### Nonprofit Management (MNM)

The Master of Nonprofit Management (MNM) at DePaul University prepares students interested in nonprofit management to serve the common good and advance a just society, in the spirit of St. Vincent de Paul. The MNM builds competencies in leadership, management, ethics and advocacy, reflecting the areas of study important to today's nonprofit professional.

Integrating best practices in nonprofit management with DePaul's rich, globally focused curriculum, the MNM degree was designed specifically to correspond with the curriculum goals of the Nonprofit Academic Centers Council (NACC).

#### Learning Outcomes

Students will be able to:

- Explain relevant issues in the non-profit sector to target audiences in appropriate written and oral formats.
- Apply an ethical framework in making an organizational decision on a current moral dilemma.
• Demonstrate the specific managerial and technical skillsets evident in the non-profit sector, including finance, the management of volunteers, fundraising, and advocacy.
• Apply the leadership and strategic planning skills essential to managing non-profit organizations.
• Demonstrate their research competencies through a multi-step self-assessment process.

Degree Requirements

Students complete 13 courses (52 credit hours). Ten courses (40 credit hours) of core course work and three courses (12 credit hours) of electives are required.

Internship Option

Students can opt to complete an internship or professional development experience. The student would enroll in MPS 601 (https://catalog.depaul.edu/university-catalog-archive/2020-2021-WinSprSum/search/?search=MPS%20601) for course credit, which will be applied to the MNM degree by the student’s adviser. Contact SPSAdvising@depaul.edu (spsadvising@depaul.edu) for more details.

Student Handbook

Students in the School of Public Service will follow many of the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in the School of Public Service. Please see information below.

Academic Probation

All students within the School of Public Service must maintain a minimum cumulative GPA of 2.7 or higher as part of their requirements for graduation. As a result, any student who earns a cumulative GPA below 2.7 (B-) is placed on academic probation. Students on academic probation are required to meet with the Assistant Director for Academic Advising to discuss their performance and determine a plan for improvement.

Dismissal

Students who are not able to raise their cumulative GPA to a minimum of 2.7 within two academic quarters (after being placed on academic probation) are subject to dismissal from the program.

Readmission

If a student is dismissed from the program (as outlined in the dismissal policy), he or she may reapply through the formal admission application process.

Graduation Requirements

In order to graduate from the program, students must complete all program requirements with a minimum cumulative GPA of 2.7 or higher. If a student’s cumulative GPA is below a 2.7, he or she may be denied graduation.
Non-Degree Seeking Students
While School of Public Service courses are open to non-degree seeking graduate students, pre-requisite requirements for certain courses may be enforced.

Nonprofit Management (MNM) Online
The Master of Nonprofit Management (MNM) at DePaul University prepares students interested in nonprofit management to serve the common good and advance a just society, in the spirit of St. Vincent de Paul. The MNM builds competencies in leadership, management, ethics and advocacy, reflecting the areas of study important to today’s nonprofit professional.

Integrating best practices in nonprofit management with DePaul’s rich, globally focused curriculum, the MNM degree was designed specifically to correspond with the curriculum goals of the Nonprofit Academic Centers Council (NACC).

</tr>
</tbody>
</table>

The Master of Nonprofit Management may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MNM/certificate program should consult with their academic advisor (SPSAdvising@depaul.edu) to determine what coursework might count toward both programs. A separate application process for the certificate may be required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office (https://las.depaul.edu/about/administration-staff/Pages/graduate-student-office.aspx) for additional information.

• Nonprofit Management + Community Development Certificate
• Nonprofit Management + Critical Ethnic Studies Certificate
• Nonprofit Management + Emergency Management Administration Certificate
• Nonprofit Management + Geographic Information Systems Certificate
• Nonprofit Management + Global Health Certificate
• Nonprofit Management + Health Care Administration Certificate
• Nonprofit Management + Metropolitan Planning and Development Certificate
• Nonprofit Management + Strategic Writing and Advancement for Nonprofits Certificate
• Nonprofit Management + Social Research Certificate
• Nonprofit Management + Sustainable Urban Food Systems Certificate
• Nonprofit Management + Translation and Interpreting Certificate
• Nonprofit Management + Women’s and Gender Studies Certificate

Learning Outcomes
Students will be able to:

• Demonstrate the specific managerial and technical skillsets evident in the non-profit sector, including finance, the management of volunteers, fundraising, and advocacy.
• Apply the leadership and strategic planning skills essential to managing non-profit organizations.
• Demonstrate their research competencies through a multi-step self-assessment process.

Degree Requirements
Students complete 13 courses (52 credit hours). Ten courses (40 credit hours) of core course work and three courses (12 credit hours) of electives are required.

Non-Degree Seeking Students

While School of Public Service courses are open to non-degree seeking graduate students, pre-requisite requirements for certain courses may be enforced.

Nonprofit Organizations (Minor)

The minor in Nonprofit Organizations requires 20 quarter credit hours (5 courses) and is available to degree seeking undergraduates. The minor is offered within the School of Public Service (pubserv@depaul.edu) and is designed for students interested in learning the structure, operations, and fundraising activities necessary for a successful nonprofit organization. Students may also complete an internship with a nonprofit organization as part of the minor’s requirements. The minor in Nonprofit Organizations pairs well with many undergraduate majors and is structured in a manner that enables students to complete the minor as part of a combined Bachelors/Masters degree (https://www.depaul.edu/academics/undergraduate/Pages/combined-degrees.aspx) in conjunction with the School of Public Service (https://las.depaul.edu/academics/school-of-public-service/Pages/default.aspx).

- MPS 511 SUSTAINABLE INTERNATIONAL DEVELOPMENT
- MPS 513 VOLUNTEERISM IN GLOBAL CIVIL SOCIETY
- MPS 515 NONPROFIT FINANCIAL ADMINISTRATION

Student Handbook

Students in the School of Public Service will follow many of the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in the School of Public Service. Please see information below.

Academic Probation

All students within the School of Public Service must maintain a minimum cumulative GPA of 2.7 or higher as part of their requirements for graduation. As a result, any student who earns a cumulative GPA below 2.7 (B-) is placed on academic probation. Students on academic probation are required to meet with the Assistant Director for Academic Advising to discuss their performance and determine a plan for improvement.

Dismissal

Students who are not able to raise their cumulative GPA to a minimum of 2.7 within two academic quarters (after being placed on academic probation) are subject to dismissal from the program.

Readmission

If a student is dismissed from the program (as outlined in the dismissal policy), he or she may reapply through the formal admission application process.

Graduation Requirements

In order to graduate from the program, students must complete all program requirements with a minimum cumulative GPA of 2.7 or higher. If a student’s cumulative GPA is below a 2.7, he or she may be denied graduation.
**Nursing Practice (DNP)**

Designed for the Baccalaureate or Master’s Entry Registered Nurse graduate who wants to pursue Nurse Practitioner or Nurse Anesthesia education and training for national certification and/or experienced Certified Nurse Practitioner, Clinical Nurse Specialist, Certified Registered Nurse Anesthetist or Certified Nurse Midwife seeking a clinical doctorate to gain knowledge on the delivery of advanced nursing practice to patient populations in healthcare systems where they work, acquire competencies on clinical scholarship with a focus on translation of new knowledge to practice and evaluation of health care delivery models, develop organizational and systems leadership skills, apply clinical prevention and population health services, engage in health care policy-making as a vehicle for advocating health for all and appraise information systems/technology and patient care technology that can lead to the transformation of tomorrow’s health care. The DNP Program tracks include AGNP, FNP, DNP Completion, and CRNA (in partnership with NorthShore University HealthSystem School of Nurse Anesthesia).

### Program Goals

The purposes of the graduate tracks in the doctor of nursing practice program are to prepare advanced practice nurses for leadership roles in the practice setting:

1. Integrate nursing science and knowledge with the knowledge of other disciplines and implement this knowledge in order to improve healthcare.
2. Evaluate and translate evidence-based practices to improve health and healthcare outcomes at the patient, family, population, clinical unit, system, and/or community level.
3. Demonstrate collaborative and leadership skills on intra-professional and inter-professional teams to foster effective communication, enhance patient outcomes, and create change in complex healthcare delivery systems.
4. Contribute to the specialty of advanced practice nursing through participation in systemic inquiry and other scholarly endeavors.
5. Use information systems and technology to improve patient care outcomes in advanced nursing practice.
6. Incorporate a philosophy of social caring based upon respect for the whole person, embodied in professional practice and service activities within a multicultural society.
7. Assume a leadership role in influencing the direction of health care at the local and national level.
8. Demonstrate competencies of advanced nursing practice within a defined specialty.

### Expected Competencies

1. Integrate nursing theories and concepts with knowledge from biology, physics, pathophysiology, pharmacology, psychology, sociology, and organizational sciences to deliver the highest level of advanced nursing practice in any practice setting and population focus.
2. Demonstrate safe, effective, and efficient professional practice, in a defined area of advanced nursing practice.
3. Develop the ability to work independently, accepting responsibility and accountability for one’s own advance practice as an Advanced Practice Nurse.
4. Demonstrate responsibility to society by establishing an Advanced Practice Nurse practice that is based upon professional standards as well as ethical and moral principles.
5. Demonstrate the ability to develop public speaking skills through the use of presentations and dissemination of DNP project findings.
6. Demonstrate collaborative and leadership skills on intra-professional and inter-professional teams to foster effective communication, enhance patient outcomes, and create change in complex healthcare delivery systems.
7. Develop organizational and systems leadership skills for quality improvement and systems thinking to improve health outcomes at the local and national level.
8. Evaluate and translate evidence-based practices to improve health and healthcare outcomes at the patient, family, population, clinical unit, system, and/or community level.
9. Contribute to the specialty of advanced nursing practice through participation in or leading the conduct of systematic, practice-focused scientific inquiry and other scholarly endeavors.
11. Use existing and new computerized databases, analyze data accurately, critically appraise the literature, and develop and implement best practices in healthcare based on highest level of evidence.
12. Use information systems and technology to improve patient care outcomes in advanced nursing practice.
13. Use conceptual or theoretical framework to evaluate information systems and technology that can transform the future of healthcare.
14. Incorporate a philosophy of social caring based on respect for the whole person, embodied in professional practice and service activities within a multicultural society.
15. Analyze major factors and policy triggers that influence legislative health policy-making in order to achieve fair and just health-related policies, educate others about health disparities, and improve access to quality care.
16. Design, influence and implement health care policies that address social justice, equity, patient-centered care, cultural sensitivity, access

### Learning Outcomes

Students will be able to:

- Practice as an advanced practice clinician who demonstrates knowledge of population health issues, prevention strategies, and culturally relevant approaches to improve health.
- Provide organizational leadership through systems of care that utilize interdisciplinary collaboration and consultation to deliver safe, effective, and efficient patient-centered care, which influences policy.
- Design, implement, evaluate, and promote evidence-based care in complex situations through continuous quality improvement and clinical scholarship.
- Develop, implement, and evaluate transformational patient care technologies and analytical methods focused on safety and quality standards.
- Demonstrate an awareness of global health disparities, and in the Vincentian mission of the university, advocate for social justice, equity, and ethical policies that impact the overall health of individuals and communities.

#### Concentration Requirements

In addition to the Doctoral Core requirements, students must complete the track requirements for their one designated concentration track.

### Other Requirements

#### DNP Project

Students will be required to complete a DNP Project which represents the cumulating work for their DNP program. The project is expected to be a tangible academic product that reflects the student’s educational experiences and should be evaluated by an academic committee. The DNP Project for the DePaul DNP students (NSG 600, NSG 601, and NSG 602) will include:

1. a needs assessment of an aggregate population, APN practice setting, healthcare institution policies, or healthcare delivery models using an Evidence Based Practice approach;
2. development and implementation of a research project to improve the health of a population, change practice, influence health policy, or revise healthcare delivery models;
3. evaluation of the program; and
4. a publishable quality manuscript and a formal oral presentation will be presented to the student’s DNP Committee for approval.

A poster representing the DNP Project will be produced by the student for presentation at the Grace Peterson Research Colloquium.

Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:

- Adult-Gerontological Nurse Practitioner Track, Nursing Practice (DNP) (p. 839)
- DNP Completion - Advanced Practice: Nurse Anesthetist Track, Nursing Practice (DNP) (p. 840)
- DNP Completion - Advanced Practice: Nurse Practitioner, Clinical Nurse Specialist, Nurse Midwife, Nursing Practice (DNP) (p. 840)
- Family Nurse Practitioner Track, Nursing Practice (DNP) (p. 840)
- Nurse Anesthetist Track, Nursing Practice (DNP) (p. 841)

### Program Graduate Academic Student Handbook

A complete list of policies specific to this program of study is contained in the Student Handbook that is updated regularly on the website for the School of Nursing. The complete DNP handbook can be found here: DNP Student Handbook (https://csh.depaul.edu/academics/nursing/student-resources/Pages/student-handbook.aspx)

#### Retention Policies

1. To be retained in the nursing program, students must maintain a cumulative grade point average of 3.0 in all academic work at the University.
2. Graduate students must maintain a cumulative grade point average of at least 3.0 in all academic work at the University.
3. Students must earn a grade of B- or better to receive graduate credit for any 400-600 level courses.
4. Graduate students who receive < B- grade in any required nursing course will be dismissed from the program.
5. Clinical courses may not be re-taken to raise an unsatisfactory grade.
6. Students who drop below the required cumulative GPA of 3.0 will be placed on probationary status. Students who have less than the required GPA for two quarters will be dismissed from the program.
7. In accordance with the nursing licensing regulations, students found to be convicted of serious crimes (felonies, substance abuse) will be...
reviewed by the Admission, Progression and Retention Committee and may be suspended or dismissed from the program.

8. The School of Nursing expects a respectful environment conducive to teaching and learning from all students, faculty, and staff. Inappropriate conduct is defined as any action that interferes with the creation and maintenance of an effective learning environment. Students are expected to display civility in all aspects of their educational experience at DePaul University.

9. Appropriate student conduct is outlined in detail in the School of Nursing Professional Development Guidelines (DNP Student Handbook [https://csh.depaul.edu/academics/nursing/student-resources/Documents/DNP%20Student%20Handbook%20Revised %209-24-2019.pdf], Appendix B). Appropriate student conduct includes, but is not limited to: being punctual for all classes; displaying courtesy; maintaining professional standards and safe practice in the clinical areas; maintaining academic integrity; avoiding leaving the classroom/clinical area other than during designated breaks and only with the permission of the responsible faculty member; fostering a positive learning environment by respecting the ideas and opinions of others; not talking during class or engaging in activities that distract the attention of others, including keeping cell phones and pagers set on silent mode; respecting others, including not making sarcastic or disrespectful remarks, using foul language or swearing, not threatening others; and remaining emotionally calm without inappropriate outbursts.

10. Students displaying inappropriate conduct may be asked to leave the classroom, clinical area, or meeting. Inappropriate conduct will be documented with a written copy of the incident being placed in the student’s file. Such incidents of inappropriate conduct will then be reported to the Director of the School of Nursing, with copies sent to the Associate Co-Directors of the Program and the Admission, Progression, and Retention Committee. Additional sanctions for inappropriate conduct may be imposed, including dismissal from the nursing program. For additional information, please see both the University Student Handbook-available on line, as well as the “Student Misconduct Process” outlined here: (DNP Student Handbook [https://csh.depaul.edu/academics/nursing/student-resources/Documents/DNP%20Student%20Handbook%20Revised %209-24-2019.pdf]), Appendix B).

11. Students are required to immediately notify the School of Nursing (SON) of any arrests or convictions during the program of study. The SON may elect to suspend the student until the criminal charge has been resolved. The SON may elect to dismiss the student for a criminal conviction.

Progression Policies

1. All students must attend an orientation session before beginning the nursing program of studies.

2. All students must meet with their assigned academic advisor during the first quarter of the program to review their official program of studies for the current academic year. The student is responsible to sign the coversheet of the Student Handbook and give this to his/her advisor at the time of their initial meeting.

3. Students must meet with their academic advisor at the end of the first academic year and at least once during each subsequent academic year to review progress in the program and plan for the following year. Advisors may not be available during the months of July and August.

4. A student may not register for any course that has a prerequisite if that student has an incomplete in the prerequisite course.

5. Students may not attend classes in a course for which enrollment is blocked. No credit will be awarded for assignments completed when not officially enrolled in a course. This includes assignments previously completed and turned-in for courses taken in the past.

6. All required health records, evidence of CPR certification, criminal background checks, licensure, personal health insurance, and professional liability insurance must be kept on file in the SON. It is each individual student’s responsibility to keep all of their records up-to-date. Drug screens are required for clinical placements. See Clinical Guidelines for further information. Failure to have all records present and up-to-date before the start of each course will result in inability to attend the clinical component of the course.

7. Leave of Absence:

   a. Students who need to interrupt their studies for personal, health or other reasons may request a leave of absence for up to one full year from the date of approval. The request to the faculty adviser, Associate Director of the program and the Admission, Progression and Retention Committee all should be notified. An on-line Leave of Absence Request form found on Campus Connect under search Academics: needs to be filled out and submitted.

   b. Students who wish to return to the program following a leave of absence will need to submit a written request for resuming coursework to the Admissions, Progression, and Retention Committee. It is the student’s responsibility to send a copy of such request to the Director of the School of Nursing, the student’s faculty advisor and the Associate Director of the Program. This request should demonstrate the resolution of the extenuating circumstances contributing to the original need to leave the DePaul Nursing Program. This request for reinstatement must be made no less than 6 weeks prior to resuming the nursing course sequence. Students will be notified in writing regarding the decision concerning their re-entry to the program. Individual assessment of current knowledge and clinical skills will be made prior to placement of the student back into the nursing program. Students who become “out of sequence students” due to dismissal, withdrawal, or military/medical/family leave of absence will resume course work based upon roster space availability in required courses offered at that time.

8. Students who have taken a leave of absence from the program for greater than 12 calendar months must re-apply to the university. Their re-application will then be considered with all other qualified applicants applying for admission to DNP program.

9. A student who withdraws from any nursing course while in good standing cannot progress in the sequenced nursing curriculum until that course has been successfully completed. In courses that contain both a clinical practicum and a lecture component, both course segments must be completed simultaneously. Exceptions may be identified and defined by the Admissions, Progressions and Retention Committee (APR) in consultation with either the Director of the School of Nursing or Associate Director of the Program and the course faculty.

10. A student who withdraws from any nursing course who is ‘not in good standing’ (with a grade of ‘C’ or lower or on probation) at the time of withdrawal, will be referred to the Admissions, Progressions, and Retention Committee (APR). The APR will meet to review the student’s past and current performance and to elicit recommendations from the course faculty. A representative of the APR committee may then meet with the course faculty and the Associate Director of the Program and student to counsel the student and to establish a contract for academic improvement. Such
13. A student who has a grade of B- (86% or less) at mid-quarter will be
12. All out of sequence students will be placed in courses on a space/

Service Settings
Programming Policy
Policy can be found
university. Actions taken by the instructor do not preclude the college
instructor finds that a student has violated the Academic Integrity
academic resources, academic misconduct, and complicity. If an
students or students taking courses out-of-sequence, may experience
typical program of studies in the designated time frame. Part-time
students may not progress in the sequenced nursing curriculum until
the course has been retaken and successfully completed. In courses
that contain both a clinical practicum and a didactic theory portion,
both course segments must be completed simultaneously.

11. A student may withdraw from any nursing courses ‘in good
standings’ (with a grade of “B” or higher) only twice during their
program of study. A third such withdrawal will result in dismissal from
the program.

12. All out of sequence students will be placed in courses on a space/
faculty available basis. Priority will be given to students who are out
of sequence for military service, severe illness, or family leave rather
than for failure or withdrawal ‘not in good standing’.

13. A student who has a grade of B- (86% or less) at mid-quarter will be
notified by the instructor. The student must satisfactorily fulfill all
course requirements by the end of the quarter in order to receive a
course grade.

A student currently enrolled in a degree program in which revisions are
approved while their studies are in progress, may elect to formally adopt
the revised requirements.

Academic Integrity Policy
Violations of academic integrity in any form are detrimental to the values
of DePaul, to the students’ own development as responsible members
of society and to the pursuit of knowledge and the transmission of
ideas. Violations of academic integrity include but are not limited to:
cheating, plagiarism, fabrications, falsification or sabotage of research
data, falsification of clinical data, destruction or misuse of the university’s
academic resources, academic misconduct, and complicity. If an
instructor finds that a student has violated the Academic Integrity
Policy, the appropriate initial sanction is at the instructor’s discretion.
An instructor may choose to file an academic integrity violation with the
university. Actions taken by the instructor do not preclude the college
or the university from taking further action, including dismissal from
the university. Conduct that is punishable under the Academic Integrity Policy
could result in criminal or civil prosecution. The full Academic Integrity Policy
can be found here (https://offices.depaul.edu/academic-affairs/
faculty-resources/academic-integrity/Pages/default.aspx).

Academic Integrity Policy Extension for Clinical and
Service Settings
DePaul University is committed to education that engages its students,
faculty and staff in work within Chicago’s institutions and communities. As
DePaul representatives to our partner institutions and community organizations,
we ask that you take seriously your responsibilities to these institutions during service and clinical experiences and internships. The community and its institutions are extensions of the DePaul classroom. The University’s Academic Integrity Policy and Code of Responsibility apply to professional interactions as well.

Student Advising/Program of Study
1. A faculty advisor will be assigned to each student upon acceptance
to the program. The advisor will assist in developing an appropriate
program of studies according to the student’s preferences, abilities,
and anticipated course availability. Students are required to meet with
their advisors during their first quarter in the program, at the end of
the first academic year and once per academic year following.

2. Classes are scheduled so that a full-time student can complete the
typical program of studies in the designated time frame. Part-time
students or students taking courses out-of-sequence, may experience
delay in obtaining necessary courses for timely progression in the
program.

3. Students who need to change to part-time status must follow the
steps below and need to be aware that they may experience delay in
obtaining necessary courses for timely progression in the program.
To request a change from full- to part-time status, the student must:
   a. Meet with his/her academic advisor and the Associate Director of
      the Program.
   b. Upon approval of change in status, the Associate Director of the
      Program will become the student’s academic advisor.
   c. The Associate Director and student will develop an adjusted
      program of study that the student will follow.

4. The student is responsible for setting-up an appointment with the
designated advisor to develop an individualized program of studies.

5. The student is responsible for obtaining a copy of the program of
studies worked out during the faculty-student advising session.

6. The student is responsible for enrolling in classes in the sequence
identified in the program of studies. Should circumstances interrupt
or delay registering for the designated classes, students must notify
the Associate Director of the Program, the department administrative assistant, and faculty advisor for modification of the planned program of studies. The Admissions, Progression, and Retention Committee, will be notified by the faculty advisor of the proposed interruption.

7. The student is responsible for meeting all prerequisites to courses for
which the student is registering.

8. The student is responsible for scheduling periodic student-advisor,
and student-instructor conferences.

9. The student may not register for any DNP course until all conditions
of admission are completed. Students who are not in compliance
will be withdrawn from the course(s) for which they are currently
registered. Students will be denied progression in the program up to
and including being denied graduation until all requirements are met.

Clinical Guidelines
The student acknowledges that all DePaul University and School of
Nursing academic and conduct policies remain in place during clinical
experiences. The student also agrees to comply with all of the policies
set forth by the clinical site. The student understands that failure to
comply with university or School of Nursing policies or the policies of
the clinical site may result in sanctions, including removal from the
clinical site and/or the course. A student may be dropped from clinical
coursework for not participating in clinical orientation. The student
understands that it is his/her responsibility to immediately notify his/
her clinical instructor in the event that the student encounters problems
with his/her mentor, preceptor, or staff at the site or at the site generally.
DNP students are expected to find clinical preceptors and/or mentors at
clinical sites in which DePaul University has an affiliation contract with.

If none exists then a request for a clinical affiliation contract must be
secured and signed by both institutions. Once an affiliation contract is
in place, a student can start clinical. Additionally a request for a clinical
preceptor agreement must be submitted using a Request for Letter of
Agreement form along with the preceptor’s CV or Preceptor Profile and
copy of verification of licensure in the state.

Students are required to:

1. Attend ALL scheduled learning activities including orientation,
lectures, exams, seminars, laboratories, simulation activities,
observations, clinical practicums, evaluation conferences, and other
comparable activities. If any scheduled learning activities are missed, the student will need to make-up these learning activities or withdraw from the course. Students are advised that opportunities for making up learning activities are subject to clinical faculty, site and laboratory availability.

Students are responsible for notifying the appropriate faculty member when an absence from a scheduled learning activity cannot be completed. Notification of faculty prior to an absence is expected, and when not possible, the student is responsible for notifying the faculty as soon as possible. An excused absence is defined as an absence for illness or other special circumstance, in which the faculty has been notified prior to the absence. Unexcused absence is defined as an absence for i.e., vacation, or other activities, which result in an absence, and have not been pre-approved by faculty. Students are responsible for resolving any conflicts that may arise. Failure to notify an instructor or preceptor of absence or tardiness is grounds for dismissal from the program.

The decision regarding the make-up of learning activities or consequent withdrawal from a course resides with the course director and/or clinical instructor as specified in the course syllabus and as practical to the missed activity and class/clinical setting. Any absence may result in a lower grade. Absences of more than 15% of the total course hours may result in failure of the course.

2. Arrive on time, prepared for all scheduled learning activities. This includes but is not limited to: appropriate dress, knowledge of medications, development of an appropriate plan of care, completion of all written and motor tests on skills that are necessary to a particular clinical rotation/setting. Refer to Dress Code Policy.

3. Students deemed unprepared or tardy may be asked to leave the clinical setting by the preceptor, receiving an "Unexcused" absence for the day. An "Unexcused" absence in clinical may result in failure of the course.

4. Required clinical equipment and dress a watch with a second hand or digital second reading capability, a stethoscope with both a diaphragm and bell (dual head), a penlight, and lab coat with DePaul Nursing patches, name pin/badge, black ball point ink pen.

5. Provide own transportation to clinical sites and pay for own parking as needed. Students are not allowed to transport clients or client families at any time.

6. Know and follow individual clinical agency policies and procedures. This information is available through each individual agency.

7. Use his/her legal signature in charting. The initials RN/ SNP/SRNA or NP/CRNA are to follow the legal signature.

8. Be knowledgeable about indications for, contraindications, warnings/precautions, interactions, adverse reactions and proper dosing when prescribing medications under the supervision of the clinical preceptor.

9. Comply with additional requirements of the clinical setting including but not limited to drug screening.

10. Bring reference books and materials to the clinical setting as needed to provide safe care.

11. Full-time students are expected to direct their major energy to their program of study. Thus the School of Nursing recommends that students limit their outside employment hours per week during periods when classes are in session. Previous experience demonstrates that students who work in excess endanger their scholastic standing and place themselves "at risk" for academic failure. Neither the university nor the School of Nursing has or assumes responsibilities for the nursing care of patients rendered by the student working as an RN since the student is employed by a nursing service and during such employment is not under the supervision of DePaul University.

12. Students can use the same clinics or work settings where they are concurrently employed only if working with a preceptor or mentor different than their current supervisor as a student in an unpaid NP student clinical role.

13. The students lab coat with DePaul Nursing patches, name pin/badge nor any part of it, is not to be worn in or around the student’s place of employment.

Unsafe Clinical Performance

A student is responsible for implementation of safe patient care during the supervised clinical practicum. Unsafe behavior can result in suspension from the clinical site, student remediation, failure of the course, and/or dismissal from the program. Unsafe practice is defined as behavior that has the potential to cause serious harm to a patient.

Examples of unsafe clinical behavior in clinical practice include, but are not limited to:

1. Violating HIPAA requirements
2. Violating OSHA requirements
3. Performing a procedure outside the domain of nursing
4. Performing a procedure in which he/she has not been prepared
5. Failing to use universal precautions
6. Administering treatments/medications in any form via any route without consent and/or supervision from the clinical preceptor.
7. Advising patients about diagnosis or prognosis or referring patients to treatments, agencies, medications, without first discussing such with the clinical preceptor.
8. Performing any procedure without previous knowledge or training on a patient without preceptor guidance and supervision.
9. Inability to correctly calculate math/medication problems
10. Knowingly exposing patients, colleagues, and others to actual or potential life threatening communicable diseases.
11. Stealing drugs, supplies, or belongings from an agency or patient.
12. Removing copies of patient care documents from healthcare agencies.
14. Failing to adhere to DePaul School of Nursing and/or clinical agency policies.
15. Falsifying patient records or fabricating patient experiences.
16. Neglecting to give appropriate care.
17. Providing patient care in a harmful manner or exhibiting careless or negligent behavior in the process of providing care to a patient.
18. Refusing to assume the assigned care of a patient, or failing to inform the instructor of an inability to care for a patient.
19. Willfully or intentionally causing physical or emotional harm to a patient.
20. Failing to report an error in assessment, treatment, or medication or failure to report an unusual occurrence or an adverse reaction.
21. Failing to comply with DePaul’s Drug Free Campus policy.
22. Performance not in compliance with stated student expectations as outlined in lecture or course syllabi.
Any student whose pattern of behavior demonstrates unsafe clinical practice that endangers a patient, colleague, or self in the clinical area will be suspended immediately from the clinical experience. The faculty of record will meet with the student to discuss how the unsafe behavior came about and potential complications from said behavior and prepare written documentation of the event. This will be forwarded within 24 hours to the course coordinator. A copy of this document will be placed in the student file and forwarded to the Director of the School of Nursing, Associate Director of the program, and Admissions, Progression and Retention Committee. If appropriate, an incident report will be filed at the clinical site.

If, in the clinical preceptor's clinical judgment, a student is unsafe to continue in the clinical practicum, the clinical preceptor will take the following steps:

1. Dismiss the student for the remainder of the clinical day. The preceptor will follow institutional guidelines as appropriate.
2. Contact the course instructor and the Associate Director of the Program.
3. Submit a written report of the incident to the clinical instructor and Associate Director’s office within one working day. The clinical instructor will schedule a meeting with the student within 24 hours of the incident or as soon as is practical, and prepare a written report that describes the incident that resulted in the student’s dismissal from clinical. The student will be given a copy of the report at this time.
4. The clinical instructor will advise the student that he or she will not be able to return to clinical until the meeting with the Associate Director takes place. The Director of the School of Nursing may also be involved in the meeting.
5. Within 3 working days, or as soon as is practical, a meeting will be held. In attendance at the meeting will be the clinical instructor, the student, the course coordinator and the Associate Director of the Program and Director of School of Nursing. The student may have his or her advisor present at the meeting. A decision regarding the student's continuation in the program will be made. This meeting will determine whether the student will be administratively withdrawn with a grade of F or is allowed to return to complete the clinical. The clinical instructor initiating the meeting is not involved in the decision regarding the student’s progression in the program. A decision is made at the meeting and communicated to the student.
6. The documentation related to unsafe clinical practice will be kept in a secured file within the SON offices.
7. The Admissions and Progression and Retention Committee (APR) reviews any administrative course withdrawal resulting in an F. The APR will determine if the student is dismissed from the program or may return in an appropriate quarter per the procedures of the APR. The student may elect to appeal this decision per procedures in the student handbook.

**Clinical Performance Limitation Related to Temporary Disability**

A student who incurs an injury or has any other physical limitation of a temporary nature must notify the clinical instructor and course coordinator and provide documentation from his/her health care provider that he/she is able to safely carry out the duties of a student in the clinical setting. This must occur as soon as possible and prior to attendance at clinical. The final decision as to whether the student is allowed in the clinical setting rests with the clinical agency.

**Clinical Probation/Remediation**

A student requires a clinical contract when one or more clinical course objectives are not being met. These behaviors, if not addressed, put the student at risk for receiving a non-passing final grade in the course. The process is initiated as soon as an instructor and/or course coordinator recognizes that a student’s performance or behavior may jeopardize the successful completion of a course. The clinical contract can be initiated at any time during the quarter.

The clinical contract is documented on the Student Faculty Contract form (Appendix A in the Student Handbook) and is completed by the course coordinator and clinical instructor. The course coordinator and clinical instructor will document, in writing, on the contract form, the areas of deficient student performance and identify behaviors the student will need to demonstrate in order to receive a passing grade. The student will receive a copy of this contract. The student’s academic advisor will be notified as will the Associate Director of the Program. The academic advisor will follow-up with the course coordinator regarding the student’s remediation progress. By the end of the quarter (or completion of the course in the event of a withdrawal), the student must demonstrate satisfactory remediation of all areas of concern noted in the contract without further additional deficits or risk failing the course.

**Clinical Failure**

In the event that a student does not receive a passing grade in the clinical component of a course, the student’s grade for that course will automatically become an F.

**Student Dress Code**

1. The student is to be well groomed at all times presenting a professional image. The rationale behind this and the following requirements comes from the belief that it is the client who is the focus of the nurse-client relationship.
2. Hair must be kept off the face and above the collar or pulled back and secured. Natural hair tones only. Sideburns, moustaches, and beards must be neatly trimmed. Make-up, if worn, must be minimal and conservative. Personal care products may only be lightly scented. Other fragrances are not to be worn.
3. Nails may not extend beyond the tip of the finger. NO artificial nails or nail polish is permissible.
4. The ONLY acceptable accessories are: One single or pair of stud earrings-one on each lobe; one plain ring/ring set on one finger; NO other body jewelry or accessories is acceptable. Note: in some clinical areas all jewelry must be removed.
5. Tattoos are to be covered.
6. When giving direct patient care, in the office or clinic setting, students must wear their white lab coat with DePaul School of Nursing patch, their SON student name pin, and professional dress consisting of a shirt, sweater, and/or blouse with pants or a skirt, closed toe shoes in good repair with a low heel and in neutral color, with neutral hosiery or socks. No high tops or bare foot sandals.
7. Inappropriate clothing would include: sweatshirts; sweat pants; tight or sleeveless tops; shirts with lettering, pictures or hoods; stirrup pants; leggings; Capri pants; shorts; blue jeans; tight or revealing clothing; visibly worn, torn, or faded clothing; midriff tops; low
of Nursing

student is to follow the procedures of the DePaul University School

In the event of any unprotected exposure to blood or body fluids, the

Unprotected Exposures

Patient/Client Privacy

1. The student is expected to adhere to the American Nurses
Association Code for Nurses and act in accordance with the Patient’s
Bill of Rights.

2. Confidentiality is the protection of a client’s privacy through
careful use of oral and written communications. The client’s right
to privacy is safeguarded by judicious protection of confidential
information. The student should adhere to the School of Nursing
Social Media policy (Appendix C in the Student Handbook) regarding
maintenance of confidentiality and protection of privacy as it relates
to communication via social media.

3. A client’s chart is a legal document. Information from the client and
chart is confidential and cannot be disclosed to those not caring for
the client. All entries must be accurate and legible. No part of the
client’s Medical record can leave the office or clinic setting.

4. Information communicated by clients to students may not be
repeated to anyone outside of the direct care team. Care should be
taken when in the corridors, lounge, classroom, dining rooms, or other
public areas, so that conversations are not overheard.

5. An individual can withhold any information about himself/herself
that he/she desires. Nursing students must be especially careful
regarding the invasion of the client’s privacy.

6. Students should use only the initials of the client when filling out
history & physical exam forms, SOAP notes and any other documents
regarding the invasion of the client’s privacy.

Unprotected Exposures

In the event of any unprotected exposure to blood or body fluids, the
student is to follow the procedures of the DePaul University School
of Nursing Bloodborne Pathogens Exposure Control Plan (https://
csh.depaul.edu/academics/nursing/student-resources/Pages/exposure-
control-plan.aspx).

Exposure at DePaul University

Any student who incurs an exposure incident at DPU should obtain
confidential post-exposure evaluation and follow-up.

Students who would like to obtain this confidential post-exposure
evaluation and follow-up from Advocate Illinois Masonic Medical Center
may contact DePaul Public Safety, who will facilitate transportation to
Advocate Illinois Masonic Medical Center.

The post exposure evaluations and follow-up should include at least, the
following elements:

• Documentation of the route(s) and circumstances of the exposure;
• The results of the source individual’s blood testing, if available; and
• All medical records relevant to the appropriate treatment of the
student, including vaccination status, the Safety Officer or his/her
designee will maintain these records.

Collection and testing of blood for HBV and HIV serological status will
comply with the following:

• The exposed student’s blood shall be collected as soon as feasible
and tested after consent is obtained;
• The student may have his/her blood collected for testing of the
student’s HIV/HBV serological status. The blood sample will be
preserved for up to 90 days to provide time for the student to decide if
the blood should be tested for HIV serological status.

The student is responsible for costs associated with the medical
evaluation.

Exposure at an Outside Facility while Performing Duties
within Student Role

Any student incurring such an exposure should follow both DPU’s post
exposure policy as well as the institution’s policy where the exposure
occurred. All student exposure incidents, whether they occur at DPU or
off-campus while conducting learning or training activities under the SON
must be reported to the Safety Officer or his/her designee as soon as
possible, but no later than one business day after the incident.

Students are encouraged to speak with their health care provider
about any additional follow-up post-exposure prophylaxis that may be
recommended.

When possible, the Safety Officer, his/her designee, or institution where
the exposure took place, will look into testing the exposure source
individual for HIV, hepatitis B, and/or hepatitis C. Testing of the source
individual’s blood does not need to be repeated if the source individual
is already known to be infected with HIV, hepatitis B, and/or hepatitis C.

Student Clinical Requirements

It is mandatory that all students have all of their clinical requirements
completed and a copy in their Castle Branch account by August 1st
for Fall Quarter. It is the responsibility of the student to ensure that all
clinical requirements are kept current. Students must submit copies
of renewed coverage, updated lab results, and renewed skills PRIOR
to the anniversary of the expiration date. Non-compliance with clinical
requirements will result in the student’s withdrawal from their clinical
course and subsequent delay progression in their program of study.

The student must submit COPIES (NOT ORIGINALS) of the following:

1. A complete physical examination signed by a licensed primary care
provider (MD, DO, NP, PA).

2. A Non-Reactive TWO-STEP Tuberculin Skin Test or Quantiferon Gold
TB Blood Test. The Two-Step TB Skin Test requires that you receive
two separate Mantoux skin tests at least one week apart AND no
longer than 3 weeks apart. This test must be renewed YEARLY with
a single step TB skin test or a Quantiferon Gold TB Blood Test. If
previously positive, a student must submit a chest x-ray and/or TB
symptom assessment statement that verifies the student is free from
Tuberculosis signed by a licensed primary care provider (see above).

3. A Mantoux test or Quantiferon Gold test must be taken and results
uploaded to Castle Branch every 12 months following the initial TB
test.

4. Titer for Rubeola, Mumps, Rubella, Varicella, and Hepatitis B. A
TITER is MANDATORY to document immunity. (Note: Vaccination
or history of the disease is necessary to develop immunity). The titer
MUST contain the titer value as well as the reference norm. The
required titers are as follows:
Evidence of Current Health Insurance: All nursing students must receive the dates of coverage or the date the copy is uploaded to the student's Castle Branch file. If the student does not demonstrate immunity, further vaccination is necessary.

If titers indicate no immunity for Rubeola, Mumps, Rubella, and Varicella, immunization is required (for Rubeola, Mumps or Rubella, this will be a booster series of 2 MMR immunizations). Titters will need to be drawn after re-immunization with the MMR. No follow-up titer is required for Varicella.

Students must sign a waiver if no immunity is detected on follow-up titer. The waiver states that you understand the risk associated with continuing in the nursing program, specifically that if you contract the disease to which you are not immune, the school is not liable and that you want to continue in your studies, knowing the risk. Once you have documented your immunity or signed a waiver, you will not need to furnish any further documentation.

5. Tetanus-Diphtheria-Pertussis Booster: Must be within the last 10 years. Documentation can be in the form of a signed immunization card or statement from your healthcare provider or health department that documents the date of the tetanus booster or TdaP were administered.

6. We require a yearly influenza vaccine. Most of our clinical agencies require influenza vaccines for all personnel providing patient care.

7. Standard Precautions/Universal Precautions Training: Incoming MENP students will receive this as part of their initial coursework.

8. Current CPR Certification: Exact month/day/year MUST be recorded on card. American Heart Association Healthcare Provider (BLS)-Must be RENEWED EVERY 2 YEARS. (Note: AHA BLS certification is the ONLY CPR certification acceptable.)

9. Professional Liability Insurance: Each DNP NP student must obtain their own student nurse practitioner professional liability insurance policy against claims arising from real or alleged errors or omissions. Their policy must have minimal limits of coverage of $1,000,000 PER claim and $5,000,000 aggregate. This insurance must be renewed annually. Professional Liability Insurance for DNP NA student is provided by NorthShore. The NP or NA DNP completion student must provide evidence of Professional Liability insurance: if providing direct patient care during their clinical residency hours.

10. Evidence of Current Health Insurance: All nursing students must submit proof of health insurance yearly. The health insurance photocopy of membership card or the paper it is written on should show the dates of coverage or the date the copy is uploaded to the student's Castle Branch file.

11. Criminal Background Check: Nursing students must submit to a criminal background check via Castle Branch prior to their initial clinical experience. Criminal background checks must be completed by August 1st for Fall Quarter and will remain in effect unless: a) a clinical agency determines it necessary to require more frequent or more detailed background checks, b) OR a nursing student interrupts his/her program of study for one quarter or longer. In the above cases, it is mandatory for the student to have another criminal background check performed.

The School of Nursing may not be able to place students in a clinical setting if there are positive findings on the criminal background check. As a result, a student will not be able to complete the requirements of the program.

12. Drug Screening: Nursing students are required to have a ten-panel drug screen as required by clinical institutions. The test may be obtained from any health care agency, or from Castle Branch through Quest Diagnostics Lab. The drug test MUST follow a "Chain-of-custody" procedure. The student should sign a release to have the results sent to the School of Nursing Coordinator of Clinical Placements. See below for the School of Nursing Policy on Drug Use and Testing.

The School of Nursing may not be able to place students in a clinical setting if there are positive findings on the drug screen. As a result, a student will not be able to complete the requirements of the program.

Drug Use and Testing

In accordance with DePaul University policies, the School of Nursing will impose disciplinary sanctions upon any student found to be in violation of laws or policies relating to the unlawful possession, use, or distribution of drugs or alcohol. Nursing students may be required to have a ten-panel drug screen based on clinical affiliates’ requirements. Release forms must be signed to have the results sent to the Clinical Placement Coordinator.

If a student’s drug test is positive, secondary or confirmatory testing will be performed and the student will be expected to cooperate with interviews and follow-up procedures to ascertain and endeavor to confirm whether there was an explanation for the positive test result that did not involve illegal conduct, e.g., ingestion of lawful drugs, food, or beverages that could cause positive results.

If the positive test is confirmed and no sufficiently credible explanation of relevant lawful conduct is forthcoming, clinical placement in a clinical course and successful completion of the program will be jeopardized due to failure to qualify for placement and/or successful completion of the program. Students with confirmed positive tests and/or no sufficiently credible explanation of relevant lawful conduct will be advised that the DePaul University School of Nursing cannot place them in a clinical setting. As a result, a student would not be able to complete the requirements of the program.

DNP Residency

The DNP residency is a key component of the DNP program. The essential components of residency are scholarly activities that support the implementation and completion of a DNP Project. These may include time spent with a preceptor/mentor in a professional institution, clinic or community based organization which provide care to an underserved/disadvantaged patient population due to lack of access or socioeconomic reasons. Continuing education conferences and workshops that expand/support the DNP Project may also be used. A minimum of 300 hours is required for the DNP NP Track residency; the student is required to maintain a record log of the scholarly activities that includes a reflection analysis of each experience. The reflection journal
will be incorporated in the ePortfolio. The academic advisor/course director is responsible for supervision of the DNP residency.

- Baccalaureate & Post-Masters entry Registered Nurse DNP NP Track student - the DNP residency occurs after 600 hours of preceptor clinical in the nurse practitioner track have been completed in NSG 483, NSG 487 & NSG 490. A minimum of 300 Residency clinical hours occur in NSG 700 and NSG 701.
- Post masters Nurse Practitioner, Clinical Nurse Specialist and Nurse Midwife DNP Completion Student - the DNP residency is 300 hours of clinical or less based upon the number of documented preceptor clinical hours in their master’s nurse practitioner program verified by transcript or letter from the director of the program. Residency hours occur in NSG 700 and NSG 701. Post masters Nurse Anesthesia DNP Student – the DNP residency is 100 hours of clinical in NSG 615 and NSG 616.

Professional Portfolio

During their program of studies, the DNP student is required to develop a professional electronic portfolio, a digitalized, purposeful collection of their selected work (documents, images, or videos), that provides evidence of their scholarly and professional development and achievement of the program’s learning outcomes. The ePortfolio is started at the beginning of the program in NSG 554 and continues to be added to throughout their DNP Program of study being completed in NSG 602. The DNP student will develop their portfolio on Digication, the ePortfolio system at DePaul. The student will have access to their portfolio after they graduate and can continue to highlight selected personal and professional accomplishments and experiences. Throughout their enrollment, students have unlimited access to the Writing Center for one-on-one Digication training and ePortfolio development support.

DNP Project

DNP students are required to complete a practice-focused inquiry as a DNP Project related to advanced nursing practice, which is broadly defined by AACN (2004) as:

*any form of nursing intervention that influences health care outcomes for individuals or populations, including the direct care of individual patients, management of care for individuals and populations, administration of nursing and health care organizations, and the development and implementation of health policy.* (p. 2)

The DNP project is a culmination of the knowledge gained in the DNP program courses and provides an opportunity to demonstrate an analytical approach to programmatic, administrative, policy practice issues in a format that supports the synthesis, transfer and utilization of knowledge. The intent is to demonstrate identification and resolution of a practice problem through the scholarship of application/integration. The project is expected to contribute to a patient care, practice, leadership, administration or policy areas of advanced nursing practice; examples include: an evaluation of a program or intervention, an analysis of a health care policy, developing a practice training program, quality improvement or safety program, a comprehensive systematic review for determination of best practice and implementation and evaluation of best practices for managing patient care issues or disease- or treatment-related symptoms, or a strategic plan for the delivery of healthcare.

The DNP Project proposal will be developed in NSG 600. The student will identify a DNP Project Committee with a two member minimum: one being a DePaul or North Shore faculty member as the Committee Chair & a second committee member (content expert/mentor) with a master's or higher degree (from the School of Nursing/North Shore School of Nurse Anesthesia faculty and/or from an outside institution). In NSG 601, the students will obtain approval from the DePaul University IRB and prepare to implement their projects. Continuation of the project will occur in NSG 602 in which 100 DNP Project hours are required of all DNP students. A formal oral presentation and a publishable manuscript will be presented to the student’s DNP Committee for approval at the end of the program.

Group Projects: Student wishing to do a DNP project as a group of two must show evidence and a rubric of division of labor that there is enough content and work for both students. The work distribution must be equitable (see guidelines below from the AACN Task Force White Paper published on August 2015).

Group/Team Projects can be a valuable experience, helping to prepare graduates to function in interprofessional teams in the future, but often present challenges, particularly for student evaluation and grading. Group projects are acceptable when appropriate to the students’ area of practice and goals, and the project aims are consistent with the focus of the program. Guidelines for the entire project as well as for individual contributions to the project and a rubric used for each individual’s evaluation should be developed and shared with students prior to the initiation of the project. Each member of the group must meet all expectations of planning, implementation, and evaluation of the project, and be evaluated accordingly. Each student must have a leadership role in at least one component of the project and be held accountable for a deliverable. The following serve as illustrative examples:

1. The student serves as a vital member of an interprofessional team, implementing and evaluating a component of a larger project.
2. Students work on the same project, for example improving hand washing, across multiple units within the same organization or across multiple organizations.
3. Students focus on different aspects of improving diabetic outcomes of care by meeting criteria for guidelines for diabetes care such as eye exams, time frames for Hg A1-c screening, and foot care.
4. Students analyze and implement changes in state immunization policies to improve access to immunizations and increase immunization rates.

Systematic Reviews: In light of the Commission on Accreditation’s 2020 White Paper on DNP Projects, a systematic review using the PRISMA (http://www.prisma-statement.org/) or JBI (https://jbi.global/sites/default/files/2019-05/JBI_Critical_Appraisal-Checklist_for_Systematic_Reviews2017_0.pdf) guidelines for systematic reviews and meta-analysis is now considered as an acceptable DNP project. All systematic review DNP projects must be formally registered with PROSPERO as appropriate. A dissemination plan for the findings of the systematic review must accompany this type of DNP Project submission.

Access to Student Records

1. A student may have access to his/her personal student record upon request. Confidentiality is maintained with all student files. Release of information is granted upon written request by the student.
2. No specific or detailed information concerning specific medical diagnoses will be provided to faculty outside the department, administrators, or even parents, without the expressed written permission of the individual in each case. This position with respect to health records is supported by amendment to the Family Education Protection...
Rights and Privacy Act of 1974. Health officials and other institutional officers must remember that all confidential medical/health care information is protected by statutes and that any unauthorized disclosure may create legal liability.

Graduation
DePaul University awards the Doctor of Nursing Practice degree to students who successfully completed the DNP program. All requirements of the University, College, and School of Nursing must be met as outlined in the current Catalog, including earning at least a minimum cumulative GPA of 3.0 in courses required by the program.

The student is responsible for completing the application for degree conferral and commencement by the deadline posted in the academic calendar.

Students are responsible for changes reflecting new program requirements if the department gives sufficient notice. Part-time students and students who do not enroll in classes for one or more quarters will follow their original program of study.

Graduation Forms
All graduating DNP students must email their graduation forms to CSHGraduation@depaul.edu no later than the last day of the quarter of their degree conferral. Email the following completed forms and DNP project as separately scanned PDF attachments by the end of the quarter. CSH Office of Advising and Student Services prefers to receive as many of the documents as possible attached to one email message. Please include your first and last name and student ID number in the subject of the email. For record keeping purposes, CSH Office of Advising and Student Services recommends you cc yourself on the email. All forms can be found on the CSH Office of Advising and Student Services website (https://csh.depaul.edu/student-resources/advising-student-services/Pages/default.aspx).

1. Final version of your thesis as a PDF
2. Abstract and Keyword Form
3. Author Submission form
4. Approval of Proposal for Final Project form
5. Final Requirements Report form

Legal Limitations for Licensure
Requirements for certification licensure may vary from state to state. Those students wishing to take their certification exam outside of Illinois are advised to check with that state’s licensure requirements early in the academic program. Baccalaureate entry DNP students will be eligible to take their national certification exam upon completion of their DNP degree program. Post-masters entry DNP students will be eligible to take their national certification exam upon completion of the DNP courses and clinical.

Limitation in the DNP Program Completion
All students in the DNP program from various tracks (BSN, MS, RN to MS-prepared NP, NA, and completion tracks) must complete their program of study on or before 7 years from the first quarter of matriculation into the DNP program (i.e., first course enrollment in one of the degree requirement or doctoral core courses). An extension request beyond 7 years must be supported by extenuating circumstances. The School of Nursing’s APR Committee reserves the right to make the final decision in consultation with the CSH dean on any appeal for extension of the DNP Program completion. Previous courses taken at least five years before the student’s first enrollment term in the DNP program are not transferable.

Nursing RN to MS (BS)

The RN to MS curriculum provides for seamless progression for the Registered Nurse with an associate degree in nursing (ADN) to the master’s degree (MS) in nursing. Along the way, these students will earn the Bachelor of Science (BS) degree in nursing; in anticipation of earning the BS, students must apply for degree conferral. However, the focus of the program is on the attainment of the MS degree. The program is also available for RNs with a non-nursing bachelor degree and BSN graduates; both of whom will enter the program as graduate level students and earn the Master of Science (MS) in nursing. You can find more information at RN to MS in Nursing (MS). (https://csh.depaul.edu/academics/nursing/graduate/rn-to-ms-nursing-ms/Pages/default.aspx)

The RN to MS program will be offered online except for the clinical requirements. Students will be required to complete clinical nursing experiences, which will be undertaken in their home communities with appropriate local preceptor agreements.

- The Bachelor’s portion of the curriculum builds on the strong theoretical and skills preparation in nursing and general education completed by the Associate Degree prepared RN.
- The Bachelor’s component of the program, leading to the BS in nursing, fulfills professional nursing standards for baccalaureate education in nursing, providing for immediate career mobility and seamlessly transitions into an accelerated path to the master’s degree by offering six double counted graduate level courses.
- The Master’s component of the program prepares practicing nurses to meet the core expectations of graduate education in nursing and to assume the role of a nurse educator, family nurse practitioner, or adult gerontology nurse practitioner.

1 View Undergraduate Student Handbook to learn of the maximum allowable number of transfer credit hours.

2 The 45 quarter hour portfolio credit will be applied upon successful completion of NSG 330 and NSG 464 with a cumulative GPA of 3.00.

Learning Outcomes

Students will be able to:

- Synthesize knowledge from the sciences, the humanities, and nursing science to assess, plan, and provide care for individuals, families, and communities using evidence-based and values-based modalities.
- Develop a foundation for professional nursing practice emphasizing autonomy, integrity, change agency, and advocacy to social justice integrating Vincentian and altruistic values.
- Design and deliver culturally appropriate nursing care services to diverse individuals, families, and populations, in coordination with appropriate multidisciplinary providers across the continuum of care.
- Demonstrate progression in life-long learning by applying critical thinking to analyze contemporary health care, including but not limited to social determinants of health, health inequities, serving high-risk populations, technological applications in healthcare, health care policy, and health care finance.

Liberal Studies Requirements

These requirements take into account liberal studies coursework completed as part of the basic Associate Degree/Diploma Nursing program. The requirements outlined below are beyond the associate degree work and are required for the DePaul degree.

This requirement is met through Portfolio Credit.

Senior Year

Capstone

NSG 380  UNDERGRADUATE NURSING SYNTHESIS (counted in major requirements)  4

Learning Domains

Arts and Literature (AL) (p. 1300)
- 1 Course Required

Historical Inquiry (HI) (p. 1304)
- 1 Course Required

Math and Computing (MC) (p. 1306)
- Not Required

Philosophical Inquiry (PI) (p. 1307)
- 1 Course Required

Religious Dimensions (RD) (p. 1308)
- 1 Course Required

Scientific Inquiry (SI) (p. 1310)
- Not Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
- Not Required

Liberal Studies Electives (p. 1300)
- 2 Additional Courses Required (must be from different domains)

Notes

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

1 These are bridge courses for ADN with non-nursing MS pursing the RN-MS.

Transfer Credit

This program builds on the strong theoretical and skills preparation in both nursing and general education that the associate degree prepared RN has completed. The learning outcomes achieved at the associate degree level are validated by the National Council Licensure Examination – Registered Nurse (NCLEX-RN), a nationally standardized exam considered to be a highly valid and reliable test of basic competence. Students will receive at a minimum 79 quarter hours of transfer credit for the associate degree. Students who have earned more than 79 quarter hours of transfer credit will receive credit based on the transferrable coursework successfully completed. Please note that some liberal studies credit has been accounted for as part of the nursing program’s 79 transferrable hours. Only courses in excess of the required nursing program - and still within the restriction on the maximum number of allowable transfer credit hours - can be considered to fulfill the remaining requirements. In addition, students must meet the DePaul residency requirement. View the Undergraduate Student Handbook to learn of the restriction on the maximum number of allowable transfer credit hours and how to meet the residency requirement.

Professional Nursing Portfolio Credit

The student entering the RN to MS program will be taking more advanced coursework at DePaul; coursework that relies on a knowledge base established by the nursing courses taken at the community college and assessed by the NCLEX-RN® examination. By successfully completing the first quarter of the RN to MS program, students will have demonstrated their success in the RN to BS bridge course and a graduate level course. The 45 quarter hour portfolio credit will be applied to their degree at DePaul upon successful completion of NSG 330 (bridge course) and NSG 464 (graduate course) with a cumulative GPA of 3.0.

Student Handbook

A complete list of policies specific to this program of study is contained in the Student Handbook that is updated regularly on the website for the School of Nursing. The complete RN-MS student handbook can be found...
A student who earns a D+ or lower in any graduate level course will be placed on academic probation. The student must enroll in the School of Nursing Success Coaching program for mandatory remediation at that time. As long all other undergraduate graduation degree requirements are met, the student will be permitted to graduate from the BS portion of the program.

Graduate Student Academic Policy
An RN to MS students with graduate standing must maintain a cumulative GPA of 3.00 or greater to remain in good standing for all graduate level courses. A student who earns a D+ or lower in any graduate level course, the student's academic status is reviewed after any Autumn, Winter, Spring and Summer quarters in which the student was enrolled in at least 1 credit hour. An academic probationary student may be limited to 12 credit hours per quarter until a cumulative GPA of 2.00 is reached. A student who remains on academic probation for three sequential quarters of enrollment may be academically dismissed.

A student dismissed for academic reasons is not eligible for readmission to DePaul University for a period of two quarters. The readmission decision is made by the Office of Admission in consultation with the college or school.

A dismissed student may be required to demonstrate acceptable academic achievement at another regionally accredited college or university before readmission is approved. Courses to be taken elsewhere must be approved by the college advising office and a grade of C or better must be earned in all such coursework.

Credits and grades earned during previous enrollment at DePaul will remain a part of the student's records.

A student who earns more than one C or C- in a graduate-level nursing course will be prohibited from advancing to the MS portion of the RN to MS program and is required to enroll in the School of Nursing Success Coaching program for mandatory remediation at that time. As long all other undergraduate graduation degree requirements are met, the student will be permitted to graduate from the BS portion of the program.

Policy Regarding Encumbered Registered Nurse (RN) Licensure
1. If a student experiences an encumbered license (such as a RN license with stipulations or restrictions) during their graduate studies, he/she must notify the Assistant Director for the Program immediately upon receipt of the encumbrance.
2. The student will provide the appropriate Assistant Director with a copy of the Agreed Order.
3. Students may be allowed to take non-clinical courses with an encumbered license.
4. Students will not be allowed to take clinical courses with an encumbered license.
5. The student will notify the Assistant Director of the Program when the student's license becomes unencumbered and provide a copy of the Board of Nursing's notification letter.
6. Failure to notify the Assistant Director of the Program of an encumbered RN license will be considered academic misconduct and be treated as such.

Progression Policies
1. All students must complete the orientation session before enrolling in the nursing program of studies.
2. All students must meet with their assigned academic advisor during the first quarter of the program to review their official program of studies for the current academic year.
3. Students must meet with their academic advisor at the end of the first academic year and at least once during each subsequent academic year to review progress in the program and plan for the following year. Advisors are not generally available during the months of July and August.
4. A student may not register for any course that has a prerequisite if that student has an incomplete in the prerequisite course.
5. Students may not attend classes in a course for which enrollment is blocked. No credit will be awarded for assignments completed when not officially enrolled in a course. This includes assignments previously completed and turned-in for courses taken in the past.
6. All required health records, evidence of CPR certification, criminal background checks, personal health insurance, and professional liability insurance must be kept on file in the SON. It is each individual student's responsibility to keep all of their records up-to-date. Drug screens are required for clinical placements. See Clinical Guidelines for further information. Failure to have all records present and up-to-date at the beginning of each course will result in inability to attend the clinical component of the course.
7. Leave of Absence:
   a. Students who need to interrupt their studies for personal, health or other reasons may request a leave of absence for up to one full year. The request should be made to the Assistant Director of the program and the Admission, Progression and Retention Committee should be notified. Depending on circumstances and estimated length of absence, the Assistant Director or student's academic advisor may recommend additional action to complete the request process.
   b. Students who wish to return to the program following a leave of absence will need to submit a written request for resuming coursework to the Admissions, Progression, and Retention Committee. It is the student's responsibility to send a copy of such request to the Director of the School of Nursing, the student's faculty advisor, and the Assistant Director of
10. A student who withdraws from a core nursing course who is "not in good standing" (with a grade of "C" or lower or on probation) at the time of withdrawal, will be referred to the Admissions, Progressions, and Retention Committee (APR). The APR will meet to review the student’s past and current performance and to elicit recommendations from the course faculty. A representative of the APR committee may then meet with the course faculty and the Assistant Director of the Program and student to counsel the student and to establish a contract for academic improvement. Such students may not progress in the sequenced nursing curriculum until the course has been retaken and successfully completed. In courses that contain both a clinical practicum and a didactic theory portion, both course segments must be completed simultaneously. Exceptions may be identified and defined by the Admissions, Progressions and Retention Committee (APR) in consultation with the Director of the School of Nursing and the Assistant Director of the Program and the course faculty.

11. A student may withdraw from a core nursing course who is "not in good standing" (with a grade of "C" or lower) only once during their program of study. A second such withdrawal will result in dismissal from the program. In courses that contain both a clinical practicum and a didactic theory portion, both course segments must be completed simultaneously.

12. A student who has a grade of B- (86% or less) at mid-quarter may be placed on contract for academic improvement by the instructor. The student must satisfactorily fulfill all course and contract requirements by the end of the quarter of contract initiation in order to progress in the program.

13. A student currently enrolled in a degree program in which revisions are approved while their studies are in progress may elect to formally adopt the revised requirements.

### Academic Virtual Environment Policy

The School of Nursing expects a respectful environment conducive to teaching and learning from all students, faculty, and staff. Inappropriate conduct is defined as any action that interferes with the creation and maintenance of an effective virtual learning environment. Students are expected to display civility in all aspects of their educational experience at DePaul University.

Appropriate student conduct is outlined in detail in the School of Nursing Professional Development Guidelines (Appendix B in the Student Handbook). Appropriate student conduct includes but is not limited to: being present on the discussion board; displaying courtesy; maintaining professional standards and safe practice in the clinical areas; fostering a positive learning environment by respecting the ideas and opinions of others; respecting others, including not making sarcastic or disrespectful remarks, using foul language or swearing; not threatening others on the discussion board.

Students displaying inappropriate conduct on the discussion board will be required to talk with their Academic advisor and may be placed on a performance contract. Inappropriate conduct will be documented with a written copy of the incident placed in the student’s file. Such incidents of inappropriate conduct will then be reported to the Director of the School of Nursing, with copies sent to the Assistant Director of the Program, and the Admissions, Progression, and Retention Committee. Additional sanctions for inappropriate conduct may be imposed, including dismissal from the nursing program. (For additional information, please see both the University Student Handbook-available online, as well as the “Student Misconduct Process” outlined below.)

### Academic Integrity Policy

Violations of academic integrity in any form are detrimental to the values of DePaul, to the students’ own development as responsible members of society and to the pursuit of knowledge and the transmission of ideas. Violations of academic integrity include but are not limited to: cheating, plagiarism, fabrications, falsification or sabotage of research data, falsification of clinical data, destruction or misuse of the university’s academic resources, academic misconduct, and complicity. If an instructor finds that a student has violated the Academic Integrity Policy, the appropriate initial sanction is at the instructor’s discretion. An instructor may choose to file an academic integrity violation with the university. Actions taken by the instructor do not preclude the college or the university from taking further action, including dismissal from the university. Conduct that is punishable under the Academic Integrity Policy could result in criminal or civil prosecution. The full Academic Integrity Policy can be found here (https://offices.depaul.edu/academic-affairs/faculty-resources/academic-integrity/Pages/default.aspx).

### Academic Integrity Policy Extension for Clinical and Service Settings

DePaul University is committed to education that engages its students, faculty and staff in work within Chicago’s institutions and communities. As DePaul representatives to our partner institutions and community organizations, we ask that you take seriously your responsibilities to these institutions during service and clinical experiences and internships. The community and its institutions are extensions of the DePaul classroom.

The University’s Academic Integrity Policy and Code of Responsibility apply to professional interactions as well. See also The School of Nursing Professional Development Guidelines (Appendix C in the Student Handbook).

### Student Advising/Program of Study

1. A graduate student services administrator (GSSA) from the College of Health Office of Advising and Student Services (OASS) will
be assigned as the primary advisor for students while they are pursuing the BS degree portion of the program. The GSSA will work closely with the RN to MS Program faculty, who will be assigned in Campus Connection, as the students’ secondary advisor during this phase. The advisor will assist in developing an appropriate program of studies according to the student’s preferences, abilities, and anticipated course availability. Students are required to meet with their advisors during their first quarter in the program, at the end of the first academic year and once per academic year following. Students are encouraged to review the student handbook prior to meeting with their advisor. Students should bring the Student Handbook Agreement Statement to the meeting. Once it is signed by student and advisor, it should be uploaded to Castle Branch.

2. The student is responsible for setting-up an appointment with the designated advisor to develop an individualized program of studies.

3. The student is responsible for obtaining a copy of the program of studies worked out during the faculty-student advising session.

4. The student is responsible for enrolling in classes in the sequence identified in the program of studies. Should circumstances interrupt or delay registering for the designated classes, students must notify the Assistant Director of the Program, the department administrative assistant, and faculty advisor for modification of the planned program of studies.

5. The student is responsible for meeting all prerequisites to courses for which the student is registering.

6. The student is responsible for scheduling periodic student-advisor, and student-instructor conferences.

7. The student may not register for any clinical course until all conditions of admission, undergraduate nursing prerequisites, and liberal arts and science requirements are completed. Students who are not in compliance will be withdrawn from the course(s) for which they are currently registered. Students will be denied progression in the program up to and including being denied graduation until all requirements are met.

Clinical Guidelines

Clinical learning activity is defined as a planned activity occurring in a health care agency when the student is identified as a DePaul University student. The clinical learning activity may or may not include contact with patients.

In order for students to be eligible for clinical placement, they must complete the following:

1. All School of Nursing graduate clinical requirements
2. All School of Nursing graduate health requirements
3. Approval of clinical mentor/agency by the course faculty of record
4. Establish clinical affiliation agreements between the DePaul University School of Nursing and both the mentor and agency in which a student plans to complete clinical or practicum hours. Students will receive an email at the beginning of each term reminding them to start the process of procuring a clinical site and clinical mentor. Students can follow the procedure here (https://csh.depaul.edu/academics/nursing/student-resources/requests-policies-procedures/Pages/preceptor-mentor-request.aspx).
5. A student may be dropped from clinical coursework for not participating in clinical orientation.

Failure to meet health requirements will prohibit students from practice learning activities and may result in cancellation of course registration. Any practicum hours completed by a student with-out completion of the above requirements will not be counted toward the requirement for the course. Any clinical hours completed before health requirement clearance from the SON Compliance Officer will not count toward required clinical hours for the program. This could result in a student failing the course if the required clinical hours are not completed by the end of the quarter.

All practice requirements should be identified in NSG 376 and submitted to course faculty of record by the end of NSG 376.

All health requirements should be uploaded to Castle Branch the quarter prior to a student beginning a clinical/practicum course.

The student acknowledges that all DePaul University and School of Nursing academic and conduct policies remain in place during clinical experiences. The student also agrees to comply with all of the policies set forth by the clinical site. The student understands that failure to comply with university or School of Nursing policies or the policies of the clinical site may result in sanctions, including removal from the clinical site and/or the course. The student understands that it is his/her responsibility to immediately notify his/her instructor in the event that the student encounters problems with his/her supervisor, preceptor, or staff at the site.

Mentor Selection for Graduate Students

Students are responsible for selecting a mentor for practice experience courses. Criteria for graduate mentors include:

1. Unencumbered professional license and/or national certification
2. Documented current practice in the field
3. Educational experience: BSN, MSN preferred for NSG 377 and MSN practicing in chosen specialty track for graduate capstone course.
4. Commitment to high professional standards
5. Previous mentor experience is preferred
6. Interest in working with students with desire to foster student learning.

Process for Establishing a Mentor

1. The student identifies an appropriate mentor for practice experience activities according to criteria and has a discussion with the mentor about their current standing in the program and practice experience needs. The student shall only put forward the names of mentors who agree to the experience.
2. The student submits a preceptor/mentor request form along with a curriculum vitae of the mentor. The Assistant Director of the program will review the resume for established criteria and the agency clinical affiliation agreement.
3. The School of Nursing will process the agency affiliation agreement and mentor letter.
4. The student uploads evidence of compliance with all health requirements.
5. The School of Nursing will notify the student and the course faculty member when all requirements have been met. Practice experience hours cannot be started until such time.
6. The course faculty member will advise the student when to begin the mentor hours.

Students are required to:

1. Identify the practice experience site and mentor they wish to complete their practice hours in NSG 376, NSG 596 or NSG 597.
2. Notify NSG 376 course faculty of record of the practice experience site and mentor. Students in NSG 557 or NSG 597 will notify their academic advisor of their practice setting the term before starting the course.

3. Comply with additional requirements of the clinical setting including but not limited to drug screening.

4. Students may choose their place of employment as their practice experience site as long as the SON has a clinical affiliation agreement with the facility.

Unsafe Clinical Performance

A student is responsible for implementation of safe patient care during the supervised clinical practicum. Unsafe behavior can result in suspension from the clinical site, student remediation, failure of the course, and/or dismissal from the program. Unsafe practice is defined as behavior that has the potential to cause serious harm to a patient. Examples of unsafe clinical behavior in clinical practice include, but are not limited to:

Unsafe practice patterns include but are not limited to:

1. Violating HIPAA requirements
2. Violating OSHA requirements
3. Performing a procedure outside the domain of nursing
4. Performing a procedure in which he/she has not been prepared
5. Failing to use universal precautions
6. Administering treatments/medications in any form via any route without consent and/or supervision from the clinical instructor.
7. Advising patients about diagnosis or prognosis or referring patients to treatments, agencies, medications, without first discussing such with the clinical instructor.
8. Asking a staff nurse to supervise any procedure without consent of the clinical instructor.
9. Inability to correctly calculate math/medication problems
10. Knowingly exposing patients, colleagues, and others to actual or potential life threatening communicable diseases.
11. Stealing drugs, supplies, or belongings from an agency or patient.
12. Removing copies of patient care documents from healthcare agencies.
14. Failure to adhere to DePaul School of Nursing and/or clinical agency policies.
15. Falsifying patient records or fabricating patient experiences.
16. Neglecting to give appropriate care.
17. Providing patient care in a harmful manner or exhibiting careless or negligent behavior in the process of providing care to a patient.
18. Refusing to assume the assigned care of a patient, or failing to inform the instructor of an inability to care for a patient.
19. Willful or intentional physical or emotional harm to a patient.
20. Failure to report an error in assessment, treatment, or medication or failure to report an unusual occurrence or an adverse reaction.
21. Failure to comply with DePaul's Drug Free Campus policy.
22. Performance not in compliance with stated student expectations as outlined in lecture or course syllabi.
23. Failure to know proper vital sign ranges as well as failure to notify instructor or patient's nurse of critical vital sign value.

Any student whose pattern of behavior demonstrates unsafe clinical practice that endangers a patient, colleague, or self in the clinical area will be suspended immediately from the clinical experience. The faculty of record will meet with the student to discuss how the unsafe behavior came about and potential complications from said behavior and prepare written documentation of the event. This will be forwarded within 24 hours to the course coordinator. A copy of this document will be placed in the student file and forwarded to the Director of the School of Nursing, Assistant Director of the program, and Admissions, Progression and Retention Committee. If appropriate, an incident report will be filed at the clinical site.

If, in the clinical instructor's clinical judgment, a student is unsafe to continue in the clinical practicum, the clinical instructor will take the following steps:

1. Dismiss the student for the remainder of the clinical day. The instructor will follow institutional guidelines as appropriate.
2. Contact the course coordinator and the Assistant Director of the Program.
3. Submit a written report of the incident to the Assistant Director's office within one working day. The Assistant Director will contact the Registrar to put a hold on the student's grade; the student will not be allowed to withdraw from the course at this time. The clinical instructor will schedule a meeting with the student within 24 hours of the incident or as soon as practical, and prepare a written report that describes the incident that resulted in the student's dismissal from clinical. The student will be given a copy of the report at this time.
4. The clinical instructor will advise the student that he or she will not be able to return to clinical until the meeting with the Assistant Director takes place.
5. Within 3 working days, or as soon as practical, a meeting will be held. In attendance at the meeting will be the clinical instructor, the student, the course coordinator and the Assistant Director of the Program. The student may have his or her advisor present at the meeting. A decision regarding the student's continuation in the program will be made. This meeting will determine whether the student will be administratively withdrawn with a grade of F or is allowed to return to complete the clinical. The clinical instructor initiating the meeting is not involved in the decision regarding the student's progression in the program. A decision is made at the meeting and communicated to the student.
6. The documentation related to unsafe clinical practice will be kept in a secured file within the SON offices.
7. The Admissions and Progression and Retention Committee (APR) reviews any administrative course withdrawal resulting in an F. The APR will determine if the student is dismissed from the program or may return in an appropriate quarter per the procedures of the APR. The student may elect to appeal this decision per procedures in the student handbook.

Clinical Performance Limitation Related to Temporary Disability

A student who incurs an injury or has any other physical limitation of a temporary nature must notify course faculty and provide documentation from his/her health care provider that he/she is able to safely carry out the duties of a student in the practice experience setting. This must occur as soon as possible and prior to attendance at practice setting.
The final decision as to whether the student is allowed in the practice setting rests with the agency. If the student is unable to attend the practice experience, he or she will need to withdraw and meet with the Assistant Director of the program to explore options.

Students who are pregnant are advised that practice sites have individual policies and requirements related to pregnant students that may impact the student's ability to attend or complete the experience.

Clinical Probation/Remediation
A student requires a contract when one or more course objectives are not being met. These behaviors, if not addressed, put the student at risk for receiving a non-passing final grade in the course. The process is initiated as soon as course faculty recognizes that a student's performance or behavior may jeopardize the successful completion of a course. The contract can be initiated at any time during the quarter.

The contract is documented on the Student Faculty Contract form (Appendix A in the Student Handbook) and is completed by the course faculty. The faculty will document, in writing, on the contract form, the areas of deficient student performance and identify behaviors the student will need to demonstrate in order to receive a passing grade. The student will receive a copy of this contract. The student's academic advisor will be notified as will the Assistant Director of the Program. The academic advisor will follow-up with the course coordinator regarding the student's remediation progress. By the end of the quarter (or completion of the course in the event of a withdrawal), the student must demonstrate satisfactory remediation of all areas of concern noted in the contract without further additional deficits or risk failing the course. Once the contract requirements have been met, the instructor should document this on the form and both student and instructor should sign the form. A completed copy can be given to the student; another copy is send to the Coordinator of Data Management for tracking purposes; another copy is placed in the student’s file.

Practice Experience
In the event that a student does not receive a passing grade in the practice experience component of a course, the student's grade for that course will automatically become an F.

Confidentiality
Patient/Client Privacy
1. The student is expected to adhere to the American Nurses Association Code for Nurses and act in accordance with the Patient’s Bill of Rights.
2. Confidentiality is the protection of a client's privacy through careful use of oral and written communications. The client’s right to privacy is safeguarded by judicial protection of confidential information. The student should adhere to the School of Nursing Social Media policy (Appendix D in the Student Handbook) regarding maintenance of confidentiality and protection of privacy as it relates to communication via social media.
3. A client's chart is a legal document. Information from the client and chart is confidential and cannot be disclosed to those not caring for the client. All entries must be accurate and legible. No part of the client’s Medical record can leave the hospital. Students are not allowed to access the records of patients for whom they are not providing direct care.
4. Information communicated by clients to students may not be repeated to anyone outside of the direct care team. Care should be taken when in the corridors, lounge, classroom, dining rooms, or other public areas, so that conversations are not overheard.
5. An individual can withhold any information about himself/herself that he/she desires. Nursing students must be especially careful regarding the invasion of the client's privacy.
6. Students should use only the initials of the client when filling out history forms, care plans, and any other documents which are a part of their educational experience.

Unprotected Exposures
In the event of any unprotected exposure to blood or body fluids, the student is to follow the procedures of the DePaul University School of Nursing Bloodborne Pathogens Exposure Control Plan (https://csh.depaul.edu/academics/nursing/student-resources/Pages/exposure-control-plan.aspx).

Exposure at Outside Facility while Performing Duties within Student Role
Any student incurring such an exposure should follow both DPU's post exposure policy as well as the institution’s policy where the exposure occurred. All student exposure incidents while conducting learning or training activities under the SON must be reported to the Safety Officer or his/her designee as soon as possible, but no later than one business day after the incident.

Students are encouraged to speak with their health care provider about any additional follow-up post-exposure prophylaxis that may be recommended.

When possible, the Safety Officer, his/her designee, or institution where the exposure took place, will look into testing the exposure source individual for HIV, hepatitis B, and/or hepatitis C. Testing of the source individual’s blood does not need to be repeated if the source individual is already known to be infected with HIV, hepatitis B, and/or hepatitis C.

Student Injury and Incident Policy
In the event that a student is injured (or involved in an untoward incident) while in the clinical setting, the student should immediately notify the clinical instructor. The clinical instructor should assist the student to seek immediate health assessment and response following all policies and procedures of the clinical setting that pertain to the type of injury sustained. The clinical instructor must notify the course coordinator of the event by the end of the clinical day.

If a student is injured (or involved in an untoward incident) on the campus while conducting learning or training activities, the student must notify the instructor or faculty member in charge of the activity immediately. The instructor or faculty member in charge must call 911 if the injury is serious. The instructor or faculty member is to notify DePaul Public Safety and follow university policy for all injuries.

All student injuries (or untoward incident), whether they occur at DePaul University or off campus while conducting learning or training activities under the School of Nursing require that DePaul Public Safety is notified, that a public safety report is filed and the DePaul Environmental Health and Safety Incident Report form (DEHSIR), which can be found here (http://offices.depaul.edu/environmental-health-and-safety/forms/Pages/incident-report.aspx), is completed. All must be completed within 1 business day of the incident. The incident must also be reported to the School of Nursing Safety Officer or the SON Safety Officer designate as soon as possible but no later than one business day after the incident.
When reporting to the SON Safety Officer, the student is to include a copy of the completed DEHSIR.

If a student reports an incident in which the harm to student is not physical but rather psychological or emotional, clinical faculty should notify the associate director of the program who will direct the student to appropriate DePaul University resources.

Once the student has been seen by a health care professional for the injury (or untoward incident) and completed all reporting processes required by the university and clinical setting, the student should contact his/her health care provider for any further treatment or health care follow-up that is needed. The student may wish to contact the DOS office if the student has concerns or questions.

**Student Clinical Requirements**

It is mandatory that all students have all of their clinical requirements completed and uploaded to their Student Immunization Tracker through Castle Branch prior to attending clinical. It is the responsibility of the student to insure that all clinical requirements are kept current. Students must submit copies of renewed coverage, updated lab results, and renewed skills PRIOR to the anniversary of the expiration date. Students who are non-compliant with clinical requirements will not be permitted to attend clinical. Non-attendance of clinical due to non-compliance with clinical requirements will be treated as an unexcused absence that may not be made up. This may put the student at risk for failing the course.

The student must submit COPIES (NOT ORIGINALS) of the following:

1. **Tuberculosis Screening:**

   All students that will provide patient care in the clinical setting are required to submit proof of not having active tuberculosis prior to the first day of the clinical rotation. Documentation must be uploaded into Castle Branch and approved to fulfill this requirement. This can be done by completing one of the following:
   
a. Two-step Tuberculin Skin Test.
   
   The student will be required to have two separate tuberculin skin tests placed 1-3 weeks apart. The results of both tests must be uploaded into Castle Branch.
   
b. Quantiferon Gold Test
   
   The student will be required to have this blood test drawn and upload the results into Castle Branch. Please note: some clinical sites will only accept this as proof of not having active tuberculosis.
   
c. Students With Positive TB Results:
   
   Students with a history of having positive TB results or has received the BCG vaccination prior to admission into the nursing program at DePaul University must complete the following:
   
   Submit certification from a healthcare provider that the faculty member is currently free of the signs and symptoms of active tuberculosis. This certification must be renewed every 6 months. AND
   
   Submit a negative chest X-ray from the time of the initial positive TB results. In the event that a chest X-Ray was not completed, the faculty member will be required to obtain one prior to the first day of the clinical rotation.
   
   OR
   
   Complete a Quantiferon Gold test. AND

2. **Titers for Rubeola, Mumps, Rubella, Varicella.** A TITER is MANDATORY to document immunity. (Note: Vaccination or history of the disease is necessary to develop immunity). The titer MUST contain the titer value as well as the reference norm. The required titers are as follows:
   
a. Rubeola IgG
   
b. Mumps IgG
   
c. Rubella IgG
   
d. Varicella IgG

   If titers indicate no immunity for Rubeola, Mumps, Rubella, and Varicella, immunization is required (for Rubeola, Mumps or Rubella, this will be a booster series of 2 MMR immunizations). Follow-up titers will need to be drawn after re-immunization for both MMR and Varicella.

   Students must sign a waiver if no immunity is detected on follow-up titer. The waiver states that you understand the risk associated with continuing in the nursing program, specifically that if you contract the disease to which you are not immune, the school is not liable and that you want to continue in your studies, knowing the risk. Once you have documented your immunity or signed a waiver, you will not need to furnish any further documentation.

3. **Proof of immunity to Hepatitis B must be confirmed through bloodwork.** Immunity may be achieved through vaccination or previous exposure. You may submit test results and documentation of immunity from your provider in lieu of receiving vaccination. The following documents will be accepted as proof of immunity:
   
a. Positive Hepatitis B surface antibody (anti-HBs) indicates immunity from previous vaccination.
   
b. Positive anti-HBs and positive Hepatitis core antibody (anti-HBc) indicate immunity due to infection; a negative Hepatitis B surface antigen (HBsAG) is needed to determine whether acute or chronic infection exists, and the student will need to follow up with his or her health care provider.

   If immunity is not documented, the student must receive the Hepatitis B immunization series and post-vaccination bloodwork as outlined below.

   If the series has been started but has not been completed prior to beginning clinical attendance, it is the student’s responsibility
9. A signed HIPAA-FERPA authorization must be uploaded to Castle Branch by the start of the first quarter. This form must be signed in order for the School of Nursing to release any student health information related to clinical requirements to clinical sites.

10. Blood Borne Pathogens Exposure training must be completed online prior to the first clinical day. The training can be found at go.depaul.edu/bbp (http://go.depaul.edu/bbp/).

11. Criminal Background Check: Nursing students must submit to a criminal background check via Castle Branch prior to their initial clinical experience. Criminal background checks must be completed by August 1st for Fall Quarter or December 1st for Winter Quarter and will remain in effect unless: a.) a clinical agency determines it necessary to require more frequent or more detailed background checks, b) OR a nursing student interrupts his/her program of study for one quarter or longer. In the above cases, it is mandatory for the student to have another criminal background check performed.

The School of Nursing may not be able to place students in a clinical setting if there are positive findings on the criminal background check. As a result, a student will not be able to complete the requirements of the program.

12. Drug Screening: Nursing students are required to have a ten-panel drug screen as required by clinical institutions. Some institutions may require a new drug screen each year. The test may be obtained from any health care agency, or from Castle Branch through Quest Diagnostics Lab. The drug test MUST follow a “Chain-of-custody” procedure. The student should sign a release to have the results sent to School of Nursing Coordinator of Clinical Placements. See below for the School of Nursing Policy on Drug Use and Testing.

The School of Nursing may not be able to place students in a clinical setting if there are positive findings on the drug screen. As a result, a student will not be able to complete the requirements of the program.

Drug Use and Testing

In accordance with De Paul University policies, the School of Nursing will impose disciplinary sanctions upon any student found to be in violation of laws or policies relating to the unlawful possession, use, or distribution of drugs or alcohol. Nursing students may be required to have a ten-panel drug screen based on clinical affiliates’ requirements. Release forms must be signed to have the results sent to the Clinical Placement Coordinator.

If a student’s drug test is positive, secondary or confirmatory testing will be performed and the student will be expected to cooperate with interviews and follow-up procedures to ascertain and endeavor to confirm whether there was an explanation for the positive test result that did not involve illegal conduct, e.g., ingestion of lawful drugs, food, or beverages that could cause positive results.

If the positive test is confirmed and no sufficiently credible explanation of relevant lawful conduct is forthcoming, clinical placement in a clinical course and successful completion of the program will be jeopardized due to failure to qualify for placement and/or successful completion of the program. Students with confirmed positive tests and/or no sufficiently credible explanation of relevant lawful conduct will be advised that the De Paul University School of Nursing cannot place them in a clinical setting. As a result, a student would not be able to continue in their studies, knowing the risk. Once you have documented your immunity or signed a waiver, you will not need to furnish any further documentation.

CDC Categories of Persons at Increased Risk for Hepatitis B Infection

- Persons born to mothers in or from countries in which Hepatitis B is endemic.
- Sexually active men who have sex with men.
- Critical concepts of high-quality CPR
- The American Heart Association Chain of Survival
- 1-Rescuer CPR and AED for adult, child and infant
- 2-Rescuer CPR and AED for adult, child and infant
- Differences between adult, child and infant rescue techniques
- Bag-mask techniques for adult, child and infant
- Rescue breathing for adult, child and infant
- Relief of choking for adult, child and infant
- CPR with an advanced airway

7. Professional Liability Insurance: Each MENP and BSN completion student must obtain their own student nursing professional liability insurance policy against claims arising from real or alleged errors or omissions. Their policy must have minimal limits of coverage of $1,000,000 PER claim and $5,000,000 aggregate. This insurance must be renewed annually.

8. Evidence of Current Health Insurance: All nursing students must submit proof of continuous comprehensive health insurance on a yearly basis. Please note that the name on the health insurance must match the student’s name.

9. A signed HIPAA-FERPA authorization must be uploaded to Castle Branch by the start of the first quarter. This form must be signed in order for the School of Nursing to release any student health information related to clinical requirements to clinical sites.

10. Blood Borne Pathogens Exposure training must be completed online prior to the first clinical day. The training can be found at go.depaul.edu/bbp (http://go.depaul.edu/bbp/).

11. Criminal Background Check: Nursing students must submit to a criminal background check via Castle Branch prior to their initial clinical experience. Criminal background checks must be completed by August 1st for Fall Quarter or December 1st for Winter Quarter and will remain in effect unless: a.) a clinical agency determines it necessary to require more frequent or more detailed background checks, b) OR a nursing student interrupts his/her program of study for one quarter or longer. In the above cases, it is mandatory for the student to have another criminal background check performed.

The School of Nursing may not be able to place students in a clinical setting if there are positive findings on the criminal background check. As a result, a student will not be able to complete the requirements of the program.

12. Drug Screening: Nursing students are required to have a ten-panel drug screen as required by clinical institutions. Some institutions may require a new drug screen each year. The test may be obtained from any health care agency, or from Castle Branch through Quest Diagnostics Lab. The drug test MUST follow a “Chain-of-custody” procedure. The student should sign a release to have the results sent to School of Nursing Coordinator of Clinical Placements. See below for the School of Nursing Policy on Drug Use and Testing.

The School of Nursing may not be able to place students in a clinical setting if there are positive findings on the drug screen. As a result, a student will not be able to complete the requirements of the program.

Drug Use and Testing

In accordance with De Paul University policies, the School of Nursing will impose disciplinary sanctions upon any student found to be in violation of laws or policies relating to the unlawful possession, use, or distribution of drugs or alcohol. Nursing students may be required to have a ten-panel drug screen based on clinical affiliates’ requirements. Release forms must be signed to have the results sent to the Clinical Placement Coordinator.

If a student’s drug test is positive, secondary or confirmatory testing will be performed and the student will be expected to cooperate with interviews and follow-up procedures to ascertain and endeavor to confirm whether there was an explanation for the positive test result that did not involve illegal conduct, e.g., ingestion of lawful drugs, food, or beverages that could cause positive results.

If the positive test is confirmed and no sufficiently credible explanation of relevant lawful conduct is forthcoming, clinical placement in a clinical course and successful completion of the program will be jeopardized due to failure to qualify for placement and/or successful completion of the program. Students with confirmed positive tests and/or no sufficiently credible explanation of relevant lawful conduct will be advised that the De Paul University School of Nursing cannot place them in a clinical setting. As a result, a student would not be able to continue in their studies, knowing the risk. Once you have documented your immunity or signed a waiver, you will not need to furnish any further documentation.

CDC Categories of Persons at Increased Risk for Hepatitis B Infection

- Persons born to mothers in or from countries in which Hepatitis B is endemic.
- Sexually active men who have sex with men.
- Critical concepts of high-quality CPR
- The American Heart Association Chain of Survival
- 1-Rescuer CPR and AED for adult, child and infant
- 2-Rescuer CPR and AED for adult, child and infant
- Differences between adult, child and infant rescue techniques
- Bag-mask techniques for adult, child and infant
- Rescue breathing for adult, child and infant
- Relief of choking for adult, child and infant
- CPR with an advanced airway

7. Professional Liability Insurance: Each MENP and BSN completion student must obtain their own student nursing professional liability insurance policy against claims arising from real or alleged errors or omissions. Their policy must have minimal limits of coverage of $1,000,000 PER claim and $5,000,000 aggregate. This insurance must be renewed annually.

8. Evidence of Current Health Insurance: All nursing students must submit proof of continuous comprehensive health insurance on a yearly basis. Please note that the name on the health insurance must match the student’s name.

9. A signed HIPAA-FERPA authorization must be uploaded to Castle Branch by the start of the first quarter. This form must be signed in order for the School of Nursing to release any student health information related to clinical requirements to clinical sites.

10. Blood Borne Pathogens Exposure training must be completed online prior to the first clinical day. The training can be found at go.depaul.edu/bbp (http://go.depaul.edu/bbp/).

11. Criminal Background Check: Nursing students must submit to a criminal background check via Castle Branch prior to their initial clinical experience. Criminal background checks must be completed by August 1st for Fall Quarter or December 1st for Winter Quarter and will remain in effect unless: a.) a clinical agency determines it necessary to require more frequent or more detailed background checks, b) OR a nursing student interrupts his/her program of study for one quarter or longer. In the above cases, it is mandatory for the student to have another criminal background check performed.

The School of Nursing may not be able to place students in a clinical setting if there are positive findings on the criminal background check. As a result, a student will not be able to complete the requirements of the program.

12. Drug Screening: Nursing students are required to have a ten-panel drug screen as required by clinical institutions. Some institutions may require a new drug screen each year. The test may be obtained from any health care agency, or from Castle Branch through Quest Diagnostics Lab. The drug test MUST follow a “Chain-of-custody” procedure. The student should sign a release to have the results sent to School of Nursing Coordinator of Clinical Placements. See below for the School of Nursing Policy on Drug Use and Testing.

The School of Nursing may not be able to place students in a clinical setting if there are positive findings on the drug screen. As a result, a student will not be able to complete the requirements of the program.
**Access to Student Records**

1. A student may have access to his/her personal student record upon request. Confidentiality is maintained with all student files. Release of information is granted upon written request by the student.

2. No specific or detailed information concerning specific medical diagnoses will be provided to faculty outside the department, administrators, or even parents, without the expressed written permission of the individual in each case. This position with respect to health records is supported by amendment to the Family Education Rights and Privacy Act of 1974. Health officials and other institutional officers must remember that all confidential medical/health care information is protected by statutes and that any unauthorized disclosure may create legal liability.

**Graduation**

DePaul University awards the both the Bachelor of Science and Master of Science degree with a major in nursing to students who successfully complete RN to MS program. All requirements of the University, College, and School of Nursing must be met as outlined in the current Catalog, including earning at least a 2.00 cumulative GPA in courses required for the program for students with undergraduate standing and earning at least a 3.00 cumulative GPA in courses required for the program for students with graduate standing.

The student is responsible for completing the application for degree conferral and commencement by the deadline posted in the academic calendar.

Students are responsible for changes reflecting new program requirements if the department gives sufficient notice.

**Nursing RN to MS (MS)**

- The RN to MS curriculum provides for seamless progression for the Registered Nurse (RN) with an associate degree in nursing (ADN) to the master's degree (MS) after completing the BS in nursing and matriculating to the MS in nursing.
- The RN with an associate degree (ADN) in nursing and a BA/BS in another field may proceed directly to pursuing the MS in nursing while taking three bridge level nursing courses.
- The RN with a BSN may proceed directly to pursuing the MS in nursing.
- The RN to MS program will be offered online except for the clinical component. Students will be required to complete clinical nursing experiences, which will be undertaken in their home communities with appropriate local professional mentors. The master's component of the program prepares practicing nurses to meet the core expectations of a master's education in nursing and to assume the role of a nurse educator, nurse administrator, family nurse practitioner (FNP), or adult gerontology nurse practitioner (AGNP). Students choosing the nurse administrator track will also earn a certificate in Health Administration from Rosalind Franklin University of Medicine and Science (RFUMS) along with the MS in Nursing from DePaul University. The certificate program focuses on interprofessional collaboration and are interdisciplinary in nature. Following successful completion of the nurse practitioner tracks (FNP or AGNP), students will be able to sit for the national certification exam.

**Learning Outcomes**

- Develop an advanced level of patient care management competency focused on a culture of safety and quality that prevents harm.
  - Integrate client-centered and culturally appropriate concepts and approaches in strategic planning to meet population needs for clinical prevention and appropriate care services for diverse populations.
  - Synthesize data from evidence and other disciplines to improve one's practice.
  - Utilize professional practice at the highest level of accountability to render care to patients while respecting patient wishes and maintaining culturally competency.
- Design, conduct, and evaluate scholarly inquiry in nursing science using nursing concepts and theories with a focus on translational science.
  - Synthesize findings from health professions education research within the practice of nursing education to support competency development in learners.
  - Apply scientific findings from nursing, physiological sciences, public health, quality improvement, and management science in an organization for the continual improvement of nursing care delivery.
  - Advocate for high quality, cost-effective care by working with healthcare teams, patients and policy advocates to improve health care.
  - Promote approaches to clinical practice that observes not only the interdependence of clinical practice and policy but also considers the ethics at both the legal and social context.
- Evaluate health care systems in regard to the use of information systems technology, quality improvement, culturally relevant care models and tracking of performance outcomes.
  - Use current technological tools to ensure the best quality interprofessional education foundation for nursing.
  - Analyze current nursing education issues including but not limited to use of technology in teaching/learning, contemporary pedagogies, and measuring educational outcomes.
  - Use current information systems technology, quality improvement concepts, and outcomes analysis to ensure effective health systems management.
- Utilize clinical information systems in a way that allows for clinical documentation and evaluation to enhance patient safety.
  - Examine professional nursing practice roles of autonomy, integrity, social justice, and ethics in light of Vincentian heritage and values and other influences and value systems.
  - Participate in health policy analysis and health policy formation relative to specific health care issues relevant to practice as an administrator.
  - Promote a culture of excellence by providing peer review and implementing improvement interventions proactively.
will choose to specialize in one of four tracks:

- Adult-Gerontological Nurse Practitioner Track, Nursing (MS) (https://catalog.depaul.edu/programs/nursing-ms/adult-gerontological-nurse-practitioner-track-nursing-online-ms/)
- Family Nurse Practitioner Track, Nursing (MS) (https://catalog.depaul.edu/programs/nursing-ms/family-nurse-practitioner-track-nursing-online-ms/)
- Nursing Administration Track, Nursing (MS) (https://catalog.depaul.edu/programs/nursing-ms/nursing-administration-track-nursing-online-ms/)
- Nursing Education Track, Nursing (MS) (https://catalog.depaul.edu/programs/nursing-ms/nursing-education-track-nursing-online-ms/)

Each track requires several courses plus a capstone experience and required practicum. The specific required coursework for each track can be found by navigating to the respective page. Following completion of the specialty, a graduate certificate in Health Administration is conferred by Rosalind Franklin University of Medicine and Science.

**Program Graduate Academic Student Handbook**

A complete list of policies specific to this program of study is contained in the Student Handbook that is updated regularly on the website for the School of Nursing. The complete RN-MS student handbook can be found here: RN to MS Student Handbook (https://csh.depaul.edu/academics/nursing/student-resources/Pages/student-handbook.aspx)

**Retention Policies**

**Undergraduate Student Academic Policy**

Any RN to MS student with undergraduate standing who fails to maintain a 2.00 cumulative grade point average (C average) is placed on academic probation. A student is removed from academic probation when the cumulative grade point average reaches the required minimum of 2.00. A student's academic status is reviewed after any Autumn, Winter, Spring and Summer quarters in which the student was enrolled in at least 1 credit hour. An academic probationary student may be limited to 12 credit hours per quarter until a cumulative GPA of 2.00 is reached. A student who remains on academic probation for three sequential quarters of enrollment may be academically dismissed.

A student dismissed for academic reasons is not eligible for readmission to DePaul University for a period of two quarters. The readmission decision is made by the Office of Admission in consultation with the college or school.

A dismissed student may be required to demonstrate acceptable academic achievement at another regionally accredited college or university before readmission is approved. Courses to be taken elsewhere must be approved by the college advising office and a grade of C or better must be earned in all such coursework.

Credits and grades earned during previous enrollment at DePaul will remain a part of the student’s records.

A student who earns more than one C or C- in a graduate-level nursing course will be prohibited from advancing to the MS portion of the RN to MS program and is required to enroll in the School of Nursing Success Coaching program for mandatory remediation at that time. As long all other undergraduate graduation degree requirements are met, the student will be permitted to graduate from the BS portion of the program.

**Graduate Student Academic Policy**

RN to MS students with graduate standing must maintain a cumulative GPA of 3.00 or greater to remain in good standing for all graduate level courses. A student will be placed on academic probation if the cumulative GPA dips below 3.00. The student must enroll in the School of Nursing Success Coaching program for mandatory remediation at this time. If the cumulative GPA rises to at least 3.00 at the end of the next academic quarter of coursework, the student is no longer on academic probation. If the cumulative GPA has not risen to at least 3.00 at the end of the next academic quarter of coursework, the student will be academically dismissed from the program.

If a student earns a C or C- in any graduate level course, the student is placed on academic probation. The student must enroll in the School of Nursing Success Coaching program for mandatory remediation at this time. If the student is able to earn grades in all courses that are C+ or above AND earn a cumulative GPA of 3.00 or greater in the next academic quarter of coursework, the student is no longer on academic probation. If this does not occur, the student will be academically dismissed from the program.

A student who earns a D+ or lower in any graduate level course will be academically dismissed from the program.

**Policy Regarding Encumbered Registered Nurse (RN) Licensure**

1. If a student experiences an encumbered license (such as a RN license with stipulations or restrictions) during their graduate studies, he/she must notify the Assistant Director for the Program immediately upon receipt of the encumbrance.
2. The student will provide the appropriate Assistant Director with a copy of the Agreed Order.
3. Students may be allowed to take non-clinical courses with an encumbered license.
4. Students will not be allowed to take clinical courses with an encumbered license.
5. The student will notify the Assistant Director of the Program when the student’s license becomes unencumbered and provide a copy of the Board of Nursing’s notification letter.
6. Failure to notify the Assistant Director of the Program of an encumbered RN license will be considered academic misconduct and be treated as such.

**Progression Policies**

1. All students must complete the orientation session before enrolling in the nursing program of studies.
2. All students must meet with their assigned academic advisor during the first quarter of the program to review their official program of studies for the current academic year.
3. Students must meet with their academic advisor at the end of the first academic year and at least once during each subsequent academic year to review progress in the program and plan for the
following year. Advisors are not generally available during the months of July and August.

4. A student may not register for any course that has a prerequisite if that student has an incomplete in the prerequisite course.

5. Students may not attend classes in a course for which enrollment is blocked. No credit will be awarded for assignments completed when not officially enrolled in a course. This includes assignments previously completed and turned-in for courses taken in the past.

6. All required health records, evidence of CPR certification, criminal background checks, personal health insurance, and professional liability insurance must be kept on file in the SON. It is each individual student's responsibility to keep all of their records up-to-date. Drug screens are required for clinical placements. See Clinical Guidelines for further information. Failure to have all records present and up-to-date at the beginning of each course will result in inability to attend the clinical component of the course.

7. Leave of Absence:
   a. Students who need to interrupt their studies for personal, health or other reasons may request a leave of absence for up to one full year. The request should be made to the Assistant Director of the program and the Admission, Progression and Retention Committee. It is the student's responsibility to send a copy of such request to the Director of the School of Nursing, the student's faculty advisor, and the Assistant Director of the Program. This written request should demonstrate the resolution of the extenuating circumstances contributing to the original need to leave the Nursing Program. This request for reinstatement must be made no less than 6 weeks prior to resuming the nursing course sequence. Students will be notified in writing regarding the decision concerning their re-entry to the program. Individual assessment of current knowledge and clinical skills will be made prior to placement of the student in the appropriate level within the nursing program. Students who become "out of sequence students" due to withdrawal, or military/medical/family leave of absence will be placed into a clinical rotation upon re-entry based upon space available and cannot be guaranteed placement in the next available clinical course needed. "Out of sequence students" cannot displace in-sequence students from a clinical spot.
   b. Students who wish to return to the program following a leave of absence will need to submit a written request for resuming coursework to the Admissions, Progression, and Retention Committee. It is the student's responsibility to send a copy of such request to the Director of the School of Nursing, the student's faculty advisor, and the Assistant Director of the Program. This written request should demonstrate the resolution of the extenuating circumstances contributing to the original need to leave the Nursing Program. This request for reinstatement must be made no less than 6 weeks prior to resuming the nursing course sequence. Students will be notified in writing regarding the decision concerning their re-entry to the program. Individual assessment of current knowledge and clinical skills will be made prior to placement of the student in the appropriate level within the nursing program. Students who become "out of sequence students" due to withdrawal, or military/medical/family leave of absence will be placed into a clinical rotation upon re-entry based upon space available and cannot be guaranteed placement in the next available clinical course needed. "Out of sequence students" cannot displace in-sequence students from a clinical spot.

8. Students who have taken a leave of absence from the program for greater than 12 calendar months must re-apply to the university. Their application will then be considered with all other qualified applicants applying for admission to the nursing program.

9. A student who withdraws from a core nursing course while in good standing cannot progress in the sequenced nursing curriculum until that course has been successfully completed. In courses that contain both a clinical practicum and a lecture component, both course segments must be completed simultaneously. Exceptions may be identified and defined by the Admissions, Progressions and Retention Committee (APR) in consultation with the Director of the School of Nursing and the Assistant Director of the Program and the course faculty.

10. A student who withdraws from a core nursing course who is ‘not in good standing’ (with a grade of “C” or lower or on probation) at the time of withdrawal, will be referred to the Admissions, Progressions, and Retention Committee (APR). The APR will meet to review the student's past and current performance and to elicit recommendations from the course faculty. A representative of the APR committee may then meet with the course faculty and the Assistant Director of the Program and student to counsel the student and to establish a contract for academic improvement. Such students may not progress in the sequenced nursing curriculum until the course has been retaken and successfully completed. In courses that contain both a clinical practicum and a didactic theory portion, both course segments must be completed simultaneously.

11. A student may withdraw from a core nursing course ‘not in good standing’ (with a grade of “C” or lower) only once during their program of study. A second such withdrawal will result in dismissal from the program.

12. A student who has a grade of B- (86% or less) at mid-quarter may be placed on contract for academic improvement by the instructor. The student must satisfactorily fulfill all course and contract requirements by the end of the quarter of contract initiation in order to progress in the program.

13. A student currently enrolled in a degree program in which revisions are approved while their studies are in progress may elect to formally adopt the revised requirements.

Academic Virtual Environment Policy

The School of Nursing expects a respectful environment conducive to teaching and learning from all students, faculty, and staff. Inappropriate conduct is defined as any action that interferes with the creation and maintenance of an effective virtual learning environment. Students are expected to display civility in all aspects of their educational experience at DePaul University.

Appropriate student conduct is outlined in detail in the School of Nursing Professional Development Guidelines (Appendix D in the Student Handbook). Appropriate student conduct includes but is not limited to: being present on the discussion board; displaying courtesy, maintaining professional standards and safe practice in the clinical areas; fostering a positive learning environment by respecting the ideas and opinions of others; respecting others, including not making sarcastic or disrespectful remarks, using foul language or swearing; not threatening others on the discussion board.

Students displaying inappropriate conduct on the discussion board will be required to talk with their Academic advisor and may be placed on a performance contract. Inappropriate conduct will be documented with a written copy of the incident placed in the student's file. Such incidents of inappropriate conduct will then be reported to the Director of the School of Nursing, with copies sent to the Assistant Director of the Program, and the Admissions, Progression, and Retention Committee. Additional sanctions for inappropriate conduct may be imposed, including dismissal from the nursing program. (For additional information, please see both the University Student Handbook-available on line, as well as the “Student Misconduct Process” outlined below.)

Academic Integrity Policy

Violations of academic integrity in any form are detrimental to the values of DePaul, to the students’ own development as responsible members of society and to the pursuit of knowledge and the transmission of ideas. Violations of academic integrity include but are not limited to:
cheating, plagiarism, fabrications, falsification of research data, falsification of clinical data, destruction or misuse of the university's academic resources, academic misconduct, and complicity. If an instructor finds that a student has violated the Academic Integrity Policy, the appropriate initial sanction is at the instructor's discretion. An instructor may choose to file an academic integrity violation with the university. Actions taken by the instructor do not preclude the college or the university from taking further action, including dismissal from the university. Conduct that is punishable under the Academic Integrity Policy could result in criminal or civil prosecution. The full Academic Integrity Policy can be found here (https://offices.depaul.edu/academic-affairs/faculty-resources/academic-integrity/Pages/default.aspx).

The University's Academic Integrity Policy and Code of Responsibility apply to professional interactions as well. See also The School of Nursing Professional Development Guidelines (Appendix D in the Student Handbook).

Academic Integrity Policy Extension for Clinical and Service Settings

DePaul University is committed to education that engages its students, faculty and staff in work within Chicago's institutions and communities. As DePaul representatives to our partner institutions and community organizations, we ask that you take seriously your responsibilities to these institutions during service and clinical experiences and internships. The community and its institutions are extensions of the DePaul classroom.

The University's Academic Integrity Policy and Code of Responsibility apply to professional interactions as well. See also The School of Nursing Professional Development Guidelines (Appendix D in the Student Handbook).

Student Advising/Program of Study

1. A graduate student services administrator (GSSA) from the College of Health Office of Advising and Student Services (OASS) will be assigned as the primary advisor for students while they are pursuing the BS degree portion of the program. The GSSA will work closely with the RN to MS Program faculty, who will be assigned in Campus Connection, as the students' secondary advisor during this phase. The advisor will assist in developing an appropriate program of studies according to the student's preferences, abilities, and anticipated course availability. Students are required to meet with their advisors during their first quarter in the program, at the end of the first academic year and once per academic year following. Students are encouraged to review the student handbook prior to meeting with their advisor. Students should bring the Student Handbook Agreement Statement to the meeting. Once it is signed by student and advisor, it should be uploaded to Castle Branch.

2. The student is responsible for setting-up an appointment with the designated advisor to develop an individualized program of studies.

3. The student is responsible for obtaining a copy of the program of studies worked out during the faculty-student advising session.

4. The student is responsible for enrolling in classes in the sequence identified in the program of studies. Should circumstances interrupt or delay registering for the designated classes, students must notify the Assistant Director of the Program, the department administrative assistant, and faculty advisor for modification of the planned program of studies.

5. The student is responsible for meeting all prerequisites to courses for which the student is registering.

6. The student is responsible for scheduling periodic student-advisor, and student-instructor conferences.

7. The student may not register for any clinical course until all conditions of admission, undergraduate nursing prerequisites, and liberal arts and science requirements are completed. Students who are not in compliance will be withdrawn from the course(s) for which they are currently registered. Students will be denied progression in the program up to and including being denied graduation until all requirements are met.

Clinical Guidelines

Clinical learning activity is defined as a planned activity occurring in a health care agency when the student is identified as a DePaul University student. The clinical learning activity may or may not include contact with patients.

In order for students to be eligible for clinical placement, they must complete the following:

1. All School of Nursing graduate clinical requirements

2. All School of Nursing graduate health requirements

3. Approval of clinical mentor/agency by the course faculty of record

4. Establish clinical affiliation agreements between the DePaul University School of Nursing and both the mentor and agency in which a student plans to complete clinical or practicum hours. Students will receive an email at the beginning of each term reminding them to start the process of procuring a clinical site and clinical mentor. Students can follow the procedure here (https://csh.depaul.edu/academics/nursing/student-resources/requests-policies-procedures/Pages/preceptor-mentor-request.aspx).

5. A student may be dropped from clinical coursework for not participating in clinical orientation.

Failure to meet health requirements will prohibit students from practice learning activities and may result in cancellation of course registration. Any practicum hours completed by a student with-out completion of the above requirements will not be counted toward the requirement for the course. Any clinical hours completed before health requirement clearance from the SON Compliance Officer will not count toward required clinical hours for the program. This could result in a student failing the course if the required clinical hours are not completed by the end of the quarter.

All practice requirements should be identified in NSG 376 and submitted to course faculty of record by the end of NSG 376.

All health requirements should be uploaded to Castle Branch the quarter prior to a student beginning a clinical/practicum course.

The student acknowledges that all DePaul University and School of Nursing academic and conduct policies remain in place during clinical experiences. The student also agrees to comply with all of the policies set forth by the clinical site. The student understands that failure to comply with university or School of Nursing policies or the policies of the clinical site may result in sanctions, including removal from the clinical site and/or the course. The student understands that it is his/her responsibility to immediately notify his/her instructor in the event that the student encounters problems with his/her supervisor, preceptor, or staff at the site.

Mentor Selection for Graduate Students

Students are responsible for selecting a mentor for practice experience courses. Criteria for graduate mentors include:
1. Unencumbered professional license and/or national certification
2. Documented current practice in the field
3. Educational experience: BSN, MSN preferred for NSG 377 and MSN practicing in chosen specialty track for graduate capstone course.
4. Commitment to high professional standards
5. Previous mentor experience is preferred
6. Interest in working with students with desire to foster student learning.

**Process for Establishing a Mentor**

1. The student identifies an appropriate mentor for practice experience activities according to criteria and has a discussion with the mentor about their current standing in the program and practice experience needs. The student shall only put forward the names of mentors who agree to the experience.
2. The student submits a preceptor/mentor request form along with a curriculum vitae of the mentor. The Assistant Director of the program will review the resume for established criteria and the agency clinical affiliation agreement.
3. The School of Nursing will process the agency affiliation agreement and mentor letter.
4. The student uploads evidence of compliance with all health requirements.
5. The School of Nursing will notify the student and the course faculty member when all requirements have been met. Practice experience hours cannot be started until such time.
6. The course faculty member will advise the student when to begin the mentor hours.

**Unsafe Clinical Performance**

A student is responsible for implementation of safe patient care during the supervised clinical practicum. Unsafe behavior can result in suspension from the clinical site, student remediation, failure of the course, and/or dismissal from the program. Unsafe practice is defined as behavior that has the potential to cause serious harm to a patient. Examples of unsafe clinical behavior in clinical practice include, but are not limited to:

Unsafe practice patterns include but are not limited to:

1. Violating HIPAA requirements
2. Violating OSHA requirements
3. Performing a procedure outside the domain of nursing
4. Performing a procedure in which he/she has not been prepared
5. Failing to use universal precautions

6. Administering treatments/medications in any form via any route without consent and/or supervision from the clinical instructor.
7. Advising patients about diagnosis or prognosis or referring patients to treatments, agencies, medications, without first discussing such with the clinical instructor.
8. Asking a staff nurse to supervise any procedure without consent of the clinical instructor.
9. Inability to correctly calculate math/medication problems
10. Knowingly exposing patients, colleagues, and others to actual or potential life threatening communicable diseases.
11. Stealing drugs, supplies, or belongings from an agency or patient.
12. Removing copies of patient care documents from healthcare agencies.
14. Failure to adhere to DePaul School of Nursing and/or clinical agency policies.
15. Falsifying patient records or fabricating patient experiences.
16. Neglecting to give appropriate care.
17. Providing patient care in a harmful manner or exhibiting careless or negligent behavior in the process of providing care to a patient.
18. Refusing to assume the assigned care of a patient, or failing to inform the instructor of an inability to care for a patient.
19. Willful or intentional physical or emotional harm to a patient.
20. Failure to report an error in assessment, treatment, or medication or failure to report an unusual occurrence or an adverse reaction.
21. Failure to comply with DePaul’s Drug Free Campus policy.
22. Performance not in compliance with stated student expectations as outlined in lecture or course syllabi.
23. Failure to know proper vital sign ranges as well as failure to notify instructor or patient's nurse of critical vital sign value.

Any student whose pattern of behavior demonstrates unsafe clinical practice that endangers a patient, colleague, or self in the clinical area will be suspended immediately from the clinical experience. The faculty of record will meet with the student to discuss how the unsafe behavior came about and potential complications from said behavior and prepare written documentation of the event. This will be forwarded within 24 hours to the course coordinator. A copy of this document will be placed in the student file and forwarded to the Director of the School of Nursing, Assistant Director of the program, and Admissions, Progression and Retention Committee. If appropriate, an incident report will be filed at the clinical site.

If, in the clinical instructor's clinical judgment, a student is unsafe to continue in the clinical practicum, the clinical instructor will take the following steps:

1. Dismiss the student for the remainder of the clinical day. The instructor will follow institutional guidelines as appropriate.
2. Contact the course coordinator and the Assistant Director of the Program.
3. Submit a written report of the incident to the Assistant Director’s office within one working day. The Assistant Director will contact the Registrar to put a hold on the student's grade; the student will not be allowed to withdraw from the course at this time. The clinical instructor will schedule a meeting with the student within 24 hours of the incident or as soon as is practical, and prepare a written report that describes the incident that resulted in the student's dismissal.
Clinical Performance Limitation Related to Temporary Disability

A student who incurs an injury or has any other physical limitation of a temporary nature must notify course faculty and provide documentation from his/her health care provider that he/she is able to safely carry out the duties of a student in the practice experience setting. This must occur as soon as possible and prior to attendance at practice setting.

The final decision as to whether the student is allowed in the practice setting rests with the agency. If the student is unable to attend the practice experience, he or she will need to withdraw and meet with the Assistant Director of the program to explore options.

Students who are pregnant are advised that practice sites have individual policies and requirements related to pregnant students that may impact the student’s ability to attend or complete the experience.

Clinical Probation/Remediation

A student requires a contract when one or more course objectives are not being met. These behaviors, if not addressed, put the student at risk for receiving a non-passing final grade in the course. The process is initiated as soon as course faculty recognizes that a student’s performance or behavior may jeopardize the successful completion of a course. The contract can be initiated at any time during the quarter.

The contract is documented on the Student Faculty Contract form (Appendix C in the Student Handbook) and is completed by the course faculty. The faculty will document, in writing, on the contract form, the areas of deficient student performance and identify behaviors the student will need to demonstrate in order to receive a passing grade. The student will receive a copy of this contract. The student’s academic advisor will be notified as will the Assistant Director of the Program. The academic advisor will follow-up with the course coordinator regarding the student’s remediation progress. By the end of the quarter (or completion of the course in the event of a withdrawal), the student must demonstrate satisfactory remediation of all areas of concern noted in the contract without further additional deficits or risk failing the course. Once the contract requirements have been met, the instructor should document this on the form and both student and instructor should sign the form. A completed copy can be given to the student; another copy is send to the Coordinator of Data Management for tracking purposes; another copy is placed in the student’s file.

Practice Experience

In the event that a student does not receive a passing grade in the practice experience component of a course, the student’s grade for that course will automatically become an F.

Confidentiality

Patient/Client Privacy

1. The student is expected to adhere to the American Nurses Association Code for Nurses and act in accordance with the Patient’s Bill of Rights.
2. Confidentiality is the protection of a client’s privacy through careful use of oral and written communications. The client’s right to privacy is safeguarded by judicial protection of confidential information. The student should adhere to the School of Nursing Social Media policy (Appendix E in the Student Handbook) regarding maintenance of confidentiality and protection of privacy as it relates to communication via social media.
3. A client’s chart is a legal document. Information from the client and chart is confidential and cannot be disclosed to those not caring for the client. All entries must be accurate and legible. No part of the client’s Medical record can leave the hospital. Students are not allowed to access the records of patients for whom they are not providing direct care.
4. Information communicated by clients to students may not be repeated to anyone outside of the direct care team. Care should be taken when in the corridors, lounge, classroom, dining rooms, or other public areas, so that conversations are not overheard.
5. An individual can withhold any information about himself/herself that he/she desires. Nursing students must be especially careful regarding the invasion of the client’s privacy.
6. Students should use only the initials of the client when filling out history forms, care plans, and any other documents which are a part of their educational experience.

Unprotected Exposures

In the event of any unprotected exposure to blood or body fluids, the student is to follow the procedures of the DePaul University School of Nursing Bloodborne Pathogens Exposure Control Plan: https://csh.depaul.edu/academics/nursing/student-resources/Pages/exposure-control-plan.aspx.

Exposure at Outside Facility while Performing Duties within Student Role

Any student incurring such an exposure should follow both DPU’s post exposure policy as well as the institution’s policy where the exposure occurred. All student exposure incidents while conducting learning or training activities under the SON must be reported to the Safety Officer or his/her designee as soon as possible, but no later than one business day after the incident.
Students are encouraged to speak with their health care provider about any additional follow-up post-exposure prophylaxis that may be recommended.

When possible, the Safety Officer, his/her designee, or institution where the exposure took place, will look into testing the exposure source individual for HIV, hepatitis B, and/or hepatitis C. Testing of the source individual's blood does not need to be repeated if the source individual is already known to be infected with HIV, hepatitis B, and/or hepatitis C.

**Student Injury and Incident Policy**

In the event that a student is injured (or involved in an untoward incident) while in the clinical setting, the student should immediately notify the clinical instructor. The clinical instructor should assist the student to seek immediate health assessment and response following all policies and procedures of the clinical setting that pertain to the type of injury sustained. The clinical instructor must notify the course coordinator of the event by the end of the clinical day.

If a student is injured (or involved in an untoward incident) on the campus while conducting learning or training activities, the student must notify the instructor or faculty member in charge of the activity immediately. The instructor or faculty member in charge must call 911 if the injury is serious. The instructor or faculty member is to notify DePaul Public Safety and follow university policy for all injuries.

All student injuries (or untoward incident), whether they occur at DePaul University or off campus while conducting learning or training activities under the School of Nursing require that DePaul Public Safety is notified, that a public safety report is filed and the DePaul Environmental Health and Safety Incident Report form (DEHSIR), which can be found at [http://offices.depaul.edu/environmental-health-and-safety/forms/Pages/incident-report.aspx](http://offices.depaul.edu/environmental-health-and-safety/forms/Pages/incident-report.aspx), is completed. All must be completed within 1 business day of the incident. The incident must also be reported to the School of Nursing Safety Officer or the SON Safety Officer designate as soon as possible but no later than one business day after the incident. When reporting to the SON Safety Officer, the student is to include a copy of the completed DEHSIR.

If a student reports an incident in which the harm to student is not physical but rather psychological or emotional, clinical faculty should notify the associate director of the program who will direct the student to appropriate DePaul University resources.

Once the student has been seen by a health care professional for the injury (or untoward incident) and completed all reporting processes required by the university and clinical setting, the student should contact his/her health care provider for any further treatment or health care follow-up that is needed. The student may wish to contact the DOS office if the student has concerns or questions.

**Student Clinical Requirements**

It is mandatory that all students have all of their clinical requirements completed and uploaded to their Student Immunization Tracker through Castle Branch prior to attending clinical. It is the responsibility of the student to insure that all clinical requirements are kept current. Students must submit copies of renewed coverage, updated lab results, and renewed skills PRIOR to the anniversary of the expiration date. Students who are non-compliant with clinical requirements will be permitted to attend clinical. Non-attendance of clinical due to non-compliance with clinical requirements will be treated as an unexcused absence that may not be made up. This may put the student at risk for failing the course.

The student must submit COPIES (NOT ORIGINALS) of the following:

1. **Tuberculosis Screening:**
   
   All students that will provide patient care in the clinical setting are required to submit proof of not having active tuberculosis prior to the first day of the clinical rotation. Documentation must be uploaded into Castle Branch and approved to fulfill this requirement. This can be done by completing one of the following:
   
   a. **Two-step Tuberculin Skin Test:**
      
      The student will be required to have two separate tuberculin skin tests placed 1-3 weeks apart. The results of both tests must be uploaded into Castle Branch.
   
   b. **Quantiferon Gold Test**
      
      The student will be required to have this blood test drawn and upload the results into Castle Branch. Please note: some clinical sites will only accept this as proof of not having active tuberculosis.
   
   c. **Students With Positive TB Results:**
      
      Students with a history of having positive TB results or has received the BCG vaccination prior to admission into the nursing program at DePaul University must complete the following:
      
      Submit certification from a healthcare provider that the faculty member is currently free of the signs and symptoms of active tuberculosis. This certification must be renewed every 6 months. **AND**
      
      Submit a negative chest X-ray from the time of the initial positive TB results. In the event that a chest X-Ray was not completed, the faculty member will be required to obtain one prior to the first day of the clinical rotation.
      
      OR
      
      Complete a Quantiferon Gold test. **AND**
      
      Submit certification from a healthcare provider that the student is currently free of the signs and symptoms of active tuberculosis. This certification must be renewed every 6 months.

   Students found to have positive TB results while completing pre-clinical screening requirements for DePaul University must complete the following prior to the first day of the clinical rotation:

   Obtain a chest X-ray and submit the results.

   Submit certification from a healthcare provider that the student is currently free of the signs and symptoms of active tuberculosis. This certification must be renewed every 6 months. If the student shows signs and symptoms of active tuberculosis during the provider evaluation, the student may not begin the clinical rotation until documentation of a completed course of prophylactic therapy and certification of currently being free of the signs and symptoms of active tuberculosis has been completed.

2. **Titers for Rubeola, Mumps, Rubella, Varicella.** A TITER is MANDATORY to document immunity. (Note: Vaccination or history of the disease is necessary to develop immunity). The titer MUST contain the titer value as well as the reference norm. The required titers are as follows:

   a. TB results. In the event that a chest X-Ray was not completed, the clinical faculty may decide to diagnose the student as currently free from active tuberculosis. This certification must be renewed every 6 months.

   Students with a history of having positive TB results or has received the BCG vaccination prior to admission into the nursing program at DePaul University must complete the following:

   Submit certification from a healthcare provider that the student is currently free of the signs and symptoms of active tuberculosis. This certification must be renewed every 6 months.
a. Rubeola IgG  
b. Mumps IgG  
c. Rubella IgG  
d. Varicella IgG

If titers indicate no immunity for Rubeola, Mumps, Rubella, and Varicella, immunization is required (for Rubeola, Mumps or Rubella, this will be a booster series of 2 MMR immunizations). Follow-up titers will need to be drawn after re-immunization for both MMR and Varicella.

Students must sign a waiver if no immunity is detected on follow-up titer. The waiver states that you understand the risk associated with continuing in the nursing program, specifically that if you contract the disease to which you are not immune, the school is not liable and that you want to continue in your studies, knowing the risk. Once you have documented your immunity or signed a waiver, you will not need to furnish any further documentation.

3. Proof of immunity to Hepatitis B must be confirmed through bloodwork. Immunity may be achieved through vaccination or immunity from previous vaccination. The following documents will be accepted as proof of immunity:
   a. Positive Hepatitis B surface antibody (anti-HBs) indicates immunity from previous vaccination.
   b. Positive anti-HBs and positive Hepatitis core antibody (anti-HBc) indicate immunity due to infection; a negative Hepatitis B surface antigen (HBsAg) is needed to determine whether acute or chronic infection exists, and the student will need to follow up with his or her health care provider.

If immunity is not documented, the student must receive the Hepatitis B immunization series and post-vaccination bloodwork as outlined below.

If the series has been started but has not been completed prior to beginning clinical attendance, it is the student's responsibility to supply documentation of the vaccine dates and the date when the final Anti-HBs bloodwork is drawn. The student must have completed a minimum of one of the series of three vaccines prior to the first clinical day and upload documentation for this to Castle Branch.

If bloodwork following completion of the series of three vaccines does not show immunity, further vaccination is necessary. If, after completion of a second series, no immunity is detected, the student must sign a waiver. The waiver states that you understand the risk associated with continuing in the nursing program, specifically that if you contract the disease to which you are not immune, the school is not liable and that you want to continue in your studies, knowing the risk. Once you have documented your immunity or signed a waiver, you will not need to furnish any further documentation.

The Centers for Disease Control (CDC) recommend that persons who fall into either of the following categories for increased risk for Hepatitis B infection should see their health care provider and request a blood test for Hepatitis B surface antigen (HBsAg) and Hepatitis B surface antibody (Anti-HBs) as you may not need the vaccination if the results are positive.

CDC Categories of Persons at Increased Risk for Hepatitis B Infection
   i. Persons born to mothers in or from countries in which Hepatitis B is endemic.
   ii. Sexually active men who have sex with men.

4. Tetanus-Diptheria-Pertussis Booster: Must be within the last 10 years. Documentation can be in the form of a signed immunization card or statement from your healthcare provider or health department that documents the date the tetanus booster or TDaP were administered. Please note that a tetanus booster alone is not adequate and you must demonstrate immunization for diphtheria and pertussis within past 10 years.

5. Yearly influenza vaccine is required. Incoming MENP students will receive Standard Precautions/Universal Precautions Training as part of their initial coursework.

6. Current CPR Certification: Current American Heart Association (AHA) certification in Basic Life Support (BLS) for Healthcare Provider is required for all entering and current students. Only the AHA certification will be accepted.

Content covered in AHA BLS class:
   a. Critical concepts of high-quality CPR
   b. The American Heart Association Chain of Survival
   c. 1-Rescuer CPR and AED for adult, child and infant
   d. 2-Rescuer CPR and AED for adult, child and infant
   e. Differences between adult, child and infant rescue techniques
   f. Bag-mask techniques for adult, child and infant
   g. Rescue breathing for adult, child and infant
   h. Relief of choking for adult, child and infant
   i. CPR with an advanced airway

7. Professional Liability Insurance: Each MENP and BSN completion student must obtain their own student nursing professional liability insurance policy against claims arising from real or alleged errors or omissions. Their policy must have minimal limits of coverage of $1,000,000 PER claim and $5,000,000 aggregate. This insurance must be renewed annually.

8. Evidence of Current Health Insurance: All nursing students must submit proof of continuous comprehensive health insurance on a yearly basis. Please note that the name on the health insurance must match the student’s name.

9. A signed HIPAA-FERPA authorization must be uploaded to Castle Branch by the start of the first quarter. This form must be signed in order for the School of Nursing to release any student health information related to clinical requirements to clinical sites.

10. Blood Borne Pathogens Exposure training must be completed online prior to the first clinical day. The training can be found at go.depaul.edu/bbp.

11. Criminal Background Check: Nursing students must submit to a criminal background check via Castle Branch prior to their initial clinical experience. Criminal background checks must be completed by August 1st for Fall Quarter or December 1st for Winter Quarter and will remain in effect unless: a.) a clinical agency determines it
Drug Use and Testing
In accordance with DePaul University policies, the School of Nursing will impose disciplinary sanctions upon any student found to be in violation of laws or policies relating to the unlawful possession, use, or distribution of drugs or alcohol. Nursing students may be required to have a ten-panel drug screen based on clinical affiliates' requirements. Release forms must be signed to have the results sent to the Clinical Placement Coordinator.

If a student's drug test is positive, secondary or confirmatory testing will be performed and the student will be expected to cooperate with interviews and follow-up procedures to ascertain and endeavor to confirm whether there was an explanation for the positive test result that did not involve illegal conduct, e.g., ingestion of lawful drugs, food, or beverages that could cause positive results.

If the positive test is confirmed and no sufficiently credible explanation of relevant lawful conduct is forthcoming, clinical placement in a clinical setting if there are positive findings on the drug screen. As a result, a student will not be able to complete the requirements of the program.

Access to Student Records
1. A student may have access to his/her personal student record upon request. Confidentiality is maintained with all student files. Release of information is granted upon written request by the student.
2. No specific or detailed information concerning specific medical diagnoses will be provided to faculty outside the department, administrators, or even parents, without the expressed written permission of the individual in each case. This position with respect to health records is supported by amendment to the Family Education Rights and Privacy Act of 1974. Health officials and other institutional officers must remember that all confidential medical/health care information is protected by statutes and that any unauthorized disclosure may create legal liability.

Graduation
DePaul University awards the both the Bachelor of Science and Master of Science degree with a major in nursing to students who successfully complete RN to MS program. All requirements of the University, College, and School of Nursing must be met as outlined in the current Catalog, including earning at least a 2.00 cumulative GPA in courses required for the program for students with undergraduate standing and earning at least a 3.00 cumulative GPA in courses required for the program for students with graduate standing.

The student is responsible for completing the application for degree conferral and commencement by the deadline posted in the academic calendar.

Students are responsible for changes reflecting new program requirements if the department gives sufficient notice.

Adult-Gerontological Nurse Practitioner Track, Nursing (MS)
The Adult-Gerontological Nurse Practitioner track is designed to prepare nurses for advanced practice as an Adult Gerontology Nurse Practitioner with advanced knowledge and applicable skill in adult and gerontological primary care. In this track, the graduate will be able to pursue national certification as an Adult-Gerontological Nurse Practitioner. Contained within the coursework for the MS degree are ten advanced practice nursing courses. The degree program culminates in 600 clinical hours.

The non-nursing baccalaureate ADN student does not need to complete the BS in nursing but takes three undergraduate bridge courses (NSG 330, NSG 376, and NSG 377) to meet AACN Essentials of the Baccalaureate prepared Nurse before progressing to the graduate degree portion of the program. The BSN prepared nurse immediately begins in the graduate portion of the program.

Undergraduate Requirements
Where applicable, students must also complete the Baccalaureate requirements, including any Liberal Studies requirements not already met.

In anticipation of earning the MS, students must apply for degree conferral of the BS.

**Nursing Administration Track, Nursing (MS)**

The Nursing Administration track is designed to prepare a manager and leader in nursing and healthcare with advanced knowledge and applicable skills in communication and relationship building, healthcare environment, leadership, professionalism, and business management. The graduate will be able to pursue national certification as a nurse executive and a career in nursing administration. Contained within the coursework for the MS degree are four interprofessional health administration courses taught by Rosalind Franklin University of Medicine and Science which confers a graduate certificate in health administration. The degree program culminates in a capstone experience in nursing administration including a 105-hour practicum.

The non-nursing baccalaureate ADN student does not need to complete the BS in nursing but takes three undergraduate bridge courses (NSG 330, NSG 376, and NSG 377) to meet AACN Essentials of the Baccalaureate prepared Nurse before progressing to the graduate degree.

### Nursing Education Track, Nursing (MS)

The Nursing Education track is designed to prepare a clinical expert with skills in nursing curriculum development, course design, instruction, and evaluation. The graduate will be able to pursue national nurse educator certification and teach in undergraduate nursing programs and/or in-service education. Contained within the coursework for the MS degree are five interprofessional health professions education courses taught by Rosalind Franklin University of Medicine and Science which confers a graduate certificate in health professions education. The degree program has two clinical learning experiences, which culminate in a capstone experience in nursing education. A total of 225 clinical hours are in the degree.

Organizational Communication (BA)

The BA in Organizational Communication explores effective and participatory communication across organizational contexts. Students are encouraged to identify and explain theoretical frameworks operative in organizational and group communication; apply multiple theoretical perspectives to a variety of organizational and group contexts and events; express ideas and information competently in written or oral form with clarity and organization; appraise similarities and differences among multicultural and global communication contexts and events; formulate appropriate communicative messages for group and organizational effectiveness.

The curriculum is both deep and broad, enabling students to gain practical expertise in their area of interest while gaining a working knowledge of related areas. The curriculum focuses on ethical practice and the convergence of traditional and new media, preparing students for professional practice in an evolving marketplace. Students learn to express themselves well in oral and written communications, to think critically about communication events all around them, to develop skills valuable in the workplace, and to communicate effectively in a diverse world.

### Learning Outcomes

Students will be able to:

- Explain group organizational communication from multiple theoretical perspectives.
- Apply group organizational concepts in explaining communication behavior.
- Design manage appropriate messages for organizational stakeholders.
- Recognize diversity as a dynamic force in group organizational contexts.

### College Core Requirements (p. 861)

</tbody>
</table>

Students are encouraged to complete all four prior to taking additional coursework in the major.

### Modern Language Requirement

Students who intend to graduate with a Bachelor of Arts degree in the College of Communication will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing the last course in a second year high school course work in a modern language or Latin
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language (must be completed during high school)
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement. Students with some modern language training should consult with the Modern Language Department about the course with which they should begin. Students with little or no previous work in the language will be required to complete the entire three-course introductory sequence.

### Modern Language Option

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level necessary to meet the College’s modern language requirement. Students selecting the option may substitute a three-course language sequence for three learning domain courses, or two upper-level courses in the same language for two learning domain requirements. Modern language option waivers cannot be applied to courses in the Math and Computing Domain or courses in the Scientific Inquiry domain. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Any substitutions must be consistent with the principle that students complete at least one course in each learning domain.
Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Senior Year

| Capstone             | CMN 396 | CAPSTONE IN COMMUNICATION ¹ | 4 |

¹ Students must earn a C- or better in this course.
² Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

Major Requirements

Course Requirements

All Organizational Communication majors must complete the four core courses required of all College of Communication students. In addition, they must take two required courses and choose six classes from among the Organizational Communication course offerings. Organizational Communication majors must also take any two electives within the College of Communication. All Organizational Communication majors must complete a total of 14 classes, or 56 credit hours.

Scientific Inquiry (SI) (p. 1310)

- 2 Courses Required
  [1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)

- 2 Courses Required

Note

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Organizational Communication 3+3 (BA+JD)

In the 3+3 BA/JD Program, high-achieving first-year incoming undergraduate students are admitted simultaneously to the College of Communication and the College of Law. Students complete their first three years in the College of Communication and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA/JD students meet regularly with advisors in both colleges and have access to a variety of resources to ensure their success.

Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Communication during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Communication for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study. Students who enrolled in the BA+JD program prior to 2022 must achieve a cumulative GPA of 3.35 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

- PRELAW 150 THE PRACTICE OF LAW
- PRELAW 151 RECENT CONTROVERSIES IN THE LAW
- PRELAW 152 THINKING ABOUT THE LAW

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 677).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law’s median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.
Participating Majors
The BA/JD Program is available for students pursuing the following majors:

- Communication and Media (p. 236)
- Communication and Technology (p. 245)
- Communication Studies (p. 248)
- Journalism (p. 661)
- Organizational Communication (p. 861)
- Public Relations and Advertising (p. 952)
- Sports Communication (p. 1100)

For admission requirements and information, contact the Office of Admission (https://www.depaul.edu/admission-and-aid/Pages/default.aspx).

Organizational Communication (Minor)
After the completion of the coursework in this minor program, students should be able to:

- Identify and explain theoretical frameworks operative in organizational and group communication
- Apply multiple theoretical perspectives to a variety of organizational and group contexts and events
- Express ideas and information competently in written or oral form with clarity and organization

Course Requirements
A minor in Organizational Communication requires students to complete a total of six courses (24 credits). To complete the minor, students must take:

Peace, Justice and Conflict Studies (BA)
The Peace, Justice and Conflict Studies Program offers students a BA major curriculum that is rooted in the values of active and strategic nonviolence. It helps them reflect critically on the origins and causes of conflict and violence, whether direct, cultural, or institutional. It studies social injustice and other forms of systemic violence, introducing nonviolent strategies for resolving interpersonal, communal, and international conflicts in order to promote the common good and the healing needed for community work. The Program invites frank debate about the efficacy of nonviolent in comparison with violent approaches to social change. The inclusion of conflict theory and citizen-led nonviolent intervention at the core of this program is distinctive. The Program emphasizes hands-on, experiential components in the introductory courses, the final seminars and internship, and the workshops, which emphasize skill training.

Students and faculty in Peace, Justice and Conflict Studies question what constitutes a just society and world and how attitudes toward social justice and violence reflect and reveal the values, beliefs, prejudices, assumptions, and perceptions of United States culture and those of other nations. Students are expected to gain competency in dealing with situations of conflict and injustice by mastering the theoretical and intellectual frameworks related to them, by learning to interpret and analyze real life situations in their complexity, by understanding how to build strategies for consensus-building and advocacy, and by understanding various research methodologies and the use of media and creative outlets.

Students majoring in other programs will find it beneficial to double major or minor in Peace, Justice and Conflict Studies, particularly due to its core value of strategic nonviolence. Students can also pursue an LAS or other college double major, such as with Health Sciences in the College of Science and Health, Journalism in the College of Communication, or the 3+3 BA/JD with the College of Law. Students who pursue the major are well prepared for graduate work in the humanities or social sciences, as well as for professional training in law, public service, or business.

Learning Outcomes

Students will be able to:

- Analyze the origins of conflict and violence and the underlying values or different theories that explain them, such as human rights or capacities discourse, and including the various levels where conflict occurs, such as the global, international, intra-national, local, and interpersonal levels.
- Evaluate nonviolent approaches to peace building, conflict resolution, and social change for the common good with the aim of protecting individuals’ rights.
- Explain the theories of justice and its basic forms, such as social, distributive and contributive, environmental, restorative, post-conflict or transitional, and transformational justice, and assess them in relation to real circumstances of individual/direct and structural violence and efforts for social change and a just world.
- Integrate theories with an experientially based understanding of the realities of peace building, conflict resolution, and working for viable social change, by means of a critical recognition of the effectiveness of different intervention strategies.
- Practice effective skills and tools for resolving conflict between individuals and social groups, council circles, disciplinary and interdisciplinary research, narrative and performative approaches, and psychological assessments, to obtain depth in one or two areas of the Peace, Justice, and Conflict Studies curriculum.

College Core Requirements

Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

The Modern Language Option (MLO)

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.
Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency
A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 A student majoring in Peace, Justice, and Conflict Studies (PAX) is required to complete the Capstone offered by the PAX Program. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. A PAX major in the University Honors Program shall take the University Honors Capstone and the PAX Capstone.

Learning Domains
Arts and Literature (AL) (p. 1300)
- 3 Courses Required

Historical Inquiry (HI) (p. 1304)
- 2 Courses Required

Math and Computing (MC) (p. 1306)
- 2 Courses Required
  [1 CR Course and 1 SR Course]

- 2 Courses Required
  [1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
- 1 Course Required

Notes
Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

</tbody>
</table>

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.
PAX 392 | INTERNSHIP IN PEACE, JUSTICE, AND CONFLICT STUDIES (taken for Liberal Studies EL requirement) | 4

Select 12 credit hours of Seminars at the 300-level from the following, including any courses crosslisted with them: 12

- PAX 300 | TOPICS SEMINAR
- PAX 301 | THE THEORY AND PRACTICE OF NONVIOLENT ACTION
- PAX 304 | TOPICS IN MIGRATION AND FORCED MIGRATION
- PAX 312 | TRANSCENDING COEXISTENCE: TRUTH, JUSTICE, AND RECONCILIATION
- PAX 313 | BEYOND CONFLICT RESOLUTION: THE EVOLUTION OF GRASSROOTS PEACEBUILDING
- PAX 321 | PRINCIPLES AND PRACTICES OF RESTORATIVE JUSTICE
- PAX 330 | THE UNIVERSAL DECLARATION OF HUMAN RIGHTS: ORIGINS AND CONTROVERSIES
- PAX 340 | HUMAN RIGHTS IN THE GLOBAL CONTEXT: CHALLENGES AND INTERVENTIONS
- PAX 373 | LITERATURE OF WAR IN THE 20TH CENTURY
- PAX 380 | TOPICS IN NONVIOLENCE
- PAX 381 | TOPICS IN PEACE BUILDING
- PAX 382 | TOPICS IN SOCIAL JUSTICE AND SOCIAL CHANGE
- PAX 383 | TOPICS IN CONFLICT INTERVENTION
- PAX 384 | TOPICS IN ACTIVISM AND ADVOCACY
- PAX 385 | TOPICS IN HUMAN RIGHTS
- REL 351 | LIBERATION THEOLOGY
- WGS 303 | GENDER, VIOLENCE AND RESISTANCE
- WGS 320 | TRANSFORMATIVE JUSTICE: THEORY AND PRACTICE
- WGS 345 | WOMEN, WAR AND RESISTANCE
- WGS 364 | POLITICAL AUTOBIOGRAPHY

Select three electives approved by the PJC program (listed below) 12

- PAX 350 | CAPSTONE IN PEACE, JUSTICE & CONFLICT STUDIES (taken for Liberal Studies Capstone requirement) | 4

300-Level Seminars
The courses that can be taken as 300-level seminars are approved by the PJC Program Advisory Board. These do not include all 300-level PAX courses, many of which are crosslisted from other departments. For any questions, check with the Program Director, since new ones are approved now and then.

Senior Capstone
PAX 350 is usually offered in winter quarter. Students doing study abroad during winter quarter of their senior year must do the capstone in their junior year. This is required even for a double-major who must do a capstone in the other major.

Program Approved Electives
Courses cross-listed with any course listed below are accepted as PJC/PAX electives. Check with the PJC Director for topics courses approved as PJC/PAX electives each quarter or to approve a course not on this list. PJC electives also include any courses approved for the PJC minor requirement of a community-based service learning course: See list under the PJC Minor.

1. PAX 250 (2 courses at 2 credit hours each), PAX 251 (one course for 4 credit hours).

The four-course sequence PAX 210-PAX 212-PAX 214-PAX 218 forms the foundation of the program and should be completed in the first or second year of study. Courses do not need to be done in sequence. An internship, PAX 392, offered once a year in the fall, should be completed prior to taking PAX 350. If possible, students should take the internship prior to senior year. Seniors should plan to take the capstone, PAX 350, offered once a year, usually in winter. Students will complete either two sections of PAX 250 (for 2 credit hours each) or PAX 251 (for 4 credits hours), ideally prior to senior year.

Peace, Justice and Conflict Studies (BA), Combined Bachelor's + Master's Degree

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still completing their undergraduate program. These three graduate level courses will count toward both the undergraduate and graduate degree programs. Each combined degree program has its own application process, which is usually completed during junior year. The graduate courses, taken during senior year, are paid for at the undergraduate tuition rate.

Peace, Justice & Conflict Studies (BA) suggests several options for combined programs. Consult the degree requirements as listed in the catalog under graduate degree programs/combined degrees. Some graduate programs are combinable with any DePaul bachelor's degree; others are limited. The programs that might be of interest to PJC majors would include the following:

- Peace, Justice & Conflict Studies (BA) + Refugee and Forced Migration Studies (MS) (https://las.depaul.edu/academics/peace-justice-and-conflict-studies/combined-bachelors-masters/Pages/BAPJC-MSRefugee.aspx) [available to PJC students only]
- Peace, Justice, & Conflict Studies (BA) + Women's and Gender Studies (MA) (https://las.depaul.edu/academics/womens-and-gender-studies/Pages/combined-degree.aspx)
- Peace, Justice & Conflict Studies (BA) + Sustainable Management (MS) (p. 1112)
- Peace, Justice, & Conflict Studies (BA) + International Public Service (MS) (p. 630)

Peace, Justice & Conflict Studies students also have the opportunity to pursue many other combined programs in any college when these are open to all DePaul undergraduate majors, such as the combined programs offered by the College of Communication (https://communication.depaul.edu/academics/combined-ba-ma-programs/Pages/default.aspx) (e.g., Journalism; Communication and Media), the College of Business (https://business.depaul.edu/academics/combined-degrees/Pages/default.aspx), and other College of Liberal Arts and Social Sciences (https://las.depaul.edu/academics/Pages/combined-degree-programs.aspx) graduate programs.

**Peace, Justice and Conflict Studies 3+3 (BA+JD)**

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

**Key Program Features**

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

**Program Requirements**

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law's online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities...
should be completed no later than February 1 of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 677).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law’s median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Peace, Justice and Conflict Studies (Minor)

The Peace, Justice and Conflict Studies minor is designed to help students engage in critical examination of the origins and root causes of violence, social injustice and conflict; and to foster dialogue about the efficacy of nonviolent approaches to social change and peace-building. Students may develop a specific concentration of study within the minor curriculum.

Course Requirements

Distribution

There is a total of 24 credit hours required for the minor.

Performance Program Certificate

The purpose of the program is to provide an intensive post-master’s degree performance experience for a small number of highly accomplished performers. Entry into the program is based on evidence of ability to be successful in post-graduate level performance study. Other criteria include, but are not limited to:

- Completion of a Master of Music in performance degree or equivalent from an accredited institution.
- Three letters of recommendation.
- An entrance audition which demonstrates performance ability at the post-master’s level.

Please check the School of Music Admission website for full requirements.
There are two primary components to the certificate in performance program. First, applied music (private instruction), and second, related studies. Related study will often consist of participation in the appropriate ensembles and additional academic classes in the School of Music. The course requirements for the certificate in performance appear below:

- Applied Music (18 credits)
- Related Study (18 credits)
- Recital (0 credits)

**Gainful Employment Disclosure**

This graduate certificate program is approved as a Gainful Employment Program through the US Department of Education and is, therefore, eligible for Federal Student Aid.

**Performance Studies (Minor)**

The Performance Studies minor provides an overview of the historical importance of performance for social, cultural and personal expression. Students will gain a critical understanding of performance across a range of disciplines.

**Course Requirements**

The Performance Studies Minor requires students to complete six courses (24 credits).

**Performing Arts Management (BM)**

The Performing Arts Management Programs are comprehensive interdisciplinary programs designed to prepare students for careers in the multi-faceted and extensive industry embracing administration of not-for-profit arts organizations (symphony orchestra, opera, chamber music, dance, theatre), commercial music management (recording industry, artist representation, music publishing and distribution, product merchandising, concert promotion), music licensing, music entrepreneurship, music festival management, and related areas of cultural management and policy.

The programs have been designed to provide students a broad understanding of the performing arts management industry; insight into the theories and principles associated with arts management; and a proficiency in the practical application of necessary business skills.

There are two distinct Performing Arts Management degrees, suited for students with specific backgrounds and career objectives.

- Bachelor of Music (BM) in Performing Arts Management, Minor in Business Administration
- Bachelor of Science (BS) in Performing Arts Management, Minor in Business Administration

**Bachelor of Music (BM) in Performing Arts Management, Minor in Business Administration**

**Program Specific Outcomes**

Students will be able to:

- Demonstrate an understanding of the theories and principles associated with the performing arts industry such as issues facing arts managers in the areas of leadership, marketing, development, community engagement, arts advocacy and other skills particular to the area of specialization.
- Understand current music business issues and their impact on artist representation, digital music, distribution, emerging technologies, and marketing.
- Demonstrate proficiency in business skills related to accounting, finance, marketing, management, economics, and ethics.

**Music Core Requirements**

</tbody>
</table>

3 Students in the BM-Jazz Studies program are not required to take MUS 321 or MUS 322.

Applied Music

Students may enroll in a maximum of 3 credits of applied study per quarter, with a maximum of 36 credits total. The requirements for applied study vary by degree program:

- BM in performance, 36 credits
- BM in jazz studies, 32 credits
- BM in composition, 12 credits
- BM in music education, 18 credits
- BM in performing arts management, 18 credits
- BA in music, 12 credits
- BS in sound recording technology, performance track, 9 credits

The BS in Performing Arts Management degree does not require applied lessons, and the BS in Sound Recording Technology, non-performance track, degree does not require applied lessons.

Except performance majors, students may enroll in additional applied credits, which will count towards music electives.

Modern Language Option

If a music student wishes to study a modern language for a three-course sequence (12 credits) beyond their degree program’s requirement, the three MLO substitutions must be made in three different Liberal Studies learning domains. Any substitutions must be consistent with the principle that students complete at least one course in each learning domain. In the Scientific Inquiry domain, the only MLO substitution allowed is for Scientific Inquiry-Elective. Additional language credits may be applied toward non-music electives or free electives.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)

• 1 Course Required

Notes
Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Program Checkpoints
Students are admitted to a specialization at their initial enrollment. Students are then allowed to continue in specialization courses on the basis of program checkpoints. The program checkpoints differ for each specialization, and students should contact the department chairs or program directors/coordinates for more information. Students are not permitted to continue to enroll in specialization classes if they have not met the requirements of their program checkpoints.

Performing Arts Management (BS)
The Performing Arts Management Programs are comprehensive interdisciplinary programs designed to prepare students for careers in the multi-faceted and extensive industry embracing administration of not-for-profit arts organizations (symphony orchestra, opera, chamber music, dance, theatre), commercial music management (recording industry, artist representation, music publishing and distribution, product merchandising, concert promotion), music licensing, music entrepreneurship, music festival management, and related areas of cultural management and policy.

The programs have been designed to provide students a broad understanding of the performing arts management industry; insight into the theories and principles associated with arts management; and a proficiency in the practical application of necessary business skills.

There are two distinct Performing Arts Management degrees, suited for students with specific backgrounds and career objectives.

• Bachelor of Music (BM) in Performing Arts Management, Minor in Business Administration
• Bachelor of Science (BS) in Performing Arts Management, Minor in Business Administration

Bachelor of Science (BS) in Performing Arts Management, Minor in Business Administration

Students in the BS Performing Arts Management Program experience a significant focus on practice within the field. (This curriculum does not include applied lessons or participation in ensembles associated with Bachelor of Music programs.) Students enroll in a multi-term Performing Arts Management Practicum, where students obtain a supervised work experience within various departments of the new state-of-the-art Holtschneider Performance Center. In addition to the Practicum, those in the BS Performing Arts Management program undertake a core sequence of courses focused on the Performing Arts Management
industry, as well as courses in Music Business, Music Publishing, Music Festival Management, Legal Issues in Music, and others. Additionally, in cooperation with the Driehaus School of Business, students receive a minor in business administration taking courses in Finance, Marketing, Management, Accounting, Statistics, and Economics, among others. An important component to the Performing Arts Management Program is an experiential component outside of the School of Music in the form of Internships at any of the numerous approved companies or organizations. Internships have been completed at such places as Lyric Opera, Chicago Symphony Orchestra, Grant Park Music Festival, Ravinia Festival, Aware Records, Metro Club, Old Town School of Folk Music, ASCAP, Steppenwolf Theatre, and many other arts organizations, music labels, venues and radio stations. This program is suited for students interested in acquiring the insight and skills necessary for a career in the music industry within the environment of an active and vibrant music performance center, without the performance component associated with traditional music degree programs.

Program Specific Outcomes

Students will be able to:

- Demonstrate an understanding of the theories and principles associated with the performing arts industry such as issues facing arts managers in the areas of leadership, marketing, development, community engagement, arts advocacy and other skills particular to the area of specialization.
- Understand current music business issues and their impact on artist representation, digital music, distribution, emerging technologies, and marketing.
- Demonstrate proficiency in business skills related to accounting, finance, marketing, management, economics, and ethics.

Philosophy (BA)

The Department of Philosophy serves the needs of the student who seeks an understanding of philosophical issues for personal enrichment, the student who desires a more fundamental appreciation of philosophy in support of law, medicine, business, and various academic disciplines, and the student who wishes to continue the study of philosophy at the graduate level.

Through its courses and programs, the department acquaints students with various philosophical systems and with basic problems posed by diverse thinkers. Courses have been designed to highlight both the humanistic and technical features of philosophy.

The department also recognizes the important need for skills and training. Its courses in logic and analysis have been designed to help students become more perceptive in their experiences and more critical in their thinking.

Further, the department is aware that, in our age of rapid change, society often tends to neglect the meaning and worth of the person. Courses are therefore offered that investigate and emphasize the dignity of the person. By helping students understand the nature and grounds of ethical judgments, these courses aim to promote an appreciation and ordering of human values.

The department has designed all of its course offerings with the aim of both ensuring that our Liberal Studies courses remain responsive to the needs of the student who does not plan to specialize in philosophy and offering the student who chooses to major or minor in philosophy a rich and diverse curriculum.

The department is particularly proud of its Philosophy Circle, an undergraduate philosophy club which provides a forum for the exchange of ideas between faculty and students.
Learning Outcomes

Students will be able to:

- Critically discuss philosophical issues (via well-grounded arguments) and questions from the perspectives of multiple methods, traditions, and historical contexts.
- Evaluate philosophical issues, questions, and problems critically and analytically.
- Write an articulate and well-ordered essay presenting philosophical positions in a way that addresses philosophical issues and questions.
- Formulate and evaluate their own understanding of a diverse range of philosophical problems, in both writing and discussion.
- Integrate a critical understanding of central philosophical ideas from the history of philosophy, broadly construed to include more than the Western tradition.

College Core Requirements

Study in the Major Field

The student's course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized "concentration." The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student's choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (see below).

The Modern Language Option (MLO)

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.
External Credit and Residency
A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Notes
- Students must earn a C- or better in this course.
- Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computation Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.
- A student majoring in Philosophy (PHL) is required to complete the Capstone offered by the PHL Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. A PHL major in the University Honors Program shall take the University Honors Capstone and the PHL Capstone.

Learning Domains
- Arts and Literature (AL) (p. 1300)
  - 3 Courses Required
- Historical Inquiry (HI) (p. 1304)
  - 2 Courses Required
- Math and Computing (MC) (p. 1306)
  - 2 Courses Required
  [1 CR Course and 1 SR Course]
- Philosophical Inquiry (PI) (p. 1307)
  - Not Required
- Religious Dimensions (RD) (p. 1308)
  - 2 Courses Required
- Scientific Inquiry (SI) (p. 1310)
  - 2 Courses Required
  [1 Lab Course and 1 SWK Course]
- Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
  - 3 Courses Required

Notes
- Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.
- In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

### Additional Considerations

Each student is expected to consult with their departmental advisor on course selection. With departmental permission, a senior may take one course selected from the graduate offerings in philosophy. Certain courses in other departments may be acceptable equivalents for philosophy credit. Seniors who have a superior record in philosophy may petition to do a Senior Thesis. The regular program of courses is supplemented by philosophical symposia, departmental colloquia, and mini-courses featuring prominent philosophers.

### Philosophy 3+3 (BA+JD)

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

### Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

### Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:
In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law's online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant's third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 677).

**Financial Aid**

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law's median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

**Philosophy (MA/PhD)**

The graduate program in Philosophy offers students the opportunity to study the history of philosophy and contemporary philosophy and to work with some of the leading scholars in:

- Contemporary Continental Thought
- German Idealism
- Social and Political Theory
- History of Philosophy and Ethics
- Feminist Philosophy
- Psychoanalytic Thought
- Latin American Philosophy

The program provides students with a rigorous course of graduate seminars in these and other areas of philosophy, as well as regular faculty consultation and guidance at every stage of the program.

The department offers the PhD in philosophy. Though students may enter the program with a BA or an MA, they all follow the same MA/PhD path.

**Program Structure**

Most graduate courses are taught in a series of streams organized each year under unifying titles, such as German Idealism, Ethics, Society and Politics, or Contemporary French Philosophy. These are all research courses, with no distinction being made between MA and PhD course levels, and a student does not technically have to follow the stream from beginning to end.

In their first two years in the program, students serve as Teaching Assistants. In their third through sixth year in the program, students serve as Teaching Fellows. In this role, students are expected to teach up to a maximum of four courses per academic year.

After the first year of course work is complete, students are allowed to enroll for up to three independent studies of any kind toward their degree. These courses can be any combination of language courses, independent studies in the department or in other departments at DePaul, or courses in other doctoral programs at other local universities.

**Program Length**

Students take a total of 28 courses (or 112 credit hours), usually over the course of four years, whether they are entering with a BA or an MA. They then complete the degree by writing and defending a dissertation, normally in their fourth through sixth years in the program.

**Program Highlights**

The department offers courses, seminars, mini-courses, directed research, and colloquia to stimulate students’ investigation of various philosophies and philosophical problems.

Each student is required to pass two competency exams in languages pertinent to their research. In support of this requirement, the department holds informal reading groups (in French, German, Greek, and Latin) that meet regularly and emphasize reading philosophical texts in their original languages. In addition, in the spring of the second year, every student is permitted to travel abroad in order to engage in serious and immersed language study in another country and develop academic connections and, oftentimes, contact a faculty host for an eventual dissertation research and writing fellowship, such as the Chateaubriand, DAAD, or Fulbright. Finally, we also sponsor an exclusive exchange program with the Ecole Normale Superieure in Paris every year, where we send a second-year student from our program to study there, while we host an ENS student here in Chicago.

Because the majority of our graduates will go on to jobs in academia, we offer a carefully designed teaching practicum to support our students as they transition from serving as a Teaching Assistant, in their first two years in the program, to being a Teaching Fellow, who designs and offers their own undergraduate classes, in their third through sixth years.

Finally, there is a student-organized forum, the Frings Lecture Series, in which students present papers and discuss their work with their fellow graduate students and the graduate students also organize and host an annual national conference for graduate students each year.

**Program Participants**

The program is designed primarily for:

- Students on their way to careers in academia

**Certificate Options**

The Philosophy PhD may also be supplemented with a number of graduate certificates:

- Bioethics
- Business Ethics
- Women's and Gender Studies
- Teaching and Learning Certificate
Program Requirements | Quarter Hours
---|---
Core Requirements | 112
Total hours required | 112

## Learning Outcomes

Students will be able to:

- Critically discuss philosophical issues (via well-grounded arguments) and questions from the perspectives of multiple methods, traditions, and historical contexts.
- Evaluate philosophical issues, questions, and problems critically and analytically.
- Write an articulate and well-ordered essay presenting philosophical positions in a way that addresses philosophical issues and questions.
- Formulate and evaluate their own understanding of a diverse range of philosophical problems, in both writing and discussion.
- Integrate a critical understanding of central philosophical ideas from the history of philosophy, broadly construed to include more than the Western tradition.
- Read and integrate into their research relevant primary and secondary texts from the history of philosophy in their original language.
- Produce a substantial piece of research (thesis or dissertation) that makes an original contribution to the field of philosophy and/or exhibits a comprehensive grasp of the relevant scholarship on a given question, text, or figure.

## Degree Requirements

A minimum of 112 quarter hours of graduate level course work (28 courses) is required for the PhD. This includes 104 quarter hours of course work (26 courses), 4 quarter hours of PHL 697 (Graduate Teaching Practicum), and 4 quarter hours of PHL 699 (Dissertation Research).

Of the 112 quarter hours (28 courses) required for the PhD, 32 quarter hours (8 courses) must be taken in accordance with the following distribution requirements:

- Four History of Western Philosophy Courses
- Two in Ancient or Medieval: 8 quarter hours
- Two in Modern or Nineteenth Century: 8 quarter hours
- Two Contemporary European Philosophy Courses: 8 quarter hours
- Two Normative Philosophy Courses: 8 quarter hours

Additional Requirements

Annual Reviews
The Graduate Affairs Committee conducts annual formal reviews of each student's progress toward the doctoral degree. The purpose of the review session is to discuss the student's experience in the program thus far, address any questions or concerns that they might have, and assess how well they are meeting the expectations relevant to their year in the program.

As part of the review process, students are required to submit a self-evaluation of their progress in the program, teaching evaluations (when serving as a Teaching Fellow) and, until all their course work is completed (typically, through their fourth year in the program), students are also required to submit two file papers for review. These papers are read by a second member of the faculty who assesses whether the papers meet relevant standards of graduate level work and thus indicate appropriate progress in the program for each student.

Students deemed not to be making satisfactory progress may be placed on probation or, where the circumstances in the judgment of the Graduate Affairs Committee warrant, the student may be required to leave the doctoral program.

Foreign Languages Requirement
The Philosophy Department places a very high priority on working with texts in original languages, rather than translations. For doctoral students, competence in two languages of research is thus required. Typically, these are Greek, Latin, French, or German. Competence in other languages may be used to fulfill the language requirements if it is deemed appropriate to the research undertaken by the student. In the latter case, prior to beginning preparation to pass a language requirement (by either of the two paths outlined below), the student must submit a short paragraph to the Director of Graduate Studies, to be reviewed by the Graduate Affairs Committee, outlining why the language in question will be important to the student’s future research.

Each student must complete the requirement for one language before scheduling a Dissertation Proposal Defense, and they must complete the requirement for a second language before scheduling a Dissertation Defense.

There are two ways in which students can complete the Foreign Languages requirement:

1. Student may pass a departmentally administered Language Competency Exam, which are offered just before the start of every quarter. This usually involves asking the student to translate a selection from a philosophical text in the original language.
2. Students may, alternatively, complete a certain number of classes in the Modern Languages Department, maintaining a B+ average each quarter. For ancient languages, students must take through the first year. For modern languages, students must take through year two.

Dissertation
Students must form a dissertation committee and submit and defend a dissertation proposal before that committee. Each student must then submit a dissertation and successfully defend it before their dissertation committee.

The dissertation is a thesis, approximately 200-275 pages (60,000-85,500 words) in length, including scholarly apparatus. The precise topic, structure, and length of the dissertation is to be determined in consultation with the dissertation Director and the other members of the dissertation committee.

Optional Certificates
Graduate Certificate in Bioethics
The Graduate Certificate in Bioethics is an option for doctoral candidates in Philosophy who want (a) to cultivate their ability to engage in critical analysis of bioethical issues, and (b) to train to teach bioethics, biomedical ethics, or medical ethics to a variety of different kinds of students.

The Certificate requirements are as follows:

Course Requirements:
A minimum of 16 quarter hours including:

<table>
<thead>
<tr>

</tr>
<tr>
<td>PHL 661</td>
<td>TOPICS IN FEMINIST THEORY</td>
<td></td>
</tr>
</tbody>
</table>
Training/Teaching Requirements
1. Students must participate in the Biomedical Ethics Training Program or serve as a Teaching Assistant for PHL 229 BIOMEDICAL ETHICS with a tenured or tenure-line faculty member.

2. Upon completion of the training program or assistantship, students must teach at least two sections of Biomedical Ethics (PHL 229).

Applicants apply for the Certificate by sending a letter of intent to the Director of Graduate Studies. Applicants agree to make the above required courses part of their program of study for the Ph.D and must maintain a B average in all Certificate courses.

Graduate Certificate in Business Ethics
The Graduate Certificate in Business Ethics is an option for doctoral students in Philosophy who want to gain a competency in business ethics, qualifying them to teach undergraduate and MBA courses in that subject. This Certificate does not require a dissertation in applied ethics. Rather, it is designed to give students, regardless of their area of specialization, a strong background in business ethics so that they will be competent and competitive in the academic market, as well as comfortable teaching business ethics both at DePaul and in their academic careers.

A minimum of 16 quarter hours including:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHL 527</td>
<td>PHILOSOPHY, ETHICS, AND ECONOMICS</td>
<td>4</td>

<tr>
<td>MGT 500</td>
<td>LEADING EFFECTIVE AND ETHICAL ORGANIZATIONS</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td>(or another graduate level course in Commerce approved by the Certificate Chair)</td>
<td></td>
</tr>
<tr>
<td>PHL 641</td>
<td>SEMINAR ON THE CONTINENTAL TRADITION IN ETHICS</td>
<td>4</td>
</tr>
</tbody>
</table>

Select one other approved elective course within the DePaul Philosophy Department’s graduate offerings. The elective can be selected from the following courses:

- PHL 437 LOCKE
- PHL 441 ROUSSEAU
- PHL 520 MARX I
  or PHL 521 MARX II
- PHL 559 FOUCAULT
- PHL 651 TOPICS IN BUSINESS ETHICS
- PHL 656 SEMINAR ON SOCIAL AND POLITICAL THOUGHT

Other Requirements
- Students will be required to teach two Business Ethics courses (this could be in the Department of Philosophy, the Religious Studies Department or in a Management Department at DePaul or in other area universities.) Given that many PhD students in Philosophy are required to teach, this is not always an additional teaching requirement.

- Attend and participate in at least one professional conference or complete an internship in applied ethics. In terms of Conferences, students will have to present a paper at the annual meeting of the Society for Business Ethics or the annual Vincentian Conference on Business Ethics. (Expenses will be covered by the Institute for Business and Professional Ethics.) A publishable paper would be the optimal goal. In terms of internships, such opportunities will have to be directly related to Business Ethics, Sustainability or Societal Justice. This will be approved by the Certificate Chair in consultation with the Director of Graduate Studies.

Applicants can apply by sending a letter of intent to the Certificate Chair and the Director of Graduate Studies. Applicants must have at least a B average and will agree to make the above required courses as part of their program of study for the Ph.D.

Certificate in Women’s and Gender Studies
The Women’s and Gender Studies Graduate Certificate Program at DePaul University is offered by the Department of Women’s and Gender Studies and is available to students in the doctoral program in the Department of Philosophy.

The Program’s requirements are:
- WGS 400 FEMINIST THEORIES
- Three additional graduate-level elective courses approved by Women’s and Gender Studies. The student should petition for approval for courses from the WGS Director of Graduate Studies.

It is highly recommended that students take the foundational course, WGS 400, prior to the other three required WGS electives. The elective courses may be taken from the Women’s and Gender Studies offerings and/or from courses in other departments and programs in the College of Liberal Arts and Social Sciences that have been approved by the Department of Women’s and Gender Studies, but all three elective courses cannot be from one department.

Student Handbook
Probation, Dismissal, and Readmission
The Graduate Affairs Committee conducts annual formal reviews of each student’s progress toward the doctoral degree. Students deemed not to be making satisfactory progress may be placed on probation or, where the circumstances in the judgment of the Graduate Affairs Committee warrant, the student may be required to leave the doctoral program. In these cases, students may petition the Graduate Affairs Committee for readmission to the program.

Residency Requirement
Three consecutive quarters of full-time residence, i.e., registration for eight credit hours each quarter.

Time Limitations
Students are expected to defend their dissertation proposals and become ABD by the end of their fourth year, but by no later than the end of their sixth year. Students are expected to submit and successfully defend their dissertations by the end of their sixth year, but by no later than the end of their tenth year after entering the program.

Philosophy (Minor)
The minor program is designed to complement the majors of other departments. It is designed also for those who, while not wishing to specialize in philosophy, nonetheless seek to pursue enduring questions, appraise contemporary values, and critically discuss topics of general human concern. (If you wish to use this program as an academic minor, check with your Department for permission and with the Department of Philosophy for sample programs.)
Course Requirements
Any six PHL courses, at least two of which must be 300-level courses. Either PHL 100 or HON 105 can count towards the minor but not both of these introductory courses.

With permission a student may take PHL 391, our Capstone Seminar for Philosophy Majors, as part of their minor.

Transfer credit may be recognized. (Please note that PHL 100 or HON 105 or any 200-level PHL course is the prerequisite for all 300-level philosophy courses and for the 200-level History Sequence courses.)

Students majoring in Philosophy (BA) are restricted from earning this minor.

Photography (Minor)
The Photography minor is a concentrated program of study that lets students design their approaches to the photographic arts. It takes the processes of optical and mechanical reproduction as its starting points and emphasizes the role(s) of photography historically through culture. Six courses are required for a Photography minor.

Students majoring in Art, Media, and Design (BA) or (BFA) or Art (BA) are restricted from earning this minor.

Physical Education (BSPE)
The Physical Education program will prepare you to pursue a career in teaching Physical Education in schools for grades pre-K through high school. Graduates earn the Bachelor of Science degree and are prepared for K-12 school licensure process.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses. In addition, the student must spend a minimum of 10 weeks in full-time student teaching during their last quarter in the program.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching;
2. Multiculturalism is infused throughout the curriculum;
3. Field experiences are an integral part of the curriculum;
4. Students are exposed to a variety of educational theories;
5. The program includes a research component as a basis for further professional development.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. In all cases, appropriate field experience plays an integral role.

Students should meet early and regularly with their advisor to design and monitor their program of study.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, Concentration Requirements, and College Core Requirements for full degree requirements.

Licensure
Illinois Professional Educator License with endorsement in Physical Education (kindergarten-grade 12), an Illinois State Board of Education (ISBE) approved program.

Program Requirements Quarter Hours
Liberal Studies Requirements 80
Major Requirements 96
Open Electives 16
Total hours required 192

Learning Outcomes
Students will be able to:

• Demonstrate an understanding of common and specialized content, and scientific and theoretical foundations for the delivery of an effective Pre-K12 physical education program for all students in a varied context or setting.
• Use physical literacy to demonstrate skillful performance in physical education content and areas, and health-enhancing levels of fitness.
• Apply content and foundational knowledge to plan and implement developmentally appropriate learning experiences aligned with local,
state, and/or SHAPE America National Standards and grade-level outcomes for K-12 Physical Education through an effective use of resources, accommodations and/or modifications, technology, and metacognitive strategies to address the diverse needs of students.

- Engage students in meaningful learning experiences through effective use of pedagogical skills that incorporate feedback, technology, and instructional and managerial skills to enhance student learning.
- Select and implement appropriate assessments to monitor students’ progress and guide decision making related to instruction and learning.
- Demonstrate ethical and culturally competent behaviors essential to becoming effective professional physical education teacher.
- Seek opportunities for continued professional development.
- Demonstrate knowledge of promotion/advocacy strategies for physical education and expanded physical activity opportunities that support the development of physically literate individuals.

**College Core Requirements**

**Dispositions**
The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
- Takes initiative
- Is open to new ideas and engagement in learning
- Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
- Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Demonstrates consistent professional behavior across all academic settings
- Maintains appropriate interpersonal and professional boundaries
- Accepts personal responsibility for one’s behavior
- Expresses feelings and opinions effectively and appropriately
- Upholds confidentiality

**Skill Building Courses**
Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.
**Modern Language Competence Requirement**

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing two years of a language sequence in high school
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

**Field Experiences**

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements**
- Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
- Overall cumulative GPA of 2.50 or better
- Cumulative GPA of 2.75 or better in all education courses
- Meet all other program requirements (e.g., modern language and residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test(s)

**Clinical Requirements**
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines**
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).
Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure

Requirements for licensure include completion of full bachelor's degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor's degree. A bachelor's degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of program requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Sophomore Year

Race, Power, and Resistance

| LSP 200            | SEMINAR ON MULTICULTURALISM IN THE UNITED STATES |

Junior Year

Experiential Learning

Met by successful completion of required field experience hours

Senior Year

Capstone

| PE 384            | PHYSICAL EDUCATION CAPSTONE |

1. Students must earn a C- or better in this course.
2. Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.
3. This must be taken along with student teaching. Students must earn a C or better in this course.

Learning Domains

Arts and Literature (AL) (p. 1300)
- 3 Courses Required

Historical Inquiry (HI) (p. 1304)
- 2 Courses Required
  (Note: One must be US History)

Math and Computing (MC) (p. 1306)
- 1 Course Required
  [1 CR Course or 1 SR Course]

Philosophical Inquiry (PI) (p. 1307)
- 2 Courses Required
  • LSE 380
  • 1 Additional Course
  (Note: PHL 100 recommended)

Religious Dimensions (RD) (p. 1308)
- 2 Courses Required

Scientific Inquiry (SI) (p. 1310)
- 2 Courses Required:
  • 1 CHE/ENV/GEO/PHY
  • 1 SWK Course

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
- 2 Courses Required
  • PSC 120
  • 1 Additional Course

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Open Electives: 16 quarter hours are required

Open elective credit also is required to meet the minimum graduation requirement of 192 hours. The following cannot be used to fulfill an open elective: WRD 98, MAT 94, MAT 95.

Student Teaching: 12 quarter hours required, grade of B- or better required

Registration in student teaching requires completion of all requirements and procedures above. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. All students also take PE 384 during the spring of the senior year (listed in the Liberal Studies section).

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Physical Education majors must complete the following tests:

- Physical Education Content Area Test (test #144) – assesses knowledge of health-related physical fitness, movement and skill acquisition, the role of physical education in promoting development, and the physical education program in schools. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Physical Education (Minor)

The Physical Education minor is designed for students interested in adding teaching skills in physical education to their major course of study.

Note: Students in DePaul's College of Education program in Physical Education cannot select the Physical Education minor.
Physics (BS)

The Department of Physics offers courses and concentrations designed to teach students about the fundamental processes that govern our universe. Students interested in majoring in physics can choose from several concentrations.

The Standard Physics concentration provides a curriculum that highlights the core areas of theoretical and experimental physics. The Computational Physics concentration gives a curriculum that emphasizes the use of computer simulations as a tool to visualize and understand natural phenomena. For students who wish to apply a physics degree to a career outside of physics, the department offers a concentration entitled Interdisciplinary Physics. This concentration combines a major in physics with a minor in a second field of the student's choice with their advisor's consent.

In each concentration, student participation in faculty research is an important component of the program at all levels. This experience prepares students for independent work in industry or graduate study in physics or in applied sciences such as optics, photonics, scientific computing, engineering, or computer science. Participation in research can be pursued either through independent study during the academic year or full-time during the summer quarter.

For students interested in engineering, the department offers a concentration in Engineering Physics. Through a joint program with Illinois Institute of Technology (IIT), students can complete a five-year dual-degree program while remaining full-time DePaul students. This five-year program enables students to earn a BS degree in Physics from DePaul and a BS in Engineering from IIT in Mechanical, Aerospace, Electrical/Computer Engineering. Students interested in obtaining a BS in Physics with the Engineering Physics concentration must be accepted into one of these programs at IIT as part of the DePaul-IIT Joint Engineering Program.

Additionally, students interested in engineering, but are not interested in the joint dual-degree program, will have the scientific basis to complete an engineering program at another institution after the first two years of the physics major curriculum at DePaul.

### Learning Outcomes

Students will be able to:

- Demonstrate critical thinking, quantitative, and mathematical skills required to answer questions about the behavior of the universe.
- Create and interpret multiple representations of physics concepts through the use of mathematics, computational code, computer simulations, as well as written, graphical, and pictorial descriptions.
- Design, execute, and analyze experiments to test physics theories and hypotheses.
- Effectively communicate their understanding of physics concepts to scientists and non-scientists.

### Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

### College Core Requirements

#### Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (BA) degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

BA students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While Bachelor of Science (BS) students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.
Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1. Students must earn a C- or better in this course.
2. Students with a primary major in Physics are required to complete the Capstone offered by the Physics department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Physics are required to complete the Capstone offered by the Physics department. Physics students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

Learning Domains

Arts and Literature (AL) (p. 1300)
- 3 Courses Required

Historical Inquiry (HI) (p. 1304)
- 2 Courses Required

Math and Computing (MC) (p. 1306)
- Not Required

Philosophical Inquiry (PI) (p. 1307)
- 2 Courses Required

Religious Dimensions (RD) (p. 1308)
- 2 Courses Required

Scientific Inquiry (SI) (p. 1310)
- Not Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
- 3 Courses Required

Notes

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

- MAT 161 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS II
- MAT 162 CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III
Computational Physics Concentration, Physics (BS)

Sequencing of Coursework

Students interested in majoring in physics, applied computational physics, or pre-engineering should enroll in PHY 170 and MAT 160 in the autumn quarter of their first year, provided they are adequately prepared in mathematics.

The sequences of PHY 170, PHY 171, and PHY 172 and MAT 160, MAT 161, and MAT 162 are prerequisites to PHY 270, PHY 300 and PHY 301, and PHY 370, which should be taken in the sophomore year together with MAT 260 and MAT 261.

It is recommended that students interested in the standard concentration or pre-engineering also take the chemistry sequence (CHE 130, or CHE 120 and CHE 131 and CHE 132 or CHE 122 and CHE 133, CHE 134 and CHE 135) their first year. Because of the predominance of physics, mathematics, and chemistry sequences in the freshman and sophomore years, it is crucial that Physics and Pre-Engineering majors be advised by Physics faculty upon enrollment at DePaul.

Concentration Requirements

Students must also complete the requirements from one of the following concentrations: Standard, Computational, Engineering, or Interdisciplinary Physics. Students are limited to declaring only one concentration.

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

• Computational Physics Concentration, Physics (BS) (p. 892)
• Engineering Physics Concentration, Physics (BS) (p. 892)
• Interdisciplinary Physics Concentration, Physics (BS) (p. 893)
• Standard Concentration, Physics (BS) (p. 893)

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Engineering Physics Concentration, Physics (BS)

DePaul University offers a joint program with Illinois Institute of Technology (IIT) in physics and engineering. This program allows students to enroll in courses at IIT while remaining full-time DePaul students. Students will receive a BS degree in Physics from DePaul University and a BS degree in Mechanical, Aerospace, Electrical, or Computer Engineering from IIT upon completion of the five year program. Students interested in Engineering Physics or the joint program should promptly consult with a Physics Department advisor for information about scheduling, requirements, and admission to the joint program.

Courses taken at an external institution such as IIT are excluded from the university’s employee tuition waiver benefit program.

Select four additional Physics courses, at least two at the 300 level, as approved by a departmental advisor.

MAT 261 | MULTIVARIABLE CALCULUS II | 12 |

Select one year-long sequence of courses in the sciences, mathematics, or computer science from the following sequences:

**Biology Sequence**
- BIO 191 | GENERAL BIOLOGY I FOR SCIENCE MAJORS |
- BIO 192 | GENERAL BIOLOGY II FOR SCIENCE MAJORS |
- BIO 193 | GENERAL BIOLOGY III FOR SCIENCE MAJORS |

**Chemistry Sequence**
- CHE 130 & CHE 131 | GENERAL CHEMISTRY I and GENERAL CHEMISTRY I LABORATORY |
- CHE 132 & CHE 133 | GENERAL CHEMISTRY II and GENERAL CHEMISTRY LABORATORY II |
- CHE 134 & CHE 135 | GENERAL CHEMISTRY III and GENERAL CHEMISTRY LABORATORY III |

**Environmental Science Sequence**
- ENV 250 | APPLIED ECOLOGY |
- or BIO 215 | ECOLOGY |
- ENV 216 | EARTH SYSTEM SCIENCE |
- ENV 217 | HUMAN IMPACTS ON THE ENVIRONMENT |

Mathematics Sequence: Select three 300-level sequenced courses as approved by departmental advisor.

Computer Science Sequence: Select any one year-long three-course sequence of CSC courses as approved by departmental faculty advisor.

**Open Electives**

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

---

### Interdisciplinary Physics Concentration, Physics (BS)

Intended for students who seek to apply their scientific training in a career outside of physics, this concentration allows students to combine a core physics curriculum with a minor from another field. Possible minors include Journalism or Technical Writing for students pursuing a career in science writing, Economics for students interested in business, or Biological Sciences for students interested in biophysics.

#### Course Requirements

**Physics**

- Six physics courses, at least three at the 300 level, as approved by a departmental advisor.
- Six courses which constitute a minor in a different discipline, as approved by a departmental advisor.
- Courses from physics with mathematics common core may not be counted toward a math minor.

**Open Electives**

Open elective credit is also required to meet the minimum graduation requirement of 192 hours.

---

### Engineering

- Approved twenty quarter hours at 300/400 level from the Mechanical, Aerospace, Electrical/Computer Engineering program at Illinois Institute of Technology (IIT). Students interested in obtaining a BS in Physics with the Engineering Physics concentration must be accepted into one of these programs at IIT as part of the DePaul-IIT Joint Engineering Program. Note that, in addition to the engineering courses mentioned above, students must take at least four courses at the 200-level and at least 10 additional 300-level and 400-level courses at IIT to earn their engineering degree. (The total number of courses will be determined by IIT). Please contact the Physics Department for details.

### Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

---

### Chemistry

1 Electrical/Computer students must also take
Physics (BS) + Secondary Education Physics (MEd)

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The TEACH Program combines a College of Science and Health (CSH) undergraduate Physics major or some other disciplinary major with a graduate level College of Education (COE) Master of Education (MEd) Program. Students graduate with a BS in their CSH disciplinary major and a MEd in Education with a State of Illinois Secondary Physics Certification.

Students may apply to the TEACH Program during the spring of their junior year. They must enroll in the Junior Year Experiential Learning course, TCH 320 , and meet other application criteria; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 GPA. During their senior year, students are required to complete a TEACH Program capstone course, TCH 390 , and three 400-level courses that count toward both their undergraduate and graduate degrees:

### Junior Year Coursework: 4 undergraduate quarter hours required

<table>
<thead>

</tr>
</tbody>
</table>

All coursework in the content area must earn a grade of C or better.

- Physics I
- Physics II
- Physics III
- Physics IV

This combined degree program of the College of Science and Health and the College of Education was collaboratively developed, and is governed and taught by faculty from these units.

The Master’s year comprises teacher-preparation coursework that culminates with student teaching during Spring quarter. Upon graduation and the fulfilling of State of Illinois licensure requirements (which may require some additional course work in the student’s major and related fields), students are eligible to be licensed to teach Physics at the 5th-12th grade levels.

A full description of the TEACH Program can be found here. Students interested in the TEACH Program should consult with the designated TEACH Program advisor in their home department.

Physics (Minor)

The Physics minor curriculum focuses on scientific investigation, laboratory experience and research opportunities to give you hands-on experience in the field of physics.

### Course Requirements

Select three additional physics courses

Physics majors cannot earn a minor in Physics.

Physics (MS)

The Graduate Physics program is intended to serve the needs of students who wish to enhance their preparation for a doctoral degree in physics or applied science, students who wish to obtain a terminal masters degree in order to work in a physics or engineering related industry, and students who wish to enhance their teaching of physics at the secondary level. To
fulfill these purposes, the department offers a degree program: Master of Science in Physics.

The MS in Physics program is built around a core of five graduate courses and a selection of applied courses in the faculty’s areas of expertise that are designed to tie into current areas of research and interest within both academia and industry.

In order to maximize the availability of our offerings, graduate courses in our program are taught in the evening.

<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHY 480</td>
<td>THESIS RESEARCH</td>
<td>1.8</td>
</tr>
</tbody>
</table>

**Six Electives**

- Any physics courses with a number equal to or higher than PHY 410. A second PHY 480 is allowed as one of these six electives.
- Courses at the 300 or 400 level in biology, chemistry, mathematics, physics, computer science or other related fields can be substituted for up to two of these six elective courses with the written approval of the departmental graduate committee. Please contact the Program Director for details.

**Thesis Requirement**

A thesis based on independent research in theoretical or experimental physics is generally required. However, a review thesis reflecting study of a broad subject or development of an interdisciplinary, historical or educational theme is also acceptable with permission from the Graduate Committee.

As a rule, one course credit of 4 quarter-hours in PHY 480 is applicable to the thesis research. An additional PHY 480 course (4 credit hours) may be allowed with the written approval of the student’s faculty advisor. While students are permitted to register for more than two 4-credit sections of PHY 480, in no case will more than two PHY 480 courses (4 credit hours each) be applied toward the Master of Science degree.

Students are advanced to candidacy upon the written approval of their thesis proposal by the graduate committee, subject to the rules and conditions given below. An oral examination on the thesis is required, eligibility and rules are given below.

**Thesis Procedures and Timelines**

1. A committee with the advisor as Chair and two other members of the DePaul Physics department must be constituted three months prior to the MS Thesis Defense. Committee members (from outside the Physics Department, or outside DePaul) are allowed by permission of the Graduate Director, but cannot function as Committee Chairs.

2. A written report on the thesis project must be furnished to the Committee three months prior to the planned MS Thesis Defense. The written report should include: Title of the thesis project, abstract of the research, a 1-page update on what work has been accomplished so far, and what work remains to be done. The committee members reserve the right to meet with the student and seek clarification and information orally at this time.

3. Following submission of the written report described in (2) above, the committee members will sign the College of Science and Health’s (CSH) Approval of Proposal for Final Project form found on the website for the CSH’s Office of Advising and Student Services. A signature on this form does not constitute permission to defend in another three months, nor does it make any judgment in this regard. Instead, the signatures attest to the fact that the committee has been constituted, and that the committee members have received a written report on the thesis project described in (2) above from the student.

4. The signed CSH Approval of Proposal for Final Project form found on the website for the CSH’s Office of Advising and Student Services will then be submitted to the Program Director who will, upon receipt of this form, make known to the thesis advisor and student the earliest date on which they are eligible to schedule a thesis defense if (5) and (6) below are satisfactorily fulfilled.

5. A written version of the thesis that is in reasonably final form must be furnished to all the three members of the committee by the student two weeks prior to the planned MS Thesis Defense. No exceptions will be granted on this rule.

6. Within a week of having received the thesis mentioned in (5) above, that is, one week prior to the planned thesis defense, all committee members must sign the Physics Department Approval of Scheduling of Thesis Defense form giving the student permission to proceed with the thesis defense. A signature on this form does not reflect a judgment on, or acceptance of, the thesis; it constitutes only an approval for the date of the defense. If the committee members feel that the student is not ready to defend, based on their reading of the thesis (which case may be either because the thesis is not written in a satisfactory manner, or because they feel more work needs to be done on the project), they can choose to withhold their signature; the committee member(s) withholding his/her signature(s) must provide a written explanation of why they did not sign, and what changes and corrections, if any, would be required to obtain their signature. This will automatically mean that the student cannot defend during the next week. In such a case, the cycle will start from
If, at any time during this period, the student and/or advisor of the Graduate Committee of the Physics department, may, if favorable, stipulate conditions of reinstatement. The Dean has the discretion to reject the recommendation for reinstatement.

**Transfer Credit**

A maximum of three courses (12 quarter credit hours or the semester equivalent) may be transferred from another university or DePaul program, subject to the following: The determination of whether or not a particular course is deemed suitable for transfer will be made by the Program Director who may, at his/her discretion, consult the Graduate Committee for assistance in making this decision. Upon successful support, the request would be made to the Associate Dean for Graduate Studies for approval. Transfer credit can only be awarded for graduate level coursework which has not counted toward the completion of a degree at DePaul or any other institution.

**Undergraduate Courses**

Students who are deemed to have inadequate undergraduate preparation in physics may be required to take undergraduate courses in Physics. Such courses will be specified by the Program Director in consultation with the Graduate Committee. A maximum of two such courses as up to eight credit hours may be counted toward the graduate degree, but undergraduate courses cannot substitute for any required (core) courses in the graduate program.

**Graduation Requirements**

Requirements include, but are not limited to, earning a minimum cumulative GPA of 2.75, completing a minimum of 48 quarter hours as twelve graduate courses applicable toward the graduate physics program, and completing and defending a thesis.

**Thesis**

A thesis based on independent research in theoretical or experimental physics is generally required. An oral examination on the thesis is also required. The thesis and the defense will be evaluated by a committee consisting of three faculty members from the Physics department at DePaul, who may judge the thesis and/or oral examination to be satisfactory or may require the student to submit changes to the thesis, and go through more cycles of oral examination. Committee members from outside the Physics department (whether DePaul faculty, or external to DePaul) are allowed only by consent of the Program Director.

**Thesis Proposal**

A proposal (minimum one page) stating the broad outlines of the project, and signed by both the thesis advisor (deemed Thesis Committee Chair) and the student must be completed per the schedule below. A copy of this signed proposal, together with a copy of the Approval of Proposal for Final Project must be kept on file in the Physics department for reference. The thesis advisor may, at his/her discretion, prepare a longer, more comprehensive proposal.

The thesis proposal is a document that records the broad outline of the project only. The determination of when a student has completed the
necessary work to be able to finish and defend the thesis will rest solely with the thesis advisor, and the thesis proposal cannot be used as a basis for determining the same. Changes to the thesis proposal may be carried out at the discretion of the thesis advisor. Changes proposed by the student will only be allowed if the thesis advisor agrees to make those changes.

Graduation with Distinction
Graduating students will be deemed to have graduated with distinction if they earn a minimum cumulative GPA of 3.50 in coursework applied toward their graduate physics program and their thesis committee declares their project to have been completed with distinction (as evidenced by their signature on the Final Requirements Report form).

Time Limitation
Students pursuing a master's degree must complete all requirements for the master's degree within a maximum of six years from their first term of enrollment in the program.

Playwriting (BFA)
The Theatre School's Bachelor of Fine Arts (BFA) degree in Playwriting focuses on helping students explore and identify their voice and unique process of working as a writer in a variety of circumstances. The four-year curriculum provides students with the primary tools of dramatic writing and the space and opportunity to use them through a variety of classroom and workshop production experiences.

### Learning Outcomes

#### Core Outcomes

Students will be able to:

- Identify and describe the historical and theoretical significance of a range of theatrical artists, works, and artistic approaches from antiquity to present.
- Synthesize and apply elements of their education and training to the preparation, rehearsal, and presentation of theatrical productions with discipline, respect, and maturity.
- Identify and explain their theatrical work in the context of the cultural and social impact of the arts.

#### Program Specific Outcomes

Students will be able to:

- Create compelling dramatic texts that explore universal issues through detailed and specific characters and actions.
- Communicate their intentions to collaborators and be able to respond to and incorporate the responses of collaborators from all disciplines.
- Explain how their writing fits into contemporary and historical contexts.

### Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit.

This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Open Electives

Open elective credit may also be required to meet the minimum graduation requirement of 192 hours.

Polish (Minor)

DePaul’s Polish Language minor will help students acquire a solid proficiency in speaking, reading and writing Polish, a major language of Eastern Europe and widely spoken in the Chicago area.

The minor consists of a total of 5 courses in Polish language at the 200/300-level.

Political Science (BA)

Political Science is the study of the organization and behavior of people, groups, and institutions which make up our government and the larger political system. The program is designed to introduce students to questions, perspectives, and arguments about the political forces that shape their lives. As such, the program has value for Liberal Studies students as well as for those who may choose the discipline as a major field of study. Students find the substance and the methods of the discipline useful in the legal, business, civic, communications,
governmental, and academic professions, as well as any endeavors that draw them into public service.

<td>192</td>
</tr>
</tbody>
</table>

**Learning Outcomes**

Students will be able to:

- Define and discuss core concepts within the field of political science, including (but not limited to) power, democracy, authoritarianism, freedom and equality; and be able to describe the key features of the American political system, and compare American institutions to other forms of government found in different regions and countries of the world.
- Collect, organize, and apply various forms of information in order to be able to analyze a given political issue from a multiplicity of perspectives and be able to identify, analyze, evaluate and draw upon a variety of theoretical perspectives to explain particular political phenomena.
- Compose clear and well-organized explanations of political phenomena and support these explanations with evidence.
- Explain and evaluate a sophisticated conception of justice, identify and describe situations in which justice concerns arise, and take an informed position about the meaning or demands of justice.
- Recognize and describe the importance of values to political attitudes and behavior; and be able to identify and explain their own values; they will also be able to articulate their own normative assumptions about politics, society, and other peoples.
- Identify and explain the key elements of the inter-state system, the nature of globalization, and the dynamics of a particular country or region of the world.

**College Core Requirements**

**Study in the Major Field**

The student's course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

**Declaration of Major, Minor and Concentration**

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

**The Modern Language Requirement (MLR)**

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

**The Modern Language Option (MLO)**

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.
The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency
A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 A student whose only major is Political Science is required to complete the Capstone offered by the Political Science Department. A student who is double majoring (or pursuing dual degrees) with the primary major (or primary degree) in Political Science may substitute the Capstone of the secondary major or degree. A Political Science major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the Political Science Capstone.

2 Students must earn a C- or better in this course.

3 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

Learning Domains
Arts and Literature (AL) (p. 1300)
• 3 Courses Required

Historical Inquiry (HI) (p. 1304)
• 2 Courses Required

Math and Computing (MC) (p. 1306)
• 2 Courses Required
[1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1307)
• 2 Courses Required

Religious Dimensions (RD) (p. 1308)
• 2 Courses Required

Scientific Inquiry (SI) (p. 1310)
• 2 Courses Required
[1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
• 1 Course Required

Notes
A student whose only major is Political Science is required to complete the Capstone offered by the Political Science Department. A student who is double majoring (or pursuing dual degrees) with the primary major (or primary degree) in Political Science may substitute the Capstone of the secondary major or degree. A Political Science major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the Political Science Capstone.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit.
This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

## Major Requirements

Political Science majors must complete the requirements for one of the following four concentrations: Standard, American Politics, International Politics, or Law and Theory. Each concentration requires courses drawn from different subfields of Political Science. The classes within each subfield are listed below. To determine the specific distribution of courses across subfields, students should consult the concentration requirements which can be accessed via the link on the left side of this webpage.

### Open Electives

Open elective credits are required in order to meet the minimum graduation requirement of 192 hours. These courses are to be selected in consultation with the student's faculty adviser and may include courses in fields such as economics, history, English, sociology, etc. Students may choose to use their open electives as part of a minor or to complete a double major.

American Politics Concentration, Political Science (BA)

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- American Politics Concentration, Political Science (BA) (p. 902)
- International Politics Concentration, Political Science (BA) (p. 903)
- Law and Theory Concentration, Political Science (BA) (p. 904)
- Standard Concentration, Political Science (BA) (p. 906)

American Politics Concentration, Political Science (BA)

A concentration in American Politics focuses on American political institutions and behavior.

Select two additional 200-level courses from the following areas:
- Political Thought (PSC 230 through PSC 239)
- International Relations (PSC 240 through PSC 249)
- Comparative Politics (PSC 250 through PSC 259)

**Advanced Courses: 16 quarter hours**

Select two 300-level courses from the following areas:
- Methodology (PSC 300 through PSC 309)
- Political Thought (PSC 330 through PSC 339)
- International Relations (PSC 340 through PSC 349)
- Comparative Politics (PSC 350 through PSC 359)
- Public Law (PSC 360 through PSC 369)
- Civic Engagement (PSC 380 through PSC 389)

**PSC Electives: 12 quarter hours**
- Three additional PSC courses at the 200 or 300 level

**Open Electives**
Open elective credits are required in order to meet the minimum graduation requirement of 192 hours. These courses are to be selected in consultation with the student's faculty adviser and may include courses in fields such as economics, history, English, sociology, etc. Students may choose to use their open electives as part of a minor or to complete a double major.

### International Politics Concentration, Political Science (BA)

The concentration in international politics is designed to provide students with an opportunity to focus on comparative and international politics.

#### Core Requirements

**Course Titles: 8 quarter hours**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSC 140</td>
<td>INTRODUCTION TO INTERNATIONAL RELATIONS</td>
<td>4</td>

<td>THE AMERICAN POLITICAL SYSTEM</td>
<td>4</td>
</tr>
<tr>
<td>PSC 130</td>
<td>INTRODUCTION TO POLITICAL THEORY</td>
<td></td>
</tr>
</tbody>
</table>

**Intermediate Courses: 20 quarter hours**

Select three 200-level courses from the following areas:
- American Foreign Policy
- Russian-American Relations
- Latin American-United States Relations
- Asian Foreign Policy
- U.S.-Africa Relations
- War, Peace, and Conflict Resolution
- Topics in International Relations
- European Politics
- Russian Politics
- Latin American Politics
- Asian Politics
- African Politics
- Middle East Politics
- Cyber Warfare and Cyber Politics

Select two additional courses from the following areas:
- Political Culture (PSC 210 through 219)
- American Politics (PSC 220 through PSC 229)
- Political Thought (PSC 230 through PSC 239)

**Advanced Courses: 16 quarter hours**

Select two 300-level courses from the following:
- The European Union
- Political Islam and American Foreign Policy
- Arms, Security, and War
Law and Theory Concentration, Political Science (BA)

</tbody>
</table>

Two additional 300-level courses from the following areas:

- Methodology (PSC 300 through PSC 309)
- Political Culture (PSC 310 through PSC 319)
- American Politics (PSC 320 through PSC 329)

Two Additional 300-Level Courses from the Following Areas

- Methodology (PSC 300 through PSC 309)
- Political Culture (PSC 310 through PSC 319)
- American Politics (PSC 320 through PSC 329)
- Political Thought (PSC 330 through PSC 339)
- Public Law (PSC 360 through PSC 369)
- Civic Engagement (PSC 380 through PSC 389)

Open Electives

Open elective credits are required in order to meet the minimum graduation requirement of 192 hours. These courses are to be selected in consultation with the student's faculty adviser and may include courses in fields such as economics, history, English, sociology, etc. Students may choose to use their open electives as part of a minor or to complete a double major.

Law and Theory Concentration, Political Science (BA)

This concentration allows students to focus on law and its foundations in political theory.
• International Relations (PSC 340 through PSC 349)
• Comparative Politics (PSC 350 through PSC 359)
• Civic Engagement (PSC 380 through PSC 389)

PSC Electives: 12 quarter hours
• Three additional PSC courses at the 200 or 300 level

Open Electives
Open elective credits are required in order to meet the minimum graduation requirement of 192 hours. These courses are to be selected in consultation with the student’s faculty adviser and may include courses in fields such as economics, history, English, sociology, etc. Students may choose to use their open electives as part of a minor or to complete a double major.

Political Science (BA) + Secondary Education Social Science (MEd)

The TEACH Program combines a Liberal Arts and Social Sciences (LAS) undergraduate Social Science major (Anthropology, Economics, Geography, History, Political Science, or Sociology) or a Science and Health (Psychology) major with a graduate level College of Education (COE) master’s in Education Program. Students graduate with a BA or BS in their disciplinary major and a MEd in Education with State of Illinois Secondary Social Science licensure.

Students may apply to the TEACH Program during the spring of their junior year. They must enroll in the Junior Year Experiential Learning course, TCH 320, and meet other application criteria; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 GPA. During their senior year, students are required to complete a TEACH Program capstone course, TCH 390, and three 400-level courses that count toward both their undergraduate and graduate degrees:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>TCH 320</td>
<td>EXPLORING TEACHING IN THE URBAN HIGH SCHOOL (fulfills the Liberal Studies Program experiential learning (EL) requirement)</td>
<td>4</td>
</tr>
</tbody>
</table>

Senior Year Coursework: 4 quarter hours required

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>TCH 390</td>
<td>CAPSTONE: INTEGRATING EDUCATION &amp; DISCIPLINARY FOUNDATIONS (fulfills undergraduate Capstone requirement; major area may require a separate Capstone course)</td>
<td>4</td>
</tr>
</tbody>
</table>

Undergraduate/Graduate Double-Counted Courses: 12 undergraduate/graduate quarter hours required, grade of C or better required.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>TCH 402</td>
<td>INTRODUCTION TO MIDDLE GRADES AND SECONDARY EDUCATION</td>
<td>4</td>
</tr>
</tbody>
</table>

TCH 412 THE NATURE OF HISTORY AND THE SOCIAL SCIENCES 4
TCH 422 INQUIRY & APPLICATION IN DEVELOPING SECONDARY HISTORY AND SOCIAL SCIENCES PEDAGOGY 4

Social Science Content Area (grades of C or better required for licensure):
The following Social Science content area requirements are required. These can be taken as part of the major, liberal studies or open elective requirements:

• HST 298
• HST 299
• 3 United States History courses
• 2 Non-United States History courses
• 6 from the political science major
• Additional licensure requirements: (one course in each area required)
  • Economics (ECO 106 recommended)
  • Geography (GEO 101 recommended)
  • Psychology (PSY 105 recommended)
  • Sociology (SOC 101 recommended)
  • Anthropology (ANT 102 recommended)

This combined degree program of the College of Liberal Arts and Social Sciences and the College of Education was collaboratively developed, and is governed and taught by faculty from these units.

The Master’s year comprises teacher-preparation coursework that culminates with student teaching during Spring quarter. Upon graduation and the fulfilling of State of Illinois licensure requirements (which may require some additional course work in the student’s major and related fields), students are eligible to be licensed to teach Social Sciences at the 5th-12th grade levels.

A full description of the TEACH Program can be found here. (p. 1145)

Students interested in the TEACH Program should consult with the designated TEACH Program advisor in their home department.

Political Science 3+3 (BA+JD)

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

Key Program Features

• Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
• Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
• Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
• Students receive early (conditional) admission to the College of Law.
• Credits earned in the first year of law school apply toward the BA degree.
• Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
• If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements
In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 677).

Financial Aid
BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law’s median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Standard Concentration, Political Science (BA)
The standard concentration is for students who want to explore courses in all sub-fields offered in the political science major.

Course Requirements
Core Courses: 8 quarter hours

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Select two of the following:</td>
<td></td>
<td>8</td>

Intermediate Courses: 20 quarter hours

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSC 200</td>
<td>POLITICAL INQUIRY</td>
<td>4</td>
</tr>
</tbody>
</table>

Four courses: 16 quarter hours - choose one course each from four of the following five sub-fields:

• Political Culture (PSC 210 through PSC 219)
• American Institutions (PSC 220 through PSC 229)
• Political Theory (PSC 230 through PSC 239)
• International Relations (PSC 240 through PSC 249)
• Comparative Politics (PSC 250 through PSC 259)

Advanced Courses: 16 quarter hours
Four courses from at least two of the following areas:

• Methodology (PSC 300 through PSC 309)
• Political Culture (PSC 310 through PSC 319)
• American Politics (PSC 320 through PSC 329)
• Political Thought (PSC 330 through PSC 339)
• International Relations (PSC 340 through PSC 349)
• Comparative Politics (PSC 350 through PSC 359)
• Public Law (PSC 360 through PSC 369)
• Civic Engagement (PSC 380 through PSC 389)

PSC Electives: 12 quarter hours
Three additional PSC courses at the 200 or 300 level

Open Electives
Open elective credits are required in order to meet the minimum graduation requirement of 192 hours. These courses are to be selected in consultation with the student’s faculty adviser and may include courses in fields such as economics, history, English, sociology, etc. Students may choose to use their open electives as part of a minor or to complete a double major.

Polymer and Coatings Science (MS)
The Master of Science in Polymer and Coatings Science is offered through the Department of Chemistry. The program requires 48 quarter hours.
Learning Outcomes

Program Specific Outcomes
Students will be able to:

• Critique the results of experiments and representative problems based on core chemical principles orally and in writing.
• Graphically represent scientific data for a professional audience.
• Devise the synthesis of polymeric materials, describe their physical properties based on experimental data, and propose novel applications for their use.

Concentration Specific Outcomes
Thesis
Students will be able to:

• Formulate a chemical problem of interest and propose an appropriate solution.
• Integrate chemical knowledge to create a persuasive and justifiable scientific argument regarding their results.
• State future directions for and impact of their work on the scientific community.

Degree Requirements

Course Requirements
Core Courses (16 credit hours):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHE 422</td>
<td>INORGANIC STRUCTURE AND REACTIVITY</td>

<tr>
<td>CHE 432</td>
<td>PHYSICAL CHEMISTRY OF POLYMERS</td>
<td>4</td>
</tr>
<tr>
<td>CHE 434</td>
<td>POLYMER CHARACTERIZATION</td>
<td>4</td>
</tr>
<tr>
<td>&amp; CHE 435</td>
<td>POLYMER CHARACTERIZATION LABORATORY</td>
<td>6</td>
</tr>
</tbody>
</table>

Thesis Option (32 credit hours):
Students interested in pursuing the Thesis Option would select any course combination from the Non-Thesis Option for 20 credit hours and the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHE 497</td>
<td>RESEARCH</td>
<td>1-12</td>
</tr>
</tbody>
</table>

MS thesis students must write a thesis based on their research project and successfully defend their thesis.

Student Handbook

Academic Probation
Students must maintain a minimum cumulative GPA of 2.75 to remain in good standing. A student whose cumulative GPA falls below 2.75 will be placed on academic probation.

Academic Dismissal
Students on academic probation have at most one academic quarter of coursework to raise their cumulative GPA to at least a 2.75. If a student does not, then he/she may be dismissed for a violation of satisfactory progress.

All students are expected to adhere to the Code of Student Responsibility as outlined in the Graduate Student Handbook. Any violation of the Code of Student Responsibility is considered very serious and is grounds for probation or dismissal at the discretion of the Chemistry Graduate Committee or Dean of Students.

Conditional Admission
An applicant may be admitted conditionally to the program at the discretion of the Chemistry Graduate Committee for one or more of the following reasons:

• Undergraduate GPA is less than 2.75 but the student has shown considerable promise in other areas (such as research).
• The applicant is missing one or two of the required courses but otherwise has met all of the criteria for admission; the applicant will be required to complete the missing coursework either at DePaul or comparable institution as a condition prior to taking graduate courses for which the missing course(s) is(are) prerequisite.

The Chemistry Graduate Committee will consider other circumstances not included in the above list on an individual basis.

Transfer Credit
Up to 12 quarter hours (or semester equivalent) of coursework may be accepted as transfer credit towards the M.S. degree for courses taken at another institution or through another DePaul program that articulate with current courses in the chemistry graduate program. Credits applied toward the completion of a degree at DePaul or another institution will not be accepted as transfer credit. Written approval must come from graduate program director and associate dean for graduate studies.
Graduation Requirements
At a minimum, students need to earn at least a 2.75 cumulative GPA.

Graduation with Distinction
Students may graduate “with distinction” by earning a minimum cumulative GPA of 3.75 for coursework applied toward the chemistry graduate program, or on the recommendation of the thesis defense committee.

Time Limitation
Students pursuing a master’s degree must complete all requirements for the master’s degree within a maximum of six years from their first term of enrollment in the program.

Product Innovation and Computing (MS) (College of Computing & Digital Media)
The Master of Science in Product Innovation and Computing is a joint master’s degree with the College of Computing & Digital Media (CDM) and the Kellstadt Graduate School of Business (KGSB). This STEM degree incorporates the innovation and entrepreneurship processes with computer science, allows students in the program to recognize broader issues in technology-related problems and understand the business constraints affecting this technology.

Program Requirements

<table>
<thead>
<tr>
<th>Program Requirements</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Introductory Courses</td>
<td>0-20</td>
</tr>
<tr>
<td>Degree Requirements</td>
<td>52</td>
</tr>
<tr>
<td>Total hours required</td>
<td>52-72</td>
</tr>
</tbody>
</table>

Learning Outcomes
Students will be able to:

- Demonstrate innovative abilities, including user-centered design thinking, diagnosing problems and developing opportunities for new products and services.
- Develop a business idea and the ability to navigate the entrepreneurial process from pre-venture and start-up to growth.
- Explain how to implement an innovative culture for business growth. Solve a specific problem by selecting appropriate data structures and algorithms and customize them to the problem.
- Interpret new APIs and use them in developing computer applications.
- Implement systems that run across several distributed computers.
- Deconstruct problems using techniques from functional and object-oriented programming.

Degree Requirements
Course Requirements
No Introductory Course may be substituted for any other course at any level.

Introductory Courses

<table>
<thead>
<tr>
<th>Course</th>

Professional Communication (MA) Online

The MA in Professional Communication is an accelerated, one-year online master’s degree with curriculum formed around the latest industry developments and trends in external and internal communications. The program is designed for busy working professionals whose aim is to assume communication manager, director level and associated leadership positions in communication departments and teams in a range of workplaces, including companies and startups, agencies or consultancies, and non-profit organizations.

Students in this program progress through the innovative online curriculum together as a cohort, taking courses in a pre-set sequence that takes full advantage of the DePaul academic calendar. Taught by award-winning faculty with industry connections and a commitment to student success, the professional communication program begins and ends with weekend virtual or in-person residencies in Chicago, which allow students to further connect with fellow classmates, professors, college alumni and industry professionals.

For the final project in the program, students work on a real-world workplace communication challenge that benefits an organization and its stakeholders. This project also gives the student an opportunity to build their portfolio and further network within the profession. Approved project partners include world-class organizations.

Total Hours 46
Residencies

Students in the PROCMN program will participate in virtual or in-person weekend residencies at the beginning and end of the program. These residencies allow students to further connect with fellow classmates, professors, college alumni and industry professionals.

Grade Requirements

All students are required to maintain a cumulative GPA of 3.000 in their coursework. If a student’s cumulative GPA falls below 3.000, the student will be allowed to complete an additional 16 credits or 3 quarters (whichever comes first) to attain the 3.000 minimum GPA. If the cumulative GPA remains below a 3.000 at the conclusion of this time period, the student may be dismissed from the program. The student’s cumulative and term GPAs along with overall academic performance will be factored into the dismissal decision.

Professional Writing Minor Online

The required courses in the Professional Writing minor and many WRD electives are also offered online. Interested students may therefore complete the Professional Writing minor entirely online.

Project Management Post-Master's Certificate

This post-master's certificates provide opportunities for master’s degree holders to sharpen their skills. Students who earned their master's degree from DePaul CDM automatically qualify for a scholarship.

Course Title Quarter Hours
IS 430 FUNDAMENTALS OF IT PROJECT MANAGEMENT 4
IS 440 COLLABORATIVE TECHNOLOGIES FOR LEADING PROJECTS 4

Projection Design (BFA)

The Theatre School's Bachelor of Fine Arts (BFA) degree in Projection Design provides training to create, manipulate, and display digital and moving images for live performances and events. The training gives students the opportunity to explore and expand their artistic and visual expression while providing practical experience in projection design. Students will work on various software programs and hardware to bring content to life on-stage via digital projections, video walls, LED walls, and other emerging technologies. Designers learn to visualize, create, and implement their designs by collaborating with directors, dramaturgs, actors, other designers and technicians, and our professional production staff.

Program Requirements Quarter Hours
Liberal Studies Requirements 52
Major Requirements 147
Total hours required 199

Learning Outcomes

Core Outcomes

Students will be able to:

- Identify and describe the historical and theoretical significance of a range of theatrical artists, works, and artistic approaches from antiquity to present.
- Synthesize and apply elements of their education and training to the preparation, rehearsal, and presentation of theatrical productions with discipline, respect, and maturity.
- Identify and explain their theatrical work in the context of the cultural and social impact of the arts.
Program Specific Outcomes
Students will be able to:

- Read and interpret theatrical text and apply research, imagination, and personalization to create a unique, insightful, and compelling design concept.
- Demonstrate an understanding of the history of visual art and architecture in the context of social and cultural development.
- Demonstrate and apply an expertise in projection in video technology in a variety of performance styles and theatrical environments.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

- Not Required

Philosophical Inquiry (PI) (p. 1307)
- 1 Course Required

Religious Dimensions (RD) (p. 1308)
- 1 Course Required

Scientific Inquiry (SI) (p. 1310)
- 1 Lab Course or 1 SWK Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
- Not Required

Other (p. 1300)
- Choose 1 course from the above learning domains as an elective

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Psychological Research Methods (Minor)

The Psychological Research Methods minor allows students to obtain basic training in statistics and research methods, which can be useful in careers or graduate programs that might have a research or data analysis component.

This minor is only for non-psychology majors and a maximum of one psychology minor may be earned by a student.

Psychology majors cannot earn a minor in psychological research methods.

Six psychology courses are required, including:

1 It is recommended that they be from the above list, but it is not required.

Psychological Science (MA)/(PhD)

DePaul's Psychological Science MA/PhD program is a highly competitive program that trains students in the theories and methodologies that define the core scientific pillars of psychology: social, developmental, cognitive and neuroscience. With an emphasis on critical and integrative thinking, our students will understand the psychological foundations of human thought, emotions, motivation and behavior while conducting innovative research on diverse topics within psychology. Students will have the opportunity to develop research and statistical skills both inside the laboratory and out in the world developing scientific solutions to real-world problems. Training prepares students for careers in a wide variety of scientific, academic, business and applied settings.

Research experience is an integral part of the training and begins in the first year under the guidance of a faculty advisor. During their first two years, students plan and conduct research toward their master’s thesis and develop a comprehensive research project their third year that prepares them for the dissertation. Research for the dissertation usually begins during the fourth year. Students are supported with competitive stipends and other funding opportunities.
Program Requirements

MA Degree Requirements
48 Quarter Hours
Additional PhD Degree
28 Requirements
Total hours required 76

Learning Outcomes
Students will be able to:

• Identify major theoretical concepts in psychological science, trace their historical development, and integrate theory, research, and domain-specific knowledge to explain and interpret how psychological science currently advances knowledge.
• Critique and synthesize theoretical and empirical articles from peer-reviewed scholarly journals in terms of theory, methods, data analyses, and conclusions in order to compose novel perspectives and ideas.
• Develop testable research questions, identify strengths and limitations of research designs and data analysis techniques, conduct appropriate research and analytic strategies, and interpret the findings to situate them within the extant research literature in psychological science.
• Describe and discuss the ethical issues associated with human subjects/participant protection and the sequence of procedures needed for IRB approval of research projects, and apply these ethical practices in research.
• Exhibit effective communication skills for presenting at professional conferences and publishing in professional journals in psychological science.

MA/PhD Degree Requirements
The Psychological Science MA/PhD is a combined degree. The MA is non-terminal and, therefore, only students intending to confer the PhD are admitted.

MA Course Requirements
The MA portion of the combined degree program requires a minimum of 48 quarter hours beyond the completion of a bachelor's degree.

</tr>
</tbody>
</table>

**Master's Research Thesis**

Students must complete a thesis on a topic approved by the program. Research experience is considered an integral part of the training. Students are expected to begin directed research during their first year under the supervision of an advisor. During their second year, students are expected to conduct research and complete their master's thesis. Research experience during the third year might involve a continuation of the line of research initiated in the thesis project or other projects that students develop.

**Master's Thesis Examination**

For both the proposal and the completed project, an oral defense of the research must be passed and the written document must be approved.

**PhD Course Requirements**

The PhD portion of the combined degree program requires a minimum of 28 quarter hours beyond the completion of the master's degree, including four quarter hours of dissertation research. The following requirements must be completed to confer the PhD.

**Cognitive Seminar Courses**

<table>

**Areas of Specialization**

The psychological science faculty consists of members from each of the following major experimental areas: cognition, cognitive neuroscience, developmental psychology (child, adolescent, and lifespan), social cognition, and social psychology. Students may specialize in an area in which a faculty member has expertise.

**Doctoral Candidacy Project**

This requirement is completed after the student has defended the master's thesis and before defense of the dissertation proposal. PhD students in PS have two options for fulfilling the requirement for admission to doctoral candidacy: Writing a grant proposal or writing a journal-appropriate review article.

**Admission to Doctoral Candidacy**

Formally given to the student with satisfactory coursework performance who has successfully completed the master's thesis and passed the Doctoral Candidacy Project. The candidate has no more than five years from the date of admission to doctoral candidacy to complete the PhD requirements or dismissal from the program will ensue.

Students denied candidacy will be required to withdraw from the program or withdraw after completion of the MA.

**Dissertation**

Departmental committee approval and acceptance of topic and outline of dissertation is given only after admission to doctoral candidacy. Research for the dissertation should normally be completed during the student's fourth year in the program.

**Oral Examination**

For both the proposal and the completed project, an oral defense of the research must be passed and the written document must be approved. Students are expected to defend their dissertation and demonstrate competence in psychological science and their area of specialization.

**Time Limitations**

- No more than four years between admission to the MA/PhD program and admission to doctoral candidacy.
- No less than eight months and no more than five years between admission to doctoral candidacy and the final doctoral oral examination; or dismissal from the program will ensue.
Program Graduate Academic Student Handbook

Minimum Grades

1. The minimum grade considered acceptable for a graduate course is a B-. This applies to courses taken both within and outside of the department for psychology graduate students. Grades below that (i.e., C+ and below) indicate that the student has not mastered the relevant content of the course.

2. If a graduate student earns a grade lower than B- in a particular course, the student, instructor, and advisor will discuss the situation and circumstances and a remediation plan will be required. The student, his or her advisor, and the instructor, will work together to create a plan through which the student can gain competence in the course material, and demonstrate that competence. The remediation plan might include, for example, requiring the student to complete additional assignments, retaking the class, taking a substitute class, completing an independent study, or pursuing other options. The remediation plan must be approved by the instructor, advisor and the program director.

3. A second occurrence of a grade lower than B- (for the same or different course) will put the student on academic probation. Once placed on academic probation, the student’s record and any mitigating circumstances will be evaluated by a Psychology Department review board comprising the student’s advisor, the program director, and the department associate chair (the department chair might be included in special circumstances). Additional remediation and intervention might be suggested by the review board.

4. If there is a third occurrence of a grade below B- (for the same or different course), the student will be dismissed from the program. The student may choose to appeal this decision, in which case the Chair of the Psychology Department will appoint a committee of three tenured Psychology Department faculty outside the student’s program to hear the appeal. Depending on the student’s academic record and any mitigating circumstances, he/she may be allowed to complete his/her Master’s degree but will not be permitted to continue onto the PhD (not applicable to terminal Department of Psychology MS degrees) without a successful appeal.

Academic Probation

Students are expected to maintain a minimum grade point average (GPA) of 3.2. If a student’s GPA goes below this minimum, the student will be put on probation and will have one quarter to bring their GPA up to the minimum or face dismissal from the program. If the student’s GPA goes below the minimum a second time, they will be dismissed from the program.

Academic Dismissal

In addition to violations of satisfactory progress, including but not limited to, earning minimum grades, failing the comprehensive exam (including any possible retakes) or project, or maintaining a minimum cumulative GPA, students may be dismissed for breaches of academic honesty, or breaches of the code of student responsibility articulated in the DePaul University Student Handbook.

Time Limitations

Students must complete their MA degree requirements prior to completing their requirements for admission to doctoral candidacy. Further, no more than four years may pass between admission to the doctoral program and successful completion of the doctoral candidacy examination/project, and no less than eight months and no more than five years may pass between admission to candidacy and the final examination (i.e., the oral dissertation defense).

Extensions on these timelines must be requested in writing to both the department (Program Director) and the college (to the Dean) and must be approved at both levels. Students must complete all requirements for the degree (which may include additional coursework, examinations, or other conditions) by the deadline outlined in the extension. Failure to meet specified time limitations or deadlines can result in dismissal from the program.

Graduation Requirements

Students need a minimum cumulative GPA of 3.20 in courses required by the program. In addition to meeting the minimum cumulative GPA requirement, failing the doctoral candidacy exam (or one retake) or project, lack of progress towards degree completion, and/or unsatisfactory evaluation could result in academic dismissal. See individual program policies for more details.

Graduation with Distinction for MA

The criteria for graduation With Distinction is based on a GPA of 3.75 or higher at the time of degree conferral. This distinction is only given for the Master’s degree, and is not awarded at the PhD level.

For topics not listed above, please consult the Graduate Student Handbook of the Department of Psychology, your program manual, or the Psychology Graduate Program Assistant.

Psychology (BA)

The goal of the Department of Psychology is to provide students with an understanding of the methods and content of scientific and applied psychology.

The primary means of attaining our mission is classroom instruction. We offer courses across a wide range of disciplines within psychology; some of our courses also include laboratories that focus on experimental and statistical work. Some of these courses are beginning to be offered as fully online and as hybrid courses (partially online and partially in the classroom). Further learning opportunities are made available through field work, the Honors Program, Experiential Learning, Independent Study, and Internships. Our Internship Program consists of supervised work placements for which students earn academic credit; potential sites include human service organizations as well as community and industrial settings.

Bachelor of Arts Psychology majors must select one of the six B.A. concentrations: Standard, Human Development, Human Services, Industrial/Organizational, Community, or Comprehensive Evening Program. Students are limited to only declaring one concentration.

There is an option to complete the BA in Psychology online, with no face-to-face classes on DePaul Campuses (see “Special Programs” for prerequisites). Students who qualify and wish to pursue the BA in Psychology online may complete either the Standard or Human Development concentrations.
After completing any one of the concentrations, a psychology major should be able to understand key concepts, principles, and overarching themes in psychology, read and understand behavioral science data, design and conduct rudimentary psychological research studies, and apply research findings to everyday situations. These skills are applicable to a wide variety of occupations and professions. Psychology as a major provides excellent opportunities for students planning to go to graduate or professional school. Psychology as a minor provides a flexible complement to other majors.

</tr>
<tr>
<td><strong>Total hours required</strong></td>
<td><strong>192</strong></td>
</tr>
</tbody>
</table>

### Learning Outcomes

Students will be able to:

- Describe key concepts, principles, themes, and applications across a variety of content domains in psychology.
- Use scientific reasoning and critical thinking to interpret psychological phenomena.
- Design, conduct, and interpret basic psychological research, accounting for sociocultural factors.
- Apply ethical standards to evaluate psychological science and practice.
- Write a paper applying cogent scientific argument that includes presenting information using a scientific approach, discussing psychological concepts, explaining the ideas of others, and expressing their own ideas with clarity.

### College Core Requirements

#### Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (BA) degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaurate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

BA students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While Bachelor of Science (BS) students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

### Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

### Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSY 361</td>
<td>HISTORY AND SYSTEMS OF PSYCHOLOGY 1,3</td>
<td>4</td>
</tr>
<tr>
<td>PSY 389</td>
<td>PSYCHOLOGY SENIOR SEMINAR 1</td>
<td>4</td>
</tr>
</tbody>
</table>

1 Students must earn a C- or better in this course.

2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.

3 Students with a primary major in Psychology are required to complete the Capstone offered by the Psychology department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Psychology are required to complete the Capstone offered by the Psychology department. Psychology students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

Learning Domains

Arts and Literature (AL) (p. 1300)
- 3 Courses Required

Historical Inquiry (HI) (p. 1304)
- 2 Courses Required

Math and Computing (MC) (p. 1306)
- 1 Course Required
  [1 CR Course]

Philosophical Inquiry (PI) (p. 1307)
- 2 Courses Required

Religious Dimensions (RD) (p. 1308)
- 2 Courses required

Scientific Inquiry (SI) (p. 1310)
- 2 Courses Required
  [1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
- 1 Course Required

Notes

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Psychology BS Healthcare

The BS healthcare concentration requires a different set of Liberal Studies Program requirements. Please refer to the healthcare concentration requirements (p. 928) for details.

Major Requirements

The program consists of the common core plus eight additional courses in a concentration area. Bachelor of Arts students are required to take fourteen general electives which may be psychology and/or other department courses. Students may choose to complete a minor or double-major. Bachelor of Arts students must fulfill the Modern Language requirement.

Common Core

<table>
<thead>
<tr>
<th>Course</th>

</tbody>
</table>

Select one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSY 361</td>
<td>HISTORY AND SYSTEMS OF PSYCHOLOGY (Liberal Studies Program Capstone)</td>
<td>4</td>
</tr>
<tr>
<td>PSY 389</td>
<td>PSYCHOLOGY SENIOR SEMINAR</td>
<td>4</td>
</tr>
</tbody>
</table>

1 University Honors students are not required to complete the capstone in PSY, however it is recommended as a psychology elective for them.

Upon faculty approval psychology majors may register for the following psychology courses as psychology electives:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSY 390</td>
<td>INDEPENDENT RESEARCH IN PSYCHOLOGY</td>
<td></td>
</tr>
<tr>
<td>PSY 391</td>
<td>DEPARTMENT HONORS THESIS 1</td>
<td></td>

</tr>
<tr>
<td>PSY 398</td>
<td>TUTORING AND MENTORING IN PSYCHOLOGY</td>
<td></td>
</tr>
<tr>
<td>PSY 399</td>
<td>INDEPENDENT STUDY</td>
<td></td>
</tr>
</tbody>
</table>

1 Students accepted into the honors program must register for PSY 391 and PSY 396 for 3 quarters (autumn, winter, spring) and a maximum of 4 credits total for each course.

PSY 105 and PSY 106 are not sequential, i.e., one is not a prerequisite for the other. They may be taken in either order.

For the research sequence, PSY 240 must be taken first; PSY 241 and PSY 242 may be taken in either order. A special note: PSY 340, an elective course, may be taken immediately after the completion of PSY 240.

Concentration Requirements

Students must complete the requirements from one of the following concentrations: Standard; Human Development; Human Services;
Industrial/Organizational; Community; or Comprehensive Evening Program. Students are limited to only declaring one concentration.

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Community Concentration, Psychology (BA) (p. 918)
- Comprehensive Evening Program, Psychology (BA) (p. 918)
- Human Development Concentration, Psychology (BA) (p. 918)
- Human Services Concentration, Psychology (BA) (p. 919)
- Industrial-Organizational Psychology Concentration, Psychology (BA) (p. 919)
- Standard Concentration, Psychology (BA) (p. 922)

Community Concentration, Psychology (BA)

Course Requirements

Course	| Title | Quarter Hours
---|---|---
PSY 354 | COMMUNITY PSYCHOLOGY 1 | 4
PSY 356 | PRINCIPLES OF FIELD RESEARCH AND ACTION (spring/junior year) | 4
PSY 359 | FIELD WORK IN COMMUNITY RESEARCH AND ACTION (taken twice: autumn/senior year and winter/senior year) | 4

1 Take prior to PSY 356

There are general areas that community psychology covers: social bases of behavior, social justice, diversity, human development, and public policy. We encourage you to keep these in mind when selecting the final four electives. Make sure to reach out to your advisor as soon as possible to help you plan your curriculum.

Students interested in trauma studies are highly encouraged to take: PSY 372 and PSY 378 as two of the four of their psychology electives.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Human Development Concentration, Psychology (BA)

Course Requirements

Course	| Title | Quarter Hours
---|---|---
PSY 333 | CHILD PSYCHOLOGY | 4
PSY 334 | ADOLESCENT PSYCHOLOGY | 4
PSY 347 | SOCIAL PSYCHOLOGY | 4

Select five additional Psychology courses 1 20

1 Psychology courses must be numbered PSY 317 and above to count toward major field.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Human Services Concentration, Psychology (BA)

Course Requirements

Course	| Title | Quarter Hours
---|---|---
PSY 333 | CHILD PSYCHOLOGY | 4
PSY 347 | SOCIAL PSYCHOLOGY | 4
PSY 353 | ABNORMAL PSYCHOLOGY | 4
PSY 357 | APPLIED PSYCHOLOGY I (winter quarter/junior year) | 4
PSY 358 | APPLIED PSYCHOLOGY II (spring quarter/junior year) | 4
Open Electives
Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Applications
Applications to the human services concentration are due November 1st (autumn quarter) of the applicant’s junior year.

Industrial-Organizational Psychology Concentration, Psychology (BA)

Course Requirements

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSY 380</td>
<td>INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY</td>
<td>4</td>
</tr>
</tbody>
</table>

Select two of the following: 8

- PSY 355 GROUPS AND ORGANIZATIONS
- PSY 381 PERSONNEL PSYCHOLOGY
- PSY 382 ORGANIZATIONAL BEHAVIOR
- PSY 385 TRAINING AND DEVELOPMENT IN ORGANIZATIONS
- PSY 388 TOPICAL SEMINAR IN INDUSTRIAL - ORGANIZATIONAL PSYCHOLOGY
- PSY 343 INTRODUCTION TO PSYCHOLOGICAL MEASUREMENT
  or PSY 340 STATISTICS II

Select four additional Psychology courses 1

1 Psychology courses must be numbered PSY 317 and above to count toward major field.

Open Electives
Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Psychology (BA) Community Concentration + Community Psychology (MS)

The combined Bachelor’s + Master’s degree program allows students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate programs.

The department of psychology offers BA+MS in Community Psychology. Students interested in this program should meet with the MS in Community Psychology BA-MS program director, preferably during their second year. Applications for admission into the combined program are accepted during the junior year.

This program has been developed in response to needs expressed by community groups and organizations for assistance in addressing the needs of their most vulnerable members. The program prepares students to work at the master’s level in the field of Community Psychology in a variety of community, government, and consulting work settings. Students will learn how a community-based social justice perspective recognizes inequalities and promotes the exercise of greater power (i.e., access to resources and decision-making) for communities that have been marginalized, and creates ties to advocacy work with oppressed populations. The program leads to an applied, terminal MS degree and is not designed as an intermediate step toward a doctoral degree. Students interested in pursuing a PhD should speak with their academic advisor about the best way to prepare for a doctoral program.

The combined program requires the completion of 48 courses (192 quarter hours). Included is a community fieldwork experience.

The undergraduate component of the program includes:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSY 359</td>
<td>FIELD WORK IN COMMUNITY RESEARCH AND ACTION</td>
<td>4</td>

Major Level Psych Elective

Quantitative Courses - 3 courses (12 hours)

- PSY 410 ADVANCED STATISTICS I
- PSY 411 ADVANCED STATISTICS II
- PSY 421 APPLIED RESEARCH DESIGN

Open electives to reach a total of 192 credits - approximately 15 courses (60 hours)

Students should apply to the program during their junior year, by May 1st. Students should have a grade point average of 3.20 or higher. Admissions decisions will be made by the faculty administering the program.

The application process will require prospective students to submit the following information:

- Summary of Psychology Courses taken
- A list of community psychology-related volunteer or employment activities
- One letter of recommendation from a faculty member in the Psychology Department
- A brief description of future career plans
Admitted students will take the three graduate courses during their senior year. A maximum of three courses as 12 credit hours will count toward both the BA degree and the MS degree. No other others may count more than once.

Students will need to apply for degree conferral of the BA degree before fully matriculating into the MS degree. After completing the BA degree, an additional nine courses (36 credit hours) are required to complete the MS degree. The MS includes 48 credit hours (12 courses plus Field Work). A maximum of three courses from the BA will count toward the MS (PSY 410, PSY 411, PSY 420). The remaining courses for the graduate program are as follows:

<table>

**Psychology (BA) Industrial and Organizational Concentration + Psychology (MS) Industrial and Organizational**

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The Psychology (BA) offers several options:

- Many other combined degree options (BA + MS, BA + MA, BA + MPH, BA + MPA, BA + MSF, etc.) exist for an undergraduate psychology degree and a master’s degree in second area of study, including master’s degrees offered by other colleges at DePaul. Students should contact the second area of study for advising ideally in their second year. Students may view options in the course catalog.

This program was designed and approved by DePaul University in the late 1980’s as a way to give qualified DePaul undergraduates the opportunity to earn both a BA and an MS degree in the field of Industrial and Organizational Psychology. Only students who are pursuing an undergraduate degree at DePaul are eligible to apply for this program. The program leads to a terminal MS degree, and should not be seen as an intermediate step towards a doctoral degree. Students who are interested in pursuing a PhD should speak to their advisor regarding the best way to prepare for such a program.

The combined program requires completion of 39 four-credit courses (156 credit hours) by the end of the student’s junior year. Note that this requirement is three courses higher than the typical 36 that a student would earn by taking four classes per quarter.

The undergraduate component of this program includes the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>All Liberal Studies or Honors Program requirements</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Psychology core courses:</td>
<td></td>
</tr>
<tr>
<td></td>
<td>PSY 105 INTRODUCTORY PSYCHOLOGY I</td>

<tr>
<td></td>
<td>PSY 340 STATISTICS II</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td>or PSY 343 INTRODUCTION TO PSYCHOLOGICAL MEASUREMENT</td>
<td>4</td>
</tr>
</tbody>
</table>

Select three additional psychology elective courses. Students are strongly encouraged to choose these courses from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>PSY 347 SOCIAL PSYCHOLOGY</td>
<td></td>
</tr>
<tr>

<td>PSY 340 STATISTICS II (whichever course was not already taken)</td>
<td>12</td>
</tr>
<tr>
<td></td>
<td>or PSY 343 INTRODUCTION TO PSYCHOLOGICAL MEASUREMENT</td>
<td></td>
</tr>
</tbody>
</table>

Select three additional psychology elective courses to reach a total of 156 credits

Students should work with their I-O advisor or I-O Program Director beginning as early as possible, ideally no later than their sophomore year. Applications for the combined program are due by June 1 of their junior year, and they can be found on the CSH Office of Advising and Student Services website. At the time of application, the student should have completed the undergraduate requirements with a grade point average of 3.2 or higher; a strong GPA of at least 3.5 is preferred. Supplemental application forms can be obtained from the I-O Program Director, and they must be submitted to the I-O Program Director together with the student’s Unofficial Transcript from DePaul, statement of goals, and General Graduate Record Examination (GRE) scores. Applications will be evaluated by DePaul’s Office of Graduate Admission and the Department
Students accepted into the graduate portion of the program take three courses per quarter during year four and an additional three courses per quarter during year five. The requirement of nine classes during year five cannot be reduced by taking additional classes during year four; and given the demands of graduate-level coursework, students are strongly discouraged from attempting to take more than three classes at a time. The nine courses taken during year four carry 36 credit hours; these 36 credit hours are added to the completed 156 credit hours to produce 192 credit hours, which meets the minimum requirement for conferral of the BA degree.

The MS degree requires an additional 36 credit hours of graduate coursework earned after conferral of the BA. After a student’s BA is conferred, they must adhere to the guidelines that appear in the MA/PhD I-O Program Graduate Academic Student Handbook (p. 603). One exception is students must maintain at least a 3.00 cumulative GPA in MS coursework to remain in good standing, and they must earn at least a 3.00 cumulative GPA by the time of anticipated degree conferral as one of the criteria to be eligible to graduate with their MS.

The required 18 courses taken during years four and five include the following courses:

### Statistics and Methodology

<tbody>
<tr>
<td>PSY 597</td>
<td>MASTER'S THESIS RESEARCH</td>
<td>1-4</td>
</tr>
</tbody>
</table>

### Elective Courses

Select six additional four-credit courses

In addition to enrolling in four credit hours of PSY 597, students are required to complete a master’s thesis to confer the MS degree. The thesis is a project that allows the student to focus on a particular area of interest within the I-O field. There are three options available for the MS thesis:

1. An empirical research project, involving the collection and analysis of data and the writing of the thesis paper in APA style.
2. A library research paper, where the student reviews work already done on a topic, and writes a paper describing and summarizing that work and making recommendations for theory, research or practice.
3. An applied thesis, based on work the student is doing at an internship site.

After choosing one of the above options, the student is required to form a thesis committee consisting of a DePaul I-O faculty member who will serve as the committee chair, and a DePaul Psychology faculty member who will serve as a reader; both faculty must hold doctoral degrees. The thesis committee must approve of the student’s thesis proposal, which may also need to be approved by the Institutional Review Board before the student may begin work.

Students in the combined program are not required to have a minor area of graduate study. However, the areas of specialization listed for the MA/
PhD program are also available to students in the combined program, should they choose to select one.

Students in this program may apply a maximum of twelve graduate credit hours as three courses in their senior year toward both the undergraduate and graduate psychology requirements. The required application for degree conferral for the MS is separate from the required application for degree conferral for the BA. Students must apply for undergraduate degree conferral in anticipation of completing their fourth year of study.

Select four additional Psychology courses ¹ 16

¹ Psychology courses must be numbered PSY 317 and above to count toward major field.

**Open Electives**

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

**Psychology (BA) Online**

The goal of the Department of Psychology is to provide students with an understanding of the methods and content of scientific and applied psychology. We offer courses across a wide range of disciplines within psychology.

There is an option to complete the BA in Psychology online, with no face-to-face classes on DePaul Campuses. Students who qualify and wish to pursue the BA in Psychology online may complete either the Standard or Human Development concentrations.

After completing either of the psychology concentrations, a psychology major should be able to understand key concepts, principles, and overarching themes in psychology, read and understand behavioral science data, design and conduct rudimentary psychological research studies, and apply research findings to everyday situations. These skills are applicable to a wide variety of occupations and professions. Psychology as a major provides excellent opportunities for students planning to go to graduate or professional school.

**Open Electives**

| Total hours required | 56 |

Students will be able to:

- Describe key concepts, principles, themes, and applications across a variety of content domains in psychology.
- Use scientific reasoning and critical thinking to interpret psychological phenomena.
- Design, conduct, and interpret basic psychological research, accounting for sociocultural factors.
- Apply ethical standards to evaluate psychological science and practice.
- Write a paper applying cogent scientific argument that includes presenting information using a scientific approach, discussing psychological concepts, explaining the ideas of others, and expressing their own ideas with clarity.

**College Core Requirements**

**Modern Language Requirements**

Students who intend to graduate with the Bachelor of Arts (BA) degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

BA students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While Bachelor of Science (BS) students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.
Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

3 Students with a primary major in Psychology are required to complete the Capstone offered by the Psychology department. Students double majoring or pursing dual degrees with the primary major or primary degree in Psychology are required to complete the Capstone offered by the Psychology department. Psychology students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

Learning Domains

Arts and Literature (AL) (p. 1300)  
- 3 Courses Required

Historical Inquiry (HI) (p. 1304)  
- 2 Courses Required

Math and Computing (MC) (p. 1306)  
- 1 Course Required  
  [1 CR Course]

Philosophical Inquiry (PI) (p. 1307)  
- 2 Courses Required

Religious Dimensions (RD) (p. 1308)  
- 2 Courses required

Scientific Inquiry (SI) (p. 1310)  
- 2 Courses Required  
  [1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)  
- 1 Course Required

Notes

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

The program consists of the common core plus eight additional courses in a concentration area. Bachelor of Arts students are required to take fourteen general electives which may be psychology and/or other department courses. Students may choose to complete a minor or double-major. Bachelor of Arts students must fulfill the Modern Language requirement.

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Psychology (BS)

The goal of the Department of Psychology is to provide students with an understanding of the methods and content of scientific and applied psychology.

The primary means of attaining our mission is classroom instruction. We offer courses across a wide range of disciplines within psychology; some of our courses also include laboratories that focus on experimental and statistical work. Some of these courses are beginning to be offered as fully online and as hybrid courses (partially online and partially in the classroom). Further learning opportunities are made available through field work, the Honors Program, Experiential Learning, Independent Study, and Internships. Our Internship Program consists of supervised work placements for which students earn academic credit; potential sites include human service organizations as well as community and industrial settings.

Bachelor of Science Psychology majors must select one of the three Bachelor of Science concentrations: General, Cognitive Neuroscience or Healthcare. Students are limited to only declaring one concentration.

After completing any of the concentrations, a psychology major should understand key concepts, principles, and overarching themes in psychology and be able to read and understand behavioral science
data, design and conduct rudimentary psychological research studies, and apply research findings to everyday situations. These skills are applicable to a wide variety of occupations and professions. Psychology as a major provides excellent opportunities for students planning to go to graduate or professional school. Psychology as a minor provides a flexible complement to other majors.

</tr>
<tr>
<td>Open Electives</td>
<td>12-36</td>
</tr>
<tr>
<td><strong>Total hours required</strong></td>
<td><strong>192</strong></td>
</tr>
</tbody>
</table>

### Learning Outcomes

Students will be able to:

- Describe key concepts, principles, themes, and applications across a variety of content domains in psychology.
- Use scientific reasoning and critical thinking to interpret psychological phenomena.
- Design, conduct, and interpret, basic psychological research, accounting for sociocultural factors.
- Design, conduct, and interpret basic psychological research, accounting for biological and/or quantitative factors.
- Apply ethical standards to evaluate psychological science and practice.
- Write a paper applying a cogent scientific argument that includes presenting information using a scientific approach, discussing psychological concepts, explaining the ideas of others, and expressing their own ideas with clarity.

### College Core Requirements

#### Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (BA) degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

BA students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While Bachelor of Science (BS) students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

### Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

### Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

¹ Students must earn a C- or better in this course.

2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.

3 Students with a primary major in Psychology are required to complete the Capstone offered by the Psychology department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Psychology are required to complete the Capstone offered by the Psychology department. Psychology students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

Learning Domains

Arts and Literature (AL) (p. 1300)
- 3 Courses Required

Historical Inquiry (HI) (p. 1304)
- 2 Courses Required

Math and Computing (MC) (p. 1306)
- 1 Course Required
  [1 CR Course]

</tr>
</tbody>
</table>

Select three additional major-level psychology courses numbered PSY 317 and above

Select 20 quarter hours in major-level biology and/or mathematics

Select nine general (open) electives

¹ This course may be taken immediately after the completion of PSY 240.

² This requirement is to be developed in consultation with the departmental advisor.

Note: An exceptional student who has completed the required courses in Psychological Science may, upon consent of his advisor and the chair, be admitted in the senior year to certain 400-level courses described in the Graduate Catalog for Psychology. Any 400-level courses will only apply toward the B.S. degree.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

The student is urged to devote some general elective hours to courses in disciplines other than his/her major. Note: MAT 130 is a prerequisite for major level BIO and MAT courses.

In addition, all psychology majors are encouraged to engage in individual research projects with the supervision of faculty. Upon faculty approval psychology majors may register for the following psychology courses:

<table>

Electives

- Six additional major level science (BIO, CHE, HLTH, MAT, NEU, or PHY) courses chosen in consultation with an academic advisor. Psychology courses are not applicable.
- Four general (open) electives 1

1 Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Prerequisites (or placement out): MAT 130 for BIO 191. MAT 131 for PHY courses. Chemistry placement test is required before attempting CHE courses. Other liberal studies requirements: students take SOC 101 (SCBI) and one Ethics course (PHL 229 or REL 229 or HLTH 229) for either PI or RD.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select Academics, followed by Undergraduate, then Honors Program Alternative.

| Hours | 4                         |

Total Hours | 28

1 Students must earn a C- or better in this course.
2 Students with a primary major in Psychology are required to complete the Capstone offered by the Psychology department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Psychology are required to complete the Capstone offered by the Psychology department. Psychology students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.
Learning Domains

Arts and Literature (AL) (p. )
- 3 Courses Required

Historical Inquiry (HI) (p. 1304)
- 2 Courses Required

Math and Computing (MC) (p. 1306)
- Not Required

Philosophical Inquiry (PI) (p. )
- 2 Courses Required

Scientific Inquiry (SI) (p. )
- Not Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. )
- 3 Courses Required:
  - SOC 101
  - 2 Additional Courses

Religious Dimensions (RD) (p. )
- 2 Courses Required

1 Students must take one ethics course in HLT 229, PHL 229, or REL 229 to fulfill either a PI or RD requirement.

Notes

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or as the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Psychology (MS)

This program offers a terminal Master of Science degree which serves as a foundation for students interested in pursuing doctoral training. It also provides students with the basic knowledge and skills appropriate for a range of occupations in business, government, and human services (excluding the provision of clinical services).

The master’s program has two goals. The first is to provide the student with sufficient breadth in the methodology and content of psychology to demonstrate competence in two major areas: (1) Core areas of the discipline of psychology; and (2) Methods of the discipline of psychology. A second goal of the program is to provide the student with sufficient information and skills to apply the knowledge of the discipline competently in their daily lives and careers. This includes course work in the theory and techniques of the application of psychological principles, and also includes a thorough grounding in ethical and professional standards of psychologists. Although the program builds upon a core of basic courses, it provides some flexibility for students (with the approval of their advisors) to shape their course of study to fit special interests and needs.

Program Requirements

<th>Core Requirements</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Elective Requirements</td>
<td>8</td>
</tr>
<tr>
<td>Total hours required</td>
<td>48</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Identify major theoretical concepts in psychology, trace their historical development, and integrate theory, research, and domain-specific knowledge to explain and interpret how the field of psychology currently advances knowledge.
- Critique and synthesize theoretical and empirical articles from peer-reviewed scholarly journals in terms of theory, methods, data analyses, and conclusions in order to compose novel perspectives and ideas.
- Develop testable research questions, identify the strengths and limitations of research designs and data analysis techniques, conduct appropriate research and analytic strategies, and interpret the findings to situate them within the extant research literature in psychology.
- Describe and discuss the ethical issues associated with human subjects/participant protection and the sequence of procedures needed for IRB approval of research projects, and apply these ethical practices in research.

MS Degree Requirements

Course Requirements

Students must complete at least 48 quarter hours and maintain a cumulative GPA of at least 3.20.

With the permission of the Program Director, students may be able to substitute other psychology or non-psychology courses for the diversity and elective requirements detailed above.

**Additional Requirements**

In addition, program requirements include two options for demonstrating successful completion of the program: 1) a traditional master’s thesis involving an empirical study; or 2) a research study or program evaluation “Capstone” project based on the student’s internship or employment experience. Upon completion of coursework, students are required to maintain active student registration status until graduation.

**Time Limitation**

All degree requirements must be successfully completed within a maximum period of five years.

**Program Graduate Academic Student Handbook**

The content on this page is shared from another website. If you are seeing this message, the referring website is not available or is experiencing technical difficulties.

**Minimum Grades**

1. The minimum grade considered acceptable for a graduate course is a B-. This applies to courses taken both within and outside of the department for psychology graduate students. Grades below that (i.e., C+ and below) indicate that the student has not mastered the relevant content of the course.

2. If a graduate student earns a grade lower than B- in a particular course, the student, instructor, and advisor will discuss the situation and circumstances and a remediation plan will be required. The student, his or her advisor, and the instructor, will work together to create a plan through which the student can (a) gain competence in the course material, and (b) demonstrate that competence. The remediation plan might include, for example, requiring the student to complete additional assignments, retaking the class, taking a substitute class, completing an independent study, or pursuing other options. The remediation plan must be approved by the instructor, advisor and the program director.

3. A second occurrence of a grade lower than B- (for the same or different course) will put the student on academic probation. Once placed on academic probation, the student’s record and any mitigating circumstances will be evaluated by a Psychology Department review board comprising the student’s advisor, the program director, and the department associate chair (the department chair might be included in special circumstances). Additional remediation and intervention might be suggested by the review board.

4. If there is a third occurrence of a grade below B- (for the same or different course), the student will be dismissed from the program. The student may choose to appeal this decision, in which case the Chair of the Psychology Department will appoint a committee of three tenured Psychology Department faculty outside the student’s
program to hear the appeal. Depending on the student's academic record and any mitigating circumstances, he/she may be allowed to complete his/her Master's degree but will not be permitted to continue onto the PhD (not applicable to terminal Department of Psychology MS degrees) without a successful appeal.

**Academic Probation**

Students are expected to maintain a minimum cumulative grade point average (GPA) of 3.00. If a student's cumulative GPA falls below this minimum, the student will be put on academic probation and will have one quarter of coursework to raise it up to the minimum.

**Academic Dismissal**

If the student does not raise their cumulative GPA to at least 3.00 after one quarter of coursework while on academic probation, the student will be academically dismissed from the program. If the student's cumulative GPA falls below the minimum a second time, they will be academically dismissed from the program without a second academic probationary period.

**Graduation Requirements**

Students need a minimum cumulative GPA of 3.20 in courses required by the program. In addition to meeting the minimum cumulative GPA requirement, lack of progress towards degree completion, and/or unsatisfactory evaluation could result in dismissal. See individual program policies for more details.

**Graduation with Distinction for MS**

The criteria for graduating "with distinction" are a minimum cumulative GPA of 3.75 and the recommendation of "with distinction" by the thesis committee.

**Time Limitation**

Students must complete their degree requirements within a five-year period from the first registration date for a course in the program.

**Public Administration (MPA)**

The Master of Public Administration (MPA) at DePaul University prepares students interested in public administration to serve the common good and advance a just society, in the spirit of St. Vincent de Paul. The MPA is designed for current government professionals or individuals seeking to pursue a career in the public sector. The degree equips students with a broad public administration knowledge in government—local, state, federal and international.

The MPA program offers six on-site concentrations: public management; emergency management; health care administration; international public management; standard; and metropolitan planning and urban affairs. Four of these concentrations can be completed in the online only MPA: public management; emergency management; standard; and metropolitan planning and urban affairs.

This degree is accredited by Network of Schools of Public Policy, Affairs and Administration (NASPAA).

**Mission Statement**

The Master in Public Administration (MPA) degree prepares students for leadership and administrative roles in the public sector. We educate students on the technical, managerial, informational, and leadership skills required to deliver effective, accountable, and equitable government services to the public. We promote compassion for marginalized communities and ethical service to all people with a focus on social justice, professionalism, cultural sensitivity, and transparency.

</tbody>
</table>

The Master of Public Administration may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MPA/certificate program should consult with their academic advisor (SPSAdvising@depaul.edu (spsadvising@depaul.edu)) to determine what coursework might count toward both programs. A separate application process for the certificate is required. A separate application process for the certificate may be required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office (https://las.depaul.edu/about/administration-staff/Pages/graduate-student-office.aspx) for additional information.

- Public Administration + Community Development Certificate
- Public Administration + Critical Ethnic Studies
- Public Administration + Emergency Management Administration Certificate
- Public Administration + Geographic Information Systems Certificate
- Public Administration + Global Health Certificate
- Public Administration + Health Care Administration Certificate
- Public Administration + Metropolitan Planning and Development Certificate
- Public Administration + Social Research Certificate
- Public Administration + Strategic Writing and Advancement for Nonprofits Certificate
- Public Administration + Sustainable Urban Food Systems Certificate
- Public Administration + Translation and Interpreting
- Public Administration + Women’s and Gender Studies Certificate

**Learning Outcomes**

Students will be able to:

- Apply leadership and organizational management skills and concepts in an ethical manner amidst an ever-changing public sector.
- Analyze and interact with governance structures, jurisdictional boundaries and the public policy and implementation processes.
- Analyze and synthesize data regarding an existing public affairs issue and use empirical analysis to prepare solutions for informed, decision-making in the public sector using critical thinking.
- Articulate in written or oral forms a commitment to ethical service to all people with a focus on social justice, professionalism, cultural sensitivity, and transparency.
- Integrate the social justice lens in delivery of services and programs to a diverse public and workforce.

**Degree Requirements**

Students complete a total of 13 courses (52 credit hours). Nine courses (36 credit hours) of core course work and four courses (16 credit hours) in a concentration are required.

**Internship Capstone Option**

Students may choose to replace MPS 593 with MPS 610 Internship Capstone option.

**Concentration**

Students in the MPA program are required to choose one of six concentrations: Emergency Management, Metropolitan Planning and Urban Affairs, International Public Management, Health Care Administration, Public Management and Standard. Four of these concentrations are available to students pursuing the online only MPA: Metropolitan Planning and Urban Affairs, International Public Management, Standard, and Public Management concentrations.

**Internship Option**

Students can opt to complete an internship or professional development experience in a government setting. The student would enroll in MPS 601 for course credit, which will be applied to the MPA degree by the student's adviser. Contact SPSAdvising@depaul.edu (spsadvising@depaul.edu) for more details.

### Concentration Requirements

#### Emergency Management Concentration

Emergency Management is a critical concern for the public, private, and non-profit sectors. The concentration explores both the conceptual elements of emergency preparedness and the practical implementation of emergency management that typically occur at the intersection of local and national politics. Courses will address topics such as public safety and law enforcement, crisis management, disaster response and recovery. This concentration will provide students with both theoretical and practical knowledge that will prepare them for private or public sector employment in the area of emergency preparedness for both security and non-security related incidents.

Select two electives from the following:

- MPS 531 VOLUNTEERISM IN GLOBAL CIVIL SOCIETY
- MPS 526 LOCAL GOVERNMENT ADMINISTRATION
- MPS 527 BEHAVIORAL STRATEGIES FOR PUBLIC SERVICE
- MPS 552 GIS FOR COMMUNITY DEVELOPMENT
- MPS 564 PUBLIC SAFETY ADMINISTRATION AND PLANNING
- MPS 578 URBAN RESILIENCE AND CLIMATE ADAPTATION POLICY
- MPS 601 PROFESSIONAL DEVELOPMENT AND INTERNSHIP
- MPS 616 INTERNATIONAL RELATIONS AND CONFLICT MANAGEMENT
- PRAD 540 CRISIS COMMUNICATION MANAGEMENT
- FMS 419 HUMANITARIAN LOGISTICS
- or MGT 520 HUMANITARIAN SUPPLY CHAIN

#### Health Care Administration Concentration

The Health Care Administration concentration provides students with the managerial and analytical skills necessary to understand and influence the processes through which hospitals, associated health care organizations, and public and private agencies provide health care opportunities to explore the roles of specific nonprofit and governmental health care providers and regulatory agencies.

<table>

- MPS 575 STUDY ABROAD SEMINAR
- MPS 576 ENERGY POLICY AND THE ENVIRONMENT
- MPS 578 URBAN RESILIENCE AND CLIMATE ADAPTATION POLICY
- MPS 601 PROFESSIONAL DEVELOPMENT AND INTERNSHIP
- MPS 604 SPECIAL TOPICS

#### International Public Management Concentration

Students intending to work in international organizations require a special understanding of how public and non-profit institutional
Structures and managerial processes vary around the world. This concentration emphasizes the interdependence of government and non-government organizations (NGOs), while addressing a variety of management, ethics, and policy issues.

### International Dimensions of Public Service

<table>

</tr>
</tbody>
</table>

Select two electives from the following: 8

- MPS 511: SUSTAINABLE INTERNATIONAL DEVELOPMENT
- MPS 516: MANAGEMENT OF INFORMATION TECHNOLOGY
- MPS 521: LEADERSHIP IN PUBLIC SERVICE
- MPS 552: GIS FOR COMMUNITY DEVELOPMENT
- MPS 573: HOUSING AND COMMUNITY DEVELOPMENT
- MPS 575: STUDY ABROAD SEMINAR
- MPS 577: ENVIRONMENTAL CONFLICTS AND MEDIATED SOLUTIONS
- MPS 578: URBAN RESILIENCE AND CLIMATE ADAPTATION POLICY
- MPS 579: SUSTAINABLE DEVELOPMENT POLICY AND INTERNATIONAL INSTITUTIONS
- MPS 601: PROFESSIONAL DEVELOPMENT AND INTERNSHIP
- MPS 611: MANAGEMENT OF INTERNATIONAL NGOs
- MPS 616: INTERNATIONAL RELATIONS AND CONFLICT MANAGEMENT
- MPS 618: MIGRATION AND FORCED MIGRATION
- MPS 619: INTERNATIONAL LAW

### Metropolitan Planning and Urban Affairs Concentration

This concentration is for students wanting to work in land use, transportation, economic development, zoning, housing, and other areas of community development. Coursework emphasizes the technical skills of public administration and the tools of analyses and development as applied in a broad public setting. Students study best practices to illustrate the effectiveness of alternative designs and models.

- MPS 513: VOLUNTEERISM IN GLOBAL CIVIL SOCIETY
- MPS 516: MANAGEMENT OF INFORMATION TECHNOLOGY
- MPS 526: LOCAL GOVERNMENT ADMINISTRATION
- MPS 527: BEHAvIORAL STRATEGIES FOR PUBLIC SERVICE
- MPS 552: GIS FOR COMMUNITY DEVELOPMENT

### Public Management Concentration

For those who aspire to become city managers, chief administrative officers, department directors, and senior project managers, this concentration focuses on the roles, requirements, challenges, and processes of running a public organization. Students gain the knowledge and skills needed to work successfully with professional staff, an elected governing board, consultants, and the public in the implementation of broad policy decisions. Legal issues of interest to public managers are also included.

</table>

Student Handbook
Students in the School of Public Service will follow many of the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in the School of Public Service. Please see information below.

Academic Probation
All students within the School of Public Service must maintain a minimum cumulative GPA of 2.7 or higher as part of their requirements for graduation. As a result, any student who earns a cumulative GPA below 2.7 (B-) is placed on academic probation. Students on academic probation are required to meet with the Assistant Director for Academic Advising to discuss their performance and determine a plan for improvement.

Dismissal
Students who are not able to raise their cumulative GPA to a minimum of 2.7 within two academic quarters (after being placed on academic probation) are subject to dismissal from the program.

Readmission
If a student is dismissed from the program (as outlined in the dismissal policy), he or she may reapply through the formal admission application process.

Graduation Requirements
In order to graduate from the program, students must complete all program requirements with a minimum cumulative GPA of 2.7 or higher. If a student’s cumulative GPA is below 2.7, he or she may be denied graduation.

Non-Degree Seeking Students
While School of Public Service courses are open to non-degree seeking graduate students, pre-requisite requirements for certain courses may be enforced.

Public Administration (MPA), Combined Bachelor’s + Master’s Degree
The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Public Administration (MPA)
The Masters in Public Administration (MPA) is an externally-accredited degree (NASPAA) designed to prepare students pursuing careers in local, state and federal government organizations to be ethical and effective leaders in the spirit of St. Vincent de Paul. The combined degree program option is intended for selected students for whom the master’s degree is the preferred preparation for their career goals, or is viewed as additional preparation before pursuing a doctoral or law degree. The combined Bachelors/MPA program shortens the time to completion of the bachelor’s and master’s degrees by and costs less in tuition than pursuing the two degrees sequentially.

Combined program students take three MPA courses during their senior year, typically one per quarter, which double-count for both the bachelor’s and the master’s degrees. Placement of the successfully completed MPA courses either as open electives or as major field electives resides with the College hosting the specific Bachelor’s degree program. After the bachelor’s degree is awarded the three courses are credited toward the requirements of the MPA degree program as well.

Participants in the combined MPA program pay the current tuition rate applicable to their undergraduate program for any courses counted toward the requirements of both their bachelor’s and master’s degree programs. Participants will be eligible for the current Double Demon Discount for the remainder of their graduate coursework.

Through the combined Bachelors/MPA program, the student is responsible for working with both their undergraduate advisor to manage their undergraduate degree progress and the SPS academic advisor (SPSAdvising@depaul.edu) to plan a graduate program of study that includes the MPA courses as open electives or major field electives. Undergraduates are advised to meet a faculty member once per quarter during their senior year as an undergraduate to ensure that they are on track to graduate and transition into the master’s program. They also must maintain at least a 3.0 GPA in their graduate-level courses in order to matriculate into the graduate program.

Click on DEGREE REQUIREMENTS (p. 931) for descriptions of the required MPA coursework.

Public Administration (MPA) Online
The Master of Public Administration (MPA) at DePaul University prepares students interested in public administration to serve the common good and advance a just society, in the spirit of St. Vincent de Paul. The MPA is designed for current government professionals or individuals seeking to pursue a career in the public sector. The degree equips students with a broad public administration knowledge in government—local, state, federal and international.

The MPA program offers six on-site concentrations: public management; emergency management; health care administration; international public management; standard; and metropolitan planning and urban affairs. Four of these concentrations can be completed in the online only MPA: public management; emergency management; standard; and metropolitan planning and urban affairs.

This degree is accredited by Network of Schools of Public Policy, Affairs and Administration (NASPAA).
Mission Statement

The Master in Public Administration (MPA) degree prepares students for leadership and administrative roles in the public sector. We educate students on the technical, managerial, informational, and leadership skills required to deliver effective, accountable, and equitable government services to the public. We promote compassion for marginalized communities and ethical service to all people with a focus on social justice, professionalism, cultural sensitivity, and transparency.

Degree Requirements

Students complete a total of 13 courses (52 credit hours). Nine courses (36 credit hours) of core course work and four courses (16 credit hours) in a concentration are required.

Internship Capstone Option

Students may choose to replace MPS 593 with MPS 610 Internship Capstone option.

Concentration

Students in the MPA program are required to choose one of six concentrations: Emergency Management, Metropolitan Planning and Urban Affairs, International Public Management, Health Care Administration, Public Management and Standard. Four of these concentrations are available to students pursuing the online only MPA: Metropolitan Planning and Urban Affairs, International Public Management, Standard, and Public Management concentrations.

Internship Option

Students can opt to complete an internship or professional development experience in a government setting. The student would enroll in MPS 601 for course credit, which will be applied to the MPA degree by the student’s adviser. Contact SPSAdvising@depaul.edu (spsadvising@depaul.edu) for more details.

Concentration Requirements

Emergency Management Concentration

Emergency Management is a critical concern for the public, private and non-profit sectors. The concentration explores both the conceptual elements of emergency preparedness and the practical implementation of emergency management that typically occur at the intersection of local and national politics. Courses will address topics such as public safety and law enforcement, crisis management, disaster response and recovery. This concentration will provide students with both theoretical and practical knowledge that will prepare them for private or public sector employment in the area of emergency preparedness for both security and non-security related incidents.

**Health Care Administration Concentration**

The Health Care Administration concentration provides students with the managerial and analytical skills necessary to understand and influence the processes through which hospitals, associated health care organizations, and public and private agencies provide health care opportunities to explore the roles of specific nonprofit and governmental health care providers and regulatory agencies.

**International Public Management Concentration**

Students intending to work in international organizations require a special understanding of how public and non-profit institutional structures and managerial processes vary around the world. This concentration emphasizes the interdependence of government and non-government organizations (NGOs), while addressing a variety of management, ethics, and policy issues.

**Metropolitan Planning and Urban Affairs Concentration**

This concentration is for students wanting to work in land use, transportation, economic development, zoning, housing, and other areas of community development. Coursework emphasizes the technical skills of public administration and the tools of analyses and development as applied in a broad public setting. Students study best practices to illustrate the effectiveness of alternative designs and models.

### Public Management Concentration

For those who aspire to become city managers, chief administrative officers, department directors, and senior project managers, this concentration focuses on the roles, requirements, challenges, and processes of running a public organization. Students gain the knowledge and skills needed to work successfully with professional staff, an elected governing board, consultants, and the public in the implementation of broad policy decisions. Legal issues of interest to public managers are also included.

### Student Handbook

Students in the School of Public Service will follow many of the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in the School of Public Service. Please see information below.

#### Academic Probation

All students within the School of Public Service must maintain a minimum cumulative GPA of 2.7 or higher as part of their requirements for graduation. As a result, any student who earns a cumulative GPA below 2.7 (B-) is placed on academic probation. Students on academic probation are required to meet with the Assistant Director for Academic Advising to discuss their performance and determine a plan for improvement.

#### Dismissal

Students who are not able to raise their cumulative GPA to a minimum of 2.7 within two academic quarters (after being placed on academic probation) are subject to dismissal from the program.

#### Readmission

If a student is dismissed from the program (as outlined in the dismissal policy), he or she may reapply through the formal admission application process.

#### Graduation Requirements

In order to graduate from the program, students must complete all program requirements with a minimum cumulative GPA of 2.7 or higher. If a student's cumulative GPA is below a 2.7, he or she may be denied graduation.

#### Non-Degree Seeking Students

While School of Public Service courses are open to non-degree seeking graduate students, pre-requisite requirements for certain courses may be enforced.

### Public Health (MPH)

The mission of the Master of Public Health program is to prepare dynamic public health leaders to work collaboratively with diverse communities to prioritize and investigate health concerns to achieve...
lasting social change, and foster health equity to promote the health and well-being of all people.

The Master of Public Health program has two concentrations, community health practice and social epidemiology. The program provides a collaborative, applied approach to education, focusing on health promotion and disease prevention with individuals, families, communities, and organizations. The objective of the program is to provide students with the professional knowledge and practical skills they will need to identify and address community health needs as a working public health practitioner.

### MPH in Community Health Practice

The community health practice concentration prepares students to be leaders, innovators, and advocates in addressing community health problems and reducing health disparities. This concentration applies an interdisciplinary approach to problem solving and focuses on skill development around community health assessment, program design, and program evaluation. Students learn to appraise community health needs and design, implement, and evaluate interventions to address those needs. The objective is to provide students with the professional knowledge and practical skills to become effective public health leaders.

### MPH in Social Epidemiology

The social epidemiology concentration prepares students to be public health leaders that use the methodological approaches of biostatistics and epidemiology to investigate and reduce health inequalities. This concentration focuses on social determinants of health as causes of health disparities and examines the role of concepts such as power and social context. Students learn to use data to inform research, policy, and intervention efforts that lead to effective action aimed at eliminating health inequalities.

### Real-World Experience

During the final year of instruction, students gain practical experience working in the public health field while completing the required practicum. The practicum includes nine months of professional practice and provides students with a structured and integrated application of their coursework. There are a variety of practicum site opportunities available to students that represent a range of settings (e.g. governmental agencies, community-based organizations, health care delivery systems) and public health topics (e.g. sexual/reproductive health, childhood nutrition, refugee and immigrant health). Students choose from an approved list of opportunities and are matched to a practicum site based on their interests and career goals.

During the practicum, students work on a project that address a need or fills a gap at their practicum site. Students receive mentoring and guidance on their project from their site supervisor (public health professional at the practicum site) and faculty advisor. The project serves as the foundation for the capstone thesis, which is developed over a three-course sequence that runs concurrently with the practicum.

The Master of Public Health degree may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MPH/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Master of Public Health + Community Development Certificate
- Master of Public Health + Critical Ethnic Studies Certificate
- Master of Public Health + Global Health Certificate
- Master of Public Health + Health Care Administration
- Master of Public Health + Metro Planning and Development Certificate
- Master of Public Health + Social Research Certificate
- Master of Public Health + Sustainable Urban Food Systems Certificate
- Master of Public Health + Women’s and Gender Studies Certificate

### Learning Outcomes

#### Core MPH Learning Outcomes

All MPH students will be able to:

- Apply epidemiological methods to the breadth of settings and situations in public health practice
- Select quantitative and qualitative data collection methods appropriate for a given public health context
- Analyze quantitative and qualitative data using biostatistics, informatics, computer-based programming, and software, as appropriate
- Interpret results of data analysis for public health research, policy, or practice
- Compare the organization, structure and function of health care, public health, and regulatory systems across national and international settings
- Discuss the means by which structural bias, social inequities, and racism undermine health and create challenges to achieving health equity at organizational, community, and societal levels
- Assess population needs, assets, and capacities that affect communities’ health
- Apply awareness of cultural values and practices to the design or implementation of public health policies or programs
- Design a population-based policy, program, project, or intervention
- Explain basic principles and tools of budget and resource management
- Select methods to evaluate public health programs
- Discuss multiple dimensions of the policy-making process, including the roles of ethics and evidence
- Propose strategies to identify stakeholders and build coalitions and partnerships for influencing public health outcomes
- Advocate for political, social, or economic policies and programs that will improve health in diverse populations
- Evaluate policies for their impact on public health and health equity
- Apply principles of leadership, governance, and management, which include creating a vision, empowering others, fostering collaboration, and guiding decision making
• Apply negotiation and mediation skills to address organizational or community challenges
• Select communication strategies for different audiences and sectors
• Communicate audience-appropriate public health content, both in writing and through oral presentation
• Describe the importance of cultural competence in communicating public health content
• Perform effectively on interprofessional teams
• Apply systems thinking tools to a public health issue

Community Health Practice
Students in the Community Health Practice Concentration will be able to:
• Design components of a research study appropriate for a specific question and in a particular community
• Analyze population needs and assets that affect community health equity
• Develop program priorities, goals, and measurable objectives in response to community needs
• Design a well-constructed evaluation plan
• Develop an effective community health project component that applies theoretical study design and considers priority population, delivery method, and setting

Social Epidemiology
Students in the Social Epidemiology Concentration will be able to:
• Analyze key structural and social determinants of health and the evidence base underlying conceptual thinking about these factors
• Apply modelling strategies most commonly used in social epidemiology (OLS and logistic regression)
• Apply multilevel regression models incorporating area-level social determinants of health and individual level health outcomes
• Translate findings from an empirically-based project into recommendations for a population-based policy or program
• Contextualize results of data analysis for public health research, policy, or practice

Degree Requirements
Students must complete a total of 58 quarter hours consisting of 7 required core courses, 7 required concentration specific courses, and two elective courses.

All MPH courses are offered during the evening. The program uses a cohort-based model in that students are admitted once per academic year and move through courses together as a single group. Students can complete their degree in two, three, or four years. Students complete the practicum field experience and capstone course sequence in their last year.

Course Requirements

Required Core Courses (7 Courses, 22 Credit Hours)

<td>4</td>
</tr>
</tbody>
</table>

Concentration Courses (7 Courses, 28 Credit Hours)

The list of courses required for each concentration can be found under “Concentration Requirements.”

Elective Courses (2 Courses, 8 Credit Hours)

Two elective courses, comprising eight credit hours, are required. Students are encouraged to select elective courses that align with their public health interests and career objectives. In addition to the MPH elective courses listed below, students should consider other graduate-level courses at DePaul. A student who chooses to take a course outside of MPH for elective credit must produce a brief rationale for the choice, discussing its relevance to the field of public health and the student’s course of study. Students must receive approval from the Program Director before enrolling in elective courses outside the MPH program.

</tr>
</tbody>
</table>

Practicum Requirements

Students complete their practicum field experience during their last year in the program. Students are required to commit to 8-10 hours per week to their practicum site, for a minimum of 250 hours over the course of the nine-month placement. Students are required to be physically onsite at the agency for the majority of these hours providing students with a structured and integrated application of their coursework.

Capstone Thesis

During the practicum, students work on a project that address a need or fills a gap at their practicum site. The project serves as the foundation for the capstone thesis, which is developed over a three-course sequence that runs concurrently with the practicum. Students must receive a passing grade on their capstone thesis in order to complete the program and obtain their MPH degree.

Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:

- Community Health Practice Concentration, Public Health (MPH) (p. 941)
- Social Epidemiology Concentration, Public Health (MPH) (p. 942)
**Student Handbook**

**Mission Statement**

The mission of the Master of Public Health program at DePaul University is to prepare public health leaders to work collaboratively with diverse communities to prioritize and investigate health concerns, achieve lasting social change, and foster health equity to promote the health and well-being of all people.

**Admission**

Please see the Admission Requirements on the MPH program webpage (http://las.depaul.edu/academics/public-health/graduate/public-health-mph/Pages/admission-requirements.aspx).

**Advising**

MPH students receive three levels of advising through the Technical Advisor, Practicum Advisor, and Professional Advisor as described below:

- Technical Advisor: The Program Manager serves as the technical advisor to all MPH students. The technical advisor assists students with curriculum planning, selecting electives, navigating the University, and providing overall assistance to ensure success.
- Practicum Advisor: The practicum advisor is the Director of Community Partnerships. MPH students work with the practicum advisor regarding their practicum, capstone product, and capstone poster.
- Professional Advisor: MPH students will be matched with a professional advisor upon entering the program. MPH faculty members will serve as professional advisors and will be able to offer valuable advise on professional development and career planning.

**Degree Timeline**

Upon matriculation, students meet with their technical advisor to create their course plan based on anticipated graduation date (2, 3, or 4 years). Continual assessment of completion date is encouraged, and any changes will be discussed and implemented through the technical advisor. The technical advisor also assists with elective selection and enrollment.

**Credit Hours and Enrollment Requirements**

Students are required to take a total of 56 quarter credit hours to complete the MPH program. Full-time study is at least eight (8) quarter hours plus practicum during the final year. Most courses earn four (4) credit hours each.

In order to take a full course load in the Autumn quarter of any year, students must have no more than one incomplete grade in formal coursework from the previous academic year. For each incomplete over one, the student must reduce his/her course load by one course. The student will have such a reduced course load for each subsequent quarter until no more than one incomplete remains. MPH students with two or more incompletes are prohibited from taking more than one course per quarter until the incompletes are resolved. The University policy, applicable to all MPH students, regarding incompletes states the following: "Undergraduate and graduate students have at most two quarters to complete an incomplete. At the end of the second quarter (excluding summer) following the term in which the incomplete grade was assigned, the incomplete will automatically convert to an F grade."

**Transfer Credit**

We do not accept prior academic credit towards the completion of an MPH degree. All students are required to complete the 56 credit hours at DePaul.

**Leave of Absence**

There is no formal leave of absence process, save for military leaves, for the MPH program. Students can take up to three consecutive quarters off before being discontinued in the system. Students wishing to take some time off must email the MPH Program Director and MPH Program Manager to provide a brief explanation. For students needing to take a military leave, the appropriate form can be found and completed in Campus Connect.

**Withdrawal**

Students who wish to discontinue studies, permanently or for some indefinite period of time, and are in good standing should complete the appropriate process. Withdrawal from or dropping courses may have financial implications. All related information is found here (p. 1558). A student who has withdrawn and subsequently wishes to resume studies must reapply to the program. Readmission is not guaranteed. If a student wishes to gain readmission less than a year from the initial withdrawal date, a readmission form may be completed through the Office of Graduate Admissions. For students wishing to be readmitted more than a year after the initial withdrawal date, a new application for admittance must be submitted through the Office of Graduate Admissions.

**Repeating Required Courses**

A graduate student may need to repeat a course. When a course is repeated, both grades earned are recorded on the academic record. They are designated as “original” and “repeated.” However, only the second grade counts toward that degree requirement, is added to cumulative credit, and is calculated into the degree's cumulative grade point average. If a student wishes to repeat a course more than once, they need permission from their graduate program director. Students who register for a course for the third time without first obtaining permission may be dropped from the course. All repeated course grades are calculated into the cumulative grade point average and only the last course grade applies to that degree requirement. Note: Federal and state financial aid regulations restrict the number of times that a student may receive federal or state financial aid for repeating a course for which credit has been previously earned. The student should contact the Office of Financial Aid at DePaul Central to learn about the financial aid impact if they are considering repeating a course for which they have previously earned credit.

**Academic Probation**

If a student’s cumulative GPA is below 3.0 (on a 4.0 scale) after any academic quarter, the student is placed on probationary status. The student will receive a warning letter stating the specific conditions of probation. Students on probation are required to meet with the Program Director and technical advisor to establish an action plan for addressing the academic probation. Students on probation have one academic quarter to address the specific probation conditions or face dismissal from the program.

**Discipline and Discontinuance**

Violation of university or MPH program regulations and policies can result in disciplinary action ranging from restrictions on registration to termination of the student’s graduate status. Restriction on registration may simply mean that the student is not allowed to register for a full load.
of courses until he/she has resolved the issue. Other forms of disciplinary action can include lowered grades in coursework, or, in extreme cases, recommendation for termination from the program. The action taken is based on stated policies of the university and the MPH program, the magnitude and scope of student behavior, and current/prior evaluations of student performance.

**Academic Integrity**

Due to the serious nature of academic integrity violations, students found to have engaged in such actions jeopardize their status with the MPH program and the university. The MPH program will consider the student’s behavior with regard to the ethical and professional standards of public health and may recommend procedures up to and including permanent dismissal from the program.

**Requirements for Degree Conferral**

In order to be eligible for MPH degree conferral, students must:

- Submit all required paperwork to LAS by the College’s deadlines
- Submit all required paperwork to MPH by the Program’s deadlines
- Successfully complete the required 56 credit hours in 2, 3, or 4 years
- Have a cumulative GPA of 3.0 or higher
- Have a grade of Pass for MPH 600 and MPH 699
- Earn a grade of Pass on the MPH Capstone Thesis
- Present a poster at the MPH Graduate Forum
- Complete a minimum of 250 hours in practicum

**Graduation with Distinction**

In order to graduate with distinction from the MPH program, students must earn both a 3.75 cumulative GPA and a grade of distinction on their capstone thesis.

**Dismissal from the MPH Program**

Dismissal from the program may occur under any of the following circumstances (but is not limited to this list). Additionally, students should note that degree conferral might be delayed under any of these conditions.

- Fails to meet what the program, the college, or the university deems to be satisfactory progress toward a graduate degree
- Violates the university standards as specified by the program and college, including academic integrity policies
- Fails to address conditions for academic probation within one academic quarter
- Fails to resolve an incomplete grade (IN, R) in any course for more than two quarters
- Fails to complete MPH requirements for degree conferral as listed above

Students subject to disciplinary action by the MPH program are also subject to the university procedures as described in the Graduate Academic Policies.

**MPH Grievance Policy**

The MPH program realizes that students may have concerns throughout their academic career that will require the intervention of the university, or that will require a university response. The university has a number of established policies and procedures for responding to specific concerns. The MPH program further acknowledges that students may have concerns not addressed by university policies, which may require further attention. These include concerns about coursework or working relationships with faculty and/or other students.

Students are always encouraged to try and address concerns through direct communication with involved parties. However, there may be time where such attempts at resolution are not successful, or where the assistance of another party may be helpful. In these instances, the MPH program and university have several resources available to students. If requested, all inquiries will be treated confidentially to the extent possible.

**Community Health Practice Concentration, Public Health (MPH)**

The community health practice concentration prepares students to be leaders, innovators, and advocates in addressing community health problems and reducing health disparities. This concentration applies an interdisciplinary approach to problem solving and focuses on skill development around community health assessment, program design, and program evaluation. Students learn to appraise community health needs and design, implement, and evaluate interventions to address those needs. The objective is to provide students with the professional knowledge and practical skills to become effective public health leaders.

**Public Health (MPH), Combined Bachelor's + Master's Degree**

**DePaul Undergraduate Degree + Public Health (MPH)**

Students completing any undergraduate degree at DePaul are eligible to apply for the bachelor’s + Master of Public Health in their Junior year if they meet the following criteria:

- They have achieved Junior status;
- They have completed at least 88.0 credit hours of their undergraduate degree;
- They have a GPA of 3.5 or higher.

If accepted to the bachelor’s + Master of Public Health, in their senior year, the student will take the following courses:

<table>

MPH 511 HEALTH AND BEHAVIOR THEORY 4

Spring Quarter
Select one of the following: 4
MPH 522 PROGRAM DEVELOPMENT AND GRANT WRITING (Community Health Practice Concentration)
MPH 530 SOCIAL EPIDEMIOLOGY (Social Epidemiology Concentration)

These three courses will serve as electives in an undergraduate program, unless the student’s undergraduate advisor makes an exception and allows them to apply to a declared major or minor.

The combined degree program allows three graduate-level courses (12 credit hours) to count towards both the undergraduate degree and the graduate degree. The student will be awarded their Bachelor’s degree upon the completion of their undergraduate degree requirements. The Master of Public Health degree will be awarded upon completion of the graduate degree requirements.

For more information, please visit the Master of Public Health program website (https://las.depaul.edu/academics/public-health/Pages/default.aspx).

Social Epidemiology Concentration, Public Health (MPH)

The social epidemiology concentration prepares students to be public health leaders that use the methodological approaches of biostatistics and epidemiology to investigate and reduce health inequalities. This concentration focuses on social determinants of health as causes of health disparities and examines the role of concepts such as power and social context. Students learn to use data to inform research, policy, and intervention efforts that lead to effective action aimed at eliminating health inequalities.

Public Health (MPH/MBA in Management)

Program Description
The Master of Business Administration-Master of Public Health (MBA-MPH) joint degree develops students’ managerial acumen and their expertise as public health professionals.

Jointly offered by the Kellstadt Graduate School of Business and the College of Liberal Arts and Social Sciences, the 88 credit hour program provides students with the opportunity to earn advanced degrees in two highly complementary fields—business and public health. The landscape for healthcare managers is radically changing with advances in technology, shifts in demographics, and the aging of the population. Success in this highly competitive field not only requires skills in finance and operations, but also an in-depth understanding of disease prevention and health promotion at the organizational and community level. The combined degree program is designed for committed and enterprising students who want to take advantage of the growing emphasis on public health and population health in the design and delivery of healthcare.

The MBA-MPH program allows students to obtain both degrees in as little as three years of full-time course work. This rigorous program is designed for highly motivated students who work or plan to work in management, executive, or consulting positions in community/population health.

Concentrations
Management
This MBA concentration provides students with in-depth, applied learning that will enable them to successfully organize, lead, and direct others in the workplace. The program prepares students for professional opportunities across industries, with a focus on self-awareness, leadership development, teamwork, project management, and managing others.

Community Health Practice
This MPH concentration prepares students to be leaders, innovators, and advocates in addressing community health problems and reducing health disparities. The concentration applies an interdisciplinary approach to problem solving and focuses on skill development around community health assessment, program design, and program evaluation. Students learn to appraise community health needs and design, implement, and evaluate interventions to address those needs.

Learning Outcomes

Core MPH Learning Outcomes
All MPH students will be able to:

- Apply epidemiological methods to the breadth of settings and situations in public health practice
- Select quantitative and qualitative data collection methods appropriate for a given public health context
• Analyze quantitative and qualitative data using biostatistics, informatics, computer-based programming, and software, as appropriate
• Interpret results of data analysis for public health research, policy, or practice
• Compare the organization, structure and function of health care, public health, and regulatory systems across national and international settings
• Discuss the means by which structural bias, social inequities, and racism undermine health and create challenges to achieving health equity at organizational, community, and societal levels
• Assess population needs, assets and capacities that affect communities’ health
• Apply awareness of cultural values and practices to the design or implementation of public health policies or programs
• Select methods to evaluate public health programs
• Discuss multiple dimensions of the policy-making process, including the roles of ethics and evidence
• Propose strategies to identify stakeholders and build coalitions and partnerships for influencing public health outcomes
• Advocate for political, social or economic policies and programs that will improve health in diverse populations
• Evaluate policies for their impact on public health and health equity
• Apply principles of leadership, governance, and management, which include creating a vision, empowering others, fostering collaboration, and guiding decision making
• Apply negotiation and mediation skills to address organizational or community challenges
• Select communication strategies for different audiences and sectors
• Communicate audience-appropriate public health content, both in writing and through oral presentation
• Describe the importance of cultural competence in communicating public health content
• Perform effectively on interprofessional teams
• Apply systems thinking tools to a public health issue

Community Health Practice
Students in the Community Health Practice Concentration will be able to:

• Access, evaluate, and utilize existing data to develop a community health assessment
• Integrate existing data and collected primary data to create an organizational assessment
• Critically assess and synthesize evidence-based public health research for addressing a health-related issue
• Develop an effective community health project that applies theoretical study design and considers priority population, delivery method, and setting
• Analyze and describe the outcomes/results of the community health project, as well as the implications of such outcomes/results
• Present capstone findings in a scientific poster format suitable for presentation at a professional conference

Culminating Experience Requirements
In addition to successfully completing coursework, students also must complete a practicum experience that culminates in the writing of a capstone thesis. Students complete their practicum field experience during their last year in the program. Students are required to commit to 8-10 hours per week to their practicum site, for a minimum of 250 hours over the course of the nine-month placement. It is required to be physically onsite at the agency for the majority of these hours.

PSC 120 is recommended, in addition to the above courses, for students who lack a background in American politics.

Students majoring in Political Science (BA) or minoring in American Politics or International Politics are restricted from earning this minor.

Public Policy (BA)

The BA in Public Policy prepares students interested in public policy to serve the common good and advance a just society, in the spirit of St. Vincent de Paul. Public policy is a discipline that explores the role and impact of decision-making by governments. The discipline includes
knowledge of both process and substance of a particular policy area. Thus, a student in public policy must have both generalist and specialist skills to apply to a particular public problem. In terms of political process, the study of public policy examines questions of how public policy is formulated, implemented, and evaluated over time. It also explores notions of agenda-setting and framing of issues that lead to a problem gaining the attention of the government. Public policy specialists and analysts are hired by all levels of government. During the past several years in addition to the government sector, the nonprofit and private sectors have sought public policy analysts for employment. Therefore, the curriculum prepares students for being public policy specialists in both the private and nonprofit sectors in addition to the public sector. The curriculum is tailored to prepare students who would like to continue their education in graduate programs or law schools. The program offers opportunities to students to pursue internships, conduct research, and participate Global Learning Experiences (GLE).

In the Public Policy (BA) students take a common core of courses dealing with public policy theories, processes, methods of public policy analysis, and important environmental and urban policy issues. In addition, a data analysis course is required that the student selects from a list of approved courses. Microeconomics, statistics, or Geographical Information Systems (GIS) is strongly encouraged. The senior capstone course brings together Public Policy students at the end of their curriculum to study a public policy problem in-depth under the direction of a public policy professor.

Mission Statement
The Public Policy degree (BA) educates undergraduate students on the decisions and non-decisions made by government organizations and the ways in which businesses, nonprofit organizations, and civil society participate in policy making. The focus is on understanding how policy is designed, formulated, implemented and evaluated as part of the policy process. Being aware of public problems, policy agenda-setting, and decision making provides students with a broad background that will allow them to succeed in the workplace, graduate school, or law school. We promote compassion for marginalized communities and service to all people with integrity, accountability, justice, professionalism, sensitivity, and transparency.

</tbody>
</table>

Learning Outcomes

Students will be able to:

- Evaluate different approaches to public policy studies in terms of theoretical and practical applications
- Evaluate the institutional and structural elements of public policy making and implementation.
- Apply critical thinking concepts of public policy analysis which includes understanding of research design and methods, interpretation and communication of results, and research ethics.
- Apply knowledge of a special topic related to public policy to demonstrate mastery of the subject matter.

College Core Requirements

Study in the Major Field
The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized "concentration." The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration
All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)
All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in

Autumn 2021-2022 945
high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

The Modern Language Option (MLO)
The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency
A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

| Capstone | Select one of the following: |
| PPS 393 | CAPSTONE: GENTRIFICATION 1 | 4 |
| PPS 394 | CAPSTONE: GREEN INFRASTRUCTURE 1,3 | 4 |

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning and Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.
3 A student majoring in Public Policy Studies (PPS) is required to complete the Capstone offered by the PPS Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. A PPS major in the University Honors Program shall take the University Honors Capstone and the PPS Capstone.

Learning Domains

| Arts and Literature (AL) (p. 1300) | 3 Courses Required |
| Historical Inquiry (HI) (p. 1304) | 2 Courses Required |
| Math and Computing (MC) (p. 1306) | 1 Course Required |
| Philosophical Inquiry (PI) (p. 1307) | 2 Courses Required |
| Religious Dimensions (RD) (p. 1308) | 2 Courses Required |
| Scientific Inquiry (SI) (p. 1310) | 2 Courses Required |
| Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312) | 1 Course Required |

Notes
Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses
may double count for both LSP credit and the second major. Students
who choose to take an experiential learning course offered by the major
may count it either as a general elective or the Experiential Learning
requirement.

In meeting learning domain requirements, no more than one course that
is outside the student’s major and is cross-listed with a course within
the student’s major, can be applied to count for LSP domain credit.
This policy does not apply to those who are pursuing a double major or
earning BFA or BM degrees.

Open Electives
Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Public Policy 3+3 (BA+JD)

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 by the end of their second year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law.

They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These courses can be found in the Core Required Courses on the Law JD program page (p. 677).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law’s median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Public Policy (MPP)

The Masters in Public Policy (MPP) prepares students interested in public policy to serve the common good and advance a just society, in the spirit of St. Vincent de Paul. The MPP degree develops effective leaders in nonprofit and government professions. Students will develop public policy and leadership skills through the School of Public Service curriculum, which stresses ethics, problem-solving and research skills, and the ability to implement public policy.

This degree is accredited by the Network of Schools of Public Policy, Affairs, and Administration (NASPAA).

Mission Statement

The Master in Public Policy degree prepares students to conduct public policy analysis with an emphasis on analytic skill building, community advocacy, and ethical leadership development. We promote compassion for marginalized communities and service to all with sensitivity, professionalism, accountability, transparency, and justice.

<table>
<thead>

<td>52</td>
</tr>
</tbody>
</table>

The MPP may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MPP/certificate program should consult with their academic advisor (SPSAdvising@depaul.edu (spsadvising@depaul.edu))
to determine what coursework might count toward both programs. A separate application process for the certificate may be required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office (https://las.depaul.edu/about/administration-staff/Pages/graduate-student-office.aspx) for additional information.

• Masters in Public Policy + Community Development Certificate
• Masters in Public Policy + Critical Ethnic Studies Certificate
• Masters in Public Policy + Emergency Management Administration Certificate
• Masters in Public Policy + Geographic Information Systems Certificate
• Masters in Public Policy + Global Health Certificate
• Masters in Public Policy + Health Care Administration Certificate
• Masters in Public Policy + Metropolitan Planning and Development Certificate
• Masters in Public Policy + Social Research Certificate
• Masters in Public Policy + Strategic Writing and Advancement for Nonprofits Certificate
• Masters in Public Policy + Sustainable Urban Food Systems Certificate
• Masters in Public Policy + Translation and Interpreting Certificate
• Masters in Public Policy + Women’s and Gender Studies Certificate

Learning Outcomes

Students will be able to:

• Evaluate different approaches to public policy studies in terms of theoretical and practical applications
• Evaluate the institutional and structural elements of public policy making and implementation.
• Apply critical thinking concepts of public policy analysis which includes understanding of research design and methods, interpretation and communication of results, and research ethics.
• Apply knowledge of a special topic related to public policy to demonstrate mastery of the subject matter.

Degree Requirements

Course Requirements

Students complete a total of 13 courses (52 credit hours). Ten courses (40 credit hours) of core coursework and three courses (12 credit hours) of electives are required.

Student Handbook

Students in the School of Public Service will follow many of the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in the School of Public Service. Please see information below.

Academic Probation

All students within the School of Public Service must maintain a minimum cumulative GPA of 2.7 or higher as part of their requirements for graduation. As a result, any student who earns a cumulative GPA below 2.7 (B-) is placed on academic probation. Students on academic probation are required to meet with the Assistant Director for Academic
Advising (SPSAdvising@depaul.edu (spsadvising@depaul.edu)) to discuss their performance and determine a plan for improvement.

Dismissal
Students who are not able to raise their cumulative GPA to a minimum of 2.7 within two academic quarters (after being placed on academic probation) are subject to dismissal from the program.

Readmission
If a student is dismissed from the program (as outlined in the dismissal policy), he or she may reapply through the formal admission application process.

Graduation Requirements
In order to graduate from the program, students must complete all program requirements with a minimum cumulative GPA of 2.7 or higher. If a student’s cumulative GPA is below a 2.7, he or she may be denied graduation.

Non-Degree Seeking Students
While School of Public Service courses are open to non-degree seeking graduate students, pre-requisite requirements for certain courses may be enforced.

Public Policy (MPP), Combined Bachelor’s + Master’s Degree
The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Public Policy (MPP)
The Masters in Public Policy (MPP) prepares students interested in public policy to serve the common good and advance a just society, in the spirit of St. Vincent de Paul. The MPP degree develops effective leaders in nonprofit and government professions. Students will develop public policy and leadership skills through the School of Public Service curriculum, which stresses ethics, problem-solving and research skills, and the ability to implement public policy.

The combined degree program option is intended for selected students for whom the master’s degree is the preferred preparation for their career goals, or is viewed as additional preparation before pursuing a doctoral or law degree. The combined Bachelors/MPP program shortens the time to completion of the bachelor’s and master’s degrees by and costs less in tuition than pursuing the two degrees sequentially.

Combined program students take three MPP courses during their senior year, typically one per quarter, which double-count for both the bachelor’s and the master’s degrees. Placement of the successfully completed MPP courses either as open electives or as major field electives resides with the College hosting the specific Bachelor’s degree program. After the bachelor’s degree is awarded the three courses are credited toward the requirements of the MPP degree program as well.

Participants in the combined MPP program pay the current tuition rate applicable to their undergraduate program for any courses counted toward the requirements of both their bachelor’s and master’s degree programs. Participants will be eligible for the current Double Demon Discount for the remainder of their graduate coursework.

Through the combined Bachelors/MPP program, the student is responsible for working with both their undergraduate advisor to manage their undergraduate degree progress, while also working with the SPS academic advisor (SPSAdvising@depaul.edu (spsadvising@depaul.edu)) to plan a graduate program of study that includes the MPP courses as open electives or major field electives. Undergraduates are advised to meet a faculty member once per quarter during their senior year as an undergraduate to ensure that they are on track to graduate and transition into the master’s program. They also must maintain at least a 3.0 GPA in their graduate-level courses in order to matriculate into the graduate program.

Click on DEGREE REQUIREMENTS (p. 949) for descriptions of the required MPP coursework.

Public Policy (MPP) Online
The Masters in Public Policy (MPP) prepares students interested in public policy to serve the common good and advance a just society, in the spirit of St. Vincent de Paul. The MPP degree develops effective leaders in nonprofit and government professions. Students will develop public policy and leadership skills through the School of Public Service curriculum, which stresses ethics, problem-solving and research skills, and the ability to implement public policy.

This degree is accredited by the Network of Schools of Public Policy, Affairs, and Administration (NASPAA).

Mission Statement
The Master in Public Policy degree prepares students to conduct public policy analysis with an emphasis on analytic skill building, community advocacy, and ethical leadership development. We promote compassion for marginalized communities and service to all with sensitivity, professionalism, accountability, transparency, and justice.

Student Handbook
Students in the School of Public Service will follow many of the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in the School of Public Service. Please see information below.

Academic Probation
All students within the School of Public Service must maintain a minimum cumulative GPA of 2.7 or higher as part of their requirements for graduation. As a result, any student who earns a cumulative GPA below 2.7 (B-) is placed on academic probation. Students on academic probation are required to meet with the Assistant Director for Academic Advising (SPSAdvising@depaul.edu (spsadvising@depaul.edu)) to discuss their performance and determine a plan for improvement.

Dismissal
Students who are not able to raise their cumulative GPA to a minimum of 2.7 within two academic quarters (after being placed on academic probation) are subject to dismissal from the program.
Readmission
If a student is dismissed from the program (as outlined in the dismissal policy), he or she may reapply through the formal admission application process.

Graduation Requirements
In order to graduate from the program, students must complete all program requirements with a minimum cumulative GPA of 2.7 or higher. If a student’s cumulative GPA is below a 2.7, he or she may be denied graduation.

Non-Degree Seeking Students
While School of Public Service courses are open to non-degree seeking graduate students, pre-requisite requirements for certain courses may be enforced.

Public Policy Studies (Minor)
The Public Policy Studies minor is designed to help you learn the foundations of basic policy theory and research methods, as well as how to develop and analyze public policies and understand how they integrate with your major course of study. Contact PPSAdvising@depaul.edu (ppsadvising@depaul.edu) for more information.

Course Requirements

</tbody>
</table>

Students majoring in Public Policy (BA) are restricted from earning this minor.

Public Relations and Advertising (BA)
The College of Communication offers a variety of courses leading to a Bachelor of Arts degree in Public Relations and Advertising. The program examines theories and practices in the related fields of public relations and advertising, and considers advertising and public relations processes, products and effects from cultural, ethical, organizational, historical, creative and methodological perspectives. Students in Public Relations and Advertising studies learn to think critically and analytically, to develop ideas clearly, and to speak and write effectively. Within the broad context of human communication and the liberal arts, students explore the relationship of public relations and advertising activities to other aspects of human endeavor. Graduates are prepared for entry-level positions within the public and private sectors, or for continuing their education in academic or professional graduate programs.

</tr>
<tr>
<td>Total hours required</td>
<td>192</td>
</tr>
</tbody>
</table>

Learning Outcomes
Students will be able to:

- Identify, explain and apply conceptual and historical foundations of public communication disciplines as they relate to information and persuasion theories, concepts and models.
- Demonstrate facility with writing, speaking and production of media materials to inform, persuade, build relationships, and problem solve.
- Develop and demonstrate strategic plans and planning methods, as well as critical thinking skills.
- Construct and analyze audience research by applying measurement, environmental scanning, and evaluation techniques to products, projects, and programs.
- Classify and analyze the elements of ethical decision making to hypothetical and real world settings.

College Core Requirements (p. 952)
Modern Language Requirement (p. 952)
Modern Language Option (p. 953)
All majors in the College of Communication consist of a four-course common core plus an additional combination of program requirements and electives.

College Core Requirements
Four core courses are required of all College of Communication students:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CMN 101</td>
<td>Introduction to Human Communication</td>
<td>4</td>
</tr>
<tr>
<td>CMN 102</td>
<td>Introduction to Mass Communication</td>
<td>4</td>
</tr>
<tr>
<td>CMN 103</td>
<td>Intercultural Communication</td>
<td>4</td>
</tr>
<tr>
<td>CMN 104</td>
<td>Public Speaking</td>
<td>4</td>
</tr>
</tbody>
</table>

Students are encouraged to complete all four prior to taking additional coursework in the major.

Modern Language Requirement
Students who intend to graduate with a Bachelor of Arts degree in the College of Communication will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing the last course in a second year high school course work in a modern language or Latin
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language (must be completed during high school)
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination.
Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement. Students with some modern language training should consult with the Modern Language Department about the course with which they should begin. Students with little or no previous work in the language will be required to complete the entire three-course introductory sequence.

**Modern Language Option**

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level necessary to meet the College’s modern language requirement. Students selecting the option may substitute a three-course language sequence for three learning domain courses, or two upper-level courses in the same language for two learning domain requirements. Modern language option waivers cannot be applied to courses in the Math and Computing Domain or courses in the Scientific Inquiry domain. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

---

1. Students must earn a C- or better in this course.
2. Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

**Learning Domains**

- **Arts and Literature (AL)** (p. 1300)
  - 2 Courses Required
- **Historical Inquiry (HI)** (p. 1304)
  - 2 Courses Required
- **Math and Computing (MC)** (p. 1306)
  - 2 Courses Required
    - [1 CR Course and 1 SR Course]
- **Philosophical Inquiry (PI)** (p. 1307)
  - 2 Courses Required
- **Religious Dimensions (RD)** (p. 1308)
  - 2 Courses Required
- **Scientific Inquiry (SI)** (p. 1310)
  - 2 Courses Required
    - [1 Lab Course and 1 SWK Course]
- **Social, Cultural, and Behavioral Inquiry (SCBI)** (p. 1312)
  - 2 Courses Required

**Note**

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Major Requirements**

**Course Requirements**

In addition to the four core College of Communication courses, students take seven required classes, three Public Relations and Advertising electives, and two additional electives from the College of Communication. All Public Relations and Advertising majors must complete a total of 16 classes (64 credit hours).

Select three of the following: 12

1 Students may take up to 4 hours of credit in this course toward graduation requirements.
2 A maximum of 8 credits from two credit College of Communication courses can be applied to major requirements.

**Internship Credit**

Students in the major may take CMN 394 and/or CMN 395 (when work relates to the major). In order to take CMN 394 or CMN 395, students must have completed two of the four communication core classes (CMN 101, CMN 102, CMN 103, CMN 104), two courses in the chosen major and have fulfilled internship program eligibility requirements.

**Open Electives**

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

**Public Relations and Advertising 3+3 (BA+JD)**

In the 3 + 3 BA/JD Program, high-achieving first-year incoming undergraduate students are admitted simultaneously to the College of Communication and the College of Law. Students complete their first three years in the College of Communication and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA/JD students meet regularly with advisors in both colleges and have access to a variety of resources to ensure their success.
Key Program Features
• Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
• Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
• Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
• Students receive early (conditional) admission to the College of Law.
• Credits earned in the first year of law school apply toward the BA degree.
• Students may opt out of the College of Law segment of the program and continue in the College of Communication during their fourth year.
• If students withdraw after the first semester in the College of Law, they return to the College of Communication for the winter quarter.

Program Requirements
In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study. Students who enrolled in the BA+JD program prior to 2022 must achieve a cumulative GPA of 3.35 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

• PRELAW 150 THE PRACTICE OF LAW
• PRELAW 151 RECENT CONTROVERSIES IN THE LAW
• PRELAW 152 THINKING ABOUT THE LAW

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 677).

Financial Aid
BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law’s median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Participating Majors
The BA/JD Program is available for students pursuing the following majors:

• Communication and Media (p. 236)
• Communication and Technology (p. 245)
• Communication Studies (p. 248)
• Journalism (p. 661)
• Media and Cinema Studies (p. 784)
• Organizational Communication (p. 861)
• Public Relations and Advertising (p. 952)
• Sports Communication (p. 1100)

For admission requirements and information, contact the Office of Admission (https://www.depaul.edu/admission-and-aid/Pages/default.aspx).

Public Relations and Advertising (MA)
The MA in Public Relations and Advertising equips students with the expertise and skills necessary to strategically manage an organization’s communication with its publics. The Public Relations component stresses counseling and relationship management, while Advertising combines the management and creative aspects of persuasive communication.

The development, implementation and evaluation of research-based programs and campaigns are emphasized throughout the curriculum. Students who complete this course of study gain an understanding of the key principles and theories of public relations and advertising and an appreciation for the ethical requirements of responsible practice in these media-related fields.

The program offers skills-based training in such areas as speechwriting, media relations, crisis management and creative strategies. Most graduates of this program are industry-bound for successful careers in business, government, non-profit organizations and/or associations.

</tr>
</tbody>
</table>

Learning Outcomes
Students will be able to:

• Identify, explain and apply conceptual and historical foundations of public communication disciplines as they relate to informational, relational, and persuasion theories, concepts and models.

• Construct and analyze audience research by applying measurement, environmental scanning, and evaluation techniques to products, projects, and programs.
• Classify and analyze the elements of ethical decision making to hypothetical and real world settings, as well as articulate the ethical, legal and social responsibilities of public communications professionals.

• Develop and demonstrate strategic plans and planning methods, issues management techniques, and message development practices in a variety of settings and applications.

• Demonstrate facility with writing, speaking and production of media materials to inform, persuade, build relationships, and problem solve.

Degree Requirements

Course Requirements

The Master of Arts in Public Relations and Advertising (PRAD) requires 12 courses (48-credit hours).

</tbody>
</table>

Students in the Master of Arts in Public Relations and Advertising program complete their degree requirements by submitting a comprehensive portfolio. Students present their portfolios and network with industry professionals at the annual Portfolio Showcase.

Master’s Thesis

Students who attain a 3.7 GPA or higher and obtain prior approval from the graduate program director have the option to complete a thesis instead of the portfolio. Approved students completing a thesis need to start the process at least 9-12 months prior to graduation and will enroll in PRAD 599 as their final course in the quarter they defend their thesis.

Optional Latino Media & Communication Concentration

The graduate concentration in Latino Media & Communication is comprised of at least three graduate courses drawn from the areas of advertising, journalism, media and cinema studies, multicultural communication, organizational communication and public relations. Graduate students in any of the College of Communication Master of Arts programs can elect to complete the Latino Media & Communication

1 With approval of the graduate program director, students can take up to two relevant elective courses from other College of Communication graduate programs or relevant elective courses from other graduate departments/programs outside of the College of Communication.
concentration. Students may need to use outside electives to complete this concentration.

Students who complete the concentration will:

- Develop an understanding of the heterogeneous and rapidly changing Latino communities locally, nationally and globally
- Ground their knowledge of intercultural studies within a more extensive and concrete knowledge of a particular (even though diverse), rapidly growing, and increasingly important population within the U.S.
- Increase their cross-cultural competence (understanding and ability to dialogue across difference, develop cultural sensitivity and awareness) with Latino communities
- Enhance their capacity to communicate with and learn from Latino populations in the workplace, in community situations and other sites of engagement
- Recognize the impact of the movement of Latinos across the globe and develop the skills to critically consume and produce media, public relations and advertisement representations that communicate to and about Latino communities
- Develop field-specific knowledge of Latino media and communication along with an understanding of how Latino studies shapes other fields of communication

Courses

Students are required to take three courses (12 credits) from the following list:

<table>
<thead>
<tr>
<th>Course</th>

</tr>
</tbody>
</table>

¹ Topic must be related to Latino Media and Communication.

Grade Requirements

All students are required to maintain a cumulative GPA of 3.000 in their coursework. If a student's cumulative GPA falls below 3.000, the student will be allowed to complete an additional 16 credits or 3 quarters (whichever comes first) to attain the 3.000 minimum GPA. If the cumulative GPA remains below a 3.000 at the conclusion of this time period, the student may be dismissed from the program. The student's cumulative and term GPAs along with overall academic performance will be factored into the dismissal decision.

Public Relations and Advertising (MA), Combined Bachelor's + Master's Degree

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Public Relations and Advertising (MA)

The Public Relations and Advertising combined degree program is open to all undergraduate majors across the university. Students who are interested in this program must apply to the Graduate Admission Office in their junior year, and if accepted, can take up to three graduate courses (12 credits) in their senior year. These three courses count towards both the bachelor's program and the Master of Arts degree. Students will pay the current undergraduate tuition rate for these three courses. Once students earn their Bachelor of Arts or Bachelor of Science degree from DePaul, they matriculate as a graduate student and complete the remaining required courses for their Master of Arts degree. Students should work with their undergraduate advisor to see how the graduate classes will fulfill undergraduate degree requirements. Students must maintain a 3.0 GPA (B or better) in each graduate class taken in the senior year in order to continue in the program.

Double Demon Scholarship

Alumni from any of DePaul’s colleges who are admitted into a graduate degree program in the College of Communication automatically qualify for the Double Demon Scholarship. Combined degree program students are eligible.

This scholarship covers 25% of the tuition for a master's degree in the College of Communication. Both full-time and part-time students
are eligible. No scholarship application is required. (DePaul University
employees are eligible for other employee tuition benefits through
the university, and therefore are not eligible for the Double Demon
Scholarship.

Public Relations and Advertising
(Minor)

Students pursuing a Public Relations and Advertising minor develop an
understanding of public relations and advertising theories and practices.
Additionally, students learn to consider public relations and advertising
processes, products and effects from multiple perspectives, while
strengthening critical thinking, writing, and speaking skills.

Course Requirements
A minor in Public Relations and Advertising requires students to
complete a total of 24 credit hours (six courses). To complete the minor,
students must take:

<table>
<thead>

Students majoring in Public Relations and Advertising are restricted from
earning this minor.

Public Service Management (MS)

The Master of Science in Public Service Management at DePaul
University prepares students interested in public service management
to serve the common good and advance a just society, in the spirit of St.
Vincent de Paul. The MS in Public Service Management offers students
a broad-based education with which they can pursue careers in fund
raising and philanthropy, health care administration, higher education
administration, metropolitan planning and urban affairs, nonprofit
administration and public policy.

The degree offers five on-site concentrations: health care administration,
higher education administration, metropolitan planning and urban affairs,
emergency management, and standard. Three concentrations of this
degree can be completed entirely online as well as on-site: metropolitan
planning and urban affairs, emergency management, and standard.

This degree is accredited by the Network of Schools of Public Policy,
Affairs, and Administration (NASPAA).

Mission Statement
The MS in Public Service Management degree educates students to work
in public, private, and nonprofit organizations. Through our cross-sectoral
approach to learning, research, and service our students learn to connect
domestic and global issues, alleviate poverty, and build responsive
and responsible service organizations. We promote compassion for
marginalized communities, ethical leadership and service to all people
with integrity, accountability, justice, professionalism, sensitivity, and
transparency.

Program Requirements

</tr>
<tr>
<td>Total hours required</td>
<td></td>
<td>52</td>
</tr>
</tbody>
</table>
The MS in Public Service Management may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MS/certificate program should consult with their academic advisor (SPSAdvising@depaul.edu (spsadvising@depaul.edu)) to determine what coursework might count toward both programs. A separate application process for the certificate may be required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office (https://las.depaul.edu/about/administration-staff/Pages/graduate-student-office.aspx) for additional information.

- Public Service Management + Community Development Certificate
- Public Service Management + Critical Ethnic Studies Certificate
- Public Service Management + Emergency Management Administration Certificate
- Public Service Management + Geographic Information System Certificate
- Public Service Management + Global Health Certificate
- Public Service Management + Health Care Administration Certificate
- Public Service Management + Metropolitan Planning and Development Certificate
- Public Service Management + Social Research Certificate
- Public Service Management + Strategic Writing and Advancement for Nonprofits Certificate
- Public Service Management + Sustainable Urban Food Systems Certificate
- Public Service Management + Translation and Interpreting Certificate
- Public Service Management + Women’s and Gender Studies Certificate

**Learning Outcomes**

Students will be able to:

- Explain relevant public service issues to target audiences in the appropriate written and oral formats.
- Apply an ethical framework in making an organizational decision on a current moral dilemma.
- Determine the interactive roles of business, government, and nonprofit sectors in public welfare.
- Analyze the leadership skills essential to managing public service organizations.
- Demonstrate their research competencies through a multi-step self-assessment process.

**Degree Requirements**

Students complete 13 courses (52 credit hours) for the Master of Science in Public Service Management program. Eight courses (32 credit hours) of core course work and five courses (20 credit hours) of declared concentration work.

### Core Courses

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MPS 500</td>
<td>INTRODUCTION TO PUBLIC SERVICE MANAGEMENT</td>
<td>4</td>
</tr>
<tr>
<td>MPS 501</td>
<td>CROSS-SECTOR ANALYSIS</td>
<td>4</td>
</tr>
<tr>
<td>MPS 522</td>
<td>FUNDAMENTALS OF HUMAN RESOURCE MANAGEMENT</td>
<td>4</td>
</tr>
</tbody>
</table>

**Internship Capstone Option**

Students may choose to replace MPS 593 with MPS 610 Internship Capstone option.

**Concentration Requirements**

Students may choose concentrations in a variety of public service fields. Concentrations are available for students in the Master of Science in Public Service Management degree with specialized interests and careers. The concentrations are: Emergency Management, Health Care Administration, Higher Education Administration, and Metropolitan Planning and Urban Affairs. Students who choose not to pursue a specialized concentration will declare the Standard concentration. Three concentrations of this degree can be completed entirely online as well as on-site: metropolitan planning and urban affairs, emergency management, and standard. See the concentration pages for further course information.

**Internship Option**

Students can opt to complete an internship or professional development experience in a public service setting. The student would enroll in MPS 601 for course credit, which will be applied to the MS degree by the student’s adviser. Contact SPSAdvising@depaul.edu (spsadvising@depaul.edu) for more details.

Concentrations provide focus to the degree. In addition to the degree requirements, students are required to choose one of the following:

- Emergency Management Concentration, Public Service Management (MS) (p. 960)
- Health Care Administration Concentration, Public Service Management (MS) (p. 960)
- Higher Education Administration Concentration, Public Service Management (MS) (p. 961)
- Metropolitan Planning and Urban Affairs Concentration, Public Service Management (MS) (p. 961)
- Standard Concentration, Public Service Management (MS) (p. 962)

**Student Handbook**

Students in the School of Public Service will follow many of the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in the School of Public Service. Please see information below.

**Academic Probation**

All students within the School of Public Service must maintain a minimum cumulative GPA of 2.7 or higher as part of their requirements for graduation. As a result, any student who earns a cumulative GPA below 2.7 (B-) is placed on academic probation. Students on academic probation are required to meet with the Assistant Director for Academic
Advising to discuss their performance and determine a plan for improvement.

**Dismissal**

Students who are not able to raise their cumulative GPA to a minimum of 2.7 within two academic quarters (after being placed on academic probation) are subject to dismissal from the program.

**Readmission**

If a student is dismissed from the program (as outlined in the dismissal policy), he or she may reapply through the formal admission application process.

**Graduation Requirements**

In order to graduate from the program, students must complete all program requirements with a minimum cumulative GPA of 2.7 or higher. If a student’s cumulative GPA is below a 2.7, he or she may be denied graduation.

**Non-Degree Seeking Students**

While School of Public Service courses are open to non-degree seeking graduate students, pre-requisite requirements for certain courses may be enforced.

---

**Emergency Management Concentration, Public Service Management (MS)**

Emergency Management is a critical concern for the public, private and non-profit sectors. The concentration explores both the conceptual elements of emergency preparedness and the practical implementation of emergency management that typically occur at the intersection of local and national politics. Courses will address topics such as public safety and law enforcement, crisis management, disaster response and recovery. This concentration will provide students with both theoretical and practical knowledge that will prepare them for private or public sector employment in the area of emergency preparedness for both security and non-security related incidents.

- MPS 519 RESOURCE DEVELOPMENT
Higher Education Administration Concentration, Public Service Management (MS)

For managers in post-secondary institutions of learning, this concentration teaches necessary analytical and managerial skills. The coursework helps students develop an understanding of management principles, policy analysis, and research within higher education. Electives provide opportunities to explore leadership, governance, strategic planning, budgeting, finance, law, diversity, enrollment management, marketing, student affairs, and politics in higher education.

Public Service Management (MS), Combined Bachelor’s + Master’s Degree

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Public Service Management (MS)

The MS in Public Service Management degree educates leaders to work in public, private, and nonprofit organizations. Through our cross-sectoral approach to learning, research, and service we prepare leaders to connect domestic and global issues, alleviate poverty, and build responsive and responsible service organizations. We promote compassion for marginalized communities and service to all people with accountability, justice, professionalism, sensitivity, and transparency.

Combined program students take three courses during their senior year, typically one per quarter, which double-count for both the bachelor’s and the master’s degrees. Placement of the successfully completed courses either as open electives or as major field electives on the undergraduate level resides with the College hosting the specific bachelor’s degree program. After the bachelor’s degree is awarded the three courses are credited toward the requirements of the MS degree program as well.

Through the combined Bachelors/MS program, the student is responsible for working with both their undergraduate advisor to manage their undergraduate degree progress and the SPS academic advisor for working with both their undergraduate advisor to manage their degree program. After the bachelor’s degree is awarded the three courses are credited toward the requirements of the MS degree program as well.

Elective Courses

Four courses (16 quarter hours) chosen from more than 60 courses based on a student’s professional goals and personal interests. If warranted by special needs or interests, students may take up to two elective courses in other departments of the university. Permission of the director is required before registration for such courses. Contact the Assistant Director for Student Advising (SPSAdvising@depaul.edu) if you plan to take elective courses from outside the School of Public Service.

Public Service Management (MS) Online

The Master of Science in Public Service Management at DePaul University prepares students interested in public service management to serve the common good and advance a just society, in the spirit of St. Vincent de Paul. The MS in Public Service Management offers students a broad-based education with which they can pursue careers in fund raising and philanthropy, health care administration, higher education administration, metropolitan planning and urban affairs, nonprofit administration and public policy.

The degree offers five on-site concentrations: health care administration, higher education administration, metropolitan planning and urban affairs, emergency management, and standard. Three concentrations of this degree can be completed entirely online as well as on-site: metropolitan planning and urban affairs, emergency management, and standard.

This degree is accredited by the Network of Schools of Public Policy, Affairs, and Administration (NASPAA).

Internship Capstone Option

Students may choose to replace MPS 593 with MPS 610 Internship Capstone option.

Concentration Requirements

Students may choose concentrations in a variety of public service fields. Concentrations are available for students in the Master of Science in Public Service Management degree with specialized interests and careers. The concentrations are: Emergency Management, Health Care Administration, Higher Education Administration, and Metropolitan Planning and Urban Affairs. Students who choose not to pursue a specialized concentration will declare the Standard concentration. Three concentrations of this degree can be completed entirely online as well as on-site: metropolitan planning and urban affairs, emergency management, and standard. See the concentration pages for further course information.

Internship Option

Students can opt to complete an internship or professional development experience in a public service setting. The student would enroll in MPS 601 for course credit, which will be applied to the MS degree by the student’s adviser. Contact SPSAdvising@depaul.edu (spsadvising@depaul.edu) for more details.

Concentrations provide focus to the degree. In addition to the degree requirements, students are required to choose one of the following:

- Emergency Management Concentration, Public Service Management (MS) Online (p. 964)
- Metropolitan Planning and Urban Affairs Concentration, Public Service Management (MS) Online (p. 964)
- Standard Concentration, Public Service Management (MS) Online (p. 965)

Student Handbook

Students in the School of Public Service will follow many of the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in the School of Public Service. Please see information below.

Academic Probation

All students within the School of Public Service must maintain a minimum cumulative GPA of 2.7 or higher as part of their requirements for graduation. As a result, any student who earns a cumulative GPA below 2.7 (B-) is placed on academic probation. Students on academic probation are required to meet with the Assistant Director for Academic Advising to discuss their performance and determine a plan for improvement.
Dismissal
Students who are not able to raise their cumulative GPA to a minimum of 2.7 within two academic quarters (after being placed on academic probation) are subject to dismissal from the program.

Readmission
If a student is dismissed from the program (as outlined in the dismissal policy), he or she may reapply through the formal admission application process.

Graduation Requirements
In order to graduate from the program, students must complete all program requirements with a minimum cumulative GPA of 2.7 or higher. If a student’s cumulative GPA is below a 2.7, he or she may be denied graduation.

Non-Degree Seeking Students
While School of Public Service courses are open to non-degree seeking graduate students, pre-requisite requirements for certain courses may be enforced.

Emergency Management Concentration, Public Service Management (MS) Online

Emergency Management is a critical concern for the public, private and non-profit sectors. The concentration explores both the conceptual elements of emergency preparedness and the practical implementation of emergency management that typically occur at the intersection of local and national politics. Courses will address topics such as public safety and law enforcement, crisis management, disaster response and recovery. This concentration will provide students with both theoretical and practical knowledge that will prepare them for private or public sector employment in the area of emergency preparedness for both security and non-security related incidents.

Elective Courses

Four courses (16 quarter hours) chosen from more than 60 courses based on a student’s professional goals and personal interests. If warranted by special needs or interests, students may take up to two elective courses in other departments of the university. Permission of the director is required before registration for such courses. Contact the Assistant Director for Student Advising (SPSAdvising@depaul.edu) if you plan to take elective courses from outside the School of Public Service.

Publishing Certificate

The Certificate in Publishing requires sixteen credit hours and welcomes students who have earned a bachelor’s degree in any field.

The Certificate in Publishing can broaden and strengthen the preparation of students seeking to work in the publishing industry. This program serves students in graduate programs at DePaul as well as students at-large interested in various aspects of publishing. Course offerings focus on book, magazine/journal, and digital publishing, and a wide array of internship opportunities allows students to gain practical skills and to network in the field.

Program Requirements

- Three graduate courses in publishing. These courses may be chosen from among the following:
  - ENG 477. This course may be repeated with different topics that include:
    - American Literary Magazine
    - Book Editing
    - Book Production
    - Book Launching/Publicity
    - Digital Publishing
    - The Independent Press
  - ENG 496. This course may be repeated with different topics.
- One internship course (ENG 509)

How to Apply

- Please submit the following:
  - Official transcripts from all previous college coursework (a GPA of 3.0 or above on a 4.0 scale is recommended but not required for admission)
  - Completed online application (go.depaul.edu/apply (http://go.depaul.edu/apply/))
  - Personal statement that describes the applicant’s prior/current publishing-related experiences and explains his or her desire to earn a certificate
  - Current resume or curriculum vitae

Pure Mathematics (MS)

The Department of Mathematical Sciences offers a program of study leading to the Master of Science degree in Pure Mathematics. The program provides students with rigorous training in Pure Mathematics as well as a solid foundation for pursuing a PhD degree in Mathematics or teaching Mathematics at the college level. This is an evening program offered at the Lincoln Park campus. The program can be completed in two academic years by taking two classes per quarter or in four quarters by taking three classes per quarter.

<table>

</tr>
<tr>
<td>Total hours required</td>
<td>48</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Construct valid logical arguments and create formal mathematical proofs.
- Read and analyze professional mathematical literature.
- Identify, formulate, abstract, and solve problems in Pure Mathematics using tools from a variety of mathematical areas including linear algebra, abstract algebra, topology, and analysis.
- Communicate mathematical ideas clearly by using appropriate mathematical terminology and notation.
Degree Requirements

Course Requirements
At least 48 quarter hours of graduate level work in mathematics and passing two comprehensive examinations in Algebra and Analysis.

Core Courses

<table>
<thead>
<tr>

<td>4</td>
</tr>
<tr>
<td>MAT 595</td>
<td>GRADUATE THESIS RESEARCH (may be repeated up to a maximum of 8 credit hours total)</td>
<td>4</td>
</tr>
</tbody>
</table>

With program director’s written approval two of the elective courses can be substituted with graduate courses in other areas, such as Computer Science, Physics, or Mathematical Education.

Conditional Admission

Applicants who have not yet completed one or more of the listed prerequisites may be admitted on a conditional basis while they complete the prerequisites at DePaul as undergraduate non-degree seeking students.

Readmission

The same readmission standards outlined in the Graduate Student Handbook and approval of the program director are observed for students in these programs.

Transfer Credit

A maximum of twelve quarter hours may be accepted as transfer credit upon approval of the student's program director and the associate dean for graduate studies. Credit will only be transferred for courses that have equivalents to courses offered in DePaul's graduate program as determined by the program director and provided they did not count toward the completion of another degree at DePaul or another institution.

Undergraduate Courses

No undergraduate courses shall count toward the graduate degree.

Graduation Requirements

Requirements include, but are not limited to, twelve graduate courses (48 credit hours) at a minimum cumulative GPA of 2.50, and passing two comprehensive examinations in Algebra and Analysis.

Graduation with Distinction

A minimum cumulative GPA of 3.70 for coursework applied toward the pure mathematics degree and high performance on the comprehensive examinations - as determined by the Mathematical Sciences department - are required for graduation with distinction.

Time Limitation

The degree is expected to be completed in a maximum of six years.

Pure Mathematics (MS), Combined Bachelor's + Master's Degree

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Pure Mathematics (MS)

This combined program is an opportunity for every DePaul undergraduate with at least 88 credits (junior standing) and preparatory work in Mathematics equivalent to a math minor to apply for early admission to the Master of Science in Pure Mathematics. This will be beneficial to non-mathematics majors who would like to add the Master’s degree
in Mathematics to their current BS degree, which will open such career opportunities as teaching Mathematics at the college level or pursuing a doctorate or professional degree.

Students interested in the combined degree program should consult first with their undergraduate advisor in their home college and the Pure Mathematics graduate program director to evaluate whether they are eligible for admission to the combined degree program and to plan the undergraduate program of study that includes the graduate level MAT courses as open electives or, in certain cases, as substitutes to major requirements.

**Admission Criteria**

Students may apply for admission to the universal combined degree program if they satisfy the following criteria:

- At least 88.0 credit hours earned (junior status)
- Successful completion (with a grade of C- or better) of the following undergraduate coursework with GPA of at least 2.7 over these courses:
  - One year of single-variable calculus (MAT 150-151-152 or equivalent)
  - Two quarters or one semester of multivariable calculus (MAT 260-261 or equivalent)
  - A course in linear algebra (MAT 262)
  - A course in mathematical reasoning (MAT 215 or both MAT 140 and MAT 141 or equivalent)

To apply, students should submit the following materials to the Office of Graduate Admissions (graddepaul@depaul.edu):

- CSH Combined Program Application form
- Official copy of undergraduate transcript

Interested students are strongly encouraged to consult with the Pure Mathematics Graduate Program Director prior to submitting their application.

Students enrolled in the universal combined degree program will be awarded their Bachelor's degrees upon completion of their undergraduate degree requirements. They need to apply for undergraduate degree conferral when they reach the required credit hours and meet all other criteria for their baccalaureate degree.

**Radio, TV, and New Media (Minor)**

The Radio, TV, and New Media minor is designed for students interested in the historical and cultural impact of mass media on our modern, global society. Students may focus on a specific subject area to complement their individual study plan.

**Course Requirements**

A minor in Radio, TV, and New Media requires students to complete a total of 24 credit hours (six courses). To complete the minor, students must take:

Reading Specialist (MA or MEd)

The Reading Specialist program combines developmental and remedial reading content with course work in understanding individuals who exhibit learning challenges and those with identified disabilities. It provides candidates with a well-rounded and in-depth understanding of issues related to teaching literacy to a wide variety of students, with a particular focus on students in urban environments. The program also prepares candidates to assume leadership roles within schools, including the coordination of school-wide assessment, instructional coaching, and professional development.

Licensure

Students who hold an Illinois professional educator license are eligible for a Reading Specialist endorsement (K-12) upon completion of the Reading Specialist master’s program, the required licensure tests, and the required employment experience (2-years of full-time teaching experience on an Illinois professional educator license or comparable out-of-state license). Endorsement only options are available for individuals who already hold a master’s degree. Note: Courses in the Reading Specialist program are designed for practicing educators and are not open to students seeking a first teaching license (Teaching and Learning). Please note that the Illinois State Board of Education (ISBE) may change the State licensure and endorsement requirements at any time and without prior notice.

</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Demonstrate knowledge of major theoretical, conceptual, historical, and evidence-based foundations of language and literacy.
- Use foundational knowledge to design, implement, and evaluate evidence-based literacy instruction and curricula for diverse learners.
- Select and use appropriate assessment tools to screen, diagnose, and measure student achievement literacy to inform instruction, evaluate interventions, and assist teacher in their use of assessment results.
- Demonstrate knowledge of research, relevant theories, pedagogies, and essential concepts of diversity and equity.
- Address developmental needs of all learners and collaborate with colleagues to engage and motivate learners and support a literacy-rich learning environment.
- Apply knowledge of adult learning to work collaboratively with colleagues in the roles of leader, coach, and advocate.

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Demonstrates a positive attitude and commitment to the profession
- Demonstrates thoughtful, effective verbal and non-verbal communication and listening skills
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates concern for and protection of safety and well-being of others

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final
courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

</tbody>
</table>

**Clinical Experience**

The practicum courses provide an opportunity to apply knowledge from coursework to teaching struggling learners and those with disabilities. In these courses, students provide diagnostic and remedial services to children and adolescents from the Chicago area under the supervision of program faculty. Theses courses are offered in an on-campus facility.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Requirements are subject to change per the discretion of ISBE.

Reading Specialist students must complete the following tests:

- Reading Specialist Content Area Test (test #176) — assesses knowledge of language, reading, and literacy.

Please note that the Illinois State Board of Education (ISBE) may change the State licensure and endorsement requirements at any time and without prior notice.

### Real Estate (BSB)

The undergraduate division of the Department of Real Estate provides a curriculum which enables all students in the Driehaus College of Business to work and excel in the real estate community at the local and national levels, and to adapt to future changes in the industry. It provides a strong foundation for students with career goals in real estate as the demand for qualified professionals in all areas of the industry continues to escalate with changing economic factors that drive the real estate market. Competence in real estate today, and the future, requires an understanding of a wide variety of professional disciplines and their interactions. As a result, the program reaches across academic boundaries of departments and colleges to provide a
truly interdisciplinary degree housed within the college. The DePaul real estate major requires finance and real estate law courses, and provides choices in economics, architecture history, public service management, geography, sociology, history and anthropology.

Students who complete the program will:

- Develop a comprehensive body of knowledge that will strengthen financial and analytical skills, including risk analysis, portfolio construction and management, cash flow analysis, and investment strategy
- Understand the organizational structure of financial institutions and the impact of capital markets on real estate
- Understand the basic laws and regulations governing land use and real estate decisions
- Be able to clearly articulate a site development strategy to all parties and agencies
- Understand the historical development of real estate and its impact on present and future development patterns
- Understand how architectural and urban history provide insights into real estate analysis and valuation

Employment opportunities exist everywhere across the spectrum: ownership, brokerage, appraisal, design, insurance, inspection, leasing, management, and construction are a few. Property sectors include office, industrial, multi-family, retail, and hospitality and entertainment. Expanding the definition of real estate to consider the financial services side of real estate yields an additional list of career opportunities (mortgage lenders, mortgage brokers, underwriters, services, researchers, and others). The Real Estate Center assists students in finding employment in many of these diverse areas and industries in the associated supporting professions.

Learning Outcomes

Core Outcomes

Students will be able to:

- Use analytical and reflective skills in decision-making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Program Specific Outcomes

Students will be able to:

- Evaluate direct real estate investment-debt and equity.
- Evaluate real estate securities-debt and equity
- Understand impact of financial criteria on decision-making.
- Explain the basic laws and regulations governing land use and real estate decisions.

College Core Requirements

Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of analytics, accountancy, mathematics, economics, business law, finance, management, management information systems/computer science, and marketing.

Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 70.0 hours are required:

<table>
<thead>
<tr>
<th>Course Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACC 101 INTRODUCTION TO ACCOUNTING I</td>
<td>4</td>
</tr>
<tr>
<td>ACC 102 INTRODUCTION TO ACCOUNTING II</td>

1. Strobel students take specially designated sections of all required ACC classes, including ACC 101 and ACC 102 (excluding ACC 250).
2. Students majoring in accounting (primary or secondary/double major) are allowed to substitute ACC 370 in place of BLW 201. Hospitality Leadership majors must take HSP 207 for the Business Law requirement; use of HSP 207 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete both HSP 207 and BLW 201.
5. MIS majors and minors must take MIS 140.
6. Entrepreneurship majors and minors must take ICS 394.
7. Hospitality Leadership majors must take ICS 396 for the Business Capstone; use of ICS 396 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete ICS 396 and one of ICS 394 or ICS 395.
8. A course taken for Global Business Perspective that is in a student’s major or minor field must be completed with a minimum grade of C-.

### Business Ethics

All undergraduate students in the Driehaus College of Business complete a course in Business Ethics. It is recommended students take MGT 248 or PHL 248 in Philosophical Inquiry or MGT 228 or REL 228 in Religious Dimensions in the Liberal Studies Program (or University Honors Program) Requirements.

### Second Majors and Minors

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

### Math Requirements for all business majors (except Actuarial Science majors)

- MAT 137 may be replaced by MAT 348 or MAT 351.

### Grade Minimum Requirements for Real Estate Major

A minimum grade of C- is required for the following: ACC 101, ACC 102, BUS 102, ECO 105, ECO 106, MAT 137, and the course used for Professional Writing.

### Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

#### First Year Program

<table>
<thead>
<tr>

</tbody>
</table>

1. Students must earn C- or better in this course.

### Learning Domains

- **Arts and Literature (AL)** (p. 1300)
  - 3 AL Courses Required
- **Historical Inquiry (HI)** (p. 1304)
  - 2 HI Courses Required
- **Math and Computing (MC)** (p. 1306)
  - Not Required
- **Philosophical Inquiry (PI)** (p. 1307)
  - 2 PI Courses Required
Religious Dimensions (RD) (p. 1308)
• 2 RD courses required

Scientific Inquiry (SI) (p. 1310)
• 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
• 1 SCBI Course Required

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements
A student majoring in Real Estate is required to complete the following courses totaling at least 34.0 hours:

Nine required courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>FIN 315</td>
<td>DATA ANALYTICS IN FINANCE</td>
<td>4</td>
</tr>
<tr>

<tr>
<td>RE 353</td>
<td>REAL ESTATE INVESTMENT</td>
<td>4</td>
</tr>
<tr>
<td>RE 354</td>
<td>REAL ESTATE VALUATION</td>
<td>4</td>
</tr>
</tbody>
</table>

The department enforces all course prerequisites, without exception.

Students are encouraged to seek an internship with a Chicago-area business during the summer preceding either their junior or senior year, but the Real Estate major does not offer or accept a for-credit internship course.

Career Management Course
Students are required to complete the Career Course (250) associated with the major. Students who double major may choose the Career Course (250) associated with either major provided that hours for graduation are satisfied.

Open Electives
Open elective credit (16.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

Combined Bachelor’s + Master’s Program Participants
Students admitted to the Real Estate Combined Bachelor’s + Master’s program may apply up to three approved graduate course(s) towards undergraduate Real Estate major.

<table>
<thead>
<tr>

Real Estate (Minor)

Available to students in the Driehaus College of Business and non-business programs at DePaul, a minor in Real Estate provides students with a general understanding of the real estate business and in-depth exploration of a specific topic in real estate, such as law, policy, valuation, investment, or finance.

Course Requirements

A student minoring in Real Estate is required to complete Real Estate courses totaling at least 20.0 hours:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

</tr>
</tbody>
</table>

The department enforces all course prerequisites, without exception.

Students are encouraged to seek an internship with a Chicago-area business during the summer preceding either their junior or senior year, but the Real Estate minor does not offer or accept a for-credit internship course.

Graduation Requirements

All Real Estate (RE) courses and any courses used toward the Real Estate minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Real Estate (MS)

In the Master of Science (MS) in Real Estate program, you will learn concepts and practices in real estate investment analysis and finance through a multidisciplinary curriculum that incorporates courses in real estate, marketing, law, public policy, geography and economics.

Whether you are a professional in real estate field looking to further your knowledge and skills in this industry, or are seeking a transition to the real estate field from another area, this degree will provide you with a strong foundation to prepare you for real estate industry leadership.

The MS in Real Estate program is designed for the student who has a bachelor’s degree, or who is has earned or is earning an MBA.

Highlights

The MS in Real Estate curriculum encompasses a wide range of courses that incorporate casework and teamwork, which will help you develop your communication and leadership skills. You will develop detailed knowledge and skills in:

- Real estate investment
- Real estate finance
- Real estate capital market and analysis
- Real estate development
- Real estate and market analysis
- Real estate taxation

Program Requirements

<table>
<thead>
<tr>
<th>Program Requirements</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total courses</td>
<td>48</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Apply real estate mortgage financial practices, market factors, and finance and investment practices to real estate investment.
- Analyze real estate valuation and market factors.
- Evaluate commercial real estate investments using real estate criteria.
- Define, identify, summarize, and analyze a business problem and offer appropriate solution alternatives.
- Recognize and analyze ethical and legal problems within applied business situations, choose a solution, and justify that ethical choice.
- Identify business risks as applied to the global environment.
• Compare and contrast differences in global perspectives and discuss their impact on global management and decision-making; identify risks and rewards of international business.
• Understand and react to technological changes and factors affecting global and local real estate decision making.

Degree Requirements
Course Requirements
Students complete the MS in Real Estate by taking a minimum of 48 credit hours, normally 12 courses. Depending on the path selected for completing the quantitative requirement, several prerequisites may be required. Students may take either RE 527: Quantitative Methods and Analysis or FIN 555 to meet the program’s quantitative requirement. The prerequisite for RE 527: QUANTITATIVE METHODS and ANALYSIS is admission to the program. However, students who wish to take FIN 555 must meet its prerequisites prior to enrollment, which include ACC 500 or ACC 502, and GSB 420 or GSB 519, or courses equivalent to these.

Required Courses (12 required courses)

</tbody>
</table>

Degree Requirements
• Satisfactory completion of the college residency requirement.
• Satisfactory completion of the 12 required courses such that at least 48 credit hours of applicable course work are completed toward the degree. Prerequisite courses are not approved for elective credit.
• All courses for credit toward the degree must be completed within six calendar years after the candidate’s first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree without the written approval of the director of the program or the Kellstadt Graduate School of Business.

Real Estate (MS), Combined Bachelor’s + Master’s Degree
The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These three graduate level courses will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Real Estate (MS)
The Master of Science in Real Estate offers students a focused degree program of specialized courses in real estate analysis, development, finance, valuation, investment, planning and public policy. Courses are taught by both academics and professionals and are frequently team taught by a combination of the two. Casework and teamwork are hallmarks of the program, providing opportunities to develop communication and leadership skills.

Students emerge from the program with strong exposure to real estate content, concepts and practices as well as a sold array of skills that can be adapted to the evolving and inherently multi-disciplinary real estate industry.

DePaul degree-seeking undergraduate students interested in earning a Master of Science in Real Estate may apply to the bachelor’s degree/Real Estate (MS) combined program. Students may be able to obtain both degrees in as few as five years.

Admission
Students must formally apply and be admitted to the Department of Real Estate before beginning their graduate coursework. Undergraduate students who meet the following criteria may apply to this program:
• Junior standing or higher (at least 88.0 credits)
• A minimum cumulative DePaul grade point average of 3.20

Students participating in this program will typically take three graduate level courses from the four classes below:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>RE 520</td>
<td>URBAN PLANNING AND PUBLIC POLICY</td>
<td>4</td>
</tr>
<tr>
<td>RE 521</td>
<td>LEGAL ISSUES IN REAL ESTATE</td>
<td>4</td>
</tr>
<tr>
<td>RE 525</td>
<td>PROJECT MANAGEMENT: DESIGN AND CONSTRUCTION</td>
<td>4</td>
</tr>
<tr>
<td>RE 574</td>
<td>MULTIFAMILY HOUSING POLICY AND FINANCE</td>
<td>4</td>
</tr>
</tbody>
</table>

Three courses may double-count up to 12 credits towards both degree programs. The undergraduate degree will be awarded at the completion of all undergraduate work while the MSRE will be awarded upon completion of the remaining graduate level work.

Recreation and Sport Management (BA)
The BA in Recreation and Sport Management (RSM) emphasizes a multidisciplinary understanding of leisure service management and
leadership in preparation for careers and further education in managing recreation and sport organizations. The degree prepares students to work in the leisure service industry and addresses sport management and sport psychology, recreation administration and event planning, leadership and talent development, fitness, community health, nutrition and motor development. The degree is equally appropriate for adults already working in the field looking to advance their skills and knowledge base as well as those new to the field.

This major is designed for working adult students and provides:

• Flexible scheduling including online options available
• Financial Aid, flexible payment options, and special adult student tuition pricing
• Acceleration and affordability through transfer credit and prior learning assessment (PLA) credit
• Opportunities to combine bachelor’s and master’s programs and apply graduate courses to both programs
• Individualized program planning, course selection and advising assistance provided
• Enhanced career opportunities through professional portfolio development, and career placement services instruction from industry practitioners, and wide-ranging Career Services support
• Degree granted by DePaul University, with its excellent academic reputation and the opportunity to join its prestigious and extensive alumni network

Learning Outcomes

Students will be able to:

• Analyze and apply knowledge and theories of leisure service management.
• Explain legal and regulatory requirements applicable to recreation and sport organizations.
• Understand and address social justice issues related to recreation and sports.
• Apply skills for effective decision-making in recreation and sports.
• Apply methods of communication in multiple settings.
• Analyze and apply different liberal arts perspectives.

Open Electives (38 credits)

Open Electives can be fulfilled through courses taken in the School of Continuing and Professional Studies and other DePaul colleges, transfer courses, assessment of prior learning (PLA), and independent studies.

Refugee and Forced Migration Studies (MS)

The MS in Refugee and Forced Migration Studies is the first program of its kind in the United States. It offers students the chance to study the causes and consequences of forced migration and gives them hands-on experience of working with area organizations like Refugee One and the Heartland Alliance. Forced migrants – including refugees, internally displaced people and climate refugees – are growing in numbers; the UNHCR estimates that there are 45.2 million people displaced all over the world. Syria, Colombia, Pakistan, Turkey, Uganda, Somalia, Afghanistan – these are all familiar news stories. But how do you move beyond the statistics to actually making a difference? This degree places forced migration and refugee studies in concrete historical, global and human contexts and seeks durable responses to the protracted and harrowing crises of forced migration.

The MS in Refugee and Forced Migration Studies aims to train committed individuals in academic and practical skills relevant to a career related to refugee and forced migration. The degree will enable you to work at on-field refugee organizations, government and non-governmental institutions, pursue further research, or engage with community development, social justice, immigration issues, trauma and health providers, among many others.

We aim to help students:

- Develop rigorous understanding of the causes and consequences aspects of refugees and forced migration;
- Apply conceptual methodologies and legal frameworks for analyses and application of refugee protection regimes and human rights law;
- Carefully understand health issues related to refugees and other forced migrants;
- Acquire skills to work for and manage non-governmental agencies;
- Pursue further research

The MS in Refugee and Forced Migration Studies may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MS/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Refugee and Forced Migration Studies + Global Health Certificate
- Refugee and Forced Migration Studies + Public Health Certificate
- Refugee and Forced Migration Studies + Social Research Certificate
- Refugee and Forced Migration Studies + Teaching English to Speakers of Other Languages (TESOL) Certificate
- Refugee and Forced Migration Studies + Women’s and Gender Studies Certificate

Religious Studies (BA)

The Department of Religious Studies offers DePaul students the opportunity to engage in the academic study of religion. The study of religion includes not only the traditional areas of sacred texts, myths, rituals, mystical experiences and doctrines, but also the ways in which political, social and economic forces shape these phenomena for religious communities. Drawing on a host of academic disciplines, religious studies challenges students to encounter the traditions of the world in all their rich diversity. Given the complexity of the subject matter, members of the department draw upon several other academic disciplines – anthropology, art history, biblical studies, economics, environmental studies, ethics, gender studies, history, linguistics, literature and literary criticism, political science, philosophy, psychology, sociology, and theology – as they do their work.

Beyond work with texts, students may also study religion through the media of film and video, music, the visual and dramatic arts, and the internet. The department emphasizes comprehensive learning in writing, synthetic and analytic thinking, and oral communication skills. Students can go beyond their course work with further learning opportunities, such as...
as the senior thesis, independent study, study abroad and internships, and service learning, both locally and internationally.

A religious studies major or minor is positioned to pursue a wide variety of careers. A bridge between the specialist's perspectives on religion and a wider world that is often in need of these perspectives, religious studies majors have worked in the fields of law, social work, regional and international business, governmental and non-governmental service, secondary school teaching, and service in religious communities. A religious studies major is also well-prepared for further studies in graduate programs leading to careers in academia.

The Department encourages students in all major concentrations and minors to engage various questions related to the study of religion, such as (but not limited to):

- What is religion?
- How do religious communities come into being and define themselves?
- How do religious communities form worldviews, doctrines, and practices, and how does the study of religion help us to understand their change over time?
- How do sacred texts come into being, and what do they communicate to us?
- How does religion shape culture, and how does the wider culture define religion?
- What is the role of religion in the contemporary world?
- How do religion or religious sensibilities help us to relate (or hinder us from relating) to each other?
- How can an informed student of religion evaluate the rival claims to truth and moral rightness of different religious and secular ideologies?
- How do religious traditions and texts treat issues of sexuality and gender, race and class?
- How have religious traditions interacted with each other in the past, and how do they continue to do so today?

### Learning Outcomes

Students will be able to:

- Identify, analyze, and critically compare some significant elements of religion - such as myth, narrative, symbol, ritual, sacred texts, law, doctrine, ethics, experience, and systems of cosmic, social and individual order - as they are manifested in religious traditions across culture, time, ethnicity race, or gender.
- Apply to religious phenomena various theories, methodological perspectives, and experiential approaches.
- Evaluate the relationship between religion and other elements of culture and society regarding such issues as the relation between religion and moral values, religion and power, as well as the role of religious movements as forces of personal and social transformation, social justice, and social integration.
- Identify and apply scholarly resources and/or field methodologies from religious studies in writing.

### College Core Requirements

#### Study in the Major Field

The student's course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

#### Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

#### The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High
or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

The Modern Language Option (MLO)
The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency
A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Junior Year
Experiential Learning
Required 4

Senior Year
Capstone
REL 390 INTEGRATING SEMINAR 1,3 4

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.
3 A student majoring in Religious Studies (REL) is required to complete the Capstone offered by the REL Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. An REL major in the University Honors Program shall take the University Honors Capstone and the REL Capstone.

Learning Domains
Arts and Literature (AL) (p. 1300)
• 3 Courses Required

Historical Inquiry (HI) (p. 1304)
• 2 Courses Required

Math and Computing (MC) (p. 1306)
• 2 Courses Required
[1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1307)
• 2 Courses Required

Religious Dimensions (RD) (p. 1308)
• Not Required

Scientific Inquiry (SI) (p. 1310)
• 2 Courses Required
[1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
• 3 Courses Required
Notes

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the experiential learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

The Religious Studies major requires all students to take 13 courses (52 credit hours), of which at least six courses (24 credit hours) must be at the 300-level.

The following four Core Courses are required:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>REL 298</td>
<td>METHODS AND APPROACHES IN THE STUDY OF RELIGION</td>
<td>4</td>
</tr>
<tr>
<td>REL 300</td>
<td>THEORIES OF CULTURE AND RELIGION</td>
<td>4</td>
</tr>
<tr>
<td>REL 302</td>
<td>THEORIES OF RELIGION AND ETHICS</td>
<td>4</td>
</tr>
<tr>
<td>REL 390</td>
<td>INTEGRATING SEMINAR (taken for Liberal Studies Capstone requirement)</td>
<td>4</td>
</tr>
</tbody>
</table>

Students need to take nine additional courses (36 credit hours), at least three of which must be at the 300-level (12 credit hours) and the remaining at the 200-level. HON 104 can substitute for a 200-level course.

Students interested in the specialized study of Catholicism or Islam should consult the Department of Catholic Studies or the Islamic World Studies Program.

Religious Studies 3+3 (BA+JD)

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements.

Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 677).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law’s median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Religious Studies (Minor)

The minor in Religious Studies exposes students to a variety of approaches to religious traditions and issues.
Course Requirements
The Minor in Religious Studies requires all students to take any 6 courses (24 credit hours) in Religious Studies at the 100-, 200-, and/or 300-level. The department offers numerous courses offered online so that a minor can be completed online.

Rhetoric (Minor)
The Rhetoric minor helps you acquire the skills to understand and analyze the history, theory, and criticism of political discourse and public speaking.

Course Requirements
A minor in Rhetoric requires students to complete six courses (24 credits). To complete the minor, students must take:

<table>

Russian Language (Minor)
DePaul's Russian Language minor will help students acquire a solid proficiency in speaking, reading and writing Russian, one of the world's most important global languages.

The minor consists of a total of 5 courses in Russian language at the 200/300-level. Courses taught in English will not be counted toward this minor unless Program Director permission is secured.

Students minoring in Russian Studies are restricted from earning this minor.

Russian Studies (Minor)
The Russian Studies minor offers an interdisciplinary focus on the history, culture, art and politics of Russia, along with a grounding in the Russian language.

Course Requirements
- Three quarters of college-level Russian language study (at any level).
- Five additional courses from at least two different disciplines, chosen in consultation with an advisor or faculty member, from the current approved Russian Studies Allied Course List.

Scene Design (BFA)

The Theatre School's Bachelor of Fine Art (BFA) degree in Scenic Design is designed to give students the opportunity to explore and expand their artistic and visual expression and provides them the opportunity to practice their craft. The four-year curriculum in many ways simulates a scenic designer's professional experience and process. Designers learn to visualize and create the physical world of plays by collaborating with directors, dramaturgs, other designers and technicians and our professional scene shop staff who build the sets they design.

Learning Outcomes

Core Outcomes

Students will be able to:

- Identify and describe the historical and theoretical significance of a range of theatrical artists, works, and artistic approaches from antiquity to present.
- Synthesize and apply elements of their education and training to the preparation, rehearsal, and presentation of theatrical productions with discipline, respect, and maturity.
- Identify and explain their theatrical work in the context of the cultural and social impact of the arts.

Program Specific Outcomes

Students will be able to:

- Read and interpret theatrical text and apply research, imagination, and personalization to create a unique, insightful, and compelling design concept.
- Demonstrate an understanding of the history of the visual art and architecture in the context of social and cultural development.
- Create the appropriate plans, drawings, and documents for the fabrication of their design concept.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Production Design Concentration, Scene Design (BFA) (p. 984)

Production Design Concentration, Scene Design (BFA)

The Production Design Concentration is open to students in the Scene Design major at The Theatre School. Six classes or 24 credits are required. The concentration builds on the traditional curriculum for the Scene Design major, and adds 6 classes from School of Cinematic Arts (SCA), which can either be added onto the full curriculum, or can be substituted for the required design electives, or 1 of the drawing/rendering electives. Students take requirements and electives from the following list of SCA classes, or other classes can be considered and approved by advisor. Students may start the sequence in their second year of the Scene Design major. Students must notify their advisor of their intention to pursue this concentration and must receive advisor approval to do so.

Science Education (MS)

The Master of Science in Science Education (MSSE) program provides a broad content-based science curriculum for the preparation of master teachers of science. The program is focused on contemporary, inquiry based science content and integrates the most current research findings on how students learn science. It encourages and models the skills of scientific inquiry, as well as the curiosity, openness to new ideas, and skepticism that characterize science. Some of the unique features of the program include a strong emphasis on contemporary science content; the use of inquiry-based learning; the integration of mathematics and technology; and the incorporation of the Next Generation Science Standards.

The Program requires 12 courses (48 credit hours) and draws upon faculty in both the College of Science and Health and the College of Education. Support of the program is managed through DePaul University’s STEM Center.

The program provides a supportive environment for all teachers, including members of groups traditionally underrepresented in science, and encourages a broad perspective on science and its continuing important role in our society.

Learning Outcomes

Students will be able to:

- Interpret and apply scientific explanations of the natural world that are relevant to teaching science in elementary and secondary schools.
- Generate and evaluate data that serves as scientific evidence.
- Recognize and apply crosscutting concepts that link the different science disciplines.
- Reason quantitatively and make quantitative arguments that support theories and models of the natural world.
- Apply research on teaching and learning science to their teaching practice.

Program Graduate Academic Student Handbook

Academic Probation
A student is subject to academic probation as soon as his/her graduate cumulative GPA falls below 2.500.

Academic Dismissal
The student remains on probation until four more program courses are taken, at which time another evaluation is made. If at that time the student has failed to raise his/her cumulative GPA to the required level of 2.500, it is a violation of satisfactory progress. The student may be academically dismissed for poor scholarship and be prohibited from registering for additional course work.

A student who has been academically dismissed may, after a period of time, petition for reinstatement. The petition, addressed to the dean of the college, would provide information that would demonstrate a change in the student’s circumstances to an extent that would support successful completion of the student’s degree program. The dean’s decision, based upon the merits of the petition and the recommendation of program director, may, if favorable, stipulate conditions of reinstatement. The dean has the discretion to reject the request for reinstatement.

Readmission
If you were previously enrolled in a graduate program in the College of Science and Health but have not been in attendance for a period of one calendar year or longer, but not more than four calendar years, you must complete a readmission application with the Office of Graduate Admission. (If more than four calendars years have elapsed since you have been in attendance, you must file a new standard application.) The application must be submitted at least two weeks prior to the day of registration for the term in which you expect to resume your studies. Official copies of transcripts recording scholastic work taken while not enrolled at DePaul University must be submitted. As a policy, students are held to the degree requirements that are in force at the time of readmission.

Transfer Credit
In general, it is not encouraged that students seek to transfer in credit for the Master of Science in Science Education (MSSE) program. In exceptional cases, a maximum of twelve quarter hours (or eight semester system hours) may be transferred from another institution or program to count toward the graduate degree. Requests to transfer courses must be approved by the program director and associate dean for graduate studies. Transfer credit can only be awarded for graduate level coursework that has not counted toward the completion of a degree at DePaul or any other institution.

Undergraduate Courses
No undergraduate-level courses or credit may count toward MSSE graduate course requirements.

Graduation Requirements
You must have successfully completed all of the degree requirements as listed in the catalog under which you were admitted. Students need to achieve a minimum cumulative GPA of 2.500 to graduate.

Graduation with Distinction
To graduate with distinction from the MSSE program, students must have earned a cumulative 3.75 GPA or higher for coursework applied toward the MSSE degree.

Time Limitation
Graduate students in MSSE program is expected to complete their program degree requirements within a six-year period from the first registration date for a course in the program. When a graduate student fails to finish before the end of the sixth year, the department or program director may recommend, on receipt of the student’s petition, in writing, an extension of time with or without additional courses, examinations, or other conditions.

Screenwriting (MFA)
The MFA in Screenwriting is the terminal degree in writing for film and television. The program culminates in the successful completion of the MFA thesis screenplay or teleplay.

The MFA Screenwriting Degree has now been split into two (2) concentrations. Students are required to choose one (1) of the following:

- Standard
- Comedy

Program Requirements

<table>
<thead>
<tr>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Degree Requirements</td>
</tr>
<tr>
<td>Total hours required</td>
</tr>
</tbody>
</table>

Learning Outcomes
Students will be able to:
• Describe standard structural paradigms and narrative techniques utilized in the writing of feature films and television shows.
• Assess the narrative strengths and weaknesses of a given piece of scripted content.
• Apply a professional creative process to the development of film and television story concepts.
• Prepare a story pitch for a screenplay or pilot that meets professional standards.
• Write screenplays and teleplays using standard entertainment industry format.
• Complete the first draft of a feature screenplay or television pilot on deadline.
• Rewrite an original screenplay or teleplay based on critical feedback.

**Degree Requirements**

**Course Requirements**

• Course requirements are determined by the concentration selected.
• No Introductory Course may be substituted for any other course at any level.

**Optional Los Angeles Quarter**

Students may apply to participate in the Los Angeles Quarter Program for the spring of their second year; they will spend 12 weeks in Hollywood doing industry internships, living with their fellow DePaul classmates, and having twice-weekly classes on an industry lot where they will have intimate question and answer sessions with industry professionals in all aspects of the film, TV, and videogame world. If selected to participate in the LA program, MFA Screenwriting students would take SCWR 441 and FILM 499 in Los Angeles.

**MFA Thesis**

Students in the MFA in Screenwriting program must complete a MFA Thesis project which consists of either a feature length screenplay or an original television pilot plus a “show bible” and outlines for six future episodes. We expect the thesis projects to be at a level of quality that would warrant representation by literary agents and managers. Satisfactory completion of the MFA Thesis project is determined by the MFA Advisor Committee (see below).

**Student’s MFA Advisor Committee**

In the spring quarter of their first year, all MFA candidates will be assigned two thesis committee members plus their thesis instructor; these three faculty members will be the MFA Advisor Committee. The MFA Advisor Committee will offer suggestions and feedback on the student’s work and help guide the student during the thesis phase of the program. They will ultimately judge the final thesis project as pass or fail.

**MFA Thesis Timeline: Year One**

Students will enroll in SCWR 550 or SCWR 500, in which they will begin to develop their thesis project. This course will conclude with students pitching their stories to their individual MFA Advisor Committee for feedback.

**MFA Thesis Timeline: Year Two**

The first draft of the thesis project must be submitted to the Advisor Committee on the last day of final exams for the fall quarter. Writers will get notes from their committee at the start of the winter quarter. The final draft of the thesis script will be sent to the committee on the last day of final exams for the winter quarter. The committees will meet during the spring quarter to evaluate thesis projects. Thesis chairs will notify each student as to whether they received “distinction,” a “pass,” or a “rewrite” decision. If a student passes, they must then complete their coursework in order to graduate. If a student does not pass, the writer must resubmit his or her thesis by an assigned due date determined by the thesis instructor. The re-defense will take place no later than Friday of week 10 of the spring quarter. If the student passes, he or she can move on to graduation assuming all courses are complete. If the student has a second non-pass, he or she must enroll in SCWR 701 (a zero credit hour and zero cost class) to remain enrolled for the summer session after completion of the year two coursework. The rewritten script is due by the last day of final exams for Summer I. The defense will take place before the end of the Summer II session. If the student passes, he or she may apply for the next round of graduation. If the student does not pass, he or she may elect to speak with the advising office about applying his or her course credit hours to an M.S. in Cinema Production degree.

**Degree Requirements**

Students in this degree program must meet the following requirements:

• Complete a minimum of 68 graduate credit hours in the designated degree program.
• Complete all graduate courses and requirements listed in the designated degree program.
• Earn a grade of C- or better in all graduate courses of the designated degree program.
• Maintain a cumulative GPA of 3.0 or higher.
• Satisfactorily complete the MFA thesis as determined by the student’s MFA Advisor Committee.
• Students cannot count credit earned towards a previously awarded master’s or MFA degree toward the completion of this MFA program.

For DePaul’s policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook.

Students are required to choose one of the following concentrations:

• Comedy Concentration, Screenwriting (MFA) (p. 986)
• Standard Concentration, Screenwriting (MFA) (p. 987)

The measure of the academic quality of the Program relies on clearly
Program design and delivery and to the preparation of teachers.
Ensuring that students understand all these issues is integral to the
critical pedagogy, constructivist teaching practices, theories of teaching
cognitive, sociocultural, and sociopolitical nature of human development
and practices of teaching and learning. Such issues as educational
students into essential issues and themes of education and theories
and Educational Policy Studies and Research Department to immerse
the expertise of faculty in the COE's Secondary Education Program
(e.g., Secondary Education Biology, Secondary Education English, et
degree that reflects disciplinary area expertise. Like the Secondary
double major is designed to provide future Secondary Education
teachers with a Secondary Education degree and a disciplinary area
degree that reflects disciplinary area expertise. Like the Secondary
major with disciplinary content courses attached to the major
(e.g., Secondary Education Biology, Secondary Education English, et
cetera), the Secondary Education Major for double majors draws on
the expertise of faculty in the COE's Secondary Education Program
and Educational Policy Studies and Research Department to immerse
students into essential issues and themes of education and theories
and practices of teaching and learning. Such issues as educational
inequality, politics of schooling, identity politics, social justice, identity
development inside and beyond formal school settings, historical,
cognitive, sociocultural, and sociopolitical nature of human development
and society are integrated with issues of pedagogical content knowledge,
critical pedagogy, constructivist teaching practices, theories of teaching
and learning, curriculum development, and professional practice.
Ensuring that students understand all these issues is integral to the
Program design and delivery and to the preparation of teachers.

The measure of the academic quality of the Program relies on clearly
articulated features of exemplary teacher-education programs. These include:

- a "common, clear vision of good teaching that permeates all
coursework and clinical experiences...";
- a "well-defined standard of professional practice and performance...";
- a "strong core curriculum taught in the context of practice" and
including understanding of human development and learning, social
and cultural contexts, curriculum assessment, and subject-matter
pedagogy;
- an "extended clinical experience" that supports ideas presented in
coursework;
- an "extensive use of case methods, teacher research, performance
assessments, and portfolio evaluation...";
- "explicit strategies" to help students confront their own beliefs and
assumptions about learning and students and to learn about the
experiences of diverse people; and
- “strong relationships, common knowledge, and shared beliefs among
school- and university-based faculty.” (Darling-Hammond, L. [2006].
Constructing Teacher Education. Journal of Teacher Education, 57,
300-314.)

Students who are interested in the Secondary Education Major for
double majors should contact their academic advisor. The Secondary
Education Major must be selected as the primary major to ensure that
licensure requirements attached to the Liberal Studies Program are
completed. Disciplinary major requirements are determined by the
academic department in which the major is housed.

Licensure
Illinois Professional Educator License with an endorsement in the
specified disciplinary area:

- Middle and Secondary Education Science-Biology (grades 5-12), an
Illinois State Board of Education (ISBE) approved program.
- Middle and Secondary Education Science-Chemistry (grades 5-12), an
Illinois State Board of Education (ISBE) approved program.
- Middle and Secondary Education Science-Environmental Science
(grades 5-12), an Illinois State Board of Education (ISBE) approved
program.
- Middle and Secondary Education Social Science-History (grades
5-12), an Illinois State Board of Education (ISBE) approved program.
- Middle and Secondary Education Mathematics (grades 5-12), an
Illinois State Board of Education (ISBE) approved program.
- Middle and Secondary Education Science-Physics (grades 5-12), an
Illinois State Board of Education (ISBE) approved program.
- Middle and Secondary Education Visual Art (grades 5-12), an Illinois
State Board of Education (ISBE) approved program.

The total number of hours for the degree are determined by the
concentration/discipline area chosen for the double major.

Learning Outcomes

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and
meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content
knowledge with an emphasis on developing students’ conceptual
understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of
adolescent learners and content.
- Implement assessment practices to evaluate student learning and
inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for
adolescent learners and their communities.
College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

- Recognizes and fulfills professional responsibilities and habits of conduct
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative
- Expresses feelings and opinions effectively and appropriately
- Accepts personal responsibility for one’s behavior
- Maintains appropriate interpersonal and professional boundaries
- Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
- Expresses feelings and opinions effectively and appropriately
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
- Takes initiative
- Upholds confidentiality
- Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
- Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Demonstrates consistent professional behavior across all academic settings
- Maintains appropriate interpersonal and professional boundaries
- Accepts personal responsibility for one’s behavior
- Expresses feelings and opinions effectively and appropriately
- Upholds confidentiality

Skill Building Courses

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing two years of a language sequence in high school
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements
• Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
• Overall cumulative GPA of 2.50 or better
• Cumulative GPA of 2.75 or better in all education courses
• Meet all other program requirements (e.g., modern language and residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test(s)

Clinical Requirements
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.
To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure
Requirements for licensure include completion of full bachelor's degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor's degree. A bachelor's degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete both LSP 120 and LSP 121 take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and if taken within the SI Domain, the reduction cannot be applied to the SI Lab requirement.

Learning Domains
Arts and Literature (AL) (p. 1300)
- 3 courses required for students whose second major is Biological Sciences, Chemistry, Environmental Science, History or Physics
• 2 courses required for students whose second major is Mathematical Sciences
• 1 course required for students whose second major is Art Media and Design (cannot be an ART or HAA course) or English (cannot be an ENG course)

Historical Inquiry (HI) (p. 1304)
• 2 courses required for students whose second major is Art Media and Design, Biological Sciences, Chemistry, English, Environmental Science, Mathematical Sciences, Physics. Note one must be United States history.
• 1 course required for students whose second major is History. Must be United States History

Math and Computing (MC) (p. 1306)
• 2 Courses Required
  [1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1307)
• 2 Courses Required
  • LSE 380
  • 1 Additional Course (Note: PHL 100 recommended)

Religious Dimensions (RD) (p. 1308)
• 2 Courses Required

Scientific Inquiry (SI) (p. 1310)
• 2 courses for students whose second major is Art Media and Design, English, History, Mathematical Sciences:
  1 Science as a Way of Knowing Course
  1 Lab Course
  [Note: At least one course must be from Biological Sciences and one from Chemistry, Environmental Science, Geography or Physics.]
• 1 course required for students whose second major is Biological Sciences (cannot be a BIO course), Chemistry (must be a BIO course), Environmental Science (must be STEM 230) or Physics (must be a BIO course)

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
• 3 courses for students whose second major is Art Media and Design, Biological Sciences, Chemistry, English, Environmental Science, Physics. Note: PSC 120 must be one of these classes
• 2 courses required for students whose second major is History, Mathematical Sciences. Note: PSC 120 must be one of these classes

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Select one EDUCATION ELECTIVE (approval of advisor required)

Discipline Area Major

Open electives that fill out the credit hour requirements for a degree in the proposed Secondary Education major can be/should be used to complete coursework toward the disciplinary area major. The following table identifies the number of open electives required/necessary for each concentration (disciplinary area) within the Secondary Education major based on current disciplinary area major requirements. These hours equal the credit hours required for each identified disciplinary area major:

- Biology = 100 credit hours
- Chemistry:
  - BA = 68 credit hours
  - BS = 92 credit hours
- English = 56 credit hours
- Environmental Science:
  - BA = 66 credit hours
  - BS = 96 credit hours
- History = 60
- Mathematics:
  - BA/BS = 60-64 credit hours
  - Physics = 88-96 credit hours
  - Visual Arts = 76 credit hours

These credit hour requirements are subject to revision based on disciplinary area major coursework revisions.

Open Electives

Depending on the disciplinary area major, additional open elective credit may be required to reach the minimum number of hours for an undergraduate degree.

Student Teaching

Student Teaching: 10 quarter hours required, grade of B- or better required

Registration in student teaching requires completion of all requirements and procedures in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. All students also take SEC 387, Capstone Seminar with student teaching (listed in the Liberal Studies section).

Licensure Test

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Major for double major students must complete the following tests:

- Content Area Test for the disciplinary area for which the student will be licensed – assesses knowledge of disciplinary content. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Secondary Education Biology (BS)

The Bachelor of Science program in Secondary Education Biology prepares students to teach 5th through 12th grade in a variety of urban and suburban education settings, including public and private middle schools and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student's choice of major. Students follow a general pattern of
study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

NOTE: Secondary Education students now have the option to double major in Secondary Education and Biological Sciences. With the double major, students will graduate with a Bachelor of Science degree with a major in Secondary Education and a major in Biological Sciences. Students should declare Secondary Education as their primary major (see Secondary Education BA/BS for degree requirements) and Biological Sciences (see Biological Sciences BS for degree requirements) as their secondary major. If you have already begun the Secondary Education Biology major and want to switch to the Secondary Education Major and Biological Sciences double major, you should contact your academic advisor because the double major may require additional coursework. Students who pursue the Bachelor of Science degree with a major in Secondary Education Biology do not have the option to double major in Biological Sciences.

Licensure

Illinois Professional Educator License with endorsement in Middle and Secondary Education Science-Biology (grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1371) for grades 5-8.

Learning Outcomes

Students will be able to:

- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students’ conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
Students pursuing a Bachelor of Arts degree in the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Skills Building Courses

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing two years of a language sequence in high school
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place.
when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements**
- Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
- Overall cumulative GPA of 2.50 or better
- Cumulative GPA of 2.75 or better in all education courses
- Meet all other program requirements (e.g., modern language and residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test(s)

**Clinical Requirements**
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines**
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

**Licensure**

Requirements for licensure include completion of full bachelor’s degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor's degree. A bachelor's degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson
Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Course  Title  Hours
First Year Program
Chicago Quarter
LSP 110  DISCOVER CHICAGO 4
or LSP 111  EXPLORE CHICAGO
Focal Point
LSP 112  FOCAL POINT SEMINAR 4

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Biology majors must complete the following tests:

- Science: Biology Content Area Test (test #105) – assesses knowledge of both biological science and physical science. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an
outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Secondary Education Chemistry (BS)

The Bachelor of Science program in Secondary Education Chemistry prepares students to teach 5th through 12th grade in a variety of urban and suburban education settings, including public and private middle schools and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student’s choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

NOTE: Secondary Education students now have the option to double major in Secondary Education and Chemistry. With the double major, students will graduate with a Bachelor of Arts or Bachelor of Science degree with a major in Secondary Education and a major in Chemistry. With the double major, you should contact your academic advisor to design and monitor your program of study.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

NOTE: Secondary Education students now have the option to double major in Secondary Education and Chemistry. With the double major, students will graduate with a Bachelor of Arts or Bachelor of Science degree with a major in Secondary Education and a major in Chemistry. Students should declare Secondary Education as their primary major (see Secondary Education BA/BS for degree requirements) and Chemistry (see Chemistry BA or Chemistry BS for degree requirements) as their secondary major. If you have already begun the Secondary Education Chemistry major and want to switch to the Secondary Education Major and Chemistry double major, you should contact your academic advisor because the double major may require additional coursework. Students who pursue the Bachelor of Science degree with a major in Secondary Education Chemistry do not have the option to double major in Chemistry.

Licensure

Illinois Professional Educator License with endorsement in Middle and Secondary Education Science-Chemistry (grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1371) for grades 5-8.

Learning Outcomes

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students’ conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.

College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
• Takes initiative
• Is open to new ideas and engagement in learning
• Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
• Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Demonstrates consistent professional behavior across all academic settings
• Maintains appropriate interpersonal and professional boundaries
• Accepts personal responsibility for one’s behavior
• Expresses feelings and opinions effectively and appropriately
• Upholds confidentiality

Skill Building Courses
Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement
Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

• completing two years of a language sequence in high school
• completing the last course in the first-year college sequence of any language
• completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student.
into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements
• Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
• Overall cumulative GPA of 2.50 or better
• Cumulative GPA of 2.75 or better in all education courses
• Meet all other program requirements (e.g., modern language and residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test(s)

Clinical Requirements
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure
Requirements for licensure include completion of full bachelor’s degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor’s degree. A bachelor’s degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.
All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1. Students must earn a C- or better in this course.
2. This must be taken with student teaching. Students must earn a C or better in this course.

**Learning Domains**

Arts and Literature (AL) (p. 1300)
- 3 Courses Required

Historical Inquiry (HI) (p. 1304)
- 2 Courses Required
  (Note: One must be US History.)

Math and Computing (MC) (p. 1306)
- Not Required

Philosophical Inquiry (PI) (p. 1307)
- 2 Courses Required
  - LSE 380
  - 1 Additional Course
  (Note: PHL 100 recommended)

Religious Dimensions (RD) (p. 1308)
- 2 Courses Required

Scientific Inquiry (SI) (p. 1310)
- 1 SWK Course Required
  (Note: This must be in Biology.)

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
- 3 Courses Required
  - PSC 120
  - 2 Additional Courses

**Notes**

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

</tbody>
</table>

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Chemistry majors must complete the following tests:

- Science: Chemistry Content Area Test (test #106) – assesses knowledge of both geological and chemical science. Test is required before Student Teaching (deadlines apply)
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.
Secondary Education English (BA)

The Bachelor of Arts program in Secondary Education English prepares students to teach 5th through 12th grade in a variety of urban and suburban education settings, including public and private middle schools and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student's choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

NOTE: Secondary Education students now have the option to double major in Secondary Education and English. With the double major, students will graduate with a Bachelor of Arts degree with a major in Secondary Education and a minor in English. Students should declare Secondary Education as their primary major (see Secondary Education BA/BS for degree requirements) and English (see English BA for degree requirements) as their secondary major. If you have already begun the Secondary Education English major and want to switch to the Secondary Education Major and English double major, you should contact your academic advisor because the double major may require additional coursework. Students who pursue the Bachelor of Arts degree with a major in Secondary Education English do not have the option to double major in English.

Licensure

Illinois Professional Educator License with endorsement in Middle and Secondary Education English Language Arts (grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1371) for grades 5-8.

Learning Outcomes

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students' conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.

College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining
how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
• Takes initiative
• Is open to new ideas and engagement in learning
• Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
• Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Demonstrates consistent professional behavior across all academic settings
• Maintains appropriate interpersonal and professional boundaries
• Accepts personal responsibility for one’s behavior
• Expresses feelings and opinions effectively and appropriately
• Upholds confidentiality

Skill Building Courses
Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement
Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:
• completing two years of a language sequence in high school
• completing the last course in the first-year college sequence of any language
• completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education - SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.
Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements
• Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
• Overall cumulative GPA of 2.50 or better
• Cumulative GPA of 2.75 or better in all education courses
• Meet all other program requirements (e.g., modern language and residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test(s)

Clinical Requirements
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Content areas tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure
Requirements for licensure include completion of full bachelor’s degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor’s degree. A bachelor’s degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.
**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

</table>

<sup>1</sup> Students must earn a C- or better in this course.

<sup>2</sup> Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

<sup>3</sup> This must be taken with student teaching. Students must earn a C or better in this course.

**Learning Domains**

**Arts and Literature (AL)** (p. 1300)
- 1 Course Required
  (Note: This must not be in English.)

**Historical Inquiry (HI)** (p. 1304)
- 2 Courses Required
  (Note: One must be US History)

**Math and Computing (MC)** (p. 1306)
- 2 Courses Required
  (1 CR Course and 1 SR Course)

**Philosophical Inquiry (PI)** (p. 1307)
- 2 Courses Required
  - LSE 380
  - 1 Additional Course
    (Note: PHL 100 recommended)

**Religious Dimensions (RD)** (p. 1308)
- 2 Courses Required

**Scientific Inquiry (SI)** (p. 1310)
- 2 Courses Required:
  - 1 BIO Course
  - 1 CHE/ENV/GEO/PHY Course
  (Note: One course above must be SI-LAB.)

**Social, Cultural, and Behavioral Inquiry (SCBI)** (p. 1312)
- 3 Courses Required
  - PSC 120
  - 2 Additional Courses

**Notes**

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

#### Student Teaching: 10 quarter hours required, grade of B- or better required

Registration in student teaching requires completion of all requirements and procedures indicated in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. All students also take SEC 387, Capstone Seminar with student teaching (listed in the Liberal Studies section).

### Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education English majors must complete the following tests:

- English Language Arts Content Area Test (test #207) – assesses reading, writing and research, speaking and listening, and literature. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an
outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Secondary Education Environmental Science (BS)

The Bachelor of Science program in Secondary Education Environmental Science prepares students to teach 5th through 12th grade in a variety of urban and suburban education settings, including public and private middle schools and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student’s choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

NOTE: Secondary Education students now have the option to double major in Secondary Education and Environmental Science. With the double major, students will graduate with a Bachelor of Science degree with a major in Secondary Education and a major in Environmental Science. Students should declare Secondary Education as their primary major (see Secondary Education BA/BS for degree requirements) and Environmental Science (see Environmental Science BS for degree requirements) as their secondary major. If you have already begun the Secondary Education Environmental Science major and want to switch to the Secondary Education Major and Environmental Science double major, you should contact your academic advisor because the double major may require additional coursework. Students who pursue the Bachelor of Science degree with a major in Secondary Education Environmental Science do not have the option to double major in Environmental Science.

Licensure

Illinois Professional Educator License with endorsement in Middle and Secondary Education Science-Environmental Science (grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1371) for grades 5-8.

Learning Outcomes

Students will be able to:

• Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
• Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students’ conceptual understanding and disciplinary literacy.
• Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
• Implement assessment practices to evaluate student learning and inform instruction.
• Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.

College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

• Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
The following dispositions apply to Special Education majors only:

- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is receptive to faculty feedback and acts meaningfully and appropriately
- Upholds confidentiality

**Skill Building Courses**

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

**Modern Language Competence Requirement**

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing two years of a language sequence in high school
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.
Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements
- Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
- Overall cumulative GPA of 2.50 or better
- Cumulative GPA of 2.75 or better in all education courses
- Meet all other program requirements (e.g., modern language and residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test(s)

Clinical Requirements
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).

- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure
Requirements for licensure include completion of full bachelor’s degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor’s degree. A bachelor’s degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per
the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

</tbody>
</table>

1. Students must earn a C- or better in this course.
2. Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.
3. This must be taken with student teaching. Students must earn a C or better in this course.

**Learning Domains**

- **Arts and Literature (AL) (p. 1300)**
  - 3 Courses Required

- **Historical Inquiry (HI) (p. 1304)**
  - 2 Courses Required
  (Note: One must be US History)

- **Math and Computing (MC) (p. 1306)**
  - 1 Course Required
  (1 CR Course or 1 SR Course)

- **Philosophical Inquiry (PI) (p. 1307)**
  - 2 Courses Required:
    - LSE 380
    - 1 Additional Course
    (Note: PHL 100 recommended)

- **Religious Dimensions (RD) (p. 1308)**
  - 2 Courses Required

- **Scientific Inquiry (SI) (p. 1310)**
  - PHY 104 or PHY 220 or GEO 225
  (Note: Science as a Way of Knowing and Lab course requirements are met through the Science Core within the major.)

- **Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)**
  - 3 Courses Required
    - PSC 120
    - 2 Additional Courses

**Notes**

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit.
This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Environmental Science majors must complete the following tests:
• Science: Environmental Science Content Area Test (test #112) – assesses knowledge of life science, physical science, and the living environment. Test is required before Student Teaching (deadlines apply).

• EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Secondary Education History (BA)

The Bachelor of Arts program in Secondary Education History prepares students to teach 5th through 12th grade in a variety of urban and suburban education settings, including public and private middle schools and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student’s choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

NOTE: Secondary Education students now have the option to double major in Secondary Education and History. With the double major, students will graduate with a Bachelor of Arts degree with a major in Secondary Education and a major in History. Students should declare Secondary Education as their primary major (see Secondary Education BA/BS for degree requirements) and History (see History BA for degree requirements) as their secondary major. If you have already begun the Secondary Education History major and want to switch to the Secondary Education Major and History double major, you should contact your academic advisor because the double major may require additional coursework. Students who pursue the Bachelor of Arts degree with a major in Secondary Education History do not have the option to double major in History.

Licensure

Illinois Professional Educator License with endorsement in Middle and Secondary Education Social Science-History (grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1371) for grades 5-8.

Learning Outcomes

Students will be able to:

• Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.

• Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students’ conceptual understanding and disciplinary literacy.

• Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.

• Implement assessment practices to evaluate student learning and inform instruction.

• Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.

College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

• Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices

• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions

• Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)

• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
The following dispositions apply to Special Education majors only:

- Demonstrates consistent professional behavior across all academic settings
- Achieves professional ethical and legal behavior as defined by the college
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning
- Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Demonstrates consistent professional behavior across all academic settings

Skill Building Courses

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- Completing two years of a language sequence in high school
- Completing the last course in the first-year college sequence of any language
- Completing a college course beyond the first-year level in any language
- Achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- Achieving a satisfactory rating in a proficiency examination accepted by DePaul
- Achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- Achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- Achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.
Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements
• Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
• Overall cumulative GPA of 2.50 or better
• Cumulative GPA of 2.75 or better in all education courses
• Meet all other program requirements (e.g., modern language and residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test(s)

Clinical Requirements
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure
Requirements for licensure include completion of full bachelor’s degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor’s degree. A bachelor’s degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per
the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

</thead>
<tbody>
<tr>
<td>SEC 387</td>
<td>CAPSTONE SEMINAR IN SECONDARY EDUCATION</td>
<td>2</td>
</tr>
</tbody>
</table>

1. Students must earn a C- or better in this course.
2. Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.
3. This must be taken with student teaching. Students must earn a C or better in this course.

**Learning Domains**

**Arts and Literature (AL)** (p. 1300)
- 3 Courses Required

**Historical Inquiry (HI)** (p. 1304)
- 1 Course Required
  (Note: Must be US History)

**Math and Computing (MC)** (p. 1306)
- 2 Courses Required
  (1 CR Course and 1 SR Course)

**Philosophical Inquiry (PI)** (p. 1307)
- 2 Courses Required:
  - LSE 380
  - 1 Additional Course
  (Note: PHL 100 recommended)

**Religious Dimensions (RD)** (p. 1308)
- 2 Courses Required

**Scientific Inquiry (SI)** (p. 1310)
- 2 Courses Required:
  - 1 BIO Course
  - 1 CHE/ENV/GEO/PHY Course
  (Note: One course above must be SI-LAB.)

**Social, Cultural, and Behavioral Inquiry (SCBI)** (p. 1312)
- 2 Courses Required:
  - PSC 120
  - 1 ECO Course

**Notes**

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.
In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education History majors must complete the following tests:

- Social Science: History Content Area Test (test #246) – assesses and measures the candidate’s core knowledge across history and social science fields. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

---

**Secondary Education Mathematics (BA)**

The Bachelor of Arts program in Secondary Education Mathematics prepares students to teach 5th through 12th grade in a variety of urban
and suburban education settings, including public and private middle schools and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student’s choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB opens expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

Note: Secondary Education students now have the option to double major in Secondary Education and Mathematical Sciences. With the double major, students will graduate with a Bachelor of Arts degree with a major in Secondary Education and a major in Mathematical Sciences. Students should declare Secondary Education as their primary major (see Secondary Education BA/BS for degree requirements) and Mathematical Sciences (see Mathematical Sciences BA for degree requirements) as their secondary major. If you have already begun the Secondary Education Mathematics major and want to switch to the Secondary Education Major and Mathematical Sciences Double Major, you should contact your academic advisor because the double major may require additional coursework. Students who pursue the Bachelor of Science degree with a major in Secondary Education Mathematics do not have the option to double major in Mathematical Sciences.

Licensure

Illinois Professional Educator License with endorsement in Middle and Secondary Education Mathematics (grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1371) for grades 5-8.

Learning Outcomes

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students' conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.

College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices.
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions.
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts).
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats.
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge.
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching.
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being.
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively.
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
• Takes initiative
• Is open to new ideas and engagement in learning
• Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
• Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Demonstrates consistent professional behavior across all academic settings
• Maintains appropriate interpersonal and professional boundaries
• Accepts personal responsibility for one’s behavior
• Expresses feelings and opinions effectively and appropriately
• Upholds confidentiality

Skill Building Courses
Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement
Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

• completing two years of a language sequence in high school
• completing the last course in the first-year college sequence of any language
• completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.
Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements
• Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
• Overall cumulative GPA of 2.50 or better
• Cumulative GPA of 2.75 or better in all education courses
• Meet all other program requirements (e.g., modern language and residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test(s)

Clinical Requirements
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On-screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure
Requirements for licensure include completion of full bachelor's degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor's degree. A bachelor's degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.
Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

1 Taken in conjunction with TCH 383.

**Bachelor of Science Requirements**

To qualify for the Bachelor of Science degree, complete 4 quarter hours in natural or computer science beyond the requirements for the Bachelor of Arts degree. Please consult your advisor for approval of appropriate natural and computer science courses.

**Open Electives:** 4 quarter hours are required

Open elective credit also is required to meet the minimum graduation requirement of 192 hours. The following cannot be used to fulfill an open elective: WRD 98, MAT 94, MAT 95.

**Student Teaching:** 10 quarter hours required, grade of B- or better required

Registration in student teaching requires completion of all requirements and procedures indicated in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. All students also take SEC 387, Capstone Seminar with student teaching (listed in the Liberal Studies section).
Secondary Education Mathematics (BS)

The Bachelor of Science program in Secondary Education Mathematics prepares students to teach 5th through 12th grade in a variety of urban and suburban education settings, including public and private middle schools and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student’s choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

NOTE: Secondary Education students now have the option to double major in Secondary Education and Mathematical Sciences. With the double major, students will graduate with a Bachelor of Science degree with a major in Secondary Education and a major in Mathematical Sciences. Students should declare Secondary Education as their primary major (see Secondary Education BA/BS for degree requirements) and Mathematical Sciences (see Mathematical Sciences BS for degree requirements) as their secondary major. If you have already begun the Secondary Education Mathematics major and want to switch to the Secondary Education Major and Mathematical Sciences double major, you should contact your academic advisor because the double major may require additional coursework. Students who pursue the Bachelor of Science degree with a major in Secondary Education Mathematics do not have the option to double major in Mathematical Sciences.

Learning Outcomes

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students’ conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.

College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical
Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
- Takes initiative
- Is open to new ideas and engagement in learning
- Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students' learning
- Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Demonstrates consistent professional behavior across all academic settings
- Maintains appropriate interpersonal and professional boundaries
- Accepts personal responsibility for one's behavior
- Expresses feelings and opinions effectively and appropriately
- Upholds confidentiality

**Skill Building Courses**

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

**Modern Language Competence Requirement**

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing two years of a language sequence in high school
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.
B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements
- Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
- Overall cumulative GPA of 2.50 or better
- Cumulative GPA of 2.75 or better in all education courses
- Meet all other program requirements (e.g., modern language and residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test(s)

Clinical Requirements
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Content areas tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).
Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure
Requirements for licensure include completion of full bachelor's degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor's degree. A bachelor's degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 Taken in conjunction with TCH 383.
Bachelor of Science Requirements: 4 quarter hours are required

- 4 additional quarter hours in natural or computer science. Please consult your advisor for approval of appropriate natural and computer science courses.

Open Electives: 4 quarter hours are required

Open elective credit also is required to meet the minimum graduation requirement of 192 hours. The following cannot be used to fulfill an open elective: WRD 98, MAT 94, and MAT 95.

Student Teaching: 10 quarter hours required, grade of B- or better required

Registration in student teaching requires completion of all requirements and procedures indicated in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. All students also take SEC 387, Capstone Seminar with student teaching (listed in the Liberal Studies section).

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Mathematics majors must complete the following tests:

- Mathematics Content Area Test (test #208) – assesses knowledge of both the processes and applications of mathematics. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Secondary Education Physics (BS)

The Bachelor of Science program in Secondary Education Physics prepares students to teach 5th through 12th grade in a variety of urban and suburban education settings, including public and private middle schools and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student’s choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

Learning Outcomes

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students’ conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

NOTE: Secondary Education students now have the option to double major in Secondary Education and Physics. With the double major, students will graduate with a Bachelor of Science degree with a major in Secondary Education and a major in Physics. Students should declare Secondary Education as their primary major (see Secondary Education BA/BS for degree requirements) and Physics (see Physics BS for degree requirements) as their secondary major. If you have already begun the Secondary Education Physics major and want to switch to the Secondary Education Major and Physics Major double major, you should contact your academic advisor because the double major may require additional coursework. Students who pursue the Bachelor of Science degree with a major in Secondary Education Physics do not have the option to double major in Physics.

Licensure

Illinois Professional Educator License with endorsement in Middle and Secondary Education Science-Physics (grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1371) for grades 5-8.

• Implement assessment practices to evaluate student learning and inform instruction.
• Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.

College Core Requirements

Dispositions
The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

• Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development

• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
• Takes initiative
• Is open to new ideas and engagement in learning
• Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
• Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Demonstrates consistent professional behavior across all academic settings
• Maintains appropriate interpersonal and professional boundaries
• Accepts personal responsibility for one’s behavior
• Expresses feelings and opinions effectively and appropriately
• Upholds confidentiality

Skill Building Courses
Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement
Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

• completing two years of a language sequence in high school
• completing the last course in the first-year college sequence of any language
• completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements
• Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
• Overall cumulative GPA of 2.50 or better
• Cumulative GPA of 2.75 or better in all education courses
• Meet all other program requirements (e.g., modern language and residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test(s)

Clinical Requirements
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Content areas tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree.
Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure

Requirements for licensure include completion of full bachelor’s degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor’s degree. A bachelor’s degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged.

The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 Students must earn a C- or better in this course.

2 This must be taken with student teaching. Students must earn a C or better in this course.

Learning Domains

Arts and Literature (AL) (p. 1300)  
• 3 Courses Required

Historical Inquiry (HI) (p. 1304)  
• 2 Courses Required  
(Note: One must be US History)

Math and Computing (MC) (p. 1306)  
• Not Required
Philosophical Inquiry (PI) (p. 1307)
• 2 Courses Required:
  • LSE 380
  • 1 Additional Course
    (Note: PHL 100 recommended)

Religious Dimensions (RD) (p. 1308)
• 2 Courses Required

Scientific Inquiry (SI) (p. 1310)
• 1 SWK Course Required
  (Note: This must be in Biology)

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
• 3 Courses Required:
  • PSC 120
  • 2 Additional Courses

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Physics majors must complete the following tests:

- **Science:** Physics Content Area Test (test #116) – assesses knowledge of both life and physical science, including Earth systems, technology, and the universe. Test is required before Student Teaching (deadlines apply).
- **EdTPA:** Assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Secondary Education Social Science (BA)
The Bachelor of Arts program in Secondary Education Social Science prepares students to teach 5th through 12th grade in a variety of urban and suburban education settings, including public and private middle schools and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student’s choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

Licensure
Illinois Professional Educator License with an endorsement in Middle and Secondary Education Social Science-History (grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1371) for grades 5-8.

Learning Outcomes
Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students' conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.

College Core Requirements
Dispositions
The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
• Takes initiative
• Is open to new ideas and engagement in learning
• Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
• Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
• Takes initiative
• Is open to new ideas and engagement in learning
• Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
• Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf

• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Demonstrates consistent professional behavior across all academic settings
• Maintains appropriate interpersonal and professional boundaries
• Accepts personal responsibility for one’s behavior
• Expresses feelings and opinions effectively and appropriately
• Upholds confidentiality

**Skill Building Courses**

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

**Modern Language Competence Requirement**

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing two years of a language sequence in high school
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level. Modern
Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

**Field Experiences**

Each student seeking licensure from the College of Education/ Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements**

- Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
- Overall cumulative GPA of 2.50 or better
- Cumulative GPA of 2.75 or better in all education courses
- Meet all other program requirements (e.g., modern language and residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test(s)

**Clinical Requirements**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines**

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Content areas tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.
Licensure

Requirements for licensure include completion of full bachelor’s degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor’s degree. A bachelor’s degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.
3 This must be taken with student teaching. Students must earn a C or better in this course.

Learning Domains

Arts and Literature (AL) (p. 1300) • 3 Courses Required
Historical Inquiry (HI) (p. 1304) • 1 Course Required (Note: Must be US History)
Math and Computing (MC) (p. 1306) • 2 Courses Required [1 CR Course and 1 SR Course]
Philosophical Inquiry (PI) (p. 1307) • 2 Courses Required:
  • LSE 380
  • 1 Additional Course (Note: PHL 100 recommended)
Religious Dimensions (RD) (p. 1308) • 2 Courses Required
Scientific Inquiry (SI) (p. 1310) • 2 Courses Required:
  • 1 BIO Course
  • 1 CHE/ENV/GEO/PHY Course (Note: One course above must be SI-LAB.)
Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)

• 2 Courses Required:
  • PSC 120
  • 1 Additional Course
    (Note: An ECO course recommended)

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Social Science majors must complete the following tests:
• Social Science: History Content Area Test (test #246) – assesses and measures the candidate’s core knowledge across history and social science fields. Test is required before Student Teaching (deadlines apply).

• EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Secondary Education Visual Art (BA)

The Bachelor of Arts program in Secondary Education Visual Art prepares students to teach 6th through 12th grade in a variety of urban and suburban education settings, including public and private middle schools and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student’s choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

NOTE: Secondary Education students now have the option to double major in Secondary Education and Art, Media, and Design. With the double major, students will graduate with a Bachelor of Arts degree with a major in Secondary Education and a major in Art, Media, and Design. Students should declare Secondary Education as their primary major (see Secondary Education BA/BS for degree requirements) and Art, Media, and Design (see Art, Media, and Design BA for degree requirements) as their secondary major. If you have already begun the Secondary Education Visual Arts major and want to switch to the Secondary Education Major and Art, Media, and Design double major, you should contact your academic advisor because the double major may require additional coursework. Students who pursue the Bachelor of Arts degree with a major in Secondary Education Visual Arts do not have the option to double major in Art Media and Design.

Licensure

Illinois Professional Educator License with an endorsement in Secondary Education Visual Art (grades 6-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1371) for grades 5-8.

Learning Outcomes

Students will be able to:

• Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.

• Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students’ conceptual understanding and disciplinary literacy.

• Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.

• Implement assessment practices to evaluate student learning and inform instruction.

• Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.

College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

• Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices

• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions

• Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)

• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge

• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching

• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being

• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively

• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner

• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning

• Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students

• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development

• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)

• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy

• Balances self-confidence and assertiveness with respect for others' perspectives

• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the perspectives and diplomacy etc.)

• Upholds confidentiality

Skill Building Courses

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

• completing two years of a language sequence in high school

• completing the last course in the first-year college sequence of any language

• completing a college course beyond the first-year level in any language

• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul

• achieving a satisfactory rating in a proficiency examination accepted by DePaul

• achieving a score of 3 or higher on the Advance Placement (AP) test for any language

• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program

• achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.
Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements
• Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
• Overall cumulative GPA of 2.50 or better
• Cumulative GPA of 2.75 or better in all education courses
• Meet all other program requirements (e.g., modern language and residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test(s)

Clinical Requirements
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Content areas tests must be passed prior to Student Teaching (deadlines apply).

• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/

Licensure
Requirements for licensure include completion of full bachelor’s degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor’s degree. A bachelor’s degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per
the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1. Students must earn a C- or better in this course.

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120.

The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

3. This must be taken with student teaching. Students must earn a C or better in this course.

**Learning Domains**

**Arts and Literature (AL) (p. 1300)**
- 1 Course Required
  (Note: This must not be an ART or HAA course.)

**Historical Inquiry (HI) (p. 1304)**
- 2 Courses Required
  (Note: One must be US History)

**Math and Computing (MC) (p. 1306)**
- 2 Courses Required
  [1 CR Course and 1 SR Course]

**Philosophical Inquiry (PI) (p. 1307)**
- 2 Courses Required
  - LSE 380
  - 1 Additional Course
  (Note: PHL 100 recommended)

**Religious Dimensions (RD) (p. 1308)**
- 2 Courses Required

**Scientific Inquiry (SI) (p. 1310)**
- 2 Courses Required
  - 1 BIO Course
  - 1 CHE/ENV/geo/PY Course
  (Note: One course above must be SI-LAB.)

**Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)**
- 3 Courses Required
  - PSC 120
  - 2 Additional Courses

**Notes**

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.
Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

1 Taken in conjunction with SEC 366.

#### Open Electives: 8 quarter hours are required

Open elective credit also is required to meet the minimum graduation requirement of 192 hours. The following cannot be used to fulfill an open elective: WRD 98, MAT 94, and MAT 95.

#### Student Teaching: 10 quarter hours required, grade of B- or better required

Registration in student teaching requires completion of all requirements and procedures indicated in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. All students also take SEC 387, Capstone Seminar with student teaching (listed in the Liberal Studies section).

<table>

</tr>
</tbody>
</table>

#### Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Visual Art majors must complete the following tests:

- Visual Art Content Area Test (test #145) – assesses elements, principles, and expressive features of the visual arts; creating and producing works of visual art; analyzing and evaluating works of visual art; and the role of the visual arts. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

## Social Research Certificate

The Certificate in Social Research familiarizes students with the choices they can make in designing social science research and to help them
select the research tools that are right for the types of questions they are asking. The four-course program provides knowledge of current research designs, methods, and practices; quantitative and statistical skills; and the logic of inquiry.

A number of Sociology MA students may wish to obtain the certificate as part of their degree program. The certificate is also useful for students in fields ranging from the social and behavioral sciences to communication and education.

**Course Requirements**

**Core Courses**

Two core courses are required:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC 402</td>
<td>STATISTICS FOR THE SOCIAL SCIENCES</td>
<td>4</td>
</tr>
<tr>
<td>SOC 412</td>
<td>DATA ANALYSIS</td>
<td>4</td>
</tr>
<tr>
<td>SOC 450</td>
<td>ADVANCED STATISTICS I</td>
<td>1</td>
</tr>
<tr>
<td>SOC 411</td>
<td>SOCIAL RESEARCH</td>
<td>2</td>
</tr>
</tbody>
</table>

1. Students will be placed in the appropriate quantitative/statistics class on the basis of their graduate and undergraduate work.
2. This class also includes the requirement of obtaining an online certificate in the protection of human subjects - currently offered through the DePaul Institutional Review Board [IRB] and Collaborative Institutional Training Initiative [CITI].

**Elective Courses**

Select two of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC 412</td>
<td>DATA ANALYSIS</td>
<td>4</td>
</tr>
<tr>

<tr>
<td>SOC 423</td>
<td>URBAN ETHNOGRAPHY</td>
<td>4</td>
</tr>
<tr>
<td>SOC 493</td>
<td>VISUAL SOCIOLOGY</td>
<td>4</td>
</tr>
</tbody>
</table>

**Social Work (MSW)**

The Master of Social Work (MSW) degree program is designed to prepare students for advanced social work, with an emphasis on either community practice or forensic social work. The MSW degree prepares its graduates for work and leadership in broad and varied human service organizations which span child welfare, health and mental health, community planning, family services and the like. All students are required to complete 88 quarter hour credits; this includes 24 hours of field education. The program can be completed in either a full-time (two years) or part-time (three or four years) basis. The curriculum consists of foundation (beginning) and concentration (or advanced) content ranging from professional writing, human behavior, social welfare policy, social work research, program evaluation, fund development, beginning social work practice and either advanced community practice or forensic social work.

The MSW degree may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MSW/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- MSW + Global Health Certificate (p. 551)
- MSW + Social Research Certificate (p. 1043)
- MSW + Critical Ethnic Studies Certificate (p. 304)

**Program Requirements**

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>88</td>
</tr>
</tbody>
</table>

**Learning Outcomes**

Students will be able to:

- Be knowledgeable of the profession's ethics and value base and practice accordingly.
- Practice within the context of striving for justice and will therefore practice antidiscrimination, especially with respect to clients from historically oppressed groups including women, children, the poor, people of color, people with disabilities, the aged, gay, lesbian, and trans-gendered people, people from various ethnic-cultural backgrounds, people with diverse religious beliefs, recently-arrived immigrants, and people for whom English is a second language.
- Apply select advocacy and social change strategies while working for justice.
- Apply the knowledge and skills of a generalist professional perspective to practice with client systems of all sizes.
- Apply select theoretical frameworks to understand human development and behaviors across the lifespan and interactions among and between individuals, families, groups, communities, organizations and institutions.
- Analyze and influence social policies and their impacts.
- Critically assess research, apply research findings to practice, and evaluate their own practice.
- Communicate effectively with multiple audiences, using various media.
- Use supervision effectively and accept constructive feedback regarding their practice interventions.
- Operate effectively within organizations and work to change organizations in the quest for justice.
- Apply select theoretical frameworks and constructs from community practice to analyze, intervene, and evaluate interventions with client systems of all sizes.
- Work collaboratively with professionals (including those from other disciplines) and autonomously.
- Be lifelong learners and be knowledgeable of licensure, continuing education, and on-going professional learning demands.
Degree Requirements

Course Requirements

All candidates for the MSW degree enrolled in the 2-year or the 4-year program must complete 88 credit hours of course work, including 56 credit hours (14 courses) of course work detailed below:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>

</tr>
</tbody>
</table>

Select eight credit hours of graduate level study (400 and above) as electives

1 Special topics courses (MSW 450) are included as possible electives.

In addition to the requirements listed above, students must select and complete requirements for a concentration, detailed under the "Concentration Requirements" tab of this page.

MSW 499 is also available as an elective or substitution for some courses.

Notice for Graduates of CSWE-Accredited Baccalaureate Programs

Every candidate for the MSW degree has to demonstrate competencies in the professional foundation of social work. For graduates of CSWE-accredited baccalaureate programs, up to 12 credit hours of eligible coursework can be waived if applicants received a grade of 'B' or better in corresponding undergraduate courses. These courses are limited to the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MSW 411</td>
<td>HUMAN BEHAVIOR AND THE SOCIAL ENVIRONMENT I</td>
<td></td>
</tr>
<tr>
<td>MSW 421</td>
<td>INTRODUCTION TO SOCIAL WORK RESEARCH</td>
<td></td>
</tr>
<tr>
<td>MSW 431</td>
<td>SOCIAL WELFARE POLICY I</td>
<td></td>
</tr>
</tbody>
</table>

Applicants are assessed at the time of admission. The waivers will not count as graduate credits earned and all students granted course waivers status must meet all other requirements of the program, including a minimum of 76 earned graduate credit hours for degree completion.

Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:

- Community Practice Concentration, Social Work (MSW) (p. 1046)
- Forensic Social Work Concentration, Social Work (MSW) (p. 1046)

Student Handbook

Mission Statement

The DePaul University Master of Social Work extends the university's global Vincentian mission of service to marginalized groups, particularly those in the Chicago urban community. The program offers rigorous, personalized, and responsive education, through collaboration with university and community partners in pursuit of social and economic justice. The DePaul University Master of Social Work Program is designed to foster excellence in community-based practice with an emphasis on ethics, leadership, and scholarship. Below are terms and/or academic designations which support the admissions, academic, and matriculation components.

Probation

Students enrolled in the MSW degree program will be placed on probation when their grade point average (GPA) falls below a 2.5, or when a student receives a rating of inadequate in one or more areas of the program's professional comportment matrix. All students placed on probation will be required to take part in a continuance review to consider their plans for remediation and (possible) continuation in the MSW degree program. Students placed on probation will not be allowed to re-enroll in the program until the student has met all of the academic and professional conditions set forth in a formal continuance hearing. Students who elect not to participate in continuance reviews will be subject to dismissal from the program. Students who are dismissed can make a formal petition for reconsideration which should be addressed to the Dean of the College of Liberal Arts and Social Sciences or their representative.

Dismissal

Students who fail to acquire a professional field placement after a minimum of three attempts by the program to facilitate internship arrangements, who receive failing grades in either practice (MSW courses 481-483, and either MSW courses 561-563 or 581-583) or field education (MSW courses 491-493, and either MSW courses 571-573 or 591-593), who are dismissed from field due to poor performance, or who fail to make sufficient progress towards degree completion, who are found to be inadequate in one or more areas of the program's professional comportment matrix, and/or who are found in violation with one or more of the National Association of Social Worker's Code of Ethics, may be dismissed from the MSW degree program upon the completion of a continuance review. Students who elect not to participate in continuance reviews will be subject to dismissal from the program. Students who are dismissed can make a formal petition for reconsideration which should be addressed to the Dean of the College of Liberal Arts and Social Sciences or their representative.

Readmission

Students requesting readmission into the program after probation and/or dismissal must make their request in writing, based on criteria set forth in the University's Graduate Student Handbook, the MSW Student Handbook, and/or the conditions set forth in the letter of termination or dismissal from the program. In order to be readmitted to the program, students must be able to secure an approved professional internship.
placement under the auspices of the MSW program’s Office of Field Education.

**Transfer Credit**

Students who are accepted for admission into the MSW degree program can request that graduate course work done in other accredited institutions (or other graduate degree programs at DePaul University) be considered for academic credit in the MSW Program. The Transfer of Credit Request Form must be completed by students and can be found in the appendix of the MSW Student Handbook. Students may not apply for transfer credit if those courses were counted toward a previous, completed degree.

Students should make their request (in writing) either at the time of admission or before the end of their first academic quarter of enrollment. Students can apply transfer credits for up to twelve (12) hours of academic study in the MSW degree program. Student requests must be based on completed work and must be substantiated by transcripts (indicating grades earned) and other supporting documentation, including course syllabi, graded assignments, etc. (in addition to the form). Students must have received a grade of B or better in courses being considered for transfer credit.

Students will not be granted credit for field education, practice or concentration courses in the MSW degree program (MSW 481, MSW 482, MSW 483, MSW 491, MSW 492, MSW 493 or 500-level MSW course). Students may not apply for transfer credit if those courses were counted towards a previous, completed degree. Requests submitted after the conclusion of the student’s first quarter of enrollment in the MSW program may not be reviewed. Students will be notified (in writing) of the program’s decision regarding their transfer request.

**Undergraduate Courses**

The program does not currently accept any undergraduate level courses for credit in the graduate curriculum.

**Graduation Requirements**

Completion of the MSW degree requires a completion of a minimum of 88 quarter hours which can be met on a full-time or part-time basis and include two (academic) year-long, professional internships. All students must maintain an overall grade point average (GPA) of at least 2.75 (on a 4.0 scale) to remain in good standing in the MSW program and the university. While the minimum, overall GPA required to graduate from the program and university is 2.75, DePaul MSW students should note that other programs in social work generally carry the 3.0 GPA as a minimum and upon graduation, DePaul University MSW students are likely to be compared to graduates from programs that have higher grade point expectations. It is the value of the MSW program to provide all students with frequent and proactive feedback regarding their performance(s) in classes and field placement(s). To that end, faculty and staff are committed to ongoing communications regarding student performance to ascertain whether there are certain trends or preventable situations which may impede student learning and professional performance.

**Graduation with Distinction**

The MSW degree program requires an overall GPA of at least 3.9 (on a 4.0 scale) for the designation of graduation with distinction.

**Time Limits**

Graduate students must complete their degree requirements within six years of the date of matriculation in the program. In rare circumstances, the Program Director may grant extensions based on student’s written requests, which must be submitted before the end of the final year of enrollment eligibility.

**Community Practice Concentration, Social Work (MSW)**

**Course Requirements**

The Community Practice concentration requires completion of the following eight courses (32 credit hours):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MSW 501</td>

**Social Work (MSW/MA Women's and Gender Studies)**

The joint MSW/MA in Women’s and Gender Studies offers a unique and cutting edge graduate program with a focus on gender, community, and social justice. Both programs share a synchronicity of mission and focus on social justice efforts at the community level and together they would provide an excellent foundation for developing a women’s and gender studies-based social work career trajectory.

The joint program is designed to give students the opportunity and flexibility to draw from the strengths of both programs as they build a foundation for their chosen work. The program offers both a broad understanding of social work, with a particular focus on community, and a substantive foundation in the theories and scholarship within women's and gender studies, with a particular focus on social justice. Students will have the opportunity to deepen their knowledge in the field of women's
and gender studies directly applicable to their interests in social work and build their knowledge-based skills in social work while obtaining the necessary credential for not only securing employment, but the ability to advance their leadership in the profession.

Sociology is the study of groups, societies, social processes, and institutions. To study these, the department provides a program that focuses on sociological methods (how we know) and sociological theory (how we explain). The curriculum provides students with a basis for understanding and participation in their own communities and enables them to pursue careers and occupations in professions related to sociological knowledge and training.

</tr>
</tbody>
</table>

**Learning Outcomes**

Students will be able to:

- Apply and explain the sociological perspective (including the history of the discipline and its major theorists) to different levels of analysis of social contexts including:
  - Families.
  - Communities.
  - Cities.
  - Regions.
  - Societies at the national and global levels.

- Recognize and use basic qualitative and quantitative research methods, concepts, and procedures for the social sciences.

- Describe the historical context of sociology as a discipline, identify major classical and contemporary theorists, and critically examine key concepts of sociology such as social structures, inequality, deviance, social control, power and authority, complex organizations, and culture related to society and individual behaviors.

- Apply sociological perspectives and skills into the construction of a socially inclusive and just society while also planning a purposeful career path that satisfied personal interests, values, and beliefs.

**College Core Requirements**

**Study in the Major Field**

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by
criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

**Declaration of Major, Minor and Concentration**

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

**The Modern Language Requirement (MLR)**

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

* placing into 104 or above on the DePaul language placement exam
* completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
* completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
* completing the final course of a four-year sequence of the same modern language in high school*
* completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
* completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

**The Modern Language Option (MLO)**

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

**NOTE:** Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

**External Credit and Residency**

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Major Requirements

Sociology majors must complete required core sociology courses, sociology electives, and open electives. The core courses (24 credit hours) give students a foundation in theory, methods, and career development; sociology electives are selected in consultation with the student's academic advisor to identify an area of specialization; and open electives are selected in consultation with the student's academic advisor to meet the minimum graduation requirement of 192 hours.

Core Requirements

<table>

</tr>
</tbody>
</table>

1 The statistics requirement may also be fulfilled by PSY 240, MAT 137, or MAT 242.

Sociology Elective Requirements

Students must complete eight additional courses from sociology 200-level and 300-level courses (32 credit hours). The courses are to be selected in consultation with the student's academic advisor and the courses can be used to make up the student's area of specialization. Students develop a self-defined area of specialization, which reflects the common themes connecting their academic coursework, research and career interests. Previous areas of specializations have included: Health and Human Services; Law, Crime, and Criminology; Urban - Cities, Action, Power, Practice; and Sociology of Culture.

NOTE: A minimum of three courses or twelve credits can be counted toward a student's area of specialization. A maximum of eight credits of SOC 398 INTERNSHIP can be counted toward major field credit. Additional SOC 398 credit may be earned but it will count for open elective credit or Experiential Learning (EL) credit, if applicable.

### Open Electives Requirement

Open elective credits are required in order to meet the minimum graduation requirement of 192 hours. These courses are to be selected...
in consultation with the student's academic advisor and may include courses in fields such as psychology, criminology, marketing, health sciences, or other areas of student interest. Students may choose to use their open electives as part of a minor or to complete a double major.

**Sociology 3+3 (BA+JD)**

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

**Key Program Features**

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

**Program Requirements**

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law's online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant's third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 677).

**Financial Aid**

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law's median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

**Sociology BA + Secondary Education Social Science MEd**

The combined Bachelor’s + Master of Arts degree programs allow students to complete 12 graduate credit hours while still enrolled as undergraduates. This option is available to Sociology majors as well as any undergraduate major at DePaul University. These 12 graduate credit hours can count as elective courses in their senior year as an undergraduate and they comprise the first year of the MA degree in Sociology. Combined degree participants will be awarded their bachelor’s degrees upon completion of their undergraduate degree requirements. The MA degree will be awarded upon completion of the graduate degree requirements.

The TEACH Program combines a Liberal Arts and Social Sciences (LAS) undergraduate Social Science major (Anthropology, Economics, Geography, History, Political Science, or Sociology) or a Science and Health (Psychology) major with a graduate level College of Education (COE) Master’s in Education Program. Students graduate with a BA or BS in their disciplinary major and a MEd in Education with State of Illinois Secondary Social Science licensure.

Students may apply to the TEACH Program during the spring of their junior year. They must enroll in the Junior Year Experiential Learning course, TCH 320, and meet other application criteria; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 grade point average. During their senior year, students are required to complete a TEACH Program capstone course, TCH 390, and three 400-level courses that count toward both their undergraduate and graduate degrees.

**Junior Year Coursework: 4 undergraduate quarter hours required**

Social Science Content Area (grades of C or better required for licensure):

The following Social Science content area requirements are required. These can be taken as part of the major, liberal studies or open elective requirements:

- HST 298
- HST 299
- 3 United States History courses
- 2 Non-United States History courses
- 6 from the sociology major
- Additional licensure requirements: (one course in each area required)
  - Geography (GEO 101 recommended)
  - Economics (ECO 106 recommended)
  - Political Science (PSC 120 recommended)
  - Psychology (PSY 105 recommended)
  - Anthropology (ANT 102 recommended)

Students apply to this program in spring of their junior year; interested students should meet with the Director of the program. Students in this program take twelve graduate credit hours in their senior year; these graduate courses apply toward both undergraduate and graduate Sociology requirements. An application to the Sociology BA + Sociology MA program is required. Students accepted to the Sociology BA + Sociology MA program must register for graduate classes in consultation with the Graduate Program Director.

Students with a BA in sociology will have the following three courses substituted for three 400-level courses, which will count toward both undergraduate and graduate degree programs:

- Three Sociology elective courses at the 200 or 300-level

**Sociology MA, Combined Bachelor’s + Master’s Degree**

The combined Bachelor’s + Master of Arts degree programs allow students to complete 12 graduate credit hours while still enrolled as undergraduates. This option is available to Sociology majors as well as any undergraduate major at DePaul University. These 12 graduate credit hours can count as elective courses in their senior year as an undergraduate and they comprise the first year of the MA degree in Sociology. Combined degree participants will be awarded their bachelor’s degrees upon completion of their undergraduate degree requirements. The MA degree will be awarded upon completion of the graduate degree requirements.

**DePaul Undergraduate Degree + Sociology (MA)**

Current DePaul undergraduate students with junior status (at least 88 credit hours) and a cumulative DePaul grade point average of 3.00 are eligible to apply to the Combined Bachelor’s/MA program in Sociology. The application must be submitted no later than the end of the spring quarter of the junior year. Students will take three graduate elective courses in their senior year as an undergraduate; these courses comprise the first year of the MA degree program in Sociology.

The MA degree requirements are found here (p. 1053).

**Sociology (MA)**

The graduate program in Sociology enables students to study sociological principles, methods of inquiry, and analysis of sociological findings in areas of current interest. Training at the master’s level in sociology is applicable to employment in such areas as urban planning, public and private administration, marketing, research, health and welfare services, youth services, law enforcement, corrections services, community organizations, and education. The MA in Sociology can also
serve as preparation for entry into PhD programs and further professional training.

A limited number of assistantships are available to graduate students. Additional information is available upon written or e-mail request to the chair or graduate program director of the Department of Sociology.

The MA in Sociology may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

• Sociology + Global Health Certificate
• Sociology + Public Health Certificate
• Sociology + Social Research Certificate
• Sociology + Women's and Gender Studies Certificate

</tbody>
</table>

### Learning Outcomes

Students will be able to:

- Describe theories and concepts of the field and recognize their role in empirical research.
- Apply understanding of terminology, research strategies, and qualitative and quantitative data production and analysis techniques to read critically in the discipline.
- Plan a research project, develop it through research activities, and produce a finished report in writing or another appropriate medium such as film or photo-documentation.
- Identify ethical issues associated with human subjects/participant protection.
- Understand the urban setting as a key context for modern social processes at the local, national, and global level.

### Degree Requirements

</tr>
</tbody>
</table>

Students entering the program with proficiency in statistics may take a placement test to determine eligibility to waive out of the SOC 402 requirement.

Students receiving more than two incompletes will not be allowed to register for courses until the incompletes are resolved.

### The Final Writing Project

Students will design and complete a final writing project, and SOC 414 is a required course designed to help students develop their final writing project. Students can choose to complete a thesis, research project, literature review, or case study as their final writing project. The core courses in theory, methods and data analysis aim to build students' critical thinking and methodological skills to complete their final writing project.

#### Master of Arts in Sociology with Thesis

The design for the thesis project may be developed in SOC 411 and SOC 412 or SOC 413. A student selects a faculty mentor and together they set up a committee with two additional faculty members. A thesis proposal hearing is required at the start of the project and an oral presentation at its completion. Those students desiring to complete the Thesis Option are required to take SOC 500.

#### Master of Arts in Sociology with Research Project

Students design and carry out a research project and prepare a final research report. The student selects a faculty mentor and a second reader. This project can be based on research begun in SOC 412, SOC 413, or a substantive course. Those students desiring to complete the Research Project are required to take SOC 414.

#### Master of Arts in Sociology with Literature Review or Analytical Essay

The student prepares a literature review or analytical essay indicating mastery of a body of literature. It is often started in conjunction with one of the specialized courses. The student selects a faculty mentor and a second reader. Those students desiring to complete the Literature Review take SOC 414.

#### Master of Arts in Sociology with Organizational Case Study

The student will prepare a comprehensive case study that analyzes an organization that they will select. Students will use scholarly literature and other reading materials to inform the organizational theory upon which their analysis will be based. The student selects a faculty mentor and a second faculty member who has some familiarity with the sector in which the organization is located. Those students desiring to complete the Organizational Case Study are required to take SOC 414.

### Sociology (Minor)

The Sociology minor is designed to provide you with the critical thinking skills needed to effectively observe people in social groups and institutions. The program offers an overview of sociological research and theory.

#### Course Requirements

<td></td>
</tr>
</tbody>
</table>
Select four courses from the 200/300-level SOC course offerings.

Courses in theory, research methods, and statistics are recommended, but not required.

Students are now able to complete the Sociology minor in an online/hybrid format. Online/hybrid courses currently include SOC 101, SOC 205, SOC 207, SOC 235, and SOC 245. Additional online classes are being developed.

Students majoring in Sociology are restricted from earning this minor.

Software Engineering (Minor)

The Software Engineering Minor exposes students to the fundamental tools and processes of software engineering. All courses in the minor have CSC 301 as a prerequisite.

</tbody>
</table>

Note: This minor is open only to students that have passed CSC 301.

Software Engineering (MS)

The MS in Software Engineering provides students with marketable skills in methodologies, techniques, and tools of software engineering. The program encompasses the entire life-cycle of software development including requirements, analysis, design, construction, testing, and project management. Emphasis is placed on current and emerging technologies for engineering large and complex distributed software systems. According to the US Bureau of Labor Statistics, software engineering has been among the fastest growing IT professions in the US.

Concentrations

Software Development Concentration

This concentration addresses the foundations, methodologies, and tools for developing high quality large-scale software systems, with an emphasis on the technical issues of software development.

Software Architecture Concentration

This concentration addresses the management and design of large-scale software systems.

Real-Time Game Systems Concentration

This concentration addresses the foundations, methodologies, and tools for developing large-scale computer games and entertainment software systems.

Entrepreneurship and Technology Leadership Concentration

In the current IT environment, software development projects are increasingly treated as business propositions in which the product under development must deliver real and measurable value to the organization. As such, Software Engineers often need increasingly sophisticated knowledge of the business environment in order to advance in their careers beyond the purely technical track. This concentration will bridge the areas of software engineering and business, by equipping students to understand the financial, marketing, management, and entrepreneurial context in which most software development projects are executed.

The concentration will include course offerings from both CDM and Kellstadt Graduate School of Business. It offers the Software Engineering students the opportunities of immersing themselves in a classroom setting in which the focus is purely business oriented, as opposed to technology oriented. This concentration aims to prepare Software Engineering students for career paths in software technology focused entrepreneurship or senior technology leadership positions (CIO’s, CTO’s) in businesses.

<tbody>
<tr>
<td>Introductory Courses</td>
<td>0-24</td>
</tr>
<tr>
<td>Degree Requirements</td>
<td>52</td>
</tr>
<tr>
<td>Total hours required</td>
<td>52-76</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Correctly create a model of the structure and behavior of a software system.
- Design and implement, in a programming language, an executable solution to a given problem using common software principles and best practices.
- Apply appropriate software testing techniques and evaluate the quality of a software product at module, integration, and system granularity levels.
- Select and adapt suitable elements from among conventional and evolving software development life-cycle processes and apply the resulting process to a software project.
- Collaborate in teams to develop a significantly sized software system from conceptualization to completion.
• Communicate effectively design and development decisions through written and graphical demonstration.

Degree Requirements

Course Requirements

No Introductory Course may be substituted for any other course at any level.

Introductory, Foundation, Advanced, and Elective course selections are determined by the concentration chosen.

Introductory Courses

Introductory courses may be waived for any of the following conditions:

• The student has the appropriate course work to satisfy an Introductory Course.
• The student has appropriate and verified professional experience to satisfy an Introductory Course.
• If an exam is available, the student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.

Degree Requirements

Students in this degree program must meet the following requirements:

• Complete a minimum of 52 graduate credit hours in addition to any required introductory courses of the designated degree program.
• Complete all graduate courses and requirements listed in the designated degree program.
• Earn a grade of C- or better in all courses of the designated degree program.
• Maintain a cumulative GPA of 2.5 or higher.
• Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
• Students pursuing a second master’s degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:

• Entrepreneurship and Technology Leadership Concentration, Software Engineering (MS) (p. 1055)
• Real-Time Game Systems, Software Engineering (MS) (p. 1056)
• Software Architecture Concentration, Software Engineering (MS) (p. 1058)
• Software Development Concentration, Software Engineering (MS) (p. 1060)

</table>
SE 482  REQUIREMENTS ENGINEERING
SE 475  MANAGING GLOBALLY DISTRIBUTED SOFTWARE DEVELOPMENT
SE 529  SOFTWARE RISK MANAGEMENT
SE 554  ENTERPRISE COMPONENT ARCHITECTURE
SE 579  ANALYTICS AND DATA MINING IN SOFTWARE ENGINEERING

The Master’s Project or Thesis must represent an original contribution to the area, and may include system development, empirical studies, or theoretical work. The scope and the details of the research project will be determined by the research supervisor, and must be approved by the student’s academic advisor.

Students also have an option of pursuing a Master’s Research Project to fulfill their CDM elective requirements.

Students must complete four (4) credit hours of CDM Open Electives. Any CSEC, CSC, ECT, GAM, GPH, HCI, HIT, IS, IT, PM, SE, or NET course in the 421-699 range qualifies. Credit for courses taken outside of the school will only be given if approved by a faculty advisor.

Capstone
Students must complete the following course.

Course  Title  Quarter Hours
SE 491  SOFTWARE ENGINEERING STUDIO 4

Real-Time Game Systems, Software Engineering (MS)

Introductory Courses

Course  Title  Quarter Hours

GAM 425  APPLIED 3D GEOMETRY 4
GPH 469  COMPUTER GRAPHICS DEVELOPMENT 4
or GAM 470  RENDERING AND GRAPHICS PROGRAMMING 4
SE 433  SOFTWARE TESTING AND QUALITY ASSURANCE 4
SE 456  ARCHITECTURE OF REAL-TIME SYSTEMS 4
SE 475  MANAGING GLOBALLY DISTRIBUTED SOFTWARE DEVELOPMENT 4
or SE 477  SOFTWARE AND SYSTEMS PROJECT MANAGEMENT 4

Advanced Courses

Course  Title  Quarter Hours
CSC 486  REAL-TIME NETWORKING (FORMERLY GAM 490) 4
CSC 588  REAL-TIME MULTITHREADED ARCHITECTURE 4
GAM 475  REAL-TIME SOFTWARE DEVELOPMENT 4

Studio Sequence Substitution Policy

Software Engineering (SE) Studio is a requirement for MS SE students. It can only be substituted for students who have had industrial experience in team software development projects. For those students with sufficient experience, they must complete a MS Project or Thesis in lieu of SE Studio.

Substitution of SE Studio must be approved in advance. Student should seek such approval no later than the second quarter after starting the Foundation phase of the program. The request for substitution should be submitted to Software Engineering Program Committee (SE-PC) and the decision will be made by the SE-PC in consultation with the student’s advisor.

Each applicant should provide supporting materials of his/her experience in software development, including resume, and letter(s) from the project manager describing the applicant’s role in the projects.

All approvals of substitution will be contingent upon the applicant’s completion of a MS Project or Thesis for eight (8) credit hours. Any deviation from that must be approved by the SE-PC as well.
Major Elective Courses
Four (4) Credit Hours of Major Elective Courses are required. SE courses in the 421-699 range and courses from the list below qualify as Major Elective Courses.

<tbody>
<tr>
<td>SE 491</td>
<td>SOFTWARE ENGINEERING STUDIO</td>
<td>4</td>
</tr>
</tbody>
</table>

### Software Engineering (MS) Online

The MS in Software Engineering provides students with marketable skills in methodologies, techniques, and tools of software engineering. The program encompasses the entire life-cycle of software development including requirements, analysis, design, construction, testing, and project management. Emphasis is placed on current and emerging technologies for engineering large and complex distributed software systems. According to the US Bureau of Labor Statistics, software engineering has been among the fastest growing IT professions in the US.

### Concentrations

#### Software Development Concentration

This concentration addresses the foundations, methodologies, and tools for developing high quality large-scale software systems, with an emphasis on the technical issues of software development.

#### Software Architecture Concentration

This concentration addresses the management and design of large-scale software systems.

#### Real-Time Game Systems Concentration

This concentration addresses the foundations, methodologies, and tools for developing large-scale computer games and entertainment software systems.
Entrepreneurship and Technology Leadership Concentration

Program Requirements       Quarter Hours
Introductory Courses       0-24
Degree Requirements        52
Total hours required       52-76

Learning Outcomes

Students will be able to:

• Correctly create a model of the structure and behavior of a software system.
• Design and implement, in a programming language, an executable solution to a given problem using common software principles and best practices.
• Apply appropriate software testing techniques and evaluate the quality of a software product at module, integration, and system granularity levels.
• Select and adapt suitable elements from among conventional and evolving software development life-cycle processes and apply the resulting process to a software project.
• Collaborate in teams to develop a significantly sized software system from conceptualization to completion.
• Communicate effectively design and development decisions through written and graphical demonstration.

Degree Requirements

Course Requirements

No Introductory Course may be substituted for any other course at any level.

Introductory, Foundation, Advanced, and Elective course selections are determined by the concentration chosen.

Introductory Courses

Introductory courses may be waived for any of the following conditions:

• The student has the appropriate course work to satisfy an Introductory Course.
• The student has appropriate and verified professional experience to satisfy an Introductory Course.
• If an exam is available, the student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.

Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:

• Entrepreneurship and Technology Leadership Concentration, Software Engineering (MS) Online (p. 1062)
• Real-Time Game Systems, Software Engineering (MS) Online (p. 1063)
• Software Architecture Concentration, Software Engineering (MS) Online (p. 1065)
• Software Development Concentration, Software Engineering (MS) Online (p. 1067)
The Master’s Project or Thesis must represent an original contribution to the area, and may include system development, empirical studies, or theoretical work. The scope and the details of the research project will be determined by the research supervisor, and must be approved by the student’s academic advisor.

Students also have an option of pursuing a Master's Research Project to fulfill their CDM elective requirements.

Software Engineering Research

Select one of the following:

- SE 695 MASTER'S RESEARCH
- SE 696 and MASTER'S PROJECT
- SE 695 MASTER'S RESEARCH
- SE 698 and MASTER'S THESIS

The Master's Project or Thesis must represent an original contribution to the area, and may include system development, empirical studies, or theoretical work. The scope and the details of the research project will be determined by the research supervisor, and must be approved by the student's academic advisor.

CDM Open Elective Courses

Students must complete four (4) Credit Hours of CDM Open Electives. Any CSEC, CSC, ECT, GAM, GPH, HCI, HIT, IS, IT, PM, SE, or NET course in the 421-699 range qualifies. Credit for courses taken outside of the school will only be given if approved by a faculty advisor.

Sound Design (BFA)

The Theatre School’s Bachelor of Fine Arts (BFA) degree in Sound Design trains students to be successful sound designers and engineers in all levels of the theatre and entertainment industries. Sound design students learn techniques for sound editing, recording and composition using the hardware and software that are the standard tools of the industry. Students collaborate with directors, other designers and our professional production staff to get practical experience designing and rigging sound as part of our production program.

Program Requirements Quarter Hours
Liberal Studies Requirements 52
Major Requirements 151
Total hours required 203
Learning Outcomes
Core Outcomes
Students will be able to:
• Identify and describe the historical and theoretical significance of a range of theatrical artists, works, and artistic approaches from antiquity to present.
• Synthesize and apply elements of their education and training to the preparation, rehearsal, and presentation of theatrical productions with discipline, respect, and maturity.
• Identify and explain their theatrical work in the context of the cultural and social impact of the arts.

Program Specific Outcomes
Students will be able to:
• Read and interpret theatrical text and apply research, imagination, and personalization to create a unique, insightful, and compelling design concept.
• Demonstrate an understanding of the history of music in the context of social and cultural development.
• Demonstrate and apply an expertise in audio technology in a variety of performance styles and theatrical environments.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

• 1 Course Required

Religious Dimensions (RD) (p. 1308)
• 1 Course Required

Scientific Inquiry (SI) (p. 1310)
• 1 Lab Course or 1 SWK Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
• Not Required

Other (p. 1300)
• Choose 1 course from the above learning domains as an elective

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Sound Recording Technology (BS)

The Bachelor of Science degree with an emphasis in Sound Recording Technology (SRT) prepares students for careers in the audio industry. The SRT program includes coursework in classical and popular recording, music production, surround sound audio for film and multimedia, as well as physics, electronics and mathematics. The faculty is comprised of experienced recording engineers, dedicated to teaching excellence. Drawing upon the resources of the city, students have the opportunity to work and study at Chicago area recording studios and live performance venues.

</tbody>
</table>
Learning Outcomes

Core Outcomes
Students will be able to:

• Perform solo and ensemble works with appropriate techniques and musicality.
• Identify and analyze the elements of music in a given piece, including an understanding of its compositional processes, aesthetic properties, and artistic, social, and historical contexts for works in the Western music tradition, Contemporary periods, Jazz, and World Music Cultures.
• Demonstrate an appropriate level of aural, keyboard, and conducting skills.

Program Specific Outcomes
Students will be able to:

• Possess a thorough knowledge of the physics of sound and acoustics and a thorough understanding of microphones and microphone techniques.
• Possess a thorough knowledge of analog and digital equipment and be able to creatively use that knowledge to produce and market music.
• Possess a fundamental knowledge of digital electronics and the ability to operate contemporary audio and video recording, editing and processing software.

Music Core Requirements

Course Requirements
All students in the School of Music are required to enroll in the following music courses:

### Musicianship (42 Credits)

<table>
<thead>
<tr>

<tr>
<td>MUS 321</td>
<td>INTRODUCTION TO JAZZ HISTORY</td>
<td>2</td>
</tr>
<tr>
<td>MUS 322</td>
<td>ADVANCED MUSICIANSHIP</td>
<td>2</td>
</tr>
</tbody>
</table>

3 Students in the BM-Jazz Studies program are not required to take MUS 321 or MUS 322.

### Applied Music

Students may enroll in a maximum of 3 credits of applied study per quarter, with a maximum of 36 credits total. The requirements for applied study vary by degree program:

• BM in performance, 36 credits
• BM in jazz studies, 32 credits
• BM in composition, 12 credits
• BM in music education, 18 credits
• BM in performing arts management, 18 credits
• BA in music, 12 credits
• BS in sound recording technology, performance track, 9 credits

The BS in Performing Arts Management degree does not require applied lessons, and the BS in Sound Recording Technology, non-performance track, degree does not require applied lessons.

Except performance majors, students may enroll in additional applied credits, which will count towards music electives.

### Modern Language Option

If a music student wishes to study a modern language for a three-course sequence (12 credits) beyond their degree program’s requirement, the three MLO substitutions must be made in three different Liberal Studies learning domains. Any substitutions must be consistent with the principle that students complete at least one course in each learning domain. In the Scientific Inquiry domain, the only MLO substitution allowed is for Scientific Inquiry-Elective. Additional language credits may be applied toward non-music electives or free electives.
Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Religious Dimensions (RD) (p. 1308)

- 1 Course Required

Scientific Inquiry (SI) (p. 1310)

- Not Required
  (Note: Included in specialization)

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)

- 1 Course Required

Notes

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Program Checkpoints

Students are admitted to a specialization at their initial enrollment. Students are then allowed to continue in specialization courses on the basis of program checkpoints. The program checkpoints differ for each specialization, and students should contact the department chairs or program directors/coordinators for more information. Students are not permitted to continue to enroll in specialization classes if they have not met the requirements of their program checkpoint.

Spanish (BA)

In DePaul’s Spanish program, students will study Spanish language, literature and culture. Spanish is one of the most widely spoken languages in the world and one of the official languages of the United Nations and the European Union. Because Spanish is becoming more widely used in the United States, having the ability to speak and understand the Spanish language will provide students with many professional opportunities.

Courses in the Spanish major cover a variety of topics, including:

- Business
- Cinema
- Culture
- Language
- Linguistics
- Literature
- Translation

As Spanish majors, students are encouraged to participate in one of DePaul’s Study Abroad programs in order to grow linguistically and expand their cultural understanding of Spanish-speaking societies. DePaul sponsors programs in Argentina, Chile, Mexico, Peru, Puerto Rico and Spain.

Chicago is a diverse city that—through its festivals, neighborhoods, restaurants, museums, and other cultural institutions—provides students with many opportunities to practice their Spanish and explore the cultures of the Spanish-speaking world.

Learning Outcomes

Students will be able to:

- Proficiently speak, understand, read, and write the studied language(s) to: engage in conversations, interpret and create a variety of written texts, provide and obtain information, express feelings and emotions, exchange opinions.
- Acquire knowledge of the cultures related to the studied language(s) with appropriate background in geography, history, politics, and society.
- Acquire knowledge of the literary traditions related to the studied language(s) along with techniques of literary and rhetorical analysis.
- Acquire basic notion of the history and theory of language and language study, including linguistics, sociolinguistics, language acquisition, and dialectology.
- Acquire basic notion of the theory and practice of translation and interpretation.

College Core Requirements

Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized "concentration." The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.
Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.
Students must earn a C- or better in this course.

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

Learning Domains

Arts and Literature (AL) (p. 1300)
- 1 Course Required

Historical Inquiry (HI) (p. 1304)
- 2 Courses Required

Math and Computing (MC) (p. 1306)
- 2 Courses Required
  [1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1307)
- 2 Courses Required

Religious Dimensions (RD) (p. 1308)
- 2 Courses Required

Scientific Inquiry (SI) (p. 1310)
- 2 Courses Required
  [1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
- 3 Courses Required

Notes

A student whose only major is in Modern Languages is required to complete the Capstone offered by the Department of Modern Languages (MOL). A student who is double majoring (or pursuing dual degrees) with the primary major (or primary degree) in MOL may substitute the Capstone of the secondary major or degree. An MOL major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the MOL Capstone.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

SPN 377 | PERUVIAN REALITIES IN A MULTICULTURAL SOCIETY: HISTORY, CULTURE, POLITICS, VIOLENCE & SOCIAL JUSTICE |

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Spanish 3+3 (BA+JD)

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>

</tbody>
</table>
In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program. In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 677).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law’s median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Spanish (MA)

The MA program in Spanish provides students a customizable, flexible curriculum to develop advanced linguistic and cultural expertise in a language and to apply that expertise in the disciplinary or professional contexts of their choice. Whether in the “global village” of today’s world or in multi-ethnic communities such as Chicago, this advanced expertise is an increasingly valuable personal and professional asset, requiring appropriate training and credentials. The MA program especially seeks to serve adult professionals (government employees, social workers, healthcare providers, business people, or certified K-12 teachers) whose careers require this applied expertise.

The MA in Spanish may be expanded to include also select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

• Spanish + Digital Humanities Certificate
• Spanish + Teaching English to Speakers of Other Languages (TESOL) Certificate
• Spanish + Translation and Interpreting Studies Certificate

Program Requirements

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total hours required</td>
<td>48</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

• Speak and participate in most informal and some formal conversations from topics related to school, home, and leisure activities, to many related to employment, current events, and matters of public and community interest.

• Narrate and describe in the major time frames of past, present, and future in paragraph-length discourse with some control of aspect, as well as combine and link sentences into connected discourse of paragraph length; although these narrations and descriptions tend to be handled separately rather than interwoven.

• Use communicative strategies such as rephrasing and circumlocution, and contribute to a conversation with sufficient accuracy, clarity, and precision to convey their intended message without misrepresentation or confusion.

• Combine and link sentences into texts of paragraph length and structure, and use minimal control of common structures and vocabulary.

• Listen and comprehend (albeit unevenly) short conventional narrative and descriptive texts with a clear underlying structure.

• Understand conventional narrative and descriptive texts with clear underlying structure (though their comprehension may be uneven).

Degree Requirements

Course Requirements

The curriculum of the MA in Spanish will consist of twelve courses (48 quarter credit hours), divided into two parts:

1. A core curriculum of three courses (12 quarter credit hours) required of all students, and

2. Nine courses (36 quarter credit hours) in the language area. All courses in the language area must be courses taught in the target language of the student’s program (i.e. courses with prefixes SPN). In exceptional cases, with the approval of the student’s advisor and the director of the graduate program, a student may count one or two courses taught in English from allied fields (such as art history, economics, education, geography, health sciences, management, philosophy, political science, religion, sociology, etc.) among the nine “language area” courses in the student’s program.

Core Curriculum

The core curriculum consists of the following three courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MOL 401</td>
<td>PROFESSIONAL FOUNDATIONS</td>
<td>4</td>
</tr>
<tr>
<td>MOL 402</td>
<td>LANGUAGE, SELF AND SOCIETY</td>
<td>4</td>
</tr>
<tr>
<td>MOL 496</td>
<td>MAMOL CAPSTONE</td>
<td>4</td>
</tr>
</tbody>
</table>

In addition, all three-hundred level language courses are offered simultaneously as 400-level electives to complete the MA program. These 400-level courses carry different requirements than the lower-level courses.

Additional Requirements

Additional requirements include:

• Portfolio

The portfolio (completed while enrolled in MOL 496) consists of a compilation and critical assessment of select work done throughout the program and a capstone project. Capstone projects may include a community service experience, internship, performance or creative work, teaching portfolio, thesis, or translation.
Thesis Option
A thesis option will be available for students who attain a GPA of at least 3.7 in the program after completing 24 credit hours of coursework.

Graduation Grade Point Average Requirement
In order to graduate from the program, students must complete all program requirements with a minimum GPA of 3.000.

Student Handbook
Students in a graduate program offered through Modern Languages follow the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in a Modern Language graduate program.

Language Proficiency for Admission
In order to be eligible for admission to a Modern Language graduate program a student must have successfully completed at least 20 quarter credit hours (or the equivalent in semester credit hours) of advanced college-level coursework in the language (this is the equivalent of an undergraduate “minor” at most colleges or universities in the United States).

Students who lack 20 quarter credit hours (or the equivalent in semester credit hours) of coursework must demonstrate proficiency in the language by attaining a rating of at least “Intermediate High” on two standardized tests from the American Council on the Teaching of Foreign Languages (ACTFL): the Oral Proficiency Interview (OPI) and the Writing Proficiency Test (WPT).

Transfer Credit
Students may apply (“transfer”) toward their MA programs in Modern Languages no more than eight quarter hours of graduate-level credit completed at another college or university, with approval from the departmental director of graduate programs. Students may not transfer credits already used to satisfy the degree requirements of any program at another college or university.

Students seeking to apply “transfer” credit toward their MA programs in Modern Languages must complete the college transfer request form.

Graduation with Distinction
Students from the MA programs in Modern Languages earn their degrees “with distinction” if they graduate with a cumulative grade point average (GPA) of 4.0 (on a scale where 4.0=A). To verify eligibility, students and their faculty advisors should contact the departmental advisor and the departmental director of graduate studies before the deadline to apply for graduation.

Spanish (MA), Combined Bachelor's + Master's Degree
The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Spanish (MA)
Admission to this combined Master of Arts program is based on a minimum level of language proficiency (ACTFL rating of “Intermediate High”) rather than on prior coursework. Therefore, it is open to students with any undergraduate majors with the accompanying language ability. The program is designed to prepare students for advanced use of their linguistic skills in any area of professional interest (from business, government, and education to further graduate study).

The program requires 48 quarter hour credits of coursework. This coursework consists of:

1. 12-quarter hour credits of required courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MOL 401</td>
<td>PROFESSIONAL FOUNDATIONS</td>
<td>4</td>
</tr>
<tr>
<td>MOL 402</td>
<td>LANGUAGE, SELF AND SOCIETY</td>
<td>4</td>
</tr>
<tr>
<td>MOL 496</td>
<td>MAMOL CAPSTONE</td>
<td>4</td>
</tr>
</tbody>
</table>

2. 36-quarter hour credits of elective coursework, specifically relevant to each individual student’s professional interests and language, and chosen in consultation with the student’s faculty advisor.

The required courses (MOL 401, MOL 402, and MOL 496) are each worth 4-quarter hour credits. Elective courses may vary in credit. Because each student pursues a highly customized selection of coursework, it may include independent study, practicum, study abroad, or transfer credits that allow students to complete in any term additional credits toward satisfaction of degree requirements. Depending on individual interests, a student may (with approval of their advisor) also take as electives courses taught in English by other DePaul units, provided that the students satisfy any relevant prerequisites for those courses.

Spanish (Minor)
DePaul’s minor in Spanish offers a basic proficiency in writing, reading and speaking Spanish.

The minor consists of a total of 5 courses in Spanish language at the 200/300-level. Courses taught in English will not be counted toward this minor unless Program Director permission is secured.

Students majoring in Spanish (BA) or minoring in Commercial Spanish are restricted from earning this minor.

Spanish Linguistics (Minor)
Course Requirements
The Spanish Linguistics minor introduces students to the formal study of Spanish Phonetics, Phonology, Morphology, Syntax, Sociolinguistics and Spanish in the U.S.

Students seeking to complete a minor in Spanish Linguistics must complete 24 quarter-hour credits of coursework, or 6 courses, distributed as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Required:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>SPN 242</td>
<td>INTRODUCTION TO SPANISH LINGUISTICS</td>
<td>4</td>
</tr>
</tbody>
</table>
Select two advanced language courses from the following:  

- SPN 201  ADVANCED GRAMMAR AND COMMUNICATION  
- SPN 202  ADVANCED COMPOSITION AND COMMUNICATION  
- SPN 203  ADVANCED CONVERSATION  
- SPN 205  ADVANCED GRAMMAR AND COMPOSITION FOR HERITAGE LEARNERS I  
- SPN 206  ADVANCED GRAMMAR AND COMPOSITION FOR HERITAGE LEARNERS II  
- SPN 207  ADVANCED CONVERSATION FOR THE HERITAGE LEARNER  

Select 12 credits of advanced (300-level) coursework from the list of approved electives. Any three of the following may be chosen (additional courses may be considered with the approval of the student’s faculty advisor):  

- SPN 351  SPANISH IN THE U.S.  
- SPN 352  SPANISH PHONOLOGY AND PHONETICS  
- SPN 353  THE STRUCTURE OF SPANISH  
- SPN 354  SPANISH SOCIOLINGUISTICS  
- SPN 355  THE HISTORY OF THE SPANISH LANGUAGE  
- SPN 371  SOCIOLINGUISTICS OF HERITAGE LANGUAGE LITERACY  
- SPN 357  SPECIAL TOPICS IN SPANISH (depending on topic, with advisor approval)  
- SPN 399  INDEPENDENT STUDY (depending on topic, with advisor approval)  
- MOL 354  THEORETICAL FOUNDATIONS/CURRENT RESEARCH SECOND/FOREIGN LANGUAGE ACQUISITION  
- MOL 356  PSYCHOLINGUISTICS  

Depending on their level of prior expertise with Spanish, students may need to complete courses at the Basic and Intermediate levels before enrolling in 200- or 300-level language courses.  

Students majoring in Spanish (BA) or minoring in Spanish, Spanish Linguistics, or Commercial Spanish are restricted from earning this minor.

### Spanish Translation (Minor)

**Required Courses**

- 4 credits of an advanced language level course (SPN 201 or SPN 202 / SPN 205 or SPN 206 for Heritage Language Learners).  
- 8 credits of required courses (SPN 243 and SPN 325) to further develop proficiency in the language and methods of translation from Spanish to English and from English to Spanish.  
- 12 credits of advanced elective coursework in related courses (choose three from the following):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPN 244</td>
<td>COMPUTER-ASSISTED TRANSLATION TOOLS</td>
<td></td>
</tr>
<tr>
<td>SPN 251</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### Translation Software

In our translation courses, students work with Google Translator Toolkit, Memsource, and SDL Trados Studio as learning computer-assisted tools in their translation practice.

**Google Translator Toolkit** is web-based, computer-aided translation (CAT) software that is provided free by Google. It allows translators to revise machine translation performed by Google translate (https://translate.google.com/), store translated documents in an online account, and collaboratively translate documents.

**Memsource.** We are using Memsource (https://www.memsource.com/) in our translation courses free of charge. Memsource Cloud is a complete translation platform that includes translation memory, integrated machine and human translation, terminology management, and a both online and desktop CAT tool.

**SDL Trados Studio** is a computer translation software that offers highly sophisticated features to help translators complete projects quickly and easily. Translation memory (TM) is at the heart of SDL Trados Studio (https://sdltrados.com) and works by recycling previously translated content and completing translations projects more quickly while maintaining high quality.

### Special Education (BS)

The Bachelor of Science in Special Education will prepare you to teach students with exceptionalities in kindergarten through 12th grade in a variety of urban and suburban educational settings, including public and private schools.

By completing the Special Education program, you will be eligible for the Illinois Learning and Behavior Specialist I (LBST) license, provided you complete additional state requirements.

As a Special Education major, you will learn to:

- Apply specific strategies needed to teach exceptional learners  
- Consult and co-teach in general education inclusion classrooms  
- Modify content for exceptional learners in reading, math, natural and social sciences  
- Teach small groups of exceptional students in a resource room
Courses in the Special Education curriculum will prepare you to do the following:

- Assess exceptional learners
- Implement classroom and behavior management
- Collaborate with parents and professionals
- Understand how exceptional students learn
- Teach reading, math and the natural and social sciences
- Differentiate instruction
- Teach students with significant disabilities
- Develop transitional and vocational plans

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 130 hours of field experience. Students should expect to spend 40 hours of evening field hours in the Education and Counseling Center, and 90 hours of daytime field experience in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. In addition, the student must spend a minimum of 16 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

**Licensure**

This program leads to Illinois licensure in special education (Learning and Behavior Specialist 1)

<table>

</tbody>
</table>

**Learning Outcomes**

Students will be able to:

- Recognize how exceptionalities interact with development; apply foundational knowledge inform special education practice, including planning, instruction, and assessment of students with disabilities.
- Understand the connection between learning environment, social-emotional development, and student behavior; create safe, inclusive, culturally responsive learning environments; manage behavior effectively, utilizing proactive management techniques.
- Apply understanding of curricula to design learning for individuals with exceptionalities; choose, modify, and utilize research-based instructional strategies based on learner needs.
- Utilize multiple methods of assessment and data sources in making educational decisions, developing IEPs, and planning instruction; collaborate with other school-based professionals and families to serve student needs; integrate multiple sources of information to inform planning and instruction.

**College Core Requirements**

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
• Takes initiative
• Is open to new ideas and engagement in learning
• Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
• Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Demonstrates consistent professional behavior across all academic settings
• Maintains appropriate interpersonal and professional boundaries
• Accepts personal responsibility for one’s behavior
• Expresses feelings and opinions effectively and appropriately
• Upholds confidentiality

Skill Building Courses
Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement
Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

• completing two years of a language sequence in high school
• completing the last course in the first-year college sequence of any language
• completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCP's Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings.

All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:
Academic Requirements
- Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
- Overall cumulative GPA of 2.50 or better
- Cumulative GPA of 2.75 or better in all education courses
- Meet all other program requirements (e.g., modern language and residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test(s)

Clinical Requirements
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure
Requirements for licensure include completion of full bachelor's degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor's degree. A bachelor's degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio.

To Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required
by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

### Senior Year

#### Experiential Learning
Met by successful completion of required field experience hours

### Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

### Learning Domains

#### Arts and Literature (AL) (p. 1300)
- 2 Courses Required

#### Historical Inquiry (HI) (p. 1304)
- 2 Courses Required
  (Note: One must be US History.)

### Math and Computing (MC) (p. 1306)
- 2 Courses Required
  [1 CR Course and 1 SR Course]

### Philosophical Inquiry (PI) (p. 1307)
- 2 Courses Required
  - LSE 380
  - 1 Additional Course
  (Note: PHL 100 recommended)

### Religious Dimensions (RD) (p. 1308)
- 1 Course Required

### Scientific Inquiry (SI) (p. 1310)
- 2 Courses Required:
  - 1 BIO Course
  - 1 CHE/ENV/PHY Course
  (Note: One course above must be SI-LAB.)

### Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
- 3 Courses Required
  - PSC 120
  - 2 Additional Courses

### Major Requirements

#### Course Requirements

### Introductory Courses: 22 quarter hours with a grade of C or better required:

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Special Education majors must complete the following tests:

- Learning Behavior Specialist (#155) - assesses knowledge of working with students with disabilities and special needs. Test is required before Student Teaching (deadlines apply).
- General Curriculum for Special Education Teachers- (#163) - assesses knowledge of reading & literacy, mathematics, natural science, and social science. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Special Education (MEd)

The Master of Education in Special Education will prepare you to teach students with exceptionalities in kindergarten through 12th grade in a variety of urban and suburban educational settings, including public and private schools. By completing the Special Education program, you will be eligible for the Illinois Learning and Behavior Specialist I (LBS1) license, provided you complete additional state requirements.

The program contains three concentrations:

1. Pre-service Special Education (PSE) for candidates seeking an initial Illinois licensure.
2. Special Education for Teachers (SET) for candidates who already hold a current and valid Illinois Professional Educator License (PEL).
3. Special and Elementary Education (SEE) for candidates seeking an initial Illinois licensure with endorsements in special education and elementary.

The PSE concentration has two tracks, a 6-quarter general program and a one-year residency program. The residency track is offered in collaboration with the Academy for Urban School Leadership (AUSL). Please note that the Illinois State Board of Education (ISBE) may change the State licensure and endorsement requirements at any time and without prior notice.

Licensure

Pre-service Special Education (PSE) candidates are eligible for Illinois licensure with an LBS1 endorsement (preK-age 21) upon completion of the master's program, and any additional Illinois State Board of Education requirements (e.g., licensure tests, edTPA, etc.).

Special Education for Teachers (SET) candidates pursuing a master's are eligible for an LBS1 endorsement (preK-age 21) upon completion of the program and any additional Illinois State Board of Education requirements (e.g., licensure tests). Endorsement-only options (without a master's degree) for either preK-age 21 or for the grade band of the initial PEL are also available. Note: Courses in the SET concentration are designed for practicing educators and are not open to students seeking an initial Illinois teaching license.
Special and Elementary Education (SEE) candidates are eligible for Illinois licensure with an LBSI endorsement (preK-age 21) and an Elementary Education Endorsement (1-6).

Requirements are subject to change per the discretion of ISBE.

Students will be able to:

- Understand how exceptionalities may interact with development.
- Use foundational knowledge of the field and their professional ethical principles and practice standards to inform special education practice, to engage in lifelong learning, and to advance the profession.
- Create safe, inclusive, culturally responsive learning environments.
- Use knowledge of general and specialized curricula to individualize learning for individuals with exceptionalities.
- Select, adapt, and use a repertoire of evidence-based instructional strategies to advance learning of individuals with exceptionalities.
- Use multiple methods of assessment and data sources in making educational decisions.

**College Requirements**

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Demonstrates a positive attitude and commitment to the profession
- Demonstrates thoughtful, effective verbal and non-verbal communication and listening skills
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates concern for and protection of safety and well-being of others

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Degree Requirements**

Concentrations are available in Pre-service Special Education (PSE), Special and Elementary Education (SEE), and Special Education for Teachers (SET).

Specific degree requirements are determined according to the Concentration chosen by the student. Please review the concentration requirements pages for more information.

**Concentration Requirements**

Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:
Pre-Service Special Education Concentration, Special Education (MEd)

Content Area Prerequisites
A transcript evaluation will be completed upon admission to the program. If deficiencies exist, they must be completed prior to student teaching.

- College coursework in Writing
- College coursework in Fine Arts or Literature
- College coursework in Mathematics
- College coursework in Science
- College coursework in American Government or U.S. History
- College coursework in Social Science

Course Requirements
Courses requirements: 48 quarter hours required, grade of C or better required.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching.

Academic Requirements
- Completion of all Content Area Prerequisites, and all courses requirements
- Overall cumulative GPA of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area tests (see below)

Clinical Requirements
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education.
- Student Teaching Timeline and Deadlines
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.

Academic requirements (above) due one quarter before expected quarter of student teaching.

Clinical requirements (above) are completed as course requirements.

Individual school districts may have additional requirements (application, training, background check, etc.)

Student Teaching: 10 quarter hours required
Registration in student teaching requires completion of all requirements and procedures listed in the college core section.

Please note that the Illinois State Board of Education (ISBE) may change the State licensure and endorsement requirements at any time and without prior notice.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Requirements are subject to change per the discretion of ISBE.

Special Education students must complete the following tests:
- LBS1 Content Area Test (test #155) – assesses knowledge of working with students with disabilities and special needs. Test is required before Student Teaching (deadlines apply).
- Special Education General Curriculum Test (test #163) – assesses knowledge of reading & literacy, mathematics, natural science, and social science. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Special and Elementary Education Concentration, Special Education (MEd)

Content Area Prerequisites

A transcript evaluation will be completed upon admission to the program. If deficiencies exist, they must be completed prior to student teaching. Students in the Special & Elementary Education (SEE) program must complete general education content area coursework in the following ten areas:

- Physical Education or Health
- Fine Arts or Literature
- Mathematics
- 3 Science courses, one completed in each of the following areas:
  - Physical Science
  - Life Science
  - Earth/Space
- 4 Social Science courses, one completed in at least 4 of the following areas:
  - History
  - Political Science
  - Economics
  - Psychology
  - Sociology
  - Anthropology
  - Geography

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements

- Completion of all Content Area Prerequisites, Teacher Candidate courses, and Advanced courses
- Overall cumulative GPA of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area tests (see below)

Clinical Requirements

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education.
- Student Teaching Timeline and Deadlines
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
Academic requirements (above) due one quarter before expected quarter of student teaching.

Clinical requirements (above) are completed as course requirements.

Individual school districts may have additional requirements (application, training, background check, etc.)

**Student Teaching: 14 quarter hours required**

Registration in student teaching requires completion of all requirements and procedures listed in the college core section.

Please note that the Illinois State Board of Education (ISBE) may change the State licensure and endorsement requirements at any time and without prior notice.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Requirements are subject to change per the discretion of ISBE.

Special Education students must complete the following tests:

- LBS1 Content Area Test (test #155) – assesses knowledge of working with students with disabilities and special needs. Test is required before Student Teaching (deadlines apply).
- Special Education General Curriculum Test (test #163) – assesses knowledge of reading & literacy, mathematics, natural science, and social science. Test is required before Student Teaching (deadlines apply).
- Elementary Education Content Area Test, grades 1-6 (tests #197-200)
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

**Practicum Courses: 8 hours required, grade of B+ or better required**

<table>
<thead>
<tr>

</tr>
</thead>
<tbody>
<tr>
<td>SER 552</td>
<td>PRACTICUM EXPERIENCE WITH HIGH INCIDENCE DISABILITIES</td>
<td>4</td>
</tr>
<tr>
<td>SER 553</td>
<td>PRACTICUM EXPERIENCE WITH LOW INCIDENCE DISABILITIES</td>
<td>4</td>
</tr>
</tbody>
</table>

The program requires two summer practicum experiences. Each practicum involves six full weeks of intensive supervised field experience in a cooperating school that operates an extended school year program. Candidates must apply for each practicum, and upon approval they are placed in appropriate summer practicum sites by the program. Practicum sites may also screen candidates prior to accepting them for placement.
Candidates will assume full teaching responsibility and will have weekly opportunities for feedback and discussion of issues and problems encountered. A grade of B+ or better is required to participate in each summer practicum.

Please note that the Illinois State Board of Education (ISBE) may change the State licensure and endorsement requirements at any time and without prior notice.

### Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Requirements are subject to change per the discretion of ISBE.

Special Education Master’s students must complete the following tests:

- LBS1 Content Area Test (test #155) – assesses knowledge of working with students with disabilities and special needs.

Candidates who are conditionally admitted with an out-of-state (OOS) teaching license they required to transfer their license into Illinois, and therefore may also be required to take additional licensure tests. Students should work directly with ISBE to fulfill outstanding test requirements. These additional licensure tests may include the following:

- EdTPA – an electronic portfolio that includes video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Usually completed during pre-service student teaching experience.

### Special Education (Minor)

The Special Education Minor will prepare general educators to work with a variety of learners with disabilities in their classrooms. If desired, upon completion of the minor candidates will be eligible to take the Learning-Behavior Specialist Test (#155) to earn the special education endorsement on their primary license. This will enable candidates to teach in general or special education classrooms within their licensure range. Beyond increasing candidates’ foundational knowledge and repertoire of teaching skills, adding an endorsement to primary licensure will enhance versatility in the job market.

The movement toward inclusive practices in schools requires educators to be prepared to work with individuals with disabilities in their classrooms. According to the National Center for Education Statistics (2015), in 2011 95% of students with disabilities were served in regular schools, with 61% spending 80% or more of their time inside the general education classroom. It is therefore beneficial for general education candidates to learn techniques, methods, and strategies to assist students with disabilities in their classrooms.

### Course Requirements

The Special Education Minor requires 26 credit hours (7 courses). This includes 4 core courses plus one course from each of 3 areas as seen below.

### Minor in Special Education with LSB1 Endorsement

This option is only available to undergraduates in the College of Education pursuing ISBE licensure.

The minor with endorsement requires the 7 courses above, plus a passing score on the ISBE Learning-Behavior Specialist Test (#155).

**Note:** Students in DePaul’s College of Education program in Special Education cannot select the Special Education Minor.

### Special Education Certificate

The four-course online Certificate in Exceptionality will provide a foundation in Special Education to those interested to expand their understanding of various types of disabilities and ways to address the needs of those students. Practitioners across the US, and around the world, will be able to identify characteristics of students with disabilities, ways to collect and analyze assessment data, as well as utilize this information in order to make instructional planning decisions. By successfully completing this certificate program, candidates will have a firm understanding of ways to accommodate children with high-incidence disabilities and make modifications for children with low-incidence disabilities. Educators can directly apply knowledge and skills to their classrooms.

Depending on licensure and endorsement requirements in different states, teachers already licensed in general education could use this course sequence to pursue an additional endorsement in special education. Some teachers may also use the coursework to advance their pay scale. Similarly, practitioners outside the US will have the opportunity...
to gain knowledge and skills, and apply current, best practices to international classrooms, and use this certificate to advance their career.

The curriculum for the Online Certificate in Exceptionality consists of four online courses.

Speech Language Pathology (MS)

The Master of Science degree in Speech Language Pathology (MS-SLP) at DePaul University is a comprehensive program that offers a balanced, three-part curriculum to prepare future Speech Language Pathologists (SLPs) to work with both children and adults across the full range of communication disorders. Course elements are designed to imbue students with the knowledge base pertinent to the field, while simultaneously fostering the critical thinking, problem solving, and self-confidence that contributes to effective independent clinical practice. Further, students will develop empathy and compassion, the hallmark traits of a master clinician. The curriculum includes both didactic and clinical requirements for graduation. A total of 102 quarter hours is required for the MS-SLP degree (106 quarter credits with the optional thesis). The three curricular parts are described below:

**Academic Curriculum:** The academic curriculum includes basic science and research coursework, in addition to courses that focus on specific communication disorders. The American Speech-Language-Hearing Association (ASHA) has established a minimum of knowledge and skills required for the Certificate of Clinical Competence (ASHA Certification Standards, 2020). Specific academic coursework is required that addresses the following:

- the discipline of communication sciences and disorders;
- basic human communication and swallowing processes, including the appropriate biological, neurological, acoustic, psychological, developmental, and linguistic and cultural bases;
- the ability to integrate information pertaining to normal and abnormal human development across the life span;
- etiology and characteristics of various communication and swallowing disorders, identification procedures, and treatment approaches;
- knowledge of the nature of speech, language, hearing, and communication disorders and differences, and swallowing disorders, including the etiologies, characteristics, anatomical/physiological, acoustic, psychological, developmental, and linguistic and cultural correlates.

Students must demonstrate specific knowledge in the following areas: speech sound production; fluency; voice, resonance, and motor speech; receptive and expressive language; social aspects of communication, including pragmatics; communication impairments related to cognition; augmentative and alternative communication; hearing and aural rehabilitation; swallowing and feeding.

**Research Curriculum:** Students will learn about basic research methods within the discipline, will explore the evidence base of speech-language pathology and related professions, and will apply knowledge gained to clinical practices by completing a comprehensive literature review. Students can also elect to complete research that culminates in a master’s thesis. A thesis will require an additional 4 credits for a total of 106 credits required for graduation.

**Clinical Curriculum:** According to the ASHA certification standards (2020), students must complete at least 400 hours of supervised clinical experience with individuals who present a variety of communication disorders across the age range and from culturally and linguistically diverse backgrounds. Students will engage in 10 quarters of clinical practica at the DePaul University Clinic. The clinic will accept clients from the community ranging in age from young children through adults and with a variety of communication and swallowing disorders to provide our SLP students with a breadth of clinical experiences. In addition, each student will complete two advanced practica of at least 10 weeks duration. These will involve full-time work in an educational facility, hospital or clinic.

**Program Requirements**

</tbody>
</table>

**Learning Outcomes**

Students will be able to:

- Design appropriate evaluations for a variety of speech and language clients and disorders.
- Create intervention plans with measurable and achievable goals to meet speech and language clients’ needs.
- Use evidence-based treatment strategies to support clinical decision making.
- Evaluate speech and language clients’ progress to determine treatment outcomes.

## Admissions Procedures and Requirements

Professionals in speech-language pathology begin the licensing and certification process by obtaining a Master's degree in the discipline. DePaul University offers this degree as a Master of Science degree in Speech Language Pathology (M.S. SLP). Prospective graduate program applicants are required to hold a bachelor's degree in speech language pathology or the equivalent. Students with backgrounds including communication sciences and disorders, education, health-related professions, biomedical sciences, and psychology are encouraged to apply. The following are graduate admission requirements for DePaul University Speech Language Pathology (SLP) Program:

- Completion of a baccalaureate degree from a regionally-accredited institution in either
  - Communication Sciences and Disorders (CSD), including the courses listed below; or
  - An area other than CSD, with completion of the prerequisite coursework listed below (see below). A minimum GPA of 3.0 on a 4.0 scale in the undergraduate major is required.

- Three (3) letters of recommendation who can comment on the academic, clinical, and professional experiences of the applicant.

- A completed Communication Science and Disorders Centralized Application Service (CSDCAS) application, including academic history, personal essays, and extracurricular/volunteer experience. Once a student's file is complete and reviewed by CSDCAS, the SLP program Admissions Committee will review it to ensure that all prerequisite courses have been completed.

- Official transcripts from every college or university attended (mailed to CSDCAS). If currently attending college, most recently completed quarter grades must be included.

- An interview with faculty (by invitation only).

- Commitment to abide by the DePaul University Drug-Free Workplace and Substance Abuse Policy.

- Passage of the DePaul University criminal background check.

- Proof of CPR certification through completion of a healthcare provider course certified by the American Heart Association.

## Prerequisites for Admission:

Students will be required to complete the following prerequisites (see below) to be considered into the Speech-Language Pathology program.

### Speech Language Pathology Courses:

- Anatomy and Physiology of the Speech & Hearing Mechanism
- Introduction to Audiology
- Introduction to Communication Sciences and Disorders
- Normal Child Language Development
- Phonetics
- Speech Science
- Speech Sound Disorders (Articulation and Phonology)

### Observation Hours:

Each student must have 25 clock hours of authorized observation signed by a licensed speech-language pathologist who holds the Certificate of Clinical Competence (CCC) in Speech-Language Pathology from the American Speech-Language-Hearing Association (ASHA). The following form may be used to document observation...
hours: DePaul_SLP_Observation_Hours_Form_F21_.pdf (https://catalog.depaul.edu/programs/speech-language-pathology-ms/DePaul_SLP_Observation_Hours_Form_F21_.pdf)

Additional Course Requirements: (per the American Speech-Language-Hearing Association Standard IV-A)

- One course in the biological sciences (human or animal biology, such as biology, human anatomy and physiology, neuroanatomy and neurophysiology, human genetics, or veterinary science)
- One course in the physical sciences (physics or chemistry)
- One course in social/behavioral sciences (psychology, sociology, anthropology, or public health)
- A statistics course (a stand-alone course)

Strongly Recommended Courses:

- Aural Rehabilitation (required for ASHA certification)
- Methods of Teaching Learners with Exceptionalities (required for an Illinois Professional Educator’s License)

Please note that simply meeting these criteria is not a guarantee of admission. As is the case with most graduate programs in speech-language pathology, admission is highly competitive.

Transfer Credit

No graduate courses may be transferred from another institution for this degree.

Conditional Admissions

Students whose undergraduate degrees were in majors other than Communication Science Disorders, Speech Language Pathology or related fields may be conditionally admitted provided they complete all the required prerequisites prior to the start of the academic quarter.

Readmission

The same readmission standards outlined in the Graduate Student Handbook and approval of the program director are observed for students in these programs.

Undergraduate Courses

No undergraduate courses shall count toward the graduate degree.

Standards

The M.S. SLP prepares students for entry into the profession of speech-language pathology. This assertion is based on the program’s adherence to Council of Academic Accreditation (CAA) standards which outline a comprehensive list of knowledge and skills for successful clinical practice. The Knowledge and Skills Acquisition (KASA) is the Program’s roadmap with respect to development of experiences for each individual student. The Department standards for graduate student performance are in keeping with College standards for graduate education.

Clinical Education / Practicum: Detail regarding policies governing the process of clinical education may be found in the DePaul University SLP Program Clinical Handbook. Students will complete at least 400 hours of supervised clinical experiences. Students will engage in four quarters of clinical practicum at the DePaul Speech and Language Clinic on the Lincoln Park Campus and two quarters of externship placements. The speech-language pathology students gain an in-depth and broad scope of clinical experiences working with clients from the community ranging in age from toddlers through adults with a variety of communication and swallowing disorders. In the first year, students must have successfully completed 25 documented clinical observation hours before being placed in a clinical practicum (SLP 481) at the DePaul Speech and Language Clinic. In the second year, students must have successfully completed a minimum of 150 hours of supervised clinical practice in the DePaul Speech and Language Clinic to qualify for a school (SLP 485) or medical site (SLP 486) practicum experience.

Student Assessment of Knowledge and Skills: Each course offering in the curriculum has been designed to provide students with knowledge and skills requisite for functioning as a speech-language pathologist. The knowledge and skills are aligned with learning outcome statements. These statements are found in each course syllabus, including those for clinical practicum. Outcomes are consistent with and follow the numbering of the ASHA 2020 Standards for the Certificate of Clinical Competence in Speech-Language Pathology.

The ASHA Standards Assessment Form is completed for each student in each class or clinical experience every quarter by rating performance as either “met,” “emerging” or “remediate”.

- Met: Student has demonstrated knowledge in this standard that is commensurate with expectations for speech-language pathologists who will be beginning their Clinical Fellowship. Clinical skills will be considered “met” if they are appropriate for a given student’s clinical experience level.
- In Progress: Student has demonstrated progress towards the objective, but not enough to meet it. Ratings of emerging do not count positively towards the completion of an ASHA standard.
- In Remediation: Student has not demonstrated satisfactory progress towards the objective. This rating indicates “not passing”. Any student on track to receive a “remediate” rating should meet with the instructor responsible for the content (academic or clinical) to discuss the development of a remediation plan. Instructors are encouraged to recommend remediation as soon as problems arise during the quarter, to avoid the need for plans that extend beyond the time window. Plans should be developed between the instructor of record, the student and the Program Director.

CALIPSO Tracking System: The Department of Speech Language Pathology at DePaul University utilizes a secure, on-line program to track clinical experiences: Clinical Assessment of Learning, Inventory of Performance, and Streamlined Office Operations (CALIPSO). This system also enables students to maintain an electronic portfolio and manage a variety of external documents. It allows the Director of Clinical Education to maintain a comprehensive database of clinical sites and instructors. Students will have access to this system throughout their course of graduate studies and then continuing for three years after graduation to allow and ensure access to their clinical hours. Students will be trained prior to accessing the CALIPSO system.

Academic Performance

Academic performance is defined by course grades, which also includes grades in all clinical practicum courses. The Speech Language Pathology Program defines minimum academic performance as
• A cumulative grade-point average (GPA) of no less than 3.0 (B) across all graduate-level courses; and
• No course grade less than B- in any graduate-level course.

**Intervention Plans**

Intervention plans are designed to improve a student’s knowledge and skills in a specific area judged to fall below an acceptable level of minimum competence. Three scenarios can result in the implementation of an intervention plan. An intervention plan will be automatically implemented whenever a student receives a score of “remediate” from any instructor or supervisor. A intervention plan may be instituted if a student receives either multiple scores of “emerging” within an individual experience, or multiple scores of “emerging” on the same ASHA standard. The decision to implement a remediation plan under these circumstances will be made jointly by the instructor(s) who gave the “emerging” scores and the Program Director.

A student may request that an intervention plan be developed for scores of “emerging” that did not already result in a plan. The decision to implement an intervention plan under this circumstance must also be approved by the instructor(s) and the Program Director. This is to be based on the impact that receiving “emerging” will have on the student’s successful completion of the program in a timely manner. For example, an intervention plan may be implemented if few or no future opportunities are available for that standard to be addressed. A remediation plan may not be approved if there are many future prospects for completion of the standard.

If an intervention plan is necessary, the following steps will take place:

• The Program Director will meet with the instructor(s) involved including academic and clinical instructors. Students will be involved in these discussions to facilitate successful intervention.
• The plan will outline the activities and/or experiences the student must complete to demonstrate adequate improvement in the area of concern. This plan must include measurable goals that can be completed within one quarter, specification of persons who will be responsible for monitoring and implementing plans to achieve each goal, and specific consequences due to the student’s failure to meet the plan. The development of the plan is a shared responsibility between students and faculty.
• The student, Program Director, and Director of Clinical Education (if applicable) will each sign and receive a copy of the plan. If other faculty or clinical instructors are responsible for any portion of the plan, they will also receive a copy.

In the case of academic needs, the faculty instructor(s) involved in identifying areas of need typically will serve as mentor(s) towards the completion of the plan, unless stated otherwise by the Program Director.

The ASHA Standards Assessment Form will be updated to include a “met” in the appropriate row(s) of a new column entitled “remediation.” Columns indicating that a “remediate” was received are not expunged from the record.

**Academic Probation**

A graduate student must maintain a cumulative GPA of 3.00 or greater to remain in good standing. A student failing to maintain a minimum cumulative GPA of 3.0 will be placed on academic probation. If the cumulative GPA is raised to at least 3.00 at the end of the next academic quarter, the student is no longer on probation. If the cumulative GPA has not risen to 3.00 at the end of the next academic quarter, the student will be dismissed from the program.

**Withdrawing from a CORE Course**

A student who withdraws from a core speech language pathology course while in good standing cannot progress in the sequenced curriculum until that course has been successfully completed. In courses that contain both a clinical practicum and a lecture component, both course segments must be completed simultaneously. Exceptions may be identified and defined by the Admissions, Progressions and Retention Committee (APR) in consultation with the Program Director, the Director of Clinical Education and the course faculty. A student who withdraws from a core speech language pathology course who is ‘not in good standing’ (with a grade of C+ or lower or on probation) at the time of withdrawal, will be referred to the Admissions, Progressions, and Retention Committee (APR). The APR will meet to review the student’s past and current performance and to elicit recommendations from the course faculty. A representative of the APR committee may then meet with the course faculty, Program Director, Director of Clinical Education and the student to counsel the student and to establish a contract for academic improvement. Such students may not progress in the sequenced curriculum until the course has been retaken and successfully completed. In courses that contain both a clinical practicum and a didactic theory portion, both course segments must be completed simultaneously. A student may withdraw from a core speech language pathology course ‘not in good standing’ (with a grade of C+ or lower) only once during their program of study. A second such withdrawal will result in dismissal from the program. A student who has a grade of C+ or lower at mid-quarter may be placed on contract for an intervention plan by the instructor. The student must satisfactorily fulfill all course and contract requirements by the end of the quarter of contract initiation in order to progress in the program. A student currently enrolled in a degree program in which revisions are approved while their studies are in progress may elect to formally adopt the revised requirements.

**Leave of Absence**

**Requesting a Leave of Absence:** Students who need to interrupt their studies for personal, health or other reasons may request a leave of absence for up to one full year. The request should be made to the Program Director, Director of Clinical Education and the Admission, Progression and Retention Committee should be notified. Depending on circumstances and estimated length of absence, the Program Director or student’s academic advisor may recommend additional action to complete the request process.

**Returning from a Leave of Absence:** Students who wish to return to the program following a leave of absence will need to submit a written request for resuming coursework to the Admissions, Progression, and Retention Committee. It is the student’s responsibility to send a copy of such request to the Program Director, the student’s faculty advisor, and the Director of Clinical Education. This written request should demonstrate the resolution of the extenuating circumstances contributing to the original need to leave the Speech Language Pathology Program. This request for reinstatement must be made no less than 6 weeks prior to resuming the speech language pathology course sequence. Students will be notified in writing regarding the decision concerning their reentry to the program. e. Individual assessment of current knowledge and clinical skills will be made prior to placement of the student in the appropriate level within the speech language pathology program. Students who become “out of sequence students” due to withdrawal, or military/medical/family leave of absence will be placed into a clinical rotation upon re-entry based upon space available and
Students who have taken a leave of absence from the program for greater than 12 calendar months must reapply to the university. Their application will then be considered with all other qualified applicants applying for admission to the speech language pathology program.

Time Limitation
The MS degree in Speech Language Pathology is designed to be completed in seven quarters. The maximum time to complete this degree, including up to a 12-month approved leave of absence, is three years from first quarter of enrollment.

Graduation Requirements
A well-balanced, unified, and complete program of study is required, including evidence of successful achievement of both academic and clinical skill development. The program utilizes a cohort model, suggesting that all students move through the curriculum at a similar rate. The M.S. SLP degree in speech-language pathology requires successful completion of a minimum of 102 graduate credits (106 with a masters thesis). Speech-language pathology students are also required to complete a written comprehensive examination. Failure to complete the program requirements will result in forfeiture of degree eligibility unless the program recommends that the student complete a retake. If a retake or an extension is granted, the student must complete it by the end of the following quarter.

Students must earn at least a 3.00 cumulative GPA in SLP graduate coursework as a requirement to be eligible to graduate.

PRAXIS Examination: Speech-language pathology students are required to successfully submit the PRAXIS exam results using the DePaul SLP Program code.

Comprehensive Examinations: Comprehensive exams are a degree requirement for the M.S. SLP and must be completed in the spring quarter prior to graduation. Students will have a maximum of 4 hours to complete the exam. The purpose of this examination is to evaluate the student's knowledge of concepts, content, procedures and terminology from their graduate studies as well as their ability to apply this knowledge. This examination is designed to be summative in nature and to address the nine knowledge/skill areas identified by the Council on Academic Accreditation in Audiology and Speech-Language Pathology. This written examination consists of 100 multiple-choice questions that will include items from the nine major ASHA knowledge areas. Preparation for the multiple-choice section should include student review of the Praxis study guide.

Graduation with Distinction
A minimum cumulative GPA of 3.75 in SLP graduate coursework and successful completion of the comprehensive examination is required for graduation with distinction.

Other Program Policies

Religious Observation
A student who is absent from class because of a religious holy day will be provided with the opportunity to make up the work of that class within a reasonable amount of time after the absence. The student will not be penalized for the absence. It is the responsibility of the student to inform their faculty prior to the religious holy day to be observed of their intention to be absent.

DePaul Speech Language Pathology Program Student Code of Ethics
Students must adhere to the ASHA Code of Ethics. Violation of the ASHA Code of Ethics may result in disciplinary action as determined by the DePaul University Speech Language Pathology Program. Students must adhere to the DePaul University Speech Language Pathology Program Professional Behavior Code of Conduct defined as unprofessional behavior towards clients, faculty, staff, peers and public are significant issues in the evaluation and promotion of Speech Language Pathology students. Inappropriate behavior may be grounds for failure to promote, dismissal and/or denial of degree. Separate and apart from a violation of the Professional Behavior Code of Conduct, a student may face University disciplinary action with regard to the same action (see the DePaul Speech Language Pathology Graduate Handbook for details).

The following are professional behavior guidelines and responsibilities that the DePaul University Speech Language Pathology expects of its students:

- Interpersonal Relationships
- Honesty, Integrity and Confidentiality
- Professional Appearance
- Professional Responsibility and Judgment

Sport, Fitness and Recreation Leadership (MS) Online
The Sport, Fitness and Recreation Leadership program at DePaul seeks to provide a rich online learning environment that will facilitate the development of leaders in the areas of sport, fitness and recreation. Increasing content knowledge and developing leadership skills are essential outcomes of a graduate program. However, this program is based on a commitment to social justice, democracy, and critical engagement with ethical issues affecting students, clients and athletes. Our program assists current professionals in reflecting on and strengthening their own practice and challenging themselves and their colleagues to work effectively for justice and professional excellence.

Students use critical reflection to improve practice, engage in rigorous theoretical inquiry, and identify, address, and build coalitions around opportunities and problems in sport, fitness and recreation. The Sport, Fitness and Recreation Leadership program is designed for current kinesiology professionals specifically working in sport, fitness or recreation environments such as university athletics departments, health clubs, recreation and fitness centers, high schools and athletics clubs or leagues.

</table>

Learning Outcomes
Students will be able to:
• Provide leadership in their field in a professional manner.
• Demonstrate advanced content knowledge in administration related to sport, fitness, and recreation programs.
• Demonstrate advanced content knowledge in marketing and communication related to sport, fitness, and recreational settings.
• Demonstrate advanced content knowledge in areas related to health, wellness, and care of athletes.
• Apply knowledge specific to their field and professional goals in research activity.
• Develop a thorough understanding of legal issues related to their area of expertise in kinesiology.
• Select resources to respond to current events and ethical issues in the area of sport, fitness and recreation.
• Build a professional network and create a personal ethics code, which is versatile yet specific to their professional settings and goals, consistent with DePaul’s Vincentian principle, values, and mission.

**College Requirements**

**Dispositions**
The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Demonstrates a positive attitude and commitment to the profession
- Demonstrates thoughtful, effective verbal and non-verbal communication and listening skills
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates concern for and protection of safety and well-being of others

**Degree Conferral and Graduation**
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

**Degree Requirements**

**Content Area Prerequisites**

Sport, Fitness and Recreation Leadership students need to have an understanding that DePaul’s program requires students to enroll into a cohort. This model requires students to take two courses each quarter (online), with the plan to complete the program in two years. The cohort program also requires 2 on-campus (or virtual attendance if accommodations cannot be made) summer seminars between the first and second year, and after completion of second year coursework.

**Course Requirements**

**Core Curriculum Courses: 48 credit hours required**

On-Campus Summer Seminar: 4 credit hours required
There are 2 summer seminars required as the only face-to-face obligation of the program. Students will be required to attend a 3-day seminar after completion of the first year of the program, and again after completion of the second year. The seminar will consist of an on-campus colloquium that will provide students with the opportunity to connect and network with their peers, as well as current employers and leaders in various MSFRL fields from the Chicagoland area. It also will include an opportunity to learn, as we will invite local professionals within the field to present to the students. The last day of the seminar will be for the graduating students to present their research papers or projects. First year students will be required to observe these presentations as an example for their own research projects in the upcoming year. Therefore, each student will technically attend this seminar twice, first the summer after their 1st year, and then again the summer after their 2nd year. The difference will be the first year they will watch the graduate capstone/research presentations, and the second year they will present their own. Each year the local area professional lectures will change, so they will be able to attend new seminars each year.

Capstone Research Project: 6 credit hours required
Students will be required to complete an individualized capstone project upon completion of coursework. Each project will be specific to their respective career choices and will be developed during the second year of the program. The first required step in the process is completion of a literature review related to the topic of the anticipated project. This PE 455 is a pass/fail course and may be completed anytime from summer II through winter quarter of the second-year. Next, an intense focus on the research project occurs during PE 555, taken in spring quarter of the second year. Projects will be presented during the final summer seminar, PE 490. PE 500 is the final requirement of the program during summer II of the second summer, and allows students to submit their final capstone project after feedback received after their presentation. Students will be assigned a faculty mentor to help guide them with their research and ideas at the end of the first summer seminar.

 Academic Standards
Students must maintain a 3.0 average or higher to continue in the program. Any grade below a C will not count for credit toward completion of the program.

 Sports Business (BSB)
The DePaul Sports Business Major prepares students for a sports business career. The focus of the Sports Business degree is to teach students how their business skills are relatable in a wide range of sports industry careers, through "real world" projects and experiences. As the sports industry continues to grow and evolve, there is an increasing need for leaders with transferable business skills in management, sales, marketing, business analytics, events, hospitality, operations, leadership, entrepreneurship, accounting, economics and community relations. The Sports Business degree prepares students for careers in all these areas.

Students will be able to:

• Articulate the principles of sports business and adapt learned business skills to excel in it.
• Discover how to pursue a career in sports management through internships, volunteer positions, industry events, networking opportunities and more.
• Apply lessons from the business of sports to other industries and disciplines.
• Recognize and analyze the role of leadership in sports organizations.
• Understand technologies and how they impact the structure of a sports organization or sports-related organizations.
• Learn how current events, ethical issues and diversity impact the business of sports.
• Articulate how sports marketing intersects with key elements of the marketing mix including sales, advertising, public relations, promotion and cause marketing.
• Engage with every aspect of the sponsorship cycle including sales, negotiation, execution, promotion, hospitality, retention, research and evaluation.
• Understand the ticket sales process including prospecting, negotiation, closing the sale, and renewals.
• Understand sponsorship inventory, fulfillment, and pricing factors.
• Identify the legal parameters of sports business.

 College Core Requirements

 Business Core Requirements
All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of analytics, accountancy, mathematics, economics, business law, finance, management, management information systems/computer science, and marketing.
Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 70.0 hours are required:

1. Strobel students take specially designated sections of all required ACC classes, including ACC 101 and ACC 102 (excluding ACC 250).
2. Students majoring in accounting (primary or secondary/double major) are allowed to substitute ACC 370 in place of BLW 201.
3. Hospitality Leadership majors must take HSP 207 for the Business Law requirement; use of HSP 207 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete both HSP 207 and BLW 201.
5. MGT 301-H is required if pursuing the Management Honors Program.
6. MIS majors and minors must take MIS 140. Actuarial Science and Economic Data Analytics majors must take CSC 241.
7. MKT majors and Sales minors must take MKT 376.
8. Entrepreneurship majors and minors must take ICS 394. Hospitality Leadership majors must take ICS 396 for the Business Capstone; use of ICS 396 is limited to Hospitality Leadership majors. A student majoring in Hospitality Leadership and a second business major must complete ICS 396 and one of ICS 394 or ICS 395.

A course taken for Global Business Perspective that is in a student’s major or minor field must be completed with a minimum grade of C-.

Business Ethics

All undergraduate students in the Driehaus College of Business complete a course in Business Ethics. It is recommended students take MGT 248 or PHL 248 in Philosophical Inquiry or MGT 228 or REL 228 in Religious Dimensions in the Liberal Studies Program (or University Honors Program) Requirements.

Second Majors and Minors

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.
Math Requirements for all business majors (except Actuarial Science majors)

- MAT 137 may be replaced by MAT 348 or MAT 351.

Grade Minimums for Sports Business Major

A minimum grade of C- is required for the following: ACC 101 (https://catalog.depaul.edu/search/?P=ACC%20101), ACC 102 (https://catalog.depaul.edu/search/?P=ACC%20102), BUS 102 (https://catalog.depaul.edu/search/?P=BUS%20102), ECO 105 (https://catalog.depaul.edu/search/?P=ECO%20105), ECO 106 (https://catalog.depaul.edu/search/?P=ECO%20106), MAT 137 (https://catalog.depaul.edu/search/?P=MAT%20137), MGT 300 (https://catalog.depaul.edu/search/?P=MGT%20300), MGT 301 (https://catalog.depaul.edu/search/?P=MGT%20301), MKT 301, MKT 310 the course used for Professional Writing, and any HSP, ICS, MGT or MKT or course used for Global Business Perspective.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
- 1 SCBI Course Required

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

In addition to MGT 300, MGT 301, MKT 301, and MKT 310 a student majoring in Sports Business is required to complete the following courses totaling at least 38.0 hours:

Open Electives

Open elective credit (12.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

Global Business Perspective

If an HSP, ICS, MGT or MKT course is shared between Global Business Perspective and the Sport Business major, additional hours of Open Elective credit are required. Any HSP, ICS, MGT or MKT course used toward Global Business Perspective must be passed with C- or higher.

Career Management Course

Students are required to complete the Career Course (250) associated with the major. Sports Business majors can select from HSP 250, MGT 250 or MKT 250. Students who double major may choose the Career Course (250) associated with either major provided that hours for graduation are satisfied.

Experiential Learning

If ICS 350, MGT 393 (https://catalog.depaul.edu/search/?P=MGT%20393) or MKT 393 is completed in the Sports Business major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Hospitality (HSP), Management (MGT) and Marketing (MKT) courses, and any other courses used toward the Sports Business major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Sports Business (Minor: Business Students Only)

The Sports Business minor is available to Driehaus College of Business students only. A DePaul Sports Business minor degree will enhance a Driehaus graduate's ability to leverage their business knowledge in this market. The direct benefits to students include helping them build the skill set to prepare for careers as business professionals with proficiency in sports management, sports marketing, sports hospitality and analytics in sports organizations seeking leadership talent in these areas.

Course Requirements

A Driehaus student minoring in Sports Business is required to complete the following courses totaling at least 20.0 hours.

<table>
<thead>
<tr>

Graduation Requirements
All courses used toward the Sports Business minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Sports Communication (BA)
The Bachelor of Arts degree in Sports Communication prepares graduates for careers that merge foundational communication skills with expertise in areas such as sports sales and marketing, public/community/media relations, media production in digital graphics, video editing, and social media analytics and management. The Sports Communication BA provides students a strong academic foundation analyzing the economic and societal impact of the sports industry to prepare them to make positive change in their communities as socially responsible communication professionals. DePaul Sports Communication majors will develop oral, written, and visual communication skills that will enable them to research, design, present, and evaluate messages across diverse contexts and from a variety of platforms, including social media and digital communication technologies. The combination of communication and business skills offered by the Sports Communication BA prepares students to enter new and emerging career paths in the sports industry.

<td>4</td>
</tr>
</tbody>
</table>

Learning Outcomes
Students will be able to:
- Apply knowledge and critical thinking about sports in relation to culture, business, ethics, and communication theory to students’ intellectual and professional communication work.
- Engage critically with sports and its relationship to the communication pathways in the community, including formal societal power structures such as the law, government, politics, and private economic interests.
- Generate sports media content using a variety of modes and media in an ethical, meaningful, deliberate, and socially responsible manner in service to their communities.
- Analyze how sports and sports communication influence and are influenced by how people form, maintain, and manage a range of relationships, networks, and organizations.

College Core Requirements (p. 1100)
Modern Language Requirement (p. 1100)
Modern Language Option (p. 1100)
All majors in the College of Communication consist of a four-course common core plus an additional combination of program requirements and electives.

College Core Requirements
Four core courses are required of all College of Communication students:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CMN 101</td>
<td>INTRODUCTION TO HUMAN COMMUNICATION</td>
<td>4</td>
</tr>
<tr>
<td>CMN 102</td>
<td>INTRODUCTION TO MASS COMMUNICATION</td>
<td>4</td>
</tr>
<tr>
<td>CMN 103</td>
<td>INTERCULTURAL COMMUNICATION</td>
<td>4</td>
</tr>
<tr>
<td>CMN 104</td>
<td>PUBLIC SPEAKING</td>
<td>4</td>
</tr>
</tbody>
</table>

Students are encouraged to complete all four prior to taking additional coursework in the major.

Modern Language Requirement
Students who intend to graduate with a Bachelor of Arts degree in the College of Communication will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:
- completing the last course in a second year high school course work in a modern language or Latin
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language (must be completed during high school)
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement. Students with some modern language training should consult with the Modern Language Department about the course with which they should begin. Students with little or no previous work in the language will be required to complete the entire three-course introductory sequence.

Modern Language Option
The Modern Language Option is available to all BA students who wish to study a modern language beyond the level necessary to meet the
College’s modern language requirement. Students selecting the option may substitute a three-course language sequence for three learning domain courses, or two upper-level courses in the same language for two learning domain requirements. Modern language option waivers cannot be applied to courses in the Math and Computing Domain or courses in the Scientific Inquiry domain. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

</tr>
</tbody>
</table>

1. Students must earn a C- or better in this course.
2. Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120.
3. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

**Learning Domains**

- Arts and Literature (AL) (p. 1300)
  - 2 Courses Required
- Historical Inquiry (HI) (p. 1304)
  - 2 Courses Required
- Math and Computing (MC) (p. 1306)
  - 2 Courses Required
    - [1 CR Course and 1 SR Course]
- Philosophical Inquiry (PI) (p. 1307)
  - 2 Courses Required
- Religious Dimensions (RD) (p. 1308)
  - 2 Courses Required
- Scientific Inquiry (SI) (p. 1310)
  - 2 Courses Required
    - [1 Lab Course and 1 SWK Course]
- Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
  - 2 Courses Required

**Note**

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

**Major Requirements**

All Sports Communication majors must complete the major core curriculum consisting of eight classes (32 hours) and a 4 course (16 hour) concentration in Sports Journalism, Sports Promotion and Publicity, or Sports and Society.

**Sports Communication Core Requirements**

<table>
<thead>

</tbody>
</table>

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements...
and major requirements, students are required to choose one of the following:

- Sports and Society Concentration, Sports Communication (BA) (p. 1102)
- Sports Journalism Concentration, Sports Communication (BA) (p. 1103)
- Sports Promotion and Publicity Concentration, Sports Communication (BA) (p. 1104)

## Sports and Society Concentration, Sports Communication (BA)

The Sports and Society concentration offers students the ability to create a customized mixture of skills in sports media production and critical/cultural analysis. Students tailor the combination of courses to their interest to further develop their critical thinking and communication skills to respond to specific, crucial needs they identify in the changing and growing sports communication job market. Students can blend classes in journalism, public relations, advertising, business, media studies, and communication studies to prepare for a broad variety of careers in the sports industry.

1 Students may take up to 4 hours of credit in this course toward graduation requirements.
2 A maximum of 8 credits from two credit College of Communication courses can be applied to major requirements.

## Sports Communication 3+3 (BA+JD)

In the 3 + 3 BA/JD Program, high-achieving first-year incoming undergraduate students are admitted simultaneously to the College of Communication and the College of Law. Students complete their first three years in the College of Communication and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA/JD students meet regularly with advisors in both colleges and have access to a variety of resources to ensure their success.
Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Communication during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Communication for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study. Students who enrolled in the BA+JD program prior to 2022 must achieve a cumulative GPA of 3.35 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

- PRELAW 150 THE PRACTICE OF LAW
- PRELAW 151 RECENT CONTROVERSIES IN THE LAW
- PRELAW 152 THINKING ABOUT THE LAW

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 677).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law’s median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Participating Majors

The BA/JD Program is available for students pursuing the following majors:

- Communication and Media (p. 236)
- Communication and Technology (p. 245)
- Communication Studies (p. 248)
- Journalism (p. 661)
- Media and Cinema Studies (p. 784)
- Organizational Communication (p. 861)
- Public Relations and Advertising (p. 952)
- Sports Communication (p. 1100)

For admission requirements and information, contact the Office of Admission (https://www.depaul.edu/admission-and-aid/Pages/default.aspx).

Sports Journalism Concentration, Sports Communication (BA)

The Sports Journalism concentration prepares students with the digital editing skills and ability to write across platforms to enter the fast-changing world of sports media. Students learn how to gather sports news, write and produce multimedia content on tight deadlines and are instructed by current and former professional journalists from world-famous outlets such as ESPN, Fox Sports, the Big Ten Network, the Chicago Tribune, the Chicago Sun-Times, WGN, 670 The Score, and NBC Sports Chicago. This concentration enables students to seek careers in traditional sports journalism in TV, radio, print, and digital outlets, along with positions with a variety of sports leagues, teams, organizations, and related entities.

### Sports Promotion and Publicity Concentration, Sports Communication (BA)

The Sports Promotion and Publicity concentration enables students to develop an understanding of the theories and practices in public relations, advertising, consumer promotion, content management, and event planning in the context of sports. Students will learn to consider sports promotion and publicity processes from multiple perspectives and from a variety of platforms. Career paths include sports public relations, sports event planning, sports content creation, consumer promotion, and sports social media.

1. Students may take up to 4 hours of credit in this course toward graduation requirements.
2. A maximum of 8 credits from two credit College of Communication courses can be applied to major requirements.

### Sports Communication (Minor)

The Sports Communication minor introduces students to sports media skills and related communication expertise, while strengthening their organizational and team-focused skills necessary to operate within sports organization careers. Through coursework and experiential learning, DePaul Sports Communication minors develop oral, written, and visual communication skills that enable them to research, design, present, and evaluate messages across diverse contexts and from a variety of platforms, including social media and digital communication technologies. The minor prepares students for the changing and growing sports media job market.

Select five of the following:
Learning Outcomes

Core Outcomes
Students will be able to:

- Identify and describe the historical and theoretical significance of a range of theatrical artists, works, and artistic approaches from antiquity to present.
- Synthesize and apply elements of their education and training to the preparation, rehearsal, and presentation of theatrical productions with discipline, respect, and maturity.
- Identify and explain their theatrical work in the context of the cultural and social impact of the arts.

Program Specific Outcomes
Students will be able to:

- Design and implement a plan for the preparation, rehearsal, and presentation of theatrical productions in collaboration with producers, directors, and other collaborators.
- Demonstrate an understanding of the practice of the various disciplines involved in the creation of a theatrical performance and both artistic and practical requirements of each.
- Communicate effectively both orally and in writing and have a mastery of the documentation required for the preparations, rehearsal, and presentation of theatrical productions.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Stage Management (BFA)

The Theatre School’s Bachelor of Fine Arts (BFA) degree in Stage Management is a blend of training in management, design and technical skills. The four-year curriculum in many ways simulates a stage managers professional experience and process. Students learn to communicate with and manage all areas of production. Students collaborate with directors, designers, actors, administration and our professional production staff as part of our production program.
1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.

Learning Domains

Arts and Literature (AL) (p. 1300)
- THE 204 HISTORY OF DRAMATIC LITERATURE
- THE 205 HISTORY OF DRAMATIC LITERATURE
- THE 206 HISTORY OF DRAMATIC LITERATURE

Historical Inquiry (HI) (p. 1304)
- 1 Course Required

Math and Computing (MC) (p. 1306)
- No Requirement

Philosophical Inquiry (PI) (p. 1307)
- 1 Course Required

Religious Dimensions (RD) (p. 1308)
- 1 Course Required

Scientific Inquiry (SI) (p. 1310)
- 1 Lab Course or 1 SWK Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
- Not Required

Other (p. 1300)
- Choose 1 course from the above learning domains as an elective

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

</tbody>
</table>

Business students who have an exceptionally strong background in calculus, including calculus of trig functions, may be permitted by the chair to substitute MAT 135 and MAT 136 for MAT 150.

In general, mathematics students cannot earn a minor in the same academic program as their major. A minor in Statistics, however, can be earned if the student's major is one of the following:

- BS Actuarial Science
- BS Mathematics & Computer Science
- BA/BS Mathematics, with a concentration in:
  - Actuarial Science
  - Applied Computational Mathematics
  - Financial Mathematics
  - Individualized Concentration (with prior approval of the department chair)
  - Pure Mathematics

Strategic Writing and Advancement for Nonprofits Graduate Certificate

The graduate Certificate in Strategic Writing and Advancement for Nonprofits (SWAN) is designed for those who wish to enter into or advance their careers in nonprofit marketing, communication, and development. Jointly offered by DePaul’s School of Public Service (SPS) and Department of Writing, Rhetoric and Discourse (WRD), the four-course, sixteen-credit-hour Certificate provides a foundation in grant writing and resource development, which can be supplemented with electives in key professional areas such as content strategy, digital storytelling, and nonprofit marketing and board development.

Many SWAN courses are characterized by community-engaged, project-based learning, in which students complete substantial course projects with and for Chicago-area nonprofit partner organizations. Students can expect to gain both resumé experience and professional writing samples through their Certificate work.

The SWAN Certificate is available to students in DePaul graduate programs and to those who seek a stand-alone credential that provides credit toward a master’s degree. DePaul students pursuing an MA in Writing, Rhetoric and Discourse, Nonprofit Management, or an MS in Public Service Management, can complete the Certificate without adding additional courses to their degree.

1. This Calculus sequence is offered only during the summer, in two 6-credit hour courses. Students successfully completing MAT 131, MAT 147, MAT 150 or MAT 160 should enroll in MAT 155; students who successfully complete MAT 148, MAT 151 or MAT 161 should enroll in MAT 156. Students who successfully complete MAT 155 may enroll in either MAT 151 or MAT 156.

2. Must be an internship course on a Statistics-related topic.
MPS 528 FOUNDATION MANAGEMENT
MPS 529 STRATEGIC MANAGEMENT AND PLANNING
WRD 522 WRITING IN THE PROFESSIONS
WRD 523 EDITING
WRD 531 DIGITAL STORYTELLING
WRD 532 CONTENT STRATEGY
WRD 590 INTERNSHIP IN PROFESSIONAL AND DIGITAL WRITING (*)

*When internship is with a nonprofit organization and student is interning in a strategic writing or development role. Students are encouraged to balance the Certificate with one elective course from both the School of Public Service (MPS-prefix) and WRD. Those students without experience working in or studying nonprofit organizations are encouraged to enroll in MPS 508 early in the Certificate and before taking MPS 519.

Admission Requirements
Applications are accepted at any time, and students may begin the program at the start of any academic quarter. The program is open to both non-degree seeking students and students concurrently enrolled in a DePaul graduate degree program. All applicants must hold a bachelor's degree.

There are several processes for applying to the program, depending on the status of the applicant:

• Current graduate students in SPS should contact the SPS staff advisor (SPSAdvising@depaul.edu) to enroll in the Certificate.
• Current graduate students in WRD or in any other DePaul master's degree program should contact the SWAN Certificate Coordinator, Prof. Lisa Dush (ldush@depaul.edu), to enroll.
• Applicants who are not currently enrolled as DePaul students should apply online as a non-degree seeking student, and be prepared to submit the following:
  • an LAS graduate admission online application (https://grad.depaul.edu/apply/)
  • transcripts from all schools attended
  • a Statement of Purpose of 300-500 words, describing their interest in and professional goals for pursuing the Certificate

Students majoring in Art, Media, and Design (BA) or (BFA) or Art (BA) are restricted from earning this minor.

Supply Chain Management (MS)
In DePaul's MS in Supply Chain Management degree program, students gain the leadership and technical skills necessary to manage supply chains. The program will provide a broad-based knowledge of sourcing, procurement, transportation, warehousing, production and distribution. Based on their interests, students have the flexibility to choose from a wide range of electives from across the business school. Supply chain industry professionals who aspire to leadership roles will especially benefit from this degree.

Program Features
In this degree program, students learn to:
• Critically evaluate supply chain design and potential improvements.
• Use qualitative and quantitative techniques to model complex supply chain phenomena.
• Deliver meaningful analyses and solutions that can be understood easily by a variety of audiences.
• Recognize global practices and identify regional differences, as well as understand the interconnectedness and interdependencies of global supply chain management.
• Make socially conscious supply chain decisions that consider the global availability of resources.

The program also leverages its location in Chicago, a major transportation and distribution hub, and the business school’s connections to supply chain management organizations to provide students with practical learning experiences and career connections.

STEM Designation
DePaul’s Master of Science in Supply Chain Management is a Department of Homeland Security STEM-designated program. STEM designation is granted to programs that produce graduates educated in science, technology, engineering and/or math who help support U.S. economic competitiveness and growth. International students who earn degrees from STEM-designated programs can qualify to extend their post-graduation stay in the United States for Optional Practical Training (https://studyinthestates.dhs.gov/stem-opt-hub/) (OPT). OPT provides an opportunity for international students to develop their careers while also helping meet the demand for STEM-educated professionals in the U.S. workforce. To find out more, contact the Kellstadt Graduate School of Business at kgsb@depaul.edu or (312) 362-8810.

Learning Outcomes
Students will be able to:
• Describe efficient delivery of supplies and products in the supply chain.
• Recognize and analyze problems within applied business situations, choose a resolution, and justify that choice.
• Apply knowledge about the differences among global supply chain operations management.
• Exhibit sophisticated knowledge of management practices leading to applicable skills in relevant areas.
• Recognize emerging technologies in supply chains and discuss the ethical issues that relate to them.

Degree Requirements
Course Requirements
The MS in Supply and Chain Management requires 12 courses - nine core courses and three elective courses - in addition to the program prerequisites. Students without prior coursework in calculus and statistics must complete GSB 420 or GSB 519 prior to registering for MGT 501.

Degree Requirements
• Satisfactory completion of the college residency requirements.
• Satisfactory completion of the 9 required courses and 3 elective courses.
• All courses for credit toward the degree must be completed within six calendar years after the candidate’s first term of enrollment in the
Supply Chain Management (MS), Combined Bachelor’s + Master’s Degree

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Supply Chain Management (MS)

The Master of Science in Supply Chain Management is designed for early career professionals to gain the leadership and technical skills necessary to manage supply chains. The program will provide you with a broad-based knowledge of sourcing, procurement, transportation, warehousing, production and distribution.

DePaul degree-seeking undergraduate students interested in earning a Master of Science in Supply Chain Management may apply to the Supply Chain Management (MS) combined program. Students may be able to obtain both degrees in as few as five years.

Admission

Students must formally apply and be admitted to the Department of Management before beginning their graduate coursework. Undergraduate students who meet the following criteria may apply to this program:

- Junior standing or higher (at least 88.0 credits)
- A minimum cumulative DePaul grade point average of 3.20

Students participating in this program will typically take the following three graduate level courses during their senior year:

<table>
<thead>
<tr>
<th>Course</th>

Sustainable Management (MS)

The Master of Science (MS) in Sustainable Management program combines courses from the College of Science and Health, College of Liberal Arts and Social Sciences, College of Communication and Kellstadt Graduate School of Business, providing students with a broad base of knowledge and skills for implementing sustainable strategies for managing human, social, financial and natural resources in today’s marketplace.

Program Features

DePaul’s MS in Sustainable Management program has a unique curriculum that will enable you to develop:

- Methods to create long-term profitability through socially and environmentally responsible business practices.
- The ability to assess, challenge and reframe traditional practices of management for sustainable alternatives.
- Practical decision-making abilities based on organizational strategies to ensure sustainable actions fit into the overall mission.
- Analytical skills focusing on how societies and organizations value resources required to deliver goods and services.
- Technical skills to analyze and measure the economic, social and environmental impacts of organizational decisions.

Learning Outcomes

Students will be able to:
• Explore the numerous different sustainability career paths that are available across industries.
• Understand and synthesize the role of local and global sustainability efforts.
• Analyze the relationship between human activity and natural, social, and economic ecosystems.
• Understand and apply performance metrics utilizing financial, natural, and social capital to drive organizational decision-making.
• Evaluate the economic impact of sustainability and its obligation to future generations.
• Examine how to develop and enable sustainable organizations.
• Effectively communicate complex issues related to sustainability.
• Compare international sustainability efforts with those of the region.

Degree Requirements

Course Requirements

To earn the Master of Science in Sustainable Management, students must complete a total of 12 courses. Five courses are required core courses, four are selected from the list of business foundation electives and three are selected from the list of interdisciplinary electives.

Degree Requirements
1. Satisfactory completion of the college residency requirement.
2. Satisfactory completion of the 12 required courses, or their substitutes as approved by the Chair of the Management Department.
3. All courses for credit toward the degree must be completed within six calendar years after the candidate’s first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree.

Sustainable Management (MS), Combined Bachelor’s + Master’s Degree

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Undergraduate DePaul Degree + Sustainable Management (MS)

The Master of Science in Sustainable Management provides students with advanced knowledge of business systems and practices, focusing on sustainability, to create leaders for business, government and civic organizations.

Admission

Students must formally apply and be admitted to the Department of Management before beginning their graduate coursework. Undergraduate students who meet the following criteria may apply to this program:

- Junior standing or higher (at least 88.0 credits)
- A minimum cumulative DePaul grade point average of 3.200

Students participating in this program will typically take the following three graduate level courses during their senior year:

<table>
<thead>
<tr>

<td>MGT 515</td>
<td>SUSTAINABILITY MANAGEMENT</td>
<td>4</td>
</tr>
<tr>
<td>MGT 535</td>
<td>CHANGE MANAGEMENT AND CONSULTING</td>
<td>4</td>
</tr>
</tbody>
</table>

These three courses may double-count up to 12 credits towards both degree programs. The undergraduate degree will be awarded at the completion of all undergraduate work while the MS Sustainable Management degree will be awarded upon completion of the remaining graduate level work.

Sustainable Urban Development (MA)

Chicago faces many questions about its urban future:

- How can urban communities be made more sustainable?
- What should the city do with its old industrial sites?
- Can Chicago’s transportation networks modernize?
- Where should the city invest its economic development dollars?
- What is the role for community organizations in these debates?

These questions are at the center of the Master of Arts in Sustainable Urban Development (MASUD). With classes in Chicago’s Loop and Lincoln Park campuses, this 13-course (52 credit hour) interdisciplinary graduate program integrates academics with practical learning. Instructors draw on the city’s resources and incorporate expert guest speakers, site visits, and industry-standard Geographic Information Systems (GIS) digital mapping and spatial analysis technology. A genuinely interdisciplinary program that incorporates perspectives from fields such as Urban Planning, Public Policy, Geography, Sociology, Public Service Management, Environmental Studies and Real Estate, the MASUD introduces students to sustainable urban development policy, data collection and analysis, planning processes, strategies for implementation, modes of communication, and evaluation mechanisms.

The first year of study provides a theoretical background as well as an introduction to the technologies used in urban development and planning. The second year of the curriculum is dedicated to teaching advanced courses and completing a required internship and a capstone/portfolio component.

The MA in Sustainable Urban Development may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Sustainable Urban Development + Graduate GIS Certificate
- Sustainable Urban Development + Community Development Certificate
- Sustainable Urban Development + Global Health Certificate
- Sustainable Urban Development + Metropolitan Planning and Development Certificate
- Sustainable Urban Development + Sustainable Urban Food Systems Certificate
- Sustainable Urban Development + Social Research Certificate

Program Requirements

Learning Outcomes

Students will be able to:

- Identify and describe the practical and theoretical links between sustainable urban development and issues of economic development, community development, social justice and the environment.
- Articulate details and apply critical insights about strategies being used to transform U.S. urban areas to make them more environmentally, economically, and socially sustainable.
- Define and describe contemporary urban issues and debates by citing and critiquing contemporary scholars and through employing either qualitative or quantitative methodologies using either primary (including fieldwork) or secondary sources.
• Articulate, research, and present publicly an assessment of critical social, environmental, and economic issues facing contemporary U.S. cities.
• Use with competence geographical information systems and/or other technology to assess and analyze sustainable urban development and design.

### Sustainable Urban Development (MA), Combined Bachelor’s + Master’s Degree

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

### DePaul Undergraduate Degree + Sustainable Urban Development (MA)

Students completing any undergraduate degree at DePaul are eligible to apply for the bachelor’s + master’s in Sustainable Urban Development in their Junior year if they meet the following criteria:

- They have achieved Junior status;
- They have completed at least 88.0 credit hours of their undergraduate degree;
- They have a GPA of 3.0 or higher.

If accepted to the bachelor’s + master’s degree in Sustainable Urban Development, in their senior year, the student will take the following courses:

<table>

### Sustainable Urban Food Systems Certificate

The graduate certificate introduces students to policies, theories, and practices that contribute to current developments in sustainable urban food systems around the world. The courses provide a focus on (1) how and why urban food systems have become magnets for capital investment in (re)localization and regionalization of food production and distribution and (2) broader questions of economic, racial and gender equity that emerge in relation to food access and nutrition, environmental restoration and justice, economic development in distressed urban neighborhoods, the relationship between rural and urban food systems, and the social and power relations in rural and urban agrarian formations.

The certificate exposes students to a wide variety of issues related to food systems including food entrepreneurship, community gardening and urban farming, and the relationship between food and climate change, gentrification, racial segregation, and labor. The courses in the certificate pay particular attention to preparing students for occupations in emerging local and regional urban food systems, but with a distinctly DePaul focus on how historically marginalized groups (re)gain control over food as a means to assert self-determination in urban and peri-urban communities. The centerpiece of the certificate is engagement in a 100-hour practicum within Chicago’s local and regional food system.

The Sustainable Urban Food Systems Certificate requires 12 credit hours and is available to students in the Sustainable Urban Development Graduate Program, non-degree seeking students, and students in other DePaul graduate degree programs.

### COURSE REQUIREMENTS

Three courses from the following:

- SUD 420 Sustainable Urban Food Systems
- SUD 451 Sustainable Cities and Food Justice
- SUD 501 Professional Seminar in Sustainable Urban Development (available only to enrolled SUD graduate students)
- SUD 592 Independent Study in Sustainable Urban Food Systems
APPLICATION PROCEDURES & REQUIREMENTS

The admission requirements for the certificate program include a bachelor’s degree from a regionally accredited institution and/or a student currently pursuing graduate study at DePaul. Students enrolled in a graduate program at DePaul University apply directly to the Sustainable Urban Development program by submitting all application materials to the program director. Applicants from outside DePaul apply to the Sustainable Urban Development program through the online graduate admissions application process. Interested applicants from outside DePaul should submit a 300-word statement of interest to Drs. Hugh Bartling (hbartling@depaul.edu) and Howard Rosing (hrosing@depaul.edu). Applications are accepted on an ongoing basis.

For more information please contact the Director, Dr. Hugh Bartling, via the Sustainable Urban Development Graduate Program website. (https://las.depaul.edu/academics/sustainable-urban-development/pages/default.aspx)

Taxation (LLM)

For more than a quarter century, the LLM in Taxation has offered a comprehensive curriculum that provides instruction in both the substantive and procedural aspects of tax law. Courses range from the basics of personal and business income taxation to advanced problems in corporate and partnership taxation, estate and gift taxation, and state and local taxation. The full-time faculty is complemented by prominent and skilled adjunct faculty, balancing scholarly and practical approaches to the program.

Learning Outcomes

**Domestic Students**

Students will be able to:

- Demonstrate advanced knowledge of the legal rules and policies in the student's area of specialization.
- Conduct advanced legal research and analysis in the student's area of specialization.

**International Students**

Students will be able to:

- Identify structures of the U.S. legal system and government institutions.
- Demonstrating understanding of how a common law system operates in a constitutional democracy.
- Demonstrate advanced knowledge of the legal rules and policies in the student's area of specialization.
- Identify and apply relevant legal authority.
- Communication clearly in speech and writing.

Degree Requirements

The Master of Laws program begins with an orientation that introduces graduate students to DePaul’s faculty, staff, library, computer and research facilities. Students who received legal training outside the United States also will participate in a special course introducing them to the Socratic teaching method, the differences between civil and common law systems, and the foundations of the U.S. legal system.

To earn the LLM in Taxation, a student must complete 24 semester hours of credit with a minimum cumulative grade point average (GPA) of 2.0. A summer term is counted as a semester for this purpose. Students who complete 24 credit hours with a GPA below the 2.0 GPA required to earn the degree will not be permitted to continue taking classes to improve their GPA. A student is automatically dismissed if he or she has a cumulative GPA below 2.0 for any three consecutive semesters.

The LLM program may be completed on either a full- or part-time basis but it must be completed within five years. With the exception of students admitted to and enrolled in the joint JD/LLM program, credits earned as part of the JD program do not count toward the LLM degree.

Taxation (MSTAX)

Program Description

The Master of Science (MS) in taxation is an integrated program of study that provides the foundation for exceptional performance and leadership in the field of taxation.

One of the first MS in taxation programs in the United States, DePaul’s program is structured for working professionals to enhance understanding and analysis of complex tax statutes, tax regulations, related cases and rulings, and the Internal Revenue Code.

MS in taxation students gain technical competencies; analytical, communications and interpretive skills; and leadership abilities that prepare them to add value at the highest levels in their firms, businesses and organizations.

Program Features

Faculty expertise. Program faculty bring top academic and professional qualifications into the classroom and are experts in the specific topics they teach. Faculty include a broad range of distinguished individuals working in tax firms and government, including professionals from RSM, the Internal Revenue Service, Deloitte, PwC, EY, Grant Thornton and KPMG.

Top-ranking program. The program has been ranked among the top 10 tax programs in the nation, based on a survey of employers conducted by TaxTalent, the largest online network of tax professionals. The survey provides a valuable index of which accounting schools are highly regarded by alumni and tax firm hiring professionals.

Flexibility. The flexible pace of the program allows students to tailor their school schedule to their work schedule. Most students take one to two classes each quarter, completing the program within two to three years, and students often take a quarter off during busy periods such as the winter tax season. The program can also be completed in one year by attending full time.

Online learning. The program also can be completed partially or entirely online, a benefit for students who seek a flexible schedule or do not live in the area. The online option provides full access to the MS in Taxation’s comprehensive curriculum through video lectures and course materials presented in a convenient, supportive and engaging online format.

Program Requirements

Introductory Courses (varies with prior coursework) 0-8
Degree Requirements (varies with admission term and course selection) 46
Total hours required 46-54

Learning Outcomes

Students will be able to:

• Exhibit sophisticated knowledge related to tax accounting rules and regulations, and analyze and resolve tax problems.
• Identify, define, and resolve tax issues through their understanding, knowledge, and application of research methods and databases.

• Recognize and apply relevant ethical standards as required in tax practice.
• Write skillful tax communications and be skillful in oral presentations.
• Demonstrate an understanding of tax issues from an international perspective.
• Understand how data analytics is used to facilitate tax decisions.

Degree Requirements

Course Requirements

Students earn their MS in Taxation degree by completing a minimum of 46 credits, normally 12 courses. Eight courses are required with additional courses chosen from a list of tax electives.

Prerequisite Courses

Students are expected to have completed Principles of Accounting ACC 500 and one introductory tax course ACC 548 prior to beginning the program.

Required Courses

The following eight courses are required:

ACC 582 ADVANCED CONCEPTS IN INTERNATIONAL TAXATION
ACC 583 FUNDAMENTALS OF TRANSFER PRICING IN BUSINESS
ACC 591 TAX EXEMPT ORGANIZATIONS
ACC 592 FEDERAL INCOME TAX OF INDIVIDUALS
ACC 594 FAMILY OFFICE AND MULTIGENERATIONAL PLANNING
ACC 798 SPECIAL TOPICS (In Taxation)

Degree Requirements
- Satisfactory completion of the college residency requirement.
- Satisfactory completion of 46 credit hours applicable to the degree.
- All courses for credit toward the degree must be completed with satisfactory grades within six calendar years after the candidate’s first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree without the written permission of the faculty program director or the Kellstadt Graduate School of Business.

**TEACH: Secondary Education Biology (MEd)**

The TEACH Program combines a College of Science and Health (CSH) undergraduate Biology major or some other disciplinary major with a graduate level College of Education (COE) Master of Education (MEd) Program. Students graduate with a BS in their CSH disciplinary major and a MEd in Education with a Professional Educator License and biology endorsement in the State of Illinois.

The program features the integration of disciplinary content with educational foundations and pedagogical content knowledge. The Junior Year Experiential Course, Senior Capstone Course, and three double-counted undergraduate/graduate courses offer students a seamless transition from undergraduate to graduate studies and from major-field coursework to teacher-preparation coursework. For undergraduate disciplinary major requirements, please refer to the appropriate undergraduate program website.

The 5th-year master’s level coursework builds on students’ undergraduate experiences through a series of integrated courses that include consistent and long-term field experiences culminating in a student-teaching experience during the Spring of students’ fifth year. Within the COE, the Junior Year Experiential Course, Capstone Course, and master’s level coursework are part of the Department of Teacher Education. This coursework is designed to immerse students into the teaching profession by linking and integrating disciplinary content with an understanding of human development; diverse students; middle-school and secondary education, research on pedagogical content knowledge; the social and cultural contexts of education; and the development and assessment of content-area curricula. The program engages teacher candidates in critical reflection on their teacher development and practice. It fosters engagement in schools through placement of students in field experiences in schools and community agencies. Upon completion of the TEACH Program, teacher candidates measure themselves against the values of the COE conceptual framework through the development of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to participate in a minimum of 140 hours of field experiences in schools and community sites. These field experience hours are completed in conjunction with coursework and are integral to successful completion of the program. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International
Baccalaureate Schools. In addition, students must complete a minimum of 10 weeks of full-time student teaching in a designated middle or high school.

**Licensure**

Illinois Professional Educator License with endorsement in Middle and Secondary Education Science-Biology (grades 9-12 or grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1371) for grades 5-8.

**Learning Outcomes**

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students' conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
- Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

**Field Experiences**

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and
without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual
teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Degree Requirements

Course Requirements

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Typically these requirements are met concurrently with the completion of the CSH undergraduate degree program. Prior to admission to the 5th year master’s year, students must meet with their CSH academic advisor to complete an undergraduate degree audit that will include an official written content area evaluation. Any areas of deficiency must be completed prior to beginning student teaching.

All coursework in the content area must earn a grade of C or better.

- General Biology I
- General Biology II
- General Biology III
- Ecology
- Cell Biology
- Physiology
- Genetics
- Biology Elective
- Biology Elective
- Biology Elective (with lab)

1 Taken in conjunction with TCH 484.
Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Biology students must complete the following tests:

- Science: Biology Content Area Test (test #105) – assesses knowledge of biological and physical science. Test is required before Student Teaching (deadlines apply)
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Students should enter field experience hours into the FEDS system upon completion of each course with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

TEACH: Secondary Education Chemistry (MEd)

The TEACH Program combines a College of Science and Health (CSH) undergraduate Chemistry major or some other disciplinary major with a graduate level College of Education (COE) Master of Education (MEd) Program. Students graduate with a BS in their CSH disciplinary major and a MEd in Education with a Professional Educator License and chemistry endorsement in the State of Illinois.

The program features the integration of disciplinary content with educational foundations and pedagogical content knowledge. The Junior Year Experiential Course, Senior Capstone Course, and three double-counted undergraduate/graduate courses offer students a seamless transition from undergraduate to graduate studies and from major-field coursework to teacher-preparation coursework. For undergraduate disciplinary major requirements, please refer to the appropriate undergraduate program website.

The 5th-year master’s level coursework builds on students’ undergraduate experiences through a series of integrated courses that include consistent and long-term field experiences culminating in a student-teaching experience during the Spring of students’ fifth year. Within the COE, the Junior Year Experiential Course, Capstone Course, and master’s level coursework are part of the Department of Teacher Education. This coursework is designed to immerse students into the teaching profession by linking and integrating disciplinary content with an understanding of human development; diverse students; middle-school and secondary education, research on pedagogical content knowledge; the social and cultural contexts of education; and the development and assessment of content-area curricula. The program engages teacher candidates in critical reflection on their teacher development and practice. It fosters engagement in schools through placement of students in field experiences in schools and community agencies. Upon completion of the TEACH Program, teacher candidates measure themselves against the values of the COE conceptual framework through the development of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to participate in a minimum of 140 hours of field experiences in schools and community sites. These field experience hours are completed in conjunction with coursework and are integral to successful completion of the program. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, students must complete a minimum of 10 weeks of full-time student teaching in a designated middle or high school.

Licensure
Illinois Professional Educator License with endorsement in Middle and Secondary Education Science-Chemistry (grades 9-12 or grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1371) for grades 5-8.

Learning Outcomes
Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students' conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
- Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.
**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

**Field Experiences**

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**
- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements must be passed one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor's degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

Degree Requirements
Course Requirements
All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Typically these requirements are met concurrently with the completion of the CSH undergraduate degree program. Prior to admission to the 5th year master’s year, students must meet with their CSH academic advisor to complete an undergraduate degree audit that will include an official written content area evaluation. Any areas of deficiency must be completed prior to beginning student teaching.

Content Area Requirements for Secondary Chemistry Education
All coursework in the content area must earn a grade of C or better.

• General Chemistry I
• General Chemistry II
• General Chemistry III
• Organic Chemistry I
- Organic Chemistry II

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Chemistry students must complete the following tests:

- Science: Chemistry Content Area Test (test #106) – assesses knowledge of both geological and chemical science as well as general biological and physical sciences. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an
outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Students should enter field experience hours into the FEDS system upon completion of each course with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

TEACH: Secondary Education English (MEd)
The TEACH Program combines a College of Liberal Arts and Social Sciences (LAS) undergraduate English major or some other disciplinary major with a graduate level College of Education (COE) Master of Education (MEd) Program. Students graduate with a BS in their CSH disciplinary major and a MEd in Education with a Professional Educator License and English endorsement in the State of Illinois.

The program features the integration of disciplinary content with educational foundations and pedagogical content knowledge. The Junior Year Experiential Course, Senior Capstone Course, and three double-counted undergraduate/graduate courses offer students a seamless transition from undergraduate to graduate studies and from major-field coursework to teacher-preparation coursework. For undergraduate disciplinary major requirements, please refer to the appropriate undergraduate program website.

The 5th-year master’s level coursework builds on students’ undergraduate experiences through a series of integrated courses that include consistent and long-term field experiences culminating in a student-teaching experience during the Spring of students’ fifth year. Within the COE, the Junior Year Experiential Course, Capstone Course, and master’s level coursework are part of the Department of Teacher Education. This coursework is designed to immerse students into the teaching profession by linking and integrating disciplinary content with an understanding of human development; diverse students; middle-school and secondary education, research on pedagogical content knowledge; the social and cultural contexts of education; and the development and assessment of content-area curricula. The program engages teacher candidates in critical reflection on their teacher development and practice. It fosters engagement in schools through placement of students in field experiences in schools and community agencies. Upon completion of the TEACH Program, teacher candidates measure themselves against the values of the COE conceptual framework through the development of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to participate in a minimum of 140 hours of field experiences in schools and community sites. These field experience hours are completed in conjunction with coursework and are integral to successful completion of the program. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, students must complete a minimum of 10 weeks of full-time student teaching in a designated middle or high school.

Licensure
Illinois Professional Educator License with endorsement in Middle and Secondary Education English (grades 9-12 or grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1371) for grades 5-8.

Learning Outcomes
Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students’ conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
- Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

Dispositions
The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)

Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats

Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge

Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching

Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well-being

Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively

Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner

Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning

Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students

Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development

Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)

Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy

Balances self-confidence and assertiveness with respect for others’ perspectives

Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
• Completion of all Education, Content Area, and Graduate level Content Area courses
• Overall cumulative G.P.A. of 3.00 or better
• Meet all other program requirements (e.g., residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test

Clinical Requirements:
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements must be passed one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.
Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

**Degree Requirements**

**Course Requirements**

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Typically these requirements are met concurrently with the completion of the LAS undergraduate degree program. Prior to admission to the 5th Year Master’s Year, students must meet with their LAS academic advisor to complete an undergraduate degree audit that will include an official written content area evaluation. Any areas of deficiency must be completed prior to beginning student teaching.

**Content Area Requirements for TEACH: Secondary English Education**

All coursework in the content area must earn a grade of C or better, and a minimum of 18 quarter hours must be coursework at an undergraduate upper level or graduate level

**Literature Core: 20 quarter hours required, grade of C or better required**

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education English students must complete the following tests:

- English Language Arts Content Area Test (test #207) – assesses reading, writing and research, speaking and listening, and literature. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Students should enter field experience hours into the FEDS system upon completion of each course with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

TEACH: Secondary Education Environmental Science (MEd)

The TEACH Program combines a College of Science and Health (CSH) undergraduate Environmental Science major or some other disciplinary major with a graduate level College of Education (COE) Master of Education (MEd) Program. Students graduate with a BS in their CSH disciplinary major and a MEd in Education with a Professional Educator License and environmental science endorsement in the State of Illinois.

The program features the integration of disciplinary content with educational foundations and pedagogical content knowledge. The Junior Year Experiential Course, Senior Capstone Course, and three double-counted undergraduate/graduate courses offer students a seamless transition from undergraduate to graduate studies and from major-field coursework to teacher-preparation coursework. For undergraduate disciplinary major requirements, please refer to the appropriate undergraduate program website.

The 5th-year master’s level coursework builds on students’ undergraduate experiences through a series of integrated courses that include consistent and long-term field experiences culminating in a student-teaching experience during the Spring of students’ fifth year. Within the COE, the Junior Year Experiential Course, Capstone Course, and master’s level coursework are part of the Department of Teacher Education. This coursework is designed to immerse students into the teaching profession by linking and integrating disciplinary content with an understanding of human development; diverse students; middle-school and secondary education, research on pedagogical content knowledge; the social and cultural contexts of education; and the development and assessment of content-area curricula. The program engages teacher candidates in critical reflection on their teacher development and practice. It fosters engagement in schools through placement of students in field experiences in schools and community agencies. Upon completion of the TEACH Program, candidate teachers measure themselves against the values of the COE conceptual framework through the development of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to participate in a minimum of 140 hours of field experiences in schools and community sites. These field experience hours are completed in conjunction with coursework and are integral to successful completion of the program. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, students must complete a minimum of 10 weeks of full-time student teaching in a designated middle or high school.

Licensure

Illinois Professional Educator License with endorsement in Middle and Secondary Education Science-Environmental Science (grades 9-12) and Middle and Secondary Education Science-Environmental Science (grades 5-8), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1371) for grades 5-8.

Learning Outcomes

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students’ conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
• Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

• Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

**Field Experiences**

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**

- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education
Student Teaching Timeline and Deadlines:

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

Degree Requirements

Course Requirements

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Typically these requirements are met concurrently with the completion of the CSH undergraduate degree program. Prior to admission to the 5th Year Master’s Year, students must meet with their CSH academic advisor to complete an undergraduate degree audit that will include an official written content area evaluation. Any areas of deficiency must be completed prior to beginning student teaching.

All coursework in the content area must earn a grade of C or better.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Environmental Science students must complete the following tests:

- Science: Environmental Science Content Area Test (test #112) – assesses knowledge life science, physical science, and the living environment. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Students should enter field experience hours into the FEDS system upon completion of each course with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

TEACH: Secondary Education History (MEd)
The TEACH Program combines a College of Liberal Arts and Social Sciences (LAS) undergraduate History major or some other disciplinary major with a graduate level College of Education (COE) Master of
Education (MEd) Program. Students graduate with a BS in their CSH disciplinary major and a MEd in Education with a Professional Educator License and history endorsement in the State of Illinois.

The program features the integration of disciplinary content with educational foundations and pedagogical content knowledge. The Junior Year Experiential Course, Senior Capstone Course, and three double-counted undergraduate/graduate courses offer students a seamless transition from undergraduate to graduate studies and from major-field coursework to teacher-preparation coursework. For undergraduate disciplinary major requirements, please refer to the appropriate undergraduate program website.

The 5th-year master's level coursework builds on students’ undergraduate experiences through a series of integrated courses that include consistent and long-term field experiences culminating in a student-teaching experience during the Spring of students’ fifth year. Within the COE, the Junior Year Experiential Course, Capstone Course, and master's level coursework are part of the Department of Teacher Education. This coursework is designed to immerse students into the teaching profession by linking and integrating disciplinary content with an understanding of human development; diverse students; middle-school and secondary education, research on pedagogical content knowledge; the social and cultural contexts of education; and the development and assessment of content-area curricula. The program engages teacher candidates in critical reflection on their teacher development and practice. It fosters engagement in schools through placement of students in field experiences in schools and community agencies. Upon completion of the TEACH Program, teacher candidates measure themselves against the values of the COE conceptual framework through the development of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates to gain a certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to participate in a minimum of 140 hours of field experiences in schools and community sites. These field experience hours are completed in conjunction with coursework and are integral to successful completion of the program. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, students must complete a minimum of 10 weeks of full-time student teaching in a designated middle or high school.

Licensure

Illinois Professional Educator License with endorsement in Middle and Secondary Education Social Science-History (grades 9-12 or grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1371) for grades 5-8.

</tr>
</tbody>
</table>

### Learning Outcomes

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students’ conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
- Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

### Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices.
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions.
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts).
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats.
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge.
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching.
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being.
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively.
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner.
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
• Completion of all Education, Content Area, and Graduate level Content Area courses
• Overall cumulative G.P.A. of 3.00 or better
• Meet all other program requirements (e.g., residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test

Clinical Requirements:
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements must be passed one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.
To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

Degree Requirements

Course Requirements

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Typically these requirements are met concurrently with the completion of the LAS undergraduate degree program. Prior to admission to the 5th Year Master's Year, students must meet with their LAS academic advisor to complete an undergraduate degree audit that will include an official written content area evaluation. Any areas of deficiency must be completed prior to beginning student teaching.

Content Area Requirements for Secondary History Education

All coursework in the content area must earn a grade of C or better.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. 160; Secondary Education History students must complete the following tests:

- Social Science: History Test (test #246) – assesses core knowledge of history and social science fields. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Students should enter field experience hours into the FEDS system upon completion of each course with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

TEACH: Secondary Education Mathematics (MEd)

The TEACH Program combines a College of Science and Health (CSH) undergraduate Mathematics major or some other disciplinary major with a graduate level College of Education (COE) Master of Education (MEd) Program. Students graduate with a BS in their CSH disciplinary major and a MEd in Education with a Professional Educator License and math endorsement in the State of Illinois.

The program features the integration of disciplinary content with educational foundations and pedagogical content knowledge. The Junior Year Experiential Course, Senior Capstone Course, and three double-counted undergraduate/graduate courses offer students a seamless transition from undergraduate to graduate studies and from major-field coursework to teacher-preparation coursework. For undergraduate disciplinary major requirements, please refer to the appropriate undergraduate program website.

The 5th-year master’s level coursework builds on students’ undergraduate experiences through a series of integrated courses that include consistent and long-term field experiences culminating in a student-teaching experience during the Spring of students’ fifth year. Within the COE, the Junior Year Experiential Course, Capstone Course, and master’s level coursework are part of the Department of Teacher Education. This coursework is designed to immerse students into the teaching profession by linking and integrating disciplinary content with an understanding of human development; diverse students; middle-school and secondary education, research on pedagogical content knowledge; the social and cultural contexts of education; and the development and assessment of content-area curricula. The program engages teacher candidates in critical reflection on their teacher development and practice. It fosters engagement in schools through placement of students in field experiences in schools and community agencies. Upon completion of the TEACH Program, teacher candidates measure themselves against the values of the COE conceptual framework through the development of professional portfolios. Values that are part of this framework include: commitment to social justice, critical
pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to participate in a minimum of 140 hours of field experiences in schools and community sites. These field experience hours are completed in conjunction with coursework and are integral to successful completion of the program. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, students must complete a minimum of 10 weeks of full-time student teaching in a designated middle or high school.

**Licensure**

Illinois Professional Educator License with endorsement in Middle and Secondary Education Mathematics (grades 9-12 or grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1371) for grades 5-8.

**Learning Outcomes**

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students' conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
- Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices.
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions.
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts).
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats.
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge.
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching.
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being.
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively.
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner.
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning.
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students.
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development.
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.).
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy.
- Balances self-confidence and assertiveness with respect for others' perspectives.
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.
Field Experiences
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).

- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.
All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

Degree Requirements

Course Requirements

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Typically these requirements are met concurrently with the completion of the CSH undergraduate degree program. Prior to admission to the 5th Year Master's Year, students must meet with their CSH academic advisor to complete an undergraduate degree audit that will include an official written content area evaluation. Any areas of deficiency must be completed prior to beginning student teaching.

Content Area Requirements for Secondary Mathematics Education*

All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Calculus I
- Calculus II
- Calculus III
- Intro to Math Reasoning or Discrete Math I and Discrete Math II
- Multivariable Calculus I
- Multivariable Calculus II
- Linear Algebra
- Programming Language
- Abstract Algebra I
- Theory of Numbers I
- or Abstract Algebra II
- Geometry I
- Geometry II
- or Real Analysis I
- Probability & Statistics
- History of Mathematics
- *The secondary mathematics content advisor will collaborate with you to design and schedule your mathematics content course sequence.

STUDENT TEACHING (grade of B- or better endorsement in the State of Illinois.

The TEACH Program combines a College of Science and Health (CSH) undergraduate Physics major or some other disciplinary major with a graduate level College of Education (COE) Master of Education (MEd) Program. Students graduate with a BS in their CSH disciplinary major and a MEd in Education with a Professional Educator License and physics endorsement in the State of Illinois.

Student Teaching: 8 graduate quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. It is a non-credit, non-tuition course.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

Secondary Education Math students must complete the following tests:

- Mathematics Content Area Test (test #208) – assesses knowledge of processes and applications of mathematics. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Students should enter field experience hours into the FEDS system upon completion of each course with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

The program features the integration of disciplinary content with educational foundations and pedagogical content knowledge. The Junior Year Experiential Course, Senior Capstone Course, and three double-counted undergraduate/graduate courses offer students a seamless transition from undergraduate to graduate studies and from major-field coursework to teacher-preparation coursework. For undergraduate disciplinary major requirements, please refer to the appropriate undergraduate program website.

The 5th-year master’s level coursework builds on students’ undergraduate experiences through a series of integrated courses that include consistent and long-term field experiences culminating in a student-teaching experience during the Spring of students’ fifth year. Within the COE, the Junior Year Experiential Course, Capstone Course, and master’s level coursework are part of the Department of Teacher Education. This coursework is designed to immerse students into the teaching profession by linking and integrating disciplinary content with an understanding of human development; diverse students; middle-school and secondary education, research on pedagogical content knowledge; the social and cultural contexts of education; and the development and assessment of content-area curricula. The program engages teacher candidates in critical reflection on their teacher development and practice. It fosters engagement in schools through placement of students in field experiences in schools and community agencies. Upon completion of the TEACH Program, teacher candidates measure themselves against the values of the COE conceptual framework through the development of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expanded the vision of inquiry and reflective practice.

Students entering the program must be able and willing to participate in a minimum of 140 hours of field experiences in schools and community sites. These field experience hours are completed in conjunction with coursework and are integral to successful completion of the program. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, students must complete a minimum of 10 weeks of full-time student teaching in a designated middle or high school.

Licensure

Illinois Professional Educator License with endorsement in Middle and Secondary Education Science-Physics (grades 9-12) or grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1371) for grades 5-8.
Learning Outcomes

Students will be able to:

• Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
• Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students' conceptual understanding and disciplinary literacy.
• Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
• Implement assessment practices to evaluate student learning and inform instruction.
• Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
• Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:
Academic Requirements:
- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.
Degree Requirements
Course Requirements
All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Typically these requirements are met concurrently with the completion of the CSH undergraduate degree program. Prior to admission to the 5th Year Master's Year, students must meet with their CSH academic advisor to complete an undergraduate degree audit that will include an official written content area evaluation. Any areas of deficiency must be completed prior to beginning student teaching.

All coursework in the content area must earn a grade of C or better.

Students should enter field experience hours into the FEDS system upon completion of each course with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

TEACH: Secondary Education Social Science (MEd)
The TEACH Program combines a Liberal Arts and Social Sciences (LAS) undergraduate Social Science major (Anthropology, Economics, Geography, Political Science, Psychology, or Sociology) or some other disciplinary major with a graduate level College of Education (COE) Master of Education (MEd) Program. Students graduate with a BA or BS in their LAS disciplinary major and a MEd in Education with a Professional Educator License and social science-history endorsement in the State of Illinois.

The program features the integration of disciplinary content with educational foundations and pedagogical content knowledge. The Junior Year Experiential Course, Senior Capstone Course, and three double-counted undergraduate/graduate courses offer students a seamless transition from undergraduate to graduate studies and from major-field coursework to teacher-preparation coursework. For undergraduate disciplinary major requirements, please refer to the appropriate undergraduate program website.

The 5th-year master’s level coursework builds on students’ undergraduate experiences through a series of integrated courses that include consistent and long-term field experiences culminating in a student-teaching experience during the Spring of students’ fifth year. Within the COE, the Junior Year Experiential Course, Capstone Course, and master’s level coursework are part of the Department of Teacher Education. Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee. All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged.

The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Degree Requirements
Course Requirements
All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Typically these requirements are met concurrently with the completion of the LAS undergraduate degree program. Prior to admission to the 5th Year Master’s Year, students must meet with their LAS academic advisor to complete an undergraduate degree audit that will include an official written content area evaluation. Any areas of deficiency must be completed prior to beginning student teaching.

Content Area Requirements for Secondary History Education
All coursework in the content area must earn a grade of C or better.

Student Teaching: 8 graduate quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. It is a non-credit, non-tuition course.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education History students must complete the following tests:

- Social Science History Test (test #246) – assesses core knowledge of history and social science fields. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Students should enter field experience hours into the FEDS system upon completion of each course with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Teaching and Learning: Early Childhood Education (MA or MEd) Online

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today’s diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. Online and online-hybrid classes offer opportunities for synchronous and asynchronous participation and supervision. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of this online program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical
pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 165 hours of daytime internships/field experiences in early childhood programs and schools. These school-based internships. Two internships (T&L 481, T&L 482) are aligned with curriculum and instruction theory courses, and require students to be in the field during the day time for 75 hours in a preschool classroom setting, and 75 hours in a primary grade (K-2nd grade) classroom setting. Students are also required to compete 15 hours of field experience in an infant-toddler classroom, and 15 hours in an early childhood special education classroom setting. In addition, students must spend a minimum of 12 weeks in full-time student teaching.

The program in early childhood education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary schools and early childhood education centers. Graduates earn the Master of Arts or Master of Education degree and are entitled to apply for the Illinois Professional Educator License. In addition, teacher candidates meet IL Approval for Teaching Young Children with Special Needs, ages 3-6. All of these elements are built into the required curriculum.

In addition, students have options of acquiring the following endorsements and credentials:

• Early Childhood Bilingual/ESL endorsement
• Early Childhood Learning Behavior Specialist (special education) endorsement
• Courses toward acquiring credentials in Developmental Therapy

**Learning Outcomes**

Student will be able to:

• Apply their knowledge of child development to create healthy, respectful, supportive, and challenging learning environments for each child.
• Establish respectful, reciprocal relationships that involve, support, and empower families as well as the communities in which they live.
• Use multiple forms and approaches of effective assessment in planning and documenting all children's ongoing growth and development for a variety of stakeholders.
• Choose from a wide repertoire of developmentally appropriate and productive strategies to address the multiple learning needs of children and the families who support them.
• Design, implement, and critically analyze meaningful curriculum through use of academic disciplinary knowledge, to enhance learning outcomes for all children.
• Competently address children's reading, writing, and oral communication needs to facilitate learning in all content areas.
• Conduct themselves as knowledgeable professionals focused upon providing and advocating for quality care and education in a variety of settings across the early childhood age span (i.e., birth through age 8 years).

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

• Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices.
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions.
• Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts).
• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats.
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge.
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching.
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being.
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively.
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner.
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning.
• Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students.
• Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development.
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.).
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy.
• Balances self-confidence and assertiveness with respect for others' perspectives.
Clinical Requirements:

• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:

• Completion of all Education, Content Area, and Graduate level Content Area courses
• Overall cumulative G.P.A. of 3.00 or better
• Meet all other program requirements (e.g., residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test

Clinical Requirements:

• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:

• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements must be passed one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means that you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.
Licensure
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

Degree Requirements
The requirements below are those approved by the Illinois State Board of Education in April 2016.

Content Area Prerequisites
Following the requirements set forth by the Illinois State Board of Education in spring of 2016, DePaul's Early Childhood Education program requires that students in the early childhood education program have courses in each of the following areas:

- mathematics
- physical science
- life science
- earth and space science
- history
- geography
- political science/civics
- economics

These courses may be taken at the undergraduate level and may have been included in the student's bachelor's degree program. Early childhood education students' transcripts will be evaluated by an academic advisor after admission to determine if additional coursework is needed. Completion of content area requirements is not a prerequisite for admission; however, coursework must be completed before student teaching. It is strongly encouraged that applicants meet with an advisor after admission and prior to taking content courses.

- DePaul alumni that have taken LSP 120 or ISP 120 can receive credit towards the math requirement.

Heath, Safety and Child Nutrition Requirement
Students must provide documentation of successful course completion that shows they possess the requisite knowledge and skills to provide appropriate content and experiences for young children from birth through age 8 that reflect the interrelationships among health, safety, and nutrition. In addition, students are expected to demonstrate an understanding of cultural influences on young children's health, safety, and nutrition, and how to work with special needs children affected by health impairments. Finally, students also must demonstrate their familiarity with practices that promote good nutrition, dental health, and the physical, social, and emotional well-being of young children.

This requirement can be met by completing T&L 615 (Child Health Safety & Nutrition), or an equivalent course taken at the undergraduate or graduate level outside of DePaul. Consult a faculty advisor to determine whether a prior course fulfills this content requirement.

Course Requirements

Bilingual/ESL Endorsement Courses
Teacher candidates seeking an endorsement in Bilingual or ESL can add the credential to the Professional Educator License (PEL) by taking additional courses. Requirements are listed in the Endorsements section of the Course Catalog and are in addition to degree requirements.

Licensure Tests
Students seeking licensure by the Illinois State Board of Education (ISBE) are required to successfully complete a set of tests specific to the Early Childhood professional field:

- Early Childhood Content Area Test (test #206) – assesses knowledge of language and literacy development, learning across the curriculum, diversity, collaboration, and professionalism in the early childhood program. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Internships & Other Field Experiences
Each student seeking licensure from the College of Education must complete supervised internships in appropriate settings in conjunction with education courses. In addition, there are some courses, which might require certain hours of field experience to be completed, and / or have field assignments, which students are required to complete. Two internship-type field-based courses (T&L 481, T&L 482) are aligned with curriculum and instruction theory courses across the program. Each internship course requires completing 75 hours of field experience in its relevant grade level classroom. T&L 481 is taken concurrently with T&L 407. T&L 482 is taken concurrently with T&L 408. Since these internship courses are scheduled only once per academic year, be sure to work with your advisor in carefully mapping out when you will take them. For details on requirements, expectations, documentation, & courses in your program that require fieldwork hours, visit the College of Education website.

Non-Licensure Option
Individuals that do not desire a license or are not eligible for a license can seek to earn the degree without meeting licensure requirements. In seeking this option, individuals understand that the following stipulations apply:

- Confirmation must be given in writing that they seek this option and agree to the stipulations.
- A notation is placed on the transcript indicating that “completion of degree requirements did not lead to eligibility for licensure.”
- Individuals have the option to return to the ECE program within 1-2 years after earning the graduate degree to complete student teaching and other licensure requirements (including ISBE-mandated tests) and become eligible for the license. The non-licensure notation will
remain on the original transcript for the graduate degree. Additional coursework may also be required.

- Coursework is chosen in consultation with a faculty advisor and is tailored to individual’s prior coursework, experience, and professional interests.
- All coursework must be taken at DePaul; no transfer credit is allowed from other institutions.
- Individuals must complete the specified coursework within 2 years or be subject to re-evaluation.
- A minimum of 2 courses (8 credit hours) are required to substitute for the student teaching experience. Coursework must be 400 level and receive a grade of B- or better.

**Developmental Therapy Option**

These course, listed below, will prepare early childhood teacher candidates for a career requiring expertise in early intervention for infants and toddlers (e.g., from birth to age three) with special needs and their families. The coursework can be taken in additional to degree requirements, or if seeking the non-licensure option, can be taken to replace student teaching. After taking the required courses and earning the degree, individuals will be required to take a training workshop on the State of Illinois system of Early Intervention and apply directly to Provider Connections to receive their Developmental Therapy credentials after submitting their transcripts.

**Learning and Effective Teaching Practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

The program includes four distinctive features: 1) Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching; 2) Multiculturalism is infused throughout the curriculum; 3) Field experiences are an integral part of the curriculum; 4) Students are exposed to a variety of educational theories.

The program in elementary education prepares students to teach children in a variety of educational settings, including urban and suburban communities and public and private elementary schools. Students follow a suggested course of study with corresponding field experiences. Graduates earn the Master of Arts or Master of Education degree and are qualified for elementary school teacher licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in elementary education work in diverse settings such as museums, corporations, media and the arts.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 106 hours of daytime field experiences in schools. These school-based clinical experiences are completed in conjunction with methodology courses that require students to spend regular periods of time in schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

**Licensure**

Illinois Professional Educator License with endorsement in Elementary Education (self-contained general education) (grades 1-6), an Illinois State Board of Education (ISBE) approved program.

**Learning Outcomes**

Students will be able to:

- Plan instruction that supports students in meeting rigorous learning goals, drawing upon knowledge of content areas, curriculum, and pedagogy.
- Demonstrate a variety of instructional strategies as they support learners in developing a deep understanding of content areas and their connections, as well as building skills needed to apply knowledge in meaningful ways.
- Apply their understanding of multiple purposes for and methods of assessment in order to monitor and evaluate student progress, make decisions regarding instructional practices, and guide students in reflecting upon their progress toward learning targets.
• Use the central concepts, standards, tools of inquiry, and structures of the discipline(s) they teach to create meaningful learning experiences based upon evidence-based practices that ensure mastery of content.
• Demonstrate an interest in ongoing professional learning, use evidence to evaluate practice, advocate for students, and exhibit professionalism and ethical behavior in all interactions.

**Dispositions**
The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

• Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

**Licensure Tests**
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

**Field Experiences**
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**
• Completion of all Education, Content Area, and Graduate level Content Area courses
• Overall cumulative G.P.A. of 3.00 or better
• Meet all other program requirements (e.g., residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test

**Clinical Requirements:**
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements must be passed one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Degree Requirements
The requirements below are those approved by the Illinois State Board of Education December 2015.

Content Area Prerequisites
Elementary education teachers need to have an understanding of the subjects taught in elementary school classrooms. Following the requirements set forth by the Illinois State Board of Education, DePaul’s program requires that students in the elementary program have courses in each of the following areas:

• mathematics
• physical science
• life science
• earth and space science
• history
• geography
• political science/civics
• economics

These courses may be taken at the undergraduate level and may have been included in the student’s bachelor’s degree program. Elementary education students’ transcripts will be evaluated by an academic advisor after admission to determine if additional coursework is needed. Completion of content area requirements is not a prerequisite for admission; however coursework must be completed before student teaching. It is strongly encouraged that applicants meet with an advisor after admission and prior to taking content courses.

1 DePaul alumni that have taken LSP 120 or IS 120 can receive credit towards the math requirement.

Course Requirements

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Elementary majors must complete the following tests:

• Elementary Education Content Test (test #197-200) – assesses knowledge of language arts and literacy, mathematics, science, social sciences, the arts, health, and physical education. Test is required before Student Teaching (deadlines apply).

• EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate lab settings in conjunction with education courses. Students are required to register for one lab for designated paired course. For example, during the first quarter of the program students must register for T&L 404 and SCG 403 plus one field experience lab. During the quarter when students take SER 446, a public school that services students with special needs is required. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.
Teaching and Learning: Secondary Education - Biology (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in secondary education prepares students to teach children in a variety of urban and suburban educational settings, including public and private middle and high schools. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major.

Graduates earn the Master of Arts or Master of Education degree and are qualified for middle and secondary school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in secondary education work in diverse settings such as museums, corporations, media, and the arts.

Licensure

Illinois Professional Educator License with endorsement in Middle and Secondary Education Science-Biology (grades 9-12 or grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1371) for grades 5-8.

Learning Outcomes

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students’ conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
- Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
• Completion of all Education, Content Area, and Graduate level Content Area courses
• Overall cumulative G.P.A. of 3.00 or better
• Meet all other program requirements (e.g., residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test

Clinical Requirements:
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements must be passed one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).
It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

**Degree Requirements**

**Content Area Courses**

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

**Requirements for Secondary Education Biology**

Note: Effective for all individuals applying for licensure after February 1, 2012, all coursework in the content area must earn a grade of C or better.

- College Biology I
- College Biology II
- Ecology
- Cell Biology
- Physiology
- Genetics
- Molecular Biology
- Biology Elective
- Biology Elective (with lab)
- Biology Elective (with lab)
- College Algebra or Calculus I
- College Chemistry I
- College Chemistry II
- General Physics
- College Environmental Science or Earth and Space Science or Astronomy

**Course Requirements**

**Introductory Courses: 12 quarter hours required, grade of C or better required.**

Graduate Level Content Area Courses: 8 quarter hours required, grade of C or better required

Two courses in Biology at the graduate level are required. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing licensure only). Courses must be approved by your Content Area Advisor prior to registration and requires graduate level registration.

- BIO 300 or 400 level biology course 1
- BIO 300 or 400 level biology course 2

Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

Licensure Tests

All individuals licensure by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Biology majors must complete the following tests:

- Science: Biology Content Area Test (test #105) – assesses knowledge of both biological science and physical science. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Teaching and Learning: Secondary Education - Chemistry (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today’s diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for
teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in secondary education prepares students to teach children in a variety of urban and suburban educational settings, including public and private middle and high schools. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for middle and secondary school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in secondary education work in diverse settings such as museums, corporations, media, and the arts.

Licensure

Program Requirements Quarter Hours
Degree Requirements (MA) 60
Total hours required 60

Program Requirements Quarter Hours
Degree Requirements (MEd) 56
Total hours required 56

Learning Outcomes

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students’ conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
- Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**
- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)

**Student Teaching Timeline and Deadlines:**
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.
Licensure
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Degree Requirements
Content Area Courses
All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 hour courses (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for Secondary Education Chemistry
Note: Effective for all individuals applying for licensure after February 1, 2012, all coursework in the content area must earn a grade of C or better.

- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.
Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is
external to DePaul University and is not monitored by DePaul University's College of Education.

**Degree Requirements**

**Content Area Course**

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

**Requirements for Secondary Education English**

All coursework in the content area must earn a grade of C or better. At least five courses must be at the 300 or above level, with at least two of those courses at the graduate level and completed at DePaul to meet the MEd degree requirements. At least one course must have the Race, Ethnicity, and Sexuality (RES) designation or equivalency for non-DePaul courses. Content area advisors can make course substitutions based on an analysis of student's transcripts.

- 1 Literature courses
- 1 Poetry course
- 1 Shakespeare course
- 2 British Literature courses
- 1 Romanticism in American Literature course or approved American Literature substitute
- 2 American Literature courses
- 3 Writing and Oral Language courses
- 1 Grammar or Language and Style course

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education English majors must complete the following tests:

- English Language Arts Content Area Test (test #207) assesses reading, writing and research, speaking and listening, and literature. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.
Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Teaching and Learning: Secondary Education - Environmental Science (MA or MEd)
The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today’s diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:
1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in secondary education prepares students to teach children in a variety of urban and suburban educational settings, including public and private middle and high schools. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for middle and secondary school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in secondary education work in diverse settings such as museums, corporations, media, and the arts.

Learning Outcomes
Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students' conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
- Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

Dispositions
The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.
• Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
• Completion of all Education, Content Area, and Graduate level Content Area courses
• Overall cumulative G.P.A. of 3.00 or better
• Meet all other program requirements (e.g., residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test

Clinical Requirements:
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements must be passed one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.
Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

## Degree Requirements

### Content Area Courses

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

**Requirements for Secondary Education Environmental Science**

All coursework in the content area must earn a grade of C or better.

- College Chemistry
- College Biology
- College Physics
- Environmental Science I
- Environmental Science II
- Earth’s Environmental System I: Life System
- Earth’s Environmental System II: Solid Earth System
- Earth’s Environmental System III: Climate System
- Earth Energy/Resources and Sustainability
- Environmental Science Elective
- Environmental Science Elective (with lab)
- Environmental Science Elective (with lab)
- Ecology
- Oceanography
- College Algebra I OR Intro Statistics
Course Requirements

Introductory Courses: 12 quarter hours required, grade of C or better required.

• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
• Completion of all Education, Content Area, and Graduate level Content Area courses
• Overall cumulative G.P.A. of 3.00 or better
• Meet all other program requirements (e.g., residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test

Clinical Requirements:
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements must be passed one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.
To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the commencement for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("EdTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of EdTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in EdTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for EdTPA; however, the process of EdTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

Degree Requirements

Content Area Courses

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for Secondary Education History

All coursework in the content area must earn a grade of C or better.

- Two US History courses (any level)
- Two Non-US History courses (any level)
- One additional History course (any level)
- One Economics course
- One Geography course
- One Political Science course focused on American Government
- One Anthropology, Sociology, or Psychology course
- Three additional courses in any social science area (Anthropology, Economics, Geography, History, Political Science, Sociology, or Psychology)

Course Requirements

Introductory Courses: 12 quarter hours required, grade of C or better required.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Teaching and Learning: Secondary Education - Mathematics (MA or MEd)
The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates to train in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:
1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching.
2. Multiculturalism is infused throughout the curriculum.
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in secondary education prepares students to teach children in a variety of urban and suburban educational settings, including public and private middle and high schools. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for middle and secondary school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in secondary education work in diverse settings such as museums, corporations, media, and the arts.

**Licensure**

Illinois Professional Educator License with endorsement in Middle and Secondary Education Mathematics (grades 9-12 or grades 5-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1371) for grades 5-8.

**Learning Outcomes**

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students' conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
- Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.
Field Experiences
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be completed one quarter before expected quarter of student teaching.
- Content area tests must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).

- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.
All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

Degree Requirements

Content Area Courses

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for Secondary Education Mathematics*

All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Calculus I
- Calculus II
- Calculus III
- Intro to Math Reasoning OR Discrete Math I and Discrete Math II
- Multivariable Calculus I
- Multivariable Calculus II
- Linear Algebra
- Programming Language
- Abstract Algebra I
- Theory of Numbers or Abstract Algebra II
- Geometry I
- Geometry II or Real Analysis I
- Probability & Statistics
- History of Mathematics
- *The secondary mathematics content advisor will collaborate with you to design and schedule your mathematics content course sequence.

Graduate Level Content Area Courses: 8 quarter hours required, grade of C or better required

Two courses in Mathematics at the graduate level are required. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing licensure only). Courses must be approved by your Content Area Advisor prior to registration and requires graduate level registration.

- MAT 300 or 400 level math course 1
- MAT 300 or 400 level math course 2

Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.
Strengthening the educational landscape through impactful teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in secondary education prepares students to teach children in a variety of urban and suburban educational settings, including public and private middle and high schools. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for middle and secondary school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in secondary education work in diverse settings such as museums, corporations, media, and the arts.

### Fields of Study

#### Master of Arts (MA) Option Degree Requirements: 4 quarter hours required
This is a Master of Arts degree requirement only. A master’s thesis is written to fulfill the requirements of this course. An oral examination on the thesis is required.

#### Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Mathematics majors must complete the following tests:

- Mathematics Content Area Test (test #208) – assesses knowledge of both the processes and applications of mathematics. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

#### Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

### Teaching and Learning: Secondary Education - Physics (MA or MEd)
The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning.

Learning Outcomes

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students' conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
- Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.
Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course). After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is
external to DePaul University and is not monitored by DePaul University's College of Education.

Degree Requirements

Content Area Courses

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for Secondary Education Physics

All coursework in the content area must earn a grade of C or better.

- College Physics I
- College Physics II
- Classical Mechanics
- Electricity and Magnetism
- Thermal Physics
- Computational and Theoretical Physics
- Quantum Physics
- Physics Elective
- Physics Elective (with lab)
- Calculus I
- Calculus II or Multivariable Analysis & Linear Algebra I
- College Chemistry I
- College Biology I
- College Environmental Science or Earth and Space Science or Astronomy

Course Requirements

Introductory Courses: 12 quarter hours required, grade of C or better required.

Graduate Level Content Area Courses: 8 quarter hours required, grade of C or better required

Two courses in Physics at the graduate level are required. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing licensure only). Courses must be approved by your Content Area Advisor prior to registration and requires graduate level registration.

- PHY 300 or 400 level physics course 1
- PHY 300 or 400 level physics course 2

Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Physics majors must complete the following tests:

- Science: Physics Content Area Test (test #116) – assesses knowledge of both life and physical science, including Earth systems,
technology, and the universe. Test is required before Student Teaching (deadlines apply).

- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

### Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

### Teaching and Learning: Secondary Education - Social Science (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools.

In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in secondary education prepares students to teach children in a variety of urban and suburban educational settings, including public and private middle and high schools. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student's choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for middle and secondary school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in secondary education work in diverse settings such as museums, corporations, media, and the arts.

### Learning Outcomes

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students' conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
- Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.
Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:

- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements must be passed one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

**Degree Requirements**

**Content Area Courses**

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

**Requirements for Secondary Education Social Science**

All coursework in the content area must earn a grade of C or better.

- Two US History courses (any level)
- Two Non-US History courses (any level)
- One additional History course (any level)
- One Economics course
- One Geography course
- One Political Science course focused on American Government
- One Anthropology, Sociology, or Psychology course
• Three additional courses in any social science area (Anthropology, Economics, Geography, History, Political Science, Sociology, or Psychology)

Graduate Level Content Area Courses: 8 quarter hours required, grade of C or better required

Two courses in History or the Social Sciences at the graduate level are required. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing licensure only). Courses must be approved by your Content Area Advisor prior to registration and requires graduate level registration.

• HST 300 or 400 level history or social science course
• T&L 455

Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

Course Requirements (Continued)

Master of Arts (MA) Option Degree Requirements: 4 quarter hours required

This is a Master of Arts degree requirement only. A master’s thesis is written to fulfill the requirements of this course. An oral examination on the thesis is required.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Social Science majors must complete the following tests:

• Social Science: History Content Area Test (test #246) – assesses and measures the candidate’s core knowledge across history and social science fields. Test is required before Student Teaching (deadlines apply).
• EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Teaching and Learning: Secondary Education - Visual Arts (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today’s diverse society through the investigation of significant educational issues, inquiry into student
learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition to completing the requirements for licensure in Illinois, and in aligning with a commitment to preparing students with a global mindset, teacher candidates will also complete the requirements to gain a certificate in Teaching and Learning from the International Baccalaureate Organization. The IB Certificate in Teaching and Learning for the Middle Years Program (MYP) and the Diploma Program (DP) provides teacher candidates the background and expertise to teach in an IB school. The IB Certificate in Teaching and Learning expands the opportunities for teacher candidates and training in IB open expands the vision of inquiry and reflective practice.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching.
2. Multiculturalism is infused throughout the curriculum.
3. Field experiences are an integral part of the curriculum.
4. Students are exposed to a variety of educational theories.
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in secondary education prepares students to teach children in a variety of urban and suburban educational settings, including public and private middle and high schools. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for secondary school licensure. Yet, not all graduates follow a career in teaching number of DePaul graduates in secondary education Visual Arts (grades 9-12 or grades 6-12), an Illinois State Board of Education (ISBE) approved program. Graduates who earn an initial Professional Educator License in grades 9-12 may also qualify for a subsequent endorsement (p. 1371) for grades 5-8.

**Learning Outcomes**

Students will be able to:

- Use knowledge of adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students’ conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for adolescent learners and their communities.
- Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices.
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions.
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts).
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats.
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge.
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching.
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being.

**Licensure**

Illinois Professional Educator License with endorsement in Secondary Education Visual Arts (grades 9-12 or grades 6-12), an Illinois State Board...
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
• Completion of all Education, Content Area, and Graduate level Content Area courses
• Overall cumulative G.P.A. of 3.00 or better
• Meet all other program requirements (e.g., residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test

Clinical Requirements:
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements must be passed one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (check deadlines).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the
degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Degree Requirements

Content Area Courses

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for Secondary Education Visual Arts

All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Two Dimensional Foundation
- Three Dimensional Foundation
- Drawing
- Intermediate or Adv. Drawing
- Painting
- Sculpture
- Computer Graphics
- Printmaking
- Principles of Art History
- Photography
- Video
- Art & Design I
- Art & Design II

Course Requirements

Introductory Courses: 12 quarter hours required, grade of C or better required.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education Visual Arts majors must complete the following tests:
- Visual Arts Content Area Test (test #145) – assesses knowledge of elements, principles, and expressive features of visual arts. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Teaching and Learning: World Language - Arabic (MA or MEd)
The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today’s diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:
1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.
Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

Licensure
Illinois Professional Educator License with endorsement in Foreign Language – Arabic (kindergarten-grade 12), an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes
Students will be able to:

- Understand and apply theoretical foundations of world language education to develop sound instruction and teaching approaches for world language learners.
- Integrate theory and research on second language acquisition into praxis for world language learners.
- Evaluate and understand history and policies of world language education and how historical and policy context affect the education of world language learners.
- Demonstrate knowledge and understanding of various assessment issues that affect world language learners, such as accountability, reliability, validity, bias, special education testing, language proficiency, language supports, and accommodations.
- Understand and apply world language education (ACTFL) standards in unit/lesson planning and instruction.
- Recognize and fulfill professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.).
- Demonstrate collegiality, honesty, good judgment, courtesy, respect, and diplomacy.
- Balances self-confidence and assertiveness with respect for others’ perspectives.
- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices.
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching.
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being.
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively.
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge.
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge.
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts).
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts).

Dispositions
The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices.
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts).
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts).
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts).

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student.
teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**
- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.
Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“EdTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Degree Requirements

Content Area Courses
All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Master of Arts (MA) Option Degree Requirements: 4 quarter hours required

This is a Master of Arts degree requirement only. A master’s thesis is written to fulfill the requirements of this course. An oral examination on the thesis is required.

Course Title Quarter Hours
T&L 593 WORLD LANGUAGES SEMINAR (grade of C or better required) 2
EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-tuition, PA grade required) 0

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education Arabic majors must complete the following tests:

- Foreign Language: Arabic Content Area Test (test #137) – assesses knowledge of the Arabic language and culture. Test is required before Student Teaching (deadlines apply).
- OPI Test (see below).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Oral Proficiency Interview (OPI) Test

Pursuing licensure in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of “intermediate high” or better on the test. It is recommended that the OPI be taken during the first year in the program and in consultation with the WLE content advisor in Modern Languages.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

Teaching and Learning: World Language - Chinese (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today’s diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

Licensure

Illinois Professional Educator License with endorsement in Foreign Language Chinese (kindergarten-grade 12), an Illinois State Board of Education (ISBE) approved program.
Learning Outcomes

Students will be able to:

• Understand and apply theoretical foundations of world language education to develop sound instruction and teaching approaches for world language learners.
• Integrate theory and research on second language acquisition into praxis for world language learners.
• Evaluate and understand history and policies of world language education and how historical and policy context affect the education of world language learners.
• Demonstrate knowledge and understanding of various assessment issues that affect world language learners, such as accountability, reliability, validity, bias, special education testing, language proficiency, language supports, and accommodations.
• Understand and apply world language education (ACTFL) standards in unit/lesson planning and instruction.

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

• Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements:**
- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

**Clinical Requirements:**
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines:**
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed one quarter before expected quarter of student teaching.
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is
external to DePaul University and is not monitored by DePaul University's College of Education.

**Degree Requirements**

**Content Area Courses**

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

**Requirements for World Language Education Chinese**

All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Advanced Chinese I
- Advanced Chinese II
- Advanced Chinese III
- Advanced High Chinese I

**Education Elective Course: 4 quarter hours are required, grade of C or better required.**

Open elective credit also is required to meet the minimum graduation requirement of 60 quarter hours. Choose an Education course in consultation with the Academic Advisor or Content Advisor. Courses must be approved by the WLE Program Director prior to registration and requires graduate level registration.

- Elective Course

**Graduate Level Content Area Courses: 4 quarter hours required, grade of C or better required.**

Either a course in Chinese at the graduate level or an education language course is required; either course must be approved by the WLE Program director. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing licensure only). Courses must be approved by the WLE Program Director prior to registration and requires graduate level registration.

- CHN 300-600 level Chinese course

**Student Teaching: 8 quarter hours required**

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education Chinese majors must complete the following tests:

- Foreign Language: Chinese Content Area Test (test #126) – assesses knowledge of the Chinese language and culture. Test is required before Student Teaching (deadlines apply).
• OPI Test (see below).
• EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Oral Proficiency Interview (OPI) Test
Pursuing licensure in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of “Intermediate High” or better on the test. It is recommended that the OPI be taken during the first year in the program and in consultation with the WLE content advisor in Modern Languages.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

Teaching and Learning: World Language - French (MA or MEd)
The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:
1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

Licensure
Illinois Professional Educator License with endorsement in Foreign Language French (kindergarten-grade 12), an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes
Students will be able to:
• Understand and apply theoretical foundations of world language education to develop sound instruction and teaching approaches for world language learners.
• Integrate theory and research on second language acquisition into praxis for world language learners.
• Evaluate and understand history and policies of world language education and how historical and policy context affect the education of world language learners.
• Demonstrate knowledge and understanding of various assessment issues that affect world language learners, such as accountability, reliability, validity, bias, special education testing, language proficiency, language supports, and accommodations.
• Understand and apply world language education (ACTFL) standards in unit/lesson planning and instruction.
Dispositions
The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests
