOCUMENTARY PRODUCTION | 4 quarter hours
(Graduate)
This introductory hands-on course introduces and explores a wide variety of documentary styles and techniques. Through screenings, lecture, and discussion, students learn different styles of documentary storytelling and visualization and apply these to three exercises over the quarter. Every student will rotate through crew roles and produce/direct, shoot, and record sound.

DOC 424 | DOCUMENTARY PRODUCTION (FORMERLY DC 471) | 4 quarter hours
(Graduate)
Through this course students experience all stages of making a documentary film, including developing an idea, writing a proposal, pre-production, production and post-production. Students work in groups to produce a short documentary. Students also analyze and discuss contemporary documentary films to inform their choices. PREREQUISITE(S): FILM 410 and POST 400.
DOC 426 | DOCUMENTARY PRODUCING (FORMERLY DC 486) | 4 quarter hours
(Graduate)
The course will cover the key areas of producing for documentaries, which encompasses pre-production, production, marketing, fundraising, and community outreach and engagement. Students will demonstrate a knowledge of the ways in which producers engage with directors, editors, grant making institutions, individual donors, festival marketplaces, exhibitors and broadcasters. This course will be project-based and students will develop a proposal for a documentary, identify target audiences, identify relevant funding organizations and foundations, write grants, and develop a fundraising and distribution plan. Prerequisite(s): none.

DOC 433 | DOCUMENTARY SOUND WORKSHOP | 2 quarter hours
(Graduate)
This course will give the student the confidence and technical skills to operate a documentary sound kit in dynamic shooting situations. This course will focus on applied sound recording techniques specific to the documentary format, including short and feature film projects. The students will record audio in controlled and uncontrolled situations while exercising the skills required in pre-production, production, and post-production of advanced documentary films. Students will evaluate their sound quality and troubleshoot various real life scenarios to connect to practical solutions.

DOC 439 | TOPICS IN DOCUMENTARY PRODUCTION WORKSHOP | 2-2.25 quarter hours
(Graduate)
This class will be a hands on workshop exploring a film production process or technique that has had a significant influence on the development of non-fiction storytelling and expression. Students will create short documentaries on topics of their choosing, utilizing and incorporating the method being taught. Specific topics will vary with each quarter. Classes will consist of lectures, screenings, in-class production, discussion and analyses, culminating in creative assignments. Students are encouraged to explore their individual creative voice and to use this knowledge to stimulate original work in their areas of interest. DOC 414 or DOC 424 is a prerequisite for this course.

DOC 452 | DOCUMENTARY CINEMATOGRAPHY (FORMERLY DC 478) | 4 quarter hours
(Graduate)
This course focuses on the language, practice and art of visual storytelling in the documentary form. Students will examine the cinematographer’s role in the ideation, shooting and editing of non-fiction film content. Through a series of screenings, lectures, experiential exercises and class discussions, students will better understand the history and practice of cinematography as it pertains to story, character and structure - all through the prism of documentary. PREREQUISITE(S): None.

DOC 460 | INTERACTIVE DOCUMENTARY (FORMERLY DC 468) | 4 quarter hours
(Graduate)
This course will introduce the evolving media form of interactive non-fiction storytelling. Students will examine the historical context of the genre, analyze the advantages and effectiveness of one media form over another, and explore current production styles and techniques of transmedia and interactive narratives. Students will create individual and group projects revolving around a contemporary theme utilizing different forms of media including film, audio, photography, animation, illustration, writing, and game design.

DOC 472 | DOCUMENTARY LAW AND ETHICS (FORMERLY DC 467) | 2 quarter hours
(Graduate)
Students will explore the legal and ethical issues that can arise in the course of documentary and non-fiction media production. The course will discuss standards and practices; decision making and creative control; archival footage and its fair use, legal requirements and implications; the question of informed consent; and ethical issues ranging from paying subjects, staging and reenactments, to sale and resale footage. Case studies of selected documentary films will be presented and analyzed by the class. (2 quarter hours)

DOC 482 | THE PERSONAL DOCUMENTARY (FORMERLY DC 466) | 4 quarter hours
(Graduate)
This class is designed to help students identify their personal voices through a variety of techniques, styles and tools of non-traditional documentary filmmaking. Students explore their relationships to their subject matter and express themselves in creative and authentic ways through video. Although the class is process oriented, students are expected to finish a short personal documentary and to develop a proposal for future work. PREREQUISITE(S): DOC 424.

DOC 484 | ADVANCED DOCUMENTARY PRODUCTION (FORMERLY DC 473) | 4 quarter hours
(Graduate)
This advanced course in documentary production is designed for students who already have experience with making documentaries. In this course, each student will direct and produce a substantial short subject documentary and serve as a crew member on at least one other student project. Topics covered will include choice of subject matter, filmmaker’s POV, dramatic structure, proposal writing, and a variety of technical, aesthetic, practical, and ethical concerns related to producing professional documentary projects. DOC 424 is a prerequisite for this class.

DOC 486 | ADVANCED TOPICS IN DOCUMENTARY (FORMERLY DC 474) | 4 quarter hours
(Graduate)
This class will be an in-depth examination of a filmmaker, film genre, film movement, or film production technique that has had a significant influence on the development of non-fiction storytelling and expression. Through lectures, screenings, readings, discussions, critical writing assignments, and/or creative projects, students will analyze the distinctive traits of the selected topic within the broader context of documentary history and culture. Specific topics will be selected by the instructor and will vary with each quarter. Classes will consist of lectures, screenings, in-class discussions, analyses, as well as creative assignments. Students are encouraged to explore their individual creative "voice" and to use this knowledge to stimulate original work in their areas of interest.

DOC 496 | THE PERSONAL DOCUMENTARY (FORMERLY DC 466) | 4 quarter hours
(Graduate)
This class is designed to help students identify their personal voices through a variety of techniques, styles and tools of non-traditional documentary filmmaking. Students explore their relationships to their subject matter and express themselves in creative and authentic ways through video. Although the class is process oriented, students are expected to finish a short personal documentary and to develop a proposal for future work. PREREQUISITE(S): DOC 424.

DOC 482 | THE PERSONAL DOCUMENTARY (FORMERLY DC 466) | 4 quarter hours
(Graduate)
This class is designed to help students identify their personal voices through a variety of techniques, styles and tools of non-traditional documentary filmmaking. Students explore their relationships to their subject matter and express themselves in creative and authentic ways through video. Although the class is process oriented, students are expected to finish a short personal documentary and to develop a proposal for future work. PREREQUISITE(S): DOC 424.

DOC 599 | INDEPENDENT STUDY | 1-8 quarter hours
(Graduate)
Independent study form required. PREREQUISITE(S): Consent of instructor. (variable credit)
DOC 701 | THESIS CONTINUATION | 0 quarter hour  
(Graduate)  
Non-credit. Students admitted to MFA program who have completed all the required coursework and who are regularly using the facilities of the University for thesis production and/or post-production are required to be registered each quarter of the academic year until the thesis and defense have been completed.  
FILM 510 or ANI 640 is a prerequisite for this class.

Film & Television Production (FILM)

FILM 100 | INTRODUCTION TO CINEMA: THE ART OF MAKING MOVIES (FORMERLY DC 100) | 4 quarter hours  
(Undergraduate)  
This lecture-based course will introduce students to the art of cinema from the point of view of the filmmaker. Through screenings of contemporary and classic films, students will gain an appreciation of the various crafts involved in the making of movies, such as: acting, directing, producing, screenwriting, cinematography, production design, editing, sound, or visual effects.

FILM 101 | FOUNDATIONS OF CINEMA FOR MAJORS (FORMERLY DC 110) | 4 quarter hours  
(Undergraduate)  
This course deals with visualization and cinema literacy skills. Drawing heavily on a wide array of historical examples, the course will examine the many expressive strategies potentially usable in the creation of moving image art forms: image construction and manipulation, editing, composition, sound, narrative, and performance. An emphasis will be placed on story and storytelling. In addition to analyzing the works of others, students will also produce their own projects - putting theory into practice. Prerequisite(s): None.

FILM 102 | FOUNDATIONS OF CINEMA FOR NON-MAJORS (FORMERLY DC 205) | 4 quarter hours  
(Undergraduate)  
This course will examine the craft, technology, and aesthetic principles of media production. Drawing heavily on a wide array of historical examples, the course will examine the many expressive strategies potentially usable in the creation of moving image art forms: the importance of story and controlling ideas, storytelling with images, the basics of composition and editing, and an examination of narrative, documentary, and experimental approaches. In addition to analyzing the works of others, students will also produce their own projects thus, putting theory into practice.

FILM 104 | VIDEO FOR SOCIAL MEDIA (FORMERLY DC 111) | 4 quarter hours  
(Undergraduate)  
An introduction to video production for social media. Students learn how to produce videos with consumer-grade equipment (including cell phones). The course covers the basic principles of shooting, editing and uploading to social media sites. The course offers students an opportunity to create media specifically targeted for social websites such as: Facebook, MySpace, Twitter, etc. Students will learn the production process from idea execution to distribution. PREREQUISITE(S): None.

FILM 105 | FOUNDATIONS OF TELEVISION (FORMERLY TV 110) | 4 quarter hours  
(Undergraduate)  
This course provides an introduction and framework of the history of television production. Evolving story forms will be examined from television's beginnings to the present. Developments in story and production styles will be analyzed and discussed. Professionals from different sectors of the Chicago television industry will speak to the class in panels.

FILM 110 | DIGITAL CINEMA PRODUCTION I (FORMERLY DC 210) | 4 quarter hours  
(Undergraduate)  
This course is a beginning workshop in narrative film production. The course provides an introduction to the fundamentals of cinema, including camera and lens technology, composition, lighting, directing and sound recording. Utilizing digital technology, students will produce several films with an emphasis on visual storytelling and personal expression. POST 110 and MCS 274 are prerequisites for this class.

FILM 111 | CINEMA PRODUCTION FOR NON-MAJORS (FORMERLY DC 150) | 4 quarter hours  
(Undergraduate)  
The course provides an introduction to the fundamentals of cinema production, including cinematography, directing and sound. Students will produce at least one fiction project with an emphasis on visual storytelling. PREREQUISITE(S): None.

FILM 115 | TELEVISION PRODUCTION I (FORMERLY TV 271) | 4 quarter hours  
(Undergraduate)  
An introduction to the basic principles, procedures, and techniques of television production. Students are organized in teams and create various TV broadcasts. Students learn how to operate TV switchers, TV cameras, sound, and graphic equipment. The course covers the fundamentals of producing, scripting, directing, and editing for television. FILM 110 is a prerequisite for this class.

FILM 116 | INTRODUCTION TO TV PRODUCTION FOR NON-MAJORS (FORMERLY TV 171) | 4 quarter hours  
(Undergraduate)  
An introduction to the basic principles, procedures, and techniques of television production. This course will explore how to create a single-cam and a multi-cam television program. It will also introduce live and pre-recorded processes, practicing the essential activities that crews need to perform in these different formats. FILM 110 or FILM 111 is a prerequisite for this class.

FILM 130 | FUNDAMENTALS OF SHORT FILM (FORMERLY DC 102) | 4 quarter hours  
(Undergraduate)  
Students will study approximately 100 well-crafted and landmark short films from throughout film history. Through screenings, analysis, analysis and discussion, students will explore these short films’ story structure, cinematic design and historical importance. Additionally, students will examine how the short film format can be used as an illustration of a filmmaker’s skills in order to navigate the film industry. Short films will include: narrative, experimental, documentary, and animation from different parts of the world. PREREQUISITE(S): None.
FIELDS 131 | HISTORY OF CINEMA PRODUCTION (FORMERLY DC 206) | 4 quarter hours
(Undergraduate)
This course studies the origins and rise of cinema production from the perspective of a filmmaker. The course examines critical historical events that impacted the industry and the craft of filmmaking; the emergence of the studio system, the coming of sound, audience shifts, emergence of other media and the rise of digital technology. PREREQUISITE(S): NONE.

FIELDS 145 | DIGITAL MEDIA LITERACIES (FORMERLY DC 105) | 4 quarter hours
(Undergraduate)
This course is designed to help students develop an informed, critical and practical understanding of new communication media, including ways to read, write and produce in a digital environment. We will explore implications of these technologies and their uses in schools, communities, and workplaces. The course also focuses on practices involving current and future technologies that hold promise for the creation and distribution of all media.

FIELDS 165 | DIGITAL STILL PHOTOGRAPHY FOR NON-MAJORS (FORMERLY DC 125) | 4 quarter hours
(Undergraduate)
This course is an introduction to the history and aesthetics of still photography and to the concept of photography as a descriptive and interpretive artistic medium. Students studying photographs in this context will discover relationships between individual photographers' choices and their own understanding of meaning. Discussions of the photos' cultural contexts and meanings will deepen their understanding of the role of still photography as a conduit for cultural values. Students will learn the fundamental concepts necessary to shoot, edit, manipulate, and print digital still photographs. Also, students will acquire the knowledge needed to analyze and critique existing work. Students will be required to use their own digital still cameras for this course.

FIELDS 170 | THE ART OF PRODUCTION DESIGN (FORMERLY DC 121) | 4 quarter hours
(Undergraduate)
This course explores production design and art direction as a narrative art form in cinema and examines the collaborative relationship between director, production designer and cinematographer. Using films, observational readings, screenplays, lectures, research, and discussion, students will study the fundamentals of a production designer's approach towards visualizing and conceptualizing story. Students will also gain a historical perspective of how the role of production design has evolved and how advances in technology have influenced the various crafts.

FIELDS 184 | STAND-UP COMEDY (FORMERLY DC 104) | 4 quarter hours
(Undergraduate)
Students will analyze and practice stand-up comedy as an art form, both onstage and as a foundation for film and television work. Students will learn about the history of stand-up comedy, particularly about the comedians who parlayed success on the stage into success in television and films. The process of how comedians create material and hone it on stage will be analyzed. Additionally, students will mine their own lives for material, creating original stand-up comedy routines and workshop them in class. Finally, these routines will be performed in public, at venues such as the Main Stage at the world-renowned Zanies Comedy Club.

FIELDS 210 | CINEMA PRODUCTION II (FORMERLY DC 310) | 4 quarter hours
(Undergraduate)
This course expands on topics covered in DC 210 Production I. Students will refine their skills in the areas of line-producing, pre-production, cinematography, lighting, sound recording, post production work flow. FILM 250 and POST 124 are prerequisites for this class.

FIELDS 228 | ETHICS IN COMPUTER GAMES AND CINEMA (FORMERLY DC 228) | 4 quarter hours
(Undergraduate)
Societies function based on normative ethics utilizing common sense to distinguish between ethical and unethical behavior. Most of us are not aware of the underlying theories when arriving at ethical judgments about right and wrong. However, the fast pace of progress in information technologies and digital entertainment creates an environment, in which ethical challenges are particularly complex. In the eyes of many, games and movies are violent, offensive and immoral. This course will concentrate on analyzing the impact of digital entertainment on an individual and society. Implications of certain values embedded in games and movies will be discussed. Elements of the ethical code of conduct for a game or movie creator will be formulated. The issue of balancing individual creativity vs. cultural impact particularly on children will be discussed.

FIELDS 232 | CREATIVE METHODOLOGIES FOR FILM AND TELEVISION (FORMERLY DC 213) | 4 quarter hours
(Undergraduate)
This class focuses on creative methods and processes useful for a variety of roles in film and television, including: ideation, divergent thinking, the role of environment/community, and how to avoid creative blocks. The class encourages students to embrace self-directed learning, explore who they are as creative individuals, and unlock the themes and forms at the core of their artistic visions.

FIELDS 233 | CINEMA & ART (FORMERLY DC 233) | 4 quarter hours
(Undergraduate)
This course will provide an overview of avant-garde film, video, animation and installation, and the relationship of these cinematic forms to Modern and Contemporary art. Students will be introduced to the major styles and themes of alternative and experimental moving image work from the past hundred years. Cinema & Art places emphasis on moving image work that is not usually included in a survey of mainstream cinema or film history. A major concern for the class is first-hand exposure to these original sources, and an examination of the relationship of these works to mainstream cinema and other types of popular culture. Topics covered in the class include the avant-garde and kitsch, Surrealism, experimental film, abstract animation, video art, camp, and video installation. In addition to lectures by visiting artists and viewing films, videos, and installation work, students will produce a short creative work in the style of their choice that responds to the work studied during the quarter.

FIELDS 235 | FILM AESTHETICS: TIME, SPACE, AND MEMORY (FORMERLY DC 273) | 4 quarter hours
(Undergraduate)
This course introduces students to practical applications of aesthetics in the production and appreciation of cinema. Analyzing a diverse selection of films throughout the course, students will identify and define the aesthetic systems of time, space, and memory in the process of filmmaking. In doing so, students will enhance identification of the application of aesthetics in their own personal work. The culmination of the course will find students producing a media project encompassing the conceptual framework of the course.
FILM 236 | FILM PHILOSOPHY FOR MAJORS (FORMERLY DC 226) | 4 quarter hours
(Undergraduate)
Using film as a lens through which philosophical ideas are examined, students will analyze narrative or documentary films (classic or contemporary) on enduring philosophical questions such as: what is truth; what is right; or what is the meaning of life. Particular attention will be paid to the possible influence of philosophy on aesthetic and storytelling choices made by filmmakers. PREREQUISITE(S): None.

FILM 237 | FILM PHILOSOPHY (FORMERLY DC 227) | 4 quarter hours
(Undergraduate)
An introduction to philosophy, using film as a lens through which philosophical ideas are examined. In discussion and writing, students analyze narrative or documentary films (classic or contemporary) on enduring philosophical questions such as: what is truth; what is right; or what is the meaning of life.

FILM 245 | MEDIA LITERACIES (FORMERLY DC 200) | 4 quarter hours
(Undergraduate)
This course is designed to help students develop an informed, critical and practical understanding of new communication media, including ways to read, write and produce in a digital environment. We will explore implications of these technologies and their uses in schools, communities, and workplaces. The course also focuses on practices involving current and future technologies that hold promise for the creation and distribution of all media. Prerequisites: None.

FILM 250 | CINEMATOGRAPHY I (FORMERLY DC 275) | 4 quarter hours
(Undergraduate)
This course is an overview of the technologies and aesthetic principles of cinematography. The concepts covered will include digital formats, measurement and control of exposure, basic lens properties, camera support and movement, rules of composition and the placement and control of light. Class sessions will consist of lectures, demonstrations, hands-on exercises and screenings of selected film clips which demonstrate specific cinematography techniques. FILM 110 is a prerequisite for this class.

FILM 251 | CINEMATOGRAPHERS AT WORK (FORMERLY DC 276) | 4 quarter hours
(Undergraduate)
This course explores the aesthetic and technological developments of cinematography from early cinema to the digital age by examining the works of notable cinematographers. Students will examine the changing styles of cinematography as an art form. FILM 250 is a prerequisite for this class.

FILM 254 | IMAGE, OPTICS AND CINEMATIC MOTION (FORMERLY DC 274) | 4 quarter hours
(Undergraduate)
Cinematography is the scientifically grounded discipline of making lighting and camera choices in order to record moving images. This course deals with the basic mathematics, physics, and photochemistry that underlie cinematography and that motivate camera design and construction. A student who masters the foundations of cinematography through a mixture of lectures, readings, exercises, and labs will be able to evaluate and understand how motion based recording choices affect perception of moving images they see every day.

FILM 256 | DIGITAL STILL PHOTOGRAPHY (FORMERLY DC 225) | 4 quarter hours
(Undergraduate)
This course is an introduction to the history and aesthetics of still photography and to the concept of photography as a descriptive and interpretive artistic medium. Students will learn the fundamental concepts necessary to shoot, edit, manipulate, and print digital still photographs. Students will learn to scan, capture, correct and enhance digital images and prepare files for output on black and white and color printing devices. Introduces students to theories, terminology, and applications of digital imaging technologies. Students will acquire the knowledge needed to analyze and critique existing work. In addition, students will involve themselves in hands-on exercises with digital still photography, manipulation and printing. Demonstrations will facilitate learning software techniques and systems of working. Use of Adobe Photoshop will be extensively covered in this course.

FILM 260 | INTRODUCTION TO DIRECTING | 4 quarter hours
(Undergraduate)
This course is an introduction to directing for the screen. Topics include casting, script analysis, working with actors, and pre-visualization. Each student will direct and produce a short scene study. This course in NOT intended for students majoring in the BFA Film and Television Directing Concentration.

FILM 261 | THE ART OF SCREEN ACTING (FORMERLY DC 250) | 4 quarter hours
(Undergraduate)
This course will examine the role of acting, actors, and actor-director collaboration in the development of narrative cinema. The screen demanded a new approach to acting which differed markedly from the theatrical traditions which proceeded it. Seminal practitioners of actor training such as Constantin Stanislavski and his American interpreters Lee Strasberg, Sanford Meisner, and Stella Adler and their students (such as Brando, Pacino, DeNiro, Hoffman, and Duvall) have had an incalculable influence on how screen actors prepare for a role and work with directors. This course will survey the major acting techniques and approaches, examine major films as case studies, and explore contemporary approaches to screen acting and actor-director collaboration in the cinema.

FILM 270 | PRODUCTION DESIGN (FORMERLY DC 321) | 4 quarter hours
(Undergraduate)
In this course students will analyze the collaborative relationship between production designer, director and cinematographer as it relates to the role of production design. By the end of the term students will be able to demonstrate a comprehensive understanding of a production designer's role, critique the synthesis of stagecraft, set decoration, prop, costume, and make-up choices as narrative tools, and evaluate existing works as well as their own work.

FILM 279 | VISUAL DESIGN (FORMERLY DC 376) | 4 quarter hours
(Undergraduate)
Definition, analysis, and structure of visual components that cinema employs to support and emphasize the story. Theory of visual design will be applied through student still photos, as well as an original, visually-oriented, narrative or documentary short film, animation or game design. FILM 110 is a prerequisite for this class.

FILM 280 | INTRODUCTION TO DIRECTING | 4 quarter hours
(Undergraduate)
This course is an introduction to directing for the screen. Topics include casting, script analysis, working with actors, and pre-visualization. Each student will direct and produce a short scene study. This course in NOT intended for students majoring in the BFA Film and Television Directing Concentration.

FILM 281 | THE ART OF SCREEN ACTING (FORMERLY DC 250) | 4 quarter hours
(Undergraduate)
This course will examine the role of acting, actors, and actor-director collaboration in the development of narrative cinema. The screen demanded a new approach to acting which differed markedly from the theatrical traditions which proceeded it. Seminal practitioners of actor training such as Constantin Stanislavski and his American interpreters Lee Strasberg, Sanford Meisner, and Stella Adler and their students (such as Brando, Pacino, DeNiro, Hoffman, and Duvall) have had an incalculable influence on how screen actors prepare for a role and work with directors. This course will survey the major acting techniques and approaches, examine major films as case studies, and explore contemporary approaches to screen acting and actor-director collaboration in the cinema.
This course is an internship/independent study course for students who have already fulfilled their EL credit. This course offers students the opportunity to reflect on an internship while gaining professional experience, industry contact and referrals while still in school. Opportunities in post-production, motion picture production, advertising, television, animation, game design, graphic design, motion graphics and interactive media can all qualify for this course. Students will work independently on class assignments. Assignments will be determined by the instructor and based on the number of credits in which the student is enrolled. Admission to the program requires consent of the internship course instructor after verification of the student's internship. PREREQUISITE(S): Internship (variable credit)

FILM 318 | TV PRODUCTION WORKSHOP (FORMERLY TV 310) | 2 quarter hours
(Undergraduate)
In this workshop students will produce projects for internal and external clients. Students will learn professional practices and work with clients to create projects such as promos, documentaries, commercials, short series and live events from concept inception to finished product. Through this process, students will examine different professional roles involved in the TV production process. PREREQUISITE(S): None (2 quarter hours)

FILM 319 | LIVE EVENT/TALK TV WORKSHOP (FORMERLY TV 381) | 2 quarter hours
(Undergraduate)
In this workshop students will produce events with guest artists, presented in front of a live studio audience. Students will help prep each appearance and participate a crew members in the multi-camera production and telecasting of the events. They will learn the professional practices and positions that constitute talk-show format television production. Post-production and finishing for Web Streaming and VOD delivery will also be addressed. May be repeated for credit. (2 quarter hours)

FILM 321 | COMMERCIAL PRODUCTION (FORMERLY DC 361) | 4 quarter hours
(Undergraduate)
This course will study the commercial production industry and the production techniques and processes of televised commercials and public service announcements. Industry standards for creating commercials for a client will be discussed. Additional topics include copywriting, style guides, casting, media, and client-relations. PREREQUISITE(S): None (2 quarter hours)

FILM 323 | MUSIC VIDEO PRODUCTION (FORMERLY DC 311) | 4 quarter hours
(Undergraduate)
In this course, we will analyze ways in which artists combine visual imagery with music as with MTV-style music videos. The music business and how it relates/effects music videos. Each student will develop his or her own music video project from script to final edit with a local band of their choice, through their own scheduling process. PREREQUISITE(S): None (2 quarter hours)
FILM 325 | EXPERIMENTAL FILMMAKING I (FORMERLY DC 345) | 4 quarter hours (Undergraduate)
This production-based course explores breaking the boundaries of conventional cinema through experimental formal approaches, techniques and content. Students will create projects in the modes of key figures form the history of experimental and avant-garde film and video, such as Kenneth Anger, Stan Brakhage, Luis Bunuel, Maya Deren, Dana Hodgdon, David Lynch, Bill Viola, or Andy Warhol. Additionally, students will be encouraged to capture, edit and process material through non-traditional means, and to explore unconventional content. Screenings of experimental works may be tailored to the specific interests of students as projects develop. The influences of experimental cinema on conventional media such as Hollywood movies, commercials, and music video will also be analyzed.
FILM 110 and POST 110 are prerequisites for this class.

FILM 326 | EXPERIMENTAL FILMMAKING II (FORMERLY DC 348) | 4 quarter hours (Undergraduate)
In this production-based course, students will build on skills gained in Experimental Film-making I, with a focus on the professional execution of an experimental film project. From creating the abstract, to an intensive focus on pre-production, to non-traditional filming techniques, to critique through various stages of post-production, the student will be pushed to create a visionary work for the film festival circuit and beyond. Through this regimented process, the filmmaker will learn skills necessary to write grants, produce and package professional quality cinematic work targeted toward distribution success.
FILM 325 is a prerequisite for this class.

FILM 345 | IMMERSIVE AND 360 VIDEO PRODUCTION | 0 quarter hour (Undergraduate)
This class will focus on the development, production and post-production of live-action 360 video. The medium of virtual reality will be analyzed within the context of the evolution of time-based and interactive media. Experimental projects will offer students the opportunity to tell stories in new ways while exploring the affordances and challenges of the evolving medium.
FILM 110 is a prerequisite for this class.

FILM 348 | FILM FESTIVALS (FORMERLY DC 393) | 4 quarter hours (Undergraduate)
Film festivals and their role in independent cinema and the Hollywood studio system. The global proliferation of film festivals will be examined from the perspectives of both film studies scholars and film making professionals. Students will research the history of major festivals, develop festival strategies for students' own or other students' films, and attend film festival screenings, panels, and/or networking events. PREREQUISITE(S): None (variable credit)

FILM 350 | CINEMATOGRAPHY II (FORMERLY DC 375) | 4 quarter hours (Undergraduate)
This class explores the creation of visual imagery and meaning through cinematography. Students will study advanced cinematography techniques including visual language, composition and movement as well as advanced tools in lighting and camera.
FILM 250 is a prerequisite for this class.

FILM 355 | LIGHTING I (FORMERLY DC 377) | 4 quarter hours (Undergraduate)
Introduction to safe and established practical operation of studio lighting and grip equipment. Students will learn a variety of basic lighting techniques, set electrical distribution, dolly set up, grip and lighting equipment.
FILM 110 is a prerequisite for this class.

FILM 356 | LIGHTING II (FORMERLY DC 384) | 4 quarter hours (Undergraduate)
Continuation of Lighting for Cinema I with introduction to more advanced lighting setups. Students will learn a variety of lighting techniques - night exterior, practical location, complex lighting cues, etc... Advanced lighting and grip equipment will be utilized - Hmi, LED, theatrical and fluorescent.

FILM 357 | CINEMATIC SPACE (FORMERLY DC 333) | 4 quarter hours (Undergraduate)
This seminar mixes theory and practice to expose students to an in-depth exploration of different techniques and possibilities concerning cinematic space. Beginning with an introduction to the fundamental differences between montage and mise-en-scene, the course will teach students the art and craft of designing, blocking and executing plan sequences, starting with static camera shots and ending in complex 3D camera moves.
FILM 110 and FILM 250 are prerequisites for this class.

FILM 358 | ADVANCED CAMERA TECHNOLOGIES (FORMERLY DC 368) | 4 quarter hours (Undergraduate)
This course is an advanced camera workshop covering the specific jobs of 1st and 2nd Assistants, DIT and data manager in a narrative film environment. Students will learn how to build, maintain and utilize advanced camera equipment, follow set protocols, apply industry standard processes to safely record, download, protect and transcode media for editorial workflows.
FILM 250 is a prerequisite for this class.

FILM 359 | VISUAL EFFECTS CINEMATOGRAPHY (FORMERLY DC 359) | 4 quarter hours (Undergraduate)
This course examines both traditional “in-camera” and contemporary digital visual effects techniques and the tools used to create them from a cinematographer’s vantage point. Students will develop a sense of when to use each technique to achieve a specific visual task.
FILM 350 and FILM 355 are prerequisites for this class.

FILM 363 | CAMERA OPERATING WORKSHOP | 2-2.25 quarter hours (Undergraduate)
This course will refine a student’s ability to operate a camera successfully in a variety of narrative film scenarios. Students will learn operating techniques to accomplish specific cinematic goals. This is a two-credit-hour course.

FILM 350 and FILM 355 are prerequisites for this class.

FILM 364 | CINEMATOGRAPHY III (FORMERLY DC 394) | 4 quarter hours (Undergraduate)
This seminar focuses on the art and craft of designing, blocking and executing planned sequences. It mixes theory and practice to expose students to an in-depth exploration of different techniques and possibilities concerning cinematic space. Emphasis will be on storytelling from the perspective of the cinematographer, specifically exploring how the camera is used to serve the narrative.
FILM 350 and FILM 355 are prerequisites for this class.
FILM 370 | ADVANCED PRODUCTION DESIGN (FORMERLY DC 331) | 4 quarter hours  
(Undergraduate)  
In this course, students will construct a set from a prepared script. Beginning with the written page, students will synthesize through all the stages of construction including visualizing, drafting, constructing, painting and finishing.  
FILM 270 is a prerequisite for this class.

FILM 375 | SCRIPT SUPERVISOR WORKSHOP | 2-2.25 quarter hours  
(Undergraduate)  
This course explores the role of the script supervisor on a film or television project. The duties of this role that will be studied include: working with various departments during production, assisting in preserving screen direction, maintaining continuity through photographs and other tools, documenting script coverage with script notes and lining scripts, and assigning slate numbers. Professional script supervising software will be introduced and utilized. This is a two-credit-hour course.

FILM 376 | CASTING DIRECTOR WORKSHOP | 2-2.25 quarter hours  
(Undergraduate)  
This course explores the role of the casting director/agency on a film or television project. The duties of this role that will be studied include: working with directors and producers, sourcing actors, posting calls, scheduling and running casting sessions, making offers and booking sheets, negotiating contracts, dealing with actor representation and implementing SAG guidelines. Professional casting software will be introduced and utilized. This is a two-credit-hour course.

FILM 377 | ASSISTANT DIRECTOR WORKSHOP | 2-2.25 quarter hours  
(Undergraduate)  
This course explores the role of the assistant director on a film or television project. The duties of this role that will be studied include: working with directors, breaking down a script, scheduling using a one-liner and day out of days, managing cast and crew on set, directing extras, calling shots, keeping to a schedule, and creating call sheets and reports for each shoot day. Professional scheduling software will be utilized towards the pre-production of existing or future projects. This is a two-credit-hour course.

FILM 380 | PROJECT BLUELIGHT (FORMERLY DC 380) | 4 quarter hours  
(Undergraduate)  
Production of a feature-length digital motion picture written by students or faculty within the Digital Cinema program. Students will work as crew under supervision of faculty members heading each of the various production areas. Goal is to produce a completed digital motion picture suitable for festivals or distribution.

FILM 381 | ACTING FOR FILMMAKERS (FORMERLY DC 349) | 4 quarter hours  
(Undergraduate)  
This course is designed to provide students who plan to work with actors in any aspect of cinema or interactive media, with a foundation in the actor's craft. This will be a hands-on, practical class in which all students will be required to participate fully in the exercises and scene work. Topics to be covered include: relaxation, concentration, trust, listening, sensory work, physical actions, improvisation, imagination, needs, circumstances, objectives, obstacles, scene analysis and scene work. The course will culminate in a staged scene to be presented in class. PREREQUISITE(S): None.

FILM 384 | DIRECTING FOR TELEVISION | 4 quarter hours  
(Undergraduate)  
This course provides abilities and knowledge to direct multiple episodes on a television series. As a response to available time and resources, students will learn how to direct television episodes at a fast pace. They will explore the intricacies of multiple-camera blocking, single-camera production, and the post-production processes of an episodic program. Also, students will explore the differences between directing the TV pilot versus an episode.

FILM 385 | DIRECTING II (FORMERLY DC 392) | 4 quarter hours  
(Undergraduate)  
Advanced study of directing for cinema. Students will continue exploration of directing concepts including: casting, rehearsing, analyzing script, blocking and working with actors, blocking and moving camera, and re-directing through editing and sound. Course will culminate in a final project directed by each student, using professional actors, professional equipment and/or facilities, and an original screenplay.  
FILM 285 is a prerequisite for this class.

FILM 386 | REHEARSAL WORKSHOP FOR DIRECTORS (FORMERLY DC 352) | 2 quarter hours  
(Undergraduate)  
The rehearsal workshop deepens a director's understanding of effective rehearsal techniques. Students learn tools to work with any size cast (individuals, pairs and ensembles) at every stage of the process from table read to set.

FILM 285 is a prerequisite for this class.

FILM 387 | DIRECTING THE SHORT FILM (FORMERLY DC 350) | 4 quarter hours  
(Undergraduate)  
Through managing the technical, theoretical and creative responsibilities of the director, students produce a narrative fiction short film. Students must enter with a finished, producible short film script with major principal pre-production elements in place. Advanced pre-production skills and topics to be covered include: script break down, schedule and budget, pre-visualization, creative collaboration and management, set procedures, and directing post-production and delivery.

FILM 210, CP 320 and SCWR 308 are prerequisites for this class.

FILM 390 | ADVANCED TOPICS IN CINEMA (FORMERLY DC 370) | 4 quarter hours  
(Undergraduate)  
This class will be an in-depth examination of a filmmaker, film genre, or film movement that has had a significant influence on the development of cinematic storytelling and expression. Through lectures, screenings, readings, discussions, and critical writing assignments, students will analyze the distinctive traits of the selected topic within the broader context of cinema history and culture. Specific topics will be selected by the instructor and will vary with each quarter. PREREQUISITE(S): None.

FILM 391 | TOPICS IN PRODUCTION (FORMERLY DC 395) | 4 quarter hours  
(Undergraduate)  
This course allows advanced students to work in close conjunction with a faculty member to develop a digital media project. Topics focus on a specific genre or medium each quarter such as: traditional movie production (horror, comedy, action/adventure, documentary, experimental, etc.), animation (narrative, non-narrative, web-based, cinematic, etc.), and advanced digital game design (story, strategy, graphics, etc.). Students work to produce a five to ten minute project.

FILM 210 is a prerequisite for this class.
FILM 392 | TOPICS IN TV PRODUCTION (FORMERLY TV 372) | 4 quarter hours
(Undergraduate)
This course is a hands-on experience in television production of news and public affairs programs. Students learn through theory and practice the role TV Producers and their teams play in creating various TV programs. PREREQUISITE(S): None.

FILM 393 | TOPICS IN STUDY ABROAD (FORMERLY DC 396) | 4 quarter hours
(Undergraduate)
This practical course offers students an intensive experience studying cinema and/or television production abroad. Students will be introduced to the cultural context, practices, philosophies, styles and business of film and TV. Facility tours, screenings and cultural experiences may be used to supplement the classroom activities in order to deepen the understanding of the experience abroad. PREREQUISITE(S): None.

FILM 396 | NON-CREDIT INDEPENDENT STUDY | 0 quarter hour
(Undergraduate)
Registration through the online Independent Study application form, which requires a certification that the student is actively working on a project under a faculty member's supervision. Approval by the Dean is required. This course is for zero-credit hour.

FILM 397 | CAPSTONE DEVELOPMENT (FORMERLY DC 397) | 4 quarter hours
(Undergraduate)
In this course, students will create a proposal that outlines what they will do for their Senior Capstone Project. The project should be a culmination of all of the course work that the student did during their time in the School of the Cinematic Arts. Each project must adhere to the guidelines for their degree concentration. Students will begin to work on their projects in this class; the first version, cut, or draft of their project must be ready by the time the student begins DC 398 Digital Cinema Capstone. ANI 340 or SCWR 352 or SCWR 353 or FILM 210 is a prerequisite for this class.

FILM 398 | DIGITAL CINEMA CAPSTONE (FORMERLY DC 398) | 4 quarter hours
(Undergraduate)
This course provides a Digital Cinema-specific capstone experience for the student. Students must have completed at least one of the three Topics in Production courses before they enroll in this course. The capstone course will connect the students' Digital Cinema course work with the University courses s/he has taken through three components: student-generated production packages, class/instructor discussions, and the actual creation/production of the student’s proposal. The production piece is the primary focus of this course.

FILM 399 | INDEPENDENT STUDY | 1-8 quarter hours
(Undergraduate)
Variable credit. PREREQUISITE(S): Consent of dean.

FILM 401 | FUNDAMENTALS OF CINEMA PRODUCTION (FORMERLY DC 414) | 4 quarter hours
(Graduate)
This course is a beginning workshop in narrative film production. The course provides an introduction to the fundamentals of cinema production, including camera and lens technology, composition, lighting, directing, sound recording, and basic editing. Students will produce several short films with an emphasis on visual storytelling and personal expression. PREREQUISITE(S): None.

FILM 410 | PRODUCTION WORKSHOP (FORMERLY DC 461) | 4 quarter hours
(Graduate)
Students work in teams to produce a completed project every two weeks. Each team will be assigned a specific genre or medium of cinema/media production. Students will be exposed to every aspect of media production from live action shooting to visual effects. Students will also learn how to work well in a team environment and be forced to adhere to deadlines, time constraints and medium limitations. PREREQUISITE(S) None.

FILM 419 | LIVE EVENT/ TALK TV WORKSHOP (FORMERLY TV 481) | 2 quarter hours
(Graduate)
In this workshop students will produce events with guest artists, presented in front of a live studio audience. Students will help prep each appearance and participate as crew members in the multi-camera production and telecasting of the events. They will learn the professional practices and positions that constitute talk-show format television production. Post-production and finishing for Web Streaming and VOD delivery will also be addressed. May be repeated for credit. (2 quarter hours)

FILM 423 | MUSIC VIDEO PRODUCTION (FORMERLY DC 411) | 4 quarter hours
(Graduate)
In this course, we will analyze ways in which artists combine visual imagery with music as with MTV-style music videos. The music business and how it relates/effects music videos. Each student will develop his or her own music video project from script to final edit with a local band of their choice, through their own scheduling process.

FILM 425 | EXPERIMENTAL FILMMAKING I (FORMERLY DC 447) | 4 quarter hours
(Graduate)
This production-based course explores breaking the boundaries of conventional cinema through experimental formal approaches, techniques and content. Students will create projects in the modes of key figures from the history of experimental and avant-garde film and video, such as Kenneth Anger, Stan Brakhage, Luis Bunuel, Maya Deren, Dana Hodgdon, David Lynch, Bill Viola, or Andy Warhol. Additionally, students will be encouraged to capture, edit and process material through non-traditional means, and to explore unconventional content. Screenings of experimental works may be tailored to the specific interests of students as projects develop. The influences of experimental cinema on conventional media such as Hollywood movies, commercials, and music video will also be analyzed.

FILM 426 | EXPERIMENTAL FILMMAKING II (FORMERLY DC 448) | 4 quarter hours
(Graduate)
In this production-based course, students will build on skills gained in Experimental Filmmaking I with a focus on the professional execution of an experimental film project. From creating the abstract, to an intensive focus on pre-production, to non-traditional filmmaking techniques, to critique through various stages of post-production, the student will be pushed to create a visionary work for the film festival circuit and beyond. Through this regimented process, the filmmaker will learn skills necessary to write grants, produce and package professional quality cinematic work targeted toward having distribution success.

FILM 440 | CAPSTONE PROJECT (FORMERLY DC 464) | 4 quarter hours
(Graduate)
This capstone course will connect the students' Digital Cinema course work to the practical world. Students will produce their own independent film projects: mini-docs, short films, music videos, TV commercials, web series, etc. Students will be supervised by a faculty mentor as they conceive, plan, shoot, edit and post-produce their project. The project should be a culmination of all of the course work that the student did during their time in the School of the Cinematic Arts. Each project must adhere to the guidelines for their degree concentration. Students will begin to work on their projects in this class; the first version, cut, or draft of their project must be ready by the time the student begins DC 398 Digital Cinema Capstone. ANI 340 or SCWR 352 or SCWR 353 or FILM 210 is a prerequisite for this class.

FILM 450 | STUDY ABROAD (FORMERLY TV 462) | 4 quarter hours
(Undergraduate)
This practical course offers students an intensive experience studying cinema and/or television production abroad. Students will be introduced to the cultural context, practices, philosophies, styles and business of film and TV. Facility tours, screenings and cultural experiences may be used to supplement the classroom activities in order to deepen the understanding of the experience abroad. PREREQUISITE(S): None.
FILM 430 | FUNDAMENTALS OF SHORT FILM (FORMERLY DC 460) | 4 quarter hours  
(Graduate)  
Students will study approximately 100 well-crafted and landmark short films from throughout film history. Through these screenings, students will learn film vernacular, the roles these short films served their respective filmmakers and the concept of how "calling card" shorts can be used to illustrate a filmmaker’s voice. Short film genres and styles that will be explored will include: narrative, experimental, documentary and animation, ranging from early silent films to contemporary films being screened at festivals today. PREREQUISITE(S): None.

FILM 431 | FILM HISTORY FROM THE FILMMAKER’S PERSPECTIVE (FORMERLY DC 520) | 4 quarter hours  
(Graduate)  
In film history, countless directors have established distinct directorial styles or voices through their unique use of film form and content. In this course, students will analyze the work of several of these directors through screenings, lectures and discussions of directorial choices in composition, movement, editing, production design, sound or story. Concepts will be applied to assignments that will help students develop their own directorial voices. PREREQUISITE(S): None.

FILM 445 | IMMERSIVE AND 360 VIDEO PRODUCTION | 4 quarter hours  
(Graduate)  
This class will focus on the development, production and post-production of live-action 360 video. The medium of virtual reality will be analyzed within the context of the evolution of time-based and interactive media. Experimental projects will offer students the opportunity to tell stories in new ways while exploring the affordances and challenges of the evolving medium.

FILM 450 | CINEMATOGRAPHY (FORMERLY DC 475) | 4 quarter hours  
(Graduate)  
In this course, students learn advanced production techniques of camera movement, lighting, rigging, filtration and shot composition. Students will be given hands on training in the use of the latest high definition cameras and then create a short script which they will shoot and edit. PREREQUISITE(S): None (2 quarter hours)

FILM 456 | LIGHTING FOR CINEMA II (FORMERLY DC 484) | 4 quarter hours  
(Graduate)  
This continuation of Lighting for Cinema I is a hands-on, experiential class exploring advanced lighting techniques with an emphasis on engaging the audience visually. Students will learn night exterior lighting techniques, practical location lighting approaches, Hollywood gag and moving lights applications. The proper, efficient and safe use of advanced lighting and grip equipment will be demonstrated - Hmi, LED, theatrical, large tungsten, fluorescent, overheads, rigging and dollies. Students will work together in groups to accomplish visual tasks in class each week.

FILM 457 | CINEMATIC SPACE (FORMERLY DC 433) | 4 quarter hours  
(Graduate)  
This seminar focuses on the art and craft of designing, blocking and executing planned sequences. It mixes theory and practice to expose students to an in-depth exploration of different techniques and possibilities concerning cinematic space. Emphasis will be on storytelling from the perspective of the cinematographer, specifically exploring how the camera is used to service the narrative.

FILM 458 | ADVANCED CAMERA TECHNOLOGIES (FORMERLY DC 458) | 4 quarter hours  
(Graduate)  
This course is an advanced camera workshop covering the specific jobs of 1st and 2nd Assistants, DIT and data manager in a narrative film environment. Students will learn how to build, maintain and utilize advanced camera equipment, follow set protocols, apply industry standard processes to safely record, download, protect and transcode media for editorial workflows. PREREQUISITE(S): FILM 450.

FILM 459 | PRODUCTION DESIGN (FORMALLY DC 421) | 4 quarter hours  
(Graduate)  
Analysis of production design and art direction in motion pictures.

FILM 460 | IMMERSIVE AND 360 VIDEO PRODUCTION | 4 quarter hours  
(Graduate)  
This course will refine a student’s ability to operate a camera successfully in a variety of narrative film scenarios. Students will learn operating techniques to accomplish specific cinematic goals.

FILM 461 | ADVANCED CINEMATOGRAPHY (FORMERLY DC 494) | 4 quarter hours  
(Graduate)  
This seminar focuses on the art and craft of designing, blocking and executing planned sequences. It mixes theory and practice to expose students to an in-depth exploration of different techniques and possibilities concerning cinematic space. Emphasis will be on storytelling from the perspective of the cinematographer, specifically exploring how the camera is used to service the narrative.

FILM 462 | ADVANCED CINEMATOGRAPHY (FORMERLY DC 494) | 4 quarter hours  
(Graduate)  
This seminar focuses on the art and craft of designing, blocking and executing planned sequences. It mixes theory and practice to expose students to an in-depth exploration of different techniques and possibilities concerning cinematic space. Emphasis will be on storytelling from the perspective of the cinematographer, specifically exploring how the camera is used to service the narrative.

FILM 463 | CAMERA OPERATING WORKSHOP | 2-2.25 quarter hours  
(Graduate)  
This course will refine a student’s ability to operate a camera successfully in a variety of narrative film scenarios. Students will learn operating techniques to accomplish specific cinematic goals.

FILM 464 | ADVANCED CINEMATOGRAPHY (FORMERLY DC 494) | 4 quarter hours  
(Graduate)  
This seminar focuses on the art and craft of designing, blocking and executing planned sequences. It mixes theory and practice to expose students to an in-depth exploration of different techniques and possibilities concerning cinematic space. Emphasis will be on storytelling from the perspective of the cinematographer, specifically exploring how the camera is used to service the narrative.

FILM 465 | LIGHTING FOR CINEMA II (FORMERLY DC 484) | 4 quarter hours  
(Graduate)  
This continuation of Lighting for Cinema I is a hands-on, experiential class exploring advanced lighting techniques with an emphasis on engaging the audience visually. Students will learn night exterior lighting techniques, practical location lighting approaches, Hollywood gag and moving lights applications. The proper, efficient and safe use of advanced lighting and grip equipment will be demonstrated - Hmi, LED, theatrical, large tungsten, fluorescent, overheads, rigging and dollies. Students will work together in groups to accomplish visual tasks in class each week.

FILM 466 | CINEMATIC SPACE (FORMERLY DC 433) | 4 quarter hours  
(Graduate)  
This seminar focuses on the art and craft of designing, blocking and executing planned sequences. It mixes theory and practice to expose students to an in-depth exploration of different techniques and possibilities concerning cinematic space. Emphasis will be on storytelling from the perspective of the cinematographer, specifically exploring how the camera is used to service the narrative.

FILM 467 | CINEMATIC SPACE (FORMERLY DC 433) | 4 quarter hours  
(Graduate)  
This seminar focuses on the art and craft of designing, blocking and executing planned sequences. It mixes theory and practice to expose students to an in-depth exploration of different techniques and possibilities concerning cinematic space. Emphasis will be on storytelling from the perspective of the cinematographer, specifically exploring how the camera is used to service the narrative.

FILM 468 | CINEMATIC SPACE (FORMERLY DC 433) | 4 quarter hours  
(Graduate)  
This seminar focuses on the art and craft of designing, blocking and executing planned sequences. It mixes theory and practice to expose students to an in-depth exploration of different techniques and possibilities concerning cinematic space. Emphasis will be on storytelling from the perspective of the cinematographer, specifically exploring how the camera is used to service the narrative.

FILM 469 | CINEMATIC SPACE (FORMERLY DC 433) | 4 quarter hours  
(Graduate)  
This seminar focuses on the art and craft of designing, blocking and executing planned sequences. It mixes theory and practice to expose students to an in-depth exploration of different techniques and possibilities concerning cinematic space. Emphasis will be on storytelling from the perspective of the cinematographer, specifically exploring how the camera is used to service the narrative.

FILM 470 | PRODUCTION DESIGN (FORMERLY DC 421) | 4 quarter hours  
(Graduate)  
Analysis of production design and art direction in motion pictures.

FILM 471 | VISUAL DESIGN (FORMERLY DC 476) | 4 quarter hours  
(Graduate)  
Definition, analysis, and structure of visual components that cinema employs to support and emphasize the story. Theory of visual design will be applied through student still photos, as well as an original, visually-oriented, narrative or documentary short film, animation or game design.

FILM 472 | VISUAL DESIGN (FORMERLY DC 476) | 4 quarter hours  
(Graduate)  
Definition, analysis, and structure of visual components that cinema employs to support and emphasize the story. Theory of visual design will be applied through student still photos, as well as an original, visually-oriented, narrative or documentary short film, animation or game design.
FILM 480 | PROJECT BLUELIGHT (FORMERLY DC 480) | 4 quarter hours (Graduate)
Production of a feature-length digital motion picture written by students or faculty within the Digital Cinema program. Students will work as crew under supervision of faculty members heading each of the various production areas. Goal is to produce a completed digital motion picture suitable for festivals or distribution. In addition to production work, graduate students are required to write a 7-10 page paper which analyzes the experience and how it relates to their MS/MFA course of study.

FILM 481 | ACTING FOR FILMMAKERS (FORMERLY DC 449) | 4 quarter hours (Graduate)
This course is designed to provide students who plan to work with actors in any aspect of cinema or interactive media, with a foundation in the actor’s craft. This will be a hands-on, practical class in which all students will be required to participate fully in the exercises and scene work. Topics to be covered include: relaxation, concentration, trust, listening, sensory work, physical actions, improvisation, imagination, needs, circumstances, objectives, obstacles, scene analysis and scene work. The course will culminate in a staged scene to be presented in class. PREREQUISITE(S): None.

FILM 484 | DIRECTING ACTORS (FORMERLY DC 462) | 4 quarter hours (Graduate)
Emphasis on directing actors for film. Topics include script analysis, script interpretation, casting, rehearsals, director-actor relationship and director-actor communication. Projects will focus primarily on actor performance. FILM 410 is a prerequisite for this class.

FILM 485 | DIRECTING THE PRODUCTION (FORMERLY DC 490) | 4 quarter hours (Graduate)
Emphasis on directing the production. Topics covered include blocking actors, blocking camera, directing a crew, coverage and locations. Projects should include multiple setups and crews with, at the minimum, a producer, cinematographer and production designer. FILM 484 is a prerequisite for this class.

FILM 486 | REHEARSAL WORKSHOP FOR DIRECTORS (FORMERLY DC 452) | 2 quarter hours (Graduate)
The rehearsal workshop deepens a director’s understanding of effective rehearsal techniques. Students learn tools to work with any size cast (individual, pairs and ensemble) at every stage of the process from table read to set. FILM 484 is a prerequisite for this class.

FILM 487 | DIRECTING THE SHORT MOTION PICTURE (FORMERLY DC 495) | 4 quarter hours (Graduate)
The penultimate production course for directors. Students must enter with a finished, producible, short film script with some principal pre-production elements in place. Advanced pre-production skills and topics to be covered include: prepping and breaking down the shooting script, schedule and budget, pre-visualization and storyboards, casting, rehearsals and directing actors, blocking, continuity, shot design, locations, aesthetics and visual design, working with crew, set procedures, the production binder, and directing from prep through post-production and delivery. CP 420 or FILM 484 is a prerequisite for this class.

FILM 488 | DIRECTING ACTORS FOR THE CAMERA (FORMERLY DC 450) | 4 quarter hours (Graduate)
Directing students from SCA and acting students from TTS enroll in the same course and explore unique challenges and opportunities of collaboration between film directors and theater actors. Emphasis will be placed on the actor/director relationship, the relationship between the camera and performer, casting for film/TV, blocking for the camera and on-set technical considerations. Students will work toward the creation of a final, polished short film, using scripts written by screenwriting students. PREREQUISITE(S): None.

FILM 489 | DIRECTING THE WEB SERIES (FORMERLY DC 465) | 4 quarter hours (Graduate)
This course is an introduction to directing narrative content for the Internet. Students will learn how to direct a production in an episodic or serialized environment where the primary goal is to maintain a tone and tenor consistent with the show-runner’s vision. The course also covers the basic principles of budgeting, financing, casting, hiring talent, scheduling, securing locations, shooting and gathering social media artifacts for a series. Students will shepherd the project from idea execution through production, and finish the course with a five-episode web series. FILM 487 is a prerequisite for this class.

FILM 490 | ADVANCED TOPICS IN CINEMA (FORMERLY DC 470) | 4 quarter hours (Graduate)
This class will be an in-depth examination of a filmmaker, film genre, or film movement that has had a significant influence on the development of cinematic storytelling and expression. Through lectures, screenings, readings, discussions, and critical writing assignments, students will analyze the distinctive traits of the selected topic within the broader context of cinema history and culture. Specific topics will be selected by the instructor and will vary with each quarter.

FILM 491 | TOPICS IN STUDY ABROAD (FORMERLY DC 496) | 4 quarter hours (Graduate)
This practical course offers students an intensive experience studying cinema and/or television production abroad. Students will be introduced to the cultural context, practices, philosophies, styles and business of film and TV. Facility tours, screenings and cultural experiences may be used to supplement the classroom activities in order to deepen the understanding of the experience abroad. PREREQUISITE(S): None.

FILM 499 | INTERNSHIPS IN MEDIA AND DESIGN | 1-4 quarter hours (Graduate)
This is an internship/independent study course for graduate students, which offers the opportunity to reflect on an internship while gaining professional experience, industry contact and referrals while still in school. Opportunities in post-production, motion picture production, advertising, television, animation, game design, graphic design, motion graphics and interactive media can all qualify for the course. Students will work independently on class assignments. Assignments will be determined by the instructor and based on the number of credits in which the student is enrolled. Admission to the program requires consent of the internship course instructor after verification of the student's internship. PREREQUISITE(S): Internship. (variable credit)
FILM 501 | ADVANCED PRE-PRODUCTION FOR THESIS (FORMERLY DC 571) | 4 quarter hours
(Graduate)
Advanced concepts and techniques in pre-production for directors, such as: supervising fundraising, budgeting, and scheduling, crew assembly, casting and pre-visualization are taught in lecture and workshop. These concepts and techniques will be applied to the pre-production of MFA thesis films, laying the foundation necessary to begin principal photography. PREREQUISITE(S): None.

FILM 510 | CINEMA THESIS I | 4 quarter hours
(Graduate)
In this class, students work intensively on a thesis project proposal based on responses from the instructor, their classmates, and from graduate faculty thesis advisors. For narrative work, the goals is to finalize a shooting script for the thesis project. PREREQUISITE(S): Faculty permission.

FILM 511 | CINEMA THESIS II (FORMERLY DC 566) | 4 quarter hours
(Graduate)
In this class, students work intensively on a thesis project proposal based on responses from the instructor, their classmates, and from graduate faculty thesis advisors. For narrative work, the goal is to finalize pre-production for the thesis project.

FILM 510 and instructor consent are prerequisites for this class.

FILM 560 | GRADUATE TEACHING SEMINAR | 4 quarter hours
(Graduate)
This seminar exposes students to effective methods and professional practices of teaching undergraduate and graduate students. A variety of approaches to course materials and projects will be introduced and discussed in detail. In addition to work in class, students will work closely with a faculty member in order to gain first-hand knowledge, including class observation, of practical aspects of creative and academic instruction. PREREQUISITE(S): none.

FILM 599 | INDEPENDENT STUDY | 0 quarter hour
(Graduate)
Independent study form required. PREREQUISITE(S): Consent of instructor. (variable credit)

FILM 701 | THESIS CONTINUATION | 0 quarter hour
(Graduate)
Non-credit. Students admitted to MFA program who have completed all the required coursework and who are regularly using the facilities of the University for thesis production and/or post-production are required to be registered each quarter of the academic year until the thesis and defense have been completed. (0 credit hours)

FILM 510 or ANI 640 is a prerequisite for this class.

Film & TV Creative Producing (CP)

CP 310 | FILM PRODUCTION COMPANY DEVELOPMENT | 4 quarter hours
(Undergraduate)
This course introduces students to how a production company operates. Students will learn how to build a film slate by identifying intellectual properties and developing them into viable projects. There will be an emphasis on story development with a focus on optioning material, talent packaging, and fund raising.

CP 320 | INTRODUCTION TO FILM SCHEDULING AND BUDGETING
(Formally DC 323) | 4 quarter hours
(Undergraduate)
This course will cover the fundamentals of film scheduling and budgeting. Students will learn how to break a script down and create a shooting schedule and working budget. Professional scheduling and budgeting software will be utilized in a lab setting.

CP 323 | PRE-PRODUCTION WORKSHOP (FORMERLY DC 379) | 2 quarter hours
(Undergraduate)
This two-credit course will provide valuable pre-production work on targeted productions, such as Project Bluelight (faculty or student-led), large-scale class projects, faculty creative projects, or independent and/or professional productions. Professional scheduling, budgeting and pre-visualiation software may be utilized. PREREQUISITE(S): By instructor permission only.

CP 340 | THE FUNDAMENTALS OF PRE PRODUCTION (FORMERLY DC 385) | 4 quarter hours
(Undergraduate)
This course focuses on the key steps of pre-production for a feature film. Students will learn how to prep a film with a focus on cast and crew deals, location agreements, clearance, insurance, and working with the major unions.

CP 343 | INDEPENDENT FILM PRODUCING (FORMERLY DC 364) | 4 quarter hours
(Undergraduate)
This course introduces students to the principals and strategies of independent film producing with a focus on the following key areas: packaging material, fundraising, foreign sales, and festival and distribution strategies.

CP 350 | PRODUCING FOR ANIMATION AND VFX (FORMERLY DC 363) | 4 quarter hours
(Undergraduate)
This course introduces students to the key concepts behind producing for computer animation and the use of visual effects in live action filmmaking such as production planning, cost estimating production and post workflows.

CP 360 | PRODUCING TELEVISION (FORMERLY TV 385) | 4 quarter hours
(Undergraduate)
This is a course discussing the different roles of the television producer and show runners. Particular emphasis will be put on exploring and discussing the difference between line, segment, coordinating, field, executive (show-runner), and supervising producers. Students wear many television producer hats through the quarter, and will explore those roles in relation to different scripted and non-scripted formats. Examining and performing various tasks like budgets, staffing, and scheduling will give students a comprehensive view of the needs and responsibilities of different producers. Additional consideration will be given to the on-set roles and responsibilities of the showrunner in the television production environment. The class will culminate in the creation of short promo segments of various styles of television shows. PREREQUISITES: FILM 110, TV 306 OR TV 307.

CP 364 | REALITY TELEVISION PRODUCTION (FORMERLY TV 373) | 4 quarter hours
(Undergraduate)
Advanced production class develops a reality or factual show concept and treatment. Students will produce and cast a pilot based on their treatments. The class will focus on techniques and methods to build engagement and conflict within the reality or factual genre.
CP 366 | THE BUSINESS OF TELEVISION (FORMERLY TV 289) | 4 quarter hours
(Undergraduate)
Course provides historical background of the television business, beginning with the initial launch of the industry in the 1940s. Students examine the establishment of the regulatory system, including the Federal Communications Commission (FCC), the operational structure of stations and networks, the development of cable and satellite broadcasting, and the programming policies and strategies of the present broadcasting industry.

CP 380 | CONTRACTS AND NEGOTIATIONS (FORMERLY DC 365) | 4 quarter hours
(Undergraduate)
This course introduces students to the principals and strategies of entertainment law with a focus on the following key areas: chain of title, production legal, clearance, music licensing, and delivery requirements.

CP 382 | DISTRIBUTION AND EXHIBITION (FORMERLY DC 381) | 4 quarter hours
(Undergraduate)
This course explores the commercial and economic structure of the contemporary film industry. Topics to be covered include: the development of "Hollywood" as a distribution mechanism; the subsequent emergence of an independent commercial sector; the revenue stream from "box office" and ancillary markets, through distributors and to producers; the history and current state of theatrical exhibition; and emerging modes of content delivery.

CP 399 | INDEPENDENT STUDY (FORMERLY DC 399) | 1-8 quarter hours
(Undergraduate)
Variable credit. PREREQUISITE(S): Consent of dean.

CP 410 | CREATIVE PRODUCING (FORMERLY DC 489) | 4 quarter hours
(Graduate)
This course introduces students to the role of the Creative Producer. Students will learn how to build a film and television slate by identifying intellectual properties and developing them into viable projects. There will be an emphasis on optioning material, talent packaging, and financing.

CP 412 | FEATURE FILM DEVELOPMENT | 4 quarter hours
(Graduate)
This course will focus on feature film development from a producer's perspective. Students will evaluate completed screenplays and the producer's role in developing them into films.

CP 414 | TELEVISION DEVELOPMENT | 4 quarter hours
(Graduate)
This course focuses on scripted television development from the producer's prospective. Emphasis will be placed on the industrial process and personnel of the networks, as well as the creative strategies needed to guide a project from concept ideation to hit series.

CP 420 | SCHEDULING & BUDGETING (FORMERLY DC 423) | 4 quarter hours
(Graduate)
This course will cover the fundamentals of film scheduling and budgeting. Students will learn how to break a script down and create a shooting schedule and working budget. Professional scheduling and budgeting software will be utilized in a lab setting.

CP 423 | PRE-PRODUCTION WORKSHOP (FORMERLY DC 479) | 2 quarter hours
(Graduate)
This two-credit course will provide valuable pre-production work on targeted productions, such as Project BlueLight (faculty or student-led), large-scale class projects, faculty creative projects, or independent and/or professional productions. Professional scheduling, budgeting and pre-visualization software may be utilized. PREREQUISITE(S): By instructor permission only. (2 quarter hours)

CP 440 | PRE-PRODUCTION FOR PRODUCERS (FORMERLY DC 485) | 4 quarter hours
(Graduate)
This course focuses on the fundamentals of pre-production for a feature film. Students will learn how to prep a film with a focus on cast and crew deals, location agreements, clearance, insurance, and working with the major unions.

CP 442 | THE AGENCY | 2-2.25 quarter hours
(Graduate)
This course will examine the essential role talent and literary agencies perform in the entertainment business. Students will learn how producers work with agencies to package films with talent and secure distribution for their projects. There will be a focus on the various departments at agencies including motion picture literary, story, talent, and packaging for television.

CP 444 | THE TALENT MANAGER | 2-2.25 quarter hours
(Graduate)
This course will examine the critical role the talent manager performs in today's entertainment industry. Students will learn how managers operate as producers and work with talent to develop and sell their projects to the studios.

CP 446 | THE STUDIO EXECUTIVE | 2-2.25 quarter hours
(Graduate)
This course provides an overview of the various departments at a major motion picture studio. Students will learn how studio executives develop projects and oversee production and distribution for the studio.

CP 448 | The Network Executive | 2-2.25 quarter hours
(Graduate)
This course provides an overview of the television departments at a network. Students will learn how television executives develop shows for the network and manage productions.

CP 450 | Producing Reality Television | 2-2.25 quarter hours
(Graduate)
This course will examine the process for producing reality shows. Students will learn how to develop ideas for reality shows and create pitch decks. There will be an emphasis on producing techniques for signing and working with reality show talent.

CP 452 | PRODUCING COMMERCIALS & MUSIC VIDEOS | 2-2.25 quarter hours
(Graduate)
This course examines the process and production techniques for producing commercials and music videos. Industry standards for creating commercials and music videos for clients will be discussed. Additional topics include copywriting, style guides, casting, media, and client-relations.
CP 460 | Producing Television | 4 quarter hours (Graduate)
This course will examine the creative and business skills required for producing television. Students will review different genres and styles of television production while exploring the various roles in relation to specifics hosted. Additional consideration will be given to the on-set roles and responsibilities of the showrunner on a television production.

CP 480 | ENTERTAINMENT LAW FOR PRODUCERS (FORMERLY DC 464) | 4 quarter hours (Graduate)
This course introduces students to the principles and strategies of entertainment law with a focus on the following key areas: chain of title, production legal, clearance, music licensing, and delivery requirements. PREREQUISITE(S): None.

CP 482 | DISTRIBUTION AND EXHIBITION (FORMERLY DC 481) | 4 quarter hours (Graduate)
Conventional and emerging modes of motion picture distribution with special emphasis on digital streaming and exhibition.

CP 484 | Post Production For Producers | 4 quarter hours (Graduate)
This course will provide an overview of the post process for producers. Students will examine the key stages of post from edit to delivery, with an emphasis on producing visual effects for film and television.

CP 498 | Pre-Production Internship | 4 quarter hours (Graduate)
This is an internship course for graduate creative producing students, which offers the opportunity to reflect on an internship while gaining professional experience, industry contact and referrals while still in school. Students will intern at an entertainment company with a focus on the development and pre-production stages of film and television.

CP 499 | POST-PRODUCTION INTERNSHIP (FORMERLY DC 499) | 4 quarter hours (Graduate)
This is an internship course for graduate creative producing students, which offers the opportunity to reflect on an internship while gaining professional experience, industry contact and referrals while still in school. Students will intern at an entertainment company with a focus on the production and distribution stages of film and television.

CP 511 | CREATIVE PRODUCING THESIS I (FORMERLY DC 511) | 4 quarter hours (Graduate)
Students will be required to complete a final thesis project that involves creating a film and television slate. Students will be required to create a professional package for three projects which will entail optioning and developing source material such as a book, script, or magazine article. The ultimate goal for the thesis projects is for the students to have viable projects upon graduation that they can set up at a studio or produced independently. Student also have the option to produce a festival quality short film for their final thesis project subject to approval by the Creative Producing Committee.

CP 512 | CREATIVE PRODUCING THESIS II (FORMERLY DC 512) | 4 quarter hours (Graduate)
Students will revise their thesis projects based on the feedback from the instructor and thesis advisors. During this stage, students will be expected to be actively producing their short film or sizzle reels, and securing any rights necessary for the completion of the project.

CP 540 | PRODUCING FOR DIRECTORS: PITCHING, PACKAGING, AND DISTRIBUTION | 4 quarter hours (Graduate)
Current avenues for the development of the student director for a professional career will be explored, including film festivals, fundraising, self-distribution and pitching. Usable film festival strategies, self-distribution plans, and fundraising business plans will be created for the exploitation of existing or future projects. FILM 487 is a prerequisite for this class.

CP 599 | INDEPENDENT STUDY (FORMERLY DC 599) | 1-8 quarter hours (Graduate)
Independent study form required. PREREQUISITE(S): Consent of instructor. Variable credit.

CP 701 | THESIS CONTINUATION (FORMERLY DC 701) | 0 quarter hour (Graduate)
Non-credit. Students admitted to MFA program who have completed all the required coursework and who are regularly using the facilities of the University for thesis production and/or post-production are required to be registered each quarter of the academic year until the thesis and defense have been completed.

FILM 510 or ANI 640 is a prerequisite for this class.

Film & TV Post-Production (POST)

POST 100 | VIDEO EDITING FOR NON-MAJORS (FORMERLY DC 120) | 4 quarter hours (Undergraduate)
Students analyze and assemble dramatic scenes under a variety of conditions and narrative strategies. Editing theories, techniques and procedures, issues of continuity, effects, movement and sound are examined as they relate to the fundamentals of cinematic montage and visual storytelling. This class presents a variety of topics and experiences that are designed to broaden the student's understanding of the art of cinematic storytelling and montage. Work on more advanced projects is integrated into the class as a means to an understanding of advanced editing tools and techniques. PREREQUISITE(S): NONE.

POST 110 | EDITING I (FORMERLY DC 220) | 4 quarter hours (Undergraduate)
Students analyze and assemble dramatic scenes under a variety of conditions and narrative strategies. Editing theories, techniques and procedures, issues of continuity, effects, movement and sound are examined as they relate to the fundamentals of cinematic montage and visual storytelling.

ANI 101 or ANI 201 or FILM 101 is a prerequisite for this class.

POST 120 | AUDIO FOR PODCASTS AND OTHER MEDIA (FORMERLY DC 113) | 4 quarter hours (Undergraduate)
This course is an introduction to the uses and practical applications of sound for multimedia. Students will study various uses of sound and music on the Internet from creative to professional websites. Using free or inexpensive hardware and software, students will learn to create and edit podcasts and attach audio files to programs and web pages such as Facebook, iTunes, Keynote, PowerPoint and other sites. The course will cover both Mac and PC applications so all students will be able to work on projects from their home computers. The course will also cover current legalities of digital media. PREREQUISITES: NONE.
POST 124 | SOUND DESIGN I (FORMERLY DC 215) | 4 quarter hours
(Undergraduate)
This course is an introduction to sound editing and sound design. The course examines the place of sound in cinema, both artistic and technological. The course will cover the basics of sound, microphones, and analogue-to-digital conversion. Lectures, readings, and film clips will be used to illustrate the language of film sound, as practiced by film directors, sound designers, and editors. Students will learn to edit sound assignments with Pro Tools and current technologies. PREREQUISITE(S): None.

POST 125 | INTRODUCTORY PRO TOOLS WORKSHOP (FORMERLY DC 214) | 2 quarter hours
(Undergraduate)
This workshop course offers introductory training on Pro Tools software. Topics include recording, editing, mixing, and processing functions. No experience necessary. PREREQUISITE(S): None (2 quarter hours)

POST 200 | EDITING II (FORMERLY DC 320) | 4 quarter hours
(Undergraduate)
This course expands on topics covered in DC 220. Emphasis is on developing the student's understanding of the art of cinematic storytelling and montage. Work on more advanced projects is integrated into the class as a means of mastering advanced editing tools and techniques.

POST 110 is a prerequisite for this class.

POST 204 | HISTORY OF MOTION PICTURE EDITING (FORMERLY DC 202) | 4 quarter hours
(Undergraduate)
This course studies the origins and rise of film editing as an art form, an industry, a set of technological practices ranging from analog film to digital video. The course examines critical historical events that impacted film editing: the emergence of the studio system, the coming of sound, narrative, experimental and documentary film, MTV, and audience shifts. For many, editing is the unique source of the art of filmmaking. This course addresses this question. PREREQUISITE(S): None.

POST 224 | SOUND DESIGN II (FORMERLY DC 315) | 4 quarter hours
(Undergraduate)
This course expands on topics covered in DC 215. Emphasis will be on mixing and editing techniques for music and sound effects. Coursework also includes the recording of natural sounds and special effects to reinforce images and the story. The course is intended for advanced students who wish to develop their skills and gain more experience in preparing and mixing sound tracks for traditional as well as interactive narratives.

GAM 250 or POST 124 is a prerequisite for this class.

POST 303 | EDITING III (FORMERLY DC 340) | 4 quarter hours
(Undergraduate)
This course provides an advanced workshop for students to edit their own narrative or documentary projects. Students will be expected to bring in their own footage, and will take their projects from logging, through rough cut, to picture lock. Post-production workflow, and basic sound design and color correction for picture editors will also be emphasized.

POST 200 is a prerequisite for this class.

POST 306 | EDITING STYLES AND TECHNIQUES (FORMERLY DC 322) | 4 quarter hours
(Undergraduate)
This course is designed for editors looking for innovative ways to tell stories, by exploring how editing techniques have been pushed by artists working in the margins. Cutting edge editing techniques are a co-opting of historical and experimental styles, repackage and used in a narrative context. A series of practical exercises and a freeform final project using found footage allow editors to explore the array of editing techniques adopted from experimental work while discovering their personal style as editors and storytellers. Editors will consider how form affects content and will reinvent techniques in ways to surprise modern audiences.

POST 110 is a prerequisite for this class.

POST 309 | EDITING THE FEATURE FILM (FORMERLY DC 360) | 4 quarter hours
(Undergraduate)
In this course, students will be introduced to the specialized post-production workflow of editing the feature film. Topics will include: understanding the script notes, organizing the project, editing scenes with a focus on performance and character arcs, working with sound effects and music, performing a temp mix, breaking the film into reels, and producing deliverables for the composer, sound editor, and color correction. PREREQUISITE(S): POST 200.

POST 312 | EDITING THE DOCUMENTARY | 4 quarter hours
(Undergraduate)
Editing the Documentary will expose students to the specialized post production workflow of documentary film. Utilizing a workshop atmosphere in combination with lectures and projects, students will gain an appreciation of the art and craft of documentary film editing. This course will cover an overview of current documentary trends and styles, explore various workflows to find the story in documentary footage, the ethical role of editor in shaping the stories of real people and events, how to apply the visual language of fiction to documentary film, use of archival media in a contemporary way, how to structure the story scene to scene and where to start and end the story.

POST 110 is a prerequisite for this class.

POST 315 | EDITING FOR TELEVISION (FORMERLY TV 320) | 4 quarter hours
(Undergraduate)
Class emphasizes editing and post production producing under tight deadlines. Students edit commercials, trailers, and PSA projects.

POST 110 and FILM 115 are prerequisites for this class.

POST 318 | EDITING THE SHORT FORM | 4 quarter hours
(Undergraduate)
Editing the Short Form will explore the world of TV commercials, music video, movie trailers and internet content for clients. Emphasis on the culture of commercial production environments, including the advertising agency, entertainment and music media business, as well as the broader online market for creation of motion content.

POST 110 is a prerequisite for this class.

POST 319 | EDITING STUDIO | 4 quarter hours
(Undergraduate)
This course provides practical experience in editing. Participants will apply learned editorial techniques into real-world experience, serving as editors for various projects that may include thesis, capstone and other student work. A key element of this course will be in-class discussions and critiques of student work, to sharpen their editing and storytelling skills.

POST 303 is a prerequisite for this class.
POST 321 | LOGIC PRO MIDI SEQUENCING WORKSHOP (FORMERLY DC 324) | 2 quarter hours
(Undergraduate)
This course offers training on all aspects of MIDI sequencing in Logic Pro software. All aspects of MIDI will be covered including recording, programming, editing, mixing and processing functions. PREREQUISITE(S): None (2 quarter hours)

POST 322 | ABLETON LIVE WORKSHOP (FORMERLY DC 336) | 2 quarter hours
(Undergraduate)
Ableton Live is a Digital Audio Workstation (DAW) software designed for recording, manipulating, and playing back audio and MIDI tracks both linearly and nonlinearly. Students will learn the basics of working within the Live interface to create musical arrangements, sound design, sequence MIDI instruments and samples, score Video, create DJ mixes, drum patterns, automate effects and mixing parameters. The course includes guided demonstrations of the Live interface and tools for complex compositions, mixing, and live performances in any musical style. The course projects will emphasize exploration and experimentation.

POST 324 | SOUND MIXING I (FORMERLY DC 317) | 4 quarter hours
(Undergraduate)
This workshop based course focuses on re-recording mixing for cinema using the stereo sound field. Subjects include mixing philosophies, techniques, advanced digital signal processing, and monitoring. A history of sound mixing will be covered. Several projects will be completed throughout the quarter.

POST 326 | SOUND MIXING II (FORMERLY DC 318) | 4 quarter hours
(Undergraduate)
This workshop based course focuses on re-recording mixing for cinema using the surround sound field. Subjects include mixing philosophies, techniques, advanced digital signal processing, and monitoring. A history of surround sound mixing will be covered. Several projects will be completed throughout the quarter.

POST 328 | SCORING FOR FILM AND VIDEO (FORMERLY DC 312) | 4 quarter hours
(Undergraduate)
Students are introduced to elements of music and ways in which these elements may be used to create a musical style that enhances the visual statement. Course emphasizes understanding the function of the score and how it relates to texture, color, and drama in music. Students explore their creativity using the tools available, work on projects of increasing complexity, and complete a score for their own film or video as a final project. Listening skills, music vocabulary, and business and legal aspects of the profession are also studied.

POST 329 | SOUND DESIGN AND SCORING STUDIO | 4 quarter hours
(Undergraduate)
This course is intended to provide practical experience in sound design and scoring for cinema, animation, and other media as well as to offer the opportunity to create quality materials to include in a demo reel or portfolio. Students will be serving as the sound and music crew for various projects that may include thesis, capstone and other student projects. A key element of this course will be in-class discussions and critiques of students' work, both to sharpen their sound designing, composing and critical listening skills.

POST 330 | PRODUCTION SOUND I (FORMERLY DC 212) | 4 quarter hours
(Undergraduate)
This workshop based course is an introduction to production recording/ mixing and field recording. Subjects include microphone selection, basic acoustics, microphone techniques, single and dual system recording practices, and mixing. Several recording projects will be completed throughout the quarter. PREREQUISITE(S): None.

POST 332 | PRODUCTION SOUND II (FORMERLY DC 313) | 4 quarter hours
(Undergraduate)
This workshop based course expands on topics covered in Production Sound I. Students will advance their knowledge of pre-production, acoustics, and production recording/mixing techniques. Subjects include production management, microphone selection and techniques, advanced sound-for-camera workflows, professional dual system recording/ mixing practices, and post workflows. Several projects will be completed throughout the quarter.

POST 330 is a prerequisite for this class.

POST 336 | ADVANCED SOUND RECORDING AND EDITING (FORMERLY DC 319) | 4 quarter hours
(Undergraduate)
This workshop based course offers advanced sound recording and editing techniques. Subjects include voice processing, basic acoustics, room tone matching, sound effects recording, Foley recording, proximity processing, frequency analysis, and mixing. Several projects will be completed throughout the quarter.

POST 224 is a prerequisite for this class.

POST 340 | COLOR CORRECTION (FORMERLY DC 325) | 4 quarter hours
(Undergraduate)
Students acquire a working knowledge of the aesthetics and technical aspects of the post-production phase of color correction. Content addresses theory and application of color correction, image control, and manipulation techniques. Principles of color theory and the tools available to filmmakers engaged in the processes of electronic media and image manipulation are explored through lecture, interactive computer exercises, and hands-on experience with professional color correction software.

POST 110 is a prerequisite for this class.

POST 344 | ADVANCED COLOR CORRECTION (FORMERLY DC 326) | 4 quarter hours
(Undergraduate)
This class expands on topics covered in DC 325. Students will refine their skills in the areas of Primary, Secondary and Color FX room advanced grading techniques used by professional colorists. This class will explore more in detail colorist strategies, grading workflows, aesthetics and technical aspects of color correction for the digital cinema. Students will explore color correcting trends that are popular in feature films and national television commercials. Through a series of three short projects and a final project, students will practice using the techniques they study in class.

POST 340 is a prerequisite for this class.
POST 348 | TITLE DESIGN (FORMERLY DC 362) | 4 quarter hours (Undergraduate)
This course explores the relationship between film and typography through an analysis of title design production in film, television, animation, and games. By studying examples from film and television history and the creative process behind those productions, students will develop an understanding of how to interpret and use typography to create narrative exposition on screen. Students will gain an appreciation and skill for working with text, image, and sound within time-based media that will add value, clarity, and sophistication to multimedia projects.

ANI 101 or ANI 201 or VFX 200 is a prerequisite for this class.

POST 360 | SOUND & MUSIC SYNTHESIS FOR FILM (FORMERLY DC 327) | 4 quarter hours (Undergraduate)
This course focuses on the integration of perception, theory, and practice using examples of real-time sound synthesis utilizing object-oriented programming. Students will learn how to create custom software for musical, video, and interactive experiences. Projects will incorporate case-studies and experimental tutorials and lectures will include guest artists working in audiovisual media, sound design, and interactive composition for film.

POST 124 or ANI 315 or GAM 250 is a prerequisite for this class.

POST 364 | MAX CYCLING 74 WORKSHOP (FORMERLY DC 337) | 2 quarter hours (Undergraduate)
This course is a workshop style introduction to the object-oriented programming language Max, that is used by musicians, designers, filmmakers, and visual artists to create works of Interactive Media. The course will introduce the basics of programming in the Max environment and cover sound synthesis, sample playback, music instrument design, and audio-reactive animation.

POST 380 | POST-PRODUCTION WORKSHOP (FORMERLY DC 382) | 2 quarter hours (Undergraduate)
This two-credit course will provide an opportunity for students to apply their post-production skills and work collaboratively on projects happening during the academic year. These projects can be Project Bluelight (faculty or student-led), large-scale class projects, faculty creative projects, or independent and/or professional productions. Students will work under faculty supervision and gain valuable experience collaborating as part of post-production team. Professional post-production applications, equipment, and facilities will be utilized. PREREQUISITE(S): By instructor permission only. (2 quarter hours)

POST 384 | POST-PRODUCTION SEMINAR (FORMERLY DC 391) | 4 quarter hours (Undergraduate)
This course is an introduction and overview of Post Production, from the end of principle photography, through editing, to final delivery. Students will learn workflows, technical aspects, the online environment, and the best way to finish and deliver a film. POST 110 is a prerequisite for this class.

POST 388 | POST PRODUCTION WORKFLOWS | 4 quarter hours (Undergraduate)
This course explores the practices that underpin modern post production workflows. It considers a range of mediums and platforms, encompassing fiction and non-fiction story-telling. Students will learn how post is organized, across post departments, incorporating picture editing, music, sound design and audio post, titles, graphics and VFX. Topics include post production teams, individual responsibilities, scheduling, budgeting, collaboration and communication, mastering, delivery, archiving, and the impact of new and evolving technologies. Students will visit post-production companies to experience post professionals undertaking the varying roles.

POST 390 | TOPICS IN POST-PRODUCTION SOUND (FORMERLY DC 316) | 4 quarter hours (Undergraduate)
Advanced study in post-production sound focusing on a specific area each quarter such as: A.D.R., Foley, Scoring, Sound Effects, Mixing, etc. May be repeated for credit. PREREQUISITES: NONE.

POST 391 | ADVANCED TOPICS IN EDITING (FORMERLY DC 342) | 4 quarter hours (Undergraduate)
This class will be an in-depth examination of an editor, editing style, or editing theory that has had a significant influence on the development of cinematic storytelling and expression. Through lectures, screenings, readings, discussions, and editing assignments, students will analyze the distinctive traits of the selected topic within the broader context of cinema history and culture. Editing projects will be assigned through the quarter. Specific topics will be selected by the instructor and will vary with each quarter.

POST 110 is a prerequisite for this class.

POST 394 | IT AND ENGINEERING FOR MEDIA CAPSTONE | 4 quarter hours (Undergraduate)
This course provides students with the opportunity to utilize and integrate acquired knowledge in information technology for media to an applied audio and video engineering project. Students will work in teams to design, create, and test a real world media technology solution. Completed projects will be presented and evaluated by the class.

CSC 382, TDC 377 and POST 384 are prerequisites for this class.

POST 399 | INDEPENDENT STUDY | 1-8 quarter hours (Undergraduate)
Variable credit. PREREQUISITE(S): Consent of dean.

POST 400 | EDITING (FORMERLY DC 420) | 4 quarter hours (Graduate)
Emphasis is on developing the student's understanding of the art of cinematic storytelling and montage. Work on more advanced projects is integrated into the class as a means of mastering advanced editing tools and techniques.

FILM 401 or FILM 410 is a prerequisite for this class.

POST 401 | EDITING INTENSIVE | 4 quarter hours (Graduate)
This course is an accelerated introduction to editing, from basic concepts to advanced methods and techniques. Emphasis is on developing the students' understanding of the art of cinematic storytelling and montage. Utilizing a workshop atmosphere students will work on advanced projects as a means of mastering advanced editing tools and techniques.

Status as a student in the MS Film and Television with concentration in Editing or Sound is a prerequisite for this class.
POST 403 | ADVANCED EDITING (FORMERLY DC 440) | 4 quarter hours (Graduate)
This course provides an advanced workshop for students to edit their own narrative or documentary projects. Students will be expected to bring in their own footage, and will take the projects from logging, through rough cut, to picture lock. Post-production workflow, and basic sound design and color correction for picture editors will also be emphasized.
POST 401 is a prerequisite for this class.

POST 406 | EDITING STYLES AND TECHNIQUES (FORMERLY DC 422) | 4 quarter hours (Graduate)
This course is designed for editors looking for innovative ways to tell stories, by exploring how editing techniques have been pushed by artists working in the margins. Cutting edge editing techniques are a co-opting of historical and experimental styles, repackaged and used in a narrative context. A series of practical exercises and a freedom of open project using found footage allow editors to explore the array of editing techniques adopted from experimental work while discovering their personal style as editors and storytellers. Editors will consider how form affects content and will reinvent techniques in ways to surprise modern audiences.
FILM 401 or FILM 410 is a prerequisite for this class.

POST 409 | EDITING THE FEATURE FILM (FORMERLY DC 459) | 4 quarter hours (Graduate)
In this course, students will be introduced to the specialized post-production workflow of editing the feature film. Topics will include: understanding the script notes, organizing the project, editing scenes with a focus on performance and character arcs, working with sound effects and music, performing a temp mix, breaking the film into reels, and producing deliverables for the composer, sound editor, and color correction. PREREQUISITE(S): POST 400.

POST 412 | EDITING THE DOCUMENTARY | 4 quarter hours (Graduate)
Editing the Documentary will expose students to the specialized post-production workflow of documentary film. Utilizing a workshop atmosphere in combination with lectures and projects, students will gain an appreciation of the art and craft of documentary film editing. This course will cover an overview of current documentary trends and styles, explore various workflows to find the story in documentary footage, the ethical role of editor in shaping the stories of real people and events, how to apply the visual language of fiction to documentary film, use of archival media in a contemporary way, how to structure story scene to scene and where to start and end the story.
POST 400 or POST 401 is a prerequisite for this class.

POST 418 | EDITING THE SHORT FORM | 4 quarter hours (Graduate)
Editing the Short Form will explore the world of TV commercials, music video, movie trailers and internet content for clients. Emphasis on the culture of commercial production environments, including the advertising agency, entertainment and music media business, as well as the broader online market for creation of motion content.
POST 400 or POST 401 is a prerequisite for this class.

POST 419 | EDITING STUDIO | 4 quarter hours (Graduate)
This course provides practical experience in editing. Participants will apply learned editorial techniques into real-world experience, serving as editors for various projects that may include thesis, capstone and other student work. A key element of this course will be in-class discussions and critiques of students' work, to sharpen their editing and storytelling skills.
POST 403 is a prerequisite for this class.

POST 420 | POST-PRODUCTION SOUND DESIGN (FORMERLY DC 415) | 4 quarter hours (Graduate)
This course expands on topics covered in DC 215. Emphasis will be on mixing and editing techniques for music and sound effects. Coursework also includes the recording of natural sounds and special effects to reinforce images and the story. The course is intended for advanced students who wish to develop their skills and gain more experience in preparing and mixing sound tracks for traditional as well as interactive narratives.
FILM 410 or ANI 422 is a prerequisite for this class.

POST 421 | SOUND DESIGN INTENSIVE | 4 quarter hours (Graduate)
This accelerated course examines artistic and technological sound design in cinema. The course will cover the basics of sound, microphones, production and post-production sound processes. Lectures, readings, and film clips will be used to illustrate the language of film sound, as practiced by film directors, sound designers, and editors. Students will learn to edit sound assignments current Industry technologies. The second half of the course focuses on mixing and editing techniques for music and sound effects in film.
Status as a student in the MS Film and Television with concentration in Editing or Sound is a prerequisite for this class.

POST 424 | SOUND MIXING I (FORMERLY DC 417) | 4 quarter hours (Graduate)
This workshop based course focuses on re-recording mixing for cinema using the stereo sound field. Subjects include mixing philosophies, techniques, advanced digital signal processing, and monitoring. A history of sound mixing will be covered. Several projects will be completed throughout the quarter.
POST 421 is a prerequisite for this class.

POST 426 | SOUND MIXING II (FORMERLY DC 418) | 4 quarter hours (Graduate)
This workshop based course focuses on re-recording mixing for cinema using the surround sound field. Subjects include mixing philosophies, techniques, advance digital signal processing, and monitoring. A history of surround sound mixing will be covered. Several projects will be completed throughout the quarter.
POST 424 is a prerequisite for this class.

POST 428 | SCORING FOR FILM AND VIDEO (FORMERLY DC 412) | 4 quarter hours (Graduate)
Students are introduced to elements of music and ways in which these elements may be used to create a musical style that enhances the visual statement. Course emphasizes understanding the function of the score and how it relates to texture, color, and drama in music. Students explore their creative using the tools available, work on projects of increasing complexity, and complete a score of their own film or video as a final project. Listening skills, music vocabulary, and business and legal aspects of the profession are also studied.
POST 429 | SOUND DESIGN AND SCORING STUDIO | 4 quarter hours (Graduate)
This course is intended to provide practical experience in sound design and scoring for cinema, animation, and other media as well as to offer the opportunity to create quality materials to include in a demo reel or portfolio. Students will be serving as the sound and music crew for various projects that may include thesis, capstone and other student projects. A key element of this course will be in-class discussions and critiques of students' work, both to sharpen their sound designing, composing and critical listening skills.

POST 430 | PRODUCTION SOUND I | 4 quarter hours (Graduate)
This workshop based course is an introduction to production recording/mixing and field recording. Subjects include microphone selection, basic acoustics, microphone techniques, single and dual system recording practices, and mixing. Several recording projects will be completed throughout the quarter.

FILM 401 or FILM 410 is a prerequisite for this class.

POST 432 | PRODUCTION SOUND II (FORMERLY DC 413) | 4 quarter hours (Graduate)
This workshop based course expands on topics covered in Production Sound I. Students will advance their knowledge of pre-production, acoustics, and production recording/mixing techniques. Subjects include production management, microphone selection and techniques, advanced sound-for-camera workflows, professional dual system recording/mixing practices, and post workflows. Several projects will be completed throughout the quarter.

PROFESSIONAL DEGREE

POST 436 | ADVANCED SOUND RECORDING AND EDITING (FORMERLY DC 419) | 4 quarter hours (Graduate)
This workshop based course offers advanced sound recording and editing techniques. Subjects include voice processing, basic acoustics, room tone matching, sound effects recording, Foley recording, proximity processing, frequency analysis, and mixing. Several projects will be completed throughout the quarter.

POST 421 is a prerequisite for this class.

POST 440 | COLOR CORRECTION (FORMERLY DC 425) | 4 quarter hours (Graduate)
Students acquire a working knowledge of the aesthetics and technical aspects of the post-production phase of color correction. Content addresses theory and application of color correction, image control, and manipulation techniques. Principles of color theory and the tools available to filmmakers engaged in the processes of electronic media and image manipulation are explored through lecture, interactive computer exercises, and hands-on experience with professional color correction software.

POST 400 or POST 401 is a prerequisite for this class.

POST 444 | ADVANCED COLOR CORRECTION (FORMERLY DC 426) | 4 quarter hours (Graduate)
This class expands on topics covered in DC 425. Students will refine their skills in the areas of Primary, Secondary and Color FX room advanced grading techniques used by professional colorists. This class will explore more in detail colorist strategies, grading workflows, aesthetics and technical aspects of color correction for the digital cinema. Students will explore color correcting trends that are popular in feature films and national television commercials. Through a series of three short projects and a final project, students will practice using the techniques they study in class.

POST 440 is a prerequisite for this class.

POST 448 | TITLE DESIGN (FORMERLY DC 463) | 4 quarter hours (Graduate)
This course explores the relationship between film and typography through an analysis of title design production in film, television, animation, and games. By studying examples from film and television history and the creative process behind those productions, students will develop an understanding of how to interpret and use typography to create narrative exposition on screen. Students will gain an appreciation and skill for working with text, image, and sound within time-based media that will add value, clarity, and sophistication to multimedia projects.

POST 460 | INTERACTIVE AUDIO AND VIDEO (FORMERLY DC 435) | 4 quarter hours (Graduate)
This course focuses on the integration of perception, theory, and practice using digital electronic sound synthesis to create custom sound effects and music for visual media. Topics will cover the use and creation of digital electronic sound synthesizers, audio mixing, acoustics, and the history of electronic music in film. Students will learn how to use synthesizers to create customized sonic designs as well as how to apply them to film, video, and interactive experiences. Projects and labs will incorporate real-world examples, practical tutorials, and lectures that will include guest visiting working in audiovisual media, sound design, and electronic music composition for film.

POST 420 is a prerequisite for this class.

POST 480 | POST-PRODUCTION WORKSHOP (FORMERLY DC 482) | 2 quarter hours (Graduate)
This two-credit course will provide an opportunity for students to apply their post-production skills and work collaboratively on projects happening during the academic year. These projects can be Project Bluelight (faculty or student-led), large-scale class projects, faculty creative projects, or independent and/or professional productions. Students will work under faculty supervision and gain valuable experience collaborating as part of post-production team. Professional post-production applications, equipment, and facilities will be utilized. PREREQUISITE(S): By instructor permission only. (2 quarter hours)

POST 484 | POST-PRODUCTION SEMINAR (FORMERLY DC 491) | 4 quarter hours (Graduate)
This course is an overview of Post Production, from the end of production, through editing, to final delivery. Topics covered will include workflows, technical aspects, and the online environment. The focus will be on the best way to finish and deliver a film.

POST 400 or POST 401 is a prerequisite for this class.
POST 488 | POST PRODUCTION WORKFLOWS | 4 quarter hours
(Graduate)
This course explores the practices that underpin modern post production workflows. It considers a range of mediums and platforms, encompassing fiction and non-fiction story-telling. Students will learn how post is organized, across post departments, incorporating picture editing, music, sound design and audio post, titles, graphics and VFX. Topics include post production teams, individual responsibilities, scheduling, budgeting, collaboration and communication, mastering, delivery, archiving, and the impact of new and evolving technologies. Students will visit post-production companies to experience post professionals undertaking the varying roles.

POST 490 | TOPICS IN POST-PRODUCTION SOUND (FORMERLY DC 416) | 4 quarter hours
(Graduate)
Advanced study in post-production sound focusing on a specific area each quarter such as: A.D.R., Foley, Scoring, Sound Effects, Mixing, etc. May be repeated for credit. PREREQUISITE(S): None.

POST 499 | INTERNSHIPS IN MEDIA AND DESIGN | 1-4 quarter hours
(Graduate)
This is an internship/independent study course for graduate students, which offers the opportunity to reflect on an internship while gaining professional experience, industry contact and referrals while still in school. Opportunities in post-production, motion picture production, advertising, television, animation, game design, graphic design, motion graphics and interactive media can all qualify for the course. Students will work independently on class assignments. Assignments will be determined by the instructor and based on the number of credits in which the student is enrolled. Admission to the program requires consent of the internship course instructor after verification of the student’s internship. PREREQUISITE(S): Internship. (variable credit)

POST 500 | ADVANCED EDITING FOR THESIS (FORMERLY DC 572) | 4 quarter hours
(Graduate)
Advanced concepts and techniques in picture editing for directors, such as re-directing, re-writing, pace, tone and rhythm, are taught in lecture and workshop. These concepts and techniques will be applied to the editing phase of MFA Cinema thesis films, culminating in picture lock. Status as a Film & Television Directing MFA student is a prerequisite for this class.

POST 520 | ADVANCED SOUND WORKSHOP FOR THESIS (FORMERLY DC 573) | 2 quarter hours
(Graduate)
Advanced concepts and techniques in sound design for directors, such as supervising sound editing, Foley, ADR, music and mixing, are taught in lecture and workshop. These concepts and techniques will be applied to the editing phase of MFA Cinema thesis films, culminating in a final sound mix. PREREQUISITE(S): POST 500.

POST 580 | ADVANCED FINISHING WORKSHOP FOR THESIS (FORMERLY DC 574) | 2 quarter hours
(Graduate)
Advanced concepts and techniques in film finishing for directors, such as supervising color correction, titling, visual effects and deliverables, are taught in lecture and workshop. These concepts and techniques will be applied to the finishing phase of MFA Cinema thesis films, culminating in final film delivery. PREREQUISITE(S): POST 500.

POST 599 | INDEPENDENT STUDY | 1-8 quarter hours
(Graduate)
Independent study form required. PREREQUISITE(S): Consent of instructor. (variable credit)

Film & TV Screenwriting (SCWR)

SCWR 100 | INTRODUCTION TO SCREENWRITING (FORMERLY DC 201) | 4 quarter hours
(Undergraduate)
This course is an introduction to and overview of the elements of theme, plot, character, and dialogue in dramatic writing for cinema. Emphasis is placed on telling a story in terms of action and the reality of characters. The difference between the literary and visual medium is explored through individual writing projects and group analysis. Development of synopsis and treatment for a short theatrical screen play: theme, plot, character, mise-en-scene and utilization of cinematic elements. PREREQUISITE(S): None.

SCWR 101 | SCREENWRITING FOR MAJORS (FORMERLY DC 101) | 4 quarter hours
(Undergraduate)
This course introduces digital cinema majors to dramatic writing for motion pictures. The topics covered include theme, plot, story structure, character, and dialogue. Emphasis is placed on telling a story in visual terms. Students are expected to develop and write a short screenplay. PREREQUISITE(S): None.

SCWR 120 | FILM STRUCTURE FOR MAJORS (FORMERLY DC 221) | 4 quarter hours
(Undergraduate)
A critical analysis of three-act film structure as well as an introduction to alternative narrative structures including, but not limited to, dual protagonists, ensemble, and non-linear structures. Films of various genres and eras will be examined. Students will develop a cinematic language with which to discuss films as well as a toolbox of techniques to use when making films. PREREQUISITE(S): None.

SCWR 121 | CLASSIC HOLLYWOOD FILM STRUCTURE (FORMERLY DC 222) | 4 quarter hours
(Undergraduate)
Critical analysis of successful Hollywood films and their narrative structures. Films of various genres and eras will be examined. Students will learn how to recognize classical three-act structure in finished films and scripts. Students will develop a cinematic language with which to discuss films as well as a toolbox of techniques to use when making films. Key story concepts to be discussed include: protagonist, antagonist, want versus need, elements of the future, poetic justice, planting and payoff, catalyst, climax, and Aristotelian terminology. PREREQUISITE(S): NONE.

SCWR 122 | SCRIPT TO SCREEN (FORMERLY DC 224) | 4 quarter hours
(Undergraduate)
This analytical course examines the screenplay’s evolution to the screen from a writer’s perspective. Students will read feature length scripts of varying genres and then perform a critical analysis and comparison of the text to the final produced versions of the films. Storytelling conventions such as structure, character development, theme, and the creation of tension will be used to uncover alterations and how these adjustments ultimately impacted the film’s reception.
SCWR 123 | ADAPTATION: THE CINEMATIC RECREATING OF MEANING (FORMERLY DC 235) | 4 quarter hours  
(Undergraduate)  
This course explores contemporary cinematic adaptations of literature and how recent re-workings in film open viewers up to critical analysis of the cultural practices surrounding the promotion and reception of these narratives. What issues have an impact upon the borrowing and reinterpreting of narratives of film? How, when, and where can we identify such borrowings and reinterpretations in multiple contemporary iterations of the same narrative?.  
SCWR 100 or SCWR 101 is a prerequisite for this class.

SCWR 150 | TELEVISION GENRES (FORMERLY DC 229) | 4 quarter hours  
(Undergraduate)  
Students will analyze and discuss some of the most important and influential shows in television history. Students will learn all about the writer-centric form of scripted television, where it’s been and where it’s heading. Students study serials and procedurals, network and cable shows, principal leads, partnerships and ensembles, comedy and drama, prevalent themes, innovations in content and form, the impact of DVR, and the impact of the internet.

SCWR 151 | TELEVISION GENRES FOR MAJORS (FORMERLY DC 230) | 4 quarter hours  
(Undergraduate)  
This course focuses on the form of scripted television, its history, tropes and trends from the professional’s point of view. Students will analyze comedy and drama, serials and procedurals, network, cable and internet shows to gain a full perspective of the scripted television landscape and develop a toolbox of techniques to use when creating television series.

SCWR 210 | THE FUNDAMENTALS OF COMEDY | 4 quarter hours  
(Undergraduate)  
This course explores how Chicago became the cultural hub for comedy in America and the vital role The Second City has played in the modern style of improvisation. Through lectures and screenings, students will explore the history of comedy theory and where the form is headed next.

SCWR 240 | INTRODUCTION TO PITCHING (FORMERLY DC 288) | 4 quarter hours  
(Undergraduate)  
This course focuses on creating an inventory of new material for future writing projects by developing and pitching stories for studio and independent films, as well as cable, streaming, and network television series. Students will analyze the vital role of pitching in the entertainment industry and build a foundation towards mastering professional pitching techniques.

SCWR 100 or SCWR 101 is a prerequisite for this class.

SCWR 250 | INTRODUCTION TO TELEVISION WRITING (FORMERLY DC 272) | 4 quarter hours  
(Undergraduate)  
This course focuses on writing the sitcom and one-hour drama television formats. Students will examine the conventions of serialized and procedural series and will learn how the collaborative dynamic of the writer’s room impacts story. The lectures and workshop provide a foundation of what it takes to be a professional staff writer and culminate in crafting a spec episode of a current television series.  
(SCWR 100 or SCWR 101) and (SCWR 150 or SCWR 151) are prerequisites for this class.

SCWR 301 | STORY DEVELOPMENT (FORMERLY DC 300) | 4 quarter hours  
(Undergraduate)  
This course is designed to help the emerging writer focus their creativity into a viable original project for a feature film. The lectures, workshops, and assignments are designed to enable the student to identify and develop material they have a strong personal connection to. Emphasis is placed on extensive research of the subject matter, creating memorable characters, and crafting a strong dramatic throughline.  
SCWR 100 or SCWR 101 is a prerequisite for this class.

SCWR 302 | WRITING THE FEATURE SCREENPLAY (FORMERLY DC 301) | 4 quarter hours  
(Undergraduate)  
This course focuses on completing the first draft of a feature length screenplay. Emphasis will be placed on a foundation of character, structure, plot, and theme to bring the writer’s vetted concept to fruition. The lectures, in-class workshops, and aggressive page deadlines are designed to culminate in a spec screenplay that showcases voice and command of screenwriting conventions.

SCWR 303 | REWRITING THE FEATURE FILM SCRIPT (FORMERLY DC 303) | 4 quarter hours  
(Undergraduate)  
This class focuses on practical ways to approach the rewriting process for feature film screenplays. Through group workshops and assignments, students isolate issues with plot, character development, dialogue and pacing in their script and work on addressing them in a full draft rewrite. Student must possess a complete feature length script in order to enroll in the course.

SCWR 305 | WRITING ON ASSIGNMENT (FORMERLY DC 308) | 4 quarter hours  
(Undergraduate)  
Modeled after professional writing assignments, this advanced course challenges students to complete a feature length screenplay within specific parameters provided by the instructor in ten weeks. Lectures and strict weekly page submission deadlines provide a practical framework on how to write quickly without sacrificing quality. Constructive analysis will be used in discussing produced scripts, weekly assignments and group workshops to reveal the writer’s unique voice and perspective.

SCWR 306 | SCENE WRITING (FORMERLY DC 346) | 4 quarter hours  
(Undergraduate)  
This course focuses on analyzing and developing the fundamental building block of film and television writing: the scene. Students will gain a greater understanding of how to craft engaging scenes and refine their unique voice on the page through weekly lectures, writing exercises, and workshops.

SCWR 302 or SCWR 352 or SCWR 353 is a prerequisite for this course.

SCWR 307 | ADAPTATION (FORMERLY DC 347) | 4 quarter hours  
(Undergraduate)  
This course will explore the process of adapting existing material into a feature screenplay or teleplay. With the professor’s guidance, students will choose material from the public domain to adapt, and then formulate a logline, short pitch, treatment, and first act of a feature screenplay (or two acts of a teleplay). Students will also be exposed to the process by which media rights to existing material can be obtained, should they wish to pursue intellectual property in the future.

SCWR 302 or SCWR 352 or SCWR 353 is a prerequisite for this course.
SCWR 308 | WRITING THE SHORT FILM FOR PRODUCTION (FORMERLY DC 343) | 4 quarter hours (Undergraduate)

Students will study the essential elements and conventions for writing the short film including but not limited to character, structure, and tension. Students will write a polished short film (no longer than 25 pages) designed to be produced. Students will learn how to put together a professional proposal to apply for internal or external production funds and financing.

SCWR 100 or SCWR 101 is a prerequisite for this class.

SCWR 309 | CHARACTER DEVELOPMENT | 4 quarter hours (Undergraduate)

This course will explore creative methodologies geared at getting deeply into the minds and points of view of dramatic characters. Throughout the course, students will concentrate on one set of characters to refine an existing web series, feature film, or television pilot.

SCWR 100 or SCWR 101 is a prerequisite for this class.

SCWR 310 | ADVANCED SCREENWRITING LAB (FORMERLY DC 344) | 4 quarter hours (Undergraduate)

This advanced course is designed to take existing writing projects (including but not limited to features, pilots, television specs, web series, short scripts) at various stages of development and provide the practical means to move forward through constructive workshop sessions. Stories will be broken down to examine concept viability and the overall execution of the narrative. Instructor and peer critiques will challenge the writer to enhance their voice on the page with the goal of creating work that is unique, engaging, and commercial.

SCWR 100 or SCWR 101 is a prerequisite for this class.

SCWR 341 | PITCHING SEMINAR (FORMERLY DC 305) | 4 quarter hours (Undergraduate)

This advanced course focuses on developing vetted story pitches for existing student projects and how to pitch a unique take on intellectual property. The lectures and in-class workshops will focus on preparing for pitch meetings with an emphasis on how to read the dynamics of a room and creating a unique brand that resonates with producers and executives.

SCWR 240 is a prerequisite for this class.

SCWR 342 | FEATURE DEVELOPMENT (FORMERLY DC 309) | 4 quarter hours (Undergraduate)

This course offers a practical approach to the screenwriter's role in the development of a feature film. Emphasis will be placed on obtaining a greater understanding of narrative conventions, script analysis and the film market. From agents to studio executives, we will examine the varying points of view that comprise the development process. Constructive analysis will be used to break down feature length produced screenplays and student work. The assignments and class discussions are designed to expose the inner workings of Hollywood and provide a framework for what it takes to succeed in the entertainment industry.

SCWR 100 or SCWR 101 is a prerequisite for this class.

SCWR 345 | HOLLYWOOD HISTORY (FORMERLY DC 387) | 4 quarter hours (Undergraduate)

Students will gain a deeper appreciation of the history of the Hollywood film industry through behind-the-scenes access to working studios and theme parks, historical readings, presentations and discussions.

SCWR 346 | FILMMAKERS SEMINAR (FORMERLY DC 388) | 4 quarter hours (Undergraduate)

Each week, students will be given the rare opportunity to speak directly with some of the industry's biggest players. Hollywood directors, writers, cinematographers, editors, producers, agents, managers, entertainment lawyers, development executives and others will come to class, discuss their journeys, offer advice, and answer questions. The class will culminate with an industry mixer, where these professionals, along with dozens more, will join the students for a relaxed evening of networking. This is an invaluable opportunity for students to begin to form meaningful relationships that can help them as they transition from student to filmmaker. Note: Students must be participating in the DePaul LA program to be eligible to enroll.

SCWR 349 | STORYTELLING FOR VIDEO GAMES (FORMERLY DC 341) | 4 quarter hours (Undergraduate)

This course examines the writer’s role in the game development process and how storytelling conventions like character, conflict, and plot are utilized to enhance gameplay. Emphasis will be placed on building an understanding of game narratives, interactivity, and working with design teams. Students will develop a design document highlighting characters, locations, dialogue scripting, and overall gameplay for an original video game idea.

SCWR 250 is a prerequisite for this class.

SCWR 352 | WRITING THE SITCOM (FORMERLY DC 306) | 4 quarter hours (Undergraduate)

This course focuses on the fundamentals of writing the half-hour situational comedy. Creating comedic characters, situations, and developing multiple storylines are covered. Students will create an original sitcom pilot.

SCWR 250 is a prerequisite for this class.

SCWR 353 | WRITING THE EPISODIC DRAMA (FORMERLY DC 307) | 4 quarter hours (Undergraduate)

This course examines the storytelling techniques necessary to write an hour long television dramatic series with an emphasis on characterization and structure. Students will create an original hour long pilot.

SCWR 250 is a prerequisite for this class.

SCWR 354 | REWRITING THE ORIGINAL TELEVISION PILOT (FORMERLY DC 330) | 4 quarter hours (Undergraduate)

This class focuses on practical ways to approaching the process of rewriting a script; specifically this class will focus on students’ original television pilots. Through group workshops, lectures, readings, and assignments, students identify and improve problems in various areas of their teleplay including, but not limited to: plot, character development, dialogue and pacing. By the end of the quarter, students will have completed a full rewrite of their complete pilot script; therefore, students must possess a complete television pilot in order to enroll in the course. This course is repeatable.

SCWR 355 | THE WRITER’S ROOM (FORMERLY TV 302) | 4 quarter hours (Undergraduate)

This course enables students to develop a television series in an advanced workshop setting modeled after a professional writer's room. Emphasis will be placed on pitching ideas, breaking story, and examining the various roles that make the writers' room a creative and dynamic environment.

SCWR 352 is a prerequisite for this class.
SCWR 360 | WRITING THE WEB SERIES (FORMERLY DC 328) | 4 quarter hours (Undergraduate)
Students will examine various webisode structures, pitch original concepts for a web series, and ultimately write a complete season consisting of one dozen 5-10 minute episodes.
SCWR 100 or SCWR 101 is a prerequisite for this class.

SCWR 361 | WEB SERIES PRODUCTION (FORMERLY TV 330) | 4 quarter hours (Undergraduate)
This course is an immersive introduction to video production for the web. Students learn how to produce a five-episode web series. The course covers the basic principles of directing, budgeting, financing, casting, hiring talent, scheduling, securing locations, shooting, controlling continuity, and gathering social media artifacts for a series. Students learn the production process from idea execution through production and will work in teams producing two web series.
FilM 110 and SCWR 360 are prerequisites for this class.

SCWR 362 | MARKETING AND DISTRIBUTING THE WEB SERIES (FORMERLY TV 309) | 4 quarter hours (Undergraduate)
Students study online marketing and distribution models for web television in order to develop and implement the launch of their own series. Topics covered include: platform options, social media outreach, participatory culture, press kits, and the role of film festivals.
SCWR 361 is a prerequisite for this class.

SCWR 365 | SHOWRUNNING I (FORMERLY TV 321) | 4 quarter hours (Undergraduate)
This course provides an overview of the evolution of the Showrunner in network television, cable, and streaming media. Students will analyze how the success of a series is dependent on an astute Showrunner who knows how to handle the creative, financial, and managerial aspects of putting on a show. Emphasis will be placed on the vital role these executive producers play in the three stages of production to ensure the actualization and continuity of their artistic vision.
SCWR 250 is a prerequisite for this class.

SCWR 366 | SHOWRUNNING II (FORMERLY TV 331) | 4 quarter hours (Undergraduate)
This advanced course enables students to take on the role of the Showrunner for the packaging and preproduction of an original television or web series. Through hands-on exercises, students will use their creative sensibilities and business acumen to develop a viable show bible, style guide, budget and schedule for a self-produced production or as part of a network pitch package.
SCWR 365 is a prerequisite for this class.

SCWR 370 | COMEDIC IMPROVISATION FOR FILMMAKERS | 4 quarter hours (Undergraduate)
This course lays the foundation for successful improvisation in the current Chicago style, starting with the formation of the ensemble and exploring various elements of the creative process. Students experience what it means to be a part of a larger whole, create freely without self-judgement, and develop tools of play that will make them better communicators and filmmakers.

SCWR 371 | COMEDIC IMPROVISATION FOR FILMMAKERS II | 4 quarter hours (Undergraduate)
The essence of a good improvised scene is provided by strong character work. This course gives students a wealth of tools to create a variety of cinematic characters, each one driven by a unique perspective. They will continue to build on the fundamental skills of collaboration, play, and active listening while bringing more of themselves into their filmmaking.
SCWR 370 is a prerequisite for this class.

SCWR 372 | COMEDIC IMPROVISATION FOR FILMMAKERS III | 4 quarter hours (Undergraduate)
This advanced course focuses on the mechanics of the various forms that an improvised scene can take. Students learn to build off character and premise to develop a fully fleshed out scene with a strong comedic arc. Emphasis will be placed on breaking down the aesthetic devices that comprise a cinematic scene.
SCWR 371 is a prerequisite for this class.

SCWR 373 | TOPICS IN COMEDY | 4 quarter hours (Undergraduate)
This course features an in-depth study of comedy focusing on an aesthetic, history, or filmmaking method. Students will analyze the distinctive traits of the selected topic within the broader context of comedy film and television. Specific topics will be selected by the instructor and will vary with each quarter.

SCWR 374 | WHAT MAKES US LAUGH | 4 quarter hours (Undergraduate)
This course examines the role that comedy and satire have played in the cinematic arts since the turn of the last century. Students will examine the comedic language in films and television shows, while understanding the context for the times in which they were made.
SCWR 210 is a prerequisite for this class.

SCWR 375 | COMEDIC STORYTELLING | 4 quarter hours (Undergraduate)
This course focuses on the most influential comedy writers from antiquity to today. Emphasis will be placed on the context for when these works were created, how they were received at the time, and how these pieces remain relevant. Students will immerse themselves in comedic structure and storytelling to build a frame of reference and to craft a distinct voice as a filmmaker.
SCWR 374 is a prerequisite for this class.

SCWR 376 | COMEDIC VOICE | 4 quarter hours (Undergraduate)
This course teaches students how to find and hone their comedic point of view through exploring how their experiences shape who they are. Through discussions and exercises, students create an abundance of ideas in order to refine their storytelling skills, develop their comedic voice, and pitch stories for a variety of formats. Students will then analyze the vital role of presentation of their original comedy concepts while mastering professional pitching techniques.
SCWR 374 is a prerequisite for this class.
SCWR 377 | STAND-UP COMEDY | 4 quarter hours (Undergraduate)
In this course, students will study and analyze stand-up comedy as a route to success in Film and Television. Students will learn about the history of stand-up comedy and the comedians who parlayed success on the stage into success in television and films. Students will study the process of how comedians first created their material and honed/perfected it on stages around the world. Finally, students will mine their own lives for funny stories, creating original stand-up comedy routines (5 minutes), work-shopping them in class and eventually performing these routines on the Main Stage at Zanies Comedy Club.

SCWR 378 | Advanced Stand Up Comedy | 4 quarter hours (Undergraduate)
Students will focus on developing an original comedy set; 5-10 minutes of original material connected conceptually and/or tonally; then taking it from stage-to-screen. Students will create and develop their material in class, perform in front of peers, perform out at comedy clubs all in the service of crafting an original pitch for a longer project for the screen (web series, a TV show or movie).

FilM 184 or SCWR 377 is a prerequisite for this class.

SCWR 379 | COMEDY, JOKE, AND SKETCH WRITING (FORMERLY DC 383) | 4 quarter hours (Undergraduate)
Students will learn techniques and formulas for joke writing, writing sketch comedy packages, and writing for news driven comedy shows. Students will apply these skills to their existing scripts as well as to developing new material.

SCWR 100 or SCWR 101 is a prerequisite for this class.

SCWR 380 | COMEDY PRODUCTION | 4 quarter hours (Undergraduate)
This course introduces students to the collaborative nature of comedy film production. Emphasis is placed on discovering stories and characters with the creation of a short comedic non-fiction film. Building on that, students ideate, pitch, and produce short narrative film concepts to become proficient with current comedic filmmaking techniques.

SCWR 370 is a prerequisite for this class.

SCWR 381 | COMEDY PRODUCTION II | 4 quarter hours (Undergraduate)
This course focuses on developing comedy filmmaking skills by refining the creative voice and technical proficiency. Students ideate, craft, and revise a short comedic script for production. This project then moves to the pre-production phase where emphasis is placed on casting, scouting, budgeting, and crew collaboration to ensure continuity of the comedic vision. Principal photography, editing, and final delivery of this project will be completed in SCWR 382 Comedy Production III.

SCWR 380 is a prerequisite for this class.

SCWR 382 | COMEDY PRODUCTION III | 4 quarter hours (Undergraduate)
This advanced comedy filmmaking course focuses on the principal photography, editing, and final delivery of the project that originated in SCWR 381 Comedy Production II. Students will continue to hone their skills as directors, value the holistic fashion in which films are made by serving in different crew positions, and ensure the continuity of their comedic vision through the post-production workflow process.

SCWR 381 is a prerequisite for this class.

SCWR 385 | DIRECTING COMEDY FOR FILM | 4 quarter hours (Undergraduate)
This course focuses on effective techniques for directing actors in comedy. Students will delve into text analysis, explore possibilities that reside within written works and craft comedic performances in scenes for film and television projects. Emphasis is put on effective casting, the importance of collaboration, and honing a unique point of view.

DC 210 and SCWR 376 are prerequisites for this class.

SCWR 386 | DIRECTING COMEDY FOR FILM II | 4 quarter hours (Undergraduate)
This course is an on-camera workshop with a focus on crew collaboration and directing screen performances with actors. Students will prepare, cast, rehearse and direct select scene exercises, which will be edited to understand the holistic approach to comedy filmmaking.

SCWR 385 is a prerequisite for this class.

SCWR 390 | TOPICS IN SCREENWRITING (FORMERLY DC 304) | 4 quarter hours (Undergraduate)
Advanced study in screenwriting focusing on a specific genre each quarter such as: Science Fiction, Film Noir, Comedy, Action-Adventure, Nonfiction, etc. May be repeated for credit.

SCWR 100 or SCWR 101 is a prerequisite for this class.

SCWR 392 | TOPICS IN LA | 2-6 quarter hours (Undergraduate)
This course features an in-depth study of an aesthetic, history, business or filmmaking method. Students will analyze the distinctive traits and application of the selected topic within the broader context of the film and television industry in Los Angeles. Specific topics will be selected by the instructor and will vary with each quarter.

SCWR 399 | INDEPENDENT STUDY | 4 quarter hours (Undergraduate)
Variable credit. PREREQUISITE(S): Consent of dean.

SCWR 400 | FOUNDATIONS OF SCREENWRITING (FORMERLY DC 501) | 4 quarter hours (Graduate)
Students begin their screenwriting journey with a strong foundation in the basic building blocks of solid, engaging storytelling. Students will mine their own lives in order to create memorable stories, characters, and settings. Additionally, students will learn basic screenwriting skills such as character development, constructing atmosphere, and the fundamental components of a scene. PREREQUISITE(S): None.

SCWR 401 | WRITING THE FEATURE I (FORMERLY DC 402) | 4 quarter hours (Graduate)
This course focuses on creating a vetted concept and step outline for a feature length screenplay. Emphasis is put on idea origination and world building, forming engaging characters, and structuring an affecting plot with cause and effect storytelling. Through script readings, weekly assignments, and in-class workshops, students will hone their unique voice to craft the dramatic template for a cinematically viable story.
SCWR 402 | WRITING THE FEATURE II (FORMERLY DC 403) | 4 quarter hours (Graduate)
This course focuses on completing the first draft of a feature length screenplay. Students will bring their vetted concepts to life on the page by focusing on a foundation of character, theme, structure, and plot. The lectures, in-class workshops, and weekly page deadlines are designed to culminate in a spec script that showcases the writer's voice and command of screenwriting conventions &nbsp.
SCWR 401 or SCWR 490 is a prerequisite for this class.

SCWR 403 | REWRITING THE FEATURE (FORMERLY DC 404) | 4 quarter hours (Graduate)
This class focuses on rewriting the feature film screenplay. Through workshops and course discussions, students will learn how to identify missteps in their writing and develop a practical means to efficiently address these issues moving forward. Students must posses a complete feature length script to rewrite in order to enroll in the course. PREREQUISITE(S): None.

SCWR 405 | ADVANCED WRITING ON ASSIGNMENT (FORMERELY DC 408) | 4 quarter hours (Graduate)
This course provides a framework for students to complete a feature length screenplay within specific parameters provided by the instructor in ten weeks plus an additional treatment that would compliment their existing portfolio. Modeled after the techniques and deadlines of professional writing assignments, students learn how to meet the expectations of studio executives and producers without sacrificing their unique voice. PREREQUISITE(S): None.

SCWR 406 | THE ART OF SCENE WRITING (FORMERLY DC 445) | 4 quarter hours (Graduate)
This advanced course asks students to move beyond convention in an effort to deconstruct the core elements of a scene: location, subject, conflict, and exposition. Through weekly lectures, writing exercises, and workshops we will examine a number of innovative screenwriting techniques to refine the writer’s unique voice and enhance the commercial viability of their work.

SCWR 407 | SCREEN ADAPTATION (FORMERLY DC 446) | 4 quarter hours (Graduate)
This advanced course focuses on identifying and developing source material for the screen. Emphasis is placed on learning to negotiate the public domain when searching for material to adapt, as well as practical ways to acquire copyrighted material. Students will choose material from the public domain to adapt, and then formulate a logline, short pitch, treatment, and first act of a feature screenplay (or two acts of a teleplay).

SCWR 408 | WRITING THE SHORT MOTION PICTURE (FORMERLY DC 401) | 4 quarter hours (Graduate)
In this screenwriting course students will study the essential elements and conventions of writing the short film, including character, structure, and conflict. They will examine the fundamental differences between feature and short films. Story development emphasis will be placed on compelling character-driven stories that can be produced on a modest budget. Students will be required to complete two short screenplays. PREREQUISITE(S): None.

SCWR 409 | CHARACTER DEVELOPMENT | 4 quarter hours (Graduate)
This advanced course will explore creative methodologies geared at getting deeply into the minds and points of view of dramatic characters. Throughout the course, students will concentrate on one set of characters to refine an existing web series, feature film, or television pilot.

SCWR 410 | SCREENWRITING LAB (FORMERLY DC 444) | 4 quarter hours (Graduate)
This course focuses on instructor led workshop sessions to help writers take existing projects (including but not limited to features, pilots, television specs, web series, short scripts) at various stages of development and provide a means to move forward. Story will be deconstructed, from concept to individual scene work, in an effort to craft a viable narrative for the screen. PREREQUISITE(S): None.

SCWR 420 | STORY STRUCTURES (FORMERLY DC 502) | 4 quarter hours (Graduate)
Advanced critical analysis of multiple film structures beginning with a solid understanding of classically structured linear narratives told in three acts and ultimately exploring non-traditional feature film structures including but not limited to: ensemble, multiple protagonist, non-linear and episodic. Films will range from classic Hollywood films to contemporary independent films. Students will learn various theorists’ approaches to terminology (which may include Snyder, Field, Campbell, and Howard) in order to develop a language with which to discuss scripts and finished films, both other people’s work as well as in developing their own. PREREQUISITE(S): None.

SCWR 425 | GENRE STORYTELLING | 4 quarter hours (Graduate)
This advanced course examines the dramatic conventions of genre storytelling in film and television. Through extensive script readings and discussions, students will deconstruct the common features of genre in an effort to discern audience expectations and develop a methodology for narrative innovation in their own work.

SCWR 440 | DEVELOPING THE PITCH (FORMERLY DC 434) | 4 quarter hours (Graduate)
This course asks students to create an inventory of new material for future writing projects by developing and pitching stories for independent and studio films, as well as cable, streaming, and network television series. Through lectures, guest speakers, and workshop exercises, we will analyze the vital role of pitching in the entertainment industry, and build a foundation to help students master professional pitching techniques. PREREQUISITE(S): None.

SCWR 441 | INDUSTRY AND PITCHING SEMINAR (FORMERLY DC 505) | 4 quarter hours (Graduate)
Students will learn the art and craft of pitching including the differences between pitching new or existing ideas, shaping pitches based on your audience, and pitching a take on existing source material. Students will also learn not only how to pitch projects, but to pitch themselves, focusing on what makes them unique as a writer/director/producer, the themes that connect their work, and how to present themselves as a brand. Industry professionals will visit class (live or via Skype) when appropriate. Students will also learn how to create pitches for existing material that is either in the common domain or material that the students have acquired the rights to work on.
SCWR 442 | STUDIO DEVELOPMENT (FORMERLY DC 503) | 4 quarter hours (Graduate)
This advanced course examines the development process that enables the screenplay's journey from draft to screen. By crafting professional coverage and development notes, the class will deconstruct feature length scripts and student work in an effort to forge them into cinematically viable properties. The assignments and class discussions are designed to expose the inner workings of Hollywood and provide a framework for what it takes to succeed in the entertainment industry. Enrollment is only open to MFA students. PREREQUISITE(S): None.

SCWR 445 | HOLLYWOOD HISTORY (FORMERLY DC 487) | 4 quarter hours (Graduate)
Students will gain a deeper appreciation of the history of the Hollywood film industry through behind-the-scenes access to working studios and theme parks, historical readings, presentations and discussions.

SCWR 446 | FILMMAKERS SEMINAR (FORMERLY DC 488) | 4 quarter hours (Graduate)
Each week, students will be given the rare opportunity to speak directly with some of the industry's biggest players. Hollywood directors, writers, cinematographers, editors, producers, agents, managers, entertainment lawyers, development executives and others will come to class, discuss their journeys, offer advice, and answer questions. The class will culminate with an industry mixer, where these professionals, along with dozens more, will join the students for a relaxed evening of networking. This is an invaluable opportunity for students to begin to form meaningful relationships that can help them as they transition from student to filmmaker. Note: Students must be participating in the DePaul LA program to be eligible to enroll.

SCWR 449 | STORYTELLING FOR VIDEO GAMES (FORMERLY DC 441) | 4 quarter hours (Graduate)
This course examines the writer's role in the game development process and how storytelling conventions like character, conflict, and plot are utilized to enhance gameplay. Emphasis will be placed on building an understanding of game narratives, interactivity, and working with design teams. Students will develop a design document highlighting characters, locations, dialogue scripting, and overall gameplay for an original video game idea.

SCWR 450 | TELEVISION GENRES AND ANALYSIS (FORMERLY DC 429) | 4 quarter hours (Graduate)
The purpose of this class is to enable you to study scripted television from the professional's point of view. The course involves critical analysis of successful scripted television shows, their narrative structures and themes. Programs of various genres and eras will be examined. Students will learn how to recognize basic structural elements in finished episodes. Students will develop a language with which to discuss television as well as a toolbox of techniques to use when creating television. Key concepts to be discussed include: basic structure, types of shows, character tropes, means of creating and sustaining tension, themes and advancements in form.

SCWR 451 | WRITING THE TELEVISION SPEC SCRIPT (FORMERLY DC 400) | 4 quarter hours (Graduate)
In this class, students will learn the basic teleplay structures for both half-hour and hour-long television shows. Students will choose an existing show and write a spec episode, practicing the skills of matching character voice, structure, and tone.

SCWR 452 | WRITING THE SITCOM (FORMERLY DC 406) | 4 quarter hours (Graduate)
In this course, students analyze half hour situational comedy teleplays. The course will feature a specific focus on story-telling styles and techniques of successful sitcom predecessors, various formats of sitcom teleplays, and methods for pushing original projects out into the world. Students will create an original sitcom pilot.

SCWR 453 | WRITING THE EPISODIC DRAMA (FORMERLY DC 407) | 4 quarter hours (Graduate)
In this course, students analyze hour-long dramatic teleplays. This course features a specific focus on story-telling styles and techniques of successful dramatic predecessors, various formats of hour-long drama teleplays, and the definition and significance of "show bibles". Students will create an original hour long pilot.

SCWR 454 | REWRITING THE ORIGINAL TELEVISION PILOT (FORMERLY DC 432) | 4 quarter hours (Graduate)
This class focuses on practical ways to approaching the rewriting of a script; specifically this class will focus on students' original television pilots. Through group workshops, lectures, and readings, students will identify and improve problems in various areas of their teleplay including, but not limited to: plot, character development, dialogue, and pacing. By the end of the quarter, students will have completed a full rewrite of their complete pilot script; therefore, students must possess a complete television pilot in order to enroll in the course. This course is repeatable.

SCWR 455 | ADVANCED WRITERS' ROOM (FORMERLY DC 443) | 4 quarter hours (Graduate)
This advanced course provides students the opportunity to develop a television series in a workshop setting modeled after a professional writers? room. From Writer's Assistant to Showrunner, we will examine the various roles that make the writers? room a creative and dynamic environment. Students will pitch ideas, break story, and ultimately uncover strategies to running the room for a full season.

SCWR 460 | WRITING THE WEB SERIES (FORMERLY DC 428) | 4 quarter hours (Graduate)
Students will examine various webisode structures, pitch original concepts for a web series, and ultimately write a complete season consisting of one dozen 5-10 minute episodes.

SCWR 470 | IMPROVISATION FOR COMEDIC STORYTELLERS | 4 quarter hours (Graduate)
This course focuses on building a foundation for comedy improvisation as it pertains to creating cinematic stories. Students will develop the skills to work in a collaborative environment steeped in the tradition of Chicago-style techniques and philosophies. Fundamental improvisational concepts such as give-and-take, surrender, support, mirror, explore-and-heighten, environment, object work, scenic structure, character and choices, will be explored in-depth and applied in scenes.
SCWR 471 | IMPROVISATION FOR COMEDIC STORYTELLERS | 4 quarter hours
(Graduate)
Students delve into intermediate improvisation work with a focus on collaboration to identify premise, intention, point of view, and a character's usable subtext in a scene. Emphasis is placed on adapting improvised creations into a foundation for film and television material. SCWR 470 is a prerequisite for this class.

SCWR 472 | IMPROVISATION FOR COMEDIC STORYTELLERS III | 4 quarter hours
(Graduate)
This advanced course explores the intersection between improvisation and the screenwriting process. Emphasis will be placed on the structures that comedic moments can take, from joke construction through longer narrative forms. Students will develop basic concepts into polished written scenes and will revise using targeted improvisations. SCWR 471 is a prerequisite for this class.

SCWR 474 | EVOLUTION OF COMEDY | 4 quarter hours
(Graduate)
This course examines the language, physicality, and structure of some of the most revered comedic films and television shows of all time. Students will analyze and discuss the conventions utilized in these works, how they influenced the era in which they were made, and what relevance they have to comedy filmmaking today. SCWR 471 is a prerequisite for this class.

SCWR 475 | ADVANCED COMEDIC STORYTELLING | 4 quarter hours
(Graduate)
This course immerses students in the great tradition of comedic literature and gives them a strong foundation in all its forms. Students will read works from the classic comedic authors canon: Shakespeare, Plutarch, Parker, Gay, Toole among others. Students will learn how these seminal works were created, how they were received by the public, and how they have influenced contemporary cinematic storytelling. DC 501 is a prerequisite for this class.

SCWR 476 | THE BUSINESS OF COMEDY | 4 quarter hours
(Graduate)
In this course, students explore the process of preparing to enter the professional marketplace as comedy writers. Emphasis will be placed on strategically evaluating the unique voice of existing projects for commercial viability, and curating a portfolio suitable for market demands and distribution trends. SCWR 474 is a prerequisite for this class.

SCWR 477 | STAND-UP COMEDY | 4 quarter hours
(Graduate)
In this course, students will study and analyze stand-up comedy as a route to success in Film and Television. Students will learn about the history of stand up comedy and the comedians who parlayed success on the stage into success in television and films. Students will study the process of how comedians first created their material and honed/perfected it on stages around the world. Finally, students will mine their own lives for funny stories, creating original stand-up comedy routines (5 minutes), work-shopping them in class and eventually performing these routines on the Main Stage at Zanies Comedy Club.

SCWR 478 | ADVANCED STAND-UP COMEDY | 4 quarter hours
(Graduate)
Students will focus on developing an original comedy set and 5-10 minutes of original material connected conceptually and/or tonally. Then taking it from stage-to-screen. Students will create and develop their material in class, perform in front of peers, perform out at comedy clubs all in the service of crafting an original pitch for a longer project for the screen (web series, a TV show or movie). SCWR 477 is a prerequisite for this class.

SCWR 479 | COMEDY, JOKE, AND SKETCH WRITING (FORMERLY DC 483) | 4 quarter hours
(Graduate)
Students will learn techniques and formulas for joke writing, writing sketch comedy packets, and writing for news driven comedy shows. Students will apply these skills to their existing scripts as well as to developing new material.

SCWR 480 | COMEDY FILMMAKING | 4 quarter hours
(Graduate)
This introduction to film production focuses on collaboration, comedy and visual storytelling. Drawing on individual interests and observations, students produce a non-fiction short and then transition to developing a series of comedic narrative filmmaking exercises. SCWR 476 is a prerequisite for this class.

SCWR 481 | COMEDY FILMMAKING II | 4 quarter hours
(Graduate)
In this course, students refine their filmmaking skills by meticulously climbing through the stages of pre-production for their original short comedy film. Students ideate, craft, and revise their screenplay, then prepare for production by casting, scouting, budgeting, and rehearsing. Principal photography, editing, and final delivery of this project should be completed in SCWR 482 Comedy Filmmaking III. SCWR 480 is a prerequisite for this class.

SCWR 482 | COMEDY FILMMAKING III | 4 quarter hours
(Graduate)
In this advanced comedy filmmaking course, students will focus on the principal photography, editing, and final delivery of their original projects developed in SCWR 481 Comedy Filmmaking II. Reinforcing the importance of collaboration, students will work in different capacities on the projects of their classmates. Emphasis is placed on refining filmmaking skills and ensuring the continuity of the director's comedic vision through the post-production workflow process. SCWR 481 is a prerequisite for this class.

SCWR 490 | TOPICS IN SCREENWRITING (FORMERLY DC 405) | 4 quarter hours
(Graduate)
Advanced study in screenwriting focusing on a specific genre each quarter such as: Science Fiction, Film Noir, Comedy, Action-Adventure, Nonfiction, etc. May be repeated for credit.

SCWR 492 | TOPICS IN LA | 2-6 quarter hours
(Graduate)
This course features an in-depth study of an aesthetic, history, business or filmmaking method. Students will analyze the distinctive traits and application of the selected topic within the broader context of the film and television industry in Los Angeles. Specific topics will be selected by the instructor and will vary with each quarter.
SCWR 499 | INTERNSHIPS IN MEDIA AND DESIGN | 1-4 quarter hours
(Graduate)
This is an internship/independent study course for graduate students, which offers the opportunity to reflect on an internship while gaining professional experience, industry contact and referrals while still in school. Opportunities in post-production, motion picture production, advertising, television, animation, game design, graphic design, motion graphics and interactive media can all qualify for the course. Students will work independently on class assignments. Assignments will be determined by the instructor and based on the number of credits in which the student is enrolled. Admission to the program requires consent of the internship course instructor after verification of the student’s internship.
PREREQUISITE(S): Internship. (variable credit)

SCWR 500 | WRITING FOR FILM THESIS DEVELOPMENT (FORMERLY DC 498) | 4 quarter hours
(Graduate)
Students will develop a feature-length thesis project in preparation for writing the first draft of their thesis screenplay. The development process will include assignments designed to aid students in choosing their thesis project, fostering a strong personal connection to that project, creating compelling three-dimensional characters, and designing a clear, effective narrative structure for the screenplay. This course will culminate with a completed outline or treatment, and a pitch session with each student’s thesis committee.
SCWR 400 and (SCWR 451 or SCWR 401) are prerequisites for this class.

SCWR 501 | WRITING FOR FILM THESIS I (FORMERLY DC 506) | 4 quarter hours
(Graduate)
Students will complete an outline and first draft of their feature length screenplay. In a workshop environment, students will get extensive feedback from their instructor and peers.
SCWR 500 or SCWR 550 is a prerequisite for this class.

SCWR 502 | WRITING FOR FILM THESIS II (FORMERLY DC 507) | 4 quarter hours
(Graduate)
Students will revise their thesis feature script. In a workshop environment, students will receive notes to help revise their project. Students will also be expected to meet with their thesis committee to receive additional notes to be applied to the rewrite.
SCWR 501 is a prerequisite for this class.

SCWR 550 | WRITING FOR TV THESIS DEVELOPMENT (FORMERLY DC 497) | 4 quarter hours
(Graduate)
Students will select and then develop a television thesis project in preparation for writing the first draft of their thesis pilot. The development process will include assignments designed to aid students in choosing their thesis project, fostering a strong personal connection to that project, and creating compelling three-dimensional characters in a world or situation that will provide sustainable long-term conflict. The course will culminate with a completed show bible, an outline for the pilot, and a pitch session with each student’s thesis committee.
SCWR 400 and (SCWR 401 or SCWR 402) are prerequisites for this class.

SCWR 551 | WRITING FOR TV THESIS I (FORMERLY DC 508) | 4 quarter hours
(Graduate)
Students will complete a show bible, pilot, and future episode of an original television concept. In a workshop environment, students will get extensive feedback from their instructor and peers.
SCWR 500 or SCWR 550 is a prerequisite for this class.

SCWR 552 | WRITING FOR TV THESIS II (FORMERLY DC 509) | 4 quarter hours
(Graduate)
Students will revise their television thesis scripts. In a workshop environment, students will receive notes to help revise their project. Students will also be expected to meet with their thesis committee to receive additional notes to be applied to the rewrite.
SCWR 551 is a prerequisite for this class.

SCWR 599 | INDEPENDENT STUDY | 1-8 quarter hours
(Graduate)
Independent study form required. PREREQUISITE(S): Consent of instructor. (variable credit)

SCWR 701 | THESIS CONTINUATION | 0 quarter hour
(Graduate)
Non-credit. Students admitted to MFA program who have completed all the required coursework and who are regularly using the facilities of the University for thesis production and/or post-production are required to be registered each quarter of the academic year until the thesis and defense have been completed. (0 credit hours)
FILM 510 or ANI 640 is a prerequisite for this class.

Finance (FIN)

FIN 202 | QUANTITATIVE REASONING | 2 quarter hours
(Undergraduate)
This course is designed to provide students with an overview of basic statistical tools of financial analysis. Students will become familiar with the design and application of spreadsheet models for the analysis of financial data and tests of hypotheses. (2 quarter hours)
FIN 310 is a prerequisite for this class.

FIN 250 | CAREER EXPLORATION & PROFESSIONAL DEVELOPMENT | 2 quarter hours
(Undergraduate)
This course is designed to help students articulate specific goals and implement strategies to successfully pursue career opportunities and help to develop a professional persona. Students will fine-tune their professional resume, begin to establish a personal brand, practice a variety of professional communications, and hone their interviewing skills. Students will participate in a variety of activities including lectures, assignments, and group collaboration.
Students must be intended or declared Finance majors to take this course.

FIN 251 | CAREER MANAGEMENT IN ACTUARIAL SCIENCE | 0 quarter hour
(Undergraduate)
This course is designed to help you articulate your specific goals and implement strategies to successfully pursue opportunities as an Actuarial Science graduate and 21st century professional. You will fine-tune your professional resume, begin to establish your personal brand, practice a variety of professional communications, and hone your professional interviewing skills. Students will participate in a variety of activities including lectures, assignments, and group collaboration.
Status as a BSB Actuarial Science major or BS Actuarial Science major or BA/BS Math major with a concentration in Actuarial Science is a prerequisite for this class.
FIN 290 | FINANCE FOR NON-BUSINESS MAJORS | 4 quarter hours
(Undergraduate)
This course will provide to non-business majors a foundation in the concepts and basic tools used in finance and financial management of the business firm, including time value of money, risk and return, interest rates and how companies raise money and reward their investors. Students will be able to understand at a basic level the financial statements, ratios and performance measures and financial markets and institutions they are likely to encounter in a general business environment. Students will also learn how to analyze and make more effective the operations of the firm from a financial perspective.

FIN 300 | FOUNDATIONS OF FINANCE | 4 quarter hours
(Undergraduate)
This course provides a broad overview and introduces students to the logic, principles, institutions, and terminology of finance. The course is designed to familiarize students with the tools necessary for making sound financial decisions and provide a basic understanding of how finance relates to other business disciplines.

ACC 101, ECO 105 and MAT 137 are prerequisites for this class. MAT 137 may also be taken as a co-requisite. For Actuarial Science majors, the prerequisites are ACC 101, ECO 105 and MAT 150.

FIN 310 | INTRODUCTION TO FINANCE | 4 quarter hours
(Undergraduate)
This course introduces students to the logic, principles, institutions, and terminology of finance. The goal of the course is to provide students with a basic understanding of the role of finance and its functions. It is designed to familiarize the student with the tools needed for making sound financial decisions, both at a personal level and at an enterprise level.

ACC 101, ECO 105 and MAT 137 are prerequisites for this class. MAT 137 may also be taken as a co-requisite. For Actuarial Science majors, the prerequisites are ACC 101, ECO 105 and MAT 150.

FIN 311 | CORPORATE FINANCE | 4 quarter hours
(Undergraduate)
The goal of the course is to provide students with the basic tools and theoretical background necessary to understand the corporate financial decision making process. Emphasis is on valuation principles with application to bonds, stocks, and capital budgeting as well as issues involving the capital structure, working capital, and dividend policy.

A grade of C- or higher in FIN 310 is a prerequisite for this class.

FIN 313 | INVESTMENT BANKING | 4 quarter hours
(Undergraduate)
This course is designed to provide students with an overview of investment banking, focusing on valuation, mergers & acquisitions, leveraged buyouts, and debt capital markets. The course is intentionally taught from a practitioner's point of view, exposing students to various analytical tools and to a full appreciation of what is all required to complete an investment banking transaction. The course will foster collaboration skills through group case studies and presentations. A real world learning component designed to give students a true sense of working in an investment banking environment is integrated into the course.

FIN 313 is a prerequisite for this class.

FIN 320 | MONEY AND BANKING | 4 quarter hours
(Undergraduate)
The study of money and banking as a means to understanding how operations of our financial institutions affect functioning of our economic system and evaluation of monetary policies and goals. ECO 106 and (a grade of C- or better in FIN 310 or FIN 310 as a co-req or a grade of A- or better in FIN 300) are prerequisites for this class.

FIN 323 | COMMERCIAL BANKING | 4 quarter hours
(Undergraduate)
This course will analyze the role of commercial banks in the financial system and will focus on understanding what banks actually do, how they make money and how this has been changing over time, what risks they are exposed to and how they manage those risks. Students will learn how to analyze and evaluate banks' financial statements, develop an appreciation for the complexity of risk in banking and the role and responsibility of regulators. The course will introduce students to banking case studies designed to take concepts learned and how to apply them to real world situations. This real world learning experience will revolve around a corporate credit risk analysis.

FIN 310 (C- or above) & FIN 320 are prerequisites for this class.

FIN 324 | BANKING & CREDIT ANALYSIS | 4 quarter hours
(Undergraduate)
This course is designed to give students practical insight into the role commercial banks play in the global financial system through corporate credit intermediation. Specifically, the course is oriented to understanding the credit analysis and loan origination process a bank goes through in the extension of corporate credit as well as the resulting implications on risk mitigation, loan structuring and pricing. Students will gain industry analysis and technical finance knowledge, while significantly improving their financial analysis capacity and excel modeling. A real-world learning component designed to give students a true sense of working in a commercial banking environment is integrated into the course.

A grade of C- or higher in FIN 310 AND (ACC 304 as pre-req or co-req) are prerequisites for this class.

FIN 330 | INVESTMENTS: THEORY & PRACTICE | 4 quarter hours
(Undergraduate)
This course focuses on Investment principles and problems. It seeks to develop the student's perception of risks and opportunities in investment instruments and markets. It will inform their description of the markets and the operational effects of current financial events upon the various markets.

FIN 202, FIN 320 and a grade of C- or above in FIN 310 are prerequisites for this class.

FIN 333 | FINANCIAL STATEMENTS ANALYSIS | 4 quarter hours
(Undergraduate)

(ACC 304 or ACC 307) and FIN 311 are prerequisites for this class.

FIN 335 | PORTFOLIO MANAGEMENT | 4 quarter hours
(Undergraduate)
Theories and techniques to achieve superior selection and management of securities portfolios. Review and evaluation of significant literature. Problems of timing and strategies in response to changing economic and financial conditions.

FIN 330 is a prerequisite for this class.

FIN 336 | EQUITY RESEARCH | 4 quarter hours
(Undergraduate)
This course focuses on developing the knowledge and skills critical for analyzing equities (stocks) including using Bloomberg, Excel, and Thomson ONE to conduct industry analysis, company analysis, basic financial modeling, and valuation to communicate a successful stock pitch.

FIN 330 is a prerequisite for this class.
FIN 340 | INTERNATIONAL FINANCE | 4 quarter hours  
(Undergraduate)  
The objectives of this course include: understanding the effect of political and economic factors on the financial decision-making of the firm, determining the major factors influencing currency value; analyzing and managing the spectrum of risks arising from a firm's international operations; and acquiring knowledge of the international financial system and the major players in that system.  
FIN 320 is a prerequisite for this class.

FIN 350 | REAL ESTATE ANALYSIS | 4 quarter hours  
(Undergraduate)  
This course introduces essential institutional, legal, regulatory, and financial aspects of real estate in the U.S. economy and financial system. The course incorporates demographic data for real estate market analysis and includes an exercise in land use planning.  
PREREQUISITE(S): Junior standing.

FIN 355 | GLOBAL IPOs & VENTURE CAPITAL | 4 quarter hours  
(Undergraduate)  
This course explores equity financing alternatives for young, innovative start-up companies, including their initial funding step as a private company? their initial public offering (IPO), when they go public. These early-stage financial markets have been influenced by various economic systems and cultures around the world, and in turn there have been major cross-country differences in the motivation of and funding for innovation. This course has quantitative elements, but our focus will typically be on the analytics? on contract design, optimal regulation, balancing various risks and objectives, and structuring a deal to minimize conflicts of interest while optimizing incentives. A major focus of this course will be on why and how the venture capital industry developed, and how it funds and encourages innovation. This requires examining various economic and governmental systems and the incentives they provide for technological innovation and progress. Similarly, for IPOs, we will compare IPO markets and regulations in various countries, and explore how cultural and governmental systems have affected those markets. The IPO case studies will illustrate the three main IPO methods used around the globe.  
FIN 310 or FIN 300 is a prerequisite for this class.

FIN 362 | ENTERPRISE RISK MANAGEMENT | 4 quarter hours  
(Undergraduate)  
Theories and techniques of risk management that employ statistical techniques which enhance risk decision-making. This course develops a framework of analysis that can be applied by corporate or investment risk managers.  
FIN 311 and FIN 330 are a prerequisite for this class.

FIN 363 | DERIVATIVES: PRICING & APPLICATIONS | 4 quarter hours  
(Undergraduate)  
This is an advanced course that focuses on the pricing models for the four derivative instruments: forwards, futures, options and swaps. The first part of the course is devoted to the two general classes of derivative pricing models: discrete time and continuous time, with each model's properties discussed in detail. These models are then applied to a range of realistic pricing situations which include swaps, exotic options and fixed income derivatives. The course concludes with a detailed examination of value at risk.  
FIN 330 is a prerequisite for this class.

FIN 365 | PRINCIPLES OF RISK & INSURANCE | 4 quarter hours  
(Undergraduate)  
This course surveys fundamental principles of risk, the risk management process, and insurance as a systematic approach to transfer and finance risk. It examines how insurance offers protection against major risks that firms and individuals face, how the insurance market is structured, and how and why the industry is regulated. This course also delves into theories and philosophies that provide insights into how the risk management industry functions in the larger society. Emphasis will be placed on understanding that insurance is just one of the techniques to be relied upon in planning a comprehensive risk management program.  
A grade of C- or higher in FIN 310 is a prerequisite for this class.

FIN 366 | FINANCIAL MODELING | 4 quarter hours  
(Undergraduate)  
This course will focus on the use of EXCEL in implementing financial theory to solve practical, real world problems in finance.  
FIN 311 and FIN 330 are a prerequisite for this class.

FIN 367 | PROPERTY & LIABILITY INSURANCE | 4 quarter hours  
(Undergraduate)  
This course identifies property and liability loss exposures that corporations commonly face and examines how they manage these exposures. The theories and principles governing insurance contracts addressing these risks are then discussed in detail. The course also offers cases and data for an analysis of the commercial property liability Insurance and Reinsurance industry and recent market performance.  
FIN 365 is a prerequisite for this class.

FIN 368 | INSURANCE INDUSTRY STRUCTURE & OPERATIONS | 4 quarter hours  
(Undergraduate)  
The course provides a study of the industrial organization of the evolving Insurance and financial services markets. Students are exposed to the structure, conduct and performance of the US and selected non-US markets. Students also develop an understanding of the state of captive developments and other alternative market participants.  
BLW 201, FIN 320, FIN 362, FIN 365, MAT 135, MAT 136 and MAT 137 are prerequisites for this class.

FIN 380 | CASES IN FINANCIAL DECISION MAKING | 4 quarter hours  
(Undergraduate)  
This is the capstone course for students majoring in Finance. The course applies the case study methodology to hone the student's analytical skills with applied finance issues, as well as to further develop verbal and written communication skills, the ability to work effectively within teams, and to engage in reasoned debate. This course will provide students the opportunity to apply and integrate the knowledge acquired in their previous finance courses.  
(FIN 311 and FIN 330) and (WRD 202 or WRD 204 or WRD 206 or equivalent) are prerequisites for this class.

FIN 381 | BEHAVIORAL FINANCE | 4 quarter hours  
(Undergraduate)  
The primary objective of this course is to better understand investor behavior, return predictability in asset markets, and corporate decisions by considering behavioral aspects of decision making. We will discuss market efficiency, psychology of decision making, anomalies, investor behavior, limits of arbitrage, and behavioral corporate finance.  
ECO 106 and (a grade of C- or better in FIN 310 or FIN 310 as a co-req or a grade of A- or better in FIN 300) are prerequisites for this class.
FIN 393 | FINANCE INTERNSHIP | 4 quarter hours
(Undergraduate)
An academically supervised working experience in a major financial institution. Registration in this program requires approval of the department internship director.
A grade of C- or higher in FIN 310 is a prerequisite for this class.

FIN 395 | INVESTMENT SEMINAR | 4 quarter hours
(Undergraduate)
Experience a rich learning and application opportunity focusing on financial investing. Learn methods to find the intrinsic value of a company’s stock and explore catalysts that will increase the stock price. Make buy and sell recommendations for a ‘live’ portfolio.
FIN 330 is a prerequisite for this class.

FIN 396 | HONORS SEMINAR | 2 quarter hours
(Undergraduate)
This is a required course for all Honors Students in Finance. It is conducted on a year-long basis (Fall, Winter & Spring) for the benefit of the students in the program. Participants are required to attend all events sponsored by the class conductor. These include, but are not limited to, distinguished speakers series, networking luncheons, current topics forums, communications and protocol workshops, field trips and community service programs. All students are required to complete an empirical analysis paper, utilizing databases available to the department, as assigned by the seminar’s conductor. (2 quarter hours)
Status as an Honors Finance student is a prerequisite for this class.

FIN 397 | HONORS SEMINAR CONTINUATION | 0 quarter hour
(Undergraduate)
This is a continuation of FIN 396 Honors Seminar. Students register for FIN 397 during autumn and winter quarters. Participants are required to attend all events sponsored by the seminar’s coordinator. These include, but are not limited to, distinguished speakers series, networking luncheons, current topics forums, communications and protocol workshops, field trips and community service programs. All students are required to complete an empirical analysis paper, utilizing databases available to the department, as assigned by the coordinator.
Status as an Honors Finance student is a prerequisite for this class.

FIN 398 | SPECIAL TOPICS | 4 quarter hours
(Undergraduate)
Content and format of this course are variable. An in-depth study of current issues in finance. Subject matter will be indicated in class schedule.
FIN 310 is a prerequisite for this class.

FIN 399 | INDEPENDENT STUDY | 4 quarter hours
(Undergraduate)
Available to students of demonstrated capability for intensive independent work in finance. (variable credit)
Junior standing with at least 88 cumulative units is a prerequisite for this class.

FIN 400 | FOUNDATIONS OF QUANTITATIVE ANALYSIS | 0 quarter hour
(Graduate)
This course provides basic instruction in mathematical and statistical methods as a foundation for GSB 420 Applied Quantitative Analysis. This course will focus on strengthening students’ algebra and calculus skills and provide basic instruction in statistical methods. (0 quarter hours)

FIN 455 | PRINCIPLES OF FINANCIAL MANAGEMENT | 2 quarter hours
(Graduate)
This course provides an introduction to finance. The goal of the course is to provide students with the basic tools and the background necessary to understand and analyze the corporate financial decision-making process. The course is designed to familiarize accounting students with tools necessary for making sound financial decisions at the enterprise level. Topics covered include concepts in time value of money and their application to stock and bond valuation, capital budgeting, portfolio management, firm’s capital structure, dividend policy, and derivative instruments. (2 quarter hours)
Status as a graduate accountancy student is a prerequisite for this class.

FIN 501 | ETHICS IN FINANCIAL MARKETS | 4 quarter hours
(Graduate)
This seminar course will examine both ethical issues and conflicts of interest that face financial decision makers in today’s business world. The class will feature case studies and guest speakers as the key teaching tools, supplemented by short lectures and student simulations/exercises. Each class period will be devoted to a different contest in which to consider topical issues. We will look at and discuss ethical issues facing financial services companies, corporates (both public and private), as well as not for profits. We will examine these issues, where applicable and relevant, from multiple perspectives: Board of Directors, Executive Management, Shareholders, Regulators, Suppliers and Customers, Competitors, Employees and Communities. Some of the discussion will purposefully consider the additional realities of differing culture and values in the international context.
FIN 523 is a prerequisite for this class.

FIN 512 | COMMERCIAL BANKING | 4 quarter hours
(Graduate)
The objective of this course is to analyze the role of commercial banks in the financial system in order to understand the problems and issues confronting bankers now and in the future. The student will learn to measure and evaluate bank performance; understand how banking firms make their money and how this has been changing over time; understand the management of assets and liabilities, the valuation of bank mergers and acquisitions, and how government policy influences the behavior of commercial banking firms. The course applies traditional finance and strategic management concepts to the management of financial institutions. The emphasis will be on developing a toolkit to solve problems not only in commercial banks but also in other financial services firms. The student will develop proficiency in relevant financial concepts, analytical frameworks, data analysis, and techniques in the field of financial economics. The course consists of a blend of lectures, discussions, and case studies.
FIN 555 is a prerequisite for this class.
FIN 513 | MONEY AND CAPITAL MARKETS | 4 quarter hours (Graduate)
This course analyzes interest rates, foreign exchange rates, federal funds futures market, the operation and regulation of financial institutions, and the impact of Central Bank actions on securities markets and the economy. The educational objective of the course is to provide graduate business students with the opportunity to acquire a thorough understanding of the theoretical and applied concepts that determine the operations of the money and capital markets. When you finish this course you will be able to demonstrate how the release of economic news about the real sector and the conduct of monetary policy influence the pricing of assets (interest rates and foreign exchange rates); measure and evaluate the impact of central bank actions on securities markets and the economy; understand the importance of having an independent central bank for macroeconomic performance; measure and evaluate the price volatility of interest-bearing securities; and understand how central bank monetary and regulatory actions can affect the stability and soundness of financial institutions. This course is designed to achieve maximum student involvement in order to add the greatest amount of value to their graduate educational experience. The emphasis will be on developing a toolkit to solve problems that financial analysts and other researchers encounter in security markets and financial institutions. We desire to become proficient in certain financial market concepts, analytical frameworks, data analysis, and various techniques in the field of financial economics. Accordingly, the course is structured to include extensive reading, several written statistical assignments, and class discussions that are based on the readings. These written assignments have three objectives: to make sure that the reading material has been absorbed in full measure; to serve as the foundation for class discussions; and, to provide students with the opportunity to demonstrate their understanding of the substantive class material and the ability to apply this material in "real world" situations.
FIN 555 is a prerequisite for this class

FIN 523 | INVESTMENT ANALYSIS | 4 quarter hours (Graduate)
This course provides an introduction to capital markets and financial instruments with an emphasis on security valuation. It is not a course on personal investing. The course builds on FIN 555 and covers relevant aspects of fixed-income markets, asset pricing, portfolio management, equity markets, and derivatives markets. The course provides background material for both FIN 662 (Derivatives Valuation) and FIN 675 (Cases in Investments and Financial Engineering).
FIN 555 is a prerequisite for this class

FIN 524 | FINANCIAL STATEMENT ANALYSIS | 4 quarter hours (Graduate)
This course provides an introduction to financial statement analysis from a global perspective by focusing on the International Financial Reporting Standards (IFRS). The emphasis is on the use of company financial reports to evaluate the historical, present, and prospective performance and financial soundness of a company for the purpose of financial decision-making.
FIN 555 is a prerequisite for this class

FIN 525 | PORTFOLIO MANAGEMENT | 4 quarter hours (Graduate)
This course covers topics and techniques appropriate for institutional portfolio management. The course does not examine personal investment or personal portfolio management. The topics and readings are designed to be at the level of the portfolio management coverage in all the three levels of the CFA program.
FIN 523 is a prerequisite for this class.

FIN 526 | ADVANCED TOPICS IN INVESTMENTS | 4 quarter hours (Graduate)
This course provides an understanding of several topics that are important to successful completion of the CFA examination. The course will focus on equity valuation including valuation of closely held companies, real estate valuation, venture capital, behavioral finance, hedge funds, distressed debt, commodity futures, and benchmarks. The course will proceed from simple valuation models to those used to value assets wherein daily mark-to-market accounting is not available (e.g., real estate, venture capital, etc.).
FIN 523 is a prerequisite for this class.

FIN 528 | ALTERNATIVE INVESTMENTS | 4 quarter hours (Graduate)
Alternative investments are the fastest growing sector of the financial industry, and probably the least understood, including by many market professionals. Although the range of sophistication in people associated with alternative investments varies, it is more and more common to use them in investment strategies, either as direct investments, through funds of funds or structured products. The purpose of this course is to give students a good understanding and workable knowledge of the techniques that should be part of the toolkit of anyone investing in, analyzing and/or advising private and institutional clients on the inclusion of alternative investments in their portfolios. Because this course is geared for students wishing to pursue careers in Wealth Management or related fields, it will largely be taught from a practitioner's point of view. Throughout the course we will pay special attention to capital market trends as they relate to the various investment vehicles we discuss. We will also turn our attention to corporate governance issues as they pertain to alternative investment strategies.
FIN 523 is a prerequisite for this class.

FIN 530 | REAL ESTATE INVESTMENT AND FINANCE | 4 quarter hours (Graduate)
Analysis of real estate investment opportunities and the characteristics that distinguish them from other assets. Emphasis is upon forecasting cash flows and estimating risk. Case analysis is an integral part of the course technique.

RE 527 or Completion or concurrent enrollment in FIN 555 is required

FIN 540 | CORPORATE GOVERNANCE | 4 quarter hours (Graduate)
This course is designed to intersect three areas of interest: (a.) Entrepreneurial Finance and Private Equity; (b.) Family and Closely Held Firms, and; (c.) International Finance with special emphasis on cross-border valuation and access to finance. The course is, by nature, a finance course that deals with ventures, family, and closely held firms in an international context. The core question behind GEF is: “How do entrepreneurial managers, family firms, closely held firms and those who finance them design and execute ventures that effectively match opportunities and resources in an international context?” An overreaching insight of the GEF course is that the notions of risk and reward are as important in privately held as in publicly held firms. In privately held firms, however, entrepreneurs and financiers are often forced to make assumptions based on incomplete data. The course will provide you with the tools necessary to value these ventures domiciled in countries around the world.
FIN 551 | PROBLEMS IN CORPORATE FINANCIAL POLICY | 4 quarter hours
(Graduate)
This course enables the student to apply the basic principles of corporate finance learned in FIN 555 and in FIN 553 to problems in corporate finance with the complexities encountered in practice. Through cases and discussion of topical issues, the course provides the student with an opportunity to analyze practical financial situations and problems. The course requires the student to be familiar with fundamental concepts such as valuation methods (WACC, Free Cash Flow and Capital Cash Flow, APV, Trading and Transaction Multiples), portfolio selection, CAPM, and analysis of capital structure. The course emphasis is sufficiently general so as to be of interest to a wide cross-section of students. At its most fundamental level, the course attempts to improve problem-solving skills that relate to problem definition, gathering and organizing the relevant information, developing feasible alternative courses of action, evaluating alternative choices, and recommending and defending the best course of action. In addition to analyzing specific problems or issues, the course will consider how these issues relate to the strategic objectives of the firm and examine the "big picture" assumptions that are used in the numerical calculations. FIN 553 is strongly recommended.
FIN 555 is a prerequisite for this class.

FIN 552 | HEDGE FUND MANAGEMENT | 4 quarter hours
(Graduate)
This is an experiential course focusing on investment analysis in the context of the hedge fund industry. The goal of this class is to give students working knowledge of the hedge fund industry by drawing upon the experience of simulated investment presentations to portfolio managers (in the classroom setting). It is designed to give students rigorous exposure to long/short equity strategies as a gateway to explore other fund strategies. Topics will include securities analysis, research strategies, short selling and portfolio management. The course will help students generate superior investment ideas by conducting creative, value-added research. Students will act as hedge fund analysts by working through the investment process: idea generation, analysis, and presentation, and should walk away with a working knowledge of the hedge fund industry.
FIN 552 is a prerequisite for this class.

FIN 553 | ADVANCED CORPORATE FINANCE | 4 quarter hours
(Graduate)
This course builds on FIN 555 and focuses on fundamental themes in corporate finance. Topics covered include the analysis of capital investments, valuation methods, cost of capital, real options, agency costs, corporate governance, payout policy, equity issues, hybrid forms of financing, and mergers and acquisitions. The main theme of the course is on valuation and the overall focus is on enhancing enterprise value. The course also uses several case studies to illustrate the application of finance theory to practical problems.
FIN 555 is a prerequisite for this class.

FIN 554 | FINANCIAL MANAGEMENT | 4 quarter hours
(Graduate)
This course provides an introduction to concepts and techniques required to analyze and implement optimal financial decisions by firms and serves as the core course in the graduate finance curriculum. The course focuses on the effect of time and uncertainty on investment and financing decisions. It develops a framework for corporate financial decision-making. Topics covered include basic discounting techniques, stock and bond valuation, capital budgeting, portfolio theory, asset pricing, and capital structure. The course uses several case studies to illustrate the application of finance theory to practical problems.
(ACC 500 or ACC 502 or equivalent) and (GSB 420 or GSB 519 or equivalent) are prerequisites for this class.

FIN 555 | FINANCIAL MANAGEMENT | 4 quarter hours
(Graduate)
This course provides an introduction to concepts and techniques required to analyze and implement optimal financial decisions by firms and serves as the core course in the graduate finance curriculum. The course focuses on the effect of time and uncertainty on investment and financing decisions. It develops a framework for corporate financial decision-making. Topics covered include basic discounting techniques, stock and bond valuation, capital budgeting, portfolio theory, asset pricing, and capital structure. The course uses several case studies to illustrate the application of finance theory to practical problems.
(ACC 500 or ACC 502 or equivalent) and (GSB 420 or GSB 519 or equivalent) are prerequisites for this class.

FIN 557 | INTERNATIONAL FINANCE | 4 quarter hours
(Graduate)
This course examines the effect of political and economic factors on the financial decision-making of the firm. The objective of the course is to enable the student to i) utilize the knowledge of the determinants of currency values, and the mechanism through which they work, to forecast changes in currency values ii) to analyze and manage the spectrum of risks arising from a firm's international operations and iii) to be familiar with how the international financial system works and with the major players in the system.
FIN 555 is a prerequisite for this class.

FIN 558 | MERGERS AND ACQUISITIONS | 4 quarter hours
(Graduate)
The course provides an overview of common corporate restructuring strategies and the economic motives for undertaking them. Topics covered include mergers, acquisitions, friendly and hostile takeovers, financial re-capitalization, leveraged buyouts, management buyouts, going private, convertible securities, tracking-stock, spin-offs, split-ups, carve-outs and reorganization under bankruptcy, liquidation, and out-of-court restructuring. The course integrates corporate governance and agency dimensions, financial and strategic management aspects, and legal and accounting considerations into a unified framework. This framework is then used to investigate issues such as pre-merger planning, fact-finding, accounting and tax implications, anti-trust problems, post-merger integration, and the short-term and long-term shareholder wealth consequences of financial and organizational restructuring transactions. The course examines transactions that significantly affect a corporation's assets, liabilities, and/or equity claims. Transactions will be examined from the perspectives of both the corporation (e.g. CFO and CEO) and the capital markets (e.g. investors). Common "arbitrage" trading strategies involving corporate transactions will also be discussed. A basic understanding of financial options and pricing is recommended.
FIN 555 and (FIN 551 or FIN 553) are prerequisites for this class.

FIN 559 | SUSTAINABLE VALUE CREATION | 4 quarter hours
(Graduate)
This course examines how firms create and sustain value over time. The course explores environmental/social sustainability issues as real business risks through analysis and discussion of current events and case studies. The course begins with an introduction to financial statements and the data they contain to inform investors about a firm's financial position and value to investors. We then examine how common environmental/social sustainability issues and solutions impact firm value. Finally, we look beyond firms to the impact on public and private resources as firms seek to create sustainable value.
FIN 552 | RISK MANAGEMENT | 4 quarter hours
(Graduate)
This course examines risk management from a broad enterprise perspective by focusing on the various risks faced by a firm. The course covers various methods that can be used to minimize risk and its effect on firm value.
FIN 555 is a prerequisite for this class
FIN 555 | PRINCIPLES OF RISK AND INSURANCE | 4 quarter hours
(Graduate)
This course will provide students with an over view of the insurance industry and a foundation in the areas of property, casualty, and life insurance. Students will have a firm grasp of how insurance firms are able to meet their obligations while creating value for their stakeholders.
FIN 555 is a prerequisite for this class
FIN 556 | RISK MANAGEMENT MODELING | 4 quarter hours
(Graduate)
This course will use mathematical techniques via EXCEL to identify various risks and exposures affecting enterprises. Then, students will apply solutions that mitigate and control the risks and exposures as identified.
FIN 555 is a prerequisite for this class
FIN 571 | FINANCING NEW VENTURES | 4 quarter hours
(Graduate)
This course will focus on identifying, examining and evaluating various sources of original and growth capital. Emphasis will be on legal, financial and tax issues related to capital formation as well as specific problems experienced by the small-to-medium-sized firm undergoing rapid growth. Topics discussed will include financing startups, financial planning and strategy, going public, selling out and bankruptcy. A formal proposal for capital acquisition developed through field research will be required of each student. Cross-listed with MGT 571.
FIN 555 is a prerequisite for this class
FIN 581 | THE PSYCHOLOGY OF FINANCIAL DECISION MAKING | 4 quarter hours
(Graduate)
This course studies the various behavioral strategies that people rely upon to make financial decisions. The course starts with a review of psychological research on intuitive judgment, belief formation, learning, memory, utility theory, risk attitudes, and choice over time. The course introduces concepts such as framing, heuristics, self-control, and conformity. These ideas are illustrated with practical applications to saving decisions, entrepreneurship, trust between financial advisors and their clients, and decision-making in groups. Class discussions are based on academic research.
FIN 555 is a prerequisite for this class
FIN 582 | THE PSYCHOLOGY OF FINANCIAL MARKETS | 4 quarter hours
(Graduate)
This course examines the structure and dynamics of asset prices in world financial markets from the perspectives of research in behavioral finance, portfolio management, and macroeconomic policy. Some prior learning in finance (preferably investments), economics and statistics, and a broad interest in the social sciences (psychology, sociology, history) are required. The course has use for investors and their advisors, as well as for anyone interested in financial history. Class discussions are based on academic research and accepted wisdom.
FIN 555 is a prerequisite for this class
FIN 583 | BEHAVIORAL ASPECTS OF CORPORATE FINANCE | 4 quarter hours
(Graduate)
This course examines selected aspects of investment and financing decisions made in corporations as well as some questions of corporate governance and organizational architecture. The course places special emphasis on corporate decision processes, i.e., on the psychological, sociological and organizational determinants of behavior (e.g., bureaucracy, management fads, or executive hubris). Class discussions are based on academic research.
FIN 555 is a prerequisite for this class
FIN 595 | INVESTMENT SEMINAR I | 4 quarter hours
(Graduate)
The Investment Seminar is intended to provide a rich learning and application opportunity focusing on financial investing. The learning module comes about through the fusion of academic knowledge gained from advanced courses in investments and corporate finance with the actual practice of analyzing securities and making and defending buy and sell recommendations for a "live" portfolio. Students taking the course are paired with executives from top financial firms and will present stock recommendations at company headquarters. The course is unique to collegiate business education and provides a definite competitive edge in the job market.
FIN 555 is a prerequisite for this class
FIN 595-2 | INVESTMENT SEMINAR II | 0 quarter hour
(Graduate)
This course is a continuation of FIN 595. The Investment Seminar is intended to provide a rich learning and application opportunity focusing on financial investing. The learning module comes about through the fusion of academic knowledge gained from advanced courses in investments and corporate finance with the actual practice of analyzing securities and making and defending buy and sell recommendations for a "live" portfolio. Students taking the course are paired with executives from top financial firms and will present stock recommendations at company headquarters. The course is unique to collegiate business education and provides a definite competitive edge in the job market.
FIN 555 is a prerequisite for this class
FIN 617 | TOOLS OF FINANCIAL ANALYTICS | 4 quarter hours
(Graduate)
This course provides the student with a comprehensive introduction to the mathematics of finance. The course will focus on applying mathematical concepts, quantitative tools, and modeling techniques to practical problems encountered in finance.
FIN 555 is a prerequisite for this class
FIN 660 | IPOs AND VENTURE CAPITAL | 4 quarter hours
(Graduate)
In IPOs and Venture Capital, we will explore equity financing alternatives for private companies, including their final funding step as a private company: their initial public offering or IPO, when they go public. Unlike many finance classes, this is not primarily a quantitative course. While there are some quantitative elements, the focus will typically be on the analytics: on contract design, optimal regulation, balancing various risks and objectives, and structuring a deal to minimize conflicts of interest and optimize incentives. Our focus will be largely on the U.S., but we will also cover fund-raising methods and options in other countries. We will work in part from Harvard Business School Case Studies. This course should be useful for those interested in investment banking, venture capital, private equity, or securities law, or those who hope to have a start-up of their own someday.
**FIN 662 | DERIVATIVES VALUATION | 4 quarter hours**
(Graduate)
This course focuses on the theory and practice of the valuation of derivative securities such as forward contracts, futures contracts, swaps, and options. The course also examines the underlying properties of each of these instruments and their use in managing the various risks faced by market participants.
FIN 523 and FIN 555 are prerequisites for this class.

**FIN 675 | CASES IN INVESTMENTS AND FINANCIAL ENGINEERING | 4 quarter hours**
(Graduate)
This course primarily uses case studies to illustrate the application of concepts learned in Fin 523 (Investment Analysis) and in Fin 662 (Derivatives Valuation). The topics covered in the course include the term structure of interest rates; portfolio management, asset pricing, and market efficiency; portfolio performance evaluation; option pricing; management of interest-rate risk, credit risk, foreign-exchange risk, and liquidity and basis risk with options, forwards, futures, and swaps; and enterprise risk management. The course will hone the student’s analytical and writing skills through group analyses of case studies and preparation of (case) write-ups.
FIN 523 and FIN 555 and FIN 617 and FIN 662 are prerequisites for this class.

**FIN 676 | CASES IN RISK MANAGEMENT | 4 quarter hours**
(Graduate)
This course addresses the overall role that internal audit plays as a critical part of an organization’s risk control and governance structure. Internal risk management systems and metrics are examined in detail. Compliance with these risk parameters are examined from the perspective of the Chief Risk officer, the Board of Directors, and the Chief Executive Officer.
FIN 566 is a co-requisite for this class.

**FA 110 | ESSENTIALS OF TRAINING AND DEVELOPMENT | 2 quarter hours**
(Undergraduate)
This is a 5-week, 1-competence course on Employee Training and Development. Students will learn the basic processes of employee training and development, including needs assessment, theories of learning and behavior change, training design to support appropriate selection or development of training, delivery of training, issues of transfer, and assessment of results. (2 quarter hours)

**FA 112 | EXPLORING SUCCESS TECHNIQUES FOR ENHANCING CAREER SKILLS | 2 quarter hours**
(Undergraduate)
This course will address challenges that individuals encounter as they seek to advance in the job market as well as the problems faced within the workplace. The purpose of the course is to refresh and increase your effectiveness and preparation as a job seeker in your chosen field. The course will cover areas such as resume and cover letter writing, interviewing techniques, and effective job searches. Meets first five weeks of the quarter. May only be taken for one competence.

**FA 120 | ESSENTIALS OF COACHING | 2 quarter hours**
(Undergraduate)
Effective coaching has long been recognized as a key element of success in the world of sports. More recently, a new breed of coaches has emerged to help people transform their personal and professional lives. In this course, we will explore the theories, concepts, and techniques of personal life and business coaching. Students will learn about the history of coaching, its uses in personal and professional development and practical applications. Working individually, in pairs, and in small groups, students will practice coaching skills and keep a detailed learning journal. This course will be highly experiential and collaborative in nature. Students will learn concepts of coaching for personal development and professional effectiveness. In addition, students will learn models of collaborative learning and will apply one recognized model in the exploration of their coaching practice in the course. (2 credit hours)
FA 196 | MANAGING A SUCCESSFUL BUSINESS | 2 quarter hours
(Undergraduate)
The intent of business planning is to set the foundation for business success. More than one business has been put out of business when it experienced unplanned rapid growth. Students learn to understand the financial planning and management aspects of business along with techniques for defining financial tracking methodologies that uncover and deal with potential problems at an early stage. Special emphasis is placed on merger and acquisition as a forward-looking method for creating new business opportunities and success. Students will work in groups to understand the detailed realities associated with being on the seller and buyer side of a business sale/purchase. Methods of post sale business integration are also discussed. It is strongly recommended but not required that students take “Starting a Successful Business” before taking this class. (2-4 quarter hours)

FA 198 | FINANCIAL PLANNING FOR RETIREMENT | 2 quarter hours
(Undergraduate)
This course concentrates on the financial issues of retirement: income, savings, pensions, annuities, portfolios, health care, and taxes. We look carefully at the range of decisions facing adults in the U.S. as they plan for their post-working years. Learning focuses on best models of collaborating with financial experts, and planning for balance in life expectancy and assets (including real estate). The culmination of our course lies in the question of whether to remain employed for life; to resist retirement. We examine that possibility in the light of current labor market practices and the potential benefits of elder entrepreneurship. (2-4 quarter hours)

FA 199 | CAREER ASSESSMENT AND PLANNING | 2 quarter hours
(Undergraduate)
In this course, students use structured analysis and reflection, research and planning to create a professional development portfolio. Students learn strategies for reflecting, assessing strengths and growth opportunities, identifying support systems and agents, practicing smart goal setting, and attaining goals. Opportunities to return to this portfolio will be built into the major courses for purposes of ongoing assessment, reflection and planning.

FA 202 | EMOTIONAL COMPETENCE FOR ADULTS (2-4 quarter hours) | 2 quarter hours
(Undergraduate)
We’ve all known people who were brilliant but ineffective because they couldn’t manage themselves or learn to interact with others. It is nearly impossible to be successful at work or beyond without balancing thinking and feeling and developing skills in self-awareness, self-regulation, and interpersonal communication. This course will examine a framework of emotional competence and its application to a variety of settings, with special emphasis on abilities required to work effectively in teams. Readings will be drawn from emotional intelligence as it relates to the workplace, to parenting and public education, and to personal growth. In addition, film will be used to demonstrate these abilities and to inspire us to work toward our own development. (2-4 quarter hours)

FA 206 | HUMAN RESOURCES CASE STUDIES | 2 quarter hours
(Undergraduate)
HR professionals will tell you that liking people is not a good reason to go into their field. In fact, it sometimes seems likely that HR decisions are made with anything but the human element in mind. Is business in general a field which fits into the human community or is it something which exists outside our social structures and social rules? In this course, students will examine a variety of examples of how people act at work, and how the vicissitudes of the workplace influence their lives. (2-4 quarter hours)

FA 208 | SALES AND MARKETING MANAGEMENT FOR BUSINESS TODAY | 2 quarter hours
(Undergraduate)
Sales Management is one of the most important jobs in business today. It is the focal point for managing customer relations, and is critical for sustaining profitability and growth. It draws on a broad spectrum of skills and offers many desirable career paths for both entry level as well as experienced workers. Sales Management techniques are applicable in a wide variety of business settings, and the basic framework and details apply in all of them. The purpose of this course is to present a practical, contemporary framework for Sales Management. It starts with basic sales analysis techniques for determining company position in the market. From there it explores modern sales techniques for facilitating the customer’s buying decision. It then covers the major Sales Management job functions, such as Territory Management and Sales Training. The course concludes with a discussion of leadership and psychological skills that make for Sales Management excellence. Students will learn Sales Management via course lectures, textbook reading, Internet searches and independent research on the company they work for. (2-4 quarter hours)

FA 209 | CONSUMER BEHAVIOR INSIGHTS | 2 quarter hours
(Undergraduate)
In the Consumer Behavior Insights course, students explore the processes that consumers use to make decisions. Understanding of consumer segments is developed and applied to create communication strategies using a decision-making framework. Through coursework, students demonstrate an understanding of various topics including how market intelligence is collected, market segmentation, the impact of various cultural influences on behavior, elements of persuasive communication and development of consumer-oriented strategies. Cultural norms influence receptivity to marketing communication messages. In-depth consumer knowledge of a sub-cultural segment is learned and applied as students conduct market research. Based on analysis, students develop communication objectives, positioning statements and strategies for consumer communication. The role of mass media is examined in two distinct areas. Mass media influence cultural values by reinforcing norms for consumer needs and wants. Mass media are also important means for communication of targeted advertising messages. (2-4 quarter hours)
FA 214 | ENTREPRENEURIAL ACCOUNTING | 2 quarter hours (Undergraduate)
Entrepreneurial Accounting is a thorough coverage of financial and management accounting topics in an economically challenging business environment. Clear principles and procedures are used to demonstrate the complete accounting cycle in any type of organization: For-Profit or Non-Profit. General purpose financial statements are prepared and examined from a fundamental understanding of how for-profit and non-profit businesses operate in a dynamic and changing business marketplace. Specifically, the reach of this course will be on a global environment that is characterized by a high degree of uncertainty. We will examine a variety of accounting challenges faced by business from an international perspective. This will have important implications on the way a company becomes more competitive and thus profitable. As such each of you will be assigned a company on day one of class to manage through a series of accounting dilemmas often both inside and outside our borders. As you acquire the requisite skills (throughout the term) to meet those challenges you'll execute decisions that will change the management course of the company. It is through this individual decision making that you'll learn what works and what doesn't and why. This is not a static accounting course. Your decisions will have an impact on the direction of the company. We will also cover a series of topics that will enhance your understanding of financing techniques and options through detailed ratio-analysis. This will advance your ability to understand and seek creative financing for any ideas you might have in the future. This is essential if you have that entrepreneurial spark that just needs some financial backing and support to get started. As this is an accounting course we would expect some proficiency in basic quantitative /mathematical ability. You should also be able to use a calculator reasonably well. (2-4 quarter hours)

FA 220 | DEVELOPING CONSULTING SKILLS | 2 quarter hours (Undergraduate)
This course will help students learn how to start and operate a consulting business enterprise. Materials will address consulting purposes, skills, and techniques. Through class discussions and exercises, readings and assignments, students will learn how to create, organize, and operate a consulting enterprise. Students will review detailed analyses of consulting proposals, contracting, client needs and expectations, needs analyses and evaluation, project planning, data collection and analysis, resistance, client relationships, change management, feedback, pricing, presentation and facilitation skills, and ethical considerations. (2-4 quarter hours)

FA 223 | ACCOUNTING AND FINANCE PRINCIPLES | 2 quarter hours (Undergraduate)
In this course, we will examine the role of accounting and financial management in the preparation, reporting and analysis of financial information. This topic is particularly important in today's economically challenging business world. Accounting and Finance concepts and principles serve as the bookends for our exploration. Clear principles and procedures are used to capture financial data, which can then be used to make economic and financial decisions. Specifically, the objective of this course is to present the fundamentals of accounting and finance to assist the non-accountant in understanding the financial statements of an organization and how financial information can be used in the management planning, control, and decision-making processes of both profit and non-profit seeking enterprises. Accounting is often called the language of business and as such, it is appropriate that as participants in the economic activities of our society we should have enough knowledge of this language to make informed decisions and judgments about our role in these economic activities. We will also cover a series of topics that will enhance your understanding of financial information, financing techniques and options through financial and ratio-analysis. This will advance your ability to understand and make relevant financing and investment decisions or develop viable future business strategies. (2-4 credit hours)

FA 224 | LAW, JUSTICE & HOMELAND SECURITY | 2 quarter hours (Undergraduate)
Homeland Security agencies design and implement plans to thwart threats and manage responses to imminent and prolonged danger. In this course, we investigate the functional integration and coordination of federal, state and local government agencies and nonprofit organizations which respond to threats against safety and security. Students examine the current threat and response landscape, determining its strengths and weaknesses by using models and case studies of homeland security scenarios and their tactical foundations. (2-4 quarter hours)

FA 231 | FINANCIAL PLANNING | 2 quarter hours (Undergraduate)
This course will help students organize their financial lives by learning and implementing selected principles of accounting, finance, and management. The course will address value and risk determination by dealing specifically with the analysis of one's financial status, goal setting and planning, and decision making. Risk analysis, savings and investment principles, taxes, debt management, retirement, and estate considerations are areas which guide the financial management of individuals and businesses alike. (2-4 quarter hours)

FA 236 | MARKETING YOU: COMMUNICATING YOUR PROFESSIONAL IDENTITY ON AND OFFLINE | 2 quarter hours (Undergraduate)
In the emerging world of cloud computing and in the context of a competitive global economy, communicating one's personal brand effectively either virtually or offline will become increasingly important. In this hybrid course, students use innovative tools and approaches to assess their unique strengths and weaknesses, passions and prior learning, and expertise and experience to identity their personal brand, plan career goals, and create or add to a career ePortfolio. Theoretical frameworks that address opportunities and risks associated with hyperconnectivity as well as concerns about managing personal, professional, and social identities are also explored. (2-4 quarter hours)
FA 237 | CONFLICT MANAGEMENT, NEGOTIATION, AND CLIENT RELATIONS | 2 quarter hours  
(Undergraduate)  
This course will introduce students to a variety of strategies for conflict management and negotiation. Students will engage in a number of hands-on activities to develop skills that will benefit them in and beyond the workplace. (2-4 quarter hours)

FA 238 | ENGAGING RESILIENCE IN ADULT LIFE | 2 quarter hours  
(Undergraduate)  
Building & Engaging Resilience (in Adult Life) (4 credit hours) (Fac: Matamonasa)  
An ancient proverb reads: "Fall down seven times. Stand up eight." But how? What's involved in such flexibility, adaptability, tenacity, hardness and resilience? What understandings, values and skills help? How does one develop these and nurture them across an adult lifetime? Through this seminar, participants will explore various concepts, models and "best practices" for growing, rebounding and self-guarding one's resilience?given the challenges and uncertainties of adult life. (Questions? Contact instructor at amatamo1@depaul.edu.)

FA 246 | DIVERSITY IN THE WORKPLACE | 2 quarter hours  
(Undergraduate)  
The purpose of this course is to heighten the students' awareness of diversity. This may take the form of critical self-assessment of one's knowledge of diversity and/or identifying prejudices, what they are and how they began. Through group discussions, analyzing case studies and lectures, students will be provided with opportunities to gain a deeper understanding of their own prejudices and to develop a rationale for valuing human differences in their respective lives. (2-4 quarter hours)

FA 254 | STRATEGIC MANAGEMENT | 2 quarter hours  
(Undergraduate)  
This is a ten week course on strategic management in organizations. Students will learn the basic concepts of strategic formulation including understanding the competitive forces, competitive advantage, strategic decisions, and the impact of the internet on strategy. Next students will look at how strategy can be applied to business, governmental, societal and global issues. Students may focus on developing a strategy for an organization for the F-X competence, or look at strategy from a governmental or societal prospective with the H-1-I competence, or analyze the strategy of a country or global issue for the H5 competence. (2-4 quarter hours)

FA 260 | ESSENTIALS OF PROJECT MANAGEMENT | 2 quarter hours  
(Undergraduate)  
This course provides an overview of the fundamentals of Project Management for non-Project Managers. It introduces the four phases of the project management process: Initiating, Planning, Managing, and Closing; the role of the Project Manager; tools, techniques and deliverables associated with successful project management; and troubleshooting techniques. (2-4 quarter hours)

FA 269 | ENTREPRENEURSHIP: HOW TO FIND AND FUND YOUR DREAM | 2 quarter hours  
(Undergraduate)  
Did you know that 90% of new restaurants are doomed to fail? Have you always wanted to be your own boss? Are you presently conducting a small business from your garage that you'd like to make bigger and more profitable? Who makes a great entrepreneur? Are businesses easier to manage in the age of technology? In this course, Students will learn how to identify an appropriate small business for their talents and time restrictions. Learners will also consider methods of financing their dream work lives, and review the pitfalls awaiting new businesses in today's economic climate. Students need not have a business in mind, but must be willing to consider how they might go about putting together a plan for a successful venture. Ideas about the definition of business in modern society, of entrepreneurship, about the psychological makeup of the successful small business owner, and about the long term view for small businesses will also be covered. (2-4 quarter hours)

FA 270 | STARTING UP AND RUNNING YOUR OWN BUSINESS | 2 quarter hours  
(Undergraduate)  
This course will help students learn how to start and operate an independent business enterprise. We will address entrepreneurship, defining your markets, accounting basics, business plans, financing, establishing the business, hiring employees, business equipment, software, and marketing. Through readings, discussion, and home assignments, students will learn how to increase the probability of reaching their business goals while minimizing risks and costs. By applying management, financial, and software concepts and practices, students will have the knowledge to start and run a new business. (2-4 quarter hours)

FA 278 | EFFECTIVE WORKPLACE PERFORMANCE THROUGH COLLABORATION | 2 quarter hours  
(Undergraduate)  
In this course, students examine models of effective performance management, within and beyond institutions of banking. We study the connections between organizational and employee goals, giving special attention to the role of collaborative teamwork. Strategies for effective measurement of performance, both individual and group-level, are examined in the light of the need for continuous performance improvement. Course-based collaborative projects offer an opportunity to apply concepts to everyday-worklife scenarios. (2-6 hours)

FA 288 | MARKETING FOR THE SOCIAL GOOD | 2 quarter hours  
(Undergraduate)  
This is a ten week course on the nonprofit and public organizational issue of social marketing. Generally social marketing techniques are used to influence individuals, or groups to change their behavior in order to improve a social good such as: individual health, the environment, and the community. Students will develop an appreciation for the principles of social marketing and will be taught the techniques for conducting social marketing programs. Students will also learn how to develop social marketing plans and meaningful promotions, including utilizing imagery/art to understand and create advertisements. (2-4 quarter hours)
FA 300 | PROJECT MANAGEMENT | 2-4 quarter hours
(Undergraduate)
Project Management is a business concept which has received a great deal of attention over the last few years. Business managers are discovering that the complexity of human and technological systems forces workers to organize, prepare, and monitor project development in a way which was not necessary in simpler times. In this course, students will discuss and discover methods of project organization and execution which will help them achieve efficacy and success in the workplace. This course will cover concepts in describing project goals, setting priorities, identifying needs, and designing realistic time lines. Students will learn how to execute successful projects from start to finish. (2-4 quarter hours)

FA 301 | EFFECTIVE LEADERSHIP IN A CHANGING PROFESSIONAL ENVIRONMENT | 2 quarter hours
(Undergraduate)
In this leadership course, students will use readings, behavior/trait surveys, and case studies to understand leadership theories and models. Participants will learn to create, establish, and reinforce cultural rules of engagement designed to increase communication effectiveness and get the most out of the current human dynamic in their respective environments. Understanding these various leadership models allows students to reflect on their own style in today’s culturally changing environments. (online) (2 credit hours)

FA 302 | PROJECT MANAGEMENT: DESIGN AND ASSESSMENT | 2 quarter hours
(Undergraduate)
Project Management is an important discipline that can benefit students in their careers as well as personal life. This course will explore project management methodologies, their common steps and tools. The course translates Project Management theory into a practical and effective methodology, starting with working definitions of Project and Project Management, the course examines project initiation, evaluation and organization using analytic techniques such as discounted cash flow and PERT/CPM. In addition, the course examines project execution and control, along with the documentation and communications skills needed to keep a project on track. The course concludes with an overview of project management applied to computer information systems development. (2 quarter hours)

FA 303 | INDEPENDENT ADVANCED PROJECT | 4 quarter hours
(Undergraduate)
This required course is a problem-solving experience which represents the culmination of an SNL student’s learning in a specific area. Students, guided by their academic committee, design and execute an independent project which demonstrates the integration of theory and practice, and the ability to pursue and document avenues of inquiry with excellence. * Successful completion of Research Seminar is required before registration. This course satisfies a residency requirement. LL 300 is a prerequisite for this class.

FA 304 | ADVANCED PROJECT COURSE | 4 quarter hours
(Undergraduate)
The main purpose of this course is to guide you through the various steps involved in designing and carrying out an Advanced Project (AP) on a subject that is related to your particular focus Area (FA). Whether you want to address a practical problem or a theoretical question, in this course you will be guided through the process of investigating a problem or issue in depth, and establishing clear links between the definition of the problem or issue, discussion of conceptual issues, methods of investigations, analysis of findings, and practical applications. Successful completion of the Advanced Project will satisfy the F-11 and F-12 competences. This course satisfies a residency requirement.

LL 300 is a prerequisite for this class. This class is not open to BAC students.

FA 305 | CAPSTONE IN SAFETY AND SECURITY MANAGEMENT | 6 quarter hours
(Undergraduate)
This course guides students to create an applied artifact expressing the core skills and knowledge developed in the public safety and security management concentration. An implementation plan, an assessment of effectiveness, and a self-assessment of learning complete the capstone project. In addition, students will work to articulate the personal and social value of lifelong learning, assessing their learning in the competence-based undergraduate program, and articulating connections to future personal and professional goals.

FA 309 | STARTING A SUCCESSFUL BUSINESS | 2 quarter hours
(Undergraduate)
Starting a new business is now more possible than ever. All businesses start as an idea but not all ideas are good ones. To decide that an idea is worth a major time, career and financial investment, it is best to critically evaluate its likelihood of success in light of the marketplace, the competition, the economic environment, its financial costs and opportunities, and the needs of the entrepreneur. In this course, students learn evaluation techniques for determining the business viability of a new idea and methods of performing an overall critical financial analysis with special focus on spotting business environment marketing and demographic trends. Students learn the details associated with starting a functional new business with the ultimate deliverable being a written 10-15-page business plan for a new product or service idea that would be worthy of review by potential investors. Students will work together on a group project that entails the writing of a business plan and then a Shark Tank type of group presentation to classmates for evaluation and grade. This is a challenging and potentially life-changing course. (2-4 quarter hours)
FA 310 | GENDER IN BUSINESS AND LEADERSHIP | 2 quarter hours (Undergraduate)
Women's work is never done. Not only are women mothers and wives, but these days the expectation is that women will take on leadership roles outside the home as well. What makes a woman a leader? How did the workplace differ when women were not corporate leaders? Who are today's prominent female leaders and how are they shaping our future? In this course, learners will study the lives and contributions of various important women from business, politics, and social action. Students will assess equality in management and leadership, the psychological make up of the woman leader, and the ways in which women's contributions to leadership differ from men's. Furthermore, the class will endeavor to define leadership, its consequences, and its personal ramifications. Students should expect to read extensively about the lives and characteristics of contemporary women who have surfaced in leadership roles. Learners will also identify women leaders in their own workplaces and communities and assess their involvement in the corporation and/or general public. (2-4 quarter hours)

FA 313 | CHANGE MANAGEMENT: THEORY & PRACTICE | 2 quarter hours (Undergraduate)
Change management is a common term for all the processes, skills and practices used to prepare individuals, managers, and leaders to implement organizational changes. Simply put managing change, although difficult, is about the people side of change. Over this 5-weeks course theories, practices, and people management skills that are the foundation of sustainable change will be studied. The course emphasis is on deepening SCPS students' understanding of the challenges and opportunities associated with being an effective change advocate and creating successful change outcomes. (2 credit hours)

FA 314 | COLLABORATIVE PROBLEM SOLVING IN POLICING | 2-4 quarter hours (Undergraduate)
Students examine and analyze a diverse array of case studies in law enforcement to identify factors linked to successful outcomes. Special attention is given to outcomes linked to collaborative, or "team" action, such as community policing. We learn to apply the principles and methods of collaborative problem-solving to the current policing dilemmas experienced in class members' work lives. Students, themselves, collaborate to "troubleshoot" experiential dilemmas, developing insights into workplace-applicable strategies.

FA 318 | UNDERSTANDING FINANCIAL STATEMENTS | 2 quarter hours (Undergraduate)
Business managers as well as investors must have a basic understanding of financial statements as not only a management tool but also as a way of communicating the financial and operational wellbeing of a company. This course teaches students the essential elements of financial statements, their interpretation and their impact on investors and society. This is a particularly important topic and skill in light of the recent corporate financial reporting scandals plaguing Wall Street and the nation. (2-4 quarter hour)

FA 319 | THE VALUE OF STATISTICS | 2 quarter hours (Undergraduate)
In this class, students will look at how numbers add up to give us reasons to be for or against ideas. This course will center on how to create, decode, and analyze statistics. Some knowledge of mathematics is essential to understanding statistics so prior completion of the Quantitative Reasoning course or it's equivalent would be very beneficial to having success in this class. (2-4 quarter hours)

FA 325 | CONNECTING THOUGHT AND BEHAVIOR | 2 quarter hours (Undergraduate)
This course introduces students to concepts of Cognitive Psychology. They will review the history and development of the field and explore how cognitive processes impact thought and behavior. Through an experiential learning process, students will explore the science behind such topics as perception, consciousness, memory, language, problem solving, reasoning and emotional experience and how these cognitive abilities impact their lives. (2-4 quarter hours)

FA 329 | DEVELOPING AND MANAGING A MARKETING COMMUNICATIONS PROGRAM | 2 quarter hours (Undergraduate)
This course will provide the student with the understanding of the principles of marketing communication, the marking communication vehicles most commonly employed by corporations in America and Western Europe, and the situations in which each marketing communication vehicle may be most effectively used in an ethical manner. The students will learn both the principles of marketing communication and how to target a market demographically, geographically, and psychographically, to ensure that the marketing communication strategy developed and program executed are consistent with the "best in class" principles of marketing communications. (2-4 quarter hours)

FA 330 | PROFESSIONAL COMMUNICATION IN THE WORKPLACE | 2 quarter hours (Undergraduate)
This course provides an overview of the fundamentals of professional writing. Through engaging in and reflecting upon a variety of professional writing tasks, you will learn the rhetorical theory and practice necessary for effective written communication in professional contexts. (online) (2 credit hours)

FA 334 | HUMAN RESOURCE AND TALENT DEVELOPMENT FUNDAMENTALS FOR MANAGERS | 2 quarter hours (Undergraduate)
This course is designed as an introduction to the practices of human resources (HR) in a corporate environment. It will target the practices that managers need to know such as recruiting, training, hiring, and terminating employees as well as the basics of HR law. Additional content that will be addressed includes headcount management, performance appraisals, learning & development, compensation basics, and grievance processes. This course will equip managers with the information they need to know without making them Human Resource experts but rather how to work effectively with their HR counterparts. (2-4 hours)

FA 335 | RISK MANAGEMENT IN THE WORKPLACE | 2 quarter hours (Undergraduate)
This overview course in risk management will introduce managers to the various types of risk that need to be managed in the workplace. Numerous areas such as operational risk, market risk, global risk, and customer risk will be investigated. While this course is not to create students who will be experts in risk management this course will allow them to identify and analyze areas of potential risk to the assets of their organization. Students will use case studies to ensure that proper communication happens for key risks within the organization. (2-4 hours)
FA 340 | IMPLEMENTING CORPORATE TRAINING PROGRAMS | 2 quarter hours  
(Undergraduate)  
In this course, students will learn about the strategic process of effectively and efficiently implementing a corporate training program based on business drivers from design stages through measurement of results. This process includes defining requirements and success criteria, designing the process, implementing and powerfully communicating the program to the learners, and then understanding how to measure the success of the program. It is imperative to measure and report on the trends of the program and to understand why it is important. Using methodology and models that have been successful in numerous global and domestic companies, students in this course will create their own plan for implementation, communication, and measurement to ensure success in their future training program implementations. (2-4 quarter hours)

FA 359 | ETHICAL BUSINESS BEHAVIOR | 2 quarter hours  
(Undergraduate)  
Ethical Business Behavior explores the ethical issues that business decision-makers face and examines the moral principles that are used to help resolve these issues. Ethical decisions in the workplace can have tremendous influence on the individuals and the corporations involved. The outcomes of unethical behavior can affect reputations, trust and career path. Results have been as severe as loss of employment, physical harm to individuals, corporate bankruptcy and even impacts to the economy. Students are placed in decision-making roles through exercises, case studies and role-playing. Reasoning skills are honed through identification of ethical issues and alternative means to analyze these issues. Ethical behavior is evaluated using analytical skills to apply ethical concepts to business situations. (2-4 quarter hours)

FA 368 | STRESS REDUCTION IN THE WORKFORCE | 2 quarter hours  
(Undergraduate)  
In the business world, the stress on a person's life and health has a direct impact on their productivity and creativity. Studies have shown that as stress increases in someone's life, their productivity at work goes down. The current state of humanity and technology has created a world with a new type of stress; the pace and speed of interaction has increased to a rate where a person has to deal with an influx of information and, often, interactions with hundreds of people per day via different technologies. In this course we will study another worldview in order to develop survival skills that reduce our stress. This different world view is the Yogic tradition from India called Kundalini Yoga. By taking this course, students will develop stress relief techniques and a sense of great purpose in their business lives. We will lower the stress level in our lives by participating in Kundalini Yoga stress reduction techniques from a video, weekly meditation exercises and textbooks. (2-4 credit hours)

FA 371 | ADVANCED CONSULTATIVE SELLING | 2-6 quarter hours  
(Undergraduate)  
In this six-credit-hour course, students engage a dynamic combination of learning, practice, critique, and revision to become experts in consultative selling. The interests and needs of prospective and current customers form the focal point of the methodology that is called "consultative sales." Applying critical analysis to improve actual consultative experiences provides the "advanced" angle to the active learning for this course. Customers are unique, and their individual needs must be addressed with the twin consultative forces of creativity and productivity. This course offers the content and the experiential application of consultative sales.

FA 381 | CONFLICT AND COOPERATION AMONG NATIONS: BUILDING DEMOCRACY AND A FREE MARKET IN IRAQ | 2 quarter hours  
(Undergraduate)  
This course is an introduction to international relations, the analysis of the actors, institutions, and events, which influence the processes of international politics, the market, and the development of strategy. The context of the course is based on the changes caused by 9-11 to international politics, markets, strategies, and the consequences of those changes. This course will use the effort to construct a democracy and a free market in Iraq as a case study to explore the larger changes occurring in the international system in the post 9-11 era. Every student will be expected to know the substance and controversies attendant to political, economic, and military developments in Iraq. Each of these areas is fundamentally critical in assessing whether building democracy in Iraq can succeed. A critical analysis of democracy in Iraq is a major goal of this course. (2-4 quarter hours)

FA 387 | AFRICAN-AMERICAN STUDIES IN CRITICAL PERSPECTIVE | 2 quarter hours  
(Undergraduate)  
This interdisciplinary 19th and 20th century African-American studies course examines the role of protest and resistance, the media, and cultural and artistic expression in African-American history. Vis-a-vis readings, documentaries, and discussion, the course intends to illustrate the multiple ways in which African-Americans have protested and resisted oppression while examining how such efforts have been framed in the media during varying historical eras. It defines 'media' broadly and analyzes its role, both via its traditional forms (print, television and radio) but also vis-a-vis other forms of entertainment/infotainment that were particularly unique to 19th century U.S. society (i.e. minstrelsy [1830-1920]). The course concludes with a discussion of the role of art and culture in refashioning thinking and transforming experience. The latter discussion promises to be rich and thought provoking and unearth some of the works of the raw and revolutionary artists of the 1960s while taking a careful look at novel cultural practices that emerged during this period.

FA 389 | INTRODUCTION TO RESTORATIVE PEACEMAKING PRACTICES | 2 quarter hours  
(Undergraduate)  
The course will provide an introduction to the emerging field of restorative justice and its application in the criminal justice system, schools, workplaces, communities, families and organizational settings. Restorative approaches are based on aboriginal and indigenous practices and traditions to build community, problem solve, resolve conflict, decision make, develop consensus, reconcile, celebrate and possibly heal. It is a growing movement that explores how relationships can be restored or built by recognizing the capacity of the individuals and community to identify, address and resolve their issues in a manner that meets their needs and allows them to move forward. We will examine various approaches to implementing restorative principles as well as the challenges of creating and sustaining restorative environments, initiatives and resources to support communities in developing safer and healthier relationships. The underlying dynamics that are usually at the root of conflict and alienation will also be considered to better understand and appreciate the possibilities and promise of restorative processes. (2-4 quarter hours)
FA 390 | DIVERSITY: IN AND BEYOND THE WORK PLACE | 2 quarter hours
(Undergraduate)
Diversity, Multiculturalism, Affirmative Action, Equal Opportunity
Employer: these are all words that have historical significance and power in
today’s workplace. This course will examine how the United States
workplace has attempted to address diversity and what have been the
challenges along the way. Other aspects of life in the United States such
as families, schools, churches and neighborhoods have functioned with
less of an effort to represent the pluralism of society. This course will
explore these differences and evaluate the experiences of the individual,
organizations, and institutions from a multitude of perspectives. Students
will demonstrate the competencies through class participation, group
projects, journal entries and other assignments that will allow them
to apply course readings, films, and discussion to their own personal
experience. (2-4 quarter hours)

French (FCH)

FCH 101 | BASIC FRENCH I | 4 quarter hours
(Undergraduate)
First quarter of beginning French. Listening, speaking, reading and
writing French in a cultural context for the beginning student. This
course is an introduction to the study of the French language and the
culture of Francophone countries. Its methodology is based on two
assumptions. The first assumption is that language and culture are
inseparable. As students learn the French language, they will also gain
insights about the French and Francophone people and their culture.
The second assumption is that language is for communication. Studying
a foreign language does not mean memorizing grammar rules, but
internalizing these rules so that learners can use them as guidelines
when they attempt to express themselves in spoken and written French.
The course also centers on the explanation of cultural aspects of French
life, especially as they differ from American life. In-class work is devoted
to intensive communication practice, so that students are able to put the
rules they study to use in talking about themselves and their personal
interests in French.

FCH 101S | BASIC FRENCH I FOR SUMMER | 6 quarter hours
(Undergraduate)
(Covers the equivalent of FCH 101 and the first half of FCH 102.) The
first half of beginning French. Listening to, speaking, reading, and writing
French in a cultural context for the beginning student.

FCH 102 | BASIC FRENCH II | 4 quarter hours
(Undergraduate)
Second quarter of beginning French. Continued emphasis on the four
skills in culturally-authentic situations. This course is a continued
introduction to the study of the French language and the culture of
Francophone countries. Its methodology is based on two assumptions.
The first assumption is that language and culture are inseparable. As
students learn the French language, they will also gain insights about
the French and Francophone people and their culture. The second
assumption is that language is for communication. Studying a foreign
language does not mean memorizing grammar rules, but internalizing
these rules so that learners can use them as guidelines when they
attempt to express themselves in spoken and written French. The
course also centers on the explanation of cultural aspects of French life,
especially as they differ from American life. In-class work is devoted to
intensive communication practice, so that students are able to put the
rules they study to use in talking about themselves and their personal
interests in French.

FCH 103 | BASIC FRENCH III | 4 quarter hours
(Undergraduate)
Third quarter of beginning French. Completion of the basic elements
of the French language, spoken as well as written, with due regard to
the cultural context of French expression. This course completes the
introduction to the study of the French language and the culture of
Francophone countries. Its methodology is based on two assumptions.
The first assumption is that language and culture are inseparable. As
students learn the French language, they will also gain insights about
the French and Francophone people and their culture. The second
assumption is that language is for communication. Studying a foreign
language does not mean memorizing grammar rules, but internalizing
these rules so that learners can use them as guidelines when they
attempt to express themselves in spoken and written French. The
course also centers on the explanation of cultural aspects of French life,
especially as they differ from American life. In-class work is devoted to
intensive communication practice, so that students are able to put the
rules they study to use in talking about themselves and their personal
interests in French.

FCH 103S | BASIC FRENCH III FOR SUMMER | 6 quarter hours
(Undergraduate)
(Covers the equivalent of the second half of FCH 102 and all of FCH 103.)
The second half of beginning French. Further work on the basic elements
of the French language, spoken as well as written, with due regard to the
cultural context of French expression.

FCH 104 | INTERMEDIATE FRENCH I | 4 quarter hours
(Undergraduate)
First quarter of intermediate French. Intensive practice in the use of
French through listening, speaking, reading, and writing, and continued
enhancement of the cultural awareness intrinsic to those skills. This
course emphasizes language as communication. It stresses the further
development of listening, reading, speaking, and writing skills. It is
designed to reinforce the students’ knowledge of French grammar and
vocabulary in realistic contexts. The course also incorporates information
on many aspects of contemporary French/Francophone society since
cultural awareness is essential for true communicative competence. All
the material presented has a functional purpose so that it can be easily
used in real-life language situations. Class activities are structured to
give students the practice they will need in order to perform authentic
communicative functions in real life. FCH 103 or equivalent, including
placement test or permission of instructor, is recommended.

FCH 105 | INTERMEDIATE FRENCH II | 4 quarter hours
(Undergraduate)
Second quarter of intermediate French. More concentration on the four
language skills in an authentic cultural context. This course emphasizes
language as communication. It stresses the further development of
listening, reading, speaking, and writing skills. It is designed to reinforce
the students’ knowledge of French grammar and vocabulary in realistic
contexts. The course also incorporates information on many aspects of
contemporary French/Francophone society since cultural awareness is
essential for true communicative competence. All the material presented
has a functional purpose so that it can be easily used in real-life language
situations. Class activities are structured to give students the practice
they will need in order to perform authentic communicative functions in
real life. FCH 104 or equivalent, including placement test or permission of
instructor, is recommended.
FCH 106 | INTERMEDIATE FRENCH III | 4 quarter hours  
(Undergraduate)

Third quarter of intermediate French. Developing more fluency in speaking, understanding, reading and writing French with a concomitant heightened awareness of the cultural dimensions of the French language. This course emphasizes language as communication. It stresses the further development of listening, reading, speaking, and writing skills. It is designed to reinforce the students' knowledge of French grammar and vocabulary in realistic contexts. The course also incorporates information on many aspects of contemporary French/Francophone society since cultural awareness is essential for true communicative competence. All the material presented has a functional purpose so that it can be easily used in real-life language situations. Class activities are structured to give students the practice they will need in order to perform authentic communicative functions in real life. FCH 105 or equivalent, including placement test or permission of instructor, is recommended.

FCH 130 | MOLILSAP STUDY ABROAD | 2 quarter hours  
(Undergraduate)

This course is specially designed to complement the Modern Language Introductory Languages Study Abroad programs, linked to the third quarter of the first year language program. The course will be taught abroad.

FCH 197 | SPECIAL TOPICS IN FRENCH | 4 quarter hours  
(Undergraduate)

See schedule for current offerings.

FCH 198 | STUDY ABROAD | 1-8 quarter hours  
(Undergraduate)

Variable credit.

FCH 199 | INDEPENDENT STUDY | 0.5-8 quarter hour  
(Undergraduate)

Variable credit.

FCH 201 | ADVANCED COMMUNICATION I | 4 quarter hours  
(Undergraduate)

First quarter of advanced French. Developing culturally appropriate speech and writing through the study of speech acts and written documents within the context of a systematic study and review of grammar and an introduction to translation. Students will read and prepare orally all texts and questions assigned for each session. In class, time will be spent on oral communication activities. These activities will allow students to express their views and impressions with precise terminology and help students acquire greater fluency and accuracy. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 202 | ADVANCED COMMUNICATION II | 4 quarter hours  
(Undergraduate)

Second quarter of advanced French. Focus on the differences between speech and writing with an emphasis on the latter as expressed in compositions, editing, translation, and other writing activities. This course is designed to help students develop culturally appropriate speech, writing, and translation through the study of speech acts and written documents within the context of a systematic study and review of grammar. The course introduces sophisticated syntactical patterns of the language and increases students' vocabulary, thus enabling them to write more elaborate compositions and improve their oral communication skills in a culturally appropriate manner. All students become editors of DePaul's literary French magazine, Mille-Feuille, and participate in all stages of its publication. The overarching theme of the course is the geography of France. Students will gain an in-depth understanding of France's geography, and be introduced to some of the regional characteristics of its literature and culture, economy, cuisine, music, and handicraft. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 203 | ADVANCED COMMUNICATION III | 4 quarter hours  
(Undergraduate)

Third quarter of advanced French. Developing a sophisticated spoken and written fluency using authentic texts as models for elaborated discourse. Written texts and writing exercises reinforce oral expression through extensive (journal) writing and intensive writing (individual and team compositions). The course includes advanced grammar work, occasional translation, and vocabulary enrichment. It utilizes Internet resources to create a simulation. Students write collaborative chapters based on their work. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 204 | ADVANCED COMMUNICATION IV | 4 quarter hours  
(Undergraduate)

Continued refinement of advanced speaking skills by focusing on oral texts discussed in their sociocultural context. Backup support provided through written texts and exercises. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 297 | SPECIAL TOPICS IN FRENCH | 4 quarter hours  
(Undergraduate)

See schedule for current offerings.

FCH 298 | STUDY ABROAD | 1-8 quarter hours  
(Undergraduate)

Variable credit.

FCH 299 | INDEPENDENT STUDY | 0.5-8 quarter hour  
(Undergraduate)

Variable credit.

FCH 301 | THE MIDDLE AGES | 4 quarter hours  
(Undergraduate)

This course is an overview of medieval literature such as the Chanson de Roland and the poetry of Francois Villon. It looks at the diverse literary genres that characterize medieval literature and create its diversity. Some genres, such as the "roman courtois," are given special attention because of their singular importance. Readings are placed within the cultural context of their times in order to understand the values they convey. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.
FCH 302 | SURVEY OF 17TH AND 18TH CENTURY FRENCH LITERATURE | 4 quarter hours  
(Undergraduate)  
This course follows themes developed across two centuries of French literature from 1600 to the end of the ancien regime. It looks at notions such as religion and disbelief as they move from philosophers like Descartes and the French moralistes to the philosophes; it presents conceptions of theater, the novel, and the essay as they evolve from the “grand siecle” to the “siecle des lumieres.” It looks at the unfolding of classical French literature in a historical context that moves from royal absolutism to the demands of political and intellectual freedom that arise during the Enlightenment. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 303 | ROMANTICS, REALISTS, AND REBELS | 4 quarter hours  
(Undergraduate)  
This course is an introduction to the writings of the French Realists and to nineteenth-century reactions against Romanticism. Readings might include works by Balzac, Baudelaire, Rimbaud and Flaubert. The course objectives are to familiarize students with Realist writers in the tradition of French literature and to examine ways in which Realism helped define French literary thought in the nineteenth century. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 304 | FRENCH CIVILIZATION I | 4 quarter hours  
(Undergraduate)  
A survey of French civilization from its Gallic origins to the end of the ancient regime, this course focuses primarily on the history and culture of France, although it accords special attention to broader international developments such as the crusades. Beyond the tensions and exchanges between Islam and Christianity, some of the other key subjects this course addresses are feudalism, the Renaissance, the wars of religion, the centralized monarchy, and the Enlightenment. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 305 | RENAISSANCE | 4 quarter hours  
(Undergraduate)  
This course provides an overview of the literature of the French Renaissance with strong emphasis on its most distinguished writers. These may include Rabelais (novel), Ronsard and Du Bellay (poetry), and Montaigne (essays). The course also may treat some lesser literary figures such as D'Aubigné, Marot (poetry) and Garnier (theater). The course conveys a sense of the unfolding Renaissance aesthetic and objectives, ranging from the early exuberance of Rabelais to the later skepticism and caution of Montaigne. It chronicles the self-conscious attempt of French authors to create a literature that rivaled that of Greco-Roman antiquity. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 306 | SEVENTEENTH-CENTURY FRANCE | 4 quarter hours  
(Undergraduate)  
This course is an overview of French literature of the classical period, i.e., the literature largely written during the reign of Louis XIV. The course approaches materials by genre covering theater (Corneille, Racine, Moliere), poetry (La Fontaine, Malherbe, Regnier; Tristan l'Hermite), the novel (Mme de laFayette, Sorel, Furetiere), literary theory (Boileau), and the moralistes (Pascal, La Rochefoucauld, La Bruyere). FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 307 | THE AGE OF ENLIGHTENMENT | 4 quarter hours  
(Undergraduate)  
This course presents the French Enlightenment as a period of multiple liberations: the promotion of political liberty (the revolt against the absolutist monarchy), the condemnation of human slavery (most particularly in the colonies where it was rampant), the rejection of religious authority and dogma in the secular sphere (critique of the Roman Catholic Church and the advocacy of deism and atheism in place of Christianity), the exaltation of sensuality and the passions (libertine literature and the contestation of monogamy). The course examines the new cultural ideal, the philosophe, who fills the salons of the period. The course ends with several texts from the French Revolution. Most of the readings come from key writers of the period such as Diderot, Montesquieu, Rousseau and Voltaire, though they also include other writers of lesser magnitude. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 308 | THE ROMANTIC MOVEMENT | 4 quarter hours  
(Undergraduate)  
This course is a study of the works of Lamartine, Hugo, Vigny, and Musset, all major representatives of the Romantic movement in France. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 309 | THE FRENCH NOVEL | 4 quarter hours  
(Undergraduate)  
Topics may include: 17th- and 18th-century novel; world of Balzac; Flaubert and Stendhal; Realism and Naturalism; contemporary novelists; survey of the novel. This course examines the structures and situations that often typify the novel and asks why the genre has enjoyed such a continuous popularity among readers over so many centuries. It treats topics such as the transformation of the hero/heroine, the relationship of the greater society to the protagonist, the trials of the protagonist, the cultural ideals embodied by the hero/heroine, and the implications of the fate of the main characters. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 310 | FRENCH DRAMA | 4 quarter hours  
(Undergraduate)  
Topics include: classical drama; romantic drama; contemporary drama. This course examines theatre practices in France across several centuries looking at the various art forms that populated its stages: tragedy, comedy, existentialist theatre, theatre of the absurd and contemporary creations. In addition to reading plays spanning from the 17th to the 21st centuries and putting these in their social context, students may view filmed productions of theatre performances and attend plays if possible. Authors might include Racine, Corneille, Moliere, Beaumarchais, Musset, Ionesco, Beckett and Reza. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 311 | FRENCH POETRY | 4 quarter hours  
(Undergraduate)  
Topics include: form and substance; Baudelaire, Rimbaud, Verlaine, Mallarme; contemporary poets. This course is an exploration of French poetry. It provides a history of French poetry while outlining the socio-historical and intellectual context for poetic creation. The course is also an introduction to the techniques of literary analysis as characterized by “explication de texte,” a close reading that looks at the various components of texts: the imagery, the style, rhyme scheme, structure, characterization, tone, etc. leading to an understanding of the overall structure and meaning of the piece. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.
FCH 312 | TWENTIETH CENTURY WRITERS | 4 quarter hours  
(Undergraduate)  
This course introduces students to some of the most prestigious literary figures of the earlier period of the past century, such as Proust, Gide, Malraux, Camus, Sartre, and De Beauvoir. It explores their work in the novel and, when appropriate, in other genres. The course situates the texts and authors within an historical and stylistic framework that indicates major twentieth-century concerns. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 313 | THE SURREALIST REVOLUTION | 4 quarter hours  
(Undergraduate)  
Nerval, Lautreamont, Breton, Aragon; films of Man Ray and Bunel. This course takes an interdisciplinary approach to the surrealist movement because the European avant-garde of the early twentieth century used all modes of expression to convey their artistic theories. The course explores surrealist writings and art of all kinds to assess the totality of surrealist modes of expression. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 314 | CONTEMPORARY FRENCH WRITERS | 4 quarter hours  
(Undergraduate)  
This course is an exploration of texts written by French authors since the 1940’s. Students are taught to analyze a series of novels and short stories as well as the themes they develop and the narrative strategies they adopt. This course will also study the theories that have shaped the period: existentialism, the New Novel, feminism, the literature of transgression, the question of being and language, and Neo-Realism. Authors might include: Bataille, Perec, Blanchot, Yourcenar, Duras, Tournier, LeClezio, Guibert, Cixous, Ernaux, Tremblay, Conde, Ben Jelloun. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 315 | CONTEMPORARY FRENCH CRITICISM | 4 quarter hours  
(Undergraduate)  
Topics include: structuralist critics; feminist critics; post-modernist critics. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 316 | FRANCOPHONE LITERATURE OF AFRICA AND THE CARIBBEAN | 4 quarter hours  
(Undergraduate)  
Classic and emerging writers of these regions. This course might include the contemporary Haitian writer Dany Laferriere in a multi-faceted course examining the historical, cultural, and political background of the Haitian question. Other iterations of this course might include writings of authors from Francophone Africa or the Caribbean studied within the context of their nations and of the Francophone world. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 317 | THE LITERATURE OF FRENCH CANADA | 4 quarter hours  
(Undergraduate)  
Classic and contemporary French-Canadian writers. This course is an introduction to established authors of French Canada whose works are considered classics. Authors to be read might include Louis Hemon, Gabrielle Roy, Yves Thériault, Antonine Maillet, Anne Hebert, and Michel Tremblay. While acquainting students with several forms of Canadian literature, this course intends also to familiarize them with many aspects of French Canadian culture in all its diversity. Topics covered might include the way of life in the wilderness of the Eastern Canadian forest; the disenfranchised in Montreal; Eskimo life and the Inuit culture; “le grand dérangement” the removal of the Acadians from their land, now known as Nova Scotia, to Louisiana. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 319 | FRENCH/FRANCOPHONE WOMEN WRITERS | 4 quarter hours  
(Undergraduate)  
This course is an exploration of recent texts written in French by a variety of women across the globe. It gives students a chance to discuss not only the place of these women within their own society but also the specificity of their relationship to French culture and language. From France, to Senegal, Benin, Congo, Algeria, Quebec, Egypt, Vietnam and Guadeloupe, the course will allow students to travel across socio-political borders and to explore the narrative strategies specific to these women. A few films might further contextualize the material. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 320 | FRENCH FOR BUSINESS | 4 quarter hours  
(Undergraduate)  
Advanced preparation for the use of French in the business world. This course focuses on acquiring business vocabulary, skills for dealing with French business partners, and the ability to comprehend specialized business journals and reports. It prepares students for using their knowledge of French in a business context. Extensive discussions of the role France plays in the European Union will also be included. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 321 | TRANSLATION | 4 quarter hours  
(Undergraduate)  
Fundamental principles of translation. The main objective of this course is to introduce students to the fundamental principles of translation and to help them acquire the techniques for translating a range of texts from French into English, and to a lesser extent, from English into French, thus equipping them with proficiency in translating at an advanced level. Through a variety of translation assignments, students will be able to review French grammar, work within different registers and learn appropriate vocabulary, expand their reading and writing abilities in French and develop a sense of responsibility for the text translated. This course presents a survey of the latest technologies such as web-based dictionaries, and provides an introduction to translating technical documents in medicine, law, sports, travel, and business. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 322 | FRENCH GRAMMAR AND USAGE | 4 quarter hours  
(Undergraduate)  
This course is an examination of French grammar as a linguistic system and of notions of “standard” in written and spoken French. Recommended for future teachers and students interested in grammatical analysis. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.
FCH 323 | TRANSLATION II | 4 quarter hours
(Undergraduate)
Continued introduction to fundamental principles of translation. The main objective of this course is to introduce students to the fundamental principles of translation and to help them acquire the techniques for translating a range of texts from French into English, and to a lesser extent, from English into French, thus equipping them with proficiency in translating at an advanced level. Through a variety of translation assignments, students will be able to review French grammar, work within different registers and learn appropriate vocabulary, expand their reading and writing abilities in French and develop a sense of responsibility for the text translated. This course presents a survey of translation theory and provides an introduction to translating documents in theory, journalism, hotel management, psychoanalysis, literature, advertising, cooking and cinema. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 324 | TRANSLATION III | 4 quarter hours
(Undergraduate)
Intensive practice of French-English and English-French translation. The course includes a major portfolio project requiring collaborative work. It aims to equip students with proficiency in translating at an advanced level, to train them to locate and make appropriate use of reference material from a variety of sources, to write introductions and footnotes as needed, to help them understand the importance of familiarity with a subject matter and distinguish between various lexical fields, to teach them to comprehend and effectively manage the linguistic and cultural aspects of language transfer. Furthermore, the course provides students with an understanding of professional expectations in the field of translation. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 326 | FRENCH STYLISTICS | 4 quarter hours
(Undergraduate)
An intensive writing course, providing rhetorical, linguistic, and literary analysis of varied styles of writing. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 329 | FRENCH CINEMA | 4 quarter hours
(Undergraduate)
Topics in French film from its origins to the present day. A course on iconic French filmmakers of the last fifty years and their contributions to a creative reorientation of cinema in the context of the history of French cinema and film criticism. Topics might include: the New Wave and after, growing up in France and its colonies, love and eroticism, the representation of women in cinema, women directors and the deconstruction of female stereotypes, living on the margins, cinema of the suburbs, social renegades, the construction of the city. Through readings, class discussions, and film viewings, students gain an understanding of French films in light of their cultural and historical contexts. Directors studied might include: Francois Truffaut, Jean-Luc Godard, Diane Kurys, Claire Denis, Patrice Leconte, Andre Techine, Agnes Varda, Bertrand Blier, Matthieu Kassowitz and Sylvain Chomet. Students learn the basic concepts of film aesthetics necessary to an appreciation of cinema, along with a critical vocabulary in French for analyzing and discussing films. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 332 | FRENCH CIVILIZATION II | 4 quarter hours
(Undergraduate)
Intellectual, political and social background from the rise of Napoleon to the current time. This course describes the various political mutations of France from the Empire of the early nineteenth century to the Fifth Republic. The course presents critical social, literary, and artistic developments throughout the two centuries under consideration. A sample of cultural topics includes impressionism and cubism in art, and romanticism, realism and existentialism in literature. The course devotes significant attention to the creation of late-nineteenth century and early twentieth-century Paris (a time of French cultural pre-eminence in the West) when the city, initially under Haussmann's urban renovation projects, began to take on the physical form that so many people associate with Paris today. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 333 | PASTEUR, MICROBES AND 19TH CENTURY FRANCE | 4 quarter hours
(Undergraduate)
Louis Pasteur, one of the world's most important scientists, lived during a time of turmoil and explosive growth in France. A chemist and microbiologist, he is famous for his discoveries of the principles of vaccination, fermentation and pasteurization. In this course, students will read his scientific writings, as well as historical documents explaining the turbulent times in which Pasteur lived and worked. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 340 | CONTEMPORARY FRANCE | 4 quarter hours
(Undergraduate)
This course is an introduction to contemporary France through articles, books, films, web sites, and, when possible, direct interaction with French people via social networks. Although the course emphasizes France as it is today, it also seeks to point out underlying cultural/historical factors that govern French responses to particular situations. The course covers numerous topics from both high and popular culture. When timely, it makes comparisons between diverging French and American cultural perspectives. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 341 | INTRODUCTION TO FRENCH LITERATURE I | 4 quarter hours
(Undergraduate)
(Required of all majors.) Taught in Autumn quarter every two years on a rotating basis with FCH 342. This course is a survey of French Literature from the Middle Ages through the seventeenth century (le grand siecle). It treats some of the major authors/texts of the medieval, renaissance and classical periods of French literature and offers readings from a variety of genres: poetry (epic, lay, ballad, sonnet), theater (religious, profane, farce, high drama), and prose (philosophical musings, aphorisms, essays, novel). The course provides an overview of approximately six hundred years of French literature. FCH 106 or equivalent, including placement test or permission of instructor, is recommended. Offered autumn quarter of even numbered years.
FCH 342 | INTRODUCTION TO FRENCH LITERATURE II | 4 quarter hours  
(Undergraduate)  
(Required of all majors). Survey of French literature of the 18th and 19th centuries. Taught in Autumn quarter every two years on a rotating basis with FCH 341. By analyzing works and excerpts from major writings of the French canon, the course treats the progression from the Age of Enlightenment, putting an emphasis on the themes of love and virtue, to pre-Romanticism, and the libertine culture. The course then provides an overview of Romanticism and later nineteenth-century developments such as Symbolism in poetry and modernity. Authors to be read may include Rousseau, Sade, Laclos, Nerval, Hugo, Lamartine, Vigny, Balzac, Sand, Colet, Mme. d’Agouet, Mme. de Stael, and Flaubert. FCH 106 or equivalent, including placement test or permission of instructor, is recommended. Offered autumn quarter of odd numbered years.

FCH 345 | THE AFRICAN PRESENCE IN FRANCE | 4 quarter hours  
(Undergraduate)  
This course offers a cultural studies perspective on the immigrant populations in France since the end of the colonial empire in Africa. It is designed to increase students’ understanding of immigration in France as experienced by a variety of African communities. Through sociological documentaries, literature, manifestoes, legal documents, music, films and cooking, students will learn about the experiences and reshaped identities of first and second generation immigrants from both Western and Northern Africa. A brief introduction to the history of immigration in France and to the French colonization and subsequent decolonization of Africa will be provided. Countries discussed include Algeria, Morocco, Tunisia, Senegal, Cameroun, and Mali. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 350 | FRENCH PHONOLOGY AND PHONETICS | 4 quarter hours  
(Undergraduate)  
(Required of all majors). An in-depth study of the language's sound system and intensive pronunciation practice. This course is designed to introduce advanced students to the structure of the sound system of the French language and--on a practical level--to help them improve their pronunciation. Lectures, discussions, practice sessions and group work are based on a main manual and various handouts as well as recordings of French speakers. FCH 106 or equivalent, including placement test or permission of instructor, is recommended.

FCH 395 | FOREIGN LANGUAGES ACROSS THE CURRICULUM | 2 quarter hours  
(Undergraduate)  
The two credit FLAC course allows students to enrich their experience in the co-required course through added reading, writing, listening and speaking activities in French. Students must have the equivalent of 106 or higher ability in French to take this two credit component. Please contact the Department of Modern Languages if you have questions about these courses or about language placement.

FCH 397 | SPECIAL TOPICS IN FRENCH | 4 quarter hours  
(Undergraduate)  
See schedule for offerings.

FCH 398 | STUDY ABROAD | 1-8 quarter hours  
(Undergraduate)  
Variable credit. Students participating in the Institute of European Studies will be allowed to count a total of three courses (semester program) or five courses (year program) towards their major or minor requirements.

FCH 399 | INDEPENDENT STUDY | 1-4 quarter hours  
(Undergraduate)  
Variable credit.

FCH 401 | THE MIDDLE AGES | 4 quarter hours  
(Graduate)  
This course is an overview of medieval literature such as the Chanson de Roland and the poetry of Francois Villon. It looks at the diverse literary genres that characterize medieval literature and create its diversity. Some genres, such as the "roman cortos," are given special attention because of their singular importance. Readings are placed within the cultural context of their times in order to understand the values they convey.

FCH 402 | SURVEY OF 17TH AND 18TH CENTURY FRENCH LITERATURE | 4 quarter hours  
(Graduate)  
This course follows themes developed across two centuries of French literature from 1600 to the end of the ancien regime. It looks at notions such as religion and disbelief as they move from philosophers like Descartes and the French moralistes to the philosophes; it presents conceptions of theater, the novel, and the essay as they evolve from the "grand siecle" to the "siecle des lumieres." It looks at the unfolding of classical French literature in a historical context that moves from royal absolutism to the demands of political and intellectual freedom that arise during the Enlightenment.

FCH 403 | ROMANTICS, REALISTS AND REBELS | 4 quarter hours  
(Graduate)  
This course is an introduction to the writings of the French Realists and to nineteenth-century reactions against Romanticism. Readings might include works by Balzac, Baudelaire, Rimbaud and Flaubert. The course objectives are to familiarize students with Realist writers in the tradition of French literature and to examine ways in which Realism helped define French literary thought in the nineteenth century.

FCH 404 | FRENCH CIVILIZATION I | 4 quarter hours  
(Graduate)  
A survey of French civilization from its Gallic origins to the end of the ancien regime, this course focuses primarily on the history and culture of France, although it accords special attention to broader international developments such as the crusades. Beyond the tensions and exchanges between Islam and Christianity, some of the other key subjects this course addresses are feudalism, the Renaissance, the wars of religion, the centralized monarchy, and the Enlightenment.

FCH 405 | RENAISSANCE | 4 quarter hours  
(Graduate)  
This course provides an overview of the literature of the French Renaissance with strong emphasis on its most distinguished writers. These may include Rabelais (novel), Ronsard and Du Bellay (poetry), and Montaigne (essays). The course also may treat some lesser literary figures such as D’Aubigne, Marot (poetry) and Garnier (theater). The course conveys a sense of the unfolding Renaissance aesthetic and objectives, ranging from the early exuberance of Rabelais to the later skepticism and caution of Montaigne. It chronicles the self-conscious attempt of French authors to create a literature that rivaled that of Greco-Roman antiquity.

FCH 406 | SEVENTEENTH-CENTURY FRANCE | 4 quarter hours  
(Graduate)  
This course is an overview of French literature of the classical period, i.e., the literature largely written during the reign of Louis XIV. The course approaches materials by genre covering theater (Corneille, Racine, Moliere), poetry (La Fontaine, Malherbe, Regnier, Tristan l’Hermitte), the novel (Mme de LaFayette, Sorel, Furetiere), literary theory (Boileau), and the moralistes (Pascal, La Rochefoucauld, La Bruyere).
FCH 407 | AGE OF ENLIGHTENMENT | 4 quarter hours (Graduate)
This course presents the French Enlightenment as a period of multiple liberations: the promotion of political liberty (the revolt against the absolutist monarchy), the condemnation of human slavery (most particularly in the colonies where it was rampant), the rejection of religious authority and dogma in the secular sphere (critique of the Roman Catholic Church and the advocacy of deism and atheism in place of Christianity), the exaltation of sensuality and the passions (libertine literature and the contestation of monogamy). The course examines the new cultural ideal, the philosophe, who fills the salons of the period. The course ends with several texts from the French Revolution. Most of the readings come from key writers of the period such as Diderot, Montesquieu, Rousseau and Voltaire, though they also include other writers of lesser magnitude.

FCH 408 | THE ROMANTIC MOVEMENT | 4 quarter hours (Graduate)
This course is a study of the works of Lamartine, Hugo, Vigny, and Musset, all major representatives of the Romantic movement in France.

FCH 409 | THE FRENCH NOVEL | 4 quarter hours (Graduate)
Topics may include: 17th- and 18th-century novel; world of Balzac; Flaubert and Stendhal; Realism and Naturalism; contemporary novelists; survey of the novel. This course examines the structures and situations that often typify the novel and asks why the genre has enjoyed such a continuous popularity among readers over so many centuries. It treats topics such as the transformation of the hero/heroine, the relationship of the greater society to the protagonist, the trials of the protagonist, the cultural ideals embodied by the hero/heroine, and the implications of the fate of the main characters.

FCH 410 | FRENCH DRAMA | 4 quarter hours (Graduate)
Topics include: classical drama; romantic drama; contemporary drama. This course examines theatre practices in France across several centuries looking at the various art forms that populated its stages: tragedy, comedy, existentialist theatre, theatre of the absurd and contemporary creations. In addition to reading plays spanning from the 17th to the 21st centuries and putting these in their social context students may view filmed productions of theatre performances and attend plays if possible. Authors might include Racine, Corneille, Moliere, Beaumarchais, Musset, Ionesco, Beckett and Reza.

FCH 411 | FRENCH POETRY | 4 quarter hours (Graduate)
Topics include: form and substance; Baudelaire, Rimbaud, Verlaine, Mallarme; contemporary poets. This course is an exploration of French poetry. It provides a history of French poetry while outlining the socio-historical and intellectual context for poetic creation. The course is also an introduction to the techniques of literary analysis as characterized by "explication de texte," a close reading that looks at the various components of texts: the imagery, the style, rhyme scheme, structure, characterization, tone, etc. leading to an understanding of the overall structure and meaning of the piece.

FCH 412 | TWENTIETH CENTURY WRITERS | 4 quarter hours (Graduate)
This course introduces students to some of the most prestigious literary figures of the earlier period of the past century, such as Proust, Gide, Malraux, Camus, Sartre, and De Beauvoir. It explores their work in the novel and, when appropriate, in other genres. The course situates the texts and authors within an historical and stylistic framework that indicates major twentieth-century concerns.

FCH 413 | THE SURREALIST REVOLUTION | 4 quarter hours (Graduate)
Nerval, Lautreamont, Breton, Aragon; films of Man Ray and Bunel. This course takes an interdisciplinary approach to the surrealist movement because the European avant-garde of the early twentieth century used all modes of expression to convey their artistic theories. The course explores surrealist writings and art of all kinds to assess the totality of surrealist modes of expression.

FCH 414 | CONTEMPORARY FRENCH WRITERS | 4 quarter hours (Graduate)
This course is an exploration of texts written by French authors since the 1940's. Students are taught to analyze a series of novels and short stories as well as the themes they develop and the narrative strategies they adopt. This course will also study the theories that have shaped the period: existentialism, the New Novel, feminism, the literature of transgression, the question of being and language, and Neo-Realism. Authors might include: Bataille, Perec, Blanchot, Yourcenar, Duras, Tourneur, LeCleuzio, Guibert, Cixous, Ernaux, Tremblay, Conde, Ben Jelloun.

FCH 415 | CONTEMPORARY FRENCH CRITICISM | 4 quarter hours (Graduate)
Topics include: structuralist critics; feminist critics; post-modernist critics.

FCH 416 | FRANCOPHONE LITERATURE OF AFRICA AND THE CARIBBEAN | 4 quarter hours (Graduate)
Classic and emerging writers of these regions. This course might include the contemporary Haitian writer Dany Laferriere in a multi-faceted course examining the historical, cultural, and political background of the Haitian question. Other iterations of this course might include writings of authors from Francophone Africa or the Caribbean studied within the context of their nations and of the francophone world.

FCH 417 | THE LITERATURE OF FRENCH CANADA | 4 quarter hours (Graduate)
Classic and contemporary French-Canadian writers. This course is an introduction to established authors of French Canada whose works are considered classics. Authors to be read might include Louis Hemon, Gabrielle Roy, Yves Thériault, Antonine Maillet, Anne Hebert, and Michel Tremblay. While acquainting students with several forms of Canadian literature, this course intends also to familiarize them with many aspects of French Canadian culture in all its diversity. Topics covered might include the way of life in the wilderness of the Eastern Canadian forest; the disenfranchised in Montreal; Eskimo life and the Inuit culture; "le grand derangement" the removal of the Acadians from their land, now known as Nova Scotia, to Louisiana.

FCH 419 | FRENCH WOMEN WRITERS | 4 quarter hours (Graduate)
This course is an exploration of recent texts written in French by a variety of women across the globe. It gives students a chance to discuss not only the place of these women within their own society but also the specificity of their relationship to French culture and language. From France, to Senegal, Benin, Congo, Algeria, Quebec, Egypt, Vietnam and Guadeloupe, the course will allow students to travel across socio-political borders and to explore the narrative strategies specific to these women. A few films might further contextualize the material.
FCH 420 | FRENCH FOR BUSINESS | 4 quarter hours (Graduate)
Advanced preparation for the use of French in the business world. This course focuses on acquiring business vocabulary, skills for dealing with French business partners, and the ability to comprehend specialized business journals and reports. It prepares students for using their knowledge of French in a business context. Extensive discussions of the role France plays in the European Union will also be included.

FCH 421 | TRANSLATION | 4 quarter hours (Graduate)
Fundamental principles of translation. The main objective of this course is to introduce students to the fundamental principles of translation and to help them acquire the techniques for translating a range of texts from French into English, and to a lesser extent, from English into French, thus equipping them with proficiency in translating at an advanced level. Through a variety of translation assignments, students will be able to review French grammar, work within different registers and learn appropriate vocabulary, expand their reading and writing abilities in French and develop a sense of responsibility for the text translated. This course presents a survey of the latest technologies such as web-based dictionaries, and provides an introduction to translating technical documents in medicine, law, sports, travel, and business.

FCH 422 | FRENCH GRAMMAR AND USAGE | 4 quarter hours (Graduate)
This course is an examination of French grammar as a linguistic system and of notions of "standard" in written and spoken French. Recommended for future teachers and students interested in grammatical analysis.

FCH 423 | TRANSLATION II | 4 quarter hours (Graduate)
Continued introduction to fundamental principles of translation. The main objective of this course is to introduce students to the fundamental principles of translation and to help them acquire the techniques for translating a range of texts from French into English, and to a lesser extent, from English into French, thus equipping them with proficiency in translating at an advanced level. Through a variety of translation assignments, students will be able to review French grammar, work within different registers and learn appropriate vocabulary, expand their reading and writing abilities in French and develop a sense of responsibility for the text translated. This course presents a survey of translation theory and provides an introduction to translating documents in theory, journalism, hotel management, psychoanalysis, literature, advertising, cooking and cinema.

FCH 424 | TRANSLATION III | 4 quarter hours (Graduate)
Intensive practice of French-English and English-French translation. The course includes a major portfolio project requiring collaborative work. It aims to equip students with proficiency in translating at an advanced level, to train them to locate and make appropriate use of reference material from a variety of sources, to write introductions and footnotes as needed, to help them understand the importance of familiarity with a subject matter and distinguish between various lexical fields, to teach them to comprehend and effectively manage the linguistic and cultural aspects of language transfer. Furthermore, the course provides students with an understanding of professional expectations in the field of translation.

FCH 426 | FRENCH STYLISTICS | 4 quarter hours (Graduate)
An intensive writing course, providing rhetorical, linguistic, and literary analysis of varied styles of writing. Cross-listed with FCH 326.

FCH 429 | FRENCH CINEMA | 4 quarter hours (Graduate)
Topics in French film from its origins to the present day. A course on iconic French filmmakers of the last fifty years and their contributions to a creative reorientation of cinema in the context of the history of French cinema and film criticism. Topics include: the New Wave and after, growing up in France and its colonies, love and eroticism, the representation of women in cinema, women directors and the deconstruction of female stereotypes, living on the margins, cinema of the suburbs, social renegades, the construction of the city. Through readings, class discussions, and film viewings, students gain an understanding of French films in light of their cultural and historical contexts. Directors studied might include: Francois Truffaut, Jean-Luc Godard, Diane Kurys, Claire Denis, Patrice Leconte, Andre Techine, Agnes Varda, Bertrand Blier, Mattheiu Kassowitz and Sylvain Chomet. Students learn the basic concepts of film aesthetics necessary to an appreciation of cinema, along with a critical vocabulary in French for analyzing and discussing films.

FCH 432 | FRENCH CIVILIZATION II | 4 quarter hours (Graduate)
Intellectual, political and social background from the rise of Napoleon to the current time. This course describes the various political mutations of France from the Empire of the early nineteenth century to the Fifth Republic. The course presents critical social, literary, and artistic developments throughout the two centuries under consideration. A sample of cultural topics includes impressionism and cubism in art, and romanticism, realism and existentialism in literature. The course devotes significant attention to the creation of late-nineteenth century and early twentieth-century Paris (a time of French cultural pre-eminence in the West) when the city, initially under Haussmann's urban renovation projects, began to take on the physical form that so many people associate with Paris today.

FCH 440 | CONTEMPORARY FRANCE | 4 quarter hours (Graduate)
This course is an introduction to contemporary France through articles, books, films, web sites, and, when possible, direct interaction with French people via social networks. Although the course emphasizes France as it is today, it also seeks to point out underlying cultural/historical factors that govern French responses to particular situations. The course covers numerous topics from both high and popular culture. When timely, it makes comparisons between diverging French and American cultural perspectives.

FCH 441 | INTRODUCTION TO FRENCH LITERATURE I | 4 quarter hours (Graduate)
Taught in Autumn quarter every two years on a rotating basis with FCH 442. This course is a survey of French Literature from the Middle Ages through the seventeenth century (le grand siecle). It treats some of the major authors/texts of the medieval, renaissance and classical periods of French literature and offers readings from a variety of genres: poetry (epic, lay, ballad, sonnet), theater (religious, profane, farce, high drama), and prose (philosophical musings, aphorisms, essays, novels). The course provides an overview of approximately six hundred years of French literature.
FCH 442 | INTRODUCTION TO FRENCH LITERATURE II | 4 quarter hours (Graduate)
Survey of French literature of the 18th and 19th centuries. Taught in Autumn quarter every two years on a rotating basis with FCH 441. By analyzing works and excerpts from major writings of the French canon, the course treats the progression from the Age of Enlightenment, putting an emphasis on the themes of love and virtue, to pre-Romanticism, and the libertine culture. The course then provides an overview of Romanticism and later nineteenth-century developments such as Symbolism in poetry and modernity. Authors to be read may include Rousseau, Sade, Laclos, Nerval, Hugo, Lamartine, Vigny, Balzac, Sand, Colet, Mme. d'Agouet, Mme. de Stael, and Flaubert.

FCH 445 | THE AFRICAN PRESENCE IN FRANCE | 4 quarter hours (Graduate)
This course offers a cultural studies perspective on the immigrant populations in France since the end of the colonial empire in Africa. It is designed to increase students' understanding of immigration in France as experienced by a variety of African communities. Through sociological documentaries, literature, manifestoes, legal documents, music, films and cooking, students will learn about the experiences and reshaped identities of first and second generation immigrants from both Western and Northern Africa. A brief introduction to the history of immigration in France and to the French colonization and subsequent decolonization of Africa will be provided. Countries discussed include Algeria, Morocco, Tunisia, Senegal, Cameroun, and Mali.

FCH 450 | FRENCH PHONOLOGY AND PHONETICS | 4 quarter hours (Graduate)
An in-depth study of the language's sound system and intensive pronunciation practice, this course is designed to introduce students to the structure of the sound system of the French language and--on a practical level--to help them improve their pronunciation. Lectures, discussions, practice sessions and group work are based on a main manual and various handouts as well as recordings of French speakers.

FCH 491 | FRENCH FOR READING | 4 quarter hours (Graduate)
Intensive review of basics of French grammar, vocabulary and sentence structure, for reading knowledge of scholarly articles in French.

FCH 496 | PRACTICUM IN FRENCH INSTRUCTION | 4 quarter hours (Graduate)
Supervised practice in language instruction, paired with a mentor instructor in a beginning or intermediate language course. Students observe a class, teach a lesson or lessons, assist in assessment and lesson planning, and complete individualized assignments to develop their skills as classroom language instructors. Repeatable.

FCH 497 | SPECIAL TOPICS IN FRENCH | 4 quarter hours (Graduate)
See schedule for current offerings.

FCH 498 | STUDY ABROAD | 1-8 quarter hours (Graduate)
Variable credit.

FCH 499 | INDEPENDENT STUDY | 1-8 quarter hours (Graduate)
Variable credit.

---

Game Development (GAM)

GAM 102 | MECHANICS OF GAME DESIGN | 4 quarter hours (Undergraduate)
This course introduces students to the design and implementation of core mechanics and game loops for real-time digital games. In order to hone an eye for detail and a deeper understanding of how design decisions ripple out across different systems, this class focuses on a single game genre, such as 2D platforming games, walking simulators, or stealth games. Students will play several games from that genre, analyze their affordances, and develop prototypes of specific subsystems. Topics to be covered include genre history, game feel, interaction design, procedural rhetoric, systems design, common scripting patterns.

GAM 240 is a prerequisite for this class.

GAM 180 | UNREAL ENGINE WORKSHOP | 2-2.25 quarter hours (Undergraduate)
This course focuses on teaching students the fundamentals to Unreal Engine.&nbsp; By the end of the course the students will build a small game from scratch in the Unreal Engine.&nbsp; No programming knowledge is required to take this course.&nbsp; Students will learn basic concepts of the Unreal Engine, from learning the interface of UE4 to scripting basic behaviors with blueprints.&nbsp; Students will also learn the basics of several different modules in UE4.

GAM 181 | UNITY WORKSHOP | 2-2.25 quarter hours (Undergraduate)
This course focuses on teaching students the fundamentals of Unity.&nbsp; By the end of the course the students will build a small game from scratch in the Unity.&nbsp; No programming knowledge is required to take this course.&nbsp; Students will learn basic concepts of the Unity Game Engine from learning the interface of Unity to scripting basic behaviors in C#.&nbsp; Students will also learn the basics of several different modules in Unity Engine.

GAM 200 | PLAY | 4 quarter hours (Undergraduate)
Exploring the concept of "play" from a variety of disciplinary perspectives including sociology, anthropology, psychology, literary and theater studies and the arts, this course discusses "play" as a central force in cultural, social, artistic and personal development. It intends to raise awareness for the ways in which "play" can promote creativity, mental and emotional health, problem solving as well as personal and social change. It analyzes the role of "play" as an element of negotiation and reconciliation between disparate forces within the individual and with others.

GAM 210 | HISTORY OF VIDEOGAMES | 4 quarter hours (Undergraduate)
This course provides an overview of the history of modern interactive entertainment starting with the early developments of the late 1940s up until the present day. The course covers five longitudinal perspectives, or themes. For each theme students will become familiar with notable game titles, events, people, technologies, game mechanics and genres.

GAM 205 | GAMES LITERACY | 4 quarter hours (Undergraduate)
This lecture course introduces students to the evolving forms, uses, and design of games. Topics covered include the relationship between game design and play, the role of games in fueling the technological imagination, the changing contexts in which games are designed and played (art, social impact, health, education), and the rise of the independent games sector. Students will produce weekly written responses to course material, lead a seminar discussion in small teams, and produce a final written or multimedia paper. PREREQUISITE(S): None.
GAM 206 | HISTORY OF GAMES | 4 quarter hours
(Undergraduate)
From "The Royal Game of Ur" (2500+ BCE) to "World of Warcraft" (2004), games have been a constant in human history. The forms of games, their experiential qualities, and their cultural significance have varied enormously from era to era and place to place. This class will examine particular games and game genres in their historical context using a case study format. We will focus on "indoor" games, those of chance and skill, as opposed to physical games and sports. The examples will be chosen (i) to have global scope and historic diversity, (ii) to relate to games that students will find familiar, and (iii) to raise particular issues in historical interpretation, the use of primary sources and changing concepts of leisure activity.

GAM 208 | VIRTUAL WORLDS AND ONLINE COMMUNITIES | 4 quarter hours
(Undergraduate)
Environments such as social networking sites, multiplayer online games and other online communities are becoming an increasingly large part of how we work, play, and learn. This course introduces the fundamentals for the interdisciplinary study of cyberculture and online social behavior. By examining core scholarship in this area, together with analyzing an existing virtual world, game, or online community, students will learn to research and understand new technologically-enabled social forms as they are emerging. PREREQUISITE(S) WRD 104.
WRD 104 is a prerequisite for this class.

GAM 224 | GAME DESIGN FOR NON-MAJORS | 4 quarter hours
(Undergraduate)
This course approaches the study of computer games from three angles: first, as examples of media that can be analyzed and critiqued for their thematic elements, formal structure, plot and interactive appreciation; second, as complex software artifacts subject to technological constraints and the product of a labor-intensive design and implementation process; and three as a cultural artifact with behaviors and associations comparable in import to other popular art forms. Students will study the principles of game design and use them both to analyze existing games and to develop their own original game ideas. Students will also learn about the process of game development, starting from the game’s narrative concept and moving to consideration of a game’s components: the representation of the player, of artifacts, the virtual world that contains them and the interaction between them and the player.

GAM 226 | FUNDAMENTALS OF GAME DESIGN | 4 quarter hours
(Undergraduate)
This course provides students a practical foundation in game design with a focus on concept development, design decomposition, and prototyping. Using game design theory, analysis, physical prototyping, playtesting, and iteration students learn how to translate game ideas, themes, and metaphors into gameplay, game pitches, and design documents. Students will analyze and recognize play that exists in important games, stories, and other media.

GAM 228 | ETHICS IN COMPUTER GAMES AND CINEMA | 4 quarter hours
(Undergraduate)
Societies function based on normative ethics utilizing common sense to distinguish between ethical and unethical behavior. Most of us are not aware of the underlying theories when arriving at ethical judgments about right and wrong. However, the fast pace of progress in information technologies and digital entertainment creates an environment in which ethical challenges are particularly complex. In the eyes of many, games and movies are violent, offensive and immoral. This course will concentrate on analyzing the impact of digital entertainment on an individual and society. Implications of certain values embedded in games and movies will be discussed. Elements of the ethical code of conduct for a game or movie creator will be formulated. The issue of balancing individual creativity vs. cultural impact, particularly on children, will be discussed.

GAM 229 | PRESENTATION AND COMMUNICATION | 4 quarter hours
(Undergraduate)
GAM 229 focuses on effective written and oral communication for designers in the professional world and beyond. While covering the basics of writing various design documents from high concepts to production guidelines, and teaching various presentation formats and techniques, GAM 229 aims to raise students’ awareness for the “human” aspects of becoming an effective communicator and offers experimental, creative solutions to communication problems, such as team or client issues. Based on psychology research, this course offers insights on what it takes to “hear others” and “be heard” and to create constructive, productive relationships. PREREQUISITE(S): None.

GAM 230 | INTRO TO GAME PRODUCTION | 4 quarter hours
(Undergraduate)
Game development is a big business, and production teams can now exceed one hundred people. This course is an introduction to the production methods used in the game industry, and to the demanding role of the Producer on the game development team. Students will work to develop skills in team building, project presentation, organization, and dealing with people. Subjects covered include scheduling tools, collaborative software, project management, vendor relations, inter-departmental relations, and quality assurance. PREREQUISITE(S): GAM 245.
GAM 245 is a prerequisite for this class.

GAM 231 | HISTORY AND DESIGN OF ROLE-PLAYING GAMES | 4 quarter hours
(Undergraduate)
Students learn the history of role-playing games and the process of world-building to collaboratively design and develop their own games that advance the genre. Topics include the psychological and social opportunities unique to the genre, as well as its history from table-top, to live-action and massively multi-player. Class time consists of lectures, workdays, workshops, playtests, and critiques. PREREQUISITE(S): GAM 224 or GAM 226.

GAM 240 | PLAYGRAMMING | 4 quarter hours
(Undergraduate)
This workshop introduces computer programming to artists and game designers. Programming is an art, but before students can create masterpieces they first need to explore, play, and sketch with code. Students learn basic concepts and techniques of computation and apply these to craft gameplay experiences, improvisational experiments, and software toys. Students will author code from scratch and remix code to complete their weekly projects. No prior programming experience or knowledge is required. PREREQUISITE(S): None.

GAM 245 is a prerequisite for this class.

GAM 246 | or GAM 226 is a prerequisite for this class.
GAM 244 | GAME DEVELOPMENT I | 4 quarter hours
(Undergraduate)
This course provides students additional theory and practice with an emphasis on game design and storytelling for games. Students continue learning about game development processes and techniques and how to apply advanced game design principles to create components of a 2D game.

GAM 245 | GAME DEVELOPMENT II | 4 quarter hours
(Undergraduate)
In this course students will develop skills in game design and development through the creation of a 2D digital game designed from a set of client based restrictions. Emphasis will be placed on teamwork and development pipelines for the design and creation of assets and systems. Students will use a combination of prototyping, storyboarding, user stories, character breakdowns, system breakdowns and flowcharts in the design portion of the game. We will be using Gamemaker Studio as the engine to develop and implement the game. The goals of all design done in this course will focus around designing for the needs of a client; solving problems identified by the client; and providing transparency via reports and milestone deliverables. PREREQUISITE(S): GAM 226 and (GAM 244 or CSC 241 or CSC 243)

GAM 226 and (GAM 244 or CSC 241 or CSC 243) are prerequisites for this class

GAM 250 | GAME SOUND DESIGN I | 4 quarter hours
(Undergraduate)
This course is an introduction to the principles of digital audio and the methods employed to create, edit, and deliver sound for video games. The course examines the place of sound in video games, both artistic and technological. The course will cover the basics of sound in the physical and digital realm, sound effects editing, and sound effects delivery. Lectures, discussions, and videos will be used to examine the art and the process of adding sound to video games. Students will learn to edit sound assignments with Pro Tools and other current technologies.

GAM 250 or POST 124 is a prerequisite for this class.

GAM 251 | GAME DEVELOPMENT II | 4 quarter hours
(Undergraduate)
This course introduces students additional theory and practice with an emphasis on game design and storytelling for games. Students continue learning about game development processes and techniques and how to apply advanced game design principles to create components of a 2D game.

GAM 250 or POST 124 is a prerequisite for this class.

GAM 252 | GAME SOUND DESIGN II | 4 quarter hours
(Undergraduate)
This course expands on topics covered in GAM 250. Students will further their knowledge of recording techniques for voiceover, sound effects, and music; editing voiceover and music; and mixing. The course will also introduce audio implementation using Unity. Coursework will utilize the recording studio extensively for in-class and out-of-class work. The course is intended for advanced students who wish to develop their skills and gain more experience in preparing and mixing sound design for video games.

GAM 250 or POST 124 is a prerequisite for this class.

GAM 256 | GAMES WITH A PURPOSE PRE-PRODUCTION | 4 quarter hours
(Undergraduate)
This course introduces students to the growing field of Games With A Purpose (GWAP) and its manifold application areas such as health, education, social and personal change, activism, journalism, politics and advertising. After laying the theoretical foundation of games as expressive and persuasive media with transformational power, and establishing a framework for the design and assessment of GWAPs, the course focuses on the conceptualization, prototyping, playtesting and evaluation of concrete, client-based projects for purposes beyond entertainment. Instructor Permission Required. PREREQUISITE(S): GAM 392 or GAM 362.

GAM 392 or GAM 362 is a prerequisite for this class.

GAM 316 | SCORING FOR GAMES | 4 quarter hours
(Undergraduate)
Students are introduced to elements of music and ways in which these elements may be used to create a musical style that enhances video games. The course emphasizes understanding the function of the score and how it relates to texture, color, and drama in music. Students explore their creativity using the tools available, work on projects of increasing complexity, and complete a score for their own video game as a final project. Listening skills, music vocabulary, and business and legal aspects of the profession are also studied.

GAM 250 or POST 124 is a prerequisite for this class.

GAM 326 | APPLIED 3D GEOMETRY | 4 quarter hours
(Undergraduate)
Review of mathematical foundation and techniques needed for the development of 3D graphics and game systems. This class will provide the foundation in linear algebra and 3D geometry required for implementing common tasks in 3D graphics and game systems. Topics include: vectors, matrices, transforms, coordinate changes, projections, intersection. PREREQUISITE(S): CSC 301.

CSC 301 is a prerequisite for this class.

GAM 325 | GAME DEVELOPMENT I | 4 quarter hours
(Undergraduate)
This course provides students additional theory and practice with an emphasis on game design and storytelling for games. Students continue learning about game development processes and techniques and how to apply advanced game design principles to create components of a 2D game.

GAM 250 or POST 124 is a prerequisite for this class.

GAM 316 | SCORING FOR GAMES | 4 quarter hours (Undergraduate)
Students are introduced to elements of music and ways in which these elements may be used to create a musical style that enhances video games. The course emphasizes understanding the function of the score and how it relates to texture, color, and drama in music. Students explore their creativity using the tools available, work on projects of increasing complexity, and complete a score for their own video game as a final project. Listening skills, music vocabulary, and business and legal aspects of the profession are also studied.

GAM 250 or POST 124 is a prerequisite for this class.

GAM 325 | APPLIED 3D GEOMETRY | 4 quarter hours
(Undergraduate)
Review of mathematical foundation and techniques needed for the development of 3D graphics and game systems. This class will provide the foundation in linear algebra and 3D geometry required for implementing common tasks in 3D graphics and game systems. Topics include: vectors, matrices, transforms, coordinate changes, projections, intersection. PREREQUISITE(S): CSC 301.

CSC 301 is a prerequisite for this class.

GAM 326 | GAMES WITH A PURPOSE PRE-PRODUCTION | 4 quarter hours
(Undergraduate)
This course introduces students to the growing field of Games With A Purpose (GWAP) and its manifold application areas such as health, education, social and personal change, activism, journalism, politics and advertising. After laying the theoretical foundation of games as expressive and persuasive media with transformational power, and establishing a framework for the design and assessment of GWAPs, the course focuses on the conceptualization, prototyping, playtesting and evaluation of concrete, client-based projects for purposes beyond entertainment. Instructor Permission Required. PREREQUISITE(S): GAM 392 or GAM 362.

GAM 392 or GAM 362 is a prerequisite for this class.
GAM 330 | ADVANCED GAME PRODUCTION | 4 quarter hours
(Undergraduate)
This course builds on the fundamentals covered in earlier courses (GAM230 or IS372/ECT372) by providing a practical, hands-on context in which students can learn the tools and techniques game producers use to manage and organize assets, workflows, tasks, bugs, resources, and personnel. In this course, students combine classroom lectures and lab time to learn production theory, tools, and techniques fundamental to successful game development. Through this experience, students learn the skills and knowledge needed to have an immediate, positive impact on game development. Topics include: the process to refine ideas for game concepts, gameplay, and narrative; quality assurance of subjective elements including gameplay and art; design and art outsourcing pipelines; and feedback strategies and community management.
PREREQUISITE(S): GAM 230 or IS 372 or ECT 372.
GAM 230 or IS 372 or ECT 372 is a prerequisite for this class

GAM 333 | THE BUSINESS OF GAMES | 4 quarter hours
(Undergraduate)
This course gives an introduction to the business aspects of the game development industry, including development, publishing, distribution and marketing. Subjects covered include game development contracts, milestone-based development, management techniques, marketing, customer and community support, personnel, budgeting, outsourcing, pipelines, and external partnerships. PREREQUISITE(S): GAM 229.
GAM 229 is a prerequisite for this class.

GAM 340 | PRACTICAL SCRIPTING FOR GAMES | 4 quarter hours
(Undergraduate)
This workshop introduces game scripting to artists and game designers. A game script is a short list of commands that control something in a game, such as how a character moves, or an enemy’s behavior. Students will learn to read, modify, and author scripts that generate and affect a variety of game elements over the course of weekly projects.
GAM 245 or CSC 241 or CSC 242 or CSC 243 is a prerequisite for this class.

GAM 341 | INTRODUCTION TO LEVEL DESIGN | 4 quarter hours
(Undergraduate)
Level design is the art of creating believable environments, stages and missions for video games. This course explores topics including architecture, flow, pacing and puzzles. Using a 3D level editor, students will investigate technical design issues including the construction, texturing, lighting and scripting of modern game levels. The roles, duties and challenges of the level designer will also be discussed. PREREQUISITE(S): GAM 245.
GAM 245 is a prerequisite for this class.

GAM 342 | ADVANCED LEVEL DESIGN | 4 quarter hours
(Undergraduate)
This class builds on topics covered in earlier courses, with a focus on creating believable worlds for videogames. This course emphasizes designing large exterior environments, advanced mission scripting, and integrated storytelling. Using a 3D level editor and formal level design process, students create fun, polished, memorable virtual worlds. PREREQUISITE(S): GAM 341 or GAM 392.
GAM 341 or GAM 392 is a prerequisite for this class

GAM 350 | PHYSICS FOR GAME DEVELOPERS | 4 quarter hours
(Undergraduate)
The course concentrates on Newton's Laws of Motion, kinematics and kinetics. This theory will be applied to problems that a game programmer must understand e.g. collisions between objects, projectiles and their trajectories, real-time simulation of motion. Special objects such as cars, aircraft and ships will be discussed. Students will apply and implement laws of physics. PREREQUISITE(S): GAM 372 or (SE 350 and CSC 361) GAM 372 or (SE 350 and CSC 361) are prerequisites for this class.

GAM 351 | EXPRESSIVE AUDIO SCRIPTING IN GAMES | 4 quarter hours
(Undergraduate)
This workshop is for game designers, sound designers and programmers to learn how to creatively use audio in game engines. Students develop skills to effectively shape and manipulate game audio to achieve intended dramatic experiences. Topics include key terms and techniques, industry trends in game audio implementation, and how to advance the medium of games through audio. Students listen and critique each other’s work, learning to assess game audio in terms of narrative, aesthetics and quality.

GAM 353 | TOOL PROGRAMMING FOR GAME DEVELOPMENT | 4 quarter hours
(Undergraduate)
This course focuses on the parsing and conditioning of game related assets for real-time game engines. Topics include the content pipeline, processing or standard file formats using modern API, integration of external tools, run-time file format design, command line and graphical user interfaces. PREREQUISITE(S): GAM 372 or (SE 350 and CSC 361) GAM 372 or (SE 350 and CSC 361) are prerequisites for this class.

GAM 355 | SOLO GAME DEVELOPMENT PROJECT | 4 quarter hours
(Undergraduate)
Students independently create a complete short video game serving as its designer, programmer, and artist. The project is structured around a compressed development cycle that supports an appropriately scoped, polished game. From brainstorming an innovative concept to rapidly prototyping and iterating on gameplay, the course focuses on core gameplay loops and game feel. A survey of noteworthy games developed by single authors in short timeframes provides students with references to draw from. PREREQUISITE(S): GAM 340 and GAM 341.
GAM 340 and GAM 341 are prerequisites for this class

GAM 356 | MAKING DEEP GAMES | 4 quarter hours
(Undergraduate)
This workshop investigates the process of designing games about the human condition. It specifically focuses on the potential of games to tackle profound and abstract ideas (e.g. loyalty, dignity, courage and trust) by way of metaphor and analogy. Assignments will explore metaphorical games, games for persuasion and games for self-expression. Special emphasis is placed on the analysis of personal experiences and how they can be translated systematically into game designs that generate non-typical gameplay content. PREREQUISITE(S): GAM 226 or GAM 224.
GAM 226 or GAM 224 is a prerequisite for this course
GAM 365 | ADVANCED GAME DESIGN | 4 quarter hours  
(Undergraduate)  
This is a studio course in which students work in teams to design and develop slices of polished small-scale gameplay experiences. The focus is on developing team-based creative and technical processes to produce innovative, engaging, and playable games. Teams will iteratively design and develop two distinct gameplay experiences or "vertical slices." Each slice will demonstrate an understanding of the role of game mechanics, game art, audio, and technology platform in creating a cohesive and compelling gameplay. PREREQUISITE(S): (GAM 360 and GAM 341) or GAM 355.  
(GAM 340 and GAM 341) or GAM 355 is a prerequisite for this class.

GAM 368 | AUGMENTED REALITY GAME DESIGN AND DEVELOPMENT | 4 quarter hours  
(Undergraduate)  
In this workshop students cultivate the skills to design, program and develop augmented reality (AR) games. Students learn about the unique affordances and design opportunities inherent to the platform. Based on the studio model, each student adopts a role on the development team, such as programmer, designer, and artist, and each is responsible for contributing professional work consistently each week. Because the platform of AR games presents unique challenges to developers (players often feel disoriented or over-tasked) teams first create a dozen AR toys, and build up the most promising experiences into games. Class time consists of lectures, workshops, workdays, playtests, critiques, and class discussions. PREREQUISITE(S): GAM 245.  
GAM 245 is a prerequisite for this class.

GAM 369 | VIRTUAL REALITY GAME DEVELOPMENT | 4 quarter hours  
(Undergraduate)  
In this workshop students cultivate the skills to design, program, and develop VR (virtual reality) games. Students learn about the unique affordances and design opportunities inherent to the platform. Topics include the history of VR, VR art, as well as toy design and development. Students collaboratively develop cutting-edge VR toys and games using the studio model in which each student adopts a professional role on the team such as programmer, designer, and artist. Class time consists of lectures, workshops, workdays, playtests, critiques, and class discussions. PREREQUISITE(S): GAM 245.  
GAM 245 is a prerequisite for this class.

GAM 370 | RENDERING AND GRAPHICS PROGRAMMING | 4 quarter hours  
(Undergraduate)  
This programming class will present the rendering pipeline and basic shader creation. Students will create their own graphics package using a high-level graphics API such as Direct X. Topics covered include illumination techniques, Gouraud and Phong shading, antialiasing techniques, texture mapping, blending and environment mapping. PREREQUISITE(S): GAM 325 and CSC 361.  
GAM 325 and CSC 361

GAM 372 | OBJECT-ORIENTED GAME DEVELOPMENT | 4 quarter hours  
(Undergraduate)  
Students will learn principles and techniques needed to build robust and efficient large scale game software systems. Principles of object-oriented modeling, design, implementation, and testing of large-scale game systems will be emphasized. Topics include design patterns, application frameworks, architectural design, and the applications in the software development process to improve the extensibility, maintainability, and reliability of software systems. PREREQUISITE(S): CSC 361.  
CSC 361 is a prerequisite for this class.

GAM 374 | GAME ENGINE PROGRAMMING I | 4 quarter hours  
(Undergraduate)  
Students will develop a basic 3D game engine. The focus will be on the implementation challenges and interdependencies between systems such as asset management, rendering, simple collisions, input/output, alarms, etc. Emphasis will be placed on developing the skills needed for robust, efficient, and portable implementation. PREREQUISITE(S): GAM 372 and GAM 325.

GAM 372 and GAM 325 are prerequisites for this class.

GAM 376 | ARTIFICIAL INTELLIGENCE FOR COMPUTER GAMES | 4 quarter hours  
(Undergraduate)  
Artificial Intelligence (AI) is one of the essential components of a computer game. The course introduces basic concepts of AI. Emphasis will be placed on applications of AI in various genres of computer games. In the implementation component of this course students will be exposed to the existing AI game engines (middleware), which contain implemented AI algorithms that are ready to be applied into game code. These algorithms include: decision trees, pathfinding, neural networks, and script-driven game object behaviors. PREREQUISITE(S): GAM 372 or (SE 350 and CSC 361)  
GAM 372 or (SE 350 and CSC 361) are prerequisites for this class.

GAM 377 | GAME ENGINE PROGRAMMING II | 4 quarter hours  
(Undergraduate)  
This course is a continuation of GAM 374. Students develop more complex systems for their 3D game engines: improved collision systems, terrain generation, and particle systems. Other advanced engine services are discussed and students are expected to research and implement one such system: sounds management, lighting system, tiered/broad phase collision system, advanced camera manipulation, etc. PREREQUISITE(S): GAM 374.  
GAM 374 is a prerequisite for this class.

GAM 378 | STRATEGY GAMES PROGRAMMING | 4 quarter hours  
(Undergraduate)  
Turn-based and real-time strategy games. Abstract strategy games such as chess, backgammon, and bridge. Game themes and presentation of fantasy, historical and futuristic gaming scenarios. Ethically responsible content and social impact of different cultures, ethnicities, genders on the game play and game audience will be addressed. Game-player resource management. Implementation of strategy engines, 2D presentation and isometric projection. PREREQUISITE(S): GAM 376.  
GAM 376 is a prerequisite for this class.

GAM 380 | CONSOLE GAME DEVELOPMENT ENVIRONMENTS | 4 quarter hours  
(Undergraduate)  
Specialized computers for games with high-end graphics and sound capabilities and other specialized input and output devices form one of the largest game markets. In this advanced programming course students will gain hands-on experience writing and porting code for game consoles. PREREQUISITE(S): CSC 393 and CSC 374.  
CSC 393 and CSC 374 are prerequisites for this class.
GAM 382 | SERIOUS GAMES | 4 quarter hours
(Undergraduate)
Explores the role of computer games and simulations for education and training. Topics include: overview of the science of learning, analysis of games for different purposes and types of content, assessment of learning, and learning through game creation. Students will design, implement, and evaluate a serious game. Development of socially responsible and ethical behaviors will be a primary objective. PREREQUISITES(S): GAM 245.

GAM 245 is a prerequisite for this class.

GAM 383 | GAME STUDIO DEVELOPMENT | 4 quarter hours
(Undergraduate)
This course focuses on the development cycle in a large game studio with a focus on pushing out a game targeted towards a commercial platform. The game in question is an ongoing development taking place over a number of years. Students participate quarterly and a public build will be made available at the end of the school year. This class can be taken multiple times but does require permission from the instructor each time. Each student will have a particular role in the studio where they will focus on developing mastery to help build the game over the course of the quarter. Available design roles include: Level Design, Gameplay design, UI Design, Graphic Design, Character Animation, Blueprint Specialist, Balancing, Narrative and Dialog, Writing, Cinemas and cutscenes, Production. Getting into the class requires the student to show a portfolio or display some level of mastery in one of the available areas to participate. This is an experiential learning credit class.

GAM 386 | GAME PROGRAMMING FOR MOBILE DEVICES | 4 quarter hours
(Undergraduate)
In this course we introduce major mobile hardware platforms and their operating systems. Issues related to game design for handheld devices will be presented. The strong technical component of this course includes game programming for a handheld device with a wireless internet connection enabling multiplayer game architecture. Such concepts as: building a custom game library, multiplayer game programming, infrared, wireless and socket communication between devices will be discussed. PREREQUISITE(S): CSC 371.

CSC 371 is a prerequisite for this class.

GAM 391 | GAME PERFORMANCE OPTIMIZATION | 4 quarter hours
(Undergraduate)
This game programming class will focus on developing software to efficiently use the fixed CPU power and resources that are found in today’s console and mobile devices. This course will use real-world game examples that demonstrate performance and optimization issues that software architects face in game development. These problems include: performance enhancements through extended matrix instruction set, dynamic memory usages, performance related to increasing run-time systems to very large scale, C++ language enhancements and extensions, algorithms, streaming and profiling. PREREQUISITE(S): (CSC 301 or CSC 383 or CSC 393) and CSC 374.

GAM 392 | GAME MODIFICATION WORKSHOP | 4 quarter hours
(Undergraduate)
In this course, students will develop skills in game design and development through the construction of a "mod" of an existing game. Emphasis will be placed on the game development life cycle from concept through release, on productivity in a team environment, and on effective project management practices. PREREQUISITE(S): GAM 365 or GAM 372 or (ANI 344 and GAM 341)

GAM 365 or GAM 372 or (ANI 344 and GAM 341) are prerequisites for this class.

GAM 394 | GAME DEVELOPMENT PROJECT I | 4 quarter hours
(Undergraduate)
Students work in teams to design and develop a videogame that demonstrates their mastery of game design and development. Additionally, students will reflect on ethical decision making and professional ethics in the game industry. This course and its continuation, GAM 395, must be taken consecutively. PREREQUISITE(S): GAM 377 or GAM 392.

GAM 377 or GAM 392 is a prerequisite for this class.

GAM 395 | GAME DEVELOPMENT PROJECT II | 4 quarter hours
(Undergraduate)
Continuation of GAM 394. PREREQUISITE(S): GAM 394.

GAM 394 is a prerequisite for this class.

GAM 397 | TOPICS IN GAME DESIGN | 4 quarter hours
(Undergraduate)
Specific topics selected by the instructor. Topic varies with each offering. Contact instructor for more information. Prerequisite(s): See syllabus.

GAM 398 | TOPICS IN GAME PROGRAMMING | 1-4 quarter hours
(Undergraduate)
Specific topics will be selected by the instructor and will vary with each quarter. PREREQUISITE(S): See syllabus (variable credit)

GAM 399 | INDEPENDENT STUDY | 1-8 quarter hours
(Undergraduate)
Independent study supervised by an instructor. Independent study form required. Can be repeated for credit. Variable credit. PREREQUISITE(S): None (variable credit)

GAM 420 | CREATIVE COMPUTATION | 4 quarter hours
(Graduate)
Students are introduced to the affordances of computers and digital technology as a medium using foundational texts from the discipline of digital media while being introduced to programming. The course teaches students to discover how to effectively and creatively communicate their ideas using accessible coding environments and engines and challenges them to build playful, interactive applications.

GAM 424 | GAME DESIGN WORKSHOP | 4 quarter hours
(Graduate)
This course is an introduction to both the theory and practice of game design. Students will explore fundamental elements of game design and put these concepts to work in designing, prototyping, playtesting, and developing both physical and computer games. The course will cover formal elements of games, game dynamics, game narratives, and the dramatic components of games. Students will study the game design process including brainstorming, conceptualization, creation of design documentation, and play-testing. PREREQUISITE(S): none.

GAM 425 | APPLIED 3D GEOMETRY | 4 quarter hours
(Graduate)
Review of mathematical foundation and techniques needed for the development of 3D graphics and game systems. This class will provide the foundation in linear algebra and 3D geometry required for implementing common tasks in 3D graphics and game systems. Topics include: vectors, matrices, transforms, coordinate changes, projections, intersection, interpolation and random number generator. PREREQUISITE(S): CSC 403.

CSC 403 is a prerequisite for this class.
GAM 426 | GAME SOUND DESIGN 2 | 4 quarter hours (Graduate)
Students will further their knowledge of recording techniques for voiceover, sound effects, and music; editing voiceover and music; and mixing. The course will also introduce audio implementation using Unity. Coursework will utilize the recording studio extensively for in-class and out-of-class work. The course is intended for advanced students who wish to develop their skills and gain more experience in preparing and mixing sound designs for video games.

GAM 427 | SCORING FOR GAMES | 4 quarter hours (Graduate)
Students are introduced to elements of music and ways in which these elements may be used to create a musical style that enhances video games. The course emphasizes understanding the function of the score and how it relates to texture, color, and drama in music. Students explore their creativity using the tools available, work on projects of increasing complexity, and complete a score for their own video game as a final project. Listening skills, music vocabulary, and business and legal aspects of the profession are also studied. PREREQUISITE(S): GAM 426. GAM 426 is a prerequisite for this course.

GAM 428 | GAME SOUND DESIGN AND SCORING STUDIO | 4 quarter hours (Graduate)
This course is intended to provide practical experience in audio production for video games, as well as to offer the opportunity to create quality materials to include in a demo reel or portfolio. It will build on the background and skills acquired in Game Sound Design 2. Students will study the sound designs of different genres of video games, and then complete five projects in which they will be creating the sound designs for games of those genres. A key element of this course will be in-class discussions and critiques of students' work, both to sharpen their sound designing and critical listening skills.

GAM 430 | ART GAMES BOOTCAMP | 4 quarter hours (Graduate)
Students learn to appreciate and advance games as an artistic medium in this bootcamp by making work that is avant-garde in its formal aesthetics or sociopolitical force. Every two weeks students rapidly develop and complete an art game that challenges the conventional wisdom of what games are, how and why we play them, and the role they perform in popular culture.

GAM 440 | GAMES WITH A PURPOSE BOOTCAMP | 4 quarter hours (Graduate)
This game design bootcamp focuses on the rapid yet deliberate creation of short games with a purpose beyond entertainment. Every two weeks, students are expected to deliver a completed game project that addresses a real-life issue, has a clear statement of intent and uses they specific properties of games as a medium to achieve its declared purpose.

GAM 450 | PHYSICS FOR GAME DEVELOPERS | 4 quarter hours (Graduate)
The course concentrates on Newton's Laws of Motion, kinematics and kinetics. This theory will be applied to problems that a game programmer must understand e.g. collisions between objects, projectiles and their trajectories, real-time simulation of motion. Special objects such as cars, aircraft and ships will be discussed. Students will apply and implement laws of physics. PREREQUISITE(S): CSC 461 and (SE 456 or SE 450) CSC 461 and (SE 456 or SE 450) are prerequisites for this class.

GAM 451 | EXPRESSIVE AUDIO SCRIPTING FOR GAMES | 4 quarter hours (Graduate)
This workshop is for game designers, sound designers and programmers to learn how to creatively use audio in game engines. Students develop skills to effectively shape and manipulate game audio to achieve intended dramatic experiences. Topics include key terms and techniques, industry trends in game audio implementation, and how to advance the medium of games through audio. Students listen and critique each other's work, learning to assess game audio in terms of narrative, aesthetics and quality. PREREQUISITE(S): None.

GAM 453 | TOOL PROGRAMMING FOR GAME DEVELOPMENT | 4 quarter hours (Graduate)
This course focuses on the parsing and conditioning of game related assets for real-time game engines. Topics include the content pipeline, processing or standard file formats using modern API, integration of external tools, run-time file format design, command line and graphical user interfaces. Adaptive real-time modification of data structures in game using managed languages (such as C#) reflection will be explored. PREREQUISITE(S): CSC 461 and (SE 456 or SE 450) CSC 461 and (SE 456 or SE 450) are prerequisites for this class.

GAM 460 | RITUAL, MYTH AND GAMES | 4 quarter hours (Graduate)
This class focuses on the intersection of ritual, myth, and games, and how they can facilitate personal transformation through contemplation of the "existential givens": birth, death, freedom, isolation, identity and the "meaning of life". We will draw on philosophy, anthropology, sociology, spiritual practices, psychotherapy as well as game design, theatre / performance study and fabrication ("making") to develop an interdisciplinary, creative framework for the design of playful, myth-based, transformational experiences. Our focus is on non-digital and hybrid playspaces to take full advantage of the power of embodiment and physio-psychological immersion in ritual performance and the enactment of myth. PREREQUISITE(S): None.

GAM 470 | RENDERING AND GRAPHICS PROGRAMMING | 4 quarter hours (Graduate)
This programming class will present the rendering pipeline and basic shader creation. Students will create their own graphics package using a high-level graphics API such as Direct X. Performance issues will be considered as part of the API design. Topics covered include illumination techniques, Gouraud and Phong shading, antialiasing techniques, texture mapping, blending and environment mapping, reflection and hardware instancing. PREREQUISITE(S): GAM 425 and CSC 461. GAM 425 and CSC 461 are prerequisites for this class.

GAM 475 | GAME ENGINE PROGRAMMING I | 4 quarter hours (Graduate)
This course designs and implements a custom real-time game engine. Developing real-time graphics systems to transform and render scene graphs using polygon primitives and hardware buffers. Architecting critical performance related operating system components such as Memory, File, Object and Math Systems. Designing large scale software architecture using Design Patterns, layers and libraries into one large project. PREREQUISITE(S): CSC 461 and (SE 456 or SE 450) CSC 461 and (SE 456 or SE 450) are prerequisites for this class.
GAM 520 | GAME DESIGN PROSEMINAR | 4 quarter hours
(Graduate)
This seminar class introduces students to a broad range of historical and current topics in game studies. It aims to support creative practice by expanding the theoretical foundation established in Game Design Proseminar with additional, deep insight into disciplines that relate to games, play, players, learning, activism, and art. PREREQUISITE(S): GAM 420.

GAM 530 | GAMES STUDIES PROSEMINAR | 4 quarter hours
(Graduate)
This seminar class introduces students to a broad range of historical and current topics in game studies. PREREQUISITE(S): Proseminar with additional, deep insight into disciplines that relate by expanding the theoretical foundation established in Game Design and current topics in game studies. It aims to support creative practice within the history of the medium. PREREQUISITE(S): GAM 520 and (SE 456 or SE 450)

CSC 461 and (SE 456 or SE 450) are prerequisites for this class.

GAM 476 | ARTIFICIAL INTELLIGENCE FOR COMPUTER GAMES | 4 quarter hours
(Graduate)
Artificial Intelligence (AI) is one of the essential components of a computer game. The course introduces basic concepts of AI. Emphasis will be placed on applications of AI in various genres of computer games. In the implementation component of this course students will be exposed to the existing AI game engines (middleware), which contain implemented AI algorithms that are ready to be applied into game code. These algorithms include: decision trees, pathfinding, neural networks, and script-driven game object behaviors. PREREQUISITE(S): CSC 461 and (SE 456 or SE 450)

GAM 491 | GAME PERFORMANCE OPTIMIZATION | 4 quarter hours
(Graduate)
This game programming class will focus on developing software to efficiently use the fixed CPU power and resources that are found in today's console and mobile devices. This course will use real-world game examples that demonstrate performance and optimization issues that software architects face in game development. These problems include: performance enhancements through extended matrix instruction set, dynamic memory usages, performance related to increasing run-time systems to very large scale, C++ language enhancements and extensions, algorithms, streaming and profiling. PREREQUISITE(S): CSC 400 and CSC 403 and CSC 407.

GAM 499 | TOPICS IN COMPUTER GAME DESIGN AND DEVELOPMENT | 1-4 quarter hours
(Graduate)
Variable topics course in computer game design and development. May be repeated for credit. PREREQUISITE(S): Permission of instructor (variable credit)

GAM 520 | GAME DESIGN PROSEMINAR | 4 quarter hours
(Graduate)
In this foundational seminar course, students are exposed to significant written works that examine the medium of games in historical, cultural, and social contexts. Students analyze and interpret games in classroom discussions and written explorations that reveal the meaning and values of games as cultural artifacts. In doing so, they learn to situate their own critical practice within the history of the medium. PREREQUISITE(S): GAM 420.

GAM 530 | GAMES STUDIES PROSEMINAR | 4 quarter hours
(Graduate)
This seminar class introduces students to a broad range of historical and current topics in game studies. It aims to support creative practice by expanding the theoretical foundation established in Game Design Proseminar with additional, deep insight into disciplines that relate to games, play, players, learning, activism, and art. PREREQUISITE(S): GAM 520.

GAM 540 | GAME DEVELOPMENT PRACTICUM | 4 quarter hours
(Graduate)
This course introduces the creation of a term-long project in teams. In contrast to studio classes where students can work alone or with others and decide what games they want to create, the practicum requires students to make games about a specific topic or theme proposed by faculty. This can include a requirement of working with a client, involving subject matter experts in the design process, developing a site-specific art game installation, or working with a novel platform such as a wearable device.

GAM 550 | INCUBATION STUDIO | 4 quarter hours
(Graduate)
Students situate their creative practice within historical, aesthetic, and social contexts. This includes an introspective analysis of why they want to design games. Students identify potential research areas or creative catalysts for their thesis projects, conducting research, critiquing and analyzing relevant work, technologies, and reference materials. The final course assignment is a thesis proposal outlining their project plans for Thesis Studio, which each student must get approved by their advisor before entering Thesis Studio. PREREQUISITE(S): GAM 530 and GAM 540.

GAM 575 | GAME ENGINE PROGRAMMING II | 4 quarter hours
(Graduate)
This class continues to explore C/C++ game engine programming. This course focuses on 3D keyframe animation systems and 3D model asset conversion. Topics include design of an extensive Math library including Quaternion interpolation, view volume determination, exporting and conditioning of parent relative keyframe animation data, and run-time animation engine. Finally implementation of run-time data formats for vertex buffer objects will be developed for efficient rendering. PREREQUISITE(S): GAM 475.

GAM 575 is a prerequisite for this class.

GAM 576 | GAME ENGINE PROGRAMMING III | 4 quarter hours
(Graduate)
This class continues to explore C/C++ game engine programming. This class focuses on advanced game engine issues such as tool development (skin data reduction, adaptive animation compression, model conversion), runtime coordination on CPU (scene graph, animation coordination, resource management) and GPU processing (vertex skinning, animation blending and model rendering). PREREQUISITE(S): GAM 575.

GAM 575 is a prerequisite for this class.

GAM 594 | GAMING AND ENTERTAINMENT TECHNOLOGY CAPSTONE | 4 quarter hours
(Graduate)
This course gives students an opportunity to utilize knowledge obtained in this degree program in developing a computer game, from conceptualization, design, to implementation. Issues in project management and configuration management will also be addressed. This work will constitute a major part of the project portfolio that students have developed during their study. PREREQUISITE(S): Completion Of Foundation Courses.

GAM 597 | TOPICS IN GAME DESIGN | 4 quarter hours
(Graduate)
Specific topics selected by the instructor. Topic varies with each offering. Contact instructor for more information. PREREQUISITE(S): See syllabus.
The course explores the evolution of urban forms and structures in the United States from the perspective of geography. In addition to studying the historic emergence of the American urban system, the course covers processes and phenomena associated with the spatial organization of housing, transportation, commercial and industrial land-use planning, as well as urban poverty, local governance, and issues of race, gender and sexuality.
GEO 204 | RELIGIOUS GEOGRAPHY | 4 quarter hours  
(Undergraduate)
Religion and geography are fundamentally intertwined. From the establishment of theocratic states that control territory, to the sprawl of US suburbia that has led to megachurches, the role of religion in shaping the earth’s cultural landscape is undeniable. Religious beliefs shape geographies - there are places that, through faith, become sacred; elsewhere religious individuals and groups struggle to claim places in the name of their beliefs. This course will examine case studies from around the world to explore the intersection of geography and religion.

GEO 205 | RACE, JUSTICE, AND THE URBAN ENVIRONMENT | 4 quarter hours  
(Undergraduate)
A theoretical and applied investigation of the social, political, and economic processes influencing the spatial distribution of environmental amenities and harms across the U.S. urban landscape, with particular focus on urban structure and the role of environmental justice struggles in shaping urban policy and the urban landscape.

GEO 206 | BOUNDARIES AND IDENTITIES | 4 quarter hours  
(Undergraduate)
A critical survey of the manner in which social, political, ethnic, gender and racial identities are being constructed by modernity and post-modernity. Cross-listed as INT 206 and PAX 206. Recommended for GEO majors when taught by Professor Nast.

GEO 210 | ENVIRONMENTAL CONSERVATION | 4 quarter hours  
(Undergraduate)
This course explores society-environment relations in case studies drawn from around the world. The course focuses on forces destructive to habitat and biospheres, species loss, global warming, and the tension between “modernization” and environmental sustainability.

GEO 211 | BIOGEOGRAPHY | 4 quarter hours  
(Undergraduate)
Biogeography is the study of the distribution of plants and animals on the earth’s surface, and the historical and ecological factors and human activities responsible. It asks questions such as: Why were placental mammals absent from (pre-European) Australia, while marsupials were abundant? How are current plant species’ distributions different from those of the past, and what implications does this have for their ability to respond to global changes? Why have islands sustained so many extinctions compared to mainland? Why are there so many insect species in the tropics and so few at high latitudes? How are humans changing the distribution and abundances of plant and animals? This course explores these and other such questions. The goal is to understand biodiversity patterns and processes across earth, and how this knowledge can help maintain biological communities in human-dominated, 21st century landscapes.

GEO 215 | INTERNATIONAL DEVELOPMENT AND REGIONAL INEQUALITY | 4 quarter hours  
(Undergraduate)
This course charts the economic transformation in the Third World / Global South. The first third of the course examines theories of development and underdevelopment before moving on to a critique of the concept of development as a modernist paradigm using a postcolonial framework. The rest of the course examines the restructuring of the agricultural, manufacturing and service sectors, including the financial sector, in non-Western countries.

GEO 218 | SPAIN AND PORTUGAL | 4 quarter hours  
(Undergraduate)
A geographical exploration of Spain and Portugal’s history, culture, politics and society. This course focuses on critical periods, events, and socio-political forces that substantially influenced these countries and demonstrate their role as one of Europe’s key links to Latin America and Africa.

GEO 219 | WOMEN AND SCIENCE | 4 quarter hours  
(Undergraduate)
In this course, we will examine the evolving relationship between women and science. There are growing opportunities for and representation of women in scientific fields in many parts of the world, but there are historical contexts that should be considered and remaining challenges that are being addressed. We will begin the course with a review of the scientific method—what is this process and what about it has enabled it to attain legitimacy as a way of knowing the world? We will also learn about female scientists in the fields of environmental geography and ecology who have broken gender norms and boundaries and made notable scientific contributions. Students will learn through several case studies of both well-known scientists as well as those who are less widely recognized. Finally, we will examine aspects of science and culture that have impacted women’s participation and achievements.

GEO 220 | OCEANOGRAPHY | 4 quarter hours  
(Undergraduate)
Develops the concepts of physical oceanography. Topics include the chemical and physical properties of seawater, the dynamics of ocean currents and circulations, the physics of water waves and tides, the interaction of the ocean with the atmosphere, the formation of coastlines, and the effects of pollution on the ocean. Cross-listed with PHY 220.

GEO 225 | EARTH’S CHANGING CLIMATE | 4 quarter hours  
(Undergraduate)
The dynamic atmospheric processes which control day-to-day weather and the longer term processes which determine prevailing climatic conditions are the two principal foci of this course. Special topics include weather systems, climate change, global warming, and human impacts on climate. Cross-listed with PHY 225.

GEO 231 | HISTORICAL GEOGRAPHY OF CHICAGO | 4 quarter hours  
(Undergraduate)
An exploration of Chicago’s urban geography, focusing in detail on topics such as historical geography, industrial development, community development, built environment (i.e., housing/architecture), transportation and neighborhood change. Cross-listed with HST 240 and AMS 240.

GEO 233 | COMPARATIVE URBANISM | 4 quarter hours  
(Undergraduate)
An exploration of non-U.S. urban and planning traditions, through the urban morphological and comparative study of the foundation, and social-political forces that shaped cities such as Paris, St. Petersburg, Istanbul, Bombay-Mumbai, Hong Kong, and Mexico City.
GEO 240 | HISTORY OF CARTOGRAPHY | 4 quarter hours  
(Undergraduate)  
The course explores the history of mapmaking as a dimension and expression of the intellectual, scientific, technological, and political transformation of society. Focusing primarily on Europe and North America, the course covers the prevailing schools of thought and practitioners, and the structures and forces that shaped them. The course includes hands-on study of archival quality maps in DePaul’s Special Collections and other regional institutions. Short field trip to the Newberry Library required.

GEO 242 | GEOGRAPHIC INFORMATION SYSTEMS II: COMMUNITY GIS | 4 quarter hours  
(Undergraduate)  
An intermediate–level course focusing on applications of GIS for community development. Students conduct real-world GIS projects for community organizations in Chicagoland. Students will learn to design and create geographic information products that meet community partners’ needs through the process of proposing, defining, and implementing GIS projects in collaboration with community partners. The course teaches an intermediate-level GIS skills, including address geocoding, spatial join, proximity analysis, and density mapping. Instruction is accomplished through lectures and hands-on exercises using ArcGIS.

GEO 141 or PSC 201 is a prerequisite for this class.

GEO 243 | REMOTE SENSING | 4 quarter hours  
(Undergraduate)  
An introduction to the fundamentals of remote sensing, the analysis of the earth through air or space borne sensors. Special topics include image interpretation, image processing, urban change analysis, environmental monitoring, and photogrammetry. Instruction is accomplished through lectures and hands-on lab exercises using ArcGIS Desktop. A comprehensive final project using techniques learned from your work completes the course.

GEO 141 (or PSC 201 or instructor permission) is a prerequisite for this course.

GEO 260 | GLOBALIZATION AND RESOURCES | 4 quarter hours  
(Undergraduate)  
An exploration of globalization and the politics and flow of natural resources between the developed and developing world, especially since World War II. Using case studies from around the world, the course introduces students to competing paradigms of environmental and resource destruction and to the complexities and contingencies of social and environmental change in the “new” global economy.

GEO 266 | WORLD ECONOMY: STATES, MARKETS AND LABOR | 4 quarter hours  
(Undergraduate)  
This course introduces students to competing economic and political frameworks that analyze the interaction of states, markets and societies. The overall theme of the course is the spread of capitalism and the tandem disembedding of economic relations from social relations beginning with the Industrial Revolution in the 18th century through to the early 21st century .

GEO 269 | CULTURAL AND POLITICAL ECOLOGY | 4 quarter hours  
(Undergraduate)  
The course introduces students to the theoretical foundations and evolution of critical Political Ecology and its assessment of environmental change and social vulnerability in the developing world. The course traces the history of the discipline to its early roots in geography, anthropology, and ecology and tracks its emergence as a theoretically sophisticated critique of the global spread of economic development and environmental policy.

GEO 299 | KNOWLEDGE, PLACE AND POWER | 4 quarter hours  
(Undergraduate)  
An exploration of the social construction of knowledge through the historic evolution of geographic thought. This class interrogates geography’s role in how space and place have been created to support existing hierarchies, and how geographic thought has evolved to contest these hierarchies. Students will engage with a variety of intellectual frameworks such as positivism, Marxism, feminism, postcolonial theory, and poststructuralism, among others.

GEO 300 | GEOGRAPHICAL INQUIRY | 4 quarter hours  
(Undergraduate)  
An in depth exploration of modern debates within geography. Students prepare their own geographic research project and participate at a regional conference.

GEO 301 | ECONOMIC INEQUALITY AND POLITICAL TRAUMA | 4 quarter hours  
(Undergraduate)  
The term trauma has been deployed in many parts of the world in the context of the rise of populist movements as voting blocs, without constructing a coherent conceptual framework for understanding how the concept of trauma explains political phenomena such as electoral outcomes. This course provides a framework for understanding how historical legacies, economic inequality and contemporary political contexts are linked.

GEO 310 | GREEN INFRASTRUCTURE | 4 quarter hours  
(Undergraduate)  
Green Infrastructure (GI) goes beyond the conventional conservation efforts of creating and maintaining national and state parks and wildlife refuges. Instead, GI promotes conservation that takes place at different spatial scales to create a network of open spaces out of existing open spaces and green corridors as well as offering strategies for constructing green spaces out of abandoned urban spaces.

GEO 315 | THE STATE AND ECONOMIC GROWTH | 4 quarter hours  
(Undergraduate)  
This course focuses on the role of the state in economic growth. The first half of the course studies the historical background, theory and criticism of the role of the state, including the developmental state, in economic growth. The second half examines paired case studies from different East Asian countries in the key moments of the incorporation of those states and their societies into the globalized economy compared to the recent rebalancing exercises that those countries have undertaken. Student projects are NOT restricted to East Asia.

GEO 316 | THE EUROPEAN UNION | 4 quarter hours  
(Undergraduate)  
An integration of political geographic and international relations perspectives on European integration: Special emphases on political philosophies and theories of integration, the geopolitics of block formation and enlargement, institutional structure, the evolution of policies, and the future directions of the European Union. Cross-listed with PSC 340 and IRE 106.
The course introduces transportation geography and explores the characteristics of sustainable transportation systems. From electric vehicles to new services like car and bike sharing, the course examines the role that transportation plays in environmental, social, and economic sustainability. Students will learn about current issues in urban transportation (both passenger and freight), and receive an introduction to tools and techniques used by transportation planners, e.g., Geographic Information Systems (GIS). Formerly GEO 230.

GEO 333 | URBAN PLANNING | 4 quarter hours
(Undergraduate)
A seminar on the intellectual history and theories of urban planning and design, and their application in urban settings in the U.S. and abroad. Systematic study of case studies leads to the investigation of current urban planning issues in Chicago.

GEO 334 | URBAN/CITY DESIGN | 4 quarter hours
(Undergraduate)
The course introduces the study of city/urban design, one of the building professions, which include architecture, landscape architecture, sculpture, and land design, from a distinctly geographic perspective. It addresses the evolution of concepts, ideas, and practices of the urban design profession through case studies, and discusses design impacts on the quality of urban life, and the city’s legibility, access, and equity. This, primarily, studio/skills-based course introduces students to key techniques shared by the building professions: figure-ground, perspective drawing, urban sketching, georeferencing, rephotography, site analysis, 3D object design and printing, and physical model-building.

GEO 335 | GEODESIGN | 4 quarter hours
(Undergraduate)
The course builds on Geography’s considerable geotechnology curriculum (GIS and remote sensing) to deliver a survey of emerging theories of, and evolving practices in Geodesign. Described as a platform for organizing project conceptualization and decision-making, site analysis, design requirements, stakeholder participation and collaboration, design modeling, simulation, realization, and evaluation, Geodesign is a new, strategic, interdisciplinary field of professional practice with critical applications for engineering-intensive urban and regional planning projects. Project planning and decision-making require the consideration of a broad range of information, concepts, and tools that entangle earth and human system inputs. Geodesign integrates data analytical needs of building professions (architecture, landscape architecture, urban design, and land design), regulatory fields (urban and environmental planning), environmental sciences, and engineering into a decision-making and plan realization platform that is built with special consideration to a project’s geospatial structure.

GEO 339 | TOPICS IN ARCHITECTURE AND URBANISM | 4 quarter hours
(Undergraduate)
Cities are changing dramatically as a result of the accelerated circulation of finance capital worldwide, the emergence of new information and data visualization technologies, the expansion of credit, the ceaseless retrenchment of population groups inside and around cities, and the emergence of new architectural and planning paradigms. The course explores and researches aspects of these transformative processes and their impacts on race, class, economic prosperity, and the contingencies of quality of urban life. A significant research and writing project is required in this specialist high-level course.

GEO 340 | PLACES, HUMANITIES AND GEOGRAPHIC INFORMATION SYSTEMS | 4 quarter hours
(Undergraduate)
The course examines applications of GIS to digital humanities. The course focuses on techniques for processing geospatial data and making maps from sources related to humanities subject using a popular open source GIS software, QGIS. The course examines digital humanities projects that use GIS, and ways to deal with challenges to work with humanities data in addition to fundamentals of GIS. Students will learn techniques for map design, image georeferencing, mapping texts, mapping changes, and mapping qualitative data. The class is largely conducted through lectures and hands-on activities in a GIS laboratory.

GEO 343 | REMOTE SENSING II | 4 quarter hours
(Undergraduate)
This course presents intermediate to advanced techniques in remote sensing, analysis of the earth through air or space borne sensors. Remote Sensing II provides 2nd level depth to some of the more advanced techniques of remote sensing and image interpretation. There is a special focus on urban/environmental applications of remote sensing, i.e. the detection, delineation, identification, and quantification of processes occurring in and around cities which affect the environment. Remote sensing technologies have, to an increasing extent, become integrated and deployed through geographic information systems (GIS) technology. Students learn to integrate techniques from this course to produce information products that are useful in the support of public and private decision-making. Techniques covered include advanced classification, georeferencing, LIDAR, and hyperspectral data analysis. The course will be taught through integrated hands-on activities, lectures and a comprehensive final project.

GEO 344 | GEOGRAPHIC INFORMATION SYSTEMS III: SPATIAL ANALYSIS FOR SUSTAINABILITY | 4 quarter hours
(Undergraduate)
An advanced-level course. Students conduct spatial analysis into sustainability issues of their interest. Students will learn techniques for suitability analysis, point pattern analysis, network analysis, and spatial interpolation with GIS. Instruction is accomplished through lectures and hands-on computer lab exercises using ArcGIS.

GEO 243 is a prerequisite for this course.

GEO 345 | PROGRAMMING IN PYTHON FOR GIS | 4 quarter hours
(Undergraduate)
Knowledge of a scripting language is a valuable skill for GIS analysts. Students will learn the basics of Python (a programming language), including script writing and implementation. By completing this course, students should be able to manipulate GIS data, automate GIS workflows, and develop customized GIS tools by writing script in Python in ArcGIS. The class is largely conducted through hands-on activities in a GIS laboratory.

GEO 141 or PSC 201 is a prerequisite for this class.

GEO 346 | GIS ANALYSIS OF ENVIRONMENTAL AND PUBLIC HEALTH | 4 quarter hours
(Undergraduate)
Spatial data visualization and GIS applications are increasingly at the forefront of health data analysis. This course will examine health data using GIS and topics will be drawn from GIS applications that explore epidemiology, local and global health inequalities, and the role of GIS in public health, using data visualization, network and site analysis, and applied GIS research techniques. Cross-listed with GEO 446.

GEO 141 or PSC 201 is a prerequisite for this class.
GEO 347 | WEB GIS AND SPATIAL DATA VISUALIZATION ON THE WEB | 4 quarter hours
(Undergraduate)
This project-oriented course will enable students to independently develop Web-based Geographic Information Systems (GIS) applications. The course introduces current developments in Web GIS technologies, their applications, and advanced cartography skills. Students will learn how to use Web GIS mapping tools and how to publish web-enabled interactive maps using commercial internet map servers (e.g., ArcGIS Online or ArcGIS for Server) and other cloud-based technologies. Students will be introduced to Application Programming Interfaces (e.g., JavaScript API) and open source tools, and will develop customized Web GIS applications such as spatial data models. Cross-listed with GEO 447.

GEO 141 or PSC 201 is a prerequisite for this class.

GEO 348 | SPATIAL DATA SCIENCE | 4 quarter hours
(Undergraduate)
Data that carry location markers have become prevalent. Examples include demographic data from census, crime incidents through open government, location traces from smartphones, imagery from satellite, and pollution data from sensors. There will be more needs for spatially integrating and analyzing data to make better sense of data and make connection among data in the midst of data avalanche. The course examines fundamental concepts and methods for spatial data science through a series of activities for acquiring/creating spatial data from multiple sources; exploring/visualizing spatial data; cleaning/wrangling spatial data and analyzing spatial data. Topics include web scraping, geocoding, exploratory spatial data analysis, query, spatial data quality, regionalization, and hot spot detection. The course focuses on creating reproducible workflow for spatial data science projects using relevant Python libraries. Although no prior coding experience is assumed, some knowledge of Python would be helpful.

(GEO 141 or PSC 201 or CSC 242) is a prerequisite for this class.

GEO 350 | WORLD OF WINE | 4 quarter hours
(Undergraduate)
An analysis of the geographical factors that influence the global production and distribution of wine. Students must be 21 years of age or older.

GEO 351 | GEOGRAPHY, FOOD AND JUSTICE | 4 quarter hours
(Undergraduate)
While the need for food is universal, geographies of food production, distribution and consumption are anything but even. This leads to multiple issues of food injustice at a variety of scales. This course critically examines the contemporary global food system with the goal of providing students with skills and knowledge to engage in food justice activism. Students study the development of food systems and how inequalities have emerged in production, distribution and consumption. The course then explores food justice movements including the emergence of alternative food networks in the U.S and internationally. Assignments may engage students in local food projects and/or advocacy campaigns.

GEO 369 | RISKS, HAZARDS AND NATURAL DISASTERS | 4 quarter hours
(Undergraduate)
This course is about the interaction of humans with extreme natural and anthropogenic events like storms, earthquakes and climate change. We will examine how people become vulnerable to such events, how they cope - or fail to cope - and what they do when existing adjustments are unsuccessful. You will learn how disasters are the product of multiple and interacting forces; biophysical processes are only part of the equation. We will explore how livelihoods, places and institutions come together to create hazardous situations and disastrous outcomes. We will look at trends in hazards and losses, and the distribution of vulnerability and hazard impacts within and across populations and places. For a variety of global environmental and social reasons, losses from hazards and disasters are projected to increase at increasing rates into the foreseeable future. Hazards and the disasters they generate, thus, are inherently engaging subjects. They also depend on a multidisciplinary approach for their investigation and mitigation, bringing in the insights of natural scientists, social scientists, engineers, planners, emergency managers, first responders, and others. Geography is a very active discipline in the investigation of hazards, with its physical science, social science, and mapping traditions, as well as its ability to integrate these very different conceptual approaches with practical applications at all stages of the disaster cycle.

GEO 391 | STATISTICAL DATA ANALYSIS FOR GIS | 4 quarter hours
(Undergraduate)
This course examines statistical concepts and techniques that are applied to geographic problems. Topics include descriptive statistics and inferential statistics geared toward working with geographic data in GIS. Students will learn techniques for summarizing variables, testing difference of means, spatial autocorrelation, hot spot analysis, and correlation analysis through lectures and hands-on exercises using SPSS and ArcGIS.

GEO 141 or PSC 201 is a prerequisite for this class.

GEO 395 | SEMINAR IN SELECTED TOPICS | 4-8 quarter hours
(Undergraduate)
Upper-division seminar exploring selected geographical issues.

GEO 398 | INTERNSHIP | 1-6 quarter hours
(Undergraduate)
The course combines academic study with practical experience obtained through work in an extramural internship setting. The internship course requires academic output in the form of a research journal, paper, or other project.

GEO 399 | INDEPENDENT STUDY | 1-4 quarter hours
(Undergraduate)
Intensive study of a topic of special interest. Private conferences with instructor of supervised reading and research. Variable credit. Junior or Senior standing and department consent are a prerequisite for this class.

GEO 430 | SUSTAINABLE URBAN TRANSPORTATION | 4 quarter hours
(Graduate)
The course introduces transportation geography and explores the characteristics of sustainable transportation systems. From electric vehicles to new services like car and bike sharing, the course examines the role that transportation plays in environmental, social, and economic sustainability. Students will learn about current issues in urban transportation (both passenger and freight), and receive an introduction to tools and techniques used by transportation planners, e.g., Geographic Information Systems (GIS).
GEO 433 | URBAN PLANNING | 4 quarter hours
(Graduate)
A seminar on the intellectual history and theories of urban planning and design, and their application in urban settings in the U.S. and abroad. Systematic study of case studies leads to the investigation of current urban planning issues in Chicago.

GEO 440 | PLACES, HUMANITIES AND GEOGRAPHIC INFORMATION SYSTEMS | 4 quarter hours
(Graduate)
This course explores the issues raised by digital humanities in art history through a specific focus on the digital mapping of art historical questions. Students will focus on advanced discussions of digital mapping but also apply these theoretical and methodological concerns to art historical problems. Students will learn techniques of map design, mapping texts, mapping changes, and mapping qualitative humanities data as they develop their own historical project.

GEO 441 | GEOGRAPHIC INFORMATION SYSTEMS (GIS) FOR COMMUNITY DEVELOPMENT | 4 quarter hours
(Graduate)
This course will focus on applications of Geographic Information Systems (GIS) to community studies and community development. As an amalgam of information technologies (e.g. database management, Web 2.0) and earth measurement technologies (e.g. global positioning systems, remote sensing), GIS is rapidly entering the realm of community development. The course will explain how GIS works; enable students to learn techniques including mapping, spatial analysis, and data management; and provide students with the opportunity to apply GIS to community development. Cross-listed with MPS 552.

GEO 442 | GEOGRAPHICAL INFORMATION SYSTEMS (GIS) FOR SUSTAINABLE URBAN DEVELOPMENT | 4 quarter hours
(Graduate)
This course will examine how GIS has been used to monitor, and evaluate efforts advancing sustainability in urban areas. Students will learn geospatial techniques in support of sustainable practices, including promoting energy efficiency, managing water resources, promoting sustainable options of transportation, improving access to local healthy foods, and responding to climate change. This is accomplished through hands-on lab activities and a case study conducted in collaboration with a non-profit organization engaged in promotion of sustainable practices in Chicago.

GEO 441 or MPS 552 or instructor permission is a prerequisite for this course.

GEO 445 | PROGRAMMING IN PYTHON FOR GIS | 4 quarter hours
(Graduate)
Knowledge of a scripting language is a valuable skill for GIS analysts. Students will learn the basics of Python (a programming language), including script writing and implementation. By completing this course, students should be able to manipulate GIS data, automate GIS workflows, and develop customized GIS tools by writing script in Python in ArcGIS. The class is largely conducted through hands-on activities in a GIS laboratory. Cross-listed with GEO 345.

GEO 441 or MPS 552 or instructor permission is a prerequisite for this course.

GEO 446 | GIS ANALYSIS OF ENVIRONMENTAL AND PUBLIC HEALTH | 4 quarter hours
(Graduate)
Spatial data visualization and GIS applications are increasingly at the forefront of health data analysis. This course will examine health data using GIS and topics will be drawn from GIS applications that explore epidemiology, local and global health inequalities, and the role of GIS in public health, using data visualization, network and site analysis, and applied GIS research techniques.

GEO 441 or MPS 552 or instructor permission is a prerequisite for this course.

GEO 447 | WEB GIS AND SPATIAL DATA VISUALIZATION ON THE WEB | 4 quarter hours
(Graduate)
This project-oriented course will enable students to independently develop Web-based Geographic Information Systems (GIS) applications. The course introduces current developments in Web GIS technologies, their applications, and advanced cartography skills. Students will learn how to use Web GIS mapping tools and how to publish web-enabled interactive maps using commercial internet map servers (e.g., ArcGIS Online or ArcGIS for Server) and other cloud-based technologies. Students will be introduced to Application Programming Interfaces (e.g., JavaScript API) and open source tools, and will develop customized Web GIS applications such as spatial data models. Cross-listed with GEO 347.

GEO 441 or MPS 552 or instructor permission is a prerequisite for this course.

GEO 448 | SPATIAL DATA SCIENCE | 4 quarter hours
(Graduate)
Data that carry location markers have become prevalent. Examples include demographic data from census, crime incidents through open government, location traces from smartphones, imagery from satellite, and pollution data from sensors. There will be more needs for spatially integrating and analyzing data to make better sense of data and make connection among data in the midst of data avalanche. The course examines fundamental concepts and methods for spatial data science through a series of activities for acquiring/creating spatial data from multiple sources; exploring/visualizing spatial data; cleaning/wrangling spatial data and analyzing spatial data. Topics include web scraping, geocoding, exploratory spatial data analysis, query, spatial data quality, regionalization, and hot spot detection. The course focuses on creating reproducible workflow for spatial data science projects using relevant Python libraries. Although no prior coding experience is assumed, some knowledge of Python would be helpful.

(GEO 441 or MPS 552 or CSC 401) are prerequisites for this course.
GER 101 | BASIC GERMAN I | 4 quarter hours
(Undergraduate)
GER 101 is the first quarter of the first-year college German sequence. It introduces the students to the study of language and culture of German speaking countries. The course focuses on the development of all four critical language skills—listening, reading, writing and speaking—while also introducing aspects of German-speaking societies that differ from American society. In-class work will be devoted primarily to communication activities, so that students will be able to utilize the structures and vocabulary you learn to express themselves meaningfully and to function in a German-speaking setting. To maximize each student’s engagement with the language, students will be talking and listening to each other as much as to the instructor. At the end of the three-course sequence, students will be in command of the basic elements of German language and culture, and should be able to function with relative ease in German-speaking countries. Students will be able to comprehend and engage in basic conversations, write clearly and effectively in German, and read simple but genuine texts.

GER 102 | BASIC GERMAN II | 4 quarter hours
(Undergraduate)
GER 102 is the second quarter of the first-year college German sequence. It continues to introduce the students to the study of language and culture of German speaking countries. The course focuses on the development of all four critical language skills—listening, reading, writing and speaking—while also introducing aspects of German-speaking societies that differ from American society. In-class work will be devoted primarily to communication activities, so that students will be able to utilize the structures and vocabulary to express themselves meaningfully and to function in a German-speaking setting. To maximize each student’s engagement with the language, students will be talking and listening to each other as much as to the instructor. At the end of the three-course sequence, students will be in command of the basic elements of German language and culture, and should be able to function with relative ease in German-speaking countries. Students will be able to comprehend and engage in basic conversations, write clearly and effectively in German, and read simple but genuine texts.

GER 103 | BASIC GERMAN III | 4 quarter hours
(Undergraduate)
GER 103 is the third quarter of the first-year college German sequence. It continues to introduce the students to the study of language and culture of German speaking countries. The course focuses on the development of all four critical language skills—listening, reading, writing and speaking—while also introducing aspects of German-speaking societies that differ from American society. In-class work will be devoted primarily to communication activities, so that students will be able to utilize the structures and vocabulary to express themselves meaningfully and to function in a German-speaking setting. To maximize each student’s engagement with the language, students will be talking and listening to each other as much as to the instructor. At the end of the three-course sequence, students will be in command of the basic elements of German language and culture, and should be able to function with relative ease in German-speaking countries. Students will be able to comprehend and engage in basic conversations, write clearly and effectively in German, and read simple but genuine texts.
GER 104 | INTERMEDIATE GERMAN I | 4 quarter hours  
(Undergraduate)
This course is the first quarter of second-year college German, and emphasizes language as communication in real-life situations and as a means to immerse ourselves in the cultures of German-speaking countries. Though students will review and perfect their knowledge of German grammar throughout the year, they will focus on the perfection of the four language skills reading, writing, listening and speaking. Students will have ample opportunities to express themselves in German, acquire basic discussion strategies, and gain insight into many aspects of the contemporary cultures and societies of German-speaking countries. GER 103 or equivalent, including placement test or permission of instructor, is recommended.

GER 105 | INTERMEDIATE GERMAN II | 4 quarter hours  
(Undergraduate)
This course is the second quarter of second-year college German, and emphasizes language as communication in real-life situations and as a means to immerse ourselves in the cultures of German-speaking countries. Though students will review and perfect their knowledge of German grammar throughout the year, they will focus on the perfection of the four language skills reading, writing, listening and speaking. Students will have ample opportunities to express themselves in German, acquire basic discussion strategies, and gain insight into many aspects of the contemporary cultures and societies of German-speaking countries. GER 104 or equivalent, including placement test or permission of instructor, is recommended.

GER 106 | INTERMEDIATE GERMAN III | 4 quarter hours  
(Undergraduate)
This video-based course is designed to develop and expand skills in German and explore ideas, cultural topics and themes from the German-speaking world. Course activities will include: learning from authentic video clips and films; visiting (in textbook and video) various cities and regions in the German-speaking world, exploring the variety and the similarities; practicing skills in German by discussing cultural issues and authentic readings; interpreting graphics and charts on topics of German culture; structured listening and writing practice; reading literary and nonliterary texts of increasing difficulty; summarizing verbally and in writing what is read, heard, and learned; writing compositions and short texts of various types; researching a topic; preparing and presenting results to the class (oral and written). GER 105 or equivalent, including placement test or permission of instructor, is recommended.

GER 130 | MOLILSAP STUDY ABROAD | 2 quarter hours  
(Undergraduate)
This course is specially designed to complement the Modern Language Introductory Languages Study Abroad programs, linked to the third quarter of the first year language program. The course will be taught abroad.

GER 197 | SPECIAL TOPICS IN GERMAN | 4 quarter hours  
(Undergraduate)
See schedule for current offerings.

GER 198 | STUDY ABROAD | 1-8 quarter hours  
(Undergraduate)
Variable credit.

GER 199 | INDEPENDENT STUDY | 0.5-4 quarter hour  
(Undergraduate)
Variable credit.

GER 201 | ADVANCED GERMAN I: COMING TO TERMS WITH THE PAST | 4 quarter hours  
(Undergraduate)
The third year of German focuses on four primary linguistic skills: comprehension, reading, writing and speaking. Development in each of these areas is achieved through the introduction, consideration, and analysis of longer German stories, increasingly complex discussions of said texts, and the review, and hopefully ultimate mastery, of various vocabularies and advanced-level grammar. Ample time will be devoted to speaking and developing oral proficiency in class as well. GER 106 or equivalent, including placement test or permission of instructor, is recommended.

GER 202 | ADVANCED GERMAN II: READING THE FOREIGN/FOREIGN READING | 4 quarter hours  
(Undergraduate)
The third year of German continues strengthening four primary linguistic skills: comprehension, reading, writing and speaking. The main goal is to achieve oral proficiency. Ample time will be devoted to speaking and developing oral proficiency in class as well. GER 106 or equivalent, including placement test or permission of instructor, is recommended.

GER 203 | ADVANCED GERMAN III: THE UNCANNY AND THE SELF | 4 quarter hours  
(Undergraduate)
The third year of German continues strengthening four primary linguistic skills: comprehension, reading, writing and speaking. The main goal is oral proficiency. Ample time will be devoted to speaking and developing oral proficiency in class as well. GER 106 or equivalent, including placement test or permission of instructor, is recommended.

GER 274 | REVOLUTION ON THE STAGE: BERLIN, EPIC THEATER, AND THE 20TH CENTURY | 4 quarter hours  
(Undergraduate)
TAUGHT IN ENGLISH. One of the most influential thinkers of the twentieth century, the revolutionary Marxist playwright Bertolt Brecht was witness to the crises that defined his age: the First and Second World Wars, the postwar division of Germany into East and West, and more personally, his own exile in the U.S. during the Nazi regime. Brecht criticized the changing face of Europe and the world in his writing, and his ideas about war and pacifism, capitalism, religion, fascism, inequality, and exile feel remarkably relevant today. In this course, we’ll think about those ideas as we learn about Brecht’s radical transformation of the stage, manifested in the theory of Epic Theater and the “Alienation/ Estrangement Effect.” Two concepts that promoted critical distance and political awareness in the theater instead of the traditional focus on identification and catharsis. Berlin was highly progressive and experimental in the “Golden Twenties,” and we’ll also discuss the artistic, political, and social milieu there that informed Brecht’s activist art: his work is characterized by collaborations with artists and musicians, and many of his plays feature musical pieces informed by jazz and the cabaret. We’ll consider Brecht in exile, too, and think about the ways that his experiences as a displaced person shaped his writing and relate to current discussions about borders and belonging. Finally, we’ll explore the question of Brecht’s continued relevance and why his ideas still resonate with contemporary audiences. To that end, this course will include viewings and excursions, including visits to theaters and concert venues for live performances when possible.
This course attempts to answer this question by first considering the policy that other countries, including the U.S., have failed to attain? and early 2000s. How has Germany managed to create an energy technologies are affordable options for individual consumers around the world because of the investments made by Germany in the 1990s and early 2000s. How has Germany managed to create an energy policy that other countries, including the U.S., have failed to attain? This course attempts to answer this question by first considering the relationship to nature and how it changed over time: from the earliest Germanic tribes and their ancient nature worship; to the German Romantics and their conception of nature as something overpowering and sublime; to Nazi Germany, where nature became associated with ideas of race and belonging; and finally, to today's German brand of environmentalism, which perceives nature as an endangered thing to be conserved and protected. We'll look at these phases through the perspective of thinkers and scientists who influenced the place of science in the world, including Alexander von Humboldt, Johann Wolfgang von Goethe, and Albert Einstein. This will give us an idea of the cultural context from which Germany approaches nature and the environment today, so that we can understand why it has been compelled to move toward a more sustainable future. Finally, we'll connect these ideas to real-life experiences: we'll speak and meet with representatives from "green" German companies here in Chicago in order to better understand the science and technology behind "Green Germany" now.
GER 301 | ORIGINS OF THE GERMAN LANGUAGE TO 1600 | 4 quarter hours  
(Undergraduate)  
The modern understanding of the German nation has its origins in a number of tribes that emerged from southern Scandinavia and northern Germany before the Common Era. This course will trace the development of "Germany" (a term that was not commonly used until the 1500s) in the Medieval period and into the 16th century, when Martin Luther and his 95 Theses initiated the movement that would later be known as the Protestant Reformation. In the exploration of this history, and of the evolution of the German language, students will read representative works of literature which will question the category of literature altogether. GER 106 or equivalent, including placement test or permission of instructor, is recommended.

GER 302 | INTRODUCTION TO GERMAN LITERATURE II: FROM 1600-1850 | 4 quarter hours  
(Undergraduate)  
Literature from 1600-1850. GER 106 or equivalent, including placement test or permission of instructor, is recommended.

GER 303 | INTRODUCTION TO GERMAN LITERATURE III: FROM 1850 TO PRESENT | 4 quarter hours  
(Undergraduate)  
Literature from 1850 to the present. GER 106 or equivalent, including placement test or permission of instructor, is recommended.

GER 304 | WORD-SCRIPT-STAGE-WORLD: DAS THEATER | 4 quarter hours  
(Undergraduate)  
This course is designed to familiarize students with some of the outstanding dramas written in German speaking countries during the last half century. Students will explore dramas that ignited hot public debates on account of their weighty topics, science and ethics, or science as power, more precisely, political power. "What do scientific discoverers do when they feel responsibility towards the world?" Towards the end of the 20th century, and with the rise of critical feminist thought, the fierce satirical drama of the Nobel Prize winning Austrian playwright Elfriede Jelinek on science, and the power games of gender garners attention. Her work and those of other artists will be explored. GER 106 or equivalent, including placement test or permission of instructor, is recommended.

GER 305 | COMPOSING REALITY: WRITING IN GERMAN | 4 quarter hours  
(Undergraduate)  
Topics include: prose from 1600 to Goethe; from the Romantic to the Realistic periods; prose of the 20th century. GER 106 or equivalent, including placement test or permission of instructor, is recommended.

GER 306 | THE NOVELLE | 4 quarter hours  
(Undergraduate)  
From Goethe to Grass. GER 106 or equivalent, including placement test or permission of instructor, is recommended.

GER 307 | FROM SOUND TO STRUCTURE: GERMAN POETRY | 4 quarter hours  
(Undergraduate)  
Instead of treating poems as potentially boring puzzles that can only be solved with some piece of arcane knowledge not available to average people, this course approaches the history of poems written in German by focusing on the various tools available to poets. What if sound (the sound of individual words but also the cumulative sound, including tone, which words make when put in a certain order) were more important than meaning or expression? What if lines, rather than sentences, made for a more reliable unit of composition? What if metaphor and simile actually created relationships between different things rather than those relationships existing prior to the poem? Students will be expected to experiment with these techniques themselves, and we will use our focus on those techniques as a constant that takes us through the periods comprising literary history in German-speaking countries. The variety of these periods, taken together, should serve to keep the subject matter lively. Even if the materials sacrifice depth for breadth, the course will reserve time for such luminaries as the Minnesingers, Holderlin, Goethe & Schiller, Trakl, Rilke, Brecht, Bachmann, and others, while touching on occasional oddballs like Heinz Herbek and contemporaries such as Monika Rinck and Nora Gomringer. The aims of this course are to be better able to experience poems rather than decode them, and to situate them in their literary classification.

GER 308 | GOETHE AND HIS ERA | 4 quarter hours  
(Undergraduate)  
This course explores one of the great, canonical works of German literature, Goethe's peculiar and provocative interpretation of the legendary figure of Dr. Faustus. By spending an entire quarter with this one text, students have time to gain a thorough appreciation for its depth, complexity, and poetic excellence. Classroom discussions will focus in part on a close reading of the text in its various dimensions: characterization, motivation, plot-structure and plot-development, poetic form (meter and rhyme), and poetic imagery (metaphors, similes, etc.). Students will also examine the philosophical questions raised by Faust and Mephisto's rich and probing dialogues and also consider the larger cultural and historical significance of Goethe's Faust. GER 106 or equivalent, including placement test or permission of instructor, is recommended.

GER 309 | GERMAN CIVILIZATION I | 4 quarter hours  
(Undergraduate)  
The rise and fall of the "Holy Roman Empire"; Social, intellectual and artistic background of Germany from its origins to 1871. GER 106 or equivalent, including placement test or permission of instructor, is recommended.

GER 311 | BREAKING NEWS IN THE GERMAN-SPEAKING WORLD | 4 quarter hours  
(Undergraduate)  
This course examines the many facets of contemporary Germany and Austria via five focused two week units: Politics; Business and the Environment; Film and Culture; Literature; and Communication/Social Media. We'll engage with several German-language media (internet, television, film, print) to understand the happenings of the German-speaking world in the present day. Moreover, the course includes several outings and/or events that will expose us to German-related happenings in Chicago. These will generate further, comparative discussions about representations of contemporary Germany and Austria in the U.S. GER 106 or equivalent, including placement test or permission of instructor, is recommended.
GER 312 | GERMAN INTELLECTUAL HISTORY | 4 quarter hours
(Undergraduate)
This course is designed to introduce the student to some of the most powerful and influential German thinkers in Western civilization of the 19th and 20th century, whose names are synonymous with revolutionary thinking, and whose philosophies have deeply shaped the Weltanschauung of 20th century man. GER 106 or equivalent, including placement test or permission of instructor, is recommended.

GER 313 | TURN OF THE CENTURY VIENNA | 4 quarter hours
(Undergraduate)
A world center of modern art and thought: Freud, Wittgenstein, Klimt, Kokoschka, Kafka, Shoenberg. GER 106 or equivalent, including placement test or permission of instructor, is recommended.

GER 314 | BERLIN AND THE GOLDEN TWENTIES | 4 quarter hours
(Undergraduate)
Berlin in the 1920s was an exhilarating, modern city marked by contrasts: the trauma of returning soldiers and the decadence of the modern metropolis; an ever-growing tension between liberalism and what would become an increasingly radical political right; and the emergence of the progressive Weimar Republic, which was characterized by periodic political turmoil and economic instability. These "Golden Twenties" also gave rise to cultural innovations in the arts, film, theater, literature, music, philosophy, architecture, social sciences, and technology: Berlin was at the center of it all. In this course, we'll explore some of the major filmmakers, writers, artists, and musicians in this great metropolis of the early twentieth century as we consider the political conflicts that plagued Germany's young democracy. We'll also discuss how Weimar-era Berlin has been depicted in film and television, with the miniseries "Babylon Berlin" (2017) functioning as a kind of foundational thread that we'll return to throughout the quarter. Finally, we'll think about what led to the collapse of the Weimar Republic and the resemblances this period may bear to our current political era. GER 106 or equivalent, including placement test or permission of instructor, is recommended.

GER 315 | LITERATURE AFTER 1945 (EAST AND WEST) | 4 quarter hours
(Undergraduate)
Reconstruction of German literature and coming to terms with the past: "Gruppe 47", Grass, Boell, Enzensberger. GER 106 or equivalent, including placement test or permission of instructor, is recommended.

GER 317 | WOMEN WRITERS OF GERMAN EXPRESSION | 4 quarter hours
(Undergraduate)
Studies in literature and social issues from all periods of German, Austrian and Swiss history. GER 106 or equivalent, including placement test or permission of instructor, is recommended.

GER 319 | MULTICULTURAL GERMANY: LITERATURE, FILM AND ART | 4 quarter hours
(Undergraduate)
This course asks students to consider various literary/artistic media as ways of communicating and interpreting experiences relevant to migrants in Germany. The groups we'll explore include the Turkish and Italian guest workers ("Gastarbeiter") of the the 1950s and '60s that made West German (re-)construction possible; Afro-Germans, a long-understudied population that emerged largely from two main sources: descendants of Africans who migrated to Germany in relation to its African colonies, and to a much larger extent, the offspring born to German mothers and U.S. military fathers in centers of American occupation; and the most recent wave of refugees from Syria, Afghanistan, and Iraq. By engaging with writings, artwork, films, and music created by members of these populations, students will be encouraged to think critically about representations of refugees and immigrants in media and discourse --to consider, for example, how even the labeling of refugees in Europe as a ? crisis? generates a certain kind of response. The course will end with a look toward the future of multiculturalism in Germany and consider the possibility of a pan-European multicultural literature and film.

GER 320 | ADVANCED COMMERCIAL GERMAN | 4 quarter hours
(Undergraduate)
This course will approach the concept of Geschäftsdutsch on two levels: first with an examination of Germany, Austria, the European Union, and the German industry and economy, and second, with an exploration of the German professional world (i.e. the processes involved in searching, applying, and interviewing for an internship or employment in a German speaking country). Students will practice in class through role playing, skits, writing example letters, resumes, and CVs, etc. A number of guest speakers from the German business community in Chicago are possible. GER 106 or equivalent, including placement test or permission of instructor, is recommended.

GER 321 | TRANSLATION | 4 quarter hours
(Undergraduate)
The primary objective of this course is to immerse the student in the process of translation from German into English (and to a lesser extent from English into German) to successfully complete a variety of translation projects for professional, academic, artistic, or personal purposes, thus equipping the students with proficiency in translating at an advanced level. Through various translation assignments, students will be able to review German grammar, work within different registers and learn appropriate vocabulary, expand their reading and writing in German while developing a sense of responsibility for the text translated. This course will present a survey of translation theory, particularly as it relates to Germany, and probe the usefulness of technology. GER 106 or equivalent, including placement test or permission of instructor, is recommended.
GER 325 | KAFKA AND THE KAFKAESQUE | 4 quarter hours
(Undergraduate)
In this course, we'll start by considering Franz Kafka's identity as an outsider many times over: from a Jewish, German-speaking family in turn of the century Prague?and how Kafka's fundamental Otherness intruded upon his life and writing alike. We'll take a look at Kafka's influences both small and large: the domestic world of the family home and the oversized role that his father occupied in it, and the larger sociocultural milieu of Prague and the Austro-Hungarian Empire, where Kafka lived, wrote, and carried on several long-term relationships. We'll also consider what's meant by the word "Kafkaesque," a concept that describes both the hopelessness of existence in the modern world of bureaucracy, but also calls to mind the absurd, the dreamlike, and the hilariously funny. Our readings will include a number of stories by Kafka, some written correspondence between Kafka and his friends, family, and romantic partners, and finally, his unfinished novel "Amerika" (also known as "The Man who Disappeared? or "The Missing Person?"). But this course will not only focus on writings by Kafka; we'll also look at how his alien condition influenced writers and filmmakers from all parts of the world, such as the German-language writers Jan Peter Bremer and Daniel Kehlmann, English-language writers like Philip Roth, and the filmmakers David Lynch and Woody Allen, among others. GER 106 or equivalent, including placement test or permission of instructor, is recommended.

GER 328 | GERMAN FILM SINCE 2010 | 4 quarter hours
(Undergraduate)
In this course, we'll take a look at ten German-language films released since 2010, which are diverse in both genre and theme: German comedies; indie and art house films; popular movies; period films; and dramatic films that speak to Germany's multicultural identity and the current European refugee crisis. We'll also discuss some of the most influential filmmakers working in German-language cinema today, which run the gamut from relative newcomers to established auteurs: Margarethe von Trotta, Florian Henckel von Donnersmarck, Christian Petzold, Fatih Akin, Markus Schleinzer, and Maren Ade, among others. Above all else, we'll consider the ways these works speak to German and Austrian identities, and how they reflect contemporary discussions and debates in the German-speaking world. Each class meeting will include a weekly film screening and associated discussion. GER 106 or equivalent, including placement test or permission of instructor, is recommended.

GER 329 | MEISTERWERKE OF GERMAN CINEMA | 4 quarter hours
(Undergraduate)
The "German National Cinema" has changed nearly as much as the face of the German nation itself over the course of the twentieth century. Films made in the various "Germanies" in the past hundred years are a reflection of, and reaction to, the political, social, and artistic climates confronting German-speaking filmmakers. Students will investigate the motivations surrounding the production of certain historically significant films, as well as the messages that were conveyed to the contemporary audience through the cinema of the period. GER 106 or equivalent, including placement test or permission of instructor, is recommended.

GER 351 | GERMAN PHONOLOGY AND PHONETICS | 4 quarter hours
(Undergraduate)
An in-depth study of the language's sound system and intensive pronunciation practice. GER 106 or equivalent, including placement test or permission of instructor, is recommended.

GER 395 | FOREIGN LANGUAGES ACROSS THE CURRICULUM | 2 quarter hours
(Undergraduate)
The two-credit FLAC course allows students to enrich their experience in the co-required course through added reading, writing, listening and speaking activities in German. Students must have the equivalent of 106 or higher ability in German to take this two-credit component. Please contact the Department of Modern Languages if you have questions about this course or about language placement.

GER 397 | SPECIAL TOPICS IN GERMAN | 4 quarter hours
(Undergraduate)
See schedule for current offerings.

GER 398 | STUDY ABROAD | 1-8 quarter hours
(Undergraduate)
Variable credit.

GER 399 | INDEPENDENT STUDY | 0.5-8 quarter hour
(Undergraduate)
Variable credit.

GER 401 | INTRODUCTION TO GERMAN LITERATURE I: FROM ORIGINS TO 1600 | 4 quarter hours
(Graduate)
The modern understanding of the German nation has its origins in a number of tribes that emerged from southern Scandinavia and northern Germany before the Common Era. It was not until the reign of Charlemagne in the eighth and early ninth centuries that the process of uniting most of the Germanic provinces was completed under the Carolingian Empire, which was later to be absorbed into the Holy Roman Empire. The course will trace these developments, as well as that of "Germany" (indeed a term that was not commonly used until the 1500s) in the Medieval period and into the 16th century, when Martin Luther and his 95 Theses initiated the movement that would later be known as the Protestant Reformation. Students will read representative works of literature that explore the traditions, attitudes, and mindsets of Germanic peoples in their respective eras.

GER 402 | INTRODUCTION TO GERMAN LITERATURE II: FROM 1600 - 1850 | 4 quarter hours
(Graduate)
Literature from 1600-1850.

GER 403 | INTRODUCTION TO GERMAN LITERATURE III: FROM 1850 TO PRESENT | 4 quarter hours
(Graduate)
Literature from 1850 to the present.

GER 404 | GERMAN DRAMA | 4 quarter hours
(Graduate)
This course is designed to familiarize students with some of the outstanding dramas written in German speaking countries during the last half century. Students will explore dramas that ignited hot public debates on account of their weighty topics, science and ethics, or science as power, more precisely, political power: "What do scientific discoverers do when they feel responsibility towards the world?" Towards the end of the 20th century, and with the rise of critical Feminist thought, the fierce satirical drama of the Nobel Prize winning Austrian playwright Elfriede Jelinek on science, and the power games of gender garners attention. Her works and those of other artists will be explored.

GER 405 | GERMAN PROSE | 4 quarter hours
(Graduate)
Topics include: prose from 1600 to Goethe; from the Romantic to the Realistic periods; prose of the 20th century.
Kokoschka, Kafka, Shoenberg. A world center of modern art and thought: Freud, Wittgenstein, Klimt. This course is designed to introduce the student to some of the most powerful and influential German thinkers in Western civilization from its origins to 1871.

GER 409 | GERMAN CIVILIZATION I | 4 quarter hours (Graduate)
The rise and fall of the "Holy Roman Empire". Social, intellectual and artistic background of Germany from its origins to 1871.

GER 410 | GERMAN CIVILIZATION II | 4 quarter hours (Graduate)
Social, intellectual and artistic developments in Germany from unification in 1871 to reunification in 1990.

GER 411 | GERMAN CIVILIZATION III | 4 quarter hours (Graduate)
Contemporary Germany. Cross-listed with GER 311.

GER 412 | GERMAN INTELLECTUAL HISTORY | 4 quarter hours (Graduate)
This course is designed to introduce the student to some of the most powerful and influential German thinkers in Western civilization of the 19th and 20th century, whose names are synonymous with revolutionary thinking, and whose philosophies have deeply shaped the Weltanschauung of 20th century man.

GER 413 | TURN OF THE CENTURY VIENNA | 4 quarter hours (Graduate)

GER 414 | BERLIN AND THE GOLDEN TWENTIES | 4 quarter hours (Graduate)
Berlin in the 1920s was a place characterized by a number of contradictions: the legion suffering of returning soldiers after the First World War contrasted with the speed and frivolity of the modern metropolis; the final moments of the German monarchy and a burgeoning, albeit tenuous, republican government; and an ever-growing tension between liberalism, both political and personal, and an increasingly radical political Right. In many ways, the Berlin of these "Golden Twenties" is inseparable from the Weimar Republic. As the geographical and intellectual center for this new government, Berlin bore firsthand witness to the numerous political crises that marked this short, and ultimately doomed, political experiment between 1918 and 1933.

GER 415 | LITERATURE AFTER 1945 (EAST AND WEST) | 4 quarter hours (Graduate)
Reconstruction of German literature and coming to terms with the past: "Gruppe 47", Grass, Boell, Enzensberger.

GER 416 | LITERATURE OF THE WEIMAR YEARS | 4 quarter hours (Graduate)
Mann, Hesse, Kafka, Brecht.

GER 417 | WOMEN WRITERS OF GERMAN EXPRESSION | 4 quarter hours (Graduate)
Studies in literature and social issues from all periods of German, Austrian and Swiss history.

GER 418 | INTERCULTURAL CONTEMPORARY WRITERS | 4 quarter hours (Graduate)
Focus on the critical bicultural awareness of immigrant writers of German expression whose original language is not German.

GER 419 | MULTICULTURAL CONTEMPORARY WRITERS | 4 quarter hours (Graduate)

GER 420 | ADVANCED COMMERCIAL GERMAN | 4 quarter hours (Graduate)
This course will approach the concept of Geschäftsdutsch on two levels: first with an examination of Germany, Austria, the European Union, and the German industry and economy, and second, with an exploration of the German professional world (i.e. the processes involved in searching, applying, and interviewing for an internship or employment in a German speaking country). Students will practice through role playing, skits, writing example letters, resumes, and CVs, etc. A number of guest speakers from the German business community in Chicago are possible.

GER 421 | TRANSLATION | 4 quarter hours (Graduate)
The primary objective of this course is to immerse the student in the process of translation from German into English (and to a lesser extent from English into German) to successfully complete a variety of translation projects for professional, academic, artistic, or personal purposes, thus equipping the students with proficiency in translating at an advanced level. Through various translation assignments, students will be able to review German grammar, work within different registers and learn appropriate vocabulary, expand their reading and writing in German while developing a sense of responsibility for the text translated. This course will present a survey of translation theory, particularly as it relates to Germany, and probe the usefulness of technology.
GER 420 | BUSINESS ANALYTICS TOOLS | 4 quarter hours
(Graduate)
This course provides foundational quantitative analytical skills to address typical problems that arise in business. The course emphasizes a problem-oriented approach utilizing software applications such as Excel for data analyses. The topics covered in the course include relevant mathematical concepts such as algebra and probability theory/application as well as a strong focus on fundamental statistical tools such as hypothesis testing, regression analysis and forecasting.

GSB 500 | U.S. BUSINESS CULTURE & PRACTICE | 4 quarter hours
(Graduate)
The objective of this course is to develop an understanding of how to be successful in the U.S., both academically and professionally. The course covers the concepts, methods and tools necessary to face the challenges of studying and working in the U.S. Students will improve their skills in oral communication, practical business writing, and delivering presentations. Students will also gain knowledge of the career search process.

GSB 519 | BUSINESS ANALYTICS TOOLS (FORMERLY GSB420) | 4 quarter hours
(Graduate)
This course provides foundational quantitative analytical skills required to understand and solve organizational problems. The course emphasizes a problem-oriented approach utilizing software applications primarily in Excel for data analyses. The topics covered in the course include relevant mathematical concepts such as algebra and probability theory/application as well as a strong focus on fundamental statistical tools such as hypothesis testing, regression analysis and forecasting.

GSB 525 | BUSINESS INNOVATION & DESIGN (FORMERLY MGT 573) | 4 quarter hours
(Graduate)
This course explores the role of innovation in organizations with an overarching structure of two key components of innovation in organizations: people and process. A Design Thinking process centers the course and includes theory and process related to problem identification, ideation, and development of innovative solutions. The course format is largely experiential, with a focus on group and individual projects, exercises and techniques through which students will experience the innovation process. The course also explores the realities of innovation in order to provide a useful and pragmatic view.

GER 425 | KAFKA AND THE KAFKAESQUE | 4 quarter hours
(Graduate)
In this course, we'll start by considering Franz Kafka's identity as an outsider many times over—from a Jewish, German-speaking background in turn of the century Prague?and how Kafka's fundamental 'otherness' intruded upon his life and writing alike. We'll also take a look at Kafka's influences both small and large: the domestic world of the family home and the oversized role that his father occupied in it, and the larger sociocultural milieu of Prague and the Austro-Hungarian Empire, where Kafka lived, wrote, and carried on several long-term relationships with women, none of whom he could ever bring himself to marry. We'll also consider what's meant by the word 'kafkaesque,' a concept that describes both the hopelessness of existence in the modern world of bureaucracy, but also calls to mind the absurd, the dreamlike, and the hilariously funny. We won't just focus on writings by Kafka, either—we'll also look at how his alien condition influenced writers and filmmakers from all parts of the world, such as the German-language writer Daniel Kehlmann, English-language writers like Philip Roth, and the filmmakers David Lynch and Woody Allen, among others. This course is taught in German.

GER 429 | THE GERMAN FILM | 4 quarter hours
(Graduate)
The "German National Cinema" has changed nearly as much as the face of the German nation itself over the course of the twentieth century. Films made in the various "Germanies" in the past hundred years are a reflection of, and reaction to, the political, social, and artistic climates confronting German-speaking filmmakers. Students will investigate the motivations surrounding the production of certain historically significant films, as well as the messages that were conveyed to the contemporary audience through the cinema of the period.

GER 451 | GERMAN PHONOLOGY AND PHONETICS | 4 quarter hours
(Graduate)
An in-depth study of the language's sound system and intensive pronunciation practice. Cross listed with GER 351.

GER 496 | PRACTICUM IN GERMAN INSTRUCTION | 4 quarter hours
(Graduate)
Supervised practice in language instruction, paired with a mentor instructor in a beginning or intermediate language course. Students observe a class, teach a lesson or lessons, assist in assessment and lesson planning, and complete individualized assignments to develop their skills as classroom language instructors. Repeatable.

GER 497 | SPECIAL TOPICS IN GERMAN | 4 quarter hours
(Graduate)
See schedule for current offerings.

GER 498 | STUDY ABROAD | 1-8 quarter hours
(Graduate)
Variable credit.

GER 499 | INDEPENDENT STUDY | 1-8 quarter hours
(Graduate)
Variable credit.

Graduate School of Business (GSB)

GSB 400 | FOUNDATIONS OF QUANTITATIVE ANALYSIS | 4 quarter hours
(Graduate)
This course provides basic instruction in mathematical and statistical methods as a foundation for GSB420 Applied Quantitative Analysis. This course will focus on strengthening algebra and calculus skills and provide a basic introduction to statistical methods.
GSB 595 | DEVELOPING SUSTAINABLE STRATEGIES: PRACTICUM | 4 quarter hours
(Graduate)
This course is designed to integrate the concept of strategy development into the larger ecological economic context of serving market/society needs in a finite world. The goal of strategy in organizations has traditionally been defined as one of value maximization, from the shareholder perspective exclusively. But the role of strategy is to guide organizations in competitively defining and meeting market/society's needs. Sustainable strategies take into account multiple perspectives by engaging in practices - principally systems thinking - to pursue opportunities in meeting market/society's needs that are economically viable, socially just, and operate responsibly within the constraints of a finite ecology. Students will demonstrate the literacies required to develop sustainable strategies that take into account all facets of the business venture (marketing, finance, management, design, production and distribution/life cycle analysis.) One key question will shape the trajectory of the course: 'How does one develop a competitive sustainable strategy to serve some market/society need?' Therefore, the focus of this course is for the student to select a need, determine the sustainable economic system to develop and deliver the product/service, and write and present the 'business case.' The student will also articulate the values and vision - personally and organizationally - driving the strategy.

GSB 599 | STRATEGIC MANAGEMENT CAPSTONE | 4 quarter hours
(Graduate)
This capstone course challenges students to apply their general knowledge of business toward creating global competitive business strategies. The course content emphasizes identifying strategic alternatives, developing corporate and business strategies, and understanding the role of functional activities and organizational processes from a strategic viewpoint. Experiential learning is the primary mode of learning as students acquire the skills to make strategic decisions as part of a management team.
MGT 504, FIN 555, ECO 555 and (ACC 500 or ACC 502) are prerequisites for this class.

GSB 600 | CANDIDACY CONTINUATION | 0 quarter hour
(Graduate)
A non-credit registration that allows students to continue to use DePaul facilities such as the library, Career Development Center and the computer lab while not registered for credit-earning courses. (0 quarter hours)

GSB 631 | STRATEGIC FINANCIAL ANALYSIS | 4 quarter hours
(Graduate)
This course is designed for all MBA students seeking to develop skills in strategic financial analysis. The course provides a deep, unashamed evaluation of corporate performance with a focus on traditional and cash-based measures, and strategic applications. Understanding the strengths and weaknesses of various types of financial analyses is a requirement for designing and developing business strategy, business execution systems, and understanding the performance of the company. Key managerial questions will be investigated in the course: When should a business grow? When is growth meaningless to investors? Why does an increase in net income, even over decades, still result in stock price drops? Why do companies report Return On Equity amidst abysmal stock returns? Why and when is stock price BAD for measuring managerial performance? Corporate managers today are plagued by these questions, leaving them to believe in market irrationality, or simply "the market doesn't understand my company". The course will be driven by actual review and evaluation of company financial statements, using several types of practical financial analysis methods and tools. The course provides deep insights into the world of investment analysis, corporate performance measurement, and strategic planning. This course will be useful for MBA candidates destined for higher levels of corporate management, management consulting, investment banking, equity research, or money management.

GSB 640 | PROBLEMS IN ETHICS: ISSUES IN BUSINESS | 4 quarter hours
(Graduate)
A seminar in business ethics that centers on theoretical, practical and pedagogical issues. Cross-listed with PHL 640. Offered variably.

GSB 650 | RELIGIOUS ETHICS AND ECONOMICS | 4 quarter hours
(Graduate)
This course will examine the thinking of social scientists, philosophers and theologians on the impact of religious values and institutions, on the origin and development of American capitalism and its relevance to contemporary business ethics. Cross-listed with PHL 650 and MLS 442. Offered variably.

GSB 793 | INTERNSHIP | 4 quarter hours
(Graduate)
This is a unique opportunity in which knowledge gained in the classroom can be applied to an actual business environment. The intern will be immersed in a stimulating environment with a pool of established resources in industry or government.

GSB 798 | SPECIAL TOPICS | 4 quarter hours
(Graduate)
Content and format of this course is variable. An in-depth study of current issues. Subject matter will be indicated in class schedule.

GSB 799 | INDEPENDENT STUDY | 4 quarter hours
(Graduate)
Available for graduate students of demonstrated capability for intensive independent work in accountancy.

GSB 800 | INTRODUCTION TO RESEARCH METHODS | 2 quarter hours
(Graduate)
This course is designed to introduce incoming executive doctoral students to the fundamentals of research methods. The course will begin with an overview of why we do research, the scientific method and causal inference. Students will then learn about the different types of validity and threats to validity. Finally, students will get an overview of different empirical research methods, including surveys, experiments, and analysis of archival data and will discuss the validity trade-offs of these different research methods. (2 quarter hours)
This course is designed to teach doctoral students how to design and conduct empirical research studies. The first part of the course will focus on practical aspects of research, such as how to identify a problem, develop a good research question, develop a theory and perform a comprehensive literature review. The second part of the course will build on topics discussed in the Introduction to Research Methods course and further explore the different empirical research methods available to answer business research questions. Specifically, students will learn how to design research studies using process simulations, case/field studies, interviews, focus groups and surveys, experiments, and time-series and cross-sectional archival data. Construct measurement will be emphasized throughout the course. Students will discuss research ethics, with a special emphasis on IRB training and how to ethically perform research using human participants. (6 quarter hours)

This course presents the basics of using statistics in solving business problems and applications. Students will study several statistical methodologies, such as t-tests, ANOVA, correlation and simple regression analysis. A strong emphasis will be placed on understanding differences between different types of variables, when to use them, how to read them and interpret them. The course focuses on the selection, application, and interpretation of statistical techniques and requires SPSS statistical software to analyze data. Special importance will be given to topics of ethics in empirical research, data analysis and presentation. (4 quarter hours)

This course equips students with the skills needed to analyze data for advanced research using selected statistical techniques such as factor analysis, discriminant analysis, cluster analysis, and structural equation modeling. It enables students to apply these statistical techniques to a variety of business areas and problems so students can gain an applications-guided understanding of the statistical theories presented. The class includes topics of model specification, significance determination, nonlinear transformations, residual analysis, normality assessment, and outlier analysis, plus more advanced topics including autocorrelation, multicollinearity, heteroscedasticity and extrapolation. Students will do individual and group projects both in labs and in take-home assignments. The course emphasizes the selection, application, and interpretation of statistical techniques and requires SPSS statistical software to analyze data. (5 quarter hours)

In this course, students will study a variety of advanced statistical techniques, such as time series analysis, conjoint analysis, choice models and market diffusion models. The course topics include: autocorrelated data analysis, Box-Jenkins models (autoregressive, moving average, and autoregressive moving average models), analysis of seasonality, forecasting evaluation and diagnostics checking. Students will learn how to set up a conjoint experiment and apply it to setting prices and predicting sales. This course will also discuss approaches to modeling consumer choice behavior, such as logit and nested logit models, and study the relation between consumer choices and price, promotion, advertising, and product innovations and characteristics. All these techniques will be used as tools to predict product diffusion, market shares, and likelihood to purchase. Several datasets will be generated to help with analyzing real life prediction simulations. Students will also review and analyze significant academic publications presenting forecasting and predictive research projects. Learning these statistical methods will be assessed in individual and group exercises, simulation and predictive experiments. (3 quarter hours)

This course is designed to familiarize students with data science and data visualization. It explores the boundaries of data science as well as the pipeline for the data science process. Specific topics include but are not limited to data cleaning, broad classes of algorithms in data science, data exploration and communicating of results using data visualization techniques. (2 quarter hours)

This seminar is design to develop foundational knowledge of leadership and related but broader organizational behavior research. Students will draw heavily on primary social and organizational psychology theories including, but not limited to: implicit person, attribution, social comparison, social exchange, attention, pro-social motivation, expectancy, goal-setting, job characteristics, and role theories. Students will examine how these fundamental theories shape the context of people, groups and organizations through primary organizational behavior domains including individual differences, motivation, performance, commitment, organizational citizenship, organizational climate, culture and context, power and influence, organizational justice, leader effectiveness, top management team effectiveness, leadership assessment and development.
GSB 821 | CONTEMPORARY TOPICS IN FINANCIAL RESEARCH | 3 quarter hours
(Graduate)
This course is designed to expose students to the prevailing research methods and topics in current financial research. Students will examine various topics throughout this seminar including but not limited to financial governance, corporate finance, behavioral finance, banking, and market efficiencies.

GSB 822 | MARKETING AND BUSINESS STRATEGY | 3 quarter hours
(Graduate)
This course surveys major topics in the evolving field of marketing and explores marketing’s role in business strategy across a range of markets and industries. The focus of this doctoral seminar is to provide a critical review of selected scholarly and practitioner literature with an emphasis on their practical applications to organizations today. The course is designed to help doctoral students become conversant in prominent classical and contemporary marketing literature as well as to promote active discussions around major streams of marketing thought applied to current business challenges and opportunities. It also serves as a foundation course to prepare the student for further research and applied work in the areas of marketing and strategy.

GSB 823 | LEADING ORGANIZATIONAL DEVELOPMENT AND CHANGE | 4 quarter hours
(Graduate)
This seminar examines the conceptual underpinnings of organization development and provides exposure to contemporary literature on OD and change. Attention is given to OD practice and evidence-based interventions for managing planned change. Key topics explored include organization theory, foundations of planned organizational change, frames and models in organizational diagnosis, applying open-systems frames to diagnosis, designing major organizational interventions (including group, techno-structural, human process and strategic interventions). Practical attention paid to managing change and institutionalization through consultation/contracting and organizational learning.

GSB 824 | BEHAVIORAL DECISION THEORY | 3 quarter hours
(Graduate)
The goal of this course is to introduce doctoral students to prior research studies in behavioral decision theory. The course will cover seminal papers in the judgment and decision making literature, including those on heuristics and biases, context effects, prospect theory, mental accounting, regression to the mean, pattern seeking, sunk costs, and escalation of commitment. As part of the heuristics and biases topic, students will learn about biases in forecasting and prediction, such as the planning fallacy. Students will be introduced to normative models of belief updating and descriptive evidence on departures from the normative models, such as base rate neglect, belief perseverance, and primacy/recency effects. Finally, the course will cover several topics in psychology that are particularly relevant to business doctoral students: attribution theory, common problems in group decision making (groupthink, social conformity, and social influence), and the development of expertise. (3 quarter hours)

GSB 825 | BUSINESS ETHICS AND SOCIAL RESPONSIBILITY | 2 quarter hours
(Graduate)
This course is designed to examine contemporary research on leader and organizational ethics as well as corporate social responsibility. Key topics include corporate social responsibility and stakeholder management, role of business in society, environmental sustainability, corporate governance, accounting and finance, technology and privacy, employer responsibilities and employee rights. (2 quarter hours)

GSB 826 | CONTEMPORARY TOPICS IN ACCOUNTING RESEARCH | 3 quarter hours
(Graduate)
This course is designed to expose students to the current research methods and topics in accounting research. Students will examine various topics throughout this seminar including but not limited to forensic accounting, internal audit, information systems, data analytics, capital markets and managerial accounting.

GSB 827 | SEMINARS ON CURRENT TOPICS IN BUSINESS | 2 quarter hours
(Graduate)
This annually repeating seminar series is designed to examine contemporary issues in business from a variety of disciplinary perspectives. Through these seminars, students will develop the ability to critically evaluate published business-related research, study current business problems, identify the theoretical models needed to research these problems and perform the necessary empirical analyses to offer solutions to the research problem and managerial insights for industry applications. Early in the program, the seminars serve the important function of highlighting open research questions and introducing students to research active faculty who might be selected as their dissertation chair. In the final half of the program, the seminar series serves the equally important function of keeping the students engaged in issues relevant to their own interests. Each seminar will vary in length, depending upon the duration required to cover the topic. In order to keep the seminar series topical, seminars will be rotated based upon their relevance to the current business environment and cohort interest. (1-5 quarter hours)

GSB 828 | QUALITATIVE RESEARCH | 2 quarter hours
(Graduate)
This seminar provides exposure to leading edge qualitative research methods as they emerge in practice and research.

GSB 829 | DEVELOPMENTS IN ACCOUNTING RESEARCH | 3 quarter hours
(Graduate)
This seminar provides exposure to leading edge research topics in accounting.

GSB 840 | GROUP RESEARCH LAB | 2 quarter hours
(Graduate)
This course is designed to help students engage with the entire research process, taking a research idea from conception to completion. Students are assigned to small groups and work with a faculty advisor to promote mastery in research method design and execution. The project culminates in a written manuscript and presentation to colleagues and faculty. (2 quarter hours)
Graphic Design (GD)

GD 101 | CREATIVE STUDIO METHODS | 4 quarter hours (Undergraduate)
Creative Studio Methods is a required interdisciplinary foundation design course. It immerses new design students in a range of studio experiences as a means to introduce methods for approaching creative work. Short lectures or screenings present models, contexts, and inspiration for creative and critical design practices and provide students with, “courage by example.” In-class exercises emphasize inquiry, experimentation, unknowns, playful risk, invention, flexibility, and agility. Visual and conceptual artifacts and outcomes are generated through process and analyzed/considered through group discussion. PREREQUISITE(S): None.

GD 104 | DESIGN DRAWING PROCESS | 4 quarter hours (Undergraduate)
This course introduces students to drawing for the design process in print and media from initial concept development to sketches, presentation drawings and visualizations for graphic and interactive media. Topics include general arrangement as well as detailed and dimensional drawings providing essential preparation for classes in design and digital illustration software. PREREQUISITE(S): None.

GD 105 | INTRO TO VISUAL DESIGN | 4 quarter hours (Undergraduate)
Students study the principles of composition and color theory, and how these are affected by movement, duration and display. Vector and bitmap manipulation tools are explored.

GD 109 | WEB DESIGN TOOLS WORKSHOP | 2-2.25 quarter hours (Undergraduate)
This course introduces students to the basic languages used to build the front-end components of the web. Students will learn the basic syntax of HTML and CSS; a simple vocabulary of HTML elements and attributes, and CSS properties and values; best practices for preparing content for the web; and basic code patterns useful in web design. PREREQUISITE(S): None (2 quarter hours)

GD 110 | WEB DESIGN | 4 quarter hours (Undergraduate)
An introduction to design process and strategy for the web. Students will be introduced to layout and composition, typography, color, and navigation concerns specific to web design. Projects will be created using both visual design applications and hand-coding with HTML and CSS. The class will also introduce basic components of hypertext transfer protocol, and web site deployment.

UXD 210 OR GD 200 is a prerequisite for this class.

GD 150 | ILLUSTRATOR WORKSHOP | 2 quarter hours (Undergraduate)
This class will introduce students to the syntax, tools and methods of vector-based drawing using Adobe Illustrator. Topics and techniques covered during lectures will be reinforced through in-class exercises and projects. (2 quarter hours)

GD 152 | INDESIGN WORKSHOP | 2 quarter hours (Undergraduate)
This class will cover fundamental typographic design and layout skills by using page layout software Adobe InDesign. Topics and techniques covered during lectures will be reinforced through in-class exercises and projects. (2 quarter hours)

GD 154 | ADVANCED CSS WORKSHOP | 2-2.25 quarter hours (Undergraduate)
A hands-on exploration of properties in the CSS3 specification. Students will explore advanced techniques such as pseudo-elements, complex shapes, pointer controls, keyframes and animation, and improved typographic controls. This class will also introduce techniques for device dependent styling. Previous experience with CSS and HTML is highly recommended. PREREQUISITE(S): None (2 quarter hours)
GD 155 | HTML5 WORKSHOP | 2 quarter hours  
(Undergraduate)  
This is a hands-on course in developing web pages and content using HTML5. In this course students will learn to create and edit web pages, applications, and/or games with HTML5 using text editors. The course will include weekly mixtures of lessons and exercises. (2 quarter hours)

GD 156 | MEME WORKSHOP | 2-2.25 quarter hours  
(Undergraduate)  
This course will provide an introduction to Memes?including history, theory, and evolution. Students will research how the democratization of digital tools allowed for memes to become a means of cultural communication and documentation of design, culture, and society on a global scale?from self-help to humor, to politics and beyond. Additionally, students will study the importance of the re-purposed, re-appropriated, and re-used digital image as both a revolutionary and evolutionary design, as well as a piece of collected data for where it has traveled. This workshop includes lectures, discussions, critiques, presentations, hands-on activities, and lab (computer work) time and weekly assignments. Students will experiment with various tools for making memes?everything from open-source, free platforms to more traditional design software.

GD 200 | GRAPHIC DESIGN: FORM | 4 quarter hours  
(Undergraduate)  
This course introduces the principles and theories of graphic design. Processes and methodologies related to visual problem solving will be explored and techniques of visual design will be taught and incorporated into class projects. Projects will combine words, images and graphic elements to address design problems in meaningful ways that give your audience new understanding and experiences. Theories and visual movements will be examined through lectures and put into practice during class projects.

GD 105 or ART 105 or ANI 105 or GPH 211 is a prerequisite for this class

GD 201 | INTRODUCTION TO VISUAL DESIGN RESEARCH | 4 quarter hours  
(Undergraduate)  
This course introduces students to research methods used in design creative and professional practice. Theories, strategies and practical frameworks are studied in the preparation and creation of design artifacts.

GD 205 | GRAPHIC DESIGN: CONCEPT | 4 quarter hours  
(Undergraduate)  
This course introduces the process of ideation and conceptual problem solving in graphic design. Methodologies of research and iteration will be examined, with an emphasis on the role of analysis, conceptual thinking and visual production as the primary tasks of the graphic designer. Social and cultural considerations will be investigated through projects, exercises and lectures. Students will be introduced to strategies and tactics utilized to create design artifacts.

GD 105 or ART 105 or ANI 105 or GPH 211 is a prerequisite for this class

GD 210 | DIGITAL ILLUSTRATION | 4 quarter hours  
(Undergraduate)  
Introduction to illustration development in image, line and photography, combining computer applications and hand-rendered approaches. PREREQUISITE(S): GD 105 or ART 105 or ANI 105 or GPH 211. GD 105 or ART 105 or ANI 105 or GPH 211 is a prerequisite for this class

GD 211 | INTERMEDIATE DIGITAL ILLUSTRATION | 4 quarter hours  
(Undergraduate)  
Intermediate practice for illustration development in image, line and photography. Combining computer applications and hand-rendered approaches will be studied. PREREQUISITE(S): GD 105 or ANI 105 or ART 106.

GD 105 or ANI 105 or ART 106 is a prerequisite for this class

GD 215 | WEB DESIGN FOR COMMERCIAL PROJECTS | 4 quarter hours  
(Undergraduate)  
This is a design-focused web class on intermediate concepts and techniques in the visual design, development and implementation of websites for commercial purposes. Students will use industry standard applications and design processes.

UXD 270 OR GD 110 is prerequisite for this class.

GD 216 | WEB DESIGN FOR ARTISTS | 4 quarter hours  
(Undergraduate)  
A design-focused web class that focuses on intermediate concepts and techniques in the visual design, development and implementation of websites for personal expression and artistic experimentation. Students will use industry standard design applications and some hand coding in HTML and CSS. PREREQUISITE(S): GD 110 or IT 130 or HCI 201 or ART 385.

GD 110 or IT 130 or HCI 201 or ART 385 is a prerequisite for this class

GD 217 | WEB INTERACTION WORKSHOP | 2-2.25 quarter hours  
(Undergraduate)  
A hands-on introduction to integrating user activity into the visual language of web design. Students will learn fundamental skills necessary for basic interaction design, and will explore widely-adopted frameworks allowing them to capture events in the web browser, programmatically traverse a web page, and alter the design and content of a page based on the actions of the user. (2 quarter hours)

GD 220 | HISTORY OF DESIGN I | 4 quarter hours  
(Undergraduate)  
The history of graphic design is an evolution in aesthetics, technology, style and visual communication. The class will encompass a survey of the major movements in the field of print design, notable designers and design materials. The nature of changing methods, materials, technologies and values are examined in the context of the social and political realities that shape communication. The course will include the historical shift from print to multimedia design methodologies.

GD 221 | TRENDS IN CONTEMPORARY GRAPHIC DESIGN | 4 quarter hours  
(Undergraduate)  
World movements in design and contemporary practice in print, web and experiential design. GD 220 is a prerequisite for this class.

GD 230 | TYPOGRAPHY: FORM | 4 quarter hours  
(Undergraduate)  
This course introduces the principles and theories of graphic design. Processes and methodologies related to visual problem solving will be explored and techniques of visual design will be taught and incorporated into class projects. Projects will combine words, images and graphic elements to address design problems in meaningful ways that give your audience new understanding and experiences. Theories and visual movements will be examined through lectures and put into practice during class projects.

GD 105 or ART 105 or ANI 105 or GPH 211 is a prerequisite for this class
GD 230 OR GD 232 is a prerequisite for this class.

GD 232 | TYPOGRAPHY: SYSTEMS | 4 quarter hours
(Undergraduate)
This course is the study of the underlying formal principles that guide the use of typography in design. The study of the grid—how it is created and utilized as a means of organization and clarity—will be examined through class projects and exercises. The use of micro- and macro-typographic principles will be put into practice and students will be introduced to multiple methodologies for organizing and utilizing typographic elements to create syntax.

GD 230 OR GD 232 is a prerequisite for this class.

GD 230 | TYPOGRAPHY: PROJECTS | 4 quarter hours
(Undergraduate)
This course is the study of the underlying formal principles that guide the use of typography in design. The study of the grid—how it is created and utilized as a means of organization and clarity—will be examined through class projects and exercises. The use of micro- and macro-typographic principles will be put into practice and students will be introduced to multiple methodologies for organizing and utilizing typographic elements to create syntax.

GD 200 OR GD 205 is a prerequisite for this class.

GD 205 | INVESTIGATING THE MATERIAL GLITCH | 4 quarter hours
(Undergraduate)
This course will investigate binary ideas fundamental to most design practice (good/bad, positive/negative, digital/analog) through the creation of images which are neither one nor the other—but fall into the space between, the space of a glitch. This course will use graphic printing-making methods as a tool to examine these ideas—including stencils, wood blocks, xerox transfers, and cyanotypes. Students will learn the technical aspects of each process. This course will be taught through discussion, critique, and studio work utilizing analog and digital drawing methods. There will also be instruction on the use of both the laser cutter and the CNC router in the DePaul makerspace.

GD 200 OR GD 205 is a prerequisite for this class.

GD 315 | WEB DESIGN: ADVANCED PROJECTS | 4 quarter hours
(Undergraduate)
This course will emphasize interactivity and professional presentation for advanced multimedia web sites for artistic and commercial projects. Advanced concepts and techniques in the visual design and implementation of web pages. Students will use industry standard web design applications and some hand coding in HTML and CSS. PREREQUISITE(S): GD 215 or GD 216.

GD 215 or GD 216 is a prerequisite for this class.

GD 330 | TYPOGRAPHY: PROJECTS | 4 quarter hours
(Undergraduate)
This course is an advanced investigation into typography and text for verbal and visual expression. Analysis of meaning and structure, design composition, and communication to specific audiences is studied. Projects are both pragmatic (for example, textbook design), and expressionistic (found and constructed typographic compositions that are poetic and conceptual). Emphasis is placed on the study and creation of meaning in relation to audience, culture, and history. Some content is provided in certain projects and in others is largely based on the student's own research and writing.

GD 230 is a prerequisite for this class.

GD 331 | HISTORY AND PRACTICE: FILM TITLE DESIGN | 4 quarter hours
(Undergraduate)
This course combines the history of film title design examining the likes of the notorious title sequences of such graphic designers as Saul Bass in creating the Hitchcock movies through Stephen Frankfurt, Maurice Binder and Kyle Cooper's "Se7en." The study leads to the advanced practice of combining typography, graphics, and moving images to build professional projects for advertising design, web design, film design, game design and commercial ventures. PREREQUISITE(S): GD 230 and (ANI 260 or GD 231)

GD 230 and (ANI 260 or GD 231) are prerequisites for this class.

GD 200 and GD 230 are prerequisites for this class.
GD 332 | DESIGN FUTURES | 4 quarter hours  
(Undergraduate)
This course will provide an introduction to Design Futures (also called Design Fiction, Speculative Design and Critical Design)?including history, theory and methods for speculation, design fiction, business strategy and appropriate elements of visual narrative and storytelling to showcase ideas, strategy, and foresight. How are futures imagined, prototyped and created over time? Where, how and for whom are futures being considered? Who is included and excluded? Where are opportunities to create alternative futures, and how might a designer engage and contribute? How can a designer consider and engage in future ethics in various phases of the design creation and product lifecycle? This course includes lectures, discussions, critiques/presentations, hands on activities, and lab (computer work) time and weekly assignments. Students will be expected to research, write, design and document their work. Hands-on making (studio work) will engage a range of approaches from business, art, tech, and design as a means to bring possible futures narratives to life, while the weekly readings and discussions will provide background for analysis of the studio work. Students will engage with emerging technology and future ethics including AR, digital fabrication, sensory design, and AI, among others through the lens of Graphic Design.
GD 200 AND GD 230 are prerequisites for this class.

GD 338 | DIGITAL TYPEFACE DESIGN | 4 quarter hours  
(Undergraduate)
The course is an introduction to the formal, technical, and historical foundations of typeface design. Students will use a combination of analog and digital methods to explore the design of letterforms, numerals, and supporting material such as punctuation and diacritics in the production of usable digital fonts.
GD 230 AND GD 150 are prerequisites for this class.

GD 340 | PUBLICATION DESIGN | 4 quarter hours  
(Undergraduate)
Design of multiple page documents: magazines, catalogs, and annual reports. Emphasis placed on research methodology, conceptual approach and audience. Knowledge of computer applications and typography are assumed. PREREQUISITE(S): GD 200 and GD 230.
GD 200 and GD 230 are prerequisites for this class.

GD 341 | BOOK MAKING AND BINDING WORKSHOP | 2 quarter hours  
(Undergraduate)
This is an introductory course covering the basic principles of hand bookbinding including theories of book structure, review of paper information and bookbinding materials. The class will be a mixture of demonstrations and practical exercises, and each student will produce a variety of books and structures. PREREQUISITE(S): GD 105 (2 quarter hours)
GD 105 is a prerequisite for this class.

GD 350 | PORTFOLIO WORKSHOP | 2 quarter hours  
(Undergraduate)
Students review previous course projects and prepare a final portfolio as well as their own design identity and a resume in preparation for job interviews and/or graduate school. Visiting design professionals will present their work to the class and share their experiences in the field. Students will also learn presentational techniques and methods for career development. PREREQUISITE(S): GD 200 and GD 210 and GD 230 (2 quarter hours)
GD 200, GD 210 and GD 230 are prerequisites for this class.

GD 355 | PACKAGING DESIGN | 4 quarter hours  
(Undergraduate)
This course defines the role of packaging in product identification, presentation, and production. Projects will introduce the process of designing the graphic and physical forms of packaging design. Students will create 3-dimensional, physical packages including 2-dimensional branding, graphic and photographic image development. The materials of production, and consideration of user and market inherent in all commercial projects are covered, including the client's needs and desires in the market place. PREREQUISITE(S): GD 200 and GD 230.
GD 200 and GD 230 are prerequisites for this class.

GD 356 | LOGO, BRANDING, AND VISUAL IDENTITY | 4 quarter hours  
(Undergraduate)
The course provides students with an understanding of methodologies and strategies used for logo development, branding, and visual identity. In this course, students will work on, in extended projects, exploring identity systems with various forms such as logo, stationary, packaging, signage, print and web design. PREREQUISITE(S): GD 200 and GD 230.
GD 200 and GD 230 are prerequisites for this class.

GD 360 | ADVERTISING DESIGN | 4 quarter hours  
(Undergraduate)
Explores the function and practice of design in advertising in both social and art historical contexts. This course engages practical real life projects as well as projects that explore cultural and artistic practices. PREREQUISITE(S): GD 200 and GD 230.
GD 200 and GD 230 are prerequisites for this class.

GD 365 | ADVANCED MOTION GRAPHICS | 4 quarter hours  
(Undergraduate)
This course builds on motion graphics fundamentals covered in ANI260 Motion Graphics. In Advanced Motion Graphics, students will work to develop a better understanding of how to develop a distinct visual style in both personal work and in work for clients. The course also focuses on gaining familiarity with contemporary styles and trends in professional motion graphics, and an awareness of Chicago-based motion graphics production. PREREQUISITE(S): ANI260.
ANI 260 is a prerequisite for this class.

GD 380 | STRATEGY AND DESIGN WITH COMMUNITY CLIENT | 4 quarter hours  
(Undergraduate)
This course enables students to work from start to finish on client-based graphic design and projects. Students establish working relationships as individuals and in teams that utilize their skills to effectively evaluate the communication needs of an organization or business, develop design solutions that fulfill those needs, and negotiate the process between designers and clients. Objectives of the course include: improving student’s developing design skills to an advanced level, creating awareness of current design trends, supporting student’s development of independent working habits, utilizing integration of both hand-skills and the computer as design tools, and completing professional projects after staged client feedback and revisions.
GD 300 OR GD 330 is a prerequisite for this class.
GD 381 | GRAPHIC DESIGN PORTFOLIO DEVELOPMENT | 4 quarter hours
(Undergraduate)
This course provides the student with an opportunity to prepare themselves for the workplace. During the course, students will refine a body of design work and publish their portfolio in both print and web formats. Students will design and develop their own visual identity, resume, cover letter, and business cards in preparation for job interviews and/or graduate school. They will also spend the quarter researching potential employers and learn about each company, agency, and/or studio so that they can strategically tailor their application process.

PREREQUISITE(S): GD 110 and GD 210 and GD 300.
GD 110, GD 210 and GD 300 are prerequisites for this class.
GD 390 | SPECIAL TOPICS IN GRAPHIC DESIGN | 1-4.5 quarter hours
(Undergraduate)
Specific topics selected by the instructor. Topic varies with each offering. Contact instructor for more information. Prerequisite(s): See syllabus.
GD 394 | CAPSTONE PROJECT I | 4 quarter hours
(Undergraduate)
This two course sequence provides a Graphic Design-specific capstone experience for the student. The capstone course will connect the student's Graphic Design course work with the University courses s/he has taken through three components: student-generated design proposals, class/instructor discussions, and the actual creation/production of the student's proposal. The production piece is the primary focus of this course that takes place over two quarters.

(GD 300 OR GD 330) AND Senior Standing are prerequisites for this class.
GD 395 | CAPSTONE PROJECT II | 4 quarter hours
(Undergraduate)
This two course sequence provides a Graphic Design-specific capstone experience for the student. The capstone course will connect the student's Graphic Design course work with the University courses s/he has taken through three components: student-generated design proposals, class/instructor discussions, and the actual creation/production of the student's proposal. The production piece is the primary focus of this course that takes place over two quarters.

PREREQUISITE(S): GD 394.
GD 394 is a prerequisite for this class.
GD 399 | INDEPENDENT STUDY | 1-8 quarter hours
(Undergraduate)
Independent study supervised by an instructor. Independent study form required. Can be repeated for credit. Variable credit. Prerequisite(s): Instructor and dean approval.
GD 400 | GRAPHIC DESIGN STUDIO | 6 quarter hours
(Graduate)
Working closely with a faculty advisor, and guided by feedback from both faculty and peers, students will engage in a series of self-directed and wide-ranging design projects enhancing the breadth and depth of the skill set that they bring to the program. Students will also broaden their design practice and the cultural, political, social, and environmental impact of their work as designers. This series provides students the means to craft a strategy for their design thesis which will be the focus of year two.

GD 410 | DESIGN: RESEARCH, WRITING, MAKING DESIGN | 4 quarter hours
(Graduate)
This course examines graphic design as a nexus among research methodology, writing and creative practice. Theories, strategies and practical frameworks will be explored as they relate to the culture and practice of contemporary design. This course is intended as a launch pad for students to engage in a process of critical inquiry into contemporary and historical design culture and to engender in them a fundamental value for intellectual activity as a defining component of their practice.
GD 420 | TYPOGRAPHIC COMMUNICATION | 4 quarter hours
(Graduate)
The use of typography as a primary form of communication. This course will study the advanced theories of letterforms, type design, usability, legibility and complex grid structures. The course will also emphasize the study of human behavior, perception, biases, and preferences as it relates to the use and application of typographic. Cultural implications within typographic practice will be explored. Elements of professional and academic theory will be applied to student projects.

GD 501 | GRAPHIC DESIGN THESIS PREP | 6 quarter hours
(Graduate)
In collaboration with faculty advisors and peers, students begin an intensive development on their thesis proposal, working to define an area of study, articulate personal and professional goals, and generate a formal body of work and a written component into an edited and synthesized whole. A thesis project is an original body of work that reflects an increasing focus and considered view on a particular theme or topic accompanied by a written component that encapsulates and articulates the central ideas of the thesis and traces the progression and development of the thesis project. Critical theory, history, and reflection upon acquired knowledge are integrated as a part of this reflective process with an emphasis on specific objectives and clarity of outcomes in writing and physical output.

GD 502 | GRAPHIC DESIGN THESIS STUDIO | 6 quarter hours
(Graduate)
Working closely with a faculty advisor, and guided by feedback from both faculty and peers, students will engage in a self-directed, design project and written thesis. Through further developing a design practice that values making, collaboration, writing, critique, and research-based inquiry?and driven by a thesis question developed during Design thesis prep?students are expected to investigate the designer?s role in the creation of meaning. Both a complete written thesis and final design documents will be required for completion.
GD 510 | DESIGN LEADERSHIP | 4 quarter hours
(Graduate)
Design Leadership is defined as relationship to a team, building and nurturing a creative space marked by psychological safety so the most innovative ideas may grow into solutions for whatever questions and tasks face the team. The team includes different kinds of designers, photographers, researchers, artists, strategists, and members of collaborating client teams in their various roles. Managing these dynamics with support and an environment of innovation and creative collaboration is essential. This course studies and practices all aspects of this world through theory, methodologies and practice in team building in the classroom among students and faculty, and with clients or community partners where possible and appropriate. The course will be run as a topics course to bring in different and timely perspectives.
Basic Classical Greek 101 is the first ancient Greek reading course. It introduces students to the basics of the language of the ancient Athenians, Attic Greek, which includes the Greek alphabet, pronunciation and the beginnings of Greek grammar. Students will begin to develop reading and writing skills as they encounter small passages of ancient Greek text, the standard method for learning this ancient tongue being partly memorization and partly language immersion. Students will be expected to read through small passages of ancient Greek, but not without assistance. This course focuses primarily on syntax, grammar and memorization of paradigms, yet students also translate ancient Greek as they proceed, learning rudiments of the language as well as cultural aspects of the ancient Greeks at varying epochs.

Basic Classical Greek 102 is the second ancient Greek reading course. It introduces students to the basics of the language of the ancient Athenians, Attic Greek, which includes the Greek alphabet, pronunciation and the beginnings of Greek grammar. Students will begin to develop reading and writing skills as they encounter small passages of ancient Greek text, the standard method for learning this ancient tongue being partly memorization and partly language immersion. Students will be expected to read through small passages of ancient Greek, but not without assistance. This course focuses primarily on syntax, grammar and memorization of paradigms, yet students also translate ancient Greek as they proceed, learning rudiments of the language as well as cultural aspects of the ancient Greeks at varying epochs.

Basic Classical Greek 103 is the third ancient Greek reading course. It introduces students to the basics of the language of the ancient Athenians, Attic Greek, which includes the Greek alphabet, pronunciation and the beginnings of Greek grammar. Students will begin to develop reading and writing skills as they encounter small passages of ancient Greek text, the standard method for learning this ancient tongue being partly memorization and partly language immersion. Students will be expected to read through small passages of ancient Greek, but not without assistance. This course focuses primarily on syntax, grammar and memorization of paradigms, yet students also translate ancient Greek as they proceed, learning rudiments of the language as well as cultural aspects of the ancient Greeks at varying epochs.

Intermediate Ancient Greek is an introduction to ancient Greek poetry. This course will give students a review of grammar and forms along with reading exercises. Students concentrate on reading large sections of text in an effort to derive meaning and historical significance from the meter and the meaning of the ancient language. Continued drill on forms and reading for comprehension are the tools used by students. Students will be expected to read through passages of ancient Greek with relative dexterity, and they will begin to parse through the texts in class in order to inculcate the skills of navigating entire texts. Students begin to develop affinity for specific authors from the poetic tradition of the ancient Greeks. They shall have the opportunity to choose a specific work or poet in order to gain at least an introductory exposure to what may become their unique interest in the ancient world. This course emphasizes the completion of poems in order that the student becomes more comfortable with the ancient language. This course is a must for students of history, especially that of the western tradition, and it is imperative for the student interested in remaining capable of translating even the simplest ancient Greek passages. Greek 103 or equivalent, including placement test or permission of instructor, is recommended.

Intermediate Ancient Greek is an introduction to ancient Greek poetry. This course will give students a review of grammar and forms along with reading exercises. This course is a must for students of history, especially that of the western tradition, and it is imperative for the student interested in remaining capable of translating even the simplest ancient Greek passages. Greek 105 or equivalent, including placement test or permission of instructor, is recommended.

GRK 197 | SPECIAL TOPICS IN GREEK | 4 quarter hours
(Undergraduate)
See schedule for current offerings.

GRK 198 | INDEPENDENT STUDY | 0.5-8 quarter hour
(Undergraduate)
Variable credit.

GRK 199 | STUDY ABROAD | 1-8 quarter hours
(Undergraduate)
Variable credit.

GRK 297 | SPECIAL TOPICS IN GREEK | 4 quarter hours
(Undergraduate)
See schedule for current offerings.

GRK 298 | STUDY ABROAD | 1-8 quarter hours
(Undergraduate)
Variable credit.

GRK 299 | INDEPENDENT STUDY | 0.5-8 quarter hour
(Undergraduate)
Variable credit.

GRK 395 | FOREIGN LANGUAGES ACROSS THE CURRICULUM | 2 quarter hours
(Undergraduate)
The two credit FLAC course allows students to enrich their experience in the co-required course primarily through added reading and writing activities in Ancient Greek. Students must have the equivalent of 106 or higher ability in Ancient Greek to take this two credit component. Please contact the Department of Modern Languages if you have questions about this course or about language placement.

GRK 397 | SPECIAL TOPICS IN GREEK | 4 quarter hours
(Undergraduate)
See schedule for current offerings.

GRK 398 | STUDY ABROAD | 1-8 quarter hours
(Undergraduate)
Variable credit.

GRK 498 | STUDY ABROAD | 1-8 quarter hours
(Graduate)
Variable credit.

GRK 499 | INDEPENDENT STUDY | 4-8 quarter hours
(Graduate)
Variable credit.

Health Communication (HTHC)

HTHC 515 | INTRO TO HEALTH COMMUNICATION | 4 quarter hours
(Graduate)
Because of the increasing degree of health consciousness in our society, individuals not only interact more frequently with health care providers, but health care organizations play more active roles in their surrounding communities. In addition, health care cultures are changing. Health care organizations play active social and political roles when responding to national health issues or crises. Hence, it is important that we, as consumers of health care, understand the communication challenges that are inherent within health care organizations, and how those can impact the effectiveness of our communication as a participant in health care contexts.

Status as a College of Communication Graduate Student or Health Informatics Student or department consent is a prerequisite for this class.

HTHC 516 | RESEARCH METHODS FOR HEALTH CARE PRACTITIONERS | 4 quarter hours
(Graduate)
This course focuses on health care methodologies relevant to health care administration, including a cross-section of both qualitative and quantitative methodologies; designing questionnaires and surveys; the analysis and presentation of survey data; interviewing strategies; and analysis and presentation of qualitative data. Students will also be provided with skilled technical writing assignments geared toward providing an understanding of how to most effectively present data within the contexts of reports, visuals for meeting or memoranda.

Status as a College of Communication Graduate Student or department consent is a prerequisite for this class.

HTHC 517 | COMMUNICATION, HEALTH DISPARITIES, AND CULTURE | 4 quarter hours
(Graduate)
The U.S. Department of Health and Human Services recognizes the role of communication in addressing health disparities. Health literacy (the process of obtaining, processing and understanding basic health information), for example, differs widely across cultural and other demographic identity markers. This course examines the role of communication in health literacy, health disparities, and cultural differences in approaches to health. (Previously HTHC 517 Health Care Literacy).

Status as a College of Communication Graduate Student or department consent is a prerequisite for this class.
HTHC 519 | ASSESSMENT AND INTERVENTION FOR HEALTH CARE ADMINISTRATORS | 4 quarter hours (Graduate)

Health care practitioners must acquire management consulting skills necessary to identify areas in need of change within health care organizations. Problem identification, data collection, intervention and implementation phases of assessment and intervention are taught from the perspective of the health care organization. The course probes common management problems in health care, internal working relationship challenges as well as organizational structure issues that arise.

Status as a College of Communication Graduate Student or department consent is a prerequisite for this class.

HTHC 520 | HEALTH CARE CAMPAIGNS AND COMMUNITY ACTION | 4 quarter hours (Graduate)

This course will focus on the use of communication strategies to inform and influence individual and community decisions regarding health in the following contexts: the multidimensional nature of health communication; understanding empirical research in health communication; behavioral theories in health communication; rhetorical theories in health communication; legal and ethical concerns in health communication; the communication of risk and uncertainty; and the design of health campaigns.

Status as a College of Communication Graduate Student or department consent is a prerequisite for this class.

HTHC 521 | HEALTH AND FAMILY COMMUNICATION | 4 quarter hours (Graduate)

The course, Family and Health Communication, addresses health-related issues that families may experience, while situating them within a theoretical context. Using theories such as Family Systems Theory and Communication Privacy Management Theory, this course will take a Lifespan Approach to better understand family health issues. Some of the topics that will be covered in this course may include care giving responsibilities, long-term disease, disability, addiction, psychological disruption, sexual health, and end of life issues as affects the family system. Cultural and social norms, in addition to public and health policies are also addressed, as they provide insight into the larger scope of understanding family and health communication, as ultimately, the health of family members impact the functioning of the family system.

Status as a College of Communication Graduate Student or department consent is a prerequisite for this class.

HTHC 523 | TOPICS IN HEALTH COMMUNICATION | 4 quarter hours (Graduate)

Topics will include: Gay, Lesbian and Transgender Health Care Issues, Patient Advocacy, Communication and Constraint, Multicultural Communication in Health Care Contexts and Advance Care Planning.

Status as a College of Communication Graduate Student or department consent is a prerequisite for this class.

HTHC 524 | HEALTH CARE TEAMS & LEADERSHIP | 4 quarter hours (Graduate)

Modern organizations are increasingly interested in shifting their organizational structures towards the goal of creating self-managed work teams. Much of the health care delivery system is already structured formally or informally around the team concept, whether these be surgery teams, consulting office staff, or other health and wellness delivery personnel. Therefore, those pursuing a career in health care greatly benefit from knowledge and experience with two interdependent aspects of group dynamics: decision-making under conditions of uncertainty, and the philosophy and practice of developing groups into self-managed teams. This course will combine a lecture/discussion with a teamwork intensive action learning component towards the goal of making the student competent to either create or optimize the results of self-managed work teams in their own organization (if called upon to do so), or to understand and thrive in this work mode without stress.

Status as a College of Communication Graduate Student or department consent is a prerequisite for this class.

HTHC 525 | NARRATIVES IN HEALTH CARE | 4 quarter hours (Graduate)

Focusing on the performance and narrative paradigms of communication studies, the course will survey uses of performance and narrative methods to consider health communication relationships. Narrative and narrative performance are sites of health communication issues for marginalized populations, difficult conversations, and alternate means of reporting. For example, narrative and narrative performance are increasingly being used as part of medical curriculum, as a means to train health care professionals to understand the experiences of their patients, encourage deep listening, and foster different professional-patient relations. For cancer, HIV/AIDS, and other patients, performance becomes a means of speaking into mainstream and dominant discourses of health and to actively shape discourses from their own subjectivities. This increases the visibility of health care experiences in their gendered, sexualized, and racialized dimensions. Finally, narrative and narrative performance offers an additional means of visibility in catalyzing change in public, legislative, scholarly and relational arenas.

Status as a College of Communication Graduate Student or department consent is a prerequisite for this class.

HTHC 526 | SOCIAL CONSTRUCTION OF HEALTH AND ILLNESS | 4 quarter hours (Graduate)

Beginning with foundational theories and principles of social construction, the course examines cases illustrating socially-constructed features of healthcare. We discuss (a) medicine as a gendered and hierarchical institution, (2) specialized languages used to describe/construct specific illnesses (e.g. anorexia and obesity, addiction, depression, HIV/AIDS), and (3) how constructed realities become internalized through primary and secondary socialization within the family, through media, and through encounters with the health care system.

Status as a College of Communication Graduate Student or department consent is a prerequisite for this class.
HTHC 592 | INDEPENDENT STUDY | 4 quarter hours (Graduate)
Students will be guided in the development of a special project that furthers their collaboration with an instructor and produces a report that demonstrates their mastery of critical content and competencies. The independent study option is intended for students who have demonstrated a mastery of course content, who would benefit from a sustained, focused collaboration with a relevant faculty member.

Status as a Graduate Health Communication student and Director approval is a prerequisite for this class.

HTHC 599 | RESEARCH THESIS | 4 quarter hours (Graduate)
Enroll in 599 during the term you plan to defend your thesis or complete your final project. This is a graded, 4-credit hour course. Tuition is charged. You must have a scheduled defense/completion date to be approved for this class. Your thesis/project advisor needs to communicate this date to the Graduate Studies Director for your program, before you are allowed to enroll. Loan deferment is allowed to those registered for this class.

Status as a Graduate Health Communication student and Director approval is a prerequisite for this class.

HTHC 601 | ACTIVE DEGREE COMPLETION | 0 quarter hour (Graduate)
CMNS 601 Active Degree Completion HTHC 601 Active Degree Completion This is a 0-credit hour course that is available to students who are working actively toward the completion of a thesis or project. Enrollment in this course is limited to the two quarters prior to the defense of the thesis/project and requires thesis/project advisor and graduate director approval and proof of work each quarter. Enrollment in this course allows access to the library and other campus facilities. This course carries half-time enrollment status and eligibility for loan deferment and student loans. This course is graded as pass/fail. (0 credit hours)

Graduate HTHCM students

HTHC 602 | CANDIDACY CONTINUATION | 0 quarter hour (Graduate)
CMNS 602 Candidacy Continuation HTHC 602 Candidacy Continuation This is a 0-credit hour course that requires permission from the graduate director. Students can enroll in this course if they are finishing a course in which they received an incomplete (IN) and are not registered for any other regular credit-bearing courses in the quarter they plan to finish the incomplete. Enrollment in this course is limited to the two quarters following the quarter of the original incomplete (IN) grade. Enrollment in this course allows access to the library and other campus facilities. This course does not carry any enrollment status. Students enrolled in this course are not eligible for loan deferment or student loans. This course is not graded. (0 credit hours)

Graduate HTHCM students

Health Information Technology (HIT)

HIT 421 | HEALTH INFORMATICS | 4 quarter hours (Graduate)
This course provides an overview of fundamental concepts of information management including the information that healthcare organizations generate and use, the importance of data quality, and external factors that impact healthcare data management. The curriculum will also examine information systems (i.e., the arrangement and interaction of information, processes, people, and technology) as well as system standards and security issues. Finally, special consideration will be given to management, responsibilities and challenges in aligning information technology (IT) planning with an organization's strategic planning as a means to create competitive advantage. Prerequisite(s): Status as a Health Informatics student is a prerequisite for this class.

Status as Health Informatics student is a prerequisite for this class

HIT 422 | SYSTEM DESIGN FOR HEALTH CARE | 4 quarter hours (Graduate)
Course focus is on systems design for health care that enhances quality of patient care and satisfaction, staff efficiency, and improving patient outcomes. Specific topics include: database design; interface and dialogue design in the context of workflow; usability and human factors; report design; system implementation; and system maintenance. PREREQUISITE(S): None.

HIT 430 | ELECTRONIC HEALTH RECORDS | 4 quarter hours (Graduate)
Comprehensive overview of principles and practices of Electronic Health Records (EHR) management, including data standards and integration, interoperability and information exchange models, data security, and privacy.

HIT 440 | ELECTRONIC HEALTH EXCHANGE AND NETWORKING | 4 quarter hours (Graduate)
This course discusses electronic health information systems and their design, implementation and application including information security, privacy and integrity, data exchange standards, basic principles of telecommunications and infrastructure security, and discussion of challenges of adopting HIE systems.

HIT 451 | ACCOUNTING AND FINANCIAL MANAGEMENT IN HEALTHCARE | 4 quarter hours (Graduate)
This course is intended to prepare the student to effectively interact with accounting and financial management staff and participate in various aspects of financial control and planning. The curriculum provides an historical perspective of financial management in healthcare, identifying trends in the industry and the forces that influence the financing of healthcare organizations. Financial statements, the interpretation and analysis of financial reports, and topics such as cost-benefit analysis, budgeting, and capital management will also be addressed. Consideration will be given to the cost effectiveness and financial future of healthcare organizations. Prerequisite(s): Status as a Health Informatics student is a prerequisite for this class.
The hospital is the centerpiece of the healthcare system, so much healthcare is delivered outside this setting. Students will be introduced to many healthcare services outside the traditional setting of the hospital and gain knowledge of the operations of such healthcare settings. The course will be divided into four parts: Traditional care, Diagnosing, Acute-Care Treatment, and Chronic Care and within each area students will explore the basic settings such as outpatient clinics and surgical centers, pharmacies, outpatient laboratories, chiropractic centers, and adult day care, and hospice care. Prerequisite(s): Status as a Health Informatics student is a prerequisite for this class.

This course reviews the American legal system as the context within which to consider contemporary medico-legal issues. The courses intent is to provide a legal framework where healthcare management issues can be explored in collaboration with legal counsel. The curriculum addresses such topics as: professional liability, corporate entity risk considerations, and relevant legislative activities reshaping the healthcare industry and tort reform initiatives. Case studies will augment the legal theories presented in the course. Prerequisite(s): Status as a Health Informatics student is a prerequisite for this class.

This course explores the growing and complicated landscape of the health professions. Students will explore a board range of careers available to people interested in the health of communities and individuals, helping them to identify their own skills, interests, and values. Designed for students in all majors who are interested in exploring a professional interest in health sciences, this course will include aspects of self-assessment and career exploration, health industry research, and connecting with individuals in the field. (2 quarter hours)

This course provides a foundation for studying biological functioning of the human organism. Students will explore the basic principles of chemistry, cellular and molecular biology, and human genetics. In addition, we will examine the integral relationship between form and function that has evolved into the human body, with particular attention paid to the investigation of tissue organization, the biology of movement, and critical organ systems (nervous, endocrine, cardiovascular, and urinary). Related topics in human health and disease will also be discussed. Students practice standard microbial techniques in the laboratory, including bacterial culture, microscopy, antimicrobial testing, and species identification. A grade of C- or higher in BIO 191 is a prerequisite for this class.

This course introduces the student to the specialized vocabulary of the Health Care environment. Terminology used in medical professions will be learned with an emphasis on understanding word roots and building vocabulary. Through studying each system of the body, terminology will be associated with specific anatomy, physiology, functions and minimal pathology of the human body. (2 quarter hours)

This course explores the American legal system as the context within which to consider contemporary medico-legal issues. A grade of C- or higher in BIO 191 is a prerequisite for this class.
HLTH 201 | INTRODUCTION TO HEALTH SCIENCE | 4 quarter hours (Undergraduate)
This course introduces students to the B.S. in Health Sciences undergraduate program. The course aims to introduce students to the range of disciplines (biological, sociological, psychological, and political) found within the health sciences, and how each contributes to our understandings of human health and illness. This will allow the students to better understand the nature of health care delivery and the methods that will best improve the health status of both individuals and the population.

HLTH 202 | HEALTH RESEARCH LITERACY | 4 quarter hours (Undergraduate)
The purpose of this course is to provide students the methodology and skills required for literacy in health, and to comprehend the results of health sciences research. In this course students seeking careers in the health sciences will go beyond the health literacy level suggested for the general public in preparation for professional practice in clinical, policy, administrative, and basic science fields.

HLTH 201 is a prerequisite for this class.

HLTH 210 | INTRODUCTION TO PUBLIC HEALTH | 4 quarter hours (Undergraduate)
This course is designed to lay out the concepts, principles, and case outcomes of public health practice. It considers community health data source, classical intervention approaches, and the planning and evaluation of community health interventions.

HLTH 201 and 202 are a prerequisite for this class.

HLTH 218 | PUBLIC HEALTH SCHOLARS BOWL TEAM | 2-4 quarter hours (Undergraduate)
Students will research, prepare presentations about, and discuss public health topics such as the scourge of health disparities, the nuances of health education and promotion, and how to solve epidemiological mysteries. Students will also hone their quiz bowl skills through internal class practice rounds and complete out-of-class practice through online quizzes. The quarter culminates with student case study presentations based on the previous competition year’s case study topic such as sleep disorders among college students and global health issues that can be tackled by student-led initiatives.

HLTH 220 | HEALTH RESEARCH LITERACY | 4 quarter hours (Undergraduate)
The purpose of this course is to introduce students to health issues relevant to gay men. We will explore the effects of minority status, heterosexism, and homophobia on gay men’s health, including but not limited to STD/HIV/AIDS, substance use and mental health. Students will review epidemiological data, theoretical frameworks, and community-based health promotion approaches in order to gain a broad perspective on risk and resilience factors, health indicators, and strategies for self-care applicable to gay men’s health.

HLTH 240 | HEALTH STATISTICS | 4 quarter hours (Undergraduate)
This course will introduce the basic principles and procedures of statistics as commonly used in health sciences. The course will cover statistical methods for single variable or multivariate, quantitative, and categorical data sources. The main goal is to prepare students to interpret health data, analyze data using the correct analytical methods, and present the findings in a way that is accessible to the public. In addition, this class will focus on literature review and critical evaluation through article critiques. Finally, students will be introduced to the computer based analytical software SPSS for beginner level data analysis and interpretation.

MAT 100, MAT 101 or equivalent or higher is a prerequisite for this class.

HLTH 230 | FUNDAMENTALS OF HEALTH EDUCATION | 4 quarter hours (Undergraduate)
This course provides health education majors with a foundational understanding of the professional health education field. Students will examine health education’s role in planning, implementing, and evaluating the behavioral health challenges that affect the wellbeing of individuals and communities. Students will learn and then practice designing and delivering a wide range of health education activities, grounded in behavioral change theories, in a variety of settings and to diverse audiences. Finally, students will critically examine these issues through a variety of academic experiences, including academic service in a community setting, in order to identify and apply health education practices and principles that contribute to health promotion and disease prevention.

HLTH 236 | GAY MEN’S HEALTH MATTERS | 4 quarter hours (Undergraduate)
The purpose of this course is to introduce students to health issues relevant to gay men. We will explore the effects of minority status, heterosexism, and homophobia on gay men’s health, including but not limited to STD/HIV/AIDS, substance use and mental health. Students will review epidemiological data, theoretical frameworks, and community-based health promotion approaches in order to gain a broad perspective on risk and resilience factors, health indicators, and strategies for self-care applicable to gay men’s health.

HLTH 250 | HEALTH CARE POLICY IN THE UNITED STATES | 4 quarter hours (Undergraduate)
This course provides an introduction to the ethical and moral theories that frame our response to fundamental issues in the health sciences. Moral philosophers, such as Aristotle, Thomas Aquinas and Immanuel Kant, all pose questions about the nature of right and wrong, and what is meant by a good life. The first part of the course examines the work of these philosophers and then uses them in order to think through specific topics, including: confidentiality, informed consent and end of life decision-making; health care disparities and health care reform; and global health ethics. Students who have taken REL 229 Medicine, Ethics, and Society, or PHL 229 Biomedical Ethics should not enroll in this course.

HLTH 280 | HEALTH TOPICS | 2-4.5 quarter hours (Undergraduate)
Special topics in health sciences course designed for non-majors, or it may be used as an open elective for health sciences majors.
HLTH 301 | INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-A | 4 quarter hours  
(Undergraduate)  
This course explores the fundamental principles of human anatomy and physiology that specifically relate to the sensation and perception of environmental stimuli, as well as the response to such challenges. In this context, broad consideration will be given to the body’s various modes of cellular and tissue communication, with special emphasis on the interplay between the integumentary, skeletomuscular, nervous, and endocrine systems. In addition, the integrated approach will provide a strong foundation for the serial investigation of relevant topics relating to human health and disease, and clinical intervention. The required weekly laboratory component allows students to integrate and apply theory based lecture knowledge to hands-on anatomic and physiologic exercises, as well as provide critical analysis of course learning outcomes.  
**HLTH 210 is a prerequisite for this class.**

BIO 193 and (CHE 134 or CHE 138) are a prerequisite for this class.

HLTH 302 | INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-B | 4 quarter hours  
(Undergraduate)  
This course explores the fundamental principles of human anatomy and physiology that specifically relate to the dynamic integration of critical organ systems. With the cardiovascular system as a starting point, students will investigate the complex orchestration of homeostatic mechanisms regulated by the respiratory, digestive, urinary, and reproductive systems. As with HLTH 301, the integrated approach will provide a strong foundation for the serial investigation of relevant topics relating to human health and disease, and clinical intervention.  
**HLTH 301 is a prerequisite for this class.**

HLTH 310 | FUNDAMENTALS OF EPIDEMIOLOGY | 4 quarter hours  
(Undergraduate)  
Epidemiology is generally considered to be the basic science of disease prevention. It encompasses the study of the distribution and determinants of health-related conditions in specified populations, and the application of this study to control health problems. This course will introduce students to methods employed by epidemiologists to collect data about the health of populations, to use epidemiologic data to generate and test hypotheses about the relationships between exposure and disease or other health conditions, and to use epidemiologic data that informs interventions and public policy that will address health problems and prevent their recurrence.  
**LSP 121 or a statistics course**

HLTH 315 | MATERNAL AND CHILD HEALTH | 4 quarter hours  
(Undergraduate)  
This course provides an overview of maternal and child health issues and trends that impact the health needs of women, children, and families. The course will involve a historical and current examination of the principles, programs, policies, and practices related to maternal and child health populations.  
**HLTH 210 is a prerequisite for this class.**

HLTH 318 | HEALTH OF AGING POPULATIONS | 4 quarter hours  
(Undergraduate)  
This course will address social science and basic science research, practice, and policy on the health of older populations. The rapidly increasing number and diversity of older Americans has broad implications for our health care and public health systems, as there will be an unprecedented demand on health care delivery and aging-related services. This course will introduce Health Sciences students to topics like the sociocultural and economic status of aging populations, theories of aging, aging policies, and aging health services. One objective of this course is to provide a foundation of aging health knowledge that can be utilized by Health Sciences students in future academic or professional careers.  
**HLTH 210 is a prerequisite for this class.**

HLTH 320 | MOLECULAR VIROLOGY | 4 quarter hours  
(Undergraduate)  
This lecture/seminar course is designed for students interested in the molecular details of virus replication and the interactions between viruses and host cells. Virus families that cause human disease are highlighted, however this course does not focus on the clinical aspects of virus infection and treatment. Students will review primary research articles and participate in group analyses of these works. Successful completion of BIO 250 Cell Biology is recommended prior to enrollment.  
**BIO 210 or BIO 250 is a prerequisite for this class.**

HLTH 325 | PHYSIOLOGY OF POVERTY | 4 quarter hours  
(Undergraduate)  
Low socioeconomic status is associated with psychological stress, nutritional challenges, circadian disruption, and toxin exposure. This course will consider the effects of these stressors on cardiovascular, metabolic, immunological, and neurological human health. This course will integrate findings from physiology, public health, epidemiology, psychology, and sociology.  
**HLTH 202 and (BIO 193 or (HLTH 194 & HLTH 195)) are prerequisites for this class.**

HLTH 329 | HEALTH HUMANITIES | 4 quarter hours  
(Undergraduate)  
The humanities and arts provide a unique insight into the human condition, suffering, personhood, and our relationship to medical and health technology. Through these practices, one can develop skills of observation, analysis, empathy and self-reflection, all of which are necessary for the provision of humane health care. In this course, students will explore health and medicine through the lenses of the humanities (literature, philosophy, ethics, history) and the arts (literature, theater, film, and visual arts).  
**Status as a junior and WRD 103 and 104 (or HON 100 and HON 101) are prerequisites for this class.**

HLTH 330 | HEALTH LEADERSHIP | 4 quarter hours  
(Undergraduate)  
Health Leadership will prepare students for health leadership in diverse health care settings such as hospitals, public health departments, and community-based agencies. Students will identify and examine their own leadership skills, learn ways to build upon those skills for application in current and future career leadership roles, and gain new knowledge about health leadership trends and practice. The course will integrate lectures, multi-media, case studies, discussions, and reinforcing activities to develop and strengthen health leadership skills.  
**HLTH 210 is a prerequisite for this class.**
HLTH 335 | COMMUNITY HEALTH ASSESSMENT | 4 quarter hours (Undergraduate)
This course covers a range of community assessment processes focusing on health indicators within communities in Chicago. Students will be introduced to multiple data sources and methods. Implications of assessments will be framed within community health assessment requirements under the Affordable Care Act (ACA), as well as broader community needs and resources.
HLTH 210 is a prerequisite for this class.

HLTH 336 | PROGRAM EVALUATION | 4 quarter hours (Undergraduate)
This course will introduce students to methods in program evaluation, including process evaluation, monitoring of outputs and outcomes, impact assessment, and cost analysis. Students will gain practical experience in the design of conceptual frameworks, development of indicators, development of an evaluation plan to measure impact.
Students will learn how this information can be used to improve program management and effectiveness. The course will cover experimental, quasi-experimental, and non-experimental study designs, and consider the strengths and limitations of each.
HLTH 335 is a prerequisite for this class.

HLTH 339 | BIOETHICS IN SOCIETY CAPSTONE SEMINAR | 4 quarter hours (Undergraduate)
This seminar is an interdisciplinary study of the function of bioethics in society. As a discipline and as a profession, bioethics stands as a distinctive barometer of our evolving and shifting conceptions not only of health and well-being, but of the world, society, and even ourselves. The seminar explores the history of bioethics, bioethics as a clinical practice, and the various questions that arise at this crossroad from health science, medical humanities, religious studies, sociological, and philosophical perspectives.
PHL 229 or HLTH 229 or REL 229 is a prerequisite for this class.

HLTH 341 | DEATH AND DYING | 4 quarter hours (Undergraduate)
As the only species that is aware of its own mortality, this course examines the human experience of death and dying as a biological, medical, legal, social, and cultural process throughout time. Students will learn about the biological breakdown of the body, hospice & palliative care, advance care planning, funerary and mourning practices, disposal of the human body, and beliefs of what happens after death.
Junior Standing or above is a prerequisite for this class.

HLTH 345 | FUNDAMENTALS OF ENVIRONMENTAL HEALTH | 4 quarter hours (Undergraduate)
This course provides an introduction to and overview of the key concepts and methodological approaches in the field of environmental health. Students will understand the reciprocal nature of our interactions with the environment: how the environment affects human well being as well as how we impact the health of the environment. An emphasis in this course is on application through laboratory-based exercises, analysis of real data sets, and participating in the practice of environmental health.

HLTH 350 | HEALTH SCIENCES CAPSTONE | 4 quarter hours (Undergraduate)
The Senior Capstone will bring students from both concentrations in the Health Sciences major together in an opportunity to share biomedical and psycho-social perspectives in an examination of current health issues.
HLTH 210 and status as a senior Health Sciences major are prerequisites for this class.

HLTH 360 | INTRODUCTION TO GLOBAL HEALTH | 4 quarter hours (Undergraduate)
This course introduces students to the factors that explain the unequal distribution of health and disease in the world through a series of global health case studies. Particular attention is paid to the ways in which long standing global interdependencies that do not appear immediately related to health ? the ties of global trade, of global finance, and of global governance ? nevertheless play a role in explaining unequal experiences of sickness and health. The course will trace how health policy takes different forms in changing political-economic environments including discussions of primary health care systems (e.g. inadequate investment, health workforce migration management); disease specific policies (e.g., child survival, AIDS treatment); and economic policies (e.g. World Bank & IMF Structural Adjustment Programs, pharmaceutical patent protections).

HLTH 369 | INTRODUCTION TO STEM PEER MENTORING | 4 quarter hours (Undergraduate)
This course is designed for undergraduates who will be mentoring students in the College of Science and Health. The purpose of the course is to prepare mentors to welcome STEM students into the culture of the scientific community at DePaul. Mentors will encourage their peers to use tools and resources designed to help them build a sense of belonging and achieve academic success. The course will include readings, presentations, and activities, which will support the student?s development as a peer mentor. Students will reflect on their experiences to inform their efforts in creating a supportive learning environment for their peers.

HLTH 375 | PHARMACOLOGY | 4 quarter hours (Undergraduate)
This course presents the basic principles of pharmacology, including, but not limited to pharmacokinetics, drug distribution, routes of administration, drug metabolism; pharmacodynamics, receptor theory, drug classification, drug action, and recent advances in pharmacotherapy. BIO 250 and (BIO 307 or BIO 308 or BIO 310 or HLTH 301) are prerequisites for this course.

HLTH 379 | PEER ADVISING IN HEALTH SCIENCES | 1 quarter hour (Undergraduate)
Peer Advising in Health Sciences is a course designed to connect our successful senior students with the broader population of Health Sciences majors, while providing Peer Advisors with an introduction to advising skills including active listening, providing open-minded guidance and support, interpreting university policies and guidelines, managing confidential information, and effective time management. (2 quarter hours)

HLTH 380 | TOPICS IN HEALTH SCIENCES | 2-4 quarter hours (Undergraduate)
Upper level course focused on a specific topic in Health Sciences that involves reading of primary literature and discussion.

HLTH 399 | INDEPENDENT STUDY | 1-4 quarter hours (Undergraduate)
INDEPENDENT STUDY (1 quarter hour)
A Health Science major is a prerequisite for this class.

History (HST)

HST 111 | THE WORLD TO C.1500 | 4 quarter hours (Undergraduate)
This course will examine the phenomenon of civilization as experienced by West Asian, South Asian, East Asian, African, European, and Pre-Columbian American societies to 1500 A.D. Formerly HST 218.
HST 112 | THE WORLD, C.1500-1914 | 4 quarter hours (Undergraduate)
For most of human history, people lived in groups whose cultures, faiths, economies and politics scarcely affected, or were even known to, other peoples. Then, beginning in the 13th Century C.E., this began to change. Slowly at first, and then ever-faster, all of the world’s peoples became part of a single world civilization, whether they liked it or not. By about 1914, there was only one world civilization, with local variants. How and why did this happen? Who benefitted, and who did not, from this momentous change? This course seeks to answer these questions as we look at the world’s civilizations and at the forces and events that drove them together.

HST 113 | THE WORLD, 1900-PRESENT | 4 quarter hours (Undergraduate)
More change – political, economic, social, technological – occurred in the 20th Century than in all the previous years of human history combined. The world at end of the century, in 2001, was nothing like the world that our great-great-grandparents were born into just 100 years before. And, unlike previous eras, what happened on one place impacted everyone everywhere on earth. Why and how did such vast changes occur, and why did they happen so quickly? These are some of the themes that History 113 will address.

HST 121 | LATIN AMERICA TO 1765: LIFE BEFORE AND AFTER COLUMBUS | 4 quarter hours (Undergraduate)
A survey of Latin American history that offers a continental approach to the colonial period. Special attention is given to Native American societies before 1492, to the Spanish conquest of Mexico and Peru, to the trade in African slaves (Spanish and Portuguese colonies), and to issues of race, class, and gender during the colonial period.

HST 122 | LATIN AMERICA, 1765-1914 | 4 quarter hours (Undergraduate)
One of the main goals of this course is for students to determine whether the long 19th century was an era of revolution and social change or a continuation of colonial institutions and policies. To address this broad question, the course focuses on the Bourbon Reforms, the Wars of Independence, the problems associated with nation building, and the neo-colonial order. Through the analysis of some individual countries (for example Mexico, Argentina, and Brazil) students will study key issues like slavery, the "India question," race relations, class formation, social inequalities, authoritarianism, Church-State relations, liberalism, subaltern resistance, and North-South relations.

HST 123 | LATIN AMERICA, 1914-2010 | 4 quarter hours (Undergraduate)
This is an introductory course designed to provide students with a basic and general knowledge of Latin American history from the 1910s to the present. The course highlights the challenges and failures of the new republics faced. Due to the diverse historical experiences, cultures, and economic and political systems, the course will focus on the main social, political, and economic issues that shaped Latin America during the 20th century (democracy, social revolution, social justice, political violence, and repression).

HST 131 | AFRICA TO 1800 | 4 quarter hours (Undergraduate)
A study of African history from earliest times, concentrating on the political, social and religious aspects of major African states and empires. Formerly HST 227.

HST 132 | AFRICA, 1750-1900 | 4 quarter hours (Undergraduate)
The Age of Conquest. The origins of Afro-European relations and the political, economic and military causes of the European partition and occupation of the continent. Formerly HST 228.

HST 133 | AFRICA, 1900-PRESENT | 4 quarter hours (Undergraduate)
The workings of the colonial system, the rise and course of independence movements, and the history of individual African states since independence. Formerly HST 229.

HST 141 | THE MUSLIM WORLD, C. 600 CE TO 1100 | 4 quarter hours (Undergraduate)
Foundation of First Global Civilization (600-1100). A study of the emergence of Islam and the growth of the Islamic community from the time of the Prophet Muhammad until the end of the eleventh century. Formerly HST 223.

HST 142 | THE MUSLIM WORLD, 1000-1500 | 4 quarter hours (Undergraduate)
Sultans, Khans and Shaykhs: Medieval Islamic History (1000-1500). A survey of Muslim history from the decline of the Arab caliphate to the rise of the great gunpowder empires, addressing themes of political expansion, military slavery, devastation brought about by the twin plagues of the Mongols and the Black Death, and the growth of Islamic mysticism. Formerly HST 224.

HST 143 | THE MUSLIM WORLD, 1400-1920 | 4 quarter hours (Undergraduate)
Great Empires (1400-1920). Examines the social, cultural and economic histories of the Ottoman-Turkish, Safavid Iranian and Mughal-Indian empires which dominated the Muslim world in the crucial centuries between the end of the Mongol empire and the advent of European dominance. Formerly HST 225.

HST 151 | INDIA TO 900 - FROM THE STONE AGE TO THE GOLDEN AGE | 4 quarter hours (Undergraduate)
The course follows the development of the history of the region from the earliest phases of human settlement, the first civilization in the Indus valley, and the formation of the Mauryan and Gupta empires. It will analyze the growth of different state structures from tribal/lineage based state to these great empires. It incorporates the rise of regional states and the growing importance of trade to linking South Asia with the West. It will also examine the development of different religious traditions from Vedic Brahmanism to Buddhism to Jainism and the very early days of Islam in the region. The central question of this course will be how to contextualize the relationship between structures like family, law, caste, community, state and the tumultuous changes in the subcontinent over this long period. Formerly HST 256.
HST 152 | INDIA FROM 900-1750 - SULTANS, MUGHALS, AND ISLAMIC EMPIRES | 4 quarter hours
(Undergraduate)
The course begins with the transformation of society from the 'ancient' to the 'medieval', and compares this to developments in Europe in the feudal age. It then incorporates specific political, social, and cultural developments in South Asia that came about with the establishment of powerful Islamic states in a region where Muslims were a minority. These issues will inform the analysis of the Ghaznavid and Ghurid invasions, the Delhi Sultanate, the Vijayanagara empire and the Mughal empire. The course will end with the Marathas and the decline of the Mughal empire, and the rising influence of the British. The central themes concern how the state, economy, culture, and society developed in the period when Islam became firmly embedded in South Asia.

HST 153 | INDIA FROM 1700-1950 - RISE AND FALL OF THE BRITISH RAJ | 4 quarter hours
(Undergraduate)
The course begins with the decline of the Mughal Empire, and then moves to examine the British empire, the nationalist movement and finally to independence and partition in 1947. The central questions of this course continue to be relevant in the post-colonial period: how we understand the distinctive form of modernity that has developed in South Asia. Taking a comparative approach as often as possible, the course examines the fundamental ways that Britain was as transformed by the development of its empire as was colonial India. The course constantly deconstructs easy binaries of self and others/ East and West by examining the differences within Indian and British society. Formerly HST 257.

HST 161 | EAST ASIA TO C. 1200 | 4 quarter hours
(Undergraduate)
Outlines the history of the region (China, Korea and Japan) during the period of antiquity. Follows the development and the formation of dynastic rule in China and Korea and the imperial institution in Japan. Assesses the extent of the role of ancient Chinese philosophy, language, and statecraft in establishing a coherent region we now call “East Asia.”

HST 162 | EAST ASIA c. 1200 TO 1800 | 4 quarter hours
(Undergraduate)
Begins with the transition of East Asia (China, Korea and Japan) from ancient to medieval society and compares it to developments in Europe during the feudal age. Explores the political, economic and cultural relations between the various states in the region as a whole as well as the specific local developments of state and society during this period. Examines the arrival of the first Europeans, traders and then Jesuit and Catholic missionaries, and the resulting radical social realignment within each society stemming from this encounter with the ‘outside.’

HST 163 | EAST ASIA , c.1800-PRESENT | 4 quarter hours
(Undergraduate)
Begins with the reshaping of East Asian relations from the late 18th century following the realignment of the region after the expulsion of European Catholic missionaries. Follows the radical shift in the relations between these countries as they all sought to respond to the imperial challenges that the West imposed. Explores the central role of Japan and its effort to build an empire in and beyond East Asia from the late 19th century through its defeat in World War II and the lasting historical legacy of that history in the region.

HST 171 | EUROPE, 400-1400 | 4 quarter hours
(Undergraduate)
The important components of European society during the Middle Ages, including rulers, knights, and peasants, churchmen and nuns, urban merchants, intellectuals, and artisans. Who were these Medieval people, what differentiated them, how did they interact with each other, and how and why did these interactions change over time? Formerly HST 210.

HST 172 | EUROPE, 1348-1789 | 4 quarter hours
(Undergraduate)
The development of new European ideologies in a time of heightened political and social conflict, from the rebirth of ancient culture in Renaissance Italy, to the religious debates of the Protestant Reformation; from the theories of absolute monarchy to the early revolutionary ideologies of the Enlightenment. Formerly HST 211.

HST 173 | EUROPE, 1789-PRESENT | 4 quarter hours
(Undergraduate)
A survey of European history from 1789 to the present. Formerly HST 217.

HST 181 | UNITED STATES TO 1800 | 4 quarter hours
(Undergraduate)
A survey of the major social, political, economic and cultural themes in U.S. history from the earliest European settlements to the aftermath of the Revolution. Formerly HST 280.

HST 182 | UNITED STATES, 1800-1900 | 4 quarter hours
(Undergraduate)
A survey of the major social, political, economic and cultural themes in U.S. history from the aftermath of the Revolution to the Spanish-American War. Formerly HST 281.

HST 183 | UNITED STATES, 1900-PRESENT | 4 quarter hours
(Undergraduate)
A survey of the major social, political, economic and cultural themes in U.S. history from the Progressive era to the present. Formerly HST 282.

HST 185 | AMERICAN SOCIAL HISTORY AND CULTURE | 4 quarter hours
(Undergraduate)
This course will provide an overview of American History designed to provide a one-quarter overview of American history and culture. It will provide an overview of the central themes of American History from the colonial period to the present with a focus on social, popular, and cultural history. Cross-listed with AMS 200.

HST 200 | MEXICO AFTER INDEPENDENCE | 4 quarter hours
(Undergraduate)
This survey covers the history of Mexico from 1821 to the present. It will examine the difficulties of nation-building during the 19th Century, the Mexican Revolution (1910-1940), and the success and failure of the “Mexican Miracle.”

HST 202 | JEWISH EXPERIENCES IN THE AMERICAS | 4 quarter hours
(Undergraduate)
This course is about Jewish History in the Americas from 1492 until the late 1800s. It combines colonial/national periods and covers different regions, including North America, Central America, South America, and the Caribbean.

HST 204 | FILM AND LATIN AMERICAN HISTORY | 4 quarter hours
(Undergraduate)
An inquiry into the way film portrays historical events in Latin America.
HST 206 | MEXICO: FROM THE OLMECS TO INDEPENDENCE | 4 quarter hours
(Undergraduate)
This course surveys the history of Mexico from the rise of the Olmec Civilization to Mexican independence in 1821. It will examine the rise, fall, and continuities of Mesoamerican civilizations, the Spanish conquest, and the creation of the colonial order.

HST 208 | IMPERIAL RUSSIA | 4 quarter hours
(Undergraduate)
This course examines political, economic, social, and cultural developments in Russia from the time of Peter the Great in the early 18th century to the collapse of tsarism in 1917. Topics include Westernization and resistance during the reigns of Peter the Great and Catherine the Great; reform and reaction under Alexander I and Nicholas I; Alexander II and the great reforms of the 1860's; industrialization and the transformation of Russian society in the second half of the nineteenth century; the rise of radicalism and emergence of revolutionary movements; and the revolutions of 1905 and February 1917.

HST 209 | THE RISE AND FALL OF THE SOVIET UNION | 4 quarter hours
(Undergraduate)
This course examines major political, social, economic, and cultural developments in twentieth-century Russia from the collapse of tsarist rule through the fall of communism. Topics include the rise of Bolshevism and the October Revolution; the Civil War and allied intervention; the period of NEP and "revolutionary dreaming"; Stalin and Stalinism; the Great Patriotic War; Khrushchev and the "thaw"; Brezhnev and "developed socialism"; and the rise and fall of Mikhail Gorbachev.

HST 211 | THE ART OF CRUSADING | 4 quarter hours
(Undergraduate)
This course focuses on the Crusades. More specifically, it focuses on the world within which the Crusades were born and the Levantine kingdom built as a result of their initial success. Our study will depend on primary artistic, literary, and archaeological materials, as well as the secondary scholarship that has identified and interpreted these materials. Our understanding of this historical moment will be nuanced by the questions we ask of both. The payoff will be an appreciation for the religious, social, political, and artistic forces that defined the twelfth and thirteenth centuries in Europe and in the Mediterranean basin, leading as they did to such fascinating phenomena as pilgrimage, the cult of relics, chivalry, holy war, the rise of military orders, and the establishment of the Latin Kingdom of Jerusalem itself. Cross-listed with HAA 233.

HST 212 | MEDIEVAL AND RENAISSANCE WOMEN | 4 quarter hours
(Undergraduate)
Gender roles and ideologies in pre-modern and early modern Europe, from ancient Mediterranean and Germanic women to high Medieval ladies, nuns, serfs, and city women, from early feminism to the restrictions and opportunities brought by the Renaissance and Reformation. Emphasis on primary sources, especially women's writings.

HST 213 | MEDIEVAL MYSTICS IN EUROPE: 1000-1600 AD | 4 quarter hours
(Undergraduate)
The evolution over time of theories and experiences of human union with God, and of varied Christian spiritual paths and practices, as described in mystical literature, saints' lives, religious art, and music. Emphasis on the monastic, urban, and courtly institutional contexts of the documents. Cross-listed as CTH 228.

HST 214 | EASTERN EUROPE TO 1699 | 4 quarter hours
(Undergraduate)
A survey of the area's settlements by Slavic and non-Slavic peoples, the establishment of medieval states, the East European Renaissance and Reformation, the struggle of Cross and Crescent, and the growth of Habsburg and Ottoman power.

HST 215 | EASTERN EUROPE: 1699 TO 1914 | 4 quarter hours
(Undergraduate)
A survey of the East European Enlightenment and absolutism, the Polish Partitions, and the effects of revolutionary ideas on multinational empires.

HST 216 | EASTERN EUROPE: 1914-PRESENT | 4 quarter hours
(Undergraduate)
An introduction to the history of the Vikings, from early Viking society in Scandinavia to the 'Norseman' Invasion of England in 1066. This course pays particular attention to what the Vikings had to say about themselves as well as to their interaction with other peoples, from North America to the Holy Roman and Byzantine Empires to the Muslim world.

HST 217 | THE VIKINGS: MEDIEVAL AMBASSADORS OF TERROR, TRADE AND MULTICULTURALISM | 4 quarter hours
(Undergraduate)
This course provides an overview of the history of Catholicism and its evolution from the time of Peter the Great to the thirteenth century. The course will include not only institutional history but also ecclesiastical, cultural, and social history of Catholicism in relation to foundational theological and spiritual texts written in this period. Main topics: The Early Church; Councils and Heresies; Missions in Northern Europe; Charlemagne, Carolingians and a new Roman Empire; Monasticism; Eastern Orthodoxy; Christianity and Islam (the Age of the Crusades); the Mystical Tradition; the Investiture Controversy. Cross-listed with CTH 220.

HST 218 | CATHOLIC EXPERIENCE II | 4 quarter hours
(Undergraduate)
This course provides an overview of the history of Catholicism and its interactions with institutional, political, and social history from 1200 to the French Revolution. The main topics of the class are the origin of the Universities and Scholasticism; Mendicant Orders and their impact on the Medieval Society; the Challenges to Papal Monarchy; Humanism and Erasmus; the impact of the Age of the Reformation; the Council of Trent; the geographic discoveries and the New Worlds; the Enlightenment and the Scientific Revolution; the Catholic Church and the French Revolution. Cross-listed with CTH 221.
HST 220 | CATHOLIC EXPERIENCE III | 4 quarter hours
(Undergraduate)
This course will offer a survey of the political, cultural and intellectual history of the Catholic Church from 1789 through the early twenty-first century. It will include discussions of the Catholic Church in relation to the French Revolution; the Catholic Church and the formation of modern nation-states (including, inter alia, the unification of Italy and the German Kulturkampf); the relation between the Church and Liberalism; intellectual movements like theological Modernism and ressourcement theology; the First Vatican Council; the Church, Fascism and Communism; the Second Vatican Council; the Emergence of a Global Church, Latin American Liberation Theology, and more. Cross-listed with CTH 222.

HST 221 | EARLY RUSSIA | 4 quarter hours
(Undergraduate)
This course examines political, economic, social, and cultural developments in Russia from the emergence of the Kievan state in the ninth century to the reign of Peter the Great in the early eighteenth century. Topics include the rise and fall of Kiev; the Mongol invasion and rule by the "Golden Horde;" the rise of Moscow and unification of Great Russia; the consolidation of tsarist authority and the reign of Ivan the Terrible; the Time of Troubles; and the early Romanov dynasty.

HST 222 | MODERN GERMANY, 1870-PRESENT | 4 quarter hours
(Undergraduate)
Following the path from Germany's unification in the late 19th century to World War II and ultimately the country's reunification at the close of the 20th century, one of the goals of this course is to introduce students to the major cornerstones of modern German history. Another objective, however, aims at using these events in the exploration of shifting ideas about what it has meant to be German, exploring what factors determined inclusion in or exclusion from the German community.

HST 226 | ISLAM AND THE WEST: A SURVEY OF ORIENTALISM | 4 quarter hours
(Undergraduate)
From "heresy" to "the Green Threat," this course studies the changing perceptions of Islam and the Islamic world held by those in "Western" societies from the time of the Crusades down to the contemporary era.

HST 232 | CULTURE AND POLITICS IN IMPERIAL CHINA | 4 quarter hours
(Undergraduate)
Examines the history of Chinese civilization from the early Shang kingship through the development of the Chinese Empire (221 B.C. - A.D. 1911). We will focus on systematic changes in political, economic, and social structures in China and the intellectual and cultural forms that each configuration produced. Topics include the growth of the Chinese empire, Chinese forms of Buddhism, and the development of Chinese philosophy, scholarship and literature.

HST 233 | THE RISE OF MODERN CHINA | 4 quarter hours
(Undergraduate)
Examines the history of Chinese civilization from the 18th century to the present. We will survey the height of the authority of the Qing Imperial government, its dissolution in the 19th century, and the creation of a revolutionary China in the 20th century. Topics include the Opium War and China's foreign relations, the introduction of Westernized technology and education, and the rise of Communism under the leadership of Mao Zedong. Also considers the ways in which our contemporary understanding of China is formed by recent developments in the media - Chinese news and film.

HST 234 | AUTHORS, IDEAS, AND EXPRESSION FROM THE RENAISSANCE TO THE ENLIGHTENMENT | 4 quarter hours
(Undergraduate)
This course entails close reading and discussion of significant texts in Western culture from the Renaissance to the Enlightenment. Readings will reflect different genres and perspectives. Potential authors may include, for example, Machiavelli, Erasmus, Pisan, Luther, Teresa of Avila, Cervantes, Montaigne, Descartes, Locke, Voltaire, Wollstonecraft, Swift, Equiano, and Rousseau. Cross-listed with CPL 211.

HST 235 | EUROPEAN EXPANSION: AGE OF DISCOVERY | 4 quarter hours
(Undergraduate)
A survey of the political, intellectual and scientific roots of the expansion of Europe and of the main voyages of discovery between 1400 and 1825.

HST 236 | A WORLD OF EMPIRES: 1400-2000 | 4 quarter hours
(Undergraduate)
Most people equate 'empire' with Europe, and see the European empires of the 18th-20th centuries as both unique and inevitable. In fact, empires dominated much of the world for the past 600 years and not all of them were European. This course looks at these empires, European and non-European and asks: how and why were empires created? How did they help shape the world we live in today? Why do empires, which seem to be so powerful and immortal, fall, and why do they often do so with stunning speed? Our study will include such things as history, technology, culture, war, economics, and most especially the people who created, sustained and finally overthrew empires. Through this, we will understand how the world of today, a legacy of empires, came to be.

HST 237 | HISTORY OF THE CITY OF ROME | 4-8 quarter hours
(Undergraduate)
Topics in the history of urban Rome from antiquity through the modern age.

HST 238 | WITCHCRAFT IN THE WESTERN WORLD: GENDER, CULTURE, AND THE LAW | 4 quarter hours
(Undergraduate)
This course explores witchcraft in Western history, emphasizing the intense witch-hunting during the sixteenth and seventeenth centuries in Europe and European colonies. Connections between witchcraft and other contemporary developments—including the Renaissance, Reformation, the scientific revolution, and imperialism—are examined alongside pertinent issues in the history of gender and sexuality.

HST 239 | WOMEN IN MODERN EUROPE, 1800-PRESENT | 4 quarter hours
(Undergraduate)
This course explores the diversity of women's and girls' experiences across Europe as they negotiate between public and private spheres, daily life and great events, Europe and the world. Themes may include industrialization, suffrage, imperialism, "new women," fascism, and communism.

HST 240 | HISTORY OF CHICAGO | 4 quarter hours
(Undergraduate)
A history of the founding and development of Chicago from a frontier village to a major industrial, commercial and cultural center. This course will focus on the changing lives of ordinary Chicagans. Cross-listed with AMS 240 and GEO 231.
HST 241 | WORLD REFUGEE CRISIS | 4 quarter hours (Undergraduate)  
This is a survey of global refugee crisis and internal displacement between 1945 and the present. The course will focus on the following issues and challenges: human rights, definitions and causes of crisis, internal/external displacements, 'environmental' refugees, protection and integration, refugee children, and conflict resolutions in post-war societies.

HST 242 | HISTORY OF HUMAN RIGHTS IN EUROPE | 4 quarter hours (Undergraduate)  
This course will explore the evolution and implications of the idea that all human beings possess the same "inalienable rights." Topics will include human rights advocates, their strategies and arguments, and how human rights claims have evolved and intersected with political, institutional, and legal structures since the eighteenth century.

HST 243 | HISTORY OF THE CATHOLIC CHURCH IN THE U.S. | 4 quarter hours (Undergraduate)  
This course traces the development of the Catholic Church from a missionary enterprise to the position of a major social, political, and economic institution. The course will examine the manner in which the hierarchical institution of the Catholic Church has related to the liberal ideal of American democracy.

HST 246 | AFRICAN-AMERICAN HISTORY TO 1800 | 4 quarter hours (Undergraduate)  
This course primarily focuses on the colonial era with an emphasis on topics such as the construction of race and gender, the Black Atlantic, the emergence of African diasporic cultures in the Americas, slavery, black political thought, resistance, and the Revolutionary War. Cross Listed with ABD 256.

HST 247 | AFRICAN-AMERICAN HISTORY, 1800-1900 | 4 quarter hours (Undergraduate)  
The African experience in America is expansive, beginning in the colonial era and lasting through the present day. This course will focus on a portion of that history—that spanning the 19th century. The course is organized thematically, with an emphasis on topics such as resistance, the construction of race, slavery and the law, gender and slavery, the nature of antebellum free black life, abolition, the Civil War, and Reconstruction. Cross Listed with ABD 257.

HST 248 | AFRICAN-AMERICAN HISTORY, 1900 TO PRESENT | 4 quarter hours (Undergraduate)  
The African experience in America is expansive, beginning in the colonial era and lasting through the present day. This course will focus on only a portion of that history-1900 to the present. This course is organized thematically with an emphasis on topics such as migration, urbanization, segregation, 20th century constructions of blackness, arts & culture, African Americans and the World Wars, black political thought, freedom movements, and criminalization. Cross Listed with ABD 258.

HST 249 | ORIGINS OF THE FIRST WORLD WAR, 1871-1917 | 4 quarter hours (Undergraduate)  
Examines the development of the European (and Great Power imperial) state system after the unification of Germany; the formation (and global implications) of the pre-war alliance structure; the political and social movements of nationalism, imperialism, and militarism; the naval race; and the July Crisis of 1914.

HST 250 | ORIGINS OF THE SECOND WORLD WAR, 1914 - 1941 | 4 quarter hours (Undergraduate)  
Examines the European (and world) state system in the aftermath of the First World War and the Russian Revolution; the attempts to forge a new international equilibrium at the Paris Peace Conference and after; the rise of Hitler and Nazism; appeasement; the immediate origins of the Second World War in Europe; and the rise of militarism and advent of war in East Asia.

HST 251 | ORIGINS OF THE COLD WAR, 1917 - 1953 | 4 quarter hours (Undergraduate)  
Examines the rise of the United States as a world power; the diplomatic significance of the Russian Revolution; the wartime alliance between Great Britain, the United States and the Soviet Union; the collapse of the international order in the aftermath of the Second World War; and the advent of the Cold War.

The origins, nature and progress of the Cold War from the end of World War II until the collapse of the Soviet Union.

HST 253 | THE HISTORY OF THE MODERN OLYMPICS | 4 quarter hours (Undergraduate)  
This course will examine the Modern Olympics: the oldest and most inclusive institutionalized effort to engender international exchange and perpetuate peacefulness through athletic excellence. Relying on a mix of primary and secondary sources, the course will touch on an array of important issues, including globalization, race relations, gender issues, the rise of popular culture, and terrorism.

HST 254 | AMERICAN URBAN HISTORY | 4 quarter hours (Undergraduate)  
An overview, examining American urban life from the early days of the colonial seaport, through the rise of the smoky industrial center, to today's troubled "dual city" of the rich and the poor. Throughout the course, we will focus on how urbanization affected the lives of the diverse peoples who experienced it. We will also explore the ways in which city life contributed to changes in American culture, and to a greater acceptance of social and cultural diversity.

HST 255 | THE HISTORY OF THE FIRST WORLD WAR | 4 quarter hours (Undergraduate)  
The Great War created the modern world. This course will discuss the major theatres of the war, the range of combatants, the effect of the war on homefronts and civil societies, changes to military technologies, and consequences of the war. This course will provide an introduction to the Great War and its ramifications for students unfamiliar with it.

HST 256 | AXIS AND ALLIES: THE SECOND WORLD WAR | 4 quarter hours (Undergraduate)  
The second world war was the most destructive conflict in world history. Its scope was global and its impact was felt by millions people throughout the world. This course will examine the nature of the wartime experience for the combatants and civilians, how the war was waged by different societies and their governments, and the impact of the conflict on the post-war world.

HST 258 | WOMEN IN HISTORY | 4 quarter hours (Undergraduate)  
A comparative study of women's social, cultural, political, economic roles over time in three parts of the world.
HST 259 | HISTORY OF WESTERN SCIENCE | 4 quarter hours
(Undergraduate)
A survey of scientific thought and discovery from the ancient Greeks to the early 20th century.

HST 260 | LGBTQ+ AMERICAN HISTORY, WW2 TO THE PRESENT | 4 quarter hours
(Undergraduate)
This course surveys LGBTQ+ (lesbian, gay, bisexual, transgender, and queer+) history in America from World War 2 to the present. Through primary and secondary source readings and class discussion we will examine how understandings of LGBTQ+ sex and sexuality have been constructed in the past, leading us up to our present. Special attention is paid to readings that draw revealing connections between LGBTQ+ sexuality and race, class, and gender.

HST 261 | CATHOLICISM IN WORLD HISTORY I: JESUS TO 1500 | 4 quarter hours
(Undergraduate)
A study of the development of the Catholic Church from the time of Jesus to the Renaissance. Religious movements, piety and art as well as theology and ecclesiastical history will be examined. Cross-listed as REL 213 and CTH 205.

HST 262 | CATHOLICISM IN WORLD HISTORY II: 1500 - PRESENT | 4 quarter hours
(Undergraduate)
A study of the development of Catholicism since 1500 exploring the Catholic Reformation, Catholicism’s encounter with the Enlightenment, the missionary movement and the Catholic Church in the United States. Cross-listed as REL 214 and CTH 206.

HST 263 | JAPAN TO C. 1200 | 4 quarter hours
(Undergraduate)
Follows the formation of a unified state in central Japan during the 5th and 6th centuries. Considers the influence of Korean immigrants and Chinese philosophy and statecraft on the unification of Japan in early antiquity. Explores rise of Japan’s aristocratic court culture in Nara and Kyoto as well as powerful Buddhist institutions and the emergence of the warrior class in Eastern Japan. Formerly HST 230.

HST 264 | JAPAN c.1200 - 1800 | 4 quarter hours
(Undergraduate)
Follows the emergence of the warrior class and the system of dual political authority until the 14th century, with the imperial court in Kyoto and the samurai elite in Kamakura. Continues with an examination of the early modern processes of urbanization and the growth of a monetary economy, changes in social organization, major cultural innovations, and religious/intellectual movements.

HST 265 | JAPAN, c. 1800-PRESENT | 4 quarter hours
(Undergraduate)
Follows the radical transformation of Japanese politics, society, and economy with the commercialization of the countryside, the weakening of samurai rule, and increased, often hostile, contact with Western imperialist nations. Explores expansion of Japan as an imperialist nation from the middle of the 19th century and the lasting legacy of that expansion in the region. Explores WWII and postwar political, economic, social changes in contemporary Japan.

HST 266 | IRELAND, 1450 - 1800, CONQUEST, COLONIZATION & REBELLION | 4 quarter hours
(Undergraduate)
This course offers a survey of Irish history from the end of the middle ages to the union of Ireland and Great Britain in 1800. It traces the ways in which Ireland was brought under great English (later British) control through processes of agreement, conquest and colonization; and the ways in which various groups within Ireland sought to resist such developments.

HST 268 | IRELAND, 1800-PRESENT | 4 quarter hours
(Undergraduate)
Survey of Irish history from 1800 to 2000. Examines the course of Irish history from the Act of Union (creating the United Kingdom), through the struggles and reforms of the 19th century (Catholic Emancipation, the Famine and Irish diaspora, Fenianism, Land Reform and Home Rule), to the creation of the modern nation-state of the 20th century (the Easter Rising, partition and civil war, the role of Eamon deValera, the Republic, and the Troubles). Topics include the contributions of Irish culture and its influence in Europe and the world.

HST 269 | MUSEUMS, MATERIAL CULTURE AND MEMORY: INTRODUCTION TO PUBLIC HISTORY | 4 quarter hours
(Undergraduate)
How is the past remembered in public venues like museums? How do history museums shape how we understand past? How do historians use material culture (objects like coins or folk art) to interpret the past for the public? Public history refers to history that you find in public spaces—outside of the pages of academic journals, and beyond university walls. We encounter examples of public history through exhibits, performances, walking tours, visits to historic sites, the world wide web, etc. This course familiarizes you with examples of public history, and trains you to critically analyze and thoughtfully engage with public historical interpretations.

HST 270 | U.S. HISTORICAL LANDSCAPE | 4 quarter hours
(Undergraduate)
The course considers how the American landscape has been shaped by native occupants, and later, by agricultural settlement and industrial development. A key theme is how culture has shaped the physical world we inhabit, from 1500 to circa 1950.

HST 271 | OLD REGIME AND REVOLUTIONARY FRANCE | 4 quarter hours
(Undergraduate)
This course provides students with a firm foundation in the history of early modern France, ca. 1500-1800, including major developments of the period and an understanding of the relationship between the French revolution and the period that preceded it. Topics will include (among others) the rise of absolutist monarchy, the Enlightenment, French colonialism, pre-revolutionary social and economic conditions, and the French Revolution.

HST 272 | FASCISM AND COUNTER REVOLUTION | 4 quarter hours
(Undergraduate)
What is Fascism? How and why did this early 20th century political movement and ideology that openly preached racial hatred, genocide, and the necessity of war attract so many millions of followers all over the world? What exactly did Fascists believe? These are some of the issues that this course addresses. We will explore the development of fascism during the 1920s and 1930s both as a philosophy and as a form of political action. The course examines Fascism’s opponents -- socialism and democracy -- and looks at how supporters of these ideologies responded to the Fascist challenge. And we will consider what the possible responses to Fascism are, and whether or not Fascism still exists, even in the United States.
HST 273 | HISTORY OF SEXUALITY IN EUROPE | 4 quarter hours
(Undergraduate)
This course will explore key ideas, practices and patterns across multiple European societies from the French Revolution until the present. Key topics may include demographics, identities, sexology, and sexual consumerism.

HST 274 | INTELLIGENCE IN 20TH CENTURY | 4 quarter hours
(Undergraduate)
A study of intelligence gathering and analysis in the twentieth century (and beyond). This course will address the role intelligence played in the politics, diplomacy, and strategy of the leading world powers. Special consideration will be given to the eras of the two world wars, the cold war, and the emerging nations in the post-war period. The course is comparative in nature and will examine the intelligence communities of the United States, the European powers, the Soviet Union, Japan, China, and Israel.

HST 275 | SEX IN AMERICA, PURITANS TO VICTORIANS | 4 quarter hours
(Undergraduate)
This course surveys the history of three centuries of American ideas about sex and sexuality. By focusing on sexual variation from the era of colonial settlement through the end of the nineteenth century, this course will challenge conventional interpretations of sex in early America.

HST 276 | SEX IN AMERICA, LATE VICTORIANS TO PRESENT | 4 quarter hours
(Undergraduate)
This course will provide an overview of the history of American sexuality from the late 19th century through the present. The course will draw from social and cultural history, the history of medicine and psychology, legal and political history, literature, mass media, and gender studies in order to understand the creation of modern sexual identities.

HST 277 | WAR AND PEACE IN THE MODERN AGE | 4 quarter hours
(Undergraduate)
A survey of military history from 1648 to the present with emphasis on the relationship between armed forces and the societies that create them, the impact of technology on warfare, and efforts to limit deadly conflict.

HST 278 | HISTORY OF AMERICAN RELIGION | 4 quarter hours
(Undergraduate)
A survey of major religious traditions, movements, and themes in American history from the colonial period to the present, including the relationship between religious values and beliefs and other aspects of American culture.

HST 279 | WESTWARD EXPANSION IN U.S. | 4 quarter hours
(Undergraduate)
This course examines the competition among Native American nations, European empires, and the emerging governments of the United States and Mexico to control the North American region from roughly the Appalachian Mountains to the Pacific Ocean from approximately 1775 to 1890. The class will examine environmental changes, military campaigns, trade links, settlement patterns, and government policies.

HST 280 | HISTORY OF US NATIONAL PARKS | 4 quarter hours
(Undergraduate)
At its core, this course examines the intersection of American history and the natural world, following a classic definition of environmental history as the interaction between humans and the environment in the past. Specifically, this course examines the historical development of America's national parks, analyzing how a truly American idea of national parks as idealized nature?what Wallace Stegner once called "America's best idea"led to preservation efforts all over the country and throughout time. In addition to studying the historical development of national parks, this course will also use national parks as lens for studying important themes in American history. Like microhistory, national park history allows historians to "ask large questions in small places." This course asks large questions in green places. This course examines some important themes in American history, including: assessing the idea of American exceptionalism (including nationalism and imperialism, but also American anxiety), changing definitions of economic progress, the rise of federal political power, the development of identity (including American identity, gender, ethnic, race, etc), and American conceptions of the environmental world. Cross-listed with ENV 165.

HST 281 | IDEAS OF NATURE IN US HISTORY | 4 quarter hours
(Undergraduate)
This course scrutinizes different conceptions of nature throughout a broad span of Western history, and includes an examination of diverse ideas that include pre-contact Native American conceptions of their environments, colonial-era attitudes toward the dwindling resources of Europe and the vast potential of the North American continent, 19th century movements such as Romanticism, Transcendentalism, acclimatization, conservation, and preservation, and 20th century ideas concerning wilderness preservation, Deep Ecology, and restoration. At heart, this course is designed as an intellectual history of nature. This class concentrates on the ideas of seminal thinkers concerned with the natural world, and examine how these men and women impacted history through their beliefs and philosophies, through their written works, through art, and through modern media such as film and television. Cross-listed with ENV 160.

HST 283 | ASIAN-AMERICAN IMMIGRATION AND HISTORY, 1840-1965 | 4 quarter hours
(Undergraduate)
This course surveys Asian American history from the early nineteenth century to 1965. It explores the changing experiences of Asian immigrants and their citizen descendants in the United States within the larger context of immigration and race relations in American history. The course deals with the following broad themes: causes and processes of migration, responses from American society, and experience of immigration.

HST 284 | HISTORY OF EDUCATION IN THE UNITED STATES | 4 quarter hours
(Undergraduate)
Thematic study of the educational developments in U.S. History.

HST 285 | ANCIENT ROME: AUGUSTUS TO CONSTANTINE | 4 quarter hours
(Undergraduate)
This course examines the history of the Roman Empire from its beginnings under Augustus (27 BCE-14 CE) to its reorganization under Diocletian (284-305 CE) and Constantine (306-337 CE). Both textual and archaeological sources will be used to understand political, economic, and social developments.
HST 288 | WOMEN IN UNITED STATES HISTORY | 4 quarter hours
(Undergraduate)
The history of women's work, family, and political lives in America.

HST 290 | ANCIENT EGYPT | 4 quarter hours
(Undergraduate)
This course traces the developments of Egyptian civilization from its earliest beginnings to the Arab/Muslim conquest. Emphasis will be on assessing material culture with students being introduced to techniques of Egyptian archaeology and papyrology.

HST 291 | ANCIENT WORLD HISTORY: MESOPOTAMIA AND THE FERTILE CRESCENT | 4 quarter hours
(Undergraduate)
Analyzes the early civilizations in the Fertile Crescent through an examination of material culture. Attention will also be given to the archaeology and archaeological methods of the Near East including Jericho and Catalhoyuk.

HST 292 | KINGS, CASTLES AND CATHEDRALS: THE WORLD OF MEDIEVAL ENGLAND | 4 quarter hours
(Undergraduate)
A survey of cultural, social, economic, and constitutional developments in England from the Norman Conquest to the Glorious Revolution.

HST 293 | ISLAND AND EMPIRE: MODERN BRITAIN SINCE 1688 | 4 quarter hours
(Undergraduate)
A social, economic, cultural, and political survey of modern Britain and the British Empire. Topics covered will include the industrial revolution, the class system, the constitution, colonial expansion, and English literature. The course will situate the history of modern Britain within the context of European and world civilizations.

HST 294 | ANCIENT GREECE | 4 quarter hours
(Undergraduate)
Traces the development of Greek civilization through an examination of material culture. Emphasis will be on the major monuments and artifacts of the Greek world from prehistory to the Classical Age. Students will also be introduced to techniques and methods of classical archaeology.

HST 295 | AMERICAN HISTORY AND FILM/TV | 4 quarter hours
(Undergraduate)
This course examines American History and popular media. Depending on the instructor, it may focus on how American History has been depicted in popular media or it may emphasize the history and development of popular media. Contact instructor for syllabus.

HST 296 | ANCIENT ROME: ORIGINS TO THE END OF THE REPUBLIC | 4 quarter hours
(Undergraduate)
This course traces the development of Rome from a small settlement on the banks of the Tiber in the eighth century BCE to a Mediterranean power in the first century BCE. Both textual and archaeological sources will be used to understand political, economic, and social institutions of the Archaic and Republican periods.

HST 297 | IMPERIAL SPAIN, 1469-1808 | 4 quarter hours
(Undergraduate)
Analysis of Spain and Spanish empire between 1468-1808. During this period, Spain united and became a leading global power with enormous consequences for Western and world history. Emphasis on the political, economic, socio-cultural history of Iberian society.
HST 308 | EUROPE FROM CONFLICT TO CONSENSUS | 4 quarter hours 
(Undergraduate) 
The course will examine the emergence of a European identity during the second half of the twentieth century. Special attention will be given to the evolution of the European Union and NATO as representative institutions. 
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 310 | INTER-AMERICAN AFFAIRS | 4 quarter hours 
(Undergraduate) 
A mostly twentieth-century survey of political relationships between the United States and Latin American nations, emphasizing dependency and interdependence theories. 
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 311 | THE HISTORY OF THE CARIBBEAN: FROM COLUMBUS TO CASTRO | 4 quarter hours 
(Undergraduate) 
The history of the Caribbean from colonial times to the present, with special emphasis on the factors that give each nation its particular character. 
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 312 | LATINOS IN THE UNITED STATES | 4 quarter hours 
(Undergraduate) 
A survey of the history, politics, and culture of the major Latino groups in the United States: Mexicans, Puerto Ricans, Cubans, Dominicans, and Central Americans. Traces the history of these groups from the 19th century to the present by analyzing their impact on the United States. 
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 313 | THE OLD SOUTH | 4 quarter hours 
(Undergraduate) 
Considers the history of the southern states before the Civil War, focusing especially on the growth of southern slavery, the development of African-American culture, the socio-economic features of a slave society, as well as the distinctive political and ideological contours of the region. 
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 314 | THE CUBAN REVOLUTION | 4 quarter hours 
(Undergraduate) 
General analysis of the impact of the Cuban Revolution on Cuban society and the international political arena. The historical background of the revolution as well as its accomplishments and shortcomings will be emphasized. 
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 316 | GOD, SELF, AND SOCIETY IN MEDIEVAL CULTURE | 4 quarter hours 
(Undergraduate) 
The roots of Western thought in medieval education, literature, philosophy, and science. The interactions between high theology, mysticism, and popular culture. History and autobiography. 
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 317 | INDIVIDUAL AND SOCIETY IN RENAISSANCE ITALY | 4 quarter hours 
(Undergraduate) 
The flowering of culture, humanism and the arts in fourteenth- and fifteenth-century Italy. Renaissance politics, patronage and diplomacy. Religion and the Papacy. 
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 318 | THE AGE OF REFORMATIONS | 4 quarter hours 
(Undergraduate) 
Late medieval religion and society; the Reformations of Luther and Calvin, and the Catholic reform movements. Nationalism and the state in sixteenth-century Europe. The expanding world. 
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 319 | IMMIGRANT AMERICA | 4 quarter hours 
(Undergraduate) 
An overview of the ethnic experience in American society, how ethnic diversity has shaped America as America has re-shaped the lives of immigrants. 
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 320 | TOPICS IN WORLD HISTORY | 4 quarter hours 
(Undergraduate) 
Variable topics. Consult course schedule for current listings. 
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 321 | TOPICS IN AFRICAN HISTORY | 4 quarter hours 
(Undergraduate) 
Variable topics. Consult course schedule for current listings. 
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 322 | TOPICS IN ASIAN HISTORY | 4 quarter hours 
(Undergraduate) 
Variable topics. Consult course schedule for current listings. 
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 323 | THE CULTURES OF EARLY CHRISTIANITY | 4 quarter hours 
(Undergraduate) 
Late antique and early medieval intellectual history in social context. 
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 324 | COLONIAL LATIN AMERICA: AGE OF CONQUEST, 15TH - 17TH CENTURIES | 4 quarter hours 
(Undergraduate) 
This course examines the complexities of the Age of Conquest and focuses on the historical experience of Indigenous societies during the early colonial period. Special attention is given to the social and economic structures of Indigenous societies before 1492, the Spanish exploration and conquest, the presence of Indigenous allies and their role in the dynamics of conquest/colonization, the demographic catastrophe that followed the conquest, and the social, cultural, and economic characteristics of early colonial societies. 
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.
HST 328 | ENGLISH CONSTITUTIONAL HISTORY | 4 quarter hours
(Undergraduate)
A study of Anglo-Saxon institutions; feudalism after the Norman
conquest; growth of the common law; foundations of Parliament and
the development of central administrative systems.
A C- or better in HST 199 (or HST 298) or instructor consent is a
prerequisite for this course.

HST 329 | SPECIAL TOPICS IN HISTORY | 4 quarter hours
(Undergraduate)
Variable topics. Consult course schedule for current listings.
A C- or better in HST 199 (or HST 298) or instructor consent is a
prerequisite for this course.

HST 330 | TOPICS IN EUROPEAN HISTORY | 4 quarter hours
(Undergraduate)
Variable topics. Consult course schedule for current listings.
A C- or better in HST 199 (or HST 298) or instructor consent is a
prerequisite for this course.

HST 331 | THE NATION AND NATIONALISM IN EUROPE | 4 quarter hours
(Undergraduate)
Examines the emergence of nations and nationalism in modern Europe as
well as nationalists’ use and abuse of history.
A C- or better in HST 199 (or HST 298) or instructor consent is a
prerequisite for this course.

HST 332 | FRENCH REVOLUTION AND NAPOLEON | 4 quarter hours
(Undergraduate)
Analyzes the demise of the Old Regime, rise and fall of revolutionary
idealism, and the emergence of Napoleon.
A C- or better in HST 199 (or HST 298) or instructor consent is a
prerequisite for this course.

HST 333 | VICTORIAN ENGLAND | 4 quarter hours
(Undergraduate)
A detailed study of selected political, social, economic and cultural
themes in 19th century England.
A C- or better in HST 199 (or HST 298) or instructor consent is a
prerequisite for this course.

HST 334 | BRITAIN IN THE TWENTIETH CENTURY | 4 quarter hours
(Undergraduate)
An in-depth look at selected themes in recent British history including the
economic and imperial decline of Great Britain.
A C- or better in HST 199 (or HST 298) or instructor consent is a
prerequisite for this course.

HST 335 | THE AGE OF ENLIGHTENMENT IN EUROPE | 4 quarter hours
(Undergraduate)
Analyzes European society and culture in the late 17th and 18th centuries
and the intellectual movements that grew out of this historical context,
which is frequently considered the cradle of modern Western history and
thought.
A C- or better in HST 199 (or HST 298) or instructor consent is a
prerequisite for this course.

HST 337 | REVOLUTION AND NATIONALISM IN IRELAND, 1798 - 1923 | 4
quarter hours
(Undergraduate)
This course traces the evolution of Irish nationalism from the United
Irishmen Revolt (1798) through the creation of the Irish Free State
(1921) and the end of the Civil War (1923). It explores agrarian violence,
parliamentary politics and armed revolt, focusing on how these combined
to produce Irish independence.
A C- or better in HST 199 (or HST 298) or instructor consent is a
prerequisite for this course.

HST 338 | THE GREAT WAR, 1914 - 1918 | 4 quarter hours
(Undergraduate)
By using a variety of perspectives—social, cultural, intellectual, political—
this course will examine and re-examine the ways that the First World
War shaped and affected the modern world. After examining the broader
causes of the war, the course will work outward from the battlefields
to the home fronts, to the empires, and throughout the post-war world.
Although this course focuses on European history, instructors may also
examine its global context.
A C- or better in HST 199 (or HST 298) or instructor consent is a
prerequisite for this course.

HST 339 | HISTORY FROM PICTURES: VISUAL CULTURE IN EAST ASIAN
HISTORY | 4 quarter hours
(Undergraduate)
How do historians use paintings, woodblock prints, lithographs,
photographs, postcards, and other visual artifacts in understanding the
past? How do visual objects differ from conventional documents as
sources of historical evidence? In this course, we will investigate the
methodological approaches to writing history using visual artifacts as
primary source material. In particular, we will consider the impact of these
issues on the writing of East Asian history.
A C- or better in HST 199 (or HST 298) or instructor consent is a
prerequisite for this course.

HST 340 | CULTURE AND GENDER IN JAPAN | 4 quarter hours
(Undergraduate)
Examines gender and society in early modern and modern Japanese
history [c.1600-present].
A C- or better in HST 199 (or HST 298) or instructor consent is a
prerequisite for this course.

HST 341 | PEASANTS IN MODERN EUROPEAN HISTORY | 4 quarter hours
(Undergraduate)
An analysis of the significance and ultimate disappearance of the
peasantry, formerly the numerically dominant group in European society,
emphasizing both its social history and the methods needed to study the
non-literate.
A C- or better in HST 199 (or HST 298) or instructor consent is a
prerequisite for this course.

HST 342 | TOPICS IN AFRICAN-AMERICAN HISTORY | 4 quarter hours
(Undergraduate)
Variable topics. Consult course schedule for current listings.
A C- or better in HST 199 (or HST 298) or instructor consent is a
prerequisite for this course.
HST 343 | CRIME AND PUNISHMENT | 4 quarter hours
(Undergraduate)
What kinds of crimes were committed in the past? And how did societies punish the criminal? We will examine the changes in crimes and punishments from the eighteenth through the twentieth centuries in Europe, particularly the United Kingdom and her colonies. We will explore the ways that the developing state conceptualized and treated criminality and the consequences of state discipline on criminality.
A grade of C- or above in HST 298 is a prerequisite for this course.

HST 346 | AFRICAN-AMERICAN INTELLECTUAL HISTORY | 4 quarter hours
(Undergraduate)
African-American contributions in the areas of philosophy, theology, politics, literature, and art from 1619 to the present.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 349 | THE HOLOCAUST | 4 quarter hours
(Undergraduate)
This course places the Shoah, the Holocaust of European Jewry, at the center of a broader discussion of anti-Semitism, the rise of Nazism, the conduct of World War II, and the persecution and murder of other groups designated as outsiders or as enemies of the Nazi regime. Close attention is given to interpreting the behavior and experiences of perpetrators, victims, bystanders, and resisters, to the role of the churches, and to the politics of post-Holocaust legal proceedings and the complex work of memory and representation.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 352 | MEDIEVAL INDIA | 4 quarter hours
(Undergraduate)
Examines the social, cultural and political histories of South Asia from prehistoric times to the waning of the Mughal Empire.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 353 | MODERN INDIA AND PAKISTAN | 4 quarter hours
(Undergraduate)
Examines the modern history of India, giving special attention to India as a prototype of economic and political change in the Third World.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 354 | U.S. WOMEN'S HISTORY | 4 quarter hours
(Undergraduate)
The purpose of this course is to introduce students to the history of women’s work, family, and political lives in America. This intensive reading and discussion course is also designed to provide a detailed overview of recent historical literature and historiographic interpretations in American Women’s history.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 355 | GANDHI AND THE WORLD | 4 quarter hours
(Undergraduate)
This course is a political and intellectual history of the individual, his times, and his legacy. The course is designed around a thorough analysis of Gandhi’s own writing, significant critiques, and his world legacy.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 359 | SOCIETY AND CULTURE IN THE LATE SOVIET ERA | 4 quarter hours
(Undergraduate)
This seminar focuses on the society and culture of the USSR in the late Soviet period (i.e., from Stalin’s death in 1953 to Gorbachev’s resignation in 1991). It emphasizes themes such as: evolving notions of the individual in a collective society; tensions between emerging national (ethnic) and supranational (Soviet) identities; attitudes toward science and technology; city and countryside; consumption and consumerism; popular culture and celebrity; work and leisure, religion and orthodoxy; memory and commemoration; sexuality, gender roles, youth culture, and more.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 360 | DOING DIGITAL HISTORY | 4 quarter hours
(Undergraduate)
This course introduces students to the rapidly expanding world of digital history. Students taking the course will enhance their understanding of the conceptual, theoretical, and ethical issues involved in doing digital history, and learn to use digital tools while working individually and collaboratively on digital history projects.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 361 | TOPICS IN ISLAMIC HISTORY | 4 quarter hours
(Undergraduate)
Variable topics. Consult course schedule for current listings.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 362 | ATLANTIC HISTORY, 1492-1825 | 4 quarter hours
(Undergraduate)
An examination of intercontinental exchanges and cross-cultural links across the Atlantic ocean that both separated and united the Western Hemisphere, Europe, and Africa in the pre-industrial era.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 363 | MODERN BALKANS (EUROPE) | 4 quarter hours
(Undergraduate)
The establishment of national states, the social transformation from peasant to industrial societies, and the effects of war and revolution in southeastern Europe since the late 18th century.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 364 | PALESTINE UNDER THE BRITISH MANDATE | 4 quarter hours
(Undergraduate)
This course examines the foundation and evolution of the British Mandate of Palestine from 1914 to 1948 in its British imperial, Middle Eastern, and world historical contexts. Students will engage primary and secondary sources associated with controverted issues, including Zionism, creation of the Mandate, immigration, and inter-communal conflict.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 365 | THE CRUSADES | 4 quarter hours
(Undergraduate)
Addresses the European Crusades to the Holy Land from a World Historical Perspective.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.
HST 366 | THE MODERN MIDDLE EAST AND NORTH AFRICA | 4 quarter hours
(Undergraduate)
The history of the region since 1800. Topics covered include the end of the Ottoman Empire, the impact of European Imperialism and the renewal of Islam.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 367 | US-MEXICAN BORDERLANDS | 4 quarter hours
(Undergraduate)
This course examines the history of the U.S.-Mexican borderlands from its creation in 1848 to the present. What makes the U.S.-Mexican borderlands so unique and volatile is that it is one of the few regions in the world where two nations that so distinct in economic formations, political systems, and cultural values come into permanent contact. The course will focus on key issues that have historically shaped the borderlands such as violence, contraband, migrations, race and income inequality.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 368 | SOCIAL MOVEMENTS IN LATIN AMERICA | 4 quarter hours
(Undergraduate)
This course examines how Native Americans, slaves, peasants, and other subaltern people actively resisted their subservient status in Latin America. It will cover a variety of protest movements, from "pre-modern" (such as millenarian movements, slave rebellions, urban riots, and "race" wars) to "modern" (such as social revolutions).
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 369 | REVOLUTIONS IN LATIN AMERICA | 4 quarter hours
(Undergraduate)
This course surveys, analyzes, and compares a series of revolutionary movements, conflicts, and regimes in 20th Century Latin America.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 370 | AMERICAN COLONIAL HISTORY | 4 quarter hours
(Undergraduate)
The European's first contact, exploration, and settlement of the Eastern seaboard, with discussion of significant political, economic, and social consequences.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 371 | THE AMERICAN REVOLUTION | 4 quarter hours
(Undergraduate)
The establishment of American independence, adoption of the Constitution, the first years of the republic considered in analytical detail.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 372 | ANTEBELLUM AMERICA | 4 quarter hours
(Undergraduate)
This course treats the significant social, political, economic, and cultural developments shaping America and Americans during the first fifty years of the nineteenth century.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 373 | THE CIVIL WAR ERA | 4 quarter hours
(Undergraduate)
This course examines the primary causes, events, and outcomes of the American Civil War, 1861-1865. Topics and themes include the sectional differences and similarities between the North and the South from 1820 until secession, including the role of slavery in fostering those sectional differences; the political crises that led to secession; aspects of military strategy and major military events of the war, including guerrilla warfare; the leading political figures of the period; the nature of life on the homefront; the impact of the war on slavery and the contributions of slaves and free blacks to the war; the role of gender and race in shaping the experience of the war; and dissent and disloyalty in both the Confederacy and the Union.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 374 | EMERGENCE OF MODERN AMERICA, 1877-1914 | 4 quarter hours
(Undergraduate)
New cultural patterns, political party battles, growth of big business and organized labor, women's suffrage movement, Populism and the Progressive Era.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 375 | THE GREAT DEPRESSION AND THE NEW DEAL ERA | 4 quarter hours
(Undergraduate)
A consideration of World War I, the Twenties, the Great Depression, and the New Deal.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 376 | THE UNITED STATES SINCE 1940 | 4 quarter hours
(Undergraduate)
Significant developments in American life during the period after World War II.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 377 | HISTORY OF POVERTY IN THE UNITED STATES | 4 quarter hours
(Undergraduate)
The class will examine changes in the underclass, in perceptions of the poor, and in the remedies used to address poverty in the United States from the late eighteenth to the early twenty-first centuries.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 378 | THE AMERICAN WEST IN THE 20TH CENTURY | 4 quarter hours
(Undergraduate)
This course explores cultural, social, and political interaction in the American West during the 20th century. Themes include popular culture, state-federal relationships, environmental changes, urbanization, political and social movements, immigration, and cultural formation.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.
HST 379 | RECONSTRUCTION AND THE RISE OF JIM CROW | 4 quarter hours
(Undergraduate)
This course covers the history and culture of the post-Civil War United States, particularly the political epoch called Reconstruction and the establishment of the subsequent system of racial apartheid in the South commonly referred to as Jim Crow (approximately 1863-1930). Topics and themes include the major political, legal, and economic changes that occurred during the Reconstruction period; African American political and social leadership during Reconstruction; the role of Civil War veterans in the United States; the role of gender and race in establishing new legal and cultural norms under Jim Crow; the central role played by violence, particularly lynching and extralegal terrorism, in creating and maintaining segregation; and the establishment of debt peonage and convict leasing as white-controlled systems of labor control.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 380 | GENDER, TECHNOLOGY AND CULTURE IN 20TH CENTURY AMERICA | 4 quarter hours
(Undergraduate)
Why are cars and computers “masculine,” but telephones and typewriters “feminine”? How did technological artifacts and systems constitute, mediate, and reproduce gender identities and relations? The course raises questions about the relationship between gender and technology, examining how everyday technologies defined and redefined the workplace, home, and personal identity.
HST 299 or instructor consent is a prerequisite for this course.

HST 381 | AMERICAN POPULAR CULTURE 1890s-1930s | 4 quarter hours
(Undergraduate)
Students in this course will chart the rise of several industries, engage in close textual analysis of cultural products such as films and vaudeville performances, and study the reception and social impact of key figures, products, and events in the United States from the 1890s through the 1930s. Cross-listed with AMS 340.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 382 | CHICAGO HISTORY MUSEUM EXPERIENCE | 4 quarter hours
(Undergraduate)
Experience history in Chicago. The course is taught by a Chicago History Museum (CHM) curator/archivist and takes place at the CHM. Expect group work and field trips. Students develop skills and knowledge relevant to public history careers, and will gain a firm conceptual understanding of public history historiography, and of how the Chicago History Museum does public history. Students apply this knowledge to class discussions, assignments, and actual museum projects.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 383 | BORDERLANDS AND FRONTIERS IN AMERICA | 4 quarter hours
(Undergraduate)
Consideration of the changing conceptions of frontiers in American history with attention to the development of historical borderlands communities.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 384 | TOPICS IN AMERICAN HISTORY | 4 quarter hours
(Undergraduate)
Variable topics. Consult course schedule for current listings.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 385 | UNITED STATES CONSTITUTIONAL HISTORY TO 1865 | 4 quarter hours
(Undergraduate)
Examines the English colonial charters, the constitutional aspects of the American Revolution and the federal Constitution; explores ratification issues, judicial power, the concepts of the Federal system, separation of powers, Foreign Affairs and national security as defined in the U.S. Constitution with reference to major Supreme Court decisions in these areas.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 386 | UNITED STATES CONSTITUTIONAL HISTORY SINCE 1865 | 4 quarter hours
(Undergraduate)
Problems of civil liberties, rights of accused, privacy and constitutional issues and controversies arising during and after World War II, including the major decisions of the Warren court, Burger court and Rehnquist court.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 387 | TOPICS IN RUSSIAN HISTORY | 4 quarter hours
(Undergraduate)
Each time this course is taught, it will examine in depth a specific problem, issue, theme, or moment in Russian history as described in the course subtitle. Possible offerings include: “Mass Culture in the Soviet Union and Post-Soviet Russia,” “Stalin and Stalinism,” “Crime and Criminality in Russia,” “The Russian Revolution,” “Gender and Sexuality in Russia,” and “The Rise and Fall of the New Soviet Man.”
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 388 | THE COURT AND THE U.S. BILL OF RIGHTS | 4 quarter hours
(Undergraduate)
An examination of historical, philosophical, and legal developments related to the Bill of Rights in the U.S. Constitution. The course will also examine how the Bill of Rights has been affected by Supreme Court appointments, court decisions, and constitutional amendments.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 389 | TOPICS IN PUBLIC HISTORY | 4 quarter hours
(Undergraduate)
Public history is a field of history that requires its practitioners to use the skills and methods of academic history with an eye towards connecting the public with that history. This seminar focuses on the skills, methods, sources and themes that are relevant to historians whose work takes them outside of the classroom. Theme of the seminar will vary with instructors. Some off-campus fieldtrips may be required.
A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.
HST 390 | CAPSTONE IN HISTORICAL RESEARCH AND WRITING | 4 quarter hours  
(Undergraduate)

The History Capstone in Historical research and Writing allows students to engage in deep and sustained historical research and writing, with multiple opportunities for instructor feedback and student revision. It is also an excellent way for students to experience firsthand the linkages between broad reading in a given field and subsequent primary-source based research in that field. Every autumn and winter quarter, certain 300-level course offerings will be designated as Capstone-linked classes. Students ready to take this course can choose among the offerings as suits their interests.

A grade C- or above in HST 299 is a prerequisite for this course.

HST 391 | DOING LOCAL AND COMMUNITY HISTORY | 4 quarter hours  
(Undergraduate)

Collaborative learning groups will work with community partners in order to produce a tangible end-of-quarter public history project whose audience will be the greater Chicago community. This course carries a junior year experiential learning credit.

A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 392 | PUBLIC HISTORY INTERNSHIP | 4 quarter hours  
(Undergraduate)

History students have interned with the South Hampton Historical Museum (in Long Island, NY), the Chicago History Museum, the Evanston History Center, the Frances Willard House Museum and Memorial Archives, the National Public Housing Museum, the Peggy Notebaert Nature Museum, Lake County Historical Museum, and a host of other archives, and historical organizations. In addition to evaluations from a site supervisor, a faculty member evaluates students’ reflective writing that draws connections between relevant public historical readings and field experience. The Public History Concentration Director would be happy to discuss possible internship opportunities with interested students (at least a quarter in advance), and to assist in matching student interests to public history venues. Note: internship placement is incumbent upon the student.

A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 394 | AFRICAN-AMERICAN URBAN HISTORY | 4 quarter hours  
(Undergraduate)

Examination of the African American experience in American cities: from slave era, to the migration, to the present.

A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 395 | ISSUES IN NON-U.S. LEGAL HISTORY | 4 quarter hours  
(Undergraduate)

Designed to develop in the prelaw student analytical and adversarial skills useful in the practice of law, and to confront controversial issues dealing with values of the lawyer and the citizen.

A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 396 | ORAL HISTORY: MEMORY, METHOD AND PRACTICE | 4 quarter hours  
(Undergraduate)

An introduction to the techniques of oral history with particular emphasis on public history.

A C- or better in HST 199 (or HST 298) or instructor consent is a prerequisite for this course.

HST 398 | STUDY TOUR | 1-8 quarter hours  
(Undergraduate)

An in-depth, on-site overview of the historical, political, social and economic reality of a foreign country. Credit variable.

HST 399 | INDEPENDENT STUDY | 1-4.5 quarter hours  
(Undergraduate)

Majors only. Credit variable.

Junior standing or above is a prerequisite for this class.

HST 421 | THE HISTORICAL DISCIPLINE | 4 quarter hours  
(Graduate)

This course introduces students to the fundamental concerns and skills necessary for the study of history at the graduate level. It does this by providing a “history of history,” giving students an overview of the growth and development of the academic discipline of history, by addressing issues of methodology, historiography and historical philosophy, and by providing students with an awareness of current concerns, controversies, and debates in the discipline. Restricted to students in the MA in History program.

Status as an MA in History student is a prerequisite for this class.

HST 422 | SEMINAR IN PRIMARY SOURCE ANALYSIS | 4 quarter hours  
(Graduate)

This course builds upon HST 421. It focuses on issues raised by the analysis of historical evidence, and exposes students to the many practical and theoretical tools by which historians construct historical knowledge out of this “raw” material. The course will include study of primary sources, methods of analysis and authentication, and ways in which different kinds of sources are integrated into coherent historical narratives.

HST 431 | COLLOQUIUM IN AMERICAN HISTORY | 4 quarter hours  
(Graduate)

Variable topics. Consult course schedule for current listings.

HST 432 | COLLOQUIUM IN LATIN AMERICAN HISTORY | 4 quarter hours  
(Graduate)

Variable topics. Consult course schedule for current listings.

HST 433 | COLLOQUIUM IN AFRICAN HISTORY | 4 quarter hours  
(Graduate)

Variable topics. Consult course schedule for current listings.

HST 434 | COLLOQUIUM IN ASIAN HISTORY | 4 quarter hours  
(Graduate)

Variable topics. Consult course schedule for current listings.

HST 435 | COLLOQUIUM IN EUROPEAN HISTORY | 4 quarter hours  
(Graduate)

Variable topics. Consult course schedule for current listings.

HST 436 | COLLOQUIUM IN ISLAMIC HISTORY | 4 quarter hours  
(Graduate)

Variable topics. Consult course schedule for current listings.

HST 437 | COLLOQUIUM IN WORLD HISTORY | 4 quarter hours  
(Graduate)

Variable topics. Consult course schedule for current listings.

HST 438 | COLLOQUIUM: SPECIAL TOPICS IN HISTORY | 4 quarter hours  
(Graduate)

Variable topics. Consult course schedule for current listings.
HST 489 | GRADUATE CAPSTONE | 4 quarter hours
(Graduate)
This is an intensive seminar in which students are asked to analyze a number of important works of scholarship drawn from the breadth and complexity of the historical discipline. The course allows students to synthesize the many skills they have learned in their earlier classes, notably the ability to read and assess historical monographs. They will thereby demonstrate their competence in analyzing historical arguments, their knowledge of both historiography and historical content, and their proficiency in understanding the variety of primary sources and methods of interpreting them.

HST 492 | GRADUATE INTERNSHIP | 4 quarter hours
(Graduate)
Internship.

HST 497 | INDEPENDENT STUDY | 4-8 quarter hours
(Graduate)
Independent Study.

HST 499 | THESIS RESEARCH | 4-8 quarter hours
(Graduate)
Between four and eight hours credit to be determined by the department.

HST 500 | CANDIDACY CONTINUATION | 0 quarter hour
(Graduate)
This 0-credit hour course is available to master’s degree candidates who are actively working toward the completion of a thesis, project, or portfolio. Enrollment in this course is limited to three quarters and requires thesis/project advisor and graduate director approval and demonstration to them of work each quarter. Enrollment in this course allows access to the library and other campus facilities. This course carries and requires the equivalent of half-time enrollment status. The student may be eligible for loan deferment and student loans. This course is graded as pass/fail. (0 credit hours)

HST 501 | CANDIDACY MAINTENANCE | 0 quarter hour
(Graduate)
This 0-credit hour course is available to graduate students who are not registered for a course in a given quarter but need to maintain active university status. Enrollment in this course is limited to three quarters and requires permission of the graduate director. Enrollment in this course allows access to the library and other campus facilities. This course does not carry an equivalent enrollment status and students in it are not eligible for loan deferment or student loans. This course is not graded. (0 credit hours)

Honors (HON)

HON 100 | RHETORIC AND CRITICAL INQUIRY | 4 quarter hours
(Undergraduate)
This course covers the fundamentals of research and leads students through a sequence of writing assignments which require them to take positions and persuade audiences about issues of public concern. Students will create effective academic discourse, develop critical thinking skills, explore issues of form and style, and examine arguments. HON 100 is required for all Honors students. Open only to students in the University Honors Program. Membership in the University Honors Program is a prerequisite for this class.

HON 101 | WORLD LITERATURE | 4 quarter hours
(Undergraduate)
Honors 101 focuses on the way writers use language to construct their worlds. Reading, writing, and informed discussion are at the heart of this course, which uses texts from a range of cultures and historical periods to explore how literary works represent issues of human importance. Membership in the University Honors Program is a prerequisite for this class.

HON 102 | HISTORY IN GLOBAL CONTEXTS | 4 quarter hours
(Undergraduate)
With the goal of enhancing historical literacy and critical thinking, this course invites students to explore how the interdisciplinary tools of historical inquiry aid them in their encounter with the multicultural past through study of a particular society or societies. Students discover how historians extract meaning from primary and secondary sources while exploring the problems and issues involved in analyzing and using a variety of sources. Topics of this course vary and are set by the faculty. Each section of HON 102 will be subtitled to indicate its topic; please see the schedule for current offerings. Membership in the University Honors Program is a prerequisite for this class.

HON 104 | RELIGIOUS WORLDVIEWS AND ETHICAL PERSPECTIVES | 4 quarter hours
(Undergraduate)
This course helps students understand religious worldviews by allowing them to examine individual religious traditions. The course situates several religious traditions within a comparative framework; students gain knowledge of the nature and function of religion in a broad spectrum of human experience, encounter a variety of religious experiences and expressions, find in them common patterns, structures, and concerns, and become aware of the different ways of being religious. Each section will, in some way, address a variety of religious expressions and actions such as ritual, myth, ethics, cosmology, space, and time. Membership in the University Honors Program is a prerequisite for this class.

HON 105 | PHILOSOPHICAL INQUIRY | 4 quarter hours
(Undergraduate)
Providing an introduction to philosophy as a mode of inquiry, this course explores, from a variety of perspectives, the questions central to the human condition, placing philosophical positions within the context of human values. Students will address the themes of knowledge, action, and human identity, considering how one thinks critically about such questions and what it means to inquire about the human condition in a rational manner. Readings will be drawn from both primary philosophical texts and relevant material from other disciplines. Membership in the University Honors Program is a prerequisite for this class.
HON 110 | HONORS DISCOVER CHICAGO | 4 quarter hours
(Undergraduate)
Honors Discover Chicago courses acquaint first-year honors students with the metropolitan community, its neighborhoods, cultures, people, institutions, organizations and issues. Students will also learn about university life and resources and will become acquainted with the honors scholarly community. The course begins with Immersion Week, one week prior to the official start of the autumn quarter, then continues through the first eight weeks of the quarter. Learning in HON 110 is accomplished through a variety of means including first-hand observation, reflection, discussion, writing, site visits, and encounters with Chicagoans both in the classroom and on excursions. Students will select a particular Honors Discover course from available offerings. Students with credit for HON 110 cannot receive credit for HON 111.
Membership in the University Honors Program is a prerequisite for this class.

HON 111 | HONORS EXPLORE CHICAGO | 4 quarter hours
(Undergraduate)
Honors Explore Chicago courses acquaint first-year honors students with the metropolitan community, its neighborhoods, cultures, people, institutions, organizations and issues. Students will also learn about university life and resources and will become acquainted with the honors scholarly community. Learning in HON 111 is accomplished through a variety of means including first-hand observation, reflection, discussion, writing, site visits, and encounters with Chicagoans both in the classroom and on excursions. Students will select a particular Honors Explore course from the available offerings. Students with credit for HON 111 cannot receive credit for HON 110.
Membership in the University Honors Program is a prerequisite for this class.

HON 180 | DATA ANALYSIS AND STATISTICS | 4 quarter hours
(Undergraduate)
Using real-world data and open-ended investigations from a variety of disciplines, students apply quantitative and statistical reasoning skills to focus on outcomes of analysis. Students will explore the nature and description of data, probability theory, sampling, variability, estimation, analysis of correlation, hypothesis testing, and experiment design to become critical users of quantitative information. Open only to students in the University Honors Program.
Membership in the University Honors Program and (LSP 120 or MAT 130 or placement by test) are prerequisites for this class.

HON 201 | STATES, MARKETS, AND SOCIETIES | 4 quarter hours
(Undergraduate)
This course focuses on the organization of economic, political and social relationships within the global system, including analysis of how these relationships affect the distribution of power, resources, well-being and cultural capital in different societies. It covers such topics as phases in the growth of global trade and investment; the role of economic incentives; the historical and conceptual relationship between markets; social stratification, culture, and forms of popular participation; and the development challenges posed by international inequality and social marginality. Membership in the University Honors Program and Sophomore standing or above is a prerequisite for this class.

HON 205 | INTERDISCIPLINARY ARTS | 4 quarter hours
(Undergraduate)
This course offers interdisciplinary study of two or more art forms in a particular historical period, looking at relations among the arts and between art and its cultural contexts. Students will develop a critical vocabulary for the analysis of works in the visual arts, theater, music, literature, or other art forms. Work in the course will be interdisciplinary and will include readings, classroom exercises, visits to relevant performances or exhibits, and papers. Variable topics; please see the schedule for current offerings.
Membership in the University Honors Program and Sophomore standing or above is a prerequisite for this class.

HON 207 | TOPICS IN COGNITIVE STUDIES | 4 quarter hours
(Undergraduate)
Focusing on the mutual impact of society, culture, and individuals, students will study and apply theories emphasizing human relationships as influenced by social and cultural forces.

HON 225 | HONORS LAB SCIENCE TOPICS | 4 quarter hours
(Undergraduate)
Students in Honors 225 will investigate a particular scientific topic or issue using readings, discussions, papers, and laboratory work. In the process of investigation they will learn about the nature and processes of science and will be able to describe and explain their work in writing; some projects may be done in teams. All sections of Honors 225 include a laboratory component. Please see the Schedule of Classes for current offerings.

HON 300 | HONORS RESEARCH SEMINAR | 2-5 quarter hours
(Undergraduate)
This course, offered occasionally, invites students to enhance their skills in conducting research on issues of interest. Please see the schedule for current offerings. Open only to students in the University Honors Program.

HON 301 | HONORS JUNIOR SEMINAR IN MULTICULTURALISM | 4 quarter hours
(Undergraduate)
This seminar asks students to conduct research on complex issues related to multiculturalism. Topics may cover various dimensions of identity including issues of race and ethnicity, class, gender, language, religion, sexual orientation, disability and nationality. Students are encouraged to develop a critical perspective about the meaning of multiculturalism and to understand the historical and/or contemporary manifestations of inequality. All students prepare research projects and participate in seminar discussions. Variable topics; please see the schedule for current offerings. This course meets the university's requirement in multiculturalism and the Honors Program Junior Seminar requirement.
Membership in the University Honors Program and Junior standing or above is a prerequisite for this class.
HON 301 and status as a senior in the University Honors program is a prerequisite for this class.

HON 302 [HONORS INDEPENDENT STUDY] | 2-4 quarter hours (Undergraduate)

HON 351 | HONORS SENIOR SEMINAR IN SERVICE LEARNING | 4 quarter hours (Undergraduate)
This course, which meets the capstone requirement for the University Honors Program, is designed to foster skills in interdisciplinary research and writing. In a seminar setting, students explore a designated topic, develop related projects, and pursue work in an area defined by the Honors faculty member who designed the particular course. Seminars will be offered in broad interdisciplinary areas, allowing seniors to choose from diverse topics. Please see the schedule for current offerings. Only open to students in the University Honors Program.

HON 350 and status as a senior in the University Honors program is a prerequisite for this class.

Hospitality Leadership (HSP)

HSP 100 | INTRODUCTION TO HOSPITALITY | 4 quarter hours (Undergraduate)
This course takes a survey perspective in introducing students to the global hospitality industry, its associations, organizations and businesses. This course provides an overview of the historical evolution and development of modern, lodging, food & beverage, private club, meetings & events, and other hospitality related industries. Current and future career opportunities are explored.

HSP 101 | INTRODUCTION TO GLOBAL TOURISM | 4 quarter hours (Undergraduate)
This course takes a cross-disciplinary approach to examine the many facets of tourism. Specific analysis of world travel destinations, customs and traditions, visitor attractions, political, religious and other cultural differences as these relate to the tourism industry will be introduced. This course evaluates tourism globally while identifying economic, socio-cultural, and environmental impacts on host destinations from the perspectives of the local communities as well as the traveler. The basic dimensions of sustainability, civic engagement, ethics, service and the historical perspective that are integral to the tourism industry will be covered from a social science perspective, in order to provide students with the kind of practical knowledge that can be applied in many fields of study.

HSP 200 | HOSPITALITY SERVICES AND EXPERIENCE MANAGEMENT | 4 quarter hours (Undergraduate)
The concepts of service, service delivery and service recovery in different cultural and geographic contexts are explored. These include the full range from limited service through deluxe, the intentional decisions of management about what and how much service to offer, the quality of service, delivering service for rather than to someone, and how to transform a service event into a repeatable, memorable experience.

HSP 201 | INTRODUCTION TO HOSPITALITY | 4 quarter hours (Undergraduate)
This course takes a survey perspective in introducing students to the global hospitality industry, its associations, organizations and businesses. This course provides an overview of the historical evolution and development of modern, lodging, food & beverage, private club, meetings & events, and other hospitality related industries. Current and future career opportunities are explored.

HSP 203 | HOSPITALITY LEADERSHIP & SELF DEVELOPMENT | 2 quarter hours (Undergraduate)
The primary goal of the course is to move students towards the development and understanding of the foundations of leadership, differentiating leadership from management, and emphasizing the core traits and other personal qualities required of successful hospitality leaders. The course further focuses on the importance of a leader’s character, values and professionalism as the basis for ethical decision-making in an organizational context. (2 quarter hours)

HSP 204 | HOSPITALITY LEADERSHIP & TEAMS | 2 quarter hours (Undergraduate)
The successful delivery of hospitality products and services is often a result of interdisciplinary teams working together. In this course, students will explore the composition and functionality of hospitality teams, how guest and operational problems are identified and solved through group interaction and dynamics, and how team performance is assessed through guest satisfaction. (2 quarter hours)

HSP 207 | HOSPITALITY LAW, ETHICS & RISK | 4 quarter hours (Undergraduate)
Legal and ethical concepts in the hospitality industry are explored, including the structure of the American legal system, contract law, discrimination, product and property liability, and torts. Laws specific to the hospitality industry are introduced. Ethical perspectives are identified and applied to hospitality operations. Administrative law and government regulation of hospitality is also discussed.
HSP 208 | MANAGING PEOPLE & THE CHICAGO UNION ENVIRONMENT | 2 quarter hours (Undergraduate)
The unique qualities of human resources management relative to all
segments of the hospitality industry are explored in this class. The five
major areas of focus include: (a) recruitment and selection (b) training
and career development (c) turnover and retention (d) recognition and
performance management and (e) labor relations within the hospitality
industry. Specific attention is paid to approaches used by unions to
organize as well as methods used by management to combat labor
organization.
HSP 100 is a prerequisite for this class.

HSP 209 | HOSPITALITY ACCOUNTING AND FINANCIAL ANALYSIS | 4
quarter hours (Undergraduate)
The unique qualities of financial management and managerial accounting
relative to the hospitality industry are explored in this course. The areas
of focus include the hotel and restaurant GAAP foundations of profit and
loss statements, computing common hospitality industry ratios, analysis
of labor and inventory management reports, planning and budgeting
processes, evaluating balance sheets, including franchising and other
hospitality industry fees, and managerial decision-making based on an
analysis of hospitality accounting reports.
ACC 101 is a prerequisite for this class.

HSP 250 | MANAGING YOUR HOSPITALITY CAREER | 2 quarter hours
(Undergraduate)
This course is designed to explore and manage the professional
expectations, career realities, and opportunities of your hospitality major.
Students will participate in hands-on resume building activities, practice
interviews, and apply research and evaluation skills to execute job search
and career management strategies. Students will learn about Career
Center resources and internship opportunities as ways to prepare for
successful job searches and to maximize their potential for long-term
professional growth. (2 quarter hours)

HSP 301 | LEADERSHIP SPEAKER SERIES I | 1 quarter hour
(Undergraduate)
Industry professionals will address service leadership and current issues
in hospitality and tourism. Speakers will address the role of leadership
in the creation and delivery of service. This course should be completed
during a student's junior year. (1 quarter hour)

HSP 302 | LEADERSHIP SPEAKER SERIES II | 1 quarter hour
(Undergraduate)
Industry professionals will address service leadership and current issues
in hospitality and tourism. Speakers will address the role of leadership
in the creation and delivery of service. This course should be completed
during a student's senior year. (1 quarter hour)

HSP 303 | HOSPITALITY INTERNSHIP I | 2 quarter hours
(Undergraduate)
This course is a supervised and structured industry experience. It is
designed for students to concurrently obtain practical experience and
course credit through a formal internship in a functional department
within hospitality operations. This course reflects the importance of
providing additional real-world job experience within a unique sector
other than that experienced from the student's completion of their first
internship. This course is designed to advance and contrast students' experiences within both practica. Site is to be chosen in collaboration
with faculty. Students must win acceptance through an interview with a
hospitality professional who will supervise the practicum. Potential sites
could include one of Chicago's many hotels, clubs, convention centers, tourism offices, airports, airlines, spas and restaurants. Students
are required to work a minimum of 50 hours needed for completion over a
10-week quarter. (2 quarter hours)

HSP 304 | HOSPITALITY INTERNSHIP II | 2 quarter hours
(Undergraduate)
This course is a supervised and structured industry experience. It is
designed for students to concurrently obtain practical experience and
course credit through a formal internship in a functional department
within hospitality operations. This course reflects the importance of
providing additional real-world job experience within a unique sector
other than that experienced from the student's completion of their first
internship. This course is designed to advance and contrast students' experiences within both practica. Site is to be chosen in collaboration
with faculty. Students must win acceptance through an interview with a
hospitality professional who will supervise the practicum. Potential sites
could include one of Chicago's many hotels, clubs, convention centers, tourism offices, airports, airlines, spas and restaurants. Students
are required to work a minimum of 50 hours needed for completion over a
10-week quarter. (2 quarter hours)

HSP 305 | LEADERSHIP SPEAKER SERIES III | 1 quarter hour
(Undergraduate)
Industry professionals will address service leadership and current issues
in hospitality and tourism. Speakers will address the role of leadership
in the creation and delivery of service. This course should be completed
during a student's junior year. (1 quarter hour)

HSP 320 | PRIVATE CLUB MANAGEMENT | 4 quarter hours
(Undergraduate)
This course explores the management of, and leadership roles within,
private city, country, and athletic clubs. Topics include: the general
manager function; organizational structure of clubs; the role of the
board of directors; membership requirements; equity and non-equity
clubs; tax-exempt clubs and nontax-exempt clubs; duties and leadership
responsibilities of department heads in private clubs; governmental
regulations; the future of clubs; and the relationship of private clubs to
the hospitality industry.

HSP 321 | FOOD PRODUCTION MANAGEMENT | 2 quarter hours
(Undergraduate)
This laboratory-based course is an introduction to the basic principles
of food production. Topics include culinary terminology, theory and
application of food preparation techniques, food product identification
and fabrication. (2 quarter hours)
A declared Club Management Concentration is a prerequisite for this
class.

HSP 322 | QUANTITY FOODSERVICE MANAGEMENT | 2 quarter hours
(Undergraduate)
Analysis of factors affecting quantity food production and service in the
foodservice industry, emphasizing adherence to food quality and service,
ethical evaluation of food products and commercial equipment, planning
and coordinating food production activities for large groups, and the
impact of operations upon environmental sustainability. (2 quarter hours)
HSP 321 and a declared Club Management concentration are
prerequisites for this class.

HSP 323 | ADVANCED PRIVATE CLUB MANAGEMENT | 4 quarter hours
(Undergraduate)
An in-depth, international, comprehensive study and analysis of the
senior club manager's role in operating a successful private club.
Focused on advanced methods and issues including: career planning,
club bylaws and rules, legal and ethical concerns, facility design and
management, special enterprises within the club, break even and financial
analysis, club feasibility and marketing, research interests, membership
services, CCM certification and promotion/public relations. Case studies
and a comparison of international approaches to managing clubs will be
used to augment lectures and discussions.
HSP 320 is a prerequisite for this class.
HSP 330 | RESTAURANT OPERATIONS | 4 quarter hours (Undergraduate)
This course is designed to introduce the major components of food and beverage service management and to differentiate those components from management in other hospitality segments. The course focuses on management procedures, service styles and safety in food service operations. The course examines the basics of several types of restaurants, including independents and chains. Catering operations will also be addressed.

HSP 331 | FOODSERVICE PURCHASING | 4 quarter hours (Undergraduate)
Details the standards of quality as applied to food, supplies and related products used in the foods industry. Provides methods and criteria for recognizing quality, evaluating, specifying, purchasing and inspecting these products. The use of technology in the purchasing component of the foodservice industry is detailed.

HSP 332 | BEVERAGE MANAGEMENT | 4 quarter hours (Undergraduate)
This course is an overview of the commercial beverage industry. Emphasis is on management’s role and responsibility in operating a facility serving alcoholic beverages. Principles and practices regarding the production, selection, purchasing, storage and service of beverage alcohol in the hospitality industry are detailed.

HSP 333 | INTERNATIONAL WINE EDUCATION & MANAGEMENT | 4 quarter hours (Undergraduate)
The purpose of this course is to introduce students to wine management best practices in the hospitality industry. The course introduces students to the regional grape varietals and wine making styles around the globe along with the science that underlies practical wine production issues. The course focuses on multiple aspects of the wine service process, including understanding wine styles and products, judging quality, service techniques, creating food and wine pairings, developing sales and marketing promotions, and determining cost and pricing decision-making. Students must be legal drinking age by start of course.

HSP 340 | LODGING PROPERTY MANAGEMENT | 4 quarter hours (Undergraduate)
Practices and systems utilized in the operational management of the hotel, including front office, reservations, uniform service, and housekeeping areas. Coordination with F&B, catering, sales & marketing, and other departments are explored. Computer systems used as property management systems are introduced and discussed.

HSP 341 | RESORT & SPA MANAGEMENT | 4 quarter hours (Undergraduate)
The range of resort and spa operations are explored and analyzed. Key topics unique to these geographic and programmatic settings are discussed, including issues in guest relations, the design of programs and amenities, the role of golf courses, tennis facilities, swimming pools and water sports, spas, the impact of operations upon environmental sustainability, and the importance of conference/meeting events in the resort industry.

HSP 342 | TIME SHARE MANAGEMENT | 4 quarter hours (Undergraduate)
The course focus is upon the concepts of timeshare management. Topics include historical background, development process, market analysis, exchange systems, ownership and calendar issues, ethical obligations, budgeting, and customer relations.

HSP 343 | CASINO MANAGEMENT | 4 quarter hours (Undergraduate)
Explore the history and development of gaming, casino operations including slots, table games, sports and internet betting, credit and casino accounting, casino hotels and casino foodservice, and the marketing of the core gaming products. A central focus will be on current trends as well as the primary management and financial elements unique to operating a casino.

HSP 350 | EVENT PLANNING | 4 quarter hours (Undergraduate)
This course focuses on the fundamentals and core issues of event and meeting management. Development of time-lines, checklists and request for proposals are covered. The course emphasizes planning, budgeting, marketing, public relations, food and beverage and contract and lease negotiations.

HSP 351 | EVENT TOURISM | 4 quarter hours (Undergraduate)
Provides a comprehensive coverage of worldwide tourism destinations, examining the basic principles of underlying the development of tourist demand, supply and transportation, together with a broad survey of world tourism by generating regions and by destination regions. The convention and visitors bureau (CVB) or local governmental tourism agency is discussed as an integral part of destination marketing and addresses its place and importance in the local hospitality industry and larger, general business community. Issues explored include organizational structure, financing, ethical decision-making, numerous audiences, impact upon environmental sustainability, and its sales and service missions.

HSP 352 | EVENT PRODUCTION | 4 quarter hours (Undergraduate)
This course examines the production and execution of special events. It is designed to help hospitality leadership students learn the theories of event management with exposure to actual events and event planners. The student will learn how to formulate event strategies for destinations. The course will focus on planning, developing, managing, and implementing all types of events, such as entertainment events, corporate events, cultural events, sporting events and festivals.

HSP 353 | EVENT SALES, SERVICE & PROMOTION | 4 quarter hours (Undergraduate)
The course focuses on the modes and methods of sales and promotion used in booking conventions and trade shows, including identifying sponsors marketing to attendees, exhibitors and other participants. The course also looks at the division of administrative responsibility in operations. Students will explore organizing, arranging and operating conventions, trade shows and expositions.

HSP 355 | ADVANCED EVENT MANAGEMENT | 4 quarter hours (Undergraduate)
This course introduces advanced management and decision making specific to the events industry. Analysis of current issues and future trends in meeting, exhibition and event management and their impact on other sectors within the hospitality industry will be explored.

HSP 350 is a prerequisite for this class.

HSP 353 is a prerequisite for this class.
HSP 362 | REVENUE, PRICING & DISTRIBUTION | 4 quarter hours
(Undergraduate)
The principles and practices involved in hotel revenue maximization, pricing strategies, and distribution channels are the focus of this course. Topics will include definitions, roles and strategies as they relate to revenue, pricing and distribution. Additional discussion of inventory control and performance analysis will also be part of the class.
HSP 206 is a prerequisite for this class.

HSP 372 | BRANDING & CUSTOMER LOYALTY | 4 quarter hours
(Undergraduate)
Learn to identify branding strategies and the role branding plays in customer loyalty. As a focus, customer relationship management is explored. Topics include current trends and changes in the perceptions of branding and loyalty, as well as understanding customer demands, expectations and needs.

HSP 386 | HOSPITALITY ACCOUNTING I: REVENUES & EXPENSES | 4 quarter hours
(Undergraduate)
The application of accounting principles as utilized in the hospitality industry is explored. The purpose of this class is to advance the hospitality student’s knowledge of accounting concepts related to the income statement using the hospitality industry version of the Uniform System of Accounts. The class increases the student’s understanding of the importance of revenue recognition, expense classification, and matching of revenue and expenses for operational analysis purposes. Students will study payroll accounting, withholding and tax reporting requirements and regulations specific to the hospitality industry along with labor variances and their relevance to understanding operations and performance versus budgets.
A grade of C- or better in ACC 102 is a prerequisite for this class.

HSP 398 | SPECIAL TOPICS IN HOSPITALITY | 4 quarter hours
(Undergraduate)
Special Topics. Content and format of this course are variable. An in-depth study of current issues in hospitality. Subject matter and prerequisites will be indicated in class schedule.

HSP 399 | INDEPENDENT STUDY | 4 quarter hours
(Undergraduate)
Available to students of demonstrated capability for intensive independent work in Hospitality Leadership. (variable credit)

HSP 502 | MANAGING THE GUEST/EMPLOYEE EXPERIENCE | 4 quarter hours
(Graduate)
This course is designed to examine highly developed principles of the guest experience, the guest/employee interface, and the role employee development and service delivery plays within the hospitality industry. Leadership of various hospitality service operations will be studied in the context of realms of experience and guest quality assurance. Experience realms will be grounded in the constructs of unique hospitality experiences that engage guests in an inherently personal way. Topics will include: customer care and loyalty programs, creativity and innovation, employee skill development, service operation strategies, product design, capturing guest identity, and customer co-creation.

HSP 503 | ADVANCED HOSPITALITY LEADERSHIP AND PERFORMANCE | 4 quarter hours
(Graduate)
The goal of this course is to examine advanced hospitality leadership practices within the various industry segments. Leadership principles and hospitality management approaches will be examined through the lens of financial and human capital performance. Topics include: critical decision-making, hospitality team dynamics and service performance, financial feasibility in operational delivery, brand and marketplace competency, ethics and values.

HSP 505 | SERVICE TECHNOLOGY & INNOVATION IN THE HOSPITALITY ENVIRONMENT | 4 quarter hours
(Graduate)
This course examines the interaction and interdependency of hospitality technology and service systems in the context of service leadership, innovation and multi-media. Students will apply contemporary theory surrounding technology utilization in hospitality service systems including: human capital productivity and infrastructure hierarchy, network based service systems, efficiency and effectiveness information processing, enhanced client interfacing and user generated content issues and opportunities.

HSP 506 | HOSPITALITY STRATEGY & OPERATIONAL PERFORMANCE | 4 quarter hours
(Graduate)
The goal of this course is to evaluate, construct and apply innovative hospitality strategies and then implement models of supporting service systems within hospitality organizations. The course will enable students to analyze service systems through the lens of competitive strategy and service orientated product positioning along with operational system architecture. Topics include: hospitality strategy, competitive analysis, systems thinking, service product life-cycle evolution and development, hospitality organizational structure and service systems, integrated hospitality operational diagnostics, and operational performance metrics.

HSP 550 | NON-PROFIT EVENTS MANAGEMENT | 4 quarter hours
(Graduate)
Non-Profit event management is evolving into a complex and dynamic discipline within the hospitality industry. This course examines the nature and structural components of event management within the non-profit sector. The course design will incorporate event conceptualization and evaluation techniques unique to the non-profit hospitality product delivery. Topics will include: market segmentation, strategic analysis for event planning, financial literacy, managerial and operational logistics, governmental and non-governmental advocacy, sponsorship development and fundraising, contract execution and administration.
MGT 500 is a prerequisite for this class.

HSP 551 | NON-PROFIT FOODSERVICE MANAGEMENT | 4 quarter hours
(Graduate)
Non-profit hospitality foodservice encompasses a broad array of institutions, associations and organizations on a local, regional and national level. This advanced course in non-profit foodservice management examines the leadership requirements associated with National philanthropic and local grass-roots community organizations including soup kitchens, meals on wheels programs, emergency shelters, community alliances, and food pantries. Topics include: menu development and nutritional elements of non-profit foodservice operations, licensing and inspection requirements, food handling and OSHA work safety guidelines, food sourcing and distribution, national and local initiatives programming, and developing marketing networks/partners.
MGT 500 and (MGT 502 or MGT 504) are prerequisites for this class.
HSP 561 | MANAGING REVENUE TO MAXIMIZE FINANCIAL PERFORMANCE | 4 quarter hours (Graduate) 
This course explores revenue management within the hospitality industry from a comprehensive perspective as it pertains to the importance of generating business revenues and contributions to the overall service-firm financial performance. Revenue management principles and practices within the hospitality sector have advanced in both sophistication and complexity, increasing the need for enhanced development of human capital, investments in data analytics, and systems integrated approaches to successful revenue generation. Topics include: inventory and price management, consumer behavior, e-commerce, and demand based forecasting.

HSP 562 | HOSPITALITY DISTRIBUTION CHANNELS AND CURRENT TRENDS | 4 quarter hours (Graduate) 
This course examines advanced principles and applied hospitality revenue management strategies associated with service distribution channels. Students apply critical decision-making with the complex relationships of revenue generation, labor productivity, expense management and operational benchmarks to achieve organizational profitability objectives. Topics include an introduction to global distribution networks, channel management, disruptors, branding perspectives, customer segmentation, product marketing, competitive positioning, human capital resources and service processes.

HSP 563 | HOSPITALITY RESEARCH ANALYSIS & FINANCIAL METRICS | 4 quarter hours (Graduate) 
This course provides a comprehensive perspective of various hospitality financial performance constructs and key industry operating performance benchmarks, including how to design studies to collect the data to analyze. Students will learn the fundamentals of research methodology and then be indoctrinated to hospitality industry metrics and the critical nature of linking analysis with decision-making in order to achieve organizational profitability objectives. Topics include: research methodology, interpretation of financial statements, operating control systems, budgeting-forecasting synthesis, operational leadership techniques and operations flow-through.

HSP 793 | PRACTICUM IN APPLIED HOSPITALITY LEADERSHIP | 4 quarter hours (Graduate) 
Experiential learning plays an important role in applying academic knowledge to real-world business challenges and opportunities. This practicum in applied hospitality leadership engages students in a practical, experiential, multidisciplinary approach to learning, which fosters development of personal and professional skills. Under the direction of the course faculty, students assume the role of researchers/advisors to key Chicago hospitality organizations that seek guidance on business strategy or challenging operational issues. Projects might include; leadership assessments service-process improvements, service innovation, event planning, club management and others. Students work closely with sponsoring organizations and supervising faculty to identify the scope of the projects, collect information and conduct analysis, and then report findings and/or recommendations. Major outcomes include an oral presentation to faculty and a written report for management.

HSP 798 | SPECIAL TOPICS | 4 quarter hours (Graduate) 
Content and format of this course are variable. An in-depth study of current issues in hospitality. Subject matter will be indicated in class schedule. Offered variably.

HSP 799 | INDEPENDENT STUDY | 4 quarter hours (Graduate) 
Available to graduate students of demonstrated capability for intensive independent work in hospitality.

Human Centered Design (HCD)

HCD 421 | DESIGN AND HUMAN EXPERIENCE | 4 quarter hours (Graduate) 
This foundational course focuses on understanding the design process and how users, communities, and society are impacted by technology. This course will cover a breadth of technologies such as educational technologies, health systems, social tools, games, etc. An interdisciplinary course that draws from the fields of computer science, psychology, sociology, and economics, students will reflect on the social, political, and economic context and impact of technology use locally and globally. PREREQUISITE(S): None.

HCD 450 | THEORIES AND METHODS IN HUMAN-CENTERED DESIGN | 4 quarter hours (Graduate) 
This is a foundational course that introduces human-centered design methods and creative problem solving using a systems approach. Theories and methods that consider people as part of complex societies and the challenges of designing for impact are explored, with particular attention to the challenges of designing for impact. PREREQUISITE(S): None.

HCD 510 | RESEARCH METHODS AND PRACTICE OF SCHOLARSHIP | 4 quarter hours (Graduate) 
This course provides students with in-depth knowledge of how to conduct a qualitative research study. Specifically, students will learn various approaches to conducting research including: ethnography, grounded theory, actor-network theory, and discourse analysis. Furthermore, students will learn how to propose a research study as well as how to effectively communicate research scholarship. PREREQUISITE(S): None.

HCD 525 | MEDIA THEORY PROSEMINAR | 4 quarter hours (Graduate) 
This course explores the key traditions of disciplinary and theoretical inquiry that contribute to the study of Digital Media, including media theory, literary-critical theory, visual culture and the cultural studies of media, communications theory, and performance studies. Students will examine key texts in each of these areas and explore their application to representative digital artifacts. PREREQUISITE(S): None.

HCD 590 | ADVANCED TOPICS IN HUMAN CENTERED DESIGN | 4 quarter hours (Graduate) 
HCD topic varies with offering. Contact instructor for more information. PREREQUISITE(S): Completion of the HCD core courses or consent of the instructor. May be repeated for credit.

HCD 599 | INDEPENDENT STUDY | 8.00 quarter hours (Graduate) 
Independent study supervised by an instructor. Independent study form required. Can be repeated for credit. Variable Credit. PREREQUISITE(S): None (variable credit)
HCD 601 | HISTORY OF TECHNOLOGY AND SOCIETY SEMINAR | 4 quarter hours
(Graduate)
This course will provide a foundational understanding of the historical relationship between technologies and humans with particular focus on how technological innovations have impacted shifts in how humans work, communicate, and learn. PREREQUISITE(S): None.

HCD 699 | RESEARCH | 8.00 quarter hours
(Graduate)
Research course supervised by an instructor. Independent Study Form required. Variable credit. Can be repeated for credit. (variable credit)

HCD 701 | CANDIDACY DISSERTATION RESEARCH | 0 quarter hour
(Graduate)
Non-credit. Students admitted to candidacy for the doctoral degree who have completed all course and dissertation registration requirements and who are regularly using the facilities of the University for study and research are required to be registered each quarter of the academic year until the dissertation and final examination have been completed. PREREQUISITE(S): Admission to Candidacy. Independent Study form required. (variable credit)

Human Community (HC)

HC 101 | THE ART OF NEGOTIATION: REALIZING OPPORTUNITY | 2 quarter hours
(Undergraduate)
When we hear the word "negotiations", most of us think about formal events between CEOs and Wall Street dealmakers. In reality, negotiations take place in every facet of our lives, both personally and professionally. Negotiation is the art and science of securing an agreement between two or more parties. This course will provide you with the tools for achieving their personal and professional goals by implementing effective negotiation strategies and techniques. You will learn different negotiation strategies and techniques, and will practically apply these techniques in mock negotiations with other students. This course will focus on the behavior leading to effective negotiations and how to analyze your own behavior in negotiations. (2-4 quarter hours)

HC 105 | ALL ABOUT ME: UNDERSTANDING ONESELF THROUGH JOURNALING | 2 quarter hours
(Undergraduate)
The goal of this class is to teach students the elements of journal writing, allow them to acknowledge and react to personal experiences and enable them to think clearly about these experiences. Students will be engaged in individual as well as group activities to accomplish this goal. Journaling on a continued basis might help students reduce stress and improve social relationships as they write and analyze certain experiences in their lives. (2 quarter hours)

HC 116 | PSYCHOLOGY OF MALE DEVELOPMENT | 2 quarter hours
(Undergraduate)
This course focuses on the development of boys from infancy through adulthood within socio-cultural context. We therefore address in addition to gender, the impact of race, ethnicity, class and related issues of societal /governmental failures when it comes to non-voting children. We cover why boys have more trouble at school, more problems with anger, and more incarcerations than girls or boys of higher social class, but our focus will be on their capacities and how those in power can help them thrive rather than present obstacles in their path from birth onwards. In my work in Chicago schools from Englewood to Rogers Park, I found young boys and teens very capable of caring and empathy but not reinforced by adults to develop these skills. This course suggests ways to change that and help teachers, parents and society not stereotype boys or give up on them so early in life. We will focus on how boys can develop fully as men of character and care, who can succeed in relationships, as parents, at work and in their community. We will learn of advocacy work to convince society to improve the conditions in which boys live. We draw upon the work of the Search Institute, the book "The Men They Will Become" by Eli Newberger (free online) and other current research. We will view workshops including feminist Judith Jordan's "Raising Competent and Connected Boys" and learn of local and national efforts to support young boys development. (2-4 quarter hours)

HC 118 | MAKING SOCIAL CHANGE: THE LEGACY OF THE 1960'S | 2 quarter hours
(Undergraduate)
In the first twenty years following World War II, Americans participated in the democratic process and in civil society in record numbers. They participated in public meetings, belonged to labor unions, joined churches, and formed professional societies. These civic structures and habits of involvement empowered citizens to believe they could make a difference in their communities and laid the groundwork for some of the major social movements of the second half of the 20th Century. Civil rights, second-wave feminism, gay rights, and Latino rights all have their roots in the 1960s and continued their work over the following decades. In this class, we will explore civic engagement through the lens of our recent history. We will look at how these movements developed and analyze how they achieved their goals. We will take lessons from our predecessors and apply them to our own efforts to make a contribution to the lives of people in our local, national or global communities. (2-4 quarter hours)

HC 148 | COLLABORATIVE LEARNING: PRINCIPLES AND PRACTICES | 2 quarter hours
(Undergraduate)
In this class, we will explore and develop the skills, values and knowledge that contribute to collaborative learning. Today perhaps more than any other time in human history we are aware that no one is an island. At the individual, organizational and societal levels, we are all interconnected and interdependent. We can only meet our goals and address our problems at any of those levels if we work at them with one another. Therefore, as never before, we need to learn how to learn together. Collaborative learning is the process of two or more people helping each other to deepen and expand their shared understanding of the challenges and opportunities they face. It involves stimulating new insights in one another, and helping each other make changes in our assumptions, beliefs and behaviors. We will read and discuss a book on theory and skills of helping others to learn. We will practice skills each week with each other via telephone. We will also participate in informal online discussions. Each week, a formal reflection will be submitted. (2-4 quarter hours)
HC 165 | CHINA: MONEY, POWER AND THE 21ST CENTURY | 2 quarter hours
(Undergraduate)
The greatest migration of people in the history of the world is occurring right now, in China. Hundreds of millions of people, whose families have lived in rural China for thousands of years, are moving to rapidly urbanizing cities. This course analyzes, through the voices of the Chinese people, the dramatic impact of this social and economic revolution upon families and individuals. These changes are having a worldwide impact upon economics, trade and the new world order. Through lecture/discussions, videos, readings, on-line discussion boards and independent research, students will have the opportunity to form their own viewpoints as to the impact of globalization upon one of the oldest civilizations on earth. (2-4 quarter hours)

HC 173 | HUMAN RIGHTS IN BUSINESS AND SOCIETY | 2 quarter hours
(Undergraduate)
Students study the history of human rights development as they emerged from religious belief, philosophical visions of natural law, social structures and legal systems. Students will also examine opposition to human rights over the centuries when rights threatened traditional patterns of authority, prejudices, vested interests, customs and claims of national sovereignty. Study then shifts to recent human rights documents beginning with the Universal Declaration of Human Rights in 1948. The racism convention is studied as the case study with focus on its application and lack thereof in the U.S. and Chicago. Students then apply knowledge from the case study to examine human rights work performed by a local NGO, by a local company or by their community. The course concludes with current human rights advances in corporations, governments and NGOs. (2-4 quarter hours)

HC 178 | GENDER AT WORK | 2 quarter hours
(Undergraduate)
From the days of hunters and gatherers our world has been organized by gender expectations. While these gender roles have evolved over time, women and men today still struggle to meet these expectations and they have largely defined who we are for centuries. We have more choices and freedom to renegotiate and transcend these roles now than at any other time in history, and yet they still impact every aspect of our lives. This course will explore how gender can influence communication patterns, leadership styles, negotiation skills, conflict styles, work/life balance expectations, relationships and a multitude of other aspects of our life at work and at home. Students will demonstrate learning outcomes through class participation, group projects, journal entries and other assignments that will allow them to apply course readings, films, and discussion to their own personal experience. (2-4 credit hours)

HC 189 | LATINO CHICAGO | 2 quarter hours
(Undergraduate)
In this course, we will learn about the concepts of race, class and gender and how these intersect to shape Chicago Latinos’ experiences. While we will learn about the inequities that Latinos have experienced, we will also explore this community’s struggle for social justice and its efforts to create a voice for itself in Chicago. We will conclude this course by exploring how Latinos/as are building new political, theoretical, economic, artistic, and spiritual pathways toward wholeness and justice. For example, we will explore some of the cultural and political projects of this community and the many groups that comprise it. We will learn about these themes and address questions through readings, class lectures and discussions, guest lectures, documentary films and field trips. Field trips to Latino Chicago communities such as Pilsen and Humboldt Park will take place during class time.

HC 190 | LAW IN AMERICA: ITS HISTORY AND RELEVANCE IN TODAY’S WORLD | 2 quarter hours
(Undergraduate)
This course is designed to enhance students’ awareness of how critical American law is for their personal, professional, and community life. The purpose is to help students achieve a better grasp of current realities through understanding of the history, the structure, and inherent problems of the American legal system. The course will discuss the role of lawyers and the public in the legal process (e.g. the role of civil rights groups and lobbyists in forming laws). It will begin with the colonial underpinnings and the essentially Western and British foundations of the American legal institutions. There will be some discussion of alternative legal systems. It will then review the American Constitution, the nature of a federal system, and specific topics in American law. These topics will include the basic rights in our system, and the law as it has evolved in dealing with race ("the strange career of Jim Crow"), speech (free and otherwise), labor (its rough course), criminality and its outcomes, religion (how religious is the law), and business regulation (how much can we trust antitrust). The course will be relevant for students interested in the law as a career, the law in the workplace, the law in not-for-profit settings, and those generally interested in the law in business contexts, as well as those seeking to understand the role of the law in our social and cultural context. We will use one major textbook, as well as selected readings on topics. Students will be asked to bring their own experiences with the American legal system into our discussions and to share their perspectives of the various topics. (2-4 quarter hours)

HC 192 | THE ART, SCIENCE AND PSYCHOLOGY OF FOOD | 2 quarter hours
(Undergraduate)
We have many connections to food. Food sustains us but it has meaning that extends far beyond basic nutrition. Eating is an individual pleasure and comfort, a tool for creating and sustaining social bonds, and a way to express one’s cultural identity. Food is tied to many aspects of life including culture, politics, agriculture and the environment. Americans have become disconnected from both the production of our food and from the joy of eating it and suffer from food related health problems such as diabetes, obesity and eating disorders. In this class we will explore the myriad of food-related habits and choices, that determine how what and why we eat. This experiential class moves beyond specific dietary guidelines by presenting concepts and skills that will help you reframe your connections with food. We will explore the multiple dimensions of food and eating from an individual, community and national level. We will explore the true meaning of nourishment. Topics include: identifying personal eating styles, mindful eating exercises, the slow food movement, locating Chicago food deserts, a field trip to a popular Chicago organic garden/restauran, guest speaker from a Chicago restaurant mural artist, examining types of hunger and nourishment, and issues involving food and ritual, food and story, food and psychology, food and art. We will combine art, film clips, lectures, field trip, research, and mindful eating skills. (2-4 quarter hours)

HC 194 | GENTRIFICATION AND COMMUNITY ENGAGEMENT | 2 quarter hours
(Undergraduate)
This course will offer students an overview of gentrification and an opportunity to read and discuss critical issues of gentrification, such as housing and schools in low-income communities and racialized urban development, in a social justice framework. To gain a deeper understanding of these issues, students will conduct research on gentrification in Chicago neighborhoods in small groups. Based on the group research, each student will engage in civic action by writing a letter to a local politician. (2 hours)
HC 198 | JUVENILE JUSTICE: IS IT WORKING? | 2 quarter hours
(Undergraduate)
This course will explore juvenile justice through a sociological lens that encompasses legal, ethical, institutional, racial, gender and economic perspectives. The course will address the foundation and origin of the juvenile justice system in Illinois and its role as pioneer in juvenile justice throughout the United States. We will examine the various entities responsible for the implementation of juvenile justice including the challenges and obstacles encountered in pursuit of intervention and prevention of juvenile delinquency. A network of professionals dedicated to working with and supporting juveniles involved in the system will speak to how the key institutions interact, combat and collaborate with each other and the impact those dynamics have on the juveniles, their families and communities. The methodologies and efficacy of responses to delinquency such as punishment, incarceration, rehabilitation, substance treatment and re-entry will also be considered. The class will take on such questions as: what contributes to juvenile delinquency, how is juvenile delinquency defined, how does it differ amongst communities, how did we get here and what does the future of juvenile delinquency look like in Illinois? (2-4 quarter hours)

HC 199 | MANIFESTATIONS OF BELIEF: RELIGION VS. THE CONSTITUTION DURING THE HOLIDAYS | 2 quarter hours
(Undergraduate)
The United States Constitution guarantees freedom of religion to its citizens. What is freedom of religion? How is this basic right interpreted? How far can the individual citizen go in demonstrating religious belief? When do the rights of the many supersede the rights of the few? These questions have been particularly prickly over the last few years when objections to the recitations by school children of the Pledge of Allegiance, and the display of religiously oriented holiday decorations have made national news. Where do you fall on these issues? Is it okay for New York City to have a big Christmas tree in Rockefeller Center? Do you mind if your neighborhood church displays a creche on its front lawn? What about the town hall? In this course, students will examine holiday displays around town and assess their relation to freedom of expression and freedom of religion. Students will also consider the nature of free societies, their relationship to community values, and the ways in which difference is valued, or not valued, in contemporary American culture. (2-4 quarter hours)

HC 201 | STRATEGIC CONTRACT NEGOTIATIONS | 2-4 quarter hours
(Undergraduate)
In this course, we will distinguish principled negotiation from positional negotiation. When all parties in a negotiation recognize everyone’s values and interests, the stage is set for principled negotiation. In order to uncover the underlying values and interests of all parties in the negotiation, we will learn the process to manage our perceptions and the techniques to manage the other party’s perceptions. We will recognize the value of various types of questions. Generally speaking, contract formation is the goal of a successful negotiation. Understanding basic contract law is key to improving a negotiation. We will examine the development of contract law. We will cover the basics of contract formation: offer, acceptance and consideration. We will examine the remedies available when a contract is breached. We will review various examples of contract disputes to evaluate the practical application of what we learned. We will put to use our basic understanding of contract law and the existence of inequities in bargaining power and our acquired negotiation skills, including using the model of spiritual development of the “four agreements,” to use by participating in a contract negotiation as a final class project. (2-4 quarter hours)

HC 206 | BANNED IN BOSTON | 2-4 quarter hours
(Undergraduate)
Boston is a city of many faces. It’s a world class city from a cultural and educational perspective, but it’s small compared with its old rival, New York City, or the so called Second Cities of the US, Chicago and Los Angeles. Boston is filled with riches made from old money profits but is poor in economic growth and population. It is the go-to place for American history, yet has competition for that title from neighbors like Philadelphia and Washington DC. With such internal paradoxes and external competitors, why choose a travel course to Boston? Here’s why: no matter where you were born, if you live in America, you have been influenced by Boston and its tumultuous history. John and Abigail Adams, Alexander Graham Bell, Oliver Wendell Holmes, and John Kennedy all lived for a time in Boston, as did Emily Dickenson, Robert Frost, Malcolm X, and Matt Damon. The list of famous Bostonians is as long as Boston’s history. Participants in this course will gain knowledge of key figures and events in Boston’s late 18th and early 19th century political and cultural history through online and classroom learning prior to embarking on a journey of discovery that will make history and culture come alive. During the 3 day weekend on-site portion of the course, we will walk the famous Freedom Trail. We will visit the church that preserves a young volunteer bell ringer’s signature and learn that this was how the adult Paul Revere knew how to break into that bell tower that led to the famous "one if by sea, two if by land" signal that got the American Revolution off on the right foot. We will walk through Copley Square to view Copley’s famous portrait of Paul Revere. We will ponder the empty frames that once held the priceless paintings stolen from the Isabella Stewart Garner Museum. We will view rare and forbidden books at the Boston Athenaeum as we learn what Banned in Boston actually means. When we return to campus we will reflect on the legacy of revolutionary era Boston which informs the Boston of today and the country’s current conversation on democracy and freedom. In this domestic travel course centered on this most pivotal of US Cities, participants will visit historic sites, visit Boston’s famous art collections, and experience its diverse neighborhoods like Boston Common, Beacon Hill, and the North End. Issues such as Boston’s immigrant populations, its fame as a seat of American higher education, its connection to events in American history, and its economic output will be discussed in the preparatory classes as well as onsite. (2-6 quarter hours)

HC 208 | THE HEART OF THE ENTREPRENEUR | 2 quarter hours
(Undergraduate)
Entrepreneurs are an integral part of a thriving economy yet the aspects of successful entrepreneurship remain a mystery. This course takes a detailed look at the characteristics of successful and unsuccessful entrepreneurs, enabling the students to acquire a personal understanding of what it takes to start a new business venture. This course is especially targeted for those interested in starting their own business or aspiring to be an employee within an innovative business. (2 credit hours)

HC 209 | USING FINANCIAL INFORMATION | 2 quarter hours
(Undergraduate)
This course introduces the student to the principles of financial theory and the world of finance. The course covers several concepts and surveys the roles of relevant institutions. In the conceptual part, students will learn about financial instruments and techniques used in financial decision making (time value of money, cost of capital, capital structure). In the survey of relevant institutions’ roles, the students will form a basis for understanding causes and effects in the changing global environment. The interrelationships between decisions of business, financial institutions and individuals will become evident, enabling the student to better understand current events in finance. (2-4 quarter hours)
HC 213 | GLOBAL BUSINESS, TECHNOLOGY AND THE UNITED NATIONS | 2 quarter hours
(Undergraduate)
SNL students will study global business issues with Ambassador Kamal via video conferencing from New York City and students with professors in Mexico City and Guadalajara also via video conferencing. Several SNL students outside of Chicago can connect via Scopia desktop video conferencing to the Chicago classroom, New York and the universities in Mexico to participate in each Thursday class. This is not Distance Education. Discussions will focus on global business and technology issues U.S. and Mexican companies face today and global perspectives. SNL students will work on teams with students in Mexico City and Guadalajara on a climate change project via video conferencing and D2L. Instructors: Pat Szczesny at SNL and Ambassador Kamal in New York. Students and professors at University Panamericana Mexico City and Guadalajara. (2-4 hours)

HC 215 | EMOTIONAL INTELLIGENCE IN THE WORKPLACE | 2 quarter hours
(Undergraduate)
How do individual emotional traits support, or detract from, leadership behaviors in today's ever-changing organizations? We learn to identify and strengthen core traits of emotional intelligence at work, and to collaborate intelligently and effectively with others to meet the high standards of organizational improvement. Special focus on theories of active leadership and their relevance to an emotionally-positive workplace culture. (2-6 hours)

HC 219 | THE FIGHT FOR HUMAN RIGHTS: ONE WOMAN’S CRUSADE | 2 quarter hours
(Undergraduate)
Helen Prejean is a leading human rights activist in the United States. For the past 30 years, she has helped shape conversation about equal treatment for all within the criminal justice system, especially persons of color and the materially poor. Dead Man Walking, the eyewitness account of her experience accompanying condemned prisoners to execution, has had a major influence on discussion of violence, poverty, civil rights, criminal law, and social justice. In this course, we use her work and interact with her personally to study power inequities across race and class lines that perpetuate injustice and examine her strategies for reform. (2-4 quarter hours)

HC 221 | PROFESSIONAL SPEAKING SKILLS | 2 quarter hours
(Undergraduate)
Authentic, credible oral communication is paramount to attain professional and personal success. The purpose of this course is to hone each student's ability to orally communicate effectively and with ease. Regardless of the starting point - as a beginner or a seasoned speaker - we will identify personal strengths and areas for improvement, and work upward from there. With an emphasis on the professional environment, we will explore a variety of common scenarios. Students will gain practical techniques to improve performance - ranging from formal presentations to meeting facilitations to impromptu thinking. These workplace opportunities are abundant, and participants will learn methods to shine within each! Because we represent different industries, backgrounds, and experience levels, we will employ a mix of individual and collaborative activities. The latter will ensure that we're capitalizing on resources within our unique learning group. Students will be encouraged to select topics that are relevant to their respective careers. As well, students may use this class as an opportunity to work on their real-life speaking scenarios(s), provided it fits within the assignment parameters. (2 credit hours)

HC 222 | FACILITATIVE DIALOGUE | 2 quarter hours
(Undergraduate)
Verbal communication is an essential component in virtually every aspect of our interpersonal lives. The focus of this course is to study those situations and settings where we need to facilitate appropriate dialogue in order to arrive at a solution in the face of potentially emotional volatility. As examples, these conversations can include: confronting an uncooperative coworker, assessing alleged wrongdoing by a student, addressing resistance in a patient, or meeting the needs of a disgruntled customer. In these situations, our own behavioral and verbal actions are important determinants in the direction, duration, and consequences of the interaction. Given the potential for us to be verbally accosted, hostilely confronted, and/or inappropriately blamed, we often have to manage our own emotions in addition to trying to engage in facilitative dialogue. Students will examine the processes involved in emotionally volatile situations including how our emotional and physiological state work in these situations. Students will learn a framework to more effectively manage the situation in order to arrive at an acceptable outcome. This course is appropriate for those in human resources, patient- and service-oriented industries, counseling, education, leadership development, and other settings where facilitative dialogue is necessary. (2-4 quarter hours)

HC 223 | MONEY, FINANCE, AND CRISIS | 2 quarter hours
(Undergraduate)
Money has become such an integral part of our everyday life that we take its everyday use, whether physically or electronically, for granted. Yet the reach of money goes far beyond what we experience. Money is much more involved in the inner workings of the economy through the interaction of financial markets (bond markets, stock markets, foreign exchange markets, etc.) and financial institutions (banks, mutual funds, insurance companies, pension funds, etc.). Financial markets and institutions everywhere, and particularly in the U.S., influence the trillions of dollars that flow daily worldwide. Their impact on the welfare of nations and on the capacity of the economy to produce goods and services becomes evident when one looks at the Great Recession, which started in 2008. The goal of this course is to provide a working understanding of many issues through the study of money, banking, and financial markets. (2-4 quarter hours)
HC 235 | CHINA: WHY CHINA MATTERS - GLOBAL CITIZENSHIP FROM AN ASIAN PERSPECTIVE | 2-4 quarter hours (Undergraduate)
In light of China's influence on socio-economic and cultural globalization, the program examines the role of culture with its values and paradigmatic assumptions and what it means to be an informed global citizen. Intercultural exchanges in the USA and China guide students to critically analyze values about democracy and raise awareness about the role a country's cultural beliefs in forming and sustaining such values in its citizens. On-site, guided excursions into historical sites, e.g., the Great Wall, the Confucian Temple and Imperial Academy, Beijing's Business District, and the ancient neighborhood of Hutongs and dialogue with Chinese university students and faculty, clarify the roles and impact of Confucianism, Taoism and Buddhism on the global stage. This international, cross-cultural dialogue is facilitated to question assumptions while gaining a deeper understanding of differing world views. Participants will mutually explore their cultures through readings, guest lectures, and Internet-based interaction prior to and during the travel in China, with students and faculty at the Agricultural University in Beijing and Xiamen University in southeast China. The activities are designed to engage participants in critical discourse and analysis on the differences as much as the common ground surrounding issues such as social and civic engagement, democracy, and religion from the respective cultures.

HC 238 | CULTURAL COMMUNICATIONS IN CUBA: WHO TALKS TO WHOM IN SCHOOLS AND CAFES | 2-4 quarter hours (Undergraduate)
This study abroad course will provide participants with a foundation in the theories of intercultural communications. They will observe how people from different cultures communicate in public spaces, cafes, schools and other institutions and evaluate how communications are affected by place. Through their stay in Havana and a day trip to Vinhales, participants will analyze how different socio-cultural factors interact to shape individuals and interaction patterns in these different settings, as well as in the United States. They will engage in global communication and evaluate the impact of communication differences that diverse political, religious, social, ethnic and educational backgrounds have on individuals communicating within an organization or individually. Prior to departure, participants will use interactive, online technology to engage in cross-cultural communication and to create criteria for evaluating and comparing communication patterns. In Cuba, participants will collaboratively use the criteria to analyze cross-cultural aspects of language and interactions in various settings from social and political perspectives. The trip duration is 7 days. The readings and activities ground students in recent theories of intercultural practice and provide a framework for students to become interculturally competent. Students will be staying in small groups in Casa Particulares, similar to Bed and Breakfasts, and hosted by Cuban families. The activities tentatively planned include touring Old Havana and the Plaza de la Revolucion, a visit to the Museo de la Revolucion, a visit to the Callejon de Hamel street fair, a day in rural Cuba to visit a tobacco farm and the Sierra del Rosario Biosphere Reserve, a visit to the Akokan community and the Casa de Africa, and a day at the beach. An important part of the curriculum are visits to local elementary schools, guest lectures with local university professors and an afternoon and evening with university students.

HC 239 | BUSINESS, TECHNOLOGY AND OUR GLOBAL FUTURE | 2 quarter hours (Undergraduate)
Students will study the latest changes in the fields of intercultural communication and leadership development in today's global corporations, including reading interviews from some of the world's leaders in manufacturing, energy, telecommunications, and health care from numerous countries. This course combines hard science with cutting-edge organizational research-based case studies in today's trans-cultural global corporations. Students study key behaviors needed today to be successful in a global corporation, including cultural self-awareness, frame-shifting, inviting the unknown, third-way solutions, and others. Students will also study how "disruptive technologies", mobile internet, automation of knowledge work, cloud technology, next generation genomics, 3D printing, advanced materials, and renewable energy are changing and will continue to revolutionize global corporations. This course concludes with an analysis of the effects of social justice and corporate social responsibility on today's global corporations. (2-4 credit hours)

HC 247 | APPLYING ECONOMICS: A PRACTICAL APPROACH | 2 quarter hours (Undergraduate)
This applied economic course is tailored to introduce students to economic issues, without employing complex graphical and mathematical models. The material to be covered caters to students who are concerned citizens and active participants in the economy, and want to achieve a better grasp of problems facing society today. Students will learn how to use fun tools from game theory to analyze some of society's most puzzling problems, such as pollution, health care, the depletion of natural resources, how the pursuit of individual goals can lead to poor collective outcomes, and also the challenges of monetary and fiscal policy, economic growth, inflation, unemployment, income inequality, etc. Students will learn by doing, through hands-on experiments and practical exercises. (2-4 credit hours)

HC 249 | NONPROFITS: A GUIDE TO A MULTIBILLION DOLLAR BUSINESS | 2 quarter hours (Undergraduate)
In the wake of the East Asian Tsunami, Hurricane Katrina and cuts in federal programs, the nonprofit sector has increasingly played a significant role at the local, national and worldwide level. A multi-billion industry, nonprofits provide essential services in many forms including education, enhancement of the arts and social welfare programs. This course explores the role of nonprofits in the US, the practical methods nonprofits employ and the differences in working in and managing a nonprofit organization from a for-profit venture. Using hands-on case studies and learning from nonprofit managers, students will demonstrate competencies through class participation, each student will have the opportunity to create a nonprofit business plan and examine emerging issues in nonprofit management. (2-4 quarter hours)
HC 253 | FAMILY LIFE: THE PAST, PRESENT AND FUTURE OF FAMILIES | 2-4 quarter hours (Undergraduate)
In history, families have been defined as mother, father, and children. In our current experience, more families differ from that model than comply with it. Family structure is evolving. Missing fathers, Single parents, and Blended families are only a few of the changes to the family structure that have occurred with some significance beginning in the 1950s. (2-4 quarter hours) What influences family structure? Do economics and education make a difference? Are race and ethnicity important factors? What about gender, personality and religion? Is the two parent family necessary? What role do grandparents and great grandparents play in the changing family? Perhaps the most important question we can ask about the family is what comes next. What are the many ways in which families might be redesigned in the future? How do these changes impact individuals in society? Competences: H4, H3X, A3A, FX.

HC 257 | PARTICIPATION AND DEMOCRACY IN AMERICA | 2 quarter hours (Undergraduate)
Why don't more Americans vote? How do education, income, and age impact voting trends? Why are some Americans more interested in politics than others? How is inequality reflected in other forms of political participation, such as donating money? Do recent trends in voter ID laws help to safeguard the democratic process, or restrict it? In summary, how democratic or representative are American elections? The course begins with some famous arguments about why participation matters. Trends in voter turnout then become the primary object of study, but we also consider other forms of participation including writing members of Congress, attending political meetings and contributing money. We explore recent discoveries in behavioral psychology that are changing the strategies of modern campaigns. After taking this course, you will understand the fundamental role of participation in democracy. (2-4 quarter hours)

HC 259 | CHICAGO POLITICS: IT "AIN'T BEAN BAG" | 2 quarter hours (Undergraduate)
This course will introduce students to Chicago's political institutions: City Hall, the city's system of 50 wards, its current aldermen and women, its city council, its mayor, its elections, and its raucous history of scandals and reform movements. Students also will explore the history and exploits of some of Chicago's most memorable mayors and political "bosses" from Long John Wentworth, who guided the city during the civil war; Carter Harrison I, who presided over the 1893 Columbian Exposition; Big Bill Thompson, who encouraged and protected bootleggers; Anton Cermak who stood as a "reformer" against the mob, only to be assassinated; Ed Kelly who rebuilt the Democratic "machine" during the 1930s Depression and 1940s War Years, and built the subways; "Boss" Richard J. Daley, who directed Chicago's post-war building and highway boom that made Chicago into a national urban "model"; Jane Byrne, the city's first and only female mayor, who beat the "machine" of which she was once a prominent member; Harold Washington, Chicago's first and only African-American mayor, who brought a sense of racial justice to the city after decades of discrimination; Richard M. Daley, whose public works and "education reform" agenda elevated Chicago to "world-class" city status; to Chicago's newest mayor. (2-4 quarter hours)

HC 261 | THE JOURNEY OF LEADERSHIP THROUGH ANCIENT GREEK LITERATURE | 2 quarter hours (Undergraduate)
Leadership is a journey. Odysseus, a well-respected leader in the ancient Greek literary world, portrays a model of leadership in the Trojan War that can be used today. This course provides an opportunity to read, reflect and discuss the many lessons that can be found in classic literature. A close reading of Homer's Odyssey, along with other articles on myth, archetypes, and leadership theories and practices, will allow the student to align their current leadership practices to ideas formed by Homer and expand their thinking in the arena of leadership. Reflecting on these readings, along with some structured journal exercises, will create alignment with what is often thought to be "old" text, generating new ideas on how leadership lessons can be applied to contemporary issues at work, at home or in their communities. (2 credit hours)

HC 263 | THE MYTHS AND THE MAGIC OF HEALING | 2-6 quarter hours (Undergraduate)
The stories we tell ourselves and the ones that are told to us can have a powerful impact on how we understand health, healing and healing processes. Examining these stories, which are sometimes based on reliable evidence, other times grounded in unquestioned assumptions, may assist us as we face discomfort and disease in our own lives and the lives of others whom we know. This course will engage the learner in a critical analysis of biomedical, social, religious and New Age beliefs about the nature of healing processes. We will consider what can help support an enhanced quality of life in the face of health challenges. Donald M. Epstein's book, Healing Myths, Healing Magic, will be a primary text for the course, along with scholarly articles and popular media. This is a 10 week, on-ground course. (2-6 hours)

HC 267 | WORKPLACE LAW: HARASSMENT, DISCRIMINATION AND CIVIL RIGHTS | 2-4 quarter hours (Undergraduate)
This course focuses on laws affecting relationships between employers and employees and within the workplace. Students will study the historical and societal aspects of laws on harassment and discrimination within the workplace, with particular focus on the Civil Rights Act and various other legislation regulating harassment and discrimination in the workplace. Students will analyze the case law, the legislation and the legal systems that have evolved to combat social injustice in the workplace and will learn "best methods" for preventing and resolving harassing and discriminatory practices in the workplace. (2-4 quarter hours)
HC 274 | THE BILL OF RIGHTS IN CONTEMPORARY LIFE AND WORK | 2 quarter hours
(Undergraduate)
This course will be organized around a series of central questions: What is a law? Who has the authority to make one? What are the various sources of law? What is or should be the relationship between law, ethics and morality, between law and religion? What is the difference between legislative law and constitutional law? What are the legal, historical, philosophical and political sources of American constitutional law? What sort of society did the Framers of the Bill of Rights have in mind and are their ideas still applicable in 21st century America? How does the Bill of Rights fit into our constitutional framework and what rights does it guarantee? What is the relationship between the states and the federal government in guaranteeing those rights? What is the relationship between our legal system and our political system generally? What criteria do judges use to interpret laws? How does our own legal system differ from those of other countries and cultures? Are there any universal rights worth protecting? What role does (or should) science play in upholding our rights under the Bill of Rights? Possible areas to be covered are freedom of speech, religion, establishment of church and state, the right to privacy, the 4th, 5th and 6th Amendments? protections for criminal defendants and the death penalty. (2-4 quarter hours)

HC 282 | JAZZ AGE PARIS: 1919-1939 | 2 quarter hours
(Undergraduate)
This is a history of Parisian society and culture in the era between the two world wars. We will explore issues of race, class and gender in the interwar period in French society. We will also examine the role of American writers, artists, musicians and performers in the cultural world of Paris, the City of Light, and an outpost in the Harlem Renaissance. (2-4 credit hours)

HC 283 | GLOBAL PERSPECTIVES OF WORK & FAMILY | 2 quarter hours
(Undergraduate)
What role does the political, economic, and cultural structure of a nation play in its concepts of work and family? This course develops students’ understanding of issues in the history of family and work through historical and contemporary accounts from Europe and the United States. We will take a close look at issues such as the gender division of labor, child labor, government policies on maternity, economic structure as well as social and political movements. Course materials include historical documents, lectures, films, and varied readings. Assignments will include essays, reflection journals, discussion, and a research project on work-life balance. (2 - 4 credit hours)

HC 289 | PSYCHOLOGY FROM AN AFRICAN-CENTERED PERSPECTIVE | 2 quarter hours
(Undergraduate)
This course utilizes an African-centered theoretical framework to examine salient themes pertinent to the psychology of people of African descent, including child development, family functioning, identity, education, racial oppression, spirituality, and healing. It takes an historical and topical approach to foster greater understanding about the course content. Through this examination, the learner will become more knowledgeable about the psychological experiences of people of African descent, the role of history and culture in human development, and the subjectivity of research in the social and natural sciences. They will also reflect on the relevance of the course material to their personal lives. (2-4 quarter hours)

HC 299 | ASSESSING AND MANAGING CONFLICT | 2-4 quarter hours
(Undergraduate)
Our usual method for presenting, analyzing, and resolving conflicts has centered around legalistic argument; the goal being to discover the “right” answer and suppress the “wrong” ones. However, the multiple worldviews operating in the world today make such an approach to conflict less viable. Reflecting this reality, ways of communicating about and resolving conflict have arisen that go beyond enforcement of rules or legal determinations of right and wrong. In this course, we will look at various methods for handling conflict and consider how we might apply them to personal, work, community and literary conflicts through lecture, small group work, role playing, reading, various written projects, and discussion. (2-4 quarter hours)

HC 300 | GLOBALIZATION AND PROFESSIONAL PRACTICE | 2 quarter hours
(Undergraduate)
For decades scholars have observed a growing body of evidence and employers a growing body of experience of significant changes in the way that international business is conducted. These changes in the business world, brought on largely by globalization, present new challenges. These challenges require staff with specific skills related to global competence in order for the business to remain competitive. The goal of this course is to help students to cultivate and/or refine the skills and capabilities necessary to succeed in today’s global work environment. Organized around four learning units and one major project, the class will provide each student with extensive content and resources; it will also provide a forum for assessing the competences necessary to attain success in a global workplace and a method for honing those skills each student needs to cultivate. (2-4 quarter hours)

HC 302 | ACTIVE CITIZENS: MAKING A DIFFERENCE IN THE COMMUNITY, WORKPLACE WORLD | 2 quarter hours
(Undergraduate)
Americans are known for active participation in organizations that strengthen our communities. We coach our kid’s sports teams, take meals to members of our congregations, work for candidates that we believe in and join marches to support or oppose government action. With all these activities, we engage with other members of our community and workplace to make it better for ourselves and our families and to promote social justice. In this class, we will develop the knowledge and practice skills that enhance civic engagement and explore the role of citizens’ voices in a democracy in the face of powerful political and economic interests. (2-4 quarter hours)
HC 315 | ECONOMICS FOR DECISION-MAKING | 2 quarter hours  
(Undergraduate)  
The purpose of this course is to provide the modern consumer living in a global economy fueled by unabated technological progress, with basic notions to understand the path that has led to sustained prosperity in the past many decades. The focus is on endowing students, as householders, with conceptual tools to make optimal financial and consumer decisions throughout the lifecycle. That theoretical foundation is reinforced and exemplified with a wealth of practical applications offered through a student-friendly online interactive learning platform, which also provides a convenient means to complete weekly assignments. That online platform will help students relate what they learn to their everyday experience as economic agents. The course is divided into two modules, microeconomic and macroeconomic. The microeconomic module studies the market mechanism. Topics covered include scarcity, opportunity costs, the law of diminishing returns, the trade principle of comparative advantage, the mechanism of the price system, the laws of demand and supply, the impact of market interventions by the government, etc. In the macroeconomic module, topics covered include the workings of the gross domestic product (GDP), of inflation and unemployment, of money and banking, the role of fiscal and monetary policy, etc. The course will visit the relevance of balancing the requirements of economic growth (efficiency in the use of inputs) with the necessity of attending to the needs of both society (need for equity) and the environment (need for sustainability). Students will also discussed at length the economic implications of topics of heightened public interest, such as the Great Recession of 2008-2009 and the coronavirus pandemic that unleashed itself on the world around the onset of the year 2020. Throughout the course, we will refer to the idea that knowledge of economics leads to practical, informed decisions that can help us minimize cost and maximize return and satisfaction as voters and taxpayers participating actively in the economy. (2-4 credit hours)

HC 326 | CONTEMPORARY NATIVE AMERICAN/AMERICAN INDIAN ISSUES | 2 quarter hours  
(Undergraduate)  
Native Americans are part of our history and heritage, yet many Americans have little knowledge beyond stereotypes. While invisible to the mainstream, Native American cultures are surviving, striving, and in some cases, thriving as we enter the new millennium. This course will explore the complex issues facing Native Americans today through discussion, film, readings, and Native American news media to enable students to gain a cross-cultural perspective. Students will choose an area of focus on this subject and conduct independent research to present to their classmates. (2-4 quarter hours)

HC 329 | MALE IDENTITY IN TRANSITION | 2 quarter hours  
(Undergraduate)  
This course, open to men and women, examines issues of gender with a focus on male identity. You will examine your own perspectives, attitudes, and experiences in light of psychosocial development theory, media influences, power struggles among social groups, and relationship issues in an effort to gain a greater understanding of factors that influence male identity in today’s society. The course is offered in a hybrid format, meeting every other week and interacting in an online course discussion between meetings. Projects to demonstrate competence will relate gender issues in power relations in the US, the impact of media, adult development and the workplace. (2-4 quarter hours)

HC 344 | INTERNATIONAL RELATIONS: A CROSS-CULTURAL PERSPECTIVE | 2 quarter hours  
(Undergraduate)  
In this course, students will examine how cultural attributes shared by a society’s members affect international affairs. Those attributes include ways of thinking and reasoning, styles of behavior and communication, and fundamental assumptions and values. The course is organized into three parts: an examination of American cultural patterns; an examination of cultural influences on human thought processes; and an examination of the cultural dimension of international negotiation through a comparison of Asian, European, Central American and the U.S. methods of reaching agreements. (2-4 quarter hours)

HC 362 | POVERTY, POLICY AND THE ECONOMY: POOR IN THE USA | 2 quarter hours  
(Undergraduate)  
This course will explore the history of efforts to help the poor in the United States. The impact of the economy and foreign policy upon support for government funded programs to assist low income persons will be evaluated. Students will engage in first hand learning by researching resources available to help those in need. (2-4 quarter hours)

HC 365 | JAZZ AND CHICAGO | 2 quarter hours  
(Undergraduate)  
This short course will introduce the student to the pleasures and enrichment of jazz. Students will learn what jazz is, learn about its fascinating history and some of its most influential players, and learn about the special role that Chicago has played-and still does-play in great jazz. In the classroom we'll hear records, view videos, engage the instructor in question-and-answer sessions, and hear stories about this unique musical art form and Chicago's ongoing role in it. The instructor, a jazz writer and longtime jazz drummer, will enliven the course with personal anecdotes covering a considerable part of Chicago jazz history. (2-4 quarter hours)

HC 370 | AFRICAN SPIRITUALITY AND EDUCATION | 2 quarter hours  
(Undergraduate)  
The course involves an in-depth study of indigenous African educational practices and the spiritual values that support them. Indigenous Africans understand and live life as one whole, rather than seeing it as a compartmentalized experience of religion, spirituality, politics, economics, etc. Using Nelson Mandela's autobiography "A Long Walk to Freedom" and the instructor's book, "The Heartbeat of Indigenous Africa," the course will invite students to remember, reclaim, and re-tell their own stories of childhood experiences, educational experience, and life experience. Class work will include discussion, active story-telling and listening, projects, and writing. Out-of-class-work will include talking with and listening to selected elders such as storytellers, parents, grandparents, formators, counselors and others, in order to disclose and identify fundamental human virtues/values that are inherent in any holistic human formation process. (2-4 quarter hours)
HC 383 | PROMOTING HEALTHY COMMUNITIES | 2-6 quarter hours (Undergraduate)
How can we make our communities safer, cleaner, healthier places to live? We can design and offer programs in our communities that inspire and educate people to eat better, become more active and to fight for access to the care they need for themselves and their families. We can do that. This quarter, we will be working with an organization called Universidad Popular, a community organization that works to promote adult literacy and health in Chicago's Little Village neighborhood, a primarily Mexican community. Their building at 2801 S. Hamlin is teeming with English classes for their Spanish speaking neighbors as well as Zumba and Yoga. Promotores (community health workers) get information out about prevention, health management and how to get access to health care with limited resources. We're going to help them to evaluate their program by talking to participants about what they see as the health benefits. This course directs students to analyze an engaging topic from multiple perspectives in the liberal arts. Students strengthen their problem-solving skills by drawing upon the ideas and methods of three different liberal arts disciplines. The leaning activities clarify how the liberal arts can be put into action to solve problems. The course strengthens students? development of critical thinking and academic writing across the curriculum. Students also will learn about resources that will be useful for their academic success at DePaul. (2-6 credit hours)

HC 390 | APPLIED LEADERSHIP SKILLS | 2 quarter hours (Undergraduate)
As we approach the 21st century, a major change is occurring with respect to the age and make-up of the working population which can have a significant impact upon the management of people. Moreover, the challenges facing American managers today are not only profit/loss-oriented business decision-making tasks, but also the acquisition and improvement of new skills in working with people. The rules of the game for managers are indeed changing rapidly. This course will examine and address issues and concerns related to managing people, and offer a new constructive way of dealing with the seemingly intractable problems facing managers today. (2-4 quarter hours)

Human-Computer Interaction (HCI)

HCI 201 | MULTIMEDIA AND THE WORLD WIDE WEB | 4 quarter hours (Undergraduate)
An introduction to the World Wide Web and web development for non-technical majors. Students will create web pages using a WYSIWYG editor. Students will evaluate web sites using a variety of analytical and empirical methods. Students will conduct technology-related experiments following the principles of the scientific method and use technology to analyze their results. Topics include web-based technology, creating content for distribution on the web, and design principles for web sites. Students will develop an appreciation for the connections among science, mathematics, and technology in modern society, as well as for the principles guiding advances in science and technology. PREREQUISITE(S): NONE.

HCI 302 | FOUNDATIONS OF DIGITAL DESIGN | 4 quarter hours (Undergraduate)
Shape, line on two-dimensional surfaces. Color. Composition rules as they apply to digitally created documents. Digital manipulation of two-dimensional images. Use of commercially available draw and paint tools to create two-dimensional designs. PREREQUISITE(S): None. Graduate standing is a prerequisite for this class.

HCI 402 | FOUNDATIONS OF DIGITAL DESIGN | 4 quarter hours (Graduate)
Shape, line on two-dimensional surfaces. Color. Composition rules as they apply to digitally created documents. Digital manipulation of two-dimensional images. Use of commercially available draw and paint tools to create two-dimensional designs. PREREQUISITE(S): None.

HCI 406 | WEB SITE DESIGN FOR HCI | 4 quarter hours (Graduate)
Web design introduced in a user-centered context. Application of visual design principles and common design patterns for web sites and mobile interfaces. Page markup using HTML and CSS addressing responsive web design, accessibility, and search engine optimization. PREREQUISITE(S): None.

HCI 412 | HCI DESIGN FUNDAMENTALS I | 4 quarter hours (Graduate)
Focus on visual design basics. Evaluate, critique and create two-dimensional artifacts (using digital and non-digital tools). Introduction to design elements that include gestalts, color, line, value, shape, patterns and perspective.

HCI 421 | DESIGNING FOR CONTENT MANAGEMENT SYSTEMS | 4 quarter hours (Graduate)
Design and development of Web sites using common database-driven content management systems (CMSs) and publishing tools such as those used to manage blogs, community portals, and other content-heavy websites. Discussions of how familiarity with CMS tools assists the role of the user experience designer. Visual design and theme customization using prior knowledge of CSS. Taxonomy systems, installation of add-on modules, and user management using today's widely used systems. PREREQUISITE(S): HCI 406.

HCI 440 | INTRODUCTION TO USER-CENTERED DESIGN | 4 quarter hours (Graduate)
Overview of prototyping methods ranging from low-fidelity to interactive script-based prototypes. Analysis of prototyping tools and their relative advantages. Projects include prototype development over multiple iterations using a variety of strategies. PREREQUISITE(S): HCI 440 or consent of the instructor.

HCI 440 or consent of the instructor

HCI 440 | PROTOTYPING AND IMPLEMENTATION | 4 quarter hours (Graduate)
Overview of prototyping methods ranging from low-fidelity to interactive script-based prototypes. Analysis of prototyping tools and their relative advantages. Projects include prototype development over multiple iterations using a variety of strategies. PREREQUISITE(S): HCI 440 or consent of the instructor.

HCI 441 | INTRODUCTION TO USER-CENTERED DESIGN | 4 quarter hours (Graduate)
The user-interface development process. Introduction to methods for practicing user-centered design including user and task analysis, user interface design principles and testing using low-fidelity prototypes. Students may not receive credit for this course and HCI 441. PREREQUISITE(S): None.
HCI 440 | INTRODUCTION TO USER-CENTERED DEVELOPMENT | 4 quarter hours
(Graduate)
Overview of the user-centered design (UCD) process with an additional emphasis on user interface development. Coverage of UCD process includes effective, low-cost methods for user research, interaction design and evaluation. User interface development involves application of front-end development languages (HTML and JavaScript) and frameworks (jQuery). This course is offered to students with programming experience as an alternative to IT 411 and HCI 440. Students may not receive credit for this course and HCI 440. PREREQUISITE(S): CSC 403.
CSC 403 is a prerequisite for this class.

HCI 445 | USER RESEARCH METHODS | 4 quarter hours
(Graduate)
This course provides students with skills necessary to conduct, analyze and communicate user research. Topics include: (a) common methods for collecting user data; (b) analysis techniques to examine user research data; and (c) ways to document and communicate user research findings. HCI 440 AND IT 403 are prerequisites for this class.

HCI 450 | FOUNDATIONS OF HUMAN-COMPUTER INTERACTION | 4 quarter hours
(Graduate)
Application of engineering and psychological theory to the design of computer systems. Overview of applicable research methods and research on perception, cognition, errors, and screen design. Attention will be given to creating and applying guidelines derived from research. PREREQUISITE(S): IT 403.
IT 403 is a prerequisite for this class.

HCI 454 | INTERACTION DESIGN AND INFORMATION ARCHITECTURE | 4 quarter hours
(Graduate)
Information architecture and interactive page design. Perception and use of menus, labels and user controls. Structuring information for navigation and presentation. Selecting and placing user controls for optimizing task flow on pages and across pages. Creating wireframes and using content managers. HCI 440 is a prerequisite for this class.

HCI 457 | INFORMATION ARCHITECTURE AND CONTENT STRATEGY | 4 quarter hours
(Graduate)
Organization and design of applications and web sites for effective information navigation. Survey and practice of methods for content strategy (CS) and information architecture (IA), including content inventories and card sorting. Processes include mapping content to structure and creating controlled vocabularies for specific audiences. Students apply CS and IA methods in the design of diverse applications. HCI 440 is a prerequisite for this class.

HCI 460 | USABILITY EVALUATION METHODS | 4 quarter hours
(Graduate)
Survey of evaluation methods that can be applied to user interfaces. Methods include expert inspections, walkthroughs, usability testing and analytical approaches. Students evaluate existing systems by applying some of these methods. HCI 440 is a prerequisite for this class.

HCI 470 | DIGITAL DESIGN | 4 quarter hours
(Graduate)
Focus on the visual aspects of interfaces for information and communication technologies (ICTs). Evaluate, critique and create ICT interfaces using design principles. Learn to choose color, type, layout and imagery to create aesthetic and usable ICT interfaces. Introduction to information visualization. Applying course concepts, students create and develop their own web-based portfolio. PREREQUISITE(S): HCI 402 and HCI 406.
HCI 402 and HCI 406 are prerequisites for this class.

HCI 472 | HCI DESIGN FUNDAMENTALS II | 4 quarter hours
(Graduate)
Focus on the visual design in digital artifacts. Evaluate, critique and create digital artifacts organized by design principles. Choose color, type, layout and imagery towards the creation of aesthetic and usable, responsive and accessible digital artifacts. Introduction to accessibility, information visualization and animation. HCI 412 AND HCI 406 AND IT 411 are prerequisites for this course.

HCI 511 | ACCESSIBILITY AND DESIGN FOR DIVERSE USERS | 4 quarter hours
(Graduate)
Methods and principles for designing interactive technologies for diverse users, including children, elderly, and people with disabilities and alternative skills. Analysis of how current technologies address diverse user needs and considerations about how technologies might be improved to better meet diverse user needs. Class projects include a web accessibility evaluation based on current w3 standards and an in-depth research project in which students ideate a new technology or evaluate an existing technology in which they work directly with people who have disabilities. PREREQUISITE(S): HCI 445 (HCI 460 recommended) HCI 445 is a prerequisite for this class. HCI 460 is recommended.

HCI 512 | INFORMATION VISUALIZATION AND INFOGRAPHICS | 4 quarter hours
(Graduate)
Communicating information through visualizations. Students learn how to choose effective means to visualize data for (a) their intended audience(s) and (b) for the message they intend to communicate. Students practice creating and evaluating visualizations using a variety of tools and methods. PREREQUISITE(S): IT 403 and HCI 470.
IT 403 and (HCI 470 or HCI 472) are prerequisites for this class.

HCI 513 | DESIGN/STRATEGIES FOR INTERNET COMMERCE | 4 quarter hours
(Graduate)
(Cross-listed with ECT 555) An integrated study of design, technical, and strategic issues for Internet commerce. Web analysis, design and publishing. Visual, textual and content organization, response time, usability testing. Authorizing tools and administering web server. Internet database servicing. Internet service providers and pricing. Digital cash and encryption. Impact on the value chain, intermediation, and market structure. Strategies for mass customization, interactive marketing, and support for collaborative work. PREREQUISITE(S): IS 422 or HCI 430.
IS 422 or HCI 430 is a prerequisite for this class.
HCI 514 | GLOBAL USER RESEARCH | 4 quarter hours (Graduate)
Theories and approaches for conducting HCI research and creating digital media for international audiences. Varied topics include (a) cultural models and global differences that influence design of digital artifacts (b) approaches to conducting usability and other types of user research and (c) information communication and technologies for development (ICT4D). PREREQUISITE(S): HCI 445 and HCI 460. 
HCI 445 and HCI 460 are prerequisites for this class.

HCI 515 | DESIGN ETHNOGRAPHY | 4 quarter hours (Graduate)
This discussion course focuses on topics related to ethnographic methods such as activity theory, value sensitive design, online ethnography and reflexivity. Students will conduct participatory observations, interviews, and diary studies (all methods designed to engage with users "in the wild") and translate the results from those studies into design implications. In this service learning course, students will work with community partners to conduct ethnographic studies and design a tool for the organization based on the results from the formative study. 
HCI 454 or HCI 457 are prerequisites for this class.

HCI 520 | LEARNER-CENTERED DESIGN | 4 quarter hours (Graduate)
Design and evaluation of technology-centered learning systems. Theories and models of human perception and cognition as they apply to learning, instruction and training. Application of established principles for analyzing and designing learning systems. Projects include evaluating existing learning systems and the creation of a learning system. 
HCI 440 is a prerequisite for this class.

HCI 522 | UX STRATEGY AND WEB ANALYTICS | 4 quarter hours (Graduate)
In this course, students examine how to align user experience (UX) approaches with business strategy. Topics include: (a) examining how business and UX strategies are aligned; (b) translation of business goals into measurable metrics; and (c) assessing metrics using services such as Google Analytics. Prerequisite(s): HCI 460. 
HCI 460 is the prerequisite for this class.

HCI 530 | MOBILE DESIGN | 4 quarter hours (Graduate)
Theoretical and practical issues for designing mobile devices. Design strategy, patterns and research within a mobile context. Students will learn to create useful, usable and enjoyable experiences that consider the unique capabilities and constraints of mobile platforms. Project deliverables includes wireframes for diverse platforms such as responsive mobile web, iOS, and Android native apps. 
HCI 454 or HCI 457 are prerequisites for this class.

HCI 545 | EMBODIED INTERACTION | 4 quarter hours (Graduate)
This course covers the history, theory and philosophy behind embodied interaction (including cognitive, physiological, and social aspects), and discusses some of the best current examples of embodied interaction in digital interfaces. The course leverages students' knowledge of User-Centered Interaction Design (UCID) from HCI 440 and their exposure to the psychological and physiological theories and experimental findings from HCI 450 and extends these into embodied interaction in three dimensions. It does this by exposing students to post-WIMP (windows, icons, menus, pointer) and blended/ubiquitous computing interfaces. Coursework includes a series of individual assignments that results in an embodied interaction prototype suitable for evaluation by real users; critical review and discussion of current research and development in embodied interaction; and critical review of other students' work. The sequence of assignments requires students to identify an opportunity or need for application of embodied interaction; perform user research; create appropriate models as precursors to design; perform conceptual design; and design and create an embodied interaction prototype in a medium of their choice. They must then evaluate their prototype in tests with real users. Students are expected to share their application proposal, elements of other assignments, and reading summaries with the rest of the class. PREREQUISITE(S): HCI 440 and HCI 450. 
HCI 440 and HCI 450 are prerequisites for this class.

HCI 553 | SOCIAL INTERACTION DESIGN | 4 quarter hours (Graduate)
UX principles and strategies for designing social apps and web sites. Analysis and use of interaction patterns for organizing, sharing, and discussing content. Application of theories relating to social networks, privacy and social capital. Students apply user-centered processes to the design of a social app. 
HCI 454 or HCI 457 are prerequisites for this class.

HCI 558 | INTERACTION DESIGN AND ANALYSIS | 4 quarter hours (Graduate)
Design and analysis of interactive technologies with emphasis on complex interactions and repeated use. Analysis and selection of appropriate interaction styles including command entry, form completion, menu selection, direct manipulation, code-based automation, and intelligent speech-based interaction. Specifying interaction using flowcharts, wireframes and prototypes. Taxonomy of errors and common approaches for avoiding them. Practices for minimizing effects of multi-tasking and cognitive load. Analysis methods, such as application of the GOMS keystroke-level model, for informing design. Student projects include the design and analysis of interactive user interfaces for diverse contexts and uses. 

HCI 580 | USER EXPERIENCE DESIGN PRACTICUM | 4 quarter hours (Graduate)
Working with clients, students choose and practice appropriate methods learned in the HCI foundational courses to address business goals and user needs. Course coverage includes best practices for consulting, effective communication with clients and coworkers, understanding business and organizational needs, and setting realistic goals and expectations. 
HCI 454 or HCI 457 are prerequisites for this class.

HCI 590 | TOPICS IN HUMAN-COMPUTER INTERACTION | 1-4 quarter hours (Graduate)
Specific topics selected by the instructor. Topic varies with each offering. Contact instructor for more information. Prerequisite(s): See syllabus or consent of the instructor.
ICE 1 | TEST ICE COURSE | 4.5 quarter hours
(Undergraduate)
Do not schedule this course - for testing purposes only.

ICE 100 | INTRODUCTION TO THE PROFESSION | 4.5 quarter hours
(Undergraduate)
Introduction to chemical engineering and engineering productivity software. Communication skills development, technical reporting and presentation, engineering ethics, and a variety of topics are discussed.

ICE 104 | INTRODUCTION TO COMPUTER PROGRAMMING FOR ENGINEERS | 3 quarter hours
(Undergraduate)
Introduces the use of high-level programming language as a problem-solving tool in engineering including basic data structures and algorithms, structured programming techniques, and software documentation. Designed for students who have had little or no prior experience with computer programming. (Taught at IIT as CS 104)

ICE 202 | MATERIAL AND ENERGY BALANCES | 4.5 quarter hours
(Undergraduate)
Material and energy balances for engineering systems subjected to chemical and physical transformations. Calculations on industrial processes. CSC 224/225 or equivalent; MAT 149/152/162 and CHE 113 or CHE 131 recommended. (Taught at IIT as CHE 202)

ICE 239 | MATHEMATICAL AND COMPUTATIONAL METHODS | 4.5 quarter hours
(Undergraduate)
Utilization of numeric and analytic methods to find solutions to a variety of chemical engineering problems. Emphasis placed on development of computer code, and interpretation of results. Topics covered include systems of algebraic equations, initial value differential equations, and boundary value differential equations. Taught at the Illinois Institute of Technology as CHE 239.

ICE 296 | INTRODUCTION TO IPRO | 1.5 quarter hours
(Undergraduate)
Introduction to process design. Principles and techniques in effective team work. Performance of selected design tasks in project groups integrated with ICE 496. Practice with process design software. First part of the ICE 296 - ICE 496 project package. Only chemical engineering students should register for this course. ICE 101, ICE 202, or consent recommended. (Taught at IIT as IPRO 296).

ICE 301 | FLUID MECHANICS AND HEAT-TRANSFER OPERATIONS | 4.5 quarter hours
(Undergraduate)
Flow of fluids and heat transfer. Fundamentals of fluid flow and heat transfer design equations as applied to selected unit operations. ICE 202 and ICE 252 recommended. COREQUISITE(S): ICE 343, MAT 260. Taught at IIT as CHE 301.

ICE 302 | MASS-TRANSFER OPERATIONS | 4.5 quarter hours
(Undergraduate)
Mass transfer in stagewise and continuous contacting equipment. Mass transfer design equations as applied to selected unit operations. Unsteady state operations in mass transfer equipment. (Taught at Illinois Institute of Technology as CHE 302) ICE 301 recommended.

ICE 310 | HUMAN-COMPUTER INTERACTION CAPSTONE | 4 quarter hours
Graduate
HCI 594 provides an opportunity for students to apply all of the skills they have learned on one comprehensive project. Multidisciplinary teams design, evaluate, and implement a user interface intensive project. Students prepare written documents describing their activities and present the final results to the class. PREREQUISITE(S): Completion of the HCI core courses or consent of the instructor.

HCI 311 | FOUNDATIONS OF BIOLOGICAL SCIENCE FOR ENGINEERING | 4.5 quarter hours
(Undergraduate)
Introduces the student to the development of an annotated bibliography on a particular HCI topic, with particular attention to judging the quality of the sources. The course also teaches the student to develop a research plan for writing a research survey paper or develop a research plan to answer a specific question by designing an experiment/questionnaire. After presenting their paper, the student will review other student’s papers, and provide appropriate criticism. All students will be required to sign up for the CDM/COMM participant pool. We will invite researchers at CDM to discuss their current research. PREREQUISITE(S): HCI 450 or HCI 460 or instructor permission.

HCI 312 | CHEMICAL ENGINEERING LABORATORY II | 3 quarter hours
(Undergraduate)
Laboratory work in distillation, humidification, drying, gas absorption, viscous flow, molecular diffusion, heat condition and convection. (Taught at Illinois Institute of Technology as CHE 311) ICE 252 recommended. COREQUISITE(S): ICE 343, MAT 260. Taught at IIT as CHE 312.

ICE 314 | TRANSPORTATION PHENOMENA | 4.5 quarter hours
(Undergraduate)
The equations of change in different coordinate systems (mass, momentum, and energy transport). Velocity distribution in laminar and turbulent flow. Formulation and analytical solutions to the problems of viscous flow, molecular diffusion, heat condition and convection. (Taught at Illinois Institute of Technology as CHE 406) ICE 301, ICE 302 & ICE 252 recommended.

ICE 317 | CHEMICAL ENGINEERING LABORATORY I | 3 quarter hours
(Undergraduate)
Laboratory work in the unit operations of chemical engineering, fluid flow, heat transfer, and other selected topics. (Taught at Illinois Institute of Technology as CHE 317) ICE 301 recommended.

ICE 320 | TRANSPORTATION PHENOMENA | 4.5 quarter hours
(Undergraduate)
The equations of change in different coordinate systems (mass, momentum, and energy transport). Velocity distribution in laminar and turbulent flow. Formulation and analytical solutions to the problems of viscous flow, molecular diffusion, heat condition and convection. (Taught at Illinois Institute of Technology as CHE 406) ICE 301, ICE 302 & ICE 252 recommended.

ICE 322 | CHEMICAL ENGINEERING LABORATORY II | 3 quarter hours
(Undergraduate)
Laboratory work in distillation, humidification, drying, gas absorption, filtration, and other areas. (Taught at Illinois Institute of Technology as CHE 418)
ICE 324 | CHEMICAL REACTION ENGINEERING | 4.5 quarter hours (Undergraduate)
Introduction to the fundamentals of chemical kinetics. The design, comparison, and economic evaluation of chemical reactors. Emphasis on homogeneous systems. Taught at Illinois Institute of Technology as CHE 423. ICE 302, ICE 351 and ICE 326 recommended.

ICE 326 | PROCESS MODELING AND SYSTEM THEORY | 4.5 quarter hours (Undergraduate)

ICE 328 | PROCESS CONTROL | 4.5 quarter hours (Undergraduate)
Dynamic process models, stability assessment, feedback and feedforward control strategies, design and tuning of closed-loop controllers, time domain and frequency domain design and performance assessment methods. Multivariable systems, interaction, multi-loop control. Software for process simulation and controller design. (Taught at Illinois Institute of Technology as CHE 435) ICE 302 and ICE 326 recommended.

ICE 330 | NUMERICAL AND DATA ANALYSIS | 4.5 quarter hours (Undergraduate)
Utilization of numerical methods to find solutions to a variety of chemical engineering problems. Emphasis placed on problem formulation, development of computer code, and interpretation of results. Techniques covered include: systems of algebraic equations, linear regression, and statistics. Numerical differentiation and integration, solution of ordinary and partial differential equations. (Taught at Illinois Institute of Technology as CHE 439)

ICE 332 | CHEMICAL PROCESS THERMODYNAMICS | 3 quarter hours (Undergraduate)
Second law analysis of cooling, separation, combustion, and other chemical processes. Chemical reaction equilibrium and processing applications. ICE 351 recommended.

ICE 334 | CHEMICAL PROCESS DESIGN | 4.5 quarter hours (Undergraduate)
Introduction to design techniques and economic aspects of chemical processes. The technical and economic aspects of equipment selection and design, alternative methods of operation. (Taught at Illinois Institute of Technology as CHE 494) ICE 302, ICE 351 and ICE 326 recommended.

ICE 336 | STATISTICAL TOOLS FOR ENGINEERS | 4.5 quarter hours (Undergraduate)
Descriptive statistics and graphs, probability distributions, random sampling, independence, significance tests, design of experiments, regression, time series analysis, statistical process control, and introduction to multivariate analysis (Taught at IIT as CHE 426).

ICE 338 | PROCESS DESIGN II | 4.5 quarter hours (Undergraduate)
Group project in process design. Integration of technical, safety, environmental, economic, and societal issues in process development and design. Final part of the IPRO project package. Project teams consist of chemical engineering students and students from other disciplines and professions. Students from other academic units should register for designated section of IPRO 497 (three credits) and their contribution to the project tasks will be defined accordingly. (Taught at the Illinois Institute of Technology as CHE 496.) ICE 324, ICE 328 and ICE 334 are required prerequisites.

ICE 351 | CHEMICAL ENGINEERING THERMODYNAMICS | 4.5 quarter hours (Undergraduate)
Laws of thermodynamics and their application to chemical engineering operations. (Taught at IIT as CHE 351) ICE 343 recommended.

ICE 352 | THERMODYNAMICS II | 4.5 quarter hours (Undergraduate)
Second law analysis of cooling, separation, combustion, and other chemical processes. Chemical reaction equilibrium and processing applications. (Taught at IIT as CHE 451).

ICE 383 | ELECTRIC AND ELECTRONIC CIRCUITS | 4.5 quarter hours (Undergraduate)

ICE 397 | INTERPROFESSIONAL PROJECT | 4.5 quarter hours (Undergraduate)
Interprofessional projects allow students to learn teamwork, leadership and project management skills, while working in multidisciplinary teams on projects involving technical, ethical, environmental, economic, public policy and legal issues. IPRO project teams are typically comprised of 6-10 students from sophomore through graduate level from all disciplines that can broadly contribute to a project effort. While every effort will be made to accommodate students’ first choices, it may be necessary to balance students across all projects that will be scheduled for the semester or to consolidate students into fewer projects to meet minimum team requirements. Specific rules about selection of IPRO projects may apply in certain degree programs. Some projects may carry Humanities or Social Sciences credit. Students must consult the lead faculty member for the project and their faculty advisor before registering for a project. (Taught at Illinois Institute of Technology as IPRO 397)

Illinois Institute of Technology (IIT)

IIT 105 | INTRODUCTION TO COMPUTER PROGRAMMING I | 3-4.5 quarter hours (Undergraduate)
Introduces the use of high-level programming language (C/C++) as a problem-solving tool including basic data structures and algorithms, structured programming techniques, and software documentation. Designed for students who have had little or no prior experience with computer programming. (Taught at Illinois Institute of Technology as CS 105.) (3 quarter hours)

IIT 115 | ENGINEERING GRAPHICS AND DESIGN | 3 quarter hours (Undergraduate)
Basic traditional and computer-based techniques and applications, multiview sketching, orthographic projection, isometric and oblique pictorials, sectioning, auxiliary views, principles of descriptive geometry, dimensioning, detail drawings, introduction to design and computer-aided drafting and design (CAD). (Taught at Illinois Institute of Technology as EG 105.) (3 quarter hours)

IIT 200 | INTRODUCTION TO C++ PROGRAMMING | 4.5 quarter hours (Undergraduate)
Problem-solving and program design using C++. Introduces a variety of programming techniques, algorithms, and basic data structures including an introduction to object-oriented programming. (Taught at Illinois Institute of Technology as CS 200). (4.5 quarter hours)
IIT 201 | MECHANICS OF SOLIDS I | 4.5 quarter hours
(Undergraduate)
Free body diagrams. Equilibrium of a particle, a system of particles, and a rigid body. Distributed forces, centroids, centers of gravity, and moments of inertia. Analysis of structures. Friction. Internal loads in bars, shafts and beams. Stress and strain in axially loaded members. (Taught at Illinois Institute of Technology as MMAE 201.) (4.5 quarter hours)

IIT 202 | MECHANICS OF SOLIDS II | 4.5 quarter hours
(Undergraduate)
Stress and strain relations, mechanical properties. Axially loaded members. Torsion of circular shafts. Plane stress and strain, Mohr’s circle, stress transformation. Elementary bending theory, normal and shear stresses in beams, beam deflection. Combined loading. (Taught at Illinois Institute of Technology as MMAE 202.) (4.5 quarter hours)

IIT 203 | INTRODUCTION TO MECHANICS | 4.5 quarter hours
(Undergraduate)

IIT 210 | CIRCUIT ANALYSIS I | 4.5-6 quarter hours
(Undergraduate)
Ohm’s Law, Kirchoff’s Laws, and network element voltage-current relations. Application of mesh and nodal analysis to circuits. Dependent sources, operational amplifier circuits, superposition, Thevenin’s and Norton’s Theorems, maximum power power transfer theorem. Transient circuit analysis for RC, RL, and RLC circuits. Introduction to Laplace Transforms. Concurrent registration in ECE 212 and ECE 218 is strongly encouraged. (Taught at Illinois Institute of Technology as ECE 211. Updated Dec 2015 to reflect change to 3.0 semester hr at IIT) (4.5 quarter hours)

IIT 211 | MATERIALS SCIENCE | 4.5 quarter hours
(Undergraduate)
The scientific principles determining the structure of metallic, polymeric, ceramic semiconductor and composite materials; electronic structure, atomic bonding, atomic structure, microstructure and macrostructure. The basic principles of structure-property relationships in the context of chemical, mechanical, and physical properties of materials. (Taught at Illinois Institute of Technology as MS 201.) (4.5 quarter hours)

IIT 212 | ANALOG AND DIGITAL LABORATORY | 1.5 quarter hours
(Undergraduate)
Basic experiments with analog and digital circuits; familiarization with test and measurement equipment; combinational digital circuits; familiarization with latches, flip-flops, and shift registers; operational amplifiers; and transient effects in first-order and second-order analog circuits; PSpice software applications. (Taught at Illinois Institute of Technology as ECE 212) (1.5 quarter hours)

IIT 213 | CIRCUIT ANALYSIS II | 6 quarter hours
(Undergraduate)
Circuit Analysis II Sinusoidal excitation and phasors. AC steady-state circuit analysis using phasors. Complex frequency, network functions, pole-zero analysis, frequency response, and resonance. Two-port networks, transformers, mutual inductance, AC steady-state power, RMS values, introduction to three-phase systems and Fourier series. Concurrent registration in ECE 214 is strongly encouraged. (Taught at Illinois Institute of Technology as ECE 213) (6 quarter hours)

IIT 214 | ANALOG & DIGITAL LAB II | 1.5 quarter hours
(Undergraduate)
Design-oriented experiments including counters, finite state machines, sequential logic design, impedances in AC steady-state, resonant circuits, two-port networks, and filters. A final project incorporating concepts from analog and digital circuit design will be required. (Taught at Illinois Institute of Technology as ECE 214) (1.5 quarter hours)

IIT 218 | DIGITAL SYSTEMS | 6 quarter hours
(Undergraduate)
Number systems and conversions, binary codes, and Boolean algebra. Switching devices, discrete and integrated digital circuits, analysis and design of combinational logic circuits. Karnaugh maps and minimization techniques. Counters and registers. Analysis and design of synchronous sequential circuits. (Taught at IIT as ECE 218) Was previously 4.5 hr, changed to 6.0 hr in August 2015 to reflect change in IIT. (6 quarter hours)

IIT 232 | DESIGN FOR INNOVATION | 4.5 quarter hours
(Undergraduate)
Product design and development including engineering design, good versus bad design, human-centered design, sketch models and prototyping, material selection, sustainable product development, product tear down, and product architecture. Global topics encompassing intellectual property, innovative thinking, global competitiveness, business economics, and managing product development. (Taught at IIT as MMAE 232). (4.5 quarter hours)

IIT 242 | DIGITAL COMPUTERS & COMPUTING | 4.5 quarter hours
(Undergraduate)
Basic concepts in computer architecture, organization, and programming, including: integer and floating point number representations, memory organization, computer processor operation (the fetch/execute cycle), and computer instruction sets. Programming in machine language and assembly language with an emphasis on practical problems. Brief survey of different computer architectures. (Taught at Illinois Institute of Technology as ECE 242) (4.5 quarter hours)

IIT 252 | INTRODUCTION TO DIFFERENTIAL EQUATIONS | 6 quarter hours
(Undergraduate)
Linear differential equations of order one. Linear differential equations of higher order. Series solutions of linear DE. Laplace transforms and their use in solving linear DE. Introduction to matrices. Systems of linear differential equations. (Taught at Illinois Institute of Technology as MATH 252) (6 quarter hours)

IIT 271 | ENGINEERING MATERIALS AND DESIGN | 4.5 quarter hours
(Undergraduate)
Mechanical behavior of metals, polymers, ceramics and composites, laboratory testing methods including tension, torsion, hardness, impact, toughness, fatigue and creep. Evaluation of structural performance in terms of material processing, service conditions and design. (Taught at Illinois Institute of Technology as MMAE 271.) (4.5 quarter hours)

IIT 300 | INSTRUMENTATION LAB | 4.5 quarter hours
(Undergraduate)
Basic electronic skills for scientific research. Electrical measurements, basic circuit analysis, diode and transistor circuits. Transistor and integrated amplifiers, filters, and power circuits. Basics of digital circuits, including Boolean algebra and design of logic circuits. (Taught at Illinois Institute of Technology as PHYS 300) (4.5 quarter hours)
IIT 315 | FLUID MECHANICS | 4.5 quarter hours
(Undergraduate)
Basic properties of fluids in motion. Lagrangian and Eulerian viewpoints, materials derivative, streamlines, etc. Continuity, energy, and linear and angular momentum equations in integral and differential forms. Integration of equations for one-dimensional forms and application to problems. Incompressible viscous flow; Navier-Stokes equations, parallel flow, pipe flow, and the Moody diagram. Introduction to laminar and turbulent boundary layers and free surface flows. (Taught at IIT as MMAE 313.) (4.5 quarter hours)

IIT 316 | ELECTRIC MOTOR DRIVES | 6 quarter hours
(Undergraduate)
Fundamentals of electric motor drives are studied. Applications of semiconductor switching circuits to adjustable speed drives, robotic, and traction are explored. Selection of motor drives, calculating the ratings, speed control, position control, starting, and braking are also covered. Simulation mini-projects and lab experiments are based on the lectures given. (Taught at Illinois Institute of Technology as ECE 412.) (6 quarter hours)

IIT 317 | INTRODUCTION TO COMPUTER NETWORKS WITH LABORATORY | 6 quarter hours
(Undergraduate)
Emphasis on the physical, data link, and medium access layers of the OSI architecture. Different general techniques for networking tasks, such as error control, flow control, multiplexing, switching, routing, signaling, congestion control, traffic control, scheduling will be covered along with their experimentation and implementation in a laboratory. (Taught at Illinois Institute of Technology as ECE 407) (6 quarter hours)

IIT 318 | INTRODUCTION TO COMPUTER NETWORKS | 4.5 quarter hours
(Undergraduate)
Emphasis on the physical, data link and medium access layers of the OSI architecture. Different general techniques for networking tasks, such as error control, flow control, multiplexing, switching, routing, signaling, congestion control, traffic control, scheduling will be covered along with their experimentation and implementation in a laboratory. (Taught at Illinois Institute of Technology as ECE 408.) (4.5 quarter hours)

IIT 319 | FUNDAMENTALS OF POWER ENGINEERING [CORRESPONDSS TO ECE 319] | 6 quarter hours
(Undergraduate)
Principles of electromechanical energy conversion. Fundamentals of the operation of transformers, synchronous machines, induction machines, and fractional horsepower machines. Introduction to power network models and per-unit calculations. Gauss-Siedel load flow. Lossless economic dispatch. Symmetrical three-phase faults. Laboratory considers operation, analysis and performance of motors and generators. The laboratory experiments also involve use of PC-based interactive graphical software for load flow, economic dispatch, and fault analysis. (Taught at Illinois Institute of Technology as ECE 319) (6 quarter hours)

IIT 320 | THERMODYNAMICS | 4.5 quarter hours
(Undergraduate)
Introduction to thermodynamics including properties of matter. First Law of Thermodynamics; and its use in analyzing open and closed systems; limitations of the Second Law of thermodynamics; entropy. (Taught at Illinois Institute of Technology as MMAE 320.) (4.5 quarter hours)

IIT 321 | APPLIED THERMODYNAMICS | 4.5 quarter hours
(Undergraduate)

IIT 322 | HEAT AND TRANSFER | 6 quarter hours
(Undergraduate)

IIT 323 | MICROWAVE CIRCUITS AND SYSTEMS WITH LABORATORY | 6 quarter hours
(Undergraduate)
Maxwell's equations, waves in free space, metallic and dielectric waveguides, microstrips, microwave cavity resonators and components, ultra-high frequency generation and amplification. Analysis and design of microwave circuits and systems. (Taught at IIT as ECE 423) (6 quarter hours)

IIT 324 | HEAT AND MASS TRANSFER | 4.5 quarter hours
(Undergraduate)
Basic laws of transport phenomena, including: steady-state heat conduction; multi-dimensional and transient conduction; forced internal and external convection; natural convection; heat exchanger design and analysis; fundamental concepts of radiation; shape factors and network analysis; diffusive and convective mass transfer; phase change, condensation and boiling. (Taught at Illinois Institute of Technology as MMAE 323.) (4.5 quarter hours)

IIT 325 | ANALYSIS AND DESIGN OF INTEGRATED CIRCUITS | 4.5 quarter hours
(Undergraduate)
Contemporary analog and digital integrated circuit analysis and design techniques. Bipolar, CMOS and BICMOS IC fabrication technologies, IC Devices and Modeling. Analog ICs including multiple-transistor amplifiers, biasing circuits, active loads, reference circuits, output buffers; their frequency response, stability and feedback considerations. Digital ICs covering inverters, combinational logic gates, high-performance logic gates, sequential logics, memory and array structures. Team design projects. (Taught at IIT as ECE 425) (4.5 quarter hours)

IIT 329 | INTRODUCTION TO VLSI DESIGN | 6 quarter hours
(Undergraduate)
Processing, fabrication, and design of Very Large Scale Integration (VLSI) circuits. MOS transistor theory, VLSI processing, circuit layout, layout design rules, layout analysis, and performance estimation. The use of computer-aided design (CAD) tools for layout design, system design in VLSI, and application-specific integrated circuits (ASICs). In the laboratory, students create, analyze, and simulate a number of circuit layouts as design projects, culminating in a term design project. (Taught at IIT as ECE 429) (6 quarter hours)
IIT 330 | ENGINEERING MEASUREMENTS | 6 quarter hours  
(Undergraduate)
Introduction to applications of measurement instrumentation and design of engineering experiments. Generalized characteristics of sensors and measurements systems. Signal conditioning and computer-based data acquisition and analysis. Measurement of motion, force, strain, torque, shaft power, pressure, sound, flow, temperature and heat flux. Design of experiments proposals. Team-based projects addressing application of engineering measurements to a variety of engineering problems. Effective communication of experimental results. (Taught at Illinois Institute of Technology as MMAE 430.) (6 quarter hours)

IIT 331 | POWER ELECTRONICS | 6 quarter hours  
(Undergraduate)
Power electronic circuits and switching devices such as power transistors, MOSFET's, SCR's, GTO's, IGBT's and UJT's are studied. Their applications in AC/DC DC/DC, DC/AC and AC/AC converters as well as switching power supplies are explained. Simulation mini-projects and lab experiments emphasize power electronic circuit analysis, design and control. (Taught at Illinois Institute of Technology as ECE 411.) (6 quarter hours)

IIT 332 | DESIGN OF MECHANICAL SYSTEMS | 4.5 quarter hours  
(Undergraduate)
Small-group design projects drawn from industry. (Taught at Illinois Institute of Technology as MMAE 432) (4.5 quarter hours)

IIT 333 | DESIGN OF THERMAL SYSTEM | 4.5 quarter hours  
(Undergraduate)
Application of principles of fluid mechanics, heat transfer, and thermodynamics to design of components of engineering systems. Examples are drawn from power generation, environmental control, air and ground transportation, and industrial processes, as well as other industries. Groups of students work on projects for integration of these components and design of thermal systems. (Taught at Illinois Institute of Technology as MMAE 433) (4.5 quarter hours)

IIT 334 | MATRIX ALGEBRA AND COMPLEX VARIABLES | 4.5 quarter hours  
(Undergraduate)
Vectors and matrices; matrix operations, transpose, rank, inverse; determinants; solution of linear systems; eigenvalues and eigenvectors. The complex plane; analytic functions; contour integrals; Laurent series expansions; singularities and residues. (Taught at Illinois Institute of Technology as MATH 333) (4.5 quarter hours)

IIT 335 | DESIGN OF MACHINE ELEMENTS | 4.5 quarter hours  
(Undergraduate)
Students will gain an understanding of the basic elements used in machine design. These include the characteristics of gears, bearings, shafts, keys, couplings, fasteners, springs, electric motors, brakes and clutches, and flexible elements. Students will also learn mechanism types, linkage analysis, and kinematic synthesis. (Taught at Illinois Institute of Technology as MMAE 332.) (4.5 quarter hours)

IIT 336 | DESIGN OF AEROSPACE VEHICLES I | 4.5 quarter hours  
(Undergraduate)
The focus of this course is on applications ranging from commercial to military and from manned to high-speed to long-duration aircraft. Students will examine aircraft design including aerodynamic, structural and powerplant characteristics to achieve performance goals. The quarter project is a collaborative effort in which small design groups complete the preliminary design cycle of an aircraft to achieve specific design requirements. (Taught at Illinois Institute of Technology as MMAE 436) (4.5 quarter hours)

IIT 337 | DIGITAL SIGNAL PROCESSING I | 4.5-6 quarter hours  
(Undergraduate)
Discrete-time system analysis, discrete convolution and correlation, z-transforms. Realization and frequency response of discrete-time systems, properties of analog filters, IIR filter design, FIR filter design. Discrete Fourier Transforms. Applications of digital signal processing. (Taught at IIT as ECE 436-with lab, or ECE 437-without lab.) (4.5 quarter hours)

IIT 338 | CONTROL SYSTEMS | 4.5 quarter hours  
(Undergraduate)
Signal-flow graphs and block diagrams. Types of feedback control. Steady-state tracking error. Stability and Routh Hurwitz criterion. Transient response and time domain design via root locus methods. Frequency domain analysis and design using Bode and Nyquist methods. Introduction to state-variable descriptions. Credit will be given for either ECE 438 or ECE 434, but not for both. (Taught at IIT as ECE 438) (4.5 quarter hours)

IIT 339 | DESIGN OF AEROSPACE VEHICLES II | 4.5 quarter hours  
(Undergraduate)
Spacecraft systems design including mission analysis and astrodynamics, launch vehicle requirements, attitude determination and control, propulsion, structural design, power systems thermal management, and telecommunications. Semester-long project is focused on the integration of multiple systems into a coherent spacecraft design to achieve specific mission requirements. (Taught at IIT as MMAE 437). (4.5 quarter hours)

IIT 340 | FUNDAMENTALS OF SEMICONDUCTOR DEVICES | 4.5 quarter hours  
(Undergraduate)
The goals of this course are to give the student an understanding of the physical and operational principles behind important electronic devices such as transistors and solar cells. Semiconductor electron and hole concentrations, carrier transport, and carrier generation and recombination are discussed. P-N junction operation and its application to diodes, solar cells, and LEDs are developed. The field-effect transistor (FET) and bipolar junction transistor (BJT) are then discussed and their terminal operation developed. Application of transistors to bipolar and CMOS analog and digital circuits is introduced. (Taught at Illinois Institute of Technology as ECE 430.) (4.5 quarter hours)

IIT 341 | SPACECRAFT AND AIRCRAFT DYNAMICS | 4.5 quarter hours  
(Undergraduate)
Kinematics and dynamics of particles, systems of particles, and rigid bodies; translating and rotating reference frames; Euler angles. Aircraft longitudinal and lateral static stability; aircraft equations of motion. Spacecraft orbital dynamics; two-body problem classical orbital elements; orbital maneuvers. (Taught at Illinois Institute of Technology as MMAE 441) (4.5 quarter hours)

IIT 342 | SPACECRAFT DYNAMICS | 4.5 quarter hours  
(Undergraduate)
Orbital mechanics: two-body problem, Kepler's equation, classical orbital elements, and introduction to orbit perturbations. Spacecraft mission analysis: orbital maneuvers and station keeping, earth orbiting, lunar, and interplanetary missions, introduction to orbit determination. Spacecraft attitude dynamics: three-dimensional kinematics and dynamics of spacecraft, rotating reference frames and orientation angles, and spacecraft equations of motion. Spacecraft attitude stability and control: dual-spin platforms, momentum wheels, control-moment gyros, gravity gradient stabilization, introduction to spacecraft attitude determination and control. (Taught at Illinois Institute of Technology as MMAE 411) (4.5 quarter hours)
IIT 343 | SYSTEMS ANALYSIS AND CONTROL | 4.5 quarter hours  
(Undergraduate)  

IIT 344 | MICROCOMPUTERS | 6 quarter hours  
(Undergraduate)  
Microprocessors and stored program controllers. Memories. Standard and special interfaces. Hardware design. Software development. Interrupt systems. Hardware and software design tools. System design and troubleshooting. Emphasis on examples (Taught at IIT as ECE 441). (6 quarter hours)

IIT 345 | COMPUTER-AIDED DESIGN | 4.5 quarter hours  
(Undergraduate)  

IIT 346 | ADVANCED LOGIC DESIGN | 6 quarter hours  
(Undergraduate)  
Design and implementation of complex digital systems under practical design constraints. Timing and electrical considerations in combinational and sequential logic design. Digital system design using Algorithmic State Machine (ASM) diagrams. Design with modern logic families and programmable logic. Design-oriented laboratory stressing the use of programmable logic devices (Taught at IIT as ECE 446). (6 quarter hours)

IIT 349 | MECHANICAL LABORATORY I | 6 quarter hours  
(Undergraduate)  
Basic skills for engineering research are taught, which include: analog electronic circuit analysis; fundamentals of digital data acquisition; measurements of pressure, temperature, flow rate, heat transfer, and static forces and moments; and statistical data analysis. (Taught at Illinois Institute of Technology as MMAE 319.) (6 quarter hours)

IIT 350 | COMPUTATIONAL MECHANICS | 4.5 quarter hours  
(Undergraduate)  
Explores the use of numerical methods to solve engineering problems in solid mechanics, fluid mechanics and heat transfer. Topics include matrix algebra, nonlinear equations of one variable, systems of linear algebraic equations, nonlinear equations of several variables, classification of partial differential equations in engineering, the finite difference method, and the finite element method. (Taught at IIT as MMAE 350).

IIT 351 | SYSTEMS PROGRAMMING | 4.5 quarter hours  
(Undergraduate)  
Examines the components of sophisticated multilayer software systems, including device drivers, systems software, applications interfaces, and user interfaces. Explores the design and development of interrupt-driven and event-driven software. (Taught at Illinois Institute of Technology as CS 351.)

IIT 352 | AEROSPACE PROPULSION | 4.5 quarter hours  
(Undergraduate)  
Analysis and performance of various jet and rocket propulsive devices. Foundations of propulsion theory. Design and analysis of inlets, compressors, combustion chambers, and other elements of propulsive devices. Emphasis is placed on mobile power plants for aerospace applications. (Taught at Illinois Institute of Technology as MMAE 452) (4.5 quarter hours)

IIT 354 | AIRCRAFT DESIGN I | 4.5 quarter hours  
(Undergraduate)  
Aircraft design including aerodynamic, structural, and power plant characteristics to achieve performance goals. Focus on applications ranging from commercial to military and from manpowered to high-speed to long-duration aircraft. Semester project is a collaborative effort in which small design groups complete the preliminary design cycle of an aircraft to achieve specific design requirements. (Taught at IIT as MMAE 414).

IIT 355 | CARDIOVASCULAR FLUID MECHANICS | 4.5 quarter hours  
(Undergraduate)  
Anatomy of the cardiovascular system. Scaling principles. Lumpd parameter, one-dimensional linear and nonlinear wave propagation, and three-dimensional modeling techniques applied to simulate blood flow in the cardiovascular system. Steady and pulsatile flow in rigid and elastic tubes. Form and function of blood, blood vessels, and the heart from an engineering perspective. Sensing, feedback, and control of the circulation. Possible project using custom software to run blood flow simulations (Taught at IIT as MMAE 455). (4.5 quarter hours)

IIT 356 | DIGITAL SIGNAL PROCESSING I WITH LABORATORY | 6 quarter hours  
(Undergraduate)  
Discrete-time system analysis, discrete convolution and correlation, Z-transforms. Realization and frequency response of discrete-time systems, properties of analog filters, IIR filter design, FIR filter design. Discrete Fourier Transforms. Applications of digital signal processing. (Taught at Illinois Institute of Technology as ECE 436.) (6 quarter hours)

IIT 359 | OBJECT-ORIENTED PROGRAMMING AND COMPUTER SIMULATION | 4.5 quarter hours  
(Undergraduate)  
The use of object-oriented programming to develop computer simulations of engineering problems. Programming with the C++ language in a UNIX environment. OOP concepts including classes, inheritance, and polymorphism. Programming with classes, inheritance, and polymorphism. Programming with class libraries. Event-driven simulation techniques in an object-oriented environment. Programming projects will include the development of a simulator for an engineering application. (Taught at Illinois Institute of Technology as ECE 449.) (4.5 quarter hours)

IIT 362 | SPACECRAFT DESIGN I | 4.5 quarter hours  
(Undergraduate)  
Launch vehicle design including a system engineering, pay-load mission definition, propulsion and staging, structural design, trajectory analysis and guidance, launch window considerations, navigation and attitude determination, booster re-entry, range safety, and reliability. Semester-long project is focused on the integration of multiple systems into a coherent launch vehicle design to achieve specific mission requirements. (Taught at Illinois Institute of Technology as MMAE 412.) (4.5 quarter hours)
IIT 363 | SPACEDRSAFE DESIGN II | 4.5 quarter hours
(Undergraduate)
Spacecraft systems design including real world mission analysis and orbit design, launch vehicle requirements, attitude determination and control, propulsion, structural design, power systems thermal management, and telecommunications. Semester-long project is focused on the integration of multiple systems into a coherent spacecraft design to achieve specific mission requirements. (Taught at Illinois Institute of Technology as MMAE 413.) (4.5 quarter hours)

IIT 364 | PROBABILITY AND STATISTICS FOR ELECTRICAL AND COMPUTER ENGINEERS | 4.5 quarter hours
(Undergraduate)
This course focuses on the introductory treatment of probability theory including: axioms of probability, discrete and continuous random variables, random vectors, marginal, joint, conditional and cumulative probability distributions, moment generating functions, expectations, and correlations. Also covered are sums of random variables, central limit theorem, sample means, and parameter estimation. Furthermore, random processes and random signals are covered. Examples and applications are drawn from problems of importance to electrical and computer engineers. (Taught at Illinois Institute of Technology as MATH 374.) (4.5 quarter hours)

IIT 365 | AEROSPACE LABORATORY I | 6 quarter hours
(Undergraduate)
Basic skills for engineering research are taught, which include: analog electronic circuit analysis, fundamentals of digital data acquisition, measurements of pressure, temperature, flow rate, heat transfer, and static forces and moments; statistical data analysis. (Taught at Illinois Institute of Technology as MMAE 315.) (6 quarter hours)

IIT 366 | AEROSPACE LABORATORY II | 6 quarter hours
(Undergraduate)
Advanced skills for engineering research are taught, which include experiments with digital electronic circuit analysis, dynamic data acquisition techniques, fundamentals of fluid power system design, GPS and inertial guidance systems, air-breathing propulsion, and fly-by-wire control. (Taught at Illinois Institute of Technology as MMAE 415.) (6 quarter hours)

IIT 369 | MECHANICAL LABORATORY II | 6 quarter hours
(Undergraduate)
Laboratory testing methods including solid mechanics: tension, torsion, hardness, impact, toughness, fatigue and creep; heat and mass transfer, conduction, fins, convection, radiation, diffusion; vibrations and control. Design of experiments. (Taught at Illinois Institute of Technology as MMAE 419.) (6 quarter hours)

IIT 371 | ENGINEERING MATERIALS AND DESIGN | 4.5 quarter hours
(Undergraduate)
Mechanical behavior of metals, polymers, ceramics and composites, laboratory testing methods including tension, torsion, hardness, impact, toughness, fatigue and creep. Evaluation of structural performance in terms of material processing, service conditions and design. (Taught at Illinois Institute of Technology as MMAE 371) (4.5 quarter hours)

IIT 372 | HEALTH PHYSICS | 4.5 quarter hours
(Undergraduate)
This course covers topics in Radiation Physics, including general aspects of radioactivity, radioactive series decay, alpha particle energies, beta decays, electron capture, gamma ray emission, interaction of radiation with matter, two-particle collisions, elastic scattering, interaction of heavy charged particles with matter, Coulomb force interactions, radiative stopping power, collision stopping power for heavy charged particles, interaction of light charged particles with matter, and bremsstrahlung radiation. (Taught at IIT as PHYS 571) (4.5 quarter hours)

IIT 373 | HEALTH PHYSICS II | 4.5 quarter hours
(Undergraduate)
Continuation of the basic health physics sequence, including neutron production and interaction with matter; methods of radiation detection; radiation dosimetry; chemical and biological effects of radiation; radiation protection standards; shielding; dosimetric models; accelerator, reactor and medical health physics. (Taught at IIT as PHYS 572) (4.5 quarter hours)

IIT 374 | PROBABILITY AND STATISTICS | 4.5 quarter hours
(Undergraduate)
Elementary probability theory including discrete and continuous distributions, sampling, estimation, confidence intervals, hypothesis testing, and linear regression. Credit not granted for both MATH 474 and MATH 475. (Taught at Illinois Institute of Technology as MATH 474) (4.5 quarter hours)

IIT 375 | AEROSPACE MATERIALS LAB | 4.5 quarter hours
(Undergraduate)
Taught at IIT as MMAE 372. (4.5 quarter hours)

IIT 376 | DIGITAL & DATA COMMUNICATION SYSTEMS | 4.5-6 quarter hours
(Undergraduate)
Introduction to Amplitude, Phase, and Frequency modulation systems. Multiplexing and Multi-Access Schemes; Spectral design considerations. Sampling theorem. Channel capacity, entropy; Quantization, wave shaping, and Inter-Symbol Interference (ISI), Matched filters, Digital source encoding, Pulse Modulation systems. Design for spectral efficiency and interference control. Probability of error analysis, Analysis and design of digital modulators and detectors. (Taught at Illinois Institute of Technology as ECE 403, without lab, or ECE 405, with laboratory.)

IIT 378 | POWER SYSTEMS ANALYSIS | 4.5 quarter hours
(Undergraduate)
Transmission systems analysis and design. Large scale network analysis using Newton-Raphson load flow. Unsymmetrical short-circuit studies. Detailed consideration of the swing equation and the equal-area criterion for power system stability studies. (Taught at Illinois Institute of Technology as ECE 418.) (4.5 quarter hours)

IIT 379 | POWER SYSTEMS ANALYSIS WITH LABORATORY | 6 quarter hours
(Undergraduate)
Transmission systems analysis and design. Large scale network analysis using Newton-Raphson load flow. Unsymmetrical short-circuit studies. Detailed consideration of the swing equation and the equal-area criterion for power system stability studies. Use of commercial power system analysis tool to enhance understanding in the laboratory. (Taught at Illinois Institute of Technology as ECE 419.) (6 quarter hours)
IIT 380 | ANALYTICAL METHODS IN POWER SYSTEMS | 4.5 quarter hours (Undergraduate)
Fundamentals of power systems operation and planning. Economic operation of power systems with consideration of transmission losses. Design of reliable power systems, power systems security analysis, optimal scheduling of power generation, estimation of power system state. (Taught at Illinois Institute of Technology as ECE 420.) (4.5 quarter hours)

IIT 385 | MANUFACTURING PROCESSES | 4.5 quarter hours (Undergraduate)
Principles of material forming and removal processes and equipment. Force and power requirements, surface integrity, final properties and dimensional accuracy as influenced by material properties and process variables. Design for manufacturing. Factors influencing choice of manufacturing process. (Taught at Illinois Institute of Technology as MAAE 485.) (4.5 quarter hours)

IIT 386 | COMPUTER ORGANIZATION AND DESIGN | 4.5 quarter hours (Undergraduate)
This course covers basic concepts and state-of-the-art developments in computer architecture: computer technology, performance measures, instruction set design, computer arithmetic, controller and datapath design, memory systems, pipelining, array processing, parallel processing, multiprocessing, abstract analysis models, input-output systems, relationship between computer design and application requirements, and cost/performance trade-offs. Students will complete a project implementing a version of multiple-cycle processor. Credit will be given for either ECE 485 or CS 470, but not both (Taught at IIT as ECE 485). (4.5 quarter hours)

IIT 387 | IIT ELECTIVE | 4.5-6 quarter hours (Undergraduate)
Elective courses taken at IIT with permission of advisor. (variable credit)

IIT 391 | IIT CO-OP | 4-18 quarter hours (Undergraduate)
The student will participate in on-site or off-site activity (including, but not limited to, production or research activity). The student will be responsible for, e.g., designing, testing and deploying hardware or software, and may be involved in production level issues. Typically, this position will be a co-op at some institution designated by IIT. (variable credit)

IIT 397 | INTER-PROFESSIONAL PROJECT | 4.5 quarter hours (Undergraduate)
Interprofessional projects allow students to learn teamwork, leadership and project management skills while working in multidisciplinary teams on projects involving technical, ethical, environmental, economic, public policy and legal issues. IPRO project teams are typically comprised of six to ten students from sophomore through graduate level and from all disciplines, who can broadly contribute to a project effort. While every effort will be made to accommodate students’ first choices, it may be necessary to balance students across all projects scheduled for the semester or to consolidate students into fewer projects to meet minimum team requirements. Specific rules about selection of IPRP projects may apply in certain degree programs. Some projects may carry humanities or social sciences credit. Students must consult the lead faculty member for the project and their faculty adviser before registering for a project. (Taught at Illinois Institute of Technology as IPRP 497; formerly IPRP 397) (4.5 quarter hours)

IIT 398 | INTER-PROFESSIONAL PROJECT | 4.5 quarter hours (Undergraduate)
Interprofessional projects allow students to learn teamwork, leadership and project management skills while working in multidisciplinary teams on projects involving technical, ethical, environmental, economic, public policy and legal issues. IPRO project teams are typically comprised of six to ten students from sophomore through graduate level and from all disciplines, who can broadly contribute to a project effort. While every effort will be made to accommodate students’ first choices, it may be necessary to balance students across all projects scheduled for the semester or to consolidate students into fewer projects to meet minimum team requirements. Specific rules about selection of IPRP projects may apply in certain degree programs. Some projects may carry humanities or social sciences credit. Students must consult the lead faculty member for the project and their faculty adviser before registering for a project. (Taught at Illinois Institute of Technology as IPRP 497) (4.5 quarter hours)

Illustration (ILL)

ILL 200 | ILLUSTRATION FOUNDATIONS | 4 quarter hours (Undergraduate)
This course will focus on improving the basic skills needed for creating concept art and storyboards for animation and games. Areas of focus include practical perspective, technical rendering, observational drawing and color theory. These skills will be applied in basic prototyping projects. PREREQUISITE(S): GD 105 or ANI 105.

ILL 206 | HISTORY OF COMICS | 4 quarter hours (Undergraduate)
This course will cover the history of the art form collectively known as "comics"—mechanically reproduced graphic storytelling—which includes comic strips, comic books, graphic novels, Japanese manga and online comics. Students will be introduced to the evolution of the art form from 18th century precursors, to late 19th century newspaper pages, to the 20th century comic book, through today's sophisticated graphic novels. The course will devote considerable time to comics of other cultures, with special emphasis on Japan and Europe. It will also examine the relationship of comics to culture at large, and the struggle of underground and alternative comic artists to explore adult subjects such as politics and gender.

ILL 210 | DIGITAL ILLUSTRATION I | 4 quarter hours (Undergraduate)
Introduction to illustration development in image, line and photography, combining computer applications and hand-rendered approaches. PREREQUISITE(S): GD 105, ART 105, ANI 105 or GPH 211.

ILL 211 | INTERMEDIATE DIGITAL ILLUSTRATION | 4 quarter hours (Undergraduate)
Intermediate practice for illustration development in image, line and photography, combining computer applications and hand-rendered approaches, will be studied. PREREQUISITE(S): GD 105 or ANI 105 or ART 106.
ILL 220 | MAKING COMICS | 4 quarter hours  
(Undergraduate)  
This course introduces students to the components of graphic narrative, including superhero and alternative comics, comic strips, manga, and graphic novels. Students will learn fundamental materials and techniques, including penciling and inking, digital painting and coloring, and publishing, and create their own graphic narratives. The course will also provide an overview of the history of comics and graphic storytelling, and their relation and importance to the art of animation. PREREQUISITE(S): ART 106.

ILL 330 | CHILDREN'S BOOK ILLUSTRATION | 4 quarter hours  
(Undergraduate)  
This course is an introduction to the art and business of illustrating children's books. It will cover the business of illustration for the child and young adult book markets, and the roles of the agent, publisher, author, and artist. Students will experience the complete production process, from analyzing the manuscript, to choosing what to illustrate from the text, thumbnails, character and setting design, layout, comps, to finished artwork. Students will experiment with the art materials of their choice, and work towards developing an individual artistic style. ART 106 or ILL 200 or GD 210 is a prerequisite for this class.

ILL 340 | POSTER ILLUSTRATION | 4 quarter hours  
(Undergraduate)  
This course is an introduction to the art of creating effective illustrated posters. Students will begin with the conceptual process, including identifying the poster's purpose, using visual metaphor to represent ideas, and choosing creative imagery to attract attention. They will then explore the production process from thumbnails, layout, choosing a color scheme, incorporating text, comps, to finished artwork, and color separation. Students will experiment with the art materials of their choice, and work towards developing an individual artistic style. ART 106 or ILL 200 or GD 210 is a prerequisite for this class.

Information Systems (IS)

IS 201 | INTRODUCTION TO INFORMATION SYSTEMS | 4 quarter hours  
(Undergraduate)  
This course demonstrates how information is used by organizations to conduct business and solve problems. This course presents information systems principles and demonstrates how they form an integral part of modern organizations. Topics include systems concepts, organizational processes, technological aspects of information systems; the Internet; IT security and ethical issues; database management; and systems development lifecycle. In addition, students familiarize themselves with the DePaul computing environment and demonstrate competency at navigating that environment. PREREQUISITE(S): None.

IS 208 | INFORMATION TECHNOLOGY, ECONOMY AND SOCIETY | 4 quarter hours  
(Undergraduate)  
Introduction to emerging information technologies and their impact on modern society. This course discusses the latest technologies used in the evolving IT environment and how these technologies are changing the modern world. Emphasis is placed on investigating issues using a variety of sources, case studies, and writing. PREREQUISITE(S): None.

IS 215 | ANALYSIS AND DESIGN TECHNIQUES | 4 quarter hours  
(Undergraduate)  
This course presents a structured approach to analysis and design of an information system for a business. The systems development lifecycle will be defined and described. Process descriptions, user and task analysis for interface development, prototyping, data flow and entity relationship diagramming will be presented. Case studies that promote critical-thinking skills provide the context for these techniques. Formerly IT 215. PREREQUISITE(S): None.

IS 280 | COMMUNICATION FOR THE GLOBAL IT PROFESSIONAL | 4 quarter hours  
(Undergraduate)  
Development of professional communication and collaboration skills for the global IT workplace. Students cultivate proficiency with traditional in-person and electronic communications, modeling the conflict resolution, personal initiative, and personal presentation behaviors necessary for career advancement. Students become comfortable users of virtual communication and collaboration toolsets such as VoIP, collaborative editors, web presentation software, virtual team portals, and virtual scheduling tools. PREREQUISITE(S): WRD 104. For students required to take LSP 120, it is also a prerequisite.

IS 304 | ENTERPRISE ARCHITECTURE | 4 quarter hours  
(Undergraduate)  
This course explores the characteristics, selection, implementation and management of enterprise architecture frameworks, focusing primarily on the evaluation and planning of information systems from a top-down perspective. Major topics include enterprise architecture, Web 2.0, Enterprise 2.0, social media and networking, software as a service, content management systems, cloud computing, and portals; each is studied in terms of its characteristics and potential applications within an organization. PREREQUISITE(S): IS 215. IS 215 is the prerequisite for this class.

IS 331 | FUNDAMENTALS OF DIGITAL PRODUCT MANAGEMENT | 4 quarter hours  
(Undergraduate)  
This course focuses on the creation and management of intangible technology products and services throughout the entire product management lifecycle. The benefits of the product management process along with the role of the Product Manager throughout the digital product lifecycle, main tasks, key reports and relationships, and the relationship between product management and product marketing will be examined. PREREQUISITE(S): None.

IS 335 | INTRODUCTION TO ORGANIZATIONAL MODELING FOR DIGITAL TRANSFORMATION | 4 quarter hours  
(Undergraduate)  
An introduction to analysis and modeling of organizational goals, workflows, users and data for digital transformation enabled by information systems. The emphasis is placed on how an organization should respond to its business challenges with a strategy and transformational organizational workflows. Students will learn how to design workflows and metrics using Business Process Model and Notation (BPMN) for different organizational and contextual factors. Process simulation software is used to evaluate workflow designs. IS 215 is a prerequisite for this class.
IS 344 | IT AUDITING | 4 quarter hours
(Undergraduate)
Management and boards continue to recognize the importance of effectively managing information technology (IT) assets - to meet business objectives and to thoughtfully manage IT related business risks. This course examines the key principles related to auditing information technology processes and related controls and is designed to meet the ever increasing needs of IT audit and IT governance professionals. In addition, this course aids in the preparation for the Certified Information Systems Auditor (CISA) exam. PREREQUISITE(S): None.

IS 352 | INTRODUCTION TO BUSINESS INTELLIGENCE AND ANALYTICS SYSTEMS | 4 quarter hours
(Undergraduate)
Introduction to systems for business intelligence and analytics applications. The emphasis is placed on understanding end-user needs, technology life cycles, platforms, tools, vendors, and services in the market. Survey of data lake, data warehouse, data discovery, and visualization tools. Methodologies for analysis, design, and implementation of business intelligence and analytics systems. Discussions on data management and alignment between corporate and local-unit needs. Case studies and lab activities to understand the characteristics of tools and their business impact.

IS 356 | SYSTEMS THINKING FOR BUSINESS DYNAMICS | 4 quarter hours
(Undergraduate)
This course introduces students to system thinking and system dynamics modeling for the analysis of organizational strategy and decision making. It will teach how to use systems thinking and modeling to visualize and analyze an organization in terms of the structures and policies that create dynamics and regulate performance. This is a conceptual as well as a hands-on course that will draw on system dynamics modeling and simulation concepts and tools as well as real-world case studies to explain management of organizational dynamics. Learnings from this course can be applied for analyzing organizations in different industries. PREREQUISITE(S): IS 215.

IS 360 | SYSTEMS FOR CLOUD COMPUTING AND BIG DATA | 4 quarter hours
(Undergraduate)
This course surveys the basic system characteristics of cloud-based business applications and large-scale, non-traditional data management technologies such as Hadoop and NoSQL. Key concepts, benefits and challenges, domains of managerial applications are discussed. Students understand firsthand the features of cloud and big data technologies through lab sessions. Students will work within a project team following the principles of project management to analyze the needs of a firm, to propose the functionality of a cloud-based data management application, and to present a detailed implementation plan for the system with its cost-benefit analysis. PREREQUISITE(S): IT 240. IT 240 is a prerequisite for this class.

IS 370 | IT APPLICATIONS IN BUSINESS | 4 quarter hours
(Undergraduate)
An exploration of applications of Information Technology within business and non-profit organizations, with emphasis upon the following topics: ways managers, work groups, and organizations acquire and use information; typical business applications and their deployment in organizations; and information flows within common business systems. Additional topics include the role and structure of supply chains, IT support for Web-enabled enterprises, and global considerations for information system design. Coverage also includes standards for software acquisition, including evaluation of commercial software products. An introduction to the major principles of decision support and expert systems, business intelligence, and knowledge management, as well as risk, security, and disaster recovery within an organizational setting are also covered. PREREQUISITE(S): IS 215 or IS 201.

IS 371 | INTRODUCTION TO IT SYSTEM MANAGEMENT | 4 quarter hours
(Undergraduate)
This course focuses on implementation and post-implementation support for information systems. Topics include testing, deployment, user training, help desk, software upgrades, and staffing for support teams. Case studies and team projects. PREREQUISITE(S): IS 215. IS 215 is the prerequisite for this class

IS 372 | SOFTWARE PROJECT MANAGEMENT | 4 quarter hours
(Undergraduate)
An introduction to the concept and techniques of project management (PM) for a broad range of systems, including those in the web/mobile application development environment. Topics include PM processes, methodologies, communications, resource management, organizational factors, stakeholder management, project manager responsibilities, team building, and risk management. An emphasis is placed on the agile approach and its comparison with the waterfall approach. Tools and techniques for project estimating and scheduling will be presented. Case study and group projects. PREREQUISITE(S): IS 215. IS 215 is the prerequisite for this class.

IS 373 | INTRODUCTION TO ENTERPRISE SYSTEMS | 4 quarter hours
(Undergraduate)
A course on technical and management aspects of enterprise systems. It incorporates hands-on experience on enterprise resource planning (ERP) systems. Topics include: characteristics and selection of ERP systems, ERP implementation, customer relationship management (CRM), supply chain management (SCM), ERP systems administration, cloud computing and ERP and enterprise integration with EPR. PREREQUISITE(S): IS 215. IS 215 is the prerequisite for this class

IS 375 | OBJECT-ORIENTED ANALYSIS AND DESIGN | 4 quarter hours
(Undergraduate)
This course focuses on object-oriented modeling techniques for analysis and design. Emphasis will be on the creation of well-designed, robust and maintainable software systems. UML (Unified Modeling Language) will be examined for modeling the system. Case studies will promote critical-thinking skills as well as provide the foundation for a student project that incorporates the skills attained throughout the quarter. PREREQUISITE(S): IS 215. IS 215 is the prerequisite for this class.
IS 376 | INFORMATION SYSTEMS PROJECT | 4 quarter hours
(Undergraduate)
This senior project course requires students to apply prior learning in project management and systems development lifecycle by developing a complete system from business case, analysis, and design, through implementation strategies. Team project, documentation, presentation, the use of development as well as project management tools will be emphasized. PREREQUISITE(S): IS 372.

IS 372 is the prerequisite for this class

IS 379 | VIRTUAL SOFTWARE TEAMS | 4 quarter hours
(Undergraduate)
Fundamentals of software development in a virtual environment (if possible with students from different countries). Using an open source development environment; working across time, language, and culture; effective use of collaborative tools. PREREQUISITE(S): IS 215 or program development experience.

IS 380 | ESSENTIALS OF TECHNOLOGY ENTREPRENEURSHIP | 4 quarter hours
(Undergraduate)
Introduction to the entrepreneurial process within technology intensive ventures. Roles of entrepreneurs and their start-up teams. Suitable business models and strategies. Legal issues and intellectual property. Financial issues and venture resources. Role of the customer and entrepreneurial marketing. Course will include group case studies of technology entrepreneurial ventures. Students will work in teams to develop a marketing plan and a business plan for a technology-intensive entrepreneurial venture of their choice. Course requires a prior foundational understanding of IT as is typically developed by the start of junior year.

IS 381 | INTEGRATION OF BUSINESS PROCESSES USING ERP | 4 quarter hours
(Undergraduate)
This workshop describes business process integration using the SAP S/4HANA. It introduces students to financial and management accounting, enterprise asset management, procurement, manufacturing, sales and distribution, warehouse management, human resources, and project management components of SAP S/4HANA and how they are integrated.

IS 382 | INTRODUCTION TO LEGAL ISSUES IN INFORMATION TECHNOLOGY | 4 quarter hours
(Undergraduate)
Introduction to the legal standards to which people and organizations are held under laws and regulations that concern computing and information technology. Topics include government and laws, business regulations, healthcare regulations, education regulations, data breach reporting and notification, privacy laws, laws of search and seizure, freedom of speech and association, defamation, cyber crimes, contracts, and intellectual property. PREREQUISITE(S): None.

IS 386 | INTRODUCTION TO CYBERSECURITY LAW | 4 quarter hours
(Undergraduate)
This course introduces a range of topics related to the intersection of law and cybersecurity. Topics include federal and state compliance, contracts, legal duties, theories of civil liability, administrative and criminal prosecutions, evidence, and adequacy of legal remedies.

IS 396 | TOPICS IN INFORMATION SYSTEMS | 4 quarter hours
(Undergraduate)
Specific topics will be selected by the instructor and will vary with each quarter. See syllabus.

IS 398 | INTRODUCTION TO IS MANAGEMENT SEMINAR | 1 quarter hour
(Undergraduate)
This one-credit seminar examines the concepts of information and technology management and career options in this field. Students will assess their own interests and skill requirements for various careers. They will also analyze the impacts of IS trends and emerging technologies on their career choices. All new IS master’s students are required to take this seminar as the first course. PREREQUISITE(S): None

Status as a Graduate student in the Information Systems Program is a prerequisite for this class.

IS 399 | INDEPENDENT STUDY | 1-8 quarter hours
(Undergraduate)
Independent study supervised by an instructor. Independent study form required. Can be repeated for credit. Variable credit. Prerequisite(s): None.

IS 400 | INTRODUCTION TO IS MANAGEMENT SEMINAR | 1 quarter hour
(Graduate)
This one-credit seminar examines the concepts of information and technology management and career options in this field. Students will assess their own interests and skill requirements for various careers. They will also analyze the impacts of IS trends and emerging technologies on their career choices. All new IS master’s students are required to take this seminar as the first course. PREREQUISITE(S): None

IS 411 | INTRODUCTION TO PROGRAMMING FOR BUSINESS APPLICATIONS | 4 quarter hours
(Graduate)
An introduction to the features and characteristics of programming languages for business application systems. Students will learn the basic concepts of programming such as variables, conditions, loops, functions, classes, and libraries by using a few common programming languages. The emphasis is placed on the business contexts and examples of those programming concepts. Tools for different integrated development environment are examined.

IS 421 | SYSTEMS ANALYSIS | 4 quarter hours
(Graduate)
Course focus is on both traditional and object oriented systems analysis, with an emphasis upon developing competency in a wide range of modeling techniques. Specific topics include: overview of the software development environment and project management; project selection, initiation, and planning; determining requirements; process modeling, including DFDs and use cases; logic modeling, including decision tables, sequence diagrams, and activity diagrams; introduction to Entity-Relationship Diagrams. PREREQUISITE(S): None.

IS 422 | SYSTEM DESIGN, IMPLEMENTATION, AND MAINTENANCE | 4 quarter hours
(Graduate)
Course focus is on both traditional and object oriented systems design. Specific topics include: database design, including logical and physical design; Entity-Relationship diagrams, class diagrams, form and report design; interface and dialogue design; design specifications, including structure charts and prototypes; designing for LANs and distributed systems, as well as the Internet; system implementation, including parallel and phased implementation, testing, documentation, and user training; system maintenance, including types of maintenance, controlling and coordinating maintenance requests, and configuration management. Course ends with a multi-week case study applying the principles from both this course and IS 421, Systems Analysis. PREREQUISITE(S): IS 421 and CSC 451.

IS 421 and CSC 451 are prerequisites for this class.
IS 430 | FUNDAMENTALS OF IT PROJECT MANAGEMENT | 4 quarter hours (Graduate)
This course concentrates on monitoring, managing and controlling assets and resources on a single IT project. Topics covered are project methodologies; risk management; procurement and contract management; time and cost estimating; controlling and tracking techniques; quality assurance; testing and audit. Students will use common project management software for resource allocation and balancing. PREREQUISITE(S): None.

IS 431 | DIGITAL PRODUCT MANAGEMENT | 4 quarter hours (Graduate)
This course focuses on the central role of the Product Manager in creating and sustaining compelling products and services throughout the product lifecycle. Special emphasis is placed on the creation and management of intangible technology products and services throughout the entire product management lifecycle. Product managers act as the focal point for value creation within their organizations leading cross functional product activities from the conception of an idea to the ultimate product retirement. PREREQUISITE(S): None.

IS 433 | INFORMATION SECURITY MANAGEMENT | 4 quarter hours (Graduate)
Managing information assets and the security function. Emphasis on managing security-related risk, as well as the process of developing, implementing, and maintaining organizational policies, standards, procedures, and guidelines as they relate to security. Role of the CISO. Identifying and evaluating information assets, threats, and vulnerabilities. Quantitative and qualitative risk analysis, risk mitigation, residual risk, and risk resolution, as they relate to information security. Incident response. Consideration of the role and implementation of security controls during the process of analysis, design, and development. The application of policy development principles to security risk management. Introduction to compliance, as well as the CISSP domains. PREREQUISITE(S): None.

IS 435 | ORGANIZATION MODELING FOR DIGITAL TRANSFORMATION | 4 quarter hours (Graduate)
The course explores contemporary approaches to analyzing and modeling organizational problems, processes, workflow, users and data for digital transformation. The emphasis is on the initial stages of analysis where the root causes of problems are identified, formulated and modeled. Students will acquire an array of modeling skills and be able to prescribe the proper modeling approach based on a variety of organizational and contextual factors. Business process modeling, management and metrics will be covered. Object-oriented and user-centered approaches will be introduced. PREREQUISITE(S): IS 421 or SE 430.

IS 421 or SE 430 is a prerequisite for this class

IS 440 | COLLABORATIVE TECHNOLOGIES FOR LEADING PROJECTS | 4 quarter hours (Graduate)
Study of the process of virtual teaming with emphasis on facilitation of different time project activities and facilitation of same time meetings. Students will learn how small group psychology and group communication theories inform specific behaviors in the design and leadership of meetings. Several meeting types including information briefing, focus group, document writing, decision making, requirements gathering, and teaching/training will be explored. In addition, the course surveys current collaboration technologies and discusses how to select among those technologies usability and fit to purpose of a meeting agenda. DL students may be required to schedule same time sessions with the instructor and other DL students; see current quarter syllabus for more information on this point. PREREQUISITE(S): None.

IS 444 | IT AUDITING | 4 quarter hours (Graduate)
Management and boards continue to recognize the importance of effectively managing information technology (IT) assets - to meet business objectives and to thoughtfully manage IT related business risks. This course examines the key principles related to auditing information technology processes and related controls and is designed to meet the ever increasing needs of IT audit and IT governance professionals. In addition, this course aids in the preparation for the Certified Information Systems Auditor (CISA) exam. PREREQUISITE(S): None.

IS 451 | DATABASE DESIGN FOR INFORMATION SYSTEMS (FORMERLY CSC 451) | 4 quarter hours (Graduate)
Requirement analysis, conceptual design, logical design and implementation of relational databases. Emphasis will be on E-R modeling and E-R mapping, along with basic normalization and SQL for database implementation. PREREQUISITE(S): None (FORMERLY CSC 451)

IS 452 | BIG DATA & THE INTERNET OF THINGS (IoT) | 4 quarter hours (Graduate)
This course surveys system design concepts, techniques, and algorithms in Machine to Machine (M2M), Internet of Things (IoT), and Internet of Everything (IoE). Topics covered include system architecture for big data, sensors and embedded technologies, IoT architecture, consumer vs. industrial IoT, wearable and mobile systems, tracking systems, IoT and big data analytics, market dynamics and entrepreneurial opportunities. Special emphasis is placed on identifying best practices in using big data and IoT through case studies and hands-on exercises. PREREQUISITE(S): None.

IS 455 | ELECTRONIC BUSINESS | 4 quarter hours (Graduate)
An introduction to electronic business. The topics include business models, technologies, business and social impact of e-business. It explores the tools, skills, business and social implications of emerging electronic business. In addition to acquiring basic skills for identifying electronic business opportunities and creating a presence in the online marketplace, the student reexamines fundamental processes of business as they are performed in cyberspace in contrast to the marketplace. This helps them understand changes as the cyberspace grows increasingly important in the global economy. PREREQUISITE(S): None. For Kellstadt students or students pursuing the MS in Business Information Technology only.

Status as a MS-Business Information Technology student or Kellstadt student is a prerequisite for this class.
IS 456 | SYSTEMS THINKING PERSPECTIVE FOR UNDERSTANDING BUSINESS DYNAMICS | 4 quarter hours (Graduate)
This course introduces students to systems thinking and system dynamics modeling for the analysis of business strategy and decision making. Students will learn how to use systems thinking and modeling to visualize and analyze organizations and institutions in terms of the structures and policies that create dynamics and regulate performance. The course will draw on system dynamics modeling and simulation concepts and tools as well as real-world case studies to explain the management of business dynamics. PREREQUISITE(S): IS 421.

IS 421 is a prerequisite for this class.

IS 478 | INFORMATION TECHNOLOGY CONSULTING | 4 quarter hours (Graduate)
This course focuses on how IT consulting works in the industry. The emphasis is on examining the models, techniques, and skill development for providing effective IT consulting services. The course examines the structure of IT consulting markets; leading IT consulting practices; models and approaches for providing internal IT consulting services; sourcing strategies, evaluation of RFPs and response process contract formulation, client relations and project management; knowledge management and collaboration and IT strategies. PREREQUISITE(S): None.

IS 482 | LEGAL RESPONSIBILITIES IN INFORMATION TECHNOLOGY | 4 quarter hours (Graduate)
This course examines the legal standards to which people and organizations are held under laws and regulations that concern computing and information technology. This course is a complement to CNS 477, which focuses on governance policies and business costs. Topics include government and laws, business regulations, healthcare regulations, education regulations, data breach reporting and notification, privacy laws, laws of search and seizure, freedom of speech and association, defamation, cyber crimes, contracts, and intellectual property. PREREQUISITE(S): None.

IS 483 | INFORMATION SERVICES AND OPERATIONS | 4 quarter hours (Graduate)
This course focuses on the operational aspects of information systems in organizations by examining the concepts, tools and techniques available to IS professionals responsible for the delivery of IT services. Topics include the organization of the IT services; the procurement of hardware, software and vendor services; operation of data centers, help desks and user training, the development and use of RFPs (Request for Proposals) and SLAs (Service Level Agreements), the integration of services and operations with application development project needs, and the role of capital and operating budgets. PREREQUISITE(S): Completion of five or more SoC MS level courses is required.
Completion of five or more School of Computing MS level courses is required.

IS 485 | REQUIREMENTS ELICITATION, ANALYSIS, AND SPECIFICATION | 4 quarter hours (Graduate)
This course focuses on the concepts and skills needed to elicit, analyze, specify, and manage requirements for a software or systems level project. Students will learn to identify and work with stakeholders through conducting a variety of requirements gathering techniques including interviewing, surveying, ethnography, and Joint Application Design (JAD) sessions, to identify and analyze requirements conflicts and negotiate solutions, to model requirements and specify them in unambiguous ways, and to manage requirements throughout the software lifecycle using change controls, traceability, and impact analysis techniques. The requirements process will be examined in both traditional and agile environments. Current topics such as requirements for product lines or distributed development teams will also be explored as time permits. A student may not take both SE 482 and IS 485 for credit toward a degree. PREREQUISITE(S): IS 422 or IS 430 or PM 430.
IS 422 or IS 430 or PM 430 are prerequisites for this class

IS 486 | CYBERSECURITY LAW | 4 quarter hours (Graduate)
This course discusses a range of topics related to the intersection of law and cybersecurity. Topics include federal and state compliance, contracts, legal duties, theories of civil liability, administrative and criminal prosecutions, evidence, and adequacy of legal remedies. PREREQUISITE(S): None.

IS 487 | DATA PRIVACY LAW: US & EU | 4 quarter hours (Graduate)
This course surveys both U.S. data privacy law and EU data privacy law. It covers technology concepts/privacy principles relevant to the law. The U.S. portion primarily focuses on a variety of U.S. statutes (e.g., FTC Act, GLBA, HIPAA, FCRA, FERPA, BSA, COPPA, CAN-SPAM, etc.) and some state law. The EU portion particularly focuses on the EU GDPR (General Data Protection Regulation). The course serves as helpful background for CIPP/US and CIPP/E (Certified Information Privacy Professional US and Europe).

IS 500 | INFORMATION TECHNOLOGY LEADERSHIP | 4 quarter hours (Graduate)
Managing people ethically and effectively by applying a broad range of creative approaches to individual and team leadership within an Information Technology context. Leadership methods studied include trait-based, skills-based, situational, contingency theory, path-goal theory, leader-member exchange theory, transformational, psychodynamic, and authentic leadership, as well as team leadership and the international, cultural, and ethical dimensions of leadership. Students assess their leadership styles and design individualized development plans to strengthen existing skills and expand IT leadership capabilities by incorporating additional leadership dimensions. PREREQUISITE(S): IS 430 OR PM 430 OR SE 477.
IS 430 or PM 430 or SE 477 is a prerequisite for this class
IS 505 | BUSINESS CONTINUITY/DISASTER RECOVERY THEORIES AND STRATEGIES | 4 quarter hours
(Graduate)
This course focuses on the knowledge necessary for an organization to prepare for a variety of major disruptions (floods, earthquakes, terrorist attacks, etc.). The goal is survival of the organization and its daily workflow despite major disruption. Students learn to analyze and prioritize risks and determine criticality ratings that are used to determine survival strategies. Students also learn how to organize employees to respond to a major disruption and how to document recovery plans. Course content includes coverage of current industry trends, as well as planning for the survival of Information Technology functions within an organization.

IS 506 | BUSINESS CONTINUITY/DISASTER RECOVERY MANAGEMENT AND TACTICS | 4 quarter hours
(Graduate)
The course prepares students to lead an organization’s business continuity and disaster recovery plans. Students learn the methodology needed to organize this function within an organization, evaluate an organization’s business continuity and disaster recovery program according to established industry standards, and conduct a variety of quick-recovery drills. Students also focus upon industry-related human resources issues, crisis communications, and policies and procedures for setting up a command center. Course content includes coverage of current industry trends, as well as managing the survival of Information Technology functions within an organization. PREREQUISITE(S): IS 505.

IS 505 is the prerequisite for this class

IS 511 | SOCIAL ISSUES OF COMPUTING | 4 quarter hours
(Graduate)
This course aims to provide a broad survey of the individual, organizational, and cultural impacts of computers and to stimulate reflection upon the social and ethical issues provoked by current and projected uses of computers. Some topics include an in-depth look at computers as they relate to workplaces, communities, public policy, legal issues, education, privacy, and moral values. PREREQUISITE(S): NONE.

IS 535 | INFORMATION TECHNOLOGY INVESTMENT FINANCIAL ANALYSIS | 4 quarter hours
(Graduate)
This course focuses on the application of financial analysis and decision-making approaches to aid information technology investment decisions at the operational, project, tactical and strategic levels. Students will learn how to apply a variety of financial methods -- breakeven analysis, present value analysis, profitability index, and return on investment to various IT investment decisions. The course will also address cost benefit analysis, outsourcing, balanced scorecard, and multi-factor scoring, benchmarking, and IT investment portfolio methods. These techniques will prepare students to manage capital budgets, acquisition of system and application software, hardware, personnel, and professional services at project and system levels as well as enterprise investment portfolio. PREREQUISITE(S): SE 477 or IS 565 or ACCT 500 or IS 430 or PM 430 or ECT 455.

SE 477 or IS 565 or ACC 500 or IS 430 or PM 430 or ECT 455 is a prerequisite for this class.

IS 536 | ENTERPRISE CLOUD COMPUTING | 4 quarter hours
(Graduate)
Cloud concepts, architecture, and service management, with particular emphasis upon identifying and analyzing potential business applications of cloud computing. Students will conduct feasibility studies, detailing the advantages and disadvantages of implementing a cloud computing platform for specific applications, with particular emphasis upon financial considerations, business benefits, and security risks. Students will develop the ability to evaluate alternatives and effectively argue in favor of their choices within the cloud computing knowledge domain. They will be able to define, apply, and defend the need for standards and best practices. Students will work within a project team following the principles of project management to design, build, and implement cloud applications. Prerequisite(s): None.

Completion of five or more School of Computing MS level courses is required.

IS 540 | GLOBAL INFORMATION TECHNOLOGY | 4 quarter hours
(Graduate)
A study of the hardware, software, and techniques for using virtual information technologies to support teams working in a distributed, virtual, or global environments. Topics include software survey and evaluation, software deployment within organizational and trans-organizational contexts, trans-national vendor relationships, trans-border data flow, geographically dispersed software development, and integration of diverse technologies. PREREQUISITE(S): Completion of five or more SoC MS level courses is required.

IS 549 | DATA WAREHOUSING | 4 quarter hours
(Graduate)
Introduction to data warehousing and the foundations of understanding the issues involved in building a successful data warehouse. Data warehouse development methodology and issues surrounding the planning of the data warehouse. Data quality and metadata in the data warehouse. Analysis, transformation and loading of data into a data warehouse. Development of the data architecture and physical design. Implementation and administration of the data warehouse. PREREQUISITE(S): CSC 451 or CSC 453 or CSC 455.

CSC 451 or CSC 453 or CSC 455 or DSC 450 is a prerequisite for this class.

IS 550 | ENTERPRISE DATA MANAGEMENT | 4 quarter hours
(Graduate)
This course focuses on the technical concepts and managerial knowledge needed to define, integrate and govern centralized and distributed data for a wide range of application systems used at large, multinational corporations. Topics include data repository, data life cycle, DAMA-DMBOK, data stewardship, data asset valuation, enterprise data architecture, data modeling with meta-data, data security standards, master data, and data quality management. PREREQUISITE(S): CSC 451 or CSC 453 or CSC 455.

CSC 451 or CSC 453 or CSC 455 or DSC 450 is a prerequisite for this class.
IS 556 | AGILE ENTERPRISE PROJECT MANAGEMENT | 4 quarter hours (Graduate)
This course covers how an enterprise coordinates and effectively manages all its IT projects and programs through the IT program management office (PMO) in meeting the enterprise business goals. Students will learn the role of the IT PMO in establishing and maintaining the project and program infrastructure and in assisting project managers, program managers, and the executive steering committee. Students will analyze the role of enterprise business goals in coordinating the delivery of expected program and project benefits, in managing stakeholder expectations, and in establishing the agile PMO governance. PREREQUISITE(S): IS 430 or PM 430.

IS 430 or PM 430 is a prerequisite for this class.

IS 560 | ENTERPRISE SYSTEMS | 4 quarter hours (Graduate)
An introduction to enterprise systems for data and process integration, including ERP systems. Topics include the requirements of enterprise systems, application architecture, tools, and functionality of leading enterprise systems, life cycle and methodologies for systems integration, selection, and implementation strategies. Also addressed are emerging trends for enterprise systems and relationship among component systems. PREREQUISITE(S): Advanced Standing.

IS 565 | SOURCING FOR IT AND INNOVATION | 4 quarter hours (Graduate)
This course covers how organizations can use sourcing for IT services and innovation to achieve cost reduction and leverage external IT talent and expertise to deliver efficient, effective and innovative IT solutions. Topics covered include different types of outsourcing and innovation strategies, innovative sourcing techniques, and innovation and sourcing risk management. (IS 430 or SE 477) is a prerequisite for this class.

IS 568 | IT GOVERNANCE | 4 quarter hours (Graduate)
This course discusses enterprise governance of IT resources (IT Governance). It focuses on the concepts, structures, processes, and models underlying IT governance toward creating value from IT-enabled business investments. Students will also learn IT governance best practices and how to apply them to real-world cases. This course discusses Control Objectives for Information and related Technology (COBIT), Business/IT alignment, IT-enabled values, and organizational functions and processes in support of IT governance. (IS 430 or SE 477) is a prerequisite for this class.

IS 570 | MANAGING CHANGE FOR DIGITAL TRANSFORMATION | 4 quarter hours (Graduate)
This course is targeted towards information systems professionals who are involved in the planning and implementation of large scale, cross-functional enterprise systems for digital transformation. Students will examine the characteristics of technology efforts that change and transform the way people perform their tasks and how the new technology structures the flows of information and decision-making using workflow modeling methods. Through case studies and exercises students gain insights into the elements of successful implementations leading to the preparation of a change management plan. Emphasis is placed on developing mechanisms for communicating and training all affected agents. IS 430 or PM 430 or completion of five or more other SoC MS level courses is a prerequisite for this class; contact instructor or advisor.

IS 574 | BUSINESS INTELLIGENCE AND ANALYTICS SYSTEMS | 4 quarter hours (Graduate)
Introduction to the systems concept of business intelligence and analytics as components of a portfolio of information systems. How business problems can be solved strategically by implementing a portfolio of business intelligence and analytics systems including data lake, data warehouse, data discovery and visualization tools to gain new insights into organizational operations. Detailed discussions of the analysis, design, and implementation of business intelligence and analytics systems, including infrastructure for data management, portfolio management of technology life cycle, and alignment between corporate and local-unit needs. Case studies of application software, cloud resources, change management, as well as technical and social issues.

DSC 441 is a prerequisite for this class.

IS 577 | INFORMATION SYSTEMS POLICIES AND STRATEGIES | 4 quarter hours (Graduate)
This capstone course emphasizes the planning and management of information technologies and related resources at the corporate level. Topics covered include assessment of information technologies, tracking emerging technologies and trends, managing portfolio resources and matching them to business needs, technology transfer, end-user computing, outsourcing, theoretical models, strategic applications and strategic IT planning. Students are encouraged to take this course toward the end of their study. PREREQUISITE(S): Completion of ten or more SoC MS level courses is required.

IS 579 | VIRTUAL SOFTWARE TEAMS MANAGEMENT | 4 quarter hours (Graduate)
Application of project management principles, tools, and techniques to a virtual software development project; management of virtual software teams; planning, executing the plan, monitoring and controlling the development process. Work with project office (PMO) to set templates for reporting and common processes and standards; set milestones and their deliverables; establish communication medium for the virtual team. PREREQUISITE(S): PM 430 or IS 430.

IS 430 or PM 430 is a prerequisite for this class.

IS 580 | TECHNOLOGY ENTREPRENEURSHIP | 4 quarter hours (Graduate)
In-depth examination of the entrepreneurial process within technology intensive ventures. Roles of entrepreneurs and their start-up teams. Suitable business models and strategies. Legal issues and intellectual property. Financial issues and venture resources. Role of the customer and entrepreneurial marketing. Students will analyze and present case studies of technology entrepreneurial ventures. Students will develop a marketing plan and a business plan for a technology-intensive entrepreneurial venture of their choice. PREREQUISITE(S): Completion of the foundation phase.

IS 581 | SAP BUSINESS PROCESS INTEGRATION | 4 quarter hours (Graduate)
This course provides students with the opportunity to utilize and integrate acquired knowledge in information technology for media to an applied audio and video engineering project. Students will work in teams to design, create, and test a real world media technology solution. Completed projects will be presented and evaluated by the class. IS 435 and IS 560 are prerequisites for this class.
IS 590 | INFORMATION SYSTEMS RESEARCH METHODS | 4 quarter hours
(Graduate)
Introduction of information systems (IS) research methods and theories. The course is taught as a seminar course. Both quantitative and qualitative methods are discussed. PREREQUISITES: CSC 424. CSC 424 or DSC 424 is a prerequisite for this class.

IS 596 | TOPICS IN INFORMATION SYSTEMS | 4 quarter hours
(Graduate)
Specific topics will be selected by the instructor and will vary with each quarter. See syllabus.

IS 599 | INDEPENDENT STUDY | 1-8 quarter hours
(Graduate)
Independent study supervised by an instructor. Independent study form required. Can be repeated for credit. Variable credit. Prerequisite(s): None.

IS 690 | RESEARCH SEMINAR | 1-4 quarter hours
(Graduate)
Readings and discussion on current research topics. Students may register for this course no more than twice. (PREREQUISITE(S): Consent of advisor). (variable credit)

IS 696 | MASTER'S PROJECT | 4 quarter hours
(Graduate)
Four credit hours. Students may register for this course only after their advisor has approved a written proposal for their project. Independent study form required. (PREREQUISITE(S): Consent of advisor).

IS 698 | MASTER'S THESIS | 2-4 quarter hours
(Graduate)
Two credit hours. Students may register for this course only after their advisor has approved a written proposal for their thesis. Students must continue to register for this course every quarter after their first registration in it until they complete their project or thesis to the satisfaction of their advisor. They earn two hours of credit for each such registration but only four hours of credit will apply for degree credit. Independent study form required. (PREREQUISITE(S): Consent of advisor). (2 quarter hours)

Information Technology (IT)

IT 130 | INTRODUCTORY COMPUTING FOR THE WEB | 4 quarter hours
(Undergraduate)
An introduction to the Internet, the World Wide Web, and web development for students with a strong interest in technology. Students will create interactive web pages by writing HTML and CSS and by programming in JavaScript. Topics include the origins of the web, the roles and operations of web browsers and web servers, interacting with web applications through forms, and using style sheets to separate document structure and document formatting. PREREQUISITE(S): NONE.

IT 200 | PUTTING YOUR MAJOR TO WORK | 2 quarter hours
(Undergraduate)
This two credit course is designed to complement the student's major field of study. Students will explore connections between their academic course of study and internship and career opportunities. Students will refine their skills in networking, interviewing, developing a personal brand and utilization of social media tools. (2 quarter hours)

IT 202 | CODING FOR AUDIO AND VIDEO | 4 quarter hours
(Undergraduate)
This course serves as an introduction to programming for students interested in studying audio and sound design for the visual image. Students will learn the importance of coding in audio and video applications, how to create and edit scripts, and how to integrate computer programmers into the workflow. POST 110 and POST 124 are prerequisites for this class.

IT 211 | INTRODUCTION TO APPLIED PROGRAMMING | 4 quarter hours
(Undergraduate)
Introduction to application development and problem solving. Basic programming constructs including control structures, I/O functions and object-based programming. Projects include small-scale applications using web-services, file processing, databases and application software. PREREQUISITE(S): IT 130 or IT 202. IT 130 or IT 202 is a prerequisite for this class.

IT 212 | APPLIED OO PROGRAMMING | 4 quarter hours
(Undergraduate)
Introduction to Object-Oriented Programming. Students will use object-oriented programming to integrate systems and applications on multiple platforms, developing and understanding basic distributed applications and how they communicate. PREREQUISITE(S): IT 211. IT 211 is the prerequisite for this class.

IT 223 | DATA ANALYSIS | 4 quarter hours
(Undergraduate)
(Application of statistical concepts and techniques to a variety of problems in IT areas and other disciplines, using a statistical package for simple data analysis. Course topics include descriptive statistics, elementary probability rules, sampling, distributions, confidence intervals, correlation, regression and hypothesis testing. PREREQUISITE(S): MAT 130 or placement. MAT 130 or above or equivalent or Mathematics Diagnostic test placement into MAT 140 is the prerequisite for this class.

IT 228 | ETHICS IN COMPUTER GAMES AND CINEMA | 4 quarter hours
(Undergraduate)
Societies function based on normative ethics utilizing common sense to distinguish between ethical and unethical behavior. Most of us are not aware of the underlying theories when arriving at ethical judgments about right and wrong. However, the fast pace of progress in information technologies and digital entertainment creates an environment in which ethical challenges are particularly complex. In the eyes of many, games and movies are violent, offensive and immoral. This course will concentrate on analyzing the impact of digital entertainment on an individual and society. Implications of certain values embedded in games and movies will be discussed. Elements of the ethical code of conduct for a game or movie creator will be formulated. The issue of balancing individual creativity vs. cultural impact particularly on children will be discussed.

IT 231 | WEB DEVELOPMENT I | 4 quarter hours
(Undergraduate)
Introduction to framework-based web development. Students create interactive, dynamic web sites using a common web architecture and object-based database access. Programming for web development includes control structures, objects, functions, and use of composite data types. Prerequisite: IT 130. IT 130 is a prerequisite for this class.
IT 232 | WEB DEVELOPMENT II | 4 quarter hours
(Undergraduate)
Intermediate framework-based web development. Students design and develop web applications supporting social-networking, content-sharing and functionality for business and organizational needs. Web concepts include AJAX, server-side caching, security threats. Application of object-oriented concepts. PREREQUISITE(S): IT 231 and IT 211.
IT 231 and IT 211 are prerequisites for this class.

IT 238 | INTERACTIVE WEB SCRIPTING | 4 quarter hours
(Undergraduate)
Advanced scripting with javascript and the Document-Object Model (DOM) for creating web pages. Object-oriented principles applied to user interfaces and event handling. Application of Ajax. Use of libraries such as jQuery. PREREQUISITE(S): IT 130.
IT 130 is a prerequisite for this class

IT 240 | INTRODUCTION TO DATABASES | 4 quarter hours
(Undergraduate)
This course will introduce students to the design, implementation and use of desktop databases. Major topics include: modeling using ER diagrams, creating and maintaining a database using a PC-based application, composing and using queries in Structured Query Language, creating and customizing forms and reports, and integrating databases with other sources of data and applications. PREREQUISITE(S): NONE.

IT 251 | INTRODUCTION TO MOBILE APPS | 4 quarter hours
(Undergraduate)
This class will introduce students to the world of mobile application design using an open source cross-platform programming language. HTML5-based web application frameworks, API, functional UI, CSS3, cloud services. PREREQUISITE(S): IT 130.
IT 130 is a prerequisite for this class

IT 263 | APPLIED NETWORKS AND SECURITY | 4 quarter hours
(Undergraduate)
This course introduces the networking and security technologies required to build and maintain a home or small-office network. Networking topics will include client/server application software configuration, network connectivity (cabling, switch and router configuration), basic IP addressing, network address translation and options for public Internet access services. Security topics will include typical threats and responses, firewalls, host hardening, password management and virtual private network (VPNs). The course has a lab component where students apply wired and wireless technologies to design and administer a small network with various applications. PREREQUISITE(S): none.

IT 278 | COMMUNITY-BASED TECHNOLOGY PROJECTS | 4 quarter hours
(Undergraduate)
Project development in cooperation with a community service organization. Students will assess urban community Web needs, develop and implement a Web solution. PREREQUISITE(S): ISM 220 or IS 215 or IT 320.
ISM 220 or IS 215 or IT 320 is a prerequisite for this class.

IT 280 | TEAM PROJECT DEVELOPMENT WITH AGILE | 4 quarter hours
(Undergraduate)
Developing a software solution requires more than just knowing how to program. Software development includes analysis, design, documentation, testing, debugging, deployment and maintenance. These parts of the development process are integrated by following a methodology. Additionally, software development is a highly collaborative activity, where soft skills like effective communication, teamwork, and the ability to give and receive feedback, are keys to a successful software project. This class will cover the fundamentals of team development and the agile methodology for software project in lectures and hands-on labs. Students will work in teams on project and team-building simulations during the quarter.

IT 300 | RESEARCH EXPERIENCE | 1-8 quarter hours
(Undergraduate)
This course involves the exploration of a research topic under the supervision of a research advisor. PREREQUISITE(S): Consent of dean. (variable credit)

IT 313 | ADVANCED APPLICATION DEVELOPMENT | 4 quarter hours
(Undergraduate)
Development of complex applications through the use of APIs. Appropriate selection of common data structures (hash tables, trees, stacks, queues, networks) and design patterns for use in API development. PREREQUISITE(S): IT 212.
IT 212 is a prerequisite for this class

IT 320 | CONTENT MANAGEMENT SYSTEMS | 4 quarter hours
(Undergraduate)
Design and use of Content Management Systems (CMSs) to manage unstructured digital media throughout the enterprise, simplify the publication of Web content, and locate and link content at any level of an organization. Discussion will focus on key users, their roles and responsibilities, collaborative workflow, and versioning. Students will become familiar with available CMSs, design a database-driven Website focusing on separation of the content’s semantic layer from its layout, and implement a system using a variety of open-source software. Prerequisite(s): CSC 241 or IT 211 or IT 231 or IT 238 or CSC 243. CSC 241 or IT 211 or IT 231 or IT 238 or CSC 243 is a prerequisite for this class.

IT 330 | USER INTERFACE DEVELOPMENT FOR INTERACTIVE SYSTEMS | 4 quarter hours
(Undergraduate)
Graphical user interface development for web and desktop applications. Event-driven user controls. Development involves use of a visual integrated development environment (IDE). (IT 231 or IT 238) and (IT 313 or CSC 300) are prerequisites for this class.

IT 338 | WEB DEVELOPMENT FRAMEWORKS | 4 quarter hours
(Undergraduate)
Comparison of advanced web application development frameworks emphasizing MVC architectures and the front-end frameworks that support responsive web interfaces. Development of web applications using current frameworks and code libraries. Research into multiple frameworks with the analysis of framework advantages, disadvantages and implementation issues. PREREQUISITE(S): (IT 212 or CSC 242 or CSC 243) and IT 238.
(IT 212 or CSC 242 or CSC 243) and IT 238 are prerequisites for this class.
IT 394 | SOFTWARE PROJECTS FOR COMMUNITY CLIENTS | 4 quarter hours
(Undergraduate)
Advanced server-side web application servers and services to support
MVC architectures and data and resources required in front-end
frameworks. Development of server-side application services and
APIs using current code libraries and frameworks. Research into
application server frameworks and the comparative analysis of strengths,
weaknesses, opportunities, and problems. PREREQUISITE(S): (IT 212 or
CSC 242 or CSC 243) and IT 238. (IT 212 or CSC 242 or CSC 243) and IT 238 are prerequisites for this
class.

IT 372 | INTRODUCTION TO ANDROID DEVELOPMENT | 4 quarter hours
(Undergraduate)
Introduction to the Android platform and life cycle, including Activities,
Intents, layouts, resource files, and event handlers. Designing,
implementing, and testing GUI applications that use widgets displayed in
a layout, using images and audio files, displaying information from and
storing information to a local database.

IT 313 or CSC 300 and (IT 240 or CSC 355) are prerequisites for this
class.

IT 373 | SYSTEM CONCEPTS | 4 quarter hours
(Undergraduate)
Overview of concurrency, memory management and file system concepts
for operating systems, and web servers. Application of concepts to
system administration. Case studies of common operating systems. Web
server operations. Virtualization. PREREQUISITE(S): IT 313 or CSC 300.

IT 313 or CSC 300 is a prerequisite for this class.

IT 390 | TOPICS IN INFORMATION TECHNOLOGY | 4 quarter hours
(Undergraduate)
Advanced study focusing on a specific area of information technology
each quarter. May be repeated for credit. PREREQUISITE(S): None.

IT 394 | SOFTWARE PROJECTS FOR COMMUNITY CLIENTS | 4 quarter hours
(Undergraduate)
This is the first course in a two-quarter sequence (winter/spring) for
CDM students that satisfies both the Senior Year Capstone requirement
and the Junior Year Experiential Learning requirement. The second
quarter will be IT 395. You will earn four quarter hours of credit for each
quarter for a total of eight quarter hours of credit. You must complete
both quarters to receive any credit. We work with a community service
organization, chosen with help of the Steans Center for Community-
based Service Learning. As a community-based service learning course,
students will have the opportunity to assess urban community needs in
technology, and use problem-solving methods and strategies to make
a substantial difference in an inner-city community group, usually by
developing an application or a web site.

IT 390 and IT 320 are prerequisites for this class.

IT 395 | SOFTWARE PROJECTS FOR COMMUNITY CLIENTS II | 4 quarter hours
(Undergraduate)
This is the continuation of IT 394. IT 394 and IT 395 must be taken as a
sequence in two consecutive quarters. PREREQUISITE(S): IT 394.

IT 394 is a prerequisite for this class.

IT 398 | TOPICS IN GLOBAL INFORMATION TECHNOLOGY | 2-32 quarter hours
(Undergraduate)
This course focuses on current topics in the information and
communications technologies that together support the "networked
world." Sample topics are global software development and deployment,
global data and information management, and cross-cultural project
management for information systems. The course may be offered for
variable credit hours (2, 4, 8, 16, and 32). (variable credit)

IT 403 | STATISTICS AND DATA ANALYSIS | 4 quarter hours
(Graduate)
Introduction to univariate data analysis methods. Descriptive statistics
and data visualization methods. Overview of sampling techniques
for data collection, and introduction to statistical inference methods
for decision making including simple linear regression, estimation
procedures using confidence intervals and hypothesis testing.
PREREQUISITE(S): None.

IT 411 | SCRIPTING FOR INTERACTIVE SYSTEMS | 4 quarter hours
(Graduate)
Introductory scripting for developing interactive web pages. Overview
of HTML and CSS. Elementary programming concepts using JavaScript
for learning control structures, functions, arrays, and object use. User
interface development concepts include event handling and use of
JavaScript libraries such as jQuery. Review of web clients, servers and
architecture. PREREQUISITE(S): None.

IT 432 | WEB ARCHITECTURE | 4 quarter hours
(Graduate)
Overview of Web application development for non-programmers. Hands-
on exposure to the Model, View, Controller (MVC) framework using a
common web framework. Topics include HTML/CSS, data modeling,
authentication, AJAX and security issues. Students create and modify
dynamic web sites. PREREQUISITE(S): IT 411.

IT 411 is a prerequisite for this class.

IT 590 | TOPICS IN INFORMATION TECHNOLOGY | 4 quarter hours
(Graduate)
Advanced study focusing on a specific area of information technology
each quarter. May be repeated for credit. PREREQUISITE(S): Instructor
consent required.

IT 599 | TOPICS IN GLOBAL INFORMATION TECHNOLOGY | 4 quarter hours
(Graduate)
Course Description: This course focuses on current topics in the
information and communications technologies that together support the
"networked world". Samples topics are global software development and
deployment, global data and information management, and cross-cultural
project management for information systems. The course may be offered
for variable (1 to 4) credit hours. PREREQUISITE(S): None.

IT 698 | MASTER'S THESIS | 2-4 quarter hours
(Graduate)
(2 credit hours) Students may register for this course only after their
advisor has approved a written proposal for their thesis. Students
must continue to register for this course every quarter after their
first registration in it until they complete their project or thesis to the
satisfaction of their advisor. They earn two hours of credit for each such
registration but only four hours of credit will apply for degree credit.
PREREQUISITE(S): Consent of advisor. (2 quarter hours)
Institute for Professional Development (IPD)

IPD 230 | THINKING THROUGH MAKING PROGRAM | 0 quarter hour  
(Undergraduate)  
A 13-week professional development workshop applying problem-solving and maker-centric skills toward building physical systems using an array of fundamental skills.

IPD 231 | IOS DEVELOPER PROGRAM | 0 quarter hour  
(Undergraduate)  
A 10-week certificate program covering iOS development for IT professionals and software developers. This program requires a separate application for admission and $40 application fee. Please visit IPD.CDM.DEPAUL.EDU for information on how to enroll.

IPD 232 | FUNDAMENTALS OF R PROGRAM | 0 quarter hour  
(Undergraduate)  
A 6-week certificate program covering R language basics, packages and development environments. This program requires a separate application for admission and $40 application fee. Please visit IPD.CDM.DEPAUL.EDU for information on how to enroll.

IPD 233 | FUNDAMENTALS OF SOFTWARE TESTING PROGRAM | 0 quarter hour  
(Undergraduate)  
A 6-week certificate program covering software testing strategies and tools for software test automation. This program requires a separate application for admission and $40 application fee. Please visit IPD.CDM.DEPAUL.EDU for information on how to enroll.

IPD 234 | CYBERSECURITY RISK MANAGEMENT PROGRAM | 0 quarter hour  
(Undergraduate)  
In this 10-week certificate program, participants devise an operational cybersecurity risk management strategy using the NIST Cybersecurity Framework for a cyber-physical system or a technology of their choice. This program requires a separate application for admission and $40 application fee. Please visit IPD.CDM.DEPAUL.EDU for information on how to enroll.

IPD 235 | INCIDENT RESPONSE AND DIGITAL FORENSICS PROGRAM | 0 quarter hour  
(Undergraduate)  
An 8-week program covering the incident response life cycle, analysis methodology, and the handling of digital forensic evidence for cybersecurity personnel.

IPD 236 | INTRODUCTION TO ARTIFICIAL INTELLIGENCE AND DEEPER LEARNING PROGRAM | 0 quarter hour  
(Undergraduate)  
An 11-week certificate program designed for data scientists, analytics professionals, and other IT professionals who want to understand the fundamental principles of Artificial Intelligence and Deep Learning and be able to apply them to their business. This program requires a separate application for admission and $40 application fee. Please visit IPD.CDM.DEPAUL.EDU for information on how to enroll.

IPD 239 | AUTOMATED SOFTWARE TESTING PROGRAM | 0 quarter hour  
(Undergraduate)  
A 10-week certificate program covering software testing strategies and tools and techniques for software test automation. The program is ideally suited for technical professionals with some programming experience. This program requires a separate application for admission and $40 application fee. Please visit IPD.CDM.DEPAUL.EDU for information on enrollment.
In this course, we introduce the core issues associated with development for iOS mobile devices. Students learn a platform’s IDE, frameworks, view, menu, controllers, graphics, audio, and more. Understanding the device’s taps, touch, multi-touch, gestures, and accelerometers are just a few of the interactions the class will cover. User data interactions, internet conductivity, persistent storage, and iCloud retrieval will be introduced. The course is designed to introduce the basics for business mobile applications.
IPD 363 | SQL SERVER DATABASE ADMINISTRATION PROGRAM | 6 quarter hours
(Undergraduate)
An 11-week in-depth certificate program covering database administration using Microsoft SQL Server. This program requires a separate application for admission and $40 application fee. Please visit IPD.CDM.DEPAUL.EDU for information on how to enroll. (6 quarter hours)

IPD 370 | ADVANCED SQL PROGRAM | 1.5 quarter hours
(Undergraduate)
A two-week certificate program covering advanced SQL. This program requires a separate application for admission and $40 application fee. Please visit IPD.CDM.DEPAUL.EDU for information on how to enroll. (1.5 quarter hours)

IPD 382 | JAVA DEVELOPER PROGRAM | 10 quarter hours
(Undergraduate)
A ten-week comprehensive certificate program covering object-oriented applications development using Java for programmers. This program requires a separate application for admission and $40 application fee. Please visit IPD.CDM.DEPAUL.EDU for information on how to enroll. (10 quarter hours)

IPD 441 | BIG DATA USING SPARK PROGRAM | 4 quarter hours
(Graduate)
An 11-week program covering Apache Spark and how it fits with Big Data. This program requires a separate application for admission and $40 application fee. Please visit IPD.CDM.DEPAUL.EDU for information on how to enroll.

IPD 447 | BIG DATA USING HADOOP PROGRAM | 4 quarter hours
(Graduate)
A 11-week certificate program covering the Apache Hadoop framework and how it fits with Big Data. This program requires a separate application for admission and $40 application fee. Please visit IPD.CDM.DEPAUL.EDU for information on how to enroll.

IPD 451 | BIG DATA AND NOSQL PROGRAM | 4 quarter hours
(Graduate)
A 11-week certificate program covering popular NoSQL databases and how they fit with Big Data. This program requires a separate application for admission and $40 application fee. Please visit IPD.CDM.DEPAUL.EDU for information on how to enroll.

IPD 452 | IPV6 PROGRAM | 4 quarter hours
(Graduate)
A ten-week online certificate program providing comprehensive coverage of IPv6 technologies and strategies for transitioning enterprise networks to IPv6. This program requires a separate application for admission and $40 application fee. Please visit IPD.CDM.DEPAUL.EDU for information on how to enroll.

IPD 460 | SQL SERVER BUSINESS INTELLIGENCE PROGRAM | 4 quarter hours
(Graduate)
An 11-week in-depth certificate program covering Microsoft SQL Server analysis services, integration services, and reporting services. This program requires a separate application for admission and $40 application fee. Please visit IPD.CDM.DEPAUL.EDU for information on how to enroll.

IPD 463 | SQL SERVER DATABASE ADMINISTRATION PROGRAM | 4 quarter hours
(Graduate)
An 11-week certificate program covering database administration using Microsoft SQL Server. This program requires a separate application for admission and a $40 application fee. Please visit IPD.CDM.DEPAUL.EDU for information on how to enroll.

IPD 500 | TASTE OF COMPUTING PROFESSIONAL DEVELOPMENT | 4.5 quarter hours
(Graduate)
The goals of this course are to: work collaboratively with peers to implement an inquiry-based curriculum in computer science; prepare to teach culturally-relevant foundational computing knowledge with concrete instructional strategies; and, develop a community of practice in the classroom with an interdisciplinary approach to problem-solving. (variable credit)

Integrative Learning (IN)

IN 117 | ART IN CHICAGO | 2 quarter hours
(Undergraduate)
This course centers on two distinctive but very different resources for art studies in Chicago: the Terra Museum of American Art and the Museum of Contemporary Art (MCA). The Terra Museum focuses mainly on 19th and 20th century American art, especially the luminous landscapes of American Impressionists. The MCA concentrates on the last 50 years in art, from surrealism through pop art, earth art, video art, and new developments reaching all the way up to today. Both museums are expanding, presenting students with opportunities to take part in museum tours, talks, publications, and lecture series. (2 quarter hours)

IN 200 | GUIDED INDEPENDENT STUDY:ADVANCED | 2 quarter hours
(Undergraduate)
Guided Independent Study. Advanced (2 quarter hours)

IN 231 | EXPLORING CHICAGO POLITICS | 2 quarter hours
(Undergraduate)
This Faculty Designed Independent Study (FDIS) will introduce SNL students to Chicago’s political institutions: City Hall, the city’s system of 50 wards, its current aldermen, its city council, its mayor, its elections, hot issues, and its raucous history of scandals and reform movements. Additionally, students will examine contemporary political/social issues which come before the current Mayor and City Council during the Quarter.

IN 233 | THE ETHNIC MUSEUMS OF CHICAGO: CULTURAL HISTORIES | 2 quarter hours
(Undergraduate)
This course offers students opportunities to explore, compare and utilize some of the fascinating ethnic museums of Chicago devoted to Polish, Irish, Jewish, Mexican and African-American culture. Students will visit the DuSable Museum of African American History, the Mexican Fine Arts Center, the Polish Museum of America and the Spertus Museum of Judaica and be encouraged to take advantage of their talks, classes, special exhibits, workshops, community events.
IN 238 | THE JUVENILE COURT SYSTEM | 2 quarter hours  
(Undergraduate)  
The text in this course provides background and content needed to understand and engage in discussion regarding the Juvenile Court in Illinois. It provides us with an opportunity to examine the strengths and weaknesses of this special court. Topics included in the study are 1) the history of the court, 2) how race has shaped the workings of the court, 3) the part politics has played over the 100+ years of the court, 4) how the court’s legal decisions determine the long term consequences on the lives of juveniles and society in general, 5) the difference between the juvenile court and the adult court, 6) how the court handles dependent children, 7) what is offered by the court for disabled children, and 8) the advantages and disadvantages of being tried in juvenile court rather than in the adult court.  
LL 250 is a prerequisite for this class.

IN 243 | POST-TRAUMATIC SLAVE SYNDROME AND ITS AFFECTS | 2 quarter hours  
(Undergraduate)  
This FDIS seeks to inform students about the nature of trauma, and the impact of post-traumatic slave syndrome (PTSS) on African-American life and culture. In the context of this course, both of these phenomena are associated with 250 years of U.S. chattel slavery, followed by decades of de jure and de facto racial discrimination. It is a subject that has historical, psychological and sociological implications and thus is a must for students pursuing undergraduate and/or graduate work in these areas. With this primary goal in mind, students will be asked to review one of two texts on the subject, Joy DeGruy-Leary’s Post Traumatic Slave Syndrome: America’s Legacy of Enduring Inquiry and Healing or Thom Burrell’s Brainwashed: Challenging the Myth of Black Inferiority, along with selected readings where appropriate.

IN 249 | NEW YORK: AN HISTORICAL OVERVIEW | 2 quarter hours  
(Undergraduate)  
This Faculty Designed Independent Study (FDIS) encourages students to study the history of one of our nation’s oldest and most vibrant cities: New York City, including its five boroughs: Manhattan, the Bronx, Brooklyn, Staten Island, and Queens. The readings associated with the course provide a skeletal history of the city’s nearly four hundred years. Students are then asked to read a series of articles that elaborate on key historical events and/or eras, i.e. the city’s role in the American Revolution, the Great Depression, the impact of deindustrialization and suburbanization, and development of art and culture across different epochs, among other areas. Students are finally asked to supplement readings and a major homework assignment with a five-page paper that mirrors the spirit of their competence. The collection of readings and video presentations offer a fascinating, insightful, and fun look at one of the most interesting and intriguing American metropolises.

IN 264 | VOICES AND VISIONS: A TELEVISION COURSE IN MODERN POETRY | 2 quarter hours  
(Undergraduate)  
Students will use the PBS series “Voices & Visions” as an introduction to the lives and writing of several American poets from Walt Whitman to Sylvia Plath. They will concentrate further on the writings of at least one poet and learn to appreciate and interpret that work, gaining insight into the poet’s vision, techniques, and message.

IN 270 | WRITERS IN 1920’S AMERICA | 2 quarter hours  
(Undergraduate)  
The 1920’s was a marvelous decade of social change and artistic growth. H.L. Mencken and George Jean Nathan were significant literary critics. Sinclair Lewis, Willa Cather, F. Scott Fitzgerald, Ernest Hemmingway were major novelists. The New Yorker, and the Algonquin Circle (sometimes known as the “Vicious Circle”), with Dorothy Parker and the humorist Robert Benchley, enlivened the literary scene. This class will explore the American literary experience of the 1920’s, and share skills of literary and historical interpretation.

LL 250 is a prerequisite for this class.

IN 271 | STYLES AND MEANING IN JAZZ HISTORY | 2 quarter hours  
(Undergraduate)  
Jazz is a unique American art form which draws on a variety of influences, the skill and creativity of the individual artist, and, in many instances, the collective imagination of a group of performers. This course will explore both the individual styles within jazz as well as the role this art has played in the transmission of culture and the expression of values. Through directed listening, reading, and consultation with the instructor, students will develop the ability to recognize forms and distinctions among both various styles and performers in the jazz idiom.

IN 299 | BLUES AND CHICAGO | 2 quarter hours  
(Undergraduate)  
The blues are a feeling, a form, and a rich history that has influenced music from jazz to pop to the Rolling Stones. This course studies the blues with particular attention to Chicago’s role in the music. Muddy Waters, Willie Dixon, and Buddy Guy are among the figures included along with readings, CDs, tapes, and visits to both a blues museum and a live blues performance.

IN 307 | INTEGRATIVE LEARNING | 2 quarter hours  
(Undergraduate)  
In this course, students explore the value and practice of being an integrating thinker in today’s increasingly complex world. Students are guided to draw connections among the categories and disciplines of liberal learning. Students will develop and demonstrate this ability by considering one phenomenon, problem or event through the lenses of at least two different approaches to creating and expressing knowledge. They will ask questions such as, what is knowledge? How is knowledge created? What are its sources? How can it be expressed? How is knowledge accorded value or privilege in a particular culture or society? To meet upper-division expectations, students synthesize complex ideas, assess significant research in the field, and articulate original perspectives. Prerequisite: Research Methods.

LL 300 or LL 301 is a prerequisite for this class.

IN 352 | EYES ON THE PRIZE: A TELEVISION HISTORY OF THE AMERICAN CIVIL RIGHTS MOVEMENT | 2 quarter hours  
(Undergraduate)  
The American Civil Rights Movement was one of the most profound social movements in U.S. history. It significantly altered the nation’s social structure and self-understanding and liberated a people from disenfranchisement. This course looks at the high points along the road to social justice for African-Americans and the associated changes that resulted in the legal, social, economic, and political systems of the land. Students will trace key developments from the 1954 Supreme Court ruling that integrated schools to our current racial situation by watching the award-winning PBS series and reading a significant book on the topic. LL 250 is a prerequisite for this class.
IN 360 | USER-CENTERED EVALUATION | 4 quarter hours
(Undergraduate)
Overview of user research and usability evaluation methods. User research includes interviews, profiles and scenarios. PREREQUISITE(S): IM 210.

IM 220 | INTERACTIVE MEDIA I | 4 quarter hours
(Undergraduate)
This course applies interactive media principles for a variety of contexts with a goal of exploring relative merits among common interaction paradigms. Based on assessed needs and intended functionality, students will create working prototypes that demonstrate a range of design patterns, particularly those with a high level of interactivity such as rich internet applications, games, and visual simulations. Emphasis is given to visual design principles and aesthetics for creating interesting and engaging interactive experiences. PREREQUISITE(S): ANI 105.

IM 222 | INFORMATION VISUALIZATION | 4 quarter hours
(Undergraduate)
This course discusses the basic problems and techniques of visualizing quantitative and qualitative data. Topics include: perception, types of information, representation of univariate and multivariate data and relational information, analysis of representations, presentation, and dynamic and interactive visualizations. Students will create visualizations using graphical software PREREQUISITES: LSP 120.

IN 368 | LEARNING HISTORY AT THE MUSEUM | 2 quarter hours
(Undergraduate)
This course encourages students to examine and think critically about how historical knowledge is constructed and presented. Museums, the subject of this course, are an excellent place to conduct such investigations. The political nature of museums beckons us to think and study even more about how information is transmitted in what, as we learn, is a very significant educative arena. Our journey begins with some quotes regarding museums, which are culled from one of the required readings by art historian Brian Wallis.

Interactive Media (IM)

IM 208 | VIRTUAL WORLDS AND ONLINE COMMUNITIES | 4 quarter hours
(Undergraduate)
Environments such as social networking sites, multiplayer online games and other online communities are becoming an increasingly large part of how we work, play, and learn. This course introduces the fundamentals for the interdisciplinary study of cyberculture and online social behavior. By examining core scholarship in this area, together with analyzing an existing virtual world, game, or online community, students will learn to research and understand new technologically-enabled social forms as they are emerging. PREREQUISITE(S) WRD 104.

IM 210 | INTRODUCTION TO HUMAN-COMPUTER INTERACTION | 4 quarter hours
(Undergraduate)
This course familiarizes students with the user interface development process, including user and task analysis, interaction design, prototyping and evaluation. Students study human perception, cognition and motor abilities as they relate to the design of interactive systems. In a series of projects, students design and revise prototypes as they apply a user-centered design process. Emphasized topics include user profiles, information architecture and usability testing. Students provide written analysis of their research and process. PREREQUISITE(S): None.

IM 220 | INTERACTIVE MEDIA I | 4 quarter hours
(Undergraduate)
This course applies interactive media principles for a variety of contexts with a goal of exploring relative merits among common interaction paradigms. Based on assessed needs and intended functionality, students will create working prototypes that demonstrate a range of design patterns, particularly those with a high level of interactivity such as rich internet applications, games, and visual simulations. Emphasis is given to visual design principles and aesthetics for creating interesting and engaging interactive experiences. PREREQUISITE(S): ANI 105.

IM 222 | INFORMATION VISUALIZATION | 4 quarter hours
(Undergraduate)
This course discusses the basic problems and techniques of visualizing quantitative and qualitative data. Topics include: perception, types of information, representation of univariate and multivariate data and relational information, analysis of representations, presentation, and dynamic and interactive visualizations. Students will create visualizations using graphical software PREREQUISITES: LSP 120.

IN 360 | USER-CENTERED EVALUATION | 4 quarter hours
(Undergraduate)
(Formerly HCI 360) Overview of user research and usability evaluation methods. User research includes interviews, profiles and scenarios. Usability evaluation methods include expert inspections and usability testing. PREREQUISITE(S): IM 210.
IM 394 | HUMAN-COMPUTER INTERACTION CAPSTONE COURSE | 4 quarter hours  
(Undergraduate)  
(Formerly HCI 394) Provides an opportunity for students to apply all of the skills they have learned on one comprehensive project. Multi-disciplinary teams design, evaluate, and implement a user interface intensive project. Students prepare written documents describing their activities and present the final results to the class. (PREREQUISITE(S):Senior standing).

Interdisciplinary Commerce Studies (ICS)

ICS 200 | INTRODUCTION TO BUSINESS | 4 quarter hours  
(Undergraduate)  
This course is designed for non-Commerce majors who want a minor in business. The course will help the student develop an understanding of the role of the major functional areas of business, as well as ethical considerations, the globalization of business and the role of entrepreneurship. Considerations will be given to the possible career opportunities in each of the functional areas studied. Undergraduate Business students (COMM, UNCOM, GPCOM) are restricted from registering for this class.

ICS 201 | PERSONAL FINANCIAL DECISION MAKING | 4 quarter hours  
(Undergraduate)  
Students will be exposed to a wide variety of money-related topics, with an aim to familiarize the participants with everyday financial issues.

ICS 350 | INTERNATIONAL BUSINESS SEMINAR | 4 quarter hours  
(Undergraduate)  
This foreign study course is meant to introduce the student to the world of international life and business as it is today. The course provides students the opportunity to visit and study foreign commercial enterprises on-site. Additional emphasis is placed on understanding overseas cultures, self-reference criteria, and the fact that people around the world can maintain/develop hopes and dreams within their own lifestyle even though it may differ from others’. Most courses in this group will count for liberal studies credit as an experiential learning course. See the Director of the Driehaus Center for International Business or the College of Commerce undergraduate office for additional information. Registration with the Driehaus Center is required. International Business Seminars may not be taken Pass/Fail.

ICS 392 | SENIOR SEMINAR | 4 quarter hours  
(Undergraduate)  
A variety of senior capstone seminars are offered every term. These seminars focus on specific content areas reflecting a wide range of non-business issues that are relevant to business in contemporary society. The learning experience enables students to see the world differently through reflections and interactions, encourages them to develop a broader perspective on how and where business fits in society, and prepares them to communicate and express that perspective orally and in writing.  
Senior standing is a prerequisite for this class.

ICS 394 | ENTREPRENEURSHIP STRATEGY | 4 quarter hours  
(Undergraduate)  
This course is an overview of strategic management applied to entrepreneurial enterprises. General business management problems integrating marketing, accounting, finance and management functions are analyzed from the perspective of the CEO or entrepreneur concerned with start-up and planning of a new venture. The case method is used in this course and real "live" cases may be analyzed. The entrepreneurial process is investigated, including entrepreneurial characteristics, trends in the small business sector of the global economy, start-up and growth strategies and nurturing creativity in organizations. Focus is placed on either a consulting project with a small business or community organization, which may require time outside of class for the project, or on case studies.  
(FIN 290 or FIN 300 or FIN 310 or FIN 317), MGT 300, MKT 310 and senior standing are prerequisites for this class.

ICS 395 | MANAGEMENT STRATEGY | 4 quarter hours  
(Undergraduate)  
Management strategy is a course which synthesizes the functional business activities into a general management perspective of the business enterprise. This course presents a conceptual framework for understanding the operation of the firm within the global business environment. Corporate strategy is examined from the perspective of: strategic choice, the link between strategy and organization, and the management of strategic change. Examples will be drawn from service, manufacturing, and not-for-profit organizations. The course emphasizes the use of group decision-making, self-directed work teams, and formal group reports and presentations.  
MGT 300, MKT 310 and (FIN 310 or FIN 300 or FIN 317) are prerequisites for this class.

ICS 396 | HOSPITALITY STRATEGY | 4 quarter hours  
(Undergraduate)  
Hospitality strategy is a capstone course designed to expose students to a strategic perspective on issues that concern the firm as a whole. This viewpoint is integrative in that it draws on concepts from the functional disciplines (i.e. Marketing, Finance, Accounting, Operations) in the diagnosis, analysis and resolution of complex business situations. Students will read, discuss and apply a body of theory and techniques from the field of strategic management. The course emphasizes the development of practical problem solving skills. Corporate strategy is examined from the perspective of: strategic choice, the link between strategy and organization, and the management of strategic change. Examples will be drawn from various hospitality operations around the world. The course emphasizes the use of group decision-making, self-directed work teams, and formal group reports and presentations.  
(FIN 300 or FIN 310), MGT 300, MKT 310 and Senior standing are prerequisites for this class.

ICS 398 | SPECIAL TOPICS | 4 quarter hours  
(Undergraduate)  
Special Topics. Content and format of this course is variable. Subject matter will be listed in the university class schedule. These courses will be used for a variety of course content and delivery methods including the Foreign Study Seminar Series.

ICS 399 | INDEPENDENT STUDY | 4 quarter hours  
(Undergraduate)  
Available to students of demonstrated capability for intensive work in interdisciplinary studies. (variable credit)  
Junior standing with at least 88 cumulative units is a prerequisite for this class.
Interdisciplinary Studies (IDS)

IDS 497 | INDEPENDENT STUDY (NON-CAPSTONE) | 1-4 quarter hours (Graduate)
Independent study in an area that does not lead directly into the thesis or capstone. Students may also register for this course on a topic indirectly related to their thesis or capstone if they will subsequently take IDS 498, in which the student directly prepares to write the Integrating Project/Thesis. The MALS and IDS Program requires that students taking independent studies follow a specified format of meeting frequency, activities, and scholarly production. This format is available on the program web site or from the MALS and IDS office. Registration is by permission of the Director of the MALS and IDS Program and the instructor of the independent study.

IDS 498 | INDEPENDENT STUDY [CAPSTONE] | 1-4 quarter hours (Graduate)
Independent study undertaken as preparation for thesis or practicum capstone options. This course is optional preparation for IDS 499, Capstone. The MALS and IDS Program requires that students taking this course follow a specified format of meeting frequency, that they produce a review of literature related to their thesis or practicum, an annotated bibliography, and the required Formal Proposal for the thesis or practicum. Registration is by permission of the Director of the MALS and IDS Program and the permission of the instructor who serves as the thesis or practicum director.

IDS 499 | CAPSTONE | 4 quarter hours (Graduate)
Capstone for students doing a thesis, practicum or enhanced portfolio essay. Students may register for this course after the Formal Proposal for the thesis or practicum, or the Enhanced Portfolio Essay Proposal, has been approved. Students are normally expected to complete their capstone projects within the quarter in which they take this course. This course carries four hours of credit. Registration is by permission of the Director of the MALS and IDS Program and the permission of the instructor who serves as the student's capstone director.

IDS 501 | CANDIDACY MAINTENANCE | 0 quarter hour (Graduate)
This 0-credit hour course is available to graduate students who are not registered for a course in a given quarter but need to maintain active university status. Enrollment in this course is limited to three quarters and requires permission of the graduate director. Enrollment in this course allows access to the library and other campus facilities. This course does not carry an equivalent enrollment status and students in it are not eligible for loan deferment or student loans. This course is not graded. (0 credit hours)

IDS 502 | CANDIDACY CONTINUATION | 0 quarter hour (Graduate)
This 0-credit hour course is available to master's degree candidates who are actively working toward the completion of a thesis, project, or portfolio. Enrollment in this course is limited to three quarters and requires thesis/project advisor and graduate director approval and demonstration to them of work each quarter. Enrollment in this course allows access to the library and other campus facilities. This course carries and requires the equivalent of half-time enrollment status. The student may be eligible for loan deferment and student loans. This course is graded as pass/fail. (0 credit hours)

Interdisciplinary Studies Program (ISP)

ISP 100 | THE NATURE OF SCIENCE | 4 quarter hours (Undergraduate)
The Nature Of Science (Cross-listed As PHY 100)

ISP 220 | INTERACTIONS OF SCIENCE & TECHNOLOGY | 4 quarter hours (Undergraduate)
INTERACTIONS OF SCIENCE & TECHNOLOGY.

ISP 245 | LIFE IN THE UNIVERSE | 4 quarter hours (Undergraduate)
Life In The Universe.

ISP 300 | SELECTED SEMINAR TOPICS | 4 quarter hours (Undergraduate)
Offered each quarter, the topics of the junior seminar vary. Each offering, however, builds upon concepts introduced in a previous core course and involves a research project. Cross-listed as HON 300. Variable credit.

ISP 330 | PEER EDUCATION SERVICE LEADERS I | 2 quarter hours (Undergraduate)
This course is designed to prepare service immersion trip leaders and to promote their development as socially responsible leaders. The focus is on foundational theory and developing transferable life skills related to reflective theory and practice, Vincentian concepts of service, and peer education. Students must speak with their advisor to learn how this course may be applied to help satisfy their JYEL requirement.

ISP 331 | PEER EDUCATION SERVICE LEADERS II | 2 quarter hours (Undergraduate)
Students will apply the theories and practices learned in ISP 330 to their service immersion groups. Through experiential, interactive, academic and reflective activities students will continue reflection on Vincentian service and their leadership roles. Students must speak with their advisor to learn how this course may be applied to help satisfy their JYEL requirement.

ISP 390 | SPECIAL TOPICS | 2-4.5 quarter hours (Undergraduate)
Variable credit.

ISP 392 | INTERNSHIP | 1-12 quarter hours (Undergraduate)
Internship.

ISP 399 | INDEPENDENT STUDY | 1-4 quarter hours (Undergraduate)
Variable credit.

International Business (IB)

IB 500 | GLOBAL ECONOMY | 4 quarter hours (Graduate)
This course is designed to be an introduction to the economic environment in which businesses operate. With the increasing interdependence of national economies and the growing role of global enterprises, the understanding of international economic issues is vital to decision-makers. The material covered will include both socio-cultural aspects and economic and financial dimensions of global business. Students should obtain a grasp of the basic theory as well as a knowledge of the major current issues in the global economy. (FORMERLY ECO 556)
IB 505 | GEOPOLITICAL AND CULTURAL ISSUES IN INTERNATIONAL BUSINESS | 4 quarter hours (Graduate)
Analysis of major geographical and cultural conditions in those countries most involved in U.S. foreign trade. Guest lectures, comprehensive maps and pertinent media presentations supplement weekly class discussion.

IB 520 | INTERNATIONAL TRADE THEORY AND POLICY | 4 quarter hours (Graduate)
Modern theories of international trade: classical theory of comparative advantage, factor proportions theory, factor price equalization, application of welfare economics to international trade, including regional economic integration, commercial policy and tariff problems.
FIN 555 is a prerequisite for this class

IB 521 | INTERNATIONAL MACROECONOMICS | 4 quarter hours (Graduate)
This course analyzes traditional macroeconomic issues in a framework that explicitly allows for international trade and capital flows. Topics covered include exchange rate and balance of payments determination, the impact of international trade and capital mobility on domestic monetary and fiscal policy, fixed vs. floating exchange rate systems, exchange rate overshooting and other topics. Cross-listed as ECO 558.

ECO 509 is a prerequisite for this class

IB 525 | ECONOMICS OF DEVELOPING COUNTRIES | 4 quarter hours (Graduate)
This course reviews models of economics development and some of the key issues in economic development including agricultural and rural development, population, economic growth, the role of government, health, education, income distribution, trade regime and policy, international capital flows and the environment, international trade and foreign resource flows. The course integrates country studies of selected developing economies and regions, cross-country statistical studies and theoretical tools drawn from the fields of microeconomics, macroeconomics, and international trade.
FIN 555 is a prerequisite for this class

IB 526 | COMPARATIVE ECONOMIC SYSTEMS | 4 quarter hours (Graduate)
A study of the contrasting theories of socialism and capitalism.
FIN 555 is a prerequisite for this class

IB 530 | INTERNATIONAL FINANCE | 4 quarter hours (Graduate)
International Finance integrates the financial activities, institutions, and multinationals of the global finance arena. In addition to extending the tools of financial analysis to an international setting, the course studies the strategies available to a multinational because of operations in multiple countries. Topics include foreign currency and political risk, capital budgeting in a multinational setting, and cash flow management between countries.
FIN 555 is a prerequisite for this class

IB 540 | INTERNATIONAL MANAGEMENT | 4 quarter hours (Graduate)
The objective of this course is to develop clear awareness of the international business operations, practices and environment. It provides the concepts, methods and tools necessary to face the global challenges in international management. The objective is met through lectures, classroom discussions, library assignments and research work. Students will learn the effective use of the international business references. By the end of the course, they are expected to have developed a high level of competency in acquiring, understanding, analyzing and synthesizing international management information from international business directories, databases and CD-ROMs.

IB 545 | AREA STUDIES IN INTERNATIONAL MANAGEMENT | 4 quarter hours (Graduate)
In-depth analysis of the economic and cultural aspects of doing business in a particular region, e.g. Western Europe, Middle East, Japan, etc. The course focuses on the region’s business relations with the United States, its trade and management practices and the successful conduct of business negotiations. The area under consideration will vary from quarter to quarter in order to cover regions of particular interest to our students and the business community of Chicago.

IB 550 | INTERNATIONAL MARKETING | 4 quarter hours (Graduate)
The differences between markets and distribution systems in various countries are explored. By emphasizing the social and economic factors causing these differences a sound understanding of and empathy with different international marketing problems are developed. Analyses are made of the organization of trade channels in various cultures, of typical government policies towards international trade in countries at different stages of development, and of international marketing research, advertising, and exporting. Offered Variably.
MKT 555 is a prerequisite for this class.

IB 560 | GLOBAL STRATEGIC FINANCIAL ANALYSIS | 4 quarter hours (Graduate)
This course concentrates on each student’s own career goals by focusing on cases of well-known financial successes and failures in the global business world. It enables students to become intelligent users (readers) of financial reporting in a global environment. Students will learn to identify key relationships in the statements to strategy of high performance companies and to make critical judgments underlying the elements and valuations in the financial statements. Students will study integrated reporting, corporate governance, and sustainability accounting. The course is a useful elective for MSA, MACC and MBA programs.
ACC 500 or ACC 502 or equivalent, is a prerequisite for this course.

IB 750 | INTERNATIONAL BUSINESS SEMINAR I | 4 quarter hours (Graduate)
Off-campus seminar, usually one to three weeks, providing exposure to international business cultures. IB 755 is a co-requisite for this class.

IB 755 | INTERNATIONAL BUSINESS SEMINAR II | 4 quarter hours (Graduate)
Some of the International Business Seminars are offered for eight rather than four credits. Students are ordinarily required to complete an in-depth research paper in an international business area approved by the director of the seminar. Information gathered during the seminars with business and governmental organizations must be incorporated into the research paper. IB 750 is a co-requisite for this class.
IB 798 | SPECIAL TOPICS | 4 quarter hours  
(Graduate)
Content and format of the course are variable. An in-depth study of current issues. Subject matter will be indicated in class schedule. Offered Variably.

IB 799 | INDEPENDENT STUDY | 4 quarter hours  
(Graduate)
Available to graduate students of demonstrated capability for intensive independent work in international business.

**International Studies (INT)**

INT 100 | INTRODUCTION TO INTERNATIONAL STUDIES | 4 quarter hours  
(Undergraduate)
This course introduces students to contemporary international politics and the social theory that international studies scholars use to make sense of those politics. As an interdisciplinary field, students learn about international studies approaches that connect with history, geography, anthropology, economics and political science. Students critically engage with a set of global issues -- environmentalism, violence, migration, law, etc. -- that are selected by the course instructor. The course aims to present students with a general understanding of problems, approaches, and solutions to contemporary global issues.

INT 150 | GLOBAL CONNECTIONS | 4 quarter hours  
(Undergraduate)
This course is intended for non-majors who are looking to add an international perspectives course to their study. It looks at the relationships between people living across the globe. Formerly INT 300.

INT 200 | INTRODUCTION TO POLITICAL ECONOMY | 4 quarter hours  
(Undergraduate)
INT 200 serves as a bridge between economics and political economy. The course acquaints students with the standard theories of international trade and international monetary systems and introduces them to the interdisciplinary approaches that distinguish political economy from economics.

INT 201 | THE EVOLUTION OF THE MODERN NATION STATE | 4 quarter hours  
(Undergraduate)
This course focuses on the complex relationship between race, gender, ethnicity and nationality and explores how this relationship shapes the evolution of the modern state. The historical consolidation of the nation state and the development of national institutions are analyzed, using examples from both 19th- and 20th-century Europe and the contemporary Third World. This course is the first in the required three-course sequence. For that reason, it is open to declared majors and minors only. Other students may take the course on a space-available basis, with the permission of the director.

Sophomore standing or above and status as an International Studies or Applied Diplomacy major or minor is a prerequisite for this class.

INT 202 | INTERNATIONAL CONFLICT AND COOPERATION | 4 quarter hours  
(Undergraduate)
This course analyzes the nature of power in the international arena, conflicts that emerge among nations, and processes through which conflict may be resolved. It includes a critical perspective on realism and the other mainstream theories of international relations.

INT 201 and status as an International Studies major or minor is a prerequisite for this class.

INT 203 | INTERNATIONAL MOVEMENTS IN THE 20TH AND 21ST CENTURIES | 4 quarter hours  
(Undergraduate)
This course evaluates the major social movements that have shaped international developments in the 20th and 21st centuries. Includes discussions of the varieties of socialism, race, colonization and decolonization of the Third World.

INT 201, INT 202 and status as an International Studies major or minor is a prerequisite for this class.

INT 204 | CULTURAL ANALYSIS | 4 quarter hours  
(Undergraduate)
This course asks students to examine economic and cultural practices together so as to see the complicated ways in which such practices intersect and/or give rise to one another. Drawing on a variety of materialist perspectives, students study the economic and cultural instrumentality that different family structures and constructions of sexuality, gender, and race have held across time and place and how and why such structures have changed. Students also analyze the cultural logic of disposability in capitalism, both in terms of garbage-generation and the generation of surplus populations.

INT 205 | INTERNATIONAL POLITICAL ECONOMY | 4 quarter hours  
(Undergraduate)
Topics discussed include the theory of comparative advantage, trade, immigration, alternatives to neoclassical trade theory, the third world debt crisis of the 1980s and 1990s, global financial institutions, and recurrent financial crises.

INT 200 is a prerequisite for this class.

INT 206 | IDENTITIES AND BOUNDARIES | 4 quarter hours  
(Undergraduate)
This course explores how identity formation is shaped by cultural, historical, and political construction of barriers, borders, and boundaries, and how such formations are intertwined with ethnicity, race, nationality, gender and class.

INT 301 | SENIOR SEMINAR | 4 quarter hours  
(Undergraduate)
This course combines formal class work and independent research. Students conduct and present competent original academic research on a relevant and novel question of their choosing. Seminar topics vary, but projects typically require comparative research conducted in the student’s target language.

Senior standing and declared International Studies major or minor are prerequisites for this course.

INT 302 | CRITICAL SOCIAL THEORY | 4 quarter hours  
(Undergraduate)
All systems of knowledge are constituted through and in turn help constitute relations of power. This course introduces students to social theory as a reflexive practice that is aware of the power-infused conditions of its own production. Students who take this course should be able to examine the society around them with critical awareness, interrogate the naturalization of social knowledge, and become aware of the conditions through which knowledge, expertise, and transformative social practices are reflexively produced. Cross-listed with INT 401.

Admission to International Studies BA/MA program or permission of instructor is a prerequisite for this class.
This course offers students the opportunity to engage in an examination of recent developments in international treaties, legal process and international organization. Topics may include refugees, trade law, criminal law and the establishment of the international criminal court, international labor law, environmental law, theories of international law, human rights and the relationship between international law and local economic development. Cross-listed with INT 410.

INT 304 | MIGRATION AND FORCED MIGRATION | 4 quarter hours
(Undergraduate)
This course examines the integral role that different processes of mobility play in shaping today's world: emigration, immigration, displacement, refugee and internally displaced persons flows. Students study the causes and effects of population movements including push-pull factors, demographic, economic, and political variables. Students also look at the role of state and non-state actors and organizations. Cross-listed with INT 404.

INT 305 | CULTURE AND INEQUALITY | 4 quarter hours
(Undergraduate)
This course interrogates the concept of culture by showing the dynamic ways in which inequalities define and shape it. Students examine theories of culture and different approaches to studying culture to understand the relationship between the construction of cultural difference and social inequalities. Cross-listed with INT 405.

INT 306 | GLOBAL EMPIRES | 4 quarter hours
(Undergraduate)
In this course, students gain an acquaintance with theories of imperialism and post-colonial theory through historically situated studies. 'Power' serves as the generative concept for this course, to be understood as emergent at multi-scalar levels. Cross-listed with INT 406.

INT 307 | RACE, SEX, AND DIFFERENCE | 4 quarter hours
(Undergraduate)
Power circulates through systems of social hierarchies. Such hierarchies are the material basis through which difference is defined. This course examines theories of class, race, and sex to show how difference operates. Cross-listed with INT 407.

INT 308 | NATURE, SOCIETY AND POWER | 4 quarter hours
(Undergraduate)
This course is an interdisciplinary exploration of environmental issues pertinent to international studies. The reproduction of human societies occurs in a symbiotic relationship with the natural world, yet in the modern era nature has come to be increasingly conceptualized as a resource. This course explores the repercussions of this instrumental separation of nature from culture and society. Our conceptions of nature range from the physical environment to the human body; and the course explores a range of related political, economic, ecological, and socio-cultural issues from theoretical, comparative, and practical perspectives. Issues explored include those of environmental justice and social and political equity, and questions such as who defines what constitutes environmental issues, who is included or excluded from environmental concerns, and who benefits or is harmed by environmental changes occurring as a result of social interventions. Cross-listed with INT 408.

INT 309 | CRITICAL DEVELOPMENT THEORY | 4 quarter hours
(Undergraduate)
The uneven integration of the world economy has been shaped by a succession of policies and theories of development, modernization, and globalization. This course investigates how these theories and policies have contributed to centrally organizing concepts such as poverty, inequality, growth, and progress, which have been instrumental in ordering contemporary societies. Cross-listed with INT 409.

INT 310 | TOPICS IN AFRICAN STUDIES | 4 quarter hours
(Undergraduate)
Topics in the social, political, and economic institutions, and the cultural history of selected regions within the African continent. (See schedule for current offerings).

INT 312 | THE ISRAELI-PALESTINIAN CONFLICT: PROSPECTS FOR PEACE | 4 quarter hours
(Undergraduate)
Lasting peace between Israelis and Palestinians can only be constructed with a clear, open, and critical understanding of the conflict’s historical grounding. After a brief review of the connection of Jews and Arabs to the land of Israel/Palestine prior to the late 19th century, the course will study the rise of modern Jewish nationalism (Zionism) and its conflict with Palestinian nationalism covering the end of the Ottoman Empire, World War I promises to Jews and Arabs, the British Mandate of Palestine, the 1947 UN Partition Vote and subsequent 1948 War and the development of a wider Arab-Israeli conflict that has increasingly played out on the world stage with the Israeli-Palestinian Conflict at its center. The interaction or lack thereof between Jews and Arabs in Israel/Palestine over the past century as well as wider issues involving the Arab and Islamic world and the Diaspora Jewish community will be explored for their impact on this conflict. Efforts at conflict resolution will be examined through exposure to diverse points of view. The course seeks to synthesize an examination of religion, nationalism, and ethnic identity in order to gain some insight into the many dimensions of this conflict as well as the possibility of a peaceful resolution.

INT 313 | TERRORISM, THEIRS AND OURS | 4 quarter hours
(Undergraduate)
Today, the ‘War on Terror’ referred to US wars in Afghanistan, Iraq, and other locations across the world but before 1969, ‘terror’ referred primarily to violence at home, bombings, hijackings, assassinations, etc. Many nationalist leaders and freedom fighters even referred to themselves as terrorists. From the appearance of ‘terror’ as a political term during the French Revolution, this course traces “terror” in the context the forms of political violence deployed by states. After a decade and half of fighting, is “terrorism” defeated? Osama Bin Laden is dead but U.S. forces are still deployed all over the globe, the Guantanamo Bay prison still open, and “enhanced interrogation” continues. Post-Ba’athist Iraq has collapsed into a Shia rump state, a Kurdish de-facto state, and Sunni terror state. How did we arrive at this nightmare scenario? How did terrorism become a common tactic of the most disempowered people in the world? Why do states turn to torture, assassination and other forms of political violence? What do these forms of political violence tell us about the relationship between the state and violence? What does this mean for the future of direction of social change and dynamics of global conflict? This course provides perspective on these questions through an in-depth study of French and Russian Revolutions, the Cold War, and current War on Terror.
INT 314 | SUREVEILLANCE AND DIGITAL LABOR | 4 quarter hours
(Undergraduate)
