All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements must be passed one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

**Degree Requirements**

**Content Area Courses**

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

**Requirements for World Language Education French**

All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Advanced French I
- Advanced French II
- Advanced French III
- Advanced High French I
- Advanced High French II
Course Requirements

Education Courses: 40 quarter hours required, grade of C or better required.

Education Elective Course: 4 quarter hours are required, grade of C or better required.

Open elective credit also is required to meet the minimum graduation requirement of 60 quarter hours. Choose an Education course in consultation with the Academic Advisor or Content Advisor. Courses must be approved by the WLE Program Director prior to registration and requires graduate level registration.

- Elective Course

Graduate Level Content Area Courses: 4 quarter hours required, grade of C or better required.

Either a course in French at the graduate level or an education language course is required; either course must be approved by the WLE Program director. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing licensure only). Courses must be approved by the WLE Program Director prior to registration and requires graduate level registration.

- FCH 300-600 level French course

Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education French majors must complete the following tests:

- Foreign Language: French Content Area Test (test #252) – assesses knowledge of the French language and culture. Test is required before Student Teaching (deadlines apply).
- OPI Test (see below).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings.

Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Oral Proficiency Interview (OPI) Test

Pursuing licensure in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an interview – before you begin student teaching.
You must earn a rating of "intermediate high" or better on the test. It is recommended that the OPI be taken during the first year in the program and in consultation with the WLE content advisor in Modern Languages.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

**Teaching and Learning: World Language - German (MA or MEd)**

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student's choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

**Licensure**

Illinois Professional Educator License with endorsement in Foreign Language German (kindergarten-grade 12), an Illinois State Board of Education (ISBE) approved program.

**Learning Outcomes**

Students will be able to:

- Understand and apply theoretical foundations of world language education to develop sound instruction and teaching approaches for world language learners.
- Integrate theory and research on second language acquisition into praxis for world language learners.
- Evaluate and understand history and policies of world language education and how historical and policy context affect the education of world language learners.
- Demonstrate knowledge and understanding of various assessment issues that affect world language learners, such as accountability, reliability, validity, bias, special education testing, language proficiency, language supports, and accommodations.
- Understand and apply world language education (ACTFL) standards in unit/lesson planning and instruction.

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
• Completion of all Education, Content Area, and Graduate level Content Area courses
• Overall cumulative G.P.A. of 3.00 or better
• Meet all other program requirements (e.g., residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test

Clinical Requirements:
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements must be passed one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an
application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

**Licensure**

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

**Degree Requirements**

**Content Area Courses**

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

**Requirements for World Language Education German**

All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Advanced German I
- Advanced German II
- Advanced German III
- Advanced High German I

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education German majors must complete the following tests:

- Foreign Language: German Content Area Test (test #253) – assesses knowledge of the German language and culture. Test is required before Student Teaching (deadlines apply).
- OPI Test (see below).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Oral Proficiency Interview (OPI) Test
Pursuing licensure in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an interview – before you begin student teaching. You must earn a rating of “intermediate high” or better on the test. It is recommended that the OPI be taken during the first year in the program and in consultation with the WLE content advisor in Modern Languages.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

Teaching and Learning: World Language - Italian (MA or MEd)
The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.
Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

**Licensure**

Illinois Professional Educator License with endorsement in Foreign Language Italian (kindergarten-grade 12), Illinois State Board of Education (ISBE) approved program.

**Learning Outcomes**

Students will be able to:

- Understand and apply theoretical foundations of world language education to develop sound instruction and teaching approaches for world language learners.
- Integrate theory and research on second language acquisition into praxis for world language learners.
- Evaluate and understand history and policies of world language education and how historical and policy context affect the education of world language learners.
- Demonstrate knowledge and understanding of various assessment issues that affect world language learners, such as accountability, reliability, validity, bias, special education testing, language proficiency, language supports, and accommodations.
- Understand and apply world language education (ACTFL) standards in unit/lesson planning and instruction.

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
Clinical Requirements:

- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:

- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)

- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.
Licensure
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

Degree Requirements
Content Area Courses
All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for World Language Education Italian
All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

• Advanced Italian I
• Advanced Italian II

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education Italian majors must complete the following tests:

- Foreign Language: Italian Content Area Test (test #130) — assesses knowledge of the Italian language and culture. Test is required before Student Teaching (deadlines apply).
- OPI Test — an interview before you begin student teaching. Recommended that the OPI be taken during the first year in the program and in consultation with the WLE content advisor in Modern Languages.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

Teaching and Learning: World Language - Japanese (MA or MEd)
The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major.
Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

Licensure

Learning Outcomes
Students will be able to:

- Understand and apply theoretical foundations of world language education to develop sound instruction and teaching approaches for world language learners.
- Integrate theory and research on second language acquisition into praxis for world language learners.
- Evaluate and understand history and policies of world language education and how historical and policy context affect the education of world language learners.
- Demonstrate knowledge and understanding of various assessment issues that affect world language learners, such as accountability, reliability, validity, bias, special education testing, language proficiency, language supports, and accommodations.
- Understand and apply world language education (ACTFL) standards in unit/lesson planning and instruction.

Dispositions
The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.
Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of
trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Oral Proficiency Interview (OPI) Test
Pursuing licensure in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of “intermediate high” or better on the test. It is recommended that the OPI be taken during the first year in the program and in consultation with the WLE content advisor in Modern Languages.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

Teaching and Learning: World Language - Latin (MA or MEd)
The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

Licensure
Illinois Professional Educator License with endorsement in Foreign Language Latin (kindergarten-grade 12), Illinois State Board of Education (ISBE) approved program.

Learning Outcomes
Students will be able to:

- Understand and apply theoretical foundations of world language education to develop sound instruction and teaching approaches for world language learners.
- Integrate theory and research on second language acquisition into praxis for world language learners.
- Evaluate and understand history and policies of world language education and how historical and policy context affect the education of world language learners.
- Demonstrate knowledge and understanding of various assessment issues that affect world language learners, such as accountability,
education, or the University.

For the student, including removal from his or her program, the College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Understand and apply world language education (ACTFL) standards in unit/lesson planning and instruction.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education
Student Teaching Timeline and Deadlines:

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Degree Requirements

Content Area Courses

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for World Language Education Latin

All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Advanced Latin I
- Advanced Latin II
• Advanced Latin III
• Advanced High Latin I

Education Elective Course: 4 quarter hours are required, grade of C or better required.

Open elective credit also is required to meet the minimum graduation requirement of 60 quarter hours. Choose an Education course in consultation with the Academic Advisor or Content Advisor. Courses must be approved by the WLE Program Director prior to registration and requires graduate level registration.

• Elective Course

Graduate Level Content Area Courses: 4 quarter hours required, grade of C or better required.

Either a course in Latin at the graduate level or an education language course is required; either course must be approved by the WLE Program director. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing licensure only). Courses must be approved by the WLE Program Director prior to registration and requires graduate level registration.

• LAT 300-600 level Latin course

Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education Latin majors must complete the following tests:

• Foreign Language: Latin Content Area Test (test #133) – assesses knowledge of the Latin language and culture. Test is required before Student Teaching (deadlines apply).
• OPI Test (see below).
• EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.
Oral Proficiency Interview (OPI) Test

Pursuing licensure in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of “intermediate high” or better on the test. It is recommended that the OPI be taken during the first year in the program and in consultation with the WLE content advisor in Modern Languages.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

Teaching and Learning: World Language - Russian (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major.

Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

Learning Outcomes

Students will be able to:

- Understand and apply theoretical foundations of world language education to develop sound instruction and teaching approaches for world language learners.
- Integrate theory and research on second language acquisition into praxis for world language learners.
- Evaluate and understand history and policies of world language education and how historical and policy context affect the education of world language learners.
- Demonstrate knowledge and understanding of various assessment issues that affect world language learners, such as accountability, reliability, validity, bias, special education testing, language proficiency, language supports, and accommodations.
- Understand and apply world language education (ACTFL) standards in unit/lesson planning and instruction.

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:
• Completion of all Education, Content Area, and Graduate level Content Area courses
• Overall cumulative G.P.A. of 3.00 or better
• Meet all other program requirements (e.g., residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test

Clinical Requirements:
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements must be passed one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an
application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Degree Requirements

Content Area Courses
All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for World Language Education Russian
All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Advanced Russian I
- Advanced Russian II
- Advanced Russian III
- Advanced High Russian I
- Advanced High Russian II

Education Elective Course: 4 quarter hours are required, grade of C or better required.

Open elective credit also is required to meet the minimum graduation requirement of 60 quarter hours. Choose an Education course in consultation with the Academic Advisor or Content Advisor. Courses must be approved by the WLE Program Director prior to registration and requires graduate level registration.

- Elective Course

Graduate Level Content Area Courses: 4 quarter hours required, grade of C or better required.

Either a course in Russian at the graduate level or an education language course is required; either course must be approved by the WLE Program director. Courses must be taken before student teaching if pursuing degree (not required for individuals pursuing licensure only). Courses must be approved by the WLE Program Director prior to registration and requires graduate level registration.

- RUS 300-600 level Russian course

Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

Course  Title  Quarter Hours
T&L 592  WORLD LANGUAGES STUDENT TEACHING (grade of B- or better required)  6
T&L 593  WORLD LANGUAGES SEMINAR (grade of C or better required)  2
EDU 95  CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-tuition, PA grade required)  0

Master of Arts (MA) Option Degree Requirements: 4 quarter hours required

This is a Master of Arts degree requirement only. A master’s thesis is written to fulfill the requirements of this course. An oral examination on the thesis is required.

Course  Title  Quarter Hours
T&L 589  THESIS RESEARCH IN TEACHING AND LEARNING  4

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education Russian majors must complete the following tests:

- Foreign Language: Russian Content Area Test (test #134) – assesses knowledge of the Russian language and culture. Test is required before Student Teaching (deadlines apply).
- OPI Test (see below).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Oral Proficiency Interview (OPI) Test

Pursuing licensure in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of “intermediate high” or better on the test. It is recommended that the OPI be taken during the first year in the program and in consultation with the WLE content advisor in Modern Languages.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

Teaching and Learning: World Language - Spanish (MA or MEd)

The Department of Teacher Education prepares Urban Professional Multicultural Educators through an integrated program of courses and field experiences. Programs offered are designed for the preparation of future educators. The programs of study center around our commitment to excellence in teaching in today's diverse society through the investigation of significant educational issues, inquiry into student learning and effective teaching practices, and the use of technology in teaching and learning. We engage teacher candidates in critical reflection upon their practice throughout the program. We foster engagement in schools through our Partnership Schools and other school and agency affiliations. Upon completion of the program, teacher candidates measure themselves against the values of our guiding conceptual framework through the completion of professional portfolios. Values that are part of this framework include: commitment to social justice, critical pedagogy, and positive educational transformation within the context of a Vincentian personalism that honors the dignity of each person.
Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. As students will be completing requirements to earn the IB Certificate, a majority of the 100-110 hours will be completed in International Baccalaureate Schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching
2. Multiculturalism is infused throughout the curriculum
3. Field experiences are an integral part of the curriculum
4. Students are exposed to a variety of educational theories
5. The program includes a research component as a basis for further professional development.

Students lacking undergraduate requirements in the content area they will be teaching will have to complete those requirements prior to student teaching. Both a content area advisor and an academic advisor will guide candidates in planning their coursework.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. Students follow a general pattern of study for elementary and high school levels. In all cases, appropriate field experience plays an integral role. The program combines theoretical principles of education and field work with the student’s choice of major. Graduates earn the Master of Arts or Master of Education degree and are qualified for K-12 school licensure. Yet, not all graduates follow a career in teaching. A number of DePaul graduates in World Language work in diverse settings such as museums, corporations, media, and the arts.

Licensure

Illinois Professional Educator License with endorsement in Foreign Language Spanish (kindergarten-grade 12), Illinois State Board of Education (ISBE) approved program.

Learning Outcomes

Students will be able to:

- Understand and apply theoretical foundations of world language education to develop sound instruction and teaching approaches for world language learners.
- Integrate theory and research on second language acquisition into praxis for world language learners.
- Evaluate and understand history and policies of world language education and how historical and policy context affect the education of world language learners.
- Demonstrate knowledge and understanding of various assessment issues that affect world language learners, such as accountability, reliability, validity, bias, special education testing, language proficiency, language supports, and accommodations.
- Understand and apply world language education (ACTFL) standards in unit/lesson planning and instruction.

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
Clinical Requirements:

• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:

• Completion of all Education, Content Area, and Graduate level Content Area courses
• Overall cumulative G.P.A. of 3.00 or better
• Meet all other program requirements (e.g., residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test

Clinical Requirements:

• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)

• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:

• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements must be passed one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.
Licensure
Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world language majors). A bachelor’s degree is required; a master’s degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Degree Requirements
Content Area Courses
All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for World Language Education Spanish
All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Advanced Spanish I
- Advanced Spanish II

Course Requirements
Education Courses: 40 quarter hours required, grade of C or better required.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education Spanish majors must complete the following tests:

- Foreign Language: Spanish Content Area Test (test #260) – assesses knowledge of the Spanish language and culture. Test is required before Student Teaching (deadlines apply).
- OPI Test (see below).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Oral Proficiency Interview (OPI) Test
Pursuing licensure in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an interview – before you begin student teaching. You must earn a rating of “intermediate high” or better on the test. It is recommended that the OPI be taken during the first year in the program and in consultation with the WLE content advisor in Modern Languages.

Teaching English in Two-Year Colleges Certificate
The Certificate Program in Teaching English in Two-Year Colleges is an interdisciplinary program housed in the Department of English and taught by faculty in both English and the Department of Writing, Rhetoric, and Discourse. The program is designed to prepare prospective teachers of introductory classes in English, Writing, and the Humanities in two-year colleges. Participants in the Certificate Program will learn to teach critical and analytical reading, the processes and disciplines of writing, and other aspects of the arts, humanities, or communication curriculum in two-year colleges.

The Certificate is comprised of 16 hours of credit: three pedagogy-based courses and a teaching internship, completed as an independent study.

Application
To be admitted to the Certificate Program, students must have completed or be currently pursuing a master’s degree in English; Writing and Publishing; Writing, Rhetoric, and Discourse; or a related field.

Applications are accepted at any time. Interested students should contact their program director or Professor Michele Morano for more information, mmorano@depaul.edu (%20mschell2@depaul.edu).

Please email all application materials directly to Michele Morano (not to Graduate Admissions).

Application materials:
- Cover letter describing interest in teaching in a two-year college
- Current CV (résumé)
- Undergraduate and graduate academic transcripts
- Sample of recent academic or professional writing
- Names of two faculty references

Two-Year College Teaching Internship

Graduate students in English or a related field are eligible to apply for the internship even if they are not enrolled in the Certificate Program. Please contact Professor Morano about applying for an internship.

Also, please note: Chicago-area two-year colleges operate on the semester system; therefore, the internship’s duration does not correspond to DePaul’s academic calendar. The intern should expect to complete the work for ENG 509 some time after the end of the quarter in which registered. A grade of "R" (indicating work in progress) will be assigned temporarily, to be changed to a letter grade when work is completed.

Teaching English to Speakers of Other Languages Certificate

The WRD department offers a Graduate Certificate in TESOL, which may be completed by students in an existing DePaul graduate program or by students who wish to complete only the Certificate. Made up of courses in the programs of Writing, Rhetoric, & Discourse, Bilingual-Bicultural Education, English, and Modern Languages, the Certificate prepares students to teach English as a Second Language (ESL) to adult learners in the United States and abroad. The Certificate may also be attractive to faculty at non-U.S. institutions who wish to come to the U.S. for education in working with second language learners.

Field Experience

20 hours of field experience working with adult language learners. Field experience will be arranged individually with the Coordinator of the Certificate program.

1 ENG 478 counts for TESOL credit only with this subtitle.

Students completing the Master’s in Bilingual-Bicultural Education can complete the Certificate program by taking their Theory and Sociolinguistics courses in BBE and their Methods and Language Structure courses in WRD; they must complete all requirements for the BBE program to receive the Master’s degree. Students in the Master of Arts in English (MAE) may complete their Language and Structure requirement in English; any two additional courses form the list above will count for credit in both MAE and the TESOL Certificate. For Students in the MA in WRD, a maximum of two courses (8 credits) from MOL or BBE may be counted as credits toward the MA in WRD degree.

Students who are concurrently completing any other graduate degree program at DePaul must work with their program director/advisor to determine if TESOL Certificate courses will count toward their degree requirements.

Admission Requirements

Applications are accepted at any time, and students may begin the program at the start of any academic quarter. The program is open to both non-degree seeking students and students concurrently enrolled in a DePaul graduate degree program. All applicants must hold a bachelor's degree.

There are two processes for applying to the program, depending on the status of the applicant.

Current graduate students in any DePaul program should write a personal statement of 300-500 words describing their interest in the certificate, prior experience in TESOL or related fields, and professional goals for pursuing the certificate. Email the statement to the TESOL Coordinator, Professor Jason Schneider (jason.schneider@depaul.edu).
Applicants who are not currently enrolled as DePaul students should apply online (https://www.depaul.edu/apply/Pages/default.aspx), and be prepared to submit the following:

• an LAS graduate admission online application
• transcripts from all schools attended
• a personal statement of 300-500 words describing their interest in the program, prior experience in TESOL or related fields, and professional goals for pursuing the certificate

Television Production (Minor)
The Television Production minor will give you a foundation in writing, editing and producing television programs. You may specialize in a specific area to complement your major course of study.

Theatre Arts (BFA)
The Theatre School’s Bachelor of Fine Arts (BFA) degree in Theatre Arts is our most flexible program and allows students to study and get experience in a variety of theatrical disciplines. The program is tailored toward students interested in pursuing careers in areas as diverse as directing, arts writing, educational outreach, literary management, arts administration or law.

Newly admitted Theatre Arts majors are automatically placed in the standard Theatre Arts curriculum, which includes all core and elective requirements for the BFA degree in Theatre Arts. After completing a minimum of two quarters of study at The Theatre School, students have the option of adding a concentration in either Theatre for Young Audiences (TYA) or Directing.

With respect to the core and elective requirements, students who do not declare a concentration remain in the standard Theatre Arts curriculum, which includes successful completion of all core requirements plus six elective courses in theatre (24 credit hours), chosen in consultation with the student’s advisor. The requirements for those students who declare a concentration in either TYA or Directing include successful completion of all core requirements plus eight courses (or 32 credit hours) to fulfill the requirements of the concentration.

Program Specific Outcomes

Students will be able to:

• Read and interpret a theatrical text and apply research, imagination, and personalization to create a unique, insightful, and compelling approach to the production of the text.
• Demonstrate an understanding of the history of theatrical literature and practice in the context of social and cultural development.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

• 1 Lab Course or 1 SWK Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
• Not Required

Other (p. 1300)
• Choose 1 course from the above learning domains as an elective

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit.

This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

THE 412 PORTFOLIO PREPARATION 4

Production Practice/Internship: Select eight credits total in consultation with advisor 8

Standard Plan
In addition to the requirements above 24 credit hours of Theatre Electives must be completed, to be chosen in consultation with the student’s advisor.

Additional Requirements
For Theater Arts Majors who do not pursue a concentration, 26 credit hours of open electives is also required to meet the minimum graduation requirement of 192 hours. Courses should be chosen in consultation with the student’s advisor. Students are strongly encouraged to utilize these courses to pursue a minor or second major.
Concentration Requirements
Students pursuing a concentration must complete the requirements from one of the following concentrations: Theatre for Young Audiences or Directing.

Directing Concentration, Theatre Arts (BFA)
The concentration in Directing focuses on the theoretical knowledge and practical skills necessary for continuing work in this field. The concentration requires 8 courses or 32 credit hours of coursework that includes the first two quarters of the Dramaturgy I sequence (8 credit hours), two courses chosen from a corpus of four, depending on the student’s directorial focus and interests (8 credit hours), a combination of two production practices and/or internship (8 credit hours), and two additional courses approved in consultation with the student’s advisor. The breakdown of this coursework is as follows:

<table>

</tbody>
</table>

Select two additional courses as approved by the advisor 8

Open Electives
Open elective credit is also required to meet the minimum graduation requirement of 192 hours. Courses should be chosen in consultation with the student’s advisor. Students are strongly encouraged to utilize these courses to pursue a minor or second major.

Theatre for Young Audiences Concentration, Theatre Arts (BFA)
The concentration in Theatre for Young Audiences (TYA) focuses on the theoretical knowledge and practical skills necessary for continuing work in this field. The concentration requires 8 courses or 32 credit hours of coursework. The breakdown of this coursework includes the three-term Dramaturgy I sequence (12 credit hours), a minimum of three terms (12 credit hours) of Production Practice assignments in The Theatre School’s Playworks Series and/or a TYA Internship—in which the student serves as assistant director, dramaturg, or assistant dramaturg, and two additional courses (8 credit hours) as approved by the student’s advisor, as follows:

<table>

Select two additional courses as approved by the advisor 8
Open Electives

Open elective credit is also required to meet the minimum graduation requirement of 192 hours. Courses should be chosen in consultation with the student’s advisor. Students are strongly encouraged to utilize these courses to pursue a minor or second major.

Theatre Management (BFA)

The Theatre School’s Bachelor of Fine Arts (BFA) degree in Theatre Management program teaches students both the art and business of theatre while preparing them for careers in the extensive and growing performing arts industry. With a focus on both non-profit arts administration and the commercial theatre, the Theatre Management program uses the theatrical community in Chicago as a laboratory where students interview arts leaders, discover best practices through research, and participate in the art form through internships and production practice assignments.

The Theatre Management curriculum combines Theatre Arts courses from The Theatre School with courses from the Liberal Studies program and The Driehaus College of Business. In alternating years the program offers the New York City Intensive, a one week independent study in New York City, America’s commercial theatre capital. Theatre Management faculty members are industry professionals allowing you a first-hand experience.

Learning Outcomes

Core Outcomes

Students will be able to:

• Identify and describe the historical and theoretical significance of a range of theatrical artists, works, and artistic approaches from antiquity to present.
• Synthesize and apply elements of their education and training to the preparation, rehearsal, and presentation of theatrical productions with discipline, respect, and maturity.
• Identify and explain their theatrical work in the context of the cultural and social impact of the arts.

Program Specific Outcomes

Students will be able to:

• Design and implement a plan for the preparation, rehearsal, and presentation of theatrical productions, including budgeting and marketing.
• Demonstrate an understanding of the practice of the various disciplines involved in the creation of a theatrical performance and both the artistic and practical requirements of each.
• Communicate effectively, both orally and in writing, and have an understanding of the documentation required for the planning and execution of theatrical productions, including budgeting and contracts.

Internships: Select two, six credit-hours each

Internships are designed to meet the individual needs of the student. The internship will entail practical work in the Theatre Management field with a producing theatre company. Internships will be supervised and evaluated by the faculty of the program.

Open Electives

Open elective credit may also be required to meet the minimum graduation requirement of 192 hours.

1 Internships are required to meet the individual needs of the student. The internship will entail practical work in the Theatre Management field with a producing theatre company. Internships will be supervised and evaluated by the faculty of the program.
Theatre Studies (Minor)

The Theatre School offers a minor as a way for DePaul University students in other colleges to engage and explore their interest in the theatre through a broad range of theatre coursework. Theatre School students are not eligible to declare a minor in Theatre Studies.

Course Requirements

A minor in Theatre Studies requires the completion of 24 Theatre School credits of the student’s choosing, based on the list below. Students from outside The Theatre School may take the following classes at their home college tuition rate:

<table>

All courses are offered on an as needed basis. On occasion, Theatre Studies minors may take Theatre Studies (THE) classes not listed above. Availability of those courses is dependent on space available in the class, completion of appropriate prerequisites and permission of the instructor, which the student must obtain in order to enroll. Classes in the acting program (PRF) are not open to students pursuing a minor.

Students pursuing a minor who are approved to take Theatre School courses not on this list will be charged the part-time, per-credit Theatre School tuition rate for those classes.

1 If approved by instructor, any Theatre Studies (THE) course may be applied towards completion of the minor.

Theatre Technology (BFA)

The Theatre School's Bachelor of Fine Arts (BFA) degree in Theatre Technology trains students to execute the realization of a designer's vision. Theatre Technology majors collaborate with the Scenic, Lighting, and Sound Designers, and other artists and technicians, to create the set, props, light, and sound for theatre and entertainment productions.

Learning Outcomes

Core Outcomes

Students will be able to:

- Identify and describe the historical and theoretical significance of a range of theatrical artists, works, and artistic approaches from antiquity to present.
- Synthesize and apply elements of their education and training to the preparation, rehearsal, and presentation of theatrical productions with discipline, respect, and maturity.
- Identify and explain their theatrical work in the context of the cultural and social impact of the arts.

Program Specific Outcomes

Students will be able to:

- Understand and interpret a design concept or design elements and create a plan to fabricate and implement the design for production.
- Effectively communicate, orally and in writing, with members of the production team and be able to both create and interpret appropriate production documents.
- Demonstrate and apply an expertise in a variety of technologies in a broad range of applications for theatrical production.

Translation and Interpreting Studies
Graduate Certificate

The certificate consists of three to five 4-credit courses and one 2-credit course, for a total of 14-22 credits.

Students can choose from one of three tracks:

- Translation
- Interpreting
- Translation and Interpreting (T&I)

To declare the certificate, students must contact Elias Shakkour (e.shakkour@depaul.edu) and include the following information in the email:

- Student ID
- Primary College
- Track (Translation, Interpreting or T&I)

Course requirements are listed below. For each track, courses may be substituted on a case-by-case basis following consultation with the Director of TIC, and, if appropriate, the respective language program director.

Translation Track:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MOL 470</td>
<td>PROFESSIONAL TRANSLATION AND INTERPRETING</td>
<td>4</td>
</tr>
<tr>
<td>MOL 471</td>
<td>TRANSLATION AS AN ART &amp; SCIENCE</td>
<td>4</td>
</tr>
<tr>
<td>MOL 472</td>
<td>TRANSLATION LANGUAGE-PAIR PRACTICE</td>
<td>4</td>
</tr>
<tr>
<td>MOL 479</td>
<td>TRANSLATION/INTERPRETING PRACTICUM</td>
<td>2</td>
</tr>
</tbody>
</table>

Note:

MOL 471 and MOL 472 are both required if the Department of Modern Languages does not offer a language-specific translation course in the student’s language. If the Department of Modern Languages does offer a language-specific translation course in the student’s language, the student is required to take a language-specific translation course and either MOL 471 or MOL 472. If it is not feasible for a student to register for a language-specific translation course because it is not offered during the student’s time at DePaul, because it conflicts with the student’s schedule, or for any other reason, the student will be required to take both MOL 471 and MOL 472.

Examples of language-specific courses that can meet this requirement:

A 300-level JPN course may also meet this requirement if taught as a Japanese Translation Practicum.

U.S. Legal Studies (LLM)

The Master of Laws in U.S. Legal Studies is designed for students who received a first degree in law outside the United States and who wish to pursue advanced study in American law. International lawyers will improve English language skills and gain a deep and sophisticated understanding of the U.S. legal system.

The degree is flexible, allowing students to select a combination of core courses that give a strong foundation in American law. Students complete a minimum of 24 credits and a maximum of 32 credits to earn the degree, with six credits of required foundational coursework.

The degree is designed to give foreign-trained lawyers the opportunity to meet the course requirements to sit for the bar exam in a select group of states. Successful completion of a bar exam is one of the requirements to receive a license to practice law in a U.S. jurisdiction.

<table>
<thead>
<tr>
<th>Program Requirements</th>
<th>Semester Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Core Requirements</td>
<td>9</td>
</tr>
<tr>
<td>Elective Requirements</td>
<td>15</td>
</tr>
<tr>
<td>Total hours required</td>
<td>24</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- Identify structures of the U.S. legal system and government institutions.
- Demonstrate understanding of how a common law system operates in a constitutional democracy.
- Demonstrate advanced knowledge of the legal rules and policies in the U.S. legal system.
- Identify and apply relevant legal authority.
- Communicate clearly in speech and writing.

Degree Requirements

The Master of Laws in U.S. Legal Studies is designed for students who received a first degree in law outside the United States. It begins with an orientation that introduces graduate students to DePaul’s faculty, staff, library, computer and research facilities. Students will also participate in special courses introducing them to the differences between civil and common law systems, the foundations of the U.S. legal system, the methods of legal reasoning and analysis, and the basics of legal writing in the U.S. legal system.

The LLM in U.S. Legal Studies provides students with the opportunity to meet the course requirements to sit for the bar exam in a select group of states. Students must review requirements of the particular state carefully and discuss individual course selection with their academic advisor.

To earn the LLM in U.S. Legal Studies, a student must complete between 24 and 32 semester hours of credit with a minimum cumulative grade point average (GPA) of 2.0, including six credit hours of required coursework. A summer term is counted as a semester for this purpose. Students who complete 32 credit hours with a GPA below the 2.0 GPA required to earn the degree will not be permitted to continue taking classes to improve their GPA. A student is automatically dismissed if he or she has a cumulative GPA below 2.0 for any three consecutive semesters.

The LLM program may be completed on either a full- or part-time basis but it must be completed within five years. Credits earned as part of the JD program do not count toward the LLM degree. In addition, no credit is given for law courses taken before a student is admitted to and enrolled in the LLM program. Students may be eligible to apply credits earned in the LLM program or in their first law degree toward a JD degree at the College of Law.

Course Requirements

Courses must be selected from the list below to meet the total requirement of between 24 and 32 credit hours. Students seeking to substitute a course that is not on this list must speak with their academic advisor.

<table>
<thead>
<tr>

Undergraduate Spanish for Healthcare Certificate

The Undergraduate Certificate in Spanish for Healthcare is available to DePaul undergraduate and non-degree seeking students who are interested in using their Spanish in the various fields of healthcare, especially in encounters with Spanish-speaking patients. The certificate is 12 credit hours total and consists of the following three 4-credit hour courses (SPN 106 or equivalent, including placement test or permission of instructor, is recommended before enrolling in these courses):

- SPN 231: Health Spanish I
- SPN 232: Health Spanish II
- SPN 233: Health Spanish III

To earn the certificate, students must earn a grade of "C-" or higher in all three courses. Although students do not need to take the courses in a specific order, it is recommended that they follow the sequence when possible. Students who are not majoring in Spanish may apply the three courses in the certificate toward the Modern Language Option (https://las.depaul.edu/academics/modern-languages/undergraduate/Pages/modern-language-option.aspx).

To declare the certificate, students should contact the Director of the Spanish Program, Glen Carman (GCARMAN@depaul.edu), and include the following information in the email:

- Student ID
- Primary College

Urban Geography and Planning (Minor)

This specialized minor offers students an overview of the field of geography, focusing on urban geography courses with topics including urbanization, urban issues and solutions, and urban planning.

Course Requirements

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEO 103</td>

</tr>
</tbody>
</table>

Courses should be selected with the consent of the student's Geography faculty advisor.

A student completing an Urban Geography and Planning minor is eligible to simultaneously complete a GIS Certificate. Only 2 courses (GEO 141, and either GEO 242 or GEO 243) from the Urban Geography and Planning Minor can also be applied to the undergraduate GIS Certificate. A student wishing to complete an Urban Geography and Planning minor and an undergraduate GIS Certificate will complete a minimum of 8 Geography courses. Please see a faculty adviser in the Department of Geography for further details.

User Experience Design (BS)

The BS in User Experience Design prepares students for the expanding fields of user experience and interaction design. The program integrates visual design, code, and user research. Concepts and skills involved include design principles, prototyping, and usability testing. Students will learn how to analyze, design, develop and evaluate effective computer interfaces to provide better user experiences.

Program Requirements

<table>
<thead>
<tr>

</tr>
<tr>
<td>Total hours required</td>
<td>192</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:
• Plan and conduct a variety of user research methods for developing empathy, understanding problems, and identifying user needs and design opportunities.
• Evaluate, critique, create, and rationalize interfaces with respect to visual design principles, affordances, interaction design principles, and interaction design patterns.
• Transform user research and apply design principles and patterns to create wireframes, mockups, prototypes, and experiences that simulate interfaces and have enough functionality for usability testing with participants.
• Read, comprehend, and write code relevant to contemporary web and mobile devices at a basic level, use code to create rough prototypes, and research, evaluate, and rationalize design decisions as they relate to code.
• Effectively communicate user research findings, design concepts, and design rationale in written and verbal forms.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 Students must earn a C- or better in this course.

Learning Domains

Arts and Literature (AL) (p. 1300)
• 3 Courses Required

Historical Inquiry (HI) (p. 1304)
• 2 Courses Required

Math and Computing (MC) (p. 1306)
• Not Required

Philosophical Inquiry (PI) (p. 1307)
• 2 Courses Required

Religious Dimensions (RD) (p. 1308)
• 2 Courses Required

Scientific Inquiry (SI) (p. 1310)
• 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
• 3 Courses Required
  • PSY 105
  • 2 Additional Courses

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Open Electives

Open Elective credit hours are required to meet the minimum graduation
requirements of 192 hours. Open Electives may be taken from any unit at
DePaul.

Degree Requirements

Students in this degree must meet the following requirements:

• Complete a minimum of 192 credit hours (generally 48 courses)
• Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and
Minor courses
• Earn a grade of D or higher in all other Liberal Studies and Open
Elective courses
• Maintain a cumulative GPA of 2.0 or higher

User Experience Design (BS),
Combined Bachelor’s + Master’s
Degree

The combined Bachelor’s/Master’s degree programs allow students to
complete 12 graduate credit hours while still undergraduates. These
12 graduate credit hours will count toward both the undergraduate and
graduate degree programs.

Students who meet the admission requirements below may choose to
apply to a combined degree program. Interested students should consult
their faculty advisor regarding the application procedure. This program
allows students to combine many CDM bachelor’s degrees with a CDM
master’s degree following the structure outlined below.

Admission Criteria

• Minimum of 44 quarter hours earned
• Minimum of 12 quarter hours earned at DePaul
• GPA of 3.3 or higher in courses taken at DePaul
• Full admission to the designated master’s program requires meeting
admission requirements (https://www.cdm.depaul.edu/Admission-
and-Aid/Pages/Grad-Program-Requirements.aspx) for that program
Students should discuss their interest in a CDM combined degree program with a CDM faculty advisor. Before admission to the degree, students should work with the faculty advisor to identify a course plan for the combined degree program, including the list of courses to take and how the courses will be applied toward both the undergraduate and graduate degrees. Non-CDM students can email the CDM advising office (advising@cdm.depaul.edu) if interested in a combined degree with a CDM master’s degree.

If you are currently a CDM student and interested in combining your CDM bachelor’s degree with a non-CDM graduate degree, please contact the respective college for admission and application procedures.

Students enrolled in the Bachelor of Arts in Computing or the Bachelor of Arts in Professional Studies with a major in Computing (https://www.cdm.depaul.edu/academics/Pages/BA-Computing.aspx) joint degree programs between CDM and the School of Continuing and Professional Studies are eligible for this program. Interested students who meet the admission criteria for a combined degree should contact SCPS Academic Services (scpsadvising@depaul.edu) for more information. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

**Program Structure**

Students in the combined degree program take a maximum of three (3) graduate level courses that count toward both their bachelor’s and master’s degree requirements. Students may enroll in graduate level coursework in the junior and senior year only. Students in the combined degree program will receive the bachelor’s degree after meeting all graduation requirements including the minimum credit hours required for graduation.

To earn the master’s degree, the student must earn as many additional graduate credit hours as needed to reach the minimum number of graduate credit hours required in that master’s degree.

Only CDM courses can be taken as part of this program. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

**Maintaining Good Standing**

Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter.

The student and faculty advisor will be notified when the student’s cumulative GPA falls below 3.3 or when the students receives less than a C- in graduate level course.

If a student’s cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional B.A./B.S./B.F.A.

If dismissed from the combined degree program after graduate courses have been passed, the graduate courses may only apply to the undergraduate degree. Should the student later be admitted to a graduate program, graduate courses applied to the undergraduate degree may not apply to the graduate program and may not be repeated if they are required in the declared graduate curriculum. Other graduate courses may be substituted in this case.

**Designing a Course of Study**

It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.

This course of study should include the graduate courses to be taken and the undergraduate courses that are replaced by the graduate courses. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.

It is advisable for the student and the faculty advisor to enter the proposed plan of study in the student communication record in BlueStar so it is available to the student and CDM faculty and staff.

**Registering for Master’s Degree Courses**

Combined degree students must meet regularly with their faculty advisor. The faculty advisor will initiate the registration process for all graduate level courses taken during the undergraduate career.

**Bachelor’s Degree to Master’s Degree Transition**

In order to be fully admitted to the designated master’s program, the student must meet all admission requirements for that program. When preparing to complete the undergraduate portion of the combined degree, students must submit the application for degree conferral for the undergraduate degree by the application deadline. At this time, the students should contact the CDM Academic Success Center about the procedure required to be formally admitted to the declared graduate program.

**User Experience Design (Minor)**

The User Experience Design minor gives students a foundational skill set in the expanding field of interaction design and its applications to multimedia and web development.

Value-Creating Education for Global Citizenship (MEd)

The program in Value-Creating Education for Global Citizenship offers a comprehensive and in-depth examination of the educational perspectives and practices of Soka educators Tsunesaburo Makiguchi, Josei Toda, and Daisaku Ikeda. The first degree program of its kind anywhere in the world, it engages students in understanding and applying value-creating education for global citizenship in theory, research, policy, and practice in local and global contexts. Students will consider key educational concepts in the Soka heritage, including human geography, communities studies, deductive approaches, value and value creation, wisdom and knowledge, human education, society for education, peace and dialogue, among others. The foundation of the program rests on the sociopolitical and sociocultural implications of value-creating education for global citizenship in local contexts. The program offers two tracks, fully online or face-to-face.

</tbody>
</table>

Learning Outcomes

Students will be able to:

- Assess instructional practices that blend a focus on both cognition (i.e., the accretion of knowledge) and wisdom (i.e., application of that knowledge in meaningful and contributive living for oneself and others).
- Design practices that promote interdependent teacher-student relationships for mutual growth and development.
- Analyze and practice dialogic engagement, reflective and relational creativity and criticality, and meaning making.
- Apply value-creating education for global citizenship in local contexts.

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Demonstrates a positive attitude and commitment to the profession
- Demonstrates thoughtful, effective verbal and non-verbal communication and listening skills
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates concern for and protection of safety and well-being of others

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.
DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

Wig and Makeup (BFA)
The Theatre School’s Bachelor of Fine Arts (BFA) degree in Wig and Makeup Design & Technology is designed to train students for professional careers as wig and makeup artists. The four-year curriculum simulates the professional experience and process for both designers and technicians in the fields of the wig and makeup arts. Students of the program will receive professional training in wig construction, period hair styling, makeup application and design, and makeup prosthetics that will enable them to work professionally in a variety of entertainment fields, including theatre, opera, film, and television. Wig and makeup students will practice their craft on realized theatrical productions and learn to collaborate with directors, dramaturgs, other designers and technicians, and our professional wig/makeup and costume shop staff.

Learning Outcomes

Core Outcomes
Students will be able to:

• Identify and describe the historical and theoretical significance of a range of theatrical artists, works and artistic approaches from antiquity to the present, encompassing a broad range of periods, cultures, and styles.
• Synthesize and apply elements of their education and training to the preparation, rehearsal, and presentation of theatrical productions with discipline, respect, and maturity.
• Identify and explain their theatrical work in the context of the cultural and social impact of the arts.

Program Specific Outcomes
Students will be able to:

• Read and interpret theatrical text and apply research, imagination, and personalization to create a unique, insightful, and compelling design concept in collaboration with other artists.
• Demonstrate an understanding of the history hair, makeup, clothing, and fashion in the context of social and cultural development.
• Demonstrate and apply expertise in wig and facial hair construction, period hair styling, stage blood mechanics, makeup design and application, and makeup prosthetics.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

History of Dramatic Literature Sequence (Arts and Literature Requirement):

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.

Learning Domains

Arts and Literature (AL) (p. 1300)
• THE 204 HISTORY OF DRAMATIC LITERATURE
• THE 205 HISTORY OF DRAMATIC LITERATURE
• THE 206 HISTORY OF DRAMATIC LITERATURE

Historical Inquiry (HI) (p. 1304)
• 1 Course Required

Math and Computing (MC) (p. 1306)
• Not Required

Philosophical Inquiry (PI) (p. 1307)
• 1 Course Required

Religious Dimensions (RD) (p. 1308)
• 1 Course Required

Scientific Inquiry (SI) (p. 1310)
• 1 Lab Course or 1 SWK Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
• Not Required

Other (p. 1300)
• Choose 1 course from the above learning domains as an elective

Notes
Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.
Women's and Gender Studies (BA)

The Department of Women's and Gender Studies provides students with a strong educational foundation for life-long learning. It nurtures students' abilities to think critically and to examine social and cultural circumstances that too often remain unquestioned. The curriculum also emphasizes the development of strong written & oral communication skills.

A thirteen-course major is offered, consisting of a six-course common core, four courses in a concentration, and three electives.

As a Women's and Gender Studies major, a student will take courses such as:

- Women and Film
- Women in the Middle East
- Feminist Theories
- Gender and Education
- Deconstructing the Diva
- Gender, Community, & Activism: Community-Based Learning in WGS
- Growing Up Female in the U.S.
- Growing up Latino/Latina in the United States
- Gender Violence and Resistance
- Women and Politics
- Mothering, Work, and Reproductive Justice
- Black Women's Experiences
- Antiracist Feminisms
- Introduction to Transgender Studies
- Queer Theory
Learning Outcomes
Students will be able to:

- Identify the meanings and historical constructions of gender and/or women's experiences in transnational contexts.
- Explain the connections between scholarship and activism in the interdisciplinary field of Women's and Gender Studies.
- Differentiate among a variety of theoretical frameworks central to the interdisciplinary field of Women's and Gender Studies.
- Make use of concepts of intersectionality in their written and/or experiential work.
- Evaluate the utility of a variety of interdisciplinary methodologies central to scholarship and/or creative work in the interdisciplinary field of Women's and Gender Studies.
- Articulate the relationship between individual experiences - their own and others' - and broader systemic inequalities.
- Create knowledge of gender and/or women's experiences in a context of ethically responsible social justice and/or social transformation.

College Core Requirements
Study in the Major Field
The student's course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized "concentration." The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student's choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration
All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)
All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement. Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (see below).

The Modern Language Option (MLO)
The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.
NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency
A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

</tbody>
</table>

¹ Students must earn a C- or better in this course.
² Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.
³ A student majoring in Women's and Gender Studies (WGS) is required to complete the Capstone offered by the WGS Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. A WGS major in the University Honors Program shall take the University Honors Capstone and the WGS Capstone.

Learning Domains

**Arts and Literature (AL) (p. 1300)**
- 2 Courses Required

**Historical Inquiry (HI) (p. 1304)**
- 2 Courses Required

**Math and Computing (MC) (p. 1306)**
- 2 Courses Required
  - [1 CR Course and 1 SR Course]

**Philosophical Inquiry (PI) (p. 1307)**
- 2 Courses Required

**Religious Dimensions (RD) (p. 1308)**
- 2 Courses Required

**Scientific Inquiry (SI) (p. 1310)**
- 2 Courses Required
  - [1 Lab Course and 1 SWK Course]

**Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)**
- 2 Courses Required

Notes
Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the experiential learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

CONCENTRATION

Students must also complete a four-course concentration. All students develop an Individualized Concentration in consultation with their faculty advisor.

WGS students have developed concentrations in areas such as Arts & Activism; International Perspectives; Social Policy & Social Justice; Women of Color & Feminist Thought; Gender & Sexualities; among others. We encourage students to develop an individualized program of study that best suits their academic interests and career goals, and are committed to working closely with students as they develop their major concentration and interdisciplinary curricular focus.

MAJOR FIELD ELECTIVES

Three additional electives chosen by the student from the list of courses approved for the Women's and Gender Studies major.

WOMEN'S AND GENDER STUDIES (BA) + WOMEN'S AND GENDER STUDIES (MA)

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

All current WGS undergraduate majors with junior status (at least 88.0 credits) with a cumulative undergraduate GPA of 3.0 overall are invited to apply for the accelerated BA/MA Degree in the Department of Women's and Gender Studies. In order to be considered for the accelerated program, a student must have completed WGS 100, WGS 200, and WGS 250 and at least three elective courses towards the WGS major. Additionally, students must demonstrate strong critical analytic research, writing, and communication skills. Interested students should contact the WGS graduate director.

In the senior year students complete:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>WGS 400</td>
<td>FEMINIST THEORIES</td>
<td>4</td>
</tr>
<tr>
<td>WGS 415</td>
<td>FEMINIST GENEALOGIES IN WOMEN'S AND GENDER STUDIES</td>
<td>4</td>
</tr>
<tr>
<td>WGS 465</td>
<td>GLOBALIZATION, TRANSNATIONALISM, AND GENDER</td>
<td>4</td>
</tr>
</tbody>
</table>

Once the student has graduated with their undergraduate BA in Women's and Gender Studies, they will matriculate into the MA Program. As MA Students, the students take the remaining 9 courses toward the MA degree — usually students will take 3 graduate courses per quarter in order to complete the MA in the one additional year. This will include two of the required graduate courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>WGS 473</td>
<td>SEMINAR IN GRADUATE PROPOSAL WRITING</td>
<td>4</td>
</tr>
</tbody>
</table>

Elective courses will be chosen by the student in conjunction with a faculty advisor in order to tailor a coherent program of study to the individual student's particular academic and/or professional objectives while ensuring that the student sustains strong interdisciplinary focus at the graduate level. Elective courses may be offered by Women's and Gender Studies or approved courses offered by other departments/programs at DePaul. A list of courses approved by WGS are circulated prior to registration for each quarter.

CAPSTONE/FINAL PROJECT REQUIREMENTS

All students must complete an MA Final Project, selecting one of the following options:

THESIS PROJECT

The Thesis Option requires that the student plan, execute, and defend an independent and original analytical research project that makes a contribution to current scholarship in the field of women's and gender studies and related subfields. The thesis should show accomplishment in methods of research, critical judgment, and, if appropriate, praxis that characterizes feminist research. Thesis research must be grounded in interdisciplinary scholarship as well as feminist and/or gender theories, and must reflect considerable engagement with relevant literature and methodology in the field. The thesis consists of approximately 50 pages of text with a substantial bibliography.

Students who select the Thesis option will complete, in addition to required Core Courses in the MA Program, a five-course elective focus, and one course, WGS 493 focused on researching and writing the thesis. You are required to present and defend the thesis to an MA Final Project Committee. The student is also required to present their final project to a public audience at a WGS Graduate Student Final Project Presentation event.

PRACTICAL PROJECT

The Practical Project Option requires that the student plan, develop, and defend a practical project that is grounded in interdisciplinary scholarship, feminist and/or gender theories, and that has a direct and practical application to community service, advocacy, and/or education. Practical projects take a variety of forms; for instance, it could be a participatory action research project with an organization, or a curriculum to be taught in community-based or educational setting, or a public policy or human rights related educational or advocacy project, or any project created for implementation with a broader community. In general, the MA Practical Project in WGS consists of the project itself (e.g., the curriculum, the participatory action research report) and a Framing Paper (minimum 25 pages) in which you frame the mission, goals, methods, components, and expected outcomes of the project you have undertaken.

Students who select the Practical Project option will complete, in addition to required Core Courses in the MA Program, a five-course elective focus, plus an additional one course (total of 4 credit hours) of WGS 493. They will also be required to present and defend the Practical Project to an MA Final Project Committee. The student is also required to present their...
Based on the tables provided, the following is the extracted text:

final project to a public audience at a WGS Graduate Student Final Project Presentation event.

**Creative Project**

The Creative Project Option requires students to create an artistic and/or literary project that gives voice to issues or questions in Women’s and Gender Studies. It should be informed by feminist theory and scholarship, and it should address a significant theme or question within the field. A Creative Project may be a play, an art exhibit, a memoir, a novel, a collection of short stories, a collection of non-fiction essays, a mixed-media work, a dance or musical performance, a film, a website—to name just a few of the multiple possibilities open to students choosing this option. In general, the MA Creative Project in WGS consists of the creative project itself and a Creative Project Framing Paper (minimum 25 pages) in which you describe and frame the creative project.

Students who select the Creative Project Option will complete, in addition to required Core Courses in the MA Program, a five-course elective focus, plus an additional one course of independent study and research as WGS 493.

**Portfolio Project**

The Portfolio Final Project Option requires that the student conduct a comprehensive analysis of their learning while a graduate student in WGS. The student must prepare and submit

1. a collection of at least six seminar papers, practical or creative projects, and/or other research products that are the outcomes of core and elective courses; and
2. a Portfolio Essay (minimum 25 pages) that offers a reflective and critical analysis of how the papers/projects reflect the students' intellectual, creative, and analytical development over the course of their graduate studies.

Students who select the Portfolio Option will complete, in addition to required Core Courses in the MA Program, a five-course elective focus, plus an additional course WGS 493 during which they will write the Portfolio Essay. They will also be required to present and defend the portfolio project to the Chair of their Final Project and one additional faculty member, who must both be appointed in the Department of Women’s and Gender Studies at DePaul. The student is also required to present their final project to a public audience at a WGS Graduate Student Final Project Presentation event.

**Application Process**

In order to apply students must fill out an online application and submit all the application materials listed below by May 31st click here (https://grad.depaul.edu/apply/).

1. A Statement of Purpose (500-750 words) explaining why the student is seeking admission to the program — including specific goals and interests.
2. A copy of the undergraduate unofficial transcript.
3. A research-based paper as a writing sample (e.g., a copy of a paper from a relevant undergraduate course) of approximately 2000 words.
4. Two letters of recommendation from professors who can speak to your interest in and commitment to Women’s and Gender Studies. You must contact your referees and request the letters of recommendation through the application portal. Please ensure that they submit the letters by the application deadline (May 31).

The MA in Women’s and Gender Studies (MA) offers a cutting edge curriculum that focuses on the interconnectedness of local, global, and transnational feminist theories, methodologies, research, public policies, and social movements; attends to interlocking systems of oppression and privilege—gender, race, sexuality, class, nation—to address issues of power, resistance, and social transformation; connects feminist theories to activism and social justice; and engages communities through research, advocacy, and service.

Women’s and Gender Studies are complementary interdisciplinary fields whose research, scholarship, and creative activities examine women’s lives, conditions, and contributions within their historical, social, cultural, national, and transnational contexts and explore how gender is constructed and negotiated within and across societies. Women’s and men’s identities and experiences are examined through the constructs of gender, race, class, sexuality, age, ability, culture, religion, nation etc. within broader historical, social, and global contexts, such as colonialism and globalization, among others.

Through feminist and gender-based theories and methodologies, the Department of Women’s and Gender Studies offers critical analyses, reflections, and contributions to knowledge regarding interlocking systems of oppression and privilege, thereby addressing issues of power, resistance and social transformation. In addition, the emphasis on critical theory and analysis allows for work that interrogates feminist discourses as well as those of other disciplines in the arts, humanities, social sciences, and natural sciences. By crossing the boundaries of traditional fields of study, the department seeks to create new, coherent understandings of human experiences. For more information, contact Dr. Sanjukta Mukherjee, Graduate Director.

The MA in Women’s and Gender Studies requires completion of 48 credit hours. All Core, and many Elective courses, will be offered during the evening. The program requires six Core courses, five Elective courses organized around a focus tailored to the individual student’s needs, and a Capstone consisting of one course Thesis Option, a one course Practical or Creative Project Option, or a one-course Portfolio option.

Course offerings are scheduled so that students will ordinarily complete the program in two years.

The MA in Women’s and Gender Studies may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Women’s and Gender Studies + Digital Humanities Certificate
- Women’s and Gender Studies + Global Health Certificate
- Women’s and Gender Studies + Public Health Certificate
- Women’s and Gender Studies + Social Research Certificate
- Women’s and Gender Studies + Critical Ethnic Studies
Learning Outcomes

# Students can identify the experiences of women within multiple local, national, and transnational contexts.

# Students can compare various historically situated theoretical frameworks central to the interdisciplinary field of Women's and Gender Studies.

# Students can articulate the relationship between social and historical constructions of gender and various theoretical frameworks central to the interdisciplinary field of Women's and Gender Studies.

# Students can analyze gender issues and/or women's experiences in terms of intersectional identities and interlocking systems of power, privilege, and/or oppression.

# Students can utilize appropriate interdisciplinary methodologies which inform their own scholarship and/or creative work in the interdisciplinary field of Women's and Gender Studies.

# Students can analyze issues informed by the integral relationship of scholarship and activism, paying particular attention to issues of social justice and/or social transformation.

# Students can construct knowledge informed by socially responsible ethical frameworks relevant to the interdisciplinary field of Women's and Gender Studies.

Elective courses will be chosen by the student in conjunction with a faculty advisor in order to tailor a coherent program of study to the individual student's particular academic and/or professional objectives while ensuring that the student sustains a strong interdisciplinary focus at the graduate level. Elective courses may be offered by Women's and Gender Studies or by other departments/programs at DePaul, provided that such courses meet the criteria for inclusion within the Women's and Gender Studies curriculum (with permission).

Capstone/Final Project Requirements

All students must complete an MA Final Project, selecting one of the following options:

Thesis

The Thesis Option requires that the student plan, execute, and defend an independent and original analytical research project that makes a contribution to current scholarship in the field of women's and gender studies and related subfields. The thesis should show accomplishment in methods of research, critical judgment, and, if appropriate, praxis that characterizes feminist research. Thesis research must be grounded in interdisciplinary scholarship as well as feminist and/or gender theories, and must reflect considerable engagement with relevant literature and methodology in the field. The thesis consists of approximately 50 pages of text with a substantial bibliography.

Students who select the Thesis option will complete, in addition to required Core Courses in the MA Program, a five-course elective focus, and one course of WGS 493 focused on researching and writing the thesis. You are required to present and defend the thesis to an MA Final Project Committee. The student is also required to present their final project to a public audience at a WGS Graduate Student Final Project Presentation event.

Practical Project

The Practical Project Option requires that the student plan, develop, and defend a practical project that is grounded in interdisciplinary scholarship, feminist and/or gender theories, and that has a direct and practical application to community service, advocacy, and/or education. Practical projects take a variety of forms; for instance, it could be a participatory action research project with an organization, or a curriculum to be taught in community-based or educational setting, or a public policy or human rights related educational or advocacy project, or any project created for implementation with a broader community. In general, the MA Practical Project in WGS consists of the project itself (e.g., the curriculum, the participatory action research report) and a Framing Paper (minimum 25 pages) in which you frame the mission, goals, methods, components, and expected outcomes of the project you have undertaken.

Students who select the Practical Project option will complete, in addition to required Core Courses in the MA Program, a five-course elective focus, plus an additional one course of WGS 493. They will also be required to present and defend the Practical Project to an MA Final Project Committee. The student is also required to present their final project to a public audience at a WGS Graduate Student Final Project Presentation event.

Creative Project

The Creative Project Option requires students to create an artistic and/or literary project that gives voice to issues or questions in Women's and Gender Studies. It should be informed by feminist theory and scholarship, and it should address a significant theme or question within the field. A Creative Project may be a play, an art exhibit, a memoir, a novel, a collection of short stories, a collection of non-fiction essays, a mixed-media work, a dance or musical performance, a film, a website—to name just a few of the multiple possibilities open to students choosing this option. In general, the MA Creative Project in WGS consists of the creative project itself and a Creative Project Framing Paper (minimum 25 pages) in which you describe and frame the creative project.
Students who select the Creative Project Option will complete, in addition to required Core Courses in the MA Program, a five-course elective focus, plus an additional one course of independent study and research as WGS 493.

**Portfolio**
The Portfolio Final Project Option requires that the student conduct a comprehensive analysis of their learning while a graduate student in WGS. The student must prepare and submit (1) a collection of at least six seminar papers, practical or creative projects, and/or other research products that are the outcomes of core and elective courses; and (2) a Portfolio Essay (minimum 25 pages) that offers a reflective and critical analysis of how the papers/projects reflect the students intellectual, creative, and analytical development over the course of their graduate studies.

Students who select the Portfolio Option will complete, in addition to required Core Courses in the MA Program, a five-course elective focus, plus an additional course WGS 493 – during which they will write the Portfolio Essay. They will also be required to present and defend the portfolio project to the Chair of their Final Project and one additional faculty member, who must both be appointed in the Department of Women’s and Gender Studies at DePaul. The student is also required to present their final project to a public audience at a WGS Graduate Student Final Project Presentation event.

**Women’s and Gender Studies (MA), Combined Bachelor’s + Master’s Degree**
The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

**DePaul Undergraduate Degree + Women's and Gender Studies (MA)**
Students interested in applying to the BA + MA programs in Women’s and Gender Studies should contact the Graduate Director of the Department of Women’s and Gender Studies, Dr. Sanjukta Mukherjee smukher8@depaul.edu

All current DePaul undergraduate students with junior status (at least 88.0 credits) with a cumulative undergraduate GPA of 3.0 overall are invited to apply for the Universal Combined Degree BA MA Program in the Department of Women’s and Gender Studies: **You do not need to be a WGS major to apply!**

If you have taken a minimum of **two WGS or WGS-related courses** (for example in the allied fields of African and Black Diaspora Studies, English, Geography, Global Asian Studies, History, International Studies, Islamic World Studies, Latin American and Latino/a Studies, LGBTQ Studies, Sociology, Peace and Justice Studies, among others) and can demonstrate strong critical analytic research, writing, and communication skills you can be considered for the Universal Combined Degree.

**Application Process**
In order to apply students must fill out an online application and submit all the application materials listed below by May 31 here: https://grad.depaul.edu/apply/ (https://grad.depaul.edu/apply/)

1. A Statement of Purpose (500-750 words) explaining why the student is seeking admission to the program – including specific goals and interests.
2. A copy of the undergraduate unofficial transcript.
3. A research-based paper as a writing sample (e.g., a copy of a paper from a relevant undergraduate course) of approximately 2000 words.
4. Two letters of recommendation from professors who can speak to your interest in and commitment to Women’s and Gender Studies. You must contact your referees and request the letters of recommendation through the application portal. Please ensure that they submit the letters by the application deadline (May 31).

**Women’s and Gender Studies (MA/MSW Social Work)**
The joint MSW/MA in Women’s and Gender Studies offers a unique and cutting edge graduate program with a focus on gender, community, and social justice. Both programs share a synchronicity of mission and focus on social justice efforts at the community level and together they would provide an excellent foundation for developing a women’s and gender studies-based social work career trajectory.

The joint program is designed to give students the opportunity and flexibility to draw from the strengths of both programs as they build a foundation for their chosen work. The program offers both a broad understanding of social work, with a particular focus on community, and a substantive foundation in the theories and scholarship within women’s and gender studies, with a particular focus on social justice. Students will have the opportunity to deepen their knowledge in the field of women’s and gender studies directly applicable to their interests in social work and build their knowledge-based skills in social work while obtaining the necessary credential for not only securing employment, but the ability to advance their leadership in the profession.

</tr>
</tbody>
</table>

Candidates for the MSW/MA Women's and Gender Studies degree must also complete 32 credit hours of MSW concentration courses, listed here (p. 1045).

Women's and Gender Studies (Minor)

Similar to the major, the Women's and Gender Studies minor includes three basic social analysis courses aimed at providing students with a gendered lens through which to see social, cultural, and political issues. Students are encouraged to expand their view of their personal lives to include a framework that promotes resilient responses to all forms of oppression. To complete the minor, students take three additional courses to be chosen from the approved course list from the Women's and Gender Studies Department.

Students wishing to attain the Women's and Gender Studies minor are required to successfully complete 24 credit hours (six classes): the three core classes listed below and three general electives approved for the Women's and Gender Studies major.

Women's and Gender Studies Certificate

Graduate Certificate Program

The Women's and Gender Studies Graduate Certificate Program at DePaul University is available both to non-degree seeking students and to students in other DePaul graduate degree programs.

The Program's requirements are:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>WGS 400</td>
<td>FEMINIST THEORIES (offered Fall Quarter only)</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td>Select three graduate-level elective courses</td>
<td>12</td>
</tr>
</tbody>
</table>

It is highly recommended that students take the foundational course, WGS 400, prior to the other required three WGS electives. The elective courses may be taken from the Women's and Gender Studies offerings and/or from courses in other departments and programs in the College of Liberal Arts and Social Sciences that have been approved by the Department of Women's and Gender Studies. All three elective courses must not be from the same department or program.

To be considered for the certificate program, please follow the directions below.

Non-Degree Seeking Students

Applications are accepted on an ongoing basis. Complete a DePaul University Liberal Arts and Social Sciences graduate admission online application; submit undergraduate and (if applicable) graduate transcripts and a personal statement of 300-500 words (describing your interest in Women's and Gender Studies, any prior experience in the field, and personal or professional goals for pursuing the certificate), and a letter of recommendation from a current or previous professor.

Students Enrolled in Other DePaul Graduate Degree Programs

Applications are accepted on an ongoing basis. Complete a DePaul University Liberal Arts and Social Sciences graduate admission online application. Submit undergraduate and (if applicable) graduate transcripts, a personal statement of 300-500 words (describing your interest in Women's and Gender Studies, any prior experience in the field, and personal or professional goals for pursuing the certificate), a letter of recommendation from a current or previous professor, and a letter from the Director of Graduate Studies in the degree granting department indicating whether interdisciplinary courses in Women's and Gender Studies at DePaul University are approved for credit toward the certificate.
World Language Education Chinese (BA)

The Bachelor of Arts program in World Language Education Chinese prepares students to teach Kindergarten through 12th grade in a variety of urban and suburban education settings, including public and private elementary and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student’s choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 130-135 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

Licensure

Illinois Professional Educator License with endorsement in Foreign Language Chinese (kindergarten-grade 12), an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes

Students will be able to:

- Apply theoretical foundations of language education to develop sound instruction and teaching approaches for language learners.
- Integrate theory and research on second language acquisition into practice for language learners.
- Evaluate history and policies of language education and how historical and policy context affect the education of language learners.
- Analyze various assessment issues that affect language learners, such as accountability, reliability, validity, bias, special education.

College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices.
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions.
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts).
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats.
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge.
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching.
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being.
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively.
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner.
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning.
demonstrated in one of several ways:

- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others’ perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
- Takes initiative
- Is open to new ideas and engagement in learning
- Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
- Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
- Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Demonstrates consistent professional behavior across all academic settings
- Maintains appropriate interpersonal and professional boundaries
- Accepts personal responsibility for one’s behavior
- Expresses feelings and opinions effectively and appropriately
- Upholds confidentiality

**Skill Building Courses**

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

**Modern Language Competence Requirement**

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing two years of a language sequence in high school
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

**Field Experiences**

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.
The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements**

- Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
- Overall cumulative GPA of 2.50 or better
- Cumulative GPA of 2.75 or better in all education courses
- Meet all other program requirements (e.g., modern language and residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test(s)

**Clinical Requirements**

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines**

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: [http://education.depaul.edu/](http://education.depaul.edu/).

**Licensure**

Requirements for licensure include completion of full bachelor’s degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor’s degree. A bachelor’s degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone...
that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

</table>

1. Students must earn a C- or better in this course.
2. Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.
3. This must be taken with student teaching. Students must earn a C or better in this course.

**Learning Domains**

**Arts and Literature (AL) (p. 1300)**

- 2 Courses Required

**Historical Inquiry (HI) (p. 1304)**

- 2 Courses Required
  (Note: One must be US History.)

**Math and Computing (MC) (p. 1306)**

- 2 Courses Required
  (1 CR Course and 1 SR Course)

**Philosophical Inquiry (PI) (p. 1307)**

- 2 Courses Required:
  - LSE 380
  - 1 Additional Course
  (Note: PHL 100 recommended)

**Religious Dimensions (RD) (p. 1308)**

- 2 Courses Required

**Scientific Inquiry (SI) (p. 1310)**

- 2 Courses Required:
  - 1 BIO Course
  - 1 CHE/ENV/GEO/PHY Course
  (Note: One course above must be SI-LAB.)

**Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)**

- 2 Courses Required:
  - PSC 120 THE AMERICAN POLITICAL SYSTEM
  - 1 Additional Course

**Notes**

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.
Major Requirements

Course Requirements

Content Area Courses

Note: Language courses begin at the Advanced level for the major. A placement test in the language is required to determine skill level and appropriate level to begin the language. Beginning and Intermediate language courses are in addition to the content area requirements but can fulfill open elective requirements.

Advanced Language Core: 24 quarter hours required, grade of C or better required.

Oral Proficiency Interview (OPI) Test

Pursuing certification in the teaching of a world language (Chinese, French, German, Italian, Japanese, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of “intermediate high” or better on the test.

Open Electives: 8 quarter hours are required

Open elective credit also is required to meet the minimum graduation requirement of 192 hours. The following cannot be used to fulfill an open elective: WRD 98, MAT 94, and MAT 95. EE 281 recommended as open elective course. Electives must be approved by the WLE Program director.

Student Teaching: 12 quarter hours required, grade of B- or better required

Registration in student teaching requires completion of all requirements and procedures indicated in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. All students also take WLE 384 with student teaching (listed in the Liberal Studies section).

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.
World Language Education Chinese majors must complete the following tests:

- Chinese Content Area Test (test #126) – assesses knowledge of the Chinese language and culture. Test is required before Student Teaching (deadlines apply).
- OPI Test (see above).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

World Language Education French (BA)

The Bachelor of Arts program in World Language Education French prepares students to teach Kindergarten through 12th grade in a variety of urban and suburban education settings, including public and private elementary and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student’s choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 130-135 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

Licensure

Illinois Professional Educator License with endorsement in Foreign Language French (Kindergarten-grade 12), an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes

Students will be able to:

- Apply theoretical foundations of language education to develop sound instruction and teaching approaches for language learners.
- Integrate theory and research on second language acquisition into practice for language learners.
- Evaluate history and policies of language education and how historical and policy context affect the education of language learners.
- Analyze various assessment issues that affect language learners, such as accountability, reliability, validity, bias, special education.

College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students.
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
•Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
• Takes initiative
• Is open to new ideas and engagement in learning
• Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
• Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Demonstrates consistent professional behavior across all academic settings
• Maintains appropriate interpersonal and professional boundaries
• Accepts personal responsibility for one’s behavior
• Expresses feelings and opinions effectively and appropriately
• Upholds confidentiality

Skill Building Courses
Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement
Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:
• completing two years of a language sequence in high school
• completing the last course in the first-year college sequence of any language
• completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place.
when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements**
- Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
- Overall cumulative GPA of 2.50 or better
- Cumulative GPA of 2.75 or better in all education courses
- Meet all other program requirements (e.g., modern language and residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test(s)

**Clinical Requirements**
- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

**Student Teaching Timeline and Deadlines**
- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

**Degree Conferral and Graduation**

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

**Licensure**

Requirements for licensure include completion of full bachelor’s degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor’s degree. A bachelor's degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson
Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.
3 This must be taken with student teaching. Students must earn a C or better in this course.

Learning Domains

Arts and Literature (AL) (p. 1300)
- 2 Courses Required

Historical Inquiry (HI) (p. 1304)
- 2 Courses Required
  (Note: One must be US History)

Math and Computing (MC) (p. 1306)
- 2 Courses Required
  [1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1307)
- 2 Courses Required:
  - LSE 380
  - 1 Additional Course
    (Note: PHIL 100 recommended)

Religious Dimensions (RD) (p. 1308)
- 2 Courses Required

Scientific Inquiry (SI) (p. 1310)
- 2 Courses Required:
  - 1 BIO Course
  - 1 CHE/ENV/GEO/PHY Course
    (Note: One course above must be SI-LAB.)

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)
- 2 Courses Required:
  - PSC 120 THE AMERICAN POLITICAL SYSTEM
  - 1 Additional Course

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

Content Area Courses

Note: Language courses begin at the Advanced level for the major. A placement test in the language is required to determine skill level and appropriate level to begin the language. Beginning and Intermediate language courses are in addition to the content area requirements but can fulfill open elective requirements.
Advanced Language Core: 12 quarter hours required, grade of C or better required

SCU 339  PHILOSOPHY AND PSYCHOLOGY OF YOUTH AND MIDDLE LEVEL EDUCATION

Oral Proficiency Interview (OPI) Test

Pursuing certification in the teaching of a world language (Chinese, French, German, Italian, Japanese, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of "intermediate high" or better on the test.

Open Electives: 8 quarter hours are required

Open elective credit also is required to meet the minimum graduation requirement of 192 hours. The following cannot be used to fulfill an open elective: WRD 98, MAT 94, and MAT 95. EE 281 recommended as open elective course. Electives must be approved by the WLE Program director.

Student Teaching: 12 quarter hours required, grade of B- or better required

Registration in student teaching requires completion of all requirements and procedures indicated in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. All students also take WLE 384 with student teaching (listed in the Liberal Studies section).

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education French majors must complete the following tests:

- French Content Area Test (test #252) – assesses knowledge of the French language and culture. Test is required before Student Teaching (deadlines apply).
- OPI Test (see above).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

World Language Education German (BA)

The Bachelor of Arts program in World Language Education German prepares students to teach Kindergarten through 12th grade in a variety of urban and suburban education settings, including public and private elementary and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student
teaching. Students should meet early and regularly with their advisor to design and monitor their program of

The program combines theoretical principles of education and field work with the student’s choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 130-135 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

Learning Outcomes

Students will be able to:

• Apply theoretical foundations of language education to develop sound instruction and teaching approaches for language learners.
• Integrate theory and research on second language acquisition into practice for language learners.
• Evaluate history and policies of language education and how historical and policy context affect the education of language learners.
• Analyze various assessment issues that affect language learners, such as accountability, reliability, validity, bias, special education.

College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Special Education majors only:

• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
• Takes initiative
• Is open to new ideas and engagement in learning
• Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
• Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Demonstrates consistent professional behavior across all academic settings
• Maintains appropriate interpersonal and professional boundaries
• Accepts personal responsibility for one’s behavior
• Expresses feelings and opinions effectively and appropriately
• Upholds confidentiality

**Skill Building Courses**
Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

**Modern Language Competence Requirement**
Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

• completing two years of a language sequence in high school
• completing the last course in the first-year college sequence of any language
• completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

**Licensure Tests**
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

**Field Experiences**
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

**Endorsements**
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

**Student Teaching Requirements**
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

**Academic Requirements**
• Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
• Overall cumulative GPA of 2.50 or better
• Cumulative GPA of 2.75 or better in all education courses
• Meet all other program requirements (e.g., modern language and residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test(s)

**Clinical Requirements**
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Content areas tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure
Requirements for licensure include completion of full bachelor’s degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor’s degree. A bachelor’s degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Liberal Studies Requirements

1. Students must earn a C- or better in this course.
2. Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.
3. This must be taken with student teaching. Students must earn a C or better in this course.

---

### Learning Domains

#### Arts and Literature (AL) (p. 1300)

- 2 Courses Required

#### Historical Inquiry (HI) (p. 1304)

- 2 Courses Required
  (Note: One must be US History.)

#### Math and Computing (MC) (p. 1306)

- 2 Courses Required
  [1 CR Course and 1 SR Course]

#### Philosophical Inquiry (PI) (p. 1307)

- 2 Courses Required:
  - LSE 380 PHILOSOPHICAL ISSUES IN EDUCATION AND CULTURE
  - 1 Additional Course
  (Note: PHL 100 recommended)

#### Religious Dimensions (RD) (p. 1308)

- 2 Courses Required

---

### Scientific Inquiry (SI) (p. 1310)

- 2 Courses Required:
  - 1 BIO Course
  - 1 CHE/ENV/GEO/PHY Course
  (Note: One course above must be SI-LAB.)

### Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)

- 2 Courses Required:
  - PSC 120 THE AMERICAN POLITICAL SYSTEM
  - 1 Additional Course

### Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

### Major Requirements

#### Course Requirements

#### Content Area Courses

Note: Language courses begin at the Advanced level for the major. A placement test in the language is required to determine skill level and appropriate level to begin the language. Beginning and Intermediate language courses are in addition to the content area requirements but can fulfill open elective requirements.

### Advanced Language Core: 12 quarter hours required, grade of C or better required

<table>

- GER 200-300 level course 8
- GER 200-300 level course 9
### World Language Education Italian (BA)

The Bachelor of Arts program in World Language Education Italian prepares students to teach Kindergarten through 12th grade in a variety of urban and suburban education settings, including public and private elementary and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student’s choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 130-135 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

### Licensure

Illinois Professional Educator License with endorsement in Foreign Language Italian (kindergarten-grade 12), an Illinois State Board of Education (ISBE) approved program.

### Oral Proficiency Interview (OPI) Test

Pursuing certification in the teaching of a world language (Chinese, French, German, Italian, Japanese, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of “intermediate high” or better on the test.

### Open Electives: 8 quarter hours are required

Open elective credit also is required to meet the minimum graduation requirement of 192 hours. The following cannot be used to fulfill an open elective: WRD 98, MAT 94, and MAT 95. EE 281 recommended as open elective course. Electives must be approved by the WLE Program director.

### Student Teaching: 12 quarter hours required, grade of B- or better required

Registration in student teaching requires completion of all requirements and procedures indicated in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. All students also take WLE 384 with student teaching (listed in the Liberal Studies section).

### Program Requirements

### Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education German majors must complete the following tests:

- German Content Area Test (test #253) – assesses knowledge of the German language and culture. Test is required before Student Teaching (deadlines apply).
- OPI Test (see above).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.
Learning Outcomes

Students will be able to:

• Apply theoretical foundations of language education to develop sound instruction and teaching approaches for language learners.
• Integrate theory and research on second language acquisition into practice for language learners.
• Evaluate history and policies of language education and how historical and policy context affect the education of language learners.
• Analyze various assessment issues that affect language learners, such as accountability, reliability, validity, bias, special education.

College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

• Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
• Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
• Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
• Takes initiative
• Is open to new ideas and engagement in learning
• Reflects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
• Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Demonstrates consistent professional behavior across all academic settings
• Maintains appropriate interpersonal and professional boundaries
• Accepts personal responsibility for one’s behavior
• Expresses feelings and opinions effectively and appropriately
• Upholds confidentiality

Skill Building Courses

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:
• completing two years of a language sequence in high school
• completing the last course in the first-year college sequence of any language
• completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings.

All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements
• Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
• Overall cumulative GPA of 2.50 or better
• Cumulative GPA of 2.75 or better in all education courses
• Meet all other program requirements (e.g., modern language and residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test(s)

Clinical Requirements
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Content area tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts
degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

**Licensure**

Requirements for licensure include completion of full bachelor's degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor's degree. A bachelor's degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Learning Outcomes

Students will be able to:

- Apply theoretical foundations of language education to develop sound instruction and teaching approaches for language learners.
- Integrate theory and research on second language acquisition into practice for language learners.
- Evaluate history and policies of language education and how historical and policy context affect the education of language learners.
- Analyze various assessment issues that affect language learners, such as accountability, reliability, validity, bias, special education.

College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only.
Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices

Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions

Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)

Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats

Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge

Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching

Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well-being

Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively

Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner

Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning

Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students

Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development

Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)

Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy

Balances self-confidence and assertiveness with respect for others’ perspectives

Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions

Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth

Takes initiative

Is open to new ideas and engagement in learning

Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning

Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf

Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development

Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws

Demonstrates consistent professional behavior across all academic settings

Maintains appropriate interpersonal and professional boundaries

Accepts personal responsibility for one’s behavior

Expresses feelings and opinions effectively and appropriately

Upholds confidentiality

Skill Building Courses

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing two years of a language sequence in high school
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.
B.A. students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences
Each student seeking licensure from the College of Education/ Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements
An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements
Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements
• Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
• Overall cumulative GPA of 2.50 or better
• Cumulative GPA of 2.75 or better in all education courses
• Meet all other program requirements (e.g., modern language and residency requirements)
• Meet designated program standards
• Pass the required Illinois licensure content area test(s)

Clinical Requirements
• Completion of all required field experiences
• Three satisfactory evaluations in field experiences
• Three satisfactory faculty recommendations
• Attendance at mandatory meeting for student teaching
• Application for student teaching, resume, transcripts, and writing sample (check deadlines)
• Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines
• Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
• Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
• Academic requirements are due one quarter before expected quarter of student teaching.
• Content areas tests must be passed prior to Student Teaching (deadlines apply).
• Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation
The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).
Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure
Requirements for licensure include completion of full bachelor’s degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor’s degree. A bachelor’s degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

Teacher Licensure
Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment (“edTPA”), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University’s College of Education.

Liberal Studies Requirements
Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Multiculturalism in the US
LSP 200  SEMINAR ON RACE, POWER, AND RESISTANCE (FORMERLY MULTICULTURALISM IN THE U.S.)  4

Junior Year
Experiential Learning
Met by successful completion of required field experience hours.

Senior Year
Capstone
WLE 384  CAPSTONE IN WORLD LANGUAGE EDUCATION 1,3  4

1 Students must earn a C- or better in this course.
2 Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course.
3 This must be taken with student teaching. Students must earn a C or better in this course.

Learning Domains
Arts and Literature (AL) (p. 1300)
- 2 Courses Required

Historical Inquiry (HI) (p. 1304)
- 2 Courses Required
  (Note: One must be US History)

Math and Computing (MC) (p. 1306)
- 2 Courses Required
  [1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1307)
- 2 Courses Required:
  - LSE 380
  - 1 Additional Course
  (Note: PHL 100 recommended)

Religious Dimensions (RD) (p. 1308)
- 2 Courses Required
Autumn 2021-2022 1275

Scientific Inquiry (SI) (p. 1310)

• 2 Courses Required:
  • 1 BIO Course
  • 1 CHE/ENV/GEO/PHY Course
  (Note: One course above must be SI-LAB.)

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)

• 2 Courses Required:
  • PSC 120
  • 1 Additional Course

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

Content Area Courses

Note: Language courses begin at the Advanced level for the major. A placement test in the language is required to determine skill level and appropriate level to begin the language. Beginning and Intermediate language courses are in addition to the content area requirements but can fulfill open elective requirements.

Advanced Language Core: 24 quarter hours required, grade of C or better required

Oral Proficiency Interview (OPI) Test

Pursuing certification in the teaching of a world language (Chinese, French, German, Italian, Japanese, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of "intermediate high" or better on the test.

Open Electives: 8 quarter hours are required

Open elective credit also is required to meet the minimum graduation requirement of 192 hours. The following cannot be used to fulfill an open
elective: WRD 98, MAT 94, and MAT 95. EE 281 recommended as open elective course. Electives must be approved by the WLE Program director.

Student Teaching: 12 quarter hours required, grade of B- or better required
Registration in student teaching requires completion of all requirements and procedures indicated in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. All students also take WLE 384 with student teaching (listed in the Liberal Studies section).

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education Japanese majors must complete the following tests:

- Japanese Content Area Test (test #256) – assesses knowledge of the Japanese language and culture. Test is required before Student Teaching (deadlines apply).
- OPI Test (see above).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

World Language Education Spanish (BA)
The Bachelor of Arts program in World Language Education Spanish prepares students to teach Kindergarten through 12th grade in a variety of urban and suburban education settings, including public and private elementary and high schools.

Students learn educational theories and effective teaching practices, participate in field experiences, which require observation and participation in teaching activities at multiple schools, and student teaching. Students should meet early and regularly with their advisor to design and monitor their program of study.

The program combines theoretical principles of education and field work with the student’s choice of major. Students follow a general pattern of study for middle school and high school levels. In all cases, appropriate field experience plays an integral role.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 130-135 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend a half-day each week in a school. In addition, the student must spend a minimum of 11 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

Licensure
Illinois Professional Educator License with endorsement in Foreign Language Spanish (kindergarten-grade 12), an Illinois State Board of Education (ISBE) approved program.

Learning Outcomes
Students will be able to:

- Apply theoretical foundations of language education to develop sound instruction and teaching approaches for language learners.
- Integrate theory and research on second language acquisition into practice for language learners.
- Evaluate history and policies of language education and how historical and policy context affect the education of language learners.
- Analyze various assessment issues that affect language learners, such as accountability, reliability, validity, bias, special education.

College Core Requirements

Dispositions
The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
The following dispositions apply to Special Education majors only:

• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the perspectives and diplomacy etc.
• Upholds confidentiality

The following dispositions apply to Special Education majors only:

• Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
• Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
• Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
• Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
• Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
• Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the perspectives and diplomacy etc.
• Upholds confidentiality

Skill Building Courses
Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement
Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

• completing two years of a language sequence in high school
• completing the last course in the first-year college sequence of any language
• completing a college course beyond the first-year level in any language
• achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
• achieving a satisfactory rating in a proficiency examination accepted by DePaul
• achieving a score of 3 or higher on the Advance Placement (AP) test for any language
• achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
• achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCP/SC Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.
Field Experiences

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student’s program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements

- Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
- Overall cumulative GPA of 2.50 or better
- Cumulative GPA of 2.75 or better in all education courses
- Meet all other program requirements (e.g., modern language and residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test(s)

Clinical Requirements

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Content areas tests must be passed prior to Student Teaching (deadlines apply).

- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: http://education.depaul.edu/.

Licensure

Requirements for licensure include completion of full bachelor's degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor's degree. A bachelor's degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per
the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

**Teacher Licensure**

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

**Liberal Studies Requirements**

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

1. Students must earn a C- or better in this course.
2. Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.
3. This must be taken with student teaching. Students must earn a C or better in this course.

**Learning Domains**

**Arts and Literature (AL)** (p. 1300)
- 2 Courses Required

**Historical Inquiry (HI)** (p. 1304)
- 2 Courses Required
  (Note: One must be US History)

**Math and Computing (MC)** (p. 1306)
- 2 Courses Required
  (1 CR Course and 1 SR Course)

**Philosophical Inquiry (PI)** (p. 1307)
- 2 Courses Required:
  - LSE 380
  - 1 Additional Course
  (Note: PHL 100 recommended)

**Religious Dimensions (RD)** (p. 1308)
- 2 Courses Required

**Scientific Inquiry (SI)** (p. 1310)
- 2 Courses Required:
  - 1 BIO Course
  - 1 CHE/ENG/GE/PHY Course
  (Note: One course above must be SI-LAB)

**Social, Cultural, and Behavioral Inquiry (SCBI)** (p. 1312)
- 2 Courses Required
  - PSC 120
  - 1 Additional Course

**Notes**

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.
In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

### Major Requirements

#### Course Requirements

#### Content Area Courses

Note: Language courses begin at the Advanced level for the major. A placement test in the language is required to determine skill level and appropriate level to begin the language. Beginning and Intermediate language courses are in addition to the content area requirements but can fulfill open elective requirements.

**Advanced Language Core:** 16 quarter hours required, grade of C or better required

**Oral Proficiency Interview (OPI) Test**

Pursuing certification in the teaching of a world language (Chinese, French, German, Italian, Japanese, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of “intermediate high” or better on the test.

**Open Electives: 8 quarter hours are required**

Open elective credit also is required to meet the minimum graduation requirement of 192 hours. The following cannot be used to fulfill an open elective: WRD 98, MAT 94, and MAT 95. EE 281 recommended as open elective course. Electives must be approved by the WLE Program director.

**Student Teaching: 12 quarter hours required, grade of B- or better required**

Registration in student teaching requires completion of all requirements and procedures indicated in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. All students also take WLE 384 with student teaching (listed in the Liberal Studies section).

</tbody>
</table>

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education Spanish majors must complete the following tests:
• Spanish Content Area Test (test #260) – assesses knowledge of the Spanish language and culture. Test is required before Student Teaching (deadlines apply).
• OPI Test (see above).
• EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

**Writing and Publishing (MA)**

The Master of Arts in Writing and Publishing offers advanced training in the art and craft of writing poetry, fiction, and nonfiction. The program combines the practical experience of writing workshops and studies in literature with course work in language and style, pedagogy, editing, publishing, and other topics. The Master of Arts in Writing and Publishing attends to publishing as an integral part of the practice of the creative writer and affords interested students the opportunity to gain first-hand experience with various facets of the publishing industry.

The MA in Writing and Publishing seeks to meet the needs of a range of students, including the following:

- Students with interest and experience in creative writing, including fiction, poetry, and a variety of nonfiction genres.
- Professional writers, including freelance writers and staff writers for general and trade publications or the Internet.
- Feature writers for daily, weekly, or monthly newspapers.
- General and specialized editors employed by publishing houses, magazines, and corporations.
- Working professionals for whom high-quality writing is an essential component of their jobs.
- Current and prospective teachers of English and/or writing at the secondary or post-secondary level.
- Students seeking a master's-level foundation for further graduate work in creative writing, English, teaching, or related fields.

Electives in the MA in Writing and Publishing may be used for graduate certificate programs, such as the Certificate in Teaching English in Two-Year Colleges and the Certificate in Digital Humanities. With planning, combined MA + certificate programs may require no additional coursework to fulfill all requirements.

Students participating in a combined MA + certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Writing and Publishing + Digital Humanities Certificate
- Writing and Publishing + Teaching English in Two-Year Colleges Certificate
- Writing and Publishing + Women's and Gender Studies Certificate

**Learning Outcomes**

Students will be able to:

- Create original works of poetry, fiction, and nonfiction.
- Apply skills of narration, description, exposition, and research to their own and others’ writing.
- Explain the literary history of the various genres they practice.
- Evaluate and develop new ideas and experiment with form; for example: the prose poem, the short-story cycle, or the lyric essay.
- Apply what they have learned by marketing their work for publication and connecting with literary communities beyond the classroom.

**Degree Requirements**

**Course Requirements**

- **Writing Workshop: 20 hours**
  - All workshops, except for ENG 480, ENG 487, ENG 490, ENG 491, and ENG 497, are reserved for graduate students in the Department of English

Writing and Rhetoric (BA)

The Bachelor of Arts in Writing and Rhetoric focuses on the development and expression of ideas in writing—the very foundation of the liberal arts, and more broadly, contemporary democratic culture. Our lives are increasingly mediated by digital technologies that use writing to organize sound and image in interactive spaces like the World Wide Web. And through text messaging, email, and social networking, individual identity and interpersonal relationships are progressively bound up with writing. At the same time, we face growing demands for communicating across national, cultural, and linguistic borders, requiring us to rethink many assumptions we may have about written communication and expression.

Writing and Rhetoric majors explore theories of language, rhetoric (how to make effective choices as writers), and discourse (the way writing structures human activity) as they develop understanding of the role of the individual writer within communities of writers. They write in a great variety of contexts and genres in preparation for a full range of dynamic and rewarding careers grounded in written communication.

WRD faculty members are published specialists in the fields that make up writing studies—rhetoric, technical and professional writing, new media studies, and linguistics—allowing students to learn from leading scholars.

Learning Outcomes

Students will be able to:

- Describe concepts, theories, and historical periods related to writing, rhetoric, and literacies.
Modern Language Requirement (MLR) may be demonstrated by:

- proficiency attained from one year of college-level language study. This language (i.e., a language other than English) equivalent to the

All students will be required to demonstrate competence in a modern

advisor in the Office for Academic Advising Support.

of changing a major field, the student should consult an academic

Campus Connection. However, for the purpose of exploring the possibility

Students must declare or change majors, minors, and concentrations, via

appointment to see that advisor at his or her earliest convenience.

advisor in the major field department or program and should make an

The major field program generally is built upon a set of core courses

Because no academic major program is built in isolation, students are

required to pursue a number of electives which both broaden and
depth and understanding of their chosen discipline.

Students will be prompted to visit the College Office for their official

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to

beginning their junior year. The student will then be assigned a faculty

advisor at each stage in the total program and at least once

prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

The Modern Language Option (MLO)

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Notes

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the experiential learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Learning Domains

Arts and Literature (AL) (p. 1300)

• 3 Courses Required

Historical Inquiry (HI) (p. 1304)

• 2 Courses Required

Math and Computing (MC) (p. 1306)

• 2 Courses Required

[1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1307)

• 2 Courses Required

Religious Dimensions (RD) (p. 1308)

• 2 Courses Required

Scientific Inquiry (SI) (p. 1310)

• 2 Courses Required

[1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1312)

• 1 Course Required

Notes

Students must earn a C- or better in this course.

Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120.

The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course.

Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.
### Rhetoric

<td>INDEPENDENT STUDY</td>
<td></td>
</tr>
</tbody>
</table>

### Experiential Learning (EL) Requirement

All Writing and Rhetoric majors are required to take one EL-designated course within the major. WRD courses designated both EL and LSP EL will fulfill the major’s EL requirement and the Liberal Studies Experiential Learning requirement simultaneously. A LSP EL course taken outside of WRD will not count toward the EL major requirement.

### Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

### Writing and Rhetoric 3+3 (BA+JD)

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

### Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

### Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate
study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law's online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant's third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 677).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law’s median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Writing, Rhetoric, and Discourse (MA), Combined Bachelor’s + Master’s Degree

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Writing, Rhetoric and Discourse (MA)

Any DePaul student regardless of major may apply for the Combined DePaul Bachelor’s + MA WRD program. If admitted, undergraduate students will be allowed to take up to three courses in the MA WRD during their senior year as open electives in their undergraduate degree program. Final approval of the MA WRD courses as open electives will continue with the college hosting the specific bachelor’s degree program. Writing and Rhetoric majors who choose the BA + MA option may count their three graduate courses as major or open electives. In addition to the credit earned toward their bachelor’s degree, participants will be allowed to double-count the course credit toward the requirements of the MA WRD degree program. Current DePaul undergraduate students with junior status (at least 88.0 credits) and a cumulative DePaul grade point average (GPA) of 3.2 are eligible to apply to the Combined DePaul Bachelor’s + MA WRD.

Application Deadlines:

- To begin in Autumn Quarter, for Spring Graduation: April 15
- To begin in Winter Quarter, for Autumn Graduation: November 15
- To begin in Spring Quarter, for Winter Graduation: February 15

Writing and Rhetoric (BA) + Secondary Education English (MED)

The combined Bachelor’s + Master’s degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The TEACH Program combines a Liberal Arts and Social Sciences (LAS) undergraduate English major with a graduate level College of Education (COE) Master’s in Education Program. Students graduate with a BA in Writing and Rhetoric and a MED in Education with State of Illinois Secondary English Language Arts licensure. This combined degree program of the College of Liberal Arts and Social Sciences and the College of Education was collaboratively developed, and is governed and taught by faculty from these units.

Students may apply to the Program during the spring of their junior year. They must complete the Junior Year Experiential Learning course, TCH 320, and meet other application criteria prior to applying; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 GPA. During their senior year, students are required to complete a Program capstone course, TCH 390 and three 400-level courses that count toward both their undergraduate and graduate degrees:

Junior Year Coursework: 4 undergraduate quarter hours required

Select one (1) 300-level WRD elective course (with advisor’s approval)

This combined degree program of the College of Liberal Arts and Social Sciences and the College of Education was collaboratively developed, and is governed and taught by faculty from these units.

The Master’s year comprises teacher-preparation coursework that culminates with student teaching during Spring quarter. Upon graduation and the fulfilling of State of Illinois licensure requirements (which may require some additional course work in the student’s major and related fields), students are eligible to be licensed to teach English at the 5th-12th grade levels.

A full description of the TEACH Program can be found here. (p. 1126) English Majors interested in the TEACH Program should consult Dr. Carolyn Goffman, TEACH Program Advisor for English, at cgoffman@depaul.edu or 773-325-8688.

**Writing, Rhetoric and Discourse (MA)**

The Master of Arts in Writing, Rhetoric, and Discourse (WRD) combines a strong theoretical foundation in rhetoric and discourse with practical training in the areas of teaching writing and language, professional and technical writing, and digital content creation. The program's mix of theory and practice prepares students to write and to create digital content in professional, technical, or nonprofit settings; to teach writing and English in post-secondary institutions; and to continue academic study in related PhD programs.

The MA in WRD may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- WRD + Digital Humanities Certificate
- WRD + Teaching English to Speakers of Other Languages (TESOL) Certificate
- WRD + Teaching English in Two-Year Colleges Certificate
- WRD + Women's and Gender Studies Certificate
- WRD + Strategic Writing and Advancement for Nonprofit (SWAN) Certificate
Program Requirements | Quarter Hours
--- | ---
Degree Requirements | 48
Total hours required | 48

**Learning Outcomes**

Students will be able to:

- Describe key concepts, theories, and histories in the study of writing and rhetoric.
- Produce complex written arguments that demonstrate a clear, cohesive, and appropriate written style.
- Design persuasive multimodal texts.
- Assess the ethical, civic, or political dimensions of rhetoric, language, or writing technologies, including dynamics of culture and power.

**Learning Outcomes**

Students will be able to:

- Describe key concepts, theories, and histories in the study of writing and rhetoric.
- Produce complex written arguments that demonstrate a clear, cohesive, and appropriate written style.
- Design persuasive multimodal texts.
- Assess the ethical, civic, or political dimensions of rhetoric, language, or writing technologies, including dynamics of culture and power.

**Concentration Specific Outcomes**

**Professional & Technical Writing Concentration**

Students will be able to:

- Compose effective texts for specific workplace or professional audiences.

**Teaching Writing & Language Concentration**

Students will be able to:

- Apply current theories and principles of writing pedagogy to the production and analysis of pedagogical materials.

**Degree Requirements**

**Course Requirements**

Students complete 12 courses (48 credits) to graduate from the MA in WRD program. Program requirements vary based on whether or not the student declares a concentration.

**Required Course (4 credits)**

Course | Title | Quarter Hours
--- | --- | ---
WRD 500 | PROSEMINAR (To be taken within the first 4 courses of the program) | 4

**Rhetoric and Discourse Courses (12 credits)**

Course | Title | Quarter Hours
--- | --- | ---
Select three from the following: | | 12
WRD 503 | ANCIENT RHETORICS | 
WRD 505 | CONTEMPORARY RHETORICS | 
WRD 506 | MULTICULTURAL RHETORICS | 
WRD 507 | GLOBAL ENGLISHES | 

**Optional Concentrations (16 credits)**

**Professional & Digital Writing**

WRD 590 | INTERNET FACILITIES AND NETWORK DESIGN | 

**Teaching Writing & Language**

Course | Title | Quarter Hours
--- | --- | ---
Select four from the following: | | 16
WRD 540 | TEACHING WRITING | 
WRD 544 | TEACHING ESL WRITING | 
WRD 545 | TEACHING WRITING ONLINE | 
WRD 546 | PEDAGOGICAL GRAMMAR | 
WRD 547 | AP INSTITUTE IN ENGLISH LANGUAGE AND COMPOSITION | 
WRD 550 | TOPICS IN TEACHING WRITING AND LANGUAGE | 
WRD 551 | TEACHING APPRENTICESHIP PRACTICUM | 
WRD 582 | WRITING CENTER THEORY AND PEDAGOGY | 
WRD 591 | INTERNET FACILITIES AND NETWORK DESIGN |
Electives (8-32 credits)
- Students who declare a concentration take four elective courses (16 credits); students who do not declare a concentration take eight elective courses (32 credits).
- Students may declare a concentration by completing the LAS Graduate Concentration Declaration (https://las.depaul.edu/ConcentrationDeclaration/Login.aspx).
- All 500-level WRD courses count for elective credit.
- Students who have completed six MA in WRD courses may take up to two courses outside of the MA in WRD for elective credit; the WRD Graduate Committee must approve any course a student wishes to take outside of the department.

Portfolio Requirement
All students will keep a portfolio of significant work done for courses. This work will be curated and submitted as a portfolio at both the midpoint of the program and at its culminating point. For a full description of the portfolio requirement, please download the Portfolio Requirement Guide (https://las.depaul.edu/academics/writing-rhetoric-and-discourse/student-resources/graduate-resources/Pages/default.aspx). For additional resources, please visit the Portfolio (https://wrdblog.org/wrd-portfolio-requirement/) page on the WRD Blog (https://wrdblog.org/).

Mid-Program Portfolio
After completing the sixth course but before taking the ninth course, all students must submit a portfolio to their advisor and meet with this advisor to discuss both the portfolio and their future plans in the program. The Mid-Program Portfolio must be submitted, discussed with a student’s advisor, and approved before the student can register for their ninth course in the program.

Professional Portfolio
In the final quarter of coursework, all students must submit a Professional Portfolio and reflective essay. The portfolio will be evaluated by the WRD Graduate Committee as “Pass” or “Fail.” A Professional Portfolio that does not initially earn a score of “Pass” must be revised until it does so.

Student Handbook
Probation
To maintain good standing, students must
- Complete at least two courses in WRD within twelve months of their admission to the program; and-
- Maintain an overall grade-point average of at least 3.0 in their course work.

Students whose cumulative GPA falls below 3.0 will be placed on probation and given two quarters to raise their average to the minimum 3.0 level. Students on probation are required to consult with the program director before registering for classes. Failure to meet these requirements constitutes grounds for dismissal.

Dismissal
A student may be dismissed from the program in any of the following cases:
- failure to maintain a GPA above 3.0 for three consecutive quarters;
- failure to meet with the program director before registering for classes while on academic probation; or
- failure to complete at least two courses in WRD within twelve months of their admission to the program.

Readmission
If a student is dismissed from the program (as outlined in the dismissal policy), he or she may reapply through the formal application process

Transfer Credit
Students may transfer up to 12 credits (or three courses) of relevant coursework taken in another program.

Students may not transfer credits taken in pursuit of a completed degree or certificate. The exact number of credits and courses that transfer will be determined by the MA in WRD Director, based on a review of the syllabus/syllabi for which transfer credit is requested.

Transfer grades from other institutions do not calculate into the DePaul grade point average.

Undergraduate Courses
Students may take one four-credit undergraduate-level course for credit toward their graduate degree, students must request approval to take an undergraduate course from the WRD Graduate Committee prior to registering for the course.

Graduation Requirements
In order to graduate from the program, students must complete all program requirements with a total of 48 credit hours (12 courses) and a minimum GPA of 2.8.

Graduation with Distinction
To graduate with distinction, students must have a final GPA of 3.9 or higher.

Time Limit
Students must complete the program within six years of their start date. Students who fail to complete the program within this timeframe must reapply to the program.

Non-WRD Courses
Students may take up to two non-WRD courses at DePaul to count toward their degree (to search for courses, go to Class Search and choose the subject/department of your choice). Students must complete six courses in WRD before taking courses outside of the program. In exceptional cases (e.g., students completing certificate programs that require non-WRD courses), students may be granted permission to take courses outside of the program earlier in their degree study. All non-WRD courses must be approved by the WRD Graduate Committee prior to enrollment in the course.

Students who have transferred in two or more courses from another institution (see Transfer Credit policy) must take all of their remaining courses in the WRD program.

Non-Degree-Seeking Students
All WRD graduate courses are open to non-degree-seeking students, with the exception of the following:
### Course Title Quarter Hours

**Graduate Assistantships/Fellowships**  
One or two graduate assistantship (GA) positions and two Partial Tuition Fellowships (PTFs) are typically available for MA in WRD students on an annual basis. Details regarding upcoming GA and PTF opportunities are available on the Financial Assistance page of the WRD website.

**Partial Tuition Waivers**  
Partial Tuition Waivers (PTW) are awarded quarterly to eligible students. Eligibility is based on GPA and financial need. There is no limit to the number of times that an eligible student may apply for and receive a PTW award during their MA degree. Only WRD courses are eligible for PTW reimbursement awards.

To apply for a PTW award, students must complete the application form circulated by the MA in WRD Program Director at the end of week two of each quarter.

**Internships**  
Internships in professional or digital writing (WRD 590) or in teaching (WRD 591) can be completed for credit. Students interested in completing an internship should visit the professional internships page for more information on the internship process. In some cases, students may be eligible for a Community- and Project-Based Learning (CPBL) Internship Scholarship—a competitive award from the College of Liberal Arts and Social Sciences—to offset the cost of the internship course.

**Independent Studies**  
WRD 595 Independent Study is offered to allow students the opportunity to explore specific interests for which a formal WRD course is not offered. In general, WRD 595 courses will count as electives in a student’s degree program. WRD 595 can only fulfill area requirements (Rhetoric & Discourse or a concentration area) when these requirements cannot be filled through a formal course (e.g., because such a course is not offered).

A WRD graduate faculty member with expertise in the proposed topic typically serves as the instructor of record for WRD 595. The student should meet with the faculty member to discuss their ability to lead the independent study. The student and instructor should work together to develop course materials for the independent study, including learning outcomes, schedule, readings, and project descriptions. In addition to the course materials, the student should write a 250-word rationale explaining why they are requesting the independent study and how it fits within their course of study in the program and professional or academic goals. All materials should be emailed to the Director of the MA in WRD at least four weeks prior to the start of the quarter in which the independent study is to occur. The WRD Graduate Committee will review the materials for the independent study. The WRD Graduate Committee may return the materials with instructions for revisions; revised materials should be submitted to the MA WRD Director no less than two weeks prior to the start of the quarter.

If the independent study is approved, the student will be asked to make a 20-minute presentation about their scholarship to an audience of interested students and faculty near the end of the quarter in which the independent study is completed.

If a student wishes to complete a WRD 595 course with a non-WRD graduate faculty member, the student should consult with the Director of the MA in WRD.

After receiving approval from the Graduate Committee, the student must request registration online. Registration should be completed one week before the beginning of the quarter. After online approval by the course instructor and Director of the MA in WRD, the student will be enrolled in WRD 595.

UNDERGRADUATE CORE

Undergraduates at DePaul take their general education courses in the Liberal Studies Program or the Honors Program. The only exception is students in the School of Continuing and Professional Studies.¹

Liberal Studies

The Liberal Studies Program (LSP) is the general education program for students in the eight undergraduate colleges at DePaul. It is designed to develop students' writing abilities, computational and technological proficiencies, and critical and creative thinking skills along while also introducing students to subject matter across a variety of disciplines. The LSP aligns with values central to DePaul's unique Catholic, Vincentian, and urban mission.

The LSP is organized into two kinds of curricular experience: the Core and the Learning Domains.

The Core is intended to serve as a sequential set of common experiences – a kind of through-line of student development – ranging from first-year courses focused on the city and the campus (Discover/Explore Chicago) and fundamental skills of writing and quantitative reasoning, through focused anti-racism engagement and experiential learning to a Senior Capstone near the end of the degree.

The Learning Domains introduce students to a breadth of knowledge across seven categories. These include: Arts and Literature (AL), Historical Inquiry (HI), Math and Computing (MC), Philosophical Inquiry (PI), Religious Dimensions (RD), Scientific Inquiry (SI), and Social Cultural and Behavioral Inquiry (SCBI).

University Honors Program

The Honors curriculum replaces the Liberal Studies requirements for students in the Honors Program. Honors students complete the same number of general education courses as students in the Liberal Studies Program, but the course requirements are different. The Honors curriculum stresses seminar-based coursework, interdisciplinary learning, and advanced research opportunities for highly motivated students.

¹ School of Continuing and Professional Studies undergraduate students complete general education requirements through the Liberal Learning competence area. Additional information about how to meet these requirements can be found in the Degree Requirement section for SCPS undergraduate programs.

Liberal Studies Program

Overview

General Purpose

The Liberal Studies Program (LSP) is the general education curriculum taken by all students enrolled in the traditional undergraduate colleges at DePaul University. But it is more than that. As the core of the undergraduate curriculum, Liberal Studies is foundational for developing students' experience of the university's mission through their coursework. Liberal Studies is grounded in the University's Catholic and Vincentian values and enacts what our Mission Statement describes as a "commitment to high quality teaching and academic excellence, real-world experience, and an ethic of public service and systemic change."

Our approach to carrying out this commitment can best be summed up by DePaul's tag line: "Here We Do." Throughout the curriculum, students are called upon to join knowledge to action. At the same time, in dialogue with students' major field(s) of study, LSP courses model values of inclusivity, personalism, and professionalism that have shaped DePaul's distinctive culture for more than a century. Along the way, students work to enhance writing abilities, mathematical and technological proficiencies, and critical and creative thinking skills while broadening students' knowledge base beyond their chosen major. LSP courses foster an appreciation of different religious and philosophical worldviews, promote application of ethical reasoning, and realize new understanding of concepts and theories through multiple methods of inquiry and disciplinary perspective. In LSP seminars, students read primary texts, write research papers, and communicate their ideas orally. Essential intellectual skills are reinforced throughout the program with performance assignments, field observations, laboratory research, and more.

To reinforce its alignment with DePaul's mission and values, the Liberal Studies Program has adopted the University's six Learning Goals as its own:

1. Mastery of Content
2. Intellectual and Creative Skills
3. Personal and Social Responsibility
4. Intercultural and Global Understanding
5. Integration of Learning
6. Preparation for Career and Beyond

In its variety of intentional learning experiences, the Liberal Studies program is greater than the sum of its parts; it establishes a cumulative foundational experience that helps DePaul students shape purposeful lives and rewarding careers to benefit society in recognition of the dignity of all people.

Curriculum

The Liberal Studies Program (LSP) has two primary components. The first is termed the Common Core, and consists of a series of classes taken sequentially by students as they progress towards their degree. Core requirements begin for incoming students in their first autumn quarter when all take a Chicago Quarter (CQ) course. From over a hundred different topic offerings, each student selects a single class that is either Discover Chicago, which includes an intensive immersion week experience prior to the start of fall classes, or Explore Chicago, which meets during the regular fall term. Regardless of type, all CQ instructors use both traditional and experiential pedagogies to teach students not only relevant course content, but also information about the City's people, communities, institutions, and system of public transportation. All CQ classes also include a co-curricular component called the Common Hour, which is designed to facilitate students' transition to the college experience, and give them initial exposure to DePaul's distinctive mission.

Another Common Core requirement in the first year is First-year Writing. The WRD 103-WRD 104 sequence introduces students to different conventions of writing and instructs them how to analyze readings, to write for different audiences, and to take a rhetorical stance in their scholarly papers. (Students taking WRD 103 and/or WRD 104 at DePaul must receive grades of C- or better.) Upon successful completion of First-year Writing, students have the ability to express themselves creatively and can defend and document a clearly articulated thesis in a scholarly paper. The Focal Point Seminar (see College requirements) further emphasizes different forms of writing, oral communication skills,
and seminar behavior, such that they are able to intellectually discuss and debate beyond their own opinions. Lastly, first-year students take (depending on College/major requirements) a Quantitative Reasoning course designed to develop numerical reasoning.

Students continue to take Common Core courses based on their class standing. In the second year, the requirement is the Seminar on Race, Power, and Resistance (formerly Multiculturalism in the U.S.). This seminar draws students into key debates about race and encourages critical thinking and reflection in a diverse workplace and society. The LSP requirement for the junior year is an Experiential Learning course, which can take the form of doing laboratory or field research, studying abroad, engaging in community service, or completing an internship in a field of study. Students connect their experiences to in-class readings and writing assignments. The final Common Core course is the Senior Capstone, which enables students to synthesize the methods and knowledge learned in their major field of study courses into a final project, while reflecting upon the values and content of their liberal studies classes.

The second component of the LSP is made up of seven distinct Learning Domains:

1. Arts and Literature
2. Historical Inquiry
3. Math and Computing
4. Philosophical Inquiry
5. Religious Dimensions
6. Scientific Inquiry, and
7. Social, Cultural, and Behavioral Inquiry

These Domains reflect a conventional liberal arts and sciences curriculum, yet are not based in any one discipline. Within any single Domain, basic criteria, learning outcomes, and modes of inquiry are shared, but the courses themselves come from many different departments, programs, and Colleges across the University. By having such broadly defined Learning Domains, students receiving a liberal education at DePaul are assured a breadth of pedagogical experiences and a wide spectrum of participation on the part of students and faculty alike. These Domains reflect a conventional liberal arts and sciences curriculum, yet are not based in any one discipline. Within any single Domain, basic criteria, learning outcomes, and modes of inquiry are shared, but the courses themselves come from many different departments, programs, and Colleges across the University. By having such broadly defined Learning Domains, students receiving a liberal education at DePaul are assured a breadth of pedagogical experiences and a wide spectrum of participation on the part of students and faculty alike.

Faculty from virtually every department, interdisciplinary program, and college teach over 1,400 different courses from which students can choose to fulfill their Liberal Studies Program requirements. This wide spectrum of participation on the part of students and faculty alike contributes to a strong sense of intellectual community at DePaul University as well as a shared commitment to its mission and values.

Goal 1. Mastery of Content

This goal embraces the breadth and depth of ideas, theories, approaches, and information which DePaul students encounter through and beyond their studies.

Outcomes: DePaul students will demonstrate and be able to apply:

- general knowledge of cultures, religions, science, the arts, history, and computational reasoning.
- specialized knowledge and skills from within a specific discipline or field.

Goal 2. Intellectual and Creative Skills

In order to fully engage with knowledge, whether for a specific purpose or for its own sake, DePaul students are encouraged to develop the ability to think critically and imaginatively, formulate their own understanding, and effectively communicate their ideas. This goal articulates specific skills that comprise these broader abilities.

Outcomes: DePaul students will be able to:

- systematically access, analyze, and evaluate information and ideas from multiple sources in order to identify underlying assumptions and formulate conclusions.
- solve quantitative problems.
- create and support arguments using a variety of approaches.
- use existing knowledge to generate and synthesize ideas in original ways.
- communicate clearly in speech and writing.

Goal 3. Personal and Social Responsibility

This goal honors the notion that knowledge reflects and contributes to the values of individuals and communities. DePaul students, in particular, are challenged to consider their own values in light of the university’s mission.

Outcomes: DePaul students will be able to:

- articulate their own and others’ beliefs about what it means to be human and to create a just society.
- articulate what is entailed in becoming a self-directed ethical decision-maker and living a life of personal integrity.
- evaluate ethical issues from multiple perspectives and employ those considerations to chart coherent and justifiable courses of action.
- benefit their communities through socially responsible engagement and leadership.

Goal 4. Intercultural and Global Understanding

This goal speaks to the likelihood that, in our diverse and increasingly interdependent world, the future depends on individuals being able to learn from each other and make the best use of finite resources.

Outcomes: DePaul students will demonstrate:
• respect for and learning from the perspectives of others different from themselves.
• knowledge of global interconnectedness and interdependencies.
• knowledge to become a steward of global resources for a sustainable future.

**Goal 5. Integration of Learning**
Given the wide range of opportunities for learning at DePaul, it is important for students to develop the ability to consider relationships among individual experiences of learning so as to make meaning of their education in all its variety.

Outcomes: DePaul students will be able to:
• relate their learning – curricular and co-curricular – to multiple fields and realms of experience.
• make connections among ideas and experiences in order to synthesize and transfer learning to daily practice.
• design, develop, and execute a significant intellectual project.

**Goal 6. Preparation for Career and Beyond**
This final learning goal builds on all the rest and calls on students to be ready to apply their knowledge and skills to the changing world that awaits them.

Outcomes: DePaul students will be able to:
• set goals for future work that are the result of realistic self-appraisal and reflection.
• articulate their skills and knowledge and represent themselves to external audiences.
• work toward goals independently and in collaboration with others.
• employ technology to create, communicate, and synthesize ideas.
• set priorities and allocate resources.
• apply strategies for a practice of life-long learning.

**Additional Notes**
The revised learning goals and outcomes are derived from national research and best practices surrounding liberal education. Building on the four pre-existing LSP meta-goals reflectiveness, value consciousness and ethical reasoning, multicultural perspective, creative and critical thinking, and recognizing the challenges and opportunities of the contemporary world, these revisions amplify the four traditional outcomes of a liberal education while engaging DePaul University’s mission throughout the program.

**Liberal Studies Common Core**
The Liberal Studies Common Core consists of a series of classes taken sequentially by students as they progress towards their degree.
• First Year Program (p. 1293)
• Seminar on Race, Power, and Resistance (p. 1295)
• Experiential Learning (p. 1296)
• Senior Capstone (p. 1299)

**First Year Program**
The First Year Program in the Common Core is made up of the Chicago Quarter (Discover or Explore Chicago), the Focal Point Seminar, First Year Writing, and Quantitative Reasoning.

The First Year experience begins when incoming students in autumn take a Chicago Quarter (CQ) course. From over a hundred different topic offerings, students select either Discover Chicago, which includes an intensive immersion week experience prior to the start of fall classes, or Explore Chicago, which meets during the regular fall term. Regardless of type, CQ instructors use both traditional and experiential pedagogies to teach students not only relevant course content, but also information about the city’s people, communities, institutions, and system of public transportation. All CQ classes further include a co-curricular component called the Common Hour, which is designed to facilitate students’ transition to the college experience, and give them initial exposure to DePaul’s distinctive mission.

Students take additional Common Core courses during their first year. The WRD 103-WRD 104 sequence introduces different conventions of writing, and instructs students on how to analyze readings, write for different audiences, and take a rhetorical stance. Some students may be required to take preparatory writing classes before being eligible to enroll in WRD 103.

Offered during winter and spring quarters, each Focal Point Seminar employs a multi-disciplinary approach to investigate a significant person, place, event, text, or idea. As with the Chicago Quarter, students may choose from an array of more than 100 course offerings taught by faculty from throughout the university. Focal Point courses stress seminar behavior: active learning through critical questioning, speaking, listening and discussion driven by ideas gleaned from readings that include original works, primary sources and secondary literature. Writing and revision further sharpen the academic skills needed to succeed in and get the most out of college.

Lastly, first-year students take Quantitative Reasoning (LSP 120) designed to teach them how to critically evaluate real-world issues and problems by applying quantitative reasoning and analyzing quantitative information. Some students may be required to take preparatory math classes before being eligible to enroll in LSP 120, while other students may have this course met by AP scores, transfer credit, or proficiency tests. Not all majors require LSP 120.

Chicago Quarter

Offered during the autumn quarter, Chicago Quarter courses acquaint first-year students at DePaul with the metropolitan community, its neighborhoods, cultures, people, institutions, organizations and issues. It is through these classes that students make first contact with both the university’s urban identity and its Vincentian mission. Students also learn about university life, resources, and how to be a successful student. This learning is accomplished through a variety of means, but particularly through first-hand observation, participation, personal discovery, reflection, discussion, and guest lectures.

To fulfill the Chicago Quarter requirement, students select either Discover Chicago or Explore Chicago. Discover Chicago includes an intensive immersion week experience prior to the start of fall classes. Whereas Explore Chicago meets during the regular fall term and includes excursions throughout the quarter.

The Chicago Quarter requirement in the Liberal Studies Program comprises a choice between the following courses:

<table>
<thead>
<tr>

<tbody>
<tr>
<td>LSP 110</td>
<td>DISCOVER CHICAGO</td>
<td>4</td>
</tr>
<tr>
<td>LSP 111</td>
<td>EXPLORE CHICAGO</td>
<td>4</td>
</tr>
</tbody>
</table>

Learning Outcomes

Students will be able to:

- integrate, in writing, the academic content with student experiences engaging with Chicago;
- articulate the connection between course content and DePaul University’s mission; and
- use Chicago resources in their coursework.

Focal Point Seminar

Offered during winter and spring quarters, each Focal Point Seminar employs a multi-disciplinary approach to investigate a significant person, place, event, text, or idea. As with the Chicago Quarter, students may choose from an array of more than 100 course offerings taught by faculty from throughout the university.

A guiding principle is that understanding is deepened when the perspectives of various disciplines and methodologies are brought to bear upon the same issue. The faculty member who leads each seminar draws on his or her different experiences and intellectual perspectives, with the result that students learn how scholars strive to understand a singular topic in increasingly focused ways.

The second guiding principle is that students benefit from an early introduction to the seminar approach utilized frequently in higher education. Focal Point courses stress seminar behavior: active learning through critical questioning, speaking, listening and discussion driven by ideas gleaned from readings that include original works, primary sources and secondary literature. Writing and revision further sharpen the academic skills needed to succeed in and get the most out of college. To foster seminar behavior and encourage a mentoring relationship between faculty and students, enrollment in each class is limited to 20 students.

The Focal Point Seminar requirement in the Liberal Studies Program comprises many topics in the following course:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>LSP 112</td>
<td>FOCAL POINT SEMINAR</td>
<td>4</td>

Quantitative Reasoning

The purpose of the Quantitative Reasoning requirement in the Liberal Studies Program at DePaul is to help students to become confident, critical, and capable users of quantitative information of all kinds. Quantitative Reasoning provides a foundation in quantitative skills for students for their other Liberal Studies courses, for their disciplinary courses at DePaul, for their careers, and for their personal lives.

The program addresses the need for quantitative and numerical literacy in response to the enormous expansion in the use of quantitative methods and information in the social and physical sciences as well as civic and work life. The use and misuse of quantitative information in public policy and scientific issues are particularly emphasized; students are taught to recognize the limitations of the quantitative methods as well as the insights they provide. Students learn by working with data sets from many different disciplines, such as psychology, environmental science, economics, finance, sociology, and history. Students write critiques of quantitative arguments, gather data, and present arguments of their own. The course is taught by instructors from across disciplines.

Preferably in their first year, students take:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>LSP 120</td>
<td>QUANTITATIVE REASONING</td>
<td>4</td>
</tr>
</tbody>
</table>

Some students may be required to take preparatory math classes before being eligible to enroll in LSP 120. Readiness for LSP 120 is determined by a math placement test taken online after admission. Some students may meet the requirement by AP score, transfer credit, or proficiency exam. Certain majors do not require LSP 120. Students are advised to consult their advisor and the University Catalog for the particular Liberal Studies requirements for their major.
QR and MCD Waiver
Depending on a student’s program of study, they may need to take LSP 120 - Quantitative Reasoning. Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and also successfully complete required work in the Math and Computing Domain (both Computational Reasoning and Statistical Reasoning categories) may take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and it may not be applied to the Scientific Inquiry Domain.

Proficiency Exam
The Quantitative Reasoning Proficiency Exam may be taken at any time by any student. A student who passes the Proficiency Exam is exempt from the QR requirement. Passing the exam earns no credit hours; a student who passes the exam will have an additional open elective in his or her program.

Learning Outcomes
Students will be able to:
- Use proportional reasoning and percent change to analyze data in context.
- Make appropriate and effective graphs to communicate and visualize quantitative information.
- Critique graphs and charts in the media.
- Recognize disaggregation as a factor in interpreting data.
- Use and interpret linear and exponential models.
- Make algebraic calculations within a spreadsheet using cell addresses and formulas and use statistical, logical, and financial functions.
- Critically assess the sources, importance and factual accuracy of quantitative information.
- Make effective quantitative analyses in written form with supporting graphs and/or tables.

First Year Writing
The First-Year Writing Program, a unit within the department of Writing, Rhetoric, and Discourse, provides courses to nearly all university students. The goal of First-Year Writing is to help students learn to read and write critically within the context of the university and to prepare them for reading and writing in the world beyond.

The First-Year Writing requirements in the Liberal Studies Program comprises the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>WRD 103</td>
<td>COMPOSITION AND RHETORIC I</td>
<td>4</td>
</tr>
<tr>
<td>or WRD 103X</td>
<td>COMPOSITION AND RHETORIC I (FOR NON-NATIVE SPEAKERS)</td>
<td></td>
</tr>
<tr>
<td>WRD 104</td>
<td>COMPOSITION AND RHETORIC II</td>
<td>4</td>
</tr>
<tr>
<td>or WRD 104X</td>
<td>COMPOSITION &amp; RHETORIC II (FOR NON-NATIVE SPEAKERS)</td>
<td></td>
</tr>
</tbody>
</table>

Some students may be required to take preparatory writing classes before being eligible to enroll in WRD 103 COMPOSITION AND RHETORIC I, while other students may have one or both FYW courses met by AP scores or transfer credit.

Learning Outcomes
Students will be able to:
- Identify and use key rhetorical concepts, including purpose, audience, and context, through analyzing and composing a variety of texts.
- Integrate critical thinking, reading, and writing.
- Reflect on and develop their own writing processes.
- Appropriately apply knowledge of linguistic structures, genre, and citation.

Seminar on Race, Power and Resistance (Formerly Seminar on Multiculturalism in the United States)
Each LSP 200 provides students with an opportunity to learn about the construction and experience of race, racism, and anti-racism. The various LSP 200 topics investigate the intertwined historical roots and/or current legacies of racial inequalities related to differences such as class, ethnicity, gender, age, language, religion, ability, and sexual orientation. Students gain a critical perspective about the historical roots of inequality, along with an understanding of the lasting effects of oppression on marginalized groups in society today. Through such analysis, students will engage with and examine experiences and perspectives of historically racialized groups and develop critical perspectives on racism.

Learning Outcomes
Students will be able to:
- Demonstrate knowledge of the historically contingent nature of constructions of race, racism, and anti-racism. The course will compare at least two different dimensions of people's lived experiences by examining how class, ethnicity, gender, age, language, sexual orientation, religion, and/or ability have shaped racialized experiences and anti-racist resistance.
- Develop, through self-reflection and critical analysis, alternative perspectives on the historical roots of inequality and be able to explain the lasting effects of oppression on marginalized groups.
- Critically analyze multiple sources of information and interpret evidence from a variety of points of view in order to demonstrate knowledge about racism and tools that have been used to combat it. Sources may include relevant databases and other reference works, primary and secondary sources, community knowledge, etc.
- Demonstrate knowledge of racism and anti-racist movements or actions - through discussion, group work, active listening and speaking - and use that knowledge to address problems and issues related to racism and its intersection with other features of human experience.

Topics
Below please find examples of previously offered topics for the Seminar on Race, Power, and Resistance (formerly Multiculturalism in the United States). For information on current offerings, please consult...
Campus Connect or the Liberal Studies Program website (https://academics.depaul.edu/liberal-studies/courses-and-requirements/Pages/LSP-200-Course-Descriptions.aspx).

- American Religious Experience
- American Sense of Humor
- Approaches to Multiculturalism, Identities, and Social Justice
- Asian-American Experiences through Art
- Black Chicago: A History
- Black Lives Matter
- Border Cultures
- Civil Rights on Film
- Comparative Religious Worlds
- Culture-Quests in Literature and Film
- Diverse Values and Voices in Education
- Diversity in Dance
- Diversity in the Urban Landscape
- Environmental World Views
- Gender and Society
- Identity and Transformation: Philosophical Challenges
- Immigrant Experiences
- Jewish Culture in Theatre
- Latino/as in the United States: the Construction of Latino Communities
- Latinx Poets
- LGBTQ U.S. History/1969 - Present
- LGBTQ Writers of Color
- Middle East Communities
- Multicultural Music of the U.S.
- Multicultural Perspectives on the War on Terrorism
- Multiculturalism and Democracy
- Multiculturalism in Education
- Multiethnic Literature in the U.S.
- Museums and Multicultural Representation
- Native American Sovereignty
- Performing Identity/Performing Culture
- Perspectives on America
- Politics of the Image
- Pop Culture, Violence, and Media
- Race, Ability, and Class
- Race and Ethnicity
- Race and Ethnicity in Theatre
- Race and Gender Identity in Contemporary Visual Arts Practice
- Race and Gender Issues in Gun Culture
- Race, Class, and the American Dream
- Race, Ethnicity, and Housing
- Race in America: Black, White, and Beyond
- Religious Fundamentalism
- Rhetoric of Disability
- Rhetorics of U.S. Feminisms
- Sex and Power in U.S. Politics
- Social Justice in Literature and Film
- Three Cultures of Early America
- Understanding Race and Racism
- Undocumented Workers in America
- Urban Ethnicity
- Women and Jazz
- Women Writers of Color
- World Catholicism in the U.S.
- Writing Diversity: Here and Now
- Writing from the Margins

### Experiential Learning

The Experiential Learning requirement engages students in the first-hand discovery of knowledge through observation and participation in activities, most often in field-based settings outside the classroom. This inductive process of “learning by doing and reflecting” is supported by theory-based information. In these courses, students compare and analyze issues, problems, and ideas through the lenses of their own personal experiences and evolving intellectual worldview.

Experiential Learning may take place in a regularly scheduled course, an approved internship, a Study Abroad course, or in an independent study approved on a case-by-case basis (utilizing the proper Independent Study Approval Form). All such courses may be offered in the student’s major and may count for both major field and Liberal Studies requirements. When more than four credit hours are earned from such an experience – for example, an eight-hour internship – four hours may be counted toward Liberal Studies requirements and four hours toward major program requirements. Experiential Learning is typically taken in the junior year as major field or other foundational knowledge is essential to ensure a successful outcome.

### Forms of Experiential Learning

#### Study Abroad

Study Abroad programs emphasize social, political, historical and cultural understanding through a total immersion into the life and culture of a foreign country. Study trips abroad range in duration from two weeks to a full academic year.

1 Students who participate in non-DPU study abroad programs for transfer credit must petition their respective colleges for Experiential Learning credit.

#### Domestic Study

For students interested in diverse populations and locations outside Chicago yet within the United States, domestic study courses offer the opportunity to pursue such inquiry.

#### Community-Based Service Learning

Community-based Service Learning courses provide students with the opportunity to work with a community organization or agency and to reflect upon what they have learned through this service in class discussions. Opportunities are available through the Steans Center for Community-Based Service Learning.
Internships
Internship courses offer students the opportunity to gain real world experience in hiring, employment, communication, and the culture of businesses or organizations. Students who apply and receive internship opportunities through the University Internship Program register for UIP 250. In addition, some Colleges and departments offer 200-level and 300-level internships that satisfy the experiential learning requirement.

Individual or Group Research Projects
These research projects involve extensive field or laboratory work. The projects are supervised, evaluated and graded by a faculty member.

Learning Outcomes
Students will be able to:

- Apply particular concepts from readings, lectures, etc. to an analysis of lived experiences in the settings provided by the course.
- Use the experiences provided by the course to construct and articulate the impact of their experience on their understanding of course content.
- Demonstrate an understanding of the ethics appropriate to his or her experiential placement.
- Synthesize and articulate how the ideas and experiences provided by the course might inform their personal, academic, and/or professional pursuits.

Courses
Below please find examples of courses previously offered for Experiential Learning. For information on current offerings, please consult Campus Connection.

Senior Capstone

The Senior Capstone experience allows students to explore substantive areas of scholarship and creative works within their major. Students are given the opportunity to create knowledge within the context of the ideas, perspectives, and research of others in the discipline. The Capstone further provides students the opportunity to integrate and compare knowledge gained from their major with that which was learned in the domain area and core courses of the Liberal Studies Program. In this culminating experience, students create, under the mentorship of a faculty member, a final project of their own design.

Learning Outcomes

Students will be able to:

- Apply one or more theories or concepts from courses within their major to an analysis of a particular issue relevant to the major.
- Identify an idea, method, or concept from a discipline outside their major field of study and be able to apply it within the context of their major field of study.
- Examine how their previous coursework, including Liberal Studies courses, has contributed to their intellectual development and/or their post-graduation plans.

Courses

Below please find examples of courses previously offered for Capstone credit. For information on current offerings, please consult Campus Connect.
Arts and Literature

Courses in the Arts and Literature domain ask students to extend their knowledge and experience of the arts while developing their critical and reflective abilities. In these courses, students interpret and analyze particular creative works, investigate the relations of form and meaning, and through critical and/or creative activity, come to better understand the original audience that witnessed a work of art and how its meaning and significance changes over time. These courses focus on works of art or literature, however the process of analysis may include social, cultural, and historical issues. Genres covered in this domain include literature, the visual arts, media arts, the performing arts, music, and theater.

Learning Outcomes

Students will be able to:

- Explain, in well-written prose, what a work of art is about and how it was produced
  - Articulate and explain the "content" of that work and its methodology of production.
- Comment on the relationship between form and content in a work.
  - How does the 14-line sonnet both enable and inhibit its practitioner, for example?
  - What are the generic expectations of a particular form?
  - How does an artist complicate, enrich, or subvert such expectations?
- Assess the formal aspects of their subject and put those qualities into words, using, when appropriate, specialized vocabulary employed in class and readings.
  - Contextualize a work of art.
  - Do so with respect to other works of art in terms of defining its place within a broader style or genre.
  - Contextualize a work of art in terms of contemporaneous aesthetic, social, or political concerns, discussing how these might shape the work's reception and how that reception might differ amongst various peoples and historical periods.

Courses

Below please find examples of courses previously offered for arts and literature credit. For information on current offerings, please consult campus connection.

Courses in the Historical Inquiry domain study human life in past societies (primarily pre-1945) as a process of continuity and change over time. Many of the documents that mediate the past to us have considerable aesthetic or intellectual value in and of themselves. However, courses in this learning domain examine texts, art works, and other forms of evidence less for their aesthetic or intellectual value than for their usefulness as tools for reconstructing aspects of the past and building sensible, defensible, and well-informed historical interpretations about the past and about causation in the past. Students generally take two courses in the HI Domain Area.

Learning Outcomes

Students will be able to:

- Demonstrate a depth and breadth of historical knowledge of specified content by:
  - Explaining historical developments in terms of continuity and change.
  - Describing the relevant political, economic, social, and/or cultural contexts of historical events and developments.
  - Explaining how people have lived, acted, and thought in one or more particular historical periods.
- Demonstrate historical skills by:
  - Analyzing and evaluating primary and secondary sources.
  - Differentiating between historical facts and historical interpretations.
  - Articulating a historical argument.
  - Supporting an interpretation with evidence from primary and secondary sources.
- Demonstrate historical thinking by:
  - Articulating how geography and regional differences affect the past.
  - Interpreting the complexity and diversity among issues, events, and ideas of the past.
- Distinguishing among multiple perspectives that shape interpretations of the past.
- Using the categories of race, gender, class, ethnicity, region, and religion to analyze historical events and developments.

Courses

Below please find examples of courses previously offered for Historical Inquiry domain credit. For information on current offerings, please consult Campus Connection.

Math and Computing

The ability to understand and apply statistical and computational reasoning is essential in our society. It is a critical component of liberal arts education at DePaul University. Regardless of a student’s field of study or career after graduation, exposure to the methods and tools of statistical reasoning and computational reasoning is important for lifelong learning.

Math and Computing Domain courses are particularly relevant to achieving the goals stated in 3.1.B. of DePaul's 2024 strategic plan, to “ensure that all graduates demonstrate core competencies and transferable skills (e.g., cultural agility; technological, information, and data literacy; computational thinking; critical and systems thinking; effective communication; and ethical and moral reasoning).”

To adequately prepare our students in statistical and computational reasoning skills, the Math and Computing domain offers two categories of courses: Computational Reasoning (CR) and Statistical Reasoning (SR).

Learning Outcomes

Computational Reasoning

Students will be able to:

- Apply computational thinking skills to analyze and design solutions to problems or to express a creative concept.
- Develop, express, trace, and analyze algorithms.
- Apply fundamental concepts of programming in implementing algorithms.
- Create original artifacts using computational tools and techniques.

Statistical Reasoning

Students will be able to:

- Recognize and explain statistically based results from real data (either primary or secondary) and evaluate whether reported conclusions reasonably follow from the study and analysis conducted.
- Use statistical software to produce and interpret graphical displays and statistical summaries.
- Recognize and explain the roles of variability and randomness in interpreting data and drawing conclusions.
- Explain common ethical issues associated with sound statistical practice, including those associated with research design, and their impact on statistical decision-making.
- Measure the strength of association between variables and identify possible effects of confounding or interacting variables on the interpretation of the association.
- Apply basic ideas of statistical inference, including confidence intervals or hypothesis testing, in a variety of settings.

QR and MCD Waiver

Depending on a student’s program of study, they may need to take LSP 120 - Quantitative Reasoning. Readiness for LSP 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to LSP 120. The LSP 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete LSP 120 and also successfully complete required work in the Math and Computing Domain (both Computational Reasoning and Statistical Reasoning categories) may take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and it may not be applied to the Scientific Inquiry Domain.

Courses

Philosophical Inquiry

Courses in the Philosophical Inquiry domain address conceptual issues fundamental to reflection on such philosophical topics as:

- metaphysics (e.g., being and nonbeing, the one and the many, the nature of reality, same and other, self and other);
- epistemology (e.g., the nature and possibility of knowledge, different ways of knowing, knowledge vs. opinion, truth and falsity);
- ethics (e.g., right and wrong action, good and bad, objectivism and relativism in ethics, social and political philosophies, the idea of value, the problem of evil); and
- aesthetics (e.g., the nature of beauty, aesthetic value, the possibility of aesthetic valuation).

Courses address questions of how such topics impinge upon, shape, and challenge student lives.

Learning Outcomes

Students will be able to:

- Address, critically think about, and analyze philosophical questions and problems.
- Evaluate philosophical questions, issues and/or problems using informed judgment.
- Analyze and interpret the methods used by philosophers in addressing philosophical questions, issues, and/or problems.
- Engage with philosophical topics and figures in their historical context.
- Confront and interpret primary texts from the philosophical tradition.
- Write an analytic essay treating a philosophical question, issue and/or problem that forwards an identifiable thesis, argument, and conclusion.

Courses

Below please find examples of courses previously offered for philosophical inquiry credit. For information on current offerings, please consult campus connection.

Religious Dimensions

Courses in the Religious Dimensions domain offer students the opportunity to explore the explicitly religious dimensions of life and culture. These dimensions are found in the culturally embedded narratives, beliefs, and practices of particular religions, as well as in encounters with realities perceived to be ultimate or sacred. Through myth, symbol, ritual, and doctrine, these religions not only provide order and meaning, but also carry capacities to challenge and transform individuals and societies. Intellectual and social maturity requires understanding the unique contributions, both positive and negative, of the religious traditions of the world to culture and consciousness as well as coming to terms with ultimacy. This Learning Domain offers courses with a comparative, thematic, or ethical focus, as well as courses in specific traditions.

Learning Outcomes

Students will be able to:

- Explain beliefs and practices of one or more religious traditions in their specific social and cultural contexts.
  - In courses in which the focus is on one religious tradition, describe the diversity of strands within the tradition and explain with significant depth the modes of interpretation of the world the tradition offers both to adherents and to others.
  - Identify religious modes of thinking, acting, and feeling such as: myth and narrative, symbol, ritual, law, doctrine, ethics, religious experience.

- Analyze the impact of religion on personal as well as communal dimensions of human life, including for example the relationship between religion and power, social integration, social transformation, and social justice.

Courses

Below please find examples of courses previously offered for religious dimensions credit. For information on current offerings, please consult campus connection.

Scientific Inquiry

Courses in the Scientific Inquiry (SI) domain are designed to provide students with an opportunity to learn the methods of modern science and its impact in understanding the world around us. Courses are designed to help students develop a more complete perspective about science and the scientific process, including:

- an understanding of the major principles guiding modern scientific thought;
- a comprehension of the varying approaches and aspects of science;
- an appreciation of the connection among the sciences;
- an awareness of the roles and limitations of theories and models in interpreting, understanding, and predicting natural phenomena; and
- a realization of how these theories and models change or are supplanted as our knowledge increases.

Where required, Quantitative Reasoning (LSP 120) is a prerequisite for SI Domain courses. Generally, two SI courses are required; depending on their program of study students may be required to take a designated SI Science as a Way of Knowing (SWK) or SI Lab, or both. The QR and MCD waiver cannot be applied to the SI Domain.

Learning Outcomes

**Scientific Inquiry: Science as a Way of Knowing**

Students will be able to:

- Identify the types of questions that can and cannot be answered by science, and recognize the strengths and limitations of science in answering questions about the natural world.
- Critically evaluate the assumptions that underlie scientific investigations.
- Substantiate the claim that scientific knowledge is durable but can evolve with new evidence and perspectives.
- Connect evidence to the predictions made by theories and hypotheses, and then assess the extent to which the presented evidence supports or refutes a scientific claim.
- Evaluate the role of creativity, curiosity, skepticism, open-mindedness and diligence of individuals in scientific discovery and innovation.
- Recognize the uncertainty inherent in the scientific approach and evaluate scientists’ efforts to minimize and understand its effect through experimental design, data collection, data analysis and interpretation.
- Evaluate the role of communication, collaboration, diversity and peer review in promoting scientific progress and the quality of scientific evidence and ideas, and ensuring compliance with ethical standards.
- Determine the extent to which science both influences and is influenced by the societies.
- Apply scientific approaches to problem solving and decision-making in their own lives, and evaluate how scientific knowledge informs policies, regulations, and personal decisions.

**Scientific Inquiry: Lab**

Students will be able to:

- Pose meaningful scientific questions and generate testable scientific hypotheses.
- Plan, design and conduct scientific investigations in a collaborative environment using appropriate tools and techniques to gather relevant data in order to test and revise scientific hypotheses.
- Develop and use scientific models (conceptual, physical, and mathematical) to make predictions and develop explanations of natural phenomena.
- Address variability in the data and recognize and analyze alternative explanations and predictions.
- Communicate scientific procedures, results, and explanations and engage in arguments based on scientific evidence.

**Courses**

Below please find examples of courses previously offered for scientific inquiry credit. For information on current offerings, please consult Campus Connection.

Courses in the Social, Cultural and Behavioral Inquiry domain focus on the mutual impact of society and culture on individuals, and of individuals on society and culture. Particular attention is given to human relationships and behavior as they are influenced by social, economic and political institutions, spatial and geographical factors, and the events and social and cultural forces at play in the contemporary world. The domain emphasizes the pursuit of knowledge through the development of theory and empirical investigation of the contemporary world. Courses in the domain explore such particular issues as poverty and economic opportunity, the environment, nationalism, racism, individual alienation, gender differences, and the bases of conflict and consensus in complex, urban societies and in global relations.

Learning Outcomes

Students will be able to:

- Analyze and reflect upon arguments about the contemporary world using relevant theory, methods, and/or empirical evidence.
- Analyze interdependent relationships between contemporary society and individuals.

Courses

Liberal Studies Program Guidelines
This provides general Liberal Studies Program (LSP) guidelines; for the Liberal Studies requirements associated with a specific program, see the catalog description for that respective program. Students in the DePaul University Honors Program should consult with a program advisor about their requirements.

All DePaul Students Who Participate in the Liberal Studies Program
There are a number of general Liberal Studies Program guidelines that pertain to all DePaul undergraduate students (except for students in the School of Continuing and Professional Studies (formerly SNL)).

1. Students may not use the same course to fulfill a requirement in both their primary major and Liberal Studies. There are two exceptions to this rule:
   a. Designated courses in the major may also be used to fulfill the Experiential Learning requirement. Students who pursue this option will then complete an additional learning domain elective or, if applicable, the third course of the Modern Language Option.
   b. Transfer students who complete the General Education Core Curriculum of the Illinois Articulation Initiative may apply a particular course to fulfilling a requirement in the major (see the GECC/IAI section of this policy.)

2. Students completing a second major or minor may use the same courses to fulfill requirements in those areas and in the Experiential Learning, Senior Capstone, and Learning Domains of Liberal Studies.

3. Students may request to substitute a different course for one of the Liberal Studies requirements. All substitutions must meet the learning outcomes and writing expectations for the particular LSP requirement. Students seeking to request a substitution should contact their home college office for more information on procedures.

Transfer Students
1. Transfer students must meet all Liberal Studies Program requirements:
   a. First Year Program,
   b. the Seminar on Race, Power, and Resistance (formerly Multiculturalism in the United States) (unless the student has completed the IAI/GECC),
   c. the Experiential Learning Requirement,
   d. the Senior Capstone, and
e. the domain courses, as specified by the student’s primary major.

2. Transfer courses are applied to the most appropriate learning domain, based on articulations vetted through the Transfer Articulation Center according to the posted learning outcomes and writing expectations for each requirement.

3. Students who enter DePaul with 30 or more quarter hours may not enroll in Discover Chicago/Explore Chicago or Focal Point courses. Instead, they will complete two domain electives outside their area of specialization, using either transfer credit or DePaul credit.

4. Students may complete the LSP writing requirement with either transfer credit or coursework completed at DePaul. Placement in DePaul writing courses is determined by a placement process.
   a. Transfer students who enter DePaul with earned credit for WRD 104 and not WRD 103 may satisfy the second writing course requirement by taking any one of the following expository writing courses:
Permission to substitute an open elective for the second writing course may be granted based on a review of documentation showing superior achievement and/or professional experience in advanced, expository writing. For more information, please contact the First-Year Writing Program Office.

5. Applying transfer credit to the Experiential Learning requirement:
   a. Internships: DePaul generally does not award Experiential Learning credit for internships or cooperative learning courses taken at another college or university. Students seeking to request a substitution should contact their home college office for more information on procedures. The student must make the case that the course meets the Experiential Learning guidelines.
   b. Study Abroad: Students who transfer in credit from a full-year or term-long study abroad program through an accredited institution, consisting of no less than ten weeks abroad and no less than 12 credits abroad, and having received grades of no less than a "C" in these courses, may use one of these courses to fulfill the Experiential Learning Requirement.

6. The Liberal Studies Senior Capstone requirement may not be substituted or waived. Students who have more than one major should consult with their academic advisor as to their specific Capstone requirement(s).

7. Accumulation of additional credit that fulfills Liberal Studies requirements: In some circumstances, students may earn transfer credit that exceeds Liberal Studies requirements. For example, coursework from institutions organized by semesters earn 1.5 quarter hour credits for each semester hour. Hence each 3-credit course transferred from a semester institution earns 1.5 credits. Each 4.5 credits at DePaul. As a result, students may have credits that exceed the required number in a particular component of the program. These excess general education credits may be added up and, when the sum reaches 4 quarter hours (and multiples thereof), applied to other Liberal Studies requirements as follows:
   a. Students who have earned more than 30 credits may use the excess credit to fulfill the domain electives that replace Discover/Explore Chicago and the Focal Point Seminar. This substitution will be applied before any other.
   b. Students must complete at least one course in each domain, whether through transfer/test credit or DePaul credit. Once that requirement has been met, students may apply the excess credit to any of the following domains: Arts & Literature; Historical Inquiry; Philosophical Inquiry; Religious Dimensions; or Social, Cultural, and Behavioral Inquiry. College-specific rules may apply; see your academic advisor.
   c. Students may combine excess credit with the Modern Language Option within a single domain as long as they complete at least one course (transfer or DePaul) per domain.

8. Students who have test credit must have official score reports sent directly to the Transfer Articulation Center (TrAC).

### Transfer Students Who Complete the GECC of the IAI

**Transfer Credit, General Education Core Curriculum (GECC) of the Illinois Articulation Initiative (IAI)**

DePaul University participates in the General Education Core Curriculum (GECC) of the Illinois Articulation Initiative (IAI) only. DePaul does not participate in Phase Two, the Major Phase.

Completion of the GECC/IAI at any participating college or university in Illinois ensures transferring students that most of the general education requirements at DePaul have been satisfied. Hence the GECC / IAI will be accepted as a package. Students who have completed the GECC/IAI should consult with their academic advisor in their college prior to registering for classes. Students who are in DePaul University’s Honors Program should consult with the program director as to their program requirements. Students who are in DePaul University’s School of Continuing and Professional Studies (SCPS) should consult with their academic advisors as to their program requirements. The additional requirements outlined in this policy apply only to those students in degree programs that participate in DePaul University’s Liberal Studies Program.

Students who have completed the GECC/IAI must also meet the following mission-specific requirements in DePaul’s Liberal Studies Program:

- Two Religious Dimensions courses (RD)
- Two Philosophical Inquiry courses (PI)
- Experiential Learning
- Senior Capstone

### Guidelines

1. In an effort to enable students to make the most complete use of their transfer credit, some portion of the two RD and PI courses may be waived under certain circumstances, as long as all students complete at least one PI and at least one RD either through transfer credit or DePaul courses. The following guidelines will direct students and their academic advisors in applying GECC credit and meeting the additional mission-specific requirements:
   a. Students who have accumulated sufficient excess liberal studies credits, may apply the credit toward the waiver of up to one PI and up to one RD requirement; see the Liberal Studies Guidelines section (#7 under Transfer Students).
   b. Students who have used the equivalent of PI and/or RD courses to fulfill GECC/IAI requirements may substitute learning domain...
Students who have completed and transferred in the equivalent of a PI or RD course external to the GECC/IAI requirements may use that course to fulfill the appropriate mission-specific requirement.

d. Students may choose to complete LSP 200 in place of either a PI or RD requirement.

The following table summarizes these policies put into practice:

<table>
<thead>
<tr>
<th>Mission Specific Courses—4 Courses Required (2 PI and 2 RD)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Course</strong></td>
</tr>
<tr>
<td>Course 1</td>
</tr>
<tr>
<td>Course 2</td>
</tr>
<tr>
<td>Course 3</td>
</tr>
<tr>
<td>Course 4</td>
</tr>
</tbody>
</table>

2. If a course included in the GECC package also fulfills a specific course requirement in the student’s primary major, that single course may be used to fulfill both requirements. Elective credit will be adjusted accordingly to ensure that a student earns 192 credits for degree completion.

3. Students transferring from an IAI participating institution with two or fewer IAI requirements remaining may elect to complete the GECC/IAI package with DePaul courses or additional transfer credit that meet the subject area and mission-specific requirements.

4. Students pursuing the GECC/IAI option must earn a grade of "C" or higher in both WRD 103, and WRD 104. Students must earn a grade of "C+" or higher in the courses that will apply to the primary major, secondary major, or minor. Students who have test credit must have official score reports sent directly to the Transfer Articulation Center for review.

Honors Program Transfers

Honors Program courses taken by students who transfer from DePaul’s Honors Program to the Liberal Studies program will apply to the Liberal Studies Program as follows:

- HON 100 will apply as WRD 104
- HON 101 as an Arts and Literature domain course
- HON 102 as a Historical Inquiry domain course
- HON 104 as a Religious Dimensions domain course
- HON 105 as a Philosophical Inquiry domain course
- HON 110/HON 111 as LSP 110/LSP 111
- HON 180 as a Math and Computing domain course
- HON 201 as a Social, Cultural and Behavioral Inquiry domain course
- HON 205 as an Arts and Literature domain course
- HON 207 as a Scientific Inquiry: Science as a Way of Knowing domain course
- HON 225 as a Scientific Inquiry: Lab domain course
- HON 301 as LSP 200
- HON 351 as the Experiential Learning requirement

Honors Substitutions for LSP Writing Requirements

In addition students who move from the Honors Program to the Liberal Studies program will satisfy their LSP writing requirement as follows:

- If HON 100 is not complete, then WRD 103 and WRD 104 are required (WRD 103 may be satisfied by AP credit).
- If HON 100 is complete, it will substitute for WRD 104.
- For students who do not have AP (or other) credit for WRD 103:
  - If HON 101, HON 102, HON 104, or HON 105 is complete, then one domain elective will be required to replace WRD 103.
  - If HON 101, HON 102, HON 104, or HON 105 are not complete, then the WRD 103 requirement may be satisfied by one of the following options: WRD 203, WRD 206, WRD 240, or WRD 300.

Modern Language Option

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.*
The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

The MLO substitution cannot be applied to the Math and Computing Domain and the Scientific Inquiry Domain.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

*MLO-eligible courses are taught in the target language (i.e. the language of instruction is French, Spanish, Japanese, etc.). Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option

Transfer Students

This provides general Liberal Studies Program (LSP) guidelines; for the Liberal Studies requirements associated with a specific program, see the catalog description for that respective program. Students in the DePaul University Honors Program should consult with a program advisor about their requirements.

All DePaul Students Who Participate in the Liberal Studies Program

There are a number of general Liberal Studies Program guidelines that pertain to all DePaul undergraduate students (except for students in the School of Continuing and Professional Studies).

1. Students may not use the same course to fulfill a requirement in both their primary major and Liberal Studies. There are two exceptions to this rule:
   a. Designated courses in the major may also be used to fulfill the Experiential Learning requirement. Students who pursue this option will then complete an additional learning domain elective or, if applicable, the third course of the Modern Language Option.
   b. Transfer students who complete the General Education Core Curriculum of the Illinois Articulation Initiative may apply a particular course to fulfilling a requirement in the major (see the GECC/IAI section of this policy.)

2. Students completing a second major or minor may use the same courses to fulfill requirements in those areas and in the Experiential Learning, Senior Capstone, and Learning Domains of Liberal Studies.

3. Students may request to substitute a different course for one of the Liberal Studies requirements. All substitutions must meet the learning outcomes and writing expectations for the particular LSP requirement. Students seeking to request a substitution should contact their home college office for more information on procedures.

Transfer Students Who Complete the GECC of the IAI

Transfer Credit, General Education Core Curriculum (GECC) of the Illinois Articulation Initiative (IAI)

DePaul University participates in the General Education Core Curriculum (GECC) of the Illinois Articulation Initiative (IAI) only. DePaul does not participate in Phase Two, the Major Phase.

Completion of the GECC/IAI at any participating college or university in Illinois ensures transferring students that most of the general education requirements at DePaul have been satisfied. Hence the GECC /IAI will be accepted as a package. Students who have completed the GECC/IAI should consult with their academic advisor in their college prior to registering for classes. Students who are in DePaul University’s Honors Program should consult with the program director as to their program requirements. Students who are in DePaul University’s School of Continuing and Professional Studies (formerly SNL) should consult with their academic advisors as to their program requirements. The additional requirements outlined in this policy apply only to those students in degree programs that participate in DePaul University’s Liberal Studies Program.

Students who have completed the GECC/IAI must also meet the following mission-specific requirements in DePaul’s Liberal Studies Program:

- Two Religious Dimensions courses (RD)
- Two Philosophical Inquiry courses (PI)
- Experiential Learning
- Senior Capstone

Guidelines

1. In an effort to enable students to make the most complete use of their transfer credit, some portion of the two RD and PI courses may be waived under certain circumstances, as long as all students complete at least one PI and at least one RD either through transfer credit or DePaul courses. The following guidelines will direct students and their academic advisors in applying GECC credit and meeting the additional mission-specific requirements:
   a. Students who have accumulated sufficient excess liberal studies credits, may apply the credit toward the waiver of up to one PI and up to one RD requirement; see the Liberal Studies Guidelines section (#7 under Transfer Students).
   b. Students who have used the equivalent of PI and/or RD courses to fulfill GECC/IAI requirements may substitute learning domain course credit (DePaul or Transfer) for a corresponding number of PI/RD mission-specific requirements.
   c. Students who have completed and transferred in the equivalent of a PI or RD course external to the GECC/IAI requirements may use that course to fulfill the appropriate mission-specific requirement.
   d. Students may choose to complete LSP 200 in place of either a PI or RD requirement.

The following table summarizes these policies put into practice:

**Mission Specific Courses—4 Courses Required (2 PI and 2 RD)**
### Honors Program

#### Overview

The Honors Program offers an alternative to the Liberal Studies Program for well-prepared, highly motivated students who apply and are accepted to the program. Like the Liberal Studies Program, the Honors Program seeks to widen students' perspectives beyond their academic majors and encourage critical thinking, self-reflection, and an examination of values. In addition, the Honors Program fosters active, participatory learning; promotes interdisciplinary and cross-cultural studies; requires students to develop facility in a second language and to pursue independent research; helps students see themselves as members of larger communities in which they can be leaders; and assists interested students to prepare for post-graduate education. In order to meet these goals, the program: offers small classes designed for Honors students, organized in a seminar format and taught by faculty committed to the program's goals; emphasizes cross-cultural and interdisciplinary perspectives in all core courses; advances students' skills in writing, research, reading and analysis; requires intensive language training; encourages self-directed learning through a third-year research course and the fourth-year seminar or thesis; offers lecture and film series, field trips, and opportunities for public service; and provides information and advising to assist with academic planning. Some students are invited to apply to the Honors Program upon their admission to DePaul. Invitations to apply are issued on the basis of a student's academic and co-curricular profile. Students are also welcome to initiate their own Honors application. In some cases, continuing DePaul students and transfer students may be considered for the Honors Program through the first quarter of their sophomore year. Students who successfully complete the Honors curriculum will have the designation "Honors Program Graduate" on their official transcript.

#### Learning Outcomes

Students will be able to:

- Demonstrate breadth and depth of knowledge of the arts, humanities, mathematics, natural and social sciences.
- Comprehensively access, systematically analyze, and critically evaluate data and ideas.
- Construct, support, and effectively communicate complex ideas and arguments in speech, writing, and other media.
- Analyze and evaluate texts, creative works, and other primary sources.
- Evaluate ethical issues from multiple perspectives and identify opportunities and strategies for social transformation.
- Demonstrate respect for human diversity and a critical awareness of their own assumptions, stereotypes, and biases when confronting difference.
- Demonstrate understanding of global interconnectedness and interdependencies.
- Reflect on connections between individual experiences and the Honors curriculum.
- Design, research, and execute a significant interdisciplinary project.

#### Honors Program Requirements

Like the Liberal Studies Program, the Honors Program consists of between ten and twenty courses representing 40 to 80 quarter hours,
the exact requirements determined according to the student’s home college and/or major. Honors requirements include core courses, a science requirement, a math requirement, an art requirement, a language sequence, a multiculturalism seminar, a junior seminar, and a senior thesis or senior seminar. Some AP and IB credit will apply toward Honors core courses. Credit can also be applied toward the math, science, or language requirements. Depending on the college and major, some Honors requirements may be waived. Specific requirements can be found within the student's college in the Colleges and Schools section.

**Honors Core**

</tr>
</tbody>
</table>

¹ Advanced placement credit will fulfill Honors Core requirements as listed:
- AP Literature credit for ENG 101 (previously ENG 120) will fulfill HON 101
- AP credit for HST 111 or HST 171 fulfills HON 102

² HON 201 is not required for students in the Theatre School or the College of Education.
³ HON 205 is not required for students in School of Music, The Theatre School, or the BFA Animation major in CDM.

**Honors Senior Capstone**

<table>
<thead>
<tr>

<td>HONORS SENIOR SEMINAR IN SERVICE LEARNING</td>
<td></td>
</tr>
<tr>
<td>HON 395</td>
<td>HONORS SENIOR THESIS</td>
<td></td>
</tr>
</tbody>
</table>

**Honors Senior Thesis Option**

Students who choose to complete an Honors Senior Thesis must have their project approved at least one term prior to executing the project. To gain approval for a senior thesis, students must complete an online application, including a project proposal, signed by two faculty advisors. In keeping with the interdisciplinary nature of the program, the thesis should attempt to move outside the boundaries normally associated with one particular discipline and should be supervised by two faculty members from different academic fields. While the final product must be a substantial piece of work building on the student’s accumulated knowledge and new research, specific requirements for each thesis will depend on the nature of the project. See the Honors director or associate director for further information. Students may opt to enroll in HON 300 (a two-credit elective) to receive dedicated guidance as they prepare the thesis project.

**Science Requirement**

- Honors students who do not have a lab science requirement for the major will fulfill the science requirement with HON 225 (Honors Lab Science Topics) OR a course selected from the university’s Scientific Inquiry Lab courses.
- Honors students in Liberal Arts and Social Sciences, College of Communication, and BA students in the School of Music will complete one additional science course chosen from the university’s offerings of Scientific Inquiry courses.
- Honors students in the College of Education will select a biology course for their additional science course.
- Students in the School of Music (non BA) and the Theatre School will fulfill the science requirement with one course selected from the university’s offerings of Scientific Inquiry courses.

**Math Requirement**

- Honors students who do not have a Calculus, Statistics or Discrete Math requirement for the major are required to take HON 180. HON 180, or the first course of the required math sequence for the major, is a prerequisite for HON 225.

**Language Requirement**

- Three courses of intermediate or advanced language study are required for all Honors students who are not in a conservatory or BFA program.
- Students who meet the proficiency requirement by placing at the 200-level of a language may fulfill the language requirement with either one year of advanced study of their proficient language or one year of a language the student has not previously studied.
- Language majors may fulfill the language requirement with one year of language study outside of their major or three additional Honors Approved Electives.
- Honors students in the College of Education have a one year (three course) language requirement. This requirement can be fulfilled through either completion of one year of study of the student’s high school language or one year of a new language the student has not yet studied. Students opting to continue their high school language are required to complete a placement test and must begin language study according to their placement.

**Fine Arts Elective**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Select one applied, performance, or studio arts course outside of the major from approved list:</td>
<td></td>

<td>4</td>
</tr>
<tr>
<td>ANI 105</td>
<td>MOTION GRAPHICS FOUNDATIONS</td>
<td></td>
</tr>
<tr>
<td>ART 104</td>
<td>CREATING ART</td>
<td></td>
</tr>
<tr>
<td>ART 105</td>
<td>TWO-DIMENSIONAL FOUNDATIONS</td>
<td></td>
</tr>
<tr>
<td>ART 106</td>
<td>BEGINNING DRAWING</td>
<td></td>
</tr>
</tbody>
</table>

Honors Approved Electives

Approved Electives are chosen in consultation with an Honors advisor to achieve specific academic or professional goals. Courses completed for Study Abroad, 200-300 level courses taken for a minor or second major, or 200-300 level courses taken to pursue a specific area of interest outside of the major can count as Honors Approved Electives. The number of Honors Approved Electives depends on the college and major. Students in the College of Education, the School of Music (except BA students), and the Theatre School do not have Honors Approved Electives.

Honors Advising

All Honors students will work with an Honors advisor for academic planning and to schedule Honors courses in conjunction with their major requirements. As a general rule, Honors students take one or two Honors courses each quarter during their first and second years of study and one or two Honors courses a year in the junior and senior years.

Transfer Honors

Transfer Honors offers students the full benefits of the Honors Program (https://academics.depaul.edu/honors/Pages/default.aspx) with the opportunity to fulfill requirements using courses taken at previous institutions. For students admitted to Transfer Honors, the Honors curriculum replaces Liberal Studies requirements. Evaluation of transfer credit toward Honors requirements is done on an individual basis, and specific Honors requirements vary according to a student's college and major. Students who transfer to DePaul with fewer than 16 quarter hours of college credit, excluding AP and IB test credit, will have the same Honors requirements as students who begin the program as freshmen.

Please note that Transfer Honors is a residential program with most classes offered during the day on the Lincoln Park Campus. Students in the School of Music, the Theatre School, and the School of Continuing and Professional Studies are not eligible for Transfer Honors.
Transfer Honors Requirements

Students who enter Transfer Honors will consult with an Honors Program advisor to determine how transfer credit can apply to the following Honors requirements:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>

College of Business

Located in the heart of Chicago's financial and business center, DePaul's Driehaus College of Business (http://business.depaul.edu/) offers highly respected, practical and innovative programs of business study that empower graduates to achieve more. The college encompasses an undergraduate business program and the Kellstadt Graduate School of Business (https://business.depaul.edu/academics/graduate/Pages/default.aspx), which offers the DePaul MBA, specialized master's degrees and a Doctorate in Business Administration. The college's faculty of scholars and experienced business professionals provide a real-world business education, and the college leverages its connections to Chicago's business community to provide students with hands-on learning experiences and extensive career opportunities. Graduates join a DePaul business alumni network that is more than 70,000 strong. The college is accredited by the AACSB International—The Association to Advance Collegiate Schools of Business, a distinction indicating academic excellence that is earned by less than five percent of business schools worldwide.

Faculty
Experts in the fields they teach, the Driehaus College of Business faculty includes published scholars and experienced business professionals, including executives, accountants, marketing directors, financial analysts, lawyers, economists, hospitality professionals, consultants and entrepreneurs. These individuals are committed to teaching students both theory and practice in a challenging and engaging learning environment.

Undergraduate Academics
The Driehaus College of Business offers undergraduate, graduate, doctorate and combined degree programs that integrate theory and practice.

Bachelor of Science in Business
The Bachelor of Science in Business (BSB) is the undergraduate business degree offered by the Driehaus College of Business. The degree is based upon the following learning goals and is composed of study in several areas of required coursework.

Learning Goals
The Learning Goals for the Driehaus College of Business undergraduate program are:

- Communication - Driehaus students will be able to communicate effectively both orally and in writing.
- Global Business Perspective - Driehaus students will understand business within a global context.
- Ethical and Legal Awareness - Driehaus students will be able to recognize ethical and legal issues confronting them.
- Decision-making - Driehaus students will be able to use analytical and reflective skills in making decisions.
- Teamwork - Driehaus students will be able to understand group and individual dynamics within a business setting.
- Mastery of Content - Driehaus students will acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Business Core
The Business Core is a group of requirements focusing on professional business preparation to be completed by all students seeking the BSB degree. The specific classes a student takes for Core completion can vary according to selection of major or minor.

Liberal Studies Program
The Liberal Studies Program (LSP) is the common curriculum taken by all students enrolled in the traditional undergraduate colleges at DePaul University. The LSP is designed to enhance writing abilities, mathematical and technological proficiencies, and critical and creative thinking skills, while broadening students’ knowledge base beyond their chosen major. LSP courses foster an appreciation of different religious and philosophical worldviews, promote application of ethical reasoning, and realize new understanding of concepts and theories through multiple methods of inquiry and disciplinary perspective. In LSP seminars, students read primary texts, write research papers, and communicate their ideas orally. Business students also take Business Ethics in their Liberal Studies Program.

Major
In the major program, a student pursues specialized coursework in a business area. Some majors in the college require selection of a concentration to further focus the field of study. Majors can be declared at time of admission. A major must be declared prior to graduation. In addition to the primary major in business, a Driehaus student may choose to complete a secondary major, additional concentrations or a minor within the college or from another college at the university.

Open Electives
Open Electives allow a student to explore additional areas of interest or work toward a minor or second major. The selection of major or minor determines the number of open elective hours needed.

Additional Credentials
While not required for completion of the degree, students in the college are able to pursue additional opportunities for study such as minors, modern languages, study abroad programs, and internship-based courses.

Credit Hour Requirement
A minimum of 192 quarter hours of degree applicable credit is required for completion of the BSB. A student’s degree plan and factors such as course selection, transfer credit, and major and minor requirements may result in a student exceeding the hours minimum. In addition to college and departmental requirements, all students pursuing the BSB are subject to university policies on degree conferral (p. 1513).

Additional Undergraduate Policies and Requirements
Detailed requirements and policies for the BSB degree can be found below, in the section pertaining to each Driehaus College of Business major or minor, and the Student Handbook (https://catalog.depaul.edu/student-handbooks/undergraduate/undergraduate-academic-policies/) of this catalog.
**Course Prerequisites**
A student in the Driehaus College of Business is expected to observe and adhere to course prerequisites. Prerequisites for courses are noted in Campus Connection and can include requirements for class standing, course completion and placement testing.

Given the sequential nature of coursework in business and the structure of major and minor programs in the college, consideration of course prerequisites is essential to successful planning and degree completion.

**Graduation/Degree Completion**
Graduation/degree completion is the official granting of a degree by DePaul University upon successful completion of all degree requirements.

Degrees are awarded at the end of each quarter. In order to have the degree awarded, all requirements must be satisfied, including:

- Submission of an Application for Graduation in Campus Connection
- Declaration of the major (and minor, if applicable) prior to graduation
- Completion of ACC 101, ACC 102, BUS 102, ECO 105, ECO 106, MAT 137, WRD 103*, WRD 104*, the Professional Writing requirement and ICS 392* with a minimum grade of C- in each class
- Completion of all courses in the major field (and minor, if applicable) field with a minimum grade of C- in each class (even if Global Business Perspective, extra or open elective)
- A minimum grade point average of 2.000 within the major (and minor, if applicable)
- A minimum cumulative grade point average of 2.000 for DePaul coursework
- A minimum of 192.0 degree applicable hours
- Completion of the last 60.0 hours of coursework for the degree at DePaul
- Posting of all of grades in Campus Connection by the end of the grading period (five business days after the quarter ends)

*Students in the University Honors Program do not take WRD 103, WRD 104 or ICS 392.

A student who is nearing the completion of the degree should consult with his or her academic advisor in the Undergraduate Programs Office regarding the graduation/degree completion process.

**Majors and Minors**
For a student to earn the Bachelor of Science in Business, completion of at least one major in the Driehaus College of Business is required. In addition to the primary major in business, a Driehaus student may choose to complete a secondary major, additional concentrations or a minor within the college or from another college at the university.

Non-business students are welcome to complement their areas of study by completing a major or minor in the Driehaus College of Business. They should meet with an academic advisor in the Driehaus Undergraduate Programs Office to review relevant policies and course requirements.

**Major Declaration**
Upon matriculation into the university, a student may declare a Driehaus major. A student will complete the major requirements in place at the time the student declares the major. Some majors require declaration of a concentration, which is added to the record at the time of major declaration. A major must be declared prior to graduation/degree completion.

**Major Policies and Requirements**
For all students pursuing a Driehaus major, the following policies and requirements are in effect:

- All requirements for the major including concentration must be completed as specified by the major department at the time the student declares the major
- The number of hours required for completion of a major varies
- At least one half of the major field coursework must be completed at DePaul
- The following courses must be completed with a minimum grade of C- unless otherwise noted for a specific major:
  - All courses completed from the major department whether taken for a requirement or for another purpose
  - A minimum of 192.0 degree applicable hours
- A course taken as part of an secondary major or additional concentration may be used toward another purpose in the degree plan, such as an Open Elective or Liberal Studies requirement.

**Secondary Majors and Concentrations**
For all students pursuing a secondary Driehaus major or additional concentrations for a Driehaus major, the following policies and requirements are in effect:

- Some combinations of secondary majors, additional concentrations and minors are prohibited as noted in the requirements section for the major, concentration or minor
- At least 50% of the courses used for the completion of a second major must be unique to the completion of that major
- At least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration
- A course taken as part of an secondary major or additional concentration may be used toward another purpose in the degree plan, such as an Open Elective or Liberal Studies requirement.

**Majors outside the Driehaus College of Business**
A student pursuing the Bachelor of Science in Business is allowed to complete non-business majors in addition to the required Driehaus major. A student interested in completing a major outside of the college should meet with an academic advisor in the Driehaus Undergraduate Programs Office to review relevant policies and procedures. In addition, the student should contact the undergraduate program office for the college offering the non-Driehaus major for advising on requirements for completion of the major.

**Minors Declaration**
Upon matriculation into the university, a student may declare a Driehaus minor. A student will complete the minor requirements in place at the time the student declares the minor. If pursuing a minor, it must be declared prior to graduation/degree completion.

**Minor Policies and Requirements**
For all students pursuing a Driehaus minor, the following requirements must be observed:

- Some combinations of secondary majors, additional concentrations and minors are prohibited as noted in the requirements section for the major, concentration or minor
The DePaul MBA focuses on both theory and practice for career advancement. Skills acquired include an ability to: analyze and take action to perform, inspire others and drive results in the real world.

The Master of Business Administration

The DePaul MBA offers undergraduate, graduate, doctorate and combined degree programs that integrate theory and practice. The Kellstadt Graduate School of Business is a nationally known business school dedicated to developing the real-world business sense needed to take leadership capabilities to the next level.

Combined and dual degrees:

- Combined Bachelor’s and Master’s degrees
- MBA/Master of Public Health
- MBA/MA in Health Communication
- MBA/JD
- MFA in Creative Producing (offered by Kellstadt and the School of Cinematic Arts in the College of Computing and Digital Media).

The ideal candidate will enter the program with significant business acumen gained through eight to 10 years of managerial or consultative experience. The ideal candidate will enter the program with significant business acumen gained through eight to 10 years of managerial or consultative experience. The Master of Science degrees are designed for professionals with a specific and focused career path who are looking to enhance and expand their expertise.

Doctorate in Business Administration

The Doctorate in Business Administration (DBA) is designed for highly experienced professionals who seek to take their career to the highest level. The three-year program is designed for working professionals with a previous master’s degree in a business or business-related discipline. The ideal candidate will enter the program with significant business acumen gained through eight to 10 years of managerial or consultative experience. Candidates for the DBA will learn to frame complex business problems in a manner that enables an applied, evidence-based analysis of all available data and rigorous evaluation of potential solutions.

A fundamental component of the DBA experience is the personal working relationship with the research-active faculty of the Driehaus College of Business and Kellstadt Graduate School of Business. These ongoing mentor-student relationships support the doctoral candidates’ professional development in the tools and methods of data analysis and business intelligence. In addition, DBA candidates will advance through their program as members of a cohort of about 15 students. The program’s small group format is designed to build a strong network of like-minded, high-potential professionals to support each other both during the program and after graduation.

Each year of the program, candidates will participate in nine three-day residencies led by Kellstadt faculty. DePaul’s DBA program begins with a strong emphasis on research methodology and disciplinary coursework that features the most current developments from both academia and professional practice. Coursework simultaneously builds candidates’ interdisciplinary business knowledge and applied research skills. In the second year, DBA candidates will work as part of a small research team, with a faculty mentor, to take a research idea from conception to completion in one year. By the end of the second year, candidates will be expected to have framed and formally proposed their dissertation research. In the third year of the program, candidates will be personally supervised by one of Kellstadt’s research faculty as they pursue their dissertation research. Throughout the program, DBA candidates are exposed to emerging industry and disciplinary developments through a series of doctoral seminars on current topics in business.

Graduate Business Student Handbook

This handbook outlines academic policies for successfully completing your education at the Kellstadt Graduate School of Business (KGSB). If you are a Doctorate in Business Administration (DBA) student, go to the DBA Student Handbook (p. 370).

Courses and Credits

- KGSB operates on a quarter system, with courses offered in the fall, winter, spring and summer quarters. The DBA program runs on a residency calendar (https://business.depaul.edu/academics/doctoral/dba/Pages/residency-calendar.aspx).
- Most courses are worth four credit hours and run for 10 weeks plus an 11th week for exams. Exceptions include some MBA core courses that are two credits and special courses that span more than one quarter.
• The unit of credit for quarter hours is defined as one hour granted for 45 minutes of classroom work per week during a quarter.
• Total credit hours required to graduate depend on your program. See the DePaul University Catalog for your program's credit-hour requirements.
• Duplication of courses or coursework is not permitted unless you are advised to repeat a course because you received an unacceptable grade per the grade requirements for your program. Double credit is not given for duplicated courses.
• All degree requirements must be satisfied within six years, beginning with the quarter you enrolled. Exceptions may be granted by your academic program director or KGSB.

Transferring Credits
• Up to half of the credit hours required for the KGSB MBA or MS may be applied from credits earned at institutions accredited by the Association to Advance Collegiate Schools of Business. A grade of C or higher is required to receive credit from KGSB. In most cases, a course must be worth four credit hours to be transferred. Applied credit is at the discretion of KGSB.
• The actual number of transfer courses accepted may vary at the discretion of KGSB.
• Submit your credit transfer requests in writing to KGSB with a course description and syllabus for each course. In some cases, you also may be asked to provide a bulletin, catalog and/or statement of academic regulations pertaining to the courses.
• Courses taken six or more years prior to enrollment generally are not transferrable. Exceptions may be made by your academic program director or KGSB.
• No more than two courses in the same field are acceptable for transfer without written permission from the academic director of your KGSB degree program.
• Transfer credits do not count toward your cumulative grade point average (GPA) at KGSB.

GSB 519 Test Out Exam Policy
If a student successfully passes the GSB 519 “test-out” exam, the outcome will vary according to the student’s degree program and status. For Master of Science Candidates:

• If GSB519 is a core class in the MS program, the student must take an approved elective to substitute the GSB519 requirement
• If GSB519 is a prerequisite for the program, the student waives the GSB519 prerequisite.

For MBA Candidates:

• If a student is waived from 4 credit hours or less, the GSB519 requirement can be waived.
• If a student is waived from more than 4 credit hours, students must take an approved elective to substitute the GSB519 requirement

MS Economics and Policy Analysis Waiver Policy
Students who enter the MSEPA after completing their undergraduate degree in economics may waive a maximum of two electives (8 credit hours) in the MSEPA program by earning a grade of B+ or better in the following courses:

• Upper level undergraduate economic electives that have a prerequisite of Intermediate Microeconomics
• Upper level economics electives that have a prerequisite of Econometrics

Combined Degree students are not eligible for waivers in the MSEPA.

Grades
• KGSB faculty members will explain how your coursework will be evaluated at the beginning of each course. The method for evaluating your progress in the course is at the discretion of the faculty member, providing the method is fair, uniformly applied and made known to the class.
• Your letter grades and GPA will follow DePaul’s system of evaluating academic achievement (p. 1549).
• GPA is determined by averaging the grades from all courses taken at KGSB, including repeated courses. Your GPA will not be rounded.
• You will graduate “With Distinction” if you earn an overall GPA of 3.6 or higher. For students pursuing more than one degree, all courses taken at KGSB are considered in the calculation of the GPA.
• You must have a cumulative GPA of at least 2.0 (a grade of C) to qualify for graduation from KGSB. (Also see Additional Requirements by Program).
• Grade challenges can be initiated by submitting the Grade Challenge Form (https://business.depaul.edu/student-resources/undergraduate/Documents/grade-challenge-form-v3.pdf).

Probation, Dismissal and Reinstatement
• If your GPA falls below 2.0, you will be placed on probation, which will extend through the next three courses you take. If your cumulative GPA has not increased to 2.0 after you complete the third course, but you have increased your GPA, you will be placed on final academic probation. During final academic probation, you will be required to meet with an advisor in order to register for classes. Additionally, KGSB will review your academic history and will determine the best course of action. Decisions are final.
• During your probationary period, you will only be allowed to enroll in (1-2) classes per quarter until your GPA is 2.0 or higher. During the final probationary period, the number of courses and timing of the courses will be determined on a case-by-case basis by KGSB. Decisions are final.
• If you have been dismissed from the program, you may petition the assistant dean of KGSB for reinstatement no earlier than one quarter after your dismissal. Your request must include conclusive evidence of changes in your situation that indicate you are prepared to successfully meet the requirements of your program. The assistant dean considers each request individually and sets the terms and conditions for reinstatement. Decisions are final.

Incomplete (IN) Grades
• If you receive more than two grades of Incomplete (IN), your registration will be blocked until you have met with an advisor and

### Additional Requirements by Program

**MS Students**
- If you seek to apply previously earned credit toward your degree, please be aware that you must complete at KGSB a minimum of 50 percent of the maximum number of your MS program’s required courses to qualify for an MS degree from KGSB. Some MS programs require more than 50 percent. Check with your academic program director for the exact requirements that apply to your MS program.
- You must maintain a cumulative 2.0 GPA (grade of C) for your courses and at least a C- to gain credit for an individual course.

**MBA Students**
- If you seek to apply previously earned credit toward your degree, please be aware that you must complete at KGSB a minimum of eight of your MBA courses, or 30 credit hours, to qualify for an MBA degree from KGSB. Depending on the requirements for your concentration, at least two and as many as three of these five KGSB courses must be in your MBA concentration. Check with your academic program director for the exact requirements that apply to your concentration.
- KGSB may waive MBA core course requirements worth up to 8 credits if your undergraduate major was in the same discipline of these core courses and you earned a grade of C or better.
- MGT 500, GSB 525 and GSB 599 are required of all MBA students and may not be waived or substituted.
- You need a cumulative 2.0 GPA (grade of C) in your concentration courses and any electives associated with your concentration to qualify for graduation.
- For core MBA courses, grades A through D earn credit.
- For concentration or concentration related courses, a grade of C- or higher is required to receive credit. Any grade lower than C- in a concentration course does not count as credit toward your degree and you will need to repeat the course or an approved substitute.
- Written prior permission from your department chair or school director is required to take an advanced course in place of a required one.

**Second Concentrations or Degrees**
If you seek to add an MBA concentrations to one you have already earned at KGSB, or seek to add an MS degree to any previously earned KGSB degree:
- You are subject to the academic policies and concentration requirements effective at the time of readmission.
- A minimum of 50% of the requirements for the second concentration or degree must be completed as new coursework not applied to any previous degree or concentration.
- Your successful completion of additional concentration(s) or degree(s) will be noted on your official transcript with the completion date(s). For MBAs, you can earn more than one concentration but only one MBA.
- For students returning to earn additional MBA concentrations, your GPA for your original MBA concentration will remain unchanged. If you earned a "With Distinction" with your first MBA concentration, the additional coursework will not change that designation.
- The six-year course expiration rule may be extended or waived in some cases for students returning for second degrees or MBA concentrations.

**Auditing Courses**
- To audit a KGSB course, you must first receive permission from the academic director of the program that offers the course.
- You will be charged tuition and fees at the rates set for that course, and the full, nonrefundable payment must be made at registration.
- You will not receive credit for audited courses.
- Requests to change auditor status must be made in writing to KGSB and be granted before the end of the third week of class. You may not change to or from auditor status after the third week of class.

**Undergraduate Admission**
To succeed in the study of business, students must possess a number of academic qualities. Specifically, students must be able to think analytically and reason to valid conclusions relying on both quantitative and qualitative information. Particular attention is therefore given to the mathematical and verbal abilities of candidates.

Undergraduate candidates interested in admission to the Driehaus College of Business should direct all inquiries to:
Office of Admission
DePaul University
1 E. Jackson Boulevard
Chicago, Illinois, 60604
admission@depaul.edu or (312) 362-8300.

For general information about undergraduate admission and financial aid please visit: http://www.depaul.edu/admission-and-aid/Pages/default.aspx

**Graduate Admission**

**Kellstadt Graduate School of Business**
Admission to Kellstadt’s Graduate School of Business is based on academic performance, work experience and career progression. GMAT and GRE test scores are required for certain degrees. Learn more about our MBA and Master of Science degree program requirements, formats and timelines (http://business.depaul.edu/academics/graduate/Pages/default.aspx).

**Scholarship Opportunities**
Please refer to individual academic departments for a listing of available scholarships.

**Double Demon Scholarship**
The Double Demon Scholarship is awarded to DePaul alumni and covers 25 percent of tuition for degree, non-degree or select certificate coursework taken at the graduate level. Both full-time and part-time students are eligible and no application is necessary. To learn more, contact the admission office for your college of interest (see listing below).

1 Please note: The Double Demon Scholarship cannot be used in conjunction with other DePaul scholarships, waivers or awards. University employees are eligible for other tuition benefits and are not eligible. The scholarship does not cover coursework from the Center for Professional Education (CPE), the Institute for Professional Development (IPD), coursework in a doctoral program or a master of fine arts (MFA), School of Music, the Theatre School, College of Law and a few other select programs.
Financial Aid (undergraduate and graduate)

Financial aid and alternative financing programs, as well as scholarships are available to students. Completing a current FAFSA (Free Application for Federal Student Aid) is the first step to determining your overall eligibility for financial aid.

Additional information is available on DePaul's Admission and Aid website (https://www.depaul.edu/admission-and-aid/financial-aid/Pages/default.aspx).

Undergraduate Programs Office

The Undergraduate Programs office supports the mission of the Driehaus College of Business in a variety of ways:

- **Academic Advising**: Provides students with guidance on curriculum, course selection, registration, degree planning, degree progress, and major and minor selection.
- **Student Advocacy**: Supports students in navigating DePaul's academic regulations, university policies and procedures. Advisors make appropriate referrals to help students in the use of college and university resources according to individual needs.
- **Records Auditing**: Assists students with determining degree progress and remaining requirements.
- **Degree Conferral**: Verifies students are eligible to receive their DePaul degree.
- **Declaration Maintenance**: Oversees the accurate application of major and minor plans on students' records.
- **Orientation**: Introduces new business students to the college through Premiere DePaul, Transition DePaul, and Inter-College Transfer programs.
- **Special Programs**: Enhances the student experience through opportunities and events like Beta Gamma Sigma, Honors Convocation, and the annual Commencement Ceremony.

Students are encouraged to consult their advisor periodically throughout the year.

In addition, faculty can assist in the selection of major electives and business electives which will best complement a student's major and career orientation.

The Undergraduate Programs office is located in DePaul Center 5200 and may be contacted by telephone at (312) 362-5358 or please visit: https://business.depaul.edu/student-resources/undergraduate/Pages/default.aspx.

College of Communication

Communication is the art and science of creating and sharing meaning. In the College of Communication, you will develop a deeper understanding of the complex and challenging communication practices and processes that characterize our rapidly changing world; you will master the techniques for crafting and delivering messages across a variety of social contexts and platforms: face-to-face, print, audio, video, Web and other social media. You will learn from exceptional teachers - from professors who have many years of experience in some of the biggest media markets in the nation, and from scholars publishing in some of the top national and international journals. You'll gain hands-on experience in our state-of-the-art facilities, through our award-winning radio station and newspaper, and through a wide range of internships and community projects.

The College of Communication at DePaul has set the stage for enhanced quality, substantially enriched curricular and programmatic offerings, joint programming with other schools and colleges within the university, and expanded opportunities for our students to engage in experiential learning.

Majors

The College of Communication offers eight majors.

- Communication and Media (BA) (p. 236)
- Communication and Technology (BA) (p. 245)
- Communication Studies (BA) (p. 248)
- Journalism (BA) (p. 661)
- Media and Cinema Studies (BA) (p. 784)
- Organizational Communication (BA) (p. 861)
- Public Relations and Advertising (BA) (p. 952)
- Sports Communication (BA) (p. 1100)

1 The College of Communication offers five Master’s degree programs that can be combined with any of the eight Bachelor’s degree programs. The graduate programs include: Communication and Media (p. 241); Digital Communication and Media Arts (p. 362); Health Communication (p. 554); Journalism (p. 664); and Public Relations and Advertising (p. 955).

Honors Program

Most students follow the Liberal Studies Program (p. 1291) to meet their general education requirements. However, students accepted into the Honors Program (p. 1319) fulfill general education requirements through an alternative set of courses.

Latino Media & Communication Concentration

The program educates students to think critically about all aspects of media and communication, with a particular focus on Latino media and Latino communities. Coursework provides students with the applied skills necessary to create communication strategies, which effectively reach the Latino segment of the population, based on an understanding of Latino cultures in the US and grounded in an understanding of its cultural, economic and sociological aspects. This concentration is open to all communication majors.

Learning Goals

Students who complete the concentration will:

- Develop an understanding of the heterogeneous and rapidly changing Latino communities locally, nationally, and globally.
- Ground their knowledge of intercultural studies within a more extensive and concrete knowledge of a particular (even though diverse), rapidly growing, and increasingly important population within the US Latino communities.
• Increase their cross-cultural competence (understanding and ability to dialogue across difference, develop cultural sensitivity and awareness) with Latino communities.

• Develop insights into the needs and motivations of Latino populations in the workplace, in community situations, and other sites of engagement, and develop communications tools and strategies to address those needs and motivations.

• Enhance their capacity to communicate with and learn from Latino populations in the workplace, in community situations, and other sites of engagement.

• Recognize the impact of the movement of Latinos across the globe and to develop the skills to critically consume and produce media, public relations, and advertisement representations that communicate to and about Latino communities.

• Both engage and demonstrate their interest in Latino Studies within and across diverse areas of knowledge production in the Communication field.

Graduate Academics
The College of Communication offers six Master of Arts programs, two certificate programs, and one joint degree program.

Master of Arts Programs
• Communication and Media (p. 241)
• Digital Communication and Media Arts (p. 362)
• Health Communication (p. 554)
• Journalism (p. 664)
• Professional Communication (https://catalog.depaul.edu/programs/professional-communication-ma/)
• (p. 664)Public Relations and Advertising (p. 955)

Certificate Programs
• Digital Communication (p. 366)  
  • (p. 366)Health Communication (p. 557)

Joint Degree Programs
• Master of Business Administration/Master of Arts in Health Communication (p. 556)

¹ For credit in this concentration, the internships must focus on Latino media and communication.

² For credit in this concentration, the course topic must focus on Latino media and communication.

Communication Graduate Academic Student Handbook
In addition to the DePaul University Graduate Student Handbook, the College of Communication Graduate Student Handbook includes requirements, rules and regulations for its graduate programs.

Upon admission to a graduate program, a student is to follow the catalog requirements in effect at the time of admission. A student who is readmitted or who changes his or her program or enrollment status is subject to the terms of the catalog in effect at the time of readmission or status change.

As a graduate student, you assume the responsibility to know and meet both the general and particular regulations, procedures, policies, and deadlines set forth in this catalog and handbook. This catalog does not constitute a contract between the student and the university. Every effort has been made to provide accurate and detailed information. The university reserves the right to revise the content of its catalogs and schedules; to change policies, programs, requirements, rules, regulations, procedures, calendars and financial schedules; to establish and modify admission and registration criteria; to cancel or change courses or programs and their content and prerequisites; to limit and restrict enrollment; to cancel, divide or change time or location or staffing of classes; or to make any other necessary changes.

Courses and Credit
No one is permitted to attend a class for which he or she has not been properly and officially registered. Credit is accumulated on the basis of quarter hours. The College of Communication does not allow students to audit graduate coursework. Undergraduate courses will not count toward the degree completion requirements of a graduate degree program in the College of Communication.

Students are not permitted to take graduate classes as pass/fail. They must earn a letter grade in all coursework. Grades of “D” and “F” are failing grades and will not count towards the completion of the degree. If a course is repeated, all of the grades are recorded on the academic record and calculated in the GPA.
Students enrolled for eight or more credit hours in an academic quarter are considered full-time. Students enrolled for four to seven credit hours in an academic quarter are considered half-time.

Credit Limitation
Courses completed within six years of the student's first date of enrollment will be considered in awarding the final degree.

Independent/Experiential Learning Course Credit Limitation
Graduate Students in the College of Communication may elect to enroll in independent/experiential learning courses such as CMN 591 Internship, CMN 592 Independent Study, CMN 593 Research Practicum, or JOUR 517 Experiential Learning in Journalism to fulfill elective requirements in their programs. A maximum of 8 credits (usually two 4-credit courses) of these independent/experiential learning courses in any combination will apply toward the degree. These courses also have enrollment requirements that must be met prior to registration. Please see the Independent Study/Experiential Learning (https://communication.depaul.edu/academics/graduate-programs/Pages/independent-study.aspx) or Internships (https://communication.depaul.edu/internships/graduate/Pages/default.aspx) sections of the College of Communication website for specific enrollment requirements.

Transfer Credit
College of Communication graduate degree-seeking programs vary with regard to the number of transferred credit hours allowed, with a maximum threshold of three courses (12-credit hours) that can be transferred in. Students must have earned a grade "B" or better in graduate-level courses in order for credit to be transferred. The courses must have been taken in the last five years and not taken toward the completion of another academic degree. Course transferability is not guaranteed, and each request will be addressed on an individual basis.

Dismissal
Failure to Advance
All students are required to complete all requirements of their MA program within six years of first enrollment. Students failing to meet this requirement may be dismissed from the program. However, students can officially withdraw from the program and reapply later. If re-admitted, their previous coursework will count toward the degree if it meets the requirements of the program at the time of readmission; the six year time frame will include both spans of attendance, but not the time during which the student was not in the program.

Students who have not officially withdrawn from the program, but have been discontinued or dismissed from the active status roster will need to complete a re-application (and any other required admission materials as determined by the Graduate Advisor, Graduate Program Director, and Associate Dean) to resume the program and begin taking courses again, or to be eligible for the master's thesis defense, project, or comprehensive exams. Re-admission into the graduate program is not guaranteed, but if readmitted, the six year time frame will still remain from the date of the original enrollment.

Failure to Pass Comprehensive Exams
Students have two attempts to pass their comprehensive examination in programs where such examinations exist. Failure of one or all sections of the exams after the second attempt will result in dismissal from the program.

Failure to Advance Thesis Policy
Failure to advance thesis policy: If a student does not make significant progress towards the completion of the thesis within one year of submitting the thesis approval form, the student's committee has the authority to determine if the student is allowed to continue with the thesis. If the committee decides to discontinue the thesis, the student must choose another degree completion option to fulfill the degree completion requirement.

Failure to Meet the Requirements of Conditional Acceptance
A failure to meet the requirements of conditional acceptance admission decisions will result in dismissal from the graduate program.

Failure to Meet the Requirements of an Academic Probation Plan
A failure to meet the requirements of an academic probation plan will result in dismissal from the graduate program.

Special Circumstances
If a student has made good progress toward a degree program and has a compelling explanation for the circumstances that caused the dismissal, he or she may petition the graduate board for reinstatement. The graduate board will decide if any exceptions to the dismissal policy are warranted, and the board's decision will also require the approval by the Associate Dean of Graduate Programs. To appeal an academic dismissal, a student must submit to the graduate advisor a letter of petition, current transcripts (including transcripts if credits were earned elsewhere after the dismissal from DePaul), and a current résumé.

Graduation Requirements
Degree Requirements
You must have successfully completed all of the general and specific degree requirements as listed in departmental or program sections of the catalog under which you were admitted. Completed degree requirements can include the submitting of the thesis, project, or comprehensive examination scores, and, if necessary, grade changes. Students need to achieve a minimum grade point average of 3.000 to graduate. Students must complete all degree requirements within six years of the first term of enrollment.

Graduation with Distinction
In order to graduate with distinction from any of the College of Communication graduate programs, students must earn a 3.850 cumulative GPA or higher at the time of graduation.

For students completing their graduation requirements at the end of Spring or Summer Quarters and participating in the June commencement ceremony, the cumulative GPA at the end of Winter Quarter will be used to determine if the student’s name will appear with distinction in the commencement book and be read with distinction at the ceremony.

Probation
All students are required to maintain a cumulative GPA of 3.000 in their coursework. If a student's cumulative GPA falls below 3.000, the student will be allowed to complete an additional 16 credits or 3 quarters (whichever comes first) to attain the 3.000 minimum GPA. If the cumulative GPA remains below a 3.000 at the conclusion of this time period, the student may be dismissed from the program. The student’s cumulative and term GPAs along with overall academic performance will be factored into the dismissal decision.

For specific information, please see the Grades section in the University Graduate Student Handbook.

Readmission
Applicants are admitted to the College of Communication on the basis of their proven competencies measured by academic criteria, recommendations, and demonstrated ability to complete programs of study and research prescribed for the M.A. programs.
Readmission Procedures
Applications for readmission to any of the College of Communication graduate programs after a dismissal will only be considered after one calendar year. Students who were discontinued from the active status roster for a period of 1-4 (maximum) calendar years must file a readmission application (and any other required admission materials as determined by the Graduate Advisor, Graduate Program Director, and Associate Dean). If more than four years have elapsed since the student has been in attendance, s/he must file a new application with all supporting application materials. The form must be submitted at least two weeks prior to the day of registration for the term in which you expect to resume your studies.

Official copies of transcripts recording scholastic work completed while not enrolled at DePaul University must be submitted. As a policy, students are held to the degree requirements that are in effect at the time of readmission.

Reclassification Procedures
Should the student desire to change programs or admission status, s/he must complete a new online application for the desired program. After submitting the application, it is the applicants’ responsibility to contact the Office of Graduate Admission to verify if any additional documentation is needed.

If you are switching to a different track in a joint program between colleges, you must complete an online application for the partnered college. After submitting the online application, some updated documents may be required.

Registration
Registration in Courses in Other Colleges or Schools
College of Communication graduate students may be permitted to register for graduate-level courses offered in other colleges or schools of the university after appropriate consultation and approval, including:

- Submitting written email approval from instructor of the outside course for the CMN student to take the desired course as an elective. Student must submit this approval to graduate advisor.
- Once received, the graduate program director or graduate advisor must give final approval that the outside elective will count towards degree completion requirements. The graduate advisor can assist with registration, if necessary.

Non-College of Communication Student Course Registration
Students who are not enrolled in a CMN graduate program may register for courses if they receive written permission by the instructor and approval from the graduate advisor. Student must forward the email stating instructor approval to CMN graduate advisor to determine next steps. Non-degree seeking students are not permitted to sit in graduate communication courses unless prior approval is received from the college office.

Residence Registration
All graduate students who will use the facilities of the university (library, laboratory, etc.) or who will consult with faculty members regarding theses, projects, or comprehensive examinations, must be officially registered in each quarter.

Late Add Policy
Students will not be added to courses past the add deadline for each quarter as posted on the Academic Calendar. The Academic Calendar is available on DePaul's website prior to the start of each academic year. All enrollments must be completed before this date. After this date, students will be unable to add courses through Campus Connect, and the graduate advisor will not process late adds due to University policy, even if the student has gained instructor permission.

For certain courses such as internship courses, independent studies, or courses that have a later start date indicated on Campus Connect, a late add is occasionally permissible and can be discussed with the graduate advisor. In the rare case that a student must be added late to a course because of extenuating circumstances, permission from both the instructor and the Associate Dean of the College of Communication is required. If the student gains permission from the instructor, the instructor must contact the Associate Dean with the reason for the late add. If the Associate Dean approves the request, it is then forwarded to the graduate advisor for processing. Students should not attend any course for which they are not registered.

Closed Course Policy
The College of Communication will not process additions to closed Communication courses. Students should not attend a class for which they are not registered.

In rare circumstances, a student who needs a specific course in their final quarter will be added by the graduate advisor to a closed course so that they can meet degree requirements in their final quarter. If there are other sections of that course still open, the student must add the open section. If a student finds a course that they need to graduate is closed, they must email the graduate advisor and request addition to the closed course. The advisor will verify that the course is required for graduation in that term and that there are no other sections of that course open. If those conditions are met, the student will be added to a section of the course.

Once a course is closed, students should not email instructors to be added to closed courses. Course limits are set so that all students and the instructor can have a positive classroom experience. In the rare circumstance that an instructor does approve the addition of a student to his or her closed course, the instructor must email the graduate advisor within the deadline to add courses for that quarter so that the enrollment can be processed. Late additions to courses will not be processed, even with instructor permission. The deadline to add courses can be found on the Academic Calendar, which is available on DePaul's website.

Important Tips for Registration
- Check your Holds and To-Dos frequently by signing in to Campus Connection (http://campusconnect.depaul.edu/). Please resolve them as soon as possible, as some may affect your ability to register.
- Our online Learning Center with Campus Connection will help you make full use of new and updated tools for registration.
- Familiarize yourself with the Academic Calendar (https://academics.depaul.edu/calendar/Pages/default.aspx), which includes critical academic and financial deadlines.
- Answers to many student questions can be found on DePaul Central website.

Admission & Aid
Undergraduate candidates interested in admission to the College of Communication BA programs should direct all inquiries to the Office of Admission:

Lincoln Park Campus:
Welcome Center 2400 North Sheffield Ave.
Chicago, IL 60614
Scholarship Opportunities
Undergraduate
DePaul awards a variety of admission scholarships to freshmen and transfer students, as well as some scholarships for current students. For information about university opportunities, visit the scholarship page (http://www.depaul.edu/admission-and-aid/Pages/scholarships.aspx) of DePaul's Admission and Aid website. The College of Communication offers some scholarship support for continuing undergraduate students. Communication scholarships opportunities vary; typically three to five scholarships are awarded each year, in the $1000-$2500 range. Details on Communication scholarship offerings can be found at communication.depaul.edu (http://communication.depaul.edu/Pages/default.aspx).

Financial Aid
Students who plan to fund their education through federal loans should complete and submit the Free Application for Federal Student Aid (FAFSA). DePaul's Financial Aid Office will create a financial aid package based on your FAFSA information.

Graduate Admission
The College of Communication offers five graduate programs at the master's level: Communication and Media, Digital Communication and Media Arts (Digital Communication track), Health Communication, Journalism, and Public Relations and Advertising.

Classifications
Full Degree-Seeking Status
The minimum requirements for this status are:

• Bachelor's degree conferred by a regionally accredited institution.
• Scholastic achievement in undergraduate studies indicating a capacity to successfully pursue a specific program of graduate study.
• Submission of all required supporting credentials.

Conditional Degree-Seeking Status
The minimum requirements for this status are:

• Scholastic achievement in undergraduate studies indicating a capacity to successfully pursue a specific program of graduate study.
• Submission of all required supporting credentials.

A conditionally admitted applicant is eligible for reclassification to full, degree-seeking status when the conditions of his or her admission have been satisfied.

DePaul Students and Combined Degree Programs
Undergraduate students from any major at DePaul University are eligible to apply for admission in one of the five combined degree programs. Admission is conditional until the conferred bachelor's degree is posted on the DePaul transcript. The M.A. programs in Communication and Media, Digital Communication and Media Arts (Digital Communication track), Health Communication, Journalism, and Public Relations and Advertising offer an accelerated master's degree that begins in an undergraduate's senior year and may be completed in one subsequent year. Further information about these combined degree programs can be found within specific program descriptions in this Catalog and on the College website.

Admission Procedures
General Procedures
Procedures for admission to the graduate programs in the College of Communication are outlined below. For specific information about admission requirements and deadlines to each department or program, please consult the College of Communication website.

Application: You can apply online at: www.depaul.edu/apply. To request information about College of Communication graduate programs, please email gradcom@depaul.edu (gradcom@depaul.edu%E2%80%8B). Supporting Credentials: We require official transcripts from all universities, colleges, and junior colleges you have attended. Please request that transcripts and other credentials be sent directly to the Office of Graduate Admission, College of Communication, 2400 N. Sheffield, Chicago, IL 60614-2215. We also accept official electronic transcripts sent to our office at gradcom@depaul.edu (gradcom@depaul.edu%E2%80%8B). We recommend that you request transcripts in sufficient time to meet the programs deadline.

The College of Communication graduate programs require additional supporting credentials before an application file is considered complete. Please consult the specific program listing on the College of Communication website to determine what additional materials are required for admission and the deadline by which applications and supporting materials should be submitted. International applicants should reference the additional admission requirements listed on our International Student Admission page on the College of Communication website.

Application Fee: You can pay the application fee online as part of the online application or send a check or money order payable to DePaul University. Consult the application instructions for specific information about amount of the fee. If paying by check or money order, send
Graduate Communication Association (GCA)
The Graduate Communication Association is a student-led, student-run organization with a primary goal to create community, relationships and camaraderie among students in the seven graduate programs in the College of Communication. We serve as a resource for students, faculty, staff and administration by offering a space to better meet the needs of the graduate students of DePaul University. We also provide students the opportunity to get involved in networking and social events, as well as philanthropic service hours.

Internship Program
The College offers an undergraduate internship program through which majors and minors can earn academic credit and gain practical experience in a professional setting. Students may be enrolled in CMN 394 and/or CMN 395 (topics vary), only after meeting college-established eligibility requirements. An individual student may participate in several internship experiences. A maximum of 16 quarter hours of internship and practicum credit can be applied to degree requirements. CMN 394 may be used to fulfill the Experiential Learning Requirement in the Liberal Studies Program and/or as a major field requirement. If a second internship is taken, CMN 395 may count as a communication elective. A maximum of two graded internships can be used toward the major field requirements. Subsequent hours of internship credit are taken through different CMN 395 special topics courses and fulfill unrestricted electives. Communication minors may have one graded internship count towards completion of the minor.

National Association of Hispanic Journalists (NAHJ)
NAHJ DePaul is the student chapter of the National Association of Hispanic Journalists (http://nahj.org/) at DePaul University. NAHJ was founded to support, connect and recognize Hispanic and Latino journalists across the globe. The DePaul chapter connects members to leaders in the industry, helps them prepare for internships and jobs, hosts speakers, coordinates cultural events and provides a support network for student journalists.

Public Relations Student Society of America (PRSSA)
For students interested in a career in public relations, participating in PRSSA is an essential cornerstone of your DePaul experience. The organization hosts a vibrant schedule of activities such as visits to Chicago public relations agencies and career fairs that will build your professional network and put you on the radar screens of future employers. The DePaul Chapter has won national recognition including the Teahan Award for Outstanding Regional Conference, the highest honor a PRSSA Chapter may earn. DePaul’s Regional Conferences have been sold-out events that have drawn students from campuses across the Midwest with such powerful themes such as Transforming Traditional Into Digital: The New Ways of PR; The Entertainment Industry: It’s Not Just an LA Thing; and PR: The Chicago Way.

Radio DePaul
Radio DePaul is DePaul University’s award-winning student radio station, most recently having been named Best Online College Station in 2017. The station was a finalist for 28 national and state college radio awards in 2015, winning 12. Overall, Radio DePaul has been a finalist for over 100 national and state college radio awards since 2010.

In 2015, the station launched “The Radio DePaul Podcast” (https://soundcloud.com/radiodepaul/sets/the-radio-depaul-podcast/). The weekly podcast typically revolves around a theme and features new and repurposed content from Radio DePaul's live shows. The podcast was honored with a College Media Advisers Pinnacle Award for Best Podcast in the fall of 2015. In the Fall of 2016, the Radio DePaul news team launched the "ICYMI" (https://soundcloud.com/radiodepaul/sets/best-of-radio-depaul/) podcast, a weekly wrap-up of top headlines and stories from the station’s “Pocket News” reports at noon and 5 PM (Monday-Friday).

Both channels are located on DePaul’s Lincoln Park campus. The channels are best enjoyed via The Radio DePaul App, which is available for free in the respective app stores. Students can apply to join either or both channels at radio.depaul.edu (http://radio.depaul.edu/).

Society of Professional Journalists (SPJ)/Online News Association (ONA)

This is a student-run organization for students interested in careers in journalism. The DePaul chapter sponsors campus speakers, career information sessions, and journalism seminars/conferences. Student members are eligible to apply for SPJ and ONA - sponsored internships and student competitions.

The DePaulia

The DePaulia is the award-winning newspaper produced by students at DePaul University. The paper publishes every Monday during the school year; its sister website, depauliaonline.com (http://www.depauliaonline.com/), also publishes Mondays and updates regularly to report on breaking news.

The paper is divided into six sections — News, Nation/World, Opinions, Focus, Arts/Life and Sports (https://depauliaonline.com/category/sports/). In addition to coverage of the university, the staff covers news of the Lincoln Park and South Loop communities. Sports stories can be as diverse as covering an athlete’s accomplishment to writing about what a decline in basketball ticket sales means to the athletic program. Features can range from where to get the best deals on groceries to how to look fashionable in the winter. Arts and Life and Weekend Edition stories cover anything in the City of Chicago that can be of interest to the student population.

Writing and editing positions are open to all students; one does not need to be a journalism major (https://communication.depaul.edu/academics/journalism/Pages/default.aspx) to work on The DePaulia. In fact, many of our award-winning stories last year were produced by non-journalism majors. Many journalism teachers will take good work produced in their class and submit it to The DePaulia editors for consideration. Also, the Writing for The DePaulia (JOUR 390) course is open to all students who have taken Introduction to Journalism (JOUR 275) and News Reporting (JOUR 278) and regularly funnels stories, photos and video to the paper.

College of Computing and Digital Media

DePaul’s College of Computing and Digital Media (CDM) is organized into three schools: the School of Cinematic Arts (SCA), the School of Computing (SoC), and the School of Design (SoD) featuring degree programs designed to keep pace with the latest developments in technology while remaining grounded in the liberal arts. DePaul CDM has a reputation for offering an extraordinary selection of degree programs and courses from traditional computer science, information systems, and cybersecurity to game development, film and television, animation, and graphic design. At CDM, students will experience a dynamic interdisciplinary curriculum and the opportunity to satisfy their academic curiosity through a wide range of minors that reflect the diverse offerings of CDM's curriculum.

Administration & Faculty

Administration
David Miller - Dean
Lucia Dettori - Associate Dean
Raffaella Settimi-Woods - Associate Dean
Theresa Steinbach - Associate Dean
Jennifer McClelland - Assistant Dean of Budget Administration
Xiaoping Jia - Director of Academic Scheduling
Denise Nacu - Director of the School of Design
Gary Novak - Director of the School of Cinematic Arts
Jacob Furst - Director of the School of Computing
Denise Nacu - Director of the School of Design
Steve Rubinow - Director of the Institute for Professional Development

Academic Advising

The College believes that academic advising is necessary for the vitality and success of the student’s education. Students are assigned a faculty advisor prior to the first term of enrollment in the college. All students are encouraged to meet with their faculty advisor at least once each year for assistance in planning a course of study that best reflects their academic and career interests, skills, and lifestyle. Students have access to professional staff advisors in the CDM Academic Success Center to assist with providing interpretations of university policy, academic success strategies and support services.

Advising Staff

John Glatz - Director of Advising
Katie Schiller - Associate Director of Advising
Monica Cano - Academic Advisor
Kevin Cato - Academic Advisor
Lunden Gregory - Academic Advisor
Veronica Dillard - Academic Advisor

Undergraduate Academics

The College of Computing and Digital Media offers BA, BS, and BFA degrees at the Undergraduate level and MA, MS, MFA, and PhD degrees.
at the Graduate level. An option to pursue a combined Bachelor/Master's degree is also available for qualified students.

Academic Policies
All students are expected to be familiar with and are responsible for the policies included in the DePaul University Undergraduate Handbook

As a student, you assume the responsibility to know and meet both the general and specific policies and deadlines outlined in this catalog and handbook.

Honors Program
Most students follow the Liberal Studies Program (https://catalog.depaul.edu/undergraduate-core/liberal-studies-program/) to meet their general education requirements. However, students accepted into the Honors Program (https://catalog.depaul.edu/undergraduate-core/honors-program/) fulfill general education requirements through an alternative set of courses. A student in the Honors Program pursuing a primary major in the College of Computing and Digital Media follows the requirements below:

### Honors Core

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HON 110</td>
<td>HONORS DISCOVER CHICAGO</td>
<td></td>
</tr>
<tr>
<td>or HON 111</td>
<td>HONORS EXPLORE CHICAGO</td>
<td></td>
</tr>
<tr>
<td>HON 100</td>
<td>RHETORIC AND CRITICAL INQUIRY</td>
<td></td>
</tr>
<tr>
<td>HON 101</td>
<td>WORLD LITERATURE *</td>
<td></td>
</tr>
<tr>
<td>HON 102</td>
<td>HISTORY IN GLOBAL CONTEXTS *</td>
<td></td>
</tr>
<tr>
<td>HON 104</td>
<td>RELIGIOUS WORLDVIEWS AND ETHICAL PERSPECTIVES</td>
<td></td>
</tr>
<tr>
<td>HON 105</td>
<td>PHILOSOPHICAL INQUIRY</td>
<td></td>
</tr>
<tr>
<td>HON 180</td>
<td>DATA ANALYSIS AND STATISTICS (if indicated)</td>
<td></td>
</tr>
<tr>
<td>HON 201</td>
<td>STATES, MARKETS, AND SOCIETIES</td>
<td></td>
</tr>
<tr>
<td>HON 203</td>
<td>SEMINAR IN MULTICULTURALISM</td>
<td></td>
</tr>
<tr>
<td>HON 302</td>
<td>JUNIOR SEMINAR IN SOCIAL JUSTICE</td>
<td></td>
</tr>
</tbody>
</table>

1 For BFA majors, requirement is LSP 120 OR HON 180

Students with a Discrete Math, Data Analysis, Statistics, or Calculus requirement for the major are waived from HON 180.

*Advanced placement credit will fulfill Honors Core requirements as listed:
- AP Literature credit for ENG 101 (previously ENG 120) will fulfill HON 101
- AP credit for HST 111 or HST 171 fulfills HON 102
- AP credit for MAT 135, MAT 150 or MAT 242 will replace HON 180

### Math

Students who do not have a math requirement for the major will complete HON 180: Data Analysis and Statistics. Students in a BFA program may replace HON 180 with LSP 120: Quantitative Reasoning.

### Arts
- HON 205
- One applied, performance, or studio course from approved list.
- BFA Animation majors do not have a fine arts elective requirement for the Honors Program and will replace HON 205 with the Arts & Literature requirement.
- BFA students in majors outside of Animation are required to complete HON 205, but they do not have a dine arts elective requirement for the Honors Program.

### Language
- Three courses of intermediate or advanced language study.
- BFA majors do not have a language requirement for the Honors Program.

Students who meet the proficiency requirement by placing at the 200-level of a language may complete the language requirement with one year of a beginning language study.

### Junior Seminar
- HON 302

The Honors Program is committed to developing students’ knowledge and cultural awareness so they may respect and learn from difference. Honors students meet the multicultural requirement by completing HON 302.

### Senior Capstone

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HON 350</td>
<td>HONORS SENIOR SEMINAR</td>
<td></td>
</tr>
<tr>
<td>HON 351</td>
<td>HONORS SENIOR SEMINAR IN SERVICE LEARNING</td>
<td></td>
</tr>
<tr>
<td>HON 395</td>
<td>HONORS SENIOR THESIS</td>
<td></td>
</tr>
</tbody>
</table>

Students who choose to complete an Honors Senior Thesis must have their project approved at least one term prior to executing the project. To gain approval for a senior thesis, students must complete an application, including a project proposal, signed by two faculty advisors. In keeping with the interdisciplinary nature of the program, the thesis should attempt to move outside the boundaries normally associated with one particular discipline and should be supervised by two readers from different academic fields. While the final product must be a substantial piece of work building on the student’s accumulated knowledge and new research, specific requirements for each thesis will depend on the nature of the project. See the Director or Associate Director for an application and thesis materials. Students may opt to enroll in HON 300: Honors Research Seminar (a two-credit elective) to receive dedicated guidance as they prepare the thesis project.

### Honors Approved Electives

Approved Electives are designed to help students achieve expertise in a field outside of the major. These courses are chosen in consultation with an Honors advisor to achieve specific academic or professional goals. CDM students are allotted between 0 and 2 Approved Electives, depending on their major and concentration. Students should consult
their Degree Progress Report (DPR) to determine the number of Approved Electives they are required to fulfill.

**Experiential Learning**
Honors students fulfill the university’s requirement for Experiential Learning (EL) through completion of an internship course, a service learning course, or through participation in a study abroad program. The course will verify completion of the EL requirement and be placed where appropriate in the student’s academic program – either as a major requirement, open elective, Honors Approved Elective, or (in the case of HON 351 (https://catalog.depaul.edu/search/?P=HON%20351)) an Honors core requirement.

**Major Field Adjustments**
In addition, participation in the University Honors Program may affect the requirements for a student’s major field. The following adjustments may occur:

- BFA majors in the Honors Program will replace the Honors Approved Elective with one of the required Arts & Literature courses. The second Arts & Literature course requirement is waived.
- CDM majors with major requirements placed in the liberal studies section of the degree will have their Honors Approved Elective requirement adjusted accordingly so that the number of Honors requirements coheres with the number of liberal studies requirements.

**Grade Requirements**
A grade of C- or higher in HON 100 and HON 110 or HON 111 is required to remain in the Honors Program.

A grade of C- or higher is required to pass the following courses: HON 100, HON 350, HON 351, and HON 395.

**Program Combination Restrictions**
Students majoring in certain degree programs are forbidden from pursuing certain secondary/double majors:

<table>
<thead>

Students pursuing certain minors are forbidden from pursuing certain other minors:

### Online Learning

Many courses are available for review and playback via the CDM Course Online playback system (COL). If a course is COL-enabled, any student registered in the course has access to the course playback. Students are strongly encouraged to utilize the COL resource wherever available. Some undergraduate courses are offered online. CDM is pleased to offer an online degree completion plan for undergraduate transfer students in BS in Information Technology and BS in Computer Science.

### Graduate Academics

The College of Computing and Digital Media offers BA, BS, and BFA degrees at the Undergraduate level and MA, MS, MFA, and PhD degrees at the Graduate level. An option to pursue a combined Bachelor/Master's degree is also available for qualified students.

**CDM Graduate Academic Student Handbook**

In addition to the DePaul University Graduate Student Handbook, the College of Computing and Digital Media Graduate Student Handbook includes the rules and regulations for its graduate programs. Additional academic information and regulations applicable to our graduate programs appear in specific graduate program sections.

As a graduate student, you assume the responsibility to know and meet both the general and specific policies and deadlines outlined in this catalog and handbook.

Specific degree completion information can be found on each program page.

### Dismissal / Probation

Master's Degree and MFA Degree students are required to meet all GPA requirements for their declared program. If a student's cumulative GPA falls below 2.5 (3.0 for MFA in Film and Television Directing or MFA in Screenwriting) the student may be allowed to complete an additional 16 credits or 3 quarters (whichever comes first) to return to good academic standing. If at the conclusion of this time period the cumulative GPA remains below the required minimum, the student may be dismissed from the program.

Doctoral student progress will be evaluated annually by faculty members in the respective program committee. Students must maintain a GPA of 3.5 or better to remain in good standing in the program. Any course grade below B- is unsatisfactory and will not be counted toward degree requirements. The program committee will ask a student to withdraw from the doctoral program if the committee members judge that the student is not satisfactorily progressing toward the degree.

### Evaluation and Credit / Limitations

**Using Undergraduate Credit for Graduate Courses**

All courses numbered 100 through 399 are considered to be at the undergraduate level and are not accepted for graduate credit.

**Transfer Credit**

Transfer credit is not widely accepted at the graduate level. However, in certain circumstances and with the approval of the student's faculty advisor, it will be considered. In all instances:

- A maximum of two (2) courses will be considered for transfer into any CDM graduate degree program.
- Any course that has already been applied toward a degree may not be applied again as transfer credit in a different degree.
- If approved, the credit transferred to DePaul University applies only to programs offered through the College of Computing and Digital Media (CDM).
- Credit earned through a program in the Institute for Professional Development (IPD) at DePaul University is considered transfer credit and is subject to all transfer credit policies.
- In order for a request for transfer credit to be considered, please submit the following materials to the CDM Academic Success Center:
  - An official copy of the transcript from the school where the course was completed.
  - A written statement confirming that the course did not apply towards a previously earned degree.
  - A written statement explaining how this course might apply to your program in CDM.

Graduate level introductory courses, typically numbered between 400 and 419, may not be substituted for any course at any other level.

### Second Degree

CDM does not permit admission to more than one (1) graduate program at a time. Under no circumstances may one (1) course be used to satisfy requirements in multiple programs, except for Introductory Courses (i.e., waivable). Students may not repeat the same course for credit in multiple programs. Cross-listed courses are considered to be one course in this policy. Students wishing to apply unused courses from one degree to another must consult with an academic advisor.

### Graduation Requirements

Following is a list of degree completion/graduation requirements that may not be waived under any circumstances.

Complete the minimum number of credit hours required for the declared program of study. The minimum required credit hours are:

- 52 graduate credit hours for MS and MA degrees
- 64 graduate credit hours for the MFA degrees in Creative Producing, Documentary, and Game Design
- 68 graduate credit hours for the MFA degree in Screenwriting
- 79 graduate credit hours for the MFA degree in Animation
- 96 graduate credit hours of the MFA degree in Film and Television
- 60 graduate credit hours beyond a master's degree for PhD degrees

**Earn a minimum cumulative GPA:**

- Master's and MFA degrees require a minimum cumulative GPA of 2.5 (minimum cumulative GPA of 3.0 required for MFA in Film and Television and MFA in Screenwriting)
- A PhD degree requires a minimum cumulative GPA of 3.5

Satisfy all program specific GPA requirements. See program descriptions for details.
Students pursuing an additional graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.

PhD and MFA graduates must obtain final approval for degree conferral from the designated review committees. Students should consult their faculty advisors regarding this approval.

In addition, students must successfully complete all degree requirements as listed on the program pages of the catalog under which they were admitted.

Grades, Repeating Classes
All grades from all graduate level courses are computed in the cumulative GPA. When a student repeats a graduate level course, both the old and new grades are calculated in the graduate GPA. Grades earned in certificate programs through the Institute for Professional Development are not included in the calculation of the graduate GPA.

Graduation with Distinction
Master of Science degrees will be awarded with distinction to students who earned a cumulative graduate GPA of 3.9 or higher.

Readmission
A student must complete the graduate program requirements in place at the time of the student's first enrollment in the graduate program. A student who changes graduate programs while his/her studies are in progress must complete the requirements in place at the time he or she enrolls in the new program. A student who changes graduate programs during a break between terms (e.g., spring break) follows the requirements in place for the term immediately following the break.
A student who applies for readmission will be subject to the program and concentration requirements in place in the enrollment term of readmission.

Registration
All students are expected to enroll in courses according to the deadlines posted in the University Academic Calendar. Exceptions to the enrollment deadline are rarely approved. If a student believes he/she has an extenuating circumstance that warrants consideration of an exception, an appeal may be submitted online via MyCDM.

Graduate students may enroll in only graduate level courses. Graduate courses are numbered 400-699.

Online learning students MUST register for the appropriate online course section. Failure to register for an online learning section prohibits the student from online learning services, including exam proctoring.

Special Note: Students are NOT allowed to attend a course or utilize online course technology if they are not on the class roster.

CDM does not allow enrollment in closed courses and students are not allowed to attend any courses for which they are not enrolled. Students wishing to enroll in a closed course may elect to add themselves to the course waitlist in campus connect:

- Waitlists allow students to be auto-enrolled in a class as seats become available.
- Auto-enrollment from the waitlist occurs hourly during the first week of enrollment and two times per day until the last day to add a class.
- All waitlists expire after the last day to add a class each term. If not enrolled by this deadline, students are no longer eligible to enroll.
- Students are strongly encouraged to closely monitor their e-mail accounts if they have any waitlisted courses.

Online Learning
DePaul CDM Online Learning programs are specifically designed to complement the busy lifestyle of working professionals. Our Course Online (COL) lecture playback system brings the unique experience of an on-campus DePaul CDM education to off-campus students, and gives them flexibility in how, when, and where they learn.

We offer many master's degree programs that can be completed entirely online, including:

- Business Information Technology
- Game Programming
- Computer Science
- Cybersecurity
- E-Commerce Technology
- Health Informatics
- Human-Computer Interaction
- Information Systems
- IT Project Management
- Network Engineering and Security
- Predictive Analytics
- Software Engineering

Some courses in some concentrations are not available online. Please consult your faculty advisor to determine suitable alternative coursework.

Graduate students who wish to complete their degree through online learning do not register for a special online degree. Rather, they apply for one of our regular degree programs and then sign up for online sections of courses. The degree earned by an online learning student is identical to the degree earned by an on-campus student.

Combined Degrees
Students who meet the admission requirements below may choose to apply to a combined degree program. Interested students should consult their faculty advisor regarding the application procedure. This program allows students to combine many CDM bachelor's degrees with a CDM master's degree following the structure outlined below.

Admission Criteria
- Minimum of 44 quarter hours earned
- Minimum of 12 quarter hours earned at DePaul
- GPA of 3.3 or higher in courses taken at DePaul
- Endorsement of faculty advisor

In order to apply for the combined degree program, your faculty advisor must send an e-mail recommendation to the CDM Academic Success Center. The recommendation should include your full name, student ID number, and the bachelor's and master's degrees you wish to combine.

Bachelor of Arts in Professional Studies with a Major in Computing students who are enrolled via the School of Continuing and
Professional Studies (SCPS) are also eligible for this program. Interested students who meet the admission criteria for a combined degree should contact Kenn Skorupa in SCPS for more information.

**Program Structure**

Students in the combined degree program take a maximum of three graduate level courses that count toward both their bachelor’s and master’s degree requirements. Students may enroll in graduate level coursework in the junior and senior year only. Students in the combined degree program will receive the bachelor’s degree after meeting all graduation requirements including the minimum credit hours required for graduation. To earn the master’s degree, the student must earn as many additional graduate credit hours as needed to reach the minimum number of graduate credit hours required in that master’s degree. Only CDM courses can be taken as part of this program. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

**Maintaining Good Standing**

Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter.

The student and faculty advisor will be notified when the student’s cumulative GPA falls below 3.3 or when the student receives less than a C- in graduate level course.

If a student’s cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional B.A./B.S./B.F.A.

If dismissed from the combined degree program after graduate courses have been passed, the graduate courses may only apply to the undergraduate degree. Should the student later be admitted to a graduate program, graduate courses applied to the undergraduate degree may not apply to the graduate program and may not be repeated if they are required in the declared graduate curriculum. Other graduate courses may be substituted in this case.

**Designing a Course of Study**

It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.

This course of study should include the graduate courses to be taken and the undergraduate courses that are replaced by the graduate courses. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.

It is advisable for the student and the faculty advisor to enter the proposed plan of study in the student communication record on the CDM intranet so it is available to the student and CDM faculty and staff.

**Registering for Master’s Degree Courses**

Combined degree students must meet regularly with their faculty advisor. The faculty advisor will initiate the registration process for all graduate level courses taken during the undergraduate career.

**Bachelor’s Degree to Master’s Degree Transition**

In order to be fully admitted to the designated master’s program, the student must meet all admission requirements for that program. When preparing to complete the undergraduate portion of the combined degree, students must submit the application for degree conferral for the undergraduate degree by the application deadline. At this time, the students should contact the CDM Academic Success Center about the procedure required to be formally admitted to the declared graduate program.

**Admission & Aid**

**Graduate Admission**

Applicants to CDM graduate programs can choose from degrees that span the computing and digital media spectrum, including master’s, MFA, and PhD programs.

Information about admission requirements can be found on the CDM website, under Prospective Students: www.cdm.depaul.edu (http://www.cdm.depaul.edu)

CDM does not permit admission to more than one (1) graduate program at a time. Students wishing to pursue a second graduate program must complete the requirements for the first program (i.e., graduate) and then apply to the second program.

Typically, applicants for the MS programs take about two weeks to process, while MFA and PhD applications will take additional time.

**Special Programs**

**Institute for Professional Development**

The College of Computing and Digital Media established the Institute for Professional Development in 1985 to offer certificate programs designed to meet the needs of both individuals and businesses in the Chicagoland area. These non-degree offerings provide intensive training in a wide variety of areas, with each standalone certificate program addressing a different set of theoretical concepts and practical skills. Emphasis is placed on gaining practical experience through a combination of lectures and demonstrations complemented by laboratory exercises and homework assignments. Certificate programs are typically taught by a team of instructors, that includes both full-time faculty and part-time instructors from industry. The programs require a substantial commitment of time, as most meet two nights per week and in the morning on approximately half of the Saturdays during the program.

For a list of current certificate program offerings see: https://www.cdm.depaul.edu/ipd/Pages/default2.aspx.

**School of Cinematic Arts**

The School of Cinematic Arts is home to our animation and cinema programs, industries which are still evolving and merge creativity and technology, imagination and technique, and vision and execution.

**Faculty**

- David Miller, Ph.D.
  Dean
  University of Chicago
- Brian Andrews, M.F.A.
  Assistant Professor
  School of the Art Institute of Chicago

College of Education

DePaul University, founded on Judeo-Christian principles, continues to assert the relevance of these principles through higher education to our students. The University expresses these principles especially by passing on the heritage of St. Vincent DePaul: individual perfection manifested through purposeful involvement with other persons, communities and institutions. The College of Education manifests these principles in its purpose, and through its programs.

As an urban institution, the College of Education is committed to improving primary and secondary education in the metropolitan area and, in particular, in the city of Chicago. Framed within a commitment to promote and support diversity, the College of Education prepares all of its students to be "Urban Professional Multicultural Educators" who:

- Promote positive transformation
- Consider multiple perspectives
- Integrate inquiry, theory, and practice
- Exhibit Vincentian personalism
- Function as life long learners.

are offered in the COE. Any other programs or content areas will require students to request an endorsement evaluation. The COE can only evaluate transcripts for those programs or content areas that have successfully passed the TAP, Content Area, and edTPA assessment.

To receive Illinois State Board of Education licensure, a student must meet both the general and particular policies, and deadlines outlined in this catalog and handbook. As an undergraduate student you assume the responsibility to know and meet both the general and particular policies, and deadlines outlined in this catalog and handbook.

**Academic Advising**

DePaul University College of Education’s Academic Advising Office is committed to engaging students through a holistic partnership focused on personalized educational and professional goals.

Nancy Hashimoto, Ed.D.,
Director of Advising and Licensure Officer

Gerald Cruz
Academic Advisor

Kevin McCann
Academic Advisor

Brandon Washington
Academic Advisor

Sandra Tanksley
Advising Assistant

**Office of Student Teaching and Field Experiences**

Kathleen Liston
Director of Student Teaching

Jalen Hamilton
Placement Specialist

Elyse Kienitz
Placement Specialist

**Academic Success Center**

Nora Murphy
Coordinator/Director

**Undergraduate Academics**

The College of Education is home to Undergraduate majors, Graduate programs, Licensures and Endorsements.

**Academic Policies**

In addition to the DePaul University Undergraduate Student Handbook, the College of Education Undergraduate Student Handbook includes the rules and regulations for its undergraduate programs. Additional academic information and regulations applicable to our undergraduate programs appears in the specific undergraduate section.

As an undergraduate student you assume the responsibility to know and meet both the general and particular policies, and deadlines outlined in this catalog and handbook.

**Licensure Requirements**

To receive Illinois State Board of Education licensure, a student must complete all licensure coursework and requirements, including having all field experience hours completed and approved, have a 2.75 GPA, and have successfully passed the TAP, Content Area, and edTPA assessment.

**Endorsement Evaluations**

Students in Teacher Education Programs can submit an application to their academic advisor to request an endorsement evaluation. The COE can only evaluate transcripts for those programs or content areas that are offered in the COE. Any other programs or content areas will require an Illinois State Board of Education evaluation. A grade of C or better is required for all courses to apply toward endorsements.

Endorsements conducted by DePaul are valid only prior to applying for the teaching license. After earning the license, the individual needs to request a separate evaluation directly with ISBE who will independently review the record and whose results may differ from the DePaul evaluation. The DePaul evaluation is based on ISBE requirements at the time of the evaluation and is subject to change per ISBE’s discretion.

**Evaluation and Credit**

**Auditing Courses**

Students cannot audit courses that are part of their degree or certification requirement. However, students may choose to audit other courses. Audited courses are not graded and students receive no credit for the course.

**Double Majors**

Please refer to the undergraduate student handbook section of the catalog for the current policy regarding COE majors and options for double majoring.

**Undergraduate Inter-College Transfer (ICT)**

Undergraduate students who wish to transfer to another program within DePaul should submit an ICT request through Campus Connect. In order to transfer, students must meet the admission criteria of the program to which they are transferring.

**Request to Register for More than 20 CREDIT HOURS (Undergraduates only).**

For consideration of this request, you must have a 3.0 cumulative GPA, have successfully completed at least 44 credit hours, and have successfully completed 4 courses the previous quarter. DEADLINE: Last day to add classes deadline.

**Request to Transfer Credit as Part of FINAL 60 Credit Hours at DePaul (Undergraduate Residency Requirement)**

A request to take and transfer in credit from another institution as part of your final 60 hours of credit at DPU is granted only under extenuating or extra-ordinary circumstances. Any request must be accompanied by documentation demonstrating your need for this exception. All requests are evaluated on a case-by-case basis. DEADLINE: Last day to add classes for that term.

**Undergraduate Academic Standing**

In order to maintain academic standing, undergraduate students in most majors must have a 2.5 or better GPA. Students who do not have a 2.5 GPA will be placed on probation. Students who do not have a 2.75 GPA will receive an academic alert. Students in the Exercise Science major must maintain a minimum GPA of 2.0 to remain in good standing and need a 2.0 GPA to graduate.

In order to student teach and graduate, undergraduate students must have a 2.75 GPA.

**Discontinuation and Re-admission**

Students who have stopped their program of study for 3 consecutive quarters will be dropped from that program and must re-apply for re-admission through the admission office. Re-admitted students must follow curriculum requirements as they exist at the time of re-admission.

**Credit Hour Conversion**

DePaul University’s academic calendar is based on the quarter system. College credit is accumulated on the basis of quarter hours. To convert credit hours from the semester system to the quarter system, multiply
the number of semester hours by 1.5 (example: 3 semester hours x 1.5 = 4.5 quarter hours). To convert credit hours from the quarter system to the semester system, multiply the number of quarter hours by .67 (or 2/3) (example: 4 quarter hours x 2/3 = 2 2/3 semester hours).

**Graduation Requirements**

**Degree Conferral Requirement**
In order for a student's degree to be conferred, the student must complete all degree coursework and requirements, have a minimum 2.75 GPA (Exercise Science majors need a minimum 2.00 GPA), and meet the degree conferral application deadline for the quarter in which he or she wants the degree to be conferred.

- Fall quarter deadline is October 1;
- Winter quarter deadline is January 15;
- Spring quarter deadline is February 1; and
- Summer deadline is July 15.

**Requirements to Participate in Graduation Ceremony**
To participate in the graduation ceremony in the spring, a student must meet all of the following requirements:

- Complete all degree coursework by the end of the Spring quarter preceding the ceremony and have applied for graduation before the designated deadline.
- Complete student teaching or have academic clearance to student teach in spring quarter.
- Pass all licensure required tests (except edTPA) by April 1.
- Have a minimum of 2.50 cumulative GPA.

**Honors at Commencement Ceremony**
Honors announced and listed at the Spring Commencement ceremony are based on the cumulative GPA of the end of the Winter quarter prior to the Spring Commencement Ceremony. The final determination for qualifying for honors is made at the time the individual is awarded the degree, regardless of the announcement or listing at the ceremony. The official designation for honors will be noted on student’s transcripts and diploma.

The determination for honors is based solely on the final cumulative grade point average.

- Cum Laude - cumulative GPA between 3.500 and 3.699
- Magna Cum Laude - cumulative GPA between 3.700 and 3.849
- Suma Cum Laude - cumulative GPA above 3.850

**Probation and Dismissal**
A student whose GPA falls below a program’s minimum GPA requirement will receive a registration hold and be unable to register for classes. The student must meet with his or her academic advisor and make an appointment with the Academic Success Center to develop a plan for returning to good academic standing. Students who remain on academic probation for 3 consecutive quarters will be dismissed from the COE. Students may apply to transfer to other programs at DePaul.

**Student Teaching**

**Content Area Coursework**
All content area coursework requirements must be completed prior to student teaching. A grade of C or better is required for all content area coursework requirements. Remedial coursework and CLEP tests cannot substitute for content area coursework.

**Defer Student Teaching**
If extenuating circumstances exist, you may request a deferral of your student teaching placement. Valid reasons would only include health-related issues, change in employment status or employment opportunity, personal hardship, or course related issues. DEADLINE: First day of student teaching.

**Extend Student Teaching Clearance Deadline**
Requests to extend the academic clearance deadline for student teaching may be submitted under extenuating circumstances. A valid request, for example, might occur when you have applied to student teach on time but failed a content area test prior to final clearance. If another testing opportunity exists prior to the start of student teaching, you may apply for an exception to complete the requirement and have your clearance re-evaluated. DEADLINE: The prior quarter’s last day to add classes deadline (e.g., for Fall Quarter, the deadline is the prior Spring Quarter’s last day to add classes deadline; Winter is Fall’s deadline; Spring is Winter’s deadline).

**Out-of-State Student Teaching Placement Request**
Requests for out-of-state student teaching placements are granted only on rare occasions and require a statement of hardship for consideration. Valid reasons for the request include health-related issues, change in employment status or employment opportunity, personal hardship, or course-related issues. Please note that to ensure proper supervision additional costs may be associated with out-of-state student teaching. DEADLINE: Same as student teaching application deadline.

**Student Teaching in an Elementary, Middle School, or High School You Attended as a Student**
Students cannot student teach in any school in which they were enrolled as a student within the last 10 years.

**Student Teaching in Your Own Classroom Request**
In order to apply for this request, you must have at least two years of supervised classroom teaching experience. Attach a completed Application to Student Teach in Your Own Classroom form to the request for exception form. DEADLINE: Same as student teaching application deadline.

**Student Teaching Requirements**
All program coursework must be completed prior to student teaching. A grade of B- or better is required in student teaching to complete successfully student teaching.

**Waiving Student Teaching Requirements**
Requests to waive student teaching must follow the Illinois State Board of Education student teaching waiver policy.

**Registration: Exception to Advance Standing**
Exceptions to advanced standing are only granted on a one-time only basis and must be approved by the Associate Dean or his or her designate.

**Registration Withdrawal**

**Withdraw from Classes Due to Hardship**
Students may request to withdraw from classes due to personal and/or medical hardships. Students should contact the University Dean of Students to request a hardship withdrawal.

**Withdrawal from the COE**
To officially withdraw from any COE program, a student should contact his or her academic advisor and petition in writing his or her intent to withdraw.
### Honors Program

Most students follow the Liberal Studies Program (https://catalog.depaul.edu/undergraduate-core/liberal-studies-program/) to meet their general education requirements. However, students accepted into the Honors Program (https://catalog.depaul.edu/undergraduate-core/honors-program/program-requirements/) fulfill general education requirements through an alternative set of courses. A student in the Honors Program pursuing a primary major in the College of Education follows the requirements below:

<table>
<thead>
<tr>
<th>Honors Core Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HON 110 or HON 111</td>
<td>HONORS DISCOVER CHICAGO</td>
<td>4</td>
</tr>
<tr>
<td>HON 100</td>
<td>RHETORIC AND CRITICAL INQUIRY</td>
<td>4</td>
</tr>
<tr>
<td>HON 101</td>
<td>WORLD LITERATURE</td>
<td>4</td>
</tr>
<tr>
<td>HON 102</td>
<td>HISTORY IN GLOBAL CONTEXTS</td>
<td>4</td>
</tr>
<tr>

</tbody>
</table>

Select one of the following:

| HST 181 | UNITED STATES TO 1800 | 4 |
| HST 182 | UNITED STATES, 1800-1900 | 4 |
| HST 183 | UNITED STATES, 1900-PRESENT | 4 |

*Advanced placement credit will fulfill Honors Core requirements as listed:

- AP Literature credit for ENG 101 (previously ENG 120) will fulfill HON 101
- AP credit for HST 111 or HST 171 fulfills HON 102

1 HON 180 is not required for students with a Calculus, Statistics, or Discrete Mathematics requirement for the major.

2 HON 205 is not required for students in School of Music, The Theatre School, or the BFA Animation major in CDM.

Students majoring in Secondary Education Social Science and History replace this requirement with an Economics course selected in consultation with the student’s major advisor.

### Science Requirement

- Two courses:
  - HON 225 (not a Biology section) (AP credit for BIO 191 or CHE 130/131 or PHY 150 or ENV 102 fulfills HON 225) OR Scientific Inquiry Lab Course.
  - One Biology course
- Students majoring in Secondary Education Social Science or History will opt for an HON 225 Biology section and a Scientific Inquiry Geography course selected in consultation with the student’s major advisor. If no Honors Biology sections are offered they may replace HON 225 with a Biology Lab course approved by COE advisor. These students should also consult with their Honors advisor about successful completion of their science requirements.

- Students with a science major in Education will replace this requirement with two non-science electives at the 200 or 300 level.
- Early Childhood Education and Elementary Education majors should consult with COE and Honors advisors about additional requirements in Social Science and Scientific Inquiry, which may possibly replace Honors requirements.

### Language Requirement

- Honors students in the College of Education have a one year (three course) language requirement. This requirement can be fulfilled through either completion of one year of study of the student’s high school language or one year of a new language the student has not yet studied. Students opting to continue their high school language are required to complete a placement test and must begin language study according to their placement.

Language majors must fulfill the Honors language requirement with an alternate approved 3-course sequence. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

### Junior Seminar

- HON 302

The Honors Program is committed to developing students’ knowledge and cultural awareness so they may respect and learn from difference. Honors students meet the multicultural requirement by completing HON 302.

### Senior Capstone

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HON 350</td>
<td>HONORS SENIOR SEMINAR IN SERVICE LEARNING</td>
<td>4</td>
</tr>
<tr>
<td>HON 351</td>
<td>HONORS SENIOR SEMINAR</td>
<td>4</td>
</tr>
<tr>
<td>HON 395</td>
<td>HONORS SENIOR THESIS</td>
<td>4</td>
</tr>
</tbody>
</table>

Students who choose to complete an Honors Senior Thesis must have their project approved at least one term prior to executing the project. To gain approval for a senior thesis, students must complete an application, including a project proposal signed by two faculty advisors. In keeping with the interdisciplinary nature of the program, the thesis should attempt to move outside the boundaries normally associated with one particular discipline and should be supervised by two readers from different academic fields. While the final product must be a substantial piece of work building on the student’s accumulated knowledge and new research, specific requirements for each thesis will depend on the nature of the project. See the Director or Associate Director for an application and thesis materials. Students may opt to enroll in HON 300: Honors Research Seminar (a two-credit elective) to receive dedicated guidance as they prepare the thesis project.

Honors students who do not have a statistics or calculus requirement for their major must complete HON 180, Data Analysis and Statistics, before completing the science requirements. Honors students who
have a statistics or calculus requirement for their major are waived from HON 180, and the course will be replaced by an open elective.

Grade Requirements
A grade of C- or higher in HON 100 and HON 110 or HON 111 is required to remain in the Honors Program.

Grade Requirements
A grade of C- or higher is required to pass the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HON 100</td>
<td>RHETORIC AND CRITICAL INQUIRY</td>

Graduate Academics
The College of Education is home to Undergraduate majors, Graduate programs, Licenses and Endorsements.

Education Graduate Academic Student Handbook
In addition to the DePaul University Graduate Student Handbook, the College of Education Graduate Student Handbook includes the rules and regulations for its graduate programs. Additional academic information and regulations applicable to our graduate programs appears in the specific graduate section.

As a graduate student you assume the responsibility to know and meet both the general and particular policies, and deadlines outlined in this catalog and handbook.

Specific Graduate Program Information can be found on each program page.

Admission, Readmission, and Reclassification
Admission
Applicants to Master’s degree programs must have a bachelor’s degree from a regionally accredited college or university. Applicants to the doctoral program must have a Master’s degree from a regionally accredited college or university. Please consult specific programs for admission requirements.

Readmission
Students who have not taken classes for one year or more must reapply for admission. Depending on the length of time the student has stopped out, repetition of courses or additional courses may be required by the department or program. In all cases, the student is bound by the program requirements in force at the time of readmission.

Reclassification
Graduate students may change from one concentration to another within a major, but only by applying for reclassification. Once students have decided to change their concentration, they should complete a Reclassification Application form, available online or from the College of Education Advising Office. Any administrative questions about changing concentrations should be directed to the College of Education Advising Office, Schmitt Academic Center 481, at 773-325-4409. Graduate students who are interested in changing majors should not complete the Reclassification Application form. Instead, graduate students wishing to change majors should submit a new graduate application. The student’s file will be reevaluated to determine if the admission guidelines for the major for which he/she is applying are met. Additional application materials may be required.

The College of Education presently has one doctoral program. If a student wishes to change concentration, he/she should send an email to the Ed.D. Program Director indicating this request and explaining why a change of concentration is in his/her best interest, and how such a change will affect his/her program of study. The student may want to meet with the Academic Advisor to have an audit done so that it is clear what implications such a change would have on the student’s course of study. The Program Director will decide whether a change of concentration will be permitted.

Licensure Requirements
The College of Education offers approved programs for State of Illinois licensure in ten areas of study. Students may be eligible for the following endorsements upon completion of the respective programs:

- Early Childhood Education (birth-3)
- Elementary (K-9) Teaching
- General Administrative/Principal
- Learning and Behavioral Specialist I (K-12)
- Physical Education (K-12)
- Reading Specialist (K-12)
- School Counseling
- Secondary (6-12) Teaching
- Superintendent
- World Language (K-12)

Please note that state licenses include requirements beyond program requirements. For teaching licenses three tests are required: a Test of Academic Proficiency (TAP), a test of Content Area knowledge, and an Assessment of Professional Teaching (APT). For other areas a test of Content Area knowledge is required. The tests are given by the State of Illinois at regularly scheduled times each year. Students are advised to confer with program faculty or the academic advisors for further information.

Licensure is not automatic upon completion of a program. The student must apply. Forms and procedural information are available in the College of Education.

Timeliness is important. Ordinarily, only graduate work completed within the past ten years is acceptable for purposes of applying courses for licensure requirements. If the degree was granted more than ten years past, the Assistant Dean in consultation with program faculty may grant a recommendation for licensure upon the successful completion of appropriate courses and/or comprehensive examinations in the program. In all instances current licensure requirements must be met.

All licensure and endorsement requirements are subject to change based on Illinois State Board of Education modifications in requirements. All individuals must meet ISBE requirements in place at the time of application for the license.

Endorsement Evaluations
Students in Teacher Education Programs can submit an application to their academic advisor to request an endorsement evaluation. The COE can only evaluate transcripts for those programs or content areas that are offered in the COE. Any other programs or content areas will require an Illinois State Board of Education evaluation. A grade of C or better is required for all courses to apply toward endorsements.
Endorsements for teaching areas conducted by DePaul are valid only prior to applying for the teaching license. After earning the license, the individual needs to request a separate evaluation directly with ISBE who will independently review the record and whose results may differ from the DePaul evaluation. The DePaul evaluation is based on ISBE requirements at the time of the evaluation and is subject to change per ISBE’s discretion.

A doctoral candidate may apply for ISBE Superintendent’s Endorsement when the following conditions are met:

- Successful completion of all doctoral coursework, including the Educational Leadership concentration, core and research courses.
- Successful completion of A&S 899 Superintendent Internship and all the related clinical experiences.
- Completion of candidacy paper requirements
- Current holder of a valid ISBE Type 75 certificate
- Two years of documented administrative experience while holding the Type 75 general administrative certificate.
- Successful pass score on the ISBE Superintendent’s exam

Graduate Credit

Graduate students enrolled in 400 level courses and above earn graduate credit. Courses applying toward a degree generally require a C or better, however, some programs or requirements may require a higher grade as specified in the program section of the catalog. If a C- or lower is earned in a required course, the course must be repeated or substituted as directed by the department or program. Such grades remain on the academic record and are calculated into the cumulative GPA.

Graduate students enrolled in 300 level courses can earn graduate credit and grades earned in these classes will contribute toward the graduate GPA. To earn graduate credit for a 300 level course the student must enroll in the course as a graduate student. Enrolling as an undergraduate student or earning a grade of C-, D+, D, or F is unacceptable for graduate credit in this program. Graduate students cannot receive credit for 100 or 200 level courses.

Limit on Transfer Credit for Graduate Students

All COE graduate students can transfer up to 9-quarter hours (approximately 2 courses) from another college or university as credit toward their Master’s or Doctoral degree requirements. All other courses must be DePaul coursework.

Pass/Fail Option

Students can take elective courses or courses not required for licensure or degree fulfillment as pass/fail. Grades A through D represent a passing grade and are not computed into the GPA. If the course is failed, the F grade is recorded on your record and the grade is computed into the GPA. For additional regulations, refer to the pass/fail request form.

Program Completion

Timely completion of a program is important. Students in Master’s Programs are allowed six years to complete the graduate degree. A petition in writing for a one-year extension may be approved by the department or program.

Students have ten years to complete the doctoral program, beginning with the first quarter of admission. (If students deferred admission, the first quarter of attendance starts the ten-year clock.) For additional information, refer to the Doctoral Handbook.

Teaching & Learning Induction Coursework

All T&L graduate students are required to complete their Teaching & Learning (T&L) induction coursework through the DePaul University College of Education. The only exception to this policy is demonstration of out-of-state residency.

Credit Hour Conversion

DePaul University’s academic calendar is based on the quarter system. College credit is accumulated on the basis of quarter hours. To convert credit hours from the semester system to the quarter system, multiply the number of semester hours by 1.5 (example: 3 semester hours x 1.5 = 4.5 quarter hours). To convert credit hours from the quarter system to the semester system, multiply the number of quarter hours by .67 (or 2/3) (example: 4 quarter hours x 2/3 = 2 2/3 semester hours).

Graduation Requirements

Students must meet all requirements listed below for graduation.

Degree Conferral Requirement

In order for a student’s degree to be conferred, the student must complete all degree coursework and requirements, have a minimum 3.00 GPA, and...
meet the degree conferral application deadline for the quarter in which he or she wants the degree to be conferred.

**Doctorate Requirements to Participate in Graduation Ceremony**
Upon successful completion of all requirements (courses, papers/dissertation), an Ed.D. degree is earned. In order to have your degree conferral (granting) process started, students must apply online to formally indicate their intention to graduate. DePaul confers degrees at multiple points during the year, always at the close of terms. Students apply for degree conferral through Campus Connection. Students must submit a separate application to participate in the June graduation ceremony.

To participate in the graduation ceremony in the spring, a doctoral student must complete all required degree coursework, including the successful defense of his or her thesis, by the end of the Spring quarter preceding the ceremony and have applied for graduation before the designated deadline.

**Master's Graduation Requirements**
To participate in the graduation ceremony in the spring, a graduate student must complete all required degree coursework by the end of the spring quarter preceding the ceremony or have only one course outstanding, which must be completed prior to the end of the Fall quarter following the ceremony. The student must have also applied for graduation before the designated deadline.

**Graduating with Distinction**
Each COE program establishes its own criteria for graduating with distinction.

**Bilingual Bicultural Program**
- M.Ed. 4.0 GPA
- M.A. 4.0 GPA, with distinction on thesis paper (Distinction Committee)

**Counseling Programs**
- M.Ed. 4.0 GPA
- M.A. 4.0 GPA

**Curriculum Studies Program**
- M.Ed. 4.0 GPA
- M.A. 4.0 GPA, with distinction on thesis paper (Distinction Committee)

**Dual Certification Program**
- M.Ed. 4.0 GPA or possible revision based on T&L policy
- M.A. 4.0 GPA or possible revision based on T&L policy

**Educational Leadership Program**
- M.Ed. 4.0 GPA
- M.A. 4.0 GPA, with distinction on thesis paper (Distinction Committee)

**Literacy and Specialized Instruction Program**
- M.Ed. 4.0 GPA or possible revision based on program policy
- M.A. 4.0 GPA or possible revision based on program policy

**Middle School Math Program**
- M.S. 4.0 GPA

**Reading Specialist Program**
- M.Ed. 4.0 GPA or possible revision based on program policy
- M.A. 4.0 GPA or possible revision based on program policy

**Social and Cultural Foundations in Education Program**
- M.A. Distinction based on recommendation for distinction from the student's thesis committee and approval from the Thesis Review Committee. Students graduating with an M.Ed. are not eligible for distinction.

**TEACH Program**
- M.Ed. 4.0 GPA

**Teaching and Learning Program**
- M.Ed. 4.0 GPA
- M.A. 4.0 GPA, with distinction on thesis paper (Distinction Committee)

**Doctoral Degree Program (Ed.D.)**
The Successful completion of a dissertation distinguishes those students at this highest level of their educational careers. The doctoral program does not offer a formal distinction beyond this accomplishment.

**Honors at Commencement Ceremony**
Honors announced and listed at the Spring Commencement ceremony are based on the cumulative GPA of the end of the Winter quarter prior to the Spring Commencement ceremony. The final determination for qualifying for honors is made at the time the individual is awarded the degree, regardless of the announcement or listing at the ceremony. The official designation for honors will be noted on student's transcripts and diploma.

**Six-Year Limit on Studies**
Graduate students have seven years from the date of matriculation to complete program degree requirements. Graduate students may apply for a one-year extension. If a graduate student does not complete his or her degree program requirements within seven years after matriculation, he or she will need to re-apply to the degree program, upon which he or she will have his or her coursework re-evaluated and be subject to any degree program changes or new program requirements.

**Doctoral Program Ten-Year Limit on Studies**
Students have ten years to complete the doctoral program, beginning with the first quarter of admission. (If students deferred admission, the first quarter of attendance starts the ten-year clock.) For example, for a student who begins in Fall 2012, the program must be completed by Spring 2022. For students approaching this time limit, an application for extension must be submitted to the program office. This should be done no later than the fall of the tenth year, although earlier is preferable. The extension application includes the Request for Extension form, a letter from the student explaining a rationale for his/her request, and a letter of support from his/her dissertation chair.

**Probation and Dismissal**
The College of Education has a cumulative GPA requirement of 3.0 for students in a Master's Program. In addition, regardless of GPA, students are not to receive more than two grades of C or below to remain in good standing. Graduate students whose cumulative GPA falls below a 3.0 will have his or her coursework re-evaluated and be subject to any degree program changes or new program requirements.

Students on probation will receive a registration hold and be unable to register for classes. They must make an appointment with the Academic Success Center to develop a plan for returning to good academic standing.

After completing the four additional courses, if a student's cumulative GPA is still below 3.0, they will be dismissed from the College of Education. If they receive more than two grades of C or below, their status...
will be evaluated regardless of your cumulative GPA. Master’s students may appeal to the Chair of the Department in which their program is housed for re-admittance or may apply to another program. The Chair’s decision for re-admittance is final.

Doctoral students who are fully accepted into the program will be placed on probation if their grade point average falls below 3.0 prior to the completion of 36 credit hours and 3.3 after the completion of 36 credit hours. The first assessment will occur at the end of 12 credit hours. Students will remain on probation until four additional courses are taken at which time a new evaluation is done. If the grade point average is not raised students may be subject to dismissal from the College of Education.

Program Requirements
Depending on degree and concentration, Master’s programs require a minimum of 48-72 quarter hours of coursework. Some of the Master’s of Arts programs require the completion of a thesis. In general some Master of Education programs requires two masters papers related to coursework.

The doctoral program requires a minimum of 76 quarter hours of coursework. Completion of a dissertation and an oral defense before a committee of three faculty members are included in the requirements that lead to a Doctor of Education degree.

Please consult specific programs for complete degree requirements.

Student Teaching
Content Area Coursework
All content area coursework requirements, including graduate-level content area coursework, must be completed prior to student teaching. A grade of C or better is required for all content area coursework requirements. Remedial coursework and CLEP tests cannot substitute for content area coursework.

DEFER Student Teaching
If extenuating circumstances exist, you may request a deferral of your student teaching placement. Valid reasons would only include health-related issues, change in employment status or employment opportunity, personal hardship, or course related issues. DEADLINE: First day of student teaching.

Extend STUDENT TEACHING Clearance Deadline
Requests to extend the academic clearance deadline for student teaching may be submitted under extenuating circumstances. A valid request, for example, might occur when you have applied to student teach on time but failed a content area test prior to final clearance. If another testing opportunity exists prior to the start of student teaching, you may apply for an exception to complete the requirement and have your clearance re-evaluated. DEADLINE: The prior quarter’s last day to add classes deadline (e.g., for Fall Quarter, the deadline is the prior Spring Quarter’s last day to add classes deadline; Winter is Fall’s deadline; Spring is Winter’s deadline).

OUT-OF-STATE Student Teaching Placement Request
Requests for out-of-state student teaching placements are granted only on rare occasions and require a statement of hardship for consideration. Valid reasons for the request include health-related issues, change in employment status or employment opportunity, personal hardship, or course-related issues. Please note that to ensure proper supervision additional costs may be associated with out-of-state student teaching. DEADLINE: Same as student teaching application deadline.

Student Teaching in an Elementary, Middle School, or High School You Attended as a Student
Students cannot student teach in any school in which they were enrolled as a student within the last 10 years.

Student Teaching in YOUR OWN Classroom Request
In order to apply for this request, you must have at least two years of supervised classroom teaching experience. Attach a completed Application to Student Teach in Your Own Classroom form to the request for exception form. DEADLINE: Same as student teaching application deadline.

Student Teaching Requirements
All program coursework must be completed prior to student teaching. A grade of B- or better is required in student teaching to complete successfully student teaching.

Teaching & Learning Induction Coursework
All graduate students are required to complete their Teaching & Learning (T&L) induction coursework through the DePaul University College of Education. The only exception to this policy is demonstration of out-of-state residency.

Waiving Student Teaching Requirements
Requests to waive student teaching must follow the Illinois State Board of Education student teaching waiver policy.

Registration: Exception to Advanced Standing
Exceptions to advanced standing are only granted on a one-time only basis and must be approved by the Associate Dean or his or her designate.

Registration Withdrawal
Withdraw from Classes Due to Hardship
Students may request to withdraw from classes due to personal and/or medical hardships. Students should contact the University Dean of Students to a hardship withdrawal.

Withdrawal from the COE
To officially withdraw from any COE program, a student should contact his or her academic advisor and petition in writing his or her intent to withdraw.

Combined Bachelors/Masters
The TEACH Program provides students the opportunity to complete in five years an undergraduate degree in a core arts and science major and a Master’s of Education degree with State of Illinois secondary education teaching certification in a content area related to their major. As a combined degree program of the College of Liberal Arts and Social Sciences, the College of Science and Health, and the College of Education, the Program is collaboratively governed and coordinated by faculty from all 3 units.

The Program is designed to draw on the expertise of LAS and CSH faculty who teach in the majors of English, Mathematics, History, the Sciences, and Social Sciences to ensure strong content knowledge preparation of students and facilitate the transition from being learners of content to teachers of content to diverse adolescent populations. The Program also draws on the expertise of faculty in the COE’s Secondary Education Program and Educational Policy Studies and Research Department to immerse students into essential issues and themes of education and theories and practices of teaching and learning. Such issues as educational inequality, politics of schooling, identity politics, social justice, identity development inside and beyond formal school settings, historical, cognitive, sociocultural, and sociopolitical nature of human
development and society are integrated with issues of pedagogical content knowledge, critical pedagogy, constructivist teaching practices, theories of teaching and learning, curriculum development, and professional practice. Ensuring that students understand all these issues is integral to the Program design and delivery and to the preparation of teachers.

The measure of the academic quality of the Program relies on clearly articulated features of exemplary teacher-education programs. These include:

- a "common, clear vision of good teaching that permeates all coursework and clinical experiences...";
- a "well-defined standard of professional practice and performance...";
- a "strong core curriculum taught in the context of practice" and including understanding of human development and learning, social and cultural contexts, curriculum assessment, and subject-matter pedagogy;
- an "extended clinical experience" that supports ideas presented in coursework;
- an "extensive use of case methods, teacher research, performance assessments, and portfolio evaluation...";
- "explicit strategies" to help students confront their own beliefs and assumptions about learning and students and to learn about the experiences of diverse people; and

Students may apply to the Program during the spring of their junior year. They must complete the Junior Year Experiential Course TCH 320, and meet other application criteria prior to applying. The curriculum of the Program consists of three components:

- Courses necessary to satisfy requirements for a baccalaureate degree in the College of Liberal Arts and Social Sciences or College of Science and Health in one of the following state of Illinois secondary certification content areas: English; History; Math; Sciences (Biology, Chemistry, Environmental Science, or Physics); or Social Sciences.
- A set of five courses that will be taken by students in the Program while they are still undergraduates; three of these will also fulfill graduate degree requirements. These courses will serve as a bridge to the 5th year Master's coursework.
- A fifth year of graduate courses which, together with the three double-counted courses mentioned above, will satisfy the requirements for a College of Education Master's in Education and a secondary-education certification in the student's discipline.

A full description of Program requirements for each content area can be found in the College of Education catalog.

Admission & Aid

The College of Education offers several graduate programs at the master's and doctoral level as well as licensure and endorsement only programs. Admission to DePaul University College of Education is very competitive. We consider numerous factors in evaluating each applicant, including undergraduate academic performance, graduate academic performance (if applicable), professional work experience, writing ability, potential for leadership, professional and academic recommendations and the applicant's special talents, qualities, interests and socioeconomic and cultural background. No single factor is dispositive.

Personal qualities that demonstrate intellectual depth, high ideals and diligence also are considered, as are economic, societal or educational obstacles that have been successfully overcome. Diversity in background and experience among the members of each entering class is a continuing objective. Having a diverse student body allows us to encourage and foster the exchange of different ideas.

DePaul University has a nondiscriminatory admission policy; it does not discriminate on the basis of race, color, national origin, religion, sex, sexual orientation, age or disability.

General Admission Procedures

Application

You can apply online at: www.depaul.edu/apply (http://www.depaul.edu/apply/). To request information about College of Education graduate programs, including endorsements, approvals and licensure, please email us at edgradadmissions@depaul.edu or call us at (773) 325-4405.

Supporting Credentials

We require official transcripts from all universities, colleges, and junior colleges you have attended. Please request that transcripts and other credentials be sent directly to the:

Office of Graduate Admission
College of Education
2400 N. Sheffield
Chicago, IL 60614-2215.

We recommend that you request transcripts in sufficient time to meet the programs deadline.

The College of Education graduate programs require additional supporting credentials before an application file is considered complete. Please consult the specific program listing on the College of Education website (https://education.depaul.edu/admission-and-aid/graduate-admission/admission-requirements/Pages/default.aspx) to determine what additional materials are required for admission and the deadline by which applications and supporting materials should be submitted.

Application Fee

You can pay the $40 application fee online as part of the online application or send a check or money order payable to DePaul University. Consult the application instructions for specific information about amount of the fee. If paying by check or money order, send it along with your supporting credentials to the:

Office of Graduate Admission
2400 N. Sheffield
Chicago, IL 60614-2215.

Applications submitted without an application fee will not be processed. The fee is non-refundable.

Application Deadline and Entry Terms

Consult the College website for program-specific information about application deadlines and to which academic terms the program admits new students.

Admission Decisions: The graduate admission office will notify you of your admission decision by letter. Admission applications will be
reviewed only after the application and all supporting credentials, along with the application fee, have been submitted.

**International Student Admission**

Students who require a student visa (I-20) in order to study at DePaul must meet all admission requirements and demonstrate adequate financial support. Applicants educated in a country in which the native language is not officially recognized as English must also submit proof of English proficiency. College of Education programs require a minimum TOEFL score of 590 (paper-based), 243 (computer-based), or 96 with no individual score less than 22 (internet-based). DePaul also accepts the IELTS (International English Language Testing System) with a minimum score of 7.5. However, students who otherwise have a strong overall academic record, but cannot demonstrate the necessary English proficiency, may be admitted conditionally. If granted a conditional admission, an applicant may enroll in DePaul’s English Language Academy (ELA). To formally begin studies in the College of Education, an applicant that has been conditionally admitted must either successfully complete ELA’s University Bridge Certificate or otherwise demonstrate the necessary English language proficiency.

The letter of admission and I-20 are issued only after admission. International students are encouraged to complete their applications at least one month prior to any published program deadline, or no later than three months before the start of the term, whichever date comes first to allow for enough time for processing the I-20.

**Applicant for Five-Year B.A./B.S. to M.Ed Programs**

The five-year B.A./B.S. to M.Ed. program is geared toward current DePaul undergraduate students who have reached junior status (88 or more quarter hours) who have declared Liberal Arts and Science major that will lead to educator licensure (biology, chemistry, English, environment science, history, mathematics, physics or social sciences). Students must have an overall grade point average of 3.0 or higher. If students have transferred to DePaul they must have at least 16 quarter hours completed at DePaul. Students must complete the Graduate College of Education Application for teaching and learning program or the special education for licensed teachers program. In order to be considered for admission, you must submit a completed application as specified by the admission requirements for the teaching and learning program or the special education for licensed teachers program. In addition to the standard application materials, you must also submit a valid Illinois teaching license and a letter from your school principal providing evidence of prior teaching experience and teaching performance. (If you are currently not employed as a teacher, then other evidence of prior teaching experience must be provided.) In addition, evidence of having passed the Illinois Basic Skills Test/Test of Academic Proficiency (TAP) must be submitted by the end of the first quarter of completed course work.

**Non-Degree Applicants**

The College of Education may admit non-degree seeking students who wish to take a course(s) to complete prerequisites for admission, personal enrichment or professional development. To enroll a non-degree student, all you will need to submit is an application and a $40 application fee. Official transcripts are not required for admissions but will be required after the completion of two courses. Please note that course work completed in a non-degree status may or may not be applicable to a degree program and is subject to approval by the advisor and appropriate department chair.

**Readmission Applicants**

If you were previously admitted to DePaul but have been absent for more than one year, you must submit an application form, DePaul transcripts, and transcripts of any courses taken elsewhere during your absence. To use materials from a previous application, you must indicate, in written form, which materials you would like to apply to your new application. If the original application has been destroyed (after an absence of two years), you will be required to resubmit the entire application and all supplemental materials. A $10 application fee is required.

**Deferring Admission**

If you do not enroll in the term to which you were admitted, you may request that your admission be deferred for up to one year after the term to which you were admitted. After one year, you must reapply to the program. Email edgradadmissions@depaul.edu to request a deferral.

**Scholarship Opportunities**

Please subscribe to the COE Advising weekly email to stay informed about COE scholarship opportunities that become available throughout the school year.

Any questions can be sent to coescholarships@depaul.edu.

**Double Demon Scholarship**

The Double Demon Scholarship is awarded to DePaul alumni and covers 25 percent of tuition for degree, non-degree or select certificate coursework taken at the graduate level. Both full-time and part-time students are eligible and no application is necessary. To learn more, contact the admission office for your college of interest (see listing below).

For other DePaul University scholarships please visit the Admission & Aid section on the DePaul home page.

**Financial Aid**

For all information regarding Financial Aid, please visit the Financial Aid link under the Admission & Aid section on the DePaul home page.

You may also contact DePaul Central for help with Financial Aid, Student Accounts and Student Records.
Special Programs
Licensure and Endorsements
The College of Education offers a variety of licensure and endorsement programs for current and aspiring teachers, counselors and education specialists and leaders who are interested in furthering their professional development and enhancing their credentials.

- Licensure (p. 1377)
- Endorsements (p. 1360)
- Professional Special Programs (p. 1387)

Department of Counseling and Special Education
The vision of the Department of Counseling and Special Education is to advance knowledge, model effective practices, as well as promote advocacy both for our professions and for those whom we serve. We prepare professionals based on sound theory-guided and evidence-based practices to be socially responsible leaders who value the dignity and integrity of all people, particularly those who are historically under-served or under-represented.

The Department of Counseling and Special Education is a community of scholars who value the role of the practitioner in all roles of teaching, research and service. Faculty use student-focused methods to enhance engagement of future professionals in learning and applying their knowledge and skills in diverse settings. This commitment to theory-guided and evidence-based practices is also demonstrated through faculty's teaching, scholarship and service endeavors. We seek to foster Vincentian Personalism and provide opportunities for advancement through education.

The Department is comprised of two programs from distinct yet related fields. Each program has the following distinct foci and needs:

Counseling Program
The Counseling Program provides individuals with theoretical frameworks and competencies that prepare them to offer counseling services. There are three degree specialty areas within the program: clinical mental health counseling, college counseling and student affairs, and school counseling. The specialty areas of clinical mental health counseling and school counseling integrate Illinois state requirements for licensure, and all specialty areas meet national standards for professional practice. School counseling and college counseling and student affairs programs are 72 credit hours, and the clinical mental health counseling program is 90 credit hours. All specialty areas include a 100 hour practicum and 600 hour internship. These clinical experiences are mandatory, and for the school counseling and clinical mental health counseling specialty areas, they are required by the state for licensure. A degree from the Counseling Program prepares students for career opportunities such as school counseling in elementary, middle, and high schools; counseling in community agencies; counseling in higher education; career counseling through the lifespan; counseling in hospitals or institutional-care settings; group counseling; couples and family counseling; or counseling in private practice, depending upon the chosen specialty area. All of the specialty areas emphasize and are designed to foster leadership, advocacy, and social justice.

Special Education Program
The Special Education program currently offers three concentrations all leading to either an M.A or an M.Ed. The Special Education for Teachers program prepares currently licensed teachers to work in special education and results in a LBS1 license (K-12). Students in the Special Education for Teachers program may work in a variety of settings as special education teachers. Combining the disciplines of Learning Disabilities and Reading Education, the Reading and Learning Disabilities concentration leads to a Reading Specialist License (K-12) and prepares students to work as reading specialists within school as well as professionals in clinics or private practice. A third concentration, the Special and Elementary Education (Licensure) in Elementary Education and Special Education, is for individuals with a Bachelor's Degree in an area other than education. This pre-service program leads to both a LBS1 and an Elementary Education license. Graduates of the Special and Elementary Education (License) program may teach in either general or special education settings. Please note that the Illinois State Board of Education (ISBE) may change the State licensure and endorsement requirements at any time and without prior notice.

The following graduate programs are offered at Lincoln Park:

- MA or MEd Counseling
- MA or MEd Reading Specialist
- MEd Special Education

Department of Leadership, Language & Curriculum
The Department of Leadership, Language and Curriculum is a multidisciplinary academic body that aims to fully prepare urban multicultural professional practitioners and leaders to work in a variety of educational and community settings. Practitioners who complete a course of study offered by our department will contribute to their respective fields, balance theory with practice, consider multiple points of view in decision making, promote positive transformations in the settings in which they are engaged, and continue to function as life long learners. The practitioner's professional role is shaped by ongoing reflection and positive engagement with the individual, the community, and the larger sociopolitical realities. The preparation we offer practitioners demonstrates our commitment to social justice, critical pedagogy, and positive educational transformation. The disciplines in the Department address these themes from a variety of perspectives that include language and culture, curriculum theory and development, and educational leadership in administration and supervision.

The following programs are offered at Lincoln Park:

- MA or MEd in Bilingual Bicultural Education
- MA or MEd in Curriculum Studies
- MA or MEd in Educational Leadership
- Minor in Bilingual Education
- Minor in English as a Second Language
- Minor in English as a Second Language and Bilingual Education

The following programs are offered Online:
• MA or MEd in Curriculum Studies (Online)
• MEd in Value-Creating Education for Global Citizenship (Online)

Department of Teacher Education

The Department of Teacher Education prepares educators through an integrated program of course work and field experiences with an emphasis on the relationship of theory to practice and a commitment to serving diverse populations. The programs of study center on investigating significant educational issues, conducting inquiry of student learning and effective teaching practices; using technology in teaching and learning; exploring the foundational disciplines of history, philosophy, psychology, sociology, and human development as they relate to education; examining theoretical discourse, economic and political change, and the quest for equity; and studying current research and best practices. We engage candidates in critical reflection upon their practice, and foster immersion in educational sites through our partnerships with schools and other agencies.

Course work in our department programs explores the interplay between the individual, society, and sociocultural processes through examination of educational theories, institutions, policies and practices, and human development across the life span, along with debates about research methodology and the contribution of research to the understanding of educational problems as part of a broader project for social justice and transformation. In addition to educational positions inside schools, students are also prepared for positions in government, private foundations and institutes, community and cultural organizations, and adult education and training.

Graduates of our programs demonstrate a commitment to Vincentian personalism that honors the dignity of each person, a belief in the power of education to transform lives in pursuit of social justice, and a dedication to continuous growth as professionals in both formal and informal educational contexts.

Doctoral Program

The primary, though perhaps not the only audience for this Doctoral program consists of educational professionals who wish to improve the quality of their work in their current roles or to prepare themselves for new roles. This doctoral program is uniquely designed to link theory with practice and is not based on traditional assumptions about the relationships of theory with practice or on conventional notions about the status of practitioners and theorists. To be a practitioner is to make decisions about what to do and to take action; but professional practitioners — in education as in other areas — make reasonable decisions and act responsibly and ethically in the light of theoretical and professional knowledge.

• Professional educators are leaders as well as managers; they are not limited to making decisions according to rule or “by the book.” They must use discretion and judgment as they seek to find the most defensible course of action in specific, complicated, and perhaps idiosyncratic circumstances. These situations are not merely instances of abstract concepts.
• Although decisions are made in the light of theoretical knowledge, theoretical knowledge cannot be applied to practice in the same way as principles are applied to cases. No single theory is able to encompass the complexities of all aspects of learning or schooling. Professional educators understand the principles and terms that characterize and limit a variety of theories and can select amongst them in order to better understand the situations in which they are involved.
• Decisions also are made in the light of professional knowledge, learned on the job as well as from more formal sources. Professional educators can articulate the informal, often tacit knowledge that they develop from practice so that it engages with and modifies the more formal theories learned from other sources.
• Professional educators not only make decisions, they act upon them responsibly. They examine the value commitments implicit in their actions; they question the appropriateness of the ends that they seek; they connect their educational contexts to broader social contexts; and they assess the effects of their actions on the achievements, dispositions, and propensities of students, colleagues and community members.

The following graduate programs are offered at Lincoln Park:

• EdD in Curriculum Studies
• PhD in Curriculum Studies
• EdD in Educational Leadership
  • Educational Leadership General Concentration
  • Higher Education Concentration
  • Global Catholic Educational Leadership Concentration
• PhD in Educational Leadership
  • Educational Leadership General Concentration
  • Higher Education Concentration
• EdD in Early Childhood Education

The following graduate programs are offered Online:

• PhD in Global Educational Leadership
  • Global Educational Leadership General Concentration
  • Global Catholic Educational Leadership Concentration
  • Global Educational Leadership with International Baccalaureate Leadership Practices

Endorsements

Endorsements are credentials added to a Professional Educator License (PEL). An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

DePaul University’s College of Education offers many programs which fulfill the requirements for specific endorsements that can be added to an individual’s Professional Educator Licensure (PEL).

For example, an individual who holds a Professional Educator License (PEL) in Elementary Education (Self Contained General Education) for grades 1-6 may complete the coursework for the Reading Teacher endorsement in order to be eligible to add it to his or her PEL at the current grade range (1-6).

Please note that the Illinois State Board of Education (ISBE) may change the State licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.
Undergraduate Endorsements

DePaul University's College of Education offers many programs at the undergraduate level which fulfill the requirements for specific endorsements that the individual may add to his or her Professional Educator Licensure (PEL).

Students must be enrolled in one of DePaul's approved teacher preparation bachelor's degree program and working towards their Illinois Professional Educator License (PEL) in order to be eligible to complete the endorsement coursework.

Please note that the Illinois State Board of Education (ISBE) may change the State licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Early Childhood Bilingual and ESL Combined Endorsements - Undergraduate Program

To be eligible for the Early Childhood Education Bilingual Education (BE) and English as a Second Language (ESL) endorsements, students must be enrolled in DePaul's Early Childhood Education bachelor's degree program and working towards their Professional Educator License (PEL) that includes an early childhood endorsement.

Licensure Test

Individuals seeking a bilingual endorsement must complete the Illinois State Board of Education (ISBE) Target Language Proficiency (TLP) test in the non-English language.

Endorsement Application

All individuals must notify their advisor upon completion of the required coursework and licensure tests for DePaul to submit entitlement notification to the Illinois State Board of Education (ISBE). Application for the endorsement may require an additional application fee if the individual already holds a Professional Educator License (PEL). All individuals must meet ISBE requirements at the time of application. Requirements are subject to change per the discretion of ISBE.

Early Childhood English as a Second Language Endorsement - Undergraduate Program

To be eligible for the Early Childhood Education English as a Second Language (ESL) endorsement, students must be enrolled in DePaul's Early Childhood Education bachelor's degree program and working towards their Illinois Professional Educator License (PEL) that includes an early childhood endorsement.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. LBS1 Endorsement students must complete the following tests:

- LBS1 Content Area Test (test #155) – assesses knowledge of working with students with disabilities and special needs.

Endorsement Application
Individuals must submit an application directly to the Illinois State Board of Education (ISBE) upon successful completion of the required coursework and licensure tests. All individuals must meet ISBE requirements at the time of application. Requirements are subject to change per the discretion of ISBE.

Graduate Endorsements
DePaul University’s College of Education offers many programs at the graduate level which fulfill the requirements for specific endorsements that the individual may add to his or her Professional Educator Licensure (PEL).

Some programs may require students to already hold an Illinois Professional Educator License (PEL) in order to be admitted to the endorsement program, while other programs may allow students who are enrolled in one of DePaul’s approved teacher preparation bachelor’s degree program and working towards their Professional Educator License (PEL) to complete the required endorsement coursework simultaneously.

Please note that the Illinois State Board of Education (ISBE) may change the State licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Bilingual Education (BE) and ESL Combined Endorsements - Graduate

Admission Requirements
To be eligible for the Bilingual Bicultural Education endorsement program, students must hold a bachelor’s degree from an accredited college or university and hold a valid teaching license.

To apply, please submit the following items to The Office of Graduate Admission:

- A completed application
- Application fee ($40.00)
- One official transcript from all colleges and/or universities attended
• A copy of valid professional educator license
• A résumé or curriculum vitae
• Two letters of recommendation from professors or employers
• Statement of purpose indicating professional development goals and related experience (750 words)

Licensure Test

Individuals seeking a bilingual endorsement must complete the Illinois State Board of Education (ISBE) Target Language Proficiency (TLP) test in the non-English language.

Endorsement Application

All individuals must notify their advisor upon completion of the required coursework and licensure tests for DePaul to submit entitlement notification to the Illinois State Board of Education (ISBE). Application for the endorsement may require an additional application fee if the individual already holds a Professional Educator License (PEL). All individuals must meet ISBE requirements at the time of application. Requirements are subject to change per the discretion of ISBE.

Early Childhood Bilingual Endorsement - Graduate

Admission Requirements

To be eligible for the Early Childhood Bilingual endorsement program, students must hold a bachelor’s degree from an accredited college or university as well as a valid Professional Educator License (PEL) that includes an early childhood endorsement.

To apply, please submit the following items to The Office of Graduate Admission:

- A completed application
- Application fee ($40)
- One official transcript from all colleges and/or universities attended
• A copy of a valid professional educator license
• A résumé or curriculum vitae
• Two letters of recommendation from professors or employers
• Statement of purpose indicating professional development goals and related experience (750 words)

**Endorsement Application**

Individuals must submit an application directly to the Illinois State Board of Education (ISBE) upon successful completion of the required coursework. All individuals must meet ISBE requirements at the time of application. Requirements are subject to change per the discretion of ISBE.

**Learning Behavior Specialist 1 (LBS1) Endorsement Only - Graduate**

The endorsement is limited to the range of the program the candidate has completed to receive his/her Illinois Professional Educator License (PEL). For example, if a candidate has completed an elementary 1-6 program to receive the PEL, then the LBS1 endorsement will be applicable only to the 1-6 range. For requirements of the full endorsement range (preschool-age 21), please go here (https://catalog.depaul.edu/colleges-schools/education/endorsements/graduate-endorsements/special-education-teachers-lbs1/).

**Admission Requirements**

To be eligible for the Learning Behavior Specialist 1 (LBS1) endorsement only program, students must hold a bachelor’s degree from an accredited college or university and a valid Illinois Professional Educator License (PEL).

To apply, please submit the following materials to the Office of Graduate Admission:

- A completed graduate application
- Application fee ($40.00)

- Copy of a valid Illinois teacher license
- A bachelor’s degree conferred by an accredited, recognized institution
- A previous grade point average of 2.75 or above on a 4.0 scale
- Two letters of reference, one of which must be from persons familiar with your academic work
- One official transcript from each college or university attended
- Personal statement (see below)
- Resume or curriculum vitae showing evidence of adequate background for the program.
- The admission process also may include an interview with program faculty.

**1 Personal Statement**

Write a personal statement that discusses your future goals and your thoughts about your career as a special educator. As part of your statement please consider the following: the possible tasks/roles of a special education teacher are multiple and include inclusion specialist, team teacher with general educators, specialized instruction for exceptional students, advocate for exceptional students, response to intervention (RTI) coordinator, case manager or provider of staff development. From your perspective, rank order the tasks/roles and discuss your rationale for the top ranked roles.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. LBS1 Endorsement students must complete the following tests:

- LBS1 Content Area Test (test #155) – assesses knowledge of working with students with disabilities and special needs.

Candidates who are conditionally admitted with an out-of-state (OOS) teaching license are required to transfer their license into Illinois, and therefore may also be required to take additional licensure tests. Students should work with ISBE to fulfill outstanding test requirements. These additional licensure tests may include the following:

- EdTPA – an electronic portfolio that includes video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Usually completed during pre-service student teaching experience.
**Endorsement Application**

Individuals must submit an application directly to the Illinois State Board of Education (ISBE) upon successful completion of the required coursework and licensure tests. All individuals must meet ISBE requirements at the time of application. Requirements are subject to change per the discretion of ISBE.

Registration, testing schedules, and fees for ISBE licensure tests are available on the ISBE website.

Note that the LBS1 Licensure endorsement program listed above does not lead to a degree.

**Principal Endorsement**

**Admission Requirements**

To be eligible for the Principal Preparation licensure program, students must hold a master’s degree from an accredited college or university. They must have a GPA of 2.75 or higher at the undergraduate level and a 3.25 or higher at the graduate level. Students must also possess at least two years of full-time successful teaching experience, hold a valid Illinois teaching license, and possess proof of passing two Principal content-area tests. At the time of program completion, students must have at least 4 years of full-time, successful teaching experience to apply for licensure.

To apply, please submit the following items to The Office of Graduate Admission:

- A completed graduate application
- Application fee ($40.00)
- A copy of valid Illinois teaching license
- Proof of passing two Principal content-area tests
- One official transcript from all colleges and/or universities attended
- Letters from district office recommending entrance into the principal preparation program
- Four letters of recommendation (two from a supervisor and two from colleagues)
- Resume showing evidence of adequate background for the program
- Statement of purpose indicating why you want to be a principal

Upon initial review, the process will include a required interview. Candidates will be expected to complete an on-site writing sample during the interview and submit a teaching portfolio.

**Course Requirements**

**Licensure Only (Public School Strand)**

The principal licensure program at DePaul University is an approved Illinois State Board of Education (ISBE) program. It is a rigorous program preparing principals and assistant principals for work service in public and private schools in the state of Illinois.

This is a 44 quarter hour program, which leads to the State of Illinois’ principal licensure.

Specific requirements for entrance into the principal licensure program may be obtained from the office of graduate admissions or the LLC department office.

Individuals seeking the principal licensure must:

1. Complete an approved principal licensure program at an Illinois institution
2. Complete all state-mandated training and examinations
3. Have successfully completed the internship experiences
4. Hold a master’s degree

Upon successful completion of all principal licensure program requirements and any additional requirements, students must apply for their license. Students are to work with the College of Education’s Licensure Officer when applying for the license. This graduate certificate program is approved as a Gainful Employment Program through the U.S. Department of Education and is, therefore, eligible for Federal Student Aid.

Note: Courses in this program leading to the principal licensure are designed for practicing educators and are not open to students and any other program without the specific permission of the educational leadership program director.

**Principal: Catholic Leadership Endorsement**

**Admission Requirements**

To be eligible for the Principal Preparation licensure program with Catholic Leadership Concentration, students must hold a master’s degree from an accredited college or university. They must have a GPA of 2.75 or higher at the undergraduate level and a 3.25 or higher at the graduate level. Students must also possess at least two years of fulltime
successful teaching experience, hold a valid Illinois teaching license. At
the time of program completion, students must have at least 4 years
of full-time, successful teaching experience to apply for licensure.

To apply, please submit the following items to The Office of Graduate Admis-
sion:

- A completed graduate application
- Application fee ($40.00)
- A copy of valid Illinois teaching license
- One official transcript from all colleges and/or universities attended
- Letters from district office recommending entrance into the principal preparation program
- Four letters of recommendation (two from a supervisor and two from colleagues)
- Resume showing evidence of adequate background for the program

Reading Specialist (K-12) Endorsement

Admission Requirements

To be eligible for the Reading Specialist endorsement only program, students must hold a bachelor’s degree from an accredited college or university and a valid Illinois Professional Educator License (PEL). Please note that the Illinois State Board of Education (ISBE) may change the State licensure and endorsement requirements at any time and without prior notice.

To apply, please submit the following materials to the Office of Graduate Admission:

- A completed graduate application
- Application fee ($40.00)
- Copy of a valid Illinois teacher license
- A bachelor’s degree conferred by an accredited, recognized institution
- A previous grade point average of 2.75 or above on a 4.0 scale
- Two letters of reference, one of which must be from persons familiar with your academic work
- One official transcript from each college or university attended
- Resume or curriculum vitae showing evidence of adequate background for the program
- The admission process also may include an interview with program faculty

Note: The Reading Specialist Endorsement requires a previously completed Master’s degree.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

Reading Specialist students must complete the following tests:

- Reading Specialist Content Area Test (test #176) – assesses knowledge of language, reading, and literacy.

Reading Teacher Endorsement - Graduate

The Illinois State Board of Education (ISBE) requirements for the Reading Teacher Endorsement include:

1. Hold a valid 0-3, K-9, or 6-12 teaching license
2. Complete 24 semester hours or 36 quarter hours, including a practicum, of reading and literacy courses in the following areas:
   a. Foundations of reading,
   b. Content area reading,
   c. Assessment and diagnosis of reading problems,
   d. Developmental and remedial reading instruction and support,
   e. Developmental and remedial materials and resources, and
   f. Literature appropriate to students across all grade ranges
3. Pass the Reading Teacher content test (#177)

Students can pursue the Reading Teacher Endorsement by either:

1. Completing courses that are a subset of the Reading Specialist program (see below), or
2. Applying for a Reading Teacher endorsement evaluation through ISBE. Once a statement of area deficiencies is received, the student will meet with an advisor to determine the required outstanding coursework.

Admission Requirements

To be eligible for the Reading Teacher endorsement only program, students must hold a bachelor's degree from an accredited college or university and a valid Illinois teaching license. Please note that the Illinois State Board of Education (ISBE) may change the State licensure and endorsement requirements at any time and without prior notice.

To apply, please submit the following materials to the Office of Graduate Admission:

- A completed graduate application
- Application fee ($40.00)
- Copy of a valid Illinois professional teaching license
- A bachelor's degree conferred by an accredited, recognized institution
- Two letters of reference, one of which must be from persons familiar with your academic work
- One official transcript from each college or university attended
- Resume or curriculum vitae showing evidence of adequate background for the program.

The admission process also may include an interview with program faculty.

### Special Education for Teachers Endorsement (LBS1 PreK-21)

#### Admission Requirements

To be eligible for the Special Education for Teachers (Learning Behavior Specialist 1) licensure program, students must hold a bachelor’s degree from an accredited college or university and a valid Illinois Professional Educator License (PEL).

To apply, please submit the following materials to the Office of Graduate Admission:

- A completed College of Education graduate application
- Application fee ($40)
- Copy of a valid Illinois teaching license
- A bachelor’s degree conferred by an accredited, recognized institution
- A previous grade point average of 2.75 or above on a 4.0 scale
- Two letters of reference, one of which must be from persons familiar with your academic work
- One official transcript from each college or university attended
- Personal statement (see below)
- Resume or curriculum vitae showing evidence of adequate background for the program.
- The admission process also may include an interview with program faculty.

1 Personal Statement

Write a personal statement that discusses your future goals and your thoughts about your career as a special educator. As part of your statement please consider the following: the possible tasks/roles of a special education teacher are multiple and include inclusion specialist, team teacher with general educators, specialized instruction for exceptional students, advocate for exceptional students, response to intervention (RTI) coordinator, case manager or provider of staff development. From your perspective, rank order the tasks/roles and discuss your rationale for the top ranked roles.

### Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

LBS1 PreK-21 Endorsement students must complete the following tests:

- LBS1 Content Area Test (test #155) – assesses knowledge of working with students with disabilities and special needs. Test is required before Student Teaching (deadlines apply)
- Special Education General Curriculum Test (test #163) – assesses knowledge of reading & literacy, mathematics, natural science, and social science. Test is required for admission to Student Teaching.

Candidates who are conditionally admitted with an out-of-state (OOS) teaching license are required to transfer their license into Illinois,
and therefore may also be required to take additional licensure tests. Students should work directly with ISBE to fulfill outstanding test requirements. These additional licensure tests may include the following:

- EdTPA – an electronic portfolio that includes video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Usually completed during pre-service student teaching experience.

Registration, testing schedules, and fees for ISBE licensure tests are available on the ISBE website.

Note that the LBS1 Licensure program listed above does not lead to a degree. Please note that the Illinois State Board of Education (ISBE) may change the State licensure and endorsement requirements at any time and without prior notice.

### Subsequent Teaching Endorsement

The State Board of Education authorizes higher education institutions with approved teacher preparation programs to offer subsequent teaching endorsement programs. Under the rules for licensure and assignment of educational staff, subsequent teaching endorsements are earned through passage of all relevant tests and completion of either a full or "focused" licensure program offered by an institution of higher education. Please note that the Illinois State Board of Education (ISBE) may change the State licensure and endorsement requirements at any time and without prior notice.

DePaul offers subsequent teaching endorsement programs in the following areas of teacher education:

- Early Childhood Education (online)
- Elementary Education
- Middle Grades Education
- Secondary Education (English, Math, Science, History, Social Science, Visual Arts)
- World Languages Education (K-12)
- Special Education (LBS1)

Each institution is expected to provide candidates with information about how to apply for such an endorsement program and how, in the case of focused programs, the institution will determine what prior coursework and experience can be counted toward the requirements for the subsequent teaching endorsement. Candidates who complete a full or focused subsequent teaching endorsement program will be recommended for the endorsement by entitlement. The following is a summary of the policies on focused programs at DePaul University.

### General Policies

- These are endorsement-only programs and do not lead to a degree. However, degree options are available, and candidates could subsequently apply to the appropriate degree program.
- All courses must be taken at DePaul; no transfer credit is allowed.
- General education courses and additional tests may be required as dictated by licensure requirements.
- Accepted candidates are admitted to the T&L or SER subsequent teaching endorsement program and upon admission have advanced standing (no additional requirements for admission to the Unit).
- Accepted candidates will initially meet with a program faculty member, and subsequently with a College of Education advisor, who will review all credentials and determine a program that prepares the candidate to meet the teacher preparation standards for the teaching endorsement desired and that meets the minimum requirements (as outlined below).
- These focused programs are subject to change during the course of the program. If assessments of the candidate's performance suggest that the program plan should have additional requirements, the program will be modified accordingly.
- Accepted candidates will be required to complete student teaching at the grade level and/or content area in which the teaching endorsement is sought OR complete an intensive internship that will include extended contact hours with students at the grade level in which the license is sought and will include a demonstration of teaching proficiency at this grade level. The candidate's faculty advisor will determine the nature of the internship.

### Admission Requirements

If you hold a valid teaching license in the state of Illinois, you may enroll in a program designed to help you obtain a subsequent license in the following areas: early childhood education, elementary education, secondary education, world languages education, and special education.

In order to be considered for admission for a Subsequent Teaching Endorsement, you must hold bachelor’s degree from an accredited college or university and hold a valid teaching license. To apply, please submit a completed application as specified by the admission requirements for the teaching and learning program or the special education for licensed teachers program. In addition to the standard application materials, you must also submit a valid Illinois teaching license and a letter from your school principal providing evidence of prior teaching experience and teaching performance. (If you are currently not employed as a teacher, then other evidence of prior teaching experience must be provided.)

In addition to the standard requirements for admission to graduate programs, candidates must submit:

- Valid Illinois teaching license
- A letter from candidate’s School Principal giving evidence of prior teaching experience and teaching performance (If the candidate is currently not employed as a teacher, then other evidence of prior teaching experience must be provided).

### Subsequent Teaching Endorsement Requirements for the Following Programs are Provided Below

- Early Childhood Education (online)
- Elementary Education
- Secondary Education (English, Math, Science, History, Social Science, Visual Arts)
- World Languages Education (K-12)
- Special Education (LBS1)

Besides meeting the following requirements, each program completer is expected to demonstrate the appropriate professional dispositions. A list of those dispositions are provided below.
Subsequent Teaching Endorsement Requirements for Early Childhood Education

Accepted candidates will initially meet with a member of the program faculty and subsequently with a College of Education advisor who will review all credentials and determine a program that prepares the candidate to meet the teacher preparation standards for the endorsement desired and that meets the following minimum requirements:

Course Requirements

Based on evaluation results; students will complete a minimum of 6 courses. The following list is an example of possible courses:

Student Teaching or Internship Requirements (to Be Determined by Faculty Advisor)

- 10 weeks of student teaching in elementary education (T&L 585) or 1 candidate-specific internship, as defined by faculty advisor (T&L 615, Research and Internship in Education)

Licensure Requirements

- Elementary Education Content Area Test

Subsequent Teacher Endorsement Requirements for Middle Grades Education

The Illinois State Board of Education requires 27 quarter hours (18 semester hours) in a content area including a content-area methods courses for licensure to teach in the middle grades (5-8).

Accepted candidates will initially meet with a member of the program faculty and subsequently with a College of Education advisor who will review all credentials and determine a program that prepares the candidate to meet the teacher preparation standards for the endorsement desired and that meets the following minimum requirements:

Course Requirements

Based on evaluation results, students will complete one of the following possible content-area methods courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>English</td>
<td>TCH 471 TEACHING ENGLISH IN THE MIDDLE GRADES AND HIGH SCHOOL 1</td>

<td>4</td>
</tr>
<tr>
<td></td>
<td>T&amp;L 466 TEACHER AS ARTIST</td>
<td>4</td>
</tr>
</tbody>
</table>

Content Area Requirements

A minimum of 27-quarter (18 semester) hours is required for each subject area the candidate intends to teach. A program faculty member will evaluate and identify deficiencies in the content area. Middle Grades content area deficiencies may be taken at the undergraduate level.

Content area requirements area as follows:

- Six content courses:
  - Language Arts
    - Introduction to Literature Course or a Survey of Literature Course
    - Poetry course
    - Grammar or Linguistics course
    - Young adult, graphic novel, or advisor-approved course
    - Diverse traditions or multicultural literature course
    - Writing course
  - Mathematics
    - Introduction to Mathematics Reasoning course
    - Geometry course
    - History of math course
    - Probability and statistics course
    - Calculus course
    - Math modeling, Programming language, or advisor-approved course
  - Science
    - General biology (life science) course
    - General chemistry (physical science) course
    - General Earth science (Earth/space science) course
    - General environmental science (Earth/space science) course
    - General physics (physical science) course
    - Science course (advisor-approved)
  - Social Science
    - History course
    - Geography course
    - Civics/government course
    - Economics course
    - Social Science course (advisor-approved)
  - Social Science course (advisor-approved)

Students who are interested in completing an endorsement in a content area other than English, Math, Science, or Social Science should meet with a program faculty member to identify the viability of completing that endorsement.

Licensure Requirements

- The Middle Grades Content Area Tests (e.g., English, Math, Science, and Social Science) for the content area for which you will be endorsed to teach.

Subsequent Teaching Endorsement Requirements for Secondary Education

Accepted candidates will initially meet with a member of the program faculty and subsequently with a College of Education advisor who will review all credentials and determine a program that prepares the candidate to meet the teacher preparation standards for the endorsement desired.
Content Area Requirements

The Illinois State Board of Education requires a minimum of 27 quarter hours (18 semester hours) in the subject area the candidate intends to teach. Deficiencies in the content area will be evaluated by program faculty. Secondary content area deficiencies may be taken at the undergraduate level and may require courses in addition to the minimum requirements above.

Licensure Requirements

- English, Math, Science, Social Science or Visual Arts Content Area Test

Subsequent Teaching Endorsement Requirements for World Language Education

Accepted candidates will initially meet with a member of the program faculty and subsequently with a College of Education advisor who will review all credentials and determine a program that prepares the candidate to meet the teacher preparation standards for the endorsement desired and that meets the following minimum requirements:

Graduate level content courses in the world language to be taught

Content Area Requirements

A minimum of 32 semester hours (48 quarter hours) is required in the world language the candidate intends to teach. Deficiencies in the content area will be evaluated by program faculty. World language content area deficiencies may be taken at the undergraduate level and may require courses in addition to the minimum requirements below.

Student Teaching or Internship Requirements (to Be Determined by Faculty Advisor)

- 10 weeks of student teaching in world language education (T&L 592) or 1 candidate-specific internship, as defined by faculty advisor (T&L 615)

Licensure Requirements

- ACTFL Oral Language Proficiency Interview Or DePaul Oral Language Proficiency Exam (Spanish only)
- Foreign Language Content Area Test

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions.
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students’ learning
- Values and is responsive to diverse learners’ academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
• Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
• Balances self-confidence and assertiveness with respect for others’ perspectives
• Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Subsequent Teaching Endorsement Requirements for Special Education (LBS1)

Accepted candidates will initially meet with a member of the program faculty and subsequently with a College of Education advisor who will review all credentials and determine a program that prepares the candidate to meet the teacher preparation standards for the endorsement desired and that meets the following minimum requirements:

Please note that the Illinois State Board of Education (ISBE) may change the State licensure and endorsement requirements at any time and without prior notice.

**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

• Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
• Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
• Takes initiative
• Is open to new ideas and engagement in learning
• Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students’ learning
• Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
• Is committed to collaboration with colleagues, families, and communities in order to promote all students’ learning and development
• Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
• Demonstrates consistent professional behavior across all academic settings
• Maintains appropriate interpersonal and professional boundaries
• Accepts personal responsibility for one’s behavior
• Expresses feelings and opinions effectively and appropriately
• Upholds confidentiality

**Superintendent Endorsement - Graduate**

**Admission Requirements**

To be eligible for the Superintendent Preparation licensure program, students must hold a master’s degree from an accredited college or university. They must have a GPA of 3.25 or higher at the graduate level and 3.0 at the undergraduate level. Students must also possess at least two years of full time administrative or supervisory experience in either a public school district or a non-public school, hold a valid Illinois Professional Educator License (endorsed General Administrative). Out of state candidates must have the requisite experience while holding the appropriate certificate or license that is comparable to the Illinois credential.

To apply, please submit the following items to The Office of Graduate Admission:

• A completed graduate application with application fee ($40.00)
• A copy of valid Illinois Professional Educator License (endorsed in General Administrative)
**Teacher Leader Endorsement Only - Graduate**

- Official transcripts from all undergraduate and graduate institutions attended.
- Four letters of recommendation (at least two of which should be from faculty in the applicant’s Master’s program or from faculty for Master’s level course work taken at other institutions).
- Résumé or curriculum vitae.
- Statement of purpose indicating why you want to be a superintendent. It should also articulate an issue or problem of interest or concern.
- A writing sample, preferably a course paper from the applicant’s Master’s program.
- An admissions portfolio including but not limited to
  - Evaluations of the candidate's administrative abilities from supervisors that attest to school and district improvement;
  - Evidence of leadership roles held and descriptions of the impact the candidate has had on the classroom, school or district, or the constituents served;
  - An analysis of school or district data (e.g., student scores) that describes how the data is used to inform instructional planning and implementation, including an explanation of what standards were addressed, the academic achievement or school improvement outcomes, and steps taken when expected outcomes did not occur;
  - Information about the candidate’s work with families and/or community groups and a description of how this work affected school or district operations, policies and procedures;
  - Examples of the candidate’s analytical abilities as evidenced by a description of how he or she used the results from student assessments to improve student learning; and
  - Evidence of curriculum development, student assessments or other initiatives that resulted from the candidate’s involvement with school committees.

Upon initial review, the process will include a required interview. Candidates will be expected to complete an on-site writing sample during the interview and submit a teaching portfolio.

## Course Requirements

### Licensure Only

The superintendent licensure program at DePaul University is an approved Illinois State Board of Education (ISBE) program. It is a rigorous program preparing superintendents for work service in public and private schools in the state of Illinois.

This is a 40 quarter hour program, which leads to the State of Illinois’ superintendent licensure.

</tbody>
</table>

Specific requirements for entrance into the superintendent licensure program may be obtained from the office of graduate admissions or the LLC department office.

Individuals seeking the superintendent licensure must:

1. Complete an approved superintendent licensure program at an Illinois institution
2. Complete all state-mandated training and examinations
3. Have successfully completed the internship experiences
4. Hold a master’s degree

Upon successful completion of all superintendent licensure program requirements and any additional requirements, students must apply for their license. Students are to work with the College of Education's Licensure Officer when applying for the license.

**Note:** Courses in this program leading to the superintendent licensure are designed for practicing educators and are not open to students and any other program without the specific permission of the educational leadership program director.

## Teacher Leader Endorsement Only - Graduate

### Admission Requirements

To be eligible for the Teacher Leader endorsement program, students must hold a bachelor’s degree and master’s degree from an accredited college or university and hold a valid teaching license.

To apply, please submit the following items to The Office of Graduate Admission:

- A completed application
- Application fee ($40.00)
- 2 years of full-time teaching on a valid standard teaching Licensure at the time of application
- One official transcript from all colleges and/or universities attended
- A resume or curriculum vitae
Course Requirements

This non-degree program allows students who already have a Master's degree to obtain an ISBE Teacher Leader Endorsement. Candidates already holding a Master's degree (M.Ed. or M.A.) and a professional educator license may enter the program seeking the Teacher Leader Endorsement. Students not holding a Master's degree must complete either the existing Educational Leadership or Curriculum Studies Master's program and obtain their professional educator license before they can obtain the Teacher Leader Endorsement.

This graduate certificate program is approved as a Gainful Employment Program through the U.S. Department of Education and is, therefore, eligible for Federal Student Aid.

Licensure

The Illinois State Board of Education (ISBE) issues educator credentials in the State of Illinois. Individuals must fulfill specific requirements in order to receive an educator license from ISBE. One of those requirements is the completion of an ISBE approved program. DePaul University's College of Education has many ISBE approved programs which lead to the Professional Educator Licensure (PEL).

Individuals who successfully complete an ISBE approved program leading to a PEL will also receive an endorsement in the education area and grade range in which he or she studied. For example, an individual completing the Elementary Education program will be eligible to receive the Professional Educator License (PEL) with the Elementary Education (Self Contained General Education) endorsement for grades 1-6.

Please note that the Illinois State Board of Education (ISBE) may change the State licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Early Childhood Licensure

Admission Requirements

To be eligible for the Early Childhood Education Licensure program, students must hold a bachelor’s degree from an accredited college or university.

To apply, please submit the following materials to the Office of Graduate Admission:

- A completed College of Education graduate application
- Application fee ($40)
- One official transcript from each college and/or university attended
- Two letters of recommendation from professors or employer
- Resume
- A brief statement that explains your reasons for wanting to enter the Early Childhood Education program at DePaul and discusses your potential for becoming a teacher.

The requirements below are those approved by the Illinois State Board of Education in April 2016.

Content Area Prerequisites

Following the requirements set forth by the Illinois State Board of Education in spring of 2016, DePaul's Early Childhood Education program requires that students in the early childhood education program have courses in each of the following areas:

- mathematics*
- physical science
- life science
- earth and space science
- history
- geography
- political science/civics
- economics

These courses may be taken at the undergraduate level and may have been included in the student’s bachelor’s degree program. Early childhood education students' transcripts will be evaluated by an academic advisor after admission to determine if additional coursework is needed. Completion of content area requirements is not a prerequisite for admission; however, coursework must be completed before student teaching. It is strongly encouraged that applicants meet with an advisor after admission and prior to taking content courses.

- DePaul alumni that have taken LSP 120 or ISP 120 can receive credit towards the math requirement.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Early Childhood majors must complete the following tests:

• Early Childhood Content Area Test (test #206) – assesses knowledge of language and literacy development, learning across the curriculum, diversity, collaboration, and professionalism in the early childhood program. Test is required before Student Teaching (deadlines apply).
• EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Internships & Other Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences includes, two internships (T&L 481 and T&L 482 (K-2). Each internship requires students to be placed in the field for 75 hours in the quarter in which the internship is offered. Internships are associated with theory courses and should be taken concurrently or soon after successful completion of the related theory courses. In addition, students will complete 15 hours in a special education setting, and 15 hours in an infant/toddler setting. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses. FEDS entry of these clinical hours is not required. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Additional Requirements
Please also view the college core requirements under the MA or MED for Early Childhood for additional requirements. Note that the Early Childhood Education Licensure program listed above does not lead to a degree.

Elementary Licensure
The requirements below are those approved by the Illinois State Board of Education December 2015.

Health, Safety and Child Nutrition Requirement
Candidates should be prepared to document course or other experience that shows they meet the knowledge and skills to provide experiences for young, which appreciates the interrelationships among child, family and the areas of health, safety and nutrition. Candidates should demonstrate comprehension of the issues of health, safety and nutrition that affect young children from the ages of birth through age 8. In addition, candidates are expected to demonstrate understanding of cultural issues and special needs of children with health impairments. Finally candidates should be familiar with the knowledge and application of practices that promote good nutrition, dental health, physical, social and emotional well-being of young children.

• Can be completed by taking T&L 615 or a transferred equivalent.

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Early Childhood majors must complete the following tests:

• Early Childhood Content Area Test (test #206) – assesses knowledge of language and literacy development, learning across the curriculum, diversity, collaboration, and professionalism in the early childhood program. Test is required before Student Teaching (deadlines apply).
• EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Internships & Other Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences includes, two internships (T&L 481 and T&L 482 (K-2). Each internship requires students to be placed in the field for 75 hours in the quarter in which the internship is offered. Internships are associated with theory courses and should be taken concurrently or soon after successful completion of the related theory courses. In addition, students will complete 15 hours in a special education setting, and 15 hours in an infant/toddler setting. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses. FEDS entry of these clinical hours is not required. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Additional Requirements
Please also view the college core requirements under the MA or MED for Early Childhood for additional requirements. Note that the Early Childhood Education Licensure program listed above does not lead to a degree.

Elementary Licensure
The requirements below are those approved by the Illinois State Board of Education December 2015.
Admission Requirements

To be eligible for the Elementary Education Licensure program, students must hold a bachelor’s degree from an accredited college or university.

To apply, please submit the following materials to the Office of Graduate Admission:

- A completed College of Education graduate application
- Application fee ($40)
- One official transcript from each college and/or university attended
- Two letters of recommendation from professors or employer
- Resume
- A brief statement which explains your reasons for wanting to enter the Elementary or Middle School program at DePaul and discusses your potential for becoming a teacher.

Content Area Prerequisites

Elementary Education teachers need to have an understanding of the subjects taught in classrooms at the Elementary level. DePaul’s program requires that students in the Elementary program have a minimum of one college-level course in each of the following areas:

- mathematics
- physical science
- life science
- earth and space science
- history
- geography
- political science/civics
- economics

These courses may be taken at the undergraduate level and may have been included in the student’s bachelor’s degree program. Elementary Education students will be evaluated by an academic advisor after admission to determine if additional coursework is needed. Completion of content area requirements are not prerequisites for admission, however coursework must be completed before student teaching. It is strongly encouraged that applicants meet with an advisor after admission and prior to taking content courses.

1 DePaul alumni that have taken LSP 120 or ISP 120 can receive credit towards the math requirement.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Elementary majors must complete the following tests:

- Elementary/Middle Grades Content Area Test (test #110) – assesses knowledge of language arts and literacy, mathematics, science, social sciences, the arts, health, and physical education. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an
Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate lab settings in conjunction with education courses. Students are required to register for one lab for designated paired course. For example, during the first quarter of the program students must register for T&L 404 and SCG 403 plus one field experience lab. During the quarter when students take take T&L 413 and SER 446, a public school that services students with special needs is required. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Additional Requirements
Please also view the college core requirements under the MA or MED for Elementary Education for additional requirements. Note that the Elementary Education Licensure program listed above does not lead to a degree.

Physical Education Licensure
Physical Education teachers need to have an understanding of the content taught throughout the physical education programs from the Pre-Kindergarten to the secondary school level. DePaul’s program requires that students in the Physical Education licensure program take the courses listed below. Coursework must be completed before beginning student teaching. This program leads to eligibility for a Professional Educator License (PEL) for Physical Education in Preschool to grade 12. Courses are taken at the undergraduate level and do not lead to a degree.

The requirements below are those approved by the Illinois State Board of Education December 2015.

Admission Requirements
To be eligible for the Physical Education Licensure program, students must hold a bachelor’s degree from an accredited college or university. To apply, please submit the following materials to the Office of Graduate Admission:

• A completed College of Education undergraduate application
• Application fee ($40)
• One official transcript from each college and/or university attended
• Two letters of recommendation from professors or employer
• Resume
• A brief statement which explains your reasons for wanting to enter the Physical Education licensure program at DePaul and discusses your potential for becoming a teacher.

Student Teaching: 12 Quarter Hours Required
Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Physical Education majors must complete the following tests:

- Physical Education Content Area Test (test #144) – assesses knowledge of health-related physical fitness, movement and skill acquisition, the role of physical education in promoting development, and the physical education program in schools. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

**Field Experiences**

Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate lab settings in conjunction with education courses. Students are required to complete the required field experiences assigned in each course and must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. Hours previously completed during courses taken for the BS may be counted if verification or documentation can be provided. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

**Important Note**

Note that the Physical Education Licensure program listed above does not lead to a degree.

**Secondary Education Licensure Admission Requirements**

To be eligible for the Secondary Education Licensure program, students must hold a bachelor's degree from an accredited college or university.

To apply, please submit the following materials to the Office of Graduate Admission:

- A completed College of Education graduate application
- Application fee ($40)
- One official transcript from each college and/or university attended
- Two letters of recommendation from professors or employer
- Resume
- A brief statement which explains your reasons for wanting to enter the Secondary Education program at DePaul and discusses your potential for becoming a teacher.

### Content Area Courses

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

#### Requirements for Secondary Education Biology

Note: Effective for all individuals applying for licensure beginning February 1, 2012, all coursework in the content area must earn a grade of C or better.

- College Biology I
- College Biology II
- Ecology
- Cell Biology
- Physiology
- Genetics
- Molecular Biology
- Biology Elective
- Biology Elective (with lab)
- Biology Elective (with lab)
- College Algebra or Calculus I
- College Chemistry I
- College Chemistry II
- General Physics
- College Environmental Science or Earth and Space Science or Astronomy

#### Requirements for Secondary Education Chemistry

Note: Effective for all individuals applying for licensure beginning February 1, 2012, all coursework in the content area must earn a grade of C or better.

Chemistry Core: 36 quarter hours required, grade of C or better required

- General Chemistry I
- General Chemistry II
- Organic Chemistry I
- Organic Chemistry II
- Analytical Chemistry
- Physical Chemistry I
- Biochemistry
- Inorganic Chemistry
- Chemistry Elective I
- Chemistry Elective (with lab)
- Chemistry Elective (with lab)
- Calculus I
- Applied Probability and Statistics or Calculus II
- College Physics
- College Biology
- College Environmental Science or Earth and Space Science or Astronomy
Requirements for Secondary Education English
All coursework in the content area must earn a grade of C or better. At least five courses must be at the 300 or above level. At least one course must have the Race, Ethnicity, and Sexuality (RES) designation or equivalency for non-DePaul courses. Content area advisors can make course substitutions based on an analysis of student’s transcripts.

• 1 Literature courses course
• 1 Poetry course
• 1 Shakespeare course
• 2 British Literature courses
• 1 Romanticism in American Literature course or approved American Literature substitute
• 2 American Literature courses
• 3 Writing and Oral Language courses
• 1 Grammar or Language and Style course

Requirements for Secondary Education Environmental Science
All coursework in the content area must earn a grade of C or better.

• College Chemistry
• College Biology
• College Physics
• Environmental Science I
• Environmental Science II
• Earth’s Environmental System I: Life System
• Earth’s Environmental System II: Solid Earth System
• Earth’s Environmental System III: Climate System
• Earth Energy/Resources and Sustainability
• Environmental Science Elective
• Environmental Science Elective (with lab)
• Environmental Science Elective (with lab)
• Ecology
• Oceanography
• College Algebra I OR Intro Statistics
• Plus two courses on Environmental Sciences at the Graduate Level, as noted below in the Graduate Content Area

Requirements for Secondary Education History
All coursework in the content area must earn a grade of C or better.

• Two US History courses (any level)
• Two Non-US History courses (any level)
• One additional History course (any level)
• One Economics course
• One Geography course
• One Political Science course focused on American Government
• One Anthropology, Sociology, or Psychology course
• Three additional courses in any social science area (Anthropology, Economics, Geography, History, Political Science, Sociology, or Psychology)

Requirements for Secondary Education Mathematics
All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

• Calculus I
• Calculus II
• Calculus III
• Intro to Math Reasoning OR Discrete Math I and Discrete Math II
• Multivariable Calculus I
• Multivariable Calculus II
• Linear Algebra
• Programming Language
• Abstract Algebra I
• Theory of Numbers or Abstract Algebra II
• Geometry I
• Geometry II or Real Analysis I
• Probability & Statistics
• History of Mathematics

Requirements for Secondary Education Physics
All coursework in the content area must earn a grade of C or better.

• College Physics I
• College Physics II
• Classical Mechanics
• Electricity and Magnetism
• Thermal Physics
• Computational and Theoretical Physics
• Quantum Physics
• Physics Elective
• Physics Elective (with lab)
• Physics Elective (with lab)
• Calculus I
• Calculus II or Multivariable Analysis & Linear Algebra I
• College Chemistry I
• College Biology I
• College Environmental Science or Earth and Space Science or Astronomy

Requirements for Secondary Education Social Science
All coursework in the content area must earn a grade of C or better.

• Two US History courses (any level)
• Two Non-US History courses (any level)
• One additional History course (any level)
• One Economics course
• One Geography course
• One Political Science course focused on American Government
• One Anthropology, Sociology, or Psychology course
• Three additional courses in any social science area (Anthropology, Economics, Geography, History, Political Science, Sociology, or Psychology)
Requirements for Secondary Education Visual Arts
All coursework in the content area must earn a grade of C or better and a minimum of 18 quarter hours (12 semester hours) must be coursework at an undergraduate upper level or graduate level.

- Two Dimensional Foundation
- Three Dimensional Foundation
- Drawing
- Intermediate or Adv. Drawing
- Painting
- Sculpture
- Computer Graphics
- Printmaking
- Principles of Art History
- Photography
- Video
- Art & Design I
- Art & Design II

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Secondary Education majors must complete the following tests:

- Content Area Test (test numbers below) – assesses knowledge of content area. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Biology
- Science: Biology Content Area Test (test #105)

Chemistry
- Science: Chemistry Content Area Test (test #106)

History
- Social Science: History Content Area Test (test #246)

Math
- Math Content Area Test (test #208)

Physics
- Science: Physics Content Area Test (test #116)

Social Science
- Social Science: History Content Area Test (test #246)

Visual Arts
- Visual Arts Content Area Test (test #145)

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Additional Requirements
Please also view the college core requirements under the MA or MED for Secondary Education for additional requirements. Note that the Secondary Education Licensure program listed above does not lead to a degree.

World Language Education Licensure Admission Requirements
To be eligible for the World Language Licensure only program, students must hold a bachelor’s degree from an accredited college or university.

To apply, please submit the following materials to the Office of Graduate Admission:

- A completed College of Education graduate application
- Application fee ($40)
- One official transcript from each college and/or university attended
- Two letters of recommendation from professors or employer
- Resume
- A brief statement which explains your reasons for wanting to enter the World Language Licensure program at DePaul and discusses your potential for becoming a teacher.

**Education Elective Course: 4 Quarter Hours Are Required, Grade of C or Better Required**

Open elective credit also is required to meet the minimum graduation requirement of 60 quarter hours. Choose an Education course in consultation with the Academic Advisor or Content Advisor. Courses must be approved by the WLE Program Director prior to registration and requires graduate level registration.

- Elective Course

**Student Teaching: 8 Quarter Hours Required**

Registration in student teaching requires completion of all requirements and procedures listed in the college core section. EDU 95 CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH indicates to the Illinois State Board of Education that all field experience hours are complete.

**Content Area Courses**

All students need to have sufficient knowledge of the subject they will be teaching. Illinois State Board of Education requires a minimum of 48 quarter hours (32 semester hours) in the content area subject. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to your academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

**Requirements for World Language Education Arabic Include**

Licensure Tests
All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. World Language Education majors must complete the following tests:

• Content Area Test (test numbers below) – assesses knowledge of the language and culture. Test is required before Student Teaching (deadlines apply).
• OPI Test (see below).
EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Russian
- Foreign Language: Russian Content Area Test (test #134)
Spanish
- Foreign Language: Spanish Content Area Test (test #260)

Field Experiences
Each student seeking licensure from the College of Education/Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Oral Proficiency Interview (OPI) Test
Pursuing licensure in the teaching of a foreign language (Arabic, Chinese, French, German, Italian, Japanese, Latin, Russian, or Spanish) requires the oral proficiency test – an Interview – before you begin student teaching. You must earn a rating of "intermediate high" or better on the test.

For additional information about the OPI and a link to the test, please consult the OPI section of the College of Education website.

Professional Special Programs
- Licensed Professional Counselor (p. 1387)
- School Counselor Licensure (p. 1388)
- School Nurse Licensure (p. 1389)

Licensed Professional Counselor

State Licensure Information
The State of Illinois requires that those who wish to work as a counselor have licensure as either a Licensed Professional Counselor (LPC) or an advanced Licensed Clinical Professional Counselor (LCPC). The Counseling program's Clinical Mental Health Counseling specialty area meets the educational requirements for the Licensed Clinical Professional Counselor. However, there are further requirements that must be met. For more information, contact the State of Illinois Department of Professional Regulation in Springfield, Illinois.

Admission Requirements
To be eligible for the Licensed Professional Counselor program, students must hold a bachelor's degree from an accredited college or university. It is recommended that you have at least one year of working experience.

To apply, please submit the following materials to the Office of Graduate Admission:
- A completed application
- Application fee ($40)
- One official transcript from each college and/or university attended
- Three letters of recommendation: one from a professor addressing your academic ability, one from an employer, and the third from either another professor or employer
- Resume
- A personal statement (see below for more information)

The admission process also may include an interview with program faculty.

Personal Statement
Please answer all of the following questions.

Your entire response should not exceed 1,500 words (or approximately 300 words per question).

1. Discuss why you want to enter the counseling field. Demonstrate in your response that you have researched the field and have a basic understanding of what counseling professionals do.
2. Given what you have researched about the profession, discuss your short-term and long-term professional goals should you eventually graduate from our program. Integrate into your response why DePaul's counseling program will help you achieve your goals.
3. Discuss why self-awareness, self reflection and self-care are important skills for counselors. Explain ways in which you would attend to all of these should you be a student in our program.
4. Explain how your personal values and ethical beliefs will be an asset to you as a future counselor and explain any challenges you may face

Additional Requirements
Please also view the college core requirements under the MA or MED for World Language Education for additional requirements. Note that the World Language Education Licensure program listed above does not lead to a degree.
in future practice. Provide concrete examples from your personal or professional life to help illustrate your points.

5. Discuss your understanding of “multicultural proficiency” and “social justice.” Explain how you believe these play a role in the work of counseling professionals as well as how these fit with your own beliefs and values. Provide concrete examples from your personal or professional life to help illustrate your points.

### Licensed Professional Counselor Academic Criteria

Individuals who have already completed a Counseling program at DePaul may be required to take additional coursework to meet all the course requirements below. Individuals who are interested in the LPC but did not complete a Counseling program at DePaul can apply as a non-degree student to complete the coursework below.

Applicants must complete coursework in the following areas:

### School Counselor Licensure

The Counseling program's School Counseling specialty area is an Illinois State Board of Education (ISBE) approved program for the School Counselor endorsement on an Illinois Professional Educator License. ISBE states the following guidelines:

Individuals seeking the School Counselor endorsement must:

1. complete an approved school counseling program at an Illinois institution
2. hold a master’s degree in school counseling; counseling or a related field; or an educational field
3. pass the School Counselor content-area tests
4. hold or be qualified to hold a teaching certificate OR complete coursework addressing required knowledge as part of an approved program

### Admission Requirement

To be eligible for the School Counselor only program, students must hold a bachelor's degree from an accredited college or university. It is recommended that you have at least one year of working experience.

To apply, please submit the following materials to the Office of Graduate Admission:

- A completed application
- Application fee ($40)
- One official transcript from each college and/or university attended
- Three letters of recommendation: one from a professor addressing your academic ability, one from an employer, and the third from either another professor or employer
- Resume
- A personal statement (see below for more information)

The admission process also may include an interview with program faculty.

### Personal Statement

Please answer all of the following questions. Your entire response should not exceed 1,500 words (or approximately 300 words per question).

1. Discuss why you want to enter the counseling field. Demonstrate in your response that you have researched the field and have a basic understanding of what counseling professionals do.
2. Given what you have researched about the profession, discuss your short-term and long-term professional goals should you eventually graduate from our program. Integrate into your response why DePaul’s counseling program will help you achieve your goals.
3. Discuss why self-awareness, self reflection and self-care are important skills for counselors. Explain ways in which you would attend to all of these should you be a student in our program.

**Clinical Experience**

Students complete their Clinical Experience during the last year in the program. The Clinical Experience Courses include the Practicum, Internship in Counseling I, and Internship in Counseling II. Students are enrolled in the Practicum course Autumn Quarter; Internship in Counseling I Winter Quarter, Internship in Counseling II Spring Quarter. Students must complete a formal application process to participate in the Clinical Experience courses. This includes attending a clinical orientation a full year before beginning the Clinical Experience, submitting an initial application, and securing a placement site. Consult academic advisor for additional information on application and course enrollment process.

**Clinical Experience Courses: 12 Quarter Hours Required, Grade of B or Better Required**

Prerequisites: All courses with the exception of CSL 512 must be completed prior to being enrolled in the Practicum courses.

Upon completion of the School Counseling specialty area’s coursework and the additional State requirements, students must apply for their certificate. Students are to work with the College of Education's Licensure Officer when applying for the license/endorsement. This graduate certificate program is approved as a Gainful Employment Program through the U.S. Department of Education and is, therefore, eligible for Federal Student Aid.

**Licensure Tests**

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their professional license area. Requirements are subject to change per the discretion of ISBE.

School Counseling students must complete the following tests:

- School Counseling Content Area (test #181) – assesses knowledge of student development, assessment, the school environment and the school counseling profession.

**School Nurse Licensure**

The College of Education, working in collaboration with the School of Nursing in the College of Science and Health, has developed this online program to prepare Registered Nurses to meet the qualifications for licensure as School Nurses. The course sequence has been designed to meet state requirements so that students completing the curriculum will be eligible and prepared to take the Illinois state School Nurse content exam and obtain an Illinois State Board of Education (ISBE) School Nurse license. As with all of our programs in the College of Education, we strive to create positive educational transformations through the university’s Vincentian personalism that honors the dignity of each person.

ISBE requires that school nurses understand the context of the educational setting since it differs from the more traditional clinical and hospital environment. The School Nurse may be called upon to participate in special education case work and health assessments or record keeping that would not be traditionally affiliated with a nurse’s responsibilities in other settings. The School Nurse must therefore have coursework in the psychology, identification of, and methods of instruction for the exceptional child. The School Nurse must also have coursework that provides information regarding reading methods and content area reading.

Our state licensure program consists of 4 total courses for 16 credit hours (all online), plus an eight credit hour internship. The internship will
include an 11-week full-time placement in a school under the mentorship of a school nurse.

### Licensure

Upon completion of the program, students are eligible to take the Illinois State School Licensure Content Exam, (Test #236).

### Admissions

Applicants to the licensure program must meet the admissions requirements of the College of Education (found here (p. 1357)). Applicants must hold a Bachelor's Degree and must have a minimum gpa of 3.0. They must provide transcripts from degree granting institutions, two letters of recommendation, and a copy of nursing license. ISBE requires that School Nurse candidates must hold licensure as a Registered Nurse in Illinois.

### College of Law

DePaul University College of Law challenges and enlightens students by placing the highest priority on innovative programs of instruction that include both traditional classroom theory and professional skills training. We are distinguished by our highly successful centers and institutes, which emphasize collaborative learning among students and faculty in advancing the law and serving justice. Located in a vibrant urban environment, the College of Law brings together students, faculty, staff and alumni committed to serving the public and the legal profession in ways that enhance the social, economic, cultural and ethical values in the broader community. The College of Law is part of a university that derives its fundamental mission from St. Vincent de Paul, who advocated the acceptance of all people and devoted his life to helping the disadvantaged lead dignified lives. We seek diversity in students’ special talents, qualities, interests and socioeconomic backgrounds in creating a culture in which student learning is central. DePaul College of Law students can expect an academic environment that weaves together education, experience, service and community.

### Academics

At DePaul University College of Law, tradition underlies everything: our deep roots, our enduring values and our commitment to service.

The College of Law provides theoretical instruction as well as offers creative approaches to professional skills training. Law students can earn academic credit by working with real clients on real cases in every type of legal environment. Through our Legal Clinics, Field Placement Program and Trial Advocacy Program, students gain valuable first-hand experience and insight working side-by-side with distinguished faculty members and practicing attorneys.

In addition to the core Juris Doctor curriculum, students also can choose from a variety of joint degrees, graduate programs and certificate options in a number of concentrations.

### 3+3 Program (BA+JD)

In the 3+3 BA+JD Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

#### Key Program Features

- Students earn both a bachelor's and a law degree (Juris Doctor) in as few as six years (three years undergraduate and three years in law school).
- Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

### Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students must achieve a cumulative GPA of 3.35 by the end of their second year of study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>

<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law's online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities
should be completed no later than February 1 of the participant's third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

Financial Aid
BA+JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at $1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law's median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Admission & Aid
Electronic Application Process
All applicants to the College of Law must submit all materials electronically through the Law School Admission Council (LSAC) and register with the LSAC Credential Assembly Service (CAS). We only accept applications submitted through LSAC. Please read the application instructions included with the LSAC Electronic Application and follow them carefully. You can access the LSAC Electronic Application at law.depaul.edu (http://law.depaul.edu) or lsac.org (http://www.lsac.org).

We will not accept any paper application materials or paper updates to your application. Paper materials and updates will not be retained or reviewed by the Admissions Committee and will be discarded. You are welcome to submit updates to your file electronically. Application update materials may be submitted to lawinfo@depaul.edu. Please include your name and LSAC identification number on each attachment.

Disabled applicants in need of a reasonable accommodation to complete the application process, or other applicants who require a paper application, should contact the Office of Law Admissions at (312) 362-6831 or email lawinfo@depaul.edu with their request.

Admission Policy
Admission to DePaul University College of Law is very competitive. We consider numerous factors in evaluating each applicant, including undergraduate academic performance, Law School Admission Test (LSAT) scores, advanced degrees, professional work experience, writing ability, potential for leadership, professional and academic recommendations and the applicant's special talents, qualities, interests and socioeconomic and cultural background. No single factor is dispositive when determining admission.

Personal qualities that demonstrate intellectual depth, high ideals and diligence also are considered, as are economic, societal or educational obstacles that have been successfully overcome. Diversity in background and experience among the members of each entering class is a continuing objective. Having a diverse student body allows us to encourage and foster the exchange of different ideas. In addition, a candidate's prior relations with the DePaul University community and her or his potential for furthering DePaul's institutional goals are considered.

Because applications are reviewed on a rolling basis, early application is highly recommended, especially for those who desire merit scholarship and financial aid consideration. For first-year applicants with no previous law school credit, admission is granted only for the fall semester. First-year applicants should ensure that their application and all necessary documents are on file in the Office of Law Admission prior to the suggested application deadline of April 1.

Prospective applicants who have received their baccalaureate degrees from accredited institutions or who have received degrees prior to July of the year for which admission is sought are eligible to apply. Except for students admitted to the 3+3 BA+JD program, anyone who has yet to receive a baccalaureate degree will not be permitted to enroll in the College of Law. No specific fields of study are prescribed at the baccalaureate level.

DePaul University has a nondiscriminatory admission policy; it is the policy of DePaul University that no person shall be the object of discrimination or harassment on the basis of race, color, ethnicity, religion, sex, gender, gender identity, sexual orientation, national origin, age, marital status, pregnancy, parental status, family relationship status, physical or mental disability, military status, genetic information or other status protected by local, state, or federal law in its employment or its educational settings.

Application Instructions
Letter of Recommendation
One letter of recommendation is required for all applicants. Additional letters are welcome. Letters of recommendation must be submitted through CAS.

Recommendations from an applicant's college professors are particularly useful. Recommendations also may be submitted by employers or colleagues who are in positions to make critical and informed appraisals of an applicant's qualifications.

Personal Statement
A personal statement is required and must be electronically attached to the application for admission. It should not exceed two pages, and may provide the Admissions Committee with information regarding such matters as intellectual interests and pursuits; personal, family or educational background; experiences and talents of special interest; reasons for applying to law school as they may relate to personal goals and professional expectations; or any other factors that will assist the committee's evaluation of the applicant's candidacy for admission.

Applicants also may describe, either within the personal statement or as an addendum, how their admission would contribute to the diversity of the College of Law.

Resume
A current resume is strongly recommended and may be electronically attached to the application for admission. It should not exceed two pages. It should include a complete employment record and identify honors, scholarships and commendations received; membership in any scholastic, honorary and professional associations; as well as community, volunteer and extracurricular activities.

Law School Admission Test / Credential Assembly Service
All applicants must take the LSAT. LSAT scores earned prior to June 2016 will not be accepted. In addition, all applicants must register with CAS. Please visit the LSAC website (lsac.org (http://www.lsac.org)) for additional information.

Application Fee
There is no application fee for the JD program.
International Applicant Information
Applicants who have earned degrees or received diplomas from foreign institutions must submit all materials required of first-time JD applicants.

In addition, applicants who have completed coursework or earned degrees from foreign institutions should submit their foreign transcripts through LSAC’s CAS. Foreign transcripts received will be sent to the American Association of Collegiate Registrars and Admissions Officers (AACRAO) where the transcript will be authenticated and analyzed. This service is included in the standard CAS fee. The data will be assembled into a foreign credential evaluation document that contains AACRAO’s summary, copies of the transcripts (and translations, as necessary) and a TOEFL or IELTS score, if applicable.

Applicants who were educated in foreign countries at institutions where English is not the primary language must also register for the TOEFL (toefl.org) or IELTS (ielts.org) or LSAC will incorporate the applicant’s foreign credential evaluation, TOEFL or IELTS score and associated documents into the regular CAS report.

While the College of Law strongly encourages international applicants to submit their foreign transcripts to the CAS, we will also accept detailed evaluation reports from Educational Credential Evaluators (ece.org), World Educational Services (wes.org) or from any other member of the National Association of Credential Evaluation Services.

International applicants who have graduated from foreign law schools may receive up to 28 credit hours toward the JD degree. The determination of applicable credit is made upon admission. For additional information, including a copy of the Financial Affidavit of Support Form for International Students, please visit International Student Admissions (https://offices.depaul.edu/international-admission/Pages/default.aspx).

Joint Degree Programs
DePaul offers five joint degree programs: the JD+MBA degree with the Kellstadt Graduate School of Business; the JD+MS in Public Service Management and the JD+MA in International Studies, both with the College of Liberal Arts & Social Sciences; the JD+MS in Computer Science Technology with the College of Computing and Digital Media; and the JD+Masters in International and European Business Law with the Pontificia Universidad Comillas (Madrid, Spain).

Those seeking a joint degree first must apply and be accepted for admission to the College of Law. Admission is made to the appropriate joint degree program only after completion of the first-year core curriculum in the College of Law with above average academic achievement. Thereafter, if accepted into the joint degree program, law students begin their joint degree studies.

A separate application may be required for each program and should be submitted during the first year of law school. In addition, an entrance exam such as the GRE or GMAT may be required depending on the requirements of the program to which the applicant is applying.

More information about joint degree programs is available at law.depaul.edu (http://law.depaul.edu).

Transfer Applicant Information
DePaul University College of Law welcomes applications from students who will have completed, within the preceding two years, at least one year of study at another ABA-accredited law school. Transfer applicants may apply for admission to the day and evening programs during the fall and spring semesters. Transfer applicants admitted to the College of Law may receive up to 30 hours of credit toward the JD degree. The determination of applicable credit is made upon admission. DePaul University does not have an articulation agreement with any university or law school program regarding transfer admission.

Students applying for transfer admission complete a different online application than first-year applicants. Transfer applicants are required to submit the following: transfer student application form, one letter of recommendation from a law school professor, resume, personal statement and current LSAC CAS report. In addition, transfer applicants must submit directly to the Office of Law Admissions:

1. a letter of good standing indicating eligibility to return from all previously attended law schools
2. law school transcripts from all previously attended law schools.

Law school transcripts must provide grades for all coursework attempted. While a transcript showing spring grades generally is required to review the application, the Admissions Committee may make an exception and grant a conditional admission based upon an applicant’s strong academic performance in the fall semester. Class ranks are not required to evaluate an applicant’s transfer application.

In evaluating transfer applicants, the Admissions Committee will consider the applicant's undergraduate academic record, LSAT score, law school grades, personal statement, letter of recommendation and other information requested in the application.

Financial Assistance
DePaul University and the College of Law provide a range of financial assistance in the form of loans and scholarships. Should you wish to apply for financial assistance, indicate your intent in the application for admission. Financial aid applications will be available shortly after October 1.

Scholarship Assistance
All admitted students are automatically considered for applicable scholarship awards. No separate application is required. Dean’s Scholarships are awarded to entering law students based upon their achievements, personal qualities and potential to contribute to the DePaul law community. Scholarship recipients are notified of their award in the acceptance letter.

Need-Based Assistance
To apply for loans and other need-based assistance, the Free Application for Federal Student Aid (FAFSA) is required and can be obtained after October 1 at colleges and universities or at the FAFSA website (fafsa.ed.gov (http://www.fafsa.ed.gov)). The FAFSA code for DePaul University College of Law is 001671. The FAFSA must be complete and on file in the Office of Financial Aid on or before March 1 in order to receive full consideration for DePaul-administered financial aid.

For additional financial aid and scholarship information, visit the DePaul University College of Law website at law.depaul.edu (http://law.depaul.edu).
College of Liberal Arts and Social Sciences

The College of Liberal Arts and Social Sciences is committed to providing all of its students with an education that balances in-depth study in select areas with a breadth of experience in the various disciplines that form the core of human knowledge. All programs of study share a commitment to the highest standards of academic quality, to a mode of study that nurtures critical thinking skills, to a self-conscious examination of questions of value and meaning, and to the development of those habits of the heart and mind intrinsic to a life-long and independent learner.

Our commitment is reflected in a faculty that is as strongly committed to teaching as it is to research. It is reflected in curricular practices that discourage students from concentrating in one subject area to the exclusion of all others. And it is reflected in the College's encouragement of interdisciplinary areas of study, effective collaboration, and the development of leadership skills that can be applied across all areas of knowledge.

The College values and nurtures the distinctiveness of the Vincentian mission of the University. The interactions among its faculty and between its faculty and its students are characterized by sincere personal care. Significant portions of the curriculum speak to questions of social responsibility, ethical standards for behavior, and an active engagement with the people of Chicago and the world.

Offices of Undergraduate Student Advisors
Academic advising is an essential part of student success. The College is committed to helping each student form a unique and coherent academic plan from the three components of the undergraduate career: the Liberal Studies or University Honors program; the major and minor field(s) of study; and open electives.

Undergraduate students declare majors, concentrations, and minors through Campus Connect. When a student declares a major, both a staff professional advisor and a faculty member from that department are assigned to the student as academic advisors. They work together to holistically advise the student about degree requirements, progress toward degree, internships, studying abroad, preparing for graduate or professional school, and work-life balance.

Students can find the name and contact information for their academic advisors on Campus Connection.

Graduate Student Services Office

The Graduate Student Services Office assists graduate students throughout their academic careers. Providing administrative support to the academic programs, the Graduate Student Services Office facilitates orientations, transferring academic credit, awarding of assistantships and tuition waivers, registering for independent study, and completing graduation requirements.

In addition, the Coordinator of Graduate Student Services in the Graduate Office provides supplementary advising on administrative, policy, and procedural matters. Generally, the Coordinator may serve as a first point of contact for any questions students may have about life in the College of Liberal Arts and Social Sciences and at DePaul University.

Graduate students should become familiar with the resources on the Graduate Student Services Office webpages (see URL below) as well as the content of the Graduate Student Handbook (see left menu, Academics > Graduate).

Undergraduate Academics

The College of Liberal Arts and Social Sciences offers a wide range of Undergraduate majors, Graduate programs and Certificates.

Honors Program

Most students follow the Liberal Studies Program (p. 1293) to meet their general education requirements. However, students accepted into the Honors Program (p. 1319) fulfill general education requirements through an alternative set of courses. A student in the Honors Program pursuing a primary major in the College of Liberal Arts and Social Sciences follows the requirements below:

Like the Liberal Studies Program, the Honors Program consists of between ten and twenty courses representing 40 to 80 quarter hours, the exact requirements determined according to the student’s home college and/or major. Honors requirements include core courses, a science requirement, a math requirement, an art requirement, a language sequence, a multiculturalism seminar, a junior seminar, and a senior thesis or senior seminar. Some AP and IB credit will apply toward Honors core courses. Credit can also be applied toward the math, science, or language requirements. Depending on the college and major, some Honors requirements may be waived. Specific requirements can be found within the student’s college in the Colleges and Schools section.

<td>HONORS SENIOR THESIS</td>
<td></td>
</tr>
</tbody>
</table>

Honors Senior Thesis Option

Students who choose to complete an Honors Senior Thesis must have their project approved at least one term prior to executing the project. To gain approval for a senior thesis, students must complete an online application, including a project proposal, signed by two faculty advisors.

In keeping with the interdisciplinary nature of the program, the thesis should attempt to move outside the boundaries normally associated with one particular discipline and should be supervised by two faculty members from different academic fields. While the final product must be a substantial piece of work building on the student’s accumulated knowledge and new research, specific requirements for each thesis will depend on the nature of the project. See the Honors director or associate director for further information. Students may opt to enroll in HON 300 (a two-credit elective) to receive dedicated guidance as they prepare the thesis project.

Science Requirement

- Honors students who do not have a lab science requirement for the major will fulfill the science requirement with HON 225 (Honors Lab Science Topics) OR a course selected from the university’s Scientific Inquiry Lab courses.
- Honors students in Liberal Arts and Social Sciences, College of Communication, and BA students in the School of Music will
complete one additional science course chosen from the university’s offerings of Scientific Inquiry courses.

- Honors students in the College of Education will select a biology course for their additional science course.
- Students in the School of Music (non BA) and the Theatre School will fulfill the science requirement with one course selected from the university’s offerings of Scientific Inquiry courses.

**Math Requirement**

- Honors students who do not have a Calculus, Statistics or Discrete Math requirement for the major are required to take HON 180. HON 180, or the first course of the required math sequence for the major, is a prerequisite for HON 225.

**Language Requirement**

- Three courses of intermediate or advanced language study are required for all Honors students who are not in a conservatory or BFA program.
- Students who meet the proficiency requirement by placing at the 200-level of a language may fulfill the language requirement with either one year of advanced study of their proficient language or one year of a language the student has not previously studied.
- Language majors may fulfill the language requirement with one year of language study outside of their major or three additional Honors Approved Electives.
- Honors students in the College of Education have a one year (three course) language requirement. This requirement can be fulfilled through either completion of one year of study of the student’s high school language or one year of a new language the student has not yet studied. Students opting to continue their high school language are required to complete a placement test and must begin language study according to their placement.

**Fine Arts Elective**

**Honors Approved Electives**

Approved Electives are chosen in consultation with an Honors advisor to achieve specific academic or professional goals. Courses completed for Study Abroad, 200-300 level courses taken for a minor or second major, or 200-300 level courses taken to pursue a specific area of interest outside of the major can count as Honors Approved Electives. The number of Honors Approved Electives depends on the college and major. Students in the College of Education, the School of Music (except BA students), and the Theatre School do not have Honors Approved Electives.

**Experiential Learning**

Honors students will fulfill the university’s Experiential Learning (EL) requirement by completing an EL-designated course in the major, as an open elective, as an Honors Approved Elective, or as an Honors core requirement (HON 351). Students in the College of Education, the School of Music, and the Theatre School whose programs meet the university requirement in Experiential Learning will be considered to have met the Honors Program requirement as well.

**AP or IB credit will fulfill Honors Core requirements as listed:**

- AP/IB Literature credit for ENG 101 or ENG 120 will fulfill HON 101 (https://catalog.depaul.edu/search/?P=HON%20101)
- AP/IB credit for HST 111 or HST 171 fulfills HON 102 (https://catalog.depaul.edu/search/?P=HON%20102)
- AP/IB credit for BIO 191 or CHE 130 or PHY 150 or ENV 102 fulfills HON 225 and/or the Scientific Inquiry requirement
- AP/IB credit for CHE 102 or GEO 101 or ENV 202 or MAT 150 or MAT 135 fulfills the Scientific Inquiry requirement
- AP/IB credit for MAT 242 or MAT 150 or MAT 135 will fulfill the HON 180 requirement.
- AP/IB credit for ART 104 or ART 105 will fulfill the Fine Arts Elective requirement
- AP/IB credit for a 104, 105, or 106 language course will count toward the language requirement

**Grade Requirements**

A grade of C- or higher in HON 110 or HON 111 is required to remain in the Honors Program. A grade of C- or higher is required to pass the following:
Study Abroad

Study Abroad is particularly appropriate for students in the Honors Program and, though not required, is strongly recommended. Honors students interested in Study Abroad should plan to participate during their sophomore or junior year and should make certain that they have fulfilled appropriate modern language requirements before that point in their undergraduate careers. They should meet with the Honors Associate Director prior to their departure for pre-approval of course substitutions. Coursework completed abroad may substitute for Honors Approved Electives.

Honors Advising

All Honors students will work with an Honors advisor for academic planning and to schedule Honors courses in conjunction with their major requirements. As a general rule, Honors students take one or two Honors courses each quarter during their first and second years of study and one or two Honors courses a year in the junior and senior years.

Transfer Honors

Transfer Honors offers students the full benefits of the Honors Program (https://academics.depaul.edu/honors/Pages/default.aspx) with the opportunity to fulfill requirements using courses taken at previous institutions. For students admitted to Transfer Honors, the Honors curriculum replaces Liberal Studies requirements. Evaluation of transfer credit toward Honors requirements is done on an individual basis, and specific Honors requirements vary according to a student’s college and major. Students who transfer to DePaul with fewer than 16 quarter hours of college credit, excluding AP and IB test credit, will have the same Honors requirements as students who begin the program as freshmen.

Please note that Transfer Honors is a residential program with most classes offered during the day on the Lincoln Park Campus. Students in the School of Music, the Theatre School, and the School of Continuing and Professional Studies are not eligible for Transfer Honors.

Transfer Honors Requirements

Students who enter Transfer Honors will consult with an Honors Program advisor to determine how transfer credit can apply to the following Honors requirements:

Graduate Academics

The College of Liberal Arts and Social Sciences offers a wide range of graduate degree programs and certificates, general academic requirements for which follow.
Master's Programs
For the master's degree, all programs involve one or more of the following:

1. credit hours,
2. thesis,
3. paper on approved topic,
4. integrating project,
5. final or comprehensive examination, and
6. program time limitation.

Credit Hours
For the master's degree, most programs for graduate students require 48 quarter hours of course work. When the program includes a thesis, no more than eight quarter hours of registration in Thesis Research will be counted toward the degree. Specific degree requirements are listed in the departmental and program sections of this Catalog.

Thesis
The University offers the master's degree both with and without the thesis; however, the thesis is required by some departments. The thesis is limited to the student's field of specialization and should offer satisfactory evidence of the candidate's potential for scholarly research.

The student is advised to consult the College Office or its website (https://las.depaul.edu/student-resources/graduate-student-support/graduation-requirements/Pages/thesis-requirements.aspx) for information regarding the required format of the thesis and accompanying forms. Responsibility for fulfilling theses requirements lies with the student.

The student, after completing the thesis, will submit it to the director of his or her thesis committee for consideration. When the thesis is fully approved, purged of all errors, and in the correct format, the student must submit an electronic copy to the College Office. The College Office will arrange for the electronic archival of your thesis with the library and your department.

Paper on Approved Topic
The type and length of the paper is determined by the department or program that lists it as a requirement for the master's degree. The purpose of the paper is to give evidence of the student's ability to find, select, organize and interpret material in a manner consistent with the standards and practices of the discipline involved.

Integrating Project
Procedures for such a project are set in advance in each specific case through consultation between the student and the department or program advisor.

Final or Comprehensive Examination
The type and the subject matter of the examination follow the regulations established in the various departments and programs. If the student does not pass the examination, the department or program may grant permission for another examination. The examination may not be repeated until after the next convocation nor may the examination be taken more than twice.

Program Time Limitation
Graduate students in master's programs are expected to complete their program degree requirements within a six-year period from the first registration date for a course in the program. When a graduate student fails to finish before the end of the sixth year, the department or program director may recommend, on receipt of the student's petition, in writing, an extension of time with or without additional courses, examinations, or other conditions.

Doctoral Programs
The Doctor of Philosophy, the highest academic degree that DePaul University confers, is offered in the department of Philosophy. The degree shows that the recipient has demonstrated proficiency in a broad area of learning, as well as the potential to explore and advance that field of knowledge by independent research.

Following are the minimum general requirements for all candidates for the Doctor of Philosophy degree in the areas of:

1. academic achievement,
2. residence,
3. admission to candidacy,
4. dissertation,
5. final examination and
6. program time limitations.

Additional requirements set by the departments are stated in the departmental sections of this Catalog.

Students should contact the Graduate Office or check its online resources if there are any questions or concerns.

Academic Achievement
A student will be advised to withdraw from the doctoral program when the department judges that he or she is not maintaining satisfactory progress toward the degree. Students are required to maintain at least a 3.0 average. A course grade below 2.0 is unsatisfactory and will not be counted toward completing degree requirements. The determination of satisfactory progress is not limited to grades and grade point average, but includes all factors in the student's performance.

Residence
At least three consecutive quarters beyond the master’s level must be spent in full-time study at DePaul University. Full-time study is defined as registration for a minimum of eight quarter hours in a quarter. With prior approval of the department, the student may satisfy residency by course work, by participation in seminars, or by research performed off campus. To reflect the diversity of graduate study for the Ph.D. degree at stages other than the residency stage, doctoral candidates are full-time students who are registered for Independent Study (four hours); for Dissertation Research (four hours); or for Candidacy Continuation (non-credit).

Admission to Candidacy
Admission to candidacy implies that the faculty is satisfied the doctoral candidate is sufficiently knowledgeable in his or her area of specialization and in the use of research tools to be able to prepare an acceptable dissertation.

For admission to candidacy the doctoral candidate shall have had the master’s degree conferred and shall have completed three consecutive quarters of full-time study beyond the master’s level. Other requirements may include a comprehensive examination, departmental language or allied field study, and/or a dissertation proposal.

The College Office will record the date of admission to candidacy. There is a time limit of four years between admission to the College of Liberal Arts and Social Sciences and admission to candidacy. Once admitted to candidacy, the doctoral candidate must maintain registration in the
University in each of the quarters of the academic year until the degree requirements have been completed. Among other courses, the following are appropriate to maintain registration: Independent Study (four hours); Dissertation Research (four hours); or Candidacy Continuation (non-credit). Failure to comply with the policy governing registration in the University, in each of the quarters of the academic year until the degree requirements have been completed may result in dismissal from the doctoral program. Candidacy status may be reinstated only after the student has applied for readmission (see Readmission Procedures).

**Dissertation**

The doctoral candidate will prepare a dissertation based on his or her research. The purpose of the dissertation is to demonstrate one's ability to do scholarly work that contributes to the profession and the advancement of knowledge. The candidate will:

1. select a dissertation director;
2. have a topic of the dissertation approved; and
3. form a dissertation committee to help guide the production of the dissertation.

Further details about the dissertation are available from the candidate's department. All doctoral dissertations are to be published through ProQuest and entered into DePaul University's institutional repository. After all requirements have been completed, the dissertation document has been fully approved, purged of all errors, and in the correct format, the student must submit an electronic PDF copy of the dissertation to the College Office.

**Final Examination**

The dissertation is the principal basis of the final examination. After completing the dissertation, and at least eight months after admission to candidacy, candidates should submit a petition for the final examination to their department. The department chairperson notifies the Graduate Office of the date, time and place of the examination and of the names of the members of the examining committee. After the examination, the chair of the committee sends a report of the results, signed by all committee members, to the graduate office. When these steps have been completed, the doctoral candidate becomes eligible for degree conferment at the next convocation.

**Program Time Limitations**

For graduate students in a doctoral program, the time limits to complete the requirements for the Doctor of Philosophy degree are:

1. between admission to the doctoral program and admission to candidacy: not more than four years; and
2. between admission to candidacy and the final examination: not less than eight months, and not more than five years.

When a graduate student fails to finish before the end of his or her fourth year prior to candidacy or his or her fifth year post candidacy, the department or program director may recommend, on receipt of the student's petition, in writing, an extension of time with or without additional courses, examinations, or other conditions.

**Certificates**

- Community Development
- Critical Ethnic Studies
- Digital Humanities
- Emergency Management Administration
- Geographic Information Systems
- Global Health
- Health Care Administration
- International Studies
- Metropolitan Planning and Development
- Publishing
- Social Research
- Strategic Writing and Advancement for Nonprofits
- Sustainable Urban Food Systems
- Teaching English in Two-Year Colleges
- Teaching English to Speakers of Other Languages
- Translation and Interpreting
- Women's and Gender Studies

Course work credit leading to a graduate degree program in the College of Liberal Arts and Social Sciences may be double-counted toward ONE approved, paired, graduate certificate program. If a student seeks another (second or more) LAS certificate, and those certificate program requirements are again completely comprised of course work leading to the student’s graduate degree, then the student must take at least two additional courses in order to earn the additional certificate(s).

**Liberal Arts & Social Sciences Graduate Academic Student Handbook**

In addition to the DePaul University Graduate Student Handbook, the Liberal Arts and Social Sciences Graduate Student Handbook includes requirements, rules and regulations for its graduate programs. Additional academic information and regulations applicable to specific graduate programs can be found via the program links below.

Upon admission to a graduate program, a student is to follow the catalog requirements in effect at the time of entrance. A student who is readmitted or who changes his or her program or enrollment status is subject to the terms of the catalog in effect at the time of readmission or status change.

Graduate students assume the responsibility to know and meet both the general and particular regulations, procedures, policies, and deadlines set forth in this catalog and handbook. This catalog does not constitute a contract between the student and the University. Every effort has been made to provide accurate and firm information. The University reserves the right to revise the content of its catalogs and schedules, and to change policies, programs, requirements, rules, regulations, procedures, calendars and schedule of tuition and fees; to establish and modify admission and registration criteria; to cancel or change courses or programs and their content and prerequisites; to limit and restrict enrollment; to cancel, divide or change time or location or staffing of classes; or to make any other necessary changes. Additionally, all students are expected to adhere to the Student Code of Responsibility found in the Student Handbook.

The following graduate programs have specific handbook policies:

- History (p. 580)
- Interdisciplinary Studies Program (p. 621)
- International Public Service (p. 630)
- Liberal Studies (p. 709)
- Modern Languages (Arabic (p. 147), Chinese (p. 221), French (p. 516), German (p. 544), Italian (p. 650), Japanese (p. 652), Spanish (p. 1078))

Courses and Credit
Students must be registered in order to attend and receive credit for courses. The typical class extends over a ten-week period (or an accelerated five-week period in the summer). All courses carry four quarter hours of credit (2 2/3 semester hours), unless otherwise noted.

For students who work full-time, eight credit hours per term is the suggested maximum.

Graduate courses are numbered 400 - 799. Courses numbered 300 through 399 are advanced undergraduate courses that may be accepted for graduate credit within the limitations stipulated by the specific departmental chair or program director.

Students who want to enroll in undergraduate courses for personal interest while pursuing a graduate degree must submit an online application for non-degree seeking undergraduate admission found on the DePaul website.

Up to twelve quarter hours of credit (or not more than one-quarter of a program’s required coursework) may be transferred from another institution, with the approval of the program director. Please contact the Graduate Student Services Office for details.

Grades, Minimum Requirements
A grade of B- or higher must be earned to receive credit for any upper-level undergraduate course (300 level) that has been approved to count toward the graduate degree. A minimum grade point average of 2.500 is required to graduate. Some programs may have a higher minimum graduation grade point average. A grade of D+ or D is unacceptable for graduate credit, and if earned in a required course, the course must be repeated or substituted as directed by the director of the graduate program. D+ or D grades remain on the academic record and are calculated into the cumulative grade point average.

Graduation
Meeting Degree Requirements
You must successfully complete all of the general and specific degree requirements as listed in departmental or program sections of the catalog under which you were admitted. All requirements must be completed by the grading deadline of the degree conferral quarter.

Earning Degrees with Distinction
Requirements for earning a degree with distinction vary by program. Unless otherwise indicated, the minimum cumulative grade point average for distinction is 3.75. Additional criteria need to be met in many programs, such as passing a comprehensive examination or writing a thesis with distinction. Refer to your program information for any differing or specific requirements on minimum grade point average or additional criteria.

Degree Conferral
Applying for degree conferral requires the anticipated completion by the stated deadline of all program requirements including completion of all course work plus any of the following that apply: program standards, field experiences, thesis and/or dissertation requirements, qualifying or comprehensive exams, language proficiency, and the minimum GPA requirement for graduation. Submitting the on-line degree conferral application does not guarantee the conferral (granting) of a degree from DePaul University. Degree requirements are reviewed at the end of the expected completion term indicated.

In order to have your degree conferred, you may not have any outstanding incomplete grades, transfer credit, grade changes, substitutes, or waivers. All exams must be completed and graded, and theses/dissertations or other capstone projects must be graded and submitted. Failure to have these items complete by the end of degree conferral term will prompt the Graduate Office to deny degree conferral. If you wish to postpone your degree conferral or are ineligible to graduate, you must reapply.

If you meet all requirements, your degree will be conferred within 30 days of the end of the term. Diplomas are mailed to graduates without financial holds, by the Office of the University Registrar, generally within 45-60 days after the end of the term.

DePaul reports degree information to the National Student Clearinghouse monthly. Many companies and agencies use this service to verify awarded degrees. Your degree will only be verified by the Clearinghouse if your privacy settings in Campus Connection indicate this as releasable information at the time your degree is conferred. Please verify your privacy settings before the end of your completion term.

Commencement
The graduation ceremony is symbolic. It is held in June of each year. June and August degree audits occur after the ceremony, therefore these candidates may not be accurately recognized as having earned a degree. Likewise, graduation with distinction may not be able to be announced at the ceremony, but will appear on the transcript and diploma.

Deadlines for Degree Conferral and Commencement Participation
The University confers graduate degrees four times per year, after the autumn, winter, spring, and summer terms. The deadlines for applying for degree conferral are October 1, January 15, February 1, and July 15 respectively. Students can RSVP to the June commencement ceremony beginning in the winter quarter. (There is only one commencement, i.e.,
graduation, ceremony per year. All students whose degrees are earned in that academic year are encouraged to participate.)

Probation and Dismissal
Each program may have its own probation and dismissal policies. Please consult with your program first and if there are no program-specific policies then the following applies.

A student is subject to probation as soon as his/her graduate GPA falls below 2.500. The student remains on probation until four more courses are taken, at which time another evaluation is made. If, at that time, the student has failed to raise his/her GPA to the required level of 2.500 the student may be dismissed.

A student who has been dismissed may, after a period of time, petition for reinstatement. The petition, addressed to the dean of the college, would provide information that would demonstrate a change in the student’s circumstances to an extent that would support successful completion of the student’s degree program. The dean's decision, based upon the merits of the petition and the recommendation of the faculty of the student’s department, may, if favorable, stipulate conditions of reinstatement.

Registration Procedures
Degree-seeking students enrolled at any time during the previous calendar year are eligible to register and do so through Campus Connection. Non-degree seeking students need permission from the Graduate Student Services Office to register.

Registration in Courses in other Colleges or Schools
Graduate students may be permitted to register for courses offered in other colleges or schools of the University. Contact the Graduate Student Services Office for specifics.

Residence Registration
Whether in residence or not, all active graduate students, master’s and doctoral levels who will use the facilities of the University (library, laboratory, etc.) or who will consult with faculty members regarding theses, dissertations or examinations, must be registered in each quarter.

Admission & Aid
Information about admission to the College of Liberal Arts and Social Sciences is found in the Admission & Aid section of the DePaul website (https://www.depaul.edu/admission-and-aid/Pages/default.aspx) (http://www.depaul.edu/admission-and-aid/types-of-admission/Pages/default.aspx).

Scholarship Opportunities
Information about the majority of scholarships is found here (https://www.depaul.edu/admission-and-aid/Pages/scholarships.aspx).

The College awards a handful of targeted, one-off, and relatively small ($500 - $3000) scholarships annually. Some academic departments have similar scholarships for their eligible majors. All scholarships are managed via Scholarship Connect (https://depaul.academicworks.com/users/sign_in/).

Graduate students may also be eligible for graduate assistantships, which package tuition waivers with a stipend, or full or partial tuition waivers. Contact Graduate Admission (GradDePaul@depaul.edu) or the graduate program of interest for more information about what opportunities exist.

Double Demon Scholarship
The Double Demon Scholarship is awarded to DePaul alumni and covers 25 percent of tuition for degree, non-degree or select certificate coursework taken at the graduate level.¹ Both full-time and part-time students are eligible and no application is necessary. To learn more, contact the admission office for your college of interest (see listing below).

¹ Please note: The Double Demon Scholarship cannot be used in conjunction with other DePaul scholarships, waivers or awards. University employees are eligible for other tuition benefits and are not eligible. The scholarship does not cover coursework from the Center for Professional Education (CPE), the Institute for Professional Development (IPD), coursework in a doctoral program or a master of fine arts (MFA), School of Music, the Theatre School, College of Law and a few other select programs.

Financial Aid
Information about financial aid is found here (https://www.depaul.edu/admission-and-aid/financial-aid/Pages/default.aspx).

Graduate Admission
Applicants are admitted to the College of Liberal Arts and Social Sciences on the basis of their ability to complete programs of study and research prescribed for the master’s and doctoral degrees. Specifically, admission qualifications are measured by academic criteria. In accord with these criteria, applicants are admitted in one of three major categories: degree-seeking, non-degree-seeking, and student-at-large.

The admission process begins with an online application, found here (http://www.depaul.edu/admission-and-aid/Pages/default.aspx).

Degree-Seeking Students
Applicants are admitted as degree-seeking students in either of two ways: full or conditional.

Full Degree-Seeking Status
The minimum requirements for this status are:

- Bachelor’s degree conferred by a regionally accredited institution.
- Scholastic achievement in undergraduate studies satisfying all requirements for entering a specific graduate program.
- Submission of all required supporting credentials.
- Unconditional approval by the department or program director of the applicant’s proposed course of graduate study.

Please note these are minimum requirements for full admission. The departmental and program sections of this Catalog provide additional, more specific and selective, criteria for admission to specific programs.

Conditional Degree-Seeking Status
The minimum requirements for this status are:

- Bachelor’s degree conferred by a regionally accredited institution.
- Scholastic achievement in undergraduate studies indicating a capacity to pursue successfully a specific program of graduate study.
- Submission of all required supporting credentials.
- Conditional approval by the department or program director of the applicant’s proposed course of graduate study.
A conditionally admitted applicant is eligible for reclassification to full, degree-seeking status when the conditions of his or her admission have been satisfied.

Non-Degree Seeking Students

The dean may admit as students those applicants who do not wish to pursue an advanced degree. Non-degree-seeking students may, at some future date, make application to a graduate program, but they are not accorded special consideration for admission. Students should consult the intended degree program's website for information about application requirements.

The minimum requirements for this status are:

- Bachelor's degree conferred by a regionally accredited institution
- Academic achievement in undergraduate studies indicating a capacity to succeed in graduate course work (minimum of 2.50/4.00)
- Submission of official transcript from bachelor's degree granting college or university
- Approval by the director of graduate admission.

Students admitted as non-degree graduate students are eligible to enroll in graduate-level courses only.

When such students apply to a graduate program, the departmental or program director of their specific graduate course of study may recommend, in writing, to the dean that a maximum of three courses (12 quarter hours) completed by the student under the non-degree-seeking status be counted toward fulfillment of the advanced degree requirements.

Combined Programs

College of Liberal Arts and Social Sciences students can apply to earn credit toward select DePaul graduate programs while undergraduates. In these programs, undergraduates take three graduate courses their senior year and complete a master's degree in a minimum of one additional year. (There is a "3+3" BA/JD program for incoming first-year students in certain majors, also.) Further information about these combined programs can be found within specific program descriptions in this Catalog.

Special Programs

Modern Language Option

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions cannot be applied in the Math and Computing or the Scientific Inquiry domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and are not applicable to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

Pre-Law Study

The Association of American Law Schools does not consider it appropriate to prescribe certain undergraduate degree programs for students who are planning to study law at the professional level. The Association does, however, consider certain skills and knowledge essential for later success in law and appropriate for study on the undergraduate level.

Pre-law study in the College of Liberal Arts and Social Sciences entails advanced course work that further develops the capacities and skills essential for satisfactory performance in law school. Specifically, pre-law study sharpens:

1. the ability to use the English language skillfully and effectively in oral and written advocacy situations;
2. the power to think clearly, critically, and independently in situations requiring problem-solving ability and sound judgment; and
3. the ability to use and understand statistical calculations.

Moreover, pre-law study is intended to promote an understanding of the psychological processes, economic systems, political organizations, and social structures essential to the study and practice of law. Students who are considering applying to law school should fulfill their open elective requirements with challenging, upper-level courses that expand the knowledge areas and skills mentioned above.

Admission to law school is based on scores achieved on the Law School Admissions Test (LSAT), collegiate performance, extracurricular activities, work experience, and letters of recommendation.

Students who want to prepare for law school should, whatever their academic major, consult with Prof. David Williams (david.williams@depaul.edu) in the Department of Political Science, or contact the Department of History (historyadvising@depaul.edu), where there is a pre-law concentration in the History major.

Study Abroad Program

A study abroad experience is an important part of a liberal education. The opportunity to live, study, and work with people from around the world provides students with a way to not only gain international competence and skills, but also helps them to more clearly understand their own identities and agency within a global context. Study Abroad programs are designed to emphasize social, political, historical, and cultural understanding through immersion in other cultures and societies.

Program lengths range from one year to one week. In traditional programs lasting one quarter or more, students live and take courses on site. Short-term programs are topic-focused tours led by DePaul faculty exploring specific aspects and issues of a country or society. These programs typically last 2-3 weeks and are offered during breaks between terms. First Year Abroad programs are for first-year students and combine on-campus study of a location prior to a one-week trip to that area.

Program fees ordinarily cover local transportation associated with course excursions, accommodations, and some meals. Short-term program fees
also cover round-trip airfare. In addition, students pay regular DePaul tuition for the credit received while abroad.

Courses taken through the Study Abroad Program may be used to fulfill Liberal Studies domain requirements (including experiential learning), modern language requirements, major field requirements, or open electives.

Please visit the Study Abroad Program (https://offices.depaul.edu/global-engagement/student-resources/study-abroad/Pages/default.aspx) website for current offerings.

TEACH Program

This program provides students the opportunity to complete in five years an undergraduate degree in a core arts and sciences major and a Master's of Education degree with State of Illinois secondary education teaching certification in a content area related to their major. As a combined degree program of the College of Liberal Arts and Social Sciences and the College of Education, the program is collaboratively developed, governed, and taught by faculty from both units.

Students may apply to the Program during the spring of their junior year. They must complete the Junior Year Experiential Learning course TCH 320, and meet other application criteria prior to applying; these include completion of at least 16 hours at DePaul and a 3.0 GPA. During their Senior Year, students are required to complete a program capstone course and three 400-level courses that count toward both their undergraduate and graduate degrees. The Master's year comprises teacher-preparation coursework that culminates with student teaching during Spring quarter. Upon graduation and the fulfilling of State of Illinois Certification requirements (which may require some additional course work in the student's major and related fields), students are eligible to be certified to teach English, History, or Social Science at the 6th-12th grade levels.

A full description of the Program can be found in the College of Education graduate course catalog.

3+3 BA/JD Program

In the 3+3 BA/JD Program, high-achieving first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA/JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students must achieve a cumulative GPA of 3.70 by the end of their second year of study and maintain a cumulative GPA of 3.70 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRELAW 150</td>
<td>THE PRACTICE OF LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 151</td>
<td>RECENT CONTROVERSIES IN THE LAW</td>
<td>2</td>
</tr>
<tr>
<td>PRELAW 152</td>
<td>THINKING ABOUT THE LAW</td>
<td>2</td>
</tr>
</tbody>
</table>

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law's online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than the end of the Autumn Quarter of the participant's third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

Participating Majors

The BA/JD Program is available for students pursuing the following majors:

- African and Black Diaspora Studies
- Anthropology
- Arabic Studies
- Art, Media, and Design
- Chinese Studies
- Criminology
- Economics
- English
- French
- Geography
- German
- History
- History of Art and Architecture
- International Studies
- Italian
- Islamic World Studies
- Japanese Studies
- Latin American and Latino Studies
- Peace, Justice and Conflict Studies
- Philosophy
- Political Science
• Public Policy Studies
• Religious Studies
• Sociology
• Spanish
• Writing, Rhetoric, and Discourse

For admission requirements and information, contact the Office of Admission (https://www.depaul.edu/admission-and-aid/Pages/default.aspx).

• African and Black Diaspora Studies (p. 1403)
• American Studies (p. 1403)
• Anthropology (p. 1404)
• Applied Diplomacy (p. 1405)
• Art School, The (p. 1405)
• Catholic Studies (p. 1406)
• Community Service Studies (p. 1407)
• Comparative Literature (p. 1407)
• Criminology (p. 1408)
• Critical Ethnic Studies (p. 1408)
• Economics (p. 1409)
• English (p. 1411)
• Geography (p. 1412)
• Global Asian Studies (p. 1413)
• History (p. 1414)
• History of Art and Architecture (p. 1415)
• Interdisciplinary Self-Designed Program (p. 1416)
• International Studies (p. 1416)
• Irish Studies (p. 1417)
• Islamic World Studies (p. 1418)
• Latin American and Latino Studies (p. 1418)
• Lesbian, Gay, Bisexual, Transgender (p. 1419)
• Military Science (p. 1420)
• Modern Languages (p. 1420)
• Peace, Justice and Conflict Studies (p. 1422)
• Philosophy (p. 1423)
• Political Science (p. 1423)
• Public Health (p. 1424)
• Public Policy Studies (p. 1425)
• Refugee and Forced Migration Studies (p. 1425)
• Religious Studies (p. 1426)
• School of Public Service (p. 1427)
• Social Work (p. 1429)
• Sociology (p. 1429)
• Women's and Gender Studies (p. 1430)
• Writing and Publishing (p. 1431)
• Writing, Rhetoric and Discourse (p. 1432)

African and Black Diaspora Studies (ABD) will also train students in comparative analysis of regions (e.g., peoples, religions, philosophies) through an incorporation of the study of history, power, identity, gender, and race. The Department's offerings provide students with opportunities to learn about and develop expertise in the cultures, histories, and societies of people of African descent. African and Black Diaspora Studies prepares students to pursue professions and careers in a variety of areas. ABD students have gone on to careers in fields such as law/legal studies, social work, academia, teaching, community work/advocacy, publishing, communication and media, business, public policy, and more.

American Studies

American Studies courses are methodologically grounded in many different areas of cultural studies including historiography, media studies, material culture, visual literacy, critical race theory and gender/sexuality studies. Students are expected to gain competency in American cultural studies by mastering the theoretical and intellectual frameworks of their concentration and by learning to interpret and analyze primary documents.

Anthropology

Anthropology is the comparative study of humanity, focusing on people in all places and throughout history and prehistory. Courses engage students in the analysis of beliefs, values, and practices from a perspective that understands societies on their own terms. This perspective includes comparing the similarities and differences among different groups and appreciating and valuing different ways of living. Students study other cultures in order to learn more about their own. This curriculum affords students the opportunity to see the interaction between "what we know" and "what we do" that lies at the heart of the study of humanity.

Our curriculum combines the best parts of a critical, creative, liberal arts education with practical, professional preparation. The major courses direct the student toward the subfields of cultural anthropology, biological anthropology, and archaeology, with a focus on applied research in these sub-fields. As part of the major, students engage in several research projects, including those that expose them to the application of anthropological knowledge for non-academic audiences. Out-of-class research projects in the City of Chicago are integral components of several courses. Students graduate with an extensive knowledge of how anthropology is actually done. We bring students farther into this practical side of the discipline than any other BA program in the country.

Academic careers are attractive to some graduates, but more than half of all professional anthropologists work outside of academic institutions. Some of these careers include research for public and private organizations, administration and/or public policy on the local, regional, federal, or international level; research and work in museums; intercultural communication; advertising, marketing, and public relations; forensics; human resources; public health; health care; and law. They also contribute to non-governmental and international organizations. Within the context of administration or public policy, anthropologists are engaged in cultural resource management (CRM), monitoring the preservation of cultural resources for national parks, museums, and state or municipal cultural institutions (i.e., parks and historical societies). Anthropology enhances other career paths, such as modern languages, international studies, international relations, cultural studies, and international business. Students will have completed several ethnographic research projects and acquired archaeological research skills by the time they graduate.

The extensive ethnographic research experience qualifies students with BA degrees to work in both non-profit (social service agencies) and for-profit (marketing, design, user-based) research settings. The archaeological certification opens avenues for careers in cultural resource management (CRM), and monitoring the preservation of cultural resources for national parks, museums, and state or municipal cultural institutions.

Applied Diplomacy

DePaul’s Applied Diplomacy program is dedicated to re-conceptualizing the practice of diplomacy in order to make these interconnections possible. Uniting traditional and non-traditional approaches to the field, the program seeks to transform our understanding of both. We emphasize the critical necessity for practitioners of diplomacy to become culturally, racially, ethnically, ecologically, and religiously literate, as well as to embrace an interdisciplinary and intercultural definition of the term diplomacy.

The faculty of Applied Diplomacy are drawn from twenty-one different departments and programs across the College of Liberal Arts and Social Sciences, making it one of the most disciplinarily and diverse diplomatic studies programs in the United States. Our diverse constellation of teacher-scholars bring the critical insights of a liberal arts education to bear on the concrete work of promoting cooperation, community building, and conflict resolution in multiple contexts. The Faculty come from not only DePaul’s International Studies and Political Science departments, but also from African and Black Diaspora Studies; Anthropology; Art, Media and Design; Community Service Studies; Critical Ethnic Studies; Forced Migration Studies; Geography; History; History of Art and Architecture; Latin American and Latino Studies; Modern Languages; Peace, Justice and Conflict Studies; Public Health; Public Service; Religious Studies; Sociology; Sustainable Urban Development; Women and Gender Studies; and Writing, Rhetoric and Discourse.

Art School, The

The Art School (ART) offers a general studio and/or a specialized studio curriculum which identifies and promotes continuing contact with the enduring values of our artistic heritage and the application of these values to the future. The educational aim of the school is to provide, through individualized mentoring, a broad foundation in artistic practice and art culture and history studies. The curriculum emphasizes project-based learning through art making, problem solving, and experimentation in studio courses, and through the development of the student artistic voice.

In the Bachelor of Fine Arts in Art, Media, and Design students choose one out of three concentrations: Graphic Art, Photography Media Art, and Studio Art. In the Bachelor of Arts in Art, students study a general studio curriculum with no concentration. There are also seven minors total. Available to non-majors: Graphic Art, Photography, Studio Art, Drawing, and Art, and available to majors and non-majors Creative Practice: Art & Writing (shared with English) and Illustration (shared with CDM). Students can take advantage of the small class sizes and personalized instruction from studio art, photography and media art, and
graphic art faculty. Our faculty are visual specialists and practicing artists who analyze, organize, and give form to ideas and information. There are no art portfolio reviews required for admissions or to continue in a program.

Among area universities, the school now boasts two of the finest digital computer studios dedicated solely to studio and media arts with new Wacom Cintiq tablets. Our facilities feature a darkroom, two computer digital studios, a teaching critique space, wood and metal sculpture studios with 3D printing access, and dedicated studios for video, photography (digital and analog/film), digital/graphic art, sculpture, printmaking, painting, and drawing.

Catholic Studies

The Department of Catholic Studies is intellectual in focus and interdisciplinary in nature. Rigorous intellectual study, a deepened critical understanding, and an appreciation of the Catholic contribution to human civilization are its main goals. The program explores Roman Catholicism as a religious and cultural reality that expresses and motivates multiple forms of human expression. All members of the university are invited to participate in the scholarly examination of Catholicism and the development of Catholic thought. True to DePaul's tradition, no religious test is applied to either students or faculty participating in the department. In addition to the offerings of DePaul University, upper-level students in the program in Catholic Studies are able to take selected courses at the Catholic Theological Union in Chicago. The cooperative relationship between DePaul and CTU opens to students in the program the resources of the largest Catholic school of theology and ministry in North America. The Catholic Studies major is designed to give students with differing learning objectives and career goals maximum flexibility in the design of their Bachelor of Arts degree. In order to ensure intellectual coherence in their program, all students are expected to meet quarterly with their academic advisor to design a
course of study, refine their learning goals, and select classes that meet their educational and professional objectives.

Community Service Studies

The Community Service Studies (CSS) Minor is a multidisciplinary program that provides a framework for understanding and engaging in critical social issues at the level of community. While the notion of community is increasingly complex, the program explores the nuances of community as defined through the lens of groups with common affiliation, identity, or grievance that may be geographically or nongeographically-based. The curriculum relies heavily on community-based service learning courses and is designed to provide students with a foundation of analytical, reflective, interpersonal, and leadership skills. Through supporting university partnerships with Chicago-area community-based organizations, students gain a local perspective on social justice issues, including those built on race, class, and gender inequalities and other forms of social, economic and political exclusion.

The practice of service is often shaped by particular economic and cultural circumstances related to power, privilege, and identity. A central component of CSS is the importance of viewing communities through an asset lens and thus working to support existing community strengths rather than responding to needs. Students minoring in CSS therefore develop strong critical self-reflection skills that guide them as future leaders in making ethical and socially responsible decisions.

Faculty
Nila Ginger Hofman, PhD
Director of Community Service Studies
Associate Professor of Anthropology

Comparative Literature

The Comparative Literature minor is designed for students who combine the drive and the ability to master foreign languages with a strong commitment to theoretical and interdisciplinary approaches to literature. Students must do a substantial portion of their work in at least one foreign language.

Although students will take many of their courses in the departments of their elected literary fields, the program in comparative literature is distinguished from national literature departments by its comparative scope and by the requirement of seminars that focus on fundamental theoretical questions regarding the nature of literature and literary inquiry. The requirements for the minor are designed to allow each student to follow a course of study that combines intellectual rigor with the pursuit of personal interests.

Criminology

Criminology is a growing discipline with the potential for transformative education. The Criminology major serves as a mechanism for integrating new research and literature into the liberal arts education. It enables students to explore theories, frameworks and methods for understanding crime and punishment. By exposing students to the complexities of the criminal legal system, the Criminology major equips socially conscious individuals to address the challenges of crime and punishment in society.

The Criminology Department highlights the processes and institutions of the criminal legal system with an emphasis on social policy. Criminology is a discipline of critical thinkers who serve society in various capacities such as police officers, lawyers, correctional officers, judges, legislators, social service providers, etc. Students develop a moral, philosophical, historical and scientific foundation of our criminal legal system from which to perform their duties in the workplace.

Critical Ethnic Studies

Critical Ethnic Studies is an interdisciplinary program offering a Master of Arts (MA), a Graduate Certificate Program (p. 304), and a Universal Combined BA + MA.

The Master of Arts in Critical Ethnic Studies prepares students for advanced analysis of race and ethnicity in an urban and global context. It provides an interdisciplinary approach to the studies of systematic marginalization of racialized minorities. It also looks at how racialized groups respond to and counter these forces through art, culture, political organization, and other forms of social citizenship.

This program emphasizes social justice and transformation while focusing on U.S. ethno-racial populations through an intersectional, transnational, and urban framework. Students apply critical theories to complex social and cultural issues. The program consists of a combination of core courses and electives from across the university. The Critical Ethnic Studies final project may be comparative or focus on a single ethnic or racialized group through the use of intersectional methodologies.

The MA in Critical Ethnic Studies may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office (https://las.depaul.edu/student-resources/graduate-student-support/Pages/default.aspx) for additional information.

• Critical Ethnic Studies + Community Development Certificate
• Critical Ethnic Studies + Digital Humanities Certificate
• Critical Ethnic Studies + Global Health Certificate
• Critical Ethnic Studies + Metropolitan Planning and Development
• Critical Ethnic Studies + Publishing
• Critical Ethnic Studies + Social Research Certificate
• Critical Ethnic Studies + Teaching English to Speakers of Other Languages
• Critical Ethnic Studies + Women’s and Gender Studies Certificate

For more information on the Critical Ethnic Studies program, please visit the Critical Ethnic Studies website (https://las.depaul.edu/academics/critical-ethnic-studies/Pages/default.aspx).

Economics
Economics is both a social science discipline and a framework for analyzing production, consumption, and distribution decisions. The goal of the undergraduate curriculum is to offer students the theoretical background necessary to understand business and policy issues, as well as the quantitative and analytical skills necessary to evaluate these issues independently. The Economics Department offers courses that explore topics such as unemployment, inflation, production and distribution, economic growth, environmental issues, poverty, urban and regional development, international trade, labor issues, economic history, and international economic relations.

Courses emphasize the need for accurate knowledge of business institutions and economic phenomena, for theories capable of explaining these phenomena, for estimating relationships among economic variables, and for testing explanations.

Graduates with a major in economics are solidly prepared for employment in the private, public, and non-profit sectors, or for advanced studies in business, law, and economics.

DePaul offers Economics as both a major and minor field of study through both the College of Liberal Arts and Social Sciences and the Driehaus College of Business. An Honors Track option is available to economic majors in both colleges. In addition, the Department of Economics offers the Accelerated Bachelor-Master of Science in Economics and Policy Analysis.

English

The study and practice of reading and writing literature are central to a liberal arts education and foster transferrable skills that are critical to success in virtually all professional and personal contexts. The English department at DePaul boasts an innovative and engaging curriculum, a faculty of highly accomplished teacher-scholars, friendly and efficient staff, committed advisors, outstanding students, and exciting opportunities for internships and other co-curricular involvement.

The department’s curriculum unites historical and theoretical perspectives in literary study with sustained practice in creative and analytical writing. It encourages critical and creative thought, fosters research and communication skills, and develops a student’s ability to negotiate diverse perspectives and points of view.

The English major undergraduate program—one of the largest in the College—offers two concentrations, Literary Studies and Creative Writing, as well as two minor programs, English Literature and Creative Writing. Junior English majors interested in graduate study may apply to the combined bachelor's/master's programs in English Literature and Publishing or Writing and Publishing, and those interested in teaching high school English may apply to the TEACH Program, a combined bachelor’s/master’s program developed and taught with faculty in the College of Education.

The department also houses three graduate programs, the Master of Arts in English Literature and Publishing (formerly the Master of Arts in English), the Master of Arts in Writing and Publishing, and the Master of Fine Arts in Creative Writing and Publishing. Students in these three programs can elect to complete certificates in Teaching English in Two-Year Colleges, Teaching English as a Second Language (TESOL), Women’s and Gender Studies, Publishing, or Digital Humanities.

Internships

English students may qualify for a variety of internships, receiving significant on-the-job experience in such areas as creative writing, business writing, editing, publishing, communications, non-profit work, and education. Sophomores, juniors, and seniors may receive as many as 4 hours of elective credit toward their major, which includes Experiential Learning credit. Students might locate an internship on their own or choose from the internships posted quarterly by Prof. Chris Green, Coordinator of Professional Internships in Writing and Publishing. To earn credit, students will need Professor Green’s approval to register for ENG 392/ENG 509, an online class designed to complement their internship work. Students will also benefit from quarterly Career Nights featuring panels of professionals.

Two-Year College Teaching Internship

Graduate students in English or a related field are eligible to apply for an internship working alongside an experienced instructor at an area two-year college. This internship may be undertaken on its own, or as part of the Certificate in Teaching English in Two-Year Colleges. Interested students should contact their program director or English Department Chair Michele Morano for more information, mmorano@depaul.edu.

Geography

Located in the Lincoln Park neighborhood on Chicago’s north side, DePaul’s Department of Geography was founded in 1948. Over the last seventy years, the Department has grown and developed to reflect changes in the geographic discipline, in technology, and the labor market. Today, the Department includes eight full-time faculty members and additional contingent faculty instructors, teaching a wide variety of courses within several sub-disciplinary and topical areas. The American Association of Geographers recognized the achievements of DePaul’s Department of Geography with its 2016 Award for Bachelors Program Excellence.

As the largest geography department in the Chicago metropolitan region, we are positioned extremely well to be the major provider of undergraduate Geography degrees and professional certificates. With our commitment to critical human geography and to strong specializations in Urban Geography, Geotechnologies (Geographic Information Systems (GIS) and Remote Sensing), Cultural, and Environmental Geography, we offer high quality programs that lead to careers in government, GIS, community and international development, urban planning, environmental management, and intelligence, to name a few.

At DePaul, Geography courses can be found in every Liberal Studies Program Learning Domain, making it an ideal program of study for students interested in double majoring, or adding a five-course minor. Many Department of Geography alumni continue their studies at the graduate level in geography, urban planning, and other natural and social sciences. Recent graduates have joined MA or PhD programs in geography, GIS, urban planning, landscape architecture, urban studies, and international relations at universities such as Harvard, Penn State, Rutgers University, University of Illinois at Chicago, UCLA, and University of Kentucky.

Global Asian Studies

The Global Asian Studies Program at DePaul University is the only one of its kind in the United States. Courses offer an in-depth, challenging and critical thinking based perspective on ancient societies, cutting edge technology and current events in the Asian region, Asian diaspora and Asian American communities.

Our faculty teach more than 100 courses in the humanities and social sciences. We also offer a number of Study Abroad trips to Asia and the Americas, as well as host events and workshops for students.

From ancient cultures to modern technology, DePaul’s Global Asian Studies program provides an important foundation for students to prepare to have a leading role in the 21st “Pacific” Century.

The Department of History offers an innovative curriculum that emphasizes student research and that allows students to tailor concentrations to meet their interests and goals. The History major teaches students how to research, write, and engage with other students and scholars about the processes of historical change in a global context. The curriculum culminates in an annual Student History Conference that highlights student achievement.

Currently home to more than 35 full- and part-time faculty, the History Department serves as a robust center for talks, campus activities, and intellectual life in the College of Liberal Arts and Social Sciences. The department’s faculty are teacher-scholars who specialize in virtually every region of the world—American, African, Asian, European, Latin American, and World History—and who specialize in a broad range of subfields that allow students to understand a wide range of topics and methods.

The undergraduate program offers a variety of major concentrations including the standard concentration, public history, pre-law, and secondary education in history, as well as minors in Museum Studies and the History of Law. Students can also apply for one of our joint degree programs. The TEACH program combines history courses with those necessary for specialization in secondary education. TEACH students receive both BA and MA degrees. The Department of History, in conjunction with Journalism, offers another innovative joint degree program. Students combine a BA in History with an MA in Journalism. Students can also combine a BA in History with an MA in International Studies. These joint degree options allow students to acquire the valued skills and broad knowledge a history education provides while working towards a professional program and certification in five years. Plus, students received discounted graduate tuition.

The Department offers day and at night courses on the Lincoln Park and Loop Campuses, as well as fully online and hybrid courses. The history major offers a foundation for any number of career paths. DePaul History students also have an excellent track record of acceptance at leading professional programs and graduate schools.

History of Art and Architecture

The Department of History of Art and Architecture familiarizes DePaul students with works of art that define civilizations around the world from their emergence to the present day. The study of art is integral to the development of human knowledge and thus consistent with the academic goals of DePaul University as well as a liberal arts education. We extend the Vincentian mission in our particular focus on comparative culture and art in its urban setting. In an increasingly interconnected world, art history encourages a critical engagement with the visual and its role in individual and social formation.

The study of art and architectural history prepares students for a wide variety of careers and post-graduate pursuits. Thus, all of our classes foster critical thinking by developing visual literacy, close reading, persuasive writing, research skills and oral communication. Taking advantage of the rich cultural resources of Chicago through classroom lectures, discussions and site visits to exhibits, museums, and architectural monuments, students come to understand how art is produced and how it operates in its social and historical moment. In more advanced classes, students become well-versed in the nature of the field and its current and traditional theoretical issues. In these classes, too, consideration is given to the professional world, including museums, galleries, cultural institutions, and the global art market.

All of these goals are consistent with our professional aspirations, not only as faculty, but as scholars who distinguish ourselves by the breadth of our geographical and chronological interests and through our record of publishing and professional achievements. Although our approaches vary widely, we are united in our shared interest in the creative, social, and political forces that both determine and emanate from all works of art.

Interdisciplinary Self-Designed Program

The Interdisciplinary Studies Program (IDS) is an innovative, flexible, and highly individualized graduate program designed to meet students’ academic and professional goals. The program gives students the opportunity to design a program of study tailored to their own needs and interests. When students choose IDS, they take on the exciting challenge of creating their own curriculum and unique plan for learning. Creating an individualized program requires maturity, self-motivation, and independence. Students seeking a combination of flexible options and academic challenges are natural IDS candidates. IDS is a creative alternative to more rigid traditional, discipline-specific programs. Students can build their particular academic or professional interests and concentrate on specialized fields that are not available in traditional graduate programs.

The program offers students individualized cross-disciplinary majors, incorporating courses drawn from social sciences, humanities, business, computer and information science, and public service.

The program offers the following:

- Individual, self-designed graduate program of study that builds on specific academic and professional interests.
- Ability to combine various academic disciplines in chosen areas of study.
- Choice of courses in most colleges and schools.

Faculty

David L. Gitomer, PhD
Director
Columbia University

Because students in the Interdisciplinary Self-Designed Program select course offerings from most areas of the university, faculty may originate in multiple departments, such as the social sciences, humanities, business, computer and information science, and public service, for example. The program Director and Associate Director offer individualized academic advisement throughout each student’s plan of study.

International Studies

The Department of International Studies offers a Bachelor of Arts (BA) degree, a Master of Arts (MA) degree, and a combined BA/MA program. We also provide a minor in International Studies for undergraduate students from other departments.

Our programs are designed to equip students with the interdisciplinary approach, critical thinking skills, and international perspectives necessary to address real world challenges. Our faculty and affiliated faculty come from diverse academic backgrounds and share a commitment to fostering critical thinking through a rigorous interdisciplinary curriculum founded in critical social theory and international political economy.

The BA and MA curricula are unique for their interdisciplinary approach to international studies and their commitment to placing the themes of power and inequality at the heart of academic inquiry. Unlike conventional programs that focus on international security and economy, our program addresses the economic in conjunction with the political and social. Moreover, all students are expected to develop and maintain proficiency in a language other than English. Students learn to think in more international and interdisciplinary contexts, to value social and cultural complexity, and to question conventional wisdom. As a result, our students often engage in activism and social justice work in Chicago, nationally, and internationally.

For more detailed and up to date information, please visit the International Studies Department (https://las.depaul.edu/academics/international-studies/Pages/default.aspx) website.

Faculty

The department’s faculty have research and teaching interests that include postcolonial theory, Middle East politics, critical social theory, migration and diaspora studies, gender and sexuality, critical development studies, international law, international political economy, and social movements. As an interdisciplinary program, we involve faculty from across the university in teaching classes, hosting events, and advising students. Despite the varied teaching and research interests, faculty members share a commitment to examining the world critically through an interdisciplinary and international lens.

The Irish Studies Program is an interdisciplinary field of study, offering an undergraduate minor to students interested in studying Ireland along with the worldwide Irish Diaspora and the contemporary integration of Ireland within globalized systems of political economy, international relations, travel and communication.

The Irish Studies Minor familiarizes students with a wide range of courses that explore Ireland and develop critical perspectives on its place in history and the contemporary world. Our faculty provides an interdisciplinary approach on a wide range of Irish topics from various fields of inquiry including History, Geography, Religious Studies, Political Science, Environmental Studies, and English. A number of study abroad programs offer courses that fulfill requirements towards the minor as well. Students need to complete six program-approved courses to meet the requirements for the Irish Studies Minor.

Islamic World Studies

Islamic World Studies (IWS) offers a unique and interdisciplinary study of Muslim majority and minority societies. The program explores the politics, geographies, histories, and cultures of these societies, and provides students with an education that matches the complexity of its subject. This education is drawn from a variety of disciplines, including Finance, Geography, History, History of Art and Architecture, International Studies, Modern Languages, Philosophy, Political Science, Religious Studies, and Women's and Gender Studies. The regional focus of these courses includes Africa, the Middle East, South Asia, Southeast Asia, Central Asia, Europe, and the Americas.

With nearly 2 billion adherents—approximately 3.5 million of whom are in the United States and 300,000 in Chicago—Islam is the world's second largest and fastest growing religion. Despite these impressive facts Islam, Islamic societies, and Islamic history remain poorly understood in the United States. The IWS curriculum aims to remedy this. Its students will be able to ask questions that are historically situated, regionally specific, analytically rich, and grounded in urgent contemporary realities. In short, IWS is structured to produce engaged and informed citizens of a world that is affected by Islam in ways big and small and graduates who are better prepared for careers in politics, public policy, diplomacy, social services, medicine, education, finance, development, law, cultural heritage, academia, museums, or the arts.

Latin American and Latino Studies

The Latin American and Latino Studies Program explores the cultural contributions of Latin Americans to the global community and highlights perspectives and traditions that have developed in the region. It analyzes the multicultural character of the peoples of Latin America by calling attention to the complex interplay among Indigenous, European, Semitic, Arab, Asian and African societies in the region. It explores the profound linkage that has emerged between Latin America and the United States, particularly through the construction of Latino communities in the U.S.
Lesbian, Gay, Bisexual, Transgender

The LGBTQ Studies program posits sex and sexuality as central analytical categories within many different fields of inquiry. This emerging discipline scrutinizes the cultural production, dissemination, and vicissitudes of sexuality while attempting to decipher the meanings inscribed in the practices and discourses of sex. We may say that LGBTQ Studies does for sex and sexuality what women's studies does for gender. It has grown out of women's and gender studies, cultural studies, and the post-1969 discourse on the politics of sexuality both in the public sphere and the more limited arena of scholarly endeavor.

Military Science

The Military Science Department offers students, as an adjunct to their major field of study, the opportunity to achieve commissions as Army officers in either the active Army, the U.S. Army Reserve, or National Guard through the Reserve Officers' Training Corps (ROTC) program. The program develops leadership, managerial potential, and the qualities of self-discipline, confidence, personal integrity, and individual responsibility. Emphasis is on learning through doing. The department's program prepares the student for a period of service as a commissioned officer in the United States Army, a service that can ultimately lead either to a military career or to a more responsible place in the civilian world. The curriculum is divided into two parts: Basic and Advanced. The Basic course normally encompasses the freshman and sophomore academic years. Basic-course students are under no obligation to enter into a contractual agreement with the U.S. Government. The advanced course encompasses juniors and seniors who have successfully completed the on-campus basic course. Students who have attended a special six-week summer training program, students who have previous Junior ROTC training, and qualified veterans may also be admitted into the advanced course. Upon enrollment in the Advanced Course, the student enters into a contractual agreement with the United States Government, whereby the student agrees to accept a commission in the United States Army for a period of active or reserve duty after his graduation. The government, in return, provides a monthly stipend of $300-500 for up to ten months of the school year.

Students may compete for ROTC two-year and three-year scholarships during their freshman or sophomore year. Scholarships can pay full tuition and fees, annual book allowance of $1,200, and $300-500 monthly during the remainder of the winner's undergraduate education. A Leaders Training Course summer program is available to selected students who have been unable to complete the normal two-year progression of Military Science. Students attend a six-week program at Fort Knox, Kentucky. This program, in conjunction with the normal two-year advanced program of Military Science, is designed to prepare the student for a period of service as a commissioned officer in the United States Army. The program provides an introduction to a variety of military-related topics. It involves instruction in map reading, marksmanship, first aid, tactics, fundamentals of leadership, and basic military skills.

Faculty
Faculty are based at Loyola University.

Modern Languages

The programs in Modern Languages seek to develop a student's ability to speak, understand, read, and write another language and to foster an appreciation of its literature and civilization. The department regularly offers courses in American Sign Language, Arabic, Chinese, French, German, Ancient Greek, Italian, Japanese, Latin, Linguistics, Russian, Spanish, and Translation and Interpreting.

Undergraduate Programs
The Department of Modern Languages offers the following undergraduate programs:

- Bachelor of Arts in Arabic Studies
- Bachelor of Arts in Chinese Studies
- Bachelor of Arts in French
- Commercial French Concentration
- Standard Concentration
- Bachelor of Arts in German
- Commercial German Concentration
- German Language and Literature Concentration
- German Studies Concentration
- Bachelor of Arts in Italian
- Commercial Italian Concentration
- Italian Language and Literature Concentration
- Italian Studies Concentration
- Bachelor of Arts in Japanese Studies
- Bachelor of Arts in Spanish

Certificate Programs
The Department of Modern Languages offers the following certificate programs:
• DePaul undergraduate degree + Arabic MA
• 3+3 Arabic Studies (BA+JD)
• DePaul undergraduate degree + Chinese MA
• 3+3 Chinese Studies (BA+JD)
• DePaul undergraduate degree + French MA
• 3+3 French (BA+JD)
• DePaul undergraduate degree + German MA
• 3+3 German (BA+JD)
• DePaul undergraduate degree + Italian MA
• 3+3 Italian (BA+JD)
• DePaul undergraduate degree + Japanese MA
• 3+3 Japanese Studies (BA+JD)
• DePaul undergraduate degree + Spanish MA
• 3+3 Spanish (BA+JD)

Graduate Programs
The Department of Modern Languages offers the following graduate programs:

• Master of Arts in Arabic
• Master of Arts in Chinese
• Master of Arts in French
• Master of Arts in German
• Master of Arts in Italian
• Master of Arts in Japanese
• Master of Arts in Spanish

All students are strongly encouraged to participate in DePaul’s Study Abroad Programs in Austria (Vienna), China (Shanghai), France (Paris), Germany (Berlin), Greece (Athens), Italy (Rome), Japan (Kyoto, Osaka, or Tokyo), Jordan (Amman), Mexico (Merida or Mexico City), Poland (Auschwitz, Krakow, Lublin, Warsaw, and Wroclaw), Spain (Madrid), and other locations. Consult the Study Abroad Office for current offerings.

Peace, Justice and Conflict Studies

The Peace, Justice, & Conflict Studies Program offers students a BA major curriculum that is rooted in the values of active and strategic nonviolence. The courses train them to reflect on the origins and causes of conflict, direct, cultural, and institutional, as well as social injustice and other forms of systemic violence. They are introduced to a wide spectrum of conflict intervention, especially organizational peacebuilding, local and interpersonal conflict resolution, citizen diplomacy, and post-conflict transformative justice approaches. Students learn about strategies for resolving interpersonal, communal and international conflicts with active nonviolence and respectful dialogue, as well as about tactics promoting the common good in a way that addresses the structural origins of violence, such as poverty and income disparities. The Program includes frank debate about the efficacy of nonviolent in comparison with violent approaches to social change. The inclusion of conflict theory and active nonviolent interventions is a distinctive aspect of this program. The arena of conflict resolution offers many potential career options. The Program emphasizes hands-on, experiential components in the introductory courses, the final seminars and internship, and the workshops which emphasize skill training.

Students and faculty in Peace, Justice, & Conflict Studies question what constitutes a just society and world, what peacebuilding can accomplish in a world full of conflict, and how attitudes toward social justice, violence, and peace reflect and reveal American and other cultures’ values, beliefs, prejudices, assumptions, and perceptions.

Students are expected to gain competency in dealing with situations of conflict and injustice by mastering the theoretical and intellectual frameworks related to peacebuilding, human rights advocacy, and justice development, by learning to interpret and analyze real life situations in their complexity, by understanding how to use strategies for negotiation, consensus-building, advocacy, partnership development, and other intervention tools, and by understanding various research methodologies and the use of media and creative outlets.

Students majoring in any social science, humanities, and other interdisciplinary programs will find it beneficial to double major or minor in Peace, Justice, & Conflict Studies, particularly due to its core value of strategic nonviolence. Students with majors in computer games, documentary film, journalism, and animation have added the PJC second major to add desired content to their creative work. Students who pursue the major are well prepared for graduate work in the humanities or social sciences, and specifically in peace, justice, or conflict studies, as well as for professional training in law, public service, or business, among other areas.

Philosophy

The Department of Philosophy serves the needs of the student who seeks an understanding of philosophical issues for personal enrichment, the student who desires a more fundamental appreciation of philosophy in support of law, medicine, business, and various academic disciplines, and the student who wishes to continue the study of philosophy at the graduate level.

Through its courses and programs, the department acquaints students with various philosophical approaches and with basic problems posed by diverse thinkers. Courses have been designed to highlight both the humanistic and technical features of philosophy.

The department also recognizes the important need for skills and training. Its courses in logic and analysis have been designed to help students become more perceptive in their experiences and more critical in their thinking.

Further, the department is aware that, in our age of rapid change, society often tends to neglect the meaning and worth of the person. Courses are therefore offered that investigate and emphasize the dignity of the person. By helping students understand the nature and grounds of ethical judgments, these courses aim to promote an appreciation and ordering of human values.

The department has designed all of its course offerings with the aim of both ensuring that our Liberal Studies courses remain responsive to the needs of the student who does not plan to specialize in philosophy and offering the student who chooses to major or minor in philosophy a rich and diverse curriculum.

The department is particularly proud of its Philosophy Circle, an undergraduate philosophy club which provides a forum for the exchange of ideas between faculty and students.

Political Science

Political Science is the study of the organization and behavior of people, groups, and institutions which make up our government and the larger political system. The program is designed to introduce students to questions, perspectives, and arguments about the political forces that shape their lives. As such, the program has value for Liberal Studies
students as well as for those who may choose the discipline as a major field of study. Students find the substance and the methods of the discipline useful in the legal, business, civic, communications, governmental, and academic professions, as well as any endeavors that draw them into public service.

**Public Health**

**Master of Public Health (MPH)**

The mission of the Master of Public Health program is to prepare dynamic public health leaders to work collaboratively with diverse communities to prioritize and investigate health concerns to achieve lasting social change, and foster health equity to promote the health and well-being of all people.

The Master of Public Health program has two concentrations, community health practice and social epidemiology. The program provides a collaborative, applied approach to education, focusing on health promotion and disease prevention with individuals, families, communities, and organizations. The objective of the program is to provide students with the professional knowledge and practical skills they will need to identify and address community health needs as a working public health practitioner.

**MPH in Community Health Practice**

The community health practice concentration prepares students to be leaders, innovators, and advocates in addressing community health problems and reducing health disparities. This concentration applies an interdisciplinary approach to problem solving and focuses on skill development around community health assessment, program design, and program evaluation. Students learn to appraise community health needs and design, implement, and evaluate interventions to address
those needs. The objective is to provide students with the professional knowledge and practical skills to become effective public health leaders.

**MPH in Social Epidemiology**

The social epidemiology concentration prepares students to be public health leaders that use the methodological approaches of biostatistics and epidemiology to investigate and reduce health inequalities. This concentration focuses on social determinants of health as causes of health disparities and examines the role of concepts such as power and social context. Students learn to use data to inform research, policy, and intervention efforts that lead to effective action aimed at eliminating health inequalities.

**Real-World Experience**

During the final year of instruction, students gain practical experience working in the public health field while completing the required practicum. The practicum includes nine months of professional practice and provides students with a structured and integrated application of their coursework. There are a variety of practicum site opportunities available to students that represent a range of settings (e.g. governmental agencies, community-based organizations, health care delivery systems) and public health topics (e.g. sexual/reproductive health, childhood nutrition, refugee and immigrant health). Students choose from an approved list of opportunities and are matched to a practicum site based on their interests and career goals.

During the practicum, students work on a project that addresses a need or fills a gap at their practicum site. Students receive mentoring and guidance on their project from their site supervisor (public health professional at the practicum site) and faculty advisor. The project serves as the foundation for the capstone thesis, which is developed over a three-course sequence that runs concurrently with the practicum.

**Public Policy Studies**

Public Policy Studies is a discipline that explores the role and impact of decision-making by governments. The discipline includes knowledge of both process and substance of a particular policy area. Thus, a student in public policy must have both generalist and specialist skills to apply to a particular public problem. In terms of political process, the study of public policy examines questions of how public policy is formulated, implemented, and evaluated over time. It also explores notions of agenda-setting and framing of issues that lead to a problem gaining the attention of the government. Public policy specialists and analysts are hired by all levels of government. During the past several years in addition to the government sector, the nonprofit and private sectors have sought public policy analysts for employment. Therefore, the curriculum prepares students for being public policy specialists in both the private and nonprofit sectors in addition to the public sector. The curriculum also is tailored to prepare students who would like to continue their education in graduate programs or law schools. The faculty members of the department work closely with students to place them in internships, and when possible, employment positions.

The Public Policy Studies Department (PPS) offers an undergraduate degree (BA). Students take a common core of courses dealing with public policy theories, processes, methods of public policy analysis, and important environmental and urban policy issues. In addition, a data analysis course is required that the student selects from a list of approved courses. Microeconomics or statistics is strongly encouraged.

Beyond the core curriculum, a capstone course reconvenes the students at the end of their curriculum to study a public policy problem in-depth under the direction of a public policy professor. The capstone changes approximately every three years, to reflect a current issue on the public policy agenda.

**Refugee and Forced Migration Studies**

The Refugee and Forced Migration Studies graduate program is an interdisciplinary Master of Science program that trains students to work as practitioners in the field of refugee resettlement and advocacy. The degree is inherently interdisciplinary as students take a variety of courses in fields such as law, history, public service, public health and international studies. Each cohort is admitted in the autumn quarter and takes two courses per quarter to graduate in two years. Additionally the program takes a practical approach to curriculum such that students will have already gathered experience in the fields of refugee advocacy and resettlement by the time they graduate. This is ensured by the requirement of two distinct practicums with refugee-focused non-governmental organizations (NGOs) domestically and overseas.
Faculty
The Refugee and Forced Migration Studies Program incorporates faculty in two primary functions; the administration of the program and instruction of courses. Since it is an academic program and not a department, RFMS does not house any faculty of its own but instead is run and taught by professors from all over the University. This not only gives the curriculum a distinctly interdisciplinary flavor but allows for the integration and synthesis of administrative techniques formulated by several departments and schools. Our faculty are drawn from such departments such as International Studies, Anthropology, and History as well as several freestanding schools in the University such as the Law School and the School of Public Service. While all of our faculty have experience in the study of forced migration, they all approach the study from different academic angles and schools of method to give the program a truly robust curriculum. You can find a list of the members of our Curriculum Committee and other associated faculty below.

Religious Studies
While remaining intensely personal, the resurgence of religion in the public sphere is a characteristic of our era. Religion has become central to contemporary culture, politics, identity, and conflict in every part of the globe. At the same time, our world is marked by an emerging pluralism, as globalization, migration and technology bring diverse religious traditions into closer proximity and creates new religious communities.

The Department of Religious Studies offers DePaul students the opportunity to engage in the academic study of religion. The study of religion includes not only the traditional areas of sacred texts, myths, rituals, mystical experiences and doctrines, but also the ways in which political, social and economic forces shape these phenomena for religious communities. Drawing on a host of academic disciplines, religious studies challenges students to encounter the traditions of the world in all their rich diversity. Given the complexity of the subject matter, members of the department draw upon several other academic disciplines -- anthropology, art history, biblical studies, economics, environmental studies, ethics, gender studies, history, linguistics, literature and literary criticism, political science, philosophy, psychology, sociology, and theology -- as they do their work.

Beyond work with texts, students may also study religion through the media of film and video, music, the visual and dramatic arts, and the internet. The department emphasizes comprehensive learning in writing, synthetic and analytic thinking, and oral communication skills. Students can go beyond their course work with further learning opportunities, such as the senior thesis, independent study, study abroad and internships, and service learning, both locally and internationally.

A truly interdisciplinary field, religious studies at DePaul helps students broaden cultural literacy and deepen critical skills. The study of religion also prepares students to engage important conversations of our day. Further, students may find that the study of religions can help them respond not only to political, social and environmental challenges, but also to address the existential questions they face and that are encountered by other thoughtful men and women.

A religious studies major or minor is positioned to pursue a wide variety of careers. A bridge between the specialist’s perspectives on religion and a wider world that is often in need of these perspectives, religious studies majors have worked in the fields of law, social work, regional and international business, governmental and non-governmental service, secondary school teaching, and service in religious communities. A religious studies major is also well-prepared for further studies in graduate programs leading to careers in academia.

Religious Studies at DePaul expresses the university’s distinct identity, which respects engaged pluralistic inquiry in all religious issues and traditions. The department is committed to DePaul’s Catholic, Vincentian and urban heritage, mission, and identity, and to its goal of establishing the university as a model of diversity. The department’s course offerings reflect the diversity of the city of Chicago and of the students who attend DePaul.

The fifteen full-time faculty constitute one of the largest and most diverse undergraduate departments of religious studies in the United States. This size and diversity enables us to offer courses in a wide range of geographical regions and historical periods. The research and teaching interests of the faculty include American religious history as well as South and East Asia, the African diaspora, North and Meso-America, the Middle East and Europe. The faculty and curriculum includes specialists in Judaism, Christianity, Islam, Hinduism, Buddhism, Confucianism, Taoism, Shinto, as well as Native American, African American, and Latino/a religious traditions.

In addition to excellence in teaching, the faculty also maintain high standards for research, and are actively engaged in presenting at
major academic conferences and publishing their work in high-ranking professional journals.

The Department of Religious Studies sponsors the Center for Religion, Culture, and Community and is fully engaged with Center for Intercultural Theology and World Catholicism and other centers and institutes of the University. It has a close working relationship with the Department of Catholic Studies, the Islamic World Studies Program and the Grace School of Applied Diplomacy. Religious Studies is a vital part of the First Year, Liberal Studies and Honors Programs.

The Department encourages students in all major concentrations and minors to engage various questions related to the study of religion, such as (but not limited to):

- What is religion?
- How do religious communities come into being and define themselves?
- How do religious communities form worldviews, doctrines, and practices, and how does the study of religion help us to understand their change over time?
- How do sacred texts come into being, and what do they communicate to us?
- How does religion shape culture, and how does the wider culture define religion?
- What is the role of religion in the contemporary world?
- How do religion or religious sensibilities help us to relate (or hinder us from relating) to each other?
- How can an informed student of religion evaluate the rival claims to truth and moral rightness of different religious and secular ideologies?
- How do religious traditions and texts treat issues of sexuality and gender, race and class?
- How have religious traditions interacted with each other in the past, and how do they continue to do so today?

**School of Public Service**

We educate people to be effective public service leaders in the global community guided by the values of St. Vincent de Paul.
The School of Public Service promotes effective management of nonprofit organizations and government agencies, and fosters the development of sound public policies affecting the delivery of social services. Programs of instruction, research, and community involvement prepare adult learners to pursue administrative careers in a broad range of public service organizations. Following the tradition of St. Vincent de Paul, the School of Public Service devotes special attention to policies and practices that promote social equity through the delivery of affordable, quality services to those in greatest need.

While the knowledge and skills required to manage organizations in the public sector are becoming indistinguishable from the best practices used in the private and nonprofit sectors, the ultimate goals of these organizations provide a sharp distinction. The School of Public Service keeps this distinction firmly in view in its course offerings. Degree and certificate programs are interdisciplinary, drawing primarily upon the knowledge bases of sociology, economics, political science, law and the human-service professions. The curriculum carefully balances theoretical and applied approaches to contemporary challenges of administration and policy analysis.

The school emphasizes ethical leadership in all aspects of its curriculum but especially by offering short-term, executive-style, study-abroad experiences for working professionals. Faculty encourage all students to take advantage of more than a dozen courses to developed and developing countries. Consistent with its mission, the School of Public Service purposefully strives to build an academic community that is racially, ethnically, religiously, and otherwise diverse. Part-time and full-time students are equally welcome.

Social Work

The Master of Social Work (MSW) degree program is designed to prepare students for advanced social work, with concentrations available in community practice and forensic social work. The MSW degree prepares its graduates for work and leadership in broad and varied human service organizations which span child welfare, health and mental health, community planning, family services and the like.

Sociology

The Department of Sociology consists of 14 full-time faculty, 150 undergraduate majors, and over 30 graduate students. Founded in 1922, the department has a long tradition of inspiring students to apply sociology to the world around them.

Sociology is the study of groups, social interaction, and social institutions. To study these, the department has developed a core curriculum centered on sociological methods (how we know) and sociological theory (how we explain). Beyond the theory and methods courses, majors enroll in a two-course practice sequence and senior capstone. These courses are designed to help students explore their calling as sociologists, develop an area of specialization, and explore career options. To help students craft their own area of specialization, students are closely mentored by faculty who share their expertise and advise students on their choice of electives in sociology.

Sociology prepares students for a range of career options. The extensive training in sociological methods and theory qualifies students with BA degrees to work in both non-profit (including social service agencies) and for-profit (marketing, consumer, data analysis) work settings. Many graduates pursue graduate degrees in social work, law, non-profit management, public health, and doctoral programs in sociology. Our graduates have become leaders in the non-profit sector and academic careers.

Our location in the Lincoln Park neighborhood in Chicago gives students access to a remarkable range of community service opportunities, field experiences, and internships. With its ethnic communities, economic development, and urban concerns, Chicago is an exciting site for research and observation.

Noel Barker, MA
Women's and Gender Studies

Women's and Gender Studies is an interdisciplinary department offering an undergraduate major and a minor, a combined BA + MA, a Master of Arts (MA), and a four-course Graduate Certificate. We also offer a joint Master's Program in Women's and Gender Studies & Social Work (MSW). Women's and Gender Studies courses examine women's lives, conditions, and contributions within their historical, social, cultural, national and transnational contexts and they explore how gender is constructed and negotiated within and across societies. Women's and men's identities and experiences are examined through the constructs of gender, race, class, age, ability, sexuality, culture, religion, nation, etc. within broader historical, social, and global contexts, such as colonialism, globalization, among others.

Through feminist and gender-based theories and methodologies, the Department of Women's and Gender Studies offers critical analyses, reflections, and contributions to knowledge regarding interlocking systems of oppression and privilege, thereby addressing issues of power, resistance, and social transformation. In addition, the emphasis on critical theory and analysis allows for work that interrogates feminist discourses as well as those of other disciplines in the arts, humanities, social sciences, and natural sciences.

The interdisciplinary Women's and Gender Studies major and minor combine courses taken in the Department of Women's and Gender Studies with approved elective courses offered in other departments and programs around the university. Courses are offered regularly by many departments in the college of Liberal Arts and Social Sciences –in the social sciences, and in the humanities—as well as by the other colleges and schools throughout the university.

In addition, many students decide to combine a Women's and Gender Studies major with a second major in another discipline. A double major is a rich educational experience and is actually easy to accomplish. To do so, you can double count courses that fulfill both Women's and Gender Studies and Liberal Studies requirements, and you can double count half of the courses that fulfill the requirements of both majors. We now have a
combined BA + MA program that allows you to get both an undergraduate and graduate degree in five years. Students must apply their junior year for the program.

A major, double major, minor, and/or MA in Women's and Gender Studies prepares students for graduate study in many fields (law, social work, sociology, psychology, history, art and art history, communication, Latin American/Latino Studies, African and Black Diaspora Studies, International Studies, among many others) as well as for careers in the public and private sectors, including social services, social justice, public policy, education, media and popular culture, advocacy, creative arts, counseling, and more.

Students who would like to know more about the Department of Women's and Gender Studies are invited to speak with the department chair, and other faculty members of the department (5th Floor of Schmitt Academic Center) and/or visit the Department of Women's and Gender Studies (https://las.depaul.edu/academics/womens-and-gender-studies/Pages/default.aspx) website.

Writing and Publishing

The Master of Arts in Writing and Publishing program offers advanced training in the art and craft of writing poetry, fiction, and nonfiction. The program is specifically designed for students interested in careers in creative and literary writing, publishing, and editing, as well as for those seeking to expand their knowledge of writing for the purpose of teaching.

Internships

Writing & Publishing students can qualify for a variety of internships, receiving significant on-the-job experience in such areas as research, writing, editing, publishing, law, corporate communications, non-profit work, and library science. Students might locate an internship on their own or receive assistance from Prof. Chris Green, Coordinator of Professional Internships in Writing & Publishing. Quarterly Career Nights (featuring panels of professionals) and Career Workshops (emphasizing internship- and job-finding skills) will also enhance students' opportunities and experience.

Two-Year College Teaching Internship

Graduate students in English or a related field are eligible to apply for an internship at an area two-year college. This internship can be undertaken on its own, or as part of the Certificate in Teaching English in Two-Year Colleges. Please contact Prof. Rebecca Johns-Trissler for more information about this opportunity.

Writing, Rhetoric and Discourse

The department of Writing, Rhetoric, and Discourse (WRD), one of the largest departments at DePaul, is dedicated to studying the history and theory of literate activity and helping students excel as writers in a wide range of academic, professional, and public settings. WRD is home to DePaul’s First-Year Writing program; in addition, the department offers the Minor in Professional Writing and the Major in Writing and Rhetoric. At the graduate level, the Master of Arts in WRD addresses writing in professional, technical, and digital contexts, the preparation of postsecondary teacher-scholars in writing, and the study of language for writers. The Combined BA/MA in WRD allows undergraduates in any DePaul major to begin taking WRD graduate courses in their senior year. The department also offers two Graduate Certificates in Teaching English to Speakers of Other Languages (TESOL) and Strategic Writing and Advancement for Nonprofits (SWAN). TESOL prepares students to teach English as a Second Language (ESL) to adult learners in the United States and abroad. SWAN prepares students to enter into or advance their careers in nonprofit marketing, communication, and development. Undergraduates who choose the BA/MA option may complete the TESOL or SWAN Certificate within the MA portion of the program.

The act of writing in general and each student’s writing in particular are of central concern in all WRD courses. Theories of language, rhetoric (how to make effective choices as writers), and discourse (the way writing structures human activity) develop students’ understanding of how the individual act of writing is bound up in broader contexts of institution and culture.

WRD is made up of more than 70 faculty members, all of whom teach at the undergraduate level. The department’s tenure-line faculty members comprise nationally recognized researchers in rhetorical theory and practice, composition theory, writing pedagogy, applied linguistics, second language writing, professional and technical writing, and writing program administration.

College of Science and Health

The College of Science and Health provides students with innovative, science-based curricula with a strong liberal arts foundation. Our departments and school represent the natural sciences, mathematics, psychology, nursing, and health sciences, each of which is committed to providing the highest quality education. The College of Science and Health educates students with a strong Vincentian commitment to social justice and civic engagement. The college provides mathematical and scientific education/literacy for all undergraduate students within the University and participates in all aspects of DePaul's distinctive Liberal Studies Program.

The College of Science and Health is dedicated to helping members of DePaul's diverse student body reach their full academic and professional potential. The innovative curricula supported by the college encourages active participation in research, internships and other opportunities that further prepare students for successful careers and as life long learners. Faculty in the college embody the commitment to student academic and professional development through their quality instruction and by conducting meaningful, student accessible research.

Certificates

The College of Science and Health (CSH) offers certificate programs through our Department of Mathematical Sciences and our School of Nursing.

The CSH also participates in an interdisciplinary program offered through the School of Public Service in the College of Liberal Arts and Social Sciences.

Student Resources

The College of Science and Health (CSH) provides a broad range of advising and student services to help undergraduate and graduate CSH students reach their academic and co-curricular goals and enhance their personal, intellectual and professional development. The CSH also provides specialized advising to students interested in pre-health and exploring research opportunities.

Depending upon the extent of the student need, the CSH is well equipped to refer students to the expert department within the University to best address it.

Undergraduate Academics

Focusing on the disciplines of actuarial science, biology, biochemistry, chemistry, data science, environmental science, health sciences, mathematics, neuroscience, nursing, physics, and psychology, the College of Science and Health's undergraduate and graduate programs prepare students to meet the demands of the growing fields of science and health.

The College of Science and Health offers undergraduate majors from seven departments and one program and graduate programs from six departments and one school. Courses are offered during the day, evenings and on weekends, primarily on our Lincoln Park Campus.

Honors Program

Most students follow the Liberal Studies Program (p. 1293) to meet their general education requirements. However, students accepted into the Honors Program (p. 1319) fulfill general education requirements through an alternative set of courses. A student in the Honors Program pursuing a primary major in The College of Science and Health follows the requirements below:

Like the Liberal Studies Program, the Honors Program consists of between ten and twenty courses representing 40 to 80 quarter hours, the exact requirements determined according to the student's home college and/or major. Honors requirements include core courses, a science requirement, a math requirement, an art requirement, a language sequence, a multiculturalism seminar, a junior seminar, and a senior thesis or senior seminar. Some AP and IB credit will apply toward Honors core courses. Credit can also be applied toward the math, science, or language requirements. Depending on the college and major, some Honors requirements may be waived. Specific requirements can be found within the student's college in the Colleges and Schools section.
### Honors Core

* Advanced placement credit will fulfill Honors Core requirements as listed:
  - AP Literature credit for ENG 101 (previously ENG 120) will fulfill HON 101
  - AP credit for HST 111 or HST 171 fulfills HON 102

¹ HON 180 is not required for students with a Calculus, Statistics, or Discrete Mathematics requirement for the major.
² HON 201 is not required for students in the Theatre School or the College of Education.
³ HON 205 is not required for students in School of Music, The Theatre School, or the BFA Animation major in CDM.

### Science Requirement
- Honors students who do not have a lab science requirement for the major will fulfill the science requirement with HON 225 (Honors Lab Science Topics) OR a course selected from the university's Scientific Inquiry Lab courses.
- Honors students in Liberal Arts and Social Sciences, College of Communication, and BA students in the School of Music will complete one additional science course chosen from the university's offerings of Scientific Inquiry courses.
- Honors students in the College of Education will select a biology course for their additional science course.
- Students in the School of Music (non BA) and the Theatre School will fulfill the science requirement with one course selected from the university's offerings of Scientific Inquiry courses.

### Math Requirement
- Honors students who do not have a Calculus, Statistics or Discrete Math requirement for the major are required to take HON 180. HON 180, or the first course of the required math sequence for the major, is a prerequisite for HON 225.

### Language Requirement
- Three courses of intermediate or advanced language study are required for all Honors students who are not in a conservatory or BFA program.
- Students who meet the proficiency requirement by placing at the 200-level of a language may fulfill the language requirement with either one year of advanced study of their proficient language or one year of a language the student has not previously studied.
- Language majors may fulfill the language requirement with one year of language study outside of their major or three additional Honors Approved Electives.
- Honors students in the College of Education have a one year (three course) language requirement. This requirement can be fulfilled through either completion of one year of study of the student's high school language or one year of a new language the student has not yet studied. Students opting to continue their high school language are required to complete a placement test and must begin language study according to their placement.

### Fine Arts Elective

### Honors Senior Thesis Option

Students who choose to complete an Honors Senior Thesis must have their project approved at least one term prior to executing the project. To gain approval for a senior thesis, students must complete an online application, including a project proposal, signed by two faculty advisors. In keeping with the interdisciplinary nature of the program, the thesis should attempt to move outside the boundaries normally associated with one particular discipline and should be supervised by two faculty members from different academic fields. While the final product must be a substantial piece of work building on the student's accumulated knowledge and new research, specific requirements for each thesis will depend on the nature of the project. See the Honors director or associate director for further information. Students may opt to enroll in HON 300 (a two-credit elective) to receive dedicated guidance as they prepare the thesis project.
Honors Approved Electives

Approved Electives are chosen in consultation with an Honors advisor to achieve specific academic or professional goals. Courses completed for Study Abroad, 200-300 level courses taken for a minor or second major, or 200-300 level courses taken to pursue a specific area of interest outside of the major can count as Honors Approved Electives. The number of Honors Approved Electives depends on the college and major. Students in the College of Education, the School of Music (except BA students), and the Theatre School do not have Honors Approved Electives.

Experiential Learning

Honors students will fulfill the university’s Experiential Learning (EL) requirement by completing an EL-designated course in the major, as an open elective, as an Honors Approved Elective, or as an Honors core requirement (HON 351). Students in the College of Education, the School of Music, and the Theatre School whose programs meet the university requirement in Experiential Learning will be considered to have met the Honors Program requirement as well.

AP or IB credit will fulfill Honors Core requirements as listed:

- AP/IB Literature credit for ENG 101 or ENG 120 will fulfill HON 101 ([https://catalog.depaul.edu/search/?P=HON%20101](https://catalog.depaul.edu/search/?P=HON%20101))
- AP/IB credit for HST 111 or HST 171 fulfills HON 102 ([https://catalog.depaul.edu/search/?P=HON%20102](https://catalog.depaul.edu/search/?P=HON%20102))
- AP/IB credit for BIO 191 or CHE 130 or PHY 150 or ENV 102 fulfills HON 225 and/or the Scientific Inquiry requirement
- AP/IB credit for CHE 102 or GEO 101 or ENV 202 or MAT 150 or MAT 135 fulfills the Scientific Inquiry requirement
- AP/IB credit for MAT 242 or MAT 150 or MAT 135 will fulfill the HON 180 requirement.
- AP/IB credit for ART 104 or ART 105 will fulfill the Fine Arts Elective requirement

Grade Requirements

A grade of C- or higher in HON 110 or HON 111 is required to remain in the Honors Program. A grade of C- or higher is required to pass the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HON 100</td>
<td>RHETORIC AND CRITICAL INQUIRY</td>
<td>4</td>
</tr>
<tr>
<td>HON 350</td>
<td>HONORS SENIOR SEMINAR</td>
<td>4</td>
</tr>
<tr>
<td>HON 351</td>
<td>HONORS SENIOR SEMINAR IN SERVICE LEARNING</td>
<td>4</td>
</tr>
<tr>
<td>HON 395</td>
<td>HONORS SENIOR THESIS</td>
<td>4</td>
</tr>
</tbody>
</table>

Study Abroad

Study Abroad is particularly appropriate for students in the Honors Program and, though not required, is strongly recommended. Honors students interested in Study Abroad should plan to participate during their sophomore or junior year and should make certain that they have fulfilled appropriate modern language requirements before that point in their undergraduate careers. They should meet with the Honors Associate Director prior to their departure for pre-approval of course substitutions. Coursework completed abroad may substitute for Honors Approved Electives.

Honors Advising

All Honors students will work with an Honors advisor for academic planning and to schedule Honors courses in conjunction with their major requirements. As a general rule, Honors students take one or two Honors courses each quarter during their first and second years of study and one or two Honors courses a year in the junior and senior years.

Transfer Honors

Transfer Honors offers students the full benefits of the Honors Program ([https://academics.depaul.edu/honors/Pages/default.aspx](https://academics.depaul.edu/honors/Pages/default.aspx)) with the opportunity to fulfill requirements using courses taken at previous institutions. For students admitted to Transfer Honors, the Honors curriculum replaces Liberal Studies requirements. Evaluation of transfer credit toward Honors requirements is done on an individual basis, and specific Honors requirements vary according to a student’s college and major. Students who transfer to DePaul with fewer than 16 quarter hours of college credit, excluding AP and IB test credit, will have the same Honors requirements as students who begin the program as freshmen.

Please note that Transfer Honors is a residential program with most classes offered during the day on the Lincoln Park Campus. Students in the School of Music, the Theatre School, and the School of Continuing and Professional Studies are not eligible for Transfer Honors.

**Transfer Honors with an Associate's Degree**

Students who have earned an Associate's of Arts or Sciences degree at an Illinois college or who have completed the Illinois Articulation Initiative will complete Experiential Learning and five courses that replace requirements in the Liberal Studies Program:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HON 104</td>
<td>RELIGIOUS WORLDVIEWS AND ETHICAL PERSPECTIVES</td>
<td>4</td>
</tr>
<tr>
<td>HON 105</td>
<td>PHILOSOPHICAL INQUIRY</td>
<td>4</td>
</tr>
<tr>
<td>HON 203</td>
<td>SEMINAR IN MULTICULTURALISM</td>
<td>4</td>
</tr>
<tr>
<td>HON 302</td>
<td>JUNIOR SEMINAR IN SOCIAL JUSTICE</td>
<td>4</td>
</tr>
<tr>
<td>HON 350</td>
<td>HONORS SENIOR SEMINAR</td>
<td>4</td>

<td>HONORS SENIOR SEMINAR IN SERVICE LEARNING</td>
<td>4</td>
</tr>
<tr>
<td>or HON 395</td>
<td>HONORS SENIOR THESIS</td>
<td>4</td>
</tr>
</tbody>
</table>

All Transfer Honors students must complete these five courses regardless of the credit hours transferred in.

**WRD 103 Replacement for Students Leaving Honors Program**

For students who withdraw from the Honors Program having completed HON 100, and who do not have AP credit for WRD 103, either WRD 103 or one of the following courses must be taken to fulfill the requirement for WRD 103:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>

<tr>
<td>WRD 300</td>
<td>COMPOSITION AND STYLE</td>
<td>4</td>
</tr>
</tbody>
</table>

**Exceptions for CSH Honors Students**

**Science Requirement**
- BA students in Math and Psychology complete a two course science requirement: HON 225 and one course chosen from the university's Scientific Inquiry list
- All other CSH students replace the Honors Science requirement with Approved Electives.

**Arts Requirement**
- HON 205
- One applied, performance, or studio arts course from approved list. Pathways Honors students in a 3-year program are waived from the Fine Arts Elective requirement.

**Language Requirement**
- Three courses of intermediate or advanced language study.
- Students who meet the proficiency requirement by placing at the 200-level of a language may consult with an Honors advisor for alternative options for a 3-course sequence to replace the language requirement.

**Junior Seminar**
- HON 302

**Honors Approved Electives**

Approved Electives are chosen in consultation with an Honors advisor to achieve specific academic or professional goals. Courses completed for Study Abroad, 200-300 level courses taken to achieve a minor or a second major, or 200-300 level courses chosen to pursue an area of interest outside of the major can count as Honors Approved Electives. Students in Mathematics, B.A. students in Psychology, and B.A. students in Environmental Science have three Honors Approved Electives. B.S. students in Health Sciences have three or four Approved Electives depending on concentration, and may count the Ethics requirement in place of one of the Approved Electives. Neuroscience majors have one Approved Elective. Environmental Science majors will take ENV 350 in place of one Honors Approved Elective. All other B.S. students have four Honors Approved Electives. Pathways Honors students in a 3-year program will be waived from the Fine Arts Elective requirement. Honors Approved Electives will be utilized to fulfill requirements for the academic program they are in. B.A. students in Environmental Studies are required to complete HON 180. All other CSH students follow the Calculus or Statistics requirement for the major and are waived from the HON 180 requirement.

**Graduate Academics**

Focusing on the disciplines of biology, chemistry, environmental science, mathematics, nursing, physics, psychology, science education, and speech language pathology, the College of Science and Health's graduate programs prepare students to meet the demands of the growing fields of science and health.

The graduate division of the College of Science and Health offers an exciting array of scholarly and professional programs. Many of the master’s programs have earned distinguished reputations both nationally and in the Chicago area for the unique niches that they fill.

The College offers master’s and doctoral study through six departments and one school. These programs provide students with opportunities for advanced scholarly study and research, preparation for a specific career...
Academic Student Handbook policies:
The following programs have their own specific Program Graduate of Responsibility found in the DePaul University Graduate Student Handbook. Additionally, all students are expected to adhere to the Student Code of Conduct. The University reserves the right:

Every effort has been made to provide accurate and firm information. The resources constitutes a contract between the student and the University.

As a graduate student you assume the responsibility to know and meet the regulations, procedures, policies, and deadlines set forth in the University Catalog, CSH Graduate Academic Student Handbook, and your Program Graduate Academic Student Handbook. None of these resources constitutes a contract between the student and the University. Every effort has been made to provide accurate and firm information. The University reserves the right:

- to revise the content of its catalogs, handbooks, and schedules, and to change policies, programs, requirements, regulations, procedures, calendars and schedule of tuition and fees;
- to establish and modify admission and registration criteria;
- to cancel or change courses or programs and their content and prerequisites;
- to limit and restrict enrollment;
- to cancel, divide or change time or location or staffing of classes; and
- to make any other necessary changes.

Additionally, all students are expected to adhere to the Student Code of Responsibility found in the DePaul University Graduate Student Handbook. The following programs have their own specific Program Graduate Academic Student Handbook policies:

- Applied Mathematics
- Applied Statistics
- Biological Sciences
- Chemistry
- Clinical Psychology
- Community Psychology
- Generalist Nursing
- Industrial Organizational Psychology
- Mathematics Education
- Mathematics for Teaching
- Nursing Practice
- Nursing RN to MS
- Physics
- Polymer and Coatings Science
- Psychological Science
- Psychology
- Pure Mathematics
- Science Education
- Speech language pathology

If a conflict exists between a particular Program Graduate Academic Student Handbook and the CSH Graduate Academic Student Handbook, then defer to the particular Program Graduate Academic Student Handbook. If a particular program does not address a particular topic in its Program Graduate Academic Student Handbook but the topic is addressed in the CSH Graduate Academic Student Handbook, then defer to the CSH Graduate Academic Student Handbook.

Academic Advising
Academic advising is an essential component of student success. Faculty work with graduate students not only on course selection and to monitor progress toward their degree, but, more importantly, to serve as mentors and advocates through students' programs of study and research.

Degree-seeking students can find the name of their advisor in Campus Connect. Non-degree seeking students should contact the College's Office of Advising and Student Services (http://csh.depaul.edu/student-resources/advising-student-services/Pages/default.aspx)

Graduate students, who are interested in pre-health advising, should contact the Office of Advising and Student Services (http://csh.depaul.edu/student-resources/advising-student-services/Pages/default.aspx). A dedicated pre-health staff advisor is available to guide them along the path of preparing for and applying to professional health programs.

Registration Procedures
Enrollment
Continuing students enrolled in the College at any time during the previous calendar year are eligible to register for courses. Continuing students register via Campus Connect.

Registration in Courses in Other Colleges or Schools
Graduate students may be permitted to register for courses offered in other Colleges or Schools at the University. Contact the College's Office of Advising and Student Services for more information.

Residence Registration
Whether in residence or not, all admitted graduate students, at either the master's level or doctoral level who will use the facilities of the University (library, laboratory, etc.) or who will consult with faculty members regarding final projects, theses, scholarly leadership projects, or dissertations must be registered for coursework each quarter.

Doctoral students must spend at least three consecutive quarters beyond the master's level in full-time study at DePaul University. Full-time study is defined as registration of eight quarter hours in a quarter. With prior approval of the department, the student may satisfy residence by coursework, by participation in seminars, or by research performed off-campus. To reflect the diversity of graduate study for the PhD degree at stages other than the residency stage, doctoral candidates are full-time students who are registered for Independent Study (four hours); for Dissertation Research (four hours); or for Candidacy Continuation or Candidacy Maintenance (non-credit bearing).
Candidacy Continuation

Students who have completed their coursework but who must take extra time to complete the requirements for their final project, master's thesis, DNP project, or dissertation; must enroll in candidacy continuation courses each quarter of the academic year until the final project, master's thesis, DNP project, or dissertation requirement has been completed. This course carries part-time student status and is non-credit bearing.

Candidacy Maintenance

Placeholder course for students not actively working on their final project, master's thesis, DNP project, or dissertation. This course is meant only to maintain university student status and to avoid being discontinued. It is non-credit bearing, and it will not give the student full- or part-time student status. It will not permit deferment of student loans.

Courses and Credit

No one is permitted to attend a class for which he or she has not been properly registered. Credit is accumulated on the basis of quarter hours. The unit of credit is one quarter hour granted for 45 minutes of classroom work a week. Students must be registered in order to attend and receive credit for courses. The normal class extends over a ten-week period (or an accelerated five-week period in the summer). All courses carry four quarter hours of credit (2 2/3 semester hours), unless otherwise noted. For students fully employed, registration for no more than eight credit hours in a term is the suggested maximum.

Graduate courses are numbered 400 and above. Courses numbered 300 through 399 are advanced undergraduate courses. If listed in this Catalog, they may be accepted for graduate credit within the limitations stipulated by the specific departmental chair or program director. Graduate students who want to enroll in undergraduate courses for personal enrichment while pursuing a graduate degree must submit an online application for non-degree seeking undergraduate admission to the Office of Admission.

For the master's degree most programs require 48 quarter hours of coursework. When the program includes a thesis, no more than eight quarter hours of registration in Thesis Research will be counted toward the degree. Specific requirements are listed in the departmental and program sections of this Catalog.

A combined Bachelor's/Master's degree program allows students to complete a maximum of 12 graduate credit hours as three courses while still an undergraduate student. These three graduate level courses will count toward both the undergraduate and graduate degree programs. Students must formally apply to a combined program in the spring of their junior year; interested students should meet with the Graduate Program Director of the program. Students formally accepted into this program take a maximum of twelve graduate credit hours as three courses in their senior year. Students must formally apply for undergraduate degree conferral via Campus Connect and be awarded their bachelor's degree in anticipation of continuing with their master's level coursework. Please note that except for students participating in an approved combined Bachelor's/Master's degree program at DePaul, graduate courses taken while an undergraduate will not apply toward a graduate degree at DePaul.

Graduation

Meeting Degree Requirements

You must successfully complete all of the degree requirements as listed in the college and departmental or program sections of the University Catalog under which you were admitted. All requirements must be completed by the grading deadline of the degree conferral quarter.

Earning Degrees with Distinction

Requirements for earning a master's degree with distinction vary by program. Unless otherwise indicated, the minimum cumulative grade point average for distinction for coursework applied toward a particular College graduate program is 3.75. Additional or other criteria might need to be met in many programs, such as passing a comprehensive examination or writing a thesis with distinction. Refer to your Program Graduate Academic Student Handbook for any differing or specific requirements on minimum cumulative grade point average or additional criteria.

Degree Conferral

Applying for degree conferral requires the anticipated completion by the stated degree conferral deadline of all program requirements including:

1. successfully completing all coursework,
2. possible field experiences,
3. final project, thesis, DNP project, or dissertation requirements - the College's associate director of graduate student services will arrange for the electronic archival of students' theses, DNP projects, and dissertations with the DePaul University Libraries (http://library.depaul.edu/),
4. passing comprehensive or final exams,
5. minimum number of credit hours to graduate,
6. earning minimum cumulative GPA, and
7. DePaul's receipt of undergraduate external transcript showing awarded degree.

Degree conferral candidates must apply for degree conferral online via Campus Connect. Submitting the online degree conferral application does not guarantee the conferral (granting) of a degree from DePaul University. Degree requirements are audited at the end of the expected completion term indicated.

In order to have your degree conferred, you cannot have any outstanding incomplete or research grades, transfer credit, grade changes, or substitutions or waivers. All exams must be completed and graded; and final projects, theses, DNP projects, or dissertations must be graded and submitted. Failure to have these items complete by the end of the degree conferral term will prompt the College’s Office of Advising and Student Services (http://csh.depaul.edu/student-resources/advising-student-services/Pages/default.aspx) to revoke degree conferral candidacy. If you wish to postpone your degree conferral or are ineligible to graduate, you must reapply in Campus Connect for a subsequent term.

If you meet all requirements, your degree will be conferred within 30 days of the end of the term. Diplomas are mailed to graduates without financial holds, by the Office of the University Registrar, generally within 45-60 days after the end of the term.

DePaul reports degree information to the National Student Clearinghouse on a monthly basis. Many companies, universities and colleges, and agencies use this service to verify awarded degrees. Your degree will only be verified by the Clearinghouse if your Privacy Settings in Campus Connection indicate this as releasable information at the time your degree is conferred. Please verify your Privacy Settings before the end of your completion term.

Deadlines for Degree Conferral

The University confers graduate degrees four times per academic year, after the autumn, winter, spring, and summer terms. The deadlines for applying for quarterly degree conferral are as follows:
The student's program. All grades remain on the academic record for the student. Transfer credit can only be awarded for graduate level coursework which is approved for graduate credit by the program director. A student must earn a grade of B– or higher to receive graduate credit. Grades, Minimum Requirements

- Biological Sciences
- Chemistry
- Mathematical Sciences
- School of Nursing
- Physics
- Psychology
- Science Education
- Speech language pathology

If it does not contain a probation and dismissal policy, then the following College policy applies.

Master’s Programs

A master’s student is subject to academic probation as soon as his/her cumulative GPA falls below 2.500. The student remains on academic probation until up to four more courses are taken, at which time another evaluation is made. If - after the completion of up to four more courses - the student has failed to raise his/her cumulative GPA to at least 2.500, the student may be dismissed for poor scholarship. A master’s student will be advised to withdraw from the master’s program when the department judges that the student is not maintaining satisfactory progress toward degree. The determination of satisfactory progress is not limited to minimum grades and minimum cumulative grade point average, but it could include both academic and non-academic factors related to the student’s performance. If a master’s student is dismissed for poor scholarship, then a dismissal notation will be added to the student’s official DePaul transcript and the dismissed student is prohibited from registering for additional coursework.

A student who has been dismissed may, after a period of time, petition for reinstatement. The petition, addressed to the dean of the College, would provide information that would demonstrate a change in the student’s circumstances to an extent that would support successful completion of the student’s degree program. The dean’s decision, based upon the merits of the petition and the recommendation of the faculty of the student’s department, may, if it’s a favorable decision, stipulate conditions of reinstatement. The dean may also decide to deny the petition for reinstatement.

Doctoral Programs

A doctoral student will be advised to withdraw from the doctoral program when the department judges that the student is not maintaining satisfactory progress toward degree. The determination of satisfactory progress is not limited to minimum grades and minimum cumulative grade point average, but it could include both academic and non-academic factors related to the student’s performance. If a doctoral student is dismissed for poor scholarship, then a dismissal notation will be added to the student’s official DePaul transcript and the dismissed student is prohibited from registering for additional coursework.

A student who has been dismissed may, after a period of time, petition for reinstatement. The petition, addressed to the dean of the College, would provide information that would demonstrate a change in the
student’s circumstances to an extent that would support successful completion of the student’s degree program. The dean’s decision, based upon the merits of the petition and the recommendation of the faculty of the student’s department, may, if it’s a favorable decision, stipulate conditions of reinstatement. The dean may also decide to deny the petition for reinstatement.

For more information about probation and dismissal, please contact the College’s Office of Advising and Student Services (http://csh.depaul.edu/student-resources/advising-student-services/Pages/default.aspx).

**Time Limitations**

**Master’s Programs**

Graduate students in master’s programs are expected to complete their program’s degree requirements within a six-year period of time from the date of the first day of the term for the students’ first term of enrollment in the program. When a graduate student fails to finish before the end of the sixth year from this date, the student may be placed on academic probation. However, the department or program director may recommend to the dean, on receipt of the student’s petition, in writing, an extension of time with or without additional courses, examinations, or other conditions.

**Doctoral Programs**

For graduate students in a doctoral program, the time limitation to complete the requirements for the Ph.D. are

1. between admission to the doctoral program and admission to candidacy: not more than four years; and
2. between admission to candidacy and the final examination: not less than eight months, and not more than five years.

When a graduate student fails to finish before the end of the student’s fourth year prior to candidacy or his or her fifth year post-candidacy, the student may be placed on academic probation. However, the department or program director may recommend to the dean, on receipt of the student’s petition, in writing, an extension of time with or without additional courses, examinations, or other conditions.

**Admission & Aid**

Candidates interested in admission to the College of Science and Health should direct all inquiries to the:

Office of Admission
DePaul University
1 E. Jackson Boulevard
Chicago, Illinois, 60604
admission@depaul.edu, or (312) 362-8300.

For general information on the types of admission and possibility of financial aid, see University Information, Admission.

**Financial Aid**

Applicants interested in financial aid options should direct all inquiries to the Office of Financial Aid (http://www.depaul.edu/admission-and-aid/financial-aid/Pages/default.aspx). They are located in DePaul Central in the Schmitt Academic Center, Suite 101 on the Lincoln Park Campus. You may phone them at their Loop location at 312-362-8610.

**Graduate Admission**

Applicants are admitted to the College of Science and Health on the basis of their ability to complete programs of study and research prescribed for the master’s and doctoral degrees. Specifically, admission qualifications are measured by academic criteria. In accord with these criteria, applicants are admitted in one of three major categories: degree-seeking, non-degree-seeking, and student-at-large.

**Degree Seeking Students**

Applicants are admitted as degree-seeking students in either of two ways: full or conditional.

**Full Degree-Seeking Status**

The minimum requirements for this status are:

- Bachelor’s degree conferred by a regionally accredited institution.
- Scholastic achievement in undergraduate studies satisfying all requirements for entering a specific graduate program.
- Submission of all required supporting credentials.
- Unconditional approval by the department or program director of the applicant’s proposed course of graduate study.

Please note these are minimum requirements for full admission. The departmental and program sections of this Catalog provide additional, more specific and selective, criteria for admission to specific programs.

**Conditional Degree-Seeking Status**

The minimum requirements for this status are:

- Bachelor’s degree conferred by a regionally accredited institution.
- Scholastic achievement in undergraduate studies indicating a capacity to pursue successfully a specific program of graduate study.
- Submission of all required supporting credentials.
- Conditional approval by the department or program director of the applicant’s proposed course of graduate study.

A conditionally admitted applicant is eligible for reclassification to full, degree-seeking status when the conditions of his or her admission have been satisfied.

**Non Degree-Seeking Students**

The dean may admit as students those applicants who do not wish to pursue an advanced degree. Non-degree-seeking students may, at some future date, make application to a graduate program, but they are not accorded special consideration for admission. Students should consult the intended degree program’s website for information about application requirements. Non-degree-seeking student status includes students who are pursuing graduate certificates at DePaul.

**Non-Degree Seeking Status**

The minimum requirements for this status are:

- Bachelor’s degree conferred by a regionally accredited institution
- Academic achievement in undergraduate studies indicating a capacity to succeed in graduate course work (minimum of 2.50/4.00, but some programs might be higher)
- Submission of official transcript from bachelor’s degree granting college or university
- Approval by the director of graduate admission

Students admitted as non-degree graduate students are eligible to enroll in graduate-level courses only.

When such students apply to a graduate program, the departmental or program director of their specific graduate course of study may recommend, in writing, to the dean that a maximum of three courses
(12 quarter hours) completed by the student under the non-degree-seeking status be counted toward fulfillment of the advanced degree requirements. The application of any or all recommended credit is at the discretion of the dean.

DePaul Students and Combined Programs
The combined Bachelor’s/Master’s degree program allows students to complete a maximum of 12 graduate credit hours as three courses while still an undergraduate student. These three graduate level courses will count toward both the undergraduate and graduate degree programs.

Students must formally apply to a combined program in spring of their junior year; interested students should meet with the Graduate Program Director of the program. Students formally accepted into this program are eligible for undergraduate degree conferral via Campus Connection and be awarded their bachelor’s degree in anticipation of continuing with their master’s level coursework.

Please note that except for a student participating in an approved Bachelor’s/Master’s program at DePaul, graduate courses taken while an undergraduate will not apply toward a graduate degree at DePaul.

Scholarship Opportunities
Double Demon Scholarship
The Double Demon Scholarship is awarded to DePaul alumni and covers 25 percent of tuition for degree, non-degree or select certificate coursework taken at the graduate level. Both full-time and part-time students are eligible and no application is necessary. To learn more, contact the admission office for your college of interest (see listing below).

1 The Double Demon Scholarship cannot be used in conjunction with other DePaul scholarships, waivers or awards. University employees are eligible for other tuition benefits and are not eligible. The scholarship does not cover coursework from the Center for Professional Education (CPE), the Institute for Professional Development (IPD), coursework in a doctoral program or a master of fine arts (MFA), School of Music, the Theatre School, College of Law and a few other select programs.

Special Programs
The College of Science and Health offers a number of special programs to meet the unique needs of its students.

Accelerated Program
Rosalind Franklin University of Medicine and Science (RFU)
The 3+ Accelerated Degree Program offers qualified Pathways Honors students with a major in health sciences an opportunity to apply to a selective RFU:

• 3+4 pre-professional program in medicine,
• 3+4 pre-professional program in pharmacy,
• 3+2 pre-professional program in physician assistant studies,
• 3+2 pre-professional program in pathologists’ assistant studies,
• 3+3 pre-professional program in physical therapy, or
• 3+4 pre-professional program in podiatric medicine.

The program also offers qualified Pathways Honors students with a major in chemistry (BA-seeking) an opportunity to apply to the 3+4 pre-professional program in pharmacy.

DePaul University’s School of Nursing
The 3+ Accelerated Degree Program offers qualified Pathways Honors students with a major in health sciences an opportunity to apply to a selective School of Nursing 3+2 Master’s Entry to Nursing Practice (MENP) nursing program.

Combined Programs
The combined Bachelor’s/Master’s degree program allows students to complete a maximum of 12 graduate credit hours as three courses while still an undergraduate student. These three graduate level courses will count toward both the undergraduate and graduate degree programs.

Students must formally apply to a combined program in spring of their junior year; interested students should meet with the Graduate Program Director of the program. Students formally accepted into this program are eligible for undergraduate degree conferral via Campus Connection and be awarded their bachelor’s degree in anticipation of continuing with their master’s level coursework.

Please note that except for the 12 graduate credit hour limit as three courses for students participating in an approved Bachelor’s/Master’s program at DePaul, graduate courses taken while an undergraduate will not apply toward a graduate degree at DePaul.

TEACH Program
This combined degree program of the College of Science and Health and the College of Education was collaboratively developed, and is governed and taught by faculty from these units. A full description of the Program can be found on the College of Education website in the graduate course catalog.

Modern Language Option Program
The Modern Language Option is available to all BA students who wish to study a modern language beyond the level necessary to meet the college’s modern language requirement and to BS students who wish to study a Modern Language at any level. Students selecting the option may substitute a three-course language sequence for two domain courses and one open elective. Students may use the Modern Language Option by applying two of the modern language courses toward two different learning domain combinations. Here are the available combinations: Philosophical Inquiry or Religious Dimensions; Historical Inquiry or Self, Society, and the Modern World; or Arts and Literature or Scientific Inquiry (cannot substitute for the lab science or science as a way of knowing requirement.). Students majoring in one modern language may use the Modern Language Option for study of a second language at the intermediate level or above. Please see your advisor for additional information about Modern Language Option course placement.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement or Modern Language Option.

Online Degree Programs
Bachelor of Arts (BA) in Psychology
The BA in Psychology can be completed online, by transfer students, if certain prerequisites and additional degree requirements are met. This online degree program is available for two concentrations within the psychology major: the Standard BA Concentration and the Human Development BA Concentration.
Admission Criteria for Online Programs
In order to be eligible for the BA in Psychology online format, students must meet the following requirements:

- Be a transfer student with a minimum of 45 quarter hours/30 semester hours of transfer credit
- Have a minimum cumulative 2.0 GPA
- Be in good standing at the last school attended

Prerequisites
Transfer students are encouraged to complete writing courses equivalent to DePaul’s WRD 103 and WRD 104 (i.e. English Composition 101, and 102) requirements prior to beginning the online courses. Additionally, students will need to complete college algebra equivalent to DePaul’s MAT 100 or MAT 101 (or a higher math course) before enrolling in the online program. Students who have successfully completed Statistics and/or Calculus will not need to take the math placement test.

Students should plan to complete all, or almost all, of their psychology courses at DePaul. Some elective and liberal studies courses may be completed with transfer credits. Consult the Transfer Course List for transferrable courses that may apply to Liberal Studies Program (LSP) and elective course requirements.

Bachelor of Arts Degree Requirements
The following degree requirements will need to be fulfilled in addition to the online course offerings:

- Complete the lab science course requirement through transfer course work, or credit by exam (CLEP/AP/IB). (Students may earn college level credit through taking College Level Equivalency Exams (CLEP) to validate knowledge previously acquired.)
- Complete the Modern Language requirement through transfer course work, proficiency, or credit by exam. (Proficiency may be documented by a satisfactory rating in a language proficiency examination administered, or accepted, by DePaul University.)

Graduation requirements for the BA in Psychology online degree program are identical to those for all psychology majors in the Standard Psychology or Human Development concentrations (see the Degree Requirements). DePaul bachelor’s degrees require 192 quarter hours.

To complete the degree requirements online in a timely fashion, students will need to follow the recommended online degree plan. Degree plans are available through the Psychology department.

Transfer students should select the Psychology Online Degree Program as their major when submitting a transfer application for admission to DePaul.

Nursing RN to MS
The RN to MS curriculum provides for seamless progression for the Registered Nurse (RN) with an associate degree in nursing (ADN) to the master’s degree (MS) in nursing, whether or not the student also holds either a BSN or a BA/BS in another field. Along the way, ADN-only students will earn the Bachelor of Science (BS) degree in nursing. Students who hold a BSN may proceed directly to pursuing the MS. Students who hold a BA/BS in a different field and an RN will be required to complete a number of prerequisite courses before pursuing the MS. The focus of the program is on the attainment of the MS degree.

The RN to MS program will be offered online except for the clinical requirements. Students will be required to complete clinical nursing experiences, which will be undertaken in their home communities with appropriate local preceptor agreements.

Pathways Honors Program
The Pathways Honors Program is designed for highly qualified and motivated College of Science and Health pre-professional students interested in pursuing a health career. Students who are part of the Pathways Honors Program will enter as a cohort during their first-year at DePaul. One of the primary features of the Pathways Honors Program is the Early Opportunity Program.

Early Opportunity Program: Offers eligible Pathways Honors students the opportunity for an early admission decision into one of six professional programs at Rosalind Franklin University of Medicine and Science (RFU): medicine, pharmacy, podiatry, physician assistant, pathologists’ assistant, and physical therapy. The Early Opportunity Program will result in early acceptance for qualified Pathways Honors applicants into one of these abovementioned RFU professional programs. Students may apply at the end of their freshman, sophomore or junior year at DePaul. Students may matriculate at RFU as early as at the end of either their third year (3+ Accelerated Degree Program) or fourth year (4+ Traditional Degree Program) at DePaul.

Pathways Honors students with a major in health sciences also have an opportunity to apply to a selective School of Nursing 3+2 Master’s Entry to Nursing Practice (MENP) nursing program.

Pathways Honors students will receive the same benefits as any other Pre-Health Program (http://csh.depaul.edu/academics/pre-health-program/Pages/default.aspx) students at DePaul, but they will also have an opportunity to:

- enroll in special sections of some science courses
- meet regularly with faculty advisors and staff at Rosalind Franklin University of Medicine and Science (RFU) (http://www.rosalindfranklin.edu/) – a rare benefit for undergraduates in pre-professional programs
- network with RFU students
- participate in onsite research opportunities at RFU
- pursue the Early Opportunity Program (http://csh.depaul.edu/academics/pre-health-program/pathways-honors-program/Pages/Early-Opportunity-Program.aspx)
- pursue one of the 3+ Accelerated Degree Programs (http://csh.depaul.edu/academics/pre-health-program/accelerated-degree-option/Pages/default.aspx)
- be part of a smaller learning community or living and learning community
- take courses at DePaul co-taught or taught by RFU faculty
- participate in exclusive events only for Pathways Honors students
- have a special notation on official transcript denoting participation in the Pathways Honors Program
- enroll early with priority course registration

To remain in the Pathways Honors Program, students must meet the following two criteria. Students, who do not meet both criteria, will be dismissed from the program.

- Retain a primary major in the College of Science and Health.
- Maintain at least a 3.0 cumulative GPA.
- Completing and logging at least 10 activity hours each quarter for a total of at least 30 hours per year.
• Activity hours include volunteering, shadowing, attending events or workshops, etc.
• Activity hours do not include hours for which you are paid or earn academic credit.

Students who are not in the Pathways Honors Program as new first-year students may apply to Pathways Honors via the mid-year application. The mid-year application will open early May and close and be due in early June of the same year.

**Mid-Year Applicant for Transfer Students**

Transfer students are NOT eligible to pursue a 3+ accelerated program. To be eligible for acceptance into Pathways Honors as a transfer student, the applicant must meet the following requirements at the time of submitting the application.

1. Earned at least 48 quarter hours in residence by the end of spring quarter at DePaul University with a maximum of 90 total earned quarter hours between DePaul and the transfer institution(s), including other external credit (i.e. AP).
2. Completed 1 year of general biology with laboratory and 1 year of general chemistry with laboratory by the end of spring quarter.
3. Completed a minimum of 3 science courses with labs at DePaul. Eligible courses include: general chemistry, general biology, organic chemistry, analytical chemistry, general or university physics, genetics, cell biology, microbiology, or any 300-level biology, chemistry, or physics course.
4. Earned at least a DePaul cumulative GPA of 3.2 after spring quarter grades post.
5. Earned at least a 3.2 cumulative transfer GPA.
6. Earned at least a B- in all science courses (see #2 and #3) at both DePaul and at the transfer institution(s).
7. Demonstrated a standard of professional and ethical behavior suitable for a future health professional.
8. Submitted a 500 word statement on why the applicant is interested in Pathways Honors and what intraprofessional healthcare means to them.

**Mid-Year Applicant for Current DePaul Students Who Did Not Transfer**

A current DePaul student in the first year may apply as a mid-year Pathways Honors program participant. Students who apply mid-year will receive the same benefits as incoming first-year Pathways Honors students. Competitive mid-year applicants must:

• Have fewer than 60 quarters hours earned at the end of spring quarter.
• Have entered DePaul as a traditional first-year student (cannot be a transfer, Post-Baccalaureate Pre-Health Program, or non-degree seeking student).
• Have a cumulative GPA of at least a 3.0 after spring quarter grades post.
• Earn at least a B- in each general biology and general chemistry course including labs.
• Be on track to complete the general biology and general chemistry sequence by the end of the following autumn quarter.
• Demonstrated a standard of professional and ethical behavior suitable for a future health professional.

The Pathways Honors Program is separate from the University Honors Program (https://academics.depaul.edu/honors/Pages/default.aspx), but some students might be part of both programs.

**Pre-Health Program**

At DePaul University any enrolled student from any major (any college or school) who is considering a professional graduate degree leading to a career in health care can register for the College of Science and Health’s Pre-Health Program. The Pre-Health Program is a pre-professional program designed to help students explore their interests and identify which health career (http://csh.depaul.edu/student-resources/advising-student-services/pre-health-advising/health-careers/Pages/default.aspx) might be the best fit for them.

Currently enrolled DePaul students may register (http://csh.depaul.edu/academics/pre-health-program/Pages/default.aspx) to become part of the Pre-Health Program regardless of major, minor, or concentration.

The College of Science and Health’s (CSh’s) Post-Baccalaureate Pre-Health Program (“post-bac program”) at DePaul is a pre-professional program designed for career changers who aspire to pursue a graduate health professions program’s prerequisite coursework leading to a career in one of the following nine fields: dentistry, medicine, optometry, pharmacy, physical therapy, physician assistant practice, podiatry, speech language pathology, or veterinary medicine. The post-bac program is flexible and allows students who might be working full-time or part-time to complete the courses (offered during the day, Monday through Friday) on a part-time basis at their own pace. The post-bac program does not bear a certificate, nor will it carry any other type of credential.

In order to be eligible for the post-bac program, applicants must:

• Be U.S. citizens or permanent residents
• Have earned at least a bachelor’s degree with a non-natural science major from an accredited college or university; if an applicant already completed one or two graduate health professions prerequisites, depending on when the courses were completed – and the grades achieved – students may be advised to either repeat them or take one or two advanced-level science courses
• Have earned at least a 3.00/4.00 undergraduate cumulative GPA
• Be in good academic standing at previous institution(s) and be able to return
• Be career changers with little to no lab science background

Benefits of the post-bac program:

• Rolling admission (on a quarterly basis)
• Completion of courses at one’s own pace on a part-time basis
• Customized pre-health advising from faculty and staff advisors
• Opportunity to have a committee letter of recommendation written (depending on professional school program of pursuit)
• Guidance on identifying and pursuing volunteering, shadowing, research, and leadership-building experiences
• Free tutoring at DePaul’s Learning Commons
• Automatic registration for the CSh’s Pre-Health Program: receive invitations to pre-professional workshops (i.e. personal statement writing, practice interviews, etc.), speaker engagements, student group events, and possible shadowing and volunteering opportunities
• Registration for classes before the general non-degree seeking population
Biological Sciences

The Department of Biological Sciences provides courses for biology majors, minors, and non-majors from all areas. The department currently has more than 350 majors in its undergraduate program leading to a Bachelor of Science and offers a graduate program leading to a Master of Arts or Master of Science.

Professor and Chair
University of Kentucky

Chemistry and Biochemistry

The Department of Chemistry and Biochemistry has several fundamental responsibilities. They are:

1. to train students to understand, to criticize meaningfully, and to carry out scientific investigations,
2. to provide instruction and laboratory experience for those who wish to make chemistry or biochemistry their livelihood and/or pursue advanced study in chemistry or biochemistry,
3. to provide instruction and laboratory experience for those who wish to use chemistry or biochemistry as a background in an allied profession, and
4. to provide students not majoring in chemistry or biochemistry with up-to-date instruction in the principles of chemistry or biochemistry and methods of scientific inquiry.

In meeting these responsibilities, the department offers two Bachelor of Science degrees, one in Chemistry and the other in Biochemistry, both of which are certified by the American Chemical Society, the department's accrediting body. The department also offers two Bachelor of Arts degrees, one in Chemistry and the other in Biochemistry. The BA options allow students to get a firm educational foundation in chemistry or biochemistry along with the ability to develop specialization in another field not necessarily related to chemistry or biochemistry.

In addition to its baccalaureate degrees, the department offers several combined degree programs. Students may pursue a degree in chemistry and chemical engineering through a joint program with the Illinois Institute of Technology. The department hosts its own combined BS/MS program. This option allows students to earn a BS and MS in chemistry.
Environmental Science and Studies

Environmental Science and Studies provides a supportive environment that stimulates analytical thinking and encourages a broad perspective in learning for our majors and those taking our courses, challenging them to get the maximum benefit from their talents and skills.

The mission of DePaul University's Department of Health Sciences is to educate and train students who will collaboratively address human health from interdisciplinary natural and social scientific perspectives in order to promote health and to improve the lives of individuals and communities.

The Health Sciences major offers concentrations in BioScience and Public Health Studies. In addition to General tracks, each concentration offers tracks that help students focus their interests and prepare for future careers. In BioScience students can choose from tracks in Medicine and Pre-nursing; while in Public Health Studies, students can choose tracks in Health Education, Community Health or Health Policy and Administration. This degree:

1. provides students interested in pursuing a career in one of many health-related professions with a common core of knowledge;
2. provides a general track in each concentration but also articulates additional tracks that meet requirements for entry into graduate programs;
3. provides enough flexibility to enable students to move among those tracks as their interests evolve, and
4. brings students headed for multiple health-related professions into on-going cross-disciplinary conversation with each other.

The curriculum is built on the principle that, in order to be effective, professionals working in health need to understand the factors that impact both the health of individuals and the health of populations.

Communication

**Health Sciences**

The Department of Health Sciences offers a BS in Health Sciences, a minor in Public Health Studies, combined degree programs (BS+MA in Health Communications, BS+Master of Public Health, and BS+Master's Entry to Nursing Practice), and several 3+ Accelerated Programs that combine undergraduate studies at DePaul with graduate health professions studies at Rosalind Franklin University of Medicine and Science.

The Health Sciences major offers concentrations in BioScience and Public Health Studies. In addition to General tracks, each concentration offers tracks that help students focus their interests and prepare for future careers. In BioScience students can choose from tracks in Medicine and Pre-nursing; while in Public Health Studies, students can choose tracks in Health Education, Community Health or Health Policy and Administration. This degree:

1. provides students interested in pursuing a career in one of many health-related professions with a common core of knowledge;
2. provides a general track in each concentration but also articulates additional tracks that meet requirements for entry into graduate programs;
3. provides enough flexibility to enable students to move among those tracks as their interests evolve, and
4. brings students headed for multiple health-related professions into on-going cross-disciplinary conversation with each other.

The curriculum is built on the principle that, in order to be effective, professionals working in health need to understand the factors that impact both the health of individuals and the health of populations.
Mathematical Sciences

The Department of Mathematical Sciences offers courses in pure and applied mathematics to help students reach a wide variety of intellectual, academic, and career goals.

Many students come to the department to obtain the mathematical background needed to be successful in programs in the natural sciences, computer science, social sciences, and business. Such students may choose to supplement their major in their home department by obtaining a minor in mathematics. Other students come to the department seeking a program leading to an undergraduate or graduate degree in one of the mathematical sciences.

Neuroscience

The Neuroscience major is an integrative program that draws from the natural, behavioral, and computational science fields. The program's concentrations explore fundamental concepts that underlie the function of the nervous system on a cellular and molecular level, how the nervous system produces behavior and cognition, and the role of computer science and mathematics in new technologies and therapies within the field. The degree earned is a BS. The knowledge gained from studying neuroscience can be applied to careers in these sub-fields, as well as in pursuit of professional programs in health, mental health, medicine, law, business and computer science.

Physics and Astrophysics

Physicists study and apply the laws of nature to answer fundamental questions about the evolution of the universe, the nature of light and matter, and the behavior of the natural world. The Physics Department engages students in a rigorous academic environment in graduate and undergraduate education. The undergraduate major provides the depth and breadth required for graduate study in physics, related or interdisciplinary areas, or for applied programs such as engineering, electronics, and optics. A major factor in our success in preparing students for advanced degrees and rewarding careers is the high level of cooperation and interaction we maintain between faculty and students. Our classes are small, often laboratory-oriented, promoting serious learning in a friendly environment. Students are encouraged to participate in research with faculty and are frequently co-authors of articles in physics journals. Many students are supported as research assistants by funds from the College of Science and Health or by external grants.

In addition to its strong undergraduate program with concentrations in standard physics and computational physics, the department offers a joint engineering program in conjunction with Illinois Institute of Technology, and a master's degree in Applied Physics.

Post-Baccalaureate Programs

The College of Science and Health’s (CSH’s) Post-Baccalaureate Pre-Health Program ("post-bac program") at DePaul is a pre-professional program designed for career changers who aspire to pursue a graduate health professions program’s prerequisite coursework leading to a career in one of the following nine fields: dentistry, medicine, optometry, pharmacy, physical therapy, physician assistant practice, podiatry, speech language pathology, or veterinary medicine. The post-bac program is flexible and allows students who might be working full-time or part-time to complete the courses (offered during the day, Monday through Friday) on a part-time basis at their own pace. The post-bac program does not bear a certificate, nor will it carry any other type of credential.

In order to be eligible for the post-bac program, applicants must:

• Be U.S. citizens or permanent residents
• Have earned at least a bachelor’s degree with a non-natural science major from an accredited college or university; if an applicant already completed one or two graduate health professions prerequisites, depending on when the courses were completed – and the grades achieved – students may be advised to either repeat them or take one or two advanced-level science courses
• Have earned at least a 3.00/4.00 undergraduate cumulative GPA
• Be in good academic standing at previous institution(s) and be able to return
• Be career changers with little to no lab science background

Benefits of the post-bac program:

• Rolling admission (on a quarterly basis)
• Completion of courses at one’s own pace on a part-time basis
• Customized pre-health advising from faculty and staff advisors
• Opportunity to have a committee letter of recommendation written (depending on professional school program of pursuit)
• Guidance on identifying and pursuing volunteering, shadowing, research, and leadership-building experiences
• Free tutoring at the CSH’s Science and Math Learning Center and DePaul’s Learning Commons
• Automatic registration for the CSH’s Pre-Health Program: receive invitations to pre-professional workshops (i.e. personal statement writing, practice interviews, etc.), speaker engagements, student group events, and possible shadowing and volunteering opportunities

### Psychology

The Department of Psychology is committed to providing excellent teaching, mentoring and advising for students in our nine undergraduate major concentrations, two master’s programs and five doctoral programs. Moreover, the Department of Psychology is committed to making meaningful contributions to the science of psychology and encourages students to do likewise, and to serve our university, community, and profession so as to enact and realize the mission of DePaul.

The goal of the Department of Psychology is to provide students with an understanding of the methods and content of scientific and applied psychology.

School of Nursing

The mission of the School of Nursing is the preservation, enrichment, and transmission of nursing science as a discipline, and its application to promote the health and well-being of individuals, families, and communities. The faculty pursues this mission through excellence in teaching as the primary focus of scholarship, and research that has the potential to enhance nursing knowledge, scientific inquiry, teaching, and health. The School maintains a commitment to serving persons with diverse talents, qualities, interests, and socioeconomic backgrounds in its educational programs and professional practice. It seeks to provide accelerated, inquiry-based education that anticipates the rapid pace of change in health promotion and illness care.

Philosophy of the School Of Nursing

Nursing is a learned profession with a distinct science and art. Students learn the practice of nursing through research and the study of diverse human and environmental patterns of health behavior as they affect individuals, families, and communities. Students incorporate scientific knowledge and the nursing process in their delivery of safe, ethical and quality care with deep regard for the differences along the dimensions of race/ethnicity, gender, class, sexuality, religion, heritage and language.

The focus of the faculty of the School of Nursing is the education and preparation of students for leadership roles in healthcare. Education is centered on providing care for persons and communities in both health and illness while conducting scientific research to generate knowledge that strengthens these endeavors. Critical thinking is emphasized, along with an insightful examination of society, thus affording students the opportunity to apply the science and art of nursing to promote and maintain health while upholding human dignity for the betterment of the community and society.

In keeping with the Vincentian values of DePaul University, students treat all human beings equally and with respect, and by doing so, are acting in the interest of the common good. The School of Nursing faculty is committed to education that will provide the foundation for a professional career as a caregiver, educator, leader, and scholar.

Science Education

The Science, Technology, Engineering, and Mathematics (STEM) Studies Department offers innovative, interdisciplinary programs and courses spanning the sciences, mathematics, and technology at DePaul. The Department works in close collaboration with the DePaul STEM Center. The Department administers the Master of Science in Science Education, a program to prepare master teachers in science at the middle school level. The program addresses a great need for content-based graduate study to enhance the teaching of science at the middle school level. The program integrates content with pedagogy, is inquiry-based, and integrates mathematics and technology with science. The STEM Studies Department also offers innovative science courses and special programs for undergraduates to engage highly diverse audiences in rich, contemporary science content.

School of Continuing and Professional Studies

The School of Continuing and Professional Studies offers innovative undergraduate and graduate degrees and certificates that are recognized for their high quality and applicability in an ever-changing professional world. We also provide extensive continuing education and workplace learning opportunities through our seminars, workshops and customized corporate training programs.

Our school is designed to offer personalized academic and career guidance, credit for prior learning, and flexible learning structures that meet the schedules and demands of busy adult lives. We extend learning through online, hybrid, and on-campus offerings, as well as through cohort programs delivered onsite at our corporate and college partners.

Whether pursuing degree completion, accelerated, customizable, and/or highly-structured programs, our students develop skills in collaboration, persuasion, critical-thinking, inquiry, technology, creativity, adaptability and specialized fields that meet the requirements for success in the 21st century workplace.

Undergraduate Academics

An internationally recognized leader in education for adults, the School of Continuing and Professional Studies offers degrees and certificates at both the undergraduate and graduate levels.

The undergraduate Bachelor of Arts programs include professional studies majors in Business Administration (BAPSBA) and Computing
For information and program requirements for SCPS undergraduate programs, select the links below.

- Business Administration (BAPSBA) (p. 196)
- Leadership Studies (BALS) (p. 703)
- Nonprofit Management (BANM) (p. 824)
- Recreation and Sport Management (BARSMS) (p. 974)
- Healthcare Administration (BAHA) (p. 572)
- Applied Behavioral Sciences (BAABS) (p. 116)
- Computing (BAPSC) (p. 280)
- Decision Analytics (BADA) (p. 356)

SCPS Undergraduate Online Degree Program Options

Some SCPS programs can be completed totally online without coming to campus. If you plan to attend most or all of your program online, you can select the online version of the program when you apply.

Programs that offer the online option are Business Administration (BAPSBA), Computing (BAPSC), Computer Science and Information Technology concentrations, Decision Analytics (BADA), Leadership Studies (BALS), and Applied Behavioral Sciences (BAABS). Information about program requirements for these degrees can be accessed through the program links above.

Combined Bachelor’s + Master’s Degree Programs

SCPS offers two combined Bachelor’s + Master’s degree programs that allow students across the university to complete 12 graduate credit hours while completing their undergraduate programs at the undergraduate tuition rate. These 12 graduate credit hours will count towards both the undergraduate and graduate degree programs.

Combined degree program students are also eligible for DePaul’s Double Demon Scholarship which provides a 25% reduction in the graduate tuition rate.

- MA in Applied Professional Studies (MAAPS) (p. 139)
- MA in Educating Adults (MAEA) (p. 409)

Double Majors

For SCPS students who wish to do a double major within the school, the following guidelines apply.

- University policy (https://catalog.depaul.edu/student-handbooks/undergraduate/undergraduate-academic-policies/ supplementary-credentials/additional-major/) dictates that the student must select a primary major which determines the minimum requirements for conferral. The secondary major requirements must be completed or the declaration withdrawn before conferral.
- University policy dictates that no more than 50% of the credits that apply to the primary major can be applied to the secondary major.

SCPS students interested in completing a secondary major from a non-SCPS college should contact their SCPS advisor to discuss their options. Requirements for the secondary major would be determined by the college offering the major.

Students enrolled in a Non-SCPS college that are interested in adding a secondary major from SCPS can send their request to scpsadvising@depaul.edu. Students from a Non-SCPS college would need to complete the Professional Studies Core, the Major Core and the Major Elective requirements to complete the SCPS major.

The requirements for a double major are represented on the student’s Degree Progress Report (DPR) and the second major would be listed on the final transcript.

SCPS Undergraduate Academic Policies

All SCPS undergraduate students assume responsibility to know and meet both the general and particular regulations, procedures, policies and deadlines set forth in the academic catalog. In addition, all SCPS undergraduate students are expected to adhere to the Student Code of Responsibility (available in the DePaul University Undergraduate Student Handbook (p. 1480)) to follow the policies, procedures and regulations of the University. Failure to do so may be grounds for dismissal from the applicable degree program. Additional program information and regulations applicable to specific programs can be found on the SCPS website (https://scps.depaul.edu/student-resources/undergraduate-resources/Pages/default.aspx).

Dean’s List, Honors and Honor Societies

Students in the following SCPS undergraduate programs are eligible to receive graduation honors, BAPSBA, BAPSC, BAHA, BADA, BANM, BALS, BARSMS and BAABS. These honors are based on the student’s final cumulative GPA, at least 3.85 for summa cum laude, 3.7 for magna cum laude, and 3.5 for cum laude. To qualify for honors, students must complete at least 60 credit hours at DePaul of credit posted with letter grades, grades recorded as a pass are not included in the calculations. Students in SCPS competence-based programs do not qualify for these graduation distinctions.

Invitation-only honor societies such as Alpha Sigma Lambda may offer graduation honors to eligible undergraduate students per each honor society’s criteria. SCPS also offers a quarterly SCPS Dean’s List designation for undergraduate students who earn a GPA of 3.5 for the quarter based on a minimum of 8 graded credit hours in DePaul courses, excluding grades of Pass and W. Students who received IN, M, or R grades for the quarter are not eligible.
Grades

SCPS degree programs with majors (BAPSBA, BAPSC, BAHA, BADA, BANM, BALS and BARSM) require a grade of C- or better in courses taken at DePaul or transfer work applied to course requirements in the Major (the Professional Studies Core, the Major Core and the Major Elective requirements) and in the LL 261: Essay Writing course in the College Core. All other course requirements in these programs can be completed with a grade of D or better. R grades (Research based incompletes) are only permitted for the following courses: LL 301, LL 302, LL 303, Guided Independent Studies, and SCPS Study Abroad courses applied to these programs. SCPS degree completion major programs (BAABS and BALS) require a C- or better in all courses taken at DePaul applied to those programs.

SCPS competence-based programs (BAIFA, BAC, BAGB and BAECE) require a D or better in courses taken at DePaul or transfer work applied to competence requirements in those programs except for course requirements from non-SCPS colleges in joint degree programs which require a C- or better. However, courses taken before the Fall 2020 quarter must meet the C- or better standard that was in place at that time to be accepted for any competence requirements in those programs. R grades (Research based incompletes) are only permitted for the following courses: LL250, LL 300, LL 390, FA 303, FA 304, Guided Independent Studies, and SCPS Study Abroad courses.

Grades are not changed because of a reassessment of course work, the submission of extra work or by the retaking of an examination. In cases of administrative error, an instructor may request to change a grade with the approval of the SCPS Exceptions Committee. The SCPS Exceptions Committee will entertain grade change requests from instructors when either the student or the instructor has made a compelling case with adequate written supporting documentation that a course grade change is warranted for equitable considerations. If a student’s IN (Incomplete) or R grade has reverted to a F grade due to missed deadlines, this is not sufficient grounds to warrant such an exception. If a grade change is deemed appropriate by the Exceptions Committee or through an Incomplete Contract, faculty enter the grade change directly in Campus Connect.

A minimum grade point average (GPA) of 2.0 is required to graduate in all SCPS undergraduate programs.

Pass/Fail Grades

Most undergraduate courses at SCPS are graded on the A/F grading scale unless otherwise specified. Students can request to take courses from any university department on a pass/fail (P/F) grading basis by contacting their academic advisor for approval.

The following university guidelines can be found in the Grades, Pass/ Fail (p. 1512) entry in the university student handbook to qualify for the P/F option. For more information about how P/F grades are recorded and implications for student records, please see the student handbook explanation.

- Sophomore Standing (at least 44 quarter hours)
- A minimum cumulative GPA of 2.0 or higher
- One P/F course can be taken per quarter
- Only one course can be taken P/F from any department
- A maximum of 20 credit hours can be taken as P/F
- Courses in the major/minor or certificates are not eligible for P/F option

A grade of pass in SCPS courses represents the university standard of D or better. Pass grades recorded for Prior Learning Assessment (PLA) credits are excluded from the maximum 20 credit hour limit on P/F grades. LL 261: Essay Writing requires needs C- or better and does not qualify to be taken P/F. SCPS courses considered to be in the major include those in the Professional Studies Core, the Major Core and the Major Electives whether taken through SCPS or from other colleges.

In terms of PA grades from other institutions, those sources that record PA as the minimum standard without grades assigned, such as ACE credit or Advanced Placement (AP) or CLEP exams, those course equivalents can be placed according to the C- or better standard. For grades recorded on college transcripts as PA, if the transcript indicates that a PA grade meets the C- or better standard, those courses can fulfill program requirements of C- or better.

Courses taken for P/F grades using the D or better standard can be applied to any competence program requirement including Focus Area requirements but excluding course requirements from non-SCPS colleges in competence based joint degree programs. Courses taken in competence programs for Lifelong Learning requirements do not count toward the 20 credit hour P/F limit.

Prior Learning Assessment (PLA)

Prior Learning Assessment (PLA) allows students to earn credit toward degree requirements based on demonstration of college-level learning that may have been accomplished prior to or during studies at DePaul. Students may apply PLA credit in a variety of ways depending on the type of the learning being demonstrated through professional development in the workplace, courses and workshops in non-accredited programs and other types of independent learning. PLA credit is governed by the University Transfer Policy that permits a maximum of 99 quarter hours from a combination of credit based on prior learning assessment, credit earned at a community college, credit by examination, and ACE military credit in DePaul’s 192 credit hour programs. PLA credits are not eligible for Financial Aid, do not count for purposes of determining enrollment status, and do not count as residency requirements. Students interested in pursuing PLA credit should contact the Office of Prior Learning Assessment, SCPSPLA@depaul.edu or visit the SCPS PLA website (https://scps.depaul.edu/academics/office-prior-learning-assessment/Pages/default.aspx).

Repeating Courses

SCPS follows the University policy (p. 1513) for repeating courses for its credit based programs (BAPSBA, BAPSC, BAHA, BADA, BANM, BALS, BARSM and BAABS).

The following policy applies to students in SCPS’s competence-based programs (BAIFA, BAC, BAGB and BAECE). SCPS students can improve the grade for a particular competence by retaking the same course for the same competence or by taking a different course for the same competence. In either case, the University policy stipulates that the second attempt is the one which determines the cumulative credit and GPA. A student may not repeat a SCPS class if the registration is for a different competence from the original registration for that course.

When SCPS undergraduate students repeat a competence, all grades achieved are recorded on their academic records. Recalculations of the GPA will be made according to the following guidelines:

- Upon the initial repeat, only the second grade will be used to calculate the GPA.
• Upon further repeats, the second and all subsequent grades will be used to calculate the GPA.

These guidelines apply whether students took the competence for pass/fail or A/F grades. GPA recalculation for a repeated competence are made on an ad-hoc basis only. Recalculations are initiated at the request of students, faculty, and advisors and performed by the SCPS Student Records office.

Residency Requirements
SCPS students are required to complete a portion of their requirements in residence. In order to meet the residence requirement, a course must be taken at DePaul, either from SCPS or any other DePaul college. Credit granted for PLA (Prior Learning Assessment) does not count as a residence requirement.

• SCPS degree programs with majors (BAPSBA, BAPSC, BANM, BALS, BARSM and BADA) require that students complete at least 20 credit hours from the College Core in residence and at least 40 credit hours from the Major Requirements in residence. Students in the BAHa program must complete 16 credit hours in the College Core and 44 Credit hours in the Major Requirements in residence. In addition to these requirements, students in the BAPSC joint degree program with the College of Computing and Digital Media (CDM) at DePaul need to complete at least 20 credit hours in the major from CDM.

• SCPS degree completion major programs (BAABS and BALS): Students in these programs must complete at least 94 credit hours in residence.

• SCPS competence-based programs (BAIFA, BAC, BAGB and BAECE): Students in these programs must complete at least 25% of competence requirements through SCPS courses. In addition, students in the BAC program must also complete at least 5 courses through the College of Computing and Digital Media. Students in the BAECE program must also complete at least 9 courses through the College of Education.

Active Student Status
Students who complete a term and do not enroll for the following term at DePaul remain active and eligible to enroll until they are formally discontinued. The student does not register for three consecutive quarters (or for Law two semesters), excluding summers. In these cases students must seek readmission.

Once discontinued, students wishing to resume their studies are required to reapply for admission to the school, and, upon readmission, proceed in accordance with program specifications in place from that point forward, as well as any special directives provided at the point of readmission.

Competence Limits (in Competence-Based Programs)
In undergraduate courses offered for competence requirements at SCPS, students may enroll for a maximum of two competence requirements. Most competence requirements are worth 2 credit hours, although there are some exceptions to this rule. Students may enroll in one or two competence requirements in a course but may only complete one FX competence per course. Exceptions to this policy are:

• In travel courses, students can enroll in three or four competence requirements if two of them are L10 and L11.

• Certain four-credit hour courses offer only one competence requirement; these include Writing for Competence (L4), Critical Thinking (L5), and Quantitative Reasoning (L6).

• Two-credit hour courses, including Guided Independent Studies, five-week courses, and most December Term courses, may be taken for only one competence.

• In University Internship Program courses offered for two FX competence requirements, students are enrolled for both FX competence requirements.

Graduate Academics
An internationally recognized leader in education for adults, the School of Continuing and Professional Studies offers degrees and certificates at both the undergraduate and graduate levels. The graduate programs include master’s degrees in Applied Professional Studies (MAAPS), and Educating Adults (MAEA), and Applied Technology (MSAT).

• Applied Professional Studies (MAAPS) (p. 137)
• Applied Technology (MSAT) (p. 143)
• Educating Adults (MAEA) (p. 407)

Graduate Admission Application Steps
The following process and components apply to all of the School of Continuing and Professional Studies (SCPS) graduate programs and certificates. Additional program information can be found at the SCPS Graduate Programs page (https://scps.depaul.edu/academics/graduate/programs/Pages/default.aspx).

1. Application and Required Materials
Applicant submits required application materials including:

• a completed Application form and Application fee;
• a current resume;
• an Application Essay (writing sample) that addresses key questions pertinent to assessing the “fit” of the particular program to the student and vice versa; and,
• official, sealed transcripts documenting all prior college/university coursework including demonstration of a completed undergraduate degree from a regionally accredited institution. A cumulative GPA of 3.0 is required for all prior coursework.

1 The application fee is waived for DePaul alumni.
2 Application Essay is waived for certificate applicants.

2. Interview
Upon initial review of application materials, a representative of the SCPS Graduate Admissions Committee invites qualified applicants to an admissions interview. The purpose of this interview is to enable both the particular program and the applicant to further ascertain the match or alignment between what the particular program/certificate offers and what the applicant is seeking in terms of his/her graduate learning or certificate-learning experience.

3. Review
Information gleaned from each applicant’s materials and interview is reviewed and assessed by the SCPS Graduate Admissions Committee in accordance with the particular program’s admission considerations. See admissions considerations below.

4. Decision
An admission decision is rendered and communicated to the applicant in writing. As necessary, SCPS Graduate Programs reserve the right to admit particular applicants conditionally. In such cases, the terms (conditions and timeline) of the conditional status are noted in the student’s acceptance letter. Failure to satisfactorily adhere to or fulfill
students must also submit the following:

**Admission Considerations**

The following areas are considered in making admission decisions:

- applicant’s professional background including, for MAAPS program applicants, his/her possession of at least three years of direct or interrelated experience, or equivalent, relevant to the particular SCPS graduate program/curriculum/under consideration;
- applicant’s possession of a practice-site (worksite or relevant application setting in which to apply learning from the particular SCPS graduate/curriculum program) is preferred;
- applicant’s educational goals/objectives and the congruence between those goals and the graduate/curriculum program under consideration;
- applicant’s learning values and skills (willingness and ability to conduct self-managed/independent learning; participate positively in peer-group learning; engage in self-assessment; engage in reflection to increase understanding and improve practice; and, organize areas of knowledge and skill into themes and describe evidence in support of such)
- applicant’s undergraduate cumulative GPA of no less than 3.0.

**Admission Status**

Students are to matriculate in the quarter for which they are admitted. Students failing to do so (and who later wish to start) are responsible to update their admissions materials and, if necessary—depending on changes to those materials—reapply. The Graduate Programs Office maintains an admission file/status for one year from the date of admission.

After three consecutive quarters, excluding summer, of no registration activity (no credit hours or the minimal Continuing Activity Status), the University deems graduate students to be discontinued. Once discontinued, graduate students wishing to resume their graduate studies are required to reapply for admission to their respective graduate programs and, upon readmission, proceed in accordance with program specifications in place from that point forward, as well as any special directives provided at the point of readmission. These contingencies of reapplication / readmission also apply to graduate students who are not able to complete their graduate programs within the allotted six years from point of first enrollment.

**International Admission**

In addition to the Admissions Requirements above, International Students must also submit the following:

- Proof of English Language Proficiency.
- English Proficiency Test. Applicants educated outside of the U.S., at an institution where English is not the primary language, must present proof of English proficiency to be considered for admission. DePaul University accepts the TOEFL, IELTS, or Pearson Test of English. Most scores are valid for two years only. Expired test scores will not be accepted.

The minimum scores considered for graduate admission to SCPS are:

- 80 on the iBT of the TOEFL with a minimum score of 17 on each section
- 550 on the paper-based TOEFL test
- 213 on the computer-based TOEFL test
- 6.5 on the IELTS test
- 53 on the Pearson Test of English
- Credential Evaluation. DePaul University requires that applicants educated outside of the U.S. submit official educational credentials and evaluation fee directly to one of the following companies:
  - One Earth International Credit Evaluation
  - Educational Credential Evaluators, Inc. (ECE)
  - Applicants must request a course-by-course evaluation. Please direct any questions about required credentials to the evaluation company. DePaul University will not accept evaluations from any evaluation company not listed here.

Upon admission, regarding student visa information, please click here ([http://international.depaul.edu](http://international.depaul.edu)).

**SCPS Graduate Academic Student Handbook**

All SCPS graduate students assume responsibility to know and meet both the general and particular regulations, procedures, policies and deadlines set forth in these materials. In addition, all SCPS graduate students are expected to adhere to the Student Code of Responsibility (available in the DePaul University Graduate Student Handbook) to follow the policies, procedures and regulations of the University, and to fulfill any particular stipulations which the School of Continuing and Professional Studies Graduate Programs may have made in individual cases at the time of admission or, subsequently, through official action. Failure to do so may be grounds for dismissal from the applicable graduate program.

Additional program information and regulations applicable to specific graduate programs can be found in each Program Guidebook and student resources on the SCPS website ([https://scps.depaul.edu/student-resources/graduate-resources/Pages/guidebooks.aspx](https://scps.depaul.edu/student-resources/graduate-resources/Pages/guidebooks.aspx)).

**Acceptable Grades**

Grades of "A" through "C" are acceptable for registrations (courses or competencies) applied to SCPS graduate programs. Grades of "C-" or lower require re-registering and re-completing course/competence. “Pass/No Pass” is only applicable to specified program components as explicitly designated within each graduate program’s Curriculum Guidebook ([https://scps.depaul.edu/student-resources/graduate-resources/Pages/guidebooks.aspx](https://scps.depaul.edu/student-resources/graduate-resources/Pages/guidebooks.aspx)).

**Combined Degree Programs**

SCPS offers two combined Bachelor’s + Master’s degree programs that allow students across the university to complete 12 graduate credit hours while completing their undergraduate programs at the undergraduate tuition rate. These 12 graduate credit hours will count towards both the undergraduate and graduate degree programs. Combined degree program students are also eligible for DePaul's Double Demon Scholarship which provides a 25% reduction in the graduate tuition rate.

- MA in Applied Professional Studies (p. 139)
- MA in Educating Adults (p. 409)

**Double Demon Scholarship**

Alumni from any of DePaul’s colleges who are admitted into any graduate degree program at the university automatically qualify for the Double Demon Scholarship which provides a 25% reduction in the graduate tuition rate. Combined degree program students are eligible. Both full-time and part-time students are eligible. No scholarship application is required.
Cumulative GPA

SCPS graduate programs require a cumulative GPA of no less than 3.0 to remain in good standing and at the point of graduation in order to complete the respective degree and enable degree conferral.

Earning a Second School of Continuing and Professional Studies Graduate Degree

Alumni from any SCPS graduate program (MAAPS, MAEA or MSAT) may apply to a second different SCPS graduate degree, provided the first program is completed. Concurrent matriculation in two degree programs is not permitted. Those who wish to pursue a second degree are required to follow the second program’s admission process. Students admitted to the second program may apply up to 18 credit hours of graduate liberal learning seminars, previously completed within the first program, in partial fulfillment of the second program’s requirements, provided no more than 10 years has lapsed between the seminar’s completion quarter and the quarter in which the second degree is conferred. Application of credit hours and degree requirements into a third SCPS graduate program is prohibited.

Graduation Steps

A detailed list of Graduation Steps is provided for all SCPS graduating graduate students on the SCPS website (https://scps.depaul.edu/student-resources/graduate-resources/Pages/graduation-information.aspx).

Probation (Special Review) & Dismissal

Students whose performance jeopardizes their satisfactory academic progress as outlined in program materials are subject to being placed on “special review status” (academic probation) by the Graduate Student Program Review Committee (GSPRC). In such cases, the student’s Faculty Mentor develops a draft of the concerns and conditions for review. Upon GSPRC deliberation and decision, the GSPRC Chair prepares and distributes the special-review letter outlining issues/concerns as well as conditions/deadlines that need to be met for Special Review Status to be lifted. The Faculty Mentor monitors the student’s progress in meeting the conditions of the special review/probation.

Failure to comply with any of the terms of “special review” will result in academic dismissal from the applicable graduate program. A student who has been dismissed for academic/special-review reasons may, after a period of time not less than two quarters, reapply for readmission.

Readmission

After three consecutive quarters, excluding summer, of no registration activity (no credit hours or the minimal Continuing Activity Status), the University deems graduate students to be discontinued. Once discontinued, graduate students wishing to resume their graduate studies are required to reapply for admission to their respective graduate programs and, upon readmission, proceed in accordance with program specifications in place from that point forward, as well as any special directives provided at the point of readmission. These contingencies of reaplication / readmission also apply to graduate students who are not able to complete their graduate programs within the allotted six years from point of first enrollment.

Six-Year Time Limit

All graduate degree requirements must be satisfied within six years commencing with the term of initial enrollment. Students who fail to complete their graduate program/certificate requirements within the six-year limit must reapply and be readmitted. In such cases, readmission may require students to re-enroll and re-complete portions of their respective program/certificate in order to ensure currency of the knowledge-base/skill-base.

Transfer Coursework

Up to eight credit hours of graduate study may be “transferred” from other programs/universities in partial fulfillment of approved portions of SCPS’s graduate programs’ requirements. Such coursework must have received a grade of “C” or better, been from an regionally-accredited university, and been completed no longer than six years prior to SCPS graduate degree conferral.

Admission & Aid

The School of Continuing and Professional Studies offers both undergraduate and graduate degree programs and certificates at the graduate level. Admission requirements vary by program.

Undergraduate Admission

Candidates interested in admission to the School of Continuing and Professional Studies should direct all inquiries to the:

Office of Admission
DePaul University
1 E. Jackson Boulevard
Chicago, Illinois 60604
admission@depaul.edu, or
312-362-8300

Applicants must have a GPA of 2.0 from the last school attended. This requirement may be waived for a transcript more than three years old. See further information and online application here (https://scps.depaul.edu/admission-and-aid/undergraduate/Pages/default.aspx). Information on applying for financial aid is available here (http://www.depaul.edu/admission-and-aid/financial-aid/Pages/default.aspx).

Combined Degree Programs

Undergraduate students from any major at DePaul University are eligible to apply for admission in one of the two combined degree programs. Admission is conditional until the conferred bachelor's degree is posted on the DePaul transcript. The M.A. programs in Applied Professional Studies and Educating Adults offer an accelerated master's degree that begins in an undergraduate's senior year and may be completed in one subsequent year.

Further information about these combined degree programs can be found within specific program descriptions in this Catalog and on the College website (https://scps.depaul.edu/academics/Pages/combined-degree-programs.aspx). For more information on SCPS combined degree programs, contact scpsgrad@depaul.edu or 312-362-5744.

Graduate Admission

Candidates interested in admission to SCPS graduate programs should direct all inquiries to the college graduate office at 312-362-5744, or email: scpsgrad@depaul.edu. The admissions staff can assist you in explaining the program options and deciding on next steps. Students can apply for admission at any time of the year.

For more information about SCPS graduate programs and the admissions process (p. 1460) please go to the SCPS graduate program information site at this Link (https://scps.depaul.edu/academics/graduate-programs/Pages/default.aspx). Or, you are welcome to complete
an Application (https://grad.depaul.edu/apply/) for admission at this time.

Scholarships and Financial Aid

SCPS has scholarship opportunities for undergraduate and graduate students. To be considered for SCPS scholarships, please apply at DePaul Scholarship Connect (https://depaul.academicworks.com/). Please complete the Free Application for Federal Student Aid (https://fafsa.ed.gov/) before applying for scholarships.

See also more information about financial aid (http://www.depaul.edu/admission-and-aid/financial-aid/Pages/default.aspx).

School of Music

The DePaul University School of Music prepares students to excel in a variety of professional careers. Located in one of the most vibrant musical cities in the world, the School of Music provides opportunities for students to study with working professionals who are committed to teaching excellence. In a supportive and collaborative atmosphere, students learn from distinguished faculty who are prominent conductors, composers, performers, recording engineers, teachers, and arts managers.

Through a highly selective admissions process, the School of Music selects undergraduate and graduate students for its seven undergraduate, four graduate programs, and two certificate programs. At DePaul, the faculty priority is on teaching, with a strong commitment to providing quality education. The School of Music embraces the diversity of Chicago's urban society, and draws upon the resources of the city in all its programs. In keeping with DePaul's Vincentian heritage, the School of Music is committed to service of others. We seek to enrich the lives of the members of the DePaul community and Chicago area through musical performances and outreach activities.

Three basic tenets are central to the School of Music's mission: nurture, engage, and elevate. The School strives to nurture students in a healthy learning environment, engage students in meaningful learning experiences, and elevate students onto successful career paths.

Lecturer, Percussion  
Temple University  

Mark Zinger  
Professor Emeritus  
Odessa State Conservatory  

Mischa Zupko, DMA  
Lecturer, Musicianship  
Indiana University  

**Undergraduate Academics**  
The School of Music is home to Undergraduate, Graduate and Certificate programs.  

**Academic Policies**  

**Performance Awards**  
All students who receive performance awards must participate in ensembles as needed. Failure to do so may result in the forfeiture of performance award dollars. Undergraduate performance awards are offered for a maximum of 12 quarters, except for music education majors (13 quarters) or double majors (15 quarters). Graduate performance awards are provided for a maximum of 6 quarters. Questions about the performance awards may be directed to Mr. Ross Beacraft, Director of Admission.  

Curricular ensemble requirements may differ from performance award requirements. A student on a performance awards may be required to
participate in ensembles different than or beyond their major's curricular requirements.

Supplemental Transfer Credits
Incoming Undergraduate Students: Transfer Credits
At the point of admission, non-music courses are reviewed and posted by the Transfer Credit Center. All music courses will be reviewed by the Associate Dean of Academic Affairs, and acceptable courses will be applied towards the degree program. The transfer of musicianship studies courses, i.e., theory, aural training and group piano are contingent upon proficiency examination results.

Current Undergraduate Students: Supplemental Transfer Credits
Once a student has enrolled at DePaul University School of Music, only liberal studies or elective courses are transferable; courses in the specialization are not. Students should consult the transfer website in order to determine the transferability and applicability of courses.

If a current student wishes to transfer supplemental credits to DePaul from an institution not listed on the website, approval should be obtained from the Associate Dean of Academic Affairs prior to enrolling. After successfully completing the course(s) students must submit an official transcript to the Office of the University Registrar and notify the College Office. It is important to note that supplemental transfer credits cannot be taken during the last 60 quarter hours of a degree, in accordance with the DePaul University residency requirement.

Academic Probation
Students who fail to make meaningful progress towards their degree may be placed on academic probation. Furthermore, students who do not maintain a 2.0 grade point average may be placed on academic probation. Any student who is placed on probation will be notified in writing and should meet with the Associate Dean of Academic Affairs.

Academic Dismissal
Students who fail to meet the academic standards of the University or School of Music may be dismissed. Any student who is dismissed will be notified in writing and should meet with the Associate Dean of Academic Affairs. Conditions for dismissal and procedures for re-application are detailed in the University Student Handbook.

Withdrawal
Any student who wishes to permanently withdraw from the School of Music should first meet with their advisor and then the Associate Dean of Academic Affairs. If the student is receiving a performance award, they should also meet with the Director of Admissions. A student must submit a request for permanent withdrawal through Campus Connect. If a student withdraws in good standing, they may reapply within three quarters without re-auditioning or re-applying; if a student is away longer than three quarters, they must reapply and re-audition to the School of Music, and is subject to the requirements current at the time of their application.

Please refer to the School of Music Student Handbook for further information on policies and procedures.

Honors Program
Most students follow the Liberal Studies Program to meet their general education requirements. However, students accepted into the Honors Program fulfill general education requirements through an alternative set of courses. A student in the Honors Program pursuing a primary major in the School of Music follows the requirements below:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>LSP 110</td>
<td>DISCOVER CHICAGO (in Honors section)</td>
<td>4</td>
</tr>
<tr>
<td>HON 100</td>
<td>RHETORIC AND CRITICAL INQUIRY</td>
<td>4</td>
</tr>
<tr>
<td>HON 101</td>
<td>WORLD LITERATURE *</td>
<td>4</td>
</tr>
<tr>
<td>HON 102</td>
<td>HISTORY IN GLOBAL CONTEXTS *</td>
<td>4</td>
</tr>
<tr>
<td>HON 104</td>
<td>RELIGIOUS WORLDVIEWS AND ETHICAL PERSPECTIVES</td>
<td>4</td>
</tr>
<tr>
<td>HON 105</td>
<td>PHILOSOPHICAL INQUIRY</td>
<td>4</td>
</tr>
<tr>
<td>HON 180</td>
<td>DATA ANALYSIS AND STATISTICS (if indicated)</td>
<td>4</td>
</tr>
<tr>
<td>LSP 120</td>
<td>QUANTITATIVE REASONING (per placement test)</td>
<td></td>
</tr>
<tr>
<td>HON 201</td>
<td>STATES, MARKETS, AND SOCIETIES</td>
<td>4</td>
</tr>
<tr>
<td>HON 203</td>
<td>SEMINAR IN MULTICULTURALISM</td>
<td>4</td>

<tr>
<td>HON 302</td>
<td>JUNIOR SEMINAR IN SOCIAL JUSTICE</td>
<td>4</td>
</tr>
</tbody>
</table>

*Advanced placement credit will fulfill Honors Core requirements as listed:
  • AP Literature credit for ENG 101 (previously ENG 120) will fulfill HON 101
  • AP credit for HST 111 or HST 171 fulfills HON 102

Science Requirement
  • One course chosen from the university's Scientific Inquiry list.

Honors students in Music who do not have a calculus or statistics requirement for their major must complete HON 180, or LSP 120.

Junior Seminar
  • HON 302

The Honors Program is committed to developing students’ knowledge and cultural awareness so they may respect and learn from difference. Honors students meet the multicultural requirement by completing HON 302.

Students who choose to complete an Honors Senior Thesis must have their project approved at least one term prior to executing the project. To gain approval for a senior thesis, students must first complete an application, including a project proposal signed by a faculty advisor. In keeping with the interdisciplinary nature of the program, the thesis should attempt to move outside the boundaries normally associated with one particular discipline and should be supervised by two readers from different academic fields. While the final product must be a substantial piece of work building on the student’s accumulated knowledge and new research, specific requirements for each thesis will depend on the nature of the project. See the Director or Associate Director for an application.
Students may opt to also enroll in HON 300 (a two-credit elective) to receive dedicated guidance as they prepare the thesis project.

**Honors Approved Electives**

Most Music majors in the Honors Program are allotted one Honors Approved Elective, a 200-300 level course outside of Music, selected in consultation with an Honors advisor in order to fulfill an academic or professional goal. SRT, PAM, and Music Education majors do not have an Honors Approved Elective requirement.

**Major Field Adjustments**

In addition, participation in the University Honors Program may affect the requirements for a student’s major field. The following adjustments will occur:

**BA in Music majors:**

Honors students in the BA in Music program will have the following additions or changes to their Honors requirements:

- HON 180 (Honors BA Music students cannot replace this requirement with LSP 120, although they may be required to take the course as a prerequisite to HON 180.)
- Language Requirement: Honors BA in Music students complete three courses of intermediate or advanced language study. Students who meet the proficiency requirement by placing at the 200-level of a language may consult with an Honors advisor for an alternative 3-course option for fulfilling the language requirement.
- Science Requirement: In addition to the Scientific Inquiry course, Honors students pursuing a BA in Music will also complete HON 225 to fulfill the science requirement for the Honors Program.
- Fine Arts Elective: BA in Music students choose one applied, performance, or studio arts course outside of Music from the approved list.
- Honors Approved Electives: BA in Music students are allotted two 200-300 level electives outside of Music. These courses will be selected in consultation with an Honors advisor to fulfill academic or professional goals.
- BA in Music majors are required to fulfill the university’s Experiential Learning requirement.
- BA in Music majors are required to complete HON 205.

**Sound Recording Technology majors:**

Honors students in SRT have the following courses waived from the Honors curriculum because the requirements are fulfilled within the major:

- HON 180
- Scientific Inquiry
- Honors Approved Elective

**Performing Arts Management majors:**

PAM majors in Honors will have the following course substitutions:

- HON 180 will be replaced by MAT 130 or MAT 135
- Honors Approved Elective will be replaced by ECO 105

**Music Education majors:**

Music Education majors in Honors will have the following course substitutions:

- HON 105 will be replaced by LSE 380
- HON 207 or HON 208 will be replaced by SCU 207
- Honors Approved Elective will be replaced by PSC 120

**Grade Requirements**

A grade of C- or higher in HON 100 and HON 110 or HON 111 is required to remain in the Honors Program.

A grade of C- or higher is required to pass the following courses: HON 100, HON 350, HON 351 and HON 395.

**Graduate Academics**

The School of Music is home to Undergraduate, Graduate and Certificate programs.

**School of Music Graduate Student Handbook**

In addition to the DePaul University Graduate Student Handbook, the School of Music Student Handbook includes rules and regulations for its graduate programs. Additional academic information and regulations applicable to our graduate programs appear in the School of Music Student Handbook.

Upon admission to a graduate program, a student is to follow the catalog requirements in effect at the time of admission. A student who is readmitted or who changes their program or enrollment status is subject to the terms of the catalog in effect at the time of readmission or status change.

It is the responsibility of graduate students to know and meet both the general and particular regulations, procedures, policies, and deadlines set forth in this catalog and handbook.

**Overview of Graduate Program**

**Master of Music**

DePaul University School of Music offers a Master of Music degree in performance, composition, jazz studies, or music education. A minimum of 48 quarter hours are required for the degree, including courses in music history and theory, research, and the area of specialization. Graduate students are also required to pass a comprehensive examination and complete a final project, recital, or paper. Most students complete the program in two years or six quarters; however, music education students who enroll part-time while teaching may take classes throughout three summers and two intervening academic years.

**Certificate in Performance**

The Certificate in Performance is a highly selective, intensive course of study for students who have already earned a master’s degree in performance. A minimum of 36 quarter hours must be completed over two years. Certificate students enroll in applied lessons, ensembles, and other supporting music courses.

**Performance Awards**

All students who receive performance awards must participate in ensembles as needed. Failure to do so may result in the forfeiture of performance award dollars. Graduate performance awards are provided for a maximum of 6 quarters. Only full-time students (minimum of 6 credits in a quarter) are eligible for performance awards. Questions about the performance awards may be directed to Mr. Ross Beacraft, Director of Admission.

Curricular ensemble requirements may differ from performance award requirements. A student on a performance awards may be required to
participate in ensembles different than or beyond their major's curricular requirements.

Academic Probation
Students who fail to make meaningful progress towards their degree may be placed on academic probation. Furthermore, students who do not maintain a 2.5 grade point average may be placed on academic probation. Any student who is placed on probation will be notified in writing and should meet with the Associate Dean of Academic Affairs. Generally, students are not allowed to remain on probation for more than 2 quarters without additional academic sanctions being applied.

Academic Dismissal
Students who fail to make meaningful progress towards their degree may be placed on academic probation. Furthermore, students who do not maintain a 2.5 grade point average may be placed on academic probation. Any student who is placed on probation will be notified in writing and should meet with the Associate Dean of Academic Affairs. Generally, students are not allowed to remain on probation for more than 2 quarters without additional academic sanctions being applied.

Withdrawal and Re-Application
Any student who wishes to permanently withdraw from the School of Music should first meet with their advisor and then the Associate Dean of Academic Affairs. If the student is receiving a performance award, they should also meet with the Director of Admissions. A student must submit a request for permanent withdrawal through Campus Connect. If a student permanently withdraws in good standing, then they may reapply within three quarters without re-auditioning or re-applying; if a student is away longer than three quarters, then they must reapply and re-audition to the School of Music, and is subject to the requirements current at the time of their application.

Enrollment and Credits
No one is permitted to attend a class for which they have not been properly registered. Credit is accumulated on the basis of quarter hours. The unit of credit is one quarter hour granted for 45 minutes of classroom work a week. The normal class extends over a ten-week period (or an accelerated five-week period in the summer). All courses carry four quarter hours of credit (2 2/3 semester hours), unless otherwise noted.

Graduate music students enrolled for six or more quarter hours of credit are considered full-time. Those registered for less than 6 quarter hours of credit are considered less than full-time.

Graduate courses are numbered as 400 level courses. Graduate students must enroll for 400 level courses.

Transfer Credits
No transfer credits are accepted toward the Masters of Music or Certificate of Performance programs. All course work must be completed at DePaul University School of Music.

Graduation Requirements
Students must have successfully completed all of the general and specific degree requirements as listed in departmental or program sections of the catalog under which they were admitted. Completed degree requirements include passing the comprehensive examination and the submission of a final project, such as research paper, composition, or recital. Students need to achieve a minimum grade point average of 2.5 to graduate.

The University confers degrees at the end of the quarters, in November, March, June, or August; commencement ceremonies occur only in June. A student may participate in the June commencement ceremony if the student completes the requirements in the fall, winter or spring quarters preceding the ceremony. An application for degree completion must be filed online by the appropriate deadline.

At the conclusion of their last quarter, a review of the students' transcripts takes place; upon successful completion of the degree requirements, students' names are released to the Office of the University Registrar with the appropriate honors designations. An additional review takes place to ensure that all financial obligations have been met. Once complete, transcripts with the degree posted are available through the Office of the University Registrar, and diplomas are mailed to students. To receive a diploma, it is essential that students update their addresses in Campus Connection. The distribution of diplomas or release of final transcripts will be withheld if money is owed to the University.

Graduation with Distinction
Graduation with distinction is awarded for students who earn 3.75 GPA or above.

Career Services
Career Services at DePaul School of Music provides information and resources for School of Music students and alumni on various music and arts related job opportunities. Students are encouraged to visit the Career Services website (http://music.depaul.edu/resources/career-services/Pages/default.aspx).

Admission & Aid
Undergraduate Admission
Admission as a degree-seeking student in the School of Music is contingent upon a superior high school record, successful completion of a performance audition and submission of degree specific required materials for all majors except the non-performance track of Sound Recording Technology and the Bachelor of Science in Performing Arts Management. Admission to these two majors is contingent upon a superior high school record, successful completing of a theory exam and submission of degree specific required materials. Entering freshman and transfer applicants are required to audition or submit their materials before December 1 for admission the following September and may be required to submit a pre-audition screening recording. Transfer students are required to validate credits earned in musicianship studies (theory, music history and literature, aural skills, and keyboard) through placement examinations prior to initial registration.

All BM applicants and BS applicants pursuing the performance track are required to audition and are encouraged to schedule their dates and times after October 15 for auditions to be held in February. For audition requirements and a list of scheduled audition dates, please visit our website (http://music.depaul.edu/) or contact the:

Office of Music Admissions
musicadmissions@depaul.edu
DePaul University School of Music
Scholarship Opportunities

Undergraduate

Incoming freshmen majoring in music are automatically considered for The School of Music Award at the time of their entrance audition or material review. The number and amount of these music awards vary each year. Please contact the School of Music for further information.

Graduate

Incoming graduate performance and jazz studies majors are automatically considered for graduate music performance awards based on the results of their auditions. Graduate composition major awards will be based on the results of their interviews and the quality of their portfolios. Music education majors’ awards will be based on their applications and interviews.

Financial Aid

Students may apply for financial assistance based on family need through the Office of Financial Aid, DePaul University.

Graduate Admission

Procedures for Admission

Applicants for graduate admission should submit an application online at http://www.depaul.edu/ (https://www.depaul.edu/apply/Pages/default.aspx). The application deadline is December 1. Applicants should submit official college transcripts and three letters of recommendation to support their application. Applicants to the master’s degree program for performance and jazz studies must take an entrance audition, usually held in February of each year. Some applicants may be required to submit a pre-audition screening recording. Audition requirements are specified on the School of Music website (https://music.depaul.edu/admission/auditions/Pages/default.aspx). Applicants to the master’s degree program for composition must submit a composition portfolio of three pieces and must complete an interview with the composition faculty. When admission has been approved, the applicant will be notified of the diagnostic examination schedule and new student orientation, which usually take place before the start of the academic year.

Certificate in Performance

The School of Music also offers a program leading to the Certificate in Performance. The Certificate in Performance is a post-master’s program for classical or jazz musicians who intend to pursue careers as professional performers. Applicants should submit an application online at http://www.depaul.edu/ (https://www.depaul.edu/apply/Pages/default.aspx). The application deadline is December 1. Applicants should submit official college transcripts and three letters of recommendation to support their application. Applicants must take an entrance audition, usually held in February of each year. Some applicants may be required to submit a pre-audition screening recording. Audition requirements are specified on the School of Music website (https://music.depaul.edu/admission/auditions/Pages/default.aspx).

Non-Degree Seeking Students

DePaul School of Music does not normally admit applicants as non-degree seeking students. A student who has earned a bachelor’s degree or its equivalent from an accredited institution and does not intend to work for a master’s degree may, on the written recommendation of the Associate Dean of Academic Affairs, be admitted as a non-degree seeking student. Only the first 12 quarter hours earned as a non-degree-seeking student at DePaul may subsequently be applied toward a degree when the student is accepted as a degree-seeking student.

Student-At-Large

A student completing a graduate program at another accredited institution may, on the written recommendation of the Associate Dean of Academic Affairs, be admitted as a student-at-large.

International Students

All international students and any student who has been educated outside of the United States should complete the application requirements for their desired program (see above), submit their educational credentials to a third-party organization for evaluation, and demonstrate a proficiency in English. The application deadline is December 1. Please visit the School of Music website (https://music.depaul.edu/admission/application-process/Pages/international-students.aspx) for further information on applying to DePaul School of Music as an international graduate student.

To demonstrate English proficiency, international graduate music students must pass a TOEFL examination with a written score of 550 or an internet-based score of 80, with no section lower than 17. If a student has met all other music admissions criteria and taken a TOEFL examination, but not yet achieved a passing score, they may be considered for admission to the joint English Language Academy-School of Music program. (For further information on this program, students should contact the School of Music Admissions Office.) Those who request student visas also must show evidence of adequate financial support. A formal letter of admission and/or form I-20 will be issued only after all admission requirements have been fulfilled.

Diagnostic Examinations

Students who have been admitted to the master’s degree program for composition, performance, and music education must take a diagnostic examination in musicianship studies. These examinations, taken during new student orientation, will be used to guide course placement and identify areas for additional studies.

Music Teacher Licensure Program

Admission Requirements

Applicants to the DePaul music teacher licensure program must meet the following standards:

• Undergraduate degree in music
• Grade Point Average of 3.0 or higher
• Recommendations from two individuals familiar with the candidate’s potential as a teacher
• Materials required by Admission
• Performance audition

Program of Study

All teacher licensure students must meet the core requirements of the undergraduate students in music education. Teacher licensure students take courses in four basic areas: music, liberal studies, music education, and education. A transcript review will be done by the music education department, to determine any deficiencies in any of these areas of study. Substitutions will be determined by the Associate Dean for Academic Affairs where appropriate.
Music Courses
- Applied music study (2 years)
- Musicianship/music theory and history (2 years)
- Aural training (2 years)
- Keyboard skills (2 years)
- Conducting (1 course)
- Music Traditions (world music and jazz)
- Ensemble (4 years)

Liberal Studies
- Writing (8 credits)
- Math (4)
- Science, lab or quantitative (4)
- American government (4)
- American history (4)

The Theatre School

The Theatre School is the Midwest's oldest theatre conservatory. Founded as the Goodman School of Drama in 1925, the school carries on an almost 100 year history as a leading drama school in the United States. The conservatory format provides for an intensive, highly disciplined training program. The central core of the program is an extensive production-oriented approach. The School produces more than 150 public performances each season for an audience of more than 50,000 people, featuring students in every aspect of the production. Programs of study are offered in acting, scene design, costume design, lighting design, sound design, theatre technology, costume technology, wig and makeup design & technology, projection design, stage management, playwriting, dramaturgy/criticism, comedy arts, theatre management, and theatre arts. Graduate programs are offered in acting, directing and arts leadership. The objectives of the professional curricula are to prepare the student for creative participation in any form of theatre requiring a high level of technical competence, to provide the student with the aesthetic and cultural background requisite to an understanding of their art and of the world in which they work, and to develop the specific skills and disciplines necessary for competence in the student's area of specialization. Theatre School students are not eligible for the Theatre Studies Minor.

Each Theatre School course builds and expands upon its predecessor. When the program is complete, the student will have been exposed to the necessary artistic tools and shown their proper usage in order to realize their goals. In addition, liberal education requirements are incorporated into all of the school's programs so that the student may practice their craft with an awareness of history, literature, philosophy, and current and past cultural and social events.
Advanced students in the Theatre Studies and Design and Technical programs enhance their training experience by completing internships at local and national organizations. Internships have been conducted at the Brooklyn Academy of Music, Metropolitan Opera, Seattle Opera, Goodman Theatre, Guthrie Theatre, Arena Stage, Playwrights Horizons, the David Letterman Show, Chicago Shakespeare Theater, Disney Theatricals, Alabama Shakespeare Festival, Fox Theatricals, Oregon Shakespeare Festival, Berkshire Theatre Festival, The Second City, and Steppenwolf Theatre Company, among numerous others.

Faculty and Staff
In keeping with the school’s concept of the dual importance of theory and practice and of producing a superior quality of instruction, The Theatre School’s faculty and staff are highly qualified, both professionally and academically. The faculty is regularly supplemented by accomplished working professionals.

In addition, visiting artists and professionals appear in our guest speaker series, CHICAGO LIVE: THE ARTS. Among them have been playwright David Mamet; actresses Celeste Holm, Florence Henderson, and Julie Harris; actors Rip Torn, Charles Durning, Ray Liotta, Jonathan Pryce, Brian Dennehy, and Laurence Fishburne; Chicago’s nationally known Steppenwolf Ensemble including John Malkovich, Jeff Perry, and Gary Sinise; the late comedian Avery Schrieber; director JoAnne Akalaitis, Anne Bogart, Frank Galati, and Paul Sills; and alumni Gillian Anderson, Joe Mantegna, John C. Reilly, Kevin Anderson, David Datsmalchian, Michael Rooker, Sean Gunn, among scores of others.

Voice and Speech
Virginia Commonwealth University

Krissy Vanderwarker, MFA
Undergraduate Academics

The Theatre School is home to undergraduate majors and minors and graduate programs.

Students in undergraduate programs at The Theatre School must achieve a grade of C- or better in major requirements to receive course credit. Any grade lower than a C- will require the student to repeat the course.

Students in the graduate programs must achieve a grade of C or better in major requirements to receive course credit. Any grade lower than a C will require the student to repeat the course. If a graduate student is taking an undergraduate level course, to fulfill a major requirement, the student must receive a B- or better to receive course credit.

Admission and Retention

The Theatre School only admits students for entry into Autumn quarter each year. Enrollment in each area of concentration is limited by strict capacities. In all of The Theatre School’s programs, students are evaluated annually by the faculty and formally invited to continue into the subsequent year. The evaluation, a professional and confidential process, is based on four key elements: discipline, collaboration, professional potential, and progress in the program.

Honors Program

Most students follow the Liberal Studies Program (https://catalog.depaul.edu/undergraduate-core/liberal-studies-program/) to meet their general education requirements. However, students accepted into the Honors Program (https://catalog.depaul.edu/undergraduate-core/honors-program/program-requirements/) fulfill general education requirements through an alternative set of courses. A student in the Honors Program pursuing a primary major in The Theatre School follows the requirements below:

<table>
<thead>
<tr>
<th>Honors Core</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HON 110</td>
<td>HONORS DISCOVER CHICAGO</td>
<td>4</td>
</tr>
<tr>
<td>HON 100</td>
<td>RHETORIC AND CRITICAL INQUIRY</td>
<td>4</td>
</tr>
<tr>
<td>HON 101</td>
<td>WORLD LITERATURE</td>
<td>4</td>
</tr>
<tr>
<td>HON 102</td>
<td>HISTORY IN GLOBAL Contexts</td>
<td>4</td>
</tr>
<tr>
<td>HON 104</td>
<td>RELIGIOUS WORLDVIEWS AND ETHICAL PERSPECTIVES</td>
<td>4</td>
</tr>
<tr>
<td>HON 105</td>
<td>PHILOSOPHICAL INQUIRY</td>
<td>4</td>
</tr>
<tr>
<td>HON 180</td>
<td>DATA ANALYSIS AND STATISTICS</td>
<td>4</td>
</tr>
<tr>
<td>or LSP 120</td>
<td>QUANTITATIVE REASONING</td>
<td>4</td>
</tr>
<tr>
<td>HON 203</td>
<td>SEMINAR IN MULTICULTURALISM</td>
<td>4</td>
</tr>
<tr>
<td>HON 302</td>
<td>JUNIOR SEMINAR IN SOCIAL JUSTICE</td>
<td>4</td>
</tr>
</tbody>
</table>

*AP credit for HST 111 or HST 171 fulfills HON 102

Theatre majors whose math placement indicates a need for LSP 120 may fulfill the Honors math requirement with this course in place of HON 180.

Honors Senior Thesis Option

Students who choose to complete an Honors Senior Thesis must have their project approved at least one term prior to executing the project. To gain approval for a senior thesis, students must complete an application, including a project proposal signed by two faculty advisors. In keeping with the interdisciplinary nature of the program, the thesis should attempt to move outside the boundaries normally associated with one particular discipline and should be supervised by two readers from different academic fields. While the final product must be a substantial piece of work building on the student’s accumulated knowledge and new research, specific requirements for each thesis will depend on the nature of the project. See the Director or Associate Director for an application and thesis materials. Students may opt to enroll in HON 300 (a two-credit elective) to receive dedicated guidance as they prepare the thesis project.
Grade Requirements
A grade of C- or higher in HON 100 and HON 110 or HON 111 is required to remain in the Honors Program.

A grade of C- or higher is required to pass the following courses: HON 100, HON 350, HON 351, and HON 395.

Graduate Academics
The Theatre School is home to undergraduate majors and minors and graduate programs.

Students in undergraduate programs at The Theatre School must achieve a grade of C- or better in major requirements to receive course credit. Any grade lower than a C- will require the student to repeat the course.

Students in the graduate programs must achieve a grade of C or better in major requirements to receive course credit. Any grade lower than a C will require the student to repeat the course. If a graduate student is taking an undergraduate level course, to fulfill a major requirement, the student must receive a B- or better to receive course credit.

The Theatre School Graduate Student Handbook
In addition to the DePaul University Graduate Student Handbook, The Theatre School Graduate Student Handbook includes requirements, rules and regulations for its graduate programs.

Upon admission to a graduate program, a student is to follow the catalog requirements in effect at the time of entrance. A student who is readmitted or who changes his or her program or enrollment status is subject to the terms of the catalog in effect at the time of readmission or status change.

As a graduate student you assume the responsibility to know and meet both the general and particular regulations, procedures, policies, and deadlines set forth in this catalog and handbook. This catalog does not constitute a contract between the student and the University. Every effort has been made to provide accurate and firm information. The University reserves the right to revise the content of its catalogs and schedules, and to change policies, programs, requirements, rules, regulations, procedures, calendars and schedule of tuition and fees; to establish and modify admission and registration criteria; to cancel or change courses or programs and their content and prerequisites; to limit and restrict enrollment; to cancel, divide or change time or location or staffing of classes; or to make any other necessary changes.

Registration and Enrollment
No one is permitted to attend a class for which he or she has not been properly registered. Credit is accumulated on the basis of quarter hours. The normal class extends over a ten-week period.

Students enrolled for eight or more quarter hours of credit are considered full-time. Those enrolled in four to 7 hours of credit are considered half-time. Those registered for less than 4 quarter hours of credit are considered less than half-time. Normally, students in Theatre School programs are required to be enrolled as full-time students.

Probation
Academic Probation
A student is subject to probation as soon as his/her graduate GPA falls below 2.500. The student remains on probation until the end of the subsequent quarter, at which time another evaluation is made. If, at that time, the student has failed to raise his/her GPA to the required level of 2.500 the student may be dismissed for poor scholarship, and prohibited from registering for additional course work. If the student has raised his/her GPA to the required level of 2.500, the student will be removed from academic probation.

Disciplinary Probation
The Theatre School’s Disciplinary Probation Policy is detailed in The Theatre School Student Handbook on the school’s website.

Professional Probation
The Theatre School’s Professional Probation Policy is detailed in The Theatre School Student Handbook on the school’s website.

Invitation to Return & Evaluation Policies
A grade of C or better is required in all required courses.

A student must earn a grade of B- or higher to receive graduate credit for any upper level undergraduate course (300 or above) that has been accepted for graduate credit.

Please consult The Theatre School Student Handbook on the school’s website for details on the following:

• MFA Acting Program Capacities and Invitations to Return
• MFA I Grading Procedures for the Acting Program
• MFA Directing Program Evaluation and Continuance Policies
• MFA Arts Leadership Evaluation and Continuance Policies

Readmission
A student who was previously enrolled in a graduate program in The Theatre School but has not been in attendance since the end of a leave of absence, but not more than four calendar years, must file a Readmission Application. Normally, this application requires that the student take part in the annual interview and audition process and meet the annual application deadlines. Detailed information is available on the school's website. (If more than four years have elapsed since the student been in attendance, a new application is required.)

Official copies of transcripts recording scholastic work taken while not enrolled at DePaul University must be submitted. As a policy, students are held to the degree requirements that are in force at the time of readmission.

Transfer Credit
Normally graduate programs at The Theatre School do not accept credit transferred from another institution. Exceptions can only be granted by the specific departmental chair or program director.

Undergraduate Courses
Courses numbered 300 through 399 are advanced undergraduate courses. If listed in this Catalog, they may be accepted for graduate credit within the limitations stipulated by the specific departmental chair or program director.

Graduation Requirements
Students must have successfully completed all of the general and specific degree requirements as listed in departmental or program sections of the catalog under which the student was admitted.

Completed degree requirements can include the submitting of the dissertation, thesis or research paper; examination scores, and, if necessary, grade changes. Students need to achieve a minimum grade point average of 2.500 to graduate.
Graduation with Distinction
Distinction is conferred upon a student who has maintained a 3.75 cumulative grade point average in the degree program, and passes with distinction the final oral or written examination or the master's thesis or project where applicable.

Additional Policies
The Theatre School Student Handbook located on the Theatre School website details additional policies, including (but not limited to) policies related to the productions, production assignments, casting, and rehearsal procedures.

Leaves of Absence
Students who find it necessary to interrupt their attendance at The Theatre School may apply for a leave of absence. For details about this policy, please consult The Theatre School Student Handbook on the school's website.

Students applying for a leave should also complete the DePaul University Leave of Absence application on Campus Connect.

Admission & Aid
Admission
Candidates interested in admission to any of the undergraduate or graduate programs of The Theatre School should contact The Theatre School Admissions Office at (773) 325-7999 or (800) 4DEPAUL (Extension 7999). The office will provide each candidate with detailed instructions for the application and audition/interview process.

Theatre applicants are responsible for scheduling their own audition (for acting) or interview (for all other majors), which can be done on The Theatre School's website. If, for any reason, an applicant is unable to reserve a slot online, he or she should contact The Theatre School Admissions Office directly.

The Theatre School only admits students for entry into Autumn quarter each year. Enrollment in each area of concentration is limited by strict capacities. In all of The Theatre School's programs, students are evaluated annually by the faculty and formally invited to continue into the subsequent year. The evaluation, a professional and confidential process, is based on four key elements: discipline, collaboration, professional potential, and progress in the program. For more information about the School's policies about admission, retention, evaluations of students, invitations to return, and related matters, please see The Theatre School website.
STUDENT HANDBOOKS

- Undergraduate Student Handbook (p. 1480)
- Graduate Student Handbook (p. 1531)
- Law Student Handbook (p. 1566)
- Code of Student Responsibility (p. 1604)

Undergraduate Student Handbook

- University Information (p. 1480)
- Undergraduate Academic Policies (p. 1501)
- University Resources (p. 1524)

University Information

The Handbook provides University policies that support both academic and behavior expectations.

The University reserves the right to change programs, courses and requirements; and to modify, amend or revoke any rules, regulations, policies, procedures or financial schedules at any time during a student’s enrollment period provided.

In addition to the policies and information included in this Handbook, your college or school may have specific guidelines, policies, and procedures for which you are responsible. Please consult your college section.

The Handbook also includes sections on General Information and University Resources.

About DePaul

DePaul University was founded in 1898, by the Congregation of the Mission (or Vincentian) society of apostolic life, which follows the inspiration and legacy of 17th century French priest St. Vincent de Paul. As an innovative Catholic, Vincentian university anchored in the global city of Chicago, DePaul supports the integral human development of its students. The university does so through its commitment to outstanding teaching, academic excellence, real world experience, community engagement, and systemic change. DePaul prepares graduates to be successful in their chosen fields and agents of transformation throughout their lives.

Guided by an ethic of Vincentian personalism and professionalism, DePaul compassionately upholds the dignity of all members of its diverse, multi-faith, and inclusive community. Through education and research, the university addresses the great questions of our day, promoting peaceful, just, and equitable solutions to social and environmental challenges. Since its founding in 1898, DePaul University has remained dedicated to making education accessible to all, with special attention to including underserved and underrepresented communities.

This mission statement embodies the principal purposes of DePaul University. As such it is the nexus between past, present and future; the criterion against which plans are formulated and major decisions are made; the bond which unites faculty, students, staff, alumni, and trustees as an academic community. Our mission is more fully expressed in both the Mission Statement and its Distinguishing Characteristics, Core values, and Commitments (https://offices.depaul.edu/mission-ministry/about/Documents/DePaul%20Mission%20Statement%20Supporting%20Document%2003_17_2021.pdf), which all are encouraged to read.

Vincentian Identity

The university derives its title and fundamental mission from St. Vincent de Paul, the founder of the Congregation of the Mission, a Roman Catholic society of apostolic life whose members, Vincentians, established and continue to sponsor DePaul. Motivated by the examples of Vincent de Paul and Louise de Marillac, who instilled a love of God by leading their contemporaries to serve urgent human needs, the DePaul community believes our mission as an educational institution is to foster integral human development, social mobility, and social transformation.

Guided by an ethic of Vincentian personalism and professionalism, DePaul compassionately upholds the dignity of all members of its diverse, multi-faith, and inclusive community. Through education and research, the university addresses the great questions of our day, promoting peaceful, just, and equitable solutions to social and environmental challenges. Since its founding in 1898, DePaul University has remained dedicated to making education accessible to all, with special attention to including underserved and underrepresented communities.

Academic Calendar

Academic calendars are available on the Academic Affairs website (https://academics.depaul.edu/calendar/Pages/default.aspx).

Admission

Admission decisions at DePaul University are based on a strong academic record, as well as personal and occupational achievements, ambition, energy, resourcefulness and leadership. The University recognizes that each individual brings unique abilities to the DePaul community and performs a holistic review of a student’s application. DePaul University does not discriminate on the basis of race, color, national origin, religion, gender, sexual orientation, age or handicap in admissions, employment, or the provision of services.

Types of admission include:
Freshman Student: You are under age 24 and have completed at least six semesters of high school, and have not enrolled in another college or university.

Transfer Student: You are under age 24, have graduated high school or passed the General Education Development (GED) exam or the equivalent for your state and have enrolled in college courses at another institution. For policies regulating transfer credit, please see Transfer Credit Regulations in the Undergraduate Handbook.

Graduate Student: You have an undergraduate degree and are applying for a graduate degree program, or are taking graduate courses (non-degree or as a student-at-large).

Adult Undergraduate Student: You are age 24 or over and have graduated high school or passed the General Education Development (GED) exam and are interested in an undergraduate degree.

International Student: You have been educated outside of the United States and will submit international educational credentials as part of your application, and/or you are or will be in F-1 or J-1 visa status.

Non-Degree Student: You are a college graduate interested in taking undergraduate courses for credit and not pursuing a degree at DePaul (i.e.: for graduate school preparation, career advancement, or personal enrichment).

Please note: Non-Degree students must complete a new application form for each quarter they wish to take classes. Undergraduate students who later wish to seek admission as degree-seeking students, must submit a regular application for admission. Students who do so, may apply a maximum of 16 credits toward an undergraduate degree.

Visiting Student: You are a high school student or a student in good standing at another college or university who plans to complete classes at DePaul to transfer back to your home institution and not pursue an undergraduate degree at DePaul.

Readmitted Student: You are a former DePaul student previously enrolled in an undergraduate degree program who has been absent from the university for three or more consecutive quarters (excluding summer sessions) or has previously withdrawn from the university.

Continuing Education Student: You are interested in taking courses without receiving college credit or in participating in one of our continuing education or professional review courses.

More information is available on the Admission website (http://www.depaul.edu/admission-and-aid/Pages/default.aspx).

Schools and Colleges

Driehaus College of Business
Established in 1912, the Driehaus College of Business is the nation’s tenth oldest business school and serves individuals and organizations seeking access to the highest quality business education as a means for achieving intellectual and professional goals. The College also encompasses our highly respected graduate programs in business.

The Kellstadt Graduate School of Business prepares students to be leaders by frequently updating its programs to keep pace with the dynamics of global business.

College of Communication
The College of Communication provides students with a combination of timeless principles and up-to-the-minute tools, whether they're pursuing journalism; public relations and advertising; media studies; radio, television and film; relational, group and organizational communication; or intercultural communication.

College of Computing and Digital Media
The College of Computing and Digital Media (CDM) offers students a collaborative education where technology, artistry and business intersect. CDM is organized into three schools:

- The School of Cinematic Arts is home to our animation and cinema programs, which merge creativity, technology, imagination, technique, vision and execution.
- The School of Computing houses programs across the technology spectrum, and combines theoretical fundamentals with hands-on practice.
- The School of Design – CDM’s newest school – is home to programs in graphic design, interactive and social media, game development, human computer interaction, and digital communication and media arts.

College of Education
The College of Education offers degree programs in bilingual/bicultural education; counseling; curriculum studies; early childhood education; educational leadership; elementary education; middle school mathematics education; reading specialist education; secondary education; social and cultural foundations of education; special education; sport, fitness and recreation leadership; and world language education.

College of Law
The DePaul College of Law was one of the first law schools in the country to introduce educational innovations like the study of negotiation techniques, courses in international criminal law and pre-trial courses in skills techniques. Today, our health law and intellectual property programs are among the best in the country, according to U.S. News & World Report.

College of Liberal Arts and Social Sciences
The oldest college at DePaul, the College of Liberal Arts and Social Sciences (LAS) offers more than 28 undergraduate and 30 graduate degree programs. Courses meet during the day, evenings and on weekends, primarily on the Lincoln Park Campus.

College of Science and Health
The College of Science and Health (CSH) was established in 2011 to help its students meet the demands of the growing fields of science and health. CSH offers multiple undergraduate majors and graduate programs in the areas of biology, chemistry, environmental science, mathematics, nursing, physics and psychology.

School of Music
DePaul’s School of Music was founded in 1912 and is dedicated to excellence in both music teaching and performance. When they’re not working with DePaul students, many of the school’s faculty serve as
members of the Chicago Symphony Orchestra, Lyric Opera of Chicago, or the Grant Park Symphony Orchestra, or as some of the city's most prominent freelance, chamber and jazz musicians.

**School of Continuing and Professional Studies**

The School of Continuing and Professional Studies builds upon DePaul University's recognized success in educating adult learners interested in a range of innovative and timely degree programs and non-degree continuing education opportunities. Its undergraduate and graduate degrees, offered on-campus, online, and in corporate settings, are particularly designed to accommodate adult learners who must balance claims of work, family, and/or community responsibilities with their educational pursuits.

**The Theatre School**

Founded in 1925 as the Goodman School of Drama, The Theatre School at DePaul is the Midwest's oldest theatre training conservatory. Known for its highly structured program and set in a world-renowned theater city, the school has earned a reputation as a standard of excellence in American professional theatre training.

**DePaul Campuses/Locations**

Students of any school or college may register for classes on any campus, arranging hours and courses in a manner designed to afford maximum educational advantage.

**Campuses**

- **The Lincoln Park Campus** is situated about three miles north of the Chicago Loop in the vicinity of Webster (2200 N), Halsted (800 W) and Racine (1200 W). The offices for the College of Liberal Arts and Social Sciences, the College of Science and Health, the School of Music, the College of Education, and The Theatre School are located on this campus.

- **The Loop Campus** is located at 1 East Jackson Boulevard, between State, Jackson and Wabash. The offices for the Driehaus College of Business, the College of Computing and Digital Media, the College of Communication, the College of Law and the School of Continuing and Professional Studies are located on this campus.

**Suburban Sites**

- **Rosalind Franklin University of Medicine and Science** is located 3333 Green Bay Road in North Chicago, Illinois. DePaul students have the option of taking the Master's Entry in Nursing Practice (MENP) on the RFU campus.

**Overseas Locations**

- **Tangaza College** located in Nairobi, Kenya.
- **Bahrain Institute of Banking and Finance** located in Manama, Bahrain.

**American University in Paris**

DePaul and The American University in Paris (AUP) are partnering to offer an innovative two-year program leading to an MBA from DePaul’s Kellstadt Graduate School of Business and a M.A. in Cross-cultural and Sustainable Business from AUP.

**Catholic Theological Union**

With permission, upper-level students in Catholic Studies and Religious Studies may elect to complete courses at the Catholic Theological Union.

**Illinois Institute of Technology**

Through a five-year joint program between DePaul and the Illinois Institute of Technology, students may earn a degree in physics from DePaul and degree in engineering from IIT, with a concentration in Mechanical, Aerospace, Electrical, or Computer Engineering.

**IIT/Chicago Kent College of Law**

Students in DePaul’s College of Law may pursue courses in specialized areas of legal study at IIT/Chicago Kent College of Law.

**Loyola University Chicago School of Law**

Students in DePaul’s College of Law may pursue courses in specialized areas of legal study at Loyola University Chicago School of Law.

**NorthShore University Health System**

DePaul offers a Doctor of Nursing Practice degree in Nurse Anesthesiology in conjunction with NorthShore University Health System’s School of Nurse Anesthesia in Evanston.

**Northwestern Memorial Hospital Clinical Schools – School of Nuclear Medicine Technology & Radiation Therapy**

Through a partnership with Northwestern Memorial Hospital Clinical Schools, select DePaul students may pursue bachelor of science degrees in Allied Health Technologies in either Nuclear Medicine Technology or Radiation Therapy.

**Rosalind Franklin University of Science and Medicine**

DePaul has partnered with the Rosalind Franklin University of Science and Medicine in North Chicago to provide numerous degree program offerings, including:

- RN to MS in Nursing
- MA, Health Communication
- Master’s Entry to Nursing Practice (MENP)
- 3+4 PharmD

**Rush University**

In conjunction with the Department of Health Systems Management in the College of Health Sciences at Rush University Medical Center, the Kellstadt Graduate School of Business of the College of Commerce offers a joint MBA/MS (Master of Science in Health Systems Management) degree program.
Truman College, City Colleges of Chicago

Through an agreement with the City Colleges of Chicago, students may complete their first years in college at Truman College, then seamlessly transfer their credits towards a DePaul undergraduate degree through the School for New Learning.

Wright College, City Colleges of Chicago

Through an agreement with the City Colleges of Chicago, students may complete their first years in college at Wright College, then seamlessly transfer their credits towards a DePaul undergraduate degree through the School for New Learning.

Study Abroad Opportunities

DePaul partners with a substantial number of institutions around the world to provide a wide variety of study abroad options for students. Information about those agreements can be found on the International Programs website (http://international.depaul.edu/).

Accreditation

DePaul University is a private, not-for-profit, Catholic institution accredited by:

- The Higher Learning Commission
  230 South LaSalle Street, Suite 7-500
  Chicago, IL 60604-1413
  Phone: (800) 621-7440 / (312) 263-0456
  Fax: (312) 263-7462
  Email: complaints@hlcommission.org
  Web: https://www.hlcommission.org/Student-Resources/complaints.html

Students may provide feedback or register complaints with the Higher Learning Commission at the contact information listed above.

important for students to know how to address concerns and issues that may be contrary to this commitment.

Complaints or concerns that a policy or procedure has been incorrectly or unfairly applied can often be resolved through an initial conversation with the staff, faculty member or department where the issue originated and his/her supervisor if necessary.

DePaul has established a number of policies and procedures for responding to particular types of concerns. Contact information for these policies and procedures can be found in the bottom section of this page:

- Concerns about grades are addressed through the University's Grade Challenge policy. Detailed information is available in the Academic Handbook section of the University Catalog.
- Concerns about academic integrity are addressed through the Academic Integrity policy and process. Detailed information is available on the Academic Integrity website.
- Concerns related to student conduct are addressed through the Code of Student Responsibility, and the Student Conduct Process. Detailed information is available in the Academic Handbook section of the University Catalog.
- Concerns about discrimination or harassment on the basis of a variety of protected characteristics are addressed by the Office of Institutional Diversity and Equity through the Anti-Discrimination and Anti-Harassment Policy and Procedures
- Concerns based on sexual violence, sexual harassment, or other sex discrimination (Title IX) are addressed through the DePaul's Title IX Coordinator located in the Office of Institutional Diversity. Detailed information is available on the Office of Public Safety website (https://offices.depaul.edu/public-safety/Pages/default.aspx) or in the Code of Student Responsibility (p. 1604) section of the University Catalog.
- Concerns about the confidentiality of education records (FERPA-Family Educational Rights and Privacy Act), are addressed through the Office of the University Registrar.

Concerns about academic issues relating to faculty or staff can often be resolved through an initial conversation with the faculty, staff member or student employee involved in the situation. Therefore, students with academic complaints or concerns should address the issue following the steps indicated below:

1. The issue should first be discussed with the faculty or staff member.
2. If this does not resolve the issue the student should then discuss the issue with the department chairperson or program director for faculty issues or the individual's supervisor for staff. If you are unsure of the appropriate college contact, please see below for a directory of College and College Dean's Offices.
3. If the issue is still not resolved, the student should then discuss the matter with the Office of the Dean of the faculty member's college for faculty issues or the department supervisor for staff issues.
4. If the issue is still not resolved, the student may discuss the issue with the Office of the Provost.

The Dean of Students Office is a central location to which students can turn with problems they have been unable to resolve. The Dean of Students Office hears student concerns and helps students understand their options for resolving the concerns and/or locating appropriate

Complaints and Grievances

DePaul University emphasizes the development of a full range of human capabilities and appreciation of higher education as a means to engage cultural, social, religious, and ethical values in service to others.

In support of this mission, DePaul University is committed to treating every member of its community with dignity, justice and respect fostering a positive learning environment and providing quality service. It is
services: http://offices.depaul.edu/student-affairs/about/departments/Pages/dos.aspx.

In addition, the University Ombudsperson is available to provide consultation about conflict resolution, to clarify policies and procedures, and to help find the right person or department to respond to questions. Students may also always choose to report concerns or misconduct through the University’s confidential reporting mechanisms: 877.236.8390 or https://compliance.depaul.edu/hotline/index.asp (https://compliance.depaul.edu/hotline/)

The U.S. Department of Education requires institutions offering online education to provide contact information for students to file complaints with its accreditor and state agencies. Contact information for DePaul’s regional accreditor (the Higher Learning Commission), programmatic/specialized accreditor and state agencies is available in the Handbook section of the University Catalog.

Honor Societies
Since 1954, DePaul University has recognized academic honorary societies in order to highlight students’ superior academic achievement and leadership. Students are selected to join honorary societies based on their superior academic record within their specific major or across all colleges. DePaul University strives to recognize students’ outstanding academic performance and is proud of the rich tradition that these valuable organizations have provided to the university community. Below is a list of each honorary society and its academic discipline.

- Beta Alpha Psi – Accounting, Finance and MIS
- Kappa Delta Pi - Education
- Psi Chi - Psychology
- Sigma Pi Sigma - Physics
- Phi Alpha Theta - History
- Omicron Delta Epsilon - Economics
- Sigma Theta Tau - Nursing
- Pi Sigma Alpha – Political Science
- Sigma Tau Delta - English
- Lambda Pi Eta - Communication
- Sigma Delta Pi - Spanish
- Gamma Kappa Alpha - Italian
- Phi Beta Delta - International Education
- Theta Alpha Kappa - Religious Studies
- National Society of Collegiate Scholars - All
- Upsilon Pi Epsilon - Computer Science
- Iota Iota Iota - Women’s and Gender Studies
- Lambda Alpha - Anthropology
- Gamma Theta Upsilon - Geography
- Order of Omega - Fraternity and Sorority Community
- Pi Alpha Alpha - Public Administration
- Nu Lambda Mu - Nonprofit Management and Leadership
- Pi Epsilon Pi - Writing Studies
- Phi Sigma Tau - Philosophy
- Nu Rho Psi - Neuroscience
- Delta Alpha Phi – Students with Disabilities

University Learning Goals and Outcomes

Preamble
In common with all universities, DePaul strives to ensure that its students come away from their experience with knowledge and skills that will enable them to fulfill their personal and professional aspirations, interact productively with others in all their diverse perspectives, contribute meaningfully to society, and continue learning throughout their lives. Moreover, DePaul shares with other universities the goal that students will use their knowledge and skills to conduct themselves ethically and humanely, with an appreciation for the past and an eye towards shaping an even better future.

At the same time, DePaul’s mission – Catholic, Vincentian, urban – calls on us to consider these broad goals for learning in a manner that honors the university’s distinctive qualities. DePaul’s Catholic heritage encourages us to study religious traditions, and to critically examine the moral underpinnings of all academic disciplines. The example of St. Vincent, who worked with people from all strata of society in order to address urgent human needs, infuses our understanding of both education and service with a concern for social justice, for the university mission statement reminds us that “the DePaul community is above all characterized by ennobling the God-given dignity of each person.” And as an urban university, DePaul’s deep involvement in multiple communities, within Chicago and beyond, invites us to both draw on the city’s rich opportunities for learning and serve as partners in helping them move forward. In sum, the mission statement tells us, “DePaul University emphasizes the development of a full range of human capabilities and appreciation of higher education as a means to engage cultural, social, religious, and ethical values in service to others.”

With the university’s mission as their foundation, these Learning Goals and Outcomes prepare students to engage in the world of the twenty-first century, carrying with them the heritage and values that distinguish DePaul.
Goal 1. Mastery of Content
This goal embraces the breadth and depth of ideas, theories, approaches, and information which DePaul students encounter through and beyond their studies.

Outcomes: DePaul graduates will demonstrate and be able to apply:
- general knowledge of cultures, religions, science, the arts, history, and computational reasoning.
- specialized knowledge and skills from within a specific discipline or field.

Goal 2. Intellectual and Creative Skills
In order to fully engage with knowledge, whether for a specific purpose or for its own sake, DePaul students are encouraged to develop the ability to think critically and imaginatively, formulate their own understanding, and effectively communicate their ideas. This goal articulates specific skills that comprise these broader abilities.

Outcomes: DePaul graduates will be able to:
- systematically access, analyze and evaluate information and ideas from multiple sources in order to identify underlying assumptions, and formulate conclusions.
- solve quantitative problems.
- create and support arguments using a variety of approaches.
- use existing knowledge to generate and synthesize ideas in original ways.
- communicate clearly in speech and writing.

Goal 3. Personal and Social Responsibility
This goal honors the notion that knowledge reflects and contributes to the values of individuals and communities. DePaul students, in particular, are challenged to consider their own values in light of the university’s mission.

Outcomes: DePaul graduates will be able to:
- articulate their own beliefs and convictions, as well as others’ beliefs, about what it means to be human and to create a just society.
- articulate what is entailed in becoming a self-directed ethical decision-maker and living a life of personal integrity.
- evaluate ethical issues from multiple perspectives and employ those considerations to chart coherent and justifiable courses of action.
- benefit their communities through socially responsible engagement and leadership.

Goal 4. Intercultural and Global Understanding
This goal speaks to the likelihood that, in our diverse and increasingly interdependent world, the future depends on individuals being able to learn from each other and make the best use of finite resources.

Outcomes: DePaul graduates will demonstrate:
- respect for and learning from the perspectives of others different from themselves.
- knowledge of global interconnectedness and interdependencies.
- knowledge to become a steward of global resources for a sustainable future.

Goal 5. Integration of Learning
Given the wide range of opportunities for learning at DePaul, it is important for students to develop the ability to consider relationships among individual experiences of learning so as to make meaning of their education in all its variety.

Outcomes: DePaul graduates will be able to:
- relate their learning – curricular and co-curricular – to multiple fields and realms of experience.
- make connections among ideas and experiences in order to synthesize and transfer learning to daily practice.
- design, develop, and execute a significant intellectual project.

Goal 6. Preparation for Career and Beyond
This final learning goal builds on all the rest and calls on students to be ready to apply their knowledge and skills to the changing world that awaits them.

Outcomes: DePaul graduates will be able to effectively:
- set goals for future work that are the result of realistic self-appraisal and reflection.
- articulate their skills and knowledge and represent themselves to external audiences.
- work toward goals independently and in collaboration with others.
- employ technology to create, communicate, and synthesize ideas.
- set priorities and allocate resources.
- apply strategies for a practice of life-long learning.

Additional Notes
These University Learning Goals and Outcomes were approved by Faculty Council and the Interim Provost in October 2012.

A prior version of this document was drafted in Spring 2011 by a group of faculty, staff and students in the early stages of the strategic planning process that led to Vision 2018. In Autumn 2011, at Faculty Council’s direction, the draft went to the university’s Committee on Learning and Teaching, which sought input from stakeholders across the university and incorporated their valuable contributions into the revised document here. As a result of this process, the University Learning Goals and Outcomes represent a true community effort.

These university-wide goals do not exhaust the learning goals pursued at DePaul. Notably, they do not explicitly refer to the expectations specific to the various schools and departments. Nor will they be pursued in the same manner nor to the same degree in every unit. Nevertheless, the education of all recipients of DePaul undergraduate degrees should be characterized by these goals along with the goals specific to the student’s unit. Since graduate and professional schools encounter students at different stages of their education and at different levels of maturity, their approaches to these goals and their methods of measuring them will have to be adjusted accordingly.
Liberal Studies Program Overall Learning Goals and Outcomes

Preamble

DePaul’s Catholic, Vincentian, and urban character distinguishes its students’ experiences. In turn, its Liberal Studies Program connects students – in progressively more integrated ways – to the university’s mission and to values associated with social justice, diversity, and the desire to work toward socially and environmentally sustainable communities.

To prepare its students to understand, engage, and effect change as global citizens, these revised Liberal Studies Program learning goals and outcomes provide students with an integrative and intellectually challenging education. The rhetorical, creative, intellectual, analytical, quantitative, and interdisciplinary knowledge gained from the program’s connected coursework facilitates success as students and as lifelong learners. The Liberal Studies Program supports the student’s academic major with learning across disciplines – both in and beyond the classroom.

Faculty from virtually every department, interdisciplinary program, and college teach over 1,400 different courses from which students can choose to fulfill their Liberal Studies Program requirements. This wide spectrum of participation on the part of students and faculty alike contributes to a strong sense of intellectual community at DePaul University as well as a shared commitment to its mission and values.

Goal 1. Mastery of Content

This goal embraces the breadth and depth of ideas, theories, approaches, and information which DePaul students encounter through and beyond their studies.

Outcomes: DePaul students will demonstrate and be able to apply:

- general knowledge of cultures, religions, science, the arts, history, and computational reasoning.
- specialized knowledge and skills from within a specific discipline or field.

Goal 2. Intellectual and Creative Skills

In order to fully engage with knowledge, whether for a specific purpose or for its own sake, DePaul students are encouraged to develop the ability to think critically and imaginatively, formulate their own understanding, and effectively communicate their ideas. This goal articulates specific skills that comprise these broader abilities.

Outcomes: DePaul students will be able to:

- systematically access, analyze, and evaluate information and ideas from multiple sources in order to identify underlying assumptions and formulate conclusions.
- solve quantitative problems.
- create and support arguments using a variety of approaches.
- use existing knowledge to generate and synthesize ideas in original ways.
- communicate clearly in speech and writing.

Goal 3. Personal and Social Responsibility

This goal honors the notion that knowledge reflects and contributes to the values of individuals and communities. DePaul students, in particular, are challenged to consider their own values in light of the university’s mission.

Outcomes: DePaul students will be able to:

- articulate their own and others’ beliefs about what it means to be human and to create a just society.
- articulate what is entailed in becoming a self-directed ethical decision-maker and living a life of personal integrity.
- evaluate ethical issues from multiple perspectives and employ those considerations to chart coherent and justifiable courses of action.
- benefit their communities through socially responsible engagement and leadership.

Goal 4. Intercultural and Global Understanding

This goal speaks to the likelihood that, in our diverse and increasingly interdependent world, the future depends on individuals being able to learn from each other and make the best use of finite resources.

Outcomes: DePaul students will demonstrate:

- respect for and learning from the perspectives of others different from themselves.
- knowledge of global interconnectedness and interdependencies.
- knowledge to become a steward of global resources for a sustainable future.

Goal 5. Integration of Learning

Given the wide range of opportunities for learning at DePaul, it is important for students to develop the ability to consider relationships among individual experiences of learning so as to make meaning of their education in all its variety.

Outcomes: DePaul students will be able to:

- relate their learning – curricular and co-curricular – to multiple fields and realms of experience.
- make connections among ideas and experiences in order to synthesize and transfer learning to daily practice.
- design, develop, and execute a significant intellectual project.

Goal 6. Preparation for Career and Beyond

This final learning goal builds on all the rest and calls on students to be ready to apply their knowledge and skills to the changing world that awaits them.

Outcomes: DePaul students will be able to:

- set goals for future work that are the result of realistic self-appraisal and reflection.
- articulate their skills and knowledge and represent themselves to external audiences.
- work toward goals independently and in collaboration with others.
- employ technology to create, communicate, and synthesize ideas.
outcomes of a liberal education

Critical thinking, value consciousness and ethical reasoning, multicultural perspective, and creative and critical thinking), and recognizing the challenges and opportunities of the contemporary world, these revisions amplify the four traditional outcomes of a liberal education\(^1\) while engaging DePaul University's mission throughout the program.

**Liberal Studies Program Core and Domain Learning Outcomes**

DePaul is committed to ensuring educational excellence in each of our academic programs. Articulating learning outcomes for each of our academic programs is an important first step in our ongoing assessment and improvement cycle. By having well-defined learning outcomes as a guide, our programs are positioned to implement and assess quality educational experiences. These outcomes are also mapped to institutional learning goals, further strengthening the connection to overall student learning at DePaul University.

**Liberal Studies Common Core**

**Chicago Quarter Learning Outcomes**

Students will be able to:

- Integrate, in writing, the academic content with student experiences engaging with Chicago.
- Articulate the connection between the course content and DePaul University’s mission.
- Use Chicago resources in their coursework.

**Focal Point Seminar Learning Outcomes**

Students will be able to:

- Discuss and analyze work from at least three different fields in their written work for the course.
- Participate actively in advancing the collective intellectual understanding of the course topic through class discussions.
- Distinguish between primary and secondary sources, and assess varying degrees of mediation and interpretation in specific source materials.
- Construct arguments based on evidence and the work and interpretations of other sources.
- Revise papers in response to the instructor’s comments.
- Produce a project with a central argument, in which all parts of the project support the central argument.

**Quantitative Reasoning Learning Outcomes**

Students will be able to:

- Use proportional reasoning and percent change to analyze data in context.
- Make appropriate and effective graphs to communicate and visualize quantitative information.
- Critique graphs and charts in the media.
- Recognize disaggregation as a factor in interpreting data.
- Use and interpret linear and exponential models.
- Make algebraic calculations within a spreadsheet using cell addresses and formulas and use statistical, logical, and financial functions.
- Critically assess the sources, importance and factual accuracy of quantitative information.
- Make effective quantitative analyses in written form with supporting graphs and/or tables.

**First Year Writing Learning Outcomes**

Students who successfully complete will be able to:

- Identify and use key rhetorical concepts, including purpose, audience, and context, through analyzing and composing a variety of texts.
- Integrate critical thinking, reading, and writing.
- Reflect on and develop their own writing processes.
- Appropriately apply knowledge of linguistic structures, genre, and citation.

**Seminar on Multiculturalism in the United States Learning Outcomes**

Students will be able to:

- Understand the historical debates about and values of multiculturalism. The course will compare at least three different dimensions of multiculturalism, such as ethnicity, race, gender, class, language, and sexuality.
- Develop, through self-reflection and critical analysis, alternative perspectives on the historical roots of inequality along with an understanding of the lasting effects of oppression on marginalized groups.
- Critically analyze multiple sources of information (from, for example, relevant databases and other reference works, primary and secondary sources, community knowledge, etc.) in order to form clear, concise arguments about multicultural issues and to interpret evidence from a variety of points of view.
- Advance collective intellectual understanding—through discussion, group work, active listening and speaking —and use information to address problems and issues related to social inequality, conflict and diversity.

**Experiential Learning Learning Outcomes**

Students will be able to:

- Apply particular concepts from readings, lectures, etc. to an analysis of lived experiences in the settings provided by the course.
- Use the experiences provided by the course to construct and articulate the impact of their experience on their understanding of course content.
- Demonstrate an understanding of the ethics appropriate to his or her experiential placement.
Synthesize and articulate how the ideas and experiences provided by the course might inform their personal, academic, and/or professional pursuits.

Senior Capstone Learning Outcomes
Students will be able to:

- Apply one or more theories or concepts from courses within their major to an analysis of a particular issue relevant to the major.
- Identify an idea, method, or concept from a discipline outside their major field of study and be able to apply it within the context of their major field of study.
- Examine how their previous coursework, including Liberal Studies courses, has contributed to their intellectual development and/or their post-graduation plans.

Learning Domains

Arts and Literature Learning Outcomes
Students will be able to:

- Explain, in well-written prose, what a work of art is about and how it was produced
  - Articulate and explain the “content” of that work and its methodology of production.
- Comment on the relationship between form and content in a work.
  - How does the 14-line sonnet both enable and inhibit its practitioner, for example?
  - What are the generic expectations of a particular form?
  - How does an artist complicate, enrich, or subvert such expectations?
- Assess the formal aspects of their subject and put those qualities into words, using, when appropriate, specialized vocabulary employed in class and readings.
- Contextualize a work of art.
  - Do so with respect to other works of art in terms of defining its place within a broader style or genre.
  - Contextualize a work of art in terms of contemporaneous aesthetic, social, or political concerns, discussing how these might shape the work’s reception and how that reception might differ amongst various peoples and historical periods.

Historical Inquiry Learning Outcomes
Students will be able to:

- Demonstrate a depth and breadth of historical knowledge of specified content by:
  - Explaining historical developments in terms of continuity and change.
  - Describing the relevant political, economic, social, and/or cultural contexts of historical events and developments.
  - Explaining how people have lived, acted, and thought in one or more particular historical periods.
- Demonstrate historical skills by:
  - Analyzing and evaluating primary and secondary sources.
  - Differentiating between historical facts and historical interpretations.
  - Articulating a historical argument.
  - Supporting an interpretation with evidence from primary and secondary sources.

- Demonstrate historical thinking by:
  - Articulating how geography and regional differences affect the past.
  - Interpreting the complexity and diversity among issues, events, and ideas of the past.
  - Distinguishing among multiple perspectives that shape interpretations of the past.
  - Using the categories of race, gender, class, ethnicity, region, and religion to analyze historical events and developments.

Math and Computing Learning Outcomes

Math and Computing: Computational Reasoning
Students will be able to:

- Apply computational thinking skills to analyze and design solutions to problems or to express a creative concept.
- Develop, express, trace, and analyze algorithms.
- Apply fundamental concepts of programming in implementing algorithms.
- Create original artifacts using computational tools and techniques.
- Apply computational tools to transform and manipulate data.
- Explain the potential harms and benefits of computing in a number of contexts.

Math and Computing: Statistical Reasoning
Students will be able to:

- Recognize and explain statistically based results from real data (either primary or secondary) and evaluate whether reported conclusions reasonably follow from the study and analysis conducted.
- Use statistical software to produce and interpret graphical displays and statistical summaries.
- Recognize and explain the roles of variability and randomness in interpreting data and drawing conclusions.
- Explain common ethical issues associated with sound statistical practice, including those associated with research design, and their impact on statistical decision-making.
- Measure the strength of association between variables and identify possible effects of confounding or interacting variables on the interpretation of the association.
- Apply basic ideas of statistical inference, including confidence intervals or hypothesis testing, in a variety of settings.

Philosophical Inquiry Learning Outcomes
Students will be able to:

- Address, critically think about, and analyze philosophical questions and problems.
- Evaluate philosophical questions, issues and/or problems using informed judgment.
- Analyze and interpret the methods used by philosophers in addressing philosophical questions, issues, and/or problems.
- Engage with philosophical topics and figures in their historical context.
- Confront and interpret primary texts from the philosophical tradition.
Students will be able to:

**Religious Dimensions Learning Outcomes**

Students will be able to:

- Explain beliefs and practices of one or more religious traditions in their specific social and cultural contexts.
  - In courses in which the focus is on one religious tradition, describe the diversity of strands within the tradition and explain with significant depth the modes of interpretation of the world the tradition offers both to adherents and to others.
- Identify religious modes of thinking, acting, and feeling such as: myth and narrative, symbol, ritual, law, doctrine, ethics, religious experience.
- Analyze the impact of religion on personal as well as communal dimensions of human life, including for example the relationship between religion and power, social integration, social transformation, and social justice.

**Scientific Inquiry Learning Outcomes**

**Scientific Inquiry: Science as a Way of Knowing**

Students will be able to:

- Identify the types of questions that can and cannot be answered by science, and recognize the strengths and limitations of science in answering questions about the natural world.
- Critically evaluate the assumptions that underlie scientific investigations.
- Substantiate the claim that scientific knowledge is durable but can evolve with new evidence and perspectives.
- Connect evidence to the predictions made by theories and hypotheses, and then assess the extent to which the presented evidence supports or refutes a scientific claim.
- Evaluate the role of creativity, curiosity, skepticism, open-mindedness and diligence of individuals in scientific discovery and innovation.
- Recognize the uncertainty inherent in the scientific approach and evaluate scientists’ efforts to minimize and understand its effect through experimental design, data collection, data analysis and interpretation.
- Evaluate the role of communication, collaboration, diversity and peer review in promoting scientific progress and the quality of scientific evidence and ideas, and ensuring compliance with ethical standards.
- Determine the extent to which science both influences and is influenced by the societies
- Apply scientific approaches to problem solving and decision-making in their own lives, and evaluate how scientific knowledge informs policies, regulations, and personal decisions.

**Scientific Inquiry: Lab**

Students will be able to:

- Pose meaningful scientific questions and generate testable scientific hypotheses.
- Plan, design and conduct scientific investigations in a collaborative environment using appropriate tools and techniques to gather relevant data in order to test and revise scientific hypotheses.
- Develop and use scientific models (conceptual, physical, and mathematical) to make predictions and develop explanations of natural phenomena.
- Address variability in the data and recognize and analyze alternative explanations and predictions.
- Communicate scientific procedures, results, and explanations and engage in arguments based on scientific evidence.

**Social Cultural and Behavioral Inquiry Learning Outcomes**

Students will be able to:

- Analyze and reflect upon arguments about the contemporary world using relevant theory, methods, and/or empirical evidence.
- Analyze interdependent relationships between contemporary society and individuals.

**Honors Program Learning Outcomes**

The University Honors Program serves as an alternative curriculum to the Liberal Studies Program and shares the same Learning Goals and Outcomes (p. 1491).

**Goal 1. Mastery of Content**

This goal embraces the breadth and depth of ideas, theories, approaches, and information which DePaul students encounter through and beyond their studies.

Outcomes: DePaul students will demonstrate and be able to apply:

- general knowledge of cultures, religions, science, the arts, history, and computational reasoning.
- specialized knowledge and skills from within a specific discipline or field.

**Goal 2. Intellectual and Creative Skills**

In order to fully engage with knowledge, whether for a specific purpose or for its own sake, DePaul students are encouraged to develop the ability to think critically and imaginatively, formulate their own understanding, and effectively communicate their ideas. This goal articulates specific skills that comprise these broader abilities.

Outcomes: DePaul students will be able to:

- systematically access, analyze, and evaluate information and ideas from multiple sources in order to identify underlying assumptions and formulate conclusions.
- solve quantitative problems.
- create and support arguments using a variety of approaches.
- use existing knowledge to generate and synthesize ideas in original ways.
- communicate clearly in speech and writing.

**Goal 3. Personal and Social Responsibility**

This goal honors the notion that knowledge reflects and contributes to the values of individuals and communities. DePaul students, in particular, are challenged to consider their own values in light of the university’s mission.
Outcomes: DePaul students will be able to:

• articulate their own and others’ beliefs about what it means to be human and to create a just society.
• articulate what is entailed in becoming a self-directed ethical decision-maker and living a life of personal integrity.
• evaluate ethical issues from multiple perspectives and employ those considerations to chart coherent and justifiable courses of action.
• benefit their communities through socially responsible engagement and leadership.

Goal 4. Intercultural and Global Understanding
This goal speaks to the likelihood that, in our diverse and increasingly interdependent world, the future depends on individuals being able to learn from each other and make the best use of finite resources.

Outcomes: DePaul students will demonstrate:

• respect for and learning from the perspectives of others different from themselves.
• knowledge of global interconnectedness and interdependencies.
• knowledge to become a steward of global resources for a sustainable future.

Goal 5. Integration of Learning
Given the wide range of opportunities for learning at DePaul, it is important for students to develop the ability to consider relationships among individual experiences of learning so as to make meaning of their education in all its variety.

Outcomes: DePaul students will be able to:

• relate their learning – curricular and co-curricular – to multiple fields and realms of experience.
• make connections among ideas and experiences in order to synthesize and transfer learning to daily practice.
• design, develop, and execute a significant intellectual project.

Goal 6. Preparation for Career and Beyond
This final learning goal builds on all the rest and calls on students to be ready to apply their knowledge and skills to the changing world that awaits them.

Outcomes: DePaul students will be able to:

• set goals for future work that are the result of realistic self-appraisal and reflection.
• articulate their skills and knowledge and represent themselves to external audiences.
• work toward goals independently and in collaboration with others.
• employ technology to create, communicate, and synthesize ideas.
• set priorities and allocate resources.
• apply strategies for a practice of life-long learning.

Undergraduate Major Learning Outcomes
DePaul is committed to ensuring educational excellence in each of our academic programs. Articulating learning outcomes for each of our academic programs is an important first step in our ongoing assessment and improvement cycle. By having well-defined learning outcomes as a guide, our programs are positioned to implement and assess quality educational experiences. These outcomes are also mapped to institutional learning goals, further strengthening the connection to overall student learning at DePaul University.

Co-Curricular Learning Outcomes

DePaul’s co-curricular programs contribute to the DePaul student experience by offering learning opportunities and support for students. By having well-defined learning outcomes to guide programs and services, our co-curricular programs are positioned to implement and assess quality co-curricular educational experiences. These outcomes are also mapped to institutional learning goals, further strengthening the connection to overall student learning at DePaul University.

- Adult, Veteran, and Commuter Student Affairs (p. 1497)
- Athletic Academic Advising (p. 1497)
- Campus Recreation (p. 1497)
- Catholic Campus Ministry (p. 1498)
- Center for Students with Disabilities (p. 1498)
- Dean of Students (p. 1498)
- Financial Fitness (p. 1498)
- Health Promotion and Wellness (p. 1498)
- Multicultural Student Success (p. 1498)
- New Student and Family Engagement (p. 1498)
- Religious Diversity (p. 1498)
- Residential Education (p. 1499)
- Student Involvement (p. 1499)
- Supplemental Instruction (p. 1499)
- TRIO Pathways (p. 1499)
- University Center for Writing-Based Learning (p. 1499)
- University Counseling Services (p. 1499)
- University Library (p. 1499)
- Vincentian Community Service Office (p. 1500)

Adult, Veteran, and Commuter Student Affairs

Co-Curricular Learning Outcomes

As a result of participating in Adult, Veteran, and Commuter Student Affairs program-areas, students will be able to:

- Articulate the transferable skills from their positional experience to post-graduate opportunities.
- Demonstrate knowledge of campus resources relative to their personal needs through the creation of a personalized action plan.
- Employ reflective strategies in the context of their personal, professional and academic goals.

Athletic Academic Advising

Co-Curricular Learning Outcomes

As a result of participating in Athletic Academic Advising program-areas, student athletes will be able to:

- Articulate the academic expectations of student-athletes and how these expectations benefit them in their academic career.
- Articulate academic success strategies related to their personal academic needs.
- Articulate the transferable skills they have gained from their athletic experience and how they apply to post-graduate opportunities.
- Describe the benefits, challenges, and responsibilities of being a DePaul student-athlete.
- Articulate the importance of personal wellness for athletic, academic, and interpersonal success.
- Demonstrate knowledge of NCAA rules to maintain academic eligibility.

Campus Recreation

Co-Curricular Learning Outcomes

As a result of participating in Campus Recreation program-areas, students will be able to:

- Value a lifestyle that incorporates health and wellness.
- Build relationships to create connections to communities.
- Demonstrate personal and professional leadership practices.
Catholic Campus Ministry
Co-Curricular Learning Outcomes
As a result of participating in Catholic Campus Ministry program-areas, students will be able to:

• Integrate central elements of the theology and spirituality of the Catholic-Vincentian tradition into their daily lives and choices.
• Exhibit socially responsible leadership in the Catholic-Vincentian tradition through active service in their daily lives.
• Demonstrate knowledge of the lives of members of the Vincentian family to be able to demonstrate an ongoing connection between the Vincentian legacy and their own life experience.
• Utilize a Catholic-Vincentian faith perspective to guide their daily lives and choices.

Center for Students with Disabilities
Co-Curricular Learning Outcomes
As a result of participating in Center for Students with Disabilities program-areas, students will be able to:

• Articulate accommodation services relative to their specific disabilities.
• Articulate academic strategies and behaviors relevant to support their academic needs.
• Describe the benefits of belonging to supportive social communities.

Dean of Students
Co-Curricular Learning Outcomes
As a result of participating in Dean of Students program-areas, students will be able to:

• Articulate the transferable skills from their positional experience to post-graduate opportunities.
• Describe the community expectations of DePaul University.
• Describe relevant campus and external resources.

Financial Fitness
Co-Curricular Learning Outcomes
As a result of participating in Financial Fitness program-areas, students will be able to:

• Describe actions that exhibit positive financial behavior.
• Identify accurate financial knowledge necessary for fiscal responsibility.

As a result of employment within Financial Fitness, student employees will be able to:

• Demonstrate the financial knowledge necessary to communicate to their intended audience.
• Explain how their employment experience is transferable to their chosen profession.

Health Promotion and Wellness
Co-Curricular Learning Outcomes
As a result of participating in Health Promotion and Wellness program-areas, students will be able to:

• Describe strategies to take care of themselves and others.
• Identify common wellness topics impacting college students.
• Articulate how their wellness experience impacts themselves or others.
• Explain how to navigate the wellness resources available to them.
• Articulate the impact of wellness topics on themselves and communities.

Multicultural Student Success
Co-Curricular Learning Outcomes
As a result of participating in Multicultural Student Success program-areas, students will be able to:

• Explain why/how historically marginalized social identities are an asset.
• Articulate which campus resources are relevant to their academic needs.
• Describe how social identities of historically marginalized groups influence personal and academic success.
• Demonstrate a commitment to identity-consciousness.
• Describe the realities of various social identities and cultures.
• Articulate how social identity-based inequality influences their lived experience.
• Articulate the transferable skills from their positional experience to post-graduate opportunities.

New Student and Family Engagement
Co-Curricular Learning Outcomes
As a result of participating in New Student and Family Engagement program-areas, students will be able to:

• Describe the benefits and responsibilities of belonging to the DePaul community.
• Identify academic and social resources to help navigate DePaul.
• Describe strategies that support academic success.
• Articulate the transferrable skills from their positional experience to future opportunities.

Religious Diversity
Co-Curricular Learning Outcomes
As a result of participating in Religious Diversity program-areas, students will be able to:

• Integrate their spiritual/religious/philosophical tradition’s beliefs into their daily lives.
• Lead civic engagement efforts and build community in pursuit of justice.
• Consider their own and others' spiritual/religious and cultural practices and traditions.
• Commit to Vincentian spirituality and values that embrace the inherent dignity of all human beings.

Residential Education
Co-Curricular Learning Outcomes
As a result of participating in Residential Education program-areas, students will be able to:

• Demonstrate knowledge of behaviors that contribute to personal responsibility and respect for others in the community.
• Explain why personal rights and community standards are pertinent to a safe and inclusive community.
• Articulate the importance of residential community standards in their work to build safe and inclusive communities.
• Articulate how DePaul's Vincentian and urban identity impacts their student experience.
• Articulate the transferable skills from their positional experience to future opportunities.

Student Involvement
Co-Curricular Learning Outcomes
As a result of participating in Student Involvement program-areas, students will be able to:

• Identify interpersonal strategies that support effective teams.
• Demonstrate effective problem solving in the context of their organization or personal lives.
• Describe the skills to work in a team.

Supplemental Instruction
Co-Curricular Learning Outcomes
As a result of participating in Supplemental Instruction program-areas, students will be able to:

• Apply information learned to in-session practice problems.
• Apply study strategies that are provided by the Supplemental Instruction Leader in their academic courses.

As a result of employment within Supplemental Instruction, student employees will be able to:

• Apply pedagogical knowledge in order to facilitate discipline-specific learning.
• Demonstrate effective communication skills across online and in-person mediums both verbally and in writing.

TRIO Pathways
Co-Curricular Learning Outcomes
As a result of participating in TRIO Pathways' program-areas, students will be able to:

• Articulate an academic success plan based upon their academic needs.
• Demonstrate knowledge regarding the fundamentals of academic research and how it relates to graduate education.
• Generate a research proposal as part of an independent research study.
• Assemble materials to present research at an undergraduate conference.
• Create a Graduate Application Portfolio.

University Center for Writing-Based Learning
Co-Curricular Learning Outcomes
As a result of participating in the University Center for Writing-based Learning program-areas, students will be able to:

• Identify as a writer.
• Adapt their writing process to specific writing goals.
• Use writing to uncover learning.
• Collaborate among peers to facilitate learning.
• Revise a work in progress based on constructive criticism.
• Articulate contexts and genre conventions relevant to the exigence.

University Counseling Services
Co-Curricular Learning Outcomes
As a result of participating in University Counseling program-areas, students will be able to:

• Describe healthy coping strategies.
• Describe strategies to take care of themselves and others.
• Identify resources both within DePaul University and within the surrounding community in order to remove barriers to academic or personal success.

University Library
Co-Curricular Learning Outcomes
Students engaging with University Library program-areas events will be able to:

• Explain the socio-political landscape of information, including who creates it, who controls it and where to find it.
• Articulate the value of information inquiry.
• Develop effective search strategies for finding information.
• Evaluate the appropriateness of information sources based on their format, structure, and purpose.
Vincentian Community Service Office

Co-Curricular Learning Outcomes
As a result of participating in Vincentian Community Service Office program-areas, students will be able to:

- Demonstrate their Vincentian responsibility in systemic change at the individual, community, and global levels.
- Commit to an intentional community with the understanding of how community relates to sustainable engagement and their ability to influence meaningful social change.
- Articulate their own faith and/or spiritual growth in relationship to serving alongside the marginalized.
- Demonstrate knowledge of the lives of members of the Vincentian family to be able to demonstrate an ongoing connection between the Vincentian legacy and their own life experience.

Academic Advising, Statement on
Academic Advising at DePaul helps students achieve their educational, personal, and career goals by providing guidance and assistance in the decision-making process. Academic Advising is most effective when all participants anticipate their future needs, commit to the process, do their part, and then reflect on their results. Students should work closely with their advisors to plan workable educational goals, to understand the degree options and requirements, to understand the financial implications of their decisions, to assess their strengths and challenges as scholars, and to clarify realistic career objectives for themselves upon graduation.

Students bear ultimate responsibility for decisions and actions that determine their success at DePaul University.

- Students will make informed decisions and register for classes on time.
- Students will obtain the necessary information for course selection and planning in their individualized programs.
- Students will make and keep appointments with their advisors.
- Students will communicate honestly and fully in these advising discussions.
- Students will regularly reflect on the consequences, both academic and financial, of their decisions as they progress in their academic careers toward life choices.

Advisors are responsible for helping students improve their decision making skills.

- Advisors guide students through this learning process during regular interactions at key points during their academic careers.
- Advisors will be available on a regular basis for consultation and encourage students to make and keep regular advising appointments.
- Advisors will monitor their advisees’ academic progress.
- Advisors will encourage students to consult available material related to their program and career choice.
- Advisors will encourage students to reflect on the academic and financial consequences of their decisions about degree programs and course-taking plans.
- Advisors will assist students to set realistic career goals that extend beyond their time at DePaul.
- Advisors will encourage students to incorporate their basic values and beliefs into their decision making process.

The university is responsible for providing the infrastructure for students, faculty, and staff to support effective advising.

- The university will provide the information that students and their advisors need to make informed and timely decisions.
- The university will provide adequate resources of personnel, funding and facilities to support the advising process.
- The university will clearly communicate to advisors and students the policies and options regarding student financial aid.
- The university will regularly evaluate the policies and procedures surrounding advising to improve the advising process on an ongoing basis.
- The university will provide training to help both advisors and students work more effectively together.
- The university will acknowledge the important contribution advisors make by recognizing advising within the institutional reward system.

Tuition Rates

Financial Aid
Federal financial aid applicants must meet these eligibility requirements for aid and provide additional documents if needed:

- Be a U.S. citizen or eligible non-citizen.
- Enroll in an eligible degree program or approved post-baccalaureate non-degree graduate preparatory coursework. Contact the Office of Financial Aid for information about graduate preparatory programs.
- Have a high school diploma, General Educational Development (GED) certificate, or have completed a high school education in a homeschool setting approved under state law. Students who do not meet these eligibility requirements should contact the Office of Financial Aid for assistance.
- For most types of financial aid, you must be enrolled for credit in a degree or approved post-baccalaureate non-degree graduate preparatory program. Audited classes are not eligible for financial aid consideration.
- Once you complete your degree requirements or post-baccalaureate non-degree graduate preparatory program—even if you have not received your diploma—you are no longer eligible for aid.
- If you wish to repeat a course for which you have previously earned credit, your financial aid options are limited. Contact the Office of Financial Aid for more information.
- Be enrolled at least half-time for federal student loan deferment.
- Not be in default on a federal loan or owe a repayment on a federal grant.
• Be registered with Selective Service, if applicable.
• Meet any remaining federal eligibility requirements

Scholarships

Each year DePaul awards more than $33 million in scholarships, in varying types and amounts, to qualified students who exhibit academic excellence, artistic talent, strong leadership or service to their communities.

Scholarships and assistantships are awarded at the program level by your college office and academic department. Please consult your college or school for additional information. You may also visit DePaul Scholarship Connect (https://depaul.academicworks.com/opportunities/) throughout the year to see specific internal and external scholarship opportunities available.

For more information, visit http://www.depaul.edu/admission-and-aid/Pages/scholarships.aspx.

Veterans Assistance

DePaul’s Office of Veteran Affairs handles the following VA educational benefit programs:

• The Post-9/11 GI Bill® (Chapter 33) (http://www.benefits.va.gov/gibill/post911_gibill.asp) - for those who served at least 30 consecutive days on active duty after September 10, 2001
• The Post-9/11 GI Bill® Yellow-Ribbon program (http://www.benefits.va.gov/gibill/yellow_ribbon.asp) - for qualified Post-9/11 applicants
• The Montgomery GI Bill® – Active Duty (Chapter 30) (https://www.va.gov/education/about-gi-bill-benefits/montgomery-active-duty/) - for those who enlisted after 7/1/1985
• The Montgomery GI Bill® – Selective Reserve (Chapter 1606) (https://www.va.gov/education/about-gi-bill-benefits/montgomery-selected-reserve/)
• The Survivors' and Dependents' Educational Assistance Program (Chapter 35) (http://www.benefits.va.gov/GIBILL/DEA.asp) - for spouses and children of deceased or disabled veterans
• The Vocational Rehabilitation Program (Chapter 31) (http://www.benefits.va.gov/vocrehab/) - for disabled veterans approved by Veterans Affairs for study at DePaul
• The Marine Sergeant John David Fry Scholarship (http://www.benefits.va.gov/GIBILL/Fry_scholarship.asp) – this additional provision of the Post-9/11 GI Bill® may be awarded to a surviving spouse and children of an active duty member of the Armed Forces, who has died in the line of duty, on or after September 11, 2001. Eligible children may be married and under the age of 33.

DePaul University will not take any of the four following actions toward any student using U.S. Department of Veterans Affairs (VA) Post 9/11 G.I. Bill® (Ch. 33) or Vocational Rehabilitation and Employment (Ch. 31) benefits, while their payment from the United States Department of Veterans Affairs is pending to the educational institution:

• Prevent their enrollment;
• Assess a late penalty fee to;
• Require they secure alternative or additional funding;
• Deny their access to any resources (access to classes, libraries, or other institutional facilities) available to other students who have satisfied their tuition and fee bills to the institution.

However, to qualify for this provision, such students may be required to:

• Produce the VA’s Certificate of Eligibility by the first day of class;
• Provide written request to be certified;
• Provide additional information needed to properly certify the enrollment as described in other institutional policies (see our VA School Certifying Official for all requirements)

Due to system automations, a late fee and/or a registration hold may accidentally go onto your account even if the above documents have been provided. Please know that we will be able to easily and quickly resolve a system automated late fee and/or registration hold if you just simply email us at veteransaffairs@depaul.edu

Additional information specific to veteran students (http://www.depaul.edu/admission-and-aid/Pages/veteran-student.aspx) is available through the Admission and Aid website as well as the Office of Veterans Affairs website (http://veteransaffairs.depaul.edu/).

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at benefits.va.gov/gibill (https://www.benefits.va.gov/gibill/).

DePaul DREAM Statement

At DePaul University we affirm the dignity of the individual. We value diversity and culture because these are part of our core values and traditions as a Catholic, Vincentian, and urban university. DePaul University has decided to take a strong and public stand for supporting undocumented students, and DREAM Act legislation. We believe supporting undocumented students is smart policy that will yield significant benefits for our university, city, state, and nation. We also know these young people who enter our doors are part of the next great generation who will build our collective future. It is for this reason that DePaul admits students regardless of their citizenship status. Because we welcome these students, it is incumbent upon all members of the DePaul community to understand DePaul’s position on assisting undocumented students, realize the value that they bring to our university, and support their success as we support all of our students.

Undergraduate Academic Policies

This section of the handbook provides an alphabetical listing of all University policies, procedures, and regulations related to academics. As a student, you are responsible for adhering to the policies, procedures, and regulations included here, so please familiarize yourself with them. In addition, consult your college or school catalog for information specific to your program.

Academic Integrity

DePaul University is a learning community that fosters the pursuit of knowledge and the transmission of ideas within a context that emphasizes a sense of responsibility for oneself, for others and for
society at large. To preserve the quality of education offered to students, the university is responsible for maintaining academic integrity and protecting all those who depend on it, including DePaul’s community partners and institutional affiliates. Violations of academic integrity, in any of their forms, are, therefore, detrimental to the values of DePaul, to the students’ own development as responsible members of society, to the pursuit of knowledge, and to the transmission of ideas. All members of the university community share the responsibility for creating conditions that support academic integrity.

Violations of academic integrity include but are not limited to the following categories: cheating; plagiarism; fabrication; falsification or sabotage of research data; destruction or misuse of the university’s academic resources; alteration or falsification of academic records; academic misconduct; and complicity. Violations do not require intent. This policy applies to all courses, programs, learning contexts, and other activities at the university, including but not limited to experiential and service-learning courses, study abroad programs, internships, student teaching, providing false information on an application, and not disclosing requested information. If an instructor finds that a student has violated the Academic Integrity Policy, the appropriate initial sanction is at the instructor’s discretion. Actions taken by the instructor do not preclude the university from taking further action, including dismissal from the university. Conduct that is punishable under the Academic Integrity Policy could also result in criminal or civil prosecution.

Additional Information and the complete Academic Integrity policy can be found on the Academic Integrity website (https://offices.depaul.edu/academic-affairs/faculty-resources/academic-integrity/Pages/default.aspx).

**Adding Supplementary Credentials to the Bachelor’s Degree**

**Guiding Principles**

While pursuing the bachelor’s degree, students may elect to augment the degree by pursuing an additional major, a minor, an additional concentration (if applicable), or a second degree. Students who have earned a bachelor's degree from DePaul may be eligible to return to obtain an additional major or minor, or to pursue a second bachelor's degree. The policies below outline these options and provide guidance as to how courses may meet the requirements of more than one of these options.

In general, courses applied to Liberal Studies or University Honors Programs may not apply to the primary major unless approved by the program and explicitly stated in the Liberal Studies or University Honors Programs requirement sections in the University Catalog.

Special note to students participating in the financial aid programs: federal, state, and institutional funding is extremely limited for optional elective courses. Financial aid recipients should check with the Office of Financial Aid at DePaul Central to discuss funding for additional majors, minors, or concentrations. Students who participate in the financial aid programs should be aware that most sources of undergraduate financial aid (including institutional scholarship and grants, and federal and state gift assistance) are not available for undergraduate study beyond the first degree. Students enrolling in a second undergraduate degree program should contact DePaul Central for more information about educational loan options.

Students should consult with their academic advisor to discuss these options in relationship to their academic and career goals.

**Policies**

1. **Earning a Minor(s) (p. 1503)**
2. **Additional Major(s) (p. 1502)**
3. **Additional Concentration(s) (p. 1502)**
4. **Second degree (p. 1503)**
5. **Students with a bachelor’s degree from DePaul who are returning for an additional major and/or minor (p. 1503)**

**Additional Concentration(s)**

Some majors have Concentrations/Tracks/Specializations as indicated in the University Catalog.

Students may elect to pursue additional Concentrations/Tracks/Specializations with the following stipulations:

1. No more than 50% of the credits that apply to one Concentration/Track/Specialization may be drawn from another Concentration/Track/Specialization,
2. Some combinations of Concentrations/Tracks/Specializations are prohibited as noted in the University Catalog.

**Additional Major(s)**

Additional majors are permitted across colleges as well as within a college.

The following stipulations apply to all additional majors.

1. All admission requirements for each college within which the declared majors are located must be met. This includes audition requirements where applicable.
2. When declaring more than one major, the student will designate one major as the primary major. This major determines the college within which the student is matriculating and the degree which will be conferred when all graduation requirements for the primary major have been met. The primary major also determines the Liberal Studies or University Honors Program requirements the student will follow.
3. Major field requirements are those in place at the time the additional major is declared. All major field requirements for each major must be met when completing more than one major. This includes particular Liberal Studies or University Honors Program requirements specified by each major.
4. All major field requirements must be met.
5. Courses applied to Liberal Studies or University Honors Program requirements or open electives in the primary major may also be used to satisfy major field requirements of an additional major.
6. No more than 50% of the credits that apply to one major may be drawn from another major.
7. College of Education students are not eligible to choose an additional major in their world language content area or within the College of Education. Secondary Education students must declare Secondary Education as the primary major to double major in a teaching subject in another college. College of Education students are permitted to earn an additional major in another area of study; however the College of Education major must be the student’s primary major.
Some combinations of majors are prohibited as noted in the University Catalog. Please see the specific major field requirements for additional information and/or restrictions.

**Earning a Minor**

In order to earn a minor, a student must:

1. Earn a grade of at least C- in each minor field course.
   a. Individual units have the prerogative to be more restrictive in the grade required.
   b. The pass/fail option may not be selected for courses in the minor.
2. Earn a cumulative grade point average of at least 2.000 for all courses applied to the minor.
3. Complete at least 50% of the required credit hours for the minor through DePaul coursework.

**Notes**

Some combinations of minors, or minors and majors, are prohibited as noted in the University Catalog. Please see the specific major and minor requirements for additional information and/or restrictions.

All credits that may apply toward the major, Liberal Studies or Honors Programs, and/or open electives may also apply toward the minor.

**Returning for Additional Major/Minor**

A student who has received a bachelor’s degree from DePaul University may earn an additional major or minor at DePaul provided that:

1. All admission requirements are met. The student will be admitted as a non-degree seeking student.
2. Major or minor requirements are determined by those major or minor requirements in place at the time of the student’s first enrollment term for the additional major or minor.
3. Students must complete all requirements for the additional major or minor.

**Note**

Due to rapid changes in some areas of major/minor study, along with various licensure standards, some courses or test credits otherwise applicable to the major or minor may be subject to a review to determine the content’s currency. As a result of this review, the course or test equivalent in question may no longer be applicable to major or minor requirements. This review may be conducted by a faculty academic advisor or, when deemed appropriate, by a staff academic advisor in consultation with faculty. If a course or test credit is deemed no longer current, the student may be required to repeat the course or test credit course equivalent in order to complete the requirements.

**Second Degree**

A student who has received one bachelor’s degree from DePaul University or another institution may receive a second bachelor’s degree provided that:

1. All admission requirements are met.
2. The second degree is not in the same major as the first.
3. Students who received a DePaul bachelor’s degree, the second degree is different from the first. If the degree is the same, the student may pursue a second major.
4. At least 50% of the major specific credit hours required for the second degree are completed through DePaul coursework.
5. A minimum of 60 quarter hours of credit beyond those applied to the first degree, and after the conferral of the first degree, are earned through DePaul coursework.
6. All graduation requirements are met. Graduation requirements are determined by the degree requirements in place at the time of the student’s first enrollment term for the second degree.

**Exceptions**

1. Applicants who have already earned a bachelor’s degree from the College of Business or earned a bachelor’s degree in business from another institution are not eligible to earn a second bachelor’s degree from the College of Business.
2. Applicants who have already earned a bachelor’s degree from the College of Education or earned a bachelor’s degree in education at another institution are not eligible to earn a second bachelor’s degree from the College of Education.

A student may earn a second bachelor’s degree at DePaul simultaneously with the first degree, provided that:

1. All admission requirements are met.
2. The second degree is different from the first (example: Bachelor of Arts and Bachelor of Science)
3. The second degree is not in the same major as the first.
4. All graduation requirements for both degrees are met. Graduation requirements are determined by the degree requirements in place at the time of the student’s first enrollment term for the second degree.
5. A minimum of 252 quarter hours of credit are earned, of which 120 quarter hours are earned in residence at DePaul.

**Admission**

Admission decisions at DePaul University are based on a strong academic record, as well as personal and occupational achievements, ambition, energy, resourcefulness and leadership. The University recognizes that each individual brings unique abilities to the DePaul community and works with every student through a personalized and holistic application process. DePaul University does not discriminate on the basis of race, color, national origin, religion, gender, sexual orientation, age or handicap in admissions, employment, or the provision of services.

For information on the types of admission, see the Admission page (p. 1480) in the University Information section of this handbook.

**Admission, Good Standing**

All students applying to DePaul University for undergraduate admission must be in good standing at the last educational institution attended. Good standing is determined when a student’s record shows no academic or non-academic probation, suspension or dismissal at the last post-secondary institution attended, or if entering with no previous college or university work, to have proof of high school graduation (or equivalent) verified by providing an official transcript to the Office of Admission. The transcript requirement is waived for visiting students, but may be required to demonstrate completion of prerequisites.

A mandatory secondary review occurs for the following two cases.

...
DePaul offers a number of opportunities for students to have graduate or professional credit apply to both the undergraduate and graduate or professional degree. The information below details the specific opportunities and related policies.

1. Combined Bachelor's/Master's Degree Programs

DePaul offers a number of approved Combined Bachelor's/Master's degree programs. These programs allow undergraduate students to take courses in select graduate programs while completing their undergraduate program. These approved programs are offered in two formats.

A. Combined programs open to students in specific undergraduate majors: Students in specific undergraduate majors may apply to the combined Bachelor's/Master's degree program in a designated graduate program. You may view a list of eligible programs (https://catalog.depaul.edu/programs/) in the university catalog by narrowing your search results to include only combined degree programs. Information about admission to, and the requirements of, the combined bachelor's master's program is included in the University Catalog on the page for the undergraduate program.

B. Combined graduate programs available to students in all undergraduate majors: Students in any undergraduate major may apply to the combined Bachelor's/Master's degree program in select graduate programs. To view these opportunities, see the current University Catalog's Degree Requirement page under Graduate Programs. Information about admission to, and the requirements of, the combined bachelor's master's program is included in the University Catalog on the page for the combined degree program.

Admission

Admission requirements and procedures for a combined bachelor's/ master's degree program vary among graduate programs. Students must apply and be officially admitted into a combined degree program to have courses apply toward both degrees and to be assessed the correct tuition. In addition, undergraduate students must maintain good standing as determined by the combined program in order to be officially admitted to the graduate program.

Students should consult the program website for the specific Combined Bachelor's/Master's degree program and the Evaluation and Credit (https://catalog.depaul.edu/student-handbooks/graduate/undergraduate-academic-policies/evaluation-and-credit/) policy for program requirements.

Credit Limits

In general, undergraduate students accepted into a combined Bachelor's/ Master's degree program may apply up to 12 graduate credit hours taken as part of their undergraduate degree to their graduate program. Exceptions to that limit are detailed in the degree requirement section of the University Catalog.

Degree Conferral

Students must officially apply for their undergraduate degree conferral. Upon completion of the Bachelor's degree, the graduate program admissions staff reviews the student record to determine final acceptance into the graduate program. Students who meet the necessary requirements will be formally admitted into the graduate program. If the requirements are not met, admission to the graduate program will be denied.

Students accepted into an approved DePaul Combined Bachelor's/ Master's Program will restart their GPA at the beginning of their graduate career.

Advising

Undergraduate students admitted into the combined Bachelor's/Master's degree program will be assigned an advisor in the graduate program. In collaboration with the undergraduate advisor, the graduate program advisor will assist students in choosing graduate classes which will apply to both the undergraduate and graduate degree. Advisors will also assist the student in the selecting any additional undergraduate prerequisite requirements for the corresponding graduate program.

Combined Bachelor's/Master's degree students will have their graduate degree requirements locked based on the term they started their graduate requirements as an undergraduate. Students who remain actively enrolled at DePaul and are making progress toward the degree will retain this requirement term. Students not enrolled for three consecutive terms at either the undergraduate or graduate levels will be required to apply for readmission and will be subject to the degree requirements in place in the enrollment term of readmission.

Please note that changes in graduate admission criteria or program availability may impact a student's ability to be re-admitted into the graduate program. Students are responsible for following all graduate regulations including the limit on the time required to complete the degree and/or the applicability of how a course may apply to the graduate degree. Students interested in pursuing this option should consult with the appropriate college or school as soon as possible.

2. Combined Bachelor's/Juris Doctorate (JD) Degree Programs

A number of DePaul Undergraduate Programs and DePaul's College of Law offer 3+3 Bachelor's/Juris Doctorate degrees for high-achieving first-year undergraduate students. These approved 3+3 Bachelor's/JD
Dean's List

Any undergraduate student is eligible for the dean's list. Eligibility for the Dean's List will be determined by a grade point average of 3.500 for the academic term based on a minimum of 12 graded hours (8 hours for SCPS students) not including the grades of PA, WA and W. Students who have received any grades of IN, M or R for the term are not eligible for the Dean's list until these grades have been resolved, at which time the term grade point average will be computed.

Declarations and Inter-College Transfer

DePaul students with degree status who desire to transfer to another college within DePaul may request to change colleges through Campus Connect using the Declarations and Inter-College Transfer tool.

At a minimum, the following general conditions must be met:

1. The student must have earned a minimum of 12 quarter hours as a degree-seeking student at DePaul for no more than two consecutive quarters, excluding summer sessions, be in good academic standing and have a minimum 2.00 DePaul GPA. (2.50 is required for transfer into the College of Education)
2. The student must have earned a minimum of 12 quarter hours as a degree-seeking student at DePaul and those hours must be posted on the official DePaul transcript.

In addition to the above conditions, students desiring to transfer to The Theatre School or the School of Music must meet the audition or interview requirements of those schools.

Dismissal/Readmission

A student dismissed for academic reasons is not eligible for readmission to DePaul University for a period of two quarters. The readmission decision is made by the Office of Admission in consultation with the college or school.

A student dismissed for academic reasons may be required to demonstrate acceptable academic achievement at another regionally accredited college or university before readmission is approved. Courses to be taken elsewhere must be approved by the college advising office and a grade of C or better must be earned in all such coursework.

A student dismissed for a conduct-related reason, such as through the Student Conduct Process or the Academic Integrity process is not eligible for readmission to the University. The only exception to this is a program specific dismissal, in which case the student is not dismissed from the University, only the specific program. In this case, the student is eligible to apply to other programs.

Credits and grades earned during previous enrollment at DePaul will remain a part of the student's records.

Evaluation and Credit

At DePaul, credit towards an undergraduate or graduate degree is accumulated on the basis of quarter hours (for College of Law, see the College of Law Handbook (p. 1582)). The unit of credit is one quarter hour granted for 45 minutes of instructional time and at least two hours of additional assigned work each week, or an equivalent amount of work...
for other credit-bearing activities. The standard course extends over a ten-week period and a final examination week; courses that occur over a different time-period (e.g. in the summer or December quarter) must incorporate the same total amount of instructional time and additional assigned work per credit hour as a standard course. Undergraduate and graduate courses carry 4 quarter hours of credit unless otherwise specified. Credit is earned if a student receives an A through D, or PA grade. Undergraduate credit may also be earned through credit-by-examination and transfer credit. Some graduate programs may accept a limited number of transfer credits which is specified in the graduate program information.

Among other requirements specified in their respective catalogs, graduation with a bachelor’s degree requires that a student successfully complete a minimum of 192 quarter hours of college credit; graduation with a master’s degree requires that a student complete a minimum of 45 quarter hours of credit beyond the bachelor’s degree. The requirements for approved combined bachelor’s + master’s degree require at least 36 quarter hours of credit beyond the bachelor’s degree (with a minimum of 12 applicable graduate hours completed as part of the bachelor’s degree). Graduation with a doctorate degree will require the minimum number of quarter hours specified by the degree awarding department or college.

**Additional Types of Credit**

Please see the Credit and Evaluation, Limitations section for limits to the amount of credit listed below that can be applied to the degree.

**Credit-by-Examination**

DePaul University recognizes the achievements of students as represented by their successful completion of exams through the College Board’s Advanced Placement (AP) and College Level Examination Program (CLEP) and the International Baccalaureate (IB) program. Depending on the exam and the score achieved, students may earn credit applicable to their general education requirements, major field or elective requirements. For more information on credit awarded by examination, visit the Office of Admission website.

**Advanced Placement Program (AP)**

Incoming undergraduate students may receive credit through the Advanced Placement program. These tests are administered during high school. Incoming freshmen and transfer students (who earned AP credit while in high school) should have their score report sent to the Office of Admission, 1 East Jackson Blvd., Chicago, IL 60604 prior to enrolling at DePaul.

**College-level Examination Program (CLEP)**

The College Level Examination Program may be taken by students prior to their enrollment or while currently enrolled at DePaul. CLEP exams are offered in a variety of subject areas and represent knowledge gained through coursework as well as through life or work experience. In addition, current students must consult with their college advisor before taking any CLEP exam to ensure that the exam will fulfill individual academic plan requirements. The CLEP score report should be sent to the Office of Admission, 1 East Jackson Blvd , Chicago, IL 60604 prior to enrolling at DePaul or immediately following completion of the exam.

**International Baccalaureate Program (IB)**

DePaul University awards credit to students who have taken an International Baccalaureate program either at the Diploma or Certificate level. Standard or Higher level score results determine the amount of credit awarded to students at DePaul. Incoming students should have their IB transcript sent to the Office of Admission, 1 East Jackson Blvd., Chicago, IL 60604 prior to enrolling at DePaul.

**International A and A/S Level Exams**

DePaul awards DePaul course credit for some courses and grades earned on A and A/S Level exams. Students should have their documentation sent to Office of Admission, 1 East Jackson Blvd., Chicago, IL 60604.

**Transfer Credit**

Transfer credit completed prior to admission at DePaul or subsequent transfer coursework approved by the student’s advisor should be sent to the Office of Admission, 1 East Jackson Blvd., Chicago, IL 60604. Transfer grades do not calculate into the DePaul grade point average.

**Prior Learning Assessment (PLA)**

Prior Learning Assessment (PLA) allows students to earn credit toward degree requirements based on demonstration of college-level learning through PLA projects or proficiency examination. PLA credit is governed by the University Transfer Policy that permits a maximum of 99 quarter hours from a combination of credit based on prior learning assessment, credit earned at a community college, credit by examination, and ACE military credit. PLA credits are not eligible for Financial Aid, do not count for purposes of determining enrollment status, and do not count as residency requirements. The Office of Prior Learning Assessment recommends whether or not credit should be awarded credit; units who have curricular jurisdiction will make the final determination of whether PLA credit will be awarded. Students interested in pursuing PLA credit should contact the Office of Prior Learning Assessment (SCPSPLA@depaul.edu.)

**Professional Nursing Portfolio (RN to MS Nursing Students Only)**

The student entering the RN to MS program will be taking more advanced coursework at DePaul; coursework that relies on a knowledge base established by the nursing courses taken at the community college and assessed by the NCLEX-RN® examination. By successfully completing the first quarter of the RN to MS program, students will have demonstrated their success in the RN to BS bridge course and a graduate level course. The 45 quarter hour portfolio credit will be applied to their degree at DePaul upon successful completion of NSG 330 (bridge course) and NSG 431 (graduate course) with a cumulative GPA of 3.000.

**Evaluation and Credit, Limitations**

Transfer Credit and Credit by Examination

A maximum of 132 quarter hours (88 semester hours) of transfer credit will be applicable to any undergraduate degree at DePaul. This includes transfer courses taken at both community colleges and other four-year institutions, credit by examination, credit for prior learning, and ACE military credit. Credits earned from the College Level Examination Program (CLEP), International Baccalaureate (IB), Advanced Placement (AP) and/or International A/S and A level exams, credit for prior learning, and ACE military credit combined with transfer credits from two-year institutions will total no more than 99 quarter hours (66 semester hours) and, combined with credits from four-year institutions, will total no more than 132 quarter hours. The senior year residency requirement prohibits the application of transfer, ACE military, CLEP AP, IB, or A/S and A level, or prior learning credits to the final 60 quarter hours of course work.
Additional information on types of transfer work accepted is available in the Transfer Credit Regulations (p. 1521) in this handbook.

**Developmental Courses**

MAT 94, MAT 95 and WRD 102, WRD 108 and WRD 200 courses are intended to build a student’s skills in college-level reading, or mathematics. A maximum of 12 hours (depending upon the college or school enrolled) of these courses may be applied toward the degree as University electives. Students who take more than their maximum of these courses will graduate with an academic program in excess of the 192 hours required for the degree. No credit in these courses may be applied toward degree requirements in Liberal Studies. Students are not permitted to take these courses on a pass/fail basis. In addition, these courses may not be accepted for transfer to other colleges or universities.

**Graduate Level Courses**

Undergraduate students may be granted permission at the discretion of the graduate college to complete a graduate level course to fulfill undergraduate course requirements. Graduate courses taken while an undergraduate will not apply toward a graduate degree at DePaul. The one exception to this policy is for students accepted into a Combined Bachelor’s + Master’s program where specific restrictions apply (please see the Combined Bachelor’s + Master’s Program Policy (p. 1504) for additional information).

**FERPA/Annual Notification**

**Annual Notification for DePaul Students: Your FERPA Rights**

We want to take this opportunity to provide you with a summary of your rights under The Family Educational Rights and Privacy Act (FERPA), the federal law that governs release of and access to student education records. Please view Understanding FERPA, a DePaul Central Learning Center video for information and instructions.

Your FERPA rights include:

1. The right to inspect and review your education record within 45 days after the University receives a request for access. If you want to review your record, contact the University office that maintains the record to make appropriate arrangements.

2. The right to request an amendment of your education record if you believe it is inaccurate or misleading. If you feel there is an error in your record, you should submit a statement to the University official responsible for the record, clearly identifying the part of the record you want changed and why you believe it is inaccurate or misleading. That office will notify you of their decision and advise you regarding appropriate steps if you do not agree with the decision.

3. The right to provide written consent before DePaul discloses personally identifiable information contained in your education records, except to the extent that FERPA authorizes disclosure without consent.

Some examples of exceptions include:

- School officials with “legitimate educational interests.” A school official has a legitimate educational interest if the official has a professional need to review your education record in order to fulfill his or her official responsibilities. Examples of people who may have access, depending on their official duties, and only within the context of those duties, include: university faculty and staff, agents of the institution, students employed by the institution or who serve an official institutional committees, and representatives of agencies under contract with the University.

- To officials of another school where the student seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student’s enrollment or transfer.

- To authorized representatives of the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or state and local educational authorities, such as a state postsecondary authority that is responsible for supervising the university’s state-supported education programs. Disclosures under this provision may be made in connection with an audit or evaluation of federal- or state-supported education programs, or for the enforcement of or compliance with federal legal requirements that relate to those programs. These entities may make further disclosures of personally identifiable information to outside entities that are designated by them as their authorized representatives to conduct any audit, evaluation, enforcement or compliance activity on their behalf.

- To organizations conducting studies for, or on behalf of, the school, in order to:
  - develop, validate or administer predictive tests;
  - administer student aid programs; or
  - improve instruction.

- To accrediting organizations in order to carry out their accrediting functions.

- To appropriate officials in connection with a health or safety emergency.

- Information the school has designated as “directory information.” Directory information may be released without your written consent and includes the following: name, address, e-mail, telephone number, date of birth, college of enrollment, year in school, major, enrollment status (including current enrollment, dates of attendance, full-time/part-time or withdrawn), degrees, awards and honors received (e.g., Dean’s List recognition), participation in officially recognized activities and sports, weight and height of members of athletic teams, photographs (including ID pictures), videos depicting and/or concerning University life, and previous educational institutions attended. Please note that you have the right to withhold the release of directory information except to the extent that FERPA authorizes disclosure without consent (see #3 above).

To withhold the release of your directory information, you must log into the student portal, Campus Connect, and, under Student Privacy settings, indicate your preference. Please note two important details regarding placing a “No Release” on your record:

- A “No Release” on your record will prevent your name from being included on lists of students released to honor societies, deans’ lists and graduation announcements to local newspapers, and enrollment and degree verification to anyone, including potential employers.
Forgiveness Policy

A student on probation or dismissed for academic reasons who has fewer than 49 earned quarter hours is eligible for the Forgiveness Policy. Such a student, if the petition is accepted by the Dean of the College,

1. is not eligible for readmission until a full year has elapsed,
2. must complete 18 or more quarter hours of credit in course work approved by the college office at a different institution,
3. must complete all coursework with a grade of C or better, with a combined GPA of 3.0 or above.

If readmission is approved, the following academic policy applies:

1. the previous grade point average will revert to zero, and
2. the previous DePaul credits attempted and earned will be identified as forgiven grades.

If a student chooses to repeat a course for which a grade was forgiven, all forgiven grades for that course will be counted as previous attempts. Please note that although the earned grades are forgiven, the student is still responsible for meeting grade requirements specified in degree requirements and related policies.

This policy permits the student to resume a program of studies without the penalty of previously deficient grade point average.

Grades

Grades can be accessed online via Campus Connect. Grades can be viewed and printed using the Unofficial Transcript in the Student Center in Campus Connect. This comprehensive report can be used for corporate tuition reimbursement. Some companies may allow the student to log onto Campus Connect with a company representative present to verify grades for an individual term.

Following is the key to the system of evaluating a student’s academic achievement of the educational objectives specified by the instructor in the course syllabus. These definitions apply to the straight letter grade. A plus grade represents slightly higher achievement than the straight letter grade. A minus grade represents slightly lower achievement than the straight letter grade. For undergraduate students, the addition of a # indicates an original attempt of a course which has been repeated; therefore the grade and credit are removed from the term and cumulative grade point average and credit hours.

Once a grade is assigned, university policy prohibits faculty from changing the grade without the permission of the college-based exceptions committee. Errors made in computation of the final grade (clerical error) and removal of an IN grade in accordance with university policy are exceptions to the grade change policy. Faculty may not assign or accept additional graded material in order to improve a student's final grade.

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>The instructor judged the student to have accomplished the stated objectives of the course in an EXCELLENT manner.</td>
</tr>
<tr>
<td>B</td>
<td>The instructor judged the student to have accomplished the stated objectives of the course in a VERY GOOD manner.</td>
</tr>
<tr>
<td>C</td>
<td>The instructor judged the student to have accomplished the stated objectives of the course in a SATISFACTORY manner.</td>
</tr>
<tr>
<td>D</td>
<td>The instructor judged the student to have accomplished the stated objectives of the course in a POOR manner. (A grade of D will not fulfill the requirements in a major field of concentration.)</td>
</tr>
<tr>
<td>F</td>
<td>The instructor judged the student NOT to have accomplished the stated objectives of the course.</td>
</tr>
<tr>
<td>FX</td>
<td>Student failed to accomplish the stated objectives of the course due to non-attendance. Non-attendance is defined as never attending or ceasing to attend an in-person course (or never participating or ceasing to participate in an online course) without officially withdrawing. The FX is calculated into the student’s GPA as an F. Instructors are required to provide the last date of attendance/participation.</td>
</tr>
</tbody>
</table>
IN
Temporary grade indicating that, following a request by the student, the instructor has given his or her permission for the student to receive an incomplete grade. In order to receive an IN grade, the student must have a) a satisfactory record in the work already completed for the course, b) encountered unusual or unforeseeable circumstances which prevent him/her from completing the course requirements by the end of the term, and c) applied to the instructor for permission to receive an IN. Please see the Grades, Incomplete (IN) and Research (R) Expiration Policy page in this handbook for additional information.

ING
Permanent grade assigned to a degree recipient who chooses not to resolve a grade of "IN" awarded during the two terms prior to graduation. The grade of "ING" (Incomplete, Graduated) is final, and cannot be changed or lapsed to "F" once the degree is posted.

PA
Passing achievement in a pass/fail course. (Grades A through D represent passing performance.)

W
Withdrawal from the course initiated by the student after the Last Day to Drop With No Penalty and before the Withdrawal Deadline. The W grade is automatically recorded on the student's transcript once it has been processed.

WA
Withdrawal from the course initiated by an advisor or administrator at the student's request, usually outside of established deadlines. Administrative withdrawals may be granted under extraordinary circumstances and require documentation for support. See the Withdrawal Policy page in this handbook for more information. During their DePaul career, students may be allowed one medical/personal approved administrative withdrawal and one college office administrative withdrawal, each for one or more courses in a single term.

R
Temporary grade indicating that the student is making satisfactory progress in a course that formally extends beyond the end of a term. Only designated courses are eligible for R grades. Please see the R grade expiration policy on the Grades, Incomplete (IN) and Research (R) Expiration Policy page in this handbook for additional information.

RG
Permanent grade assigned to a degree recipient who chooses not to resolve a grade of "R" awarded during the last year prior to graduation. The grade of "RG" (Research, Graduated) is final, and cannot be changed or lapsed to "F" once the degree is posted.

M
Final grade not submitted by instructor.

AU
Auditor status; course does not earn credit.

Quality Points
Quality points are awarded to a student in relation to the grade given and the number of quarter hours of credit attempted in the course. Quality points are awarded according to the following schedule:

<table>
<thead>
<tr>
<th>Letter</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4 times the number of credit hours assigned to the course</td>
</tr>
<tr>
<td>A-</td>
<td>3.7 times the number of credit hours assigned to the course</td>
</tr>
<tr>
<td>B+</td>
<td>3.3 times the number of credit hours assigned to the course</td>
</tr>
<tr>
<td>B</td>
<td>3 times the number of credit hours assigned to the course</td>
</tr>
<tr>
<td>B-</td>
<td>2.7 times the number of credit hours assigned to the course</td>
</tr>
<tr>
<td>C+</td>
<td>2.3 times the number of credit hours assigned to the course</td>
</tr>
<tr>
<td>C</td>
<td>2 times the number of credit hours assigned to the course</td>
</tr>
<tr>
<td>C-</td>
<td>1.7 times the number of credit hours assigned to the course</td>
</tr>
<tr>
<td>D+</td>
<td>1.3 times the number of credit hours assigned to the course</td>
</tr>
<tr>
<td>D</td>
<td>1 times the number of credit hours assigned to the course</td>
</tr>
<tr>

<td>No quality points awarded</td>
</tr>
<tr>
<td>AU, W, WA, IN, PA, R, ING, RG, M</td>
<td>Quality points not assigned</td>
</tr>
</tbody>
</table>
A. General Policies on Grading

1. Grades are determined solely on the basis of the academic performance of each student according to pre-established criteria determined by the course instructor and consistent with university, college and departmental policies.

2. Grade determination is the prerogative of the instructor subject to the constraint that any successfully challenged grade will be changed through faculty action.

3. The criteria for evaluating academic performance are to be consistent with a course's goals and objectives, which have been approved by the appropriate academic authority before the course is scheduled. On the first day of class of each course the instructor is to explain in writing to the students the criteria for evaluating as well as the methods for grading student performance (examinations, papers, reports, etc.).

4. The instructor in each course shall decide what criteria and methods for evaluating students are to be applied in the specific course. These decisions of the instructor, however, must be compatible with any policies previously accepted by the faculty of a department or college with respect to particular courses, especially courses offered in sequence where the qualifications of a student to begin an advanced course depend upon performance in a previous course. The methods of conducting a course are determined by the instructor within limitations set by the classification of a course as lecture-discussion, seminar, laboratory, etc. An instructor may vary the teaching methodology to meet particular circumstances of a course (type or number of students enrolled, concentrated calendar as in summer sessions, etc.) or the instructor's own desires to innovate or experiment with different approaches.

Any method selected must be compatible with the predetermined goals and objectives of the course. While teaching methodology may change after the course has begun, grading methodology may be changed only with the consent of a majority of students in the course, taking into consideration hardships imposed upon students opposed to the change.

5. The actual evaluation and grading of academic performance is subject to the professional judgment of each instructor. Considerable personal discretion is required in these judgments - a justifiable margin of difference can exist between the evaluations made by two or more professional persons of the same academic performance.

6. Students are entitled to compare their work in the course with the criteria applied in deciding the final grade for the course. Accordingly, the course instructor is required either to return major papers and examinations to students or to make such available for students until the end of the following term. Spring Quarter materials are to be available until the end of the Autumn Quarter. For pedagogic reasons, an instructor is expected to review with the student the relative success of the student's accomplishments. The instructor is not expected to debate the grading.

7. A student may object to a grade for one or more of the following reasons:
   a. The methods or criteria for evaluating academic performance, made explicit by the instructor at the beginning of the course, usually in a course syllabus or as subsequently modified with the majority consent of the students, were not actually applied in determining the grade.
   b. The grade was determined or influenced by criteria other than those explained by the instructor or by criteria not relevant to academic performance.
   c. The instructor applied predetermined criteria unfairly, which may include but not be limited to the following items:
      - The instructor's evaluation of academic performance so exceeded the reasonable limits of the instructor's discretion as not to be acceptable to the instructor's peers.
      - Predetermined criteria were not explained at the beginning of the quarter or semester.
   d. The instructor did not adhere to temporary University policies regarding the end-of-quarter grading accommodations that were adopted in Spring of 2020 after the social unrest that occurred in Chicago after the death of George Floyd. For courses taking place in Spring quarter 2020 only, this policy required that instructors choose one of the following options for final grading:
      - To award a final course grade on the basis of materials due by May 29, 2020, assuming that at least 70% of the course materials had been due by that date.
      - To award, at the student's request, an Incomplete without explanation and subject to all rules regarding incomplete grades.

B. Policies Regarding Grade Challenge

1. All Grade Challenge Review Boards must follow the procedures listed below.

2. A challenge to a grade will be reviewed and decided by tenured faculty unless the college or school has an insufficient number of tenured faculty to staff a Review Board.

3. The student who challenges a grade bears the full burden of proof that there are sufficient grounds for changing a grade.
C. Procedures for Establishing Grade Challenge Review Boards

1. At the beginning of each academic year, the Committee on Committees will recommend to the Faculty Council, the faculty members and alternates for one Review Board for each of the following colleges: Business, Computing and Digital Media, Communication, Education, Law, Music, School of Continuing and Professional Studies, Science and Health, and Theatre.

2. It will recommend two boards for Liberal Arts and Social Sciences covering the following areas: Humanities and Behavioral and Social Sciences. The Faculty Council will make all appointments to Review Boards. The dean of a college may request the establishment of additional Review Boards.

3. Each Review Board will consist of three faculty members and two alternate faculty members and one student. Faculty members may not serve on challenges in which they are involved. Involvement includes assignment of the grade in question and/or attendance or participation in the class. In either of these cases, one of the alternates will be asked to serve.

4. The student representative on the Review Boards in Business, Computing and Digital Media, Communication, Education, Liberal Arts and Social Sciences, Science and Health, Law, Music, School of Continuing and Professional Studies, and Theatre will be the elected Senator from the college or school. In cases where this Senator is involved in the claim; i.e., had registered for, attended or participated in the class, the SGA EVP of Academic Affairs will serve as an alternate or, if necessary, the president may appoint the alternate.

5. The Review Board will select its own chair and vice chair (to serve in the absence of the chair). The Chair of the Review Board receives all requests for hearing from the dean or chair of the affected department, sets the calendar, notifies all board members and involved parties of the dates and times of the hearings and informs students by written notice of the recommendations of the board. The chair is responsible for adherence to the Procedures for Filing a Grade Challenge.

6. The boards will serve until the beginning of the Autumn Quarter of the academic year.

7. A quorum of the Review Board consists of three members of the board. Challenges will be upheld by a vote of three or more of the four member board. All members are voting members.

8. The members of the Review Board are expected to disqualify themselves should a conflict of interest arise.

D. Procedures for Filing a Grade Challenge

In order to provide a forum for the fair resolution of academic disputes involving individual students and appropriateness of course grades, the following procedures have been developed and will be applied to all cases involving DePaul University students.

1. A student who is considering a grade challenge must discuss the grade with the instructor before the end of the following regular term. (Spring and Summer Quarter challenges must be made before the end of the Autumn Quarter. Law students challenging a Fall semester grade have a deadline of March 1 of the following Spring semester. Law students challenging a Summer/Spring semester grade have a deadline of October 1 of the following Fall semester.) The instructor is expected to explain the reason for the grade to the student. Only if the instructor is not at the university during the following regular term after the grade was issued, may the student proceed to challenge the grade without meeting with the instructor.

2. If, after the discussion with the faculty member, the student still disputes the final grade, the student may continue their challenge by submitting a written request for a hearing to the office of dean of the college or school in which the course was offered within the term following the award of the disputed grade. Since the following burden of proof rests upon the student, it is important that the student include a clear and coherent statement (typed) with the reason for the appeal, together with any supporting documents the student may wish to include. Students may request that copies of supporting documents in possession of the faculty members be forwarded to the chair of the Review Board. All challenges will be thoroughly and fairly reviewed.

3. The dean of the college or school shall forward a copy of the request to the chair of the Review Board, the involved faculty person and the student. This must be signed and dated by the dean or chair of the affected department.

4. Once filed, the formal challenge is automatically forwarded through all stages of the appeal process unless the Review Board determines it to be groundless or frivolous. Additionally, the student has the option to discontinue the appeal at any stage by submitting a letter stating such to the instructor and chair of the Review Board.

5. The Review Board chair will send a copy of the grade appeal request and relevant materials received with it to the instructor involved. The instructor will return the materials with a written response within two weeks unless circumstances warrant an extension.

6. The Review Board may, at its discretion, seek oral clarification of the written information bearing on the case. Only the instructor and/or the Review Board are empowered to change a grade.

7. The Review Board shall evaluate the challenge and vote to approve or deny. Decisions of the Review Board arrived at by secret ballot are to be determined by a majority vote.

Such action must be taken within two months of the date of filing. (If the grade appeal is not passed along its designated route within the time specified, the student should notify the dean of the school or college who will determine the reason for the delay.)

8. The Review Board is to reach one of the three following decisions:
   a. Challenge affirmed and settled by consent: i.e., the Review Board conducting the review devises a conciliation mutually acceptable to the student and the instructor who gave the grade. Should the acceptable conciliation involve a change of grade, the instructor will submit a change of grade.
   b. Challenge affirmed and the Review Board may submit a change of grade card to the dean of the college or school in which the course was taught.
In determining the student’s final grade, the Review Board will take into account all evidence of the student’s academic performance in the course under challenge as well as the implications for the student’s grade of the instructor’s actions in the case in question.

c. Challenge denied; original grade stands.

9. The decision reached by the Review Board is to be communicated by the chair of the Review Board in writing directly to the dean of the college or school, the instructor, and the student. The explanation for the decision will also be communicated.

10. Decisions by the Review Board are final and binding on all parties. The board’s decision does not require the approval of the dean of the college or school, or the chair of the affected department.

Grades, Incomplete (IN) and Research (R) Expiration Policy

Incomplete (IN) Grade

An Incomplete (IN) grade is a temporary grade indicating that, following a request by the student, the instructor has given permission for the student to receive an incomplete grade. In order to receive an IN grade, the student must have a) a satisfactory record in the work already completed for the course, b) encountered unusual or unforeseeable circumstances which prevent them from completing the course requirements by the end of the term, and c) applied to the instructor for permission to receive an IN (see grade definition (https://courses.depaul.edu/university-catalog/academic-handbooks/undergraduate/undergraduate-academic-policies/Pages/grades.aspx)).

Undergraduate and graduate students have at most two quarters to complete an incomplete. At the end of the second quarter (excluding summer) following the term in which the incomplete grade was assigned, the incomplete will automatically convert to an F grade. In the case of the Law School, incompletes must be completed by the end of the semester following the one in which the incomplete was assigned.

A faculty member has the prerogative to assign a completion date earlier than the two quarter deadline (one semester deadline for the Law School) and this date will supersede the two quarter timeframe (one semester timeframe for the Law School) stated above.

Students must adhere to the incomplete grade request procedure of the academic unit offering the course for which they are requesting the incomplete grade.

Ordinarily no incomplete grade may be completed after the grace period has expired. Instructors may not change incomplete grades after the end of the grace period without the permission of a college-based Exceptions Committee.

In the event that the original instructor is no longer available to grade the work, the Department Chair, where applicable, or the Associate Dean will identify the faculty member who will resolve the R grade.

Students who have completed degree requirements, but have an R grade that has not yet expired can elect to have the degree posted and the R grade changed to a permanent R grade. The RG (Research, Graduated) grade is permanent and cannot be changed in the future. The student can also elect to postpone degree conferral until the R grade is resolved.

Research (R) Grade

An R grade is given when a student is making satisfactory progress in a course that extends beyond the end of the term or in a project extending over more than one term. R grades, with the exception of students completing a thesis or a dissertation research course, must be completed within one academic year of the posting of the R grade or it reverts to an F grade.

A faculty member has the prerogative to assign a completion date earlier than the one academic year deadline and this date will supersede the one academic year stated above.

Ordinarily no R grade may be changed after the grace period has expired. Instructors may not change R grades after the end of the grace period without the permission of a college-based Exceptions Committee.

In the event that the original instructor is no longer available to grade the work, the Department Chair, where applicable, or the Associate Dean will identify the faculty member who will resolve the R grade.

Students who have completed degree requirements, but have an R grade that has not yet expired can elect to have the degree posted and the R grade changed to a permanent R grade. The RG (Research, Graduated) grade is permanent and cannot be changed in the future. The student can also elect to postpone degree conferral until the R is resolved.

Grades, Pass/Fail

Under the pass/fail option, a student who has at least sophomore standing and who is not on academic probation may register for one pass/fail course each term. A maximum of 20 quarter hours may be taken under the pass/fail option. Grades A through D represent passing performance. Written permission to use the pass/fail option must be obtained from the student’s academic advisor or from their college or school office prior to the beginning of the third week of the quarter. For courses of four weeks or less in duration, approval must be obtained before the second class meeting of the course. The option is limited to no more than one course in any one department.

The pass/fail option may not be used for the following categories of courses:

• courses taken to meet Liberal Studies requirements;
• courses taken to meet requirements of a student’s major (including intended and pre-majors), minor and/or certificate (including intended and pre-minors/certificates);
• developmental courses, such as MAT 94, MAT 95 and WRD 108 and WRD 200.

If the course is passed, the credit hours earned are entered on the student’s record; the grade is not included in computing the student’s grade point average. If the course is failed, the F grade is recorded on the student’s record and the credit hours attempted are included in computing the student’s grade point average.
Grades, Repeating Classes

Undergraduate students may need to repeat courses in order to meet degree requirements. Ordinarily only grades lower than C- may be repeated. Students who earn a grade lower than C may repeat a course one time without special permission from their home college office advisor. When a repeat occurs, all grades achieved are recorded on the academic record (noted as repeated), while only the second grade is used to determine cumulative credit and to calculate the GPA.

Students who wish to repeat a course more than once, or repeat a course for which a grade of C- or better was earned, should receive permission from their home college office advisor. If students repeat, the second, and all subsequent grades, will be used to calculate the GPA. Credit earned is based on the final attempt.

Students who register for a course for the third time without first obtaining permission from their home college office advisor may be dropped from the course by their home college office.

Similarly, students who register for a course where a grade of C- or better was earned, without first obtaining permission from their home college office advisor, may be dropped from the course by their home college office.

Transfer/Test Credit Considerations

• Repeating Courses at Another Institution (Original Attempt taken at DePaul)

Students who complete a course at DePaul and who wish to repeat the course at another institution, in order to transfer the course back to DePaul, may do so with permission of their home college advisor. In this case, the DePaul grade will remain in the GPA and credit will be awarded based on the final attempt. This policy applies to DePaul courses where a letter grade was earned including grades of F, FX, IN, and R.

• Repeating Courses at DePaul Where Credit Was Previously Earned in Transfer/Test

When students repeat a course at DePaul where the credit was previously earned through transfer or test credit, the transfer or test course is considered the original attempt and the DePaul course will be considered the repeat. In the exceptional case where students complete the course again at DePaul, all DePaul grades will be calculated into the grade point average with credit based solely on the last attempt.

Notes

This policy does not apply to courses that are repeatable for credit.

Special note for federal and/or state student aid recipients who wish to repeat a course: Federal and state financial aid regulations restrict the number of times that a student may receive federal or state financial aid for repeating a course for which credit has been previously earned. Please contact the Office of Financial Aid at DePaul Central to learn about the financial aid impact if you are considering repeating a course for which you have previously earned credit.

Graduation With Honors

Graduation with honor at DePaul University is calculated on the basis of credit attempted at DePaul only. Transfer students must complete a minimum of 60 graded DePaul credits (excluding pass/no pass hours) to be eligible for graduation with an honors status.

A student who earns a cumulative DePaul University grade point average (GPA) of at least 3.850 will be graduated summa cum laude.

A student who earns a cumulative DePaul GPA of at least 3.700 but no higher than 3.849 will be graduated magna cum laude.

A student who earns a cumulative DePaul GPA of at least 3.500 grade but no higher than 3.699 will be graduated cum laude.

Honors status for the degree will be computed on the basis of all course work attempted at DePaul. Students who have been readmitted to DePaul under the Forgiveness Policy will be considered for graduation with honors based solely on the grade point average achieved after this readmission.

Competency-based programs in DePaul University's School of Continuing and Professional Studies do not recognize graduation designations such as cum laude or magna cum laude or summa cum laude.

For academic honors conferred by individual colleges, schools, or departments, consult the appropriate college section of the University Catalog.

Graduation, Commencement Ceremony

The University's annual graduate and undergraduate commencement exercises are conducted in June. Traditionally the University hosts a baccalaureate mass to which all graduating students and their families are invited the Friday of graduation weekend.

Attendance at the graduation exercise is optional; however, graduates must notify their college office of their intention by the published deadline date. Graduates will receive detailed instructions concerning the commencement exercise from the college office.

Graduation, Degree Conferral Policy

Final certification of degrees is completed by the Office of the University Registrar thirty days after the conferral date.

In dual degree programs authorized by the colleges, the degrees will be conferred simultaneously.

Academic records will be locked upon degree conferral. Under no circumstances will changes be made to the academic record after degree conferral.

If a student begins a new program of study at DePaul after a degree has been conferred, the student’s GPA will be restarted. The one exception to this rule involves master’s students whose DePaul master’s degree is accepted to meet DePaul’s PhD requirements either in the same or a new field. In this instance the GPA in the PhD program will include the GPA from the DePaul master’s degree.
Combined Bachelor's + Master's Degree Program

Students combining a master's degree with a bachelor's degree in an approved DePaul Combined Bachelor's + Master's Program will restart their GPA at the beginning of their graduate career.

JD/LLM Program

In the case of students who are accepted into the joint JD/LLM program, the students' GPA in the LLM program will include the GPA from the JD program. Students who have completed the JD degree and are independently pursuing the LLM degree will have their GPA restarted.

Graduation: Undergraduate Degree Requirements

In order to graduate, undergraduate students must have fulfilled all of the following requirements:

1. The student must have completed a minimum of 192 quarter hours or a minimum of 50 competencies for the School of Continuing and Professional Studies competency-based programs.
2. The student must have a minimum of 2.000 cumulative grade point average.
3. The student must have completed all requirements for their degree by the last day of term for which they apply for degree conferral.
4. The student must have earned grades of C- or better in all major and minor classes. Please note that the cumulative grade point average in each of these areas must be greater than or equal to 2.000.
5. The student must have fulfilled the residency requirement, i.e., they must have completed the following work at DePaul University:
   - the final 60 quarter hours of credit
   - one-half of the credit earned in the major area of concentration
   Note: Students pursuing additional majors, minors or second degrees should consult the Adding Supplementary Credentials to the Bachelor's Degree (p. 1502) section for additional information.

Special Note for School of Continuing and Professional Studies Competency-Based Programs:

- SCPS competence-based programs (BAIFA, BAC, BAGB and BAECE): Students in these programs must complete at least 25% of competence requirements through SCPS courses. In addition, students in the BAC program must also complete at least 5 courses through the College of Computing and Digital Media. Students in the BAECE program must also complete at least 9 courses through the College of Education.

Exemptions to the residency requirement may be made by the Dean in individual cases.

1. A formal application for graduation must be filed by a candidate. Application for graduation may be made only by classified degree-seeking students. The student must complete the online degree conferral application in Campus Connect by the designated deadline date.
   - Autumn degree conferral: October 1
   - Winter degree conferral: January 15
   - Spring degree conferral: February 1
   - Summer (August) degree conferral: July 15

Submitting this on-line application does not guarantee the conferral (granting) of a degree from DePaul University. A student may change the expected completion term up to the last day of that term.

Notes:

- Degree requirements are reviewed at the end of the expected completion term indicated. If all requirements are met, the degree will be conferred within 30 days of the end of the term. Diplomas are mailed (to graduates without financial holds), generally within 45-60 days after the end of the term.
- DePaul reports degree information to the National Student Clearinghouse monthly. Many companies and agencies use this service to verify awarded degrees. A student’s degree will only be verified by the Clearinghouse if the student’s Privacy Settings in Campus Connect indicate this as releasable information at the time the degree is conferred. Students should verify FERPA Privacy Settings before the end of their completion term.

Immunization, Proof of

DePaul University complies with Illinois state law (College Student Immunization Act [110 ILCS 20]) and the Illinois Department of Public Health College Immunization Code (77 Ill. Adm. Code 694), which mandates post-secondary institutions to submit an annual report on student immunization requirements. All DePaul University students, born on or after January 1, 1957 and attend a university campus location, must provide proof of the required immunizations. Additionally, Illinois law requires that universities prevent students from registering for any subsequent terms if proof of immunization is not provided.

Proof of the following immunizations is required:

- Tetanus/Diphtheria/Pertussis - 3 doses (at least 1 tdap in lifetime, last dose within past 10 years)
- Measles- 2 doses (at least 28 days apart, after first birthday. Neither dose can be prior to 1968.)
- Mumps - 2 doses (at least 28 days apart, after first birthday. Neither dose can be prior to 1968.)
- Rubella - 2 doses (at least 28 days apart, after first birthday. Neither dose can be prior to 1968.)
- Meningococcal - 1 dose (if under the age of 22, taken on or after 16th birthday)

Additional, DePaul University requires that all students who enroll and attend a campus location provide proof of the following:

- COVID 19 – 2 doses from Pfizer (21 days apart) or 2 doses from Moderna (28 days apart) or 1 dose from Johnson & Johnson.

Please visit the Immunization Requirements (http://www.depaul.edu/admission-and-aid/admitted/Pages/immunizations-requirements.aspx) webpage for more information.

Leave of Absence

A student who requires time away from their academic program but who intends to re-enroll at DePaul within four quarters may request a leave of absence. Students must be enrolled in the fourth quarter after beginning their leave of absence (excluding summer term). Students will be subject
Students seeking a leave of absence related to military service will find the procedure outlined in the Military Academic Adjustments (p. 1517) policy. Students should consult their academic advisor to determine if their college has a more restrictive leave of absence policy. This policy does not cover the College of Law; therefore, College of Law students should consult with the college if seeking a leave of absence.

Students are limited to a maximum of three quarters leave of absence for each career (undergraduate or graduate). The quarters need not be consecutive. A student wishing to take a leave of absence must complete a Leave of Absence form in Campus Connect. Their Degree Progress Report will reflect the requirements from the student’s entrance term while a student remains on leave of absence. Students are not required to reapply for admittance to the University if they re-enroll within four quarters (not including summer quarter). If a student does not return within this time frame, they must apply to be re-admitted as a student. If a student requests a leave of absence that spans fewer than the three quarters they are allowed as a maximum, they will be subject to the standard D (p. 1518) continuation Policy (p. 1518) and will be discontinued if they do not enroll in the third quarter after their leave of absence begins. Re-admission does not extend the number of terms for which a student may take a leave of absence.

Students who receive financial aid are encouraged to consult with the Office of Financial Aid at DePaul Central to discuss the effect of a leave of absence on their financial aid.

To initiate a leave of absence, a student will use the tool in Campus Connect (select the “Academic Records” tile and click on “Leave/Withdrawal Request”). Upon submitting their request, the student will receive a notification of its receipt from the Office of the University Registrar. The student will receive a second email once their leave of absence is processed.

**Transfer Students**

1. Transfer students must meet all Liberal Studies Program requirements: First Year Program, the Seminar on Multiculturalism in the United States (unless the student has completed the IAI/GECC), the Experiential Learning Requirement, the Senior Capstone, and the domain courses, as specified by the student’s primary major.

2. Transfer courses are applied to the most appropriate learning domain, based on articulations vetted through the Transfer Articulation Center according to the posted learning outcomes and writing expectations for each requirement.

3. Students who enter DePaul with 30 or more quarter hours may not enroll in Discover Chicago/Explore Chicago or Focal Point courses. Instead, they will complete two domain electives outside their area of specialization, using either transfer credit or DePaul credit.

4. Students may complete the LSP writing requirement with either transfer credit or coursework completed at DePaul. Placement in DePaul writing courses is determined by a placement process.

a. Transfer students who enter DePaul with earned credit for WRD 104 COMPOSITION AND RHETORIC II and not WRD 103 COMPOSITION AND RHETORIC I may satisfy the second writing course requirement by taking any one of the following expository writing courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Quarter Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>WRD 103</td>
<td>COMPOSITION AND RHETORIC I</td>
<td>4</td>
</tr>
<tr>
<td>WRD 203</td>
<td>STYLE FOR WRITERS</td>
<td>4</td>
</tr>
<tr>
<td>WRD 206</td>
<td>PROFESSIONAL WRITING</td>
<td>4</td>
</tr>
<tr>
<td>WRD 240</td>
<td>ARGUMENTATIVE WRITING</td>
<td>4</td>
</tr>
<tr>
<td>WRD 300</td>
<td>COMPOSITION AND STYLE</td>
<td>4</td>
</tr>
</tbody>
</table>

Permission to substitute an open elective for the second writing course may be granted based on a review of documentation showing superior achievement and/or professional experience in advanced, expository writing. For more information, please contact the First-Year Writing Program Office.

b. Transfer students who met first-year writing requirements at their previous institution through coursework other than equivalents of WRD 103 COMPOSITION AND RHETORIC I and WRD 104 COMPOSITION AND RHETORIC II may petition their college offices for a waiver or substitution of this requirement. The petition should include a course description and, if possible, a syllabus. Petitions will be sent to the Director of First-Year Writing who will review them on a case-by-case basis and make a recommendation to the appropriate associate dean. Based on information from the course description and syllabus, a determination will be made as to whether the student should take WRD 103 COMPOSITION AND RHETORIC I and/or WRD 104 COMPOSITION AND RHETORIC II.
5. Applying transfer credit to the Experiential Learning requirement:
   a. Internships: DePaul generally does not award Experiential Learning credit for internships or cooperative learning courses taken at another college or university. Students seeking to request a substitution should contact their home college office for more information on procedures. The student must make the case that the course meets the Experiential Learning guidelines.
   b. Study Abroad: Students who transfer in credit from a full-year or term-long study abroad program through an accredited institution, consisting of no less than ten weeks abroad and no less than 12 credits abroad, and having received grades of no less than a "C" in these courses, may use one of these courses to fulfill the Experiential Learning Requirement.

6. The Liberal Studies Senior Capstone requirement may not be substituted or waived. Students who have more than one major should consult with their academic advisor as to their specific Capstone requirement(s).

7. Accumulation of additional credit that fulfills Liberal Studies requirements: In some circumstances, students may earn transfer credit that exceeds Liberal Studies requirements. For example, coursework from institutions organized by semesters earn 1.5 quarter hour credits for each semester hour. Hence each 3-credit course transferred from a semester institution earns 4.5 credits at DePaul. As a result, students may have credits that exceed the required number in a particular component of the program. These excess general education credits may be added up and, when the sum reaches 4 quarter hours (and multiplies thereof), applied to other Liberal Studies requirements as follows:
   a. Students who have earned more than 30 credits may use the excess credit to fulfill the domain electives that replace Discover/Explore Chicago and the Focal Point Seminar. This substitution will be applied before any other.
   b. Students must complete at least one course in each domain, whether through transfer/test credit or DePaul credit. Once that requirement has been met, students may apply the excess credit to any of the following domains: Arts & Literature; Historical Inquiry; Philosophical Inquiry; Religious Dimensions; or Social, Cultural, and Behavioral Inquiry. College-specific rules may apply; see your academic advisor.
   c. Students may combine excess credit with the Modern Language Option within a single domain as long as they complete at least one course (transfer or DePaul) per domain.
   
8. Students who have test credit must have official score reports sent directly to the Transfer Articulation Center (TrAC).

Transfer Students Who Complete the GECC of the IAI

Transfer Credit, General Education Core Curriculum (GECC) of the Illinois Articulation Initiative (IAI)

DePaul University participates in the General Education Core Curriculum (GECC) of the Illinois Articulation Initiative (IAI) only. DePaul does not participate in Phase Two, the Major Phase.

Completion of the GECC/IAI at any participating college or university in Illinois ensures transferring students that most of the general education requirements at DePaul have been satisfied. Hence the GECC/IAI will be accepted as a package. Students who have completed the GECC/IAI should consult with their academic advisor in their college prior to registering for classes. Students who are in DePaul University's Honors Program should consult with the program director as to their program requirements. The additional requirements outlined in this policy apply only to those students in degree programs that participate in DePaul University's Liberal Studies Program.

Students who have completed the GECC/IAI must also meet the following mission-specific requirements in DePaul's Liberal Studies Program:

- Two Religious Dimensions courses (RD)
- Two Philosophical Inquiry courses (PI)
- Experiential Learning
- Senior Capstone

Guidelines

1. In an effort to enable students to make the most complete use of their transfer credit, some portion of the two RD and PI courses may be waived under certain circumstances, as long as all students complete at least one PI and at least one RD either through transfer credit or DePaul courses. The following guidelines will direct students and their academic advisors in applying GECC credit and meeting the additional mission-specific requirements:
   a. Students who have accumulated sufficient excess liberal studies credits, may apply the credit toward the waiver of up to one PI and up to one RD requirement; see the Liberal Studies Guidelines section (#7 under Transfer Students).
   b. Students who have used the equivalent of PI and/or RD courses to fulfill GECC/IAI requirements may substitute learning domain course credit (DePaul or Transfer) for a corresponding number of PI/RD mission-specific requirements.
   c. Students who have completed and transferred in the equivalent of a PI or RD course external to the GECC/IAI requirements may use that course to fulfill the appropriate mission-specific requirement.
   d. Students may choose to complete LSP 200 SEMINAR ON RACE, POWER, AND RESISTANCE (FORMERLY MULTICULTURALISM IN THE U.S.) in place of either a PI or RD requirement.

The following table summarizes these policies put into practice:

<table>
<thead>
<tr>
<th>Mission Specific Courses—4 Courses Required (2 PI and 2 RD)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Course</strong></td>
</tr>
<tr>
<td>------------</td>
</tr>
<tr>
<td>Course 1</td>
</tr>
<tr>
<td>Course 2</td>
</tr>
</tbody>
</table>
Course 3
Course may be WAIVED with sufficient excess LSP credit. If there is not sufficient excess LSP credit, then the course must be designated as one of the following: PI or RD (DePaul or Transfer), LSP 200, or LSP Elective (if second PI or second RD course is included in the GECC).

Course 4
Course may be WAIVED with sufficient excess LSP credit. If there is not sufficient excess LSP credit, then the course must be designated as one of the following: PI or RD (DePaul or Transfer), LSP 200, or LSP Elective (if second PI or second RD course is included in the GECC).

2. If a course included in the GECC package also fulfills a specific course requirement in the student’s primary major, that single course may be used to fulfill both requirements. Elective credit will be adjusted accordingly to ensure that a student earns 192 credits for degree completion.

3. Students transferring from an IAI participating institution with two or fewer IAI requirements remaining may elect to complete the GECC/IAI package with DePaul courses or additional transfer credit that meet the subject area and mission-specific requirements.

4. Students pursuing the GECC/IAI option must earn a grade of “C” or higher in both WRD 103 COMPOSITION AND RHETORIC I, and WRD 104 COMPOSITION AND RHETORIC II. Students must earn a grade of “C-“ or higher in the courses that will apply to the primary major, secondary major, or minor. Students who have test credit must have official score reports sent directly to the Transfer Articulation Center for review.

Students who have earned an Associate of Arts (AA) degree or Associate of Science (AS) degree from an IAI participating institution have satisfied the requirements for the GECC/IAI.

This agreement is in effect for students who entered an associate or baccalaureate degree-granting institution as first-time freshmen in the summer of 1998 and thereafter.

For more information on applying transfer credit to the Liberal Studies program see the Liberal Studies Program Guidelines section of the handbook.

Military Academic Adjustments

DePaul University will make academic adjustments for students in the military consistent with all applicable legal requirements. This could include, for example: academic adjustments with a course, options regarding withdrawals or leaves of absence, and readmission at the conclusion of active duty. The details of any academic adjustments are dependent on the student’s specific military orders.

Procedures Regarding Withdrawals and Leaves of Absence: Students who are in the military and called to active duty that interrupts their enrollment must complete the DePaul University Leave/Withdrawal Request in Campus Connect. Students should indicate “military” on the application in Campus Connect. Upon their return, they will meet with an academic advisor to discuss resuming their studies.

Students are encouraged to contact the Veterans Student Affairs Office (https://offices.depaul.edu/student-affairs/support-services/for-specific-populations/Pages/veteran-services.aspx) for more information about other specific procedures regarding withdrawals, leaves of absence, academic adjustments, and for information regarding other policies that may be particularly applicable to students in the military.

Missing Student Notification Policy

Any member of the university community who believes that a student is a missing student should immediately contact DePaul Public Safety at (773) 325-7777. A “missing student” is a student who has been reported absent from the University for 24 hours or more without any known reason. Any other DePaul office that receives a report of a missing student (for example: the Dean of Students Office, Residential Education, College/ School offices, etc.) must immediately refer that report to Public Safety.

Public Safety will promptly investigate all reports of missing students to determine the validity of the report. If the report of a missing student is validated, the designated DePaul office will, within 24 hours of receiving the initial report:

1. Notify local law enforcement that the student is a missing student.

2. If the missing student has designated an emergency contact(s), including an additional emergency contact specifically related to being a Missing Student, attempt to notify the missing student’s emergency contact(s) that the student is a missing student. Students are responsible for updating all emergency contact information in Campus Connect. All emergency contact information is only available to authorized DePaul personnel, and will only be released for approved purposes, such as to law enforcement in furtherance of a missing person investigation.

3. If the missing student is under 18 and not emancipated, attempt to notify the student’s parent/guardian that the student is a missing student.

Public Safety is responsible for communicating all validated reports of missing students to local law enforcement within 24 hours of receiving the initial report.

Public Safety will work with Student Affairs regarding all reports of missing students. Student Affairs is responsible for communicating with a missing student’s emergency contact(s) (and if applicable, a missing student’s parent/guardian) within 24 hours of receiving the initial report.

Students have the option to designate one or more emergency contacts in Campus Connect. This includes designating an additional emergency contact specifically related to being a Missing Student. If a student is a Missing Student, DePaul will notify those emergency contacts specifically designated as emergency contacts for Missing Student situations, and may notify other emergency contacts as well.

In order to make students aware of this policy, including the student’s option to designate an emergency contact in Campus Connect, this policy will be summarized in DePaul’s Annual Safety and Security Information Report, in the Undergraduate Student Handbook, and in the Graduate Student Handbook.
NonEnrollment/Discontinuation

Students who complete a term and do not enroll for the following term at DePaul remain active and eligible to enroll until they are formally discontinued. Discontinuation occurs when:

1. The student does not register in the term for which they were admitted.
2. The student does not register for three consecutive quarters (or for Law, two semesters), excluding summers. In these cases students must seek readmission.
3. The student has not made progress toward the degree for three consecutive quarters (or for Law, two semesters), excluding summers.

Candidates for theses, dissertations and students on year-long study abroad programs are excluded from this rule. In these cases, students must meet with a college academic advisor to get permission to register and/or seek readmission.

Students in the School of Music, The Theatre School, or the College of Law who intend to take one or more terms off must consult their college office.

Students who are suspended from the University through the Student Conduct Process or the Academic Integrity process, or students who are participating in a University-initiated temporary medical withdrawal process, are not discontinued until they do not register or make progress toward the degree for three consecutive quarters (or for Law, two semesters) following the date on which they could be eligible for return. In these cases students must seek readmission.

Placement Process

Online Placement Process

All new (non-SCPS) undergraduate students are required to complete the placement process for Math and Writing. Modern Language and Chemistry placement exams are optional. The placement process helps to ensure you are registered in a course that best builds on your current skills so that you can succeed in your studies at DePaul.

The Online Placement Process does not award course credit, but is used to provide course placement for entering freshman and transfer students. Placement tests at DePaul are offered in the areas of Mathematics, Chemistry and Modern Languages (Arabic, Chinese, French, German, Italian, Japanese, Polish, Russian, and Spanish).

Students will self-assess their skill level in Writing. Based on their responses they will be guided to select the Writing course that is most appropriate.

Exemptions from Online Placement Process

Some students are exempt from the process based on standardized test scores and/or other prior course history. In addition, the mathematics and modern language requirements vary for some degree programs at DePaul. Before starting the placement process online, please review the exemptions and specific guidelines for different majors/colleges on the Office of Admission website.

Freshman students are required to complete the Writing and all five sections of the Math placement process before they are allowed to register for orientation.

Posthumous Degree

A posthumous degree may be awarded to degree-seeking candidates who were actively enrolled and in good academic standing. Undergraduate students must have earned at least 132 credit hours; graduate and professional students must have completed at least 75% of the curriculum required for their degree.

For all other cases, the Dean may request a Certificate of Accomplishment be awarded to honor the student’s progress toward the degree and accomplishments as a member in good standing of the DePaul community.

Probation

Any student who fails to maintain a 2.000 cumulative grade point average (C average) is on academic probation. A student is removed from academic probation when the cumulative grade point average reaches the required minimum of 2.000. A student’s academic status is reviewed after any Autumn, Winter, Spring and Summer quarters in which the student was enrolled in at least 1 credit hour. A probationary student may be limited to 12 credit hours per quarter until a cumulative GPA of 2.000 is reached. A student who remains on probation for three sequential quarters of enrollment may be dismissed.

Registration

Students are responsible for planning their own programs and for completing course sequences and degree requirements. In planning each quarter’s course of studies, students should remember that required courses take precedence over elective courses, and that some advanced courses have prerequisites that must be completed first. Students should be guided by their interests or needs where electives are indicated. A student regularly employed is advised to discuss his or her course load for each quarter with an advisor prior to registration. Advisors are available to assist students in planning programs and schedules.

General Regulations

1. Students can add, drop, or swap classes via Campus Connect. It is the student’s responsibility to verify that the transaction has been processed.
2. Students will receive credit only for classes for which they are registered.
3. Students who are not on the class roster are responsible for completing the steps necessary to resolve the issue. It is not the responsibility of the instructors to resolve the problem.
4. Student must officially register for classes by the stated deadline. For 10-week classes, the deadline is the end of the first week of the term.
5. The University is required to report enrollment and attendance to fulfill requirements established by several governmental agencies. To satisfy these requirements, it is University policy that attendance will be monitored in all classes. Each school or college maintains additional specific policies concerning attendance. Students should
become familiar with these policies. Promptness is expected of a student for all class sessions. Tardiness of more than ten minutes is generally to be considered by the instructor as an absence.

6. Students’ status at the university will be changed from “active” to “discontinued” if:
   a. There is no enrollment in the term of admittance.
   b. There is no registration activity for three consecutive quarters excluding summers - in which case these students must seek readmission;
   c. No progress has been made towards their degree for three consecutive terms, excluding summers. (Candidates for theses and students on year-long study abroad programs are excluded from this rule.)

7. Students who have been "discontinued,” must apply and be approved for readmission to continue their studies.

**Academic Calendar Formulas**

Academic calendar deadline dates are based on the following formulas. These formulas are particularly important for classes that meet outside the standard (10 week term plus finals week) start and end dates for a term. Please consult your college office for specific dates relevant to your class.

- Students may not add classes after 10% of the scheduled class has elapsed.
- Students who drop a class or classes after 20% of the scheduled class has elapsed will be responsible for 100% tuition and a grade of W will be assigned.
- Students may not select a Pass/Fail grading option after 20% of the scheduled class has elapsed.
- Students may not select Audit (non-credit) grading option after 30% of the scheduled class has elapsed.
- Students may not withdraw from classes after 70% of the scheduled class has elapsed.

**College/School Regulations**

- Students may audit classes only with permission of their advisor or college office. Students may not change the status of credit to audit or vice-versa after 30% of the term has elapsed (the third week of class for a 10 week class). Full tuition is assessed for audited classes.
- Students interested in earning credit in transfer must obtain approval from their college office prior to registration at the other institution.
- Extension courses taught through other accredited institutions are accepted only when the sponsoring institution itself conducts the courses and certifies the grade and credit through an official transcript. A DePaul degree-seeking student must obtain the written permission of his or her dean before enrolling in an extension course.

**Requirement Term**

**Undergraduate DePaul University Requirements**

A student will complete the degree requirements in place at the time of first enrollment as a degree-seeking student.

**College/School Requirements**

A student will complete the college/school requirements in place at the time of first enrollment in the College as a degree-seeking student. A student who changes college/school while their studies are in progress will complete the college/school requirements in place at the time of the inter-college transfer.

A student who completes an inter-college transfer during a break between terms will follow the requirements in place for the term immediately following the break.

**Major/Minor Requirements**

A student will complete the major/minor (or corresponding "intended" or "pre" major/minor) requirements in place at the time of declaration. A student who changes majors/minors while their studies are in progress will complete the requirements in place at the time they declare the new major/minor (or corresponding "intended" or "pre" major/minor). Specific Liberal Studies or University Honors course requirements are determined by the student's primary academic major.

A student who changes major/minor during a break between terms will follow the requirements in place for the term immediately following the break.

In majors and minors with concentrations/tracks/specializations, the student’s major and concentration/track/specialization requirements will be determined by the term the student declares the concentration. Students should be aware that declaring or changing a concentration may change their degree requirements for the full major.

**Readmission**

A student who applies for readmission will be subject to all degree requirements in place in the enrollment term of readmission.

**DePaul Admission Partnership Program**

The initial term of official participation in the DePaul Admission Partnership Program (DAPP) will determine the student’s degree requirements. Once in the DePaul Admission Partnership Program,
students who change college/school and/or major/minor follow the DePaul requirement policy guidelines detailed above.

Students must transfer and enroll at DePaul within three years of initial participation to lock in these degree requirements. Students who do not transfer within this time period will follow the degree requirements in place at the time they enroll at DePaul.

**Dual Admission**

Program requirements for dual admission students will be those in place at the time of the student’s first enrollment in the dual admission program at the partner institution.

**Other Information**

A student currently enrolled in a degree program in which revisions are approved while their studies are in progress may elect to formally adopt the revised requirements.

**Requirements, Curriculum**

Official changes in courses, course numbers, titles, descriptions, and prerequisites and minor changes in program requirements may be made on a quarterly basis.

Multiple changes or thorough revisions in the requirements of a program, major, or concentration which have received the required university approvals may be made twice each year. Changes approved by May 15th will be effective for the Autumn term, and those by October 15th will be effective for the Winter/Spring/Summer terms.

New programs, majors, or concentrations that have received the required university approvals may be added to the University Catalog edition that corresponds with the first term the program is active.

**Requirements, Program Termination/Substantial Change**

If an undergraduate major, graduate or law degree program is terminated or a program undergoes substantial changes, there must be a plan in place and a commitment to provide a reasonable opportunity for those active in the program to complete the current requirements of the degree.

The chart below provides the maximum time frame allowed to complete the degree from the point of termination/change:

<table>
<thead>
<tr>
<th>Type of Program</th>
<th>Maximum Time Allowed¹</th>
</tr>
</thead>
<tbody>
<tr>
<td>Undergraduate majors</td>
<td>4 years</td>
</tr>
<tr>
<td>Undergraduate SCPS programs</td>
<td>6 years</td>
</tr>
<tr>
<td>Graduate programs (thesis required)</td>
<td>4 years</td>
</tr>
<tr>
<td>Graduate programs (MFA)</td>
<td>4 years</td>
</tr>
<tr>
<td>Graduate programs (thesis not required) and Professional MJ and LLM programs</td>
<td>3 years</td>
</tr>
<tr>
<td>Doctoral programs (embedded master's program)</td>
<td>8 years</td>
</tr>
<tr>
<td>Doctoral programs (stand-alone)</td>
<td>5 years</td>
</tr>
<tr>
<td>Professional JD programs</td>
<td>4 years</td>
</tr>
</tbody>
</table>

¹ If a program wishes to set shorter time frame for completion, they must explain their rationale and obtain approval from Faculty Council.

For programs with substantial changes, students may elect to pursue the new requirements in accordance with the Requirement Term Policy (p. 1519). Those students who are not able to complete their degree requirements within this time frame will be moved into the new requirements. For programs that have been terminated, undergraduate students may request to pursue a new major and graduate students may apply to a new graduate program. In addition, those students who are not able to complete a terminated degree program within this time frame will be advised of other program opportunities that may be available.

Students are responsible for working with their advisors to develop a plan to finish within the stated timeframe. It is the student’s responsibility to complete required courses when they are offered. Students should not wait to complete required coursework.

For required courses that will no longer be offered, the department will provide substitutions. Waivers may also be granted; however the student must still meet the minimum credit hours required.

Students admitted into or those who are in the admission process for a terminated program will be advised of alternative programs.

Once a program has been approved for termination, students will no longer be admitted or readmitted into the program and students will no longer be able to declare that major or program. The only exceptions to this are active students officially in an “intended” or “pre” major or students officially in a combined bachelor’s/master’s program. In accordance with the requirement term policy, students who are discontinued will not be eligible to be readmitted into a terminated program.

**Transcripts**

The Office of the University Registrar processes official transcript requests for DePaul University. Official transcripts can be requested online through Campus Connect.

The Family Educational Rights and Privacy Act of 1974 prohibits release of confidential transcript information without the student’s authorization.

Transcripts will be issued only after the student has fulfilled all financial obligations to the University.

**Transfer Credit, Illinois Articulation Initiative (IAI)**

**Transfer Credit, General Education Core Curriculum (GECC) of the Illinois Articulation Initiative (IAI)**

DePaul University participates in the General Education Core Curriculum (GECC) of the Illinois Articulation Initiative (IAI) only. DePaul does not participate in Phase Two, the Major Phase.

Completion of the GECC/IAI at any participating college or university in Illinois ensures transferring students that most of the general education requirements at DePaul have been satisfied. Hence the GECC/IAI will be accepted as a package. Students who have completed the GECC/
IAI should consult with their academic advisor in their college prior to registering for classes. Students who are in DePaul University's Honors Program should consult with the program director as to their program requirements. Students who are in DePaul University's School of Continuing and Professional Studies (SCPS) should consult with their academic advisors as to their program requirements. The additional requirements outlined in this policy apply only to those students in degree programs that participate in DePaul University's Liberal Studies Program.

Students who have completed the GECC/IAI must also meet the following mission-specific requirements in DePaul's Liberal Studies Program:

- Two Religious Dimensions courses (RD)
- Two Philosophical Inquiry courses (PI)
- Experiential Learning
- Senior Capstone

Guidelines

1. In an effort to enable students to make the most complete use of their transfer credit, some portion of the two RD and PI courses may be waived under certain circumstances, as long as all students complete at least one PI and at least one RD either through transfer credit or DePaul courses. The following guidelines will direct students and their academic advisors in applying GECC credit and meeting the additional mission-specific requirements:
   a. Students who have accumulated sufficient excess liberal studies credits, may apply the credit toward the waiver of up to one PI and up to one RD requirement; see the Liberal Studies Guidelines section (#7 under Transfer Students).
   b. Students who have used the equivalent of PI and/or RD courses to fulfill GECC/IAI requirements may substitute learning domain course credit (DePaul or Transfer) for a corresponding number of PI/RD mission-specific requirements.
   c. Students who have completed and transferred in the equivalent of a PI or RD course external to the GECC/IAI requirements may use that course to fulfill the appropriate mission-specific requirement.
   d. Students may choose to complete LSP 200 SEMINAR ON RACE, POWER, AND RESISTANCE (FORMERLY MULTICULTURALISM IN THE U.S.) in place of either a PI or RD requirement.

The following table summarizes these policies put into practice:

<table>
<thead>
<tr>
<th>Course</th>
<th>Policy</th>
</tr>
</thead>
<tbody>
<tr>
<td>Course 1</td>
<td>Course must be designated as PI (if course is DePaul PI or Transfer PI from outside GECC) or LSP Elective (if PI course is included in the GECC).</td>
</tr>
<tr>
<td>Course 2</td>
<td>Course must be designated as RD (if course is DePaul RD or Transfer RD from outside GECC) or LSP Elective (if RD course is included in the GECC).</td>
</tr>
<tr>
<td>Course 3</td>
<td>Course may be WAIVED with sufficient excess LSP credit. If there is not sufficient excess LSP credit, then the course must be designated as one of the following: PI or RD (DePaul or Transfer), LSP 200, or LSP Elective (if second PI or second RD course is included in the GECC).</td>
</tr>
<tr>
<td>Course 4</td>
<td>Course may be WAIVED with sufficient excess LSP credit. If there is not sufficient excess LSP credit, then the course must be designated as one of the following: PI or RD (DePaul or Transfer), LSP 200, or LSP Elective (if second PI or second RD course is included in the GECC).</td>
</tr>
</tbody>
</table>

2. If a course included in the GECC package also fulfills a specific course requirement in the student's primary major, that single course may be used to fulfill both requirements. Elective credit will be adjusted accordingly to ensure that a student earns 192 credits for degree completion.

3. Students transferring from an IAI participating institution with two or fewer IAI requirements remaining may elect to complete the GECC/IAI package with DePaul courses or additional transfer credit that meet the subject area and mission-specific requirements.

4. Students pursuing the GECC/IAI option must earn a grade of "C" or higher in both WRD 103 COMPOSITION AND RHETORIC I, and WRD 104 COMPOSITION AND RHETORIC II. Students must earn a grade of "C-" or higher in the courses that will apply to the primary major, secondary major, or minor. Students who have test credit must have official score reports sent directly to the Transfer Articulation Center for review.

Students who have earned an Associate of Arts (AA) degree or Associate of Science (AS) degree from an IAI participating institution have satisfied the requirements for the GECC/IAI.

This agreement is in effect for students who entered an associate or baccalaureate degree-granting institution as first-time freshmen in the summer of 1998 and thereafter.

For more information on applying transfer credit to the Liberal Studies program see the Liberal Studies Program Guidelines section of the handbook.

Transfer Credit, Undergraduate

Transfer Credit Conversion

DePaul University's academic calendar is based on the quarter system. College credit is accumulated on the basis of quarter hours. To convert credit hours from the semester system to the quarter system, multiply 1.5 (example: 3 semester hours x 1.5 = 4.5 quarter hours). The minimum number of hours required for graduation with a bachelor's degree is 192 quarter hours.
Types of Transfer Credit Accepted by DePaul University

The following statements describe DePaul’s transfer credit policies:

1. DePaul will accept for transfer credit baccalaureate-level courses completed at baccalaureate granting US institutions that are fully accredited by one of the regional accrediting organizations. DePaul does not accept credit from institutions that are not regionally accredited.

2. DePaul will accept transfer credit from tertiary level international institutions that are formally recognized by their country’s ministry of education or its equivalent. All international transfer credit must meet DePaul University, college-level appropriate content, which will be determined through a course-by-course review and approval process before credit is awarded. If the course syllabus or other course documentation is not written in English, students are responsible for translating the documents for review when necessary. Credit earned through tertiary institutions abroad, credit will be determined by the standard credit conversion systems in place. In cases where the transcript does not articulate standard credits, credit will be awarded based on instructional time, as outlined in the Evaluation and Credit policy (one quarter hour granted per 7.5 hours of instructional time within a 10-week period). Transfer credit for one course through tertiary institutions abroad may be awarded up to a maximum of 9 quarter credits when official transcripts do not articulate standard credits (67.5 hours of instructional time within a 10-week period). Credits are processed as either international admissions transfer credit (a) or study abroad transfer credit (b).
   a. Transfer applicants seeking to transfer undergraduate credit to DePaul from a foreign institution in their countries of permanent residence/citizenship are required to submit a course by course evaluation from Educational Perspectives (EP), Educational Credential Evaluators (ECE) or One Earth International Credential Evaluations. As an alternative, students may petition to submit a course-by-course evaluation from another organization approved by the National Association of Credential Evaluation Services (NACES). To further facilitate the process of determining what credit will transfer to DePaul, students are required to submit course descriptions and may be asked for syllabi (translated into English).
   b. Current DePaul students interested in studying abroad are required to submit a non-DePaul study abroad program application, including course approval requests, by the application deadline listed on the Study Abroad office website. DePaul will award credit for courses completed through institutions that are formally recognized by their country’s ministry of education or its equivalent, regardless of degree applicability within the institution. Transfer credit may be denied if courses are not pre-approved. Official transcripts written in a language other than English require an American Translators Association-certified translation into English.

3. DePaul will accept transfer credit college-level courses that are earned in Associate of Arts and Associate of Science degree programs at 2-year institutions fully accredited by one of the regional accrediting organizations.

4. Course credit earned at 2-year accredited institutions in other degree programs, such as the Associate of Applied Sciences or Associate of Fine Arts degrees, will be reviewed for transfer credit on a course-by-course basis. When necessary, students will be expected to provide bulletin descriptions and course syllabi to facilitate the review process.

5. In general, courses presented for transfer from 2-year, regionally accredited institutions that are earned in a certificate or professional training capacity are not eligible for transfer credit. Examples of these programs include, but are not limited to, air conditioning, automotive technology, culinary arts, travel management, paralegal studies, fashion design, child care, electronics, and medical office assistant.

6. Developmental courses (for example, pre-college level courses in math or writing), whether from 2-year institutions or baccalaureate granting institutions, are not accepted for transfer credit.

7. Credit by examination is acceptable, in some areas. See the Evaluation and Credit and Evaluation and Credit/Limitations sections for details.

8. Any credit earned as part of one’s military service through a regionally accredited institution will be reviewed on a course-by-course basis.

9. Credit for military training and education provided by the armed services will be considered in accordance with the recommendations of the American Council on Education (ACE). Military transfer credit that articulates with other DePaul coursework will follow the Evaluation and Credit Limitations policy. Students requesting military transfer credit must submit an official copy of their military record for evaluation.

10. All transfer credit that students take while concurrently enrolled at DePaul must be approved by the student’s college/school in order to apply to the DePaul degree.

Students may appeal to the Transfer Credit Articulation Center (TAC@depaul.edu) for additional review of particular courses not accepted for transfer credit. Students who make such a request must be prepared to supply official course descriptions and course syllabi. The review of all transfer credit is subject to limitations in accordance with the educational policies of DePaul University.

Transfer Credit Course Regulations

For information regarding the amount of transfer credit that can be applied to the degree, please consult the Evaluation and Credit/Limitations (p. 1506) section of this Handbook.

1. Only courses with a grade of C- or higher will apply to the student’s major or minor.

2. Students transferring the equivalent of WRD 103 and/or WRD 104 must have received grades of C- or better in these courses in order to fulfill the Liberal Studies requirement.

3. If a student has attempted a course more than once, only the most recent grade will be used for credit review. All other attempts will be considered “repeats” and will transfer no credit. Transfer courses will be identified as repeats if they meet the following criteria:
   a. The same course (as identified by course title and number) is taken more than once at the same institution;
   b. Two or more courses taken at different institutions are evaluated as meeting the same objectives.

4. If a student repeats a course at DePaul where transfer credit was awarded, all attempts of that course are considered in the application of the repeat policy.

5. Transferable courses or test credit (AP, IB, CLEP) may be applied to the major or minor, to Liberal Studies, or to open electives.

6. Due to rapid changes in some areas of major/minor study, along with various licensure standards, some courses or test credits otherwise applicable to the major or minor may be subject to a review
to determine how current the content is. As a result of this review, the course or test equivalent in question may no longer be applicable to major or minor requirements. This review may be conducted by a faculty academic advisor or, when deemed appropriate, by a staff academic advisor in consultation with faculty. If a transferable course or test credit is deemed no longer current, the student may be required to repeat the course or test credit course equivalent in order to complete the degree. Other transferable courses or test credits may be applied to the Liberal Studies Program, based on the most current articulations. Finally, transferable courses or test credits may be applied, at a minimum, towards open elective credit. If the student repeats a course, only the most recent attempt will apply toward the degree.

**Tuition Policy**

All tuition and fees are due to DePaul University by the published tuition due date for that term. All charges must be paid in-full by the payment date.

Tuition charges for any course registrations made after the due date must be paid in full within 24 hours of registration.

Tuition bills may be accessed online through Campus Connect. The student will be required to sign up for E-Bill to access their bills or to grant access to a guest user.

Students whose accounts show a balance due after the tuition due date will be subject to a late fee and prohibited from future registration, receiving transcripts and other university services.

**Withdrawal Tuition**

Students must withdraw from classes through the registration function in Campus Connect. Withdrawals processed via the web or through direct contact with the home school/college office are effective the day on which they are made. Simply ceasing to attend, or notifying the instructor, or nonpayment of tuition, does not constitute an authorized withdrawal from class and will result in academic as well as financial penalty.

When the withdrawal occurs, the tuition charge for courses during a 10-week quarter will be reduced according to the following schedule, in accord with the tuition package:

<table>
<thead>
<tr>
<th>Withdrawal</th>
<th>Refund</th>
</tr>
</thead>
<tbody>
<tr>
<td>Up to 20% or 2 weeks of a ten week term</td>
<td>100% refund</td>
</tr>
<tr>
<td>After 20% of the term</td>
<td>0% refund</td>
</tr>
</tbody>
</table>

**Notes**

- Students receiving financial aid are advised to contact a Financial Aid Counselor to discuss the consequences of a withdrawal impacting academic progress and aid eligibility at DePaul University or any other school to which they may transfer. Students in university housing are advised to contact Housing to discuss the consequences of withdrawal impacting eligibility to maintain residence.

**Withdrawal/Drop Policy**

The following policies pertain to the withdrawal from individual courses, the withdrawal of all courses for a given term, and withdrawal from the University.

There are two categories of Withdrawals:

- College/University Initiated (p. 1523)
- Student Initiated (p. 1523)

**College/University Initiated**

Under rare circumstances, DePaul University may need to administratively drop a student from a course (or courses) for which the student is registered. This policy outlines those instances and establishes the procedures to be followed by the University to drop a student from the course.

DePaul University reserves the right to administratively drop a student from a course (or courses) under a limited number of circumstances. These fall into two categories: those performed by the college offices and those performed by the Office of the Registrar.

**College Office**

A student may be administratively dropped from a course (or courses) by the home college, if the student is:

1. registered for a course (not repeatable for credit) for the third or more time and has not received appropriate permission to repeat the course again.
2. registered for a course (not repeatable for credit) in which the student originally earned a C- or better and has not received appropriate permission to repeat the course.
3. on probation and exceeds the allowable number of credit hours and has not received the appropriate permission to register for the additional hours.
4. registered for more than the maximum number of competencies allowed within competency-based courses (SCPS).
5. academically dismissed from the University.
6. registered for a course that has been cancelled.

**Office of the University Registrar**

A student may be administratively dropped from a course (or courses) by the Office of the University Registrar, if the student has:

1. not met the prerequisites for the course and has not received appropriate permission to take the course without the prerequisite.
2. been suspended for the term or permanently dismissed from the University as the result of an academic integrity violation hearing or a student code of conduct judicial board hearing.

**Student Initiated**

Students who must withdraw either from a course or from the University may do so by using Campus Connect, the University’s web registration system. Students unable to use the web registration system should contact their home school/college office, whether in person, phone or email (emails must be sent from the student’s preferred email listed in Campus Connect). Students who are physically unable to contact the university may designate someone to act on their behalf.

Withdrawals processed through Campus Connect are effective the day on which they are made. Withdrawals processed through the student’s home school/college office are effective:
• in person: the date the student had the transaction processed in the office
• for email: the date the email was sent
• for mail: the date the letter was received

Simply ceasing to attend, or notifying the instructor, or nonpayment of tuition, does not constitute an official withdrawal from the course and will result in academic as well as financial penalty.

A. Withdrawal from One or More Courses
Students who wish to withdraw from one or more courses within a term, must do so by the stated deadline dates for that term. Students who missed the deadline due to extenuating circumstances should consult section C.

Students who withdraw from all courses for a term, and who plan to return the next term, are eligible to register for the next term.

Students who plan to permanently withdraw from the University should consult Section B.

B. Withdrawal from the University
Students who decide to permanently withdraw from the University must do so using the DePaul University Permanent Withdrawal/Military Leave Request application in Campus Connect. Students are strongly encouraged to consult with their advisor before doing so.

1. Students enrolled for current and/or future terms are required to withdraw from all courses before requesting permanent withdrawal in the DePaul University Permanent Withdrawal/Military Leave Request application in Campus Connect.
2. Students who are not currently enrolled and wish to permanently withdraw from the university should complete the DePaul University Permanent Withdrawal/Military Leave Request application in Campus Connect.
3. Students who wish to return to the University after a permanent withdrawal must complete an application for readmission.

C. Late Withdrawals
In rare circumstances, students who missed the deadline to withdraw from a course (or courses), may request a late withdrawal from either the Dean of Students office or the student’s home college office.

1. Decision-making for late withdrawals resides primarily in the Dean of Students Office for personal/medical issues; and in the School/College Offices for all other issues. These principles underlie the decision-making processes:
   All policies are driven by academic concerns:
   a. Decisions are guided by the best interests of the students.
   b. Decisions will be made in compliance with federal regulations.
2. Restrictions on requesting approval for late withdrawal:
   Requests for late withdrawals from one or more courses in a given quarter must be submitted to either the Dean of Students Office (for medical/personal withdrawals), or the student’s home School/College Office (for administrative withdrawals) by the following deadlines.

For Undergraduate/Graduate:

• Autumn Quarter: Last day of the last final exam of the subsequent winter quarter.

• Winter Quarter: Last day of the last final exam of the subsequent spring quarter.
• Spring Quarter: The end of the second week of the subsequent autumn quarter.
• Summer Terms: Last day of the last final exam of the subsequent autumn quarter.

For the College of Law:

• Fall Semester: Last day of the final exam period for the fall semester.
• Spring Semester: Last day of the final exam period for the spring semester.
• Summer Semester: Last day of the final exam period for the summer semester.

College of Law students filing a late withdrawal appeal in the Fall or Spring semester of the first year of law school must request withdrawal from all courses.

During their college career, students may be allowed one medical/personal approved administrative withdrawal and one college office administrative withdrawal, each for one or more courses in a single term.

University Resources
This section provides information on an array of university resources, all designed to help you make the most of your experience at DePaul. We encourage you to read through this whole section when you arrive at DePaul, and then refer back to individual pages for information on specific resources as you need them.

Adult, Veteran and Commuter Student Affairs
Through collaborations with university and external partners, the Office of Adult, Veteran and Commuter Student Affairs assists students in their transition to college, provides support, resources and programs that help students persist and succeed academically, and works to promote an environment that is inclusive of the non-traditional student experience in which adult, veteran and commuter students can thrive as engaged members of the DePaul community.

You can find more information here: Adult (https://offices.depaul.edu/student-affairs/support-services/for-specific-populations/Pages/adult-services.aspx), Veteran (https://offices.depaul.edu/student-affairs/support-services/for-specific-populations/veteran-services/Pages/default.aspx), and Commuter (https://offices.depaul.edu/student-affairs/support-services/for-specific-populations/Pages/commuter-services.aspx).

As a result of participating in Adult, Veteran, and Commuter Student Affairs programs, students will be able to:

• Demonstrate life, academic, and career skills.
• Actively manage their transition to DePaul student life.
• Demonstrate self-advocacy and utilize appropriate resources when needs arise.
• Overcome engagement barriers associated with their non-traditional student status to participate in and contribute to the DePaul Community.
Career Center

At the DePaul University Career Center, we believe the path to your successful future starts with you. By helping you understand and shape your passions, interests and skills, we connect you with majors, internships, jobs and opportunities so that you can take on Chicago—and the world—with vigor, knowledge and preparation. No matter where you are in your career search, whether it's deciding on a major or career path, making a career change, or preparing for your first job interview, we can help.

- Explore career options whether you are just starting your job search or are looking for a change.
- Meet with a career community advisor (https://resources.depaul.edu/career-center/career-advising/Pages/career-communities.aspx) to talk about how your passions, skills and academic interests match a variety of careers.
- Gain experience and earn academic credit with an internship through the University Internship Program.
- Find a job with one of the thousands of employers who recruit DePaul grads. Login to Handshake (https://depaul.joinhandshake.com/login/) to get started.
- Connect with DePaul alumni through the Alumni Sharing Knowledge (https://resources.depaul.edu/career-center/services-resources/Pages/alumni-sharing-knowledge.aspx) (ASK) Network for career-related networking and mentoring.

The Career Center is located at DePaul's Lincoln Park Campus in SAC 192 and at the Loop Campus in DePaul Center 9500. Students may contact the office at (312) 362-8437 for appointments, or visit the Career Center website (https://resources.depaul.edu/career-center/Pages/default.aspx) (https://resources.depaul.edu/career-center/Pages/default.aspx) for additional information.

Center for Students with Disabilities

The Center for Students with Disabilities (CSD) coordinates DePaul University's provision of accommodations and other services to students with disabilities pursuant to the Americans with Disabilities Act and Section 504 of the Rehabilitation Act. CSD regularly works with students diagnosed with a range of disabilities such as learning disabilities, AD/HD, medical conditions, chronic illness, mental health disorders, and physical/visual disabilities, amongst others. Student success is at the core of the CSD's mission and fits integrally with DePaul University as a diverse learning community.

Students are encouraged to enroll with CSD to receive accommodations and additional support services. CSD students are enrolled in all Colleges and Schools at DePaul, and may be full-time, part-time, undergraduate, or graduate level students. Some accommodations and services may include extended time on exams, assistance with note-taking, adaptive equipment, real-time captioning, classroom accommodations, advocacy, and assistive technologies amongst other support services.

CSD enrollment procedures require appropriate documentation of a student's disability and other identified information, as well as a personal meeting with CSD staff.

CSD is also a resource for faculty and staff who may have questions about accommodating, or otherwise working with, students with disabilities.

CSD has two full-service office locations:
- Lincoln Park Campus, Student Center 370, 773/325-1677
- Loop Campus, Lewis Center 1420, 312/362-8002

For more information, please view the Center for Students with Disabilities website http://offices.depau.edu/student-affairs/about/departments/Pages/csd.aspx or contact staff at csd@depaul.edu.

As a result of participating in Center for Students with Disabilities programs and services, students will be able to:
- Develop competencies in effective communication, critical thinking, technological prowess, and wellness skills to foster academic and personal success at DePaul and afterwards.
- Develop self-awareness and understanding of personal strengths and challenges to become effective self-advocates and assume their individual responsibilities in actively pursuing their roles in the academic community.
- Accept aspects of disability culture and diversity.
- Effectively manage personal and learning challenges to successfully interact in academic, professional, and social environments and as future contributing members of society.
- Demonstrate connections of acquired knowledge to other knowledge, ideas and experiences and relate knowledge to daily life.

For years, Croak Student Legal Services (CSLS) provided free and confidential legal advice to DePaul students. CSLS is no longer a stand-alone legal services office, but now offers legal guidance through workshops offered by the Croak Community Legal Clinic. The clinic is named after Rev. Thomas M. Croak, C.M., a Vincentian priest and lawyer who started the Croak Student Legal Services to provide legal resources to DePaul students. The Croak Community Legal Clinic is an outgrowth of that program and a continuation of Rev. Croak's dedication to knowledge, education and public service. These workshops are designed to help you understand your legal rights and obligations and help you find useful resources. To learn more about the workshops, please visit http://sls.depaul.edu (http://sls.depaul.edu/).

Dean of Students Office

The Dean of Students Office is an invaluable resource, advocate and support for providing and identifying resources and services for students. The office helps individuals in navigating the university, particularly during difficult situations, as in personal, medical, mental health, and/or family crises. The Dean of Students Office is also responsible for overseeing the Code of Student Responsibility and managing the Student Conduct Process.

Additional information is available from the Dean of Students Office (https://offices.depaul.edu/student-affairs/about/departments/Pages/dos.aspx).

As a result of participating in Dean of Students programs and services, students will be able to:

- Utilize appropriate university and community resources to manage personal, professional and academic challenges.
- Utilize self-assessment strategies and develop skills to become empowered self-advocates.
- Communicate community standards and take responsibility for choices and actions.

Department of Housing, Dining & Student Centers

The Department of Housing, Dining & Student Centers, through its quality facilities and dedicated staff, promotes safe and inclusive on-campus communities that support and empower student academic success and personal development.

For more information about options on the Lincoln Park and Loop campuses and how to apply for room and board, visit http://offices.depaul.edu/housing (http://offices.depaul.edu/housing/).

DePaul Central

DePaul Central is your one-stop resource for helping students manage the business side of being a student. Services include: Account Transactions, Financial Aid Inquiries, Ordering Transcripts, Payment Plan Inquiries, Personal Financial Planning and Submitting Immunization Records.

DePaul Central ensures student issues are resolved in a timely manner and with the right level of attention and care they deserve so students can focus on what really matters: their academics.

- Visit with DePaul Central staff:
  - Lincoln Park: Schmitt Academic Center 101, 2320 N. Kenmore Avenue
  - Loop: DePaul Center Suite 9100, 1 E. Jackson Boulevard
- You also can get answers to many questions online or over the phone.
  - Email: dpcl@depaul.edu
  - Phone: (312) 362-8610
  - Web/Live Chat: depaulcentral.depaul.edu (http://depaulcentral.depaul.edu)
  - Facebook: /depaulcentral (https://www.facebook.com/DePaulCentral/)
  - Twitter: @depaulcentral (https://twitter.com/DePaulCentral/)
Financial Fitness at DePaul Central

Financial Fitness provides free services, resources and tools to help students manage costs from freshman year through graduation and beyond. Services include:

- Confidential one-on-one financial counseling appointments.
- Comprehensive resources and tools available online.
- Workshops available by request.

Additional information is available from the DePaul Central office. Financial Fitness is located within DePaul Central’s Lincoln Park Campus in SAC 101. Students can view resources or sign up for an advising session by visiting the website http://financialfitness.depaul.edu (http://resources.depaul.edu/financial-fitness/Pages/default.aspx) or calling (773) 325-8640.

Health Promotion and Wellness

Health Services

Health Services are offered through AMITA SAGE medical group. It is available to all enrolled students for a fee. If you live in a residence hall, with the exception of the University Center, you are automatically enrolled in DePaul Student Health Services. Student Health Service is NOT health insurance; you may need additional coverage. Additional information is available from the Office of Health Promotion and Wellness http://go.depaul.edu/healthservices (http://go.depaul.edu/healthservices/).

Health Promotion and Wellness

Health Promotion & Wellness (HPW) provides holistic education, support and resources for individuals to create and sustain long-term, healthy behaviors.

Alcohol and Substance Misuse Prevention

Alcohol and Substance Misuse Prevention at DePaul University stems from a harm-reduction approach, which encourages healthy choices and responsible decision-making regarding the use of alcohol, tobacco and other drugs. Students are also asked to consider their own safety and the safety of the community in relation to alcohol and substance use. HPW recognizes that students may be choosing to live substance-free, practicing harm reduction, or in recovery. The office offers various programs and presentations throughout the year, while also providing support to those in recovery or experiencing any issues related to substance misuse. Students can engage in individual support, group workshops, and/or the Collegiate Recovery Community.

Sexual and Relationship Violence Prevention

Sexual and Relationship Violence (SRV) Prevention at DePaul University is guided by a trauma-informed framework to address the impacts of trauma on campus community members. This practice is a strengths-based framework grounded in an understanding of and responsiveness to the impact of trauma, that emphasizes physical, psychological, and emotional safety for everyone, and that creates opportunities for survivors to rebuild a sense of control and empowerment. SRV prevention at DePaul University includes providing opportunities for the community to engage in bystander intervention training, educational opportunities to learn more about trauma-informed framework, healthy relationship education and Survivor Support Advocacy.

Mental Well-being Prevention

Mental Well-being prevention at DePaul University is guided by a holistic approach to mental health and wellness. This includes recognizing that our health and wellness is more than just the absence of disease and more than just physical and mental health. It means that all of our facets of wellness (social, emotional, intellectual, environmental, financial, physical and spiritual) are equally important. When we neglect one facet, we can see the imbalance and its effect on all of our other facets of wellness. HPW offers workshops, educational opportunities, resources and individual wellness coaching to help students prioritize themselves and care for themselves in a holistic and comprehensive method.

Co-Curricular Learning Outcomes

As a result of participating in Health Promotion and Wellness programs, students will be able to:

- Develop decision-making skills related to their personal health and community well-being.
- Utilize on and off-campus resources related to their well-being and the well-being of others.
- Demonstrate reflective thinking about the impact of their choices on themselves and others.
- Articulate the relationship between societal norms and their perception of their personal health and community well-being.

Health Services

Health Services are offered through AMITA SAGE Medical Group. It is available to all enrolled students for a fee. If you live in a residence hall, with the exception of the University Center, you are automatically enrolled in DePaul Student Health Services. Student Health Service is NOT health insurance; you may need additional coverage.

Additional information is available from the Office of Health Promotion and Wellness http://go.depaul.edu/healthservices (http://go.depaul.edu/healthservices/).

Language Learning Center

Free tutoring service is available through the Department of Modern Languages (MOL).

- Each tutor holds one-on-one meetings via Zoom.
- Tutors are generally available 8am-8pm, Monday through Friday each quarter, with some weekend availability as well.
- Our tutors provide the following language-related assistance:
  - Helping improve students’ pronunciation;
  - Explaining grammar structures;
  - Practicing conversational skills;
• Assisting with reading assignments;
• Helping with writing assignments;
• Offering other language-related support in all academic subjects.

To make a tutoring appointment, please find us on the Language Learning Center (https://las.depaul.edu/academics/modern-languages/student-resources/Pages/language-labs-and-tutors.aspx) webpage, where you can make an appointment via the Live Chat feature or by leaving a message.

Libraries

The DePaul University Library is a hub for teaching and learning with resources, services and spaces to support students’ academic and personal success. The University Library includes the John T. Richardson Library (https://library.depaul.edu/about/locations/lincoln-park/Pages/default.aspx) in Lincoln Park and the Loop Library (https://library.depaul.edu/about/locations/loop/Pages/default.aspx) on the 10th floor of the DePaul Center. The Vincent G. Rinn Law Library (https://law.depaul.edu/library/Pages/default.aspx) is part of the College of Law and is located in the Lewis Center on the Loop Campus.

Resources

• The Library provides access to databases, scholarly journals and articles, primary sources, books and e-books, streaming media and more online through our website (https://library.depaul.edu/Pages/default.aspx) and at our locations.
• Students can borrow materials from 90+ libraries through I-Share and request articles through interlibrary loan (https://depaullib.iliad.oclc.org/iliad/logon.html).
• The library’s collection also includes DVDs, CDs, sheet music, and loanable technology such as digital cameras, microphones, phone chargers and more.

Research Help

• Librarians provide research assistance (https://library.depaul.edu/get-help/ask-a-librarian/Pages/default.aspx) in person, and via email, phone, text, IM or Zoom.
• Students can also make a research consultation (https://library.depaul.edu/get-help/ask-a-librarian/Pages/Make-an-Appointment.aspx) appointment to meet with a librarian who specializes in a specific subject.

Special Collections and Archives

• Special Collections and Archives (https://library.depaul.edu/special-collections/Pages/default.aspx) provides access to primary sources, rare books, maps and archives in their reading room and online.
• Collections strengths include social justice, Vincentian heritage and DePaul University history.

Work Spaces

• The Library provides collaborative, individual and quiet study spaces.
• Computers, white boards, printers, copiers and scanners are available.
• Students can access 3D printers, laser and vinyl cutters, audio studios and software, and a green screen room in the Maker Hub & 1581 Media Studios (https://library.depaul.edu/technology/spaces/Pages/default.aspx).

Office for Academic Advising Support

The Office for Academic Advising Support (OAAS) provides academic advising to students who are undeclared or who are looking to change or add a major. Advisors empower students to make academic choices that incorporate their individual interests, skills, and values. Advisors collaborate with all university colleges and schools and are familiar with the curriculum across all majors in order to assist students who are considering programs across multiple colleges. Additionally, OAAS meets with newly admitted transfer students who have not yet attended on-campus orientation to review incoming credit and requirements for their chosen program.

OAAS is located on the Lincoln Park Campus in SAC 192 and on the Loop Campus in DePaul Center suite 9500. Students may contact the office at (773) 325-7431 to schedule appointments and can visit the OAAS website at oaas.depaul.edu (http://oaas.depaul.edu) for more information.

Office of Multicultural Student Success

ABOUT OMSS

The Office of Multicultural Student Success (OMSS) seeks to cultivate belongingness, retention and persistence to graduation for students of color, students who demonstrate financial need, first-generation college students, undocumented immigrant students, and students with marginalized genders and sexualities.

Our programs and services support students in and outside the classroom and help build inclusive communities, promote the cultivation of connections, and remove barriers to academic and personal success.

PROGRAM AREAS

First Generation Students

(OMSS) works with first generation college students by developing sustained developmental programs to support these students’ college success. Beyond managing retention, persistence and empowerment programs, OMSS also serves as an advocacy office for marginalized college students during their time at DePaul.

Scholarships, Leadership, and Service

OMSS provides scholarships to facilitate the retention, persistence to graduation of first generation students and students of color who demonstrate financial need and a commitment to service and academic excellence. Announcements are posted and applications can be submitted through the DePaul Scholarship Connect Website

College Transitions

College transitions programming in the OMSS assists new students in their transitional year at DePaul. Through initiatives such as STARS Peer Mentoring program, the college transition team seeks to improve the sense of belonging and ease transition for our students.

Identity Centered Engagement

OMSS provides culturally relevant co-curricular opportunities to participate, connect, and learn within DePaul community centering the experiences of marginalized communities. These experiences work to contribute to student’s personal and academic success as well as to their
satisfaction with their DePaul experience. This area includes identity specific student supports detailed below.

Post College Success Programming

With a focus on career and leadership development, the OMSS post college success programming prepares students with upper-class standing for a successful transition to life after graduation. By using identity-conscious approaches in curriculum based programs, we engage students in developing a post-college plan by identifying goals and strategies for career discernment or graduate school matriculation.

CULTURAL AND RESOURCE CENTERS + STUDENT SUPPORT

The OMSS Cultural & Resource Centers, located on the 3rd floor in O’Connell Hall offer identity-centered, programs, initiatives and services that promote student engagement, support and academic success through the development, implementation and assessment of powerful, collaborative programs and services that support student transitions, contribute to academic success and create connections with university wide resources

• LGBTQIA+ Resource Center
• Black Cultural Center
• Latinx Cultural Center
• Asian, Pacific Islander, Desi- American Cultural Center

OMSS also serves as an institutional liaison for undocumented students providing holistic services to undocumented immigrant students. This includes identity-centered advocacy, career navigation, financial and legal resources, group conversations and ally resources.

Office of Multicultural Student Success
DePaul University
Lincoln Park Student Center
2250 North Sheffield Avenue, Suite 105
Chicago, IL 60618
773-325-7325

As a result of participating in Multicultural Student Success programs, students will be able to:

• Demonstrate effective decision-making related to personal financial management.
• Demonstrate healthy decision-making related to effective self-care.
• Identify and use relevant campus resources in order to navigate their academic experience.
• Apply the concepts of Socially Responsible Leadership in order to challenge oppressive systems and behaviors and work to create change.
• Construct a career plan towards post-college career success.

Residential Education

Residential Education is responsible for responding to student crises, building a sense of community and DePaul spirit, managing the student conduct process and providing students with high-quality opportunities for engagement. Residence directors, a graduate assistant, and resident advisors live on campus and are available to assist students with transition concerns and ongoing advocacy.

Additional information is available from the Office of Residential Education (http://offices.depaul.edu/student-affairs/about/departments/Pages/resed.aspx).

As a result of participating in Residential Education programs, students will be able to:

• Demonstrate personal responsibility and respect for others in communities of which they are a part.
• Demonstrate decision-making skills related to practical life situations.
• Respect the perspective of others and contribute to creating an inclusive community.
• Initiate a sense of belonging with the DePaul community.

Science and Math Tutoring Services

Currently enrolled DePaul students have access to free tutoring services offered by departments in the College of Science and Health. Tutoring is regularly available in the areas of chemistry, mathematical sciences, nursing, physics, and psychology (statistics only). All tutors are either graduate students or upper-level undergraduate students in their respective fields of study.

A schedule of tutoring services (https://csh.depaul.edu/student-resources/Pages/tutoring-services.aspx) is available online and is subject to change every term – check the schedule regularly for updates. No appointments are necessary to receive tutoring.

Student Affairs

A DePaul education encompasses both the scholarship and research of classroom learning and the intellectual, spiritual, moral and personal growth of campus life. The Division of Student Affairs offers programs, services and resources that foster student success, build community and contribute to the development of the whole student. Through these programs, we strive to develop students into well-rounded individuals who will have a positive impact on their communities and our world.

Student Involvement

The Office of Student Involvement fosters student learning and success by providing opportunities for engagement through a wide variety of campus activities and organizations, holistic and intentional advising of student leaders, and the development of purposeful and mutually beneficial partnerships across the University and City of Chicago to maximize access to resources for a rich DePaul campus experience.

Additional information is available from the Office of Student Involvement go.depaul.edu/involvement (http://go.depaul.edu/involvement/)

As a result of participating in Student Involvement programs, students will be able to:

• Identify interpersonal strategies that support effective teams
• Demonstrate effective problem solving in the context of their organization or personal lives.
• Describe the skills to work in a team.
Supplemental Instruction

Supplemental Instruction (SI) is a program operating out of the Office for Teaching, Learning and Assessment. Supplemental Instruction aims to help students successfully complete historically difficult classes through peer-assisted study sessions. All students in a targeted SI course are urged to attend SI sessions.

For more information, please visit: http://resources.depaul.edu/supplemental-instruction/Pages/default.aspx

Technology Resources

The following list introduces some of the technology resources that are available to students at DePaul. Additional information is available on the Information Services website (is.depaul.edu (http://is.depaul.edu)).

Campus Connect

Campus Connect provides access to many of DePaul’s primary services, including course registration, grades, tuition billing, transcripts, Demon Express and much more.

Computer Labs and Classrooms

There are many technology-equipped classrooms across both campuses. Technology resources range from traditional rooms for in-person participants to Zoom-enabled rooms for both in-person and remote participants. Specialty rooms exist across the university for classes with specific needs, and additional technology is available upon request.

DePaul also has computers available for use by students, faculty or staff, located in computer labs, lounges and lobbies across the campuses. Additional technology access is available to residence hall students; each residence hall is outfitted with study lounges allowing for student access to computers and printers at any time.

CTA U-Pass

The Ventra U-Pass provides unlimited rides for eligible DePaul students on CTA buses and trains during the Autumn, Winter, Spring and Summer Quarters. Students must meet enrollment requirements to participate in the U-Pass program. All students meeting these requirements are automatically enrolled in the program. The U-Pass is not optional for any eligible student. Eligibility is based on 3 criteria, one of which is course enrollment. If your enrollment changes before the last day to drop any eligible student. Eligibility is based on 3 criteria, one of which is course enrollment. If your enrollment changes before the last day to drop courses, your U-Pass will be adjusted accordingly.

Full details regarding the U-Pass can be found on the DePaul U-Pass website http://upass.depaul.edu/.

DePaul ID Card

Your DePaul ID card serves as your identification to enable access to various DePaul buildings, computer labs, printers, and libraries. The ID card can purchase items using your Demon Express account and meal plan. You must have your ID card while on campus. New students receive their ID card by submitting a photo online or visiting ID services at the Loop or Lincoln Park campuses.

Full details regarding ID cards can be found by visiting go.depaul.edu/idservices (https://offices.depaul.edu/information-services/services/identity/Pages/default.aspx)

Demon Express

Demon Express is a prepaid debit account that is linked to your DePaul ID Card. Demon Express can be used at DePaul cafeterias, coffee shops, campus bookstores, libraries, printers, copiers, and other areas.

Desire2Learn (D2L)

D2L is an electronic course management system that enables interaction between students and faculty. D2L incorporates document sharing, discussion boards, e-mail, an online grade book, assignment drop boxes, chat rooms, small group areas, online quizzes, and more. To log in, use your Campus Connect username and password. If you need assistance using D2L, training is available.

Discounts

Demon Discounts provides discounted goods and services, including computer hardware and software, to DePaul students.

E-Mail

All students are provided a free DePaul e-mail account. Additional information is available on the Information Services website.

Printing

The Intelliprint system allows students to print from DePaul computer labs. Students use their DePaul ID card to pay for prints and are entitled to a set amount of free printing per quarter. Additional funds can be added to Demon Express as needed. You may also print to the Intelliprint system wirelessly.

Residence Hall Technology

Lincoln Park residence hall rooms are equipped with high speed Internet connections, wireless Internet access, and free telephone connections.

Technical Support

The Help Desk is your first point of contact for technical assistance. The Help Desk provides free assistance via phone, e-mail and web for current DePaul students. We support all DePaul wireless networks, telephones, e-mail accounts and software. Please visit the web portal at helpdesk.depaul.edu (http://helpdesk.depaul.edu/), call (312) 362-8765 or email helpdesk@depaul.edu for support.

Direct, walk-up support is also available through the Genius Squad; a free tech support resource available to all current students. The Genius Squad can support desktops, laptops, phones, tablets, and other personal electronic devices. Please see go.depaul.edu/gs (http://go.depaul.edu/gs/) for more information.

Technology Training

Lynda.com - DePaul students, faculty, and staff can log into lynda.com for unlimited free access to a vast online library of the instructional videos covering the latest software, creative, and business skills.

Wireless Internet Access

Wireless internet access (https://offices.depaul.edu/information-services/services/wireless-services/Pages/default.aspx) is available to students on all DePaul campuses.
University Center for Writing Based Learning

The University Center for Writing-based Learning (https://condor.depaul.edu/~writing/) (UCWbL) works with all members of the DePaul University community to support writers and to promote the use of writing in teaching and learning through five major initiatives:

The Writing Center

The Writing Center provides free-of-charge services to any DePaul University student, alum, or faculty/staff member to help you plan, draft, revise, or polish your writing. Our over 80+ Writing Center tutors are talented, extensively trained, & supportive graduate & undergraduate students from a variety of disciplines. A Writing Center tutor can help you get started writing, revise your writing, & refine your writing.

The Writing Fellows Program

The Writing Fellows Program links undergraduate peer writing tutors with writing-intensive courses across the curriculum – from physics to journalism, religious studies to computer science. Writing Fellows work with the same set of writers from a particular course for an entire quarter, responding to two of their papers through written comments on drafts and in individual conferences.

Workshops

Workshops are customized, research-based, interactive events that focus on a variety of writing topics. The Workshops Team collaborates with other members of the DePaul community to facilitate in-class workshops that combine their writing expertise with others’ disciplinary expertise. Popular topics include crafting a thesis, being an effective peer reviewer, citing sources, and designing ePortfolios.

The Collaborative for Multilingual Writing and Research (CMWR)

The CMWR provides ongoing support for DePaul’s increasingly linguistically diverse community. At the root of our work, the CMWR aims to offer UCWbL tutors opportunities to reflect on and improve upon their work supporting English as additional language writers. We also work in close collaboration with other programs and offices to bring together the many languages and cultures of the DePaul community to share culture, language, experiences, and knowledge.

Outreach

Outreach promotes, supports, and celebrates the work of writers and tutors at DePaul. This takes the form of collaborating with partner offices on events such as the Peer Tutor and Mentor Summit and Banned Books Week, as well as regularly raising awareness of the UCWbL and its initiatives.

For more information, please visit www.depaul.edu/writing (http://www.depaul.edu/writing/).

University Counseling

University Counseling Services (UCS) is committed to providing a range of services intended to help currently enrolled DePaul students remove barriers to academic and personal success by addressing emotional, psychological and interpersonal concerns.

UCS provides group counseling, personal growth-oriented workshops, time-limited individual psychological counseling, psychiatric evaluation and crisis management services. Sometimes a skill-building workshop or small group counseling experience is the most effective intervention given a student’s presenting concerns.

UCS has a diverse, caring, and competent professional staff that works from a variety of theoretical perspectives. Some students find that talking to a counselor once is sufficient to resolve their immediate concern. Our counselors can help you in a variety of ways because they are excellent sounding boards, compassionate listeners, and skillful experts in the problems of living. If further services would be beneficial, these will be discussed and recommendations will be made by the counselor.

UCS offers primarily short-term counseling and provides referrals and linkages to community providers when students could benefit from longer term services.

Co-Curricular Learning Outcomes

As a result of participating in University Counseling programs and services, students will be able to:

- Describe healthy coping strategies.
- Describe strategies to take care of themselves and others.
- Identify resources both within DePaul University and within the surrounding community in order to remove barriers to academic or personal success.

Graduate Student Handbook

- University Information (p. 1531)
- Graduate Academic Policies (p. 1546)
- University Resources (p. 1560)

University Information

The Handbook provides University policies that support both academic and behavior expectations.

The University reserves the right to change programs, courses and requirements; and to modify, amend or revoke any rules, regulations, policies, procedures or financial schedules at any time during a student’s enrollment period provided.

In addition to the policies and information included in this Handbook, your college or school may have specific guidelines, policies, and procedures for which you are responsible. Please consult your college section.

The Handbook also includes sections on General Information and University Resources.

About DePaul

DePaul University was founded in 1898, by the Congregation of the Mission (or Vincentian) society of apostolic life, which follows the inspiration and legacy of 17th century French priest St. Vincent de Paul. As an innovative Catholic, Vincentian university anchored in the global city of Chicago, DePaul supports the integral human development of its students. The university does so through its commitment to outstanding...
teaching, academic excellence, real world experience, community engagement, and systemic change.

**University Officers**

A. Gabriel Esteban, Ph.D.
President

Salma Ghanem, Ph.D.
Provost

Sherri Sidler
Executive Vice President

Kathryn Stieber, JD
Secretary of the University

**DePaul University Mission**

As an innovative Catholic, Vincentian university anchored in the global city of Chicago, DePaul supports the integral human development of its students. The university does so through its commitment to outstanding teaching, academic excellence, real world experience, community engagement, and systemic change. DePaul prepares graduates to be successful in their chosen fields and agents of transformation throughout their lives.

Guided by an ethic of Vincentian personalism and professionalism, DePaul compassionately upholds the dignity of all members of its diverse, multi-faith, and inclusive community. Through education and research, the university addresses the great questions of our day, promoting peaceful, just, and equitable solutions to social and environmental challenges. Since its founding in 1898, DePaul University has remained dedicated to making education accessible to all, with special attention to including underserved and underrepresented communities.

This mission statement embodies the principal purposes of DePaul University. As such it is the nexus between past, present and future; the criterion against which plans are formulated and major decisions made; the bond which unites faculty, students, staff, alumni, and trustees as an academic community. Our mission is more fully expressed in both the Mission Statement and its Distinguishing Characteristics, Core values, and Commitments (https://offices.depaul.edu/mission-ministry/about/Documents/DePaul%20Mission%20Statement%20Supporting%20Document%2003.17.2021.pdf), which all are encouraged to read.

**Vincentian Identity**

The university derives its title and fundamental mission from St. Vincent de Paul, the founder of the Congregation of the Mission, a Roman Catholic society of apostolic life whose members, Vincentians, established and continue to sponsor DePaul. Motivated by the examples of Vincent de Paul and Louise de Marillac, who instilled a love of God by leading their contemporaries to serve urgent human needs, the DePaul community believes our mission as an educational institution is to foster integral human development, social mobility, and social transformation.

Guided by an ethic of Vincentian personalism and professionalism, DePaul compassionately upholds the dignity of all members of its diverse, multi-faith, and inclusive community. Through education and research, the university addresses the great questions of our day, promoting peaceful, just, and equitable solutions to social and environmental challenges. Since its founding in 1898, DePaul University has remained dedicated to making education accessible to all, with special attention to including underserved and underrepresented communities.

**Academic Calendar**

Academic calendars are available on the Academic Affairs website (https://academics.depaul.edu/calendar/Pages/default.aspx).

**Admission**

Admission to graduate programs is determined by each individual graduate program. Please consult the catalog of the respective college for additional information. For general information or to apply to a graduate program consult the Office of Admission website (https://www.depaul.edu/admission-and-aid/types-of-admission/Pages/graduate-student.aspx).

**Schools and Colleges**

**Driehaus College of Business**

Established in 1912, the Driehaus College of Business is the nation’s tenth oldest business school and serves individuals and organizations seeking access to the highest quality business education as a means for achieving intellectual and professional goals. The College also encompasses our highly respected graduate programs in business.

The Kellstadt Graduate School of Business prepares students to be leaders by frequently updating its programs to keep pace with the dynamics of global business.

**College of Communication**

The College of Communication provides students with a combination of timeless principles and up-to-the-minute tools, whether they’re pursuing journalism; public relations and advertising; media studies; radio, television and film; relational, group and organizational communication; or intercultural communication.

**College of Computing and Digital Media**

The College of Computing and Digital Media (CDM) offers students a collaborative education where technology, artistry and business intersect. CDM is organized into three schools:

- **The School of Cinematic Arts** is home to our animation and cinema programs, which merge creativity, technology, imagination, technique, vision and execution.
- **The School of Computing** houses programs across the technology spectrum, and combines theoretical fundamentals with hands-on practice.
- **The School of Design** – CDM’s newest school – is home to programs in graphic design, interactive and social media, game development, human computer interaction, and digital communication and media arts.

**College of Education**

The College of Education offers degree programs in bilingual/bicultural education; counseling; curriculum studies; early childhood education; educational leadership; elementary education; middle school mathematics education; reading specialist education; secondary education; social and cultural foundations of education; special...
education; sport, fitness and recreation leadership; and world language education.

College of Law
The DePaul College of Law was one of the first law schools in the country to introduce educational innovations like the study of negotiation techniques, courses in international criminal law and pre-trial courses in skills techniques. Today, our health law and intellectual property programs are among the best in the country, according to U.S. News & World Report.

College of Liberal Arts and Social Sciences
The oldest college at DePaul, the College of Liberal Arts and Social Sciences (LAS) offers more than 28 undergraduate and 30 graduate degree programs. Courses meet during the day, evenings and on weekends, primarily on the Lincoln Park Campus.

College of Science and Health
The College of Science and Health (CSH) was established in 2011 to help its students meet the demands of the growing fields of science and health. CSH offers multiple undergraduate majors and graduate programs in the areas of biology, chemistry, environmental science, mathematics, nursing, physics and psychology.

School of Music
DePaul's School of Music was founded in 1912 and is dedicated to excellence in both music teaching and performance. When they're not working with DePaul students, many of the school's faculty serve as members of the Chicago Symphony Orchestra, Lyric Opera of Chicago, or the Grant Park Symphony Orchestra, or as some of the city's most prominent freelance, chamber and jazz musicians.

School of Continuing and Professional Studies
The School of Continuing and Professional Studies builds upon DePaul University's recognized success in educating adult learners interested in a range of innovative and timely degree programs and non-degree continuing education opportunities. Its undergraduate and graduate degrees, offered on-campus, online, and in corporate settings, are particularly designed to accommodate adult learners who must balance claims of work, family, and/or community responsibilities with their educational pursuits.

The Theatre School
Founded in 1925 as the Goodman School of Drama, The Theatre School at DePaul is the Midwest's oldest theatre training conservatory. Known for its highly structured program and set in a world-renowned theater city, the school has earned a reputation as a standard of excellence in American professional theatre training.

DePaul Campuses/Locations
Students of any school or college may register for classes on any campus, arranging hours and courses in a manner designed to afford maximum educational advantage.

Campuses
The Lincoln Park Campus is situated about three miles north of the Chicago Loop in the vicinity of Webster (2200 N), Halsted (800 W) and Racine (1200 W). The offices for the College of Liberal Arts and Social Sciences, the College of Science and Health, the School of Music, the College of Education, and The Theatre School are located on this campus.

The Loop Campus is located at 1 East Jackson Boulevard, between State, Jackson and Wabash. The offices for the Driehaus College of Business, the College of Computing and Digital Media, the College of Communication, the College of Law and the School of Continuing and Professional Studies are located on this campus.

Suburban Sites
Rosalind Franklin University of Medicine and Science is located 3333 Green Bay Road in North Chicago, Illinois. DePaul students have the option of taking the Master's Entry in Nursing Practice (MENP) on the RFU campus.

Overseas Locations
Tangaza College located in Nairobi, Kenya.
Bahrain Institute of Banking and Finance located in Manama, Bahrain.

Academic Partnerships
DePaul University has entered into a variety of relationships with other educational institutions to provide enhanced learning opportunities for students.

American University in Paris
DePaul and The American University of Paris (AUP) are partnering to offer an innovative two-year program leading to an MBA from DePaul's Kellstadt Graduate School of Business and a M.A. in Cross-cultural and Sustainable Business from AUP.

Catholic Theological Union
With permission, upper-level students in Catholic Studies and Religious Studies may elect to complete courses at the Catholic Theological Union.

Illinois Institute of Technology
Through a five-year joint program between DePaul and the Illinois Institute of Technology, students may earn a degree in physics from DePaul and degree in engineering from IIT, with a concentration in Mechanical, Aerospace, Electrical, or Computer Engineering.

IIT/Chicago Kent College of Law
Students in DePaul's College of Law may pursue courses in specialized areas of legal study at IIT/Chicago Kent College of Law.

Loyola University Chicago School of Law
Students in DePaul's College of Law may pursue courses in specialized areas of legal study at Loyola University Chicago School of Law.
NorthShore University Health System
DePaul offers a Doctor of Nursing Practice degree in Nurse Anesthesiology in conjunction with NorthShore University Health System's School of Nurse Anesthesia in Evanston.

Northwestern Memorial Hospital Clinical Schools – School of Nuclear Medicine Technology & Radiation Therapy
Through a partnership with Northwestern Memorial Hospital Clinical Schools, select DePaul students may pursue bachelor of science degrees in Allied Health Technologies in either Nuclear Medicine Technology or Radiation Therapy.

Rosalind Franklin University of Science and Medicine
DePaul has partnered with the Rosalind Franklin University of Science and Medicine in North Chicago to provide numerous degree program offerings, including:

- RN to MS in Nursing
- MA, Health Communication
- Master’s Entry to Nursing Practice (MENP)
- 3+4 PharmD

Rush University
In conjunction with the Department of Health Systems Management in the College of Health Sciences at Rush University Medical Center, the Kellstadt Graduate School of Business of the College of Commerce offers a joint MBA/MS (Master of Science in Health Systems Management) degree program.

Truman College, City Colleges of Chicago
Through an agreement with the City Colleges of Chicago, students may complete their first years in college at Truman College, then seamlessly transfer their credits towards a DePaul undergraduate degree through the School for New Learning.

Wright College, City Colleges of Chicago
Through an agreement with the City Colleges of Chicago, students may complete their first years in college at Wright College, then seamlessly transfer their credits towards a DePaul undergraduate degree through the School for New Learning.

Study Abroad Opportunities
DePaul partners with a substantial number of institutions around the world to provide a wide variety of study abroad options for students. Information about those agreements can be found on the International Programs website (http://international.depaul.edu/).

Accreditation
DePaul University is a private, not-for-profit, Catholic institution accredited by:

- The Higher Learning Commission
  230 South LaSalle Street, Suite 7-500 Chicago, IL 60604-1413
  Phone: (800) 621-7440 / (312) 263-0456
  Fax: (312) 263-7462
  Email: complaints@hlcommission.org
  Web: https://www.hlcommission.org/Student-Resources/complaints.html

Students may provide feedback or register complaints with the Higher Learning Commission at the contact information listed above.

Programmatic/Specialized Accreditation
DePaul University is a private, not-for-profit, Catholic institution, and has been accredited by numerous associations and organizations.

Complaints and Grievances

DePaul University emphasizes the development of a full range of human capabilities and appreciation of higher education as a means to engage cultural, social, religious, and ethical values in service to others. In support of this mission, DePaul University is committed to treating every member of its community with dignity, justice and respect fostering a positive learning environment and providing quality service. It is important for students to know how to address concerns and issues that may be contrary to this commitment.

Complaints or concerns that a policy or procedure has been incorrectly or unfairly applied can often be resolved through an initial conversation with the staff, faculty member or department where the issue originated and his/her supervisor if necessary.

DePaul has established a number of policies and procedures for responding to particular types of concerns. Contact information for these policies and procedures can be found in the bottom section of this page:

- Concerns about grades are addressed through the University's Grade Challenge policy. Detailed information is available in the Academic Handbook section of the University Catalog.
- Concerns about academic integrity are addressed through the Academic Integrity policy and process. Detailed information is available on the Academic Integrity website.
- Concerns related to student conduct are addressed through the Code of Student Responsibility, and the Student Conduct Process. Detailed information is available in the Academic Handbook section of the University Catalog.
- Concerns about discrimination or harassment on the basis of a variety of protected characteristics are addressed by the Office of Institutional Diversity and Equity through the Anti-Discrimination and Anti-Harassment Policy and Procedures.
- Concerns based on sexual violence, sexual harassment, or other sex discrimination (Title IX) are addressed through the DePaul's Title IX Coordinator located in the Office of Institutional Diversity. Detailed information is available on the Office of Public Safety website (https://offices.depaul.edu/public-safety/Pages/default.aspx) or in the Code of Student Responsibility (p. 1604) section of the University Catalog.
- Concerns about the confidentiality of education records (FERPA-Family Educational Rights and Privacy Act), are addressed through the Office of the University Registrar.

Concerns about academic issues relating to faculty or staff can often be resolved through an initial conversation with the faculty, staff member or student employee involved in the situation. Therefore, students with academic complaints or concerns should address the issue following the steps indicated below:

1. The issue should first be discussed with the faculty or staff member.
2. If this does not resolve the issue the student should then discuss the issue with the department chairperson or program director for faculty issues or the individual's supervisor for staff. If you are unsure
of the appropriate college contact, please see below for a directory of College and College Dean's Offices.

3. If the issue is still not resolved, the student should then discuss the matter with the Office of the Dean of the faculty member's college for faculty issues or the department supervisor for staff issues.

4. If the issue is still not resolved, the student may discuss the issue with the Office of the Provost.

The Dean of Students Office is a central location to which students can turn with problems they have been unable to resolve. The Dean of Students Office hears student concerns and helps students understand their options for resolving the concerns and/or locating appropriate services: http://offices.depaul.edu/student-affairs/about/departments/Pages/dos.aspx.

In addition, the University Ombudsperson is available to provide consultation about conflict resolution, to clarify policies and procedures, and to help find the right person or department to respond to questions. Students may also always choose to report concerns or misconduct through the University's confidential reporting mechanisms: 877.236.8390 or https://compliance.depaul.edu/hotline/index.asp (https://compliance.depaul.edu/hotline/)

The U.S. Department of Education requires institutions offering online education to provide contact information for students to file complaints with its accreditor and state agencies. Contact information for DePaul's regional accreditor (the Higher Learning Commission), programmatic/specialized accreditor and state agencies is available in the Handbook section of the University Catalog.

Honor Societies

Since 1954, DePaul University has recognized academic honorary societies in order to highlight students' superior academic achievement and leadership. Students are selected to join honorary societies based on their superior academic record within their specific major or across all colleges. DePaul University strives to recognize students' outstanding academic performance and is proud of the rich tradition that these valuable organizations have provided to the university community. Below is a list of each honorary society and its academic discipline.

- Beta Alpha Psi – Accounting, Finance and MIS
- Kappa Delta Pi - Education
- Psi Chi - Psychology
- Sigma Pi Sigma - Physics
- Phi Alpha Theta - History
- Omicron Delta Epsilon - Economics
- Sigma Theta Tau - Nursing
- Pi Sigma Alpha – Political Science
- Sigma Tau Delta - English
- Lambda Pi Eta - Communication
- Sigma Delta Pi - Spanish
- Gamma Kappa Alpha - Italian
- Phi Beta Delta - International Education
- Theta Alpha Kappa - Religious Studies
- National Society of Collegiate Scholars - All
- Upsilon Pi Epsilon - Computer Science
- Iota Iota Iota - Women's and Gender Studies
- Lambda Alpha - Anthropology
- Gamma Theta Upsilon - Geography
- Order of Omega - Fraternity and Sorority Community
- Pi Alpha Alpha - Public Administration
- Nu Lambda Mu - Nonprofit Management and Leadership
- Pi Epsilon Pi - Writing Studies
- Delta Alpha Pi – Students with Disabilities

University Learning Goals and Outcomes

Preamble

In common with all universities, DePaul strives to ensure that its students come away from their experience with knowledge and skills that will enable them to fulfill their personal and professional aspirations, interact productively with others in all their diverse perspectives, contribute meaningfully to society, and continue learning throughout their lives. Moreover, DePaul shares with other universities the goal that students will use their knowledge and skills to conduct themselves ethically and humanely, with an appreciation for the past and an eye towards shaping an even better future.

At the same time, DePaul's mission – Catholic, Vincentian, urban – calls on us to consider these broad goals for learning in a manner that honors the university's distinctive qualities. DePaul's Catholic heritage encourages us to study religious traditions, and to critically examine the moral underpinnings of all academic disciplines. The example of St. Vincent, who worked with people from all strata of society in order to address urgent human needs, infuses our understanding of both education and service with a concern for social justice, for the university mission statement reminds us that "the DePaul community is above all characterized by ennobling the God-given dignity of each person." And as an urban university, DePaul's deep involvement in multiple communities,
within Chicago and beyond, invites us to both draw on the city’s rich opportunities for learning and serve as partners in helping them move forward. In sum, the mission statement tells us, “DePaul University emphasizes the development of a full range of human capabilities and appreciation of higher education as a means to engage cultural, social, religious, and ethical values in service to others.”

With the university’s mission as their foundation, these Learning Goals and Outcomes prepare students to engage in the world of the twenty-first century, carrying with them the heritage and values that distinguish DePaul.

Goal 1. Mastery of Content
This goal embraces the breadth and depth of ideas, theories, approaches, and information which DePaul students encounter through and beyond their studies.

Outcomes: DePaul graduates will demonstrate and be able to apply:

• general knowledge of cultures, religions, science, the arts, history, and computational reasoning.
• specialized knowledge and skills from within a specific discipline or field.

Goal 2. Intellectual and Creative Skills
In order to fully engage with knowledge, whether for a specific purpose or for its own sake, DePaul students are encouraged to develop the ability to think critically and imaginatively, formulate their own understanding, and effectively communicate their ideas. This goal articulates specific skills that comprise these broader abilities.

Outcomes: DePaul graduates will be able to:

• systematically access, analyze and evaluate information and ideas from multiple sources in order to identify underlying assumptions, and formulate conclusions.
• solve quantitative problems.
• create and support arguments using a variety of approaches.
• use existing knowledge to generate and synthesize ideas in original ways.
• communicate clearly in speech and writing.

Goal 3. Personal and Social Responsibility
This goal honors the notion that knowledge reflects and contributes to the values of individuals and communities. DePaul students, in particular, are challenged to consider their own values in light of the university’s mission.

Outcomes: DePaul graduates will be able to:

• articulate their own beliefs and convictions, as well as others’ beliefs, about what it means to be human and to create a just society
• articulate what is entailed in becoming a self-directed ethical decision-maker and living a life of personal integrity.
• evaluate ethical issues from multiple perspectives and employ those considerations to chart coherent and justifiable courses of action.
• benefit their communities through socially responsible engagement and leadership.

Goal 4. Intercultural and Global Understanding
This goal speaks to the likelihood that, in our diverse and increasingly interdependent world, the future depends on individuals being able to learn from each other and make the best use of finite resources.

Outcomes: DePaul graduates will demonstrate:

• respect for and learning from the perspectives of others different from themselves.
• knowledge of global interconnectedness and interdependencies.
• knowledge to become a steward of global resources for a sustainable future.

Goal 5. Integration of Learning
Given the wide range of opportunities for learning at DePaul, it is important for students to develop the ability to consider relationships among individual experiences of learning so as to make meaning of their education in all its variety.

Outcomes: DePaul graduates will be able to:

• relate their learning – curricular and co-curricular – to multiple fields and realms of experience.
• make connections among ideas and experiences in order to synthesize and transfer learning to daily practice.
• design, develop, and execute a significant intellectual project.

Goal 6. Preparation for Career and Beyond
This final learning goal builds on all the rest and calls on students to be ready to apply their knowledge and skills to the changing world that awaits them.

Outcomes: DePaul graduates will be able to effectively:

• set goals for future work that are the result of realistic self-appraisal and reflection.
• articulate their skills and knowledge and represent themselves to external audiences.
• work toward goals independently and in collaboration with others.
• employ technology to create, communicate, and synthesize ideas.
• set priorities and allocate resources.
• apply strategies for a practice of life-long learning.

Additional Notes
These University Learning Goals and Outcomes were approved by Faculty Council and the Interim Provost in October 2012.

A prior version of this document was drafted in Spring 2011 by a group of faculty, staff and students in the early stages of the strategic planning process that led to Vision 2018. In Autumn 2011, at Faculty Council’s direction, the draft went to the university’s Committee on Learning and Teaching, which sought input from stakeholders across the university and incorporated their valuable contributions into the revised document here. As a result of this process, the University Learning Goals and Outcomes represent a true community effort.

These university-wide goals do not exhaust the learning goals pursued at DePaul. Notably, they do not explicitly refer to the expectations specific to the various schools and departments. Nor will they be pursued in
the same manner nor to the same degree in every unit. Nevertheless, the education of all recipients of DePaul undergraduate degrees should be characterized by these goals along with the goals specific to the student’s unit. Since graduate and professional schools encounter students at different stages of their education and at different levels of maturity, their approaches to these goals and their methods of measuring them will have to be adjusted accordingly.

**Graduate Program Learning Outcomes**

DePaul is committed to ensuring educational excellence in each of our academic programs. Articulating learning outcomes for each of our academic programs is an important first step in our ongoing assessment and improvement cycle. By having well-defined learning outcomes as a guide, our programs are positioned to implement and assess quality educational experiences. These outcomes are also mapped to institutional learning goals, further strengthening the connection to overall student learning at DePaul University.

Academic Advising, Statement on

Academic Advising at DePaul helps students achieve their educational, personal, and career goals by providing guidance and assistance in the decision-making process. Academic Advising is most effective when all participants anticipate their future needs, commit to the process, do their part, and then reflect on their results. Students should work closely with their advisors to plan workable educational goals, to understand the degree options and requirements, to understand the financial implications of their decisions, to assess their strengths and challenges as scholars, and to clarify realistic career objectives for themselves upon graduation.

Students bear ultimate responsibility for decisions and actions that determine their success at DePaul University.

• Students will make informed decisions and register for classes on time.
• Students will obtain the necessary information for course selection and planning in their individualized programs.
• Students will make and keep appointments with their advisors.
• Students will communicate honestly and fully in these advising discussions.
• Students will regularly reflect on the consequences, both academic and financial, of their decisions as they progress in their academic careers toward life choices.

Advisors are responsible for helping students improve their decision making skills.

• Advisors guide students through this learning process during regular interactions at key points during their academic careers.
• Advisors will be available on a regular basis for consultation and encourage students to make and keep regular advising appointments.
• Advisors will monitor their advisees’ academic progress.
• Advisors will encourage students to consult available material related to their program and career choice.
• Advisors will encourage students to reflect on the academic and financial consequences of their decisions about degree programs and course-taking plans.
• Advisors will assist students to set realistic career goals that extend beyond their time at DePaul.
• Advisors will encourage students to incorporate their basic values and beliefs into their decision making process.

The university is responsible for providing the infrastructure for students, faculty, and staff to support effective advising.

• The university will provide the information that students and their advisors need to make informed and timely decisions.
• The university will provide adequate resources of personnel, funding and facilities to support the advising process.
• The university will clearly communicate to advisors and students the policies and options regarding student financial aid.
• The university will regularly evaluate the policies and procedures surrounding advising to improve the advising process on an ongoing basis.
• The university will provide training to help both advisors and students work more effectively together.
• The university will acknowledge the important contribution advisors make by recognizing advising within the institutional reward system.

Tuition Rates

Financial Aid

Federal financial aid applicants must meet these eligibility requirements for aid and provide additional documents if needed:

• Be a U.S. citizen or eligible non-citizen.
• Enroll in an eligible degree program or approved post-baccalaureate non-degree graduate preparatory coursework. Contact the Office of Financial Aid for information about graduate preparatory programs.
• Have a high school diploma, General Educational Development (GED) certificate, or have completed a high school education in a homeschool setting approved under state law. Students who do not meet these eligibility requirements should contact the Office of Financial Aid for assistance.
• For most types of financial aid, you must be enrolled for credit in a degree or approved post-baccalaureate non-degree graduate preparatory program. Audited classes are not eligible for financial aid consideration.
• Once you complete your degree requirements or post-baccalaureate non-degree graduate preparatory program—even if you have not received your diploma—you are no longer eligible for aid.
• If you wish to repeat a course for which you have previously earned credit, your financial aid options are limited. Contact the Office of Financial Aid for more information.
• Be enrolled at least half-time for federal student loan deferment.
• Meet satisfactory academic progress requirements (https://www.depaul.edu/admission-and-aid/financial-aid/maintain-eligibility/sap/Pages/default.aspx).
• Not be in default on a federal loan or owe a repayment on a federal grant.
• Be registered with Selective Service, if applicable.
• Meet any remaining federal eligibility requirements

Scholarships
Scholarships and assistantships are awarded at the program level by your college office and academic department. Please consult your college or school for additional information. You may also visit DePaul Scholarship Connect (https://depaul.academicworks.com/opportunities/) throughout the year to see specific scholarship opportunities available.

Double Demon Scholarship
DePaul is committed to your continued professional and personal growth, both while you are a student and after you graduate from DePaul. This scholarship is available to DePaul alumni doing graduate work at DePaul. It covers 25 percent of the tuition for a master’s degree, graduate level non-degree coursework or graduate level coursework in select certificate programs.

Alumni from any of DePaul’s colleges who are admitted into a graduate program — including degree, non-degree or select certificate programs — automatically qualify for the Double Demon Scholarship. Both full-time and part-time students are eligible. No scholarship application is required.

(Note: This scholarship cannot be used in conjunction with other DePaul scholarships, waivers or awards. University employees are eligible for other tuition benefits and are not eligible. Additionally, it does not cover coursework from the Center for Professional Education (CPE), Institute for Professional Development (IPD), coursework in a doctoral program or a master of fine arts (MFA), Music, Theatre, Law and a few other select programs.)

To learn more details about these scholarships, please contact one of the college admissions offices below.

Veterans Assistance
DePaul’s Office of Veteran Affairs handles the following VA educational benefit programs:

• The Post-9/11 GI Bill® (Chapter 33) (http://www.benefits.va.gov/gibill/post911_gibill.asp) - for those who served at least 30 consecutive days on active duty after September 10, 2001
• The Post-9/11 GI Bill® Yellow-Ribbon program (http://www.benefits.va.gov/gibill/yellow_ribbon.asp) - for qualified Post-9/11 applicants
DePaul DREAM Statement

At DePaul University we affirm the dignity of the individual. We value diversity and culture because these are part of our core values and traditions as a Catholic, Vincentian, and urban university. DePaul University has decided to take a strong and public stand for supporting undocumented students, and DREAM Act legislation. We believe supporting undocumented students is smart policy that will yield significant benefits for our university, city, state, and nation. We also know these young people who enter our doors are part of the next great generation who will build our collective future. It is for this reason that DePaul admits students regardless of their citizenship status. Because we welcome these students, it is incumbent upon all members of the DePaul community to understand DePaul’s position on assisting undocumented students, realize the value that they bring to our university, and support their success as we support all of our students.

Graduate Academic Policies

General Information

This section of the handbook provides an alphabetical listing of all University policies, procedures, and regulations related to academics. As a student, you are responsible for adhering to the policies, procedures, and regulations included here, so please familiarize yourself with them. In addition, consult your college or school catalog for information specific to your program.

Academic Integrity

DePaul University is a learning community that fosters the pursuit of knowledge and the transmission of ideas within a context that emphasizes a sense of responsibility for oneself, for others and for society at large. To preserve the quality of education offered to students, the university is responsible for maintaining academic integrity and protecting all those who depend on it, including DePaul’s community partners and institutional affiliates. Violations of academic integrity, in any of their forms, are, therefore, detrimental to the values of DePaul, to the students’ own development as responsible members of society, to the pursuit of knowledge, and to the transmission of ideas. All members of the university community share the responsibility for creating conditions that support academic integrity.

Violations of academic integrity include but are not limited to the following categories: cheating; plagiarism; fabrication; falsification or sabotage of research data; destruction or misuse of the university’s academic resources, alteration or falsification of academic records; academic misconduct; and complicity. Violations do not require intent. This policy applies to all courses, programs, learning contexts, and other activities at the university, including but not limited to experiential and service-learning courses, study abroad programs, internships, student teaching, providing false information on an application, and not disclosing requested information. If an instructor finds that a student has violated the Academic Integrity Policy, the appropriate initial sanction is at the instructor’s discretion. Actions taken by the instructor do not preclude the university from taking further action, including dismissal.
from the university. Conduct that is punishable under the Academic Integrity Policy could also result in criminal or civil prosecution.

Additional Information and the complete Academic Integrity policy can be found on the Academic Integrity website (https://offices.depaul.edu/academic-affairs/faculty-resources/academic-integrity/Pages/default.aspx).

**Academic Standing**

**Graduate Programs**

**Good Academic Standing**

To be considered in good academic standing, DePaul graduate students pursuing a doctoral degree, master's degree, certificate or other credential must maintain, at a minimum, the required cumulative grade point average for good academic standing as stipulated by their degree program.

A graduate non-degree student must maintain at a minimum the grade point average stipulated by the college for good academic standing.

**Failure to Maintain Good Academic Standing**

Students who fail to maintain good academic standing may be subject to dismissal from their program in accordance with procedures established by their program/college. Many programs have established time or course limitations within which a student must return to good standing before they may be dismissed from the program.

Please consult the University Catalog, college and program-specific handbook sections for details.

**Note**

In addition, for those participating in federal financial aid programs, failure to maintain good academic standing will affect compliance with the federal satisfactory academic progress requirements.

**College of Law**

**Good Academic Standing**

To be considered in good academic standing, DePaul students pursuing a degree or certificate must maintain, at a minimum, the required cumulative grade point average for good academic standing as stipulated by their degree program.

A law non-degree student must maintain at a minimum the grade point average stipulated by the college for good academic standing.

**Failure to Maintain Good Academic Standing**

Students who fail to maintain good academic standing may be subject to dismissal from their program in accordance with procedures established by their program/college. Many programs have established time or course limitations within which a student must return to good standing before they may be dismissed from the program.

Please consult the University Catalog, college and program-specific handbook sections for details.

**Note**

In addition, for those participating in federal financial aid programs, failure to maintain good academic standing will affect compliance with the federal satisfactory academic progress requirements.

**Joint Degree Programs**

**Good Academic Standing**

To be considered in good academic standing, DePaul students pursuing a joint degree program where two degrees are awarded simultaneously (for example: two master's degrees, a master's degree and a juris doctor degree or a juris doctor and a master’s of law degree) should consult the degree requirement section of the University Catalog to determine the required minimum grade point average for good academic standing.

**Failure to Maintain Good Academic Standing**

Students who fail to maintain good academic standing may be subject to dismissal from the joint program in accordance with procedures established by the program. Many programs have established time or course limitations within which a student must return to good standing before they may be dismissed from the program.

**Note**

In addition, for those participating in federal financial aid programs, failure to maintain good academic standing will affect compliance with the federal satisfactory academic progress requirements.

**Admission**

Admission decisions at DePaul University are based on a strong academic record, as well as personal and occupational achievements, ambition, energy, resourcefulness and leadership. The University recognizes that each individual brings unique abilities to the DePaul community and works with every student through a personalized and holistic application process. DePaul University does not discriminate on the basis of race, color, national origin, religion, gender, sexual orientation, age or handicap in admissions, employment, or the provision of services.

For information on the types of admission, see the Admission page (p. 1480) in the University Information section of this handbook.

**Dismissal/Readmission**

Dismissal and Readmission decisions are made by each graduate program. Please consult your school or college handbook for additional information.

A student dismissed for a conduct-related reason, such as through the Student Conduct Process or the Academic Integrity Process is not eligible for readmission to the University. The only exception to this is a program specific dismissal, in which case the student is not dismissed from the University, only the specific program. In this case, the student is eligible to apply to other programs.

**Evaluation and Credit**

At DePaul, credit towards an undergraduate or graduate degree is accumulated on the basis of quarter hours (for College of Law, see the College of Law Handbook (p. 1582)). The unit of credit is one quarter hour granted for 45 minutes of instructional time and at least two hours of additional assigned work each week, or an equivalent amount of work for other credit-bearing activities. The standard course extends over a ten-week period and a final examination week; courses that occur over a different time-period (e.g. in the summer or December quarter) must incorporate the same total amount of instructional time and additional assigned work per credit hour as a standard course. Undergraduate and graduate courses carry 4 quarter hours of credit
unless otherwise specified. Credit is earned if a student receives an A through D, or PA grade. Undergraduate credit may also be earned through credit-by-examination and transfer credit. The School of Continuing and Professional Studies and the School of Nursing also may award credit based on assessment of prior learning. Some graduate programs may accept a limited number of transfer credits which is specified in the graduate program information.

Among other requirements specified in their respective catalogs, graduation with a bachelor’s degree requires that a student successfully complete a minimum of 192 quarter hours of college credit; graduation with a master’s degree requires that a student complete a minimum of 45 quarter hours of credit beyond the bachelor’s degree. The requirements for approved combined bachelor’s/master’s degree require at least 36 quarter hours of credit beyond the bachelor’s degree (with a minimum of 12 applicable graduate hours completed as part of the bachelor’s degree). Graduation with a doctorate degree will require the minimum number of quarter hours specified by the degree awarding department or college.

**Evaluation and Credit/Cross-listing Graduate with Undergraduate Courses**

The Department of Education (ED) wants to ensure that students in graduate programs are earning credit for graduate-level work and that federal financial aid is going to support work toward a graduate degree. In its charge to carry out the ED rules, our accreditor, the Higher Learning Commission, has called on institutions to create policies that will “distinguish the various levels of learning that the institution offers, such as graduate and undergraduate, and may distinguish among departments or disciplines.”

Graduate programs will continue to abide by the policies set out in the Graduate Handbook of the DePaul University Catalog. In addition, to ensure that graduate programs are appropriately distinct from undergraduate programs in the same or a related discipline, all graduate degree programs will include the following:

1. A core of courses that is offered solely at the graduate level, supported by a written rationale for the content of the core.
2. Course syllabi, including learning outcomes and assignments appropriate for graduate-level coursework. Any graduate courses that are cross-listed with undergraduate courses must have separate syllabi for each side of the cross-list, with distinct learning outcomes and assignments for each group. Undergraduate courses must be at the 300-level or above to be cross-listed with a graduate course.

**Evaluation and Credit/Limitations**

Consult your graduate program for information regarding the transfer of graduate credit from other institutions.

**FERPA/Annual Notification**

**Annual Notification for DePaul Students:**

**Your FERPA Rights**

We want to take this opportunity to provide you with a summary of your rights under The Family Educational Rights and Privacy Act (FERPA), the federal law that governs release of and access to student education records. Please view Understanding FERPA, a DePaul Central Learning Center video for information and instructions.

Your FERPA rights include:

1. The right to inspect and review your education record within 45 days after the University receives a request for access. If you want to review your record, contact the University office that maintains the record to make appropriate arrangements.
2. The right to request an amendment of your education record if you believe it is inaccurate or misleading. If you feel there is an error in your record, you should submit a statement to the University official responsible for the record, clearly identifying the part of the record you want changed and why you believe it is inaccurate or misleading. That office will notify you of their decision and advise you regarding appropriate steps if you do not agree with the decision.
3. The right to provide written consent before DePaul discloses personally identifiable information contained in your education records, except to the extent that FERPA authorizes disclosure without consent.

Some examples of exceptions include:

- School officials with "legitimate educational interests." A school official has a legitimate educational interest if the official has a professional need to review your education record in order to fulfill his or her official responsibilities. Examples of people who may have access, depending on their official duties, and only within the context of those duties, include: university faculty and staff, agents of the institution, students employed by the institution or who serve an official institutional committees, and representatives of agencies under contract with the University.
- To officials of another school where the student seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student’s enrollment or transfer.
- To authorized representatives of the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or state and local educational authorities, such as a state postsecondary authority that is responsible for supervising the University's state-supported education programs. Disclosures under this provision may be made in connection with an audit or evaluation of federal- or state-supported education programs, or for the enforcement of or compliance with federal legal requirements that relate to those programs. These entities may make further disclosures of personally identifiable information to outside entities that are designated by them as their authorized representatives to conduct any audit, evaluation, enforcement or compliance activity on their behalf.
- In connection with financial aid for which the student has applied or which the student has received, if the information is necessary to determine eligibility for the aid, determine the amount of the aid, determine the conditions of the aid, or enforce the terms and conditions of the aid.
- To organizations conducting studies for, or on behalf of, the school, in order to:
  i. develop, validate or administer predictive tests;
  ii. administer student aid programs; or
  iii. improve instruction.
- To accrediting organizations in order to carry out their accrediting functions.
- To appropriate officials in connection with a health or safety emergency.
• Information the school has designated as “directory information.”

Directory information may be released without your written consent and includes the following: name, address, e-mail, telephone number, date of birth, college of enrollment, year in school, major, enrollment status (including current enrollment, dates of attendance, full-time/part-time or withdrawn), degrees, awards and honors received (e.g., Dean’s List recognition), participation in officially recognized activities and sports, weight and height of members of athletic teams, photographs (including ID pictures), videos depicting and/or concerning University life, and previous educational institutions attended. Please note that you have the right to withhold the release of directory information except to the extent that FERPA authorizes disclosure without consent (see #3 above).

To withhold the release of your directory information, you must log into the student portal, Campus Connect, and, under Student Privacy settings, indicate your preference. Please note two important details regarding placing a "No Release" on your record:

i. A "No Release" on your record will prevent your name from being included on lists of students released to honor societies, dean’s list and graduation announcements to local newspapers, and enrollment and degree verification to anyone, including potential employers.

ii. A "No Release" applies to all elements of directory information on your record.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA.

For additional information, please consult the U.S. Department of Education website (https://www2.ed.gov/policy/gen/guid/fpco/ferpa/?src=rn).

Questions concerning FERPA should be referred to DePaul Central:

DePaul Central
Lincoln Park: Schmitt Academic Center
Loop: DePaul Center, Suite 9100
Tel: (312) 362-8610 | dpcl@depaul.edu | depaulcentral.depaul.edu (http://depaulcentral.depaul.edu)

Final Exams

During the regular academic year faculty are expected to include a final examination, final project or final exercise in all classes. In order to provide students with sufficient time to prepare, a final examination (or exercise) is expected to take place on the scheduled examination date and period as approved by the university. Final projects that are substituted for a final examination or exercise are expected to be due at the time of the scheduled examination date and period. Only under rare circumstances and with the permission of the dean of the college may this allocated period of time for the completion of course work be shortened.

Grades

Grades can be accessed online via Campus Connect. Grades can be viewed and printed using the Unofficial Transcript in the Student Center in Campus Connect. This comprehensive report can be used for corporate tuition reimbursement. Some companies may allow the student to log onto Campus Connect with a company representative present to verify grades for an individual term.

Following is the key to the system of evaluating a student’s academic achievement of the educational objectives specified by the instructor in the course syllabus. These definitions apply to the straight letter grade. A plus grade represents slightly higher achievement than the straight letter grade. A minus grade represents slightly lower achievement than the straight letter grade. For undergraduate students, the addition of a # indicates an original attempt of a course which has been repeated; therefore the grade and credit are removed from the term and cumulative grade point average and credit hours.

Once a grade is assigned, university policy prohibits faculty from changing the grade without the permission of the college-based exceptions committee. Errors made in computation of the final grade (clerical error) and removal of an IN grade in accordance with university policy are exceptions to the grade change policy. Faculty may not assign or accept additional graded material in order to improve a student’s final grade.

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>The instructor judged the student to have accomplished the stated objectives of the course in an EXCELLENT manner.</td>
</tr>
<tr>
<td>B</td>
<td>The instructor judged the student to have accomplished the stated objectives of the course in a VERY GOOD manner.</td>
</tr>
<tr>
<td>C</td>
<td>The instructor judged the student to have accomplished the stated objectives of the course in a SATISFACTORY manner.</td>
</tr>
<tr>
<td>D</td>
<td>The instructor judged the student to have accomplished the stated objectives of the course in a POOR manner. (A grade of D will not fulfill the requirements in a major field of concentration.)</td>
</tr>
<tr>
<td>F</td>
<td>The instructor judged the student NOT to have accomplished the stated objectives of the course.</td>
</tr>
<tr>
<td>FX</td>
<td>Student failed to accomplish the stated objectives of the course due to non-attendance. Non-attendance is defined as never attending or ceasing to attend an in-person course (or never participating or ceasing to participate in an online course) without officially withdrawing. The FX is calculated into the student’s GPA as an F. Instructors are required to provide the last date of attendance/participation.</td>
</tr>
</tbody>
</table>
IN
Temporary grade indicating that, following a request by the student, the instructor has given his or her permission for the student to receive an incomplete grade. In order to receive an IN grade, the student must have a) a satisfactory record in the work already completed for the course, b) encountered unusual or unforeseeable circumstances which prevent him/her from completing the course requirements by the end of the term, and c) applied to the instructor for permission to receive an IN. Please see the Grades, Incomplete (IN) and Research (R) Expiration Policy page in this handbook for additional information.

ING
Permanent grade assigned to a degree recipient who chooses not to resolve a grade of "IN" awarded during the two terms prior to graduation. The grade of "ING" (Incomplete, Graduated) is final, and cannot be changed or lapsed to "F" once the degree is posted.

PA
Passing achievement in a pass/fail course. (Grades A through D represent passing performance.)

W
Withdrawal from the course initiated by the student after the Last Day to Drop With No Penalty and before the Withdrawal Deadline. The W grade is automatically recorded on the student's transcript once it has been processed.

WA
Withdrawal from the course initiated by an advisor or administrator at the student's request, usually outside of established deadlines. Administrative withdrawals may be granted under extraordinary circumstances and require documentation for support. See the Withdrawal Policy page in this handbook for more information. During their DePaul career, students may be allowed one medical/personal approved administrative withdrawal and one college office administrative withdrawal, each for one or more courses in a single term.

R
Temporary grade indicating that the student is making satisfactory progress in a course that formally extends beyond the end of a term. Only designated courses are eligible for R grades. Please see the R grade expiration policy on the Grades, Incomplete (IN) and Research (R) Expiration Policy page in this handbook for additional information.

RG
Permanent grade assigned to a degree recipient who chooses not to resolve a grade of "R" awarded during the last year prior to graduation. The grade of "RG" (Research, Graduated) is final, and cannot be changed or lapsed to "F" once the degree is posted.

M
Final grade not submitted by instructor.

AU
Auditor status; course does not earn credit.

Quality Points
Quality points are awarded to a student in relation to the grade given and the number of quarter hours of credit attempted in the course. Quality points are awarded according to the following schedule:

<table>

Quality Points not assigned

Grade Point Average

In general, a student’s grade point average is computed by dividing the total number of quality points accumulated by the total number of credit hours attempted with quality points assigned. In addition, a number of graduate programs have specific regulations regarding the computation of the grade point for coursework outside the program. The grade point average is calculated only upon grades earned at DePaul University.

Grades, Challenges to

A. General Policies on Grading

1. Grades are determined solely on the basis of the academic performance of each student according to pre-established criteria determined by the course instructor and consistent with university, college and departmental policies.

2. Grade determination is the prerogative of the instructor subject to the constraint that any successfully challenged grade will be changed through faculty action.

3. The criteria for evaluating academic performance are to be consistent with a course’s goals and objectives, which have been approved by the appropriate academic authority before the course is scheduled. On the first day of class of each course the instructor is to explain in writing to the students the criteria for evaluating as well as the methods for grading student performance (examinations, papers, reports, etc.).

4. The instructor in each course shall decide what criteria and methods for evaluating students are to be applied in the specific course. These decisions of the instructor, however, must be compatible with any policies previously accepted by the faculty of a department or college with respect to particular courses, especially courses offered in sequence where the qualifications of a student to begin an advanced course depend upon performance in a previous course. The methods of conducting a course are determined by the instructor within limitations set by the classification of a course as lecture-discussion, seminar, laboratory, etc. An instructor may vary the teaching methodology to meet particular circumstances of a course (type or number of students enrolled, concentrated calendar as in summer sessions, etc.) or the instructor’s own desires to innovate or experiment with different approaches.

Any method selected must be compatible with the predetermined goals and objectives of the course. While teaching methodology may change after the course has begun, grading methodology may be changed only with the consent of a majority of students in the course, taking into consideration hardships imposed upon students opposed to the change.

5. The actual evaluation and grading of academic performance is subject to the professional judgment of each instructor. Considerable personal discretion is required in these judgments - a justifiable margin of difference can exist between the evaluations made by two or more professional persons of the same academic performance.

6. Students are entitled to compare their work in the course with the criteria applied in deciding the final grade for the course. Accordingly, the course instructor is required either to return major papers and examinations to students or to make such available for students until the end of the following term. Spring Quarter materials are to be available until the end of the Autumn Quarter. For pedagogic reasons, an instructor is expected to review with the student the relative success of the student’s accomplishments. The instructor is not expected to debate the grading.

7. A student may object to a grade for one or more of the following reasons:
   a. The methods or criteria for evaluating academic performance, made explicit by the instructor at the beginning of the course, usually in a course syllabus or as subsequently modified with the majority consent of the students, were not actually applied in determining the grade.
   b. The grade was determined or influenced by criteria other than those explained by the instructor or by criteria not relevant to academic performance.
   c. The instructor applied predetermined criteria unfairly, which may include but not be limited to the following items:
      - The instructor’s evaluation of academic performance so exceeded the reasonable limits of the instructor’s discretion as not to be acceptable to the instructor’s peers.
      - Predetermined criteria were not explained at the beginning of the quarter or semester.
   d. The instructor did not adhere to temporary University policies regarding the end-of-quarter grading accommodations that were adopted in Spring of 2020 after the social unrest that occurred in Chicago after the death of George Floyd. For courses taking place in Spring quarter 2020 only, this policy required that instructors choose one of the following options for final grading:
      - To award a final course grade on the basis of materials due by May 29, 2020, assuming that at least 70% of the course materials had been due by that date.
      - To award, at the student’s request, an Incomplete without explanation and subject to all rules regarding incomplete grades.

B. Policies Regarding Grade Challenge

1. All Grade Challenge Review Boards must follow the procedures listed below.

2. A challenge to a grade will be reviewed and decided by tenured faculty unless the college or school has an insufficient number of tenured faculty to staff a Review Board.

3. The student who challenges a grade bears the full burden of proof that there are sufficient grounds for changing a grade.
involving DePaul University students.

following procedures have been developed and will be applied to all cases involving individual students and appropriateness of course grades, the

In order to provide a forum for the fair resolution of academic disputes D. Procedures for Filing a Grade Challenge Review Boards

1. At the beginning of each academic year, the Committee on Committees will recommend to the Faculty Council, the faculty members and alternates for one Review Board for each of the following colleges: Business, Computing and Digital Media, Communication, Education, Law, Music, School of Continuing and Professional Studies, Science and Health, and Theatre.

It will recommend two boards for Liberal Arts and Social Sciences covering the following areas: Humanities and Behavioral and Social Sciences. The Faculty Council will make all appointments to Review Boards. The dean of a college may request the establishment of additional Review Boards.

2. Each Review Board will consist of three faculty members and two alternate faculty members and one student. Faculty members may not serve on challenges in which they are involved. Involvement includes assignment of the grade in question and/or attendance or participation in the class. In either of these cases, one of the alternates will be asked to serve.

3. The student representative on the Review Boards in Business, Computing and Digital Media, Communication, Education, Liberal Arts and Social Sciences, Science and Health, Law, Music, School of Continuing and Professional Studies, and Theatre will be the elected Senator from the college or school. In cases where this Senator is involved in the claim; i.e., had registered for, attended or participated in the class, the SGA EVP of Academic Affairs will serve as an alternate or, if necessary, the president may appoint the alternate.

4. The Review Board will select its own chair and vice chair (to serve in the absence of the chair). The Chair of the Review Board receives all requests for hearing from the dean or chair of the affected department, sets the calendar, notifies all board members and involved parties of the dates and times of the hearings and informs students by written notice of the recommendations of the board. The chair is responsible for adherence to the Procedures for Filing a Grade Challenge.

5. The Review Board will serve until the beginning of the Autumn Quarter of the academic year.

6. A quorum of the Review Board consists of three members of the board. Challenges will be upheld by a vote of three or more of the four member board. All members are voting members.

7. The members of the Review Board are expected to disqualify themselves should a conflict of interest arise.

D. Procedures for Filing a Grade Challenge

In order to provide a forum for the fair resolution of academic disputes involving individual students and appropriateness of course grades, the following procedures have been developed and will be applied to all cases involving DePaul University students.

1. A student who is considering a grade challenge must discuss the grade with the instructor before the end of the following regular term. (Spring and Summer Quarter challenges must be made before the end of the Autumn Quarter. Law students challenging a Fall semester grade have a deadline of March 1 of the following Spring semester. Law students challenging a Summer/Spring semester grade have a deadline of October 1 of the following Fall semester.) The instructor is expected to explain the reason for the grade to the student. Only if the instructor is not at the university during the following regular term after the grade was issued, may the student proceed to challenge the grade without meeting with the instructor.

2. If, after the discussion with the faculty member, the student still disputes the final grade, the student may continue their challenge by submitting a written request for a hearing to the office of dean of the college or school in which the course was offered within the term following the award of the disputed grade. Since the following burden of proof rests upon the student, it is important that the student include a clear and coherent statement (typed) with the reason for the appeal, together with any supporting documents the student may wish to include. Students may request that copies of supporting documents in possession of the faculty members be forwarded to the chair of the Review Board. All challenges will be thoroughly and fairly reviewed.

3. The dean of the college or school shall forward a copy of the request to the chair of the Review Board, the involved faculty person and the student. This must be signed and dated by the dean or chair of the affected department.

4. Once filed, the formal challenge is automatically forwarded through all stages of the appeal process unless the Review Board determines it to be groundless or frivolous. Additionally, the student has the option to discontinue the appeal at any stage by submitting a letter stating such to the instructor and chair of the Review Board.

5. Both the student and instructor will be informed in writing of all committee recommendations and decisions as well as any new written information bearing on the case. Only the instructor and/or the Review Board are empowered to change a grade.

6. The Review Board may, at its discretion, seek oral clarification of the written responses from the student and faculty member. If it requests this further clarification, the Review Board must meet with both the student and faculty member separately if the student requests.

7. The Review Board shall evaluate the challenge and vote to approve or deny. Decisions of the Review Board arrived at by secret ballot are to be determined by a majority vote.

Such action must be taken within two months of the date of filing. (If the grade appeal is not passed along its designated route within the times specified, the student should notify the dean of the school or college who will determine the reason for the delay.)

8. The Review Board is to reach one of the three following decisions:

a. Challenge affirmed and settled by consent: i.e., the Review Board conducting the review deems a conciliation mutually acceptable to the student and the instructor who gave the grade. Should the acceptable conciliation involve a change of grade, the instructor will submit a change of grade.

b. Challenge affirmed and the Review Board may submit a change of grade card to the dean of the college or school in which the course was taught.
In determining the student’s final grade, the Review Board will take into account all evidence of the student’s academic performance in the course under challenge as well as the implications for the student’s grade of the instructor’s actions in the case in question.

9. The decision reached by the Review Board is to be communicated by the chair of the Review Board in writing directly to the dean of the college or school, the instructor, and the student. The explanation for the decision will also be communicated.

10. Decisions by the Review Board are final and binding on all parties. The board’s decision does not require the approval of the dean of the college or school, or the chair of the affected department.

**Grades, Incomplete (IN) and Research (R) Expiration Policy**

**Incomplete (IN) Grade**
An Incomplete (IN) grade is a temporary grade indicating that, following a request by the student, the instructor has given permission for the student to receive an incomplete grade. In order to receive an IN grade, the student must have a) a satisfactory record in the work already completed for the course, b) encountered unusual or unforeseeable circumstances which prevent them from completing the course requirements by the end of the term, and c) applied to the instructor for permission to receive an IN (see grade definition ([https://courses.depaul.edu/university-catalog/academic-handbooks/undergraduate/undergraduate-academic-policies/Pages/grades.aspx](https://courses.depaul.edu/university-catalog/academic-handbooks/undergraduate/undergraduate-academic-policies/Pages/grades.aspx))).

Undergraduate and graduate students have at most two quarters to complete an incomplete. At the end of the second quarter (excluding summer) following the term in which the incomplete grade was assigned, the incomplete will automatically convert to an F grade. In the case of the Law School, incompletes must be completed by the end of the semester following the one in which the incomplete was assigned.

A faculty member has the prerogative to assign a completion date earlier than the two quarter deadline (one semester deadline for the Law School) and this date will supersede the two quarter timeframe (one semester timeframe for the Law School) stated above.

Students must adhere to the incomplete grade request procedure of the academic unit offering the course for which they are requesting the incomplete grade.

Ordinarily no incomplete grade may be completed after the grace period has expired. Instructors may not change incomplete grades after the end of the grace period. A faculty member has the prerogative to assign a completion date earlier than the one academic year deadline and this date will supersede the one academic year stated above.

A faculty member has the prerogative to assign a completion date earlier than the one academic year deadline and this date will supersede the one academic year stated above.

Students who have completed degree requirements, but have an IN grade that has not yet expired can elect to have the degree posted and the IN grade changed to a permanent incomplete, ING. This grade is permanent and cannot be changed in the future. The student can also elect to postpone degree conferral until the IN grade is resolved.

**Research (R) Grade**
An R grade is given when a student is making satisfactory progress in a course that extends beyond the end of the term or in a project extending over more than one term. R grades, with the exception of students completing a thesis or a dissertation research course, must be completed within one academic year of the posting of the R grade or it reverts to an F grade.

A faculty member has the prerogative to assign a completion date earlier than the one academic year deadline and this date will supersede the one academic year stated above.

Ordinarily no R grade may be changed after the grace period has expired. Instructors may not change R grades after the end of the grace period without the permission of a college-based Exceptions Committee.

In the event that the original instructor is no longer available to grade the work, the Department Chair, where applicable, or the Associate Dean will identify the faculty member who will resolve the R grade.

Students who have completed degree requirements, but have an R grade that has not yet expired can elect to have the degree posted and the R grade changed to a permanent R grade. The R grade is permanent and cannot be changed in the future. The student can also elect to postpone degree conferral until the R is resolved.

**Grades, Repeating Classes**
A graduate student may need to repeat a course. When a course is repeated, both grades earned are recorded on the academic record. They are designated as "original" and "repeated". However, only the second grade counts toward that degree requirement, is added to cumulative credit, and is calculated into the degree's cumulative grade point average.

If a student wishes to repeat a course more than once, they need permission from their graduate program director. Students who register for a course for the third time without first obtaining permission may be dropped from the course. All repeated course grades are calculated into the cumulative grade point average and only the last course grade applies to that degree requirement.

**Note**
Federal and state financial aid regulations restrict the number of times that a student may receive federal or state financial aid for repeating a course for which credit has been previously earned. The student should contact the Office of Financial Aid at DePaul Central to learn about the financial aid impact if they are considering repeating a course for which they have previously earned credit.

**Graduation Requirements**
1. The student must have satisfied all the requirements and regulations of the individual program and college or school granting the degree.
2. A formal application for graduation must be filed by a candidate. Application for graduation may be made only by classified degree seeking students. The student must complete the online degree
conferral application in Campus Connect by the designated deadline date.

- Autumn degree conferral - October 1
- Winter degree conferral - January 15
- Spring degree conferral - February 1
- Summer degree conferral (August) - July 15

Submitting this on-line application does not guarantee the conferral (granting) of a degree from DePaul University. A student can change the expected completion term up to the last day of that term. Degree requirements are reviewed at the end of the expected completion term indicated. If all requirements are met, the degree will be conferred within 30 days of the end of the term. Diplomas are mailed (to graduates without financial holds), generally within 45-60 days after the end of the term.

DePaul reports degree information to the National Student Clearinghouse monthly. Many companies and agencies use this service to verify awarded degrees. A student’s degree will only be verified by the Clearinghouse if the student does not have a FERPA/Privacy restriction in Campus Connect at the time the degree is conferred. Students should verify Privacy Settings before the end of their completion term.

Graduation with Honors
Please consult your graduate program for specific information regarding graduation with honors.

Graduation, Commencement Ceremony
The University’s annual graduate and undergraduate commencement exercises are conducted in June. Traditionally the University hosts a baccalaureate mass to which all graduating students and their families are invited the Friday of graduation weekend.

Attendance at the graduation exercise is optional, however, graduates must notify their college office of their intention by the published deadline date. Graduates will receive detailed instructions concerning the commencement exercise from the college office.

Graduation, Degree Conferral Policy
Final certification of degrees is completed by the Office of the University Registrar thirty days after the conferral date.

In dual degree programs authorized by the colleges, the degrees will be conferred simultaneously.

Academic records will be locked upon degree conferral. Under no circumstances will changes be made to the academic record after degree conferral.

If a student begins a new program of study at DePaul after a degree has been conferred, the student’s GPA will be restarted. The one exception to this rule involves master’s students whose DePaul master’s degree is accepted to meet DePaul’s PhD requirements either in the same or a new field. In this instance the GPA in the PhD program will include the GPA from the DePaul master’s degree.

Combined Bachelor’s + Master’s Degree Program
Students combining a master’s degree with a bachelor’s degree in an approved DePaul Combined Bachelor’s + Master’s Program will restart their GPA at the beginning of their graduate career.

JD/LLM Program
In the case of students who are accepted into the joint JD/LLM program, the students’ GPA in the LLM program will include the GPA from the JD program. Students who have completed the JD degree and are independently pursuing the LLM degree will have their GPA restarted.

Graduation, Time Limit for Completion
Master’s Degrees
DePaul students pursuing a master’s degree must complete all requirements for the master’s degree within a maximum of six years from their first term of enrollment in the program. Please note that individual colleges and/or programs may stipulate a shorter time frame. In the case where a program or college has a shorter time frame, students must complete their degree requirements within the time frame detailed by the program in the College Handbook or detailed in the program requirement sections of this University Catalog.

Students who are unable to complete the degree within this time frame are required to confer with their graduate program director/advisor to discuss their options.

Doctoral Degrees
DePaul students pursuing a doctoral degree must complete all requirements for the degree, including the dissertation, within a maximum of 10 years from their first term of enrollment in the program. Please note that individual colleges and/or programs may stipulate a shorter time frame. In the case where a program or college has a shorter time frame, students must complete their degree requirements within the time frame detailed by the program in the College Handbook or detailed in the program requirement sections of this University Catalog.

Students who are unable to complete the degree within this time frame are required to confer with their graduate program director/advisor to discuss their options.

College of Law Programs
DePaul students pursuing a juris doctor, master of laws or master of jurisprudence degree should consult the College of Law Student Handbook for Time Limit for Degree Completion.

Students who are unable to complete the degree within this time frame are required to confer with the Law Associate Dean for Student Affairs to discuss their options.

Joint Programs
DePaul students who are enrolled in a joint program where either two master’s degrees, a master’s degree and a juris doctor degree or a juris doctor and a master’s of law degree are awarded simultaneously should
consult the degree requirement section of the University Catalog for the maximum time to completion.

Students who are unable to complete the degrees within this time frame are required to confer with their graduate program directors/advisors to discuss their options.

**Immunization, Proof of**

DePaul University complies with Illinois state law (College Student Immunization Act [110 ILCS 20]) and the Illinois Department of Public Health College Immunization Code (77 Ill. Adm. Code 694), which mandates post-secondary institutions to submit an annual report on student immunization requirements. All DePaul University students, born on or after January 1, 1957 and attend a university campus location, must provide proof of the required immunizations. Additionally, Illinois law requires that universities prevent students from registering for any subsequent terms if proof of immunization is not provided.

Proof of the following immunizations is required:

- **Tetanus/Diphtheria/Pertussis** - 3 doses (at least 1 tdap in lifetime, last dose within past 10 years)
- **Measles** - 2 doses (at least 28 days apart, after first birthday. Neither dose can be prior to 1968.)
- **Mumps** - 2 doses (at least 28 days apart, after first birthday. Neither dose can be prior to 1968.)
- **Rubella** - 2 doses (at least 28 days apart, after first birthday. Neither dose can be prior to 1968.)
- **Meningococcal** - 1 dose (if under the age of 22, taken on or after 16th birthday)

Additionally, DePaul University requires that all students who enroll and attend a campus location provide proof of the following:

- **COVID 19** – 2 doses from Pfizer (21 days apart) or 2 doses from Moderna (28 days apart) or 1 dose from Johnson & Johnson.

Please visit the Immunization Requirements (http://www.depaul.edu/admission-and-aid/admitted/Pages/immunizations-requirements.aspx) webpage for more information.

**Leave of Absence**

A student who requires time away from their academic program but who intends to re-enroll at DePaul within four quarters may request a leave of absence. Students must be enrolled in the fourth quarter after beginning their leave of absence (excluding summer term). Students will be subject to the NonEnrollment/ (p. 1518)Discontinuation Policy (p. 1518) if they do not enroll in the fourth term after their leave of absence begins. Students seeking a leave of absence related to military service will find the procedure outlined in the Military Academic Adjustments (p. 1517) policy. Students should consult their academic advisor to determine if their college has a more restrictive leave of absence policy. This policy does not cover the College of Law; therefore, College of Law students should consult with the college if seeking a leave of absence.

Students are limited to a maximum of three quarters leave of absence for each career (undergraduate or graduate). The quarters need not be consecutive. A student wishing to take a leave of absence must complete a Leave of Absence form in Campus Connect. Their Degree Progress Report will reflect the requirements from the student’s entrance term while a student remains on leave of absence. Students are not required to reapply for admittance to the University if they re-enroll within four quarters (not including summer quarter). If a student does not return within this time frame, they must apply to be re-admitted as a student. If a student requests a leave of absence that spans fewer than the three quarters they are allowed as a maximum, they will be subject to the standard D (p. 1518)Discontinuation Policy (p. 1518) and will be discontinued if they do not enroll in the third quarter after their leave of absence begins. Re-admission does not extend the number of terms for which a student may take a leave of absence.

Students who receive financial aid are encouraged to consult with the Office of Financial Aid at DePaul Central to discuss the effect of a leave of absence on their financial aid.

To initiate a leave of absence, a student will use the tool in Campus Connect (select the “Academic Records” tile and click on “Leave/ Withdrawal Request”). Upon submitting their request, the student will receive a notification of its receipt from the Office of the University Registrar. The student will receive a second email once their leave of absence is processed.

**Military Academic Adjustments**

DePaul University will make academic adjustments for students in the military consistent with all applicable legal requirements. This could include, for example: academic adjustments with a course, options regarding withdrawals or leaves of absence, and readmission at the conclusion of active duty. The details of any academic adjustments are dependent on the student's specific military orders.

Procedures Regarding Withdrawals and Leaves of Absence: Students who are in the military and called to active duty that interrupts their enrollment must complete the DePaul University Leave/Withdrawal Request in Campus Connect. Students should indicate “military” on the application in Campus Connect. Upon their return, they will meet with an academic advisor to discuss resuming their studies.

Students are encouraged to contact the Veterans Student Affairs Office (https://offices.depaul.edu/student-affairs/support-services/for-specific-populations/Pages/veteran-services.aspx) for more information about other specific procedures regarding withdrawals, leaves of absence, academic adjustments, and for information regarding other policies that may be particularly applicable to students in the military.

**Missing Student Notification Policy**

Any member of the university community who believes that a student is a missing student should immediately contact DePaul Public Safety at (773) 325-7777. A “missing student” is a student who has been reported absent from the University for 24 hours or more without any known reason. Any other DePaul office that receives a report of a missing student (for example: the Dean of Students Office, Residential Education, College/ School offices, etc.) must immediately refer that report to Public Safety.

Public Safety will promptly investigate all reports of missing students to determine the validity of the report. If the report of a missing student is validated, the designated DePaul office will, within 24 hours of receiving the initial report:

1. Notify local law enforcement that the student is a missing student.
2. If the missing student has designated an emergency contact(s), including an additional emergency contact specifically related to being a Missing Student, attempt to notify the missing student’s emergency contact(s) that the student is a missing student. Students are responsible for updating all emergency contact information in Campus Connect. All emergency contact information is only available to authorized DePaul personnel, and will only be released for approved purposes, such as to law enforcement in furtherance of a missing person investigation.

3. If the missing student is under 18 and not emancipated, attempt to notify the student’s parent/guardian that the student is a missing student.

Public Safety is responsible for communicating all validated reports of missing students to local law enforcement within 24 hours of receiving the initial report.

Public Safety will work with Student Affairs regarding all reports of missing students. Student Affairs is responsible for communicating with a missing student’s emergency contact(s) (and if applicable, a missing student’s parent/guardian) within 24 hours of receiving the initial report.

Students have the option to designate one or more emergency contacts in Campus Connect. This includes designating an additional emergency contact specifically related to being a Missing Student. If a student is a Missing Student, DePaul will notify those emergency contacts specifically designated as emergency contacts for Missing Student situations, and may notify other emergency contacts as well.

In order to make students aware of this policy, including the student’s option to designate an emergency contact in Campus Connect, this policy will be summarized in DePaul’s Annual Safety and Security Information Report, in the Undergraduate Student Handbook, and in the Graduate Student Handbook.

**NonEnrollment/Discontinuation**

Students who complete a term and do not enroll for the following term at DePaul remain active and eligible to enroll until they are formally discontinued. Discontinuation occurs when:

1. The student does not register in the term for which they were admitted.
2. The student does not register for three consecutive quarters (or for Law, two semesters), excluding summers. In these cases students must seek readmission.
3. The student has not made progress toward the degree for three consecutive quarters (or for Law, two semesters), excluding summers.

Candidates for theses, dissertations and students on year-long study abroad programs are excluded from this rule. In these cases, students must meet with a college academic advisor to get permission to register and/or seek readmission.

Students in the School of Music, The Theatre School, or the College of Law who intend to take one or more terms off must consult their college office.

Students who are suspended from the University through the Student Conduct Process or the Academic Integrity process, or students who are participating in a University-initiated temporary medical withdrawal process, are not discontinued until they do not register or make progress toward the degree for three consecutive quarters (or for Law, two semesters) following the date on which they could be eligible for return. In these cases students must seek readmission.

**Posthumous Degree**

A posthumous degree may be awarded to degree-seeking candidates who were actively enrolled and in good academic standing. Undergraduate students must have earned at least 132 credit hours; graduate and professional students must have completed at least 75% of the curriculum required for their degree.

For all other cases, the Dean may request a Certificate of Accomplishment be awarded to honor the student’s progress toward the degree and accomplishments as a member in good standing of the DePaul community.

**Registration**

Students are responsible for planning their own programs and for completing course sequences and degree requirements. In planning each quarter’s course of studies, students should remember that required courses take precedence over elective courses, and that some advanced courses have pre-requisites that must be completed first. Students should be guided by their interests or needs where electives are indicated. A student regularly employed is advised to discuss his or her course load for each quarter with an advisor prior to registration. Advisors are available to assist students in planning programs and schedules.

**General Regulations**

1. Students can add, drop, or swap classes via Campus Connect. It is the student’s responsibility to verify that the transaction has been processed.
2. Students will receive credit only for classes for which they are registered.
3. Students who are not on the class roster are responsible for completing the steps necessary to resolve the issue. It is not the responsibility of the instructors to resolve the problem.
4. Student must officially register for classes by the stated deadline. For 10-week classes, the deadline is the end of the first week of the term. In addition, students should consult individual college regulations regarding special registrations (e.g., independent studies, internships, etc.).
5. The University is required to report enrollment and attendance to fulfill requirements established by several governmental agencies. To satisfy these requirements, it is University policy that attendance will be monitored in all classes. Each school or college maintains additional specific policies concerning attendance. Students should become familiar with these policies. Promptness is expected of a student for all class sessions. Tardiness of more than ten minutes is generally to be considered by the instructor as an absence.
6. Students’ status at the university will be changed from “active” to “discontinued” if:
   a. There is no enrollment in the term of admittance.
   b. There is no registration activity for three consecutive quarters - excluding summers - in which case these students must seek readmission;
   c. No progress has been made towards their degree for three consecutive terms, excluding summers. (Candidates for theses
and students on year-long study abroad programs are excluded from this rule.)

7. Students who have been “discontinued,” must apply and be approved for readmission to continue their studies.

**Academic Calendar Formulas**

Academic calendar deadline dates are based on the following formulas. These formulas are particularly important for classes that meet outside the standard (10 week term plus finals week) start and end dates for a term. Please consult your college office for specific dates relevant to your class.

- Students may not add classes after 10% of the scheduled class has elapsed.
- Students who drop a class or classes after 20% of the scheduled class has elapsed will be responsible for 100% tuition and a grade of W will be assigned.
- Students may not select a Pass/Fail grading option after 20% of the scheduled class has elapsed.
- Students may not select Audit (non-credit) grading option after 30% of the scheduled class has elapsed.
- Students may not withdraw from classes after 70% of the scheduled class has elapsed.

**College/School Regulations**

- Students may audit classes only with permission of their advisor or college office. Students may not change from the status of credit to audit or vice-versa after 30% of the term has elapsed (the third week of class for a 10 week class). Full tuition is assessed for audited classes.
- Students interested in earning credit in transfer must obtain approval from their college office prior to registration at the other institution.
- Extension courses taught through other accredited institutions are accepted only when the sponsoring institution itself conducts the courses and certifies the grade and credit through an official transcript. A DePaul degree-seeking student must obtain the written permission of his or her dean before enrolling in an extension course.

**Registration, Student Enrollment Classifications**

College credit is accumulated on the basis of quarter hours earned:

**Full-Time Student Status**

An eight-quarter hour course load is considered full-time for graduate studies. For graduate students in The School of Music, a six-quarter hour course load is considered full-time.

**Half-Time Student Status**

A four- to seven-quarter hour course load is considered half-time for graduate studies.

**Students Completing Thesis/Dissertation Requirements**

Students should consult their program for enrollment information.

Self-service Enrollment Verifications are available through Campus Connect.

**Requirement Term**

**Graduate Program Specific Information**

A student will complete the graduate program requirements in place at the time of the student’s first enrollment term in the graduate program. A student who changes graduate programs while their studies are in progress will complete the requirements in place at the time they enroll in the new program.

A student who changes graduate programs during a break between terms (e.g. winter, spring) will follow the requirements in place for the term immediately following the break.

A student who applies for readmission will be subject to the program and concentration requirements in place in the enrollment term of readmission.

**Other Information**

A student currently enrolled in a degree program in which revisions are approved while their studies are in progress may elect to formally adopt the revised requirements.

**Requirements, Curriculum**

Official changes in courses, course numbers, titles, descriptions, and prerequisites and minor changes in program requirements may be made on a quarterly basis.

Multiple changes or thorough revisions in the requirements of a program, major, or concentration which have received the required university approvals may be made twice each year. Changes approved by May 15th will be effective for the Autumn term, and those by October 15th will be effective for the Winter/Spring/Summer terms.

New programs, majors, or concentrations that have received the required university approvals may be added to the University Catalog edition that corresponds with the first term the program is active.

**Requirements, Program Termination/Substantial Changes**

If an undergraduate major, graduate or law degree program is terminated or a program undergoes substantial changes, there must be a plan in place and a commitment to provide a reasonable opportunity for those active in the program to complete the current requirements of the degree.

The chart below provides the maximum time frame allowed to complete the degree from the point of termination/change:

<table>
<thead>
<tr>
<th>Type of Program</th>
<th>Maximum Time Allowed¹</th>
</tr>
</thead>
<tbody>
<tr>
<td>Undergraduate majors</td>
<td>4 years</td>
</tr>
<tr>
<td>Undergraduate SCPS programs</td>
<td>6 years</td>
</tr>
<tr>
<td>Graduate programs (thesis required)</td>
<td>4 years</td>
</tr>
<tr>
<td>Graduate programs (MFA)</td>
<td>4 years</td>
</tr>
<tr>
<td>Graduate programs (thesis not required) and Professional MJ and LLM programs</td>
<td>3 years</td>
</tr>
</tbody>
</table>
Tuition Policy

All tuition and fees are due to DePaul University by the published tuition due date for that term. All charges must be paid in-full by the payment date.

Tuition charges for any course registrations made after the due date must be paid in full within 24 hours of registration.

Withdrawal, Tuition

Students must withdraw from classes through the registration function in Campus Connect. Withdrawals processed via the web or through direct contact with the home school/college office are effective the day on which they are made. Simply ceasing to attend, or notifying the instructor, or nonpayment of tuition, does not constitute an authorized withdrawal from class and will result in academic as well as financial penalty.

When the withdrawal occurs, the tuition charge for courses during a 10-week quarter will be reduced according to the following schedule, in accord with the tuition package:

<table>
<thead>
<tr>
<th>Withdrawal</th>
<th>Refund</th>
</tr>
</thead>
<tbody>
<tr>
<td>Up to 20% or 2 weeks of a ten week term</td>
<td>100% refund</td>
</tr>
<tr>
<td>After 20% of the term</td>
<td>0% refund</td>
</tr>
</tbody>
</table>

Notes

- Students receiving financial aid are advised to contact a Financial Aid Counselor to discuss the consequences of a withdrawal impacting academic progress and aid eligibility at DePaul University or any other school to which they may transfer. Students in university housing are advised to contact Housing to discuss the consequences of withdrawal impacting eligibility to maintain residence.

Withdrawal/Drop Policy

The following policies pertain to the withdrawal from individual courses, the withdrawal of all courses for a given term, and withdrawal from the University.

There are two categories of Withdrawals:

- College/University Initiated (p. 1523)
- Student Initiated (p. 1523)

College/University Initiated

Under rare circumstances, DePaul University may need to administratively drop a student from a course (or courses) for which the student is registered. This policy outlines those instances and establishes the procedures to be followed by the University to drop a student from the course.

DePaul University reserves the right to administratively drop a student from a course (or courses) under a limited number of circumstances. These fall into two categories: those performed by the college offices and those performed by the Office of the Registrar.

College Office

A student may be administratively dropped from a course (or courses) by the home college, if the student is:
1. registered for a course (not repeatable for credit) for the third or more time and has not received appropriate permission to repeat the course again.
2. registered for a course (not repeatable for credit) in which the student originally earned a C- or better and has not received appropriate permission to repeat the course.
3. on probation and exceeds the allowable number of credit hours and has not received the appropriate permission to register for the additional hours.
4. registered for more than the maximum number of competencies allowed within competency-based courses (SCPS).
5. academically dismissed from the University.
6. registered for a course that has been cancelled.

Office of the University Registrar

A student may be administratively dropped from a course (or courses) by the Office of the University Registrar, if the student has:

1. not met the prerequisites for the course and has not received appropriate permission to take the course without the prerequisite.
2. been suspended for the term or permanently dismissed from the University as the result of an academic integrity violation hearing or a student code of conduct judicial board hearing.

Student Initiated

Students who must withdraw either from a course or from the University may do so by using Campus Connect, the University’s web registration system. Students unable to use the web registration system should contact their home school/college office, whether in person, phone or email (emails must be sent from the student’s preferred email listed in Campus Connect). Students who are physically unable to contact the university may designate someone to act on their behalf.

Withdrawals processed through Campus Connect are effective the day on which they are made. Withdrawals processed through the student’s home school/college office are effective:

- in person: the date the student had the transaction processed in the office
- for email: the date the email was sent
- for mail: the date the letter was received

Simply ceasing to attend, or notifying the instructor, or nonpayment of tuition, does not constitute an official withdrawal from the course and will result in academic as well as financial penalty.

A. Withdrawal from One or More Courses

Students who wish to withdraw from one or more courses within a term, must do so by the stated deadline dates for that term. Students who missed the deadline due to extenuating circumstances should consult section C.

Students who withdraw from all courses for a term, and who plan to return the next term, are eligible to register for the next term.

Students who plan to permanently withdraw from the University should consult Section B.

B. Withdrawal from the University

Students who decide to permanently withdraw from the University must do so using the DePaul University Permanent Withdrawal/Military Leave Request application in Campus Connect. Students are strongly encouraged to consult with their advisor before doing so.

1. Students enrolled for current and/or future terms are required to withdraw from all courses before requesting permanent withdrawal in the DePaul University Permanent Withdrawal/Military Leave Request application in Campus Connect.
2. Students who are not currently enrolled and wish to permanently withdraw from the university should complete the DePaul University Permanent Withdrawal/Military Leave Request application in Campus Connect.
3. Students who wish to return to the University after a permanent withdrawal must complete an application for readmission.

C. Late Withdrawals

In rare circumstances, students who missed the deadline to withdraw from a course (or courses), may request a late withdrawal from either the Dean of Students office or the student’s home college office.

1. Decision-making for late withdrawals resides primarily in the Dean of Students Office for personal/medical issues; and in the School/College Offices for all other issues. These principles underlie the decision-making processes:
   - All policies are driven by academic concerns:
     a. Decisions are guided by the best interests of the students.
     b. Decisions will be made in compliance with federal regulations.
   - Restrictions on requesting approval for late withdrawal:
     Requests for late withdrawals from one or more courses in a given quarter must be submitted to either the Dean of Students Office (for medical/personal withdrawals), or the student’s home School/College Office (for administrative withdrawals) by the following deadlines.

For Undergraduate/Graduate:

- Autumn Quarter: Last day of the last final exam of the subsequent winter quarter.
- Winter Quarter: Last day of the last final exam of the subsequent spring quarter.
- Spring Quarter: The end of the second week of the subsequent autumn quarter.
- Summer Terms: Last day of the last final exam of the subsequent autumn quarter.

For the College of Law:

- Fall Semester: Last day of the final exam period for the fall semester.
- Spring Semester: Last day of the final exam period for the spring semester.
- Summer Semester: Last day of the final exam period for the summer semester.

College of Law students filing a late withdrawal appeal in the Fall or Spring semester of the first year of law school must request withdrawal from all courses.
During their college career, students may be allowed one medical/personal approved administrative withdrawal and one college office administrative withdrawal, each for one or more courses in a single term.

Zero-Credit Hour Courses, Graduate and Law

Graduate Students Completing Thesis or Dissertation

Many of DePaul’s masters and doctoral degree programs require a thesis or dissertation to earn the degree. The thesis or dissertation is often completed after all required credit hours and coursework is satisfied. Programs may offer a variety of 0-credit hour courses to accurately represent the student’s status while the student completes the thesis or dissertation. Each of these courses will have a unique course catalog number differentiating it from the others. These course offerings include:

1) Zero-credit hour course that supports a student’s full-time work on the thesis or dissertation

This course is reserved for students whose work on the thesis or dissertation is considered equivalent to that of a full-time course load. Students enrolled in this course:

• are reported as enrolled full-time for federal reporting and fellowships
• are eligible to defer loans
• are eligible to apply for federal loans and borrow living expenses
• may be limited by their program as to the number of times they are eligible to enroll for the course
• will receive a Pass or Fail grade determined by the thesis/dissertation director which supports the students work during the term

2) Zero-credit hour course that supports a student’s half-time work on the thesis or dissertation

This course is reserved for students whose work on the thesis or dissertation is considered equivalent to that of a half-time course load. Students enrolled in this course:

• are reported as enrolled half-time for federal reporting and fellowships
• are eligible to defer loans
• are eligible to apply for federal loan and borrow living expenses
• may be limited by their program as to the number of times they are eligible to enroll for the course
• will receive a Pass or Fail grade determined by the thesis/dissertation director which supports the students work during the term

3) Zero-credit hour course that supports a student’s less than half-time work on the thesis or dissertation

This course is reserved for students whose work on the thesis or dissertation is considered equivalent to that of a less than half-time course load. Students enrolled in this course:

• are reported as enrolled less than half-time for federal reporting and fellowships
• may be limited by their program as to the number of times they are eligible to enroll for the course
• will receive a Pass or Fail grade determined by the thesis/dissertation director which supports the students work during the term

Please Note:

1. Some graduate programs may require a final culminating project, practicum or exercise as part of the degree. The above enrollment guidance may be followed for these courses if they are offered for 0-credit hours and should carry an enrollment status equivalency.
2. Students in zero-credit hour courses are subject to the time limit for degree completion as determined by their program.

Other 0-Credit Hour Courses

There are other 0-credit hour courses offered by graduate or doctoral programs that do not fall into the above categories. These courses will keep the student in an active status. Each of these courses will have a unique course catalog number differentiating it from the others. Examples of these courses may include:

• courses for students completing work in other courses where an IN or R grade was awarded who need access to university resources
• courses that are non-credit bearing degree program requirements (such as presentation skills, field experiences, etc.)

Please Note for Other 0-Credit Hour Courses:

1. Depending on the type of course, the program will determine if a grade is required.
2. Students in zero-credit hour courses are subject to the time limit for degree completion as determined by their program.

University Resources

• Adult, Veteran and Commuter Student Affairs (p. 1561)
• Career Center (p. 1561)
• Center for Students with Disabilities (p. 1561)
• Croak Student Legal Services (p. 1561)
• Dean of Students Office (p. 1562)
• Department of Housing, Dining & Student Centers (p. 1562)
• DePaul Central (p. 1562)
• Financial Fitness at DePaul Central (p. 1562)
• Graduate and Professional College Offices (p. 1562)
• Health Promotion and Wellness (p. 1563)
• Health Services (p. 1563)
• Language Learning Center (p. 1564)
• Libraries (p. 1564)
• Office of Multicultural Student Success (p. 1564)
• Science and Math Tutoring Services (p. 1564)
• Student Affairs (p. 1564)
• Student Involvement (p. 1565)
• Technology Resources (p. 1565)
• University Center for Writing-based Learning (p. 1566)
• University Counseling (p. 1566)
Adult, Veteran and Commuter Student Affairs

Through collaborations with university and external partners, the Office of Adult, Veteran and Commuter Student Affairs assists students in their transition to college, provides support, resources and programs that help students persist and succeed academically, and works to promote an environment that is inclusive of the non-traditional student experience in which adult, veteran and commuter students can thrive as engaged members of the DePaul community.

You can find more information here: Adult (https://offices.depaul.edu/student-affairs/support-services/for-specific-populations/Pages/adult-services.aspx), Veteran (https://offices.depaul.edu/student-affairs/support-services/for-specific-populations/veteran-services/Pages/default.aspx), and Commuter (https://offices.depaul.edu/student-affairs/support-services/for-specific-populations/Pages/commuter-services.aspx).

As a result of participating in Adult, Veteran, and Commuter Student Affairs programs, students will be able to:

• Demonstrate life, academic, and career skills.
• Actively manage their transition to DePaul student life.
• Demonstrate self-advocacy and utilize appropriate resources when needs arise.
• Overcome engagement barriers associated with their non-traditional student status to participate in and contribute to the DePaul Community.

Career Center

At the DePaul University Career Center, we believe the path to your successful future starts with you. By helping you understand and shape your passions, interests and skills, we connect you with majors, internships, jobs and opportunities so that you can take on Chicago—and the world—with vigor, knowledge and preparation. No matter where you are in your career search, whether it’s deciding on a major or career path, making a career change, or preparing for your first job interview, we can help.

• Explore career options whether you are just starting your job search or are looking for a change.
• Meet with a career community advisor (https://resources.depaul.edu/career-center/career-advising/Pages/career-communities.aspx) to talk about how your passions, skills and academic interests match a variety of careers.
• Gain experience and earn academic credit with an internship through the University Internship Program.
• Find a job with one of the thousands of employers who recruit DePaul grads. Login to Handshake (https://depaul.joinhandshake.com/login/) to get started.
• Connect with DePaul alumni through the Alumni Sharing Knowledge (https://resources.depaul.edu/career-center/services-resources/Pages/alumni-sharing-knowledge.aspx) (ASK) Network for career-related networking and mentoring.

The Career Center is located at DePaul’s Lincoln Park Campus in SAC 192 and at the Loop Campus in DePaul Center 9500. Students may contact the office at (312) 362-8437 for appointments, or visit the Career Center website (https://resources.depaul.edu/career-center/Pages/default.aspx) for additional information.

Center for Students with Disabilities

The Center for Students with Disabilities (CSD) coordinates DePaul University’s provision of accommodations and other services to students with disabilities pursuant to the Americans with Disabilities Act and Section 504 of the Rehabilitation Act. CSD regularly works with students diagnosed with a range of disabilities such as learning disabilities, AD/HD, medical conditions, chronic illness, mental health disorders, and physical/visual disabilities, amongst others. Student success is at the core of the CSD’s mission and fits integrally with DePaul University as a diverse learning community.

Students are encouraged to enroll with CSD to receive accommodations and additional support services. CSD students are enrolled in all Colleges and Schools at DePaul, and may be full-time, part-time, undergraduate, or graduate level students. Some accommodations and services may include extended time on exams, assistance with note-taking, adaptive equipment, real-time captioning, classroom accommodations, advocacy, and assistive technologies amongst other support services.

CSD enrollment procedures require appropriate documentation of a student's disability and other identified information, as well as a personal meeting with CSD staff.

CSD is also a resource for faculty and staff who may have questions about accommodating, or otherwise working with, students with disabilities.

CSD has two full-service office locations:

• Lincoln Park Campus, Student Center 370, 773/325-1677
• Loop Campus, Lewis Center 1420, 312/362-8002

For more information, please view the Center for Students with Disabilities website http://offices.depaul.edu/student-affairs/about/departments/Pages/csd.aspx or contact staff at csd@depaul.edu.

As a result of participating in Center for Students with Disabilities programs and services, students will be able to:

• Develop competencies in effective communication, critical thinking, technological prowess, and wellness skills to foster academic and personal success at DePaul and afterwards.
• Develop self-awareness and understanding of personal strengths and challenges to become effective self-advocates and assume their individual responsibilities in actively pursuing their roles in the academic community.
• Accept aspects of disability culture and diversity.
• Effectively manage personal and learning challenges to successfully interact in academic, professional, and social environments and as future contributing members of society.
• Demonstrate connections of acquired knowledge to other knowledge, ideas and experiences and relate knowledge to daily life.

Croak Student Legal Services

For years, Croak Student Legal Services (CSLS) provided free and confidential legal advice to DePaul students. CSLS is no longer a stand-alone legal services office, but now offers legal guidance through workshops offered by the Croak Community Legal Clinic. The clinic is
named after Rev. Thomas M. Croak, C.M., a Vincentian priest and lawyer who started the Croak Student Legal Services to provide legal resources to DePaul students. The Croak Community Legal Clinic is an outgrowth of that program and a continuation of Rev. Croak's dedication to knowledge, education and public service. These workshops are designed to help you understand your legal rights and obligations and help you find useful resources. To learn more about the workshops, please visit http://sls.depaul.edu (http://sls.depaul.edu/).

Dean of Students Office

The Dean of Students Office is an invaluable resource, advocate and support for providing and identifying resources and services for students. The office helps individuals in navigating the university, particularly during difficult situations, as in personal, medical, mental health, and/or family crises. The Dean of Students Office is also responsible for overseeing the Code of Student Responsibility and managing the Student Conduct Process.

Additional information is available from the Dean of Students Office (https://offices.depaul.edu/student-affairs/about/departments/Pages/dos.aspx).

As a result of participating in Dean of Students programs and services, students will be able to:

• Utilize appropriate university and community resources to manage personal, professional and academic challenges.
• Utilize self-assessment strategies and develop skills to become empowered self-advocates.
• Communicate community standards and take responsibility for choices and actions.

Department of Housing, Dining & Student Centers

The Department of Housing, Dining & Student Centers, through its quality facilities and dedicated staff, promotes safe and inclusive on-campus communities that support and empower student academic success and personal development.

For more information about options on the Lincoln Park and Loop campuses and how to apply for room and board, visit http://offices.depaul.edu/housing (http://offices.depaul.edu/housing/).

DePaul Central

DePaul Central is your one-stop resource for helping students manage the business side of being a student. Services include: Account Transactions, Financial Aid Inquiries, Ordering Transcripts, Payment Plan Inquiries, Personal Financial Planning and Submitting Immunization Records.

DePaul Central ensures student issues are resolved in a timely manner and with the right level of attention and care they deserve so students can focus on what really matters: their academics.

• Visit with DePaul Central staff:
  • Lincoln Park: Schmitt Academic Center 101, 2320 N. Kenmore Avenue
  • Loop: DePaul Center Suite 9100, 1 E. Jackson Boulevard

Financial Fitness at DePaul Central

Financial Fitness provides free services, resources and tools to help students manage costs from freshman year through graduation and beyond. Services include:

• Confidential one-on-one financial counseling appointments.
• Comprehensive resources and tools available online.
• Workshops available by request.

Additional information is available from the DePaul Central office. Financial Fitness is located within DePaul Central's Lincoln Park Campus in SAC 101. Students can view resources or sign up for an advising session by visiting the website http://financialfitness.depaul.edu (http://resources.depaul.edu/financial-fitness/Pages/default.aspx) or calling (773) 325-8640.

Health Promotion and Wellness

Health Services

Health Services are offered through AMITA SAGE Medical Group. It is available to all enrolled students for a fee. If you live in a residence hall, with the exception of the University Center, you are automatically enrolled in DePaul Student Health Services. Student Health Service is NOT health insurance; you may need additional coverage. Additional information is available from the Office of Health Promotion and Wellness http://go.depaul.edu/healthservices (http://go.depaul.edu/healthservices/).

Health Promotion & Wellness (HPW) provides holistic education, support and resources for individuals to create and sustain long-term, healthy behaviors.

Alcohol and Substance Misuse Prevention

Alcohol and Substance Misuse Prevention at DePaul University stems from a harm-reduction approach, which encourages healthy choices and responsible decision-making regarding the use of alcohol, tobacco and other drugs. Students are also asked to consider their own safety and the safety of the community in relation to alcohol and substance use. HPW recognizes that students may be choosing to live substance-free, practicing harm reduction, or in recovery. The office offers various programs and presentations throughout the year, while also providing support to those in recovery or experiencing any issues related to substance misuse. Students can engage in individual support, group workshops, and/or the Collegiate Recovery Community.

Sexual and Relationship Violence Prevention

Sexual and Relationship Violence (SRV) Prevention at DePaul University is guided by a trauma-informed framework to address the impacts of trauma on campus community members. This practice is a strengths-based framework grounded in an understanding of and responsiveness to the impact of trauma, that emphasizes physical, psychological, and emotional safety for everyone, and that creates opportunities for survivors to rebuild a sense of control and empowerment. SRV prevention at DePaul University includes providing opportunities for the community to engage in bystander intervention training, educational opportunities to learn more about trauma-informed framework, healthy relationship education and Survivor Support Advocacy.

Mental Well-being Prevention

Mental Well-being prevention at DePaul University is guided by a holistic approach to mental health and wellness. This includes recognizing that our health and wellness is more than just the absence of disease and more than just physical and mental health. It means that all of our facets of wellness (social, emotional, intellectual, environmental, financial, physical and spiritual) are equally important. When we neglect one facet, we can see the imbalance and its effect on all of our other facets of wellness. HPW offers workshops, educational opportunities, resources and individual wellness coaching to help students prioritize themselves and care for themselves in a holistic and comprehensive method.

Co-Curricular Learning Outcomes

As a result of participating in Health Promotion and Wellness programs, students will be able to:

• Develop decision-making skills related to their personal health and community well-being.
• Utilize on and off-campus resources related to their well-being and the well-being of others.
• Demonstrate reflective thinking about the impact of their choices on themselves and others.
• Articulate the relationship between societal norms and their perception of their personal health and community well-being

Health Services

Health Services are offered through AMITA SAGE Medical Group. It is available to all enrolled students for a fee. If you live in a residence hall, with the exception of the University Center, you are automatically enrolled in DePaul Student Health Services.

Student Health Service is NOT health insurance; you may need additional coverage.
Additional information is available from the Office of Health Promotion and Wellness [http://go.depaul.edu/healthservices](http://go.depaul.edu/healthservices).

### Language Learning Center

Free tutoring service is available through the Department of Modern Languages (MOL).

- Each tutor holds one-on-one meetings via Zoom.
- Tutors are generally available 8am-8pm, Monday through Friday each quarter, with some weekend availability as well.
- Our tutors provide the following language-related assistance:
  - Helping improve students’ pronunciation;
  - Explaining grammar structures;
  - Practicing conversational skills;
  - Assisting with reading assignments;
  - Helping with writing assignments;
  - Offering other language-related support in all academic subjects.

To make a tutoring appointment, please find us on the Language Learning Center [https://las.depaul.edu/academics/modern-languages/student-resources/Pages/language-labs-and-tutors.aspx](https://las.depaul.edu/academics/modern-languages/student-resources/Pages/language-labs-and-tutors.aspx) webpage, where you can make an appointment via the Live Chat feature or by leaving a message.

### Libraries

The DePaul University Library is a hub for teaching and learning with resources, services and spaces to support students’ academic and personal success. The University Library includes the John T. Richardson Library [https://library.depaul.edu/about/locations/lincoln-park/Pages/default.aspx](https://library.depaul.edu/about/locations/lincoln-park/Pages/default.aspx) in Lincoln Park and the Loop Library [https://library.depaul.edu/about/locations/loop/Pages/default.aspx](https://library.depaul.edu/about/locations/loop/Pages/default.aspx) on the 10th floor of the DePaul Center. The Vincent G. Rinn Law Library [https://library.depaul.edu/about/locations/loop/Pages/default.aspx](https://library.depaul.edu/about/locations/loop/Pages/default.aspx) is part of the College of Law and is located in the Lewis Center on the Loop Campus.

### Resources

- The Library provides access to databases, scholarly journals and articles, primary sources, books and e-books, streaming media and more online through our website [https://library.depaul.edu/Pages/default.aspx](https://library.depaul.edu/Pages/default.aspx) and at our locations.
- Students can borrow materials from 90+ libraries through I-Share and request articles through interlibrary loan [https://depaullib.illiad.oclc.org/illiad/illonlogon.html](https://depaullib.illiad.oclc.org/illiad/illonlogon.html).
- The library’s collection also includes DVDs, CDs, sheet music, and loanable technology such as digital cameras, microphones, phone chargers and more.

### Research Help

- Librarians provide research assistance [https://library.depaul.edu/get-help/ask-a-librarian/Pages/default.aspx](https://library.depaul.edu/get-help/ask-a-librarian/Pages/default.aspx) in person, and via email, phone, text, IM or Zoom.
- Students can also make a research consultation [https://library.depaul.edu/get-help/ask-a-librarian/Pages/Make-an-Appointment.aspx](https://library.depaul.edu/get-help/ask-a-librarian/Pages/Make-an-Appointment.aspx) appointment to meet with a librarian who specializes in a specific subject.

### Special Collections and Archives

- Special Collections and Archives [https://library.depaul.edu/special-collections/Pages/default.aspx](https://library.depaul.edu/special-collections/Pages/default.aspx) provides access to primary sources, rare books, maps and archives in their reading room and online.
- Collections strengths include social justice, Vincentian heritage and DePaul University history.

### Work Spaces

- The Library provides collaborative, individual and quiet study spaces.
- Computers, white boards, printers, copiers and scanners are available.
- Students can access 3D printers, laser and vinyl cutters, audio studios and software, and a green screen room in the Maker Hub & 1581 Media Studios [https://library.depaul.edu/technology/spaces/Pages/default.aspx](https://library.depaul.edu/technology/spaces/Pages/default.aspx).

### Office of Multicultural Student Success

The Office of Multicultural Student Success seeks to cultivate academic success and personal development for students of color, low-income college students, or first generation college students through sustained developmental programming, financial resources, and advocacy.

Additional information is available from the Office of Multicultural Student Success.

As a result of participating in Multicultural Student Success programs, students will be able to:

- Demonstrate effective decision-making related to personal financial management.
- Demonstrate healthy decision-making related to effective self-care.
- Identify and use relevant campus resources in order to navigate their academic experience.
- Apply the concepts of Socially Responsible Leadership in order to challenge oppressive systems and behaviors and work to create change.
- Construct a career plan towards post-college career success.

### Science and Math Tutoring Services

Currently enrolled DePaul students have access to free tutoring services offered by departments in the College of Science and Health. Tutoring is regularly available in the areas of chemistry, mathematical sciences, nursing, physics, and psychology (statistics only). All tutors are either graduate students or upper-level undergraduate students in their respective fields of study.

A schedule of tutoring services [https://csh.depaul.edu/student-resources/Pages/tutoring-services.aspx](https://csh.depaul.edu/student-resources/Pages/tutoring-services.aspx) is available online and is subject to change every term – check the schedule regularly for updates. No appointments are necessary to receive tutoring.

### Student Affairs

A DePaul education encompasses both the scholarship and research of classroom learning and the intellectual, spiritual, moral and personal growth of campus life. The Division of Student Affairs offers programs, services and resources that foster student success, build community and contribute to the development of the whole student. Through these
programs, we strive to develop students into well-rounded individuals who will have a positive impact on their communities and our world.

**Student Involvement**

The Office of Student Involvement fosters student learning and success by providing opportunities for engagement through a wide variety of campus activities and organizations, holistic and intentional advising of student leaders, and the development of purposeful and mutually beneficial partnerships across the University and City of Chicago to maximize access to resources for a rich DePaul campus experience.

Additional information is available from the Office of Student Involvement: go.depaul.edu/involvement (http://go.depaul.edu/involvement/).

**Technology Resources**

The following list introduces some of the technology resources that are available to students at DePaul. Additional information is available on the Information Services website (is.depaul.edu (http://is.depaul.edu)).

**Campus Connect**

Campus Connect provides access to many of DePaul’s primary services, including course registration, grades, tuition billing, transcripts, Demon Express and much more.

**Computer Labs and Classrooms**

There are many technology-equipped classrooms across both campuses. Technology resources range from traditional rooms for in-person participants to Zoom-enabled rooms for both in-person and remote participants. Specialty rooms exist across the university for classes with specific needs, and additional technology is available upon request.

DePaul also has computers available for use by students, faculty or staff, located in computer labs, lounges and lobbies across the campuses. Additional technology access is available to residence hall students; each residence hall is outfitted with study lounges allowing for student access to computers and printers at any time.

**CTA U-Pass**

The Ventra U-Pass provides unlimited rides for eligible DePaul students on CTA buses and trains during the Autumn, Winter, Spring and Summer Quarters. Students must meet enrollment requirements to participate in the U-Pass program. All students meeting these requirements are automatically enrolled in the program. The U-Pass is not optional for any eligible student. Eligibility is based on 3 criteria, one of which is course enrollment. If your enrollment changes before the last day to drop courses, your U-Pass will be adjusted accordingly.

Full details regarding the U-Pass can be found on the DePaul U-Pass website http://upass.depaul.edu/.

**Demon ID Card**

Your DePaul ID card serves as your identification to enable access to various DePaul buildings, computer labs, printers, and libraries. The ID card can purchase items using your Demon Express account and meal plan. You must have your ID card while on campus. New students receive their ID card by submitting a photo online or visiting ID services at the Loop or Lincoln Park campuses.

Full details regarding ID cards can be found by visiting go.depaul.edu/idservices (https://offices.depaul.edu/information-services/services/identity/Pages/default.aspx)

**Demon Express**

Demon Express is a prepaid debit account that is linked to your DePaul ID Card. Demon Express can be used at DePaul cafeterias, coffee shops, campus bookstores, libraries, printers, copiers, and other areas.

**Desire2Learn (D2L)**

D2L is an electronic course management system that enables interaction between students and faculty. D2L incorporates document sharing, discussion boards, e-mail, an online grade book, assignment drop boxes, chat rooms, small group areas, online quizzes, and more. To log in, use your Campus Connect username and password. If you need assistance using D2L, training is available.

**Discounts**

Demon Discounts provides discounted goods and services, including computer hardware and software, to DePaul students.

**E-Mail**

All students are provided a free DePaul e-mail account. Additional information is available on the Information Services website.

**Printing**

The Intelliprint system allows students to print from DePaul computer labs. Students use their DePaul ID card to pay for prints and are entitled to a set amount of free printing per quarter. Additional funds can be added to Demon Express as needed. You may also print to the Intelliprint system wirelessly.

**Residence Hall Technology**

Lincoln Park residence hall rooms are equipped with high speed Internet connections, wireless Internet access, and free telephone connections.

**Technical Support**

The Help Desk is your first point of contact for technical assistance. The Help Desk provides free assistance via phone, e-mail and web for current DePaul students. We support all DePaul wireless networks, telephones, e-mail accounts and software. Please visit the web portal at helpdesk.depaul.edu (http://helpdesk.depaul.edu/), call (312) 362-8765 or email helpdesk@depaul.edu for support.

Direct, walk-up support is also available through the Genius Squad; a free tech support resource available to all current students. The Genius Squad can support desktops, laptops, phones, tablets, and other personal electronic devices. Please see go.depaul.edu/gs (http://go.depaul.edu/gs/) for more information.

**Technology Training**

Lynda.com - DePaul students, faculty, and staff can log into lynda.com (https://www.lynda.com/) for unlimited free access to a vast online library of the instructional videos covering the latest software, creative, and business skills.
Wireless Internet Access

Wireless internet access (https://offices.depaul.edu/information-services/services/wireless-services/Pages/default.aspx) is available to students on all DePaul campuses.

University Center for Writing-based Learning

The University Center for Writing-based Learning (https://condor.depaul.edu/~writing/) (UCWbL) works with all members of the DePaul University community to support writers and to promote the use of writing in teaching and learning through five major initiatives:

The Writing Center

The Writing Center provides free-of-charge services to any DePaul University student, alum, or faculty/staff member to help you plan, draft, revise, or polish your writing. Our over 80+ Writing Center tutors are talented, extensively trained, & supportive graduate & undergraduate students from a variety of disciplines. A Writing Center tutor can help you get started writing, revise your writing, & refine your writing.

The Writing Fellows Program

The Writing Fellows Program links undergraduate peer writing tutors with writing-intensive courses across the curriculum – from physics to journalism, religious studies to computer science. Writing Fellows work with the same set of writers from a particular course for an entire quarter, responding to two of their papers through written comments on drafts and in individual conferences.

Workshops

Workshops are customized, research-based, interactive events that focus on a variety of writing topics. The Workshops Team collaborates with other members of the DePaul community to facilitate in-class workshops that combine their writing expertise with others’ disciplinary expertise. Popular topics include crafting a thesis, being an effective peer reviewer, citing sources, and designing ePortfolios.

The Collaborative for Multilingual Writing and Research (CMWR)

The CMWR provides ongoing support for DePaul’s increasingly linguistically diverse community. At the root of our work, the CMWR aims to offer UCWbL tutors opportunities to reflect on and improve upon their work supporting English as additional language writers. We also work in close collaboration with other programs and offices to bring together the many languages and cultures of the DePaul community to share culture, language, experiences, and knowledge.

Outreach

Outreach promotes, supports, and celebrates the work of writers and tutors at DePaul. This takes the form of collaborating with partner offices on events such as the Peer Tutor and Mentor Summit and Banned Books Week, as well as regularly raising awareness of the UCWbL and its initiatives.

For more information, please visit www.depaul.edu/writing (http://www.depaul.edu/writing/).

University Counseling

University Counseling Services (UCS) is committed to providing a range of services intended to help currently enrolled DePaul students remove barriers to academic and personal success by addressing emotional, psychological and interpersonal concerns.

UCS provides group counseling, personal growth-oriented workshops, time-limited individual psychological counseling, psychiatric evaluation and crisis management services. Sometimes a skill-building workshop or small group counseling experience is the most effective intervention given a student’s presenting concerns.

UCS has a diverse, caring, and competent professional staff that works from a variety of theoretical perspectives. Some students find that talking to a counselor once is sufficient to resolve their immediate concern. Our counselors can help you in a variety of ways because they are excellent sounding boards, compassionate listeners, and skillful experts in the problems of living. If further services would be beneficial, these will be discussed and recommendations will be made by the counselor.

UCS offers primarily short-term counseling and provides referrals and linkages to community providers when students could benefit from longer term services.

Co-Curricular Learning Outcomes

As a result of participating in University Counseling programs and services, students will be able to:

• Describe healthy coping strategies.
• Describe strategies to take care of themselves and others.
• Identify resources both within DePaul University and within the surrounding community in order to remove barriers to academic or personal success.

Law Student Handbook

• University Information (p. 1566)
• University and College of Law Academic Policies (p. 1578)
• University Resources (p. 1598)

University Information

The Handbook provides University policies that support both academic and behavior expectations.

In addition to the University-wide policies and information included in this Handbook, the College of Law has specific guidelines, policies, and procedures for which you are responsible.

The Handbook also includes sections on General Information and University Resources.

About DePaul

DePaul University was founded in 1898, by the Congregation of the Mission (or Vincentian) society of apostolic life, which follows the inspiration and legacy of 17th century French priest St. Vincent de Paul. As an innovative Catholic, Vincentian university anchored in the global city of Chicago, DePaul supports the integral human development of its students. The university does so through its commitment to outstanding
teaching, academic excellence, real world experience, community engagement, and systemic change.

DePaul University Mission
As an innovative Catholic, Vincentian university anchored in the global city of Chicago, DePaul supports the integral human development of its students. The university does so through its commitment to outstanding teaching, academic excellence, real world experience, community engagement, and systemic change. DePaul prepares graduates to be successful in their chosen fields and agents of transformation throughout their lives.

Guided by an ethic of Vincentian personalism and professionalism, DePaul compassionately upholds the dignity of all members of its diverse, multi-faith, and inclusive community. Through education and research, the university addresses the great questions of our day, promoting peaceful, just, and equitable solutions to social and environmental challenges. Since its founding in 1898, DePaul University has remained dedicated to making education accessible to all, with special attention to including underserved and underrepresented communities.

Academic Calendar
Academic calendars are available at the Academic Affairs website (https://academics.depaul.edu/calendar/Pages/default.aspx).

Admission
Admission to graduate programs is determined by each individual graduate program. Please consult the catalog of the respective college for additional information. For general information or to apply to a graduate program consult the Office of Admission website.

Schools and Colleges
Driehaus College of Business
Established in 1912, the Driehaus College of Business is the nation's tenth oldest business school and serves individual and organizations seeking access to the highest quality business education as a means for achieving intellectual and professional goals. The College also encompasses our highly respected graduate programs in business.

The Kellogg Graduate School of Business prepares students to be leaders by frequently updating its programs to keep pace with the dynamics of global business.

College of Communication
The College of Communication provides students with a combination of timeless principles and up-to-the-minute tools, whether they're pursuing journalism; public relations and advertising; media studies; radio, television and film; relational, group and organizational communication; or intercultural communication.

College of Computing and Digital Media
The College of Computing and Digital Media (CDM) offers students a collaborative education where technology, artistry and business intersect. CDM is organized into three schools:

• The School of Cinematic Arts is home to our animation and cinema programs, which merge creativity, technology, imagination, technique, vision and execution.
• The School of Computing houses programs across the technology spectrum, and combines theoretical fundamentals with hands-on practice.
• The School of Design – CDM's newest school – is home to programs in graphic design, interactive and social media, game development, human computer interaction, and digital communication and media arts.

College of Education
The College of Education offers degree programs in bilingual/bicultural education; counseling; curriculum studies; early childhood education; educational leadership; elementary education; middle school mathematics education; reading specialist education; secondary education; social and cultural foundations of education; special
education; sport, fitness and recreation leadership; and world language education.

**College of Law**
The DePaul College of Law was one of the first law schools in the country to introduce educational innovations like the study of negotiation techniques, courses in international criminal law and pre-trial courses in skills techniques. Today, our health law and intellectual property programs are among the best in the country, according to U.S. News & World Report.

**College of Liberal Arts and Social Sciences**
The oldest college at DePaul, the College of Liberal Arts and Social Sciences (LAS) offers more than 28 undergraduate and 30 graduate degree programs. Courses meet during the day, evenings and on weekends, primarily on the Lincoln Park Campus.

**College of Science and Health**
The College of Science and Health (CSH) was established in 2011 to help its students meet the demands of the growing fields of science and health. CSH offers multiple undergraduate majors and graduate programs in the areas of biology, chemistry, environmental science, mathematics, nursing, physics and psychology.

**School of Music**
DePaul's School of Music was founded in 1912 and is dedicated to excellence in both music teaching and performance. When they're not working with DePaul students, many of the school's faculty serve as members of the Chicago Symphony Orchestra, Lyric Opera of Chicago, or the Grant Park Symphony Orchestra, or as some of the city's most prominent freelance, chamber and jazz musicians.

**School of Continuing and Professional Studies**
The School of Continuing and Professional Studies builds upon DePaul University's recognized success in educating adult learners interested in a range of innovative and timely degree programs and non-degree continuing education opportunities. Its undergraduate and graduate degrees, offered on-campus, online, and in corporate settings, are particularly designed to accommodate adult learners who must balance claims of work, family, and/or community responsibilities with their educational pursuits.

**The Theatre School**
Founded in 1925 as the Goodman School of Drama, The Theatre School at DePaul is the Midwest's oldest theatre training conservatory. Known for its highly structured program and set in a world-renowned theater city, the school has earned a reputation as a standard of excellence in American professional theatre training.

**DePaul Campuses/Locations**
Students of any school or college may register for classes on any campus, arranging hours and courses in a manner designed to afford maximum educational advantage.

**Campuses**
- **The Lincoln Park Campus** is situated about three miles north of the Chicago Loop in the vicinity of Webster (2200 N), Halsted (800 W) and Racine (1200 W). The offices for the College of Liberal Arts and Social Sciences, the College of Science and Health, the School of Music, the College of Education, and The Theatre School are located on this campus.
- **The Loop Campus** is located at 1 East Jackson Boulevard, between State, Jackson and Wabash. The offices for the Driehaus College of Business, the College of Computing and Digital Media, the College of Communication, the College of Law and the School of Continuing and Professional Studies are located on this campus.

**Suburban Sites**
- **Rosalind Franklin University of Medicine and Science** is located 3333 Green Bay Road in North Chicago, Illinois. DePaul students have the option of taking the Master's Entry in Nursing Practice (MENP) on the RFU campus.

**Overseas Locations**
- **Tangaza College** located in Nairobi, Kenya.
- **Bahrain Institute of Banking and Finance** located in Manama, Bahrain.

**Academic Partnerships**
DePaul University has entered into a variety of relationships with other educational institutions to provide enhanced learning opportunities for students.

**American University in Paris**
DePaul and The American University of Paris (AUP) are partnering to offer an innovative two-year program leading to an MBA from DePaul's Kellstadt Graduate School of Business and a M.A. in Cross-cultural and Sustainable Business from AUP.

**Catholic Theological Union**
With permission, upper-level students in Catholic Studies and Religious Studies may elect to complete courses at the Catholic Theological Union.

**Illinois Institute of Technology**
Through a five-year joint program between DePaul and the Illinois Institute of Technology, students may earn a degree in physics from DePaul and degree in engineering from IIT, with a concentration in Mechanical, Aerospace, Electrical, or Computer Engineering.

**IIT/Chicago Kent College of Law**
Students in DePaul's College of Law may pursue courses in specialized areas of legal study at IIT/Chicago Kent College of Law.

**Loyola University Chicago School of Law**
Students in DePaul's College of Law may pursue courses in specialized areas of legal study at Loyola University Chicago School of Law.
NorthShore University Health System
DePaul offers a Doctor of Nursing Practice degree in Nurse Anesthesiology in conjunction with NorthShore University Health System’s School of Nurse Anesthesia in Evanston.

Northwestern Memorial Hospital Clinical Schools – School of Nuclear Medicine Technology & Radiation Therapy
Through a partnership with Northwestern Memorial Hospital Clinical Schools, select DePaul students may pursue bachelor of science degrees in Allied Health Technologies in either Nuclear Medicine Technology or Radiation Therapy.

Rosalind Franklin University of Science and Medicine
DePaul has partnered with the Rosalind Franklin University of Science and Medicine in North Chicago to provide numerous degree program offerings, including:

- RN to MS in Nursing
- MA, Health Communication
- Master’s Entry to Nursing Practice (MENP)
- 3+4 PharmD

Rush University
In conjunction with the Department of Health Systems Management in the College of Health Sciences at Rush University Medical Center, the Kellstadt Graduate School of Business at the College of Commerce offers a joint MBA/MS (Master of Science in Health Systems Management) degree program.

Truman College, City Colleges of Chicago
Through an agreement with the City Colleges of Chicago, students may complete their first years in college at Truman College, then seamlessly transfer their credits towards a DePaul undergraduate degree through the School for New Learning.

Wright College, City Colleges of Chicago
Through an agreement with the City Colleges of Chicago, students may complete their first years in college at Wright College, then seamlessly transfer their credits towards a DePaul undergraduate degree through the School for New Learning.

Study Abroad Opportunities
DePaul partners with a substantial number of institutions around the world to provide a wide variety of study abroad options for students. Information about those agreements can be found on the International Programs website (http://international.depaul.edu/).

Accreditation
DePaul University is a private, not-for-profit, Catholic institution accredited by:

The Higher Learning Commission
230 South LaSalle Street, Suite 7-500

Chicago, IL 60604-1413
Phone: (800) 621-7440 / (312) 263-0456
Fax: (312) 263-7462
Email: complaints@hlcommission.org
Web: https://www.hlcommission.org/Student-Resources/complaints.html

Students may provide feedback or register complaints with the Higher Learning Commission at the contact information listed above.

Programmatic/Specialized Accreditation
DePaul University is a private, not-for-profit, Catholic institution, and has been accredited by numerous associations and organizations.

DePaul University emphasizes the development of a full range of human capabilities and appreciation of higher education as a means to engage cultural, social, religious, and ethical values in service to others.

In support of this mission, DePaul University is committed to treating every member of its community with dignity, justice and respect fostering a positive learning environment and providing quality service. It is important for students to know how to address concerns and issues that may be contrary to this commitment.

Complaints or concerns that a policy or procedure has been incorrectly or unfairly applied can often be resolved through an initial conversation with the staff, faculty member or department where the issue originated and his/her supervisor if necessary.

DePaul has established a number of policies and procedures for responding to particular types of concerns. Contact information for these policies and procedures can be found in the bottom section of this page:

- Concerns about grades are addressed through the University's Grade Challenge policy. Detailed information is available in the Academic Handbook section of the University Catalog.
- Concerns about academic integrity are addressed through the Academic Integrity policy and process. Detailed information is available on the Academic Integrity website.
- Concerns related to student conduct are addressed through the Code of Student Responsibility, and the Student Conduct Process. Detailed information is available in the Academic Handbook section of the University Catalog.
- Concerns about discrimination or harassment on the basis of a variety of protected characteristics are addressed by the Office of Institutional Diversity and Equity through the Anti-Discrimination and Anti-Harassment Policy and Procedures.
- Concerns based on sexual violence, sexual harassment, or other sex discrimination (Title IX) are addressed through the DePaul's Title IX Coordinator located in the Office of Institutional Diversity. Detailed information is available on the Office of Public Safety website or in the Code of Student Responsibility (p. 1604) section of the University Catalog.
- Concerns about the confidentiality of education records (FERPA-Family Educational Rights and Privacy Act), are addressed through the Office of the University Registrar.

Concerns about academic issues relating to faculty or staff can often be resolved through an initial conversation with the faculty, staff member or student employee involved in the situation. Therefore, students with academic complaints or concerns should address the issue following the steps indicated below:

1. The issue should first be discussed with the faculty or staff member.
2. If this does not resolve the issue the student should then discuss the issue with the department chairperson or program director for faculty issues or the individual's supervisor for staff. If you are unsure
of the appropriate college contact, please see below for a directory of College and College Dean’s Offices.

3. If the issue is still not resolved, the student should then discuss the matter with the Office of the Dean of the faculty member’s college for faculty issues or the department supervisor for staff issues.

4. If the issue is still not resolved, the student may discuss the issue with the Office of the Provost.

The Dean of Students Office is a central location to which students can turn with problems they have been unable to resolve. The Dean of Students Office hears student concerns and helps students understand their options for resolving the concerns and/or locating appropriate services: http://offices.depaul.edu/student-affairs/about/departments/Pages/dos.aspx.

In addition, the University Ombudsperson is available to provide consultation about conflict resolution, to clarify policies and procedures, and to help find the right person or department to respond to questions. Students may also always choose to report concerns or misconduct through the University’s confidential reporting mechanisms: 877.236.8390 or https://compliance.depaul.edu/hotline/index.asp (https://compliance.depaul.edu/hotline/)

The U.S. Department of Education requires institutions offering online education to provide contact information for students to file complaints with its accreditor and state agencies. Contact information for DePaul’s regional accreditor (the Higher Learning Commission), programmatic/ specialized accreditor and state agencies is available in the Handbook section of the University Catalog.

Honor Societies
Since 1954, DePaul University has recognized academic honorary societies in order to highlight students’ superior academic achievement and leadership. Students are selected to join honorary societies based on their superior academic record within their specific major or across all colleges. DePaul University strives to recognize students’ outstanding academic performance and is proud of the rich tradition that these valuable organizations have provided to the university community. Below is a list of each honorary society and its academic discipline.

- Beta Alpha Psi – Accounting, Finance and MIS
- Kappa Delta Pi - Education
- Psi Chi - Psychology
- Sigma Pi Sigma - Physics
- Phi Alpha Theta - History
- Omicron Delta Epsilon - Economics
- Sigma Theta Tau - Nursing
- Pi Sigma Alpha – Political Science
- Sigma Tau Delta - English
- Lambda Pi Eta - Communication
- Sigma Delta Pi - Spanish
- Gamma Kappa Alpha - Italian
- Phi Beta Delta - International Education
- Theta Alpha Kappa - Religious Studies
- National Society of Collegiate Scholars - All
- Upsilon Pi Epsilon - Computer Science
- Iota Iota Iota - Women's and Gender Studies
- Lambda Alpha - Anthropology
- Gamma Theta Upsilon - Geography
- Order of Omega - Fraternity and Sorority Community
- Pi Alpha Alpha - Public Administration
- Nu Lambda Mu - Nonprofit Management and Leadership
- Pi Epsilon Pi - Writing Studies
- Phi Sigma Tau - Philosophy
- Nu Rho Psi - Neuroscience
- Delta Alpha Pi – Students with Disabilities

University Learning Goals and Outcomes

Preamble
In common with all universities, DePaul strives to ensure that its students come away from their experience with knowledge and skills that will enable them to fulfill their personal and professional aspirations, interact productively with others in all their diverse perspectives, contribute meaningfully to society, and continue learning throughout their lives. Moreover, DePaul shares with other universities the goal that students will use their knowledge and skills to conduct themselves ethically and humanely, with an appreciation for the past and an eye towards shaping an even better future.

At the same time, DePaul’s mission – Catholic, Vincentian, urban – calls on us to consider these broad goals for learning in a manner that honors the university’s distinctive qualities. DePaul’s Catholic heritage encourages us to study religious traditions, and to critically examine the moral underpinnings of all academic disciplines. The example of St. Vincent, who worked with people from all strata of society in order to address urgent human needs, infuses our understanding of both education and service with a concern for social justice, for the university mission statement reminds us that “the DePaul community is above all characterized by ennobling the God-given dignity of each person.” And as an urban university, DePaul’s deep involvement in multiple communities,
within Chicago and beyond, invites us to both draw on the city's rich opportunities for learning and serve as partners in helping them move forward. In sum, the mission statement tells us, "DePaul University emphasizes the development of a full range of human capabilities and appreciation of higher education as a means to engage cultural, social, religious, and ethical values in service to others."

With the university's mission as their foundation, these Learning Goals and Outcomes prepare students to engage in the world of the twenty-first century, carrying with them the heritage and values that distinguish DePaul.

Goal 1. Mastery of Content
This goal embraces the breadth and depth of ideas, theories, approaches, and information which DePaul students encounter through and beyond their studies.

Outcomes: DePaul graduates will demonstrate and be able to apply:
• general knowledge of cultures, religions, science, the arts, history, and computational reasoning.
• specialized knowledge and skills from within a specific discipline or field.

Goal 2. Intellectual and Creative Skills
In order to fully engage with knowledge, whether for a specific purpose or for its own sake, DePaul students are encouraged to develop the ability to think critically and imaginatively, formulate their own understanding, and effectively communicate their ideas. This goal articulates specific skills that comprise these broader abilities.

Outcomes: DePaul graduates will be able to:
• systematically access, analyze and evaluate information and ideas from multiple sources in order to identify underlying assumptions, and formulate conclusions.
• solve quantitative problems.
• create and support arguments using a variety of approaches.
• use existing knowledge to generate and synthesize ideas in original ways.
• communicate clearly in speech and writing.

Goal 3. Personal and Social Responsibility
This goal honors the notion that knowledge reflects and contributes to the values of individuals and communities. DePaul students, in particular, are challenged to consider their own values in light of the university’s mission.

Outcomes: DePaul graduates will be able to:
• articulate their own beliefs and convictions, as well as others' beliefs, about what it means to be human and to create a just society
• articulate what is entailed in becoming a self-directed ethical decision-maker and living a life of personal integrity.
• evaluate ethical issues from multiple perspectives and employ those considerations to chart coherent and justifiable courses of action.
• benefit their communities through socially responsible engagement and leadership.

Goal 4. Intercultural and Global Understanding
This goal speaks to the likelihood that, in our diverse and increasingly interdependent world, the future depends on individuals being able to learn from each other and make the best use of finite resources.

Outcomes: DePaul graduates will demonstrate:
• respect for and learning from the perspectives of others different from themselves.
• knowledge of global interconnectedness and interdependencies.
• knowledge to become a steward of global resources for a sustainable future.

Goal 5. Integration of Learning
Given the wide range of opportunities for learning at DePaul, it is important for students to develop the ability to consider relationships among individual experiences of learning so as to make meaning of their education in all its variety.

Outcomes: DePaul graduates will be able to:
• relate their learning – curricular and co-curricular – to multiple fields and realms of experience.
• make connections among ideas and experiences in order to synthesize and transfer learning to daily practice.
• design, develop, and execute a significant intellectual project.

Goal 6. Preparation for Career and Beyond
This final learning goal builds on all the rest and calls on students to be ready to apply their knowledge and skills to the changing world that awaits them.

Outcomes: DePaul graduates will be able to effectively:
• set goals for future work that are the result of realistic self-appraisal and reflection.
• articulate their skills and knowledge and represent themselves to external audiences.
• set priorities and allocate resources.
• employ technology to create, communicate, and synthesize ideas.
• apply strategies for a practice of life-long learning.

Additional Notes
These University Learning Goals and Outcomes were approved by Faculty Council and the Interim Provost in October 2012.

A prior version of this document was drafted in Spring 2011 by a group of faculty, staff and students in the early stages of the strategic planning process that led to Vision 2018. In Autumn 2011, at Faculty Council’s direction, the draft went to the university’s Committee on Learning and Teaching, which sought input from stakeholders across the university and incorporated their valuable contributions into the revised document here. As a result of this process, the University Learning Goals and Outcomes represent a true community effort.

These university-wide goals do not exhaust the learning goals pursued at DePaul. Notably, they do not explicitly refer to the expectations specific to the various schools and departments. Nor will they be pursued in
the same manner nor to the same degree in every unit. Nevertheless, the education of all recipients of DePaul undergraduate degrees should be characterized by these goals along with the goals specific to the student's unit. Since graduate and professional schools encounter students at different stages of their education and at different levels of maturity, their approaches to these goals and their methods of measuring them will have to be adjusted accordingly.

**Law Program Learning Outcomes**

DePaul is committed to ensuring educational excellence in each of our academic programs. Articulating learning outcomes for each of our academic programs is an important first step in our ongoing assessment and improvement cycle. By having well-defined learning outcomes as a guide, our programs are positioned to implement and assess quality educational experiences. These outcomes are also mapped to institutional learning goals, further strengthening the connection to overall student learning at DePaul University.

- Health Law (LLM) Learning Outcomes (p. 562)
- Intellectual Property (LLM) Learning Outcomes (p. 618)
- International Law (LLM) Learning Outcomes (p. 626)
- Law - Joint Degree (JD/LLM) Learning Outcomes (p. 695)
- Law (JD) Learning Outcomes (p. 677)
- Law/Business - Joint Degree (JD) Learning Outcomes (p. 696)
- Law/Computer Science - Joint Degree (JD/MS) Learning Outcomes (p. 698)
- Law/Public Service - Joint Degree (JD) Learning Outcomes (p. 703)
- Master of Juris Prudence (MJ) Learning Outcomes (p. 689)
- Taxation (LLM) Learning Outcomes (p. 1115)
- U.S. Legal Studies (LLM) Learning Outcomes (p. 1235)

**Academic Advising, Statement on**

Academic Advising at DePaul helps students achieve their educational, personal, and career goals by providing guidance and assistance in the decision-making process. Academic Advising is most effective when all participants anticipate their future needs, commit to the process, do their part, and then reflect on their results. Students should work closely with their advisors to plan workable educational goals, to understand the degree options and requirements, to understand the financial implications of their decisions, to assess their strengths and challenges as scholars, and to clarify realistic career objectives for themselves upon graduation.

Students bear ultimate responsibility for decisions and actions that determine their success at DePaul University.

- Students will make informed decisions and register for classes on time.
- Students will obtain the necessary information for course selection and planning in their individualized programs.
- Students will make and keep appointments with their advisors.
- Students will communicate honestly and fully in these advising discussions.

- Students will regularly reflect on the consequences, both academic and financial, of their decisions as they progress in their academic careers toward life choices.

**Advisors are responsible for helping students improve their decision making skills.**

- Advisors guide students through this learning process during regular interactions at key points during their academic careers.
- Advisors will be available on a regular basis for consultation and encourage students to make and keep regular advising appointments.
- Advisors will monitor their advisees' academic progress.
- Advisors will encourage students to consult available material related to their program and career choice.
- Advisors will encourage students to reflect on the academic and financial consequences of their decisions about degree programs and course-taking plans.
- Advisors will assist students to set realistic career goals that extend beyond their time at DePaul.
- Advisors will encourage students to incorporate their basic values and beliefs into their decision making process.

The university is responsible for providing the infrastructure for students, faculty, and staff to support effective advising.

- The university will provide the information that students and their advisors need to make informed and timely decisions.
- The university will provide adequate resources of personnel, funding and facilities to support the advising process.
- The university will clearly communicate to advisors and students the policies and options regarding student financial aid.
- The university will regularly evaluate the policies and procedures surrounding advising to improve the advising process on an ongoing basis.
- The university will provide training to help both advisors and students work more effectively together.
- The university will acknowledge the important contribution advisors make by recognizing advising within the institutional reward system.

**Tuition and Fees**

**Financial Aid**

Federal financial aid applicants must meet these eligibility requirements for aid and provide additional documents if needed:

- Be a U.S. citizen or eligible non-citizen.
- Enroll in an eligible degree program or approved post-baccalaureate non-degree graduate preparatory coursework. Contact the Office of Financial Aid for information about graduate preparatory programs.
- Have a high school diploma, General Educational Development (GED) certificate, or have completed a high school education in a homeschool setting approved under state law. Students who do not meet these eligibility requirements should contact the Office of Financial Aid for assistance.
- For most types of financial aid, you must be enrolled for credit in a degree or approved post-baccalaureate non-degree graduate
preparatory program. Audited classes are not eligible for financial aid consideration.

• Once you complete your degree requirements or post-baccalaureate non-degree graduate preparatory program—even if you have not received your diploma—you are no longer eligible for aid.
• If you wish to repeat a course for which you have previously earned credit, your financial aid options are limited. Contact the Office of Financial Aid for more information.
• Be enrolled at least half-time for federal student loan deferment.
• Meet satisfactory academic progress requirements (https://www.depaul.edu/admission-and-aid/financial-aid/maintain-eligibility/sap/Pages/default.aspx).
• Not be in default on a federal loan or owe a repayment on a federal grant.
• Be registered with Selective Service, if applicable.
• Meet any remaining federal eligibility requirements

Scholarships

Scholarships and assistantships are awarded at the program level by your college office and academic department. Please consult your college or school for additional information. You may also visit DePaul Scholarship Connect (https://depaularicwork.com/users/sign_in/) throughout the year to see specific scholarship opportunities available.

Veterans Assistance

DePaul’s Office of Veteran Affairs handles the following VA educational benefit programs:

• The Post-9/11 GI Bill® (Chapter 33) (http://www.benefits.va.gov/gibill/post911_gibill.asp) - for those who served at least 30 consecutive days on active duty after September 10, 2001
• The Post-9/11 GI Bill® Yellow-Ribbon program (http://www.benefits.va.gov/gibill/yellow_ribbon.asp) - for qualified Post-9/11 applicants
• The Montgomery GI Bill® – Active Duty (Chapter 30) (https://www.va.gov/education/about-gi-bill-benefits/montgomery-active-duty/) - for those who enlisted after 7/1/1985
• The Montgomery GI Bill® – Selective Reserve (Chapter 1606) (https://www.va.gov/education/about-gi-bill-benefits/montgomery-selected-reserve/)
• The Survivors’ and Dependents’ Educational Assistance Program (Chapter 35) (http://www.benefits.va.gov/GIBILL/DEA.asp) - for spouses and children of deceased or disabled veterans
• The Vocational Rehabilitation Program (Chapter 31) (http://www.benefits.va.gov/voc rehab/ ) - for disabled veterans approved by Veterans Affairs for study at DePaul
• The Marine Sergeant John David Fry Scholarship (http://www.benefits.va.gov/GIBILL/Fry_scholarship.asp) – this additional provision of the Post-9/11 GI Bill® may be awarded to a surviving spouse and children of an active duty member of the Armed Forces, who has died in the line of duty, on or after September 11, 2001. Eligible children may be married and under the age of 33.

DePaul University will not take any of the four following actions toward any student using U.S. Department of Veterans Affairs (VA) Post 9/11 G.I. Bill® (Ch. 33) or Vocational Rehabilitation and Employment (Ch. 31) benefits, while their payment from the United States Department of Veterans Affairs is pending to the educational institution:

• Prevent their enrollment;
• Assess a late penalty fee to;
• Require they secure alternative or additional funding;
• Deny their access to any resources (access to classes, libraries, or other institutional facilities) available to other students who have satisfied their tuition and fee bills to the institution.

However, to qualify for this provision, such students may be required to:

• Produce the VA’s Certificate of Eligibility by the first day of class;
• Provide written request to be certified;
• Provide additional information needed to properly certify the enrollment as described in other institutional policies (see our VA School Certifying Official for all requirements)

Due to system automations, a late fee and/or a registration hold may accidentally go onto your account even if the above documents have been provided. Please know that we will be able to easily and quickly resolve a system automated late fee and/or registration hold if you just simply email us at veteransaffairs@depaul.edu

Additional information specific to veteran students (http://www.depaul.edu/admission-and-aid/Pages/veteran-student.aspx) is available through the Admission and Aid website as well as the Office of Veterans Affairs website (http://veteransaffairs.depaul.edu/).

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at benefits.va.gov/gibill (https://www.benefits.va.gov/gibill/).

DePaul DREAM Statement

At DePaul University we affirm the dignity of the individual. We value diversity and culture because these are part of our core values and traditions as a Catholic, Vincentian, and urban university. DePaul University has decided to take a strong and public stand for supporting undocumented students, and DREAM Act legislation. We believe supporting undocumented students is smart policy that will yield significant benefits for our university, city, state, and nation. We also know these young people who enter our doors are part of the next great generation who will build our collective future. It is for this reason that DePaul admits students regardless of their citizenship status. Because we welcome these students, it is incumbent upon all members of the DePaul community to understand DePaul’s position on assisting undocumented students, realize the value that they bring to our university, and support their success as we support all of our students.

Academic Integrity

DePaul University is a learning community that fosters the pursuit of knowledge and the transmission of ideas within a context that emphasizes a sense of responsibility for oneself, for others and for society at large. To preserve the quality of education offered to students, the university is responsible for maintaining academic integrity and protecting all those who depend on it, including DePaul’s community partners and institutional affiliates. Violations of academic integrity, in any of their forms, are, therefore, detrimental to the values of DePaul, to the students’ own development as responsible members of society, to the pursuit of knowledge, and to the transmission of ideas. All members of the university community share the responsibility for creating conditions that support academic integrity.

Violations of academic integrity include but are not limited to the following categories: cheating; plagiarism; fabrication; falsification or sabotage of research data; destruction or misuse of the university’s academic resources, alteration or falsification of academic records; academic misconduct; and complicity. Violations do not require intent. This policy applies to all courses, programs, learning contexts, and other activities at the university, including but not limited to experiential and service-learning courses, study abroad programs, internships, student teaching, providing false information on an application, and not disclosing requested information. If an instructor finds that a student has violated the Academic Integrity Policy, the appropriate initial sanction is at the instructor’s discretion. Actions taken by the instructor do not preclude the university from taking further action, including dismissal from the university. Conduct that is punishable under the Academic Integrity Policy could also result in criminal or civil prosecution.

Additional Information and the complete Academic Integrity policy can be found on the Academic Integrity website (https://offices.depaul.edu/academic-affairs/faculty-resources/academic-integrity/Pages/default.aspx).

For purposes of the Academic Integrity policy, participation in a law journal or moot court constitutes participation in a course.

Admission

Admission to DePaul University College of Law is competitive. We consider numerous factors in evaluating each applicant, including undergraduate academic performance, Law School Admission Test (LSAT) scores, advanced degrees, professional work experience, writing ability, potential for leadership, professional and academic recommendations and the student’s special talents, qualities, interests, and socioeconomic and cultural background. No single factor is dispositive when determining admission.

Personal qualities that demonstrate intellectual depth, high ideals and diligence also are considered, as are economic, societal or educational obstacles that have been successfully overcome. Diversity in background and experience among the members of each entering class is a continuing objective. Having a diverse student body allows us to encourage and foster the exchange of different ideas. In addition, a candidate’s prior relations with the DePaul University community and her or his potential for furthering DePaul’s institutional goals are considered.

Because applications are reviewed on a rolling basis, early application is highly recommended, especially for those who desire merit scholarship and financial aid consideration. For first-year applicants with no previous law school credit, admission is granted only for the fall semester. First-year applicants should ensure that their application and all necessary documents are on file in the Office of Admissions prior to the suggested application deadline of March 1.

Character and Fitness Disclosures

The Illinois Board of Admissions to the Bar requires that the Dean of the law school certify that each student sitting for the bar has earned the JD degree. As part of that certification, the Dean must answer questions regarding the character and fitness of each bar applicant. Most other
states require similar certificates to be completed by the Dean before students may take the bar exam.

Students are advised that they have a duty to supplement their law school files if any adverse criminal, civil, administrative or financial events occurred before or during law school. If any discrepancy exists between information disclosed on the original law school application and the bar application, the student may be asked to meet with bar admission staff or the Board of Law Admissions. Adverse information not disclosed may result in the denial of a license to practice law. Students who do not fully disclose adverse information when they apply to DePaul University College of Law must do so at the earliest opportunity. If not, they may be cited for a violation of the College of Law Honor Code. Penalties, including letters of reprimand, suspension or expulsion, may be imposed for failure to make full or complete disclosure.

Class Ranks and Dean's List

Class Ranks

JD students who have completed at least one semester at the College of Law are ranked by cumulative GPA in percentage increments. LLM students are not ranked. Students who transfer to DePaul are ranked once they receive DePaul grades. Transfer credits are not used to determine class ranks but are used to determine honors at graduation. Class ranks are posted in February and July on the College of Law website.

Ranks are listed by percentile, in five percent increments, through the 50th percentile. The lower half of the class is ranked by quartile. Full-time and part-time students are ranked separately. Once released, class ranks are not affected by any subsequent grade changes or withdrawals. Numeric class ranks are not available.

In communicating with prospective employers or otherwise, a student must report their class rank precisely as listed on the College of Law website. Students may not round off grade point averages to achieve a higher rank.

To verify a class rank, a student should order an unofficial transcript or official transcript from Campus Connect (https://campusconnect.depaul.edu) or through the Office of the University Registrar (https://offices.depaul.edu/university-registrar/Pages/default.aspx). Students then should compare their cumulative GPA to the percentage class ranks on the College of Law website. If an employer requests verification of class rank, the student should give the employer the unofficial or official transcript and a copy of the ranks from the College of Law website or refer the employer to the website.

Dean's List

Students who rank in the upper 25 percent of their class based on one semester's grades qualify for the Dean's List. Dean's List notes appear on unofficial and official transcripts, available on Campus Connect. Total credits—both graded and pass/fail—count toward earned credit hours.

To qualify for the Dean's List, a full-time student must be registered for at least 12 credits for which a letter grade is awarded (not a pass/fail or audit grade). A part-time student must be registered for at least nine credits for which a letter grade is awarded (not a pass/fail or audit grade). Once released, the Dean's List is not affected by any subsequent grade changes or withdrawals.

JD Classifications for Class Ranks and the Dean's List

For purposes of determining class ranks and the Dean's list, JD students are classified by the number of credit hours they have earned:

**Full-Time**
- First-Year = 30 or fewer earned credit hours
- Second-Year = 31 to 69 earned credit hours
- Third-Year = 70 or more earned credit hours

**Part-Time**
- First-Year = 23 or fewer earned credit hours
- Second-Year = 24 to 45 earned credit hours
- Third-Year = 46 to 73 earned credit hours
- Fourth-Year = 74 or more earned credit hours

College of Law Honor Code

All College of Law Students are expected to abide by the University Code of Student Responsibility. The College of Law Honor Code supplements the Code of Student Responsibility and Academic Integrity Policy of DePaul University.

§ 1. Presumption of Knowledge of the Honor Code

All students are conclusively presumed to know the provisions of the Honor Code. Lack of familiarity with the Code shall not constitute a defense to an alleged violation.

§ 2. Standard of Responsibility

A student is responsible for an act or omission deemed to be a violation of the Code if the student knew or should have known that there was a high probability that the act or omission would be found to be a violation of the Code.

§ 3. Unprofessional Conduct

A student violates the Code if the student engages in any conduct related to the student’s academic career that is inconsistent with the standards of honesty expected of a member of the legal profession, as defined by the American Bar Association's Model Rules of Professional Conduct. Such conduct includes, but is not limited, to the following:

Application for Admission

It shall be a violation of the Code for any student to fail to disclose, or to make a false statement of, a material fact on his or her law school application. A fact is material if it would reasonably have been considered as a factor in the decision whether to admit the student. It shall also be a violation of the Code for a student to fail to update and amend his or her law school application to disclose material facts that arise from the date he or she applies to the College of Law through matriculation and graduation. The obligation of truthfulness and accuracy is a continuing obligation and extends beyond the filing of any application.

Examinations

With respect to examinations, students shall be presumed to know all applicable exam rules and it shall be a violation of this Code to do or attempt to do any of the following:
plagiarism of another as one's own. Plagiarism includes, but is not limited to,
the work of another as one's own. Plagiarism includes, but is not limited to,
the work of another as one's own. Plagiarism includes, but is not limited to,
the work of another as one's own. Plagiarism includes, but is not limited to,
the work of another as one's own. Plagiarism includes, but is not limited to,
the work of another as one's own. Plagiarism includes, but is not limited to,
the work of another as one's own. Plagiarism includes, but is not limited to,
the work of another as one's own. Plagiarism includes, but is not limited to,
the work of another as one's own. Plagiarism includes, but is not limited to,
the work of another as one's own. Plagiarism includes, but is not limited to,

the work of another as one's own. Plagiarism includes, but is not limited to,
the work of another as one's own. Plagiarism includes, but is not limited to,
§ 9. Procedures for Obtaining Information

Non-Examination Violations

Persons, other than examination proctors, who have information about a possible Honor Code violation of any kind by a law student shall, as soon as possible, notify the Office of the Dean and the Associate Dean for Student Affairs in writing of the facts and circumstances. If the person possesses any materials that may become exhibits, the person should give those materials to the Dean and the Office of the Assistant Dean.

Examination Violations

1. Procedures During Examinations
   If an examination proctor witnesses conduct which the proctor believes to be a violation of the exam rules, the proctor shall immediately verbally notify a dean, exam coordinator, the professor of that class or the professor’s delegate. Once the proctor provides verbal notice of an alleged violation, the dean, professor or professor’s delegate may confiscate any improper materials and advise the student to discontinue talking or otherwise continue violating exam rules. Confiscated materials shall be transferred to the Office of the Associate Dean for Student Affairs. Students who allegedly violate exam rules shall be permitted to finish the exam during the allocated time.

2. Procedures After the Examination
   As soon as possible after the proctor gives verbal notice to a dean, exam coordinator, professor or professor’s delegate, the proctor shall, in a signed report, describe the alleged violation. The report should include a physical description of the student or students alleged to be involved in the violation and of the acts that constitute the violation. If possible, the student’s anonymous number shall be given as soon as possible after the exam to one of the deans of the College of Law. When a professor, the professor’s delegate or a dean is informed of the alleged violation, that person shall notify the Office of the Student Affairs forthwith in writing.

Credit Hour Requirements, Time to Degree Limits and Class Attendance Policy

Credit Hour Requirements

Under the College of Law’s semester system, one credit hour is granted for 50 minutes of classroom or direct faculty instructional time per week, multiplied by 15, and at least 120 minutes of additional out-of-class student work each week, or an equivalent amount of work for other courses and activities, multiplied by 15. The standard course extends over a fourteen-week semester, followed by a two-week final examination period. Courses or other credit-bearing activities that occur over a different time period must incorporate the same total amount of instructional time and additional assigned work per credit hour as a standard course. At a minimum, students must complete 42.5 hours for 1 unit of credit; 85 hours for 2 units of credit; 127.5 hours for 3 units of credit; and 170 hours for 4 units of credit.

Credit is earned if a student receives an A through a D, or PA grade.

Graduation with a JD requires that the student complete 86 credit hours. Graduation with an LLM requires that the student complete 24 credit hours. Graduation with an MJ requires that the student complete 30 credit hours, or 24 credit hours if granted a waiver based on substantial professional experience of at least 12 months’ duration in a relevant field of interest.

Time Limit for Degree Completion

Below are listed the time limits for degree completion for the JD, LLM and MJ programs. Students who are unable to complete the degree within these time frames are required to confer with the Associate Dean for Student Affairs in the College of Law.

Students in the JD program may pursue the degree in either the JD Day or JD Evening program. JD Day students are expected to complete the degree in three years. JD Evening students are expected to complete the degree in four years. The maximum time to complete the JD program, if a student takes an approved leave of absence, is five years. Pursuant to the American Bar Association Standards of Accreditation, all JD students must complete their degree no later than 84 months after commencement of law study.

Students in the LLM program may pursue the degree on either a full-time or part-time basis. Full-time LLM students are expected to complete the degree in one year. Part-time LLM students are expected to complete the degree in two years. The maximum time to complete the LLM degree is five years.

Students in the MJ program may pursue the degree on either a full-time or part-time basis. Full-time MJ students are expected to complete the degree in one or two years. Part-time MJ students are expected to complete the degree in two to four years. The maximum time to complete the MJ program is six years.

Class Attendance Policy

Attendance is mandatory for all law school classes. Each instructor may establish penalties for lack of attendance, including lowering the final grade for the class. If a student registers for a limited enrollment class such as a senior research seminar or a professional skills course and does not attend the first week of the class, the instructor may assign a failing grade.

Students are required to attend the section of a course for which they are registered. A student may not attend another section of the same course, even if taught by the same instructor.

Students who never attend or cease to attend a class without withdrawing may receive a grade of FX. The FX is calculated into the student’s GPA as an F.

Dismissal

A full-time J.D. student whose GPA falls below 1.70 at the end of the first academic semester will be dismissed from the College of Law. In addition, full-time and part-time College of Law students who are not in good standing at the end of any given academic year will be dismissed. However, formal dismissal letters typically are not issued until final grades are processed.

Students Enrolled In Summer Session Before Notice of Dismissal

A student who is dismissed at the end of the first year and who is enrolled in a Summer course will be withdrawn from the Summer course. Tuition will not be refunded. An upper-level student who is dismissed while enrolled in a Summer course may either withdraw from the course
Exceptional hardship; neither will a desire to work or study in another location constitute such a hardship.

Courses taken at another university or college that are not part of a regularly accredited law school curriculum will not be applied toward a law degree.

FERPA/Annual Notification
Annual Notification for DePaul Students: Your FERPA Rights

We want to take this opportunity to provide you with a summary of your rights under The Family Educational Rights and Privacy Act (FERPA), the federal law that governs release of and access to student education records. Please view Understanding FERPA, a DePaul Central Learning Center video for information and instructions.

Your FERPA rights include:

1. The right to inspect and review your education record within 45 days after the University receives a request for access. If you want to review your record, contact the University office that maintains the record to make appropriate arrangements.
2. The right to request an amendment of your education record if you believe it is inaccurate or misleading. If you feel there is an error in your record, you should submit a statement to the University official responsible for the record, clearly identifying the part of the record you want changed and why you believe it is inaccurate or misleading. That office will notify you of their decision and advise you regarding appropriate steps if you do not agree with the decision.
3. The right to provide written consent before DePaul discloses personally identifiable information contained in your education records, except to the extent that FERPA authorizes disclosure without consent.

Some examples of exceptions include:

- School officials with "legitimate educational interests." A school official has a legitimate educational interest if the official has a professional need to review your education record in order to fulfill his or her official responsibilities. Examples of people who may have access, depending on their official duties, and only within the context of those duties, include: university faculty and staff, agents of the institution, students employed by the institution or who serve an official institutional committees, and representatives of agencies under contract with the University.
- To officials of another school where the student seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student's enrollment or transfer.
- To authorized representatives of the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or state and local educational authorities, such as a state postsecondary authority that is responsible for supervising the university's state-supported education programs. Disclosures under this provision may be made in connection with an audit or evaluation of federal- or state-supported education programs, or for the enforcement of or compliance with federal legal requirements that relate to those programs. These entities may make further disclosures of personally identifiable information to outside entities that are designated by them as their authorized representatives to conduct any audit, evaluation, enforcement or compliance activity on their behalf.
• In connection with financial aid for which the student has applied or which the student has received, if the information is necessary to determine eligibility for the aid, determine the amount of the aid, determine the conditions of the aid, or enforce the terms and conditions of the aid.
• To organizations conducting studies for, or on behalf of, the school, in order to:
  i. develop, validate or administer predictive tests;
  ii. administer student aid programs; or
  iii. improve instruction.
• To accrediting organizations in order to carry out their accrediting functions.
• To appropriate officials in connection with a health or safety emergency.
• Information the school has designated as “directory information.”

Directory information may be released without your written consent and includes the following: name, address, e-mail, telephone number, date of birth, college of enrollment, year in school, major, enrollment status (including current enrollment, dates of attendance, full-time/part-time or withdrawn), degrees, awards and honors received (e.g., Dean's List recognition), participation in officially recognized activities and sports, weight and height of members of athletic teams, photographs (including ID pictures), videos depicting and/or concerning University life, and previous educational institutions attended. Please note that you have the right to withhold the release of directory information except to the extent that FERPA authorizes disclosure without consent (see #3 above).

To withhold the release of your directory information, you must log into the student portal, Campus Connect, and, under Student Privacy settings, indicate your preference. Please note two important details regarding placing a “No Release” on your record:
  i. A “No Release” on your record will prevent your name from being included on lists of students released to honor societies, dean’s list and graduation announcements to local newspapers, and enrollment and degree verification to anyone, including potential employers.
  ii. A "No Release" applies to all elements of directory information on your record.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA.

For additional information, please consult the U.S. Department of Education website (https://www2.ed.gov/policy/gen/guid/fpco/ferpa/?src=rn).

Questions concerning FERPA should be referred to DePaul Central:

DePaul Central
Lincoln Park: Schmitt Academic Center
Loop: DePaul Center, Suite 9100
Tel: (312) 362-8610 | dpcl@depaul.edu | depaulcentral.depaul.edu (http://depaulcentral.depaul.edu)

Final Exams

The method of evaluation of student performance in a course lies solely within the discretion of the instructor. In many courses, a student’s grade is based primarily on one written examination given at the conclusion of the course. Some instructors also give a midterm examination or assign papers. Final Exam times are posted in the class schedule.

Exam Administration

During closed book examinations, all books, notes, cell phones, tablets, iPods, outlines, backpacks, briefcases, and other materials must be placed in the back of the room. During open book exams, students may have whatever materials the professor approves for use during an examination. For SoFTest exams, the proctor will announce the start time and write the exam password on the board. SoFTest will automatically shut down after the allotted time. For bluebook and Scantron exams, the test proctor will advise the students of the time at which the exam will end and will write the ending time on the blackboard. When time has expired, the proctor will announce that the exam is over. Students must stop writing immediately and turn in their examinations. Failure to stop writing immediately is a violation of the Honor Code. Students are not permitted to leave their seats for any reason during the last half hour of an exam.

Anonymous Examination Numbers

Each student is randomly assigned an anonymous exam number each semester, and most exams are graded anonymously. Generally, upper-level seminars and skills courses are not anonymously graded.

For exams graded anonymously, a student must identify herself or himself only by assigned anonymous examination number. A student must not identify himself or herself by name, student identification number or any other designation or symbol anywhere on the examination questions or answers. A student should not disclose the examination number to the instructor, either directly or indirectly, until the instructor has submitted the final grades for the course. Failure to comply with these provisions may be a violation of the Honor Code.

Exam Schedule and Conflicts

The final examination schedule is published with the class schedule prior to registration each semester on Campus Connect. Students should select their courses to avoid exam conflicts.

All students must take their examinations at the scheduled time. If two sections of a course are offered, students must take the exam at the time scheduled for the section in which they are enrolled.

Final exams will be rescheduled only in extraordinary circumstances, or according to the rescheduled exam policy below. Exams will not be rescheduled because of job commitments, weddings, graduations, vacation plans, travel plans or for other personal reasons.

Rescheduled Examinations

Under certain limited circumstances, students may shift one examination to a different day. This policy is known as the “rescheduled exam” option.

If you have two in-class exams on the same day or within 24-hours (i.e., less than 24-hours), you can designate one exam as a “rescheduled exam.” You must take the rescheduled exam within two weekdays of the original exam date, which may be before or after the regularly scheduled exam. Rescheduled exams are held between 9:30 a.m. - 12:30 p.m. on designated days when no first-year exams are scheduled. The application form is available online.

Students may only request one rescheduled exam per semester. Students must register no later than the sixth week of classes. Forms are available
on the College of Law website. First-year students, both full-time and part-time, may not reschedule exams because their exam schedule is set up with several days between exams. Rescheduled exams are not available in Summer term.

**Missing an Examination**

Students are expected to take examinations when scheduled, even though ill or inconvenienced. However, in the event of serious illness or for other extraordinary or compelling cause beyond a student's control, the Associate Dean for Student Affairs or the dean on duty may excuse a student from taking the exam at its scheduled time. Students will not be excused from an examination for job-related reasons, weddings, travel, graduations, vacations or for other personal reasons. Students are expected to adjust their outside commitments to conform to the law school examination schedule.

A student who must miss an exam must notify the Associate Dean for Student Affairs on or before the scheduled exam day. If prior notice is not possible, the student must contact the Associate Dean as soon as the inability to take the exam becomes manifest. If a student does not notify the Associate Dean for Student Affairs at the first available opportunity, the student will receive a failing grade. A student should never contact the professor about rescheduling an examination that will be graded anonymously.

A student who is more than ten minutes late for an exam will not be permitted to take it unless authorized by the Associate Dean for Student Affairs. A student who is less than ten minutes late may take the exam but will not be allotted additional time and may not type his or her exam. Students who miss an exam must use bluebooks and cannot type their answers.

**Examination Accommodations**

Students who wish to request accommodations on the basis of a disability should contact, and register with, the Center for Students with Disabilities. Students who have been approved to receive accommodations should also notify the Associate Dean for Student Affairs at the start of each semester.

Accommodations of time and one half per in-class exam are offered to international College of Law non-JD students (LLM, MJ, Visiting and Exchange) for whom English is not a first language. Students who qualify should contact the Office of Student Affairs at least one month before each exam period to confirm accommodations.

International College of Law Non-JD Students for whom English is not a first language will be permitted to use a standard English dictionary while taking in-class final exams. Eligible international students must be registered with the DePaul University Office of International Students and Scholars. Eligible students may not use their own dictionary, but must use a standard English dictionary (Merriam-Webster or comparable) provided by the College of Law at the time of the exam. This policy applies to final exams that are closed book or where there are restrictions on materials that would otherwise prevent the use of a dictionary.

**Good Standing**

**JD Programs**

**First-Year JD Students (For Matriculants Prior to Autumn 2018)**

To be considered in good standing at the College of Law, first-year JD Day students must have a cumulative GPA of 1.70 or higher at the end of the Autumn semester and a cumulative GPA of 2.00 or higher at the end of the Spring semester. To be considered in good standing, first-year JD Evening students must have a cumulative GPA of 2.00 at the end of the academic year in May. Grades received in the Summer session are not included in a student’s GPA for the prior academic year.

To maintain good standing, first-year JD students with a cumulative GPA of 1.70 or higher but below 2.40 at the end of the Autumn semester are required to attend all Spring semester Academic Success Program (ASP) workshops, complete all ASP assignments, and schedule an individual meeting with the Director of ASP and Bar Passage. First-year JD students with a cumulative GPA of 2.00 or higher but below 2.20 at the end of the Spring semester may not register for the following Summer session. In addition, they will be enrolled in and must complete LAW 253 (https://catalog.depaul.edu/search/?P=LAW%20253) and LAW 252 (https://catalog.depaul.edu/search/?P=LAW%20252) in their second year. They also must complete LAW 102 (https://catalog.depaul.edu/search/?P=LAW%20102) and LAW 410 (https://catalog.depaul.edu/search/?P=LAW%20410).

**First-Year JD Students (For Matriculants Beginning Autumn 2018)**

To be considered in good standing at the College of Law, first-year JD Day students must have a cumulative GPA of 1.70 or higher at the end of the Autumn semester and a cumulative GPA of 2.00 or higher at the end of the Spring semester. To be considered in good standing, first-year JD Evening students must have a cumulative GPA of 2.00 at the end of the academic year in May. First-year JD students with a GPA below 2.20 at the end of Autumn semester may not register for the following Summer session. Grades received in the Summer session are not included in a student’s GPA for the prior academic year.

To maintain good standing, first-year JD students with a cumulative GPA of 1.70 or higher but below 2.60 at the end of the Autumn semester are required to attend all Spring semester Academic Success Program (ASP) workshops and complete all ASP assignments. First-year JD students with a cumulative GPA of 2.00 or higher but below 2.60 at the end of the Spring semester will be enrolled in and must complete LAW 253 MULTISTATE PERFORMANCE TEST STRATEGIES and LAW 252 BAR PASSAGE STRATEGIES in the two years following completion of the 1L core courses. They also must complete LAW 102 BUSINESS ORGANIZATIONS and LAW 410 EVIDENCE.

**Upper-Level JD Students (For Matriculants Prior to Autumn 2018)**

To be considered in good standing at the College of Law, upper-level JD students must have a cumulative GPA of 2.00 or higher at the end of each academic year in May. Grades received in the Summer session are not included in a student’s GPA for the prior academic year.

To maintain good standing, second-year JD Day students and second- or third-year JD Evening students with a cumulative GPA of 2.00 or higher but below 2.40 at the end of the Autumn semester will be enrolled in and
must complete LAW 253. They also must schedule an individual meeting with the Director of Bar Passage, and they must complete LAW 102 and LAW 410 prior to graduation.

To maintain good standing, third-year JD Day students and fourth-year JD Evening students with a cumulative GPA of 2.00 or higher but below a 2.40 at the end of the Autumn semester must attend all Spring semester Bar Passage Workshops and must schedule an individual meeting with the Director of Bar Passage.

Upper-Level JD Students (For Matriculants Beginning Autumn 2018)

To be considered in good standing at the College of Law, upper-level JD students must have a cumulative GPA of 2.00 or higher at the end of each academic year in May. Grades received in the Summer session are not included in a student’s GPA for the prior academic year.

To maintain good standing, second-year JD Evening students with a cumulative GPA of 2.00 or higher but below 2.60 at the end of the Autumn semester will be enrolled in and must complete LAW 253 and LAW 252 in the two semesters following completion of the 1L core courses. They also must complete LAW 102 and LAW 410.

To maintain good standing, second-year JD Day students and third-year JD Evening students with a cumulative GPA of 2.00 or higher but below 2.60 at the end of the Autumn semester will be enrolled in and must complete LAW 253. They also must schedule an individual meeting with the Director of Bar Passage, and they must complete LAW 102 and LAW 410 prior to graduation.

To maintain good standing, third-year JD Day students and fourth-year JD Evening students with a cumulative GPA of 2.00 or higher but below a 2.60 at the end of the Autumn semester must attend all Spring semester Bar Passage Workshops and must schedule an individual meeting with the Director of Bar Passage.

LLM & MJ Programs

To be considered in good standing at the College of Law, LLM and MJ students must have a cumulative GPA of 2.00 over three semesters. Grades received in the Summer session are not included in a student’s GPA for the prior academic year.

Joint Degree Programs (Law/Master’s Degree)

Good Academic Standing

To be considered in good academic standing, DePaul students pursuing a joint degree program where two degrees are awarded simultaneously (for example: two master’s degrees, a master’s degree and a juris doctor degree or a juris doctor and a master’s of law degree) should consult the degree requirement section of the University Catalog to determine the required minimum grade point average for good academic standing.

Failure to Maintain Good Academic Standing

Students who fail to maintain good academic standing may be subject to dismissal from the joint program in accordance with procedures established by the program. Many programs have established time or course limitations within which a student must return to good standing before they may be dismissed from the program.

In addition, for those participating in federal financial aid programs, failure to maintain good academic standing will affect compliance with the federal satisfactory academic progress requirements.

Grades

Grades and Grading Scale

Grades can be accessed online via Campus Connect. Grades can be viewed and printed using the Unofficial Transcript in the Student Center in Campus Connect.

Once a grade is assigned, university policy prohibits faculty from changing the grade unless the professor made a clerical or computational error when calculating it. Removal of an incomplete grade in accordance with University policy is an exception to the grade change policy.

Faculty may not assign or accept additional graded material in order to improve a student’s final grade. They may not conduct a substantive reevaluation of the student’s exam or coursework.

Grades are assigned in accordance with the following definitions (a plus or minus grade represents a slight variance from the indicated definition):

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>The instructor judged the student to have accomplished the stated objectives of the course in an EXCELLENT manner.</td>
</tr>
<tr>
<td>B</td>
<td>The instructor judged the student to have accomplished the stated objectives of the course in a VERY GOOD manner.</td>
</tr>
<tr>
<td>C</td>
<td>The instructor judged the student to have accomplished the stated objectives of the course in a SATISFACTORY manner.</td>
</tr>
<tr>
<td>D</td>
<td>The instructor judged the student to have accomplished the stated objectives of the course in a POOR manner.</td>
</tr>
<tr>
<td>F</td>
<td>The instructor judged the student NOT to have accomplished the stated objectives of the course.</td>
</tr>
<tr>
<td>FX</td>
<td>Student failed to accomplish the stated objectives of the course due to non-attendance. Non-attendance is defined as never attending or ceasing to attend an in-person course or never participating or ceasing to participate in an online course without officially withdrawing. The FX is calculated into the student’s GPA as an F. Instructors are required to provide the last date of attendance/participation.</td>
</tr>
</tbody>
</table>

Note:
Temporary grade indicating that, following a request by the Student, the Associate Dean of Student Affairs and the Instructor have given permission for the student to receive an incomplete grade. In order to qualify, the student must have: 1. satisfactory record in the work already completed in the course; 2. encountered unusual or unforeseeable circumstances, which prevent him/her from completing the course requirements before the end of the term; and 3. applied to the instructor and to the Associate Dean for permission to receive the IN. The incomplete will expire at the end of the following semester. If the work is not complete, the student will receive a failing grade.

Passing achievement in a pass/fail course. (Grades A through D represent passing performance.)

Withdrawal from the course instituted by the student after the last day to drop with a refund and before the final withdrawal deadline.

Withdrawal from the course initiated by an administrator at a student’s request, usually outside of established deadlines. Administrative withdrawals may be granted under extraordinary circumstances and require documentation for support.

Final grade not submitted by instructor.

Auditor status; course does not earn credit.

**First-Year Grade Curve and Upper-Level Classes with 50 or More JD Students**

The following mandatory grade curve applies to all first-year courses and to upper-level classes with 50 or more enrolled JD students:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>12%-17%</td>
</tr>
<tr>
<td>A- and/or B+</td>
<td>20%-30%</td>
</tr>
<tr>
<td>B</td>
<td>20%-30%</td>
</tr>
<tr>
<td>B- and/or C+</td>
<td>20%-30%</td>
</tr>
<tr>
<td>C or below</td>
<td>10%-15%</td>
</tr>
</tbody>
</table>

In addition, the mean or average for all DePaul JD students in any course subject to this grade curve must be between 2.95 and 3.15. All LARC sections taught by the same instructor during the semester are aggregated into one course for purposes of this curve.

**Upper-Level Grade Curve: Classes with 21 - 49 JD Students**

The mean or average for all DePaul JD students in any upper-level course with an enrollment between 21 and 49 students must be between 2.95 and 3.15.

**Upper-Level Classes with 20 or Fewer JD Students**

No mandatory grade curve applies to courses with enrollments of 20 or fewer DePaul JD students. However, any instructor submitting grades for DePaul JD students more than half of which are grades of A shall provide the Associate Dean of Academic Affairs with a brief explanation of the methodology that led to this result.

LLM, MJ and other non-JD students are not included in the grade curves set forth in this subsection.

**Computation of GPA**

GPAs are computed by dividing the total number of grade points earned by the total number of graded credit hours. Graded credit hours do not include courses graded WA, W, PA, IN, M, or AU, but do include courses graded F or FX. Grade point averages are reported to three digits and cannot be rounded up. Students must report their grade point average as it appears on official and unofficial transcripts.

**Grades, Challenges to**

**A. General Policies on Grading**

1. Grades are determined solely on the basis of the academic performance of each student according to pre-established criteria determined by the course instructor and consistent with university, college and departmental policies.
2. Grade determination is the prerogative of the instructor subject to the constraint that any successfully challenged grade will be changed through faculty action.

3. The criteria for evaluating academic performance are to be consistent with a course's goals and objectives, which have been approved by the appropriate academic authority before the course is scheduled. On the first day of class of each course the instructor is to explain in writing to the students the criteria for evaluating as well as the methods for grading student performance (examinations, papers, reports, etc.).

4. The instructor in each course shall decide what criteria and methods for evaluating students are to be applied in the specific course. These decisions of the instructor, however, must be compatible with any policies previously accepted by the faculty of a department or college with respect to particular courses, especially courses offered in sequence where the qualifications of a student to begin an advanced course depend upon performance in a previous course. The methods of conducting a course are determined by the instructor within limitations set by the classification of a course as lecture-discussion, seminar, laboratory, etc. An instructor may vary the teaching methodology to meet particular circumstances of a course (type or number of students enrolled, concentrated calendar as in summer sessions, etc.) or the instructor's own desires to innovate or experiment with different approaches.

Any method selected must be compatible with the predetermined goals and objectives of the course. While teaching methodology may change after the course has begun, grading methodology may be changed only with the consent of a majority of students in the course, taking into consideration hardships imposed upon students opposed to the change.

5. The actual evaluation and grading of academic performance is subject to the professional judgment of each instructor. Considerable personal discretion is required in these judgments - a justifiable margin of difference can exist between the evaluations made by two or more professional persons of the same academic performance.

6. Students are entitled to compare their work in the course with the criteria applied in deciding the final grade for the course. Accordingly, the course instructor is required either to return major papers and examinations to students or to make such available for students until the end of the following term. Spring Quarter materials are to be available until the end of the following term. For pedagogic reasons, an instructor is expected to review with the student the criteria applied in deciding the final grade for the course. Accordingly, the course instructor is required either to return major papers and examinations to students or to make such available for students until the end of the following term. Spring Quarter materials are to be available until the end of the following term. For pedagogic reasons, an instructor is expected to review with the student the criteria applied in deciding the final grade for the course. An instructor may vary the teaching methodology to meet particular circumstances of a course (type or number of students enrolled, concentrated calendar as in summer sessions, etc.) or the instructor's own desires to innovate or experiment with different approaches.

7. A student may object to a grade for one or more of the following reasons:
   a. The methods or criteria for evaluating academic performance, made explicit by the instructor at the beginning of the course, usually in a course syllabus or as subsequently modified with the majority consent of the students, were not actually applied in determining the grade.
   b. The grade was determined or influenced by criteria other than those explained by the instructor or by criteria not relevant to academic performance.
   c. The instructor applied predetermined criteria unfairly, which may include but not be limited to the following items:
      • The instructor's evaluation of academic performance so exceeded the reasonable limits of the instructor's discretion as not to be acceptable to the instructor's peers.
      • Predetermined criteria were not explained at the beginning of the quarter or semester.
   d. The instructor did not adhere to temporary University policies regarding the end-of-quarter grading accommodations that were adopted in Spring of 2020 after the social unrest that occurred in Chicago after the death of George Floyd. For courses taking place in Spring quarter 2020 only, this policy required that instructors choose one of the following options for final grading:
      • To award a final course grade on the basis of materials due by May 29, 2020, assuming that at least 70% of the course materials had been due by that date.
      • To award, at the student's request, an Incomplete without explanation and subject to all rules regarding incomplete grades.

B. Policies Regarding Grade Challenge

1. All Grade Challenge Review Boards must follow the procedures listed below.
2. A challenge to a grade will be reviewed and decided by tenured faculty unless the college or school has an insufficient number of tenured faculty to staff a Review Board.
3. The student who challenges a grade bears the full burden of proof that there are sufficient grounds for changing a grade.
4. Only the final grade of a course and its means of determination may be challenged.

C. Procedures for Establishing Grade Challenge Review Boards

1. At the beginning of each academic year, the Committee on Committees will recommend to the Faculty Council, the faculty members and alternates for one Review Board for each of the following colleges: Business, Computing and Digital Media, Communication, Education, Law, Music, School of Continuing and Professional Studies, Science and Health, and Theatre.
2. It will recommend two boards for Liberal Arts and Social Sciences covering the following areas: Humanities and Behavioral and Social Sciences. The Faculty Council will make all appointments to Review Boards. The dean of a college may request the establishment of additional Review Boards.
3. Each Review Board will consist of three faculty members and two alternate faculty members and one student. Faculty members may not serve on challenges in which they are involved. Involvement includes assignment of the grade in question and/or attendance or participation in the class. In either of these cases, one of the alternates will be asked to serve.
4. The student representative on the Review Boards in Business, Computing and Digital Media, Communication, Education, Liberal Arts and Social Sciences, Science and Health, Law, Music, School of Continuing and Professional Studies, and Theatre will be the elected Senator from the college or school. In cases where this Senator is involved in the claim; i.e., had registered for, attended or participated in the class, the SGA EVP of Academic Affairs will serve as an alternate or, if necessary, the president may appoint the alternate.
5. The Review Board will select its own chair and vice chair (to serve in the absence of the chair). The Chair of the Review Board receives all requests for hearing from the dean or chair of the affected department, sets the calendar, notifies all board members and involved parties of the dates and times of the hearings and informs students by written notice of the recommendations of the board. The
D. Procedures for Filing a Grade Challenge

In order to provide a forum for the fair resolution of academic disputes involving individual students and appropriateness of course grades, the following procedures have been developed and will be applied to all cases involving DePaul University students.

1. A student who is considering a grade challenge must discuss the grade with the instructor before the end of the following regular term. (Spring and Summer Quarter challenges must be made before the end of the Autumn Quarter. Law students challenging a Fall semester grade have a deadline of March 1 of the following Spring semester. Law students challenging a Summer/Spring semester grade have a deadline of October 1 of the following Fall semester.) The instructor is expected to explain the reason for the grade to the student. Only if the instructor is not at the university during the following regular term after the grade was issued, may the student proceed to challenge the grade without meeting with the instructor.

2. If, after the discussion with the faculty member, the student still disputes the final grade, the student may continue their challenge by submitting a written request for a hearing to the office of dean of the college or school in which the course was offered within the term following the award of the disputed grade. Since the following burden of proof rests upon the student, it is important that the student include a clear and coherent statement (typed) with the reason for the appeal, together with any supporting documents the student may wish to include. Students may request that copies of supporting documents in possession of the faculty members be forwarded to the chair of the Review Board. All challenges will be thoroughly and fairly reviewed.

3. The dean of the college or school shall forward a copy of the request to the chair of the Review Board, the involved faculty person and the student. This must be signed and dated by the dean or chair of the affected department.

4. Once filed, the formal challenge is automatically forwarded through all stages of the appeal process unless the Review Board determines it to be groundless or frivolous. Additionally, the student has the option to discontinue the appeal at any stage by submitting a letter stating such to the instructor and chair of the Review Board.

Both the student and instructor will be informed in writing of all committee recommendations and decisions as well as any new written information bearing on the case. Only the instructor and/or the Review Board are empowered to change a grade.

5. The Review Board chair will send a copy of the grade appeal request and relevant materials received with it to the instructor involved. The instructor will return the materials with a written response within two weeks unless circumstances warrant an extension.

The chair is responsible for monitoring the time period. A copy of the instructor’s response will be forwarded to the student who has filed the challenge. If the instructor does not respond within the time period, the committee will conclude its deliberations and vote on the challenge.

6. The Review Board may, at its discretion, seek oral clarification of the written responses from the student and faculty member. If it requests this further clarification, the Review Board must meet with both the student and faculty member separately if the student requests.

7. The Review Board shall evaluate the challenge and vote to approve or deny. Decisions of the Review Board arrived at by secret ballot are to be determined by a majority vote.

Such action must be taken within two months of the date of filing. (If the grade appeal is not passed along its designated route within the times specified, the student should notify the dean of the school or college who will determine the reason for the delay.)

8. The Review Board is to reach one of the three following decisions:

   a. Challenge affirmed and settled by consent: i.e., the Review Board conducting the review deems a conciliation mutually acceptable to the student and the instructor who gave the grade. Should the acceptable conciliation involve a change of grade, the instructor will submit a change of grade.

   b. Challenge affirmed and the Review Board may submit a change of grade card to the dean of the college or school in which the course was taught. In determining the student’s final grade, the Review Board will take into account all evidence of the student’s academic performance in the course under challenge as well as the implications for the student’s grade of the instructor’s actions in the case in question.

   c. Challenge denied; original grade stands.

9. The decision reached by the Review Board is to be communicated by the chair of the Review Board in writing directly to the dean of the college or school, the instructor, and the student. The explanation for the decision will also be communicated.

10. Decisions by the Review Board are final and binding on all parties. The board’s decision does not require the approval of the dean of the college or school, or the chair of the affected department.

Grades, Incomplete (IN)

The grade of Incomplete (IN) is assigned when a student has been excused from taking the final examination on good cause shown or, with permission, has failed to complete all of the required coursework. To receive an incomplete, a student must receive written permission from the instructor and the Associate Dean of Student Affairs. All course work must be completed by the end of the following semester or the student will receive a permanent failing grade (F).

Grades, Pass/Fail

The faculty has designated certain courses for pass/fail status. A student may not elect to take a course pass/fail that has not been so designated.

Grades, Repeating Classes

A JD student who receives a grade of F or FX in a first year required course must repeat the course in the student’s next academic year. JD students must demonstrate satisfactory completion of LAW 115, LAW 481, a course that meets the Advanced Writing Requirement, and a course that meets the Professional Skills Requirement. Satisfactory completion means a passing grade.
A student who receives a grade of F or FX in an elective course is permitted to repeat the course once.

All grades achieved are recorded on the academic record. All attempts are to be calculated into the grade point average. Credit will only be awarded for the course upon achievement of a passing grade.

This policy does not apply to courses that are repeatable for credit.

**Graduation and Certificate Application**

Graduating students must apply online for degree conferral in Campus Connect by June 1 for a July graduation, by October 1 for a December graduation, or February 1 for a May graduation. Once your online application has been submitted, you will be prompted to order your cap and gown and reserve a place for you and your guests at the May commencement ceremony.

Applicants for the JD, JD/joint degree, JD/LLM, and LLM must also submit a paper graduation application. Students applying for a certificate must complete and submit a certificate application, which is attached to the graduation application.

**Graduation Requirements**

Each student is solely responsible for ensuring that they fulfill all requirements for the degree being sought. Graduating seniors should undertake an independent review of their records before they register for their final semester by ordering a degree progress report or an unofficial transcript from Campus Connect. If a prospective graduate has not fulfilled all degree requirements, they will not receive a degree and will not be certified for admission to the bar.

Note: Participation in the graduation ceremony does not establish entitlement to a degree. The actual degree award does not take place until the University completes its degree audit. Degree requirements are reviewed at the end of the expected completion term indicated. If all requirements are met, the degree will be conferred within 30 days of the end of the term. Diplomas are mailed (to graduates without financial holds), generally within 45-60 days after the end of the term.

**Graduation with Honors**

**Juris Doctor Honors**

JD students whose cumulative grade point average (GPA) places them in certain categories graduate with honors.

- Top 5%: summa cum laude
- Top 10%: magna cum laude
- Top 20%: cum laude

The awards are given to the entire class that graduates in an academic year, full-time and part-time students combined. The awards are announced at the end of the academic year. Once the awards are announced and posted by the College of Law and the Office of the University Registrar, the awards are not affected by any subsequent grade changes.

Students who transfer to the College of Law after they complete first-year coursework at another law school are eligible for graduation honors. Grades earned at a transfer student’s prior law school are included in the GPA computation for honors eligibility. Grades earned when students visit another law school after their first year are included in the GPA for honors eligibility if they take 12 or more credits at another law school.

**Order of the Coif**

JD graduates who rank in the top 10 percent of their class will be elected by the faculty to the Order of the Coif. Coif awards are announced in the Summer at the end of the academic year. Once announced and posted by the Office of the University Registrar, the awards are not affected by any subsequent grade changes. The rules for honors awards for transfer students also apply to election to Order of the Coif.

**Graduation, Commencement Ceremony**

Commencement is held annually in May. If a student is short no more than three credits for a degree, the student may attend the commencement ceremony but will not be awarded the degree until the credits are completed.

**Graduation, Degree Conferral Policy**

Final certification of degrees is completed by the Office of the University Registrar thirty days after the conferral date.

In dual degree programs authorized by the colleges, the degrees will be conferred simultaneously. Academic records will be locked upon degree conferral. Under no circumstances will changes be made to the academic record after degree conferral.

If a student begins a new program of study at DePaul after a degree has been conferred, the student’s GPA will be restarted. The one exception to this rule involves master’s students whose DePaul master’s degree is accepted to meet DePaul’s PhD requirements either in the same or a new field. In this instance the GPA in the PhD program will include the GPA from the DePaul master’s degree.

**Combined Bachelor’s + Master’s Degree Program**

Students combining a master’s degree with a bachelor’s degree in an approved DePaul Combined Bachelor’s + Master’s Program will restart their GPA at the beginning of their graduate career.

**JD/LLM Program**

In the case of students who are accepted into the joint JD/LLM program, the students’ GPA in the LLM program will include the GPA from the JD program. Students who have completed the JD degree and are independently pursuing the LLM degree will have their GPA restarted.

**Guided Research**

Students who wish to register for Guided Research must make supervisory arrangements with a full-time faculty member. A student must have completed a minimum of 28 credit hours with a cumulative GPA of at least 2.0. Guided Research is offered for either one or two credits and is graded pass/fail. Guided Research does not fulfill the JD advanced writing requirement.
To register for Guided Research, a student must obtain written approval from the supervising faculty member and the Assistant Dean for Student Affairs. Guided Research forms are available on the College of Law website. Completed forms should be turned in to the Office of Student Affairs.

Immunization, Proof of

DePaul University complies with Illinois state law (College Student Immunization Act [110 ILCS 20]) and the Illinois Department of Public Health College Immunization Code (77 Ill. Adm. Code 694), which mandates post-secondary institutions to submit an annual report on student immunization requirements. All DePaul University students, born on or after January 1, 1957 and attend a university campus location, must provide proof of the required immunizations. Additionally, Illinois law requires that universities prevent students from registering for any subsequent terms if proof of immunization is not provided.

Proof of the following immunizations is required:

- Tetanus/Diphtheria/Pertussis - 3 doses (at least 1 tdap in lifetime, last dose within past 10 years)
- Measles - 2 doses (at least 28 days apart, after first birthday. Neither dose can be prior to 1968.)
- Mumps - 2 doses (at least 28 days apart, after first birthday. Neither dose can be prior to 1968.)
- Rubella - 2 doses (at least 28 days apart, after first birthday. Neither dose can be prior to 1968.)
- Meningococcal - 1 dose (if under the age of 22, taken on or after 16th birthday)

Additionally, DePaul University requires that all students who enroll and attend a campus location provide proof of the following:

- COVID 19 – 2 doses from Pfizer (21 days apart) or 2 doses from Moderna (28 days apart) or 1 dose from Johnson & Johnson.

Please visit the Immunization Requirements (http://www.depaul.edu/admission-and-aid/admitted/Pages/immunizations-requirements.aspx) webpage for more information.

Independent Study

Independent Study permits a student to pursue an area of interest in-depth under the supervision of a full-time faculty member. The student must produce a research paper of publishable quality on a topic not substantially covered by a currently-offered course. Independent Study fulfills the JD advanced writing requirement. A student may enroll for a maximum of two independent studies during law school.

To register for Independent Study, a JD student must have completed 28 credit hours and have at least a 3.0 cumulative GPA. The student must make supervisory arrangements with a full-time tenured or tenure-track faculty member with expertise in the student’s area of interest. Application forms for Independent Study are available on the College of Law website. Completed forms should be turned in to the Office of Student Affairs.

Military Academic Adjustments

DePaul University will make academic adjustments for students in the military consistent with all applicable legal requirements. This could include, for example: academic adjustments with a course, options regarding withdrawals or leaves of absence, and readmission at the conclusion of active duty. The details of any academic adjustments are dependent on the student’s specific military orders.

Procedures Regarding Withdrawals and Leaves of Absence: Students who are in the military and called to active duty that interrupts their enrollment must complete the DePaul University Leave/Withdrawal Request in Campus Connect. Students should indicate “military” on the application in Campus Connect. Upon their return, they will meet with an academic advisor to discuss resuming their studies.

Students are encouraged to contact the Veterans Student Affairs Office (https://offices.depaul.edu/student-affairs/support-services/veterans-services.aspx) for more information about other specific procedures regarding withdrawals, leaves of absence, academic adjustments, and for information regarding other policies that may be particularly applicable to students in the military.

NonEnrollment/Discontinuation

Students who complete a term and do not enroll for the following term at DePaul remain active and eligible to enroll until they are formally discontinued. Discontinuation occurs when:

1. The student does not register in the term for which they were admitted.
2. The student does not register for three consecutive quarters (or for Law, two semesters), excluding summers. In these cases students must seek readmission.
3. The student has not made progress toward the degree for three consecutive quarters (or for Law, two semesters), excluding summers.

Candidates for theses, dissertations and students on year-long study abroad programs are excluded from this rule. In these cases, students must meet with a college academic advisor to get permission to register and/or seek readmission.

Students in the School of Music, The Theatre School, or the College of Law who intend to take one or more terms off must consult their college office.

Students who are suspended from the University through the Student Conduct Process or the Academic Integrity process, or students who are participating in a University-initiated temporary medical withdrawal process, are not discontinued until they do not register or make progress toward the degree for three consecutive quarters (or for Law, two semesters) following the date on which they could be eligible for return. In these cases students must seek readmission.

Posthumous Degree

A posthumous degree may be awarded to degree-seeking candidates who were actively enrolled and in good academic standing. Undergraduate students must have earned at least 132 credit hours; graduate and professional students must have completed at least 75% of the curriculum required for their degree.

For all other cases, the Dean may request a Certificate of Accomplishment be awarded to honor the student’s progress toward the degree and accomplishments as a member in good standing of the DePaul community.
Readmission

Academic dismissals from the College of Law are typically final. However, under limited circumstances, students may seek readmission to the College of Law by filing a petition with the Readmissions Committee. The Readmissions Committee consists of at least five faculty members appointed by the Dean. The Assistant Dean for Student Affairs, serving ex officio, participates in the discussion but does not vote. All decisions of the Committee are final and are not subject to appeal.

Students seeking to be readmitted must submit a petition describing how they satisfy the readmission criteria described below, within two years of the date of dismissal. An electronic copy of the petition and supporting documentation must be submitted to the Assistant Dean for Student Affairs. Students should include all documentation they feel may be of assistance to the Committee.

A student dismissed at the end of the Autumn semester of the first year may not resume classes until the passage of three semesters after the dismissal. A student dismissed at the end of the first year may not resume classes until the passage of one calendar year after the dismissal. A student dismissed at the end of the second, third or fourth year may petition to resume classes in the semester immediately following the dismissal.

Students dismissed at the end of the first semester or at the end of the first academic year may file a readmission petition no earlier than January 15 and no later than March 1 of the academic year following the dismissal. Students dismissed after the second, third or fourth year may apply for readmission immediately after they receive a dismissal letter, but no later than August 1 for admission in the Autumn semester of that year. If students are dismissed and not readmitted within two years, they must apply for admission as a new student and their admission must be ratified by the Readmissions Committee.

Students who are readmitted after being dismissed, either at the end of the Autumn semester or end of the first year, will not receive credit for any course work previously completed and will have to complete all courses required for new students at the time of readmission. Students who are readmitted after being dismissed following the second, third or fourth year will receive credit for all course work previously completed where credit was awarded.

A student dismissed at the end of the fall or spring semester of the first year must achieve at least a 2.0 GPA for the return semester and a cumulative GPA of 2.0 after the second consecutive semester. A readmitted 1L student who does not earn at least a 2.0 for the first return semester shall be dismissed at the end of that semester. A readmitted 1L student who does not achieve a cumulative GPA of at least 2.0 at the end of the second return semester shall be dismissed at the end of that second semester.

A 2L/3L/4L readmitted after an academic dismissal during their second or third year shall have two consecutive semesters to achieve good standing (a cumulative GPA of at least 2.00). A student who is readmitted after an academic dismissal and who fails to achieve good standing after two academic semesters shall be dismissed at the end of that second semester.

Readmission Criteria

The Readmissions Committee applies the following criteria in considering a petition for readmission. Except in extraordinary circumstances, all of the criteria must be satisfied. The conditions upon which readmission is predicated are individually determined.

- The applicant's academic failure must have been caused by extraordinary and unforeseeable circumstances;
- The applicant must provide evidence that the extraordinary circumstances either no longer exist or will no longer substantially interfere with academic performance;
- In the Committee's judgment, the applicant must be able to raise his or her GPA to 2.00 or above within the two consecutive semesters following readmission; and
- In the Committee's judgment, the applicant must not lack the capacity to be admitted to the bar if readmitted (this section applicable only to JD students).

Readmissions Committee Meetings & Decisions

The Readmissions Committee meets twice during the academic year. For students dismissed at the end of the Autumn semester or at the end of the first year, the Committee will meet toward the end of the Spring semester of the academic year following the dismissal to consider petitions for the following Autumn semester. For students dismissed after the second, third or fourth year, the Committee will meet shortly before the beginning of the Autumn semester.

When a decision is made to readmit, the Assistant Dean for Student Affairs shall place a memo in the student's file that includes a statement of the considerations that led to the decision.

Limits on the Number of Readmission Petitions

A student whose petition for readmission is denied may apply for readmission one additional time. A student must apply for readmission within two years of the dismissal date.

American Bar Association Standard 501 and Readmissions

American Bar Association Standard 501(c) applies to all ABA-accredited law schools, including DePaul University College of Law. The standard states:

A law school shall not admit or readmit a student who has been disqualified previously for academic reasons without an affirmative showing that the prior disqualification does not indicate a lack of capacity to complete its program of legal education and be admitted to the bar. For every admission or readmission of a previously disqualified individual, a statement of the considerations that led to the decision shall be placed in the admittee's file.

Recording Class Sessions and Events

Classes may be recorded only with the permission of the instructor.

Students with disabilities who must record classes as an accommodation for their disability should make arrangements with the University Center for Students with Disabilities.

Members of student organizations and journals wishing to video or audio record events, including panels, discussions and presentations, must
obtain approval from the designated faculty advisor or the Associate Dean for Student Affairs.

## Registration and Credit Limits

Registration takes place according to a schedule pre-arranged in advance by the University Registrar’s Office. A student’s enrollment date is based on seniority according to the number of cumulative credits earned. Registration for the Summer and Autumn semesters takes place in the Spring. Registration for the Spring semester takes place in the Autumn. Students must use Campus Connect to register, add or drop a course.

### Add/Drop Deadlines

Once registration begins, it remains open until the end of the add/drop period, which is two weeks after the beginning of each semester.

### Course Changes after Add/Drop Deadline

A class may not be added after the last day to add a class deadline, which is published in the Academic Calendar of the College of Law. A student shall not receive retroactive credit for any work completed by the student. A student must register in advance, within the applicable registration period, to receive credit for any work completed.

A student may withdraw from a class on Campus Connect up until the end of the eighth week of the semester (the withdrawal deadline). Thereafter, a student who wishes to withdraw from a course must contact the College of Law Office of Student Affairs to request approval for a late withdrawal. Simply not attending class does not constitute a withdrawal.

For any course dropped after the deadline to drop a class, but before the withdrawal deadline, a grade of "W" will appear on the student’s transcript. For any course that is approved to be dropped after the withdrawal deadline, a grade of WA (“administrative withdrawal”) will appear on the student’s transcript. W and WA grades do not affect the student’s GPA.

### Deadline for Tuition Refunds

Students withdrawing from a course at a date which is after 20% of the scheduled term will not receive any tuition refund. The deadline is published in the Academic Calendar for the College of Law.

### Non-Classroom Credit Hours: 12-Credit Limit

With the exception of students enrolled in the Third Year in Practice (3YP) program, a JD student may earn a maximum of 12 credit hours for non-classroom courses. Courses that count toward the 12-credit non-classroom limit include the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>LAW 114</td>
<td>LEGAL ANALYSIS RESEARCH AND COMMUNICATIONS TEACHING ASSISTANTS</td>

</tbody>
</table>

### Distance Education Credit Limit

American Bar Association rules specify that JD students may earn a maximum of 28 credit hours toward the JD degree for distance education courses. The College of Law offers both fully online and hybrid courses. A hybrid course is a course in which some, but not all, of the instructional time is online. All fully-online courses, and some hybrid courses, qualify under the ABA rule as distance education courses.

### Journal Credit Policy

Students may receive credit for their participation on one of DePaul’s approved law journals. For minimum and maximum credits allowed per journal, consult the designated Faculty Advisor or the journal handbook. Students may opt to receive fewer than the maximum allowable credits per semester, but all editorial board members must receive at least one credit for each semester of work on the journal. Journal credit is granted only to third-year members of journal editorial boards with the exception of the DePaul Law Review; second-year editors of the DePaul Law Review may also receive credit.

### Competitions: Credit and Approval Process

The College of Law provides students with opportunities to participate in simulated skills competitions and to receive course credit through the following approved courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>LAW 536</td>
<td>NATIONAL MOOT COURT COMPETITION</td>
<td>2</td>
</tr>
<tr>
<td>LAW 537</td>
<td>INTERNATIONAL MOOT COURT COMPETITION</td>
<td>3</td>
</tr>
<tr>
<td>LAW 539</td>
<td>INTERSCHOLASTIC COMPETITION</td>
<td>2-3</td>
</tr>
<tr>
<td>LAW 751</td>
<td>HEALTH LAW MOOT COURT</td>
<td>2</td>
</tr>
</tbody>
</table>

Any student team or student organization that wishes to participate in a skills competition outside of these approved courses must first receive permission from the Dean of the College of Law by submitting
the Competition Statement of Interest available in the Student Resources section of the College of Law website. Each team must have a designated Faculty Advisor. DePaul students who participate in competitions are representing the College of Law and are subject to the policies and procedures of DePaul University.

All participants in competitions must register for credit unless the competition is one for which credit is not granted. Course credit will not be awarded if the appropriate registration is not completed.

Auditing Classes
A JD or LLM student may audit a course only if the student registers to do so with the Office of Student Affairs.

The following courses may not be audited: courses required for graduation, advanced writing courses, litigation skills courses, practice skills courses, clinics, externships, guided research, independent study and non-classroom pass/fail courses.

An auditor does not receive a grade in or credit for the course. Students may not convert from auditing to graded status or vice versa. A student who has audited a course may not thereafter take that course for credit. A person not enrolled as a student at the College of Law may audit a course only with the permission of the Assistant Dean for Academic Affairs.

To register to audit a course, students register for the class via Campus Connect and file a request form in the Office of Student Affairs.

Registration, Student Enrollment Classifications

Enrollment Reporting Classifications
Credit is accumulated on the basis of semester hours:

Full-time Student Status

- For JD Day students a twelve semester hour course load is considered full-time (6 semester hours for summer study).
- For JD Evening students a nine semester hour course load is considered full-time (6 semester hours for summer study).
- For LLM and MJ students a nine semester hour course load is considered full-time (6 semester hours for summer study).

Half-time Student Status

- For JD Day students a six semester hour course load is considered half-time (3 semester hours for summer study).
- For JD Evening students a six semester hour course load is considered half-time (3 semester hours for summer study)
- For LLM and MJ students a six semester course load is considered half-time (3 hours for summer study).

JD Maximum Credit Hours
Upper level JD Day students may register for a maximum of 16 credit hours per semester. After their third semester, JD Evening students may register for a maximum of 12 credit hours per semester.

JD Minimum Credit Hours
First-year JD Day students take 14 credit hours per semester. First-year JD Evening students take 10-11 credit hours per semester.

JD Day students must take a minimum of 12 credit hours per semester except that JD Day graduating seniors in their final semester need only take the number of credit hours necessary for them to graduate. JD Evening students must register for a minimum of 9 credit hours per semester except that graduating seniors need only take the number of credit hours necessary for them to graduate.

Required Courses & Prerequisites
Students must take all required courses at the time prescribed and in the sequence designated by the College of Law. First-year JD students may not drop required courses or take reduced class loads unless there are extraordinary extenuating circumstances and the student obtains the consent of the Associate Dean for Student Affairs. Required courses must be taken at DePaul Law and cannot be taken at another law school, with the exception of:

1. transfer students who were admitted with credits from another law school; and
2. students who receive advance permission from the Associate Dean of Student Affairs due to unforeseen and extenuating circumstances.

Some courses have mandatory prerequisites. Prerequisites must be completed before a student may enroll in those courses. Students may not take a course and its prerequisite course simultaneously.

Requirement Term
A student will complete the law program requirements in place at the time of the student’s first enrollment term in that program. A student who changes programs while their studies are in progress will complete the requirements in place at the time they enroll in the new program.

A student who changes programs during a break between terms will follow the requirements in place for the term immediately following the break.

A student who applies for readmission will be subject to the program requirements in place in the enrollment term of readmission.

Other Information
A student currently enrolled in a degree program in which revisions are approved while their studies are in progress may elect to formally adopt the revised requirements.

Requirements, Curriculum

Official changes in courses, course numbers, titles, descriptions, and prerequisites and minor changes in program requirements may be made on a quarterly basis.

Multiple changes or thorough revisions in the requirements of a program, major, or concentration which have received the required university approvals may be made twice each year. Changes approved by May 15th will be effective for the Autumn term, and those by October 15th will be effective for the Winter/Spring/Summer terms.

New programs, majors, or concentrations that have received the required university approvals may be added to the University Catalog edition that corresponds with the first term the program is active.
Requirements, Program Termination/Substantial Change

If an undergraduate major, graduate or law degree program is terminated or a program undergoes substantial changes, there must be a plan in place and a commitment to provide a reasonable opportunity for those active in the program to complete the current requirements of the degree.

The chart below provides the maximum time frame allowed to complete the degree from the point of termination/change:

<table>
<thead>
<tr>
<th>Type of Program</th>
<th>Maximum Time Allowed¹</th>
</tr>
</thead>
<tbody>
<tr>
<td>Undergraduate majors</td>
<td>4 years</td>
</tr>
<tr>
<td>Undergraduate SCPS programs</td>
<td>6 years</td>
</tr>
<tr>
<td>Graduate programs (thesis required)</td>
<td>4 years</td>
</tr>
<tr>
<td>Graduate programs (MFA)</td>
<td>4 years</td>
</tr>
<tr>
<td>Graduate programs (thesis not required) and Professional MJ and LLM programs</td>
<td>3 years</td>
</tr>
<tr>
<td>Doctoral programs (embedded master’s program)</td>
<td>8 years</td>
</tr>
<tr>
<td>Doctoral programs (stand-alone)</td>
<td>5 years</td>
</tr>
<tr>
<td>Professional JD programs</td>
<td>4 years</td>
</tr>
</tbody>
</table>

¹ If a program wishes to set shorter time frame for completion, they must explain their rationale and obtain approval from Faculty Council.

For programs with substantial changes, students may elect to pursue the new requirements in accordance with the Requirement Term Policy (p. 1519). Those students who are not able to complete their degree requirements within this time frame will be moved into the new requirements. For programs that have been terminated, undergraduate students may request to pursue a new major and graduate students may apply to a new graduate program. In addition, those students who are not able to complete a terminated degree program within this time frame will be advised of other program opportunities that may be available.

Students are responsible for working with their advisors to develop a plan to finish within the stated timeframe. It is the student's responsibility to complete required courses when they are offered. Students should not wait to complete required coursework.

For required courses that will no longer be offered, the department will provide substitutions. Waivers may also be granted; however the student must still meet the minimum credit hours required.

Students admitted into or those who are in the admission process for a terminated program will be advised of alternative programs.

Once a program has been approved for termination, students will no longer be admitted or readmitted into the program and students will no longer be able to declare that major or program. The only exceptions to this are active students officially in an "intended" or "pre" major or students officially in a combined bachelor's/master's program. In accordance with the requirement term policy, students who are discontinued will not be eligible to be readmitted into a terminated program.

Rule 711 License - Senior Law Student Certification

Upon completing 43 credit hours (one half of the credits required to graduate), a JD student may obtain an Illinois Supreme Court Rule 711 License to practice law under the terms and conditions set forth in the Rule. Licenses are available only for students who perform legal services for government agencies or not-for-profit organizations.

A student may apply for the license at the end of the semester in which they complete the requisite number of hours; however, the license cannot be processed until grades for those hours have been submitted, which occurs either in late January (Fall semester), late June (Spring semester), or mid August (Summer term). The link to the Court's application form is on the law school website on the Student Resources page. Completed applications (including the supervising adviser's signature and the required photograph) should be turned in to the Office of Student Affairs. The application will be forwarded to the Administrative Office of the Illinois Courts, which issues the license and mails it to the student. Processing time is three to six weeks.

Study Abroad Programs Other than DePaul Programs

Enrolling in a semester or summer abroad program offered by a school other than DePaul is strongly discouraged. A student must have a minimum GPA of 3.00 to attend a summer study abroad program sponsored by another law school.

If a student wishes to attend a program sponsored by another law school, the Associate Dean for Academic Affairs must approve the request. No credit will be granted without the prior approval of the Associate Dean for Academic Affairs. To request approval, the student must submit a cover letter to the Associate Dean requesting permission to study abroad, together with copies of the course descriptions of the courses the student proposes to take and the number of credits each course is worth. The cover letter must explain why the student’s goals cannot be attained by studying in one of the DePaul-sponsored programs. Differences in curricula or locales between the programs offered by DePaul and those of other schools will not, without more, justify participation in another school’s program.

If the Associate Dean for Academic Affairs approves the request, the student must request a letter of good standing from the Associate Dean for Student Affairs through the College of Law website. The student will pay a nonrefundable fee for each letter of good standing.

If a student’s application for summer study abroad at another institution is approved, the Financial Aid Office may be contacted to arrange a consortium agreement between DePaul and the other law school. Once a consortium agreement is entered into, loan funds granted by DePaul may be used to pay tuition charges for the summer abroad program.

After a student completes the program, they must order an official transcript from the other U.S. law school (not the foreign school) and have it sent directly to the Associate Dean for Student Affairs. The Associate Dean will forward the transcript to the Transfer Articulation Center, which will post the credits to the student’s transcript. The transcript will not list grades. Instead, all courses will be listed as "T" or transfer.
A maximum of seven credits may be earned during a summer program sponsored by another law school. Credits will only be awarded if the program is approved by the American Bar Association. Grades earned in another law school's summer abroad program do not count toward a student's DePaul GPA and do not satisfy Certificate requirements.

Transcripts

The Office of the University Registrar processes official transcript requests for DePaul University. Official transcripts can be requested online through Campus Connect.

The Family Educational Rights and Privacy Act of 1974 prohibits release of confidential transcript information without the student's authorization.

Transcripts will be issued only after the student has fulfilled all financial obligations to the University.

Tuition Policy

All tuition and fees are due to DePaul University by the published tuition due date for that term. All charges must be paid in-full by the payment date.

Tuition charges for any course registrations made after the due date must be paid in full within 24 hours of registration.

Tuition bills may be accessed online through Campus Connect. The student will be required to sign up for E-Bill to access their bills or to grant access to a guest user.

Students whose accounts show a balance due after the tuition due date will be subject to a late fee and prohibited from future registration, receiving transcripts and other university services.

Withdrawal Tuition

Students must withdraw from classes through the registration function in Campus Connect. Withdrawals processed via the web or through direct contact with the home school/college office are effective the day on which they are made. Simply ceasing to attend, or notifying the instructor, or nonpayment of tuition, does not constitute an authorized withdrawal from class and will result in academic as well as financial penalty.

When the withdrawal occurs, the tuition charge for courses during a 10-week quarter will be reduced according to the following schedule, in accord with the tuition package:

<table>
<thead>
<tr>
<th>Withdrawal</th>
<th>Refund</th>
</tr>
</thead>
<tbody>
<tr>
<td>Up to 20% or 2 weeks of a ten week term</td>
<td>100% refund</td>
</tr>
<tr>
<td>After 20% of the term</td>
<td>0% refund</td>
</tr>
</tbody>
</table>

Notes

• Students receiving financial aid are advised to contact a Financial Aid Counselor to discuss the consequences of a withdrawal impacting academic progress and aid eligibility at DePaul University or any other school to which they may transfer. Students in university housing are advised to contact Housing to discuss the consequences of withdrawal impacting eligibility to maintain residence.

Withdrawal/Drop Policy

The following policies pertain to the withdrawal from individual courses, the withdrawal of all courses for a given term, and withdrawal from the University.

There are two categories of Withdrawals:

• Student Initiated (p. 1596)
• College/University Initiated (p. 1597)

Student Initiated

Students who must withdraw either from a course or from the University may do so by using Campus Connect, the University's web registration system. Students unable to use the web registration system should contact their home school/college office, whether in person, phone or email (emails must be sent from the student's preferred email listed in Campus Connect). Students who are physically unable to contact the university may designate someone to act on their behalf.

Withdrawals processed through Campus Connect are effective the day on which they are made. Withdrawals processed through the student's home school/college office are effective:

• in person: the date the student had the transaction processed in the office
• for email: the date the email was sent
• for mail: the date the letter was received

Simply ceasing to attend, or notifying the instructor, or nonpayment of tuition, does not constitute an official withdrawal from the course and will result in academic as well as financial penalty.

A. Withdrawal from One or More Courses

Students who wish to withdraw from one or more courses within a term, must do so by the stated deadline dates for that term. Students who missed the deadline due to extenuating circumstances should consult section C.

Students who withdraw from all courses for a term, and who plan to return the next term, are eligible to register for the next term.

Students who plan to permanently withdraw from the University should consult Section B.

B. Withdrawal from the University

Students who decide to permanently withdraw from the University must do so using the DePaul University Leave/Withdrawal Request application in Campus Connect. Students are strongly encouraged to consult with their advisor before doing so.

1. Students enrolled for current and/or future terms are required to withdraw from all courses before requesting permanent withdrawal in the DePaul University Permanent Withdrawal/Military Leave Request application in Campus Connect.
2. Students who are not currently enrolled and wish to permanently withdraw from the university should complete the DePaul University Leave/Withdrawal Request application in Campus Connect.
3. Students who wish to return to the University after a permanent withdrawal must complete an application for readmission.
C. Late Withdrawals

In rare circumstances, students who missed the deadline to withdraw from a course (or courses), may request a late withdrawal from either the Dean of Students office or the student’s home college office.

1. Decision-making for late withdrawals resides primarily in the Dean of Students Office for personal/medical issues; and in the School/College Offices for all other issues. These principles underlie the decision-making processes:
   - All policies are driven by academic concerns:
     a. Decisions are guided by the best interests of the students.
     b. Decisions will be made in compliance with federal regulations.
   2. Restrictions on requesting approval for late withdrawal:
      Requests for late withdrawals from one or more courses in a given quarter must be submitted to either the Dean of Students Office (for medical/personal withdrawals), or the student’s home School/College Office (for administrative withdrawals) by the following deadlines.

For Undergraduate/Graduate:

- Autumn Quarter: Last day of the last final exam of the subsequent winter quarter.
- Winter Quarter: Last day of the last final exam of the subsequent spring quarter.
- Spring Quarter: The end of the second week of the subsequent autumn quarter.
- Summer Terms: Last day of the last final exam of the subsequent autumn quarter.

For the College of Law:

- Fall Semester: Last day of the final exam period for the fall semester.
- Spring Semester: Last day of the final exam period for the spring semester.
- Summer Semester: Last day of the final exam period for the summer semester.

College of Law students filing a late withdrawal appeal in the Fall or Spring semester of the first year of law school must request withdrawal from all courses.

During their college career, students may be allowed one medical/personal approved administrative withdrawal and one college office administrative withdrawal, each for one or more courses in a single term.

For College of Law Students, the deadline for filing an appeal for a late withdrawal is the final day of the exam period for the term in question. College of Law students filing a late withdrawal appeal in the Autumn or Spring semester of the first year of law school must request withdrawal from all classes.

Zero-Credit Hour Courses, Graduate and Law

Graduate Students Completing Thesis or Dissertation

Many of DePaul’s masters and doctoral degree programs require a thesis or dissertation to earn the degree. The thesis or dissertation is often completed after all required credit hours and coursework is satisfied. Programs may offer a variety of 0-credit hour courses to accurately represent the student’s status while the student completes the thesis or dissertation. Each of these courses will have a unique course catalog number differentiating it from the others. These course offerings include:

1) Zero-credit hour course that supports a student’s full-time work on the thesis or dissertation

This course is reserved for students whose work on the thesis or dissertation is considered equivalent to that of a full-time course load. Students enrolled in this course:

- are reported as enrolled full-time for federal reporting and fellowships
- are eligible to defer loans
- are eligible to apply for federal loans and borrow living expenses
- may be limited by their program as to the number of times they are eligible to enroll for the course
- will receive a Pass or Fail grade determined by the thesis/dissertation director which supports the students work during the term
2) Zero-credit hour course that supports a student's half-time work on the thesis or dissertation

   This course is reserved for students whose work on the thesis or dissertation is considered equivalent to that of a half-time course load. Students enrolled in this course:
   • are reported as enrolled half-time for federal reporting and fellowships
   • are eligible to defer loans
   • are eligible to apply for federal loan and borrow living expenses
   • may be limited by their program as to the number of times they are eligible to enroll for the course
   • will receive a Pass or Fail grade determined by the thesis/dissertation director which supports the students work during the term

3) Zero-credit hour course that supports a student's less than half-time work on the thesis or dissertation

   This course is reserved for students whose work on the thesis or dissertation is considered equivalent to that of a less than half-time course load. Students enrolled in this course:
   • are reported as enrolled less than half-time for federal reporting and fellowships
   • may be limited by their program as to the number of times they are eligible to enroll for the course
   • will receive a Pass or Fail grade determined by the thesis/dissertation director which supports the students work during the term

Please Note:

1. Some graduate programs may require a final culminating project, practicum or exercise as part of the degree. The above enrollment guidance may be followed for these courses if they are offered for 0-credit hours and should carry an enrollment status equivalency.
2. Students in zero-credit hour courses are subject to the time limit for degree completion as determined by their program.

Other 0-Credit Hour Courses

There are other 0-credit hour courses offered by graduate or doctoral programs that do not fall into the above categories. These courses will keep the student in an active status. Each of these courses will have a unique course catalog number differentiating it from the others.

Examples of these courses may include:
   • courses for students completing work in other courses where an IN or R grade was awarded who need access to university resources
   • courses that are non-credit bearing degree program requirements (such as presentation skills, field experiences, etc.)

Please Note for Other 0-Credit Hour Courses:

1. Depending on the type of course, the program will determine if a grade is required.
2. Students in zero-credit hour courses are subject to the time limit for degree completion as determined by their program.

University Resources

This section provides information on an array of university resources, all designed to help you make the most of your experience at DePaul.

We encourage you to read through this whole section when you arrive at DePaul, and then refer back to individual pages for information on specific resources as you need them.

Adult, Veteran and Commuter Student Affairs

Through collaborations with university and external partners, the Office of Adult, Veteran and Commuter Student Affairs assists students in their transition to college, provides support, resources and programs that help students persist and succeed academically, and works to promote an environment that is inclusive of the non-traditional student experience in which adult, veteran and commuter students can thrive as engaged members of the DePaul community.

You can find more information here: Adult (https://offices.depaul.edu/student-affairs/support-services/for-specific-populations/Pages/adult-services.aspx), Veteran (https://offices.depaul.edu/student-affairs/support-services/for-specific-populations/veteran-services/Pages/default.aspx), and Commuter (https://offices.depaul.edu/student-affairs/support-services/for-specific-populations/Pages/commuter-services.aspx).

As a result of participating in Adult, Veteran, and Commuter Student Affairs programs, students will be able to:
   • Demonstrate life, academic, and career skills.
   • Actively manage their transition to DePaul student life.
   • Demonstrate self-advocacy and utilize appropriate resources when needs arise.
   • Overcome engagement barriers associated with their non-traditional student status to participate in and contribute to the DePaul Community.

Career Center

At the DePaul University Career Center, we believe the path to your successful future starts with you. By helping you understand and shape your passions, interests and skills, we connect you with majors, internships, jobs and opportunities so that you can take on Chicago—and the world—with vigor, knowledge and preparation. No matter where you are in your career search, whether it’s deciding on a major or career path, making a career change, or preparing for your first job interview, we can help.

   • Explore career options whether you are just starting your job search or are looking for a change.
   • Get career and graduate school advice and resources from specialists in your field. Our career advisors are available to meet one-on-one with you to discuss your needs.
   • Gain experience and earn academic credit with an internship through the University Internship Program.
   • Find a job with one of the thousands of employers who recruit DePaul grads.
   • Connect with DePaul alumni for career-related networking and mentoring.

The Career Center is located at DePaul’s Lincoln Park Campus in SAC 192 and at the Loop Campus in DePaul Center 9500. Students may contact the office at (312) 362-8437 for appointments, or visit the Career Center web page.
Center website. (https://resources.depaul.edu/career-center/pages/default.aspx)

Law Career Services
The Office of Law Career Services (https://law.depaul.edu/career-services/Pages/default.aspx) is located on the third floor of the Lewis Building, in the College of Law Student Services Suite. The counselors in the Law Career Services Office advise students and alumni on all aspects of the job search process and assist them in defining and achieving their career goals. Students are assigned to an individual advisor to ensure that students have a constant resource available to them.

Center for Students with Disabilities
The Center for Students with Disabilities (CSD) coordinates DePaul University’s provision of accommodations and other services to students with disabilities pursuant to the Americans with Disabilities Act and Section 504 of the Rehabilitation Act. CSD regularly works with students diagnosed with a range of disabilities such as learning disabilities, AD/HD, medical conditions, chronic illness, mental health disorders, and physical/visual disabilities, amongst others. Student success is at the core of the CSD’s mission and fits integrally with DePaul University as a diverse learning community.

Students are encouraged to enroll with CSD to receive accommodations and additional support services. CSD students are enrolled in all Colleges and Schools at DePaul, and may be full-time, part-time, undergraduate, or graduate level students. Some accommodations and services may include extended time on exams, assistance with note-taking, adaptive equipment, real-time captioning, classroom accommodations, advocacy, and assistive technologies amongst other support services.

CSD enrollment procedures require appropriate documentation of a student’s disability and other identified information, as well as a personal meeting with CSD staff.

CSD is also a resource for faculty and staff who may have questions about accommodating, or otherwise working with, students with disabilities.

CSD has two full-service office locations:
- Lincoln Park Campus, Student Center 370, 773/325-1677
- Loop Campus, Lewis Center 1420, 312/362-8002

For more information, please view the Center for Students with Disabilities website http://offices.depaul.edu/student-affairs/about/departments/Pages/csd.aspx or contact staff at csd@depaul.edu.

As a result of participating in Center for Students with Disabilities programs and services, students will be able to:
- Develop competencies in effective communication, critical thinking, technological prowess, and wellness skills to foster academic and personal success at DePaul and afterwards.
- Develop self-awareness and understanding of personal strengths and challenges to become effective self-advocates and assume their individual responsibilities in actively pursuing their roles in the academic community.
- Accept aspects of disability culture and diversity.
- Effectively manage personal and learning challenges to successfully interact in academic, professional, and social environments and as future contributing members of society.

- Demonstrate connections of acquired knowledge to other knowledge, ideas and experiences and relate knowledge to daily life.

Croak Student Legal Services
For years, Croak Student Legal Services (CSLS) provided free and confidential legal advice to DePaul students. CSLS is no longer a stand-alone legal services office, but now offers legal guidance through workshops offered by the Croak Community Legal Clinic. The clinic is named after Rev. Thomas M. Croak, C.M., a Vincentian priest and lawyer who started the Croak Student Legal Services to provide legal resources to DePaul students. The Croak Community Legal Clinic is an outgrowth of that program and a continuation of Rev. Croak’s dedication to knowledge, education and public service. These workshops are designed to help you understand your legal rights and obligations and help you find useful resources. To learn more about the workshops, please visit http://sls.depaul.edu (http://sls.depaul.edu/).

Dean of Students Office
The Dean of Students Office is an invaluable resource, advocate and support for providing and identifying resources and services for students. The office helps individuals in navigating the university, particularly during difficult situations, as in personal, medical, mental health, and/or family crises. The Dean of Students Office is also responsible for overseeing the Code of Student Responsibility and managing the Student Conduct Process.

Additional information is available from the Dean of Students Office (https://offices.depaul.edu/student-affairs/about/departments/Pages/dos.aspx).

College of Law Office of Student Affairs
The College of Law Office of Student Affairs is located in the Student Services Suite on the third floor of the Lewis Building. The Office of Student Affairs and the Associate Dean for Student Affairs provide invaluable services to law students including academic and personal advising and assistance with registration, examinations, and letters of good standing, among other matters.

Additional information regarding the College of Law Office of Student Affairs is available here (https://law.depaul.edu/student-resources/student-affairs-registrar/Pages/default.aspx).

Department of Housing, Dining & Student Centers
The Department of Housing, Dining & Student Centers, through its quality facilities and dedicated staff, promotes safe and inclusive on-campus communities that support and empower student academic success and personal development.

For more information about options on the Lincoln Park and Loop campuses and how to apply for room and board, visit http://offices.depaul.edu/housing (http://offices.depaul.edu/housing/).

DePaul Central
DePaul Central is your one-stop resource for helping students manage the business side of being a student. Services include: Account Transactions, Financial Aid Inquiries, Ordering Transcripts, Payment Plan
Inquiries, Personal Financial Planning and Submitting Immunization Records.

DePaul Central ensures student issues are resolved in a timely manner and with the right level of attention and care they deserve so students can focus on what really matters: their academics.

- Visit with DePaul Central staff:
  - Lincoln Park: Schmitt Academic Center 101, 2320 N. Kenmore Avenue
  - Loop: DePaul Center Suite 9100, 1 E. Jackson Boulevard
- You also can get answers to many questions online or over the phone.
  - Email: dpcl@depaul.edu
  - Phone: (312) 362-8610
  - Web/Live Chat: depaulcentral.depaul.edu (http://depaulcentral.depaul.edu)
  - Facebook: /depaulcentral (https://www.facebook.com/DePaulCentral/)
  - Twitter: @depaulcentral (https://twitter.com/DePaulCentral/)
  - FATV: depaul.financialaidtv.com (https://depaul.financialaidtv.com/)

Financial Fitness at DePaul Central

Financial Fitness provides free services, resources and tools to help students manage costs from freshman year through graduation and beyond. Services include:

- Confidential one-on-one financial counseling appointments.
- Comprehensive resources and tools available online.
- Workshops available by request.

Additional information is available from the DePaul Central office. Financial Fitness is located within DePaul Central’s Lincoln Park Campus in SAC 101. Students can view resources or sign up for an advising session by visiting the website http://financialfitness.depaul.edu (http://resources.depaul.edu/financial-fitness/Pages/default.aspx) or calling (773) 325-8640.

Health Promotion and Wellness

Health Services

Health Services are offered through AMITA SAGE medical group. It is available to all enrolled students for a fee. If you live in a residence hall, with the exception of the University Center, you are automatically enrolled in DePaul Student Health Services. Student Health Service is NOT health insurance; you may need additional coverage. Additional information is available from the Office of Health Promotion and Wellness http://go.depaul.edu/healthservices (http://go.depaul.edu/healthservices/).
Health Promotion and Wellness

Health Promotion & Wellness (HPW) provides holistic education, support and resources for individuals to create and sustain long-term, healthy behaviors.

Alcohol and Substance Misuse Prevention

Alcohol and Substance Misuse Prevention at DePaul University stems from a harm-reduction approach, which encourages healthy choices and responsible decision-making regarding the use of alcohol, tobacco and other drugs. Students are also asked to consider their own safety and the safety of the community in relation to alcohol and substance use. HPW recognizes that students may be choosing to live substance-free, practicing harm reduction, or in recovery. The office offers various programs and presentations throughout the year, while also providing support to those in recovery or experiencing any issues related to substance misuse. Students can engage in individual support, group workshops, and/or the Collegiate Recovery Community.

Sexual and Relationship Violence Prevention

Sexual and Relationship Violence (SRV) Prevention at DePaul University is guided by a trauma-informed framework to address the impacts of trauma on campus community members. This practice is a strength-based framework grounded in an understanding of and responsiveness to the impact of trauma, that emphasizes physical, psychological, and emotional safety for everyone, and that creates opportunities for survivors to rebuild a sense of control and empowerment. SRV prevention at DePaul University includes providing opportunities for the community to engage in bystander intervention training, educational opportunities to learn more about trauma-informed framework, healthy relationship education and Survivor Support Advocacy.

Mental Well-being Prevention

Mental Well-being prevention at DePaul University is guided by a holistic approach to mental health and wellness. This includes recognizing that our health and wellness is more than just the absence of disease and more than just physical and mental health. It means that all of our facets of wellness (social, emotional, intellectual, environmental, financial, physical and spiritual) are equally important. When we neglect one facet, we can see the imbalance and its effect on all of our other facets of wellness. HPW offers workshops, educational opportunities, resources and individual wellness coaching to help students prioritize themselves and care for themselves in a holistic and comprehensive method.

Office of Health Promotion and Wellness
Lincoln Park Student Center, Suite 302
2250 N. Sheffield Ave.
773-325-7129
hpw@depaul.edu

Co-Curricular Learning Outcomes
As a result of participating in Health Promotion and Wellness programs, students will be able to:

• Develop decision-making skills related to their personal health and community well-being.
• Utilize on and off-campus resources related to their well-being and the well-being of others.

Health Services

Health Services are offered through AMITA SAGE Medical Group. It is available to all enrolled students for a fee. If you live in a residence hall, with the exception of the University Center, you are automatically enrolled in DePaul Student Health Services.

Student Health Service is NOT health insurance; you may need additional coverage.

Additional information is available from the Office of Health Promotion and Wellness http://go.depaul.edu/healthservices (http://go.depaul.edu/healthservices/).

Language Learning Center

Free tutoring service is available through the Department of Modern Languages (MOL).

• Each tutor holds one-on-one meetings via Zoom.
• Tutors are generally available 8am-8pm, Monday through Friday each quarter, with some weekend availability as well.
• Our tutors provide the following language-related assistance:
  • Helping improve students’ pronunciation;
  • Explaining grammar structures;
  • Practicing conversational skills;
  • Assisting with reading assignments;
  • Helping with writing assignments;
  • Offering other language-related support in all academic subjects.

To make a tutoring appointment, please find us on the Language Learning Center (https://las.depaul.edu/academics/modern-languages/student-resources/Pages/language-labs-and-tutors.aspx) webpage, where you can make an appointment via the Live Chat feature or by leaving a message.

Libraries

Vincent G. Rinn Law Library

The DePaul University College of Law Library occupies the 4th through 6th floors of the Lewis Center, located at 25 E. Jackson Blvd. The law library entrance is on the 5th floor. As a participant in the Federal Depository Library Program, DePaul’s Rinn Law Library is open to the public.

For additional information on the Rinn Law Library, visit https://law.depaul.edu/library/Pages/default.aspx.

Office of Multicultural Student Success

ABOUT OMSS

The Office of Multicultural Student Success (OMSS) seeks to cultivate belongingness, retention and persistence to graduation for students of color, students who demonstrate financial need, first-generation
college students, undocumented immigrant students, and students with marginalized genders and sexualities.

Our programs and services support students in and outside the classroom and help build inclusive communities, promote the cultivation of connections, and remove barriers to academic and personal success.

**PROGRAM AREAS**

First Generation Students
OMSS works with first generation college students by developing sustained developmental programs to support these students’ college success. Beyond managing retention, persistence and empowerment programs, OMSS also serves as an advocacy office for marginalized college students during their time at DePaul.

Scholarships, Leadership, and Service
OMSS provides scholarships to facilitate the retention, persistence to graduation of first generation students and students of color who demonstrate financial need and a commitment to service and academic excellence. Announcements are posted and applications can be submitted through the DePaul Scholarship Connect Website.

College Transitions
College transitions programming in the OMSS assists new students in their transitional year at DePaul. Through initiatives such as STARS Peer Mentoring program, the college transition team seeks to improve the sense of belonging and ease transition for our students.

Identity Centered Engagement
OMSS provides culturally relevant co-curricular opportunities to participate, connect, and learn within DePaul community centering the experiences of marginalized communities. These experiences work to contribute to student’s personal and academic success as well as to their satisfaction with their DePaul experience. This area includes are identity specific student supports detailed below.

Post College Success Programming
With a focus on career and leadership development, the OMSS post college success programming prepares students with upper-class standing for a successful transition to life after graduation. By using identity-conscious approaches in curriculum based programs, we engage students in developing a post-college plan by identifying goals and strategies for career discernment or graduate school matriculation.

**CULTURAL AND RESOURCE CENTERS + STUDENT SUPPORT**

The OMSS Cultural & Resource Centers, located on the 3rd floor in O’Connell Hall offer identity-centered, programs, initiatives and services that promote student engagement, support and academic success through the development, implementation and assessment of powerful, collaborative programs and services that support student transitions, contribute to academic success and create connections with university wide resources.

- LGBTQIA+ Resource Center
- Black Cultural Center
- Latinx Cultural Center
- Asian, Pacific Islander, Desi- American Cultural Center

OMSS also serves as an institutional liaison for undocumented students providing holistic services to undocumented immigrant students. This includes identity-centered advocacy, career navigation, financial and legal resources, group conversations and ally resources.

Office of Multicultural Student Success
DePaul University
Lincoln Park Student Center
2250 North Sheffield Avenue, Suite 105
Chicago, IL 60618
773-325-7325

As a result of participating in Multicultural Student Success programs, students will be able to:

- Demonstrate effective decision-making related to personal financial management.
- Demonstrate healthy decision-making related to effective self-care.
- Identify and use relevant campus resources in order to navigate their academic experience.
- Apply the concepts of Socially Responsible Leadership in order to challenge oppressive systems and behaviors and work to create change.
- Construct a career plan towards post-college career success.

Science and Math Tutoring Services
Currently enrolled DePaul students have access to free tutoring services offered by departments in the College of Science and Health. Tutoring is regularly available in the areas of chemistry, mathematical sciences, nursing, physics, and psychology (statistics only). All tutors are either graduate students or upper-level undergraduate students in their respective fields of study.

A schedule of tutoring services (https://csh.depaul.edu/student-resources/Pages/tutoring-services.aspx) is available online and is subject to change every term – check the schedule regularly for updates. No appointments are necessary to receive tutoring.

Student Affairs
Student Affairs delivers programs and services that encourage student academic success by providing opportunities for meaningful engagement and by providing student support that removes or reduces barriers to the successful completion of their degree. We deliver support services, such as counseling, advising and disability accommodations, in addition to programs that encourage students to explore their personal identities, faiths, values and roles in a complex world.

College of Law Student Affairs
The College of Law Office of Student Affairs is located in the Student Services Suite on the third floor of the Lewis Center. Additional information regarding the College of Law Office of Student Affairs is available at https://law.depaul.edu/student-resources/student-affairs-registrar/Pages/default.aspx.
Student Involvement

The Office of Student Involvement fosters student learning and success by providing opportunities for engagement through a wide variety of campus activities and organizations, holistic and intentional advising of student leaders, and the development of purposeful and mutually beneficial partnerships across the University and City of Chicago to maximize access to resources for a rich DePaul campus experience.

Additional information is available from the Office of Student Involvement go.depaul.edu/involvement (http://go.depaul.edu/involvement/)

As a result of participating in Student Involvement programs, students will be able to:

- Identify interpersonal strategies that support effective teams
- Demonstrate effective problem solving in the context of their organization or personal lives.
- Describe the skills to work in a team.

Technology Resources

The following list introduces some of the technology resources that are available to students at DePaul. Additional information is available on the Information Services website (is.depaul.edu (http://is.depaul.edu)).

Campus Connect

Campus Connect provides access to many of DePaul’s primary services, including course registration, grades, tuition billing, transcripts, Demon Express and much more.

Computer Labs and Classrooms

There are many technology-equipped classrooms across both campuses. Technology resources range from traditional rooms for in-person participants to Zoom-enabled rooms for both in-person and remote participants. Specialty rooms exist across the university for classes with specific needs, and additional technology is available upon request.

DePaul also has computers available for use by students, faculty or staff, located in computer labs, lounges and lobbies across the campuses. Additional technology access is available to residence hall students; each residence hall is outfitted with study lounges allowing for student access to computers and printers at any time.

CTA U-Pass

The Ventra U-Pass provides unlimited rides for eligible DePaul students on CTA buses and trains during the Autumn, Winter, Spring and Summer Quarters. Students must meet enrollment requirements to participate in the U-Pass program. All students meeting these requirements are automatically enrolled in the program. The U-Pass is not optional for any eligible student. Eligibility is based on 3 criteria, one of which is course enrollment. If your enrollment changes before the last day to drop courses, your U-Pass will be adjusted accordingly.

Full details regarding the U-Pass can be found on the DePaul U-Pass website http://upass.depaul.edu/.

DePaul ID Card

Your DePaul ID card serves as your identification to enable access to various DePaul buildings, computer labs, printers, and libraries. The ID card can purchase items using your Demon Express account and meal plan. You must have your ID card while on campus. New students receive their ID card by submitting a photo online or visiting ID services at the Loop or Lincoln Park campuses.

Full details regarding ID cards can be found by visiting go.depaul.edu/idservices (https://offices.depaul.edu/information-services/services/identity/Pages/default.aspx)

Demon Express

Demon Express is a prepaid debit account that is linked to your DePaul ID Card. Demon Express can be used at DePaul cafeterias, coffee shops, campus bookstores, libraries, printers, copiers, and other areas.

Desire2Learn (D2L)

D2L is an electronic course management system that enables interaction between students and faculty. D2L incorporates document sharing, discussion boards, e-mail, an online grade book, assignment drop boxes, chat rooms, small group areas, online quizzes, and more. To log in, use your Campus Connect username and password. If you need assistance using D2L, training is available.

Discounts

Demon Discounts provides discounted goods and services, including computer hardware and software, to DePaul students.

E-Mail

All students are provided a free DePaul e-mail account. Additional information is available on the Information Services website.

Printing

The Intelliprint system allows students to print from DePaul computer labs. Students use their DePaul ID card to pay for prints and are entitled to a set amount of free printing per quarter. Additional funds can be added to Demon Express as needed. You may also print to the Intelliprint system wirelessly.

Residence Hall Technology

Lincoln Park residence hall rooms are equipped with high speed Internet connections, wireless Internet access, and free telephone connections.

Technical Support

The Help Desk is your first point of contact for technical assistance. The Help Desk provides free assistance via phone, e-mail and web for current DePaul students. We support all DePaul wireless networks, telephones, e-mail accounts and software. Please visit the web portal at helpdesk.depaul.edu (http://helpdesk.depaul.edu/), call (312) 362-8765 or email helpdesk@depaul.edu for support.

Direct, walk-up support is also available through the Genius Squad; a free tech support resource available to all current students. The Genius Squad can support desktops, laptops, phones, tablets, and other personal electronic devices. Please see go.depaul.edu(gs (http://go.depaul.edu/gs/) for more information.

Technology Training

Lynda.com - DePaul students, faculty, and staff can log into lynda.com (https://www.lynda.com/) for unlimited free access to a vast online
library of the instructional videos covering the latest software, creative, and business skills.

**Wireless Internet Access**

Wireless internet access ([https://offices.depaul.edu/information-services/services/wireless-services/Pages/default.aspx](https://offices.depaul.edu/information-services/services/wireless-services/Pages/default.aspx)) is available to students on all DePaul campuses.

**University Center for Writing-based Learning**

The University Center for Writing-based Learning ([https://condor.depaul.edu/~writing/](https://condor.depaul.edu/~writing/)) (UCWbL) works with all members of the DePaul University community to support writers and to promote the use of writing in teaching and learning through five major initiatives:

- **The Writing Center**
  The Writing Center provides free-of-charge services to any DePaul University student, alum, or faculty/staff member to help you plan, draft, revise, or polish your writing. Our over 80+ Writing Center tutors are talented, extensively trained, & supportive graduate & undergraduate students from a variety of disciplines. A Writing Center tutor can help you get started writing, revise your writing, & refine your writing.

- **The Writing Fellows Program**
  The Writing Fellows Program links undergraduate peer writing tutors with writing-intensive courses across the curriculum – from physics to journalism, religious studies to computer science. Writing Fellows work with the same set of writers from a particular course for an entire quarter, responding to two of their papers through written comments on drafts and in individual conferences.

- **Workshops**
  Workshops are customized, research-based, interactive events that focus on a variety of writing topics. The Workshops Team collaborates with other members of the DePaul community to facilitate in-class workshops that combine their writing expertise with others’ disciplinary expertise. Popular topics include crafting a thesis, being an effective peer reviewer, citing sources, and designing ePortfolios.

- **The Collaborative for Multilingual Writing and Research (CMWR)**
  The CMWR provides ongoing support for DePaul’s increasingly linguistically diverse community. At the root of our work, the CMWR aims to offer UCWbL tutors opportunities to reflect on and improve upon their work supporting English as additional language writers. We also work in close collaboration with other programs and offices to bring together the many languages and cultures of the DePaul community to share culture, language, experiences, and knowledge.

- **Outreach**
  Outreach promotes, supports, and celebrates the work of writers and tutors at DePaul. This takes the form of collaborating with partner offices on events such as the Peer Tutor and Mentor Summit and Banned Books Week, as well as regularly raising awareness of the UCWbL and its initiatives.

For more information, please visit [www.depaul.edu/writing](http://www.depaul.edu/writing).

**University Counseling**

University Counseling Services (UCS) is committed to providing a range of services intended to help currently enrolled DePaul students remove barriers to academic and personal success by addressing emotional, psychological and interpersonal concerns.

UCS provides group counseling, personal growth-oriented workshops, time-limited individual psychological counseling, psychiatric evaluation and crisis management services. Sometimes a skill-building workshop or small group counseling experience is the most effective intervention given a student’s presenting concerns.

UCS has a diverse, caring, and competent professional staff that works from a variety of theoretical perspectives. Some students find that talking to a counselor once is sufficient to resolve their immediate concern. Our counselors can help you in a variety of ways because they are excellent sounding boards, compassionate listeners, and skillful experts in the problems of living. If further services would be beneficial, these will be discussed and recommendations will be made by the counselor.

UCS offers primarily short-term counseling and provides referrals and linkages to community providers when students could benefit from longer term services.

**Co-Curricular Learning Outcomes**

As a result of participating in University Counseling programs and services, students will be able to:

- Describe healthy coping strategies.
- Describe strategies to take care of themselves and others.
- Identify resources both within DePaul University and within the surrounding community in order to remove barriers to academic or personal success.

**Code of Student Responsibility**

- General Information (p. 1604)
- Code of Student Responsibility Policies (p. 1609)
- Other Policies Applicable to Students (p. 1611)
- Student Conduct Process (p. 1612)
- University-Initiated Temporary Medical Withdrawal Process (p. 1620)
- Student Care Team and Threat Assessment (p. 1623)

**General Information**

In this section of the Code of Student Responsibility, you will find a variety of information that is important for students to read and understand. This section also includes definitions of terms that are used at other places in the Code of Student Responsibility.

**Letter from the Dean of Students**

To the University Community,

The Dean of Students Office is committed to partnership in the educational mission of DePaul University. This mission is enhanced by a Code of Student Responsibility, which includes policies that outline
expectations and standards of behavior for the student community. As a DePaul University student, the policies in the DePaul Code of Student Responsibility are not a list of things you can do wrong; it is a code designed to protect your rights and those of all DePaul students. Any student who feels that another student in the community has violated their rights is encouraged to use this Code and the Dean of Students Office as a resource.

The Dean of Students Office at DePaul University promotes student learning and ethical decision making in an inclusive and student-centered environment. Utilizing a comprehensive approach to student advocacy that is informed by DePaul's Catholic, Vincentian, and urban mission, the office collaborates with students, staff, faculty, parents, and community partners to support students in reaching their academic and personal success.

The Dean of Students Office can be an invaluable advocate and support in identifying resources and services for students. In an institution of such size and complexity it is often difficult to know where to begin when a student is struggling or having difficulty navigating the University setting. This office can be of particular help in areas of personal and/or family crisis, economic distress, or a medical/personal leave of absence. The office serves as principal liaison and resource for students and other divisions and departments within the University community.

Finally, our work with students is guided by the Socially Responsible Leader framework which is grounded in our Catholic, Urban, and Vincentian mission. The development of socially responsible leaders in today's complex, global, and ever-changing world requires a campus community that is committed to holistic learning and the fostering of a campus community based on respect. It is our hope that you will make full use of the opportunities to reach your full potential that are available for you at DePaul University.

Sincerely,
Ellen Herion Fingado
Dean of Students

Definitions

Advisor

An advisor is a member of the DePaul University community who may act as a support person for either the complainant or referred student. All students involved in a Student Conduct Process have the right to bring one advisor to any meeting or hearing related to the Student Conduct Process. An advisor may attend any related meeting but may not directly address the members of the University Board, an administrative hearing officer, or anyone else present at a meeting or hearing.

The Dean of Students retains a pool of faculty and staff that are trained to serve as advisors for students and can be provided at the student's request. Furthermore, if a student selects an advisor who is not part of this trained pool, the Dean of Students Office offers information and consultation on the role of the advisor and training, if needed and requested by the student or their advisor. All advisors must be approved in advance by the moderator, administrative hearing officer, or other University designee.

Because an advisor must be a current member of the DePaul community, students are prohibited from having an attorney or legal representative who is not a current member of the DePaul community be an advisor during the Student Conduct Process. Students may choose to consult or retain independent legal counsel as a result of their participation in the Student Conduct Process, but such legal counsel may not attend any meetings or hearings, and does not have a role in the Student Conduct Process. More information for attorneys can be found at the DePaul University Student Conduct Process Guide for Attorneys (http://offices.depaul.edu/student-affairs/student-life/student-conduct/Documents/SCP%20Attorney%20Resource%20Guide.pdf).

For student conduct cases involving the Sexual & Relationship Violence Prevention and Response (https://offices.depaul.edu/secretary/policies-procedures/policies/Documents/Sexual%20and%20Relationship%20Violence%20Prevention%20and%20Response.pdf) policy or the Formal Title IX Sexual Harassment Policies and Procedures (https://offices.depaul.edu/secretary/policies-procedures/policies/Documents/Formal%20Title%20IX%20Sexual%20Harassment.pdf), advisors have an expanded role, may come from outside the DePaul University community, and may be (but are not required to be) attorneys. For more information on the expanded role of advisors in these limited circumstances, please refer to the information on advisors in those at policies.

Administrative Hearing

An administrative hearing is a hearing process in which a student conduct case is reviewed by an administrative hearing officer. The administrative hearing officer will review all of the information, determine responsibility and sanction if appropriate. The procedures for an administrative hearing are set forth in the “Administrative Hearing Process” section of the Code of Student Responsibility.

Administrative Hearing Officer

An administrative hearing officer is the individual who serves as the hearing officer in an administrative hearing.

Complainant

A complainant is a student who is alleging a potential violation of a policy and participating in the Student Conduct Process in this role. An individual may allege a potential violation of a policy but then choose not to participate in the Student Conduct Process as a complainant. Under some circumstances (for example, where a non-student has alleged a policy violation or when a student chooses not to participate in the Student Conduct Process in the complainant role), the University may serve as the complainant in a Student Conduct Process. In these instances, the individual who has alleged a potential violation of a policy is given the opportunity to provide information through the University representative.

Moderator

A moderator is a designated University staff member (typically a Dean of Students Office staff, or other Student Affairs professional) who is responsible for managing the University Board hearing process. The moderator has no voting role in the outcome of any University Board hearing, but all determinations by a University Board panel as to whether a violation has occurred or related sanctions will be reviewed with the moderator.

Referred Student

A referred student is a student who has been referred to the Dean of Students Office for a potential violation of a policy.
Student
For purposes of the Code of Student Responsibility and the Student Conduct Process, an individual becomes a student at the time they are admitted to the University and remains a student until one or more of the following occurs:
1. they graduate;
2. they have not been in attendance at the University for three consecutive quarters such that they would need to reapply prior to enrolling;
3. they withdraw from the University; or
4. they are dismissed.

The term student includes both degree-seeking and non-degree seeking individuals. The term student includes individuals who are taking courses for credit or not for credit (for example, students in the English Language Academy and Continuing Professional Education). The term student also includes registered student organizations.

The Code of Student Responsibility shall apply to a student’s conduct even if the student withdraws from DePaul while a Student Conduct Process is ongoing.

Student Organization
A student organization is any student organization registered with the Office of Student Involvement for that academic year. The Office of Student Involvement will maintain comprehensive policies and procedures for registering as a student organization and for maintaining that status.

Student organizations and their advisors are expected to abide by all University policies, including the policies in the Code of Student Responsibility.

University Board
The University Board is a pool of DePaul community members who are recruited, selected, and trained by Student Affairs to comprise the panel for a University Board hearing. All members of the University Board will receive annual training regarding student conduct principles and techniques, student development, DePaul policies, the Student Conduct Process, conflict of interest, bias, and various other information, including information as required by applicable legal mandates. Attendance at the annual training is mandatory. The members of the University Board are current students, faculty, and staff consisting of at least:
- Six current students with at least second-year status appointed by the Student Government Association;
- Six faculty members appointed by the Faculty Council; and
- Six staff members appointed by the Staff Council

Panelists are selected on a case by case basis with consideration that the panel be representative of the diversity within the larger campus community. The Dean of Students Office also may act to enlarge the pool of potential University Board membership separate from Faculty or Staff Council or Student Government Association appointments.

University Board Hearing
A University Board hearing is a hearing process by which a student conduct case is brought before a University Board panel to review information to make a determination of responsibility and assess sanctions if appropriate. The University Board hearing process is managed by a moderator. The procedures for a University Board hearing are set forth in the “University Board Hearing Process” section of the Student Conduct Process.

University Board Panel
A University Board panel is chosen by the Dean of Students Office and is comprised of three individuals from the general University Board membership (with representation from each population; one student, one faculty member, and one staff member). The University Board panel is charged with reviewing all of the information, and determining responsibility and sanctions, if appropriate.

Witness
A witness is an individual who has information to present that directly bears upon the circumstances of a conduct case or has supporting statements to add to those of the complainant or referred student during the Student Conduct Process. Generally, a witness must be a current member of the DePaul community (faculty, staff or student) and must be approved in advance by the University.

In general, witnesses must present their information in person. Except as detailed in the Formal Title IX Sexual Harassment Policies and Procedures, it is the responsibility of a complainant or a referred student to make that a witness who is appearing on their behalf can attend an administrative hearing or University Board hearing. In some cases, the University will, in its discretion, approve the use of written statements from witnesses, or remote participation by witnesses.

Jurisdiction
The University may initiate a Student Conduct Process when a student or student organization is alleged to have violated a policy as follows:
1. The alleged policy violation occurred on-campus.
2. The alleged policy violation occurred on or off-campus at a University activity, program, function, or sponsored event.
3. The alleged policy violation occurred off campus (including in online communities) and involves a member of the campus community (student, faculty or staff).
4. The alleged policy violation involved the student or student organization using their status as a member of the DePaul community.
5. The alleged policy violation affects the University or its community members.

Notification of FERPA Rights

Annual Notification for DePaul Students: Your FERPA Rights

We want to take this opportunity to provide you with a summary of your rights under The Family Educational Rights and Privacy Act (FERPA), the federal law that governs release of and access to student education records. Please view Understanding FERPA, a DePaul Central Learning Center video for information and instructions.

Your FERPA rights include:

1. The right to inspect and review your education record within 45 days after the University receives a request for access. If you want to review your record, contact the University office that maintains the record to make appropriate arrangements.
2. The right to request an amendment of your education record if you believe it is inaccurate or misleading. If you feel there is an error in your record, you should submit a statement to the University official responsible for the record, clearly identifying the part of the record you want changed and why you believe it is inaccurate or misleading. That office will notify you of their decision and advise you regarding appropriate steps if you do not agree with the decision.
3. The right to provide written consent before DePaul discloses personally identifiable information contained in your education records, except to the extent that FERPA authorizes disclosure without consent.

Some examples of exceptions include:

- School officials with "legitimate educational interests." A school official has a legitimate educational interest if the official has a professional need to review your education record in order to fulfill his or her official responsibilities. Examples of people who may have access, depending on their official duties, and only within the context of those duties, include: university faculty and staff, agents of the institution, students employed by the institution or who serve an official institutional committees, and representatives of agencies under contract with the University.
- To officials of another school where the student seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student's enrollment or transfer.
- To authorized representatives of the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or state and local educational authorities, such as a state postsecondary authority that is responsible for supervising the university's state-supported education programs. Disclosures under this provision may be made in connection with an audit or evaluation of federal or state-supported education programs, or for the enforcement of or compliance with federal legal requirements that relate to those programs. These entities may make further disclosures of personally identifiable information to outside entities that are designated by them as their authorized representatives to conduct any audit, evaluation, enforcement, or compliance activity on their behalf.
- In connection with financial aid for which the student has applied or which the student has received, if the information is necessary to determine eligibility for the aid, determine the amount of the aid, determine the conditions of the aid, or enforce the terms and conditions of the aid.
- To organizations conducting studies for, or on behalf of, the school, in order to:
  i. develop, validate, or administer predictive tests;
  ii. administer student aid programs; or
  iii. improve instruction.
- To accrediting organizations in order to carry out their accrediting functions.
- To appropriate officials in connection with a health or safety emergency.
- Information the school has designated as "directory information."

Directory information may be released without your written consent and includes the following: name, address, e-mail, telephone number, date of birth, college of enrollment, year in school, major, enrollment status (including current enrollment, dates of attendance, full-time/part-time or withdrawn), degrees, awards and honors received (e.g., Dean's List recognition), participation in officially recognized activities and sports, weight and height of members of athletic teams, photographs (including ID pictures), videos depicting and/or concerning University life, and previous educational institutions attended. Please note that you have the right to withhold the release of directory information except to the extent that FERPA authorizes disclosure without consent (see #3 above).

To withhold the release of your directory information, you must log into the student portal, Campus Connect, and, under Student Privacy settings, indicate your preference. Please note two important details regarding placing a "No Release" on your record:

1. A "No Release" on your record will prevent your name from being included on lists of students released to honor societies, dean's list and graduation announcements to local newspapers, and enrollment and degree verification to anyone, including potential employers.
2. A "No Release" applies to all elements of directory information on your record.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA.

For additional information, please consult the U.S Department of Education website (https://www2.ed.gov/policy/gen/guid/fpco/ferpa/?src=rn).

Questions concerning FERPA should be referred to DePaul Central:

DePaul Central
Lincoln Park: Schmitt Academic Center, 101 Loop. DePaul Center, Suite 9100
Tel: (312) 362-8610 | dpcl@depaul.edu | depaulcentral.depaul.edu (http://depaulcentral.depaul.edu)

Statement of Non-Discrimination

DePaul University strictly prohibits discrimination, including harassment, on the basis of any status or characteristic protected by local, state, or federal law. DePaul’s full policy on discrimination and harassment is the Anti-Discrimination and Anti-Harassment Policy and Procedures (http://policies.depaul.edu/policy/policy.aspx?pid=299).
Title IX Information

Title IX of the Education Amendments of 1972 (commonly known as "Title IX") is a federal law that prohibits discrimination on the basis of sex in federally funded education programs and activities. Sex discrimination includes sexual harassment, and sexual and relationship violence. When the University receives a complaint that may implicate Title IX, it will respond to the complaint in a prompt and equitable manner. Every complaint is based on its own facts and circumstances, which can impact the course of response. DePaul University prohibits retaliation against any person, including complainants, referred students, and witnesses exercising their rights and/or responsibilities in good faith pursuant to Title IX and related University policies.

The Director of Gender Equity serves as DePaul University's Title IX coordinator. The Director of Gender Equity/Title IX coordinator's office is located in Suite 307 of the Lincoln Park Student Center (2250 N. Sheffield Ave). Please call (312-362-8970) or email (titleixcoordinator@depaul.edu) to schedule a meeting.

As appropriate, Title IX Coordinator works with other offices to address Title IX complaints and other Title IX compliance issues. These offices include Student Affairs, Academic Affairs, Human Resources, Athletics, Compliance and Risk Management, Enrollment Management and Marketing, and others as appropriate.

Changes to Policy

Students have the right to have access to information regarding academic policies and other University policies, including the policies in this Code of Student Responsibility. Students are advised to read the Academic Student Handbook (p. 1480) and any associated references, and all other policies, including those available on the University Policies and Procedures website ([http://policies.depaul.edu/policy/browse.aspx](http://policies.depaul.edu/policy/browse.aspx)), carefully.

The University reserves the right to change policies or procedures at any time and according to established procedures, provided such changes are updated as appropriate, including for example on the University Policies and Procedures website, ([http://policies.depaul.edu/policy/browsing.aspx](http://policies.depaul.edu/policy/browsing.aspx)) or in the online Academic Student Handbook or any associated references.

Student Representation

Students have the right to participate in the governance of the University through the Student Government Association. More information about the Student Government Association can be found on the Student Government Association website ([http://sga.depaul.edu/](http://sga.depaul.edu/)).

Students also have the opportunity to participate in various University processes according to the policies and procedures of a particular academic unit or process. This includes for example, participation in the University’s Promotion and Tenure process as detailed in the Faculty Handbook.

Speech and Expression

Inside and outside of the classroom, DePaul values inquiry and expression. DePaul has articulated its commitment to speech and expression in the Guiding Principles on Speech and Expression ([https://policies.depaul.edu/documents/Speech_andExpression.pdf](https://policies.depaul.edu/documents/Speech_andExpression.pdf)).

DePaul encourages students to operate student media, and will provide support and advisors in this endeavor. It should be understood that supporting these efforts in no way implies DePaul approval or endorsement of the views expressed in student media.

DePaul University encourages student organizations to sponsor guest speakers whose presentation will contribute to the role of the University as a forum for intellectual discussion, debate, investigation and/or artistic expression. Through this forum, speakers bring to the University an opportunity for students to hear and discuss opposing viewpoints on a wide range of issues. It should be understood that providing a forum in no way implies DePaul approval or endorsement of the views expressed by the sponsored speaker. A statement indicating that the presence of the speaker on campus does not imply that DePaul has approved or endorsed the views expressed by the speaker must be included in all publications and advertising about any speaker event.

Student Contact Information

Students are expected to ensure that their contact information is current on Campus Connect. All notices in the Student Conduct Process will be delivered personally, via the postal service, or to a student’s current preferred email as noted in Campus Connect.

Emergency Contacts

The University reserves the right to contact a student's parent, legal guardian, spouse, and/or other designated emergency contact in emergency situations and certain situations involving violations of University policies or laws related to alcohol and controlled substances.

Clergy Act Statement

DePaul University complies with its obligations pursuant to the Clergy Act. More information about the Clergy Act, DePaul's policies related to the Clergy Act, and DePaul's Annual Security Report can be found on the Public Safety website ([https://publicsafety.depaul.edu/safety/](https://publicsafety.depaul.edu/safety/)).

Drug Free Schools and Community Act Statement

DePaul University complies with the requirements of the Drug Free Schools and Communities Act. DePaul has policies and procedures to prevent the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees. This includes the Alcohol policy (p. 1609), the Illegal Use or Possession of Drugs or Controlled Substances policy (p. 1610), and the Drug Free Workplace and Legal Drinking Age Compliance policy ([http://policies.depaul.edu/policy/policy.aspx?pid=259](http://policies.depaul.edu/policy/policy.aspx?pid=259)).
DePaul distributes an annual notification to all students and employees that includes standards of conduct, sanctions under law and University policy, a description of the health risks association with alcohol and drug use, and a description of treatment programs. The University reviews its compliance on a biennial basis to determine its effectiveness and to ensure that the standards of conduct and conduct sanctions have been consistently enforced. This review is documented in a report.

Any DePaul student who has a drug or alcohol related problem may call upon the University for assistance. Please contact the Office of Health Promotion and Wellness (http://offices.depaul.edu/student-affairs/about/departments/Pages/hpw.aspx) for more information. The Office of Health Promotion and Wellness can provide a confidential referral to a drug or alcohol treatment program.

Information on the effects of drugs and alcohol is available through the Office of Health Promotion and Wellness (http://offices.depaul.edu/student-affairs/about/departments/Pages/hpw.aspx), University Counseling Services (http://offices.depaul.edu/student-affairs/about/departments/Pages/ucs.aspx), the Ray Meyer Fitness Center (http://resources.depaul.edu/campus-recreation/Pages/default.aspx), and Sage Medical/DePaul Health Services (https://offices.depaul.edu/student-affairs/support-services/health-wellness/Pages/health-services.aspx).

Information Regarding Registered Sex Offenders

Information regarding sex offender registration and regarding registered sex offenders enrolled or employed at DePaul University can be obtained from DePaul Public Safety (https://publicsafety.depaul.edu/registration/).

Code of Student Responsibility Policies

In this section of the Code of Student Responsibility, you will find information about DePaul’s policies that apply only to students.

As an academic and religious institution, DePaul has a vested interest in both the safety and well-being of the members of its campus community. By voluntarily joining the University community, a student agrees to abide by the standards that have been instituted by DePaul University. The Code of Student Responsibility gives formal recognition to the rights and responsibilities of students at DePaul University. Students are responsible for being familiar with all of the policies included in the Code of Student Responsibility.

The University expects that students will take responsibility for confronting behaviors exhibited by their peers that negatively impact their experiences and violate established standards of behavior as articulated in policies. It is imperative that students work in partnership with University faculty and staff members to protect the rights that have been afforded them.

- Alcohol (p. 1609)
- Criminal and Civil Law Violations (p. 1610)
- Damage to Property (p. 1610)
- Demonstrations and Other Similar Events (p. 1610)
- Disorderly, Violent, Intimidating or Dangerous Behavior (p. 1610)
- False Information and Misrepresentation (p. 1610)
- Gambling (p. 1610)
- Guest Responsibility (p. 1610)
- Hazing (p. 1610)
- Illegal Use or Possession of Drugs or Controlled Substances (p. 1610)
- Reasonable Directives from the University (p. 1611)
- Student Conduct Process Compliance (p. 1611)
- Theft and Unauthorized Use (p. 1611)
- Unauthorized Entry or Exit (p. 1611)

Alcohol

The State of Illinois prohibits the sale, use, distribution, manufacture, or possession of all forms of alcoholic beverages by persons under 21 years of age. Students under 21 years of age may not sell, use, distribute, manufacture, or possess alcoholic beverages.

Providing or distributing alcohol to individuals under the age of 21 is prohibited.

Students, even those 21 years of age or older, may not possess or consume alcohol in common or non-reserved areas on University premises.

Alcohol consumption that results in behavior that infringes on the rights of others in the community is prohibited.

Alcohol consumption that creates a risk of harm to self, including requiring a transport to the hospital for intoxication, is prohibited.

For specific policies regarding alcoholic beverages in the residence halls, please see the Guide to Student Housing (https://offices.depaul.edu/housing/resident-resources/guides-policies/Pages/default.aspx).

For specific policies regarding events sponsored by student organizations at which alcohol is served, please see the Student Organization Handbook (http://offices.depaul.edu/student-affairs/student-life/student-organizations/Pages/default.aspx).

Alcoholic beverages may not be served at events sponsored by student organizations without authorization from the Office of Student Involvement. Unless specific risk management mechanisms are in place, authorization will generally not be given to any student organization that is hosting an event at which students under 21 will, or could be, present. Notification of such authorization will be sent to the student organization itself, the organization’s moderator/advisor, the building director, and the Public Safety Office.

DePaul community members owe it to themselves and others to make educated decisions about their use of alcohol.

The University also seeks to educate students about making safe, responsible decisions when it comes to alcohol use. Detailed information about DePaul’s efforts and programming related to alcohol use can be obtained from the Office of Health Promotion and Wellness (http://offices.depaul.edu/student-affairs/about/departments/Pages/hpw.aspx).

Students who have concerns about their alcohol use (or someone else’s) may confidentially contact the Office of Health Promotion and Wellness at any time.
Criminal and Civil Law Violations

Students must abide by all local, state, and federal laws. Any student who violates a local, state, or federal law is in violation of DePaul University policy.

Damage to Property

A student may not take action that damages or that could reasonably be expected to damage property, including University property, that is not the student’s own property without the consent of the owner of the property or other person legally responsible for the property.

Demonstrations and Other Similar Events

DePaul recognizes that students may organize or participate in demonstrations and other similar events in order to make their voices heard and effectuate change.

The University has an obligation to ensure the safety of individuals, the protection of property, and the continuance of University business. As such, the University will have the final determination as to the time, place, and manner of all demonstrations and other similar events on-campus.

All demonstrations and other similar events on or adjacent to campus must be orderly and peaceful. Demonstrations or other similar events on or adjacent to campus may not impede passage, may not create excessive noise, or may not interfere with the business operations of the University.

Disorderly, Violent, Intimidating or Dangerous Behavior

Students may not engage in behavior that threatens or harms, or that may reasonably be expected to threaten or harm, other people. Students may not engage in behavior that is dangerous, destructive, or disorderly.

Conduct that may violate this policy includes, but is not limited to:

1. Physically harming another person, either intentionally or by taking actions that create a substantial risk of physical harm to another person.
2. Threatening to physically harm another person.
3. Causing significant emotional harm through bullying or other means.
4. Disrupting the peace.
5. Impeding the business operations of the University.
6. Obstructing emergency routes.
7. Failing to abide by emergency regulations and evacuation procedures.
8. Urinating or defecating in public view or public place.

False Information and Misrepresentation

Students may not knowingly provide false information to the University or assist with providing false information to the University. This includes taking any action based on known incorrect information. This also includes making a false report of an emergency regarding the University.

Students may not falsely, misuse, or knowingly misrepresent any University record or document.

Students may not engage in forgery, alteration, or misuse of University documents, records, or identification or other materials submitted to the University.

Students may not misrepresent that they have authority to bind the University in any way, including by entering into contracts on behalf of the University.

Students may not intentionally misrepresent the position of the University.

Students may not use, possess, alter, manufacture or distribute an identification card or any similar document or information that is false or fraudulent in that it misrepresents an individual's identity or personal characteristics. This includes using another individual's identification.

Gambling

Students may not engage in any form of gambling. Gambling includes illegal wagering (including regarding sports), bookmaking, or unauthorized games or contests of chance. Students may not provide information to others to assist in any gambling activities.

Guest Responsibility

Students are responsible for the behavior of their guests. A host assumes full responsibility for their guests’ compliance with all University policies and procedures, including policies specific to Residential Education/Housing or the Office of Student Involvement.

Hazing

DePaul prohibits hazing, as defined under applicable laws. Hazing includes, but is not limited to, any action taken or situation created to produce mental or physical discomfort, embarrassment, ridicule, or endangerment of a student or group of students for the purpose of initiation into, affiliation with, or admission to, or as a condition for continued membership in a group, team, club, or other organization.

Falsely leading an individual or individuals to believe that they will be inducted/initiated by participating in particular activities may also be considered hazing. Acceptance of the activity on the part of a new member or individual does not excuse sponsorship of the activity.

Examples of hazing include, but are not limited to: use/abuse of alcohol, paddling in any form, creation of excess fatigue, physical and psychological shocks, and morally degrading or humiliating games and activities. Other activities and requirements that should be planned with care so as to avoid hazing include wearing particular apparel or accessories, scavenger hunts/treasure hunts, and road trips.

Illegal Use or Possession of Drugs or Controlled Substances

Students may not illegally use, sell, possess, manufacture, or distribute any substance prohibited by local, state or federal law. This includes but is not limited to illegal drugs and controlled substances, including cannabis, narcotics, cocaine, heroin, prescription medications, synthetic cannabinoids, or other drugs and any chemical substantially similar to a controlled substance. Please note that federal laws require DePaul to prohibit the use and possession of cannabis on campus, regardless of
state law, therefore cannabis remains an illegal drug under this policy.
Students should be aware that it is unlawful to distribute prescription
medication to other students for whom the medication was not
prescribed.

Use, possession, manufacturing, or distribution of drug paraphernalia is
also prohibited.

This University also seeks to educate students about the use of illegal
drugs and controlled substances. Detailed information about DePaul's
efforts and programming can be obtained from the Office of Health
Promotion and Wellness (http://offices.depaul.edu/student-affairs/
about/departments/Pages/hpw.aspx). Students who have concerns
about their substance use (or someone else's) may confidentially contact
the Office of Health Promotion and Wellness at any time.

Reasonable Directives from the
University

A student may not disregard a reasonable directive, either verbal or
written, from a University official or office acting in their official capacity.

Student Conduct Process Compliance

A student may not take any action to influence or coerce information that
is provided in a Student Conduct Process.

A student may not take any action that disrupts or impairs the Student
Conduct Process.

A student may not retaliate against another student on account of that
student's participation in the Student Conduct Process.

A student may not knowingly provide false information or misrepresent
information in a Student Conduct Process, which includes any
investigation, hearing, or administration of cases of alleged violations of
the Code of Student Responsibility.

A student may not publicly release confidential information regarding, or
learned through, a Student Conduct Process.

A student who fails to complete sanctions imposed through the Student
Conduct Process may be in violation of the Student Conduct Process
Compliance and face additional sanctions.

Theft and Unauthorized Use

Student may not use, possess, or remove from an authorized area
property that does not belong to the student without the consent of the
owner of the property or other person legally responsible for the property.

Conduct that could violate this policy includes, but is not limited to:

1. Theft of property or services
2. Unauthorized alteration, misuse, or tampering with safety and
security equipment
3. Unauthorized use of University resources
4. Knowing possession of stolen property or materials

Unauthorized Entry or Exit

Students may not attempt to obtain unauthorized entry, whether or
not with force, into a building, structure, facility, room, or container (file
cabinet, desk drawer, etc.).

Students may not climb or scale buildings without authorization.

Students may not improperly use designated exits.

Other Policies Applicable to Students

In this section of the Code of Student Responsibility, you will find
information about other policies besides those policies in the Code of
Student Responsibility, that apply to students. This includes policies for
student organizations, policies for students who live in the residence
halls, and policies that apply to the entire DePaul Community.

As described in more detail in this section, potential student violations
of these policies will be addressed either through the Student Conduct
Process (p. 1612) or through the policies and procedures of the specific
area.

Student Organizations

Student organizations are expected to abide by all University policies,
including the policies in the Code of Student Responsibility. In addition,
the Office for Student Involvement may set forth additional policies
applicable to student organizations. In addition, University Ministry may
set forth additional policies applicable to student religious organizations.
In addition, Campus Recreation may set forth policies applicable to club
sports.

Potential student organization violations of University policies and the
policies in the Code of Student Responsibility will be addressed through
the Student Conduct Process. Potential student organization violations
of policies set forth by the Office for Student Involvement, University
Ministry, or Campus Recreation will be addressed through those areas.

Student organizations are expected to comply with all University policies,
including the Code of Student Responsibility and all additional policies
pertaining to groups and organizations. A group or organization may
be held responsible for the actions and behaviors of its members and
guests. The decision to hold a group or organization responsible as a
whole is ultimately determined by examining all the circumstances of a
situation and by taking into account factors including, but not limited to,
whether the actions:

1. Were committed by one or more officers or authorized
representatives acting in the scope of their organizational capacities;
2. Involved, were committed by, or were condoned by (actively or
passively) a significant number of organization members, alumni, or
guests;
3. Occurred at or in connection with an activity or event funded,
sponsored, publicized, advertised, or communicated about by the
organization;
4. Occurred at a location over which the organization had control at the
time of the action;
5. Occurred at or in connection with an activity or event that reasonable
people would associate with the organization;
6. Should have been foreseen by the organization or its officers, but
reasonable precautions against such actions were not taken;
7. Were the result of a policy or practice of the organization;
8. Would be attributable to the organization under the organization’s own policies (including local or national risk management guidelines); or
9. Were taken by individuals who, but for their affiliation with the organization, would not have been involved in the incident.

Or whether:
1. One or more officers or members of an organization fail to report knowledge or information about a violation to, or otherwise fail to cooperate with, appropriate University or emergency officials; or
2. The organization, or any member acting on its behalf, fails to satisfactorily complete the terms of any disciplinary sanction or outcome.

Student organizations, as well as their members and officers, may be held collectively and/or individually responsible for violations of the Code of Student Responsibility or other University policies.

Residential Education and Housing Services

Resident students are expected to abide by all University policies, including the policies in the Code of Student Responsibility. In addition, Residential Education and Housing Services may set forth additional policies applicable to students who live in or visit the residence halls.

Residential Education administers the Student Conduct Process for many potential violations of policies related to resident students. More information about the Student Conduct Process as managed by Residential Education can be found in the Guide to Student Housing (https://offices.depaul.edu/housing/resident-resources/guides-policies/Pages/default.aspx). In some instances, Residential Education may refer a situation to the Dean of Students to manage the Student Conduct Process. All decisions about which area will conduct a Student Conduct Process are at the discretion of the University.

Student Centers

Student Centers may set forth additional policies applicable to students who use the Student Centers (http://offices.depaul.edu/student-centers/Pages/default.aspx). Potential student violations of policies set forth by Student Centers will typically be addressed through that area. In some instances, Student Centers may refer a situation to the Dean of Students to initiate a Student Conduct Process in response to a potential violation of a Student Center policy.

Academic Policies

All of the University’s academic policies can be found in the Student Handbook (p. 1480). In addition, individual colleges, schools, departments or other academic unit may set forth particular academic policies in their Student Handbooks or other student materials. Potential student violations of academic policies will typically be addressed by Academic Affairs. In some instances, Academic Affairs may refer a situation to the Dean of Students to initiate a Student Conduct Process in response to a potential violation of a particular policy.

Other University Policies

Students must abide by all University policies applicable to them as students. Students should make themselves aware of all University policies. The policies listed below are some of the policies that are most relevant to the day-to-day lives of students. This list is not intended to exempt students from all other University policies applicable to students.

- Academic Integrity (p. 1501)
- Drug Free Workplace and Legal Drinking Age Compliance (http://policies.depaul.edu/policy/policy.aspx?pid=259)
- Endorsements (http://policies.depaul.edu/policy/policy.aspx?pid=178)
- Formal Title IX Sexual Harassment Policy and Procedures (https://offices.depaul.edu/secretary/policies-procedures/policies/Documents/Formal%20Title%20IX%20Sexual%20Harassment.pdf)
- Political Campaign Activities (http://policies.depaul.edu/policy/policy.aspx?pid=117)
- Prohibition of Weapons (http://policies.depaul.edu/policy/policy.aspx?pid=308)
- Sales and Solicitation—Residence Halls (https://offices.depaul.edu/housing/resident-resources/guides-policies/Pages/default.aspx)
- Smoking (http://policies.depaul.edu/policy/policy.aspx?pid=220)
- Space Reservations (http://policies.depaul.edu/policy/policy.aspx?pid=74)

Student Conduct Process

In this section of the Code of Student Responsibility, you will find information about the Student Conduct Process. The Student Conduct Process protects students and the University by delineating specific procedures for addressing potential policy violations.

A student may violate a policy by engaging in the conduct detailed in the policy or by assisting others with engaging in the conduct detailed in the policy.

In general, the Vice President for Student Affairs, or his/her designee, maintains exclusive authority for imposing sanctions for behaviors that violate the policies in the Code of Student Responsibility and for student violations of University policies.

There are some exceptions to this general statement. For example, Academic Affairs addresses potential violations of academic policies and maintains a separate process for addressing potential violations of the Academic Integrity (p. 1501) policy.

The Dean of Students Office within Student Affairs is primarily responsible for managing the Student Conduct Process. Residential
Education also manages the Student Conduct Process for certain policy violations by residential students.

**Student Rights Within the Student Conduct Process**

A student participating in the Student Conduct Process is entitled to the following rights as a guarantee of fundamental fairness:

1. The right to a Student Conduct Process that proceeds in a prompt and equitable manner.
2. The right to be given an opportunity for a hearing in accordance with the Student Conduct Process.
3. The right to a written statement of the alleged violations in sufficient detail to prepare.
4. The right to be accompanied by an advisor in accordance with the Student Conduct Process.
5. For the complainant(s) and referred student(s), a written statement of the possible sanctions that may be imposed.
6. For the complainant(s) and referred student(s), the right to submit information and witnesses on one's behalf and, to the extent necessary, to question witnesses' statements, whether verbally or in writing.
7. The right to have the Student Conduct Process explained and to ask for clarification of any policies or procedures.
8. The right to have reasonable access to information specific to one's case.
9. The right to a separate hearing when a single incident gives rise to charges against more than one referred student.
10. The right to speak on one's own behalf (or, in the case of a student organization, for the student organization’s officers to speak on the student organization’s behalf).
11. The right to promptly know the names of the individuals who will be serving as an Administrative Hearing officer, a moderator, on a University Board panel, or as an appellate body and to request a substitution of any such individual for justifiable reason.
12. The right to have proceedings and documentation kept private and confidential. All hearings, proceedings and case information are considered confidential except to those who have a legitimate educational interest in them, or as permitted or required under FERPA, the Clery Act, or any other legal mandate.
13. The right to a written decision, which the University will take reasonable measures to provide within five business days of completion of the last hearing.
14. The right to request an appeal on specific grounds.
15. The right for any student registered with the Center for Students with Disabilities to request accommodations to ensure their full and equal participation in any conduct process and/or proceeding. Accommodation requests are to be made directly to the Dean of Students Office. Accommodations are determined on an individual basis in consultation with the Center for Students with Disabilities.
16. The right to request to bring a language interpreter at the sole expense of the student making the request. The Dean of Students Office must be notified of this request. An interpreter would be an addition to an approved advisor.

*For student conduct cases involving the Sexual & Relationship Violence Prevention and Response (https://offices.depaul.edu/secretary/policies-procedures/policies/Documents/Sexual%20and%20Relationship%20Violence%20Prevention%20and%20Response.pdf) policy or the Formal Title IX Sexual Harassment Policy and Procedures (https://offices.depaul.edu/secretary/policies-procedures/policies/Documents/Formal%20Title%20IX%20Sexual%20Harassment.pdf), please refer to the specific information in those policies on the different procedures in that policy that may apply.

**University Rights Within the Student Conduct Process**

The University reserves the following rights:

1. The right, in accordance with applicable legal mandates, to refer any matter involving a potential violation of criminal or civil law to the proper law enforcement agency.
2. The right to initiate a Student Conduct Process based on reliable information indicating a potential policy violation.
3. The right to sanction a student on an interim basis in accordance with the procedures described in the Student Conduct Process.
4. The right to share the outcomes of the Student Conduct Process as permitted or required under FERPA, the Clery Act, or any other legal mandate.
5. In keeping with its commitment to offer a fundamentally fair process for all students involved in the Student Conduct Process, the right to adapt certain aspects of the Student Conduct Process in specific circumstances, in order to meet the interests of all involved parties, including the University.
6. The right to cease the Student Conduct Process under appropriate circumstances.

**Relationship Between the Student Conduct Process, Law Enforcement, and Legal Proceedings**

The Student Conduct Process is designed to be educational, not legal, in nature. Rules of evidence and discovery do not apply to the Student Conduct Process. Students should not draw parallel interpretations between the Student Conduct Process and legal proceedings.

The University may proceed with a Student Conduct Process independently of any action taken by law enforcement or local, state, or federal courts or government agencies. Similarly, the University may, in its discretion, decide to delay a Student Conduct Process until the conclusion of a court proceeding or other law enforcement or legal process.

The outcome of a legal proceeding is not determinative on the Student Conduct Process.

Students are not required to report incidents to local law enforcement in order for the University to proceed with a Student Conduct Process. The University does, however, reserve the right in accordance with applicable legal mandates, to refer any matter involving a potential violation of criminal or civil law to the proper law enforcement agency.

**Failure to Participate**

If a complaining student chooses not to participate in the Student Conduct Process as a complainant, the University may proceed with the Student Conduct Process with the University serving as the complainant.
The complaining student may choose to participate as a witness or not at all. The hearing officer will render a decision and, if appropriate, impose sanctions, based solely on the information available, without the benefit of any additional information from the complaining student.

If a referred student chooses not to participate or not to fully participate in the Student Conduct Process, the hearing officer, or University Board panel, will render a decision and, if appropriate, impose sanctions, based solely on the information available, without the benefit of any additional information from the referred student. However, the University reserves the right, in its sole discretion, to delay a Student Conduct Process.

All students participating in the Student Conduct Process will be provided specific deadlines at various stages of the Student Conduct Process. Failure to respond in a timely manner according to deadlines provided may result in a student’s inability to participate in the Student Conduct Process. The University reserves the right to continue with the Student Conduct Process at its discretion.

A student is never required to participate in a Student Conduct Process as a witness. However, all students are encouraged to comply with the Student Conduct Process. Witnesses who provide false or misleading information may have the matter referred to the Dean of Students Office for consideration of a policy violation and subsequent Student Conduct Process.

*For student conduct cases involving the Sexual & Relationship Violence Prevention and Response (https://offices.depaul.edu/secretary/policies-procedures/policies/Documents/Sexual%20and%20Relationship%20Violence%20Prevention%20and%20Response.pdf) policy or the Formal Title IX Sexual Harassment Policy and Procedures (https://offices.depaul.edu/secretary/policies-procedures/policies/Documents/Formal%20Title%20IX%20Sexual%20Harassment.pdf), please refer to the specific information in those policies on the different procedures that may apply.

**Blue Demon Duty**

At DePaul University, the health, safety, and welfare of our students and community are paramount concerns. DePaul hopes that students will alert appropriate officials in the event of any health or safety emergency, specifically including those involving the abuse of alcohol or other drugs, even if violations of University policies may have occurred in connection with such an emergency. DePaul expects that students will, to the degree safe and appropriate, be active bystanders in situations where a fellow community member may need help.

Because the University understands that fear of possible disciplinary actions may deter requests for emergency assistance, the University has adopted the following protocol to alleviate such concerns and promote responsible action on the part of students.

In a situation involving imminent threat or danger to the health or safety of any individual(s), students are urged to:

1. contact emergency officials by calling Public Safety or 911 to report the incident,
2. to remain with the individual(s) needing emergency treatment and cooperate with emergency officials, so long as it is safe to do so, and
3. meet with appropriate University officials after the incident and cooperate with any University investigation.

The University will consider the positive impact of taking responsible action in an emergency situation when determining the appropriate response for alleged policy violations that may have occurred prior to or contemporaneously with the emergency notification.

Additionally, students who report in good-faith a violation of another University policy will not generally be subject to sanctions through the Student Conduct Process related to conduct that is revealed in the course of making the report. For example, a student who reports sexual or relationship violence will not generally be subject to sanctions through the Student Conduct Process related to attendant violations related to drug or alcohol use.

Notwithstanding the above, a student may be held responsible for egregious policy violations or policy violations that create a health or safety risk. This could include conduct such as physical violence, hazing, vandalism, harassment, or in instances where multiple individuals require medical attention.

Additionally, this protocol does not preclude or prevent action by Public Safety, police, or other legal authorities.

Although no sanctions will be imposed through the Student Conduct Process, the incident will be documented and educational interventions may be required as a condition of deferring disciplinary actions or sanctions. Contact with a student’s emergency contact may be made at the time of the incident if medical transport of the reporting party is deemed appropriate.

**Preliminary Investigations**

When the University is made aware of a potential student violation of a policy in the Code of Student Responsibility or another University policy, it may be necessary to conduct an investigation prior to referring the incident to the Student Conduct Process. Such investigations are either conducted by or in collaboration with the Dean of Students Office. Some examples of other offices that may conduct investigations include the Office of Gender Equity, Public Safety, Residential Education, the Office of Student Involvement, Internal Audit, Academic Affairs, and Information Security.

Offices charged with conducting an investigation may gather information, conduct interviews, and solicit materials. Investigations will be conducted with all reasonable speed. At the conclusion of the investigation, an investigator will share the information gathered with the Dean of Students Office or other appropriate offices, and the Dean of Students Office will determine whether to begin the Student Conduct Process. To the extent necessary, an investigator will provide information that will become part of a Student Conduct Process or an investigator may participate in the Student Conduct Process as a witness.

A student may choose to have an advisor at any meeting related to an investigation that may give rise to a Student Conduct Process.

*For investigations involving the Sexual & Relationship Violence Prevention and Response (https://offices.depaul.edu/secretary/policies-procedures/policies/Documents/Sexual%20and%20Relationship%20Violence%20Prevention%20and%20Response.pdf) policy or the Formal Title IX Sexual Harassment Policy and Procedures (https://offices.depaul.edu/secretary/policies-procedures/policies/Documents/Formal%20Title%20IX%20Sexual%20Harassment.pdf), please refer to the specific information in those policies on the different procedures that may apply.
Standard for Hearing Determinations

All determinations as to whether a student is or is not in violation of a policy will be based on the standard of "whether it is more likely than not" that the student is in violation of the policy at issue.

A finding of "IN VIOLATION" means that, based on the information available at the time, it is more likely than not that the student is in violation of the policy at issue. A finding of "NOT IN VIOLATION" means that, based on the information available at the time, it is more likely than not that the student is not in violation of the policy at issue.

Overview of the Student Conduct Process

1. The Student Conduct Process begins when the University receives information that a student's conduct may be in violation of the policies in the Code of Student Responsibility or other University policies.

The University will review the information provided and make a decision that:

1. It is appropriate to initiate a Student Conduct Process.
2. More information or investigation is needed before making a determination whether to initiate a Student Conduct Process.
3. It is not appropriate to initiate a Student Conduct Process at this time.

If a Student Conduct Process is initiated (including after further investigation or information gathering), the Student Conduct Process will proceed as follows:

1. The University will promptly communicate with the relevant parties, including the complainant and the referred student, in order to explain the Student Conduct Process. See details in Initial Meetings (p. 1615).
2. Depending on the circumstances, the University may decide to impose interim sanctions. See details in Interim Sanctions (p. 1616).
3. Except as provided for in the Formal Title IX Sexual Harassment Policy and Procedures (https://offices.depaul.edu/secretary/policies-procedures/policies/Documents/Formal%20Title%20IX%20Sexual%20Harassment.pdf), the University will determine whether the Student Conduct Process will proceed with an administrative hearing or a University Board hearing. This determination will be discussed with the relevant parties during any initial meetings. Factors that contribute to the decision include but are not limited to the type of violation, severity of the incident, consideration for potential likely sanctions, the impact on the larger University community, and the role of the complainant.
4. The University will work with the individuals involved to determine each individual's level of participation in the Student Conduct Process and what role each individual will have in the Student Conduct Process. For example, whether the referred student will be participating in the Student Conduct Process; and whether the complaining individual will serve as a complainant, witness, or not participate at all.
5. The University will hold an administrative hearing or a University Board hearing. See details in Administrative Hearing Process (p. 1616) and University Board hearing process (p. 1617).

6. If a referred student is found "IN VIOLATION" of any policy, conduct sanctions will be assigned. See details in Information About Conduct Sanctions (p. 1618).
7. The complainant and the referred student will have the opportunity to appeal all determinations as to policy violations and sanctions. See details in Conduct Appeals Procedures (p. 1618).

All meetings and hearings that are part of the Student Conduct Process, including initial reviews, administrative hearings, and University board hearings, are scheduled at the earliest availability of the reporting individual, the referred student and the hearing officer or University Board panel. As appropriate, academic commitments will be considered in determining student availability. Other commitments may be considered at the discretion of the Dean of Students Office.

The availability of an advisor to attend any meeting or hearing related to the Student Conduct Process shall not unreasonably interfere with or delay the Student Conduct Process.

*For student conduct cases involving the Sexual & Relationship Violence Prevention and Response (https://offices.depaul.edu/secretary/policies-procedures/policies/Documents/Sexual%20&%20Relationship%20Violence%20Prevention%20Policy.pdf) or the Formal Title IX Sexual Harassment Policy and Procedures (https://offices.depaul.edu/secretary/policies-procedures/policies/Documents/Formal%20Title%20IX%20Sexual%20Harassment.pdf), please refer to the specific information in those policies on the different procedures that may apply.

Other University Processes Including Residential Education

In general, the Dean of Students Office is responsible for managing the Student Conduct Process. However, other University departments may initiate investigations, manage hearing processes, or impose sanctions in accordance with other University policies and procedures, and in consultation with the Dean of Students Office and Student Affairs when appropriate. Examples of other areas that may initiate investigations, manage hearing processes, or impose sanctions in accordance with other University policies and procedures include Internal Audit and the Office of Institutional Diversity and Equity.

Students should be particularly aware that Residential Education maintains a separate conduct system for violations of Residential Education policies and, as appropriate, violations of other policies that occur in DePaul housing. Students should consult Residence Education for information regarding those policies and procedures, including information on how to file a complaint with Residential Education.

Initial Meetings

This section explains the details of the initial meeting of the Student Conduct Process. For a complete overview of the Student Conduct Process go to Overview of the Student Conduct Process (p. 1615).

At the beginning of a Student Conduct Process, both the complainant and the referred student will promptly be offered:

- A detailed explanation of the Student Conduct Process, including student rights within that process, and an opportunity to answer any questions that the student might have about the Student Conduct Process.
Interim Sanctions

This section explains the details of interim sanctions in the Student Conduct Process. For a complete overview of the Student Conduct Process go to Overview of the Student Conduct Process (p. 1615).

In order to protect the health, safety, security, and well-being of the University community and its members, the University reserves the right to immediately impose interim sanctions at any point during a Student Conduct Process. These interim sanctions could include, for example, a suspension.

In general, the University will impose an interim sanction if it determines that there is:

1. An ongoing threat to an individual, including a complainant or referred student;
2. An ongoing threat to property; or
3. A risk of disruption of University business.

Except in cases implicating the Formal Title IX Sexual Harassment Policy and Procedures (https://offices.depaul.edu/secretary/policies-procedures/policies/Documents/Formal%20Title%20IX%20Sexual %20Harassment.pdf), interim sanctions may not be appealed.

In cases where interim sanctions are imposed, the University will take reasonable measures to ensure that a Student Conduct Process proceeds to a final determination as to whether or not there was a policy violation, and on any final sanctions, within ten business days of the imposition of any interim sanctions. However, the University reserves the right to extend this time limit, in its sole discretion, in order to ensure proper review of all relevant material.

During the time that an interim sanction is in place, a student must abide by the requirements of the interim sanction.

Administrative Hearing Process

This section explains the details of an administrative hearing in the Student Conduct Process. For a complete overview of the Student Conduct Process go to Overview of the Student Conduct Process (p. 1615) (p. 1615).

Except as provided for in the Formal Title IX Sexual Harassment Policy and Procedures (https://offices.depaul.edu/secretary/policies-procedures/policies/Documents/Formal%20Title%20IX%20Sexual %20Harassment.pdf), if the University determines that an administrative hearing is appropriate, the University will take reasonable measures to ensure that the first session of the administrative hearing takes place within five business days of the conclusion of the initial meetings. However, the University reserves the right to extend this time limit, in its sole discretion, in order to ensure a proper review of all relevant material.

A mutually convenient time for the administrative hearing will be decided upon. If necessary, and at the discretion of the administrative hearing officer, an administrative hearing may take place over the telephone and/or video conferencing. In an administrative hearing, a complainant does not attend a meeting with the referred student; however, any relevant information or questions will be relayed between the parties by the administrative hearing officer. The administrative hearing officer will hold as many meetings as necessary.

An administrative hearing will proceed as follows:

1. The administrative hearing officer will confirm that the referred student understands the student’s rights.
2. The administrative hearing officer will review all relevant information that has been provided by the complainant, as a result of investigation, etc.
3. The administrative hearing officer and referred student will discuss the alleged violation.
4. The referred student will have an opportunity to give a statement about the alleged violation.
5. The referred student will have the opportunity to provide witness information and, to the extent necessary, to question witnesses’ statements, whether verbally or in writing.
6. After the administrative hearing officer has examined all of the information, the administrative hearing officer will determine that the student is or is not in violation of the policy at issue.
7. If the administrative hearing officer finds the student in violation, the administrative hearing officer will determine the appropriate sanctions. The University will take reasonable measures to notify the complainant and referred student of the outcome and sanctions in writing within five business days of the last session of an administrative hearing. However, the University reserves the right to extend this time limit, in its sole discretion, in order to ensure a proper review of all relevant material.
8. The administrative hearing officer will inform the complainant and the referred student of their appeal options.

*For student conduct cases involving the Sexual & Relationship Violence Prevention and Response (https://offices.depaul.edu/secretary/policies-procedures/policies/Documents/ Sexual%20Violence%20Prevention%20and%20Response.pdf) policy or the Formal Title IX Sexual Harassment Policy and Procedures (https://offices.depaul.edu/secretary/policies-procedures/policies/Documents/Formal%20Title%20IX%20Sexual%20Harassment.pdf), please refer to the specific information in those policies on the different procedures that may apply.

**University Board Hearing Process**

This section explains the details of a University Board hearing in the Student Conduct Process. For a complete overview of the Student Conduct Process go to Overview of the Student Conduct Process (p. 1615).
