### Superintendent Option, Educational Leadership (EdD)

Education doctoral students can pursue the Superintendent Endorsement, which is approved by the Illinois State Board of Education. Students must be admitted to the doctoral program in the College of Education and complete the requirements of the program to qualify for the Superintendent Endorsement.

### Additional Program Requirements

Educational Leadership doctoral students must also complete the superintendent internship:

Educational Leadership (EdS)

The Educational Leadership Education Specialist Program will prepare Urban Professional Multicultural Education leaders. With an emphasis on social justice and working with underserved populations, the EdS. in Educational Leadership seeks to contribute to the further professional development of education professionals who wish to become leaders with the knowledge and skills to impact positive growth and change in schools or other educational institutions. The Educational Leadership program encourages educators to reflect on and strengthen their own practice in order to work effectively for social justice and educational excellence. The program calls on students to use critical reflection to improve practice, engage in rigorous theoretical inquiry, and identify, address, and build coalitions around opportunities and problems in education.

The EdS. is situated between our existing master’s and doctoral degrees. It allows students wishing to continue their professional development to pursue coursework toward an advanced degree without the additional requirement of extensive, specialized training in research design and methods. Unlike almost all doctoral degrees, specialist degrees do not typically require a dissertation. Therefore, EdS. students are not expected to engage in the in-depth research, analysis, and extensive conceptual and empirical framing required to research, write, and defend a dissertation.

Graduates of the EdS Program may enter a new career or strengthen their current position in schools, universities or community organizations. Potential professional opportunities for Education Specialists include adjunct and part-time faculty in higher education; curriculum specialists, directors of assessment, directors of instruction, and curriculum directors; P-12 teachers and teacher leaders, coaches, and mentors; and deans, administrators, and principals.

Licensures and Endorsements

Superintendent Endorsement Option

Students pursuing an EdS degree in Educational Leadership are also eligible for the Superintendent Endorsement program, which requires additional coursework, along with four quarter hours for the superintendent internship course. ISBE states the following guidelines:

Individuals seeking the Superintendent endorsement must possess:

- a master's degree with a GPA of 3.0 or better on a 4.0 scale
- proof of two years of teaching experience on a valid Illinois teaching license
- proof of two years of full-time administrative experience on a valid administrative license with the general administrative endorsement
- proof of passing the Basic Skills/TAP and Superintendent content-area tests.

Upon completion of the Superintendent program and the endorsement's additional requirements, students must apply for the endorsement. Students are to work with the College of Education’s Licensure Officer when applying for the endorsement.

Teacher Leader Endorsement Option

Students pursuing an education specialist degree in Educational Leadership are also eligible for the Teacher Leader Endorsement option, which requires additional coursework. To be eligible for the Teacher Leader endorsement program, students must possess:

- a bachelor’s degree and master’s degree from an accredited college or university.
- a valid teaching license
- at least two years of teaching experience
- proof of passing the Basic Skills or Test of Academic Proficiency.

Principal Licensure

Students pursuing an education specialist degree in Educational Leadership are also eligible for the Principal Licensure program, which requires additional coursework. The Principal Licensure program at DePaul University is an approved Illinois State Board of Education (ISBE) program. It is a rigorous program preparing principals and assistant principals for work service in public and private schools in the state of Illinois.

To be eligible for the Principal Licensure program, students must possess:

- a master’s degree from an accredited college or university with a GPA of 2.75 or higher at the undergraduate level and a 3.25 or higher at the graduate level.
- a valid Illinois teaching license
- at least two years of full-time successful teaching experience
- proof of passing the basic skills or test of academic proficiency.

Concentrations

- Educational Leadership (degree only)
- Educational Leadership plus Superintendent Endorsement
- Educational Leadership plus Teacher Leader Endorsement
- Educational Leadership plus Principal Licensure
Students will be able to:

- Facilitate, develop, and implement a shared notion of learning and curriculum from input of all district-wide stakeholders.
- Identify, understand, and apply relevant theory to create a professional learning community of growth for all district-wide stakeholders.
- Utilize and assess processes and policies for district-wide procedures with respect to efficient operations and management.
- Comprehend, and apply legal standards to prevent, mitigate, and redress harm to all district side stakeholders.
- Understand, implement, and evaluate all practices to ensure success of all students through integrity and fairness.

**College Requirements**

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Demonstrates a positive attitude and commitment to the profession
- Demonstrates thoughtful, effective verbal and non-verbal communication and listening skills
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates concern for and protection of safety and well-being of others

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

Students must maintain an overall GPA of 3.0 prior to the completion of 36 credit hours and 3.3 after the completion of 36 credit hours. Students are allowed no more than two grades of “C.” Upon receiving a third grade of “C,” students must retake the class in which the grade was received.

Grades of “D” and “F” require that the course be retaken.

**Course Requirements**

Educational Leadership (MA or MEd)

The purpose of this program is to prepare educational personnel for administrative and supervisory positions in schools, business, and a variety of human services agencies. This discipline-based program includes concepts, research findings, and models of inquiry in social sciences. The program is also theory and problem-based in that it addresses the relevant theories of organization, leadership, and curriculum and contemporary issues likely to confront administrators and supervisors, and other educational leaders. Finally, the program is career-based given that it focuses on the examination of administrative and supervisory functions and objectives within a variety of settings and for different purposes.

MA Concentrations

The Educational Leadership Master of Arts (MA) program has four concentrations:

- General Concentration (degree only)
- Concentration in Catholic Leadership
- Concentration in Physical Education
- Concentration in Higher Education (degree only)

Licensure

The Educational Leadership Master of Education (MEd) program is an Illinois State Board of Education (ISBE) approved program for Principal Licensure and Teacher Leader Endorsement on the Professional Educator License. ISBE states the following guidelines:

Individuals seeking the Principal Licensure must:

- complete an approved principal endorsement program at an Illinois institution
- hold a master’s degree
- At the end of the program, in order to obtain licensure, students must have accrued 4 years of full-time teaching on a valid teaching license
- pass the Basic Skills or Test of Academic Proficiency (TAP) and two Principal content-area tests

Individuals seeking the Teacher Leader Endorsement must:

- complete an approved teacher leader program at an Illinois institution
- hold a bachelor’s degree
- have 2 years of full-time teaching accrued on a valid teaching or school service personal endorsement
- pass the Basic Skills or Test of Academic Proficiency (TAP) and Teacher Leader content-area tests

Upon completion of the Principal Preparation program or the Teacher Leader Endorsement Program, and the additional requirements, students must apply for licensure or endorsement. Students are to work with the College of Education's Licensure Officer when applying for endorsement.

Note: Courses in this program leading to the Principal Licensure and Teacher Leader Endorsement are designed for practicing educators and are not open to students seeking an initial teaching license (Teaching and Learning).

MEd Concentrations

The Educational Leadership MEd program has several concentrations:
Learning Outcomes

Students will be able to:

• Facilitate the development, articulation, implementation, and stewardship of a shared vision of learning supported by the school community.
• Advocate, nurture, and sustain a school culture and instructional program conducive to student and staff learning.
• Support and sustain programs based on best practices that promote student learning.
• Ensure management of the organization for a safe, efficient, and effective learning environment.
• Understand, respond to, and influence the larger political, social, economic, legal, and cultural context.
• Collaborate with families and community members, responding to diverse community interests and needs, and mobilizing community resources.
• Acting with integrity, and fairness and in an ethical manner.
• Utilize their internship experience to apply knowledge, and practice and develop skills, through substantial, sustained, standards-based work in authentic settings.

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Reflects on his or her own progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
• Demonstrates a positive attitude and commitment to the profession

Degree Requirements

MA Degree Requirements

Specific degree requirements are determined according to the concentration chosen by the student. Master of Arts (MA) concentrations are available in General Concentration, Catholic Leadership Concentration, Physical Education and Higher Education.
Please review the concentration requirements pages for more information.

Please note: a Master’s Thesis is completed for all MA concentrations in conjunction with faculty advisement. Preparation for the writing of the Thesis should begin well in advance of the completion of coursework. Oral examination on Thesis required. Consult the MA Thesis Handbook for additional information.

**MEd Degree Requirements**

Specific degree requirements are determined according to the concentration chosen by the student. Master of Education (MEd) concentrations are available in General Educational Leadership (degree only), Catholic Leadership (degree only), Higher Education (degree only), Physical Education, Principal License, Principal License (Catholic), Teacher Leader Endorsement, Teacher Leader Endorsement (Catholic).

Please review the concentration requirements pages for more information.

Please note: A Capstone project is completed for all MEd Concentrations in conjunction with faculty advisement, and students are required to take A&S 608 to complete the Capstone project.

**Academic Standards**

Students must maintain a 3.0 average or higher to continue in the program. Any grade below a C will not count for credit toward completion of the program.

**Concentration Requirements**

Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:

- Catholic Leadership Concentration, Educational Leadership (MA or MEd) (p. 424)
- General Concentration, Educational Leadership (MA or MEd) (p. 425)
- Higher Education Concentration, Educational Leadership (MA or MEd) (p. 426)
- Physical Education Concentration, Educational Leadership (MA or MEd) (p. 427)
- Principal License (Catholic) Concentration, Educational Leadership (MEd) (p. 428)
- Principal License Concentration, Educational Leadership (MEd) (p. 428)
- Teacher Leader (Catholic) Concentration, Educational Leadership (MEd) (p. 429)
- Teacher Leader Concentration, Educational Leadership (MEd) (p. 429)

Educational Leadership (MA) Online

The purpose of this program is to prepare educational personnel for administrative and supervisory positions in schools, business, and a variety of human services agencies. This discipline-based program includes concepts, research findings, and models of inquiry in social sciences. The program is also theory and problem-based in that it addresses the relevant theories of organization, leadership, and curriculum and contemporary issues likely to confront administrators and supervisors, and other educational leaders. Finally, the program is career-based given that it focuses on the examination of administrative and supervisory functions and objectives within a variety of settings and for different purposes.

MA Concentrations

The Educational Leadership Master of Arts (MA) program has four concentrations:

- General Concentration (degree only)
- Concentration in Catholic Leadership
- Concentration in Physical Education
- Concentration in Higher Education (degree only)

Licensure

The Educational Leadership Master of Education (MEd) program is an Illinois State Board of Education (ISBE) approved program for Principal Licensure and Teacher Leader Endorsement on the Professional Educator License. ISBE states the following guidelines:

Individuals seeking the Principal Licensure must:

- complete an approved principal endorsement program at an Illinois institution
- hold a master's degree
- At the end of the program, in order to obtain licensure, students must have accrued 4 years of full-time teaching on a valid teaching license
- pass the Basic Skills or Test of Academic Proficiency (TAP) and two Principal content-area tests

Individuals seeking the Teacher Leader Endorsement must:

- complete an approved teacher leader program at an Illinois institution
- hold a bachelor's degree
- have 2 years of full-time teaching accrued on a valid teaching or school service personal endorsement
- pass the Basic Skills or Test of Academic Proficiency (TAP) and Teacher Leader content-area tests

Upon completion of the Principal Preparation program or the Teacher Leader Endorsement Program, and the additional requirements, students must apply for licensure or endorsement. Students are to work with the College of Education's Licensure Officer when applying for endorsement.

Note: Courses in this program leading to the Principal Licensure and Teacher Leader Endorsement are designed for practicing educators and are not open to students seeking an initial teaching license (Teaching and Learning).

</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Facilitate the development, articulation, implementation, and stewardship of a shared vision of learning supported by the school community.
- Advocate, nurture, and sustain a school culture and instructional program conducive to student and staff learning.
- Support and sustain programs based on best practices that promote student learning.
- Ensure management of the organization for a safe, efficient, and effective learning environment.
- Understand, respond to, and influence the larger political, social, economic, legal, and cultural context.
• Collaborate with families and community members, responding to diverse community interests and needs, and mobilizing community resources.
• Acting with integrity, and fairness and in an ethical manner.
• Utilize their internship experience to apply knowledge, and practice and develop skills, through substantial, sustained, standards-based work in authentic settings.

College Requirements
Dispositions
The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Reflects on his or her own progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
• Demonstrates a positive attitude and commitment to the profession
• Demonstrates thoughtful, effective verbal and non-verbal communication and listening skills
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates concern for and protection of safety and well-being of others

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

Educational Leadership (MEd) Online

The purpose of this program is to prepare educational personnel for administrative and supervisory positions in schools, business, and a variety of human services agencies. This discipline-based program includes concepts, research findings, and models of inquiry in social sciences. The program is also theory and problem-based in that it addresses the relevant theories of organization, leadership, and curriculum and contemporary issues likely to confront administrators and supervisors, and other educational leaders. Finally, the program is career-based given that it focuses on the examination of administrative and supervisory functions and objectives within a variety of settings and for different purposes.

Licensure

The Educational Leadership Master of Education (MEd) program is an Illinois State Board of Education (ISBE) approved program for Principal Licensure and Teacher Leader Endorsement on the Professional Educator License. ISBE states the following guidelines:

Individuals seeking the Principal Licensure must:

- complete an approved principal endorsement program at an Illinois institution
- hold a master’s degree
- At the end of the program, in order to obtain licensure, students must have accrued 4 years of full-time teaching on a valid teaching license
- pass the Basic Skills or Test of Academic Proficiency (TAP) and two Principal content-area tests

Individuals seeking the Teacher Leader Endorsement must:

- complete an approved teacher leader program at an Illinois institution
- hold a bachelor’s degree
- have 2 years of full-time teaching accrued on a valid teaching or school service personal endorsement
- pass the Basic Skills or Test of Academic Proficiency (TAP) and Teacher Leader content-area tests

Upon completion of the Principal Preparation program or the Teacher Leader Endorsement Program, and the additional requirements, students must apply for licensure or endorsement. Students are to work with the College of Education’s Licensure Officer when applying for endorsement.

Note: Courses in this program leading to the Principal Licensure and Teacher Leader Endorsement are designed for practicing educators and are not open to students seeking an initial teaching license (Teaching and Learning).

MEd Concentrations

The Educational Leadership MEd Online program has two concentrations:

- General Concentration (degree only)
- Concentration in Higher Education

Program Requirements | Quarter Hours
Degree Requirements (MEd) | 48-52
Total hours required | 48-52

Learning Outcomes

Students will be able to:

- Facilitate the development, articulation, implementation, and stewardship of a shared vision of learning supported by the school community.
- Advocate, nurture, and sustain a school culture and instructional program conducive to student and staff learning.
- Support and sustain programs based on best practices that promote student learning.
- Ensure management of the organization for a safe, efficient, and effective learning environment.
- Understand, respond to, and influence the larger political, social, economic, legal, and cultural context.
- Collaborate with families and community members, responding to diverse community interests and needs, and mobilizing community resources.
- Acting with integrity, and fairness and in an ethical manner.
- Utilize their internship experience to apply knowledge, and practice and develop skills, through substantial, sustained, standards-based work in authentic settings.

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress and identifies strengths and weaknesses, including evaluating strategies for success, finding
alternatives for inappropriate strategies, and modifying future practices
• Demonstrates a positive attitude and commitment to the profession
• Demonstrates thoughtful, effective verbal and non-verbal communication and listening skills
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates concern for and protection of safety and well-being of others

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

Degree Requirements
MA Degree Requirements
Specific degree requirements are determined according to the concentration chosen by the student. Master of Arts (MA) concentrations are available in General Concentration, Catholic Leadership Concentration, Physical Education and Higher Education.

Please review the concentration requirements pages for more information.

Please note: a Master's Thesis is completed for all MA concentrations in conjunction with faculty advisement. Preparation for the writing of the Thesis should begin well in advance of the completion of coursework. Oral examination on Thesis required. Consult the MA Thesis Handbook for additional information.

MEd Degree Requirements
Specific degree requirements are determined according to the concentration chosen by the student. Master of Education (MEd) concentrations are available in General Educational Leadership (degree only), Catholic Leadership (degree only), Higher Education (degree only), Physical Education, Principal License, Principal License (Catholic), Teacher Leader Endorsement, Teacher Leader Endorsement (Catholic).

Please review the concentration requirements pages for more information.

Please note: A Capstone project is completed for all MEd Concentrations in conjunction with faculty advisement, and students are required to take A&S 608 to complete the Capstone project.

Academic Standards
Students must maintain a 3.0 average or higher to continue in the program. Any grade below a C will not count for credit toward completion of the program.

Concentration Requirements
Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:

Educational Leadership (PhD)

The Doctor of Philosophy (PhD) in Educational Leadership engages students in connecting theory to practice while applying criticality and scholarship in areas of educational leadership involving equity and social justice. The Educational Leadership PhD program offers an emphasis on educational leadership and research that addresses complex issues of social justice, equity, and innovative change. The course work and research are designed to give students a comprehensive knowledge of the field and of research design and methods with an emphasis on a particular area of interest. Students are guided to think critically and to do independent research.

Graduates of the program may assume faculty or researcher positions in K-12 education, higher education, or assume leadership positions in local and state education agencies. They may enter a new career or strengthen their current position in schools, universities or community organizations.

The Doctor of Philosophy of Education (PhD) in Educational leadership consists of two concentrations: General and Higher Education. In addition, the degree program offers licensure and endorsement opportunities: Superintendent Endorsement, Teacher Leader Endorsement, and Principal Licensure.

Concentrations

Educational Leadership General

The Educational Leadership General Concentration provides a rich knowledge base from which to research and analyze administrative practices and promote socially just leadership of schools and organizations with an educational purpose, with focuses on PK-12 education or related fields. This program is uniquely designed to link theory with practice and is not based on traditional assumptions about the relationships of theory with practice or on conventional notions about the status of practitioners and theorists.

The program’s schedule allows students to attend full-time or part-time. Graduates of the program may wish to enter into a new career or strengthen their knowledge-base for their current position. Career options may include leadership positions in PK-12 or related fields in local and state education agencies, faculty positions in higher education, and leaders in educational policy and advocacy in related organizations and institutions.

Higher Education

The Higher Education Concentration in the Educational Leadership Doctoral Program provides a rich knowledge base to analyze administrative practices and promote socially just leadership of schools, universities, and other related organizations with an educational purpose. This program is uniquely designed to link theory with practice and is not based on traditional assumptions about the relationships of theory with practice or on conventional notions about the status of practitioners and theorists.

The program’s schedule allows students to attend full-time or part-time. Graduates of the program may wish to enter into a new career or strengthen their knowledge-base for their current position. Career options may include faculty positions in higher education, leadership positions in local and state education agencies, or leaders in educational policy and advocacy in related organizations and institutions.

Licenses and Endorsements

Superintendent Endorsement Option

The Doctoral program’s Educational Leadership concentration is an Illinois State Board of Education (ISBE) approved program for the Superintendent endorsement. The Superintendent endorsement requires
Individuals seeking the Superintendent endorsement must possess:

- a master's degree with a GPA of 3.0 or better on a 4.0 scale
- proof of two years of teaching experience on a valid Illinois teaching license
- proof of two years of full-time administrative experience on a valid administrative license with the general administrative endorsement
- proof of passing the Basic Skills/TAP and Superintendent content-area tests.

Upon completion of the Superintendent program and the endorsement's additional requirements, students must apply for the endorsement. Students are to work with the College of Education's Licensure Officer when applying for the endorsement.

**Teacher Leader Endorsement Option**

To be eligible for the Teacher Leader endorsement program, students must possess:

- a bachelor's degree and master's degree from an accredited college or university,
- a valid teaching license
- at least two years of teaching experience
- proof of passing the Basic Skills or Test of Academic Proficiency.

**Principal Licensure**

The principal licensure program at DePaul University is an approved Illinois State Board of Education (ISBE) program. It is a rigorous program preparing principals and assistant principals for work service in public and private schools in the state of Illinois.

To be eligible for the Principal Licensure program, students must possess:

- a master's degree from an accredited college or university with a GPA of 2.75 or higher at the undergraduate level and a 3.25 or higher at the graduate level.
- a valid Illinois teaching license
- at least two years of full-time successful teaching experience
- proof of passing the basic skills or test of academic proficiency.

**Concentrations**

- General (degree only)
- General plus Superintendent Endorsement
- General plus Teacher Leader Endorsement
- General plus Principal Licensure
- Higher Education (degree only)

**Program Requirements**

<table>
<thead>
<tr>
<th>Program Requirements</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Degree Requirements</td>
<td>80</td>
</tr>
<tr>
<td>Total hours required</td>
<td>80</td>
</tr>
</tbody>
</table>

Students will be able to:

- Design and conduct original research in their chosen fields of concentration.
- Facilitate, develop, and implement a shared notion of learning and curriculum from input of all district-wide stakeholders.
- Identify, understand, and apply relevant theory to create a professional learning community of growth for all district-wide stakeholders.
- Understand, utilize, and assess processes and policies for district-wide procedures with respect to efficient operations and management.
- Identify, understand, and apply legal standards to prevent, mitigate, and redress harm to all district side stakeholders.
- Understand, implement, and evaluate all practices to ensure success of all students through integrity and fairness.

**Concentration Specific Outcomes**

**Educational Leadership (General)**

- Demonstrate knowledge in relevant significant domains in educational leadership with K-12 settings, including areas such as historical, political, social, legal, and economic contexts in which educational systems operate.
- Demonstrate the management, decision making, conflict and change management, communication and unique approaches to leadership within the context of K-12 educational settings.

**Educational Leadership (Higher Education)**

- Demonstrate knowledge in relevant significant domains in educational leadership and higher education, including areas such as historical, political, social, legal, and economic contexts in which educational systems operate.
- Demonstrate the management, decision making, conflict and change management, communication and unique approaches to leadership within the context of higher education.

**College Requirements**

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Demonstrates a positive attitude and commitment to the profession
- Demonstrates thoughtful, effective verbal and non-verbal communication and listening skills
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Demonstrates professional ethical and legal behavior as defined by
  the respective codes of ethics and laws
• Recognizes and fulfills professional responsibilities and habits of
  conduct (e.g., dress, language, preparedness, attendance, punctuality,
  etc.)
• Demonstrates concern for and protection of safety and well-being of
  others

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an
application to be considered for the degree. DePaul awards and posts
degrees at the end of each regular academic term (autumn, winter, spring,
summer).

It is your responsibility to initiate the degree conferral application process
by submitting an online application. Submitting an application means you
intend to finish your degree requirements by the end of the term for which
you have applied.

Graduate students must be approved for student teaching and complete
student teaching, seminar, and induction courses to be cleared for the
degree. Student must submit graduation application for the quarter you
are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after
the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR
STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERAL.
On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees
are posted 30 days after the official end of the term. Official dates are
listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you
intend to participate, you must first apply for degree conferral for the
current academic year and then submit a cap and gown order. Honors are
not announced at the ceremony for undergraduates completing their final
courses in spring quarter because a final GPA is not available at the time
of the ceremony.

Additional information about degree conferral and graduation can be
found on the College of Education website.

PhD Degree Requirements
Specific degree requirements are determined according to the
concentration chosen by the student. Doctorate of Philosophy (PhD)
concentrations are available in General and Higher Education.

Please review the concentration requirements pages for more
information.

Please note: a dissertation of original research is completed for all
Educational Leadership PhD concentrations in conjunction with faculty
advisement. Preparation for the writing of the dissertation includes
a Candidacy Paper and Dissertation Proposal. Oral examination for
Candidacy, Dissertation Proposal and Dissertation are required. Consult
the Doctoral Program Handbook for additional information.

Academic Standards
Students must maintain an overall GPA of 3.0 prior to the completion of
36 credit hours and 3.3 after the completion of 36 credit hours. Students
are allowed no more than two grades of “C.” Upon receiving a third grade
of “C,” students must retake the class in which the grade was received.
Grades of “D” and “F” require that the course be retaken.

Concentrations, tracks and specializations provide focus to the major.
In addition to any college core requirements and major requirements,
students are required to choose one of the following:

• Educational Leadership K-12, Educational Leadership (PhD) (p. 439)
• Higher Education, Educational Leadership (PhD) (p. 440)
• Principal Preparation Option, Educational Leadership (PhD) (p. 441)
• Superintendent Option, Educational Leadership (PhD) (p. 441)
• Teacher Leader Option, Educational Leadership (PhD) (p. 441)

Students pursuing the Educational Leadership K-12 concentration have
the option to complete the following:

• Principal Preparation Option, Educational Leadership (PhD) (p. 441)
• Superintendent Option, Educational Leadership (PhD) (p. 441)
• Teacher Leader Option, Educational Leadership (PhD) (p. 441)

Educational Leadership K-12,
Educational Leadership (PhD)

Degree Requirements
Students must maintain an overall GPA of 3.0 prior to the completion of
36 credit hours and 3.3 after the completion of 36 credit hours. Students
are allowed no more than two grades of “C.” Upon receiving a third grade
of “C,” students must retake the class in which the grade was received.
Grades of “D” and “F” require that the course be retaken.

Higher Education, Educational Leadership (PhD)

Degree Requirements

Students must maintain an overall GPA of 3.0 prior to the completion of 36 credit hours and 3.3 after the completion of 36 credit hours. Students are allowed no more than two grades of "C." Upon receiving a third grade of "C," students must retake the class in which the grade was received. Grades of "D" and "F" require that the course be retaken.

### Superintendent Option, Educational Leadership (PhD)

Education doctoral students can pursue the Superintendent Endorsement, which is approved by the Illinois State Board of Education. Students must be admitted to the doctoral program in the College of Education and complete the requirements of the program to qualify for the Superintendent Endorsement.

### Additional Program Requirements

Educational Leadership doctoral students must also complete the superintendent internship:

### Principal Preparation Option, Educational Leadership (PhD)

This Illinois State Board of Education approved program, is designed for licensed teachers who already hold a master’s degree in education and are seeking principal licensure. The program offers a powerful, discipline-based curriculum with a problem-solving orientation that prepares effective and principled decision-makers. Graduates from the program are prepared to assume school and district administrative and supervisory roles.

### Additional Program Requirements

An additional 44 quarter hours:

### Teacher Leader Option, Educational Leadership (PhD)

This program is ideal for students who are educators in K-12 environments and are seeking leadership roles, excluding principalship. Such roles include, but are not limited to: curriculum specialists, coaches, mentor teachers, department chair or lead teachers, content specialists, teacher leaders charged with supervisor roles, and program leaders. The program meets the standards set forth by the state of Illinois for the endorsement of Teacher Leader.

Physics majors cannot earn a minor in Electronics.

Elementary Education (BS)
The Bachelor of Science program in Elementary Education prepares students to teach 1st through 6th grade in a variety of urban and suburban education settings, including public and private elementary schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student’s choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 155-170 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Along with general elementary education courses, EE majors are required to complete a minor at the university.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

Learning Outcomes

Students will be able to:

- Plan instruction that supports students in meeting rigorous learning goals, drawing upon knowledge of content areas, curriculum, and pedagogy.
- Demonstrate a variety of instructional strategies as they support learners in developing a deep understanding of content areas and their connections, as well as building skills needed to apply knowledge in meaningful ways.
- Apply their understanding of multiple purposes for and methods of assessment in order to monitor and evaluate student progress, make decisions regarding instructional practices, and guide students in reflecting upon their progress toward learning targets.
- Use the central concepts, standards, tools of inquiry, and structures of the discipline(s) they teach to create meaningful learning experiences based upon evidence-based practices that ensure mastery of content.
- Demonstrate an interest in ongoing professional learning, use evidence to evaluate practice, advocate for students, and exhibit professionalism and ethical behavior in all interactions.

College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices.
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions.
• Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
• Takes initiative
• Is open to new ideas and engagement in learning
• Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
• Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Demonstrates consistent professional behavior across all academic settings
• Maintains appropriate interpersonal and professional boundaries
• Accepts personal responsibility for one’s behavior
• Expresses feelings and opinions effectively and appropriately
• Upholds confidentiality

Skill Building Courses
Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement
Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

• completing two years of a language sequence in high school
• completing the last course in the first-year college sequence of any language
• completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern
Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

**Field Experiences**

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements**

- Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
- Overall cumulative GPA of 2.50 or better
- Cumulative GPA of 2.75 or better in all education courses
- Meet all other program requirements (e.g., modern language and residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test(s)

**Clinical Requirements**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines**

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Content areas tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.
Licensure
Requirements for licensure include completion of full bachelor's degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor's degree. A bachelor's degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

| LSP 200 SEMINAR ON MULTICULTURALISM IN THE UNITED STATES | 4 |

Junior Year

Experiential Learning
Met by successful completion of required field experience hours.

Senior Year

Capstone
| EE 387 CAPSTONE SEMINAR IN ELEMENTARY EDUCATION | 2 |

1. Students must earn a C- or better in this course.
2. Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.
3. This must be taken with student teaching. Students must earn a C or better in this course.

Learning Domains

Arts and Literature (AL) (p. 1300) • 2 Courses Required

Historical Inquiry (HI) (p. 1304) • 2 Courses Required
(Note: One must be a United States history course offered by the history department)

Math and Computing (MC) (p. 1306) • 1 Course Required
[1 CR Course or 1 SR Course]

Philosophical Inquiry (PI) (p. 1307) • 2 Courses Required
• LSE 380
• 1 Additional Course
(Note: PHL 100 recommended)

Religious Dimensions (RD) (p. 1308) • 1 Course Required

Scientific Inquiry (SI) (p. 1310) • Not Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312) • 3 Courses Required
• PSC 120
• 2 additional courses selected from the following: ANT, ECO, GEO, PSY, or SOC (each of these two must be from different subjects)

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.
Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Major Requirements**

The requirements below are those approved by the Illinois State Board of Education December 2015.

**Course Requirements**

**Introductory Courses: 16 quarter hours required, grade of C or better required**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>SCU 207</td>

<td>4</td>
</tr>
</tbody>
</table>

**DePaul Minor: 5-8 courses (20-32 credit hours), grade of C or better required**

Along with elementary education courses, students in the elementary education major are required to complete a DePaul minor. This may be a minor leading to an additional endorsement on the Professional Educator License (e.g., special education, English as a Second Language, bilingual education) or an additional area to explore or focus your studies. However, all DePaul minors will meet this requirement.

A minor of seven courses (28 credit hours) will lead to the required 192 credit hours. If a student chooses a minor with fewer than 28 credit hours, the additional credit hours will be replaced by electives. If students choose a minor with more than 28 credit hours, they will graduate with more than 192 credit hours.

Students are encouraged to discuss their choice of a minor with their academic advisor in order to determine the impact their choice will have on their overall program plan, graduation date, and tuition.

**Advanced Courses: 48 quarter hours required, grade of C or better required**

**Open Electives: 4 quarter hours required**

Open elective credit also is required to meet the minimum graduation requirement of 192 hours. The following cannot be used to fulfill an open elective: WRD 98, MAT 94, and MAT 95.

**Student Teaching: 10 quarter hours required, grade of B- or better required**

Registration in student teaching requires completion of all requirements and procedures indicated in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. All students also take EE 387 with student teaching (listed in the Liberal Studies section).

<table>

</tbody>
</table>

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Elementary majors must complete the following tests:

- Elementary Content Area Test (test #197-200) – assesses knowledge of the content of what is taught at the elementary level including language arts and literacy, mathematics, science, social science, the arts, health, and physical education. Test is required before Student Teaching (deadlines apply).
• EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Emergency Management Administration Graduate Certificate

Emergency Management is a critical concern for the public, private and non-profit sectors. The certificate explores both the conceptual elements of emergency preparedness and the practical implementation of emergency management that typically occur at the intersection of local and national politics. Courses will address topics such as public safety and law enforcement, crisis management, disaster response and recovery. This certificate will provide students with both theoretical and practical knowledge that will prepare them for private or public sector employment in the area of emergency preparedness for both security and non-security related incidents.

This certificate requires three courses (12 credit hours).

Learning Outcomes

Students will be able to:

• Describe and analyze a wide and diverse range of literary works in English.
• Explain the impact of culture, race, gender, sexuality, and class on the reading and writing of literature.
• Conduct research and incorporate that research into thesis-driven essays written in clear, accurate, and coherent prose.
• Recognize and explain significant themes, stylistic features, and genre conventions associated with literatures in English over a range of historical periods.
• Produce creative work demonstrating imagination and literary technique. (Applicable only to students in the Creative Writing concentration).

College Core Requirements

Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty

English (BA)

The English major exposes students to a broad range of literatures in English, strengthens their grasp of historical and critical principles, and hones their skill in using the written word. English majors study major authors, works, genres, and literary movements, approaching these texts both analytically and historically. Students in the Creative Writing concentration also take a number of workshops, practicing writing in a variety of literary genres. Both concentrations teach students to read perceptively and to write effectively, to deepen their understanding of the power of language, to think creatively and critically, and to develop an awareness of multiple points of view.

Total hours required: 192
advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

The Modern Language Option (MLO)

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

First Year Program                                      Hours

Experiential Learning                                
Required                                              4
Senior Year                                           
Capstone                                             
ENG 390 SENIOR CAPSTONE SEMINAR                       4
1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.
A student whose only major is English is required to complete the Capstone offered by the English Department. A student who is double majoring (or pursuing dual degrees) with the primary major (or primary degree) in English may substitute the Capstone of the secondary major or degree. An English major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the English Capstone.

Learning Domains
Arts and Literature (AL) (p. 1300)
- 1 Course Required

Historical Inquiry (HI) (p. 1304)
- 2 Courses Required

Math and Computing (MC) (p. 1306)
- 2 Courses Required
  [1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1307)
- 2 Courses Required

Religious Dimensions (RD) (p. 1308)
- 2 Courses Required

Scientific Inquiry (SI) (p. 1310)
- 2 Courses Required
  [1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
- 3 Courses Required

Notes
Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a major elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements
Course Requirements

</tbody>
</table>

ENG 236 GRAPHIC NOVELS AND SOCIAL JUSTICE
ENG 268 LITERATURE ACROSS CULTURES
ENG 271 AFRICAN AMERICAN LITERATURE
ENG 273 GLOBAL ASIAN LITERATURE
ENG 276 LATINX LITERATURE
ENG 285 LGBTQ LITERATURE
ENG 351 POSTCOLONIAL LITERATURE
ENG 352 GLOBAL ENGLISH LITERATURE
ENG 353 TOPICS IN GLOBAL ASIAN LITERATURE
ENG 368 STUDIES IN LITERATURE ACROSS CULTURES
ENG 371 TOPICS IN AFRICAN AMERICAN LITERATURE
ENG 373 MULTIETHNIC LITERATURE OF THE U.S.
ENG 374 NATIVE LITERATURE
ENG 384 TOPICS IN LATINX LITERATURE
ENG 385 TOPICS IN LGBTQ LITERATURE

ENG 101/HON 101, ENG 205, ENG 206, and ENG 207 are prerequisites for many of the 300-level literature courses in the major.

Concentration Requirements
English majors should declare a concentration in Literary Studies or Creative Writing by the time they complete the English core courses. All further course requirements are listed within the two concentrations.

Concentration Requirements
Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:
- Creative Writing Concentration, English (BA) (p. 449)
- Literary Studies Concentration, English (BA) (p. 452)

Creative Writing Concentration, English (BA)
The Creative Writing concentration trains students in writing imaginatively for professional publication. Students strengthen their creative skills in a variety of genres through a series of writing workshops, which they take alongside courses in literary history and analysis. They acquire a solid grounding in literary forms; they learn to think critically and creatively about how writers represent the material of everyday life; they gain insight into writing and audience through the intense study of style, voice, and genre; and they develop an understanding of the standards by which literary works are judged.

<td>MAJOR AUTHORS</td>
</tr>
</tbody>
</table>

Major Electives: 12 Hours

Three English electives of any level.

Research Intensive Requirement

English majors must take at least one course in English designated as "Research Intensive". These courses integrate research instruction and assignments with the subject matter of the course. Qualifying concentration requirements or major electives are designated as "Research Intensive" or "RI" in the quarterly schedule.

English (BA) + English Literature and Publishing (MA)

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Students apply to this program in the last quarter of their junior-year status; interested students should meet with the Director of the program earlier in the year. Applicants must be English majors or double majors, have a minimum grade point average of 3.50 in English and 3.30 overall, and have completed a minimum of four English literature courses, two of which must be core classes, and at least one of the four should be at the 300-level. Students in this program take twelve graduate credit hours in their senior year; these graduate courses apply toward both undergraduate and graduate English requirements. For information on applying to this program, please check the English Department BA + MA Combined Degree webpage.

English (BA) + Secondary Education English (MEd)

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The TEACH Program combines a Liberal Arts and Social Sciences (LAS) undergraduate English major with a graduate level College of Education (COE) Master's in Education Program. Students graduate with a BA in English and an MEd in Education with State of Illinois Secondary English Language Arts licensure.

The program allows undergraduate students to share credit earned through their English major courses with the English content area required for the MEd. Undergraduates may apply to the TEACH Program during the spring of their junior year. They must complete the Experiential Learning course, TCH 320, and meet other application criteria—i.e., completion of at least 16 quarter credit hours at DePaul and a 3.0 GPA.

In senior year, students must complete the TEACH Program capstone course, TCH 390, and three 400-level education courses that apply toward both the undergraduate and graduate degrees:

Junior Year Coursework: 4 undergraduate quarter hours required

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>TCH 320</td>
<td>EXPLORING TEACHING IN THE URBAN HIGH SCHOOL (fulfills the Liberal Studies Program experiential learning (EL) requirement)</td>

This combined degree program of the College of Liberal Arts and Social Sciences and the College of Education was collaboratively developed, and is governed and taught by faculty from these units.

The Master's year comprises teacher-preparation coursework that culminates with student teaching during Spring quarter. Upon graduation and the fulfilling of State of Illinois licensure requirements (which may require some additional course work in the student's major and related fields), students are eligible to be licensed to teach English at the 5th-12th grade levels.

A full description of the TEACH Program can be found here. (p. 1126) English Majors interested in the TEACH Program should consult Dr. Eric Selinger, TEACH Program Advisor for English, at eselinge@depaul.edu (p. 25) or 773-325-4475.

English 3+3 (BA+JD)

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year's worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
• Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
• If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

Course | Title | Quarter Hours
--- | --- | ---
PRELAW 150 | THE PRACTICE OF LAW | 2
PRELAW 151 | RECENT CONTROVERSIES IN THE LAW | 2
PRELAW 152 | THINKING ABOUT THE LAW | 2

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law's online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant's third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 677).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law’s median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Literary Studies Concentration, English (BA)

The Literary Studies concentration broadens and deepens students’ knowledge of literature and language through a range of courses focused on historical periods, literary movements, the structure of language, and critical approaches to literature. Students learn to read works of literature in their historical and cultural contexts; they develop their powers of textual analysis and their critical vocabulary; they examine and question the values expressed in literature; they practice research methods; and they work towards a written style that is clear, precise, and persuasive.

Major Electives: 12 Hours
- Three English electives of any level.

Research Intensive Requirement
English majors must take at least one course in English designated as "Research Intensive." These courses integrate research instruction and assignments with the subject matter of the course. Qualifying concentration requirements or major electives are designated as "Research Intensive" or "RI" in the quarterly schedule.

English (BA) + Writing and Publishing (MA)

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Students apply to this program in the last quarter of their junior-year status; interested students should meet with the Director of the program. Applicants must be English majors or double majors, have a minimum grade point average of 3.50 in English and 3.30 overall, and have completed ENG 201 and two creative writing workshops, at least one of which must be at the 300-level. Students in this program take twelve graduate credit hours in their senior year; these graduate courses apply toward both undergraduate and graduate program requirements.

For information on applying to this program, please visit the English Department BA + MA Combined Degree webpage.

English as a Second Language (Minor)

The English as a Second Language (ESL) minor provides a learning opportunity to all DePaul students for those interested in working with second language learners. Students gain a comprehensive and in-
depth understanding of second-language acquisition, as well as related educational theories and practices.

Students interested in this minor should consult home college advisors and secure permission from the Bilingual-Bicultural Education Program to enroll.

Course Requirements
7 courses are required for the minor:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>BBE 310</td>
<td>SPECIAL TOPICS IN LANGUAGE EDUCATION AND CULTURE</td>
<td>4</td>

</tr>
</tbody>
</table>

Minor in ESL with ESL Endorsement
This option is only available to undergraduates in the College of Education pursuing ISBE Licensure.

The minor with endorsement requires the above 7 courses PLUS 100 fieldwork hours (including registration in BBE 96) and a passing score on the Target Language Proficiency Test.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>BBE 96</td>
<td>100 FIELD EXPERIENCE HOURS IN ESL / BE DOCUMENTED</td>
<td>0</td>
</tr>
</tbody>
</table>

Note: Individuals interested in pursuing a minor in bilingual and a minor in ESL need to select the combined ESL-Bilingual (ESL-BE) minor. Individuals cannot earn a separate minor for both areas.

English as a Second Language/ Bilingual Education (ESL-BE) (Minor)
The combined English as a Second Language (ESL) and Bilingual Education (BE) minor provides a learning opportunity to all DePaul students interested in working with second language learners. Students gain a comprehensive and in-depth understanding of second language acquisition, as well as related educational theories and practices.

Students interested in this minor should consult home college advisors and secure permission from the Bilingual-Bicultural Education Program to enroll.

Course Requirements
8 courses are required for the minor:

1 At least two courses must be at the 300-level. ENG 205, ENG 206, and ENG 207 are strongly recommended but not required; these courses are prerequisites to many 300-level Literature courses.

Students majoring in English are restricted from earning this minor.

Students who minor in both Creative Writing and English Literature cannot count the same classes for both minors.

### English Literature and Publishing (MA)

The Master of Arts in English Literature and Publishing program (formerly the Master of Arts in English) offers graduate courses in all periods of English and American literature as well as professional training in teaching, publishing, creative writing, and/or pre-PhD scholarship, if desired. The curriculum offers flexibility so that students may tailor their program to their professional needs and includes options for independent study, internships, and thesis research.
Elective courses in the MA in English Literature and Publishing may be expanded to include graduate certificate programs. With planning, combined MA + certificate programs may require no additional coursework to fulfill all requirements.

Students participating in a combined MA + certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Literature and Publishing + Teaching English in Two-Year Colleges Certificate
- Literature and Publishing + Digital Humanities Certificate
- Literature and Publishing + Teaching English to Speakers of Other Languages (TESOL) Certificate
- Literature and Publishing + Women’s and Gender Studies Certificate

### Program Requirements

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>48</td>
</tr>
</tbody>
</table>

### Learning Outcomes

Students will be able to:

- Demonstrate a working knowledge of the major movements, authors, and canons of literature in English.
- Engage with foundational schools and methods of literary criticism, and apply this knowledge to produce coherent and effectively supported interpretations of literary works.
- Complete effective research papers that:
  - Survey and evaluate previous efforts in literary criticism.
  - Offer an original contribution to scholarship on the topic at hand.
  - Defend this argument with appropriate exposition and textual support.
  - Document primary and secondary sources accurately.
- Analyze the meanings and values inherent in the terms “literature” and “literary studies” in diverse and changing professional contexts.
- Apply knowledge, vocabulary, and tools of literary study in professional contexts and genres, such as classroom teaching, conference papers, creative and multimedia content production, editing, course plans and syllabi, and/or oral presentations.

### Degree Requirements

#### Course Requirements

48 hours of graduate credit in English Literature and Publishing

**Two Professional Development Courses in English, Publishing, Teaching:** 8 hours

#### Five Courses in English Literature: 20 hours

At least one pre-1800 course:

- Medieval Literature
- Renaissance Literature
- Restoration/Eighteenth-Century British and/or Early American Literature

At least one pre-1900 course:

- Any of the above
- Nineteenth-Century British (Romantic and Victorian)
- Nineteenth-Century American Literature

#### Five Electives: 20 hours

Students may choose from

- English and American period courses
- Studies in Literature
- Language and Style
- Creative Writing courses in Fiction, Poetry, Creative Nonfiction (including Memoir, Personal Essay, Science and Nature Writing, and Travel Writing)
- Independent Study (maximum of four hours)
- Internship (maximum of four hours)
- Thesis Research (maximum of four hours; available for students exercising the thesis option)

### Good Standing

To achieve good standing in the program, students must:

1. Complete at least three courses within twelve months of their admission to the program, and
2. Maintain an overall grade-point average of at least 3.0. Students whose cumulative GPA falls below 3.0 will be placed on probation and given two quarters to raise their average to the minimum 3.0 level. Students on probation are required to consult with the program director before registering for classes. Failure to meet these requirements constitutes grounds for dismissal.

### Thesis Option

A thesis option is available to students who have a promising idea for an appropriate project. Proposals must earn the approval of an English Department graduate faculty member, who will serve as project director, and of the Program Director. Credit is earned through ENG 501. Please see the Program Director for more information on this option.
Entrepreneurship (BSB)

The Bachelor of Science in Business with a major in Entrepreneurship emphasizes the process of designing, launching, running and scaling a new business, often initially a small business through a period of rapid growth. Students develop an entrepreneurial mindset and apply knowledge and practical skills to identify new business opportunities, creatively solve problems within a design-thinking framework, analyze the industry and market, create revenue and business models, and develop management, market and financial strategies for the new venture or an established entrepreneurial organization to impact businesses, communities and society.

Entrepreneurship majors pursue different career paths, including planning for start-up and growth of their own businesses, leading and managing small and medium-sized enterprises, and are hired by entrepreneurs and corporations as business developers, innovators, new product developers, and consultants.

<td>192</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Understand and apply knowledge of the new venture creation process in entrepreneurial firms.
- Demonstrate entrepreneurial skills to develop a concept, engage in the design thinking process, research the industry and market, define the value proposition and strategy, build the team and create revenue and business models to support the venture’s strategy.
- Recognize and analyze ethical and legal issues within entrepreneurial businesses, and develop resolutions.
- Communicate effectively orally and in writing to stakeholders, including crafting the pitch and pitching your idea to potential investors.
- Exhibit knowledge of entrepreneurial practices to building and sustaining the environment for innovation in entrepreneurial firms.

College Core Requirements

Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of analytics, accountancy, mathematics, economics, business law, finance, management, management information systems/computer science, and marketing.

Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 70.0 hours are required:

1. Strobel students take specially designated sections of all required ACC classes, including ACC 101 and ACC 102 (excluding ACC 250).

2. Students majoring in accounting (primary or secondary/double major) are allowed to substitute ACC 370 in place of BLW 201. Hospitality Leadership majors must take HSP 207 for the Business Law requirement; use of HSP 207 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete both HSP 207 and BLW 201.

4. MGT 301-H is required if pursuing the Management Honors Program.

5. MIS majors and minors must take MIS 140. Actuarial Science and Economic Data Analytics majors must take CSC 241.

6. MKT majors and Sales minors must take MKT 376.

7. Entrepreneurship majors and minors must take ICS 394. Hospitality Leadership majors must take ICS 396 for the Business Capstone; use of ICS 396 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete ICS 396 and one of ICS 394 or ICS 395.

8. A course taken for Global Business Perspective that is in a student’s major or minor field must be completed with a minimum grade of C-.

Business Ethics
All undergraduate students in the Driehaus College of Business complete a course in Business Ethics. It is recommended students take MGT 248 or PHL 248 in Philosophical Inquiry or MGT 228 or REL 228 in Religious Dimensions in the Liberal Studies Program (or University Honors Program) Requirements.

Second Majors and Minors
The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements for all business majors (except Actuarial Science majors)
- MAT 137 may be replaced by MAT 348 or MAT 351.

Global Business Perspective
If a course is shared between Global Business Perspective and the Entrepreneurship major, additional hours of Open Elective credit are required.

Business Capstone Selection
Students majoring in Entrepreneurship must complete ICS 394 (https://catalog.depaul.edu/search/?P=ICS%20394) for the Business Capstone.

Grade Minimums for Management Major
A minimum grade of C- is required for the following: ACC 101, ACC 102, BUS 102, ECO 105, ECO 106, MAT 137, MGT 300, MGT 301, the course used for Professional Writing, and any MGT or major course used for Global Business Perspective.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

- 2 HI Courses Required

Math and Computing (MC) (p. 1306)
- Not Required

Philosophical Inquiry (PI) (p. 1307)
- 2 PI Courses Required

Religious Dimensions (RD) (p. 1308)
- 2 RD Courses Required

Scientific Inquiry (SI) (p. 1310)
- 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
- 1 SCBI Course Required
Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

In addition to MGT 300 (https://catalog.depaul.edu/search/?P=MGT%20300) and MGT 301 (https://catalog.depaul.edu/search/?P=MGT%20301) a student majoring in Entrepreneurship is required to complete the following courses totaling at least 42.0 hours:

<table>

Open Electives

Open elective credit (8.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

Global Business Perspective

If an course is shared between Global Business Perspective and the Entrepreneurship major, additional hours of Open Elective credit are required. Any course used toward the Entrepreneurship major and Global Business Perspective must be passed with C- or higher.

Business Capstone Selection

Students majoring in Entrepreneurship must complete ICS 394 (https://catalog.depaul.edu/search/?P=ICS%20394) for the Business Capstone.

Career Management Course

Students are required to complete the Career Course (250) associated with the major. Students who double major may choose the Career Course (250) associated with either major provided that hours for graduation are satisfied.

Experiential Learning

If either MGT 393 (https://catalog.depaul.edu/search/?P=MGT%2030393) or ICS 350 (https://catalog.depaul.edu/search/?P=ICS%2030350) is completed in the Entrepreneurship major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Management (MGT) and other courses used toward the Entrepreneurship major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Entrepreneurship (Minor)

Available to students majoring outside the Driehaus College of Business, the Entrepreneurship minor builds on the skill sets acquired in majors across the university to prepare for careers as entrepreneurs or to assume entrepreneurial leadership roles across a variety of industries and sectors. This skill set expansion across colleges/schools differentiates this program. Students will develop capabilities in areas including design thinking, creative problem-solving, working in teams, crafting organizational strategies, and innovating to impact organizations, communities and society.

Course Requirements

A non-Driehaus student minoring in Entrepreneurship is required to complete the following courses totaling at least 20.0 hours:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MGT 270</td>
<td>INTRODUCTION TO ENTREPRENEURSHIP</td>

Graduation Requirements
All Management (MGT) courses and any other courses used toward the Entrepreneurship minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Business Capstone Requirement
Driehaus student minoring in Entrepreneurship must complete ICS 394 in the Business Core unless majoring in Hospitality Leadership. Hospitality Leadership majors must complete ICS 396 in place of ICS 394.

Graduation Requirement
All Management (MGT) courses and any other courses used toward the Entrepreneurship minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Entrepreneurship (MS) Online
The nationally ranked Master of Science (MS) in Entrepreneurship prepares students to excel as leaders in start-ups, creative corporate environments, and organizations that support entrepreneurship. Students gain the proficiency necessary to take on a variety of entrepreneurial opportunities, such as creating a concept and starting a new business, pursuing entrepreneurship and innovation within existing companies such as cultivating new product development strategies, or becoming involved on the funding side with angel investment and venture capital firms. The cohorted program covers general business skills such as leadership, innovation management, and accounting and entrepreneurship-specific topics such as legal, financial, and creative aspects of ventures. Students can customize their degree by selecting elective classes on topics such as sustainable and social enterprise, marketing, or hospitality. Residencies offer an opportunity to establish connections in Chicago’s entrepreneurial ecosystem. Students can participate in the Coleman Entrepreneurship Center’s programs that offer mentorship, internships, workshops, and pitch competitions.

Program Features
Through the MS in Entrepreneurship program, you will gain knowledge in:

- Entrepreneurial mindset
- Innovation and design thinking
- Entrepreneurial leadership
- Social and Sustainable Enterprise
- Ethical decision-making
- Financial management
- Fundraising knowledge
- Sales and marketing
- Managing technology and change
- Legal aspects of entrepreneurship
Program Requirements

Degree Requirements 48

Total hours required 48

Learning Outcomes

Students will be able to:

- Explain the unique nature of entrepreneurship.
- Explain the entrepreneurial process.
- Demonstrate skills inquiry, critical thinking, problem solving, and strategic analysis.
- Effectively contribute to the performance of a group as the group addresses practical business situations, and assume a leadership role as appropriate.

Degree Requirements

Course Requirements

The MS in Entrepreneurship program requires twelve courses (48 credit hours) - eight core courses (32 credit hours), three elective courses (12 credit hours), and a required residency (4 credit hours).

Core Courses: 8 Required (32 credit hours)

Entrepreneurship (MS) Online, Combined Bachelor's + Master's Degree

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These three graduate level courses will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Entrepreneurship (MS) Online

The Master of Science in Entrepreneurship is designed for students who are interested in turning good opportunities into thriving businesses. Students gain the proficiency necessary to take on a variety of entrepreneurial opportunities, such as starting a new business, developing corporate innovation, cultivating new product development strategies, or becoming involved on the funding side with angel investment and venture capital firms. The program culminates in the new venture applied lab class where students are given the opportunity to launch and grow their entrepreneurial endeavor with the help of DePaul expert mentors.

DePaul degree-seeking undergraduate students interested in earning a Master of Science degree in Entrepreneurship may apply to the bachelor’s degree/Entrepreneurship (MS) combined program. Students may be able to obtain both degrees in as few as five years.

Admission

Students must formally apply and be admitted to the Department of Management before beginning their graduate coursework. Undergraduate students who meet the following criteria may apply to this program:

- Junior standing or higher (at least 88.0 credits)
- A minimum cumulative DePaul grade point average of 3.20
Students participating in this program will typically take the following three graduate level courses during their senior year:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACC 500</td>
<td>FINANCIAL ACCOUNTING</td>
<td>4</td>
</tr>
<tr>
<td>or ACC 502</td>

<tr>
<td>MGT 500</td>
<td>LEADING EFFECTIVE AND ETHICAL ORGANIZATIONS</td>
<td>4</td>
</tr>
<tr>
<td>MGT 570</td>
<td>ENTREPRENEURSHIP AND NEW VENTURE MANAGEMENT</td>
<td>4</td>
</tr>
</tbody>
</table>

1 Replaces MGT 302; prerequisite MGT 300.

These three courses may double-count up to 12 credits towards both degree programs. The undergraduate degree will be awarded at the completion of all undergraduate work while the MSE will be awarded upon completion of the remaining graduate level work.

Environmental Communication (Minor)

This minor provides a foundation in the communication skills that help shape and influence environmental attitudes, values, practices and policy. Students will learn about the more formal aspects of environmental communication (federal, state, and local policy) as well as the less formal (representations of nature in mediated contexts, environmental journalism, social movement rhetoric, and corporate communication about the environment). They will develop a heightened critical sensibility about the ways in which communication and discourse not only shapes our understanding of the environment but also influences political and personal action. On a more practical level, students will enhance their public speaking, writing, interpersonal, and leadership skills in environmental advocacy contexts. Students will gain skills in in-depth multimedia reporting on science and environmental issues, as well as the role of socially responsible journalism in facilitating public understanding of environmental issues and participation in environmental governance.

Course Requirements

A minor in Environmental Communication requires students to complete a total of 24 credit hours (six courses). To complete the minor, students must take:

Environmental Science (BS)

The Bachelor of Science degree in Environmental Science is a broad, science-based curriculum designed to prepare students for a variety of environmentally-related technical careers, as well as for graduate programs in environmental and allied fields. The program requires 192 credit hours and draws upon the faculty and resources of several departments. Majors take core courses in Biology, Chemistry, Environmental Science, Mathematics, and Physics, advanced study in Environmental Science and five university-wide electives.
Program Requirements | Quarter Hours
Liberal Studies Requirements | 76
Major Requirements | 96
Open Electives | 20
Total hours required | 192

Learning Outcomes
Students will be able to:

- Discuss how the four spheres of the natural world (biosphere, hydrosphere, atmosphere, and lithosphere) are interconnected for a given environmental issue.
- Demonstrate how humans impact the natural world and how the natural world impacts humans, including in the context of social and environmental justice.
- Critically evaluate the science behind complex environmental problems that humans currently face both locally and globally.
- Design and conduct a scientific investigation using appropriate tools and techniques to gather, analyze, and interpret data and communicate results in oral and written form.

College Core Requirements
Modern Language Requirements
Students who intend to graduate with the Bachelor of Arts (BA) degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

BA students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While Bachelor of Science (BS) students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Major Declaration Requirements
All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Students must earn a C- or better in this course. Students with a primary major in Environmental Science are required to complete the Capstone offered by the Environmental Science department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Environmental Science are required to complete the Capstone offered by the Environmental Science department. Environmental Science students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

Learning Domains
Arts and Literature (AL) (p. 1300)  
- 3 Courses Required

Historical Inquiry (HI) (p. 1304)  
- 2 Courses Required

Math and Computing (MC) (p. 1306)  
- Not Required

Philosophical Inquiry (PI) (p. 1307)  
- 2 Courses Required

Religious Dimensions (RD) (p. 1308)  
- 2 Courses Required

Scientific Inquiry (SI) (p. 1310)  
- Not Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)  
- 3 Courses Required

Notes
Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. (Courses in the range 150-199 are exceptions to this rule.) If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

GEO 242 GEOGRAPHIC INFORMATION SYSTEMS II: COMMUNITY GIS
GEO 243 EARTH OBSERVATION
GEO 343 EARTH OBSERVATION II
GEO 344 GEOGRAPHIC INFORMATION SYSTEMS III: SPATIAL ANALYSIS FOR SUSTAINABILITY

Environmental Science (BS) + Secondary Education Environmental Science (MEd)

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The TEACH Program combines a College of Science and Health (CSH) undergraduate Environmental Science major or some other disciplinary major with a graduate level College of Education (COE) Master of Education (MEd) Program. Students graduate with a BS in their CSH disciplinary major and a MEd in Education with a State of Illinois Secondary Environmental Science Certification.

Students may apply to the TEACH Program during the spring of their junior year. They must enroll in the Junior Year Experiential Learning course, TCH 320, and meet other application criteria; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 GPA. During their senior year, students are required to complete a TEACH Program capstone course, TCH 390, and three 400-level courses that count toward both their undergraduate and graduate degrees:

Junior Year Coursework: 4 undergraduate quarter hours required

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>TCH 320</td>
<td>EXPLORING TEACHING IN THE URBAN HIGH SCHOOL (fulfills the Liberal Studies Program experiential learning (EL) requirement)</td>

</tbody>
</table>

Senior Year Coursework: 4 quarter hours required

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>TCH 390</td>
<td>CAPSTONE: INTEGRATING EDUCATION &amp; DISCIPLINARY FOUNDATIONS (fulfills undergraduate Capstone requirement; major area may require a separate Capstone course)</td>
<td>4</td>
</tr>
</tbody>
</table>

1 Students in the University Honors Program and students with a double major may be required to take a different Capstone. If this is the case, they may choose to substitute ENV 350 as one of their required 300-level ENV courses or as an open elective.

2 Each quarter one or more versions of ENV 390 are offered. Some might be applicable to your major requirements. Please contact your advisor for details.

Environmental Science (BS) students are not eligible to earn a double major in Environmental Studies (BA)

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.
Environmental Science (Minor)

The Environmental Science minor offers students the strongest background in the science behind environmental issues. Students will understand and explore the natural world and our interactions within the natural and built environment.

- Environmental Science Seminar
- Environmental Impact Analysis

This combined degree program of the College of Science and Health and the College of Education was collaboratively developed, and is governed and taught by faculty from these units.

The Master's year comprises teacher-preparation coursework that culminates with student teaching during Spring quarter. Upon graduation and the fulfilling of State of Illinois licensure requirements (which may require some additional course work in the student's major and related fields), students are eligible to be licensed to teach Environmental Science at the 5th-12th grade levels.

A full description of the TEACH Program can be found here. (p. 1130) Students interested in the TEACH Program should consult with the designated TEACH Program advisor in their home department.

Environmental Science (MS)

DePaul's innovative MS program in Environmental Science provides a theoretically-grounded and professionally-oriented preparation for careers in environmental science. The degree will prepare students for a variety of environmental professions, including research careers. We envision that graduates will focus especially on careers in land management, including restoration ecology, species and landscape conservation, biodiversity management, green infrastructure management, urban ecology and a variety of ecological consultancy services.

Consistent with DePaul University's Department of Environmental Science and Studies expertise in urban biodiversity and associated management techniques, foundational courses introduce a range of novel ideas and methods that are employed in metropolitan conservation programs. Students are required to take advanced-level classes in data analysis and sustainability science. Through our partnerships with organizations throughout the region, students will witness how successful conservation is instituted in practice. Although there is

---

1. See your advisor to determine where ENV 390 classes fit into your DPR.

Environmental Science majors and environmental studies majors cannot earn a minor in Environmental Science.
an urban focus to the program, the balanced theoretical and hands-on emphasis of this degree will ensure that students can be creative problem solvers in a wide variety of ecological situations from wilder areas to the city core.

Students can choose between a professional track and a thesis track depending upon the career objectives. A suite of upper-level electives and allied field courses will ensure that students in the program are prepared for the next stages in their environmental careers.

The MS in Environmental Science may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MS/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Department of Environmental Science and Studies for additional information.

Environmental Science + Analytics Certificate
Environmental Science + GIS Certificate
Environmental Science + Sustainable Urban Food Systems Certificate

Program Requirements Quarter Hours
Degree Requirements 52
Total hours required 52

Learning Outcomes
Students will be able to:

• Develop an interdisciplinary base in environmental science with breadth in applied ecology, physical science, and natural resource management.
• Synthesize data, perspectives, and theories from the natural and social sciences to inform an integrated understanding of environmental challenges.
• Evaluate possible solutions to environmental problems by engaging in dialog across stakeholder groups (e.g. communities, government, nonprofits, private sector, scientists) and collaboratively achieve ethical compromise.
• Create oral and written products to communicate scientific findings and/or management outcomes to a wide audience, especially at the interface of science, policy, and the public.

SUSTAINABLE URBAN DEVELOPMENT
II: GREEN INFRASTRUCTURE & THE ENVIRONMENT

Students must take GEO 441 or document a comparable competency in Geographical Information Systems.

Program Graduate Student Handbook

Academic Probation
A student will be placed on academic probation at the time when their cumulative GPA falls below 2.70.

Academic Dismissal
A graduate student may be academically dismissed under one or more of the following violations of satisfactory progress: their cumulative GPA remains below 2.70 after one year of coursework while being on academic probation or lack of progress toward degree completion.

Conditional Admission
Students whose undergraduate degrees were in majors other than environmental science, ecology, or related fields may be conditionally admitted provided they complete the following minimum prerequisites as conditions: applied ecology [equivalent to ENV 250], earth system science [equivalent to ENV 216] or climate change [equivalent to ENV 230], statistics [equivalent to ENV 260 or BIO 206] and math up to and including precalculus [equivalent to MAT 130].

Readmission
The same readmission standards outlined in the Graduate Student Handbook and approval of the program director are observed for students in these programs.

Transfer Credit
No more than two graduate courses (8 quarter hours or its semester equivalent) may be transferred from another program or institution provided that they are equivalent to courses offered in DePaul's graduate program, and they did not count toward another degree at DePaul or another institution. Written approval must come from the Graduate Program Director and the Associate Dean for Graduate Studies.

Undergraduate Courses
No undergraduate courses shall count toward the graduate degree.

Graduation Requirements
Requirements include, but are not limited to, thirteen graduate courses (52 credit hours) at a minimum cumulative GPA of 2.70.

Graduation with Distinction
A minimum cumulative GPA of 3.70 for coursework applied toward the Environmental Science degree and high performance - as determined by the Environmental Science and Studies Department - on the thesis or independent project are required for graduation with distinction.

Time Limitation
The degree is expected to be completed in a maximum of six years.

Environmental Science (MS), Combined Bachelor's + Master's Degree

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These three graduate level courses will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Environmental Science (MS)

This combined degree program will give DePaul undergraduate students an accelerated pathway into the Environmental Science (MS) degree. For students in ENV, these classes could count towards their majors requirements. For students seeking the Environmental Science (BS) degree, the ENV classes could count towards their three required ENV upper-level electives and the GEO classes could count towards their three Allied Field requirements. For students seeking the Environmental Studies (BA) degree, the ENV classes could count towards their three Natural Science electives. Students from other departments should work with their college advising office for including these classes in their major or could take the classes as electives.

Admission
The universal combined degree will be open to all DePaul undergraduate students with

- At least 88 credits (juniors and seniors)
- GPA of 3.0 or higher in courses taken at DePaul University
- Successful completion (with a grade of C- or better) of the following undergraduate coursework:
  - Ecology (Equivalent of ENV 250 or BIO 215)
  - Earth System Science (equivalent of ENV 216)
  - Math up to and including pre-calculus (equivalent of MAT 130)

Students may apply for admission into the combined degree program in Environmental Science during their junior or senior year of study. To apply, students should submit the following materials to the Office of Graduate Admissions (graddepaul@depaul.edu)

- CSH Combined Program Application form (https://csh.depaul.edu/student-resources/advising-student-services/graduate-advising/forms/Pages/combined-degree-program-application.aspx)
- Official copy of undergraduate transcript
- Two letters of recommendation from science professors or professional supervisors
- A personal statement that explains your interest in the Environmental Science graduate program at DePaul. The statement should specify your career goals and any specific area of interest.

Students enrolled in the universal combined degree program will be awarded their Bachelor's degrees upon completion of their undergraduate degree requirements. They need to apply for undergraduate degree conferral when they reach the required credit hours and meet all other criteria for the baccalaureate degree.

Students can take any three of the following graduate level courses during their senior year:

- GEO 491 STATISTICAL DATA ANALYSIS FOR GIS
- SUD 402 SUSTAINABLE URBAN DEVELOPMENT II: GREEN INFRASTRUCTURE & THE ENVIRONMENT
- WRD 526 GRANT AND PROPOSAL WRITING
Environmental Studies (BA)

The BA degree in Environmental Studies provides students with a holistic education on environmental topics that includes the natural and social sciences as well as the humanities. The degree allows students to connect with present and emerging environmental problems in a uniquely interdisciplinary manner, and will prepare them for positions in environmental management and in environmentally themed non-profit organizations, to bring an environmental perspective to any career, as well as preparing them for further studies. The degree is focused on the comprehensive study of human interaction with the natural environment.

The BA degree offers students a choice of two concentrations: A standard concentration and a sustainability concentration. Within the sustainability concentration, students can further choose an urban sustainability focus. Students selecting the sustainability concentration will recognize the concept of “sustainability” as a dynamic condition characterized by the interdependency among physical, biological, economic, and social systems.

Students choosing the urban sustainability focus will be able to identify the concepts and methods of environmental economics, environmental politics, ethics, design, and human geography relevant to the sustainability of environmental resources and social institutions in urban settings; as well as recognize and understand the functions of sustainable institutions created for water, land, air, and urban management at multiple spatial and temporal scales.

Learning Outcomes

Students will be able to:

- Discuss how the four spheres of the natural world (biosphere, hydrosphere, atmosphere, and lithosphere) are interconnected for a given environmental issue.
- Demonstrate how humans impact the natural world and how the natural world impacts humans, including in the context of social and environmental justice.
- Identify and communicate the causes of and solutions to environmental issues from the social science, natural science, and humanities perspectives.
- Design, conduct, and evaluate environmental research using qualitative, quantitative, and mixed methods.

College Core Requirements

Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (BA) degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

BA students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the...
Liberal Studies Program. While Bachelor of Science (BS) students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

3 Students with a primary major in Environmental Studies are required to complete the Capstone offered by the Environmental Studies department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Environmental Studies are required to complete the Capstone offered by the Environmental Studies department. Environmental Studies students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

Learning Domains

Arts and Literature (AL) (p. 1300)
- 3 Courses Required

Historical Inquiry (HI) (p. 1304)
- 2 Courses Required

Math and Computing (MC) (p. 1306)
- 1 CR Course or 1 SR Course Required

Philosophical Inquiry (PI) (p. 1307)
- 2 Courses Required

Religious Dimensions (RD) (p. 1308)
- 2 Courses Required

Scientific Inquiry (SI) (p. 1310)
- Not Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
- 3 Courses Required

Notes

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.
ENV 203 CHEMISTRY FOR ENVIRONMENTAL STUDIES (WITH LAB) 1 4
or CHE 103 ENVIRONMENTAL CHEMISTRY

ENV 350 ENVIRONMENTAL SCIENCE AND STUDIES CAPSTONE (Liberal Studies Program Capstone) 2 4

1 Students can also complete CHE 134 with CHE 135 in place of ENV 203.
2 Students in the University Honor Program and students with a double major may be required to take a different Capstone. If this is the case, they may choose to substitute ENV 350 as one of their required 300-level ENV courses or as an open elective.

Concentration Requirements
Students must also complete the requirements from one of the following concentrations: Standard or Sustainability. Students are limited to only declaring one concentration.

Environmental Studies (BA) students are not eligible to earn a double major in Environmental Science (BS)

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

• Standard Concentration, Environmental Studies (BA) (p. 472)
• Sustainability Concentration, Environmental Studies (BA) (p. 472)

Environmental Science/Studies (BA/BS) + Master of Science in Sustainable Management (MSSM)

The combined degree provides environmental science/studies students with advanced knowledge of business systems and practices, focusing on environmental sustainability, to create leaders for business, government and civic organizations. For more information on the full Master of Science in Sustainable Management curriculum, go to MSSM degree requirements found within the graduate programs section of the University Catalog.

Admission Requirements
Current DePaul Environmental Science or Studies majors who meet the following criteria may apply to this program:

• Junior standing or higher (at least 88.0 credits)
• A minimum cumulative DePaul grade point average of 3.300

Admission to the combined program does not require the GMAT, essays, or letters of recommendation.

Classes During Senior Year
If accepted into the combined program, students will take three graduate classes during the senior year. These three graduate classes at 12 quarter hours will count toward the bachelor’s degree - as indicated below - and toward the master’s degree. Students must apply for degree conferral in order to be eligible to graduate with either the BA in Environmental Studies or the BS in Environmental Science before matriculating into the MSSM program.

Students are limited to applying a maximum of three graduate courses as 12 quarter hours toward both the bachelor’s and master’s degrees. Students should note that expectations for graduate classes are typically more rigorous than for undergraduate classes. Students can choose from the following list of core MSSM courses; other options available upon consultation with the MSSM advisor.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

<td>SUSTAINABLE VALUE CREATION 3</td>
<td>4</td>
</tr>
</tbody>
</table>

1 • Place in ENV-BA curriculum: MGT 515 would count as an ENV Social Science elective.
   • Place in ENV-BS curriculum: Free elective.
   • Place in MSSM curriculum: Core course.

2 • Place in ENV-BA curriculum: Free elective.
   • Place in ENV-BS curriculum: Free elective.
   • Place in MSSM curriculum: Business foundation elective.

3 • Place in ENV-BA curriculum: FIN 559 would count as an ENV Social Science elective.
   • Place in ENV-BS curriculum: Free elective.
   • Place in MSSM curriculum: Core course.

Final Quarter of Senior Year
During the final quarter of the bachelor’s degree, students must petition for formal admission into the Kellstadt Graduate School of Business. The admission criteria are as follows:

• Completion of the Bachelor of Arts in Environmental Studies or Bachelor of Science in Environmental Science
• A minimum cumulative DePaul grade point average of 3.300
• A minimum grade point average for graduate courses of 3.000.
• Student must apply for undergraduate degree conferral of their Environmental Science or Studies program in anticipation of completing their fourth year of study.

After Senior Year
After completion of the undergraduate degree including the three graduate courses, students take nine additional graduate classes to complete the graduate degree, for a total of twelve graduate classes. Information on the MSSM degree can be found in the graduate program degree requirements section of the University Catalog.

For an application to the combined program (at the end of your junior year) or to learn more about it, please contact the chair of the Environmental Science and Studies department.

ENV 390 SPECIAL TOPICS IN ENVIRONMENTAL SCIENCE

Environmental Science majors and Environmental Studies majors cannot earn a minor in Environmental Studies.

Event Planning (Minor)
The minor in Event Planning provides DePaul students across the university with a complete understanding of successful event executions that are relevant to their major fields. The course offerings in event planning cover a wide range of subject areas pertinent to successful planning, implementation and evaluation of special events. In addition, students learn to consider event planning processes from multiple perspectives, including logistics, programming, promotions, finance, and sponsorships.

Course Requirements
A minor in Event Planning requires students to complete a total of 24 credit hours (six courses). To complete the minor, students must take:

<table>
<thead>
<tr>

- PRAD 352 DIGITAL ADVERTISING
Exceptionality and Learning (Minor)

The needs of children and youth with disabilities are met by a variety of professionals working in contexts inside and outside of schools, including backgrounds such as psychology, nursing, health science, and public health studies. The Exceptionality and Learning Minor is designed to prepare candidates in fields outside of education to understand and effectively work with children and youth with disabilities. Course content within the minor includes typical and atypical development, characteristics of individuals with disabilities, collaborative practices, and behavior management, all considered within and beyond the classroom setting. This minor is designed to appeal to candidates from fields outside of education.

Course Requirements

The Exceptionality and Learning Minor requires 20 credit hours (5 courses).

External Master of Science in Human Resource Management (EMSHRM)

The Executive Master of Science in Human Resources Management (EMSHRM) is for high potential, experienced human resource professionals who want to move into senior HR leadership roles. In this program you'll acquire the skills and knowledge necessary to develop and execute effective human capital strategies that drive change in organizations. The curriculum has been designed to highlight the importance of business acumen, leading at the executive level, professional development, self-awareness, professional ethics, and core HR knowledge in the areas of talent acquisition, talent management and development, total rewards, global HR, and diversity and inclusion. You'll progress through this accelerated program with a cohort of peers. Courses are primarily delivered online, with three four-day on-campus sessions, providing you the flexibility to meet professional and family responsibilities while earning your degree.

Learning Outcomes

Students will be able to:

- Understand and apply information that contributes to an organization's strategic plan.
- Apply analytical and problem-solving skills to make decisions based upon best practices or research.
- Value and consider the perspectives and backgrounds of individuals from different cultures, understand the differences in rules and business operations in different cultures, and approach decisions with an openness to various cultural perspectives.
- Understand how to direct and contribute to initiatives and processes throughout an organization.
- Exhibit sophisticated knowledge of HR practices leading to applicable skills in relevant areas (e.g., selection, training, compensation, and performance management) that lead to professional HR career-related success.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Effectively exchange information with others via a coherent written statement and oral presentation of the analysis of a complex business issue.
• Demonstrate higher-order cognitive skills to analyze an unstructured problem, formulate and develop a solution using appropriate technology, and effectively communicate the results to stakeholders.

Degree Requirements
The curriculum requires 13 courses and 3 in-person residencies (48 credit hours)

Exercise Science (BS)
The Exercise Science (EXS) degree program includes a knowledge base in the scientific principles that underlie human movement and requires the development of basic skills in exercise assessment, prescription and programming in healthy and special populations, performance enhancement, prevention and treatment of sports injuries, nutritional principles applied to exercise and sport, patient/client interpersonal relations and professional ethics and behavior.

Students receiving this degree are qualified to pursue careers in areas such as cardiopulmonary rehabilitation, strength and conditioning, corporate fitness, sports medicine, community health and wellness, and personal training or can pursue graduate work in numerous fields related to the health, fitness, exercise sciences, and physical therapy.

The American College of Sport Medicine (ACSM), as the professional organization that establishes guidelines and competencies for the field of Exercise Science, serves as the guiding professional organization for program academic quality. The American Physical Therapy Association was the guiding professional organization used to establish the courses included for the Pre-Physical Therapy concentration.

Students should meet early and regularly with their advisor to design and monitor their program of study.

BS Concentrations
The Exercise Science (BS) program has two concentrations:
• Exercise Science General Concentration
• Exercise Science Pre-Physical Therapy Concentration

Please make sure you consult the Liberal Studies Requirements, Major Requirements, Concentration Requirements, and College Core Requirements for full degree requirements.

Learning Outcomes
Students will be able to:
• Describe and apply physiological principles related to skillful movement, physical activity, and fitness.
• Describe and apply psychological/behavioral theory related to skillful movement, physical activity, and fitness.
• Describe and apply motor development theory and principles related to skillful movement, physical activity, and fitness.
• Demonstrate their understanding of how the human body moves, based on the knowledge of muscles, bones, connective tissues, and the related physical laws of movement.
• Evaluate and prescribe exercise as a therapeutic modality based on concepts and theories of exercise physiology.
• Ensure that programs they may work in are comprehensive and follow professional standards based on their understanding of the central aspects of exercise science program design.
• Demonstrate their knowledge of how racism and culture impacts their professional goal of ensuring that all individuals become “physically literate individuals”.
• Provide high quality fitness evaluations and goal setting for a variety of individuals based on knowledge and skills of assessment.
• Demonstrate their knowledge and appreciation of appropriate safety issues and injury prevention protocols.
• Demonstrate their knowledge of disease prevention as it relates to healthy individuals as well as those involved in sports and exercise.
• Demonstrate their knowledge of nutrition as it relates to healthy individuals as well as those involved in sports and exercise.
• Participate in activities that enhance collaboration and lead to professional growth and development.
• Demonstrate behaviors that are consistent with the professional ethics of qualified professionals.
• Identify historical, philosophical, social, and ethical perspectives of kinesiology issues and related legislation.

### College Core Requirements

#### Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
- Takes initiative
- Is open to new ideas and engagement in learning
- Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
- Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Demonstrates consistent professional behavior across all academic settings
- Maintains appropriate interpersonal and professional boundaries
- Accepts personal responsibility for one’s behavior
- Expresses feelings and opinions effectively and appropriately
- Upholds confidentiality

#### Field Experiences

Each student must complete s field experiences in appropriate settings in conjunction with courses. The field experiences must include a variety of settings, multicultural experiences, and thirty hours upon completion of coursework. All field experiences must be completed prior to final approval for internship. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

#### Exercise Science Requirements

Internship is the culminating clinical experience in the student’s program. All students must meet the following requirements before applying for internship:
Academic Requirements:
• Completion of all Liberal Studies and content Exercise Science courses.
• Overall cumulative GPA of 2.00 or better
• Meet designated program standards

Clinical Requirements:
• Completion of all required field experiences
• Three satisfactory faculty recommendations
• Attend mandatory meeting for internship candidates
• Application for internship, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for internship and complete internship and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter in which they complete their internship.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Internship Requirement
Consult with Physical Education faculty members and the office of student teaching for procedures for the internship. The internship experience is done at the very end of the program and requires all coursework for the major and liberal studies to be completed.

Internship: 10 quarter hours required, grade of B- or better require
Registration in internship requires completion of all requirements and procedures above. All students also take PE 387, Capstone Seminar with the internship (listed in the Liberal Studies section).

• PE 380 INTERNSHIP IN EXERCISE SCIENCE (10 quarter hours)

Liberal Studies Requirements
General Concentration
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Notes
Courses offered in the student’s major cannot be taken to fulfill LSP Domain requirements.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

As an Exercise Science major (EXS) you have the choice between the general concentration (EXS) and the Pre-PT concentration (EXS-PT). Both these concentrations prepare you for the same career options, but the curriculum included in the Pre-PT concentration will also include those courses required to apply to a Physical Therapy graduate program.

Specific degree requirements are determined according to the Concentration chosen by the student. Please review the concentration requirements pages for more information.

• General Concentration, Exercise Science (BS) (p. 479)
• Pre Physical Therapy Concentration, Exercise Science (BS) (p. 479)

1 Students must earn a C- or better in this course.
2 This must be taken with an internship. Students must earn a C or better in this course.

Experience Design (MA)

The MA in Experience Design is an interdisciplinary program that prepares future experience designers by providing a foundation in design methods, research, and collaboration. Students learn to apply theoretical frameworks and research methods to understand systems, define problems, and communicate potential solutions and their impact. By working on collaborative projects with local communities, students learn to create design-based artifacts tied to human-centered problems in a chosen disciplinary area (ex., web/mobile design, game design, learning design).

</tbody>
</table>

Learning Outcomes

Students will be able to:

- Apply theoretical frameworks and research methods to understand systems, define problems, and communicate potential solutions and their impact.
- Plan and apply design methods to conceptualize, design, and communicate human-centered experiences to achieve a range of desired outcomes.
- Create design-based artifact tied to human-centered problems in a chosen disciplinary area (ex, web/mobile design, game design, learning design).
- Plan and develop experiences within cross-disciplinary teams and in collaboration with local communities and organizations.

**Degree Requirements**

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in the designated program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all graduate courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
- Students pursuing a second master’s degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction. For DePaul’s policy on repeat graduate courses and a complete list of academic policies, see the DePaul Graduate Handbook in the Course Catalog.

**Family Nurse Practitioner Certificate**

The certificate option will allow for licensed registered nurses holding a graduate degree to complete the coursework necessary to sit for certification as a nurse practitioner. Upon completion of the program, graduates are eligible to take certification exams provided by either the American Nurse Credentialing Center (ANCC) or the American Academy of Nurse Practitioners Certification Program (AANPCP). Those seeking certification in the population specific options offered by the School are able to take an exam through either certifying body.

The population targeted by the program consists of graduates of the entry to practice program at DePaul University as well as other programs in the State of Illinois. Additionally, this program allows any registered nurse with a graduate degree to pursue nurse practitioner training. Alumni have often communicated the desire for nurse practitioner training without immediately pursuing the doctorate. This certificate offering will provide that training, allowing experienced nurses to practice at an advanced level prior to completing the terminal degree.

The Family Nurse Practitioner Certificate program must follow the academic standing, probation and dismissal guidelines, among the other guidelines, found in the Program Graduate Academic Student Handbook for the Doctor of Nursing Practice program.

Students in the Family Nurse Practitioner Certificate program must apply for degree conferral via Campus Connection in advance of their final
quarter in the program in order to have their coursework audited for the awarding and delivery of their certificate.

Total Credit Hours: 46

This graduate certificate program is approved as a Gainful Employment Program through the U.S. Department of Education and is, therefore, eligible for Federal Student Aid.

**Fandom, Cult Media and Subculture (Minor)**

The College of Communication currently features multiple classes across many programs and curricula that all focus on the idea of "cult" media or subcultural audiences— that is, aspects of culture that are separate from, or differentiate themselves from the mainstream, or that present new ways of examining consumers and the emotional resonance of various media products on contemporary audiences. Courses that focus on genre films and television, audience analysis, affect, and cult products span the Media and Cinema Studies program, the Journalism program, the Public Relations and Advertising program, and the Communication Studies program. The Fandom, Cult Media, and Subcultural Studies minor will unite these courses under one banner in order to provide interested students with a focused concentration on fandom and cult media. The purpose of this minor is to allow students to understand how audiences and media producers design media texts to confront and challenge contemporary ideologies, to offer alternatives to the mainstream, and to engineer deliberate affective reactions in audiences.

A minor in Fandom, Cult Media, and Subcultural Studies requires students to complete a total of six courses (24 credit hours).

**Film & Television (BA)**

The BA in Film & Television provides students with a generalist approach to film and television production. The degree will cover the primary media in which directors, cinematographers, documentarians, editors, producers, production designers, screenwriters, sound designers, and visual effects artists work.

**Learning Outcomes**

Students will be able to:
• Write a screenplay in proper format employing standard narrative conventions.
• Demonstrate an understanding of visual style.
• Demonstrate an understanding of the pre-production process.
• Perform all basic tasks of all crew positions.
• Direct a crew and talent on location.
• Show a working knowledge of visual composition, cinematic exposure standards and basic semiotics.
• Use the principles of invisible editing and montage.
• Understand all the basic tasks of the post-production sound process.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Senior Year

Capstone

| FILM 398 DIGITAL CINEMA CAPSTONE (FORMERLY DC 398) | 4-4.5 |

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.

Learning Domains

Arts and Literature (AL) (p. 1300)  
- 3 Courses Required

Historical Inquiry (HI) (p. 1304)  
- 2 Courses Required

Math and Computing (MC) (p. 1306)  
- 1 CR Course or 1 SR Course Required

Philosophical Inquiry (PI) (p. 1307)  
- 2 Courses Required (See note below)

Religious Dimensions (RD) (p. 1308)  
- 2 Courses Required (See note below)

Scientific Inquiry (SI) (p. 1310)  
- 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)  
- 3 Courses Required

Notes

Students must take one of the following ethics courses: FILM 228/GAM 228/IT 228 (PI), PHL 248/MGT 248 (PI) or REL 228/MGT 228 (RD).

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit.

This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Film & Television (BFA)

The BFA in Film & Television provides students with the ability to specialize in a specific area of film and television production by choosing one of 11 concentrations: cinematography, comedy filmmaking, creative producing, directing, documentary, editing, production design, screenwriting, showrunner, sound design, and visual effects.

Concentrations

Cinematography Concentration
The cinematography concentration will provide a strong technical foundation for cinematographers enabling students to focus on lighting, color correction, or special effects while facilitating the creation of more portfolio pieces.

Comedy Filmmaking Concentration
This robust four-year comedy filmmaking concentration will enable students to have sufficient time to develop a methodology for creating, developing and showcasing their comedic writing and directing, from the script to the screen. Additionally, these students will have access to Second City’s Master Seminar classes.

Creative Producing Concentration
The creative producing concentration allows students to achieve competency in multimedia streaming, creative financing structures, international distribution, intellectual property and original content acquisition. This concentration will enable students to oversee more portfolio pieces.

Directing Concentration
The directing concentration lays a strong foundation for students who wish to direct coupled with a strong technical and storytelling foundation.

Documentary Concentration
The documentary concentration provides students with the opportunity to experience different documentary modes of production, dig deeper into issues that interest them, and experiment with the styles of documentary creation that are best suited to their personal vision.

Editing Concentration
The editing concentration will provide a solid foundation in managing media during production to editing and finishing a project. This includes picture, sound, titles, color correction, and mastering workflows. The concentration will allow students to specialize in both the technical and creative aspects of editing.

Production Design Concentration
The production design concentration was developed in conjunction with DePaul’s Theater School and provides students with a strong foundation in production design across several media. Students can specialize in various crafts including art direction, scene design, costume design, property, hair and makeup.

Screenwriting Concentration
The screenwriting concentration enables students to enhance their creative voice and spec portfolio which will prepare them to become professional screenwriters.
Showrunner Concentration
The showrunner concentration will allow students to hone and showcase their voice within the web series format. Showrunners have become the most sought-after producers in an ever-changing television landscape, as studios and networks. Emphasis will be placed on branding and marketing in addition to cultivating innovative storytelling techniques.

Sound Design Concentration
The sound design concentration provides a solid foundation in sound design for the visual image. The concentration will provide deep exploration of all elements of sound design including audio engineering, field recording, dialogue recording, dialogue and sound effects editing, sound mixing, re-recording mixing, deliverables, and film scoring.

Visual Effects Concentration
In the visual effects concentration students learn digital composition, motion capture, match moving techniques, and other ways to acquire and combine various elements into fully realized VFX sequences.

</table>

Learning Outcomes
Students will be able to:

- Write a short screenplay in proper format employing standard narrative conventions.
- Direct a crew and talent/subject in a fiction or non-fiction film.
- Employ the principles of invisible/continuity cutting and montage in picture editing.
- Perform basic tasks of the post-production sound process including sound editing and mixing.
- Use compositional rules, lighting/exposure techniques, and visual design elements in the filming of shots and scenes.
- Apply basic functions of the pre-production process, including scheduling and budgeting.
- Identify major genres, figures, and works in contemporary and historical film and television.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

FILM 398 DIGITAL CINEMA CAPSTONE (FORMERLY DC 398) 4

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.
This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Concentration Requirement**
Students in the BFA Film & Television major must declare a concentration and complete the requirements from the declared concentration. Concentrations include: Cinematography, Comedy Filmmaking, Creative Producing, Directing, Documentary, Editing, Production Design, Screenwriting, Showrunner, Sound Design, and Visual Effects. See the concentration page for a full list of required courses.

**Degree Requirements**
Students in this degree must meet the following requirements:

- Complete a minimum of 192 credit hours.
- Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses.
- Earn a grade of D or higher in all other Liberal Studies and Open Elective courses.
- Maintain a cumulative GPA of 2.0 or higher.

Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:

- Cinematography Concentration, Film & Television (BFA) (p. 486)
- Comedy Filmmaking Concentration, Film & Television (BFA) (p. 487)
- Creative Producing Concentration, Film & Television (BFA) (p. 487)
- Directing Concentration, Film & Television (BFA) (p. 488)
- Documentary Concentration, Film & Television (BFA) (p. 489)
- Editing Concentration, Film & Television (BFA) (p. 490)
- Production Design, Film & Television (BFA) (p. 491)
- Screenwriting Concentration, Film & Television (BFA) (p. 492)
- Showrunner Concentration, Film & Television (BFA) (p. 492)
- Sound Design Concentration, Film & Television (BFA) (p. 493)
- Visual Effects Concentration, Film & Television (BFA) (p. 494)

Open Electives
Open elective credit hours are required to meet the minimum graduation requirement of 192 hours. Open electives may be taken from any unit at DePaul.

Film & Television (MS)
The Master of Science in Film and Television emphasizes technical and creative proficiency in the areas of cinematography, editing, sound, and visual effects for the screen. This intensive program is designed for students looking to acquire and further professional career skills in film and television. The degree is well-suited for career-changers as well as experienced professionals who want to add new technologies and creative workflows to their expertise.

Concentrations
Cinematography Concentration
Students develop a foundation in production for film, TV and the Web, while specializing in camera and lighting.

Editing Concentration
Students develop the skills needed for careers in editing for all media. Advanced courses investigate picture editing, sound, and post production techniques.

Sound Concentration
Students develop the skills necessary to work in sound for cinema. Coursework includes advanced classes in location sound recording, dialogue editing, sound mixing, and scoring.

Visual Effects Concentration
Students cultivate skills for the visual effects industry including compositing, computer graphics, and color correction.

Program Requirements Quarter Hours
Degree Requirements 52
Total hours required 52

Learning Outcomes
Students will be able to:
• Design film content that exhibits a cohesive creative perspective.
• Identify pre-production, production, and post-production workflows.
• Edit film content to meet professional standards.
• Demonstrate proficiency in the basic tasks of post-production sound process.
• Employ color correction processes and advanced compositing techniques in finishing a film.
• Illustrate a mastery of visual composition, cinematic exposure standards, and basic semiotics.

Degree Requirements
Course Requirements
No Introductory Course may be substituted for any other course at any level.

Course requirements are determined by the concentration chosen.

Degree Requirements
Students in this degree program must meet the following requirements:
• Complete a minimum of 52 graduate credit hours in the designated degree program.
• Complete all graduate courses and requirements listed in the designated degree program.
• Earn a grade of C- or better in all courses in the designated degree program.
• Maintain a cumulative GPA of 2.5 or higher.
• Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
• Students pursuing a second master’s degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

For DePaul’s policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook.

Concentration Requirements
Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:
• Cinematography Concentration, Film & Television (MS) (p. 495)
• Editing Concentration, Film & Television (MS) (p. 496)
• Sound Concentration, Film & Television (MS) (p. 496)
• Visual Effects Concentration, Film & Television (MS) (p. 497)

Film & Television Directing (MFA)

This degree is the highest level of training in digital filmmaking. The MFA in Film & Television Directing program is a highly selective program that culminates in the successful completion of the MFA thesis project, a public presentation of the thesis project, and a defense of the thesis to the student's MFA committee.

Program Requirements

<table>
<thead>
<tr>
<th>Quarter Hours</th>
<th>Degree Requirements</th>
</tr>
</thead>
<tbody>
<tr>
<td>96-100</td>
<td>Full Program</td>
</tr>
<tr>
<td></td>
<td>Total hours required</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Write short or feature screenplays in proper format employing standard narrative.
- Demonstrate a mastery of directing and casting actors in a fiction film.
- Express picture editing, visual effects, and sound design preferences to post-production crew members using proper terminology.
- Employ advanced functions of the producing process, including scheduling, budgeting, pitching, packaging, and distribution.
- Communicate short setup and framing preferences using proper cinematographic and visual design terminology.
- Create short filmic works in a variety of genres and processes, such as documentary, experimental, and television.
- Identify major genres, figures, and works in contemporary and historical short and feature films.

Degree Requirements

Course Requirements

No Introductory Course in any other program may be substituted for any other course at any level.

1. Students who are required to take this course must take the course during the Fall quarter of their first year and consult their advisor about their course sequence for their first year in the program.

Optional Los Angeles Quarter

Students may apply to participate in the Los Angeles Quarter Program for the spring of their third year; they will spend 12 weeks in Hollywood doing industry internships, living with their fellow DePaul classmates, and having twice-weekly classes on an industry lot where they will have intimate question and answer sessions with industry professionals in all aspects of the film, TV, and video game world. If selected to participate in the LA program, MFA in Film and Television Directing students would take SCWR 446 and FILM 499 in Los Angeles.

MFA Thesis

The MFA Thesis should be a significant work that demonstrates a mastery of cinematic storytelling technique to convey the filmmaker’s unique voice and vision. This project may be a short film or television/web series pilot. Feature films may be permitted with approval from the student’s thesis committee.

**Thesis Committee**

Students will be asked to submit five preferences for full-time faculty members to serve on their thesis committees. Two committee members and one thesis chair will be assigned to each student by the Production-MFA Committee. During the thesis phase, the thesis committee supervises a student’s project. Approval to proceed to the thesis classes is at the sole discretion of the thesis committee. If the thesis committee denies approval, students may appeal to the Production-MFA Committee. If appeals are denied, students are dismissed from the MFA program. Students in good academic standing may choose to complete an MS in Film and Television.

**Thesis Classes**

There are four crucial milestones a student must pass in order to proceed with thesis classes:

1. **Script Approval**
   - The thesis committee must approve a student’s thesis screenplay before admission will be granted to FILM 501. The thesis committees will notify the instructor of FILM 501 of approved students.

2. **Principal Photography**
   - MFA students should complete principal photography prior to taking POST 500. Only instructor approval (not thesis committee approval) is necessary to register for this class. If the instructor deems the student not ready to register for POST 500, the student must wait until the class is offered again, and must again seek instructor approval to register.

3. **Picture Lock**
MFA students must edit and picture lock their films prior to taking POST 520 and POST 580. Thesis committees will notify the instructors of POST 520 and POST 580 of approved students, and the instructors will grant approval to register. If the thesis committee deems the student not ready to register for POST 520 and POST 580, the student must wait until the classes are offered again, and must again seek committee approval to register.

4. Final Thesis Delivery, Screening and Defense
MFA students will deliver their finished projects their thesis committees for exhibition at a culminating screening of all thesis films. After the screening, students will schedule a formal defense of their thesis films. If the film passes and upon completion of the required 96/100 credits of coursework, the student will be awarded an MFA. If the film does not pass, the student may revise it and re-defend. If the film does not pass again, the student will be dismissed from the MFA program. Students in good academic standing may choose to complete an MS in Film and Television.

FILM 701 THESIS CONTINUATION
This zero-credit course is for students who do not continue with the thesis classes as scheduled. A student’s MFA thesis committee chair may enroll a student in FILM 701 a maximum of six times. Failure to enroll in a course for three straight quarters will lead to a student becoming inactive at the university, and will require the student to reapply to the program should they wish to finish their degree. Re-admission cannot be guaranteed, and the student will be subject to follow the curriculum in place when they return.

Time Limit to Finish Degree
Students must complete all required coursework and defend their finished thesis projects in no more than five years from their first enrollment in the program. If the student does not complete the above requirements in the required five years, the student will be dismissed from the MFA program. As per University policy, during their college career, students may be allowed one medical/personal approved administrative withdrawal and one college office administrative withdrawal, each for one or more courses in a single term. Such withdrawals do not count towards the time limit to finish the degree.

Degree Requirements
Students in this degree program must meet the following requirements:

• Complete a minimum of 96 graduate credit hours in addition to any required introductory courses of the designated degree program.
• Complete all graduate courses and requirements listed in the designated degree program.
• Earn a grade of C- or better in all graduate courses of the designated degree program.
• Maintain a cumulative GPA of 3.0 or higher.
• Satisfactorily complete the MFA thesis as determined by the student’s MFA Advisor Committee.
• Students cannot count credit earned towards a previously awarded master’s or MFA degree toward the completion of this MFA program.

For DePaul’s policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook.

Sample Schedule
The representation of these course requirements on a year-by-year basis is just a suggestion. Students are free to take these courses in any order they choose, provided they have mastered the course-specific prerequisites.

Film Production (Minor)
The minor in Film Production provides students with hands-on experience utilizing the latest digital technology in motion picture production while incorporating classic cinema narrative theory and aesthetics.

Finance (BSB)
DePaul’s Finance program will provide you with a solid foundation in financial management and an understanding of public and private financial processes, financial markets, analysis and investments.
As a Finance major, you will take courses in:

- Corporate finance
- Financial statements analysis
- Investment theory and practice
- Money and banking
- Quantitative reasoning
- Risk management

You will also take multiple elective courses. Depending on your career goals, you may take a series of courses that focus on one of the following areas:

- Banking and financial services
- Corporate financial management
- Investment analysis/management
- Risk management

DePaul’s Driehaus College of Business is located in downtown Chicago, in the heart of the city’s financial district, providing you with countless opportunities to intern and work professionally with leading companies in the business industry. You are encouraged to complete an internship with a Chicago-area business during the summer preceding either your junior or senior year.

Learning Outcomes

Core Outcomes

Students will be able to:

- Use analytical and reflective skills in decision making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Program Specific Outcomes

Students will be able to:

- Understand financial theory and how it can be applied to financial decision making.
  - Develop appropriate cash flows and discount rate analysis of projects, and financial instruments (e.g. bonds and stocks).
  - Apply and interpret the appropriate risk measures (e.g. beta, standard deviation) to situations under uncertainty.
  - Understand the role of agents and impact of governance.
  - Understand the structure of the financial markets and the roles of institutions in those markets.
- Understand the flow of funds in the private and public markets.
- Know the determinants of the cost of funds.
- Understand how derivative instruments work and can be used for risk management.
- Develop appropriate cash flows and discount rate analysis of projects, and financial instruments (e.g. bonds and stocks).
- Apply and interpret the appropriate risk measures (e.g. beta, standard deviation) to situations under uncertainty.
- Understand the role of agents and the impact of governance.
- Understand the flow of funds in the private and public markets.
- Know the determinants of the cost of funds.
- Understand how derivative instruments work and can be used for risk management.

College Core Requirements

Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of analytics, accountancy, mathematics, economics, business law, finance, management, management information systems/computer science, and marketing.

Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 70.0 hours are required:

<table>
<thead>
<tr>
<th>Course</th>

</tbody>
</table>

1 Strobel students take specially designated sections of all required ACC classes, including ACC 101 and ACC 102 (excluding ACC 250).

2 Students majoring in accounting (primary or secondary/double major) are allowed to substitute ACC 370 in place of BLW 201. Hospitality Leadership majors must take HSP 207 for the Business Law requirement; use of HSP 207 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete both HSP 207 and BLW 201.

3 Finance majors, Finance secondary/double majors, Finance minors, Finance Honors majors, Finance Honors secondary/double majors, and Actuarial Science majors must take FIN 320.

4 MGT 301-H is required if pursuing the Management Honors Program.

5 MIS majors and minors must take MIS 140. Actuarial Science and Economic Data Analytics majors must take CSC 241.

6 MKT majors and Sales minors must take MKT 376.

7 Entrepreneurship majors and minors must take ICS 394. Hospitality Leadership majors must take ICS 396 for the Business Capstone; use of ICS 396 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete ICS 396 and one of ICS 394 or ICS 395.

8 A course taken for Global Business Perspective that is in a student’s major or minor field must be completed with a minimum grade of C-.

### Business Ethics  
All undergraduate students in the Driehaus College of Business complete a course in Business Ethics. It is recommended students take MGT 248 or PHL 248 in Philosophical Inquiry or MGT 228 or REL 228 in Religious Dimensions in the Liberal Studies Program (or University Honors Program) Requirements.

### Second Majors and Minors  
The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

### Math Requirements for all business majors (except Actuarial Science majors)  
- MAT 137 may be replaced by MAT 348 or MAT 351.

### Global Business Perspective  
If a FIN course is shared between Global Business Perspective and the Finance major, additional hours of Open Elective credit are required.

### Grade Minimum Requirements for Finance Major  
A minimum grade of C- is required for the following: ACC 101, ACC 102, BUS 102, ECO 105, ECO 106, FIN 310, FIN 320, MAT 137, the course used for Professional Writing, and any FIN course used for Global Business Perspective.

### Liberal Studies Requirements  
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Senior Year

Capstone
ICS 392 SENIOR SEMINAR ¹ 4

¹ Students must earn a C- or better in this course.

Learning Domains

Arts and Literature (AL) (p. 1300)
- 3 AL Courses Required

Historical Inquiry (HI) (p. 1304)
- 2 HI Courses Required

Math and Computing (MC) (p. 1306)
- Not Required

Philosophical Inquiry (PI) (p. 1307)
- 2 PI Courses Required

Religious Dimensions (RD) (p. 1308)
- 2 RD Courses Required

Scientific Inquiry (SI) (p. 1310)
- 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
- 1 SCBI Course Required

¹ PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD.

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

In addition to FIN 310 and FIN 320, a student majoring in Finance is required to complete the following courses totaling at least 34.0 hours:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>

</tbody>
</table>

¹ RE 350 and FIN 350 are cross listed and may only be completed once for credit.

The Department of Finance enforces all course prerequisites; exceptions will not be made.

Students are encouraged to seek an internship with a Chicago-area business during the summer preceding either their junior or senior year.
Open Electives
Open elective credit (16.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

Global Business Perspective
If a FIN course is shared between Global Business Perspective and the Finance major, additional hours of Open Elective credit are required. Any FIN course used toward Global Business Perspective must be passed with C- or higher.

Career Management Course
Students are required to complete the Career Course (250) associated with the major. Students who double major may choose the Career Course (250) associated with either major provided that hours for graduation are satisfied.

Experiential Learning
If FIN 393 is completed in the Finance major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements
All Finance (FIN) courses and any courses used toward the Finance major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Curricular Specializations
The Department offers four recommendations for students who would like to focus their studies on one area of expertise. These areas are optional; no curricular specialization is required for the major.

Finance (Minor)
Available to students majoring outside the Driehaus College of Business, a minor in Finance provides a student with a basic foundation in financial management, along with an understanding of financial markets, analysis, and investments.

Prerequisite Requirements
Students must meet the prerequisites of ACC 101, ECO 105, ECO 106 and MAT 137 (or a course in statistics) prior to some courses in the minor.

Course Requirements
A non-Driehaus student minoring in Finance is required to complete the following courses totaling at least 24.0 hours:

<table>
<thead>
<tr>
<th>Course</th>

RE 352  REAL ESTATE FINANCE
RE 353  REAL ESTATE INVESTMENT
RE 354  REAL ESTATE VALUATION
RE 398  SPECIAL TOPICS
RE 399  INDEPENDENT STUDY

The Department of Finance enforces all course prerequisites; exceptions will not be made.

FIN 300 may not be used towards the minor.

RE 350 is cross-listed with FIN 350.

Note: Two hour FIN 398 or FIN 399 courses will not satisfy Finance Electives.

Graduation Requirements

All Finance (FIN) courses and any other courses used toward the Finance minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Finance (Minor: Business Students Only)

Students in the Driehaus College of Business who wish to round out their courses of study with a deeper understanding of financial management, investment banking, financial markets and investment strategy, may choose to minor in Finance.

Course Requirements

In addition to FIN 310 and FIN 320, a Driehaus student minoring in Finance is required to complete the following courses totaling at least 16.0 hours:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>

The Department of Finance enforces all course prerequisites; exceptions will not be made.

FIN 300 may not be used towards the minor.

Note: Two hour FIN 398 or FIN 399 courses will not satisfy Finance Electives.

RE 350 is cross-listed with FIN 350.
Graduation Requirements
All Finance (FIN) courses and any other courses used toward the Finance minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Finance (MSF)
The Master of Science in Finance program provides students with the real-world skills necessary to succeed as finance professionals. Students develop a deep understanding of modern financial markets along with the instruments and tools used in the industry. In addition to acquiring a conceptual foundation, students learn to develop strategic financial objectives, improve investment decisions, design financial instruments, manage corporate risk and seize new business opportunities.

Program Features
Through the MS in Finance program, students will develop skills in:

- Financial decision-making techniques and strategies.
- Creating and developing solutions to complex financial problems.
- Designing, using and evaluating financial tools and instruments.
- Developing proposals for profitability and productivity.
- Outlining and identifying strategic financial objectives.
- Risk analysis.

Program Requirements

<table>
<thead>
<tr>
<th>Introductory Requirements (waived with applicable prior credit): Candidates are expected to demonstrate competency in principles of financial accounting, economics, and statistics prior to enrollment in the program. Students who have not demonstrated these competencies through previous coursework are required to achieve these competencies prior to registration for the core classes.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Degree Requirements</td>
</tr>
<tr>
<td>---</td>
</tr>
<tr>
<td>48</td>
</tr>
</tbody>
</table>

Learning Outcomes
Students will be able to:

- Acquire both knowledge and skills that are broad, deep, and necessary to fulfill their professional goals.
- Use analytical and decision-making skills to solve problems encountered by business and investors.
- Apply financial theory to solve a variety of problems in investment management, risk management, and in corporate finance.
- Produce a coherent written statement of the analysis of a complex business issue.
- Understand and solve problems encountered by a multinational business.
- Develop the foundation to think about and address ethical issues in the context of financial markets and institutions.

Degree Requirements

Core Requirements
The MS in Finance program requires a minimum of 48 credit hours subject to the prerequisite requirement.

Prerequisites for the MSF Program
Students complete the Master of Science in Finance by taking six core courses and six elective courses in addition to the program prerequisites. Candidates are expected to demonstrate competency in principles of financial accounting, economics, and statistics prior to enrollment in the program. Students who have not demonstrated these competencies through previous coursework are required to achieve these competencies prior to registration for the core courses.

<td>DERIVATIVES VALUATION</td>
<td>4</td>
</tr>
</tbody>
</table>

Elective Requirement
Six elective courses are required. At least three of these required electives must be Finance courses. The other three required elective courses are considered free electives and may be satisfied in one of the following ways:

- another finance course
- a graduate course in Accounting, Computer Science (CDM), Data Science (CDM), Data Analytics (Management), Economics, Mathematics, or Real Estate (other disciplines or courses may be considered but require the permission of the faculty program director). Please see the catalog for the eligible free electives

Degree Requirements

- Satisfactory completion of the college residency requirement.
- Satisfactory completion of the 6 required courses and 6 elective courses.
- All courses for credit toward the degree must be completed within six calendar years after the candidate's first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years, a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree without the written approval of the director of the program and the Kellstadt Graduate School of Business.

Finance (MSF), Combined Bachelor’s + Master’s Degree
The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.
Undergraduate DePaul Degree + Finance (MSF)

The Master of Science in Finance program will provide you with the skills necessary to succeed as a financial management professional. You will develop a detailed understanding of modern financial markets and the instruments and tools used in the industry. Courses in the program develop expertise in corporate finance, derivatives valuation, ethics, financial management, investment analysis, quantitative methods and risk management.

Admission

This program is available to all DePaul Undergraduates with a strong academic record. For admission to the combined program, applicants will need to provide:

- A completed application submitted to the Kellstadt Graduate School of Business (application fee will be waived),
- A current resume/curriculum vitae summarizing their work experience and educational background, no more than 2 pages in length, and
- A personal statement outlining their personal goals in pursuing the MS degree program, no more than 2 pages in length.
- A complete transcript of undergraduate courses.

The admissions committee may require applicants to participate in a personal interview.

Upon admission to the program students will take the following three courses while still enrolled as undergraduate students:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>

<tr>
<td>FIN 524</td>
<td>FINANCIAL STATEMENT ANALYSIS</td>
<td>4</td>
</tr>
<tr>
<td>FIN 617</td>
<td>TOOLS OF FINANCIAL ANALYTICS</td>
<td>4</td>
</tr>
</tbody>
</table>

Upon successful completion of the undergraduate degree and the three courses above, students complete the Master of Science in Finance by taking 36 additional credit hours at the graduate level.

Finance (MSF) Online

The Master of Science in Finance program provides students with the real-world skills necessary to succeed as finance professionals. Students develop a deep understanding of modern financial markets along with the instruments and tools used in the industry. In addition to acquiring a conceptual foundation, students learn to develop strategic financial objectives, improve investment decisions, design financial instruments, manage corporate risk and seize new business opportunities.

Upon successful completion of the undergraduate degree and the three courses above, students complete the Master of Science in Finance by taking 36 additional credit hours at the graduate level.

Finance Honors (BSB)
The honors program in finance is reserved for students of high promise and exceptional ability. Students admitted to this program are characterized by outstanding academic performance, exceptional leadership capability, high aptitude for superior academic work and exceptional ability for making meaningful contributions during a professional career.

Honors students in finance proceed through the program together in a cohort system with peers who have similar exceptional abilities. Courses reserved for honors students are advanced in nature, student-oriented, and small. Students in the program are afforded the opportunity to interact with leaders from finance and business communities in small settings.

Learning Outcomes
Core Outcomes
Students will be able to:

- Use analytical and reflective skills in decision making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Program Specific Outcomes
Students will be able to:
• Understand financial theory and how it can be applied to financial decision making.
  • Develop appropriate cash flows and discount rate analysis of projects, and financial instruments (e.g. bonds and stocks).
  • Apply and interpret the appropriate risk measures (e.g. beta, standard deviation) to situations under uncertainty.
  • Understand the role of agents and impact of governance.
• Understand the structure of the financial markets and the roles of institutions in those markets.
  • Understand the flow of funds in the private and public markets.
  • Know the determinants of the cost of funds.
• Understand how derivative instruments work and can be used for risk management.

College Core Requirements

Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of analytics, accountancy, mathematics, economics, business law, finance, management, management information systems/computer science, and marketing.

Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 70.0 hours are required:

1 Strobel students take specially designated sections of all required ACC classes, including ACC 101 and ACC 102 (excluding ACC 250).
2 Students majoring in accounting (primary or secondary/double major) are allowed to substitute ACC 370 in place of BLW 201. Hospitality Leadership majors must take HSP 207 for the Business Law requirement; use of HSP 207 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete both HSP 207 and BLW 201.
3 Finance majors, Finance secondary/double majors, Finance minors, Finance Honors majors, Finance Honors secondary/double majors, and Actuarial Science majors must take FIN 320.
4 MGT 301-H is required if pursuing the Management Honors Program.
5 MIS majors and minors must take MIS 140. Actuarial Science and Economic Data Analytics majors must take CSC 241.
6 MKT majors and Sales minors must take MKT 376.
Entrepreneurship majors and minors must take ICS 394. Hospitality Leadership majors must take ICS 396 for the Business Capstone; use of ICS 396 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete ICS 396 and one of ICS 394 or ICS 395.

A course taken for Global Business Perspective that is in a student’s major or minor field must be completed with a minimum grade of C-.

Business Ethics
All undergraduate students in the Driehaus College of Business complete a course in Business Ethics. It is recommended students take MGT 248 or PHL 248 in Philosophical Inquiry or MGT 228 or REL 228 in Religious Dimensions in the Liberal Studies Program (or University Honors Program) Requirements.

Second Majors and Minors
The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements for all business majors (except Actuarial Science majors)
• MAT 137 may be replaced by MAT 348 or MAT 351.

Global Business Perspective
If a FIN course is shared between Global Business Perspective and the Finance major, additional hours of Open Elective credit are required.

Grade Minimum Requirements for Finance Major
A minimum grade of B+ is required in FIN 310. A minimum grade of C- is required for the following: ACC 101, ACC 102, BUS 102, ECO 105, ECO 106, FIN 320, MAT 137, the course used for Professional Writing, and any FIN course used for Global Business Perspective.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 Students must earn a C- or better in this course.

Learning Domains
Arts and Literature (AL) (p. 1300)
• 3 AL Courses Required

Historical Inquiry (HI) (p. 1304)
• 2 HI Courses Required

Math and Computing (MC) (p. 1306)
• Not Required

Philosophical Inquiry (PI) (p. 1307)
• 2 PI Courses Required

Religious Dimensions (RD) (p. 1308)
• 2 RD Courses Required

Scientific Inquiry (SI) (p. 1310)
• 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
• 1 SCBI Course Required

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements
Admission Requirements
Students with an overall GPA of 3.400 and a minimum grade of B+ in FIN 310 or currently enrolled in FIN 310 may apply for admission into the program. The admissions committee will consider the student’s GPA, grade in FIN 310 as well as other evidence of superior academic performance for admission into the program.
Course Requirements
In addition to FIN 310 and FIN 320, a student majoring in Finance Honors is required to complete the following courses totaling at least 34.0 hours:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>FIN 315</td>
<td>DATA ANALYTICS IN FINANCE</td>
<td>4</td>
</tr>
<tr>
<td>FIN 311</td>
<td>CORPORATE FINANCE</td>
<td>4</td>
</tr>
<tr>
<td>FIN 320</td>
<td>INVESTMENTS: THEORY &amp; PRACTICE</td>
<td>4</td>
</tr>
<tr>
<td>FIN 330</td>
<td>FINANCIAL STATEMENTS ANALYSIS</td>
<td>4</td>
</tr>
<tr>
<td>FIN 338</td>
<td>CASES IN FINANCIAL DECISION MAKING</td>
<td>4</td>
</tr>
<tr>
<td>FIN 396</td>
<td>HONORS SEMINAR</td>
<td>2</td>
</tr>
<tr>
<td>FIN 397</td>
<td>HONORS SEMINAR CONTINUATION</td>
<td>0</td>
</tr>
<tr>
<td>ACC 307</td>
<td>FINANCIAL REPORTING I FOR FINANCE HONORS</td>
<td>4</td>
</tr>
</tbody>
</table>

Select two Finance electives to be chosen from the following. A maximum of one may be a non-FIN course:

- DSC 341 FOUNDATIONS OF DATA SCIENCE
- ECO 305 INTERMEDIATE MICROECONOMICS
- ECO 306 INTERMEDIATE MACROECONOMICS
- FIN 313 INVESTMENT BANKING
- FIN 323 COMMERCIAL BANKING
- FIN 324 BANKING & CREDIT ANALYSIS
- FIN 335 PORTFOLIO MANAGEMENT
- FIN 336 EQUITY RESEARCH
- FIN 340 INTERNATIONAL FINANCE
- FIN 355 GLOBAL IPOs & VENTURE CAPITAL
- FIN 362 ENTERPRISE RISK MANAGEMENT
- FIN 363 DERIVATIVES: PRICING & APPLICATIONS
- FIN 365 PRINCIPLES OF RISK & INSURANCE
- FIN 366 FINANCIAL MODELING
- FIN 381 BEHAVIORAL FINANCE
- FIN 393 FINANCE INTERNSHIP (see note below)
- FIN 395 INVESTMENT SEMINAR
- FIN 398 SPECIAL TOPICS (multiple topics may be used)
- FIN 399 INDEPENDENT STUDY
- IT 211 INTRODUCTION TO APPLIED PROGRAMMING
- MAT 341 STATISTICAL METHODS USING SAS
- MAT 349 APPLIED PROBABILITY
- RE 300 REAL ESTATE LAW
- RE 320 URBAN PLANNING AND PUBLIC POLICY
- RE 325 PROJECT MANAGEMENT: DESIGN & CONSTRUCTION
- RE 350 REAL ESTATE ANALYSIS
- RE 352 REAL ESTATE FINANCE
- RE 353 REAL ESTATE INVESTMENT
- RE 354 REAL ESTATE VALUATION
- RE 398 SPECIAL TOPICS
- RE 399 INDEPENDENT STUDY

Note: Two hour FIN 398 or FIN 399 courses will not satisfy Finance Electives.

Financial Reporting Sequence
Students who have taken the financial accounting courses ACC 304 FINANCIAL REPORTING I are exempt from taking ACC 307 FINANCIAL REPORTING I FOR FINANCE HONORS STUDENTS

Expectations
A cumulative GPA of 3.000 is required to remain in the program.

Once admitted, students will begin the curriculum in the spring quarter of the current academic year, and will complete the curriculum in the spring quarter of the following year. The honors student cohort will be exposed to rigorous and challenging courses in corporate finance, risk management, financial statement analysis, and financial accounting. Analytical writing and teamwork skills will be emphasized throughout the program.

Open Electives
Open elective credit (16.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

Global Business Perspective
If a FIN course is shared between Global Business Perspective and the Finance Honors major, additional hours of Open Elective credit are required. Any FIN course used toward Global Business Perspective must be passed with C- or higher.

Career Management Course
Finance Honors students are exempt from FIN 250. Students who double major must take the Career Course (250) associated with the double major.

Experiential Learning
If FIN 393 is completed in the Finance Honors major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements
A minimum grade of B+ is required in FIN 310. All other Finance (FIN) courses and any courses used toward the Finance major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Food Studies (Minor)
The Food Studies minor brings together the social and natural sciences to explore urban and sustainable agriculture, scientific aspects of food, food security issues, and topics related to food cultures, food politics and food access. The Food Studies minor will enable students to pursue an interdisciplinary minor that complements their major field of study. This minor will give students the practical expertise in Geographic Information Systems (GIS), horticulture, urban agriculture and scholarship in issues of food access and food justice to engage in and contribute to debates about urban and community food systems, both locally and globally. In addition, the Food Studies minor will offer students the opportunity to pursue service-learning facilitated by the Steans Center for Community-based Service Learning.

1 RE 350 and FIN 350 are cross listed and may only be completed once for credit.

Please note that no more than two courses from any department may count for the minor. Questions about the minor should be directed to Professor Maureen Sioh (Department of Geography).

### French (BA)

In DePaul's French program, students will study French language, literature and culture. Because French is a major world language with more than 200 million speakers in more than 50 countries, having the ability to communicate in French will provide students with many career opportunities around the world.

Courses in the French major will cover a variety of topics, including:

- Business
- Cinema
- Civilization
- Communication
- Grammar
- Historical literary periods
- Phonology and phonetics
- Translation

For students interested in pursuing careers in education, the French department partners with the College of Education to award teaching degrees at the middle school and high school levels.

As French majors, students are encouraged to participate in one of DePaul's study abroad programs in order to grow linguistically and expand their cultural understanding of French-speaking societies. DePaul sponsors two study abroad programs in Paris: one at Alliance Française and another at the Institute for the International Education of Students. It also has an exchange program with Sciences Po, an elite institution in the social sciences.

Chicago is a culturally diverse city, providing many opportunities to attend French lectures and festivals, dine out at French restaurants and see the work of French artists.

</tr>
</tbody>
</table>

### Learning Outcomes

Students will be able to:

- Proficiently speak, understand, read, and write the studied language(s) to: engage in conversations, interpret and create a variety of written texts, provide and obtain information, express feelings and emotions, exchange opinions.
- Acquire knowledge of the cultures related to the studied language(s) with appropriate background in geography, history, politics, and society.
- Acquire knowledge of the literary traditions related to the studied language(s) along with techniques of literary and rhetorical analysis.
- Acquire basic notion of the history and theory of language and language study, including linguistics, sociolinguistics, language acquisition, and dialectology.
- Acquire basic notion of the theory and practice of translation and interpretation.

### College Core Requirements

**Study in the Major Field**

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult
an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration
All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)
All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

The Modern Language Option (MLO)
The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency
A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see theLAS website for more information.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Senior Year</th>
</tr>
</thead>
<tbody>
<tr>
<td>Required</td>
</tr>
</tbody>
</table>

NOTE: Liberal Studies Requirements must be completed at DePaul University.
Students must earn a C- or better in this course.

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

**Learning Domains**

**Arts and Literature (AL) (p. 1300)**
- 1 Course Required

**Historical Inquiry (HI) (p. 1304)**
- 2 Courses Required

**Math and Computing (MC) (p. 1306)**
- 2 Courses Required
  - [1 CR Course and 1 SR Course]

**Philosophical Inquiry (PI) (p. 1307)**
- 2 Courses Required

**Religious Dimensions (RD) (p. 1308)**
- 2 Courses Required

**Scientific Inquiry (SI) (p. 1310)**
- 2 Courses Required
  - [1 Lab Course and 1 SWK Course]

**Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)**
- 3 Courses Required

**Notes**

A student whose only major is in Modern Languages is required to complete the Capstone offered by the Department of Modern Languages (MOL). A student who is double majoring (or pursuing dual degrees) with the primary major (or primary degree) in MOL may substitute the Capstone of the secondary major or degree. An MOL major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the MOL Capstone.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

### Major Requirements

#### Course Requirements

<table>

</tr>
</tbody>
</table>

Select five additional 300-level FCH courses 20

**Concentration Requirements***

*Students must complete 16 credit hours of requirements from one of the following two concentrations: Commercial French or Standard (https://catalog.depaul.edu/programs/french-ba/#concentrationrequirements.text). Students who begin their study of French at DePaul with FCH 202 or higher may substitute a 300-level French elective course for any of the required 200-level courses.

#### Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

#### Study Abroad Requirements

**Year-Long Program**

Students on a year-long study abroad program would most likely complete 10 courses, 5 of which may be applied to their French Major or Minor provided the courses are at the B1 level or higher for FCH 200 level credit and B2 level for FCH 300 level credit. The remaining courses might fulfill various learning domains or other major/minor requirements. They could also potentially be counted as general electives. Note that the 5 French courses completed on a year-long program will most likely generate more than 5 courses worth of credit (30 vs. 20); the excess credits could be used toward the fulfillment of domain requirements, if possible, or applied to general electives, as appropriate.

**Semester-Long Program**

Students on semester-long study abroad program would most likely complete 5 courses, 3 of which may be applied to their French Major or Minor provided the courses are at the B1 level or higher for FCH 200 level credit. The remaining courses might fulfill various learning domains or other major/minor requirements. They could also potentially be counted as general electives. Note that the 3 French courses taken on a semester-long program will most likely generate more than 3 courses worth of credit (18 vs. 12); the excess credits could be used toward the fulfillment of domain requirements, if possible, or applied to general electives, as appropriate.

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Commercial French Concentration, French (BA) (p. 514)
- Standard Concentration, French (BA) (p. 515)
Commercial French Concentration, French (BA)

As an alternative to the traditional major, the French program also offers a concentration in Commercial French. Students choosing this Commercial concentration are interested in complementing their advanced intercultural language study with a foundation in international business skills. The bridge courses in the concentration (FCH 320 and MGT 300) integrate students’ knowledge across disciplines, and the two additional electives allow them to further explore their area of interest in business.

Students are encouraged to meet regularly with the French Program Director and the MOL staff advisor to discuss electives for this concentration.

French 3+3 (BA+JD)

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

Key Program Features

- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 677).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law’s median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.
### Standard Concentration, French (BA)

#### Core Requirements

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>FCH 341</td>

<td>FRENCH PHONOLOGY AND PHONETICS</td>
<td>4</td>
</tr>
</tbody>
</table>

Select one additional 300-level FCH course 4

Students who begin their study of French at DePaul with FCH 202 or higher may substitute a 300-level French elective course for any of the required 200-level courses.

### French (MA)

DePaul’s MA program in French provides students a customizable, flexible curriculum to develop advanced linguistic and cultural expertise in a language and to apply that expertise in the disciplinary or professional contexts of their choice. Whether in the “global village” of today’s world or in multi-ethnic communities such as Chicago, this advanced expertise is an increasingly valuable personal and professional asset, requiring appropriate training and credentials. The MA program especially seeks to serve adult professionals (government employees, social workers, healthcare providers, business people, or certified K-12 teachers) whose careers require this applied expertise.

The MA in French may be expanded also to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- French + Digital Humanities Certificate
- French + Teaching English to Speakers of Other Languages (TESOL) Certificate
- French + Translation and Interpreting Studies Certificate

### Degree Requirements

#### Course Requirements

The curriculum of the MA in French consists of twelve courses (48 quarter credit hours), divided into two parts:

- A core curriculum of three required courses (12 quarter credit hours), and
- Nine courses (36 quarter credit hours) in the language area. All courses in the language area must be courses taught in the target language of the student’s program (i.e. courses with prefixes FCH). In exceptional cases, with the approval of the student’s advisor and the director of the graduate program, a student may count one or two courses taught in English from allied fields (such as art history, economics, education, geography, health sciences, management, philosophy, political science, religion, sociology, etc.) among the nine “language area” courses in the student’s program.

### Core Curriculum

The core curriculum consists of the following three courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MOL 401</td>
<td>PROFESSIONAL FOUNDATIONS</td>
<td>4</td>

<td>LANGUAGE, SELF AND SOCIETY</td>
<td>4</td>
</tr>
<tr>
<td>MOL 496</td>
<td>MAMOL CAPSTONE</td>
<td>4</td>
</tr>
</tbody>
</table>

In addition, all 300-level language courses are offered simultaneously as 400-level electives to complete the MA program. The 400-level courses have additional requirements.

### Additional Requirements

Additional requirements include:

- Portfolio

The portfolio (completed while enrolled in MOL 496) consists of a compilation and critical assessment of select work done throughout the program and a capstone project. Capstone projects may include a community service experience, internship, performance or creative work, teaching portfolio, thesis, or translation.

### Graduation Grade Point Average Requirement

In order to graduate from the program, students must complete all program requirements with a minimum GPA of 3.000.

### Thesis Option

A thesis option will be available for students who attain a GPA of at least 3.7 in the program after completing 24 credit hours of coursework.

### Learning Outcomes

Students will be able to:

- Speak and participate in most informal and some formal conversations from topics related to school, home, and leisure activities, to many related to employment, current events, and matters of public and community interest.
- Narrate and describe in the major time frames of past, present, and future in paragraph-length discourse with some control of aspect, as well as combine and link sentences into connected discourse of paragraph length, although these narrations and descriptions tend to be handled separately rather than interwoven.
- Use communicative strategies such as rephrasing and circumlocution, and contribute to a conversation with sufficient accuracy, clarity, and precision to convey their intended message without misrepresentation or confusion.
- Combine and link sentences into texts of paragraph length and structure, and use minimal control of common structures and vocabulary.
- Listen and comprehend (albeit unevenly) short conventional narrative and descriptive texts with a clear underlying structure.
- Understand conventional narrative and descriptive texts with clear underlying structure (though their comprehension may be uneven).
Student Handbook

Students in a graduate program offered through Modern Languages follow the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in a Modern Language graduate program.

Language Proficiency for Admission

In order to be eligible for admission to a Modern Language graduate program a student must have successfully completed at least 20 quarter credit hours (or the equivalent in semester credit hours) of advanced college-level coursework in the language (this is the equivalent of an undergraduate "minor" at most colleges or universities in the United States).

Students who lack 20 quarter credit hours (or the equivalent in semester credit hours) of coursework must demonstrate proficiency in the language by attaining a rating of at least "Intermediate High" on two standardized tests from the American Council on the Teaching of Foreign Languages (ACTFL): the Oral Proficiency Interview (OPI) and the Writing Proficiency Test (WPT).

Transfer Credit

Students may apply ("transfer") toward their MA programs in Modern Languages no more than eight quarter hours of graduate-level credit completed at another college or university, with approval from the departmental director of graduate programs. Students may not transfer credits already used to satisfy the degree requirements of any program at another college or university.

Students seeking to apply "transfer" credit toward their MA programs in Modern Languages must complete the college transfer request form.

Graduation with Distinction

Students from the MA programs in Modern Languages earn their degrees "with distinction" if they graduate with a cumulative grade point average (GPA) of 4.0 (on a scale where 4.0=A). To verify eligibility, students and their faculty advisors should contact the departmental advisor and the departmental director of graduate studies before the deadline to apply for graduation.

French (MA), Combined Bachelor’s + Master’s Degree

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + French (MA)

Admission to this combined Master of Arts program is based on a minimum level of language proficiency (ACTFL rating of "Intermediate High") rather than on prior coursework. Therefore, it is open to students with any undergraduate majors with the accompanying language ability.

The program is designed to prepare students for advanced use of their linguistic skills in any area of professional interest (from business, government, and education to further graduate study).

The program requires 48-quarter hour credits of coursework. This coursework consists of:

1. 12-quarter hour credits of required courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MOL 401</td>
<td>PROFESSIONAL FOUNDATIONS</td>
<td>4</td>
</tr>
<tr>
<td>MOL 402</td>
<td>LANGUAGE, SELF AND SOCIETY</td>
<td>4</td>
</tr>
<tr>
<td>MOL 496</td>
<td>MAMOL CAPSTONE</td>
<td>4</td>
</tr>
</tbody>
</table>

2. 36-quarter hour credits of elective coursework, specifically relevant to each individual student's professional interests and language, and chosen in consultation with the student's faculty advisor.

The required courses (MOL 401, MOL 402, and MOL 496) are each worth 4-quarter hour credits. Elective courses may vary in credit. Because each student pursues a highly customized selection of coursework, it may include independent study, practicum, study abroad, or transfer credits that allow students to complete in any term additional credits toward satisfaction of degree requirements. Depending on individual interests, a student may (with approval of their advisor) also take as electives courses taught in English by other DePaul units, provided that the students satisfy any relevant prerequisites for those courses.

French (Minor)

A minor in French is customizable to fit the goals of each student, with an aim of general proficiency in writing, reading and speaking French. The student may choose to focus on a specific area to complement the course of study.

The minor consists of a total of 5 courses in French language at the 200/300-level. Courses taught in English will not be counted toward this minor unless Program Director permission is secured.

Students majoring in French (BA) or minoring in Commercial French or French Translation are restricted from earning this minor.

French Translation (Minor)

Course Requirements

- 12 credits of advanced (200-level) coursework in French language, selected to develop appropriate levels of proficiency in the language and to provide an introduction to translation
- 12 credits of advanced (300-level) coursework in translation classes

Depending on their level of prior expertise with French, students may need to complete courses at the Basic and Intermediate levels before enrolling in 200 or 300-level language courses.

Students majoring in French (BA) or minoring in Commercial French are restricted from earning this minor.

Fundamentals of Psychology (Minor)

The Fundamentals of Psychology minor will give you a foundation in the major topic areas in psychology. This minor is good for people who want to round out their current major with core courses in psychology or think they might want to pursue a psychology oriented major in graduate school (e.g., social work).
This minor is only for non-psychology majors and a maximum of one psychology minor may be earned by a student.

Psychology majors cannot earn a minor in Fundamentals of Psychology.

Six psychology courses are required, including:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSY 105</td>
<td>INTRODUCTORY PSYCHOLOGY I</td>
<td>4</td>
</tr>
<tr>
<td>PSY 106</td>
<td>INTRODUCTORY PSYCHOLOGY II</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td>Select two of the following:</td>
<td>8</td>
</tr>
<tr>
<td>PSY 333</td>
<td>CHILD PSYCHOLOGY</td>
<td></td>
</tr>
<tr>
<td>PSY 334</td>
<td>ADOLESCENT PSYCHOLOGY</td>
<td></td>
</tr>
<tr>
<td>PSY 347</td>
<td>SOCIAL PSYCHOLOGY</td>
<td></td>
</tr>
<tr>
<td>PSY 351</td>
<td>THEORIES OF PERSONALITY</td>
<td></td>
</tr>
<tr>
<td>PSY 360</td>
<td>THEORIES OF LEARNING AND COGNITION</td>
<td></td>
</tr>
<tr>
<td>PSY 361</td>
<td>HISTORY AND SYSTEMS OF PSYCHOLOGY</td>
<td></td>
</tr>
<tr>
<td>PSY 373</td>
<td>HAPPINESS, JUDGMENT AND DECISION MAKING</td>
<td></td>
</tr>
</tbody>
</table>

Select any two additional psychology courses. It is recommended that they be from the above list, but it is not required.

**Game Design (BS)**

A game designer conceives and crafts the rules, structure and experience of a game. The Game Design degree equips students to become the next generation of creative leaders in the growing field of games. Throughout the program students will explore and push the boundaries of games as expressive and artistic media. They will develop skills for each phase of the game design and development cycle including ideation, iteration through the creation of multiple playable game builds (including prototypes), and reflection on the effectiveness of their designs using playtesting and written evaluations. Students will also develop skills and confidence in reading, writing, and modifying computer programs and scripts. Students will collaborate in interdisciplinary teams with programmers, artists, producers, writers, and audio designers. This program has an emphasis on building a portfolio of games and advancing the medium of games through experimentation and innovation.

<td>100</td>
</tr>
<tr>
<td>Open Electives</td>
<td>16</td>
</tr>
<tr>
<td>Total hours required</td>
<td>192</td>
</tr>
</tbody>
</table>

**Learning Outcomes**

Students will be able to:

- Collaboratively generate ideas, share them and assess their inherent risks and scope.
- Translate game ideas into prototypes; iteratively develop prototypes until they are viable and playable.
- Evaluate games with users using multiple common games user research methods.
- Manage the pipeline for games, effectively evaluating the impact of potential changes.
- Develop a foundational literacy and confidence in reading, writing, and modifying computer programs and scripts.
- Clearly communicate and establish the vision for a game’s experiential goal by taking formal and dramatic game elements into account.
- Intentionally craft experiences that leverage and develop the unique affordances of games as an artistic medium.

Select twenty (20) credit hours of Major Electives 20
Select sixteen (16) credit hours of Open Electives 16

**Major Electives**

Major elective courses must meet the following criteria:

- Eight (8) credit hours of Major Electives must be selected from GAM courses at the 300-level.
- Twelve (12) credit hours of Major Electives must be selected from any 200-level ANI, CP, DOC, FILM, GAM, GD, GPH, POST, SCWR, UGD, or VFX courses or from any 300-level CDM course.

**Learning Outcomes**

Students will be able to:

- Situate their creative practice within historical, aesthetic, and social contexts; design and develop games that are significant in those contexts.
- Leverage the affordances of games to intentionally evoke specific emotions and experiences, purposefully communicate ideas as well as have the desired social impact.
- Critique games from a variety of perspectives including historical, aesthetic, and social.
- Iteratively build projects up from simple prototypes to increasingly complex systems.

**Degree Requirements**

No Introductory Course may be substituted for any other course at any level.

Select five from any graduate level GAM, ANI, CP, DOC, FILM, POST, SCWR, GD, EXP, UXD, GPH, or VFX courses. Students should work with their faculty advisor to select a grouping of Focus Area Electives that will best serve the student's professional trajectory.

GAM 600 THESIS STUDIO

Focus Area Electives include any graduate level GAM, ANI, CP, DOC, FILM, POST, SCWR, GD, EXP, UXD, GPH, or VFX courses. Students must work with their faculty advisor to select a grouping of Focus Area Electives that will best serve the student's professional trajectory.

1 Students must take GAM 600 THESIS STUDIO three (3) times, over three consecutive quarters. Twelve (12) credit hours are required.

Game Programming (BS)

Students in this program engage in the rigorous study of computer science basics, and then apply this knowledge to the demanding specialization of game programming. Programmers bring their technical understanding of game internals to the problem of delivering engaging game experiences to players. Areas of study include level design, game scripting, computer graphics development, game physics, and artificial intelligence programming.

**Note**

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Students must earn a grade of C- or higher in all major elective courses.

### Open Electives

Open Elective credit hours are required to meet the minimum graduation requirements of 192 hours. Open Electives may be taken from any unit at DePaul.

See [www.cdm.depaul.edu](http://www.cdm.depaul.edu) to see sample schedule of course requirements on a year-by-year basis.

### Game Programming (MS)

The MS in Game Programming is designed for those interested in game development programming at the highest level, including computer science and computer graphics professionals retooling for the game industry.
Program Requirements | Quarter Hours
--- | ---
Introductory Courses | 0-24
Degree Requirements | 52
Total hours required | 52-76

Learning Outcomes

Students will be able to:

- Demonstrate mastery of the C++ programming language.
- Use design patterns to create and design large-scale real-time software systems.
- Architect and implement real-time Game Engine.
- Implement and apply advanced rendering techniques for real-time graphics simulation.
- Create and manage a development schedule of a complex software projects.

Degree Requirements

Course Requirements

No Introductory Course may be substituted for any other course at any level.

Introductory courses may be waived for any of the following conditions:

- The student has the appropriate course work to satisfy an Introductory Course.
- The student has appropriate and verified professional experience to satisfy an Introductory Course.
- If an exam is available, the student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.

### Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
- Students pursuing a second master’s degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

For DePaul’s policy on repeat graduate courses and a complete list of academic policies, see the DePaul Graduate Handbook.

### Game Programming (MS) Online

The MS in Game Programming is designed for those interested in game development programming at the highest level, including computer science and computer graphics professionals retooling for the game industry.

#### Learning Outcomes

Students will be able to:

- Demonstrate mastery of the C++ programming language.
- Use design patterns to create and design large-scale real-time software systems.
- Architect and implement real-time Game Engine.
- Implement and apply advanced rendering techniques for real-time graphics simulation.
- Create and manage a development schedule of a complex software projects.

General Psychology (Minor)

The General Psychology minor enables students to select courses in psychology tailored to their particular interests or career goals. This minor allows students maximum flexibility to complement a variety of majors and areas of interest.

This minor is only for non-psychology majors and a maximum of one psychology minor may be earned by a student.

Psychology students cannot earn a minor in General Psychology.

Six psychology courses are required, including:

<table>

\(^1\) At least two must be numbered PSY 317 and above.

Generalist Nursing (MS)

Designed for the college graduate who wants to become a registered nurse, the Master's Entry to Nursing Practice (MENP) program provides the advanced education for general professional nursing practice and eligibility for the RN licensure examination (NCLEX-RN).

Program Goals

The purpose of the MENP program is to prepare qualified individuals for:

- Licensure by examination (NCLEX-RN) required for entry into professional nursing practice
- Advanced professional practice and leadership in health promotion and illness care
- Collaboration and scholarship with others to meet the present and future health needs of society
- Community service for vulnerable populations in the Vincentian tradition
- Continuing academic and clinical education at the post-graduate and doctoral levels

</tbody>
</table>

Learning Outcomes

Students will be able to:

- Analyze nursing concepts, theories, and research to design, implement, and evaluate culturally appropriate family-centered and community-based models of professional nursing.
- Develop a personal philosophy of professional nursing through analysis of a professional code of ethics and exploration extant philosophies, nursing’s history and its evolution as a discipline.
- Demonstrate excellence in patient care and nursing knowledge across the lifespan through advanced health assessment, evidence-based professional practice, systematic inquiry, planned innovation,
• Practice as an ethical leader within nursing and interprofessional health care teams acting with accountability, integrity and social justice for safe, quality and affordable health care for individuals, families, & communities.

¹ DePaul students who complete NSG 431 as DePaul undergraduates and who subsequently enroll in and complete the MENP program are not required to complete 4 additional quarter hours of coursework. They are considered to have completed all requirements of the MENP program and the requirement to take 4 additional quarter hours is waived for these students.

### Program Graduate Academic Student Handbook

A complete list of policies specific to the nursing programs of study is contained in the Student Handbook that is updated regularly on the website for the School of Nursing. The complete MENP handbook can be found here (https://csh.depaul.edu/academics/nursing/student-resources/Pages/student-handbook.aspx).

#### Mission of the DePaul University School of Nursing

The Mission of the School of Nursing is the preservation, enrichment and transmission of nursing science as a discipline and its application to promote the health and well-being of individuals, families and communities. The faculty pursues this mission through excellence in teaching as the primary focus of scholarship and research that has the potential to enhance nursing knowledge, scientific inquiry, teaching and health. The School of Nursing maintains a commitment to serving persons with diverse talents, qualities, interests and socioeconomic backgrounds in its education programs and professional practice. It seeks to provide accelerated, inquiry-based education that anticipates the rapid pace of change in health promotion and illness care.

#### Philosophy of the DePaul University School of Nursing

Nursing is a learned profession with a distinct science and art. Students learn the practice of nursing through research and the study of diverse human and environmental patterns of health behavior as they affect individuals, families, and communities. Students incorporate scientific knowledge and the nursing process in their delivery of safe, ethical and quality care with deep regard for the differences along the dimensions of race/ethnicity, gender, class, sexuality, religion, heritage and language. The focus of the faculty of the School of Nursing is the education and preparation of students for leadership roles in healthcare. Education is centered on providing care for persons and communities in both health and illness while conducting scientific research to generate knowledge that strengthens these endeavors. Critical thinking is emphasized, along with an insightful examination of society, thus affording students the opportunity to apply the science and art of nursing to promote and maintain health while upholding human dignity for the betterment of the community and society. In keeping with the Vincentian values of DePaul University, students treat all human beings equally and with respect, and by doing so, are acting in the interest of the common good. The School of Nursing faculty is committed to education that will provide the foundation for a professional career as a caregiver, educator, leader, servant and scholar. A professional level of nursing practice is best achieved through master’s degree education in nursing and requires appropriate licensure through examination (NCLEX-RN). Advanced practice nursing education integrates specialization into the master’s degree curriculum or at the post-master’s level providing eligibility for professional certification as a nurse anesthetist; clinical specialist in community, acute or long-term care areas; nurse practitioner in primary

Care; or nursing scholarship in practice or the academy. The master’s degree provides the foundation for doctoral education in nursing science.

Accreditation

The Masters Entry into Nursing Practice program at DePaul University is accredited (http://www.ccneaccreditation.org) by the Commission on Collegiate Nursing Education.

Program Summary

Designed for the college graduate who wants to become a registered nurse, the MENP Program provides the foundation for generalist nursing practice and eligibility for the RN licensure examination (NCLEX-RN).

Admissions Policies

1. Students must meet the minimum admissions requirements listed on the University website (https://csh.depaul.edu/academics/nursing/graduate/nursing-menp/Pages/admission.aspx).
2. The School of Nursing is committed to the principles of non-discrimination and equal opportunity for all persons. Students are evaluated and admitted to the program without regard to race, color, religion, gender, sexual orientation, age, or national origin.
3. The School of Nursing is committed to providing equal access for all students with disabilities. Eligibility for services and accommodations is determined by the Center for Students with Disabilities (CSD). Students with disabilities who wish to receive services and accommodations at DePaul University must have their disability on record with CSD.
4. Applications are evaluated and students are selected for admission by the Admission, Progression, and Retention (APR) Committee based on their potential to successfully complete program objectives.
5. MENP students must have earned a BA or BS from an accredited institution. They must have a cumulative undergraduate GPA of 3.0/4.0 or higher and a GRE score of 153 or higher on the verbal section, a score of 144 or higher on the quantitative section and a 4.0 on the analytical section for admission to the program. The GRE is waived if the undergraduate GPA is 3.2/4.0 or higher.
6. Non-native English speakers must have a TOEFL score of 590 (PBT) or higher or 96 (iBT) or higher.
7. MENP students must have completed:
   a. Two courses of chemistry (organic and inorganic) with labs OR one course of chemistry and one course of microbiology, both with labs.
   b. Two courses of human anatomy/physiology with labs.
8. Applications must include:
   a. Two letters of reference from former faculty or employer.
   b. Curriculum vitae or resume.
   c. Short answer responses to the following prompts:
      i. How will your prior background contribute to your ability to fulfill the daily responsibilities of an entry-level registered nurse? (200-word max)
      ii. St. Vincent DePaul observed the needs of impoverished people with disparities to access to healthcare. He ultimately dedicated himself to answering a single question: “What must be done?” How will you utilize a nursing degree obtained from DePaul University? (200-word max).
      iii. Please address the strengths and opportunities for growth in your application (i.e., explanation for GPA below 3.2, repeated coursework, gaps in academic history and performance on standardized tests). (200-word max)
9. Applicants may submit applications online at www.depaul.edu/apply with a $40 application fee or through Nursing CAS, an online centralized application service for nursing programs nationwide (http://nursingcas.org/).
10. The student is responsible for meeting all conditions of admission and for notifying the Office of Graduate Admissions once all conditions have been fully met.

Retention Policies

1) Students must maintain a cumulative GPA of 3.0 or greater to remain in good standing. A student will be placed on academic probation if the GPA dips below 3.0. and must enroll in the School of Nursing Success Coaching program. If the GPA is raised to at least 3.0 at the end of the next academic quarter, the student is no longer on probation. If the GPA has not risen to at least 3.0 at the end of the next academic quarter, the student will be eligible for dismissal from the program.
2) If a student earns a C+, C, or C- in any course, the student is placed on probation. The student must enroll in the School of Nursing Success Coaching program. If the student is able to earn grades in all courses that are B- or above AND earn a cumulative GPA of 3.0 or greater in the next academic quarter, the student is no longer on probation. If this does not occur, the student will be dismissed from the program.
3) A student who earns a D+ or lower in any course will be dismissed from the program.
4) A student may be placed on probation a maximum of two times during their program.
5) In accordance with the nursing licensing regulations, students found to be convicted of a crime will be reviewed by the APR Committee and may be suspended or dismissed from the program. It is the student’s responsibility to disclose any arrests or convictions while enrolled in their program. Degree conferral from the University does not guarantee licensure eligibility in the event the student is convicted of a crime. It is the student’s responsibility to be knowledgeable of the licensure requirements for the state in which they intend to apply for RN licensure. The School of Nursing expects a respectful environment conducive to teaching and learning for all students, faculty, and staff. Inappropriate conduct is defined as any action that interferes with the creation and maintenance of an effective learning environment. Students are expected to display civility in all aspects of their educational experience at DePaul University and affiliated institutions.
6) The School of Nursing expects a respectful environment conducive to teaching and learning for all students, faculty, and staff. Inappropriate conduct is defined as any action that interferes with the creation and maintenance of an effective learning environment. Students are expected to display civility in all aspects of their educational experience at DePaul University and affiliated institutions.
7) Appropriate student conduct is outlined in detail in the Professional Development Guidelines (see handbook).
8) Students displaying inappropriate conduct may be asked to leave the classroom, clinical area, or meeting. Inappropriate conduct will be documented with written contract and placed in the student’s file. Such incidents of inappropriate conduct will then be reported to the Director of the School of Nursing, with copies sent to the Associate Director of the Program, and the APR Committee. Additional sanctions for inappropriate conduct may be imposed, including dismissal from the nursing program. See handbook for additional information.

Progression Policies

1) All students must attend an orientation session before beginning the MENP program.
2) The student is responsible for reading the Student Handbook. Students are responsible for signing and submitting the Student Handbook Agreement Statement to affirm they have read and fully understand the policies therein.
3) Students are assigned an academic advisor. Students should consult with the academic advisor for any program-related concerns.

4) A student may not register for any course that has a prerequisite that has not been completed.

5) Students may not attend classes for a class in which they are not enrolled.

6) Students are responsible for maintaining and updating all required records. Failure to have all records submitted and up to date at the beginning of each course will result in inability to attend the clinical component of the course.

7) Leave of Absence:
   a) Students who need to interrupt their studies for personal, health or other reasons may request a leave of absence for up to one full year. The request should be made to the Associate Director of the Program and the Coordinator of Clinical Placements and APR Committee should be notified. Depending on circumstances and estimated length of absence, the Associate Director or student’s academic advisor may recommend additional action to complete the request process.
   b) Students who wish to return to the program following a leave of absence will need to submit a written request for resuming coursework to the APR Committee. It is the student’s responsibility to send a copy of such request to the Director of the School of Nursing, the student’s faculty advisor, the Associate Director of the Program, and the Coordinator of Clinical Placements. This written request should demonstrate the resolution of the extenuating circumstances contributing to the original need to leave the DePaul Nursing Program. This request for reinstatement must be made no less than 6 weeks prior to resuming the nursing course sequence. Students will be notified in writing regarding the decision concerning their re-entry to the program. Individual assessment of current knowledge and clinical skills will be made prior to placement of the student in the appropriate level within the nursing program. Students who become “out-of-sequence students” due to withdrawal, or military/medical/family leave of absence will be placed into a clinical rotation upon re-entry based upon space available and cannot be guaranteed placement in the next available clinical course needed. “Out-of-sequence students” cannot displace in-sequence students from a clinical spot.

8) Students who have taken a leave of absence from the program for greater than 12 calendar months must re-apply to the University. Their application will then be considered with all other qualified applicants applying for admission to the nursing program.

9) A student who withdraws from a core nursing course while in good standing cannot progress in the sequenced nursing curriculum until that course has been successfully completed. In courses that contain both a clinical practicum and a didactic theory portion, both course segments must be completed simultaneously. Individual assessment of current knowledge and clinical skills will be made prior to placement of the student in the appropriate level within the nursing program. Students who become “out-of-sequence students” due to withdrawal, or military/medical/family leave of absence will be placed into a clinical rotation upon re-entry based upon space available and cannot be guaranteed placement in the next available clinical course needed. “Out-of-sequence students” cannot displace in-sequence students from a clinical spot.

10) A student who withdraws from a core nursing course who is “not in good standing” (with a grade of “C+” or lower or on probation) at the time of withdrawal, will be referred to the APR Committee. The APR Committee will review the student’s past and current performance and elicited recommendations from the course faculty. A representative of the APR Committee may then meet with the course faculty, Associate Director of the Program, and student, to counsel the student and to establish a contract for academic improvement. Such students may not progress in the sequenced nursing curriculum until the course has been retaken and successfully completed. In courses that contain both a clinical practicum and a didactic theory portion, both course segments must be completed simultaneously.

11) A student may withdraw from a core nursing course “not in good standing” (with a grade of “C+” or lower) only once during their program of study. A second such withdrawal will result in dismissal from the program.

12) All out-of-sequence students will be placed in clinical on a space/faculty-available basis. Scheduling priority will be given to students who are out of sequence for military service, illness, or family leave before students who are out of sequence for failure or withdrawal “not in good standing.”

13) A student who has a grade of B (83% or less) at mid-quarter may be placed on contract for academic improvement by the instructor. The student must satisfactorily fulfill all course and contract requirements by the end of the quarter of contract initiation in order to progress in the program.

14) Failure to meet all of the agreed upon terms outlined in the student contract will result in the consequences identified in the contract which may include program dismissal.

15) In accordance with DePaul University policy, students must complete their program within 6 years of matriculation.

Procedure for Reinstatement after Dismissal

Students in the Master’s Entry to Nursing Program who wish to apply for reinstatement after having been dismissed shall contact the APR Committee within 72 hours from their notification of dismissal. Their application for reinstatement should describe the nature of the circumstances leading to their dismissal and their corrective plan of action for future success in the MENP program. The APR Committee will review their application and decide to whether or not to reinstate. During the time the APR committee reviews the student’s application for reinstatement, the student shall remain responsible for any coursework/assignments/deadlines/compliance issues related to their classes in that quarter. Students under dismissal/reinstatement review will NOT be allowed to participate in any clinical activity where direct patient care is involved. In lieu of attending clinical, the student shall be offered an equivalent assignment at the discretion of the APR Chairperson and/or MENP Director. In the event the student is reinstated, the student will be notified via e-mail of their reinstatement. The student will henceforth be responsible for adhering to the conditions set forth by the APR Committee. In the event the APR Committee decides to deny reinstatement, the student shall be immediately removed from all class rosters and will no longer be allowed to attend any classes/clinical or any other related activity virtually or in-person. The student has the right to petition for reinstatement within a week of notification directly to the Director of the School of Nursing, who may decide to reinstate the student. In the event the Director of the School of Nursing denies reinstatement, the student shall be dismissed immediately. In the event the Director of the School of Nursing reinstates the student, they will be eligible to enroll in classes the following academic quarter. The student will be responsible for adhering to the conditions set forth by the Director of the School of Nursing. If the student fails to comply with the conditions set forth by the director of the school of nursing, the student will be eligible for immediate dismissal. The decision of the Director of the School of Nursing is final. Moreover, a student may only be reinstated once.

Transfer Credit

The MENP program follows the College of Science and Health Transfer Credit Approval (TCA) policy (https://csh.depaul.edu/academics/nursing/student-resources/requests-policies-procedures/Pages/transfer-
Community-based Service Learning in DePaul University School of Nursing’s MENP Program

Community-based service learning (CbSL) is consistent with the mission of the University and the School of Nursing. CbSL is a dynamic, collaborative process whereby faculty, students and community-based organizations partner to link learning with service to the community. Students are involved in meeting community needs while applying the experience to their personal and academic development as well as applying their academic learning to their community experience (bi-directional).

- In the classroom the CbSL experience has intentional learning objectives for service learning and structured reflection on what is being learned that can mesh with the course learning goals. In this graduate education model, the outcome of the service learning should be enhanced by student learning in the classroom.

- At the community partner site students will get real-life experience and perspective different than the world view to which they are accustomed. They will also learn about the challenges and barriers to running a service organization. They tie these actual experiences and relationships to the content they are learning in the classroom.

School of Nursing Simulation Lab Mission Statement

The DePaul Simulation Lab (DSL) is committed to facilitating experiential learning opportunities for students. In order to promote a safe interactive learning environment that fosters collaboration, teamwork, and the synthesis of didactic and clinical knowledge, the DSL employs cutting edge technology in addition to the simulation standards of best practice.

Student Clinical Requirements

It is mandatory for students to complete and upload all clinical requirements to their Student Immunization Tracker via Castle Branch. See health requirement guidelines (https://csh.depaul.edu/academics/nursing/student-resources/Pages/health-requirements.aspx) for more detailed instructions about requirements. All clinical requirements must be submitted and approved prior to the first day of the quarter of clinical attendance. Updates and renewals (e.g., updated lab 29 results, renewed coverage, yearly immunizations) must be submitted to Castle Branch PRIOR to the expiration date. It is the responsibility of the student to ensure that all clinical requirements are kept current.

Graduation Requirements

DePaul University awards the Master’s of Science degree with a major in nursing to students who successfully completed the MENP program. All degree requirements of the University, College, and School of Nursing must be met as outlined in the current catalog, including but not limited to maintaining a minimal cumulative GPA of 3.0. The student is responsible for completing the application for degree conferral and commencement by the deadline posted in the academic calendar. Students are responsible for changes reflecting new program requirements if the department gives sufficient notice. Upon successful completion of graduation requirements, MENP students are eligible to apply to take the National Council of Licensing Examination (NCLEX). (See Legal Limitations below.) The Illinois Department of Financial and Professional Regulation requires that graduating MENP students submit to a fingerprinting processing from the Illinois Department of State Police or its designated agent. Licensure by the IDFPR will require a separate complete background check with fingerprinting prior to being given permission to sit for NCLEX. If criminal activity is noted, such activity MAY BE grounds for the student to not be given permission to take the NCLEX exam. Legal Limitations for Licensure Completion of the nursing education program does not guarantee eligibility to take the NCLEX. The Illinois Department of Financial and Professional Regulation - Board of Nursing may refuse to issue a license for one or more causes stated in that section of the Nurse Practice Act. Requirements for licensure vary from state to state. Those students wishing to take the NCLEX outside Illinois are advised to check with their state’s licensure requirements early in the academic program.

Graduating with Distinction

Students must have a cumulative GPA of at least 3.75 in Master’s Entry to Nursing Practice courses to graduate with distinction.

Time Limitation

Students pursuing a master’s degree must complete all requirements for the master’s degree within a maximum of six years from their first term of enrollment in the program.

Legal Limitation for Licensure

Completion of the nursing education program does not guarantee eligibility to take the NCLEX. The Illinois Department of Financial and Professional Regulation - Board of Nursing may refuse to issue a license for one or more causes stated in that section of the Nurse Practice Act. Requirements for licensure vary from state to state. Those students wishing to take the NCLEX outside Illinois are advised to check with their state’s licensure requirements early in the academic program.

Geographic Information Systems Graduate Certificate

Geographic Information Systems (GIS) are now used in fields such as urban planning, environmental monitoring, marketing, business and retail analytics, law enforcement, public health, disaster management, data journalism, and numerous other careers and professional fields.

In the Graduate GIS Certificate, students will learn to make maps, manipulate and query tabular data, work with GPS data, conduct spatial analysis, and propose, define, and implement GIS projects. Courses integrate lectures and hands-on exercises using ArcGIS at one of three specialized computer lab locations on campus.

The Graduate GIS Certificate Program requires 16 credit hours of instruction. It provides a broad education in GIS and serves as a basis for entry-level employment opportunities in the geotechnology industry. Four courses are required to complete the Graduate GIS Certificate:

<table>
<thead>
<tr>

GEO 442 GEOGRAPHICAL INFORMATION SYSTEMS (GIS) FOR SUSTAINABLE URBAN DEVELOPMENT
GEO 443 EARTH OBSERVATION II
GEO 445 PROGRAMMING IN PYTHON FOR GIS
GEO 446 GIS ANALYSIS OF ENVIRONMENTAL AND PUBLIC HEALTH
GEO 447 WEB GIS AND SPATIAL DATA VISUALIZATION ON THE WEB
GEO 448 SPATIAL DATA SCIENCE
GEO 491 STATISTICAL DATA ANALYSIS FOR GIS

For more information, please contact the Department of Geography: geography@depaul.edu

Geographic Information Systems Undergraduate Certificate

The Certificate Program requires 20 hours of instruction. It provides sophisticated education in GIS, remote sensing and cartography and serves as a basis for entry-level employment in the geotechnology industry. There are five required courses to complete the certificate:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEO 141</td>
<td>GEOGRAPHIC INFORMATION SYSTEMS I: DIGITAL MAPPING</td>
<td>4</td>

<td>4</td>
</tr>
<tr>
<td>GEO 348</td>
<td>SPATIAL DATA SCIENCE</td>
<td>4</td>
</tr>
<tr>
<td>GEO 391</td>
<td>STATISTICAL DATA ANALYSIS FOR GIS</td>
<td>4</td>
</tr>
</tbody>
</table>

GEO 141 and GEO 242 must be taken in sequence. GEO 141 is a prerequisite for all 300-level GIS classes. GEO 243 can be taken at any time. All students with a Geotechnology Concentration will automatically also earn the GIS certificate. Other GEO concentrations, please contact the Department if you are considering pursuing the GIS Certificate.

In order to earn a certificate in GIS, a student must:

- Earn at least a grade of C- in each Certificate course.
- Earn at least a cumulative GPA of 2.0 for all courses applied to the Certificate.
- Earn a letter grade. The pass / fail option may not be selected for courses in the Certificate.

A student completing a GIS Certificate is eligible to simultaneously complete a Geography minor. No more than 3 GIS Certificate courses can be applied to a Geography minor. A student wishing to complete a GIS Certificate and a Geography minor will complete a minimum of 8 Geography courses. Please see a faculty advisor in the Department of Geography for further details.

Geography (BA)

Geographers examine the spatial relationships between people, places, environments and economies using innovative conceptual and technological approaches. Exciting technological changes, from computer mapping software like Google Earth, to satellite image processing, and global positioning systems (GPS), make geography a fascinating discipline to study. DePaul’s geographers share a commitment to ‘hands on’ teaching and research that makes a world of difference for the people, places, environments and processes that we study. Geographers apply methods such as observation, visualization, analysis, and modeling to explain the spatial organization of human and physical environments. Geographical perspectives foster skills that have broad applications in public policy, research and the private sector. The Department of Geography teaches students to reason spatially by applying geographic techniques and information technologies, including new technologies such as Geographic Information Systems (GIS). This helps students produce sophisticated understandings of the world, its people, environments, economic structures and cultures.

Geospatial analysis and Geographic Information Systems (GIS) is a rapidly-growing multi-billion dollar industry. Geotechnology was named by the U.S. Bureau of Labor as a “hot” area for job growth in both 2005 and 2010 and it is estimated that over the next ten years, demand for geospatial analysts will exceed supply as the geospatial technology industry grows to ten times the size of the video games industry. Geography holds a comparative advantage as a discipline that straddles fields in the social and natural science disciplines and, as a result, Geography has courses in every DePaul learning domain. This breadth of courses makes Geography the ideal double major at DePaul and the range of classes offered means that geography is an exceptional foundation for a variety of careers that explore questions of spatial organization and require regional knowledge. The study of geography builds a unique spatial perspective that sits at the intersection of “natural” and “social” science, and it addresses both “human” and “physical” domains of knowledge, examining the interactions between them through space.

Learning Outcomes

Students will be able to:

- Use key concepts, theories, and vocabulary to interpret how socio-cultural, political, economic, and/or environmental phenomena may construct a “space,” a “place,” a “landscape,” a “location,” or a “region” as a complex material or symbolic structure.
- Use qualitative and/or quantitative methodologies to analyze spatial phenomena, and collect, identify, and apply spatial data from either primary or secondary sources to interpret the spatial character of a physical, socio-cultural, or environment-society problem.
Modern Language Requirement (MLR) may be demonstrated by:

- proficiency attained from one year of college-level language study. This
- All students will be required to demonstrate competence in a modern
- advisor in the Office for Academic Advising Support.
- changing a major field, the student should consult an academic
- beginning their junior year. The student will then be assigned a faculty
- Declaration of Major, Minor and Concentration
- Liberal Studies, the major field, and electives. Together these three parts
- The major field program generally is built upon a set of core courses
- Because no academic major program is built in isolation, students are

</tbody>
</table>

1. Students must earn a C- or better in this course.
2. Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.

3. A student majoring in Geography (GEO) is required to complete the Capstone offered by the GEO Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. A Geography major in the University Honors Program shall take the University Honors Capstone and the GEO Capstone.

### Learning Domains

**Arts and Literature (AL) (p. 1300)**

- 3 Courses Required

**Historical Inquiry (HI) (p. 1304)**

- 2 Courses Required

**Math and Computing (MC) (p. 1306)**

- 1 Course Required
  
  [1 SR Course]

**Philosophical Inquiry (PI) (p. 1307)**

- 2 Courses Required

**Religious Dimensions (RD) (p. 1308)**

- 2 Courses Required

**Scientific Inquiry (SI) (p. 1310)**

- 2 Courses Required
  
  [1 Lab Course and 1 SWK Course]

### Notes

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the JYEL requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

<td>4</td>
</tr>
</tbody>
</table>

#### Concentration Requirements

Students must also complete the requirements from one of the following concentrations: Standard; Urban Development and Planning; GIS and Geotechnology; or Environment and Society. As part of the Allied Fields for any of these concentrations, student must engage in 4 credit hours of internship or other practical professional experience, e.g. UIP 200, 205, 210, 215, 225, an internship, or equivalent.

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Environment and Society Concentration, Geography (BA) (p. 532)
- GIS and Geotechnology Concentration, Geography (BA) (p. 534)
- Standard Concentration, Geography (BA) (p. 535)
- Urban Development and Planning Concentration, Geography (BA) (p. 536)

Supporting/Allied Fields

Twenty credit hours of additional environment-themed courses selected with adviser consent from offerings in Anthropology, History of Art and Architecture, Economics, Environmental Science and Studies, Geography, History, International Studies, Political Science, Public Policy Studies, Sociology, and any other discipline or program selected in consultation with the student’s adviser. Student must engage in 4 credit hours of internship or other practical professional experience, e.g. UIP 200, 205, 210, 215, 225, an internship, or equivalent.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Geography (BA) + Secondary Education Social Science (MEd)

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The TEACH Program combines a Liberal Arts and Social Sciences (LAS) undergraduate Social Science major (Anthropology, Economics, Geography, History, Political Science, or Sociology) or a Science and Health (Psychology) major with a graduate level College of Education (COE) Master’s in Education Program. Students graduate with a BA or BS in their disciplinary major and a MEd in Education with State of Illinois Secondary Social Science licensure.

Students may apply to the TEACH Program during the spring of their junior year. They must enroll in the Junior Year Experiential Learning course, TCH 320, and meet other application criteria; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 GPA. During their senior year, students are required to complete a TEACH Program capstone course, TCH 390, and three 400-level courses that count toward both their undergraduate and graduate degrees:

Junior Year Coursework: 4 undergraduate quarter hours required

<table>
<thead>
<tr>
<th>Course</th>

</tr>
<tr>
<td>TCH 422</td>
<td>INQUIRY &amp; APPLICATION IN DEVELOPING SECONDARY HISTORY AND SOCIAL SCIENCES PEDAGOGY</td>
<td>4</td>
</tr>
</tbody>
</table>

Social Science Content Area (grades of C or better required for licensure):

The following Social Science content area requirements are required. These can be taken as part of the major, liberal studies or open elective requirements:

- HST 298
- HST 299
- 3 United States History courses
• 2 Non-United States History courses
• 6 from the geography major
• Additional licensure requirements: (one course in each area required)
  • Economics (ECO 106 recommended)
  • Political Science (PSC 120 recommended)
  • Psychology (PSY 105 recommended)
  • Sociology (SOC 101 recommended)
  • Anthropology (ANT 102 recommended)

This combined degree program of the College of Liberal Arts and Social Sciences and the College of Education was collaboratively developed, and is governed and taught by faculty from these units.

The Master's year comprises teacher-preparation coursework that culminates with student teaching during Spring quarter. Upon graduation and the fulfilling of State of Illinois licensure requirements (which may require some additional course work in the student's major and related fields), students are eligible to be licensed to teach Social Sciences at the 5th-12th grade levels.

A full description of the TEACH Program can be found here. (p. 1145) Students interested in the TEACH Program should consult with the designated TEACH Program advisor in their home department.

Geography 3+3 (BA+JD)

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

Key Program Features

• Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
• Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
• Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
• Students receive early (conditional) admission to the College of Law.
• Credits earned in the first year of law school apply toward the BA degree.
• Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
• If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 677).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law’s median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Select any Geography course in consultation with the student’s adviser

Courses not taken from those listed in the GIS and Geotechnology Concentration Core may be taken to fulfill the Systematic Surveys and Seminars requirement. All students with a Geotechnology Concentration will automatically also earn the GIS certificate.

#### Supporting Fields

Twenty credit hours in courses selected from course offerings in Anthropology, Computer Science, Economics, Environmental Science, Geography, Graphic Design, History, History of Art and Architecture, Information Technology, International Studies, Political Science, Public Policy Studies, Sociology, Women’s and Gender Studies, and any other discipline or program selected in consultation with the student’s adviser. Student must engage in 4 credit hours of internship or other practical professional experience, e.g. UIP 200, 205, 210, 215, 225, an internship, or equivalent.

#### Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.
Supporting Fields

Twenty credit hours in courses selected from course offerings in Anthropology, History of Art and Architecture, Economics, Environmental Sciences, Geography, History, International Studies, Political Science, Public Policy Studies, Real Estate, Sociology, Women’s and Gender Studies, and any other discipline or program selected in consultation with the student’s advisor. Student must engage in 4 credit hours of internship or other practical professional experience, e.g. UIP 200, 205, 210, 215, 225, an internship, or equivalent.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Supporting Fields

Twenty credit hours in urban-related courses selected from course offerings in Anthropology, Environmental Science and Studies, Geography, History, History of Art and Architecture, Political Science, Public Policy Studies, Real Estate, Sociology, Women’s and Gender Studies, or any other discipline or program selected in consultation with the student’s advisor. Student must engage in 4 credit hours of internship or other practical professional experience, e.g. UIP 200, 205, 210, 215, 225, an internship, or equivalent.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Geography (Minor)

In the Geography minor program you can explore spatial relationships at the local, regional, national and global scales. From learning how to apply methods such as GIS data visualization and analyses, to urban development and planning, and international environmental, geopolitical and economic policies and processes, the five course (20 credit hour) Geography minor offers students an introduction to this dynamic and exciting discipline.

Course Requirements

- Any five Geography courses, selected with the approval of the student’s Geography faculty advisor.

A student completing a Geography minor is eligible to simultaneously complete a GIS Certificate. No more than 2 Geography minor courses can be applied to a GIS Certificate. A student wishing to complete a Geography minor and a GIS Certificate will complete a minimum of 8 Geography courses. Please see a faculty advisor in the Department of Geography for further details.

German (BA)

The German Program at DePaul offers students an extensive background in German and Austrian culture, language, and literature, and prepares them to think and work in an increasingly globalized world. German is the most widely spoken first language in the European Union, and German-speaking countries are among the most influential engines driving culture, business, and politics today. The German-speaking world is rich and multifaceted – these are the cultures of Mozart, Goethe, Freud, Kafka, and Marx – and the study of German also explores the crucial questions of memory and history particular to the German past. A degree in German from DePaul offers a broad-based humanities education with crucial skills in reading, writing, critical thinking, and intercultural communication useful for any number of pursuits after college. Several of our German students have been awarded prestigious grants and scholarships, including multiple Fulbright grants and Congress-Bundestag Youth Exchange scholarships. Our graduates have gone on to pursue careers in government, business, the public humanities, scientific research,
and education, both in the US and abroad, while others have enrolled in prestigious graduate programs in the humanities, medicine, and law.

The courses in DePaul’s German program give students the opportunity to attain advanced language proficiency while studying all aspects of German literature and culture. Topics of our regular GER course offerings include:

- Language and Culture
- Film
- History and Politics
- Business
- Art and Music
- Literature
- Current Events
- Translation
- Creative Writing

Students expand upon the fundamental skills learned in the German core by choosing one of three concentrations: German Studies, German Language and Literature, or Commercial German. Many German students pair German with another major, and several courses from these double majors can potentially be double-counted with the concentrations in the German major.

The German Program offers its students two study abroad options: a long-term study abroad program to Vienna, and a short-term, human rights-oriented program in Berlin. German students are encouraged to participate in one of these programs, both in order to grow linguistically and also to expand their cultural understanding of the German-speaking world and culture today. The German Program also has its own chapter of the German Honorary Society Delta Phi Alpha and is affiliated with the student-led organization DePaul Deutsch Club.

**Learning Outcomes**

Students will be able to:

- Proficiently speak, understand, read, and write the studied language(s) to: engage in conversations, interpret and create a variety of written texts, provide and obtain information, express feelings and emotions, exchange opinions.
- Acquire knowledge of the cultures related to the studied language(s) with appropriate background in geography, history, politics, and society.
- Acquire knowledge of the literary traditions related to the studied language(s) along with techniques of literary and rhetorical analysis.
- Acquire basic notion of the history and theory of language and language study, including linguistics, sociolinguistics, language acquisition, and dialectology.
- Acquire basic notion of the theory and practice of translation and interpretation.

**College Core Requirements**

**Study in the Major Field**

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

**Declaration of Major, Minor and Concentration**

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

**The Modern Language Requirement (MLR)**

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in
high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (see below).

The Modern Language Option (MLO)
The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency
A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Required 4

Senior Year
Capstone
Required 1 4

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

Learning Domains
Arts and Literature (AL) (p. 1300)
• 1 Course Required

Historical Inquiry (HI) (p. 1304)
• 2 Courses Required

• 2 Courses Required
[1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
• 3 Courses Required

Notes
A student whose only major is in Modern Languages is required to complete the Capstone offered by the Department of Modern Languages (MOL). A student who is double majoring (or pursuing dual degrees) with the primary major (or primary degree) in MOL may substitute the Capstone of the secondary major or degree. An MOL major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the MOL Capstone.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain
courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Major Requirements**

Majors in German must complete a total of 12 advanced courses (48 quarter hours), comprised of a common 8-course core and a 4-course concentration in “German Studies,” “German Language and Literature,” or “Commercial German.”

</table>

In addition to the German core courses, German majors must choose one of these three concentrations. Each of these concentrations allows students to develop their broad intercultural communicative skills through a rigorous interdisciplinary education tailored to their academic and professional interests. While the course listings for each concentration are not exhaustive, they represent a substantial sampling of courses from around the university that could be applied toward the respective concentrations. Students are encouraged to meet with the German Program Director and the MOL staff advisor upon declaration of the major and concentration in order to discuss elective course options for whichever concentration they choose. Other relevant courses may count as electives for the concentrations below with consultation/permission of the German Program Director.

**Commercial German Concentration, German (BA)**

Students choosing the Commercial German concentration are interested in complementing their advanced intercultural language study with a foundation in international business skills. The bridge courses in the concentration (GER 320 and MGT 300) integrate students’ knowledge across disciplines, and the two additional electives in the concentration (chosen from the list of MGT courses below) allow them to further explore their area of interest in business management.

After declaring the German major with the Commercial concentration, students should meet with the German Program Director, who will work together with advisors in the College of Business to ensure that students are maximizing opportunities to double count their chosen concentration courses (when possible) in order to efficiently achieve their postgraduate career goals.

German 3+3 (BA+JD)

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements.

Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law's online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant's third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program. In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 677).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law's median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

German Language and Literature Concentration, German (BA)

Students choosing the Language and Literature concentration will likely fall into one of two categories:

- Students who choose to complete a majority, if not all, of their coursework in the German language and through German program offerings (i.e. courses with the "GER" designation), which are largely culture-, literature-, history-, and film-oriented.
- Students who have an academic or professional interest in the structures and mechanics of language, along with questions of second language acquisition and cognition. The "Language" part of this concentration allows students to take elective courses in Linguistics and/or Second Language Acquisition from departments and programs around the university.

After declaring the German major with the Language and Literature concentration, students should meet with the German Program Director to discuss which of these two pathways best fits their interests and academic/postgraduate goals.
## Electives (16 quarter hours)

4 courses from MOL, GER, or affiliated departments.

German Studies Concentration, German (BA)

Students who choose the German Studies concentration will have tremendous flexibility in building their own cluster of courses to align with a particular facet of German, based on their academic interests or intended career path. In the case of double majors, the German Studies concentration allows students to meaningfully align their two programs of study so that one complements the other, with the concentration courses potentially double-counting between both majors. Students with German as a secondary major may also be able to double-count their Studies concentration courses with courses taken for the learning domains.

After declaring the German major with the Studies concentration, students should meet with the German Program Director to discuss ideas and options for crafting a tailor-made German Studies concentration that best fits their college and post-graduate goals.

Electives (16 quarter hours)
4 courses from MOL, GER, or affiliated departments. No more than two of the four courses shall be taken in the same department.

**German (MA)**

The MA program in German provides students a customizable, flexible curriculum to develop advanced linguistic and cultural expertise in a language and to apply that expertise in the disciplinary or professional contexts of their choice. Whether in the “global village” of today’s world or in multi-ethnic communities such as Chicago, this advanced expertise is an increasingly valuable personal and professional asset, requiring appropriate training and credentials. The MA program especially seeks to serve adult professionals (government employees, social workers, healthcare providers, business people, or certified K-12 teachers) whose careers require this applied expertise.

The MA in German may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- German + Digital Humanities Certificate
- German + Teaching English to Speakers of Other Languages (TESOL) Certificate
- German + Translation and Interpreting Studies Certificate

### Program Requirements

<table>
<thead>
<tr>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Degree Requirements</td>
</tr>
<tr>
<td>Total hours required</td>
</tr>
</tbody>
</table>

### Learning Outcomes

Students will be able to:

- Speak and participate in most informal and some formal conversations from topics related to school, home, and leisure activities, to many related to employment, current events, and matters of public and community interest.
- Narrate and describe in the major time frames of past, present, and future in paragraph length discourse with some control of aspect, as well as combine and link sentences into connected discourse of paragraph length; although these narrations and descriptions tend to be handled separately rather than interwoven.
- Use communicative strategies such as rephrasing and circumlocution, and contribute to a conversation with sufficient accuracy, clarity, and precision to convey their intended message without misrepresentation or confusion.
- Combine and link sentences into texts of paragraph length and structure, and use minimal control of common structures and vocabulary.
- Listen and comprehend (albeit unevenly) short conventional narrative and descriptive texts with a clear underlying structure.
- Understand conventional narrative and descriptive texts with clear underlying structure (though their comprehension may be uneven).

### Degree Requirements

#### Course Requirements

The curriculum of the MA in German consists of twelve courses (48 quarter credit hours), divided into two parts:

1. A core curriculum of three required courses (12 quarter credit hours), and

2. Nine courses (36 quarter credit hours) in the language area. All courses in the language area must be courses taught in the target language of the student’s program (i.e. courses with prefixes GER). In exceptional cases, with the approval of the student’s advisor and the director of the graduate program, a student may count one or two courses taught in English from allied fields (such as art history, economics, education, geography, health sciences, management, philosophy, political science, religion, sociology, etc.) among the nine “language area” courses in the student’s program.

### Core Curriculum

The core curriculum consists of the following three courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MOL 401</td>
<td>PROFESSIONAL FOUNDATIONS</td>
<td>4</td>
</tr>
<tr>
<td>MOL 402</td>
<td>LANGUAGE, SELF AND SOCIETY</td>
<td>4</td>
</tr>
<tr>
<td>MOL 496</td>
<td>MAMOL CAPSTONE</td>
<td>4</td>
</tr>
</tbody>
</table>

In addition, all 300-level language courses are offered simultaneously as 400-level electives to complete the MA program. The 400-level courses have additional requirements.

### Additional Requirements

Additional requirements include:

- Portfolio

The portfolio (completed while enrolled in MOL 496) consists of a compilation and critical assessment of select work done throughout the program and a capstone project. Capstone projects may include a community service experience, internship, performance or creative work, teaching portfolio, thesis, or translation.

### Graduation Grade Point Average Requirement

In order to graduate from the program, students must complete all program requirements with a minimum GPA of 3.000.

### Thesis Option

A thesis option will be available for students who attain a GPA of at least 3.7 in the program after completing 24 credit hours of coursework.
Student Handbook

Students in a graduate program offered through Modern Languages follow the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in a Modern Language graduate program.

Language Proficiency for Admission

In order to be eligible for admission to a Modern Language graduate program a student must have successfully completed at least 20 quarter credit hours (or the equivalent in semester credit hours) of advanced college-level coursework in the language (this is the equivalent of an undergraduate “minor” at most colleges or universities in the United States).

Students who lack 20 quarter credit hours (or the equivalent in semester credit hours) of coursework must demonstrate proficiency in the language by attaining a rating of at least “Intermediate High” on two standardized tests from the American Council on the Teaching of Foreign Languages (ACTFL): the Oral Proficiency Interview (OPI) and the Writing Proficiency Test (WPT).

Transfer Credit

Students may apply (“transfer”) toward their MA programs in Modern Languages no more than eight quarter hours of graduate-level credit completed at another college or university, with approval from the departmental director of graduate programs. Students may not transfer credits already used to satisfy the degree requirements of any program at another college or university.

Students seeking to apply “transfer” credit toward their MA programs in Modern Languages must complete the college transfer request form.

Graduation with Distinction

Students from the MA programs in Modern Languages earn their degrees “with distinction” if they graduate with a cumulative grade point average (GPA) of 4.0. To verify eligibility, students and their faculty advisors should contact the departmental advisor and the departmental director of graduate studies before the deadline to apply for graduation.

German (Minor)

The German minor at DePaul University provides students with a basic linguistic and cultural background, develops their creative and critical thinking skills and helps to prepare them for a career in a multicultural, global world.

The minor consists of a total of 5 courses in German language at the 200/300-level. Courses taught in English (GER 272E, GER 274E, GER 277E, GER 278E) will not be counted toward this minor unless Program Director permission is secured.

Students majoring in German (BA) or minor in German Studies are restricted from earning this minor.

German Studies (Minor)

The German Studies minor offers a basic proficiency in the German language along with a more in-depth exploration of the cultural landscape and history of German-speaking nations.

Course Requirements

- Three quarters of college-level German language (at any level).
- HST 222
- Four additional courses associated with the German-speaking world, chosen in consultation with the German Program Advisor from the list of German Studies Allied Courses below. Please note that while this list of courses is extensive, it is not exhaustive. Other courses not listed here could also be included in the German Studies minor after approval by the German Program Director.

Students majoring in German (BA) or minoring in German are restricted from earning this minor.

**International Baccalaureate Leadership Practices**

The Global Educational leadership with a focus on International Baccalaureate leadership provides a focus on leadership within the context of International Baccalaureate schools as students work toward a dissertation of original research. This program of study includes coursework meeting the requirements of IB leadership practices from the International Baccalaureate Organization (IBO).

**Global Catholic Educational Leadership**

The Global Catholic Educational Leadership concentration provides students a focus on Catholic context of global educational leadership as they work toward a dissertation of original research. Candidates in the Global Catholic Leadership concentration will be prepared for leadership in Catholic educational institutions at all levels, grounded in the philosophy and theology of Catholic education and the research needed to be an agent of transformation in a Catholic educational.

**Global Educational Leadership Online (PhD)**

The Doctor of Philosophy of Education (PhD) in Global Educational Leadership is a fully online doctoral program that engages educators in examining global leadership and global education from social justice and critical democracy perspectives. Students engage in rigorous inquiry and analysis of the globalization of policy, pedagogy, and practice in different contexts. The Global Educational Leadership PhD terminates in a comprehensive dissertation of original research.

The Doctor of Philosophy (PhD) in Global Educational leadership consists of three concentrations: Standard, International Baccalaureate (IB) Leadership Practices, and Global Catholic Educational Leadership. These three concentrations support candidates working in a variety of environments. The Standard Concentration provides candidates preparation to engage in leadership positions within any educational context. The IB concentration offers candidates the opportunity to earn the International Baccalaureate Leadership Practices Education Certificate from the International Baccalaureate Organization along with the PhD degree. Candidates in this program are then equipped to lead IB schools or organizations. Candidates in the Global Catholic concentration are equipped to lead within Catholic organizations across the globe.

The program’s schedule allows students to attend full-time or part-time. Graduates of the program may wish to enter into a new career or strengthen their knowledgebase for their current position. Career options may include leadership positions in PK-12 or related fields in education agencies, faculty positions in higher education, leaders in Catholic educational organizations, International Baccalaureate organizations, or other educational institutions.

**Concentrations**

**Standard**

The Global Educational Leadership Standard Concentration provides theoretical and practical knowledge in global education leadership, informed by theory and the experience of successful school leaders. This program engages students in rigorous study of practices of leadership within educational or other cultural organizations that have an international dimension as students work toward a dissertation of original research.

**International Baccalaureate Leadership Practices**

The Global Educational leadership with a focus on International Baccalaureate leadership provides a focus on leadership within the context of International Baccalaureate schools as students work toward a dissertation of original research. This program of study includes coursework meeting the requirements of IB leadership practices from the International Baccalaureate Organization (IBO).

**Global Catholic Educational Leadership**

The Global Catholic Educational Leadership concentration provides students a focus on Catholic context of global educational leadership as they work toward a dissertation of original research. Candidates in the Global Catholic Leadership concentration will be prepared for leadership in Catholic educational institutions at all levels, grounded in the philosophy and theology of Catholic education and the research needed to be an agent of transformation in a Catholic educational.

**Standard Concentration**

Students will be able to:

- Facilitate, develop, and implement a shared notion of learning and curriculum from input of all stakeholders.
- Identify, understand, and apply relevant theory to create a professional learning community of growth for all stakeholders.
- Understand, utilize, and assess processes and policies for procedures with respect to efficient operations and management.
- Identify, understand, and apply legal standards to prevent, mitigate, and redress harm to all stakeholders.
- Understand, implement, and evaluate all practices to ensure success of all students through integrity and fairness.
- Demonstrate the ability to design and conduct original research in their chosen fields of concentration.
- Apply a rich knowledge base to analyze global leadership practices with a focus on global minded education.
- Engage in critical study and discourse of global educational policy and practices.

**Catholic Concentration**

Students will be able to:

- Facilitate, develop, and implement a shared notion of learning and curriculum from input of all stakeholders.
- Identify, understand, and apply relevant theory to create a professional learning community of growth for all stakeholders.
- Understand, utilize, and assess processes and policies for procedures with respect to efficient operations and management.
- Identify, understand, and apply legal standards to prevent, mitigate, and redress harm to all stakeholders.
- Understand, implement, and evaluate all practices to ensure success of all students through integrity and fairness.
- Demonstrate the ability to design and conduct original research in their chosen fields of concentration.
- Understand and apply Catholic social teachings within the context of leadership practices from a global lens.
• Expand perspective and take action as an ally and activist for Catholic educational reform and social justice.

International Baccalaureate Leadership

Students will be able to:

• Facilitate, develop, and implement a shared notion of learning and curriculum from input of all stakeholders.
• Identify, understand, and apply relevant theory to create a professional learning community of growth for all stakeholders.
• Understand, utilize, and assess processes and policies for procedures with respect to efficient operations and management.
• Identify, understand, and apply legal standards to prevent, mitigate, and redress harm to all stakeholders.
• Understand, implement, and evaluate all practices to ensure success of all students through integrity and fairness.
• Demonstrate the ability to design and conduct original research in their chosen fields of concentration.
• Apply the practices and principles to serve as leader within an IB school
• Demonstrate the habits of mind and leadership which are the foundation of the IB school
• Engage in research and analysis of current contexts of International Baccalaureate educational practices.

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Reflects on his or her own progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
• Demonstrates a positive attitude and commitment to the profession
• Demonstrates thoughtful, effective verbal and non-verbal communication and listening skills
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates concern for and protection of safety and well-being of others

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

PhD Degree Requirements

Specific degree requirements are determined according to the concentration chosen by the student. Doctorate of Philosophy (PhD) concentrations are available in Standard Concentration, International Baccalaureate, and Global Catholic.

Please review the concentration requirements pages for more information.

Academic Standards

Students must maintain an overall GPA of 3.0 prior to the completion of 36 credit hours and 3.3 after the completion of 36 credit hours. Students are allowed no more than two grades of "C." Upon receiving a third grade of "C," students must retake the class in which the grade was received. Grades of "D" and “F” require that the course be retaken.
Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements and major requirements, students are required to choose one of the following:

- Global Catholic Educational Leadership, Global Educational Leadership (PhD) (p. 548)
- Global Educational Leadership with International Baccalaureate, Global Educational Leadership (PhD) (p. 549)
- Global Educational Leadership, Global Educational Leadership (PhD) (p. 549)

**Global Catholic Educational Leadership, Global Educational Leadership (PhD)**

## Global Fluency Certificate

DePaul University provides a wide array of opportunities for students to be exposed to global, international, intercultural issues, through curricular and co-curricular offerings. The Global Fluency Certificate is offered to officially recognize undergraduate students who elect to pursue a global emphasis in their studies. Any undergraduate student is eligible to obtain the Global Fluency Certificate, which will be recorded on transcripts, if they satisfy ALL of the requirements below:

1. **Language Proficiency**: Proficiency (beginning) in a language other than English that can be satisfied by successfully completing with a C or better language courses up to 103 (i.e. one year of a foreign language) or by taking an assessment test, administered by the Modern Languages Department.
2. **Completion of one global experiential component among**:  
   a. Study abroad  
   b. Global Learning Experience (GLE)  
   c. International Campus Ministry service trip  
   d. Global Brigades trip  
   e. International Internship
3. **Successful completion of 4 globally themed courses**: At least 4 (four) GL tagged courses, excluding those that satisfy either 1 or 2, with at least 2 (two) that do not count toward requirements of the student’s major (outside of the Liberal Studies Program). These courses are identified in the Class Search and Enroll function in Campus Connect.
4. **Overall GPA of 2.67 or better.**

A student wishing to complete the Global Fluency Certificate should apply using the following webform (https://offices.depaul.edu/university-
Global Health Certificate

The Certificate in Global Health prepares professionals to work collaboratively with communities to prioritize and investigate health concerns to achieve lasting social change, and foster health equity to promote the health and well-being of populations in diverse global contexts. The four-course certificate trains students in key aspects of global health, using a multidisciplinary approach to analyze the underlying determinants of health, the relationship between public health and development, and public health practice.

Course Requirements

Admission Requirements

Applications are accepted at any time, and students may begin the program at the start of any academic quarter. The program is open to both non-degree seeking students and students concurrently enrolled in a DePaul graduate degree program. All applicants must hold a bachelor’s degree. To apply to the program, prospective students must submit the following materials:

- An LAS graduate admission on-line application [application fee is waived for current DePaul students]
- Transcripts from all schools attended
- A personal statement of 300-500 words describing their professional interests and goals in the certificate

Graphic Art (Minor)

The Graphic Art minor is designed to develop artistic skills and abilities in primarily two-dimensional media. It focuses on an intersection of art and design in the following areas: photography, drawing, printmaking, text, digital imaging, web art, the graphic novel, and the artist book and poster. Six courses are required.

Course Requirements

Select any two of the following:

<table>

</tr>
</tbody>
</table>
Graphic Design (BFA)

Graphic design integrates a range of media and technologies—from web, interaction, and coding to typography, illustration, branding, and packaging—to communicate to diverse audiences. Students engage with both theory and practice, and develop skills to research, concept, prototype, design and document their work.

Learning Outcomes

Students will be able to:

- Address social, ethical, and user-centered concerns related to visual communication.
- Generate a design portfolio blending typography with graphic imagery that demonstrates technical skill, conceptual strategy, and aesthetic direction.
- Engage in graphic design discourse and critique, referencing graphic design history and theory.
- Use research, inquiry, and iteration to organize and transform complex visual information across a range of visual and interactive platforms.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

¹ Students must earn a C- or better in this course.
² Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.
³ GD 380 recommended.

Learning Domains

Arts and Literature (AL) (p. 1300)

- 2 Courses Required

Historical Inquiry (HI) (p. 1304)

- 1 Course Required

Math and Computing (MC) (p. 1306)

- Not Required

Philosophical Inquiry (PI) (p. 1307)

- 1 Course Required

Religious Dimensions (RD) (p. 1308)

- 1 Course Required
Scientific Inquiry (SI) (p. 1310)
• 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
• 1 Course Required

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

Select twenty-eight Major Elective Credits

1 Students must complete 28 Major Elective credits in any ANI, CP, DOC, FILM, GD, GAM, GPH, ID, POST, SCWR, UXD, VFX, or ART courses. Students must earn a grade of C- or higher in all major elective courses.

Open Electives
Open Elective credit hours are required to meet the minimum graduation requirements of 208 hours. Open Electives may be taken from any unit at DePaul.

See www.cdm.depaul.edu (http://www.cdm.depaul.edu) to see sample schedule of course requirements on a year-by-year basis.

Degree Requirements
Students in this degree must meet the following requirements:

• Complete a minimum of 208 credit hours (generally 54 courses).
• Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses.
• Earn a grade of D or higher in all other Liberal Studies and Open Elective courses.
• Maintain a cumulative GPA of 2.0 or higher.

Graphic Design (Minor)
DePaul’s minor in Graphic Design provides a foundation in both traditional and computer-based forms of graphic design with a balanced focus on conceptual, creative and technical skills.

Health Care Administration Graduate Certificate

The Health Care Administration certificate provides students with the managerial and analytical skills necessary to understand and influence the processes through which hospitals, associated health care organizations, and public and private agencies provide health care opportunities to explore the roles of specific nonprofit and governmental health care providers and regulatory agencies.

This certificate requires three courses (12 credit hours).

Health Communication (MA)

The MA in Health Communication prepares students to apply knowledge of communication in health care settings. The program includes critical and theoretical courses as well as highly applied courses in a range of health communication topics including cultural awareness and health disparities, healthcare systems and policy, training and development, provider communication, and health education and promotion.

Graduates of the program will:

- Recognize health care disparities
- Identify the social and multicultural dimensions of health care delivery
- Describe the relationship between effective communication and the quality of care that patients receive
- Enhance health literacy across diverse audiences
- Design and deliver health communication campaigns that provide knowledge to individuals hoping to understand contemporary health care issues
- Implement and evaluate health service delivery programs

</tbody>
</table>
Learning Outcomes

Students will be able to:

• Apply theory in order to address problems or make improvements to communication in the health care environment.
• Critique current health communication practices as they impact health across the population, including contributing to health disparities.
• Create messages that demonstrate effective application of communication principles in the health care environment.
• Interpret and synthesize current health communication research published in scholarly journals.

Degree Requirements

Course Requirements

The Master of Arts in Health Communication requires 12 courses (48-credit hours) — three core courses, one methods course, five Health Communication electives, and three graduate electives inside or outside the program.

Core Courses

Students are required to take all of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CMNS 500</td>
<td>FOUNDATIONS IN GRADUATE COMMUNICATION STUDIES</td>
<td>4</td>
</tr>

<td>4</td>
</tr>
<tr>
<td>HTHC 517</td>
<td>COMMUNICATION, HEALTH DISPARITIES, AND CULTURE</td>
<td>4</td>
</tr>
</tbody>
</table>

Methods Requirement

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HTHC 516</td>
<td>RESEARCH METHODS FOR HEALTH CARE PRACTITIONERS</td>
<td>4</td>
</tr>
</tbody>
</table>

Elective Courses

Select eight courses from the following list: ¹

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HTHC 519</td>
<td>ASSESSMENT AND INTERVENTION FOR HEALTH CARE ADMINISTRATORS</td>
<td></td>
</tr>
<tr>
<td>HTHC 521</td>
<td>HEALTH AND FAMILY COMMUNICATION</td>
<td></td>
</tr>
<tr>
<td>HTHC 523</td>
<td>TOPICS IN HEALTH COMMUNICATION</td>
<td></td>
</tr>
<tr>
<td>HTHC 524</td>
<td>HEALTH CARE TEAMS &amp; LEADERSHIP</td>
<td></td>
</tr>
<tr>
<td>HTHC 525</td>
<td>NARRATIVES IN HEALTH CARE</td>
<td></td>
</tr>
<tr>

<td></td>
</tr>
<tr>
<td>CMN 591</td>
<td>INTERNSHIP</td>
<td></td>
</tr>
<tr>
<td>CMN 592</td>
<td>INDEPENDENT STUDY</td>
<td></td>
</tr>
</tbody>
</table>

¹ With approval of the graduate program director, students can take up to three relevant elective courses from other College of Communication graduate programs or relevant elective courses from other graduate departments/programs outside of the College of Communication.

Comprehensive Final Examination

Students in the Master of Arts in Health Communication complete their degree requirements by passing a comprehensive final examination.

Optional Latino Media & Communication Concentration

The graduate concentration in Latino Media & Communication is comprised of at least three graduate courses drawn from the areas of advertising, journalism, media and cinema studies, multicultural communication, organizational communication and public relations. Graduate students in any of the College of Communication Master of Arts programs can elect to complete the Latino Media & Communication concentration. Students may need to use outside electives to complete this concentration.

Students who complete the concentration will:

• Develop an understanding of the heterogeneous and rapidly changing Latino communities locally, nationally and globally
• Ground their knowledge of intercultural studies within a more extensive and concrete knowledge of a particular (even though diverse), rapidly growing, and increasingly important population within the U.S.
• Increase their cross-cultural competence (understanding and ability to dialogue across difference, develop cultural sensitivity and awareness) with Latino communities
• Enhance their capacity to communicate with and learn from Latino populations in the workplace, in community situations and other sites of engagement
• Recognize the impact of the movement of Latinos across the globe and develop the skills to critically consume and produce media, public relations and advertisement representations that communicate to and about Latino communities
• Develop field-specific knowledge of Latino media and communication along with an understanding of how Latino studies shapes other fields of communication

Courses

Students are required to take three courses (12 credits) from the following list:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CMNS 509</td>
<td>SPECIAL TOPICS IN MULTICULTURAL COMMUNICATION</td>

</tr>
<tr>
<td>JOUR 515</td>
<td>SPECIAL TOPICS IN JOURNALISM</td>
<td></td>
</tr>
<tr>
<td>MCS 521</td>
<td>TOPICS IN CINEMA STUDIES</td>
<td></td>
</tr>
</tbody>
</table>
Grade Requirements

All students are required to maintain a cumulative GPA of 3.000 in their coursework. If a student’s cumulative GPA falls below 3.000, the student will be allowed to complete an additional 16 credits or 3 quarters (whichever comes first) to attain the 3.000 minimum GPA. If the cumulative GPA remains below a 3.000 at the conclusion of this time period, the student may be dismissed from the program. The student’s cumulative and term GPAs along with overall academic performance will be factored into the dismissal decision.

Health Communication (MA), Combined Bachelor’s + Master’s Degree

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Health Communication (MA)

The Health Communication (MA) combined degree program is open to all undergraduate majors across the university. Students who are interested in this program must apply to the Graduate Admission Office in their junior year, and if accepted, can take up to three graduate courses (12 credits) in their senior year. These three courses count towards both the bachelor’s program and the Master of Arts degree. Students will pay the current undergraduate tuition rate for these three courses. Once students earn their Bachelor of Arts or Bachelor of Science degree from DePaul, they matriculate as a graduate student and complete the remaining required courses for their Master of Arts degree. Students should work with their undergraduate advisor to see how the graduate classes will fulfill undergraduate degree requirements. Students must maintain a 3.0 GPA (B or better) in each graduate class taken in the senior year in order to continue in the program.

Double Demon Scholarship

Alumni from any of DePaul’s colleges who are admitted into a graduate degree program in the College of Communication automatically qualify for the Double Demon Scholarship. Combined degree program students are eligible.

This scholarship covers 25% of the tuition for a master’s degree in the College of Communication. Both full-time and part-time students are eligible. No scholarship application is required. (DePaul University employees are eligible for other employee tuition benefits through the university, and therefore are not eligible for the Double Demon Scholarship.)

Health Communication (MA/MBA in Management)

Our Master of Business Administration/Master of Arts in Health Communication degree develops students’ managerial acumen and their expertise as communicators.

The joint degree prepares students for leadership roles in a range of areas within healthcare, including advertising, public relations, crisis communication, quality/patient safety, strategic planning/marketing, corporate communication, and community/population health.

The Kellstadt Graduate School of Business and the College of Communication offer a unique joint degree program. This 88-credit MBA/MA in Health Communication provides you with the opportunity to earn advanced degrees in two highly complementary fields—business and health communication. Success in today’s competitive, global economy requires both an in-depth understanding of the dynamics of the world of business and the ability to communicate effectively using various media under highly diverse conditions.

The Master of Business Administration/Master of Arts in Health Communication program allows students to obtain both degrees in as little as three years of full-time course work. This rigorous program is designed for highly motivated students who work or plan to work in management, executive or consulting positions in healthcare communications, leadership, advertising, public relations, diversity management, quality/safety, and community/population health. To enter this program, prospective students must complete admissions applications and be accepted for both the MBA and the MA in Health Communication.

The Master of Business Administration/Master of Arts in Health Communication is offered as a joint degree, administered jointly by the Kellstadt Graduate School of Business and the College of
Communication. The joint degree is designed for committed and enterprising students who want to take advantage of the growing emphasis on communication in the design and delivery of high quality, safe, and patient-centered healthcare.

Health Communication Certificate

The graduate certificate in Health Communication provides communication education for professionals in the healthcare field and health industry education for communication professionals. The
A six-course (24 credit hour) certificate will prepare students to work alongside clinicians and public health officials to improve the quality and effectiveness of communication in health care settings.

### Course Requirements

The master’s degree program will provide students with the necessary skills and knowledge needed to implement and support information technology solutions for health sector organizations. Graduates will obtain technical knowledge and management skills for the design and support of IT systems and will develop a deep understanding of health IT processes to support health care delivery management. Graduates will also gain knowledge in areas of health information management including health information processing and exchange, health care analytics, enterprise management and information storage and security management.

### Learning Outcomes

Students will be able to:

- Identify and analyze elements of a sociotechnical health system.
- Define and evaluate the quality and effectiveness of a health informatics technology.
- Accurately identify and analyze elements of the U.S. health care financial system.
- Conduct a systems analysis for a healthcare problem.
- Identify errors that affect patient safety and develop solutions to promote safer systems.
- Identify features of a functioning health information exchange.

### Degree Requirements

#### Course Requirements

No Introductory Course may be substituted for any other course at any level.

1 Student must take only sections of MKT 798 with the topics specified above.

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
- Students pursuing a second master’s degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.
Health Informatics (MS), Combined Bachelor’s + Master’s Degree

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Health Informatics (MS)

The Health Informatics (MS) combined degree program is open to all undergraduate majors across the university.

Students who are interested in this program and meet the following criteria

- Sophomore status (at least 44 quarter hours earned)
- Minimum of 12 quarter hours earned at DePaul
- GPA of 3.3 or higher in courses taken at DePaul
- Full admission to the designated master’s program requires meeting admission requirements
- Faculty endorsement from a CDM full-time faculty member

Student should discuss their interest in this combined degree program with a CDM Health Informatics faculty advisor prior to submitting the application for admission.

If accepted, a student can take up to three graduate courses (12 credits). These three courses count towards both the bachelor’s program and the Master of Science degree. Students will pay the current undergraduate tuition rate for these three courses.

Maintaining Good Standing

- Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter
- The student and Faculty Advisor will be notified when the student's cumulative GPA falls below 3.3 or when the students receives less than a C- in graduate level course
- If a student’s cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional BA/BS.
- Graduate courses passed before dismissal will not be counted and may not be retaken. If the student pursues graduate study, other graduate courses must be substituted. To apply to a CDM graduate degree program, following dismissal from the combined degree, students must follow regular CDM Admission procedures, and will be required take 13 new graduate courses to earn a master’s degree.

Designing a Course of Study

It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.

This course of study may include which undergraduate classes to avoid taking in order to take the graduate version. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.

Registering for Master’s Degree Courses

The student’s advisor must complete the BS/MS Request form, under the Faculty tab on the CDM Intranet, to request the student’s enrollment in the three graduate courses. The form will require the following data: student’s full name, graduate course and section, and the undergraduate course to be substituted for. The CDM dean’s office will process the enrollment.

Bachelor’s Degree to Master’s Degree Transition

In order to be fully admitted to the designated master’s program, the student must meet all admission requirements for that program. Learn more about master's degree admission requirements (http://www.cdm.depaul.edu/Prospective%20Students/Pages/MastersDegreeStudents.aspx). Students will follow the master's degree program requirements for the term they are admitted to the master's degree program.

Double Demon Scholarship

The Double Demon scholarship, offered exclusively to DePaul alumni, covers 25 percent of the tuition for a master's degree or select certificate programs. Combined degree program students are eligible.

Alumni from any of DePaul’s colleges who are admitted into a graduate degree program from one of these programs automatically qualify for the Double Demon Scholarship. This scholarship is available for new part-time or full-time students who began a master’s degree in CDM in winter 2012-2013 or later and the other colleges beginning in winter 2013-2014. It cannot be applied retroactively.

There is no limit to the amount of courses that can be taken by eligible students. However, students may not take more than four courses in any quarter without permission from the college. The scholarship cannot be applied to cover fees or other non-tuition costs.

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
- Students pursuing a second master's degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

For DePaul's policy on repeat graduate courses and a complete list of academic policies, see the DePaul Graduate Handbook.

Health Law (LLM)

Established in 1986, DePaul’s LLM in Health Law is considered one of the most competitive programs in the nation. Guided by outstanding full-time faculty and leading attorneys, the health law curriculum evolves as health care law and technology change, addressing the demand for lawyers with specialized credentials in this field. You may also earn course credit while gaining valuable practice experience through field placements. Additionally, you may participate in programs conducted by the Mary and Michael Jaharis Health Law Institute.

</tr>
</tbody>
</table>

Learning Outcomes

Domestic Students

Students will be able to:

- Demonstrate advanced knowledge of the legal rules and policies in the student’s area of specialization.
- Conduct advanced legal research and analysis in the student’s area of specialization.

International Students

Students will be able to:

- Identify structures of the U.S. legal system and government institutions.
- Demonstrating understanding of how a common law system operates in a constitutional democracy.
- Demonstrate advanced knowledge of the legal rules and policies in the student’s area of specialization.
- Identify and apply relevant legal authority.
- Communication clearly in speech and writing.

Degree Requirements

The Master of Laws program begins with an orientation that introduces graduate students to DePaul’s faculty, staff, library, computer and research facilities. Students who received legal training outside the United States also will participate in a special course introducing them to the Socratic teaching method, the differences between civil and common law systems, and the foundations of the U.S. legal system.

To earn the LLM in Health Law, a student must complete 24 semester hours of credit with a minimum cumulative grade point average (GPA) of 2.0. A summer term is counted as a semester for this purpose. Students who complete 24 credit hours with a GPA below the 2.0 GPA required to earn the degree will not be permitted to continue taking classes to improve their GPA. A student is automatically dismissed if he or she has a cumulative GPA below 2.0 for any three consecutive semesters.

The LLM program may be completed on either a full- or part-time basis but it must be completed within five years. With the exception of students admitted to and enrolled in the joint JD+LLM program, credits earned as part of the JD program do not count toward the LLM degree. No credit is given for law courses taken before a student is admitted to and enrolled in the LLM program.

Courses must be selected from the LLM in Health Law courses listed below. Students wishing to substitute a course must speak with their advisor.

Health Sciences (BS)

The mission of DePaul University’s Department of Health Sciences is to educate and train students who will collaboratively address human health from interdisciplinary natural and social scientific perspectives in order to promote health and to improve the lives of individuals and communities.

The Health Sciences major offers concentrations in BioScience and Public Health Sciences that will enable future health care professionals to begin this cross-disciplinary conversation even earlier. Each concentration offers tracks that help students focus their interests and prepare for future careers. This degree a) provides students interested in pursuing a career in one of many health-related professions with a common core of knowledge; b) provides a general track in each concentration but also articulates additional tracks that meet requirements for entry into graduate programs; c) provides enough flexibility to enable students to move among those tracks as their interests evolve, and d) brings students headed for multiple health-related professions into on-going conversation with each other.

Learning Outcomes

Students will be able to:

- Evaluate scientific research and evidence-based approaches to human health on an individual and population level.
- Identify the core concepts and principles of public health and explain how they promote health and prevention of disease.
- Explain the foundational biological principles related to human health.
- Identify and analyze ethical issues in research, health, and public health.
- Explain how social determinants influence an individual’s health and create health disparities.
- Demonstrate effective communication skills and work collaboratively with individuals of varied perspectives.

College Core Requirements

Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (BA) degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.
Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

BA students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While Bachelor of Science (BS) students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

| Experiential Learning |       |
| Required     |       |

1 Students must earn a C- or better in this course.
2 (for Public Health Studies Only) Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.

Learning Domains

Arts and Literature (AL) (p. 1300)  
- 3 Courses Required

Historical Inquiry (HI) (p. 1304)  
- 2 Courses Required

Math and Computing (MC) (p. 1306)  
- 1 Course Required (Not Required for Bioscience Concentration)  
[1 CR Course]

Philosophical Inquiry (PI) (p. 1307)  
- 2 Courses Required  
(See Note Below)

Religious Dimensions (RD) (p. 1308)  
- 2 Courses Required  
(See Note Below)

Scientific Inquiry (SI) (p. 1310)  
- Not Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)  
- 3 Courses Required

Notes

Students must complete one approved health ethics course: REL 229 (RD) or PHL 229 (PI) within their liberal studies program or a track elective in the major, HLTH 229. Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Students with a primary major in Health Sciences are required to complete the Capstone offered by the Health Sciences department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Health Sciences are required to complete the Capstone offered by the Health Sciences department. Health Sciences students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.
## Major Requirements

### Core Course Requirements

<table>
<thead>
<tr>

<td>4</td>
</tr>
<tr>
<td>BIO 191</td>
<td>GENERAL BIOLOGY I FOR SCIENCE MAJORS</td>
<td>4</td>
</tr>
</tbody>
</table>

All majors will also complete one approved health ethics course, which can apply to the Religious Dimensions or Philosophical Inquiry learning domains (REL 229 or PHL 229) within their liberal studies program, or to their track electives in the major (HLTH 229).

### Concentration Requirements

Students must select a concentration within the major and complete the requirements. A maximum of one concentration and one track may be selected. Health Sciences concentrations include: BioScience (with tracks in General; Medical; Lab Investigations; and Pre-nursing) and Public Health Sciences.

### Concentration Requirements

Concentrations provide an opportunity for students to narrow the focus of their major. In addition to the college core requirements, liberal studies requirements and major requirements, student are required to choose one of the following concentrations.

- BioScience Concentration - Accelerated Program, Health Sciences (BS) (p. 565)
- BioScience Concentration, Health Sciences (BS) (p. 568)
- Public Health Sciences Concentration, Health Sciences (BS) (p. 572)

### BioScience Concentration - Accelerated Program, Health Sciences (BS)

The Accelerated Program is only for qualified Pathways Honors students who are majoring in the Health Sciences with a BioScience concentration, and who have been accepted into an accelerated 3+ College of Science and Health pre-professional program. In order to pursue one of the pre-professional Accelerated Program tracks, a student must coordinate carefully with the Pre-Health Advisor and Pre-Health Advising Committee’s (PAC) Accelerated Program advisor (email CSHPreHealth@depaul.edu for information). Once accepted to an accelerated program, students may declare one of the concentrations below. There are pre-professional Accelerated Programs in Nursing (3+2) at DePaul University and in Medicine (3+4), Pathologists’ Assistant (3+2), Pharmacy (3+4), Physical Therapy (3+3), Physician Assistant (3+2), and Podiatry (3+4) at Rosalind Franklin University.

Students formally accepted into an Accelerated Program will complete their fourth year of coursework at their professional school and apply the credit toward their Bachelor of Science in Health Sciences at DePaul. Students must apply for degree conferral via Campus Connect by the deadline outlined in the Student Handbook in order to be considered a candidate for earning their Bachelor of Science degree at the conclusion of their fourth year of study. Depending on the program in question, some Liberal Studies Program courses, Health Sciences major requirements, and open electives will be fulfilled by professional degree courses. To avoid earning duplicate credit for some courses, students must meet regularly with the Pre-Health Advisor and the Health Sciences departmental academic advisor. Please visit the Pathways Honors Program (https://csh.depaul.edu/academics/pre-health-program/pathways-honors-program/Pages/default.aspx) site for more information about eligibility requirements.

* Student may not combine the HLTH and BIO Anatomy and Physiology courses (eg: HLTH 301 and BIO 201)
The combined BS in Health Sciences + Master’s Entry to Nursing Practice allows strong students with an interest in nursing to complete both degrees in 5 years, saving both time and significant tuition dollars. In
order to be eligible to apply, students must be members of the Pathways Honors Program in the College of Science and Health (p. 1441) and should begin working with their academic advisor by the end of their freshman year to ensure that their coursework is completed properly. Due to the restrictive nature of the program, students with significant transfer credit are not eligible.

Eleven courses are double-counted between the BS in Health Sciences + Master’s Entry to Nursing Practice.

Please see the Accelerated BioScience Concentration requirements (p. 565) for a complete list of courses needed.

Health Sciences (BS) + Health Communication (MA)

Combined Bachelor’s + Master’s degree programs allow especially strong and motivated students to complete both degrees on an accelerated timeline by sharing a pre-determined limited number of credits between the undergraduate and graduate degree programs.

The BS in Health Sciences + MA in Health Communication is a Universal Pathway combined degree offered through the College of Communication. Students should refer to the College of Communications Combined Degree Programs (p. 556) page for requirements.

Health Sciences (BS) + Master of Public Health (MPH)

Combined Bachelor’s + Master’s degree programs allow especially strong and motivated students to complete both degrees on an accelerated timeline by sharing a pre-determined limited number of credits between the undergraduate and graduate degree programs.

The 3+2 combined program maintains the rigor and value of both the undergraduate degree in Health Sciences from the College of Science and Health and the Master of Public Health program from the College of Liberal Arts and Social Sciences, giving students exceptional education and training at the undergraduate and graduate level. The advantage of this program is that students can earn their BS in Health Sciences and their MPH in as few as five years. There is also a Universal Pathway to the MPH as an option for students who are not eligible for the 3+2 combined degree program, and more information about that pathway can be found on the Master of Public Health site.

Interested students may apply to the BS in Health Sciences + Master of Public Health 3+2 combined degree program during their junior year at DePaul. Eligible students must be declared Health Sciences majors in the Public Health Sciences concentration with a minimum cumulative GPA of 3.5. Application to the MPH program is competitive and includes several personal statement essays and a current CV. The GRE requirement will be waived for application to this program. Students are responsible for planning their remaining quarters at DePaul to confirm that they can complete all degree requirements.

In year four, accepted students take undergraduate courses toward the BS, graduate courses towards the MPH, and graduate courses that will count towards both degrees. The students will be awarded the BS in Health Sciences when all requirements have been met, by the end of year 4 at the latest. The fifth year will consist solely of courses for the MPH.

Because this program requires careful planning of courses, students in their sophomore year are encouraged to work with the Health Sciences academic advisor and a faculty advisor from the MPH program. While students are enrolled as undergraduates in the College of Science and Health, they must apply for undergraduate degree conferral in anticipation of completing the BS in Health Sciences. Once students are matriculated as graduate students in the College of Liberal Arts & Social Sciences they will be responsible for applying for degree conferral in anticipation of completing the Master of Public Health.

In the event that they are not accepted to the program, applicants would take the remaining coursework for the BS in Health Sciences and would be encouraged to apply for traditional entry into the MPH.

The MPH curriculum will be completed in its entirety and is unaltered by this program. Unique to this combined degree program, a maximum of 5 courses/20 quarter hours may be applied toward both the BS in Health Sciences and the Master of Public Health courses below will apply toward both degrees. All other graduate coursework counts solely towards the MPH. The following courses in the BS Health Sciences/ Public Health Sciences concentration will be replaced by graduate level courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MPH 501</td>
<td>INTRODUCTION TO PUBLIC HEALTH</td>
<td>4</td>
</tr>
<tr>
<td>MPH 502</td>
<td>INTRODUCTION TO EPIDEMIOLOGY</td>
<td>4</td>
</tr>
<tr>
<td>MPH 511</td>
<td>HEALTH AND BEHAVIOR THEORY</td>
<td>4</td>
</tr>
<tr>
<td>MPH 515</td>
<td>PUBLIC HEALTH ETHICS AND POLICY</td>
<td>4</td>
</tr>
<tr>
<td>MPH 541</td>
<td>BIOSTATISTICS</td>
<td>4</td>
</tr>
</tbody>
</table>

If the student is admitted to the combined program and completed some MPH coursework but then decides not to complete the MPH, the completed graduate courses will apply to the undergraduate degree and any remaining Health Sciences requirements will be finished at the undergraduate level. Also, students will be advised carefully as to the financial implications of this program as the timing of courses affects when the students will be in their undergraduate or graduate career for the purposes of tuition and financial aid eligibility.

Once the 5 courses/20 quarter hours of graduate coursework has been completed and applied toward the BS and MPH degrees, the
student will take their remaining undergraduate courses as part of their undergraduate career and remaining graduate courses as part of their graduate career. Once the undergraduate degree is conferred, the student is eligible for the Double Demon Scholarship for remaining graduate-only terms. See DePaul’s Scholarship website for details.

### Public Health Sciences Concentration, Health Sciences (BS)

- HLTH 380 TOPICS IN HEALTH SCIENCES

**Open Electives**

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

### Healthcare Administration (BA)

The Bachelor of Arts in Healthcare Administration from the School of Continuing and Professional Studies (SCPS) emphasizes a multidisciplinary understanding of health and the “business of health,” in preparation for further education and careers in the administration of healthcare services and delivery systems. The degree offers an interdisciplinary liberal arts and professional studies curriculum to students who are new to the healthcare administration industry and those who are already working in this environment and seek to advance their careers.

This major advances student’s knowledge and professional skills related to health communications, biomedical ethics, global health issues, career planning, writing, critical thinking, research, community engagement in a variety of integrative formats. In addition to a core of health science subjects, students also study general business, management and
leadership topics related to the health care industry including public health, health care administration, and eldercare all within a liberal arts framework.

This major is designed for working adult students and provides:

- Flexible scheduling including online options available
- Financial Aid, flexible payment options, and special adult student tuition pricing
- Acceleration and affordability through transfer credit and prior learning assessment (PLA) credit
- Opportunities to combine bachelor’s and master’s programs and apply graduate courses to both programs
- Individualized program planning, course selection and advising assistance provided
- Enhanced career opportunities through professional portfolio development, and career placement services instruction from industry practitioners, and wide-ranging Career Services support
- Degree granted by DePaul University, with its excellent academic reputation and the opportunity to join its prestigious and extensive alumni network

**Learning Outcomes:**

Students will be able to:

- Analyze and apply knowledge and theories of health care management.
- Explain legal and regulatory requirements applicable to health care organizations.
- Apply skills for effective decision-making in health care organizations.
- Investigate problems using qualitative and quantitative methods.
- Apply ethical principles in context.
- Apply methods of communication in multiple settings.
- Analyze and apply different liberal arts perspectives.

Open Electives (34 credits)

Open Electives can be fulfilled through courses taken in the School of Continuing and Professional Studies and other DePaul colleges, transfer courses, assessment of prior learning (PLA), and independent studies.

History (BA)

As the American Historical Association has noted, “We all interpret and narrate the past, which is to say that we all participate in making history. It is among our most fundamental tools for understanding ourselves and the world around us.” The History Department at DePaul University embraces this idea, and is committed to engaging with students, the university, and the wider community in an ongoing effort to understand the past and its varied meanings, the critical and scholarly debates through which we gain such understanding, and the relationship of the past to the problems of the present.

The history program at DePaul combines a breadth of chronological and geographical coverage with the opportunity to develop a concentration in a student’s fields of interest. Instruction emphasizes the humanistic as well as the social scientific dimension of the field. One-hundred and two-hundred-level courses (lower division) provide surveys of Asian, African, European, Latin American, North American and World and Comparative History. A main focus of these lower division courses is teaching students how to evaluate primary sources. Three-hundred-level courses (upper division) concentrate on historical debates within specific fields. All courses stress development of research, writing and oral communications skills.

The history major gives students a broad base of knowledge and skills applicable to a variety of careers. Many of our graduates go on to work in the fields of education and law. Others pursue jobs in government and politics; museums, historical societies, and libraries; and business and commercial ventures. A wide range of employers find that history majors have honed critical analytical and communications skills, making them ideal candidates for positions of requiring responsibility and independent work habits.

Program Requirements

<table>
<thead>
<tr>
<th>Liberal Studies Requirements</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Major Requirements (Core + Concentration)</td>
<td>56</td>
</tr>
</tbody>
</table>
Modern Language Requirement (MLR) may be demonstrated by:

- language (i.e., a language other than English) equivalent to the All students will be required to demonstrate competence in a modern language.

- coursework in the same language for three domain courses.

- the purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

- The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

- Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

- Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

- Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the modern language may elect the “Modern Language Option” (see below).

The Modern Language Option (MLO)

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

- Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.
- The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.
- MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.
- Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.
- Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be
obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

</tr>
</tbody>
</table>

1. Students must earn a C- or better in this course.
2. Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.
3. A student majoring in History (HST) is required to complete the Capstone offered by the History Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. An HST major in the University Honors Program shall take the University Honors Capstone and the HST Capstone.

<table>
<thead>

- 2 Courses Required

**Religious Dimensions (RD) (p. 1308)**
- 2 Courses Required

**Scientific Inquiry (SI) (p. 1310)**
- 2 Courses Required
  [1 Lab Course and 1 SWK Course]

**Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)**
- 3 Courses Required

**Notes**

A student majoring in History (HST) is required to complete the Capstone offered by the History Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. An HST major in the University Honors Program shall take the University Honors Capstone and the HST Capstone.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

1. Important note: Students must complete WRD 103 and WRD 104 or HON 101 prior to enrolling in HST 298. For all concentrations, HON 102 may be counted toward lower division requirements.

**Concentration Requirements**

Students must also complete the requirements from one of the following concentrations: standard, pre-law, public history, or secondary-education.

**Concentration Requirements**

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:
• Pre-Law Concentration, History (BA) (p. 578)
• Public History Concentration, History (BA) (p. 579)
• Standard Concentration, History (BA) (p. 579)

History (BA) + Secondary Education History (MEd)

The TEACH Program combines a Liberal Arts and Social Sciences (LAS) undergraduate Social Science major (Anthropology, Economics, Geography, History, Political Science, or Sociology) or a Science and Health (Psychology) major with a graduate level College of Education (COE) Master’s in Education Program. Students graduate with a BA or BS in their disciplinary major and a MEd in Education with State of Illinois Secondary Social Science licensure.

This combined degree program of the College of Liberal Arts and Social Sciences and the College of Education was collaboratively developed, and is governed and taught by faculty from these units.

Students may apply to the TEACH Program during the spring of their junior year. They must enroll in the Junior Year Experiential Learning course, TCH 320, and meet other application criteria; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 GPA. During their senior year, students are required to complete a TEACH Program capstone course, TCH 390, and three 400-level courses that count toward both their undergraduate and graduate degrees:

#### Secondary History Education Content Area (grades of C or better required for licensure):

The following Social Science content area requirements are required. These can be taken as part of the major, liberal studies or open elective requirements:

- HST 298
- HST 299
- 4 United States History courses
- 4 Non-United States History courses (*A minimum of four History courses must be at the upper division level (300-level) with at least one of those courses in non-US History).
- Additional licensure requirements: (one course in each area required)
  - Geography (GEO 101 recommended)
  - Economics (ECO 106 recommended)
  - Political Science (PSC 120 recommended)
  - Sociology (SOC 101 recommended)
  - Psychology (PSY 105 recommended)
  - Anthropology (ANT 102 recommended)

This combined degree program of the College of Liberal Arts and Social Sciences and the College of Education was collaboratively developed, and is governed and taught by faculty from these units.

The Master's year comprises teacher-preparation coursework that culminates with student teaching during Spring quarter. Upon graduation and the fulfilling of State of Illinois licensure requirements (which may require some additional course work in the student's major and related fields), students are eligible to be licensed to teach Social Sciences at the 5th-12th grade levels.

A full description of the TEACH Program can be found here. (p. 1133)

Students interested in the TEACH Program should consult with the designated TEACH Program advisor in their home department.

### History 3+3 (BA+JD)

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

#### Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant's third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 677).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law’s median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Pre-Law Concentration, History (BA)

Course Requirements

Lower Division Courses

Students must take five courses at the 100- or 200-level. Note that the 200-level courses are not more difficult than the 100. The 100-level indicates that the course examines global history or large regions of the world. The 200-level indicates that the course has a narrower national or thematic focus. Note: HON 102 may be counted toward this lower division requirement.

Core

<td>CRAFT OF HISTORY</td>
<td>4</td>
</tr>
<tr>
<td>HST 390</td>
<td>CAPSTONE IN HISTORICAL RESEARCH AND WRITING</td>
<td>4</td>
</tr>
</tbody>
</table>

1 Important Note: Students must complete WRD 103 and WRD 104 or HON 101 prior to enrolling in HST 298. For all concentrations, HON 102 may be counted toward lower division requirements.

History majors should take HST 298 at the beginning of their sophomore year, after they have completed two or three of their lower-division courses as well as WRD 103 and WRD 104. Transfer students should plan on registering for HST 298 as soon as possible.

Upper Division Courses

Once they have completed HST 298, students take six HST courses at the 300 level. One of the 300 level classes must be a gateway course linked to HST 390. Note that HST 390 counts as a capstone and not as one of the six 300 level HST courses. For those in the pre-law concentration, four of those six 300-level classes must be the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HST 388</td>
<td>THE COURT AND THE U.S. BILL OF RIGHTS</td>

<tr>
<td>HST 386</td>
<td>UNITED STATES CONSTITUTIONAL HISTORY SINCE 1865</td>
<td></td>
</tr>
</tbody>
</table>

Any 300-level HST Topics course with a relevant topic

History majors cap off their studies with HST 390 a course in deep and sustained historical research and writing. To prepare for this capstone, one of the six 300-level HST classes must be part of a two-quarter linked sequence (called the “gateway course”). Students are strongly encouraged to take this sequence either in their junior or senior year bearing in mind that the gateway HST 390s are reliably offered only in Autumn-Winter and Winter-Spring. Not all 300-level HST courses are gateways to the HST 390 capstone, so students should refer to the
History Department web page and postings in SAC 420 for applicable offerings. HST 299 is a prerequisite for HST 390.

**Additional Course**

Students will take one additional HST course in either the lower or upper division.

**Open Electives**

Open elective credit is also required to meet the minimum graduation requirement of 192 hours.

**Public History Concentration, History (BA) Course Requirements**

**Lower Division Courses**

Students must take five courses at the 100- or 200-level. Note that the 200-level courses are not more difficult than the 100. The 100-level indicates that the course examines global history or large regions of the world. The 200-level indicates that the course has a narrower national or thematic focus. Note: HON 102 may be counted toward this lower division requirement. Please see the list below for the public history offerings.

Students are strongly encouraged to take this sequence either in their junior or senior year bearing in mind that the gateway HST 390s are reliably offered only in Autumn-Winter and Winter-Spring. Not all 300-level HST courses are gateways to the HST 390 capstone, so students should refer to the History Department web page and postings in SAC 420 for applicable offerings. HST 299 is a prerequisite for HST 390.

One Additional Course

Students will take one additional HST course in either the lower or upper division.

Open Electives

Open elective credit is also required to meet the minimum graduation requirement of 192 hours.

History (MA)

The MA in History offers students the opportunity to explore the breadth and depth of the Historical Discipline. Students take a total of 12 courses, with all students taking History 421 “The Historical Discipline.” Students may enter the program in Autumn, Winter, or Spring.

The MA in History may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

• History + Digital Humanities Certificate
• History + Women’s and Gender Studies Certificate

<table>

Learning Outcomes

Students will be able to:

• Evaluate the breadth and complexity of the discipline of history.
• Compare and differentiate the range of topics historians explore.
• Apply and interpret the variety of methodologies historians employ.
• Identify, analyze, and evaluate historical arguments effectively.
• Communicate, in writing and orally, complex historical, historiographical, and methodological issues effectively.

Degree Requirements

Course Requirements

The Core Course Title Quarter Hours
HST 421 THE HISTORICAL DISCIPLINE 4

The Graduate Colloquia

All graduate students need to complete 12 courses (48 hours) of graduate work in order to complete the MA. HST 421 is required for all students. For those students who were conditionally admitted, HST 421 is a prerequisite for all 400-level history courses. In addition, students take eleven courses from the list of graduate colloquia. These colloquia share the programmatic emphasis of the curriculum with their emphasis on the historiographical aspects of their respective topic. Note that every colloquium, when offered, has a subtitle which identifies the specific sub-topic to be addressed that particular quarter. (For example: HST 431: The New Deal. As long as the topics (as reflected in the subtitle) of any colloquium are different, students may take more than one of any of the above courses. In order to ensure that students realize the curricular goals of breadth of exposure to the historical discipline, however, in no case is a student to take more than four colloquia bearing the same number. Thus, at the minimum, students will take courses in at least three different areas (as defined by colloquium titles).

<table>
<thead>

<td>INDEPENDENT STUDY</td>
<td>4-8</td>
</tr>
</tbody>
</table>

In addition, upon consultation with the Graduate Director and with his/her approval, students may count up to eight quarter hours from another DePaul graduate program toward their MA. Such courses would reduce the number of required colloquia by two.

Student Handbook

Probation and Dismissal

A graduate student goes on probation when his/her graduate GPA falls below 3.0. If the GPA goes under 3.0, the student will have one quarter in which to raise it. At the end of this quarter, if the student has failed to bring his/her GPA back up to 3.0, the student may be dismissed and prohibited from registering for additional coursework.

Conduct

Faculty retain the right to define and enforce appropriate etiquette for the promotion of collegiality and civility. Instructors have the right to remove any offender(s) from the classroom. In cases of serious or repeated misconduct, the program director in consultation with the instructor and
the chairperson may remove the student(s) from a course and/or the graduate program.

Conditional Admission
In some cases, strong candidates who have not completed the REQUIRED undergraduate credit hours in history and/or students who have not yet demonstrated their strengths in the field may be considered for conditional admission. Students admitted in this category may only take one course (HST 421) during the Autumn quarter. A student who passes HST 421 with a grade of B or above may then continue in the program but must receive grades of B or above in the next two graduate colloquia that he or she attempts. If the student does NOT receive a B or above in EACH of these three courses, he or she must leave the program.

Readmission
If a student is dismissed from the program, he or she may be reapply through the formal application process. All students considering applying for readmission are strongly encouraged to contact the Graduate Director.

Transfer Credit
Upon consultation with the Graduate Director and with his or her approval, students may request that up to 12 units (three courses) of graduate credit earned in other DePaul departments or at other graduate degree-granting institutions be counted toward the MA degree. The Graduate Director will handle such requests on a case-by-case basis. In no circumstances will graduate credit be given for undergraduate coursework or for courses that have been applied toward fulfillment of another degree. Transfer grades from other institutions do not count in the calculation of the DePaul grade point average.

Undergraduate Courses
Undergraduate courses are not applicable toward the degree, but it is sometimes possible (at the discretion of the graduate director) for students to apply foreign language courses toward degree requirements. Students interested in taking foreign language courses that complement their historical studies should contact the graduate instructor prior to enrolling in any foreign language courses.

Graduation Requirements
In order to graduate from the program, students must complete all program requirements satisfactorily. Note that the coursework must be completed with a minimum cumulative GPA of 3.0.

Graduation with Distinction
Distinction is based on two criteria: (1) A record of consistent excellence in graduate coursework, generally interpreted as a cumulative GPA of 3.75 or higher; and (2) Exemplary work on the final paper produced within the capstone seminar as judged by the course instructor and the department’s graduate committee, or (for thesis students), exemplary work on the thesis as judged by the thesis director and the department’s graduate committee.

Program Time Limitation
Students in an MA program are expected to complete degree requirements within a six-year period from the first registration date for a course in the program. For students who do not, the department or program director may recommend, on receipt of the student’s petition, in writing, an extension of time with or without additional courses, examinations, or other conditions.

History (MA), Combined Bachelor’s + Master’s Degree
The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degrees.

Students interested in applying to the combined BA + MA (History) program should contact the History Graduate Director, Scott Bucking (sbucking@depaul.edu).

DePaul undergraduates interested in the BA + MA (History) should apply to the program by April 15 of their junior year. The department will consider students from any major and they must maintain a GPA of 3.0 in their undergraduate courses and in the three graduate courses taken in their senior year. In addition, grades in the graduate-level courses must be at least a C or higher to count for the combined degree.

Undergraduate students will take HST 421 and two HST 400-level electives in their senior year. If they are a History major, the History Gateway course and its linked practicum course may be substituted for the two HST 400-level electives.

History (Minor)
DePaul’s History minor is designed to help students develop a critical understanding of the past, as well as its impact on the present and the future. Students may pick a specific focus area of interest to complement their major.

Course Requirements
- HST 298
- Two lower division HST courses (100 or 200 level)—note HON 102 may be counted toward lower division requirements
- Two upper division HST courses (300 level)
- One course in either the lower or upper level

Students majoring in History (BA) are restricted from earning this minor.

History of Art and Architecture (BA)
The Department of the History of Art and Architecture familiarizes DePaul students with works of art that define civilizations around the world from their emergence to the present day. The study of art is integral to the development of human knowledge and thus consistent with the academic goals of DePaul University as well as a liberal arts education. We extend the Vincentian mission in our particular focus on comparative culture and art in its urban setting. In an increasingly interconnected world, art history encourages a critical engagement with the visual and its role in individual and social formation.

The study of art and architectural history prepares students for a wide variety of careers and post-graduate pursuits. Thus, all of our classes foster critical thinking by developing visual literacy, close reading, persuasive writing, research skills and oral communication. Taking advantage of the rich cultural resources of Chicago through classroom lectures, discussions and site visits to exhibits, museums, and architectural monuments, students come to understand how art is produced and how it operates in its social and historical moment. In more advanced classes, students become well-versed in the nature of the field.
and its current and traditional theoretical issues. In these classes, too, consideration is given to the professional world, including museums, galleries, cultural institutions, and the global art market.

All of these goals are consistent with our professional aspirations, not only as faculty, but as scholars who distinguish ourselves by the breadth of our geographical and chronological interests and through our record of publishing and professional achievements. Although our approaches vary widely, we are united in our shared interest in the creative, social, and political forces that both determine and emanate from all works of art.

</tbody>
</table>

**Learning Outcomes**

Student will be able to:

- Demonstrate an understanding of the ways in which works of art and architecture are products of their unique historical, geographical, social, and/or religious context.
- Use correctly art history’s specialized vocabulary.
- Identify the salient features of a work of visual culture and argue in writing for the ways in which they acquire meaning.
- Analyze and apply major methodological and/or interpretative issues that belong to a given course’s subject.
- Demonstrate an engagement with original works of art at the Art Institute of Chicago or other regional institutions (when possible).

**College Core Requirements**

**Study in the Major Field**

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education,” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

**Declaration of Major, Minor and Concentration**

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

**The Modern Language Requirement (MLR)**

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

**The Modern Language Option (MLO)**

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.
Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Note: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency
A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

3 A student majoring in History of Art and Architecture (HAA) is required to complete the Capstone offered by the HAA Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. An HAA major in the University Honors Program shall take the University Honors Capstone and the HAA Capstone.

Learning Domains

Arts and Literature (AL) (p. 1300)
• 1 Course Required

Historical Inquiry (HI) (p. 1304)
• 2 Courses Required

Math and Computing (MC) (p. 1306)
• 2 Courses Required
[1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1307)
• 2 Courses Required

Religious Dimensions (RD) (p. 1308)
• 2 Courses Required

Scientific Inquiry (SI) (p. 1310)
• 2 Courses Required
[1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
• 3 Courses Required

Notes
Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120.
3 The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.
Select five 200-level HAA courses selected from five categories focused on Asia and the Middle East, Africa and Latin America, Premodern Europe and the Mediterranean to 1453, Early Modern Europe to 1800, and Modern Europe and the U.S. Students must complete one course from each category. (p. 584)

HAA 290 ART HISTORICAL THEORY AND METHODOLOGY 4

Select five 300-level HAA courses with three selected from each of the following three categories as well as two additional 300-level courses of the student’s choice, selected from any category. The categories are Asia, Africa and Latin America, Early Europe and the Mediterranean, and Later Europe and the U.S. (p. 584)

Select one additional HAA course at any level 4

History of Art and Architecture 3+3 (BA+JD)

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences for their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant’s third undergraduate year. The LSAT score will only be used for consideration.
of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 677).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law’s median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

History of Art and Architecture (Minor)

The minor program helps students develop visual literacy by critically thinking about how art and architecture affect individuals and societies. Students may focus on a particular area of art history or architecture.

</tbody>
</table>

1. HAA 130 may be substituted for one 200 or 300 level course in the minor.

Students wishing to group their minor courses around a specialty should confer with the History of Art and Architecture professor in that specialty.

Students majoring in History of Art and Architecture (BA) are restricted from earning this minor.

History of Law (Minor)

The History of Law minor provides an opportunity for non-history majors to gain a solid introduction to historical study related to law and legal history. This minor will give non-history majors training in basic historical skills and specific knowledge about histories related to criminal justice and law. A History of Law minor provides students with valuable skills that are developed in History courses in addition to the specific content focus on the history and evolution of the law and legal history.

Hospitality Leadership (BSB)

The heart and soul of any academic program is the curriculum and the faculty who deliver it. We have developed our unique curriculum with the strong involvement of local Chicago hospitality industry leaders and the members of our national advisory board. We have also asked senior faculty at four of the nation’s top ranked hospitality programs to review it and advise us how to strengthen it. By incorporating this input, we created a powerful curriculum that distinguishes us from other hospitality programs. Our curriculum blends two primary concepts: hospitality industry knowledge and key business skills. Additionally, woven throughout the courses are five central themes: leadership, ethics, human resources, globalization and sustainability. By including these themes in many of our courses, we strive to deeply instill within students a sense of personal and corporate social responsibility embedded within an awareness of the larger world around them.

We have three primary curricular goals:

1. Embed a true sense of hospitality within our students; that is, to create a bedrock belief that hospitality is about serving others
2. Create industry leaders prepared to deliver hospitality to anyone who needs it, whenever or wherever
3. Embrace the Vincentian mission: to share hospitality with the underprivileged and disenfranchised members of our communities

The Hospitality Leadership major is comprised of three components: the Liberal Studies Program (the broad, general education of members of our society), the College of Business core (foundational business skills), and the specific requirements of the School of Hospitality Leadership.
Program Requirements Quarter Hours
Business Core Requirements 70
Liberal Studies Requirements 72
Major Requirements 46
Open Electives 4
Total hours required 192

Learning Outcomes
Core Outcomes
- Use analytical and reflective skills in decision-making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Students will be able to:
- Describe the parallel concepts of service and experience management.
- Demonstrate hospitality service through voluntarism at community event using hospitality skills.
- Demonstrate functional knowledge about hospitality business applications and operations.

College Core Requirements
Business Core Requirements
All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of analytics, accountancy, mathematics, economics, business law, finance, management, management information systems/computer science, and marketing.

Course Requirements
For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 70.0 hours are required:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

- MGT 354 GLOBAL HUMAN RESOURCE MANAGEMENT
- MGT 357 INTERNATIONAL BUSINESS
- MKT 340 MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
- MKT 358 MARKETING IN A GLOBAL ENVIRONMENT
- MKT 360 INTERNATIONAL MARKETING
- SOC 217 WORK IN A GLOBALIZED WORLD
- A course taken as part of a term-long study abroad program

Professional Writing
Select one of the following:
- WRD 202 PROFESSIONAL WRITING FOR BUSINESS (2.0 quarter hours)
- WRD 204 TECHNICAL WRITING
- WRD 206 PROFESSIONAL WRITING

1 Strobel students take specially designated sections of all required ACC classes, including ACC 101 and ACC 102 (excluding ACC 250).
Students majoring in accounting (primary or secondary/double major) are allowed to substitute ACC 370 in place of BLW 201. Hospitality Leadership majors must take HSP 207 for the Business Law requirement; use of HSP 207 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete both HSP 207 and BLW 201.

Finance majors, Finance secondary/double majors, Finance minors, Finance Honors majors, Finance Honors secondary/double majors, and Actuarial Science majors must take FIN 320.

MKT majors and Sales minors must take MKT 376.

Entrepreneurship majors and minors must take ICS 394. Hospitality Leadership majors must take ICS 396 for the Business Capstone; use of ICS 396 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete ICS 396 and one of ICS 394 or ICS 395.

A course taken for Global Business Perspective that is in a student’s major or minor field must be completed with a minimum grade of C-.

### Business Ethics

All undergraduate students in the Driehaus College of Business complete a course in Business Ethics. It is recommended students take MGT 248 or PHL 248 in Philosophical Inquiry or MGT 228 or REL 228 in Religious Dimensions in the Liberal Studies Program (or University Honors Program) Requirements.

### Second Majors and Minors

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

### Math Requirements for all business majors (except Actuarial Science majors)

- MAT 137 may be replaced by MAT 348 or MAT 351.

### Business Capstone Requirement

Hospitality Leadership majors must take ICS 396 for the Business Capstone; use of ICS 396 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete ICS 396 and one of ICS 394 or ICS 395.

### Business Law Requirement

Hospitality Leadership majors must take HSP 207 for the Business Law requirement; use of HSP 207 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete both HSP 207 and BLW 201.

### Grade Minimum Requirements for Hospitality Leadership Major

A minimum grade of C- is required for the following: ACC 101, ACC 102, BUS 102, ECO 105, ECO 106, HSP 207, MAT 137, the course in Professional Writing, and any ICS course used for the Hospitality Leadership major and Global Business Perspective.

### Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

#### Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)

- 1 SCBI Course Required

1. PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD.
Notes
Specified required courses within Liberal Studies may have grade minimums (e.g., C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements
Course Requirements
In addition to HSP 303 and HSP 304 in the Liberal Studies Program and HSP 207 and ICS 396 in the Business Core, a student majoring in Hospitality Leadership is required to complete the following courses totaling at least 46.0 hours:

<table>
<thead>

- HSP 398: SPECIAL TOPICS IN HOSPITALITY (multiple topics may be used)
- HSP 399: INDEPENDENT STUDY
- ICS 350: INTERNATIONAL BUSINESS SEMINAR (Hospitality-led programs only)

Open Electives
Open elective credit (4.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

Business Capstone
Hospitality Leadership majors must take ICS 396 for the Business Capstone; use of ICS 396 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete both ICS 396 and either ICS 394 or ICS 395.

Business Law
Hospitality Leadership majors must take HSP 207 for the Business Law requirement; use of HSP 207 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete both HSP 207 and BLW 201.

Experiential Learning
Hospitality Leadership majors must complete HSP 303 and HSP 304. The completed sequence satisfies the requirement for Experiential Learning in the Liberal Studies Program (or University Honors Program) Requirements.

Career Management Course
Students are required to complete the Career Course (250) associated with the major. Students who double major may choose the Career Course (250) associated with either major provided that hours for graduation are satisfied.

Global Business Perspective
If an ICS or HSP course is shared between Global Business Perspective and the Hospitality major, additional hours of Open Elective credit are required. Any ICS or HSP course must be passed with C- or higher.

Combined Bachelor’s + Master’s Program Participants
Students admitted to the Hospitality Leadership and Operational Performance Combined Bachelor’s + Master’s program may apply approved graduate course(s) towards undergraduate Hospitality Leadership major electives.
Graduation Requirements
All Hospitality Leadership (HSP) courses and any other courses used toward the major must be completed with a minimum grade of C- (or PA where specified) and with a combined GPA of 2.000 or higher.

Hospitality Leadership (Minor)
Available to all students, the focus of this minor is to give broad exposure to the scale and scope of the hospitality industry, and to enable students to explore major sectors, such as lodging, event management, restaurant operations & ownership, or private club management in some depth.

Course Requirements
A student minoring in Hospitality Leadership is required to complete the following courses totaling at least 20.0 hours:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HSP 100</td>
<td>INTRODUCTION TO HOSPITALITY</td>
<td>4</td>
</tr>

</tr>
</tbody>
</table>

Select twelve credit hours from courses in the Hospitality Business Foundation:

Select eight credit hours from any HSP courses between HSP 305 through HSP 399

¹ These courses are each 2.0 quarter hours
² These courses are each 1.0 quarter hour

Graduation Requirements
All Hospitality Leadership (HSP) courses and any other courses used toward the minor must be completed with a minimum grade of C- (or PA where specified) and with a combined GPA of 2.000 or higher.

Hospitality Leadership and Operational Performance (MS)
The Master of Science in Hospitality Leadership and Operational Performance combines critical business theories and skills with innovative hospitality leadership practices. The unique curriculum addresses current trends in the industry, providing you with a necessary skill set focusing on customer relationship management and service delivery. This degree program is designed for career-changers seeking entry into the hospitality industry and industry professionals with a strong desire to enhance their knowledge and skills.

Program Features
Through the MS in Hospitality Leadership and Operational Performance program, you will be exposed to:

- Business courses and concepts that specifically apply to the hospitality industry, including finance, marketing and management strategies
- Cutting-edge hospitality technologies
- Data analysis and financial metrics concepts
- A service leadership foundation and how it relates to the guest experience

The MS in Hospitality Leadership and Operational Performance program is located in downtown Chicago, in the heart of the city’s business district. Students have access to a world-class metropolitan environment, allowing them to supplement knowledge from the classroom with practical skills gained from learning and working in a vibrant hospitality scene.

Program Requirements
<table>
<thead>
<tr>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Degree Requirements</td>
</tr>
<tr>
<td>Total hours required</td>
</tr>
</tbody>
</table>
Learning Outcomes

Students will be able to:

• Develop an understanding of key hospitality operational performance metrics found in the hospitality industry and apply them to various service delivery and financial return components.
• Apply hospitality principles of service leadership and innovation in the guest experience through a conceptual understanding of operational policies/procedures, financial benchmarks, and service delivery.
• Evaluate and comprehend hospitality technology systems and articulate complex service system framework and financial data collection processes commonly used in the industry.
• Acquire business, employee relations and hospitality specific skills that are broad, deep and necessary to fulfill their professional goals.

Degree Requirements

Course Requirements

Students complete the MS in Hospitality Leadership and Operational Performance by taking the following 12 courses for a total of 48 credits:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HSP 502</td>
<td>MANAGING THE GUEST/EMPLOYEE EXPERIENCE</td>

</tr>
</tbody>
</table>

Elective Requirements (3 courses)

Choose any graduate course in economics, management and marketing and any 700 to 799 course in Hospitality Leadership and Operational Performance.

Degree Requirements

• Satisfactory completion of the college residency requirement.
• Satisfactory completion of the 12 required courses, or their substitutes as approved by the Director of the School of Hospitality Leadership.
• All courses for credit toward the degree must be completed within six calendar years after the candidate’s first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree.

Hospitality Leadership and Operational Performance (MS), Combined Bachelor’s + Master’s Degree

The combined Bachelor’s + Master’s degree programs allow students to complete 12 of the 48 required graduate credit hours while still undergraduates. These three graduate level courses will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Hospitality Leadership and Operational Performance (MS)

The MS degree in Hospitality Leadership and Operational Performance is a unique program that integrates critical business theory and skills with cutting-edge hospitality leadership practices. Designed for career-changers interested in the hospitality industry as well as for current industry professionals who want to enhance their skills, the program focuses on developing leadership skills and operational capabilities in a broad array of hospitality service enterprises.

DePaul degree-seeking undergraduate students interested in earning a Master of Science degree in Hospitality Leadership and Operational Performance may apply to the bachelor’s degree/Hospitality Leadership and Operational Performance (MS) combined program. Students may be able to obtain both degrees in as few as five years.

Admission

Students must formally apply and be admitted to the Kellstadt Graduate School of Business before beginning their graduate coursework. Undergraduate students who meet the following criteria will be considered:

• Junior standing or higher (at least 88.0 credits)
• A minimum cumulative DePaul grade point average of 2.50

Students participating in this program will typically take the following three graduate level courses during their senior year:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HSP 502</td>
<td>MANAGING THE GUEST/EMPLOYEE EXPERIENCE</td>
<td>4</td>
</tr>
<tr>
<td>HSP 503</td>
<td>ADVANCED HOSPITALITY LEADERSHIP AND PERFORMANCE</td>
<td>4</td>
</tr>
<tr>
<td>HSP 505</td>
<td>SERVICE &amp; INNOVATION IN HOSPITALITY &amp; TOURISM DEVELOPMENT</td>
<td>4</td>
</tr>
</tbody>
</table>

These three courses may double-count (up to 12 credits) towards both degree programs. The undergraduate degree will be awarded at the completion of all undergraduate work while the MS degree in Hospitality Leadership and Operational Performance will be awarded upon completion of the remaining graduate level work.

For students pursuing their BSB-Hospitality, these three courses replace their Specialization requirements. For students in other majors, these three courses will be free electives.
Human Computer Interaction (MS)

The MS in Human Computer Interaction focuses on user research, design, implementation, and evaluation to create technologies that are useful, easy to use and accessible for diverse users.

<table>
<thead>
<tr>

</thead>
<tbody>
<tr>
<td>Introductory Courses</td>
<td>0-16</td>
</tr>
<tr>
<td>Degree Requirements</td>
<td>52</td>
</tr>
<tr>
<td>Total hours required</td>
<td>52-68</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Plan and conduct ethical user research with human participants using appropriate data collection methods, and analyze the data using both qualitative and quantitative methods.
- Create, justify, and critique interface designs using appropriate theoretical and methodological HCI frameworks.
- Create prototypes that simulate the interactivity of user interfaces and have enough functionality for usability testing with human participants.
- Design and conduct usability tests for an existing or prototyped product or service.

Degree Requirements

Course Requirements

No Introductory course (a course numbered 400 through 419) may be substituted for any other course at any level.

Introductory Courses

Introductory courses may be waived for any of the following conditions:

- The student has the appropriate course work to satisfy an Introductory Course.
- The student has appropriate and verified professional experience to satisfy an Introductory Course.
- The student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.

Foundation Courses

The following Foundation Courses are listed in the suggested sequence for the program.

<table>
<thead>
<tr>
<th>Course</th>

**Degree Requirements**
Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of B- or better in each introductory course of the designated degree program.
- Earn a grade of C- or better in all courses beyond the introductory courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
- Students pursuing a second master’s degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

For DePaul's policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook.

**Human Resources (MSHR)**
The Master of Science in Human Resources (MSHR) degree prepares students to manage the modern organizational workforce. Students develop skills necessary to succeed in specific areas of human resources, such as benefits, compensation, labor relations, recruitment and workforce training programs. Students gain a real-world education in HR management in a stimulating program that combines high-quality teaching with evidence-based recommendations from leading scholars in the field.

Faculty members have won numerous teaching awards and have many years of professional experience in a range of management-related fields, which helps students understand the connection between science and practice. Industry guest speakers, business cases, simulations and internships enhance students’ practical understanding of the HR field. The program leverages DePaul's wide-ranging network of alumni and HR business leaders to create opportunities for students to engage in professional activities and community outreach via service learning. The program also is aligned with the curriculum standards set by the Society for Human Resource Management (SHRM), the most influential human resources association.

**Program Features**
In this program, students develop the skills to manage core HR functions, including workforce planning, staffing, performance management, total rewards, talent management, and training and development. Classes address current topics encountered by human resource professionals, such as:

- Change management, downsizing/rightsizing and mergers and acquisitions
- Internal consulting and organizational development
- Employment law, ethics, and employee and labor relations
- Globalization, outsourcing and managing a diverse workforce
- Metrics, data analytics and human resource information systems
- Organizational succession planning and personal career growth and development

**Program Requirements**

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>48</td>
</tr>
</tbody>
</table>

**Learning Outcomes**
Students will be able to:

- Use analytical and problem-solving skills in decision-making.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Be knowledgeable about the differences among global economies, institutions, and cultures and will understand the implications these have on global management.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Exhibit sophisticated knowledge of HR/business management practices leading to applicable skills in relevant areas (e.g., selection, training, compensation, and performance management) that leads to professional HR career-related success.
- Demonstrate higher-order cognitive skills to analyze an unstructured problem, formulate and develop a solution using appropriate technology, and effectively communicate the results to stakeholders

**Degree Requirements**

**Course Requirements**
Students complete the MS in Human Resources by taking 12 courses across three groups: 1) six core Human Resource courses, 2) three Human Resource electives, and 3) three Business electives.

**Required Core Human Resource Courses**

| MPS 529 | STRATEGIC MANAGEMENT AND PLANNING         |

1 Students choose three electives from these general business courses at the Kellstadt Graduate School of Business (and may substitute an HR elective if an equivalent course was taken elsewhere).

2 GSB 420 or GSB 519 is a prerequisite

If you are interested in an HR career that specializes in compensation and benefits, please consider taking the following courses: ACC 500 or ACC 502, FIN 555, and MGT 566.

Degree Requirements

- Satisfactory completion of the college residency requirement.
- Satisfactory completion of 12 courses (six HR core courses, three HR related electives, and three Business electives).
- All courses for credit toward the degree must be completed with satisfactory grades within six calendar years after the candidate’s first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years, a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree.

Human Resources (MS), Combined Bachelor's + Master's Degree

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These three graduate level courses will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Human Resources (MS)

The Master of Science in Human Resources addresses the need for strategic and business-minded professionals to manage today’s organizational workforce issues. Students gain proficiency in a wide range of human resources areas including employee attraction and retention, diversity, the global economy, employee training, career development, new technology, incentives, total rewards and performance management.

The program prepares students for careers such as compensation consultant, benefits consultant, trainer, HR analyst, recruiter, labor relations representative and HR director.

DePaul degree-seeking undergraduate students interested in earning a Master of Science in Human Resources may apply to the bachelor’s degree/Human Resources (MS) combined program. Students may be able to obtain both degrees in an expedited period, typically in five years.
Admission

Students must formally apply and be admitted to the Department of Management before beginning their graduate coursework. Undergraduate students who meet the following criteria may apply to this program:

- Junior standing or higher (at least 88.0 credits)
- A minimum cumulative DePaul grade point average of 3.20

Students participating in this program will typically take the following three graduate level courses during their senior year:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MGT 500</td>
<td>LEADING EFFECTIVE AND ETHICAL ORGANIZATIONS ¹</td>
<td>4</td>
</tr>
<tr>
<td>MGT 555</td>
<td>HUMAN CAPITAL STRATEGY AND SCIENCE</td>
<td>4</td>
</tr>
</tbody>
</table>

Select one of the following:

- MGT 523 RECRUITMENT AND SELECTION ³
- MGT 525 TRAINING AND CAREER DEVELOPMENT ⁴
- MGT 526 COMPENSATION AND BENEFITS ⁵

These three courses may double-count up to 12 credits towards both degree programs. The undergraduate degree will be awarded at the completion of all undergraduate work while the MSHR will be awarded upon completion of the remaining graduate level work.

Human-Centered Design (PhD)

The PhD in Human-Centered Design prepares students to become interdisciplinary scholars who can apply a variety of methodological approaches at the intersection of technology, human behavior, and design. Students will be able to explore the use of technologies in the context of complex problems through empirical studies and apply results to the design of innovative technologies, strategies, and practices. By working with world-renowned faculty, students will be trained to advance the field of human-centered design through participation in research relevant to both academic and practitioner communities. Students will be prepared for careers in academic institutions, industry research labs, and government and civic organizations.

<table>

<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Degree Requirements</td>
<td>60</td>
</tr>
<tr>
<td>Total hours required</td>
<td>60</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Design and conduct research studies including determining the appropriate research methodology for the context and implementing research protocols, and analyzing data.
- Engage in academic research discussions, including, but not limited to, conducting literature reviews and engaging in academic writing.
- Translate research findings into principles to design human-centered experiences.
- Create design-based artifacts and experiences in a chosen disciplinary area.

Degree Requirements

The PhD in Human-Centered Design prepares students to advance the field of digital technology and media design by taking a transdisciplinary and collaborative approach that blends theory with practice. The program embraces a broad diversity of scholarly traditions and creative practices that include design, learning sciences, computer science, human-computer interaction, game design and development, and psychology.

Overview

The Foundation Phase

Students entering the program will begin by completing the necessary foundation courses and participating in small-scale research projects led by their faculty advisors. The purpose of the foundation phase is to ensure that students have the appropriate breadth and depth of knowledge necessary to formulate relevant research questions as well as develop skills for conducting research.

These three courses may double-count up to 12 credits towards both degree programs. The undergraduate degree will be awarded at the completion of all undergraduate work while the MSHR will be awarded upon completion of the remaining graduate level work.

Design and Production Phase

During this phase, there is one (1) required course and students will work with their advisors to select at least eight (8) specialized courses to develop their design and production skills. Additional electives not listed
below may be selected after students receive written approval from both their faculty advisor and the HCD Committee.

**Research Phase**

During the research phase, students will focus on completing their qualifying examinations, candidacy, and dissertation.

- **Breadth Examination**: By the end of the second year in the program, students will take the breadth examination to assess their knowledge of core concepts and principles.
- **Depth Examination**: Under the supervision of their faculty advisor and assisted by two additional faculty members, students will lead a small research project from inception to publication of the results in one of the following areas: human-centered design, learning sciences, game design and development, or interactive media.
- **Candidacy Phase**: This phase begins with successful defense of the dissertation proposal based on a focused research project. Students will enroll in HCD 699 until complete.

- **Dissertation Phase**: All students must complete a dissertation that provides a significant contribution to the student’s intended area of expertise. Students will enroll in HCD 701 until complete. The doctoral dissertation must demonstrate the student’s ability to engage in significant research that is recognized by an academic community as exhibited by:
  - Relevant and significant research question(s) to a technology-based field
  - In-depth literature review of relevant research
  - A conceptual framework that serves as the foundation for the research
  - Significant research findings and contribution

The designated courses for the research phase are:

Industrial Design (BFA)

The BFA in Industrial Design integrates drawing, graphic design, and experience design with courses in science, math, computer science, physics and computer-aided design/manufacturing/engineering. Unique to the program are required classes in marketing, management and sustainability. Students create under the constraints of what is possible and practical using established manufacturing techniques. Graduates of the program learn to design, make and scale through an iterative process from prototyping to manufacturing.

Students will be able to:

- Analyze a system through reconfiguration and sensory awareness.
- Design objects through the intentional use of template systems and geometric principles.
- Evaluate the generative nature of material as it informs design.
- Utilize principles of interconnectedness and modularity in the design of objects.
- Create objects or systems that explore extreme scales.
- Determine the broader impact of an object within its environment.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Learning Domains

Arts and Literature (AL) (p. 1300)
- 2 Courses Required

Historical Inquiry (HI) (p. 1304)
- 1 Course Required

Math and Computing (MC) (p. 1306)
- Not Required

Philosophical Inquiry (PI) (p. 1307)
- 1 Course Required

Religious Dimensions (RD) (p. 1308)
- 1 Course Required

Scientific Inquiry (SI) (p. 1310)
- 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
- 1 Course Required

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

## Major Electives

Any ID, EXP, PHY, ANI, or ART class can be taken for major elective credit.

## Senior Capstone Requirement

ID 396 INDUSTRIAL DESIGN SENIOR CAPSTONE

## Industrial Design (Minor)

The INDD minor will introduce the pedagogical framework of object-oriented ontology by exploring the nature of objects and perception. Students will craft objects that build on traditional constructionist thinking while also foregrounding newer maker-centered learning concepts already supported at DePaul through institutions like the Idea Realization Lab (IRL) and the Richardson Library makerspace. They will also explore the systems underlying the objects and devices that they interact with on a daily basis. Through constructing a deeper understanding of these otherwise hidden frameworks students will develop self-efficacy and agency over them.

GD 200 GRAPHIC DESIGN I  
UXD 101 DESIGN PRINCIPLES FOR USER EXPERIENCE DESIGN (FORMERLY ISM 101)  
UXD 210 INTRODUCTION TO USER EXPERIENCE DESIGN (FORMERLY ISM 210)
The I-O psychologist must have a solid foundation in general psychological theory, research methodology and philosophy of science, in addition to knowledge in the content area of I-O psychology.

• The I-O psychologist must be aware of the contributions of other disciplines to the study of organizations and must have practical experience in working with formal organizations as a psychologist.

To develop the "practitioner" aspect of this model, the DePaul I-O Psychology Program encourages students to work in I-O settings within the Chicago area. The Chicago metropolitan area offers a rich environment for research and practice in I-O psychology; it includes more than 34,000 retail businesses, 14,000 wholesalers, 40,000 service organizations, 13,000 manufacturers and many other types of organizations. Adjunct and part-time faculty from these organizations enable current students to connect with the I-O community and to establish new relationships.

With its great Chicago location, DePaul University offers its I-O psychology graduate students unique opportunities for their education, research and applied experiences. Our strong faculty and alumni base enables current students to connect with the I-O community and to establish new relationships.

Industrial-Organizational Psychology (MA)/(PhD)

The Industrial-Organizational (I-O) Psychology Program is one of four combined MA/PhD programs in the Department of Psychology at DePaul University. The program prepares students for careers in industry, government and university settings and focuses on the theory and techniques of selecting, evaluating, and developing individuals within an organization. Topics include personnel selection, performance appraisal, training and development, employee attitudes, motivation, leadership, and organizational theory. The program also allows considerable flexibility for the advanced student to pursue related disciplines such as management, information systems and marketing. The MA in I-O Psychology is a non-terminal degree. For a terminal master's degree in I-O Psychology please visit our Combined Degree Programs page. Please note that the combined BA/MS degree is for current DePaul undergraduate students only.

The curriculum is based on the scientist/practitioner model of graduate education and follows two basic principles:

• The I-O psychologist must be aware of the contributions of other disciplines to the study of organizations and must have practical experience in working with formal organizations as a psychologist.

Learning Outcomes

• Identify major theoretical concepts in Industrial Organizational psychology, trace their historical development, and integrate theory, research, and domain-specific knowledge to explain and interpret how Industrial Organizational psychology currently advances knowledge.

• Critique and synthesize theoretical and empirical articles from peer-reviewed Industrial Organizational scholarly journals in terms of theory, methods, data analyses, and conclusions in order to compose novel perspectives and ideas.

• Develop testable research questions, identify strengths and limitations of research designs and data analysis techniques, conduct appropriate research and analytic strategies, and interpret the findings to situate them within the extant research literature in Industrial Organizational psychology.

• Describe and discuss the ethical issues associated with human subjects/participant protection and the sequence of procedures needed for IRB approval of research projects, and apply these ethical practices in research.

• Exhibit effective communication skills for presenting at professional conferences and publishing in professional journals in Industrial Organizational psychology.

• Demonstrate competence in the practice of Industrial and Organizational Psychology.

MA/PhD Degree Requirements

The Industrial-Organizational (I-O) MA/PhD is a combined degree. The MA is non-terminal and, therefore, only students intending to confer the PhD are admitted.

MA Course Requirements

The MA portion of the combined degree requires a minimum of 72 quarter hours beyond the completion of a bachelor's degree, including four quarter hours of thesis research.

Statistics and Methodology Courses

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

PSY 419 FACTOR ANALYSIS AND PATH MODELING (Can be taken during the MA or PhD portion of Program) 4
PSY 420 QUANTITATIVE RESEARCH DESIGN 4

Psychology Core Courses
Course Title Quarter Hours
Select one of the following:
PSY 404 PERCEPTION AND COGNITION 4
PSY 426 LANGUAGE AND COGNITION
PSY 473 THE PSYCHOLOGY OF JUDGMENT AND DECISION-MAKING

Select one of the following:
PSY 430 SOCIAL PSYCHOLOGY OF THE SELF
PSY 435 SPECIAL SEMINAR IN PSYCHOLOGICAL SCIENCE
PSY 556 PREJUDICE AND INTERGROUP RELATIONS
PSY 560 SOCIAL COGNITION

I-O Psychology Core Courses
Course Title Quarter Hours
PSY 559 SEMINAR IN INDUSTRIAL-ORGANIZATIONAL PSYCHOLOGY (Can be taken during the MA or PhD portion of Program) 4
PSY 587 PRACTICUM IN ADVANCED RESEARCH IN INDUSTRIAL-ORGANIZATIONAL PSYCHOLOGY (Can be taken during the MA or PhD portion of Program) 4

Select six of the following: 24
PSY 440 PSYCHOLOGY OF WORK AND MOTIVATION
PSY 441 PSYCHOLOGY OF LEADERSHIP
PSY 442 PERSONNEL PSYCHOLOGY
PSY 444 PERFORMANCE APPRAISAL
PSY 445 ADVANCED TRAINING AND DEVELOPMENT IN ORGANIZATIONS
PSY 446 PSYCHOLOGICAL THEORIES OF ORGANIZATIONS
PSY 447 ORGANIZATIONAL ConsultATION
PSY 448 CONCEPTS, METHODS, AND ETHICS FOR INDUSTRIAL-ORGANIZATIONAL PSYCHOLOGY
PSY 449 ADVANCED SEMINAR IN WORK TEAMS AND COLLABORATION

Research Course
Course Title Quarter Hours
PSY 597 MASTER'S THESIS RESEARCH 1-4

Electives
Additional coursework of at least 16 quarter hours are required to attain the minimum of 72 quarter hours. These courses may include the I-O Psychology Core courses listed above or any graduate-level course. The courses must be taken with the consent of the student's faculty advisor.

Master's Thesis Research
Complete a thesis on a topic approved by the department.

Master's Thesis Examination
Either written or oral, the examination may be, but is not necessarily limited to, a defense of the student's thesis.

PhD Course Requirements
The PhD portion of the combined degree requires a minimum of 24 quarter hours beyond the completion of the master's degree, including four quarter hours of dissertation research. The following requirements must be completed in order to confer the PhD.

Statistics Course
Course Title Quarter Hours
PSY 450 PSYCHOLOGICAL MEASUREMENT 4
PSY 419 FACTOR ANALYSIS AND PATH MODELING (Can be taken during the MA or PhD portion of Program) 4

I-O Psychology Core Courses
Course Title Quarter Hours
PSY 559 SEMINAR IN INDUSTRIAL-ORGANIZATIONAL PSYCHOLOGY (Can be taken during the MA or PhD portion of Program) 4
PSY 587 PRACTICUM IN ADVANCED RESEARCH IN INDUSTRIAL-ORGANIZATIONAL PSYCHOLOGY (Can be taken during the MA or PhD portion of Program) 4

Select three additional courses from the following list which were not taken during the MA program:
PSY 440 PSYCHOLOGY OF WORK AND MOTIVATION
PSY 441 PSYCHOLOGY OF LEADERSHIP
PSY 442 PERSONNEL PSYCHOLOGY
PSY 444 PERFORMANCE APPRAISAL
PSY 445 ADVANCED TRAINING AND DEVELOPMENT IN ORGANIZATIONS
PSY 446 PSYCHOLOGICAL THEORIES OF ORGANIZATIONS
PSY 447 ORGANIZATIONAL consultation
PSY 448 CONCEPTS, METHODS, AND ETHICS FOR INDUSTRIAL-ORGANIZATIONAL PSYCHOLOGY
PSY 449 ADVANCED SEMINAR IN WORK TEAMS AND COLLABORATION

Electives
The electives can be any graduate-level psychology course, or any graduate-level non-psychology course, with permission from the faculty advisor or program director. A total of 16 elective credit hours is required for the entire I-O MA/PhD program.
**Minimum Grades**

1. The minimum grade considered acceptable for a graduate course is a B-. This applies to courses taken within and outside of the department for psychology graduate students. Grades below that (i.e., C+ and below) indicate that the student has not mastered the relevant content of the course.

2. If a graduate student earns a grade lower than B- in a particular course, the student, instructor, and advisor will discuss the situation and circumstances and a remediation plan will be required. The student, his or her advisor, and the instructor, will work together to create a plan through which the student can (a) gain competence in the course material, and (b) demonstrate that competence. The remediation plan might include, for example, requiring the student to complete additional assignments, retaking the class, taking a substitute class, completing an independent study, or pursuing other options. The remediation plan must be approved by the instructor, advisor and the program director.

3. A second occurrence of a grade lower than a B- (for the same or different course) will put the student on academic probation. Once placed on academic probation, the student’s record and any mitigating circumstances will be evaluated by a Psychology Department review board comprising the student’s advisor, the program director, and the department associate chair (the department chair might be included in special circumstances). Additional remediation and intervention might be suggested by the review board.

4. If there is a third occurrence of a grade below B- (for the same or different course), the student will be dismissed from the program. The student may choose to appeal this decision, in which case the Chair of the Psychology Department will appoint a committee of three tenured Psychology Department faculty outside the student’s program to hear the appeal. Depending on the student’s academic record and any mitigating circumstances, he/she may be allowed to complete his/her Master’s degree but will not be permitted to continue onto the PhD (not applicable to terminal Department of Psychology MS degrees) without a successful appeal.

**Dissertation**

Departmental committee approval and acceptance of topic and outline of dissertation given only after admission to candidacy. Dissertation research should be completed during the student’s fourth year in the program.

**Oral Examination**

Student to defend his or her dissertation and to show competence in the general field of psychology and in the area of specialization.

**Time Limitation**

- No more than four years between admission to the MA/PhD program and admission to doctoral candidacy.
- No less than eight months and no more than five years between admission to doctoral candidacy and the final doctoral oral examination; or dismissal from the program will ensue.

**Program Graduate Academic Student Handbook**

**Minimum Grades**

1. The minimum grade considered acceptable for a graduate course is a B-. This applies to courses taken within and outside of the department for psychology graduate students. Grades below that (i.e., C+ and below) indicate that the student has not mastered the relevant content of the course.

2. If a graduate student earns a grade lower than B- in a particular course, the student, instructor, and advisor will discuss the situation and circumstances and a remediation plan will be required. The student, his or her advisor, and the instructor, will work together to create a plan through which the student can (a) gain competence in the course material, and (b) demonstrate that competence. The remediation plan might include, for example, requiring the student to complete additional assignments, retaking the class, taking a substitute class, completing an independent study, or pursuing other options. The remediation plan must be approved by the instructor, advisor and the program director.

3. A second occurrence of a grade lower than a B- (for the same or different course) will put the student on academic probation. Once placed on academic probation, the student’s record and any mitigating circumstances will be evaluated by a Psychology Department review board comprising the student’s advisor, the program director, and the department associate chair (the department chair might be included in special circumstances). Additional remediation and intervention might be suggested by the review board.

4. If there is a third occurrence of a grade below B- (for the same or different course), the student will be dismissed from the program. The student may choose to appeal this decision, in which case the Chair of the Psychology Department will appoint a committee of three tenured Psychology Department faculty outside the student’s program to hear the appeal. Depending on the student’s academic record and any mitigating circumstances, he/she may be allowed to complete his/her Master’s degree but will not be permitted to continue onto the PhD (not applicable to terminal Department of Psychology MS degrees) without a successful appeal.

**Academic Probation**

Students are expected to maintain a minimum cumulative grade point average (GPA) of 3.20. If a student’s cumulative GPA falls below this minimum, the student will be put on academic probation and will have one quarter of coursework to raise their cumulative GPA to at least a 3.20 or face academic dismissal from the program. If the student raises his/her cumulative GPA to at least a 3.20, but it falls below the minimum a second time, he or she will be dismissed from the program before the next term begins.

**Academic Dismissal**

In addition to violations of satisfactory progress, including but not limited to, earning minimum grades, failing the comprehensive exam (including any possible retakes) or project, or maintaining a minimum cumulative GPA, students may be dismissed for breaches of academic honesty, or breaches of the code of student responsibility articulated in the DePaul University Student Handbook.

**Time Limitations**

Students must complete their MA degree requirements prior to completing their requirements for admission to doctoral candidacy. Further, no more than four years may pass between admission to the doctoral program (i.e., successful completion of the doctoral candidacy examination/project), and no less than eight months and no more than five years may pass between admission to candidacy and the final examination (i.e., the oral dissertation defense).

Students are required to meet the timelines specified by the program even if the timeline is more stringent than the College timeline. Failure to do so could result in dismissal.

Extensions on these timelines must be requested in writing to both the department (Program Director) and the college (to the Dean) and must be approved at both levels. Students must complete all requirements for the degree (which may include additional coursework, examinations, or other conditions) by the deadline outlined in the extension. Failure to meet specified time limitations or deadlines can result in dismissal from the program.
Graduation Requirements

Students need a minimum cumulative GPA of 3.20 in courses required by the program. In addition to meeting the minimum cumulative GPA requirement, failing the doctoral candidacy exam (or one retake) or project, lack of progress towards degree completion, and/or unsatisfactory evaluation could result in academic dismissal. See individual program policies for more details.

Graduation with Distinction for MA

The criteria for graduating "with distinction" are a minimum cumulative GPA of 3.75 and the recommendation of "with distinction" by the thesis committee.

For topics not listed above, please consult the Graduate Student Handbook of the Department of Psychology, your program manual or the Psychology Graduate Program Assistant.

Industrial-Organizational Psychology (Minor)

The Industrial-Organizational Psychology minor allows you to explore the behaviors that contribute to a successful or problematic work environment. This minor complements a major course of study tied closely with businesses.

This minor is only for non-psychology majors and a maximum of one psychology minor may be earned by a student.

Psychology majors cannot earn a minor in Industrial-Organizational Psychology.

Six psychology courses are required, including:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSY 105</td>
<td>INTRODUCTORY PSYCHOLOGY I</td>
<td>4</td>
</tr>
<tr>
<td>PSY 106</td>
<td>INTRODUCTORY PSYCHOLOGY II</td>
<td>4</td>
</tr>
<tr>
<td>PSY 380</td>
<td>INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY (Offered at least twice a year.)</td>
<td>4</td>
</tr>
</tbody>
</table>

Select at least one course from the I-O approved list:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSY 355</td>
<td>GROUPS AND ORGANIZATIONS</td>

<td>TRAINING AND DEVELOPMENT IN ORGANIZATIONS</td>
<td></td>
</tr>
<tr>
<td>PSY 388</td>
<td>TOPICAL SEMINAR IN INDUSTRIAL - ORGANIZATIONAL PSYCHOLOGY</td>
<td></td>
</tr>
</tbody>
</table>

Select any two additional psychology courses. It is recommended that they be from the above list, but it is not required.

Information Systems (BS)

The BS in Information Systems focuses on the organizational and business application of computers and related technologies. It prepares students for careers in IT project management, systems analysis & design, database administration, help desk, enterprise systems administration, and user training.

</tbody>
</table>

Learning Outcomes

Students will be able to:

- Identify four different types of information systems.
- Identify five phases of systems development life cycle.
- Identify two best practices in IS project management.
- Describe the characteristics and implementation requirements for enterprise-level information systems.
- Identify the key elements of two commonly used diagrams for IS requirements and conceptual design specifications (e.g., data flow diagram, use case diagram, entity relationship diagram).

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 Students must earn a C- or better in this course.

Learning Domains

Arts and Literature (AL) (p. 1300)

- 3 Courses Required

Historical Inquiry (HI) (p. 1304)

- 2 Courses Required
Math and Computing (MC) (p. 1306)
- Not Required

Philosophical Inquiry (PI) (p. 1307)
- 2 Courses Required (See note below)

Religious Dimensions (RD) (p. 1308)
- 2 Courses Required (See note below)

Scientific Inquiry (SI) (p. 1310)
- 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
- 3 Courses Required

Notes
Students must take one of the following ethics courses: CSC 208 (PI), PHL 248/MGT 248 (PI) or REL 228/MGT 228 (RD).

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Open Electives
Open Elective credit hours are required to meet the minimum graduation requirements of 192 hours. Open Electives may be taken from any unit at DePaul.

See www.cdm.depaul.edu (http://www.cdm.depaul.edu) to see sample schedule of course requirements on a year-by-year basis.

Degree Requirements
Students in this degree must meet the following requirements:

- Complete a minimum of 192 credit hours (generally 48 courses).
- Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses.
- Earn a grade of D or higher in all other Liberal Studies and Open Elective courses.
- Maintain a cumulative GPA of 2.0 or higher.

Information Systems (BS), Combined Bachelor's + Master's Degree

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Students who meet the admission requirements below may choose to apply to a combined degree program. Interested students should consult their faculty advisor regarding the application procedure. This program allows students to combine many CDM bachelor's degrees with a CDM master's degree following the structure outlined below.

Admission Criteria

- Minimum of 44 quarter hours earned
- Minimum of 12 quarter hours earned at DePaul
- GPA of 3.3 or higher in courses taken at DePaul
- Full admission to the designated master's program requires meeting admission requirements (https://www.cdm.depaul.edu/Admission-and-Aid/Pages/Grad-Program-Requirements.aspx) for that program
- Faculty endorsement from a CDM full-time faculty member

Students should discuss their interest in a CDM combined degree program with a CDM faculty advisor. Before admission to the degree, students should work with the faculty advisor to identify a course plan for the combined degree program, including the list of courses to take and how the courses will be applied toward both the undergraduate and graduate degrees. Non-CDM students can email the CDM advising office (advising@cdm.depaul.edu) if interested in a combined degree with a CDM master's degree.

If you are currently a CDM student and interested in combining your CDM bachelor's degree with a non-CDM graduate degree, please contact the respective college for admission and application procedures.

Students enrolled in the Bachelor of Arts in Computing or the Bachelor of Arts in Professional Studies with a major in Computing (https://www.cdm.depaul.edu/academics/Pages/BA-Computing.aspx) joint degree programs between CDM and the School of Continuing and Professional Studies are eligible for this program. Interested students who meet the admission criteria for a combined degree should contact SCPS Academic Services (scpsadvising@depaul.edu) for more information. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

Program Structure

Students in the combined degree program take a maximum of three (3) graduate level courses that count toward both their bachelor’s and master’s degree requirements. Students may enroll in graduate level coursework in the junior and senior year only. Students in the combined degree program will receive the bachelor's degree after meeting all graduation requirements including the minimum credit hours required for graduation.

To earn the master's degree, the student must earn as many additional graduate credit hours as needed to reach the minimum number of graduate credit hours required in that master's degree.

Only CDM courses can be taken as part of this program. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

Maintaining Good Standing

Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter.

The student and faculty advisor will be notified when the student's cumulative GPA falls below 3.3 or when the students receives less than a C- in graduate level course.

If a student's cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional B.A./B.S./B.F.A.

If dismissed from the combined degree program after graduate courses have been passed, the graduate courses may only apply to the undergraduate degree. Should the student later be admitted to a graduate program, graduate courses applied to the undergraduate degree may not apply to the graduate program and may not be repeated if they are required in the declared graduate curriculum. Other graduate courses may be substituted in this case.
Designing a Course of Study

It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.

This course of study should include the graduate courses to be taken and the undergraduate courses that are replaced by the graduate courses. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.

It is advisable for the student and the faculty advisor to enter the proposed plan of study in the student communication record in BlueStar so it is available to the student and CDM faculty and staff.

Registering for Master's Degree Courses

Combined degree students must meet regularly with their faculty advisor. The faculty advisor will initiate the registration process for all graduate level courses taken during the undergraduate career.

Bachelor's Degree to Master's Degree Transition

In order to be fully admitted to the designated master's program, the student must meet all admission requirements for that program. When preparing to complete the undergraduate portion of the combined degree, students must submit the application for degree conferral for the undergraduate degree by the application deadline. At this time, the students should contact the CDM Academic Success Center about the procedure required to be formally admitted to the declared graduate program.

Information Systems (Minor)

DePaul's Information Systems minor will help you acquire the technological skills needed to address the operational, tactical and strategic challenges facing business, governmental and non-profit organizations.

Information Systems (MS)

The MS in Information Systems program focuses on providing competencies and skillsets to equip our graduates with a broad solid grounding in current IT practices. From here, students are invited to focus their studies in order to develop expertise in one particular area of Information Systems. We offer several Concentrations; each designed around particular competencies and IT career paths. We also offer a "standard concentration" that permits students to either [a] acquire a broad base of IS competencies and skills, instead of the focused depth in one area; or [b] create a customized concentration by selected coursework from two or more areas. Students desiring a customized concentration are strongly encouraged to design that plan in communication with a faculty advisor.

Learning Outcomes

Students will be able to:

- Determine the main business impact from emerging trends in Information Systems (IS).
- Describe key outcomes in each of the five phases of a systems development life cycle.
- Explain key benefits and challenges of best practices in IS projects.
- Use diagrams for IS requirements and conceptual design specifications (e.g., context diagram, data flow diagram, use case diagram, entity relationship diagram), given a short business case.

### Open Elective

Students must complete four (4) credit hour of Open Electives.

- Any CSEC, CSC, DSC, ECT, GAM, GPH, HCI, HIT, IS, IT, NET, PM, or SE course in the 421-699 range qualifies.

### Capstone Options

Four (4) credit hours are required for the capstone. Students have the option of completing either (a) IS 577 (Information Systems capstone course), (b) a Graduate Internship (4 credits), (c) two quarters of CSC 500 (a Research Colloquium course), (d) IS 696 (a Master’s Project course), or (e) a Master’s Thesis.

- **Capstone Course**
  - IS 577

- **Graduate Internship**
  - An internship offers students the opportunity integrate their academic experience with on-the-job training in information systems. Students must enroll in CSC 697 for four (4) credit hours to satisfy the practicum requirement. These are the steps:

  1. Secure an internship with a focus in information systems.
  2. International Students must obtain the appropriate practical training form and meet with an advisor in the CDM Academic Center for approval (http://oiss.depaul.edu/Requests/Forms/index.asp).
  3. Login to MyCDM and click the “MyInternships” link on the left to start the course enrollment process.
• Research Options
  • CSC 500 This is a course for two (2) credit hours therefore
    students must enroll in the course in each of two (2) separate
    quarters.
  • Master's Research
    • Up to eight (8) credit hours with Major Elective substitutions.
  • IS 696
  • Master's Thesis
    • A student who has made an original contribution to the area
      may choose to complete a Master's Thesis. The process is:

1. Complete IS 590 as a Major Elective substitution.
2. The student and the student's research advisor form a Master's
   Thesis Committee of three (3) faculty.
3. The student enrolls in IS 698 for two (2) consecutive quarters. In the
   event, the students has not completed the thesis within these two (2)
   quarters, the student will be allowed to register for the zero (0) credit
   hour course CSC 698 and the transcript will show the thesis title as
   the course topic.
4. The student will need to submit to the committee a thesis detailing
   the results of the research project. After a public defense, the
   committee will decide whether to accept the thesis.

Degree Requirements
Students in this degree program must meet the following requirements:

• Complete a minimum of 52 graduate credit hours in addition to any
  required introductory courses of the designated degree program.
• Complete all graduate courses and requirements listed in the
  designated degree program.
• Earn a grade of C- or better in all courses of the designated degree
  program.
• Maintain a cumulative GPA of 2.5 or higher.
• Students pursuing a second (or more) graduate degree may not
  double count or retake any course that applied toward the completion
  of a prior graduate degree. If a required course in the second degree
  was already completed and applies toward a previous degree, the
  student must meet with a faculty advisor to discuss a new course
  to be completed and substituted in the new degree. This rule also
  applies to cross-listed courses, which are considered to be the same
  course but offered under different subjects.
• Students pursuing a second master’s degree must complete a
  minimum of 52 graduate credit hours beyond their first designated
  degree program in addition to any required introductory courses in
  their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

Information Systems (MS), Combined Bachelor's + Master's Degree
The combined Bachelor’s + Master’s degree programs allow students
to complete 12 graduate credit hours while still undergraduates. These
12 graduate credit hours will count toward both the undergraduate and
graduate degree programs.

DePaul Undergraduate Degree +
Information Systems (MS)
The Information Systems (MS) combined degree program is open to all
undergraduate majors across the university.

Students who are interested in this program and meet the following
criteria

• Sophomore status (at least 44 quarter hours earned)
• Minimum of 12 quarter hours earned at DePaul
• GPA of 3.3 or higher in courses taken at DePaul
• Full admission to the designated master’s program requires meeting
  admission requirements (https://www.cdm.depaul.edu/Admission-
  and-Aid/Pages/Grad-Program-Requirements.aspx) for that program
• Faculty endorsement from a CDM full-time faculty member

Student should discuss their interest in this combined degree program
with a CDM Information Systems faculty advisor prior to submitting the
application for admission.

If accepted, a student can take up to three graduate courses (12 credits).
These three courses count towards both the bachelor's program and the
Master of Science degree. Students will pay the current undergraduate
tuition rate for these three courses.

Maintaining Good Standing

• Cumulative GPA and course grades will be reviewed after each
  Autumn, Winter, and Spring Quarter
• The student and Faculty Advisor will be notified when the student's
  cumulative GPA falls below 3.3 or when the students receives less
  than a C- in graduate level course
• If a student’s cumulative GPA falls below 3.3, the student must earn
  a term GPA of 3.3 or above in the following quarter to stay in good
  standing. If the student does not achieve a 3.3 term GPA, then the
  student will be dismissed from the combined program and resume
  the traditional BA/BS.
• Graduate courses passed before dismissal will not be counted and
  may not be retaken. If the student pursues graduate study, other
  graduate courses must be substituted. To apply to a CDM graduate
  degree program, following dismissal from the combined degree,
  students must follow regular CDM Admission procedures, and will be
  required take 13 new graduate courses to earn a master’s degree.

Designing a Course of Study
It is extremely important that the student and faculty advisor work

• together on a course of study immediately upon admission to the
  Combined Degree Program.

This course of study may include which undergraduate classes to avoid
taking in order to take the graduate version. Failure to put together a solid
plan can lead to extra coursework and a lengthening of the Combined
Degree program.

Registering for Master's Degree Courses

The student’s advisor must complete the BS/MS Request form, under
the Faculty tab on the CDM Intranet, to request the student’s enrollment
in the three graduate courses. The form will require the following data:
student’s full name, graduate course and section, and the undergraduate
course to be substituted for. The CDM dean's office will process the enrollment.

Bachelor's Degree to Master's Degree Transition

In order to be fully admitted to the designated master's program, the student must meet all admission requirements for that program. Learn more about master's degree admission requirements (http://www.cdm.depaul.edu/Prospective%20Students/Pages/MastersDegreeStudents.aspx). Students will follow the master's degree program requirements for the term they are admitted to the master's degree program.

Double Demon Scholarship

The Double Demon scholarship, offered exclusively to DePaul alumni, covers 25 percent of the tuition for a master's degree or select certificate programs. Combined degree program students are eligible. Alumni from any of DePaul's colleges who are admitted into a graduate degree program from one of these programs automatically qualify for the Double Demon Scholarship. This scholarship is available for new part-time or full-time students who began a master's degree in CDM in winter 2012-2013 or later and the other colleges beginning in winter 2013-2014. It cannot be applied retroactively.

There is no limit to the amount of courses that can be taken by eligible students. However, students may not take more than four courses in any quarter without permission from the college. The scholarship cannot be applied to cover fees or other non-tuition costs.

Learning Outcomes

Students will be able to:

- Determine the main business impact from emerging trends in Information Systems (IS).
- Describe key outcomes in each of the five phases of a systems development life cycle.
- Explain key benefits and challenges of best practices in IS projects.
- Use diagrams for IS requirements and conceptual design specifications (e.g., context diagram, data flow diagram, use case diagram, entity relationship diagram), given a short business case.

## Open Elective

Students must complete four (4) credit hour of Open Electives.

- Any CSEC, CSC, DSC, ECT, GAM, GPH, HCI, HIT, IS, IT, NET, PM, or SE course in the 421-699 range qualifies.

## Capstone Options

Four (4) credit hours are required for the capstone. Students have the option of completing either (a) IS 577 (Information Systems capstone course), (b) a Graduate Internship (4 credits), (c) two quarters of CSC 500 (a Research Colloquium course), (d) IS 696 (a Master’s Project course), or (e) a Master's Thesis.

- **Capstone Course**
  - IS 577

- **Graduate Internship**
  - An internship offers students the opportunity integrate their academic experience with on-the-job training in information systems. Students must enroll in CSC 697 for four (4) credit hours to satisfy the practicum requirement. These are the steps:
    1. Secure an internship with a focus in information systems.
    2. International Students must obtain the appropriate practical training form and meet with an advisor in the CDM Academic Center for approval ([http://oiss.depaul.edu/Requests/Forms/index.asp](http://oiss.depaul.edu/Requests/Forms/index.asp)).
    3. Login to MyCDM and click the "MyInternships" link on the left to start the course enrollment process.

- **Research Options**
  - CSC 500 This is a course for two (2) credit hours therefore students must enroll in the course in each of two (2) separate quarters.
    - Master’s Research
      - Up to eight (8) credit hours with Major Elective substitutions.
    - IS 696
    - Master’s Thesis
      - A student who has made an original contribution to the area may choose to complete a Master’s Thesis. The process is:
        1. Complete IS 590 as a Major Elective substitution.
        2. The student and the student’s research advisor form a Master’s Thesis Committee of three (3) faculty.
        3. The student enrolls in IS 698 for two (2) consecutive quarters. In the event, the students has not completed the thesis within these two (2) quarters, the student will be allowed to register for the zero (0) credit hour course CSC 698 and the transcript will show the thesis title as the course topic.
        4. The student will need to submit to the committee a thesis detailing the results of the research project. After a public defense, the committee will decide whether to accept the thesis.

## Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion
of a prior graduate degree. If a required course in the second degree was already completed and applies toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.

- Students pursuing a second master’s degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

Information Technology (BS)

The BS in Information Technology focuses on preparing graduates who are able to configure software to meet the needs of organizations. Students acquire skills related to the selection, creation, application, integration and administration of computing technologies. This degree prepares you to become skilled in problem solving and programming, networks and communications systems, databases, Internet and Web technologies, security and project management, and have a strong grasp of business concepts and technical communications.

The BS in Information Technology has three concentrations:

- New Media Engineering
- Standard
- Web Development

The BS in Information Technology can be completed online by transfer students if they meet the following requirements:

- Have a minimum of 45 quarter/30 semester hours of transfer credit
- Have a minimum cumulative 2.0 GPA
- Be in good standing at the last school they attended

Note - The lab science requirement and the pre-calculus prerequisite for the Data Analysis (IT 223) requirement are not available online at DePaul and will need to be completed on campus or transferred in from another institution.

For more information on this option and a sample schedule please see www.cdm.depaul.edu (http://www.cdm.depaul.edu).

Quantitative Reasoning

Not Required

Sophomore Year

Multiculturalism in the US

| LSP 200 SEMINAR ON RACE, POWER, AND RESISTANCE (FORMERLY MULTICULTURALISM IN THE U.S.) |

Junior Year

Experiential Learning

Required 2

Senior Year

Capstone

Required 1, 3

Learning Domains

Arts and Literature (AL) (p. 1300)

- 3 Courses Required

Historical Inquiry (HI) (p. 1304)

- 2 Courses Required

Math and Computing (MC) (p. 1306)

- Not Required

Philosophical Inquiry (PI) (p. 1307)

- 2 Courses Required (See note below)

Religious Dimensions (RD) (p. 1308)

- 2 Courses Required (See note below)

Scientific Inquiry (SI) (p. 1310)

- 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)

- 3 Courses Required
Notes
Students must take one of the following ethics courses: CSC 208 (PI), PHL 248/MGT 248 (PI) or REL 228/MGT 228 (RD).

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Concentration Requirements

Students must also complete the requirements from one of the following concentrations: New Media Engineering, Standard, or Web Development.

Degree Requirements

Students in this degree must meet the following requirements:

- Complete a minimum of 192 credit hours
- Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses
- Earn a grade of D or higher in all other Liberal Studies and Open Elective courses
- Maintain a cumulative GPA of 2.0 or higher

Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- New Media Engineering, Information Technology (BS) (p. 614)
- Standard Concentration, Information Technology (BS) (p. 614)

Information Technology (BS), Combined Bachelor’s + Master’s Degree

The combined Bachelor’s/Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Students who meet the admission requirements below may choose to apply to a combined degree program. Interested students should consult their faculty advisor regarding the application procedure. This program allows students to combine many CDM bachelor’s degrees with a CDM master’s degree following the structure outlined below.

Admission Criteria

- Minimum of 44 quarter hours earned
- Minimum of 12 quarter hours earned at DePaul
- GPA of 3.3 or higher in courses taken at DePaul
- Full admission to the designated master’s program requires meeting admission requirements (https://www.cdm.depaul.edu/Admission-and-Aid/Pages/Grad-Program-Requirements.aspx) for that program
- Faculty endorsement from a CDM full-time faculty member

Students should discuss their interest in a CDM combined degree program with a CDM faculty advisor. Before admission to the degree, students should work with the faculty advisor to identify a course plan for the combined degree program, including the list of courses to take and how the courses will be applied toward both the undergraduate and graduate degrees. Non-CDM students can email the CDM advising office (advising@cdm.depaul.edu) if interested in a combined degree with a CDM master’s degree.

If you are currently a CDM student and interested in combining your CDM bachelor’s degree with a non-CDM graduate degree, please contact the respective college for admission and application procedures.

Students enrolled in the Bachelor of Arts in Computing or the Bachelor of Arts in Professional Studies with a major in Computing (https://www.cdm.depaul.edu/academics/Pages/BA-Computing.aspx) joint degree programs between CDM and the School of Continuing and Professional Studies are eligible for this program. Interested students who meet the admission criteria for a combined degree should contact SCPS Academic Services (scpsadvising@depaul.edu) for more information. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

Program Structure

Students in the combined degree program take a maximum of three (3) graduate level courses that count toward both their bachelor’s and master’s degree requirements. Students may enroll in graduate level coursework in the junior and senior year only. Students in the combined degree program will receive the bachelor’s degree after meeting all graduation requirements including the minimum credit hours required for graduation.
To earn the master’s degree, the student must earn as many additional graduate credit hours as needed to reach the minimum number of graduate credit hours required in that master’s degree.

Only CDM courses can be taken as part of this program. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

Maintaining Good Standing
Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter.

The student and faculty advisor will be notified when the student’s cumulative GPA falls below 3.3 or when the student receives less than a C- in graduate level course.

If a student’s cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional B.A./B.S./B.F.A.

If dismissed from the combined degree program after graduate courses have been passed, the graduate courses may only apply to the undergraduate degree. Should the student later be admitted to a graduate program, graduate courses applied to the undergraduate degree may not apply to the graduate program and may not be repeated if they are required in the declared graduate curriculum. Other graduate courses may be substituted in this case.

Designing a Course of Study
It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.

This course of study should include the graduate courses to be taken and the undergraduate courses that are replaced by the graduate courses. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.

It is advisable for the student and the faculty advisor to enter the proposed plan of study in the student communication record in BlueStar so it is available to the student and CDM faculty and staff.

Registering for Master’s Degree Courses
Combined degree students must meet regularly with their faculty advisor. The faculty advisor will initiate the registration process for all graduate level courses taken during the undergraduate career.

Bachelor’s Degree to Master’s Degree Transition
In order to be fully admitted to the designated master’s program, the student must meet all admission requirements for that program. When preparing to complete the undergraduate portion of the combined degree, students must submit the application for degree conferral for the undergraduate degree by the application deadline. At this time, the students should contact the CDM Academic Success Center about the procedure required to be formally admitted to the declared graduate program.

Select three Major Field Electives 1
Select 20 Credit Hours of Open Electives

1 BS IT Major Electives can be chosen from any 200-level or 300-level CDM course. Appropriate non-CDM courses will be accepted as major electives if approved by the student’s advisor. Students must earn a grade of C- or higher in all major elective courses.

Open Electives

Open Elective Credit Hours are required to meet the minimum graduation requirements of 192 hours. Open Electives may be taken from any unit at DePaul.

See www.cdm.depaul.edu (http://www.cdm.depaul.edu/) to see sample schedule of course requirements on a year-by-year basis.

Information Technology (BS) Online

The BS in Information Technology focuses on preparing graduates who are able to configure software to meet the needs of organizations. Students acquire skills related to the selection, creation, application, integration and administration of computing technologies. This degree prepares you to become skilled in problem solving and programming, networks and communications systems, databases, Internet and Web technologies, security and project management, and have a strong grasp of business concepts and technical communications.

The BS in Information Technology online has two concentrations:

• Standard
• Web Development

The BS in Information Technology can be completed online by transfer students if they meet the following requirements:

• Have a minimum of 45 quarter/30 semester hours of transfer credit
• Have a minimum cumulative 2.0 GPA
• Be in good standing at the last school they attended

Note - The lab science requirement and the pre-calculus prerequisite for the Data Analysis (IT 223) requirement are not available online at DePaul and will need to be completed on campus or transferred in from another institution.

For more information on this option and a sample schedule please see www.cdm.depaul.edu (http://www.cdm.depaul.edu).

Learning Outcomes

Students will be able to:

• Design an application using principles of user-centered design.
• Construct a web application using best practices.
• Write computer programs that interact with software systems such as file systems, databases, web servers, and browsers.
• Participate in the design, implementation, and management of a software development project or activity.
• Communicate orally and in written form, their recommendations to instructors, clients, and other students.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 Students must earn a C- or better in this course.
2 IT 394 required for Standard and Web Development concentrations.
3 IT 395 required for Standard and Web Development concentrations; FILM 398 required for Media Engineering concentration.

Learning Domains

Arts and Literature (AL) (p. 1300)
• 3 Courses Required

Historical Inquiry (HI) (p. 1304)
• 2 Courses Required

Math and Computing (MC) (p. 1306)
• Not Required

Philosophical Inquiry (PI) (p. 1307)
• 2 Courses Required (See note below)

Religious Dimensions (RD) (p. 1308)
• 2 Courses Required (See note below)

Scientific Inquiry (SI) (p. 1310)
• 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
• 3 Courses Required

Notes

Students must take one of the following ethics courses: CSC 208 (PI), PHL 248/MGT 248 (PI) or REL 228/MGT 228 (RD).

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Concentration Requirements

Students must also complete the requirements from one of the following concentrations: Standard or Web Development.

Degree Requirements

Students in this degree must meet the following requirements:

• Complete a minimum of 192 credit hours
• Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses
• Earn a grade of D or higher in all other Liberal Studies and Open Elective courses
• Maintain a cumulative GPA of 2.0 or higher

Concentration Requirements

Concentrations, tracks, and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

• Standard Concentration, Information Technology (BS) Online (p. 617)
## Standard Concentration, Information Technology (BS) Online

Intellectual Property (LLM)

DePaul’s LLM in Intellectual Property Law is regarded as one of the most extensive programs in the country, and the Center for Intellectual Property Law & Information Technology (CIPLIT®), which oversees the program, is an innovative leader in the field. With numerous course offerings, the program addresses the need for specialized training in intellectual property and information technology law.

Courses must be selected from the LLM in Intellectual Property courses. Candidates must complete three required courses and five electives. The LLM program may be completed on either a full- or part-time basis but must be completed within five years.

Program Requirements

| Core Requirements | 9 |
| Elective Requirements | 15 |
| Total hours required | 24 |

Learning Outcomes

Domestic Students

Students will be able to:

- Demonstrate advanced knowledge of the legal rules and policies in the student’s area of specialization.
- Conduct advanced legal research and analysis in the student’s area of specialization.

International Students

Students will be able to:

- Identify structures of the U.S. legal system and government institutions.
- Demonstrating understanding of how a common law system operates in a constitutional democracy.
- Demonstrate advanced knowledge of the legal rules and policies in the student’s area of specialization.
- Identify and apply relevant legal authority.
- Communication clearly in speech and writing.

Degree Requirements

The Master of Laws program begins with an orientation that introduces graduate students to DePaul’s faculty, staff, library, computer and research facilities. Students who received legal training outside the United States also will participate in a special course introducing them to the Socratic teaching method, the differences between civil and common law systems, and the foundations of the U.S. legal system.

To earn the LLM in Intellectual Property Law, a student must complete 24 semester hours of credit with a minimum cumulative grade point average (GPA) of 2.0. A summer term is counted as a semester for this purpose. Students who complete 24 credit hours with a GPA below the 2.0 GPA required to earn the degree will not be permitted to continue taking classes to improve their GPA. A student is automatically dismissed if he or she has a cumulative GPA below 2.0 for any three consecutive semesters.

The LLM program may be completed on either a full- or part-time basis but it must be completed within five years. With the exception of students admitted to and enrolled in the joint JD/LLM program, credits earned as part of the JD program do not count toward the LLM degree. In addition, no credit is given for law courses taken before a student is admitted to and enrolled in the LLM program.

Course Requirements

Courses must be selected from the LLM in Intellectual Property Law courses listed below.

Intercultural Communication (Minor)

In the Intercultural Communication minor program, you will study the theories and methods necessary to analyze communication among and between diverse communities and ethnic groups within the United States.

Course Requirements

A minor in Intercultural Communication requires students to complete six courses (24 credits).

<table>
<thead>

Students majoring in Intercultural Communication (BA) are restricted from earning this minor.

Interdisciplinary Studies (MA)

The Interdisciplinary Studies Program (IDS) is an innovative, flexible, and highly individualized graduate program designed to meet students’ academic and professional goals. The program gives students the opportunity to design a program of study tailored to their own needs and interests. When students choose IDS, they take on the exciting challenge of creating their own curriculum and unique plan for learning. Creating an individualized program requires maturity, self-motivation, and independence. Students seeking a combination of flexible options and academic challenges are natural IDS candidates. IDS is a creative alternative to more rigid traditional, discipline-specific programs. Students can build their particular academic or professional interests and concentrate on specialized fields that are not available in traditional graduate programs.

The program offers students individualized cross-disciplinary majors, incorporating courses drawn from social sciences, humanities, business, computer and information science, and public service. The IDS Program is jointly administered with the Master of Arts in Liberal Studies Program (MALS) by the Interdisciplinary Self-Designed Program (ISD). IDS students are welcome to enroll in MALS Core Courses and cross-lists.

The program offers the following:

- Individual, self-designed graduate program of study that builds on specific academic and professional interests.
- Ability to combine various academic disciplines in chosen areas of study.
- Choice of courses in most colleges and schools.

The MA in Interdisciplinary Studies may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Interdisciplinary Studies + Community Development Certificate
- Interdisciplinary Studies + Digital Humanities Certificate
• Interdisciplinary Studies + Global Health Certificate
• Interdisciplinary Studies + Metro Planning and Development Certificate
• Interdisciplinary Studies + Public Health Certificate
• Interdisciplinary Studies + Social Research Certificate
• Interdisciplinary Studies + Teaching English to Speakers of Other Languages (TESOL) Certificate
• Interdisciplinary Studies + Women’s and Gender Studies Certificate

**Program Requirements**

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Degree Requirements</td>
<td>48-52</td>
</tr>
<tr>
<td>Total hours required</td>
<td>48-52</td>
</tr>
</tbody>
</table>

**Learning Outcomes**

Students will be able to:

• Demonstrate multi-disciplinary and inter-disciplinary approaches in research and writing.
• Use their knowledge of the methods and approaches of at least one particular academic or professional discipline to complete academic writing projects.
• Analyze and interpret discourse and media in a variety of academic, literary, professional, and popular genres.
• Research and write in a variety of academic and/or professional genres, including expository essays, critical analysis, research papers, white papers, etc. culminating in an extended capstone, analyzing and incorporating a variety of academic and technical resources in appropriate scholarly and professional formats.
• Analyze the social and/or historical context of phenomena and value systems in social and institutional settings.

**Degree Requirements**

**Portfolio**

All students will keep a portfolio of significant work done for courses, such as final papers or special projects, with comments and grades from the professor. By the midpoint, there will be work from a total of at least three courses in the portfolio. At the culminating point there will be work from a total of at least six courses in the portfolio.

**Midpoint Essay**

After completing the sixth course but before taking the ninth course, all students in both programs will write a 3-5 page essay examining their progress to that point, using as evidence work from the portfolio. The Midpoint Essay reflects on the student’s intellectual growth, and suggests directions for the second half of the student's program.

**Culminating Point Essay**

All students in both programs (regardless of which final option they choose) will write an essay of 3-5 pages, reflecting on their intellectual growth in the second half of the program.

**Course Work**

• Completion of 48 or 52 quarter hours of graduate credit, depending on the completion option (thesis, practicum, enhanced portfolio or exit course) chosen by the student.
• Maximum of 8 quarter hours of credit in approved 300-level courses, and remainder of credit hours from 400/500/600-level courses.
• No more than five courses may be taken in the Kellstadt Graduate School of Business (KGSB), including courses which are cross-listed in other programs and courses transferred from other institutions which are business courses. Registration for courses in the KGSB must be done through the IDS office.
• No more than six courses may be taken in any single discipline within the College of Liberal Arts and Social Sciences, no more than six courses may be taken in the College of Education, and no more than six courses may be taken in the College of Computing and Digital Media (CDM). Special permission must be sought for courses taken in the School of Continuing and Professional Studies (formerly SNL). Only non-performance courses may be taken in School of Music or the Theatre School.
• Prerequisites within Departments and Schools apply.
• Certain individual courses may be not be open to IDS students.
• To support the student’s program plan, the IDS advisor may require that the student take certain courses in areas such as writing, statistics, disciplinary methodologies, foreign languages, etc., when appropriate.

**Program Completion (Capstone) Steps**

All students must apply and be approved for the particular option they wish to use for program completion (thesis, practicum, enhanced portfolio or exit course). This application will include the student's portfolio. The thesis and practicum options include a Formal Proposal. Approval of the proposal is necessary before the student undertakes this final stage of the program. Enrollment in MLS 499, the culminating project independent study course, takes place after approval of the proposal has been secured. If necessary, in lieu of an elective, students may enroll in MLS 498 if they require an additional quarter of research and other preparation for MLS 499.

Both 498 and 499 are conducted as Independent Studies. Instructions for proposing and pursuing these are available with the Program. When the project is completed both the members of the committee and the ISD director sign a Culminating Project Completion Form.

**Program Completion (Capstone) Options**

The IDS program may be completed in one of four ways:

**Thesis Option (12 Courses)**

In addition to the Culminating Point Essay and final portfolio submission, the student will write a paper of approximately 35-50 pages that includes 3-4 components or sections, one of which will be a research component and original exploration of the subject. (Other components might include a review of literature, a synthesis of earlier research, a reflection on various disciplinary and methodological approaches to the issue, suggestions for future research, etc.) The research component of the Master's Thesis involves reflection on primary research, or actual primary research combined with reflection on the primary research of others. The student is encouraged to make a public presentation about his or her thesis. Students who have earned a GPA lower than 3.3 may in some cases be asked to complete their program with a different capstone choice.

• Ordinarily taken as MLS 499 the student's 12th and final course.
• Requires minimum cumulative GPA of 3.3, evaluation of "satisfactory" on the Midpoint Portfolio, formal proposal and approval of committee.

**Practicum Option (12 Courses)**

In addition to the Culminating Point Essay and final portfolio submission, for the Practicum Option the student will create a project aimed at
developing and executing a community-based intellectual or intellectual/creative activity. Examples are a public presentation as a lecture, in broadcast or print media, or on the web. Service learning projects are also encouraged. A 15-25 page descriptive/analytic essay documenting the project is also submitted. The student is encouraged to make a public presentation about his or her practicum in addition to the primary distribution of the project. Students who have earned a GPA lower than 3.3 may in some cases be asked to complete their program with a different capstone choice.

- Ordinarily taken as MLS 499, the student’s 12th and final course.
- Requires minimum cumulative GPA of 3.3, evaluation of “satisfactory” on the Midpoint Portfolio, formal proposal, and approval of committee.

Enhanced Portfolio Option (13 Courses)
In addition to the final portfolio submission, and a Culminating Point Essay based on portfolio pieces selected from at least three courses in the second half of the program, the distinctive feature of the Enhanced Portfolio option is the writing of a new extended expository essay of 12-15 pages. This is a paper on a topic of the student’s own choosing that makes an argument. (Further information on this paper and the option is available from the program.)

- Ordinarily taken as MLS 499, the student’s 13th and final course.
- Requires formal proposal and approval of committee.

Exit Course Option (13 Courses)
In addition to the Culminating Point Essay and the final portfolio submission, the student proposes a particular course over and above the original 12 courses. This course should be chosen as an “exit course,” in that it brings together a number of areas of interest that the student has pursued over the course of the program. By arrangement with the instructor, the student uses the final paper or final project to make connections with the goals of his or her overall IDS Program. The instructor will grade the paper, and another reader suggested by the IDS program will also review and comment on the paper.

- Requires formal proposal and approval of committee.

Determination of Degree
If the majority of courses completed for the master’s degree are drawn from programs that award the Master of Arts degree, then the student will earn the MA. If the number is equal the student can choose the MA or the MS.

Student Handbook

Probation
Students are expected to maintain a minimum grade point average (GPA) of 3.0. A GPA below 3.0 will result in the student being placed on warning status. If this status persists for two quarters, the student will be requested to leave the program. If he or she decides to remain in the program, the student will be placed on academic probation and be given one quarter to raise the GPA to 3.0. If the student’s GPA falls to 2.5 or below, he or she will be immediately placed on academic probation and must raise the GPA to 3.0 in the next quarter or face dismissal from the program. If the GPA falls to 2.5 or below a second time the student will be dismissed from the program.

When a student is admitted to the MALS or IDS Program under the category of “Conditional Admission” he or she is considered under academic probation until the conditions are met. The conditions are usually that a student must earn a grade of B or higher in all courses taken during the first three quarters in the program. The student may request continued registration in the second and third quarters if the grades are not adequate in the first quarter. If the conditions of admission are not met by the third quarter, the student will be dismissed from the program. Other conditions may include the requirement to take certain courses, and the student must comply within the specified time period or face dismissal.

IDS students who select courses that are not on their approved List of Courses (LOC) may face warning after one quarter and probation after two quarters if they do not seek approval for their altered programs. The procedure for altering an approved List of Courses is found on the ISD D2L site.

Students whose grades fall below the minimums described above will be considered in the categories of warning or probation whether or not the program administrators are aware of the student’s grades. The program administrators may apply the categories of warning or probation retroactively if the student does not self-report his or her status. Students are required to seek advisement from program administrators when facing academic warning or probation. A student who does not contact program administrators about potential warning or probation status may face dismissal from the program.

Dismissal
In addition to the minimum GPA requirement, students may be dismissed for breaches of academic honesty or breaches of the code of student responsibility. MALS students may also face dismissal for failure to complete Core Courses with a grade of B or higher within the first half of their academic career. Students who have completed their coursework, but who are still working on their thesis, practicum or other capstone project must be enrolled in Candidacy Continuation (MLS 502 or IDS 502) during the three quarters of the academic school year. After three consecutive terms of Candidacy Continuation, students should enroll in Active Status (MLS 501 or IDS 501) if they still require time to complete their capstone. Failure to enroll in candidacy continuation or advanced status may result in dismissal from the program if the student has not formally withdrawn from the program.

Readmission
When a student has withdrawn from the program or has not been enrolled in classes for three or more quarters during the academic year, he or she must apply for readmission using the Readmission and Reclassification form available from the LAS Graduate website.

Transfer Credit
A student may apply to transfer up to three courses of graduate work from another accredited institution. The courses must be approved by the Program Director as part of the student’s overall course of study for both MALS and IDS students. The courses must then be approved for transfer credit by the Office of Student Records.

Undergraduate Courses
Courses at the 200-level cannot be approved for graduate credit, even when a student needs to take such a course as preparation for more advanced work. Courses at the 300-level may be approved for graduate credit under the following circumstances:

1. The course is necessary as a part of the student’s overall interdisciplinary program.
Graduation Requirements

In order to graduate, students in the MALS and IDS Programs must complete the coursework specific to their programs (either 48 or 52 credit hours depending on capstone choice) with a minimum GPA of greater than 3.0, a midpoint and culminating point essay, the submission of an electronic portfolio of final and other projects from a minimum of six courses, and one of four capstone choices offered by the program. A full description of the requirements for the capstones, as well as further policies and procedures for both programs, are outlined in the documents found on the ISD D2L site under Program Documents. Students in the program are expected to be familiar with these policies and procedures and to comply with them.

Graduation with Distinction

In order to have the degree conferred with distinction, students in MALS and IDS completing their programs with a thesis or practicum capstone (48 credit hours) must earn a minimum cumulative GPA of 3.75, plus earn a designation of “distinction” on their thesis or practicum by their thesis advisor and at least one of the two readers on their committee. Thesis and practicum writers eligible for distinction are required to present their projects at an ISD event within three academic quarters of completion. Students in MALS and IDS completing their programs with an exit course or enhanced portfolio essay capstone (52 credit hours) must earn a minimum cumulative GPA of 3.85 in order to graduate with distinction.

Time Limit

Students are normally expected to complete the MALS or IDS Program within four academic years. During quarters in which no courses are taken, students are required to maintain active status in the program by registering for Candidacy Continuation or Active Status. Students who have not taken courses for three consecutive quarters during the regular academic year and have not registered for Candidacy Continuation or Active Status must apply for readmission using the Readmission and Reclassification form listed here.

Interdisciplinary Studies (MS)

The Interdisciplinary Studies Program (IDS) is an innovative, flexible, and highly individualized graduate program designed to meet students’ academic and professional goals. The program gives students the opportunity to design a program of study tailored to their own needs and interests. When students choose IDS, they take on the exciting challenge of creating their own curriculum and unique plan for learning. Creating an individualized program requires maturity, self-motivation, and independence. Students seeking a combination of flexible options and academic challenges are natural IDS candidates. IDS is a creative alternative to more rigid traditional, discipline-specific programs. Students can build their particular academic or professional interests and concentrate on specialized fields that are not available in traditional graduate programs.

2. The department does not offer courses in the same area on the graduate level.

3. The student has arranged with the professor to enhance the course to graduate level by the addition or alteration of assignments, including the final project of the course.

Unless approved by the Program Director, a student should take no more than two 300-level courses as part of his or her program.

The program offers students individualized cross-disciplinary majors, incorporating courses drawn from social sciences, humanities, business, computer and information science, and public service. The IDS Program is jointly administered with the Master of Arts in Liberal Studies Program (MALS) by the Interdisciplinary Self-Designed Program (ISD). IDS students are welcome to enroll in MALS Core Courses and cross-lists.

The program offers the following:

- Individual, self-designed graduate program of study that builds on specific academic and professional interests.
- Ability to combine various academic disciplines in chosen areas of study.
- Choice of courses in most colleges and schools.

The MS in Interdisciplinary Studies may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MS/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Interdisciplinary Studies + Community Development Certificate
- Interdisciplinary Studies + Digital Humanities Certificate
- Interdisciplinary Studies + Global Health Certificate
- Interdisciplinary Studies + Metro Planning and Development Certificate
- Interdisciplinary Studies + Public Health Certificate
- Interdisciplinary Studies + Social Research Certificate
- Interdisciplinary Studies + Teaching English to Speakers of Other Languages (TESOL) Certificate
- Interdisciplinary Studies + Women’s and Gender Studies Certificate

Learning Outcomes

Students will be able to:

- Demonstrate multi-disciplinary and/or inter-disciplinary approaches in research and writing in their capstones and other major writing projects.
- Use their knowledge of the methods and approaches of at least one particular academic or professional discipline to complete academic or technical writing projects.
- Analyze and interpret discourse and media in a variety of academic, literary, professional, and popular genres.
- Research and write in a variety of academic and/or professional genres, including expository essays, critical analysis, research papers, white papers, etc. culminating in an extended capstone, analyzing and incorporating a variety of academic and technical resources in appropriate scholarly and professional formats.
- Analyze value systems in social, professional, and institutional settings.
**Degree Requirements**

**Portfolio**
All students will keep a portfolio of significant work done for courses, such as final papers or special projects, with comments and grades from the professor. By the midpoint, there will be work from a total of at least three courses in the portfolio. At the culminating point there will be work from a total of at least six courses in the portfolio.

**Midpoint Essay**
After completing the sixth course but before taking the ninth course, all students in both programs will write a 3-5 page essay examining their progress to that point, using as evidence work from the portfolio. The Midpoint Essay reflects on the student's intellectual growth, and suggests directions for the second half of the student's program.

**Culminating Point Essay**
All students in both programs (regardless of which final option they choose) will write an essay of 3-5 pages, reflecting on their intellectual growth in the second half of the program.

**Course Work**
- Completion of 48 or 52 quarter hours of graduate credit, depending on the completion option (thesis, practicum, enhanced portfolio or exit course) chosen by the student.
- Maximum of 8 quarter hours of credit in approved 300-level courses, and remainder of credit hours from 400/500/600-level courses.
- No more than five courses may be taken in the Kellstadt Graduate School of Business (KGSB), including courses which are cross-listed in other programs and courses transferred from other institutions which are business courses. Registration for courses in the KGSB in the must be done through the IDS office.
- No more than six courses may be taken in any single discipline within the College of Liberal Arts and Social Sciences, no more than six courses may be taken in the College of Education, and no more than six courses may be taken in the College of Computing and Digital Media (CDM). Special permission must be sought for courses taken in the School of Continuing and Professional Studies (formerly SNL). Only non-performance courses may be taken in School of Music or the Theatre School.
- Prerequisites within Departments and Schools apply.
- Certain individual courses may be not be open to IDS students.
- To support the student’s program plan, the IDS advisor may require that the student take certain courses in areas such as writing, statistics, disciplinary methodologies, foreign languages, etc., when appropriate.

**Program Completion (Capstone) Steps**
All students must apply and be approved for the particular option they wish to use for program completion (thesis, practicum, enhanced portfolio or exit course). This application will include the student’s portfolio. The thesis and practicum options include a Formal Proposal. Approval of the proposal is necessary before the student undertakes this final stage of the program. Enrollment in MLS 499, the culminating project independent study course, takes place after approval of the proposal has been secured. If necessary, in lieu of an elective, students may enroll in MLS 498 if they require an additional quarter of research and other preparation for MLS 499.

Both MLS 498 and MLS 499 are conducted as Independent Studies. Instructions for proposing and pursuing these are available with the Program. When the project is completed both the members of the committee and the MALS/IDS director sign a Culminating Project Completion Form.

**Program Completion (Capstone) Options**

**Thesis Option (12 Courses)**
In addition to the Culminating Point Essay and final portfolio submission, the student will write a paper of approximately 35-50 pages that includes 3-4 components or sections, one of which will be a research component and original exploration of the subject. (Other components might include a review of literature, a synthesis of earlier research, a reflection on various disciplinary and methodological approaches to the issue, suggestions for future research, etc.) The research component of the Master’s Thesis involves reflection on primary research, or actual primary research combined with reflection on the primary research of others. The student is encouraged to make a public presentation about his or her thesis. Students who have earned a GPA lower than 3.3 may in some cases be asked to complete their program with a different capstone choice.

- Ordinarily taken as MLS 499 the student’s 12th and final course.
- Requires minimum cumulative GPA of 3.3, evaluation of “satisfactory” on the Midpoint Portfolio, formal proposal and approval of committee.

**Practicum Option (12 Courses)**
In addition to the Culminating Point Essay and final portfolio submission, for the Practicum Option the student will create a project aimed at developing and executing a community-based intellectual or intellectual/creative activity. Examples are a public presentation as a lecture, in broadcast or print media, or on the web. Service learning projects are also encouraged. A 15-25 page descriptive/analytic essay documenting the project is also submitted. The student is encouraged to make a public presentation about his or her practicum in addition to the primary distribution of the project. Students who have earned a GPA lower than 3.3 may in some cases be asked to complete their program with a different capstone choice.

- Ordinarily taken as MLS 499, the student’s 12th and final course.
- Requires minimum cumulative GPA of 3.3, evaluation of "satisfactory" on the Midpoint Portfolio, formal proposal and approval of committee.

**Enhanced Portfolio Option (13 Courses)**
In addition to the final portfolio submission, and a Culminating Point Essay based on portfolio pieces selected from at least three courses in the second half of the program, the distinctive feature of the Enhanced Portfolio option is the writing of a new extended expository essay of 12-15 pages. This is a paper on a topic of the student's own choosing that makes an argument. (Further information on this paper and the option is available from the program.)

- Ordinarily taken as MLS 499, the student’s 13th and final course.
- Requires formal proposal and approval of committee.

**Exit Course Option (13 Courses)**
In addition to the Culminating Point Essay and the final portfolio submission, the student proposes a particular course over and above the original 12 courses. This course should be chosen as an "exit course," in that it brings together a number of areas of interest that the
student has pursued over the course of the program. By arrangement with the instructor, the student uses the final paper or final project to make connections with the goals of his or her overall IDS Program. The instructor will grade the paper, and another reader suggested by the IDS program will also review and comment on the paper.

• Requires formal proposal and approval of committee.

Determinative of Degree
If the majority of courses completed for the master's degree are drawn from programs that award the Master of Science degree, then the student will earn the MS. If the number is equal the student can choose the MS or the MA.

Student Handbook
Probation
Students are expected to maintain a minimum grade point average (GPA) of 3.0. A GPA below 3.0 will result in the student being placed on warning status. If this status persists for two quarters, the student will be requested to leave the program. If he or she decides to remain in the program, the student will be placed on academic probation and be given one quarter to raise the GPA to 3.0. If the student’s GPA falls to 2.5 or below, he or she will be immediately placed on academic probation and must raise the GPA to 3.0 in the next quarter or face dismissal from the program. If the GPA falls to 2.5 or below a second time the student will be dismissed from the program.

When a student is admitted to the MALS or IDS Program under the category of “Conditional Admission” he or she is considered under academic probation until the conditions are met. The conditions are usually that a student must earn a grade of B or higher in all courses taken during the first three quarters in the program. The student may request continued registration in the second and third quarters if the grades are not adequate in the first quarter. If the conditions of admission are not met by the third quarter, the student will be dismissed from the program. Other conditions may include the requirement to take certain courses, and the student must comply within the specified time period or face dismissal.

IDS students who select courses that are not on their approved List of Courses (LOC) may face warning after one quarter and probation after two quarters if they do not seek approval for their altered programs. The procedure for altering an approved List of Courses is found on the ISD D2L site.

Students whose grades fall below the minimums described above will be considered in the categories of warning or probation whether or not the program administrators are aware of the student’s grades. The program administrators may apply the categories of warning or probation retroactively if the student does not self-report his or her status. Students are required to seek advisement from program administrators when facing academic warning or probation. A student who does not contact program administrators about potential warning or probation status may face dismissal from the program.

Dismissal
In addition to the minimum GPA requirement, students may be dismissed for breaches of academic honesty or breaches of the code of student responsibility. MALS students may also face dismissal for failure to complete Core Courses with a grade of B or higher within the first half of their academic career. Students who have completed their coursework, but who are still working on their thesis, practicum or other capstone project must be enrolled in Candidacy Continuation (MLS 502 or IDS 502) during the three quarters of the academic school year. After three consecutive terms of Candidacy Continuation, students should enroll in Active Status (MLS 501 or IDS 501) if they still require time to complete their capstone. Failure to enroll in candidacy continuation or advanced status may result in dismissal from the program if the student has not formally withdrawn from the program.

Readmission
When a student has withdrawn from the program or has not been enrolled in classes for three or more quarters during the academic year, he or she must apply for readmission using the Readmission and Reclassification form available from the LAS Graduate website.

Transfer Credit
A student may apply to transfer up to three courses of graduate work from another accredited institution. The courses must be approved by the Program Director as part of the student’s overall course of study for both MALS and IDS students. The courses must then be approved for transfer credit by the Office of Student Records.

Undergraduate Courses
Courses at the 200-level cannot be approved for graduate credit, even when a student needs to take such a course as preparation for more advanced work. Courses at the 300-level may be approved for graduate credit under the following circumstances:

1. The course is necessary as a part of the student’s overall interdisciplinary program.
2. The department does not offer courses in the same area on the graduate level.
3. The student has arranged with the professor to enhance the course to graduate level by the addition or alteration of assignments, including the final project of the course.

Unless approved by the Program Director, a student should take no more than two 300-level courses as part of his or her program.

Graduation Requirements
In order to graduate, students in the MALS and IDS Programs must complete the coursework specific to their programs (either 48 or 52 credit hours depending on capstone choice) with a minimum GPA of greater than 3.0, a mid-point and culminating point essay, the submission of an electronic portfolio of final and other projects from a minimum of six courses, and one of four capstone choices offered by the program. Full descriptions of the requirements for the capstones, as well as further policies and procedures for both programs, are outlined in the documents found on the ISD D2L site under Program Documents. Students in the program are expected to be familiar with these policies and procedures and to comply with them.

Graduation with Distinction
In order to have the degree conferred with distinction, students in MALS and IDS completing their programs with a thesis or practicum capstone (48 credit hours) must earn a minimum cumulative GPA of 3.75, plus earn a designation of “distinction” on their thesis or practicum by their thesis advisor and at least one of the two readers on their committee. Thesis and practicum writers eligible for distinction are required to present their projects at an ISD event within three academic quarters of completion. Students in MALS and IDS completing their programs with an exit course
or enhanced portfolio essay capstone (52 credit hours) must earn a minimum cumulative GPA of 3.85 in order to graduate with distinction.

**Time Limit**

Students are normally expected to complete the MALS or IDS Program within four academic years. During quarters in which no courses are taken, students are required to maintain active status in the program by registering for Candidacy Continuation or Active Status. Students who have not taken courses for three consecutive quarters during the regular academic year and have not registered for Candidacy Continuation or Active Status must apply for readmission using the Readmission and Reclassification form listed on the LAS Graduate website.

**International Business (Minor: Business Students Only)**

Students in the Driehaus College of Business who demonstrate a proficiency in a modern language may minor in International Business. Students will learn about factors affecting international trade, monetary economics, and political economy with a special focus on a particular economic hot spot.

The International Business minor is available to Driehaus College of Business students only. A student must be able to demonstrate that he or she has modern language proficiency through the intermediate level of college coursework to complete the minor.

**Course Requirements**

The minor consists of six to ten courses totaling 24.0-36.0 hours:

<table>

**Modern Language and Area Studies**

The exact mix of language and area studies courses is determined by the student’s starting level in the modern language.

1. For a student with limited language background who does not place out of any college level language course, two years of college level language instruction (six courses through the intermediate level) are required.
2. For a student who places out of one or more of the college language courses, he/she will start the language sequence at the appropriate placement and continue it through the intermediate level of instruction. If the student needs fewer than three language courses to complete the intermediate sequence, the student will take either advanced language or area studies courses to complete the minimum three course language/area studies requirement.

Examples of language/area studies mix:

1. A Driehaus student wishing to pursue the IB minor tests out of SPN 101 and SPN 102. The student begins language instruction in SPN 103 (which completes the introductory sequence), and then continues with the intermediate sequence of SPN 104/SPN 105/SPN 106. The student completes the minor with the 3 international economics/business requirements plus the 4 language courses, for a total of seven courses.
2. A Driehaus student wishing to pursue the IB minor tests out of SPN 101/SPN 102/SPN 103/SPN 104. The student begins language instruction in SPN 105 and completes the intermediate sequence with SPN 106. Because the student has taken only two courses to complete the intermediate sequence, he/she will take an additional advanced language or area studies course to complete the minimum 3 course language/area studies requirement. Along with the 3 international economics/business requirements, this student can complete the minor with a total of six courses.

**Economics/International Business Courses**

The three courses taken for the Economics/International Business requirements must be chosen from at least two different departments. The one course taken for the economics requirement may not be used again for the two course international business requirement; course sharing is not allowed.

**Graduation Requirements**

All courses used toward the International Business minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

**International Communication (Minor)**

The interdisciplinary minor in International Communication draws from the College’s rich curricular offerings in Journalism, Public Relations and Advertising, Media and Cinema Studies, Relational, Organizational, and Intercultural Communication. Focusing on contemporary international and global issues and debates, the courses will examine the intersections
of culture, identity, politics, education, labor, media, technology, and global information flows. Thus, this minor will develop international understanding, cultural intelligence, inclusivity and sensitivity, critical and analytical skills that teach different ways of being and doing in diverse settings. It will also enhance the cross-cultural appreciation required to compete in an increasingly multicultural, multiethnic, and global workplace. The courses may focus on one or more countries beyond the United States. They may focus on a region, a continent or consider global issues more generally. The interdisciplinary depth of courses, faculty expertise and industry connections, as well as the theoretical and practical knowledge acquired in this minor will enable students to become globally competitive candidates ready to engage in the 21st century job market.

**Course Requirements**

A minor in International Communication requires a student to complete six courses (24 credits) from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Select six of the following:</td>

1. Each course should have at least 50 percent or more of the content related to international or global issues. Such content may include issues pertaining to the United States as long as they are discussed within an international or global context.

**International Law (LLM)**

The DePaul Master of Laws (LLM) in International Law provides an intensive course of study that emphasizes the theoretical background and practical skills lawyers need to excel in international law practice.

There are concentrations in five key areas of global practice:

- International Business, Commercial & Trade Law
- International Cultural Heritage Law
- International Governance & Rule of Law
- International Human Rights Law & Policy and Criminal Justice
- International Law (LLM)

Additionally, foreign lawyers and graduates will improve English language skills and gain a deep and sophisticated understanding of the U.S. legal system.

With the exception of students admitted to and enrolled in the joint JD +LLM program, credits earned as part of the JD program do not count toward the LLM degree.

**Learning Outcomes**

**Domestic Students**

Students will be able to:

- Demonstrate advanced knowledge of the legal rules and policies in the student's area of specialization.
- Conduct advanced legal research and analysis in the student's area of specialization.

**International Students**

Students will be able to:

- Identify structures of the U.S. legal system and government institutions.
- Demonstrating understanding of how a common law system operates in a constitutional democracy.
- Demonstrate advanced knowledge of the legal rules and policies in the student's area of specialization.
- Identify and apply relevant legal authority.
- Communication clearly in speech and writing.

**Degree Requirements**

The Master of Laws program begins with an orientation that introduces graduate students to DePaul's faculty, staff, library, computer and research facilities. Students who received legal training outside the United States also will participate in special courses introducing them to the differences between civil and common law systems, the foundations...
of the U.S. legal system, the methods of legal reasoning and analysis, and the basics of legal writing in the U.S. legal system.

To earn the LLM in International Law, a student must complete 24 semester hours of credit with a minimum cumulative grade point average (GPA) of 2.0. A summer term is counted as a semester for this purpose. Students who complete 24 credit hours with a GPA below the 2.0 GPA required to earn the degree will not be permitted to continue taking classes to improve their GPA. A student is automatically dismissed if he or she has a cumulative GPA below 2.0 for any three consecutive semesters.

The LLM program may be completed on either a full- or part-time basis but it must be completed within five years. With the exception of students admitted to and enrolled in the joint JD+LLM program, credits earned as part of the JD program do not count toward the LLM degree. In addition, no credit is given for law courses taken before a student is admitted to and enrolled in the LLM program.

Course Requirements
Courses must be selected from the LLM in International Law courses listed below. Candidates must complete the required courses and additional elective courses in their area of concentration, to meet the total requirement of 24 credit hours.

### Required Courses for International Students

<table>

PSC 150 | INTRODUCTION TO COMPARATIVE POLITICS | 4

Select two of the following 200-level courses: 8

- PSC 242 AMERICAN FOREIGN POLICY
- PSC 243 RUSSIAN-AMERICAN RELATIONS
- PSC 244 LATIN AMERICAN-UNITED STATES RELATIONS
- PSC 246 ASIAN FOREIGN POLICY
- PSC 247 U.S. - AFRICA RELATIONS
- PSC 249 TOPICS IN INTERNATIONAL RELATIONS
- PSC 250 EUROPEAN POLITICS
- PSC 251 RUSSIAN POLITICS
- PSC 252 LATIN AMERICAN POLITICS
- PSC 253 ASIAN POLITICS
- PSC 254 AFRICAN POLITICS
- PSC 255 MIDDLE EAST POLITICS
- PSC 257 CYBER WARFARE AND CYBER POLITICS
- PSC 259 COUNTRY STUDIES

Select two of the following 300-level courses: 8

- PSC 340 THE EUROPEAN UNION
- PSC 341 POLITICAL ISLAM AND AMERICAN FOREIGN POLICY
- PSC 342 ARMS, SECURITY, AND WAR
- PSC 343 ASIAN POLITICAL ECONOMY
- PSC 344 WORLD POLITICAL ECONOMY
- PSC 345 THE CATHOLIC CHURCH IN WORLD POLITICS
- PSC 346 THE UNITED NATIONS AND WORLD PROBLEMS
- PSC 347 ETHICS IN WORLD POLITICS
- PSC 348 ETHNICS AND U.S. FOREIGN POLICY
- PSC 349 ADVANCED TOPICS IN INTERNATIONAL RELATIONS
- PSC 350 JAPANESE POLITICS
- PSC 351 REVOLUTION AND TERRORISM
- PSC 352 CHINESE POLITICS
- PSC 353 COMPARATIVE DEMOCRACY AND DICTATORSHIP
- PSC 358 GLOBAL GENDER ISSUES
- PSC 359 ADVANCED TOPICS IN COMPARATIVE POLITICS
- PSC 361 INTERNATIONAL LAW

Students majoring in Political Science (BA) or minoring in American Politics or Public Law/Political Thought are restricted from earning this minor.

International Public Service (MS)

The Master of Science in International Public Service (IPS) prepares students interested in public policy to serve the common good and advance a just society, in the spirit of St. Vincent de Paul. The IPS degree educates professionals to the field of international development and global humanitarian affairs. It provides the essential competencies and skills for managing international projects and leading international nongovernmental organizations. The curriculum offers a balanced...
education in international leadership (ethical, theoretical and practical), project management (for organizations, sectors, institutions) and evaluation (assessment, monitoring and impact analysis). Through study abroad programs, international internships and applied research projects with nongovernmental and intergovernmental organizations, the IPS degree is required for a professional career in international development.

Mission Statement

The Master of Science in International Public Service (IPS) degree prepares students to work in governmental, nongovernmental and business organizations that seek to reduce disparities in resources and opportunities in locations across the globe. We believe that such work requires an understanding of cross-sector relations, management skills and first-hand experiences in strengthening community capacity using ethical reasoning and sustainable approaches. We promote compassion for marginalized communities and service to all with sensitivity, professionalism, accountability, transparency, and justice.

Program Requirements

Core Requirements 44
Elective Courses 8
Total hours required 52

The MS in International Public Service may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MS/certificate program should consult with their academic advisor (SPSAdvising@depaul.edu (spsadvising@depaul.edu)) to determine what coursework might count toward both programs. A separate application process for the certificate may be required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office (https://las.depaul.edu/about/administration-staff/Pages/graduate-student-office.aspx) for additional information.

• International Public Service + Community Development Certificate
• International Public Service + Critical Ethnic Studies Certificate
• International Public Service + Emergency Management Administration Certificate
• International Public Service + Geographic Information Systems Certificate
• International Public Service + Global Health Certificate
• International Public Service + Health Care Administration Certificate
• International Public Service + Metropolitan Planning and Development Certificate
• International Public Service + Strategic Writing and Advancement for Nonprofits Certificate
• International Public Service + Social Research Certificate
• International Public Service + Sustainable Urban Food Systems
• International Public Service + Teaching English to Speakers of Other Languages (TESOL) Certificate
• International Public Service + Translation and Interpreting Certificate
• International Public Service + Women’s and Gender Studies Certificate

Learning Outcomes

Students will be able to:

• Explain relevant topical issues in international public service to target audiences in the appropriate written and oral formats.

Degree Requirements

Students are required to complete a total of 13 courses (52 credit hours): eleven core courses (44 credit hours), two elective courses (8 credit hours).

Study Abroad Requirement
Students are required to take the MPS 575 study abroad course. This one week study abroad trip allows both full-time and part-time students to participate. Students should apply for the competitive study abroad scholarships to help with travel costs.

Internship Option
Students have the option to complete substantial professional experience in an international or intercultural setting for course credit. Students without substantial professional experience in an international or intercultural setting, are strongly encouraged to pursue an internship with an approved organization. To pursue this option, students enroll in MPS 601 while completing the internship. For more information contact SPSAdvising@depaul.edu.

Foreign Language Proficiency
Students are not required to demonstrate proficiency in a foreign language as a graduation requirement. However, please note that a second language is critical to helping a resume stand out and for constructing an effective career in international public service. Therefore all students are strongly encouraged to build and demonstrate proficiency in at least one other language appropriate to their field or geographical interests.

Student Handbook
Students in the School of Public Service will follow many of the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in the School of Public Service. Please see information below.

Academic Probation
All students within the School of Public Service must maintain a minimum cumulative GPA of 2.7 or higher as part of their requirements for graduation. As a result, any student who earns a cumulative GPA below 2.7 (B-) is placed on academic probation. Students on academic probation are required to meet with the Assistant Director for Academic Advising to discuss their performance and determine a plan for improvement.

Dismissal
Students who are not able to raise their cumulative GPA to a minimum of 2.7 within two academic quarters (after being placed on academic probation) are subject to dismissal from the program.

Readmission
If a student is dismissed from the program (as outlined in the dismissal policy), he or she may reapply through the formal admission application process.

Graduation Requirements
In order to graduate from the program, students must complete all program requirements with a minimum cumulative GPA of 2.7 or higher. If a student’s cumulative GPA is below a 2.7, he or she may be denied graduation.

Non-Degree Seeking Students
While School of Public Service courses are open to non-degree seeking graduate students, pre-requisite requirements for certain courses may be enforced.

International Public Service (MS), Combined Bachelor’s + Master’s Degree

The combined bachelor’s + master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + International Public Service (MS)
Students completing any undergraduate degree at DePaul are eligible to apply for the bachelor’s + master’s in International Public Service no later than the end of the spring quarter of their junior year if they have completed at least 88.0 credit hours of their undergraduate degree with a cumulative undergraduate GPA of 3.0 or higher.

The student admitted to the bachelor’s + master’s degree program will take, in their senior year, three courses in International Public Services in consultation with the School of Public Service Academic Advisor (spsadvising@depaul.edu). These three courses will serve as electives in
the undergraduate program (unless the student’s undergraduate college applies them to major or minor field requirements) and double-count for the MS degree.

Through the combined Bachelors/MS program, the student is responsible for working with both their undergraduate advisor to manage their undergraduate degree progress and the SPS academic advisor (SPSAdvising@depaul.edu (spsadvising@depaul.edu)) to plan a graduate program of study that includes the MS courses as open electives or major field electives. Undergraduates are advised to meet with a faculty member once per quarter during their senior year as an undergraduate to ensure that they are on track to graduate and transition into the master’s program. They also must maintain at least a 3.0 GPA in their graduate-level courses in order to matriculate into the graduate program.

The student’s bachelor’s degree will be awarded upon the completion of their undergraduate degree requirements. The master’s degree will be awarded upon completion of the graduate degree requirements.

Click on DEGREE REQUIREMENTS (https://catalog.depaul.edu/programs/international-public-service-ms/#degreerequirementstext) for descriptions of the required MS in International Public Service coursework.

International Studies (BA)

Our undergraduate program is designed to equip students with the interdisciplinary approach, critical thinking skills and international perspectives necessary to address real world challenges. Students can expect to be challenged by a rigorous interdisciplinary curriculum founded in critical social theory and international political economy. Undergraduate students are required to take seven core classes that, taken together, explore and problematize notions of culture, migration, conflict, governance, popular movements, and identities and boundaries. In the process, students acquire critical reading, writing, research, and problem-solving skills tailored to contemporary local, regional, and international challenges.

The BA program is unique for its interdisciplinary approach to international studies and commitment to placing the themes of power and inequality at the heart of academic inquiry. Unlike conventional programs that focus on international security and economy, our program addresses the economic in conjunction with the political and social. Moreover, undergraduates are encouraged to develop second-language proficiency through two years of intensive language study, and we encourage study abroad in a country where the second language is spoken. Students learn to think in more international and interdisciplinary contexts, to value social and cultural complexity, and to question conventional wisdom. As a result, our students often engage in activism and social justice work in Chicago, nationally, and internationally.

Internships

Students in the INT Department pursue internship opportunities to gain job experience, investigate career possibilities, earn academic credit, and round out their concentrations. We work with the University Internship Program to help students find or create an internship that suits their particular interests. Our students have worked at local and international non-profit organizations, consulates, government offices, international businesses, and cultural institutions, including RefugeeOne, the Council for American-Islamic Relations, the Puerto Rican Cultural Institute, and the European Community Commission’s Office in Brussels, which offers a unique research internship.

Study Abroad Programs

All International Studies majors are encouraged, but not required, to participate in study abroad programs. Study abroad challenges students to develop cultural competency, expand their education through diverse intellectual perspectives, and engage with local and global challenges. DePaul University sponsors study abroad opportunities with a range of course offerings, including intensive language-learning classes, cultural and historical studies, public service, and business. Some INT students pursue study abroad programs outside of DePaul that match their particular interests.

Employers of Graduates

The combination of language training with rigorous preparation in interdisciplinary social sciences and political economy opens doors to careers in nonprofits and community organizations, international non-governmental organizations, international diplomatic entities, international law, international commerce and cross cultural communications.

Combined Bachelor’s + MA Option

The Department of International Studies offers a combined degree program that allows academically outstanding students the opportunity to complete their current bachelor’s degree and a master’s degree in International Studies in only one additional year. This program is open to all majors. Students apply in the spring of their junior year. Students interested in the bachelor’s + MA program in International Studies should contact the INT academic advisor.

Graduate School

Students who complete the major in International Studies are prepared with the writing and critical thinking skills necessary to go on to graduate school and many choose to pursue advanced degrees in the political, economic, anthropological, sociological, geographical, historical, linguistic, or literary fields. We have placed students in prestigious graduate programs with membership in the Association of Professional Schools of International Affairs, including those at Johns Hopkins University, Tufts University, University of Maryland, Georgetown University, University of California at San Diego, and University of Colorado at Boulder. Additionally, our students have entered University of California at Berkeley, University of Chicago, Emory University, University of Illinois, Indiana University, University of Michigan, Northwestern University, University of Wisconsin at Madison, and Yale University in languages or the social sciences.

Learning Outcomes

Students will be able to:

- Identify and critically analyze environmental, social, geopolitical, cultural, and/or economic factors that produce global inequality, and how these present and/or are experienced at various scales.
Modern Language Requirement (MLR) may be demonstrated by:

- proficiency attained from one year of college-level language study.
- a language (i.e., a language other than English) equivalent to the All students will be required to demonstrate competence in a modern language.

The Modern Language Requirement (MLR) advisor in the Office for Academic Advising Support.

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

College Core Requirements

Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

Because no academic major program is built in isolation, students are required to pursue a number of electives which both broaden and deepen their understanding of their chosen discipline.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*

- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

The Modern Language Option (MLO)

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Select five courses in an individualized concentration

Second language proficiency

Individualized Concentration (5 Courses)

All international studies majors are required to complete a twenty-credit individualized concentration designed in consultation with their faculty advisors. This concentration provides students with a depth of knowledge on a particular theme, approach, region, and/or question of some international importance. The concentration is restricted to 300-
level INT courses (including cross-listed courses), with the following exceptions:

- Study Abroad: Up to eight credits (two courses) from Study Abroad may be counted toward the concentration, if approved in advance by the student’s faculty advisor.
- Double Majors/Minors: Up to eight credits (two courses) in a double major or minor can be applied to the concentration, if approved in advance by the student’s faculty advisor.

Second Language Proficiency
Proficiency in a language other than English is required and can be demonstrated through passing grades in college coursework through the intermediate (second-year) level, up to and including 106. Students with second language proficiency in a language taught at DePaul (go.depaul.edu/languages) may complete the language placement test through D2L. To request access, go to Campus Connect > New Student Homepage (select center title bar where is says Student Homepage) > Next Steps > Modern Language Placement Test. You’ll be directed to a new web browser tab and prompted to log into D2L. For languages not taught at DePaul, students may pay a fee to an external language test provider to demonstrate language proficiency in another language. Please visit go.depaul.edu/proficiency for additional instructions.

Open Electives
Open elective credit is also required to meet the minimum graduation requirement of 192 hours. International Studies majors have 56 open elective credit hours. Courses taken to meet the second language proficiency requirement may count as electives, Honors Program language requirement or learning domain classes in the Liberal Studies Program per the Modern Language Option.

History (BA) + International Studies (MA)
The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Students interested in applying to one of the BA + MA programs in International Studies should contact the chair of the INT Department, Dr. Shiera Malik (smalik6@depaul.edu).

INT majors apply to this program by April 15th of their junior year. Applicants must have completed INT 201, INT 202, and INT 203 with a grade of B+ or higher and have an overall GPA of 3.5 or above.

INT students in this program take INT 401 and two other 400-level courses in their senior year. For students admitted to the five-year program, the three graduate-level INT courses taken in the senior year will count toward their individualized concentrations in the INT major as well as their graduate degree. Additionally, BA/MA students will begin their thesis research during their senior year in INT 301, the International Studies Senior Seminar.

International Studies (MA), Combined Bachelor’s + Master’s Degree
The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + International Studies (MA)
Students interested in applying to one of the BA + MA programs in International Studies should contact the chair of the INT Department, Dr. Shiera Malik, smalik6@depaul.edu.

Students in any undergraduate major at DePaul University are invited to apply to the combined degree program in order to complete the MA in International Studies as early as their fifth year at DePaul. Applications are due by April 15th of the student’s junior year. Applicants must have an overall GPA of 3.5 or above.

Students in this program will take INT 401 and two other INT 400-level courses in their senior year. These three graduate-level courses will count as undergraduate electives as well as requirements in the MA degree. Students are also required to take INT 301 in their senior year in order to begin their thesis research.

International Studies 3+3 (BA+JD)
In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

Key Program Features
- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
The courses are as follows:

- To provide students with a solid foundation in legal reasoning and critical thinking, the College of Law faculty offers prelaw courses. These classes can be found in the Core Required courses category.

- Students are required to maintain a cumulative GPA of 3.7 by the end of their second year of undergraduate study. They are also expected to achieve a cumulative GPA of 3.7 by the end of their third year.

- Students who enroll in the BA+JD program in 2022 or later must achieve satisfactory progress toward completing their undergraduate coursework. They must also demonstrate an aptitude for the program through participation in the program.

- In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 677).

**Financial Aid**

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law’s median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

**International Studies (MA)**

The Master of Arts in International Studies is an academically rigorous, thesis-driven, two-year program focused on social analysis and justice issues. Students today are confronted by complex world events such as the long “war on terror”, global climate change, transitions to capitalism among post-communist societies, recurrent economic crises, and the exclusions effected through stigma, symbolic violence, and systematic misrecognition. Traditional economics and international relations theory has failed to offer insightful analyses or solutions for many of these developments. The interdisciplinary field of international studies is uniquely situated to analyze this increasingly complex world, challenge conventional wisdom, and train students to find creative solutions.

The curriculum allows the flexibility of integrating multiple disciplines with training in critical theory and a rigorous thesis-driven program. Students investigate the underlying assumptions and histories of contemporary issues and analyze scholarship using approaches from critical social and cultural theory, and international political economy.

**Program Features**

**Interdisciplinary Curriculum**

Our curriculum includes content from many areas, including international economics, political science, world history, geography, area studies, sociology and anthropology. While our program has full-time faculty dedicated to international studies, we also draw on faculty members from other departments to provide students with a rich, varied, and robust curriculum.

**Thesis-Driven**

Our program has been carefully structured to provide our students with the best possible preparation for thesis research during the second year of study, an opportunity becoming increasingly rare in masters programs. As they progress through the program, students develop a tutorial relationship with an individual faculty member who will serve as the student’s thesis advisor. For self-driven students with interests in a particular question, or who plan to apply to a PhD program, the thesis requirement is a major asset of the program.

**Orientation Towards Social Justice**

Our coursework challenges students to analyze the multiple ways in which inequality and oppression work and to strategize for social change in a way that bridges theory and practice. As the program progresses, students are expected to develop socially responsible ethical frameworks that are informed by historical consciousness of transnational contexts; these, in turn inform their research.

**Post-Graduate Opportunities**

Because the program encompasses such a broad range of disciplines, the employment opportunities associated with the program are diverse and far-reaching. Many students go on to PhD work, well-prepared for research and writing at the doctoral level. Other graduates find jobs within nonprofits, international non-governmental organizations, and a range of international diplomatic entities.

The MA in International Studies may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following
combination programs should contact the Graduate Student Services
Office for additional information.

- International Studies + Global Health Certificate
- International Studies + Metropolitan Planning and Development
- International Studies + Community Development
- International Studies + Social Research Certificate
- International Studies + Teaching English to Speakers of Other
  Languages (TESOL) Certificate
- International Studies + Women’s and Gender Studies Certificate
- International Studies + Social and Cultural Foundations in Education
  Certificate

Program Requirements

Degree Requirements 48

Total hours required 48

Learning Outcomes

Students will be able to:

- Analyze the multiple ways in which inequality and oppression work
  and strategize for social change.
- Work with different partners in order to produce collaborative
  intellectual work.
- Develop socially responsible ethical frameworks that are informed by
  historical consciousness of transnational contexts.
- Examine the linkages between theory and practice, scholarship
  and activism, research and public policy in the field of International
  Studies.
- Carefully read texts, research independently, and write clearly.

Elective Courses (12 credit hours)

Students are free to select three elective courses in support of their
thesis. The electives should be selected in consultation with the thesis
advisor. Permission of the advisor must be obtained before taking
courses outside of the International Studies Department.

Graduate Certificate Options

The MA in International Studies may also be expanded to include one
of the following graduate certificate programs. The combined MA/
certificate program requires careful selection of elective courses to fulfill
all requirements. A separate application process is required. Students
who are interested in the combined MA/certificate program should
contact the program office for additional information.

- Certificate in Women and Gender Studies
- Certificate in Teaching English to Speakers of Other Languages
  (TESOL)
- Certificate in Global Health
- Certificate in Social Research
- Certificate in Social and Cultural Foundations in Education
- Certificate in Community Development
- Certificate in Metropolitan Planning and Development

International Studies (Minor)

For students who do not wish to or are unable to pursue a major in
International Studies, the minor offers the opportunity to gain a basic
grounding in a rigorous, interdisciplinary approach to international
affairs. Students who pursue this minor will benefit from an introduction
to theories of nationalism, international relations, social movements,
cultural studies, international political economy, and critical geography.

The minor can complement traditional disciplines, as well as other
interdisciplinary programs, by providing students with the theoretical
tools necessary to critically analyze pressing global issues. Additionally,
students will build their writing, reading, and research skills through the
coursework required for the minor.

International Studies Certificate

GRADUATE CERTIFICATE IN INTERNATIONAL STUDIES

OVERVIEW

The International Studies certificate is designed to provide students with key competencies in critical thinking, research and data gathering in international contexts. The certificate is an option for people who want to cultivate their ability to engage in critical analysis of international issues and apply that critical analysis in their places of employment.

PROGRAM FEATURES

Social justice. Our course work challenges students to analyze the multiple ways in which inequality and oppression work, and to strategize for social change in ways that bridge theory and practice. Students are expected to develop socially responsible, ethical frameworks for their work that are informed by historical consciousness of transnational contexts.

Curriculum. Students begin this program by enrolling in two foundation courses, Critical Social Theory and International Political Economy, which provide the critical frameworks for subsequent classes. Building on this foundation, students select from a series of core courses that reflect topical debates and highlight themes of race, class, gender, power and inequality.

Evening Courses. Classes are offered primarily in the evening at the Lincoln Park campus.

Certificate Requirements
Students complete four courses for a total of 16 quarter hours.

ADMISSION REQUIREMENTS

Applications are accepted at any time and students may begin the certificate at the start of any academic quarter. The program is open to both non-degree seeking students and students concurrently enrolled in a DePaul graduate degree program. All applicants must hold a bachelor's degree from a regionally-accredited institution.

HOW TO APPLY

Students enrolled in other DePaul graduate degree programs
Submit a letter of intent to the Office of Graduate Admission (graddepaul@depaul.edu (las@depaul.edu)).

Non-degree seeking students
Complete a College of Liberal Arts and Social Sciences graduate application (go.depaul.edu/apply (https://www.depaul.edu/apply/Pages/default.aspx)).
Please submit the following materials:

- Official transcript(s) from all college/universities attended
- A letter of intent

Application materials can be submitted through the online application or by email to graddepaul@depaul.edu. Official electronic transcripts must be sent directly from the issuing institution and can be emailed to graddepaul@depaul.edu. Please make sure your name is on all documents.

Students educated outside of the U.S. must provide a credential evaluation and proof of English proficiency by submitting a TOEFL or IELTS score. Visit the program website or go.depaul.edu/lasinternational (https://las.depaul.edu/admission-and-aid/graduate/Pages/international-admission.aspx) for more information.

Transcripts and other required credentials also can be mailed to:

The Office of Graduate Admission
College of Liberal Arts and Social Sciences
DePaul University
2400 N. Sheffield Ave.
Chicago, IL 60614

Web: las.depaul.edu (https://las.depaul.edu/Pages/default.aspx)
Email: graddepaul@depaul.edu
Phone: (773) 325-7315

Please note the information provided is current as of March 2020 and is subject to change.

Irish Studies (Minor)

The Irish Studies minor is an interdisciplinary academic program focused on Ireland and its place in the world. Our courses offer students the opportunity to study the unique experience of Ireland and the Irish to enhance their understanding of the role of culture in human society.

The study of Ireland is compelling for many reasons, including its rich history, culture, music and literature. In addition, the Irish experience illustrates processes it shares with other cultures that can shed light on many global issues today. These include:

1. colonialism and post colonialism
2. the search for national identity
3. emigration and diaspora
4. integration into the European Union and an increasingly globalized world
5. the impact of intercommunal political conflict and violence
6. the evolution of women’s roles in society
7. the changing place of Catholicism in Ireland

Ireland has long had a close relationship with the United States, and it is impossible to study modern Ireland without discussing American influences. At the same time, Irish immigration into the United States has influenced the development of American society. The study of Ireland, a small, now modern country at the western edge of Europe, leads to a wide exploration of international issues and historical developments.

Course Requirements

Students can complete the 6 course Irish Studies Minor by completing one of the following two tracks:

1. For students who complete courses at DePaul University Chicago campus (i.e. do not participate in the Dublin Internship):
   • IRE 100
   • 5 additional approved elective courses in Irish Studies. Courses must be taken from at least three separate departments/programs and should represent a range of topics/issues.

2. For students who participate in DePaul’s Parliamentary Internship in Dublin:

   The College of Liberal Arts and Social Sciences offers a study abroad program in Dublin, Ireland, twice each year. It provides an excellent opportunity for students to get to know Ireland at first hand. It is not a required part of the minor in Irish Studies. Students taking part in the Study Abroad Program in Dublin may, however, gain credit for four courses that count towards completion of the minor. Thus, for students who successfully complete the Dublin Internship, the requirements for the IRE minor are as follows:
   • IRE 100
   • 1 additional approved elective courses in Irish Studies

For further information on the Dublin Parliamentary Internship courses please contact the Director of the Irish Studies Program.

Courses marked only count for the Irish Studies minor when focused on a pertinent topic (as in the examples in parentheses in the list of courses above). When a student registers for such a course it will not automatically place as an Irish Studies course in the Degree Progress Report (DPR). The student needs to email the Director of Irish Studies with their name, ID number, and the course(s) at issue to ask for a DPR update.
Islamic World Studies (BA)

Islamic World Studies (IWS) offers a unique and interdisciplinary study of Muslim majority and minority societies. The program explores the politics, geographies, histories, and cultures of these societies, and provides students with an education that matches the complexity of its subject. This education is drawn from a variety of disciplines, including Finance, Geography, History, History of Art and Architecture, International Studies, Modern Languages, Philosophy, Political Science, Religious Studies, and Women's and Gender Studies. The regional focus of these courses includes Africa, the Middle East, South Asia, Southeast Asia, Central Asia, Europe, and the Americas.

With nearly 2 billion adherents—approximately 3.5 million of whom are in the United States and 300,000 in Chicago—Islam is the world’s second largest and fastest growing religion. Despite these impressive facts, Islam, Islamic societies, and Islamic history remain poorly understood in the United States. The IWS curriculum aims to remedy this. Its students will be able to ask questions that are historically situated, regionally specific, analytically rich, and grounded in urgent contemporary realities. In short, IWS is structured to produce engaged and informed citizens of a world that is affected by Islam in ways big and small and graduates who are better prepared for careers in politics, public policy, diplomacy, social services, medicine, education, finance, development, law, cultural heritage, academia, museums, or the arts.

Learning Outcomes

Students will be able to:

• Articulate the central beliefs of the religion of Islam, recognizing its various interpretations and practices and how they change across time and place.

• Identify, evaluate, and synthesize primary and secondary sources related to Islam, Islamic history, Islamic culture, and/or the politics of Muslim societies.

• Recognize and describe the ways in which Muslim societies have impacted other cultures and communities around the world.

• Recognize and describe the ways in which Muslim societies have been shaped by wider social, geographic, political, economic, and/or cultural factors and processes.

• Describe the historical and contemporary tensions around pluralism within societies that have both Muslim majority and Muslim minority populations.

College Core Requirements

Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

• placing into 104 or above on the DePaul language placement exam

• completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)

• completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)

• completing the final course of a four-year sequence of the same modern language in high school*

• completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)

• completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High

---

\(^1\) Courses marked only count for the Irish Studies minor when focused on a pertinent topic (as in the examples in parentheses in the list of courses above). When a student registers for such a course it will not automatically place as an Irish Studies course in the Degree Progress Report (DPR). The student needs to email the Director of Irish Studies with their name, ID number, and the course(s) at issue to ask for a DPR update.

or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

**The Modern Language Option (MLO)**

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

**External Credit and Residency**

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

**Learning Domains**

**Arts and Literature (AL)** (p. 1300)
- 2 Courses Required

**Historical Inquiry (HI)** (p. 1304)
- 1 Course Required
  (Note: Course must be in an area other than the study of Islam)

**Math and Computing (MC)** (p. 1306)
- 2 Courses Required
  [1 CR Course and 1 SR Course]

**Philosophical Inquiry (PI)** (p. 1307)
- 2 Courses Required

**Religious Dimensions (RD)** (p. 1308)
- 1 Course Required
  (Note: Course must be in an area other than the study of Islam)

**Scientific Inquiry (SI)** (p. 1310)
- 2 Courses Required
  [1 Lab Course and 1 SWK Course]

**Social, Cultural, and Behavioral Inquiry (SCBI)** (p. 1312)
- 2 Courses Required

**Notes**

Please consult an advisor about using the Modern Language Option.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain
courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Islamic World Studies 3+3 (BA+JD)**

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students...
complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

**Key Program Features**

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

**Program Requirements**

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 677).

**Financial Aid**

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law’s median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

**Islamic World Studies (Minor)**

A minor in Islamic World Studies introduces students to Muslim majority and Muslim minority societies through some combination of religious, political, historical, cultural, geographical, and social lenses.

**Course Requirements**

Students majoring in Islamic World Studies (BA) are restricted from earning this minor.

Italian (BA)

From ancient Rome to the European Union, Italy has always been at the core of the humanist tradition and the heart of world affairs. A degree in Italian offers a broad-based humanities education with crucial skills in reading, writing, critical thinking, and intercultural communication useful for any number of pursuits after college. Our majors have gone on to career paths in teaching, government, and business both in the US and abroad. Others have enrolled in prestigious graduate programs in linguistics, literature, and law.

DePaul’s Italian program gives students the opportunity to attain advanced language proficiency while studying all aspects of Italian literature and culture. Topics of our regular course offerings include:

- Language and Culture
- Film
- History and Politics
- Geography
- Food and Wine
- Business
- Literature
- Linguistics
- Translation

Students expand upon the fundamental skills learned in the Italian core by choosing one of three concentrations: Italian Studies, Italian Language and Literature, and Commercial Italian. DePaul majors in world language education, management, marketing, environmental studies, history of art and architecture, international studies, political science and many other disciplines often choose to double major in Italian.

Each Fall DePaul’s study abroad program in Rome offers students the opportunity to study at Italidea, a small, student-centered language institute with a superb record and reputation for high quality instruction, and at St. John’s University campus in Rome, a university, like DePaul, driven by its Vincentian mission. Students can also spend a semester or year in Milan through DePaul’s partnership with Università Cattolica del Sacro Cuore. The Italian Program has a chapter of the National Italian Honor Society Gamma Kappa Alpha and routinely partners with Italian agencies, businesses, and community organizations to offer its students quality internship opportunities locally and abroad. Home to one of the largest Italian-American communities in the US, Chicago also offers a dazzling array of resources—the Italian Cultural Institute, museums, galleries, film centers, restaurants and cafés—that allow students to immerse themselves in Italian language and culture right here in the city.

Program Requirements  
Quarter Hours
Liberal Studies Requirements  84
Major Requirements  48
Open Electives  60
Total hours required  192

Learning Outcomes

Students will be able to:

- Proficiently speak, understand, read, and write the studied language(s) to: engage in conversations, interpret and create a variety of written texts, provide and obtain information, express feelings and emotions, exchange opinions.
- Acquire knowledge of the cultures related to the studied language(s) with appropriate background in geography, history, politics, and society.
- Acquire knowledge of the literary traditions related to the studied language(s) along with techniques of literary and rhetorical analysis.
- Acquire basic notion of the history and theory of language and language study, including linguistics, sociolinguistics, language acquisition, and dialectology.
- Acquire basic notion of the theory and practice of translation and interpretation.

College Core Requirements

Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area...
of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration
All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)
All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

The Modern Language Option (MLO)
The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency
A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Junior Year
Experiential Learning
Required 4

Senior Year
Capstone
Required 4

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

Learning Domains

Arts and Literature (AL) (p. 1300)
• 1 Course Required

Historical Inquiry (HI) (p. 1304)
• 2 Courses Required

Math and Computing (MC) (p. 1306)
• 2 Courses Required

• 2 Courses Required

Scientific Inquiry (SI) (p. 1310)
• 2 Courses Required
[1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
• 3 Courses Required

Notes
A student whose only major is in Modern Languages is required to complete the Capstone offered by the Department of Modern Languages (MOL). A student who is double majoring (or pursuing dual degrees) with the primary major (or primary degree) in MOL may substitute the Capstone of the secondary major or degree. An MOL major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the MOL Capstone.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements
Majors in Italian must complete a total of 12 advanced courses (48 quarter hours), comprised of a common 8-course core and a 4-course concentration in Italian Studies, Italian Language and Literature, or Commercial Italian.

Core Courses (32 quarter hours)

### Commercial Italian Concentration, Italian (BA)

Students choosing the Commercial Italian concentration are interested in complementing their advanced intercultural language study with a foundation in international business skills. The bridge courses in the concentration (ITA 320 and MGT 300) integrate students’ knowledge across disciplines, and the two additional electives allow them to further explore their area of interest in business.

After declaring the Italian major with the Commercial concentration, students should meet with the Italian Program Director, who will work together with advisors in the College of Business to ensure that students are maximizing opportunities to double count their chosen concentration courses in order to efficiently achieve their postgraduate career goals.

### Italian 3+3 (BA+JD)

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

#### Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.

### Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Commercial Italian Concentration, Italian (BA) (p. 646)
- Italian Language and Literature Concentration, Italian (BA) (p. 647)
- Italian Studies Concentration, Italian (BA) (p. 648)

Each of these concentrations allows Italian majors to develop their broad intercultural communicative skills through a rigorous interdisciplinary education tailored to their academic and professional interests. While the course listings for each concentration are not exhaustive, they represent a substantial sampling of courses from around the university that can be applied toward the respective concentrations. Students are encouraged to meet regularly with the Italian Program Director and the Modern Languages staff advisor to discuss elective course options for whichever concentration they choose. Other relevant courses may count as electives for the concentrations with consultation/permission of the Italian Program Director.

### Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours. Majors in Italian should select these courses in consultation with the Italian Program Director and Modern Languages Staff Advisor. Students can use their open electives to pursue a double major or one or more minors.

---

#### Italian 3+3 (BA+JD)

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

---

#### Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
• If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 677).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law’s median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Italian Language and Literature Concentration, Italian (BA)

Students choosing the Language and Literature concentration have an academic and professional interest in deepening their expertise in the target language, literature, and culture and/or in linguistics. Students may choose to either take a majority, if not all, of their coursework in Italian or take elective courses in linguistics and related disciplines (such as anthropology, bilingual-bicultural education, second-language acquisition, communication, philosophy, psychology, and semiotics) beyond those offered in the Italian Program.

After declaring the Italian major with the Language and Literature concentration, students should meet with the Italian Program Director to discuss which of these two pathways best fits their interests and academic/postgraduate goals.

**Italian Studies Concentration, Italian (BA)**

Students who choose the Italian Studies concentration have tremendous flexibility in building their own cluster of courses to align with a particular facet of Italian, based on their academic interests or intended career path. In the case of double majors, the Italian Studies concentration allows students to meaningfully align their two programs of study so that one complements the other, with the concentration courses potentially double-counting between both majors.

After declaring the Italian major with the Studies concentration, students should meet with the Italian Program Director to discuss ideas and options for crafting a tailor-made Italian Studies concentration that best fits their college and post-graduate goals.

**Electives (16 quarter hours)**

Select 4 courses from Modern Languages or affiliated departments. No more than two of the four courses shall be taken in the same Department:

- HAA 130 INTRODUCTION TO EUROPEAN ART
- HAA 230 ART AND EMPIRE IN THE ANCIENT WORLD
- HAA 231 CONQUEST & CONVERSION: THE ART OF THE EARLY MIDDLE AGES
- HAA 232 AGE OF CATHEDRALS: THE ART OF THE LATER MIDDLE AGES
- HAA 233 THE ART OF CRUSADING
- HAA 234 BYZANTINE ART
- HAA 237 ITALIAN RENAISSANCE ART
- HAA 238 BAROQUE ART
- HAA 240 ART FROM 1900-1945
- HAA 316 GODS AND MORTALS: THE ART OF THE ANCIENT GREEKS
- HAA 320 ART AND POWER IN PAGAN AND EARLY CHRISTIAN ROME
- HAA 325 OLD Empires AND NEW gods: CULTURAL CONFRONTATIONS IN LATE ANTIQUITY
- HAA 328 THE POWER OF PIETY: ICONS, RELICS, AND MIRACLES IN THE MEDIEVAL WORLD
- HAA 331 ART OF THE CRUSADES: CRUSADES AS MEDITERRANEAN EXCHANGE
Italian (MA)

The MA program in Italian provides students a customizable, flexible curriculum to develop advanced linguistic and cultural expertise in a language and to apply that expertise in the disciplinary or professional contexts of their choice. Whether in the “global village” of today’s world or in multi-ethnic communities such as Chicago, this advanced expertise is an increasingly valuable personal and professional asset, requiring appropriate training and credentials. The MA program especially seeks to serve adult professionals (government employees, social workers, healthcare providers, business people, or certified K-12 teachers) whose careers require this applied expertise.

The MA in Italian may be expanded also to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Italian + Digital Humanities Certificate
- Italian + Teaching English to Speakers of Other Languages (TESOL) Certificate
- Italian + Translation and Interpreting Studies Certificate

Program Requirements

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>48</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Speak and participate in most informal and some formal conversations from topics related to school, home, and leisure activities, to many related to employment, current events, and matters of public and community interest.
- Narrate and describe in the major time frames of past, present, and future in paragraph-length discourse with some control of aspect, as well as combine and link sentences into connected discourse of paragraph length; although these narrations and descriptions tend to be handled separately rather than interwoven.
- Use communicative strategies such as rephrasing and circumlocution, and contribute to a conversation with sufficient accuracy, clarity, and precision to convey their intended message without misrepresentation or confusion.
• Combine and link sentences into texts of paragraph length and structure, and use minimal control of common structures and vocabulary.
• Listen and comprehend (albeit unevenly) short conventional narrative and descriptive texts with a clear underlying structure.
• Understand conventional narrative and descriptive texts with clear underlying structure (though their comprehension may be uneven).

Degree Requirements

Course Requirements
The curriculum of the MA in Italian consists of twelve courses (48 quarter credit hours), divided into two parts:

1. A core curriculum of three required courses (12 quarter credit hours), and
2. Nine courses (36 quarter credit hours) in the language area. All courses in the language area must be courses taught in the target language of the student’s program (i.e., courses with prefixes ITA). In exceptional cases, with the approval of the student’s advisor and the director of the graduate program, a student may count one or two courses taught in English from allied fields (such as art history, economics, education, geography, health sciences, management, philosophy, political science, religion, sociology, etc.) among the nine “language area” courses in the student’s program.

Core Curriculum
The core curriculum consists of the following three courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MOL 401</td>
<td>PROFESSIONAL FOUNDATIONS</td>
<td>4</td>
</tr>
<tr>
<td>MOL 402</td>
<td>LANGUAGE, SELF AND SOCIETY</td>
<td>4</td>
</tr>
<tr>
<td>MOL 496</td>
<td>MAMOL CAPSTONE</td>
<td>4</td>
</tr>
</tbody>
</table>

In addition, all 300-level language courses are offered simultaneously as 400-level electives to complete the MA program. The 400-level courses have additional requirements.

Additional Requirements
Additional requirements include:

• Portfolio

The portfolio (completed while enrolled in MOL 496) consists of a compilation and critical assessment of select work done throughout the program and a capstone project. Capstone projects may include a community service experience, internship, performance or creative work, teaching portfolio, thesis, or translation.

Graduation Grade Point Average Requirement
In order to graduate from the program, students must complete all program requirements with a minimum GPA of 3.000.

Thesis Option
A thesis option will be available for students who attain a GPA of at least 3.7 in the program after completing 24 credit hours of coursework.

Student Handbook
Students in a graduate program offered through Modern Languages follow the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in a Modern Language graduate program.

Language Proficiency for Admission
In order to be eligible for admission to a Modern Language graduate program a student must have successfully completed at least 20 quarter credit hours (or the equivalent in semester credit hours) of advanced college-level coursework in the language (this is the equivalent of an undergraduate “minor” at most colleges or universities in the United States).

Students who lack 20 quarter credit hours (or the equivalent in semester credit hours) of coursework must demonstrate proficiency in the language by attaining a rating of at least “Intermediate High” on two standardized tests from the American Council on the Teaching of Foreign Languages (ACTFL): the Oral Proficiency Interview (OPI) and the Writing Proficiency Test (WPT).

Transfer Credit
Students may apply (“transfer”) toward their MA programs in Modern Languages no more than eight quarter hours of graduate-level credit completed at another college or university, with approval from the departmental director of graduate programs. Students may not transfer credits already used to satisfy the degree requirements of any program at another college or university.

Students seeking to apply “transfer” credit toward their MA programs in Modern Languages must complete the college transfer request form.

Graduation with Distinction
Students from the MA programs in Modern Languages earn their degrees “with distinction” if they graduate with a cumulative grade point average (GPA) of 4.0 (on a scale where 4.0=A). To verify eligibility, students and their faculty advisors should contact the departmental advisor and the departmental director of graduate studies before the deadline to apply for graduation.

Italian (MA), Combined Bachelor's + Master's Degree
The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Italian (MA)
Admission to this combined Master of Arts program is based on a minimum level of language proficiency (ACTFL rating of “Intermediate High”) rather than on prior coursework. Therefore, it is open to students with any undergraduate majors with the accompanying language ability.

The program is designed to prepare students for advanced use of their linguistic skills in any area of professional interest (from business, government, and education to further graduate study).

The program requires 48 quarter hour credits of coursework. This coursework consists of:

12-quarter hour credits of required courses:
### Learning Outcomes

Students will be able to:

- Speak and participate in most informal and some formal conversations from topics related to school, home, and leisure activities, to many related to employment, current events, and matters of public and community interest.
- Narrate and describe in the major time frames of past, present, and future in paragraph-length discourse with some control of aspect, as well as combine and link sentences into connected discourse of paragraph length; although these narrations and descriptions tend to be handled separately rather than interwoven.

Students who lack 20 quarter credit hours (or the equivalent in semester credit hours) of coursework must demonstrate proficiency in the language by attaining a rating of at least "Intermediate Mid" on two standardized tests from the American Council on the Teaching of Foreign Languages (ACTFL): the Oral Proficiency Interview (OPI) and the Writing Proficiency Test (WPT).

Transfer Credit

Students may apply ("transfer") toward their MA programs in Modern Languages no more than eight quarter hours of graduate-level credit completed at another college or university, with approval from the departmental director of graduate programs. Students may not transfer credits already used to satisfy the degree requirements of any program at another college or university.

Students seeking to apply "transfer" credit toward their MA programs in Modern Languages must complete the college transfer request form.

Graduation with Distinction

Students from the MA programs in Modern Languages earn their degrees "with distinction" if they graduate with a cumulative grade point average (GPA) of 4.0 (on a scale where 4.0=A). To verify eligibility, students and their faculty advisors should contact the departmental advisor and the departmental director of graduate studies before the deadline to apply for graduation.

Japanese (MA), Combined Bachelor’s + Master’s Degree

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Japanese (MA)

Admission to this combined Master of Arts program is based on a minimum level of language proficiency (ACTFL rating of "Intermediate Mid") rather than on prior coursework. Therefore, it is open to students with any undergraduate majors with the accompanying language ability. The program is designed to prepare students for advanced use of their linguistic skills in any area of professional interest (from business, government, and education to further graduate study).

The program requires 48 quarter hour credits of coursework. This coursework consists of:

1. 12-quarter hour credits of required courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MOL 401</td>
<td>PROFESSIONAL FOUNDATIONS</td>
<td>4</td>
</tr>
<tr>
<td>MOL 402</td>
<td>LANGUAGE, SELF AND SOCIETY</td>
<td>4</td>
</tr>
<tr>
<td>MOL 496</td>
<td>MAMOL CAPSTONE</td>
<td>4</td>
</tr>
</tbody>
</table>

2. 36-quarter hour credits of elective coursework, specifically relevant to each individual student's professional interests and language, and chosen in consultation with the student's faculty advisor.

The required courses (MOL 401, MOL 402, and MOL 496) are each worth 4-quarter hour credits. Elective courses may vary in credit. Because each student pursues a highly customized selection of coursework, it may include independent study, practicum, study abroad, or transfer credits that allow students to complete in any term additional credits toward satisfaction of degree requirements. Depending on individual interests, a student may (with approval of their advisor) also take as electives courses taught in English by other DePaul units, provided that the students satisfy any relevant prerequisites for those courses.

Japanese (Minor)

The Japanese language minor prepares students to speak and read with a basic proficiency in one of the world’s most important languages for business.

The minor consists of a total of 5 courses in Japanese language at the 200/300-level. Courses taught in English (JPN 240E, JPN 241E, JPN 242E) will not be counted toward this minor unless Program Director permission is secured.

Students majoring in Japanese Studies (BA) or minoring in Japanese Studies are restricted from earning this minor.

Japanese Studies (BA)

The Japanese Studies (JPS) program at DePaul engages students in Japanese language and culture to cultivate cultural, historical, linguistic,
and ethical values while developing the skills to lead in business, arts, diplomacy, education, and digital media.

Japan is America’s most important Asian ally, the 3rd strongest economy in the world, the second largest investor in the United States in business, and a global soft-power leader in digital media and popular consumer goods. At DePaul, students explore Japanese language and culture through an interdisciplinary approach. Our faculty offer classes in literature, history, religion, art history, ethics, political science, business, anime, and film studies. Students learn transferable, marketable skills in the areas of advanced language study and translation, and hone their critical thinking and writing skills by studying Japanese culture and society with experts in the fields of Japanese ethical and environmental studies, gender studies, and visual and material culture.

JPS encourages opportunities outside the classroom to strengthen linguistic and cultural competency through quarter-long or full-year exchange programs to Osaka (Kansai Gaidai) and Kyoto (Ritsumeikan). Special DePaul faculty-led short-term programs are offered every year, such as Peace Studies in Hiroshima-Nagasaki, Diaspora and Politics in Okinawa, and Digital Media in Tokyo-Kyoto.

On campus, JPS hosts numerous cultural and academic events, such as film screenings, Japanese language table, and cultural showcases. Off campus, students benefit from the many Japan-related activities at local Japanese organizations (e.g., the Japanese Consulate General in Chicago, Japanese American Service Committee, Japanese Culture Center, Japanese Chamber of Commerce and Industry in Chicago), and at local museums and theaters (e.g., the Art Institute of Chicago, the Museum of Contemporary Art, and the Gene Siskel Film Center).

The Japanese Studies curriculum allows students to take courses from many academic departments, including:

- Art History
- History
- Literature
- Political Science
- Religious Studies

Japanese Studies students are encouraged to participate in one of DePaul’s Study Abroad programs in Kyoto or Osaka, in order to grow linguistically and expand their understanding of the Japanese culture.

### Program Requirements

<td>52</td>
</tr>
<tr>
<td>Open Electives</td>
<td>56</td>
</tr>
<tr>
<td>Total hours required</td>
<td>192</td>
</tr>
</tbody>
</table>

### Learning Outcomes

Students will be able to:

- Proficiently speak, understand, read, and write the studied language(s): engage in conversations, interpret and create a variety of written texts, provide and obtain information, express feelings and emotions, exchange opinions.
- Acquire knowledge of the cultures related to the studied language(s) with appropriate background in geography, history, politics, and society.
- Acquire knowledge of the literary traditions related to the studied language(s) along with techniques of literary and rhetorical analysis.
- Acquire basic notion of the history and theory of language and language study, including linguistics, sociolinguistics, language acquisition, and dialectology.
- Acquire basic notion of the theory and practice of translation and interpretation.

### College Core Requirements

#### Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

### Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

### The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
• completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
• completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

**The Modern Language Option (MLO)**
The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

**NOTE:** Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

**External Credit and Residency**
A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

**Liberal Studies Requirements**
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

</table>

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

**Learning Domains**

**Arts and Literature (AL) (p. 1300)**
- 1 Course Required

**Historical Inquiry (HI) (p. 1304)**

**Religious Dimensions (RD) (p. 1308)**
- 2 Courses Required

**Scientific Inquiry (SI) (p. 1310)**
- 2 Courses Required
  - [1 Lab Course and 1 SWK Course]

**Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)**
- 3 Courses Required
Notes
A student whose only major is in Modern Languages is required to complete the Capstone offered by the Department of Modern Languages (MOL). A student who is double majoring (or pursuing dual degrees) with the primary major (or primary degree) in MOL may substitute the Capstone of the secondary major or degree. An MOL major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the MOL Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

- Six 4-credit courses (24 credit hours) of 200/300-level Japanese with a minimum of three 300-level courses
- Five 4-credit courses (20 credit hours) of 200/300-level Allied Courses from at least three different departments
- Two 4-credit courses (8 credits) of 200/300-level Japanese or Allied Courses

No English-language ("E-designation") courses can be applied toward the "Six Advanced Level Courses in Japanese Language" requirement of the major. Please note the following course sequence for Japanese courses:

First Year
Japanese I textbook is completed in one year

Fall Quarter
JPN 101 BASIC JAPANESE I 4

Winter Quarter
JPN 102 BASIC JAPANESE II 4

Spring Quarter
JPN 103 BASIC JAPANESE III 4

Second Year
Japanese II textbook is completed in one year

Fall Quarter
JPN 104 INTERMEDIATE JAPANESE I 4

Winter Quarter
JPN 105 INTERMEDIATE JAPANESE II 4

Spring Quarter
JPN 106 INTERMEDIATE JAPANESE III 4

Third Year
Japanese III textbook is completed in one year

Japanese Studies 3+3 (BA+JD)

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law's online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 677).
Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law's median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Japanese Studies (Minor)

The Japanese Studies minor focuses on Japanese language, literature and culture through an interdisciplinary combination of language, culture, politics and history courses.

Course Requirements

- Three quarters of college-level Japanese language study (at any level).
- Five additional courses from at least two different disciplines, chosen in consultation with an advisor or faculty member, from the current approved Japanese Studies Allied Course List.

Japanese Studies Allied Course List

Learning Outcomes

Core Outcomes

Students will be able to:

- Demonstrate a growing competence in technical aspects of performance, such as tone quality, pitch consistency, dynamic control, technical agility, accurate rhythmic concepts, and other skills particular to the area of specialization.
- Identify and analyze the elements of music in a given piece, including an understanding of its compositional processes, aesthetic properties, and artistic, social, and historical contexts for works in the Western music tradition, Contemporary periods, Jazz, and World Music Cultures.
- Demonstrate an appropriate level of aural, keyboard, and conducting skills.

Program Specific Outcomes

Students will be able to:

- Develop an understanding of the pedagogical processes and theories that are foundational to performance practices and instruction on one's primary instrument.
- Demonstrate a growing maturity in musical concepts using tools of performance to create artistic products.
- Demonstrate increasing knowledge of repertoire and growing musical competence through participation in solo, chamber and large ensemble performances.
Students may enroll in a maximum of 3 credits of applied study per quarter, with a maximum of 36 credits total. The requirements for applied study vary by degree program:

- BM in performance, 36 credits
- BM in jazz studies, 32 credits
- BM in composition, 12 credits
- BM in music education, 18 credits
- BM in performing arts management, 18 credits
- BA in music, 12 credits
- BS in sound recording technology, performance track, 9 credits

The BS in Performing Arts Management degree does not require applied lessons, and the BS in Sound Recording Technology, non-performance track, degree does not require applied lessons.

Except performance majors, students may enroll in additional applied credits, which will count towards music electives.

**Modern Language Option**

If a music student wishes to study a modern language for a three-course sequence (12 credits) beyond their degree program's requirement, the three MLO substitutions must be made in three different Liberal Studies learning domains. Any substitutions must be consistent with the principle that students complete at least one course in each learning domain. In the Scientific Inquiry domain, the only MLO substitution allowed is for Scientific Inquiry-Elective. Additional language credits may be applied toward non-music electives or free electives.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1. Students must earn a C- or better in this course.
2. Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.

**Learning Domains**

- Arts and Literature (AL) (p. 1300) • 2 Courses Required
- Historical Inquiry (HI) (p. 1304) • 2 Courses Required
- Math and Computing (MC) (p. 1306) • Not Required
- Philosophical Inquiry (PI) (p. 1307) • 1 Course Required
- Religious Dimensions (RD) (p. 1308) • 1 Course Required
- Scientific Inquiry (SI) (p. 1310) • 1 SWK or 1 Lab Course Required
- Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312) • 1 Course Required

**Notes**

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Major Requirements**

**Program Checkpoints**

Undergraduate Jazz Studies majors will perform a checkpoint audition at the end of their freshman year. The student's applied instructor and/or area coordinator or director will give students specific information on content and required music. Successful completion of the checkpoint audition is required for continuation in the performance degree.

Jazz Studies (MM)

The graduate jazz studies program provides students a comprehensive education in jazz, allowing students to specialize in either performance or composition. Drawing upon the resources of the Chicago jazz scene, faculty members are highly celebrated performers, teachers, composers, and arrangers. In addition to applied jazz lessons, jazz ensembles, and jazz combos, Master of Music students enroll in courses such as jazz theory, history, pedagogy, improvisation, composing, and/or arranging. Throughout the program, jazz students have multiple opportunities to record performances and compositions in professional recording studios. The Master of Music degree is a two-year program.

Program Requirements

- Degree Requirements: 48 quarter hours
- Total hours required: 48

Learning Outcomes

Core Outcomes

Students will be able to:

- Demonstrate basic music research techniques and apply knowledge of standard reference tools and bibliographic sources to the writing of a variety of professional and academic music texts.
- Develop an expanded global, historical, and cultural understanding of music through the in-depth study of musical elements, compositional processes, and aesthetic properties.

Degree Requirements

Course Requirements

A minimum of 48 quarter hours of graduate credit is required for the Master of Music degree. This total is divided between the basic studies required of all master's degree students, and courses in the specialization. Prior to the conclusion of each degree program, graduate students must pass a written comprehensive examination, administered by each department/program.

Terminal Requirements

Two terminal requirements are required of all students:

- A written comprehensive examination, in which the students must demonstrate a satisfactory knowledge of their major field of study. The comprehensive examination may be taken at any time after 32 quarter hours of graduate credit have been earned.
- Performance track, the presentation of a public recital; composition track, the completion of a final writing project.

While preparation of the terminal requirement in the major may take place within some course or activity for which a student is registered for credit, additional academic credit is not granted for the project itself.

Residency Requirements

All courses for the master's degree must be taken at DePaul University. Graduate credit for courses completed at other institutions may not be applied toward the degree.

A full-time graduate student must be registered for a minimum of six quarter hours in any term. All requirements for the degree must be completed within six calendar years from the time a student is first enrolled. For students removing deficiencies, this period will begin when all deficiencies are removed and admission to the master's degree program has been granted.

Journalism (BA)

Journalism majors are distinguished by their ability to research, interview and write under deadline pressure across a variety of platforms using the most appropriate forms of audio, photo and video to best tell stories that inform communities. As a journalism major, you learn from practitioners in the field and researchers with journalism backgrounds about how to share information, engage communities and make where you live a better place.

DePaul's Journalism Program features an array of courses in reporting, writing, multimedia production, broadcast journalism, photography and social media to prepare you to dig into content areas of your choice such as politics, sports, arts and entertainment, and community news.

The Journalism program is located in downtown Chicago, at DePaul's Loop campus, giving you access to many surrounding media outlets and allowing you to meet and work professionally with leading companies in the industry. You will have access to DePaul's state of the art equipment, recording studios, and student media spaces. Students gain experience in national award-winning co-curricular student organizations and can complete multiple competitive internships at news outlets in the city during the regular school year as part of their regular coursework.

Learning Outcomes

Students will be able to:

- Write, interpret and report the news of the day.
- Evaluate the journalism profession and media industry many of them will be entering.
- Demonstrate the role technology, social media and repurposing stories for multimedia platforms are playing in the current and future world of news gathering and dissemination.
- Analyze journalism's relationship to society, power, politics, locally and globally.

College Core Requirements (p. 661)

Modern Language Requirement (p. 661)

Modern Language Option (p. 662)

All majors in the College of Communication consist of a four-course common core plus an additional combination of program requirements and electives.

College Core Requirements

Four core courses are required of all College of Communication students:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CMN 101</td>
<td>INTRODUCTION TO HUMAN COMMUNICATION</td>
<td>4</td>
</tr>
<tr>
<td>CMN 102</td>
<td>INTRODUCTION TO MASS COMMUNICATION</td>
<td>4</td>
</tr>
<tr>
<td>CMN 103</td>
<td>INTERCULTURAL COMMUNICATION</td>
<td>4</td>
</tr>
<tr>
<td>CMN 104</td>
<td>PUBLIC SPEAKING</td>
<td>4</td>
</tr>
</tbody>
</table>

Students are encouraged to complete all four prior to taking additional coursework in the major.

Modern Language Requirement

Students who intend to graduate with a Bachelor of Arts degree in the College of Communication will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing the last course in a second year high school course work in a modern language or Latin
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language (must be completed during high school)
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination.

Modern Language courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement. Students with some modern language training should consult with the Modern Language Department about the course with which they should begin. Students with little or no previous work in the language will be required to complete the entire three-course introductory sequence.

Modern Language Option
The Modern Language Option is available to all BA students who wish to study a modern language beyond the level necessary to meet the College’s modern language requirement. Students selecting the option may substitute a three-course language sequence for three learning domain courses, or two upper-level courses in the same language for two learning domain requirements. Modern language option waivers cannot be applied to courses in the Math and Computing Domain or courses in the Scientific Inquiry Domain. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

Learning Domains

<tr>
<td>Social, Cultural, and Behavioral Inquiry (SCBI)</td>
<td>2 Courses</td>
</tr>
</tbody>
</table>

Note
Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

- JOUR 370 MULTIMEDIA NEWS PRODUCTION
- JOUR 371 ADVANCED REPORTING I
- JOUR 372 ADVANCED REPORTING II
- JOUR 374 COMMUNITY JOURNALISM
- JOUR 375 LONG FORM JOURNALISM

Select two electives from any College of Communication offerings or from the following College of Computing and Digital Media courses: 8

- FILM 110 DIGITAL CINEMA PRODUCTION I (FORMERLY DC 210)
- POST 100 VIDEO EDITING (FORMERLY DC 120)
- POST 110 EDITING I (FORMERLY DC 220)

1 Students may take up to 4 hours of credit in this course toward graduation requirements.
2 A maximum of 8 credits from two credit College of Communication courses can be applied to major requirements.

Internship Credit
Students in the major may take CMN 394 and/or CMN 395 (when work relates to the major). In order to take CMN 394 or CMN 395, students must have completed two of the four communication core classes (CMN 101, CMN 102, CMN 103, CMN 104), two courses in the chosen major and have fulfilled internship program eligibility requirements.

Open Electives
Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Journalism 3+3 (BA+JD)
In the 3 + 3 BA/JD Program, high-achieving first-year incoming undergraduate students are admitted simultaneously to the College of Communication and the College of Law. Students complete their first three years in the College of Communication and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA/JD students meet regularly with advisors in both colleges and have access to a variety of resources to ensure their success.

Key Program Features
- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Communication during their fourth year.
If students withdraw after the first semester in the College of Law, they return to the College of Communication for the winter quarter.

Program Requirements
In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study. Students who enrolled in the BA+JD program prior to 2022 must achieve a cumulative GPA of 3.35 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

- PRELAW 150 THE PRACTICE OF LAW
- PRELAW 151 RECENT CONTROVERSIES IN THE LAW
- PRELAW 152 THINKING ABOUT THE LAW

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program. In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 677).

Financial Aid
BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law’s median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Participating Majors
The BA/JD Program is available for students pursuing the following majors:

- Communication and Media (p. 236)
- Communication and Technology (p. 245)
- Communication Studies (p. 248)
- Journalism (p. 661)
- Media and Cinema Studies (p. 784)
- Organizational Communication (p. 861)
- Public Relations and Advertising (p. 952)
- Sports Communication (p. 1100)

For admission requirements and information, contact the Office of Admission (https://www.depaul.edu/admission-and-aid/Pages/default.aspx).

Journalism (MA)
The MA in Journalism Program at DePaul prepares graduates for careers as multimedia news producers and visual storytellers in journalism’s new digital landscape. Our graduates are now content producers at more than 400 sites in the webbed universe. Concentrations in: Multimedia Reporting; Reporting Metro Chicago; Sports Journalism; and Data Journalism helped establish their brands as socially responsible reporters, editors, and producers.

DePaul’s program brings Chicago into the classroom and moves the classroom out into the third largest media market in the country. Internships and experiential learning opportunities enable students to develop the networks and e-portfolios that advance their careers. Our award-winning team of journalism professionals partners with students in producing first-rate news stories across platforms, aided by DePaul’s downtown Media Center and Green Screen Studio.

<table>
<thead>

<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Degree Requirements</td>
<td>48</td>
</tr>
<tr>
<td>Total hours required</td>
<td>48</td>
</tr>
</tbody>
</table>

Learning Outcomes
Students will be able to:

- Explain and evaluate the social responsibility of journalists to serve citizens with news worth knowing.
- Use digital story-telling techniques to be competitive in the new journalism marketplace.
- Experiment in how to best handle and present the news of the day.

Degree Requirements
Course Requirements
The Master of Arts in Journalism requires 12 courses (48-credit hours) — three core courses, a minimum of six elective courses in Journalism, and a maximum of three outside electives.

Core Courses
Students are required to take all of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>JOUR 501</td>
<td>THE SOCIAL RESPONSIBILITY OF JOURNALISM</td>

1 Students who wish to earn one of the three concentrations should see "Concentration Requirements" page to help guide their elective course choices.

Outside Electives

With approval from the graduate program director, students can take up to three relevant elective courses from other Communication graduate programs, or relevant graduate elective courses from outside of Communication. Examples of courses students have taken previously are:

<table>

Optional Latino Media & Communication Concentration

The graduate concentration in Latino Media & Communication is comprised of at least three graduate courses drawn from the areas of advertising, journalism, media and cinema studies, multicultural communication, organizational communication and public relations. Graduate students in any of the College of Communication Master of Arts programs can elect to complete the Latino Media & Communication concentration. Students may need to use outside electives to complete this concentration.

Students who complete the concentration will:

- Develop an understanding of the heterogeneous and rapidly changing Latino communities locally, nationally and globally
- Ground their knowledge of intercultural studies within a more extensive and concrete knowledge of a particular (even though
diverse), rapidly growing, and increasingly important population within the U.S.

- Increase their cross-cultural competence (understanding and ability to dialogue across difference, develop cultural sensitivity and awareness) with Latino communities
- Enhance their capacity to communicate with and learn from Latino populations in the workplace, in community situations and other sites of engagement
- Recognize the impact of the movement of Latinos across the globe and develop the skills to critically consume and produce media, public relations and advertisement representations that communicate to and about Latino communities
- Develop field-specific knowledge of Latino media and communication along with an understanding of how Latino studies shapes other fields of communication

**Courses**

Students are required to take three courses (12 credits) from the following list:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CMNS 509</td>

<td>1</td>
</tr>
<tr>
<td>CMN 598</td>
<td>STUDY ABROAD</td>
<td>1</td>
</tr>
</tbody>
</table>

1 Topic must be related to Latino Media and Communication.

**Grade Requirements**

All students are required to maintain a cumulative GPA of 3.000 in their coursework. If a student’s cumulative GPA falls below 3.000, the student will be allowed to complete an additional 16 credits or 3 quarters (whichever comes first) to attain the 3.000 minimum GPA. If the cumulative GPA remains below a 3.000 at the conclusion of this time period, the student may be dismissed from the program. The student’s cumulative and term GPAs along with overall academic performance will be factored into the dismissal decision.

**Concentration Requirements**

Students pursuing a graduate Journalism degree can select specific elective classes to earn a concentration.

- Data Journalism Concentration, Journalism (MA) (p. 666)
- Multimedia Journalism Concentration, Journalism (MA) (p. 667)
- Reporting Metro Chicago Concentration, Journalism (MA) (p. 667)
- Sports Journalism Concentration, Journalism (MA) (p. 667)

**Data Journalism Concentration, Journalism (MA)**

The concentration in Data Journalism at DePaul focuses on reporting stories through data and non-linear storytelling. It enables students to cover many of our major social problems—crime, poverty, access to health care, homelessness, and various forms of abuse—through social science reporting, data mining and visualization. The concentration’s objectives are to find and report important stories by integrating classic journalistic values of fairness, balance and impartiality with the values of digitalization and open-source culture. Graduates will be prepared to find jobs in the rapidly growing marketplace of publications that combine journalism and cutting-edge technology. Students must take two core courses (8 credits) and two elective courses (8 credits).

**Core Courses**

Students must take 2 core courses.

Multimedia Journalism Concentration, Journalism (MA)

Multimedia Journalism is a concentration that focuses on the multimedia storytelling and narrative strategies used to engage a wide readership. Coursework shows students how to combine text, photographs, video clips, audio, and graphics that encourage interactivity. Students will learn the strategies for multimedia storyboarding, planning, and delivery systems that successfully integrate mobile, tablet and desktop platforms. The concentration guides students into a better understanding of the evolving media landscape and its digital communities in helping students produce professional-grade multimedia stories. Students must take two core courses (8 credits) and two elective courses (8 credits).

Core Courses

Students will take the following courses as part of their major program requirements:

<table>

Reporting Metro Chicago Concentration, Journalism (MA)

Course Requirements

The graduate concentration in Reporting Metro Chicago prepares students for work in urban reporting by introducing them to the communities, institutions, and decision-makers that impact citizens across the metro area. Students will learn how to cover critical urban issues through a variety of print and online platforms that serve citizens with fascinating stories drawn from across the city. Students must take 2 core courses (8 credits) and 2 elective courses (8 credits).

Sports Journalism Concentration, Journalism (MA)

Course Requirements

The graduate concentration in Sports Journalism trains students to write, report, and produce multimedia sports packages while giving them an understanding of the unique role of sports in American life. Experiential learning opportunities are emphasized in game coverage, sports blogging, and building sports communities through print, broadcast, and social media. Students will learn the perspective and context that makes for truly exceptional work in sports journalism. Students must take one core course (4 credits) and 3 elective courses (12 credits).

Core Courses

Students are required to take one of the following:
Elective Courses

¹ Topic must be sports journalism related.

Double Demon Scholarship

Alumni from any of DePaul's colleges who are admitted into a graduate degree program in the College of Communication automatically qualify for the Double Demon Scholarship. Combined degree program students are eligible.

This scholarship covers 25% of the tuition for a master's degree in the College of Communication. Both full-time and part-time students are eligible. No scholarship application is required. (DePaul University employees are eligible for other employee tuition benefits through the university, and therefore are not eligible for the Double Demon Scholarship.)

Journalism (Minor)

The Journalism minor provides an overview of reporting skills and methods. The flexible, hands-on curriculum offers courses that focus on a variety of topics, allowing you to take the courses that are most appealing to you.

Course Requirements

A minor in Journalism consists of a total of 24 credit hours (six courses).

Course Title Quarter

<table>
<thead>

</table>

¹ Any of these three JOUR courses may be replaced with CMN 394 or CMN 395, if those internships are journalism-related.

Students majoring in Journalism (BA) are restricted from earning this minor.

Language Proficiency Certificate

The Department of Modern Languages offers two certificates to current students and to non-degree seeking students/students-at-large: intermediate (low, mid, or high) language proficiency and advanced (low,
mid, or high) language proficiency. Upon completion of the required classes and Written Proficiency Test, the student’s certificate will be posted to their DePaul transcripts. Language proficiency certification will allow students to show future employers they are ready to compete in today’s global workplace.

To declare the certificate, students must contact Anna Souchuk (asouchuk@depaul.edu).

The department offers certificates in American Sign Language, Arabic, Chinese, French, German, Italian, Japanese, Russian, and Spanish. Certificates require a varying number of courses, depending on the student’s incoming language placement and desired level of proficiency.

Test credit and transfer credit are not applicable toward the certificate. All courses to be applied toward the certificate must be completed at DePaul.

**Intermediate**

- Students are required to successfully complete a minimum of three courses at DePaul (level 104 and above - no transfer or test credit; DePaul study abroad program credit will be reviewed on a case-by-case basis) in order to earn the certificate.
- Student readiness for intermediate level (104 and above) courses will be established by the language placement exam ([http://las.depaul.edu/academics/modern-languages/student-resources/academic-advising/Pages/language-advising-faq.aspx](http://las.depaul.edu/academics/modern-languages/student-resources/academic-advising/Pages/language-advising-faq.aspx)), transfer credit ([http://www.depaul.edu/admission-and-aid/types-of-admission/transfer-student/transferring-your-courses/Pages/default.aspx](http://www.depaul.edu/admission-and-aid/types-of-admission/transfer-student/transferring-your-courses/Pages/default.aspx)), or test credit ([http://www.depaul.edu/admission-and-aid/test-credit-and-placement/Pages/default.aspx](http://www.depaul.edu/admission-and-aid/test-credit-and-placement/Pages/default.aspx)).
- The number of courses necessary to achieve an intermediate level certificate of proficiency (low, mid or high) will depend on the student’s entering proficiency level (based on previous study/knowledge; courses required may be determined by the language placement exam ([http://las.depaul.edu/academics/modern-languages/student-resources/academic-advising/Pages/language-advising-faq.aspx](http://las.depaul.edu/academics/modern-languages/student-resources/academic-advising/Pages/language-advising-faq.aspx)), transfer credit ([http://www.depaul.edu/admission-and-aid/types-of-admission/transfer-student/transferring-your-courses/Pages/default.aspx](http://www.depaul.edu/admission-and-aid/types-of-admission/transfer-student/transferring-your-courses/Pages/default.aspx)), ACTFL Written Proficiency Test ([http://www.languagetesting.com/writing-proficiency-test/](http://www.languagetesting.com/writing-proficiency-test/)), or test credit ([http://www.depaul.edu/admission-and-aid/test-credit-and-placement/Pages/default.aspx](http://www.depaul.edu/admission-and-aid/test-credit-and-placement/Pages/default.aspx)) and student effort (time spent studying the language, the following recommendations ([http://las.depaul.edu/academics/modern-languages/student-resources/Pages/default.aspx](http://las.depaul.edu/academics/modern-languages/student-resources/Pages/default.aspx)) for language proficiency development outside of the classroom, how well students perform in their language classes, etc.).
- At the end of the required number of courses, students must register and pay to take the ACTFL Written Proficiency Test ([http://www.languagetesting.com/writing-proficiency-test/](http://www.languagetesting.com/writing-proficiency-test/)) or the American Sign Language Proficiency Interview ([https://www.gallaudet.edu/the-american-sign-language-proficiency-interview/aslpi/](https://www.gallaudet.edu/the-american-sign-language-proficiency-interview/aslpi/)) to certify proficiency level. The level of proficiency, per ACTFL test results (Advanced low, or higher), will be posted onto the student’s DePaul transcripts.
- If students test below an intermediate level certificate, they may opt to:
  - take additional language courses,
  - work with the free language tutors through the Language Learning Center ([http://las.depaul.edu/academics/modern-languages/student-resources/Pages/language-labs-and-tutors.aspx](http://las.depaul.edu/academics/modern-languages/student-resources/Pages/language-labs-and-tutors.aspx)) until the desired level of proficiency is achieved, and then retake the test, or
  - drop the certificate program by emailing their advisor or college advising office.
- Students should familiarize themselves with the ACTFL proficiency standards for intermediate-level speakers in order to better understand how much time they may need to dedicate to language study for the certificate.

**Advanced**

- Students are required to successfully complete five courses at DePaul (200 and 300 level language courses - no transfer or test credit; DePaul study abroad program credit will be reviewed on a case-by-case basis).
- Student readiness for advanced level courses will be established by the language placement exam ([http://las.depaul.edu/academics/modern-languages/student-resources/academic-advising/Pages/language-advising-faq.aspx](http://las.depaul.edu/academics/modern-languages/student-resources/academic-advising/Pages/language-advising-faq.aspx)), transfer credit ([http://www.depaul.edu/admission-and-aid/types-of-admission/transfer-student/transferring-your-courses/Pages/default.aspx](http://www.depaul.edu/admission-and-aid/types-of-admission/transfer-student/transferring-your-courses/Pages/default.aspx)), or test credit ([http://www.depaul.edu/admission-and-aid/test-credit-and-placement/Pages/default.aspx](http://www.depaul.edu/admission-and-aid/test-credit-and-placement/Pages/default.aspx)).
- Degree-seeking students taking the certificate may also complete one of several minors ([http://www.depaul.edu/university-catalog/degree-requirements/Pages/default.aspx](http://www.depaul.edu/university-catalog/degree-requirements/Pages/default.aspx)) in the language simultaneous to the certificate.
- The number of courses necessary to achieve an advanced level certificate of proficiency (low, mid or high) will depend on the student’s entering proficiency level and student effort (time spent studying the language, the following recommendations ([http://las.depaul.edu/academics/modern-languages/student-resources/Pages/default.aspx](http://las.depaul.edu/academics/modern-languages/student-resources/Pages/default.aspx)) for language proficiency development outside of the classroom, how well students perform in their language classes, etc.).
- At the end of the required number of courses, students must register and pay to take the ACTFL Written Proficiency Test ([http://www.languagetesting.com/writing-proficiency-test/](http://www.languagetesting.com/writing-proficiency-test/)) or the American Sign Language Proficiency Interview ([https://www.gallaudet.edu/the-american-sign-language-proficiency-interview/aslpi/](https://www.gallaudet.edu/the-american-sign-language-proficiency-interview/aslpi/)) to certify proficiency level. The level of proficiency, per ACTFL test results (Advanced low, or higher), will be posted onto the student’s DePaul transcripts.
- If students test below an advanced level certificate, they may opt to:
  a. change their certificate program (intermediate low, mid, or high),
  b. take additional language courses,
  c. work with the free language tutors through the Language Learning Center ([http://las.depaul.edu/academics/modern-languages/student-resources/Pages/language-labs-and-
Latin American and Latino Studies (BA)

The Department of Latin American and Latino Studies (LALS) explores the myriad contributions of Latin Americans and Latinx people to the global community. The department’s programs emphasize the profound linkages that have emerged between Latin America and the United States, particularly through the construction of Latinx communities in the U.S. We also critically analyze the complex intersections with Indigenous, African, European, Semitic, Arab, and Asian communities throughout the Americas.

This interdisciplinary department cultivates critical thinking on gender, sexuality, language, race, ethnicity, class, religion and indigeneity, and it emphasizes community engagement and social justice pedagogies and scholarship. Our programs equip students with much needed cultural competences that will prepare them well for leadership positions in both the public and private sectors and/or for work in graduate education.

Learning Outcomes

Students will be able to:

- Describe and discuss the historical trajectories of the diverse communities of Latin America emerging from centuries of interactions among Indigenous, African and European peoples, as well as Arabic, Asian, Semitic and other diasporas.
- Describe and discuss the historical linkages between Latin America and the United States and the experiences of Latin American migrants and their descendants within the US.
- Critically engage with the historical legacies of hierarchy and inequality that shape imbalances of power within Latin America and structure its relations with the US.
- Apply theoretical approaches, interdisciplinary concepts, and appropriate methods to interrogate practical problems and issues of inequity in the Americas.
- Develop in self-reflection and critical analysis an ethos and practice of social justice.
- Develop professional skills and cultural competences through the following activities: creating and delivering live presentations, and completing independent and team research and writing. Following the same learning outcome, the LALS program also encourages students to engage in the following high impact practices: conducting community engagement projects, participating in internships in public service and the professions, participating in cultural exchanges and study abroad in Latin America.

College Core Requirements

Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High
or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (see below).

The Modern Language Option (MLO)
The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency
A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Learning Domains
Arts and Literature (AL) (p. 1300) • 3 Courses Required

Historical Inquiry (HI) (p. 1304) • 1 Course Required

Math and Computing (MC) (p. 1306) • 2 Courses Required [1 CR Course and 1 SRCourse]

Philosophical Inquiry (PI) (p. 1307) • 2 Courses Required

Religious Dimensions (RD) (p. 1308) • 2 Courses Required

Scientific Inquiry (SI) (p. 1310) • 2 Courses Required [1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312) • 2 Courses Required
Notes
See an advisor to utilize the modern language option.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Spanish Requirement (2 courses / 8 credit hours)
- Two 200/300-level Spanish courses

Concentration Requirements

Students must also complete the requirements from one of the following concentrations: Cultural Studies of the Americas, Individualized Concentration, Latina/o/x Studies, Transformations Over Time in the Americas Concentration.

Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Cultural Studies of the Americas Concentration, Latin America and Latino Studies (BA) (p. 672)
- Individualized Concentration, Latin America and Latino Studies (BA) (p. 673)
- Latina/o/x Studies Concentration, Latin America and Latino Studies (BA) (p. 674)
- Transformations Over Time in the Americas Concentration, Latin America and Latino Studies (BA) (p. 675)

Cultural Studies of the Americas Concentration, Latin America and Latino Studies (BA)

This concentration includes the study of cultural productions - e.g. art, film, television, literature - and the major theoretical and ideological trends of cultural studies in the Americas. This concentration takes a hemispheric or Inter-American approach to the study of cultural productions, taking into account the impact of social, economic, and political exchanges on the circulation of culture across the hemisphere. Courses in this concentration explore issues relating to the representation of transnational migration, race, ethnicity, sexuality, gender, class, and indigeneity.

Open Electives
Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Individualized Concentration, Latin America and Latino Studies (BA)
Course Requirements
Students in the Individualized concentration will consult with their faculty advisor to determine the six elective courses.

Latin American and Latino Studies 3+3 (BA+JD)
In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet...
regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

**Key Program Features**

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

**Program Requirements**

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 677).

**Financial Aid**

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law’s median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

**Latina/o/x Studies Concentration, Latin America and Latino Studies (BA)**

The Latina/o/x Studies concentration allows students to choose from an array of intellectually challenging, multidisciplinary courses that introduce cutting-edge scholarship on the Latina/o populations of the United States. Our courses familiarize students with the nation’s fast-growing, diverse, transnational Latina/o populations, including their histories, ongoing connections to Latin America, cultures, and social conditions. Courses offer students the opportunity to focus on individual Latina/o communities in the country and to engage in comparative analysis of the various Latina/o communities. Students can select courses that concentrate on current socioeconomic and political issues facing Latinos in the U.S., as well as others that capture Latina/o expression in literature, music, and the arts. Some courses in this concentration involve students in collaborative projects with Chicago based Latina/o community organizations, civic programs, and other service learning opportunities.

Transformations Over Time in the Americas Concentration, Latin America and Latino Studies (BA)

This concentration focuses on the political, economic, and socio-cultural transformations that have profoundly shaped the Americas over time. In addition, it explores the historical processes that have created and continue to shape the diverse people living in the Americas throughout the centuries, focusing specifically on the peoples of Latin American origins and calling attention to the complex interplay among Indigenous, African, European, Arab, Asian, and Semitic societies in the region. This concentration provides the methodological and theoretical tools to analyze longitudinally and comparatively key historical issues such as colonization, imperialism, militarism, revolution, the struggles for liberation and self-determination, nationalism, and the creation of borders and boundaries, as well as the development of unique art and literary expressions. Courses in this concentration also address issues such as authoritarian and democratic regimes of governance, state-interventionist and neoliberal economies, national and transnational forms of belonging, as well as the new modes of institutional exclusion and socio-cultural formation. In choosing this concentration, students will grapple with key figures, events, and movements in the Americas.

1 Courses from other departments may count towards this concentration; consult your LALS advisor for more information.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Latin American and Latino Studies (BA) + Critical Ethnic Studies (MA)

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.
In the spring of their junior year, majors can apply for the combined Latin American and Latino Studies (BA) + Critical Ethnic Studies (MA). Students in this program take twelve graduate credit hours in their senior year; these graduate courses may apply toward both undergraduate Latin American/Latino Studies major field and graduate Critical Ethnic Studies requirements. Interested students should contact the Critical Ethnic Studies (CES) graduate director.

A variety of other combined degree options are available for majors within the College of Liberal Arts and Social Sciences as well as other colleges at DePaul. These options generally offer double-counting of undergraduate open elective credit with graduate program credit.

**Latin American and Latino Studies (Minor)**

The Latin American and Latino Studies minor will help you explore the cultural contributions of the Latin American community to the global community and the traditions that developed in the region.

**Course Requirements**

**Core Requirements (2 courses / 8 credit hours)**

<table>

**Areas of Concentration (4 courses / 16 credit hours)**

- Four elective courses, to be chosen in consultation with a program advisor. Minors are encouraged to take LST 390. Minors are suggested to focus in one of the four Areas of Concentration:
  - Cultural Studies of the Americas
  - Individualized
  - Transformations Over Time in the Americas
  - Latina/o/x Studies

**Study Abroad Experience**

Students are strongly encouraged to participate in DePaul’s quarter abroad program in Merida, Mexico or one of the university’s other short-term study abroad programs in Latin America.

**Internship Experience**

Students are strongly encouraged to include an internship as part of their academic experience. Internships may be arranged with either a Latino community organization, a U.S.-based organization that focuses on Latin America, or, as part of a study abroad experience, with a public service organization in a Latin American country.

Students majoring in Latin American and Latino Studies (BA) are restricted from earning this minor.

---

**Latino Media and Communication (Minor)**

The minor in Latino Media and Communication is comprised of six courses. The minor allows students within the college and from other colleges, who have a strong interest in focusing their interest in Latino Studies, to develop them within the communication field. Students opting to pursue a minor in Latino Media and Communication may not pursue a concentration in the same subject area.

**Minor Goals**

The program educates students to think critically about all aspects of media and communication, with a particular focus on Latino media and Latino communities. Coursework will provide students with the applied skills necessary to create communication strategies which effectively reach the Latino segment of the population, based on an understanding of Latino cultures in the US and grounded in an understanding of its cultural, economic and sociological aspects.

**Learning Goals**

Students who complete the minor will:

- Develop an understanding of the heterogeneous and rapidly changing Latino communities locally, nationally, and globally.
- Ground their knowledge of intercultural studies within a more extensive and concrete knowledge of a particular (even though diverse), rapidly growing, and increasingly important population within the US—Latino communities.
- Increase their cross-cultural competence (understanding and ability to dialogue across difference, develop cultural sensitivity and awareness) with Latino communities.
- Develop insights into the needs and motivations of Latino populations in the workplace, in community situations, and other sites of engagement, and develop communications tools and strategies to address those needs and motivations.
- Enhance their capacity to communicate with and learn from Latino populations in the workplace, in community situations, and other sites of engagement.
- Recognize the impact of the movement of Latinos across the globe and to develop the skills to critically consume and produce media, public relations, and advertisement representations that communicate to and about Latino communities.
- Both engage and demonstrate their interest in Latino Studies within and across diverse areas of knowledge production in the Communication field.

Law (JD)

As a lawyer, you will face a unique set of challenges every day, from negotiating complex agreements to successfully arguing motions in court. That’s why DePaul University College of Law offers you theoretical instruction as well as creative approaches to professional skills training. Whether in the classroom or in the field, DePaul’s comprehensive curriculum prepares you to succeed.

As a DePaul student, you can earn academic credit by working with real clients on real cases in every type of legal environment. Through our experiential education programs, you will gain valuable first-hand experience and insight working side-by-side with distinguished faculty members and practicing attorneys.

In addition to the core Juris Doctor curriculum, you also can choose from a variety of joint degrees, graduate programs and certificate options in a number of specializations.

Learning Outcomes

Students will be able to:

- Solve legal problems by applying foundational knowledge of civil procedure, constitutional law, contracts, criminal law, property law, and torts.
- Solve legal problems by applying foundational knowledge of the rules regulating the legal profession.
- Identify and apply relevant legal authority.
- Communicate clearly in speech and writing.
- Demonstrate the fundamental professional lawyering skills for competent and ethical participation as a member of the legal profession.

Degree Requirements

Law School Full-Time Day and Evening Program Options

The College of Law has both a full-time day and an evening program option. At the end of their first year, students may change from the evening program to full-time day or vice versa by filing a program change request form with the Office of Student Affairs. The form is available on the College of Law website under Registration. Students may only change their status once while they are enrolled in law school.

Students are advised that a program change may affect their financial aid. For financial aid information, they should see a financial aid counselor in the Office of Financial Aid on the 9th floor of the DePaul Center.

Note that, after JD Day students complete their first-year required courses and after JD Evening students complete their first three semesters of required courses, students may take day or evening courses, regardless of the student’s program.

Credit Hour Requirements

Graduation with a JD requires that the student complete 86 credit hours. Under the College of Law’s semester system, one credit hour is granted for 50 minutes of classroom or direct faculty instructional time per week, multiplied by 15, and at least 120 minutes of additional out-of-class student work each week, or an equivalent amount of work for other courses and activities, multiplied by 15. The standard course extends over a fourteen-week semester, followed by a final examination period. Courses or other credit-bearing activities that occur over a different time period must incorporate the same total amount of instructional time and additional assigned work per credit hour as a standard course. At a minimum, students must complete 42.5 hours for 1 unit of credit; 85 hours for 2 units of credit; 127.5 hours for 3 units of credit; and 170 hours for 4 units of credit.

Credit is earned if a student receives an A through a D, or PA grade.

Time to Degree Limitation

JD Day students are expected to complete the degree in three years. JD Evening students are expected to complete the degree in four years. The maximum time to complete the JD program, if a student takes an
approved leave of absence, is five years. Students who are unable to complete the degree within this time frame are required to confer with the Assistant Dean for Student Affairs in the College of Law. Pursuant to the American Bar Association Standards of Accreditation, all JD students must complete their degree no later than 84 months after commencing law study.

Maximum and Minimum Credit Hours
First-year JD Day students take 14-15 credit hours per semester. First-year JD Evening students take 9-10 credit hours per semester.

Upper level JD Day students may register for a maximum of 16 credit hours per semester. After their third semester, JD Evening students may register for a maximum of 12 credit hours per semester.

JD Day students must take a minimum of 12 credit hours per semester except that JD Day graduating seniors in their final semester need only take the number of credit hours necessary for them to graduate. JD Evening students must register for a minimum of 9 credit hours per semester except that graduating seniors need only take the number of credit hours necessary for them to graduate.

No Credit for Course Work Taken Prior to Matriculation in the JD Program
The American Bar Association Standards provide that credit for a JD degree shall only be given for course work taken after the student has matriculated in a law school. A law school may not grant credit toward the JD degree for work taken in a pre-admission program.

* Courses that are counted toward the BA for students in the 3+3 (BA/JD) program. These courses will be completed in the combined final year of the undergraduate degree and first year of the law degree.

Experiential Education Requirement
Students must complete at least six credit hours of experiential education courses from the list of approved courses below. Most, but not all, courses are offered for three credit hours. JD students who matriculated prior to Autumn 2016 can choose to take only one professional skills course in lieu of the Experiential Education Requirement (see the Catalog Archive for applicable courses).

**Electives**

Elective courses are open to all students who meet the prerequisites for the course in question. For information on specializations, see the section on Certificates.

**Credit Hour Limitations**

**Non-Classroom Credit Hours: 12-Credit Limit**

With the exception of students enrolled in the Third Year in Practice (3YP) program, a JD student may earn a maximum of 12 credit hours for non-classroom (indirect instruction) courses. Courses that count toward the 12-credit non-classroom limit include the following:

<table>

</table>

**Distance Education Credit Limit**

American Bar Association rules specify that JD students may earn a maximum of 28 credit hours toward the JD degree for distance education courses. The College of Law offers both fully online and hybrid courses. A hybrid course is a course in which some, but not all, of the instructional time is online. All fully-online courses, and some hybrid courses, qualify under the ABA rule as distance education courses.

**Third Year in Practice (3YP) Program**

The Third Year in Practice Program (3YP) provides qualifying students with a unique third-year experience engaging in the actual and simulated practice of law. Students admitted to the 3YP program are required to complete 24 credit hours of experiential courses, including an Intensive Field Placement of 5-9 credit hours and the Third Year in Practice Seminar. In addition, students will be able to choose from an array of professional skills, practicum, legal drafting and clinic courses to create a fully immersive third year in practice.

- Tax Law Certificate, Law (JD) (p. 688)

**Joint Degree Requirements**

The College of Law offers the following joint degree programs:

- JD/MBA (with Kellstadt Graduate School of Business)
- JD/MS in Public Service Management (with the College of Liberal Arts & Social Science’s School of Public Service)
- JD/MA in International Studies (with the College of Liberal Arts & Social Science)
- JD/MS in Computer Science Technology (with the College of Computing and Digital Media)

**Requirements**

A joint degree program allows a student to complete two graduate degrees concurrently in less time than it takes to finish each program individually. As a specified number of credit hours apply toward both degrees, students also pay less in overall tuition by combining programs.

Before beginning a joint degree program, both full-time and part-time law students must complete the required first-year curriculum and achieve...
a minimum grade point average of 3.00 in those courses. Full-time students earn 29 credits the first year, while part-time students must earn at least 29 credits within the first three semesters of the law program.

Traditional JD students must complete 86 credit hours to graduate from the College of Law. However, under a joint degree program, a student earns the JD degree after completing a minimum of 76 credit hours. The College of Law applies up to 10 credits toward the JD degree for work completed in the other graduate degree program. Credit hours are eligible to be applied only after completion of the required first year JD curriculum described above. A joint degree student may not receive credit for courses that create a redundancy in coursework.

For additional requirements, please visit the pages for the corresponding degrees.

Admission

Students seeking a joint degree with a college outside of the College of Law must independently apply and be admitted to the other graduate degree program. Full-time law students typically apply to the other graduate program in the summer prior to their second year of law school. Part-time law students typically apply to the other graduate degree program in the spring semester of their second year.

After admission to the other graduate program, joint degree applicants should submit a copy of the acceptance letter and law school transcript to the Associate Dean for Student Affairs at the College of Law. The transcript and acceptance letter should be accompanied by a cover letter from the student requesting that the student’s classification be changed from Juris Doctor candidate to candidate for the appropriate joint degree. The letter should include the student’s full name, student identification number, mailing address, email address and phone number. The joint degree candidate should also schedule a meeting with the appropriate adviser in the other college to which the student has been admitted to discuss the curriculum.

Combined Credits and Expenses

Full-time joint degree students generally complete the program in four years. Part-time applicants generally complete the joint degree program in five years. A student may accelerate the program by taking classes in the summer or by taking more courses during the academic year. By doing so, a student may complete both programs one-half year earlier.

Once enrolled in a joint degree program, students no longer pay the College of Law package tuition; instead, students pay by the credit hour for law classes and classes taken in the other program.

Grading Standards

Joint degree students must meet the grading standards of the College of Law and the respective graduate degree program in order to remain in good standing. Grades are recorded on the transcript under the college in which the courses are taken, and the combined degree is recorded after graduation. Students who are dismissed from either program may be able to continue studies in the other program. Students must satisfy the normal program requirements of the other school to receive the degree; no double counting of credits is permitted after a dismissal from one college.

Leaves of Absence/Withdrawal

Students must receive permission from both colleges to take a leave of absence from the joint degree program or to withdraw from the joint degree program. A leave of absence is granted for a maximum of one year. If a student does not enroll in classes after one year, he or she will be permanently withdrawn from both programs and only may re-enroll by applying to the admission offices of both colleges as a new student.

Graduation

To receive the joint degree, a student must graduate from both schools on the same date, in the same semester/quarter and in the same year. Double counting of credits occurs only after concurrently completion of both programs.

For a December graduation, all requirements must be completed at the end of the fall semester and fall quarter. For a spring graduation, all non-law requirements must be completed at the end of the spring quarter and all law requirements at the end of the spring semester. Students who complete non-law requirements in the spring that they expect to graduate may not have their degrees granted in time to be certified for the July bar exam. A student will not be eligible to graduate, cannot be certified for admission to the Bar, and cannot sit for the bar examination until all degree requirements are met.

Arts and Museum Law Certificate, Law (JD)

To earn a Certificate in Intellectual Property: Arts and Museum Law, a student must complete the 86 semester hours required for the Juris Doctor degree and satisfy all JD requirements. Within the elective course work required for the JD degree, a student must complete at least 15 credit hours from the listed courses and seminars and earn a minimum GPA of 3.20 in the Certificate courses. If a student takes more than one of the non-core elective courses listed below, the student can select which course will count towards the certificate, and the grade in that course will be subject to the minimum 3.20 GPA requirement. Students may apply for only one Certificate.

Previously taught courses, courses offered in other DePaul Colleges, and new courses and seminars that may be added to the curriculum may qualify for the Certificate with approval. In addition, with approval, students may substitute a different writing seminar or a three-credit independent study for the required writing assignment.

Academic credits received from law school journals, including the Journal of Art, Technology and Intellectual Property Law, do not count toward the credits required for the Certificate.

For more information, contact Faculty Certificate Director for Art and Museum Law, Patty Gerstenblith.

### Business Law Certificate, Law (JD)

To earn a Certificate in Business Law, a student must complete the 86 credits required for the Juris Doctor degree and satisfy all JD requirements. Within the coursework required for the JD degree, a student must complete 15 credit hours from the listed business law courses, including one required course. An applicant must earn a minimum GPA of 3.20 in the Certificate courses.

If a student takes more than 15 hours of courses from the approved list, all grades earned in those courses will be factored into the minimum 3.20 GPA requirement for the Certificate.

Students may apply for only one Certificate.

Previously taught courses, courses offered in other DePaul Colleges, and new courses and seminars that may be added to the curriculum may qualify for the Certificate with approval.

For more information, contact Faculty Certificate Director for Business Law, Gregory Mark.

Criminal Law Certificate, Law (JD)

To earn a Certificate in Criminal Law, a student must complete the 86 semester hours required for the Juris Doctor degree and must satisfy all JD requirements. Within the elective course work required for the JD degree, a student must complete 15 credit hours from the listed criminal law courses, including three required courses.

An applicant must earn a minimum GPA of 3.00 in the Certificate courses. If a student takes more than 15 hours of courses from the approved list, all grades earned in those courses will be factored into the minimum 3.00 GPA requirement for the Certificate.

Previously taught courses, courses offered in other DePaul Colleges, and new courses and seminars that may be added to the curriculum may qualify for the Certificate with approval.

Students may apply for only one Certificate.

For more information, contact Faculty Certificate Director for Criminal Law, Monu Bedi.

Law (MJ)

DePaul’s Master of Jurisprudence (MJ) program is specifically designed for professionals who do not seek to practice law but who encounter legal issues in their work and would benefit from a sophisticated and nuanced understanding of legal reasoning and doctrine. With such specialized legal knowledge, MJ graduates stand out as professionals who can effectively and comfortably communicate with legal counsel and can assess the needs of their organizations as the laws and regulations change in their professions.

A great variety of professionals would benefit from the MJ credential to enhance their current positions or to advance within their organizations. Examples include:

- Doctors, nurses, public health workers and other health care administrators
- Patent and trademark assistants, engineers and other technology-related professionals
- Compliance professionals
- Contract analysts
- Business executives, supervisors, managers and entrepreneurs
- Risk and quality assurance managers
- Financial and estate planners and other investment advisors
- Tax specialists, accountants and CPAs
- Policy makers, lobbyists and government regulators
- Nonprofit professionals
- Development officers
- Journalists
- Librarians and educators
- Real estate professionals
- Human resource and employee benefits professionals
- Mediators and labor and employment negotiators
- Police officers, social workers and psychologists

Through the program, MJ students gain general and specialized legal knowledge related to their areas of interest. Students learn the process of legal analysis by examining cases, laws and regulations. They develop the abilities to conduct effective and relevant legal research as well as to communicate clearly and analytically. Students also acquire the ability to think critically about legal issues and correctly apply current legal authority.

Program Requirements
Degree Requirements  30
Total hours required  30

Learning Outcomes

Students will be able to:

- Identify structures of the U.S. legal system and government institutions.
- Demonstrate understanding of how a common law system operates in a constitutional democracy.
- Demonstrate basic knowledge of the legal rules and policies in the student’s area of specialization.
- Identify and apply relevant legal authority.
- Communicate clearly in speech and writing.

Degree Requirements

Credit Requirements

The MJ is a 30-credit hour degree program that can be completed in one and a half years of full-time study or in up to six years of part-time study. MJ students choose courses directly from the College of Law’s extensive curriculum. MJ students with significant, relevant work experience may apply for a waiver of up to six credit hours, for a total degree requirement of 24 credit hours. Students must be able to demonstrate substantial professional experience of at least 12 months’ duration in a relevant field of interest to qualify.

Credits earned as part of the MJ degree program are not transferable to the JD degree. Students who graduate with an MJ degree are not eligible to sit for the bar exam or to become licensed attorneys.

Enrollment Classifications and Time to Degree Completion

For MJ students a nine semester hour course load is considered full-time (6 semester hours for summer study). A six semester hour course load is considered half-time (3 hours for summer study). MJ students may opt to take only three semester hours per term.

Students who are unable to complete the MJ degree within six years are required to confer with the Associate Dean for Student Affairs in the College of Law.

Grades and Good Standing

To be considered in good standing at the College of Law, MJ students must have a cumulative GPA of 2.00 over three semesters. Grades received in the Summer session are not included in a student’s GPA for the prior academic year. MJ students are not included in the grade curve that applies to JD students.

Course Requirements

At the time of application MJ students select a specialized course of legal study, and upon completion of the program they earn a concentration in the selected area, which is designated on their final transcript. All MJ students complete two required foundational courses in American law.
**Required Foundational Courses**

<table>
<thead>
<tr>
<th>Course</th>

1 Denotes courses open only to Criminal Law MJ students enrolled in the FOP program at the Chicago Police Academy.

**Open Electives**

Students complete the remaining credit hours for the MJ degree by taking additional Criminal Law elective courses, by choosing courses from the current College of Law course catalog, or by enrolling in a combination of both.

**Law - Joint Degree (JD + LLM)**

DePaul’s JD+LLM (Juris Doctor + Master of Laws) program gives students the opportunity to develop specialized knowledge in specific areas of law. Students can simultaneously earn a JD and an LLM, an internationally recognized postgraduate law degree, in one of four areas of concentration: Health Law, Intellectual Property Law, International Law or Taxation. The JD+LLM program is designed to provide advanced training through a personalized educational experience. Students are permitted to apply nine credit hours of qualifying courses toward both degrees, allowing them to complete both degrees in three years with summer enrollment. Students can apply to the JD+LLM program prior to starting the JD program or at any time during their JD program.

**Learning Outcomes**

**Juris Doctor (JD)**

Students will be able to:

- Solve legal problems by applying foundational knowledge of civil procedure, constitutional law, contracts, criminal law, property law, and torts.
- Solve legal problems by applying foundational knowledge of the rules regulating the legal profession.
- Identify and apply relevant legal authority.
- Communicate clearly in speech and writing.
- Demonstrate the fundamental professional lawyering skills for competent and ethical participation as a member of the legal profession.

**Master of Laws (LLM)**

**Domestic Students**

Students will be able to:

- Demonstrate advanced knowledge of the legal rules and policies in the student’s area of specialization.
- Conduct advanced legal research and analysis in the student’s area of specialization.

**International Students**

Students will be able to:

- Identify structures of the U.S. legal system and government institutions.
- Demonstrating understanding of how a common law system operates in a constitutional democracy.
- Demonstrate advanced knowledge of the legal rules and policies in the student’s area of specialization.
- Identify and apply relevant legal authority.
- Communication clearly in speech and writing.

**Degree Requirements**

**Admission Requirements**

Students may apply for admission to the Joint JD+LLM Program at the time of application to the JD Program (Direct Admission) or at any time prior to the last semester of the completion of the JD Program. Students applying for Direct Admission to the Joint JD+LLM Program must check the appropriate box on the JD application and submit the required essay.

Applicants admitted directly to the JD+LLM Program must achieve a minimum GPA of 2.80 at the end of their first academic year to continue their enrollment as a JD+LLM student. Students who do not meet the minimum GPA will continue their enrollment as a JD student provided they meet the requirements of that program. These students may reapply.
for admission to the JD+LLM Program after raising their cumulative GPA to 2.80 or higher.

College of Law students enrolled in the JD Program may apply for admission for the JD+LLM Program at any time prior to completion of the JD Program. Applicants must have a minimum cumulative GPA of 2.80 and submit the joint JD+LLM application form and required essay indicating their reason(s) for applying to the program. The application, essay, and resume should be submitted to the Office of Admissions. Upon admission, the student will receive a letter of admission to the JD+LLM Program and the student’s program/plan will be changed to JD+LLM.

JD students admitted to the Joint JD+LLM Program in their final year may not be able to complete all program requirements within three years. Students electing to delay their anticipated JD program degree conferral for an additional semester to complete the requirements of the LLM will not receive certification to sit for the bar examination until the end of the semester in which they receive the Joint JD+LLM degree.

Credit and Program Requirements

JD+LLM students must complete all program requirements of the JD Program and the specific LLM Program to which they have been admitted. Traditional JD students must complete 86 semester hours. Traditional LLM students must complete 24 semester hours after earning a JD degree. Students admitted to the joint program will be permitted to simultaneously apply 9 semester hours of qualifying courses toward both degrees. Therefore, in addition to the 86 hours required to earn the JD, Joint JD+LLM students must earn 15 semester hours to complete the LLM. With Summer enrollment, the JD+LLM may be completed in three years. JD students electing to enter the combined program in their final year who are not able to satisfy the credit requirements or complete the required courses for their LLM will enroll in an additional semester at the College of Law in order to complete the LLM requirements.

Students completing the course requirements for the JD+LLM must have a minimum grade point average (GPA) of 2.5 in order to earn the JD+LLM. Students who complete all required coursework with a GPA below 2.5, but at or above the minimum 2.00 GPA required to earn the JD, will be awarded the JD and a certificate in the area of their LLM coursework.

To receive the joint degree, students must complete the requirements of both degrees in the same semester and in the same academic year. Credits that can be applied to both degrees will be applied only after the student concurrently completes both programs. A student who graduates from the JD Program without having been admitted to the Joint JD+LLM Program prior to graduation must apply for traditional admission to the LLM Program and complete the 24 semester hours required for graduation.

Law/Business - Joint Degree (JD/MBA)

Offered jointly with DePaul’s Kellstadt Graduate School of Business, the JD/MBA recognizes the growing complexity of business organizations and the increasing interaction of management and the law. The program integrates several functional areas of law and business and emphasizes the contributions each makes to the development of administrative competence.

With more than 70 years of experience in educating working professionals, the DePaul MBA program is accredited by AACSB International—the premier accreditation body for business schools—and is respected throughout Chicago, the United States and the world. Because the business world demands more cross-functional knowledge than ever, the program offers students a well-rounded curriculum of business administration with 16 concentrations in the area of their choice. The program also allows students to pursue multiple concentrations, providing them with an individualized and customized MBA experience.

Traditional MBA students must complete 60 credit hours to receive the degree. However, under the joint degree program, they are required to complete a minimum of 48-56 credit hours. The Kellstadt Graduate School of Business will accept up to 12 credit hours for work completed in the College of Law. Traditional JD students must complete 86 credit hours to graduate from the College of Law. However, under the joint degree program, a student earns the JD degree after completing a minimum of 76 credit hours. The College of Law applies up to 10 credits toward the JD degree for work completed in the Kellstadt Graduate School of Business.

In addition to the core requirements, specific courses are required for the various MBA concentrations. Please refer to the Kellstadt Graduate School of Business catalog for complete program requirements.

Learning Outcomes

Students will be able to:

- Solve legal problems by applying foundational knowledge of civil procedure, constitutional law, contracts, criminal law, property law, and torts.
- Solve legal problems by applying foundational knowledge of the rules regulating the legal profession.
- Identify and apply relevant legal authority.
- Communicate clearly in speech and writing.
- Demonstrate the fundamental professional lawyering skills for competent and ethical participation as a member of the legal profession.

Degree Requirements

Requirements

A joint degree program allows a student to complete two graduate degrees concurrently in less time than it takes to finish each program individually. As a specified number of credit hours apply toward both degrees, students also pay less in overall tuition by combining programs.

Before beginning a joint degree program, both full-time and part-time law students must complete the required first-year curriculum and achieve a minimum grade point average of 3.00 in those courses. Full-time students earn 28 credits the first year, while part-time students must earn at least 28 credits within the first three semesters of the law program.

Traditional MBA students must complete 60 credit hours to receive the degree. However, under the joint degree program, they are required to complete a minimum of 48-56 credit hours. The Kellstadt Graduate
School of Business will accept up to 12 credit hours for work completed in the College of Law. Traditional JD students must complete 86 credit hours to graduate from the College of Law. However, under the joint degree program, a student earns the JD degree after completing a minimum of 76 credit hours. The College of Law applies up to 10 credits toward the JD degree for work completed in the Kellstadt Graduate School of Business. Credit hours are eligible to be applied only after completion of the required first year JD curriculum described above. A joint degree student may not receive credit for courses that create a redundancy in coursework.

Admission

Students seeking a joint degree with a college outside of the College of Law must independently apply and be admitted to the other graduate degree program. Full-time law students typically apply to the other graduate program in the summer prior to their second year of law school. Part-time law students typically apply to the other graduate degree program in the spring semester of their second year.

After admission to the other graduate program, joint degree applicants should submit a copy of the acceptance letter and law school transcript to the Assistant Dean for Student Affairs at the College of Law. The transcript and acceptance letter should be accompanied by a cover letter from the student requesting that the student’s program be changed from Juris Doctor to the appropriate joint degree. The letter should include the student’s full name, student identification number, mailing address, email address and phone number. The joint degree candidate should also schedule a meeting with the appropriate adviser in the other college to which the student has been admitted to discuss the curriculum.

Combined Credits and Expenses

Full-time joint degree students generally complete the program in four years. Part-time applicants generally complete the joint degree program in five years. A student may accelerate the program by taking classes in the summer or by taking more courses during the academic year. By doing so, a student may complete both programs one-half year earlier.

Once enrolled in a joint degree program, students no longer pay the College of Law package tuition; instead, students pay by the credit hour for law classes and classes taken in the other program.

Grading Standards

Joint degree students must meet the grading standards of the College of Law and the respective graduate degree program in order to remain in good standing. Grades are recorded on the transcript under the college in which the courses are taken, and the combined degree is recorded after graduation. Students who are dismissed from either program may be able to continue studies in the other program. Students must satisfy the normal program requirements of the other school to receive the degree; no double counting of credits is permitted after a dismissal from one college.

Leaves of Absence/Withdrawal

Students must receive permission from both colleges to take a leave of absence from the joint degree program or to withdraw from the joint degree program. A leave of absence is granted for a maximum of one year. If a student does not enroll in classes after one year, he or she will be permanently withdrawn from both programs and only may re-enroll by applying to the admission offices of both colleges as a new student.

Graduation

To receive the joint degree, a student must graduate from both schools on the same date, in the same semester/quarter and in the same year. Double counting of credits occurs only after concurrent completion of both programs.

For a December graduation, all requirements must be completed at the end of the fall semester and fall quarter. For a spring graduation, all non-law requirements must be completed no later than the end of the spring quarter and all law requirements no later than the end of the spring semester. Students who complete non-law requirements in the spring that they expect to graduate may not have their degrees granted in time to be certified for the July bar exam. A student will not be eligible to graduate, cannot be certified for admission to the Bar, and cannot sit for a bar examination until all requirements are met for both degree programs.

Law/Computer Science - Joint Degree (JD/MS)

The primary goal of the joint degree JD+MS program at DePaul University College of Law and DePaul University College of Computing and Digital Media (CDM) is to prepare students for successful legal and related careers in industry, government, and other institutions that develop innovations, engage in electronic commerce, employ information technologies, and manage and protect information and data. A critical need exists for attorneys in a wide range of fields involving software development, high-technology innovations, information processing, internet and telecommunications services, digital-content, and more. Lawyers are needed to provide advice, counseling, and litigation services regarding the acquisition of and licensing of intellectual property rights; the assertion and defense of such rights; regulations governing the use, protection and preservation of information; and contractual and business practices in the high-tech sector. Graduates who have a substantive understanding of legal and technological issues regarding e-commerce, information technologies, e-discovery, computational finance, network security, digital media, or related computer science fields will have a substantial advantage in obtaining and flourishing in such positions. Graduates with the joint degree will be better prepared to be drafters, negotiators, and litigators when seeking to obtain and protect inventions, trademarks, analog and digital creations, internet websites, and domain names; advisors concerning licensing, reverse engineering, or reusing computer software, expressive, or functional media; and managers when developing policies governing the acquisition, preservation and dissemination of information for their clients and within their own institutions.

The joint JD+MS program allows students to obtain dual degrees in both law and computer science fields with only one additional year of study beyond the regular JD program and with a minimum of additional expense. The program is designed for all students who wish to deepen their technical expertise while also obtaining a law degree.

Some of the students completing the joint JD+MS degree will seek to become members of the patent bar. There are also many opportunities (including as patent litigators and licensors) for graduates who either lack the scientific or technical background required to qualify for the patent bar exam or lack the desire to practice patent law. (Membership in the patent bar is required only to file and prosecute patent applications in the United States Patent and Trademark Office; it is not a general requirement for patent law practice.) The MS in Computer Science does not itself provide a degree that currently qualifies students to take the
eligibility requirements. (Applicants are advised to consult the U.S. Patent and Trademark Office’s General Requirements Bulletin (https://www.uspto.gov/sites/default/files/OED_GRB.pdf).)

### Learning Outcomes

Students will be able to:

- Solve legal problems by applying foundational knowledge of civil procedure, constitutional law, contracts, criminal law, property law, and torts.
- Solve legal problems by applying foundational knowledge of the rules regulating the legal profession.
- Identify and apply relevant legal authority.
- Communicate clearly in speech and writing.
- Demonstrate the fundamental professional lawyering skills for competent and ethical participation as a member of the legal profession.

### Degree Requirements

The following rules apply to this joint degree:

- Students may substitute up to 16 CDM credit hours for up to 10 of the 86 required law semester hours, reducing their law course requirements to 76 semester hours. However, students cannot substitute CDM credit hours for required courses in the College of Law, such as Legal Profession or Advanced Writing Requirement courses.
- Only CDM courses taken after enrollment in the College of Law may be substituted for law courses.
- Students may substitute up to 8 law semester hours for up to 3 CDM master’s degree courses, reducing their CDM course requirements to 10 courses plus any necessary introductory courses.
- Students must graduate from both schools on the same date, in the same semester/quarter, and in the same year. Double counting of credit hours occurs only after the student concurrently completes both degree programs. Students should consult with the joint degree advisors regarding any questions about coordinating the completion of the two degrees.
- Students must adhere to CDM introductory course grade requirements as specified for their CDM major.
- Students also adhere to CDM grade and GPA requirements as specified for their CDM major in all CDM courses beyond the introductory courses.
- CDM requires that students must maintain a GPA of 2.50 or higher while pursuing their joint degrees.

### Graduation Requirements

The joint degree candidate must complete all CDM requirements at the end of the fall quarter and all law requirements at the end of the fall semester to be eligible for a December degree award. Students who plan to graduate in spring must complete their CDM coursework by the end of the spring quarter and their law requirements by the end of the spring semester to be eligible for a spring degree award. Students who complete CDM requirements in the spring that they expect to graduate may not have their degrees granted in time to be certified for the July bar exam. Students cannot be certified for admission to the Bar and sit for the bar exam until all degree requirements are completed for both degrees.

### Course Requirements

Full-time students must complete the regular first year JD program with a minimum GPA of 3.0 before being admitted to the Joint Degree. Part-time students must complete at least three law semesters with a minimum GPA of 3.0 before being admitted to the Joint Degree. The second and third years provide some flexibility to tailor a student’s program. For example, students might take three law courses in the Fall Semester and two law courses in the Spring Semester, while taking one CDM course in the Fall Quarter, two CDM courses in the Winter Quarter, and two CDM courses in the Spring Quarter. The fourth year might consist of three law courses in the Fall Semester, one CDM course in the Fall Quarter, three CDM courses in the Winter Quarter, and three CDM courses in the Spring Quarter.

This schedule allows for completion of the JD as well as completion of 14 CDM courses (the MS program plus four prerequisite courses) in four years. It is possible that, because of prerequisite coursework, the program may take some students more than four years. Since each student will require a different number of CDM introductory courses and each student will select courses based on semester/quarter availability, any particular curriculum might be different from the above-described curriculum.

Students are encouraged to select courses with the assistance of the program advisors at both the College of Law and CDM.

### CDM Requirements for an MS Degree

For the CDM portion of the joint degree, students may major in:

- Computer Science
- Cybersecurity
- E-Commerce Technology
- Information Systems
- Network Engineering and Security

Each program listed above follows the requirements as listed on the page for that major. These requirements are divided into phases. Upon completion of the major requirements, each student will move to the Elective Phase as described below.

Students with a GPA of 3.9 or higher will graduate from CDM with distinction.

### College of Law Certificate Programs

In addition to the Joint Degree, students may obtain one of the Certificates offered by the College of Law, providing that they have met the requirements for the Certificate.

For DePaul’s policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook.

### Elective Phase

Students must complete 12 additional graduate quarter hours fulfilled by courses from the IP Certificate. These courses will also be counted toward the JD degree.
Law/International Studies - Joint Degree (JD/MA)

The JD/MA in International Studies with the College of Liberal Arts & Social Sciences (LAS) provides you with knowledge of the political, economic and cultural environment in which international law is developing. Structured around international political economy and global culture, the program is particularly appropriate for law students with strong foreign language or social science backgrounds who wish to pursue careers as international legal specialists.

To be accepted to the joint degree program, students must complete at least 29 credits in the College of Law with a minimum grade point average of 3.00. They apply to the LAS graduate program after their first semester in law school.

Traditional JD students must complete 86 credit hours to graduate from the College of Law. However, under a joint degree program, a student earns the JD degree after completing a minimum of 76 credit hours. The College of Law applies up to 10 credits toward the JD degree for work completed in the other graduate degree program. Traditional international studies students must complete 48 credit hours to receive the MA degree. However, under the joint degree program, you are required to complete a minimum of 36 credit hours. The Graduate College of Liberal Arts & Social Sciences will accept up to 12 hours of credit for work completed in the College of Law. A joint degree student may not receive credit for courses that create a redundancy in coursework.

Learning Outcomes

**JD Learning Outcomes**

Students will be able to:

- Solve legal problems by applying foundational knowledge of civil procedure, constitutional law, contracts, criminal law, property law, and torts.
- Solve legal problems by applying foundational knowledge of the rules regulating the legal profession.
- Identify and apply relevant legal authority.
- Communicate clearly in speech and writing.
- Demonstrate the fundamental professional lawyering skills for competent and ethical participation as a member of the legal profession.

**MA Learning Outcomes:**

Students will be able to:

- Carefully read texts, research independently, and write clearly.
- Examine the linkages between theory and practice, scholarship and activism, research and public policy in the field of International Studies.

A joint degree program allows a student to complete two graduate degrees concurrently in less time than it takes to finish each program individually. As a specified number of credit hours apply toward both degrees, students also pay less in overall tuition by combining programs.

Before beginning a joint degree program, both full-time and part-time law students must complete the required first-year curriculum and achieve a minimum grade point average of 3.00 in those courses. Full-time students earn 29 credits the first year, while part-time students must earn at least 29 credits within the first three semesters of the law program.

Traditional JD students must complete 86 credit hours to graduate from the College of Law. However, under a joint degree program, a student earns the JD degree after completing a minimum of 76 credit hours. The College of Law applies up to 10 credits toward the JD degree for work completed in the other graduate degree program. Traditional international studies students must complete 48 credit hours to receive the MA degree. However, under the joint degree program, you are required to complete a minimum of 36 credit hours. The Graduate College of Liberal Arts & Social Sciences will accept up to 12 hours of credit for work completed in the College of Law. For completion of the JD/MA degree students must meet all criteria for completion of the JD and the MA while taking a minimum of five international law electives in the College of Law. In addition, students must complete a year-long six course core sequence in International Studies. Finally, students complete a three quarter, 12-credit sequence in International Studies leading to completion of an MA thesis.

**Admission**

Students seeking a joint degree with a college outside of the College of Law must independently apply and be admitted to the other graduate degree program. Full-time law students typically apply to the other graduate program in the summer prior to their second year of law school. Part-time law students typically apply to the other graduate degree program in the spring semester of their second year.

After admission to the other graduate program, joint degree applicants should submit a copy of the acceptance letter and law school transcript to the Assistant Dean for Student Affairs at the College of Law. The transcript and acceptance letter should be accompanied by a cover letter from the student requesting that the student’s program be changed from Juris Doctor to the appropriate joint degree program. The letter should include the student’s full name, student identification number, mailing address, email address and phone number. The joint degree candidate should also schedule a meeting with the appropriate adviser in the other college to which the student has been admitted to discuss the curriculum.

**Combined Credits and Expenses**

Full-time joint degree students generally complete the program in four years. Part-time applicants generally complete the joint degree program in five years. A student may accelerate the program by taking classes in the summer or by taking more courses during the academic year. By doing so, a student may complete both programs one-half year earlier.
Once enrolled in a joint degree program, students no longer pay the College of Law package tuition; instead, students pay by the credit hour for law classes and classes taken in the other program.

**Grading Standards**

Joint degree students must meet the grading standards of the College of Law and the respective graduate degree program in order to remain in good standing. Grades are recorded on the transcript under the college in which the courses are taken, and the combined degree is recorded after graduation. Students who are dismissed from either program may be able to continue studies in the other program. Students must satisfy the normal program requirements of the other school to receive the degree; no double counting of credits is permitted after a dismissal from one college.

**Leaves of Absence/Withdrawal**

Students must receive permission from both colleges to take a leave of absence from the joint degree program or to withdraw from the joint degree program. A leave of absence is granted for a maximum of one year. If a student does not enroll in classes after one year, he or she will be permanently withdrawn from both programs and only may re-enroll by applying to the admission offices of both colleges as a new student.

**Graduation**

To receive the joint degree, a student must graduate from both schools on the same date, in the same semester/quarter and in the same year. Double counting of credits occurs only after concurrent completion of both programs.

For a December graduation, all requirements must be completed at the end of the fall semester and fall quarter. For a spring graduation, all non-law requirements must be completed at the end of the spring quarter and all law requirements at the end of the spring semester. Students who complete non-law requirements in the spring that they expect to graduate may not have their degrees granted in time to be certified for the July bar exam. A student will not be eligible to graduate, cannot be certified for admission to the Bar, and cannot sit for bar examinations until all degree requirements are met and degrees conferred.

**Law/Public Administration - Joint Degree (JD/MPA)**

Offered jointly with the College of Liberal Arts & Social Sciences’ School of Public Service, the JD+Masters in Public Administration (MPA) promotes effective management of government agencies and fosters development of sound public policies affecting the delivery of social services. The MPA program balances theoretical and applied approaches to contemporary challenges of administration and policy analysis, and offers courses such as ethical leadership and government financial administration. Following the tradition of St. Vincent de Paul, the Public Administration program devotes special attention to policies and practices that promote social equity through delivery of affordable, quality services to those in greatest need.

Traditional JD students must complete 86 credit hours to graduate from the College of Law. However, under a joint degree program, a student earns the JD degree after completing a minimum of 76 credit hours. The College of Law applies up to 10 credit hours toward the JD degree for work completed in the other graduate degree program. Traditional Public Administration students must complete 52 credit hours to receive the MPA degree. However, under the joint degree program, students are required to complete a minimum of 36 credit hours. The Public Administration program will accept up to 16 credit hours for work completed in the College of Law. A joint degree student may not receive credit for courses that create a redundancy in coursework.

Students pursing the JD+MPA will complete the core requirements of the MPA degree and not pursue a concentration. Please visit the Public Administration catalog for complete program information.

**Learning Outcomes**

Students will be able to:

- Apply leadership and organizational management skills and concepts in an ethical manner amidst an ever-changing public sector.
- Analyze and interact with governance structures, jurisdictional boundaries and the public policy and implementation processes.
- Analyze and synthesize data regarding an existing public affairs issue and use empirical analysis to prepare solutions for informed, decision-making in the public sector using critical thinking.
- Articulate in written or oral forms a commitment to ethical service to all people with a focus on social justice, professionalism, cultural sensitivity, and transparency.
- Integrate the social justice lens in delivery of services and programs to a diverse public and workforce.

**Degree Requirements**

A joint degree program allows a student to complete two graduate degrees concurrently in less time than it takes to finish each program individually. As a specified number of credit hours apply toward both degrees, students also pay less in overall tuition by combining programs.

Before beginning a joint degree program, both full-time and part-time law students must complete the required first-year curriculum and achieve a minimum grade point average of 3.00 in those courses. Full-time students earn 29 credits the first year, while part-time students must earn at least 29 credits within the first three semesters of the law program.

Traditional JD students must complete 86 credit hours to graduate from the College of Law. However, under a joint degree program, a student earns the JD degree after completing a minimum of 76 credit hours. The College of Law applies up to 10 credits toward the JD degree for work completed in the other graduate degree program. Traditional public administration students must complete 52 hours to receive the MPA degree. However, under the joint degree program, students are required to complete a minimum of 36 credit hours. The Public Administration program will accept up to 16 hours of credit for work completed in the College of Law. Credit hours are eligible to be applied only after completion of the required first year JD curriculum described above. A joint degree student may not receive credit for courses that create a redundancy in coursework.
Admission

Students seeking a joint degree with a college outside of the College of Law must independently apply and be admitted to the other graduate degree program. Full-time law students typically apply to the other graduate program in the summer prior to their second year of law school. Part-time law students typically apply to the other graduate degree program in the spring semester of their second year.

After admission to the other graduate program, joint degree applicants should submit a copy of the acceptance letter and law school transcript to the Assistant Dean for Student Affairs at the College of Law. The transcript and acceptance letter should be accompanied by a cover letter from the student requesting that the student’s program be changed from Juris Doctor to the appropriate joint degree program. The letter should include the student’s full name, student identification number, mailing address, email address and phone number. The joint degree candidate should also schedule a meeting with the appropriate adviser in the other college to which the student has been admitted to discuss the curriculum.

Combined Credits and Expenses

Full-time joint degree students generally complete the program in four years. Part-time applicants generally complete the joint degree program in five years. A student may accelerate the program by taking classes in the summer or by taking more courses during the academic year. By doing so, a student may complete both programs one-half year earlier.

Once enrolled in a joint degree program, students no longer pay the College of Law package tuition; instead, students pay by the credit hour for law classes and classes taken in the other program.

Grading Standards

Joint degree students must meet the grading standards of the College of Law and the respective graduate degree program in order to remain in good standing. Grades are recorded on the transcript under the college in which the courses are taken, and the combined degree is recorded after graduation. Students who are dismissed from either program may be able to continue studies in the other program. Students must satisfy the normal program requirements of the other school to receive the degree; no double counting of credits is permitted after a dismissal from one college.

Leaves of Absence/Withdrawal

Students must receive permission from both colleges to take a leave of absence from the joint degree program or to withdraw from the joint degree program. A leave of absence is granted for a maximum of one year. If a student does not enroll in classes after one year, he or she will be permanently withdrawn from both programs and only may re-enroll by applying to the admission offices of both colleges as a new student.

Graduation

To receive the joint degree, a student must graduate from both schools on the same date, in the same semester/quarter and in the same year. Double counting of credits occurs only after concurrent completion of both programs.

For a December graduation, all requirements must be completed at the end of the fall semester and fall quarter. For a spring graduation, all non-law requirements must be completed at the end of the spring quarter and all law requirements at the end of the spring semester. Students who complete non-law requirements in the spring that they expect to graduate may not have their degrees granted in time to be certified for the July bar exam. A student will not be eligible to graduate, cannot be certified for admission to the Bar, and cannot sit for bar examinations until all degree requirements are met and degrees conferred.

Law/Public Policy - Joint Degree (JD/MPP)

Offered jointly with the School of Public Service in the College of Liberal Arts & Social Sciences, the JD+Masters in Public Policy (MPP) program gives students the skills, experience and analytical tools to help shape government policies that influence our local, regional and national agendas. The MPP program balances theoretical and applied approaches to contemporary challenges of public policy development and policy analysis, and offers courses such as ethical leadership and policy implementation. Following the tradition of St. Vincent de Paul, the Masters in Public Policy program devotes special attention to policies and practices that promote social equity through delivery of affordable, quality services to those in greatest need.

Traditional JD students must complete 86 credit hours to graduate from the College of Law. However, under a joint degree program, a student earns the JD degree after completing a minimum of 76 credit hours. The College of Law applies up to 10 credit hours toward the JD degree for work completed in the other graduate degree program. Traditional Masters in Public Policy students must complete 52 credit hours to receive the MPP degree. However, under the joint degree program, students are required to complete a minimum of 36 credit hours. The Masters in Public Policy program will accept up to 16 credit hours for work completed in the College of Law. A joint degree student may not receive credit for courses that create a redundancy in coursework.

Students pursuing the JD+MPP will complete the MPP degree's core requirements. Please visit the Masters in Public Policy catalog page for complete program information.

Learning Outcomes

Students will be able to:

- Evaluate different approaches to public policy studies in terms of theoretical and practical applications
- Evaluate the institutional and structural elements of public policy making and implementation.
- Apply critical thinking concepts of public policy analysis which includes understanding of research design and methods, interpretation and communication of results, and research ethics.
- Apply knowledge of a special topic related to public policy to demonstrate mastery of the subject matter.

Degree Requirements

A joint degree program allows a student to complete two graduate degrees concurrently in less time than it takes to finish each program...
individually. As a specified number of credit hours apply toward both
degrees, students also pay less in overall tuition by combining programs.

Before beginning a joint degree program, both full-time and part-time law
students must complete the required first-year curriculum and achieve
a minimum grade point average of 3.00 in those courses. Full-time
students earn 29 credits the first year, while part-time students must earn
at least 29 credits within the first three semesters of the law program.

Traditional JD students must complete 86 credit hours to graduate from
the College of Law. However, under a joint degree program, a student
earns the JD degree after completing a minimum of 76 credit hours. The
College of Law applies up to 10 credits toward the JD degree for work
completed in the other graduate degree program. Traditional public policy
students must complete 52 hours to receive the MPP degree. However,
under the joint degree program, students are required to complete a
minimum of 36 credit hours. The Public Policy program will accept up to
16 hours of credit for work completed in the College of Law. Credit hours
are eligible to be applied only after completion of the required first year
JD curriculum described above. A joint degree student may not receive
credit for courses that create a redundancy in coursework.

**Admission**

Students seeking a joint degree with a college outside of the College of
Law must independently apply and be admitted to the other graduate
degree program. Full-time law students typically apply to the other
graduate program in the summer prior to their second year of law school.
Part-time law students typically apply to the other graduate degree
program in the spring semester of their second year.

After admission to the other graduate program, joint degree applicants
should submit a copy of the acceptance letter and law school transcript
to the Assistant Dean for Student Affairs at the College of Law. The
transcript and acceptance letter should be accompanied by a cover letter
from the student requesting that the student’s program be changed
from Juris Doctor to the appropriate joint degree program. The letter
should include the student’s full name, student identification number,
mailing address, email address and phone number. The joint degree
candidate should also schedule a meeting with the appropriate adviser in
the other college to which the student has been admitted to discuss the
curriculum.

**Combined Credits and Expenses**

Full-time joint degree students generally complete the program in four
years. Part-time applicants generally complete the joint degree program
in five years. A student may accelerate the program by taking classes
in the summer or by taking more courses during the academic year. By
doing so, a student may complete both programs one-half year earlier.

Once enrolled in a joint degree program, students no longer pay the
College of Law package tuition; instead, students pay by the credit hour
for law classes and classes taken in the other program.

**Grading Standards**

Joint degree students must meet the grading standards of the College
of Law and the respective graduate degree program in order to remain in
good standing. Grades are recorded on the transcript under the college in
which the courses are taken, and the combined degree is recorded after
graduation. Students who are dismissed from either program may be
able to continue studies in the other program. Students must satisfy the
normal program requirements of the other school to receive the degree;
no double counting of credits is permitted after a dismissal from one
college.

**Leaves of Absence/Withdrawal**

Students must receive permission from both colleges to take a leave
of absence from the joint degree program or to withdraw from the joint
degree program. A leave of absence is granted for a maximum of one
year. If a student does not enroll in classes after one year, he or she will
be permanently withdrawn from both programs and only may re-enroll by
applying to the admission offices of both colleges as a new student.

**Graduation**

To receive the joint degree, a student must graduate from both schools
on the same date, in the same semester/quarter and in the same year.
Double counting of credits occurs only after concurrent completion of
both programs.

For a December graduation, all requirements must be completed at the
end of the fall semester and fall quarter. For a spring graduation, all non-
law requirements must be completed at the end of the spring quarter
and all law requirements at the end of the spring semester. Students who
complete non-law requirements in the spring that they expect to graduate
may not have their degrees granted in time to be certified for the July bar
exam. A student will not be eligible to graduate, cannot be certified for
admission to the Bar, and cannot sit for bar examinations until all degree
requirements are met and degrees conferred.

**Law/Public Service - Joint Degree
(JD/MS)**

Offered jointly with the College of Liberal Arts & Social Sciences School
of Public Service, the JD+MS in Public Service Management promotes
effective management of nonprofit organizations and government
agencies and fosters development of sound public policies affecting the
delivery of social services. The program is interdisciplinary and draws
primarily on the areas of sociology, economics, political science, law
and the human service professions, carefully balancing theoretical and
applied approaches to contemporary challenges of administration and
policy analysis. Following the tradition of St. Vincent de Paul, the Public
Services Management program devotes special attention to policies and
practices that promote social equality through delivery of affordable,
quality services to those in greatest need.

Traditional JD students must complete 86 credit hours to graduate from
the College of Law. However, under a joint degree program, a student
earns the JD degree after completing a minimum of 76 credit hours.
The College of Law applies up to 10 credits toward the JD degree for
work completed in the other graduate degree program. Traditional public
service management students must complete 52 hours to receive the MS
degree. However, under the joint degree program, students are required to
complete a minimum of 36 credit hours. The Public Service Management
program will accept up to 16 hours of credit for work completed in the
College of Law. A joint degree student may not receive credit for courses
that create a redundancy in coursework.

In addition to the core requirements, specific courses are required for
the various public service management concentrations. Please visit the
Public Service Management catalog for complete program requirements.
Program Requirements | Semester Hours

Total hours required | 76

Program Requirements | Quarter Hours
--- | ---
MS Requirements | 36
Total hours required | 36

**Learning Outcomes**

Students will be able to:

- Solve legal problems by applying foundational knowledge of civil procedure, constitutional law, contracts, criminal law, property law, and torts.
- Solve legal problems by applying foundational knowledge of the rules regulating the legal profession.
- Identify and apply relevant legal authority.
- Communicate clearly in speech and writing.
- Demonstrate the fundamental professional lawyering skills for competent and ethical participation as a member of the legal profession.

**Degree Requirements**

A joint degree program allows a student to complete two graduate degrees concurrently in less time than it takes to finish each program individually. As a specified number of credit hours apply toward both degrees, students also pay less in overall tuition by combining programs.

Before beginning a joint degree program, both full-time and part-time law students must complete the required first-year curriculum and achieve a minimum grade point average of 3.00 in those courses. Full-time students earn 29 credits the first year, while part-time students must earn at least 29 credits within the first three semesters of the law program.

Traditional JD students must complete 86 credit hours to graduate from the College of Law. However, under a joint degree program, a student earns the JD degree after completing a minimum of 76 credit hours. The College of Law applies up to 10 credits toward the JD degree for work completed in the other graduate degree program. Traditional public service management students must complete 52 hours to receive the MS degree. However, under the joint degree program, students are required to complete a minimum of 36 credit hours. The Public Service Management program will accept up to 16 hours of credit for work completed in the College of Law. Credit hours are eligible to be applied only after completion of the required first year JD curriculum described above. A joint degree student may not receive credit for courses that create a redundancy in coursework.

**Admission**

Students seeking a joint degree with a college outside of the College of Law must independently apply and be admitted to the other graduate degree program. Full-time law students typically apply to the other graduate program in the summer prior to their second year of law school. Part-time law students typically apply to the other graduate degree program in the spring semester of their second year.

After admission to the other graduate program, joint degree applicants should submit a copy of the acceptance letter and law school transcript to the Assistant Dean for Student Affairs at the College of Law. The transcript and acceptance letter should be accompanied by a cover letter from the student requesting that the student's program be changed from Juris Doctor to the appropriate joint degree program. The letter should include the student's full name, student identification number, mailing address, email address and phone number. The joint degree candidate should also schedule a meeting with the appropriate adviser in the other college to which the student has been admitted to discuss the curriculum.

**Combined Credits and Expenses**

Full-time joint degree students generally complete the program in four years. Part-time applicants generally complete the joint degree program in five years. A student may accelerate the program by taking classes in the summer or by taking more courses during the academic year. By doing so, a student may complete both programs one-half year earlier.

Once enrolled in a joint degree program, students no longer pay the College of Law package tuition; instead, students pay by the credit hour for law classes and classes taken in the other program.

**Grading Standards**

Joint degree students must meet the grading standards of the College of Law and the respective graduate degree program in order to remain in good standing. Grades are recorded on the transcript under the college in which the courses are taken, and the combined degree is recorded after graduation. Students who are dismissed from either program may be able to continue studies in the other program. Students must satisfy the normal program requirements of the other school to receive the degree; no double counting of credits is permitted after a dismissal from one college.

**Leaves of Absence/Withdrawal**

Students must receive permission from both colleges to take a leave of absence from the joint degree program or to withdraw from the joint degree program. A leave of absence is granted for a maximum of one year. If a student does not enroll in classes after one year, he or she will be permanently withdrawn from both programs and only may re-enroll by applying to the admission offices of both colleges as a new student.

**Graduation**

To receive the joint degree, a student must graduate from both schools on the same date, in the same semester/quarter and in the same year. Double counting of credits occurs only after concurrent completion of both programs.

For a December graduation, all requirements must be completed at the end of the fall semester and fall quarter. For a spring graduation, all non-law requirements must be completed at the end of the spring quarter and all law requirements at the end of the spring semester. Students who complete non-law requirements in the spring that they expect to graduate may not have their degrees granted in time to be certified for the July bar exam. A student will not be eligible to graduate, cannot be certified for admission to the Bar, and cannot sit for bar examinations until all degree requirements are met and degrees conferred.

**Leadership Studies (BA)**

The Bachelor of Arts in Leadership Studies from the School of Continuing and Professional Studies (SCPS) emphasizes a multidisciplinary understanding of the theory and practice of leadership applicable to various environments. The degree offers an interdisciplinary liberal arts and professional studies curriculum that is especially suited to those who are already working and seek to advance their depth of knowledge.
of leadership and enhance their professionalism. The degree is equally appropriate for managers and leaders in the corporate or non-profit fields.

This major advances students' knowledge and professional skills related to effective leadership, communication, management of change and conflict, the role of technology and globalization in governance. Expertise in leadership is honed upon a solid foundation of ethics and responsibility, analysis and critical thinking, creativity and innovation. Courses are offered by School of Continuing and Professional Studies and the College of Communication with electives courses available from the Department of Psychology.

This major is designed for working adult students and provides:

- Flexible scheduling including online options available
- Financial Aid, flexible payment options, and special adult student tuition pricing
- Acceleration and affordability through transfer credit and prior learning assessment (PLA) credit
- Opportunities to combine bachelor's and master's programs and apply graduate courses to both programs
- Individualized program planning, course selection and advising assistance provided
- Enhanced career opportunities through professional portfolio development, and career placement services instruction from industry practitioners, and wide-ranging Career Services support
- Degree granted by DePaul University, with its excellent academic reputation and the opportunity to join its prestigious and extensive alumni network

Learning Outcomes

Students will be able to:

- Analyze and apply knowledge and theories of leadership.
- Investigate problems using qualitative and quantitative methods.
- Apply ethical principles in context.
- Explain the value of social justice in organizational contexts.
- Apply various methods of communication in multiple settings.
- Utilize principles of reflective practice in leadership studies.
- Analyze and apply different liberal arts perspectives.

Lesbian, Gay, Bisexual, Transgender, Queer Studies (Minor)

The LGBTQ Studies program analyzes sex, sexuality, gender identity, and queer experience within many different fields of inquiry. A minor in LGBTQ Studies will enable DePaul students to devote significant study to the experiences of people who do not conform to culturally dominant identities of sexuality and gender: lesbian, gay, bisexual, transgender, queer. Students in these courses examine the intellectual, creative, political, and personal production and presence of LGBTQ+ people throughout histories and across multiple intersections. Such an endeavor is profoundly interdisciplinary by nature and draws on university resources and faculty expertise in a wide array of disciplines. Students in this minor will have the opportunity to analyze the experiences of LGBTQ+ people on their own terms, as well as through critical perspectives on sexuality and gender as complex social, cultural, biological, and historical phenomena.

Select five elective courses 1

- All LGQ 100, 200, 300-level courses count as electives
- Other electives approved for the minor

The following is a sample of regularly-offered approved electives. This list is not exhaustive; new courses are continually created and approved. Every quarter before registration begins, the Program Director distributes a list of courses being offered the following quarter. Students should contact the Program Director to request the current list. Students may also petition the Director for approval of a course not listed. Many LGBTQ Studies courses are crosslisted and fulfill requirements in other departments and programs, including the Liberal Studies Program. LGBTQ Studies minors are encouraged to take at least one course in a variety of disciplines—film, history, literature, media, performance, philosophy, politics, religion, science, and theory.

1 ENG 382 or ABD 345 only satisfy an elective when the Special Topic is James Baldwin.

**Liberal Studies (MA)**

The Master of Arts in Liberal Studies (MALS) program is a multidisciplinary approach to graduate education which emphasizes liberal education and enhanced intellectual skills that are valuable in a wide variety of careers. It is particularly designed for serious learners, or those who wish to become serious learners, from recent college graduates to men and women in later life.

The MALS program is grounded in a set of team-designed core courses. These courses establish the aims and themes of the program, orient the student to a multidisciplinary approach to graduate education, and develop in the student advanced learning skills. These are designed to foster academic rigor, intellectual adventure, and cultural breadth. If MALS core courses are not offered, students may choose equivalent courses to be established by program advisors.

The other components of the program are electives and a variety of options for a culminating project. Electives are usually graduate and upper-level courses chosen from departmental offerings in the College of Liberal Arts and Sciences. Students select these courses with the aid of an advisor to build a program of study tailored to individual goals and interests. Included under electives are MALS special topics courses, which are especially well-suited to the needs of MALS students.

By about the midpoint of their studies (24-32 credit hours earned), students should begin discussing possible culminating project ideas with the director, associate director, or faculty advisor. The culminating project gives MALS students the opportunity to demonstrate the intellectual and creative powers that they have developed over the course of graduate study. MALS students may choose from four options for program completion, allowing greater flexibility for students to pursue their studies. These four options may take the form of a thesis, a community-based or media project, an enhanced portfolio, or a specially selected exit course and paper.

The MALS program offers a number of concentrations, including: Standard, Executive/Leadership, and Women's Studies. The Standard Concentration is based on a four-course core requirement, and may be tailored to the student's interests. The Executive/Leadership and Women's Studies Concentrations are based on a five-course core requirement and stipulate policies for elective selection. Program advising is available to help students choose a concentration. Each of the concentrations may be pursued with any of the four program completion options. The MALS program is jointly administered with the Master of Arts/Master of Science in Interdisciplinary Studies (IDS) program by the Interdisciplinary Self-Designed Program (ISD).

The MA in Liberal Studies may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following...
combination programs should contact the Graduate Student Services Office for additional information.

- MALS + Digital Humanities Certificate
- MALS + Social Research Certificate
- MALS + Women’s and Gender Studies Certificate

</thead>
<tbody>
<tr>
<td>Degree Requirements</td>
<td>48-52</td>
</tr>
<tr>
<td>Total hours required</td>
<td>48-52</td>
</tr>
</tbody>
</table>

**Learning Outcomes**

Students will be able to:

- Demonstrate multi-disciplinary and inter-disciplinary approaches in research and writing.
- Use their knowledge of the methods and approaches of at least one particular academic or professional discipline to complete academic writing projects.
- Analyze and incorporate a variety of academic and technical resources in appropriate scholarly and professional formats.
- Research and write in a variety of academic and/or professional genres, including expository essays, critical analysis, research papers, white papers, etc. culminating in an extended capstone.
- Analyze the social and/or historical context of phenomena and value systems in social and institutional settings.

**Degree Requirements**

**Portfolio**

All students will keep a portfolio of significant work done for courses, such as final papers or special projects, with comments and grades from the professor. By the midpoint, there will be work from a total of at least three courses in the portfolio. At least two of the three pieces in the midpoint portfolio will be from the core courses. The third will be from an elective representing the student’s best work. At the culminating point there will be work from at least six courses represented in the portfolio, two pieces from the core courses and four from the electives, representing the student’s best work.

**Midpoint Essay**

After completing the sixth course but before taking the ninth course, all students in both programs will write a 3-5 page essay examining their progress to that point, using as evidence work from the portfolio. The Midpoint Essay reflects on the student’s intellectual growth, and suggests directions for the second half of the student’s program.

**Culminating Point Essay**

All students in both programs (regardless of which final option they choose) will write an essay of 3-5 pages, reflecting on their intellectual growth in the second half of the program.

**Course Work**

- Completion of 48 or 52 quarter hours of graduate credit, depending on the concentration and completion option (thesis, practicum, enhanced portfolio or exit course) chosen by the student.
- Cumulative grade-point average of 3.0 in the core courses: Students who have not achieved a 3.0 in the core will be warned that they will probably have serious difficulties in the elective portion of the program, and may be advised to withdraw.
- Elective courses must be selected from at least two different departments in order to preserve the multidisciplinary character of the program.
- MALS students ordinarily take no more than two approved 300-level courses for MALS degree credit unless they have sought the approval of a MALS program advisor.

**Program Completion (Capstone) Steps**

All students must apply and be approved for the particular option they wish to use for program completion (thesis, practicum, enhanced portfolio, or exit course). This application will include the student’s portfolio. The thesis and practicum options include a Formal Proposal. Approval of the proposal is necessary before the student undertakes this final stage of the program. Enrollment in MLS 499, the culminating project independent study course, takes place after approval of the proposal has been secured. If necessary, in lieu of an elective, students may enroll in MLS 498:THESIS if they require an additional quarter of research and other preparation for MLS 499.

Both MLS 498 and MLS 499 are conducted as Independent Studies. Instructions for proposing and pursuing these are available with the Program. When the project is completed both the members of the committee and the MALS director sign a Culminating Project Completion Form, which can be found on the program’s D2L site.

**Program Completion (Capstone) Options**

**Thesis Option**

In addition to the Culminating Point Essay and final portfolio submission, the student will write a paper of approximately 35-50 pages that includes 3-4 components or sections, one of which will be a research component and original exploration of the subject. (Other components might include a review of literature, a synthesis of earlier research, a reflection on various disciplinary and methodological approaches to the issue, suggestions for future research, etc.) The research component of the Master’s Thesis involves reflection on primary research, or actual primary research combined with reflection on the primary research of others. The student is encouraged to make a public presentation about his or her thesis. Students who have earned a GPA of less than 3.3 may in some cases be asked to complete their program with a different capstone choice.

- Ordinarily taken as MLS 499, the student’s 12th and final course.
-Requires minimum cumulative GPA of 3.3, evaluation of “satisfactory” on the Midpoint Portfolio, formal proposal, and approval of committee.

**Practicum Option**

In addition to the Culminating Point Essay and final portfolio submission, for the Practicum Option the student will create a project aimed at developing and executing a community-based intellectual or intellectual/creative activity. Examples are a public presentation as a lecture, in broadcast or print media, or on the web. Service learning projects are also encouraged. A 15-25 page descriptive/analytic essay documenting the project is also submitted. The student is encouraged to make a public presentation about his or her practicum in addition to the primary distribution of the project. Students who have earned a GPA of less than 3.3 may in some cases be asked to complete their program with a different capstone choice.

- Ordinarily taken as MLS 499, the student’s 12th and final course.
warning status. If this status persists for two quarters, the student will be requested to leave the program. If he or she decides to remain in the program, the student will be placed on academic probation and be given one quarter to raise the GPA to 3.0. If the student’s GPA falls to 2.5 or below, he or she will be immediately placed on academic probation and must raise the GPA to 3.0 in the next quarter or face dismissal from the program. If the GPA falls to 2.5 or below a second time the student will be dismissed from the program.

When a student is admitted to the MALS or IDS Program under the category of “Conditional Admission” he or she is considered under academic probation until the conditions are met. The conditions are usually that a student must earn a grade of B or higher in all courses taken during the first three quarters in the program. The student may request continued registration in the second and third quarters if the grades are not adequate in the first quarter. If the conditions of admission are not met by the third quarter, the student will be dismissed from the program. Other conditions may include the requirement to take certain courses, and the student must comply within the specified time period or face dismissal.

IDS students who select courses that are not on their approved List of Courses (LOC) may face warning after one quarter and probation after two quarters if they do not seek approval for their altered programs. The procedure for altering an approved List of Courses is found on the ISD D2L site.

Students whose grades fall below the minimums described above will be considered in the categories of warning or probation whether or not the program administrators are aware of the student’s grades. The program administrators may apply the categories of warning or probation retroactively if the student does not self-report his or her status. Students are required to seek advisement from program administrators when facing academic warning or probation. A student who does not contact program administrators about potential warning or probation status may face dismissal from the program.

Dismissal
In addition to the minimum GPA requirement, students may be dismissed for breaches of academic honesty or breaches of the code of student responsibility. MALS students may also face dismissal for failure to complete core courses with a grade of B or higher within the first half of their academic career. Students who have completed their coursework, but who are still working on their thesis, practicum or other capstone project must be enrolled in Candidacy Continuation (MLS 502) during the three quarters of the academic school year. After three consecutive terms of candidacy continuation, students should enroll in Active Status (MLS 501) if they still require time to complete their capstone. Failure to enroll in candidacy continuation or advanced status may result in dismissal from the program if the student has not formally withdrawn from the program.

Readmission
When a student has withdrawn from the program or has not been enrolled in classes for three or more quarters during the academic year, he or she must apply for readmission using the Readmission and Reclassification form available from the LAS Graduate website.

Transfer Credit
A student may apply to transfer up to three courses of graduate work from another accredited institution. The courses must be approved by the Program Director as part of the student’s overall course of study for both
MALs and IDS students. The courses must then be approved for transfer credit by the Office of Student Records.

Undergraduate Courses
Courses at the 200-level cannot be approved for graduate credit, even when a student needs to take such a course as preparation for more advanced work. Courses at the 300-level may be approved for graduate credit under the following circumstances: (1) The course is necessary as a part of the student's overall interdisciplinary program. (2) The department does not offer courses in the same area on the graduate level. (3) The student has arranged with the professor to enhance the course to graduate level by the addition or alteration of assignments, including the final project of the course. Unless approved by the Program Director, a student should take no more than two 300-level courses as part of his or her program.

Graduation Requirements
In order to graduate, students in the MALs and IDS Programs must complete coursework specific to their programs (either 48 or 52 credit hours depending on capstone choice) with a minimum GPA of greater than 3.0, a Midpoint and Culminating Point Essay, the submission of an electronic portfolio of final and other projects from a minimum of six courses, and one of four capstone choices offered by the program. Full descriptions of the requirements for the capstones, as well as further policies and procedures for both programs, are outlined in the documents found on the ISD D2L site under Program Documents. Students in the program are expected to be familiar with these policies and procedures and to comply with them.

Graduation with Distinction
In order to have the degree conferred with distinction, students in MALs and IDS completing their programs with a thesis or practicum capstone (48 credit hours) must earn a minimum cumulative GPA of 3.75, plus earn a designation of “distinction” on their thesis or practicum by their thesis advisor and at least one of the two readers on their committee. Thesis and practicum writers eligible for distinction are required to present their projects at an ISD event within three academic quarters of completion. Students in MALs and IDS completing their programs with an exit course or enhanced portfolio essay capstone (52 credit hours) must earn a minimum cumulative GPA of 3.85 in order to graduate with distinction.

Time Limit
Students are normally expected to complete the MALs or IDS Program within four academic years. During quarters in which no courses are taken, students are required to maintain active status in the program by registering for Candidacy Continuation or Active Status. Students who have not taken courses for three consecutive quarters during the regular academic year and have not registered for Candidacy Continuation or Active Status must apply for readmission using the Readmission and Reclassification form listed on the LAS Graduate website.

Or select equivalent courses to be established by the program.

1. Choose from MALs special topics courses or graduate or upper-level courses with the aid of the student’s advisor. Three of the six courses must meet the criteria of the Women's and Gender Studies concentration; that is, the topic, content, and approach to the course must be focused upon the study of women or gender relations. For example, MLS 445, MLS 467, MLS 474, MLS 477 and MLS 478 meet these criteria.
2. The topic, content, and approach of the integrating project must be focused on the study of women or gender. A Women's Studies faculty member must advise the student throughout the project’s development.

Lighting Design (BFA)

The Theatre School’s Bachelor of Fine Arts (BFA) degree in Lighting Design is designed to give students the opportunity to explore and expand their artistic and visual expression and provides them the opportunity to practice their craft. The four-year curriculum in many ways simulates a lighting designer’s professional experience and process. Designers learn to visualize, create and implement their designs by collaborating with directors, dramaturgs, other designers and technicians, and our professional production staff.

Program Specific Outcomes

Students will be able to:

- Read and interpret theatrical text and apply research, imagination, and personalization to create a unique, insightful, and compelling design concept.
- Demonstrate an understanding of the history of visual art and architecture in the context of social and cultural development.
- Demonstrate and apply an expertise in lighting technology in a variety of performance styles and theatrical environments.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Learning Domains

Arts and Literature (AL) (p. 1300)
- THE 204
- THE 205
- THE 206

- 1 Course Required

Religious Dimensions (RD) (p. 1308)
- 1 Course Required

Scientific Inquiry (SI) (p. 1310)
- 1 Lab Course or 1 SWK Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
- Not Required

Other (p. 1300)
- Choose 1 course from the above learning domains as an elective
Notes
Specified required courses within Liberal Studies may have grade minimums (e.g., C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Linguistics (Minor)

Linguistics is the scientific study of language: how it is structured, used, and learned. The interdisciplinary Minor in Linguistics is designed to enable students interested in the nature of language and its use in society to enrich a degree in any field, including modern languages, communication, anthropology, education, English, computer science, psychology, writing and rhetoric, and more.

Requirements
Students take two core courses and four electives. In order to ensure the interdisciplinary nature of the minor, no more than two elective courses may come from the same program.

Management (BSB)

The Bachelor of Science in Business with a major in Management emphasizes tackling relevant issues for today's manager: managing in the global economy, ethical and socially responsible decision-making, managing for total quality, employee empowerment, leadership, team performance and compensation, new venture creation, and conflict resolution.

Management majors are hired typically for positions as business analysts, account executives, assistant managers, operations managers, HR managers, employment interviewers, and consultants. The entrepreneurship curriculum offers programs designed for those students interested in someday starting their own businesses.

Learning Outcomes

Students will be able to:

- Articulate the central elements of employment law in performance management, compensation, recruitment, and selection.
- Demonstrate skill in improving employee performance through applications of reward systems.
- Apply evidence-based management knowledge and skills to effectively manage human capital.
- Describe effective approaches for dealing with a free-riding team member.
- Articulate the steps involved in running an effective meeting.
- Engage in effective team-member behavior within a project team.

College Core Requirements

Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of analytics, accountancy, mathematics, economics, business law, finance, management, management information systems/computer science, and marketing.

Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 70.0 hours are required:

<table>

1 Strobe students take specially designated sections of all required ACC classes, including ACC 101 and ACC 102 (excluding ACC 250).
2 Students majoring in accounting (primary or secondary/double major) are allowed to substitute ACC 370 in place of BLW 201.
3 Hospitality Leadership majors must take HSP 207 for the Business Law requirement; use of HSP 207 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete both HSP 207 and BLW 201.
4 Finance majors, Finance secondary/double majors, Finance minors, Finance Honors majors, Finance Honors secondary/double majors, and Actuarial Science majors must take FIN 320.
5 MGT 301-H is required if pursuing the Management Honors Program.
6 MIS majors and minors must take MIS 140.
7 Actuarial Science and Economic Data Analytics majors must take CSC 241.
8 Entrepreneurship majors and minors must take ICS 394.
9 Hospitality Leadership majors must take ICS 396 for the Business Capstone; use of ICS 396 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete ICS 396 and one of ICS 394 or ICS 395.

A course taken for Global Business Perspective that is in a student’s major or minor field must be completed with a minimum grade of C-.

Business Ethics

All undergraduate students in the Driehaus College of Business complete a course in Business Ethics. It is recommended students take MGT 248 or PHL 248 in Philosophical Inquiry or MGT 228 or REL 228 in Religious Dimensions in the Liberal Studies Program (or University Honors Program) Requirements.

Second Majors and Minors

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements for all business majors (except Actuarial Science majors)

- MAT 137 may be replaced by MAT 348 or MAT 351.

Global Business Perspective

If an ICS or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required.

Grade Minimums for Management Major

A minimum grade of C- is required for the following: ACC 101, ACC 102, BUS 102, ECO 105, ECO 106, MAT 137, MGT 300, MGT 301, the course used for Professional Writing, and any ICS or MGT course used for Global Business Perspective.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Junior Year

Experiential Learning

Required 4
Senior Year

Capstone

ICS 392 SENIOR SEMINAR 1

1 Students must earn a C- or better in this course.

Learning Domains

Arts and Literature (AL) (p. 1300)
- 3 AL Courses Required

Historical Inquiry (HI) (p. 1304)
- 2 HI Courses Required

Math and Computing (MC) (p. 1306)
- Not Required

Philosophical Inquiry (PI) (p. 1307)
- 2 PI Courses Required

Religious Dimensions (RD) (p. 1308)
- 2 RD Courses Required

Scientific Inquiry (SI) (p. 1310)
- 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
- 1 SCBI Course Required

Open Electives

Open elective credit (12.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

Global Business Perspective

If an ICS or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required. Any ICS or MGT course used toward Global Business Perspective must be passed with C- or higher.

Career Management Course

Students are required to complete the Career Course (250) associated with the major. Students who double major may choose the Career Course (250) associated with either major provided that hours for graduation are satisfied.

Experiential Learning

If either MGT 393 or ICS 350 is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Management (MGT) courses and any courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

• General Management Concentration, Management (BSB) (p. 716)
• Human Resources Concentration, Management (BSB) (p. 717)
• International Management Concentration, Management (BSB) (p. 718)
• Leadership and Change Management Concentration, Management (BSB) (p. 718)
• Supply Chain Management Concentration, Management (BSB) (p. 719)

General Management Concentration, Management (BSB)

The General Management concentration is for the student who wants a broad sampling of the various management disciplines. If a student chooses to pursue this concentration, four courses totaling at least 16.0 hours must be taken.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MGT 250</td>
<td>CAREER MANAGEMENT SKILLS</td>
<td>2</td>
</tr>
<tr>
<td>MGT 302</td>
<td>ORGANIZATIONAL BEHAVIOR</td>
<td>4</td>
</tr>
</tbody>
</table>

PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD.

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

In addition to MGT 300 and MGT 301 a student majoring in Management is required to complete the following courses totaling at least 22.0 hours and an additional four courses based on concentration chosen totaling at least 16.0 hours:

Six required courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>

- BLW 398 SPECIAL TOPICS (multiple topics may be used)
- BLW 399 INDEPENDENT STUDY
- ICS 350 INTERNATIONAL BUSINESS SEMINAR (may be used once)

Global Business Perspective

If an ICS or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required. Any ICS or MGT course used toward Global Business Perspective must be passed with C- or higher.

Experiential Learning

If either MGT 393 or ICS 350 is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Management (MGT) and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Human Resources Concentration, Management (BSB)

The Human Resources concentration is designed to meet the needs of students who desire to obtain entry-level positions in human resources, such as HR generalists, employment interviewers, and compensation analysts. Human resource professionals add value to their organizations by understanding how the business operates and through the design and implementation of human resource activities to meet changing organizational needs. If a student chooses to pursue this concentration, four courses totaling at least 16.0 hours must be taken.

Second Concentration

While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Global Business Perspective

If a MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required. Any MGT course used toward Global Business Perspective must be passed with C- or higher.
Experiential Learning

If either MGT 393 or ICS 350 is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

International Management Concentration, Management (BSB)

Build the skills you need to be an effective manager in a globalized world. Develop an understanding of varied cultural backgrounds and values. Explore global human resource and service sector management, develop language skills and travel abroad to gain an understanding of the many nuances of international business.

If a student chooses to pursue this concentration, four courses totaling at least 16.0 hours must be taken.

1 ICS 350 can be taken up to two times in the International Management Concentration.

Second Concentration

While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Global Business Perspective

If an ICS or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required. Any ICS or MGT course used toward Global Business Perspective must be passed with C- or higher.

Experiential Learning

If either MGT 393 (https://catalog.depaul.edu/search/?P=MGT%20393) or ICS 350 (https://catalog.depaul.edu/search/?P=ICS%20350) is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Leadership and Change Management Concentration, Management (BSB)

The Leadership and Change Management concentration focuses on developing leadership and change capabilities in students at all levels in organizations. Students gain an awareness of values and the importance of vision, as well as how to empower followers to be active participants in change activities, in order to increase organizational effectiveness. A planned approach to managing all phases of the organizational change process is emphasized. This concentration will be especially useful to students who desire to move into leadership and/or change roles within organizations, such as managers, internal consultants, team leaders, or trainers, as well as external consultant roles. If a student chooses to pursue this concentration, four courses totaling at least 16.0 hours must be taken.

Second Concentration

While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.
Experiential Learning
If either MGT 393 or ICS 350 is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements
All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Supply Chain Management Concentration, Management (BSB)
The Supply Chain Management concentration prepares students to understand the big picture of supply chains while also diving into various operational functions including transportation and logistics, procurement, and operations management. If a student chooses to pursue this concentration, four courses totaling at least 16.0 hours must be taken.

Second Concentration
While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Global Business Perspective
If an ICS or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required. Any ICS or MGT course used toward Global Business Perspective must be passed with C- or higher.

Experiential Learning
If either MGT 393 or ICS 350 is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

Management (MBA/MA in Health Communication)
Our Master of Business Administration/Master of Arts in Health Communication degree develops students’ managerial acumen and their expertise as communicators.

The joint degree prepares students for leadership roles in a range of areas within healthcare, including advertising, public relations, crisis communication, quality/patient safety, strategic planning/marketing, corporate communication, and community/population health.

The Kellstadt Graduate School of Business and the College of Communication offer a unique joint degree program. This 96-credit MBA/MA in Health Communication provides you with the opportunity to earn advanced degrees in two highly complementary fields—business and health communication. Success in today's competitive, global economy requires both an in-depth understanding of the dynamics of the world of business and the ability to communicate effectively using various media under highly diverse conditions.

The Master of Business Administration/Master of Arts in Health Communication program allows students to obtain both degrees in as little as three years of full-time course work. This rigorous program is designed for highly motivated students who work or plan to work in management, executive or consulting positions in healthcare communications, leadership, advertising, public relations, diversity management, quality/safety, and community/population health. To enter this program, prospective students must complete admissions applications and be accepted for both the MBA and the MA in Health Communication.

The Master of Business Administration/Master of Arts in Health Communication is offered as a joint degree, administered jointly by the Kellstadt Graduate School of Business and the College of Communication. The joint degree is designed for committed and enterprising students who want to take advantage of the growing emphasis on communication in the design and delivery of high quality, safe, and patient-centered healthcare.

Learning Outcomes
Students will be able to:

- Use analytical and problem-solving skills in decision-making.
- Apply knowledge about the differences among global economies, institutions, and cultures to understand the implications these have on global management.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Effectively contribute to the performance of a group as the group addresses practical business situations, and assume a leadership role as appropriate.
• Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
• Acquire broad-based knowledge and skills necessary to fulfill their professional goals.

Course Requirements for the MBA Program
The MBA program requires completion of sixteen courses (60 quarter hours). In addition to the eleven core course (40 quarter hours) requirements below, students must select five courses/ electives (20 quarter hours) to specialize in a business area of their choice.

Core Course Requirements
Course | Title | Quarter Hours
-------|-------|----------------
ACC 502 | FINANCIAL ACCOUNTING FOR MANAGERIAL DECISION MAKING | 4
ECO 502 | ANALYSIS OF BUSINESS CONDITIONS | 2
ECO 555 | MANAGERIAL ECONOMICS | 4
FIN 555 | FINANCIAL MANAGEMENT | 4
GSB 519 | BUSINESS ANALYTICS TOOLS ( FORMERLY GSB 420) | 4
GSB 599 | STRATEGIC MANAGEMENT CAPSTONE | 4
MGT 500 | LEADING EFFECTIVE AND ETHICAL ORGANIZATIONS | 4
MGT 504 | FUNDAMENTALS OF OPERATIONS MANAGEMENT | 2
MGT 555 | HUMAN CAPITAL STRATEGY AND SCIENCE | 4
MKT 555 | MARKETING MANAGEMENT | 4
GSB 525 | BUSINESS INNOVATION & DESIGN ( FORMERLY MGT 573) | 4

KGSB may waive MBA Core Course Requirements up to 8 credit hours if a student’s undergraduate major was in the same discipline as these core courses and the student earned grades of “C” or better.

Concentration Requirements
Course Requirements
To complete the Health Sector Management concentration and business course requirements, students are required to take four courses from the list below:

Course | Title | Quarter Hours
-------|-------|----------------
MGT 559 | HEALTH SECTOR MANAGEMENT | 4
MGT 566 | HEALTH INSURANCE & BENEFITS | 4
Select two of the following: 8
MGT 510 | TECHNOLOGY, QUALITY & HEALTH INFORMATICS | 4
MGT 545 | MANAGING SERVICE OPERATIONS | 4
MGT 564 | STREETS OF CHICAGO: HEALTHCARE MANAGEMENT | 4
Select two Business Electives of the following: 8
MGT 563 | NEGOTIATION SKILLS | 4
or MGT 562 | RESOLVING CONFLICT IN ORGANIZATIONS | 4

MA Requirements
Course Requirements
Core Courses
Students are required to take all of the following:

Course | Title | Quarter Hours
-------|-------|----------------

Management (MBA/MPH in Public Health)
Our Master of Business Administration/Master of Public Health (MBA/MPH) degree develops students’ managerial acumen and their expertise as public health professionals.

Jointly offered by the Kellstadt Graduate School of Business and the College of Liberal Arts and Social Sciences, 90-credit MBA/MPH provides you with the opportunity to earn advanced degrees in two highly complementary fields—business and public health. The landscape for healthcare managers is radically changing with advances in technology, shifts in demographics, and the aging of the population. Success in this highly competitive field not only requires skills in finance and operations, but also an in-depth understanding of disease prevention and health promotion at the organizational and community level. The joint degree is designed for committed and enterprising students who want to take advantage of the growing emphasis on public health and population health in the design and delivery of healthcare.
The MBA/MPH program allows students to obtain both degrees in as little as three years of full-time course work. This rigorous program is designed for highly motivated students who work or plan to work in management, executive, or consulting positions in community/population health. To enter this program, prospective students must complete admissions applications and be accepted for both the MBA and the MPH programs.

### Culminating Experience Requirements

In addition to successfully completing coursework, students also must complete a practicum experience that culminates in the writing of a capstone thesis. Students complete their practicum field experience during their last year in the program. Students are required to commit to 8-10 hours per week to their practicum site, for a minimum of 250 hours over the course of the nine-month placement. It is required to be physically onsite at the agency for the majority of these hours.

### Management (Minor)

Available to students majoring outside the Driehaus College of Business, the Management minor presents problem-solving approaches and techniques that are necessary when working with an organization or business to achieve its goals. The student may focus on management in a specific industry, such as health care or public relations.

### Course Requirements

A non-Driehaus student minoring in Management is required to complete the following courses totaling at least 20.0 hours:
Graduation Requirements
All Management (MGT) courses and any other courses used toward the Management minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Management (Minor: Business Students Only)
Students in the Driehaus College of Business who minor in Management will learn problem-solving approaches and techniques that are necessary when working within an organization or business to achieve its goals. Students may focus on management in a specific industry to complement their major.

Course Requirements
In addition to MGT 300, MGT 301, and ICS 394 or ICS 395, a Driehaus student minoring in Management is required to complete the following courses totaling at least 12.0 hours:

Graduation Requirements
All Management (MGT) courses and any other courses used toward the Management minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Management (MS)
In the Master of Science in Management program, students develop the managerial skills necessary to advance as leaders in the private or public sector. Students gain a thorough understanding of management theory and techniques, and learn how to apply them through hands-on learning experiences. Graduates of this program emerge with the interpersonal, analytical and strategic knowledge necessary to successfully manage and implement change in today's organizations. This degree is designed for early career professionals from non-business backgrounds in liberal arts, engineering, mathematics, technology and other fields.

Most MS degrees can be completed in four quarters of full-time study or eight quarters of part-time study. The MS in Management degree offers the added benefit of providing 24 credits toward an MBA should you decide to pursue one in the future.

Program Features
In this program, you will acquire leadership skills, methods and tools to:
• Manage projects, strategy, innovation and people effectively in a variety of organizational settings.
• Think critically, analyze a wide range of information and initiate creative solutions to business challenges.
• Use current sustainable management and ethical decision-making frameworks in your role as a manager.
• Understand business fundamentals, including operations management, financial accounting and economic conditions analysis.

Students in the program have the opportunity to pursue focus areas such as project management, human resources, marketing and sales.

Degree Requirements
1. Satisfactory completion of the college residency requirement.
2. Satisfactory completion of the 13 required courses, or their substitutes as approved by the Chair of the Management Department.
3. All courses for credit toward the degree must be completed within six calendar years after the candidate's first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years, a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree.

Learning Outcomes
Students will be able to:
• Describe values, attitudes, emotions, and cultures.
• Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
• Identify the differences among global economies, institutions, and cultures and understand the implications these have on global management.
• Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
• Exhibit sophisticated knowledge of management practices leading to applicable skills in relevant areas.

Degree Requirements
Students in the MS-Management program complete 13 courses (48 credit hours).

Management (MS), Combined Bachelor's + Master's Degree

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These three graduate level courses will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Management (MS)
The Master of Science in Management is designed for early career professionals interested in general management of the firm.

Solutions to management problems require the ability to think critically about a wide variety of information and to integrate ideas in creative ways. Managers are called upon to perform in a variety settings with a variety of decision-making models. Students in the Master of Science in Management will develop competencies in managing decision-making processes, managing strategy and innovation, managing human capital, and managing the task environment.

DePaul degree-seeking undergraduate students interested in earning a Master of Science in Management may apply to the bachelor's degree/Management (MS) combined program. Students may be able to obtain both degrees in an expedited period, typically in five years.

Admission
Students must formally apply and be admitted to the Department of Management before beginning their graduate coursework. Undergraduate students who meet the following criteria may apply to this program:
• Junior standing or higher (at least 88.0 credits)
• A minimum cumulative DePaul grade point average of 3.20

Students participating in this program will typically take three of the following graduate level courses during their senior year:

<table>
<thead>
<tr>

</tbody>
</table>

1 Replaces MGT 302 ORGANIZATIONAL BEHAVIOR

These three courses may double-count up to 12 credits towards both degree programs. The undergraduate degree will be awarded at the
completion of all undergraduate work while the MS-Management will be awarded upon completion of the remaining graduate level work.

**Management Honors (BSB)**

The honors program in management is a course of study composed of advanced, accelerated and challenging beginning management courses. Using a problem-based approach, students will be asked to complete real-time projects for organizations with management-based problems, to work intensively and proactively in rotating small groups, to work on problems that span multiple courses in the program, and to refine their soft skills of communication, leading, presenting and teamwork within the program.

**Learning Outcomes**

**Core Outcomes**

- Use analytical and reflective skills in decision-making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

**Program Specific Outcomes**

Students will be able to:

- Apply team effectiveness evidence to enhance individual and team performance. Differentiate between effective and ineffective personnel selection methods.
- Articulate the central elements of employment law in performance management, compensation, recruitment, and selection.
- Demonstrate skill in improving employee performance through applications of reward systems.
- Apply evidence-based management knowledge and skills to effectively manage human capital.
- Describe effective approaches for dealing with a free-riding team member.
- Articulate the steps involved in running an effective meeting.
- Engage in effective team-member behavior within a project team.

**College Core Requirements**

**Business Core Requirements**

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of analytics, accountancy, mathematics, economics, business law, finance, management, management information systems/computer science, and marketing.

**Course Requirements**

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 70.0 hours are required:

<table>

Professional Writing
Select one of the following: 2-4

WRD 202  PROFESSIONAL WRITING FOR BUSINESS (2.0 quarter hours)
WRD 204  TECHNICAL WRITING
WRD 206  PROFESSIONAL WRITING

1 Strobel students take specially designated sections of all required ACC classes, including ACC 101 and ACC 102 (excluding ACC 250).
2 Students majoring in accounting (primary or secondary/double major) are allowed to substitute ACC 370 in place of BLW 201.
Hospitality Leadership majors must take HSP 207 for the Business Law requirement; use of HSP 207 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete both HSP 207 and BLW 201.
3 Finance majors, Finance secondary/double majors, Finance minors, Finance Honors majors, Finance Honors secondary/double majors, and Actuarial Science majors must take FIN 320.
4 MGT 301-H is required if pursuing the Management Honors Program.
5 MIS majors and minors must take MIS 140.
Actuarial Science and Economic Data Analytics majors must take CSC 241.
6 MKT majors and Sales minors must take MKT 376.
7 Entrepreneurship majors and minors must take ICS 394.
Hospitality Leadership majors must take ICS 396 for the Business Capstone; use of ICS 396 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete ICS 396 and one of ICS 394 or ICS 395.
8 A course taken for Global Business Perspective that is in a student's major or minor field must be completed with a minimum grade of C-.

Business Ethics
All undergraduate students in the Driehaus College of Business complete a course in Business Ethics. It is recommended students take MGT 248 or PHL 248 in Philosophical Inquiry or MGT 228 or REL 228 in Religious Dimensions in the Liberal Studies Program (or University Honors Program) Requirements.

Second Majors and Minors
The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements for all business majors (except Actuarial Science majors)
- MAT 137 may be replaced by MAT 348 or MAT 351.

Global Business Perspective
If an ICS or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required. Any ICS or MGT course used toward Global Business Perspective must be passed with C- or higher.

Grade Minimum Requirements for Management Major
A minimum grade of C- is required for the following: ACC 101, ACC 102, BUS 102, ECO 105, ECO 106, MAT 137, MGT 300, MGT 301, the course used for Professional Writing, and any ICS or MGT course used for Global Business Perspective.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 Students must earn a C- or better in this course.

Learning Domains
Arts and Literature (AL) (p. 1300)
- 3 AL Courses Required

Historical Inquiry (HI) (p. 1304)
- 2 HI Courses Required

Math and Computing (MC) (p. 1306)
- Not Required
General Management Concentration, Management Honors (BSB)

Philosophical Inquiry (PI) (p. 1307)
• 2 PI Courses Required

Religious Dimensions (RD) (p. 1308)
• 2 RD Courses Required

Scientific Inquiry (SI) (p. 1310)
• 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
• 1 SCBI Course Required

PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD.

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements
Course Requirements
In addition to MGT 300 and MGT 301-H student majoring in Management Honors is required to complete the following courses totaling at least 22.0 hours and an additional four courses based on concentration chosen totaling at least 16.0 hours:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MGT 250</td>
<td>CAREER MANAGEMENT SKILLS</td>
<td>2</td>
</tr>
<tr>
<td>MGT 302</td>
<td>ORGANIZATIONAL BEHAVIOR</td>
<td>4</td>
</tr>
<tr>
<td>MGT 303</td>
<td>MANAGING PROJECTS AND TEAMS</td>
<td>4</td>
</tr>
<tr>
<td>MGT 307</td>
<td>HUMAN RESOURCES MANAGEMENT</td>
<td>4</td>
</tr>
<tr>
<td>MGT 360</td>
<td>LEADERSHIP</td>
<td>4</td>
</tr>
</tbody>
</table>

One required course (not taken as an Honors section):

| MGT 314 | BUSINESS ANALYTICS FOUNDATION TOOLS          | 4             |

Expectations
Prior to being part of the Management Honors Program, students must be admitted to the program. See Management Honors website for more information on the application process.

Open Electives
Open elective credit (12.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

Career Management Course
Students are required to complete the Career Course (250) associated with the major. Students who double major may choose the Career Course (250) associated with either major provided that hours for graduation are satisfied.

Global Business Perspective
If an ICS or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required. Any ICS or MGT course used toward Global Business Perspective must be passed with C- or higher.

Experiential Learning
If either MGT 393 or ICS 350 is completed in the Management Honors major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements
All Management (MGT) and any courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Concentration Requirements
Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

• General Management Concentration, Management Honors (BSB) (p. 726)
• Human Resources Concentration, Management Honors (BSB) (p. 727)
• International Management Concentration, Management Honors (BSB) (p. 728)
• Leadership and Change Management Concentration, Management Honors (BSB) (p. 728)
• Supply Chain Concentration, Management Honors (BSB) (p. 729)

General Management Concentration, Management Honors (BSB)
The General Management concentration is for the student who wants a broad sampling of the various management disciplines. If a student chooses to pursue this concentration, four courses totaling at least 16.0 hours must be taken.

Course Requirements
Select four elective courses from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MGT 270</td>
<td>INTRODUCTION TO ENTREPRENEURSHIP</td>
<td></td>
</tr>
<tr>
<td>MGT 311</td>
<td>TRANSPORTATION &amp; LOGISTICS</td>
<td></td>
</tr>
<tr>
<td>MGT 315</td>
<td>SUPPLY CHAIN ANALYTICS</td>
<td></td>
</tr>
</tbody>
</table>
**Second Concentration**

While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

**Global Business Perspective**

If an ICS or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required. Any ICS or MGT course used toward Global Business Perspective must be passed with C- or higher.

**Experiential Learning**

If either MGT 393 or ICS 350 is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

**Graduation Requirements**

All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

**Human Resources Concentration, Management Honors (BSB)**

The Human Resources concentration is designed to meet the needs of students who desire to obtain entry-level positions in human resources, such as HR generalists, employment interviewers, and compensation analysts. Human resource professionals add value to their organizations by understanding how the business operates and through the design and implementation of human resource activities to meet changing organizational needs. If a student chooses to pursue this concentration, four courses totaling at least 16.0 hours must be taken.

**Course** | **Title** | **Quarter Hours**
--- | --- | ---
MGT 320 | TRAINING AND CAREER DEVELOPMENT | 16
MGT 330 | RECRUITMENT AND SELECTION | 
MGT 335 | COMPENSATION & BENEFITS | 
MGT 354 | GLOBAL HUMAN RESOURCE MANAGEMENT | 
MGT 355 | NEGOTIATIONS | 
MGT 393 | MANAGEMENT INTERNSHIP | 
MGT 398 | SPECIAL TOPICS (when related to Human Resources) | 
BLW 202 | COMMERCIAL PAPER AND SALES | 
BLW 203 | BUSINESS ORGANIZATIONS | 
BLW 398 | SPECIAL TOPICS (multiple topics may be used) | 
ICS 350 | INTERNATIONAL BUSINESS SEMINAR (may be used once) | 

Second Concentration

While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Global Business Perspective

If a MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required. Any MGT course used toward Global Business Perspective must be passed with C- or higher.

Experiential Learning

If either MGT 393 or ICS 350 is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.
International Management Concentration, Management (BSB)

Build the skills you need to be an effective manager in a globalized world. Develop an understanding of varied cultural backgrounds and values. Explore global human resource and service sector management, develop language skills and travel abroad to gain an understanding of the many nuances of international business.

If a student chooses to pursue this concentration, four courses totaling at least 16.0 hours must be taken.

ICS 350 can be taken up to two times in the International Management Concentration.

Second Concentration

While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Global Business Perspective

If an ICS or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required. Any ICS or MGT course used toward Global Business Perspective must be passed with C- or higher.

Experiential Learning

If either MGT 393 (https://catalog.depaul.edu/search/?P=MGT%20393) or ICS 350 (https://catalog.depaul.edu/search/?P=ICS%20350) is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Leadership and Change Management Concentration, Management Honors (BSB)

The Leadership and Change Management concentration focuses on developing leadership and change capabilities in students at all levels in organizations. Students gain an awareness of values and the importance of vision, as well as how to empower followers to be active participants in change activities, in order to increase organizational effectiveness. A planned approach to managing all phases of the organizational change process is emphasized. This concentration will be especially useful to students who desire to move into leadership and/or change roles within organizations, such as managers, internal consultants, team leaders, or trainers, as well as external consultant roles. If a student chooses to pursue this concentration, four courses totaling at least 16.0 hours must be taken.

Experiential Learning

If either MGT 393 or ICS 350 is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.
Supply Chain Concentration, Management Honors (BSB)

The Supply Chain Management concentration prepares students to understand the big picture of supply chains while also diving into various operational functions including transportation and logistics, procurement, and operations management. If a student chooses to pursue this concentration, four courses totaling at least 16.0 hours must be taken.

Course Requirements

Experiential Learning

If either MGT 393 or ICS 350 is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.00 or higher.

Management Information Systems (BSB)

The program in Management Information Systems is intended for undergraduate business students who plan to start their career as information systems professionals in either information technology producing industries or with the heavy users of such technologies. If they decide to take a minor in MIS, graduates will be able to function as liaisons representing their department or business function in information systems projects. This program is guided by several curriculum principles:

- Designed to educate management-oriented, technically proficient information systems professionals.
- Focused on requirements engineering and other stages of system life cycle requiring heavy involvement of systems analysts rather than on technical implementation stages.
- Complements a thorough understanding of business operations covered in the core undergraduate business curriculum. This combination of competencies is particularly important for systems analysts and makes this program distinct from programs in computer science.
- Designed according to current technological trends and is flexible to accommodate its adjustment as stipulated by rapidly changing and evolving information technologies.
- Includes sufficient training in technology skills in high demand to make graduates easily employable and immediately productive.

In this program, students will acquire:

- A broad understanding of information technologies and their utilization in private and governmental organizations
- An in-depth understanding of information systems life cycle and the nature of related phases and tasks from initial study through post-implementation support
- A thorough understanding of system requirements elicitation, analysis, documentation, validation, and management
- Ability to work with users and builders of information systems
- An understanding of information systems project management
- Ability to develop prototypes using visual programming technology
- Ability to identify organizational data and to design and manipulate databases
- Ability to integrate technical knowledge and understanding of business operations
- Experience working on team projects

Learning Outcomes

Core Outcomes

- Use analytical and reflective skills in decision-making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Program Specific Outcomes

Students will be able to:

- Analyze, gather requirements, and design systems.
- Conceptualize, design, and develop relational databases.
- Develop, control, and manage projects.
College Core Requirements

Business Core Requirements
All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of analytics, accountancy, mathematics, economics, business law, finance, management, management information systems/computer science, and marketing.

Course Requirements
For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 70.0 hours are required:

<table>
<thead>
<tr>

Professional Writing

Select one of the following:
- WRD 202 PROFESSIONAL WRITING FOR BUSINESS (2.0 quarter hours)
- WRD 204 TECHNICAL WRITING
- WRD 206 PROFESSIONAL WRITING

Business Ethics
All undergraduate students in the Driehaus College of Business complete a course in Business Ethics. It is recommended students take MGT 248 or PHL 248 in Philosophical Inquiry or MGT 228 or REL 228 in Religious Dimensions in the Liberal Studies Program (or University Honors Program) Requirements.
Second Majors and Minors
The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements for all business majors (except Actuarial Science majors)
• MAT 137 may be replaced by MAT 348 or MAT 351.

Grade Minimum Requirements for Management Information Systems Major
A minimum grade of C- is required for the following: ACC 101, ACC 102, BUS 102, ECO 105, ECO 106, MAT 137, MIS 140, and the course used for Professional Writing.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

</tbody>
</table>

MIS 350 is to be taken only by MIS minors; MIS 360 is to be taken only by MIS majors.
### Career Management Course

Students are required to complete the Career Course (250) associated with the major. Students who double major may choose the Career Course (250) associated with either major provided that hours for graduation are satisfied.

### Open Electives

Open elective credit (20.0 hours) also is needed to meet the minimum graduation requirement of 192 hours.

### Graduation Requirements

All Management Information Systems (MIS) courses and any courses used toward the Management Information Systems major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

### Management Information Systems (Minor)

Available to students majoring outside the Driehaus College of Business, the Management Information Systems minor presents both the business and technological foundations of information systems designed to complement the primary course of study.

### Course Requirements

A non-Driehaus student minoring in Management Information Systems is required to complete the following courses totaling at least 20.0 hours:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>

<td>4</td>
</tr>
</tbody>
</table>

MIS 350 is to be taken only by MIS minors; MIS 360 is to be taken only by MIS majors.

### Graduation Requirements

All MIS courses and any courses used toward the Management Information Systems minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

### Marketing (BSB)

The ultimate goal of an organization is to satisfy the needs and wants of its customers profitably. The Marketing Department offers a variety of courses designed to develop and sharpen student skills to analyze and solve marketing problems. Successful marketing requires the ability to know how and when to do research, how to analyze markets and behavior, and how to develop products and services that satisfy or even anticipate customers’ needs. The purpose of the undergraduate program in Marketing is to prepare students for successful marketing careers by teaching them the knowledge and skills to identify marketing problems and develop solutions that meet customer needs.

### Learning Outcomes

#### Core Outcomes

Students will be able to:

- Use analytical and reflective skills in decision-making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.
Program Specific Outcomes

Students will be able to:

- Create a value proposition.
- Distinguish features and benefits of products and services.
- Describe how external factors and demographic change affect demand for products and services.
- Identify marketing problems and develop appropriate solutions by collecting, analyzing, and interpreting data.
- Create a marketing plan.
- Use marketing methodologies/tools to make strategic decisions.

College Core Requirements

Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of analytics, accountancy, mathematics, economics, business law, finance, management, management information systems/computer science, and marketing.

Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 70.0 hours are required:

<table>
<thead>
<tr>
<th>Course</th>

1 Strobel students take specially designated sections of all required ACC classes, including ACC 101 and ACC 102 (excluding ACC 250).
2 Students majoring in accounting (primary or secondary/double major) are allowed to substitute ACC 370 in place of BLW 201. Hospitality Leadership majors must take HSP 207 for the Business Law requirement; use of HSP 207 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete both HSP 207 and BLW 201.
3 Finance majors, Finance secondary/double majors, Finance minors, Finance Honors majors, Finance Honors secondary/double majors, and Actuarial Science majors must take FIN 320.
4 MGT 301-H is required if pursuing the Management Honors Program.
5 MIS majors and minors must take MIS 140. Actuarial Science and Economic Data Analytics majors must take CSC 241.
6 MKT majors and Sales minors must take MKT 376.
Entrepreneurship majors and minors must take ICS 394. Hospitality Leadership majors must take ICS 396 for the Business Capstone; use of ICS 396 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete ICS 396 and one of ICS 394 or ICS 395.

A course taken for Global Business Perspective that is in a student’s major or minor field must be completed with a minimum grade of C-.

Business Ethics
All undergraduate students in the Driehaus College of Business complete a course in Business Ethics. It is recommended students take MGT 248 or PHL 248 in Philosophical Inquiry or MGT 228 or REL 228 in Religious Dimensions in the Liberal Studies Program (or University Honors Program) Requirements.

Second Majors and Minors
The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements for all business majors (except Actuarial Science majors)
• MAT 137 may be replaced by MAT 348 or MAT 351.

Communication Requirement
Students majoring in Marketing must complete MKT 376 for the Communication requirement.

Global Business Perspective
If a MKT course or ICS 350 is shared between Global Business Perspective and the Marketing major, additional hours of Open Elective credit are required.

Grade Minimum Requirements for Marketing Major
A minimum grade of C- is required for the following: ACC 101, ACC 102, BUS 102, ECO 105, ECO 106, MAT 137, MKT 301, MKT 310, MKT 376, the course used for Professional Writing, and any MKT course used for Global Business Perspective.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

• 2 RD Courses Required

Scientific Inquiry (SI) (p. 1310)
• 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
• 1 SCBI Course Required

1 PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD.

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.
Major Requirements
Course Requirements
In addition to MKT 301 and MKT 310, a student majoring in Marketing is required to complete the following courses totaling 34.0 hours plus 4.0 hours to be shared with the Business Core (38.0 hours total):

- Two required courses to be taken for 6.0 hours:
  - MKT 250 NAVIGATING MARKETING CAREERS (2 hours)
  - MKT 305 INTRODUCTION TO MARKETING RESEARCH
- One required course to be taken in Business Core:
  - MKT 376 EFFECTIVE BUSINESS COMMUNICATION
- One Marketing Concentration of seven courses to be taken for 28.0 hours to be chosen from:
  - Digital Marketing
  - Sales Leadership
  - Standard Marketing

Communication Requirement
MKT 376 must be completed by students majoring in Marketing and serves as the Communication requirement in the Business Core.

Second Marketing Concentration
While a student may complete more than one Marketing concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Career Management Course
Students are required to complete the Career Course (250) associated with the major. Students who double major may choose the Career Course (250) associated with either major provided that hours for graduation are satisfied.

Global Business Perspective
If an MKT or ICS 350 course is shared between Global Business Perspective and the Marketing major, additional hours of Open Elective credit are required. Any MKT or ICS 350 course used toward the Global Business Perspective requirement must be passed with C- or higher.

Open Electives
Open elective credit (16.0 hours) is also required to meet the minimum graduation requirement of 192 hours.

Combined Bachelor’s + Master’s Program Participants
Students admitted to a Marketing Combined Bachelor’s + Master’s program may apply up to three approved graduate course(s) towards their undergraduate degree. Students should see academic advisor for additional information.

Graduation Requirements
All Marketing (MKT) courses and any other courses used toward the Marketing major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

  • Digital Marketing Concentration, Marketing (BSB) (p. 736)
  • Sales Leadership Concentration, Marketing (BSB) (p. 737)
  • Standard Concentration, Marketing (BSB) (p. 737)

Career Orientations
Advertising and Promotion
Skills that lead to successful careers in Advertising and Promotion include: analysis of market research data; media planning; the creation of persuasive messages; strategic coordination of elements of the marketing communication mix; sales promotion strategies; public relations analysis and tactical management. You may consider the Standard concentration in Marketing to pursue this career path.

Marketing elective courses for students interested in a career in advertising and promotion include the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MKT 320</td>
<td>PRINCIPLES OF ADVERTISING</td>
<td></td>
</tr>
<tr>
<td>MKT 321</td>
<td>SOCIAL MEDIA MARKETING</td>
<td></td>
</tr>
<tr>
<td>MKT 395</td>
<td>DIGITAL MARKETING ANALYTICS AND PLANNING</td>
<td></td>
</tr>
</tbody>
</table>

Category Management
Category Management is the practice of managing a group of related products as one category to maximize profitability. Successful companies expect their suppliers to act as partners that will help them grow their businesses, sharing industry expertise and consumer insight.

We have partnered with the Category Management Association to develop a unique curriculum that will prepare students for careers in this rapidly growing field and lead to industry certification. You may consider the Sales Leadership concentration in Marketing to pursue this career path. A student interested in category management should take the courses listed below:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MKT 376</td>
<td>EFFECTIVE BUSINESS COMMUNICATION (taken in business core)</td>
<td></td>

<tr>
<td>MKT 377</td>
<td>SALES FUNDAMENTALS (required in Sales Leadership Concentration)</td>
<td></td>
</tr>
<tr>
<td>MKT 380</td>
<td>SCIENCE OF RETAILING</td>
<td></td>
</tr>
<tr>
<td>MKT 383</td>
<td>ANALYTICAL SALES (required in Sales Leadership Concentration)</td>
<td></td>
</tr>
<tr>
<td>MKT 384</td>
<td>CASES IN CATEGORY MANAGEMENT</td>
<td></td>
</tr>
<tr>
<td>MKT 398</td>
<td>SPECIAL TOPICS (Shopper Insights &amp; Marketing only)</td>
<td></td>
</tr>
</tbody>
</table>

International Marketing
The international area of marketing offers students the opportunity to examine the economy and business management of many countries in their political, historical, and socio-cultural context. Students who concentrate on international marketing would develop career opportunities in international sales, international product management, or international marketing management. You may consider the Standard concentration in Marketing to pursue this career path. DePaul Marketing students may combine their majors with either a minor in a commercial language through the College of Liberal Arts and Social Sciences, or with selected course work in International Studies. Students interested in
international marketing benefit by enrolling in the following Marketing courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MKT 320</td>
<td>PRINCIPLES OF ADVERTISING</td>
<td></td>
</tr>
<tr>

<td>MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS</td>
<td></td>
</tr>
<tr>
<td>MKT 352</td>
<td>NEW PRODUCT DEVELOPMENT</td>
<td></td>
</tr>
<tr>
<td>MKT 360</td>
<td>INTERNATIONAL MARKETING</td>
<td></td>
</tr>
<tr>
<td>MKT 390</td>
<td>SERVICE MARKETING</td>
<td></td>
</tr>
</tbody>
</table>

**Market Research**

Market research encompasses problem formulation, data gathering, data analysis, and communication of findings. An understanding of statistics, psychology and sociology as related to marketing is desirable. You may consider the Standard concentration in Marketing to pursue this career path. A student interested in market research will benefit from the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MKT 305</td>
<td>INTRODUCTION TO MARKETING RESEARCH</td>
<td></td>
</tr>
<tr>
<td>MKT 315</td>

<td></td>
</tr>
<tr>
<td>MKT 320</td>
<td>PRINCIPLES OF ADVERTISING</td>
<td></td>
</tr>
<tr>
<td>MKT 352</td>
<td>NEW PRODUCT DEVELOPMENT</td>
<td></td>
</tr>
</tbody>
</table>

**Marketing Management**

Many chief executives of top U.S. companies have a background in marketing. Strong marketing provides a key competitive advantage in a dynamic global economy. The marketing management emphasis is appropriate for students with a general interest in planning, development, and introduction of products and services. You may consider the Standard concentration or the IME program in Marketing to pursue this career path. A student interested in marketing management should take the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MKT 315</td>
<td>STRATEGIC TOOLS FOR MARKETERS</td>

</tr>
<tr>
<td>MKT 352</td>
<td>NEW PRODUCT DEVELOPMENT</td>
<td></td>
</tr>
</tbody>
</table>

**Digital Marketing Concentration, Marketing (BSB)**

Digital marketer, showing a 39% growth rate, has become one of the most important job titles in the marketing industry. Estimates are that marketers’ communications budgets will exceed $120 billion by 2021 and advertising through digital means will represent 29% of that figure. A significant point relative to DePaul’s student and employment base is that the state of Illinois is the third ranked employer of people with digital backgrounds. All organizations, for-profit and not-for-profit, large and small, need digital marketing to be successful. The Marketing Department offers the Digital Marketing Concentration for students to prepare to succeed in this industry. A student majoring in Marketing with this concentration must complete the following requirements totaling at least 28.0 hours:

**Course Requirements**

<table>

**Communication Requirement**

Driehaus students majoring in Marketing must complete MKT 376 for the Communication requirement in the Business Core.

**Second Marketing Concentration**

While a student may complete more than one Marketing concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.
Global Business Perspective

If a MKT course or ICS 350 is shared between Global Business Perspective and the Marketing major, additional hours of Open Elective credit are required. Any MKT or ICS 350 used for Global Business Perspective course must be passed with C- or higher.

Experiential Learning

MKT 393 is required in the Digital Marketing Concentration. Consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Marketing (MKT) courses and any other courses used toward the Marketing major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Sales Leadership Concentration, Marketing (BSB)

The demand for trained and knowledgeable sales people has never been greater. Sales careers offer independence, ample financial reward, personal growth and opportunities for rapid advancement within the organization. The Sales Leadership Program produces business graduates who can sell by joining traditional classroom education with real-world learning experience. Classes are led by faculty with extensive sales experience and by sales executives from leading corporations. Students experience rigorous classroom learning designed to deliver the knowledge and practical skills they will need to succeed during the first years of their careers including: oral and written communication, selling technique and networking, use of technology in customer strategy and identification, and development of organization leadership in a sales environment. Successful students will enjoy opportunities to visit companies, take paid internships, and interview with leading companies for entry-level positions. A student majoring in Marketing with this concentration must complete the following requirements totaling at least 28.0 hours:

Course Requirements

Communication Requirement

Driehaus students majoring in Marketing must complete MKT 376 for the Communication requirement in the Business Core.

Second Marketing Concentration

While a student may complete more than one Marketing concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Graduation Requirements

All Marketing (MKT) courses and any other courses used toward the Marketing major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Standard Concentration, Marketing (BSB)

The Standard Marketing concentration provides students with the flexibility to tailor their programs to fit a wide array of career interests. Graduates with a marketing major have many career opportunities in the various areas of marketing such as advertising, market research, sales management, or marketing management. The department offers electives that focus in each area. Majors may wish to group their elective courses
with a concentration or specific career orientation in mind, although this is not required. A student majoring in Marketing with this concentration must complete the following requirements totaling at least 28.0 hours:

### Communication Requirement

Driehaus students majoring in Marketing must complete MKT 376 for the Communication requirement in the Business Core.

### Second Marketing Concentration

While a student may complete more than one Marketing concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

### Global Business Perspective

If a MKT course or ICS 350 is shared between Global Business Perspective and the Marketing major, additional hours of Open Elective credit are required. Any MKT or ICS 350 used for Global Business Perspective course must be passed with C- or higher.

### Experiential Learning

Sharing of MKT 393 between Experiential Learning and the Marketing major may be possible; consult with academic advisor.

### Graduation Requirements

All Marketing (MKT) courses and any other courses used toward the Marketing major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

### Marketing (BSB) Online

The ultimate goal of an organization is to satisfy the needs and wants of its customers profitably. The Marketing Department offers a variety of courses designed to develop and sharpen student skills to analyze and solve marketing problems. Successful marketing requires the ability to know how and when to do research, how to analyze markets and behavior, and how to develop products and services that satisfy or even anticipate customers’ needs. The purpose of the undergraduate program in Marketing is to prepare students for successful marketing careers by teaching them the knowledge and skills to identify marketing problems and develop solutions that meet customer needs.

The Marketing major with a Digital Marketing Concentration is offered fully online.

### Learning Outcomes

#### Core Outcomes

Students will be able to:

- Use analytical and reflective skills in decision-making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

#### Program Specific Outcomes

Students will be able to:

- Create a value proposition.
- Distinguish features and benefits of products and services.
• Describe how external factors and demographic change affect demand for products and services.
• Identify marketing problems and develop appropriate solutions by collecting, analyzing, and interpreting data.
• Create a marketing plan.
• Use marketing methodologies/tools to make strategic decisions.

College Core Requirements

Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of analytics, accountancy, mathematics, economics, business law, finance, management, management information systems/computer science, and marketing.

Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 70.0 hours are required:

<table>
<thead>

1 Strobel students take specially designated sections of all required ACC classes, including ACC 101 and ACC 102 (excluding ACC 250).
2 Students majoring in accounting (primary or secondary/double major) are allowed to substitute ACC 370 in place of BLW 201. Hospitality Leadership majors must take HSP 207 for the Business Law requirement; use of HSP 207 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete both HSP 207 and BLW 201.
3 Finance majors, Finance secondary/double majors, Finance minors, Finance Honors majors, Finance Honors secondary/double majors, and Actuarial Science majors must take FIN 320.
4 MGT 301-H is required if pursuing the Management Honors Program. MIS majors and minors must take MIS 140.
5 Actuarial Science and Economic Data Analytics majors must take CSC 241.
6 MKT majors and Sales minors must take MKT 376.
7 Entrepreneurship majors and minors must take ICS 394.
8 A course taken for Global Business Perspective that is in a student’s major or minor field must be completed with a minimum grade of C-.
Business Ethics
All undergraduate students in the Driehaus College of Business complete a course in Business Ethics. It is recommended students take MGT 248 or PHL 248 in Philosophical Inquiry or MGT 228 or REL 228 in Religious Dimensions in the Liberal Studies Program (or University Honors Program) Requirements.

Second Majors and Minors
The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements for all business majors (except Actuarial Science majors)
- MAT 137 may be replaced by MAT 348 or MAT 351.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 Students must earn a C- or better.

Learning Domains
- Arts and Literature (AL) (p. 1300)
  - 3 AL Courses Required

- Historical Inquiry (HI) (p. 1304)
  - 2 HI Courses Required

- Math and Computing (MC) (p. 1306)
  - Not Required

Philosophical Inquiry (PI) (p. 1307)
- 2 PI Courses Required

Religious Dimensions (RD) (p. 1308)
- 2 RD Courses Required

Scientific Inquiry (SI) (p. 1310)
- 1 SCBI Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
- 1 SCBI Course Required

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements
Course Requirements
In addition to MKT 301 and MKT 310, a student majoring in Marketing is required to complete the following courses totaling 34.0 hours plus 4.0 hours to be shared with the Business Core (38.0 hours total):

- Two required courses to be taken for 6.0 hours:
  - MKT 250 NAVIGATING MARKETING CAREERS (2 hours)
  - MKT 305 INTRODUCTION TO MARKETING RESEARCH

- One required course to be taken in Business Core:
  - MKT 376 EFFECTIVE BUSINESS COMMUNICATION

- The Digital Marketing Concentration (p. 736) of seven courses to be taken for 28.0 hours.

Communication Requirement
MKT 376 must be completed by students majoring in Marketing and serves as the Communication requirement in the Business Core.

Second Marketing Concentration
While a student may complete more than one Marketing concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration. A second concentration may not have online courses.

Career Management Course
Students are required to complete the Career Course (250) associated with the major. Students who double major may choose the Career
Course (250) associated with either major provided that hours for graduation are satisfied.

Global Business Perspective
If an MKT or ICS 350 course is shared between Global Business Perspective and the Marketing major, additional hours of Open Elective credit are required. Any MKT or ICS 350 course used toward the Global Business Perspective requirement must be passed with C- or higher.

Open Electives
Open elective credit (16.0 hours) is also required to meet the minimum graduation requirement of 192 hours.

Combined Bachelor’s + Master’s Program Participants
Students admitted to a Marketing Combined Bachelor’s + Master’s program may apply up to three approved graduate course(s) towards their undergraduate degree. Students should see academic advisor for additional information.

Graduation Requirements
All Marketing (MKT) courses and any other courses used toward the Marketing major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose the following:

• Digital Marketing Concentration, Marketing (BSB) Online (p. 741)

Digital Marketing Concentration, Marketing (BSB) Online
Digital marketer, showing a 39% growth rate, has become one of the most important job titles in the marketing industry. Estimates are that marketers’ communications budgets will exceed $120 billion by 2021 and advertising through digital means will represent 29% of that figure. A significant point relative to DePaul’s student and employment base is that the state of Illinois is the third ranked employer of people with digital backgrounds. All organizations, for-profit and not-for-profit, large and small, need digital marketing to be successful. The Marketing Department offers the Digital Marketing Concentration for students to prepare to succeed in this industry. A student majoring in Marketing with this concentration must complete the following requirements totaling at least 28.0 hours:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MKT 321</td>
<td>SOCIAL MEDIA MARKETING</td>

Communication Requirement
Driehaus students majoring in Marketing must complete MKT 376 for the Communication requirement in the Business Core.

Second Marketing Concentration
While a student may complete more than one Marketing concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration. A second concentration may not have online courses.

Global Business Perspective
If a MKT course or ICS 350 is shared between Global Business Perspective and the Marketing major, additional hours of Open Elective credit are required. Any MKT or ICS 350 used for Global Business Perspective course must be passed with C- or higher.

Experiential Learning
MKT 393 is required in the Digital Marketing Concentration. Consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements
All Marketing (MKT) courses and any other courses used toward the Marketing major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.
Marketing (Minor)

Students majoring outside the Driehaus College of Business may minor in Marketing to learn the foundations of marketing research, product development, advertising and sales.

Course Requirements

A non-Driehaus student minoring in Marketing is required to complete the following courses based on concentration and totaling at least 20.0 hours:

<table>
<thead>
<tr>

Graduation Requirements

All Marketing (MKT) courses and any courses used toward the Marketing minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Marketing (MS)

The Master of Science in Marketing prepares students with the knowledge and skills required to identify and develop products and services that meet customer needs. Taught by scholars and business leaders who bring the real world of marketing into the classroom, course work emphasizes proficiency in analysis, conceptual ability, planning and control of market activity. Upon graduating, students will be prepared for the challenges of a marketing career in an ever-changing and fast-paced business environment.

Program Features

The MS in Marketing program curriculum includes a wide range of courses that will provide you with a solid foundation in market analysis, evaluating market activity and management strategies, including:

• Marketing strategy and planning
• Research and analytical tools for marketing
• Analysis of consumer trends and business conditions
• Effective and ethical decision-making
• Business communication

Program Requirements

</tbody>
</table>

Learning Outcomes

Students will be able to:

• Appropriately apply relevant concepts and knowledge to applied business problems.
• Use analytical and reflective skills in making decisions.
• Communicate effectively in writing and in oral presentations.
• Recognize and analyze ethical problems within applied business situations, choose a resolution, and justify that ethical choice.

Degree Requirements

Course Requirements

Students in the MS in Marketing program must complete seven core marketing courses and five marketing electives. Please note that it is assumed that admitted students have prior coursework in statistics. Students without prior coursework in statistics must complete GSB 420 or GSB 519 prior to registering for MKT 525.

</tbody>
</table>

Please consult with a faculty member or advisor to assist with choosing the most appropriate courses to match your career goals.

Degree Requirements

• Satisfactory completion of the college residency requirement.
• Satisfactory completion of the seven core marketing courses and five marketing electives.
• All courses for credit toward the degree must be completed within six calendar years after the candidate’s first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree.
Marketing (MS), Combined Bachelor's + Master's Degree

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Marketing (MS)

The Master of Science in Marketing is designed to provide hands-on marketing experience under the mentorship of faculty who are experts in the professional world. The program will provide you with a broad-based knowledge of marketing strategy, consumer trends and data analysis, effective and ethical decision making and business communications.

DePaul degree-seeking undergraduate students interested in earning a Master of Science in Marketing may apply to the Marketing (MS) combined program. Students may be able to obtain both degrees in an expedited period, typically in five years.

Admission

Students must formally apply and be admitted to the Department of Marketing before beginning their graduate coursework. Undergraduate students who meet the following criteria may apply to this program:

- Junior standing or higher (at least 88.0 credits)
- A minimum cumulative DePaul grade point average of 3.200

Students participating in this program will typically take the following three graduate level courses during their senior year:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MKT 555</td>
<td>MARKETING MANAGEMENT</td>
<td>4</td>
</tr>
<tr>
<td>MKT 545</td>
<td>CONSUMER BEHAVIOR</td>
<td>4</td>
</tr>
<tr>
<td>MKT 576</td>
<td>EFFECTIVE BUSINESS COMMUNICATION</td>
<td>4</td>
</tr>
</tbody>
</table>

1 Students who have taken MKT 376 as undergraduates may substitute a Marketing elective for MKT 576.

These three courses may double-count up to 12 credits towards both degree programs. The undergraduate degree will be awarded at the completion of all undergraduate work while the MS in Marketing will be awarded upon completion of the remaining graduate level work.

Marketing Analysis (MS)

The Master of Science (MS) in Marketing Analysis is designed for students interested in a quantitative approach to marketing. The program encompasses: marketing research; strategy and planning; mastering analytical tools; and analyzing, interpreting and applying data. Classes are taught by scholars and business leaders who bring the real world of marketing into the classroom.

Program Features

The MS in Marketing Analysis program provides students with skills and knowledge that are sought after by a wide range of organizations. Through the program, students develop an in-depth understanding of:

- The role of data in customer and market analysis
- Data analysis to detect trends, exceptions and business opportunities
- The latest marketing analytic tools
- Decision-making strategies
- How to create marketing strategies based on data collection and interpretation

<table>

<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Degree Requirements</td>
<td>48</td>
</tr>
<tr>
<td>Total hours required</td>
<td>48</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Use analytical and problem-solving skills in decision-making.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Recognize and analyze ethical problems within applied business situations, choose a resolution, and justify that ethical choice.
- Be knowledgeable about the differences among global economies, institutions, and cultures and understand the implications these have on global management.
- Demonstrate higher-order cognitive skills to analyze an unstructured problem, formulate and develop a solution using appropriate technology, and effectively communicate the results to stakeholders.

Degree Requirements

Course Requirements

Students should have sufficient knowledge in statistics to enter the program. If students need to acquire these skills one of the following courses will be required:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GSB 420</td>
<td>BUSINESS ANALYTICS TOOLS</td>
<td>4</td>
</tr>
<tr>
<td>or GSB 519</td>
<td>BUSINESS ANALYTICS TOOLS (FORMERLY GSB420)</td>
<td>4</td>
</tr>
</tbody>
</table>

Students complete the MS in Marketing Analysis by taking seven required courses and five elective courses for a total of 12 courses.

¹ MKT 798: Predicting Consumer Choice Behavior cannot be used as an elective for the MS in Marketing Analysis program.

Degree Requirements

- Satisfactory completion of the college residency requirement.
- Satisfactory completion of 12 courses (7 required courses and 5 elective courses: 2 from marketing electives and 3 are from the analytical group).
- All courses for credit toward the degree must be completed within six calendar years after the candidate’s first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree.

Marketing Analysis (MS), Combined Bachelor’s + Master’s Degree

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Marketing Analysis (MS)

The Master of Science in Marketing Analysis is designed for early career professionals to gain a quantitative approach to real-world marketing challenges in preparation for a career in business and marketing analytics, market research, interactive marketing, or other data-driven marketing roles. The program will provide you with a broad-based knowledge of customer and market analysis, detecting trends and business opportunities, the latest marketing analytics tools, and decision-making strategies.

DePaul degree-seeking undergraduate students interested in earning a Master of Science in Marketing Analysis may apply to the Marketing Analysis (MS) combined program. Students may be able to obtain both degrees in an expedited period (as few as five years).

Admission

Students must formally apply and be admitted to the Department of Marketing before beginning their graduate coursework. Undergraduate students who meet the following criteria may apply to this program:

- Junior standing or higher (at least 88.0 credits)
- A minimum cumulative DePaul grade point average of 3.200

Students participating in this program will typically take the following three graduate level courses during their senior year:

<table>
<thead>
<tr>
<th>Course</th>

<td>MKT 576</td>
<td>EFFECTIVE BUSINESS COMMUNICATION ¹</td>
<td>4</td>
</tr>
</tbody>
</table>

¹ Students who have taken MKT 376 as undergraduates may substitute a Marketing elective for MKT 576.

These three courses may double-count up to 12 credits towards both degree programs. The undergraduate degree will be awarded at the completion of all undergraduate work while the MS in Marketing Analysis will be awarded upon completion of the remaining graduate level work.

Marketing Honors (BSB)

IME, the honors sequence in Marketing, gives a select group of undergraduate students a hands-on opportunity to develop skills in marketing management while interacting with a Chicago area business. The real world focus of IME is an outgrowth of DePaul’s strong links to the Chicago business community.

Instead of a series of classes that address a single marketing function, the IME curriculum features courses that address marketing issues in the way that managers are likely to encounter them. The stage is set for lifelong learning in the marketing profession.

IME students are selected on a competitive basis. The evaluation is based on an interview, writing sample and performance in previous marketing and other coursework. Classes are limited in size and offered only once per year.
Program Requirements Quarter Hours
Business Core Requirements 70
Liberal Studies Requirements 72
Major Requirements 34
Open Electives 16
Total hours required 192

Learning Outcomes

Core Outcomes
Students will be able to:

- Use analytical and reflective skills in decision-making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Program Specific Outcomes
Students will be able to:

- Create a value proposition.
- Distinguish features and benefits of products and services.
- Describe how external factors and demographic change affect demand for products and services.
- Identify marketing problems and develop appropriate solutions by collecting, analyzing, and interpreting data.
- Create a marketing plan.
- Use marketing methodologies/tools to make strategic decisions.

College Core Requirements

Business Core Requirements
All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of analytics, accountancy, mathematics, economics, business law, finance, management, management information systems/computer science, and marketing.

Course Requirements
For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 70.0 hours are required:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACC 101</td>
<td>INTRODUCTION TO ACCOUNTING I</td>
<td>4</td>

FIN 310  INTRODUCTION TO FINANCE  4
MAT 137  BUSINESS STATISTICS  4
MGT 300  PRINCIPLES OF MANAGEMENT  4
MGT 301  PRINCIPLES OF OPERATIONS MANAGEMENT  4
MKT 301  PRINCIPLES OF MARKETING  4
MKT 310  CONSUMER BEHAVIOR  4

Computer Science or MIS
Select one of the following:
CSC 241  INTRODUCTION TO COMPUTER SCIENCE I  4
MIS 140  INTRODUCTION TO BUSINESS TECHNOLOGY AND DECISION MAKING

Communication
Select one of the following:
MKT 376  EFFECTIVE BUSINESS COMMUNICATION
ORGC 201  BUSINESS AND PROFESSIONAL COMMUNICATION

Business Capstone
Select one of the following:
ICS 394  ENTREPRENEURSHIP STRATEGY
ICS 395  MANAGEMENT STRATEGY
ICS 396  HOSPITALITY STRATEGY (Hospitality majors only)

Global Business Perspective
Select 4.0 hours of the following:
ECO 316  EUROPEAN ECONOMIC HISTORY
ECO 330  RADICAL RESPONSES TO CAPITALISM
ECO 333  TOPICS IN GLOBAL ECONOMIES
ECO 334  UNDERSTANDING CHINA’S ECONOMY
ECO 360  ECONOMICS OF LOW-INCOME COUNTRIES
ECO 361  INTERNATIONAL TRADE
ECO 362  INTERNATIONAL MONETARY ECONOMICS
ECO 363  ECONOMICS OF THE EUROPEAN UNION
FIN 340  INTERNATIONAL FINANCE
FIN 355  GLOBAL IPOs & VENTURE CAPITAL
ICS 350  INTERNATIONAL BUSINESS SEMINAR
MGT 354  GLOBAL HUMAN RESOURCE MANAGEMENT
MGT 357  INTERNATIONAL BUSINESS
MKT 340  MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
MKT 358  MARKETING IN A GLOBAL ENVIRONMENT
MKT 360  INTERNATIONAL MARKETING
SOC 217  WORK IN A GLOBALIZED WORLD

A course taken as part of a term-long study abroad program

Professional Writing
Select one of the following:
WRD 202  PROFESSIONAL WRITING FOR BUSINESS (2.0 quarter hours)
WRD 204  TECHNICAL WRITING
WRD 206  PROFESSIONAL WRITING
1. Strobel students take specially designated sections of all required ACC classes, including ACC 101 and ACC 102 (excluding ACC 250).

2. Students majoring in accounting (primary or secondary double major) are allowed to substitute ACC 370 in place of BLW 201. Hospitality Leadership majors must take HSP 207 for the Business Law requirement; use of HSP 207 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete both HSP 207 and BLW 201.

4. MGT 301-H is required if pursuing the Management Honors Program.

5. MIS majors and minors must take MIS 140. Actuarial Science and Economic Data Analytics majors must take CSC 241.

6. MKT majors and Sales minors must take MKT 376.

7. Entrepreneurship majors and minors must take ICS 394. Hospitality Leadership majors must take ICS 396 for the Business Capstone; use of ICS 396 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete ICS 396 and one of ICS 394 or ICS 395.

8. A course taken for Global Business Perspective that is in a student’s major or minor field must be completed with a minimum grade of C-.

### Business Ethics

All undergraduate students in the Driehaus College of Business complete a course in Business Ethics. It is recommended students take MGT 248 or PHL 248 in Philosophical Inquiry or MGT 228 or REL 228 in Religious Dimensions in the Liberal Studies Program (or University Honors Program) Requirements.

### Second Majors and Minors

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

### Math Requirements for all business majors (except Actuarial Science majors)

- MAT 137 may be replaced by MAT 348 or MAT 351.

### Communication Requirement

Students majoring in Marketing must complete MKT 376 for the Communication requirement.

### Global Business Perspective

If a MKT course or ICS 350 is shared between Global Business Perspective and the Marketing major, additional hours of Open Elective credit are required.

### Grade Minimum Requirements for Marketing Major

A minimum grade of C- is required for the following: ACC 101, ACC 102, BUS 102, ECO 105, ECO 106, MAT 137, MKT 301, MKT 310, MKT 376, the course used for Professional Writing, and any MKT course used for Global Business Perspective.

---

### Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

- 2 PI Courses Required

#### Religious Dimensions (RD) (p. 1308)

- 2 RD Courses Required

1. PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD.

#### Scientific Inquiry (SI) (p. 1310)

- 1 Lab Course Required

#### Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)

- 1 SCBI Course Required
Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

In addition to MKT 301 and MKT 310, a student majoring in IME Honors Marketing is required to complete the following courses totaling at least 34.0 hours plus 4.0 hours to be shared with Business Core (38.0 hours total):

<table>

Communication Requirement

MKT 376 must be completed by students majoring in Marketing and serves as the Communication requirement in the Business Core.

Second Marketing Concentration

While a student may complete more than one Marketing concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Open Electives

Open elective credit (16.0 hours) is also required to meet the minimum graduation requirement of 192 hours.

Global Business Perspective

If a MKT course or ICS 350 is shared between Global Business Perspective and the Marketing major, additional hours of Open Elective credit are required. Any MKT or ICS 350 course must be passed with C- or higher.

Experiential Learning

MKT 393 is required in the Marketing Honors/IME major. Consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Marketing (MKT) courses and any other courses used toward the Marketing major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Marketing: Sales Leadership (Minor)

Available to students majoring outside the Driehaus College of Business, the Sales Leadership minor is for students interested acquiring skills in sales and category management: the interpretation of strategic consumer insight to help retailers maximize profitability and create an enjoyable shopping experience.

Course Requirements

A non-Driehaus student minoring in Sales Leadership is required to complete the following courses totaling at least 24.0 hours:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MKT 301</td>
<td>PRINCIPLES OF MARKETING</td>
<td>4</td>
</tr>
<tr>
<td>MKT 310</td>
<td>CONSUMER BEHAVIOR</td>
<td>4</td>
</tr>
</tbody>
</table>
Communication
Driehaus students minoring in Sales Leadership must complete MKT 376 for the Communication requirement in the Business Core.

Graduation Requirements
All Marketing (MKT) courses and any courses used toward the Marketing minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Master of Business Administration (MBA)
DePaul Master of Business Administration
The DePaul MBA empowers you to analyze and take action, inspire others and drive results in a rapidly changing world. Revised in 2020, the curriculum blends theory and practice and prepares you for career advancement. You’ll acquire sought-after skills for analyzing data to inform managerial decision-making while building your talent for leadership, teamwork and interpersonal intelligence. Real-world experiential learning that expands career potential is a key part of the program. You’ll have access to career management resources available exclusively for graduate business students and join a 65,000-strong DePaul business alumni network when you graduate. The DePaul MBA is available in three formats: full-time day, weekend and part-time evening. Concentrations are available in a wide range of business disciplines. DePaul also partners with corporations and organizations to offer MBA degrees for employees.

Learning Outcomes
Students will be able to:

- Use analytical and problem-solving skills in decision-making.
- Apply knowledge about the differences among global economies, institutions, and cultures to understand the implications these have on global management.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Effectively contribute to the performance of a group as the group addresses practical business situations, and assume a leadership role as appropriate.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Acquire broad-based knowledge and skills necessary to fulfill their professional goals.

Course Requirements for the MBA Program
The MBA program requires completion of sixteen courses (60 quarter hours)\(^1\). In addition to the eleven core course (40 quarter hours)
requirements below, students must select five courses/electives (20 quarter hours) to specialize in a business area of their choice.

- Strategy, Execution and Valuation, Master of Business Administration (MBA) (p. 759)

### Accountancy, Master of Business Administration (MBA)

The Accountancy MBA concentration provides you with coursework that is critical to decision-making in the accounting profession. The program includes theory and concepts, technical knowledge, practical skills and familiarization with the tools and methodologies used by an accountant or a manager making accounting decisions. You will develop skills in critical thinking, problem-solving and financial management. You will gain business acumen to understand financial transactions within a company. The curriculum covers all of the accounting course areas to prepare you to sit for the CPA exam.

### Highlights

You will graduate with a set of varied competencies, all of which are highly sought after in the accounting field. The structure of the concentration will provide you with:

- A comprehensive curriculum covering all important sectors of the field identified by top-ranking members of the auditing and accounting profession, including big data analysis, internal audit, fraud and forensic accounting and information systems.
- Opportunities to work with audit systems used by accounting professionals.
- Experience learning from nationally and internationally recognized faculty.
- Access to a large and active alumni group called Ledger & Quill, which supports students with scholarship opportunities, mentorship and annual networking events.
- Several accounting-related student organizations, allowing for interaction with peers, alumni and working professionals.

### Concentration Requirements

This concentration requires completion of any three graduate-level accounting courses. Students select an individualized set of courses using the content areas below as a guide. Students may focus on one area of courses or combine courses from multiple areas depending on what matches their career aspirations.

### Accounting for Managers

<table>

</tr>
</tbody>
</table>

### Highlights

In this concentration, you will gain the knowledge, competencies and skills to:

- Help businesses and organizations adapt to the ever-changing economic environment.
- Relate the domestic and global economic outlooks to your business’s or organization’s markets, as well as advanced applications for bridging strategic analysis to financial forecasts and valuation.
- Prepare and interpret forecasts for businesses regarding optimal pricing, sales and advertising, marketing policies, purchasing, industrial relations and investment and portfolio decisions.
- Conduct empirical analyses of business and consumer decision-making.
- Apply evidence-based methodology to inform decisions and policy.

### Concentration Requirements

#### Course Requirements

To complete this concentration, students are required to complete three graduate-level Economics courses. ECO 502, ECO 509 and ECO 555 (if taken to satisfy core requirements) are not approved for use as MBA concentration electives.

### Applied Economics, Master of Business Administration (MBA)

DePaul’s MBA concentration in Applied Economics gives students a deeper understanding of the fundamentals that govern economic activity.
Business Analytics, Master of Business Administration (MBA)

The MBA in Business Analytics will equip you with sought-after skills for understanding and using data to improve business performance. The curricula blends data science, including statistics, decision modeling and data visualization, with essential business knowledge in the areas of operations, accounting/finance, management and marketing. You’ll gain expertise in data-driven managerial decision-making that can be applied to a wide range of business functions and fields, including marketing, finance, operations, human resources, healthcare and hospitality.

Concentration Requirements

Course Requirements

To complete the Business Analytics concentration, students are required to complete four classes: MGT 585 and three of the following four classes: MGT 586, MGT 587, MGT 588, and ECO 520.

Table: Business Analytics, Master of Business Administration (MBA)

Business Strategy and Decision Making, Master of Business Administration (MBA)

- Be a clear and strategic thinker in the business world.
- Learn how to diagnose strategic positions, evaluate alternative courses of action, and make the best possible decisions.

DePaul's MBA concentration in Business Strategy and Decision Making will give you the framework for making business decisions in a disciplined and strategic way. In this concentration, you will learn how to diagnose strategic positions, evaluate alternative courses of action and make the best possible decisions based on your objectives. You will accomplish this through extensive class discussions, case-study analysis and hands-on exercises.

Highlights

In this concentration, you will gain knowledge and abilities to:

- Create value for customers.
- Correctly diagnose a problem or position, make the best decisions to improve upon this position and sustain the improvement.
- Apply price and other strategies to gain a competitive edge and to enter or block entry to market.
- Capture value in various market settings by positioning and differentiating products for profitability.
- Innovate and reformulate entire business models based on networks, platforms and eco-systems.
- Develop negotiation skills that are important in the economic and business world, as well as in day-to-day life.
- Apply insights from psychology and behavioral sciences to understand economic and business decisions and formulate strategic plans and policies.

Concentration Requirements

Course Requirements

The concentration requires three classes. The concentration consists of two required core classes: ECO 525, which provides a general framework for strategic thinking; ECO 526, which lays out the economic foundations of strategy; and one elective course that best matches your personal and professional objectives.

Table: Business Strategy and Decision Making, Master of Business Administration (MBA)

Custom, Master of Business Administration (MBA)

The Custom MBA concentration provides you with the flexibility to create your own MBA focus based on your unique career goals. This degree is ideal if you want to combine a set of electives that are tailored to the precise skill set you need to advance in your career, or if you have multiple interests that you would like to combine. If you do not declare a specific concentration at the beginning of the program, you will be assigned the Custom MBA concentration.

Highlights

In this concentration:

- You have the freedom to choose any five Kellstadt elective courses to earn the Custom MBA concentration after completing your core MBA courses.
- Electives are available in a wide range of subjects and disciplines, from accountancy, finance, economics and real estate, to management, marketing and hospitality leadership.
- Academic advisors are available to help you design your course of study to meet your career goals.
Concentration Requirements

Students complete the concentration in Custom MBA by completing any five elective courses offered by the Kellstadt Graduate School of Business.

With this option, the student is free to choose elective courses from among the different areas of study within the graduate school of business without concern for whether these courses satisfy the requirements of a specific concentration.

If a student does not declare a specific concentration, the student will be assigned the Custom MBA concentration at the beginning of the program.

Entrepreneurship, Master of Business Administration (MBA)

DePaul’s nationally ranked Entrepreneurship program will prepare you to start and grow your own business or to manage innovative processes in established firms. In the Entrepreneurship concentration, you will focus on the life-cycle issues of firms—from pre-venture and start-up to growth and maturity—as well as venture spin-offs and team and leadership issues.

The interrelated courses and learning experiences will teach you to master complex and ill-defined management issues across functional business areas. All courses are based on real-life entrepreneur issues and live case studies.

Highlights

You will gain the skills and abilities to:

- Think creatively and generate new business ideas.
- Develop your business idea through market analysis.
- Write a business plan.
- Assess your entrepreneurial leadership skills.
- Implement successful growth strategies.
- Build an entrepreneurial spirit within established firms.
- Consult for local businesses.
- Interact directly with entrepreneurs and innovators.

Students and alumni have access to DePaul’s highly respected Coleman Entrepreneurship Center and Center for Innovation, as well as 1871, Chicago’s premier business incubator, through DePaul’s 1871 membership. The Coleman Entrepreneurship Center offers practical guidance and professional connections for launching and growing businesses through workshops, guest speakers and new venture competitions that engage DePaul with the Chicago entrepreneurial and venture capital community. The Center for Innovation fosters innovative strategies and tools for breakthrough thinking. Named one of the Top 10 innovation programs by Fortune Small Business, the center offers programs and workshops including the annual Student Innovation Awards Competition. The center’s Innovation Lab offers Design Thinking projects for students and businesses and 3D printing services.

Concentration Requirements

The Entrepreneurship MBA concentration requires students to complete any four of the graduate-level entrepreneurship-related courses. To help guide your class selections, below are examples of courses you could choose by career interests, with highly recommended courses for these career paths indicated with ¹.

### New Venture Management

¹ MGT 573 can apply as a concentration course for students enrolled in an MBA program prior to Fall 2020.
Finance, Master of Business Administration (MBA)

The Finance MBA concentration provides you with in-depth, applied learning that will enable you to successfully understand, analyze and navigate today's increasingly sophisticated global financial markets. Go beyond textbooks into the real world of stocks, investments, capitalization and banking while learning to use the latest high-tech financial software and market tools. You will receive a solid base of knowledge about various financial sectors and broaden your understanding of the issues that are inherent to finance decision-making, while focusing on the impact these decisions have on the public and private sectors of the global economy.

You have the choice of specializing in a particular area of finance—such as corporate finance, investments, derivatives or banking—or you may take a broad array of courses.

Highlights

In this program, you will gain the skills and knowledge to:

- Understand stock market analyses, institutional investing and portfolio management in domestic and global markets.
- Correctly valuate companies and markets through access to cutting-edge market research technology.
- Recognize and grasp the role and function of central banks in our economy and how their interactions with asset markets affect the larger economy.
- Develop risk management strategies.
- Apply what you learn in DePaul's Virtual Trading Room, a state-of-the-art finance lab replete with the latest in financial analysis software.

Students and alumni have access to DePaul's finance industry-related centers, including the Arditti Center for Risk Management, Center for Financial Services and Driehaus Center for Behavioral Finance. These centers provide guidance, professional networking opportunities and real-world education through conferences that feature nationally and internationally known speakers, including executives from the Federal Reserve Bank of Chicago, Chicago Mercantile Exchange and Federal Deposit Insurance Corporation, among other financial institutions.

Concentration Requirements

This concentration requires completion of four graduate-level Finance courses including one required course and three electives. RE 530 may be taken as one of the elective courses to satisfy the four course requirement.

Course Requirements

<table>
<thead>
<tr>

Healthcare Markets and Analytics, Master of Business Administration (MBA)

This new MBA concentration focuses on how managers analyze and use health data to make managerial decisions. The MBA concentration is
based on decision-making algorithms applying data to economic models that emphasize incentives that all the players in the health care system face.

**Highlights**
The goal of this concentration is to provide students with a deep dive into the healthcare sector that enables students to become players in this extraordinary industry which accounts for over one-fifth of the U.S. economy. The concentration complements the general training students receive in the other business disciplines, but will be focused on the defined area of economics in the healthcare industry. The learning outcomes of this new concentration will expect students to identify and understand:

- How the healthcare sector is similar to, and different from, the rest of the economy.
- How the behavior of the healthcare sector adheres to and deviates from economic principles.
- The crucial and ever-increasing role of data in guiding the decision-making of both the healthcare industry and policy makers.

**Concentration Requirements**
The concentration consists of the following four courses (16 credit hours):

<table>
<thead>
<tr>

**Hospitality Leadership, Master of Business Administration (MBA)**
The Hospitality Leadership MBA concentration will help you develop skills to become a successful leader in the business of hospitality and tourism. You will gain skills to take a leadership role within hospitality operations in the context of guest experience and quality assurance. This concentration is ideal if you are a hospitality industry professional with a strong desire to enhance your knowledge and business skills or if you are looking to change your career and want to join the business side of hospitality operations.

**Highlights**
In this concentration, you will:

- Develop advanced hospitality leadership practices within the various industry segments (lodging, food and beverage, events, private clubs, etc.).
- Understand current trends in the industry and acquire the necessary skill set involving customer relationship management and service delivery.
- Learn management, marketing and hospitality strategies to enhance the business.

- Engage with fellow hospitality students who will become important career contacts.
- Have access to a world-class metropolitan environment in Chicago, allowing you to supplement knowledge from the classroom with real-world skills gained from learning and working within a vibrant hospitality scene.

**International Business, Master of Business Administration (MBA)**
The International Business concentration will prepare you to navigate effectively as a manager in a complex and ever-changing global business environment. With the increasing interdependence of national economies and the growth of global enterprises, understanding international business frameworks and issues is vital to decision-makers. Through a multidisciplinary curriculum that includes accounting, economics, finance, management and marketing courses, you will have a chance to explore how businesses can manage the development of international commerce. Students taking this concentration must fulfill a foreign language requirement and have some international exposure outside of the classroom.

**Highlights**
This program provides:

- A global approach to macroeconomics and microeconomic topics, including trade theory, international financial policy and emerging markets, as well as insight into the global business environment.
- An understanding of the international economic and socio-cultural issues vital to decision-makers.
- Basic theory and knowledge of the current issues in international economics, accounting, finance, marketing and management.
• The opportunity to gain international exposure outside of the classroom through a study abroad business seminar. This seminar provides an excellent opportunity to expand your knowledge beyond the classroom and gain exposure to other cultures. Seminars are typically one-to-three weeks long and are scheduled to coincide with breaks between quarters in the academic calendar.

Concentration Requirements
Course Requirements
To complete this concentration, students must complete four courses from the following:

Management Information Systems, Master of Business Administration (MBA)

The Management Information Systems concentration teaches you how to analyze and define information systems requirements in various business situations and, much like an architect; guide others to build to these requirements. You will learn how to evaluate emerging disruptive technologies, how to align information technology with business strategy and how to address information systems needs from a business perspective. This degree will prepare you for professional roles involving IT planning and strategy. The program is ideal for business-minded, technically proficient students who may not have previous coursework or experience with information systems.

Highlights
In this concentration, you will gain:

• Project management experience involving a variety of information technologies and their utilization applicable to private and governmental organizations.
• Knowledge of the information systems life cycle and the nature of related phases and tasks, from initial study through post-implementation support.
• A thorough understanding of system requirements elicitation, analysis, documentation, validation and management.
• Techniques for working with users and builders of information systems.

• Tools for developing prototypes that use visual programming technology.
• Experience with identifying organizational data to design and manipulate databases.
• Integrated technical knowledge and understanding of business operations.

Concentration Requirements
To complete the Management Information Systems concentration, students must complete four courses from the following list:

<table>
<thead>
<tr>

Management, Master of Business Administration (MBA)

The MBA concentration in management provides you with in-depth, applied learning that will enable you to successfully organize, lead and direct others in the workplace. The program will prepare you for professional opportunities across industries, with a focus on self-awareness, leadership development, teamwork, project management and managing others.

Highlights
You have the flexibility to choose any four graduate-level management courses to fulfill your concentration after completing core MBA requirements. Depending on your goals, you could choose courses that prepare you for the following career paths:

• Coaching and Talent Development: Gain management coaching competencies to help others achieve change and performance improvement, and improve your individual leadership effectiveness and personal growth.
• Consulting: Master the process to consult with clients, including contracting, problem diagnosis, data analysis, and client feedback and evaluation.
• Leadership and Change Management: Learn the systematic process to design and lead change efforts that encompass diagnosing opportunities, creating change visions and developing readiness for change to improve organizational effectiveness.
• Managing Human Capital: Develop skills for strategically managing human resources to advance organizational goals, improve workforce performance and enhance employee satisfaction.
• Supply Chain Management: Increase your ability to critically evaluate supply chain design and model complex supply chain phenomena.
Concentration Requirements

The management MBA concentration (16 hours) requires students to complete any four graduate-level management courses. To help guide your class selections, below are examples of courses you could choose based on career goals.

Marketing Strategy and Planning, Master of Business Administration (MBA)

The Marketing Strategy and Planning MBA concentration puts you on track for upper-level management positions as it prepares you to master the art and science of business development and marketing. The program prepares you to find and evaluate new market opportunities, build strong customer relationships and design sustainable market strategies, as well as to understand organizational structure, competitive pricing and advantage, and external factors that affect marketing.

Highlights

In this concentration, you will gain knowledge and abilities to:

- Manage customers, product lines and new product development.
- Understand the design and sustainability of innovative business models.
- Develop plans and systematic strategies to achieve firm objectives.
- Analyze consumer behavior and translate your findings into sound business decisions.

Concentration Requirements

Course Requirements

The concentration in Marketing Strategy and Planning requires the following four courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MKT 535</td>
<td>MARKETING STRATEGIES AND PLANNING</td>
<td>4</td>

</tr>
</tbody>
</table>
Marketing, Master of Business Administration (MBA)

The Marketing MBA will help you sharpen your skills in four key areas: market research, category management, business development and digital marketing. You can specialize in one area or combine areas to further enhance your skill set. The program will provide you with the knowledge and skills necessary to identify and develop programs and products that meet customer needs, and it will prepare you for assuming and successfully discharging managerial responsibilities in marketing or marketing-related positions.

**Highlights**

In this program you can choose to focus on a variety of practical advanced marketing skills, including the ability to:

- Develop and conduct targeted market research, which will boost your interviewing and survey creation skills while you use advanced statistics to analyzing small data sets.
- Coordinate syndicated data from various sources and use it to develop marketing plans for your business or industry.
- Translate research data into real-world business decisions.
- Thoroughly understand category management and how it helps to make better purchasing and pricing decisions.
- Develop marketing plans that work in a multicultural market to support global new business development and expansion.
- Advance key skills in digital marketing and online consumer research.

**Concentration Requirements**

**Course Requirements**

The concentration in Marketing requires the following four courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MKT 535</td>
<td>MARKETING STRATEGIES AND PLANNING</td>
<td>4</td>
</tr>
</tbody>
</table>

Select a minimum of three additional graduate-level marketing courses.

**Not including MKT 555 MARKETING MANAGEMENT.**

Students may take additional graduate-level marketing courses as electives and are encouraged to consult with department faculty for course recommendations.

You can focus on one area of interest or take a broad array of classes to enhance your skills.

Here are some suggested courses for specific areas of interest. If you have some other topics in mind, a faculty member or advisor can help you choose the best courses to match your interests.

Real Estate Finance and Investment, Master of Business Administration (MBA)

DePaul’s MBA concentration in Real Estate Finance and Investment is a multidisciplinary program that will prepare you for leadership roles in the rapidly changing world of global real estate finance and investment. Through a combination of management, marketing, finance and investment courses, you will acquire the skills necessary to navigate this diverse industry. You will gain proficiency in a wide range of commercial real estate transactions, urban planning, financing and operations.

Highlights
In this concentration, you can choose from a diverse set of competencies and skills, which encompass how to:

- Manage complex real estate transactions by learning all aspects of these transactions, including finance and real estate investing, taxation, development, investment sales and capital market analysis.
- Manage urban planning initiatives and public sector enterprises.
- Facilitate financial and investment transactions.

In addition to the core curriculum, this concentration provides an exclusive opportunity to be paired with a senior real estate executive to learn first-hand the skills necessary to succeed in this industry.

Concentration Requirements
Course Requirements
To complete the Real Estate concentration, students must complete four courses from the following list:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>RE 530</td>
<td>REAL ESTATE INVESTMENT AND FINANCE</td>

Strategy, Execution and Valuation, Master of Business Administration (MBA)

The Strategy, Execution and Valuation (SEV) MBA concentration is a unique and innovative program for students seeking high level positions in corporate management, management consulting, investment banking, private equity and entrepreneurship. In this program, you will study the strategy, strategy execution and valuation of real companies in real time and learn to master the latest strategy frameworks, tools and valuation methods used by leading organizations. Graduates of the program emerge with highly marketable strategic-thinking skills and a deep understanding of the seamless connection between business strategy, execution, value creation and valuation.

Courses are presented in an executive seminar format and led by a team of top professors, executives and thought leaders. In these courses, you’ll create high-quality professional strategic analysis briefing reports and presentations on high performance companies, which will help you develop strategic analysis skills useful now and throughout your career. This concentration can be a valuable primary focus of your MBA studies or a secondary concentration that complements MBA concentrations in finance, entrepreneurship or other fields.

Highlights
In this concentration, you will learn:

- How to make a significant impact on the future of your organization and career by developing your strategic-thinking skills.
- How to evaluate and execute business strategies.
- Leading practices in strategic valuation and practical methods for driving valuations from strategic analysis by using the state-of-the-art tools of investment banks and research analysts.
- How to use strategy and valuation frameworks in real time to study and understand the performance of innovative high-performing companies.

Concentration Requirements
Course Requirements
The SEV concentration requires three SEV courses, focused on practical application:

Mathematical Sciences (BA)

The Department of Mathematical Sciences offers courses in pure and applied mathematics to help students reach a wide variety of intellectual, academic, and career goals.

Many students come to the department to obtain the mathematical background needed to be successful in programs in the natural sciences, computer science, social sciences, and business. Such students may choose to supplement their major in their home department by obtaining a minor in mathematics.

Other students come to the department seeking a program leading to an undergraduate or graduate degree in one of the mathematical sciences. Undergraduate students majoring in mathematical sciences may choose one of seven areas of concentration:

- Pure Mathematics
- Statistics
- Actuarial Science
- Financial Mathematics
- Quantitative Analysis and Operations Research
• Applied and Computational Mathematics
• In consultation with a mathematics faculty advisor, undergraduate students may also create an individualized program of courses leading to a degree in mathematical sciences.

A thesis option is available to mathematics majors who wish to pursue an extended independent project related to a theoretical or applied focus of the program. Students would work under the guidance of a faculty mentor. At least 4 credits must be completed over one or two quarters prior to the thesis submission. Interested students are strongly encouraged to enroll in MAT 390 during their junior year.

Program Requirements

<table>

</tr>
<tr>
<td>Open Electives</td>
<td>48-56</td>
</tr>
<tr>
<td>Total hours required</td>
<td>192</td>
</tr>
</tbody>
</table>

Learning Outcomes
Students will be able to:

• Construct valid logical arguments and analyze the reasoning of others.
• Implement a variety of mathematical structures to model and analyze complex problems.
• Apply general mathematical theory to solve problems in mathematics and in the sciences.
• Communicate mathematical ideas clearly, in verbal and visual form, but using appropriate mathematical terminology and notation.

College Core Requirements
Modern Language Requirements
Students who intend to graduate with the Bachelor of Arts (BA) degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

• completing the last course in the fourth-year high school sequence of any language
• completing the last course in the first-year college sequence of any language
• completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

BA students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While Bachelor of Science (BS) students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Major Declaration Requirements
All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Students must earn a C- or better in this course.

Students with a primary major in Mathematics are required to complete the Capstone offered by the Mathematics department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Mathematics are required to complete the Capstone offered by the Mathematics department. Mathematics students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

Learning Domains

Arts and Literature (AL) (p. 1300)
- 3 Courses Required

Historical Inquiry (HI) (p. 1304)
- 2 Courses Required

Math and Computing (MC) (p. 1306)
- Not Required

Philosophical Inquiry (PI) (p. 1307)
- 2 Courses Required

Religious Dimensions (RD) (p. 1308)
- 2 Courses Required

Scientific Inquiry (SI) (p. 1310)
- 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
- 3 Courses Required

Notes

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

Common Core

Course | Title | Quarter Hours
--- | --- | ---
Select one of the following three-course Calculus sequences: | | 12-18
Sequence One
MAT 150 | CALCULUS I | 
MAT 151 | CALCULUS II | 
MAT 152 | CALCULUS III |
Sequence Two
MAT 147 | CALCULUS WITH INTEGRATED PRECALCULUS I | 
MAT 148 | CALCULUS WITH INTEGRATED PRECALCULUS II |

Notes

1 This Calculus sequence is offered only during the summer, in two 6-credit hour courses. Students successfully completing MAT 131, MAT 147, MAT 150 or MAT 160 should enroll in MAT 155; students who successfully complete MAT 148, MAT 151 or MAT 161 should enroll in MAT 156. Students who successfully complete MAT 155 may enroll in either MAT 151 or MAT 156.

Concentration Requirements

Students must also complete the requirements from one of the following concentrations: Pure Mathematics; Statistics; Actuarial Science;
Financial Mathematics; Quantitative Analysis and Operations Research; Applied and Computational Mathematics; or Individualized.

If the student chooses to declare more than one Mathematical Sciences concentration, then the student must complete the requirements for each concentration, and take at least three additional 300-level courses overall. For example, a student earning two concentrations would have taken at least nine 300-level courses, and a student earning three concentrations would have taken at least twelve 300-level courses.

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Actuarial Science Concentration, Mathematical Sciences (BA) (p. 762)
- Applied and Computational Mathematics Concentration, Mathematical Sciences (BA) (p. 762)
- Financial Mathematics Concentration, Mathematical Sciences (BA) (p. 763)
- Individualized Concentration, Mathematical Sciences (BA) (p. 764)
- Pure Mathematics Concentration, Mathematical Sciences (BA) (p. 765)
- Quantitative Analysis and Operations Research Concentration, Mathematical Sciences (BA) (p. 765)
- Statistics Concentration, Mathematical Sciences (BA) (p. 766)

If the student chooses to declare more than one Mathematical Sciences concentration, then the student must complete the requirements for each concentration, and take at least three additional 300-level courses overall. For example, a student earning two concentrations would have taken at least nine 300-level courses, and a student earning three concentrations would have taken at least twelve 300-level courses.

Actuarial Science Concentration, Mathematical Sciences (BA)

Actuarial Science uses mathematics, statistics and financial theory to study uncertain future events, especially those that relate to risk management and insurance programs. This concentration prepares students to work for insurance or pension consulting firms, and government.

Applied and Computational Mathematics Concentration, Mathematical Sciences (BA)

The concentration in Applied and Computational Mathematics is intended for any student who enjoys mathematics, problem solving, and applications to solving practical problems in business, government, and science. The concentration is intended especially for students seeking a career as quantitative analysts, computational scientists, and applied mathematicians, and for those thinking of continuing the study of applied or discrete mathematics at the graduate level.

MAT 340  TOPOLOGY
MAT 341  STATISTICAL METHODS USING SAS
MAT 353  PROBABILITY AND STATISTICS III
MAT 355  STOCHASTIC PROCESSES
MAT 368  MATHEMATICS FOR FINANCE

Data Analysis Requirement, which can be satisfied via one of the following:
AP Statistics Credit (score of 3 or better)
MAT 137, MAT 242, MAT 341, MAT 348, IT 223, PSY 240, BIO 206, ENV 260, SOC 279

Students interested in graduate study in applied mathematics are encouraged to take: MAT 335 and MAT 336, MAT 370, MAT 385 and MAT 386.

Open Electives
Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Financial Mathematics Concentration, Mathematical Sciences (BA)

Financial mathematics concentration includes the set of courses that constitute the Finance Minor from the Driehaus College of Business. It includes courses that are relevant to contemporary financial mathematical modeling, along with courses in finance and their prerequisites.

Prerequisite Requirements
Students must meet the prerequisite of ACC 101, ECO 105, ECO 106 and MAT 137 (or a course in statistics) prior to some courses in the minor.

Course Requirements

<table>

Individualized Concentration, Mathematical Sciences (BA)

Advising
Students should consult with a mathematics faculty advisor and the department chair to create an individualized program of study leading to a degree in mathematics.

Course Requirements
An individualized program will normally consist of the Common Core in Mathematics plus six mathematics courses chosen from those included in the other concentrations and approved by the department chair.

Open Electives
Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Data Analysis Requirement
This requirement can be satisfied via one of the following:
- AP Statistics Credit (score of 3 or better) or
- Select one of the following electives:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>

Mathematical Sciences (BA) + Secondary Education Mathematics (MEd)
The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The TEACH Program combines a College of Science and Health (CSH) undergraduate Mathematics major or some other disciplinary major with a graduate level College of Education (COE) Master of Education (MEd) Program. Students graduate with a BS in their CSH disciplinary major and an MEd in Education with a State of Illinois Secondary Mathematics Certification.

Students may apply to the TEACH Program during the spring of their junior year. They must enroll in the Junior Year Experiential Learning course, TCH 320, and meet other application criteria; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 GPA. During their senior year, students are required to complete a TEACH Program capstone course, TCH 390, and three 400-level courses that count toward both their undergraduate and graduate degrees:

Junior Year Coursework : 4 undergraduate quarter hours required

<table>
<thead>

</tr>
</tbody>
</table>

All coursework in the content area must earn a grade of C or better.*
- Calculus I
- Calculus II
- Calculus III
- Intro to Math Reasoning or Discrete Math I and Discrete Math II
- Multivariable Calculus I
- Multivariable Calculus II
- Linear Algebra
- Programming Language
- Abstract Algebra I
- Theory of Numbers I or Abstract Algebra II
- Geometry I
- Geometry II or Real Analysis I
- Probability & Statistics
- History of Mathematics
- *The secondary mathematics content advisor will collaborate with you to design and schedule your mathematics content course sequence.
This combined degree program of the College of Science and Health and the College of Education was collaboratively developed, and is governed and taught by faculty from these units.

The Master's year comprises teacher-preparation coursework that culminates with student teaching during Spring quarter. Upon graduation and the fulfilling of State of Illinois licensure requirements (which may require some additional course work in the student's major and related fields), students are eligible to be licensed to teach Mathematics at the 5th-12th grade levels.

A full description of the TEACH Program can be found here. (p. 1137) Students interested in the TEACH Program should consult with the designated TEACH Program advisor in their home department.

**Pure Mathematics Concentration, Mathematical Sciences (BA)**

This concentration provides a broad mathematical exposure for students who are interested in studying and/or doing mathematical research at the graduate level.

Students interested in graduate study in mathematical statistics are encouraged to take the following:

Mathematical Sciences (BS)

The Department of Mathematical Sciences offers courses in pure and applied mathematics to help students reach a wide variety of intellectual, academic, and career goals.

Many students come to the department to obtain the mathematical background needed to be successful in programs in the natural sciences, computer science, social sciences, and business. Such students may choose to supplement their major in their home department by obtaining a minor in mathematics.

Other students come to the department seeking a program leading to an undergraduate or graduate degree in one of the mathematical sciences. Undergraduate students majoring in mathematical sciences may choose one of seven areas of concentration:

- Actuarial Science
- Applied and Computational Mathematics
- Financial Mathematics
- Pure Mathematics
- Quantitative Analysis and Operations Research
- Statistics
- In consultation with a mathematics faculty advisor, undergraduate students may also create an individualized program of courses leading to a degree in mathematical sciences.

A thesis option is available to mathematics majors who wish to pursue an extended independent project related to a theoretical or applied focus of the program. Students would work under the guidance of a faculty mentor. At least 4 credits must be completed over one or two quarters prior to the thesis submission. Interested students are strongly encouraged to enroll in MAT 390 during their junior year.

<td>192</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Construct valid logical arguments and analyze the reasoning of others.
- Implement a variety of mathematical structures to model and analyze complex problems.
- Apply general mathematical theory to solve problems in mathematics and in the sciences.
- Communicate mathematical ideas clearly, in verbal and visual form, by using appropriate mathematical terminology and notation.
College Core Requirements

Modern Language Requirements
Students who intend to graduate with the Bachelor of Arts (BA) degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

BA students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While Bachelor of Science (BS) students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Major Declaration Requirements
All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 Students must earn a C- or better in this course.
2 Students with a primary major in Mathematics are required to complete the Capstone offered by the Mathematics department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Mathematics are required to complete the Capstone offered by the Mathematics department. Mathematics students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

Learning Domains

Arts and Literature (AL) (p. 1300)
- 3 Courses Required

Historical Inquiry (HI) (p. 1304)
- 2 Courses Required

Math and Computing (MC) (p. 1306)
- Not Required

Philosophical Inquiry (PI) (p. 1307)
- 2 Courses Required

Religious Dimensions (RD) (p. 1308)
- 2 Courses Required

Scientific Inquiry (SI) (p. 1310)
- 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
- 3 Courses Required
Notes
Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

- MAT 149 CALCULUS WITH INTEGRATED PRECALCULUS III

Sequence Three
- MAT 160 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I
- MAT 161 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS II
- MAT 162 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III

Sequence Four
- MAT 170 CALCULUS FOR LIFE SCIENCES I
- MAT 171 CALCULUS FOR LIFE SCIENCES II
- Select one of the following:
  - MAT 149 CALCULUS WITH INTEGRATED PRECALCULUS III
  - MAT 152 CALCULUS III
  - MAT 162 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III

Sequence Five
- MAT 155 SUMMER CALCULUS I
- MAT 156 SUMMER CALCULUS II
- MAT 260 MULTIVARIABLE CALCULUS I 4-4.5
- MAT 261 MULTIVARIABLE CALCULUS II 4-4.5
- MAT 262 LINEAR ALGEBRA 4-4.5
- MAT 215 INTRODUCTION TO MATHEMATICAL REASONING 4-9
- or MAT 140 & MAT 141 DISCRETE MATHEMATICS I and DISCRETE MATHEMATICS II
- CSC 241 INTRODUCTION TO COMPUTER SCIENCE I (or a more advanced course in any programming language) 4-4.5
- MAT 398 SENIOR CAPSTONE SEMINAR (Liberal Studies Program Capstone) 4

Select four courses from any of the following: 16

Natural Sciences
- Computer Sciences:
  - All CSC courses may apply
- Data Science:
  - All DSC courses may apply
- Game Development:
  - GAM 244 GAME DEVELOPMENT I
  - GAM 245 GAME DEVELOPMENT II
  - GAM 350 PHYSICS FOR GAME DEVELOPERS
  - GAM 353 TOOL PROGRAMMING FOR GAME DEVELOPMENT
  - GAM 368 through GAM 391
  - GAM 394 through GAM 398
- Information Technology:
  - IT 223 DATA ANALYSIS
  - IT 278 COMMUNITY-BASED TECHNOLOGY PROJECTS
  - IT 231 through IT 240
  - IT 263 APPLIED NETWORKS AND SECURITY
  - IT 313 through IT 373
  - IT topics courses may only be accepted with advanced approval from the chair
- Software Engineering:
  - All SE courses may apply
- Select one of the following:
  - GEO 141 GEOGRAPHIC INFORMATION SYSTEMS I: DIGITAL MAPPING
  - GEO 243 REMOTE SENSING
  - GEO 345 PROGRAMMING IN PYTHON FOR GIS

Data Analysis Requirement, which can be satisfied via one of the following:

- AP Statistics credit (score of 3 or better)
- An applied statistics or data analysis course taken as one of the four Natural or Computer Science courses required for the BS
- One of the following electives: MAT 137, MAT 242, MAT 341, MAT 348, IT 223, PSY 240, BIO 206, ENV 260, SOC 279

The following concentration areas will automatically satisfy the data analysis requirement: Actuarial Science, Financial Math, Quantitative Analysis and Operations Research, and Statistics.
This Calculus sequence is offered only during the summer, in two 6-credit hour courses. Students successfully completing MAT 131, MAT 147, MAT 150 or MAT 160 should enroll in MAT 155; students who successfully complete MAT 148, MAT 151 or MAT 161 should enroll in MAT 156. Students who successfully complete MAT 155 may enroll in either MAT 151 or MAT 156.

Except CSC 382.

Courses may only be accepted with advanced approval from the chair.

Concentration Requirements

Students must also complete the requirements from one of the following concentrations: Pure Mathematics; Statistics; Actuarial Science; Financial Mathematics; Quantitative Analysis and Operations Research; Applied and Computational Mathematics; or Individualized.

If the student chooses to declare more than one Mathematical Sciences concentration, then the student must complete the requirements for each concentration, and take at least three additional 300-level courses overall. For example, a student earning two concentrations would have taken at least nine 300-level courses, and a student earning three concentrations would have taken at least twelve 300-level courses.

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Actuarial Science Concentration, Mathematical Sciences (BS) (p. 769)
- Applied and Computational Mathematics Concentration, Mathematical Sciences (BS) (p. 769)
- Financial Mathematics Concentration, Mathematical Sciences (BS) (p. 770)
- Individualized Concentration, Mathematical Sciences (BS) (p. 771)
- Pure Mathematics Concentration, Mathematical Sciences (BS) (p. 772)
- Quantitative Analysis and Operations Research Concentration, Mathematical Sciences (BS) (p. 772)
- Statistics Concentration, Mathematical Sciences (BS) (p. 773)

Actuarial Science Concentration, Mathematical Sciences (BS)

Actuarial Science uses mathematics, statistics and financial theory to study uncertain future events, especially those that relate to risk management and insurance programs. This concentration prepares students to work for insurance or pension consulting firms and government.

Applied and Computational Mathematics Concentration, Mathematical Sciences (BS)

The concentration in Applied and Computational Mathematics is intended for any student who enjoys mathematics, problem solving, and applications to solving practical problems in business, government, and science. The concentration is intended especially for students seeking a career as quantitative analysts, computational scientists, and applied mathematicians, and for those thinking of continuing the study of applied or discrete mathematics at the graduate level.

### Financial Mathematics Concentration, Mathematical Sciences (BS)

#### Prerequisite Requirements

Students must meet the prerequisite of ACC 101, ECO 105, ECO 106 and MAT 137 (or a course in statistics) prior to some courses in the minor.

#### Concentration Requirements

This concentration is a Mathematics Major that includes the set of courses which constitute the Finance Minor. It includes courses that are relevant to contemporary financial mathematical modeling, along with courses in Finance and their prerequisites.

Individualized Concentration, Mathematical Sciences (BS)

Course Requirements
Students may consult with a mathematics faculty advisor and the department chair to create an individualized program of study leading to a degree in mathematics. Typically, such a program will consist of the Common Core in Mathematics plus six mathematics courses chosen from those included in the other concentrations and approved by the department chair.

Open Electives
Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Data Analysis Requirement
This requirement can be satisfied via one of the following:
- AP Statistics credit (score of 3 or better)
- An applied statistics or data analysis course taken as one of the four Natural or Computer Science courses required for the BS
- One of the following electives:
  - Course    | Title                                      | Quarter Hours |

12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The TEACH Program combines a College of Science and Health (CSH) undergraduate Mathematics major or some other disciplinary major with a graduate level College of Education (COE) Master of Education (MEd) Program. Students graduate with a BS in their CSH disciplinary major and a MEd in Education with a State of Illinois Secondary Mathematics Certification.

Students may apply to the TEACH Program during the spring of their junior year. They must enroll in the Junior Year Experiential Learning course, TCH 320, and meet other application criteria; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 GPA. During their senior year, students are required to complete a TEACH Program capstone course, TCH 390, and three 400-level courses that count toward both their undergraduate and graduate degrees:

Sequence Five 1
Mathematics and Computer Science (BS) (College of Computing and Digital Media)

The BS in Mathematics and Computer Science is designed to prepare students to compete for the more intellectually demanding jobs in software development or for graduate study in various areas of computer science and applied mathematics such as theoretical computer science, graphics, data analysis, artificial intelligence, and computational methods.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

</tr>
</tbody>
</table>

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or as the Experiential Learning requirement.

Students with a primary major in Mathematics and Computer Science (joint degree) are required to complete one of the following Capstone courses: CSC 394, DSC 394, or MAT 398. Students double majoring or pursuing dual degrees with the primary major or primary degree in Mathematics and Computer Science (joint degree) are also required to complete one of these courses. Mathematics and Computer Science (joint degree) students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

  - MAT 149 | CALCULUS WITH INTEGRATED PRECALCULUS III |
  - or MAT 152 | CALCULUS III |
  - or MAT 162 | CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III |

Select Twelve (12) credit hours of CDM Major Electives: 12

Select Twelve (12) credit hours of MAT Major Electives: 12

Select Four (4) credit hours of CDM or MAT Major Elective: 4

Select Twenty-eight (28) credit hours of Open Electives: 28

Note: Students may take CSC 243 and one (1) Additional Major Elective in lieu of CSC 241 and CSC 242.

## Major Electives

Students must earn a grade of C- or higher in all major requirements and major elective courses.

For the major electives, it is recommended that students concentrate on one or two areas to achieve depth, but they are not required to do so. Students are strongly encouraged to discuss course selection with an advisor. Students may wish to arrange with a professor to take an independent study or a research experience (MAT 399 [https://catalog.depaul.edu/search/?P=MAT%20399]) or CSC 399 [https://catalog.depaul.edu/search/?P=CSC%20399] or IT 300 [https://catalog.depaul.edu/search/?P=IT%20300]) in order to explore a subject more deeply than is possible in a scheduled course.
### Theory of Computation
The courses in the theory of computation area explore the mathematical and logical foundations of computer science.

</table>
Students should discuss their interest in a CDM combined degree program with a CDM faculty advisor. Before admission to the degree, students should work with the faculty advisor to identify a course plan for the combined degree program, including the list of courses to take and how the courses will be applied toward both the undergraduate and graduate degrees. Non-CDM students can email the CDM advising office if interested in a combined degree with a CDM master’s degree.

If you are currently a CDM student and interested in combining your CDM bachelor’s degree with a non-CDM graduate degree, please contact the respective college for admission and application procedures.

Students enrolled in the Bachelor of Arts in Computing or the Bachelor of Arts in Professional Studies with a major in Computing joint degree programs between CDM and the School of Continuing and Professional Studies are eligible for this program. Interested students who meet the admission criteria for a combined degree should contact SCPS Academic Services for more information. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

**Program Structure**

Students in the combined degree program take a maximum of three (3) graduate level courses that count toward both their bachelor’s and master’s degree requirements. Students may enroll in graduate level coursework in the junior and senior year only. Students in the combined degree program will receive the bachelor’s degree after meeting all graduation requirements including the minimum credit hours required for graduation.

To earn the master’s degree, the student must earn as many additional graduate credit hours as needed to reach the minimum number of graduate credit hours required in that master’s degree.

Only CDM courses can be taken as part of this program. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

**Maintaining Good Standing**

Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter.

The student and faculty advisor will be notified when the student's cumulative GPA falls below 3.3 or when the students receives less than a C in graduate level course.

If a student’s cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional B.A./B.S./B.F.A.

If dismissed from the combined degree program after graduate courses have been passed, the graduate courses may only apply to the undergraduate degree. Should the student later be admitted to a graduate program, graduate courses applied to the undergraduate degree may not apply to the graduate program and may not be repeated if they are required in the declared graduate curriculum. Other graduate courses may be substituted in this case.

**Designing a Course of Study**

It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.
This course of study should include the graduate courses to be taken and the undergraduate courses that are replaced by the graduate courses. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.

It is advisable for the student and the faculty advisor to enter the proposed plan of study in the student communication record in BlueStar so it is available to the student and CDM faculty and staff.

Registering for Master's Degree Courses
Combined degree students must meet regularly with their faculty advisor. The faculty advisor will initiate the registration process for all graduate level courses taken during the undergraduate career.

Bachelor's Degree to Master's Degree Transition
In order to be fully admitted to the designated master's program, the student must meet all admission requirements for that program. When preparing to complete the undergraduate portion of the combined degree, students must submit the application for degree conferral for the undergraduate degree by the application deadline. At this time, the students should contact the CDM Academic Success Center about the procedure required to be formally admitted to the declared graduate program.

Mathematics and Computer Science (BS) (College of Science & Health)
The BS in Math and Computer Science is a joint degree between the College of Computing and Digital Media and the Department of Mathematics in the College of Science and Health. It provides challenging opportunities to exceptional students with an interest in the highly theoretical nexus of math and computer science. Mathematics is a key element to the theory and practice of computer science and technology:

- Number theory forms the basis for encryption algorithms for messages sent over the Internet.
- Facts from projective geometry and multivariable calculus underlie the computer algorithms that control computer animation.
- Properties of abstract groups are instrumental in correcting transmission errors that occur when information is sent from one computer to another.
- Graph theory and combinatorics are used to create algorithms for Internet search engines and analyze Internet routing protocols.

This program is intended to appeal to academically talented students. It is designed to prepare them for graduate study in various areas of computer science such as theoretical computer science, graphics, data analysis, artificial intelligence, and computational methods and in areas in applied mathematics such as numerical analysis or discrete mathematics. The program is also designed to prepare students to compete for the more theoretically complex jobs found in computer software development.

Students in the program will explore a broad range of fields including:

- Theory of computation
- Computational mathematics
- Artificial intelligence
- Data analysis

It is highly recommended that students concentrate on one or two areas for their advanced classes to achieve depth, but they are not required to do so. Faculty advisors are available to assist students in their selection.

Learning Outcomes
Students will be able to:

- Construct valid, logical arguments and analyze the reasoning of others.
- Model a computation problem, select appropriate algorithms and data structures for a solution, justify the correctness of the algorithm, and implement an application solving the problem.
- Use discrete and continuous mathematical structures to model problems and then solve them using appropriate techniques.
- Analyze the efficiency of a computational solution mathematically, and validate the analysis experimentally.

College Core Requirements
Modern Language Requirements
Students who intend to graduate with the Bachelor of Arts (BA) degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.
Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

BA students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While Bachelor of Science (BS) students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

**Major Declaration Requirements**

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

^1 Students must earn a C- or better in this course.

**Learning Domains**

- Arts and Literature (AL) (p. 1300) - 3 Courses Required
- Historical Inquiry (HI) (p. 1304) - 2 Courses Required
- Math and Computing (MC) (p. 1306) - Not Required
- Philosophical Inquiry (PI) (p. 1307) - 2 Courses Required (See note below)
- Religious Dimensions (RD) (p. 1308) - 2 Courses Required (See note below)
- Scientific Inquiry (SI) (p. 1310) - 1 Lab Course Required
- Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312) - 3 Courses Required

**Notes**

Students must take one of the following ethics courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

</tr>
<tr>
<td>REL/MGT 228</td>
<td>BUSINESS, ETHICS AND SOCIETY (RD)</td>
<td>4</td>
</tr>
</tbody>
</table>

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Students with a primary major in Mathematics and Computer Science (joint degree) are required to complete one of the following Capstone courses: CSC 394, GPH 395, or MAT 398. Students double majoring or pursuing dual degrees with the primary major or primary degree in Mathematics and Computer Science (joint degree) are also required to complete one of these courses. Mathematics and Computer Science (joint degree) students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Select One of the Following (Capstone) 4

- CSC 394 SOFTWARE PROJECTS
- DSC 394 DATA SCIENCE PROJECT
- MAT 398 SENIOR CAPSTONE SEMINAR

Select twelve (12) credit hours of CDM Major Electives 12
Select twelve (12) credit hours of MAT Major Electives 12
Select four (4) credit hours of CDM or MAT Major Electives 4
Select twenty-eight (28) credit hours of Open Electives 28

Note: Students may take CSC 243 and one (1) Additional Major Elective in lieu of CSC 241 and CSC 242.

## Major Electives

Students must earn a grade of C- or higher in all major requirements and major elective courses.

For the major electives, it is recommended that students concentrate on one or two areas to achieve depth, but they are not required to do so. Students are strongly encouraged to discuss course selection with an advisor. Students may wish to arrange with a professor to take an independent study or a research experience (MAT 399 [https://catalog.depaul.edu/search/?P=MAT%20399] or CSC 399 [https://catalog.depaul.edu/search/?P=CSC%20399] or IT 300 [https://catalog.depaul.edu/search/?P=IT%20300]) in order to explore a subject more deeply than is possible in a scheduled course.

### Theory of Computation

The courses in the theory of computation area explore the mathematical and logical foundations of computer science.

<table>
<thead>
<tr>

**Open Electives**

Open Elective credit hours are required to meet the minimum graduation requirements of 192 hours. Open Electives may be taken from any unit at DePaul.

See [www.cdm.depaul.edu](http://www.cdm.depaul.edu) to see sample schedule of course requirements on a year-by-year basis.

**Degree Requirements**

Students in this degree must meet the following requirements:

- Complete a minimum of 192 credit hours (generally 48 courses)
- Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses
• Earn a grade of D or higher in all other Liberal Studies and Open Elective courses
• Maintain a cumulative GPA of 2.0 or higher

Mathematics Education (MA)

The purpose of the program leading to the degree of Master of Arts in Mathematics Education is to improve the quality of mathematics instruction in schools within the greater-Chicago area and to offer a response to the shortage of secondary school mathematics teachers. This six-quarter degree program is offered on an accelerated basis during intensive weekend sessions and may be taken while in-service at the rate of two courses per quarter. However, students may proceed through the program at a slower pace depending upon their individual needs. The emphasis in the program is on mathematical content, but significant amounts of time are spent on methods of incorporating new teaching strategies and technologies in the classroom. The program is tied directly to secondary curriculum needs and is directed toward previously or currently certified teachers with degrees in non-mathematics fields, to teachers with bachelor's degrees in mathematics who wish to upgrade their command of the field, and to bachelor's degree holders in other fields who wish to enter teaching.

Admissions Information

This program is administered by the Department of Mathematical Sciences through the College of Science and Health. Details regarding admission requirements, course schedules, and so forth, can be found by contacting the Program Director in the Department of Mathematical Sciences. Registration for Master of Arts in Mathematics Education courses is open only to students formally admitted in the program or to those students who have the written authorization from the Program Director.

Learning Outcomes

Students will be able to:

• Construct a valid logical argument and analyze the reasoning of others.
• Translate a variety of problems, including real world situations, into the language of mathematics thereby leading to a mathematical solution.
• Solve a variety of mathematical problems by applying multiple approaches such as algebraic, numerical, and graphic.
• Communicate mathematical arguments and ideas verbally, making appropriate use of ordinary and mathematical language.

Degree Requirements

Course Requirements

MAMEd students are required to take twelve of the seventeen courses listed below.

<table>

Program Graduate Academic Student Handbook

Academic Probation

A student will be placed on academic probation if his/her cumulative GPA falls below 2.50 after completing at least eight credit hours.

Academic Dismissal

A student may be academically dismissed under one or more of the following violations of satisfactory progress:

• student's GPA only for the first twelve completed credit hours after being placed on academic probation is below 2.50.
• student's cumulative GPA after completing the first 24 credit hours after being placed on academic probation is below 2.50.
• lack of timely progress toward degree completion.
Readmission
The same readmission standards outlined in the Graduate Student Handbook and approval of the program director are observed for students in these programs.

Transfer Credit
No more than two graduate courses (8 quarter credit hours or its semester equivalent) may be transferred from another DePaul program or institution provided that they are equivalent to courses offered in DePaul's graduate program, and they did not count toward another degree either at DePaul or another institution. Written approval must come from graduate program director and associate dean for graduate studies.

Undergraduate Courses
No undergraduate courses shall count toward the graduate degree.

Graduation Requirements
Graduation Requirements include, but are not limited to, twelve graduate courses (48 credit hours) required by the program at a minimum cumulative GPA of 2.50.

Graduation with Distinction
A minimum cumulative GPA of 3.75 for coursework applied toward the MAMEd degree is required for graduation with distinction.

Time Limitation
The degree is expected to be completed in a maximum of five years.

Mathematics for Community College Teaching Certificate

</tbody>
</table>

Students in the Certificate in Mathematics for Community College Teaching ('Certificate') program must follow the academic standing, probation and dismissal guidelines, among other guidelines, found in the Program Graduate Academic Student Handbook for Master of Science in Mathematics for Teaching (MSMT).

Certificate seekers can be graduates of DePaul University's Master of Arts in Mathematics Education (MAMEd) program. The purpose of the Certificate is to fortify the MAMEd degree for students who wish to teach at the community college level.

The Certificate is comprised of five courses at 20 credit hours, those of which are part of DePaul's Master of Science in Mathematics Teaching (MSMT) degree but which are not part of the MAMEd degree. Students are restricted from earning both the Certificate and the MSMT.

Students in the Certificate program must apply for degree conferral via Campus Connection in advance of their final quarter in the program in order to have their coursework audited for the awarding and delivery of their certificate.

Mathematics for Teaching (MS)
The purpose of the program leading to the degree of Master of Science in Mathematics for Teaching is to improve the quality of mathematics instruction and to offer a response to the shortage of community college mathematics teachers. This degree program is offered on an accelerated basis primarily during intensive weekend sessions and may be taken at the rate of two courses per quarter. However, students may proceed through the program at a slower pace depending upon their individual needs. The emphasis in the program is on mathematical content, but significant amounts of time are spent on methods of incorporating new teaching strategies and technologies in the classroom. The program is tied directly to community college curriculum needs and is directed toward bachelor's degree holders in other fields who wish to enter teaching.

Learning Outcomes

Students will be able to:

- Construct a valid logical argument and analyze the reasoning of others.
- Translate a variety of problems, including real world situations, into the language of mathematics thereby leading to a mathematical solution.
- Solve a variety of mathematical problems by applying multiple approaches such as algebraic, numerical, and graphic.
- Communicate mathematical arguments and ideas verbally, making appropriate use of ordinary and mathematical language.

Program Graduate Academic Student Handbook

Academic Probation
A student will be placed on academic probation if his/her cumulative GPA falls below 2.50 after completing at least eight credit hours.

Academic Dismissal
A student may be academically dismissed under one or more of the following violations of satisfactory progress:

- student’s GPA only for the first twelve completed credit hours after being placed on academic probation is below 2.50.
- student’s cumulative GPA after completing the first 24 credit hours after being placed on academic probation is below 2.50.
- lack of timely progress toward degree completion.

Readmission
The same readmission standards outlined in the Graduate Student Handbook and approval of the program director are observed for students in these programs.

Transfer Credit
No more than two graduate courses (8 quarter credit hours or the semester equivalent) may be transferred from another DePaul program or institution provided that they are equivalent to courses offered in DePaul’s graduate program, and they did not count toward another degree from DePaul or another institution. Written approval must come from graduate program director and associate dean for graduate studies.

Undergraduate Courses
No undergraduate courses shall count toward the graduate degree.

Graduation Requirements
Requirements include, but are not limited to, 17 graduate courses required by the program at a minimum cumulative GPA of 2.50.

Graduation with Distinction
A minimum cumulative GPA of 3.75 for coursework applied toward the MSMT is required for graduation with distinction.

Time Limitation
The degree is expected to be completed in a maximum of five years.

Media and Cinema Studies (BA)

The College of Communication, located at the Loop Campus, offers a variety of courses leading to a Bachelor of Arts degree in Media and Cinema Studies. The BA in Media and Cinema Studies strategically combines faculty expertise, cutting-edge facilities, and a variety of course offerings within Communication, the School of Cinema and Interactive Media (CIM) (e.g., Digital Cinema), and other University units to provide students with the critical frameworks, creative opportunities, and technological expertise to become socially responsible leaders in the growing and converging areas of media studies. The major combines a rich course selection in four areas of study: film, radio, TV, and new media. Coursework combines theory and critical analysis with production courses taught at both the Lincoln Park (e.g., radio) and Loop campuses (e.g., television/video and cinema studies).

</tr>
</tbody>
</table>

Learning Outcomes
Students will be able to:

- Explain and/or demonstrate an understanding of the complexities of human communication.
- Examine media representations across registers of nation, citizenship, class, ability, religion, labor, gender, diasporas, race, migration, and/or ethnicity.
- Explain the potential relationships between and/or ethical issues regarding media, social movements, and local, national, and/or global cultures.
- Interpret media cultures within the contexts of technology, economics, and/or industry.

Modern Language Requirement (p. 784)

All majors in the College of Communication consist of a four-course common core plus an additional combination of program requirements and electives.

College Core Requirements

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CMN 101</td>
<td>INTRODUCTION TO HUMAN COMMUNICATION</td>
<td>4</td>
</tr>
<tr>

<td>INTRODUCTION TO MASS COMMUNICATION</td>
<td>4</td>
</tr>
<tr>
<td>CMN 103</td>
<td>INTERCULTURAL COMMUNICATION</td>
<td>4</td>
</tr>
<tr>
<td>CMN 104</td>
<td>PUBLIC SPEAKING</td>
<td>4</td>
</tr>
</tbody>
</table>

Students are encouraged to complete all four prior to taking additional coursework in the major.

Modern Language Requirement

Students who intend to graduate with a Bachelor of Arts degree in the College of Communication will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:
• completing the last course in a second year high school course work in a modern language or Latin
• completing the last course in the first-year college sequence of any language
• completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language (must be completed during high school)
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement. Students with some modern language training should consult with the Modern Language Department about the course with which they should begin. Students with little or no previous work in the language will be required to complete the entire three-course introductory sequence.

Modern Language Option
The Modern Language Option is available to all BA students who wish to study a modern language beyond the level necessary to meet the College's modern language requirement. Students selecting the option may substitute a three-course language sequence for three learning domain courses, or two upper-level courses in the same language for two learning domain requirements. Modern language option waivers cannot be applied to courses in the Math and Computing Domain or courses in the Scientific Inquiry domain. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

</tr>
</tbody>
</table>

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120.

The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

Learning Domains

Arts and Literature (AL) (p. 1300)
• 2 Courses Required

Historical Inquiry (HI) (p. 1304)
• 2 Courses Required

Math and Computing (MC) (p. 1306)
• 2 Courses Required
  [1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1307)
• 2 Courses Required

Religious Dimensions (RD) (p. 1308)
• 2 Courses Required

Scientific Inquiry (SI) (p. 1310)
• 2 Courses Required
  [1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
• 2 Courses Required

Note
Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Select three additional electives 2 12

1 Must be taken 2x w/ different creative topics to count for Production elective.
2 Select from any College of Communication course or from the Digital Cinema offerings listed above, provided that the DC classes in question have not already been taken under a MCS course number.
3 Students may take up to 4 hours of credit in this course toward graduation requirements.
4 A maximum of 8 credits from two credit College of Communication courses can be applied to major requirements.

Internships

Students in the major may take CMN 394 and/or CMN 395 (when work relates to the major). In order to take CMN 394 or CMN 395, students must have completed two of the four communication core classes (CMN 101, CMN 102, CMN 103, CMN 104), two courses in the chosen major and have fulfilled internship program eligibility requirements.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Media and Cinema Studies 3+3 (BA +JD)

In the 3 + 3 BA/JD Program, high-achieving first-year incoming undergraduate students are admitted simultaneously to the College of Communication and the College of Law. Students complete their first three years in the College of Communication and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA/JD students meet regularly with advisors in both colleges and have access to a variety of resources to ensure their success.

Key Program Features

• Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
• Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
• Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
• Students receive early (conditional) admission to the College of Law.
• Credits earned in the first year of law school apply toward the BA degree.
• Students may opt out of the College of Law segment of the program and continue in the College of Communication during their fourth year.

• If students withdraw after the first semester in the College of Law, they return to the College of Communication for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study. Students who enrolled in the BA+JD program prior to 2022 must achieve a cumulative GPA of 3.35 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

• PRELAW 150 THE PRACTICE OF LAW
• PRELAW 151 RECENT CONTROVERSIES IN THE LAW
• PRELAW 152 THINKING ABOUT THE LAW

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law's online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 677).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law’s median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Participating Majors

The BA/JD Program is available for students pursuing the following majors:

• Communication and Media (p. 236)
• Communication and Technology (p. 245)
• Communication Studies (p. 249)
• Journalism (p. 661)
• Media and Cinema Studies (p. 784)
• Organizational Communication (p. 861)
• Public Relations and Advertising (p. 952)
• Sports Communication (p. 1100)
For admission requirements and information, contact the Office of Admission (https://www.depaul.edu/admission-and-aid/Pages/default.aspx).

**Media and Cinema Studies (Minor)**

The Media and Cinema Studies minor combines courses from film, television, radio and new media. You will gain a historical and critical understanding of the media industry with the option to focus on one type of media.

**Course Requirements**

A minor in Media and Cinema Studies requires students to complete six courses (24 credits).

Students majoring in Media and Cinema Studies (BA) are restricted from earning this minor.
Medical Anthropology (Minor)

Medical Anthropology is the study of how health and illness are shaped, experienced, and understood in light of global, historical, and political forces. This area of specialization crosses two subfields in the discipline of Anthropology – Biological and Cultural Anthropology. This minor is especially appropriate for Health Science students.

Students majoring in Anthropology (BA) or minoring in Anthropology are restricted from earning this minor.

Metropolitan Planning and Development Certificate

This certificate program is designed for individuals who want to develop analytical skills and stay current on issues of regional land use, transportation, and economic development. It provides students with a perspective on the institutions of municipal and metropolitan planning and issues affecting the delivery of public services, and it explores innovative solutions to urban and suburban development problems. This certificate is offered in conjunction with The Chaddick Institute for Metropolitan Development. The Institute offers a variety of programs regarding land use, infrastructure and transportation in the region.

This certificate requires three courses (12 credit hours).

Middle Grades Education (BS)

This program is not currently available for admission.

The Bachelor of Science program in Middle Grades Education prepares teachers for eligibility for a teaching license and two IL endorsements in grades 5-8 (ie., Math & Science; Language Arts and Social Science).

The mission of the DePaul University College of Education's Middle Grades Teacher Education Program is to prepare educators who have passion for, understanding of, and commitment to working with young adolescents. We prepare educators who foster equitable, intellectually rich, socially just, and compassionate learning environments for diverse middle level youth. To accomplish this goal, our program is designed to cultivate in teacher candidates the pedagogical skills, subject area understandings, and social conscience necessary to enact thoughtful teaching practice. We aim to prepare critical, creative educators who continually reflect on and inquire into their practices in order to further their own and their students’ learning. Our teacher candidates develop a broad understanding of the contextual factors that impact the teaching, learning and growth of middle grade learners, including the ways in which society shapes our views of middle grades learners and the social, emotional, cognitive, spiritual, and physical dimensions of healthy adolescence. Through the integration of course work and field experiences, candidates learn about and apply interdisciplinary theories and practices that enable them to promote the intellectual curiosity, personal and academic excellence, and social and self-awareness of diverse middle level youth.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching. Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

Licensure

Illinois Professional Educator License with endorsement in Middle Grades Education (grades 5 - 8), an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes

Students will be able to:

• Use knowledge of young adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
• Demonstrate and apply disciplinary and pedagogical content knowledge with an emphasis on developing students' conceptual understanding and disciplinary literacy.
• Plan and deliver instruction that demonstrates knowledge of young adolescent learners and content.
• Implement assessment practices to evaluate student learning and inform instruction.
• Exhibit professionalism, pursue personal growth, and advocate for young adolescent learners and their communities.

College Core Requirements

Dispositions
The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:
• Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
• Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others' perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved.

The following dispositions apply to Special Education majors only:
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
• Takes initiative
• Is open to new ideas and engagement in learning
• Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students' learning
• Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
• Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Demonstrates consistent professional behavior across all academic settings
• Maintains appropriate interpersonal and professional boundaries
• Accepts personal responsibility for one's behavior
• Expresses feelings and opinions effectively and appropriately
• Upholds confidentiality

Skill Building Courses
Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement
Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:
• completing two years of a language sequence in high school
• completing the last course in the first-year college sequence of any language
• completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements
• Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
• Overall cumulative GPA of 2.50 or better
• Cumulative GPA of 2.75 or better in all education courses
• Meet all other program requirements (e.g., modern language and residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test(s)

Clinical Requirements
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.
Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

**Licensure**

Requirements for licensure include completion of full bachelor’s degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor’s degree. A bachelor’s degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.
3 This must be taken along with student teaching. Students must earn a C or better in this course.
Learning Domains

Arts and Literature (AL) (p. 1300)
• 3 Courses Required

Historical Inquiry (HI) (p. 1304)
• 2 Courses Required
  (Note: One must be in US History.)

Math and Computing (MC) (p. 1306)
• 2 Courses Required
  [1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1307)
• 2 Courses Required:
  • LSE 380
  • 1 Additional Course
    (Note: PHL 100 recommended)

Religious Dimensions (RD) (p. 1308)
• 2 Courses Required

Scientific Inquiry (SI) (p. 1310)
• 2 Courses Required:
  • 1 BIO Course
  • 1 CHE/ENV/GEO/PHY Course
    (Note: One course above must be SI-LAB.)

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
• 3 Courses Required:
  • PSC 120
  • 2 Additional Courses

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

First Content Area Course: 24 hours required, grade of C or better required
A content area is a single area of study in language arts, math, science, or social science (cannot include coursework in Education). At least two courses must be at the 200 or higher level.

Language Arts
• Introduction to Literature Course or a Survey of Literature Course
• Poetry course
• Grammar or Composition course
• Young adult, graphic novel, or advisor-approved course
• Diverse traditions or multicultural literature course
• Writing course

Mathematics
• Introduction to math reasoning course
• Geometry course
• History of math course
• Probability and statistics course
• Calculus course
• Math modeling, Programming language, or advisor-approved course

Science
• General biology (life science) course
• General chemistry (physical science) course
• General Earth science (Earth/space science) course
• General environmental science (Earth/space science) course
• General physics (physical science) course
• Science course (advisor-approved)

Social Science
• History course
• Geography course
• Civics/government course
• Economics course
• Social Science course (advisor-approved)
• Social Science course (advisor-approved)

Note that individuals can receive a reduction of 1 course in this area based on courses taken in the learning domains. This applies only to language arts, math, or social science. Talk to your advisor about applying the reduction.

Second Content Area: 20 hours required, grade of C or better required
A content area is a single area of study in language arts, math, science, or social science. The second content area must be a different area than the one chosen as the primary content area (cannot include coursework in Education). At least two courses must be at the 200 or higher level.

Language Arts
• Introduction to Literature Course or a Survey of Literature Course
• Poetry course
• Grammar or Composition course
• Young adult, graphic novel, or advisor-approved course
• Diverse traditions or multicultural literature course

Mathematics
• Introduction to math reasoning course
• Geometry course
• Probability and statistics course
• Calculus course
• Math modeling, Programming language, or advisor-approved course

Science
• General biology (life science) course
• General chemistry (physical science) course
• General Earth science (Earth/space science) course
• General environmental science (Earth/space science) course
• General physics (physical science) course
Social Science
- History course
- Geography course
- Civics/government course
- Economics course
- Social Science course (advisor-approved)

**Student Teaching: 10 quarter hours required, grade of B- or better required**

Registration in student teaching requires completion of all requirements and procedures in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. All students also take MGE 391, Student Teaching Seminar with student teaching (listed in the Liberal Studies section).

**Minors**

Students are eligible to complete any minor offered at DePaul University, including those related to the four Middle Grades Education content areas and to other areas of specialization in education. The minors related to the content areas and other areas of education include:

- Bilingual Education
- Biological Science
- Chemistry
- Coaching
- Creative Writing
- Economics
- English as a Second Language
- English as a Second Language/Bilingual Education
- English Literature
- Environmental Science
- Exceptionality and Learning
- Geography
- Health
- History
- Mathematics
- Physics
- Special Education

To complete a minor, students must fulfill all of the requirements of that minor as identified by the minor’s home department or program.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Middle Grades Education majors must complete the following tests:

- Content Area Test: Two tests are required before Student Teaching (deadlines apply). Students must take the test corresponding to each of their content areas – Language Arts (test #201), Math (test #202), Science (test #203), or Social Science (test #204).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

**Middle Grades Education (MEd)**

DePaul University's Middle Grades Education Master of Education program is a cohort program administered in collaboration with the Academy for Urban School Leadership (AUSL) that requires special admission. Please contact the Graduate Admissions office for more information.
The Master of Education program in Middle Grades Education prepares teachers for eligibility for a teaching license and IL endorsement in grades 5-8 (i.e., Math; Science; Language Arts; Social Science).

The mission of the DePaul University College of Education’s Middle Grades Teacher Education Program is to prepare educators who have passion for, understanding of, and commitment to working with young adolescents. We prepare educators who foster equitable, intellectually rich, socially just, and compassionate learning environments for diverse middle level youth. To accomplish this goal, our program is designed to cultivate in teacher candidates the pedagogical skills, subject area understandings, and social conscience necessary to enact thoughtful teaching practice. We aim to prepare critical, creative educators who continually reflect on and inquire into their practices in order to further their own and their students’ learning. Our teacher candidates develop a broad understanding of the contextual factors that impact the teaching, learning and growth of middle grade learners, including the ways in which society shapes our views of middle grades learners and the social, emotional, cognitive, spiritual, and physical dimensions of healthy adolescence. Through the integration of course work and field experiences, candidates learn about and apply interdisciplinary theories and practices that enable them to promote the intellectual curiosity, personal and academic excellence, and social and self-awareness of diverse middle level youth.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

Licensure

Illinois Professional Educator License with endorsement in Middle Grades Education (grades 5 - 8), an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes

Students will be able to:

- Use knowledge of young adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students' conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of young adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for young adolescent learners and their communities.
- Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved
Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world
language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Degree Requirements

Content Area Prerequisites

Middle Grades Education teachers need to have a deep understanding of the content area they will teach in the middle grades. DePaul’s program requires that students in the Middle Grades program have a minimum of 32 hours in their designated content area. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to their academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for Content Area: 32 quarter hours required, grade of C or better required

A content area is a single area of study in language arts, math, science, or social science (cannot include coursework in Education).

- Eight content courses:
  - Language Arts
    - Introduction to Literature Course or a Survey of Literature Course
  - Social Science course (advisor-approved)
  - Social Science course (advisor-approved)
  - Social Science course (advisor-approved)
  - Social Science course (advisor-approved)
  - Economics course
  - Civics/government course
  - History course
  - Geography course

- Science
  - General biology (life science) course
  - General chemistry (physical science) course
  - General Earth science (Earth/space science) course
  - General environmental science (Earth/space science) course
  - General physics (physical science) course
  - Science course (advisor-approved)
  - Science course (advisor-approved)
  - Science course (advisor-approved)
  - Science course (advisor-approved)
  - Social Science course (advisor-approved)
  - Social Science course (advisor-approved)
  - Social Science course (advisor-approved)
  - Social Science course (advisor-approved)

- Mathematics
  - Introduction to Mathematics Reasoning course
  - Geometry course
  - History of math course
  - Calculus course
  - Math modeling, Programming language, or advisor-approved course
  - Mathematics course (advisor-approved)
  - Mathematics course (advisor-approved)

- Introductory Courses: 26 quarter hours required, grade of C or better required

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Middle Grades Education majors must complete the following tests:

- Content Area Test.
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. All field experiences must be completed prior to final approval for student teaching. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Middle School Mathematics Education (MS)

The Middle School Mathematics Education (MSME) program strengthens teachers’ knowledge, understanding, skills, and judgment in order to increase student access to high quality mathematics instruction. The program will provide teachers with the deep knowledge and tools necessary to implement the Common Core State Standards in Mathematics in their teaching. The Department of Mathematical Sciences in the College of Science and Health and the College of Education offer the program jointly.

This program was designed collaboratively with practicing K - 8 teachers, mathematicians, and mathematics educators and therefore addresses fundamental questions in both math content and pedagogy. The courses are taught by faculty with extensive experience in teacher preparation as well the implementation of the CCSS-M. The goal of the program is that students taught by the program’s graduates will be successful learners of mathematics, will value mathematics as a subject, and will achieve the learning goals of the CCSS-M. The program includes the courses required for the Algebra Initiative Program of CPS.

Program Requirements | Quarter Hours
--- | ---
Degree Requirements | 48
Total hours required | 48

Learning Outcomes

Students will be able to:

- Use knowledge of young adolescent learners to create safe, equitable, and meaningful learning environments and collaborative mathematics classrooms.
- Plan and deliver rigorous mathematics instruction appropriate for young adolescent learners.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students’ conceptual and procedural understanding.
- Use visual, analytical, numerical, and verbal perspectives in the different content areas of mathematics in learning environments appropriate for young adolescence learners.
• Evaluate mathematics education research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

College Requirements

Dispositions
The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Reflects on his or her own progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
• Demonstrates a positive attitude and commitment to the profession
• Demonstrates thoughtful, effective verbal and non-verbal communication and listening skills
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates concern for and protection of safety and well-being of others

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Degree Requirements
Our twelve-course (48 quarter-hour) program is designed for teachers licensed in grades K-8. The program will allow participants to meet the requirements for an endorsement in middle school mathematics. This is a cohort program with groups of teachers taking the same courses together in the same order. All courses are 4 credit hours and twelve courses are required.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.
Museum Studies is an interdisciplinary endeavor that addresses the theory, organization, and management of museums and museum collections. Museums themselves are complex organizations within which a diversity of knowledge specialists work together to acquire, conserve, research, communicate and exhibit tangible and intangible evidence of people and their environment. The Museum Studies minor crosses the disciplines of Anthropology, History, and the History of Art & Architecture. The purpose of the minor is to provide students from diverse majors with knowledge about the role and function of museums in our lives as global citizens.

Interest in museums is at an all-time high as students and faculty as concerned with: (a) the role of museums in global tourism, urban economic development, multiculturalism and the creation of identities; (b) the developing importance of museums as sites of both research and employment; and (c) the way in which museums act as intersections among a broad range of academic disciplines. Additionally, as museums become more complex organizations, individuals seeking to work with or in these environments are increasingly expected to have formalized training in Museum Studies with transcript recognition of this training.

## Course Requirements

Six courses are required – at least two of which must be from the Core and three-four from Electives (i.e., two Core + four Electives OR three Core + three Electives), with no more than two Electives from any one department:

## Music (BA)

The Bachelor of Arts in Music degree is intended for students who wish to combine the study of music with liberal arts and sciences. In addition to music courses, the program is comprised of a broad range of liberal studies courses, along with a year of modern language. Students also take advanced courses in music, developing research
skills, which culminate in a final project or paper. The Bachelor of Arts in Music degree prepares students for a variety of careers related to music.

**Program Requirements**

<tr>
<td><strong>Total hours required</strong></td>
</tr>
</tbody>
</table>

**Program Specific Outcomes**

Students will be able to:

- Articulate professional goals and knowledge of resources to further those goals.
- Express deepening knowledge of music and culture in both local and global contexts effectively through creative work, speaking, and writing.
- Conduct an independent creative or research project that integrates knowledge from multiple fields and makes use of library, oral/aural, textual, and primary source materials.

**Music Core Requirements**

**Course Requirements**

All students in the School of Music are required to enroll in the following music courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MUS 110A</td>
<td>MUSIC THEORY I</td>
<td>2</td>

</tr>
</tbody>
</table>

Music History Sequence:

- MUS 110B | MUSIC HISTORY I | 2
- MUS 120B | MUSIC HISTORY II | 2
- MUS 130B | MUSIC HISTORY III | 2
- MUS 212B | MUSIC HISTORY IV | 1
- MUS 222B | MUSIC HISTORY V | 1

Aural Training Sequence:

- MUS 111 | AURAL TRAINING I | 1
- MUS 121 | AURAL TRAINING II | 1
- MUS 131 | AURAL TRAINING III | 1
- MUS 211 | AURAL TRAINING IV | 1
- MUS 221 | AURAL TRAINING V | 1
- MUS 231 | AURAL TRAINING VI | 1

Group Piano Sequence:

- MUS 113 | GROUP PIANO I | 1
- MUS 123 | GROUP PIANO II | 1
- MUS 133 | GROUP PIANO III | 1

- MUS 213 | GROUP PIANO IV | 1
- MUS 223 | GROUP PIANO V | 1
- MUS 233 | GROUP PIANO VI | 1

1. Students in the BM-Jazz Studies program are not required to take MUS 211, MUS 221, or MUS 231.
2. Students in the BM-Jazz Studies program are not required to take MUS 213, MUS 223, or MUS 233.

**Additional Courses**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MUS 303</td>
<td>BASIC CONDUCTING PRACTICUM</td>
<td>0</td>
</tr>
<tr>
<td>MUS 304</td>

</tr>
<tr>
<td>MUS 321</td>
<td>INTRODUCTION TO JAZZ HISTORY</td>
<td>2</td>
</tr>
<tr>
<td>MUS 322</td>
<td>ADVANCED MUSICIANSHIP</td>
<td>2</td>
</tr>
</tbody>
</table>

3. Students in the BM-Jazz Studies program are not required to take MUS 321 or MUS 322.

**Applied Music**

Students may enroll in a maximum of 3 credits of applied study per quarter, with a maximum of 36 credits total. The requirements for applied study vary by degree program:

- BM in performance, 36 credits
- BM in jazz studies, 32 credits
- BM in composition, 12 credits
- BM in music education, 18 credits
- BM in performing arts management, 18 credits
- BA in music, 12 credits
- BS in sound recording technology, performance track, 9 credits

The BS in Performing Arts Management degree does not require applied lessons, and the BS in Sound Recording Technology, non-performance track, degree does not require applied lessons.

Except performance majors, students may enroll in additional applied credits, which will count towards music electives.

**Modern Language Option**

If a music student wishes to study a modern language for a three-course sequence (12 credits) beyond their degree program’s requirement, the three MLO substitutions must be made in three different Liberal Studies learning domains. Any substitutions must be consistent with the principle that students complete at least one course in each learning domain. In the Scientific Inquiry domain, the only MLO substitution allowed is for Scientific Inquiry-Elective. Additional language credits may be applied toward non-music electives or free electives.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Program Checkpoints

Students are admitted to a specialization at their enrollment. Students are then allowed to continue in specialization courses on the basis of program checkpoints. The program checkpoints differ for each specialization, and students should contact the department chairs or program directors/ coordinators for more information. Students are not permitted to continue to enroll in specialization classes if they have not met the requirements of their program checkpoints.

Music Education (BM)

The Bachelor of Music in music education degree prepares students to teach K-12 instrumental and vocal music. The program is comprised of a broad range of courses emphasizing both the theory and practice of music education, taught by a faculty of distinguished music educators. Throughout the junior year, students have the opportunity to refine their skills and knowledge through a partnership with a Chicago Public School. During the senior year, students work with master teachers throughout the Chicagoland area while student teaching. Upon graduation, students are eligible for Illinois music teacher certification.
Program Requirements | Quarter Hours
--- | ---
Music Core Requirements | 71
Liberal Studies Requirements | 52
Specialization Requirements | 62
Electives | 7
Total hours required | 192

Learning Outcomes

Core Outcomes

Students will be able to:

- Perform solo and ensemble works with appropriate techniques and musicality.
- Identify and analyze the elements of music in a given piece, including an understanding of its compositional processes, aesthetic properties, and artistic, social, and historical contexts for works in the Western music tradition, Contemporary periods, Jazz, and World Music Cultures.
- Demonstrate an appropriate level of aural, keyboard, and conducting skills.

Program Specific Outcomes

Students will be able to:

- Apply musical knowledge and skills, artistic expression, and contextual understanding to the development of instruction and assessment in instrumental, vocal, and general music contexts that demonstrate an understanding of child development and that enable students to engage in music through creating, responding, performing, and connecting.
- Apply pedagogical knowledge and skills appropriate to the teaching of music in a manner which demonstrates an understanding of the impact of diversity, gender equity, special needs, and socio-economic status on education.
- Utilize tools such as technology and alternative methods of teaching to enhance learning and professional growth.

Music Core Requirements

Course Requirements

All students in the School of Music are required to enroll in the following music courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

<tr>
<td>MUS 321</td>
<td>INTRODUCTION TO JAZZ HISTORY</td>
<td>2</td>
</tr>
<tr>
<td>MUS 322</td>
<td>ADVANCED MUSICIANSHIP</td>
<td>2</td>
</tr>
</tbody>
</table>

3 Students in the BM-Jazz Studies program are not required to take MUS 321 or MUS 322.

Applied Music

Students may enroll in a maximum of 3 credits of applied study per quarter, with a maximum of 36 credits total. The requirements for applied study vary by degree program:

- BM in performance, 36 credits
- BM in jazz studies, 32 credits
- BM in composition, 12 credits
- BM in music education, 18 credits
- BM in performing arts management, 18 credits
- BA in music, 12 credits
- BS in sound recording technology, performance track, 9 credits

The BS in Performing Arts Management degree does not require applied lessons, and the BS in Sound Recording Technology, non-performance track, degree does not require applied lessons.

Except performance majors, students may enroll in additional applied credits, which will count towards music electives.

Modern Language Option

If a music student wishes to study a modern language for a three-course sequence (12 credits) beyond their degree program’s requirement, the three MLO substitutions must be made in three different Liberal Studies
learning domains. Any substitutions must be consistent with the principle that students complete at least one course in each learning domain. In the Scientific Inquiry domain, the only MLO substitution allowed is for Scientific Inquiry-Elective. Additional language credits may be applied toward non-music electives or free electives.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 Students must earn a C- or better.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.

### Learning Domains

- **Arts and Literature (AL)** (p. 1300)
  - 2 Courses Required
- **Historical Inquiry (HI)** (p. 1304)
  - 2 Courses Required
- **Math and Computing (MC)** (p. 1306)
  - Not Required
- **Philosophical Inquiry (PI)** (p. 1307)
  - 1 Course Required
- **Religious Dimensions (RD)** (p. 1308)
  - 1 Course Required

### Scientific Inquiry (SI) (p. 1310)
- 1 SWK or 1 Lab Course Required

### Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
- 1 Course Required

### Notes

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

### Major Requirements

#### Program Checkpoints

Students are admitted to a specialization at their initial enrollment. Students are then allowed to continue in specialization courses on the basis of program checkpoints. The program checkpoints differ for each specialization, and students should contact the department chairs or program directors/coordinators for more information. Students are not permitted to continue to enroll in specialization classes if they have not met the requirements of their program checkpoints.

### Liberal Studies Learning Domain Specifications

In the liberal studies learning domains, music education majors enroll in the following courses within the learning domains:

- LSE 380 fulfills the Philosophical Inquiry requirement
- PSC 120 fulfills Self, Society, & the Modern World
- One of the Historical Inquiry courses must be in U.S. History.

---

### Music Education (MM)

The graduate music education program offers certified music teachers the opportunity to earn a master’s degree in a little over two years with courses in the evenings and summers. Educational theory and practice merge throughout course work, and students have the flexibility to select elective areas of study. The program culminates with a final paper or project, allowing students to research an area of special interest.

### Learning Outcomes

#### Core Outcomes

Students will be able to:

- Identify and analyze the elements of music in a given piece, and demonstrate an understanding of its compositional processes, aesthetic properties, and artistic, social, and historical context.
- Demonstrate basic music research techniques and knowledge of standard reference tools and bibliographic sources, including the use of online databases.
- Develop effective writing skills for use in program notes, liner notes, abstracts, essays, or research papers.
- Develop an expanded global awareness and cultural understanding through musical study.
- Describe basic information about health and safety within the contexts of practice, performing, teaching, and listening; topics will include hearing, vocal, and musculoskeletal health and injury prevention.

#### Program Specific Outcomes

Students will be able to:

- Perform solo and ensemble works with appropriate techniques and musicality.
- Identify and analyze the elements of music in a given piece, including an understanding of its compositional processes, aesthetic properties, and artistic, social, and historical contexts for works in the Western music tradition, Contemporary periods, Jazz, and World Music.
- Demonstrate an appropriate level of aural, keyboard, and conducting skills.
- Apply musical knowledge and skills, artistic expression, and contextual understanding to the development of instruction and assessment in instrumental, vocal, and general music contexts that demonstrate an understanding of child development and that enable students to engage in music through creating, responding, performing, and connecting.
- Apply pedagogical knowledge and skills appropriate to the teaching of music in a manner that demonstrates an understanding of the impact of diversity, gender equity, special needs, and socio-economic status on education.
- Utilize tools such as technology and alternative methods of teaching to enhance learning and professional growth.
# Degree Requirements

## Course Requirements

A minimum of 48 quarter hours of graduate credit is required for the Master of Music degree. This total is divided between the basic studies required of all master’s degree students, and courses in the specialization.

### Music Electives (12 credits)

Students may take any 400 level courses within the School of Music, selected in consultation with their advisors.

## Terminal Requirements

Two terminal requirements are required of all students:

- A written comprehensive examination, in which the students must demonstrate a satisfactory knowledge of their major field of study.
- The completion of a final project.

## Residency Requirements

All courses for the master’s degree must be taken at DePaul University. Graduate credit for courses completed at other institutions may not be applied toward the degree.

The music education graduate program is designed to accommodate the schedule of working teachers, and students typically enroll part time for three summers and two intervening academic years. To earn full-time status, graduate students must be registered for a minimum of six quarter hours in any term. All requirements for the degree must be completed within six calendar years from the time a student is first enrolled. For students removing deficiencies, this period will begin when all deficiencies are removed and admission to the master’s degree program has been granted.

# Music Entrepreneurship Certificate

The Certificate in Music Entrepreneurship provides the needed foundation for students to become 21st century musicians, educators, and professionals in the field. It demonstrates the certificate holder’s commitment to becoming a “holistic” musician, in artistry, preparation for the gig economy, and honing skills to become a portfolio musician. This Certificate has been designed to be an optional value add-on to all music student’s undergraduate degrees, regardless of major. Students wishing to pursue a Certificate in Music Entrepreneurship must be undergraduate music students.

### Course Requirements:

<table>
<thead>
<tr>
<th>Course</th>

<td>4</td>
</tr>
</tbody>
</table>

1 Students may also take APM 309, Music Entrepreneurship, as it is cross-listed with PAM 309 and is the same class.

### Workshop Requirements

This Certificate requires that students attend four workshops through the School of Music Career Services. Workshops are offered once per quarter and topic examples include:

- The Freelancing Life: Networking, Booking Performances & Funding Your Projects
- Going Pro: How to Shift Your Thinking from Student to Professional Musician
- Putting Your Audience Center Stage
- Expand Your Inner Circle: Networking Your Way to Musical Success
- Wearing Many Musical Hats: Alternative Careers in Music
- Career Success Through Proactive Thinking

## Degree Auditing

Students pursuing the Certificate in Music Entrepreneurship must apply for degree conferral in Campus Connect in advance of their final
quarter in order to have their coursework audited for the awarding of their certificate.

**Music Industry: Music Business (Minor)**

The Music Business minor includes introductory music history and music theory courses as well as courses that are part of DePaul’s Performing Arts Management program.

### Course Requirements

- MUS 284 CINEMATIC SOUNDS: THE ROLE OF MUSIC IN FILM
- MUS 306 PUNK ROCK THROUGH THE YEARS: ISSUES & AESTHETICS
- MUS 310 INTRODUCTION TO ETHNOMUSICOLOGY

A maximum of six ensemble credits may be applied to the additional courses requirement. In addition, credit will be given for musicianship courses taken as a former music major.

Students who take both MUS 107 and MUS 277 are eligible to take COM 313.

Students majoring in Music are restricted from earning this minor.

**Music Industry: Music Recording (Minor)**

The Music Recording minor includes introductory music history and music theory courses as well as sound recording and commercial music production courses.

Music Performance (BM)

The Bachelor of Music in performance degree prepares students for careers in music, combining applied lessons on one’s instrument with a variety of ensemble and performing experiences. Students also study literature, pedagogy, and other areas related to musical performance. The faculty is comprised of highly celebrated performers, who are committed to teaching excellence.

Learning Outcomes

Core Outcomes

Students will be able to:

- Demonstrate a growing competence in technical aspects of performance, such as tone quality, pitch consistency, dynamic control, technical agility, accurate rhythmic concepts, and other skills particular to the area of specialization.
- Identify and analyze the elements of music in a given piece, including an understanding of its compositional processes, aesthetic properties, and artistic, social, and historical contexts for works in the Western music tradition, Contemporary periods, Jazz, and World Music Cultures.
- Demonstrate an appropriate level of aural, keyboard, and conducting skills.

Students will be able to:

- Develop an understanding of the pedagogical processes and theories that are foundational to performance practices and instruction on one’s primary instrument.
- Demonstrate a growing maturity in musical concepts using tools of performance to create artistic products.
- Demonstrate increasing knowledge of repertoire and growing musical competence through participation in solo, chamber and large ensemble performances.

Music Core Requirements

Course Requirements

All students in the School of Music are required to enroll in the following music courses:

<table>

</tr>
</tbody>
</table>

3 Students in the BM-Jazz Studies program are not required to take MUS 321 or MUS 322.

Applied Music

Students may enroll in a maximum of 3 credits of applied study per quarter, with a maximum of 36 credits total. The requirements for applied study vary by degree program:

- BM in performance, 36 credits
- BM in jazz studies, 32 credits
- BM in composition, 12 credits
- BM in music education, 18 credits
- BM in performing arts management, 18 credits
- BA in music, 12 credits
- BS in sound recording technology, performance track, 9 credits

The BS in Performing Arts Management degree does not require applied lessons, and the BS in Sound Recording Technology, non-performance track, degree does not require applied lessons.

Except performance majors, students may enroll in additional applied credits, which will count towards music electives.

Modern Language Option

If a music student wishes to study a modern language for a three-course sequence (12 credits) beyond their degree program's requirement, the three MLO substitutions must be made in three different Liberal Studies learning domains. Any substitutions must be consistent with the principle that students complete at least one course in each learning domain. In the Scientific Inquiry domain, the only MLO substitution allowed is for Scientific Inquiry-Elective. Additional language credits may be applied toward non-music electives or free electives.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Focal Point

Not Required

Writing

Notes

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Program Checkpoints

Undergraduate students in classical performance will perform a checkpoint audition at the end of their sophomore year. The
student's applied instructor and/or area coordinator or director will give students specific information on content and required music. Successful completion of the checkpoint audition is required for continuation in the performance degree.

Course Requirements
- Applied lessons
- APM 205
- APM 305

Concentration Requirements
Additional requirements are determined by the specific performance track that students choose. Students must also complete the requirements from one of the following concentrations: Brass; Guitar; Percussion; Piano; String Bass; Violin, Viola, Cello; Voice; Woodwinds.

1 Students in the Percussion concentration are not required to take APM 205.

Concentration Requirements
- Brass Concentration, Music Performance (BM) (p. 810)
- Guitar Concentration, Music Performance (BM) (p. 810)
- Percussion Concentration, Music Performance (BM) (p. 810)
- Piano Concentration, Music Performance (BM) (p. 810)
- String Bass Concentration, Music Performance (BM) (p. 811)
- Violin, Viola, Cello Concentration, Music Performance (BM) (p. 811)
- Voice Concentration, Music Performance (BM) (p. 811)
- Woodwinds Concentration, Music Performance (BM) (p. 812)

Music Performance (MM)

The Master of Music in performance degree prepares students for professional music careers in a supportive, collegial environment. Graduate students study with highly celebrated performers, who are committed to teaching excellence. The graduate performance program consists of applied lessons, ensembles, core studies in theory, history and research and related studies. The Master of Music degree is a two-year program.

Program Requirements

Total hours required 48

Learning Outcomes

Core Outcomes

Students will be able to:

- Demonstrate basic music research techniques and apply knowledge of standard reference tools and bibliographic sources to the writing of a variety of professional and academic music texts.
- Develop an expanded global, historical, and cultural understanding of music through the in-depth study of musical elements, compositional processes, and aesthetic properties.
- Demonstrate basic music research techniques and apply knowledge of standard reference tools and bibliographic sources to the writing of a variety of professional and academic music texts.

Degree Requirements

Course Requirements

A minimum of 48 quarter hours of graduate credit is required for the Master of Music degree. This total is divided between the basic studies required of all master’s degree students, and courses in the specialization.

### Terminal Requirements

Two terminal requirements are required of all students:

- A written comprehensive examination, in which the students must demonstrate a satisfactory knowledge of their major field of study. The comprehensive examination may be taken at any time after 32 quarter hours of graduate credit have been earned.
- The presentation of a public recital.

While preparation of the terminal requirement in the major may take place within some course or activity for which a student is registered for credit, additional academic credit is not granted for the project itself.

### Residency Requirements

All courses for the master's degree must be taken at DePaul University. Graduate credit for courses completed at other institutions may not be applied toward the degree.

To retain full-time status, a graduate student must be registered for a minimum of six quarter hours in any term. All requirements for the degree must be completed within six calendar years from the time a student is first enrolled. For students removing deficiencies, this period will begin when all deficiencies are removed and admission to the master's degree program has been granted.

### Music Studies (Minor)

The Music Studies minor includes an introduction to music history course and a music theory course alongside four courses in the School of Music that are part of the Arts and Literature Domain, including topics such as rock music, world music and songwriting.

Additional Courses

A maximum of six ensemble credits may be applied to the additional courses requirement. In addition, credit will be given for musicianship courses taken as a former music major.

Students who take both MUS 107 and MUS 277 are eligible to take COM 313.

Students majoring in Music are restricted from earning this minor.

Network Engineering and Security (BS)

The BS in Network Engineering and Security focuses on the theory and practice of designing, deploying and managing both wired and wireless networks technologies, including broadband Internet access technologies, interconnection technologies, network convergence, and network security.

</tbody>
</table>

Learning Outcomes

Students will be able to:

- Describe and demonstrate how data packets are addressed and forwarded through switches, routers, and firewalls.
- Compare and contrast different wide-area network (WAN) technologies to support enterprise network requirements.
- Compare and configure internal gateway routing protocols (RIP, OSPF, EIGRP) that dynamically determine data paths through networks with unreliable components.
- Define and allocate IPv4 and IPv6 address subnets to satisfy network requirements.
- Describe and contrast techniques for making use of multiple redundant paths in switched and routed networks.
- Implement firewall technologies to enforce a given access policy and assess its efficiency.
- Identify and analyze security threats in network implementations, propose remedies and prioritize action plans.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

<td>4</td>
</tr>
</tbody>
</table>

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Select eight (8) credit hours of Major Field Electives

1. Major Electives can be chosen from any 300-level NET or CSEC courses. Students must earn a grade of C- or higher in all major elective courses.

Open Electives

Open Elective credit hours are required to meet the minimum graduation requirements of 192 hours. Open Electives may be taken from any unit at DePaul.

See www.cdm.depaul.edu (http://www.cdm.depaul.edu) to see sample schedule of course requirements on a year-by-year basis.

Degree Requirements

Students in this degree must meet the following requirements:

- Complete a minimum of 192 credit hours (generally 48 courses)
- Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses
- Earn a grade of D or higher in all other Liberal Studies and Open Elective courses
- Maintain a cumulative GPA of 2.0 or higher
Network Engineering and Security (BS), Combined Bachelor’s + Master’s Degree

The combined Bachelor’s/Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Students who meet the admission requirements below may choose to apply to a combined degree program. Interested students should consult their faculty advisor regarding the application procedure. This program allows students to combine many CDM bachelor’s degrees with a CDM master’s degree following the structure outlined below.

Admission Criteria

- Minimum of 44 quarter hours earned
- Minimum of 12 quarter hours earned at DePaul
- GPA of 3.3 or higher in courses taken at DePaul
- Full admission to the designated master’s program requires meeting admission requirements (https://www.cdm.depaul.edu/Admission-and-Aid/Pages/Grad-Program-Requirements.aspx) for that program
- Faculty endorsement from a CDM full-time faculty member

Students should discuss their interest in a CDM combined degree program with a CDM faculty advisor. Before admission to the degree, students should work with the faculty advisor to identify a course plan for the combined degree program, including the list of courses to take and how the courses will be applied toward both the undergraduate and graduate degrees. Non-CDM students can email the CDM advising office (advising@cdm.depaul.edu) if interested in a combined degree with a CDM master’s degree.

If you are currently a CDM student and interested in combining your CDM bachelor’s degree with a non-CDM graduate degree, please contact the respective college for admission and application procedures.

Students enrolled in the Bachelor of Arts in Computing or the Bachelor of Arts in Professional Studies with a major in Computing (https://www.cdm.depaul.edu/academics/Pages/BA-Computing.aspx) joint degree programs between CDM and the School of Continuing and Professional Studies are eligible for this program. Interested students who meet the admission criteria for a combined degree should contact SCPS Academic Services (scpsadvising@depaul.edu) for more information. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

Program Structure

Students in the combined degree program take a maximum of three (3) graduate level courses that count toward both their bachelor’s and master’s degree requirements. Students may enroll in graduate level coursework in the junior and senior year only. Students in the combined degree program will receive the bachelor’s degree after meeting all graduation requirements including the minimum credit hours required for graduation.

To earn the master’s degree, the student must earn as many additional graduate credit hours as needed to reach the minimum number of graduate credit hours required in that master’s degree.

Only CDM courses can be taken as part of this program. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

Maintaining Good Standing

Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter.

The student and faculty advisor will be notified when the student’s cumulative GPA falls below 3.3 or when the students receives less than a C- in graduate level course.

If a student’s cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional B.A./B.S./B.F.A.

If dismissed from the combined degree program after graduate courses have been passed, the graduate courses may only apply to the undergraduate degree. Should the student later be admitted to a graduate program, graduate courses applied to the undergraduate degree many not apply to the graduate program and may not be repeated if they are required in the declared graduate curriculum. Other graduate courses may be substituted in this case.

Designing a Course of Study

It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.

This course of study should include the graduate courses to be taken and the undergraduate courses that are replaced by the graduate courses. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.

It is advisable for the student and the faculty advisor to enter the proposed plan of study in the student communication record in BlueStar so it is available to the student and CDM faculty and staff.

Registering for Master’s Degree Courses

Combined degree students must meet regularly with their faculty advisor. The faculty advisor will initiate the registration process for all graduate level courses taken during the undergraduate career.

Bachelor’s Degree to Master’s Degree Transition

In order to be fully admitted to the designated master’s program, the student must meet all admission requirements for that program. When preparing to complete the undergraduate portion of the combined degree, students must submit the application for degree conferral for the undergraduate degree by the application deadline. At this time, the students should contact the CDM Academic Success Center about the procedure required to be formally admitted to the declared graduate program.
Network Engineering and Security (MS)

The MS in Network Engineering and Security trains professionals who meet current industry demands for innovative network designs, and the development of new network applications and services for business enterprises and the network providers that serve them. This program offers theoretical and applied study of the design, configuration and management of converged communication networks.

Learning Outcomes

Students will be able to:

- Describe the operations and metrics of Border Gateway Protocol (BGP) routing, including the BGP path selection process.
- Contrast IPv6 and IPv4 routing, including protocol headers, routing protocols, subnetting, tunneling and translation mechanisms.
- Describe and compare Quality of Service (QoS) techniques for providing differentiated treatment of Voice over IP (VoIP) and data packet flows.
- Design a fault-tolerant network and identity protocols to implement and manage these networks.
- Explain methods used for authentication and integrity in public-key encryption systems, including digital signatures and PKI.
- Explain and demonstrate the operations of an Intrusion Detection System (IDS), including writing IDS rules.

Degree Requirements

Course Requirements

No Introductory Course may be substituted for any other course at any level.

Introductory Courses

Introductory courses may be waived for any of the following conditions:

- The student has the appropriate course work to satisfy an Introductory Course.
- The student has appropriate and verified professional experience to satisfy an Introductory Course.
- If an exam is available, the student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.

Students must achieve an average GPA of 3.0 or better in the five (5) Foundation Courses. Students who do not meet the Foundation Courses’ GPA requirement must retake the course with the lowest grade. If a number of such courses exist, it is up to the student to choose which class to retake. Only the higher grade will count toward the average grade for the purpose of completing the GPA Requirement.

Students who have not completed the Foundation Course and grade requirements can register for a maximum of four (4) Advanced Courses.

Major Elective Courses

Students must complete twelve (12) credit hours of Major Elective Courses, typically three 4-credit hour courses. Major Elective Courses must be in the range of 420-599 and must be chosen from NET or CSEC courses. A minimum of eight (8) credit hours must be 500-level.

CDM Open Elective Courses

Students must complete four (4) credit hours of CDM Open Elective Course. The Open Elective must be in the range of 420-699 and must be chosen from CSC, CSE, CSEC, NET, IS, SE, CSE, CMC, PM, IPD, HIT, HCL, or GAM courses. The Open Elective must not have been otherwise used to satisfy degree requirements. Credit for courses taken outside of the school will only be given if approved by a faculty advisor.

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in addition to any required introductory courses of the designated degree program.
• Complete all graduate courses and requirements listed in the designated degree program.
• Earn an average GPA of 3.0 or better in the five Foundation Courses.
• Earn a grade of C- or better in all courses of the designated degree program.
• Maintain a cumulative GPA of 2.5 or higher.
• Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same courses, but offered under different subjects.
• Students pursuing a second master’s degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

For DePaul’s policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook.

### Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn an average GPA of 3.0 or better in the five Foundation Courses.
- Earn a grade of C- or better in all courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same courses, but offered under different subjects.
- Students pursuing a second master’s degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

For DePaul's policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook.

### Neuroscience (BS)

Neuroscience is an integrative major that draws on existing courses from the natural, computational, and social sciences, as well as specific courses unique to the field of Neuroscience. Neuroscience has quickly become one of the fastest growing areas of study in both the natural and behavioral sciences. Its multidisciplinary nature attracts individuals not just from biology and psychology disciplines, but also from fields such as philosophy, anthropology, economics, mathematics and computer science.

Neuroscience majors are interested in studying the brain and nervous system in multiple different ways. Neuroscience majors consider fundamental concepts that underlie the function of the nervous system on a cellular and molecular level, how the nervous system produces behavior and cognition, and the role of computer science and mathematics in new technologies and therapies in neuroscience. Neuroscience majors have the option of concentrations in cellular/molecular, behavioral/cognitive or computational neuroscience to deepen their understanding and prepare for careers in these subfields. Additionally, Neuroscience majors can apply their knowledge of the nervous system to human health and disease and pursue professional programs in health, mental health, medicine, law, business, and computer science.

</tr>
</tbody>
</table>

### Learning Outcomes

Students will be able to:

- Describe how the cellular and systems level structure of the nervous system is responsible for neurological function, behavior, and cognition.
- Critically evaluate scientific literature in order to communicate core concepts in a clear and organized manner both verbally and in writing.
- Design and analyze scientific experiments.
- Explain challenges surrounding ethical thinking posed by advancements in neuroscience.
- Relate neuroscience content to other scientific and non-scientific disciplines.

### College Core Requirements

#### Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (BA) degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

<table>
<thead>
<tr>
<th>Course</th>

</table>
• completing the last course in the fourth-year high school sequence of any language
• completing the last course in the first-year college sequence of any language
• completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

BA students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While Bachelor of Science (BS) students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

</tbody>
</table>
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Behavioral/Cognitive Neuroscience Concentration, Neuroscience (BS) (p. 821)
- Cellular/Molecular Neuroscience Concentration, Neuroscience (BS) (p. 822)
- Computational Neuroscience Concentration, Neuroscience (BS) (p. 823)
- Integrative Neuroscience Concentration, Neuroscience (BS) (p. 824)

Students are limited to declaring one concentration.

Nonprofit Management (BA)

The Bachelor of Arts in Nonprofit Management from the School of Continuing and Professional Studies (SCPS) builds knowledge and skills for application in nonprofit settings, especially within administrative, supervisory and managerial positions. This program intentionally helps students to integrate liberal arts learning, inquiry and critical thinking skills, with a professional specialization. In this program, students have the opportunity to earn credit from prior learning from experience.

This major advances students’ foundational management knowledge and skills in a range of areas critical to nonprofit organization, especially project management, program development and evaluation, fundraising, human resources, risk management, leadership, workplace law, ethical conduct, data analytics, finance and professional communications. With a range of courses in the major offered as electives, students may choose courses and specialize in areas of particular interest to them.

This major is designed for working adult students and provides:

- Flexible scheduling including online options available
- Financial Aid, flexible payment options, and special adult student tuition pricing
- Acceleration and affordability through transfer credit and prior learning assessment (PLA) credit
- Opportunities to combine bachelor’s and master’s programs and apply graduate courses to both programs
- Individualized program planning, course selection and advising assistance provided
- Enhanced career opportunities through professional portfolio development, and career placement services instruction from industry practitioners, and wide-ranging Career Services support
- Degree granted by DePaul University, with its excellent academic reputation and the opportunity to join its prestigious and extensive alumni network

Open Electives 42
Total hours required 192

Learning Outcomes
Students will be able to:

• Analyze and apply knowledge and theories of nonprofit management and change to real world problems within a nonprofit context
• Apply ethical principles in context
• Investigate problems using qualitative and quantitative methods.
• Apply various methods of communication to multiple settings
• Analyze data and apply skills for effective decision-making in nonprofit organizations
• Analyze and apply different liberal arts perspectives to nonprofit management

College Core (78 credits, 20 credits in residence)
Lifelong Learning Requirements (32 credits, 16 credits in residence)

Nonprofit Management Major Electives (12 credits)

Students are encouraged to use their major elective credits to complete a thematic cluster of courses relevant to their professional goals. For example, they may wish to create a cluster relevant to the type of nonprofit they currently work for or wish to pursue. For example, students who intend to work for nonprofit organizations focusing on environmental issues, might want to take environmental studies courses.

Those who intend to work for health organizations might want to take courses concerning public health. Students can also develop a cluster around serving certain communities such as Latino, African American or LGBTQ Studies. Students also have the option of taking additional courses related to nonprofit management for their major electives.

Students should work with their academic advisors to identify an appropriate cluster theme and apply the courses to their major electives and open electives. Thematic clusters can be completed through DePaul courses, transfer courses or Prior Learning Assessment (PLA). The course list below are some major elective options.

### Open Electives (42 credits)

Open Electives can be fulfilled through courses taken in the School of Continuing and Professional Studies and other DePaul colleges, transfer courses, assessment of prior learning (PLA), and independent studies.
